(Health Catalyst) was incorporated under the laws of Delaware in September 2011. We are a leading provider of data and analytics technology and services to healthcare organizations. Our Solution comprises our cloud-based data platform, software analytics applications, and professional services expertise. Our clients, which are primarily healthcare providers, use our Solution to manage their data, derive analytical insights to operate their organization, and produce measurable clinical, financial, and operational improvements. Basis of presentation The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the applicable regulations of the U.S. Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted. Therefore, these unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and the related notes thereto as of and for the year ended December 31, 2023 included in our Annual Report on Form 10-K. Interim unaudited condensed consolidated financial statements The accompanying interim condensed consolidated balance sheet as of June 30, 2024, the interim condensed consolidated statements of operations for the three and six months ended June 30, 2024 and 2023, our interim condensed consolidated statements of stockholders' equity for the three and six months ended June 30, 2024 and 2023, and our interim condensed consolidated statements of cash flows for the six months ended June 30, 2024 and 2023 are unaudited. Our condensed consolidated balance sheet as of December 31, 2023 was derived from audited financial statements, but does not include all disclosures required by GAAP. Our interim unaudited condensed consolidated financial statements have been prepared on a basis consistent with our annual consolidated financial statements and, in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to state fairly the Company's financial position, its operations and cash flows for the periods presented. The historical results are not necessarily indicative of future results, and the results of operations for the three and six months ended June 30, 2024 are not necessarily indicative of the results to be expected for the full year or any other period. Principles of consolidation The condensed consolidated financial statements include the accounts of Health Catalyst and its wholly-owned subsidiaries. Intercompany balances and transactions have been eliminated. Use of estimates The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, reserves for expected credit losses, useful lives of property and equipment, capitalization and estimated useful life of internal-use software, impairment assessments of goodwill, intangible assets, and other long-lived assets, fair value of financial instruments, deferred tax assets, stock-based compensation, contingent consideration, the period of benefit for deferred contract acquisition costs, the incremental borrowing rate used for operating leases, and tax uncertainties. Actual results could differ significantly from those estimates. Segment reporting Operating segments are identified as components of an enterprise about which separate discrete financial information is evaluated by the chief operating decision maker (CODM) in assessing performance and making decisions regarding resource allocation. We operate our business in two operating segments that also represent our reportable segments. Our segments are (1) technology and (2) professional services. The CODM uses Adjusted Gross Profit (defined as revenue less cost of revenue that excludes depreciation, amortization, stock-based compensation expense, and certain other operating expenses) as the measure of our profit. Net loss per share Basic net loss per share is calculated by dividing net loss by the weighted average number of shares of common stock outstanding. Diluted net loss per share is calculated by giving effect to all potentially dilutive common stock equivalents outstanding for the period, when dilutive. For purposes of this calculation, stock options, restricted stock units (RSUs), performance-based restricted stock units (PRSUs), convertible senior notes, restricted shares, and purchase rights committed under the employee stock purchase plan are considered to be common stock equivalents but have been excluded from the calculation of diluted net loss per share attributable to common stockholders as the effect is anti-dilutive. Revenue recognition We derive our revenue primarily from technology subscriptions and professional services. We determine revenue recognition by applying the following steps: •Identification of the contract, or contracts, with a client; •Identification of the performance obligations in the contract; •Determination of the transaction price; •Allocation of the transaction price to the performance obligations in the contract; and •Recognition of revenue when, or as, we satisfy the performance obligation. We recognize revenue net of any taxes collected from clients and subsequently remitted to governmental authorities. Technology revenue Technology revenue primarily consists of subscription fees charged to clients for access to use our technology. We provide clients access to our technology through either an all-access or limited-access, modular subscription. The majority of our subscription arrangements are cloud-based and do not provide clients the right to take possession of the technology or contain a significant penalty if the client were to take possession of the technology. Revenue from cloud-based subscriptions is recognized ratably over the contract term beginning on the date that the service is made available to the client. Our subscription contracts generally have a three- or five-year term, of which many are terminable after one year upon 90 days' notice. Subscriptions that allow the client to take software on-

*premise without significant penalty are treated as time-based licenses. These arrangements generally include access to technology, access to unspecified future products, and maintenance and support. Revenue for upfront access to our technology library is recognized at a point in time when the technology is made available to the client. Revenue for access to unspecified future products included in time-based license subscriptions is recognized ratably over the contract term beginning on the date that the access is made available to the client. Professional services revenue Professional services revenue primarily includes data and analytics services, domain expertise services, Tech-enabled Managed Services, and implementation services. Professional services arrangements typically include a fee for making full-time equivalent (FTE) services available to our clients on a monthly basis. FTE services generally consist of a blend of analytic engineers, analysts, and data scientists based on the domain expertise needed to best serve our clients. Professional services are typically considered distinct from the technology offerings and revenue is generally recognized as the service is provided using the "right to invoice" practical expedient. Contracts with multiple performance obligations Many of our contracts include multiple performance obligations. We account for performance obligations separately if they are capable of being distinct within the context of the contract. In these circumstances, the transaction price is allocated to separate performance obligations on a relative standalone selling price basis. We determine standalone selling prices based on the observable price a good or service is sold for separately when available. In cases where standalone selling prices are not directly observable, based on information available, we utilize the expected cost plus a margin, adjusted market assessment, or residual estimation method. We consider all information available including our overall pricing objectives, market conditions, and other factors, which may include client demographics and the types of users. Standalone selling prices are not directly observable for our all-access and limited-access technology arrangements, which are composed of cloud-based subscriptions, time-based licenses, and perpetual licenses. For these technology arrangements, we generally use the residual method due to a limited number of standalone transactions and/or prices that are highly variable. Variable consideration We have also entered into at-risk and shared savings arrangements with certain clients whereby we receive variable consideration based on the achievement of measurable improvements that may include cost savings or performance against metrics. For these arrangements, we estimate revenue using the most likely amount that we will receive. Estimates are based on our historical experience and best judgment at the time to the extent it is probable that a significant reversal of revenue recognized will not occur. Due to the nature of our arrangements, certain estimates may be constrained until the uncertainty is further resolved. Contract balances Contract assets resulting from services performed prior to invoicing clients are recorded as unbilled accounts receivable and are presented on our condensed consolidated balance sheets in aggregate with accounts receivable. Unbilled accounts receivable generally become billable at contractually specified dates or upon the attainment of contractually defined milestones. As of June 30, 2024 and December 31, 2023, the unbilled accounts receivable included in accounts receivable on our condensed consolidated balance sheets was $6.5 million and $4.7 million, respectively. We record contract liabilities as deferred revenue when cash payments are received or due in advance of performance. Deferred revenue primarily relates to the advance consideration received from the client. As of June 30, 2024 and December 31, 2023, the total of current and non-current deferred revenue on our condensed consolidated balance sheets was $56.4 million and $55.8 million, respectively. Deferred costs We capitalize sales commissions and associated fringe costs, such as benefits and payroll taxes, paid to direct sales personnel and other incremental costs of obtaining contracts with clients, provided we expect to recover those costs. We determine that costs should be deferred based on our sales compensation plans when the commissions are incremental and would not have occurred absent the client contract. As of June 30, 2024 and December 31, 2023, $2.2 million and $2.2 million, respectively, of deferred contract acquisition costs are expected to be amortized within the next 12 months and are included in prepaid expenses and other assets on the condensed consolidated balance sheets. As of June 30, 2024 and December 31, 2023, the remaining $2.9 million and $3.3 million, respectively, of deferred contract acquisition costs are included in non-current other assets. Commissions paid upon the initial acquisition of a contract are amortized on a straight-line basis over an estimated period of benefit of four years. Amortization is recognized on a straight-line basis commensurate with the pattern of revenue recognition. The period of benefit was estimated by considering factors such as estimated average client life, the rate of technological change in our subscription service, and the impact of competition in our industry. As our average client life significantly exceeded the rate of change in our technology, we concluded that the rate of change in the technology underlying our subscription service was the most significant factor in determining the period of benefit for which the asset relates. In evaluating the rate of change in our technology, we considered the competition in our industry, our commitment to continuous innovation, and the frequency of product, platform, and technology updates. We determined that the impact of competition in our industry is reflected in the period of benefit through the rate of technological change. Amortization of deferred contract acquisition costs was $0.6 million and $0.5 million for the three months ended June 30, 2024 and 2023, respectively, and $1.3 million and $1.0 for the six months ended June 30, 2024 and 2023, respectively, and is included within sales and marketing expense in the condensed consolidated statements of operations.</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">We defer certain costs to fulfill a contract when the costs are expected to be recovered, are directly related to in-process contracts, and enhance resources that will be used in satisfying performance obligations in the future. These deferred fulfillment costs primarily consist of employee compensation incurred as part of the implementation of new contracts. Amortization of deferred fulfillment costs is included within cost of revenue in the condensed consolidated statements of operations. We periodically review these deferred costs to determine whether events or changes in circumstances have occurred that could impact the period of benefit. There were no impairment losses recorded during the periods presented.</div><div style="margin-bottom:12pt">Cost of revenue, excluding depreciation and amortization</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">Cost of technology revenue primarily consists of costs associated with hosting and supporting our technology, including third-party cloud computing and hosting costs, license and revenue share fees, contractor costs, and salary and related personnel costs for our cloud services and support teams. Cost of professional services revenue primarily consists of salary and related personnel costs, travel-related costs, and independent contractor costs. Cost of revenue in the interim condensed consolidated statements of operations excludes costs related to depreciation and amortization.</div><div style="margin-bottom:12pt">Cash and cash equivalents</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">We consider all highly liquid investments purchased with a remaining maturity of three months or less at the time of acquisition to be cash equivalents.</div><div style="margin-bottom:12pt">Short-term investments</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">Our investment policy limits investments to highly-rated instruments. We classify and account for our short-term investments as available for sale securities as we may sell these securities at any time for use in our current operations or for other purposes, even prior to maturity. As a result, we classify our short-term investments, including securities with contractual maturities beyond twelve months, within current assets in the condensed consolidated balance sheets. </div><div style="margin-bottom:12pt">Accounts receivable</div><div style="text-align:justify;text-indent:18pt">Accounts receivable are non-interest bearing and are recorded at the original invoiced amount less an allowance for credit losses based on the probability of future collections. Our allowance is based on our estimate of expected credit losses for outstanding trade accounts receivables and unbilled receivables. </div><div style="text-align:justify;text-indent:18pt">
</div><div style="margin-bottom:6pt;text-align:justify;text-indent:18pt">We determine expected credit losses based on historical write-off experience, an analysis of the aging of outstanding receivables, client payment patterns, the establishment of specific reserves for clients in an adverse financial condition, and our expectations of changes in macroeconomic conditions, including high interest rates and high inflation, that may impact the collectability of outstanding receivables. We reassess the adequacy of the allowance for credit losses each reporting period. The following table presents a rollforward of the allowance for credit losses (in thousands):</div><div style="text-align:justify"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:46.175%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.562%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended June 30,</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended June 30,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt 2px 10pt;text-align:left;text-indent:-9pt;vertical-align:bottom">Allowance for credit losses at the beginning of period</td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">6,500 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td*

