Below is a summary of the principal risks associated with an investment in our securities.â€¢Our sales depend on a small number of customers. A reduction in orders from any of these customers, the loss of any of these customers, or a customer exerting significant pricing and margin pressures on us could harm our business, financial condition and operating results.â€¢Consolidation in the markets we serve could harm our business, financial condition and operating results.â€¢If the optical communications market does not expand as we expect, our business may not grow as fast as we expect, which could adversely impact our business, financial condition and operating results.â€¢Our quarterly revenues, gross profit margins and operating results have fluctuated significantly and may continue to do so in the future, which may cause the market price of our ordinary shares to decline or be volatile.â€¢If we are unable to continue diversifying our precision optical and electro-mechanical manufacturing services across other markets within the optics industry, such as the semiconductor processing, biotechnology, metrology and material processing markets, or if these markets do not grow as fast as we expect, our business may not grow as fast as we expect, which could adversely impact our business, financial condition and operating results.â€¢We face significant competition in our business. If we are unable to compete successfully against our current and future competitors, our business, financial condition and operating results could be harmed.â€¢Cancellations, delays or reductions of customer orders and the relatively short-term nature of the commitments of our customers could harm our business, financial condition and operating results.â€¢Our exposure to financially troubled customers or suppliers could harm our business, financial condition and operating results.â€¢We purchase some of the critical materials used in certain of our products from a single source or a limited number of suppliers. Supply shortages have in the past, and could in the future, impair the quality, reduce the availability or increase the cost of materials, which could harm our revenues, profitability and customer relations.â€¢Managing our inventory is complex and may require write-downs due to excess or obsolete inventory, which could cause our operating results to decrease significantly in a given fiscal period.â€¢If we fail to adequately expand our manufacturing capacity, we will not be able to grow our business, which would harm our business, financial condition and operating results. Conversely, if we expand too much or too rapidly, we may experience excess capacity, which would harm our business, financial condition and operating results.â€¢We may experience manufacturing yields that are lower than expected, potentially resulting in increased costs, which could harm our business, operating results and customer relations.â€¢If the products that we manufacture contain defects, we could incur significant correction costs, demand for our services may decline and we may be exposed to product liability and product warranty claims, which could harm our business, financial condition, operating results and customer relations.â€¢If we fail to attract additional skilled employees or retain key personnel, our business, financial condition and operating results could suffer.â€¢Fluctuations in foreign currency exchange rates and changes in governmental policies regarding foreign currencies could increase our operating costs, which would adversely affect our operating results.â€¢We conduct operations in a number of countries, which creates logistical and communications challenges for us and exposes us to other risks and challenges that could harm our business, financial condition and operating results.â€¢We are subject to governmental export and import controls in several jurisdictions that subject us to a variety of risks, including liability, impairment of our ability to compete in international markets, and decreased sales and customer orders.â€¢We are subject to risks related to the ongoing U.S.-China trade dispute, including increased tariffs on materials that we use in manufacturing, which could adversely affect our business, financial condition and operating results.â€¢Political unrest and demonstrations, as well as changes in the political, social, business or economic conditions in Thailand, could harm our business, financial condition and operating results.3Table of Contentsâ€¢We expect to continue to invest in our manufacturing operations in the People's Republic of China ("PRC"), which will continue to expose us to risks inherent in doing business in the PRC, any of which risks could harm our business, financial condition and operating results.â€¢Natural disasters, epidemics, acts of terrorism and political and economic developments could harm our business, financial condition and operating results.â€¢Unfavorable worldwide economic conditions (including inflation and supply chain disruptions) may negatively affect our business, financial condition and operating results.â€¢We may not be able to obtain capital when desired on favorable terms, if at all, or without dilution to our shareholders.â€¢Our investment portfolio may become impaired by deterioration of the capital markets.â€¢We are not fully insured against all potential losses. Natural disasters or other catastrophes could adversely affect our business, financial condition and operating results.â€¢There are inherent uncertainties involved in estimates, judgments and assumptions used in the preparation of financial statements in accordance with U.S. GAAP. Any changes in estimates, judgments and assumptions could have a

material adverse effect on our business, financial condition and operating results.â€¢Our business and operations would be adversely impacted in the event of a failure of our information technology infrastructure and/or cyber security attacks.â€¢Intellectual property infringement claims against our customers or us could harm our business, financial condition and operating results.â€¢Any failure to protect our customersâ€™ intellectual property that we use in the products we manufacture for them could harm our customer relationships and subject us to liability.â€¢We are subject to the risk of increased income taxes, which could harm our business, financial condition and operating results.â€¢We have incurred and will continue to incur significant increased costs as a result of operating as a public company, and our management will be required to continue to devote substantial resources to various compliance initiatives.â€¢If we are unable to meet regulatory quality standards applicable to our manufacturing and quality processes for the products we manufacture, our business, financial condition and operating results could be harmed.â€¢Failure to comply with applicable environmental laws and regulations could have a material adverse effect on our business, financial condition and operating results.â€¢Our share price may be volatile due to fluctuations in our operating results and other factors, including the activities and operating results of our customers or competitors, any of which could cause our share price to decline.â€¢If securities or industry analysts do not publish research or if they publish misleading or unfavorable research about our business, the market price and trading volume of our ordinary shares could decline.â€¢We may become a passive foreign investment company, which could result in adverse U.S. tax consequences to U.S. investors.â€¢Our business and share price could be negatively affected as a result of activist shareholders.â€¢Certain provisions in our constitutional documents may discourage our acquisition by a third party, which could limit our shareholders' opportunity to sell shares at a premium.â€¢Our shareholders may face difficulties in protecting their interests because we are incorporated under Cayman Islands law.â€¢Certain judgments obtained against us by our shareholders may not be enforceable.â€¢Energy price volatility may negatively impact our business, financial condition and operating results.4Table of ContentsPART I: FINANCIAL INFORMATIONITEMÂ 1. The Parent Company is an exempted company incorporated in the Cayman Islands, British West Indies. The â€œCompanyâ€ refers to Fabrinet and its subsidiaries as a group.The Company provides advanced optical packaging and precision optical, electro-mechanical and electronic manufacturing services to original equipment manufacturers of complex products, such as optical communication components, modules and sub-systems, automotive components, industrial lasers, medical devices and sensors. The Company offers a broad range of advanced optical and electro-mechanical capabilities across the entire manufacturing process, including process design and engineering, supply chain management, manufacturing, complex printed circuit board assembly, advanced packaging, integration, final assembly and testing. The Company is capable of producing a wide variety of high complexity products in any mix and any volume. The principal subsidiaries of Fabrinet include Fabrinet Co., Ltd. (â€œFabrinet Thailandâ€), Casix, Inc. (â€œCasixâ€), Fabrinet West, Inc. (â€œFabrinet Westâ€) and Fabrinet Israel Ltd. (â€œFabrinet Israelâ€).2.Â Â Â Â Accounting policiesBasis of presentationThe accompanying unaudited condensed consolidated financial statements for Fabrinet asÂ ofÂ DecemberÂ 27, 2024 and for the three and six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 include normal recurring adjustments necessary for a fair statement of the financial statements set forth herein, in accordance with accounting principles generally accepted in the United States of America (â€œU.S. GAAPâ€ or "GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission (â€œSECâ€). Accordingly, such information does not include all of the information and footnotes required by U.S. GAAP for annual financial statements. For further information, please refer to the consolidated financial statements and footnotes thereto included in Fabrinetâ€™s Annual Report on Form 10-K for the year ended JuneÂ 28, 2024.The balance sheet asÂ ofÂ JuneÂ 28, 2024 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.The results for the three and six months ended DecemberÂ 27, 2024 may not be indicative of results for the year ending JuneÂ 27, 2025 or any future periods.Use of EstimatesThe preparation of the Companyâ€™s unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of total revenues and expenses during the year. The Company bases estimates on historical experience and various assumptions about the future that are believed to be reasonable based on available information. The Companyâ€™s reported financial position or results of operations may be materially different under different conditions or when using different estimates and assumptions, particularly with respect to significant accounting policies, which are discussed below. Significant assumptions are used in accounting for share-based compensation, allowance for expected credit losses, income taxes, and inventory obsolescence. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates. In the event that the Company's estimates or assumptions prove to be different from actual results, adjustments will be made in subsequent periods to reflect more current information.10Table of ContentsFiscal yearsThe Company utilizes aÂ 52-53Â week fiscal year ending on the Friday in June closest to June 30. The three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 consisted of 13 weeks. Fiscal yearÂ 2025Â will comprise 52 weeks and will end on JuneÂ 27, 2025.New Accounting Standardsâ€”not yet adopted by the CompanyIn November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, â€œSegment Reporting (Topic 280), Improvements to Reportable Segment Disclosures,â€ which is intended to improve reportable segment disclosure requirements, primarily through additional disclosures about significant segment expenses. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 29, 2024, and interim periods beginning June 28, 2025, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures.In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740), Improvements to Income Tax Disclosures,â€ which requires more detailed income tax disclosures. This ASU requires entities to disclose disaggregated information about their effective tax rate reconciliation as well as expanded information on income taxes paid by jurisdiction. This ASU is effective for all entities for fiscal years beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. This ASU will be effective for the Company beginning with fiscal year 2026. The Company is currently assessing the impact to its disclosures. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40), Disaggregation of Income Statement Expenses,â€ which requires additional notes to financial statements. This ASU requires entities to include certain current disclosures in the same tabular format disclosure as the other disaggregation requirements in the amendments in this ASU. This ASU is effective for all entities for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 26, 2027, and interim periods beginning July 1, 2028, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures.11Table of Contents3.Â Â Â Â Revenues from contracts with customersRevenue by Geographic Area, End Market and Product CategoryRevenues are attributed to a particular geographic area based onÂ theÂ bill-to-locationÂ ofÂ the Companyâ€™s customers. A fair value hierarchy is established, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs for the valuation of an asset or liability as of the measurement date. The three levels of inputs that may be used to measure fair value are defined as follows:Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly. If the assets or liabilities have a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of assets or liabilities.LevelÂ 3 inputs are unobservable inputs for assets or liabilities, which require the reporting entity to develop its own valuation techniques and assumptions.15Table of ContentsThe Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.The following table provides details of the financial instruments measured at fair value on a recurring basis, including:Fair Value Measurements at Reporting Date Using(in thousands)LevelÂ 1LevelÂ 2LevelÂ 3TotalAs of DecemberÂ 27, 2024AssetsCash equivalents$â€”Â $51,263Â $â€”Â $51,263Â Certificates of deposit and time depositsâ€”Â 136,850Â â€”Â 136,850Â Corporate debt securitiesâ€”Â 139,363Â â€”Â 139,363Â U.S. agency and U.S. treasury securitiesâ€”Â 254,756Â â€”Â 254,756Â Derivative assets â€“ current portionâ€”Â 645Â (1)â€”Â 645Â Total$â€”Â $582,877Â $â€”Â $582,877Â LiabilitiesÂ Â Â Â Â Â Derivative liabilitiesÂ â€“ current portion$â€”Â $(2,932)$â€”Â $(2,932)Total$â€”Â $(2,932)$â€”Â $(2,932)Fair Value Measurements at Reporting Date Using(in thousands)LevelÂ 1LevelÂ 2LevelÂ 3TotalAs of JuneÂ 28, 2024AssetsCash equivalents$â€”Â $35Â $â€”Â $35Â Certificates of deposit and time depositsâ€”Â 134,283Â â€”Â 134,283Â Corporate debt securitiesâ€”Â 136,763Â â€”Â 136,763Â U.S. agency and U.S. treasury securitiesâ€”Â 177,584Â â€”Â 177,584Â Derivative assets â€“ current portionâ€”Â 15Â (3)â€”Â 15Â Total$â€”Â $448,680Â $â€”Â $448,680Â LiabilitiesÂ Â Â Â Â Â Derivative liabilitiesÂ â€“ current portion$â€”Â $(2,244)$â€”Â $(2,244)Total$â€”Â $(2,244)(4)$â€”Â $(2,244)(1)Foreign currency forward contracts with an aggregate notional amount of $27.0 million.(2)Foreign currency forward contracts with an aggregate notional amount of $119.0 million and 0.3 million Canadian dollars.(3)Foreign currency forward contracts with an aggregate notional amount of $8.0 million.(4)Foreign currency forward contracts with an aggregate notional amount of $127.0 million and 0.4 million Canadian dollars.16Table of ContentsDerivative Financial InstrumentsThe Company utilizes derivative financial instruments to hedge (i) foreign exchange risk associated with certain foreign currency denominated assets and liabilities and other foreign currency transactions, and (ii) interest rate risk associated with its long-term debt.The Company minimizes the credit risk associated with its derivative instruments by limiting the exposure to any single counterparty and by entering into derivative instruments only with counterparties that meet the Companyâ€™s minimum credit quality standard.Foreign currency forward and option contractsAs a result of foreign currency rate fluctuations, the U.S. dollar equivalent values of the Companyâ€™s foreign currency denominated assets and liabilities fluctuate. The Company uses foreign currency forward and option contracts to manage the foreign exchange risk associated with a portion of its foreign currency denominated assets and liabilities and other foreign currency transactions. The Company enters into foreign currency forward and option contracts to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht and Canadian dollars with counterparties that meet the Companyâ€™s minimum credit quality standard.The Company may enter into foreign currency forward contracts with maturities of up to 12 months to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht, including inventory purchases, payroll and other operating expenses. The Company considers these forward contracts as dual-purpose hedges, that hedge both the foreign exchange fluctuation (i)Â from inception through the forecasted expenditure, and (ii)Â any subsequent revaluation of the account payable or accrual. The Company may designate the forward contracts that hedge the foreign exchange fluctuation from inception through the forecasted expenditure as cash flow hedges. The gain or loss on a derivative instrument designated and qualified as a cash flow hedging instrument is recorded as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged forecasted transaction affects earnings. The reclassified amounts are presented in the same income statement line item as the earnings effect of the hedged item. Once the forecasted transactions are recorded, the Company will discontinue the hedging relationship byÂ de-designatingÂ the derivative instrument and recording subsequent changes in fair value through contract maturity to foreign exchange gain (loss), net in theÂ unaudited condensed consolidated statements of operations and comprehensive income as a natural hedge against the Thai baht denominated assets and liabilities.The Company may also enter intoÂ non-designatedÂ foreign currency forward and option contracts to provide an offset to theÂ re-measurementÂ of foreign currency denominated assets and liabilities and to hedge certain forecasted exposures. Changes in the fair value of theseÂ non-designatedÂ derivatives are recorded as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income.As of DecemberÂ 27, 2024, the Company had 146Â outstanding U.S. dollar foreign currency forward contracts against Thai baht, with an aggregate notional amount ofÂ $146.0 million and maturity dates ranging from January 2025 through July 2025 and one outstanding Canadian dollar foreign currency forward contract with a notional amount of 0.3 million Canadian dollars and a maturity date in March 2025.As of JuneÂ 28, 2024, the Company had 135 outstanding U.S. dollar foreign currency forward contracts against Thai baht with an aggregate notional amount of $135.0 million and maturity dates ranging from July 2024 through January 2025, and one foreign currency contract with a notional amount of 0.4 million Canadian dollars and a maturity date in September 2024.As of DecemberÂ 27, 2024, the hedging relationship over foreign currency forward contracts designated for hedge accounting was determined to be highly effective based on the performance of retrospective and prospective regression testing. The Company is currently under examination by the U.S. Internal Revenue Service for the fiscal year ended June 24, 2022. The Companyâ€™s income tax is recognized based on the best estimate of the expected annual effective tax rate for the full financial year of each entity in the Company, adjusted for discrete items arising in that quarter. If the Companyâ€™s estimated annual effective tax rate changes, the Company makes a cumulative adjustment in that quarter.The effective tax rate for the Company for the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 wasÂ 8.7% andÂ 5.2%, respectively, of net income. The increase was due to higher income subject to tax and a discrete expense related to continuing assessment of potential tax exposures.The effective tax rate for the Company for the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 wasÂ 6.6% andÂ 6.2%, respectively, of net income. The increase was due to higher income subject to tax and a discrete expense due to a continuing assessment of potential tax exposures during the six months ended December 27, 2024, offset by a full valuation allowance for deferred tax assets that was set up during the six months ended December 29, 2023 for the Company's subsidiary in Israel.11.Â Â Â Â Share-based compensationShare-based compensationThe grant date fair value of restricted share units and performance share units is based on the market value of Fabrinet's ordinary shares on the date of grant.The effect of recording share-based compensation expense for the three and six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 was as follows:Â Three Months EndedSix Months Ended(in thousands)December 27,2024December 29,2023December 27,2024December 29,2023Share-based compensation expense by type of award:Â Â Restricted share units$5,430Â $4,088Â $11,143Â $8,967Â Performance share units3,008Â 2,893Â 5,977Â 5,747Â Total share-based compensation expense8,438Â 6,981Â 17,120Â 14,714Â Tax effect on share-based compensation expenseâ€”Â â€”Â â€”Â â€”Â Net effect on share-based compensation expense$8,438Â $6,981Â $17,120Â $14,714Â Share-based compensation expense was recorded in the unaudited condensed consolidated statements of operations and comprehensive income as follows:Â Three Months EndedSix Months Ended(in thousands)December 27,2024December 29,2023December 27,2024December 29,2023Cost of revenue$2,764Â $1,701Â $5,662Â $3,866Â Selling, general and administrative expense5,674Â 5,280Â 11,458Â 10,848Â Total share-based compensation expense$8,438Â $6,981Â $17,120Â $14,714Â The Company didÂ not capitalize any share-based compensation expense as part of any asset costs during the three and six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023.21Table of ContentsShare-based award activityOn DecemberÂ 12, 2019, the Companyâ€™s shareholders approved Fabrinetâ€™s 2020 Equity Incentive Plan (the â€œ2020 Planâ€). Upon the approval of the 2020 Plan, Fabrinetâ€™s Amended and Restated 2010 Performance Incentive Plan (the â€œ2010 Planâ€) was simultaneously terminated. The 2020 Plan provides for the grant of equity awards thereunder with respect to (i)Â 1,700,000Â ordinary shares, plus (ii)Â up toÂ 1,300,000Â ordinary shares that, asÂ ofÂ immediately priorÂ to the termination of the 2010 Plan, had been reserved but not issued pursuant to any awards granted under the 2010 Plan and are not subject to any awards thereunder. Upon termination of the 2010 Plan,Â 1,281,619Â ordinary shares were reserved for issuance under the 2020 Plan pursuant to clause (ii)Â of the preceding sentence.On NovemberÂ 2, 2017, the Company adopted the 2017 Inducement Equity Incentive Plan (the â€œ2017 Inducement Planâ€) with a reserve ofÂ 160,000Â ordinary shares authorized for future issuance solely for the granting of inducement share options and equity awards to new employees. The 2017 Inducement Plan was adopted without shareholder approval in reliance on the â€œemployment inducement exemptionâ€ provided under the New York Stock Exchange Listed Company Manual.Â TheÂ 2020 Plan,Â 2010 PlanÂ andÂ 2017 Inducement Plan are collectively referred to as the â€œEquity Incentive Plans.â€The following table summarizes the number of equity awards outstanding and ordinary shares available for grant under each of the Equity Incentive Plans as of DecemberÂ 27, 2024:(share units)Restricted Share Units outstandingPerformance Share Units outstandingOrdinary Shares available for future grant2020 Plan285,740Â 120,916Â 1,592,062Â 2017 Inducement Planâ€”Â â€”Â 111,347Â Total285,740Â 120,916Â 1,703,409Â Restricted share units and performance share unitsRestricted share units and performance share units have been granted under the Equity Incentive Plans.Restricted share units granted to employees generally vest in equal installments overÂ threeÂ orÂ four yearsÂ on each anniversary of the vesting commencement date. In February 2018,Â May 2019, August 2020, August 2022, August 2023, and August 2024,Â the Companyâ€™s board of directors approved an increase of $30.0 million, $50.0 million, $58.5 million, $78.7Â million, $47.6Â million, and $139.5Â million, respectively, to the original share repurchase authorization, bringing the aggregate authorization to $434.3 million. During the six months ended DecemberÂ 27, 2024, 291,780 shares were repurchased under the program, at an average price per share (excluding other direct costs) ofÂ $235.43, for an aggregate purchase price of $68.7Â million. As of DecemberÂ 27, 2024, the Company had a remaining authorization to repurchase up to $131.3 million worth of its ordinary shares under the share repurchase program. Shares repurchased under the share repurchaseÂ program are held as treasury shares.23Table of Contents13.