(the "Continuing Equity Owners").

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and pursuant to the reporting and disclosure rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for fair presentation of the unaudited condensed consolidated financial statements of the Company and its subsidiaries as of December 31, 2023 March 31, 2024 and for the three and six months ended December 31, 2023 March 31, 2024 and 2022, 2023. The results of operations for the three and six months ended December 31, 2023 March 31, 2024 and 2022, 2023 are not necessarily indicative of the operating results for the full year.

As permitted by the rules and regulations of the SEC, certain information and disclosures otherwise included in the notes to the consolidated financial statements have been condensed or omitted from the summary of significant accounting policies. The Company believes the disclosures are adequate to make the information presented not misleading. It is recommended that these interim condensed consolidated financial statements be read in conjunction with the Company's consolidated financial statements and related footnotes for the years ended September 30, 2023 and 2022, included in the Company's Annual Report on Form 10-K for the year ended September 30, 2023 filed with the SEC on November 22, 2023.

### Principles of Consolidation

These interim condensed consolidated financial statements include the accounts of the Company and its subsidiary companies. All significant intercompany accounts and transactions have been eliminated in consolidation.

### i3 VERTICALS, Inc.

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (in thousands, except unit, share and per share amounts)

### Restricted Cash

Restricted cash represents funds held in escrow related to acquisitions or held-on-deposit with processing banks pursuant to agreements to cover potential merchant losses. It is presented as long-term assets on the accompanying condensed consolidated balance sheets since the related agreements extend beyond the next twelve months. Following the adoption of Accounting Standards Update ("ASU") 2016-18, Statement of Cash Flows: Restricted Cash (Topic 230), the Company includes restricted cash along with the cash and cash equivalents balance for presentation in the consolidated statements of cash flows.

### Settlement Assets and Obligations

Settlement assets and obligations result when funds are temporarily held or owed by the Company on behalf of merchants, consumers, schools, and other institutions. Timing differences, interchange expenses, merchant reserves and exceptional items cause differences between the amount received from the card networks and the amount funded to counterparties. These balances arising in the settlement process are reflected as settlement assets and obligations on the accompanying consolidated balance sheets. With the exception of merchant reserves, settlement assets or settlement obligations are generally collected and paid within one to four days. Settlement assets and settlement obligations were both \$3,518 \$1,586 as of December 31, 2023 March 31, 2024 and \$4,873 as of September 30, 2023, respectively.

### Reclassifications

Certain prior period amounts have been reclassified in order to conform with the current period presentation. These reclassifications have no impact on the Company's previously reported consolidated net income (loss).

### Change in presentation

During the second quarter of 2024, the Company elected to change its presentation of cash flows associated with "Settlement obligations" from operating activities to financing activities within the Condensed Consolidated Statements of Cash Flows. Comparative amounts have been reclassified to conform to the current period presentation. This change has no impact on the Condensed Consolidated Balance Sheet, Condensed Consolidated Statements of Operations or Condensed Consolidated Statement of Changes in Equity.

The following tables present the effects of the change in presentation within the Condensed Consolidated Statements of Cash Flows:

	For the Six Months Ended March 31, 2024

**Inventories**

Inventories consist of point-of-sale equipment to be sold to customers and are stated at the lower of cost, determined on a weighted average or specific basis, or net realizable value. Inventories were \$4,251 \$3,978 and \$4,138 at December 31, 2023 March 31, 2024 and September 30, 2023, respectively, and are included within prepaid expenses and other current assets on the accompanying condensed consolidated balance sheets.

**Acquisitions**

Business acquisitions have been recorded using the acquisition method of accounting in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 805, *Business Combinations* ("ASC 805"), and, accordingly, the purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair value as of the date of acquisition. Where relevant, the fair value of contingent consideration included in an acquisition is calculated using a Monte Carlo simulation. The fair value of merchant relationships and non-compete assets acquired is identified using the Income Approach. The fair values of trade names and internally-developed software acquired are identified using the Relief from Royalty Method. After the purchase price has been allocated, goodwill is recorded to the extent the total consideration paid for the acquisition, including the acquisition date fair value of contingent consideration, if any, exceeds the sum of the fair values of the separately identifiable acquired assets and assumed liabilities. Acquisition costs for business combinations are expensed when incurred and recorded in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations.

Acquisitions not meeting the accounting criteria to be accounted for as a business combination are accounted for as an asset acquisition. An asset acquisition is recorded at its purchase price, inclusive of acquisition costs, which is allocated among the acquired assets and assumed liabilities based upon their relative fair values at the date of acquisition.

**Leases**

The Company adopted ASU 2016-02, Leases, on October 1, 2020, using the optional modified retrospective method under which the prior period financial statements were not restated for the new guidance. The Company elected the accounting policy practical expedients for all classes of underlying assets to (i) combine associated lease and non-lease components in a lease arrangement as a combined lease component and (ii) exclude recording short-term leases as right-of-use assets on the condensed consolidated balance sheets.

At contract inception the Company determines whether an arrangement is, or contains a lease, and for each identified lease, evaluates the classification as operating or financing. Leased assets and obligations are recognized at the lease commencement date based on the present value of fixed lease payments to be made over the term of the lease. Renewal and termination options are factored into determination of the lease term only if the option is reasonably certain to be exercised. The Company's leases do not provide a readily determinable implicit interest rate and the Company uses its incremental borrowing rate to measure the lease liability and corresponding right-of-use asset. The incremental borrowing rate is a fully collateralized rate that considers the

Company's credit rating, market conditions and the term of the lease. The Company accounts for all components in a lease arrangement as a single combined lease component.

Operating lease cost is recognized on a straight-line basis over the lease term. Total lease costs include variable lease costs, which are primarily comprised of the consumer price index adjustments and other changes based on rates, such as costs of insurance and property taxes. Variable payments are expensed in the period incurred and not included in the measurement of lease assets and obligations.

#### Revenue Recognition and Deferred Revenue

Revenue is recognized as each performance obligation is satisfied, in accordance with ASC 606, *Revenue from Contracts with Customers* ("ASC 606"). The Company accrues for rights of refund, processing errors or penalties, or other related allowances based on historical experience. The Company utilized the portfolio approach practical expedient within ASC 606-10-10-4 *Revenue from Contracts with Customers—Objectives and the significant financing component* practical expedient within ASC 606-10-32-18 *Revenue from Contracts with Customers—The Existence of a Significant Financing Component in the Contract* in performing the analysis.

The Company's revenue for the **three six** months ended **December 31, 2023** **March 31, 2024** and **2022** **2023** is derived from the following sources:

- Software and related services — Includes sales of software as a service, transaction-based fees, ongoing software maintenance and support, software licenses and other professional services related to our software offerings
- Payments — Includes volume-based payment processing fees ("discount fees"), gateway fees and other related fixed transaction or service fees
- Other — Includes sales of equipment, non-software related professional services and other revenues

Revenues from sales of the Company's software are recognized when the related performance obligations are satisfied. Sales of software licenses are categorized into one of two categories of intellectual property in accordance with ASC 606, functional or symbolic. The key distinction is whether the license represents a right to use (functional) or a right to access (symbolic) intellectual property. The Company generates sales of one-time software licenses, which is functional intellectual property. Revenue from functional intellectual property is recognized at a point in time, when delivered to the customer. The Company also offers access to its software under software-as-a-service ("SaaS") arrangements, which represent services arrangements. Revenue from SaaS arrangements is recognized over time, over the term of the agreement.

(in thousands, except unit, share and per share amounts)

Discount fees represent a percentage of the dollar amount of each credit or debit transaction processed or a specified per transaction amount, depending on the card type. The Company frequently enters into agreements with customers under which the customer engages the Company to provide both payment authorization services and transaction settlement services for all of the cardholder transactions of the customer, regardless of which issuing bank and card network to which the transaction relates. The Company's core performance obligations are to stand ready to provide continuous access to the Company's payment authorization services and transaction settlement services in order to be able to process as many transactions as its customers require on a daily basis over the contract term. These services are stand ready obligations, as the timing and quantity of transactions to be processed is not determinable. Under a stand-ready obligation, the Company's performance obligation is defined by each time increment rather than by the underlying activities satisfied over time based on days elapsed. Because the service of standing ready is substantially the same each day and has the same pattern of transfer to the customer, the Company has determined that its stand-ready performance obligation comprises a series of distinct days of service. Discount fees are recognized each day based on the volume or transaction count at the time the merchants' transactions are processed.

#### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(in thousands, except unit, share and per share amounts)

The Company follows the requirements of ASC 606-10-55 *Revenue from Contracts with Customers—Principal versus Agent Considerations*, which states that the determination of whether a company should recognize revenue based on the gross amount billed to a customer or the net amount retained is a matter of judgment that depends on the facts and circumstances of the arrangement. The determination of gross versus net recognition of revenue requires judgment that depends on whether the Company controls the good or service before it is transferred to the merchant or whether the Company is acting as an agent of a third party. The assessment is provided separately for each performance obligation identified. Under its agreements, the Company incurs interchange and network pass-through charges from the third-party card issuers and card networks, respectively, related to the provision of payment authorization services. The Company has determined that it is acting as an agent with respect to these payment authorization services, based on the following factors: (1) the Company has no discretion over which card issuing bank will be used to process a transaction and is unable to direct the activity of the merchant to another card issuing bank, and (2) interchange and card network rates are pre-established by the card issuers or card networks, and the Company has no latitude in determining these fees. Therefore, revenue allocated to the payment authorization performance obligation is presented net of interchange and card network fees paid to the card issuing banks and card networks, respectively, for the **three six** months ended **December 31, 2023** **March 31, 2024** and **2022** **2023**.

With regards to the Company's discount fees, generally, where the Company has control over merchant pricing, merchant portability, credit risk and ultimate responsibility for the merchant relationship, revenues are reported at the time of sale equal to the full amount of the discount charged to the merchant, less interchange and network fees. Revenues

generated from merchant portfolios where the Company does not have control over merchant pricing, liability for merchant losses or credit risk or rights of portability are reported net of interchange and network fees as well as third-party processing costs directly attributable to processing and bank sponsorship costs.

Revenues are also derived from a variety of transaction fees, which are charged for accessing our payment and software solutions, and fees for other miscellaneous services. Revenues derived from such fees are recognized at the time the transactions occur and when there are no further performance obligations. Revenue from the sale of equipment, is recognized upon transfer of ownership to the customer, after which there are no further performance obligations.

Arrangements may contain multiple performance obligations, such as payment authorization services, transaction settlement services, hardware, software products, maintenance, and professional installation and training services. Revenues are allocated to each performance obligation based on the standalone selling price of each good or service. The selling price for a deliverable is based on standalone selling price, if available, the adjusted market assessment approach, estimated cost plus margin approach, or residual approach. The Company establishes estimated selling price, based on the judgment of the Company's management, considering internal factors such as margin objectives, pricing practices and controls, customer segment pricing strategies and

the product life cycle. In arrangements with multiple performance obligations, the Company determines allocation of the transaction price at inception of the arrangement and uses the standalone selling prices for the majority of the Company's revenue recognition.

Revenues from sales of the Company's combined hardware and software element are recognized when each performance obligation has been satisfied which has been determined to be upon the delivery of the product. Revenues derived from service fees are recognized at the time the services are performed and there are no further performance obligations. The Company's professional services, including training, installation, and repair services are recognized as revenue as these services are performed.

#### Contract Assets

The Company bills for certain software and related services sales and fixed fee professional services upon pre-determined milestones in the contracts. Therefore, the Company may have contract assets other than trade accounts receivable for performance obligations that are partially completed, which would typically represent consulting services provided before a milestone is completed in a contract. Additionally, contract assets also include software licenses sold as a right to use license but paid for under a subscription model. Under this structure, the license revenue is recognized upfront while a portion of the revenue is unbilled. Unbilled amounts

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**  
(in thousands, except unit, share and per share amounts)

associated with these services are presented as accounts receivable as the Company has an unconditional right to payment for services performed.

As of December 31, 2023 March 31, 2024 and September 30, 2023, the Company's contract assets from contracts with customers was \$10,139 \$11,478 and \$15,131, respectively.

#### Contract Liabilities

Deferred revenue represents amounts billed to customers by the Company for services contracts. Payment is typically collected at the start of the contract term. The initial prepaid contract agreement balance is deferred. The balance is then recognized as the services are provided over the contract term. Deferred revenue that is expected to be recognized as revenue within one year is recorded as short-term deferred revenue and the remaining portion is recorded as other long-term liabilities in the condensed consolidated balance sheets. The terms for most of the Company's contracts with a deferred revenue component are one year. Substantially all of the Company's deferred revenue is anticipated to be recognized within the next year.

#### Costs to Obtain and Fulfill a Contract

The Company capitalizes incremental costs to obtain new contracts and contract renewals and amortizes these costs on a straight-line basis as an expense over the benefit period, which is generally the contract term, unless a commensurate payment is not expected at renewal. As of December 31, 2023 March 31, 2024 and September 30, 2023, the Company had \$5,106 \$5,417 and \$4,966, respectively, of capitalized contract costs, which relates to commissions paid to employees and agents as well as other incentives given to

customers to obtain new sales, included within "Other assets" on the condensed consolidated balance sheets. The Company recorded expense related to these costs of \$229 \$241 and \$470 for the three and six months ended December 31, 2023 March 31, 2024, respectively and \$183 \$193 and \$376 for the three and six months ended December 31, 2022 March 31, 2023.

##### Other Cost of Services

Other costs of services include third-party processing costs directly attributable to processing and bank sponsorship costs, which may not be based on a percentage of volume. These costs also include related costs such as residual payments to sales groups, which are based on a percentage of the net revenues generated from merchant referrals. In certain merchant processing bank relationships the Company is liable for chargebacks against a merchant equal to the volume of the transaction. Losses resulting from chargebacks against a merchant are included in other cost of services on the accompanying condensed consolidated statement of operations. The Company evaluates its risk for such transactions and estimates its potential loss from chargebacks based primarily on historical experience and other relevant factors. The reserve for merchant losses is included within accrued expenses and other current liabilities on the accompanying condensed consolidated balance sheets. The cost of equipment and software sold is also included in other cost of services. Other costs of services are recognized at the time the associated revenue is earned.

The Company accounts for all governmental taxes associated with revenue transactions on a net basis.

##### Use of Estimates

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates include, but are not limited to, the value of purchase consideration paid and identifiable assets acquired and assumed in acquisitions, goodwill and intangible asset impairment review, determination of performance obligations for revenue

recognition, loss reserves, assumptions used in the calculation of equity-based compensation and in the calculation of income taxes, and certain tax assets and liabilities as well as the related valuation allowances. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

### 3. ACQUISITIONS

During the **three six** months ended **December 31, 2023** **March 31, 2024** and **2022**, the Company acquired the following intangible assets and businesses:

#### Residual Buyouts

From time to time, the Company acquires future commission streams (or "residuals") from sales agents in exchange for an upfront cash payment. This results in an increase in overall gross processing volume to the Company. The residual buyouts are treated as asset acquisitions, resulting in recording a residual buyout intangible asset at cost on the date of acquisition. These assets are amortized using a method of amortization that reflects the pattern in which the economic benefits of the intangible asset are expected to be utilized over their estimated useful lives.

During the **three six** months ended **December 31, 2023** **March 31, 2024** and **2022**, the Company purchased residuals for **\$3,359** **\$4,466** and **\$275** **\$387** of consideration, respectively. The purchases were funded with a combination of cash on hand and borrowings on the Company's revolving credit facility. The acquired residual buyout intangible asset has an estimated amortization period of eight years.

#### Referral Agreements

the six months ended March 31, 2023 was \$420, all of which was settled with cash on hand. The Note Hedge Transactions cover, subject to anti-dilution adjustments substantially similar to those applicable to the Exchangeable Notes, the same number of shares of Class A common stock that initially underlie the Exchangeable Notes in the aggregate and are exercisable upon exchange of the Exchangeable Notes. The Note Hedge Transactions are intended to reduce potential dilution to the Class A common stock upon any exchange of the Exchangeable Notes. The Warrants will expire over a period beginning on May 15, 2025.