0;text-align:right;vertical-align:bottom"></td></tr></table> Leases We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (ROU) assets and operating lease liabilities in our condensed consolidated balance sheets. We have adopted the short-term lease recognition exemption policy. All of our leasing commitments are classified either as operating leases or otherwise qualify as short-term leases with lease terms of 12 months or less. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. As our lease contracts do not have a readily determinable implicit rate, we use our incremental borrowing rate based on the information available at the commencement date to determine the present value of lease payments. The incremental borrowing rate is the estimated rate incurred to borrow on a collateralized basis over a similar term and amount equal to the lease payments in a similar economic environment. The operating lease ROU asset also includes any lease payments made and excludes lease executory costs. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise the applicable option. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Variable costs related to our leased office space, such as maintenance and utilities based on actual usage, are not included in the measurement of right-of-use assets and lease liabilities, but are expensed as incurred. Property and equipment Property and equipment are stated at historical cost less accumulated depreciation. Repairs and maintenance costs that do not extend the useful life or improve the related assets are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The estimated useful life of each asset category is as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer equipment</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-3 years </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Furniture and fixtures</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 3-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Leasehold improvements</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:right;vertical-align:bottom">Lesser of lease term or estimated useful life</td></tr></table> <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer software</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Capitalized internal-use software costs</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr></table> When there are indicators of potential impairment, we evaluate the recoverability of the carrying values by comparing the carrying amount of the applicable asset group to the estimated undiscounted future cash flows expected to be generated by the asset group over the remaining useful life of the primary asset, plus any terminal value, in the asset group. If the carrying amount of the asset group exceeds those estimated future net cash flows, an impairment charge is recognized based on the amount by which the carrying value of the long-lived assets exceeds the fair value of the assets. Intangible assets Intangible assets include developed technologies, client relationships, client contracts, and trademarks that were acquired in business combinations and asset acquisitions. Intangible assets also include the purchase of third-party computer software. The intangible assets are amortized using the straight-line method over the assets' estimated useful lives. The estimated useful life of each asset category is as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Developed technologies</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 3-10 years </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Client relationships and contract backlog</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-

align:left;vertical-align:bottom"> 2-7 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer software licenses</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 1-5 years </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Trademarks</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 1-5 years </td></tr></table> Goodwill We record goodwill as the difference between the aggregate consideration paid for a business combination and the fair value of the identifiable net tangible and intangible assets acquired. Goodwill includes the know-how of the assembled workforce, the ability of the workforce to further improve technology and product offerings, client relationships, and the expected cash flows resulting from these efforts. Goodwill may also include expected synergies resulting from the complementary strategic fit these businesses bring to existing operations. Goodwill is assessed for impairment annually on October 31 or more frequently if indicators of impairment are present or circumstances suggest that impairment may exist. Our first step in the goodwill impairment test is a qualitative analysis of factors that could be indicators of potential impairment. Judgment in the assessment of qualitative factors of impairment may include changes in business climate, market conditions, or other events impacting the reporting unit. Next, if a quantitative analysis is necessary, we compare the fair value of the reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, the goodwill of the reporting unit is not considered impaired. Performing a quantitative goodwill impairment test includes the determination of the fair value of a reporting unit, which requires management to use significant judgment and estimation. The significant estimation is primarily due to the judgmental nature of the inputs to the valuation models used to measure the fair value of the reporting units, as well as the sensitivity of the respective fair values to the underlying significant assumptions. Typical methods to derive the fair value of reporting units include using the income or market approaches. The significant assumptions used to form the basis of the estimates include, among others, the selection of valuation methodologies, estimates of expected revenue, including revenue growth rates, and operating margins used to calculate projected future cash flows, risk-adjusted discount rates, and the selection of appropriate market comparable companies. Many of these significant assumptions are forward-looking and could be affected by future economic and market conditions. If a quantitative analysis is necessary, we typically engage the assistance of a valuation specialist in concluding on fair value measurements in connection with determining the fair values of our reporting units. If the carrying amount of the reporting unit exceeds its fair value, we would recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. There was no impairment of goodwill for the three and six months ended June 30, 2024 and 2023. Business combinations The results of businesses acquired in a business combination are included in our condensed consolidated financial statements from the date of the acquisition. Purchase accounting results in assets and liabilities of an acquired business generally being recorded at their estimated fair value on the acquisition date. Any excess consideration transferred over the fair value of the identifiable assets acquired and liabilities assumed is recognized as goodwill. We perform valuations of assets acquired and liabilities assumed on each acquisition accounted for as a business combination in order to record the tangible and intangible assets acquired and liabilities assumed based on our best estimate of fair value. Determining the fair value of assets acquired and liabilities assumed requires management to use significant judgment and estimates including the selection of valuation methodologies, estimates of future revenue and cash flows, discount rates, and selection of comparable companies. Significant estimation is required in determining the fair value of the client-related intangible assets and technology-related intangible assets. The significant estimation is primarily due to the judgmental nature of the inputs to the valuation models used to measure the fair value of these intangible assets, as well as the sensitivity of the respective fair values to the underlying significant assumptions. We typically use the income approach or cost approach to measure the fair value of intangible assets. The significant assumptions used to form the basis of the estimates included the number of engineer hours required to develop technology, expected revenue including revenue growth rates, rate and timing of obsolescence, royalty rates and earnings before interest, taxes, depreciation and amortization (EBITDA) margin used in the estimate for client relationships, and backlog. Many of these significant assumptions were forward-looking and could be affected by future economic and market conditions. We engage the assistance of valuation specialists in concluding on fair value measurements in connection with determining fair values of material assets acquired and liabilities assumed in a business combination. For the three and six months ended June 30, 2024, we expensed $2.1 million and $2.5 million, respectively, of transaction costs associated with business combinations. There were no transaction costs associated with business combinations during the six months ended June 30, 2023. The costs were expensed as incurred and are included in general and administrative expense in our condensed consolidated statements of operations. Contingent consideration liabilities Our acquisition consideration in business combinations may include an estimate for contingent consideration that will be paid if certain earn-out performance targets are met. The resulting contingent consideration liabilities are categorized as a Level 3 fair value measurement because we estimate projections during the earn-out period utilizing unobservable inputs, including various potential pay-out scenarios based on billings and revenue-related earn-out targets. Changes to the unobservable inputs could have a material impact on our condensed consolidated financial statements. We generally value the expected contingent consideration and the corresponding liabilities using the Monte Carlo method or Black-Scholes model based on estimates of potential payment scenarios. Probabilities are applied to each potential scenario and the resulting values are discounted using a rate that considers weighted average cost of capital as well as a specific risk premium associated with the riskiness of the earn-out itself, the related projections, projected payment dates, and volatility in the fair value of our common stock. The fair value of the contingent consideration is remeasured each reporting period. The portion of the contingent consideration liabilities that will be settled in shares of our common stock is classified as a component of non-current liabilities in our condensed consolidated balance sheets, while the portion to be paid in cash is classified as a component of current liabilities. Changes to the contingent consideration liabilities are reflected as part of general and administrative expense in our condensed consolidated statements of operations. Advertising costs All advertising costs are expensed as incurred. For the three months ended June 30, 2024 and 2023, we incurred $0.3 million and $1.0 million of advertising costs, respectively, and $3.7 million and $1.2 million for the six months ended June 30, 2024 and 2023. Development costs and internal-use software For technology products that are developed to be sold externally, we determined that technological feasibility is reached shortly before the products are ready for general release. Any costs associated with software development between the time technological feasibility is reached and general release are inconsequential. We capitalize certain development costs incurred in connection with our internal-use software. These capitalized costs are primarily related to the software platforms that are hosted by us and accessed by our clients on a subscription basis. Costs incurred in the preliminary stages of development are expensed as incurred as research and development costs. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized until the software is substantially complete and ready for its intended use. We also capitalize costs related to specific upgrades and enhancements when it is probable the expenditures will result in additional functionality. Capitalized costs are recorded as part of property and equipment. Maintenance and training costs are expensed as incurred. Internal-use software is amortized on a straight-line basis over its estimated useful life with amortization included in depreciation and amortization expense in our condensed consolidated statements of operations. Stock-based compensation Stock-based awards, including stock options, restricted stock units, performance-based restricted stock units, and restricted shares are measured and recognized in our condensed consolidated financial statements based on the fair value of the award on the grant date or, when applicable, the modification date. The grant date fair value of our stock-based awards is typically determined using the market closing price of our common stock on the date of grant; however, we also consider whether any adjustments are required when the market closing price does not reflect certain material non-public information that we know but is unavailable to marketplace participants on the date of grant. We record forfeitures of stock-based awards as the actual forfeitures occur. For awards subject to performance conditions, we record expense when the performance condition becomes probable. Each reporting period we evaluate the probability of achieving the performance criteria, estimate the number of shares that are expected to vest, and adjust the related compensation expense accordingly. For awards subject to market conditions, we estimate the fair value as of the grant date using a Monte Carlo simulation valuation model which requires the use of various assumptions, including historic stock price volatility and risk-free interest rates as of the valuation date corresponding to the length of time remaining in the performance period. Stock-based compensation expense for awards with market conditions is recognized over the requisite service period using the accelerated attribution method and is not reversed if the market condition is not met. Stock-based compensation expense related to purchase rights issued under the 2019 Health Catalyst Employee Stock Purchase Plan (ESPP) is based on the Black-Scholes option-pricing model fair value of the estimated number of awards as of the beginning of the offering period. Stock-based compensation expense is recognized using the straight-line method over the offering period. The measurement date for non-employee awards is the date of grant. The compensation expense for non-employees is recognized, without changes in the fair value of the award, in the same period and in the same manner as though we had paid cash for the services, which is typically the vesting period of the respective award. Restructuring costs We define restructuring costs as expenses directly associated with restructuring activities. Such costs include severance and related tax and benefit expenses from workforce reductions, impairment of discontinued capitalized software projects, and other miscellaneous charges. We record team member-related severance costs when there is a substantive plan in place and the related costs are probable and estimable. For one-time termination benefits for team members (i.e., no substantive plan or future service requirement), the cost is recorded when the terms of the one-time termination benefits are communicated to the impacted team members and the amount can be reasonably estimated. Income taxes <div style="margin-