Â Â Â Â Accumulated other comprehensive income (loss)The changes in AOCI for the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 were as follows:(in thousands)Unrealized net(Losses)/Gains onAvailable-for-saleSecuritiesUnrealizedÂ net(Losses)/Gainson DerivativeInstrumentsForeignCurrencyTranslationAdjustmentTotalBalance as of JuneÂ 28, 2024$(1,179)$(980)(982)(3,141)Other comprehensive income (loss) before reclassification6,297Â (57)76Â 6,316Â Amounts reclassified out of AOCI to the unaudited condensed consolidated statements of operations and comprehensive incomeâ€”Â (898)â€”Â (898)Tax effectsâ€”Â 72Â â€”Â 72Â Other comprehensive income (loss)$6,297Â (883)76Â $5,490Â Balance as of DecemberÂ 27, 2024$5,118Â $(1,863)$(906)$2,349Â (in thousands)Unrealized net(Losses)/Gains onAvailable-for-saleSecuritiesUnrealized net(Losses)/Gainson DerivativeInstrumentsRetirementbenefit plan -Prior servicecostForeignCurrencyTranslationAdjustmentTotalBalance as of June 30, 2023$(3,279)$(3,541)(330)(965)$(8,115)Other comprehensive income (loss) before reclassification3,893Â 9,401Â â€”Â (106)13,188Â Amounts reclassified out of AOCI to the unaudited condensed consolidated statements of operations and comprehensive income1Â (1,765)158Â â€”Â (1,606)Tax effectsâ€”Â 754Â (24)â€”Â 730Â Other comprehensive income (loss)$3,894Â $8,390Â $134Â (106)12,312Â Balance as of DecemberÂ 29, 2023$615Â $4,849Â (196)(1,071)$4,197Â 24Table of Contents14.Â Â Â Â Commitments and contingenciesBank guaranteesAs of DecemberÂ 27, 2024 and JuneÂ 28, 2024, there were outstanding bank guarantees on behalf of the Company's subsidiary in Thailand for electricity usage and other normal business expenses totaling $2.2 million and $2.0 million, respectively, or Thai baht 75.7Â million and 73.2Â million, respectively. In addition, there were other immaterial bank guarantees on behalf of the Company's subsidiary in Israel to support the subsidiary's operations related to the Israeli Customs department.Purchase obligationsPurchase obligations represent legally binding commitments to purchase inventory and other commitments made in the normal course of business to meet operational requirements. Although open purchase orders are considered enforceable and legally binding, their terms generally give the Company the option to cancel, reschedule and/or adjust its requirements based on its business needs prior to the delivery of goods or performance of services. Obligations to purchase inventory and other commitments are generally expected to be fulfilled within one year.As of DecemberÂ 27, 2024, the Company had purchase obligations and other commitments to third parties of $1.27 billion.Capital expendituresAs of DecemberÂ 27, 2024, the Company had total capital expenditure commitments to third parties of $45.2 million.Indemnification of directors and officersCayman Islands law does not limit the extent to which a companyâ€™s memorandum and articles of association may provide for indemnification of directors and officers, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Fabrinetâ€™s amended and restated memorandum and articles of association provide for indemnification of directors and officers for actions, costs, charges, losses, damages and expenses incurred in their capacities as such, except that such indemnification does not extend to any matter in respect of any fraud or dishonesty that may attach to any of them.In accordance with Fabrinetâ€™s form of indemnification agreement for its directors and officers, Fabrinet has agreed to indemnify its directors and officers against certain liabilities and expenses incurred by such persons in connection with claims by reason of their being such a director or officer. Fabrinet maintains a director and officer liability insurance policy that may enable it to recover a portion of any future amounts paid under the indemnification agreements.Credit facility agreementOn March 9, 2023, Fabrinet Thailand and the Parent Company (collectively, the â€œBorrowersâ€) and the Bank of Ayudhya Public Company Limited (the "Bank") entered into a credit facility agreement (the â€œ2023 Credit Facility Agreementâ€), which provided a facility of $55.0Â million.During the three months ended December 27, 2024, the Borrowers and the Bank amended the 2023 Credit Facility Agreement to reduce the facility to $30.0Â million, which may be used for, among other things, an overdraft facility.As of DecemberÂ 27, 2024, there was no amount outstanding under the 2023 Credit Facility Agreement.Under the 2023 Credit Facility Agreement, the Borrowers are required to maintain a debt-to-equity ratio of less than or equal to 1.5 times for Fabrinet Thailand and 1.0 times for the Parent Company.As of DecemberÂ 27, 2024, the Borrowers were in compliance with all of their financial covenants under the 2023 Credit Facility Agreement. Litigation and claimOn June 28, 2024, Ngan In Leng and First Laser Limited (collectively, the â€œPlaintiffsâ€) filed a complaint in the Fuzhou Intermediate Peopleâ€™s Court (the â€œCourtâ€) in Fuzhou, China against Fujian Enterprises (Holdings) Co., Ltd. (â€œFEHCâ€), Jian An Investment Limited (â€œJianâ€), and Casix, Inc. (â€œCasixâ€), the Company's wholly-owned subsidiary located in the PRC. The complaint alleges unjust enrichment related to a purported investment in Casix by the Plaintiffs in 1997, which predates the Company's acquisition of Casix from JDS Uniphase Corporation. The Plaintiffs have requested that the Court order FEHC to return the unjust enrichment to the Plaintiffs in the amount of RMB 400 million, with interest from March 1, 2000, and order Jian and Casix to bear joint and several liability for all payment obligations of FEHC.In September 2024, the Court dismissed the lawsuit in its entirety based on jurisdictional grounds. The Plaintiffs have since appealed the Courtâ€™s ruling to the High People's Court of Fujian Province (the "Appellate Court"). In their appeal, the 25Table of ContentsPlaintiffs now claim that Casix is the primary obligor to return the alleged unjust enrichment to the Plaintiffs. On November 24, 2024, the Appellate Court agreed to hear the appeal. At this time, the Company is not able to quantify any potential liability in connection with this litigation due to its pending status and preliminary nature.15.Â Â Â Â Business segments and geographic informationOperating segments are defined as components of an enterprise that engage in business activities for which discrete financial information is available that is evaluated regularly by the chief operating decision maker (the â€œCODMâ€) in deciding how to allocate resources and in assessing performance. The Companyâ€™s CODM is Fabrinetâ€™s Chief Executive Officer.Â As of DecemberÂ 27, 2024, the Company operated and internally managed a single operating segment. Accordingly, the Company does not accumulate discrete information with respect to separate product lines and does not have separate reportable segments.For theÂ Companyâ€™sÂ revenues by geographic region, see â€œRevenue by Geographic Area, End Market and Product Categoryâ€ in Note 3.The following table presents long-lived assets by the country in which they are based:(in thousands)December 27,2024June 28,2024Long-Lived Assets:Â Â Thailand$279,268Â $261,141Â Â Â U.S.28,378Â 28,914Â Â Â China14,004Â 14,586Â Â Â Israel1,569Â 2,160Â Â Â Others429Â 439Â Total$323,648Â $307,240Â Significant customersThe Company had three customers that each contributed to 10% or more of the Company's total trade accounts receivable as of DecemberÂ 27, 2024 and JuneÂ 28, 2024.During the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, the Company had two customers and three customers, respectively, that each contributed 10% or more of the Company's revenues. MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSIn addition to historical information, this Quarterly Report on FormÂ 10-QÂ contains forward-looking statements within the meaning of SectionÂ 27A of the Securities Act of 1933 and SectionÂ 21E of the Securities Exchange Act of 1934. These statements relate to future events or to our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our or our industryâ€™s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements include, but are not limited to, statements about:â€¢our goals and strategies;â€¢our and our customersâ€™ estimates regarding future revenues, operating results, expenses, capital requirements and liquidity;â€¢our belief that we will be able to maintain favorable pricing on our services;â€¢our expectation that the portion of our revenues attributable to customers in regions outside of North America for the remainder of fiscal year 2025 will be in line with the portion of revenues attributable to such customers during the six months ended DecemberÂ 27, 2024;â€¢our expectation that we will incur incremental costs of revenue as a result of our planned expansion of our business into new geographic markets;â€¢our expectation that our fiscal year 2025 selling, general and administrative (â€œSG&Aâ€) expenses will increase compared to our fiscal year 2024 SG&A expenses;â€¢our expectation that our employee costs will increase in Thailand and the PRC;â€¢our future capital expenditures and our needs for additional financing;â€¢the expansion of our manufacturing capacity, including into new geographies;â€¢the growth rates of our existing markets and potential new

markets;â€¢our ability, and the ability of our customers and suppliers, to respond successfully to technological or industry developments;â€¢our expectations regarding the potential impact of macroeconomic conditions and international political instability on our business, financial condition and operating results;â€¢our suppliersâ€™ estimates regarding future costs;â€¢our ability to increase our penetration of existing markets and to penetrate new markets;â€¢our plans to diversify our sources of revenues;â€¢our plans to execute acquisitions;â€¢trends in the optical communications, automotive, industrial lasers and other markets, including trends to outsource the production of components used in those markets;â€¢our ability to attract and retain a qualified management team and other qualified personnel and advisors; andâ€¢competition in our existing and new markets.These forward-looking statements are subject to certain risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause or contribute to suchÂ differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q, in particular, the risks discussed under the heading â€œRisk Factorsâ€ in Part II, ItemÂ 1A as well as those discussed in other documents we file with the Securities and Exchange Commission. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. â€œWe,â€ â€œusâ€ or â€œourâ€ collectively refer to Fabrinet and its subsidiaries.27Table of ContentsOverviewWe provide advanced optical packaging and precision optical, electro-mechanical and electronic manufacturing services to original equipment manufacturers (â€œOEMsâ€) of complex products such as optical communication components, modules and sub-systems, industrial lasers, automotive components, medical devices and sensors. We offer a broad range of advanced optical and electro-mechanical capabilities across the entire manufacturing process, including process design and engineering, supply chain management, manufacturing, complex printed circuit board assembly, advanced packaging, integration, final assembly and testing. We are capable of producing a wide variety of high complexity products in any mix and any volume. Based on our extensive experience and the positive feedback we have received from our customers, we believe we are a global leader in providing these services to the optical communications, automotive, and industrial lasers markets.Our customer base includes companies in complex industries that require advanced precision manufacturing capabilities such as optical communications, automotive, industrial lasers, medical, and sensors. The products that we manufacture for our OEM customers include selective switching products; tunable lasers, transponders and transceivers; active optical cables; solid state, diode-pumped, gas and fiber lasers; and sensors. In many cases, we are the sole outsourced manufacturing partner used by our customers for the products that we manufacture for them.We also design and fabricate application-specific crystals, lenses, prisms, mirrors, laser components, and substrates (collectively referred to as â€œcustomized opticsâ€) and other custom and standard borosilicate, clear fused quartz, and synthetic fused silica glass products (collectively referred to as â€œcustomized glassâ€). We incorporate our customized optics and glass into many of the products we manufacture for our OEM customers, and we also sell customized optics and glass in the merchant market.RevenuesWe believe we are able to expand our relationships with existing customers and attract new customers due to, among other factors, our broad range of complex engineering and manufacturing service offerings, flexible low-cost manufacturing platform, process optimization capabilities, advanced supply chain management, excellent customer service, and experienced management team. Although we expect the prices we charge for our manufactured products to decrease over time (partly as a result of competitive market forces), we believe we will be able to continue to maintain favorable pricing for our services because of our ability to reduce cycle time, adjust our product mix by focusing on more complicated products, improve product quality and yields, and reduce material costs for the products we manufacture. We believe these capabilities have enabled us to help our OEM customers reduce their manufacturing costs while maintaining or improving the design, quality, reliability, and delivery times for their products.We expect that disruptions in our supply chain and fluctuations in the availability of parts and materials will continue to have an adverse impact on our ability to generate revenue, despite strong demand from our customers. Furthermore, in some cases, our efforts to identify and secure alternative supply chain sources have resulted in our customers or their end customers requiring requalification and validation of components, a process that can often be lengthy and has negatively impacted the timing of our revenue. In addition, we expect the near-term inventory correction that our optical communications customers are experiencing to persist, which will have an adverse impact on our ability to generate revenue. Revenues by GeographyWe generate revenues from three geographic regions: North America, Asia-Pacific and others, and Europe. Revenues are attributed to a particular geographic area based on the bill-to location of our customers, notwithstanding that the products may be shipped to a different geographic region. The substantial majority of our revenues are derived from our manufacturing facilities in Asia-Pacific.The percentage of our revenues generated from aÂ bill-toÂ location outside of North America decreased from 66.1% in the three months ended DecemberÂ 29, 2023 to 55.3% in the three months ended DecemberÂ 27, 2024, primarily because of an increase in revenue from a customer in the United States.The percentage of our revenues generated from aÂ bill-toÂ location outside of North America decreased from 64.2% in the six months ended DecemberÂ 29, 2023 to 58.4% in the six months ended DecemberÂ 27, 2024, primarily because of an increase in revenue from a customer in the United States.28Table of ContentsBased on the short and medium-term indications and forecasts from our customers, we expect that the portion of our future revenues attributable to customers in regions outside North America for the remainder of fiscal year 2025 will be in line with the portion of revenues attributable to such customers during the six months ended DecemberÂ 27, 2024.The following table presents percentages of total revenues by geographic region:Three Months EndedSix Months Ended December 27, 2024December 29, 2023December 27, 2024December 29, 2023North America44.7Â %33.9Â %41.6Â %35.8Â %Asia-Pacific and others47.3Â 60.3Â 50.7Â 57.3Â Europe8.0Â 5.8Â 7.7Â 6.9Â 100.0Â %100.0Â %100.0Â %100.0Â %Our ContractsWe enter into supply agreements with our customers which generally have an initial term of up to three years, subject to automatic renewals for subsequent one-year terms unless expressly terminated. Although there are no minimum purchase requirements in our supply agreements, our customers provide us with rolling forecasts of their demand requirements. Our supply agreements generally include provisions for pricing and periodic review of pricing, consignment of our customerâ€™s unique production equipment to us, and the sharing of benefits from cost-savings derived from our efforts. We are generally required to purchase materials, which may include long lead-time materials and materials that are subject to minimum order quantities and/or non-cancelable or non-returnable terms, to meet the stated demands of our customers. After procuring materials, we manufacture products for our customers based on purchase orders that contain terms regarding product quantities, delivery locations and delivery dates. Our customers generally are obligated to purchase finished goods that we have manufactured according to their demand requirements. Materials that are not consumed by our customers within a specified period of time, or that are no longer required due to a productâ€™s cancellation or end-of-life, are typically designated as excess or obsolete inventory under our contracts. Once materials are designated as either excess or obsolete inventory, our customers are typically required to purchase such inventory from us even if they have chosen to cancel production of the related products. The excess or obsolete inventory is shipped to the customer and recognized as an offset against cost of revenue upon shipment.Cost of RevenuesThe key components of our cost of revenues are material costs, employee costs, and infrastructure-related costs. Material costs generally represent the majority of our cost of revenues. Several of the materials we require to manufacture products for our customers are customized for their products and often sourced from a single supplier or in some cases, our own subsidiaries. Shortages from sole-source suppliers due to yield loss, quality concerns and capacity constraints, among other factors, may increase our expenses and negatively impact our gross profit margin or total revenues in a given quarter. Material costs include scrap material. Historically, scrap rate diminishes during a productâ€™s life cycle due to process, fixturing and test improvement and optimization.A second significant element of our cost of revenues is employee costs, including indirect employee costs related to design, configuration and optimization of manufacturing processes for our customers, quality testing, materials testing and other engineering services, and direct costs related to our manufacturing employees. Direct employee costs include employee salaries, insurance and benefits, merit-based bonuses, recruitment, training and retention. Historically, our employee costs have increased primarily due to increases in the number of employees necessary to support our growth and, to a lesser extent, costs to recruit, train and retain employees. Our cost of revenues is significantly impacted by salary levels in Thailand and the PRC, the fluctuation of the Thai baht, and Chinese Renminbi ("RMB") against our functional currency, the U.S. dollar, and our ability to retain our employees. We expect our employee costs to increase as wages continue to increase in Thailand and the PRC. Wage increases may impact our ability to sustain our competitive advantage and may reduce our profit margin. We seek to mitigate these cost increases through improvements in employee productivity, employee retention and asset utilization.Our infrastructure costs are comprised of depreciation, utilities, facilities management and overhead costs. Most of our facility leases are long-term agreements. Our depreciation costs include buildings and fixed assets, primarily at our Pinehurst and Chonburi campuses in Thailand, and capital equipment located at each of our manufacturing locations.We expect to incur incremental costs of revenue as a result of our planned expansion into new geographic markets, though we are not able to determine the amount of these incremental expenses.29Table of ContentsSelling, General and Administrative ExpensesOur SG&A expenses primarily consist of corporate employee costs for sales and marketing, general and administrative and other support personnel, including research and development expenses related to the design of customized optics and glass, travel expenses, legal and other professional fees, share-based compensation expense and other general expenses not related to cost of revenues. In fiscal year 2025, we expect our SG&A expenses will increase compared with our fiscal year 2024 SG&A expenses, mainly due to increases in employee costs and research and development ("R&D") expenses. The compensation committee of our board of directors approved a fiscal year 2025 executive incentive plan with quantitative objectives based solely on achieving certain revenue targets and non-GAAP operating margin targets for fiscal year 2025. Bonuses under the fiscal year 2025 executive incentive plan are payable after the end of fiscal year 2025. In fiscal year 2024, the compensation committee approved a fiscal year 2024 executive incentive plan with quantitative objectives that were based solely on achieving certain revenue targets and non-GAAP operating margin targets for fiscal year 2024. Additional Financial DisclosuresForeign ExchangeAs a result of our international operations, we are exposed to foreign exchange risk arising from various currency exposures, and primarily with respect to the Thai baht. Although a majority of our total revenues is denominated in U.S. dollars, a substantial portion of our payroll plus certain other operating expenses are incurred and paid in Thai baht. The exchange rate between the Thai baht and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future. We report our financial results in U.S. dollars and our results of operations have been and could in the future be negatively impacted if the Thai baht appreciates against the U.S. dollar. Smaller portions of our expenses are incurred in a variety of other currencies, including RMB, GBP, Canadian dollars, Euros, and Japanese yen, the appreciation of which may also negatively impact our financial results.In order to manage the risks arising from fluctuations in foreign currency exchange rates, we use derivative instruments. We may enter into foreign currency exchange forward or put option contracts to manage foreign currency exposures associated with certain assets and liabilities and other forecasted foreign currency transactions and may designate these instruments as hedging instruments. The forward and put option contracts generally have maturities of up to 12 months. All foreign currency exchange contracts are recognized in the unaudited condensed consolidated balance sheets at fair value. Gains or losses on our forward and put option contracts generally present gross amount in the assets, liabilities, and transactions economically hedged.We had foreign currency denominated assets and liabilities in Thai baht, RMB and GBP as follows:As of DecemberÂ 27, 2024As of JuneÂ 28, 2024(in thousands, except percentages)ForeignCurrency$%ForeignCurrency$%AssetsThai baht1,092,745Â 32,017Â 72.2Â %1,046,000Â 28,385Â 72.5Â %RMB65,857Â 9,160Â 20.7Â 42,852Â 6,013Â 15.4Â GBP2,533Â 3,173Â 7.1Â 3,778Â 4,773Â 12.1Â Total$44,350Â 100.0Â %$39,171Â baht3,813,466Â 111,734Â 89.4Â %3,263,391Â 88,559Â 87.4Â %RMB93,306Â 12,979Â 10.4Â 78,418Â 11,003Â 10.9Â GBP253Â 317Â 0.2Â 1,359Â 1,717Â 1.7Â Total$125,030Â 100.0Â %$101,279Â of ContentsThe Thai baht assets represent cash and cash equivalents, trade accounts receivable, deposits and other current assets. The Thai baht liabilities represent trade accounts payable, accrued expenses, income tax payable, accrued employee benefits and other payables. We manage our exposure to fluctuations in foreign exchange rates by the use of foreign currency contracts and offsetting assets and liabilities denominated in the same currency in accordance with managementâ€™s policy. As of DecemberÂ 27, 2024, there was $146.0Â million of foreign currency forward contracts outstanding on the Thai baht payables. As of JuneÂ 28, 2024, there was $135.0Â million of foreign currency forward contracts outstanding on the Thai baht payables.The RMB assets represent cash and cash equivalents, trade accounts receivable, other receivables, and other current assets. The RMB liabilities represent trade accounts payable, accrued expenses, income tax payable, accrued payroll, bonus and related expenses, and other payables. As of DecemberÂ 27, 2024 and JuneÂ 28, 2024, we did not have any derivative contracts denominated in RMB.The GBP assets represent cash, trade accounts receivable, and other current assets. The GBP liabilities represent trade accounts payable, accrued expenses, and other payables. As of DecemberÂ 27, 2024 and JuneÂ 28, 2024, we did not have any derivative contracts denominated in GBP.For the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, we recorded unrealized loss of $5.1 million and unrealized gain of $2.6 million, respectively, related to derivatives that are not designated as hedging instruments in the unaudited condensed consolidated statements of operations and comprehensive income.For the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, we recorded unrealized loss of $1.0 million and unrealized gain $2.9 million, respectively, related to derivatives that are not designated as hedging instruments in the unaudited condensed consolidated statements of operations and comprehensive income.Currency Regulation and Dividend DistributionForeign exchange regulation in the PRC is primarily governed by the following rules:â€¢Foreign Currency Administration Rules, as amended on August 5, 2008, or the Exchange Rules;â€¢Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the Administration Rules; andâ€¢Notice on Perfecting Practices Concerning Foreign Exchange Settlement Regarding the Capital Contribution by Foreign-invested Enterprises, as promulgated by the State Administration of Foreign Exchange (â€œSAFEâ€), on August 29, 2008, or Circular 142.Under the Exchange Rules, RMB is freely convertible into foreign currencies for current account items, including the distribution of dividends, interest payments, trade and service-related foreign exchange transactions. However, conversion of RMB for capital account items, such as direct investments, loans, security investments and repatriation of investments, is still subject to the approval of SAFE.Under the Administration Rules, foreign-invested enterprises may only buy, sell, or remit foreign currencies at banks authorized to conduct foreign exchange business after providing valid commercial documents and relevant supporting documents and, in the case of capital account item transactions, obtaining approval from SAFE. Capital investments by foreign-invested enterprises outside of the PRC are also subject to limitations, which include approvals by the Ministry of Commerce, SAFE and the State Development and Reform Commission.