Â Our auditor, ARK Pro CPA & Co. (â€œARKâ€), the independent registered public accounting firm that issues the audit report in our SEC filings, as an auditor of companies that are traded publicly in the United States and a firm registered with the PCAOB, is subject to laws in the United States, pursuant to which the PCAOB conducts regular inspections to assess its compliance with the applicable professional standards. Our auditor is located in Hong Kong Special Administrative Region of the PRC ("Hong Kong"), China, a jurisdiction where the PCAOB was unable to conduct inspections and investigations before 2022. As a result, we and investors in our securities were deprived of the benefits of such PCAOB inspections. On DecemberÂ 15, 2022, the PCAOB announced that it was able to secure complete access to inspect and investigate PCAOB-registered public accounting firms headquartered in China mainland and Hong Kong in 2022. However, the inability of the PCAOB to conduct inspections of auditors in Hong Kong in the past made it more difficult to evaluate the effectiveness of our independent registered public accounting firmâ€™s audit procedures or quality control procedures as compared to auditors outside of China mainland and Hong Kong that have been subject to the PCAOB inspections, which could cause investors and potential investors in our securities to lose confidence in our audit procedures and reported financial information and the quality of our financial statements. Â Our common stock may be delisted and prohibited from trading in the United States under the Holding Foreign Companies Accountable Act, or the HFCAA,Â as amended by the Accelerating Holding Foreign Companies Accountable Act,Â if the PCAOB is unable to inspect or investigate completely auditors located in China mainland and Hong Kong. The delisting of our common stock or the threat of their being delisted could cause the value of our common stock to significantly decline or be worthless, and thus you could lose all or substantial portion of your investment. Â On December 18, 2020, the Holding Foreign Companies Accountable Act, or the HFCAA, was signed into law that states if the SEC determines that issuers have filed audit reports issued by a registered public accounting firm that has not been subject to PCAOB inspection for three consecutive years beginning in 2021, the SEC shall prohibit its common stock from being traded on a national securities exchange or in the over-the-counter trading market in the U.S. Furthermore, on June 22, 2021, the U.S. Senate passed the Accelerating Holding Foreign Companies Accountable Act, to prohibit securities of any registrant from being listed on any of the U.S. securities exchanges or traded over-the-counter if the auditor of the registrantâ€™s financial statements is not subject to PCAOB inspection for two consecutive years, instead of three consecutive years as enacted in the HFCAA. On DecemberÂ 2, 2021, the SEC adopted final amendments implementing the disclosure and submission requirements of the HFCAA, pursuant to which the SEC will identify an issuer as a â€œCommission-Identified Issuerâ€ if the issuer has filed an annual report containing an audit report issued by a registered public accounting firm that the PCAOB has determined it is unable to inspect or investigate completely, and will then impose a trading prohibition on an issuer after it is identified as a Commission-Identified Issuer for three consecutiveÂ years. On December 29, 2022, the Accelerating Holding Foreign Companies Accountable Act was signed into law. Â On December 16, 2021, the PCAOB issued a HFCAA Determination Report (the â€œ2021 PCAOB Determinationsâ€) to notify the SEC of its determination that the PCAOB was unable to inspect or investigate completely registered public accounting firms headquartered in China mainland and Hong Kong because of positions taken by the Chinese authorities, and our auditor was subject to this determination. On May 13, 2022, the SEC conclusively identified us as a Commission-Identified Issuer under the HFCAA following the filing of our annual report on Form 10-K for the fiscal year ended December 31, 2021. Â On August 26, 2022, the PCAOB signed a Statement of Protocol on agreement governing on inspections of audit firms based in mainland China and Hong Kong, with China Securities Regulatory Commission (â€œCSRCâ€) and Ministry of Finance (â€œMOFâ€) of the PRC, in regarding to governing inspections and investigations of audit firms headquartered in mainland China and Hong Kong (the â€œAgreementâ€). As stated in the Agreement, the Chinese authorities committed that the PCAOB has direct access to view complete audit work papers under its inspections or investigations and has sole discretion to the selected audit firms and audit engagements. The Agreement opens access for the PCAOB to inspect and investigate the registered public accounting firms in mainland China and Hong Kong completely. The PCAOB then thoroughly tested compliance with every aspect of the Agreement necessary to determine complete access. This included sending a team of PCAOB staff to conduct on-site inspections and investigations in Hong Kong over a nine-week period from September to November 2022. Â Â Â Â On December 15, 2022, the PCAOB issued its 2022 HFCAA Determination ReportÂ to notify the SEC of its determination that the PCAOB was able to secure complete access to inspect and investigate PCAOB-registered public accounting firms headquartered in China mainland and Hong Kong completely in 2022. The PCAOB Board vacated its 2021 PCAOB Determinations that the PCAOB was unable to inspect or investigate completely registered public accounting firms headquartered in China mainland and Hong Kong. For this reason, we do not expect to be identified as a Commission-Identified Issuer following the filing of our annual report for the fiscal year ended December 31, 2022. However, whether the PCAOB will continue to be able to satisfactorily conduct inspections of PCAOB-registered public accounting firms headquartered in China mainland and Hong Kong is subject to uncertainty and depends on a number of factors out of our, and our auditorâ€™sÂ control. Â The PCAOB is continuing to demand complete access in China mainland and Hong Kong moving forward and is already making plans to resume regular inspections in early 2023 and beyond, as well as to continue pursuing ongoing investigations and initiate new investigations as needed. The PCAOB does not have to wait another year to reassess its determinations. Should the PRC authorities obstruct the PCAOBâ€™s access to inspect or investigate completely in any way and at any point, the PCAOB will act immediately to consider the need to issue new determinations consistent with the HFCAA. Â We cannot assure you that our auditor will not be determined as a register public accounting firm that the PCAOB is unable to inspect or investigate completely for two consecutive years because of positions taken by the Chinese authorities and/or any other causes in the future.Â Each year, the PCAOB will determine whether it can inspect and investigate completely audit firms in mainland China and Hong Kong, among other jurisdictions.Â If the PCAOB in the future again determines that it is unable to inspect and investigate completely auditors in China mainland and Hong Kong, we may be identified as a Commission-Identified Issuer accordingly. If this happens, Nasdaq may determine to delist our common stock, and there is no certainty that we will be able to continue listing our common stock on other non-U.S. stock exchanges or that an active market for our common stock will immediately develop outside of the U.S. The prohibiting from trading in the United States or delisting of our common stock or the threat of their being delisted could cause the value of our common stock to significantly decline or be worthless, and thus you could lose all or substantial portion of your investment. Organization and nature of operations Â ZW Data Action Technologies Inc. (the â€œCompanyâ€) was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. On June 26, 2009, the Company consummated a share exchange transaction with China Net Online Media Group Limited (the â€œShare Exchangeâ€), a company organized under the laws of British Virgin Islands (â€œChina Net BVIâ€). As a result of the Share Exchange, China Net BVI became a wholly owned subsidiary of the Company and the Company is now a holding company, which, through certain contractual arrangements with operating companies in the Peopleâ€™s Republic of China (the â€œPRCâ€), is engaged in providing Internet advertising, precision marketing, e-commerce online to offline (O2O) advertising and marketing services as well as the related data and technical services to small and medium enterprises (SMEs) in the PRC. The Company also develops blockchain enabled web/mobile applications and provides software solutions, i.e., Software-as-a-Service (â€œSaaSâ€) services for clients. Â Â 2. Variable interest entities Â The Company is not an operating company in China, but a Nevada holding company with no equity ownership in the VIEs. The Company primarily conducts its operations in China through its PRC subsidiaries, the VIEs, with which the Company has entered into contractual arrangements, and their subsidiaries in China. Summarized below is the information related to the VIEsâ€™ assets and liabilities reported in the Companyâ€™s condensed consolidated balance sheets as of September 30, 2024 and December 31, 2023, respectively: Â Â Â September 30, 2024 Â Â December 31, 2023 Â Â Â US$(â€™000) Â Â US$(â€™000) Â Â Â (Unaudited) Â Â Â Â Â Assets Â Â Â Â Â Â Â Â Current assets: Â Â Â Â Â Â Â Â Cash and cash equivalents Â $ 82 Â Â $ 367 Â Accounts receivable, net Â Â 279 Â Â Â 844 Â Prepayment and deposit to suppliers Â Â 1,971 Â Â Â 2,005 Â Other current assets, net Â Â - Â Â Â 2 Â Total current assets Â Â 2,332 Â Â Â 3,218 Â Â Â Â Â Â Â Â Â Property and equipment, net Â Â 97 Â Â Â 139 Â Deferred tax assets, net Â Â 410 Â Â Â 401 Â Total Assets Â $ 2,839 Â Â $ 3,758 Â Â Â Â Â Â Â Â Â Liabilities Â Â Â Â Â Â Â Â Current liabilities: Â Â Â Â Â Â Â Â Accounts payable Â $ 230 Â Â $ 201 Â Advance from customers Â Â 700 Â Â Â 843 Â Accrued payroll and other accruals Â Â 18 Â Â Â 37 Â Taxes payable Â Â 2,586 Â Â Â 2,555 Â Lease payment liability related to short-term leases Â Â 101 Â Â Â 99 Â Other current liabilities Â Â 506 Â Â Â 56 Â Total current liabilities Â Â 4,141 Â Â Â 3,791 Â Â Â Â Â Â Â Â Â Total Liabilities Â $ 4,141 Â Â $ 3,791 Â Â Liabilities recognized as a result of consolidating these VIEs do not represent additional claims on the Companyâ€™s general assets. Liquidity and Capital Resources Â The Company incurred operating losses and may continue to incur operating losses, and as a result, to generate negative cash flows as the Company implements its future business plan. For the nine months ended September 30, 2024, the Company incurred a loss from operations of US$3.22 million and a net operating cash outflow of US$1.23 million. As of September 30, 2024, the Company had cash and cash equivalents of US$1.12 million and working capital of US$3.88 million, compared with approximately US$0.82 million and US$4.11 million as of December 31, 2023, respectively. Â TheÂ Company plans to optimize its internet resources cost investment strategy to improve the gross profit margin of its core business and to further strengthen the accounts receivables collection management and negotiate more favorable payment terms with major suppliers, all of which will contribute to substantially increase the cashflows from operations. To further improve liquidity, the Company also plans to reduce operating costs through optimizing staffing across various offices and, if needed, downsizing office leasing spaces. Beginning in early 2022, the Company introduced its SaaS services to customers.Â The Companyâ€™s SaaS services are provided based on technologies of its self-developed Blockchain Integrated Framework (â€œBIFâ€) platform. The BIF platform enables the Companyâ€™s clients to utilize the BIF platform as an enterprise management software to record, share and storage operating data on-chain, and/or to generate unique designed Non-fungible Token (â€œNFTsâ€) for their IPs and certificates. While the revenues from the new SaaS services business and its profitability have not met the Companyâ€™s expectations, the Company still expects these services to generate positive cash flow and improve liquidity since they rely on technologies of its self-developed software platform, thus reducing the need for substantial cash outflow to third-party service providers. Revenues from our new SaaS services business was US$0.75 million for the nine months ended September 30, 2024. Â If the Company fails to achieve these goals, the Company may need additional financing to execute its business plan. If additional financing is required, the Company cannot predict whether this additional financing will be in the form of equity, debt, or another form, and the Company may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. In the event that financing sources are not available, or that the Company is unsuccessful in increasing its gross profit margin and reducing operating losses, the Company may be unable to implement its current plans for expansion, repay debt obligations or respond to competitive pressures, any of which would have a material adverse effect on the Companyâ€™s business, prospects, financial condition and results of operations. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued. Â The unaudited condensed consolidated financial statements as of September 30, 2024 have been prepared under the assumption that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period of time. The Company's ability to continue as a going concern is dependent upon its uncertain ability to increase gross profit margin and reduce operating loss from its core business and/or obtain additional equity and/or debt financing. The accompanying financial statements as of September 30, 2024 do not include any adjustments that might result from the outcome of these uncertainties. If the Company is unable to continue as a going concern, it may have to liquidate its assets and may receive less than the value at which those assets are carried on the financial statements. Â Â 4. Summary ofÂ significant accounting policies Â Â a) Basis of presentation Â The unaudited condensed consolidated interim financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America (â€œU.S. GAAPâ€). Â Â 10 Â Â ZW DATA ACTION TECHNOLOGIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) Â The unaudited condensed consolidated interim financial information as of September 30, 2024 and for the nine and three months ended September 30, 2024 and 2023 have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the â€œSECâ€). Certain information and footnote disclosures, which are normally included in complete consolidated financial statements prepared in accordance with U.S. GAAP, have been omitted pursuant to those rules and regulations. The unaudited condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the Companyâ€™s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, previously filed with the SEC (the â€œ2023 Form 10-Kâ€) on June 28, 2024. Â In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Companyâ€™s condensed consolidated financial position as of September 30, 2024, its condensed consolidated results of operations for the nine and three months ended September 30, 2024 and 2023, and its condensed consolidated cash flows for the nine months ended September 30, 2024 and 2023, as applicable, have been made. The interim results of operations are not necessarily indicative of the operating results for the full fiscal year or any future periods. Â Â b) Principles of consolidation Â The unaudited condensed consolidated interim financial statements include the accounts of all the subsidiaries and VIEs of the Company. All transactions and balances between the Company and its subsidiaries and VIEs have been eliminated upon consolidation. Â Â c) Use of estimates Â The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of these consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. The Company continually evaluates these

estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Â Â d) Foreign currency translation Â TheÂ exchange rates used to translate amounts in Reminbi, the legal currency of mainland China (â€œRMBâ€) into US$ for the purposes of preparing the condensed consolidated financial statements are as follows : Â Â Â September 30, 2024 Â Â December 31, 2023 Â Â Â Â Â Â Â Â Â Â Â Â Balance sheet items, except for equity accounts Â Â 7.0074 Â Â Â 7.0827 Â Â Â Â Nine Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1092 Â Â Â 7.0148 Â Â Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1169 Â Â Â 7.1649 Â Â No representation is made that the RMB amounts could have been, or could be converted into US$ at the above rates. Â Â e) Current expected credit losses Â 11 Â Â ZW DATA ACTION TECHNOLOGIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) Â InÂ June 2016,Â the FASB issued ASUÂ No.Â 2016-13,Â â€œFinancial Instruments-Credit Losses (TopicÂ 326): Measurement of Credit Losses on Financial Instrumentsâ€. The amendments in this ASU require the measurement and recognition of expected credit losses for financial assets held at amortized cost, which replace the existing incurred loss impairment model with an expected loss methodology. The Company, as a SEC smaller reporting company, has adopted the amendments in this ASU fromÂ January 1, 2023, using a modified retrospective transition method and did not restate the related accounts in the comparable period. Instead, the Company recognized a cumulative-effect adjustment to increase the opening balance of its accumulated deficit on January 1, 2023 by US$0.19 million, of which US$0.04 million was related to the cumulative-effect adjustment to allowance for credit loss of accounts receivable, and the remaining US$0.15 million was related to the cumulative-effect adjustment to allowance for credit loss of other current assets, which primarily consisted of short-term loans the Company provided to unrelated parties. Â The allowance for credit losses reflects the Company's current estimate of credit losses expected to be incurred over the life of the related financial assets. The allowance for credit losses is presented as a valuation account that is deducted from the amortized cost basis of financial asset(s) to present the net amount expected to be collected on the financial asset(s). Â The Company considers various factors in establishing, monitoring, and adjusting its allowance for credit losses, including the aging and aging trends, customer/other partiesâ€™ creditworthiness and specific exposures related to particular customers/other parties. The Company also monitors other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other partyâ€™s ability to pay in establishing and adjusting its allowance for credit losses. The Company assesses collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when the Company identifies specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased. China and Hong Kong (the â€œAgreementâ€). As stated in the Agreement, the Chinese authorities committed that the PCAOB has direct access to view complete audit work papers under its inspections or investigations and has sole discretion to the selected audit firms and audit engagements. The Agreement opens access for the PCAOB to inspect and investigate the registered public accounting firms in mainland China and Hong Kong completely. The PCAOB then thoroughly tested compliance with every aspect of the Agreement necessary to determine complete access. This included sending a team of PCAOB staff to conduct on-site inspections and investigations in Hong Kong over a nine-week period from September to November 2022. Â On December 15, 2022, the PCAOB issued its 2022 HFCAA Determination ReportÂ to notify the SEC of its determination that the PCAOB was able to secure complete access to inspect and investigate PCAOB-registered public accounting firms headquartered in China mainland and Hong Kong completely in 2022. The PCAOB Board vacated its 2021 PCAOB Determinations that the PCAOB was unable to inspect or investigate completely registered public accounting firms headquartered in China mainland and Hong Kong. For this reason, we do not expect to be identified as a Commission-Identified Issuer following the filing of our annual report for the fiscal year ended December 31, 2022. However, whether the PCAOB will continue to be able to satisfactorily conduct inspections of PCAOB-registered public accounting firms headquartered in China mainland and Hong Kong is subject to uncertainty and depends on a number of factors out of our, and our auditorâ€™s, control. Â The PCAOB is continuing to demand complete access in China mainland and Hong Kong moving forward and is already making plans to resume regular inspections in early 2023 and beyond, as well as to continue pursuing ongoing investigations and initiate new investigations as needed. The PCAOB does not have to wait another year to reassess its determinations. Should the PRC authorities obstruct the PCAOBâ€™s access to inspect or investigate completely in any way and at any point, the PCAOB will act immediately to consider the need to issue new determinations consistent with the HFCAA. Â We cannot assure you that our auditor will not be determined as a register public accounting firm that the PCAOB is unable to inspect or investigate completely for two consecutive years because of positions taken by the Chinese authorities and/or any other causes in the future.Â Each year, the PCAOB will determine whether it can inspect and investigate completely audit firms in mainland China and Hong Kong, among other jurisdictions.Â If the PCAOB in the future again determines that it is unable to inspect and investigate completely auditors in China mainland and Hong Kong, we may be identified as a Commission-Identified Issuer accordingly. If this happens, Nasdaq may determine to delist our common stock, and there is no certainty that we will be able to continue listing our common stock on other non-U.S. stock exchanges or that an active market for our common stock will immediately develop outside of the U.S. The prohibiting from trading in the United States or delisting of our common stock or the threat of their being delisted could cause the value of our common stock to significantly decline or be worthless, and thus you could lose all or substantial portion of your investment. Â Overview Â Our company was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. As a result of a share exchange transaction we consummated with China Net BVI in June 2009, we are now a holding company, which through certain contractual arrangements with operating companies in the PRC, is engaged in providing Internet advertising, precision marketing, blockchain-based SaaS services, and ecommerce O2O advertising and marketing services and the related data and technical services to SMEs in the PRC. Â Through our PRC operating subsidiaries and VIEs, we primarily operate a one-stop services for our clients on our Omni-channel advertising, precision marketing and data analysis management system. We offer a variety channels of advertising and marketing services through this system, which primarily include distribution of the right to use search engine marketing services we purchased from key search engines, provision of online advertising placements services on our web portals, provision of ecommerce O2O advertising and marketing services as well as provision of other related value-added data and technical services to maximize market exposure and effectiveness for our clients. Beginning in early 2022, we introduced our SaaS services to customers. The SaaS services were designated in providing one-stop blockchain-powered enterprise management solutions via our BIF platform in forms of unique NFT generations, data record, share and storage modules subscriptions etc. Â 30 Â Â Basis of presentation, management estimates and critical accounting policies Â Our unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (â€œU.S. GAAPâ€) and include the accounts of our company, and all of our subsidiaries and VIEs. We prepare financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. In order to understand the significant accounting policies that we adopted for the preparation of our condensed consolidated interim financial statements, readers should refer to the information set forth in Note 4 â€œSummary of significant accounting policiesâ€ to our audited financial statements in our 2023 Form 10-K. Â We believe that the assumptions and estimates associated with revenue recognition, estimation of current expected credit loss and fair value measurement of warrant liabilities have the greatest potential impacts on our condensed consolidated financial statements. Therefore, we consider these to be our critical accounting policies and estimates. Â Â â— Our revenues are recognized when control of the promised services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those services. Our revenues from distribution of the right to use search engine marketing service are recognized on a gross basis, because we determine that we are a principal in the transaction who control the services before they are transferred to our customers. Â Â Â Â â— We maintain an allowance for credit losses for accounts receivable and short-term loans provided to unrelated parties, which are recorded as valuation accounts that are deducted from the amortized cost basis of the related financial assets to present the net amount expected to be collected on the financial assets. The allowance for credit losses reflects our current estimate of credit losses expected to be incurred over the life of the related financial assets. We consider various factors in establishing, monitoring, and adjusting our allowance for credit losses, including the aging and aging trends, customer/other partiesâ€™Â creditworthiness and specific exposures related to particular customers/other parties. We also monitor other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other partyâ€™s ability to pay in establishing and adjusting its allowance for credit losses. We assess collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when we identify specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased. Â Â Â Â â— We determined that the warrants we issued in various financing activities should be accounted for as derivative liabilities and measured at fair value with changes in fair value be recorded in earnings in each reporting period. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value of our warrant liabilities was determined based on significant unobservable inputs, such as volatility of our stock price, risk free interest rate. Â A. Â â— General and administrative expenses: General and administrative expenses was US$3.46 million and US$1.97 million for the nine and three months ended September 30, 2024, respectively, compared with US$3.66 million and US$1.55 million for the nine and three months ended September 30, 2023, respectively.Â Our general and administrative expenses primarily consist of salaries and benefits of management, accounting, human resources and administrative personnel, office rentals, depreciation of office equipment, allowance for doubtful accounts, professional service fees, maintenance, utilities and other general office expenses of our supporting and administrative departments.