### Recent Accounting Pronouncements

#### Recently Adopted Accounting Pronouncements

In June 2016, the FASB amended guidance related to impairment of financial instruments as part of ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which replaces the incurred loss impairment methodology with an expected credit loss model for which a company recognizes an allowance

based on the estimate of expected credit loss. This ASU requires entities to measure the impairment of certain financial instruments, including accounts receivable, based on expected losses rather than incurred losses. This ASU is effective for fiscal years beginning after December 15, 2022, with early adoption permitted, and will be effective for the Company beginning in 2023. The Company adopted the guidance as of January 1, 2023 and the impact to its condensed consolidated financial statements was not material.

Changes in the estimated fair values of the net assets recorded for the business combination of Silicon Radar, GEO and GEO Exalos upon the finalization of more detailed analyses of the facts and circumstances that existed at the date of the transaction will change the allocation of the purchase price. Subsequent changes to the purchase allocation during the measurement period that are material will be recorded in the reporting period in which the adjustment amounts are determined.

For both the Silicon Radar, GEO and Silicon Radar Exalos acquisitions, trade receivables and payables, as well as other current and non-current assets and liabilities and deferred revenue, were valued at the existing carrying value as they represented the fair value of those items at the acquisition date, based on management's judgments and estimates.

Because the acquisitions related to Silicon Radar, GEO and GEO Exalos occurred relatively recently, and in light of the magnitude of the transactions, the significant information to be obtained and analyzed and the fact that both Exalos and Silicon Radar resides reside in foreign jurisdiction, jurisdictions, the Company's fair value estimates for the purchase price allocation are preliminary and may change during the

allowable measurement period, which is up to the point the Company obtains and analyzes the information that

existed as of the date of the acquisition necessary to determine the fair values of the assets acquired and liabilities assumed, but in no case to exceed more than one year from the date of acquisition. As of **August 11, 2023** **November 9, 2023**, the Company had not finalized the determination of fair values allocated to various assets and liabilities, including, but not limited to, inventory, property, plant and equipment, identifiable intangible assets, other assets, deferred taxes, goodwill, tax uncertainties, income taxes payable, and other liabilities. Specifically for the valuation of intangibles assets acquired, the Company used publicly available benchmarking information, as well as a variety of other assumptions, including market participant assumptions to determine the preliminary values. Any changes in the fair values of the assets acquired and liabilities assumed during the measurement period may result in material adjustments to goodwill and deferred tax.

#### **Acquisition of Silicon Radar GmbH**

On February 21, 2023, Symeo, a wholly-owned subsidiary of the Company, completed its acquisition of all of the outstanding capital stock of Silicon Radar. The acquisition was consummated pursuant to a Share Purchase Agreement by and among Symeo, the Company and the holders of the outstanding capital stock of Silicon Radar. The closing consideration consisted of (i) \$9,245 in cash (including accrued cash consideration at closing and net of cash acquired), (ii) approximately 982,445 shares of Class A common stock **par value \$0.0001 per share** of the Company, with a fair value of \$9,834, and (iii) a contingent consideration payable in cash or in Class A common stock subject to Silicon Radar's achievement of certain revenue-based milestones through February 21, 2025. The fair value of this contingent consideration was \$9,979 on February 21, 2023. The purchase price is subject to working capital and other adjustments as provided in the merger agreement.

The Company paid a premium (i.e. goodwill) over the fair value of the net tangible and identified intangible assets acquired as this acquisition brings the Company an engineering development team with broad experience in radar system, which is expected to expand indie's entry into the radar market and enable the Company to capture strategic opportunities among Tier 1 customers. The goodwill is not expected to be deductible for tax purposes.

indie incurred various acquisition-related costs, which were primarily legal expense and recorded as part of the *Selling, General and Administrative* expenses. Total costs incurred are **\$707 as of June 30, 2023** **\$717 during the nine months ended September 30, 2023**. **Total costs incurred during the three months ended September 30, 2023 were immaterial.**

The Company maintains an adjustment holdback for the purpose of providing security against any adjustment to the amounts at closing. The holdback period extends for 12 months from the closing date and will be settled by cash.

Total purchase consideration transferred at closing also included contingent consideration that had a fair value of \$9,979 as of the acquisition date. The acquisition date fair value of the contingent consideration was determined based on the Company's assessment of the probability of achieving the performance targets that ultimately obligate the Company to transfer additional consideration to the seller. The contingent consideration is comprised of two tranches, both subject to Silicon Radar achieving certain revenue targets. Both tranches are payable, up to a maximum of \$9,000, upon the achievement of revenue threshold of \$5,000 for the twelve-month period ending on February 21, 2024 and the achievement of revenue threshold of \$7,000 for the twelve-month period ending on February 21, 2025, respectively. Both tranches are payable in cash or common stock, at indie's election. Should indie elect to pay in common stock, the number of shares issuable through a payment in common stock equals to earnout divided by a volume-weighted-average-price ("VWAP") for 20 days ending prior to the due date for payment. The fair value of any outstanding contingent consideration liabilities will be remeasured as of the end of each reporting period with any resulting remeasurement gains or losses recognized in the **condensed** consolidated statement of operations. The first tranche of this earn-out liability is reflected in *Accrued expense and other current liabilities* and the second tranche is reflected in *Other long-term liabilities* in the condensed consolidated balance sheet as of **June 30, 2023** **September 30, 2023**.

Pro forma financial information for Silicon Radar is not disclosed as the results are not material to the Company's condensed consolidated financial statements.

#### **Acquisition of GEO Semiconductor Inc.**

On February 9, 2023, indie entered into an Agreement and Plan of Merger, pursuant to which Gonzaga Merger Sub Inc., a Delaware corporation and indie's wholly-owned subsidiary, will merge with and into GEO Semiconductor Inc., a Delaware corporation, with GEO surviving as a wholly-owned subsidiary of indie. The aggregate consideration for this transaction consisted of (i) \$93,448 in cash (including accrued cash consideration at closing and net of cash acquired); (ii) the issuance by indie of 6,868,768 shares of **indie class Class A common stock par value \$0.0001 per share** at closing, with a fair value of \$75,556; (iii) 1,907,180 shares of **indie Class A common stock par value \$0.0001 per share** at closing, with a fair value of \$20,979 payable in the next 24 months for the purpose of adjustment and indemnity holdbacks; and (iv) contingent consideration with fair value of \$63,093 at closing payable in cash or in **indie Class A common stock, par value \$0.0001 per share**, subject to achieving certain GEO-related revenue targets through September 30, 2024. The purchase price is subject to working capital and other adjustments as provided in the merger agreement. The transaction was completed on March 3, 2023.

GEO has programs with major image sensor suppliers and is engaged in multiple EV and autonomous vehicle programs. Its products comprise three generations of application specific camera video processors, including those focused on viewing, where video is projected on a display and viewed by the driver, and sensing, where video is processed using advanced computer vision and machine learning algorithms to assist the driver. The unique ability to support both of these key categories is expected to allow indie to deliver solutions in applications ranging from simple backup cameras to full Autonomous Driving platforms. Accordingly, indie paid a premium (i.e. goodwill) over the fair value of the net tangible and identifiable intangible assets acquired as this acquisition is expected to continue to strengthen indie's expansion into the ADAS and autonomous vehicles market. The goodwill is not expected to be deductible for tax purposes.

indie incurred various acquisition-related costs, which were primarily legal expense and recorded as part of the *Selling, General and Administrative* expenses. Total costs incurred are \$2,492 as of June 30, 2023 \$2,467 during the nine months ended September 30, 2023. Total costs incurred during the three months ended September 30, 2023 were immaterial.

The indemnity holdback will be settled by transferring up to 1,566,472 shares of the Company's Class A common stock. The fair value of the indemnity holdback was \$17,231 as of the acquisition date. The adjustment holdback represents up to 340,708 shares of the Company's stock and its period extends for 60 days from the closing date. The fair value of the adjustment holdback was \$3,748 as of the acquisition date. The fair value of any outstanding liabilities will be remeasured as of the end of each reporting period with any resulting remeasurement gains or losses recognized in the consolidated statement of operations. The On July 7, 2023, the adjustment holdback is reflected was settled and 291,366 shares of Class A common stock were issued with a final fair value of \$2,651. Accordingly, the fair value of the adjustment holdback was reduced to zero during the three months ended September 30, 2023 and a gain of \$1,096 was recorded in *Accrued expense Other income (expense), net* for both the three and other current liabilities and nine months ended September 30, 2023 in the condensed consolidated statement of operations. The indemnity holdback is reflected in *Other long-term liabilities* in the condensed consolidated balance sheet as of June 30, 2023 September 30, 2023. The adjustment holdback was settled in July 2023.

Total purchase consideration transferred at closing included contingent consideration that had a fair value of \$63,093 as of the acquisition date. The acquisition date fair value of the contingent consideration was determined based on the Company's assessment of the probability of achieving the performance targets that ultimately obligate the Company to transfer additional consideration to the seller. The contingent consideration is comprised of two tranches, both subject to GEO achieving certain GEO-related revenue targets. The first tranche is payable, up to a maximum of \$55,000, upon the achievement of revenue threshold of \$50,000 for the twelve-month period ending on March 31, 2024. The second tranche payable, up to a maximum of \$35,000, upon the achievement of revenue threshold of \$30,000 for the six-month period ending on September 30, 2024. Both tranches are payable in cash or common stock, at indie's election. The number of shares issuable through a payment in common stock equals to earnout value divided by a 20 days VWAP ending on each earnout period and is collared between \$8.50 and \$11.50 per share ("Earnout Parent Trading Price"). Should the Company elect to pay the earn-out consideration in cash, the amount will be determined by multiplying the number of shares payable by the Earnout Parent Trading Price. The fair value of any outstanding contingent consideration liabilities will be remeasured as of the end of each reporting period with any resulting remeasurement gains or losses recognized in the condensed consolidated statement of operations. The first tranche of this earn-out liability is reflected in *Accrued expense and other current liabilities* and the second tranche is reflected in *Other long-term liabilities* in the condensed consolidated balance sheet as of June 30, 2023 September 30, 2023.

## 2027 Notes

On November 16, 2022, the Company entered into a purchase agreement (the "Purchase Agreement" with Goldman Sachs & Co. LLC, as representative of the initial purchasers (collectively the "Initial Purchasers"), pursuant to which the Company agreed to sell \$140,000 aggregate principal amount of 4.50% Convertible Senior Notes due 2027 (the "Initial Notes"). The Company also agreed to grant an option, exercisable within the 30-day period immediately following the date of the Purchase Agreement (the "Option") to the Initial Purchasers to purchase all or part of an additional \$20,000 aggregate principal amount of 4.50% Convertible Senior Notes due 2027 (the "Additional Notes" and, together with the Initial Notes, the "2027 Notes"). On November 17, 2022, the Initial Purchasers exercised the Option in full, bringing the total aggregate principal amount for the 2027 Notes to \$160,000. The sale of the 2027 Notes closed on November 21, 2022. The 2027 Notes were issued pursuant to an Indenture dated November 21, 2022 (the "Indenture"), between the Company and U.S. Bank Trust Company, National Association, as trustee (the "Trustee"). Interest on the 2027 Notes is payable semiannually in arrears on May 15 and November

18 20

15 of each year, beginning on May 15, 2023. The 2027 Notes will mature on November 15, 2027, unless earlier repurchased, redeemed or converted.

The 2027 Notes will be convertible into cash, shares of the Company's Class A common stock, par value \$0.0001 per share ("common stock"), or a combination of cash and shares of common stock, at the Company's election, at an initial conversion rate of 115.5869 shares of common stock per \$1,000 principal amount of the 2027 Notes, which is equivalent to an initial conversion price of approximately \$8.65 per share of common stock. The initial conversion price of the Notes represents a premium of approximately 30% over the \$6.655 per share last reported sale price of the common stock on The Nasdaq Capital Market on November 16, 2022. The conversion rate will be subject to adjustment upon the occurrence of certain specified events, but will not be adjusted for any accrued and unpaid interest, except under the limited circumstances described in the Indenture. In addition, upon the occurrence of a "Make-Whole Fundamental Change" (as defined in Section 1.01 of the Indenture) prior to the maturity date, or if the Company delivers a notice of redemption, the Company will, in certain circumstances, increase the conversion rate by a number of additional shares of common stock (not to exceed 150.2629 shares of common stock per \$1,000 principal amount of the Notes, subject to adjustment in the same manner as the conversion rate) for Notes that are converted in connection with such Make-Whole Fundamental Change or for notes called (or deemed called) for redemption that are converted in connection with such notice of redemption.

The Notes are convertible at the option of the holders (in whole or in part) at any time prior to the close of business on the business day immediately preceding August 15, 2027 only under the following circumstances: (1) during any calendar quarter commencing after the calendar quarter ending on December 31, 2022 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business day period after any five consecutive trading day period (the "measurement period") in which the "Trading Price" (as defined in Section 1.01 of the Indenture) per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of common stock and the conversion rate on each such trading day; (3) if the Company calls such Notes for redemption, at any time prior to the close of business on the second scheduled trading day immediately preceding the redemption date, but only with respect to the Notes called (or deemed called) for redemption; or (4) upon the occurrence of certain corporate events as specified in the Indenture. On or after August 15, 2027 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert all or a portion of their Notes, in multiples of \$1,000 principal amount, at any time, regardless of the foregoing circumstances. Upon conversion, the Company will pay or deliver, as the case may be, cash, shares of common stock or a combination of cash and shares of common stock, at the Company's election, in amounts determined in the manner set forth in the Indenture.

