Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Companyâ€™s continuing involvement with the assets transferred and any other relevant considerations. The Company has non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all of the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was $56,959 and $86,506 during the three months ended September 30, 2024 and 2023, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Companyâ€™s consolidated statements of operations. The proceeds from the sale of receivables are included in cash (used in) provided by operating activities on the consolidated statements of cash flows.Recently Issued Accounting Pronouncements Not Yet AdoptedIn November 2024, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) 2024-03, â€œIncome Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expensesâ€. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosures,â€ which will require entities to disclose more detailed information in the reconciliation of their statutory tax rate to their effective 10 Table of Contents Â tax rate. The ASU also requires entities to disclose more detailed information about income taxes paid, including by jurisdiction, pretax income (loss) from continuing operations, and income tax expense (benefit). Goodwill of $7,280 was assigned to the divested component on a relative fair value basis.As of September 30, 2024, the Company performed an assessment of factors to determine whether it was more likely than not that the fair value of its reporting units was less than its carrying amount, including goodwill. The Company concluded that were no events or circumstances that warranted an interim quantitative impairment test for goodwill during the three months ended September 30, 2024. As of September 30, 2024, goodwill associated with the U.S. reporting unit had a carrying value of $633,774. The U.S. reporting unit is at risk of potential impairment if, among other things, the fair value of this reporting unit, and its associated assets, decreases in value due to the amount and timing of expected future cash flows, decreased customer demand for products, an inability to execute managementâ€™s business strategies, or general market conditions, such as economic downturns, and changes in interest rates, including discount rates. Future cash flow estimates are, by their nature, subjective, and actual results may differ materially from the Companyâ€™s estimates. If the Companyâ€™s ongoing cash flow projections are not met or if market factors utilized in the impairment test deteriorate, including an unfavorable change in the terminal growth rate or the weighted-average cost of capital, the Company may have to record impairment charges in future periods. The Credit Agreement provides for senior secured financing of $1,100 million in the aggregate, consisting of (1) $300 million in aggregate principal amount of term loans (the â€œTerm Loansâ€) and (2) an $800 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and is comprised of a $440 million U.S. revolving credit facility and $360 million global revolving credit facility) (the â€œRevolverâ€). Both the Revolver and the Term Loans mature on December 22, 2026. The Companyâ€™s obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions.The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. Pursuant to the Second Amendment, the Companyâ€™s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023 and 5.00:1.00 until December 31, 2024 (the period of time during which such maximum consolidated secured leverage ratios are in effect, the â€œSecond Amendment Periodâ€). Following the Second Amendment Period, the maximum consolidated secured leverage ratio will be 4.25:1.00, subject to possible temporary increase following certain corporate acquisitions. Pursuant to the Credit Agreement, the Companyâ€™s maximum consolidated leverage ratio is 6.00:1.00. Pursuant to the Second Amendment, the Companyâ€™s minimum interest coverage ratio was amended to be 2.50:1.00.During the Second Amendment Period, loans under the Credit Agreement bear interest at (a) Term SOFR plus 2.5% per annum or (b) the Base Rate plus 1.5% per annum. Following the Second Amendment Period, loans bear interest at rates based on (a) Term SOFR plus a rate ranging from 1.125% to 2.0% per annum or (b) the Base Rate plus a rate ranging from 0.125% to 1.0% per annum, the relevant rate in each case being the Applicable Rate. The Applicable Rate following the Second Amendment 14 Table of Contents Â Period is determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement as amended by the Second Amendment. Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 7.76%. During fiscal 2022, the Company used interest rate swaps to hedge a portion of the interest rate risk related its outstanding variable rate debt. As of September 30, 2024, the notional amount of the interest rate swaps was $400 million with fixed rate payments of 5.60%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 6.56%. Additionally, the Credit Agreement contains a Commitment Fee (as defined in the Credit Agreement) on the amount unused under the Credit Agreement ranging from 0.15% to 0.25% per annum, and such Commitment Fee is determined in accordance with a leverage-based pricing grid.As of September 30, 2024, there were $473,000 of loans under the Revolver, $268,675 of Term Loans, and $3,247 of letters of credit outstanding under the Credit Agreement. As of September 30, 2024, $323,753 was available under the Credit Agreement, subject to compliance with the financial covenants. As of September 30, 2024, the Company was in compliance with all associated covenants.Credit Agreement Issuance CostsIn connection with the First and Second Amendments to its Credit Agreement during the second quarter of fiscal year 2023 and first quarter of fiscal year 2024, respectively, the Company incurred debt issuance costs of approximately $5,841, of which $5,729 was deferred. Of the total