bottom:12pt;text-align:justify;text-indent:18pt">Deferred income tax balances are accounted for using the asset and liability method and reflect the effects of temporary differences between the financial reporting and tax bases of our assets and liabilities using enacted tax rates expected to apply when taxes are actually paid or recovered. In addition, deferred tax assets and liabilities are recorded for net operating loss (NOL) and tax credit carryforwards. A valuation allowance is provided against deferred tax assets unless it is more likely than not that they will be realized based on all available positive and negative evidence. Such evidence includes, but is not limited to, recent cumulative earnings or losses, expectations of future taxable income by taxing jurisdiction, and the carry-forward periods available for the utilization of deferred tax assets. We use a two-step approach to recognize and measure uncertain income tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained upon audit. The second step is to measure the tax benefit as the largest amount, which is more than 50% likely of being realized upon ultimate settlement. We do not currently accrue interest and penalties related to unrecognized tax benefits within the provision for income taxes because the impact would be immaterial due to our net operating losses and tax credit carryforwards. Significant judgment is required to evaluate uncertain tax positions. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We evaluate our uncertain tax positions on a regular basis and evaluations are based on a number of factors, including changes in facts and circumstances, changes in tax law, correspondence with tax authorities during the course of an audit, and effective settlement of audit issues. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and results of operations. Fair value of financial instruments The carrying amounts reported in our condensed consolidated balance sheets for cash, receivables, accounts payable, and current accrued expenses approximate fair values because of the immediate or short-term maturity of these financial instruments. The carrying value of operating lease liabilities and convertible senior notes approximate fair value based on interest rates available for debt with similar terms at June 30, 2024 and December 31, 2023. Money market funds and short-term investments are measured at fair value on a recurring basis. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement: •Level 1- Quoted prices in active markets for identical assets or liabilities. •Level 2- Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. •Level 3- Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability. All of our financial instruments are valued using quoted prices in active markets or based on other observable inputs. For Level 2 securities, we use a third-party pricing service which provides documentation on an ongoing basis that includes, among other things, pricing information with respect to reference data, methodology, inputs summarized by asset class, pricing application, and corroborative information. Our contingent consideration liabilities are categorized as a Level 3 fair value measurement because we estimate projections during the earn out period utilizing various potential pay-out scenarios. Foreign currency The functional currency of our international subsidiaries is generally their local currency. We translate these subsidiaries' financial statements into U.S. dollars using month-end exchange rates for assets and liabilities and average exchange rates for revenue and expenses. We record translation gains and losses in accumulated other comprehensive loss in stockholders' equity. We record foreign exchange gains and losses in interest and other expense, net. Our net foreign exchange gains and losses were not material for the periods presented. Recent accounting pronouncements not yet adopted In November 2023, the Financial Accounting Standards Board (FASB) issued ASU No. 2023-07, Improvements to Reportable Segment Disclosures (Topic 280). This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the CODM and included within each reported measure of a segment's profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. The ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Adoption of the ASU should be applied retrospectively to all prior periods presented in the financial statements. Early adoption is permitted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2024. In December 2023, the FASB issued ASU No. 2023-09, Improvements to Income Tax Disclosures (Topic 740). The ASU requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as additional information on income taxes paid. The ASU is effective on a prospective basis for annual periods beginning after December 15, 2024. Early adoption is permitted. This ASU will result in the required additional disclosures being included in our consolidated financial statements, once adopted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2025. Basis of presentation The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the applicable regulations of the U.S. Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted. Therefore, these unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and the related notes thereto as of and for the year ended December 31, 2023 included in our Annual Report on Form 10-K. Principles of consolidation The condensed consolidated financial statements include the accounts of Health Catalyst and its wholly-owned subsidiaries. Intercompany balances and transactions have been eliminated. Use of estimates The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, reserves for expected credit losses, useful lives of property and equipment, capitalization and estimated useful life of internal-use software, impairment assessments of goodwill, intangible assets, and other long-lived assets, fair value of financial instruments, deferred tax assets, stock-based compensation, contingent consideration, the period of benefit for deferred contract acquisition costs, the incremental borrowing rate used for operating leases, and tax uncertainties. Actual results could differ significantly from those estimates. Segment reporting Operating segments are identified as components of an enterprise about which separate discrete financial information is evaluated by the chief operating decision maker (CODM) in assessing performance and making decisions regarding resource allocation. We operate our business in two operating segments that also represent our reportable segments. Our segments are (1) technology and (2) professional services. The CODM uses Adjusted Gross Profit (defined as revenue less cost of revenue that excludes depreciation, amortization, stock-based compensation expense, and certain other operating expenses) as the measure of our profit. 2 2 Net loss per share Basic net loss per share is calculated by dividing net loss by the weighted average number of shares of common stock outstanding. Diluted net loss per share is calculated by giving effect to all potentially dilutive common stock equivalents outstanding for the period, when dilutive. For purposes of this calculation, stock options, restricted stock units (RSUs), performance-based restricted stock units (PRSUs), convertible senior notes, restricted shares, and purchase rights committed under the employee stock purchase plan are considered to be common stock equivalents but have been excluded from the calculation of diluted net loss per share attributable to common stockholders as the effect is anti-dilutive. Revenue recognition We derive our revenue primarily from technology subscriptions and professional services. We determine revenue recognition by applying the following steps: •Identification of the contract, or contracts, with a client; •Identification of the performance obligations in the contract; •Determination of the transaction price; •Allocation of the transaction price to the performance obligations in the contract; and •Recognition of revenue when, or as, we

