These unaudited interim condensed consolidated financial statements are stated in U.S. dollars, except where otherwise indicated. Intercompany transactions and balances have been eliminated for consolidation purposes.Substantially all net revenues and financial income, cost of net revenues and financial expenses and operating expenses, are generated in the Companyâ€™s foreign operations. Long-lived assets, intangible assets and goodwill and operating lease right-of-use assets located in the foreign jurisdictions totaled $2,148 million and $2,321 million as of JuneÂ 30, 2024 and DecemberÂ 31, 2023, respectively.These unaudited interim condensed consolidated financial statements reflect the Companyâ€™s consolidated financial position as of JuneÂ 30, 2024 and DecemberÂ 31, 2023. These unaudited interim condensed consolidated financial statements include the Companyâ€™s consolidated statements of income, comprehensive income and equity for the six and three-month periods ended JuneÂ 30, 2024 and 2023 and statements of cash flows for the six-month periods ended JuneÂ 30, 2024 and 2023. These unaudited interim condensed consolidated financial statements include all normal recurring adjustments that Management believes are necessary to fairly state the Companyâ€™s financial position, operating results and cash flows. Because all of the disclosures required by U.S. GAAP for annual consolidated financial statements are not included herein, these unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto for the year ended DecemberÂ 31, 2023, contained in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (â€œSECâ€) (the â€œCompanyâ€™s 2023 10-Kâ€). The Company has evaluated all subsequent events through the date these unaudited interim condensed consolidated financial statements were issued. The interim condensed consolidated statements of income, comprehensive income, equity and cash flows for the periods presented herein are not necessarily indicative of results expected for any future period. For a more detailed discussion of the Companyâ€™s significant accounting policies, see Note 2 to the financial statements in the Companyâ€™s 2023 10-K. During the six-month period ended JuneÂ 30, 2024, there were no material updates made to the Companyâ€™s significant accounting policies. For information regarding the change in the presentation of the statements of income, please refer to section â€œChange in the presentation of certain financial results and reclassification of prior year resultsâ€ of NoteÂ 2Â â€“ Summary of significant accounting policies of these unaudited interim condensed consolidated financial statements.Change in the presentation of certain financial results and reclassification of prior year resultsChange in the presentation of certain financial results Mercado Pago Fintech platform operations have significantly evolved during the last several years, not only because of the increase in the volume of transactions but also as a result of transitioning from being a non-regulated business to a regulated business, subject to the oversight of central banks and other regulators in the various countries in which the Company operates (refer to NoteÂ 3Â â€“ Fintech Regulations to the consolidated financial statements in the Companyâ€™s 2023 10-K for further details).7 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsMany of the regulations to which the Company is subject require the Company, among other things, to maintain liquidity reserves to guarantee the funds on usersâ€™ account balances in their Mercado Pago digital accounts. Depending on the country, these reserves can be partially or totally invested. During the last several years, these new regulations, coupled with the increase in the volume of transactions, have led the Company to view interest income and other financial gains from investments of these liquidity reserves as part of the Companyâ€™s operations.Furthermore, the evolution of Mercado Pagoâ€™s activities themselves has resulted in the Company managing a significant volume of cash, cash equivalents and investments. This is due to an increase in usersâ€™ account balances in their Mercado Pago digital account managed by the Company, and an increase in the level of the Companyâ€™s indebtedness to finance those operations. As a result, these Mercado Pagoâ€™s funds, together with the financing activities, have generated a significant volume of interest income and other financial gains and interest expenses and other financial losses, respectively.The Company believes that these regulatory trends and related activities will continue and, therefore, with the goal of creating a better measure of the performance of the Company, the Company decided to reclassify and present certain financial results from â€œOther income (expenses)â€ to â€œNet services revenues and financial incomeâ€ and â€œCost of net revenues and financial expenses,â€ in the statement of income, starting January 1, 2024 and for all prior periods presented. The reclassified financial results are related to activities that are needed or mandatory for Mercado Pagoâ€™s operations, and consist of:â– interest income derived from investments and cash and cash equivalents, generated as part of the treasury strategy of the fintech business and because of the different regulations that require liquidity reserves, net of sales taxes;â– interest expense and other financing costs generated by the different sources of funding of the fintech activities; and â– gains and losses of derivatives hedging risks related to Mercado Pagoâ€™s activities.Reclassification of prior year resultsAccording to the Accounting Standards Codification (â€œASCâ€) 205, Presentation of Financial Statements, the Company should present in a consistent manner all periods presented within the accompanying unaudited interim condensed consolidated financial statements. Therefore, prior period balances have been reclassified for consistency with the current presentation. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Companyâ€™s 2023 10-K.This reclassification did not have an impact on previously reported net income, earnings per share, retained earnings or other components of equity or total equity.8 | MercadoLibre, Inc.Table of Accordingly, the foreign

