**Note 1. Organization**

Golub Capital BDC, Inc. (“GBDC” and, collectively with its consolidated subsidiaries, the “Company”) is an externally managed, closed-end, non-diversified management investment company. GBDC has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, for U.S. federal income tax purposes, GBDC has elected to be treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”).

The Company’s investment strategy is to invest primarily in one stop (a loan that combines characteristics of traditional first lien senior secured loans and second lien or subordinated loans and that are often referred to by other middle-market lenders as unitranche loans) and other senior secured loans of U.S. middle-market companies that are, in most cases, sponsored by private equity firms. The Company also selectively invests in second lien and subordinated (a loan that ranks senior only to a borrower’s equity securities and ranks junior to all of such borrower’s other indebtedness in priority of payment) loans of, and warrants and minority equity securities in, U.S. middle-market companies. The Company has entered into the Fifth Amended and Restated Investment Advisory Agreement effective as of June 3, 2024 (the “Investment Advisory Agreement” or “Post-GBDC 3 Merger Advisory Agreement”) with GC Advisors LLC (the “Investment Adviser”), under which the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, the Company. Under an administration agreement (the “Administration Agreement”) the Company is provided with certain services by an administrator (the “Administrator”), which is currently Golub Capital LLC.

On September 16, 2019, the Company completed its acquisition of Golub Capital Investment Corporation (“GCIC”), a Maryland corporation, pursuant to that certain Agreement and Plan of Merger (as amended, the “GCIC Merger Agreement”), dated as of November 27, 2018, by and among the Company, GCIC, Fifth Ave Subsidiary Inc., a Maryland corporation and wholly owned subsidiary of the Company, the Investment Adviser, and, for certain limited purposes, the Administrator.

On June 3, 2024, the Company completed its acquisition of Golub Capital BDC 3, Inc. (“GBDC 3”), a Maryland corporation pursuant to that certain Agreement and Plan of Merger (as amended, the “GBDC 3 Merger Agreement”), dated as of January 16, 2024, by and among the Company, GBDC 3, Park Avenue Subsidiary Inc., a Maryland corporation and wholly owned subsidiary of the Company (“Merger Sub”), GC Advisors, a Delaware limited liability company and investment adviser to each of the Company and GBDC 3, and, for certain limited purposes, Golub Capital LLC. Pursuant to the Merger Agreement, Merger Sub was first merged with and into GBDC 3, with GBDC 3 as the surviving corporation (the “Initial GBDC 3 Merger”), and immediately following the Initial Merger, GBDC 3 was then merged with and into the Company, with the Company as the surviving company (the Initial Merger and the subsequent merger, collectively, the “GBDC 3 Merger”). Upon consummation of the GBDC 3 Merger, the Company entered into the Investment Advisory Agreement. The Investment Advisory Agreement replaced the Fourth Amended and Restated Investment Advisory Agreement by and between the Company and the Investment Adviser dated as of July 1, 2023 (the “Prior Investment Advisory Agreement”). Refer to Note 3 for more information on the Investment Advisory Agreement and the Prior Investment Advisory Agreement and refer to Note 13. Acquisition of Golub Capital BDC 3, Inc. for discussion of the GBDC 3 Merger.

**Note 2. Significant Accounting Policies and Recent Accounting Updates**

**Basis of presentation:**

The Company is an investment company as defined in the accounting and reporting guidance under Accounting Standards Codification (“ASC”) Topic 946 —

**Financial Services**

—

**Investment Companies**

(“ASC Topic 946”).

The accompanying unaudited interim consolidated financial statements of the Company and related financial information have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) as established by the Financial Accounting Standards Board (“FASB”) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6, 10 and 12 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated.

Certain prior period amounts have been reclassified to conform to the current period presentation.

The unaudited interim consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto in the Company’s Form 10-K for the year ended September 30, 2023, as filed with the U.S. Securities and Exchange Commission (the “SEC”).

**Fair value of financial instruments:**

The Company applies fair value to all of its financial instruments in accordance with ASC Topic 820 —

**Fair Value Measurement**

ASC Topic 820. ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Company's own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

Any changes to the valuation methodology are reviewed by management and the Company's board of directors (the "Board") to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies. See further description of fair value methodology in Note 6 Fair Value Measurements.

Use of estimates: The preparation of the unaudited interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation: As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of the Company's wholly owned subsidiaries listed in the table below in its consolidated financial statements:

Assets related to transactions that do not meet ASC Topic 860 requirements for accounting sale treatment are reflected in the Company’s Consolidated Statements of Financial Condition as investments. Those assets are owned by special purpose entities, including BDC Holdings, 2018 Issuer, Funding II, GCIC Holdings, GCIC 2018 Issuer, GBDC 3 Holdings, GBDC 3 Funding, GBDC 3 2021 Issuer, GBDC 3 2022 Issuer and the GBDC 3 2022-2 Issuer, that are consolidated in the Company’s consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of GBDC (or any affiliate of GBDC).

**Cash and cash equivalents and foreign currencies:** Cash and cash equivalents and foreign currencies are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances exceed the Federal Deposit Insurance Corporation insurance limits.

**Restricted cash and cash equivalents and restricted foreign currencies:** Restricted cash and cash equivalents and restricted foreign currencies include amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash and cash equivalents and restricted foreign currencies are held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets.

**Foreign currency translation:** The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars. Non-U.S. dollar transactions during the period are valued at the prevailing spot rates on the applicable transaction date and the related assets and liabilities are revalued at the prevailing spot rates as of period-end.

**Net assets and fair values** are presented based on the applicable foreign exchange rates and fluctuations arising from the translation of assets and liabilities are included with the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations.

**Foreign security and currency transactions** involve certain considerations and risks not typically associated with investing in U.S. companies. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

**Derivative Instruments:** The Company follows the guidance in ASC Topic 815, "Derivatives and Hedging" ("ASC Topic 815"), when accounting for derivative instruments.

**Forward currency contracts:** A forward currency contract is an obligation between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Company utilized forward currency contracts to economically hedge the currency exposure associated with certain foreign-denominated investments. The use of forward currency contracts does not eliminate fluctuations in the price of the underlying securities the Company owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the exchange rates on the contract date and reporting date and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized gains (losses) and unrealized appreciation (depreciation) on the contracts are included in the Consolidated Statements of Operations. Unrealized appreciation (depreciation) on forward currency contracts is recorded on the Consolidated Statements of Financial Condition by counterparty on a net basis, not taking into account collateral posted which is recorded separately, if applicable.

**The primary risks associated with forward currency contracts** include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks can exceed the amounts reflected in the Consolidated Statements of Financial Condition.

**Refer to Note 5 for more information regarding the forward currency contracts.**

**Interest rate swaps:** The Company designated interest rate swaps as the hedging instrument in qualifying fair value hedge accounting relationships, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in interest expense and recognized as components of "interest expense" in the Company's Consolidated Statement of Operations. The fair value of the interest rate swaps is included as a component of "Accounts payable and other liabilities" on the Company's Consolidated Statements of Financial Condition. Refer to Note 5 for more information regarding the interest rate swaps.

**Revenue recognition:**

**Investments and related investment income:** Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments.

**Loan origination fees, original issue discount and market discount or premium** are capitalized, and the Company accretes or amortizes such amounts over the life of the loan as interest income. For the three and nine months ended June 30, 2024, interest income included \$6,632 and \$16,489, respectively, of accretion of discounts. For the three and nine months

ended June 30, 2023, interest income included \$4,660 and \$15,351, respectively, of accretion of discounts. For the three and nine months ended June 30, 2024, the Company received loan origination fees of \$6,300 and \$10,298, respectively. For the three and nine months ended June 30, 2023, the Company received loan origination fees of \$2,663 and \$14,049, respectively.

For investments with contractual payment-in-kind ("PIK") interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. For the three and nine months ended June 30, 2024, investment income included \$10,177 and \$33,805, respectively, of PIK interest and the Company capitalized PIK interest of \$11,245 and \$36,551, respectively, into the principal balance of certain debt investments. For the three and nine months ended June 30, 2023, investment income included \$9,587 and \$27,270, respectively, of PIK interest and the Company capitalized PIK interest of \$10,405 and \$27,660, respectively, into the principal balance of certain debt investments.

In addition, the Company generates revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees, administrative agent fees, and prepayment premiums on loans. The Company records these fees as fee income when earned. For the three and nine months ended June 30, 2024, fee income included \$162 and \$338 from non-recurring prepayment premiums, respectively. For the three months ended June 30, 2023, there was no fee income from non-recurring prepayment premiums. For the nine months ended June 30, 2023, fee income included \$79 from non-recurring prepayment premiums. Other income is recorded into income when earned.

For the three and nine months ended June 30, 2024, the Company received interest and fee income in cash, which excludes capitalized loan origination fees, in the amounts of \$132,038 and \$417,195, respectively. For the three and nine months ended June 30, 2023, the Company received interest and fee income in cash, which excludes capitalized loan origination fees, in the amounts of \$139,293 and \$380,046, respectively.

Dividend income on equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. The Company has certain preferred equity securities in the portfolio that contain a PIK dividend provision that are accrued and recorded as income at the contractual rates, if deemed collectible. The accrued PIK and non-cash dividends are capitalized to the cost basis of the preferred equity security and are generally collected when redeemed by the issuer.

For the three and nine months ended June 30, 2024, the Company recognized PIK and non-cash dividend income of \$5,287 and \$13,890, respectively, which were capitalized into the cost basis of certain preferred equity investments. For the three and nine months ended June 30, 2023, the Company recognized PIK and non-cash dividend income of \$3,723 and \$10,767, respectively, which were capitalized into the cost basis of certain preferred equity investments. For the three and nine months ended June 30, 2024, the Company received \$47 of cash payments of accrued and capitalized preferred dividends. For the three and nine months ended June 30, 2023, the Company received no cash payments of accrued and capitalized preferred dividends in cash.

Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Each distribution received from limited liability company ("LLC") and limited partnership ("LP") investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.

For the three and nine months ended June 30, 2024, the Company recorded dividend income received in cash of \$418 and \$555, respectively, and return of capital distributions received in cash of \$733 and \$1,551, respectively. For the three and nine months ended June 30, 2023 the Company recorded dividend income received in cash of \$334 and \$1,329, respectively and return of capital distributions received in cash of \$212 and \$295, respectively.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the amortized cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investment transactions in the Consolidated Statements of Operations.

Non-accrual loans:

A loan can be left on accrual status during the period the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status. When a loan is placed on non-accrual status, unpaid interest credited to income is reversed. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans are recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, payments are likely to remain current. The total fair value of non-accrual loans was \$70,292 and \$62,937 as of June 30, 2024 and September 30, 2023, respectively.

Purchase accounting:

Pursuant to the GCIC Merger Agreement, the GCIC Merger Sub was first merged with and into GCIC, with GCIC as the surviving company (the "Initial GCIC Merger"), and, immediately following the Initial GCIC Merger, GCIC was then merged with and into the Company, with the Company as the surviving company (the Initial GCIC Merger and the subsequent merger,

collectively, the “GCIC Merger”). Pursuant to the GBDC 3 Merger Agreement, the GBDC 3 Merger Sub was first merged with and into GBDC 3, with GBDC 3 as the surviving company in the Initial GBDC 3 Merger and, immediately following the Initial GBDC 3 Merger, GBDC 3 was then merged with and into the Company, with the Company as the surviving company. The GCIC Merger and the GBDC 3 Merger were accounted for under the asset acquisition method of accounting in accordance with ASC 805 — **Business Combinations** — Related Issues (“ASC Topic 805”), also referred to as “purchase accounting.” Under the asset acquisition method of accounting, acquiring assets in groups not only requires ascertaining the cost of the asset (or net assets), but also allocating that cost to the individual assets (or individual assets and liabilities) that make up the group. Per ASC Topic 805, assets are recognized based on their cost to the acquiring entity, which generally includes transaction costs of the asset acquisition, and no gain or loss is recognized unless the fair value of non-cash assets given as consideration differs from the assets carrying amounts on the acquiring entity’s books.

The cost of the group of assets acquired in an asset acquisition is allocated to the individual assets acquired or liabilities assumed based on the relative fair values of net identifiable assets acquired other than “non-qualifying” assets (for example cash) and does not give rise to goodwill. To the extent that the consideration paid to GCIC or GBDC 3’s stockholders exceeded the relative fair values of the net identifiable assets of GCIC or GBDC 3 acquired other than “non-qualifying” assets, any such premium paid by the Company was further allocated to the cost of the GCIC or GBDC 3 assets acquired by the Company pro-rata to their relative fair value, other than “non-qualifying” assets. As both GCIC and GBDC 3 did not have any “qualifying” assets at the time of acquisition, the premium was allocated to “non-qualifying” assets, which are GCIC and GBDC 3’s investments in loans and equity securities, including its investment in GCIC SLF. Immediately following the acquisitions of GCIC and GBDC 3, the Company recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC and GBDC 3 assets acquired was immediately recognized as unrealized depreciation on the Company’s Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income, with a corresponding reversal of the unrealized depreciation on the loans acquired from GCIC and GBDC 3 through their ultimate disposition. Amortization expense of purchase premium for the three and nine months ended June 30, 2024 was \$3,086 and \$5,493, respectively. Amortization expense of purchase premium for the three and nine months ended June 30, 2023 was \$1,570 and \$5,357, respectively. The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the equity securities acquired from GCIC or GBDC 3 and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the equity securities acquired from GCIC or GBDC 3.

**Income taxes:** The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify and be subject to tax as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute dividends for U.S. federal income tax purposes to its stockholders of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company has made, and intends to continue to make, the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders.

Depending on the level of taxable income earned in a tax year, the Company can determine to retain taxable income in excess of current year dividend distributions and distribute such taxable income in the next tax year. The Company may then be required to incur a 4% excise tax on such income. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended June 30, 2024, \$125 and \$1,124, respectively, was recorded for U.S. federal excise tax. For the three months ended June 30, 2023, the company did not record any U.S. federal excise tax. For the nine months ended June 30, 2023, \$2,432 was recorded for U.S. federal excise tax.

The Company accounts for income taxes in conformity with ASC Topic 740 — **Income Taxes** (“ASC Topic 740”). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company’s tax returns to determine whether the tax positions are “more-likely-than-not” to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or tax benefit in the current year. It is the Company’s policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions through June 30, 2024. The Company’s tax returns for the 2021 through 2023 tax years remain subject to examination by U.S. federal and most state tax authorities.

Certain of the Company’s consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes. Income tax expense, if any, is included under the income category for which it applies in the Consolidated Statements of Operations. For

the three months ended June 30, 2024, the Company did not record any U.S. income taxes. For the nine months ended June 30, 2024, \$71 was recorded for U.S. income taxes. For the three and nine months ended June 30, 2023, the Company did not record any U.S. income taxes.

**Dividends and distributions:** Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company can retain such capital gains for investment in its discretion.

**The Company has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes and the Company declares a cash distribution, then stockholders who participate in the DRIP will have their cash distribution reinvested in additional shares of the Company's common stock, rather than receiving the cash distribution. The Company expects to use newly issued shares under the guidelines of the DRIP if the Company's shares are trading at a premium to net asset value. The Company can purchase shares in the open market in connection with the obligations under the plan, and in particular, if the Company's shares are trading at a significant discount to net asset value ("NAV") and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under the DRIP.**

**In the event the market price per share of the Company's common stock on the date of a distribution exceeds the most recently computed NAV per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed NAV per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed NAV per share of common stock).**

**Share repurchase plan:** The Company has a share repurchase program (the "Program") which allows the Company to repurchase the Company's outstanding common stock on the open market at prices below the Company's NAV as reported in its most recently published consolidated financial statements. The Board reapproved the Program in August 2024 and the Program is implemented at the discretion of management. Shares can be purchased from time to time at prevailing market prices, through open market transactions, including block transactions. The Program permits repurchases up to \$150,000 of the Company's common stock. Refer to Note 11 for more information on the share repurchases under the Program.

**Equity Distribution Agreement:** On October 6, 2023, the Company entered into a new equity distribution agreement (the "2023 Equity Distribution Agreement"), by and among the Company, the Investment Adviser, Golub Capital LLC and Keefe, Bruyette & Woods, Inc. and Regions Securities LLC (the "Placement Agents"), in connection with the sale by the Company of shares of its common stock, having an aggregate offering price of up to \$250,000, in an "at the market offering," in amounts and at times to be determined by the Company. Actual sales, if any, will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions and the market price of the Company's common stock. The 2023 Equity Distribution Agreement provides that the Company may offer and sell shares from time to time through, or to, the Placement Agents, or to it. Sales of the shares, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market," as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on The Nasdaq Global Select Market or any similar securities exchange or sales made to or through a market maker other than on a securities exchange, at prices related to the prevailing market prices or at negotiated prices. Pursuant to the terms of the 2023 Equity Distribution Agreement, the Placement Agents will receive a commission from the Company of up to 1.50% of the gross sales price of any shares sold through the Placement Agents under the 2023 Equity Distribution Agreement. Offering costs for the 2023 Equity Distribution Agreement are charged against the proceeds from equity offerings when proceeds are received. During the three months ended December 31, 2023, the Company terminated the equity distribution agreement entered into on May 28, 2021 by and among the Company, the Investment Adviser, Golub Capital LLC and SMBC Nikko Securities America, Inc. (the "2021 Equity Distribution Agreement"). During the three and nine months ended June 30, 2024 and 2023, the Company did not issue any shares of common stock under the 2021 or 2023 Equity Distribution Agreements.

**Deferred debt issuance costs:** Deferred debt issuance costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. As of June 30, 2024 and September 30, 2023, the Company had deferred debt issuance costs of \$22,232 and \$15,613, respectively.

**These amounts are amortized and included in interest expense in the Consolidated Statements of Operations over the estimated average life of the borrowings. Amortization expense for deferred debt issuance costs for the three and nine months ended June 30, 2024 was \$2,214 and \$6,869, respectively. Amortization expense for deferred debt issuance costs for the three and nine months ended June 30, 2023 was \$1,937 and \$5,362, respectively.**

**Deferred offering costs:** Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of equity offerings. Deferred offering costs are charged against the proceeds from equity offerings when received. These amounts are included in other assets on the Consolidated Statements of Financial Condition.

**Basis of presentation:** The Company is an investment company as defined in the accounting and reporting guidance under

Accounting Standards Codification ("ASC") Topic 946 — **Financial Services** — **Investment Companies** ("ASC Topic 946").

The accompanying unaudited interim consolidated financial statements of the Company and related financial information have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") as established by the Financial Accounting Standards Board ("FASB") for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6, 10 and 12 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated.

Certain prior period amounts have been reclassified to conform to the current period presentation.

The unaudited interim consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto in the Company's Form 10-K for the year ended September 30, 2023, as filed with the U.S. Securities and Exchange Commission (the "SEC").

**Fair value of financial instruments:**

The Company applies fair value to all of its financial instruments in accordance with ASC Topic 820 — **Fair Value Measurement** ("ASC Topic 820"). ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Company's own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3. Any changes to the valuation methodology are reviewed by management and the Company's board of directors (the "Board") to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies.

**Use of estimates:**

The preparation of the unaudited interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Consolidation:** As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company.

