**CASEY'S GENERAL STORES, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED**  
**FINANCIAL STATEMENTS**

*(Dollars in Thousands, Except Share and Per Share Amounts)*

**1. Presentation of Financial Statements**

As of July 31, 2024, Casey's General Stores, Inc. and its subsidiaries (hereinafter referred to as the "Company" or "Casey's") operate 2,674 convenience stores in 17 states, primarily in the Midwest. Many of the stores are located in smaller communities, often with populations of less than 20,000.

The accompanying condensed consolidated financial statements include the accounts and transactions of Casey's General Stores, Inc. and its direct and indirect wholly-owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation.

**2. Basis of Presentation**

The accompanying condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to such rules and regulations.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments necessary to present fairly the financial position as of July 31, 2024 and April 30, 2024, the results of operations, for the three months ended July 31, 2024 and 2023, and shareholders' equity and cash flows for the three months ended July 31, 2024 and 2023. Although management believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these interim condensed consolidated financial statements be read in conjunction with the Company's most recent audited financial statements and notes thereto. Additionally, see the Form 10-K for the year ended April 30, 2024 for our consideration of new accounting pronouncements issued prior to this fiscal year.

Certain amounts in prior year have been reclassified to conform to current year presentation.

**3. Revenue and Cost of Goods Sold**

The Company recognizes retail sales of prepared food and dispensed beverage, grocery and general merchandise, fuel and other revenue at the time of the sale to the guest. Sales taxes collected from guests and remitted to the government are recorded on a net basis in the condensed consolidated statements of income.

A portion of revenue from sales that include points under our Casey's Rewards program is deferred. The deferred portion of the sale represents the value of the estimated future redemption of the points. The amounts related to points are deferred until their redemption or expiration. Revenue related to the points issued is expected to be recognized less than one year from the original sale to the guest. As of July 31, 2024 and April 30, 2024, the Company recognized a contract liability of \$56,124 and \$52,934, respectively, related to the outstanding Casey's Rewards program, which is included in accrued expenses on the condensed consolidated balance sheets.

Gift card related revenue is recognized as the gift cards are used by the guest. Gift card breakage revenue is recognized based on the estimated gift card breakage rate over the pro rata usage of the card. As of July 31, 2024 and April 30, 2024, the Company recognized a liability of \$17,230 and \$17,985, respectively, related to outstanding gift cards, which is included in accrued expenses on the condensed consolidated balance sheets.

The Company often receives vendor allowances on the basis of quantitative contract terms that vary by product and vendor or directly on the basis of purchases made. Vendor allowances include rebates and other funds received from vendors to promote their products. These amounts are recognized in the period earned based on the applicable rebate agreement. Reimbursements of an operating expense (e.g., advertising) are recorded as reductions of the related expense.

Renewable identification numbers ("RINs") are assigned to gallons of renewable fuels produced and are used to track compliance with the renewable fuel standard. At times, we purchase fuel components (ethanol, gasoline, biodiesel or diesel) and blend those components into a finished product in a fuel truck. This process enables the Company to take title

## [Table of Contents](#)

to the RIN assigned to each gallon of ethanol or biodiesel produced. RINs are recorded as a reduction in cost of goods sold at the contracted sales price, in the period when the Company transfers the RIN. The Company does not record inventories on the balance sheet related to RINs, as they are acquired at no cost to the Company.

The Company includes in cost of goods sold the costs incurred to acquire fuel and merchandise, including excise taxes, less vendor allowances, vendor rebates and RINs. Warehousing costs are recorded within operating expenses on the condensed consolidated statements of income.

### **4. Long-Term Debt and Finance Lease Obligations, Lines of Credit and Fair Value Disclosure**

The fair value of the Company's long-term debt (including current maturities) is estimated based on the current rates offered to the Company for debt of the same or similar issuances. The fair value of the Company's long-term debt was approximately \$1,387,000 and \$1,375,000 at July 31, 2024 and April 30, 2024, respectively. The fair value calculated excludes finance lease obligations of \$99,847 and \$101,818 outstanding at July 31, 2024 and April 30, 2024, respectively, which are included with long-term debt on the condensed consolidated balance sheets.

Interest, net on the condensed consolidated statements of income is net of interest income of \$ 2,385, for the three months ended July 31, 2024, and \$3,576, for the three months ended July 31, 2023. Interest, net is also net of interest capitalized of \$ 419, for the three months ended July 31, 2024, and \$794, for the three months ended July 31, 2023, respectively.

#### **Revolving Facility**

The Company has a credit agreement that provides for an \$ 850,000 unsecured revolving credit facility ("Revolving Facility"). Amounts borrowed under the Revolving Facility bear interest at variable rates based upon, at the Company's option: (a) either Term SOFR or Daily Simple SOFR, in each case plus 0.10% (with a floor of 0.00%) for the interest period in effect, plus an applicable margin ranging from 1.10% to 1.70% or (b) an alternate base rate, which generally equals the highest of (i) the prime commercial lending rate announced by the Administrative Agent as its "prime rate", (ii) the federal funds rate plus 1/2 of 1.00%, and (iii) Adjusted Daily Simple SOFR plus 1.00%, each plus an applicable margin ranging from 0.10% to 0.70% and each with a floor of 1.00%. The Revolving Facility carries a facility fee of 0.15% to 0.30% per annum. The applicable margins and facility fee, in each case, are dependent upon the Company's quarterly Consolidated Leverage Ratio, as defined in the credit agreement. The Company had \$0 outstanding under the Revolving Facility at July 31, 2024 and April 30, 2024.

