UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Spok Holdings, Inc. (NASDAQ: SPOK) ("Spok," "we," "our" or the "Company"), through its wholly owned subsidiary Spok, Inc., is proud to be the global leader in healthcare communications. We deliver clinical information to care teams when and where it matters most to improve patient outcomes. Top hospitals rely on Spok products and services to enhance workflows for clinicians, support administrative compliance, and provide a better experience for patients.

We offer a focused suite of unified clinical communication and collaboration solutions that include call center applications, clinical alerting and notifications, one-way and advanced two-way wireless messaging services, mobile communications and public safety solutions.

We provide one-way and advanced two-way wireless messaging services, including information services, throughout the United States. These services are offered on a local, regional and nationwide basis, employing digital networks. One-way messaging consists of numeric and alphanumeric messaging services. Numeric messaging services enable subscribers to receive messages that are composed entirely of numbers, such as a phone number, while alphanumeric messages may include numbers and letters, which enable subscribers to receive text messages. Two-way messaging services enable subscribers to send and receive messages to and from other wireless messaging devices, including pagers, personal digital assistants and personal computers. We also offer voice mail, personalized greetings, message storage and retrieval, and equipment loss and/or maintenance protection to both one-way and two-way messaging subscribers. These services are commonly referred to as wireless messaging and information services.

We also develop, sell and support enterprise-wide systems for hospitals and other organizations needing to automate, centralize and standardize clinical communications. These solutions are used for contact centers, clinical alerting and notification, mobile communications and messaging and for public safety notifications. These areas of market focus complement the market focus of our wireless services outlined above.

Basis of Presentation

The accompanying Condensed Consolidated Financial Statements include our accounts and the accounts of our wholly owned direct and indirect subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Our Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and the rules and regulations of the United States Securities and Exchange Commission (the "SEC"). In management's opinion, the unaudited Condensed Consolidated Financial Statements include all adjustments and accruals that are necessary for the presentation of the results of all interim periods reported herein and all such adjustments are of a normal, recurring nature.

Amounts shown in the Condensed Consolidated Statements of Operations within the operating expense categories of cost of revenue; research and development; technology operations; selling and marketing; and general and administrative are recorded exclusive of depreciation and accretion. These items are shown separately to the extent that they are considered material for the periods presented.

Certain prior period amounts in the Condensed Consolidated Financial Statements have been reclassified to conform to the current period's presentation. These reclassifications had no effect on the reported results of operations or the Condensed Consolidated Balance Sheets.

The financial information included herein, other than the Condensed Consolidated Balance Sheet as of December 31, 2023, is unaudited. The Condensed Consolidated Balance Sheet as of December 31, 2023, has been derived from, but does not include all, the disclosures contained in the audited Consolidated Financial Statements as of and for the year ended December 31, 2023.

These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Annual Report"). The Condensed Consolidated Statements of Operations for the interim periods presented are not necessarily indicative of the results that may be expected for a full year.

Use of Estimates

The preparation of these Condensed Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures. On an ongoing basis, we evaluate estimates and assumptions, including, but not limited to, those related to the impairment of long-lived assets, goodwill, accounts receivable allowances, revenue recognition, depreciation expense, asset retirement obligations and income taxes. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

NOTE 2 - RISKS AND OTHER IMPORTANT FACTORS

See "Item 1A. Risk Factors" of Part II of this Quarterly Report on Form 10-Q ("Quarterly Report") and "Item 1A. Risk Factors" of Part I of the 2023 Annual Report, which describe key risks associated with our operations and industry.

NOTE 3 - RECENT ACCOUNTING STANDARDS

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures". This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the Chief Operating Decision Maker ("CODM") and included within segment profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. The ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is also permitted, and retrospective applications is required. This ASU will likely result in additional required disclosures when adopted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2024.

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which expands the disclosure requirements for income taxes, specifically related to the rate reconciliation and the income taxes paid. The update is effective for fiscal years beginning after December 15, 2024. Early adoption is permitted. We are currently evaluating the potential effect that the updated standard will have on our financial statement disclosures.

NOTE 4 - SIGNIFICANT ACCOUNTING POLICIES UPDATE

Our significant accounting policies are detailed in Note 1, "Organization and Significant Accounting Policies" of the 2023 Annual Report.

NOTE 5 - REVENUE, DEFERRED REVENUE AND PREPAID COMMISSIONS**Wireless Revenue**

Wireless revenue consists of two primary components: paging revenue and product and other revenue. Paging revenue consists primarily of recurring fees associated with the provision of messaging services and fees for paging devices and is net of a provision for service credits. Product and other revenue reflects system sales, sales of paging devices and charges for devices that are not returned and are net of anticipated credits. Our core offering includes subscriptions to one-way or two-way messaging services for a periodic (monthly, quarterly, semiannual, or annual) service fee. This is generally based upon the type of service provided, the geographic area covered, the number of devices provided to the customer and the period of commitment. A subscriber to one-way messaging services may select coverage on a local, regional or nationwide basis to best meet their messaging needs. Two-way messaging is generally offered on a nationwide basis. See Item 1. "Business," in the 2023 Annual Report for more details.

UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Software Revenue

Software revenue consists of two primary components: operations revenue and maintenance revenue. Operations revenue consists primarily of license and subscription revenues for our healthcare communications solutions, revenue from the sale of hardware that facilitates the use of our software solutions, and professional services revenue related to the implementation of our solutions. Maintenance revenue is generated from our ongoing support of our software solutions or related equipment and access to when-and-if available software updates. Maintenance is generally purchased and renewed on an annual basis.

Revenue Recognition

Revenues are recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

Our software licenses and hardware are generally recognized at a point in time when we have transferred control to the customer. For software licenses, revenue is not recognized until the related license(s) has been made available to the customer and the customer can begin to benefit from its right to use the license(s). Our software licenses represent a right to use Spok's intellectual property ("IP") as it exists at a point in time at which the license is granted. Many of our software licenses have significant standalone functionality due to their ability to process a transaction or perform a function or task, and we do not need to maintain those products, once provided to the customer, for value to exist. While the functionality of the IP that we license may substantively change during the license period, customers are not contractually or practically required to update their license as a result of those changes.

