STEELCASE INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions in Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the condensed consolidated financial statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024 ("Form 10-K"). The Condensed Consolidated Balance Sheet as of February 23, 2024 was derived from the audited Consolidated Balance Sheet included in our Form 10-K.

As used in this Quarterly Report on Form 10-Q ("Report"), unless otherwise expressly stated or the context otherwise requires, all references to "Steelcase," "we," "our," "Company" and similar references are to Steelcase Inc. and its subsidiaries in which a controlling interest is maintained. Unless the context otherwise indicates, reference to a year relates to the fiscal year, ended in February of the year indicated, rather than a calendar year. Additionally, Q1, Q2, Q3 and Q4 reference the first, second, third and fourth quarter, respectively, of the fiscal year indicated. All amounts are in millions, except share and per share data, data presented as a percentage or as otherwise indicated.

2. NEW ACCOUNTING STANDARDS

We evaluate all Accounting Standards Updates ("ASUs") issued by the Financial Accounting Standards Board ("FASB") for consideration of their applicability to our consolidated financial statements. We have assessed all ASUs issued but not yet adopted and concluded that those not disclosed are either not applicable to us or are not expected to have a material effect on our consolidated financial statements.

Adoption of New Accounting Standards

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures*, which is intended to improve disclosures related to significant segment expenses and the information used by the chief operating decision maker ("CODM") to assess segment performance and to allocate resources. We adopted this guidance on a retrospective basis and will modify our annual disclosures beginning in Q4 2025 and interim disclosures thereafter. The adoption of this guidance is not expected to have a material effect on our consolidated financial statements.

Accounting Standards Issued But Not Yet Adopted

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740) - Improvements to Income Tax Disclosures*, which is intended to improve income tax disclosures, specifically related to additional detail required in the effective tax rate reconciliation and the disaggregation of income taxes paid. The guidance is effective for fiscal years beginning after December 15, 2024. We expect the adoption of this guidance will modify our disclosures, but we do not expect it to have a material effect on our consolidated financial statements.

4. EARNINGS PER SHARE

Earnings per share is computed using the two-class method. The two-class method determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Participating securities represent restricted stock units in which the participants have non-forfeitable rights to dividend equivalents during the performance period. Diluted earnings per share includes the effects of certain performance units in which the participants have forfeitable rights to dividend equivalents during the performance period.

6. FAIR VALUE

The carrying amounts for many of our financial instruments, including cash and cash equivalents, accounts and notes receivable, accounts payable and certain other liabilities, approximate their fair value due to their relatively short maturities. Our short-term investments, foreign exchange forward contracts, long-term investments and contingent consideration are measured at fair value on the Condensed Consolidated Balance Sheets.

Our total debt is carried at cost and was \$446.5 \$446.7 and \$446.3 as of May 24, 2024 August 23, 2024 and February 23, 2024, respectively. The fair value of our total debt is measured using a discounted cash flow analysis based on current market interest rates for similar types of instruments and was \$419.5 \$434.4 and \$423.0 as of May 24, 2024 August 23, 2024 and February 23, 2024, respectively. The estimation of the fair value of our total debt is based on Level 2 fair value measurements.

In Starting in Q1 2025, we invested \$35.7 in a managed investment portfolio which consists of corporate debt securities, asset-backed securities and U.S. government debt securities. These investments are considered available-for-sale and are classified as *Short-term investments* on the Condensed Consolidated Balance Sheets. As of August 23, 2024, the fair value of our *Short-term investments* was \$39.2. Our investment manager operates under a mandate to keep the average duration of investments under two years. Fair values for these investments are based upon valuations for identical or similar instruments in active markets, with the resulting net unrealized holding gains or losses reflected net of tax as a component of *Accumulated other comprehensive income (loss)* on the Condensed Consolidated Balance Sheets. The cost basis for these investments, determined using the specific identification method, was \$35.7 \$38.6 and unrealized gains were \$0.6 as of May 24, 2024 August 23, 2024. Of our total short-term investments, \$6.5 \$8.5 mature within one year and \$29.2 \$30.7 mature after one year through five years.

