AND SUBSIDIARIESSELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)Note 1 - Description of BusinessFirst Financial Northwest, Inc. (â€œFirst Financial Northwestâ€), a Washington corporation, was formed on June 1, 2007 for the purpose of becoming the holding company for First Financial Northwest Bank (the â€œBankâ€) in connection with the conversion from a mutual holding company structure to a stock holding company structure completed on October 9, 2007. First Financial Northwestâ€™s business activities generally are limited to passive investment activities and oversight of its investment in the Bank. Accordingly, the information presented in the consolidated financial statements and accompanying data, relates primarily to the Bank. First Financial Northwest is a bank holding company, having converted from a savings and loan holding company on March 31, 2015, and as a bank holding company is subject to regulation by the Federal Reserve Bank of San Francisco (â€œFRBâ€). The Bank is regulated by the Federal Deposit Insurance Corporation (â€œFDICâ€) and the Washington State Department of Financial Institutions (â€œDFIâ€).At September 30, 2024, the Bank operated in 15 locations in Washington with the headquarters and seven retail branch locations in King County, five retail branch locations in Snohomish County and two retail branches in Pierce County. The Bankâ€™s primary market area consists of King, Snohomish, Pierce and Kitsap counties, Washington. The Bank is a portfolio lender, originating and purchasing one-to-four family residential, multifamily, commercial real estate, construction/land development, business, and consumer loans. Loans are primarily funded by deposits from the general public, supplemented by borrowings from the FHLB and deposits raised in the national brokered deposit market.On January 10, 2024, Global Federal Credit Union (â€œGlobalâ€), First Financial Northwest and the Bank entered into a Purchase and Assumption (â€œP&Aâ€) Agreement, pursuant to which Global will acquire substantially all of the assets and assume substantially all of the liabilities (including deposit liabilities) of the Bank, which we refer to herein as the asset sale, in exchange for $231.2Â million in cash, subject to possible downward adjustments. The asset sale is the first integral step in the sale transaction contemplated by the P&A Agreement, which consists of: (1) the asset sale, (2) the voluntary liquidation of the Bank and distribution of the Bankâ€™s remaining assets, which will include the cash consideration paid by Global to the Bank in the asset sale, to First Financial Northwest, and (3) the winding up and voluntary dissolution of First Financial Northwest and the distribution of its remaining assets, including the remaining net cash proceeds from the asset sale, to its shareholders.Consummation of the asset sale and related transactions is subject to certain conditions, including, among others, the receipt of all required regulatory approvals and expiration of applicable waiting periods, accuracy of specified representations and warranties of each party, the performance in all material respects by each party of its obligations under the P&A Agreement, and the absence of any injunctions or other legal restraints. The P&A Agreement provides certain termination rights for both Global and the Bank, and further provides that upon termination of the P&A Agreement under certain circumstances, the Bank will be obligated to pay Global a termination fee of $9.4Â million. Additional information regarding the asset sale, including the P&A Agreement, can be found in the Definitive Proxy Statement on Schedule 14A filed by First Financial Northwest with the U.S. Securities and Exchange Commission (â€œSECâ€) on June 6, 2024. On July 19, 2024, the Company received its shareholdersâ€™ approval for the asset sale, as well as the proposal to voluntarily dissolve the Company and distribute its net assets following the completion of the asset sale. The Bank previously received required regulatory approval from both the Washington State Department of Financial Institutions and the FDIC in connection with the asset sale and Bank liquidation, but consummation of the asset sale remains subject to the required regulatory approval from the National Credit Union Administration (â€œNCUAâ€), which has not been obtained. The Bank cannot provide any assurance as to whether the Bank or Global will obtain the required final regulatory approval from the NCUA, when such approval will be received, or whether there will be any conditions in such approval that are unacceptably burdensome to the Bank or Global. As used throughout this report, the terms â€œwe,â€ â€œour,â€ â€œus,â€ or the â€œCompanyâ€ refer to First Financial Northwest, Inc. and its consolidated subsidiary First Financial Northwest Bank, unless the context otherwise requires.10FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)Note 2 - Basis of PresentationÂ Â Â Â The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the SEC. Accordingly, they do not include all the information and footnotes required by U.S. Generally Accepted Accounting Principles (â€œGAAPâ€) for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023, as filed with the SEC (â€œ2023 Form 10-Kâ€). In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of the unaudited interim consolidated financial statements in accordance with GAAP have been included. All significant intercompany balances and transactions between the Company and its subsidiaries have been eliminated in consolidation. Operating results for the nine months ended September 30, 2024, are not necessarily indicative of the results that may be expected for the year ending DecemberÂ 31, 2024. In preparing the unaudited consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the allowance for credit losses (â€œACLâ€). The Companyâ€™s activities are considered a single industry segment for financial reporting purposes. The Company is engaged in the business of attracting deposits from the general public and originating and purchasing loans for its portfolio. Substantially all income is derived