deferred costs, $4,198 were associated with the Revolver and are being amortized on a straight-line basis within Other assets on the consolidated balance sheets, and $1,531 are being recorded as an adjustment to the carrying amount of the Term Loans as a component of Interest and other financing expense, net over the term of the Credit Agreement utilizing the effective interest rate method.Interest paid during the three months ended September 30, 2024 and September 30, 2023 was $12,455 and $11,432, respectively. 10.INCOME TAXES In general, the Company uses an estimated annual effective tax rate, which is based on expected annual income and statutory tax rates in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes. However, to the extent that application of the estimated annual effective tax rate is not representative of the quarterly portion of actual tax expense expected to be recorded for the year in a jurisdiction, the Company determines the provision for income taxes based on actual year-to-date income (loss), which has been the case for certain jurisdictions for the quarter ended September 30, 2024. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability on the effective tax rates from quarter to quarter. The Companyâ€™s effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.The effective income tax rate was an expense of 22.0% and a benefit of 35.3% for the three months ended September 30, 2024 and 2023, respectively. The income tax expense for the three months ended September 30, 2024 reflected foreign tax expense in certain jurisdictions and an increase in the valuation allowance for both federal and state income taxes. 15 Table of Contents Â 11.ACCUMULATED OTHER COMPREHENSIVE LOSSThe following table presents the changes in accumulated other comprehensive loss (â€œAOCLâ€):Â Â ForeignCurrencyTranslationAdjustment,Net Â Â DeferredGains (Losses) onCash FlowHedgingInstruments,Net Â Â DeferredGains (Losses) onFair ValueHedgingInstruments,Net Â Â DeferredGains (Losses) onNetInvestmentHedgingInstruments,Net Â Â Total Â Balance at June 30, 2023 Â $ (138,028) Â $ 10,898 Â Â $ 685 Â Â $ 229 Â Â $ (126,216) Other comprehensive (loss) income before reclassifications Â Â (32,933) Â Â 4,159 Â Â Â 430 Â Â Â 1,741 Â Â Â (26,603) Amounts reclassified into income Â Â â€” Â Â Â (1,715) Â Â (717) Â Â (372) Â Â (2,804) Net change in accumulated other comprehensive (loss) income for the three months ended September 30, 2023(1) Â Â (32,933) Â Â 2,444 Â Â Â (287) Â Â 1,369 Â Â Â (29,407) Balance at September 30, 2023 Â $ (170,961) Â $ 13,342 Â Â $ 398 Â Â $ 1,598 Â Â $ (155,623) Â Balance at June 30, 2024 Â $ (147,073) Â $ 9,395 Â Â $ 297 Â Â $ 136 Â Â $ (137,245) Other comprehensive income (loss) before reclassifications Â Â 47,815 Â Â Â (5,515) Â Â (606) Â Â (2,457) Â Â 39,237 Â Amounts reclassified into (income) expense Â Â â€” Â Â Â (1,749) Â Â 719 Â Â Â (371) Â Â (1,401) Net change in accumulated other comprehensive (loss) for the three months ended September 30, 2024(1) Â Â 47,815 Â Â Â (7,264) Â Â 113 Â Â Â (2,828) Â Â 37,836 Â Balance at September 30, 2024 Â $ (99,258) Â $ 2,131 Â Â $ 410 Â Â $ (2,692) Â $ (99,409) Â (1) See Note 14, Derivatives and Hedging Activities, for the amounts reclassified into income for deferred gains on hedging instruments recorded in the consolidated statements of operations during the three months ended September 30, 2024 and 2023. 12.STOCK-BASED COMPENSATION AND INCENTIVE PERFORMANCE PLANS The Company maintains a shareholder-approved plan, The Hain Celestial Group, Inc. 2022 Long Term Incentive and Stock Award Plan (as amended, the â€œ2022 Planâ€), which was approved at the Companyâ€™s 2022 Annual Meeting of Shareholders held on November 17, 2022, and further amended at the Companyâ€™s 2024 Annual Meeting of Shareholders held on October 31, 2024. The 2022 Plan permits the Company to continue making equity-based and other incentive awards in a manner intended to properly incentivize its employees, directors, consultants and other service providers by aligning their interests with the interests of the Companyâ€™s shareholders. The 2022 Plan is administered by the Compensation and Talent Management Committee of the Companyâ€™s Board of Directors. The Company also historically granted shares under its Amended and Restated 2002 Long-Term Incentive and Stock Award Plan (the â€œ2002 Planâ€) and its 2019 Equity Inducement Award Program (the â€œ2019 Inducement Programâ€). The 2022 Plan, the 2002 Plan and the 2019 Inducement Program are collectively referred to as the â€œStock Award Plansâ€. The Companyâ€™s long term incentive program (â€œLTIPâ€) is described in Note 13, Stock-Based Compensation and Incentive Performance Plans, in the Notes to the Consolidated Financial Statements in the Form 10-K.Compensation cost and related income tax benefits recognized in the consolidated statements of operations for stock-based compensation plans were as follows: Â Three Months Ended September 30, Â Â 2024 Â Â 2023 Â Selling, general and administrative expense Â $ 2,876 Â Â $ 3,742 Â Related income tax benefit Â $ 283 Â Â $ 456 Â Â 16 Table of Contents Â Stock-Based Award ActivityStock-based awards are generally issued in the form of restricted share units (â€œRSUâ€), which are service-based awards, and performance share units (â€œPSUâ€) that are subject to the achievement of minimum market conditions. RSU awards to employees generally provide for vesting in equal annual installments over a period of three years, with different vesting periods in certain cases. RSU awards to non-employee directors generally provide for a vesting period of one year. For PSU awards, the following share figures are stated at target levels, and the awards outstanding as of September 30, 2024 generally provide for vesting at 0% to 200% of the target level. Awards of PSUs and RSUs are issued at no cost to the recipient. Â 13.FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUEThe Companyâ€™s financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:â€¢Level 1 â€“ Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;â€¢Level 2 â€“ Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; andâ€¢Level 3 â€“ Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).The following table presents assets and liabilities measured at fair value on a recurring basis as of September 30, 2024: Â Â Total Â Â Quotedprices inactivemarkets(Level 1) Â Â Significantotherobservableinputs(Level 2) Â Â Significantunobservableinputs(Level 3) Â Assets: Â Â Â Â Â Â Â Â Â Â Â Â Derivative financial instruments Â $ 5,397 Â Â $ â€” Â Â $ 5,397 Â Â $ â€” Â Liabilities: Â Â Â Â Â Â Â Â Â Â Â Â Derivative financial instruments Â $ 8,159 Â Â Â â€” Â Â $ 8,159 Â Â Â â€” Â Â 17 Table of Contents Â The following table presents assets and liabilities measured at fair value on a recurring basis as of June 30, 2024:Â Â Total Â Â Quotedprices inactivemarkets(Level 1) Â Â Significantotherobservableinputs(Level 2) Â Â Significantunobservableinputs(Level 3) Â Assets: Â Â Â Â Â Â Â Â Â Â Â Â Derivative financial instruments Â $ 14,982 Â Â $ â€” Â Â $ 14,982 Â Â $ â€” Â Liabilities: Â Â Â Â Â Â Â Â Â Â Â Â Derivative financial instruments Â $ 3,333 Â Â Â â€” Â Â $ 3,333 Â Â Â â€” Â Â There were no transfers of financial instruments between the three levels of fair value hierarchy during the three months ended September 30, 2024 or 2023.Derivative InstrumentsThe Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like discounted cash flow analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. The fair values of interest rate swaps are determined by netting the discounted future fixed and variable cash flows. The variable cash flows are based on expected future interest rates.Credit valuation adjustments are made to reflect the nonperformance risk of both the Company and its counterparties. Most inputs used to value derivatives fall within Level 2 of the fair value hierarchy, but credit valuation adjustments use Level 3 inputs, such as current credit spreads. The impact of these adjustments was not significant to the overall valuation, so all derivatives as of September 30, 2024 and June 30, 2024 were classified as Level 2.Nonrecurring Fair Value MeasurementsThe Company measures certain non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use lease assets, at fair value on a nonrecurring basis. These assets are initially measured at fair value at the time of acquisition or purchase, with adjustments only for foreign currency translation. Periodically, these assets are tested for impairment by comparing their carrying values to their estimated fair values. If an asset is impaired, the Company recognizes an impairment expense equal to the excess of the carrying value over the estimated fair value.For indefinite-lived intangible assets, the fair value is determined using the relief from royalty approach, considering factors like future growth, royalty rates, discount rates, and other variables. Fair value measurements for reporting units are estimated using discounted cash flow models, which involve significant management judgment and Level 3 inputs, such as economic conditions and customer demand. These measurements are performed at least annually for impairment testing. The Company bases its fair value estimates on reasonable assumptions but acknowledges their unpredictability and inherent uncertainty. 14.DERIVATIVES AND HEDGING ACTIVITIESRisk Management Objective of Using DerivativesThe Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages its exposures to a wide variety of business and operational risks. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Companyâ€™s derivative financial instruments are used to manage differences in the amount, timing, and duration of the Companyâ€™s known or expected cash receipts and its known or expected cash payments principally related to the Companyâ€™s receivables and borrowings.Certain of the Companyâ€™s foreign operations expose the Company to fluctuations of foreign exchange rates. These fluctuations may impact the value of the Companyâ€™s cash receipts and payments in terms of the Companyâ€™s functional currency. The Company 18 Table of Contents Â enters into derivative financial instruments to protect the value or fix the amount of certain assets and liabilities in terms of its functional currency, the U.S. Dollar. Accordingly, the Company uses derivative financial instruments to manage and mitigate such risks. The Company does not use derivatives for speculative or trading purposes.Cash Flow Hedges of Interest Rate RiskThe Companyâ€™s objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. During the three months ended September 30, 2024 and 2023, such derivatives were used to hedge the variable cash flows associated with existing variable rate debt.For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified into interest expense in the same period during which the hedged transaction affects earnings. Amounts reported in AOCL related to derivatives will be reclassified to interest expense as interest payments are made on the Companyâ€™s variable rate debt. During the next 12 months, the Company estimates that an additional $3,010 will be reclassified as a decrease to interest expense.As of September 30, 2024, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:Â Interest Rate Derivative Â Number of Instruments Â Notional Amount Â Interest rate swap Â 4 Â $ 400,000 Â Â Cash Flow Hedges of Foreign Exchange RiskThe Company is exposed to fluctuations in various foreign currencies against its functional currency, the U.S. Dollar. The Company, at times, uses forward contracts to manage its exposure to fluctuations in the GBP-EUR exchange rates. The Company designates these derivatives as cash flow hedges of foreign exchange risks.For derivatives designated and that qualify as cash flow hedges of foreign exchange risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified in the same period during which the hedged transaction affects earnings within the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that no amount relating to the foreign currency forward contracts will be reclassified to interest expense. As of September 30, 2024, the Company had no outstanding foreign currency derivatives that were used to hedge its foreign exchange risks.Â 19 Table of Contents Â Net Investment HedgesThe Company is exposed to fluctuations in foreign exchange rates on investments it holds in its European foreign entities and their exposure to the Euro. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in the foreign exchange rate on its foreign investment in Western Europe. Currency forward agreements involve fixing the USD-EUR exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in U.S. Dollars for their fair value at or close to their settlement date. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency- fixed-rate payments over the life of the agreement. For derivatives designated as net investment hedges, the gain or loss on the derivative is reported in AOCL as part of the cumulative translation adjustment. Amounts are reclassified out of AOCL into earnings when the hedged net investment is either sold or substantially liquidated.As of September 30, 2024, the Company had the following outstanding foreign currency derivatives that were used to hedge its net investments in foreign operations:Â Foreign Currency Derivative Â Number of Instruments Â Notional Sold Â Â Notional Purchased Â Cross-currency swap Â 4 Â â‚¬ 100,300 Â Â $ 105,804 Â Â Fair Value HedgesThe Company is exposed to changes in the fair value of certain of its foreign denominated intercompany loans due to changes in foreign exchange spot rates. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in foreign exchange rates affecting gains and losses on intercompany loan principal and interest. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency-fixed-rate payments over the life of the agreement. For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in interest and other financing expense, net.Gains and losses on the derivative representing hedge components excluded from the assessment of effectiveness are recognized over the life of the hedge on a systematic and rational basis, as documented at hedge inception in accordance with the Companyâ€™s accounting policy election. The earnings recognition of excluded components is presented in the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that an additional $476 relating to cross currency swaps will be reclassified as a decrease to interest expense. Defendants filed a motion to dismiss the Second Amended Complaint on June 20, 2019. Co-Lead Plaintiffs filed their opening brief on February 12, 2024. Defendants opposed, and the appeal was fully briefed as of June 3, 2024. The Court has scheduled oral argument on Plaintiffsâ€™ appeal for December 5, 2024.Additional Stockholder Class Action and Derivative Complaints Filed in Federal CourtThe former Board of Directors and certain former officers of the Company are defendants in a consolidated action originally filed in 2017 in the Eastern District of New York under the captions Silva v. Simon, et al., Barnes v. Simon, et al., Merenstein v. Heyer, et al., and Oliver v. Berke, et al. Plaintiffs in the consolidated action, In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the â€œConsolidated Stockholder Class and Derivative Actionâ€), allege the violation of securities law, breach of fiduciary duty, waste of corporate assets and unjust enrichment. The plaintiffs alleged in their Amended Complaint that the Companyâ€™s former directors and certain former officers made materially false and misleading statements in press releases and SEC filings regarding the Companyâ€™s business, prospects and financial results and that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and includes claims for breach of fiduciary duty, unjust enrichment and corporate waste.On December 20, 2017, the parties agreed to stay Defendantsâ€™ time to answer, move, or otherwise respond to the consolidated amended complaint through and including 30 days after a decision was rendered on the motion to dismiss the Amended Complaint in the Consolidated Securities Action, described above. After the District Court granted Defendantsâ€™ motion to dismiss the Consolidated Securities Action, the Co-Lead Plaintiffs in that action filed a Second Amended Complaint on May 6, 2019. This deadline was extended, and Defendants moved to dismiss the Consolidated Stockholder Class and Derivative Action Complaint on June 23, 2020, with Plaintiffsâ€™ opposition due August 7, 2020. On July 24, 2020, Plaintiffs made a stockholder litigation demand on the current Board containing overlapping factual allegations to those set forth in the Consolidated Stockholder Class and Derivative Action. On November 3, 2020, Plaintiffs were informed that the Board of Directors had finished investigating and resolved, among other things, that the demand should be rejected. In light of the Second Circuit vacating the District Courtâ€™s judgment in the Consolidated Securities Action referenced above and remanding the case for further proceedings, the Parties submitted a joint status report on December 29, 2021 requesting that the District Court continue the temporary stay pending the District Courtâ€™s reconsideration of the Defendantsâ€™ motion to dismiss the Second Amended Complaint in the Consolidated Securities Action. Further details of changes in net sales by segment are provided below in the Segment Results section. 30 Table of Contents Â Gross Profit Gross profit for the three months ended September 30, 2024 was $81.6 million, a decrease of $2.3 million, or 2.8%, as compared to the prior year quarter. However, gross profit margin of 20.7% for the three months ended September 30, 2024 was higher when compared with 19.7% in the prior year quarter. The decrease in gross profit was driven primarily by the North America reportable segment, mainly due to lower sales volume, partially offset by favorable product mix and productivity improvements. The International reportable segment had an increase in gross profit mainly driven by higher margin due to productivity and improved promotional efficiency, partially offset by lower volume. Selling, General and Administrative Expenses Selling, general and administrative expenses were $71.3 million for the three months ended September 30, 2024, a decrease of $5.8 million, or 7.6%, from $77.2 million for the prior year quarter. The decrease was primarily due to lower marketing and advertising expense and employee-related expenses. Productivity and Transformation Costs Productivity and transformation costs were $5.0 million for the three months ended September 30, 2024, a decrease of $1.4 million, or 21.6%, from $6.4 million in the prior year quarter. The decrease was primarily due to lower restructuring costs incurred in connection with the Hain Reimagined Program. Amortization of Acquired Intangible Assets Amortization of acquired intangibles was $2.2 million for the three months ended September 30, 2024, an increase of $0.2 million from $2.0 million in the prior year quarter. Long-Lived Asset Impairment During the three months ended September 30, 2023, the Company recognized a non-cash impairment charge of $0.7 million related to certain equipment in North America. Operating Income (Loss) Operating income for the three months ended September 30, 2024 was $3.1 million compared to an operating loss of $2.3 million in the prior year quarter as a result of the items described above. Interest and Other Financing Expense, Net Interest and other financing expense, net totaled $13.7 million for the three months ended September 30, 2024, an increase of $0.5 million, or 3.8%, from $13.2 million in the prior year quarter. The increase resulted primarily from higher borrowing rates, partially offset by a lower outstanding debt balance compared to the prior year quarter. See Note 9, Debt and Borrowings, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q. Other Expense (Income), Net Other expense, net totaled $5.3 million for the three months ended September 30, 2024, compared to $0.3 million of other income, net in the prior year quarter. The change primarily reflected the recognition of a $3.9 million pretax loss on the sale of the ParmCrispsÂ® business in the first quarter of 2024 and higher net unrealized foreign currency losses. Loss Before Income Taxes and Equity in Net Loss of Equity-Method Investees Loss before income taxes and equity in net loss of our equity-method investees for the three months ended September 30, 2024 was $16.0 million compared to $15.3 million in the prior year quarter. The increase in the loss before income taxes and equity in net loss of our equity-method investees was due to the items discussed above. 31 Table of Contents Â Provision (Benefit) for Income Taxes The provision (benefit) for income taxes includes federal, foreign, state and local income taxes. Our income tax expense was $3.5 million for the three months ended September 30, 2024 compared to benefit of $5.4 million in the prior year quarter. The effective income tax rate was an expense of 22.0% and a benefit of 35.3% for the three months ended September 30, 2024 and 2023, respectively. The income tax expense for the three months ended September 30, 2024 reflected foreign tax expense in certain jurisdictions and an increase in the valuation allowance for both federal and state income taxes. Equity in Net Loss of Equity-Method Investees Equity in net loss from our equity-method investments for the three months ended September 30, 2024 was a loss of $0.2 million compared to a $0.5 million loss in the prior year quarter. Net Loss Net loss for the three months ended September 30, 2024 was $19.7 million, or $0.22 per diluted share, compared to $10.4 million, or $0.12 per diluted share, in the prior year quarter. The increase in net loss was attributable to the factors noted above. Adjusted EBITDA Adjusted EBITDA was $22.4 million and $24.1 million for the three months ended September 30, 2024 and 2023, respectively, as a result of the factors discussed above. See Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures following the discussion of our results of operations for definitions and a reconciliation of our net loss to Adjusted EBITDA. 