Our wireless, professional services, and maintenance are generally recognized over time due to a customer's simultaneous receipt and consumption of the benefit as we perform the work. As we transfer control over time, we recognize revenue based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires significant judgment and is based on the nature of the products or services to be provided. Generally, we use the time-elapsed measure of progress for performance obligations that include wireless, maintenance or subscription services. We believe this method best depicts the simultaneous transfer and consumption of the benefit based on our performance as these services are generally considered standby services. For professional services, we leverage an input methodology based on the number of hours worked on a project versus the total expected hours necessary to complete the project. Revenues are recognized proportionally as hours are incurred.

The following table presents our revenues disaggregated by revenue type:

(Dollars in thousands)	For the Three Months Ended March 31,	
	2024	2023
Revenue:		
Paging revenue	\$ 17,970	\$ 18,525
Product and other revenue	625	503
Wireless revenue	\$ 18,595	\$ 19,028
License	\$ 2,626	\$ 1,618

Maintenance	9,279	8,939
Software revenue	\$ 16,314	\$ 14,152
Total revenue	\$ 34,909	\$ 33,180

The U.S. was the only country that accounted for more than 10 % of the Company's total revenue for the three months ended March 31, 2024, and 2023. Revenue generated in the U.S. and internationally consisted of the following for the periods stated:

SPOK HOLDINGS, INC.

United States	\$ 34,142	\$ 32,210
International	767	970
Total revenue	<u>\$ 34,909</u>	<u>\$ 33,180</u>

Deferred Revenues

Our deferred revenues represent payments made by, or due from, customers in advance of our performance. Changes in the balance of total deferred revenue during the three months ended March 31, 2024, are as follows:

(Dollars in thousands)	December 31, 2023	Additions	Revenue Recognized	March 31, 2024
Deferred Revenue	\$ 26,946	\$ 14,743	\$ (16,104)	\$ 25,585

During the three months ended March 31, 2024, the Company recognized \$ 9.7 million related to amounts deferred as of December 31, 2023.

Prepaid Commissions

Our prepaid commissions represent payments made to employees in advance of our performance on the related underlying contracts. These costs have been incurred directly in relation to obtaining a contract. As such, these costs are amortized over the estimated period of benefit. Changes in the balance of total prepaid commissions during the three months ended March 31, 2024 are as follows:

(Dollars in thousands)	December 31, 2023	Additions	Commissions Recognized	March 31, 2024
Prepaid Commissions	\$ 2,285	\$ 632	\$ (732)	\$ 2,185

Prepaid commissions are included within prepaid expenses in the Condensed Consolidated Balance Sheets and commissions expense is included within selling and marketing in the Condensed Consolidated Statements of Operations.

Remaining Performance Obligations

The balance of remaining performance obligations at March 31, 2024, was \$ 58.0 million. We expect to recognize approximately \$ 39.3 million of our remaining performance obligations over the next 12 months, with the remaining balance recognized thereafter.

NOTE 6 - LEASES

We have operating lease arrangements for corporate offices, cellular towers, storage units and small building space. The building space is used to house infrastructure, such as transmitters, antennae and other various equipment for the Company's wireless paging services. For leases with a term of 12 months or less, renewal terms are generally of an evergreen nature (either month-to-month or year-to-year). For leases with a term greater than 12 months, renewal terms are generally explicit and provide for one to five optional renewals consistent with the initial term. Many of our leases, with the exception of those for our corporate offices, include options to terminate the lease within one year. Variable lease payments, residual value guarantees or purchase options are not generally present in these leases.

Lease costs are included in technology operations and general and administrative expenses in the Condensed Consolidated Statements of Operations. The following table presents lease costs disaggregated by type:

(Dollars in thousands)	For the Three Months Ended March 31,	
	2024	2023
Operating lease cost	\$ 1,035	\$ 1,178
Short-term lease cost	2,452	2,280
Total lease cost	<u>\$ 3,487</u>	<u>\$ 3,458</u>

NOTE 8 - GOODWILL

During the three months ended March 31, 2024, we performed a qualitative assessment of goodwill and determined that a triggering event had not occurred. While an impairment assessment is performed annually in the fourth quarter, the Company monitors its business environment for potential triggering events on a quarterly basis. There is potential for further impairment charges being recognized in future periods based on these ongoing assessments.

NOTE 9 - ASSET RETIREMENT OBLIGATIONS

The components of the changes in the asset retirement obligation liabilities were:

(Dollars in thousands)	Short-Term Portion	Long-Term Portion	Total
Balance as of December 31, 2023	\$ 206	\$ 7,191	\$ 7,397
Accretion	147	27	174
Amounts paid	(129)	—	(129)
Reclassifications	13	(13)	—
Balance as of March 31, 2024	\$ 237	\$ 7,205	\$ 7,442

The short-term portion of the balance above is included within other current liabilities in the Condensed Consolidated Balance Sheets as of March 31, 2024, and December 31, 2023.

The cost associated with the estimated removal costs and timing refinements due to ongoing network rationalization activities is expected to accrete to a total liability of \$ 8.9 million. The total estimated liability is based on the transmitter locations remaining after we have consolidated the number of networks we operate and assuming the underlying leases continue to be renewed to that future date. Accretion expense related solely to asset retirement obligations and was recorded based on the interest method.

NOTE 10 - STOCKHOLDERS' EQUITY

General

Our authorized capital stock consists of 75 million shares of common stock, par value \$ 0.0001 per share, and 25 million shares of preferred stock, par value \$ 0.0001 per share.

At March 31, 2024, and December 31, 2023, we had no stock options outstanding.