subsidiaries with local currency as functional currency translate assets and liabilities from their local currencies into U.S. dollars by using period-end exchange rates while income and expense accounts are translated at the average monthly rates in effect during the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of the transaction are used. The resulting translation adjustment is recorded as a component of other comprehensive income (loss). Gains and losses resulting from transactions denominated in non-functional currencies are recognized in earnings. Net foreign currency transaction results are included in the interim condensed consolidated statements of income under the caption â€œForeign currency losses, netâ€.Argentine currency status and macroeconomic outlookAs of July 1, 2018, the Company transitioned its Argentine operations to highly inflationary status in accordance with U.S. GAAP, and changed the functional currency for Argentine subsidiaries from Argentine Pesos to U.S. dollars, which is the functional currency of their immediate parent company. Argentinaâ€™s inflation rate for the six and three-month periods ended JuneÂ 30, 2024 and 2023 was 79.8% and 18.6%, and 50.7% and 23.8%, respectively. Additionally, Argentinaâ€™s average inter-annual inflation rate for the six and three-month periods ended June 30, 2024 was 275.9% and 279.1%, respectively. The Company uses Argentinaâ€™s official exchange rate to account for transactions in the Argentine segment, which as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 was 912.00 and 808.45 Argentine Pesos, respectively, against the U.S. dollar. For the six-month periods ended JuneÂ 30, 2024 and 2023, Argentinaâ€™s official exchange rate against the U.S. dollar increased 12.8% and 44.9%, respectively. The average exchange rate for the six-month periods ended JuneÂ 30, 2024 and 2023 was 860.3 and 212.3, respectively, resulting in an increase of 305.2%.The following table sets forth the assets, liabilities and net assets of the Companyâ€™s Argentine subsidiaries and consolidated VIEs, before intercompany eliminations, as of JuneÂ 30, 2024 and DecemberÂ 31, 2023:June 30,2024December 31,2023(In millions)Assets$3,642Â $3,298Â Liabilities2,899Â 1,878Â Net assets$743Â $1,420Â 13 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsThe following table provides information relating to net revenues and financial income and direct contribution (see NoteÂ 9Â â€” Segments of these unaudited interim condensed consolidated financial statements for definition of direct contribution) for the six and three-month periods ended JuneÂ 30, 2024 and 2023 of the Companyâ€™s Argentine subsidiaries and consolidated VIEs:Six Months Ended June 30,Â Â Â Â Â Â Â Â Three Months Ended June 30,2024202320242023(In millions)(In millions)Net revenues and financial income$1,478Â $1,642Â $863Â $855Â Direct contribution 605Â 775Â 381Â 407Â Argentine exchange regulationsSince the second half of 2019, the Argentine government instituted exchange controls restricting the ability of companies and individuals to exchange Argentine Pesos for foreign currencies and their ability to remit foreign currency out of Argentina. An entityâ€™s authorization request to the Central Bank of Argentina (â€œCBAâ€) to access the official exchange market to make foreign currency payments may be denied depending on the circumstances. As a result of these exchange controls, markets in Argentina developed trading mechanisms, in which an entity or individual buys U.S. dollar denominated securities in Argentina (i.e. shares, sovereign debt) using Argentine Pesos, and subsequently sells the securities for U.S. dollars, in Argentina, to access U.S. dollars locally, or outside Argentina, by transferring the securities abroad, prior to being sold (the latter commonly known as â€œBlue Chip Swap Rateâ€). The Blue Chip Swap Rate has diverged significantly from Argentinaâ€™s official exchange rate (commonly known as the exchange spread). In recent years, the Blue Chip Swap Rate has been higher than Argentinaâ€™s official exchange rate. As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the exchange spread was 48.0% and 20.4%, respectively.As part of the exchange controls, since 2019, the Argentine government imposes a tax on the acquisition of foreign currency through the official exchange market in certain circumstances. On July 24, 2023, through the Executive Power Decree No. 377/2023, the Argentine government extended the application of this tax to the following cases: (i) certain services acquired from abroad or services rendered by foreign residents in Argentina (i.e. technical, legal, accounting, management, advertising, engineering, audiovisual services, among others), which will be subject to a 25% tax rate, (ii) freight and other transportation services for import and export of goods, which will be subject to a 7.5% tax rate; and (iii) imported goods, which will be subject to a 7.5% tax rate, with certain exemptions (such as fuels and products of the basic food basket). Later, the Decree No. 29/2023, modified the tax rate for the cases mentioned above under ii) and iii) from 7.5% to 17.5%.Income taxesIncome taxesâ€™ accounting policy is described in Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. The Companyâ€™s consolidated estimated effective tax rate for the six and three-month periods ended JuneÂ 30, 2024 decreased as compared to the same periods in 2023, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of the Companyâ€™s own common stock in the Argentine market, which was considered as a non-deductible expense, (ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, the Argentine operationsâ€™ functional currency is the U.S. dollar due to the highly inflationary status of the country, (iii) higher pre-tax gains in a Mexican subsidiary that has accounted for a valuation allowance on tax loss carry forward, and (iv) higher deductions related to tax inflation adjustments in Argentina.A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of the Companyâ€™s deferred tax assets will not be realized. In accordance with ASC 740, Management periodically assesses the need to either establish or reverse a valuation allowance for deferred tax assets considering positive and negative objective evidence related to the realization of the deferred tax assets. In its assessment, Management considers, among other factors, the nature, frequency and magnitude of current and cumulative losses on an individual subsidiary basis, projections of future taxable income, the duration of statutory carryforward periods, as well as feasible tax planning strategies, which would be employed by the Company to prevent tax loss carryforwards from expiring unutilized. Knowledge-based economy promotional regime in ArgentinaIn August 2021, the Under Secretariat of Knowledge Economy issued the Disposition 316/2021 approving MercadoLibre S.R.L.â€™s application for eligibility under the knowledge-based economy promotional regime, established by the Law No. 27,506 and complemented by Argentinaâ€™s Executive Power Decree No. 1034/2020, Argentinaâ€™s Ministry of Productive Developmentâ€™s Resolution No. 4/2021 and the Under Secretariat of Knowledge Economyâ€™s Disposition No. 11/2021. As a result, the Company recorded an income tax benefit of $5 million and $4 million, and $21 million and $11 million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. The aggregate per share effect of the income tax benefit amounted to $0.09 and $0.08, and $0.42 and $0.23 for the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. Furthermore, the Company recorded a social security benefit of $32Â million and $15 million, and $33Â million and $15Â million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively.14 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsFair value option applied to certain financial instrumentsUnder ASC 825, U.S. GAAP provides an option to elect fair value with impact on the statement of income as an alternative measurement for certain financial instruments and other items on the balance sheet. The Company has elected to measure certain financial assets at fair value with impact on the statement of income for several reasons including to avoid the mismatch generated by the recognition of certain linked instruments / transactions, separately, in the interim condensed consolidated statements of income and interim condensed consolidated statements of comprehensive income and to better reflect the financial model applied for selected instruments. The Companyâ€™s election of the fair value option applies to: i) foreign government debt securities, and ii) U.S. government debt securities.Recently Adopted Accounting StandardsAs of the date of issuance of these unaudited interim condensed consolidated financial statements there were no accounting pronouncements recently adopted by the Company.Recently issued accounting pronouncements not yet adoptedOn November 27, 2023, the FASB issued the ASU 2023-07 â€œSegment Reporting (Topic 280)â€”Improvements to Reportable Segment Disclosuresâ€. The new framework, which was effective starting in July 2023 with full implementation by January 2025, will extend the application of the rule regarding proportionality of regulatory requirements (currently applicable to conglomerates of financial institutions) to financial conglomerates led by payment institutions. For the six and three-month periods ended JuneÂ 30, 2024, the Company recognized in Provision for doubtful accounts $4 million as expected credit losses, and $3 million and $(1)Â million for the same periods in 2023, respectively.The Company closely monitors credit quality for all loans receivable on a recurring basis to assess and manage its exposure to credit risk. To assess merchants and consumers seeking a loan under the Mercado Credito solution, the Company uses, among other indicators, risk models internally developed, as a credit quality indicator to help predict the merchantâ€™s and consumerâ€™s ability to repay the principal balance and interest related to the credit. The risk model uses multiple variables as predictors of the merchantâ€™s and consumerâ€™s ability to repay the credit, including external and internal indicators. Internal indicators consider user behavior related to credit/payment history, and with lower weight in the risk models, the Company uses the number of transactions in the Companyâ€™s ecosystem and the merchantâ€™s annual sales volume, among other indicators. In addition, the Company considers external bureau information to enhance the model and the decision making process.19 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsThe amortized cost of the loans receivable classified by the Companyâ€™s credit quality internal indicator was as follows:June 30, 2024December 31, 2023(In millions)1-14 days past due$146Â $99Â 15-30 days past due107Â 92Â 31-60 days past due146Â 114Â 61-90 days past due150Â 103Â 91-120 days past due133Â 111Â 121-150 days past due145Â 97Â 151-180 days past due112Â 82Â 181-210 days past due97Â 76Â 211-240 days past due99Â 74Â 241-270 days past due91Â 69Â 271-300 days past due90Â 59Â 301-330 days past due78Â 74Â 331-360 days past due62Â 66Â Total past due1,456Â 1,116Â To become due3,448Â 2,662Â Total$4,904Â $3,778Â As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, renegotiations represented 2.1% and 2.8% of the loans receivable portfolio, respectively.The following tables summarize the allowance for doubtful accounts activity during the six-month periods ended JuneÂ 30, 2024 and 2023:June 30, 2024On-line merchantConsumerIn-store merchantCredit cardsTotal(In millions)Balance at beginning of year$119Â $592Â $137Â $236Â $1,084Â Net charged to Net Income63Â 373Â 135Â 238Â 809Â Currency translation adjustments(8)(33)(11)(40)(92)Write-offs (1)(57)(250)(66)(75)(448)Balance at end of period$117Â $682Â $195Â $359Â $1,353Â June 30, 2023On-line merchantConsumerIn-store merchantCredit cardsTotal(In millions)Balance at beginning of year$120Â $614Â $145Â $225Â $1,104Â Net charged to Net Income59Â 251Â 61Â 90Â 461Â Currency translation adjustments9Â 38Â 7Â 18Â 72Â Write-offs (1)(58)(278)(75)(103)(514)Balance at end of period$130Â $625Â $138Â $230Â $1,123Â (1) The Company writes off loans when customer balance becomes 360 days past due.20 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsNOTEÂ 7. The estimated fair value of the loans receivable would be classified as Level 3 based on the Companyâ€™s assumptions.As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the carrying value of the Companyâ€™s financial liabilities (except for 2026 Sustainability Notes and 2031 Notes) not measured at fair value approximated their fair value mainly because of their short-term maturity and the effective interest rates are not materially different from market interest rates. NOTEÂ 11. COMMITMENTS AND CONTINGENCIESLitigation and Other Legal MattersThe Company is subject to certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings. The Company accrues liabilities when it considers it to be probable that future costs will be incurred and such costs can be reasonably estimated. Proceeding-related liabilities are based on developments to date and historical information related to actions filed against the Company. As of JuneÂ 30, 2024, the Company had accounted for estimated liabilities involving proceeding-related contingencies and other estimated contingencies of $100Â million within non-current other liabilities to cover legal actions against the Company for which Management has assessed the likelihood of a final adverse outcome as probable. Expected legal costs related to litigations are accrued when the legal service is actually provided.In addition, as of JuneÂ 30, 2024, the Company and its subsidiaries are subject to certain legal actions considered by the Companyâ€™s Management and its legal counsels to be reasonably possible of resulting in a loss for an estimated aggregate amount up to $209Â million. No loss amounts have been accrued for such reasonably possible legal actions.For further information related to contingent liabilities please refer to Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K.29 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsTax ClaimsBrazilian preliminary injunction against the Brazilian tax authorities (withholding income tax)The tax claim related to the Brazilian preliminary injunction against the Brazilian tax authorities is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On April 3, 2024, the Superior Court of Justice decided to analyze whether the matter under consideration is capable of becoming a binding precedent. In April 2024, the Company submitted a petition claiming that the case is fully capable of being judged as a binding precedent and the civil association, CÃ¢mara Brasileira da Economia Digital, submitted a petition as amicus curiae with the same arguments. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is probable based on the technical merits of the Companyâ€™s tax position and the existence of recent adverse decisions issued by the Superior Court of Justice. For that reason, the Company has recorded a provision for the disputed amounts, which was $325Â million as of JuneÂ 30, 2024, and which was recorded in non-current other liabilities in the consolidated balance sheets, net of the corresponding judicial deposits for $292Â million (which includes $54Â million of interest income). Interstate rate of ICMS-DIFAL on interstate salesInterstate rate of ICMS-DIFAL on interstate sales without Complementary LawThe tax claim related to the interstate rate of ICMS-DIFAL (Imposto sobre CirculaÃ§ao de Mercadorias, ServiÃ§os de Transporte Interestadual, Intermunicipal e ComunicaÃ§Ã£o on interstate sales at a differential rate) without the existence of a complementary law is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. In March 2024, one of the cases related to the State of Santa Catarina (whose risk of losing had been considered probable) received judgment in favor of the State. In June 2024, one of the cases related to the State of Rio de Janeiro (whose risk of losing had been considered remote) received judgment partially in favor of the Company. Therefore, the Company presented a motion of clarification which is now pending judgment. In addition, a case related to the State do GoiÃ¡s (whose risk of losing had been considered probable) received judgment in favor of the Company, as a result of which, in June 2024, the State filed an appeal that is now pending judgment. The remaining cases pending as of DecemberÂ 31, 2023 had no updates during the six-month period ended JuneÂ 30, 2024. The Company maintains a $2Â million provision as of JuneÂ 30, 2024 for the disputed amounts related to the 3 ongoing cases whose risk of losing is considered by Management to be probable, based on the opinion of external legal counsel.Exclusion of ICMS tax benefits from federal taxes baseThe tax claim related to the exclusion of ICMS tax benefits from the tax base of the Corporate Income Tax (â€œIRPJâ€) and of the Social Contribution on Net Profits (â€œCSLLâ€) is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On April 17, 2024, the Federal Regional Court ruled in favor of the Company. Therefore, the Federal Government presented a motion of clarification, which is to be adjudicated in August 2024. The case has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not based on the technical merits of the Companyâ€™s tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of JuneÂ 30, 2024, the total amount under dispute was $51Â million.The tax claim related to the exclusion of ICMS tax benefits from tax base of the Social Contributions (PIS and COFINS) is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On April 25, 2024, a ruling favorable to the Company was issued recognizing the Companyâ€™s right to exclude the amounts of credits arising from ICMS tax incentives from the PIS and COFINS calculation basis. On June 7, 2024, the Federal Government filed an appeal. The Company responded to the appeal and the case was referred to the Court for judgment on the request for an appeal. The first instance courtâ€™s decision has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is reasonably possible but not probable based on the technical merits of the Companyâ€™s tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. The Company had recorded $14Â million of PIS and COFINS tax benefits arising from the ICMS tax incentives as of JuneÂ 30, 2024.Administrative Tax ClaimsThe tax assessment claiming corporate income taxes (IRPJ and CSLL) in relation to the 2017 taxable year is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On July 24, 2024, the administrative body of first instance issued a decision in the case. The decision issued is partially favorable to the Company as it rejected the punitive fine of 150% over the tax charged and reduced it to 100%, but maintained the tax assessment and also the joint tax liability of the Senior Legal Director. The Company will present an appeal in the Federal Administrative Court. The case has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of JuneÂ 30, 2024, the total amount under dispute related to IRPJ and CSLL was $68Â million.30 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsBuyer protection programThe buyer protection program (â€œBPPâ€) is designed to protect buyers in the Marketplace from losses due primarily to fraud or counterparty non-performance for all transactions completed through the Companyâ€™s online payment solution Mercado Pago (except for certain excluded categories). The Companyâ€™s BPP provides protection to consumers by reimbursing them for the total value of a purchased item and the value of any shipping service paid if it does not arrive, arrives incomplete or damaged, does not match the sellerâ€™s description or if the buyer regrets the purchase. The Company is entitled to recover from the third-party carrier companies performing the shipping service certain amounts paid under the BPP. Furthermore, in some specific circumstances, the Company enters into insurance contracts with third-party insurance companies in order to cover contingencies that may arise from the BPP.The maximum potential exposure under this program is estimated to be the volume of payments on the Marketplace, for which claims may be made under the terms and conditions of the Companyâ€™s BPP. Based on historical losses to date, the Company does not believe that the maximum potential exposure is representative of the actual potential exposure. The Company records a liability with respect to losses under this program when they are probable and the amount can be reasonably estimated.As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, Managementâ€™s estimate of the maximum potential exposure related to the Companyâ€™s buyer protection program is $4,907 million and $5,072 million, respectively, for which the Company recorded a provision of $9 million and $8 million, respectively.CommitmentsThe Company committed to purchase cloud platform services from two U.S. suppliers based on the following terms:1.for a total amount of $824 million, to be paid between October 1, 2021 and September 30, 2026. NOTEÂ 14. SECURITIZATION TRANSACTIONS The process of securitization consists of the issuance of securities collateralized by a pool of assets through a special purpose entity (â€œSPEsâ€), often under a VIE.The Company securitizes financial assets associated with its credit card receivables and loans receivable portfolio. The Companyâ€™s securitization transactions typically involve the legal transfer of financial assets to bankruptcy remote SPEs. The Company generally retains economic interests in the collateralized securitization transactions, which are retained in the form of subordinated interests. For accounting purposes, the Company is generally precluded from recording the transfers of assets in securitization transactions as sales or is required to consolidate the SPE.The Company securitizes certain credit card receivables related to usersâ€™ purchases through Chilean SPEs. Under these SPE contracts, the Company has determined that it has no obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it does not retain any equity certificate of participation or subordinated interest in the SPEs. As the Company does not control the vehicles, its assets, liabilities and related results are not consolidated in the Companyâ€™s financial statements.Additionally, the Company securitizes certain credit card receivables related to usersâ€™ purchases through Brazilian SPEs. Under these SPE contracts, the Company has determined that it has the obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it retains subordinated interest in the SPEs. As the Company controls the vehicles, the assets, liabilities and related results are consolidated in its financial statements.The Company securitizes certain loans receivable through Brazilian, Argentine and Mexican SPEs, formed to securitize loans receivable provided by the Company to its users or purchased from financial institutions that grant loans to the Companyâ€™s users through Mercado Pago. According to the SPE contracts, the Company has determined that it has both the power to direct the activities of the entity that most significantly impact the entityâ€™s performance and the obligation to absorb losses or the right to receive benefits of the entity that could be significant because it retains the equity certificates of participation and would therefore also be consolidated. When the Company controls the vehicle, it accounts for the securitization transactions as if they were secured financing and therefore the assets, liabilities and related results are consolidated in its financial statements.34 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsThe following table summarizes the Companyâ€™s collateralized debt under securitization transactions, as of JuneÂ 30, 2024:SPEsCollateralized debt as of June 30, 2024(In millions)Interest rateCurrencyMaturityMercado CrÃ©dito I Brasil Fundo de Investimento Em Direitos CreditÃ³rios NÃ£o Padronizados$181CDI + 2.50%Brazilian ReaisMay 2025Mercado CrÃ©dito Fundo de Investimento Em Direitos CreditÃ³rios NÃ£o Padronizado16CDI + 3.50%Brazilian ReaisAugust 2025Olimpia Fundo de Investimento Em Direitos CreditÃ³rios75CDI + 1.25%Brazilian ReaisNovember 2024Mercado CrÃ©dito II Brasil Fundo De Investimento Em Direitos CreditÃ³rios Nao Padronizados215CDI + 2.35%Brazilian ReaisJanuary 2030Seller Fundo De Investimento Em Direitos CreditÃ³rios183CDI + 1.60%Brazilian ReaisMarch 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios91CDI + 1.80%Brazilian ReaisMay 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios36CDI + 1.40%Brazilian ReaisSeptember 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios18CDI + 1.60%Brazilian ReaisNovember 2026Mercado CrÃ©dito Consumo XXVI3Badlar rates plus 200 basis points with a min 100% and a max 160%Argentine PesosJuly - November 2024 (2)Mercado CrÃ©dito Consumo XXVII9Badlar rates plus 200 basis points with a min 100% and a max 180%Argentine PesosAugust 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXVIII11Badlar rates plus 200 basis points with a min 100% and a max 190%Argentine PesosSeptember 2024 - April 2025 (2)Mercado CrÃ©dito Consumo XXIX11Badlar rates plus 200 basis points with a min 75% and a max 155%Argentine PesosOctober 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXX12Badlar rates plus 200 basis points with a min 75% and a max 155%Argentine PesosNovember 2024 - April 2025 (2)Mercado CrÃ©dito Consumo XXXI16Badlar rates plus 200 basis points with a min 45% and a max 125%Argentine PesosDecember 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXXII18Badlar rates plus 200 basis points with a min 25% and a max 80%Argentine PesosJanuary 2025Mercado CrÃ©dito Consumo XXXIII25Badlar rates plus 200 basis points with a min 5% and a max 60%Argentine PesosMarch - April 2025 (2)Mercado CrÃ©dito Consumo XXXIV (1)18Badlar rates plus 200 basis points with a min 15% and a max 60%Argentine PesosApril - July 2025 (2)Mercado CrÃ©dito XIX1Badlar rates plus 200 basis points with a min 100% and a max 140%Argentine PesosJuly 2024 - August 2025 (2)Mercado CrÃ©dito XX5Badlar rates plus 200 basis points with a min 100% and a max 170%Argentine PesosSeptember - December 2024 (2)Mercado CrÃ©dito XXI6Badlar rates plus 200 basis points with a min 45% and a max 125%Argentine PesosJanuary - March 2025 (2)Mercado CrÃ©dito XXII6Badlar rates plus 200 basis points with a min 15% and a max 70%Argentine PesosMarch - April 2025 (2)Mercado CrÃ©dito XXIII (1)14Badlar rates plus 200 basis points with a min 15% and a max 60%Argentine PesosMay - June 2025 (2)35 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsSPEsCollateralized debt as of June 30, 2024(In millions)Interest rateCurrencyMaturityFideicomiso de administraciÃ³n y fuente de pago CIB/3756229The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 2.35%Mexican PesosAugust 2026Fideicomiso de administraciÃ³n y fuente de pago CIB/336933The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 7.0%Mexican PesosJuly 2027Fideicomiso de administraciÃ³n y fuente de pago CIB/3369249The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 2.8%Mexican PesosJuly 2027$1,481(1) As of JuneÂ 30, 2024, Loans payables owned by these trusts were obtained through private placements. DERIVATIVE INSTRUMENTSCash flow hedgesAs of JuneÂ 30, 2024, the Company used foreign currency exchange contracts to hedge the foreign currency effects related to the forecasted purchase of MPOs devices in U.S. dollars owed by a Brazilian subsidiary whose functional currency is the Brazilian Real. The Company designated the foreign currency exchange contracts as cash flow hedges, the derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œCost of net revenues and financial expensesâ€ line item, in the same period the forecasted transaction affects earnings. As of JuneÂ 30, 2024, the Company estimated that the whole amount of net derivative gains or losses related to its cash flow hedges included in accumulated other comprehensive loss will be reclassified into the interim condensed consolidated statements of income within the next 12 months.In addition, the Company has entered into swap contracts to hedge the interest rate fluctuation of its financial debt held by one of its Brazilian subsidiaries. The Company designated the swap contracts as cash flow hedges. The derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œCost of net revenues and financial expensesâ€ line item within the next 12 months. As of JuneÂ 30, 2024, there are no outstanding derivatives hedging the interest rate fluctuation of the financial debt designated as cash flow hedges.Fair value hedgesThe Company has entered into swap contracts to hedge the interest rate and the foreign currency exposure of its fixed-rate, foreign currency financial debt held by its Brazilian subsidiaries. The Company designated the swap contracts as fair value hedges. The derivativesâ€™ gain or loss is reported in the interim condensed consolidated statements of income in the same line items as the change in the value of the financial debt due to the hedged risks. Since the terms of the interest rate swaps match the terms of the hedged debts, changes in the fair value of the interest rate swaps are offset by changes in the fair value of the hedged debts attributable to changes in interest rates. Accordingly, the net impact in current earnings is that the interest expense associated with the hedged debts is recorded at the floating rates. Net investment hedgeThe Company used cross currency swap contracts, to reduce the foreign currency exchange risk related to its investment in its Brazilian foreign subsidiaries and the interest rate risk. This derivative was designated as a net investment hedge and, accordingly, gains and losses are reported as a component of accumulated other comprehensive loss. The derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œInterest expense and other financial lossesâ€ and â€œForeign currency losses, netâ€ line items, in the same period that the interest expense affects earnings. Derivative instruments not designated as hedging instrumentsThe Company entered into certain foreign currency exchange contracts to hedge the foreign currency fluctuations related to certain transactions denominated in U.S. dollars of certain of its Brazilian subsidiaries, whose functional currencies are the Brazilian Real. These transactions were not designated as hedges for accounting purposes. As of JuneÂ 30, 2024, there are no outstanding derivatives hedging the foreign currency fluctuation not designated as hedging instruments.38 | MercadoLibre, Inc.Table of ContentsMercadoLibre, Inc.Notes to unaudited interim condensed consolidated financial statementsIn addition, the Company entered into full cross currency swap contracts to hedge the interest rate fluctuation and foreign currency fluctuations of its financial debt nominated in U.S. dollars held by its Brazilian subsidiaries. These transactions were not designated as hedges for accounting purposes.Finally, as of JuneÂ 30, 2024, the Company entered into swap contracts to hedge the interest rate fluctuation of a certain portion of its financial debt in its Brazilian subsidiaries and VIEs. SHARE REPURCHASE PROGRAMOn February 21, 2023, the Board authorized the Company to repurchase shares of the Companyâ€™s common stock, for an aggregate consideration of up to $900Â million. The Company acquired shares of its own common stock in the Argentine market and paid for them in Argentine Pesos at a price that reflects the additional cost of accessing U.S. dollars through securities denominated in U.S. dollars, because of restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate in Argentina (see NoteÂ 2Â â€“ Summary of significant accounting policies - Argentine currency status and macroeconomic outlook of these unaudited interim condensed consolidated financial statements). As a result, the Company recognized foreign currency losses of $213Â million for the six-month period ended JuneÂ 30, 2023, while foreign currency losses for the three-month period ended JuneÂ 30, 2023 amounted to $157Â million. During the three-month period ended March 31, 2024, the Company had not acquired any shares under the aforementioned share repurchase program. This Program expired on March 31, 2024.40 | MercadoLibre, Inc.Table of ContentsITEM 2. Our platform is designed to provide users with a complete portfolio of services to facilitate commercial transactions both digitally and offline.41 | MercadoLibre, Inc.Table of ContentsThrough our e-commerce platform, we provide buyers and sellers with a robust and safe environment that fosters the development of a large e-commerce community in Latin America, a region with a population of over 650 million people and with one of the fastest-growing Internet penetration and e-commerce growth rates in the world. We believe that we offer world-class technological and commercial solutions that address the distinctive cultural and geographic challenges of operating a digital commerce platform in Latin America.We offer our users an ecosystem of six integrated e-commerce services and digital financial services: the Mercado Libre Marketplace, the Mercado Pago Fintech platform, the Mercado Envios logistics service, the Mercado Ads solution, the Mercado Libre Classifieds service and the Mercado Shops online storefronts solution.The Mercado Libre Marketplace, is a fully-automated, topically-arranged and user-friendly online commerce platform, which can be accessed through our website and mobile app. This platform enables us (when we act as sellers in our first party sales), merchants and individuals to list merchandise and conduct sales and purchases digitally. The Marketplace has an ample assortment of products, with a wide range of categories such as consumer electronics, apparel and beauty, home goods, automotive accessories, toys, books and entertainment and consumer packaged goods.To complement the Mercado Libre Marketplace and enhance the user experience for our buyers and sellers, we developed Mercado Pago, an integrated digital payments solution. Mercado Pago was initially designed to facilitate transactions on Mercado Libreâ€™s Marketplaces by providing a mechanism that allowed our users to securely, easily and promptly send and receive payments. Now, Mercado Pago is a full ecosystem of financial technology solutions both in the digital and physical world. Our digital payments solution enables any MercadoLibre registered user to securely and easily send and receive digital payments and to pay for purchases made on any of Mercado Libreâ€™s Marketplaces. Currently, Mercado Pago processes and settles all transactions on our Marketplaces in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay, Peru and Ecuador.Beyond facilitating Marketplace transactions, over the years we have expanded our array of Mercado Pago services to third parties outside Mercado Libreâ€™s Marketplace. We began first by satisfying the growing demand for online-based payment solutions by providing merchants the necessary digital payment infrastructure for e-commerce to flourish in Latin America. Today, Mercado Pagoâ€™s digital payments business not only allows merchants to facilitate checkout and payment processes on their websites through a branded or white label solution or software development kits, but it also enables users to transfer money in a simple manner to each other through the Mercado Pago website or on the Mercado Pago app. Through Mercado Pago, we brought trust to the merchant customer relationship, allowing online consumers to shop easily and safely, while giving them the confidence to share sensitive personal and financial data with us. Finally, we have also deepened our fintech offerings by growing our online-to-offline (â€œO2Oâ€) products and services.The Mercado Envios logistics solution enables sellers on our platform to utilize third-party carriers and other logistics service providers, while also providing them with fulfillment and warehousing services. The logistics services we offer are an integral part of our value proposition, as they reduce friction between buyers and sellers, and allow us to have greater control over the full experience. Sellers that opt into our logistics solutions are not only able to offer a uniform and seamlessly integrated shipping experience to their buyers at competitive prices, but are also eligible to access shipping subsidies to offer free or discounted shipping for many of their sales on our Marketplaces. In 2020, we launched Meli Air with a fleet of dedicated aircraft covering routes across Brazil and Mexico, with the aim of improving our delivery times. We have also developed a network of independent neighborhood stores and commercial points (known as â€œMeli Placesâ€) to receive and store packages that are in transit using our integrated technology. Meli Places network allows buyers and sellers to pick-up, drop-off, or return packages with a better experience, reducing the travel distance for all parties. As of JuneÂ 30, 2024, we offer our shipping solution directed towards deliveries in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay, Peru and Ecuador and we also offer free shipping to buyers in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay and Peru.Mercado Credito, our credit solution available in Argentina, Brazil, Mexico and Chile, leverages our user base, which is loyal and engaged, and in part has also been historically underserved or overlooked by financial institutions and suffers from a lack of access to needed credit. Facilitating credit is a key service overlay that enables us to further strengthen the engagement and lock-in rate of our users, while also generating additional touchpoints and incentives to use Mercado Pago as an end-to-end financial solution. Our asset management product, which is available in Argentina, Brazil, Mexico and Chile, is a critical pillar to build our alternative two-sided network vision. It incentivizes our users to begin to fund their digital wallets with cash as opposed to credit or debit cards given that the return our product offers is greater than traditional checking accounts.As an extension of our asset management and savings solutions for users, we launched a digital assets feature as part of the Mercado Pago wallet in Brazil, Mexico and Chile, in 2021, 2022 and 2023, respectively. This service allows our millions of users to purchase, hold and sell selected digital assets through our interface without leaving the Mercado Pago application, while a partner acts as the custodian and exchange and offers the blockchain infrastructure platform. This feature is available for all users through their Mercado Pago wallet.Our advertising platform, Mercado Ads, enables businesses to promote their products and services on the Mercado Libre Marketplace and Mercado Pago Fintech platform. Through our advertising platform, MercadoLibreâ€™s brands and sellers are able to display ads on our webpages through product searches, banner ads, or suggested products. Our advertising platform enables merchants and brands to access the millions of consumers that are on our Marketplaces at any given time with the intent to purchase, which increases the likelihood of conversion. Advertisers are able to leverage our first-party data to create and target highly particularized audiences.Through Mercado Libre Classifieds, our online classified listing service, our users can also list and purchase motor vehicles, real estate and services in the countries where we operate. Classifieds listings differ from Marketplace listings as they only charge optional placement fees and not final value fees. Our classifieds pages are also a major source of traffic to our platform, benefiting both the commerce and fintech businesses.42 | MercadoLibre, Inc.Table of ContentsComplementing the services we offer, our digital storefront solution, Mercado Shops, allows users to set-up, manage and promote their own digital stores. These stores are hosted by Mercado Libre and offer integration with the rest of our ecosystem, namely our Marketplaces, payment services and logistics services. Users can create a store at no cost, and can access additional functionalities and value added services on commission.Reporting Segments and Geographic InformationOur segment reporting is based on geography, which is the criterion our Management currently uses to evaluate our segment performance. Our geographic segments are Brazil, Argentina, Mexico and Other Countries (including Chile, Colombia, Costa Rica, Ecuador, Peru and Uruguay). Although we discuss long-term trends in our business, it is our policy not to provide earnings guidance in the traditional sense. We believe that uncertain conditions make the forecasting of near-term results difficult. Further, we seek to make decisions focused primarily on the long-term welfare of our Company and believe focusing on short-term earnings does not best serve the interests of our stockholders. We believe that execution of key strategic initiatives as well as our expectations for long-term growth in our markets will best create stockholder value. A long-term focus may make it more difficult for industry analysts and the market to evaluate the value of our Company, which could reduce the value of our common stock or permit competitors with short-term tactics to grow more rapidly than us. We, therefore, encourage potential investors to consider this strategy before making an investment in our common stock.The following table sets forth the percentage of our consolidated net revenues by segment for the six and three-month periods ended JuneÂ 30, 2024 and 2023:Six Months Ended June 30,Three Months Ended June 30,(% of total consolidated net revenues)20242023 (1)20242023 (1)Brazil57.0Â %51.4Â %54.9Â %51.4Â %Argentina15.7Â 24.3Â 17.0Â 23.8Â Mexico23.1Â 19.7Â 23.7Â 20.2Â Other Countries4.2Â 4.6Â 4.4Â 4.6Â (1) Recast for consistency with the current presentation due to the change in the presentation of certain financial results. The results of operations for the six and three-month periods ended JuneÂ 30, 2024, are not necessarily indicative of the results that may be expected for the full year ending DecemberÂ 31, 2024 or for any other period.Principal trends in results of operationsNet revenues and financial incomeWe disaggregate revenues into four geographical reporting segments. Within each of our segments, the services we provide and the products we sell generally fall into two distinct revenue streams: â€œCommerceâ€ and â€œFintechâ€.Revenues from Commerce transactions are mainly generated from:â– marketplace fees that include final value fees and flat fees. Final value fees represent a percentage of the sale value that is charged to the seller once an item is successfully sold and flat fees represent a fixed charge for certain transactions below a certain merchandise value;â– first party sales, which are generated when control of the good is transferred, upon delivery to our customers;â– shipping fees, which are generated when a buyer elects to receive an item through our shipping service, net of the third-party carrier costs (when we act as an agent). When the Company acts as principal, revenues derived from shipping services are recognized upon delivery of the good to the customer, and presented on a gross basis. In addition, the Company generates storage fees, which are charged to the seller for the utilization of the Companyâ€™s fulfillment facilities;â– ad sales fees due to advertising services provided to sellers, vendors, brands and others, through

