 1.Prior to November 18, 2024, the date of each entity's dissolution. 2.GCIC CLO II Depositor LLC ("GCIC 2018 CLO Depositor") was renamed to Golub Capital BDC CLO 8 Depositor LLC ("BDC CLO 8 Depositor") effective November 18, 2024. 3.GCIC CLO II LLC ("GCIC 2018 Issuer") was renamed to Golub Capital BDC CLO 8 LLC ("2024 Issuer") effective November 18, 2024. Assets related to transactions that do not meet ASC Topic 860 requirements for accounting sale treatment are reflected in the Company's Consolidated Statements of Financial Condition as investments. Those assets are owned by special purpose entities, including BDC Holdings, Funding II, GCIC Holdings, GBDC 3 Holdings, GBDC 3 Funding, GBDC 3 2022 Issuer, GBDC 3 2022-2 Issuer, 2024 Issuer and, prior to November 18, 2024, GCIC 2018 Issuer, 2018 Issuer and GBDC 3 2021 Issuer, that are consolidated in the Company's consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of GBDC (or any affiliate of GBDC). Cash and cash equivalents and foreign currencies: Cash and cash equivalents and foreign currencies are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances exceed the Federal Deposit Insurance Corporation insurance limits. Restricted cash and cash equivalents and restricted foreign currencies: Restricted cash and cash equivalents and restricted foreign currencies include amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash and cash equivalents and restricted foreign currencies are held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets. Foreign currency translation: The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars. Non-U.S. dollar transactions during the period are valued at the prevailing spot rates on the applicable transaction date and the related assets and liabilities are revalued at the prevailing spot rates as of period-end. Net assets and fair values are presented based on the applicable foreign exchange rates and fluctuations arising from the translation of assets and liabilities are included with the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations. Foreign security and currency transactions involve certain considerations and risks not typically associated with investing in U.S. companies. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities. Derivative Instruments: The Company follows the guidance in ASC Topic 815, Derivatives and Hedging ("ASC Topic 815"), when accounting for derivative instruments. Forward currency contracts: A forward currency contract is an obligation between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Company utilized forward currency contracts to economically hedge the currency exposure associated with certain foreign-denominated investments. The use of forward currency contracts does not eliminate fluctuations in the price of the underlying securities the Company owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the exchange rates on the contract date and reporting date and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized gains (losses) and unrealized appreciation (depreciation) on the contracts are included in the Consolidated Statements of Operations. Unrealized appreciation (depreciation) on forward currency contracts is recorded on the Consolidated Statements of Financial Condition by counterparty on a net basis, not taking into account collateral posted which is recorded separately, if applicable. The primary risks associated with forward currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks can exceed the amounts reflected in the Consolidated Statements of Financial Condition. Refer to Note 5 for more information regarding the forward currency contracts. Interest rate swaps: The Company designated interest rate swaps as the hedging instrument in qualifying fair value hedge accounting relationships, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in interest expense and recognized as components of "interest expense" in the Company's Consolidated Statement of Operations. The fair value of the interest rate swaps is included as a component of "Net unrealized appreciation on derivatives" and "Net unrealized depreciation on derivatives" on the Company's Consolidated Statements of Financial Condition. Refer to Note 5 for more information regarding the interest rate swaps. Revenue recognition: Investments and related investment income: Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments. Original issue discount, market discount or premium and certain loan origination or amendment fees that are deemed to be an adjustment to yield ("Loan Origination Fees") are capitalized and the Company accretes or amortizes such amounts over the life of the loan as interest income ("Discount Amortization"). For the three months ended December 31, 2024 and 2023, the Company received Loan Origination Fees that were capitalized of $12,759 and $2,078, respectively. For the three months ended December 31, 2024 and 2023, interest income included $6,255 and $5,301, respectively, of Discount Amortization. For investments with contractual payment-in-kind ("PIK") interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. For the three months ended December 31, 2024 and 2023, investment income included $11,016 and $11,799, respectively, of PIK interest and the Company capitalized PIK interest of $13,211 and $13,715, respectively, into the principal balance of certain debt investments. In addition, the Company generates revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees, administrative agent fees, and prepayment premiums on loans. The Company records these fees that are not deemed to be an adjustment to yield as fee income when earned. For the three months ended December 31, 2024 and 2023, fee income included $94 and $35 from non-recurring prepayment premiums, respectively. Other income is recorded into income when earned. For the three months ended December 31, 2024 and 2023, the Company received interest and fee income in cash, which excludes capitalized loan origination fees, in the amounts of $201,367 and $140,401, respectively. Dividend income on equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. The Company has certain preferred equity securities in the portfolio that contain a PIK dividend provision that are accrued and recorded as income at the contractual rates, if deemed collectible. The accrued PIK and non-cash dividends are capitalized to the cost basis of the preferred equity security and are generally collected when redeemed by the issuer. For the three months ended December 31, 2024 and 2023, the Company recognized PIK and non-cash dividend income of $7,264 and $4,251, respectively, which were capitalized into the cost basis of certain preferred equity investments. For the three months ended December 31, 2024 the Company received $1,824 of cash payments of accrued and capitalized preferred dividends. For the three months ended December 31, 2023, the Company received no cash payments of accrued and capitalized preferred dividends. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Each distribution received from limited liability company ("LLC") and limited partnership ("LP") investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment. For the three months ended December 31, 2024 and 2023, the Company recorded dividend income received in cash of $1,223 and $124, respectively, and return of capital distributions received in cash of $235 and $693, respectively. Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the amortized cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investment transactions in the Consolidated Statements of Operations. Non-accrual investments: A loan can be left on accrual status while the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status. When a loan is placed on non-accrual status, unpaid interest credited to income is reversed. Additionally, any capitalized Loan Origination Fees are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans are recognized as income or applied to principal depending upon management's judgment. Non-

accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, payments are likely to remain current. The total fair value of non-accrual loans was $43,353 and $93,204 as of December 31, 2024 and September 30, 2024, respectively.
