**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

**Note A – General**

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with United States ("U.S.") generally accepted accounting principles ("U.S. GAAP") for interim financial information and are presented in accordance with the requirements of Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission's (the "SEC") rules and regulations. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. For

further information, refer to the consolidated financial statements and related notes included in the AutoZone, Inc. ("AutoZone" or the "Company") Annual Report on Form 10-K for the year ended **August 27, 2022** **August 26, 2023**.

Operating results for the twelve **and thirty-six** weeks ended **May 6, 2023** **November 18, 2023** are not necessarily indicative of the results that may be expected for the full fiscal year ending **August 26, 2023** **August 31, 2024**. Each of the first three quarters of AutoZone's fiscal year consists of 12 weeks, and the fourth quarter consists of 16 or 17 weeks. The fourth **quarters** **quarter of fiscal 2024 has 17 weeks, and the fourth quarter** of fiscal 2023 **and 2022 each have had** 16 weeks.

#### Recently Adopted Accounting Pronouncements

In **November 2021**, **September 2022**, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") **2021-10, Government Assistance (Topic 832) – Disclosures by Business Entities about Government Assistance**, which requires annual disclosures for entities receiving governmental assistance to provide more transparency. This ASU is effective for fiscal years beginning after December 15, 2021. The Company adopted this ASU with its first quarter ended November 19, 2022 on a prospective basis. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements and related disclosures.

#### Recently Issued Accounting Pronouncements

In **September 2022**, the FASB issued ASU 2022-04, *Liabilities – Supplier Finance Programs (Subtopic 405-50)*. This ASU requires buyers in a supplier finance program to disclose sufficient qualitative and quantitative information about the program to allow a reader of the financial statements to understand the program's nature, activity during the period, changes from period to period and the program's potential magnitude. This ASU is effective for all companies for fiscal years beginning after December 15, 2022, including interim periods within those years, and requires retrospective adoption. **Early adoption is permitted**. The Company **expects to adopt** **adopted the required disclosures** of this standard **on a retrospective basis** beginning with its first quarter ending November 18, 2023. **The adoption of ASU 2022-04 did not have a material impact on the Company's Condensed Consolidated Financial Statements and related disclosures. Refer to "Note F – Supplier Financing Programs."**

#### Recently Issued Accounting Pronouncements

In **November 2023**, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280)*. The amendments in this ASU require disclosures, on an annual and interim basis, of significant segment expenses that are regularly provided to the chief operating decision maker (CODM), as well as the aggregate amount of other segment items included in the reported measure of segment profit or loss. This ASU requires that a public entity disclose the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss. Public entities will be required to provide all annual disclosures currently required by Topic 280 in interim periods, and entities with a single reportable segment are required to provide all the disclosures required by the amendments in the update and existing segment disclosures in Topic 280. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and requires retrospective adoption. **Early adoption is permitted**. The Company will adopt this standard beginning with our **fiscal year ending August 30, 2025**. The Company is currently evaluating these new disclosure requirements and does not expect the adoption to have a material impact.

#### Note B – **Share-Based Payments** **Merchandise Inventories**

AutoZone maintains several equity incentive plans, which provide equity-based compensation. **Merchandise inventories include related purchasing, storage and handling costs. Inventory cost has been determined using the last-in, first-out ("LIFO") method stated at the lower of cost or net realizable value for domestic inventories and the weighted average cost method stated at the lower of cost or net realizable value for Mexico and Brazil inventories. The Company's policy is not to non-employee directors and eligible employees for their service write up inventory in excess of replacement cost. Due to AutoZone, its subsidiaries or affiliates. The Company recognizes compensation expense for share-based payments based price inflation on the fair value of Company's merchandise purchases, primarily driven by increased freight costs, the awards at the grant date. Share-based payments include stock option grants, restricted stock grants, restricted stock unit grants, stock appreciation rights, discounts on shares sold to employees under share purchase plans and other awards. Additionally, directors' fees are paid in restricted stock units with value equivalent to the value of shares of common stock as of the grant date. The change in fair value of liability-based stock awards is also recognized in share-based compensation expense.**

##### Stock Options:

**The Company made stock option grants for 161,510 shares during the thirty-six week period ended May 6, 2023 and granted options to purchase 164,262 shares during the comparable prior year period. The Company grants options to** **Company's LIFO credit reserve**

purchase common stock to certain of its employees under its equity incentive plans balance was \$57.0 million at prices equal November 18, 2023, and \$59.0 million at August 26, 2023. Increases to the market value Company's LIFO credit reserve balance are recorded as a non-cash charge to cost of the stock on the date sales and decreases are recorded as a non-cash benefit to cost of grant. The fair value of each option is amortized into compensation expense on a straight-line basis between the grant date for the award and each vesting date.

The weighted average fair value of the stock option awards granted during the thirty-six week periods ended May 6, 2023 and May 7, 2022, using the Black-Scholes-Merton multiple-option pricing valuation model, was \$764.68 and \$463.09 per share, respectively, using the following weighted average key assumptions: sales.

#### Note C – Variable Interest Entities

During The Company invests in certain tax credit funds that promote renewable energy and generate a return primarily through the thirty-six week period ended May 6, 2023, realization of federal tax credits. The Company considers its investment in these tax credit funds as an investment in a variable interest entity ("VIE"). The Company evaluates the investment in any VIE to determine whether it is the primary beneficiary. The Company considers a variety of factors in identifying the entity that holds the power to direct matters that most significantly impact the VIE's economic performance including, but not limited to, the ability to direct financing, leasing, construction and the comparable prior year period, 208,482 other operating decisions and 179,440 stock options, respectively, were exercised at a weighted average exercise price of \$705.52 and \$574.79, respectively.

activities. As of May 6, 2023 November 18, 2023, total unrecognized share-based expense related the Company held tax credit equity investments that were deemed to stock options, net of estimated forfeitures, be VIE's and determined that it was approximately \$117.5 million, before income taxes, which we expect to recognize over an estimated weighted average period of 3.1 years.

#### Restricted Stock Units:

Restricted stock unit awards are valued at not the market price of a share primary beneficiary of the entities, as it did not have the power to direct the activities that most significantly impacted the entity and accounted for this investment using the equity method. The Company's stock on the date maximum exposure to losses is generally limited to its net investment, which was \$23.8 million as of grant. Grants of employee restricted stock units vest ratably on an annual basis over a four-year service period and are payable in shares of common stock on the vesting date. Compensation expense for grants of employee restricted stock units is recognized on a straight-line basis over the four-year service period, less estimated forfeitures, which are consistent with stock option forfeiture assumptions. Grants of non-employee director restricted stock units are made and expensed on January 1 of each year, as they vest immediately.