#### **Bank Line**

The Company has an additional unsecured bank line of credit (the "Bank Line") with availability of up to \$ 50,000. As of July 31, 2024, the availability under the Bank Line is encumbered by letters of credits totaling \$308. The Bank Line bears interest at a variable rate subject to change from time to time based on changes in an independent index referred to in the Bank Line as the Federal Funds Offered Rate (the "Index"). There was \$0 outstanding under the Bank Line at July 31, 2024 and April 30, 2024. The Bank Line is due upon demand .

### **5. Compensation Related Costs and Share-Based Payments**

The 2018 Stock Incentive Plan (the "2018 Plan") was approved by the Company's shareholders on September 5, 2018. Awards under the 2018 Plan may take the form of stock options, stock appreciation rights, restricted stock, restricted stock units and other equity-based and equity-related awards. Each share issued pursuant to a stock option and each share with respect to which a stock-settled stock appreciation right is exercised (regardless of the number of shares actually delivered) is counted as one share against the maximum limit under the 2018 Plan, and each share issued pursuant to an award of restricted stock or restricted stock units is counted as two shares against the maximum limit. Restricted stock is transferred immediately upon grant (and may be subject to a holding period), whereas restricted stock units have a vesting period that must expire, and in some cases performance or market conditions that must be satisfied before the stock is transferred. At July 31, 2024, there were 959,492 shares available for grant under the 2018 Plan.

We account for share-based compensation by estimating the grant date fair value of time-based and performance-based restricted stock unit awards using the closing price of our common stock on the applicable grant date, or the date on which performance goals for performance-based units are established, if after the grant date. Forfeitures are recognized as they occur.

The time-based awards most commonly vest ratably over a three-year period commencing on the first anniversary of the grant date. The performance-based awards represent a "target" amount; the final amount earned is based on the satisfaction of certain performance measures over a three-year performance period and will range from 0% to 200% of "target." Additionally, if the Company's relative total shareholder return over the performance period is in the bottom or top quartile of the companies comprising the S&P 500, the performance-based shares included will be adjusted downward by 25%, or upward by 25%, respectively (the "TSR Modifier"). The fair value of the awards with the TSR

## [Table of Contents](#)

Modifier is determined using a Monte Carlo simulation as of the date of the grant. For market-based awards, the share-based compensation expense will not be adjusted should the target awards vary from actual awards.

We recognize these amounts as an operating expense in our condensed consolidated statements of income ratably over the requisite service period using the straight-line method, as adjusted for certain retirement provisions, and updated estimates of shares to be issued under performance-based awards. All awards have been granted at no cost to the grantee.

Information concerning the unvested restricted stock units under the 2018 Plan is presented in the following table. No stock option awards have been granted under the 2018 Plan.

	Shares	Weighted-Average Grant Date Fair Value per Share
Unvested at April 30, 2024	491,862	\$ 229
Granted	102,312	340
Vested	(169,969)	222
Forfeited	(2,214)	242
Unvested at July 31, 2024	421,991	\$ 259

Total share-based compensation costs recorded for employees and non-employee directors for the three months ended July 31, 2024 and 2023, respectively, were \$11,036 and \$10,468, related entirely to restricted stock unit awards. As of July 31, 2024, there was \$ 62,104 of unrecognized compensation costs related to restricted stock units which are expected to be recognized through fiscal 2028, with a weighted average remaining term of 1.5 years. The fair value of restricted stock unit awards vested for the three months ended July 31, 2024 was \$ 62,295 as of the applicable vest date.

## 6. Acquisitions

On July 25, 2024, the Company entered into an Equity Purchase Agreement (the "Purchase Agreement") with (a) Fikes Wholesale, Inc., a Texas corporation ("Fikes"), (b) Group Petroleum Services, Inc., a Texas corporation ("GPS" and together with Fikes, the "Seller Companies"), and (c) certain other parties thereto. Pursuant to the terms of the Purchase Agreement, the Company will acquire at closing 100% of the equity of the Seller Companies, for an aggregate purchase price in cash of \$1,145,000, subject to customary post-closing adjustments.

The Company's acquisition of the Seller Companies will include 198 retail stores and a dealer network. The acquisition will bring 148 additional stores to Texas, as well as 50 stores in Alabama, Florida, and Mississippi. In addition to the retail stores and dealer locations, the transaction includes a fuel terminal and a commissary to support the Texas stores.

The closing of the acquisition is conditioned upon the satisfaction of customary closing conditions, including, among others: (1) expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended; (2) the accuracy of the representations and warranties of each party to the Purchase Agreement as of the closing; (3) the performance in all material respects by the parties of their respective covenants under the Purchase Agreement; and (4) in the case of the Seller Companies, the absence of any material adverse effect since the date of the Purchase Agreement.

The Company intends to finance the proposed transaction with a combination of cash on hand and external financing.

## 7. Commitments and Contingencies

From time to time we may be involved in legal or administrative proceedings or investigations arising from the conduct of our business operations, including, but not limited to, contractual or other general business disputes; employment, personnel, or accessibility matters; personal injury and property damage claims; claims by federal, state, and local regulatory authorities relating to the sale of products pursuant to licenses and permits issued by those authorities; and, other claims or proceedings. Claims for damages in those actions may be substantial. While the outcome of such litigation, proceedings, investigations, or claims is never certain, it is our opinion, after taking into consideration legal counsel's assessment and the availability of insurance proceeds and other collateral sources to cover potential losses, that the ultimate disposition of such matters currently pending or threatened, individually or cumulatively, will not have a material adverse effect on our consolidated financial position and results of operations.