Management reviews all preferred equity securities accruing contractual PIK dividend income to determine if there is reasonable doubt that amortized cost or capitalized PIK and non-cash dividend income will be collected for possible placement on non-accrual status. When a preferred equity security is placed on non-accrual status, the contractual PIK dividend provision is no longer accrued to dividend income as of the date the preferred equity security is placed on non-accrual status. The total fair value of non-accrual preferred equity securities was $714 as of December 31, 2024. There were no preferred equity securities on non-accrual status as of September 30, 2024. Asset Acquisition: Pursuant to the GCIC Merger Agreement, the GCIC Merger Sub was first merged with and into GCIC, with GCIC as the surviving company (the "Initial GCIC Merger"), and, immediately following the Initial GCIC Merger, GCIC was then merged with and into the Company, with the Company as the surviving company (the Initial GCIC Merger and the subsequent merger, collectively, the "GCIC Merger"). Pursuant to the GBDC 3 Merger Agreement, the GBDC 3 Merger Sub was first merged with and into GBDC 3, with GBDC 3 as the surviving company in the Initial GBDC 3 Merger and, immediately following the Initial GBDC 3 Merger, GBDC 3 was then merged with and into the Company, with the Company as the surviving company. The GCIC Merger and the GBDC 3 Merger were accounted for under the asset acquisition method of accounting in accordance with ASC 805 — Business Combinations — Related Issues ("ASC Topic 805"), also referred to as "asset acquisition." Under the asset acquisition method of accounting, acquiring assets in groups not only requires ascertaining the cost of the asset (or net assets), but also allocating that cost to the individual assets (or individual assets and liabilities) that make up the group. Per ASC Topic 805, assets are recognized based on their cost to the acquiring entity, which generally includes transaction costs of the asset acquisition, and no gain or loss is recognized unless the fair value of non-cash assets given as consideration differs from the assets carrying amounts on the acquiring entity's books. The cost of the group of assets acquired in an asset acquisition is allocated to the individual assets acquired or liabilities assumed based on the relative fair values of net identifiable assets acquired other than "non-qualifying" assets (for example cash) and does not give rise to goodwill. To the extent that the consideration paid to GCIC or GBDC 3's stockholders exceeded the relative fair values of the net identifiable assets of GCIC or GBDC 3 acquired other than "non-qualifying" assets, any such premium paid by the Company was further allocated to the cost of the GCIC or GBDC 3 assets acquired by the Company pro-rata to their relative fair value, other than "non-qualifying" assets. As both GCIC and GBDC 3 did not have any "qualifying" assets at the time of acquisition, the premium was allocated to "non-qualifying" assets, which are GCIC and GBDC 3's investments in loans and equity securities, including its investment in GCIC SLF. Immediately following the acquisitions of GCIC and GBDC 3, the Company recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC and GBDC 3 assets acquired were immediately recognized as unrealized depreciation on the Company's Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income, with a corresponding reversal of the unrealized depreciation on the loans acquired from GCIC and GBDC 3 through their ultimate disposition. Amortization expense of purchase premium for the three months ended December 31, 2024 and 2023 was $5,686 and $1,628, respectively. The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the equity securities acquired from GCIC or GBDC 3 and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the equity securities acquired from GCIC or GBDC 3. Income taxes.   The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify and be subject to tax as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute dividends for U.S. federal income tax purposes to its stockholders of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company has made, and intends to continue to make, the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders. Depending on the level of taxable income earned in a tax year, the Company can determine to retain taxable income in excess of current year dividend distributions and distribute such taxable income in the next tax year. The Company could then be required to incur a 4% excise tax on such income. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended December 31, 2024, the Company recorded a reversal of the accrual for U.S. federal excise tax expense of $475. For the three months ended December 31, 2023, the Company recorded $500 for U.S. federal excise tax expense. The Company accounts for income taxes in conformity with ASC Topic 740 — Income Taxes ("ASC Topic 740"). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or tax benefit in the current year. It is the Company's policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions through December 31, 2024. The Company's tax returns for the 2021 through 2023 tax years remain subject to examination by U.S. federal and most state tax authorities. Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes. Income tax expense, if any, is included under the income category for which it applies in the Consolidated Statements of Operations. For the three months ended December 31, 2024 and 2023, the Company did not record any U.S. income taxes. Dividends and distributions: Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company can retain such capital gains for investment in its discretion. The Company has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes and the Company declares a cash distribution, then stockholders who participate in the DRIP will have their cash distribution reinvested in additional shares of the Company's common stock, rather than receiving the cash distribution. The Company expects to use newly issued shares under the guidelines of the DRIP if the Company's shares are trading at a premium to net asset value. The Company can purchase shares in the open market in connection with the obligations under the plan, and in particular, if the Company's shares are trading at a significant discount to net asset value ("NAV") and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under the DRIP. In the event the market price per share of the Company's common stock on the date of a distribution exceeds the most recently computed NAV per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed NAV per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed NAV per share of common stock). Share repurchase plan: The Company has a share repurchase program (the "Program") which allows the Company to repurchase the Company's outstanding common stock on the open market at prices below the Company's NAV as reported in its most recently published consolidated financial statements. The Board reapproved the Program in August 2024 and the Program is implemented at the discretion of management. Shares can be purchased from time to time at prevailing market prices, through open market transactions, including block transactions. The Program permits repurchases up to $150,000 of the Company's common stock. Refer to Note 11 for more information on the share repurchases under the Program. Equity Distribution Agreement: On October 6, 2023, the Company entered into a new equity distribution agreement (the "2023 Equity Distribution Agreement"), by and among the Company, the Investment Adviser, Golub Capital LLC and Keefe, Bruyette & Woods, Inc. and Regions Securities LLC (the "Placement Agents"), in connection with the sale by the Company of shares of its common stock, having an aggregate offering price of up to $250,000, in an "at the market offering," in amounts and at times to be determined by the Company. Actual sales, if any, will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions and the market price of the Company's common stock. The 2023 Equity Distribution Agreement provides that the Company could offer and sell shares from time to time through, or to, the Placement Agents, or to it. Sales of the shares, if any, could be made in negotiated transactions or transactions that are deemed to be "at the market," as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on The Nasdaq Global Select Market or any similar securities exchange or sales made to or through a market maker other than on a securities exchange, at prices related to the prevailing market prices or at negotiated prices. Pursuant to the terms of the 2023 Equity Distribution Agreement, the Placement Agents will receive a commission from the Company of up to 1.50% of the gross sales price of any shares sold through the Placement Agents under the 2023 Equity Distribution Agreement. Offering costs for the 2023 Equity Distribution Agreement are charged against the proceeds from equity offerings when proceeds are received. On December 4, 2024, the Company entered into the first amendment to the 2023 Equity Distribution Agreement, to modify certain settlement mechanics and to clarify the periods under which the Company can request the Placement Agents to sell shares. The other material terms of the 2023 Equity Distribution Agreement were unchanged. During the three months ended December 31, 2023, the Company terminated the equity distribution agreement entered into on May 28, 2021 by and among the Company, the Investment Adviser, Golub Capital LLC and SMBC Nikko Securities America, Inc. (the "2021 Equity Distribution Agreement"). During the three months ended December 31, 2024 and 2023, the Company did not issue any shares of