As of May 6, 2023, total unrecognized stock-based compensation expense related to nonvested restricted stock unit awards, net of estimated forfeitures, was approximately \$10.1 million, before income taxes, which we expect to recognize over an estimated weighted average period of 2.6 years.

Transactions related to restricted stock units for the thirty-six weeks ended May 6, 2023 were as follows:

	Weighted-
Number	Average Grant

	of Shares	Date Fair Value
Nonvested at August 27, 2022	12,731	\$ 1,223.61
Granted	3,584	2,267.40

Forfeited	(1,338)	1,565.85
Nonvested at May 6, 2023	8,334	\$ 1,575.55

Total share-based compensation expense (a component of Operating, selling, general and administrative expenses) for the twelve and thirty-six week periods ended May 6, 2023, was \$20.0 million and \$62.4 million, respectively. For the comparable prior year periods, total share-based compensation expense was \$18.3 million and \$49.1 million, respectively.

### Note CD – Fair Value Measurements

The Company defines fair value as the price received to transfer an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with ASC 820, *Fair Value Measurements and Disclosures*, the Company uses the fair value hierarchy, which prioritizes the inputs used to measure fair value. The hierarchy, as defined below, gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are set forth below:

**Level 1 inputs**—unadjusted quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.

**Level 2 inputs**—inputs other than quoted market prices included within Level 1 that are observable, either directly or indirectly, for the asset or liability.

**Level 3 inputs**—unobservable inputs for the asset or liability, which are based on the Company's own assumptions as there is little, if any, observable activity in identical assets or liabilities.

### *Financial Instruments not Recognized at Fair Value*

The Company has financial instruments, including cash and cash equivalents, accounts receivable, other current assets and accounts payable. The carrying amounts of these financial instruments approximate fair value because of their short maturities. A discussion of the carrying values and fair values of the Company's debt is included in "Note **GH** – Financing."

### **Note **DE** – Marketable Debt Securities**

Marketable debt securities are carried at fair value, with unrealized gains and losses, net of income taxes, recorded in Accumulated other comprehensive loss until realized, and any credit risk related losses are recognized in net income in the period incurred. The Company's basis for determining the cost of a security sold is the "Specific Identification Model."

## Table of Contents

The marketable debt securities held at May 6, 2023 November 18, 2023, had effective maturities ranging from less than one year to approximately three twelve years. Securities maturing in less than one year totaled \$42.6 million and \$49.7 million at May 6, 2023 and August 27, 2022, respectively. Securities maturing between one and three years totaled \$81.9 million and \$62.8 million at May 6, 2023 and August 27, 2022, respectively. At May 6, 2023 November 18, 2023, the Company held 60 73 securities that are in an unrealized loss position of approximately \$2.0 million \$2.5 million. In evaluating whether a credit loss exists for the securities, the Company considers factors such as the severity of the loss position, the credit worthiness of the investee, the term to maturity and the intent and ability to hold the investments until maturity or until recovery of fair value. An allowance for credit losses was deemed unnecessary given consideration of the factors above. The Company did not realize any material gains or losses on its marketable debt securities during the twelve week period ended November 18, 2023 and the comparable prior year period.

Included above in total available-for-sale marketable debt securities are \$105.1 million \$106.4 million of marketable debt securities transferred by the Company's insurance captive to a trust account to secure its obligations to an insurance company related to future workers' compensation and casualty losses.

### Note EF – Derivative Financial Instruments Supplier Financing Programs

During the second quarter of fiscal 2023, The Company has arrangements with third-party financial institutions to confirm invoice balances owed by the Company entered to certain suppliers and pay the financial institutions the confirmed amounts on the invoice due dates. These arrangements allow the Company's inventory suppliers, at their sole discretion, to enter into two treasury rate locks designated as cash flow hedges used agreements directly with these financial institutions to manage finance the Company's obligations to the suppliers at terms negotiated between the suppliers and the financial institutions. Supplier participation is optional and our exposure obligations to interest rate volatility associated with anticipated debt financing, each our suppliers, including the amount and dates due, are not impacted by our suppliers' decision to enter into an agreement with a notional amount third-party financial institution. As of \$250 million. The treasury rate locks had fixed rates of 3.45% November 18, 2023 and 3.38% benchmarked based on the 5-year and the 10-year U.S. treasury notes, respectively. These

locks expired on January 27, 2023 and resulted in gains of \$1.9 million and \$2.9 million, respectively, which have been deferred in Accumulated other comprehensive loss and will be reclassified to Interest expense over the life of the underlying debt. The hedges remained highly effective until they expired, and no ineffectiveness was recognized in earnings.

At May 6, 2023 August 26, 2023, the Company had \$13.0 million recorded supplier obligations outstanding that had been confirmed under these arrangements of \$4.8 billion for each period, which are included in Accumulated other comprehensive loss Accounts payable and \$209.6 million and \$224.8 million, respectively, which are included in Other long-term liabilities in the Condensed Consolidated Balance Sheets.

#### Note G – Litigation

The Company is involved in various legal proceedings incidental to the conduct of its business, including, but not limited to, claims and allegations related to realized losses associated with terminated interest rate swap wage and treasury rate lock derivatives, which were designated as hedging instruments. Net losses are amortized into Interest expense over the remaining life of the associated debt. During the twelve hour violations, unlawful termination, employment practices, product liability, privacy and thirty-six week periods ended May 6, 2023, the Company reclassified \$531 thousand and \$2.1 million, respectively, of net losses from Accumulated other comprehensive loss to Interest expense. During the comparable prior year periods, \$798 thousand and \$2.6 million, respectively, were reclassified from Accumulated other comprehensive loss to Interest expense. cybersecurity, environmental matters, intellectual property rights or regulatory compliance. The Company expects to reclassify \$2.3 million of net losses from Accumulated other comprehensive loss to Interest expense over does not currently believe that, either individually or in the next 12 months.

#### Note F – Merchandise Inventories

Merchandise inventories include related purchasing, storage and handling costs. Inventory cost has been determined using the last-in, first-out ("LIFO") method stated at the lower of cost or net realizable value for domestic inventories and the weighted average cost method stated at the lower of cost or net realizable value for Mexico and Brazil inventories. The Company's policy is not to write up inventory aggregate, these matters will result in excess of replacement cost. Due to recent price inflation on the Company's merchandise purchases, primarily driven by increased freight costs, the Company's LIFO credit reserve balance was \$89.0 million at May 6, 2023, and \$15.0 million at August 27, 2022. Increases liabilities material to the Company's LIFO credit reserve balance are recorded as a non-cash charge to cost financial condition, results of sales and decreases are recorded as a non-cash benefit to cost of sales, operations or cash flows.