The Company is named as a defendant in a lawsuit filed in the United States District Court for the Northern District of Indiana, titled McColley v. Casey's General Stores, Inc., in which the plaintiff alleges that the Company misclassified its Store Managers as exempt employees under the Fair Labor Standards Act (FLSA). The complaint seeks unpaid wages, liquidated damages and attorneys' fees for the plaintiff and all similarly situated Store Managers who worked at the Company from February 16, 2015, to the present. On March 31, 2021, the Court granted conditional certification, and to-

date, approximately 1,400 current and/or former Store Managers remain opted-in to participate in the McColley lawsuit. The Company is also named in a related lawsuit filed in the Southern District of Illinois, titled Kessler v. Casey's Marketing Company, et al., with substantially the same allegations and seeking the same relief, but instead for the plaintiff and all similarly situated Store Managers located in the state of Illinois from December 19, 2019, to the present. On October 13, 2023, the Court approved conditional certification, and to-date, approximately 550 current and/or former Store Managers remain opted-in to participate in the Kessler lawsuit. Discovery in both cases is currently underway. The Company believes that adequate provisions have been made for probable losses related to these matters, and that those, and the reasonably possible losses in excess of amounts accrued, where such range of loss can be estimated, are not material to the Company's financial position, results of operations or cash flows. The Company believes that its Store Managers are properly classified as exempt employees under the FLSA and it intends to continue to vigorously defend these matters.

**8. Unrecognized Tax Benefits**

The total amount of gross unrecognized tax benefits was \$11,586 and \$10,747 at July 31, 2024 and April 30, 2024, respectively. If this unrecognized tax benefit were ultimately recognized, \$9,153 is the amount that would impact our effective tax rate. The total net amount of accrued interest and penalties for such unrecognized tax benefits was \$412 at July 31, 2024, and \$350 at April 30, 2024. Net interest and penalties included in income tax expense for the three months ended July 31, 2024 and 2023 was a net expense of \$62 and \$59, respectively.

A number of years may elapse before an uncertain tax position is audited and ultimately settled. It is difficult to predict the ultimate outcome or the timing of resolution for uncertain tax positions. It is reasonably possible that the amount of unrecognized tax benefits could significantly increase or decrease within the next twelve months. These changes could result from the expiration of the statute of limitations, examinations or other unforeseen circumstances. The State of Illinois is currently examining tax years 2020 and 2021. The Company has no other ongoing federal or state income tax examinations. At this time, the Company's best estimate of the reasonably possible change in the amount of the gross unrecognized tax benefits is a decrease of \$2,000 during the next twelve months mainly due to the expiration of certain statute of limitations.

The federal statute of limitations remains open for the tax years 2020 and forward. Tax years 2019 and forward are subject to audit by state tax authorities depending on open statute of limitations waivers and the tax code of each state.

**9. Segment Reporting**

As of July 31, 2024, we operated 2,674 stores in 17 states. Our convenience stores offer a broad selection of merchandise, fuel and other products and services designed to appeal to the convenience needs of our guests. We manage the business on the basis of one operating segment and therefore, have only one reportable segment. Our stores sell similar products and services, use similar processes to sell those products and services, and sell their products and services to similar classes of guests. We make specific disclosures concerning the three broad categories of fuel, grocery and general merchandise, and prepared food and dispensed beverage because it allows us to more effectively discuss trends and operational initiatives within our business and industry. Although we can separate revenue and cost of goods sold within these categories (and further sub-categories), the operating expenses associated with operating a store that sells these products are not separable by these three categories.

[Table of Contents](#)

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Dollars in Thousands).**

**Overview**

As of July 31, 2024, Casey's General Stores, Inc. and its direct and indirect wholly-owned subsidiaries operate convenience stores primarily under the names "Casey's" and "Casey's General Store" (collectively, with the stores below referenced as "GoodStop", "Bucky's", "Minit Mart", or "Lone Star Food Store", referred to as "Casey's" or the "Company") throughout 17 states, over half of which are located in Iowa, Missouri and Illinois.

Approximately 72% of all stores were opened in areas with populations of fewer than 20,000 persons. The Company competes on the basis of price, as well as on the basis of traditional features of convenience store operations such as location, extended hours, product offerings, and quality of service. As of July 31, 2024, there were a total of 2,674 stores in operation.

All convenience stores carry a broad selection of food items (including, but not limited to, freshly prepared foods such as regular and breakfast pizza, donuts, hot breakfast items, and hot and cold sandwiches), beverages, tobacco and nicotine products, health and beauty aids, automotive products, and other nonfood items. As of July 31, 2024, 233 store locations offered car washes. In addition, all but seven store locations offer fuel for sale on a self-service basis.

The Company had 67 stores operating under the "GoodStop (by Casey's)" brand and 12 stores operating under the "Lone Star Food Store" brand as of July 31, 2024. Similar to most of our store footprint, the "GoodStop" and "Lone Star Food Store" locations offer fuel for sale on a self-serve basis, and a broad selection of snacks, beverages, tobacco products, and other essentials. However, some of these locations do not have a kitchen and have limited prepared food offerings.