common stock under the 2021 or 2023 Equity Distribution Agreements. Deferred debt issuance costs: Deferred debt issuance costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. As of December 31, 2024 and September 30, 2024, the Company had deferred debt issuance costs of $28,694 and $25,361, respectively. These amounts are amortized and included in interest expense in the Consolidated Statements of Operations over the estimated average life of the borrowings. Amortization expense for deferred debt issuance costs for the three months ended December 31, 2024 and 2023 was $2,645 and $2,109, respectively. Deferred offering costs: Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of equity offerings. Deferred offering costs are charged against the proceeds from equity offerings when received. These amounts are included in other assets on the Consolidated Statements of Financial Condition. Recent Accounting Updates: In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. ASU No. 2023-07 enhances the disclosures required for reportable segments on an annual and interim basis. ASU No. 2023-07 is effective on a retrospective basis for annual periods beginning after December 15, 2023, for interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2023-07. In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. ASU No. 2023-09 requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU No. 2023-09 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2023-09.The Company is an investment company as defined in the accounting and reporting guidance under Accounting Standards Codification ("ASC") Topic 946 — Financial Services — Investment Companies ("ASC Topic 946"). The accompanying unaudited interim consolidated financial statements of the Company and related financial information have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") as established by the Financial Accounting Standards Board ("FASB") for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6, 10 and 12 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the current period presentation. The unaudited interim consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto in the Company's Form 10-K for the year ended September 30, 2024, as filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company applies fair value to all of its financial instruments in accordance with ASC Topic 820 — Fair Value Measurement ("ASC Topic 820"). ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. On August 2, 2024, the Company's board of directors (the "Board") designated the Investment Adviser as the Company's valuation designee ("Valuation Designee") in accordance with Rule 2a-5 under the 1940 Act. As of such date, the Valuation Designee is responsible for determining the fair value of the Company's portfolio investments, subject to oversight of the Board. In accordance with ASC Topic 820, the Valuation Designee has categorized the Company's financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Investment Adviser's own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date. The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Valuation Designee in determining fair value is greatest for financial instruments classified as Level 3. Any changes to the valuation methodology are reviewed by management and the Board to confirm that the changes are appropriate. As markets change, new products

develop and the pricing for products becomes more or less transparent, the Valuation Designee will continue to refine its valuation methodologies.The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Assets related to transactions that do not meet ASC Topic 860 requirements for accounting sale treatment are reflected in the Company's Consolidated Statements of Financial Condition as investments. Those assets are owned by special purpose entities, including BDC Holdings, Funding II, GCIC Holdings, GBDC 3 Holdings, GBDC 3 Funding, GBDC 3 2022 Issuer, GBDC 3 2022-2 Issuer, 2024 Issuer and, prior to November 18, 2024, GCIC 2018 Issuer, 2018 Issuer and GBDC 3 2021 Issuer, that are consolidated in the Company's consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of GBDC (or any affiliate of GBDC). Accordingly, the Company consolidated the results of the Company's wholly-owned subsidiaries listed in the table below in its consolidated financial statements: <table Cash and cash equivalents and foreign currencies are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances exceed the Federal Deposit Insurance Corporation insurance limits.Restricted cash and cash equivalents and restricted foreign currencies include amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash and cash equivalents and restricted foreign currencies are held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets.The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars. Non-U.S. dollar transactions during the period are valued at the prevailing spot rates on the applicable transaction date and the related assets and liabilities are revalued at the prevailing spot rates as of period-end. Net assets and fair values are presented based on the applicable foreign exchange rates and fluctuations arising from the translation of assets and liabilities are included with the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations. Foreign security and currency transactions involve certain considerations and risks not typically associated with investing in U.S. companies. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities. The Company follows the guidance in ASC Topic 815, Derivatives and Hedging ("ASC Topic 815"), when accounting for derivative instruments. Forward currency contracts: A forward currency contract is an obligation between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Company utilized forward currency contracts to economically hedge the currency exposure associated with certain foreign-denominated investments. The use of forward currency contracts does not eliminate fluctuations in the price of the underlying securities the Company owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the exchange rates on the contract date and reporting date and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized gains (losses) and unrealized appreciation (depreciation) on the contracts are included in the Consolidated Statements of Operations. Unrealized appreciation (depreciation) on forward currency contracts is recorded on the Consolidated Statements of Financial Condition by counterparty on a net basis, not taking into account collateral posted which is recorded separately, if applicable. The primary risks associated with forward currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks can exceed the amounts reflected in the Consolidated Statements of Financial Condition. Refer to Note 5 for more information regarding the forward currency contracts. Interest rate swaps: The Company designated interest rate swaps as the hedging instrument in qualifying fair value hedge accounting relationships, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in interest expense and recognized as components of "interest expense" in the Company's Consolidated Statement of Operations. The fair value of the interest rate swaps is included as a component of "Net unrealized appreciation on derivatives" and "Net unrealized depreciation on derivatives" on the Company's Consolidated Statements of Financial Condition. Investments and related investment income: Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments. Original issue discount, market discount or premium and certain loan origination or amendment fees that are deemed to be an adjustment to yield ("Loan Origination Fees") are capitalized and the Company accretes or amortizes such amounts over the life of the loan as interest income ("Discount Amortization").For investments with contractual payment-in-kind ("PIK") interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible.In addition, the Company generates revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees, administrative agent fees, and

prepayment premiums on loans. The Company records these fees that are not deemed to be an adjustment to yield as fee income when earned. Dividend income on equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. The Company has certain preferred equity securities in the portfolio that contain a PIK dividend provision that are accrued and recorded as income at the contractual rates, if deemed collectible. The accrued PIK and non-cash dividends are capitalized to the cost basis of the preferred equity security and are generally collected when redeemed by the issuer. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Each distribution received from limited liability company ("LLC") and limited partnership ("LP") investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.12759000287800062550005301000110160001179900013211000137150009400035000201367000148481000726400072640004251000425100018240000122300012400023500069300 Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the amortized cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investment transactions in the Consolidated Statements of Operations. A loan can be left on accrual status while the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status. When a loan is placed on non-accrual status, unpaid interest credited to income is reversed. Additionally, any capitalized Loan Origination Fees are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans are recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, payments are likely to remain current.Management reviews all preferred equity securities accruing contractual PIK dividend income to determine if there is reasonable doubt that amortized cost or capitalized PIK and non-cash dividend income will be collected for possible placement on non-accrual status. When a preferred equity security is placed on non-accrual status, the contractual PIK dividend provision is no longer accrued to dividend income as of the date the preferred equity security is placed on non-accrual status.433530009320400071400000Pursuant to the GCIC Merger Agreement, the GCIC Merger Sub was first merged with and into GCIC, with GCIC as the surviving company (the "Initial GCIC Merger"), and, immediately following the Initial GCIC Merger, GCIC was then merged with and into the Company, with the Company as the surviving company (the Initial GCIC Merger and the subsequent merger, collectively, the "GCIC Merger"). Pursuant to the GBDC 3 Merger Agreement, the GBDC 3 Merger Sub was first merged with and into GBDC 3, with GBDC 3 as the surviving company in the Initial GBDC 3 Merger and, immediately following the Initial GBDC 3 Merger, GBDC 3 was then merged with and into the Company, with the Company as the surviving company. The GCIC Merger and the GBDC 3 Merger were accounted for under the asset acquisition method of accounting in accordance with ASC 805 — Business Combinations— Related Issues ("ASC Topic 805"), also referred to as "asset acquisition." Under the asset acquisition method of accounting, acquiring assets in groups not only requires ascertaining the cost of the asset (or net assets), but also allocating that cost to the individual assets (or individual assets and liabilities) that make up the group. Per ASC Topic 805, assets are recognized based on their cost to the acquiring entity, which generally includes transaction costs of the asset acquisition, and no gain or loss is recognized unless the fair value of non-cash assets given as consideration differs from the assets carrying amounts on the acquiring entity's books. The cost of the group of assets acquired in an asset acquisition is allocated to the individual assets acquired or liabilities assumed based on the relative fair values of net identifiable assets acquired other than "non-qualifying" assets (for example cash) and does not give rise to goodwill. To the extent that the consideration paid to GCIC or GBDC 3's stockholders exceeded the relative fair values of the net identifiable assets of GCIC or GBDC 3 acquired other than "non-qualifying" assets, any such premium paid by the Company was further allocated to the cost of the GCIC or GBDC 3 assets acquired by the Company pro-rata to their relative fair value, other than "non-qualifying" assets. As both GCIC and GBDC 3 did not have any "qualifying" assets at the time of acquisition, the premium was allocated to "non-qualifying" assets, which are GCIC and GBDC 3's investments in loans and equity securities, including its investment in GCIC SLF. Immediately following the acquisitions of GCIC and GBDC 3, the Company recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC and GBDC 3 assets acquired were immediately recognized as unrealized depreciation on the Company's Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income, with a corresponding reversal of the unrealized depreciation on the loans acquired from GCIC and GBDC 3 through their ultimate disposition.The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the equity securities acquired from GCIC or GBDC 3 and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the equity securities acquired from GCIC or GBDC 3.56860001620000The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify and be subject to tax as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute dividends for U.S. federal income tax purposes to its stockholders of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company has made, and intends to continue to make, the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders. Depending on the level of taxable income earned in a tax year, the Company can determine to retain taxable income in excess of current year dividend distributions and distribute such taxable income in the next tax year. The Company could then be required to incur a 4% excise tax on such income. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended December 31, 2024, the Company recorded a reversal of the accrual for U.S. federal excise tax expense of $475. For the three months ended December 31, 2023, the Company recorded $500 for U.S. federal excise tax expense. The Company accounts for income taxes in conformity with ASC Topic 740 — Income Taxes ("ASC Topic 740"). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or tax benefit in the current year. It is the Company's policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions through December 31, 2024. The Company's tax returns for the 2021 through 2023 tax years remain subject to examination by U.S. federal and most state tax authorities. Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes. Income tax expense, if any, is included under the income category for which it applies in the Consolidated Statements of Operations.-475000500000000Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company can retain such capital gains for investment in its discretion. The Company has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes and the Company declares a cash distribution, then stockholders who participate in the DRIP will have their cash distribution reinvested in additional shares of the Company's common stock, rather than receiving the cash distribution. The Company expects to use newly issued shares under the guidelines of the DRIP if the Company's shares are trading at a premium to net asset value. The Company can purchase shares in the open market in connection with the obligations under the plan, and in particular, if the Company's shares are trading at a significant discount to net asset value ("NAV") and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under the DRIP. In the event the market price per share of the Company's common stock on the date of a distribution exceeds the most recently computed NAV per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed NAV per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed NAV per share of common stock). The Company has a share repurchase program (the "Program") which allows the Company to repurchase the Company's outstanding common stock on the open market at prices below the Company's NAV as reported in its most recently published consolidated financial statements. The Board reapproved the Program in August 2024 and the Program is implemented at the discretion of management. Shares can be purchased from time to time at prevailing market prices, through open market transactions, including block transactions. Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of equity offerings. Deferred offering costs are charged against the proceeds from equity offerings when received. These amounts are included in other assets on the Consolidated Statements of Financial Condition.1500000000On October 6, 2023, the Company entered into a new equity distribution agreement (the "2023 Equity Distribution Agreement"), by and among the Company, the Investment Adviser, Golub Capital LLC and Keefe, Bruyette & Woods, Inc. and Regions Securities LLC (the "Placement Agents"), in connection with the sale by the Company of shares of its common stock, having an aggregate offering price of up to $250,000, in an "at the market offering," in amounts and at times to be determined by the Company. Actual sales, if any, will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions and the market price of the Company's common stock. The 2023 Equity Distribution Agreement provides that the Company could offer and sell shares from time to time through, or to, the Placement Agents, or to it. Sales of the shares, if any, could be made in negotiated transactions or transactions that are deemed to be "at the market," as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on The Nasdaq Global Select Market or any similar securities exchange or sales made to or through a market maker other than on a securities exchange, at prices related to the prevailing market prices or at negotiated prices. Pursuant to the terms of the 2023 Equity Distribution Agreement, the Placement Agents will receive a commission from the Company of up to 1.50% of the gross sales price of any shares sold through the Placement Agents under the 2023 Equity Distribution Agreement. Offering costs for the 2023 Equity Distribution Agreement are charged against the proceeds from equity offerings when proceeds are received. On December 4, 2024, the Company entered into the first amendment to the 2023 Equity Distribution Agreement, to modify certain settlement mechanics and to clarify the periods under which the Company can request the Placement Agents to sell shares. The other material terms of the 2023 Equity Distribution Agreement were unchanged.2500000000.01500000Deferred debt issuance costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings.These amounts are amortized and included in interest expense in the Consolidated Statements of Operations over the estimated average life of the borrowings.28694000253610002645000210900In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, ASU No. 2023-07 enhances the disclosures required for reportable segments on an annual and interim basis. ASU No. 2023-07 is effective on a retrospective basis for annual periods beginning after December 15, 2023, for interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2023-07. In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. ASU No. 2023-09 requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU No. 2023-09 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2023-09. Note 3. Related Party Transactions Investment Advisory Agreement: Under the Investment Advisory Agreement, the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, GBDC. The