On November 15, 2021, the Company amended and restated its existing revolving credit facility (as amended from time to time, the "Revolving Credit Agreement") pursuant to which the Company's borrowing capacity was increased from \$2.0 billion to \$2.25 billion, and the maximum borrowing under the Revolving Credit Agreement may, at the Company's option, subject to lenders' approval, be increased from \$2.25 billion to \$3.25 billion. On November 15, 2022, the Company amended the Revolving Credit Agreement, extending the termination date by one year. As amended, the Revolving Credit Agreement will terminate, and all amounts borrowed will be due and payable on November 15, 2027, but AutoZone may make one additional request to extend the termination date for an additional period of one year. Revolving borrowings under the Revolving Credit Agreement may be base rate loans, Term Secured Overnight Financing Rate ("SOFR") loans, or a combination of both, at AutoZone's election. The Revolving Credit Agreement includes (i) a \$75 million sublimit for swingline loans, (ii) a \$50 million individual issuer letter of credit sublimit and (iii) a \$250 million aggregate sublimit for all letters of credit.

Under the Company's Revolving Credit Agreement, covenants include restrictions on liens, a maximum debt to earnings ratio, a minimum fixed charge coverage ratio and a change of control provision that may require acceleration of the repayment obligations under certain circumstances.

As of **May 6, 2023** **November 18, 2023**, the Company had no outstanding borrowings and \$1.8 million of outstanding letters of credit under the Revolving Credit Agreement.

The Company also maintains a letter of credit facility that allows it to request the participating bank to issue letters of credit on its behalf up to an aggregate amount of \$25 million. The letter of credit facility is in addition to the letters of credit that may be issued under the Revolving Credit Agreement. As of **May 6, 2023** **November 18, 2023**, the Company had \$25.0 million in letters of credit outstanding under the letter of credit facility, which expires in June 2025.

In addition to the outstanding letters of credit issued under the committed facilities discussed above, the Company had **\$107.2 million** **\$120.5 million** in letters of credit outstanding as of **May 6, 2023** **November 18, 2023**. These letters of credit have various maturity dates and were issued on an uncommitted basis.

As of **May 6, 2023** **November 18, 2023**, the **\$1.1 billion** commercial paper borrowings **the \$500 million 3.125% Senior Notes due July 2023** and the \$300 million 3.125% Senior Notes due April 2024 were classified as long-term in the accompanying Consolidated Balance Sheets as the Company currently has the ability and intent to refinance them on a long-term basis through available capacity under its Revolving Credit Agreement. As of **May 6, 2023** **November 18, 2023**, the Company had \$2.2 billion of availability under its Revolving Credit Agreement, without giving effect to commercial paper borrowings, which would allow it to replace these short-term obligations with a long-term financing facility.

On **January 17, 2023**, the Company repaid its outstanding \$300 million 2.875% Senior Notes due January 2023.

On January 27, 2023 October 25, 2023, the Company issued \$450 million \$500 million in 4.500% 6.250% Senior Notes due February November 2028 and \$550 million \$500 million in 4.750% 6.550% Senior Notes due February November 2033. Proceeds from the debt issuance issuances were used to repay a portion of the Company's outstanding commercial paper borrowings and for other general corporate purposes.

The Senior Notes contain a provision that repayment may be accelerated if the Company experiences both a change of control (as defined in the agreements) and a rating event (as defined in the agreements). The Company's borrowings under its Senior Notes contain minimal covenants, primarily restrictions on liens. All of the repayment obligations under its borrowing arrangements may be accelerated and come due prior to the scheduled payment date if covenants are breached or an event of default occurs. Interest for the Senior Notes is paid on a semi-annual basis.

The fair value of the Company's debt was estimated at \$7.1 billion \$8.2 billion as of May 6, 2023 November 18, 2023, and \$5.9 billion \$7.3 billion as of August 27, 2022 August 26, 2023, based on the quoted market prices for the same or similar issues or on the current rates available to the Company for debt of the same terms (Level 2). Such fair value is less than the carrying value of debt by \$229.9 million \$372.0 million and \$182.8 million \$406.6 million at May 6, 2023 November 18, 2023 and August 27, 2022 August 26, 2023, respectively, which reflects their face amount, adjusted for any unamortized debt issuance costs and discounts.

As of May 6, 2023 November 18, 2023, the Company was in compliance with all covenants and expects to remain in compliance with all covenants under its borrowing arrangements.

#### Note H I – Stock Repurchase Program

From January 1, 1998 to May 6, 2023 November 18, 2023, the Company has repurchased a total of 153.6 million 154.6 million shares of its common stock at an aggregate cost of \$32.8 billion \$35.3 billion, including 1.1 million 579.7 thousand shares of its common stock at an aggregate cost of \$2.7 billion \$1.5 billion (inclusive of excise tax of \$14.0 million \$14.4 million) during the thirty-six twelve week period ended May 6, 2023 November 18, 2023. The excise tax is assessed at one percent of the fair market value of net stock repurchases after December 31, 2022.

On October 4, 2022 June 14, 2023, the Board voted to authorize the repurchase of an additional \$2.5 billion \$2.0 billion of the Company's common stock in connection with its ongoing share repurchase program, which raised the total value of shares authorized to be repurchased to \$33.7 billion \$35.7 billion. Considering the cumulative repurchases as of May 6, 2023 November 18, 2023, the Company had \$843.6 million \$333.1 million remaining under the Board's authorization to repurchase its common stock.

During the thirty-six week period ended May 6, 2023, the Company retired 2.1 million shares of treasury stock which had been previously repurchased under the Company's share repurchase program. The retirement increased Retained deficit by \$4.2 billion and decreased Additional paid-in capital by \$143.4 million. During the comparable prior year period, the Company retired 2.5 million shares of treasury stock, which increased Retained deficit by \$3.3 billion and decreased Additional paid-in capital by \$294.9 million.

Subsequent to May 6, 2023 November 18, 2023 and through June 2, 2023 December 11, 2023, the Company has repurchased 86.7 40.1 thousand shares of its common stock at an aggregate cost of \$219.9 million \$106.0 million.