At March 31, 2024, and December 31, 2023, there were 20,237,847 and 19,992,102 shares of common stock outstanding, respectively, and no shares of preferred stock were outstanding.

Dividends

Cash distributions to stockholders, as disclosed in the Condensed Consolidated Statements of Cash Flows for the three months ended March 31, 2024, and 2023, include previously declared cash dividends on shares of vested restricted common stock ("restricted stock") issued to our non-executive directors and dividends related to vested restricted stock units ("RSUs") issued to eligible employees. Cash dividends on RSUs and restricted stock have been accrued and are paid when the applicable vesting conditions are met. Accrued cash dividends on forfeited restricted stock and RSUs are also forfeited. The following table details our cash dividends declared and paid in 2024 through the date hereof:

				(Dollars in thousands)	
Declaration Date	Record Date	Payment Date	Per Share Amount	Total Declared ⁽¹⁾	
February 21, 2024	March 15, 2024	March 29, 2024	\$ 0.3125	\$ 6,600	
Total			\$ 0.3125	\$ 6,600	

⁽¹⁾ The total declared reflects the cash dividends declared in relation to common stock, deferred stock units ("DSUs") and unvested RSUs.

On May 1, 2024, our Board of Directors declared a regular quarterly cash dividend of \$ 0.3125 per share of common stock with a record date of May 24, 2024, and a payment date of June 24, 2024. Cash dividends related to common stock of approximately \$ 6.3 million will be paid from available cash on hand.

Common Stock Repurchase Program

On February 16, 2022, our Board of Directors authorized a share repurchase program for up to \$ 10 million of the Company's common stock. Under the repurchase program, repurchases can be made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or otherwise, all in accordance with the rules of the SEC and other applicable legal requirements. The specific timing, price and size of purchases will depend on prevailing stock prices, general economic and market conditions, legal requirements and other considerations. The repurchase program does not obligate the Company to acquire any particular amount of common stock, and the repurchase program may be suspended or discontinued at any time at the Company's discretion. For the three months ended March 31, 2024, we did not repurchase any common stock.

Net Income per Common Share

Basic net income per common share is computed on the basis of the weighted average common shares outstanding. Diluted net income per common share is computed on the basis of the weighted average common shares outstanding plus the effect of all potentially dilutive common shares, including outstanding restricted stock and RSUs, which are treated as contingently issuable shares, using the "treasury stock" method.

The components of basic and diluted net income per common share were as follows for the periods stated:

(in thousands, except for share and per share amounts)	For the Three Months Ended March 31,	
	2024	2023
Numerator:		
Net income	\$ 4,236	\$ 3,117
Denominator:		
Basic weighted average common shares outstanding	20,170,548	19,897,445
Diluted weighted average common shares outstanding	20,446,587	20,182,692
Basic net income per common share	\$ 0.21	\$ 0.16
Diluted net income per common share	\$ 0.21	\$ 0.15

Stock-Based Compensation Plans

On April 29, 2020, our Board of Directors adopted the Spok Holdings, Inc. 2020 Equity Incentive Award Plan (the "2020 Equity Plan") that our stockholders subsequently approved on July 28, 2020. At July 28, 2020, a total of 1,699,950 shares of common stock had been reserved for issuance under the 2020 Equity Plan.

SPOK HOLDINGS, INC.

UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

On April 10, 2023, our Board of Directors adopted an amendment and restatement of the 2020 Equity Plan to increase the number of shares available for issuance by 1,000,000 shares that our stockholders subsequently approved on July 25, 2023. At July 25, 2023, a total of 1,268,444 shares of common stock had been reserved for issuance under the 2020 Equity Plan.

Awards under the 2020 Equity Plan may be in the form of stock options, restricted common stock, RSUs, performance awards, dividend equivalents, stock payment awards, deferred stock, DSUs, stock appreciation rights or other stock or cash-based awards.

Restricted stock awards generally vest one year from the date of grant. Related dividends accumulate during the vesting period and are paid at the time of vesting.

Contingent RSUs generally vest over a three-year performance period upon successful completion of the performance objectives. Non-contingent RSUs generally vest in thirds, annually, over a three-year period. Dividend equivalent rights generally accompany each RSU award and those rights accumulate and vest along with the underlying RSU.

Dividend equivalent rights generally accompany each DSU award and are paid to participants in cash on the Company's applicable dividend payment date whether the DSU is vested or unvested. The dividend equivalent right associated with a DSU continues until delivery of the underlying shares of common stock is made.

Payment of the underlying shares of common stock occurs at the earliest of a participant's separation from service, disability, death, or a change in control.

The following table summarizes the activities under the 2020 Equity Plan from January 1, 2024, through March 31, 2024:

	Activity
Total equity securities available at January 1, 2024	1,275,704
RSU, DSU and restricted stock awarded to eligible employees, net of forfeitures	(289,085)
Total equity securities available at March 31, 2024	986,619

The following table details activities with respect to outstanding RSUs, DSUs, and restricted stock under the 2020 Equity Plan for the three months ended March 31, 2024:

	Shares	Weighted Average Grant Date Fair Value per Share
Unvested at January 1, 2024	1,035,268	\$ 9.12
Granted	293,129	15.48
Vested	(398,161)	10.01
Forfeited	(4,044)	11.13
Unvested at March 31, 2024	926,192	\$ 10.74

Of the 926,192 unvested RSUs, DSUs and restricted stock outstanding at March 31, 2024, 491,734 RSUs include contingent performance requirements for vesting purposes. At March 31, 2024, there was \$ 6.2 million of unrecognized net compensation cost related to RSUs and restricted stock, which is expected to be recognized over a weighted average period of 1.9 years.

Employee Stock Purchase Plan

In 2016, our Board of Directors adopted the Spok Holdings, Inc. Employee Stock Purchase Plan (the "ESPP") that our stockholders subsequently approved on July 25, 2016. A total of 250,000 shares of common stock were reserved for issuance under this plan.