The Warrants are separate transactions, entered into by the Company with the Counterparties, and are not part of the terms of the Exchangeable Notes. Holders of the Exchangeable Notes will not have any rights with respect to the Warrants. The Company received approximately \$14,669 from the offering and sale of the Warrants. #### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (in thousands, except unit, share and per share amounts)

The applicable margin is based upon the Borrower's consolidated total net leverage ratio (as defined in the 2023 Senior Secured Credit Facility), as reflected in the schedule below:

Consolidated Total Net Leverage Ratio	Commitment Fee	Letter of Credit Fee	Term Benchmark Loans	Base Rate Loans
> 3.0 to 1.0	0.30 %	3.00 %	3.00 %	2.00 %
> 2.5 to 1.0 but < 3.00 to 1.0	0.25 %	2.50 %	2.50 %	1.50 %
> 2.0 to 1.0 but < 2.50 to 1.0	0.20 %	2.25 %	2.25 %	1.25 %
< 2.0 to 1.0	0.15 %	2.00 %	2.00 %	1.00 %

In addition to paying interest on outstanding principal under the Revolver, the Borrower will be required to pay a commitment fee equal to the product of between 0.15% and 0.30% (the applicable percentage depending on the Borrower's consolidated total net leverage ratio as reflected in the schedule above, 0.30% at **December 31, 2023** **March 31, 2024**) times the actual daily amount by which \$450 million exceeds the total amount outstanding under the Revolver and available to be drawn under all outstanding letters of credit.

In addition, if the total amount borrowed under the Revolver exceeds \$450 million at any time, the 2023 Senior Secured Credit Facility requires the Borrower to prepay such excess outstanding amounts.

The obligations are secured by first-priority security interests in substantially all tangible and intangible assets of the Borrower, the Company and each subsidiary guarantor, in each case whether owned on the date of the initial borrowings or thereafter acquired.

The 2023 Senior Secured Credit Facility places certain restrictions on the ability of the Borrower, the Company and their subsidiaries to, among other things, incur debt and liens; merge, consolidate or liquidate; dispose of assets; enter into hedging arrangements; make certain restricted payments; undertake transactions with affiliates; enter into sale-leaseback transactions; make certain investments; prepay or modify the terms of certain indebtedness; and modify the terms of certain organizational agreements.

**9. LEASES**

The Company's leases consist primarily of real estate leases throughout the markets in which the Company operates. At contract inception, the Company determines whether an arrangement is or contains a lease, and for each identified lease, evaluates the classification as operating or financing. The Company had no finance leases as of **December 31, 2023** **March 31, 2024**. Leased assets and obligations are recognized at the lease commencement date based on the present value of fixed lease payments to be made over the term of the lease. Renewal and termination options are factored into determination of the lease term only if the option is reasonably certain to be exercised. The weighted-average remaining lease term at **December 31, 2023** **March 31, 2024** and **2022** **2023** was two years and four years, respectively. The Company had no significant short-term leases during the **three** and **six** months ended **December 31, 2023** **March 31, 2024** and **2022** **2023**.

The Company's leases do not provide a readily determinable implicit interest rate and the Company uses its incremental borrowing rate to measure the lease liability and corresponding right-of-use asset. The incremental borrowing rates were determined based on a portfolio approach considering the Company's current secured borrowing rate adjusted for market conditions and the length of the lease term. The weighted-average discount rate used in the measurement of our lease liabilities was **7.5%** **7.4%** and **6.1%** **7.3%** as of **December 31, 2023** **March 31, 2024** and **2022**, **2023**, respectively.

Operating lease cost is recognized on a straight-line basis over the lease term. Operating lease costs were **\$1,333** **\$1,318** and **\$2,651** for the **three** and **six** months ended **December 31, 2023** **March 31, 2024**, respectively, and **\$1,504** **\$1,405** and **\$2,909** for the **three** and **six** months ended **December 31, 2022** **March 31, 2023**, respectively, which are included in selling, general and administrative expenses in the condensed consolidated statements of operations.

Total operating lease costs for the **three** months ended **December 31, 2023** include variable lease costs of approximately **\$10** **\$39** and **\$11** and **\$49**, for the **three** and **six** months ended **December 31, 2022** **March 31, 2024**, respectively, and **\$9** and **\$20** for the **three** and **six** months ended **March 31, 2023**, respectively, which are primarily comprised of costs of maintenance and utilities and changes in rates, and are determined based on the actual costs incurred during the period. Variable payments are expensed in the period incurred and not included in the measurement of lease assets and liabilities.

## 10. FAIR VALUE MEASUREMENTS

The Company applies the provisions of ASC 820, *Fair Value Measurement*, which defines fair value, establishes a framework for its measurement and expands disclosures about fair value measurements. Fair value is the price that would be received to sell an asset or the price paid to transfer a liability as of the measurement date. A three-tier, fair-value reporting hierarchy exists for disclosure of fair value measurements based on the observability of the inputs to the valuation of financial assets and liabilities. The three levels are:

Level 1 — Quoted prices for identical instruments in active markets.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 — Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable in active exchange markets.

The carrying value of the Company's financial instruments, including cash and cash equivalents, restricted cash, settlement assets and obligations, accounts receivable, other assets, accounts payable, and accrued expenses, approximated their fair values as of **December 31, 2023** **March 31, 2024** and **2022, 2023**, because of the relatively short maturity dates on these instruments. The carrying amount of debt approximates fair value as of **December 31, 2023** **March 31, 2024** and **2022, 2023**, because interest rates on these instruments approximate market interest rates.

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(in thousands, except unit, share and per share amounts)

The Company has no Level 1 or Level 2 financial instruments measured at fair value on a recurring basis. The following tables present the changes in the Company's Level 3 financial instruments that are measured at fair value on a recurring basis.

	Accrued Contingent Consideration
Balance at September 30, 2023	\$ 8,239
Contingent consideration accrued at time of business combination	170
Change in fair value of contingent consideration included in Operating expenses	(237) (527)

Contingent consideration paid	(4,212) (5,056)
Balance at December 31, 2022 March 31, 2023	<u><u>\$ 20,064 22,259</u></u>

The fair value of contingent consideration obligations includes inputs not observable in the market and thus represents a Level 3 measurement. The amount to be paid under these obligations is contingent upon the achievement of certain growth metrics related to the financial performance of the entities subsequent to acquisition. The fair value of material contingent consideration included in an acquisition is calculated using a Monte Carlo simulation. The contingent consideration is revalued each period until it is settled. Management reviews the historical and projected performance of each acquisition with contingent consideration and uses an income probability method to revalue the contingent consideration. The revaluation requires management to make certain assumptions and represent management's best estimate at the valuation date. The probabilities are determined based on a management review of the expected likelihood of triggering events that would cause a change in the contingent consideration paid. The Company develops the projected future financial results based on an analysis of historical results, market conditions, and the expected impact of anticipated changes in the Company's overall business and/or product strategies.

Approximately \$5,905 \$3,868 and \$6,825 of contingent consideration was recorded in accrued expenses and other current liabilities as of December 31, 2023 March 31, 2024 and September 30, 2023, respectively. Approximately \$349 \$101 and \$1,414 of contingent consideration was recorded in other long-term liabilities as of December 31, 2023 March 31, 2024 and September 30, 2023, respectively.

#### **Disclosure of Fair Values**

The Company's financial instruments that are not remeasured at fair value include the Exchangeable Notes (see Note 7). The Company estimates the fair value of the Exchangeable Notes through consideration of quoted market prices of similar instruments, classified as Level 2 as described above. The estimated fair value of the Exchangeable Notes was \$108,635 \$25,043 as of December 31, 2023 March 31, 2024.

The number of shares of Class A common stock available for issuance under the 2018 Plan includes an annual increase on the first day of each calendar year equal to 4.0% of the outstanding shares of all classes of the Company's common stock as of the last day of the immediately preceding calendar year, unless the Company's board of directors determines prior to the last trading day of December of the immediately preceding calendar year that the increase shall be less than 4.0%. ##### Stock Options

The Company has issued stock option awards under the 2018 Plan and the 2020 Inducement Plan. The fair value of the stock option awards during the **three** **six** months ended **December 31, 2023** **March 31, 2024** and during the year ended September 30, 2023 was determined on the grant date using the Black-Scholes valuation model based on the following weighted-average assumptions:

	December 31, 2023			September 30, 2023		
	March 31, 2024		September 30, 2023			
Expected volatility <sup>(1)</sup>	Expected volatility <sup>(1)</sup>	52.7 %	54.9 %	52.1 %	54.9 %	54.9 %
Expected dividend yield <sup>(2)</sup>	Expected dividend yield <sup>(2)</sup>	— %	— %	— %	— %	— %
Expected term <sup>(3)</sup>	Expected term <sup>(3)</sup>	6 years	6 years	6 years	6 years	6 years
Risk-free interest rate <sup>(4)</sup>	Risk-free interest rate <sup>(4)</sup>	4.4 %	3.9 %	4.1 %	3.9 %	3.9 %

1. Expected volatility is based on the Company's own share price.
2. The Company has assumed a dividend yield of zero as management has no plans to declare dividends in the foreseeable future.
3. Expected term represents the estimated period of time until an award is exercised and was determined using the simplified method as details of employee exercise behavior are limited due to limited historical data.
4. The risk-free rate is an interpolation of yields on U.S. Treasury securities with maturities equivalent to the expected term.