32 Table of Contents Â Segment Results The following table provides a summary of net sales and Adjusted EBITDA by reportable segment for the three months ended September 30, 2024 and 2023: Â (Dollars in thousands) Â NorthAmerica Â Â International Â Â Corporateand Other Â Â Consolidated Â Net sales Â Â Â Â Â Â Â Â Â Â Â Â Three months ended 9/30/24 Â $ 231,140 Â Â $ 163,456 Â Â $ â€“ Â Â $ 394,596 Â Three months ended 9/30/23 Â Â 260,054 Â Â Â 164,975 Â Â Â â€“ Â Â Â 425,029 Â $ change Â $ (28,914) Â $ (1,519) Â n/a Â Â $ (30,433) % change Â Â (11.1)% Â Â (0.9)% Â n/a Â Â Â Â (7.2)% Â Â Â Â Â Â Â Â Â Â Â Â Â Â Adjusted EBITDA Â Â Â Â Â Â Â Â Â Â Â Â Three months ended 9/30/24 Â $ 12,459 Â Â $ 20,370 Â Â $ (10,454) Â $ 22,375 Â Three months ended 9/30/23 Â Â 18,727 Â Â Â 17,438 Â Â Â (12,075) Â Â 24,090 Â $ change Â $ (6,268) Â $ 2,932 Â Â $ 1,621 Â Â $ (1,715) % change Â Â (33.5)% Â Â 16.8 % Â Â (13.4)% Â Â (7.1)% Â Â Â Â Â Â Â Â Â Â Â Â Â Â Adjusted EBITDA margin Â Â Â Â Â Â Â Â Â Â Â Â Three months ended 9/30/24 Â Â 5.4 % Â Â 12.5 % Â n/a Â Â Â Â 5.7 % Three months ended 9/30/23 Â Â 7.2 % Â Â 10.6 % Â n/a Â Â Â Â 5.7 % Â See the Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures following the discussion of our results of operations and Note 17, Segment Information, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q for a reconciliation of segment Adjusted EBITDA. North America Our net sales in the North America reportable segment for the three months ended September 30, 2024 were $231.1 million, a decrease of $28.9 million, or 11.1%, including an unfavorable impact of $12.9 million or 4.4% related to divestitures, discontinued brands and exited product categories, as compared to the prior year quarter. Organic net sales decreased $15.5 million, or 6.5% to $223.6 million from $239.1 million in the prior year quarter. The decrease in each of net sales and organic net sales was primarily due to lower sales in the snacks category, as expected, due to the timing shift of a promotional event that was held in the first quarter of last fiscal year into the third quarter of the current fiscal year, as well as by a decline in the meal preparation category, partially offset by growth in the beverages category. Adjusted EBITDA for the three months ended September 30, 2024 was $12.5 million, a decrease of $6.3 million, or 33.5%, from Adjusted EBITDA of $18.7 million in the prior year quarter. The decrease was primarily driven by lower volume and inflation, partially offset by productivity. Adjusted EBITDA margin was 5.4%, a 180-basis point decrease from the prior year period. International Our net sales in the International reportable segment for the three months ended September 30, 2024 were $163.5 million, a decrease of $1.5 million, or 0.9%, including a favorable impact of $3.9 million or 2.3% related to foreign exchange, as compared to the prior year quarter. Organic net sales decreased $5.1 million or 3.1% to $159.4 million from $164.5 million the prior year quarter. The decrease in net sales was primarily due to lower sales in the beverages and baby & kids categories on account of lower branded sales. The decrease in organic net sales was primarily due to lower sales in the meal preparation and baby & kids categories. The decrease in the meal preparation category was due to short-term softness in private label spreads and drizzles, partially offset by strong soup performance across brands. Baby & kids category net sales were lower due to lower branded sales. Adjusted EBITDA for the three months ended September 30, 2024 was $20.4 million, an increase of $2.9 million, or 16.8%, from Adjusted EBITDA of $17.4 million in the prior year quarter. The increase was primarily driven by an increase in gross 33 Table of Contents Â profit reflecting improved margin associated with productivity improvements and improved promotional efficiency, partially offset by lower volume and a decrease in selling, general and administrative expenses. Adjusted EBITDA margin was 12.5%, a 190-basis point increase from the prior year period. Corporate and Other The decrease in Corporate and Other expenses primarily reflected a decrease in consulting charges. Refer to Note 17, Segment Information, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Liquidity and Capital Resources We finance our operations and growth primarily with the cash flows we generate from our operations and from borrowings available to us under our Credit Agreement (as defined below). We believe that our cash flows from operations and borrowing capacity under our Credit Agreement will be adequate to meet anticipated operating and other expenditures for the foreseeable future. See Note 9, Debt and Borrowings, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q. In addition to obligations under the Credit Agreement, we are party to other contractual obligations involving commitments to make payments to third parties, including purchase commitments and lease obligations, which impact our short-term and long-term liquidity and capital resource needs. See Note 7, Leases. Amended and Restated Credit Agreement On August 22, 2023, the Company entered into a Second Amendment (the â€œSecond Amendmentâ€) to the Credit Agreement (as amended, the â€œCredit Agreementâ€). The Credit Agreement provides for senior secured financing of $1,100 million in the aggregate, consisting of (1) $300 million in aggregate principal amount of term loans (the â€œTerm Loansâ€) and (2) an $800 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and is comprised of a $440 million U.S. revolving credit facility and $360 million global revolving credit facility) (the â€œRevolverâ€). Both the Revolver and the Term Loans mature on December 22, 2026. The Companyâ€™s obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions. The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. Pursuant to the Second Amendment, the Companyâ€™s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023 and 5.00:1.00 until December 31, 2024 (the period of time during which such maximum consolidated secured leverage ratios are in effect, the â€œSecond Amendment Periodâ€). Following the Second Amendment Period, the maximum consolidated secured leverage ratio will be 4.25:1.00, subject to possible temporary increase following certain corporate acquisitions. Pursuant to the Credit Agreement, the Companyâ€™s maximum consolidated leverage ratio is 6.00:1.00. Pursuant to the Second Amendment, the Companyâ€™s minimum interest coverage ratio was amended to be 2.50:1.00. As of September 30, 2024, the Companyâ€™s consolidated secured leverage ratio, consolidated leverage ratio and consolidated interest coverage ratio were 3.87:1.00, 3.87:1.00 and 3.26:1.00, respectively, and the Company was in compliance with all associated covenants. The aforementioned financial covenants are being reported as calculated under the Credit Agreement and not pursuant to U.S. GAAP. Please refer to the Credit Agreement filed as an exhibit to our periodic reports for further information related to the calculation thereof. For risks related to our indebtedness and compliance with these covenants, please refer to the risk factor â€œAny default under our credit agreement could have significant consequencesâ€ set forth in Part I, Item 1A of our most recent annual report on Form 10-K. During the Second Amendment Period, loans under the Credit Agreement bear interest at (a) Term SOFR plus 2.5% per annum or (b) the Base Rate plus 1.5% per annum. Following the Second Amendment Period, loans bear interest at rates based on (a) Term SOFR plus a rate ranging from 1.125% to 2.0% per annum or (b) the Base Rate plus a rate ranging from 0.125% to 1.0% per annum, the relevant rate in each case being the Applicable Rate. The Applicable Rate following the Second Amendment 34 Table of Contents Â Period is determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement as amended by the Second Amendment. Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 7.76%. During fiscal 2022, the Company used interest rate swaps to hedge a portion of the interest rate risk related its outstanding variable rate debt. As of September 30, 2024, the notional amount of the interest rate swaps was $400 million with fixed rate payments of 5.60%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 6.56%. Additionally, the Credit Agreement contains a Commitment Fee (as defined in the Credit Agreement) on the amount unused under the Credit Agreement ranging from 0.15% to 0.25% per annum, and such Commitment Fee is determined in accordance with a leverage-based pricing grid. As of September 30, 2024, there were $473,000 of loans under the Revolver, $268,675 of Term Loans, and $3,247 of letters of credit outstanding under the Credit Agreement. As of September 30, 2024, $323,753 was available under the Credit Agreement, subject to compliance with the financial covenants. As of September 30, 2024, the Company was in compliance with all associated covenants. Our cash and cash equivalents balance increased by $2.5 million at September 30, 2024 to $56.9 million as compared to $54.3 million at June 30, 2024. Our working capital was $283.3 million at September 30, 2024, an increase of $7.8 million from $275.6 million at the end of fiscal 2024. Additionally, our total debt decreased by $3.7 million at September 30, 2024 to $740.4 million as compared to $744.1 million at June 30, 2024 as a result of net repayments carried out during the period. Our cash balances are held in the U.S., U.K., Canada, Western Europe, the Middle East and India. As of September 30, 2024, substantially all cash was held outside of the U.S. We maintain our cash and cash equivalents primarily in money market funds or their equivalent. Accordingly, we do not believe that our investments have significant exposure to interest rate risk. Cash (used in) provided by operating, investing and financing activities is summarized below. Â Â Three Months Ended September 30, Â Â Change in Â (Dollars in thousands) Â 2024 Â Â 2023 Â Â Dollars Â Cash flows (used in) provided by: Â Â Â Â Â Â Â Â Â Â Operating activities Â $ (10,787) Â $ 14,030 Â Â $ (24,817) Investing activities Â Â 6,309 Â Â Â (5,649) Â Â 11,958 Â Financing activities Â Â (4,198) Â Â (17,584) Â Â 13,386 Â Effect of exchange rate changes on cash Â Â 11,222 Â Â Â (5,881) Â Â 17,103 Â Net increase (decrease) in cash and cash equivalents Â $ 2,546 Â Â $ (15,084) Â $ 17,630 Â Cash used in operating activities was $10.8 million for the three months ended September 30, 2024, a decrease of $24.8 million from cash provided by operating activities of $14.0 million in the prior year period. This increase in cash used in operating activities versus the prior year period resulted primarily from higher cash utilization of $28.9 million for our working capital accounts which was mainly due to lower accounts payable and accrued expenses of $22.8 million, primarily reflecting timing of payments to suppliers in North America and cash restructuring charges, partially offset by focused inventory management, which generated year-over-year improvement of $9.7 million as well as a reduction of $4.1 million in net loss adjusted for non-cash charges. Cash provided by investing activities was $6.3 million for the three months ended September 30, 2024, an increase of $12.0 million from cash used in investing activities of $5.6 million in the prior year period primarily due to an increase in proceeds from asset sales of $10.8 million and lower capital expenditures in the current period due to phasing of capital projects. During the three months ended September 30, 2024, $5.8 million of capital expenditures were incurred primarily related to operational improvements in the United States and United Kingdom. We expect capital expenditures to be approximately $50 million for fiscal year 2025. 35 Table of Contents Â Cash used in financing activities was $4.2 million for the three months ended September 30, 2024, a decrease of $13.4 million compared to $17.6 million in the prior year period. The decrease in cash used in financing activities was primarily due to lower net debt repayment during the three months ended September 30, 2024. Free Cash Flow Our free cash flow was negative $16.5 million for the three months ended September 30, 2024, a decrease of $23.7 million from free cash flow of $7.1 million in the three months ended September 30, 2023. The period-over-period change resulted primarily from a decrease in cash flows from operations of $24.8 million driven by the reasons explained above, partially offset by lower capital expenditures. See Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures following the discussion of our results of operations for definitions and a reconciliation from our net cash (used in) provided by operating activities to free cash flow. Share Repurchase Program In January 2022, the Companyâ€™s Board of Directors authorized the repurchase of up to $200.0 million of the Companyâ€™s issued and outstanding common stock. Repurchases may be made from time to time in the open market, pursuant to pre-set trading plans, in private transactions or otherwise. The current 2022 authorization does not have a stated expiration date. The extent to which the Company repurchases its shares and the timing of such repurchases will depend upon market conditions and other corporate considerations. During the three months ended September 30, 2024, the Company did not repurchase any shares under the repurchase program. As of September 30, 2024, the Company had $173.5 million of remaining authorization under the share repurchase program. Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures We have included in this report measures of financial performance that are not defined by U.S. GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors. For each of these non-U.S. GAAP financial measures, we are providing below a reconciliation of the differences between the non-U.S. GAAP measure and the most directly comparable U.S. GAAP measure, an explanation of why our management and Board of Directors believe the non-U.S. GAAP measure provides useful information to investors and any additional purposes for which our management and Board of Directors use the non-U.S. GAAP measures. These non-U.S. GAAP measures should be viewed in addition to, and not in lieu of, the comparable U.S. GAAP measures. Organic Net Sales As noted above, we define organic net sales as net sales excluding the impact of acquisitions, divestitures, discontinued brands and exited product categories and foreign exchange. To adjust organic net sales for the impact of acquisitions, the net sales of an acquired business are excluded from fiscal quarters constituting or falling within the current period and prior period where the applicable fiscal quarter in the prior period did not include the acquired business for the entire quarter. To adjust organic net sales for the impact of divestitures, discontinued brands and exited product categories, the net sales of a divested business, discontinued brand or exited product category are excluded from all periods. To adjust organic net sales for the impact of foreign exchange, current period net sales for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average monthly exchange rates in effect during the corresponding period of the prior fiscal year, rather than at the actual average monthly exchange rate in effect during the current period of the current fiscal year. 36 Table of Contents Â A reconciliation between reported net sales and organic net sales is as follows: Â (Dollars in thousands) Â NorthAmerica Â Â International Â Â HainConsolidated Â Net sales - Three months ended September 30, 2024 Â $ 231,140 Â Â $ 163,456 Â Â Â $ 394,596 Â Less: Divestitures, discontinued brands and exited product categories Â Â 8,110 Â Â Â 218 Â Â Â 8,328 Â Less: Impact of foreign currency exchange Â Â (529) Â Â 3,835 Â Â Â 3,306 Â Organic net sales - Three months ended September 30, 2024 Â $ 223,559 Â Â $ 159,403 Â Â $ 382,962 Â Â Â Â Â Â Â Â Â Â Net sales - Three months ended September 30, 2023 Â $ 260,054 Â Â $ 164,975 Â Â $ 425,029 Â Less: Divestitures, discontinued brands and exited product categories Â Â 20,973 Â Â Â 476 Â Â Â 21,449 Â Organic net sales - Three months ended September 30, 2023 Â $ 239,081 Â Â $ 164,499 Â Â $ 403,580 Â Â Â Â Â Â Â Â Â Â Net sales decline Â Â (11.1)% Â Â (0.9)% Â Â (7.2)% Less: Impact of divestitures, discontinued brands and exited product categories Â Â (4.4)% Â Â (0.1)% Â Â (2.9)% Less: Impact of foreign currency exchange Â Â (0.2)% Â Â 2.3 % Â Â 0.8 % Organic net sales decline Â Â (6.5)% Â Â (3.1)% Â Â (5.1)% Â Adjusted EBITDA The Company defines Adjusted EBITDA as net loss before net interest expense, income taxes, depreciation and amortization, equity in net loss of equity-method investees, stock-based compensation, net, unrealized currency losses, certain litigation expenses, net, plant closure related costs, net, productivity and transformation costs, costs associated with acquisitions, divestitures and other transactions, loss on sale of assets, long-lived asset impairment and other adjustments. The Companyâ€™s management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the Company and as a component of performance-based executive compensation. Adjusted EBITDA is a non-U.S. GAAP measure and may not be comparable to similarly titled measures reported by other companies. We do not consider Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP. The principal limitation of Adjusted EBITDA is that it excludes certain expenses and income that are required by U.S. GAAP to be recorded in our consolidated financial statements. In addition, Adjusted EBITDA is subject to inherent limitations as this metric reflects the exercise of judgment by management about which expenses and income are excluded or included in determining Adjusted EBITDA. In order to compensate for these limitations, management presents Adjusted EBITDA in connection with U.S. GAAP results. 37 Table of Contents Â A reconciliation of net loss to Adjusted EBITDA is as follows: Â Â Three Months Ended September 30, Â (Dollars in thousands) Â 2024 Â Â 2023 Â Net loss Â $ (19,663) Â $ (10,376) Â Â Â Â Â Â Depreciation and amortization Â Â 11,427 Â Â Â 12,305 Â Equity in net loss of equity-method investees Â Â 155 Â Â Â 498 Â Interest expense, net Â Â 12,995 Â Â Â 12,623 Â Provision (benefit) for income taxes Â Â 3,523 Â Â Â (5,379) Stock-based compensation, net Â Â 2,876 Â Â Â 3,742 Â Unrealized currency losses Â Â 1,194 Â Â Â 35 Â Certain litigation expenses, net(a) Â 827 Â Â Â 1,524 Â Restructuring activities Â Â Â Â Â Â Productivity and transformation costs Â Â 5,018 Â Â Â 6,403 Â Plant closure related costs, net Â Â 376 Â Â Â 1,841 Â Acquisitions, divestitures and other Â Â Â Â Â Â Loss on sale of assets Â Â 3,934 Â Â Â 62 Â Transaction and integration costs, net Â Â (318) Â Â 118 Â Impairment charges Â Â Â Â Â Â Long-lived asset impairment Â Â 31 Â Â Â 694 Â Adjusted EBITDA Â $ 22,375 Â Â $ 24,090 Â Â (a) Expenses and items relating to securities class action and baby food litigation and SEC investigation. Free Cash Flow In our internal evaluations, we use the non-GAAP financial measure â€œFree Cash Flow.â€ The difference between Free Cash Flow and cash flows used in or provided by operating activities, which is the most comparable U.S. GAAP financial measure, is that Free Cash Flow reflects the impact of purchases of property, plant and equipment (capital spending). Since capital spending is essential to maintaining our operational capabilities, we believe that it is a recurring and necessary use of cash. As such, we believe investors should also consider capital spending when evaluating our cash flows provided by or used in operating activities. We view Free Cash Flow as an important measure because it is one factor in evaluating the amount of cash available for discretionary investments. We do not consider Free Cash Flow in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP. 38 Table of Contents Â A reconciliation from cash flows (used in) provided by operating activities to Free Cash Flow is as follows: Â Â Three Months Ended September 30, Â (Dollars in thousands) Â 2024 Â Â 2023 Â Net cash (used in) provided by operating activities Â $ (10,787) Â $ 14,030 Â Purchases of property, plant and equipment Â Â (5,757) Â Â (6,906) Free Cash Flow Â $ (16,544) Â $ 7,124 Â Â Critical Accounting Estimates Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. The accounting principles we use require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and amounts of income and expenses during the reporting periods presented. We believe in the quality and reasonableness of our critical accounting policies; however, materially different amounts may be reported under different conditions or using assumptions different from those that we have applied. The accounting policies that have been identified as critical to our business operations and to understanding the results of our operations pertain to variable consideration, valuation of long-lived assets, goodwill and intangible assets, stock-based compensation and valuation allowances for deferred tax assets. The application of each of these critical accounting policies and estimates is discussed in Part II, Item 7, Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2024, from which there have been no material changes. We are providing the below update regarding goodwill. Â Goodwill In each quarter subsequent to our annual impairment assessment, we review events that occur or circumstances that change, including the macroeconomic environment, our business performance and our market capitalization, to determine if a quantitative impairment assessment is necessary. If assumptions are not achieved or market conditions decline, potential impairment charges could result. Impairments to goodwill and other intangible assets may be caused by factors outside our control, such as increasing competitive pricing pressures, changes in discount rates based on changes in cost of capital (i.e., as a result of changes in interest rates or other conditions), lower than expected sales and profit growth rates, changes in industry EBITDA multiples, the inability to quickly replace lost co-manufacturing business, or the bankruptcy of a significant customer, among others. As of September 30, 2024, we performed an assessment of factors to determine whether it was more likely than not that the fair value of our reporting units was less than its carrying amount, including goodwill. We concluded that were no events or circumstances that warranted an interim quantitative impairment test for goodwill during the three months ended September 30, 2024. As of September 30, 2024, goodwill associated with the U.S. reporting unit had a carrying value of $633,774. The U.S. reporting unit is at risk of impairment in the event of unfavorable changes in assumptions, including forecasted future cashflows based on execution of strategic initiatives for increasing revenue, as well as discount rates and other macroeconomic factors. We monitor our reporting units at risk of impairment for interim impairment indicators. As of September 30, 2024, we considered our market capitalization and our net book value and performed a market capitalization reconciliation with the expectation that the market capitalization should reconcile within a reasonable range to the sum of the fair values of the Company's individual reporting units. Upon performing the market capitalization reconciliation, we noted a reasonable reconciliation between the sum of the reporting unit fair values and the Companyâ€™s market capitalization once adjusted for the impact of corporate costs not allocated to the reporting units. Refer to the critical accounting policies and estimates section included in Part II, Item 7, Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2024. Â Â 39 Table of Contents Â Recent Accounting Pronouncements Refer to Note 2, Basis of Presentation, in the Notes to the Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q. Seasonality Certain of our product lines have seasonal fluctuations. Hot tea, hot-eating desserts and soup sales are stronger in colder months, while sales of snack foods, sunscreen and certain of our personal care products are stronger in the warmer months. As such, our results of operations and our cash flows for any particular quarter are not indicative of the results we expect for the full year, and our historical seasonality may not be indicative of future quarterly results of operations. Historically, net sales and diluted earnings per share in the first fiscal quarter have typically been the lowest of our four quarters. Item 3. Quantitative and Qualitative