The ESPP allows employees to purchase shares of common stock at a discounted rate, subject to plan limitations. Under the ESPP, eligible participants can voluntarily elect to have contributions withheld from their pay for the duration of an offering period, subject to the ESPP limits. At the end of an offering period, contributions will be used to purchase the Company's common stock at a discount to the market price based on the first or last day of the offering period, whichever is lower.

SPOK HOLDINGS, INC.

UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Participants are required to hold common stock for a minimum period of two years from the grant date. Participants will begin earning dividends on shares after the purchase date. Each offering period will generally last for no longer than six months. Once an offering period begins, participants cannot adjust their withholding amount. If a participant chooses to withdraw, any previously withheld funds will be returned to the participant, with no stock purchased, and that participant will be eligible to participate in the ESPP during the next offering period. If the participant terminates employment with the Company during the offering period, all contributions will be returned to the employee and no stock will be purchased.

The Company uses the Black-Scholes model to calculate the fair value of the common stock to be purchased during each offering period on the offer date. The Black-Scholes model requires the use of estimates for the expected term, the expected volatility of the underlying common stock over the expected term, the risk-free interest rate and the expected dividend payment.

For the three months ended March 31, 2024 and 2023, no shares of the Company's stock were purchased. The following table summarizes the activities under the ESPP from January 1, 2024, through March 31, 2024:

	Activity
Total ESPP equity securities available at January 1, 2024	109,762
ESPP common stock purchased by eligible employees	—
Total ESPP equity securities available at March 31, 2024	109,762

Amounts withheld from participants will be classified as accrued compensation and benefits in the Condensed Consolidated Balance Sheets until funds are used to purchase shares. This liability amount is immaterial to the Condensed Consolidated Financial Statements.

Stock-Based Compensation Expense

We record all stock-based compensation, which consist of RSUs, DSUs, restricted stock, equity in lieu of salary, and the option to purchase common stock under the ESPP, at fair value as of the grant date. Stock-based compensation expense is recognized based on a straight-line amortization basis over the respective service period. Forfeitures and withdrawals are accounted for as incurred.

The following table reflects the items for stock-based compensation expense in the Condensed Consolidated Statements of Operations for the periods stated:

(Dollars in thousands)	For the Three Months Ended March 31,	
	2024	2023
Performance-based RSUs	\$ 461	\$ 381
Time-based RSUs, DSUs and restricted stock	667	542
ESPP	20	13
Total stock-based compensation	\$ 1,148	\$ 936

NOTE 11 - INCOME TAXES

Spok files a consolidated U.S. federal income tax return and income tax returns in various state, local and foreign jurisdictions as required.

Our quarterly tax provision and our quarterly estimate of our annual effective tax rate are subject to significant variation due to several factors, including variability in accurately predicting our pre-tax and taxable income and loss and the mix of jurisdictions to which they relate, changes in how we do business, changes in our stock price, foreign currency gains (losses), tax law developments (including changes in statutes, regulations, case law, and administrative practices), and relative changes of expenses or losses for which tax benefits are not recognized. Additionally, our effective tax rate can be more or less volatile based on the amount of pre-tax income or loss. For example, the impact of discrete items and non-deductible expenses on our effective tax rate is greater when our pre-tax income is lower.

For 2024, the anticipated effective income tax rate is expected to continue to differ from the federal statutory rate of 21%, primarily due to the effect of state income taxes, permanent differences between book and taxable income, and certain discrete items.

UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

We had total net deferred income tax assets ("DTAs") of \$ 45.3 million and \$ 46.3 million as of March 31, 2024, and December 31, 2023, respectively. We had a valuation allowance of \$ 2.3 million as of both March 31, 2024, and December 31, 2023.

We assess the recoverability of our deferred income tax assets, which represent the tax benefits of future tax deductions, based on available positive and negative evidence and by considering the adequacy of future taxable income from all sources, including prudent and feasible tax planning strategies. This assessment is required to determine whether, based on all available evidence, it is "more likely than not" (meaning a probability of greater than 50%) that all or some portion of the deferred income tax assets will be realized in future periods. During the fourth quarter of each year, we update our multi-year forecast of taxable income for our operations, which assists in analyzing the recoverability of our DTAs.

The Company maintains a valuation allowance related to Federal Foreign Tax Credits and certain state net operating losses and state tax credits, as the Company does not believe current projections of future taxable income will be sufficient to utilize those tax assets prior to expiration.

NOTE 12 - COMMITMENTS AND CONTINGENCIES

There have been no material changes during the three months ended March 31, 2024, to the commitments and contingencies previously reported in the 2023 Annual Report.

NOTE 13 - RELATED PARTIES

A member of our Board of Directors serves as EVP and Chief Information Officer for an entity that is also a customer of the Company. For the three months ended March 31, 2024 and 2023, we recognized revenues of \$ 0.4 million and \$ 0.1 million, respectively, related to the contracts from the entity at which the individual is employed.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Forward-Looking Statements**

This Quarterly Report on Form 10-Q ("Quarterly Report") contains forward-looking statements and information relating to Spok Holdings, Inc. and its subsidiaries (collectively, "we," "us," "Spok," "our" or the "Company") that set forth anticipated results based on management's current plans, known trends and assumptions. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "anticipate," "believe," "estimate," "expect," "intend," "will," "target," "forecast" and similar expressions, as they relate to Spok are forward-looking statements.

Although these statements are based upon current plans, known trends and assumptions that management considers reasonable, they are subject to certain risks, uncertainties and assumptions, including, but not limited to, those discussed in this section and "Risk Factors" below and under the captions "Business," "Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A"), and "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023 ("2023 Annual Report"). Should known or unknown risks or uncertainties materialize, known trends change, or underlying assumptions prove inaccurate, actual results or outcomes may differ materially from past results and those described herein as anticipated, believed, estimated, expected, intended, targeted or forecasted. Investors are cautioned not to place undue reliance on these forward-looking statements.