Â For the nine months ended September 30, 2024, the change in our general and administrative expenses was primarily due to the following reasons: (1) the increase in share-based compensation expenses of approximately US$1.55 million, due to the issuance ofÂ 0.375 million fully-vested shares of the Companyâ€™s restricted common stock during the three months ended September 30, 2024, compared to the same period last year; (2) the decrease in allowance for expected credit losses of approximately US$0.58 million; and (3) the decrease in other general administrative expenses of approximately US$1.17 million, as a result of the cost reduction plan executed by the management. For the three months ended September 30, 2024, the changes in our general and administrative expenses was primarily attributable to the following reasons: (1) the increase in share-based compensation expenses of approximately US$1.63 million, due to the issuance ofÂ 0.375 million fully-vested shares of the Companyâ€™s restricted common stock during the three months ended September 30, 2024, compared to the same period last year; (2) the decrease in other general administrative expenses of approximately US$0.43 million, as a result of the cost reduction plan executed by management; and (3) the decrease in allowance for expected credit losses of approximately US$0.77 million, respectively. Â Loss from operations: As a result of the foregoing, we incurred a loss from operations of approximately US$3.22 million and US$4.25 million for the nine months ended September 30, 2024 and 2023, respectively. For the three months ended September 30, 2024 and 2023, we incurred a loss from operations of approximately US$1.99 million and US$1.61 million, respectively. Â Interest Income: For the nine and three months ended September 30, 2024, interest income recognized were primarily related to the interest we earned from the short-term loans we provided to unrelated parties. Â Impairment on long-term investments: For the nine months ended September 30, 2024, we recognized approximately US$0.002 million in impairment loss on long-term investments, which was related to our cash investments in one of our unconsolidated investee entities whose business activities had become dormant. For the nine months ended September 30, 2023, we recognized approximately US$0.21 million impairment loss on long-term investments. Â 35 Â Â Change in fair value of warrant liabilities: We issued warrants in financing activities. We determined that these warrants should be accounted for as derivative liabilities, as the warrants are dominated in a currency (U.S. dollar) other than our functional currency (Renminbi or Yuan). For the nine and three months ended September 30, 2024, we did not recognize any change in fair value of these warrant liabilities, compared to a gain of change in fair value of approximately US$0.19 million and US$0.01 million for the nine and three months ended September 30, 2023, respectively. Â Loss before income tax benefit/(expense): As a result of the foregoing, our loss before income tax benefit was approximately US$2.99 million and US$4.066 million for the nine months ended September 30, 2024 and 2023, respectively. For the three months ended September 30, 2024, we incurred an approximately US$1.91 million loss before income tax expense, compared with an approximately US$1.52 million loss before income tax expense for the three months ended September 30, 2023. Â Income Tax benefit/(expense): For the nine months ended September 30, 2024 and 2023, we recognized approximately US$0.004 million and nil, respectively, in income tax benefits. For the three months ended September 30, 2024 and 2023, we recognized approximately nil and US$0.002 million, respectively, in income tax expenses. These benefits were related to the net operating loss incurred by one of our operating VIEs for each respective period. We anticipate these losses will likely be utilized against future earnings of this entity. Â Net loss: As a result of the foregoing, for the nine months ended September 30, 2024 and 2023, we incurred a total net loss of approximately US$2.99 million and US$4.066 million, respectively. For the three months ended September 30, 2024, we recognized a net loss of approximately US$1.91 million, compared with a net loss of approximately US$1.52 million for the three months ended September 30, 2023. Â B.Â Â Â Â LIQUIDITY AND CAPITAL RESOURCES Â Cash Transfer within Our Organization and the Related Restrictions Â We are a Nevada holding company with operations primarily conducted in China through our PRC subsidiaries, VIEs and VIEsâ€™ subsidiaries. The intercompany flow of funds within our organization is effected through capital contributions and intercompany loans. We do not have written policies regarding intercompany cash transfer within our organization. In accordance with our current internal cash management practices, all intercompany cash transfer within our organization requires prior approval by our financial director and our chief financial officer/or our chief executive officer before execution. Â As we conduct our operations primarily in China through our PRC subsidiaries, VIEs and their subsidiaries, and we intend to transfer most of our cash raised from the U.S. stock market to these operating entities to support their operations and expansions, our ability to pay dividends to U.S. investors may depend on receiving distributions from our PRC subsidiaries and settlement of the amounts owed under the VIE agreements from the consolidated VIEs. Any limitation on the ability of our PRC subsidiaries and the consolidated VIEs to make payments to us, or the tax implications of making payments to us, could have a material adverse effect on our ability to pay dividends to our U.S. investors. Â The PRC regulations currently permit payment of dividends only out of accumulated profits, as determined in accordance with PRC accounting standards and regulations. Our PRC subsidiaries, the consolidated VIEs and their subsidiaries in China are also required to set aside at least 10% of their respective after-tax profit based on the PRC accounting standards and regulations each year to the statutory surplus reserve, until the balance in the reserve reaches 50% of the registered capital of the respective PRC entities. In accordance with these PRC laws and regulations, our PRC subsidiaries, the consolidated VIEs and their subsidiaries are restricted in their ability to transfer a portion of their net assets to us.Â As of September 30, 2024 and December 31, 2023, net assets restricted in the aggregate, which include paid-in capital and statutory reserve funds of our PRC subsidiaries, the consolidated VIEs and their subsidiaries that are included in our consolidated net assets, were approximately US$13.26 million and US$13.41 million, respectively. Appropriations to the enterprise expansion fund and staff welfare and bonus fund of a foreign-invested PRC entity and appropriation to the discretionary surplus reserve of other PRC entities are at the discretion of the board of directors. To date, none of our PRC subsidiaries, the consolidated VIEs and their subsidiaries appropriated any of these non-mandatory funds and reserves. Furthermore, if these entities incur debt on their own in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments. Â Under the PRC Enterprise Income Tax (â€œEITâ€) Law and related regulations, dividends, interests, rent or royalties payable by a foreign-invested enterprise to its immediate holding company outside China are subject to a 10% withholding tax. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Hong Kong has a tax arrangement with China that provides for a 5% withholding tax on dividends subject to certain conditions and requirements, such as the requirements that the Hong Kong enterprise owns at least 25% of the PRC enterprise distributing the dividend at all times within the 12-month period immediately preceding the distribution of dividends and provides that the recipient can demonstrate it is a Hong Kong tax resident and it is the beneficial owner of the dividends. The PRC government adopted regulations in 2018 which stipulate that in determining whether a non-resident enterprise has the status as a beneficial owner, comprehensive analysis shall be conducted based on the factors listed therein and the actual circumstances of the specific case shall be taken into consideration. Specifically, it expressly excludes an agent or a designated payee from being considered as a â€œbeneficial ownerâ€. We own our PRC subsidiaries through China Net HK. China Net HK currently does not hold a Hong Kong tax resident certificate from the Inland Revenue Department of Hong Kong, there is no assurance that the reduced withholding tax rate will be available for us. If China Net HK is not considered to be the â€œbeneficial ownerâ€ of the dividends by the Chinese local tax authority, any dividends paid to it by our PRC subsidiaries would be subject to a withholding tax rate of 10%. Â 36 Â Â There are no restrictions for the consolidated VIEs to settle the amounts owed under the VIE agreements to our WFOE. However, arrangements and transactions among affiliated entities may be subject to audit or challenge by the PRC tax authorities. If at any time the VIE agreements and the related fee structure between the consolidated VIEs and our WFOE is determined to beÂ non-substantiveÂ and disallowed by Chinese tax authorities, the consolidated VIEs could, as a matter of last resort, make aÂ non-deductibleÂ transfer to our WFOE for the amounts owed under the VIE agreements. This would result in such transfer beingÂ non-deductibleÂ expenses for the consolidated VIEs but still taxable income for our WFOE. If this happens, it may increase our tax burden and reduce our after-tax income in the PRC, and may materially and adversely affect our ability to make distributions to the holding company. Our management is of the view that the likelihood that this scenario would happen is remote. To date, the VIEs have settled to our WFOE the amount owed under the VIE agreements of RMB15.25 million (approximately US$2.27 million) in the aggregate. Â Our PRC subsidiaries generate all of their revenue in Renminbi, Renminbi is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of our PRC subsidiaries to pay dividends/make distributions to us. The Chinese government imposes controls on the convertibility of Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. Shortages in availability of foreign currency may then restrict the ability of our PRC subsidiaries to remit sufficient foreign currency to us for us to pay dividends to the U.S. investors. Renminbi is currently convertible under the â€œcurrent account,â€ which includes dividends, trade and service-related foreign exchange transactions, but not under the â€œcapital account,â€ which includes foreign direct investment and foreign debt. Currently, our PRC subsidiaries may purchase foreign currency for settlement of current account transactions, including payment of dividends to us, without the approval of the State Administration of Foreign Exchange of China (the â€œSAFEâ€) by complying with certain procedural requirements. However, the relevant Chinese governmental authorities may limit or eliminate our ability to purchase foreign currencies in the future for current account transactions. The Chinese government may continue to strengthen its capital controls, and additional restrictions and substantial vetting processes may be instituted by the SAFE for cross-border transactions falling under both the current account and the capital account. Any existing and future restrictions on currency exchange may limit our ability to utilize revenue generated in Renminbi to pay dividends in foreign currencies to holders of our securities. Foreign exchange transactions under the capital account remain subject to limitations and require approvals from, or registration with, the SAFE and other relevant Chinese governmental authorities. This could affect our ability to obtain foreign currency through debt or equity financing for our PRC subsidiaries. Â To date, none of our subsidiaries has made any distribution of earnings or issued any dividends to their respective shareholder in or outside of China, or to the Nevada holding company, and the Nevada holding company has never declared or paid any cash dividends to U.S. investors. Â We do not have any present plan to make any distribution of earnings/issue any dividends directly or indirectly to our Nevada holding company or pay any cash dividends on our common stock in the foreseeable future because we currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business. Â Cash Flow Analysis for the Nine Months Ended September 30, 2024 and 2023 Â Cash and cash equivalents represent cash on hand and deposits held at call with banks. We consider all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. As of September 30, 2024, we had cash and cash equivalents of approximately US$1.12 million. Â Our liquidity needs include (i) net cash used in operating activities that consists of (a) cash required to fund the initial build-out, continued expansion of our network and new services and (b) our working capital needs, which include deposits and advance payments to search engine resources and other advertising resources providers, payment of our operating expenses and financing of our accounts receivable; and (ii) net cash used in investing activities that consist of the investment to expand technologies related to our existing and future business activities, investment to enhance the functionality of our current advertising portals for providing advertising, marketing and data services and to secure the safety of our general network, and investment to establish joint ventures with strategic partners for the development of new technologies and services. To date, we have financed our liquidity needs primarily through proceeds we generated from financing activities. Â 37 Â Â The following table provides detailed information about our net cash flow for the periods indicated: Â Â Â Nine Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Amounts in thousands of US dollars Â Â Â Â Â Â Â Â Â Â Â Â Net cash used in operating activities Â $ (1,228) Â $ (1,536) Net cash provided by/(used in) investing activities Â Â 645 Â Â Â (1,499) Net cash provided by financing activities Â Â 876 Â Â Â - Â Effect of foreign currency exchange rate changes Â Â 13 Â Â Â (42) Net increase/(decrease) in cash and cash equivalents Â $ 306 Â Â $ (3,077) Â Â Net cash used in operating activities Â For the nine months ended September 30, 2024, our net cash used in operating activities of approximately US$1.23 million were primarily attributable to: Â Â (1) Â net loss excluding approximately US$0.71 million of non-cash expenses of depreciation and amortizations,Â approximately US$0.02 million amortization of operating lease right-of-use assets, approximately US$1.64 million of share-based compensation expenses, approximately US$0.02 million of