We may use derivative financial instruments to manage exposures to movements in foreign exchange rates and interest rates. The use of these financial instruments modifies the exposure of these risks with the intention to reduce our risk of volatility. We do not use derivatives for speculative or trading purposes.

In connection with the acquisition of Viccarbe Habitat, S.L in Q3 2022, up to an additional \$14.1 (or €13.0) is payable to the sellers based upon the achievement of certain revenue and operating income targets over a three-year period ending Q4 2025. This amount was considered to be contingent consideration and was treated for accounting purposes as part of the total purchase price of the acquisition. We used the Monte Carlo simulation model to calculate the fair value of the contingent consideration as of the acquisition date, which represents a Level 3 measurement. At each subsequent reporting date, changes in the fair value of the liability are recorded to *Operating expenses* until the liability is settled. As of May 24, 2024 August 23, 2024, the fair value of the contingent consideration was \$0.0 based upon current projections for the Viccarbe business over the earnout period. The settlement of the contingent consideration could vary from this estimate based upon actual operating performance of the business during the earnout period compared to the underlying assumptions used in the estimation of fair value, including revenue and operating income projections, and changes to discount rates.

8. SHARE-BASED COMPENSATION

Performance Units

In Q1 2025, we issued 465,300 performance units ("PSUs") to certain employees which are earned over the period of 2025 through 2027 (the "2025 PSUs"). These PSUs are earned based on performance conditions and a market condition which were established by the Compensation Committee in Q1 2025, and thus the 2025 PSUs were considered granted in Q1 2025.

In Q1 2024 and Q1 2023, we issued PSUs to certain employees which are earned over a three-year performance period based on performance conditions established annually by the Compensation Committee within the first three months of the applicable fiscal year, as follows:

- 767,600 PSUs to be earned over the period of 2024 through 2026 (the "2024 PSUs") and
- 428,700 PSUs to be earned over the period of 2023 through 2025 (the "2023 PSUs").

The number of PSUs earned under the 2024 PSUs and the 2023 PSUs are modified based on achievement of certain total shareholder return results relative to a comparison group of companies, which is a market condition. When the performance conditions for a fiscal year are established for these PSUs, one-third of the PSUs issued are considered granted. Therefore, each of the three fiscal years within the performance period is considered an individual tranche of the award (referred to as "Tranche 1," "Tranche 2" and "Tranche 3," respectively). As of **May 24, 2024** **August 23, 2024**, the 2024 PSUs and 2023 PSUs were considered granted as follows:

- In Q1 2025, the performance conditions were established for Tranche 2 of the 2024 PSUs and Tranche 3 of the 2023 PSUs, and accordingly, such tranches were considered granted in Q1 2025.
- In Q1 2024, the performance conditions were established for Tranche 1 of the 2024 PSUs and Tranche 2 of the 2023 PSUs, and accordingly, such tranches were considered granted in Q1 2024.

- In Q1 2023, the performance conditions were established for Tranche 1 of the 2023 PSUs, and accordingly, such tranche was considered granted in Q1 2023.

Once granted, the PSUs are expensed and recorded in *Additional paid-in capital* on the Condensed Consolidated Balance Sheets over the remaining performance period. The expense for PSUs is determined based on the probability that the performance conditions will be met, and if applicable, the fair value of the market condition on the grant date. For participants who are or become retirement-eligible during the performance period, the PSUs are expensed over the period ending on the date the participant becomes retirement-eligible. The awards will be forfeited if a participant leaves the company for reasons other than retirement, disability or death or if the participant engages in any competition with us, as defined in the Steelcase Inc. Incentive Compensation Plan ("Incentive Compensation Plan").

We used the Monte Carlo simulation model to calculate the fair value of the market conditions on the respective grant dates, which resulted in a total fair value of \$6.7, \$3.2 and \$1.7 for the PSUs with market conditions granted in 2025, 2024 and 2023, respectively, that remained outstanding as of **May 24, 2024** **August 23, 2024**.