**Assets related to transactions that do not meet ASC Topic 860 requirements for accounting sale treatment are reflected in the Company's Consolidated Statements of Financial Condition as investments. Those assets are owned by special purpose entities, including BDC Holdings, 2018 Issuer, Funding II, GCIC Holdings, GCIC 2018 Issuer, GBDC 3 Holdings, GBDC 3 Funding, GBDC 3 2021 Issuer, GBDC 3 2022 Issuer and the GBDC 3 2022-2 Issuer, that are consolidated in the Company's consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of GBDC (or any affiliate of GBDC).**

Accordingly, the Company consolidated the results of the Company's wholly-owned subsidiaries listed in the table below in its consolidated financial statements:

| Entity Name                             | Abbreviation       |
|-----------------------------------------|--------------------|
| Golub Capital BDC CLO III Depositor LLC | 2018 CLO Depositor |

**Cash and cash equivalents and foreign currencies:** Cash and cash equivalents and foreign currencies are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances exceed the Federal Deposit Insurance Corporation insurance limits.

**Restricted cash and cash equivalents and restricted foreign currencies:** Restricted cash and cash equivalents and restricted foreign currencies include amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash and cash equivalents and restricted foreign currencies are held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets.

**Foreign currency translation:** The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars. Non-U.S. dollar transactions during the period are valued at the prevailing spot rates on the applicable transaction date and the related assets and liabilities are revalued at the prevailing spot rates as of period-end.

**Net assets and fair values** are presented based on the applicable foreign exchange rates and fluctuations arising from the translation of assets and liabilities are included with the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations.

Foreign security and currency transactions involve certain considerations and risks not typically associated with investing in U.S. companies. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

**Derivative Instruments:**

The Company follows the guidance in ASC Topic 815, *Derivatives and Hedging* ("ASC Topic 815"), when accounting for derivative instruments.

**Forward currency contracts:** A forward currency contract is an obligation between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Company utilized forward currency contracts to economically hedge the currency exposure associated with certain foreign-denominated investments. The use of forward currency contracts does not eliminate fluctuations in the price of the underlying securities the Company owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the exchange rates on the contract date and reporting date and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized gains (losses) and unrealized appreciation (depreciation) on the contracts are included in the Consolidated Statements of Operations. Unrealized appreciation (depreciation) on forward currency contracts is recorded on the Consolidated Statements of Financial Condition by counterparty on a net basis, not taking into account collateral posted which is recorded separately, if applicable.

The primary risks associated with forward currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks can exceed the amounts reflected in the Consolidated Statements of Financial Condition.

Refer to Note 5 for more information regarding

the forward currency contracts.

**Interest rate swaps:**

The Company designated interest rate swaps as the hedging instrument in qualifying fair value hedge accounting relationships, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in interest expense and recognized as components of “interest expense” in the Company’s Consolidated Statement of Operations. The fair value of the interest rate swaps is included as a component of “Accounts payable and other liabilities” on the Company’s Consolidated Statements of Financial Condition. Refer to Note 5 for more information regarding the interest rate swaps.

**Revenue recognition:**

Investments and related investment income:

Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments.

Loan origination fees, original issue discount and market discount or premium are capitalized, and the Company accretes or amortizes such amounts over the life of the loan as interest income. For investments with contractual payment-in-kind (“PIK”) interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. In addition, the Company generates revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees, administrative agent fees, and prepayment premiums on loans. The Company records these fees as fee income when earned.

**Dividend income on equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. The Company has certain preferred equity securities in the portfolio that contain a PIK dividend provision that are accrued and recorded as income at the contractual rates, if deemed collectible. The accrued PIK and non-cash dividends are capitalized to the cost basis of the preferred equity security and are generally collected when redeemed by the issuer.**

**Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Each distribution received from limited liability company (“LLC”) and limited partnership (“LP”) investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.**

**Non-accrual loans:** A loan can be left on accrual status during the period the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management’s judgment, payments are likely to remain current.

**Purchase accounting:**

Pursuant to the GCIC Merger Agreement, the GCIC Merger Sub was first merged with and into GCIC, with GCIC as the surviving company (the “Initial GCIC Merger”), and, immediately following the Initial GCIC Merger, GCIC was then merged with and into the Company, with the Company as the surviving company (the Initial GCIC Merger and the subsequent merger, collectively, the “GCIC Merger”). Pursuant to the GBDC 3 Merger Agreement, the GBDC 3 Merger Sub was first merged with and into GBDC 3, with GBDC 3 as the surviving company in the Initial GBDC 3 Merger and, immediately following the Initial GBDC 3 Merger, GBDC 3 was then merged with and into the Company, with the Company as the surviving company. The GCIC Merger and the GBDC 3 Merger were accounted for under the asset acquisition method of accounting in accordance with ASC 805 —

**Business Combinations**

**Related Issues** (“ASC Topic 805”), also referred to as “purchase accounting.” Under the asset acquisition method of accounting, acquiring assets in groups not only requires ascertaining the cost of the asset (or net assets), but also allocating that cost to the individual assets (or individual assets and liabilities) that make up the group. Per ASC Topic 805, assets are recognized based on their cost to the acquiring entity, which generally includes transaction costs of the asset acquisition, and no gain or loss is recognized unless the fair value of non-cash assets given as consideration differs from the assets carrying amounts on the acquiring entity’s books.

The cost of the group of assets acquired in an asset acquisition is allocated to the individual assets acquired or liabilities assumed based on the relative fair values of net identifiable assets acquired other than “non-qualifying” assets (for example cash) and does not give rise to goodwill. To the extent that the consideration paid to GCIC or GBDC 3’s stockholders exceeded the relative fair values of the net identifiable assets of GCIC or GBDC 3 acquired other than “non-qualifying” assets, any such

premium paid by the Company was further allocated to the cost of the GCIC or GBDC 3 assets acquired by the Company pro-rata to their relative fair value, other than “non-qualifying” assets. As both GCIC and GBDC 3 did not have any “qualifying” assets at the time of acquisition, the premium was allocated to “non-qualifying” assets, which are GCIC and GBDC 3’s investments in loans and equity securities, including its investment in GCIC SLE. Immediately following the acquisitions of GCIC and GBDC 3, the Company recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC and GBDC 3 assets acquired was immediately recognized as unrealized depreciation on the Company’s Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income, with a corresponding reversal of the unrealized depreciation on the loans acquired from GCIC and GBDC 3 through their ultimate disposition. The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the equity securities acquired from GCIC or GBDC 3 and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the equity securities acquired from GCIC or GBDC 3.

**Income taxes:** The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify and be subject to tax as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute dividends for U.S. federal income tax purposes to its stockholders of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company has made, and intends to continue to make, the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders.

Depending on the level of taxable income earned in a tax year, the Company can determine to retain taxable income in excess of current year dividend distributions and distribute such taxable income in the next tax year. The Company may then be required to incur a 4% excise tax on such income. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and nine months ended June 30, 2024, \$125 and \$1,124, respectively, was recorded for U.S. federal excise tax. For the three months ended June 30, 2023, the company did not record any U.S. federal excise tax. For the nine months ended June 30, 2023, \$2,432 was recorded for U.S. federal excise tax.

**Income Taxes** The Company accounts for income taxes in conformity with ASC Topic 740 — “Income Taxes” (ASC Topic 740). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company’s tax returns to determine whether the tax positions are “more-likely-than-not” to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or tax benefit in the current year. It is the Company’s policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions through June 30, 2024. The Company’s tax returns for the 2021 through 2023 tax years remain subject to examination by U.S. federal and most state tax authorities. Certain of the Company’s consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes. Income tax expense, if any, is included under the income category for which it applies in the Consolidated Statements of Operations.

**Dividends and distributions:** Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company can retain such capital gains for investment in its discretion.

The Company has adopted a dividend reinvestment plan (“DRIP”) that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes and the Company declares a cash distribution, then stockholders who participate in the DRIP will have their cash distribution reinvested in additional shares of the Company’s common stock, rather than receiving the cash distribution. The Company expects to use newly issued shares under the guidelines of the DRIP if the Company’s shares are trading at a premium to net asset value. The Company can purchase shares in the open market in connection with the obligations under the plan, and in particular, if the Company’s shares are trading at a significant discount to net asset value (“NAV”) and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under the DRIP.

In the event the market price per share of the Company’s common stock on the date of a distribution exceeds the most recently computed NAV per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed NAV per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed NAV per share of common stock).

**Share repurchase plan:** The Company has a share repurchase program (the “Program”)

which allows the Company to repurchase the Company's outstanding common stock on the open market at prices below the Company's NAV as reported in its most recently published consolidated financial statements. The Board reapproved the Program in August 2024 and the Program is implemented at the discretion of management. Shares can be purchased from time to time at prevailing market prices, through open market transactions, including block transactions.

**Deferred offering costs:** Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of equity offerings. Deferred offering costs are charged against the proceeds from equity offerings when received. These amounts are included in other assets on the Consolidated Statements of Financial Condition.

**Equity Distribution Agreement:** On October 6, 2023, the Company entered into a new equity distribution agreement (the "2023 Equity Distribution Agreement"), by and among the Company, the Investment Adviser, Golub Capital LLC and Keefe, Bruyette & Woods, Inc. and Regions Securities LLC (the "Placement Agents"), in connection with the sale by the Company of shares of its common stock, having an aggregate offering price of up to \$250,000, in an "at the market offering," in amounts and at times to be determined by the Company. Actual sales, if any, will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions and the market price of the Company's common stock. The 2023 Equity Distribution Agreement provides that the Company may offer and sell shares from time to time through, or to, the Placement Agents, or to it. Sales of the shares, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market," as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on The Nasdaq Global Select Market or any similar securities exchange or sales made to or through a market maker other than on a securities exchange, at prices related to the prevailing market prices or at negotiated prices. Pursuant to the terms of the 2023 Equity Distribution Agreement, the Placement Agents will receive a commission from the Company of up to 1.50% of the gross sales price of any shares sold through the Placement Agents under the 2023 Equity Distribution Agreement. Offering costs for the 2023 Equity Distribution Agreement are charged against the proceeds from equity offerings when proceeds are received.