The Company is also temporarily operating certain locations acquired from Buchanan Energy under the name "Bucky's" and certain locations acquired from Minit Mart LLC under the name "Minit Mart". The Company is in the process of transitioning all "Bucky's" and "Minit Mart" locations to either the "Casey's" or "GoodStop" brand. These locations typically have similar offerings to the "Casey's" or "GoodStop" branded stores.

The Company has 71 dealer locations, where Casey's manages fuel wholesale supply agreements to these stores. These locations are not operated by Casey's and are not included in our overall store count in the paragraph below. Approximately 1% of total revenue for the three-months ended July 31, 2024 relates to this dealer network.

The Company operates three distribution centers, through which certain grocery and general merchandise and prepared food and dispensed beverage items are supplied to our stores. One distribution center is adjacent to our corporate headquarters, which we refer to as the Store Support Center facility in Ankeny, Iowa. The other two distribution centers are located in Terre Haute, Indiana and Joplin, Missouri.

The Company's business is seasonal, and generally experiences higher sales and profitability during the first and second fiscal quarters (May-October), when guests tend to purchase greater quantities of fuel and certain convenience items such as beer, sports drinks, water, soft drinks and ice.

The Company reported diluted earnings per common share of \$4.83 for the first quarter of fiscal 2025. For the same quarter a year-ago, diluted earnings per common share was \$4.52.

The following table represents the roll forward of store growth through the first quarter of fiscal 2025:

	Store Count
<b>Total stores at April 30, 2024</b>	2,658
New store construction	10
Acquisitions	9
Closed	(3)
<b>Total stores at July 31, 2024</b>	<b>2,674</b>

During the quarter, we entered into an Equity Purchase Agreement with Fikes Wholesale, Inc. and other parties, which includes 198 retail stores in Texas, Mississippi, Alabama, and Florida. The transaction is expected to close in calendar 2024, subject to customary closing conditions, and is expected to be funded with a combination of cash on hand and external financing.

#### *Fuel Volatility*

Since early calendar 2020, the price of crude oil, and in turn the wholesale cost of fuel, has been volatile compared to historical averages. Initially, at the outset of the COVID-19 pandemic, oil and fuel prices fell dramatically; however, as the economy in general began to emerge from the pandemic, prices began to modestly increase over time. Oil and fuel prices continued to be impacted throughout fiscal 2024 and the first quarter of fiscal 2025 as the result of geopolitical issues and supply disruptions.

In addition, during the past four calendar years, the Company, and the retail fuel industry, has experienced historically high average revenue less cost of goods sold per gallon (excluding depreciation and amortization). Although this has remained relatively consistent since that time, on a longer-term basis, this metric can fluctuate significantly, and sometimes unpredictably, in the short-term. While the Company believes that its average revenue less cost of goods sold per gallon (excluding depreciation and amortization) will remain elevated from historical levels for the foreseeable future, it is possible that increased oil and fuel prices, higher interest rates, macroeconomic conditions and/or continuing conflicts or disruptions involving oil producing countries may materially impact the performance of this metric.

#### *Electric Vehicles and Renewable Fuels*

Casey's continues its process of implementing an electric vehicle ("EV") strategy and our management team remains committed to understanding if and how the increased demand for, and usage of, EVs impacts consumer behavior across our store footprint and beyond. As consumer demand for alternative fuel options continues to grow, Casey's has continued to add EV charging stations across our 17-state footprint. As of July 31, 2024, the Company has 178 charging stations at 41 stores, across 13 states. Our EV growth strategy is currently designed to selectively increase our charging stations at locations within our region where we see higher levels of consumer EV buying trends and demand for EV charging. To date, consumer EV demand within our Midwest footprint has been comparatively lower than the levels along the coasts. As EV demand from our guests increases, we are prepared to strategically integrate charging station options at select stores.

The Company also remains committed to offering renewable fuel options at our stores and continues to expand its alternative fuel options in response to evolving guest needs and as part of its environmental stewardship efforts. Currently, almost all of our stores offer fuel with at least 10% of blended ethanol and 43% of our stores offer biodiesel. Every newly built store has the capability to sell renewable fuels, and we aim to continue growing sales of renewable fuels throughout our footprint.

#### *Same-Store Sales*

Same-store sales is a common metric used in the convenience store industry. We define same-store sales as the total sales increase (or decrease) for stores open during the full time of both periods being presented. When comparing data, the store must be open for each entire fiscal period being compared. Remodeled stores that remained open or were closed for just a very brief period of time (i.e., less than a week) during the period being compared remain in the same-store sales comparison. If a store is replaced, either at the same location (i.e., razed and rebuilt) or relocated to a new location, it is removed from the comparison until the new store has been open for each entire period being compared. Newly constructed and acquired stores do not enter the calculation until they are open for each entire period being compared.

The first quarter results reflected a 0.7% increase in same-store fuel gallons sold. Same-store sales of grocery and general merchandise increased 1.6% and prepared food and dispensed beverage increased 4.4% during the quarter. The increase in grocery and general merchandise same-store sales was primarily due to sales of non-alcoholic and alcoholic beverages. The increase in prepared food and dispensed beverage same-store sales was attributable to strong sales of hot sandwiches and bakery.