satisfy the performance obligation. We recognize revenue net of any taxes collected from clients and subsequently remitted to governmental authorities. Technology revenue Technology revenue primarily consists of subscription fees charged to clients for access to use our technology. We provide clients access to our technology through either an all-access or limited-access, modular subscription. The majority of our subscription arrangements are cloud-based and do not provide clients the right to take possession of the technology or contain a significant penalty if the client were to take possession of the technology. Revenue from cloud-based subscriptions is recognized ratably over the contract term beginning on the date that the service is made available to the client. Our subscription contracts generally have a three- or five-year term, of which many are terminable after one year upon 90 days' notice. Subscriptions that allow the client to take software on-premise without significant penalty are treated as time-based licenses. These arrangements generally include access to technology, access to unspecified future products, and maintenance and support. Revenue for upfront access to our technology library is recognized at a point in time when the technology is made available to the client. Revenue for access to unspecified future products included in time-based license subscriptions is recognized ratably over the contract term beginning on the date that the access is made available to the client. Professional services revenue Professional services revenue primarily includes data and analytics services, domain expertise services, Tech-enabled Managed Services, and implementation services. Professional services arrangements typically include a fee for making full-time equivalent (FTE) services available to our clients on a monthly basis. FTE services generally consist of a blend of analytic engineers, analysts, and data scientists based on the domain expertise needed to best serve our clients. Professional services are typically considered distinct from the technology offerings and revenue is generally recognized as the service is provided using the "right to invoice" practical expedient. Contracts with multiple performance obligations Many of our contracts include multiple performance obligations. We account for performance obligations separately if they are capable of being distinct within the context of the contract. In these circumstances, the transaction price is allocated to separate performance obligations on a relative standalone selling price basis. We determine standalone selling prices based on the observable price a good or service is sold for separately when available. In cases where standalone selling prices are not directly observable, based on information available, we utilize the expected cost plus a margin, adjusted market assessment, or residual estimation method. We consider all information available including our overall pricing objectives, market conditions, and other factors, which may include client demographics and the types of users. Standalone selling prices are not directly observable for our all-access and limited-access technology arrangements, which are composed of cloud-based subscriptions, time-based licenses, and perpetual licenses. For these technology arrangements, we generally use the residual method due to a limited number of standalone transactions and/or prices that are highly variable. Variable consideration We have also entered into at-risk and shared savings arrangements with certain clients whereby we receive variable consideration based on the achievement of measurable improvements that may include cost savings or performance against metrics. For these arrangements, we estimate revenue using the most likely amount that we will receive. Estimates are based on our historical experience and best judgment at the time to the extent it is probable that a significant reversal of revenue recognized will not occur. Due to the nature of our arrangements, certain estimates may be constrained until the uncertainty is further resolved. Contract balances Contract assets resulting from services performed prior to invoicing clients are recorded as unbilled accounts receivable and are presented on our condensed consolidated balance sheets in aggregate with accounts receivable. Unbilled accounts receivable generally become billable at contractually specified dates or upon the attainment of contractually defined milestones. As of June 30, 2024 and December 31, 2023, the unbilled accounts receivable included in accounts receivable on our condensed consolidated balance sheets was $6.5 million and $4.7 million, respectively. We record contract liabilities as deferred revenue when cash payments are received or due in advance of performance. Deferred revenue primarily relates to the advance consideration received from the client. As of June 30, 2024 and December 31, 2023, the total of current and non-current deferred revenue on our condensed consolidated balance sheets was $56.4 million and $55.8 million, respectively. Deferred costs We capitalize sales commissions and associated fringe costs, such as benefits and payroll taxes, paid to direct sales personnel and other incremental costs of obtaining contracts with clients, provided we expect to recover those costs. We determine that costs should be deferred based on our sales compensation plans when the commissions are incremental and would not have occurred absent the client contract. As of June 30, 2024 and December 31, 2023, $2.2 million and $2.2 million, respectively, of deferred contract acquisition costs are expected to be amortized within the next 12 months and are included in prepaid expenses and other assets on the condensed consolidated balance sheets. As of June 30, 2024 and December 31, 2023, the remaining $2.9 million and $3.3 million, respectively, of deferred contract acquisition costs are included in non-current other assets. Commissions paid upon the initial acquisition of a contract are amortized on a straight-line basis over an estimated period of benefit of four years. Amortization is recognized on a straight-line basis commensurate with the pattern of revenue recognition. The period of benefit was estimated by considering factors such as estimated average client life, the rate of technological change in our subscription service, and the impact of competition in our industry. As our average client life significantly exceeded the rate of change in our technology, we concluded that the rate of change in the technology underlying our subscription service was the most significant factor in determining the period of benefit for which the asset relates. In evaluating the rate of change in our technology, we considered the competition in our industry, our commitment to continuous innovation, and the frequency of product, platform, and technology updates. We determined that the impact of competition in our industry is reflected in the period of benefit through the rate of technological change. Amortization of deferred contract acquisition costs was $0.6 million and $0.5 million for the three months ended June 30, 2024 and 2023, respectively, and $1.3 million and $1.0 for the six months ended June 30, 2024 and 2023, respectively, and is included within sales and marketing expense in the condensed consolidated statements of operations. We defer certain costs to fulfill a contract when the costs are expected to be recovered, are directly related to in-process contracts, and enhance resources that will be used in satisfying performance obligations in the future. These deferred fulfillment costs primarily consist of employee compensation incurred as part of the implementation of new contracts. Amortization of deferred fulfillment costs is included within cost of revenue in the condensed consolidated statements of operations. We periodically review these deferred costs to determine whether events or changes in circumstances have occurred that could impact the period of benefit. There were no impairment losses recorded during the periods presented. Cost of revenue, excluding depreciation and amortization Cost of technology revenue primarily consists of costs associated with hosting and supporting our technology, including third-party cloud computing and hosting costs, license and revenue share fees, contractor costs, and salary and related personnel costs for our cloud services and support teams. Cost of professional services revenue primarily consists of salary and related personnel costs, travel-related costs, and independent contractor costs. Cost of revenue in the interim condensed consolidated statements of operations excludes costs related to depreciation and amortization. P5Y P1Y P90D 6500000 4700000 56400000 55800000 2200000 2200000 P12M 2900000 3300000 P4Y 600000 500000 1300000 1000000.0 0 0 0 0 0 Cash and cash equivalents We consider all highly liquid investments purchased with a remaining maturity of three months or less at the time of acquisition to be cash equivalents. Short-term investments Our investment policy limits investments to highly-rated instruments. We classify and account for our short-term investments as available for sale securities as we may sell these securities at any time for use in our current operations or for other purposes, even prior to maturity. As a result, we classify our short-term investments, including securities with contractual maturities beyond twelve months, within current assets in the condensed consolidated balance sheets. Accounts receivable Accounts receivable are non-interest bearing and are recorded at the original invoiced amount less an allowance for credit losses based on the probability of future collections. Our allowance is based on our estimate of expected credit losses for outstanding trade accounts receivables and unbilled receivables. We determine expected credit losses based on historical write-off experience, an analysis of the aging of outstanding receivables, client payment patterns, the establishment of specific reserves for clients in an adverse financial condition, and our expectations of changes in macroeconomic conditions, including high interest rates and high inflation, that may impact the collectability of outstanding receivables. We reassess the adequacy of the allowance for credit losses each reporting period. The following table presents a rollforward of the allowance for credit losses (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:46.175%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.560%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.562%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended June 30,</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended June 30,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-

Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#ffffff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">3,800 </td><td style="background-color:#ffffff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> 6500000 3800000 4105000 2300000 1033000 13000 3438000 1527000 933000 13000 943000 27000 6600000 3800000 6600000 3800000 Leases We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (ROU) assets and operating lease liabilities in our condensed consolidated balance sheets. We have adopted the short-term lease recognition exemption policy. All of our leasing commitments are classified either as operating leases or otherwise qualify as short-term leases with lease terms of 12 months or less. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. As our lease contracts do not have a readily determinable implicit rate, we use our incremental borrowing rate based on the information available at the commencement date to determine the present value of lease payments. The incremental borrowing rate is the estimated rate incurred to borrow on a collateralized basis over a similar term and amount equal to the lease payments in a similar economic environment. The operating lease ROU asset also includes any lease payments made and excludes lease executory costs. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise the applicable option. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Variable costs related to our leased office space, such as maintenance and utilities based on actual usage, are not included in the measurement of right-of-use assets and lease liabilities, but are expensed as incurred. Property and equipment Property and equipment are stated at historical cost less accumulated depreciation. Repairs and maintenance costs that do not extend the useful life or improve the related assets are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The estimated useful life of each asset category is as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer equipment</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-3 years </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Furniture and fixtures</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 3-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Leasehold improvements</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:right;vertical-align:bottom">Lesser of lease term or estimated useful life</td></tr></table> <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer software</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Capitalized internal-use software costs</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr></table> When there are indicators of potential impairment, we evaluate the recoverability of the carrying values by comparing the carrying amount of the applicable asset group to the estimated undiscounted future cash flows expected to be generated by the asset group over the remaining useful life of the primary asset, plus any terminal value, in the asset group. If the carrying amount of the asset group exceeds those estimated future net cash flows, an impairment charge is recognized based on the amount by

which the carrying value of the long-lived assets exceeds the fair value of the assets. The estimated useful life of each asset category is as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer equipment</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-3 years </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Furniture and fixtures</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 3-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Leasehold improvements</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:right;vertical-align:bottom">Lesser of lease term or estimated useful life</td></tr></table> <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:56.111%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:41.689%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Computer software</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Capitalized internal-use software costs</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 2-5 years </td></tr></table> Property and equipment consisted of the following (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:70.214%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.842%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.843%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">As of

Goodwill includes the know-how of the assembled workforce, the ability of the workforce to further improve technology and product offerings, client relationships, and the expected cash flows resulting from these efforts. Goodwill may also include expected synergies resulting from the complementary strategic fit these businesses bring to existing operations. Goodwill is assessed for impairment annually on October 31 or more frequently if indicators of impairment are present or circumstances suggest that impairment may exist. Our first step in the goodwill impairment test is a qualitative analysis of factors that could be indicators of potential impairment. Judgment in the assessment of qualitative factors of impairment may include changes in business climate, market conditions, or other events impacting the reporting unit. Next, if a quantitative analysis is necessary, we compare the fair value of the reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, the goodwill of the reporting unit is not considered impaired. Performing a quantitative goodwill impairment test includes the determination of the fair value of a reporting unit, which requires management to use significant judgment and estimation. The significant estimation is primarily due to the judgmental nature of the inputs to the valuation models used to measure the fair value of the reporting units, as well as the sensitivity of the respective fair values to the underlying significant assumptions. Typical methods to derive the fair value of reporting units include using the income or market approaches. The significant assumptions used to form the basis of the estimates include, among others, the selection of valuation methodologies, estimates of expected revenue, including revenue growth rates, and operating margins used to calculate projected future cash flows, risk-adjusted discount rates, and the selection of appropriate market comparable companies. Many of these significant assumptions are forward-looking and could be affected by future economic and market conditions. If a quantitative analysis is necessary, we typically engage the assistance of a valuation specialist in concluding on fair value measurements in connection with determining the fair values of our reporting units. If the carrying amount of the reporting unit exceeds its fair value, we would recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. 0 0 0 0 Business combinations The results of businesses acquired in a business combination are included in our condensed consolidated financial statements from the date of the acquisition. Purchase accounting results in assets and liabilities of an acquired business generally being recorded at their estimated fair value on the acquisition date. Any excess consideration transferred over the fair value of the identifiable assets acquired and liabilities assumed is recognized as goodwill. We perform valuations of assets acquired and liabilities assumed on each acquisition accounted for as a business combination in order to record the tangible and intangible assets acquired and liabilities assumed based on our best estimate of fair value. Determining the fair value of assets acquired and liabilities assumed requires management to use significant judgment and estimates including the selection of valuation methodologies, estimates of future revenue and cash flows, discount rates, and selection of comparable companies. Significant estimation is required in determining the fair value of the client-related intangible assets and technology-related intangible assets. The significant estimation is primarily due to the judgmental nature of the inputs to the valuation models used to measure the fair value of these intangible assets, as well as the sensitivity of the respective fair values to the underlying significant assumptions. We typically use the income approach or cost approach to measure the fair value of intangible assets. The significant assumptions used to form the basis of the estimates included the number of engineer hours required to develop technology, expected revenue including revenue growth rates, rate and timing of obsolescence, royalty rates and earnings before interest, taxes, depreciation and amortization (EBITDA) margin used in the estimate for client relationships, and backlog. Many of these significant assumptions were forward-looking and could be affected by future economic and market conditions. We engage the assistance of valuation specialists in concluding on fair value measurements in connection with determining fair values of material assets acquired and liabilities assumed in a business combination. Contingent consideration liabilities Our acquisition consideration in business combinations may include an estimate for contingent consideration that will be paid if certain earn-out performance targets are met. The resulting contingent consideration liabilities are categorized as a Level 3 fair value measurement because we estimate projections during the earn-out period utilizing unobservable inputs, including various potential pay-out scenarios based on billings and revenue-related earn-out targets. Changes to the unobservable inputs could have a material impact on our condensed consolidated financial statements. We generally value the expected contingent consideration and the corresponding liabilities using the Monte Carlo method or Black-Scholes model based on estimates of potential payment scenarios. Probabilities are applied to each potential scenario and the resulting values are discounted using a rate that considers weighted average cost of capital as well as a specific risk premium associated with the riskiness of the earn-out itself, the related projections, projected payment dates, and volatility in the fair value of our common stock. The fair value of the contingent consideration is remeasured each reporting period. The portion of the contingent consideration liabilities that will be settled in shares of our common stock is classified as a component of non-current liabilities in our condensed consolidated balance sheets, while the portion to be paid in cash is classified as a component of current liabilities. Changes to the contingent consideration liabilities are reflected as part of general and administrative expense in our condensed consolidated statements of operations. 2100000 2500000 0 0 Advertising costs All advertising costs are expensed as incurred. 300000 1000000.0 3700000 1200000 Development costs and internal-use software For technology products that are developed to be sold externally, we determined that technological feasibility is reached shortly before the products are ready for general release. Any costs associated with software development between the time technological feasibility is reached and general release are inconsequential. We capitalize certain development costs incurred in connection with our internal-use software. These capitalized costs are primarily related to the software platforms that are hosted by us and accessed by our clients on a subscription basis. Costs incurred in the preliminary stages of development are expensed as incurred as research and development costs. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized until the software is substantially complete and ready for its intended use. We also capitalize costs related to specific upgrades and enhancements when it is probable the expenditures will result in additional functionality. Capitalized costs are recorded as part of property and equipment. Maintenance and training costs are expensed as incurred. Internal-use software is amortized on a straight-line basis over its estimated useful life with amortization included in depreciation and amortization expense in our condensed consolidated statements of operations. Stock-based compensation Stock-based awards, including stock options, restricted stock units, performance-based restricted stock units, and restricted shares are measured and