performance products (product ads and brand ads) and display formats, which are recognized based on the number of clicks and impressions, respectively;â– classifieds fees due to offerings in vehicles, real estate and services, which are charged to sellers who opt to give their listings greater exposure throughout our websites; andâ– fees from other ancillary businesses.Fintech revenues and financial income correspond to our Mercado Pago service, which are attributable to:â– commissions representing a percentage of the payment volume processed that are charged to sellers in connection with off Marketplace-platform transactions; â– commissions from additional fees we charge when a buyer elects to pay in installments through our Mercado Pago platform, for transactions that occur either on or off our Marketplace platform; â– interest, cash advances and fees from credit cards, merchant and consumer loans granted under our Mercado Credito solution;â– revenues from our asset management product;â– interest earned on investments as part of Mercado Pago activities, including those required due to fintech regulations, net of interest gains passed through to our Brazilian users in connection with our asset management product;â– commissions that we charge from transactions carried out with Mercado Pago credit and debit cards;â– revenues from the sale of mobile points of sale products;â– revenues from insurtech fees; andâ– commissions from additional fees we charge when our sellers elect to withdraw cash.Although we also process payments on the Marketplace, we do not charge sellers an added commission for this service, as it is already included in the Marketplace final value fee that we charge.We have a highly fragmented customer revenue base given the large numbers of sellers and buyers who use our platforms. For the six and three-month periods ended JuneÂ 30, 2024 and 2023, no single customer accounted for more than 5.0% of our net revenues and financial income. Our Mercado Libre Marketplace is available in 18 countries (Argentina, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Peru, Mexico, Panama, Honduras, Nicaragua, El Salvador, Uruguay, Bolivia, Guatemala, Venezuela (deconsolidated since December 1, 2017) and Paraguay), and Mercado Pago is available in 8 countries (Argentina, Brazil, Mexico, Colombia, Chile, Peru, Uruguay and Ecuador). Additionally, Mercado Envios is available in 8 countries (Argentina, Brazil, Mexico, Colombia, Chile, Peru, Uruguay and Ecuador). The functional currency for each countryâ€™s operations is the countryâ€™s local currency, except for Argentina, where the functional currency is the U.S. dollar due to Argentinaâ€™s status as a highly inflationary economy. Our net revenues are generated in multiple foreign currencies and then translated into U.S. dollars at the average monthly exchange rate. Please refer to NoteÂ 2Â â€“ Summary of significant accounting policies to our unaudited interim condensed consolidated financial statements for further detail on foreign currency translation.44 | MercadoLibre, Inc.Table of ContentsOur net revenues and financial income grew during the six and three-month periods ended JuneÂ 30, 2024 as compared to the same period in 2023, boosted by an increase in the share of shipping services where we act as principal, as opposed to agent, the growth of credits business originations and our gross merchandise volume. This growth was partially offset by the negative effect on net revenues of the Argentine currency depreciation.The continued execution of our long-term strategies in Commerce and Fintech businesses has enabled us to deliver growth in gross merchandise volume, total payment volume and net revenues, alongside record quarterly operating results and strong cash generation.The following table summarizes our consolidated net revenues and financial income for the six and three-month periods ended JuneÂ 30, 2024 and 2023:Six Months Ended June 30,Change from 2023 to 2024Three Months Ended June 30,Change from 2023 to 202420242023 (1)in Dollarsin %20242023 (1)in Dollarsin %(In millions, except percentages)(In millions, except percentages)Net revenues and financial income$9,406Â $6,771Â $2,635Â 38.9Â %$5,073Â $3,585Â $1,488Â 41.5Â %(1) Recast for consistency with the current presentation due to the change in the presentation of certain financial results. These taxes represented 6.6% and 6.2% of net revenues and financial income for the six and three-month periods ended JuneÂ 30, 2024, and 7.7% and 7.6% for the same period in 2023.Gross profit marginsOur gross profit margin is defined as total net revenues and financial income minus total cost of net revenues and financial expenses, as a percentage of net revenues and financial income.Our cost structure is directly affected by the level of operations of our services, and our strategic plan on gross profit is built on factors such as an ample liquidity to fund expenses and investments and a cost-effective capital structure.For the six and three-month periods ended JuneÂ 30, 2024 and 2023, our gross profit margins were 46.7% and 46.6%, and 50.9% and 51.1%, respectively. The decrease in our gross profit margin resulted primarily from an increase in our shipping operating and carrier costs, as a percentage of net revenues and financial income mainly due to an increase in the share of shipping services where we act as principal, as opposed to agent, partially offset by a decrease of our other fintech costs, sales taxes, cost of sales of goods and collection fees, as a percentage of net revenues and financial income.In the future, our gross profit margin could decline if we continue growing our sales of goods business, which has a lower pure product margin, building up our logistics network and if we fail to maintain an appropriate relationship between our cost of revenue structure and our net revenues and financial income trend.48 | MercadoLibre, Inc.Table of ContentsProduct and technology development expensesOur product and technology development related expenses consist primarily of compensation for our engineering and web-development staff (including long term retention program compensation), depreciation and amortization expenses related to product and technology development, certain tax withholding related to export duties, telecommunications costs and payments to third-party suppliers who provide technology maintenance services to us. As we continue to grow and focus on expanding our leadership in the region, we will continue to invest in product and technology development, sales and marketing and human resources in order to promote our services and capture long-term business opportunities. As a result, we may experience decreases in our operating income margins.50 | MercadoLibre, Inc.Table of ContentsFor the six and three-month periods ended JuneÂ 30, 2024, as compared to the same period in 2023, our operating income margin decreased from 16.1% and 18.7% to 13.3% and 14.3%. This decrease was mainly explained by an increase in cost of net revenues and financial expenses as a percentage of net revenues and financial income, mainly due to an increase in the share of shipping services where we act as principal as opposed to agent, and provision of doubtful accounts, as a percentage of net revenues and financial income. This decrease was partially offset by product and technology development related expenses and general and administrative expenses, as a percentage of net revenues and financial income. This was partially offset by higher foreign exchange losses from our Brazilian and Mexican subsidiaries. For the three-month period ended JuneÂ 30, 2024, the decrease in other expense, net as compared to the same period in 2023 was primarily attributable to lower foreign exchange losses of $145 million due to acquisitions of financial instruments in the Argentine market at a price that reflects an additional cost of accessing U.S. dollars through an indirect mechanism due to restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate, and due to lower foreign exchange losses from our Argentine subsidiaries. This was partially offset by higher foreign exchange losses from our Brazilian and Mexican subsidiaries. Income taxWe are subject to federal and state income tax in the United States, as well as foreign taxes in the multiple jurisdictions where we operate. Our tax obligations consist of current and deferred income taxes incurred in these jurisdictions. We account for income taxes following the liability method of accounting. A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of our deferred tax assets will not be realized. Therefore, our income tax expense consists of taxes currently payable, if any (given that in certain jurisdictions we still have net operating loss carry-forwards), plus the change in our deferred tax assets and liabilities as a result of the estimate tax rate, adjusted for discrete items that are accounted for in the relevant period.The following table summarizes the composition of our income taxes for the six and three-month periods ended JuneÂ 30, 2024 and 2023:Â Six Months Ended June 30,Change from 2023 to 2024Three Months Ended June 30,Change from 2023 to 2024Â 20242023in Dollarsin %20242023in Dollarsin %Â (In millions, except percentages)(In millions, except percentages)Income tax expense$274Â $332Â $(58)(17.5)%$137Â $210Â $(73)(34.8)%As a percentage of net revenues and financial income2.9Â %4.9Â %2.7Â %5.9Â %During the six and three-month periods ended JuneÂ 30, 2024 as compared to the same periods in 2023, income tax expense decreased mainly as a result of lower income tax expense in Argentina due to lower pre-tax gains in that segment and higher tax loss carry forward in our Mexican segment. Our estimated effective tax rate for the six and three-month periods ended JuneÂ 30, 2024 decreased as compared to the same periods in 2023, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of our own common stock in the Argentine market, which was considered as a non-deductible expense, (ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, the Argentine operationsâ€™ functional currency is the U.S. dollar due to the highly inflationary status of the country, (iii) higher pre-tax gains in a Mexican subsidiary that has accounted for a valuation allowance on tax loss carry forward, and (iv) higher deductions related to tax inflation adjustments in Argentina.Segment informationSix Months Ended June 30, 2024BrazilArgentinaMexicoOther CountriesTotal(In millions, except percentages)Net revenues and financial income$5,357$1,478$2,172$399$9,406Direct costs(4,120)(873)(1,754)(352)(7,099)Direct contribution$1,237$605$418$47$2,307Margin23.1%40.9%19.2%11.8%24.5%Six Months Ended June 30, 2023 (1)BrazilArgentinaMexicoOther CountriesTotal(In millions, except percentages)Net revenues and financial income$3,481$1,642$1,334$314$6,771Direct costs(2,691)(867)(988)(290)(4,836)Direct contribution$790$775$346$24$1,935Margin22.7%47.2%25.9%7.6%28.6%(1) Recast for consistency with the current presentation due to the change in the presentation of certain financial results. The 2026 Sustainability Notes will mature on January 14, 2026, and the 2031 Notes will mature on January 14, 2031. The Notes rank equally in right of payment with all of the Companyâ€™s other existing and future senior unsecured debt obligations. Each Subsidiary Guarantee will rank equally in right of payment with all of the Subsidiary Guarantorâ€™s other existing and future senior unsecured debt obligations, except for statutory priorities under applicable local law.56 | MercadoLibre, Inc.Table of ContentsEach Subsidiary Guarantee will be limited to the maximum amount that would not render the Subsidiary Guarantorâ€™s obligations subject to avoidance under applicable fraudulent conveyance provisions of applicable law. By virtue of this limitation, a Subsidiary Guarantorâ€™s obligation under its Subsidiary Guarantee could be significantly less than amounts payable with respect to the Notes, or a Subsidiary Guarantor may have effectively no obligation under its Subsidiary Guarantee.Under the indenture governing the Notes, the Subsidiary Guarantee of a Subsidiary Guarantor will terminate upon: (i) the sale, exchange, disposition or other transfer (including by way of consolidation or merger) of the Subsidiary Guarantor or the sale or disposition of all or substantially all the assets of the Subsidiary Guarantor (other than to the Company or a Subsidiary) otherwise permitted by the indenture, (ii) satisfaction of the requirements for legal or covenant defeasance or discharge of the Notes, (iii) the release or discharge of the guarantee by such Subsidiary Guarantor of the Triggering Indebtedness (as defined in the applicable indenture) or the repayment of the Triggering Indebtedness, in each case, that resulted in the obligation of such Subsidiary to become a Subsidiary Guarantor, provided that in no event shall the Subsidiary Guarantee of an Initial Subsidiary Guarantor terminate pursuant to this provision, or (iv) such Subsidiary Guarantor becoming an Excluded Subsidiary (as defined in the applicable indenture) or ceasing to be a Subsidiary.We may, at our option, redeem the 2026 Sustainability Notes, in whole or in part, at any time prior to December 14, 2025 (the date that is one month prior to the maturity of the 2026 Sustainability Notes) and the 2031 Notes, in whole or in part, at any time prior to October 14, 2030 (the date that is three months prior to the maturity of the 2031 Notes), in each case by paying 100% of the principal amount of such Notes so redeemed plus the applicable â€œmake-wholeâ€ amount and accrued and unpaid interest and additional amounts, if any. We may, at our option, redeem the 2026 Sustainability Notes, in whole or in part, on December 14, 2025 or at any time thereafter and the 2031 Notes on October 14, 2030 or at any time thereafter, in each case at the redemption price of 100% of the principal amount of such Notes so redeemed plus accrued and unpaid interest and additional amounts, if any. We continuously assess the adequacy of our key performance indicators based on the growth and ever changing nature of our business. Management believes that the significant growth of our Fintech business merits a standalone metric to more precisely measure its footprint and user base growth and to make the best strategic decisions for the development of the Fintech business. Fintech monthly active users is defined as Fintech payers and/or collectors as of JuneÂ 30, 2024, that, during the last month of the