#### Litigation

With respect to all legal, regulatory and governmental proceedings, and in accordance with ASC 450-20, *Contingencies—Loss Contingencies*, the Company considers the likelihood of a negative outcome. If the Company determines the likelihood of a negative outcome with respect to any such matter is probable and the amount of the loss can be reasonably estimated, the Company records an accrual for the estimated amount of loss for the expected outcome of the matter. If the likelihood of a negative outcome with respect to material matters is reasonably possible and the Company is able to determine an estimate of the amount of possible loss or a range of loss, whether in excess of a related accrued liability or where there is no accrued liability, the Company discloses the estimate of the amount of possible loss or range of loss. However, the Company in some instances may be unable to estimate an amount of possible loss or range of loss based on the significant uncertainties involved in, or the preliminary nature of, any such material matter, and in these instances the Company will disclose the nature of the contingency and describe why the Company is unable to determine an estimate of possible loss or range of loss.

The Company is involved in ordinary course legal proceedings, which include all claims, lawsuits, investigations and proceedings, including unasserted claims, which are probable of being asserted, arising in the ordinary course of business. The Company has considered all such ordinary course legal proceedings in formulating its disclosures and assessments. After taking into consideration the evaluation of such legal matters by the Company's legal counsel, the Company's management believes at this time such matters will not have a material impact on the Company's consolidated balance sheet, results of operations or cash flows.

#### S&S Litigation

On June 2, 2021, the State of Louisiana, Division of Administration (the "State") and a putative class of Louisiana sheriffs and law enforcement districts (collectively "Plaintiffs") filed a Petition (as amended on October 4, 2021, the "Petition"), in the 19th Judicial District Court for the Parish of East Baton Rouge against i3-Software & Services, LLC ("S&S"), a subsidiary of the Company located in Shreveport, Louisiana, the Company, i3 Verticals, LLC, the current leader of the S&S business, the former leader of the S&S business, and 1120 South Pointe Properties, LLC ("South Pointe"), the former owner of the assets of the S&S business (collectively "Defendants"). See *State of Louisiana, by and through its Division of Administration, East Baton Rouge Parish Law Enforcement District, by and through the duly elected East Baton Rouge Parish Sheriff, Sid J. Gautreaux, III, et. al.*,

individually and as class representatives vs. i3-Software & Services, LLC; 1120 South Pointe Properties, LLC, formerly known as Software and Services of Louisiana, L.L.C.; i3 Verticals, Inc.; i3 Verticals, LLC; Gregory R. Teeters; and Scott Carrington.

The Petition was amended on October 4, 2021 to amend and expand the putative class and subsequently removed to the United States District Court for the Middle District of Louisiana. The Petition seeks monetary damages for the cost of network remediation of \$15,000 purportedly spent by the State and \$7,000 purportedly spent by the Plaintiffs, return of purchase prices, potential additional expenses related to remediation and any obligation to notify parties of an alleged data breach as and if required by applicable law, and reasonable attorneys' fees. The claimed damages relate to a third-party remote access software product used in connection with services provided by S&S to certain Louisiana law enforcement districts and alleged inadequacies in the Company's cybersecurity practices. Plaintiffs moved to remand the action to state court on November 5, 2021, and the motion was referred to a magistrate to make a report and recommendation to the district court judge. On July 5, 2022, the magistrate recommended that the matter be remanded to state court. On July 19, 2022, the Company and all other defendants filed objections to the recommendation. On August 3, 2022, the Plaintiffs filed a response to those objections. On August 16, 2022, the district court granted the Plaintiffs' motion to remand, and all Defendants appealed. Oral argument on this motion in front of the United States Fifth Circuit Court of Appeals took place on April 4, 2023, and on September 1, 2023, the Fifth Circuit panel affirmed the District Court order to remand the case back to state court. On September 29, 2023, all Defendants-Appellants filed a Petition for Rehearing En Banc, which the Plaintiffs-Appellees opposed on October 12, 2023. ultimately denied the petition for rehearing on that motion. February 22, 2024, sending the case back to the 19th Judicial District Court for the Parish of East Baton Rouge, where the case remains pending.

The assets of the S&S business were acquired from South Pointe by the Company in 2018 for \$17,000, including upfront cash consideration and contingent consideration, and provides software and payments services within the Company's Public Sector vertical to local government agencies almost exclusively in Louisiana.

The Company is unable to predict the outcome of this litigation. While we do not believe that this matter will have a material adverse effect on our business or financial condition, we cannot give assurance that this matter will not have a material effect on our results of operations or cash flows for the period in which it is resolved.

#### Other

The Company's subsidiary CP-PS, LLC has certain indemnification obligations in favor of FDS Holdings, Inc. related to the acquisition of certain assets of Merchant Processing Solutions, LLC in February 2014. However, after taking into consideration the evaluation of such matters by the Company's legal counsel, the Company's management believes at this time that the anticipated outcome of any existing or potential indemnification liabilities related to this matter will not have a material impact on the Company's consolidated financial position, results of operations or cash flows.

1. For the **three** six months ended **December 31, 2022** March 31, 2023, all potentially dilutive securities were anti-dilutive, so diluted net loss per share was equivalent to basic net loss per share. The following securities were excluded from the weighted average effect of dilutive securities in the computation of diluted net loss per share of Class A common stock:

- 10,118,142** **10,114,598** weighted average shares of Class B common stock for the **three** six months ended **December 31, 2022** March 31, 2023, along with the reallocation of net income assuming conversion of these shares, were excluded because the effect would have been anti-dilutive.
- 5,652,711** **5,165,478** stock options for the **three** six months ended **December 31, 2022** March 31, 2023, were excluded because the exercise price of these stock options exceeded the average market price of our Class A common stock during the period ("out-of-the-money") and the effect of including them would have been anti-dilutive, and
- 696,427** **633,453** shares for the **three** six months ended **December 31, 2022** March 31, 2023, resulting from estimated stock option exercises and restricted stock units vesting as calculated by the treasury stock method were excluded because of the effect of including them would have been anti-dilutive.

2. For the three and six months ended December 31, 2023 March 31, 2024 and the three months ended March 31, 2023, the following securities were excluded from the weighted average effect of dilutive securities in the computation of diluted net loss income per share of Class A common stock:

- 7,496,394 10,091,604 and 10,092,504 weighted average shares of Class B common stock for the three and six months ended March 31, 2024, respectively, along with the reallocation of net income assuming conversion of these shares, were excluded because the effect would have been anti-dilutive, and
- 7,852,595 and 8,246,542 stock options for the three and six months ended March 31, 2024, respectively, and 4,018,042 stock options for the three months ended December 31, 2023 March 31, 2023, were excluded because the exercise price of these stock options exceeded the average market price of our Class A common stock during the period ("out-of-the-money") and the effect of including them would have been anti-dilutive.

3. The reallocation of net income assuming conversion of common units represents the tax effected net income attributable to non-controlling interest using the effective income tax rates described in Note 8 above and assuming all common units of i3 VERTICALS, Inc.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(in thousands, except unit, share Verticals, LLC were exchanged for Class A common stock at the beginning of the period. The common units of i3 Verticals, LLC held by the Continuing Equity Owners are potentially dilutive securities, and the computations of pro forma diluted net income per share amounts)

assume that all common units of i3 Verticals, LLC were exchanged for shares of Class A common stock at the beginning of the period.

In September 2022 the Company made the irrevocable election to settle the principal portion of its Exchangeable Notes only in cash, the Company uses the treasury stock method for calculating any potential dilutive effect of the conversion spread on diluted net income per share, if applicable. The conversion spread will have a dilutive impact on diluted net income per share of common stock when the average market price of the Company's Class A common stock for a given period exceeds the exchange price of \$40.87 per share for the Exchangeable Notes.

The Warrants sold in connection with the issuance of the Exchangeable Notes are considered to be dilutive when the average price of the Company's Class A common stock during the period exceeds the Warrants' stock price of \$62.88 per share. The effect of the additional shares that may be issued upon exercise of the Warrants will be included in the weighted average shares of Class A common stock outstanding—diluted using the treasury stock method. The Note Hedge Transactions purchased in connection with the issuance of the Exchangeable Notes are considered to be anti-dilutive and therefore do not impact our calculation of diluted net income per share. Refer to Note 7 for further discussion regarding the Exchangeable Notes.