The Company may not redeem the 2027 Notes prior to November 20, 2025. indie may redeem for cash all or any portion of the 2027 Notes, at indie's option, on or after November 20, 2025 if the last reported price of indie's Class A common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period (including the last trading day of such period) ending on, and including, the trading day immediately preceding the date

on which indie provides notice of redemption, at a redemption price equal to 100% of the principal amount of the 2027 Notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date.

Upon the occurrence of a "Fundamental Change" (as defined in Section 1.01 of the Indenture), subject to certain conditions and certain limited exceptions, holders may require the Company to repurchase for cash all or any portion of their Notes in principal amounts of \$1,000 or an integral multiple thereof at a fundamental change repurchase price in cash equal to 100% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest to, but excluding, the fundamental change repurchase date.

The Notes are senior unsecured obligations of the Company and rank: (i) senior in right of payment to any indebtedness of the Company that is expressly subordinated in right of payment to the Notes; (ii) equal in right of payment to any unsecured indebtedness of the Company that is not so subordinated; (iii) effectively junior in right of payment to any senior, secured indebtedness of the Company to the extent of the value of the assets securing such indebtedness; and (iv) structurally junior to all indebtedness and other liabilities (including trade payables) of the Company's subsidiaries.

The 2027 Notes have been recorded as long-term debt in its entirety pursuant to ASU 2020-06. The carrying value of the 2027 Notes is presented net of \$5,374 of discount and issuance costs, which are amortized to interest expense over the respective terms of these borrowings. As of June 30, 2023 September 30, 2023 and December 31, 2022, the total carrying value of the 2027 Notes, net of unamortized discount, was \$155,216 \$155,462 and \$154,742, respectively. As of June 30, 2023 September 30, 2023, the total fair value of the 2027 Notes was \$212,096 \$164,352 or 132.56% 102.72% of the aggregate principal amount of the 2027 Notes. As of December 31, 2022, the total fair value of the

19 21

value of the 2027 Notes was \$157,440 or 98.40% of the aggregate principal amount of the 2027 Notes. The estimated fair values are based on Level 2 inputs as the fair value is based on quoted prices for the Company's debt and comparable instruments in inactive markets. The amortization of the debt discount and cost of issuance resulted in non-cash interest expense of \$240 \$246 and \$475 \$721 for the three and six nine months ended June 30, 2023 September 30, 2023, and is also included in Interest Expense in the Company's condensed consolidated statements of operations.

During the year ended December 31, 2022, in connection with the offering of the Convertible Senior Notes, the Company entered into privately negotiated transactions through one of the initial purchasers or its affiliate to repurchase 1,112,524 shares of common stock, at an average cost of \$6.65 per share, for approximately \$7,404.

## 8. Warrant Liability

In connection with the June 10, 2021 Transaction, holders of TB2 Class A ordinary shares automatically received Class A common stock of indie, and holders of TB2 warrants automatically received 17,250,000 warrants of indie with substantively identical terms ("Public Warrants"). At the closing of the Transaction, 8,625,000 Class B ordinary shares of TB2 owned by Thunder Bridge Acquisition II LLC, a Delaware limited liability company (the "Sponsor"), automatically converted into 8,625,000 shares of indie Class A common stock, and 8,650,000 private placement warrants held by the Sponsor, each exercisable for one Class A ordinary share of TB2 at \$11.50 per share, automatically converted into warrants to purchase one share of indie Class A common stock at \$11.50 per share with substantively identical terms (the "Private Placement Warrants"). Also at the Closing, TB2 issued 1,500,000 working capital warrants to an affiliate of the Sponsor in satisfaction of a working capital promissory note of \$1,500 (the "Working Capital Warrants" and, together with the Private Placement Warrants, the "Private Warrants"). These Working Capital Warrants have substantially identical terms to the Private Placement Warrants.

The warrants may be exercised only during the period commencing on July 10, 2021 (30 days after the closing of the Transaction) through June 10, 2026. The Company may redeem the Public Warrants at a price of \$0.01 per warrant upon 30 days' notice, only in the event that the last sale price of the Class A common stock is at least \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third day prior to the date on which notice of redemption is given, provided there is an effective registration statement and current prospectus in effect with respect to the Class A common stock underlying such warrants during the 30 day redemption period. If the Company redeems the warrants as described above, management will have the option to require all holders to exercise warrants on a cashless basis.

In accordance with the warrant agreement relating to the Public Warrants, the Company is required to use its best efforts to maintain the effectiveness of the registration statement covering the warrants. If a registration statement is not effective within 90 days following the consummation of a business combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. In the event that a registration statement is not effective at the time of exercise or no exemption is available for a cashless exercise, the holder of such warrant shall not be entitled to exercise such warrant for cash and in no event (whether in the case of a registration statement being effective or otherwise) will the Company be required to net cash settle the warrant exercise.

The terms of the Private Warrants are identical to the Public Warrants as described above, except that the Private Warrants are not redeemable so long as they are held by the Sponsor or its permitted transferees.

The Company has reviewed the terms of warrants to purchase its Class A common stock to determine whether warrants should be classified as liabilities or stockholders' equity in its condensed consolidated balance sheet. In order for a warrant to be classified as stockholders' equity, the warrant must be (a) indexed to the Company's equity and (b) meet the conditions for equity classification in ASC 815-40, *Derivatives and Hedging – Contracts in an Entity's Own Equity*. If a warrant does not meet the conditions for equity classification, it is carried on the condensed consolidated balance sheet as a warrant liability

21 23

measured at fair value, with subsequent changes in the fair value of the warrant recorded in the statement of operations as change in fair value of warrants in *Other income (expense), net*. The Company determined that all warrants are required to be carried as a liability in the condensed consolidated balance sheet at fair value, with changes in fair value recorded in the condensed consolidated statement of operations (see Note 10 – *Fair Value Measurements*). At the closing of the Transaction on June 10, 2021, the warrants had an initial fair value of \$74,408, which was recorded as liability and a reduction to additional paid in capital in the condensed consolidated balance sheet.

The following table is a summary of the number of shares of the Company's Class A common stock issuable upon exercise of warrants outstanding at June 10, 2021:

	Number of Shares	Exercise Price	Redemption Price	Expiration Date	Classification	Initial Fair Value
Public Warrants	17,250,000	\$ 11.50	\$ 18.00	June 10, 2026	Liability	\$ 42,435
Private Warrants	10,150,000	\$ 11.50	N/A	June 10, 2026	Liability	\$ 31,973

As of June 30, 2023, September 30, 2023 and December 31, 2022, there have been no exercises of the warrants and the fair value was \$67,684, \$52,024 and \$45,398, respectively.

In November 2023, the Company issued Class A common stock in exchange for the Public Warrants and the Private Warrants. See Note 19 - Subsequent Events for information regarding this warrant exchange.

## 9. Contingent and Earn-Out Liabilities

### Earn-Out Milestones

Certain of indie's stockholders are entitled to receive up to 10,000,000 earn-out shares of the Company's Class A common stock if the earn-out milestones are met. The earn-out milestones represent two independent criteria, each of which entitles the eligible stockholders to 5,000,000 earn-out shares per milestone met. Each earn-out milestone is considered met if at any time following the Transaction and prior to December 31, 2027, the volume weighted average price of indie's Class A common stock is greater than or equal to \$12.50 or \$15.00 for any twenty trading days within any thirty-trading day period, respectively. Further, the earn-out milestones are also considered to be met if indie undergoes a Sale. A Sale is defined as the occurrence of any of the following for indie: (i) engage in a "going private" transaction pursuant to Rule 13e-3 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise cease to be subject to reporting obligations under Sections 13 or 15(d) of the Exchange Act; (ii) Class A common stock ceases to be listed on a national securities exchange, other than for the failure to satisfy minimum listing requirements under applicable stock exchange rules; or (iii) change of ownership (including a merger or consolidation) or approval of a plan for complete liquidation or dissolution.

These earn-out shares had been categorized into two components: (i) those associated with stockholders with vested equity at the closing of the Transaction that will be earned upon achievement of the earn-out milestones (the "Vested Shares") and (ii) those associated with stockholders with unvested equity at the closing of the Transaction that will be earned over the remaining service period with the Company on their unvested equity shares and upon achievement of the Earn-Out Milestones (the "Unvested Shares"). The Vested Shares were classified as liabilities in the condensed consolidated balance sheet and the Unvested Shares are equity-classified share-based compensation to be recognized over time (see Note 14 — *Share-Based Compensation*). The earn-out liability was initially measured at fair value at the closing of the Transaction and subsequently remeasured at the end of each reporting period. The change in fair value of the earn-out liability was recorded as part of *Other income (expense), net* in the condensed consolidated statement of operations.

The estimated fair value of the earn-out liability was determined using a Monte Carlo Simulations analysis that simulated the future path of the Company's stock price over the earn-out period. The assumptions utilized in the calculation are based on the achievement of certain stock price milestones including projected stock price, volatility, and risk-free rate.

### Escrow Shares

3,450,000 Class A common shares of indie were placed in escrow for the potential future release to the Sponsor in the event the earn-out milestones are met. The earn-out milestones for the Escrow Shares are identical to those of the earn-out shares.

24

Achievement of each milestone entitles the shareholders to 50% of the total Escrow Shares. The Escrow Shares have been accounted for as a liability and remeasured to fair value each reporting period.

As of November 9, 2021, the first earn-out milestone was achieved while the second Earn-Out Milestone remains unachieved. The achievement of the first earn-out milestone eliminated the variability in the arrangement that previously prevented this instrument to be equity-classified. As a result, the earn-out liabilities associated with the first Earn-Out Milestone were recorded to *Additional paid-in capital* in the condensed consolidated balance sheet at its fair value. At the same time, the unearned

22

liabilities associated with the second Earn-Out Milestones were also remeasured to its fair value and reclassified per ASC 815-40 to *Additional paid-in capital* in the condensed consolidated balance sheet. Consequently, there is no more liability remaining on the balance sheet.

### Contingent Considerations

On May 13, 2020, in connection with the acquisition of City Semiconductor, Inc. ("City Semi"), the Company recorded contingent consideration as a long-term liability at a fair value of \$1,180. The contingent consideration is comprised of two tranches. The first tranche is payable, up to a maximum of \$500, upon the achievement of cash collection targets within twelve months of the acquisition, and \$456 was achieved in May 2021. The second tranche is payable, up to a maximum of \$1,500, upon the shipment of a product incorporating the acquired developed technology. In September 2021, the Company paid off the first tranche of the contingent consideration. In April 2023, the Company settled \$500 of the \$1,500 second tranche through the issuance of 73,311 shares of Class A common stock with a fair value of \$608 at the time of issuance. The fair value of the remaining \$1,000 second tranche contingent consideration liabilities was \$890 \$920 as of June 30, 2023 September 30, 2023.

On October 1, 2021, in connection with the acquisition of ON Design Israel, the Company recorded contingent consideration as a long-term liability at a fair value of \$4,000. The contingent consideration is comprised of two tranches. The first tranche is payable, up to a maximum of \$2,500, upon the achievement of Tapeout of certain product designs acquired from the seller within 30 months of the acquisition. The second tranche is payable, up to a maximum of \$5,000, upon indie's achievement of a Design Win related to certain acquired product designs within 36 months of the acquisition. The fair value of the first and second tranche contingent consideration liabilities was \$1,817 and \$2,222, respectively, and are recorded in *Other long-term liabilities* in the condensed consolidated balance sheet as of December 31, 2021. The change in fair value since the acquisition date is recorded in *Other income (expense), net* in the condensed consolidated statement of operations as of December 31, 2021. During the six months ended June 30, 2022, management determined that the product design specified in the contingent consideration provision would be replaced with a new product design that is better aligned with customer requirements and which will not be eligible for either of the contingent considerations. Accordingly, the fair value for both the Tapeout and Design Win were reduced to zero as of December 31, 2022.

On January 4, 2022, in connection with the acquisition of Symeo, the Company recorded contingent considerations as a current and a long-term liability at a fair value of \$4,390 and \$3,446, respectively. The contingent consideration is comprised of two tranches. The first tranche is payable upon the achievement of a revenue threshold of \$5,000 by March 31, 2023. The second tranche is payable upon Symeo's achievement of a revenue threshold of \$6,000 by March 31, 2024. The fair value of the first and second tranche contingent consideration liabilities as of June 30, 2023 September 30, 2023 was \$3,117 \$2,288 and \$7, respectively. The change in fair value since the acquisition date is recorded in *Other income (expense), net* in the condensed consolidated statement of operations. On October 26, 2023, the Company issued 363,194 of Class A common stock, with a fair value of \$1,900 at the time of issuance to Analog Devices, Inc., as final settlement for the achievement of the first tranche of the contingent considerations.

On February 21, 2023, in connection with the acquisition of Silicon Radar, the Company recorded contingent considerations as a current and a long-term liability at a fair value of \$4,174 and \$5,805, respectively. The contingent consideration is comprised of two tranches. The first tranche is payable upon the achievement of a revenue threshold of \$5,000 for the twelve-month period ending on February 21, 2024. The second tranche is payable upon Silicon Radar's achievement of a revenue threshold of \$7,000 for the twelve-month period ending on February 21, 2025. Both tranches are payable in cash or in common stock at indie's discretion. Should indie elect to pay in common stock, the number of shares issuable through a payment in common stock equals to earnout divided by a VWAP for 20 days ending prior to the due date for payment. The fair value of the first and second tranche contingent consideration liabilities as of June 30, 2023 September 30, 2023 was \$4,290 \$4,360 and \$5,974 \$6,033, respectively. The change in fair value since the acquisition date is recorded in *Other income (expense), net* in the condensed consolidated statement of operations.