reporting period, performed at least one of the following actions during such month: 1) made a debit or credit card payment, 2) made a QR code payment, 3) made an off-platform online payment using our checkout or link of payment solutions while logged in to our Mercado Pago fintech platform, 4) made an investment or employed any of our savings solutions, 5) purchased an insurance policy, 6) took out a loan through our Mercado Credito solution, or 7) received the payment from a sale or transaction either on or off marketplace.(3) As described above, as of January 1, 2024, unique active buyers is the main performance indicator of our Commerce revenue line. Management believes that monitoring the Commerce business growth through a standalone metric enables us to better understand user behavior over each period and make strategic decisions to improve the Commerce business. Unique active buyers is defined as users that have performed at least one purchase on the Mercado Libre Marketplace during the reported period.(4) Total U.S. dollar sum of all transactions completed through the Mercado Libre Marketplace, excluding Classifieds transactions.(5) Number of items that were sold/purchased through the Mercado Libre Marketplace, excluding Classifieds items.(6) Number of items that were shipped through our shipping service.(7) Total U.S. dollar sum of all transactions paid for using Mercado Pago, including marketplace and non-marketplace transactions, excluding peer-to-peer transactions. As of January 1, 2024, we no longer include peer-to-peer transactions in our TPV in accordance with the metrics and underlying criteria used by our Mercado Pago team, which Management then employs to make strategic decisions. Consequently, total payment volume for the six and three month periods ended June 30, 2023, has been recast to exclude peer-to-peer transactions.(8) As of January 1, 2024, we have replaced â€œTotal volume of payment on marketplaceâ€ with â€œAcquiring total payment volume.â€ Total volume of payment on marketplace was limited to the total U.S. dollar sum of all marketplace transactions paid for using Mercado Pago, and thus was a relevant and representative metric when the off-platform payment processor business was managed as a payment processor with a wallet. In light of the significant growth of our Fintech businesses and our payment processing and settling services, Management believes that Acquiring TPV, which also takes into account non-marketplace transactions paid for using Mercado Pago, results in a more representative measure of our physical and online payment processing solutions in any given period. Acquiring TPV is defined as total U.S. dollar sum of all transactions settled using our Mercado Pago and Mercado Pago's payment processing and settling services in marketplace and non-marketplace transactions and consist of the following transactions volume: 1) point of sale payment volume, 2) commerce payment volume through our Mercado Libre Marketplace, 3) online payment volume through our checkout or link payment solution for merchants, and 4) QR code payment volume. (9) Number of all transactions paid for using Mercado Pago, excluding peer-to-peer transactions. As of January 1, 2024 we no longer include peer-to-peer transactions in our total payment transactions in accordance with the metric and understanding criteria used by our Mercado Pago team, which Management then employs to make strategic decisions. Consequently, total payment volume for the six and three month periods ended JuneÂ 30, 2023, has been recast to exclude peer-to-per transactions.(10) Net interest margins after losses (â€œNIMALâ€) represents the annualized ratio between the total credits revenues less funding costs and provision for doubtful accounts for the period and total average gross loans receivable for the period. Management uses NIMAL to monitor how effective our pricing is and managing the credit products relative to their risk and setting targets. Accordingly, Management is of the opinion that NIMAL provides useful information to investors and others related to our risk appetite through the different periods and shows how we effectively prices risk.59 | MercadoLibre, Inc.Table of ContentsNon-GAAP Measures of Financial Performance To supplement our unaudited interim condensed consolidated financial statements presented in accordance with U.S. GAAP, we present earnings before interest income and other financial gains, interest expense and other financial losses, foreign currency losses, net, income tax expense, depreciation and amortization and equity in earnings of unconsolidated entity (â€œAdjusted EBITDAâ€), net debt, foreign exchange (â€œFXâ€) neutral measures and Adjusted free cash flow and Net increase (decrease) in available cash and investments as non-GAAP measures. Reconciliation of these non-GAAP financial measures to the most comparable U.S. GAAP financial measures can be found in the tables below. These non-GAAP measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. These non-GAAP financial measures should only be used to evaluate our results of operations in conjunction with the most comparable U.S. GAAP financial measures.We believe that reconciliation of these non-GAAP measures to the most directly comparable GAAP measure provides investors an overall understanding of our current financial performance and its prospects for the future.Adjusted EBITDAAdjusted EBITDA is a non-GAAP financial measure that represents our net income, adjusted to eliminate the effect of depreciation and amortization charges, interest income and other financial gains, interest expense and other financial losses, foreign currency losses, net, income tax expense and equity in earnings of an unconsolidated entity. We have included this non-GAAP financial measure because it is used by our Management to evaluate our operating performance and trends, make strategic decisions and the calculation of leverage ratios. Accordingly, we believe this measure provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our Management. In addition, it provides a useful measure for period-to-period comparisons of our business, as it removes the effect of certain items.The following table presents a reconciliation of net income to Adjusted EBITDA for the period indicated:Six Months Ended June 30,Three Months Ended June 30,20242023202420232023(In millions)(In millions)Net income$875Â $463Â $531Â $262Â Adjustments:Depreciation and amortization308Â 254Â 154Â 128Â Interest income and other financial gains(64)(57)(39)(34)Interest expense and other financial losses77Â 83Â 39Â 49Â Foreign currency losses, net92Â 269Â 58Â 182Â Income tax expense274Â 332Â 137Â 210Â Equity in earnings of unconsolidated entityâ€”Â (3)â€”Â â€”Â Adjusted EBITDA$1,562Â $1,341Â $880Â $797Â Net debtWe define net debt as total debt which includes current and non-current loans payable and other financial liabilities and current and non-current operating lease liabilities, less cash and cash equivalents, short-term investments and long-term investments, excluding time deposits and foreign government debt securities restricted and held in guarantee, securitization transactions and equity securities held at cost. We have included this non-GAAP financial measure because it is used by our Management to analyze our current leverage ratios and set targets to be met, which will also impact other components of the Companyâ€™s balance sheet, cash flows and income statement. Accordingly, we believe this measure provides useful information to investors and other market participants in showing the evolution of the Companyâ€™s indebtedness and its capability of repayment as a means to, alongside other measures, monitor our leverage based on widely-used measures.60 | MercadoLibre, Inc.Table of ContentsThe following table presents a reconciliation of net debt for each of the periods indicated:June 30, 2024December 31, 2023(In millions)Current Loans payable and other financial liabilities$2,203Â $2,292Â Non-current Loans payable and other financial liabilities2,439Â 2,203Â Current Operating lease liabilities138Â 166Â Non-current Operating lease liabilities623Â 672Â Total debt5,403Â 5,333Â Less:Cash and cash equivalents2,818Â 2,556Â Short-term investments (1)1,271Â 1,191Â Long-term investments (2)338Â 81Â Net debt$976Â $1,505Â (1) Excludes time deposits and foreign government debt securities restricted and held in guarantee.(2) Excludes investments held in VIEs as a consequence of securitization transactions and equity securities held at cost.FX neutralWe believe that FX neutral measures provide useful information to both Management and investors by excluding the foreign currency exchange rate impact that may not be indicative of our core operating results and business outlook.The FX neutral measures were calculated by using the average monthly exchange rates for each month during 2023 and applying them to the corresponding months in 2024, so as to calculate what our results would have been had exchange rates remained stable from one year to the next. The table below excludes intercompany allocation FX effects. Finally, these measures do not include any other macroeconomic effect such as local currency inflation effects, the impact on impairment calculations or any price adjustment to compensate local currency inflation or devaluations.61 | MercadoLibre, Inc.Table of ContentsThe following table sets forth the FX neutral measures related to our reported results of the operations for the six and three-month periods ended JuneÂ 30, 2024:Â Six Months Ended June 30,Â As reportedAs recast (1)PercentageChangeFX Neutral MeasuresAs recast (1)PercentageChange(Unaudited)20242023202420232Â (In millions, except percentages)(In millions, except percentages)Net revenues and financial income$9,406Â $6,771Â 38.9Â %$13,834Â $6,771Â 104.3Â %Cost of net revenues and financial expenses(5,017)(3,326)50.8Â %(6,842)(3,326)105.7Â %Gross profit4,389Â 3,445Â 27.4Â %6,992Â 3,445Â 103.0Â %Operating expenses(3,135)(2,358)33.0Â %(4,929)(2,358)109.0Â %Income from operations$1,254Â $1,087Â 15.4Â %$2,063Â $1,087Â 89.8Â %Three Months Ended June 30,As reportedAs recast (1)PercentageChangeFX Neutral MeasuresAs recast (1)PercentageChange(Unaudited)2024202320242023(In millions, except percentages)(In millions, except percentages)Net revenues and financial income$5,073Â $3,585Â 41.5Â %$7,645Â $3,585Â 113.2Â %Cost of net revenues and financial expenses(2,708)(1,754)54.4Â %(3,737)(1,754)113.1Â %Gross profit2,365Â 1,831Â 29.2Â %3,908Â 1,831Â 113.4Â %Operating expenses(1,639)(1,162)41.0Â %(2,475)(1,162)113.0Â %Income from operations$726Â $669Â 8.5Â %$1,433Â $669Â 114.2Â %(1) Recast for consistency with the current presentation due to the change in the presentation of certain financial results. We consider adjusted free cash flow to be a measure of liquidity generation that provides useful information to management and investors since it shows how much cash the Company generates with its core activities that can be used for discretionary purposes and to repay its corporate and/or commerce debt. A limitation of the utility of adjusted free cash flow as a measure of liquidity generation is that it is a partial representation of the total increase or decrease in our available cash and investments balance for the period. Therefore, we believe it is important to view the adjusted free cash flow measure only as a complement to our entire consolidated statements of cash flows.Net increase (decrease) in available cash and investmentsNet increase (decrease) in available cash and investments represents adjusted free cash flow less net proceeds from/payments on loans payable and other financial liabilities, related to our Commerce and corporate activities, payments of finance lease obligations, other investing and/or financing activities not considered above and the effect of exchange rates changes on available cash and investments. We consider Net increase (decrease) in available cash and investments to be a measure of liquidity availability that provides useful information to management and investors after netting out all other debt and corporate payments and activities from the adjusted free cash flow. The following table shows a reconciliation of Net cash provided by operating activities to Adjusted free cash flow and Net increase in available cash and investments:62 | MercadoLibre, Inc.Table of ContentsSix Months Ended June 30,20242023(In millions)Net cash provided by operating activities ("CFO")$3,394Â $2,271Â Adjustments to reconcile CFO to Adjusted free cash flow (1)35Â 23Â Increase in cash and cash equivalents and investments related to customer funds due to regulatory requirements and other restrictions and equity securities held at cost(701)(693)Investments in property and equipment and intangible assets(332)(203)Changes in loans receivable, net(1,990)(866)Proceeds from/Payments on loans payable and other financial liabilities related to our Fintech solutions, net432Â (204)Adjusted free cash flow838Â 328Â Proceeds from/Payments on loans payable and other financial liabilities, related to our Commerce and Corporate activities, net45Â (61)Other investing and/or financing activities(6)(221)Effect of exchange rate changes on available cash and investments(278)47Net increase in available cash and investments$599Â $93Â Available cash and investments (2), at the beginning of the year3,828Â 3,275Â Available cash and investments (2), at the end of the period4,427Â 3,368Â Net cash used in investing activities(3,551)(1,206)Net cash provided by (used in) financing activities476Â (472)(1) Includes accrued interest and financial income net of interest received from available and restricted investments.(2) Includes cash and cash equivalents, short-term investments (excluding time deposits and foreign government debt securities restricted and held in guarantee) and long-term investments (excluding investments held in VIEs as a consequence of securitization transactions and equity securities held at cost).ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKWe are exposed to market risks arising from our business operations. These market risks arise mainly from macroeconomic instability and the possibility that changes in interest rates and the U.S. dollar exchange rate with local currencies, particularly the Brazilian Real, Argentine Peso and Mexican Peso due to Brazilâ€™s, Argentinaâ€™s and Mexicoâ€™s respective share of our revenues, may affect the value of our financial assets and liabilities.We are also exposed to market risks arising from our long-term retention programs (â€œLTRPsâ€). These market risks arise from our obligations to pay employees cash payments in amounts that vary based on the market price of our stock.Foreign currenciesWe have significant operations internationally that are denominated in foreign currencies, primarily the Brazilian Real, Argentine Peso, Mexican Peso, Colombian Peso and Chilean Peso, subjecting us to foreign currency risk, which may adversely impact our financial results. We transact business in various foreign currencies and have significant international revenues and costs. In addition, we charge our international subsidiaries for their use of intellectual property and technology and for certain corporate services. Our cash flows, results of operations and certain of our intercompany balances that are exposed to foreign exchange rate fluctuations may differ materially from expectations and we may record significant gains or losses due to foreign currency fluctuations and related hedging activities.We use foreign currency exchange forward contracts and currency swaps to protect our foreign currency exposure and our investment in a foreign subsidiary from adverse changes in foreign currency exchange rates. These hedging contracts reduce, but do not entirely eliminate, the impact of adverse foreign currency exchange rate movements. We designate these contracts as cash flow, net investment and fair value hedges for accounting purposes. The derivativesâ€™ gain or loss for cash flow and net investment hedges is initially reported as a component of accumulated other comprehensive loss. Cash flow hedges and net investment hedges are subsequently reclassified into the financial statement line item in which the hedged item is recorded in the same period the forecasted transaction affects earnings. The derivativesâ€™ gain or loss for fair value hedges is reported in our interim condensed consolidated statements of income in the same line items as the change in the value of the hedged item due to the hedged risks.63 | MercadoLibre, Inc.Table of ContentsAs of JuneÂ 30, 2024, we hold cash and cash equivalents in local currencies in our subsidiaries, and have receivables denominated in local currencies in all of our operations. Our subsidiaries generate revenues and incur most of their expenses in the respective local currencies of the countries in which they operate. As a result, our subsidiaries use their local currency as their functional currency except for our Argentine subsidiaries, whose functional currency is the U.S. dollar due to the inflationary environment. As of JuneÂ 30, 2024, the total cash and cash equivalents, restricted cash and cash equivalent denominated in foreign currencies totaled $3,318Â million, short-term investments denominated in foreign currencies totaled $3,077Â million and accounts receivable, credit card receivables and other means of payment and loans receivable in foreign currencies totaled $7,908Â million. As of JuneÂ 30, 2024, we had $68 million long-term investments denominated in foreign currencies. To manage exchange rate risk, our treasury policy is to transfer most cash and cash equivalents in excess of working capital requirements into U.S. dollar-denominated accounts in the United States and to enter into certain foreign exchange derivatives, such as currency forwards contracts, in order to mitigate our exposure to foreign exchange risk. As of JuneÂ 30, 2024, our U.S. dollar-denominated cash and cash equivalents, restricted cash and cash equivalents and short-term investments totaled $1,501Â million and our U.S. dollar-denominated long-term investments totaled $348Â million.For the six and three-month periods ended JuneÂ 30, 2024, we had a consolidated loss on foreign currency of $92 million and $58 million, respectively, mainly related to foreign exchange losses from our Brazilian, Argentine and Mexican subsidiaries. See "Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operationsâ€”Results of operationsâ€” Other income (expenses), netâ€ for more information.Foreign currency sensitivity analysisThe table below shows the impact on our net revenues, cost of net revenues and financial expenses, operating expenses, other income (expenses) and income tax, net income and equity for a positive and a negative 10% fluctuation on all the foreign currencies to which we are exposed to at the moment of translating our financial statements to U.S. dollars for the six-month period ended JuneÂ 30, 2024:(10)% (1)Actual10% (2)(In millions)Net revenues and financial income$10,449Â $9,406Â $8,552Â Expenses (3)(9,004)(8,152)(7,454)Income from operations1,445Â 1,254Â 1,098Â Other income (expenses) and income tax expense related to P&L items(318)(287)(261)Foreign Currency impact related to the remeasurement of our Net Asset position(103)(92)(83)Net Income$1,024Â $875Â $754Â Â Â Total Shareholdersâ€™ Equity$4,056Â $3,656Â $3,328Â (1) Increase of the subsidiariesâ€™ local currency against U.S. Dollar.(2) Decrease of the subsidiariesâ€™ local currency against U.S. Dollar.(3) Includes cost of net revenues and financial expenses and operating expenses.The table above shows an increase in our net income when the U.S. dollar weakens against foreign currencies because of the positive impact of the increase in income from operations. On the other hand, the table above shows a decrease in our net income when the U.S. dollar strengthens against foreign currencies because of the negative impact of the decrease in income from operations.Brazilian segmentConsidering a hypothetical increase of 10% of the Brazilian Real exchange rate against the U.S.

dollar on JuneÂ 30, 2024, the reported net assets in our Brazilian subsidiaries would have decreased by approximately $251 million with the related impact in Other Comprehensive Income. Additionally, we would have recorded a foreign currency loss amounting to approximately $45 million in our Brazilian subsidiaries.Argentine segmentIn accordance with U.S. GAAP, we have classified our Argentine operations as highly inflationary since July 1, 2018, using the U.S. dollar as the functional currency for purposes of reporting our financial statements. Therefore, no translation effect has been accounted for in other comprehensive income related to our Argentine operations since July 1, 2018. Argentinaâ€™s inflation rate for the six-month periods ended JuneÂ 30, 2024 and 2023 was 18.6% and 23.8%, respectively.We use Argentinaâ€™s official exchange rate to account for transactions in our Argentine segment, which as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 was 912.00 and 808.45 Argentine Pesos, respectively, against the U.S. dollar. For the six-month periods ended JuneÂ 30, 2024 and 2023 Argentinaâ€™s official exchange rate against the U.S. dollar increased 6.3% and 22.8%, respectively. The average exchange rate for the six-month periods ended JuneÂ 30, 2024 and 2023 was 886.13 and 232.18, respectively, resulting in an increase of 282%.Considering a hypothetical increase of 10% of the Argentine Peso exchange rate against the U.S. dollar on JuneÂ 30, 2024, the effect on non-functional currency net liability position in our Argentine subsidiaries would have been a foreign exchange gain amounting to approximately $9 million in our Argentine subsidiaries.64 | MercadoLibre, Inc.Table of ContentsSee NoteÂ 2Â â€“ Summary of significant accounting policies - Foreign currency translation - Argentine currency status and Argentine exchange regulationsâ€ of our unaudited interim condensed consolidated financial statements for further detail on the currency status and the exchange regulations of our Argentine segment.Mexican segmentConsidering a hypothetical increase of 10% of the Mexican Peso exchange rate against the U.S. dollar on JuneÂ 30, 2024, the reported net assets in our Mexican subsidiaries would have decreased by approximately $99 million with the related impact in Other Comprehensive Income. Additionally, we would have recorded a foreign currency loss amounting to approximately $13 million in our Mexican subsidiaries.InterestOur earnings and cash flows are also affected by changes in interest rates. These changes could have an impact on the interest rates that financial institutions charge us prior to the time we sell our Mercado Pago receivables and on the financial debt that we use to fund Mercado Pago and Mercado Creditoâ€™s operations. As of JuneÂ 30, 2024, Mercado Pagoâ€™s receivables totaled $4,168Â million. Interest rate fluctuations could also impact interest earned through our Mercado Credito solution. As of JuneÂ 30, 2024, loans receivable net of the allowance for doubtful accounts from our Mercado Credito solution totaled $3,551Â million. Interest rate fluctuations could also negatively affect certain of our fixed rate and floating rate investments comprised primarily of time deposits, money market funds and sovereign debt securities. Investments in both fixed rate and floating rate interest earning products carry a degree of interest rate risk. Fixed rate securities may have their fair value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than predicted if interest rates fall.As of JuneÂ 30, 2024, our short-term investments amounted to $4,073Â million and our long-term investments amounted to $416Â million. Our short-term investments can be readily converted at any time into cash or into securities with a shorter remaining time to maturity. We determine the appropriate classification of our investments at the time of purchase and re-evaluate such designations as of each balance sheet date. See NoteÂ 3Â â€“ Fintech Regulations and NoteÂ 5Â â€“ Cash, cash equivalents, restricted cash and cash equivalents and investments of our unaudited interim condensed consolidated financial statements for further detail on our restricted investments.Fluctuations of the interest rate could also have a negative impact on interest expense related to our Loans payable and other financial liabilities, as a portion of these instruments is subject to variable interest rates. As of JuneÂ 30, 2024, our loans payable and other financial liabilities which accrue interest based on variable rates amounted to $2,953Â million, while our loans payable and other financial liabilities, which accrue interest based on fixed rates, amounted to $1,689Â million. See NoteÂ 13Â â€“ Loans payable and other financial liabilities and NoteÂ 14Â â€“ Securitization transactions of our unaudited interim condensed consolidated financial statements for further detail. Considering a hypothetical increase of 100 basis points in the interest rates, the reported interest expense related to Loans payable and other financial liabilities for the six-month period ended JuneÂ 30, 2024 would have increased by approximately $15 million with the related impact in cost of net revenues and financial expenses or in interest expense and other financial losses. We have entered into swap contracts to hedge the interest rate fluctuation of $386Â million notional amount, $224Â million of which have been designated as hedging instruments. See NoteÂ 16Â â€“ Derivative instruments of our unaudited interim condensed consolidated financial statements for further detail on derivative instruments.Equity price riskOur Board, upon the recommendation of the compensation committee, approved the 2019, 2020, 2021, 2022, 2023 and 2024 Long Term Retention Programs (the â€œ2019, 2020, 2021, 2022, 2023 and 2024 LTRPsâ€), respectively, under which certain eligible employees have the opportunity to receive cash payments annually for a period of six years. Investments in entities where the Company holds joint control, but not control, over the investee are accounted for using the equity method of accounting. As of JuneÂ 30, 2024, the Company had no investments where it has the ability to exercise joint control. These unaudited interim condensed consolidated financial statements are stated in U.S. dollars, except where otherwise indicated. Intercompany transactions and balances have been eliminated for consolidation purposes.Substantially all net revenues and financial income, cost of net revenues and financial expenses and operating expenses, are generated in the Companyâ€™s foreign operations. Long-lived assets, intangible assets and goodwill and operating lease right-of-use assets located in the foreign jurisdictions totaled $2,148 million and $2,321 million as of JuneÂ 30, 2024 and DecemberÂ 31, 2023, respectively.These unaudited interim condensed consolidated financial statements reflect the Companyâ€™s consolidated financial position as of JuneÂ 30, 2024 and DecemberÂ 31, 2023. These unaudited interim condensed consolidated financial statements include all normal recurring adjustments that Management believes are necessary to fairly state the Companyâ€™s financial position, operating results and cash flows. Because all of the disclosures required by U.S. GAAP for annual consolidated financial statements are not included herein, these unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto for the year ended DecemberÂ 31, 2023, contained in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (â€œSECâ€) (the â€œCompanyâ€™s 2023 10-Kâ€). The Company has evaluated all subsequent events through the date these unaudited interim condensed consolidated financial statements were issued. The interim condensed consolidated statements of income, comprehensive income, equity and cash flows for the periods presented herein are not necessarily indicative of results expected for any future period. For a more detailed discussion of the Companyâ€™s significant accounting policies, see Note 2 to the financial statements in the Companyâ€™s 2023 10-K. During the six-month period ended JuneÂ 30, 2024, there were no material updates made to the Companyâ€™s significant accounting policies. For information regarding the change in the presentation of the statements of income, please refer to section â€œChange in the presentation of certain financial results and reclassification of prior year resultsâ€ of NoteÂ 2Â â€“ Summary of significant accounting policies of these unaudited interim condensed consolidated financial statements.Change in the presentation of certain financial results and reclassification of prior year resultsChange in the presentation of certain financial results Mercado Pago Fintech platform operations have significantly evolved during the last several years, not only because of the increase in the volume of transactions but also as a result of transitioning from being a non-regulated business to a regulated business, subject to the oversight of central banks and other regulators in the various countries in which the Company operates (refer to NoteÂ 3Â â€“ Fintech Regulations to the consolidated financial statements in the Companyâ€™s 2023 10-K for further details).Many of the regulations to which the Company is subject require the Company, among other things, to maintain liquidity reserves to guarantee the funds on usersâ€™ account balances in their Mercado Pago digital accounts. Depending on the country, these reserves can be partially or totally invested. During the last several years, these new regulations, coupled with the increase in the volume of transactions, have led the Company to view interest income and other financial gains from investments of these liquidity reserves as part of the Companyâ€™s operations.Furthermore, the evolution of Mercado Pagoâ€™s activities themselves has resulted in the Company managing a significant volume of cash, cash equivalents and investments. This is due to an increase in usersâ€™ account balances in their Mercado Pago digital account managed by the Company, and an increase in the level of the Companyâ€™s indebtedness to finance those operations. As a result, these Mercado Pagoâ€™s funds, together with the financing activities, have generated a significant volume of interest income and other financial gains and interest expenses and other financial losses, respectively.The Company believes that these regulatory trends and related activities will continue and, therefore, with the goal of creating a better measure of the performance of the Company, the Company decided to reclassify and present certain financial results from â€œOther income (expenses)â€ to â€œNet services revenues and financial incomeâ€ and â€œCost of net revenues and financial expenses,â€ in the statement of income, starting January 1, 2024 and for all prior periods presented. The reclassified financial results are related to activities that are needed or mandatory for Mercado Pagoâ€™s operations, and consist of:â– interest income derived from investments and cash and cash equivalents, generated as part of the treasury strategy of the fintech business and because of the different regulations that require liquidity reserves, net of sales taxes;â– interest expense and other financing costs generated by the different sources of funding of the fintech activities; and â– gains and losses of derivatives hedging risks related to Mercado Pagoâ€™s activities.Reclassification of prior year resultsAccording to the Accounting Standards Codification (â€œASCâ€) 205, Presentation of Financial Statements, the Company should present in a consistent manner all periods presented within the accompanying unaudited interim condensed consolidated financial statements. Therefore, prior period balances have been reclassified for consistency with the current presentation. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Companyâ€™s 2023 10-K.This reclassification did not have an impact on previously reported net income, earnings per share, retained earnings or other components of equity or total equity.The following tables, recast for the changes summarized above, present condensed statement of income line items affected by the revisions and reclassifications of previously reported financial statements, detailing amounts previously reported, the impact upon those line items due to reclassifications and amounts as currently revised within the financial statements:Three Months Ended March 31, 2023Six Months Ended June 30, 2023Nine Months Ended September 30, 2023For the Year Ended December 31, 2023RecastAs reportedReclassificationRecastRecastRecast(In millions)(In millions)(In millions)(In millions)Net service revenues and financial income$2,912Â $5,814Â $319Â $6,133Â $9,719Â $13,617Â Net product revenues274Â 638Â â€”Â 638Â 979Â 1,490Â Net revenues and financial income3,186Â 6,452Â 319Â 6,771Â 10,698Â 15,107Â Cost of net revenues and financial expenses(1,572)(3,196)(130)(3,326)(5,158)(7,517)Gross profit1,614Â 3,256Â 189Â 3,445Â 5,540Â 7,590Â Operating expenses:Product and technology development(381)(749)â€”Â (749)(1,145)(1,831)Sales and marketing(383)(766)â€”Â (766)(1,207)(1,736)Provision for doubtful accounts(252)(474)â€”Â (474)(751)(1,050)General and administrative(180)(369)â€”Â (369)(565)(766)Total operating expenses(1,196)(2,358)â€”Â (2,358)(3,668)