Shares of the Company's Class B common stock do not participate in the earnings or losses of the Company and are therefore not participating securities. As such, separate presentation of basic and diluted earnings per share of Class B common stock under the two-class method has not been presented.

These repurchases resulted in a decrease in the Company's total leverage ratio, and following the completion of the repurchases of these Exchangeable Notes, approximately \$26,223 in aggregate principal amount of the Exchangeable Notes remained outstanding, with terms unchanged. On February 8, 2024, we announced that our Board of Directors had initiated a process to explore a potential sale of certain assets related to our Merchant Services business. **This process is ongoing.** There is no assurance that the process to explore a sale of the Merchant Services business will result in any transaction, or if the transaction is completed, the timing or terms of any such transaction. Our Board of Directors may determine to suspend or terminate the exploration of a potential sale of our Merchant Services business at any time due to various factors. Any potential transaction is also dependent upon a number of factors that may be beyond our control, including, among other factors, market conditions, industry trends, regulatory limitations and the interest of third parties in our business. We do not intend to make any further disclosure concerning these matters unless and until any definitive transaction agreement is reached or we otherwise deem further disclosure is appropriate.

#### Economic Trends

Inflationary pressures, elevated interest rate levels, monetary policy, and the current geopolitical situation (including the military conflicts in Ukraine and in the Middle East), are causing broad economic uncertainty and could potentially cause new, or exacerbate existing, economic challenges that may impact us. These conditions could worsen as a result of adverse economic developments impacting the U.S. and/or global economies, including as a result of monetary policy designed to curb inflation. As the future magnitude, duration and effects of these conditions are difficult to predict at this time, we are unable to predict the extent of the potential effect on our financial results.

#### Our Revenue and Expenses

##### **Revenues**

We generate revenue from software and related services revenue, including the sale of subscriptions, recurring services, ongoing support, licenses, and installation and implementation services specific to software. We also generate revenue from volume-based payment processing fees ("discount fees") and POS-related solutions that we provide to our customers directly and through our distribution partners. Volume-based fees represent a percentage of the dollar amount of each credit or debit transaction processed. Revenues are also derived from a variety of fixed transaction or service fees, including authorization fees, convenience fees, statement fees, annual fees and fees for other miscellaneous services, such as handling chargebacks.

*Interchange and network fees.* Interchange and network fees consist primarily of pass-through fees that make up a portion of discount fee revenue. These include assessment fees payable to card associations, which are a percentage of the processing volume we generate from Visa and Mastercard. These fees are presented net of revenue.

#### **Expenses**

*Other costs of services.* Other costs of services include costs directly attributable to processing and bank sponsorship costs. These also include related costs such as residual payments to our distribution partners, which are based on a percentage of the net revenues (revenue less interchange and network fees) generated from customer referrals. Losses resulting from excessive chargebacks against a customer are included in other cost of services. The cost of equipment sold is also included in cost of services. Other costs of services are recognized at the time the customer's transactions are processed.

*Selling, general and administrative.* Selling, general and administrative expenses include salaries and other employment costs, professional services, rent and utilities and other operating costs.

*Depreciation and amortization.* Depreciation expense consists of depreciation on our investments in property, equipment and computer hardware and software. Depreciation expense is recognized on a straight-line basis over the estimated useful life of the asset. Amortization expense for acquired intangible assets and internally developed software is recognized using a proportional cash flow method. Amortization expense for internally developed software is recognized over the estimated useful life of the asset. The useful lives of contract-based intangible assets are equal to the terms of the agreement.

*Interest expense, net.* Our interest expense consists of interest on our outstanding indebtedness under our 2023 Senior Secured Credit Facility, our Prior Senior Secured Credit Facility and Exchangeable Notes, and amortization of debt discount and issuance costs.

#### **How We Assess Our Business**

##### **Software and Services**

Our Software and Services segment delivers vertical market software solutions to customers across all of our strategic vertical markets. These solutions often include embedded payments or other recurring services.

##### **Merchant Services**

Our Merchant Services segment provides comprehensive payment solutions to businesses and organizations. Our Merchant Services segment includes third-party integrated payment solutions as well as traditional merchant processing services across our strategic vertical markets.

##### **Other**

Our Other category includes corporate overhead expenses, when presenting reportable segment information.

For additional information on our segments, see Note 14 to our condensed consolidated financial statements.

#### **Key Performance Indicators**

We evaluate our performance through key performance indicators, including:

- annualized recurring revenue ("ARR");
- software and related services as a percentage of total revenue;
- the dollar volume of payments our customers process through us ("payment volume"); and
- processing margin.

ARR is the annualized revenue derived from software-as-a-service ("SaaS") arrangements, transaction-based software-revenue, software maintenance, recurring software-based services, payments revenue and other recurring revenue sources within the quarter. This excludes contracts that are not recurring or are one-time in nature. We focus on ARR because it helps us to assess the health and trajectory of our business. ARR does not have a standardized definition and is therefore unlikely to be comparable to similarly titled measures presented by other companies. It should be reviewed independently of revenue and it is not a forecast. Additionally, ARR does not take into account seasonality. The active contracts at the end of a reporting period used in calculating ARR may or may not be extended or renewed by our customers. ARR for the three months ended **December 31, 2023** **March 31, 2024** and **2022** **2023** was **\$316.9 million** **\$322.5 million** and **\$290.2 million** **\$305.7 million**, respectively, representing a period-to-period growth rate of **9.2%** **5.5%**.

Software and related services revenue includes the sale of subscriptions, recurring services, ongoing support, licenses, and installation and implementation services specific to software. We focus on software and related services revenue as a percentage of total revenue because it is a strategic goal to expand the software services we provide our customers. Software and related services typically result in long-term partnerships with strong recurring revenues. Software and related services revenue as a percentage of total revenue for the three months ended **December 31, 2023** **March 31, 2024** and **2022** **2023** was **47.4%** **48.3%** and **47.8%** **50.4%**.

Our payment volume for the three months ended **December 31, 2023** **March 31, 2024** and **2022** **2023** was **\$6.2 billion** **\$6.3 billion** and **\$5.9 billion** **\$6.0 billion**, respectively, representing a period-to-period growth rate of **5.4%** **5.5%**. Our payment volume for the six months ended **March 31, 2024** and **2023** was **\$12.5 billion** and **\$11.9 billion**, respectively, representing a period-to-period growth rate of **5.5%**. We focus on payment volume because it is a reflection of the scale and economic activity of our customer base and because a significant part of our revenue is derived as a percentage of our customers' dollar volume receipts. Payment volume reflects the addition of new customers and same store payment volume growth of existing customers, partially offset by customer attrition during the period.

Processing margin is equal to revenue less other cost of services plus residuals expense, which is a component of other cost of services. We focus on processing margin because it represents the profitability of the operating segments, exclusive of sales efforts and overhead. Processing margin is a measure reported to our management for purposes

of assessing the operating performance of our business segments, and is presented in our financial statement footnotes in accordance with ASC 280. For additional information regarding processing margin, including the amount of our processing margin for our business segments for the three months ended **December 31, 2023** **March 31, 2024** and **2022**, **2023**, see Note 15 to our condensed consolidated financial statements.

#### Seasonality

We have experienced in the past, and may continue to experience, seasonal fluctuations in our revenues as a result of consumer and business spending patterns. Revenues during the first quarter of the calendar year, which is our second fiscal quarter, tend to decrease in comparison to the remaining three quarters of the calendar year on a same store basis. This decrease is due to the relatively higher number and amount of electronic payment transactions related to seasonal retail events, such as holiday and vacation spending in their second, third and fourth quarters of the calendar year. The number of business days in a month or quarter also may affect seasonal fluctuations. Revenue in our Education vertical fluctuates with the school calendar. Revenue for our Education customers is strongest in August, September, October, January and February, at the start of each semester, and generally weakens throughout the semester, with little revenue in the summer months of June and July. Operating expenses show less seasonal fluctuation, with the result that net income is subject to the same seasonal factors as our revenues. The growth in our business may have partially overshadowed seasonal trends to date, and seasonal impacts on our business may be more pronounced in the future.