On March 3, 2023, in connection with the acquisition of GEO, the Company recorded contingent considerations as a current and a long-term liability at a fair value of \$39,239 and \$23,854, respectively. The contingent consideration is comprised of two tranches. The first tranche is payable upon the achievement of a revenue threshold of \$50,000 for the twelve-month period ending on March 31, 2024. The second tranche is payable upon GEO's achievement of a revenue threshold of \$30,000 for the

25

six-month period ending on September 30, 2024. Both tranches are payable in cash or common stock, at indie's election. Number of shares issuable through a payment in common stock equals to earnout value divided by a 20 days VWAP ending on each earnout period and is collared between \$8.50 and \$11.50 per share ("Earnout Parent Trading Price").

Payment in cash will be determined by the number of shares payable multiplied by the Earnout Parent Trading Price. The fair value of the first and second tranche contingent consideration liabilities as of **June 30, 2023** **September 30, 2023** was **\$39,889** **\$41,368** and **\$24,062** **\$25,135**, respectively. The change in fair value since the acquisition date is recorded in *Other income (expense), net* in the condensed consolidated statement of operations.

**23** On September 18, 2023, in connection with the acquisition of Exalos, the Company recorded contingent considerations as a current and a long-term liability at a fair value of \$9,341 and \$3,884, respectively. The contingent consideration is comprised of two tranches. The first tranche is payable upon the achievement of a revenue threshold of \$19,000 for the twelve-month period ending on September 30, 2024. The second tranche is payable upon Exalos' achievement of a revenue threshold of \$21,000 for the twelve-month period ending on September 30, 2025. Both tranches are payable in cash or in shares at indie's discretion. The fair value of the first and second tranche contingent consideration liabilities as of September 30, 2023 was \$9,341 and \$3,873, respectively. The change in fair value since the acquisition date is recorded in *Other income (expense), net* in the condensed consolidated statement of operations.

## 10. Fair Value Measurements

The Company's debt instruments are recorded at their carrying values in its condensed consolidated balance sheets, which may differ from their respective fair values. The fair values of the Company's 2027 Notes are estimated using the valuation of the securities into which the debt is convertible, external pricing data, based on interest rates and credit ratings for similar issuances with the same remaining term as the Company's outstanding borrowings (see *Note 7 — Debt* for additional information). The fair values of the Company's short-term loans generally approximated their carrying values.

As of **June 30, 2023** **September 30, 2023**, the Company held currency forward contracts with an aggregated notional amount of **\$3,325** **\$17,584** to sell United States dollars and to buy various foreign currencies such as Canadian dollars and Euro, among others at a forward rate. Any changes in the fair value of these contracts are reflected recorded in *Other income (expense), net* in the condensed consolidated statement of operations.

The following table presents the Company's fair value hierarchy for financial liabilities:

As of **June 30, 2023** **September 30, 2023** and December 31, 2022, the Company's cash and cash equivalents were all held in cash or Level 1 instruments where the fair values approximate the carrying values.

**Level 3 Disclosures**

*Warrants*

Private Placement Warrants were valued using the Black-Scholes-Merton formula and a Monte Carlo Simulations analysis. Calculating the fair value of warrants requires the input of subjective assumptions. Other reasonable assumptions could provide differing results. The carrying amount of the liability may fluctuate significantly and actual amounts paid may be materially different from the liability's estimated value.

For the three and **six nine** months ended **June 30, 2023** **September 30, 2023**, there were no redemptions of the warrants and the carrying amount of the liability fluctuated due to the fair value remeasurement.

*Contingent Considerations*

Contingent considerations were valued based on the consideration expected to be transferred. The Company estimated the fair value based on a Monte Carlo Simulations analysis to simulate the probability of achievement of various milestones identified within each contingent consideration arrangement, using certain assumptions that require significant

rates. The discount rates were based on the estimated cost of debt plus a premium, which included consideration of expected term of the earn-out payment, yield on treasury instruments and an estimated credit rating for the Company.

Because the acquisitions related to Silicon Radar, GEO and GEO Exalos occurred relatively recently, and in light of the magnitude of the transactions, the significant information to be obtained and analyzed and the fact that Silicon Radar resides in foreign jurisdiction, the Company's fair value estimates for the associated contingent considerations were valued based on a probability method as of [June 30, 2023](#) [September 30, 2023](#).

The following table presents the significant unobservable inputs assumed for each of the fair value measurements:

		June 30, 2023		December 31, 2022		September 30, 2023		December 31, 2022

## 11. Stockholders' Equity

### Wuxi Capital Raise

On November 29, 2022, the Company entered into and closed an agreement with multiple investors in China, including two of the top four Chinese automotive OEMs, that secured a strategic investment ("Wuxi Capital Raise") through Wuxi indie Microelectronics Ltd. ("Wuxi"), indie's majority controlled subsidiary. The Wuxi Capital Raise provided Wuxi additional funding of CNY300,000 (approximately \$42,000) by issuing 371,160 shares from Wuxi, which represents 16% of Wuxi's equity at the time of issuance. The funds raised are intended to promote Wuxi's business development and strengthen its capabilities. Pursuant to the terms of the Agreement, these investors will subscribe into the 371,160 shares at CNY808.28 per share. As a result, indie's ownership in Wuxi has reduced from 45% to 38%. As indie continues to control Wuxi's Board of Directors and has the majority of the voting interests, Wuxi's financial results will continue to be consolidated with those of ADK LLC and its other wholly-owned subsidiaries. Minority interests held in Wuxi are accounted for as non-controlling

25

interests in the Company's condensed consolidated financial statements. Among other provisions, this agreement includes

28

certain liquidation preferences for the investors ("Deemed Liquidation Event" or "DLE") as well as an ability to exchange their Wuxi shares for shares of indie's Class A common stock in the event Wuxi does not successfully complete a local initial public offering ("IPO") by December 31, 2027 (the "Conversion"). A Deemed Liquidation Event includes but not limited to (a) a change of control of the Company or its surviving entity in a single, or series of related transactions, or merger, division, reorganization, acquisition, or business integration between the Company and any third parties, excluding any corporate restricting as duly approved pursuant to the AOA; or (b) a sale, transfer or otherwise disposal of the all or substantially all assets of the Company, in a single, or series of related transactions. Upon a DLE prior to IPO, the distribution will be made in cash in order of the liquidation preferences pursuant to the investment agreement for an amount that is the higher of (i) an amount equal to 100% of the applicable original issue price with an annual simple premium of 8% (calculated from the Closing Date to the date of the Liquidation Event), or (ii) an amount equal to the total liquidation proceeds received by the Company or the shareholders (as the case may be) directly in a Liquidation Event, multiplied by the shareholder's proportionate ownership percentage, plus all accrued or declared but unpaid dividends of such share.

Pursuant to the investment agreement, Wuxi shall use commercially reasonable efforts to meet the conditions for the IPO and list shares by a Chinese or overseas securities trading institutions and consummate an IPO as early as possible. If Wuxi is unable to consummate an IPO, indie undertakes to exchange the shares issued in this capital raise for indie's Class A common stock equal to the total capital raised plus a premium of 8% per year (simple interest) between the execution date and December 31, 2027. The total amount is calculated using the exchange rate at the time of the stock exchange and the value of each of Class A common stock is based on the stock price at that time, but the exchange shall not exceed a total of 6,000,000 shares of indie Class A common stock.

### Stock Repurchase Program

On November 16, 2022, indie's Board of Directors authorized the repurchase, from time to time, of up to \$50,000 of indie's Class A common stock and/or warrants to purchase common stock. This is inclusive of any concurrent repurchase of shares of common stock described in Note 7 — *Debt*, under the 2027 Notes, which allows for a portion of net proceeds to be used to repurchase up to \$25,000 of common stock. There were no repurchases of common stock during the **six nine** months ended **June 30, 2023** **September 30, 2023**. As of **June 30, 2023** **September 30, 2023**, there is \$42,596 available for future repurchase under the program.

## 12. Noncontrolling Interest

In connection with the closing of the Transaction on June 10, 2021, certain members of ADK LLC (the "ADK Minority Holders") retained an approximate 26% membership interest in ADK LLC. The ADK Minority Holders may from time to time, after December 10, 2021, exchange with indie, such holders' units in ADK LLC for an equal number of shares of indie's Class A common stock. As a result, indie's ownership interest in ADK LLC will increase. The ADK Minority Holders' ownership interests are accounted for as noncontrolling interests in the Company's condensed consolidated financial statements. The Company's ownership of ADK LLC, was approximately **88%** **89%** and 85% as of **June 30, 2023** **September 30, 2023** and December 31, 2022, respectively.

In connection with the Transaction, the Company issued to ADK LLC Minority Holders an aggregate of 33,827,371 shares of Class V common stock of indie (the "Class V Holders"). The shares of Class V common stock provides no economic rights in indie to the holder thereof; however, each Class V Holder is entitled to vote with the holders of Class A common stock of indie, with each share of Class V common stock entitling the holder to one (1) vote per share of Class V common stock at the time of such vote (subject to customary conversion rate adjustments for stock splits, stock dividends and reclassifications). As of **June 30, 2023** **September 30, 2023** and December 31, 2022, the Company had an aggregate of 18,994,332 and 21,381,476 shares of Class V common stock issued and outstanding, respectively.

ADK LLC held 55% voting control and 38% ownership interest in Wuxi as of **June 30, 2023** **September 30, 2023** and December 31, 2022, respectively. From time to time, Wuxi has sold equity ownership and the transactions have reduced ADK LLC's controlling interest in Wuxi on the condensed consolidated balance sheets. As of **June 30, 2023** **September 30, 2023**, ADK LLC maintained its controlling ownership in Wuxi. Accordingly, Wuxi's financial statements are consolidated with those of ADK LLC and its other wholly-owned subsidiaries. Minority interests held in Wuxi are accounted for as non-controlling interests in the Company's condensed consolidated financial statements.

## 13. Revenue

### Disaggregation of Revenue

The Company disaggregates revenue from contracts with customers by geographic region, as the Company's management believes it best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

The following tables present revenue disaggregated by geography of the customer's shipping location for the three and **six nine** months ended **June 30, 2023** **September 30, 2023** and 2022:

		Three Months Ended June 30,		Six Months Ended June 30,		Three Months Ended September 30,		Nine Months Ended September 30,

### Contract Balances

Certain assets or liabilities are recorded depending on the timing of revenue recognition, billings and cash collections on a contract-by-contract basis. Contract liabilities primarily relate to deferred revenue, including advance consideration received from customers for contracts prior to the transfer of control to the customer, and therefore revenue is recognized upon delivery of products and services or as the services are performed.

The following table presents the assets and liabilities associated with the engineering services contracts recorded on the condensed consolidated balance sheet as of **June 30, 2023** September 30, 2023 and December 31, 2022:

		Balance Sheet Classification	June 30, 2023	December 31, 2022		Balance Sheet Classification	September 30, 2023	December 31, 2022
Unbilled revenue	Unbilled revenue	Prepaid expenses and other current assets	\$ 9,008	\$ 3,623	Unbilled revenue	Prepaid expenses and other current assets	\$ 13,748	\$ 3,623
Contract liabilities	Contract liabilities	Accrued expenses and other current liabilities	\$ 1,467	\$ 1,739	Contract liabilities	Accrued expenses and other current liabilities	\$ 1,315	\$ 1,739

During the three months ended **June 30, 2023** September 30, 2023 and 2022, the Company recognized **\$405** \$357 and **\$619** \$139, respectively, of revenue related to amounts that were previously included in deferred revenue at the beginning of the period. During the **six** nine months ended **June 30, 2023** September 30, 2023 and 2022, the Company recognized **\$1,242** \$1,599 and **\$965** \$1,103, respectively, of revenue related to amounts that were previously included in deferred revenue at the beginning of the period. Deferred revenue fluctuates over time due to changes in the timing of payments received from customers and revenue recognized for services provided.

Revenue related to remaining performance obligations represents the amount of contracted development arrangements that has not been recognized, which includes deferred revenue on the condensed consolidated balance sheet and unbilled amounts that will be recognized as revenue in future periods. As of **June 30, 2023** September 30, 2023, the amount of performance obligations that have not been recognized as revenue was **\$21,630** \$16,683, of which approximately **85%** 89% is expected to be recognized as revenue over the next twelve months and the remainder thereafter. This amount excludes the value of remaining performance obligations for contracts with an original expected length of one year or less. Variable consideration that has been constrained is excluded from the amount of performance obligations that have not been recognized.

The 2023 Inducement Plan provides for the grant of nonqualified stock options, stock appreciation rights, restricted stock awards, restricted stock units and other stock- or performance-based awards. In accordance with Rule 5635(c)(4), awards under the 2023 Inducement Plan may only be made to a newly hired employee who has not previously been a member of indie's board Board of directors Directors, or an employee who is being rehired following a bona fide period of non-employment by indie as a material inducement to the employee's entering into employment with the Company. To the extent that an award lapses, expires, is cancelled, is terminated, unexercised or ceases to be exercisable for any reason, or the rights of its recipient terminate, any shares subject to such award shall again be available for the grant of a new award under the 2023 Inducement Plan.

#### 2021 Omnibus Equity Incentive Plan

On June 21, 2022, the Company's Board of Directors and shareholders approved an amendment to the 2021 Omnibus Equity Incentive Plan to increase the number of shares of Class A common stock reserved for issuance thereunder by 7,000,000 shares, to a total of 27,868,750 shares.

