The Company's share-based compensation to its employees consists of restricted stock units ("RSUs") and 1.4 million performance stock units ("PSUs").

The RSUs were valued as of the grant date and vest 33 1/3% each year on August 8, 2025, 2026 and 2027. The grant date fair value of the RSUs was \$4.6 million. This amount will be expensed over the service period.

The PSUs are subject to performance criteria of total shareholder return and relative shareholder return (collectively, the "TSR PSUs") and cash return on capital employed (the "CROCE PSUs"). The performance period for the measurement of the performance goal began on January 1, 2024 and ends on December 31, 2026. To be eligible to receive the earned PSUs, employees must be employed from the grant date through December 31, 2026. Different levels of achievement across these metrics will affect the percentage of PSUs that the employee receives upon the satisfaction of the service requirement. The percentage of PSUs received upon vesting ranges from 0% to 200%.

The TSR PSUs will account for 60% of the target PSUs granted to employees. The TSR PSUs contain both a service condition and a market condition. The grant date fair value of the TSR PSUs was \$2.2 million and was calculated using a Monte Carlo simulation. This amount will be expensed on a straight-line basis over the service period.

The CROCE PSUs will account for 40% of the target PSUs granted to employees. The CROCE PSUs contain both a service condition and a performance condition. The grant date fair value of the CROCE PSUs was \$1.3 million. The cumulative compensation cost that will be recognized will be equal to the grant date fair value of the awards deemed probable of vesting multiplied by the percentage of the requisite service period that has been rendered. Unlike the TSR PSUs, if the performance condition is not satisfied, any previously recognized compensation expense is not reversed.

NOTE 10

INCOME TAXES

The Company records income taxes for interim periods based on an estimated annual effective tax rate. The estimated annual effective rate is recomputed on a quarterly basis and may fluctuate due to changes in forecasted annual operating income, positive or negative changes to the valuation allowance for net deferred tax assets and changes to actual or forecasted permanent book to tax differences.

The Company's effective tax rate for the three and nine months ended September 30, 2024 was 11.0% and 11.3%, respectively. These effective tax rates differ from the federal statutory rate primarily due to the impact of nondeductible compensation and adjustments to the Company's valuation allowance.

As of September 30, 2024 and December 31, 2023, the Company had a valuation allowance of \$29.0 million and \$23.2 million, respectively, primarily related to state net operating losses and the disallowed interest expense limitation carryover. At each reporting date, the Company considers all available positive and negative evidence to evaluate whether its deferred tax assets are more likely than not to be realized.