Disclosures About Market Risk There have been no material changes from the discussion of the material factors contained in the section entitled â€œRisk Factorsâ€ in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2024, filed with the SEC on August 27, 2024. Item 4. BASIS OF PRESENTATION The Company’s unaudited consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation. Investments in affiliated companies in which the Company exerts significant influence, but which it does not control, are accounted for under the equity method of accounting. As such, consolidated net loss includes the Company’s equity in the current earnings or losses of such companies. The Company’s unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S.

GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP and should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2024 (the "Form 10-K"). The amounts as of and for the periods ended June 30, 2024 are derived from the Company's audited annual financial statements. The unaudited consolidated financial statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair presentation for interim periods. Operating results for the three months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2025. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2024 and for the fiscal year then ended included in the Form 10-K for information not included in these condensed notes. All dollar amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousands, except par values and per share amounts, unless otherwise indicated. Significant Accounting Policies The Company's significant accounting policies are described in Note 2, Summary of Significant Accounting Policies and Practices, in the Notes to the Consolidated Financial Statements in the Form 10-K. Included herein are certain updates to those policies. Transfer of Financial Assets The Company accounts for transfers of financial assets, such as non-recourse accounts receivable financing arrangements, when the Company has surrendered control over the related assets. Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Company's continuing involvement with the assets transferred and any other relevant considerations. The Company has non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all of the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was $56,959 and $86,506 during the three months ended September 30, 2024 and 2023, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Company's consolidated statements of operations. The proceeds from the sale of receivables are included in cash (used in) provided by operating activities on the consolidated statements of cash flows. Recently Issued Accounting Pronouncements Not Yet Adopted In November 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses". The amendments address investor requests for more detailed expense information and require additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements. In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which will require entities to disclose more detailed information in the reconciliation of their statutory tax rate to their effective tax rate. The ASU also requires entities to disclose more detailed information about income taxes paid, including by jurisdiction, pretax income (loss) from continuing operations, and income tax expense (benefit). The amendments are effective for fiscal years beginning after December 15, 2024 and for interim periods within fiscal years beginning after December 15, 2025. The amendments should be applied on a prospective basis. Retrospective application is permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements. In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures," which updates reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2024 and for the fiscal year then ended included in the Form 10-K for information not included in these condensed notes. All dollar amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousands, except par values and per share amounts, unless otherwise indicated. Significant Accounting Policies The Company's significant accounting policies are described in Note 2, Summary of Significant Accounting Policies and Practices, in the Notes to the Consolidated Financial Statements in the Form 10-K. Included herein are certain updates to those policies. Transfer of Financial Assets The Company accounts for transfers of financial assets, such as non-recourse accounts receivable financing arrangements, when the Company has surrendered control over the related assets. Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Company's continuing involvement with the assets transferred and any other relevant considerations. The Company has

non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all of the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was $56,959 and $86,506 during the three months ended September 30, 2024 and 2023, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Company's consolidated statements of operations. The proceeds from the sale of receivables are included in cash (used in) provided by operating activities on the consolidated statements of cash flows.</p>5695900086506000<p style="font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">Recently Issued Accounting Pronouncements Not Yet Adopted</p><p style="font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:8pt;text-align:justify;">In November 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses". The amendments address investor requests for more detailed expense information and require additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on the face of the income statement. (2) During the three months ended September 30, 2024, the Company completed the divestiture of ParmCrisps®<span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;font-

style:italic;min-width:fit-content;">, a component of the North America reportable segment. Goodwill of $7,280 was assigned to the divested component on a relative fair value basis. As of September 30, 2024, the Company performed an assessment of factors to determine whether it was more likely than not that the fair value of its reporting units was less than its carrying amount, including goodwill. The Company concluded that were no events or circumstances that warranted an interim quantitative impairment test for goodwill during the three months ended September 30, 2024. As of September 30, 2024, goodwill associated with the U.S. reporting unit had a carrying value of $633,774. The U.S. reporting unit is at risk of potential impairment if, among other things, the fair value of this reporting unit, and its associated assets, decreases in value due to the amount and timing of expected future cash flows, decreased customer demand for products, an inability to execute management's business strategies, or general market conditions, such as economic downturns, and changes in interest rates, including discount rates. Future cash flow estimates are, by their nature, subjective, and actual results may differ materially from the Company's estimates. If the Company's ongoing cash flow projections are not met or if market factors utilized in the impairment test deteriorate, including an unfavorable change in the terminal growth rate or the weighted-average cost of capital, the Company may have to record impairment charges in future periods. </p><p style="font-size:10pt;margin-top:10pt;font-family:Times New Amended and Restated Credit Agreement On August 22, 2023, the Company entered into a Second Amendment (the “Second Amendment”) to the Credit Agreement (as amended, the “Credit Agreement”). The Credit Agreement provides for senior secured financing of $1,100 million in the aggregate, consisting of (1) $300 million in aggregate principal amount of term loans (the “Term Loans”) and (2) an $800 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and is comprised of a $440 million U.S. revolving credit facility and $360 million global revolving credit facility) (the “Revolver”). Both the Revolver and the Term Loans mature on December 22, 2026. The Company’s obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions. The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. Pursuant to the Second Amendment, the Company’s maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023 and 5.00:1.00 until December 31, 2024 (the period of time during which such maximum consolidated secured leverage ratios are in effect, the “Second Amendment Period”). Following the Second Amendment Period, the maximum consolidated secured leverage ratio will be 4.25:1.00, subject to possible temporary increase following certain corporate acquisitions. Pursuant to the Credit Agreement, the Company’s maximum consolidated leverage ratio is 6.00:1.00. Pursuant to the Second Amendment, the Company’s minimum interest coverage ratio was amended to be 2.50:1.00. <span

style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">During the Second Amendment Period, loans under the Credit Agreement bear interest at (a) Term SOFR plus 2.5% per annum or (b) the Base Rate plus 1.5% per annum. Following the Second Amendment Period, loans bear interest at rates based on (a) Term SOFR plus a rate ranging from 1.125% to 2.0% per annum or (b) the Base Rate plus a rate ranging from 0.125% to 1.0% per annum, the relevant rate in each case being the Applicable Rate. The Applicable Rate following the Second Amendment Period is determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement as amended by the Second Amendment. Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 7.76%. During fiscal 2022, the Company used interest rate swaps to hedge a portion of the interest rate risk related its outstanding variable rate debt. As of September 30, 2024, the notional amount of the interest rate swaps was $400 million with fixed rate payments of 5.60%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 6.56%. Additionally, the Credit Agreement contains a Commitment Fee (as defined in the Credit Agreement) on the amount unused under the Credit Agreement ranging from 0.15% to 0.25% per annum, and such Commitment Fee is determined in accordance with a leverage-based pricing grid. As of September 30, 2024, there were $473,000 of loans under the Revolver, $268,675 of Term Loans, and $3,247 of letters of credit outstanding under the Credit Agreement. As of September 30, 2024, $323,753 was available under the Credit Agreement, subject to compliance with the financial covenants. As of September 30, 2024, the Company was in compliance with all associated covenants. Of the total deferred costs, $4,198 were associated with the Revolver and are being amortized on a straight-line basis within Other assets on the consolidated balance sheets, and $1,531 are being recorded as an adjustment to the carrying amount of the Term Loans as a component of Interest and other financing expense, net over the term of the Credit Agreement utilizing the effective interest rate method. INCOME TAXES In general, the Company uses an estimated annual effective tax rate, which is based on expected annual income and statutory tax rates in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes. However, to the extent that application of the estimated annual effective tax rate is not representative of the quarterly portion of actual tax expense expected to be recorded for the year in a jurisdiction, the Company determines the provision for income taxes based on actual year-to-date income (loss), which has been the case for certain jurisdictions for the quarter ended September 30, 2024. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability on the effective tax rates from quarter to quarter. The Company's effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements. The effective income tax rate was an expense of 22.0% and a benefit of 35.3% for the three months ended September 30, 2024 and 2023, respectively. The income tax expense for the three months ended September 30, 2024 reflected foreign tax expense in certain jurisdictions and an increase in the valuation allowance for both federal and state income taxes. 0.22-0.353 11. STOCK-BASED COMPENSATION AND INCENTIVE PERFORMANCE PLANS The