The Company undertakes no obligation to update forward-looking statements. Investors are advised to consult all further disclosures the Company makes in its subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K that it will file with the SEC. Also note that, in the 2023 Annual Report, the Company provides a cautionary discussion of risks, uncertainties and possibly inaccurate assumptions relevant to its business. These are factors that, individually or in the aggregate, could cause the Company's actual results to differ materially from past results as well as those results that may be anticipated, believed, estimated, expected, intended, targeted or forecasted. It is not possible to predict or identify all such risk factors. Consequently, investors should not consider the risk factor discussion to be a complete discussion of all of the potential risks or uncertainties that could affect Spok's business, statement of operations or financial condition, subsequent to the filing of this Quarterly Report.

Overview

The following MD&A is intended to help the reader understand the results of operations and financial condition of Spok. This MD&A is provided as a supplement to, and should be read in conjunction with, our 2023 Annual Report and our unaudited Condensed Consolidated Financial Statements and accompanying notes. A reference to a "Note" in this section refers to the accompanying Unaudited Notes to Condensed Consolidated Financial Statements.

Spok, acting through its indirect wholly owned operating subsidiary, Spok, Inc., delivers smart, reliable clinical communication and collaboration solutions to organizations, primarily in the U.S. healthcare industry, to help protect the health, well-being and safety of individuals. Organizations rely on Spok for workflow improvement, secure messaging, paging services, contact center optimization and public safety response.

Business

Revenue

We offer a focused suite of unified clinical communications and collaboration solutions that include call center applications, clinical alerting and notifications, one-way and advanced two-way wireless messaging services, mobile communications and public safety solutions.

We develop, sell and support enterprise-wide systems for healthcare, government, large enterprise and other organizations needing to automate, centralize and standardize their approach to clinical communications and collaboration. Our solutions can be found in prominent hospitals, large government agencies, leading public safety institutions, colleges and universities, large hotels, resorts and casinos, and well-known manufacturers. Our primary market is the healthcare provider industry, particularly hospitals. While we have historically identified hospitals with 200 or more beds as the primary targets for our software solutions, as well as our paging services, we have expanded our focus to include smaller hospitals with shorter sales cycles, including academic medical centers.

Revenue generated by wireless messaging services (including voice mail, personalized greeting, message storage and retrieval), equipment, maintenance plans and/or equipment loss protection for both one-way and two-way messaging subscribers is presented as wireless revenue in our Condensed Consolidated Statements of Operations. Revenue generated by the sale of our software solutions, which includes software license, professional services (installation, consulting and training), equipment procured by us from third parties (to be used in conjunction with our software), and post-contract support (ongoing maintenance), is presented as software revenue in our Condensed Consolidated Statements of Operations. Our software is licensed to end users under an industry standard software license agreement.

Refer to Note 5, "Revenue, Deferred Revenue and Prepaid Commissions" in the Notes to Condensed Consolidated Financial Statements for additional information on our wireless and software revenue streams.

Wireless Revenue

Wireless revenue is generally reflective of the number of units in service and measured monthly as Average Revenue Per User ("ARPU"). On a consolidated basis, ARPU is affected by several factors, including the mix of units in service and the pricing of the various components of our services. The number of units in service changes based on subscribers added, referred to as gross placements, less subscriber cancellations, or disconnects.

Wireless revenue decreased for the three months ended March 31, 2024, compared to the same period in 2023, reflective of the secular decrease in our wireless units in service, from 811 thousand as of March 31, 2023 to 753 thousand as of March 31, 2024. This was partially offset by an increase in ARPU, as a result of price increases initiated in September of 2023. ARPU was \$7.89 for the three months ended March 31, 2024, as compared to \$7.59 for the same period in 2023.

The decrease in paging revenue was also partially offset by the increase in product revenue due to one-time fees when customers cancel our services as a result of the secular decrease in our wireless units in service noted above.

We believe that demand for wireless services will continue to decline for the foreseeable future in line with recent trends, as our wireless products and services are replaced with other competing technologies, such as the shift from narrowband wireless service offerings to broadband technology services.

The following reflects the impact of subscribers and ARPU on the change in paging revenue:

(in thousands)	For the Three Months Ended March 31,			Change Due To:	
	2024	2023	Change	ARPU	Units
Paging revenue	\$ 17,970	\$ 18,525	\$ (555)	\$ 695	\$ (1,250)

As demand for one-way and two-way messaging has declined, we have developed or added service offerings such as encrypted paging and Spok Mobile with a pager number to increase our revenue potential. These service offerings, along with the nominal increases in the standard rate, are designed to mitigate the decline in our wireless revenue. We will continue to explore ways to innovate and provide customers with the highest value possible.

In late 2021, we began offering our newest pager, GenA. This one-way alphanumeric pager features a high resolution ePaper display, intuitive modern user interface, advanced encryption and security features, over-the-air remote programming, and an antimicrobial housing. Users can select from various font sizes, and the large GenA display also leverages proportional fonts to maximize key information on a single screen.

The GenA pager is the only product available on the market with these capabilities, and we maintain an exclusive arrangement with the product's manufacturer. Given the product differentiation of the GenA pager, its development is a key initiative providing a competitive advantage, and we expect this new technology will be popular with our customers in clinical environments and may help slow our wireless revenue attrition.

Software Revenue

Software revenue consists of two components: operations revenue and maintenance revenue. Operations revenue consists primarily of license and subscription revenues for our healthcare communications solutions, revenue from the sale of hardware that facilitates the use of our software solutions, and professional services revenue related to the implementation of our solutions. Maintenance revenue is generated from our ongoing support of our software solutions or related hardware, typically for a period of one year after project completion.

To a large degree, software revenue corresponds to our backlog of performance obligations ready to deliver at some point in the future, and any delays in implementation may affect the timing of revenue recognition. Our software projects generally originate from fixed-bid contracts, although many involve a protracted sales cycle and may result in unforeseen complexity and deviation from the original scope. The time needed to complete projects, therefore, may not align with our original expectations, which affects our backlog. As a result, software revenue may fluctuate on a short-term basis, and we generally evaluate longer-term trends when managing this business.