On August 17, 2023, the Company's Board of Directors approved the launch of an Employee Equity Purchase Program (the "EEPP"), which allows (i) the Company's Section 16 officers to make quarterly elections to receive up to 50% of their cash base salary in the form of a quarterly fully-vested stock award of Company's Class A common stock; and (ii) its non-Section 16 officer employees to make semi-annual elections to receive up to 25% of their cash base salary in the form of a monthly fully-vested stock award of Company's Class A common stock. As part of the program incentive, the non-Section 16 officer employees receive additional benefits such as a premium via an exchange ratio of 1.15 cash to stock and a conversion price equal to the lower of (x) the first trading day of the plan period or (y) the award grant date. Any awards issued under the EEPP are granted through the 2021 Omnibus Equity Incentive Plan. Shares granted under EEPP for the Company's Section 16 officers are liability-classified awards and the fair value of the awards is equal to the deferred salary amount. Shares granted under EEPP for non-Section 16 officers are equity-classified awards and the fair value of the awards is estimated through the Black-Scholes option pricing model.

The EEPP commenced its first plan period on August 16, 2023 for the Section 16 officers and on September 1, 2023 for the employees.

## 16. Income Taxes

We are subject to U.S. federal and state taxes with respect to our allocable share of any taxable income or loss of ADK, LLC, as well as any stand-alone income or loss we generate. ADK, LLC is treated as a partnership for U.S. income tax purposes and for most applicable state and local income tax purposes and generally does not pay income taxes in most jurisdictions. Instead, ADK, LLC's taxable income or loss is passed through to its members, including us. Despite its status as a partnership in the United States, ADK, LLC's foreign subsidiaries are taxable entities operating in foreign jurisdictions. As such, these foreign subsidiaries record a tax expense or benefit in jurisdictions where a valuation allowance has not been recorded.

Our effective tax rate in 2023 will differ from the U.S. federal statutory rate primarily due to changes in valuation allowance, tax expense or benefit in foreign jurisdictions taxed at different tax rates, the impact of acquisitions and reorganizations on our tax attributes and foreign research and development tax credits and incentives, and changes in non-controlling interest.

Based primarily on our limited operating history and ADK LLC's historical domestic losses, we believe there is a significant uncertainty as to when we will be able to use our domestic, federal and state, deferred tax assets ("DTAs"). Therefore, we have recorded a valuation allowance against these DTAs for which we have concluded that it is not more likely than not that these will be realized.

As part of reverse capitalization, the Company entered into Tax Receivable Agreements ("TRAs") with certain shareholders that will represent approximately 85% of the calculated tax savings based on the portion of basis adjustments on future exchanges of ADK, LLC units and other carryforward attributes assumed that we anticipate to be able to utilize in future years. Through June 30, 2023 September 30, 2023, there have been exchanges of units that would generate a DTA; however, as there is a full valuation allowance on the related DTA, we have not recorded a liability under the TRAs.

The Company recorded a benefit (provision) provision for income taxes of \$(342) \$650 and \$869 \$863 for the three months ended June 30, 2023 September 30, 2023 and 2022, respectively. The Company recorded a benefit for income taxes of \$3,364 \$2,714 and \$1,528 \$665 for the six nine months ended June 30, 2023 September 30, 2023 and 2022, respectively. Income tax benefit (provision) provision for the three months ended June 30, 2023 September 30, 2023, and 2022, respectively, are primarily related to the Company's foreign operations and state income taxes. Income tax benefits for the six nine months ended June 30, 2023 September 30, 2023 are primarily related to the tax effects of our acquisition of GEO and subsequent tax reorganizations. GEO. Income tax benefits for the six nine months ended June 30, 2022 September 30, 2022 are primarily related to the Company's foreign operations and state income taxes.

## 17. Commitments and Contingencies

### Litigation

On November 3, 2023, the Company received a demand letter alleging breaches relating to covenants and demanded payments of \$7,500 in contingent consideration related to a previously completed business combination. Given the recent nature of the

33

demand letter, the Company is unable to make a reasonable estimate of a potential loss, if any, on this matter. The Company intends to vigorously defend against the claims made in the demand letter.

In addition to the foregoing matter, from time to time, the Company may be a party to routine claims or litigation incidental to matters that arise in the ordinary course of its business. These may include disputes and lawsuits related to intellectual property, mergers and acquisitions, licensing, contract law, tax, regulatory, distribution arrangements, employee relations and other matters. Periodically, the Company does not believe that it is a party to reviews the status of these matters and assesses its potential financial exposure. If the potential loss from any pending claim or legal proceeding that is likely considered probable and a range of possible losses can be estimated, the Company accrues a liability for the estimated loss. Legal proceedings are subject to have a material adverse effect uncertainties, and the outcomes are difficult to predict. Because of such uncertainties, accruals are based only on its business, financial condition or results of operations or cash flows, the best information available at the time. As additional information becomes available, the Company continues to reassess the potential liability related to pending claims and litigation and may revise estimates.

### Royalty Agreement

The Company has entered into license agreements to use certain technology in its design and manufacture of its products. The agreements require royalty fees for each semiconductor sold using the licensed technology. Total royalty expense incurred in connection with these contracts during the three months ended June 30, 2023 September 30, 2023 and 2022 was \$953 \$1,524 and \$262 \$368, respectively. Total royalty expense incurred in connection with these contracts during the six nine months ended June 30, 2023 September 30, 2023 and 2022 was \$1,433 \$2,956 and \$504 \$872, respectively. These expenses are included in cost of goods sold in the condensed consolidated statements of operations. Accrued royalties of \$199 \$881 and \$544 are included in accrued expenses in the Company's condensed consolidated balance sheets as of June 30, 2023 September 30, 2023 and consolidated balance sheets as of December 31, 2022, respectively.

### Tax Distributions

To the extent the Company has funds legally available, the board Board of directors Directors will approve distributions to each member of ADK LLC, prior to March 15 of each year, in an amount per unit that, when added to all other distributions made to such member with respect to the previous calendar year, equals the estimated federal and state income tax liabilities applicable to such member as the result of its, his or her ownership of the units and the associated net taxable income allocated with respect to such units for the previous calendar year. There were no distributions approved by the board Board of directors Directors or paid by the Company during the six nine months ended June 30, 2023 September 30, 2023 and 2022.

## Warrant Exchange

On September 22, 2023, indie announced the commencement of an exchange offer (the "Offer") and consent solicitation (the "Consent Solicitation") relating to its outstanding (i) Public Warrants to purchase shares of Class A common stock of the Company and (ii) Private Warrants to purchase shares of Class A common stock (together with the Public Warrants, the "Warrants").

The Offer and the Consent Solicitation expired at 11:59 p.m., Eastern Time on October 20, 2023. Upon expiration of the Offer and the Consent Solicitation, 24,658,461 Warrants, or approximately 90% of the outstanding Warrants, were tendered. Subsequently, the Company issued 7,027,517 shares of Class A common stock, or an exchange ratio of 0.285, for the Warrants tendered in the Offer on October 25, 2023. Additionally, the Company received the approval of approximately 89.8% of the outstanding Warrants to the amendment to the warrant agreement governing the Warrants (the "Amendment No. 2"), which exceeds a majority of the outstanding warrants required to effect the Amendment No. 2. This amendment permitted the Company to require that each Warrant that was outstanding upon settlement of the Exchange Offer to be converted into 0.2565 shares of Class A common stock, which was a ratio 10% less than the exchange ratio applicable to the Exchange Offer.

The Company completed its exchange of the remaining 2,741,426 untendered Warrants on November 9, 2023 through issuance of 703,176 shares of Class A common stock. As a result of the completion of the Exchange Offer and the exchange for the remaining untendered Warrants, the Warrants were suspended from trading on the Nasdaq Capital Market as of the close of business on November 8, 2023, and delisted.

For the three months ended **June 30, 2023** September 30, 2023 and 2022, we recognized gains (losses) from change in fair value for warrants, **contingent considerations and contingent considerations.** acquisition-related holdbacks. The gains (losses) recorded for the three months ended **June 30, 2023** September 30, 2023 and 2022 represent the following:

i) Warrants: During the three months ended **June 30, 2023** September 30, 2023, we recognized an unrealized gain from change in fair value of our warrants of **\$25.0 million \$15.7 million**, which reflected the decrease in fair value of our warrant liability. The decrease in fair value of our warrant liability of **\$25.0 million \$15.7 million** was primarily a result of the decrease of the closing price of our Class A common stock listed on the Nasdaq to **\$6.30 per share on September 30, 2023 from \$9.40 per share on June 30, 2023 from \$10.55 per share on March 31, 2023**. In the same period in the prior year, the **decrease increase** in fair value was a result of the **decrease increase** of the closing price of our Class A common stock listed on the Nasdaq to **\$7.32 per share on September 30, 2022 from \$5.70 per share on June 30, 2022 from \$7.81 per share on March 31, 2022**.

ii) Contingent considerations and acquisition-related holdbacks: During the three months ended **June 30, 2023** September 30, 2023, we recognized a net unrealized gain from change in fair value of our contingent considerations and acquisition-related holdbacks of **\$2.3 million \$3.5 million** which is primarily contributed by an unrealized gain of **\$1.8 million \$2.9 million** and **\$0.6 million \$0.8 million** for the contingent considerations and acquisition-related holdbacks related to the GEO and Symeo acquisitions, respectively, offset by a **\$0.1 million net unrealized loss for other contingent considerations and acquisition-related holdbacks, respectively**. ## Income Taxes

We utilize the asset and liability method in accounting for income taxes. Deferred tax assets and liabilities reflect the estimated future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax expense or benefit is the result of changes in the deferred tax asset and liability. Valuation allowances are established when necessary to reduce deferred tax assets where it is more likely than not that the deferred tax assets will not be realized. We make estimates, assumptions, and judgments to determine our provision for our income taxes, deferred tax assets and liabilities, and any valuation allowance recorded against deferred tax assets. We also assess the likelihood that our deferred tax assets, if any, will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we establish a valuation allowance.

We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. Interest and penalties related to unrecognized tax benefits which, as of the date of this report, have not been material, are recognized within provision for income taxes.

Income tax benefit and expense for the three months ended June 30, 2023 September 30, 2023 and 2022 is primarily related to our operations in Canada and Europe.

Refer to Note 16, *Income Tax*, in our accompanying unaudited condensed consolidated financial statements for additional detail.

Interest income for the **six** nine months ended **June 30, 2023** **September 30, 2023** was **\$4.3 million** **\$6.1 million**, increased by **\$4.1 million** **\$5.3 million** or **1962%** **650%** from the **six** nine months ended **June 30, 2022** **September 30, 2022**. Interest income increased in the current period primarily as a result of higher cash

balances in the 2023 period resulting from proceeds received from the 2027 Notes and increases in interest rates associated with the money market funds and marketable securities.

Interest expense for the six nine months ended June 30, 2023 September 30, 2023 was \$4.3 million \$6.5 million, compared to \$0.3 million \$0.5 million for the six nine months ended June 30, 2022 September 30, 2022. Interest expense relates to the routine cash and non-cash interest expenses on outstanding debt obligations. The

37

increase was primarily driven by the issuance of the 4.50% convertible notes with principal balance of \$160.0 million issued in November 2022 (the "2027 Notes"). 2027 Notes.

For the six nine months ended June 30, 2023 September 30, 2023 and 2022, we recognized gains (losses) from change from change in fair value for warrants, contingent considerations and contingent considerations, acquisition-related holdbacks. The gains (losses) recorded for the both the six nine months ended June 30, 2023 September 30, 2023 and 2022 represent the following:

i) Warrants: During the six nine months ended June 30, 2023 September 30, 2023, we recognized an unrealized loss from change in fair value of our warrants of \$22.3 million \$6.6 million, which reflected the increase in fair value of our warrant liability. The increase in fair value of our warrant liability of \$22.3 million \$6.6 million was primarily a result of the increase of the closing price of our Class A common stock listed on the Nasdaq to \$9.40 \$6.30 per share on June 30, 2023 September 30, 2023 from \$5.83 per share on December 31, 2022. In the same period in the prior year, the decrease in fair value was a result of the decrease in the closing price our Class A common stock listed on the Nasdaq to \$5.70 \$7.32 per share on June 30, 2022 September 30, 2022 from \$11.99 per share on December 31, 2021.

ii) Contingent considerations and acquisition-related holdbacks: During the six nine months ended June 30, 2023 September 30, 2023, we recognized an unrealized gain from change in fair value of our contingent considerations and acquisition-related holdbacks of \$0.7 million \$4.2 million which is primarily contributed by an unrealized gain of \$2.1 million \$5.0 million for the contingent considerations and acquisition-related holdback related to GEO, offset by \$1.1 million \$0.3 million and \$0.3 million \$0.4 million unrealized loss for the contingent considerations related to the Symeo and Silicon Radar acquisitions, respectively, offset by a \$0.1 million net unrealized gain for other contingent considerations and acquisition-related holdbacks, respectively. During the six nine months ended June 30, 2022 September 30, 2022, we recognized an unrealized net gain from change in fair value of our contingent considerations of \$3.7 million \$3.5 million. During the six nine months ended June 30, 2022 September 30, 2022, management determined that the product design specified in the contingent consideration arrangement would be replaced with a new product design that is better aligned with customer requirements and which will not be eligible for either of the contingent considerations. Accordingly, the fair value for both the Tapeout and Design Win were reduced to zero, resulting in a gain of \$3.9 million.

#### Income Taxes

We utilize the asset and liability method in accounting for income taxes. Deferred tax assets and liabilities reflect the estimated future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax expense or benefit is the result of changes in the deferred tax asset and liability. Valuation allowances are established when necessary to reduce deferred tax assets where it is more likely than not that the deferred tax assets will not be realized. We make estimates, assumptions, and judgments to determine our provision for our income taxes, deferred tax assets and liabilities, and any valuation allowance recorded against deferred tax assets. We also assess the likelihood that our deferred tax assets, if any, will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we establish a valuation allowance.