estimatesThe preparation of these unaudited interim condensed consolidated financial statements in conformity with U.S. GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used for, but not limited to, accounting and disclosures for allowance for doubtful accounts and chargeback provisions, inventories valuation reserves, recoverability of goodwill, intangible assets with indefinite useful lives and deferred tax assets, impairment of short-term and long-term investments, impairment of long-lived assets, separation of lease and non lease components for aircraft leases, asset retirement obligation, compensation costs relating to the Companyâ€™s long term retention program, fair value of customer crypto-assets safeguarding assets and liabilities, fair value of certain loans payable and other financial liabilities, fair value of loans receivable, fair value of derivative instruments, income taxes, contingencies and determination of the incremental borrowing rate at commencement date of lease operating agreements. Actual results could differ from those estimates.Customer crypto-assets safeguarding assets and liabilitiesAs of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the fair value of the crypto-assets held in customersâ€™ names by third-party service providers that the Company recognized on its consolidated balance sheets for both the crypto-asset safeguarding liability and the corresponding safeguarding asset, which are included in â€œCustomer crypto-assets safeguarding liabilitiesâ€ and â€œCustomer crypto-assets safeguarding assets,â€ respectively, was $67 million and $34 million, respectively, which consisted of $38 million and $18 million of Bitcoin, $14 million and $7 million of Ether, and $15 million and $9 million of other crypto-assets, respectively.For further information related to customer crypto-assets safeguarding assets and liabilities please refer to Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K.Supplier finance programsThe Company and certain financial institutions participate in a supplier finance program that enables certain of the Companyâ€™s suppliers, at their own election, to request the payment of their invoices to the financial institutions earlier than the terms stated in the Companyâ€™s payment policy. As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the obligations outstanding that the Company has confirmed as valid to the financial institutions amounted to $388 million and $381 million, respectively. For further information related to Supplier Finance Programs please refer to Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. Revenue recognitionRevenue recognition criteria for the services provided and goods sold by the Company are described in Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. The aggregate gain included in â€œFinancial services and incomeâ€ revenues arising from financing transactions and sales of financial assets, net of the costs recognized on sale of credit card receivables, is $835 million and $470 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $676 million and $340 million for the six and three-month periods ended JuneÂ 30, 2023, respectively.Revenues recognized under ASC 606, Revenue from contracts with customers, amounted to $6,991 million and $3,765 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $4,644 million and $2,479 million for the six and three-month periods ended JuneÂ 30, 2023, respectively. Revenues not recognized under ASC 606 amounted to $2,415 million and $1,308 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $2,127 million and $1,106 million for the six and three-month periods ended JuneÂ 30, 2023, respectively.Contract balancesTiming of revenue recognition may differ from the timing of invoicing to customers. Receivables represent amounts invoiced and revenue recognized prior to invoicing when the Company has satisfied the performance obligation and has the unconditional right to payment. Accounts receivable and credit card receivables and other means of payments are presented net of allowance for doubtful accounts and chargebacks of $41 million and $42 million as of JuneÂ 30, 2024 and DecemberÂ 31, 2023, respectively. See NoteÂ 6Â â€“ Loans receivable, net of these unaudited interim condensed consolidated financial statements for information related to the allowance for doubtful accounts with respect to the Companyâ€™s loans receivable.Contract liabilities from contracts with customers consists of fees received related to unsatisfied performance obligations at the end of the period in accordance with ASC 606. Due to the generally short-term duration of contracts, the majority of the performance obligations are satisfied in the following months. Contract liabilities from contracts with customers as of DecemberÂ 31, 2023 was $51 million, of which $43 million was recognized as revenue during the six-month period ended JuneÂ 30, 2024.As of JuneÂ 30, 2024, total contract liabilities from contracts with customers recognized within current other liabilities was $95 million, mainly due to fees related to classifieds advertising services billed, subscriptions and loyalty programs, shipping services and inventory sales that are expected to be recognized as revenue in the coming months.Foreign currency translationAll of the Companyâ€™s foreign operations have determined the local currency to be their functional currency, except for Argentina, which has used the U.S. dollar as its functional currency since July 1, 2018. Accordingly, the foreign subsidiaries with local currency as functional currency translate assets and liabilities from their local currencies into U.S. dollars by using period-end exchange rates while income and expense accounts are translated at the average monthly rates in effect during the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of the transaction are used. The resulting translation adjustment is recorded as a component of other comprehensive income (loss). Gains and losses resulting from transactions denominated in non-functional currencies are recognized in earnings. Net foreign currency transaction results are included in the interim condensed consolidated statements of income under the caption â€œForeign currency losses, netâ€.Argentine currency status and macroeconomic outlookAs of July 1, 2018, the Company transitioned its Argentine operations to highly inflationary status in accordance with U.S. GAAP, and changed the functional currency for Argentine subsidiaries from Argentine Pesos to U.S. dollars, which is the functional currency of their immediate parent company. Argentinaâ€™s inflation rate for the six and three-month periods ended JuneÂ 30, 2024 and 2023 was 79.8% and 18.6%, and 50.7% and 23.8%, respectively. Additionally, Argentinaâ€™s average inter-annual inflation rate for the six and three-month periods ended June 30, 2024 was 275.9% and 279.1%, respectively. The Company uses Argentinaâ€™s official exchange rate to account for transactions in the Argentine segment, which as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 was 912.00 and 808.45 Argentine Pesos, respectively, against the U.S. dollar. For the six-month periods ended JuneÂ 30, 2024 and 2023, Argentinaâ€™s official exchange rate against the U.S. dollar increased 12.8% and 44.9%, respectively. The average exchange rate for the six-month periods ended JuneÂ 30, 2024 and 2023 was 860.3 and 212.3, respectively, resulting in an increase of 305.2%.The following table sets forth the assets, liabilities and net assets of the Companyâ€™s Argentine subsidiaries and consolidated VIEs, before intercompany eliminations, as of JuneÂ 30, 2024 and DecemberÂ 31, 2023:June 30,2024December 31,2023(In millions)Assets$3,642Â $3,298Â Liabilities2,899Â 1,878Â Net assets$743Â $1,420Â The following table provides information relating to net revenues and financial income and direct contribution (see NoteÂ 9Â â€“ Segments of these unaudited interim condensed consolidated financial statements for definition of direct contribution) for the six and three-month periods ended JuneÂ 30, 2024 and 2023 of the Companyâ€™s Argentine subsidiaries and consolidated VIEs:Six Months Ended June 30,Â Â Â Â Â Â Â Â Three Months Ended June 30,2024202320242023(In millions)(In millions)Net revenues and financial income$1,478Â $1,642Â $863Â $855Â Direct contribution 605Â 775Â 381Â 407Â Argentine exchange regulationsSince the second half of 2019, the Argentine government instituted exchange controls restricting the ability of companies and individuals to exchange Argentine Pesos for foreign currencies and their ability to remit foreign currency out of Argentina. An entityâ€™s authorization request to the Central Bank of Argentina (â€œCBAâ€) to access the official exchange market to make foreign currency payments may be denied depending on the circumstances. As a result of these exchange controls, markets in Argentina developed trading mechanisms, in which an entity or individual buys U.S. dollar denominated securities in Argentina (i.e. shares, sovereign debt) using Argentine Pesos, and subsequently sells the securities for U.S. dollars, in Argentina, to access U.S. dollars locally, or outside Argentina, by transferring the securities abroad, prior to being sold (the latter commonly known as â€œBlue Chip Swap Rateâ€). The Blue Chip Swap Rate has diverged significantly from Argentinaâ€™s official exchange rate (commonly known as the exchange spread). In recent years, the Blue Chip Swap Rate has been higher than Argentinaâ€™s official exchange rate. As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the exchange spread was 48.0% and 20.4%, respectively.As part of the exchange controls, since 2019, the Argentine government imposes a tax on the acquisition of foreign currency through the official exchange market in certain circumstances. On July 24, 2023, through the Executive Power Decree No. 377/2023, the Argentine government extended the application of this tax to the following cases: (i) certain services acquired from abroad or services rendered by foreign residents in Argentina (i.e. technical, legal, accounting, management, advertising, engineering, audiovisual services, among others), which will be subject to a 25% tax rate, (ii) freight and other transportation services for import and export of goods, which will be subject to a 7.5% tax rate; and (iii) imported goods, which will be subject to a 7.5% tax rate, with certain exemptions (such as fuels and products of the basic food basket). Later, the Decree No. 29/2023, modified the tax rate for the cases mentioned above under ii) and iii) from 7.5% to 17.5%.Income taxesIncome taxesâ€™ accounting policy is described in Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. The Companyâ€™s consolidated estimated effective tax rate for the six and three-month periods ended JuneÂ 30, 2024 decreased as compared to the same periods in 2023, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of the Companyâ€™s own common stock in the Argentine market, which was considered as a non-deductible expense, (ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, the Argentine operationsâ€™ functional currency is the U.S. dollar due to the highly inflationary status of the country, (iii) higher pre-tax gains in a Mexican subsidiary that has accounted for a valuation allowance on tax loss carry forward, and (iv) higher deductions related to tax inflation adjustments in Argentina.A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of the Companyâ€™s deferred tax assets will not be realized. In accordance with ASC 740, Management periodically assesses the need to either establish or reverse a valuation allowance for deferred tax assets considering positive and negative objective evidence related to the realization of the deferred tax assets. In its assessment, Management considers, among other factors, the nature, frequency and magnitude of current and cumulative losses on an individual subsidiary basis, projections of future taxable income, the duration of statutory carryforward periods, as well as feasible tax planning strategies, which would be employed by the Company to prevent tax loss carryforwards from expiring unutilized. Knowledge-based economy promotional regime in ArgentinaIn August 2021, the Under Secretariat of Knowledge Economy issued the Disposition 316/2021 approving MercadoLibre S.R.L.â€™s application for eligibility under the knowledge-based economy promotional regime, established by the Law No. 27,506 and complemented by Argentinaâ€™s Executive Power Decree No. 1034/2020, Argentinaâ€™s Ministry of Productive Developmentâ€™s Resolution No. 4/2021 and the Under Secretariat of Knowledge Economyâ€™s Disposition No. 11/2021. As a result, the Company recorded an income tax benefit of $5 million and $4 million, and $21 million and $11 million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. The aggregate per share effect of the income tax benefit amounted to $0.09 and $0.08, and $0.42 and $0.23 for the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. Furthermore, the Company recorded a social security benefit of $32Â million and $15 million, and $33Â million and $15Â million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively.Fair value option applied to certain financial instrumentsUnder ASC 825, U.S. GAAP provides an option to elect fair value with impact on the statement of income as an alternative measurement for certain financial instruments and other items on the balance sheet. The Company has elected to measure certain financial assets at fair value with impact on the statement of income for several reasons including to avoid the mismatch generated by the recognition of certain linked instruments / transactions, separately, in the interim condensed consolidated statements of income and interim condensed consolidated statements of comprehensive income and to better reflect the financial model applied for selected instruments. The Companyâ€™s election of the fair value option applies to: i) foreign government debt securities, and ii) U.S. government debt securities.Recently Adopted Accounting StandardsAs of the date of issuance of these unaudited interim condensed consolidated financial statements there were no accounting pronouncements recently adopted by the Company.Recently issued accounting pronouncements not yet adoptedOn November 27, 2023, the FASB issued the ASU 2023-07 â€œSegment Reporting (Topic 280)â€”Improvements to Reportable Segment Disclosuresâ€. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance should be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. The new framework, which was effective starting in July 2023 with full implementation by January 2025, will extend the application of the rule regarding proportionality of regulatory requirements (currently applicable to conglomerates of financial institutions) to financial conglomerates led by payment institutions. The new rules require a gradual increase, between 2023 and 2025, in the regulatory capital requirements applicable to the Companyâ€™s regulated Brazilian subsidiaries based on the following schedule: from July 2023 onwards, 6.75%, from January 2024 onwards, 8.75% and from January 2025 onwards, 10.50%.On January 2, 2024, article 28 of Law 14,690 came into force, which caps the total amount that may be charged to a credit card holder in the form of interest and financial charges at the value of the original debt. The Central Bank of Brazil also defined rules on the Resolution CMN NÂ° 5,112, clarifying the topic and defining criteria for calculating the original value of the debt in card revolving and invoice financing operations. To comply with the new regulation, Companyâ€™s subsidiaries reduced the duration of the credit card invoice financing plans since January 2024.On June 28, 2024, Law No. 14,905 was enacted, modifying Decree No. 22,626, known as the "Lei da Usura". The law will come into force on August 28, 2024, resulting in operations undertaken with institutions authorized by the Central Bank of Brazil, such as Mercado Pago InstituiÃ§Ã£o de Pagamento Ltda., no longer being subject to the previously imposed interest rate cap.Argentina On May 18, 2023, the Central Bank of Argentina (â€œCBAâ€) enacted a new regulation establishing that QR Codes must be interoperable with credit card payments, effective as from May 1, 2024. This regulation also expanded the payment services providers (â€œPSPâ€ according to its Spanish acronym) registry and established that certain entities that accept, acquire, aggregate or sub-acquire payments must be registered. Under this regulation, MercadoLibre S.R.L. was required to register as both an acceptor and an aggregator of payments, and Mercado Pago Servicios de Procesamiento S.R.L. was required to register as an acquirer of payments. The Companyâ€™s subsidiaries completed their registrations as acceptor, acquirer and aggregator, as applicable, on April 9, 2024, February 23, 2024 and June 24, 2024, respectively.On September 14, 2023, the CBA established that starting on December 1, 2023, DEBIN (debit immediate), the main and simple funding source of Mercado Pago usersâ€™ accounts, will be suspended and replaced with a pull transfer method that requires the consent of the client outside of Mercado Pagoâ€™s environment before the first use. After several extensions of the application of the rule, on April 30, 2024, the CBA approved a new method of pull transfer that no longer requires the consent of the client outside of Mercado Pagoâ€™s environment.On June 6, 2024, the CBA established that payment service providers who offer payment accounts (â€œPSPOCPâ€ according to its Spanish acronym) are no longer required to distribute the returns generated by their clients' funds. However, financial institutions are still required to set up a reserve of 100% of the customer funds deposited by Mercado Pago and may invest up to 45% of those funds in Argentine bonds.Chile On October 12, 2022, the Chilean Congress approved the Fintech and Open-Banking Law Project, which was published on January 4, 2023, and came into effect on February 3, 2023. This law established a regulatory framework for certain technological financial services that did not have their own legal framework. These services are: (i) Alternative Transaction Systems, (ii) Crowdfunding Financing Platforms, (iii) Financial Instrument Intermediation, (iv) Order Routing, (v) Credit Advisory, and (vi) Investment Advisory. Pursuant to this law, Mercado Pago Crypto S.A. shall file a license request with the Commission for the Financial Market (â€œCMFâ€ according to its Spanish acronym) in order to continue offering Order Routing services through the â€œbuy, hold and sellâ€ product launched in 2023 in collaboration with Ripio Chile SpA. The rules governing the specifics of this filing and the license that CMF must grant, were issued on January 12, 2024, giving Mercado Pago Crypto S.A. until February 3, 2025 to file the license request. In addition, an Open Finance System is created to allow financial service providers to exchange customer financial information.On April 8, 2024, the Cybersecurity Law was published. Although Mercado Pago Chilean entities already comply with the lawâ€™s main obligations as a result of being regulated entities, as a result of this new law, such entities will be subject to a new regulator and must comply with certain reporting requirements for cyber security incidents. We expect that the Mercado Pago Chilean entities will be required to comply with these new reporting requirements sometime during 2025 or 2026.On May 30, 2024, the Chilean Congress passed Law 21,673, amending Law 20,009, which, effective as of June 1, 2024, establishes a limited liability regime for users of prepaid cards in case of loss, theft, or fraud. Pursuant to Law 21,673, there may be instances in which an issuer may suspend a refund in the event of fraud or serious fault on behalf of the user claiming such refund on account of allegedly fraudulent charges. MercadoPago is in the process of implementing these measures for its compliance.ColombiaIn June 2023, MercadoPago S.A. CompaÃ±Ãa de Financiamiento obtained a license to operate as a financial institution in Colombia, and therefore is able to offer credits, digital accounts, investments and prepaid cards. On April 22, 2024, MercadoPago S.A. CompaÃ±Ãa de Financiamiento started operations offering, for the moment, the â€œOrdinary Depositâ€ product only and is subject to minimum capital, reporting, consumer protection and risk management requirements. In accordance with regulations, deposits are now subject to regulatory liquidity, reserve, and solvency requirements to ensure the protection of customers' funds.UruguayOn April 12, 2024, MercadoPago Uruguay S.R.L. initiated a process with the Central Bank of Uruguay (â€œBCUâ€) to be authorized to act as a payment acquirer with transfers, as an activity related to electronic money issuances, in compliance with new regulations that came into effect on March 1, 2024. On April 17, 2024, MercadoPago Uruguay S.R.L. was approved as a participant in the automated clearing house managed by Urutec S.A. This approval allows MercadoPago Uruguay S.R.L. to participate in the fast payment system and offer a new payment method to its users: interoperable QR transfer payments. The release date for interoperable QR transfer payments is still under review by the regulator.On July 3, 2024, MercadoPago Uruguay S.R.L. received authorization from the BCU to offer acquiring services, which are expected to be developed during the second half of 2024. For the six and three-month periods ended JuneÂ 30, 2024, the Company recognized in Provision for doubtful accounts $4 million as expected credit losses, and $3 million and $(1)Â million for the same periods in 2023, respectively.The Company closely monitors credit quality for all loans receivable on a recurring basis to assess and manage its exposure to credit risk. To assess merchants and consumers seeking a loan under the Mercado Credito solution, the Company uses, among other indicators, risk models internally developed, as a credit quality indicator to help predict the merchantâ€™s and consumerâ€™s ability to repay the principal balance and interest related to the credit. The risk model uses multiple variables as predictors of the merchantâ€™s and consumerâ€™s ability to repay the credit, including external and internal indicators. Internal indicators consider user behavior related to credit/payment history, and with lower weight in the risk models, the Company uses the number of transactions in the Companyâ€™s ecosystem and the merchantâ€™s annual sales volume, among other indicators. In addition, the Company considers external bureau information to enhance the model and the decision making process.The amortized cost of the loans receivable classified by the Companyâ€™s credit quality internal indicator was as follows:June 30, 2024December 31, 2023(In millions)1-14 days past due$146Â $99Â 15-30 days past due107Â 92Â 31-60 days past due146Â 114Â 61-90 days past due150Â 103Â 91-120 days past due133Â 111Â 121-150 days past due145Â 97Â 151-180 days past due112Â 82Â 181-210 days past due97Â 76Â 211-240 days past due99Â 74Â 241-270 days past due91Â 69Â 271-300 days past due90Â 59Â 301-330 days past due78Â 74Â 331-360 days past due62Â 66Â Total past due1,456Â 1,116Â To become due3,448Â 2,662Â Total$4,904Â $3,778Â As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, renegotiations represented 2.1% and 2.8% of the loans receivable portfolio, respectively.The following