**Deferred debt issuance costs:** Deferred debt issuance costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. These amounts are amortized and included in interest expense in the Consolidated Statements of Operations over the estimated average life of the borrowings.

**Note 3. Related Party Transactions**

**Investment Advisory Agreement:** Under the Investment Advisory Agreement, the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, GBDC. The Board approved the Investment Advisory Agreement on June 3, 2024. The Investment Advisory Agreement amended the Prior Investment Advisory Agreement in order to incorporate changes to the calculation of the incentive fee rates and the incentive fee cap. Under the Investment Advisory Agreement, the incentive fee rates were reduced from 20.0% to 15.0%, and the incentive fee cap was reduced from 20.0% to 15.0%. None of the other material terms changed in the Investment Advisory Agreement as compared to the Prior Investment Advisory Agreement, including the services to be provided and the calculation of the base management fee. The Investment Advisory Agreement was entered into and effective as of June 3, 2024, the closing of the GBDC 3 Merger. On August 3, 2023, effective as of July 1, 2023, the Board approved the Prior Investment Advisory Agreement, pursuant to which the base management fee rate was reduced from 1.375% to 1.0%. The Investment Adviser is a registered investment adviser with the U.S. Securities and Exchange Commission (the "SEC"). The Investment Adviser receives fees for providing services, consisting of two components: a base management fee and an Incentive Fee (as defined below).

**The base management fee is calculated at an annual rate equal to 1.0% (or 1.375% for periods ending on or before June 30, 2023) of the fair value of the average adjusted gross assets of the Company at the end of the two most recently completed calendar quarters (including assets purchased with borrowed funds and securitization-related assets, leverage, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit for such derivative instruments with custodian but adjusted to exclude cash and cash equivalents so that investors do not pay the base management fee on such assets) and is payable quarterly in arrears. Additionally, the Investment Adviser voluntarily excludes any assets funded with secured borrowing proceeds from the base management fee calculation. The base management fee is adjusted, based on the actual number of days elapsed relative to the total number of days in such calendar quarter, for any share issuances or repurchases during such calendar quarter. For purposes of the Investment Advisory Agreement, cash equivalents mean U.S. government securities and commercial paper instruments maturing within 270 days of purchase (which is different than the GAAP definition, which defines cash equivalents as U.S. government securities and commercial paper instruments maturing within 90 days of purchase). To the extent that the Investment Adviser or any of its affiliates provides investment advisory, collateral management or other similar services to a subsidiary of the Company, the base management fee will be reduced by an amount equal to the product of (1) the total fees paid to the Investment Adviser by such subsidiary for such services and (2) the percentage of such subsidiary's total equity, including membership interests and any class of notes not exclusively held by one or more third parties, that is owned, directly or indirectly, by the Company.**

**The Investment Adviser serves as collateral manager under the 2018 Collateral Management Agreement (as described in Note 7), the GCIC 2018 Collateral Management Agreement (as described in Note 7), the 2021 Collateral Management Agreement (as described in Note 7), the 2022 Collateral Management Agreement (as described in Note 7) and the 2022-2 Collateral Management Agreement (as described in Note 7). Fees payable to the Investment Adviser for providing these services are offset against the base management fee payable by the Company under the Investment Advisory Agreement.**

**The base management fee incurred for the three and nine months ended June 30, 2024 was \$14,362 and \$41,980, respectively. The base management fee incurred for the three and nine months ended June 30, 2023**

was \$18,997 and \$56,747, respectively.

The Company has structured the calculation of the Incentive Fee to include a fee limitation such that an Incentive Fee for any quarter can only be paid to the Investment Adviser if, after such payment, the cumulative Incentive Fees paid to the Investment Adviser, calculated on a per share basis, since April 13, 2010, the effective date of the Company's election to become a BDC, would be less than or equal to 15.0% of the Company's Cumulative Pre-Incentive Fee Net Income (as defined below).

The Company accomplishes this limitation by subjecting each quarterly Incentive Fee payable under the Income and Capital Gain Incentive Fee Calculation (as defined below) to a cap (the "Incentive Fee Cap"). Under the Investment Advisory Agreement, the Incentive Fee Cap in any quarter is equal to the difference between (a) 15.0% of Cumulative Pre-Incentive Fee Net Income Per Share (as defined below) and (b) Cumulative Incentive Fees Paid Per Share (as defined below). To the extent the Incentive Fee Cap is zero or a negative value in any quarter, no Incentive Fee would be payable in that quarter. If, for any relevant period, the Incentive Fee Cap calculation results in the Company paying less than the amount of the Incentive Fee calculated above, then the difference between the Incentive Fee and the Incentive Fee Cap will not be paid by GBDC and will not be received by the Investment Adviser as an Incentive Fee either at the end of such relevant period or at the end of any future period. "Cumulative Pre-Incentive Fee Net Income Per Share" equals the sum of "Pre-Incentive Fee Net Income Per Share" (as defined below) for each quarterly period since April 13, 2010. "Pre-Incentive Fee Net Income Per Share" equals the sum of (i) Pre-Incentive Fee Net Investment Income (as defined below) and (ii) Adjusted Capital Returns for the applicable period, divided by (b) the weighted average number of shares of GBDC common stock outstanding during such period. "Adjusted Capital Returns" for any period is the sum of the realized aggregate capital gains, realized aggregate capital losses, aggregate unrealized capital depreciation and aggregate unrealized capital appreciation for such period; provided that the calculation of realized aggregate capital gains, realized aggregate capital losses, aggregate unrealized capital depreciation and aggregate unrealized capital appreciation shall not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation resulting solely from the purchase accounting for any premium or discount paid for the acquisition of assets in a merger. "Cumulative Incentive Fees Paid Per Share" is equal to the sum of Incentive Fees Paid Per Share since April 13, 2010. "Incentive Fees Paid Per Share" for any period is equal to the Incentive Fees accrued and/or payable to the Company for such period, divided by the weighted average number of shares of common stock of GBDC during such period.

"Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the calendar quarter (including the base management fee, taxes, any expenses payable under the Investment Advisory Agreement and the Administration Agreement, any expenses of securitizations and any interest expense and dividends paid on any outstanding preferred stock, but excluding the Incentive Fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that the Company has not yet received in cash.

Incentive Fees are calculated and payable quarterly in arrears (or, upon termination of the Investment Advisory Agreement, as of the termination date).

The income and capital gains incentive fee calculation (the "Income and Capital Gain Incentive Fee Calculation") has two parts, the income component (the "Income Incentive Fee") and the capital gains component (the "Capital Gain Incentive Fee" and, together with the Income Incentive Fee, the "Incentive Fee"). The Income Incentive Fee is calculated quarterly in arrears based on the Company's Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter.

For the three and nine months ended June 30, 2024, the Income Incentive Fee incurred was \$14,400 and \$56,311, respectively. For the three and nine months ended June 30, 2023, the Income Incentive Fee incurred was \$18,857 and \$52,844, respectively.

On January 16, 2024, the Investment Adviser agreed to irrevocably waive any incentive fees in excess of 15% and waive incentive fees in excess of an incentive fee cap that is also reduced to 15%, in each case effective as of January 1, 2024, for periods ending on or prior to the earlier of (i) the closing of the acquisition of GBDC 3 pursuant to the GBDC 3 Merger Agreement or (ii) the termination of the GBDC 3 Merger Agreement (the "Waiver Period"), in accordance with the terms of a waiver letter agreement (the "GBDC 3 Merger Waiver") to the Prior Investment Advisory Agreement. During the Waiver Period, as a result of the GBDC 3 Merger Waiver, fees payable to the Investment Adviser under the Prior Investment Advisory Agreement, net of the GBDC 3 Merger Waiver, will equal those that would be payable under the Post-GBDC 3 Merger Advisory Agreement.

In addition, the Investment Adviser unilaterally agreed to irrevocably waive 100% of the Income Incentive Fee payable to the Investment Adviser under the Investment Advisory Agreement for the three months ended June 30, 2024.

For the three and nine months ended June 30, 2024, the Investment Adviser irrevocably waived \$14,400 and \$19,557 of income incentive fees, respectively. For the three and nine months ended June 30, 2023, there was no Income Incentive Fee irrevocably waived.

The Investment Advisory Agreement excludes the impact of purchase accounting resulting from a merger, including the GCIC Merger and GBDC 3 Merger, from the calculation of income subject to the Income Incentive Fee and the calculation of the Incentive Fee Cap. As a result, under the Investment Advisory Agreement, Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation or any amortization or accretion of any purchase premium or discount to interest income solely from the purchase accounting for any premium or discount paid for the acquisition of assets in a merger, such as the premium to net asset value paid for the shares of GCIC and GBDC

3 common stock in the GCIC Merger and GBDC 3 Merger. Because of the structure of the Income Incentive Fee, it is possible that an Incentive Fee is calculated under this formula with respect to a period in which the Company has incurred a loss. For example, if the Company receives Pre-Incentive Fee Net Investment Income in excess of the hurdle rate (as defined below) for a calendar quarter, the Income Incentive Fee will result in a positive value and an Incentive Fee will be paid even if the Company has incurred a loss in such period due to realized and/or unrealized capital losses unless the payment of such Incentive Fee would cause the Company to pay Incentive Fees on a cumulative basis that exceed the Incentive Fee Cap.

**Pre-Incentive Fee Net Investment Income**, expressed as a rate of return on the value of the Company's net assets (defined as total assets less indebtedness and before taking into account any Incentive Fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 2.0% quarterly.