Company maintains a shareholder-approved plan, The Hain Celestial Group, Inc. 2022 Long Term Incentive and Stock Award Plan (as amended, the "2022 Plan"), which was approved at the Company's 2022 Annual Meeting of Shareholders held on November 17, 2022, and further amended at the Company's 2024 Annual Meeting of Shareholders held on October 31, 2024. The 2022 Plan permits the Company to continue making equity-based and other incentive awards in a manner intended to properly incentivize its employees, directors, consultants and other service providers by aligning their interests with the interests of the Company's shareholders. The 2022 Plan is administered by the Compensation and Talent Management Committee of the Company's Board of Directors. The Company also historically granted shares under its Amended and Restated 2002 Long-Term Incentive and Stock Award Plan (the "2002 Plan") and its 2019 Equity Inducement Award Program (the "2019 Inducement Program"). The 2022 Plan, the 2002 Plan and the 2019 Inducement Program are collectively referred to as the "Stock Award Plans". The Company's long term incentive program ("LTIP") is described in Note 13, Stock-Based Compensation and Incentive Performance Plans, in the Notes to the Consolidated Financial Statements in the Form 10-K. RSU awards to employees generally provide for vesting in equal annual installments over a period of three years, with different vesting periods in certain cases. RSU awards to non-employee directors generally provide for a vesting period of one year. For PSU awards, the following share figures are stated at target levels, and the awards outstanding as of September 30, 2024 generally provide for vesting at 0% to 200% of the target level. Awards of PSUs and RSUs are issued at no cost to the recipient. FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE The Company’s financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are: • Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; • Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and • Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity). The following table presents assets and liabilities measured at fair value on a recurring basis as of September 30, 2024:   <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:49.97%;box-sizing:content-box;"></td> <td style="width:2%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:9.442%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:8.681999999999999%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1.2%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:9.021999999999998%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:9.682%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> </tr> <tr style="height:10pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"> <td style="vertical-align:bottom;text-align:left;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="2" style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Total </td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> </td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;"> </td> <td colspan="2" style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Quoted

size:10pt;font-family:Times New Roman;min-width:fit-content;"> transfers of financial instruments between the three levels of fair value hierarchy during the three months ended September 30, 2024 or 2023. Derivative Instruments The Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like discounted cash flow analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. The fair values of interest rate swaps are determined by netting the discounted future fixed and variable cash flows. The variable cash flows are based on expected future interest rates. Credit valuation adjustments are made to reflect the nonperformance risk of both the Company and its counterparties. Most inputs used to value derivatives fall within Level 2 of the fair value hierarchy, but credit valuation adjustments use Level 3 inputs, such as current credit spreads. The impact of these adjustments was not significant to the overall valuation, so all derivatives as of September 30, 2024 and June 30, 2024 were classified as Level 2. Nonrecurring Fair Value Measurements The Company measures certain non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use lease assets, at fair value on a nonrecurring basis. These assets are initially measured at fair value at the time of acquisition or purchase, with adjustments only for foreign currency translation. Periodically, these assets are tested for impairment by comparing their carrying values to their estimated fair values. If an asset is impaired, the Company recognizes an impairment expense equal to the excess of the carrying value over the estimated fair value. For indefinite-lived intangible assets, the fair value is determined using the relief from royalty approach, considering factors like future growth, royalty rates, discount rates, and other variables. Fair value measurements for reporting units are estimated using discounted cash flow models, which involve significant management judgment and Level 3 inputs, such as economic conditions and customer demand. These measurements are performed at least annually for impairment testing. The Company bases its fair value estimates on reasonable assumptions but acknowledges their unpredictability and inherent uncertainty. The Company’s financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are: • Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; • Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and • Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity). Derivative Instruments The Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like discounted cash flow analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. DERIVATIVES AND HEDGING ACTIVITIES Risk Management Objective of Using Derivatives The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages its exposures to a wide variety of business and operational risks. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company’s derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company’s known or expected cash receipts and its known or expected cash payments principally related to the Company’s receivables and borrowings. Certain of the Company’s foreign operations expose the Company to fluctuations of foreign exchange rates. These fluctuations may impact the value of the Company’s cash receipts and payments in terms of the Company’s functional currency. The Company enters into derivative financial instruments to protect the value or fix the amount of certain assets and liabilities in terms of its functional currency, the U.S. Dollar. Accordingly, the Company uses derivative financial instruments to manage and mitigate such risks. The Company does not use derivatives for speculative or trading purposes. Cash Flow Hedges of Interest Rate Risk The Company’s objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. During the three months ended September 30, 2024 and 2023, such derivatives were used to hedge the variable cash flows associated with existing variable rate debt. For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified into interest expense in the same period during which the hedged transaction affects earnings. Amounts reported in AOCL related to derivatives will be reclassified to interest expense as interest payments are made on the Company’s variable rate debt. The Company, at times, uses forward contracts to manage its exposure to fluctuations in the GBP-EUR exchange rates. The Company designates these derivatives as cash flow hedges of foreign exchange risks. For derivatives designated and that qualify as cash flow hedges of foreign exchange risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified in the same period during which the hedged transaction affects earnings within the same income statement line item as the earnings effect of the hedged transaction. Net Investment Hedges The Company is exposed to fluctuations in foreign exchange rates on investments it holds in its European foreign entities and their exposure to the Euro. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in the foreign exchange rate on its foreign investment in Western Europe. Currency forward agreements involve fixing the USD-EUR exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in U.S. Dollars for their fair value at or close to their settlement date. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency- fixed-rate payments over the life of the agreement.
For derivatives designated as net investment hedges, the gain or loss on the derivative is reported in AOCL as part of the cumulative translation adjustment. Amounts are reclassified out of AOCL into earnings when the hedged net investment is either sold or substantially liquidated. As of September 30, 2024, the Company had the following outstanding foreign currency derivatives that were used to hedge its net investments in foreign operations: <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"><tr style="visibility:collapse;"><td style="width:43.349%;box-sizing:content-box;"></td><td style="width:1.46%;box-sizing:content-box;"></td><td style="width:19.424%;box-sizing:content-box;"></td><td style="width:1.46%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:11.422%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:1.46%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:17.423%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td></tr><tr style="height:10pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"><td style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Foreign Currency Derivative </td><td style="border-top:0.5pt solid #000000;vertical-align:middle;border-bottom:0.5pt solid #000000;text-align:center;"> </td><td style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Number of Instruments </td><td style="border-top:0.5pt solid #000000;vertical-align:middle;border-bottom:0.5pt solid #000000;text-align:center;"> </td><td colspan="2" style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Notional Sold </td><td style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> </td><td style="border-top:0.5pt solid #000000;vertical-align:middle;border-bottom:0.5pt solid #000000;text-align:center;"> </td><td colspan="2" style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> Notional Purchased </td><td style="border-top:0.5pt solid #000000;vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> </td></tr><tr style="height:10pt;background-color:#ccceff;word-break:break-word;"><td style="white-space:pre-wrap;vertical-align:top;text-align:left;"> Cross-currency swap </td><td style="white-space:pre-wrap;vertical-align:bottom;"> </td><td style="white-space:pre-wrap;vertical-align:bottom;text-align:left;"> 4 </td><td style="white-space:pre-wrap;vertical-align:bottom;text-align:left;"> </td><td style="white-space:nowrap;vertical-align:bottom;"> € </td><td style="white-space:pre-wrap;vertical-align:bottom;text-align:center;"> 100,300 </td><td style="white-space:nowrap;vertical-align:bottom;"> </td><td style="white-space:pre-wrap;vertical-align:bottom;text-align:left;"> </td><td style="white-space:nowrap;vertical-align:bottom;"> $ </td><td style="white-space:pre-wrap;vertical-align:bottom;text-align:center;"> 105,804 </td><td style="white-space:nowrap;vertical-align:bottom;"> </td></tr></table> Fair Value Hedges The Company is exposed to changes in the fair value of certain of its foreign denominated intercompany loans due to changes in foreign exchange spot rates. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in foreign exchange rates affecting gains and losses on intercompany loan principal and interest. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency-fixed-rate payments over the life of the agreement. For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in interest and other financing expense, net. Gains and losses on the derivative representing hedge components excluded from the assessment of effectiveness are recognized over the life of the hedge on a systematic and rational basis, as documented at hedge inception in accordance with the Company's accounting policy election. The earnings recognition of excluded components is presented in the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that an additional $476 relating to cross currency swaps will be reclassified as a decrease to interest expense. As of September 30, 2024, the

COMMITMENTS AND CONTINGENCIES Securities Class Actions Filed in Federal Court On August 17, 2016, three securities class action complaints were filed in the Eastern District of New York (the "District Court") against the Company alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934: (1) Flora v. The Hain Celestial Group, Inc., et al.; (2) Lynn v. The Hain Celestial Group, Inc., et al.; and (3) Spadola v. The Hain Celestial Group, Inc., et al. (collectively, the "Securities Complaints"). The Securities Complaints were ultimately consolidated under the caption In re The Hain Celestial Group, Inc. Securities Litigation (the "Consolidated Securities Action"), and Rosewood Funeral Home and Salamon Gimpel were appointed as Co-Lead Plaintiffs. During the summer of 2017, a Corrected Consolidated Amended Complaint was filed, which named as defendants the Company and*

certain of its former officers (collectively, "Defendants") and asserted violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegedly materially false or misleading statements and omissions in public statements, press releases and Securities and Exchange Commission ("SEC") filings regarding the Company's business, prospects, financial results and internal controls. After Defendants' initial motion to dismiss was granted without prejudice to replead in October 2017, the Co-Lead Plaintiffs filed a Second Amended Consolidated Class Action Complaint on May 6, 2019 (the "Second Amended Complaint"). The Second Amended Complaint again named as defendants the Company and certain of its former officers and asserted violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegations similar to those in the Corrected Consolidated Amended Complaint. Defendants filed a motion to dismiss the Second Amended Complaint on June 20, 2019. On April 6, 2020, the District Court granted Defendants' motion to dismiss the Second Amended Complaint in its entirety, with prejudice. Co-Lead Plaintiffs appealed the District Court's decision dismissing the Second Amended Complaint to the United States Court of Appeals for the Second Circuit (the "Second Circuit"). By decision dated December 17, 2021, the Second Circuit vacated the District Court's judgment and remanded the case for further proceedings. The parties ultimately submitted supplemental briefing between May 12, 2022 and June 23, 2022, and in June 2022, the District Court referred Defendants' Motion to Dismiss the Second Amended Complaint to a United States Magistrate Judge (the "Magistrate Judge") for a Report and Recommendation. On November 4, 2022, the Magistrate Judge issued a Report and Recommendation recommending that the District Court grant Defendants' Motion to Dismiss the Second Amended Complaint with prejudice. On September 29, 2023, the District Court granted Defendants' Motion to Dismiss the Second Amended Complaint. Co-Lead Plaintiffs filed notice of appeal on October 26, 2023, appealing the District Court's decision dismissing the Second Amended Complaint to the Second Circuit. Co-Lead Plaintiffs filed their opening brief on February 12, 2024. Defendants opposed, and the appeal was fully briefed as of June 3, 2024. The Court has scheduled oral argument on Plaintiffs' appeal for December 5, 2024. Additional Stockholder Class Action and Derivative Complaints Filed in Federal Court The former Board of Directors and certain former officers of the Company are defendants in a consolidated action originally filed in 2017 in the Eastern District of New York under the captions Silva v. Simon, et al., Barnes v. Simon, et al., Merenstein v. Heyer, et al., and Oliver v. Berke, et al. Plaintiffs in the consolidated action, In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the "Consolidated Stockholder Class and Derivative Action"), allege the violation of securities law, breach of fiduciary duty, waste of corporate assets and unjust enrichment. The plaintiffs alleged in their Amended Complaint that the Company's former directors and certain former officers made materially false and misleading statements in press releases and SEC filings regarding the Company's business, prospects and financial results and that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and includes claims for breach of fiduciary duty, unjust enrichment and corporate waste. On December 20, 2017, the parties agreed to stay Defendants' time to answer, move, or otherwise respond to the consolidated amended complaint through and including 30 days after a decision was rendered on the motion to dismiss the Amended Complaint in the Consolidated Securities Action, described above. After the District Court granted Defendants' motion to dismiss the Consolidated Securities Action, the Co-Lead Plaintiffs in that action filed a Second Amended Complaint on May 6, 2019. The parties to the Consolidated Stockholder Class and Derivative Action thereby agreed to continue the stay of Defendants' time to answer, move, or otherwise respond to the consolidated amended complaint through 30 days after a decision on Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action. On April 6, 2020, the District Court granted Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action, with prejudice. Pursuant to the terms of an agreed-upon stay, Defendants in the Consolidated Stockholder Class and Derivative Action had until May 6, 2020 to answer, move, or otherwise respond to the complaint in this matter. This deadline was extended, and Defendants moved to dismiss the Consolidated Stockholder Class and Derivative Action Complaint on June 23, 2020, with Plaintiffs' opposition due August 7, 2020. On July 24, 2020, Plaintiffs made a stockholder litigation demand on the current Board containing overlapping factual allegations to those set forth in the Consolidated Stockholder Class and Derivative Action. On November 3, 2020, Plaintiffs were informed that the Board of Directors had finished investigating and resolved, among other things, that the demand should be rejected. In light of the Second Circuit vacating the District Court's judgment in the Consolidated Securities Action referenced above and remanding the case for further proceedings, the Parties submitted a joint status report on December 29, 2021 requesting that the District Court continue the temporary stay pending the District Court's reconsideration of the Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action. The parties have most recently agreed to extend the stay through the earlier of November 8, 2024 or 30 days after the Second Circuit issues a decision on Plaintiffs' currently pending appeal. Baby Food Litigation Since February 2021, the Company has been named in numerous consumer class actions alleging that the Company's Earth's Best® baby food products (the "Products") contain unsafe and undisclosed levels of various naturally occurring heavy metals, namely lead, arsenic, cadmium and mercury. Those actions have now been transferred and consolidated as a single lawsuit in the U.S. District Court for the Eastern District of New York captioned In re Hain Celestial Heavy Metals Baby Food Litigation, Case No. 2:21-cv-678 (the "Consolidated Proceeding"), which generally alleges that the Company violated various state consumer protection laws and asserts other state and common law warranty and unjust enrichment claims related to the alleged failure to disclose the presence of these metals, arguing that consumers would have either not purchased the Products or would have paid less for them had the Company made adequate disclosures. The Company filed a motion to dismiss the Consolidated Class Action Complaint on November 7, 2022, which was opposed by the plaintiffs. On May 9, 2023, upon consent of the parties, the Court stayed the Consolidated Proceeding pending the Second Circuit's decision on appeal in In re Beech-Nut Nutrition Co. Baby Food Litigation, 21 Civ. 133 (N.D.N.Y.) (the "Beech-Nut Case"). Accordingly, the Court denied the Company's motion to dismiss without prejudice to renew. By summary order dated January 18, 2024, the Second Circuit vacated the judgment dismissing the Beech-Nut Case and remanded for further proceedings. On February 15, 2024, the Company served a renewed motion to dismiss the Consolidated Proceeding. Plaintiffs served their opposition on March 14, 2024, and the Company served its reply on April 4, 2024. The Court heard oral argument on the motion to dismiss on August 1, 2024, and took the motion under submission. One consumer class action is pending in New York Supreme Court, Nassau County, which the court has stayed in deference to the Consolidated Proceeding. The Company denies the allegations in these lawsuits and contends that its baby foods are safe and properly labeled. The claims raised in these lawsuits were brought in the wake of a highly publicized report issued by the U.S. House of Representatives Subcommittee on Economic and Consumer Policy on Oversight and Reform, dated February 4, 2021 (the "House Report"), addressing the presence of heavy metals in baby foods made by certain manufacturers, including the Company. Since the publication of the House Report, the Company has also received information requests with respect to the advertising and quality of its baby foods from certain governmental authorities, as such authorities investigate the claims made in the House Report. The Company is fully cooperating with these requests and has provided documents and other requested information. The Company has been named in one civil government enforcement action, State of New Mexico ex rel. Balderas v. Nurture, Inc., et al., which was filed by the New Mexico Attorney General against the Company and several other manufacturers based on the alleged presence of heavy metals in their baby food products. The Company and several other manufacturers moved to dismiss the New Mexico