Board approved the Investment Advisory Agreement on January 16, 2024. The Investment Advisory Agreement amended the Prior Investment Advisory Agreement in order to incorporate changes to the calculation of the incentive fee rates and the incentive fee cap. Under the Investment Advisory Agreement, the incentive fee rates were reduced from 20.0% to 15.0%, and the incentive fee cap was reduced from 20.0% to 15.0%. None of the other material terms changed in the Investment Advisory Agreement as compared to the Prior Investment Advisory Agreement, including the services to be provided and the calculation of the base management fee. The Investment Advisory Agreement was entered into and effective as of June 3, 2024, the closing of the GBDC 3 Merger. On August 3, 2023, the Board approved, and the Company entered into, the Prior Investment Advisory Agreement with the Investment Adviser, effective as of July 1, 2023, pursuant to which the base management fee rate was reduced from 1.375% to 1.0%. The Investment Adviser is a registered investment adviser with the U.S. Securities and Exchange Commission (the "SEC"). The Investment Adviser receives fees for providing services, consisting of two components, a base management fee and an Incentive Fee (as defined below). The base management fee is calculated at an annual rate equal to 1.0% (or 1.375% for periods ending on or before June 30, 2023) of the fair value of the average adjusted gross assets of the Company at the end of the two most recently completed calendar quarters (including assets purchased with borrowed funds and securitization-related assets, leverage, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit for such derivative instruments with custodian but adjusted to exclude cash and cash equivalents so that investors do not pay the base management fee on such assets) and is payable quarterly in arrears. Additionally, the Investment Adviser voluntarily excludes any assets funded with secured borrowing proceeds from the base management fee calculation. The base management fee is adjusted, based on the actual number of days elapsed relative to the total number of days in such calendar quarter, for any share issuances or repurchases during such calendar quarter. For purposes of the Investment Advisory Agreement, cash equivalents mean U.S. government securities and commercial paper instruments maturing within 270 days of purchase (which is different than the GAAP definition, which defines cash equivalents as U.S. government securities and commercial paper instruments maturing within 90 days of purchase). To the extent that the Investment Adviser or any of its affiliates provides investment advisory, collateral management or other similar services to a subsidiary of the Company, the base management fee will be reduced by an amount equal to the product of (1) the total fees paid to the Investment Adviser by such subsidiary for such services and (2) the percentage of such subsidiary's total equity, including membership interests and any class of notes not exclusively held by one or more third parties, that is owned, directly or indirectly, by the Company. The Investment Adviser serves as collateral manager under the 2018 Collateral Management Agreement (as described in "Note 7. Borrowings"), the GCIC 2018 Collateral Management Agreement (as described in "Note 7. Borrowings"), the 2021 Collateral Management Agreement (as described in "Note 7. Borrowings"), the 2022 Collateral Management Agreement (as described in "Note 7. Borrowings") and the 2022-2 Collateral Management Agreement (as described in "Note 7. Borrowings"). Fees payable to the Investment Adviser for providing these services are offset against the base management fee payable by the Company under the Investment Advisory Agreement. The base management fee incurred for the three months ended December 31, 2024 and 2023 was $21,501 and $13,956, respectively. The Company has structured the calculation of the Incentive Fee to include a fee limitation such that an Incentive Fee for any quarter can only be paid to the Investment Adviser if, after such payment, the cumulative Incentive Fees paid to the Investment Adviser, calculated on a per share basis, since April 13, 2010, the effective date of the Company's election to become a BDC, would be less than or equal to 15.0% of the Company's Cumulative Pre-Incentive Fee Net Income (as defined below). The Company accomplishes this limitation by subjecting each quarterly Incentive Fee payable under the Income

and Capital Gain Incentive Fee Calculation (as defined below) to a cap (the "Incentive Fee Cap"). Under the Investment Advisory Agreement, the Incentive Fee Cap in any quarter is equal to the difference between (a) 15.0% of Cumulative Pre-Incentive Fee Net Income Per Share (as defined below) and (b) Cumulative Incentive Fees Paid Per Share (as defined below). To the extent the Incentive Fee Cap is zero or a negative value in any quarter, no Incentive Fee would be payable in that quarter. If, for any relevant period, the Incentive Fee Cap calculation results in the Company paying less than the amount of the Incentive Fee calculated above, then the difference between the Incentive Fee and the Incentive Fee Cap will not be paid by GBDC and will not be received by the Investment Adviser as an Incentive Fee either at the end of such relevant period or at the end of any future period. "Cumulative Pre-Incentive Fee Net Income Per Share" equals the sum of "Pre-Incentive Fee Net Income Per Share" (as defined below) for each quarterly period since April 13, 2010. "Pre-Incentive Fee Net Income Per Share" equals the sum of (i) Pre-Incentive Fee Net Investment Income (as defined below) and (ii) Adjusted Capital Returns for the applicable period, divided by (b) the weighted average number of shares of GBDC common stock outstanding during such period. "Adjusted Capital Returns" for any period is the sum of the realized aggregate capital gains, realized aggregate capital losses, aggregate unrealized capital depreciation and aggregate unrealized capital appreciation for such period; provided that the calculation of realized aggregate capital gains, realized aggregate capital losses, aggregate unrealized capital depreciation and aggregate unrealized capital appreciation shall not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation resulting solely from the asset acquisition for any premium or discount paid for the acquisition of assets in a merger. "Cumulative Incentive Fees Paid Per Share" is equal to the sum of Incentive Fees Paid Per Share since April 13, 2010. "Incentive Fees Paid Per Share" for any period is equal to the Incentive Fees accrued and/or payable to the Company for such period, divided by the weighted average number of shares of common stock of GBDC during such period. "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the calendar quarter (including the base management fee, taxes, any expenses payable under the Investment Advisory Agreement and the Administration Agreement, any expenses of securitizations and any interest expense and dividends paid on any outstanding preferred stock, but excluding the Incentive Fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that the Company has not yet received in cash. Incentive Fees are calculated and payable quarterly in arrears (or, upon termination of the Investment Advisory Agreement, as of the termination date). The income and capital gains incentive fee calculation (the "Income and Capital Gain Incentive Fee Calculation") has two parts, the income component (the "Income Incentive Fee") and the capital gains component (the "Capital Gain Incentive Fee" and, together with the Income Incentive Fee, the "Incentive Fee"). The Income Incentive Fee is calculated quarterly in arrears based on the Company's Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For the three months ended December 31, 2024 and 2023, the Income Incentive Fee incurred was $10,050 and $21,285, respectively. The Investment Advisory Agreement excludes the impact of asset acquisition resulting from a merger, including the GCIC Merger and GBDC 3 Merger, from the calculation of income subject to the Income Incentive Fee and the calculation of the Incentive Fee Cap. As a result, under the Investment Advisory Agreement, Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation or any amortization or accretion of any purchase premium or discount to interest income solely from the asset acquisition for any premium or discount paid for the acquisition of assets in a merger, such as the premium to net asset value paid for the shares of GCIC and GBDC 3 common stock in the GCIC Merger and GBDC 3 Merger. Because of the structure of the Income Incentive Fee, it is possible that an Incentive Fee is calculated under this formula with respect to a period in which the Company has incurred a loss. For example, if the Company receives Pre-Incentive Fee Net Investment Income in excess of the hurdle rate (as defined below) for a calendar quarter, the Income Incentive Fee will result in a positive value and an Incentive Fee will be paid even if the Company has incurred a loss in such period due to realized and/or unrealized capital losses unless the payment of such Incentive Fee would cause the Company to pay Incentive Fees on a cumulative basis that exceed the Incentive Fee Cap. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of the Company's net assets (defined as total assets less indebtedness and before taking into account any Incentive Fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 2.0% quarterly. If market interest rates rise, it is possible that the Company will be able to invest funds in debt instruments that provide for a higher return, which would increase Pre-Incentive Fee Net Investment Income and make it easier for the Investment Adviser to surpass the fixed hurdle rate and receive an Incentive Fee based on such net investment income. The Company's Pre-Incentive Fee Net Investment Income used to calculate this part of the Incentive Fee is also included in the amount of the Company's total assets (excluding cash and cash equivalents but including assets purchased with borrowed funds and securitization-related assets, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit with custodian) used to calculate the base management fee annual rate. For periods ending on or before March 31, 2024, the Company calculates the Income Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income quarterly, in arrears, as follows: •Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate; •100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. This portion of the Company's Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than 2.5%) is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 20.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply if the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any calendar quarter; and