If market interest rates rise, it is possible that the Company will be able to invest funds in debt instruments that provide for a higher return, which would increase Pre-Incentive Fee Net Investment Income and make it easier for the Investment Adviser to surpass the fixed hurdle rate and receive an Incentive Fee based on such net investment income.

The Company's Pre-Incentive Fee Net Investment Income used to calculate this part of the Incentive Fee is also included in the amount of the Company's total assets (excluding cash and cash equivalents but including assets purchased with borrowed funds and securitization-related assets, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit with custodian) used to calculate the base management fee annua

**I rate.**

For periods ending on or before March 31, 2024, the Company calculates the Income Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income quarterly, in arrears, as follows:

• Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate;

• 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. This portion of the Company's Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than 2.5%) is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 20.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply if the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any calendar quarter;

and

• 20.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any calendar quarter.

For periods ending after June 3, 2024, including the three months ended June 30, 2024, the Company calculates the Income Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income quarterly, in arrea

rs, as follows:

• Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate;

• 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than the percentage at which amounts payable to the Adviser equals 15.0% of the Company's Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply. This portion of the Company's Pre-Incentive Fee Net Investment Income is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 15.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply; and

• 15.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds the catch-up provision in any calendar quarter.

The Capital Gain Incentive Fee equals (a) 15.0% of the Company's Capital Gain Incentive Fee Base (as defined below), if any, calculated in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), which commenced with the calendar year ending December 31, 2010, less (b) the aggregate amount of any previously paid Capital Gain Incentive Fees. The Company's "Capital Gain Incentive Fee Base" equals (1) the sum of (A) realized capital gains, if any, on a cumulative positive basis from the date the Company elected to become a BDC through the end of each calendar year, (B) all realized capital losses on a cumulative basis and (C) all unrealized capital depreciation on a cumulative basis less (2) all unamortized deferred debt issuance costs, if and to the extent such costs exceed all unrealized capital appreciation on a cumulative basis.

If the Capital Gain Incentive Fee Base, adjusted as required by GAAP to include unrealized capital appreciation, is positive at the end of a period, then GAAP requires the Company to accrue a capital gain incentive fee equal to 15% of such amount, less the aggregate amount of the actual Capital Gain Incentive Fees paid and capital gain incentive fees accrued under GAAP in all prior periods. If such amount is negative, then there is no accrual for such period. The Company is party to an unsecured revolving credit facility with the Investment Adviser (as amended, the "Adviser Revolver") which, as of June 30, 2024 permits the Company to borrow a maximum of \$200,000 and expires on June 15, 2025. As of September 30, 2023, the Company was permitted to borrow a maximum of \$100,000 under the Adviser Revolver. Refer to Note 7 Borrowings for discussion of the Adviser Revolver.

Effective June 3, 2024, the Company assumed, as a result of the GBDC 3 Merger, an unsecured revolving credit facility with the Investment Adviser ("GBDC 3 Adviser Revolver") that had a credit limit of \$100,000. The GBDC 3 Adviser Revolver was terminated on June 11, 2024.

On June 3, 2024, the Company completed its acquisition of GBDC 3. Refer to Note 13 for more information regarding the GBDC 3 Merger.

Senior secured investments represent debt securities issued or guaranteed by entities whose assets are primarily real estate related assets. Senior secured investments are classified as held-to-maturity if they have fixed payments and maturities less than one year from the reporting date. If there is uncertainty about whether such investments will be held until maturity, they are classified as available-for-sale. Available-for-sale investments are reported at fair value, with unrealized gains or losses recognized in equity. Principal investments represent common stock owned by the company. Amortized cost represents the carrying amount of principal investments calculated based upon their original cost plus amortization of premium paid over par value. Fair value represents the estimated market price of the investments at the end of the period.

Interest Rate Swaps

In connection with the 2028 Notes (as defined in Note 7), the Company entered into interest rate swap agreements to more closely align the interest rate of such liability with its investment portfolio, which consists primarily of floating rate loans. Under the interest rate swap agreements, the Company (i) receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 3.327% on the first \$225,000 of the 2028 Notes and (ii) receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 2.835% on the second \$225,000 of the 2028 Notes. The Company designated these interest rate swaps and the 2028 Notes as a qualifying fair value hedge accounting relationship. See Note 7 for more information on the 2028 Notes.

In connection with the 2029 Notes (as defined in Note 7), the Company entered into an interest rate swap agreement to more closely align the interest rate of such liability with its investment portfolio, which consists primarily of floating rate loans. Under the interest rate swap agreement, the Company receives a fixed interest rate of 6.248% and pays a floating interest rate of one-month SOFR plus 2.444% on \$600,000 of the 2029 Notes. The Company designated this interest rate swap and the 2029 Notes as a qualifying fair value hedge accounting relationship. See Note 7 for more information on the 2029 Notes.

As of June 30, 2024, the counterparty to the Company's interest rate swap agreements was SMBC.

As a result of the Company's designation as a hedging instrument in a qualifying fair value hedge accounting relationship, the Company is required to fair value the hedging instrument and the related hedged item, with the changes in the fair value of each being recorded in interest expense. The net gain/(loss) related to the fair value hedge was \$(5,763) and \$(2,991) for the three and nine months ended June 30, 2024, which is included in "Interest expense" in the Company's Consolidated Statement of Operations. The Statement of Financial Condition impact of fair valuing the interest rate swaps as of June 30, 2024 is presented below:

interest transactions such as swap transactions or futures contracts for the Company may cause the Investment Adviser to fall within the

definition of "commodity pool operator" under the Commodity Exchange Act (the "CEA") and related Commodity Futures Trading Commission (the "CFTC") regulations. The Investment Adviser has claimed an exclusion from the definition of the term "commodity pool operator" under the CEA and the CFTC regulations in connection with its management of the Company and, therefore, is not subject to CFTC registration or regulation under the CEA as a commodity pool operator with respect to its management of the Company.

The outstanding forward currency contracts as of June 30, 2024 and September 30, 2023 were as follows:

Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. The Company's fair value analysis includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows: </span></div><div><span><br></span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 1: </span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. </span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 2: </span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities. </span></div><div><span><br></span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 3: </span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for |

the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The Company assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three and nine months ended June 30, 2024 and 2023. The following section describes the valuation techniques used by the Company to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.

Investments

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on the number of portfolio companies) of the Company's valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. All investments as of June 30, 2024 and September 30, 2023, with the exception of one portfolio company investment (Level 1 investments), were valued using Level 3 inputs. As of June 30, 2024 and September 30, 2023, all money market funds included in cash and cash equivalents and restricted cash and cash equivalents were valued using Level 1 inputs and all forward currency contracts and interest rate swaps were valued using Level 2 inputs.

When determining fair value of Level 3 debt and equity investments, the Company takes into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that affect the price at which similar investments are made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA"). A portfolio company's EBITDA can include pro forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company bases its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others may be willing to pay. Ask prices represent the lowest price that the Company and others may be willing to accept. The Company generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that are ultimately received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which such investment had previously been recorded. The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

The following tables present fair value measurements of the Company's investments and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as of June 30, 2024 and September 30, 2023:

The Company uses EBITDA multiples and, to a lesser extent, revenue multiples on its debt and equity investments to determine any credit gains or losses. Increases or decreases in either of these inputs in isolation would have resulted in a significantly lower or higher fair value measurement. The Company uses market interest rates for loans to determine if the effective yield on a loan is commensurate with the market yields for that type of loan. If a loan's effective yield was significantly less than the market yield for a similar loan with a similar credit profile, then the resulting fair value of the loan may have been lower.</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:700;line-height:120%">Other Financial Assets and Liabilities</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. The fair value of the Company's 2024 Notes, 2026 Notes, 2027 Notes, 2028 Notes and 2029 Notes (as defined in Note 7. Borrowings) is based on vendor pricing received by the Company, which is considered a Level 2 input. The fair value of the Company's remaining debt is estimated using Level 3 inputs by discounting remaining payments using comparable market rates or market quotes for similar instruments at the measurement date, if available.</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">The following are the carrying values and fair values of the Company's debt as of June 30, 2024 and September 30, 2023.</span></div><div style="text-align:center"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:bottom;width:99.839%"><tr><td style="width:1.0%"></td><td style="width:24.742%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.877%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.717%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.877%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.602%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.881%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:700;line-height:100%">As of June 30, 2024</span></td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:700;line-height:100%">As of September 30, 2023</span></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:700;line-height:100%"></span></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:700;line-height:100%">Carrying Value</span></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:700;line-height:100%">Fair Value</span></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:400;line-height:100%">Debt</span></td><td colspan="9" style="background-color:#e6e6ff;border-top:1pt solid #000000;padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:400;line-height:100%">\$</span></td><td colspan="9" style="background-color:#e6e6ff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-weight:400;line-height:100%">4,337,697</span></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="background-color:#e6e6ff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:9pt;font-

Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. The Company's fair value analysis includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows:</span></div><div><span><br></span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 1:</span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">— Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.</span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 2:</span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">— Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities.</span></div><div><span><br></span></div><div style="padding-left:36pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Level 3:</span><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and require significant management judgment or estimation.</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">In certain cases, the inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The Company assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three and nine months ended June 30, 2024 and 2023. The following section describes the valuation techniques used by the Company to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Investments</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:115%">Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on the number of portfolio companies) of the Company's valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. All investments as of June 30, 2024 and September 30, 2023, with the exception of one portfolio company investment (Level 1 investments), were valued using Level 3 inputs. As of June 30, 2024 and September 30, 2023, all money market funds included in cash and cash equivalents and restricted cash and cash equivalents were valued using Level 1 inputs and all forward currency contracts and interest rate swaps were valued using Level 2 inputs.</span></div><div><span><br></span></div><div><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">When determining fair value of Level 3 debt and equity investments, the Company takes into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of

any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that affect the price at which similar investments are made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA"). A portfolio company's EBITDA can include pro forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company bases its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others may be willing to pay. Ask prices represent the lowest price that the Company and others may be willing to accept. The Company generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that are ultimately received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which such investment had previously been recorded. The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