#### Liquidity and Capital Resources

We have historically financed our operations and working capital through net cash from operating activities. As of December 31, 2023 March 31, 2024, we had \$4.2 million \$3.1 million of cash and cash equivalents and available borrowing capacity of \$184.5 million \$103.8 million under our 2023 Senior Secured Credit Facility, subject to the financial covenants. We usually minimize cash balances by making payments on our revolving line of credit to minimize borrowings and interest expense. As of December 31, 2023 March 31, 2024, we had borrowings outstanding of \$265.5 million \$346.2 million under the 2023 Senior Secured Credit Facility. For additional information about our 2023 Senior Secured Credit Facility, see the section entitled "— 2023 Senior Secured Credit Facility" below.

Our primary cash needs are to fund working capital requirements, invest in our technology infrastructure, fund acquisitions and related contingent consideration, make scheduled principal and interest payments on our outstanding indebtedness and pay tax distributions to members. We consistently have positive cash flow provided by operations and expect that our cash flow from operations, current cash and cash equivalents and available borrowing capacity under the 2023 Senior Secured Credit Facility will be sufficient to fund our operations and planned capital expenditures and to service our debt obligations for at least the next twelve months and foreseeable future. Our growth strategy includes acquisitions. We expect to fund acquisitions through a combination of net cash from operating activities, borrowings under our 2023 Senior Secured Credit Facility and through the issuance of equity and debt securities. As a holding company, we depend on distributions or loans from i3 Verticals, LLC to access funds earned by our operations. The covenants contained in the 2023 Senior Secured Credit Facility may restrict i3 Verticals, LLC's ability to provide funds to i3 Verticals, Inc.

Our liquidity profile reflects our completed offering in February 2020 of an aggregate principal amount of \$138.0 million in 1.0% Exchangeable Senior Notes due 2025, with substantially all the proceeds being used to pay down outstanding borrowings under our Prior Senior Secured Credit Facility. As of the date hereof, after giving effect to the repurchase of a portion \$90.8 million in aggregate principal amount of the 1.0% Exchangeable Senior Notes on January 18, 2024 as described herein, below as well as the repurchase of \$21.0 million in aggregate principal amount of Exchangeable Senior Notes in open market purchases in 2020, the aggregate principal amount outstanding of the Exchangeable Notes was that is currently outstanding is \$26.2 million. We may elect from time to time to purchase our outstanding debt in open market purchases, privately negotiated transactions or otherwise. Any such debt repurchases will depend upon prevailing market conditions, our liquidity requirements, contractual restrictions, applicable securities law and other factors.

Our 2023 Senior Secured Credit Facility, as amended, requires us to maintain a consolidated interest coverage ratio not less than 3.0 to 1.0 and total leverage ratio not exceeding 5.0 to 1.0. As of December 31, 2023 March 31, 2024, we were in compliance with these covenants with a consolidated interest coverage ratio and total leverage ratio of 4.40x 4.1x and 3.60x 3.5x, respectively. Although we believe our liquidity position remains strong, there can be no assurance that we will be able to raise additional funds, in the form of debt or equity, or to amend our 2023 Senior Secured Credit Facility on terms acceptable to us, if at all, even if we determined such actions were necessary in the future.

#### Cash Flows

The following table presents a summary of cash flows from operating, investing and financing activities for the following comparative periods.

##### Three Six Months Ended December 31, 2023 March 31, 2024 and 2022 2023

	Three months ended December 31,	
	2023	2022
	Six months ended March 31,	
	2024	2023
Net cash provided by operating activities		(in thousands)
Net cash used in investing activities		
Net cash (used in) provided by financing activities		

#### Cash Flow from Operating Activities

Net cash provided by operating activities decreased \$5.1 million \$0.7 million to \$13.1 million \$25.1 million for the three six months ended December 31, 2023 March 31, 2024 from \$18.2 million \$25.9 million for the three six months ended December 31, 2022 March 31, 2023. Our net income increased from a net income loss of \$0.2 million \$23 thousand for the three six months ended December 31, 2022 March 31, 2023 to net income of \$1.5 million \$4.9 million for the three six months ended December 31, 2023 March 31, 2024. Some of this increase in net income was driven by non-cash income and reductions in non-cash expenses that do not impact cash flows from operating activities. The primary drivers of the decrease in cash provided by operating activities, despite the increase in net income, were a decrease in non-cash contingent consideration of \$4.2 million for the six months

ended March 31, 2024 compared to the six months ended March 31, 2023; an increase in changes in net operating assets and liabilities of **\$5.6 million** **\$1.4 million**, which are impacted by the timing of collections and payments, for the **three six** months ended **December 31, 2023** **March 31, 2024** compared to the **three six** months ended **December 31, 2022**, **March 31, 2023**; a gain on the repurchase of exchangeable notes of \$2.4 million in the six months ended March 31, 2024; and a decrease in non-cash contingent consideration equity-based compensation expense of **\$1.7 million** **\$1.4 million** for the six months ended March 31, 2024 compared to the six months ended March 31, 2023. These changes were partially offset by an increase in depreciation and amortization of **\$1.1 million** **\$2.1 million** for the **three six** months ended **December 31, 2023** **March 31, 2024** compared to the **three six** months ended **December 31, 2022** **March 31, 2023**.

#### **Cash Flow from Investing Activities**

Net cash used in investing activities decreased **\$87.4 million** **\$98.8 million** to **\$7.2 million** **\$12.4 million** for the **three six** months ended **December 31, 2023** **March 31, 2024** from **\$94.5 million** **\$111.1 million** for the **three six** months ended **December 31, 2022** **March 31, 2023**. The largest driver of the decrease in cash used in investing activities was a decrease of **\$88.4 million** **\$100.9 million** in cash used in acquisitions, net of cash acquired, during the **three six** months ended **December 31, 2023** from **March 31, 2024** compared to the **three six** months ended **December 31, 2022** **March 31, 2023**. This change was partially offset by an increase of **\$2.6 million** **\$3.8 million** in purchases of merchant portfolios and residual buyouts during the **three six** months ended **December 31, 2023** **March 31, 2024** compared to the **three six** months ended **December 31, 2022** **March 31, 2023**.

#### **Cash Flow from Financing Activities**

Net cash flow from financing activities changed **\$84.1 million** **\$101.7 million** to **\$7.2 million** **\$17.9 million** net cash used in financing activities for the **three six** months ended **December 31, 2023** **March 31, 2024** from **\$76.9 million** **\$83.8 million** net cash provided by financing activities for the **three six** months ended **December 31, 2022** **March 31, 2023**. The change in net cash flow from financing activities was primarily related to the **\$87.2 million** payments for the repurchases of exchangeable notes and warrants, offset by the proceeds from the sale of the exchangeable senior note hedges. The remaining factors were the result of a decrease in proceeds from the revolving credit facility of **\$92.3 million** **\$59.4 million**, partially offset by a decrease in payments on the revolving credit facility of **\$7.4 million** and a decrease in cash paid for contingent consideration of **\$1.0 million** for **\$47.2 million** during the **three six** months ended **December 31, 2023** from **March 31, 2024** compared to the **three six** months ended **December 31, 2022** **March 31, 2023**.

The 2023 Senior Secured Credit Facility replaces the Prior Senior Secured Credit Facility (as defined below). Facility. The 2023 Senior Secured Credit Facility provides for aggregate commitments of \$450 million in the form of a senior secured revolving credit facility (the "Revolver").

The 2023 Senior Secured Credit Facility provides that the Borrower has the right to seek additional commitments to provide additional term loan facilities or additional revolving credit commitments in an aggregate principal amount up to, as of any date of determination, the sum of (i) the greater of \$100 million and 100% of the Borrower's consolidated EBITDA (as defined in the 2023 Senior Secured Credit Facility) for the most recently completed four quarter period, plus (ii) the amount of certain prepayments of certain indebtedness, so long as, among other things, after giving pro forma effect to the incurrence of such additional borrowings and any related transactions, the Borrower's consolidated interest coverage ratio (as defined in the 2023 Senior Secured Credit Facility) would not be less than 3.0 to 1.0 and the Borrower's consolidated total net leverage ratio (as defined in the 2023 Senior Secured Credit Facility) would not exceed 5.0 to 1.0. As of **December 31, 2023** **March 31, 2024**, the Borrower's consolidated interest coverage ratio was **4.40x** **4.1x** and total leverage ratio was **3.60x** **3.5x**.

The provision of any such additional amounts under the additional term loan facilities or additional revolving credit commitments are subject to certain additional conditions and the receipt of certain additional commitments by existing or additional lenders. The lenders under the 2023 Senior Secured Credit Facility are not under any obligation to provide any such additional term loan facilities or revolving credit commitments.