Â Circular 142 regulates the conversion by a foreign-invested company of foreign currency into RMB by restricting how the converted RMB may be used. Circular 142 requires that the registered capital of a foreign-invested enterprise settled in RMB converted from foreign currencies may only be used for purposes within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the registered capital of foreign-invested enterprises settled in RMB converted from foreign currencies. The use of such RMB capital may not be changed without SAFEâ€™s approval and may not be used to repay RMB loans if the proceeds of such loans have not been used.On January 5, 2007, SAFE promulgated the Detailed Rules for Implementing the Measures for the Administration on Individual Foreign Exchange, or the Implementation Rules. Under the Implementation Rules, PRC citizens who are granted share options by an overseas publicly-listed company are required, through a PRC agent or PRC subsidiary of such overseas publicly-listed company, to register with SAFE and complete certain other procedures.31Table of ContentsIn addition, the General Administration of Taxation has issued circulars concerning employee share options. Under these circulars, our employees working in the PRC who exercise share options will be subject to PRC individual income tax. Our PRC subsidiary has obligations to file documents related to employee share options with relevant tax authorities and withhold individual income taxes of those employees who exercise their share options.Furthermore, our transfer of funds to our subsidiaries in Thailand and the PRC are each subject to approval by governmental authorities in case of an increase in registered capital, or subject to registration with governmental authorities in case of a shareholder loan. These limitations on the flow of funds between our subsidiaries and us could restrict our ability to act in response to changing market conditions.Income TaxOur effective tax rate is a function of the mix of tax rates in the various jurisdictions in which we do business. We are domiciled in the Cayman Islands. Under the current laws of the Cayman Islands, we are not subject to tax in the Cayman Islands on income or capital gains until March 6, 2039.Throughout the period of our operations in Thailand, we have generally received income tax and other incentives from the Thailand Board of Investment. Preferential tax treatment from the Thai government in the form of a corporate tax exemption on income generated from projects to manufacture certain products at our Chonburi campus is currently available to us through June 2026. Similar preferential tax treatment was available to us through June 2020 with respect to products manufactured at our Pinehurst campus Building 6. After June 2020, 50% of our income generated from products manufactured at our Pinehurst campus will be exempted from tax through June 2025. Preferential tax treatment is available to us for products manufactured at our Chonburi campus Building 9, where income generated will be tax exempt through 2031, capped at our actual investment amount. Such preferential tax treatment is contingent on various factors, including the export of our customersâ€™ products out of Thailand and our agreement not to move our manufacturing facilities out of our current province in Thailand for at least 15 years from the date on which preferential tax treatment was granted. Currently, the corporate income tax rate for our Thai subsidiary is

20%.As of DecemberÂ 27, 2024, the corporate income tax rates for our subsidiaries in the PRC, the U.S., the U.K. and Israel are 25%, 21%, 25% and 23%, respectively.Our deferred income tax assets represent temporary differences between the carrying amount and the tax basis of existing assets and liabilities that will result in deductible and payable amounts in future years, including net operating loss carry forwards. Based on estimates, the carrying value of our net deferred tax assets assumes that it is more likely than not that we will be able to generate sufficient future taxable income in certain tax jurisdictions to realize these deferred income tax assets. Our judgments regarding future profitability may change depending on future market conditions, changes in U.S. or international tax laws, or other factors. If these estimates and related assumptions change in the future, we may be required to increase or decrease our valuation allowance against the deferred tax assets, resulting in additional or lesser income tax expense.Critical Accounting Policies and Use of EstimatesWe prepare our unaudited condensed consolidated financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the unaudited condensed consolidated financial statements and the reported amounts of revenues and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and on various other assumptions that we believe to be reasonable under the circumstances. The results of these estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Because the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our unaudited condensed consolidated financial statements, as their application places the most significant demands on our managementâ€™s judgment.Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the fiscal year ended JuneÂ 28, 2024. The adoption of new accounting policies and accounting standards are disclosed in Note 2 to the unaudited condensed consolidated financial statements. There were no changes to our accounting policies.32Table of ContentsResults of OperationsThe following table sets forth a summary of our unaudited condensed consolidated statements of operations and comprehensive income. The increase was primarily due to an increase in revenues.Interest incomeOur interest income increased by $3.6 million, or 46.8%, to $11.3 million, or 1.4% of revenues, for the three months ended DecemberÂ 27, 2024, compared with $7.7 million, or 1.1% of revenues, for the three months ended DecemberÂ 29, 2023. The increase was primarily due to an increase in average cash balance and short-term investment during the three months ended DecemberÂ 27, 2024 compared to the same period in the prior fiscal year.Our interest income increased by $8.6 million, or 63.2%, to $22.2 million, or 1.3% of revenues, for the six months ended DecemberÂ 27, 2024, compared with $13.6 million, or 1.0% of revenues, for the six months ended DecemberÂ 29, 2023. The increase was primarily due to an increase in average cash balance and short-term investment during the six months ended DecemberÂ 27, 2024 compared to same period in the prior fiscal year.Interest expenseOur interest expense decreased for the three and six months ended DecemberÂ 27, 2024, compared with the three and six months ended DecemberÂ 29, 2023, due to the full repayment of our long-term loan balance.35Table of ContentsForeign exchange gain (loss), netWe recorded foreign exchange gain, net of $4.0 million, or 0.5% of revenues, for the three months ended DecemberÂ 27, 2024, compared with foreign exchange loss, net of $3.8 million, or 0.6% of revenues, for the three months ended DecemberÂ 29, 2023. The foreign exchange gain was mainly due to (1) unrealized gain from revaluation of outstanding Thai baht assets and liabilities of $14.0 million, (2) unrealized gain from revaluation of currencies other than Thai baht of $2.0 million, and (3) lower realized gain from payment/receipt of $0.5 million, offset by (1) unrealized loss from mark-to-market forward contracts of $7.7 million, and (2) foreign exchange loss, totaling $1.0 million from our subsidiaries in the PRC and the U.K.We recorded foreign exchange loss, net of $3.1 million, or 0.2% of revenues, for the six months ended DecemberÂ 27, 2024, compared with foreign exchange loss, net of $3.4 million, or 0.3% or revenues, for the six months ended DecemberÂ 29, 2023. The decrease in foreign exchange loss was mainly due to (1) lower unrealized loss from revaluation of outstanding Thai baht assets and liabilities of $2.8 million, and (2) unrealized gain from revaluation of currencies other than Thai baht of $1.6 million, offset by (1) unrealized loss from mark-to-market forward contracts of $3.9 million, and (2) higher realized loss from payment/receipt of $0.2 million.Income before income taxesWe recorded income before income taxes of $94.9 million for the three months ended DecemberÂ 27, 2024, compared with $72.9 million for the three months ended DecemberÂ 29, 2023.We recorded income before income taxes of $175.6 million for the six months ended DecemberÂ 27, 2024, compared with $143.1 million for the six months ended DecemberÂ 29, 2023.Income tax expenseOur provision for income tax reflects effective tax rates of 8.7% and 5.2% for the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, respectively. The increase was due to higher income subject to tax and a discrete expense related to continuing assessment of potential tax exposures.Our provision for income tax reflects effective tax rates of 6.6% and 6.2% for the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, respectively. The increase was due to higher income subject to tax and a discrete expense related to a continuing assessment of potential tax exposures during the six months ended December 27, 2024, offset by a full valuation allowance for deferred tax assets that was set up during the six months ended December 29, 2023 for our subsidiary in Israel.Net incomeWe recorded net income of $86.6 million, or 10.4% of revenues, for the three months ended DecemberÂ 27, 2024, compared with $69.1 million, or 9.7% of revenues, for the three months ended DecemberÂ 29, 2023.We recorded net income of $164.0 million, or 10.0% of revenues, for the six months ended DecemberÂ 27, 2024, compared with $134.2 million, or 9.6% of revenues, for the six months ended DecemberÂ 29, 2023.Other comprehensive income (loss)We recorded other comprehensive loss of $9.5 million, or 1.1% of revenues, for the three months ended DecemberÂ 27, 2024, compared with other comprehensive income of $11.7 million, or 1.6% of revenues, for the three months ended DecemberÂ 29, 2023. The change was mainly due to (1) unrealized loss from mark-to-market of forward contracts and interest rate swap agreements of $18.4 million, and (2) unrealized loss from mark-to-market of available-for-sale debt securities of $3.4 million, offset by (1) unrealized gain from foreign currency translation adjustment of $0.6 million.We recorded other comprehensive income of $5.5 million, or 0.3% of revenues, for the six months ended DecemberÂ 27, 2024, compared with other comprehensive income of $12.3 million, or 0.9% of revenues, for the six months ended DecemberÂ 29, 2023. The decrease in other comprehensive income was mainly due to (1) unrealized loss from mark-to-market of forward contracts and interest rate swap agreements of $9.3 million, and (2) lower gain from retirement benefits plan of $0.1 million, offset by (1) higher unrealized gain from mark-to-market of available-for-sale debt securities of $2.4 million, and (2) unrealized gain from foreign currency translation adjustment of $0.2 million. 36Table of ContentsLiquidity and Capital ResourcesCash Flows and Working CapitalWe primarily finance our operations through cash flow from operating activities. As of DecemberÂ 27, 2024, we had cash, cash equivalents, and short-term investments of $934.6 million and no outstanding debt. As of DecemberÂ 29, 2023, we had cash, cash equivalents, and short-term investments of $740.6Â million and outstanding debt of $6.1Â million.Our cash and cash equivalents, which primarily consist of cash on hand, demand deposits, and liquid investments with original maturities of three months or less, are placed with banks and other financial institutions. The weighted-average interest rate on our cash and cash equivalents was 4.2% and 4.4% for the three and six months ended DecemberÂ 27, 2024, respectively, and 4.3% and 4.2% for the three and six months ended DecemberÂ 29, 2023, respectively.Our cash investments are made in accordance with an investment policy approved by the audit committee of our board of directors. In general, our investment policy requires that securities purchased be rated A1, P-1, F1 or better. No security may have an effective maturity that exceeds three years. Our investments in fixed income securities are primarily classified as available-for-sale and are recorded at fair value. The cost of securities sold is based on the specific identification method. Unrealized gains and losses on these securities are recorded as other comprehensive income (loss) and are reported as a separate component of shareholdersâ€™ equity.As of DecemberÂ 29, 2023, we had long-term borrowing under our credit facility agreement of $6.1 million. As of DecemberÂ 27, 2024, we had no outstanding balance under our credit facility agreement. To better manage our cash on hand, we held short-term investments of $531.0 million as of DecemberÂ 27, 2024.We believe that our current cash and cash equivalents, short-term investments, cash flow from operations, and funds available through our credit facility will be sufficient to meet our working capital and capital expenditure needs for at least the next 12 months. Our ability to sustain our working capital position is subject to a number of risks that we discuss in Part II, Item 1A of this Quarterly Report on Form 10-Q. We also believe that our current manufacturing capacity is sufficient to meet our anticipated production requirements for at least the next few quarters. In January 2025, we began construction of a new manufacturing facility of approximately 2.0 million square feet at our Chonburi campus. The total expected cost of the project is approximately $130.4 million (Thai baht 4.45Â billion).The following table shows our cash flows for the periods indicated:Six Months Ended (in thousands)December 27, 2024December 29, 2023Net cash provided by operating activities$199,086Â $229,214Â Net cash used in investing activities$(116,074)$(101,853)Net cash used in financing activities$(89,414)$(24,818)Net increase in cash and cash equivalents$(6,402)$102,543Â Operating ActivitiesCash provided by operating activities is net income adjusted for certain non-cash items and changes in certain assets and liabilities. The decrease in cash provided by operating activities during the six months ended DecemberÂ 27, 2024 as compared to the six months ended DecemberÂ 29, 2023 was primarily due to (1) a change in inventories of $130.8 million due to new products and higher sales volume, and (2) a decrease in cash receipts related to the timing collection of trade receivables of $33.3 million, offset by (1) an increase in trade payables of $95.3 million, (2) an increase in net income of $29.8 million, and (3) a change in other current and non-current assets of $25.9 million.Investing ActivitiesInvesting cash flows consist primarily of investment purchases, sales, maturities, and disposals; and capital expenditures. The increase in cash used in investing activities for the six months ended DecemberÂ 27, 2024 as compared to cash used in investing activities for the six months ended DecemberÂ 29, 2023 was primarily due to an increase in capital expenditures.Financing ActivitiesFinancing cash flows consist primarily of repayment of long-term debt, share repurchases, and withholding tax related to net share settlement of restricted share units. The increase in cash used in financing activities for the six months ended DecemberÂ 27, 2024 as compared to the six months ended DecemberÂ 29, 2023 was due to an increase in share repurchases and higher withholding tax related to net share settlement of restricted share units, offset by lower repayment of long-term borrowings.37Table of ContentsRecent Accounting PronouncementsSee Note 2 of Notes to Unaudited Condensed Consolidated Financial Statements for recent accounting pronouncements that could have an effect on us.38Table of

ContentsITEMÂ 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKInterest Rate RiskWe had cash, cash equivalents and short-term investments totaling $934.6 million and $858.6 million as of DecemberÂ 27, 2024 and JuneÂ 28, 2024, respectively. We have interest rate risk exposure relating to the interest income generated by excess cash invested in highly liquid investments with maturities of three months or less from the original dates of purchase. The cash, cash equivalents, and short-term investments are held for working capital purposes. We have not used derivative financial instruments in our investment portfolio. We have not been exposed nor do we anticipate being exposed to material risks due to changes in market interest rates. Declines in interest rates, however, will reduce future investment income. If overall interest rates had declined by 10 basis points during the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, our interest income would have decreased by approximately $0.5 million and $0.3 million, respectively, assuming consistent investment levels. We maintain an investment portfolio in a variety of financial instruments, including, but not limited to, U.S. government and agency bonds, corporate obligations, money market funds, asset-backed securities, and other investment-grade securities. The majority of these investments pay a fixed rate of interest. The securities in the investment portfolio are subject to market price risk due to changes in interest rates, perceived issuer creditworthiness, marketability, and other factors. These investments are generally classified as available-for-sale and, consequently, are recorded on our unaudited condensed consolidated balance sheets at fair value with unrealized gains or losses reported as a separate component of shareholdersâ€™ equity.Investments in both fixed-rate and floating-rate interest earning instruments carry a degree of interest rate risk. The fair market values of our fixed-rate securities decline if interest rates rise, while floating-rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may be less than we expect because of changes in interest rates, or we may suffer losses in principal if forced to sell securities that have experienced a decline in market value because of changes in interest rates.Foreign Currency RiskAs a result of our foreign operations, we have significant expenses, assets and liabilities that are denominated in foreign currencies. Substantially all of our employees and most of our facilities are located in Thailand and the PRC. Therefore, a substantial portion of our payroll as well as certain other operating expenses are paid in Thai baht and RMB. The significant majority of our revenues are denominated in U.S. dollars because our customer contracts generally provide that our customers will pay us in U.S. dollars.As a consequence, our gross profit margins, operating results, profitability and cash flows are adversely impacted when the dollar depreciates relative to the Thai baht or the RMB. We have a particularly significant currency rate exposure to changes in the exchange rate between the Thai baht, the RMB and the U.S. dollar. We must translate foreign currency-denominated results of operations, assets and liabilities for our foreign subsidiaries to U.S. dollars in our unaudited condensed consolidated financial statements. Consequently, increases and decreases in the value of the U.S. dollar compared with such foreign currencies will affect our reported results of operations and the value of our assets and liabilities on our unaudited condensed consolidated balance sheets, even if our results of operations or the value of those assets and liabilities has not changed in its original currency. These transactions could significantly affect the comparability of our results between financial periods or result in significant changes to the carrying value of our assets, liabilities and shareholdersâ€™ equity.We attempt to hedge against these exchange rate risks by entering into derivative instruments that are typically one to eighteen months in duration, leaving us exposed to longer term changes in exchange rates. Beginning December 28, 2019, we designated the foreign currency forward contracts used to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht as cash flow hedges, as they qualified for hedge accounting because the hedges are highly effective. While we intend to continue to meet the conditions for hedge accounting, if hedges do not qualify as highly effective, the changes in the fair value of the derivatives used as hedges would be reflected in our earnings. Any gains or losses related to these outstanding foreign currency forward contracts will be recorded in accumulated other comprehensive income (loss) in the unaudited condensed consolidated balance sheets, with subsequent reclassification to the same statement of operations and comprehensive income line item as the earnings effect of hedge items when settled. We recorded an unrealized loss of $1.0Â million and unrealized gain of $2.9Â million for the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, respectively, related to derivatives that are not designated as hedging instruments. As foreign currency exchange rates fluctuate relative to the U.S. dollar, we expect to incur foreign currency translation adjustments and may incur foreign currency exchange losses. For example, a 10% weakening in the U.S. dollar against the Thai baht and the RMB would have resulted in a decrease in our net dollar position of approximately $9.0Â million and $7.2Â million as of DecemberÂ 27, 2024 and JuneÂ 28, 2024, 39Table of Contentsrespectively. We cannot give any assurance as to the effect that future changes in foreign currency rates will have on our unaudited condensed consolidated financial position, operating results or cash flows.Credit RiskCredit risk refers to our exposures to financial institutions, suppliers and customers that have in the past and may in the future experience financial difficulty, particularly in light of recent conditions in the credit markets and the global economy. As of DecemberÂ 27, 2024, our cash and cash equivalents were held in deposits and highly liquid investment products with maturities of three months or less with banks and other financial institutions having credit ratings of A minus or above. Our short-term investments as of DecemberÂ 27, 2024 are held in various financial institutions with a maturity limit not to exceed three years, and all securities are rated A1, P-1, F1 or better. We continue to monitor our surplus cash and consider investment in corporate and U.S. government debt as well as certain available-for-sale and held-to-maturity securities in accordance with our investment policy. We generally monitor the financial performance of our suppliers and customers, as well as other factors that may affect their access to capital and liquidity. Presently, we believe that we will not incur material losses due to our exposures to such credit risk.ITEMÂ 4. CONTROLS AND PROCEDURESEvaluation of Disclosure Controls and ProceduresOur management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our chief executive officer and chief financial officer concluded that as of the end of the period covered by this Quarterly Report on Form10-Q, our disclosure controls and procedures were effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that the information required to be disclosed by us in such reports is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosures. Managementâ€™s assessment of the effectiveness of our internal control over financial reporting is expressed at the level of reasonable assurance because a control system, no matter how well designed and operated, can provide only reasonable, but not absolute, assurance that the control systemâ€™s objectives will be met.Changes in Internal Control over Financial ReportingThere were no changes in our internal control over financial reporting during the three months ended DecemberÂ 27, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.40Table of ContentsPART II: OTHER INFORMATIONITEMÂ 1. LEGAL PROCEEDINGSOn June 28, 2024, Ngan In Leng and First Laser Limited (collectively, the â€œPlaintiffsâ€) filed a complaint in the Fuzhou Intermediate Peopleâ€™s Court (the â€œCourtâ€) in Fuzhou, China against Fujian Enterprises (Holdings) Co., Ltd. (â€œFEHCâ€), Jian An Investment Limited (â€œJianâ€), and Casix, Inc. (â€œCasixâ€), our wholly-owned subsidiary located in the PRC. The complaint alleges unjust enrichment related to a purported investment in Casix by the Plaintiffs in 1997, which predates our acquisition of Casix from JDS Uniphase Corporation. The Plaintiffs have requested that the Court order FEHC to return the unjust enrichment to the Plaintiffs in the amount of RMB 400 million, with interest from March 1, 2000, and order Jian and Casix to bear joint and several liability for all payment obligations of FEHC.In September 2024, the Court dismissed the lawsuit in its entirety based on jurisdictional grounds. The Plaintiffs have since appealed the Courtâ€™s ruling to the High People's Court of Fujian Province (the "Appellate Court"). In their appeal, the Plaintiffs now claim that Casix is the primary obligor to return the alleged unjust enrichment to the Plaintiffs. On November 24, 2024, the Appellate Court agreed to hear the appeal. At this time, we are not able to quantify any potential liability in connection with this litigation due to its pending status and preliminary nature.In addition, we are from time to time subject to, and are presently involved in, litigation and other legal proceedings in the ordinary course of business. While it is not possible to determine the outcome of any legal proceedings brought against us, we believe that, except for the matter described above, there are no pending lawsuits or claims that, individually or in the aggregate, may have a material effect on our business, financial condition or operating results. Our views and estimates related to these matters may change in the future, as new events and circumstances arise and as the matters continue to develop.ITEMÂ 1A. RISK FACTORSInvesting in our ordinary shares involves a high degree of risk. You should carefully consider the following risks, as well as the other information contained in this Quarterly Report on Form 10-Q, including our unaudited condensed consolidated financial statements and the related notes, before investing in our ordinary shares. The risks and uncertainties described below are not the only ones that we may face. Additional risks and uncertainties of which we are unaware, or that we currently deem immaterial, also may become important factors that affect us or our ordinary shares. If any of the following risks actually occur, they may harm our business, financial condition and operating results. In this event, the market price of our ordinary shares could decline, and you could lose some or all of your investment.Company and Operational RisksOur sales depend on a small number of customers. A reduction in orders from any of these customers, the loss of any of these customers, or a customer exerting significant pricing and margin pressures on us could harm our business, financial condition and operating results.We have depended, and will continue to depend, upon a small number of customers for a significant percentage of our revenues. During the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, we had two customers and three customers, respectively, that each contributed 10% or more of our revenues. Such customers together accounted for 48.5% and 57.0% of our revenues during the respective periods. During the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, we had two customers and three customers, respectively, that each contributed 10% or more of our revenues. Such customers together accounted for 50.5% and 53.9% of our revenues during the respective periods. Dependence on a small number of customers means that a reduction in orders from, a loss of, or other adverse actions by any one of these customers would reduce our revenues and could have a material adverse effect on our business, financial condition and operating results.Further, our customer concentration increases the concentration of our accounts receivable and our exposure to payment default by any of our key customers. Many of our existing and potential customers have substantial debt burdens, have experienced financial distress or have static or declining revenues, all of which may be exacerbated by the current global economic downturn and subsequent adverse conditions in the credit markets, as well as the impact of the U.S.