The following tables present fair value measurements of the Company's investments and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as of June 30, 2024 and September 30, 2023:

2018 Debt Securitization"). The GCIC 2018 Debt Securitization was originally completed on December 13, 2018. The notes offered in the GCIC 2018 Debt Securitization (the "GCIC 2018 Notes") were issued by the GCIC 2018 Issuer, a subsidiary of GCIC 2018 CLO Depositor, and are secured by a diversified portfolio of senior secured and second lien loans. The GCIC 2018 Debt Securitization consists of \$490,000 of AAA/AAA Class A-1 GCIC 2018 Notes, \$38,500 of AAA Class A-2 GCIC 2018 Notes, and \$18,000 of AA Class B-1 GCIC 2018 Notes. In partial consideration for the loans transferred to the GCIC 2018 Issuer as part of the GCIC 2018 Debt Securitization, the GCIC 2018 CLO Depositor received and retained \$27,000 of Class B-2 GCIC 2018 Notes, \$95,000 of Class C GCIC 2018 Notes and \$60,000 of Class D GCIC 2018 Notes and \$179,695 of Subordinated GCIC 2018 Notes. On December 21, 2020, the Company and the GCIC 2018 Issuer amended the GCIC 2018 Debt Securitization to, among other things, (a) refinance the issued Class A-2 GCIC 2018 Notes issued by the GCIC 2018 Issuer by redeeming in full the \$38,500 of Class A-2 GCIC 2018 Notes and issuing new Class A-2-R GCIC 2018 Notes in an aggregate principal amount of \$38,500 that bear interest at a rate of 2.498%, which is a decrease from the rate of 4.665% of the Class A-2 GCIC 2018 Notes and (b) provide for a non-called period, during which the Class A-2-R GCIC 2018 Notes cannot be redeemed, from December 21, 2020 to but excluding June 21, 2021. The Class A-1, Class A-2-R and Class B-1 GCIC 2018 Notes are included in the June 30, 2024 and September 30, 2023 Consolidated Statements of Financial Condition as debt of the Company. GCIC 2018 Notes and the Subordinated GCIC 2018 Notes were eliminated in consolidation.

Through January 20, 2023, the GCIC 2018 Issuer was permitted to use all principal collections received on the underlying collateral to purchase new collateral under the direction of the Investment Adviser in its capacity as collateral manager of the GCIC 2018 Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the initial leverage in the GCIC 2018 Debt Securitization. For the three and nine months ended June 30, 2024, the Company had repayments on the GCIC 2018 Notes of \$87,299 and \$133,510, respectively.

For the three and nine months ended June 30, 2023, the Company had repayments on the GCIC 2018 Notes of \$8,628. The GCIC 2018 Notes are scheduled to mature on January 20, 2031, and the Subordinated GCIC 2018 Notes are scheduled to mature on December 13, 2118.

Two loan sale agreements govern the GCIC 2018 Debt Securitization. One of the loan sale agreements provided for the sale of assets upon the closing of the GCIC 2018 Debt Securitization to satisfy risk retention requirements. Under the terms of the other loan sale agreement governing the GCIC 2018 Debt Securitization, the Company agreed to directly or indirectly through the GCIC 2018 CLO Depositor sell or contribute certain senior secured and second lien loans (or participation interests therein) to the GCIC 2018 Issuer.

As of June 30, 2024 and September 30, 2023, there were 67 and 87 portfolio companies, respectively, with a total fair value of \$615,268 and \$841,241, respectively, securing the GCIC 2018 Notes. The pool of loans in the GCIC 2018 Debt Securitization must meet certain requirements, including asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

The interest charged under the GCIC 2018 Debt Securitization is based on three-month SOFR plus a spread adjustment of 0.26161%. The three-month SOFR in effect as of June 30, 2024 based on the last interest rate reset was 5.3%.

For the three and nine months ended June 30, 2024 and 2023, the components of interest expense, cash paid for interest, annualized average stated interest rates and average outstanding balances for the GCIC 2018 Debt Securitization were as follows:

Interest rate for securitizations represents the weighted average spread over 3-month SOFR for the various tranches of issued notes, excluding tranches retained by the Company.

SOFR borrowings under the securitizations are subject to an additional spread adjustment of 0.26161%.

As part of each of the 2018 Debt Securitization and the GCIC 2018 Debt Securitization, GBDC entered into, or assumed in the GCIC Merger, master loan sale agreements under which GBDC agreed to directly or indirectly sell or contribute certain senior secured and second lien loans (or participation interests therein) to the 2018 Issuer and the GCIC 2018 Issuer, as applicable, and to purchase or otherwise acquire the LLC equity interests in the Subordinated 2018 Notes and the GCIC Subordinated 2018 Notes, as applicable. As of June 30, 2024, the 2018 Notes and the GCIC 2018 Notes (other than the Subordinated 2018 Notes and the GCIC Subordinated 2018 Notes)

were the secured obligations of the 2018 Issuer and the GCIC 2018 Issuer, respectively, and indentures governing each of the 2018 Notes and the GCIC 2018 Notes include customary covenants and events of default.

GBDC 3 2021 Debt Securitization:

Effective June 3, 2024, the Company assumed, as a result of the GBDC 3 Merger, a \$398,850 term debt securitization (the "GBDC 3 2021 Debt Securitization"). The GBDC 3 2021 Debt Securitization was originally completed on March 11, 2021. The notes offered in the GBDC 3 2021 Debt Securitization (the "GBDC 3 2021 Notes") were issued by the GBDC 3 2021 Issuer and are backed by a diversified portfolio of senior secured and second lien loans. lenders from time to time parties thereto, Deutsche Bank AG, New York Branch, as facility agent, the other agents parties thereto, each of the entities from time to time party thereto as securitization subsidiaries and Deutsche Bank Trust Company Americas, as collateral agent and as collateral custodian. The DB Credit Facility was originally entered into on September 10, 2019 (the "DB Credit Facility Effective Date"). The period during which GBDC 3 Funding may request drawdowns under the DB Credit Facility (the "Revolving Period") commenced on the DB Credit Facility Effective Date and continues through April 10, 2025. As of June 30, 2024, the DB Credit Facility allowed GBDC 3 Funding to borrow up to \$625,000, subject to leverage and borrowing base restrictions, and has a maturity date of April 10, 2028.

As of June 30, 2024, the DB Credit Facility bears interest at the applicable base rate plus 2.30% per annum during the Revolving Period and 2.80% after the Revolving Period. The base rate under the DB Credit Facility is (i) the three-month Canadian Overnight Repo Rate Average ("CORRA") plus an adjustment equal to 0.32138% with respect to any advances denominated in Canadian dollars, (ii) the three-month EURIBOR with respect to any advances denominated in euros, (iii) the three-month Bank Bill Swap Rate with respect to any advances denominated in Australian dollars, (iv) the daily simple Sterling Overnight Index Average with respect to any advances denominated U.K. pound sterling, the daily simple Swiss Average Rate Overnight with respect to any advances denominated in Swiss francs, (v) the three-month Copenhagen Interbank Offered Rate with respect to any advances denominated in Danish kroner, (vi) the three-month Bank Bill Benchmark Rate with respect to any advances denominated in New Zealand dollars, (vii) the three-month Norwegian Krone Interbank Offered Rate with respect to any advances denominated in Norwegian krona, (viii) the three-month Stockholm Interbank Offered Rate with respect to any advances denominated in Swedish krona, and (ix) the three-month term SOFR with respect to any other advances. A syndication/agent fee is payable to the facility agent each quarter and is calculated based on the aggregate commitments outstanding each day during the preceding collection period at a rate of 1/360 of 0.25% of the aggregate commitments on each day. In addition, a non-usage fee of 0.25% per annum is payable on the undrawn amount under the DB Credit Facility, and, during the Revolving Period, an additional fee based on unfunded commitments of the lenders may be payable if borrowings under the DB Credit Facility do not exceed a minimum utilization percentage threshold. A prepayment fee would be payable in the event of any permanent reduction in commitments of the DB Credit Facility in the amount of 0.50% or 0.25% of the amount of the reduction during the first or second year after the Effective Date, respectively.

The DB Credit Facility is secured by all of the assets held by GBDC 3 Funding. GBDC 3 Funding has made customary representations and warranties and is required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities. The borrowings of the Company, including under the DB Credit Facility, are subject to the leverage restrictions contained in the 1940 Act.

The Company transfers certain loans and debt securities it has originated or acquired from time to time to GBDC 3 Funding through a purchase and sale agreement and causes GBDC 3 Funding to originate or acquire loans, consistent with the Company's investment objectives.

As of June 30, 2024, the Company had outstanding debt under the DB Credit Facility of \$565,778.

JPM Credit Facility

: On February 11, 2021, the Company entered into a senior secured revolving credit facility (as amended, the "JPM Credit Facility") with the Company, as borrower, JPMorgan Chase Bank N.A., as administrative agent and as collateral agent, and the lenders from time to time party thereto which, as of June 30, 2024, allowed the Company to borrow up to \$1,487,500 in U.S. dollars and certain agreed upon foreign currencies, subject to leverage and borrowing base restrictions. Through a series of amendments, most recently on June 7, 2024, the Company amended the JPM Credit Facility to, among other things, extend the maturity date to March 17, 2028, decrease the adjustment to term SOFR for loans using such rate to 0.10%, increase the accordion feature to allow the Company to request, at one or more times, that existing and/or new lenders, at their election provide up to \$512,500 of additional commitments and update the applicable reference rate with respect to borrowings denominated in Canadian Dollars with CORRA.