Attorney General's lawsuit, and the Court denied that motion. The Company filed its answer to the New Mexico Attorney General's amended complaint on April 23, 2022, and discovery is set to commence. The Company denies the New Mexico Attorney General's allegations and maintains that its baby foods are safe, properly labeled, and compliant with New Mexico law. In addition to the consumer class actions discussed above, the Company is currently named in numerous lawsuits in state and federal courts alleging some form of personal injury from the ingestion of the Company's Products, purportedly due to unsafe and undisclosed levels of various naturally occurring heavy metals. These lawsuits generally allege injuries related to neurological development disorders such as autism and attention deficit hyperactivity disorder. Multidistrict Litigation • On January 4, 2024, Plaintiffs in federal cases across the country filed a Motion to Transfer Actions Pursuant to 28 U.S.C. § 1407 for Coordinated or Consolidated Pretrial Proceedings. On April 11, 2024, the United States Judicial Panel on Multidistrict Litigation granted Plaintiffs' Motion and transferred the cases to the Northern District of California for coordinated or consolidated pretrial proceedings. In Re: Baby Food Products Liability Litigation (MDL No. 3101) has been assigned to District Judge Jacqueline Scott Corley. On April 15, 2024, Judge Corley issued Pretrial Order No. 1 staying all outstanding discovery proceedings and pending motions and vacating all previously scheduled hearing dates. There are approximately 24 federal cases filed against the Company pending in the multi-district litigation ("MDL"). Plaintiffs filed their Master Complaint on July 15, 2024. The MDL will first proceed with general causation discovery. California State Court Cases • There are currently seven cases against the Company pending in California state court, including six in Los Angeles Superior Court and one in Alameda Superior Court. The Plaintiffs filed a Petition for Coordination to the Chair of the Judicial Council seeking to coordinate the Alameda Superior Court and Los Angeles Superior Court cases. The Judicial Council granted the JCCP petition and on June 4, 2024, Judge Lawrence P. Riff (Los Angeles Superior Court) was assigned as trial coordination judge. All but one of the cases have been stayed. • In one of the Los Angeles cases, Landon R. v. The Hain Celestial Group, Inc., et al., No. 23STCV24844, fact discovery has closed, and expert discovery is ongoing. The Court vacated the original January 2025 trial date, and a new trial date has not been set. Other Cases • In the matter Palmquist v. The Hain Celestial Group, Inc., a jury trial commenced on February 6, 2023 in the United States District Court for the Southern District of Texas. The Company moved for Directed Verdict at the close of Plaintiffs' case. The Court granted the Company's motion, finding no liability for the Company. The Court entered Final Judgment in the Company's favor on March 3, 2023. On April 3, 2023, Plaintiffs filed their Notice of Appeal in the Fifth Circuit. Plaintiffs appealed, and on May 28, 2024, the Fifth Circuit reversed the district court's order denying Plaintiff's motion to remand the case and vacated the final judgement of the district court. the Company filed a petition for en banc reconsideration, which the Fifth Circuit denied. The case has been remanded to Texas state court. The Company expects to petition the Supreme Court of the United States for a writ of certiorari. • In NC v. The Hain Celestial Group, et al., in the Superior Court for the State of California, County of Los Angeles, judgment was entered on October 26, 2023 in favor of the defendants as a result of successful defense pretrial motions, including the Company's motion for summary judgment. The time for appeal has passed. The Company denies that its Products led to any of the alleged injuries and will defend these cases vigorously. That said, as is common in circumstances of this nature, additional lawsuits may be filed against the Company in the future, asserting similar or different legal theories and seeking similar or different types of damages and relief. Such lawsuits may be resolved in a manner adverse to us, and we may incur substantial costs or damages not covered by insurance, which could have a material adverse effect on our financial condition and business. SEC Investigation In November 2023, the staff of the SEC informed the Company it was conducting an investigation relating to Hain Celestial and requested documents primarily concerning (i) the Company's acquisition of one business and disposition of another business and certain related accounting matters and (ii) trading activity and other matters related to the Company's earnings guidance in certain previous fiscal years. The Company is cooperating with the SEC in this investigation. Other In addition to the matters described above, the Company is and may be a defendant in lawsuits from time to time in the normal course of business. With respect to all litigation and related matters, the Company records a liability when the Company believes it is probable that a liability has been incurred and the amount can be reasonably estimated. As of the end of the period covered by this report, the Company has not recorded a liability for any of the matters disclosed in this note. It is possible that some matters could require the Company to pay damages, incur other costs or establish accruals in amounts that could not be reasonably estimated as of the end of the period covered by this report. 3P30DP30DP30D2471 17. SEGMENT INFORMATION The Company's organizational structure consists of two geographic based reportable segments: North America and International, which are also the operating segments. This structure is in line with how the Company's Chief Operating Decision Maker ("CODM") assesses the Company's performance and allocates resources. The Company uses segment net sales and segment Adjusted EBITDA in order to analyze segment results and trends. Segment Adjusted EBITDA

*excludes net interest expense, income taxes, depreciation and amortization, equity in net loss of equity-method investees, stock-based compensation, net, unrealized currency losses, certain litigation and related costs, plant closure related costs, net, productivity and transformation costs, costs associated with acquisitions, divestitures and other transactions, loss on sale of assets, long-lived asset impairments and other adjustments. In addition, Segment Adjusted EBITDA does not include Corporate and Other expenses related to the Company's centralized administrative functions, which do not specifically relate to a reportable segment. Such Corporate and Other expenses are comprised mainly of compensation and related expenses of certain of the Company's senior executive officers and other employees who perform duties related to the entire enterprise, litigation expense and expenses for certain professional fees, facilities, and other items which benefit the Company as a whole. The following tables set forth financial information about each of the Company's reportable segments. Information about total assets by segment is not disclosed because such information is not reported to or used by the Company's CODM for purposes of assessing segment performance or allocating resources. Transactions between reportable segments were insignificant for all periods presented.

Accounting Policies [Abstract]

Basis of Presentation

2. BASIS OF PRESENTATION

The Company's unaudited consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation. Investments in affiliated companies in which the Company exerts significant influence, but which it does not control, are accounted for under the equity method of accounting. As such, consolidated net loss includes the Company's equity in the current earnings or losses of such companies.

The Company's unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP and should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2024 (the "Form 10-K"). The amounts as of and for the periods ended June 30, 2024 are derived from the Company's audited annual financial statements. The unaudited consolidated financial statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair presentation for interim periods. Operating results for the three months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2025. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2024 and for the fiscal year then ended included in the Form 10-K for information not included in these condensed notes.

All dollar amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousands, except par values and per share amounts, unless otherwise indicated.

Significant Accounting Policies

The Company's significant accounting policies are described in Note 2, *Summary of Significant Accounting Policies and Practices*, in the Notes to the Consolidated Financial Statements in the Form 10-K. Included herein are certain updates to those policies.

Transfer of Financial Assets

The Company accounts for transfers of financial assets, such as non-recourse accounts receivable financing arrangements, when the Company has surrendered control over the related assets. Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Company's continuing involvement with the assets transferred and any other relevant considerations. The Company has non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all of the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was $56,959 and $86,506 during the three months ended September 30, 2024 and 2023, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Company's consolidated statements of operations. The proceeds from the sale of receivables are included in cash (used in) provided by operating activities on the consolidated statements of cash flows.

Recently Issued Accounting Pronouncements Not Yet Adopted

In November 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses". The amendments address investor requests for more detailed expense information and require additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which will require entities to disclose more detailed information in the reconciliation of their statutory tax rate to their effective

tax rate. The ASU also requires entities to disclose more detailed information about income taxes paid, including by jurisdiction, pretax income (loss) from continuing operations, and income tax expense (benefit). The amendments are effective for fiscal years beginning after December 15, 2024 and for interim periods within fiscal years beginning after December 15, 2025. The amendments should be applied on a prospective basis. Retrospective application is permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures," which updates reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

Due to the Company's net loss in each of the three months ended September 30, 2024 and September 30, 2023, all common stock equivalents such as stock options, unvested restricted share units and performance share units have been excluded from the computation of diluted net loss per share. The effect of the stock options and unvested restricted share units would have been anti-dilutive to the computations. The performance share units were contingently issuable based on market conditions and such conditions had not been achieved during the respective periods.

Goodwill

The following table provides the changes in the carrying value of goodwill by reportable segment:

	North America	International	Total
Balance as of June 30, 2024[1]	$ 689,468	$ 239,836	$ 929,304
Divestiture[2]	(7,280)	—	(7,280)
Translation	514	13,803	14,317
Balance as of September 30, 2024	$ 682,702	$ 253,639	$ 936,341

[1] *The total carrying value of goodwill is reflected net of $134,277 of accumulated impairment charges, of which $7,700 is related to the North America reportable segment and $126,577 is related to the International reportable segment.*

[2] *During the three months ended September 30, 2024, the Company completed the divestiture of ParmCrisps®, a component of the North America reportable segment. Goodwill of $7,280 was assigned to the divested component on a relative fair value basis.*

As of September 30, 2024, the Company performed an assessment of factors to determine whether it was more likely than not that the fair value of its reporting units was less than its carrying amount, including goodwill. The Company concluded that were no events or circumstances that warranted an interim quantitative impairment test for goodwill during the three months ended September 30, 2024. As of September 30, 2024, goodwill associated with the U.S. reporting unit had a carrying value of $633,774. The U.S. reporting unit is at risk of potential impairment if, among other things, the fair value of this reporting unit, and its associated assets, decreases in value due to the amount and timing of expected future cash flows, decreased customer demand for products, an inability to execute management's business strategies, or general market conditions, such as economic downturns, and changes in interest rates, including discount rates. Future cash flow estimates are, by their nature, subjective, and actual results may differ materially from the Company's estimates. If the Company's ongoing cash flow projections are not met or if market factors utilized in the impairment test deteriorate, including an unfavorable change in the terminal growth rate or the weighted-average cost of capital, the Company may have to record impairment charges in future periods.

Other Intangible Assets

The following table includes the gross carrying amount and accumulated amortization, where applicable, for intangible assets, excluding goodwill:

	September 30, 2024	June 30, 2024
Non-amortized intangible assets:		
Trademarks and tradenames[1]	$ 201,407	$ 195,237
Amortized intangible assets:		
Other intangibles	169,560	167,886
Less: Accumulated amortization	(120,788)	(118,324)
Net amortized intangible assets	48,772	49,562
Net other intangible assets	$ 250,179	$ 244,799

(1) *The gross carrying value of trademarks and tradenames is reflected net of $251,551 of accumulated impairment charges as of September 30, 2024 and June 30, 2024.*

There were no events or circumstances that warranted an interim impairment test for indefinite-lived intangible assets during the three months ended September 30, 2024 or 2023.

Amortized intangible assets, which are deemed to have a finite life, primarily consist of customer relationships, trademarks and tradenames and are amortized over their estimated useful lives of 7 to 25 years. The weighted average remaining amortization period of amortized intangible assets is 8.7 years.