The Monte Carlo simulation was computed using the following assumptions:

	2025 PSUs	2024 PSUs		2023 PSUs		
		Tranche 2	Tranche 1	Tranche 3	Tranche 2	Tranche 1
Risk-free interest rate (1)	7.7 %	4.9 %	3.7 %	5.2 %	4.0 %	2.6 %

Estimated volatility (2)	38.5 %	42.4 %	44.1 %	38.9 %	37.8 %	52.2 %

(1) Based on the U.S. Government bond benchmark on the grant date.

(2) Represents the historical price volatility of our Class A Common Stock for the period prior to the grant date which is equivalent to the expected term of the tranche or award.

The total PSU expense and associated tax benefit recorded during the three and six months ended **May 24, 2024** **August 23, 2024** and **May 26, 2023** **August 25, 2023** are as follows:

After completion of the performance period, the number of PSUs earned will be issued as shares of Class A Common Stock. A dividend equivalent is calculated based on the actual number of PSUs earned at the end of the performance period equal to the dividends that would have been payable on the earned PSUs had they been held during the entire performance period as Class A Common Stock. At the end of the performance period, the dividend equivalents are paid in the form of cash.

The PSU activity for the **three six** months ended **May 24, 2024** **August 23, 2024** is as follows:

Restricted Stock Units

During the ~~three~~ six months ended May 24, 2024 August 23, 2024, we awarded 1,018,610 1,023,304 restricted stock units ("RSUs") to certain employees. RSUs have restrictions on transfer which lapse up to three years after the date of grant, at which time the RSUs are issued as unrestricted shares of Class A Common Stock. RSUs are expensed and recorded in *Additional paid-in capital* on the Condensed Consolidated Balance Sheets over the requisite service period based on the value of the shares on the grant date. For participants who are or become retirement-eligible during the service period, the RSUs are expensed over the period ending on the date that the participant becomes retirement-eligible. Typically, these awards will be forfeited if a participant leaves the company for reasons other than retirement, disability or death or if the participant engages in any competition with us, as defined in the Incentive Compensation Plan.

9. LEASES

We have operating leases for corporate offices, sales offices, showrooms, manufacturing and distribution facilities, vehicles and equipment that expire at various dates through 2035. Certain lease agreements include contingent rental payments based on per unit usage over contractual levels (e.g., miles driven or machine hours operated) and others include rental payments adjusted periodically for inflationary indexes. Additionally, some leases include options to renew or terminate the leases which can be exercised at our discretion.

The components of lease expense during the three and six months ended **May 24, 2024** **August 23, 2024** and **May 26, 2023** **August 25, 2023** are as follows:

10. REPORTABLE SEGMENTS

The operating segments regularly reviewed by our Chief Executive Officer in the capacity as CODM are (1) the Americas, (2) Europe, the Middle East and Africa ("EMEA") and (3) Asia Pacific. Asia Pacific serves customers in Australia, China, India, Japan, Korea and other countries in Southeast Asia. We primarily review and evaluate revenue, gross profit and operating income (loss) by these segments in our internal review processes and reporting. We also allocate resources among these segments primarily based on revenue, gross profit and operating income (loss). Total assets by segment include manufacturing and other assets associated with each segment.

For purposes of segment reporting externally, we aggregate the EMEA and Asia Pacific operating segments as an International segment based upon their similarity in quantitative and qualitative characteristics as defined in the Accounting Standards Codification ("ASC") 280, *Segment Reporting*. We evaluate the economic similarity of these operating segments including patterns and trends for revenue, gross profit and operating income (loss) in addition to the similarity in the nature of products and services, types of customers, and production and distribution processes in these regions. We conclude that these operating segments meet the criteria for aggregation consistent with the basic principles and objectives of segment reporting described in ASC 280.

The Americas segment serves customers in the U.S., Canada, the Caribbean Islands and Latin America with a comprehensive portfolio of furniture, architectural, textile and surface imaging products that are marketed to corporate, government, healthcare, education and retail customers primarily through the Steelcase, AMQ, Coalesse, Designtex, HALCON, Orangebox, Smith System and Viccarbe brands.