-China trade dispute. Certain of our customers have gone out of business, declared bankruptcy, been acquired, or announced their withdrawal from segments of the optics market. We generate significant accounts payable and inventory for the services that we provide to our customers, which could expose us to substantial and potentially unrecoverable costs if we do not receive payment from our customers.Our reliance on a small number of customers gives our customers substantial purchasing power and leverage in negotiating contracts with us. In addition, although we enter into master supply agreements with our customers, the level of business to be transacted under those agreements is not guaranteed. Instead, we are awarded business under those agreements 41Table of Contentson a project-by-project basis. Some of our customers have at times significantly reduced or delayed the volume of manufacturing services that they order from us. If we are unable to maintain our relationships with our existing significant customers, our business, financial condition and operating results could be harmed.Consolidation in the markets we serve could harm our business, financial condition and operating results.Consolidation in the markets we serve has resulted in a reduction in the number of potential customers for our services. For example, Lumentum Holdings Inc. completed its acquisition of NeoPhotonics Corporation in August 2022; Coherent Corp. (formerly known as II-VI Incorporated) completed its acquisition of Coherent, Inc. in July 2022; and Cisco Systems, Inc. completed its acquisition of Acacia Communications Inc. in March 2021. In some cases, consolidation among our customers has led to a reduction in demand for our services as customers have acquired the capacity to manufacture products in-house.Consolidation among our customers and their customers will continue to adversely affect our business, financial condition and operating results in several ways. Consolidation among our customers and their customers may result in a smaller number of large customers whose size and purchasing power give them increased leverage that may result in, among other things, decreases in our average selling prices. In addition to pricing pressures, this consolidation may also reduce overall demand for our manufacturing services if customers obtain new capacity to manufacture products in-house or discontinue duplicate or competing product lines in order to streamline operations. If demand for our manufacturing services decreases, our business, financial condition and operating results could be harmed.If the optical communications market does not expand as we expect, our business may not grow as fast as we expect, which could adversely impact our business, financial condition and operating results.Revenues from optical communications products represented 77.6% and 79.7% of our revenues for the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, respectively. Our future success as a provider of precision optical, electro-mechanical and electronic manufacturing services for the optical communications market depends on the continued growth of the optics industry and, in particular, the continued expansion of global information networks, particularly those directly or indirectly dependent upon a fiber optic infrastructure. As part of that growth, we anticipate that demand for voice, video, and other data services delivered over high-speed connections (both wired and wireless) will continue to increase. Without network and bandwidth growth, the need for enhanced communications products would be jeopardized. Currently, demand for network services and for high-speed broadband access, in particular, is increasing but growth may be limited by several factors, including, among others: (1) relative strength or weakness of the global economy or the economy in certain countries or regions, (2) an uncertain regulatory environment, and (3) uncertainty regarding long-term sustainable business models as multiple industries, such as the cable, traditional telecommunications, wireless and satellite industries, offer competing content delivery solutions. The optical communications market also has experienced periods of overcapacity, some of which have occurred even during periods of relatively high network usage and bandwidth demands. If the factors described above were to slow, stop or reverse the expansion in the optical communications market, our business, financial condition and operating results would be negatively affected.Our quarterly revenues, gross profit margins and operating results have fluctuated significantly and may continue to do so in the future, which may cause the market price of our ordinary shares to decline or be volatile.Our quarterly revenues, gross profit margins, and operating results have fluctuated significantly and may continue to fluctuate significantly in the future. For example, any of the risks described in this â€œRisk Factorsâ€ section and, in particular, the following factors, could cause our revenues, gross profit margins, and operating results to fluctuate from quarter to quarter:â€¢any reduction in customer demand or our ability to fulfill customer orders as a result of disruptions in our supply chain;â€¢our ability to acquire new customers and retain our existing customers;â€¢the cyclicality of the optical communications, automotive, industrial lasers, medical and sensors markets;â€¢competition;â€¢our ability to achieve favorable pricing for our services;â€¢the effect of fluctuations in foreign currency exchange rates;â€¢our ability to manage our headcount and other costs; andâ€¢changes in the relative mix in our revenues.42Table of ContentsTherefore, we believe that quarter-to-quarter comparisons of our operating results may not be useful in predicting our future operating results. You should not rely on our results for one quarter as any indication of our future performance. Quarterly variations in our operations could result in significant volatility in the market price of our ordinary shares.If we are unable to continue diversifying our precision optical and electro-mechanical manufacturing services across other markets within the optics industry, such as the semiconductor processing, biotechnology, metrology and material processing markets, or if these markets do not grow as fast as we expect, our business may not grow as fast as we expect, which could adversely impact our business, financial condition and operating results.We intend to continue diversifying across other markets within the optics industry, such as the semiconductor processing, biotechnology, metrology, and material processing markets, to reduce our dependence on the optical communications market and to grow our business. Currently, the optical communications market contributes the significant majority of our revenues. There can be no assurance that our efforts to further expand and diversify into other markets within the optics industry will prove successful or that these markets will continue to grow as fast as we expect. If the opportunities presented by these markets prove to be less than anticipated, if we are less successful than expected in diversifying into these markets, or if our margins in these markets prove to be less than expected, our growth may slow or stall, and we may incur costs that are not offset by revenues in these markets, all of which could harm our business, financial condition and operating results.We face significant competition in our business. If we are unable to compete successfully against our current and future competitors, our business, financial condition and operating results could be harmed.Our current and prospective customers tend to evaluate our capabilities against the merits of their internal manufacturing as well as the capabilities of other third-party manufacturers. We believe the internal manufacturing capabilities of current and prospective customers are our primary competition. This competition is particularly strong when our customers have excess manufacturing capacity, as was the case when the markets that we serve experienced a significant downturn in 2008 and 2009 that resulted in underutilized capacity. Should our existing and potential customers have excess manufacturing capacity at their facilities, it could adversely affect our business. In addition, as a result of the 2011 flooding in Thailand, some of our customers began manufacturing products internally or using other third-party manufacturers that were not affected by the flooding. If our customers choose to manufacture products internally rather than to outsource production to us, or choose to outsource to a different third-party manufacturer, our business, financial condition and operating results could be harmed.Competitors in the market for optical manufacturing services include Benchmark Electronics, Inc., Celestica Inc.,

Sanmina-SCI Corporation, Jabil Circuit, Inc., Venture Corporation Limited, and InnoLight Technology (Suzhou) Ltd. Our customized optics and glass operations face competition from companies such as Fujian Castech Crystals, Inc., Photop Technologies, Inc., and Research Electro-Optic, Inc. Other existing contract manufacturing companies, original design manufacturers or outsourced semiconductor assembly and test companies could also enter our target markets. In addition, we may face new competitors as we attempt to penetrate new markets.Many of our customers and potential competitors have longer operating histories, greater name recognition, larger customer bases and significantly greater resources than we have. These advantages may allow them to devote greater resources than we can to the development and promotion of service offerings that are similar or superior to our service offerings. These competitors may also engage in more extensive research and development, undertake more far-reaching marketing campaigns, adopt more aggressive pricing policies or offer services that achieve greater market acceptance than ours. These competitors may also compete with us by making more attractive offers to our existing and potential employees, suppliers, and strategic partners. Further, consolidation in the optics industry could lead to larger and more geographically diverse competitors. New and increased competition could result in price reductions for our services, reduced gross profit margins or loss of market share. We may not be able to compete successfully against our current and future competitors, and the competitive pressures we face may harm our business, financial condition and operating results.43Table of ContentsCancellations, delays or reductions of customer orders and the relatively short-term nature of the commitments of our customers could harm our business, financial condition and operating results.We do not typically obtain firm purchase orders or commitments from our customers that extend beyond 13 weeks. While we work closely with our customers to develop forecasts for periods of up to one year, these forecasts are not binding and may be unreliable. Customers may cancel their orders, change production quantities from forecasted volumes or delay production for a number of reasons beyond our control. Any material delay, cancellation or reduction of orders could cause our revenues to decline significantly and could cause us to hold excess materials. Many of our costs and operating expenses are fixed. As a result, a reduction in customer demand could decrease our gross profit and harm our business, financial condition and operating results. In addition, we make significant decisions with respect to production schedules, material procurement commitments, personnel needs and other resource requirements based on our estimate of our customersâ€™ requirements. The short-term nature of our customersâ€™ commitments and the possibility of rapid changes in demand for their products reduce our ability to accurately estimate the future requirements of our customers. Inability to forecast the level of customer orders with certainty makes it difficult to allocate resources to specific customers, order appropriate levels of materials and maximize the use of our manufacturing capacity. This could also lead to an inability to meet a spike in production demand, all of which could harm our business, financial condition and operating results.Our exposure to financially troubled customers or suppliers could harm our business, financial condition and operating results.Some of our customers and suppliers have in the past and may in the future experience financial difficulty, particularly in light of adverse conditions in the credit markets that have affected access to capital and liquidity. In addition, the failures of Silicon Valley Bank and Signature Bank in March 2023 created significant market disruption and uncertainty within the U.S. banking sector, in particular with respect to regional banks. During challenging economic times, our customers may face difficulties in gaining timely access to sufficient credit, which could impact their ability to make timely payments to us. As a result, we devote significant resources to monitor receivables and inventory balances with certain of our customers. If our customers experience financial difficulty, we could have difficulty recovering amounts owed to us from these customers, or demand for our services from these customers could decline. If our suppliers experience financial difficulty, we could have trouble sourcing materials necessary to fulfill production requirements and meet scheduled shipments. Any such financial difficulty could adversely affect our operating results and financial condition by resulting in a reduction in our revenues, a charge for inventory write-offs, a provision for expected credit losses, and larger working capital requirements due to increased days in inventory and days in accounts receivable.We purchase some of the critical materials used in certain of our products from a single source or a limited number of suppliers. Supply shortages have in the past, and could in the future, impair the quality, reduce the availability or increase the cost of materials, which could harm our revenues, profitability and customer relations.We rely on a single source or a limited number of suppliers for critical materials used in a significant number of the products we manufacture. We generally purchase these single or limited source materials through standard purchase orders and do not maintain long-term supply agreements with our suppliers. We generally use a rolling 12-month forecast based on anticipated product orders, customer forecasts, product order history, backlog, and warranty and service demand to determine our materials requirements. Lead times for the parts and components that we order vary significantly and depend on factors such as manufacturing cycle times, manufacturing yields, and the availability of raw materials used to produce the parts or components. Historically, we have experienced supply shortages resulting from various causes, including reduced yields by our suppliers, which prevented us from manufacturing products for our customers in a timely manner. The semiconductor supply chain is complex, and, in recent years, there has been a significant global shortage of semiconductors. Demand for consumer electronics surged during the COVID-19 pandemic and remains strong, which in turn has increased the demand for semiconductors. At the same time, wafer foundries that support chipmakers have not invested enough in recent years to increase capacities to the levels needed to support the increased demand from all of their customers. Further exacerbating the shortage is the long production lead-time for wafers, which can be as long as 30 weeks in some cases. A shortage of semiconductors or other key components can cause a significant disruption to our production schedule and have a substantial adverse effect on our business, financial condition and operating results.Our revenues, profitability and customer relations will be harmed by continued fluctuations in the availability of materials, a stoppage or delay of supply, a substitution of more expensive or less reliable parts, the receipt of defective parts or contaminated materials, an increase in the price of supplies, or an inability to obtain reductions in price from our suppliers in response to competitive pressures. We continue to undertake programs to strengthen our supply chain. Nevertheless, we are 44Table of Contentsexperiencing, and expect for the foreseeable future to experience, strain on our supply chain, as well as periodic supplier problems. These supply chain issues have impacted, and will continue to impact, our ability to generate revenue. In addition, we have incurred, and expect for the foreseeable future to incur, increased costs related to our efforts to address these problems.Managing our inventory is complex and may require write-downs due to excess or obsolete inventory, which could cause our operating results to decrease significantly in a given fiscal period.Managing our inventory is complex. We are generally required to procure materials based upon the anticipated demand of our customers. The inaccuracy of these forecasts or estimates could result in excess supply or shortages of certain materials. Inventory that is not used or expected to be used as and when planned may become excess or obsolete. Generally, we are unable to use most of the materials purchased for one of our customers to manufacture products for any of our other customers. Additionally, we could experience reduced or delayed product shipments or incur additional inventory write-downs and cancellation charges or penalties, which would increase costs and could harm our business, financial condition and operating results. While our agreements with customers are structured to mitigate our risks related to excess or obsolete inventory, enforcement of these provisions may result in material expense, and delay in payment for inventory. If any of our significant customers becomes unable or unwilling to purchase inventory or does not agree to such contractual provisions in the future, our business, financial condition and operating results may be harmed.If we fail to adequately expand our manufacturing capacity, we will not be able to grow our business, which would harm our business, financial condition and operating results. Conversely, if we expand too much or too rapidly, we may experience excess capacity, which would harm our business, financial condition and operating results.We may not be able to pursue many large customer orders or sustain our historical growth rates if we do not have sufficient manufacturing capacity to enable us to commit to provide customers with specified quantities of products. If our customers do not believe that we have sufficient manufacturing capacity, they may: (1) outsource all of their production to another manufacturer that they believe can fulfill all of their production requirements; (2) look to a second manufacturer for the manufacture of additional quantities of the products that we currently manufacture for them; (3) manufacture the products themselves; or (4) decide against using our services for their new products.Most recently, we expanded our manufacturing capacity by building a new facility at our Chonburi campus in Thailand in 2022. We may continue to devote significant resources to the expansion of our manufacturing capacity, and any such expansion will be expensive, will require managementâ€™s time and may disrupt our operations. In the event we are unsuccessful in our attempts to expand our manufacturing capacity, our business, financial condition and operating results could be harmed.However, if we successfully expand our manufacturing capacity but are unable to promptly utilize the additional space due to reduced demand for our services or an inability to win new projects, add new customers or penetrate new markets, or if the optics industry does not grow as we expect, we may experience periods of excess capacity, which could harm our business, financial condition and operating results.We may experience manufacturing yields that are lower than expected, potentially resulting in increased costs, which could harm our business, operating results and customer relations.Manufacturing yields depend on a number of factors, including the following:â€¢the quality of input, materials and equipment;â€¢the quality and feasibility of our customerâ€™s design;â€¢the repeatability and complexity of the manufacturing process;â€¢the experience and quality of training of our manufacturing and engineering teams; andâ€¢the monitoring of the manufacturing environment.Lower volume production due to continually changing designs generally results in lower yields. Manufacturing yields and margins can also be lower if we receive or inadvertently use defective or contaminated materials from our suppliers. In addition, our customer contracts typically provide that we will supply products at a fixed price each quarter, which assumes specific production yields and quality metrics. If we do not meet the yield assumptions and quality metrics used in calculating the price of a product, we may not be able to recover the costs associated with our failure to do so. Consequently, our operating results and profitability may be harmed.45Table of ContentsIf the products that we manufacture contain defects, we could incur significant correction costs, demand for our services may decline and we may be exposed to product liability and product warranty claims, which could harm our business, financial condition, operating results and customer relations.We manufacture products to our customersâ€™ specifications, and our manufacturing processes and facilities must comply with applicable statutory and regulatory requirements. In addition, our customersâ€™ products and the manufacturing processes that we use to produce them are often complex. As a result, products that we manufacture may at times contain manufacturing or design defects, and our manufacturing processes may be subject to errors or fail to be in compliance with applicable statutory or regulatory requirements. Additionally, not all defects are immediately