We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. Interest and penalties related to unrecognized tax benefits which, as of the date of this report, have not been material, are recognized within provision for income taxes.

Income tax benefits for the six nine months ended June 30, 2023 September 30, 2023 are primarily related to the tax effects of our acquisition of GEO and subsequent tax reorganizations. Income tax benefits for the six nine months ended June 30, 2022 September 30, 2022 is primarily related to our operations in Canada and Europe.

Refer to Note 16, *Income Tax*, in our accompanying unaudited condensed consolidated financial statements for additional detail.

#### JOBS Act

The JOBS Act permits an emerging growth company ("EGC") such as us to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies. We have elected to use the extended transition period under the JOBS Act until the earlier of the date we (1) are no longer an emerging growth company or (2)

42

affirmatively and irrevocably opt out of the extended transition period provided in the JOBS Act. As a result, our condensed consolidated financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

We will remain an emerging growth company until the earliest to occur of: (1) the last day of the fiscal year in which we have more than \$1.235 billion in annual revenue; (2) the date on which we are deemed to be a "large accelerated filer," which would occur if the market value of our equity securities held by nonaffiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter; (3) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period; and (4) the last day of the fiscal year ending after the fifth anniversary of our initial public offering, or December 31, 2024. As the market value of our common stock that is held by non-affiliates exceeded \$700 million as of June 30, 2023 based on the Nasdaq Capital Market closing price of \$9.40 per share of indie's Class A common stock on such day, and therefore, we will therefore no longer qualify for such emerging growth company status commencing December 31, 2023. As a large accelerated filer not entitled to emerging growth company status, result, we will be subject to certain disclosure requirements that are applicable to other public companies that have not been applicable to us as an emerging growth company, including the ability to take advantage of such extended transition period.

We may choose to early adopt any new or revised accounting standards whenever such early adoption is permitted for public companies.

### Liquidity and Capital Resources

Our primary use of cash is to fund operating expenses, which consist primarily of research and development expenditures, working capital requirements related to inventory, accounts payable and general and administrative expenditures. In addition, from time to time, we use cash to fund our mergers and acquisitions, purchases of various capital and software assets and scheduled repayments for outstanding debt obligations. Our immediate sources of liquidity are cash, cash equivalents and funds anticipated to be generated from our operations. We believe that our existing cash and cash equivalents, funds anticipated to be generated from our operations and available borrowing on borrowings under our revolving credit facility facility. We believe these sources of liquidity will be sufficient to meet our working capital needs for at least the next 12 months. Our future capital requirements may vary from those currently planned and will depend on many factors, including our rate of sales growth, the timing and extent of spending on various business initiatives, including potential merger and acquisition activities, our international expansion, the timing of new product introductions, market acceptance of our solutions, and overall economic conditions including the potential impact of global supply imbalances, rising interest rates, inflationary pressures, COVID-19 the impact of the ongoing conflicts in Ukraine and the Middle East, and volatility in the global financial markets. To the extent that current and anticipated future sources of liquidity are insufficient to fund our future business activities and requirements, we may be required to seek additional equity or debt financing. We have cash deposits with large financial institutions that have stable outlooks and credit ratings as of August 11, 2023 November 9, 2023. These cash deposits may exceed the insurance provided on such deposits. As part of our cash management strategy going forward, we concentrate cash deposits with large financial institutions that are subject to regulation and maintain deposits across diverse retail banks.

Historically, we derive liquidity primarily from debt and equity financing activities as we have historically had negative cash flows from operations. As of June 30, 2023 September 30, 2023, our balance of cash and cash equivalents was \$180.7 million \$160.6 million.

On August 26, 2022, we entered into the ATM Agreement with the Sales Agents relating to shares of our Class A common stock. In accordance with the terms of the Sales Agreement, we may offer and sell shares of our Class A common stock having an aggregate offering price of up to \$150.0 million from time to time through the Sales Agents, acting as our agent or principal. We implemented this program for the flexibility that it provides to the capital markets and to best time its equity capital needs. During the six nine months ended June 30, 2023 September 30, 2023, indie has raised gross proceeds of \$53.1 million and issued 5,219,500 shares of Class A common stock at an averaged per-share sales price of \$10.18 through this program. For the six nine months ended June 30, 2023 September 30, 2023, indie incurred total issuances costs of \$0.8 million \$1.1 million. As of June 30, 2023 September 30, 2023, we have raised gross proceeds of \$70.3 million and issued 7,351,259 shares of Class A common stock at an average per-share sales price of \$9.57 through this program and had approximately \$79.7 million available for future issuances under the ATM Agreement.

On November 21, 2022, we issued \$160.0 million in aggregate principal of our 4.50% convertible senior notes which are due in May 2027 (the "2027 Notes"). Notes. The 2027 Notes will be convertible into cash, shares of Class A common stock or a combination of cash and common stock at our election. We used the net proceeds from the 2027 Notes to fund the acquisitions of GEO and Silicon Radar as well as a stock repurchase program authorized by our Board of Directors in November 2022. The acquisitions of Silicon Radar completed in February 2023 and GEO completed in March 2023, which resulted in us funding a purchase price of approximately \$9.2 million and \$93.4 million, respectively. The stock repurchase program resulted in us repurchasing 1.1 million shares of our outstanding Class A common stock in November 2022 at an average cost of \$6.65 per share, which amounts for a total cash outflow of \$7.4 million as of December 31, 2022.

On November 29, 2022, Wuxi executed a Capital Increase Agreement to raise CNY300.0 million (approximately \$42.0 million) of capital by issuing 371,160 shares of its common stock, which represents 16% of Wuxi's equity at the time of issuance. As a result, indie's ownership in Wuxi has reduced from 45% to 38%. Among other provisions, this agreement includes certain

liquidation preferences for the investors of this Capital Increase Agreement as well as an ability to exchange their Wuxi shares for up to 6 million shares of indie's Class A common stock in the event Wuxi does not successfully complete a local initial

public offering by December 31, 2027. The funds raised are intended to promote Wuxi's business development and strengthen its capabilities.

#### Acquisitions

Since the closing of the Transaction, we have completed multiple acquisitions. We continually assess and plan to selectively pursue inorganic growth opportunities that are complementary to our existing technologies and portfolio of products and/or accelerate our growth initiatives.

In connection with our acquisitions, we may from time to time be required to make future payments or issue additional shares of our common stock to satisfy our obligations under the acquisition agreements, including to satisfy certain earn-out requirements. In January 2022 we completed the acquisition of Symeo GmbH, for which we made an initial cash payment of approximately \$10.0 million and an additional \$10.0 million was paid in January 2023. We are still subject to **potentially satisfy** an equity based earn out based on Symeo's future revenue growth.

In February 2023, we entered into an agreement to acquire GEO Semiconductor, Inc. and completed the transaction on March 3, 2023. The acquisition requested for (i) \$93.4 million in cash (including accrued cash considerations at closing and net of cash acquired); (ii) the issuance by indie of 6,868,768 shares of **indie class Class A common stock par value \$0.0001 per share** at closing, with a fair value of \$75.6 million; (iii) 1,907,180 shares of **indie Class A common stock par value \$0.0001 per share** at closing, with a fair value of \$21.0 million payable in the next 24 months; and (iv) an earn-out with fair value of \$63.1 million at closing payable in cash or in **indie Class A common stock, par value \$0.0001 per share**, subject to achieving certain GEO-related revenue targets through September 30, 2024.

Additionally, in February, 2023, we acquired Silicon Radar GmbH, for approximately (i) \$9.2 million in cash (including debt payable at closing and net of cash acquired), (ii) the issuance by indie of 982,445 shares of Class A common stock **par value \$0.0001 per share** at closing, with a fair value of \$9.8 million; and (iii) a contingent consideration with fair value of \$10.0 million at closing, payable in cash or in Class A common stock subject to Silicon Radar's achievement of certain revenue-based and design-win milestones through February 21, 2025.

**In September 2023, we acquired Exalos. The closing consideration consisted of (i) the issuance by indie of 6,613,786 shares of Class A common stock at closing, with a fair value of \$42,791; (ii) a contingent consideration with fair value of \$13,225 at closing, payable in cash, subject to Exalos' achievement of certain revenue-based milestones through September 30, 2025; and (iii) a holdback of \$2,500 subject to final release 12 months from the acquisition date payable in shares of Class A common stock.**

We expect to continue to incur net operating losses and negative cash flows from operations. We also expect our research and development expenses, general and administrative expenses and capital expenditures will increase over time as we continue to expand our operations, product offerings and customer base.

The following table summarizes our condensed consolidated cash flows for the **six nine months ended June 30, 2023 September 30, 2023** and 2022:

#### Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles ("GAAP"). The preparation of these financial statements requires us to make estimates and judgments in applying our most critical accounting policies that can have a significant impact on the results we report in our financial statements. The SEC has defined critical accounting estimates as those that involve a significant level of estimation uncertainty and have had or are reasonably likely to have a material impact on a registrant's financial condition or results of operations. Based on this definition, our most critical accounting estimates include revenue recognition, which impacts the recording of net revenue; inventory valuation, which impacts the cost of goods sold and gross margin; business combinations, which impacts the fair value of acquired assets and assumed liabilities; goodwill and long-lived assets, which impacts

the fair value of goodwill and intangible assets; warrants and earn-out liabilities valuations, which impacts the fair value of these financial instruments; and income taxes, which impacts the income tax provision. These policies and significant judgments involved are discussed further below. We have other significant

45

accounting policies that do not generally require subjective estimates or judgments or would not have a material impact on our results of operations. Our critical accounting policies and estimates are disclosed under Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in its Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

41

There have been no material changes to our critical accounting policies and estimates as disclosed in our Annual Report on Form 10-K filed for the year ended December 31, 2022.

#### Recently Issued and Adopted Accounting Pronouncements

We describe the recently issued and adopted accounting pronouncements that apply to us in *Note 1 — Nature of Business and Basis of Presentation* to our condensed consolidated financial statements presented herein.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### Foreign Currency Risk

We have international operations, giving rise to exposure to market risks from changes in currency exchange rates. Our primary foreign currency exposures are the Canadian dollar, Chinese yuan/renminbi and Israeli New Shekel. We have intercompany loans with certain of our foreign subsidiaries that are long-term in nature. Repayments of such principal amounts are neither planned nor anticipated in the foreseeable future and are therefore treated analogous to equity for accounting purposes. As a result, the foreign exchange gains and losses on these borrowings are excluded from the determination of *Net income (loss)* and recorded as a component of *Accumulated other comprehensive income (loss)* in the condensed consolidated balance sheets. A cumulative foreign currency translation loss of \$9.5 million \$20.3 million and \$12.0 million related to our foreign subsidiaries is included in "*Accumulated other comprehensive loss*" within the Stockholders' Equity section of the condensed consolidated balance sheet as of June 30, 2023 September 30, 2023 and December 31, 2022, respectively. The aggregate foreign currency translation exchange rate income (loss) loss included in determining gain (loss) loss before income taxes was \$3.9 million \$0.7 million and \$(7.9) million \$0.3 million for the three and nine months ended June 30, 2023 and 2022, September 30, 2023, respectively. The aggregate foreign currency translation exchange rate income (loss) loss included in determining gain (loss) loss before income taxes was \$2.4 million for both the three and \$(7.0) million for the six nine months ended June 30, 2023 and 2022, respectively. September 30, 2022 was de minimis. The year-over-year change was driven by the cumulative foreign currency translation loss recorded in relation to permanently invested intercompany loans as of June 30, 2023 September 30, 2023 as the U.S. dollar strengthened against foreign currencies.

As our international operations grow, our risks associated with fluctuation in foreign currency rates will become greater, and we will continue to reassess our approach to managing this risk. In addition, currency fluctuations or a weakening U.S. dollar could increase the costs of our international expansion and operation. To mitigate the risk, we plan to enter into additional foreign currency forward contracts in the foreseeable future.

#### Investment and Interest Rate Risk

Our exposure to interest rate and general market risks relates principally to our investment portfolio, which consists of cash and cash equivalents (money market funds and marketable securities purchased with less than ninety days until maturity) that totals approximately \$180.7 million \$160.6 million as of June 30, 2023 September 30, 2023.

The main objectives of our investment activities are liquidity and preservation of capital. Our cash equivalent investments have short-term maturity periods that dampen the impact of market or interest rate risk. Credit risk associated with our investments is not material because our investments are diversified across securities with high credit ratings.

Given the objectives of our investment activities, and the relatively low interest income generated from our cash, cash equivalents, and other investments, we do not believe that investment or interest rate risks currently pose material exposures to our business or results of operations even in the current environment of rising interest rates.

### ITEM 4. CONTROLS AND PROCEDURES

#### Evaluation of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of June 30, 2023 September 30, 2023 and based on this evaluation,

have concluded that, as a result of the material weaknesses in internal control over financial reporting as described below, our disclosure controls and procedures were not effective as of **June 30, 2023** **September 30, 2023**.

Per Rule 13a-15(e), the term disclosure controls and procedures means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the

Exchange Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

### Previously Reported Material Weaknesses

A material weakness is a deficiency or combination of deficiencies in our internal control over financial reporting that creates a reasonable risk that a material misstatement of our annual or interim consolidated financial statements would not be prevented or detected in a timely manner.