gain on disposal of subsidiaries, approximately US$0.002 million impairment on long-term investments, approximately US$0.003 million loss on disposal of fixed assets, approximately US$0.77 million allowance for credit losses, approximately US$0.004 million deferred tax benefit and approximately US$0.23 million non-operating income, yielded the non-cash, non-operating items excluded net loss of approximately US$0.10 million. Â Â (2) the receipt of cash from operations from changes in operating assets and liabilities such as: Â Â - accounts payable increased by approximately US$0.30 million; and Â Â - other current liabilities and taxes payable increased by approximately US$0.39 million. Â Â (3) offset by the use from operations from changes in operating assets and liabilities such as: Â Â - accounts receivable increased by approximately US$1.43 million; Â Â - prepayment and deposit to suppliers increased by approximately US$0.02 million; Â Â - Advances from customers decreased by approximately US$0.09 million; and Â Â - accruals and operating lease liabilities decreased by approximately US$0.02 million in the aggregate, due to settlement of these operating liabilities during the period. Â For the nine months ended September 30, 2023, our net cash used in operating activities of approximately US$1.54 million were primarily attributable to: Â Â (4) net loss excluding approximately US$0.97 million of non-cash expenses of depreciation and amortizations; approximately US$0.31 million amortization of operating lease right-of-use assets, approximately US$0.10 million share-based compensation,Â approximately US$0.19 million gain from change in fair value of warrant liabilities, approximately US$1.35 million allowance for credit losses, approximately US$0.01million loss on disposal of fixed assets and approximately US$0.23 million non-operating income, yielded the non-cash, non-operating items excluded net loss of approximately US$1.55 million. Â Â (5) the receipt of cash from operations from changes in operating assets and liabilities such as: Â 38 Â Â Â - accounts receivable decreased by approximately US$0.66 million, primarily due to collections from two major clients during the period; and Â Â - advance from customers increased by approximately US$0.43 million. Â Â (6) offset by the use from operations from changes in operating assets and liabilities such as: Â Â - prepayment and deposit to suppliers increased by approximately US$0.39 million; Â Â - account payables decreased by approximately US$0.003 million; Â Â - the other current liabilities and taxes payables decreased by approximately US$0.08 million; and Â Â - accruals, operating lease liabilities and short-term lease payment payables decreased by approximately US$0.60 million in the aggregate, due to the settlement of these operating liabilities during the period. Â Net cash used in investing activities Â For the nine months ended September 30, 2024, (1) we purchased office equipment of approximately US$0.003 million; (2) we made an additional investment of approximately US$0.002 million to one of our unconsolidated investee entities; (3) we collected US$0.49 million in short-term loan principal from short-term loans we provided to unrelated parties in previous periods; (4) we received total interest payment of approximately US$0.41 million, which was attributable to short-term loans we provided to unrelated parties in previous periods; (5) we received approximately US$0.15 million in proceeds from the disposal of long-term investments; (6) we acquired cash of approximately US$0.009 million through the acquisition of a 51% equity interest in Beijing Yi En; (7) we recognized deconsolidation of cash

during the period of US$0.006 million; and (8) we made deposits on investment contracts of approximately US$0.40 million. In the aggregate, these transactions resulted in a net cash inflow from investing activities of approximately US$0.65 million for the nine months ended September 30, 2024. Â For the nine months ended September 30, 2023, (1) we provided to an unrelated party a short-term loan of US$2.0 million. The loan is unsecured and bears a fixed annualized interest rate of 12%. The original maturity date of this loan was July 17, 2023. On July 1, 2023, we extended the term of this loan for a six-month period to January 18, 2024; (2) we collected an US$0.10 million short-term loan, which was provided to another unrelated party in April 2022; (3) we received a total interest income of approximately US$0.07 million, which was attributable to short-term loans we provided to unrelated parties in previous periods; (4) we made an additional investment of approximately US$0.04 million to one of our unconsolidated investee entities; (5) we received an approximately US$0.43 million proceeds from the disposal of our equity interest in another unconsolidated investee entity to an unrelated party; and (6) we made an deposit of approximately US0.05 million for equipment purchase. In the aggregate, these transactions resulted in a net cash outflow from investing activities of approximately US$1.50 million for the nine months ended September 30, 2023. Â Net cash provided by financing activities Â Â For the nine months ended September 30, 2024, (1) we received an advance from investors of approximately US$0.81 million; and (2) we recognized capital contribution from noncontrolling interests of approximately US$0.07 million. In contrast, no cash was provided by or used in financing activities for the nine months ended September 30, 2023. Â Future Liquidity, Material Cash Requirements and Capital Resources Â Our future short-term liquidity needs within 12 months from the date hereof primarily include deposits and advance payments required for the purchase of search engine marketing resources and other online marketing resources to be distributed to our customers and payments for our operating expenses, which mainly consist of office rentals and employee salary and benefit. Â In addition, in order to further develop our core business, i.e., our internet advertising and related data service business, broaden and diversify the online marketing channels for customers, reinforce our industry competitive advantage and secure our client base, we are actively seeking target companies with complementary online marketing resources for acquisition and/or joint ventures cooperation. It is not yet certain when the potential acquisition and/or cooperation will be consummated and what form(s) of consideration will be transferred by us. If this transaction were to be consummated, it will materially decrease our liquidity in the short run when the cash consideration, if any, is transferred. However, upon consummation of the acquisition, operating profits and new cash inflow may be generated from the acquired subsidiary, which may also help to improve the overall gross margin and cash flow status of our core business through the expected synergies of combining operations of the new acquired subsidiary and our own. Except this, we do not have other material non-operational cash requirements within 12 months from the date hereof. Â 39 Â Â We plan to optimize our internet resources cost investment strategy to improve the gross profit margin of our core business. Additionally, we will focus on improving accounts receivables collection management and negotiating better payment terms with major suppliers. These efforts are expected Â to substantially boost our cash flows from operations. In addition, to further improve our liquidity, we plan to reduce our operating costs through optimizing the personnel structure among different offices, and reduce our office leasing spaces, if needed. Beginning in early 2022, we began offering our SaaS services to customers. Our SaaS services are provided based on technologies of our self-developed Blockchain Integrated Framework (â€œBIFâ€) platform, which allows clients to utilize the BIF platform as an enterprise management software to record, share and store operating data on-chain, and/or to generate unique designed Non-fungible Token (â€œNFTsâ€) for their intellectual properties and certificates. Although revenues from the new SaaS services business and its profitability have not met our expectations, we anticipate that it will generate positive cash flow and improve our liquidity. This is because these services leverage our self-developed software platform, which does not require significant cash outflow to third-party service providers. Â In addition, for the next 12 months from the date hereof, we anticipate to generate additional cash inflows and/or improve our liquidity through the following: (1) our current outstanding short-term working capital loans provided to unrelated parties will mature within the next 12 months that we anticipate collecting these loan principals and the related interest income within the next 12 months; (2) if at any time we anticipate insufficiency of our working capital, we can apply for revolving credit facility from commercial banks in the PRC to supplement our short-term liquidity deficit. We have not experienced any difficulties in obtaining such credit facility before, and this could result in fixed obligations and incremental cost of interest; (3) in consideration of the long-term cooperation history and good track records with our major suppliers, we plan to negotiate with our suppliers for more favorable payment terms; and (4) we plan to reduce our operating costs through optimizing the personnel structure among different offices and reduce our office leasing spaces, if needed. This may incur incremental costs related to employee layoff compensation and contract termination penalty. Â If we fail to achieve these goals, we may need additional financing to execute our business plan. If additional financing is required, we cannot predict whether this additional financing will be in the form of equity, debt, or another form, and we may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. In the event that financing sources are not available, or that we are unsuccessful in increasing our gross profit margin and reducing operating losses, we may be unable to implement our current plans for expansion, repay debt obligations or respond to competitive pressures, any of which would have a material adverse effect on our business, prospects, financial condition and results of operations. These factors raise substantial doubt about our ability to continue as a going concern within one year after the date that the financial statements are issued. Â The unaudited condensed consolidated financial statements as of September 30, 2024 have been prepared under the assumption that we will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period of time. Our ability to continue as a going concern is dependent upon our uncertain ability to increase gross profit margin and reduce operating loss from our core business and/or obtain additional equity and/or debt financing. The accompanying financial statements as of September 30, 2024 do not include any adjustments that might result from the outcome of these uncertainties. If we are unable to continue as a going concern, we may have to liquidate our assets and may receive less than the value at which those assets are carried on the financial statements. Â In the long term, beyond the next 12 months, we plan to further broaden the application scenarios of our blockchain-based SaaS services to be offered to the customers, continue expanding our core Internet advertising and marketing business through acquisitions, and develop Internet advertising and marketing channels that target overseas Internet users. As such, we may decide to enhance our liquidity position or increase our cash reserve for future investments through additional equity financing in the U.S. capital market. This would result in further dilution to our shareholders. We cannot assure you that such financing will be available in amounts or on terms acceptable to us, or at all. Â C.Â Â Â Â Off-Balance Sheet Arrangements Â None. Â D.Â Â Â Â Disclosure of Contractual Obligations Â In June 2023, we acquired a 9.9% equity interest in Wuhan Ju Liang, through subscription of a RMB0.99 million (approximately US$0.14 million) in registered capital of the entity in cash, which amount was committed to be paid up before August 1, 2052. Â 40 Â Â Item 3.Â Quantitative and Qualitative Disclosures About Market Risk Â Not applicable to smaller reporting companies. Â Item 4. As of September 30, 2024, the Company had cash and cash equivalents of US$1.12 million and working capital of US$3.88 million, compared with approximately US$0.82 million and US$4.11 million as of December 31, 2023, respectively. Â TheÂ Company plans to optimize its internet resources cost investment strategy to improve the gross profit margin of its core business and to further strengthen the accounts receivables collection management and negotiate more favorable payment terms with major suppliers, all of which will contribute to substantially increase the cashflows from operations. To further improve liquidity, the Company also plans to reduce operating costs through optimizing staffing across various offices and, if needed, downsizing office leasing spaces. Beginning in early 2022, the Company introduced its SaaS services to customers.Â The Companyâ€™s SaaS services are provided based on technologies of its self-developed Blockchain Integrated Framework (â€œBIFâ€) platform. The BIF platform enables the Companyâ€™s clients to utilize the BIF platform as an enterprise management software to record, share and storage operating data on-chain, and/or to generate unique designed Non-fungible Token (â€œNFTsâ€) for their IPs and certificates. While the revenues from the new SaaS services business and its profitability have not met the Companyâ€™s expectations, the Company still expects these services to generate positive cash flow and improve liquidity since they rely on technologies of its self-developed software platform, thus reducing the need for substantial cash outflow to third-party service providers. Revenues from our new SaaS services business was US$0.75 million for the nine months ended September 30, 2024. Â If the Company fails to achieve these goals, the Company may need additional financing to execute its business plan. If additional financing is required, the Company cannot predict whether this additional financing will be in the form of equity, debt, or another form, and the Company may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. In the event that financing sources are not available, or that the Company is unsuccessful in increasing its gross profit margin and reducing operating losses, the Company may be unable to implement its current plans for expansion, repay debt obligations or respond to competitive pressures, any of which would have a material adverse effect on the Companyâ€™s business, prospects, financial condition and results of operations. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued. Â The unaudited condensed consolidated financial statements as of September 30, 2024 have been prepared under the assumption that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period of time. The Company's ability to continue as a going concern is dependent upon its uncertain ability to increase gross profit margin and reduce operating loss from its core business and/or obtain additional equity and/or debt financing. The accompanying financial statements as of September 30, 2024 do not include any adjustments that might result from the outcome of these uncertainties. If the Company is unable to continue as a going concern, it may have to liquidate its assets and may receive less than the value at which those assets are carried on the financial statements. Summary ofÂ significant accounting policies Â Â a) Basis of presentation Â The unaudited condensed consolidated interim financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America (â€œU.S. GAAPâ€). Â Â The unaudited condensed consolidated interim financial information as of September 30, 2024 and for the nine and three months ended September 30, 2024 and 2023 have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the â€œSECâ€). Certain information and footnote disclosures, which are normally included in complete consolidated financial statements prepared in accordance with U.S. GAAP, have been omitted pursuant to those rules and regulations. The unaudited condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the Companyâ€™s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, previously filed with the SEC (the â€œ2023 Form 10-Kâ€) on June 28, 2024. Â In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Companyâ€™s condensed consolidated financial position as of September 30, 2024, its condensed consolidated results of operations for the nine and three months ended September 30, 2024 and 2023, and its condensed consolidated cash flows for the nine months ended September 30, 2024 and 2023, as applicable, have been made. The interim results of operations are not necessarily indicative of the operating results for the full fiscal year or any future periods. Â Â b) Principles of consolidation Â The unaudited condensed consolidated interim financial statements include the accounts of all the subsidiaries and VIEs of the Company. All transactions and balances between the Company and its subsidiaries and VIEs have been eliminated upon consolidation. Â Â c) Use of estimates Â The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of these consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. The Company continually evaluates these estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Â Â d) Foreign currency translation Â TheÂ exchange rates used to translate amounts in Reminbi, the legal currency of mainland China (â€œRMBâ€) into US$ for the purposes of preparing the condensed consolidated financial statements are as follows : Â Â Â September 30, 2024 Â Â December 31, 2023 Â Â Â Â Â Â Â Â Â Â Â Balance sheet items, except for equity accounts Â Â 7.0074 Â Â Â 7.0827 Â Â Â Â Nine Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1092 Â Â Â 7.0148 Â Â Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1169 Â Â Â 7.1649 Â Â No representation is made that the RMB amounts could have been, or could be converted into US$ at the above rates. Â Â e) Current expected credit losses Â InÂ June 2016,Â the FASB issued ASUÂ No.Â 2016-13,Â â€œFinancial Instruments-Credit Losses (TopicÂ 326): Measurement of Credit Losses on Financial Instrumentsâ€. The amendments in this ASU require the measurement and recognition of expected credit losses for financial assets held at amortized cost, which replace the existing incurred loss impairment model with an expected loss methodology. The Company, as a SEC smaller reporting company, has adopted the amendments in this ASU fromÂ January 1, 2023, using a modified retrospective transition method and did not restate the related accounts in the comparable period. Instead, the Company recognized a cumulative-effect adjustment to increase the opening balance of its accumulated deficit on January 1, 2023 by US$0.19 million, of which US$0.04 million was related to the cumulative-effect adjustment to allowance for credit loss of accounts receivable, and the remaining US$0.15 million was related to the cumulative-effect adjustment to allowance for credit loss of other current assets, which primarily consisted of short-term loans the Company provided to unrelated parties. Â The allowance for credit losses reflects the Company's current estimate of credit losses expected to be incurred over the life of the related financial assets. The allowance for credit losses is presented as a valuation account that is deducted from the amortized cost basis of financial asset(s) to present the net amount expected to be collected on the financial asset(s). Â The Company considers various factors in establishing, monitoring, and adjusting its allowance for credit losses, including the aging and aging trends, customer/other partiesâ€™ creditworthiness and specific exposures related to particular customers/other parties. The Company also monitors other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other partyâ€™s ability to pay in establishing and adjusting its allowance for credit losses. The Company assesses collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when the Company identifies specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased. Â The following tables summarized the movements of the Companyâ€™s credit losses for the nine and three months ended September 30, 2024 and 2023, respectively: Â Â Â Nine Months Ended September 30, Â Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â 2024 Â Â 2023 Â Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Credit loss for accounts receivable: Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â

Â - Â Â Â - Â Â Â - Â Â Â - Â Â Â g) Reverse stock split Â The Board of Directors of the Company approved a reverse stock split of the Companyâ€™s issued and outstanding shares of common stock, par value $0.001 per share (the â€œCommon Stockâ€) at a ratio of 1-for-4 (the â€œReverse Stock Splitâ€). The Reverse Stock Split became effective on September 30, 2024 (the â€œEffective Dateâ€). As a result, the number of shares of the Companyâ€™s authorized Common Stock was reduced from 50,000,000 shares to 12,500,000 shares and the issued and outstanding number of shares of the Common Stock was correspondingly decreased. The Reverse Stock Split has no effect on the par value of the Companyâ€™s Common Stock or authorized shares of preferred stock. Â When the Reverse Stock Split became effective, each four shares of issued and outstanding Common Stock were converted into one newly issued and outstanding share of Common Stock. No fractional shares were issued in connection with the Reverse Stock Split. Any fractional shares of Common Stock that would have otherwise resulted from the Reverse Stock Split were rounded up to the nearest full share. No cash or other consideration was paid in connection with any fractional shares that would otherwise have resulted from the Reverse Stock Split. Â As a result of the Reverse Stock Split, 8,704,506 shares of Common Stock that were issued and outstanding at September 30, 2024 was reduced to 2,176,213 shares of Common Stock (taking into account the rounding of fractional shares). Â Except where otherwise specified, all number of shares, number of warrants, share prices, exercise prices and per share data in the condensed consolidated financial statements and notes to the condensed consolidated financial statements have been retroactively restated as if the Reverse Stock Split occurred at the beginning of the periods presented. Â Â h) Revenue recognition Â The following table present the Companyâ€™s revenues disaggregated by products and services and timing of revenue recognition: Â Â Â Nine Months Ended September 30, Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â 2024 Â Â 2023 Â Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Internet advertising and related services Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â --distribution of the right to use search engine marketing service Â Â 12,440 Â Â Â 24,815 Â Â Â 3,239 Â Â Â 9,011 Â --online advertising placements Â Â - Â Â Â 427 Â Â Â - Â Â Â 145 Â Blockchain-based SaaS services Â Â 750 Â Â Â 75 Â Â Â - Â Â Â 25 Â Total revenues Â $ 13,190 Â Â $ 25,317 Â Â $ 3,239 Â Â $ 9,181 Â Â Â Â Nine Months Ended September 30, Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â 2024 Â Â 2023 Â Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Revenue recognized over time Â Â 12,440 Â Â Â 25,242 Â Â Â 3,239 Â Â Â 9,156 Â Revenue recognized at a point in time Â Â 750 Â Â Â 75 Â Â Â - Â Â Â 25 Â Total revenues Â $ 13,190 Â Â $ 25,317 Â Â $ 3,239 Â Â $ 9,181 Â Â Â Contract balances Â The table below summarized the movement of the Companyâ€™s contract liabilities for the nine months ended September 30, 2024: Â Â Â Contract liabilities Â Â Â US$(â€™000) Â Â Â Â Â Â Balance as of January 1, 2024 Â Â 843 Â Exchange translation adjustment Â Â 9 Â Revenue recognized from beginning contract liability balances Â Â (469) Advances received from customers related to unsatisfied performance obligations Â Â 317 Â Balance as of September 30, 2024(Unaudited) Â Â 700 Â Â Advance from customers related to unsatisfied performance obligations are generally refundable. Â Â i) Business combination Â We account for our business combinations using the acquisition method in accordance with ASC Topic 805,Â Business Combinations. The acquisition method requires that the consideration transferred to be allocated to the assets, including separately identifiable assets and liabilities we acquired, based on their estimated fair values. The consideration transferred in an acquisition is measured as the aggregate of the fair values at the date of exchange of the assets given, liabilities incurred, and equity instruments issued as well as the contingent considerations as of the acquisition date. The costs directly attributable to the acquisition are expensed as incurred. Identifiable assets, liabilities and contingent liabilities acquired or assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any noncontrolling interests. The excess of (i)Â the total of cost of acquisition, fair value of the noncontrolling interests and acquisition date fair value of any previously held equity interests in the acquiree over (ii)Â the fair value of the identifiable net assets of the acquiree, is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in earnings. Â Acquisition of Yi En (Beijing) Technology Co., Ltd. Â The Company acquired a 51% equity interest in Yi En (Beijing) Technology Co., Ltd. (â€œBeijing Yi Enâ€) for a cash consideration of RMB1. During the three months ended September 30, 2024, the Company sold its equity interest in Beijing Yi for a cash consideration of RMB1. For the quarter ended June 30, 2024, the Company received payment of US$0.77 million, of which approximately US$0.35 million settled outstanding interest and approximately US$0.42 million settled the loan principal. Â The Company evaluates its short-term loans provided to unrelated parties for expected credit losses on a regular basis, and maintains an estimated allowance for credit losses to reduce its short-term loans to the amount that it believes will be collected. The Company evaluates its short-term loans on an individual basis and determines the allowance for credit loss based on creditworthiness of the borrowers, aging information, past transaction history with the borrowers and their current condition, as well as the current economic conditions and reasonable and supportable forecasts of future economic conditions. The loan is unsecured, interest free and is required to be repaid in lump sum at maturity by March 2022. The Company provided this unsecured and interest free loan to Digital Sun in consideration of the promises and claims made by Digital Sunâ€™s management that Digital Sun has close connections with international well-known media companies seeking for strategic cooperation partners in China, and Digital Sun will facilitate building strategic business partnerships among the Company and these media companies. As of March 31, 2022, Digital Sun had repaid US$1.03 million of this loan and defaults on the loan balance of US$0.62 million. The Company attempted to collect the outstanding loan balance. In June 2022, the Company fully allowanced the outstanding loan balance of US$0.62 million based on the Companyâ€™s assessment of the collectability of this outstanding balance. The Company had engaged a law firm and prepared and sent a legal letter to Digital Sun in March 2023, and the Company intends to take further actions to safeguard its rights against the default, including but not limited to, arranging meetings with the management of Digital Sun to negotiate the repayment plan in person and filing a lawsuit against Digital Sun after all other means of collection have been exhausted. The NOLs carryforwards as of December 31, 2017 gradually expire over time, the last of which expires in 2037. NOLs incurred after December 31, 2017 will no longer be available to carry back but can be carried forward indefinitely, subject to an annual limit ofÂ 80% on the amount of taxable income that can be offset by NOLs arising in tax years ending afterÂ December 31, 2017. The Company maintains a full valuation allowance