**Three Months Ended July 31, 2024 Compared to**  
**Three Months Ended July 31, 2023**  
*(Dollars and Amounts in Thousands)*

Three Months Ended July 31, 2024	Prepared Food &					Total	
	Dispensed Beverage	Grocery & General			Other		
		Merchandise	Fuel				
Revenue	\$ 405,129	\$ 1,068,978	\$ 2,555,642	\$ 67,988	\$ 4,097,737		
Revenue less cost of goods sold (excluding depreciation and amortization)	\$ 236,041	\$ 378,281	\$ 314,548	\$ 26,386	\$ 955,256		
	58.3 %	35.4 %	12.3 %	38.8 %	23.3 %		
Fuel gallons sold				772,536			

  

Three Months Ended July 31, 2023	Prepared Food &					Total	
	Dispensed Beverage	Grocery & General			Other		
		Merchandise	Fuel				
Revenue	\$ 372,813	\$ 996,936	\$ 2,427,333	\$ 72,169	\$ 3,869,251		
Revenue less cost of goods sold (excluding depreciation and amortization)	\$ 216,861	\$ 339,573	\$ 296,978	\$ 24,342	\$ 877,754		
	58.2 %	34.1 %	12.2 %	33.7 %	22.7 %		
Fuel gallons sold				713,991			

Total revenue for the first quarter of fiscal 2025 increased by \$228,486 (5.9%) over the comparable period in fiscal 2024. Prepared food and dispensed beverage revenue increased by \$32,316 (8.7%), due to an increase in same-store sales of 4.4% driven by strong sales of hot sandwiches and bakery, as well as an increase of approximately 4.3% due to operating 138 more stores than a year ago. Grocery and general merchandise revenue increased by \$72,042 (7.2%), due to an increase in same-store sales of 1.6% driven by sales of non-alcoholic and alcoholic beverages, as well as an increase of approximately 5.6% due to operating 138 more stores than a year ago. Retail fuel revenue increased by \$128,309 (5.3%) due to an increase in the number of gallons sold by 58,545 (8.2%). This was partially offset by a decrease in the average retail price per gallon by 2.7%.

The other revenue category primarily consists of activity related to wholesale fuel revenue from the dealer network and car wash revenue, which are both presented gross of applicable costs, as well as lottery, which is presented net of applicable costs. Other revenue decreased \$4,181 (5.8%) for the first quarter of fiscal 2025 compared to the prior year, driven primarily by a decrease in total revenue related to the dealer network.

Total revenue less cost of goods sold (excluding depreciation and amortization) was 23.3% of revenue for the first quarter of fiscal 2025, compared to 22.7% for the comparable period in the prior year. Prepared food and dispensed beverage revenue less related cost of goods sold (exclusive of depreciation and amortization) was relatively consistent at 58.3% of revenue, compared to 58.2% of revenue for the comparable period in the prior year. Grocery and general merchandise revenue less related cost of goods sold (exclusive of depreciation and amortization) increased to 35.4% of revenue for the first quarter of fiscal 2025, compared to 34.1% for the comparable period in the prior year, driven primarily by strong cost of goods management.

Fuel revenue less related cost of goods sold (exclusive of depreciation and amortization) was 12.3% of fuel revenue during the first quarter of fiscal 2025, compared to 12.2% for the comparable period in the prior year. Revenue per gallon less cost of goods sold (exclusive of depreciation and amortization) per gallon decreased to 40.7 cents in the first quarter of fiscal 2025, compared to 41.6 cents for the comparable period in the prior year. The Company sold 8.5 million RINs (renewable identification numbers) for \$4,834 during the quarter, compared to the sale of 12.8 million RINs in the first quarter of the prior year, which generated \$20,197 (see footnote 3, above, for a further description of RINs and how they are generated).

Operating expenses increased \$48,619 (8.7%) to \$609,474 in the first quarter of fiscal 2025. Approximately 5% of the increase is due to operating 138 more stores than the comparable period in the prior year. The impact of one-time deal costs related to pending acquisitions was approximately 1% of the increase. Total same-store employee expense contributed to approximately 1% of the increase, as the increases in labor rates were partially offset by a reduction in same-store labor hours.

Depreciation and amortization expense increased \$11,504 (13.9%) to \$94,409 in the first quarter of fiscal 2025, primarily due to operating 138 more stores than a year ago.

## Table of Contents

Interest, net increased \$1,572 (12.6%) to \$14,067 in the first quarter of fiscal 2025. The increase was primarily attributable to decrease in interest income due to the decrease in cash and cash equivalents from the same period in the prior year.

The effective tax rate increased to 24.1% in the first quarter of fiscal 2025 compared to 23.6% in the same period of fiscal 2024. The increase in the effective tax rate was primarily due to a one-time benefit in the prior year from adjusting the Company's deferred tax assets and liabilities for state law changes enacted during the quarter.

Net income increased by \$10,961 (6.5%) to \$180,198 from \$169,237 in the comparable period in the prior year. The increase in net income was primarily attributable to higher profitability both inside the store and in fuel, partially offset by higher operating expenses and depreciation and amortization. See discussion in the paragraphs above for the primary drivers for each of these changes.

### Use of Non-GAAP Measures

We define EBITDA as net income before net interest expense, income taxes, depreciation and amortization. EBITDA is not considered to be a GAAP measure, and should not be considered as a substitute for net income, cash flows from operating activities or other income or cash flow statement data. This measure has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. We strongly encourage investors to review our financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

We believe EBITDA is useful to investors in evaluating our operating performance because securities analysts and other interested parties use this calculation as a measure of financial performance and debt service capabilities, and it is regularly used by management for internal purposes including our capital budgeting process, evaluating acquisition targets, assessing performance, and awarding incentive compensation.