The Companyâ€™s segments include Brazil, Argentina, Mexico and other countries (which includes Chile, Colombia, Costa Rica, Ecuador, Peru and Uruguay).Direct contribution consists of net revenues and financial income from external customers less direct costs, which include costs of net revenues and financial expenses, product and technology development expenses, sales and marketing expenses, provision for doubtful accounts and general and administrative expenses over which segment managers have direct discretionary control, such as advertising and marketing programs, customer support expenses, payroll and third-party fees. All corporate related costs have been excluded from the segmentâ€™s direct contribution.Expenses over which segment managers do not currently have discretionary control, such as certain technology and general and administrative costs, are monitored by Management through shared cost centers and are not evaluated in the measurement of segment performance.The following tables summarize the financial performance of the Companyâ€™s reporting segments:Six Months Ended June 30, 2024BrazilArgentinaMexicoOther CountriesTotal(In millions)Net revenues and financial income$5,357Â $1,478Â $2,172Â $399Â $9,406Â Direct costs(4,120)(873)(1,754)(352)(7,099)Direct contribution 1,237Â 605Â 418Â 47Â 2,307Â Operating expenses and indirect costs of net revenues and financial expenses(1,053)Income from operations1,254Â Other income (expenses):Interest income and other financial gains64Â Interest expense and other financial losses(77)Foreign currency losses, net(92)Net income before income tax expense and equity in earnings of unconsolidated entity$1,149Â Six Months Ended June 30, 2023 (1)BrazilArgentinaMexicoOther CountriesTotal(In millions)Net revenues and financial income$3,481Â $1,642Â $1,334Â $314Â $6,771Â Direct costs(2,691)(867)(988)(290)(4,836)Direct contribution 790Â 775Â 346Â 24Â 1,935Â Operating expenses and indirect costs of net revenues and financial expenses(848)Income from operations1,087Â Other income (expenses):Interest income and other financial gains57Â Interest expense and other financial losses(83)Foreign currency losses, net(269)Net income before income tax expense and equity in earnings of unconsolidated entity$792Â (1) Recast for consistency with the current presentation due to the change in the presentation of certain financial results. Expected legal costs related to litigations are accrued when the legal service is actually provided.In addition, as of JuneÂ 30, 2024, the Company and its subsidiaries are subject to certain legal actions considered by the Companyâ€™s Management and its legal counsels to be reasonably possible of resulting in a loss for an estimated aggregate amount up to $209Â million. No loss amounts have been accrued for such reasonably possible legal actions.For further information related to contingent liabilities please refer to Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K.Tax ClaimsBrazilian preliminary injunction against the Brazilian tax authorities (withholding income tax)The tax claim related to the Brazilian preliminary injunction against the Brazilian tax authorities is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On April 3, 2024, the Superior Court of Justice decided to analyze whether the matter under consideration is capable of becoming a binding precedent. In April 2024, the Company submitted a petition claiming that the case is fully capable of being judged as a binding precedent and the civil association, CÃ¢mara Brasileira da Economia Digital, submitted a petition as amicus curiae with the same arguments. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is probable based on the technical merits of the Companyâ€™s tax position and the existence of recent adverse decisions issued by the Superior Court of Justice. For that reason, the Company has recorded a provision for the disputed amounts, which was $325Â million as of JuneÂ 30, 2024, and which was recorded in non-current other liabilities in the consolidated balance sheets, net of the corresponding judicial deposits for $292Â million (which includes $54Â million of interest income). Interstate rate of ICMS-DIFAL on interstate salesInterstate rate of ICMS-DIFAL on interstate sales without Complementary LawThe tax claim related to the interstate rate of ICMS-DIFAL (Imposto sobre CirculaÃ§ao de Mercadorias, ServiÃ§os de Transporte Interestadual, Intermunicipal e ComunicaÃ§Ã£o on interstate sales at a differential rate) without the existence of a complementary law is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. In March 2024, one of the cases related to the State of Santa Catarina (whose risk of losing had been considered probable) received judgment in favor of the State. In June 2024, one of the cases related to the State of Rio de Janeiro (whose risk of losing had been considered remote) received judgment partially in favor of the Company. Therefore, the Company presented a motion of clarification which is now pending judgment. In addition, a case related to the State do GoiÃ¡s (whose risk of losing had been considered probable) received judgment in favor of the Company, as a result of which, in June 2024, the State filed an appeal that is now pending judgment. The remaining cases pending as of DecemberÂ 31, 2023 had no updates during the six-month period ended JuneÂ 30, 2024. The Company maintains a $2Â million provision as of JuneÂ 30, 2024 for the disputed amounts related to the 3 ongoing cases whose risk of losing is considered by Management to be probable, based on the opinion of external legal counsel.Exclusion of ICMS tax benefits from federal taxes baseThe tax claim related to the exclusion of ICMS tax benefits from the tax base of the Corporate Income Tax (â€œIRPJâ€) and of the Social Contribution on Net Profits (â€œCSLLâ€) is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On April 17, 2024, the Federal Regional Court ruled in favor of the Company. Therefore, the Federal Government presented a motion of clarification, which is to be adjudicated in August 2024. The case has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not based on the technical merits of the Companyâ€™s tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of JuneÂ 30, 2024, the total amount under dispute was $51Â million.The tax claim related to the exclusion of ICMS tax benefits from tax base of the Social Contributions (PIS and COFINS) is described in Note 15 to the consolidated financial

statements in the Companyâ€™s 2023 10-K. On April 25, 2024, a ruling favorable to the Company was issued recognizing the Companyâ€™s right to exclude the amounts of credits arising from ICMS tax incentives from the PIS and COFINS calculation basis. On June 7, 2024, the Federal Government filed an appeal. The Company responded to the appeal and the case was referred to the Court for judgment on the request for an appeal. The first instance courtâ€™s decision has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is reasonably possible but not probable based on the technical merits of the Companyâ€™s tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. The Company had recorded $14Â million of PIS and COFINS tax benefits arising from the ICMS tax incentives as of JuneÂ 30, 2024.Administrative Tax ClaimsThe tax assessment claiming corporate income taxes (IRPJ and CSLL) in relation to the 2017 taxable year is described in Note 15 to the consolidated financial statements in the Companyâ€™s 2023 10-K. On July 24, 2024, the administrative body of first instance issued a decision in the case. The decision issued is partially favorable to the Company as it rejected the punitive fine of 150% over the tax charged and reduced it to 100%, but maintained the tax assessment and also the joint tax liability of the Senior Legal Director. The Company will present an appeal in the Federal Administrative Court. The case has not yet become final and unappealable. Managementâ€™s opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of JuneÂ 30, 2024, the total amount under dispute related to IRPJ and CSLL was $68Â million.Buyer protection programThe buyer protection program (â€œBPPâ€) is designed to protect buyers in the Marketplace from losses due primarily to fraud or counterparty non-performance for all transactions completed through the Companyâ€™s online payment solution Mercado Pago (except for certain excluded categories). The Companyâ€™s BPP provides protection to consumers by reimbursing them for the total value of a purchased item and the value of any shipping service paid if it does not arrive, arrives incomplete or damaged, does not match the sellerâ€™s description or if the buyer regrets the purchase. The Company is entitled to recover from the third-party carrier companies performing the shipping service certain amounts paid under the BPP. Furthermore, in some specific circumstances, the Company enters into insurance contracts with third-party insurance companies in order to cover contingencies that may arise from the BPP.The maximum potential exposure under this program is estimated to be the volume of payments on the Marketplace, for which claims may be made under the terms and conditions of the Companyâ€™s BPP. Based on historical losses to date, the Company does not believe that the maximum potential exposure is representative of the actual potential exposure. The Company records a liability with respect to losses under this program when they are probable and the amount can be reasonably estimated.As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, Managementâ€™s estimate of the maximum potential exposure related to the Companyâ€™s buyer protection program is $4,907 million and $5,072 million, respectively, for which the Company recorded a provision of $9 million and $8 million, respectively.CommitmentsThe Company committed to purchase cloud platform services from two U.S. suppliers based on the following terms:1.for a total amount of $824 million, to be paid between October 1, 2021 and September 30, 2026. As of JuneÂ 30, 2024, the Company had paid $524 million; and2.for a total amount of $200 million, to be paid between September 23, 2022 and September 23, 2025. As of JuneÂ 30, 2024, the Company had paid $118 million.On AprilÂ 8, 2022, the Company signed a 10-year agreement with Gol Linhas Aereas S.A. under which the Company is committed to contract a minimum amount of air logistics services for a total annual cost of $43 million (total amount once all the dedicated aircraft are in operation). Pursuant to the agreement, Gol Linhas Aereas S.A. provides logistics services in Brazil to Mercado Envios through six dedicated aircraft, all of which have already started operations as of JuneÂ 30, 2024.Since October 2023, the Company signed 3-year agreements with certain shipping companies in Brazil, under which the Company is committed to contract a minimum amount of logistics services for a total cost of $112 million. On January 10, 2024, the Company signed a 5-year agreement for the naming rights of the Complexo Pacaembu (municipal stadium of the city of SÃ£o Paulo), for a total amount of $56 million. The agreement has the option to extend the term for 5 additional independent periods of 5 years each, for the same amount indexed by the Brazilian inflation rate index IPCA. Securitization Transactions [Abstract] Â SECURITIZATION TRANSACTIONS SECURITIZATION TRANSACTIONS The process of securitization consists of the issuance of securities collateralized by a pool of assets through a special purpose entity (â€œSPEsâ€), often under a VIE.The Company securitizes financial assets associated with its credit card receivables and loans receivable portfolio. The Companyâ€™s securitization transactions typically involve the legal transfer of financial assets to bankruptcy remote SPEs. The Company generally retains economic