against its net U.S. deferred tax assets, since due to uncertainties surrounding future utilization, the Company estimates there will not be sufficient future earnings to utilize its U.S. deferred tax assets. Â The NOLs carried forward incurred by the Companyâ€™s PRC subsidiaries and VIEs were approximately US$11.6 million and US$10.6 million as of September 30, 2024 and December 31, 2023, respectively. The losses carryforwards gradually expire over time, the last of which will expire in 2028. The related deferred tax assets were calculated based on the respective NOLs incurred by each of the PRC subsidiaries and VIEs and the respective corresponding enacted tax rate that will be in effect in the period in which the losses are expected to be utilized. Â The Company recorded approximately US$13.1 million and US$12.3 million valuation allowance as of September 30, 2024 and December 31, 2023, respectively, because it is considered more likely than not that a portion of the deferred tax assets will not be realized through sufficient future earnings of the entities to which the operating losses related. Â For the nine and three months ended September 30, 2024, the Company recorded approximately US$0.72 million and US$0.42 million deferred tax valuation allowance, respectively. For the nine and three months ended September 30, 2023, the Company recorded approximately US$0.91 million and US$0.35 million deferred tax valuation allowance, respectively. within the 12-month period immediately preceding the distribution of dividends and provides that the recipient can demonstrate it is a Hong Kong tax resident and it is the beneficial owner of the dividends. The PRC government adopted regulations in 2018 which stipulate that in determining whether a non-resident enterprise has the status as a beneficial owner, comprehensive analysis shall be conducted based on the factors listed therein and the actual circumstances of the specific case shall be taken into consideration. Specifically, it expressly excludes an agent or a designated payee from being considered as a â€œbeneficial ownerâ€. The Company owns its PRC subsidiaries through China Net HK. China Net HK currently does not hold a Hong Kong tax resident certificate from the Inland Revenue Department of Hong Kong, there is no assurance that the reduced withholding tax rate will be available for the Company. If China Net HK is not considered to be the â€œbeneficial ownerâ€ of the dividends by the Chinese local tax authority, any dividends paid to it by the Companyâ€™s PRC subsidiaries would be subject to a withholding tax rate of 10%. Â There are no restrictions for the consolidated VIEs to settle the amounts owed under the VIE agreements to Rise King WFOE. However, arrangements and transactions among affiliated entities may be subject to audit or challenge by the PRC tax authorities. If at any time the VIE agreements and the related fee structure between the consolidated VIEs and Rise King WFOE is determined to be non-substantive and disallowed by Chinese tax authorities, the consolidated VIEs could, as a matter of last resort, make a non-deductible transfer to Rise King WFOE for the amounts owed under the VIE agreements. This would result in such transfer being non-deductible expenses for the consolidated VIEs but still taxable income for Rise King WFOE. If this happens, it may increase the Companyâ€™s tax burden and reduce its after-tax income in the PRC, and may materially and adversely affect its ability to make distributions to the holding company. The Companyâ€™s management is of the view that the likelihood that this scenario would happen is remote. Â The Companyâ€™s PRC subsidiaries generate all of their revenue in Renminbi, Renminbi is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of the Companyâ€™s PRC subsidiaries to pay dividends/make distributions to the Company. The Chinese government imposes controls on the convertibility of Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. Shortages in availability of foreign currency may then restrict the ability of the Companyâ€™s PRC subsidiaries to remit sufficient foreign currency to the Nevada holding company for the holding company to pay dividends to the U.S. investors. Renminbi is currently convertible under the â€œcurrent account,â€ which includes dividends, trade and service-related foreign exchange transactions, but not under the â€œcapital account,â€ which includes foreign direct investment and foreign debt. Currently, the Companyâ€™s PRC subsidiaries may purchase foreign currency for settlement of current account transactions, including payment of dividends to the Nevada holding company, without the approval of the State Administration of Foreign Exchange of China (the â€œSAFEâ€) by complying with certain procedural requirements. However, the relevant Chinese governmental authorities may limit or eliminate the Companyâ€™s ability to purchase foreign currencies in the future for current account transactions. The Chinese government may continue to strengthen its capital controls, and additional restrictions and substantial vetting processes may be instituted by the SAFE for cross-border transactions falling under both the current account and the capital account. Any existing and future restrictions on currency exchange may limit the Companyâ€™s ability to utilize revenue generated in Renminbi to pay dividends in foreign currencies to holders of the Companyâ€™s securities. Foreign exchange transactions under the capital account remain subject to limitations and require approvals from, or registration with, the SAFE and other relevant Chinese governmental authorities. This could affect the Companyâ€™s ability to obtain foreign currency through debt or equity financing for its PRC subsidiaries. Â To date, none of the Companyâ€™s subsidiaries has made any distribution of earnings or issued any dividends to their respective shareholder in or outside of China, or to the Nevada holding company, and the Nevada holding company has never declared or paid any cash dividends to U.S. investors. Â The Company does not have any present plan to make any distribution of earnings/issue any dividends directly or indirectly to its Nevada holding company or pay any cash dividends on its common stock in the foreseeable future, because the Company currently intend to retain most, if not all, of its available funds and any future earnings to operate and expand the Companyâ€™s business. Concentration of risk Â Credit risk Â Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, and deposits and loans to unrelated parties. As of September 30, 2024, 81% of the Companyâ€™s cash and cash equivalents were held by major financial institutions located in China, the remaining 19% was held by financial institutions located in the United States of America. The Company believes that these financial institutions located in China and the United States of America are of high credit quality. For accounts receivable and deposits and loans to unrelated parties, the Company extends credit based on an evaluation of the customerâ€™s or other partiesâ€™ financial condition, generally without requiring collateral or other security. In order to minimize the credit risk, the Company delegated a team responsible for credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Further, the Company reviews the recoverable amount of each individual receivable at each balance sheet date to ensure that adequate allowances are made for doubtful accounts. In this regard, the Company considers that the Companyâ€™s credit risk for accounts receivable and deposits and loans to unrelated parties are significantly reduced. While the Chinese government has introduced various stimulus measures in 2024 to boost the economy and the property sector, there remains uncertainty as to the future impact of the recent economic downturn in the PRC. Namespace Prefix: ecd_ Data Type: xbrli:booleanItemType Balance Type: na Period Type: duration XML 40 R30.htm IDEA: XBRL DOCUMENT v3.24.3 Significant Accounting Policies (Policies) 9 Months Ended Sep. 30, 2024 Accounting Policies [Abstract] Â Basis of Accounting, Policy [Policy Text Block] Â a) Basis of presentation Â The unaudited condensed consolidated interim financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America (â€œU.S. GAAPâ€). Â Â The unaudited condensed consolidated interim financial information as of September 30, 2024 and for the nine and three months ended September 30, 2024 and 2023 have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the â€œSECâ€). Certain information and footnote disclosures, which are normally included in complete consolidated financial statements prepared in accordance with U.S. GAAP, have been omitted pursuant to those rules and regulations. The unaudited condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the Companyâ€™s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, previously filed with the SEC (the â€œ2023 Form 10-Kâ€) on June 28, 2024. Â In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Companyâ€™s condensed consolidated financial position as of September 30, 2024, its condensed consolidated results of operations for the nine and three months ended September 30, 2024 and 2023, and its condensed consolidated cash flows for the nine months ended September 30, 2024 and 2023, as applicable, have been made. The interim results of operations are not necessarily indicative of the operating results for the full fiscal year or any future periods. Â Consolidation, Policy [Policy Text Block] Â b) Principles of consolidation Â The unaudited condensed consolidated interim financial statements include the accounts of all the subsidiaries and VIEs of the Company. All transactions and balances between the Company and its subsidiaries and VIEs have been eliminated upon consolidation. Â Use of Estimates, Policy [Policy Text Block] Â c) Use of estimates Â The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of these consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. The Company continually evaluates these estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Foreign Currency Transactions and Translations Policy [Policy Text Block] Â d) Foreign currency translation Â TheÂ exchange rates used to translate amounts in Renminbi, the legal currency of mainland China (â€œRMBâ€) into US$ for the purposes of preparing the condensed consolidated financial statements are as follows : Â Â Â September 30, 2024 Â Â December 31, 2023 Â Â Â Â Â Â Â Â Â Â Â Â Balance sheet items, except for equity accounts Â Â 7.0074 Â Â Â 7.0827 Â Â Â Â Nine Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1092 Â Â Â 7.0148 Â Â Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â Â Â Â Â Â Â Â Â Â Â Items in the statements of operations and comprehensive loss Â Â 7.1169 Â Â Â 7.1649 Â Â No representation is made that the RMB amounts could have been, or could be converted into US$ at the above rates. Credit Loss, Financial Instrument [Policy Text Block] Â e) Current expected credit losses Â InÂ June 2016,Â the FASB issued ASUÂ No.Â 2016-13,Â â€œFinancial Instruments-Credit Losses (TopicÂ 326): Measurement of Credit Losses on Financial Instrumentsâ€. The amendments in this ASU require the measurement and recognition of expected credit losses for financial assets held at amortized cost, which replace the existing incurred loss impairment model with an expected loss methodology. The Company, as a SEC smaller reporting company, has adopted the amendments in this ASU fromÂ January 1, 2023, using a modified retrospective transition method and did not restate the related accounts in the comparable period. Instead, the Company recognized a cumulative-effect adjustment to increase the opening balance of its accumulated deficit on January 1, 2023 by US$0.19 million, of which US$0.04 million was related to the cumulative-effect adjustment to allowance for credit loss of accounts receivable, and the remaining US$0.15 million was related to the cumulative-effect adjustment to allowance for credit loss of other current assets, which primarily consisted of short-term loans the Company provided to unrelated parties. Â The allowance for credit losses reflects the Company's current estimate of credit losses expected to be incurred over the life of the related financial assets. The allowance for credit losses is presented as a valuation account that is deducted from the amortized cost basis of financial asset(s) to present the net amount expected to be collected on the financial asset(s). Â The Company considers various factors in establishing, monitoring, and adjusting its allowance for credit losses, including the aging and aging trends, customer/other partiesâ€™ creditworthiness and specific exposures related to particular customers/other parties. The Company also monitors other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other partyâ€™s ability to pay in establishing and adjusting its allowance for credit losses. The Company assesses collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when the Company identifies specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased. Â The following tables summarized the movements of the Companyâ€™s credit losses for the nine and three months ended September 30, 2024 and 2023, respectively: Â Â Â Nine Months Ended September 30, Â Â Three Months Ended September 30, Â Â Â 2024 Â Â 2023 Â Â 2024 Â Â 2023 Â Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â US$(â€™000) Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Â (Unaudited) Â Â Credit loss for accounts receivable: Â Â Â Â Â Â Â Â Â Â Â Â