Because non-GAAP financial measures are not standardized, EBITDA, as defined by us, may not be comparable to similarly titled measures reported by other companies. It therefore may not be possible to compare our use of this non-GAAP financial measure with those used by other companies.

The following table contains a reconciliation of net income to EBITDA for the three months ended July 31, 2024 and 2023:

	Three months ended	
	July 31, 2024	July 31, 2023
Net income	\$ 180,198	\$ 169,237
Interest, net	14,067	12,495
Federal and state income taxes	57,108	52,262
Depreciation and amortization	94,409	82,905
EBITDA	\$ 345,782	\$ 316,899

For the three months ended July 31, 2024, EBITDA increased by 9.1% when compared to the same period a year ago. The increase was primarily attributable to higher profitability both inside the store and in fuel, partially offset by higher operating expenses. See discussion in the preceding sections for the primary drivers for each of these individual changes.

### Critical Accounting Policies

Critical accounting policies are those accounting policies that management believes are important to the portrayal of the Company's financial condition and results of operations. The Company's critical accounting policies are described in the Form 10-K for the year ended April 30, 2024, and such discussion is incorporated herein by reference. There have been no changes to these policies in the three months ended July 31, 2024.

### Liquidity and Capital Resources

Due to the nature of the Company's business, cash provided by operations is the Company's primary source of liquidity. The Company finances its inventory purchases primarily from normal trade credit aided by the relatively rapid turnover of inventory. This turnover allows the Company to conduct its operations without large amounts of cash and working capital. As of July 31, 2024, the Company's ratio of current assets to current liabilities was 0.84 to 1. The ratio at July 31, 2023 and April 30, 2024 was 1.09 to 1 and 0.87 to 1, respectively. The decrease in the ratio from July 31, 2023, is primarily attributable to a decrease in cash and cash equivalents as a result of increased acquisition related activity, as well as share repurchases

[Table of Contents](#)

during the prior fiscal year. The modest decrease in the current ratio from April 30, 2024 is primarily attributable to a \$155,028 increase in current maturities of long-term debt and finance lease obligations associated with the reclassification of the \$150,000 Series E notes from long-term debt and finance lease obligations to current maturities, as the full principal balance is coming due June 13, 2025. The increase in current liabilities was partially offset by an increase in cash and cash equivalents.

Management believes that the net availability under the Bank Line of approximately \$49,692 and the Revolving Facility of \$850,000, combined with the current cash and cash equivalents and the future cash flow from operations will be sufficient to satisfy the working capital needs of our business.

Net cash provided by operating activities was \$281,354 for the three months ended July 31, 2024, compared to \$229,131 for the comparable period in the prior year, an increase of \$52,223. Our primary source of operating cash flows is from sales to guests at our stores. The primary uses of operating cash flows are payments to our team members and suppliers, as well as payments for taxes and interest. Cash flow from operations was favorably impacted by improved revenue less cost of goods sold (excluding depreciation and amortization) of \$77,502, offset by an increase in operating expenses of \$48,619. Refer to "Three Months Ended July 31, 2024 Compared to Three Months Ended July 31, 2023" starting on page 15 for further details on the primary drivers for the changes in revenue, cost of goods sold, and operating expenses. Cash flows from operations can also be impacted by variability in the timing of payments and receipts for certain assets and liabilities, such as wage related accruals, accounts payable, and receivables from credit card companies or our vendors. The increase in operating cash flows, compared to the prior year, was also favorably impacted by an increase in operating cash flows of \$27,378 due to the timing of inventory purchases.

Cash used in investing activities increased \$35,573. During the first three months of fiscal 2025, the Company expended \$118,677 for purchases of property and equipment and payments for acquisitions compared to \$82,200 for the comparable period in the prior year. Purchases of property and equipment and payments for acquisitions of businesses typically represent the single largest use of excess Company funds. Management believes that by acquiring, building, and reinvesting in stores, the Company will be better able to drive long-term shareholder value.

Cash used in financing decreased \$21,613, primarily due to the repurchase and retirement of common stock under our share repurchase program in the comparable period of the prior year.

[Table of Contents](#)

As of July 31, 2024, the Company had long-term debt consisting of:

Finance lease liabilities	\$	99,847
3.67% Senior notes (Series A) due in 7 installments beginning June 17, 2022, and ending June 15, 2028		87,000
3.75% Senior notes (Series B) due in 7 installments beginning December 17, 2022 and ending December 18, 2028		37,000
3.65% Senior notes (Series C) due in 7 installments beginning May 2, 2025 and ending May 2, 2031		50,000
3.72% Senior notes (Series D) due in 7 installments beginning October 28, 2025 and ending October 28, 2031		50,000
3.51% Senior notes (Series E) due June 13, 2025		150,000
3.77% Senior notes (Series F) due August 22, 2028		250,000
2.85% Senior notes (Series G) due August 7, 2030		325,000
2.96% Senior notes (Series H) due August 6, 2032		325,000
Variable rate term loan facility, requiring quarterly installments ending April 21, 2028		234,375
Less debt issuance costs		(1,301)
		1,606,921
Less current maturities		(208,209)
	\$	1,398,712

The Company has funded purchases of property and equipment and payments for acquisitions of businesses primarily from the issuance of debt, existing cash, and funds generated from operations. Future capital needs required to finance operations, improvements and the anticipated growth in the number of stores are expected to be met from cash generated by operations, the Revolving Facility, the Bank Line, and additional long-term debt or other securities as circumstances may dictate, and are not expected to adversely affect liquidity.