interests in the collateralized securitization transactions, which are retained in the form of subordinated interests. For accounting purposes, the Company is generally precluded from recording the transfers of assets in securitization transactions as sales or is required to consolidate the SPE.The Company securitizes certain credit card receivables related to usersâ€™ purchases through Chilean SPEs. Under these SPE contracts, the Company has determined that it has no obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it does not retain any equity certificate of participation or subordinated interest in the SPEs. As the Company does not control the vehicles, its assets, liabilities and related results are not consolidated in the Companyâ€™s financial statements.Additionally, the Company securitizes certain credit card receivables related to usersâ€™ purchases through Brazilian SPEs. Under these SPE contracts, the Company has determined that it has the obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it retains subordinated interest in the SPEs. As the Company controls the vehicles, the assets, liabilities and related results are consolidated in its financial statements.The Company securitizes certain loans receivable through Brazilian, Argentine and Mexican SPEs, formed to securitize loans receivable provided by the Company to its users or purchased from financial institutions that grant loans to the Companyâ€™s users through Mercado Pago. According to the SPE contracts, the Company has determined that it has both the power to direct the activities of the entity that most significantly impact the entityâ€™s performance and the obligation to absorb losses or the right to receive benefits of the entity that could be significant because it retains the equity certificates of participation and would therefore also be consolidated. When the Company controls the vehicle, it accounts for the securitization transactions as if they were secured financing and therefore the assets, liabilities and related results are consolidated in its financial statements.The following table summarizes the Companyâ€™s collateralized debt under securitization transactions, as of JuneÂ 30, 2024:SPEsCollateralized debt as of June 30, 2024(In millions)Interest rateCurrencyMaturityMercado CrÃ©dito I Brasil Fundo de Investimento Em Direitos CreditÃ³rios NÃ£o Padronizados$181CDI + 2.50%Brazilian ReaisMay 2025Mercado CrÃ©dito Fundo de Investimento Em Direitos CreditÃ³rios NÃ£o Padronizado16CDI + 3.50%Brazilian ReaisAugust 2025Olimpia Fundo de Investimento Em Direitos CreditÃ³rios75CDI + 1.25%Brazilian ReaisNovember 2024Mercado CrÃ©dito II Brasil Fundo De Investimento Em Direitos CreditÃ³rios Nao Padronizados215CDI + 2.35%Brazilian ReaisJanuary 2030Seller Fundo De Investimento Em Direitos CreditÃ³rios183CDI + 1.60%Brazilian ReaisMarch 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios91CDI + 1.80%Brazilian ReaisMay 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios36CDI + 1.40%Brazilian ReaisSeptember 2026Seller Fundo De Investimento Em Direitos CreditÃ³rios18CDI + 1.60%Brazilian ReaisNovember 2026Mercado CrÃ©dito Consumo XXVI3Badlar rates plus 200 basis points with a min 100% and a max 160%Argentine PesosJuly - November 2024 (2)Mercado CrÃ©dito Consumo XXVII9Badlar rates plus 200 basis points with a min 100% and a max 180%Argentine PesosAugust 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXVIII11Badlar rates plus 200 basis points with a min 100% and a max 190%Argentine PesosSeptember 2024 - April 2025 (2)Mercado CrÃ©dito Consumo XXIX11Badlar rates plus 200 basis points with a min 75% and a max 155%Argentine PesosOctober 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXX12Badlar rates plus 200 basis points with a min 75% and a max 155%Argentine PesosNovember 2024 - April 2025 (2)Mercado CrÃ©dito Consumo XXXI16Badlar rates plus 200 basis points with a min 45% and a max 125%Argentine PesosDecember 2024 - March 2025 (2)Mercado CrÃ©dito Consumo XXXII18Badlar rates plus 200 basis points with a min 25% and a max 80%Argentine PesosJanuary 2025Mercado CrÃ©dito Consumo XXXIII25Badlar rates plus 200 basis points with a min 5% and a max 60%Argentine PesosMarch - April 2025 (2)Mercado CrÃ©dito Consumo XXXIV (1)18Badlar rates plus 200 basis points with a min 15% and a max 60%Argentine PesosApril - July 2025 (2)Mercado CrÃ©dito XIX1Badlar rates plus 200 basis points with a min 100% and a max 140%Argentine PesosJuly 2024 - August 2025 (2)Mercado CrÃ©dito XX5Badlar rates plus 200 basis points with a min 100% and a max 170%Argentine PesosSeptember - December 2024 (2)Mercado CrÃ©dito XXI6Badlar rates plus 200 basis points with a min 45% and a max 125%Argentine PesosJanuary - March 2025 (2)Mercado CrÃ©dito XXII6Badlar rates plus 200 basis points with a min 15% and a max 70%Argentine PesosMarch - April 2025 (2)Mercado CrÃ©dito XXIII (1)14Badlar rates plus 200 basis points with a min 15% and a max 60%Argentine PesosMay - June 2025 (2)SPEsCollateralized debt as of June 30, 2024(In millions)Interest rateCurrencyMaturityFideicomiso de administraciÃ³n y fuente de pago CIB/3756229The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 2.35%Mexican PesosAugust 2026Fideicomiso de administraciÃ³n y fuente de pago CIB/336933The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 7.0%Mexican PesosJuly 2027Fideicomiso de administraciÃ³n y fuente de pago CIB/3369249The equilibrium interbank interest rate published by Banco de Mexico in the Diario Oficial plus 2.8%Mexican PesosJuly 2027$1,481(1) As of JuneÂ 30, 2024, Loans payables owned by these trusts were obtained through private placements. The Company designated the foreign currency exchange contracts as cash flow hedges, the derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œCost of net revenues and financial expensesâ€ line item, in the same period the forecasted transaction affects earnings. As of JuneÂ 30, 2024, the Company estimated that the whole amount of net derivative gains or losses related to its cash flow hedges included in accumulated other comprehensive loss will be reclassified into the interim condensed consolidated statements of income within the next 12 months.In addition, the Company has entered into swap contracts to hedge the interest rate fluctuation of its financial debt held by one of its Brazilian subsidiaries. The Company designated the swap contracts as cash flow hedges. The derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œCost of net revenues and financial expensesâ€ line item within the next 12 months. As of JuneÂ 30, 2024, there are no outstanding derivatives hedging the interest rate fluctuation of the financial debt designated as cash flow hedges.Fair value hedgesThe Company has entered into swap contracts to hedge the interest rate and the foreign currency exposure of its fixed-rate, foreign currency financial debt held by its Brazilian subsidiaries. The Company designated the swap contracts as fair value hedges. The derivativesâ€™ gain or loss is reported in the interim condensed consolidated statements of income in the same line items as the change in the value of the financial debt due to the hedged risks. Since the terms of the interest rate swaps match the terms of the hedged debts, changes in the fair value of the interest rate swaps are offset by changes in the fair value of the hedged debts attributable to changes in interest rates. Accordingly, the net impact in current earnings is that the interest expense associated with the hedged debts is recorded at the floating rates. Net investment hedgeThe Company used cross currency swap contracts, to reduce the foreign currency exchange risk related to its investment in its Brazilian foreign subsidiaries and the interest rate risk. This derivative was designated as a net investment hedge and, accordingly, gains and losses are reported as a component of accumulated other comprehensive loss. The derivativesâ€™ gain or loss is initially reported as a component of accumulated other comprehensive loss and subsequently reclassified into the interim condensed consolidated statements of income in the â€œInterest expense and other financial lossesâ€ and â€œForeign currency losses, netâ€ line items, in the same period that the interest expense affects earnings. Derivative instruments not designated as hedging instrumentsThe Company entered into certain foreign currency exchange contracts to hedge the foreign currency fluctuations related to certain transactions denominated in U.S. dollars of certain of its Brazilian subsidiaries, whose functional currencies are the Brazilian Real. These transactions were not designated as hedges for accounting purposes. As of JuneÂ 30, 2024, there are no outstanding derivatives hedging the foreign currency fluctuation not designated as hedging instruments.In addition, the Company entered into full cross currency swap contracts to hedge the interest rate fluctuation and foreign currency fluctuations of its financial debt nominated in U.S. dollars held by its Brazilian subsidiaries. These transactions were not designated as hedges for accounting purposes.Finally, as of JuneÂ 30, 2024, the Company entered into swap contracts to hedge the interest rate fluctuation of a certain portion of its financial debt in its Brazilian subsidiaries and VIEs. These transactions were not designated as hedges for accounting purposes.The following table presents the notional amounts of the Companyâ€™s outstanding derivative instruments:Notional Amount as of June 30, 2024December 31, 2023(In millions)Designated as hedging instrumentForeign exchange contracts$91Â $91Â Cross currency swap contracts224Â 244Â Not designated as hedging instrumentForeign exchange contracts$â€”Â $16Â Interest rate swap contracts162Â 245Â Derivative instrument contracts The fair values of the Companyâ€™s outstanding derivative instruments as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 were as follows:Derivative instrumentsBalance sheet locationJune 30, December 31, 20242023(In millions)Foreign exchange contracts designated as cash flow hedgesOther current assets$7Â $â€”Â Cross currency swap contracts designated as fair value hedgeOther current assets22Â 1Â Interest rate swap contracts not designated as hedging instrumentsOther non-current assets20Â 22Â Cross currency swap contracts designated as net investment hedgeOther current liabilities1Â 6Â Cross currency swap contracts designated as fair value hedgeOther current liabilitiesâ€”Â 4Â Interest rate swap contracts not designated as hedging instrumentsOther current liabilities6Â 7Â Foreign exchange contracts not designated as hedging instrumentsOther current liabilitiesâ€”Â 1Â Foreign exchange contracts designated as cash flow hedgesOther current liabilitiesâ€”Â 3Â Interest rate swap contracts not designated as hedging instrumentsOther non-current liabilities15Â 10Â The effects of derivative contracts on the interim condensed consolidated statement of comprehensive income for the six-month periods ended JuneÂ 30, 2024 and JuneÂ 30, 2023 were as follows: December 31,2023Amount of gain recognized in other comprehensive lossAmount of loss reclassified from accumulated other comprehensive lossJune 30,2024(In millions)Foreign exchange contracts designated as cash flow hedges(4)10Â $1Â $7Â Cross currency swap contracts designated as net investment hedge(3)2Â 1Â â€”Â (7)12Â $2Â $7Â December 31,2022Amount of gain (loss) recognized in other comprehensive incomeAmount of (gain) loss reclassified from accumulated other comprehensive lossJune 30,2023(In millions)Foreign exchange contracts designated as cash flow hedges(2)(10)$4Â $(8)Interest swap contracts designated as cash flow hedges(2)8Â (6)â€”Â Cross currency swap contracts designated as net investment hedge(1)(8)4Â (5)(5)(10)$2Â $(13)The effect of the Companyâ€™s fair value hedge relationships on the interim condensed consolidated statements of income for the six and three-month periods ended JuneÂ 30, 2024 is a net gain of $26Â million and $22Â million, respectively, and affected Cost of net revenues and financial expenses and foreign exchange losses, net. Jun. 30, 2024 Accounting Policies [Abstract] Â Basis of presentation Basis of presentationThe accompanying unaudited interim condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (â€œU.S. GAAPâ€) and include the accounts of the Company, its wholly-owned subsidiaries and consolidated Variable Interest Entities (â€œVIEâ€). Investments in entities where the Company holds joint control, but not control, over the investee are accounted for using the equity method of accounting. As of JuneÂ 30, 2024, the Company had no investments where it has the ability to exercise joint control. These unaudited interim condensed consolidated financial statements are stated in U.S. dollars, except where otherwise indicated. Intercompany transactions and balances have been eliminated for consolidation purposes.Substantially all net revenues and financial income, cost of net revenues and financial expenses and operating expenses, are generated in the Companyâ€™s foreign operations. Long-lived assets, intangible assets and goodwill and operating lease right-of-use assets located in the foreign jurisdictions totaled $2,148 million and $2,321 million as of JuneÂ 30, 2024 and DecemberÂ 31, 2023, respectively.These unaudited interim condensed consolidated financial statements reflect the Companyâ€™s consolidated financial position as of JuneÂ 30, 2024 and DecemberÂ 31, 2023. These unaudited interim condensed consolidated financial statements include the Companyâ€™s consolidated statements of income, comprehensive income and equity for the six and three-month periods ended JuneÂ 30, 2024 and 2023 and statements of cash flows for the six-month periods ended JuneÂ 30, 2024 and 2023. These unaudited interim condensed consolidated financial statements include all normal recurring adjustments that Management believes are necessary to fairly state the Companyâ€™s financial position, operating results and cash flows. Because all of the disclosures required by U.S. GAAP for annual consolidated financial statements are not included herein, these unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto for the year ended DecemberÂ 31, 2023, contained in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (â€œSECâ€) (the â€œCompanyâ€™s 2023 10-Kâ€). The Company has evaluated all subsequent events through the date these unaudited interim condensed consolidated financial statements were issued. The interim condensed consolidated statements of income, comprehensive income, equity and cash flows for the periods presented herein are not necessarily indicative of results expected for any future period. For a more detailed discussion of the Companyâ€™s significant accounting policies, see Note 2 to the financial statements in the Companyâ€™s 2023 10-K. During the six-month period ended JuneÂ 30, 2024, there were no material updates made to the Companyâ€™s significant accounting policies. For information regarding the change in the presentation of the statements of income, please refer to section â€œChange in the presentation of certain financial results and reclassification of prior year resultsâ€ of NoteÂ 2Â â€“ Summary of significant accounting policies of these unaudited interim condensed consolidated financial statements. Use of estimates Use of estimatesThe preparation of these unaudited interim condensed consolidated financial statements in conformity with U.S. GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used for, but not limited to, accounting and disclosures for allowance for doubtful accounts and chargeback provisions, inventories valuation reserves, recoverability of goodwill, intangible assets with indefinite useful lives and deferred tax assets, impairment of short-term and long-term investments, impairment of long-lived assets, separation of lease and non lease components for aircraft leases, asset retirement obligation, compensation costs relating to the Companyâ€™s long term retention program, fair value of customer crypto-assets safeguarding assets and liabilities, fair value of certain loans payable and other financial liabilities, fair value of loans receivable, fair value of derivative instruments, income taxes, contingencies and determination of the incremental borrowing rate at commencement date of lease operating agreements. Actual results could differ from those estimates. Customer crypto-assets safeguarding assets and liabilities Customer crypto-assets safeguarding assets and liabilitiesAs of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the fair value of the crypto-assets held in customersâ€™ names by third-party service providers that the Company recognized on its consolidated balance sheets for both the crypto-asset safeguarding liability and the corresponding safeguarding asset, which are included in â€œCustomer crypto-assets safeguarding liabilitiesâ€ and â€œCustomer crypto-assets safeguarding assets,â€ respectively, was $67 million and $34 million, respectively, which consisted of $38 million and $18 million of Bitcoin, $14 million and $7 million of Ether, and $15 million and $9 million of other crypto-assets, respectively. Supplier finance programs Supplier finance programsThe Company and certain financial institutions participate in a supplier finance program that enables certain of the Companyâ€™s suppliers, at their own election, to request the payment of their invoices to the financial institutions earlier than the terms stated in the Companyâ€™s payment policy.

Revenue recognition Revenue recognitionRevenue recognition criteria for the services provided and goods sold by the Company are described in Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. The aggregate gain included in â€œFinancial services and incomeâ€ revenues arising from financing transactions and sales of financial assets, net of the costs recognized on sale of credit card receivables, is $835 million and $470 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $676 million and $340 million for the six and three-month periods ended JuneÂ 30, 2023, respectively.Revenues recognized under ASC 606, Revenue from contracts with customers, amounted to $6,991 million and $3,765 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $4,644 million and $2,479 million for the six and three-month periods ended JuneÂ 30, 2023, respectively. Revenues not recognized under ASC 606 amounted to $2,415 million and $1,308 million for the six and three-month periods ended JuneÂ 30, 2024, respectively, and $2,127 million and $1,106 million for the six and three-month periods ended JuneÂ 30, 2023, respectively.Contract balancesTiming of revenue recognition may differ from the timing of invoicing to customers. Receivables represent amounts invoiced and revenue recognized prior to invoicing when the Company has satisfied the performance obligation and has the unconditional right to payment. Accounts receivable and credit card receivables and other means of payments are presented net of allowance for doubtful accounts and chargebacks of $41 million and $42 million as of JuneÂ 30, 2024 and DecemberÂ 31, 2023, respectively. See NoteÂ 6Â â€“ Loans receivable, net of these unaudited interim condensed consolidated financial statements for information related to the allowance for doubtful accounts with respect to the Companyâ€™s loans receivable.Contract liabilities from contracts with customers consists of fees received related to unsatisfied performance obligations at the end of the period in accordance with ASC 606. Due to the generally short-term duration of contracts, the majority of the performance obligations are satisfied in the following months. Foreign currency translation Foreign currency translationAll of the Companyâ€™s foreign operations have determined the local currency to be their functional currency, except for Argentina, which has used the U.S. dollar as its functional currency since July 1, 2018. Accordingly, the foreign subsidiaries with local currency as functional currency translate assets and liabilities from their local currencies into U.S. dollars by using period-end exchange rates while income and expense accounts are translated at the average monthly rates in effect during the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of the transaction are used. The resulting translation adjustment is recorded as a component of other comprehensive income (loss). Gains and losses resulting from transactions denominated in non-functional currencies are recognized in earnings. Net foreign currency transaction results are included in the interim condensed consolidated statements of income under the caption â€œForeign currency losses, netâ€.Argentine currency status and macroeconomic outlookAs of July 1, 2018, the Company transitioned its Argentine operations to highly inflationary status in accordance with U.S. GAAP, and changed the functional currency for Argentine subsidiaries from Argentine Pesos to U.S. dollars, which is the functional currency of their immediate parent company. Argentinaâ€™s inflation rate for the six and three-month periods ended JuneÂ 30, 2024 and 2023 was 79.8% and 18.6%, and 50.7% and 23.8%, respectively. Additionally, Argentinaâ€™s average inter-annual inflation rate for the six and three-month periods ended June 30, 2024 was 275.9% and 279.1%, respectively. The Company uses Argentinaâ€™s official exchange rate to account for transactions in the Argentine segment, which as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 was 912.00 and 808.45 Argentine Pesos, respectively, against the U.S. dollar. For the six-month periods ended JuneÂ 30, 2024 and 2023, Argentinaâ€™s official exchange rate against the U.S. dollar increased 12.8% and 44.9%, respectively. The average exchange rate for the six-month periods ended JuneÂ 30, 2024 and 2023 was 860.3 and 212.3, respectively, resulting in an increase of 305.2%.The following table sets forth the assets, liabilities and net assets of the Companyâ€™s Argentine subsidiaries and consolidated VIEs, before intercompany eliminations, as of JuneÂ 30, 2024 and DecemberÂ 31, 2023:June 30,2024December 31,2023(In millions)Assets$3,642Â $3,298Â Liabilities2,899Â 1,878Â Net assets$743Â $1,420Â The following table provides information relating to net revenues and financial income and direct contribution (see NoteÂ 9Â â€“ Segments of these unaudited interim condensed consolidated financial statements for definition of direct contribution) for the six and three-month periods ended JuneÂ 30, 2024 and 2023 of the Companyâ€™s Argentine subsidiaries and consolidated VIEs:Six Months Ended June 30,Â Â Â Â Â Â Â Three Months Ended June 30,2024202320242023(In millions)(In millions)Net revenues and financial income$1,478Â $1,642Â $863Â $855Â Direct contribution 605Â 775Â 381Â 407Â Argentine exchange regulationsSince the second half of 2019, the Argentine government instituted exchange controls restricting the ability of companies and individuals to exchange Argentine Pesos for foreign currencies and their ability to remit foreign currency out of Argentina. An entityâ€™s authorization request to the Central Bank of Argentina (â€œCBAâ€) to access the official exchange market to make foreign currency payments may be denied depending on the circumstances. As a result of these exchange controls, markets in Argentina developed trading mechanisms, in which an entity or individual buys U.S. dollar denominated securities in Argentina (i.e. shares, sovereign debt) using Argentine Pesos, and subsequently sells the securities for U.S. dollars, in Argentina, to access U.S. dollars locally, or outside Argentina, by transferring the securities abroad, prior to being sold (the latter commonly known as â€œBlue Chip Swap Rateâ€). The Blue Chip Swap Rate has diverged significantly from Argentinaâ€™s official exchange rate (commonly known as the exchange spread). In recent years, the Blue Chip Swap Rate has been higher than Argentinaâ€™s official exchange rate. As of JuneÂ 30, 2024 and DecemberÂ 31, 2023, the exchange spread was 48.0% and 20.4%, respectively.As part of the exchange controls, since 2019, the Argentine government imposes a tax on the acquisition of foreign currency through the official exchange market in certain circumstances. On July 24, 2023, through the Executive Power Decree No. 377/2023, the Argentine government extended the application of this tax to the following cases: (i) certain services acquired from abroad or services rendered by foreign residents in Argentina (i.e. technical, legal, accounting, management, advertising, engineering, audiovisual services, among others), which will be subject to a 25% tax rate, (ii) freight and other transportation services for import and export of goods, which will be subject to a 7.5% tax rate; and (iii) imported goods, which will be subject to a 7.5% tax rate, with certain exemptions (such as fuels and products of the basic food basket). Later, the Decree No. 29/2023, modified the tax rate for the cases mentioned above under ii) and iii) from 7.5% to 17.5%. Income taxes Income taxesIncome taxesâ€™ accounting policy is described in Note 2 to the consolidated financial statements in the Companyâ€™s 2023 10-K. The Companyâ€™s consolidated estimated effective tax rate for the six and three-month periods ended JuneÂ 30, 2024 decreased as compared to the same periods in 2023, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of the Companyâ€™s own common stock in the Argentine market, which was considered as a non-deductible expense, (ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, the Argentine operationsâ€™ functional currency is the U.S. dollar due to the highly inflationary status of the country, (iii) higher pre-tax gains in a Mexican subsidiary that has accounted for a valuation allowance on tax loss carry forward, and (iv) higher deductions related to tax inflation adjustments in Argentina.A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of the Companyâ€™s deferred tax assets will not be realized. In accordance with ASC 740, Management periodically assesses the need to either establish or reverse a valuation allowance for deferred tax assets considering positive and negative objective evidence related to the realization of the deferred tax assets. In its assessment, Management considers, among other factors, the nature, frequency and magnitude of current and cumulative losses on an individual subsidiary basis, projections of future taxable income, the duration of statutory carryforward periods, as well as feasible tax planning strategies, which would be employed by the Company to prevent tax loss carryforwards from expiring unutilized. Knowledge-based economy promotional regime in ArgentinaIn August 2021, the Under Secretariat of Knowledge Economy issued the Disposition 316/2021 approving MercadoLibre S.R.L.â€™s application for eligibility under the knowledge-based economy promotional regime, established by the Law No. 27,506 and complemented by Argentinaâ€™s Executive Power Decree No. 1034/2020, Argentinaâ€™s Ministry of Productive Developmentâ€™s Resolution No. 4/2021 and the Under Secretariat of Knowledge Economyâ€™s Disposition No. 11/2021. As a result, the Company recorded an income tax benefit of $5 million and $4 million, and $21 million and $11 million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. The aggregate per share effect of the income tax benefit amounted to $0.09 and $0.08, and $0.42 and $0.23 for the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. Furthermore, the Company recorded a social security benefit of $32Â million and $15 million, and $33Â million and $15Â million during the six and three-month periods ended JuneÂ 30, 2024 and 2023, respectively. Fair value option applied to certain financial instruments Fair value option applied to certain financial instrumentsUnder ASC 825, U.S. GAAP provides an option to elect fair value with impact on the statement of income as an alternative measurement for certain financial instruments and other items on the balance sheet. The Company has elected to measure certain financial assets at fair value with impact on the statement of income for several reasons including to avoid the mismatch generated by the recognition of certain linked instruments / transactions, separately, in the interim condensed consolidated statements of income and interim condensed consolidated statements of comprehensive income and to better reflect the financial model applied for selected instruments. The Companyâ€™s election of the fair value option applies to: i) foreign government debt securities, and ii) U.S. government debt securities. Recently Adopted Accounting Standards and Recently issued accounting pronouncements not yet adopted Recently Adopted Accounting StandardsAs of the date of issuance of these unaudited interim condensed consolidated financial statements there were no accounting pronouncements recently adopted by the Company.Recently issued accounting pronouncements not yet adoptedOn November 27, 2023, the FASB issued the ASU 2023-07 â€œSegment Reporting (Topic 280)â€”Improvements to Reportable Segment Disclosuresâ€. The amendments in this update improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance should be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. The Company is preparing the new disclosures that the adoption of this accounting pronouncement requires.On December 14, 2023, the FASB issued the ASU 2023-09 â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€. The amendments in this update provide more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information, requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. The other amendments in this update improve the effectiveness and comparability of disclosures by adding disclosures of pretax income (or loss) and income tax expense (or benefit) and removing disclosures that no longer are considered cost beneficial or relevant. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The guidance should be applied on a prospective basis while retrospective application is permitted. The Company is assessing the effects that the adoption of this accounting pronouncement may have on its financial statements. It also includes other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and effectively may withdraw funds at any time without prior notice or penalty. Cash equivalents, excluding items classified as marketable securities, include short-term, highly liquid Investments that are both readily convertible to known amounts of cash, and so near their maturity that they present minimal risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify under that definition. Original maturity means original maturity to the entity holding the investment. For example, both a three-month US Treasury bill and a three-year Treasury note purchased three months from maturity qualify as cash equivalents. However, a Treasury note purchased three years ago does not become a cash equivalent when its remaining maturity is three months. Short-term investments, exclusive of cash equivalents, generally consist of marketable securities intended to be sold within one year (or the normal operating cycle if longer) and may include trading securities, available-for-sale securities, or held-to-maturity securities (if maturing within one year), as applicable. + ReferencesReference 1: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(9)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1 + Details Name: us-gaap_CashCashEquivalentsAndShortTermInvestments Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: instant X - DefinitionRepresents the aggregate of total long-term debt, including current maturities and short-term debt. + ReferencesNo definition available. + Details Name: us-gaap_DebtLongtermAndShorttermCombinedAmount Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionFair value, after the effects of master netting arrangements, of a financial liability or contract with one or more underlyings, notional amount or payment provision or both, and the contract can be net settled by means outside the contract or delivery of an asset. conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and include the accounts of the Company, its wholly-owned subsidiaries and consolidated Variable Interest Entities (“VIE”). Investments in entities where the Company holds joint control, but not control,
over the investee are accounted for using the equity method of accounting. As of June 30, 2024, the Company had no investments where it has the ability to exercise joint control. These unaudited interim condensed consolidated financial statements are stated in U.S. dollars, except where otherwise indicated.