The proceeds of the Revolver, together with proceeds from any additional amounts under the additional term loan facilities or additional revolving credit commitments, may only be used by the Borrower to (i) finance working capital, capital expenditures and other lawful corporate purposes, (ii) finance permitted acquisitions (as defined in the 2023 Senior Secured Credit Facility) and (iii) to refinance certain existing indebtedness.

Borrowings under the Revolver will be made, at the Borrower's option, at the Adjusted Term SOFR rate or the base rate, plus, in each case, an applicable margin.

The Adjusted Term SOFR rate will be the rate of interest per annum equal to the Term SOFR rate (based upon an interest period of one, three or six months), plus 0.10%; plus an applicable margin of 2.00% to 3.00% (3.00% at **December 31, 2023** **March 31, 2024**). The Adjusted Term SOFR rate shall not be less than 0% in any event.

The base rate is a fluctuating rate of interest per annum equal to the highest of (a) the greater of the federal funds rate or the overnight bank funding rate, plus ½ of 1%, (b) Wall Street Journal prime rate and (c) the Adjusted Term SOFR rate for an interest period of one month, plus 1%; plus an applicable margin of 1.00% to 2.00% (2.00% at **December 31, 2023** **March 31, 2024**). The base rate shall not be less than 1% in any event.

The applicable margin is based upon the Borrower's consolidated total net leverage ratio (as defined in the 2023 Senior Secured Credit Facility), as reflected in the schedule below:

<b>Consolidated Total Net Leverage Ratio</b>	<b>Commitment Fee</b>	<b>Letter of Credit Fee</b>	<b>Term Benchmark Loans</b>	<b>Base Rate Loans</b>
> 3.0 to 1.0	0.30 %	3.00 %	3.00 %	2.00 %
> 2.5 to 1.0 but < 3.0 to 1.0	0.25 %	2.50 %	2.50 %	1.50 %
> 2.0 to 1.0 but < 2.5 to 1.0	0.20 %	2.25 %	2.25 %	1.25 %
< 2.0 to 1.0	0.15 %	2.00 %	2.00 %	1.00 %

In addition to paying interest on outstanding principal under the Revolver, the Borrower will be required to pay a commitment fee equal to the product of between 0.15% and 0.30% (the applicable percentage depending on the Borrower's consolidated total net leverage ratio as reflected in the schedule above, 0.30% at **December 31, 2023** **March 31, 2024**,

2024) times the actual daily amount by which \$450 million exceeds the total amount outstanding under the Revolver and available to be drawn under all outstanding letters of credit.

The Borrower will be permitted to voluntarily reduce the unutilized portion of the commitment amount and repay outstanding loans under the 2023 Senior Secured Credit Facility, whether such amounts are issued under the Revolver or under the additional term loan facilities or additional revolving credit facilities, at any time without premium or penalty.

In addition, if the total amount borrowed under the Revolver exceeds \$450 million at any time, the 2023 Senior Secured Credit Facility requires the Borrower to prepay such excess outstanding amounts.

All obligations under the 2023 Senior Secured Credit Facility are unconditionally guaranteed by the Company, and each of the Company's existing and future direct and indirect material, wholly owned domestic subsidiaries, subject to certain exceptions. The obligations are secured by first-priority security interests in substantially all tangible and intangible assets of the Borrower, the Company and each subsidiary guarantor, in each case whether owned on the date of the initial borrowings or thereafter acquired.

The 2023 Senior Secured Credit Facility places certain restrictions on the ability of the Borrower, the Company and their subsidiaries to, among other things, incur debt and liens; merge, consolidate or liquidate; dispose of assets; enter into hedging arrangements; make certain restricted payments; undertake transactions with affiliates; enter into sale-leaseback transactions; make certain investments; prepay or modify the terms of certain indebtedness; and modify the terms of certain organizational agreements.

The 2023 Senior Secured Credit Facility contains customary events of default, including payment defaults, breaches of representations and warranties, covenant defaults, cross-defaults to other material indebtedness, certain events of bankruptcy and insolvency, material judgments, certain events with respect to employee benefit plans, invalidity of loan documents and certain changes in control.

#### **Exchangeable Notes**

On February 18, 2020, i3 Verticals, LLC issued \$138.0 million aggregate principal amount of its 1.0% Exchangeable Notes due February 15, 2025. The Exchangeable Notes bear interest at a fixed rate of 1.0% per year, payable semiannually in arrears on February 15 and August 15 of each year, beginning on August 15, 2020. The Exchangeable Notes are exchangeable into cash, shares of the Company's Class A common stock, or a combination thereof, at i3 Verticals, LLC's election. The Exchangeable Notes mature on February 15, 2025, unless earlier exchanged, redeemed or repurchased. The net proceeds from the sale of the Exchangeable Notes were approximately \$132.8 million, after deducting discounts and commissions to the certain initial purchasers and other estimated fees and expenses. i3 Verticals, LLC used a portion of the net proceeds of the Exchangeable Notes offering to pay down outstanding borrowings under the Prior Senior Secured Credit Facility in connection with the effectiveness of the operative provisions of the amendment to the Prior Senior Secured Credit Facility and to pay the cost of the Note Hedge Transactions. As of **December 31, 2023** **March 31, 2024**, **\$117.0 million** **\$26.2 million** of the original aggregate principal amount of \$138.0 million was outstanding.

On December 21, 2023, i3 Verticals, LLC entered into agreements to repurchase a portion of its Exchangeable Notes pursuant to privately negotiated transactions with a limited number of holders of the Exchangeable Notes (the "Exchangeable Note Repurchases"). The Exchangeable Note Repurchases were completed on January 18, 2024, and the **purchase price Company paid by the Company \$87.4 million to such holders for the repurchase \$90.8 million in aggregate principal amount of its Exchangeable Notes and to repay approximately \$0.4 million in connection with accrued interest on the repurchased portion of the Exchangeable Note Repurchases on such closing date was approximately \$87.0 million.** Notes. Following the closing of the Exchangeable Note Repurchases, approximately \$26.2 million in aggregate principal amount of the Exchangeable Notes remained outstanding, with terms unchanged. For additional information, see **Notes Note 7 and 18** to our condensed consolidated financial statements.

#### **At-the-Market Program**

On August 20, 2021, we, together with i3 Verticals, LLC, entered into an at-the-market offering sales agreement with Raymond James & Associates, Inc., Morgan Stanley & Co. LLC and BTIG, LLC (each a "Sales Agent"), under which we may issue and sell, from time to time and through the Sales Agents, shares of our Class A common stock having an aggregate offering price of up to \$125.0 million (the "ATM Program"). During the quarter ended **December 31, 2023** **March 31, 2024**, we did not sell any Class A common stock under the ATM Program. As of **December 31, 2023** **March 31, 2024**, we had a remaining capacity to sell up to \$107.1 million of our Class A common stock under the ATM Program.

1. We have non-exclusive agreements with several processors to provide us services related to transaction processing and transmittal, transaction authorization and data capture, and access to various reporting tools. Certain of these agreements require us to submit a minimum monthly number of transactions for processing. If we submit a number of transactions that is lower than the minimum, we are required to pay to the processor the fees it would have received if we had submitted the required minimum number of transactions.
2. We estimated interest payments through the maturity of our 2023 Senior Secured Credit Facility by applying the interest rate of ~~8.59%~~ 8.55% in effect on the outstanding balance as of ~~December 31, 2023~~ March 31, 2024, plus the unused fee rate of 0.30% in effect as of ~~December 31, 2023~~ March 31, 2024.
3. The chart set forth above ~~includes \$87.4 million of principal and accrued interest related to the Exchangeable Note Repurchases in payments due in less than one year, which represents the amount paid by the Company on January 18, 2024, to repurchase \$90.8 million in aggregate principal amount of its Exchangeable Notes and to repay approximately \$0.4 million in accrued interest on the repurchased portion of the Exchangeable Notes as described above. We calculated calculates interest payments through the maturity of the remaining balance of our Exchangeable Notes by applying the coupon interest rate of 1.0% on the principal balance less balance of Exchangeable Note Repurchases as of December 31, 2023~~ March 31, 2024 of \$26.2 million.
4. In connection with certain of our acquisitions, we may be obligated to pay the seller of the acquired entity certain amounts of contingent consideration as set forth in the relevant purchasing documents, whereby additional consideration may be due upon the achievement of certain specified financial performance targets. i3 Verticals, Inc. accounts for the fair values of such contingent payments in accordance with the Level 3 financial instrument fair value hierarchy at the close of each subsequent reporting period. The acquisition-date fair value of contingent consideration is valued using a Monte Carlo simulation. i3 Verticals, Inc. subsequently reassesses such fair value based on probability estimates with respect to the acquired entity's likelihood of achieving the respective financial performance targets.