The JPM Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to \$23,750, subject to increase or reduction from time to time pursuant to the terms of the JPM Credit Facility.

The JPM Credit Facility is secured by a first priority security interest in substantially all of the assets of the Company and certain of the Company's subsidiaries thereunder.

Borrowings under the JPM Credit Facility bear interest at the applicable base rate plus a margin of either 1.75% or 1.875%, subject to compliance with a borrowing base test. The applicable base rate under the JPM Credit Facility is (i) one-month SOFR with respect to any advances denominated in U.S. dollars, (ii) SONIA with respect to any advances denominated in U.K. pound sterling, (iii) one-month EURIBOR with respect to any advances denominated in euros, (iv) CORRA with respect to any advances denominated in Canadian Dollars, and (v) the relevant rate as defined in the JPM Credit Facility for borrowings in other currencies. Effective September 13, 2022, interest under the JPM Facility for loans denominated in SOFR were converted to reference a benchmark rate of term SOFR plus an adjustment of an amount ranging between 0.11448% and 0.42826% (subject to applicable tenor). Effective March 17, 2023, the adjustment to term SOFR was reduced to 0.10%.

The Company pays a commitment fee of 0.375% per annum on the daily unused portion of commitments under the JPM Credit Facility. The Company is also required to pay letter of credit participation fees and a fronting fee on the daily amount of any lender's exposure with respect to any letters of credit issued at the request of the Company under the JPM Credit Facility. The JPM Credit Facility matures on March 17, 2028 and requires mandatory prepayment of interest and principal upon certain events during the one year amortization period of the facility.

As of June 30, 2024 and September 30, 2023, the Company had outstanding debt of \$333,718 and \$784,374, respectively, and no letters of credit outstanding under the JPM Credit Facility.

For the three and nine months ended June 30, 2024 and 2023, the components of interest expense, cash paid for interest and facility fees, annualized average stated interest rates and average outstanding balances for the JPM Credit Facility were as follows:

2024 Notes:

On October 2, 2020, the Company issued \$400,000 in aggregate principal amount of unsecured notes (the “2024 Notes”), and on October 15, 2021, the Company issued an additional \$100,000 in aggregate principal amount of 2024 Notes under the same terms of the original issuance. On April 8, 2024, the Company redeemed \$500,000 in aggregate principal amount of the 2024 Notes. The 2024 Notes were redeemed at 100% of the principal amount, plus the accrued and unpaid interest thereon. As of September 30, 2023, the outstanding aggregate principal amount of the 2024 Notes was \$500,000. The 2024 Notes bore interest at a rate of 3.375% per year payable semiannually in arrears on April 15 and October 15 of each year, commencing on April 15, 2021.

The 2024 Notes were the Company’s general unsecured obligations that ranked senior in right of payment to all of the Company’s future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2024 Notes; equal in right of payment to the Company’s existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company’s secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company’s subsidiaries, financing vehicles or similar facilities.

2029 Notes:

On February 1, 2024, the Company issued \$600,000 in aggregate principal amount of unsecured notes (the "2029 Notes"). As of June 30, 2024, the outstanding aggregate principal amount of the 2029 Notes was \$600,000. The 2029 Notes bear interest at a rate of 6.000% per year payable semi-annually in arrears on January 15 and July 15 of each year, commencing on July 15, 2024. The 2029 Notes mature on July 15, 2029.

The 2029 Notes are the Company's general unsecured obligations that rank senior in right of payment to all of the Company's future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2029 Notes; equal in right of payment to the Company's existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company's secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities.

At any time or from time to time, the Company may redeem some or all of the 2029 Notes at a redemption price equal to the greater of (1) 100% of the principal amount of the 2029 Notes to be redeemed or (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on the 2029 Notes on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the applicable Treasury Rate plus 35 basis points less interest accrued to the date of redemption. If the Company redeems any 2029 Notes on or after June 15, 2029 (the date falling one month prior to the maturity date of the 2029 Notes), the redemption price for the 2029 Notes will be equal to 100% of the principal amount of the 2029 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date. No sinking fund is provided for the 2029 Notes.

On February 1, 2024, the Company entered into an interest rate swap on the 2029 Notes with SMBC as the counterparty. Under the terms of the agreement, the Company agreed to receive a fixed rate of 6.248% and pay SMBC a rate of one-month Term SOFR + 2.444%. The interest rate swap is designated as an effective hedge accounting relationship. The notional amount of the swap is \$600,000 and terminates on June 15, 2029. The carrying value of the 2029 Notes is inclusive of an adjustment for the change in fair value of an effective hedge accounting relationship. See Note 5 for additional information.

For the three and nine months ended June 30, 2024, the components of interest expense, cash paid for interest and facility fees, annualized average stated interest rates and average outstanding balances for the 2029 Notes were as follows:

The GCIC 2018 Debt Securitization was originally completed on December 13, 2018. The notes offered in the GCIC 2018 Debt Securitization (the "GCIC 2018 Notes") were issued by the GCIC 2018 Issuer, a subsidiary of GCIC 2018 CLO Depositor, and are secured by a diversified portfolio of senior secured and second lien loans. The GCIC 2018 Debt Securitization consists of \$490,000 of AAA/AAA Class A-1 GCIC 2018 Notes, \$38,500 of AAA Class A-2 GCIC 2018 Notes, and \$18,000 of AA Class B-1 GCIC 2018 Notes. In partial consideration for the loans transferred to the GCIC 2018 Issuer as part of the GCIC 2018 Debt Securitization, the GCIC 2018 CLO Depositor received and retained \$27,000 of Class B-2 GCIC 2018 Notes, \$95,000 of Class C GCIC 2018 Notes and \$60,000 of Class D GCIC 2018 Notes and \$179,695 of Subordinated GCIC 2018 Notes. On December 21, 2020, the Company and the GCIC 2018 Issuer amended the GCIC 2018 Debt Securitization to, among other things, (a) refinance the issued Class A-2 GCIC 2018 Notes issued by the GCIC 2018 Issuer by redeeming in full the \$38,500 of Class A-2 GCIC 2018 Notes and issuing new Class A-2-R GCIC 2018 Notes in an aggregate principal amount of \$38,500 that bear interest at a rate of 2.498%, which is a decrease from the rate of 4.665% of the Class A-2 GCIC 2018 Notes and (b) provide for a non-called period, during which the Class A-2-R GCIC 2018 Notes cannot be redeemed, from December 21, 2020 to but excluding June 21, 2021. The Class A-1, Class A-2-R and Class B-1 GCIC 2018 Notes are included in the June 30, 2024 and September 30, 2023 Consolidated Statements of Financial Condition as debt of the Company. As of June 30, 2024 and September 30, 2023, the Class B-2, Class C and Class D GCIC 2018 Notes and the Subordinated GCIC 2018 Notes were eliminated in consolidation. Through January 20, 2023, the GCIC 2018 Issuer was permitted to use all principal collections received on the underlying collateral to purchase new collateral under the direction of the Investment Adviser in its capacity as collateral manager of the GCIC 2018 Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the initial leverage in the GCIC 2018 Debt Securitization.908195000GCIC 2018 Debt Securitization490000000385000001800000027000000950000006000000017969500038500000385000000.024980.04 June 3, 2024, the Company assumed, as a result of the GBDC 3 Merger, a \$398,850 term debt securitization (the "GBDC 3 2021 Debt Securitization"). **JPM Credit Facility**

On February 11, 2021, the Company entered into a senior secured revolving credit facility (as amended, the "JPM Credit Facility") with the Company, as borrower, JPMorgan Chase Bank N.A., as administrative agent and as collateral agent, and the lenders from time to time party thereto which, as of June 30, 2024, allowed the Company to borrow up to \$1,487,500 in U.S. dollars and certain agreed upon foreign currencies, subject to leverage and borrowing base restrictions. Through a series of amendments, most recently on June 7, 2024, the Company amended the JPM Credit Facility to, among other things, extend the maturity date to March 17, 2028, decrease the adjustment to term SOFR for loans using such rate to 0.10%, increase the accordion feature to allow the Company to request, at one or more times, that existing and/or new lenders, at their election provide up to \$512,500 of additional commitments and update the applicable reference rate with respect to borrowings denominated in Canadian Dollars with CORRA.

The JPM Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to \$23,750, subject to increase or reduction from time to time pursuant to the terms of the JPM Credit Facility.

The JPM Credit Facility is secured by a first priority security interest in substantially all of the assets of the Company and certain of the Company's subsidiaries thereunder.

**Borrowings under the JPM Credit Facility**

Borrowings under the JPM Credit Facility bear interest at the applicable base rate plus a margin of either 1.75% or 1.875%, subject to compliance with a borrowing base test. The applicable base rate under the JPM Credit Facility is (i) one-month SOFR with respect to any advances denominated in U.S. dollars, (ii) SONIA with respect to any advances denominated in U.K. pound sterling, (iii) one-month EURIBOR with respect to any advances denominated in euros, (iv) CORRA with respect to any advances denominated in Canadian Dollars, and (v) the relevant rate as defined in the JPM Credit Facility for borrowings in other currencies. Effective September 13, 2022, interest under the JPM Facility for loans denominated in SOFR were converted to reference a benchmark rate of term SOFR plus an adjustment of an amount ranging between 0.11448% and 0.42826% (subject to applicable tenor). Effective March 17, 2023, the adjustment to term SOFR was reduced to 0.10%.

The Company pays a commitment fee of 0.375% per annum on the daily unused portion of commitments under the JPM Credit Facility. The Company is also required to pay letter of credit participation fees and a fronting fee on the daily amount of any lender's exposure with respect to any letters of credit issued at the request of the Company under the JPM Credit Facility. The JPM Credit Facility matures on March 17, 2028 and requires mandatory prepayment of interest and principal upon certain events during the one year amortization period of the facility.