Operations Revenue

Software operations revenue increased during the three months ended March 31, 2024, when compared to the same period in 2023. This increase in revenue was primarily due to license and professional services revenue. License revenue increases were driven by higher operations bookings as compared to the same period in 2023. The increase in professional services revenue was driven by our hiring efforts in the second half of 2023 and continuing into the first quarter, as we aligned staffing levels with our backlog which have grown as a result of our operations bookings results.

Maintenance Revenue

For the three months ended March 31, 2024, maintenance revenue increased compared to the same period in 2023, as a result of improvement in our gross revenue churn as well as net new maintenance driven by our operational bookings performance. Given these dynamics, we believe annual maintenance revenue is likely to remain flat or increase marginally, as we continue to enhance our existing software solutions. Further enhancements are expected to provide additional avenues for license sales which generate new maintenance revenue and help to reduce levels of gross churn.

Operating Expenses

Our operating expenses are presented in functional categories. Certain of our functional categories are especially important to overall expense control and management. These operating expenses are categorized as follows:

- **Cost of Revenue.** These are expenses we incur for the delivery of products and services to our customers and consist primarily of hardware, third-party software, outside services expenses and payroll and related expenses for our professional services, logistics, customer support and maintenance staff.
- **Research and Development.** These expenses relate primarily to the development of new software products and the ongoing maintenance and enhancement of existing products. This classification consists primarily of employee payroll and related expenses, outside services related to the design, development, testing and enhancement of our solutions and, to a lesser extent, hardware equipment. Research and development expenses exclude any development costs that qualify for capitalization.
- **Technology Operations.** These are expenses associated with the operation of our paging networks. Expenses consist largely of site rent expenses for transmitter locations, telecommunication expenses to deliver messages over our paging networks, and payroll and related expenses for our engineering and pager repair functions. We actively pursue opportunities to consolidate transmitters and other service, rental and maintenance expenses in order to maintain an efficient network while simultaneously ensuring adequate service for our customers. We believe continued reductions in these expenses will occur for the foreseeable future as we continue to consolidate our networks, although the benefits of such network rationalization efforts and resulting costs savings will continue to decline.
- **Selling and Marketing.** The sales and marketing staff are involved in selling our communication solutions primarily in the United States. These expenses support our efforts to maintain gross placements of units in service, which mitigated the impact of disconnects on our wireless revenue base, and to identify business opportunities for additional or future software sales. We maintain a centralized marketing function that is focused on supporting our products and vertical sales efforts by strengthening our brand, generating sales leads and facilitating the sales process. These marketing functions are accomplished through targeted email campaigns, webinars, regional and national user conferences, monthly newsletters and participation at industry trade shows. Expenses consist largely of payroll and related expenses, commissions and other costs such as travel and advertising costs.
- **General and Administrative.** These are expenses associated with information technology and administrative functions, including finance and accounting, human resources and executive management. This classification consists primarily of payroll and related expenses, outside service expenses, taxes, licenses and permit expenses, and facility rent expenses.
- **Depreciation, Amortization and Accretion.** These are expenses that may be associated with one or more of the aforementioned functional categories. This classification generally consists of depreciation from capital expenditures or other assets that are core to our ongoing operations, amortization of intangible assets, amortization of capitalized software development costs, and accretion of asset retirement obligations.

The following is a review of our operating expense categories for the three months ended March 31, 2024, and 2023. Certain prior period amounts have been reclassified to conform to the current period's presentation.

FTE Employees	152	131	21	16.0 %

For the three months ended March 31, 2024, cost of revenue increased compared to the same period in 2023, primarily driven by increases in payroll and related expenses, attributable primarily to increases in headcount for added professional services resources in conjunction with our efforts to better align staffing levels with our backlog, as well as increases in employee compensation costs.

Research and Development

Research and development expenses consisted of the following items:

(Dollars in thousands)	For the Three Months Ended March 31,		Change	
	2024	2023	Total	%
Payroll and related	\$ 1,537	\$ 1,541	\$ (4)	(0.3)%
Outside services	1,266	846	420	49.6 %

FTE Employees	35	40	(5)	(12.5)%

For the three months ended March 31, 2024, research and development expenses increased compared to the same period in 2023, primarily driven by an increase in outside services as we continue to invest in the enhancement of our software solutions.

Technology Operations

Technology operations expenses consisted primarily of the following items:

(Dollars in thousands)	For the Three Months Ended March 31,		Change	
	2024	2023	Total	%
Payroll and related	\$ 2,208	\$ 2,339	\$ (131)	(5.6)%
Site rent	2,787	2,881	(94)	(3.3)%

Technology Operations	<u>\$ 6,299</u>	<u>\$ 6,587</u>	<u>\$ (288)</u>	<u>(4.4)%</u>
FTE Employees	67	73	(6)	(8.2)%

For the three months ended March 31, 2024, technology operations expenses decreased compared to the same period in 2023, primarily due to a decrease in payroll and related expenses and site rent.

The decrease in payroll and related expenses is attributable to the reduction in headcount as a result of our continuous efforts to optimize costs, partially offset by increases in employee compensation costs. In addition, as a result of our network rationalization efforts, site rent and telecommunications costs decreased in response to a 4.1% decline in active transmitters from March 31, 2023 to March 31, 2024. As we reach certain minimum frequency commitments, as outlined by the United States Federal Communications Commission, we may be unable to continue our efforts to rationalize and consolidate our networks.