#### Note JK – Litigation Share-Based Payments

AutoZone maintains several equity incentive plans, which provide equity-based compensation to non-employee directors and eligible employees for their service to AutoZone, its subsidiaries or affiliates. The Company recognizes compensation expense for share-based payments based on the fair value of the awards at the grant date. Share-based payments include stock option grants, restricted stock grants, restricted stock unit grants, stock appreciation rights, discounts on shares sold to employees under share purchase plans and other awards. Additionally, directors' fees are paid in restricted stock units with value equivalent to the value of shares of common stock as of the grant date. The change in fair value of liability-based stock awards is also recognized in share-based compensation expense.

#### Stock Options:

The Company is involved in various legal proceedings incidental made stock option grants for 130,723 shares during the twelve week period ended November 18, 2023 and granted options to purchase 157,113 shares during the conduct comparable prior year period. The Company grants options to purchase common stock to certain of its business, including, but not limited employees under its equity incentive plans at prices equal to several lawsuits containing class-action allegations or above the market value of the stock on the date of grant. Option-vesting periods range from four to five years, with the vast majority of options vesting ratably over four years. The fair value of each option is amortized into compensation expense on a straight-line basis over the requisite service period, less estimated forfeitures. Beginning with grants made in which the plaintiffs are current and former hourly and salaried fiscal 2024, employees who allege various wage meet the qualified retirement provisions under the AutoZone, Inc. 2020 Omnibus Incentive Award Plan are assumed to have a 0% forfeiture rate. All other employee grants assume a 10% forfeiture rate, which is based on historical experience.

During the twelve week period ended November 18, 2023, and the comparable prior year period, 44,644 and 57,092 stock options, respectively, were exercised at a weighted average exercise price of these matters cannot be predicted with certainty, management does not currently believe that, either individually or in \$931.85 and \$725.86, respectively.

As of November 18, 2023, total unrecognized share-based expense related to stock options, net of estimated forfeitures, was approximately \$177.9 million, before income taxes, which we expect to recognize over an estimated weighted average period of 3.5 years.

#### Restricted Stock Units:

Restricted stock unit awards are valued at the aggregate, these matters will result in liabilities material to market price of a share of the Company's Condensed Consolidated Statements stock on the date of Income, Condensed Consolidated Balance Sheets or Condensed Consolidated Statements grant. Grants of Cash Flows, employee restricted stock units vest ratably on an annual basis over a four-year service period and are payable in shares of common stock on the vesting date. Compensation expense for grants of employee restricted stock units is recognized on a straight-line basis over the requisite service period, less estimated forfeitures, which are consistent with stock option forfeiture assumptions. Grants of non-employee director restricted stock units are made and expensed on January 1 of each year, as they vest immediately.

As of November 18, 2023, total unrecognized stock-based compensation expense related to nonvested restricted stock unit awards, net of estimated forfeitures, was approximately \$12.0 million, before income taxes, which we expect to recognize over an estimated weighted average period of 2.9 years.

Transactions related to restricted stock units for the twelve weeks ended November 18, 2023 were as follows:

	Number of Shares	Weighted- Average Grant Date Fair Value
Nonvested at August 26, 2023	8,133	\$ 1,572.87

#### **Note KL – Segment Reporting**

The Company's operating segments (Domestic Auto Parts, Mexico and Brazil) are aggregated as one reportable segment: Auto Parts Stores. The criteria the Company used to identify the reportable segment are primarily the nature of the products the Company sells and the operating results that are regularly reviewed by the Company's chief operating decision maker to make decisions about the resources to be allocated to the business units and to assess performance. The accounting policies of the Company's reportable segment are the same as those described in "Note A – Significant Accounting Policies" in its Annual Report on Form 10-K for the year ended **August 27, 2022** **August 26, 2023**.

The Auto Parts Stores segment is a retailer and distributor of automotive **replacement** parts and accessories through the Company's **7,044** **7,165** stores in the U.S., Mexico and Brazil. Each store carries an extensive product line for cars, sport utility vehicles, vans and light trucks, including new and remanufactured automotive hard parts, maintenance items, accessories and non-automotive products.

The Other category reflects business activities of two operating segments that are not separately reportable due to the materiality of these operating segments. The operating segments include ALLDATA, which produces, sells and maintains **automotive** diagnostic, repair, **collision** and shop management software used in the automotive repair industry and E-commerce, which includes direct sales to customers through [www.autozone.com](http://www.autozone.com) for sales that are not fulfilled by local stores.

The Company evaluates its reportable segment primarily on the basis of net sales and segment profit, which is defined as gross profit. Segment results for the periods presented were as follows:

## Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors of  
AutoZone, Inc.

### Results of Review of Interim Financial Statements

We have reviewed the accompanying condensed consolidated balance sheet of AutoZone, Inc. (the Company) as of **May 6, 2023** **November 18, 2023**, the related condensed consolidated statements of income, comprehensive income, and stockholders' deficit for the **thirty-six** and **thirty-six** week periods ended **May 6, 2023** and **May 7, 2022**, the condensed consolidated statements of cash flows for the **thirty-six** and **thirty-six** week periods ended **May 6, 2023** **November 18, 2023** and **May 7, 2022** **November 19, 2022**, and the related notes (collectively referred to as the "condensed consolidated interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of **August 27, 2022** **August 26, 2023**, the related consolidated statements of income, comprehensive income, stockholders' deficit and cash flows for the year then ended, and the related notes (not presented herein); and in our report dated **October 24, 2022** **October 24, 2023**, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of **August 27, 2022** **August 26, 2023**, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

### Basis for Review Results

These financial statements are the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and

accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Operating results for the twelve and thirty-six weeks ended May 6, 2023 November 18, 2023 are not necessarily indicative of the results that may be expected for the fiscal year ending August 26, 2023 August 31, 2024. Each of the first three quarters of our fiscal year consists of 12 weeks, and the fourth quarter consists of 16 or 17 weeks. The fourth quarters quarter of fiscal 2024 has 17 weeks and the fourth quarter of fiscal 2023 and 2022 each have has 16 weeks. Our business is somewhat seasonal in nature, with the highest sales generally occurring during the months of February through September, and the lowest sales generally occurring in the months of December and January.

## Executive Summary

Net sales increased 5.8% for the quarter ended May 6, 2023 compared to the prior year period, which was driven by net sales from new stores and an \$4.2 billion, a 5.1% increase in domestic same store sales (sales from stores open at least one year) of 1.9%. Domestic commercial sales increased 6.3%, which represents approximately 30.7% of our domestic auto parts sales. Operating profit increased 9.3% to \$858.5 million compared to \$785.7 million in over the prior year period. Net income for the quarter Our retail and commercial sales in our domestic and international markets grew as we continue to make progress on our growth initiatives. Operating profit increased 9.3% 17.4% to \$647.7 million compared to \$592.6 million in the prior year period. Diluted earnings per share increased 17.5% to \$34.12 per share from \$29.03 per share in the prior year period.