On October 2, 2020, the Company issued \$400,000 in aggregate principal amount of unsecured notes (the "2024 Notes"), and on October 15, 2021, the Company issued an additional \$100,000 in aggregate principal amount of 2024 Notes under the same terms of the original issuance. On April 8, 2024, the Company redeemed \$500,000 in aggregate principal amount of the 2024 Notes. The 2024 Notes were redeemed at 100% of the principal amount, plus the accrued and unpaid interest thereon. As of September 30, 2023, the outstanding aggregate principal amount of the 2024 Notes was \$500,000. The 2024 Notes bore interest at a rate of 3.375% per year payable semiannually in arrears on April 15 and October 15 of each year, commencing on April 15, 2021.

The 2024 Notes were the Company's general unsecured obligations that ranked senior in right of payment to all of the Company's future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2024 Notes; equal in right of payment to the Company's existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company's secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities.

On February 24, 2021, the Company issued \$400,000 in aggregate principal amount of unsecured notes (the "2026 Notes") and on October 13, 2021, the Company issued an additional \$200,000 aggregate principal amount of 2026 Notes under the same terms as the original issuance. As of both June 30, 2024 and September 30, 2023, outstanding aggregate principal amount of the 2026 Notes was \$600,000. The 2026 Notes bear interest at a rate of 2.500% per year payable semiannually in arrears on February 24 and August 24 of each year, commencing on August 24, 2021. The 2026 Notes mature on August 24, 2026.

The 2026 Notes are the Company's general unsecured obligations that rank senior in right of payment to all of the Company's future indebtedness or other obligations that are expressly subordinated, or junior, in right of payment to the 2026 Notes; equal in right of payment to the Company's existing and future indebtedness or other obligations that are not so subordinated or junior; effectively junior to any of the Company's secured indebtedness or other obligations (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other obligations (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities.

(1)

Based on actual number of shares outstanding at the end of the corresponding period or the weighted average shares outstanding for the period, unless otherwise noted, as appropriate.

(2)

Net increase in net assets as a result of issuance of shares pursuant to the GBDC 3 Merger.

(3)

Includes the impact of different share amounts as a result of calculating certain per share data based on weighted average shares outstanding during the period and certain per share data based on the shares outstanding at the end of the period and as of the dividend record date.

(4)

Total return based on market value assumes distributions are reinvested in accordance with the DRIP. Total return does not include sales load.

(5)

Incentive fees, income tax and excise tax are not annualized in the calculation.

(6)

Total return based on average net asset value is calculated as (a) the net increase (decrease) in net assets resulting from operations divided by (b) the daily average of total net assets. Total return does not include sales load.

(7)

**Note 13. Acquisition of Golub Capital BDC 3, Inc.**

On June 3, 2024, the Company completed its previously announced acquisition of GBDC 3. In accordance with the terms of the GBDC 3 Merger Agreement, at the effective time of the GBDC 3 Merger, each outstanding share of GBDC 3 common stock was converted into the right to receive 0.9138 shares of common stock, par value \$0.001 per share of the Company (with GBDC 3 stockholders receiving cash in lieu of fractional shares of the Company's common stock). As a result of the GBDC 3 Merger, the Company issued an aggregate of 92,115,308 shares of its common stock to former GBDC 3 stockholders.

The GBDC 3 Merger was accounted for in accordance with the asset acquisition method of accounting as detailed in ASC Topic 805. The fair value of the merger consideration paid and transaction costs incurred to complete the GBDC 3 Merger by the Company was allocated to the assets acquired and liabilities assumed, based on their relative fair values as of the date of acquisition and did not give rise to goodwill. The excess of merger consideration paid over the fair value of net assets acquired is considered the purchase premium. Immediately following the acquisition of GBDC 3, the Company recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GBDC 3 assets acquired was immediately recognized as unrealized depreciation on the Company's Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income with a corresponding reversal of the unrealized depreciation on the GBDC 3 loans acquired through their ultimate disposition. The purchase premium allocated to investments in equity securities, will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the GBDC 3 equity securities acquired and disposition of such equity securities at fair value, the Company will recognize a realized loss or a reduction in realized gains with a corresponding reversal of the unrealized depreciation upon disposition of the GBDC 3 equity securities acquired.

The merger was considered a tax-free reorganization and the Company has elected to carry forward the historical cost basis of the GBDC 3 investments for tax purposes. The following table summarizes the allocation of the purchase price to the assets acquired and liabilities assumed as a result of the GBDC 3 Merger:

The majority of the investments bear interest at a rate that is permitted to be determined by reference to the Secured Overnight Financing Rate ("SOFR" or "5F"). Euro Interbank Offered Rate ("EURIBOR" or "5E"), Prime ("P"), Sterling Overnight Index Average ("SONIA" or "5N"), Australian Interbank Rate ("AUD" or "5A"), Canadian Bankers Acceptance Rate ("CDOR" or "5C") or Canadian Overnight Swap Rate Average ("CONRA" or "5CA") which reset daily, monthly, quarterly, semi-annually, or annually. For each, the Company has provided the spread over the applicable index and the weighted average current interest rate in effect as of June 30, 2024. Certain investments are subject to an interest rate floor. For fixed rate loans, a spread above a reference rate is not applicable. For positions with multiple outstanding contracts, the spread for the largest outstanding contract is shown. Listed below are the index rates as of June 30, 2024, which was the last business day of the period on which the applicable index rates were determined. The actual index rate for each loan listed may not be the applicable index rate outstanding as of June 30, 2024 as the loan may have priced or repriced based on an index rate prior to June 30, 2024. Denotes that all or a portion of the contract was indexed to the Prime rate, which was 5.50% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 30-day EURIBOR, which was 3.63% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 90-day EURIBOR, which was 3.71% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 180-day EURIBOR, which was 3.68% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the Three-Month AUD, which was 4.50% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 90-day CDOR, which was 4.07% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to SONIA, which was 5.20% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to Daily SOFR, which was 5.33% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 30-day Term SOFR which was 5.34% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 90-day Term SOFR which was 5.32% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to the 180-day Term SOFR which was 5.25% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to Daily CONRA, which was 4.78% as of June 30, 2024. Denotes that all or a portion of the contract was indexed to 90-day Term CORRA, which was 4.68% as of June 30, 2024. For positions with multiple interest rate contracts, the interest rate shown is a weighted average current interest rate in effect as of June 30, 2024. The total principal amount is presented for debt investments while the number of shares or units owned is presented for equity investments. The fair values of investments were valued using significant unobservable inputs, unless noted otherwise. See "Note 6: Fair Value Measurements." The negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par. The negative amortized cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan. Loan was on non-accrual status as of June 30, 2024, meaning that the Company has ceased recognizing interest income on the loan. The investment is treated as a non-qualifying asset under Section 551(a) of the Investment Company Act of 1940, as amended (the "1940 Act"). Under the 1940 Act, the Company cannot acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. As of June 30, 2024, total non-qualifying assets at fair value represented 13.2% of the Company's total assets, calculated in accordance with the 1940 Act. Investment is denominated in foreign currency and is translated into U.S. dollars as of the valuation date or the date of the transaction. See "Note 2. Significant Accounting Policies and Recent Accounting Updates, Foreign Currency Translation." The headquarters of this portfolio company is located in the United Kingdom. The headquarters of this portfolio company is located in Denmark. The headquarters of this portfolio company is located in Germany. Equity investments are non-income producing securities unless otherwise noted. Ownership of certain equity investments occurs through a holding company or partnership. The Company holds an equity investment that is income producing. The fair value of this investment was valued using Level 1 inputs. See "Note 6: Fair Value Measurements." All or a portion of the loan interest was capitalized into the outstanding principal balance of the loan in accordance with the terms of the credit agreement during the nine months ended June 30, 2024. The fair value of the loan reflects the legal claim on par and accrued uncapitalized payment in kind ("PIK") interest. As defined in the 1940 Act, the Company is deemed to be an "affiliated person" of the portfolio company as the Company owns five percent or more of the portfolio company's voting securities (non-controlled affiliate). Transactions related to investments in non-controlled affiliates for the nine months ended June 30, 2024 were as follows: Portfolio Company Fair value as of September 30, 2023 Gross Additions Gross Reductions Net change in unrealized appreciation (depreciation) Net realized gain (loss) Fair value as of June 30, 2024 Interest, dividend and fee income Alpha Brewing Co. 116 26,538 91,660 (12,921) \$1,925 \$ 55,478 \$ 665 Gross Additions may include increases in the cost basis of investments resulting from new investments, amounts related to PIK interest capitalized and added to the principal balance of the respective loans, the accretion of discounts, the exchange of one or more existing investments for one or more new investments and the movement of an existing portfolio company into this affiliated category from a different category. Gross reductions may include decreases in the cost basis of investments resulting from principal collections related to investment repayments and sales, the amortization of premiums, the reversal of capitalized PIK for non-accrual positions and the exchange of one or more existing securities for one or more new securities. As defined in the 1940 Act, the Company is deemed to be both an "affiliated person" of and "control" this portfolio company as the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement) (controlled affiliate). Transactions related to investments in controlled affiliates for the nine months ended June 30, 2024 were as follows: Portfolio Company Fair value as of September 30, 2023 Gross Additions Gross Reductions Net change in unrealized appreciation (depreciation) Net realized gain (loss) Fair value as of June 30, 2024 Interest, dividend and fee income Milan Acquisition Co. 612,700 62,801 (10,603) \$1,111 \$ 6 611,908 6330 Total Controlled Affiliates 110,700 92,891 611,111 6 611,600 6330 Gross additions may include increases in the cost basis of investments resulting from new investments, amounts related to PIK interest capitalized and added to the principal balance of the respective loans, the accretion of discounts, the exchange of one or more existing investments for one or more new investments and the movement of an existing portfolio company into this affiliated category from a different category.