The International segment serves customers in EMEA and Asia Pacific with a comprehensive portfolio of furniture and architectural products that are marketed to corporate, government, healthcare, education and retail customers primarily through the Steelcase, Coalesse, Orangebox, Smith System and Viccarbe brands.

11. RESTRUCTURING ACTIVITIES

In Q1 2025, we initiated restructuring actions to close a regional distribution center in EMEA. These actions involve the involuntary terminations of approximately 20 positions. We expect to incur restructuring costs of approximately \$3 in the International segment related to these actions, consisting of cash severance payments and other separation-related benefits. We incurred restructuring costs of \$2.7 for these actions in Q1 2025. We expect these actions to be substantially completed by the end of 2025.

In Q1 2025, we initiated a series of restructuring actions to realign our operations organization to optimize efficiency in the Americas segment. These actions involve the voluntary and involuntary terminations of approximately 100 positions. We expect to incur restructuring costs of approximately \$3 related to these actions, consisting of cash severance payments and other separation-related benefits. We incurred \$0.3 and \$2.6 of restructuring costs for these actions in Q2 2025 and Q1 2025, respectively. We expect these actions to be substantially completed by the end of 2025.

In Q4 2024, we initiated restructuring actions to move a regional distribution center in the Americas segment. These actions involved the involuntary terminations of approximately 50 to 55 positions and the relocation of approximately 15 positions. We expect to incur total restructuring costs of approximately \$3 related to these actions consisting of cash severance payments, other separation-related benefits, and other related costs. We incurred \$1.2 and \$1.7 of restructuring costs for these actions in Q2 2025 and Q1 2025, respectively. We previously incurred restructuring costs of \$0.7 for these actions during 2024. These actions are substantially complete.

In Q4 2024, we initiated a series of restructuring actions to enhance our long-term operational effectiveness in Asia Pacific. These actions involve the involuntary terminations of approximately 100 positions in Asia Pacific. We expect to incur total restructuring costs of approximately \$4 in the International segment related to these actions, consisting of cash severance payments, other separation-related benefits, and other related costs. We incurred \$0.5 and \$0.2 of restructuring costs for these actions in Q2 2025 and Q1 2025, respectively. We previously recorded \$2.5 related to employee termination costs and \$0.4 related to the impairment of a right-of-use operating lease asset for these actions during 2024. We expect these actions to be substantially completed by the end of 2025.

In Q3 2024, we initiated a series of restructuring actions to reallocate production of our product portfolio across our industrial footprint to take advantage of manufacturing centers of excellence. These actions involve the involuntary terminations of approximately 15 positions in the Americas segment. We expect to incur total restructuring costs of approximately \$2 to \$3 related to these actions consisting of cash severance payments, other separation-related benefits, and other related costs. We incurred restructuring costs of \$0.1 and \$0.1 for these actions in Q2 2025 and Q1 2025, respectively. We previously incurred restructuring costs of \$1.1 for these actions during 2024. These actions are substantially complete.

In Q1 2024, we announced a series of restructuring actions in response to continued decline in order volume, persisting inflationary pressures, and decreasing plant utilization. These actions involved the involuntary terminations of approximately 40 to 50 salaried roles in EMEA, the elimination of approximately 240 positions in Asia Pacific, and the involuntary terminations of approximately 30 employees in the Americas in connection with the closing of our regional distribution center in Atlanta, Georgia. We expect to incur total restructuring costs of approximately \$16 to \$18 in the International segment and approximately \$1 in the Americas segment related to these actions, consisting of cash severance payments and other separation-related benefits. We recorded a benefit

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations:

This management's discussion and analysis of financial condition and results of operations ("MD&A") should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended February 23, 2024. Reference to a year relates to the fiscal year, ended in February of the year indicated, rather than the calendar year, unless indicated by a specific date. Additionally, Q1, Q2, Q3 and Q4 reference the first, second, third and fourth quarter, respectively, of the fiscal year indicated. All amounts are in millions, except share and per share data, data presented as a percentage or as otherwise indicated.