platform operations have significantly evolved during the last several years, not only because of the increase in the volume of transactions but also as a result of transitioning from being a non-regulated business to a regulated business, subject to the oversight of central banks and other regulators in the
various countries in which the Company operates (refer to Note 3 – Fintech Regulations to the consolidated financial statements in the Company’s 2023 10-K for further details).</div><div style="margin-top:10pt;text-align:justify;text-indent:18pt"><span style="color:#333333;font-family:'Proxima

country, these reserves can be partially or totally invested. During the last several years, these new regulations, coupled with the increase in the volume of transactions, have led the Company to view interest income and other financial gains from investments of these liquidity reserves as part of the Company’s
operations.</div><div style="margin-top:10pt;text-align:justify;text-indent:18pt">Furthermore, the evolution of Mercado Pago’s activities themselves has resulted in the Company
managing a significant volume of cash, cash equivalents and investments. This is due to an increase in users’ account balances in their Mercado Pago digital account managed by the Company, and an increase in the level of the Company’s indebtedness to finance those operations. As a result, these Mercado
Pago’s funds, together with the financing activities, have generated a significant volume of interest income and other financial gains and interest expenses and other financial losses, respectively.</div><div style="margin-top:10pt;text-align:justify;text-indent:18pt"><span style="color:#333333;font-

size:9pt;font-weight:400;line-height:115%">Since the second half of 2019, the Argentine government instituted exchange controls restricting the ability of companies and individuals to exchange Argentine Pesos for foreign currencies and their ability to remit foreign currency out of Argentina. An entity’s
authorization request to the Central Bank of Argentina (“CBA”) to access the official exchange market to make foreign currency payments may be denied depending on the circumstances. As a result of these exchange controls, markets in Argentina developed trading mechanisms, in which an entity or
individual buys U.S. dollar denominated securities in Argentina (i.e. shares, sovereign debt) using Argentine Pesos, and subsequently sells the securities for U.S. dollars, in Argentina, to access U.S. dollars locally, or outside Argentina, by transferring the securities abroad, prior to being sold (the latter
commonly known as “Blue Chip Swap Rate”). The Blue Chip Swap Rate has diverged significantly from Argentina’s official exchange rate (commonly known as the exchange spread). In recent years, the Blue Chip Swap Rate has been higher than Argentina’s official exchange rate. As of June 30, 2024 and
December 31, 2023, the exchange spread was 48.0% and 20.4%, respectively.</div><div style="margin-top:10pt;text-align:justify;text-indent:18pt">As part of the exchange controls, since
2019, the Argentine government imposes a tax on the acquisition of foreign currency through the official exchange market in certain circumstances. On July 24, 2023, through the Executive Power Decree No. 377/2023, the Argentine government extended the application of this tax to the following cases: (i)
certain services acquired from abroad or services rendered by foreign residents in Argentina (i.e. technical, legal, accounting, management, advertising, engineering, audiovisual services, among others), which will be subject to a 25% tax rate, (ii) freight and other transportation services for import and export
of goods, which will be subject to a 7.5% tax rate; and (iii) imported goods, which will be subject to a 7.5% tax rate, with certain exemptions (such as fuels and products of the basic food basket). Later, the Decree No. 29/2023, modified the tax rate for the cases mentioned above under ii) and iii) from 7.5% to

during the period related to the acquisition of the Company’s own common stock in the Argentine market, which was considered as a non-deductible expense, (ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under
U.S. GAAP, the Argentine operations’ functional currency is the U.S. dollar due to the highly inflationary status of the country, (iii) higher pre-tax gains in a Mexican subsidiary that has accounted for a valuation allowance on tax loss carry forward, and (iv) higher deductions related to tax inflation

adjustments in Argentina. A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of the Company's deferred tax assets will not be realized. In accordance with ASC 270, Management considers projected future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance. In the event the Company changes its determination as to the amount of deferred tax assets that can be realized, the Company will adjust its valuation allowance with a charge to income in the period such determination is made. Conversely, should the Company determine that it would be able to realize its deferred tax assets in the future in excess of the net carrying amounts, it would decrease the allowance in such period. Changes in tax laws, changes in the Company's ownership, changes in the nature and frequency of magnitude of current and cumulative losses on an individual subsidiary basis, projections of future taxable income, the duration of statutory carryforward periods, as well as feasible tax planning strategies, which would be employed by the Company to prevent tax benefit carryforwards from expiring unutilized. Knowledge-based economy promotional regime in Argentina In August 2021, the Under Secretariat of Knowledge Economy issued the Disposition 316/2021 approving MercadoLibre S.R.L.'s application for eligibility under the knowledge-based economy promotional regime, established by the Law No. 27,506 and complemented by Argentina's Executive Power Decree No. 1034/2020. Argentina's Ministry of Productive Development's Resolution No. 4/2021 and the Under Secretariat of Knowledge Economy's Disposition No. 11/2021. As a result, the Company is entitled to income tax benefits and other tax incentives, which will be applicable for a period of ten years, starting on January 1, 2022. The benefits amounted to $0.09 and $0.08, and $0.42 and $0.23 for the six and three month periods ended June 30, 2024 and 2023, respectively. Furthermore, the Company recorded a social security benefit of $32 million and $15 million, and $33 million and $15 million during the six and three month periods ended June 30, 2024 and 2023, respectively. Fair value option applied to certain financial instruments Under ASC 825, U.S. GAAP provides an option to elect fair value with impact on the statement of income as an alternative measurement for certain financial instruments and other items on the balance sheet. The Company has elected to measure certain financial assets at fair value with impact on the statement of income for several reasons including to avoid the mismatch generated by the recognition of certain linked instruments / transactions separately in the interim condensed consolidated statements of income and interim condensed consolidated statements of comprehensive income and to better reflect the financial model applied for selected instruments. The Company's election of the fair value option applies to i) foreign government debt securities, and ii) U.S. government debt securities. The other amendments in this update improve the effectiveness and comparability of disclosures by adding disclosures of pretax income (or loss) and income tax expense (or benefit) and removing disclosures that no longer are considered cost beneficial or relevant. The amendments are effective for annual periods beginning after December 15, 2024. The Company accrues liabilities when it considers it to be probable that future costs will be incurred and such costs can be reasonably estimated. Management periodically reviews the status of each significant matter and assesses its potential financial exposure. Estimating probable losses requires analysis of multiple forecasts that often depend on judgments about potential actions by third parties such as regulators. Legal costs incurred in connection with loss contingencies are expensed as incurred. The Company has recorded provisions for pending litigation and other legal matters and other estimated contingencies of $100 million within non-current other liabilities to cover legal actions against the Company for which Management has assessed the likelihood of a final adverse outcome as probable. Expected legal costs related to litigations are accrued when the legal service is actually provided. In addition, as of June 30, 2024, the Company and its subsidiaries are subject to certain legal actions considered by the Company's Management and its legal counsels to be reasonably possible of resulting in a loss for an estimated aggregate amount up to $209 million. No loss amounts have been accrued for such reasonably possible legal actions. For further information related to contingent liabilities please refer to Note 15 to the consolidated financial statements in the Company's 2023 10-K. Tax Claims Brazilian tax authorities are challenging in judicial and administrative courts the deductibility of certain expenses. The tax claim related to the Brazilian preliminary injunction against the Brazilian tax authorities is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On April 3, 2024, the Superior Court of Justice decided to analyze whether the matter under consideration is capable of becoming a binding precedent. In April 2024, the Company submitted a petition claiming that the case is fully capable of being judged as a binding precedent and the civil association, Câmara Brasileira da Economia Digital, submitted a petition as amicus curiae with the same arguments. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is probable based on the technical merits of the Company's tax position and the existence of recent adverse decisions issued by the Superior Court of Justice. For that reason, the Company has recorded a provision for the disputed amounts, which was $332 million as of June 30, 2024, and which was recorded in non-current other liabilities and the corresponding judicial deposits for $32 million (which is recorded in non-current other assets). As of June 30, 2024, the unfavorable balance sheet exposure, including judicial deposits, was $455 million (which is recorded in non-current other assets). Exclusion of ICMS tax benefits from federal taxes base The tax claim related to the exclusion of ICMS tax benefits from the tax base of the Corporate Income Tax ("IRPJ") and of the Social Contribution on Net Profits ("CSLL") is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On April 17, 2024, the Federal Regional Court ruled in favor of the Company. Therefore, the Federal Government presented a motion of clarification, which is to be adjudicated in August 2024. The case has not yet become final and unappealable. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not based on the technical merits of the Company's tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of June 30, 2024, the total amount under dispute related to IRPJ and CSLL was $451 million. Interstate rate of ICMS-DIFAL on interstate sales without Complementary Law The tax claim related to the interstate rate of ICMS-DIFAL (Imposto sobre Circulação de Mercadorias, Serviços de Transporte Interestadual, Intermunicipal e Comunicação an interstate sales at a differential rate) without the existence of a complementary law is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. In March 2024, one of the cases related to the State of Santa Catarina (whose risk of losing had been considered probable) received judgment in favor of the State. In June 2024, one of the cases related to the State of Rio de Janeiro (whose risk of losing had been considered remote) received judgment partially in favor of the Company. Therefore, the Company presented a motion of clarification which is now pending judgment. In addition, a case related to the State do Goiás (whose risk of losing had been considered probable) received judgment in favor of the Company in June 2024. The other cases filed on appeal that is now pending judgment. The remaining cases pending as of June 30, 2024. The Company has recorded a provision as of June 30, 2024 for the disputed amounts related to the 3 ongoing cases whose risk of losing is considered by Management to be probable, based on the opinion of external legal counsel. Exclusion of ICMS tax benefits from federal taxes base The tax claim related to the exclusion of ICMS tax benefits from the tax base of the Corporate Income Tax ("IRPJ") and of the Social Contribution on Net Profits ("CSLL") is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On April 17, 2024, the Federal Regional Court ruled in favor of the Company. Therefore, the Federal Government presented a motion of clarification, which is to be adjudicated in August 2024. The case has not yet become final and unappealable. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not based on the technical merits of the Company's tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of June 30, 2024, the total amount under dispute related to IRPJ and CSLL was $451 million. The tax claim related to the exclusion of ICMS tax benefits from tax base of the Social Contributions (PIS and COFINS) is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On April 25, 2024, a ruling favorable to the Company was issued recognizing the Company's right to exclude the amounts of credits arising from ICMS tax incentives from the PIS and COFINS calculation basis. On June 7, 2024, the Federal Government filed an appeal. The Company responded to the appeal and the case was referred to the Court for judgment on the request for an appeal. The first instance court's decision has not yet become final and unappealable. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of June 30, 2024, the total amount under dispute related to IRPJ and CSLL was $68 million. Administrative Tax Claims The tax assessment notices claiming corporate income taxes (IRPJ and CSLL) in relation to the 2017 taxable year is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On July 24, 2024, the administrative body of first instance issued a decision in the case. The decision issued is partially favorable to the Company as it rejected the punitive fine of 150% over the tax charged and reduced it to 100%, but maintained the tax assessment and also the joint-tax liability of the Senior Legal Director. The Company will present an appeal in the Federal Administrative Court. The case has not yet become final and unappealable. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is not more likely than not. For that reason, the Company has not recorded any expense or liability for the disputed amounts. As of June 30, 2024, the total amount under dispute related to IRPJ and CSLL was $68 million (which is recorded in non-current other assets). Buyer protection program ("BPP") The buyer protection program ("BPP") is designed to protect buyers in the Marketplace from losses due primarily to fraud or counterparty non-performance for all transactions completed through the Company's online payment solution Mercado Pago (except for certain excluded categories). The Company's BPP provides protection to consumers by reimbursing them for the total value of a purchased item and the value of any shipping service paid if it does not arrive, arrives incomplete or damaged, does not match the seller's description or if the buyer regrets the purchase. The Company is entitled to recover from the third-party carrier companies performing the shipping service certain amounts paid under the BPP. Furthermore, in some specific circumstances, the Company enters into insurance contracts with third-party insurance companies in order to cover contingencies that may arise from the BPP. The maximum potential exposure under this program is estimated to be the volume of payments on the Marketplace, for which claims may be made under the terms and conditions of the Company's BPP. Based on historical losses to date, the Company does not believe that the maximum potential exposure is representative of the actual potential exposure. The Company records a liability with respect to losses probable to be incurred under the BPP, which is recorded in the line "Accounts payable and accrued expenses" in the table above. The liability recorded was $145 million and $118 million as of June 30, 2024 and December 31, 2023. Management's estimate of the maximum potential exposure related to the Company's buyer protection program is $4,907 million and $5,072 million, respectively, for which the Company recorded a provision of $9 million and $8 million, respectively. Commitments The Company committed to purchase cloud platform services from two U.S. suppliers based on the following terms: •agreement signed in January 2021, with a 3-year term, for a total amount of $200 million, to be paid between January 1, 2021 and December 31, 2023. The agreement had a total amount paid of $150 million; •agreement signed in January 2021, with a 3-year term, for a total amount of $200 million, to be paid between September 23, 2022 and September 23, 2025. As of June 30, 2024, the agreement had paid $118 million. On April 8, 2022, the Company signed a 10-year agreement with Gol Linhas Aereas S.A. under which the Company is committed to contract a minimum amount of air logistics services for a total annual cost of $43 million (total amount once all the dedicated aircraft are in operation). Pursuant to the agreement, Gol Linhas Aereas S.A. provides logistics services in Brazil to Mercado Envios through six dedicated aircraft, all of which have already started operations as of June 30, 2024. Since October 2023, the Company signed 3-year agreements with certain shipping companies in Brazil, under which the Company is committed to contract a minimum amount of logistics services for a total cost of $112 million. On January 10, 2024, the Company signed a 5-year agreement with Correios (Empresa Brasileira de Correios e Telégrafos, or Correios, a state-owned company in Brazil, also known as Empresa Brasileira de Correios e Telégrafos or Correios de Brasil, or Correios do Brasil, or Correios Brasil, or Correios do Brasil, or Correios Brasil, or Correios do Brasil, or Correios

consideration of up to $900 million. The Company acquired shares of its own common stock in the Argentine market and paid for them in Argentine Pesos at a price that reflects the additional cost of accessing U.S. dollars through securities denominated in U.S. dollars, because of restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate in Argentina (see Note 2 - Summary of significant accounting policies - Argentine currency status and macroeconomic outlook of these unaudited interim condensed consolidated financial statements). As a result, the Company recognized foreign currency losses of $213 million for the six month period ended June 30, 2023, while foreign currency losses for the three month period ended June 30, 2023 amounted to $157 million. During the three-month period ended March 31, 2024, the Company had not acquired any shares under the aforementioned share repurchase program.900000000213000000157000000falsefalsefalsefalse Recast for consistency with the current presentation due to the change in the presentation of certain financial results.