Amortization expense included in the consolidated statements of operations is as follows:

	Three Months Ended September 30,	
	2024	2023
Amortization of acquired intangibles	$ 2,180	$ 1,955

Amended and Restated Credit Agreement

On August 22, 2023, the Company entered into a Second Amendment (the "Second Amendment") to the Credit Agreement (as amended, the "Credit Agreement"). The Credit Agreement provides for senior secured financing of $1,100 million in the aggregate, consisting of (1) $300 million in aggregate principal amount of term loans (the "Term Loans") and (2) an $800 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit, and is comprised of a $440 million U.S. revolving credit facility and $360 million global revolving credit facility) (the "Revolver"). Both the Revolver and the Term Loans mature on December 22, 2026. The Company's obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company and are secured by liens on assets of the Company and its material domestic subsidiaries, including the equity interest in each of their direct subsidiaries and intellectual property, subject to agreed-upon exceptions.

The Credit Agreement includes financial covenants that require compliance with a consolidated secured leverage ratio, a consolidated leverage ratio and a consolidated interest coverage ratio. Pursuant to the Second Amendment, the Company's maximum consolidated secured leverage ratio was amended to be 5.00:1.00 until September 30, 2023, 5.25:1.00 until December 31, 2023 and 5.00:1.00 until December 31, 2024 (the period of time during which such maximum consolidated secured leverage ratios are in effect, the "Second Amendment Period"). Following the Second Amendment Period, the maximum consolidated secured leverage ratio will be 4.25:1.00, subject to possible temporary increase following certain corporate acquisitions. Pursuant to the Credit Agreement, the Company's maximum consolidated leverage ratio is 6.00:1.00. Pursuant to the Second Amendment, the Company's minimum interest coverage ratio was amended to be 2.50:1.00.

During the Second Amendment Period, loans under the Credit Agreement bear interest at (a) Term SOFR plus 2.5% per annum or (b) the Base Rate plus 1.5% per annum. Following the Second Amendment Period, loans bear interest at rates based on (a) Term SOFR plus a rate ranging from 1.125% to 2.0% per annum or (b) the Base Rate plus a rate ranging from 0.125% to 1.0% per annum, the relevant rate in each case being the Applicable Rate. The Applicable Rate following the Second Amendment

Period is determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement as amended by the Second Amendment. Excluding the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 7.76%. During fiscal 2022, the Company used interest rate swaps to hedge a portion of the interest rate risk related its outstanding variable rate debt. As of September 30, 2024, the notional amount of the interest rate swaps was $400 million with fixed rate payments of 5.60%. Including the impact of hedges, the weighted average interest rate on outstanding borrowings under the Credit Agreement at September 30, 2024 was 6.56%. Additionally, the Credit Agreement contains a Commitment Fee (as defined in the Credit Agreement) on the amount unused under the Credit Agreement ranging from 0.15% to 0.25% per annum, and such Commitment Fee is determined in accordance with a leverage-based pricing grid.

As of September 30, 2024, there were $473,000 of loans under the Revolver, $268,675 of Term Loans, and $3,247 of letters of credit outstanding under the Credit Agreement. As of September 30, 2024, $323,753 was available under the Credit Agreement, subject to compliance with the financial covenants. As of September 30, 2024, the Company was in compliance with all associated covenants.

Credit Agreement Issuance Costs

In connection with the First and Second Amendments to its Credit Agreement during the second quarter of fiscal year 2023 and first quarter of fiscal year 2024, respectively, the Company incurred debt issuance costs of approximately $5,841, of which $5,729 was deferred. Of the total deferred costs, $4,198 were associated with the Revolver and are being amortized on a straight-line basis within Other assets on the consolidated balance sheets, and $1,531 are being recorded as an adjustment to the carrying amount of the Term Loans as a component of Interest and other financing expense, net over the term of the Credit Agreement utilizing the effective interest rate method.

Interest paid during the three months ended September 30, 2024 and September 30, 2023 was $12,455 and $11,432, respectively.

Income Taxes

10. INCOME TAXES

In general, the Company uses an estimated annual effective tax rate, which is based on expected annual income and statutory tax rates in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes. However, to the extent that application of the estimated annual effective tax rate is not representative of the quarterly portion of actual tax expense expected to be recorded for the year in a jurisdiction, the Company determines the provision for income taxes based on actual year-to-date income (loss), which has been the case for certain jurisdictions for the quarter ended September 30, 2024. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability on the effective tax rates from quarter to quarter. The Company's effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.

The effective income tax rate was an expense of 22.0% and a benefit of 35.3% for the three months ended September 30, 2024 and 2023, respectively. The income tax expense for the three months ended September 30, 2024 reflected foreign tax expense in certain jurisdictions and an increase in the valuation allowance for both federal and state income taxes.

The 2022 Plan is administered by the Compensation and Talent Management Committee of the Company's Board of Directors. Stock-Based Award Activity

Stock-based awards are generally issued in the form of restricted share units ("RSU"), which are service-based awards, and performance share units ("PSU") that are subject to the achievement of minimum market conditions. RSU awards to employees generally provide for vesting in equal annual installments over a period of three years, with different vesting periods in certain cases. RSU awards to non-employee directors generally provide for a vesting period of one year. For PSU awards, the following share figures are stated at target levels, and the awards outstanding as of September 30, 2024 generally provide for vesting at 0% to 200% of the target level. Financial Instruments Measured At Fair Value

3 Months Ended

Sep. 30, 2024

13. FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE

The Company's financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table presents assets and liabilities measured at fair value on a recurring basis as of September 30, 2024:

	Total	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Derivative financial instruments	$ 5,397	$ —	$ 5,397	$ —
Liabilities:				
Derivative financial instruments	$ 8,159	—	$ 8,159	—

The following table presents assets and liabilities measured at fair value on a recurring basis as of June 30, 2024:

	Total	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Derivative financial instruments	$ 14,982	$ —	$ 14,982	$ —
Liabilities:				
Derivative financial instruments	$ 3,333	—	$ 3,333	—

There were no transfers of financial instruments between the three levels of fair value hierarchy during the three months ended September 30, 2024 or 2023.

Derivative Instruments

The Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like discounted cash flow analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. The fair values of interest rate swaps are determined by netting the discounted future fixed and variable cash flows. The variable cash flows are based on expected future interest rates.

Credit valuation adjustments are made to reflect the nonperformance risk of both the Company and its counterparties. Most inputs used to value derivatives fall within Level 2 of the fair value hierarchy, but credit valuation adjustments use Level 3 inputs, such as current credit spreads. The impact of these adjustments was not significant to the overall valuation, so all derivatives as of September 30, 2024 and June 30, 2024 were classified as Level 2.

Nonrecurring Fair Value Measurements

The Company measures certain non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use lease assets, at fair value on a nonrecurring basis. These assets are initially measured at fair value at the time of acquisition or purchase, with adjustments only for foreign currency translation. Periodically, these assets are tested for impairment by comparing their carrying values to their estimated fair values. If an asset is impaired, the Company recognizes an impairment expense equal to the excess of the carrying value over the estimated fair value.

For indefinite-lived intangible assets, the fair value is determined using the relief from royalty approach, considering factors like future growth, royalty rates, discount rates, and other variables. Fair value measurements for reporting units are estimated using discounted cash flow models, which involve significant management judgment and Level 3 inputs, such as economic conditions and customer demand. These measurements are performed at least annually for impairment testing. The Company bases its fair value estimates on reasonable assumptions but acknowledges their unpredictability and inherent uncertainty.

Derivative Instruments and Hedging Activities Disclosure [Abstract]

DERIVATIVES AND HEDGING ACTIVITIES

14. DERIVATIVES AND HEDGING ACTIVITIES

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages its exposures to a wide variety of business and operational risks. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources and duration of its assets and liabilities and the use of derivative financial

instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's receivables and borrowings.

Certain of the Company's foreign operations expose the Company to fluctuations of foreign exchange rates. These fluctuations may impact the value of the Company's cash receipts and payments in terms of the Company's functional currency. The Company

enters into derivative financial instruments to protect the value or fix the amount of certain assets and liabilities in terms of its functional currency, the U.S. Dollar. Accordingly, the Company uses derivative financial instruments to manage and mitigate such risks. The Company does not use derivatives for speculative or trading purposes.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. During the three months ended September 30, 2024 and 2023, such derivatives were used to hedge the variable cash flows associated with existing variable rate debt.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified into interest expense in the same period during which the hedged transaction affects earnings. Amounts reported in AOCL related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable rate debt. During the next 12 months, the Company estimates that an additional $3,010 will be reclassified as a decrease to interest expense.

As of September 30, 2024, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

Interest Rate Derivative	Number of Instruments	Notional Amount
Interest rate swap	4	$ 400,000

Cash Flow Hedges of Foreign Exchange Risk

The Company is exposed to fluctuations in various foreign currencies against its functional currency, the U.S. Dollar. The Company, at times, uses forward contracts to manage its exposure to fluctuations in the GBP-EUR exchange rates. The Company designates these derivatives as cash flow hedges of foreign exchange risks.

For derivatives designated and that qualify as cash flow hedges of foreign exchange risk, the gain or loss on the derivative is recorded in AOCL and subsequently reclassified in the same period during which the hedged transaction affects earnings within the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that no amount relating to the foreign currency forward contracts will be reclassified to interest expense. As of September 30, 2024, the Company had no outstanding foreign currency derivatives that were used to hedge its foreign exchange risks.

Net Investment Hedges

The Company is exposed to fluctuations in foreign exchange rates on investments it holds in its European foreign entities and their exposure to the Euro. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in the foreign exchange rate on its foreign investment in Western Europe. Currency forward agreements involve fixing the USD-EUR exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in U.S. Dollars for their fair value at or close to their settlement date. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency- fixed-rate payments over the life of the agreement.

For derivatives designated as net investment hedges, the gain or loss on the derivative is reported in AOCL as part of the cumulative translation adjustment. Amounts are reclassified out of AOCL into earnings when the hedged net investment is either sold or substantially liquidated.

As of September 30, 2024, the Company had the following outstanding foreign currency derivatives that were used to hedge its net investments in foreign operations:

Foreign Currency Derivative	Number of Instruments	Notional Sold	Notional Purchased
Cross-currency swap	4	€ 100,300	$ 105,804

Fair Value Hedges

The Company is exposed to changes in the fair value of certain of its foreign denominated intercompany loans due to changes in foreign exchange spot rates. The Company uses fixed-to-fixed cross-currency swaps to hedge its exposure to changes in foreign exchange rates affecting gains and losses on intercompany loan principal and interest. Cross-currency swaps involve the receipt of functional-currency-fixed-rate amounts from a counterparty in exchange for the Company making foreign-currency-fixed-rate payments over the life of the agreement.

For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in interest and other financing expense, net.

Gains and losses on the derivative representing hedge components excluded from the assessment of effectiveness are recognized over the life of the hedge on a systematic and rational basis, as documented at hedge inception in accordance with the Company's accounting policy election. The earnings recognition of excluded components is presented in the same income statement line item as the earnings effect of the hedged transaction. During the next 12 months, the Company estimates that an additional $476 relating to cross currency swaps will be reclassified as a decrease to interest expense.

As of September 30, 2024, the Company had the following outstanding foreign currency derivatives that were used to hedge changes in fair value attributable to foreign exchange risk:

Foreign Currency Derivative	Number of Instruments	Notional Sold	Notional Purchased
Cross-currency swap	1	€ 24,700	$ 26,021

As of September 30, 2024 and June 30, 2024, the following amounts were recorded on the consolidated balance sheets related to cumulative basis adjustment for fair value hedges:

	Carrying Amount of the Hedged Asset		Cumulative Amount of Fair Value Hedge Adjustment Included in the Carrying Amount of the Hedged Asset

Securities Class Actions Filed in Federal Court

On August 17, 2016, three securities class action complaints were filed in the Eastern District of New York (the "District Court") against the Company alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934: (1) Flora v. The Hain Celestial Group, Inc., et al.; (2) Lynn v. The Hain Celestial Group, Inc., et al.; and (3) Spadola v. The Hain Celestial Group, Inc., et al. (collectively, the "Securities Complaints"). The Securities Complaints were ultimately consolidated under the caption In re The Hain Celestial Group, Inc. Securities Litigation (the "Consolidated Securities Action"), and Rosewood Funeral Home and Salamon Gimpel were appointed as Co-Lead Plaintiffs. During the summer of 2017, a Corrected Consolidated Amended Complaint was filed, which named as defendants the Company and certain of its former officers (collectively, "Defendants") and asserted violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegedly materially false or misleading statements and omissions in public statements, press releases and Securities and Exchange Commission ("SEC") filings regarding the Company's business, prospects, financial results and internal controls.

After Defendants' initial motion to dismiss was granted without prejudice to replead in October 2017, the Co-Lead Plaintiffs filed a Second Amended Consolidated Class Action Complaint on May 6, 2019 (the "Second Amended Complaint"). The Second Amended Complaint again named as defendants the Company and certain of its former officers and asserted violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegations similar to those in the Corrected Consolidated Amended Complaint. Defendants filed a motion to dismiss the Second Amended Complaint on June 20, 2019. On April 6, 2020, the District Court granted Defendants' motion to dismiss the Second Amended Complaint in its entirety, with prejudice. Co-Lead Plaintiffs appealed the District Court's decision dismissing the Second Amended Complaint to the United States Court of Appeals for the Second Circuit (the "Second Circuit"). By decision dated December 17, 2021, the Second Circuit vacated the District Court's judgment and remanded the case for further proceedings. The parties ultimately submitted supplemental briefing between May 12, 2022 and June 23, 2022, and in June 2022, the District Court referred Defendants' Motion to Dismiss the Second Amended Complaint to a United States Magistrate Judge (the "Magistrate Judge") for a Report and Recommendation. On November 4, 2022, the Magistrate Judge issued a Report and Recommendation recommending that the District Court grant Defendants' Motion to Dismiss the Second Amended Complaint with prejudice. On September 29, 2023, the District Court granted Defendants' Motion to Dismiss the Second Amended Complaint. Co-Lead Plaintiffs filed notice of appeal on October 26, 2023, appealing the District Court's decision dismissing the Second Amended Complaint to the Second Circuit. Co-Lead Plaintiffs filed their opening brief on February 12, 2024. Defendants opposed, and the appeal was fully briefed as of June 3, 2024. The Court has scheduled oral argument on Plaintiffs' appeal for December 5, 2024.