The above results include a \$17.0 million non-cash LIFO benefit for the quarter ended May 6, 2023. Adjusting for the non-cash LIFO benefit, adjusted operating profit for the quarter increased 7.1% \$848.6 million, adjusted net income increased 7.1% 10.0% to \$593.5 million and adjusted diluted earnings per share increased 15.2% compared 18.6% to the prior year period. Management believes these non-GAAP financial measures are useful in providing period-to-period comparisons of the results of our operations. Refer to the "Reconciliation of Non-GAAP Financial Measures" section for a reconciliation of these non-GAAP measures to the most comparable GAAP measure.

Our business is impacted by various factors within the economy that affect both our consumers and our industry, including but not limited to inflation, fuel costs, wage rates, supply chain disruptions, freight and transportation costs, hiring and other economic conditions. Given the nature of these macroeconomic factors, we cannot predict whether or for how long certain trends will continue, nor can we predict to what degree these trends will impact us in the future. \$32.55.

During the third first quarter of fiscal 2023, 2024, failure and maintenance related categories represented the largest portion of our sales mix at approximately 85% 86% of total sales, which is consistent with the comparable prior year period. Failure related categories continue to be the largest portion of our sales mix. We did not experience any fundamental shifts in our category sales mix as compared to the previous year. Our sales mix can be impacted by weather over a short-term period. Over the long-term, we believe the impact of weather on our sales mix is not significant.

Our business is impacted by various factors within the economy that affect both our consumers and our industry, including but not limited to inflation, fuel costs, wage rates, supply chain disruptions, hiring and other economic conditions. Given the nature of these macroeconomic factors, we cannot predict whether or for how long certain trends will continue, nor can we predict to what degree these trends will impact us in the future.

The two statistics we believe have the closest correlation to our market growth over the long-term are miles driven and the number of seven year old or older vehicles on the road. While over the long-term we have seen a close correlation between our net sales and the number of miles driven, we have also seen time frames of minimal correlation in sales performance and miles driven. During the periods of minimal correlation between net sales and miles driven, we believe net sales have been positively impacted by other factors, including macroeconomic factors and the number of seven year old or older vehicles on the road. The average age of the U.S. light vehicle fleet remains in our industry's favor as the average age has exceeded 11 years since 2012, according to the latest data provided by S&P Global Mobility, the Auto Care Association. As of January 1, 2023, the average age of light vehicles on the road was 12.5 years. Since the beginning of the fiscal year and through March September 2023 (latest publicly available information), miles driven in the U.S. were up 0.8% increased 0.9% compared to the same period in the prior year.

comparable prior year period. The increase in gross margin was impacted driven by a 42 208 basis point (\$17.0 million) 83.0 million net) non-cash LIFO benefit, favorability, with the remaining increase primarily from favorable supply chain costs and higher merchandise margins.

Operating, selling, general and administrative expenses for the twelve weeks ended May 6, 2023 November 18, 2023 were \$1.3 billion \$1.4 billion compared with \$1.2 billion \$1.3 billion during the comparable prior year period. As a percentage of sales, these expenses were 31.5% 32.6% compared with 31.6% 31.9% during the comparable prior year period. The increase was driven primarily by domestic store payroll and investment in technology related initiatives.

Net interest expense was \$91.4 million and \$57.7 million for the twelve weeks ended May 6, 2023 November 18, 2023 and November 19, 2022, was \$74.3 million compared with \$41.9 million during the comparable prior year period, respectively. Average borrowings were \$8.1 billion and \$6.2 billion, and weighted average borrowing rates were 4.23% and 3.47% for the twelve weeks ended May 6, 2023 were \$7.2 billion, compared with \$6.0 billion for the comparable prior year period. Weighted average borrowing rates were 3.85% November 18, 2023 and 2.74% for the twelve weeks ended May 6, 2023 and May 7, 2022 November 19, 2022, respectively.

Our effective income tax rate was 17.4% 21.6% and 18.9% of pretax income for the twelve weeks ended May 6, 2023 November 18, 2023, and 20.3% for the comparable prior year period. The decrease in the tax rate was primarily attributable to an increased benefit from stock options exercised during the twelve weeks ended May 6, 2023. November 19, 2022, respectively. The benefit of from stock options exercised for the twelve week period ended May 6, 2023 November 18, 2023 was \$46.7 million \$11.2 million compared to \$21.1 million \$29.7 million in the comparable prior year period.

Net income for the twelve weeks ended May 6, 2023 November 18, 2023 increased by \$55.2 million \$54.1 million from the comparable prior year period to \$647.7 million \$593.5 million due to the factors set forth above, and diluted earnings per share increased by 17.5% 18.6% to \$34.12 \$32.55 from \$29.03. Excluding the non-cash LIFO benefit, adjusted net income increased 7.1% to \$634.7 million, and adjusted diluted earnings per share increased 15.2% to \$33.43. \$27.45. The impact on current quarter diluted earnings per share from stock repurchases since the end of the comparable prior year period was an increase of \$0.78 per share. \$0.41.

#### Thirty-Six Weeks Ended May 6, 2023

#### Compared with Thirty-Six Weeks Ended May 7, 2022

Net sales for the thirty-six weeks ended May 6, 2023 increased \$862.7 million to \$11.8 billion, or 7.9% over net sales of \$10.9 billion for the comparable prior year period. Total auto parts sales increased by 7.9%, primarily driven by an increase in domestic same store sales of 4.2% and net sales of \$207.1 million from new stores. Domestic commercial sales increased \$311.3 million to \$3.1 billion, or 11.2%, over the comparable prior year period.

Gross profit for the thirty-six weeks ended May 6, 2023 was \$6.1 billion, compared with \$5.7 billion during the comparable prior year period. Gross profit, as a percentage of sales, was 51.6% compared to 52.4% during the comparable prior year period. The decrease in gross margin was driven by a 63 basis point (\$74.0 million) non-cash LIFO net charge driven primarily by freight costs.

Operating, selling, general and administrative expenses for the thirty-six weeks ended May 6, 2023, were \$3.8 billion compared with \$3.5 billion during the comparable prior year period. As a percentage of sales, these expenses were 32.5% compared with 32.6% during the comparable prior year period.