As disclosed in in Part II—Item 9A of the Form 10-K for the year ended December 31, 2022 filed with SEC on March 28, 2023, management determined that the Company did not have effective risk assessment to identify and analyze risks related to non-routine transactions, such as mergers and acquisitions, at a sufficient level of detail to identify all relevant risks of material misstatement across the Company or within each acquired entity. Additionally, the Company did not have effective information control processes, including those related to information technology general controls ("ITGCs"), user access controls and the use of manual spreadsheets, to ensure the reliability of information used in certain computations related to financial reporting. As a consequence of the aforementioned deficiencies, the Company did not have effective control activities related to the design and operation of process-level controls across certain key financial reporting processes.

Management has determined that these material weaknesses persisted as of **June 30, 2023** **September 30, 2023**.

### Remediation Efforts to Address the Material Weaknesses

Management's remediation efforts are ongoing and the actions outlined in the Form 10-K for the year ended December 31, 2022, will continue to be pursued. As we continue to evaluate and enhance our internal control over financial reporting, we may determine that additional measures to address the material weaknesses or adjustments to the remediation plan may be required. However, we cannot guarantee when we will remediate material weaknesses, nor can we be certain that additional steps will be necessary. Furthermore, it cannot be guaranteed that no further material weaknesses will emerge in the future.

The remediation efforts are subject to continuous management evaluation and audit committee supervision. Until Management has completed its remediation efforts and evaluated their effectiveness, we will not be able to determine whether the steps taken will completely remedy the material deficiencies in the Company's internal control over financial reporting.

### Changes in Internal Control Over Financial Reporting

Our internal control over financial reporting, as defined in Exchange Act Rules 13a-15(f) and 15d-15d, remained unchanged during the quarter ended **June 30, 2023** **September 30, 2023**, with the exception of the ongoing remediation efforts related to the material weaknesses described above and the acquisitions of **Exalos** on **September 18, 2023**, **GEO** on **March 3, 2023**, and **Silicon Radar** on **February 21, 2023**. As a result of the acquisitions, we have implemented internal controls over financial reporting to include consolidation of **Exalos**, **GEO**, and **Silicon Radar**, as well as acquisition-related accounting and disclosures, which represent material changes in internal control over financial reporting since management's last assessment of the Company's internal control over financial reporting, which was completed as of December 31, 2022.

The outcome of litigation is inherently uncertain, and there can be no assurances that favorable outcomes will be obtained. Any of these factors, in whole or in part, could materially and adversely affect the Company's business, financial condition, operating results, and stock price. There have been no material changes to the Company's risk factors disclosed under the heading "Risk Factors" in Part 1, Item 1A in the Company's Annual Report on Form 10-K for the Fiscal Year ended December 31, 2022 filed on March 28, 2023.

## **ARTICLE V**

### **SHARES SUBJECT TO PLAN AND LIMITATIONS THEREON**

**5.1 Authorized Shares and Award Limits.** The Committee may from time to time grant Awards to one or more Eligible Persons determined by it to be eligible for participation in the Plan in accordance with the provisions of Article VI. Subject to Article XV, the aggregate number of Shares that may be issued under the Plan shall not exceed six million (6,000,000) Shares. Shares shall be deemed to have been issued under the Plan solely to the extent actually issued and delivered pursuant to an Award. To the extent that an Award lapses, expires, is canceled, is terminated unexercised or ceases to be exercisable for any reason, or the rights of its Holder terminate, any Shares subject to such Award shall again be available for the grant of a new Award.

**5.2 Types of Shares.** The Shares to be issued pursuant to the grant or exercise of an Award may consist of authorized but unissued Shares, Shares purchased on the open market or Shares previously issued and outstanding and reacquired by the Company.

## **ARTICLE VI**

### **ELIGIBILITY AND TERMINATION OF SERVICE**

**6.1 Eligibility.** Awards made under the Plan may be granted solely to any individual who satisfies the standards for inducement grants under NASDAQ Listing Rule 5635(c)(4) and the related guidance under NASDAQ IM 5635-1 (an "Eligible Person"). A person who previously served as an Employee or Director of the Company will not be eligible to receive awards under this Plan, other than following a bona fide period of non-employment. An Award may include, an Option, a Restricted Stock Award, a Restricted Stock Unit Award, an Unrestricted Stock Award, a Distribution Equivalent Right Award, a Performance Stock Award, a Performance Unit Award, a Stock Appreciation Right, a Tandem Stock Appreciation Right, or any combination thereof.

**6.2 Termination of Service.** Except to the extent inconsistent with the terms of the applicable Award Agreement and/or the provisions of Section 6.3 or 6.4, the following terms and conditions shall apply with respect to a Holder's Termination of Service with the Company or an Affiliate, as applicable:

5

(a) The Holder's rights, if any, to exercise any then exercisable Options and/or Stock Appreciation Rights shall terminate:

(i) If such termination is for a reason other than the Holder's Total and Permanent Disability or death, ninety (90) days after the date of such Termination of Service;

(ii) If such termination is on account of the Holder's Total and Permanent Disability, one (1) year after the date of such Termination of Service; or

(iii) If such termination is on account of the Holder's death, one (1) year after the date of the Holder's death.

Upon such applicable date, the Holder (and such Holder's estate, designated beneficiary or other legal representative) shall forfeit any rights or interests in or with respect to any such Options and Stock Appreciation Rights. Notwithstanding the foregoing, the Committee, in its sole discretion, may provide for a different time period in the Award Agreement, or may extend the time period, following a Termination of Service, during which the Holder has the right to exercise any vested Option or Stock Appreciation Right, which time period may not extend beyond the expiration date of the Award term.

(b) In the event of a Holder's Termination of Service for any reason prior to the actual or deemed satisfaction and/or lapse of the Restrictions, vesting requirements, terms and conditions applicable to a Restricted Stock Award and/or Restricted Stock Unit Award, such Restricted Stock and/or RSUs shall immediately be canceled, and the Holder (and such Holder's estate, designated beneficiary or other legal representative) shall forfeit any rights or interests in and with respect to any such Restricted Stock and/or RSUs.

**6.3 Special Termination Rule.** Except to the extent inconsistent with the terms of the applicable Award Agreement, and notwithstanding anything to the contrary contained in this Article VI, if a Holder's employment with, or status as a Director of, the Company or an Affiliate shall terminate, and if, within ninety (90) days of such termination, such Holder shall become a Consultant, such Holder's rights with respect to any Award or portion thereof granted thereto prior to the date of such termination may be preserved, if and to the

extent determined by the Committee in its sole discretion, as if such Holder had been a Consultant for the entire period during which such Award or portion thereof had been outstanding. Should the Committee effect such determination with respect to such Holder, for all purposes of the Plan, such Holder shall not be treated as if his or her employment or Director status had terminated until such time as his or her Consultant status shall terminate, in which case his or her Award, as it may have been reduced in connection with the Holder's becoming a Consultant, shall be treated pursuant to the provisions of [Section 6.2](#). Should a Holder's status as a Consultant terminate, and if, within ninety (90) days of such termination, such Holder shall become an Employee or a Director, such Holder's rights with respect to any Award or portion thereof granted thereto prior to the date of such termination may be preserved, if and to the extent determined by the Committee in its sole discretion, as if such Holder had been an Employee or a Director, as applicable, for the entire period during which such Award or portion thereof had been outstanding, and, should the Committee effect such determination with respect to such Holder, for all purposes of the Plan, such Holder shall not be treated as if his or her Consultant status had terminated until such time as his or her employment with the Company or an Affiliate, or his or her Director status, as applicable, shall terminate, in which case his or her Award shall be treated pursuant to the provisions of [Section 6.2](#).

**6.4 Termination of Service for Cause.** Notwithstanding anything in this Article VI or elsewhere in the Plan to the contrary, and unless a Holder's Award Agreement specifically provides otherwise, in the event of a Holder's Termination of Service for Cause, all of such Holder's then outstanding Awards shall expire immediately and be forfeited in their entirety upon such Termination of Service.

## ARTICLE VII OPTIONS

**7.1 Option Period.** The term of each Option shall be as specified in the Option Agreement; provided, however, that no Option shall be exercisable after the expiration of ten (10) years from the date of its grant.

**7.2 Limitations on Exercise of Option.** An Option shall be exercisable in whole or in such installments and at such times as specified in the Option Agreement.

**7.3 Option Agreement.** Each Option shall be evidenced by an Option Agreement in such form and containing such provisions not inconsistent with the other provisions of the Plan as the Committee from time to time shall approve. An Option Agreement may provide for the payment of the Option price, in whole or in part, by the delivery of a number of Shares (plus cash if necessary) that have been owned by the Holder for at least six (6) months and having a Fair Market Value equal to such Option price, or such other forms or methods as the

6

Committee may determine from time to time, in each case, subject to such rules and regulations as may be adopted by the Committee. Each Option Agreement shall, solely to the extent inconsistent with the provisions of [Sections 6.2, 6.3, and 6.4](#), as applicable, specify the effect of Termination of Service on the exercisability of the Option. Moreover, without limiting the generality of the foregoing, an Option Agreement may provide for a "cashless exercise" of the Option, in whole or in part, by (a) establishing procedures whereby the Holder, by a properly-executed written notice, directs (i) an immediate market sale as to all or a part of Shares to which he is entitled to receive upon exercise of the Option, (ii) the delivery of the Shares from the Company directly to a brokerage firm and (iii) the delivery of the Option price from sale proceeds from the brokerage firm directly to the Company, or (b) reducing the number of Shares to be issued upon exercise of the Option by the number of such Shares having an aggregate Fair Market Value equal to the Option price (or portion thereof to be so paid) as of the date of the Option's exercise. An Option Agreement may also include provisions relating to: (i) subject to the provisions hereof, accelerated vesting of Options, including but not limited to, upon the occurrence of a Change of Control, (ii) tax matters (including provisions covering any applicable Employee wage withholding requirements) and (iii) any other matters not inconsistent with the terms and provisions of the Plan that the Committee shall in its sole discretion determine. The terms and conditions of the respective Option Agreements need not be identical.

**7.4 Option Price and Payment.** The price at which an Share may be purchased upon exercise of an Option shall be determined by the Committee; provided, however, that such Option price (i) shall not be less than the Fair Market Value of a Share on the date such Option is granted, and (ii) shall be subject to adjustment as provided in Article XV. The Option or portion thereof may be exercised by delivery of an irrevocable notice of exercise to the Company. The Option price for the Option or portion thereof shall be paid in full in the manner prescribed by the Committee as set forth in the Plan and the applicable Option Agreement, which manner, with the consent of the Committee, may include the withholding of Shares otherwise issuable in connection with the exercise of the Option. Share certificates may be issued by the Company for those Shares acquired pursuant to the exercise of the Option.

**7.5 Stockholder Rights and Privileges.** The Holder of an Option shall be entitled to all the privileges and rights of a stockholder of the Company solely with respect to such Shares as have been purchased under the Option and for which share certificates have been registered in the Holder's name.

**7.6 Prohibition Against Re-Pricing.** Except to the extent (i) approved in advance by holders of a majority of the shares of the Company entitled to vote generally in the election of directors, or (ii) as a result of any Change of Control or any adjustment as provided in Article XV, the Committee shall not have the power or authority to reduce, whether through amendment or otherwise, the exercise price under any outstanding Option or Stock Appreciation Right, or to grant any new Award or make any payment of cash in substitution for or upon the cancellation of Options and/or Stock Appreciation Rights previously granted.

## ARTICLE VIII RESTRICTED STOCK AWARDS

8.1 Award. A Restricted Stock Award shall constitute an Award of Shares to the Holder as of the date of the Award which are subject to a “substantial risk of forfeiture” as defined under Section 83 of the Code during the specified Restriction Period. At the time a Restricted Stock Award is made, the Committee shall establish the Restriction Period applicable to such Award. Each Restricted Stock Award may have a different Restriction Period, in the discretion of the Committee. The Restriction Period applicable to a particular Restricted Stock Award shall not be changed except as permitted by Section 8.2.

8.2 Terms and Conditions. At the time any Award is made under this Article VIII, the Company and the Holder shall enter into a Restricted Stock Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Company shall cause the Shares to be issued in the name of Holder, either by book-entry registration or issuance of one or more stock certificates evidencing the Shares, which Shares or certificates shall be held by the Company or the stock transfer agent or brokerage service selected by the Company to provide services for the Plan. The Shares shall be restricted from transfer and shall be subject to an appropriate stop-transfer order, and if any certificate is issued, such certificate shall bear an appropriate legend referring to the restrictions applicable to the Shares. After any Shares vest, the Company shall deliver the vested Shares, in book-entry or certificated form in the Company's sole discretion, registered in the name of Holder or his or her legal representatives, beneficiaries or heirs, as the case may be, less any Shares withheld to pay withholding taxes. If provided for under the Restricted Stock Agreement, the Holder shall have the right to vote Shares subject thereto and to enjoy all other stockholder rights, including the entitlement to receive dividends on the Shares during the Restriction Period. At the time of such Award, the Committee may, in its sole discretion, prescribe additional terms and conditions or restrictions relating to Restricted Stock Awards, including, but not limited to, rules pertaining to the effect of Termination of Service prior to expiration of the Restriction Period. Such additional terms, conditions or restrictions shall, to the extent inconsistent with the provisions of Sections 6.2, 6.3 and 6.4, as applicable, be set forth in a Restricted Stock Agreement made in conjunction with the Award. Such Restricted Stock Agreement may also include provisions relating to: (i) subject to the provisions hereof, accelerated vesting of

7

Awards, including but not limited to accelerated vesting upon the occurrence of a Change of Control, (ii) tax matters (including provisions covering any applicable Employee wage withholding requirements) and (iii) any other matters not inconsistent with the terms and provisions of the Plan that the Committee shall in its sole discretion determine. The terms and conditions of the respective Restricted Stock Agreements need not be identical. All Shares delivered to a Holder as part of a Restricted Stock Award shall be delivered and reported by the Company or the Affiliate, as applicable, to the Holder at the time of vesting.