detectable. The testing procedures of our customers are generally limited to the evaluation of the products that we manufacture under likely and foreseeable failure scenarios. For various reasons (including, among others, the occurrence of performance problems that are unforeseeable at the time of testing or that are detected only when products are fully deployed and operated under peak stress conditions), these products may fail to perform as expected after their initial acceptance by a customer.We generally provide a warranty of between one to five years on the products that we manufacture for our customers. This warranty typically guarantees that products will conform to our customersâ€™ specifications and be free from defects in workmanship. Defects in the products we manufacture, whether caused by a design, engineering, manufacturing or component failure or by deficiencies in our manufacturing processes, and whether such defects are discovered during or after the warranty period, could result in product or component failures, which may damage our business reputation, whether or not we are indemnified for such failures. We could also incur significant costs to repair or replace defective products under warranty, particularly when such failures occur in installed systems. In some instances, we may also be required to incur costs to repair or replace defective products outside of the warranty period in the event that a recurring defect is discovered in a certain percentage of a customerâ€™s products delivered over an agreed upon period of time. We have experienced product or component failures in the past and remain exposed to such failures, as the products that we manufacture are widely deployed throughout the world in multiple environments and applications. Further, due to the difficulty in determining whether a given defect resulted from our customerâ€™s design of the product or our manufacturing process, we may be exposed to product liability or product warranty claims arising from defects that are not attributable to our manufacturing process. In addition, if the number or type of defects exceeds certain percentage limitations contained in our contractual arrangements, we may be required to conduct extensive failure analysis, re-qualify for production or cease production of the specified products.Product liability claims may include liability for personal injury or property damage. Product warranty claims may include liability for a recall, repair or replacement of a product or component. Although liability for these claims is generally assigned to our customers in our contracts, even where they have assumed liability our customers may not, or may not have the resources to, satisfy claims for costs or liabilities arising from a defective product. Additionally, under one of our contracts, in the event the products we manufacture do not meet the end-customerâ€™s testing requirements or otherwise fail, we may be required to pay penalties to our customer, including a fee during the time period that the customer or end-customerâ€™s production line is not operational as a result of the failure of the products that we manufacture, all of which could harm our business, operating results and customer relations. If we engineer or manufacture a product that is found to cause any personal injury or property damage or is otherwise found to be defective, we could incur significant costs to resolve the claim. While we maintain insurance for certain product liability claims, we do not maintain insurance for any recalls and, therefore, would be required to pay any associated costs that are determined to be our responsibility. A successful product liability or product warranty claim in excess of our insurance coverage or any material claim for which insurance coverage is denied, limited, is not available or has not been obtained could harm our business, financial condition and operating results.If we fail to attract additional skilled employees or retain key personnel, our business, financial condition and operating results could suffer.Our future success depends, in part, upon our ability to attract additional skilled employees and retain our current key personnel. We have identified several areas where we intend to expand our hiring, including business development, finance, human resources, operations and supply chain management. We may not be able to hire and retain such personnel at compensation levels consistent with our existing compensation and salary structure. Our future also depends on the continued contributions of our executive management team and other key management and technical personnel, each of whom would be difficult to replace. Although we have key person life insurance policies on some of our executive officers, the loss of any of our executive officers or key personnel or the inability to continue to attract qualified personnel could harm our business, financial condition and operating results.46Table of ContentsRisks Related to Our International OperationsFluctuations in foreign currency exchange rates and changes in governmental policies regarding foreign currencies could increase our operating costs, which would adversely affect our operating results.Volatility in the functional and non-functional currencies of our entities and the U.S. dollar could seriously harm our business, financial condition and operating results. The primary impact of currency exchange fluctuations is on our cash, receivables, and payables of our operating entities. We may experience significant unexpected losses from fluctuations in exchange rates. For example, in the three months ended September 27, 2024, we experienced a $7.1 million foreign exchange loss, which negatively affected our net income per share for the same period by $0.19.Our customer contracts generally require that our customers pay us in U.S. dollars. However, the majority of our payroll and other operating expenses are paid in Thai baht. As a result of these arrangements, we have significant exposure to changes in the exchange rate between the Thai baht and the U.S. dollar, and our operating results are adversely impacted when the U.S. dollar depreciates relative to the Thai baht and other currencies. As of DecemberÂ 27, 2024, the U.S. dollar had depreciated approximately 1.2% against the Thai baht since DecemberÂ 30, 2022. While we attempt to hedge against certain exchange rate risks, we typically enter into hedging contracts with maturities of up to 12 months, leaving us exposed to longer term changes in exchange rates.Additionally, we have significant exposure to changes in the exchange rate between the Chinese Renminbi (â€œRMBâ€) and the U.S. dollar. The expenses of our subsidiaries located in the PRC are denominated in RMB. Currently, RMB are convertible in connection with trade and service-related foreign exchange transactions, foreign debt service, and payment of dividends. The PRC government may at its discretion restrict access in the future to foreign currencies for current account transactions. If this occurs, our PRC subsidiary may not be able to pay us dividends in U.S. dollars without prior approval from the PRC State Administration of Foreign Exchange. In addition, conversion of RMB for most capital account items, including direct investments, is still subject to government approval in the PRC. This restriction may limit our ability to invest the earnings of our PRC subsidiary. As of DecemberÂ 27, 2024, the U.S. dollar had depreciated approximately 4.8% against the RMB since DecemberÂ 30, 2022. There remains significant international pressure on the PRC government to adopt a substantially more liberalized currency policy. Any appreciation in the value of the RMB against the U.S. dollar could negatively impact our operating results.We conduct operations in a number of countries, which creates logistical and communications challenges for us and exposes us to other risks and challenges that could harm our business, financial condition and operating results.The vast majority of our operations, including manufacturing and customer support, are located primarily in the Asia- Pacific region. The distances between Thailand, the PRC and our customers and suppliers globally create a number of logistical and communications challenges for us, including managing operations across multiple time zones, directing the manufacture and delivery of products across significant distances, coordinating the procurement of raw materials and their delivery to multiple locations and coordinating the activities and decisions of our management team, the members of which are based in different countries.Our customers are located throughout the world, and our principal manufacturing facilities are located in Thailand. Revenues from the bill-to-location of customers outside of North America accounted for 55.3% and 66.1% of our revenues for the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023, respectively. We expect that revenues from the bill-to-location of customers outside of North America will continue to account for a significant portion of our revenues.

Our customers also depend on international sales, which further exposes us to the risks associated with international operations. Conducting business outside the United States subjects us to a number of risks and challenges, including:â€¢compliance with a variety of domestic and foreign laws and regulations, including trade regulatory requirements;â€¢periodic changes in a specific country or regionâ€™s economic conditions, such as recession;â€¢unanticipated restrictions on our ability to sell to foreign customers where sales of products and the provision of services may require export licenses or are prohibited by government action (for example, the U.S. Department of Commerce has prohibited the export and sale of a broad category of U.S. products, as well as the provision of services, to ZTE Corporation and to Huawei, both of which are customers of certain of our customers);â€¢fluctuations in currency exchange rates;â€¢inadequate protection of intellectual property rights in some countries; and47Table of Contentsâ€¢political, legal and economic instability, foreign armed conflicts (such as the Israel-Hamas war and the Russia-Ukraine war), and the impact of regional and global infectious illnesses in the countries in which we and our customers and suppliers are located.Our failure to manage the risks and challenges associated with our international operations could have a material adverse effect on our business.We are subject to governmental export and import controls in several jurisdictions that subject us to a variety of risks, including liability, impairment of our ability to compete in international markets, and decreased sales and customer orders.We are subject to governmental export and import controls in Thailand, the PRC, Israel and the United States that may limit our business opportunities. Various countries regulate the import of certain technologies and have enacted laws or taken actions that could limit (1) our ability to export or sell the products we manufacture and (2) our customersâ€™ ability to export or sell products that we manufacture for them. The export of certain technologies from the United States and other nations to the PRC is barred by applicable export controls, and similar prohibitions could be extended to Thailand, thereby limiting our ability to manufacture certain products. Any change in export or import regulations or related legislation, shift in approach to the enforcement of existing regulations, or change in the countries, persons or technologies targeted by such regulations could limit our ability to offer our manufacturing services to existing or potential customers, which could harm our business, financial condition and operating results.For example, the May 2019 addition of Huawei and certain affiliates by the U.S. Commerce Departmentâ€™s Bureau of Industry and Security ("BIS") to the BIS Entity List denied Huawei the ability to purchase products, software and technology that are subject to U.S. Export Administration Regulations. Although we do not sell directly to Huawei, some of our customers do sell to Huawei (and its affiliates) directly. To ensure compliance, some of our customers immediately suspended shipments to Huawei in order to assess whether their products were subject to the restrictions resulting from the ban. This had an immediate impact on our customer orders in the three months ended June 28, 2019, which affected our revenue for that quarter. We expect this ban to continue to adversely affect orders from our customers for the foreseeable future.We are subject to risks related to the ongoing U.S.-China trade dispute, including increased tariffs on materials that we use in manufacturing, which could adversely affect our business, financial condition and operating results.In August 2019, the U.S. imposed tariffs on a wide range of products and goods manufactured in the PRC that are directly or indirectly imported into the U.S. Although the U.S. announced on January 15, 2020 the reduction of certain tariffs on Chinese imported goods and delayed the implementation of certain other related tariffs, we have no assurance that the U.S. will not continue to increase or impose tariffs on imports from the PRC or alter trade agreements and terms between the PRC and the U.S., which may include limiting trade with the PRC. Trade restrictions, including tariffs, quotas, embargoes, safeguards and customs restrictions, could increase the cost of materials we use to manufacture certain products, which could result in lower margins. The tariffs could also result in disruptions to our supply chain, as suppliers struggle to fill orders from companies trying to purchase goods in bulk ahead of announced tariffs taking effect. The adoption of trade tariffs both globally and between the U.S. and the PRC specifically could also cause a decrease in the sales of our customersâ€™ products to end-users located in the PRC, which could directly impact our revenues in the form of reduced orders. If existing tariffs are raised further, or if new tariffs are imposed on additional categories of components used in our manufacturing activities, and if we are unable to pass on the costs of such tariffs to our customers, our operating results would be harmed.Political unrest and demonstrations, as well as changes in the political, social, business or economic conditions in Thailand, could harm our business, financial condition and operating results.The majority of our assets and manufacturing operations are located in Thailand. Therefore, political, social, business and economic conditions in Thailand have a significant effect on our business. Any changes to tax regimes, laws, exchange controls or political action in Thailand may harm our business, financial condition and operating results.Thailand has a history of political unrest that includes the involvement of the military as an active participant in the ruling government. In recent years, political unrest in the country has sparked political demonstrations and, in some instances, violence. Any future political instability in Thailand could prevent shipments from entering or leaving the country, disrupt our ability to manufacture products in Thailand, and force us to transfer our operations to more stable, and potentially more costly, regions, which would harm our business, financial condition and operating results.48Table of ContentsFurther, the Thai government may raise the minimum wage standards for labor and could repeal certain promotional certificates that we have received or tax holidays for certain export and value added taxes that we enjoy, either preventing us from engaging in our current or anticipated activities or subjecting us to higher tax rates.We expect to continue to invest in our manufacturing operations in the People's Republic of China ("PRC"), which will continue to expose us to risks inherent in doing business in the PRC, any of which risks could harm our business, financial condition and operating results.We anticipate that we will continue to invest in our customized optics manufacturing facilities located in Fuzhou, the PRC. Because these operations are located in the PRC, they are subject to greater political, legal and economic risks than the geographies in which the facilities of many of our competitors and customers are located. In particular, the political and economic climate in the PRC (both at national and regional levels) is fluid and unpredictable. A large part of the PRCâ€™s economy is still being operated under varying degrees of control by the PRC government. By imposing industrial policies and other economic measures, such as control of foreign exchange, taxation, import and export tariffs, environmental regulations, land use rights, intellectual property and restrictions on foreign participation in the domestic market of various industries, the PRC government exerts considerable direct and indirect influence on the development of the PRC economy. Many of the economic reforms carried out by the PRC government are unprecedented or experimental and are expected to change further. Any changes to the political, legal or economic climate in the PRC could harm our business, financial condition and operating results.Our PRC subsidiary is a â€œwholly foreign-owned enterpriseâ€ and is therefore subject to laws and regulations applicable to foreign investment in the PRC, in general, and laws and regulations applicable to wholly foreign-owned enterprises, in particular. The PRC has made significant progress in the promulgation of laws and regulations pertaining to economic matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. However, the promulgation of new laws, changes in existing laws and abrogation of local regulations by national laws may have a negative impact on our business and prospects. In addition, these laws and regulations are relatively new, and published cases are limited in volume and non-binding. Therefore, the interpretation and enforcement of these laws and regulations involve significant uncertainties. Laws may be changed with little or no prior notice, for political or other reasons. These uncertainties could limit the legal protections available to foreign investors. Furthermore, any litigation in the PRC may be protracted and result in substantial costs and diversion of resources and managementâ€™s attention.Natural disasters, epidemics, acts of terrorism and political and economic developments could harm our business, financial condition and operating results.Natural disasters could severely disrupt our manufacturing operations and increase our supply chain costs. These events, over which we have little or no control, could cause a decrease in demand for our services, make it difficult or impossible for us to manufacture and deliver products or for our suppliers to deliver components allowing us to manufacture those products, require large expenditures to repair or replace our facilities, or create delays and inefficiencies in our supply chain. For example, the 2011 flooding in Thailand forced us to temporarily shut down all of our manufacturing facilities in Thailand and cease production permanently at our former Chokchai facility, which adversely affected our ability to meet our customersâ€™ demands during fiscal year 2012.In some countries in which we operate, including the PRC, the U.S., and Thailand, outbreaks of infectious diseases such as COVID-19, H1N1 influenza virus, severe acute respiratory syndrome or bird flu could disrupt our manufacturing operations, reduce demand for our customersâ€™ products and increase our supply chain costs. For example, the outbreak of COVID-19 resulted in a two-week suspension of operations at our facility in Fuzhou, the PRC in February 2020 and caused labor shortages for us and some of our suppliers and customers in the PRC during the three months ended March 27, 2020, which negatively affected our revenues during the same period.In addition, increased international political instability, the threat or occurrence of terrorist attacks, conflicts in the Middle East, Asia and Europe (including the Israel-Hamas war and the Russia-Ukraine war), strained international relations arising from these conflicts and the related decline in consumer confidence and economic weakness, may hinder our ability to do business. Any escalation in these events or similar future events may disrupt our operations and the operations of our customers and suppliers and may affect the availability of materials needed for our manufacturing services. Such events may also disrupt the transportation of materials to our manufacturing facilities and finished products to our customers. These events have had, and may continue to have, an adverse impact on the U.S. and world economy in general, and customer confidence and spending in particular, which in turn could adversely affect our total revenues and operating results. The impact of these events on the volatility of the U.S. and world financial markets also could increase the volatility of the market price of our ordinary shares and may limit the capital resources available to us, our customers and our suppliers.49Table of ContentsFinancial RisksUnfavorable worldwide economic conditions (including inflation and supply chain disruptions) may negatively affect our business, financial condition and operating results.The current volatility and adverse conditions in the capital and credit markets have negatively affected levels of business and consumer spending, heightening concerns about the likelihood of a global recession and potential default of various national bonds and debt backed by individual countries. Such developments, as well as the policies impacting these, could adversely affect our financial results. In particular, the economic disruption caused by COVID-19 has led to reduced demand in some of our customersâ€™ optical communications product portfolios and significant volatility in global stock markets and currency exchange rates. Uncertainty about worldwide economic conditions poses a risk as businesses may further reduce or postpone spending in response to reduced budgets, tight credit, negative financial news and declines in income or asset values, which could adversely affect our business, financial condition and operating results and increase the volatility of our share price. In addition, our ability to access capital markets may be restricted, which could have an impact on our ability to react to changing economic and business conditions and could also adversely affect our business, financial condition and operating results.In 2022 and 2023, inflation increased globally to levels not seen in decades. Although inflation rates have recently declined, inflation can adversely affect us by increasing the costs of labor and other expenses. There is no assurance that our revenues will increase at the same rate to maintain the same level of profitability. Inflation and government efforts to combat inflation, such as raising the benchmark interest rate, could increase market volatility and have an adverse effect on the financial market and global economy. In addition, we expect that disruptions in our supply chain and fluctuations in the availability of parts and materials will continue to have a significant impact on our ability to generate revenue, despite strong demand from our customers. Such adverse conditions could negatively impact demand for our products, which could adversely affect our business, financial condition and operating results.We may not be able to obtain capital when desired on favorable terms, if at all, or without dilution to our shareholders.We anticipate that our current cash and cash equivalents, together with cash provided by operating activities and funds available through our working capital and credit facilities, will be sufficient to meet our current and anticipated needs for general corporate purposes for at least the next 12 months. However, we operate in a market that makes our prospects difficult to evaluate. It is possible that we may not generate sufficient cash flow from operations or otherwise have the capital resources to meet our future capital needs. If this occurs, we may need additional financing to execute on our current or future business strategies.Furthermore, if we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership of our shareholders could be significantly diluted, and these newly-issued securities may have rights, preferences or privileges senior to those of existing shareholders. If adequate additional funds are not available or are not available on acceptable terms, if and when needed, our ability to fund our operations, take advantage of unanticipated opportunities, develop or enhance our manufacturing services, hire additional technical and other personnel, or otherwise respond to competitive pressures could be significantly limited.Our investment portfolio may become impaired by deterioration of the capital markets.We use professional investment management firms to manage our excess cash and cash equivalents. Our short-term investments as of DecemberÂ 27, 2024 are primarily investments in a fixed income portfolio, including liquidity funds, certificates of deposit and time deposits, corporate debt securities, and U.S. agency and U.S. Treasury securities. Our investment portfolio may become impaired by deterioration of the capital markets. We follow an established investment policy and set of guidelines to monitor and help mitigate our exposure to interest rate and credit risk. The policy sets forth credit quality standards and limits our exposure to any one issuer, as well as our maximum exposure to various asset classes. The policy also provides that we may not invest in short-term investments with a maturity in excess of three years.Should financial market conditions worsen, investments in some financial instruments may pose risks