Net interest expense for the thirty-six weeks ended May 6, 2023, was \$197.6 million compared with \$127.6 million during the comparable prior year period. Average borrowings for the thirty-six weeks ended May 6, 2023 were \$6.8 billion, compared with \$5.6 billion for the comparable prior year period. Weighted average borrowing rates were 3.67% and 3.03% for the thirty-six week periods ended May 6, 2023 and May 7, 2022, respectively.

Our effective income tax rate was 19.0% of pretax income for the thirty-six weeks ended May 6, 2023, and 20.6% for the comparable prior year period. The decrease in the tax rate was primarily attributable to an increased benefit from stock options exercised during the thirty-six weeks ended May 6, 2023. The benefit of stock options exercised for the thirty-six week period ended May 6, 2023 was \$89.8 million compared to \$55.9 million in the comparable prior year period.

Net income for the thirty-six weeks ended May 6, 2023 increased by \$44.0 million from the comparable prior year period to \$1.7 billion due to the factors set forth above, and diluted earnings per share increased by 12.0% to \$86.10 from \$76.90. Excluding the non-cash LIFO net charge, adjusted net income increased 6.2% to \$1.7 billion, and adjusted

diluted earnings per share increased 15.8% to \$89.04. The impact on current year to date diluted earnings per share from stock repurchases since the end of the comparable prior year period was an increase of \$1.28 per share.

#### Liquidity and Capital Resources

The primary source of our liquidity is our cash flows realized through the sale of automotive parts, products and accessories. We believe that our cash generated from operating activities and available credit, supplemented with our long-term borrowings will provide ample liquidity to fund our operations while allowing us to make strategic investments to support long-term growth initiatives and return excess cash to shareholders in the form of share repurchases. As of May 6, 2023 November 18, 2023, we held \$274.9 million \$283.0 million of cash and cash equivalents, as well as \$2.2 billion in undrawn capacity on our Revolving Credit Agreement, before giving effect to commercial paper borrowings. We believe our sources of liquidity will continue to be adequate to fund our operations and investments to grow our business, repay our debt as it becomes due and fund our share repurchases over the short-term and long-term. In addition, we believe we have the ability to obtain alternative sources of financing, if necessary. However, decreased demand for our products or changes in customer buying patterns would negatively impact our ability to generate cash from operating activities. Decreased demand or changes in buying patterns could also impact our ability to meet the debt covenants of our credit agreements and, therefore, negatively impact the funds available under our Revolving Credit Agreement. In the event our liquidity is insufficient, we may be required to limit our spending.

For the thirty-six twelve week periods ended May 6, 2023 November 18, 2023 and May 7, 2022 November 19, 2022, our net cash flows from operating activities provided \$1.9 billion \$830.3 million and \$2.0 billion \$793.6 million, respectively.

Our net cash flows used in investing activities for the thirty-six twelve weeks ended May 6, 2023 November 18, 2023 were \$479.0 million \$270.5 million as compared with \$360.7 million \$113.9 million in the comparable prior year period. Capital expenditures for the thirty-six twelve weeks ended May 6, 2023 November 18, 2023 were \$430.4 million \$235.4 million compared to \$369.4 million \$114.4 million in the comparable prior year period. The increase in capital expenditures was primarily driven by our growth initiatives, including new stores, hub and mega hub expansion projects and new distribution centers. During the thirty-six week periods twelve weeks ended May 6, 2023 November 18, 2023 and May 7, 2022 November 19, 2022, we opened 101 25 and 79 35 net new stores, respectively. Investing cash flows were impacted by our wholly owned captive, which purchased \$48.4 million \$4.1 million and sold \$37.5 million \$1.9 million in marketable debt securities during the thirty-six twelve weeks ended May 6, 2023 November 18, 2023. During the comparable prior year period, the captive purchased \$46.5 million \$12.0 million and sold \$37.9 million \$4.9 million in marketable debt securities. Our investment in tax credit equity investments was \$41.2 million during the twelve weeks ended November 18, 2023 compared to \$2.5 million during the comparable prior year period.

Our net cash flows used in financing activities for the thirty-six twelve weeks ended May 6, 2023 November 18, 2023 were \$1.4 billion \$552.2 million compared to \$2.5 billion \$675.6 million in the comparable prior year period. During the thirty-six twelve weeks ended May 6, 2023 November 18, 2023, we received \$1.0 billion in debt issuances and repaid our \$300 million 2.875% senior notes due January 2023. During no debt was issued in the comparable prior year period no debt was issued and we repaid our \$500 million 3.700% Senior Notes due April 2022. Stock repurchases were \$2.7 billion \$1.5 billion in the current thirty-six twelve week period as compared with \$3.4 billion \$900.0 million in the comparable prior year period. The treasury stock repurchases were primarily funded by cash flows from operations. For the thirty-six twelve week period ended May 6, 2023 November 18, 2023, we had \$524.0 million \$76.9 million in net proceeds from repayments of commercial paper compared to \$1.3 billion \$204.9 million in net proceeds from commercial paper in the comparable prior year period. Proceeds from the sale of common stock and exercises of stock options for the thirty-six twelve weeks ended May 6, 2023 November 18, 2023 and May 7, 2022 November 19, 2022 provided \$154.9 million \$41.4 million and \$98.1 million \$40.8 million, respectively.

During fiscal 2023, 2024, we expect to increase the investment in our business as compared to fiscal 2022, 2023. Our investments are expected to be directed primarily to new stores and our supply chain initiatives, which include expanded hub and mega hubs, as well as

distribution center expansions and new distribution centers, stores. The amount of investments in our new stores is impacted by different factors, including whether the building and land are purchased (requiring higher investment) or leased (generally lower investment) and whether such buildings are located in the U.S., Mexico or Brazil, or located in urban or rural areas.

In addition to the building and land costs, our new stores require working capital, predominantly for inventories. Historically, we have negotiated extended payment terms from suppliers, reducing the working capital required and resulting in a high accounts payable to inventory ratio. We plan to continue leveraging our inventory purchases; however, our ability to do so may be limited by our vendors' supplier's capacity to factor their receivables from us. Certain vendors participate in The Company has arrangements with third-party financial institutions whereby they factor their AutoZone receivables, allowing

them to receive early payment from confirm invoice balances owed by the Company to certain suppliers and pay the financial institution institutions the confirmed amounts on our invoices the invoice due dates. These arrangements allow the Company's inventory suppliers, at a discounted rate. The their sole discretion, to enter into agreements with these financial institutions to finance the Company's obligations to the suppliers at terms of these agreements are negotiated between the vendor suppliers and the financial institution. Upon request from institutions. Supplier participation is optional and our obligations to our suppliers, including the vendor, we confirm amount and dates due, are not impacted by our suppliers' decision to the vendor's enter into an agreement with a third-party financial institution the balances owed to the vendor, the due date and agree to waive any right of offset to the confirmed balances, institution. A downgrade in our credit or changes in the financial markets may could limit the financial institutions' willingness to participate in these arrangements, which may result in the vendor wanting arrangements; however, we do not believe such risk would have a material impact on our working capital or cash flows. We plan to renegotiate payment terms. A reduction in payment continue negotiating extended terms would increase the with our suppliers, reducing our working capital required to fund future inventory investments. Extended payment terms from our vendors have allowed us to continue our and resulting in a high accounts payable to inventory ratio. Accounts We had an accounts payable as a percentage to inventory ratio of gross inventory, was 126.5% 124.4% at May 6, 2023, compared to 127.9% November 18, 2023 and 131.0% at May 7, 2022 November 19, 2022.