20.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any calendar quarter. For periods ending after June 3, 2024, including the three months ended June 30, 2024, the Company calculates the Income Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income quarterly, in arrears, as follows: •Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate; •100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than the percentage at which amounts payable to the Adviser equals 15.0% of the Company's Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply. This portion of the Company's Pre-Incentive Fee Net Investment Income is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 15.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply; and •15.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds the catch-up provision in any calendar quarter. The Capital Gain Incentive Fee equals (a) 15.0% of the Company's Capital Gain Incentive Fee Base (as defined below), if any, calculated in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), which commenced with the calendar year ending December 31, 2010, less (b) the aggregate amount of any previously paid Capital Gain Incentive Fees. The Company's "Capital Gain Incentive Fee Base" equals (1) the sum of (A) realized capital gains, if any, on a cumulative positive basis from the date the Company elected to become a BDC through the end of each calendar year, (B) all realized capital losses on a cumulative basis and (C) all unrealized capital depreciation on a cumulative basis less (2) all unamortized deferred debt issuance costs, if and to the extent such costs exceed all unrealized capital appreciation on a cumulative basis. •The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company's portfolio when sold is less than (b) the accreted or amortized cost basis of such investment. •The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company's portfolio when sold and (b) the accreted or amortized cost basis of such investment. •The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company's portfolio as of the applicable Capital Gain Incentive Fee calculation date and (b) the accreted or amortized cost basis of such investment. Realized capital gains and losses include gains and losses on investments, foreign currencies, including gains and losses on borrowings in foreign currencies, derivative contracts and any income tax related to cumulative aggregate realized gains and losses. For the three months ended December 31, 2024 and 2023, the Company did not accrue a Capital Gain Incentive Fee. As of December 31, 2024 and September 30, 2024, there was no Capital Gain Incentive Fee payable as calculated under the Investment Advisory Agreement as described above. Any payment due for a Capital Gain Incentive Fee under the terms of the Investment Advisory Agreement is calculated in arrears at the end of each calendar year. In accordance with GAAP, the Company also is required to include the aggregate unrealized capital appreciation on investments in the calculation and accrue a capital gain incentive fee on a quarterly basis as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Advisory Agreement, as applicable. If the Capital Gain Incentive Fee Base, adjusted as required by GAAP to include unrealized capital appreciation, is positive at the end of a period, then GAAP requires the Company to accrue a capital gain incentive fee equal to 15% of such amount, less the aggregate amount of the actual Capital Gain Incentive Fees paid and capital gain incentive fees accrued under GAAP in all prior periods. If such amount is negative, then there is no accrual for such period. The resulting accrual under GAAP in a given period results in additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the three months ended December 31, 2024 and 2023, the Company did not accrue a capital gain incentive fee under GAAP. Changes in the accrual for the capital gain incentive fee under GAAP are included in incentive fee in the Consolidated Statements of Operations. As of both December 31, 2024 and September 30, 2024, there was no cumulative accrual of capital gain incentive fees under GAAP included in management and incentive fees payable on the Consolidated Statements of Financial Condition. Administration Agreement: Under the Administration Agreement, the Administrator furnishes the Company with office facilities and equipment, provides the Company with clerical, bookkeeping and record keeping services at such facilities and provides the Company with other administrative services as the Administrator, subject to review by the Board, determines necessary to conduct the Company's day-to-day operations. The Company reimburses the Administrator the allocable portion of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, fees and expenses associated with performing compliance functions and the Company's allocable portion of the cost of its chief financial officer and chief compliance officer and their respective staffs. The Board reviews such expenses to determine that these expenses, including any allocation of expenses among the Company and other entities for which the Administrator provides similar services, are reasonable and comparable to administrative services charged by unaffiliated third party asset managers. Under the Administration Agreement, the Administrator also provides, on the Company's behalf, managerial assistance to those portfolio companies to which the Company is required to provide such assistance and will be paid an additional amount based on the cost of the services provided, which amount shall not exceed the amount the Company receives from such portfolio companies. Included in accounts payable and other liabilities is $2,902 and $2,040 as of December 31, 2024 and September 30, 2024, respectively, for accrued allocated shared services under the Administration Agreement. Other related party transactions: The Administrator pays for certain unaffiliated third-party expenses incurred by the Company. Such expenses include postage, printing, office supplies, rating agency fees and professional fees. These expenses are not marked-up and represent the same amount the Company would have paid had the Company paid the expenses directly. These expenses are subsequently reimbursed in cash. Total expenses reimbursed to the Administrator during the three months ended December 31, 2024 and 2023 were $2,658 and $2,010, respectively. As of December 31, 2024 and September 30, 2024, included in accounts payable and other liabilities were $1,722 and $2,658, respectively, for expenses paid on behalf of the Company by the Administrator. The Company is party to an unsecured revolving credit facility with the Investment Adviser (as amended, the "Adviser Revolver") which, as of December 31, 2024 permits the Company to borrow a maximum of $200,000 and expires on June 15, 2025. As of September 30, 2023, the Company was permitted to borrow a maximum of $100,000 under the Adviser Revolver. Refer to Note 7 for discussion of the Adviser Revolver. Effective June 3, 2024, the Company assumed, as a result of the GBDC 3 Merger, an unsecured revolving credit facility with the Investment Adviser ("GBDC 3 Adviser Revolver") that had a credit limit of $100,000. The GBDC 3 Adviser Revolver was terminated on June 11, 2024. On June 3, 2024, the Company completed its acquisition of GBDC 3. Borrowings”), the Company entered into interest rate swap agreements to more closely align the interest rate of such liability with its investment portfolio, which consists primarily of floating rate loans. Under the interest rate swap agreements, the Company (i) receives a fixed interest rate of 6.248% and pays a floating interest rate of one-month SOFR plus 2.444% on the first $600,000 of the 2029 Notes and (ii) receives a fixed interest rate of 5.001% and pays a floating interest rate of three-month SOFR plus 2.012% on the second $150,000 of the 2029 Notes. The Company designated these interest rate swaps and the 2029 Notes as a qualifying fair value hedge accounting relationship. See “Note 7. Borrowings” for more information on the 2029 Notes. As of December 31, 2024, the counterparties to the Company’s interest rate swap agreements were SMBC and Macquarie Bank Limited. As a result of the Company’s designation as a hedging instrument in a qualifying fair value hedge accounting relationship, the Company is required to fair value the hedging instrument and the related hedged item, with the changes in the fair value of each being recorded in interest expense. The net loss related to the fair value hedge was $4,662 for the three months ended December 31, 2024. The net gain related to the fair value hedge was $301 for the three months ended December 31, 2023. The net gain /(loss) related to the fair value hedge is included in “Interest and other debt financing expenses” in the Company’s Consolidated Statement of Operations. The table below presents the components of the net gain /(loss) related to the fair value hedge recognized for the hedging instrument, the interest rate swaps, and the hedged items, the 2028 and 2029 Notes, from derivatives designated in a qualifying hedge accounting relationship for the three months ended December 31, 2024 and 2023.