recognized in our condensed consolidated financial statements based on the fair value of the award on the grant date or, when applicable, the modification date. The grant date fair value of our stock-based awards is typically determined using the market closing price of our common stock on the date of grant; however, we also consider whether any adjustments are required when the market closing price does not reflect certain material non-public information that we know but is unavailable to marketplace participants on the date of grant. We record forfeitures of stock-based awards as the actual forfeitures occur. For awards subject to performance conditions, we record expense when the performance condition becomes probable. Each reporting period we evaluate the probability of achieving the performance criteria, estimate the number of shares that are expected to vest, and adjust the related compensation expense accordingly. For awards subject to market conditions, we estimate the fair value as of the grant date using a Monte Carlo simulation valuation model which requires the use of various assumptions, including historic stock price volatility and risk-free interest rates as of the valuation date corresponding to the length of time remaining in the performance period. Stock-based compensation expense for awards with market conditions is recognized over the requisite service period using the accelerated attribution method and is not reversed if the market condition is not met. Stock-based compensation expense related to purchase rights issued under the 2019 Health Catalyst Employee Stock Purchase Plan (ESPP) is based on the Black-Scholes option-pricing model fair value of the estimated number of awards as of the beginning of the offering period. Stock-based compensation expense is recognized using the straight-line method over the offering period. The measurement date for non-employee awards is the date of grant. The compensation expense for non-employees is recognized, without changes in the fair value of the award, in the same period and in the same manner as though we had paid cash for the services, which is typically the vesting period of the respective award. Restructuring costs We define restructuring costs as expenses directly associated with restructuring activities. Such costs include severance and related tax and benefit expenses from workforce reductions, impairment of discontinued capitalized software projects, and other miscellaneous charges. We record team member-related severance costs when there is a substantive plan in place and the related costs are probable and estimable. For one-time termination benefits for team members (i.e., no substantive plan or future service requirement), the cost is recorded when the terms of the one-time termination benefits are communicated to the impacted team members and the amount can be reasonably estimated. Income taxes Deferred income tax balances are accounted for using the asset and liability method and reflect the effects of temporary differences between the financial reporting and tax bases of our assets and liabilities using enacted tax rates expected to apply when taxes are actually paid or recovered. In addition, deferred tax assets and liabilities are recorded for net operating loss (NOL) and tax credit carryforwards. A valuation allowance is provided against deferred tax assets unless it is more likely than not that they will be realized based on all available positive and negative evidence. Such evidence includes, but is not limited to, recent cumulative earnings or losses, expectations of future taxable income by taxing jurisdiction, and the carry-forward periods available for the utilization of deferred tax assets. We use a two-step approach to recognize and measure uncertain income tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained upon audit. The second step is to measure the tax benefit as the largest amount, which is more than 50% likely of being realized upon ultimate settlement. We do not currently accrue interest and penalties related to unrecognized tax benefits within the provision for income taxes because the impact would be immaterial due to our net operating losses and tax credit carryforwards. Significant judgment is required to evaluate uncertain tax positions. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We evaluate our uncertain tax positions on a regular basis and evaluations are based on a number of factors, including changes in facts and circumstances, changes in tax law, correspondence with tax authorities during the course of an audit, and effective settlement of audit issues. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and results of operations. Fair value of financial instruments The carrying amounts reported in our condensed consolidated balance sheets for cash, receivables, accounts payable, and current accrued expenses approximate fair values because of the immediate or short-term maturity of these financial instruments. The carrying value of operating lease liabilities and convertible senior notes approximate fair value based on interest rates available for debt with similar terms at June 30, 2024 and December 31, 2023. Money market funds and short-term investments are measured at fair value on a recurring basis. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement: •Level 1- Quoted prices in active markets for identical assets or liabilities. •Level 2- Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. •Level 3- Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability. All of our financial instruments are valued using quoted prices in active markets or based on other observable inputs. For Level 2 securities, we use a third-party pricing service which provides documentation on an ongoing basis that includes, among other things, pricing information with respect to reference data, methodology, inputs summarized by asset class, pricing application, and corroborative information. Our contingent consideration liabilities are categorized as a Level 3 fair value measurement because we estimate projections during the earn out period utilizing various potential pay-out scenarios. Foreign currency The functional currency of our international subsidiaries is generally their local currency. We translate these subsidiaries' financial statements into U.S. dollars using month-end exchange rates for assets and liabilities and average exchange rates for revenue and expenses. We record translation gains and losses in accumulated other comprehensive loss in stockholders' equity. We record foreign exchange gains and losses in interest and other expense, net. Our net foreign exchange gains and losses were not material for the periods presented. Recent accounting pronouncements not yet adopted In November 2023, the Financial Accounting Standards Board (FASB) issued ASU No. 2023-07, Improvements to Reportable Segment Disclosures (Topic 280). This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the CODM and included within each reported measure of a segment's profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. The ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Adoption of the ASU should be applied retrospectively to all prior periods presented in the financial statements. Early adoption is permitted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2024. In December 2023, the FASB issued ASU No. 2023-09, Improvements to Income Tax Disclosures (Topic 740). The ASU requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as additional information on income taxes paid. The ASU is effective on a prospective basis for annual periods beginning after December 15, 2024. Early adoption is permitted. This ASU will result in the required additional disclosures being included in our consolidated financial statements, once adopted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2025. Business Combinations The business acquisition discussed below is included in our results of operations from the date of acquisition. 2024 Acquisition of Carevive Systems, Inc. On May 24, 2024, we acquired Carevive Systems, Inc. (Carevive), a leading oncology-focused health technology company centered on understanding and improving the experience of patients with cancer. We accounted for the acquisition of Carevive as a business combination. Oncology providers and life science researchers use Carevive's flagship platform and/or Carevive data in routine clinical practice for treatment care planning, clinical trial screening, care coordination, remote patient monitoring, and/or post-treatment care. The acquisition consideration transferred was $22.1 million and was comprised of estimated net cash consideration of $18.6 million, Health Catalyst common shares with a fair value of $2.6 million, and contingent consideration based on certain earn-out performance targets for Carevive during an earn-out period ending on June 30, 2025, with an initial fair value of $0.9 million. The purchase resulted in Health Catalyst acquiring 100% ownership in Carevive. The following table summarizes the preliminary acquisition-date fair value of consideration transferred and the identifiable assets purchased and liabilities assumed as part of our acquisition of Carevive (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:96.153%"><tr><td style="width:1.0%"></td><td style="width:84.400%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.400%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Assets acquired:</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt 2px 7.75pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-

0;text-align:right;vertical-align:bottom"></td></tr></table> The acquired intangible assets were valued utilizing either an income approach or a cost approach as deemed most applicable, and include client relationships, developed technology, and trademarks that will be amortized on a straight-line basis over their estimated useful lives of seven years, four years, and three years, respectively. The resulting goodwill from the Carevive acquisition was fully allocated to the technology reporting unit and is not deductible for income tax purposes. The preliminary allocation of the consideration transferred is subject to potential adjustments. Balances subject to adjustment are primarily tax-related matters, including the tax basis of assets acquired and liabilities assumed. During the measurement period, we may record adjustments to the provisional amounts recognized in our initial accounting for the acquisition. We expect the allocation of the consideration transferred to be final within the measurement period (up to one year from the acquisition date). There were no measurement period adjustments recorded during the three months ended June 30, 2024. Pro forma financial information has not been presented for the Carevive acquisition as the impact to our consolidated financial statements was not material. The amount of revenue attributable to the acquired business of Carevive was not material to our consolidated statement of operations for the three and six months ended June 30, 2024. Income (loss) information for Carevive after the acquisition date through June 30, 2024 is not presented as the Carevive business was integrated into our operations immediately following the acquisition and is impracticable to quantify. In addition to the purchase price, we agreed to make cash retention payments in an aggregate amount of up to $1.8 million to continuing Carevive team members, a portion of which is variable based upon the achievement of earn-out performance targets. The retention payments are generally subject to vesting based upon continued employment over a required service period. Such amounts are recorded as post-combination compensation expense and recognized on a straight-line basis over the relevant vesting terms. During the three months ended June 30, 2024, we recognized compensation expense of $0.8 million related to these retention payments. 2023 Acquisition of Electronic Registry Systems, Inc. On October 2, 2023, we acquired Electronic Registry Systems, Inc. (ERS), a cloud-based provider of clinical registry development and data management software based in Cincinnati, Ohio. We accounted for the acquisition of ERS as a business combination. ERS provides cancer registry compliance and informatics services to enable customers to achieve their cancer center clinical and business objectives with a goal of improving cancer care for every patient, including through its CRStar platform. The acquisition consideration transferred comprised of net cash consideration of $11.4 million. The purchase resulted in Health Catalyst acquiring 100% ownership in ERS.</div><div style="margin-bottom:9pt;text-align:justify;text-indent:18pt">An additional 175,901 shares of our common stock subject to a restriction agreement (restricted shares) were issued pursuant to the terms of the acquisition agreement. The vesting of these restricted shares was originally subject to eighteen months of continued employment with cliff vesting upon the eighteen-month anniversary of the acquisition close date. The value of these restricted shares was originally scheduled to be recognized as post-combination stock-based compensation expense on a straight-line basis over the vesting term, but due to workforce reductions made as part of the 2023 Restructuring Plan (as defined below), the ERS restricted shares fully vested in February 2024, resulting in an acceleration of the related stock-based compensation expense. Refer to Note 13-Stock-Based Compensation for additional details related to our stock-based compensation.</div><div style="margin-bottom:9pt;margin-top:9pt;text-align:justify;text-indent:18pt">The following table summarizes the preliminary acquisition-date fair value of consideration transferred and the identifiable assets purchased and liabilities assumed as part of our acquisition of ERS (in thousands):</div><div style="margin-bottom:9pt;margin-top:6pt;text-align:justify"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:84.957%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.843%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Assets acquired:</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt 2px 7.75pt;text-align:left;vertical-align:bottom">Accounts receivable</td><td style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#ffffff;padding:2px 0;text-align:right;vertical-align:bottom">478 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt 2px 7.75pt;text-align:left;vertical-align:bottom">Prepaid expenses and other assets</td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">73 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt 2px 7.75pt;text-align:left;vertical-align:bottom">Client