8.3 Payment for Restricted Stock. The Committee shall determine the amount and form of any payment from a Holder for Shares received pursuant to a Restricted Stock Award, if any, provided that in the absence of such a determination, a Holder shall not be required to make any payment for Shares received pursuant to a Restricted Stock Award, except to the extent otherwise required by law.

## ARTICLE IX UNRESTRICTED STOCK AWARDS

9.1 Award. Shares may be awarded (or sold) to Eligible Persons under the Plan which are not subject to Restrictions of any kind, for any valid consideration.

9.2 Terms and Conditions. At the time any Award is made under this Article IX, the Company and the Holder shall enter into an Unrestricted Stock Agreement setting forth each of the matters contemplated hereby and such other matters as the Committee may determine to be appropriate.

9.3 Payment for Unrestricted Stock. The Committee shall determine the amount and form of any payment from a Holder for Shares received pursuant to an Unrestricted Stock Award, if any, provided that in the absence of such a determination, a Holder shall not be required to make any payment for Shares received pursuant to an Unrestricted Stock Award, except to the extent otherwise required by law.

## ARTICLE X RESTRICTED STOCK UNIT AWARDS

10.1 Award. A Restricted Stock Unit Award shall constitute a promise to grant Shares (or cash equal to the Fair Market Value of Shares) to the Holder at the end of a specified vesting schedule. At the time a Restricted Stock Unit Award is made, the Committee shall establish the vesting schedule applicable to such Award. Each Restricted Stock Unit Award may have a different vesting schedule, in the discretion of the Committee. A Restricted Stock Unit shall not constitute an equity interest in the Company and shall not entitle the Holder to voting rights, dividends or any other rights associated with ownership of Shares prior to the time the Holder shall receive a distribution of Shares pursuant to Section 10.3.

**10.2 Terms and Conditions.** At the time any Award is made under this Article X, the Company and the Holder shall enter into a Restricted Stock Unit Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Restricted Stock Unit Agreement shall set forth the individual service-based vesting requirement which the Holder would be required to satisfy before the Holder would become entitled to distribution pursuant to [Section 10.3](#) and the number of Units awarded to the Holder. At the time of such Award, the Committee may, in its sole discretion, prescribe additional terms and conditions or restrictions relating to Restricted Stock Unit Awards in the Restricted Stock Unit Agreement, including, but not limited to, rules pertaining to the effect of Termination of Service prior to expiration of the applicable vesting period. The terms and conditions of the respective Restricted Stock Unit Agreements need not be identical.

**10.3 Distributions of Shares.** The Holder of a Restricted Stock Unit shall be entitled to receive Shares or a cash payment equal to the Fair Market Value of a Share, or one Share, as determined in the sole discretion of the Committee and as set forth in the Restricted Stock Unit Agreement, for each Restricted Stock Unit subject to such Restricted Stock Unit Award, if the Holder satisfies the applicable vesting requirement. Such distribution shall be made no later than by the fifteenth (15th) day of the third (3rd) calendar month next following the end of the calendar year in which the Restricted Stock Unit first becomes vested (i.e., no longer subject to a "substantial risk of forfeiture").

## **ARTICLE XI**

### **PERFORMANCE UNIT AWARDS**

**11.1 Award.** A Performance Unit Award shall constitute an Award under which, upon the satisfaction of predetermined individual and/or Company (and/or Affiliate) Performance Goals based on selected Performance Criteria, a cash payment shall be made to the Holder, based on the number of Units awarded to the Holder. At the time a Performance Unit Award is made, the Committee shall establish the Performance Period and applicable

8

---

Performance Goals. Each Performance Unit Award may have different Performance Goals, in the discretion of the Committee. A Performance Unit Award shall not constitute an equity interest in the Company and shall not entitle the Holder to voting rights, dividends or any other rights associated with ownership of Shares.

**11.2 Terms and Conditions.** At the time any Award is made under this Article XI, the Company and the Holder shall enter into a Performance Unit Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Committee shall set forth in the applicable Performance Unit Agreement the Performance Period, Performance Criteria and Performance Goals which the Holder and/or the Company would be required to satisfy before the Holder would become entitled to payment pursuant to [Section 11.3](#), the number of Units awarded to the Holder and the dollar value or formula assigned to each such Unit. At the time of such Award, the Committee may, in its sole discretion, prescribe additional terms and conditions or restrictions relating to Performance Unit Awards, including, but not limited to, rules pertaining to the effect of Termination of Service prior to expiration of the applicable performance period. The terms and conditions of the respective Performance Unit Agreements need not be identical.

**11.3 Payments.** The Holder of a Performance Unit shall be entitled to receive a cash payment equal to the dollar value assigned to such Unit under the applicable Performance Unit Agreement if the Holder and/or the Company satisfy (or partially satisfy, if applicable under the applicable Performance Unit Agreement) the Performance Goals set forth in such Performance Unit Agreement. All payments shall be made no later than by the fifteenth (15th) day of the third (3rd) calendar month next following the end of the Company's fiscal year to which such performance goals and objectives relate.

## **ARTICLE XII**

### **PERFORMANCE STOCK AWARDS**

**12.1 Award.** A Performance Stock Award shall constitute a promise to grant Shares (or cash equal to the Fair Market Value of Shares) to the Holder at the end of a specified Performance Period subject to achievement of specified Performance Goals. At the time a Performance Stock Award is made, the Committee shall establish the Performance Period and applicable Performance Goals based on selected Performance Criteria. Each Performance Stock Award may have different Performance Goals, in the discretion of the Committee. A Performance Stock Award shall not constitute an equity interest in the Company and shall not entitle the Holder to voting rights, dividends or any other rights associated with ownership of Shares unless and until the Holder shall receive a distribution of Shares pursuant to [Section 12.3](#).

**12.2 Terms and Conditions.** At the time any Award is made under this Article XII, the Company and the Holder shall enter into a Performance Stock Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Committee shall set forth in the applicable Performance Stock Agreement the Performance Period, selected Performance Criteria and Performance Goals which the Holder and/or the Company would be required to satisfy before the Holder would become entitled to the receipt of Shares pursuant to such Holder's Performance Stock Award and the number of Shares subject to such Performance Stock Award. If such Performance Goals are achieved, the distribution of Shares (or the payment of cash, as determined in the sole discretion of the Committee), shall be made in accordance with [Section 12.3](#), below. At the time of such Award, the Committee may, in its sole discretion, prescribe additional terms and conditions or restrictions relating to Performance Stock Awards, including, but not limited to, rules pertaining to the effect of the Holder's Termination of Service prior to the expiration of the applicable performance period. The terms and conditions of the respective Performance Stock Agreements need not be identical.

**12.3 Distributions of Shares.** The Holder of a Performance Stock Award shall be entitled to receive a cash payment equal to the Fair Market Value of a Share, or one Share, as determined in the sole discretion of the Committee, for each Performance Stock Award subject to such Performance Stock Agreement, if the Holder satisfies the applicable vesting requirement. Such distribution shall be made no later than by the fifteenth (15th) day of the third (3rd) calendar month next following the end of the Company's fiscal year to which such performance goals and objectives relate.

#### **ARTICLE XIII**

#### **DISTRIBUTION EQUIVALENT RIGHTS**

**13.1 Award.** A Distribution Equivalent Right shall entitle the Holder to receive bookkeeping credits, cash payments and/or Share distributions equal in amount to the distributions that would have been made to the Holder had the Holder held a specified number of Shares during the specified period of the Award.

**13.2 Terms and Conditions.** At the time any Award is made under this Article XIII, the Company and the Holder shall enter into a Distribution Equivalent Rights Award Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Committee

9

shall set forth in the applicable Distribution Equivalent Rights Award Agreement the terms and conditions, if any, including whether the Holder is to receive credits currently in cash, is to have such credits reinvested (at Fair Market Value determined as of the date of reinvestment) in additional Shares. If such Award becomes vested, the distribution of such cash or Shares shall be made no later than by the fifteenth (15th) day of the third (3rd) calendar month next following the end of the Company's fiscal year in which the Holder's interest in the Award vests. Distribution Equivalent Rights Awards may be settled in cash or in Shares, as set forth in the applicable Distribution Equivalent Rights Award Agreement. A Distribution Equivalent Rights Award may, but need not be, awarded in tandem with another Award (other than an Option or a SAR), whereby, if so awarded, such Distribution Equivalent Rights Award shall expire, terminate or be forfeited by the Holder, as applicable, under the same conditions as under such other Award.

**13.3 Interest Equivalents.** The Distribution Equivalent Rights Award Agreement for a Distribution Equivalent Rights Award may provide for the crediting of interest on a Distribution Rights Award to be settled in cash at a future date (but in no event later than by the fifteenth (15th) day of the third (3rd) calendar month next following the end of the Company's fiscal year in which such interest is credited and vested), at a rate set forth in the applicable Distribution Equivalent Rights Award Agreement, on the amount of cash payable thereunder.

#### **ARTICLE XIV**

#### **STOCK APPRECIATION RIGHTS**

**14.1 Award.** A Stock Appreciation Right shall constitute a right, granted alone or in connection with a related Option, to receive a payment equal to the increase in value of a specified number of Shares between the date of Award and the date of exercise.

**14.2 Terms and Conditions.** At the time any Award is made under this Article XIV, the Company and the Holder shall enter into a Stock Appreciation Right Agreement setting forth each of the matters contemplated thereby and such other matters as the Committee may determine to be appropriate. The Committee shall set forth in the applicable Stock Appreciation Right Agreement the terms and conditions of the Stock Appreciation Right, including (i) the base value (the "**Base Value**") for the Stock Appreciation Right, which shall be not less than the Fair Market Value of a Share on the date of grant of the Stock Appreciation Right, (ii) the number of Shares subject to the Stock Appreciation Right, (iii) the period during which the Stock Appreciation Right may be exercised; **provided, however**, that no Stock Appreciation Right shall be exercisable after the expiration of ten (10) years from the date of its grant, and (iv) any other special rules and/or requirements which the Committee imposes upon the Stock Appreciation Right. Upon the exercise of some or all of the portion of a Stock Appreciation Right, the Holder shall receive a payment from the Company, in cash or in the form of Shares having an equivalent Fair Market Value or in a combination of both, as determined in the sole discretion of the Committee, equal to the product of:

- (a) The excess of (i) the Fair Market Value of a Share on the date of exercise, over (ii) the Base Value, multiplied by,
- (b) The number of Shares with respect to which the Stock Appreciation Right is exercised.

**14.3 Tandem Stock Appreciation Rights.** If the Committee grants a Stock Appreciation Right which is intended to be a Tandem Stock Appreciation Right, the Tandem Stock Appreciation Right shall be granted at the same time as the related Option, and the following special rules shall apply:

- (a) The Base Value shall be equal to or greater than the per Share exercise price under the related Option;
- (b) The Tandem Stock Appreciation Right may be exercised for all or part of the Shares which are subject to the related Option, but solely upon the surrender by the Holder of the Holder's right to exercise the equivalent portion of the related Option (and when a Share is purchased under the related Option, an equivalent portion of the related Tandem Stock Appreciation Right shall be canceled);

(c) The Tandem Stock Appreciation Right shall expire no later than the date of the expiration of the related Option;

(d) The value of the payment with respect to the Tandem Stock Appreciation Right may be no more than one hundred percent (100%) of the difference between the per Share exercise price under the related Option and the Fair Market Value of the Shares subject to the related Option at the time the Tandem Stock Appreciation Right is exercised, multiplied by the number of the Shares with respect to which the Tandem Stock Appreciation Right is exercised; and

10

(e) The Tandem Stock Appreciation Right may be exercised solely when the Fair Market Value of the Shares subject to the related Option exceeds the per Share exercise price under the related Option.

## ARTICLE XV RECAPITALIZATION OR REORGANIZATION

**15.1 Adjustments to Shares.** The shares with respect to which Awards may be granted under the Plan are Shares as presently constituted; provided, however, that if, and whenever, prior to the expiration or distribution to the Holder of Shares underlying an Award theretofore granted, the Company shall effect a subdivision or consolidation of the Shares or the payment of an Share dividend on Shares without receipt of consideration by the Company, the number of Shares with respect to which such Award may thereafter be exercised or satisfied, as applicable, (i) in the event of an increase in the number of outstanding Shares, shall be proportionately increased, and the purchase price per Share shall be proportionately reduced, and (ii) in the event of a reduction in the number of outstanding Shares, shall be proportionately reduced, and the purchase price per Share shall be proportionately increased. Notwithstanding the foregoing or any other provision of this Article XV, any adjustment made with respect to an Option, shall comply with the requirements of Section 409A of the Code, and in no event shall any adjustment be made which would render any Option granted under the Plan to become subject to Section 409A of the Code.

**15.2 Recapitalization.** If the Company recapitalizes or otherwise changes its capital structure, thereafter upon any exercise or satisfaction, as applicable, of a previously granted Award, the Holder shall be entitled to receive (or entitled to purchase, if applicable) under such Award, in lieu of the number of Shares then covered by such Award, the number and class of shares and securities to which the Holder would have been entitled pursuant to the terms of the recapitalization if, immediately prior to such recapitalization, the Holder had been the holder of record of the number of Shares then covered by such Award.