Potential payments under the Tax Receivable Agreement are not reflected in this table. See "—Tax Receivable Agreement" below.

**Tax Receivable Agreement**

We are a party to a Tax Receivable Agreement with i3 Verticals, LLC and each of the Continuing Equity Owners, as described in Note 8 of our condensed consolidated financial statements. As a result of the Tax Receivable Agreement, we have been required to establish a liability in our condensed consolidated financial statements. That liability, which will increase upon the redemptions or exchanges of Common Units for our Class A common stock, generally represents 85% of the estimated future tax benefits, if any, relating to the increase in tax basis associated with the Common Units we received as a result of the Reorganization Transactions and other redemptions or exchanges by holders of Common Units. If this election is made, the accelerated payment will be based on the present value of 100% of the estimated future tax benefits and, as a result, the associated liability reported on our condensed consolidated financial statements may be increased. We expect that the payments required under the Tax Receivable Agreement will be substantial. The actual increase in tax basis, as well as the amount and timing of any payments under the Tax Receivable Agreement, will vary depending upon a number of factors, including the timing of redemptions or exchanges by the holders of Common Units, the price of our Class A common stock at the time of the redemption or exchange, whether such redemptions or exchanges are taxable, the amount and timing of the taxable income we generate in the future and the tax rate then applicable as well as the portion of our payments under the Tax Receivable Agreement constituting imputed interest. We intend to fund the payment of the amounts due under the Tax Receivable Agreement out of the cash savings that we actually realize in respect of the attributes to which Tax Receivable Agreement relates.

As of ~~December 31, 2023~~ March 31, 2024, the total amount due under the Tax Receivable Agreement was ~~\$40.1 million~~ \$40.3 million, and payments to the Continuing Equity Owners related to exchanges through ~~December 31, 2023~~ March 31, 2024 will range from \$0 to ~~\$3.2 million~~ \$3.3 million per year and are expected to be paid over the next ~~23~~ 24 years. The amounts recorded as of ~~December 31, 2023~~ March 31, 2024, approximate the current estimate of expected tax savings and are subject to change after the filing of the Company's U.S. federal and state income tax returns. Future payments under the Tax Receivable Agreement with respect to subsequent exchanges would be in addition to these amounts.

**Critical Accounting Estimates**

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, goodwill and intangible assets, contingent consideration, and equity-based compensation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that we consider the most critical to understanding our financial condition and results of operations.

As of ~~December 31, 2023~~ March 31, 2024, there have been no significant changes to our critical accounting estimates disclosed in the Form 10-K filed with the SEC on November 22, 2023.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

**Interest Rate Risk**

As of ~~December 31, 2023~~ March 31, 2024, the 2023 Senior Secured Credit Facility, as amended, consisted of a \$450 million revolving credit facility, together with an option to increase the revolving credit facility and/or obtain incremental term loans in an additional principal amount of up, as of any date of determination, the greater of \$100 million and 100% of consolidated EBITDA (as defined in the 2023 Senior Secured Credit Facility) for the most recently completed four quarter period (subject to the receipt of additional commitments for any such incremental loan amounts).

As of ~~December 31, 2023~~ March 31, 2024, the 2023 Senior Secured Credit Facility accrued interest at Term SOFR (based upon an interest period of one, three or six months), plus 0.10%, plus an applicable margin of 2.00% to 3.00% (3.00% at ~~December 31, 2023~~ March 31, 2024), or the base rate (defined as the highest of (a) the greater of the federal funds rate or the overnight bank funding rate, plus 1/2 of 1%, (b) Wall Street Journal prime rate and (c) the Adjusted Term SOFR rate for an interest period of one month, plus 1%, plus an applicable margin of 1.00% to 2.00%) (2.00% at ~~December 31, 2023~~ March 31, 2024), in each case depending upon the consolidated total leverage ratio, as defined in the

agreement. Interest is payable at the end of the selected interest period, but no less frequently than quarterly. Additionally, the 2023 Senior Secured Credit Facility requires us to pay unused commitment fees of 0.15% to 0.30% (0.30% as of **December 31, 2023** **March 31, 2024**) on any undrawn amounts under the revolving credit facility and letter of credit fees of up to 3.00% on the maximum amount available to be drawn under each letter of credit issued under the agreement. The 2023 Senior Secured Credit Facility requires maintenance of certain financial ratios on a quarterly basis as follows: (i) a minimum consolidated interest coverage ratio of 3.0 to 1.0 (ii) a maximum total leverage ratio of 5.0 to 1.0.

As of **December 31, 2023** **March 31, 2024**, we were in compliance with these covenants, and there was **\$184.5 million** **\$103.8 million** available for borrowing under the revolving credit facility, subject to the financial covenants.

As of **December 31, 2023** **March 31, 2024**, we had borrowings outstanding of **\$265.5 million** **\$346.2 million** outstanding under the 2023 Senior Secured Credit Facility. A 1.0% increase or decrease in the interest rate applicable to such borrowing (which was the Term SOFR rate) would have had a **\$2.7 million** **\$3.5 million** dollar impact on the results of the business.

#### **Foreign Currency Exchange Rate Risk**

As a result of our international operations, we are also exposed to foreign currency exchange rate risks. Because our international operations are not yet material to our consolidated results of operations, a 10% change in foreign currency exchange rates would not have had a material impact on our consolidated results of operations, financial position, or cash flows for the three months ended **December 31, 2023** **March 31, 2024**.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

Our Chief Executive Officer and Chief Financial Officer, with the participation of other members of management, have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Based on such evaluations, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective (at the reasonable assurance level) to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act has been recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and to ensure that the information required to be included in this report was accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

#### **Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting during the quarter ended **December 31, 2023** **March 31, 2024** that materially affected, or which are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II. - OTHER INFORMATION**

### **Item 1. Legal Proceedings**

The information required with respect to this item can be found in Note 12 to the accompanying unaudited condensed consolidated financial statements contained in this report and is incorporated by reference into this Part II, Item 1.

### **Item 1A. Risk Factors**

There have been no material changes to the risk factors disclosed under the heading "Risk Factors" in our Form 10-K for the fiscal year ended September 30, 2023 filed with the SEC on November 22, 2023, except as described below.

***We are exploring a potential sale of certain assets related to our Merchant Services business, and there can be no assurance that we will be successful in completing any potential sale, that a potential sale will yield additional value for our stockholders, or that exploration of a potential sale will not adversely impact the Company.***

On February 8, 2024, we announced that our Board of Directors had initiated a process to explore a potential sale of certain assets related to our Merchant Services business. **This process is ongoing.** There is no assurance that the process to explore the sale of the Merchant Services business will result in any definitive agreement or any transaction, or if the transaction is completed, the timing or terms of any such transaction. Moreover, there can be no assurance that any potential transaction, if identified, evaluated and consummated, will provide additional value to our stockholders and will not adversely impact the market price of our Class A common stock.

Speculation regarding any developments related to the review of a potential sale of our Merchant Services business and perceived uncertainties related to the future of the Company could cause the market price of our Class A common stock to fluctuate significantly or to decline. In addition, there can be no assurance that exploring a potential sale of our Merchant Services business will not cause the diversion of management's attention, interfere with our ability to retain or attract key personnel, adversely impact important business relationships,

adversely impact our financial results, or expose us to potential litigation. In addition, we **have incurred, and may continue to incur**, significant transaction expenses in connection with this process. If we are unable to mitigate these or other potential risks related to the exploration of a potential sale, our business and financial results may be adversely affected.

Further, our Board of Directors may determine to suspend or terminate the exploration of a potential sale of our Merchant Services business at any time due to various factors. Any potential transaction is also dependent upon a number of factors that may be beyond our control, including among other factors, market conditions, industry trends, regulatory limitations and the interest of third parties in our business.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

None. Without limiting the generality of the foregoing, during the **three** **six** months ended **December 31, 2023** **March 31, 2024**, no director or officer of the Company adopted or terminated any "Rule 10b5-1 trading arrangement," or any "non-Rule 10b-5 trading arrangement," as such terms are defined in Item 408(a) of Regulation S-K.