Additional Stockholder Class Action and Derivative Complaints Filed in Federal Court

The former Board of Directors and certain former officers of the Company are defendants in a consolidated action originally filed in 2017 in the Eastern District of New York under the captions Silva v. Simon, et al., Barnes v. Simon, et al., Merenstein v. Heyer, et al., and Oliver v. Berke, et al. Plaintiffs in the consolidated action, In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the "Consolidated Stockholder Class and Derivative Action"), allege the violation of securities law, breach of fiduciary duty, waste of corporate assets and unjust enrichment. The plaintiffs alleged in their Amended Complaint that the Company's former directors and certain former officers made materially false and misleading statements in press releases and SEC filings regarding the Company's business, prospects and financial results and that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and includes claims for breach of fiduciary duty, unjust enrichment and corporate waste.

On December 20, 2017, the parties agreed to stay Defendants' time to answer, move, or otherwise respond to the consolidated amended complaint through and including 30 days after a decision was rendered on the motion to dismiss the Amended Complaint in the Consolidated Securities Action, described above. After the District Court granted Defendants' motion to dismiss the Consolidated Securities Action, the Co-Lead Plaintiffs in that action filed a Second Amended Complaint on May 6, 2019. The

parties to the Consolidated Stockholder Class and Derivative Action thereby agreed to continue the stay of Defendants' time to answer, move, or otherwise respond to the consolidated amended complaint through 30 days after a decision on Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action.

On April 6, 2020, the District Court granted Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action, with prejudice. Pursuant to the terms of an agreed-upon stay, Defendants in the Consolidated Stockholder Class and Derivative Action had until May 6, 2020 to answer, move, or otherwise respond to the complaint in this matter. This deadline was extended, and Defendants moved to dismiss the Consolidated Stockholder Class and Derivative Action Complaint on June 23, 2020, with Plaintiffs' opposition due August 7, 2020.

On July 24, 2020, Plaintiffs made a stockholder litigation demand on the current Board containing overlapping factual allegations to those set forth in the Consolidated Stockholder Class and Derivative Action. On November 3, 2020, Plaintiffs were informed that the Board of Directors had finished investigating and resolved, among other things, that the demand should be rejected. In light of the Second Circuit vacating the District Court's judgment in the Consolidated Securities Action referenced above and remanding the case for further proceedings, the Parties submitted a joint status report on December 29, 2021 requesting that the District Court continue the temporary stay pending the District Court's reconsideration of the Defendants' motion to dismiss the Second Amended Complaint in the Consolidated Securities Action. The parties have most recently agreed to extend the stay through the earlier of November 8, 2024 or 30 days after the Second Circuit issues a decision on Plaintiffs' currently pending appeal.

Baby Food Litigation

Since February 2021, the Company has been named in numerous consumer class actions alleging that the Company's Earth's Best® baby food products (the "Products") contain unsafe and undisclosed levels of various naturally occurring heavy metals, namely lead, arsenic, cadmium and mercury. Those actions have now been transferred and consolidated as a single lawsuit in the U.S. District Court for the Eastern District of New York captioned In re Hain Celestial Heavy Metals Baby Food Litigation, Case No. 2:21-cv-678 (the "Consolidated Proceeding"), which generally alleges that the Company violated various state consumer protection laws and asserts other state and common law warranty and unjust enrichment claims related to the alleged failure to disclose the presence of these metals, arguing that consumers would have either not purchased the Products or would have paid less for them had the Company made adequate disclosures. The Company filed a motion to dismiss the Consolidated Class Action Complaint on November 7, 2022, which was opposed by the plaintiffs. On May 9, 2023, upon consent of the parties, the Court stayed the Consolidated Proceeding pending the Second Circuit's decision on appeal in In re Beech-Nut Nutrition Co. Baby Food Litigation, 21 Civ. 133 (N.D.N.Y.) (the "Beech-Nut Case"). Accordingly, the Court denied the Company's motion to dismiss without prejudice to renew.

By summary order dated January 18, 2024, the Second Circuit vacated the judgment dismissing the Beech-Nut Case and remanded for further proceedings. On February 15, 2024, the Company served a renewed motion to dismiss the Consolidated Proceeding. Plaintiffs served their opposition on March 14, 2024, and the Company served its reply on April 4, 2024. The Court heard oral argument on the motion to dismiss on August 1, 2024, and took the motion under submission. One consumer class action is pending in New York Supreme Court, Nassau County, which the court has stayed in deference to the Consolidated Proceeding. The Company denies the allegations in these lawsuits and contends that its baby foods are safe and properly labeled.

The claims raised in these lawsuits were brought in the wake of a highly publicized report issued by the U.S. House of Representatives Subcommittee on Economic and Consumer Policy on Oversight and Reform, dated February 4, 2021 (the "House Report"), addressing the presence of heavy metals in baby foods made by certain manufacturers, including the Company. Since the publication of the House Report, the Company has also received information requests with respect to the advertising and quality of its baby foods from certain governmental authorities, as such authorities investigate the claims made in the House Report. The Company is fully cooperating with these requests and has provided documents and other requested information.

The Company has been named in one civil government enforcement action, State of New Mexico ex rel. Balderas v. Nurture, Inc., et al., which was filed by the New Mexico Attorney General against the Company and several other manufacturers based on the alleged presence of heavy metals in their baby food products. The Company and several other manufacturers moved to dismiss the New Mexico Attorney General's lawsuit, and the Court denied that motion. The Company filed its answer to the New

Mexico Attorney General's amended complaint on April 23, 2022, and discovery is set to commence. The Company denies the New Mexico Attorney General's allegations and maintains that its baby foods are safe, properly labeled, and compliant with New Mexico law.

In addition to the consumer class actions discussed above, the Company is currently named in numerous lawsuits in state and federal courts alleging some form of personal injury from the ingestion of the Company's Products, purportedly due to unsafe and undisclosed levels of various naturally occurring heavy metals. These lawsuits generally allege injuries related to neurological development disorders such as autism and attention deficit hyperactivity disorder.

Multidistrict Litigation

- On January 4, 2024, Plaintiffs in federal cases across the country filed a Motion to Transfer Actions Pursuant to 28 U.S.C. § 1407 for Coordinated or Consolidated Pretrial Proceedings. On April 11, 2024, the United States Judicial Panel on Multidistrict Litigation granted Plaintiffs' Motion and transferred the cases to the Northern District of California for coordinated or consolidated pretrial proceedings. In Re: Baby Food Products Liability Litigation (MDL No. 3101) has been assigned to District Judge Jacqueline Scott Corley. On April 15, 2024, Judge Corley issued Pretrial Order No. 1 staying all outstanding discovery proceedings and pending motions and vacating all previously scheduled hearing dates. There are approximately 24 federal cases filed against the Company pending in the multi-district litigation ("MDL"). Plaintiffs filed their Master Complaint on July 15, 2024. The MDL will first proceed with general causation discovery.

California State Court Cases

- There are currently seven cases against the Company pending in California state court, including six in Los Angeles Superior Court and one in Alameda Superior Court. The Plaintiffs filed a Petition for Coordination to the Chair of the Judicial Council seeking to coordinate the Alameda Superior Court and Los Angeles Superior Court cases. The Judicial Council granted the JCCP petition and on June 4, 2024, Judge Lawrence P. Riff (Los Angeles Superior Court) was assigned as trial coordination judge. All but one of the cases have been stayed.

17. SEGMENT INFORMATION

The Company's organizational structure consists of two geographic based reportable segments: North America and International, which are also the operating segments. This structure is in line with how the Company's Chief Operating Decision Maker ("CODM") assesses the Company's performance and allocates resources. The Company uses segment net sales and segment Adjusted EBITDA in order to analyze segment results and trends.

Segment Adjusted EBITDA excludes net interest expense, income taxes, depreciation and amortization, equity in net loss of equity-method investees, stock-based compensation, net, unrealized currency losses, certain litigation and related costs, plant closure related costs, net, productivity and transformation costs, costs associated with acquisitions, divestitures and other transactions, loss on sale of assets, long-lived asset impairments and other adjustments. In addition, Segment Adjusted EBITDA does not include Corporate and Other expenses related to the Company's centralized administrative functions, which do not specifically relate to a reportable segment. Such Corporate and Other expenses are comprised mainly of compensation and related expenses of certain of the Company's senior executive officers and other employees who perform duties related to the entire enterprise, litigation expense and expenses for certain professional fees, facilities, and other items which benefit the Company as a whole.

The following tables set forth financial information about each of the Company's reportable segments. Information about total assets by segment is not disclosed because such information is not reported to or used by the Company's CODM for purposes of assessing segment performance or allocating resources. Transactions between reportable segments were insignificant for all periods presented.

Accounting Policies [Abstract]

Basis of Presentation

BASIS OF PRESENTATION

The Company's unaudited consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation. Investments in affiliated companies in which the Company exerts significant influence, but which it does not control, are accounted for under the equity method of accounting. As such, consolidated net loss includes the Company's equity in the current earnings or losses of such companies.

The Company's unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP and should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2024 (the "Form 10-K"). The amounts as of and for the periods ended June 30, 2024 are derived from the Company's audited annual financial statements. The unaudited consolidated financial statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair presentation for interim periods. Operating results for the three months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2025. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2024 and for the fiscal year then ended included in the Form 10-K for information not included in these condensed notes.

All dollar amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousands, except par values and per share amounts, unless otherwise indicated.

Significant Accounting Policies

Significant Accounting Policies

The Company's significant accounting policies are described in Note 2, *Summary of Significant Accounting Policies and Practices*, in the Notes to the Consolidated Financial Statements in the Form 10-K. Included herein are certain updates to those policies.

Transfer of Financial Assets

Transfer of Financial Assets

The Company accounts for transfers of financial assets, such as non-recourse accounts receivable financing arrangements, when the Company has surrendered control over the related assets. Determining whether control has transferred requires an evaluation of relevant legal considerations, an assessment of the nature and extent of the Company's continuing involvement with the assets transferred and any other relevant considerations. The Company has non-recourse financing arrangements in which eligible receivables are sold to third-party buyers in exchange for cash. The Company transferred accounts receivable in their entirety to the buyers and satisfied all of the conditions to report the transfer of financial assets in their entirety as a sale. The principal amount of receivables sold under these arrangements was $56,959 and $86,506 during the three months ended September 30, 2024 and 2023, respectively. The incremental cost of financing receivables under these arrangements is included in selling, general and administrative expenses on the Company's consolidated statements of operations. The proceeds from the sale of receivables are included in cash (used in) provided by operating activities on the consolidated statements of cash flows.

Recently Issued Accounting Pronouncements Not Yet Adopted

Recently Issued Accounting Pronouncements Not Yet Adopted

In November 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses". The amendments address investor requests for more detailed expense information and require additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which will require entities to disclose more detailed information in the reconciliation of their statutory tax rate to their effective

tax rate. The ASU also requires entities to disclose more detailed information about income taxes paid, including by jurisdiction, pretax income (loss) from continuing operations, and income tax expense (benefit). The amendments are effective for fiscal years beginning after December 15, 2024 and for interim periods within fiscal years beginning after December 15, 2025. The amendments should be applied on a prospective basis. Retrospective application is permitted. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures," which updates reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

Financial instruments measured at fair value

The Company's financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

Derivative Instruments

The Company uses interest rate swaps to manage interest rate risk and cross-currency swaps and foreign currency exchange contracts to manage exposure to currency fluctuations. These instruments are valued using techniques like discounted cash flow analysis, which considers the contractual terms and market-based inputs such as interest rate curves and implied volatilities. The fair values of interest rate swaps are determined by netting the discounted future fixed and variable cash flows. The variable cash flows are based on expected future interest rates.

Credit valuation adjustments are made to reflect the nonperformance risk of both the Company and its counterparties. Most inputs used to value derivatives fall within Level 2 of the fair value hierarchy, but credit valuation adjustments use Level 3 inputs, such as current credit spreads. The impact of these adjustments was not significant to the overall valuation, so all derivatives as of September 30, 2024 and June 30, 2024 were classified as Level 2.

Nonrecurring Fair Value Measurements

The Company measures certain non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use lease assets, at fair value on a nonrecurring basis. These assets are initially measured at fair value at the time of acquisition or purchase, with adjustments only for foreign currency translation. Periodically, these assets are tested for impairment by comparing their carrying values to their estimated fair values. If an asset is impaired, the Company recognizes an impairment expense equal to the excess of the carrying value over the estimated fair value.

For indefinite-lived intangible assets, the fair value is determined using the relief from royalty approach, considering factors like future growth, royalty rates, discount rates, and other variables. Fair value measurements for reporting units are estimated using discounted cash flow models, which involve significant management judgment and Level 3 inputs, such as economic conditions and customer demand. These measurements are performed at least annually for impairment testing. The Company bases its fair value estimates on reasonable assumptions but acknowledges their unpredictability and inherent uncertainty.