Depending on the timing and magnitude of our future investments (either in the form of leased or purchased properties or acquisitions), we anticipate that we will rely primarily on internally generated funds and available borrowing capacity to support a majority of our capital expenditures, working capital requirements and stock repurchases. The balance may be funded through new borrowings. We anticipate that we will be able to obtain such financing based on our current credit ratings and favorable experiences in the debt markets in the past.

For the trailing four quarters ended May 6, 2023 November 18, 2023, our adjusted after-tax return on invested capital ("ROIC"), which is a non-GAAP measure, was 55.2% 55.0% as compared to 51.4% 54.3% for the comparable prior year period. Adjusted ROIC is calculated as after-tax operating profit (excluding rent charges) divided by invested capital (which includes a factor to capitalize operating leases). We use adjusted ROIC to evaluate whether we are effectively using our capital resources and believe it is an important indicator of our overall operating performance. Refer to the "Reconciliation of Non-GAAP Financial Measures" section for further details of our calculation.

## Debt Facilities

On November 15, 2021, we amended and restated our existing revolving credit facility (as amended from time to time, the “Revolving Credit Agreement”) pursuant to which our borrowing capacity under the Revolving Credit Agreement was increased from \$2.0 billion to \$2.25 billion, and the maximum borrowing under the Revolving Credit Agreement may, at our option, subject to lenders’ approval, be increased from \$2.25 billion to \$3.25 billion. On November 15, 2022, we amended the Revolving Credit Agreement, extending the termination date by one year. As amended, the Revolving Credit Agreement will terminate, and all amounts borrowed will be due and payable, on November 15, 2027, but we may make one additional request to extend the termination date for an additional period of one year. Revolving borrowings under the Revolving Credit Agreement may be base rate loans, Term SOFR loans, or a combination of both, at our election. The Revolving Credit Agreement includes (i) a \$75 million sublimit for swingline loans, (ii) a \$50 million individual issuer letter of credit sublimit and (iii) a \$250 million aggregate sublimit for all letters of credit.

Under our Revolving Credit Agreement, covenants include restrictions on liens, a maximum debt to earnings ratio, a minimum fixed charge coverage ratio and a change of control provision that may require acceleration of the repayment obligations under certain circumstances.

As of **May 6, 2023** **November 18, 2023**, we had no outstanding borrowings and \$1.8 million of outstanding letters of credit under our Revolving Credit Agreement.

We also maintain a letter of credit facility that allows us to request the participating bank to issue letters of credit on our behalf up to an aggregate amount of \$25 million. The letter of credit facility is in addition to the letters of credit that may be issued under the Revolving Credit Agreement. As of **May 6, 2023** **November 18, 2023**, we had \$25.0 million in letters of credit outstanding under the letter of credit facility, which expires in June 2025.

In addition to the outstanding letters of credit issued under the committed facilities discussed above, we had **\$107.2 million** **\$120.5 million** in letters of credit outstanding as of **May 6, 2023** **November 18, 2023**. These letters of credit have various maturity dates and were issued on an uncommitted basis.

As of **May 6, 2023** **November 18, 2023**, the \$1.1 billion commercial paper borrowings **the \$500 million 3.125% Senior Notes due July 2023** and the \$300 million 3.125% Senior Notes due April 2024 were classified as long-term in the accompanying Consolidated Balance Sheets as we currently have the ability and intent to refinance them on a long-term basis through

available capacity under our Revolving Credit Agreement. As of **May 6, 2023** **November 18, 2023**, we had \$2.2 billion of availability under our Revolving Credit Agreement, without giving effect to commercial paper borrowings, which would allow us to replace these short-term obligations with a long-term financing facility.

On **January 17, 2023** **October 25, 2023**, we **repaid the outstanding \$300 million 2.875% issued \$500 million in 6.250%** Senior Notes due **January 2023**.

On January 27, 2023, we issued \$450 million **November 2028** and \$500 million in **4.500%** **6.550%** Senior Notes due **February 2028** and **\$550 million in 4.750% Senior Notes due February** **November** 2033. Proceeds from the debt issuance were used **to repay a portion of the outstanding commercial paper borrowings and for other** general corporate purposes.

The Senior Notes contain a provision that repayment may be accelerated if we experience **both** a change of control **(as defined in the agreements governing the Senior Notes)** and a rating event **(as defined in the agreements governing the Senior Notes)**. The Company’s borrowings under our Senior Notes contain minimal covenants, primarily restrictions on liens. All of the repayment obligations under its borrowing arrangements may be accelerated and come due prior to the applicable scheduled payment date if covenants are breached or an event of default occurs.

As of **May 6, 2023** **November 18, 2023**, we were in compliance with all covenants and expect to remain in compliance with all covenants under our borrowing arrangements.

Our adjusted debt to earnings before interest, taxes, depreciation, amortization, rent and share-based compensation expense ("EBITDAR") ratio was **2.3:2.5:1** as of **May 6, 2023** **November 18, 2023** and was **2.1:2.2:1** as of **May 7, 2022** **November 19, 2022**. We calculate adjusted debt as the sum of total debt, financing lease liabilities and rent times six; and we calculate EBITDAR by adding interest, taxes, depreciation, amortization, rent, and share-based compensation expense to net income. Adjusted debt to EBITDAR is calculated on a trailing four quarter basis. We target our debt levels to a ratio of adjusted debt to EBITDAR in order to maintain our investment grade credit ratings. We believe this is important information for the management of our debt levels. **We expect the ratio of adjusted debt to EBITDAR to return to pre-pandemic levels in the future, increasing debt levels. Once the target ratio is achieved, to** the extent EBITDAR increases, we expect our debt levels to increase; conversely, if EBITDAR decreases, we would expect our debt levels to decrease. Refer to the "Reconciliation of Non-GAAP Financial Measures" section for further details of our calculation.