This item contains certain non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the condensed consolidated statements of income, balance sheets or statements of cash flows of the company. The non-GAAP financial measures used are (1) organic revenue growth (decline), (2) adjusted operating income (loss) and (3) adjusted earnings per share. Pursuant to the requirements of Regulation G, we have provided a reconciliation of each of the non-GAAP financial measures to the most directly comparable GAAP financial measure in the tables below. These measures are supplemental to, and should be used in conjunction with, the most comparable GAAP measures. Management uses these non-GAAP financial measures to monitor and evaluate financial results and trends. See *Non-GAAP Financial Measures* for a description of these measures and why management believes they are also useful to investors.

Overview

In Q1 Q2 2025, our earnings improved year over year, despite a decline in revenue, driven operating income increased by pricing benefits. We began Q1 2025 with an order backlog which was 8% lower than \$49.0 compared to the prior year, driven by a gain of \$27.9 on the effects sale of which were partially offset by 8% year-over-year order growth land (net of related variable compensation expense), gross margin improvement, and strong results in our education business. Gross profit as a percentage of revenue improved due to favorable business mix, benefits from operational performance and cost reduction initiatives, including savings from our previously announced restructuring actions. We also continued to invest in our business transformation initiative and planned implementation of our new enterprise resource planning ("ERP") system. Orders (adjusted for the impact of a divestiture and currency translation effects) during declined by 1% in the quarter. Pricing benefits improved gross profit as a percentage of revenue, and operating expenses decreased second quarter compared to the prior year, as we realized the savings from the restructuring actions we implemented with 3% growth in the prior year. These savings were partially offset by costs associated with continued investment Americas and an 11% decline in our business transformation initiative and implementation of our new enterprise resource planning ("ERP") system. During Q1 International.

Q2 2025 we initiated additional restructuring actions focused on optimizing our global operations. Compared to Q2 2024

Non-GAAP Financial Measures

The non-GAAP financial measures used in this MD&A are: (1) organic revenue growth (decline), (2) adjusted operating income (loss) and (3) adjusted earnings per share.

Organic Revenue Growth (Decline)

We define organic revenue growth (decline) as revenue growth (decline) excluding the impact of acquisitions and divestitures and foreign currency translation effects. Organic revenue growth (decline) is calculated by adjusting prior year revenue to include revenues of acquired companies prior to the date of the company's acquisition, to exclude revenues of divested companies and to use current year average exchange rates in the calculation of foreign-denominated revenue. We believe organic revenue growth (decline) is a meaningful metric to investors as it provides a more consistent comparison of our revenue to prior periods as well as to industry peers.

Adjusted Operating Income (Loss) and Adjusted Earnings Per Share

We define adjusted operating income (loss) as operating income (loss) excluding amortization of purchased intangible assets, ~~restructuring costs (benefits)~~ and ~~restructuring costs, gains (losses)~~ on the sale of land, net of variable compensation impacts. We define adjusted earnings per share as earnings per share, on a diluted basis, excluding amortization of purchased intangible assets, ~~and restructuring costs (benefits) and gains (losses)~~ on the sale of land, net of variable compensation impacts, and ~~the related income tax effects~~ effects of these items.

- *Amortization of purchased intangible assets:* We may record intangible assets (such as backlog, dealer relationships, trademarks, know-how and designs and proprietary technology) when we acquire companies. We allocate the fair value of purchase consideration to net tangible and intangible assets acquired based on their estimated fair values. The fair value estimates for these intangible assets require management to make significant estimates and assumptions, which include the useful lives of intangible

assets. We believe that adjusting for amortization of purchased intangible assets provides a more consistent comparison of our operating performance to prior periods as well as to industry peers.

- **Restructuring costs: costs (benefits):** Restructuring costs (benefits) may be recorded as our business strategies change or in response to changing market trends and economic conditions. We believe that adjusting for restructuring costs (benefits), which are primarily associated with business exit and workforce reduction costs, provides a more consistent comparison of our operating performance to prior periods as well as to industry peers.
- **Gains (losses) on the sale of land, net of variable compensation impacts:** We may sell land when conditions are favorable. Gains and losses on the sale of land may increase or decrease, respectively, our variable compensation expense. We believe adjusting for these items provides a more consistent comparison of our operating performance to prior periods as well as to industry peers. In Q2 2025, we began adjusting for these items, as we realized a significant gain on the sale of land during the quarter which had a significant impact on our variable compensation expense, and we have adjusted the prior periods presented for consistency and comparability.