arising from market liquidity and credit concerns. In addition, any deterioration of the capital markets could cause our other income and expense to vary from expectations. As of DecemberÂ 27, 2024, we did not record any impairment charges associated with our portfolio of short-term investments, and although we believe our current investment portfolio has little risk of material impairment, we cannot predict future market conditions or market liquidity, or credit availability, and can provide no assurance that our investment portfolio will remain materially unimpaired.50Table of ContentsWe are not fully insured against all potential losses. Natural disasters or other catastrophes could adversely affect our business, financial condition and operating results.Our current property and casualty insurance covers loss or damage to our property and third-party property over which we have custody and control, as well as losses associated with business interruption, subject to specified exclusions and limitations such as coinsurance, facilities location sub-limits and other policy limitations and covenants. Even with insurance coverage, natural disasters or other catastrophic events, including acts of war, could cause us to suffer substantial losses in our operational capacity and could also lead to a loss of opportunity and to a potential adverse impact on our relationships with our existing customers resulting from our inability to produce products for them, for which we might not be compensated by existing insurance. This in turn could have a material adverse effect on our business, financial condition and operating results.There are inherent uncertainties involved in estimates, judgments and assumptions used in the preparation of financial statements in accordance with U.S. GAAP. Any changes in estimates, judgments and assumptions could have a material adverse effect on our business, financial condition and operating results.The preparation of financial statements in accordance with U.S. GAAP involves making estimates, judgments and assumptions that affect reported amounts of assets (including intangible assets), liabilities and related reserves, revenues, expenses and income. Estimates, judgments and assumptions are inherently subject to change in the future, and any such changes could result in corresponding changes to the amounts of assets, liabilities, revenues, expenses and income. Any such changes could have a material adverse effect on our business, financial condition and operating results.Intellectual Property and Cybersecurity RisksOur business and operations would be adversely impacted in the event of a failure of our information technology infrastructure and/or cyber security attacks.We rely upon the capacity, availability and security of our information technology hardware and software infrastructure. For instance, we use a combination of standard and customized software platforms to manage, record, and report all aspects of our operations and, in many instances, enable our customers to remotely access certain areas of our databases to monitor yields, inventory positions, work-in-progress status and vendor quality data. We are constantly expanding and updating our information technology infrastructure in response to our changing needs. Any failure to manage, expand and update our information technology infrastructure or any failure in the operation of this infrastructure could harm our business.Despite our implementation of security measures, our systems are vulnerable to damage caused by computer viruses, natural disasters, unauthorized access and other similar disruptions. Any system failure, accident or security breach could result in disruptions to our operations. To the extent that any disruption, cyber-attack or other security breach results in a loss or damage to our data or inappropriate disclosure of confidential information, our business could be harmed. In addition, we may be required to incur significant costs to protect against damage caused by these disruptions or security breaches in the future.Intellectual property infringement claims against our customers or us could harm our business, financial condition and operating results.Our services involve the creation and use of intellectual property rights, which subject us to the risk of intellectual property infringement claims from third parties and claims arising from the allocation of intellectual property rights among us and our customers.Our customers may require that we indemnify them against the risk of intellectual property infringement arising out of our manufacturing processes. If any claims are brought against us or our customers for such infringement, whether or not these claims have merit, we could be required to expend significant resources in defense of such claims. In the event of an infringement claim, we may be required to spend a significant amount of time and money to develop non-infringing alternatives or obtain licenses. We may not be successful in developing such alternatives or obtaining such licenses on reasonable terms or at all, which could harm our business, financial condition and operating results.Any failure to protect our customersâ€™ intellectual property that we use in the products we manufacture for them could harm our customer relationships and subject us to liability.We focus on manufacturing complex optical products for our customers. These products often contain our customersâ€™ intellectual property, including trade secrets and know-how. Our success depends, in part, on our ability to protect our 51Table of Contentscustomersâ€™ intellectual property. We may maintain separate and secure areas for customer proprietary

manufacturing processes and materials and dedicate floor space, equipment, engineers and supply chain management to protect our customersâ€™ proprietary drawings, materials and products. The steps we take to protect our customersâ€™ intellectual property may not adequately prevent its disclosure or misappropriation. If we fail to protect our customersâ€™ intellectual property, our customer relationships could be harmed, and we may experience difficulty in establishing new customer relationships. In addition, our customers might pursue legal claims against us for any failure to protect their intellectual property, possibly resulting in harm to our reputation and our business, financial condition and operating results.Tax, Compliance and Regulatory RisksWe are subject to the risk of increased income taxes, which could harm our business, financial condition and operating results.We are subject to income and other taxes in Thailand, the PRC, the U.K., the U.S. and Israel. Our effective income tax rate, provision for income taxes and future tax liability could be adversely affected by numerous factors, including the results of tax audits and examinations, income before taxes being lower than anticipated in countries with lower statutory tax rates and higher than anticipated in countries with higher statutory tax rates, changes in income tax rates, changes in the valuation of deferred tax assets and liabilities, failure to meet obligations with respect to tax exemptions, and changes in tax laws and regulations. From time to time, we engage in discussions and negotiations with tax authorities regarding tax matters in various jurisdictions. As of DecemberÂ 27, 2024, our U.S. federal and state tax returns remain open to examination for the tax years 2019 through 2022. The Company is currently under examination by the U.S. Internal Revenue Service for the fiscal year ended June 24, 2022. In addition, tax returns that remain open to examination in Thailand, the PRC, the U.K. and Israel range from the tax years 2017 through 2023. The results of audits and examinations of previously filed tax returns and continuing assessments of our tax exposures may have an adverse effect on our provision for income taxes and tax liability.We base our tax position upon the anticipated nature and conduct of our business and upon our understanding of the tax laws of the various countries in which we have assets or conduct activities. However, our tax position is subject to review and possible challenge by tax authorities and to possible changes in law, which may have retroactive effect. Fabrinet (the â€œCayman Islands Parentâ€) is an exempted company incorporated in the Cayman Islands. We maintain manufacturing operations in Thailand, the PRC, the U.S. and Israel. We cannot determine in advance the extent to which some jurisdictions may require us to pay taxes or make payments in lieu of taxes. Under the current laws of the Cayman Islands, we are not subject to tax in the Cayman Islands on income or capital gains until March 6, 2039.Preferential tax treatment from the Thai government in the form of a corporate tax exemption on income generated from projects to manufacture certain products at our Chonburi campus is available to us through June 2026. Similar preferential tax treatment was available to us through June 2020 with respect to products manufactured at our Pinehurst campus. After June 2020, 50% of our income generated from products manufactured at our Pinehurst campus will be exempted from tax through June 2025. Preferential tax treatment is available to us for products manufactured at our Chonburi campus Building 9, where income generated will be tax exempt through 2031, capped at our actual investment amount. Such preferential tax treatment is contingent on various factors, including the export of our customersâ€™ products out of Thailand and our agreement not to move our manufacturing facilities out of our current province in Thailand for at least 15 years from the date on which preferential tax treatment was granted. We will lose this favorable tax treatment in Thailand unless we comply with these restrictions, and as a result we may delay or forego certain strategic business decisions due to these tax considerations.There is also a risk that Thailand or another jurisdiction in which we operate may treat the Cayman Islands Parent as having a permanent establishment in such jurisdiction and subject its income to tax. If we become subject to additional taxes in any jurisdiction or if any jurisdiction begins to treat the Cayman Islands Parent as having a permanent establishment, such tax treatment could materially and adversely affect our business, financial condition and operating results.Certain of our subsidiaries provide products and services to, and may from time to time undertake certain significant transactions with, us and our other subsidiaries in different jurisdictions. For instance, we have intercompany agreements in place that provide for our California and Singapore subsidiaries to provide administrative services for the Cayman Islands Parent, and the Cayman Islands Parent has entered into manufacturing agreements with our Thai subsidiary. In general, related party transactions and, in particular, related party financing transactions, are subject to close review by tax authorities. Moreover, several jurisdictions in which we operate have tax laws with detailed transfer pricing rules that require all transactions with non-resident related parties to be priced using armâ€™s length pricing principles and require the existence of contemporaneous documentation to support such pricing. Tax authorities in various jurisdictions could challenge the validity of our related party transfer pricing policies. Such a challenge generally involves a complex area of taxation and a significant 52Table of Contentsdegree of judgment by management. If any tax authorities are successful in challenging our financing or transfer pricing policies, our income tax expense may be adversely affected and we could become subject to interest and penalty charges, which may harm our business, financial condition and operating results.The Organization for Economic Co-operation and Development (OECD) announced that it has reached agreement among its member countries to implement Pillar Two rules, a global minimum tax at 15% for certain multinational enterprises. The OECD has issued Pillar Two model rules and continues to release guidance on these rules. Many countries have enacted tax laws that will take effect in 2024 and 2025 to implement Pillar Two rules, while other countries have announced plans to adopt these rules. We evaluated the applicable tax law changes resulting from Pillar Two implementation in the countries where we operate, and there was no material impact to our tax provision for the six months ended December 27, 2024. As additional jurisdictions enact such legislation in the future, our effective tax rate and cash tax payments could increase. We will continue to monitor legislative and regulatory developments related to global minimum tax matters to assess the impact on our business, financial condition and operating results.We have incurred and will continue to incur significant increased costs as a result of operating as a public company, and our management will be required to continue to devote substantial time to various compliance initiatives.The Sarbanes-Oxley Act of 2002, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as well as other rules implemented by the SEC and the New York Stock Exchange (â€œNYSEâ€), impose various requirements on public companies, including requiring changes in corporate governance practices. These and proposed corporate governance laws and regulations under consideration may further increase our compliance costs. If compliance with these various legal and regulatory requirements diverts our managementâ€™s attention from other business concerns, it could have a material adverse effect on our business, financial condition and operating results. The Sarbanes-Oxley Act requires, among other things, that we assess the effectiveness of our internal control over financial reporting annually and disclosure controls and procedures quarterly. While we were able to assert in our Annual Report on Form 10-K that our internal control over financial reporting was effective as of JuneÂ 28, 2024, we cannot predict the outcome of our testing in future periods. If we are unable to assert in any future reporting periods that our internal control over financial reporting is effective (or if our independent registered public accounting firm is unable to express an opinion on the effectiveness of our internal controls), we could lose investor confidence in the accuracy and completeness of our financial reports, which would have an adverse effect on our share price.Given the nature and complexity of our business and the fact that some members of our management team are located in Thailand while others are located in the U.S., control deficiencies may periodically occur. While we have ongoing measures and procedures to prevent and remedy control deficiencies, if they occur there can be no assurance that we will be successful or that we will be able to prevent material weaknesses or significant deficiencies in our internal control over financial reporting in the future. Moreover, if we identify deficiencies in our internal control over financial reporting that are deemed to be material weaknesses in future periods, the market price of our ordinary shares could decline and we could be subject to potential delisting by the NYSE and review by the NYSE, the SEC, or other regulatory authorities, which would require us to expend additional financial and management resources. As a result, our shareholders could lose confidence in our financial reporting, which would harm our business and the market price of our ordinary shares.If we are unable to meet regulatory quality standards applicable to our manufacturing and quality processes for the products we manufacture, our business, financial condition and operating results could be harmed.As a manufacturer of products for the optics industry, we are required to meet certain certification standards, including the following: ISO 9001 for Manufacturing Quality Management Systems; ISO 14001 for Environmental Management Systems; TL 9000 for Telecommunications Industry Quality Certification; IATF 16949 for Automotive Industry Quality Certification; ISO 13485 for Medical Devices Industry Quality Certification; AS 9100 for Aerospace Industry Quality Certification; NADCAP (National Aerospace and Defense Contractors Accreditation Program) for Quality Assurance throughout the Aerospace and Defense Industries; ISO 45001 for Occupational Health and Safety Management Systems; ISO/IEC 17025 for Testing and Calibration Laboratories Certification; ISO 22301 for Business Continuity Management Systems; and ISO/IEC 27001 for Information Security Management Systems. We also maintain compliance with various additional standards imposed by the FDA with respect to the manufacture of medical devices.Additionally, we are required to register with the FDA and other regulatory bodies and are subject to continual review and periodic inspection for compliance with various regulations, including testing, quality control and documentation procedures. We hold the following additional certifications: ANSI ESD S20.20 for facilities and manufacturing process control, in compliance with ESD standard; Transported Asset Protection Association ("TAPA") and Custom Trade Partnership Against Terrorism ("C-TPAT") for Logistic Security Management System; and CSR-DIW for Corporate Social Responsibility in Thailand. In the European Union, we are required to maintain certain ISO certifications in order to sell our precision optical, 53Table of Contentselectro-mechanical and electronic manufacturing services and we must undergo periodic inspections by regulatory bodies to obtain and maintain these certifications. If any regulatory inspection reveals that we are not in compliance with applicable standards, regulators may take action against us, including issuing a warning letter, imposing fines on us, requiring a recall of the products we manufactured for our customers, or closing our manufacturing facilities. If any of these actions were to occur, it could harm our reputation as well as our business, financial condition and operating results.Failure to comply with applicable environmental laws and regulations could have a material adverse effect on our business, financial condition and operating results.The sale and manufacturing of products in certain states and countries may subject us to environmental laws and regulations. In addition, rules adopted by the SEC implementing the Dodd- Frank Wall Street Reform and Consumer Protection Act of 2010 impose diligence and disclosure requirements regarding the use of â€œconflict mineralsâ€ mined from the Democratic Republic of Congo and adjoining countries in the products we manufacture for our customers. Compliance with these rules has resulted in additional cost and expense, including for due diligence to determine and verify the sources of any conflict minerals used in the products we manufacture, and may result in additional costs of remediation and other changes to processes or sources of supply as a consequence of such verification activities. These rules may also affect the sourcing and availability of minerals used in the products we manufacture, as there may be only a limited number of suppliers offering â€œconflict freeâ€ metals that can be used in the products we manufacture for our customers.Although we do not anticipate any material adverse effects based on the nature of our operations and these laws and regulations, we will need to ensure that we and, in some cases, our suppliers comply with applicable laws and regulations. If we fail to timely comply with such laws and regulations, our customers may cease doing business with us, which would have a material adverse effect on our business, financial condition and operating results. In addition, if we were found to be in violation of these laws, we could be subject to governmental fines, liability to our customers and damage to our reputation, which would also have a material adverse effect on our business, financial condition and operating results.Risks Related to Ownership of Our Ordinary SharesOur share price may be volatile due to fluctuations in our operating results and other factors, including the activities and operating results of our customers or competitors, any of which could cause our share price to decline.Our revenues, expenses and results of operations have fluctuated in the past and are likely to do so in the future from quarter-to-quarter and year-to-year due to the risk factors described in this section and elsewhere in this Quarterly Report on Form 10-Q. In addition to market and industry factors, the price and trading volume of our ordinary shares may fluctuate in response to a number of events and factors relating to us, our competitors, our customers and the markets we serve, many of which are beyond our control. Factors such as variations in our total revenues, earnings and cash flow, announcements of new investments or acquisitions, changes in our pricing practices or those of our competitors, commencement or outcome of litigation, sales of ordinary shares by us or our principal shareholders, fluctuations in market prices for our services and general market conditions could cause the market price of our ordinary shares to change substantially. Any of these factors may result in large and sudden changes in the volume and price at which our ordinary shares trade. Volatility and weakness in our share price could mean that investors may not be able to sell their shares at or above the prices they paid and could also impair our ability in the future to offer our ordinary shares or convertible securities as a source of additional capital and/or as consideration in the acquisition of other businesses.Furthermore, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. These broad market and industry fluctuations, as well as general economic, political and market conditions such as recessions, interest rate changes or international currency fluctuations, may cause the market price of our ordinary shares to decline. In the past, companies that have experienced volatility in the market price of their stock have been subject to securities class action litigation. We may be the target of this type of litigation in the future. Securities litigation against us could result in substantial costs and divert our managementâ€™s attention from other business concerns, which could seriously harm our business.If securities or industry analysts do not publish research or if they publish misleading or unfavorable research about our business, the market price and trading volume of our ordinary shares could decline.The trading market for our ordinary shares depends in part on the research and reports that securities or industry analysts publish about us or our business. If securities or industry analysts stop covering us, or if too few analysts cover us, the market price of our ordinary shares could be adversely impacted. If one or more of the analysts who covers us downgrades our ordinary 54Table of Contentsshares or publishes misleading or unfavorable research about our business, our market price would likely decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, demand for our ordinary shares could decrease, which could cause the market price or trading volume of our ordinary shares to decline.We may become a passive foreign investment company, which could result in adverse U.S. tax consequences to U.S. investors.Based upon estimates of the value of our assets, which are based in part on the trading price of our ordinary shares, we do not expect to be a passive foreign investment company (â€œPFICâ€) for U.S. federal income tax purposes for the taxable year 2024 or for the foreseeable future. However, despite our expectations, we cannot guarantee that we will not become a PFIC for the taxable year 2024 or any future year because our PFIC status is determined at the end of each year and depends on thecomposition of our income and assets during such year. If we become a PFIC, our U.S. investors will be subject to increased tax liabilities under U.S. tax laws and regulations as well as burdensome reporting requirements.Our business and share price could be negatively affected as a result of activist shareholders.If an activist investor takes an ownership position in our ordinary shares, responding to actions by such activist shareholder could be costly and time-consuming, disrupt our operations and divert the attention of management and our employees. Additionally, perceived uncertainties as to our future direction as a result of shareholder activism or changes to the composition of our board of directors may lead to the perception of a change in the direction of our business or other instability, which may be exploited by our competitors, cause concern to our current or potential customers, and make it more difficult to attract and retain qualified personnel. If customers choose to delay, defer or reduce transactions with us or do business with our competitors instead of us because of any such issues, then our business, financial condition and operating results would be adversely affected. In addition, our share price could experience periods of increased volatility as a result of shareholder activism.Certain provisions in our constitutional documents may discourage our acquisition by a third party, which could limit our shareholders' opportunity to sell shares at a premium.Our constitutional documents include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change-of-control transactions, including, among other things, provisions that:â€¢establish a classified board of directors;â€¢prohibit our shareholders from calling meetings or acting by written consent in lieu of a meeting;â€¢limit the ability of our shareholders to propose actions at duly convened meetings; andâ€¢authorize our board of directors, without action by our shareholders, to issue preferred shares and additional ordinary shares.These provisions could have the effect of depriving our shareholders of an opportunity to sell their ordinary shares at a premium over prevailing market prices by discouraging third parties from seeking to acquire control of us in a tender offer or similar transaction.Our shareholders may face difficulties in protecting their interests because we are incorporated under Cayman Islands law.Our corporate affairs are governed by our amended and restated memorandum and articles of association (â€œMOAâ€), by the Companies Law (as amended) of the Cayman Islands and the common law of the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under the laws of the Cayman Islands are not as clearly established under statutes or judicial precedent as in jurisdictions in the U.S. Therefore, our shareholders may have more difficulty in protecting their interests than would shareholders of a corporation incorporated in a jurisdiction in the U.S., due to the comparatively less developed nature of Cayman Islands law in this area.The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. Dissenting shareholders have the right to be paid the fair value of their shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) if they follow the required procedures, subject to certain exceptions. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.55Table of ContentsIn addition, there are statutory provisions that facilitate the reconstruction and amalgamation of companies, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who