Deferred Revenue and Performance Obligations Deferred revenue includes advance client payments and billings in excess of revenue recognized. For the three months ended June 30, 2024 and 2023, 44% and 50%, respectively, of the revenue recognized was included in deferred revenue at the beginning of the period. For the six months ended June 30, 2024 and 2023, 28% and 30%, respectively, of the revenue recognized was included in deferred revenue at the beginning of the period. Most of our technology and professional services contracts have a three- or five-year term, of which many are terminable after one year upon 90 days' notice. For arrangements that do not allow the client to cancel within one year or less, we expect to recognize $310.4 million of revenue on unsatisfied performance obligations as of June 30, 2024. We expect to recognize approximately 65% of the remaining performance obligations over the next 24 months, with the balance recognized thereafter. <div Depreciation expense totaled $3.1 million and $3.2 million for the three months ended June 30, 2024 and 2023, respectively, and $6.4 million and $6.4 million for the six months ended June 30, 2024 and 2023, respectively. Depreciation expense includes the amortization of capitalized internal-use software costs. During each of the six months ended June 30, 2024 and 2023, we impaired $0.7 million of leasehold improvements related to our corporate office space designated for subleasing. Refer to Note 9 for additional details. We capitalized $3.6 million and $3.2 million of internal-use software costs for the three months ended June 30, 2024 and 2023, respectively, and $6.4 million and $6.6 million for the six months ended June 30, 2024 and 2023, respectively. We incurred $2.3 million and $2.1 million of capitalized internal-use software cost amortization expense for the three months ended June 30, 2024 and 2023, respectively, and $4.7 million and $4.3 million for the six months ended June 30, 2024 and 2023, respectively. 9649000 9638000 8247000 8814000 3735000 3735000 37106000 30771000 111000 111000 58848000 53069000 33293000 27357000 25555000 25712000 3100000 3200000 6400000 6400000 700000 700000 3600000 3200000 6400000 6600000 2300000 2100000 4700000 4300000 Short-term Investments We classify our short-term investments as available for sale. Available-for-sale securities are recorded on our condensed consolidated balance sheets at fair market value and any unrealized gains or losses are reported as part of other comprehensive loss on the condensed consolidated statements of comprehensive loss. We determine realized gains or losses on the sales of investments through the specific identification method and record such gains or losses as part of interest and other expense, net on the condensed consolidated statements of operations. We did not have any material realized gains or losses on investments during the three and six months ended June 30, 2024 and 2023. We measure the fair value of investments on a recurring

basis. The following table summarizes, by major security type, our cash equivalents and short-term investments that are measured at fair value on a recurring basis as of June 30, 2024 (in thousands): <table related to our available-for-sale securities of $1.2 million and $0.9 million as of June 30, 2024 and December 31, 2023,

respectively, were included within prepaid expenses and other assets on our condensed consolidated balance sheets.
 On a quarterly basis we evaluate unrealized losses on our available-for-sale debt securities and the related accrued interest receivables to determine whether a decline in the fair value below the amortized cost basis is due to credit-related factors or noncredit-related factors. We do not intend to sell investments that are in an unrealized loss position and it is not likely that we will be required to sell any investments before recovery of their amortized cost basis. As of June 30, 2024 and December 31, 2023, there were no material unrealized losses due to expected credit loss-related factors. The following table summarizes, by major security type, our cash equivalents and short-term investments that are measured at fair value on a recurring basis as of June 30, 2024 (in thousands): <table between Level 1 and Level 2 of the fair value measurement hierarchy during the three and six months ended June 30, 2024 and 2023. Convertible senior notes As of June 30, 2024 and December 31, 2023, the estimated fair value of our convertible senior notes, with aggregate principal totaling $230.0 million, was $225.4 million and $218.7 million, respectively. We estimate the fair value based on quoted market prices in an inactive market on the last trading day of the reporting period (Level 2). These convertible senior notes are recorded at face value less unamortized debt discount and transaction costs on our condensed consolidated balance sheets. Refer to Note 10—Convertible Senior Notes for further information. Nonrecurring fair value measurements <span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-

weight:400;line-height:120%">We recorded impairment charges of $2.2 million and $2.7 million related to the impairment of ROU assets and leasehold improvements associated with office space designated for subleasing during the six months ended June 30, 2024 and 2023. These impairment charges were derived from the difference between the carrying value and the fair value of the relevant asset groups. The fair value of these asset groups was estimated using a discounted cash flow analysis of the office space designated for subleasing and included certain unobservable (Level 3) inputs, including the anticipated future sublease terms and rates. Level 3 fair value measurements The Carevive acquisition consideration included an initial estimate for contingent consideration based on certain revenue-based earn-out performance targets for Carevive during an earn-out period that ends on June 30, 2025. The Carevive contingent consideration is capped at $10 million and will be paid in cash to the extent achieved. We value Carevive's expected contingent consideration and the corresponding liability using the Black-Scholes valuation method based on estimates of potential pay-out scenarios. </div><div style="margin-bottom:9pt;margin-top:12pt;text-align:justify;text-indent:18pt">The outstanding contingent consideration liability is categorized as Level 3 fair value measurements and is remeasured as of each reporting period. The aggregate intrinsic value of the revenue-based earn-out contingent consideration liability is zero based on a point estimate of our internal forecasting of the ultimate earn-out that will be earned as of June 30, 2024. The recurring Level 3 fair value measurements of the contingent consideration liability include the other following significant inputs: </div><div style="text-align:justify"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:28.226%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.521%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.919%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.278%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.034%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.996%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.680%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Valuation Method</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-bottom:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Fair Value</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-bottom:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Market Price of Revenue Risk</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-bottom:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Revenue Volatility</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Expected Term (years)</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Risk-free interest rate</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="21" style="background-color:#ffffff;border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:1pt solid #000;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Revenue-based earn-out liability</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Black-Scholes</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">0.9 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom">million</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">9.1%</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">20%</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">1.4</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">5.2%</td></tr></table>