Liquidity and Capital Resources

Cash and cash equivalents and short-term investments are available to fund day-to-day operations, including seasonal disbursements, particularly the annual payment of accrued variable compensation and retirement plan contributions in Q1 of each fiscal year. During normal business conditions, we target a range of \$75 to \$175 in cash and cash equivalents and short-term investments to fund operating requirements. In addition, we may carry additional liquidity for potential investments in strategic initiatives and as a cushion against economic volatility, and from time to time, we may allow our cash and cash equivalents and short-term investments to temporarily fall below our targeted range to fund acquisitions, other growth initiatives and material committed cash requirements.

As of **May 24, 2024** **August 23, 2024**, we held a total of **\$208.9** **\$335.8** in cash and cash equivalents and short-term investments. Of our total **\$173.2** **296.6** in cash and cash equivalents, **73%** **81%** was located in the U.S., and **27%** **19%** was located outside of the U.S., primarily in **Mexico**, **China** (including Hong Kong), **India** and **Malaysia**. Our short-term investments are maintained in a managed investment portfolio in the U.S. and primarily consist of corporate debt securities, asset-backed securities and U.S. government debt securities.

COLI investments are recorded at their net cash surrender value. Our investments in COLI policies are intended to be utilized as a funding source for long-term benefit obligations. However, COLI can also be used as a source of liquidity. We believe the financial strength of the issuing insurance companies associated with our COLI policies is sufficient to meet their obligations.

Availability under credit facilities may be reduced related to compliance with applicable covenants. See *Liquidity Facilities* for more information.

In year-to-date 2025, we used cash to fund working capital requirements, and in year-to-date 2024, we generated cash from working capital primarily due to decreased levels of inventory related to supply chain improvements and improvements in the number of days sales outstanding in accounts receivable. In year-to-date 2025, we used \$22.6 of cash for cloud computing arrangement expenditures primarily related to the implementation costs of our new ERP system. Annual payments related to accrued variable compensation and retirement plan contributions totaled \$122.4 in Q1 year-to-date 2025 compared to \$77.3 in the prior year. In Q1 The timing of payments for certain other current liabilities in year-to-date 2025 we used \$10.9 of cash for cloud computing arrangement expenditures related to the implementation costs of our new ERP system. In Q1 2024, we generated more increased cash from working capital operations compared to Q1 2025 due to decreased levels of inventory related to supply chain improvements and lower days sales outstanding of accounts receivable, year-to-date 2024.

2024			
Dividends declared and paid per common share	\$ 0.100	\$ 0.100	\$ 0.200

In Q1 year-to-date 2025, we repurchased 2,201,146 2,401,082 shares of Class A common stock of which 701,146 701,620 shares were repurchased to satisfy participants' tax withholding obligations upon the issuance of shares under equity awards, pursuant to the terms in the Steelcase Inc. Incentive Compensation Plan ("Incentive Compensation Plan"). In Q1 year-to-date 2024, we repurchased 429,624 429,990 shares of Class A common stock, all of which were repurchased to satisfy participants' tax withholding obligations upon the issuance of shares under equity awards, pursuant to the terms of our Incentive Compensation Plan.

As of May 24, 2024 August 23, 2024, we had \$87.7 \$85.1 of remaining availability under the share repurchase program approved by our Board of Directors in 2024.

Liquidity Facilities

The following table summarizes available capacity under our liquidity facilities as of May 24, 2024 August 23, 2024:

Liquidity Facilities	May 24, August 23, 2024
Global committed bank facility	\$ 300.0
Various uncommitted facilities	23.8 24.2
Total credit lines available	323.8 324.2
Less: Borrowings outstanding	—
Available capacity	\$ 323.8 324.2

We have a \$300.0 global committed bank facility in effect through 2029. As of May 24, 2024 August 23, 2024, there were no borrowings outstanding, and we were in compliance with all covenants under the facility.