## **Cautionary Statements**

This Form 10-Q, including but not limited to the Management's Discussion and Analysis of Financial Condition and Results of Operations, contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. The words "may," "will," "should," "believe," "expect," "anticipate," "intend," "estimate," "project," "continue," and similar expressions are used to identify forward-looking statements. Forward-looking statements represent the Company's current expectations or beliefs concerning future events and trends that we believe may affect our financial condition, liquidity and related sources and needs, supply chain, results of operations and performance at our stores, business strategy, strategic plans, growth opportunities, integration of acquisitions, acquisition synergies, short-term and long-term business operations and objectives including our long-term strategic plan, wholesale fuel, inventory and ingredient costs and the potential effects of the conflict in Ukraine on our business. The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including, without limitation, the following risk factors described more completely in the Company's Form 10-K for the fiscal year ended April 30, 2024:

**Business Operations:** Our business and our reputation could be adversely affected by a cyber or data security incident or the failure to protect sensitive guest, Team Member or supplier data, or the failure to comply with applicable regulations relating to data security and privacy; food-safety issues and foodborne illnesses, whether actual or reported, or the failure to comply with applicable regulations relating to the transportation, storage, preparation or service of food, could adversely affect our business and reputation; we may be adversely impacted by increases in the cost of food ingredients and other related costs; a significant disruption to our distribution network, to the capacity of the distribution centers, or timely receipt of inventory could adversely impact our sales or increase our transaction costs, which could have a material adverse effect on our business; we could be adversely affected if we experience difficulties in, or are unable to recruit, hire or retain, members of our leadership team and other distribution, field and store Team Members; any failure to anticipate and respond to changes in consumer preferences, or to introduce and promote innovative technology for guest interaction, could adversely affect our financial results; we rely on our information technology systems, and a number of third-party software providers, to manage numerous aspects of our business, and a disruption of these systems could adversely affect our business; increased credit card expenses could lead to higher operating expenses and other costs for the Company; our operations present hazards and risks which may not be fully covered by insurance, if insured; the dangers inherent in the storage and transport of fuel could cause disruptions and could expose us potentially to significant losses, costs or liabilities; consumer or other litigation could adversely affect our financial condition and results of operations; pandemics or disease outbreaks, responsive actions taken by governments and others to mitigate their spread, and guest behavior in response to these events, have, and may in the future, adversely affect our business operations, supply chain and financial results; and, covenants in our Senior Notes and credit facility agreements require us to comply with certain covenants and meet financial maintenance tests and the failure to comply with these requirements could have a material impact to us.

**Governmental Actions, Regulations, and Oversight:** Compliance with and changes in tax laws could adversely affect our performance; we are subject to extensive governmental regulations; governmental action and campaigns to discourage tobacco and nicotine use and other tobacco products may have a material adverse effect on our revenues and gross profit; and, wholesale cost and tax increases relating to tobacco and nicotine products could affect our operating results.

**Industry:** General economic and political conditions that are largely out of the Company's control may adversely affect the Company's financial condition and results of operations; developments related to fuel efficiency, fuel conservation practices, climate change, and changing consumer preferences may decrease the demand for motor fuel; unfavorable weather conditions can adversely affect our business; the volatility of wholesale petroleum costs could adversely affect our operating results; and, the convenience store industry is highly competitive.

**Growth Strategies:** We may not be able to identify, acquire, and integrate new properties and stores, which could adversely affect our ability to grow our business.

**Common Stock:** The market price for our common stock has been and may in the future be volatile, which could cause the value of your investment to decline; any issuance of shares of our common stock in the future could have a dilutive effect on your investment; and, Iowa law and provisions in our charter documents may have the effect of preventing or hindering a change in control and adversely affecting the market price of our common stock.

We further caution you that other factors we have not identified may in the future prove to be important in affecting our business and results of operations. We ask you not to place undue reliance on any forward-looking statements because they speak only of our views as of the statement dates. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

The Company's exposure to market risk for changes in interest rates relates primarily to our investment portfolio and floating rate long-term debt obligations. We place our investments with high-quality credit issuers and, by policy, limit the amount of credit exposure to any one issuer. Our first priority is to attempt to reduce the risk of principal loss. Consequently, we seek to preserve our invested funds by limiting default risk, market risk, and reinvestment risk. We attempt to mitigate default risk by investing in only high-quality credit securities that we believe to be low risk and by positioning our portfolio to respond appropriately to a significant reduction in a credit rating of any investment issuer or guarantor. The portfolio includes only marketable securities with active secondary or resale markets to ensure portfolio liquidity. Based upon the outstanding balance of the Company's term loan facility as of July 31, 2024, an immediate 100-basis-point move in interest rates would have an approximate annualized impact of \$2.3 million on interest expense.

The Company also has exposure to market risks related to the volatility of fuel prices associated with non-store inventoried fuel (pipeline and terminal). The Company utilizes futures contracts to economically hedge the physical products while the bulk fuel is in storage at various terminals and pipelines, until such time the underlying gallons can be delivered to the store. The Company does not speculate in trading financial instruments. All hedges must be matched against recorded physical transactions, inventoried fuel in a pipeline or at a terminal. Derivative contracts outstanding were immaterial to the financial statements as of July 31, 2024 and for the period then ended.

We do from time to time, participate in a forward buy of certain commodities. These contracts are not accounted for as derivatives as they meet the normal purchases exclusion under derivative accounting.