During the six months ended June 30, 2024 and 2023, we identified asset impairment indicators for multiple of our corporate office spaces designated for subleasing. We performed a recoverability test of the relevant asset group, comprised of operating lease ROU and other related assets, and determined that the carrying value of this asset group was not fully recoverable. As a result, we measured and recognized total impairment charges of $2.2 million and $2.7 million during the six months ended June 30, 2024 and 2023, respectively, representing the amount by which the carrying value exceeded the estimated fair value of this asset group. The impairment charges were recorded as part of general and administrative expense in our condensed consolidated statements of operations. During the six months ended June 30, 2024, $1.5 million of the impairment charge was allocated to ROU assets and the remaining $0.7 million was allocated to leasehold improvements, while during the six months ended June 30, 2023, $2.0 million of the impairment charge was allocated to ROU assets and the remaining $0.7 million was allocated to leasehold improvements.</div>During the three months ended June 30, 2024, we subleased parts of the first and fourth floors of our corporate headquarters. We classified these subleases as operating leases. The initial subleases have lease terms of 60 to 90 months. We performed a recoverability test of the relevant asset groups, comprised of operating lease right-of-use and other related assets, and determined that the carrying value of these asset groups were fully recoverable. The net proceeds from the issuance of the Notes were approximately $222.5 million, after deducting the initial purchasers' discounts and offering expenses payable by us. The Notes are governed by an indenture (the Indenture) between us, as the issuer, and U.S. Bank National Association, as trustee. The Notes are our senior, unsecured obligations and accrue interest payable semiannually in arrears on April 15 and October 15 of each year, beginning on October 15, 2020, at a rate of 2.50% per year. The Notes will mature on April 15, 2025, unless earlier converted, redeemed, or repurchased. The Indenture does not contain any financial or operating covenants or restrictions on the payments of dividends, the incurrence of indebtedness, or the issuance or repurchase of securities by us or any of our subsidiaries. On or after April 20, 2023, we may redeem, for cash, all or a portion of the Notes, at our option, if the last reported sale price of our common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive), including the trading day immediately preceding the date on which we provide notice of redemption, during any 30 consecutive trading day period ending on, and including, the trading day immediately preceding the date on which we provide notice of redemption at a redemption price equal to 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. No sinking fund is provided for the Notes. The Notes have an initial conversion rate of 32.6797 shares of our common stock per $1,000 principal amount of Notes (which is equivalent to an initial conversion price of approximately $30.60 per share of our common stock). Following certain corporate events that occur prior to the maturity date, we will increase the conversion rate for a holder who elects to convert its Notes in connection with such corporate event. Additionally, upon the occurrence of a corporate event that constitutes a "fundamental change" per the Indenture, holders of the Notes may require the Company to repurchase for cash all or a portion of their Notes at a purchase price equal to 100% of the principal amount of the Notes plus accrued and unpaid interest. Holders of the Notes may convert all or any portion of their Notes at any time prior to the close of business on October 14, 2024, in integral multiples of $1,000 principal amount, only under the following circumstances: •During any calendar quarter commencing after the calendar quarter ended on June 30, 2020 (and only during such calendar quarter), if the last reported sale price of our common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; •During the five business day period after any five consecutive trading day period (the measurement period) in which the trading price as defined in the Indenture per $1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day; </div><div style="margin-bottom:9pt;padding-left:36pt;text-align:justify;text-indent:-18pt">•If we call such notes for redemption, at any time prior to the close of business on the scheduled trading day immediately preceding the redemption date; or</div><div style="margin-bottom:12pt;padding-left:36pt;text-align:justify;text-indent:-18pt">•Upon the occurrence of specified corporate events described in the Indenture.</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">On or after October 15, 2024, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert all or any portion of their Notes at the conversion rate at any time irrespective of the foregoing circumstances. Upon conversion, holders will receive cash, shares of our common stock or a combination of cash and shares of common stock, at our election.</div><div style="margin-bottom:12pt;text-align:justify;text-indent:18pt">As of June 30, 2024, the conditions allowing holders of the Notes to convert were not met. The Notes are therefore not currently convertible. However, due to the April 2025 maturity date now being within twelve months, the Notes are classified as a current liability on our condensed consolidated balance sheet.</div><div Capped calls On April 8, 2020, concurrently with the pricing of the Notes, we entered into privately negotiated capped call transactions (Base Capped Calls) with certain option counterparties. In addition, in connection with the initial purchasers' exercise in full of their option to purchase additional Notes, on April 9, 2020, we entered into additional capped call transactions (together with the Base Capped Calls, the Capped Calls) with each of the option counterparties. We used approximately $21.7 million of the net proceeds from the Note Offering to pay the cost of the Capped Calls and allocated issuance costs. The Capped Calls have initial cap prices of $42.00 per share, subject to certain adjustments. The Capped Calls are expected generally to reduce the potential dilution to our common stock upon any conversion of Notes and/or offset any cash payments we are required to make in excess of the principal amount of converted Notes, as the case may be, with such reduction and/or offset subject to the cap price. </div><div style="margin-bottom:9pt;text-align:justify;text-indent:18pt">The Capped Calls are separate transactions that we entered into with the option counterparties, and are not part of the terms of the Notes. As the Capped Call transactions are considered indexed to our own stock and are considered equity classified, they were recorded in stockholders' equity and are not accounted for as derivatives. The cost incurred in connection with the Capped Calls was recorded as a reduction to additional paid-in capital on our condensed consolidated balance sheets.</div> 230000000 0.0250 222500000 0.0250 As of June 30, 2024 and December 31, 2023, no shares of this preferred stock were issued and outstanding. Common stock We had 500,000,000 shares of common stock, par value $0.001 per share, authorized, of which 60,075,178 and 58,530,880 shares were legally issued and outstanding as of June 30, 2024 and December 31, 2023, respectively. The shares legally issued and outstanding as of June 30, 2024 and December 31, 2023 included zero shares and 235,389 shares, respectively, issued pursuant acquisition agreements, which are subject to a restriction agreement and were unvested, and as such, for accounting purposes they were not considered to be outstanding common stock shares. Each share of common stock has the right to one vote on all matters submitted to a vote of stockholders. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the board of directors, subject to prior rights of holders of all classes of stock outstanding having priority rights as to dividends. No dividends have been declared or paid on our common stock through June 30, 2024.
 Share repurchase plan During the third quarter of 2022, our board of directors authorized a share repurchase program to repurchase up to $40.0 million of our outstanding shares of common stock (Share Repurchase Plan). There were no share repurchases during the first or second quarter of 2024. During the first quarter of 2023, we repurchased and retired 145,027 shares of our common stock for $1.8 million at an average purchase price of $12.45 per share. This is in addition to the 709,139 shares of common stock we repurchased and retired for $8.4 million at an average purchase price of $11.81 per share during the third quarter of 2022. The total remaining authorization for future shares of common stock repurchases under our Share Repurchase Plan is $29.8 million as of June 30, 2024.</div> 25000000 0 0 0 0 500000000 500000000 0.001 of directors adopted the Health Catalyst, Inc. 2011 Stock Incentive Plan (2011 Plan), which provided for the direct award, sale of shares, and granting of RSUs and options for our common stock to our directors, team members, or consultants. In connection with our initial public offering (IPO), our board of directors adopted the 2019 Stock Option and Incentive Plan (2019 Plan). The 2019 Plan provides flexibility to our compensation committee to use various equity-based incentive awards as compensation tools to motivate our workforce, including the grant of incentive and non-statutory stock options, restricted and unrestricted stock, RSUs, and stock appreciation rights to our directors, team members, or consultants. We initially reserved 2,756,607 shares of our common stock (2,500,000 under the 2019 Plan and 256,607 shares under the 2011 Plan) that were available immediately prior to the IPO registration date. The 2019 Plan provides that the number of shares reserved available for issuance under the plan will automatically increase each January 1, beginning on January 1, 2020, by 5% of the outstanding number of shares of our common stock on the immediately preceding December 31, or such lesser number of shares as determined by our compensation committee. As of January 1, 2024, there were an additional 2,926,544 shares reserved for issuance under the 2019 Plan. As of June 30, 2024 and December 31, 2023, there were 23,644,211 and 20,717,667 shares authorized for grant, respectively, and 4,865,662 and 3,831,444 shares available for grant under the 2019 Plan, respectively. The following two tables summarize our total stock-based compensation expense by award type and where the stock-based compensation expense was recorded in our condensed consolidated statements of operations (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:41.047%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.842%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.842%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.842%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.844%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended June 30,</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended June 30,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Restricted stock units</td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">8,067 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">11,837 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">16,410 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">22,940 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Performance-based restricted stock units</td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">637 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-

1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> During the six months ended June 30, 2024 and 2023, we granted RSUs with a weighted-average grant date fair value of $8.56 and $11.84, respectively, which represents the weighted-average closing price of our common stock on the grant date. The total grant date fair value of RSUs vested during the six months ended June 30, 2024 and 2023 was $18.5 million and $23.8 million, respectively. As of June 30, 2024, we had $48.5 million of unrecognized stock-based compensation expense related to outstanding RSUs expected to be recognized over a weighted-average period of 2.2 years. Performance-based restricted stock units (PRSUs) 2024 Executive PRSUs During the six months ended June 30, 2024, certain named executive officers and other leadership team members were granted executive PRSUs with a three-year measurement period that include service conditions, performance conditions, and market conditions. The vesting of these PRSUs will be determined based on market-based targets for total shareholder return (TSR) achievement (weighted 25%) and financial performance targets for revenue growth rate achievement (weighted 25%) and Adjusted EBITDA margin achievement (weighted 50%). These PRSUs may vest in an amount up to the amount granted, subject to satisfaction of the pre-established targets. The number of PRSUs that will vest for the 2024, 2025, and 2026 vesting periods will be calculated as follows: (i) the market/performance achievement for the applicable vesting period, multiplied by (ii) approximately 33.33% of the PRSUs for each of the 2024, 2025, and 2026 vesting periods, each rounded to the nearest whole share. 2023 Executive PRSUs During the six months ended June 30, 2024, certain named executive officers and other leadership team members were granted executive PRSUs with a three-year measurement period that include service conditions, performance conditions, and market conditions. The vesting of these PRSUs will be determined based on market-based targets for total shareholder return (TSR) achievement and financial performance targets for revenue growth rate achievement and Adjusted EBITDA margin achievement. Each of the three market and performance targets are weighted equally and these PRSUs may vest in an amount up to the amount granted, subject to satisfaction of the pre-established targets. The number of PRSUs that will vest in 2023, 2024, and 2025 will be calculated as follows: (i) the market/performance achievement for the applicable vesting period, multiplied by (ii) approximately 33.33% of the PRSUs for each of the 2023, 2024, and 2025 vesting periods, each rounded to the nearest whole share. The fair value of the market-based tranches included in the executive PRSUs were estimated on the date of grants using the Monte Carlo simulation valuation model with the following assumptions for the six months ended June 30, 2024 and 2023: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:63.643%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:16.207%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:1.0%"></td><td style="width:16.209%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended

 During the six months ended June 30, 2024 and 2023, we granted PRSUs with a weighted-average grant date fair value of $9.45 and $12.62, respectively, which represents the weighted-average closing price of our common stock on the grant date for performance-based tranches and the estimated grant date fair value using a Monte Carlo simulation valuation model for market-based tranches. The total grant date fair value of PRSUs vested during the six months ended June 30, 2024 and 2023 was $0.6 million and $4.8 million, respectively. As of June 30, 2024, we had $3.4 million of unrecognized stock-based compensation expense related to outstanding PRSUs expected to be recognized over a remaining weighted-average period of 1.7 years. Employee stock purchase plan In connection with our IPO in July 2019, our board of directors adopted the ESPP and a total of 750,000 shares of common stock were initially reserved for issuance under the ESPP. The number of shares of common stock available for issuance under the ESPP will be increased on the first day of each calendar year beginning January 1, 2020 and each year thereafter until the ESPP terminates. The number of shares of common stock reserved and available for issuance under the ESPP shall be cumulatively increased by the least of (i) 750,000 shares, (ii) one percent of the number of shares of common stock issued and outstanding on the immediately preceding December 31, and (iii) such lesser number of shares of common stock as determined by the ESPP Administrator. As of January 1, 2024, the number of shares of common stock available for issuance under the ESPP increased by 585,308 shares. The ESPP generally provides for six-month offering periods. The offering periods generally start on the first trading day after June 30 and December 31 of each year. The ESPP permits participants to elect to purchase shares of common stock through fixed percentage contributions from eligible compensation during each offering period, not to exceed 15% of the eligible compensation a participant receives during an offering period or accrue at a rate which exceeds $25,000 of the fair value of the stock (determined on the option grant date(s)) for each calendar year. A participant may purchase the lowest of (i) a number of shares of common stock determined by dividing such participant's accumulated payroll deductions on the exercise date by the option price, (ii) 2,500 shares, or (iii) such other lesser maximum number of shares as shall have been established by the ESPP Administrator in advance of the offering period. Amounts deducted and accumulated by the participant will be used to purchase shares of common stock at the end of each offering period. The purchase price of the shares will be 85% of the lower of the fair value of common stock on the first trading day of each offering period or on the purchase date. Participants may end their participation at any time during an offering period and will be paid their accumulated contributions that have not been used to purchase shares of common stock. Participation ends automatically upon termination of employment. The fair value of the purchase right for the ESPP option component is estimated on the date of grant using the Black-Scholes model with the following assumptions for the three months ended June 30, 2024 and 2023: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:68.611%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.643%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.601%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.645%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended June 30,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000;border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Expected volatility</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 55.5% </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">99.4%</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Expected term (in months)</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">6</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">6</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Risk-free interest rate</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> <span style="color:#000000;font-