We have unsecured uncommitted short-term credit facilities available for working capital purposes with various financial institutions with a total U.S. dollar borrowing capacity of up to \$4.0 and a total foreign currency borrowing capacity of up to \$19.8 \$20.2 as of May 24, 2024 August 23, 2024. These credit facilities have no stated expiration date but may be changed or canceled by the banks at any time. As of May 24, 2024 August 23, 2024, there were no borrowings outstanding under these facilities.

Total long-term debt as of May 24, 2024 August 23, 2024 was \$446.5 \$446.7 which consists of term notes due in 2029 with an effective interest rate of 5.6%. The term notes are unsecured, contain no financial covenants and are not cross-defaulted to our other debt facilities.

Liquidity Outlook

Our material cash requirements are subject to fluctuation based on business requirements, economic volatility or investments in strategic initiatives. Our liquidity position, funds available under our credit facilities and cash generated from future operations are expected to be sufficient to finance our known or foreseeable liquidity needs, including our material cash requirements. As of May 24, 2024 August 23, 2024, our total liquidity, which is comprised of cash and cash equivalents, short-term investments and the cash surrender value of COLI, aggregated to \$377.8 507.1.

As of Q1 Q2 2025, there were no significant changes in the items that we identified as our material committed cash requirements in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024.

We also have other planned material usages of cash which we consider discretionary. This includes plans for capital expenditures which are expected to total approximately \$40 to \$50 in 2025. We also expect to incur approximately \$35 in 2025 of capitalizable costs for cloud computing arrangements related to the implementation of our new ERP system. In addition, we fund dividend payments declared by our Board of Directors. On June 19, 2024 September 18, 2024, our Board of Directors declared we announced a quarterly dividend on our common stock of \$0.10 per share, or approximately \$11, to be paid in Q2 Q3 2025.

Critical Accounting Estimates

During Q1 Q2 2025, there were no changes in the items that we identified as critical accounting estimates in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024.

Recently Issued Accounting Standards

See Note 2 to the condensed consolidated financial statements.

Forward-looking Statements

From time to time, in written and oral statements, we discuss our expectations regarding future events and our plans and objectives for future operations. These forward-looking statements discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to us, based on current beliefs of management as well as assumptions made by, and information currently available to, us. Forward-looking statements generally are accompanied by words such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "intend," "may," "possible," "potential," "predict," "project," "target" or other similar words, phrases or expressions. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements and vary from our expectations because of factors such as, but not limited to, competitive and general economic conditions domestically and internationally; acts of terrorism, war, governmental action, natural disasters, pandemics and other Force Majeure events; cyberattacks; changes in the legal and regulatory environment; changes in raw material, commodity and other input costs; currency fluctuations; changes in customer demand; and the other risks and contingencies detailed in this Report, our most recent Annual Report on Form 10-K and our other filings with the Securities and Exchange Commission. We undertake no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk:

The nature of the market risks (i.e., the risk of loss arising from adverse changes in market rates and prices) we faced as of May 24, 2024 August 23, 2024 had not materially changed from what we disclosed in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024. We are exposed to market risks from foreign currency exchange, interest rates, commodity prices and fixed income and equity prices, which could affect our operating results, financial position and cash flows.

Foreign Exchange Risk

During Q1 Q2 2025, no material change in foreign exchange risk occurred.

Interest Rate Risk

During Q1 Q2 2025, no material change in interest rate risk occurred.

Commodity Price Risk

During Q1 Q2 2025, no material change in commodity price risk occurred.

Fixed Income and Equity Price Risk

During Q1 Q2 2025, no material change in fixed income and equity price risk occurred.

Item 4. Controls and Procedures:

(a) *Disclosure Controls and Procedures.* Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of May 24, 2024 August 23, 2024. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of May 24, 2024 August 23, 2024, our disclosure controls and procedures were effective in (1) recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and (2) ensuring that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Internal Control Over Financial Reporting.* There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our first second fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors:

For a more detailed explanation of the risks affecting our business, please refer to the Risk Factors section in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024. There have not been any material changes to the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended February 23, 2024.