</div><div style="margin-bottom:9pt"><table colspan="3" style="display:none"></td></tr></table> Note 6. Fair Value Measurements The Company follows ASC Topic 820 for measuring fair value. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. Effective August 2, 2024, the Board designated the Investment Adviser as the Company's Valuation Designee in accordance with Rule 2a-5 under the 1940 Act. The Company's fair value analysis, currently undertaken by the Valuation Designee, includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows: Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2: Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities. Level 3: Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and require significant management judgment or estimation. In certain cases, the inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Currently, the Valuation Designee assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three months ended December 31, 2024 and 2023. The following section describes the valuation techniques used to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized. Investments Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Valuation Designee, based on input of the Valuation Designee's personnel and independent valuation firms that have been engaged at the direction of the Valuation Designee to assist in the valuation of each portfolio investment without a readily available market quotation at least every other quarter under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with each portfolio investment being reviewed at least every other quarter (subject to a de minimis threshold) with approximately 50% (based on the fair value of the portfolio company investments) of the Company's valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. All investments as of December 31, 2024 and September 30, 2024, with the exception of one portfolio company investment (Level 1 investments), were valued using Level 3 inputs. As of December 31, 2024 and September 30, 2024, all money market funds included in cash and cash equivalents and restricted cash and cash equivalents were valued using Level 1 inputs and all forward currency contracts and interest rate swaps were valued using Level 2 inputs. When determining fair value of Level 3 debt and equity investments, the Valuation Designee takes into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that affect the price at which similar investments are made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA"). A portfolio company's EBITDA can include pro forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Valuation Designee will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Valuation Designee uses a market interest rate yield analysis to determine fair value. In addition, for certain debt investments, the Valuation Designee bases its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others could be willing to pay. Ask prices represent the lowest price that the Company and others could be willing to accept. The Valuation Designee generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment. Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments could differ significantly from the values that would have been used had a ready market existed for such investments and could differ materially from the values that are ultimately received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which such investment had previously been recorded. The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded. (4)The Company valued $6,036,312 and $1,021,265 of one stop loans using EBITDA and revenue multiples, respectively. All one stop loans were also valued using the market rate approach. (5)$435 of loans at fair value were valued using the market comparable companies approach only. (6)The Company valued $505,597 and $72,023 of equity investments using EBITDA and revenue multiples, respectively. The above tables are not intended to be all-inclusive but rather to provide information on significant unobservable inputs and valuation techniques used by the Valuation Designee. The significant unobservable inputs used in the fair value measurement of the Company's debt and equity investments are EBITDA multiples, revenue multiples and market interest rates. The Valuation Designee uses EBITDA multiples and, to a lesser extent, revenue multiples on the Company's debt and equity investments to determine any credit gains or losses. Increases or decreases in either of these inputs

in isolation would have resulted in a significantly lower or higher fair value measurement. The Valuation Designee uses market interest rates for loans to determine if the effective yield on a loan is commensurate with the market yields for that type of loan. If a loan's effective yield was significantly less than the market yield for a similar loan with a similar credit profile, then the resulting fair value of the loan could have been lower. Other Financial Assets and Liabilities ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. As a result, with the exception of the line item titled "debt" which is reported at cost, all assets and liabilities approximate fair value on the Consolidated Statements of Financial Condition due to their short maturity. The fair value of the Company's 2024 Notes, 2026 Notes, 2027 Notes, 2028 Notes and 2029 Notes (as defined in "Note 7. Borrowings") is based on vendor pricing received by the Company, which is considered a Level 2 input. The fair value of the Company's remaining debt is estimated using Level 3 inputs by discounting remaining payments using comparable market rates or market quotes for similar instruments at the measurement date, if available. The following are the carrying values and fair values of the Company's debt as of December 31, 2024 and September 30, 2024. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.039%"><tr><td style="width:1.0%"></td><td style="width:24.742%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.877%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.717%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.877%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.881%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">As of December 31, 2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">As of September 30, 2024</td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Carrying Value</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Fair Value</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Carrying Value</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Fair Value</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Debt</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">4,919,258 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">4,901,113 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">4,624,791 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">4,591,161 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr></table> The Company follows ASC Topic 820 for measuring fair value. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. Effective August 2, 2024, the Board designated the Investment Adviser as the Company's Valuation Designee in accordance with Rule 2a-5 under the 1940 Act. The Company's fair value analysis, currently undertaken by the Valuation Designee, includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows: Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2: Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities. Level 3:Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and require significant management judgment or estimation. In certain cases, the inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Currently, the Valuation Designee assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three months ended December 31, 2024 and 2023. The following section describes the valuation techniques used to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized. Investments Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Valuation Designee, based on input of the Valuation Designee's personnel and independent valuation firms that have been engaged at the direction of the Valuation Designee to assist in the valuation of each portfolio investment without a readily available market quotation at least every other quarter under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with each portfolio investment being reviewed at least every other quarter (subject to a de minimis threshold) with approximately 50% (based on the fair value of the portfolio company investments) of the Company's valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. All investments as of December 31, 2024 and September 30, 2024, with the exception of one portfolio company investment (Level 1 investments), were valued using Level 3 inputs. As of December 31, 2024 and September 30, 2024, all money market funds included in cash and cash equivalents and restricted cash and cash equivalents were valued using Level 1 inputs and all forward currency contracts and interest rate swaps were valued using Level 2 inputs. When determining fair value of Level 3 debt and equity investments, the Valuation Designee takes into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that affect the price at which similar investments are made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA"). A portfolio company's EBITDA can include pro forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Valuation Designee will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Valuation Designee uses a market interest rate yield analysis to determine fair value. In addition, for certain debt investments, the Valuation Designee bases its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others could be willing to pay. Ask prices represent the lowest price that the Company and others could be willing to accept. The Valuation Designee generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment. Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments could differ significantly from the values that would have been used had a ready market existed for such investments and could differ materially from the values that are ultimately received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which such investment had previously been recorded. The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded. The GCIC 2018 Debt Securitization was originally completed on December 13, 2018. The notes offered in the GCIC 2018 Debt Securitization (the "GCIC 2018 Notes") were issued by the GCIC 2018 Issuer, a subsidiary of GCIC 2018 CLO Depositor, and were secured by a diversified portfolio of senior secured and second lien loans. Through November 18, 2024, the GCIC 2018 Debt Securitization consisted of $490,000 of AAA/AAA Class A-1 GCIC 2018 Notes, $38,500 of AAA Class A-2 GCIC 2018 Notes, and $18,000 of AA Class B-1 GCIC 2018 Notes. In partial consideration for the loans transferred to the GCIC 2018 Issuer as part of the GCIC 2018 Debt Securitization, the GCIC 2018 CLO Depositor received and retained $27,000 of Class B-2 GCIC 2018 Notes, $95,000 of Class C GCIC 2018 Notes and $60,000 of Class D GCIC 2018 Notes and $179,695 of Subordinated GCIC 2018 Notes. The Class A-1, Class A-2-R and Class B-1 GCIC 2018 Notes are included in the September 30, 2024 Consolidated Statements of Financial Condition as debt of the Company. As of September 30, 2024, the Class B-2, Class C and Class D GCIC 2018 Notes and the Subordinated GCIC 2018 Notes were eliminated in consolidation. Through January 20, 2023, the GCIC 2018 Issuer was permitted to use all principal collections received on the underlying collateral to purchase new collateral under the direction of the Investment Adviser in its capacity as collateral manager of the GCIC 2018 Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the initial leverage in the GCIC 2018 Debt Securitization. As of September 30, 2024, there were 58 portfolio companies with a total fair value of $524,168 securing the GCIC 2018 Notes. an additional $100,000 in aggregate principal amount of 2024 Notes under the same terms of the original issuance. The 2028 Notes are the Company's general unsecured obligations that rank senior in right of payment to all of the Company's future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2028 Notes; equal in right of payment to the Company's existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company's secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities. At any time or from time to time, the Company could redeem some or all of the 2028 Notes at a redemption price equal to the greater of (1) 100% of the principal amount of the 2028 Notes to be redeemed or (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on the 2028 Notes on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the applicable Treasury Rate plus 45 basis points less interest accrued to the date of redemption. If the Company redeems any 2028 Notes on or after November 5, 2028 (the date falling one month prior to the maturity date of the 2028 Notes), the redemption price for the 2028 Notes will be equal to 100% of the principal amount of the 2028 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date. No sinking fund is provided for the 2028 Notes. On December 5, 2023, the Company entered into an interest rate swap on the 2028 Notes with SMBC as the counterparty. Under the terms of the agreement, the Company agreed to receive a fixed rate of 7.310% and pay SMBC a rate of one-month Term SOFR + 3.327%. The interest rate swap is designated as an effective hedge accounting instrument. The notional amount of the swap is $225,000 and terminates on November 5, 2028. The carrying value of the 2028 Notes is inclusive of an adjustment for the change in fair value of an effective hedge accounting relationship. See "Note 5. Derivatives" for additional information. On April 11, 2024, the Company entered into an interest rate swap on the 2028 Notes pursuant to which the Company agreed to receive a fixed rate of 7.310% and pay a rate of one-month SOFR plus 2.835%. The interest rate swap is designated as an effective hedge accounting instrument. The notional amount of the swap is $225,000 and terminates on November 5, 2028. The carrying value of the 2028 Notes is inclusive of an adjustment for the change in fair value of an effective hedge accounting relationship. See "Note 5. As of December 31, 2024 and September 30, 2024, the outstanding aggregate principal amount of the 2029 Notes was $750,000 and $600,000, respectively. The 2029 Notes bear interest at a rate of 6.000% per year payable semi-annually in arrears on January 15 and July 15 of each year, commencing on July 15, 2024. The 2029 Notes mature on July 15, 2029. The 2029 Notes are the Company's general unsecured obligations that rank senior in right of payment to all of the Company's future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2029 Notes; equal in right of payment to the Company's existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company's secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities. No sinking fund is provided for the 2029 Notes. On February 1, 2024 and December 3, 2024, the Company entered into interest rate swap agreements on the 2029 Notes with SMBC and Macquarie, respectively, as counterparties. Under the terms of the agreement with SMBC, the Company (i) receives a fixed rate of 6.240% and (ii) pays SMBC a rate of one-month Term SOFR + 2.444% on the first $600,000 of 2029 Notes. Under the terms of the agreement with Macquarie, the Company (i) receives a fixed rate of 5.881% and (ii) pays Macquarie a floating interest rate of three-month Term SOFR + 2.012% on the second $150,000 of the 2029 Notes. The Company designated these interest rate swap as effective hedge accounting instruments. The total notional amount of both swap agreements is $750,000 and both agreements terminate on June 15, 2029. The carrying value of the 2029 Notes is inclusive of an adjustment for the change in fair value of an effective hedge accounting relationship. See "Note 5. Derivatives" for additional information.

style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">As of December 31, 2024, the Company had outstanding commitments to fund investments totaling $1,004,163, including $219,176 of commitments on undrawn revolvers. As of September 30, 2024, the Company had outstanding commitments to fund investments totaling $717,869, including $157,618 of commitments on undrawn revolvers. </div><div style="margin-bottom:9pt">Indemnifications: In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as these involve future claims against the Company that have not occurred. The Company expects the risk of any future obligations under these indemnifications to be remote.</div><div style="margin-bottom:9pt">Off-balance sheet risk: Off-balance sheet risk refers to an unrecorded potential liability that could result in a future obligation or loss, even though it does not appear on the Consolidated Statements of Financial Condition. The Company has entered and, in the future, could again enter into derivative instruments that contain elements of off-balance sheet market and credit risk. Refer to Note 5 for outstanding forward currency contracts and interest rate swap agreements as of December 31, 2024 and September 30, 2024. Derivative instruments can be affected by market conditions, such as interest rate and foreign currency volatility, which could impact the fair value of the derivative instruments. If market conditions move against the Company, it could not achieve the anticipated benefits of the derivative instruments and could realize a loss. The Company minimizes market risk through monitoring its investments and borrowings.</div><div style="margin-bottom:9pt">Concentration of credit and counterparty risk: Credit risk arises primarily from the potential inability of counterparties to perform in accordance with the terms of the contract. The Company has engaged and, in the future, may engage again in derivative transactions with counterparties. In the event that the counterparties do not fulfill their obligations, the Company could be exposed to risk. The risk of default depends on the creditworthiness of the counterparties or issuers of the instruments. The Company's maximum loss that it could incur related to counterparty risk on its derivative instruments is the value of the collateral for that respective derivative instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.</div><div style="margin-bottom:9pt">Legal proceedings: In the normal course of business, the Company is subject to legal and regulatory proceedings that are generally incidental to its ongoing operations. While there can be no assurance of the ultimate disposition of any such proceedings, the Company does not believe any disposition will have a material adverse effect on the Company's consolidated financial statements.</div>1004163000219176000717869000157618000<div style="margin-bottom:9pt">Note 9.