**15.3 Other Events.** In the event of changes to the outstanding Shares by reason of an extraordinary cash dividend, reorganization, merger, consolidation, combination, split-up, spin-off, exchange or other relevant change in capitalization occurring after the date of the grant of any Award and not otherwise provided for under this Article XV, any outstanding Awards and any Award Agreements evidencing such Awards shall be adjusted by the Board in its discretion in such manner as the Board shall deem equitable or appropriate taking into consideration the applicable accounting and tax consequences, as to the number and price of Shares or other consideration subject to such Awards. In the event of any adjustment pursuant to Sections 15.1, 15.2 or this Section 15.3, the aggregate number of Shares available under the Plan pursuant to Section 5.1 may be appropriately adjusted by the Board, the determination of which shall be conclusive. In addition, the Committee may make provision for a cash payment to a Holder or a person who has an outstanding Award.

**15.4 Change of Control.** The Committee may, in its sole discretion, at the time an Award is made or at any time prior to, coincident with or after the time of a Change of Control, cause any Award either (i) to be canceled in consideration of a payment in cash or other consideration in amount per share equal to the excess, if any, of the price or implied price per Share in the Change of Control over the per Share exercise, base or purchase price of such Award, which may be paid immediately or over the vesting schedule of the Award; (ii) to be assumed, or new rights substituted therefore, by the surviving corporation or a parent or subsidiary of such surviving corporation following such Change of Control; (iii) accelerate any time periods, or waive any other conditions, relating to the vesting, exercise, payment or distribution of an Award so that any Award to a Holder whose employment has been terminated as a result of a Change of Control may be vested, exercised, paid or distributed in full on or before a date fixed by the Committee; (iv) to be purchased from a Holder whose employment has been terminated as a result of a Change of Control, upon the Holder's request, for an amount of cash equal to the amount that could have been obtained upon the exercise, payment or distribution of such rights had such Award been currently exercisable or payable; or (v) terminate any then outstanding Award or make any other adjustment to the Awards then outstanding as the Committee deems necessary or appropriate to reflect such transaction or change. The number of Shares subject to any Award shall be rounded to the nearest whole number.

**15.5 Powers Not Affected.** The existence of the Plan and the Awards granted hereunder shall not affect in any way the right or power of the Board or of the stockholders of the Company to make or authorize any adjustment, recapitalization, reorganization or other change of the Company's capital structure or business, any merger or consolidation of the Company, any issue of debt or equity securities ahead of or affecting Shares or the rights thereof, the dissolution or liquidation of the Company or any sale, lease, exchange or other disposition of all or any part of its assets or business or any other corporate act or proceeding.

**15.6 No Adjustment for Certain Awards.** Except as hereinabove expressly provided, the issuance by the Company of shares of any class or securities convertible into shares of any class, for cash, property, labor or services, upon direct sale, upon the exercise of rights or warrants to subscribe therefor or upon conversion of shares or obligations of the

Company convertible into such shares or other securities, and in any case whether or not for fair

11

value, shall not affect previously granted Awards, and no adjustment by reason thereof shall be made with respect to the number of Shares subject to Awards theretofore granted or the purchase price per Share, if applicable.

## ARTICLE XVI AMENDMENT AND TERMINATION OF PLAN

The Plan shall continue in effect, unless sooner terminated pursuant to this Article XVI, until the tenth (10th) anniversary of the date on which it is adopted by a majority of the Independent Directors of the Board (except as to Awards outstanding on that date). A majority of the Independent Directors of the Board in its discretion may terminate the Plan at any time with respect to any shares for which Awards have not theretofore been granted; provided, however, that the Plan's termination shall not materially and adversely impair the rights of a Holder with respect to any Award theretofore granted without the consent of the Holder. The Board shall have the right to alter or amend the Plan or any part hereof from time to time. In addition, no change in any Award theretofore granted may be made which would materially and adversely impair the rights of a Holder with respect to such Award without the consent of the Holder (unless such change is required in order to exempt the Plan or any Award from Section 409A of the Code).

## ARTICLE XVII MISCELLANEOUS

**17.1 No Right to Award.** Neither the adoption of the Plan by the Company nor any action of the Board or the Committee shall be deemed to give an Eligible Person any right to an Award except as may be evidenced by an Award Agreement duly executed on behalf of the Company, and then solely to the extent and on the terms and conditions expressly set forth therein.

**17.2 No Rights Conferred.** Nothing contained in the Plan shall (i) confer upon any Employee any right with respect to continuation of employment with the Company or any Affiliate, (ii) interfere in any way with any right of the Company or any Affiliate to terminate the employment of an Employee at any time, (iii) confer upon any Director any right with respect to continuation of such Director's membership on the Board, (iv) interfere in any way with any right of the Company or an Affiliate to terminate a Director's membership on the Board at any time, (v) confer upon any Consultant any right with respect to continuation of his or her consulting engagement with the Company or any Affiliate, or (vi) interfere in any way with any right of the Company or an Affiliate to terminate a Consultant's consulting engagement with the Company or an Affiliate at any time.

**17.3 Other Laws; No Fractional Shares; Withholding.** The Company shall not be obligated by virtue of any provision of the Plan to recognize the exercise of any Award or to otherwise sell or issue Shares in violation of any laws, rules or regulations, and any postponement of the exercise or settlement of any Award under this provision shall not extend the term of such Award. Neither the Company nor its directors or officers shall have any obligation or liability to a Holder with respect to any Award (or Shares issuable thereunder) (i) that shall lapse because of such postponement, or (ii) for any failure to comply with the requirements of any applicable law, rules or regulations, including but not limited to any failure to comply with the requirements of Section 409A of this Code. No fractional Shares shall be delivered, nor shall any cash in lieu of fractional Shares be paid. The Company shall have the right to deduct in cash (whether under this Plan or otherwise) in connection with all Awards any taxes required by law to be withheld and to require any payments required to enable it to satisfy its withholding obligations. In the case of any Award satisfied in the form of Shares, no Shares shall be issued unless and until arrangements satisfactory to the Company shall have been made to satisfy any tax withholding obligations applicable with respect to such Award. Subject to such terms and conditions as the Committee may impose, the Company shall have the right to retain, or the Committee may, subject to such terms and conditions as it may establish from time to time, permit Holders to elect to tender, Shares (including Shares issuable in respect of an Award) to satisfy, in whole or in part, the amount required to be withheld.

**17.4 No Restriction on Corporate Action.** Nothing contained in the Plan shall be construed to prevent the Company or any Affiliate from taking any corporate action which is deemed by the Company or such Affiliate to be appropriate or in its best interest, whether or not such action would have an adverse effect on the Plan or any Award made under the Plan. No Eligible Person, beneficiary or other person shall have any claim against the Company or any Affiliate as a result of any such action.

**17.5 Restrictions on Transfer.** No Award under the Plan or any Award Agreement and no rights or interests herein or therein, shall or may be assigned, transferred, sold, exchanged, encumbered, pledged or otherwise hypothecated or disposed of by a Holder except (i) by will or by the laws of descent and distribution, or (ii) where permitted under applicable tax rules, by gift to any Family Member of the Holder, subject to compliance with applicable laws. An Award may be exercisable during the lifetime of the Holder only by such Holder or by the Holder's guardian or legal representative unless it has been transferred by gift to a Family Member of the Holder, in

12

which case it shall be exercisable solely by such transferee. Notwithstanding any such transfer, the Holder shall continue to be subject to the withholding requirements provided for under Section 17.3 hereof.

17.6 Beneficiary Designations. Each Holder may, from time to time, name a beneficiary or beneficiaries (who may be contingent or successive beneficiaries) for purposes of receiving any amount which is payable in connection with an Award under the Plan upon or subsequent to the Holder's death. Each such beneficiary designation shall serve to revoke all prior beneficiary designations, be in a form prescribed by the Company and be effective solely when filed by the Holder in writing with the Company during the Holder's lifetime. In the absence of any such written beneficiary designation, for purposes of the Plan, a Holder's beneficiary shall be the Holder's estate.

17.7 Rule 16b-3. It is intended that the Plan and any Award made to a person subject to Section 16 of the Exchange Act shall meet all of the requirements of Rule 16b-3. If any provision of the Plan or of any such Award would disqualify the Plan or such Award under, or would otherwise not comply with the requirements of, Rule 16b-3, such provision or Award shall be construed or deemed to have been amended as necessary to conform to the requirements of Rule 16b-3.

17.8 Clawback Policy. Notwithstanding anything contained herein or in any incentive "performance based" award, Awards under the Plan shall be subject to reduction, forfeiture or repayment by reason of a correction or restatement of the Company's financial information if and to the extent such reduction or repayment is required by any applicable law or any then-effective Company clawback policy.

17.9 No Obligation to Notify or Minimize Taxes. The Company shall have no duty or obligation to any Holder to advise such Holder as to the time or manner of exercising any Award. Furthermore, the Company shall have no duty or obligation to warn or otherwise advise such Holder of a pending termination or expiration of an Award or a possible period in which the Award may not be exercised. The Company has no duty or obligation to minimize the tax consequences of an Award to any person.

17.10 Section 409A. Notwithstanding any other provision of the Plan, the Committee shall have no authority to issue an Award under the Plan with terms and/or conditions which would cause such Award to constitute non-qualified "deferred compensation" under Section 409A of the Code unless such Award shall be structured to be exempt from or comply with all requirements of Code Section 409A. The Plan and all Award Agreements are intended to comply with the requirements of Section 409A of the Code (or to be exempt therefrom) and shall be so interpreted and construed and no amount shall be paid or distributed from the Plan unless and until such payment complies with all requirements of Code Section 409A. If an Award is subject to Section 409A of the Code, (i) distributions shall only be made in a manner and upon an event permitted under Section 409A of the Code, (ii) payments to be made upon a termination of employment or service shall only be made upon a "separation from service" under section 409A of the Code, (iii) unless the Award specifies otherwise, each installment payment shall be treated as a separate payment for purposes of Section 409A of the Code, and (iv) in no event shall a Holder, directly or indirectly, designate the calendar year in which a distribution is made except in accordance with Section 409A of the Code. Any Award that is subject to Section 409A of the Code and that is to be distributed to a Key Employee (as defined below) upon separation from service shall be administered so that any distribution with respect to such Award shall be postponed for six months following the date of the Holder's separation from service (unless an earlier death), if required by Section 409A. The determination of "Key Employees," including the number and identity of persons considered Key Employees and the identification date, shall be made by the Committee or its delegate each year in accordance with section 416(i) of the Code and the "specified employee" requirements of Section 409A of the Code. It is the intent of the Company that the provisions of this Plan and all other plans and programs sponsored by the Company be interpreted to comply in all respects with Code Section 409A, however, the Company shall have no liability to the Holder, or any successor or beneficiary thereof, in the event taxes, penalties or excise taxes may ultimately be determined to be applicable to any payment or benefit received by the Holder or any successor or beneficiary thereof.

17.11 Indemnification. Each person who is or shall have been a member of the Committee or of the Board shall be indemnified and held harmless by the Company against and from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred thereby in connection with or resulting from any claim, action, suit, or proceeding to which such person may be made a party or may be involved by reason of any action taken or failure to act under the Plan and against and from any and all amounts paid thereby in settlement thereof, with the Company's approval, or paid thereby in satisfaction of any judgment in any such action, suit, or proceeding against such person; provided, however, that such person shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive and shall be independent of any other rights of indemnification to which such persons may be entitled under the Company's Articles of Incorporation or By-laws, by contract, as a matter of law, or otherwise.

17.12 Other Benefit Plans. No Award, payment or amount received hereunder shall be taken into account in computing an Employee's salary or compensation for the purposes of determining any benefits under any pension, retirement, life insurance or other benefit plan of the Company or any Affiliate, unless such other plan specifically

provides for the inclusion of such Award, payment or amount received. Nothing in the Plan shall be construed to limit the right of the Company to establish other plans or to pay compensation to its employees, in cash or property, in a manner which is not expressly authorized under the Plan.

**17.13 Limits of Liability.** Any liability of the Company with respect to an Award shall be based solely upon the contractual obligations created under the Plan and the Award Agreement. None of the Company, any member of the Board nor any member of the Committee shall have any liability to any party for any action taken or not taken, in good faith, in connection with or under the Plan.

**17.14 Governing Law.** Except as otherwise provided herein, the Plan shall be construed in accordance with the laws of the State of Delaware, without regard to principles of conflicts of law.

**17.15 Subplans.** The Board may from time to time establish one or more sub-plans under the Plan for purposes of satisfying applicable blue sky, securities or tax laws of various jurisdictions. The Board shall establish such sub-plans by adopting supplements to the Plan setting forth (i) such limitations on the Committee's discretion under the Plan as the Board deems necessary or desirable and (ii) such additional terms and conditions not otherwise inconsistent with the Plan as the Board shall deem necessary or desirable. All supplements adopted by the Board shall be deemed to be part of the Plan, but each supplement shall apply only to Holders within the affected jurisdiction and the Company shall not be required to provide copies of any supplement to Holders in any jurisdiction that is not affected.

**17.16 Severability of Provisions.** If any provision of the Plan is held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the Plan, and the Plan shall be construed and enforced as if such invalid or unenforceable provision had not been included in the Plan.

**17.17 No Funding.** The Plan shall be unfunded. The Company shall not be required to establish any special or separate fund or to make any other segregation of funds or assets to ensure the payment of any Award. Prior to receipt of Shares or a cash distribution pursuant to the terms of an Award, such Award shall represent an unfunded unsecured contractual obligation of the Company and the Holder shall have no greater claim to the Shares underlying such Award or any other assets of the Company or Affiliate than any other unsecured general creditor.

**17.18 Headings.** Headings used throughout the Plan are for convenience only and shall not be given legal significance.