P18M P18M 175901 P18M P18M Income Taxes* The tax provision for interim periods is determined using an estimate of our annual effective tax rate, adjusted for discrete items, if any, that arise during the period. Each quarter, we update our estimate of the annual effective tax rate, and if the estimated annual effective tax rate changes, we make a cumulative adjustment in such period. The quarterly tax provision and the estimate of our annual effective tax rate are subject to variation due to several factors, including variability in our loss before income taxes, the mix of jurisdictions to which such income or loss relates, changes in how we conduct business, and tax law developments. For the six months ended June 30, 2024 and 2023, our estimated effective tax rate was (0.5)% and (0.2)%, respectively. The variations between our estimated effective tax rate and the U.S. statutory rate are primarily due to our full valuation allowance. <span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-

height:120%">We consider all available evidence to evaluate the recovery of deferred tax assets, including historical levels of income, legislative developments, and risks associated with estimates of future taxable income. We have provided a full valuation allowance for our net deferred tax assets as of June 30, 2024 and December 31, 2023, due to the uncertainty surrounding the future realization of such assets and the cumulative losses we have generated. We recognize tax benefits from uncertain tax positions when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. We believe that we have provided adequate reserves for income tax uncertainties in all open tax years. We do not anticipate material changes in the total amount of our unrecognized tax benefits within 12 months of the reporting date. -0.005 -0.002 Commitments and Contingencies Litigation Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. We are involved in legal proceedings from time to time that arise in the normal course of business. In the opinion of management, such routine claims and lawsuits are not significant, and we do not expect them to have a material adverse effect on our business, financial condition, results of operations, or liquidity, except as noted below. We were party to the proceedings set forth below. On December 21, 2020, Pascal Metrics, Inc. (Pascal Metrics) filed a complaint against the Company in the Delaware Chancery Court (as amended, Complaint) alleging that the Company misappropriated alleged trade secrets of Pascal Metrics and seeking monetary damages. The Complaint focused upon Patient Safety Monitor. On June 15, 2023, we entered into a settlement and mutual release agreement (Settlement Agreement) with Pascal Metrics and agreed to pay $18.8 million without admission of any wrongdoing, resolving the litigation amongst the parties. The Settlement Agreement provided us with a broad intellectual property license of the alleged trade secrets that were the subject matter of the Complaint. The Complaint was dismissed with prejudice on June 20, 2023 and the settlement amount was paid on June 27, 2023. During the three and six months ended June 30, 2023 we recorded $9.6 million and $21.3 million, respectively, of litigation charges related to the Complaint that were recorded as part of general and administrative expense in our condensed consolidated statements of operations. There were no similar litigation charges recorded during the three and six months ended June 30, 2024. 18800000 9600000 21300000 0 0 0.44 0.50 0.28 0.30 P5Y P1Y P90D 310400000 0.65 P24M Related Parties We have entered into arrangements with a client, Carle Health, and a member of the client's executive leadership team began serving on our board of directors effective July 1, 2023 and currently serves on our board of directors. We recognized revenue from this related party of $4.1 million and $8.2 million for the three and six months ended June 30, 2024. As of June 30, 2024 and December 31, 2023, we had receivables from this related party of $0.5 million and $1.9 million, respectively, and deferred revenue with this related party of $0.5 million and $0.1 million, respectively.</div><div style="text-align:justify;text-indent:18pt">We have revenue arrangements with clients that are also our investors. As part of the 2023 Restructuring Plan, we significantly reduced headcount throughout both our professional services and technology segments, including among our senior leadership team. The restructuring costs primarily related to severance and other team member costs from workforce reductions and impairment of a discontinued capitalized internal-use software project. The following table summarizes our 2023 Restructuring Plan costs by financial statement line item for the six months ended June 30, 2024 (in thousands), of which less than $0.3 million related to the three months ended June 30, 2024.</div><div style="margin-bottom:3pt;text-align:justify"><table Restructuring initiatives are under evaluation which may affect the amount and expected timing of restructuring costs and associated payments. 2022 Restructuring Plan During the third quarter of 2022, we initiated a restructuring plan (2022 Restructuring Plan) to optimize our cost structure and focus our investment of resources in key priority areas to align with strategic changes. As part of the 2022 Restructuring Plan, we significantly reduced investment in our life sciences business unit, which is generally part of the technology segment, and also reduced headcount throughout the Company, including among our senior leadership team. The restructuring costs primarily related to severance and other team member costs from workforce reductions, impairment of discontinued capitalized internal-use software projects, and other miscellaneous charges. We substantially completed all actions under the 2022 Restructuring Plan in early 2023 and, as of December 31, 2023, the related restructuring liabilities were completely settled through cash outlays made to impacted team members. The following table summarizes our 2022 Restructuring Plan costs by financial statement line item for the six months ended June 30, 2023 (in thousands). We had no restructuring costs for the three months ended June 30, 2023. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:50.823%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.438%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.438%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.438%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.441%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="21" style="border-bottom:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom"> Six Months Ended June 30, 2023 </td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="21" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">(unaudited)</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Severance and Other Team Member Costs</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> Impairment Charges(1) </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> <span style="color:#000000;font-family:'Times New Roman',sans-

LLC, as administrative agent and collateral agent, and the lenders from time to time party thereto. The credit agreement provides a five-year term loan facility in an aggregate principal amount of up to $225 million, consisting of an initial term loan in the aggregate principal amount of $125 million, which was funded in full on the Closing Date, and a delayed draw term loan facility in the aggregate principal amount of $100 million, which was undrawn as of the Closing Date. We have the option to draw up to $40 million under the delayed draw facility within six months after the Closing Date and up to an additional $60 million under the delayed draw facility within eighteen months after the Closing Date, in each case, subject to satisfaction of certain conditions, including a minimum liquidity threshold and a maximum recurring revenue ratio. Borrowings under the credit agreement are expected to bear interest at a rate per annum equal to the secured overnight financing rate plus 6.5%. Commencing with the quarter ending on December 31, 2024, we are required to make quarterly principal payments in an amount equal to 0.25% of the aggregate original principal amount, and the final maturity date of the term loans is July 16, 2029.
 The net proceeds from the initial term loan will be used, together with cash on hand, (i) to repurchase, repay, and/or pay amounts of cash due upon conversion of any or all of the Notes at any time on or prior to the maturity of the Notes and (ii) for working capital and general corporate purposes. The proceeds from the delayed draw term loan facility, if any, will be used to fund our inorganic growth strategy through permitted acquisitions (including deferred purchase price or similar arrangements related thereto) and to pay fees, costs, and expenses in connection therewith.
 We are required prepay the term loans upon the occurrence of certain events, and we may voluntarily prepay the term loans, in whole or in part, at any time, subject to certain notice requirements and prepayment amounts. Prior to July 16, 2028, such mandatory prepayments or voluntary prepayments are subject to a prepayment premium ranging from 1.0% to 3.0% plus a make whole amount depending on the year of such prepayment. We are also required to pay a commitment fee on the unutilized commitments under the delayed draw term loan facility ranging from 1.5% to 2.5% per year depending on the year and the unutilized delayed draw term loan. Our obligations under the credit agreement and the other loan documents are required to be guaranteed by all of our present and future domestic and foreign subsidiaries, subject to certain exceptions (Guarantors). All obligations under the credit agreement and the other loan documents are secured by a first priority perfected lien on, and security interest in, substantially all of our and our Guarantor's present and future assets, subject to certain exceptions.
 The credit agreement contains various representations and warranties, affirmative covenants, and negative covenants, including covenants that restrict our and our subsidiaries' ability to take certain actions including, among other things and subject to certain exceptions, the incurrence of debt, the granting of liens, engaging in mergers and other fundamental changes, the making of investments, entering into transactions with affiliates, the payment of dividends and other restricted payments, the prepayment of other indebtedness and the sale of assets. We are also required to comply with a minimum liquidity threshold, a maximum recurring revenue-based leverage ratio, and a maximum EBITDA-based leverage ratio.
 The credit agreement also includes various events of default, including, among others: non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross-default to other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of security interests or invalidity of loan documents, certain ERISA events, unsatisfied or unstayed judgments and change of control. Upon the occurrence of an event of default, the administrative agent and the lenders may declare all outstanding obligations immediately due and payable and take such other actions as set forth in the credit agreement and the related loan documents, including proceeding against the collateral securing such borrowings.
 Lumeon Acquisition
 On August 1, 2024, we acquired Lumeon Ltd. (Lumeon), a digital health company

dedicated to helping provider organizations mend broken care coordination processes through automated care orchestration, for preliminary consideration of approximately $37.5 million in cash and $2.5 million of our common stock, plus a potential recurring revenue-based earn-out of up to $25 million that, if achieved, would be paid solely in cash. Given the recent timing of the closing of this business combination, we are in the process of identifying and measuring the value of the assets acquired and liabilities assumed. We plan to disclose the preliminary purchase price allocation estimates and other related information in our Quarterly Report on Form 10-Q for the quarter ending September 30, 2024.