For the nine months ended September 30, 2024, the Company incurred a loss from operations of US$3.22 million and a net operating cash outflow of US$1.23 million. As of September 30, 2024, the Company had cash and cash equivalents of US$1.12 million and working capital of US$3.88 million, compared with approximately US$0.82 million and US$4.11 million as of December 31, 2023, respectively.   The Company plans to optimize its internet resources cost investment strategy to improve the gross profit margin of its core business and to further strengthen the accounts receivables collection management and negotiate more favorable payment terms with major suppliers, all of which will contribute to substantially increase the cashflows from operations. To further improve liquidity, the Company also plans to reduce operating costs through optimizing staffing across various offices and, if needed, downsizing office leasing spaces. Beginning in early 2022, the Company introduced its SaaS services to customers. The Company's SaaS services are provided based on technologies of its self-developed Blockchain Integrated Framework ("BIF") platform. The BIF platform enables the Company's clients to utilize the BIF platform as an enterprise management software to record, share and storage operating data on-chain, and/or to generate unique designed Non-fungible Token ("NFTs") for their IPs and certificates. While the revenues from the new SaaS services business and its profitability have not met the Company's expectations, the Company still expects these services to generate positive cash flow and improve liquidity since they rely on technologies of its self-developed software platform, thus reducing the need for substantial cash outflow to third-party service providers. Revenues from our new SaaS services business was US$0.75 million for the nine months ended September 30, 2024.   If the Company fails to achieve these goals, the Company may need additional financing to execute its business plan. If additional financing is required, the Company cannot predict whether this additional financing will be in the form of equity, debt, or another form, and the Company may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. In the event that financing sources are not available, or that the Company is unsuccessful in increasing its gross profit margin and reducing operating losses, the Company may be unable to implement its current plans for expansion, repay debt obligations or respond to competitive pressures, any of which would have a material adverse effect on the Company's business, prospects, financial condition and results of operations. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued.   The unaudited condensed consolidated financial statements as of September 30, 2024 have been prepared under the assumption that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period of time. The Company's ability to continue as a going concern is dependent upon its uncertain ability to increase gross profit margin and reduce operating loss from its core business and/or obtain additional equity and/or debt financing. The accompanying financial statements as of September 30, 2024 do not include any adjustments that might result from the outcome of these uncertainties. If the Company is unable to continue as a going concern, it may have to liquidate its assets and may receive less than the value at which those assets are carried on the financial statements. -3220000-1230000112000038800008200004411000075000 <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 27pt;"> 4. </td> <td style="width: auto;"> Summary of significant accounting policies </td> </tr> </tbody></table>   <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 9pt;"> </td> <td style="width: 18pt;"> a) </td> <td style="width: auto;"> Basis of presentation </td> </tr> </tbody></table>   The unaudited condensed consolidated interim financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").   The unaudited condensed consolidated interim financial information as of September 30, 2024 and for the nine and three months ended September 30, 2024 and 2023 have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures, which are normally included in complete consolidated financial statements prepared in accordance with U.S. GAAP, have been omitted pursuant to those rules and regulations. The unaudited condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, previously filed with the SEC (the "2023 Form 10-K") on June 28, 2024.   In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Company's condensed consolidated financial position as of September 30, 2024, its condensed consolidated results of operations for the nine and three months ended September 30, 2024 and 2023, and its condensed consolidated cash flows for the nine months ended September 30, 2024 and 2023, as applicable, have been made. The Company continually evaluates these estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates.   <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 9pt;"> </td> <td style="width: 18pt;"> d) </td> <td style="width: auto;"> Foreign currency

The amendments in this ASU require the measurement and recognition of expected credit losses for financial assets held at amortized cost, which replace the existing incurred loss impairment model with an expected loss methodology. The Company, as a SEC smaller reporting company, has adopted the amendments in this ASU from <i>January 1, 2023, </i>using a modified retrospective transition method and did not restate the related accounts in the comparable period. Instead, the Company recognized a cumulative-effect adjustment to increase the opening balance of its accumulated deficit on January 1, 2023 by US$0.19 million, of which US$0.04 million was related to the cumulative-effect adjustment to allowance for credit loss of accounts receivable, and the remaining US$0.15 million was related to the cumulative-effect adjustment to allowance for credit loss of other current assets, which primarily consisted of short-term loans the Company provided to unrelated parties.</p> <p style="font-family:Times New Roman;font-size:10pt;font-variant:normal;margin:0pt 0pt 0pt 8pt;"> </p> <p style="font-family: "Times New Roman"; font-size: 10pt; font-variant: normal; margin: 0pt 0pt 0pt 28pt; text-align: justify; text-indent: 0pt;">The allowance for credit losses reflects the Company's current estimate of credit losses expected to be incurred over the life of the related financial assets. The allowance for credit losses is presented as a valuation account that is deducted from the amortized cost basis of financial asset(s) to present the net amount expected to be collected on the financial asset(s).</p> <p style="font-family:Times New Roman;font-size:10pt;font-variant:normal;margin:0pt 0pt 0pt 8pt;"> </p> <p style="font-family: "Times New Roman"; font-size: 10pt; font-variant: normal; margin: 0pt 0pt 0pt 28pt; text-align: justify; text-indent: 0pt;">The Company considers various factors in establishing, monitoring, and adjusting its allowance for credit losses, including the aging and aging trends, customer/other parties’ creditworthiness and specific exposures related to particular customers/other parties. The Company also monitors other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other party’s ability to pay in establishing and adjusting its allowance for credit losses. The Company assesses collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when the Company identifies specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased.</p> <p style="font-family:Times New Roman;font-size:10pt;font-variant:normal;margin:0pt 0pt 0pt 8pt;"> </p> <p style="font-family: "Times New Roman"; font-size: 10pt; font-variant: normal; margin: 0pt 0pt 0pt 28pt; text-align: justify; text-indent: 0pt;">The following tables summarized the movements of the Company’s credit losses for the nine and three months ended September 30, 2024 and 2023, respectively:</p> <p style="font-family:Times New Roman;font-size:10pt;font-variant:normal;margin:0pt 0pt 0pt 8pt;"> </p> <table cellpadding="0" cellspacing="0" class="finTable" style="margin-right: auto; width: 90%; font-size: 10pt; font-family: "Times New Roman", Times, serif; text-indent: 0px; margin-left: 28pt;"> <tbody><tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman",

The acquisition method requires that the consideration transferred to be allocated to the assets, including separately identifiable assets and liabilities we acquired, based on their estimated fair values. The consideration transferred in an acquisition is measured as the aggregate of the fair values at the date of exchange of the assets given, liabilities incurred, and equity instruments issued as well as the contingent considerations as of the acquisition date. The costs directly attributable to the acquisition are expensed as incurred. Identifiable assets, liabilities and contingent liabilities acquired or assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any noncontrolling interests. The excess of (i) the total of cost of acquisition, fair value of the noncontrolling interests and acquisition date fair value of any previously held equity interests in the acquiree over (ii) the fair value of the identifiable net assets of the acquiree, is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in earnings. The unaudited condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, previously filed with the SEC (the "2023 Form 10-K") on June 28, 2024.   In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Company's condensed consolidated financial position as of September 30, 2024, its condensed consolidated results of operations for the nine and three months ended September 30, 2024 and 2023, and its condensed consolidated cash flows for the nine months ended September 30, 2024 and 2023, as applicable, have been made. The interim results of operations are not necessarily indicative of the operating results for the full fiscal year or any future periods.   <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 9pt;"> </td> <td style="width: 18pt;"> b) </td> <td style="width: auto;"> Principles of consolidation </td> </tr> </tbody></table>   The unaudited condensed consolidated interim financial statements include the accounts of all the subsidiaries and VIEs of the Company. The Company continually evaluates these estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 9pt;"> </td> <td style="width: 18pt;"> d) </td> <td style="width: auto;"> Foreign currency translation </td> </tr> </tbody></table>   The exchange rates used to translate amounts in Reminbi, the legal currency of mainland China ("RMB") into US$ for the purposes of preparing the condensed consolidated financial statements are as follows :   <table cellpadding="0" cellspacing="0" class="finTable" style="margin-right: auto; width: 90%; font-size: 10pt; font-family: "Times New Roman", Times, serif; text-indent: 0px; margin-left: 28pt;"> <tbody><tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times,

The amendments in this ASU require the measurement and recognition of expected credit losses for financial assets held at amortized cost, which replace the existing incurred loss impairment model with an expected loss methodology. The Company, as a SEC smaller reporting company, has adopted the amendments in this ASU from January 1, 2023, using a modified retrospective transition method and did not restate the related accounts in the comparable period. Instead, the Company recognized a cumulative-effect adjustment to increase the opening balance of its accumulated deficit on January 1, 2023 by US$0.19 million, of which US$0.04 million was related to the cumulative-effect adjustment to allowance for credit loss of accounts receivable, and the remaining US$0.15 million was related to the cumulative-effect adjustment to allowance for credit loss of other current assets, which primarily consisted of short-term loans the Company provided to unrelated parties.   The allowance for credit losses reflects the Company's current estimate of credit losses expected to be incurred over the life of the related financial assets. The allowance for credit losses is presented as a valuation account that is deducted from the amortized cost basis of financial asset(s) to present the net amount expected to be collected on the financial asset(s).   The Company considers various factors in establishing, monitoring, and adjusting its allowance for credit losses, including the aging and aging trends, customer/other parties' creditworthiness and specific exposures related to particular customers/other parties. The Company also monitors other risk factors and forward-looking information, such as country specific risks and economic factors that may affect a customer/other party's ability to pay in establishing and adjusting its allowance for credit losses. The Company assesses collectability by reviewing the financial assets on a collective basis where similar characteristics exist and on an individual basis when the Company identifies specific customers/other parties with known disputes or collectability issues. Accounts receivable and short-term loans to unrelated parties are written off after all collection efforts have ceased.   The following tables summarized the movements of the Company's credit losses for the nine and three months ended September 30, 2024 and 2023, respectively: <table cellpadding="0" cellspacing="0" class="finTable" style="margin-right: auto; width: 90%; font-size: 10pt; font-family: "Times New Roman", Times, serif; text-indent: 0px; margin-left: 28pt;"> <tbody><tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> Nine Months Ended September 30, </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> Three Months Ended September 30, </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> </tr> <tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> 2024 </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> 2023 </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> 2024 </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom: 1px solid rgb(0, 0, 0);"> 2023 </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; border-bottom: 1px solid rgb(0, 0, 0);"> </td> </tr> <tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> US$('000) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> US$('000) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> US$('000) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="vertical-align: bottom; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> (Unaudited) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> (Unaudited) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family:

805, Business Combinations. The acquisition method requires that the consideration transferred to be allocated to the assets, including separately identifiable assets and liabilities we acquired, based on their estimated fair values. The consideration transferred in an acquisition is measured as the aggregate of the fair values at the date of exchange of the assets given, liabilities incurred, and equity instruments issued as well as the contingent considerations as of the acquisition date. The costs directly attributable to the acquisition are expensed as incurred. Identifiable assets, liabilities and contingent liabilities acquired or assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any noncontrolling interests. The excess of (i) the total of cost of acquisition, fair value of the noncontrolling interests and acquisition date fair value of any previously held equity interests in the acquiree over (ii) the fair value of the identifiable net assets of the acquiree, is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in earnings. The NOLs carryforwards as of December 31, 2017 gradually expire over time, the last of which expires in 2037. NOLs incurred after December 31, 2017 will no longer be available to carry back but can be carried forward indefinitely, subject to an annual limit of 80% on the amount of taxable income that can be offset by NOLs arising in tax years ending after December 31, 2017. The Company maintains a full valuation allowance against its net U.S. deferred tax assets, since due to uncertainties surrounding future utilization, the Company estimates there will not be sufficient future earnings to utilize its U.S. deferred tax assets.   The NOLs carried forward incurred by the Company’s PRC subsidiaries and VIEs were approximately US$11.6 million and US$10.6 million as of September 30, 2024 and December 31, 2023, respectively. The losses carryforwards gradually expire over time, the last of which will expire in 2028. The related deferred tax assets were calculated based on the respective NOLs incurred by each of the PRC subsidiaries and VIEs and the respective corresponding enacted tax rate that will be in effect in the period in which the losses are expected to be utilized.   The Company recorded approximately US$13.1 million and US$12.3 million valuation allowance as of September 30, 2024 and December 31, 2023, respectively, because it is considered more likely than not that a portion of the deferred tax assets will not be realized through sufficient future earnings of the entities to which the operating losses related.   For the nine and three months ended September 30, 2024, the Company recorded approximately US$0.72 million and US$0.42 million deferred tax valuation allowance, respectively. For the nine and three months ended September 30, 2023, the Company recorded approximately US$0.91 million and US$0.35 million deferred tax valuation allowance, respectively. <table cellpadding="0" cellspacing="0" class="finTable" style="margin-right: auto; The Company's ability to pay dividends to U.S. investors may depend on receiving distributions from its PRC subsidiaries and settlement of the amounts owed under the VIE agreements from the consolidated VIEs. Any limitation on the ability of the Company's PRC subsidiaries and the consolidated VIEs to make payments to the Company, or the tax implications of making payments to the Company, could have a material adverse effect on its ability to pay dividends to the U.S. investors.   The PRC regulations currently permit payment of dividends only out of accumulated profits, as determined in accordance with PRC accounting standards and regulations. The Company's PRC subsidiaries, the consolidated VIEs and their subsidiaries in China are also required to set aside at least 10% of their respective after-tax profit based on the PRC accounting standards and regulations each year to the statutory surplus reserve, until the balance in the reserve reaches 50% of the registered capital of the respective PRC entities. In accordance with these PRC laws and regulations, the Company's PRC subsidiaries, the consolidated VIEs and their subsidiaries are restricted in their ability to transfer a portion of their net assets to the Nevada holding company. As of September 30, 2024 and December 31, 2023, net assets restricted in the aggregate, that are included in the Company's consolidated net assets, were approximately US$13.26 million and US$13.41 million, respectively. Appropriations to the enterprise expansion fund and staff welfare and bonus fund of a foreign-invested PRC entity and appropriation to the discretionary surplus reserve of other PRC entities are at the discretion of the board of directors. To date, none of the Company's PRC subsidiaries, the consolidated VIEs and their subsidiaries appropriated any of these non-mandatory funds and reserves. Furthermore, if these entities incur debt on their own in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments.   Under the PRC Enterprise Income Tax ("EIT") Law and related regulations, dividends, interests, rent or royalties payable by a foreign-invested enterprise to its immediate holding company outside China are subject to a 10% withholding tax. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Hong Kong has a tax arrangement with mainland China that provides for a 5% withholding tax on dividends subject to certain conditions and requirements, such as the requirements that the Hong Kong enterprise owns at least 25% of the PRC enterprise distributing the dividend at all times within the 12-month period immediately preceding the distribution of dividends and provides that the recipient can demonstrate it is a Hong Kong tax resident and it is the beneficial owner of the dividends. The PRC government adopted regulations in 2018 which stipulate that in determining whether a non-resident enterprise has the status as a beneficial owner, comprehensive analysis shall be conducted based on the factors listed therein and the actual circumstances of the specific case shall be taken into consideration. Specifically, it expressly excludes an agent or a designated payee from being considered as a "beneficial owner". The Company owns its PRC subsidiaries through China Net HK. China Net HK currently does not hold a Hong Kong tax resident certificate from the Inland Revenue Department of Hong Kong, there is no assurance that the reduced withholding tax rate will be available for the Company. If China Net HK is not considered to be the "beneficial owner" of the dividends by the Chinese local tax authority, any dividends paid to it by the Company's PRC subsidiaries would be subject to a withholding tax rate of 10%.   There are no restrictions for the consolidated VIEs to settle the amounts owed under the VIE agreements to Rise King WFOE. However, arrangements and transactions among affiliated entities may be subject to audit or challenge by the PRC tax authorities. If at any time the VIE agreements and the related fee structure between the consolidated VIEs and Rise King WFOE is determined to be non-substantive and disallowed by Chinese tax authorities, the consolidated VIEs could, as a matter of last resort, make a non-deductible transfer to Rise King WFOE for the amounts owed under the VIE agreements. This would result in such transfer being non-deductible expenses for the consolidated VIEs but still taxable income for Rise King WFOE. If this happens, it may increase the Company's tax burden and reduce its after-tax income in the PRC, and may materially and adversely affect its ability to make distributions to the holding company. The Company's management is of the view that the likelihood that this scenario would happen is remote.   The Company's PRC subsidiaries generate all of their revenue in Renminbi. Renminbi is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of the Company's PRC subsidiaries to pay dividends/make distributions to the Company. The Chinese government imposes controls on the convertibility of Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. Shortages in availability of foreign currency may then restrict the ability of the Company's PRC subsidiaries to remit sufficient foreign currency to the Nevada holding company for the holding company to pay dividends to the U.S. investors. Renminbi is currently convertible under the "current account," which includes dividends, trade and service-related foreign exchange transactions, but not under the "capital account," which includes foreign direct investment and foreign debt. Currently, the Company's PRC subsidiaries may purchase foreign currency for settlement of current account transactions, including payment of dividends to the Nevada holding company, without the approval of the State Administration of Foreign Exchange of China (the "SAFE") by complying with certain procedural requirements. However, the relevant Chinese governmental authorities may limit or eliminate the Company's ability to purchase foreign currencies in the future for current account transactions. The Chinese government may continue to strengthen its capital controls, and additional restrictions and substantial vetting processes may be instituted by the SAFE for cross-border transactions falling under both the current account and the capital account. Any existing and future restrictions on currency exchange may limit the Company's ability to utilize revenue generated in Renminbi to pay dividends in foreign currencies to holders of the Company's securities. Foreign exchange transactions under the capital account remain subject to limitations and require approvals from, or registration with, the SAFE and other relevant Chinese governmental authorities. This could affect the Company's ability to obtain foreign currency through debt or equity financing for its PRC subsidiaries.   To date, none of the Company's subsidiaries has made any distribution of earnings or issued any dividends to their respective shareholder in or outside of China, or to the Nevada holding company, and the Nevada holding company has never declared or paid any cash dividends to U.S. investors.   The Company does not have any present plan to make any distribution of earnings/issue any dividends directly or indirectly to its Nevada holding company or pay any cash dividends on its common stock in the foreseeable future, because the Company currently intend to retain most, if not all, of its available funds and any future earnings to operate and expand the Company's business. 0.100.501326000013410000.100.10 <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 27pt;"> 16. </td> <td style="width: auto;"> Employee defined contribution plan </td> </tr> </tbody></table>   Full time employees of the Company in the PRC participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require that the PRC subsidiaries of the Company make contributions to the government for these benefits based on certain percentages of the employees' salaries. The employee benefits were expensed as incurred. The Company has no legal obligation for the benefits beyond the contributions made. The total amounts for such employee benefits were approximately US$0.07 million and US$0.12 million for the nine months ended September 30, 2024 and 2023, respectively. The total amounts for such employee benefits were approximately US$0.02 million and US$0.04 million for the three months ended September 30, 2024 and 2023, respectively. 70000.00120000020000.00400000.00 <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 27pt;"> 17. </td> <td style="width: auto;"> Concentration of risk </td> </tr> </tbody></table>   Credit risk   Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, and deposits and loans to unrelated parties. As of September 30, 2024, 81% of the Company's cash and cash equivalents were held by major financial institutions located in China, the remaining 19% was held by financial institutions located in the United States of America. The Company believes that these financial institutions located in China and the United States of America are of high credit quality. For accounts receivable and deposits and loans to unrelated parties, the Company extends credit based on an evaluation of the customer's or other parties' financial condition, generally without requiring collateral or other security. In order to minimize the credit risk, the Company delegated a team responsible for credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Further, the Company reviews the recoverable amount of each individual receivable at each balance sheet date to ensure that adequate allowances are made for doubtful accounts. In this regard, the Company considers that the Company's credit risk for accounts receivable and deposits and loans to unrelated parties are significantly reduced. The Company may from time to time become a party to various legal or administrative proceedings arising in its ordinary course of business. The Company evaluates the status of each legal matter and assesses the potential financial exposure. If the potential loss from any legal proceedings or litigation is considered probable and the amount can be reasonably estimated, the Company accrues a liability for the estimated loss. Significant judgment is required to determine the probability of a loss and whether the amount of the loss is reasonably estimated. As of the date hereof, based on the information currently available, the Company believes that the loss contingencies that may arise as a result of currently pending legal proceedings are not reasonably likely to have a material adverse effect on the Company's business, results of operations, financial condition, and cash flows. 0.099990000140000 <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"> <tbody><tr style="vertical-align: top;"> <td style="width: 27pt;"> 19. </td> <td style="width: auto;"> Segment reporting </td> </tr> </tbody></table>   The Company follows ASC Topic 280 "Segment Reporting", which requires that companies disclose segment data based on how management makes decisions about allocating resources to segments and evaluating their performance. Reportable operating segments include components of an entity about which separate financial information is available and which operating results are regularly reviewed by the chief operating decision maker ("CODM"), the Company's Chief Executive Officer, to make decisions about resources to be allocated to the segment and assess each operating segment's performance.