#### *Stock Repurchases*

From January 1, 1998 to **May 6, 2023** **November 18, 2023**, we have repurchased a total of **153.6 million** **154.6 million** shares of our common stock at an aggregate cost of **\$32.8 billion** **\$35.3 billion**, including **1.1 million** **579.7 thousand** shares of our common stock at an aggregate cost of **\$2.7 billion** **\$1.5 billion** (inclusive of excise tax of **\$14.0 million** **\$14.4 million**) during the **thirty-six** **twelve** week period ended **May 6, 2023** **November 18, 2023**. The excise tax is assessed at one percent of the fair market value of net stock repurchases after December 31, 2022.

On **October 4, 2022** **June 14, 2023**, the Board voted to authorize the repurchase of an additional **\$2.5 billion** **\$2.0 billion** of our common stock in connection with our ongoing share repurchase program, which raised the total value of shares authorized to be repurchased to **\$33.7 billion** **\$35.7 billion**. Considering the cumulative repurchases as of **May 6, 2023** **November 18, 2023**, we had **\$843.6 million** **\$333.1 million** remaining under the Board's authorization to repurchase our common stock.

Subsequent to **May 6, 2023** **November 18, 2023** and through **June 2, 2023** **December 11, 2023**, we have repurchased **86.7** **40.1** thousand shares of our common stock at an aggregate cost of **\$219.9 million** **\$106.0 million**.

#### Reconciliation of Non-GAAP Financial Measures

Management's Discussion and Analysis of Financial Condition and Results of Operations includes certain financial measures not derived in accordance with GAAP, including Adjusted operating profit, Adjusted net income, Adjusted diluted earnings per share, Adjusted After-Tax ROIC and Adjusted Debt to EBITDAR. Non-GAAP financial measures should not be used as a substitute for GAAP financial measures, or considered in isolation, for the purpose of analyzing our operating performance, financial position or cash flows. However, we have presented non-GAAP financial measures, as we believe they provide additional information that is useful to investors. Additionally, our management uses these non-GAAP financial measures to review and assess our underlying operating results and the Compensation Committee of the Board uses select measures to determine payments of performance-based compensation against pre-established targets.

Adjusted operating profit, Adjusted net income and Adjusted diluted earnings per share present our financial results excluding the non-cash LIFO (benefit)/charge, which varies from period to period, and assist in comparing our current operating results with past periods and with the operational performance 22

[Table of other companies in our industry.](#) [Contents](#)

Adjusted After-Tax ROIC and Adjusted Debt to EBITDAR provide additional information for determining our optimal capital structure and are used to assist management in evaluating performance and in making appropriate business decisions to maximize stockholders' value.

We have included reconciliations of this information to the most comparable GAAP measures in the following reconciliation tables.

## Recent Accounting Pronouncements

Refer to Note A of the Notes to Condensed Consolidated Financial Statements for the discussion of recent accounting pronouncements.

## Critical Accounting Policies and Estimates

Our critical accounting policies are described in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 27, 2022 August 26, 2023. There have been no significant changes to our critical accounting policies since the filing of our Annual Report on Form 10-K for the year ended August 27, 2022 August 26, 2023.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

At May 6, 2023 November 18, 2023, the only material changes to our instruments and positions that are sensitive to market risk since the disclosures in our Annual Report on Form 10-K for the year ended August 27, 2022 August 26, 2023 were the \$450 million 4.500% \$500 million 6.250% Senior Notes due February November 2028 and \$550 million 4.750% \$500 million 6.550% Senior Notes due February November 2033 debt issuances, the \$300 million 2.875% Senior Notes debt repayment and the \$524.0 million \$76.9 million net increase decrease in commercial paper.

The fair value of the Company's debt was estimated at \$7.1 billion \$8.2 billion as of May 6, 2023 November 18, 2023, and \$5.9 billion \$7.3 billion as of August 27, 2022 August 26, 2023, based on the quoted market prices for the same or similar issues or on the current rates available to the Company for debt of the same terms (Level 2). Such fair value is less than the carrying value of debt by \$229.9 million \$372.0 million and \$182.8 million \$406.6 million at May 6, 2023 November 18, 2023 and August 27, 2022 August 26, 2023, respectively, which reflects their face amount, adjusted for any unamortized debt issuance costs and discounts. We had \$1.1 billion of variable rate debt outstanding at May 6, 2023 November 18, 2023 and \$603.4 million \$1.2 billion in variable rate debt outstanding at August 27, 2022 August 26, 2023. At these borrowing levels for variable rate debt, a one percentage point increase in interest rates would have had an unfavorable annual impact on our pre-tax earnings and cash flows of \$11.3 million in fiscal 2023, 2024. The primary interest rate exposure is based on the federal funds rate. We had outstanding fixed rate debt of \$6.2 billion \$7.5 billion, net of unamortized debt issuance costs of \$36.9 million \$49.2 million at May 6, 2023 November 18, 2023 and \$5.5 billion \$6.5 billion, net of unamortized debt issuance costs of \$31.3 million \$41.1 million at August 27, 2022 August 26, 2023.

2022, August 26, 2023. A one percentage point increase in interest rates would have reduced the fair value of our fixed rate debt by \$257.5 million \$310.2 million at May 6, 2023 November 18, 2023.

#### Item 4. Controls and Procedures

##### Evaluation of Disclosure Controls and Procedures

As of May 6, 2023 November 18, 2023, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as amended. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of May 6, 2023 November 18, 2023.

##### Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during the quarter ended May 6, 2023 November 18, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

As of the date of this filing, there have been no additional material legal proceedings or material developments in the legal proceedings disclosed in Part 1, Item 3, of our Annual Report in Form 10-K for the fiscal year ended August 27, 2022 August 26, 2023.

During 1998, we announced a program permitting us to repurchase a portion of our outstanding shares not to exceed a dollar maximum established by our Board of Directors. This program was most recently amended by the Board on [October 4, 2022](#) [June 14, 2023](#) to authorize the repurchase of an additional [\\$2.5 billion](#) [\\$2.0 billion](#) of our common stock. This brings the cumulative share repurchase authorization to [\\$33.7 billion](#) [\\$35.7 billion](#). All of the above repurchases were part of this program.

Subsequent to [May 6, 2023](#) [November 18, 2023](#) and through [June 2, 2023](#) [December 11, 2023](#), we have repurchased [86.7](#) [40.1](#) thousand shares of our common stock at an aggregate cost of [\\$219.9 million](#) [\\$106.0 million](#).