Selling and Marketing

Selling and marketing expenses consisted of the following items:

(Dollars in thousands)	For the Three Months Ended March 31,		Change	
	2024	2023	Total	%
Payroll and related	\$ 2,578	\$ 2,449	\$ 129	5.3 %

Other	368	328	40	12.2 %
Total selling and marketing	<u>\$ 4,149</u>	<u>\$ 3,901</u>	<u>\$ 248</u>	<u>6.4 %</u>
FTE Employees	67	66	1	1.5 %

For the three months ended March 31, 2024, selling and marketing expenses increased compared to the same period in 2023, driven primarily by increases in payroll and related expenses and advertising and events expenses.

The increase in payroll and related expenses is due to increases in employee compensation costs. The increase in advertising and events expenses, largely due to increased trade show participation and overall travel as compared to the same period in 2023.

General and Administrative

General and administrative expenses consisted of the following items:

(Dollars in thousands)	For the Three Months Ended March 31,		Change	
	2024	2023	Total	%
Payroll and related	\$ 3,443	\$ 3,266	\$ 177	5.4 %
Stock-based compensation	839	684	155	22.7 %
Facility rent, office and technology costs	1,679	1,848	(169)	(9.1)%
Outside services	915	1,003	(88)	(8.8)%
Taxes, licenses and permits	242	262	(20)	(7.6)%
Bad debt	131	(135)	266	(197.0)%
Other	735	772	(37)	(4.8)%
Total general and administrative	<u>\$ 7,984</u>	<u>\$ 7,700</u>	<u>\$ 284</u>	<u>3.7 %</u>
FTE Employees	71	70	1	1.4 %

For the three months ended March 31, 2024, general and administrative expenses increased compared to the same period in 2023, primarily driven by increases in bad debt, payroll and related expenses and stock-based compensation, partially offset by decreases in facility rent, office and technology costs.

The increase in bad debt expenses was primarily driven by a reversal of bad debt expense for the three months ended March 31, 2023, based on our assessment of accounts receivable and estimated allowance needs, which did not occur during the three months ended March 31, 2024. Payroll and related and stock compensation expenses increased for the three months ended March 31, 2024 due to increases in employee compensation costs.

The decreases in facility rent, office and technology costs were primarily due to reductions in office space in late 2023.

Depreciation and Accretion

For the three months ended March 31, 2024, and 2023, depreciation and accretion expenses were \$1.1 million and \$1.2 million, respectively, primarily due to decreases in asset retirement cost.

Severance and Restructuring

For the three months ended March 31, 2024, we incurred severance and restructuring expenses of \$0.4 million, primarily related to early termination for the lease of our corporate headquarters in Alexandria, Virginia in September 2023 as a result of our continuous efforts to optimize costs. No significant severance and restructuring expenses were incurred for the three months ended March 31, 2023.

Income Taxes

Provision for income taxes was \$0.9 million and \$1.9 million for the three months ended March 31, 2024 and 2023, respectively. Provision for income taxes changed for the three months ended March 31, 2024 compared to the same period in 2023, primarily due to the effect of the anticipated annual effective tax rate change resulting from certain permanent tax differences, estimated research and development tax credits and related valuation allowance, and certain discrete items. Further details can be found in Note 11, "Income Taxes" in the Notes to Condensed Consolidated Financial Statements.

Liquidity and Capital Resources

Cash and Cash Equivalents

As of March 31, 2024, we held cash and cash equivalents of \$23.3 million. The available cash and cash equivalents consist of cash in our operating accounts and cash invested in interest-bearing funds managed by third-party financial institutions. The Company maintains a majority of its cash and cash equivalents in accounts with major U.S. and multi-national financial institutions, and the majority of our deposits at these institutions exceed insured limits. Market conditions can impact the viability of these institutions. In the event of failure of any of the financial institutions where we maintain our cash and cash equivalents, there can be no assurance that we would be able to access uninsured funds in a timely manner or at all. Any inability to access or delay in accessing these funds could adversely affect our business, financial condition and results of operations.

Cash Sources

Our primary sources of liquidity have been our cash flows generated from operations and existing cash and cash equivalents. We maintain a level of liquidity sufficient to allow us to meet our cash needs in both the short term (next 12 months) and long term (beyond 12 months). At any point in time, we maintain approximately \$5.0 million to \$10.0 million in our operating accounts at third-party financial institutions. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or are subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to cash in our operating accounts.

Cash Uses

We intend to use our cash on hand to provide working capital, to support operations, to invest in our business, and to return value to stockholders through cash dividends and repurchases of our common stock. We may also consider using cash to fund or complete opportunistic investments and acquisitions that we believe will provide a measure of growth or revenue stability while supporting our existing operations.

With the successful completion of the restructuring plan and our ongoing efforts to stabilize revenue and optimize costs, we anticipate positive cash flow generation will continue in future operating periods. In February 2022, the Board of Directors authorized a share repurchase program for up to \$10 million of the Company's common stock. This repurchase authority allows us, at management's discretion, to selectively repurchase shares of our common stock from time to time in the open market depending upon market price and other factors.

Cash Flows Overview

In the event that net cash provided by operating activities and cash on hand are not sufficient to meet future cash requirements, we may be required to reduce planned capital expenses, reduce or eliminate our cash dividends to stockholders, not repurchase shares of our common stock under the share repurchase program, sell assets or seek additional financing. We can provide no assurance that reductions in planned capital expenses or proceeds from asset sales would be sufficient to cover shortfalls in available cash or that outside financing would be available on acceptable terms.

Based on current and anticipated levels of operations, we anticipate that net cash provided by operating activities, together with the available cash on hand at March 31, 2024, should be adequate to meet our anticipated cash requirements for the short term (next 12 months) and long term (beyond 12 months).

The following table sets forth information on our net cash flows from operating, investing, and financing activities for the periods stated:

(Dollars in thousands)	Three Months Ended March 31,			Change
	2024	2023		
Net cash provided by operating activities	\$ 1,998	\$ 2,611	\$	(613)
Net cash used in investing activities	(875)	(649)		(226)
Net cash used in financing activities	(9,814)	(8,178)		(1,636)

Operating Activities

As discussed above, we are dependent on cash flows from operating activities to meet our cash requirements. Cash from operations varies depending on changes in various working capital items, including deferred revenues, accounts payable, accounts receivable, prepaid expenses and various accrued expenses.