**Item 4. Controls and Procedures.**

**Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 240.13a-15(e)). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

**Changes in Internal Controls Over Financial Reporting**

There have been no changes in the Company's internal control over financial reporting during the quarter ended July 31, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II—OTHER INFORMATION**

**Item 1. Legal Proceedings**

The information required by this Item is set forth in Note 7 to the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q and is incorporated herein by this reference.

**Item 1A. Risk Factors**

There have been no material changes in our "risk factors" from those previously disclosed in our 2024 Annual Report on Form 10-K.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table sets forth information with respect to the Company's repurchases of common stock during the quarter ended July 31, 2024:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
<b>First Quarter</b>				
May 1 - May 31, 2024	—	\$ —	—	\$ 295,109,710
June 1 - June 30, 2024	—	—	—	295,109,710
July 1 - July 31, 2024	—	—	—	295,109,710
<b>Total</b>	<b>—</b>	<b>—</b>	<b>—</b>	<b>\$ 295,109,710</b>

On, and effective as of, March 3, 2022, the Board authorized a share repurchase program, whereby the Company was authorized to repurchase its outstanding common stock from time-to-time, for an aggregate amount of up to \$400 million, exclusive of fees, commissions or other costs (the "Repurchase Program"). The Repurchase Program has no set expiration date. The timing and number of repurchase transactions under the Repurchase Program depends on a variety of factors including, but not limited to, market conditions, corporate considerations, business opportunities, debt agreements, and regulatory requirements. The Repurchase Program can be suspended or discontinued at any time. As of July 31, 2024, \$295.1 million remained available for future purchases under this share repurchase program.

## AMENDMENT TO EQUITY PURCHASE AGREEMENT

This AMENDMENT TO EQUITY PURCHASE AGREEMENT (the "Amendment") is entered into as of September 3, 2024, by and among Casey's General Stores, Inc., an Iowa Corporation (the "Buyer") and Raymond W. Smith, an individual residing in the State of Texas (the "Representative").

### RECITALS

WHEREAS, reference is made to that certain Equity Purchase Agreement, dated July 25, 2024 (the Purchase Agreement) by and among the Buyer, Fikes Wholesale, Inc., a Texas corporation, Group Petroleum Services, Inc., a Texas corporation, the Representative, the Persons listed on Schedule I of the Purchase Agreement and Schedule II of the Purchase Agreement, and, solely for the purposes of certain sections set forth therein, each such Person listed on Schedule III of the Purchase Agreement;

WHEREAS, pursuant to Section 12.2 of the Purchase Agreement, the Purchase Agreement may be amended by an instrument in writing signed on behalf of the Buyer and the Representative; and

WHEREAS, the Buyer and the Representative desire to amend the Purchase Agreement pursuant to Section 12.2, as more specifically set forth herein.

NOW, THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the foregoing recitals and as follows:

1. Defined Terms. Capitalized terms not herein defined shall have the meanings ascribed to them in the Purchase Agreement.
2. Amendment to Section 3.1 (Closing; Closing Date) of the Purchase Agreement Section 3.1 of the Purchase Agreement is hereby amended by replacing the reference to "October 1, 2024" therein with "November 1, 2024".
3. Amendment to Definition of "Restricted Territory". The definition for "Restricted Territory" in Section 1.1 of the Purchase Agreement is hereby amended and restated in its entirety with the following:

"Restricted Territory" means a three (3) mile radius from each of the store locations set forth on Schedule 1.1(c).
4. Other Matters. Each of the Buyer and the Representative hereby agrees to the matters set forth in Schedule A attached hereto.
5. Effect on the Purchase Agreement. Except as expressly set out in this Amendment, the Purchase Agreement shall remain unchanged and continue in full force and effect in accordance with its terms. For the avoidance of doubt, this Amendment shall not in any

way limit any party's rights or obligations pursuant to any other condition, term or provision of the Purchase Agreement except as expressly provided in this Amendment. Notwithstanding anything to the contrary in this Amendment, the date of the Agreement, as amended hereby, will in all instances remain as July 25, 2024, and any references in the Agreement to "the date of this Agreement," "the date hereof" and similar references will continue to refer to July 25, 2024.

6. Entire Agreement. This Amendment, together with the Purchase Agreement (including the documents and instruments referred to herein and therein), constitutes the entire agreement of the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings, both written and oral, among the parties hereto, or any of them, with respect to the subject matter hereof.

7. Other Miscellaneous Terms. Except as expressly provided herein, the provisions of Sections 12.2 (Amendment), 12.4 (Notices), 12.6 (Binding Effect; Assignment), 12.7 (No Third-Party Beneficiaries), 12.8 (Governing Law), 12.9 (Consent to Jurisdiction and Service of Process), 12.10 (WAIVER OF JURY TRIAL), 12.11 (Specific Performance), 12.12 (Severability) and 12.15 (Counterparts) of the Purchase Agreement shall apply *mutatis mutandis* to this Amendment. After the date hereof, any reference to the Purchase Agreement and/or the Disclosure Schedules shall mean the Purchase Agreement and/or the Disclosure Schedules, as applicable, as amended and modified hereby.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the Buyer and the Representative have executed this Amendment as of the date first above written.

Certification of Darren M. Rebelez  
under Section 302 of the  
Sarbanes Oxley Act of 2002

I, Darren M. Rebelez, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Casey's General Stores, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting practices;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