must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting convened for that purpose. The convening of the meeting and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. A dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved.When a takeover offer is made and accepted by holders of 90.0% of the shares within four months, the offeror may, within a two-month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but is unlikely to succeed unless there is evidence of fraud, bad faith or collusion.If the arrangement and reconstruction is thus approved, the dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of a corporation incorporated in a jurisdiction in the U.S., providing rights to receive payment in cash for the judicially determined value of the shares. This may make it more difficult for our shareholders to assess the value of any consideration they may receive in a merger or consolidation or to require that the offeror give them additional consideration if they believe the consideration offered is insufficient.Shareholders of Cayman Islands exempted companies have no general rights under Cayman Islands law to inspect corporate records and accounts or to obtain copies of lists of shareholders. Our directors have discretion under our MOA to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for our shareholders to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.Subject to limited exceptions, under Cayman Islands law, a minority shareholder may not bring a derivative action against the board of directors.Certain judgments obtained against us by our shareholders may not be enforceable.The Cayman Islands Parent is a Cayman Islands exempted company and substantially all of our assets are located outside of the U.S. Given our domicile and the location of our assets, it may be difficult to enforce in U.S. courts judgments obtained against us in U.S. courts based on the civil liability provisions of the U.S. federal securities laws. In addition, there is uncertainty as to whether the courts of the Cayman Islands, Thailand or the PRC would recognize or enforce judgments of U.S. courts against us predicated upon the civil liability provisions of the securities laws of the U.S. or any state. In particular, a judgment in a U.S. court would not be recognized and accepted by Thai courts without a re-trial or examination of the merits of the case. In addition, there is uncertainty as to whether such Cayman Islands, Thai or PRC courts would be competent to hear original actions brought in the Cayman Islands, Thailand or the PRC against us predicated upon the securities laws of the U.S. or any state.General RisksEnergy price volatility may negatively impact our business, financial condition and operating results.We, along with our suppliers and customers, rely on various energy sources in our manufacturing and transportation activities. Energy prices have been subject to increases and general volatility caused by market fluctuations, supply and demand, currency fluctuation, production and transportation disruption, world events and government regulations. While we are currently experiencing lower energy prices, a significant increase is possible, which could increase our raw material and transportation costs. In addition, increased transportation costs of our suppliers and customers could be passed along to us. We may not be able to increase our prices to adequately offset these increased costs, and any increase in our prices may reduce our future customer orders, which could harm our business, financial condition and operating results.56Table of ContentsITEMÂ 2. Accordingly, such information does not include all of the information and footnotes required by U.S. GAAP for annual financial statements. For further information, please refer to the consolidated financial statements and footnotes thereto included in Fabrinetâ€™s Annual Report on Form 10-K for the year ended JuneÂ 28, 2024.The balance sheet asÂ ofÂ JuneÂ 28, 2024 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.The results for the three and six months ended DecemberÂ 27, 2024 may not be indicative of results for the year ending JuneÂ 27, 2025 or any future periods.Use of EstimatesThe preparation of the Companyâ€™s unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of total revenues and expenses during the year. The Company bases estimates on historical experience and various assumptions about the future that are believed to be reasonable based on available information. The Companyâ€™s reported financial position or results of operations may be materially different under different conditions or when using different estimates and assumptions, particularly with respect to significant accounting policies, which are discussed below. Significant assumptions are used in accounting for share-based compensation, allowance for expected credit losses, income taxes, and inventory obsolescence. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates. In the event that the Company's estimates or assumptions prove to be different from actual results, adjustments will be made in subsequent periods to reflect more current information.Fiscal yearsThe Company utilizes aÂ 52-53Â week fiscal year ending on the Friday in June closest to June 30. The three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 consisted of 13 weeks. Fiscal yearÂ 2025Â will comprise 52 weeks and will end on JuneÂ 27, 2025.New Accounting Standardsâ€”not yet adopted by the CompanyIn November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, â€œSegment Reporting (Topic 280), Improvements to Reportable Segment Disclosures,â€ which is intended to improve reportable segment disclosure requirements, primarily through additional disclosures about significant segment expenses. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 29, 2024, and interim periods beginning June 28, 2025, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures.In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740), Improvements to Income Tax Disclosures,â€ which requires more detailed income tax disclosures. This ASU requires entities to disclose disaggregated information about their effective tax rate reconciliation as well as expanded information on income taxes paid by jurisdiction. This ASU is effective for all entities for fiscal years beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. This ASU will be effective for the Company beginning with fiscal year 2026. The Company is currently assessing the impact to its disclosures. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40), Disaggregation of Income Statement Expenses,â€ which requires additional notes to financial statements. This ASU requires entities to include certain current disclosures in the same tabular format disclosure as the other disaggregation requirements in the amendments in this ASU. This ASU is effective for all entities for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 26, 2027, and interim periods beginning July 1, 2028, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures. A fair value hierarchy is established, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs for the valuation of an asset or liability as of the measurement date. The three levels of inputs that may be used to measure fair value are defined as follows:Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly. If the assets or liabilities have a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of assets or liabilities.LevelÂ 3 inputs are unobservable inputs for assets or liabilities, which require the reporting entity to develop its own valuation techniques and assumptions.The Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.The following table provides details of the financial instruments measured at fair value on a recurring basis, including:Fair Value Measurements at Reporting Date Using(in thousands)LevelÂ 1LevelÂ 2LevelÂ 3TotalAs of DecemberÂ 27, 2024AssetsCash equivalents$â€”Â $51,263Â $â€”Â $51,263Â Certificates of deposit and time depositsâ€”Â 136,850Â â€”Â 136,850Â Corporate debt securitiesâ€”Â 139,363Â â€”Â 139,363Â U.S. agency and U.S. treasury securitiesâ€”Â 254,756Â â€”Â 254,756Â Derivative assets â€“ current portionâ€”Â 645Â (1)â€”Â 645Â Total$â€”Â $582,877Â $â€”Â $582,877Â LiabilitiesÂ Â Â Â Â Â Â Â Derivative liabilitiesÂ â€“ current portion$â€”Â $(2,932)$â€”Â $(2,932)Total$â€”Â $(2,932)(2)$â€”Â $(2,932)Fair Value Measurements at Reporting Date Using(in thousands)LevelÂ 1LevelÂ 2LevelÂ 3TotalAs of JuneÂ 28, 2024AssetsCash equivalents$â€”Â $35Â $â€”Â $35Â Certificates of deposit and time depositsâ€”Â 134,283Â â€”Â 134,283Â Corporate debt securitiesâ€”Â 136,763Â â€”Â 136,763Â U.S. agency and U.S. treasury securitiesâ€”Â 177,584Â â€”Â 177,584Â Derivative assets â€“ current portionâ€”Â 15Â (3)â€”Â 15Â Total$â€”Â $448,680Â $â€”Â $448,680Â LiabilitiesÂ Â Â Â Â Â Â Derivative liabilitiesÂ â€“ current portion$â€”Â $(2,244)$â€”Â $(2,244)Total$â€”Â $(2,244)(4)$â€”Â $(2,244)(1)Foreign currency forward contracts with an aggregate notional amount of $27.0 million.(2)Foreign currency forward contracts with an aggregate notional amount of $119.0 million and 0.3 million Canadian dollars.(3)Foreign currency forward contracts with an aggregate notional amount of $8.0 million.(4)Foreign currency forward contracts with an aggregate notional amount of $127.0 million and 0.4 million Canadian dollars.Derivative Financial InstrumentsThe Company utilizes derivative financial instruments to hedge (i) foreign exchange risk associated with certain foreign currency denominated assets and liabilities and other foreign currency transactions, and (ii) interest rate risk associated with its long-term debt.The Company minimizes the credit risk associated with its derivative instruments by limiting the exposure to any single counterparty and by entering into derivative instruments only with counterparties that meet the Companyâ€™s minimum credit quality standard.Foreign currency forward and option contractsAs a result of foreign currency rate fluctuations, the U.S. dollar equivalent values of the Companyâ€™s foreign currency denominated assets and liabilities fluctuate. The Company uses foreign currency forward and option contracts to manage the foreign exchange risk associated with a portion of its foreign currency denominated assets and liabilities and other foreign currency transactions. The Company enters into foreign currency forward and option contracts to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht and Canadian dollars with counterparties that meet the Companyâ€™s minimum credit quality standard.The Company may enter into foreign currency forward contracts with maturities of up to 12 months to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht, including inventory purchases, payroll and other operating expenses. The Company considers these forward contracts as dual-purpose hedges, that hedge both the foreign exchange fluctuation (i)Â from inception through the forecasted expenditure, and (ii)Â any subsequent revaluation of the account payable or accrual. The Company may designate the forward contracts that hedge the foreign exchange fluctuation from inception through the forecasted expenditure as cash flow hedges. The gain or loss on a derivative instrument designated and qualified as a cash flow hedging instrument is recorded as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged forecasted transaction affects earnings. The reclassified amounts are presented in the same income statement line item as the earnings effect of the hedged item. Once the forecasted transactions are recorded, the Company will discontinue the hedging relationship byÂ de-designatingÂ the derivative instrument and recording subsequent changes in fair value through contract maturity to foreign exchange gain (loss), net in theÂ unaudited condensed consolidated statements of operations and comprehensive income as a natural hedge against the Thai baht denominated assets and liabilities.The Company may also enter intoÂ non-designatedÂ foreign currency forward and option contracts to provide an offset to theÂ re-measurementÂ of foreign currency denominated assets and liabilities and to hedge certain forecasted exposures. Changes in the fair value of theseÂ non-designatedÂ derivatives are recorded as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income.As of DecemberÂ 27, 2024, the Company had 146Â outstanding U.S. dollar foreign currency forward contracts against Thai baht, with an aggregate notional amount ofÂ $146.0 million and maturity dates ranging from January 2025 through July 2025 and one outstanding Canadian dollar foreign currency forward contract with a notional amount of 0.3 million Canadian dollars and a maturity date in March 2025.As of JuneÂ 28, 2024, the Company had 135 outstanding U.S. dollar foreign currency forward contracts against Thai baht with an aggregate notional amount of $135.0 million and maturity dates ranging from July 2024 through January 2025, and one foreign currency contract with a notional amount of 0.4 million Canadian dollars and a maturity date in September 2024.As of DecemberÂ 27, 2024, the hedging relationship over foreign currency forward contracts designated for hedge accounting was determined to be highly effective based on the performance of retrospective and prospective regression testing. As of DecemberÂ 27, 2024, the amount in accumulated other comprehensive income (â€œAOCIâ€) expected to be reclassified into earnings within 12 months was a lossÂ of $2.1 million.As of JuneÂ 28, 2024, the hedging relationship over foreign currency forward contracts designated for hedge accounting had been tested to be highly effective based on the performance of retrospective and prospective regression testing. As of JuneÂ 28, 2024, the amount in AOCI expected to be reclassified into earnings within 12 months as loss was $1.2 million.During the three and six months ended DecemberÂ 27, 2024, the Company included unrealized loss of $5.1 million and $1.0 million, respectively, from changes in the fair value of a foreign currency forward contract that was not designated for hedge accounting in earnings as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income.During the three and six months ended DecemberÂ 29, 2023, the Company included unrealized gain of $2.6 million and $2.9 million, respectively, from changes in the fair value of a foreign currency forward contract that was not designated for hedge accounting in earnings as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income.The following table provides a summary of the impact of derivative gain (loss) of the Companyâ€™s foreign currency forward contracts and interest rate swaps which were designated as cash flow hedges on the unaudited condensed consolidated statements of operations and other comprehensive income:Three Months EndedSix Months Ended(in thousands)Financialstatementsline itemDecember 27,2024December 29,2023December 27,2024December 29,2023Derivatives gain (loss) recognized in other comprehensive income (loss):Foreign currency forward contractsOthercomprehensiveincome (loss)$(13,303)$11,119Â (57)9,554Â Interest rate swapsOthercomprehensiveincome (loss)â€”Â (75)â€”Â (153)Total derivatives gain (loss) recognized in other comprehensive income (loss)$(13,303)$11,044Â (57)9,401Â Derivatives (gain) lossÂ reclassified from accumulated other comprehensive income (loss) into earnings:Foreign currency forward contractsCost of revenues$(5,905)$4,783Â $(4,486)$8,455Â Foreign currency forward contractsSG&A(451)199Â (345)354Â Foreign currency forward contractsForeign exchange gain (loss), net9,842Â (7,205)3,933Â (10,420)Interest rate swapsInterest expenseâ€”Â (65)â€”Â (154)Total derivatives (gain) loss reclassified from accumulated other comprehensive income (loss) into earnings$3,486Â $(2,288)$(898)$(1,765)Change in net unrealized gain (loss) on derivatives instruments$(9,817)$8,756Â (955)7,636Â Fair Value of derivativesThe following table provides the fair values of the Companyâ€™s derivative financial instruments for the periods presented:December 27,2024June 28,2024(in thousands)DerivativeAssetsDerivativeLiabilitiesDerivativeAssetsDerivativeLiabilitiesDerivatives not designated as hedging instrumentsForeign currency forward and option contracts$467Â (565)â€”Â $(1,088)Derivatives designated as hedging instrumentsForeign currency forward contracts178Â (2,367)15Â (1,156)Derivatives, gross balances$645Â $(2,932)$15Â $(2,244)The Company recorded the fair value of derivative financial instruments in the unaudited condensed consolidated balance sheets as follows:Derivative Financial InstrumentsBalance Sheet line itemFair Value of Derivative AssetsOther current assets, Other non-current assetsFair Value of Derivative LiabilitiesAccrued expenses, Other non-current liabilities X - ReferencesNo definition available. + Details Name: us-gaap_FairValueDisclosuresAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for the fair value of financial instruments (as defined), including financial assets and financial liabilities (collectively, as defined), and the measurements of those instruments as well as disclosures related to the fair value of non-financial assets and liabilities. The tax years from 2017 to 2023 remain open to examination by U.S. federal and state, and foreign tax authorities. The Company is currently under examination by the U.S. Internal Revenue Service for the fiscal year ended June 24, 2022. The Companyâ€™s income tax is recognized based on the best estimate of the expected annual effective tax rate for the full financial year of each entity in the Company, adjusted for discrete items arising in that quarter. If the Companyâ€™s estimated annual effective tax rate changes, the Company makes a cumulative adjustment in that quarter.The effective tax rate for the Company for the three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 wasÂ 8.7% andÂ 5.2%, respectively, of net income. The increase was due to higher income subject to tax and a discrete expense related to continuing assessment of potential tax exposures.The effective tax rate for the Company for the six months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 wasÂ 6.6% andÂ 6.2%, respectively, of net income. The increase was due to higher income subject to tax and a discrete expense due to a continuing assessment of potential tax exposures during the six months ended December 27, 2024, offset by a full valuation allowance for deferred tax assets that was set up during the six months ended December 29, 2023 for the Company's subsidiary in Israel. Upon the approval of the 2020 Plan, Fabrinetâ€™s Amended and Restated 2010 Performance Incentive Plan (the â€œ2010 Planâ€) was simultaneously terminated. The 2020 Plan provides for the grant of equity awards thereunder with respect to (i)Â 1,700,000Â ordinary shares, plus (ii)Â up toÂ 1,300,000Â ordinary shares that, asÂ ofÂ immediately priorÂ to the termination of the 2010 Plan, had been reserved but not issued pursuant to any awards granted under the 2010 Plan and are not subject to any awards thereunder. Upon termination of the 2010 Plan,Â 1,281,619Â ordinary shares were reserved for issuance under the 2020 Plan pursuant to clause (ii)Â of the preceding sentence.On NovemberÂ 2, 2017, the Company adopted the 2017 Inducement Equity Incentive Plan (the â€œ2017 Inducement Planâ€) with a reserve ofÂ 160,000Â ordinary shares authorized for future issuance solely for the granting of inducement share options and equity awards to new employees. The 2017 Inducement Plan was adopted without shareholder approval in reliance on the â€œemployment inducement exemptionâ€ provided under the New York Stock Exchange Listed Company Manual.Â TheÂ 2020 Plan,Â 2010 PlanÂ andÂ 2017 Inducement Plan are collectively referred to as the â€œEquity Incentive Plans.â€The following table summarizes the number of equity awards outstanding and ordinary shares available for grant under each of the Equity Incentive Plans as of DecemberÂ 27, 2024:(share units)Restricted Share Units outstandingPerformance Share Units outstandingOrdinary Shares available for future grant2020 Plan285,740Â 120,916Â 1,592,062Â 2017 Inducement Planâ€”Â â€”Â 111,347Â Total285,740Â 120,916Â 1,703,409Â Restricted share units and performance share unitsRestricted share units and performance share units have been granted under the Equity Incentive Plans.Restricted share units granted to employees generally vest in equal installments overÂ threeÂ orÂ four yearsÂ on each anniversary of the vesting commencement date. or Thai baht 75.7Â million and 73.2Â million, respectively. In addition, there were other immaterial bank guarantees on behalf of the Company's subsidiary in Israel to support the subsidiary's operations related to the Israeli Customs department.Purchase obligationsPurchase obligations represent legally binding commitments to purchase inventory and other commitments made in the normal course of business to meet operational requirements. Although open purchase orders are considered enforceable and legally binding, their terms generally give the Company the option to cancel, reschedule and/or adjust its requirements based on its business needs prior to the delivery of goods or performance of services. Obligations to purchase inventory and other commitments are generally expected to be fulfilled within one year.As of DecemberÂ 27, 2024, the Company had purchase obligations and other commitments to third parties of $1.27 billion.Capital expendituresAs of DecemberÂ 27, 2024, the Company had total capital expenditure commitments to third parties of $45.2 million.Indemnification of directors and officersCayman Islands law does not limit the extent to which a companyâ€™s memorandum and articles of association may provide for indemnification of directors and officers, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Fabrinetâ€™s amended and restated memorandum and articles of association provide for indemnification of directors and officers for actions, costs, charges, losses, damages and expenses incurred in their capacities as such, except that such indemnification does not extend to any matter in respect of any fraud or dishonesty that may attach to any of them.In accordance with Fabrinetâ€™s form of indemnification agreement for its directors and officers, Fabrinet has agreed to indemnify its directors and officers against certain liabilities and expenses incurred by such persons in connection with claims by reason of their being such a director or officer. Fabrinet maintains a director and officer liability insurance policy that may enable it to recover a portion of any future amounts paid under the indemnification agreements.Credit facility agreementOn March 9, 2023, Fabrinet Thailand and the Parent Company (collectively, the â€œBorrowersâ€) and the Bank of Ayudhya Public Company Limited (the "Bank") entered into a credit facility agreement (the â€œ2023 Credit Facility Agreementâ€), which provided a facility of $55.0Â million.During the three months ended December 27, 2024, the Borrowers and the Bank amended the 2023 Credit Facility Agreement to reduce the facility to $30.0Â million, which may be used for, among other things, an overdraft facility.As of DecemberÂ 27, 2024, there was no amount outstanding under the 2023 Credit Facility Agreement.Under the 2023 Credit Facility Agreement, the Borrowers are required to maintain a debt-to-equity ratio of less than or equal to 1.5 times for Fabrinet Thailand and 1.0 times for the Parent Company.As of DecemberÂ 27, 2024, the Borrowers were in compliance with all of their financial covenants under the 2023 Credit Facility Agreement. Litigation and claimOn June 28, 2024, Ngan In Leng and First Laser Limited (collectively, the â€œPlaintiffsâ€) filed a complaint in the Fuzhou Intermediate Peopleâ€™s Court (the â€œCourtâ€) in Fuzhou, China against Fujian Enterprises (Holdings) Co., Ltd. (â€œFEHCâ€), Jian An Investment Limited (â€œJianâ€), and Casix, Inc. (â€œCasixâ€), the Company's wholly-owned subsidiary located in the PRC. The complaint alleges unjust enrichment related to a purported investment in Casix by the Plaintiffs in 1997, which predates the Company's acquisition of Casix from JDS Uniphase Corporation. The Plaintiffs have requested that the Court order FEHC to return the unjust enrichment to the Plaintiffs in the amount of RMB 400 million, with interest from March 1, 2000, and order Jian and Casix to bear joint and several liability for all payment obligations of FEHC.In September 2024, the Court dismissed the lawsuit in its entirety based on jurisdictional grounds. The Plaintiffs have since appealed the Courtâ€™s ruling to the High People's Court of Fujian Province (the "Appellate Court"). In their appeal, the Plaintiffs now claim that Casix is the primary obligor to return the alleged unjust enrichment to the Plaintiffs. On November 24, 2024, the Appellate Court agreed to hear the appeal. At this time, the Company is not able to quantify any potential liability in connection with this litigation due to its pending status and preliminary nature. Accordingly, such information does not include all of the information and footnotes required by U.S. GAAP for annual financial statements. For further information, please refer to the consolidated financial statements and footnotes thereto included in Fabrinetâ€™s Annual Report on Form 10-K for the year ended JuneÂ 28, 2024.The balance sheet asÂ ofÂ JuneÂ 28, 2024 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.The results for the three and six months ended DecemberÂ 27, 2024 may not be indicative of results for the year ending JuneÂ 27, 2025 or any future periods. Use of Estimates Use of EstimatesThe preparation of the Companyâ€™s unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of total revenues and expenses during the year. The Company bases estimates on historical experience and various assumptions about the future that are believed to be reasonable based on available information. The Companyâ€™s reported financial position or results of operations may be materially different under different conditions or when using different estimates and assumptions, particularly with respect to significant accounting policies, which are discussed below. Significant assumptions are used in accounting for share-based compensation, allowance for expected credit losses, income taxes, and inventory obsolescence. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates. In the event that the Company's estimates or assumptions prove to be different from actual results, adjustments will be made in subsequent periods to reflect more current information. Fiscal years Fiscal yearsThe Company utilizes aÂ 52-53Â week fiscal year ending on the Friday in June closest to June 30. The three months ended DecemberÂ 27, 2024 and DecemberÂ 29, 2023 consisted of 13 weeks. Fiscal yearÂ 2025Â will comprise 52 weeks and will end on JuneÂ 27, 2025. Adoption of New Accounting Standards New Accounting Standardsâ€”not yet adopted by the CompanyIn November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, â€œSegment Reporting (Topic 280), Improvements to Reportable Segment Disclosures,â€ which is intended to improve reportable segment disclosure requirements, primarily through additional disclosures about significant segment expenses. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 29, 2024, and interim periods beginning June 28, 2025, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures.In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740), Improvements to Income Tax Disclosures,â€ which requires more detailed income tax disclosures. This ASU requires entities to disclose disaggregated information about their effective tax rate reconciliation as well as expanded information on income taxes paid by jurisdiction. This ASU is effective for all entities for fiscal years beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. This ASU will be effective for the Company beginning with fiscal year 2026. The Company is currently assessing the impact to its disclosures. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40), Disaggregation of Income Statement Expenses,â€ which requires additional notes to financial statements. This ASU requires entities to include certain current disclosures in the same tabular format disclosure as the other disaggregation requirements in the amendments in this ASU. This ASU is effective for all entities for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 26, 2027, and interim periods beginning July 1, 2028, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures. Contract Assets and Liabilities Contract Assets and LiabilitiesA contract asset is recognized when the Company has recognized revenues, but has not yet issued an invoice to its customer for payment. Contract assets are recognized in the unaudited condensed consolidated balance sheets under other current assets and transferred to accounts receivable when rights to payment become unconditional.As of DecemberÂ 27, 2024 and JuneÂ 28, 2024, the Company's contract assets were de minimis.A contract liability is recognized when the Company has advance payment arrangements with customers. Contract liabilities are recognized in the unaudited condensed consolidated balance sheets under other payables. The contract liabilities balance is normally recognized as revenue within six months. The Parent Company is an exempted company incorporated in the Cayman Islands, British West Indies. The “Company” refers to Fabrinet and its subsidiaries as a group. The Company provides advanced optical packaging and precision optical, electro-mechanical and electronic manufacturing services to original equipment manufacturers of complex products, such as optical communication components, modules and sub-systems, automotive components, industrial lasers, medical devices and sensors. The Company offers a broad range of advanced optical and electro-mechanical capabilities across the entire manufacturing process, including process design and engineering, supply chain management, manufacturing, complex printed circuit board assembly, advanced packaging, integration, final assembly and testing. The Company is capable of producing a wide variety of high complexity products in any mix and any volume. The principal subsidiaries of Fabrinet include Fabrinet Co., Ltd. (“Fabrinet Thailand”), Casix, Inc. (“Casix”), Fabrinet West, Inc. (“Fabrinet West”) and Fabrinet Israel Ltd. (“Fabrinet Israel”). Accounting policies Basis of presentation The accompanying unaudited condensed consolidated financial statements for Fabrinet as of December 27, 2024 and for the three and six months ended December 27, 2024 and December 29, 2023 include normal recurring adjustments necessary for a fair statement of the financial statements set forth herein, in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP” or "GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, such information does not include all of the information and footnotes required by U.S. GAAP for annual financial statements. For further information, please refer to the consolidated financial statements and footnotes thereto included in Fabrinet’s Annual Report on Form 10-K for the year ended June 28, 2024. The balance sheet as of June 28, 2024 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The results for the three and six months ended December 27, 2024 may not be indicative of results for the year ending June 27, 2025 or any future periods. Use of Estimates The preparation of the Company’s unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of total revenues and expenses during the year. The Company bases estimates on historical experience and various assumptions about the future that are believed to be reasonable based on available information. The Company’s reported financial position or results of operations may be materially different under different conditions or when using different estimates and assumptions, particularly with respect to significant accounting policies, which are discussed below. Significant assumptions are used in accounting for share-based compensation, allowance for expected credit losses, income taxes, and inventory obsolescence. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates. In the event that the Company's estimates or assumptions prove to be different from actual results, adjustments will be made in subsequent periods to reflect more current information. Fiscal years The Company utilizes a 52-53 week fiscal year ending on the Friday in June closest to June 30. The three months ended December 27, 2024 and December 29, 2023 consisted of 13 weeks. Fiscal year 2025 will comprise 52 weeks and will end on June 27, 2025. New Accounting Standards—not yet adopted by the Company In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, “Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures,” which is intended to improve reportable segment disclosure requirements, primarily through additional disclosures about significant segment expenses. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 29, 2024, and interim periods beginning June 28, 2025, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures. In December 2023, the FASB issued ASU 2023-09, “Income Taxes (Topic 740), Improvements to Income Tax Disclosures,” which requires more detailed income tax disclosures. This ASU requires entities to disclose disaggregated information about their effective tax rate reconciliation as well as expanded information on income taxes paid by jurisdiction. This ASU is effective for all entities for fiscal years beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. This ASU will be effective for the Company beginning with fiscal year 2026. The Company is currently assessing the impact to its disclosures. In November 2024, the FASB issued ASU 2024-03, “Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40), Disaggregation of Income Statement Expenses,” which requires additional notes to financial statements. This ASU requires entities to include certain current disclosures in the same tabular format disclosure as the other disaggregation requirements in the

amendments in this ASU. This ASU is effective for all entities for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. This ASU is effective for the Company's annual periods beginning June 26, 2027, and interim periods beginning July 1, 2028, and will be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the ASU to determine its impact on the Company's disclosures. Contract assets are recognized in the unaudited condensed consolidated balance sheets under other current assets and transferred to accounts receivable when rights to payment become unconditional. As of December 27, 2024 and June 28, 2024, the Company's contract assets were de minimis. A contract liability is recognized when the Company has advance payment arrangements with customers. Contract liabilities are recognized in the unaudited condensed consolidated balance sheets under other payables. The contract liabilities balance is normally recognized as revenue within six months. The following tables summarize the activity in the Company's contract liabilities during the six months ended December 27, 2024: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:96.491%"><tr><td style="width:1.0%"></td><td style="width:85.718%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.082%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(in thousands)</td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Contract

style="margin-top:12pt;padding-left:18pt">Contract Assets and Liabilities A contract asset is recognized when the Company has recognized revenues, but has not yet issued an invoice to its customer for payment. Contract assets are recognized in the unaudited condensed consolidated balance sheets under other current assets and transferred to accounts receivable when rights to payment become unconditional. As of December 27, 2024 and June 28, 2024, the Company's contract assets were de minimis. A contract liability is recognized when the Company has advance payment arrangements with customers. Contract liabilities are recognized in the unaudited condensed consolidated balance sheets under other payables. The contract liabilities balance is normally recognized as revenue within six months. The following tables summarize the activity in the Company's contract liabilities during the six months ended December 27, 2024: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:96.491%"><tr><td style="width:1.0%"></td><td style="width:85.718%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.082%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(in thousands)</td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Contract

instruments Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A fair value hierarchy is established, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs for the valuation of an asset or liability as of the measurement date. The three levels of inputs that may be used to measure fair value are defined as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly. If the assets or liabilities have a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of assets or liabilities. Level 3 inputs are unobservable inputs for assets or liabilities, which require the reporting entity to develop its own valuation techniques and assumptions. The Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The following table provides details of the financial instruments measured at fair value on a recurring basis, including: <table Derivative Financial Instruments The Company utilizes derivative financial instruments to hedge (i) foreign exchange risk associated with certain foreign currency denominated assets and liabilities and other foreign currency transactions, and (ii) interest rate risk associated with its long-term debt. The Company minimizes the credit risk associated with its derivative instruments by limiting the exposure to any single counterparty and by entering into derivative instruments only with counterparties that meet the Company’s minimum credit quality standard. Foreign currency forward and option contracts As a result of foreign currency rate fluctuations, the U.S. dollar equivalent values of the Company’s foreign currency denominated assets and liabilities fluctuate. The Company uses foreign currency forward and option contracts to manage the foreign exchange risk associated with a portion of its foreign currency denominated assets and liabilities and other foreign currency transactions. The Company enters into foreign currency forward and option contracts to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht and Canadian dollars with counterparties that meet the Company’s minimum credit quality standard. The Company may enter into foreign currency forward contracts with maturities of up to 12 months to hedge fluctuations in the U.S. dollar value of forecasted transactions denominated in Thai baht, including inventory purchases, payroll and other operating expenses. The Company considers these forward contracts as dual-purpose hedges, that hedge both the foreign exchange fluctuation (i) from inception through the forecasted expenditure, and (ii) any subsequent revaluation of the account payable or accrual. The Company may designate the forward contracts that hedge the foreign exchange fluctuation from inception through the forecasted expenditure as cash flow hedges. The gain or loss on a derivative instrument designated and qualified as a cash flow hedging instrument is recorded as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged forecasted transaction affects earnings. The reclassified amounts are presented in the same income statement line item as the earnings effect of the hedged item. Once the forecasted transactions are recorded, the Company will discontinue the hedging relationship by de-designating the derivative instrument and recording subsequent changes in fair value through contract maturity to foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income as a natural hedge against the Thai baht denominated assets and liabilities. The Company may also enter into non-designated foreign currency forward and option contracts to provide an offset to the re-measurement of foreign currency denominated assets and liabilities and to hedge certain forecasted exposures. Changes in the fair value of these non-designated derivatives are recorded as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income. As of December 27, 2024, the Company had 146 outstanding U.S. dollar foreign currency forward contracts against Thai baht, with an aggregate notional amount of $146.0 million and maturity dates ranging from January 2025 through July 2025 and one outstanding Canadian dollar foreign currency forward contract with a notional amount of 0.3 million Canadian dollars and a maturity date in March 2025. As of June 28, 2024, the Company had 135 outstanding U.S. dollar foreign currency forward contracts against Thai baht with an aggregate notional amount of $135.0 million and maturity dates ranging from July 2024 through January 2025, and one foreign currency contract with a notional amount of 0.4 million Canadian dollars and a maturity date in September 2024. As of December 27, 2024, the hedging relationship over foreign currency forward contracts designated for hedge accounting was determined to be highly effective based on the performance of retrospective and prospective regression testing. As of December 27, 2024, the amount in accumulated other comprehensive income (“AOCI”) expected to be reclassified into earnings within 12 months was a loss of $2.1 million. As of June 28, 2024, the hedging relationship over foreign currency forward contracts designated for hedge accounting had been tested to be highly effective based on the performance of retrospective and prospective regression testing. As of June 28, 2024, the amount in AOCI expected to be reclassified into earnings within 12 months as loss was $1.2 million. During the three and six months ended December 27, 2024, the Company included unrealized loss of $5.1 million and $1.0 million, respectively, from changes in the fair value of a foreign currency forward contract that was not designated for hedge accounting in earnings as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income. During the three and six months ended December 29, 2023, the Company included unrealized gain of $2.6 million and $2.9 million, respectively, from changes in the fair value of a foreign currency forward contract that was not designated for hedge accounting in earnings as foreign exchange gain (loss), net in the unaudited condensed consolidated statements of operations and comprehensive income. The following table provides a summary of the impact of derivative gain (loss) of the Company’s foreign currency forward contracts and interest rate swaps which were designated as cash flow hedges on the unaudited condensed consolidated statements of operations and other comprehensive income:

The Company leases a portion of its capital equipment and vehicles, certain land and buildings for its facilities in Thailand, the Cayman Islands, the PRC, the U.S., Israel and Singapore under operating lease arrangements that expire at various dates through 2034. Certain of these lease arrangements provide the Company the ability to extend the lease term following the expiration of the current term. However, the Company has excluded all lease extension options from its right of use ("ROU") assets and lease liabilities as the Company is not reasonably assured that it will exercise these options. None of the lease agreements contain residual value guarantees provided by the lessee. The Company also has one intercompany lease transaction in the form of a lease of office and manufacturing space. Operating leases As of December 27, 2024, the maturities of the Company's operating lease liabilities, by fiscal year, were as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:96.491%"><tr><td style="width:1.0%"></td><td style="width:84.354%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.415%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:1.931%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(in thousands)</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">2025 (remaining six months) </td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">1,020 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">2026</td><td colspan="2" style="padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">2,040 </td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">2027</td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">1,230 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">2028</td><td colspan="2" style="padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">784 </td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">2029</td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">753 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">Thereafter</td><td colspan="2" style="padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">1,410 </td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Total undiscounted lease payments</td><td colspan="2" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">7,237 </td><td style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">Less imputed interest</td><td colspan="2" style="padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">(1,144)</td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Total present value of lease liabilities</td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">6,093 </td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:top">(1)</td></tr></table> (1)Includes current portion of operating lease liabilities of $1.7 million. Share-based award activity On December 12, 2019, the Company's shareholders approved Fabrinet's 2020 Equity Incentive Plan (the "2020 Plan"). Upon the approval of the 2020 Plan, Fabrinet's Amended and Restated 2010 Performance Incentive Plan (the "2010 Plan") was simultaneously terminated. The 2020 Plan provides for the grant of equity awards thereunder with respect to (i) 1,700,000 ordinary shares, plus (ii) up to 1,300,000 ordinary shares that, as of immediately prior to the termination of the 2010 Plan, had been reserved but not issued pursuant to any awards granted under the 2010 Plan and are not subject to any awards thereunder. Upon termination of the 2010 Plan, 1,281,619 ordinary shares were reserved for issuance under the 2020 Plan pursuant to clause (ii) of the preceding sentence. On November 2, 2017, the Company adopted the 2017 Inducement Equity Incentive Plan (the "2017 Inducement Plan") with a reserve of 160,000 ordinary shares authorized for future issuance solely for the granting of inducement share options and equity awards to new employees. The 2017 Inducement Plan was adopted without shareholder approval in reliance on the "employment inducement exemption" provided under the New York Stock Exchange Listed Company Manual. The 2020 Plan, 2010 Plan and 2017 Inducement Plan are collectively referred to as the "Equity Incentive Plans." Restricted share units granted to employees generally vest in equal installments over three or four years on each anniversary of the vesting commencement date. Restricted share units granted to non-employee directors generally cliff vest 100% on the first of January, approximately one year from the grant date, provided the director continues to serve through such date. Performance share units granted to executives will vest, if at all, at the end of a two-year performance period based on the Company's achievement of pre-defined performance criteria, which consist of revenue and non-GAAP operating margin targets. and contingencies Bank guarantees As of December 27, 2024 and June 28, 2024, there were outstanding bank guarantees on behalf of the Company's subsidiary in Thailand for electricity usage and other normal business expenses totaling $2.2 million and $2.0 million, respectively, or Thai baht 75.7 million and 73.2 million, respectively. In addition, there were other immaterial bank guarantees on behalf of the Company's subsidiary in Israel to support the subsidiary's operations related to the Israeli Customs department. Purchase obligations Purchase obligations represent legally binding commitments to purchase inventory and other commitments made in the normal course of business to meet operational requirements. Although open purchase orders are considered enforceable and legally binding, their terms generally give the Company the option to cancel, reschedule and/or adjust its requirements based on its business needs prior to the delivery of goods or performance of services. Obligations to purchase inventory and other commitments are generally expected to be fulfilled within one year. As of December 27, 2024, the Company had purchase obligations and other commitments to third parties of $1.27 billion. Capital expenditures As of December 27, 2024, the Company had total capital expenditure commitments to third parties of $45.2 million. Indemnification of directors and officers Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of directors and officers, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Fabrinet's amended and restated memorandum and articles of association provide for indemnification of directors and officers for actions, costs, charges, losses, damages and expenses incurred in their capacities as such, except that such indemnification does not extend to any matter in respect of any fraud or dishonesty that may attach to any of them. In accordance with Fabrinet's form of indemnification agreement for its directors and officers, Fabrinet has agreed to indemnify its directors and officers against certain liabilities and expenses incurred by such persons in connection with claims by reason of their being such a director or officer. Fabrinet maintains a director and officer liability insurance policy that may enable it to recover a portion of any future amounts paid under the indemnification agreements. Credit facility

agreement On March 9, 2023, Fabrinet Thailand and the Parent Company (collectively, the "Borrowers") and the Bank of Ayudhya Public Company Limited (the "Bank") entered into a credit facility agreement (the "2023 Credit Facility Agreement"), which provided a facility of $55.0 million.