For the three months ended March 31, 2024, net cash provided by operating activities was \$2.0 million, a decrease of \$0.6 million compared to the three months ended March 31, 2023. This decrease was primarily driven by accounts payable, accrued liabilities and other of \$6.4 million and deferred revenue of \$1.4 million, partially offset by net income of \$4.2 million, accounts receivable of \$1.3 million and non-cash items such as depreciation and accretion of \$1.1 million, deferred income tax expense of \$0.9 million and stock-based compensation of \$1.1 million.

For the three months ended March 31, 2023, net cash provided by operating activities was \$2.6 million, an increase of \$7.5 million compared to the three months ended March 31, 2022. This increase was primarily driven by net income of \$3.1 million, accounts receivable of \$4.2 million and non-cash items such as depreciation and accretion of \$1.2 million and stock-based compensation of \$0.9 million. These increases were partially offset by accounts payable, accrued liabilities and other of \$6.7 million and deferred revenue of \$1.6 million.

Investing Activities

For the three months ended March 31, 2024, and 2023, net cash used in investing activities was \$0.9 million and \$0.6 million, respectively. Net cash used in investing activities reflects purchases of property and equipment.

Financing Activities

For the three months ended March 31, 2024, and 2023, net cash used in financing activities was \$9.8 million and \$8.2 million, respectively, primarily due to cash distributions to stockholders and the purchase of common stock for tax withholding purposes on vested equity awards.

On May 1, 2024, our Board of Directors declared a regular quarterly cash dividend of \$0.3125 per share of common stock with a record date of May 24, 2024, and a payment date of June 24, 2024. This cash dividend of approximately \$6.3 million, applicable to our common stock outstanding, will be paid from available cash on hand.

Commitments and Contingencies

In the ordinary course of our operations, we enter into certain contractual obligations. Such obligations include data processing services, operating leases for premises and equipment, agreements with respect to borrowed funds and deposit liabilities.

Purchase obligations are defined as agreements to purchase goods or services that are enforceable, legally binding, non-cancelable, have a remaining term in excess of one year and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable pricing provisions; and the approximate timing of transactions. The amounts of such obligations are based on our contractual commitments, however, it is possible that we may be able to negotiate lower payments if we choose to exit these contracts before their expiration date.

Our contractual payment obligations for operating leases apply to leases for office space and transmitter locations. Substantially all of these leases have lease terms ranging from one month to five years. We continue to review our office and transmitter locations and intend to replace, reduce or consolidate leases where possible. As we reach certain minimum frequency commitments, as outlined by the United States Federal Communications Commission, we may be unable to continue our efforts to rationalize and consolidate our networks.

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

The Company evaluates contingencies on an ongoing basis and establishes loss provisions for matters in which losses are probable and the amount of loss can be reasonably estimated.

The following table provides the Company's significant commitments and contractual obligations as of March 31, 2024:

(Dollars in thousands)	Payments Due by Period				
	Total	1 year or Less	1 to 3 years	3 to 5 years	More than 5 years
Operating lease obligations	\$ 12,650	\$ 3,653	\$ 4,844	\$ 2,701	\$ 1,452
Unconditional purchase obligations	5,850	2,193	2,914	743	—
Total contractual obligations	<u>\$ 18,500</u>	<u>\$ 5,846</u>	<u>\$ 7,758</u>	<u>\$ 3,444</u>	<u>\$ 1,452</u>

Refer to Note 6, "Leases" and Note 12, "Commitments and Contingencies" in the Notes to Condensed Consolidated Financial Statements for further discussion on our commitments and contingencies.

Related Party Transactions

See Note 13, "Related Parties" in the Notes to Condensed Consolidated Financial Statements for a discussion regarding our related party transactions.

Critical Accounting Policies and Estimates

The preceding discussion and analysis of financial condition and operations is based on our Condensed Consolidated Financial Statements, which have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of our Condensed Consolidated Financial Statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosures. On an ongoing basis, we evaluate estimates and assumptions, including, but not limited to, those related to the impairment of long-lived assets and goodwill, accounts receivable, revenue recognition, depreciation expense, asset retirement obligations, and income taxes. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

There have been no changes to the critical accounting policies reported in the 2023 Annual Report that affect our significant judgments and estimates used in the preparation of our Condensed Consolidated Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

As of March 31, 2024, we had no outstanding debt and no revolving credit facility.

Foreign Currency Exchange Rate Risk

We conduct a limited amount of business outside the United States. The financial impact of transactions billed in foreign currencies is immaterial to our financial results and, consequently, we do not have any material exposure to the risk of foreign currency exchange rate fluctuations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management carried out an evaluation, as required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), with the participation of our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures, as of the end of our last fiscal quarter. Disclosure controls and procedures are defined under Rule 13a-15(e) under the Exchange Act as controls and other procedures of an issuer that are designed to ensure that the information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the issuer's management, including its principal executive officer and principal financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based upon this evaluation, our principal executive officer and our principal financial officer have concluded that our disclosure controls and procedures were effective as of March 31, 2024.

Changes in Internal Control over Financial Reporting

There were no changes made to the Company's internal control over financial reporting during the three months ended March 31, 2024, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Refer to Note 12, "Commitments and Contingencies" in the Notes to Condensed Consolidated Financial Statements for information regarding legal proceedings in which we are involved.

ITEM 1A. RISK FACTORS

The risk factors included in "Item 1A – Risk Factors" of Part I of the 2023 Annual Report have not materially changed during the three months ended March 31, 2024.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company did not repurchase any shares of its common stock during the three months ended March 31, 2024.

ITEM 5. OTHER INFORMATION.

Securities Trading Plans of Directors and Executive Officers

During the three months ended March 31, 2024, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408 of Regulation S-K.