from a diverse base of commercial, multifamily, and residential real estate loans, consumer lending activities, and investments.Certain amounts in the unaudited interim consolidated financial statements for prior periods have been reclassified to conform to the current unaudited financial statement presentation with no effect on consolidated net income or stockholdersâ€™ equity.Note 3 - Recently Issued Accounting PronouncementsRecent Accounting PronouncementsIn November 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. ASU 2023-07 expands disclosure requirements for significant segment expenses under Topic 280. The amendments require public entities to disclose significant expense categories for each reporting segment, other segment items, the title and position of the chief operating decision maker (â€œCODMâ€), and interim disclosures of certain segment-related information previously required only on an annual basis. The amendments clarify that entities reporting single segments must disclose both the new and existing segment disclosures under Topic 280, and a public entity is permitted to disclose multiple measures of segment profit or loss if certain criteria are met. This update was effective for financial statements issued for fiscal years beginning after December 15, 2023, and will be effective for interim periods for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company does not expect this standard to have a material impact on the financial condition or results of operations but is currently assessing the impact of additional disclosures to the consolidated financial statements. In December 2023, FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages in a tabular format. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the U.S. statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more.ASU 2023-09 also identifies specific categories that would require disclosure, including the following:â€¢State and local income tax, net of federal (national) income tax effect;â€¢Foreign tax effects;â€¢Effect of changes in tax laws or rates enacted in the current period;â€¢Effect of cross-border tax laws;â€¢Enactment of new tax laws;â€¢Nontaxable or nondeductible items;â€¢Tax credits;11FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)â€¢Changes in valuation allowances; andâ€¢Changes in unrecognized tax benefits.ASU 2023-09 makes changes to annual disclosures of income taxes paid for all entities. ASU 2023-09 requires entities to disclose the amount of income taxes paid, net of refunds received, disaggregated by federal, state and foreign jurisdiction. Additionally, entities are required to disclose income taxes paid, net of refunds received, for individual jurisdictions that comprise 5% or more of total income taxes paid. The 5% threshold is evaluated using the absolute value of the net refund or net payment in each jurisdiction compared to the absolute value of the total income taxes paid (net of refunds received). ASU 2023-09 requires all entities to disclose disaggregated domestic and foreign pretax income (or loss) from continuing operations along with disaggregated income tax expense (or benefit) by federal, state and foreign components. Such disaggregation by jurisdiction should classify taxes by jurisdiction based on the jurisdiction imposing the taxes. ASU 2023-09 is effective for public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. The Company expects this ASU to only impact its disclosure requirements and does not expect the adoption of this ASU to have a material impact on its business operations or financial condition.Note 4 - InvestmentsÂ Â Â Â Investments available-for-sale are summarized as follows at the dates indicated:Â September 30, 2024AmortizedCostGrossUnrealizedGainsGrossUnrealizedLossesFair Value(In thousands)Mortgage-backed investments:Â Â Â Â Â Â Fannie Mae$11,398Â $â€”Â $(1,335)$10,063Â Â Â Â Freddie Mac11,849Â â€”Â (1,254)10,595Â Â Â Â Ginnie Mae27,029Â 106Â (1,136)25,999Â Â Â Â Other23,927Â â€”Â (674)23,253Â Municipal bonds36,269Â 32Â (4,248)32,053Â U.S. Government agencies25,102Â 9Â (470)24,641Â Corporate bonds33,000Â â€”Â (2,995)30,005Â Total$168,574Â $147Â $(12,112)$156,609Â Â December 31, 2023Â AmortizedCostGrossUnrealizedGainsGrossUnrealizedLossesFair ValueÂ (In thousands)Mortgage-backed investments:Â Â Â Â Â Â Fannie Mae$11,562Â $â€”Â $(1,684)$9,878Â Â Â Â Freddie Mac12,934Â â€”Â (1,755)11,179Â Â Â Â Ginnie Mae28,096Â â€”Â (1,516)26,580Â Â Â Â Other30,559Â â€”Â (1,366)29,193Â Municipal bonds36,571Â 42Â (4,764)31,849Â U.S. Government agencies71,003Â 5Â (1,051)69,957Â Corporate bonds33,000Â â€”Â (3,721)29,279Â Total$223,725Â $47Â $(15,857)$207,915Â There were no holdings of investment securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholdersâ€™ equity at September 30, 2024 and December 31, 2023.12FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)Â Â Â Â There were $2.5Â million of investments classified as held-to-maturity at both September 30, 2024 and December 31, 2023. In January 2020, the Bank purchased three annuity contracts, totaling $2.4 million, to be held long-term to satisfy the benefit obligation associated with certain supplemental executive retirement plan (â€œSERPâ€) agreements. These annuities, along with an associated insurance policy and rider, provide for payments in retirement for the life of the executive. The rider that provides the long-term guarantee for the SERP has no cash value and is not transferable to another annuitant. The cash value of the annuity is representative of the liquidation value of the contract. Hence, the amortized cost of these held-to-maturity investments is their fair value.The tables below summarize the aggregate fair value and gross unrealized loss by length of time those investment securities have been continuously in an unrealized loss position at the dates indicated:Â September 30, 2024Â Less Than 12 Months12 Months or LongerTotalFair ValueGross UnrealizedLossFair ValueGross UnrealizedLossFair ValueGross UnrealizedLoss(In thousands)Mortgage-backed investments:Â Â Â Fannie Mae$â€”Â $â€”Â $10,063Â $(1,335)$10,063Â $(1,335)Â Â Â Freddie Macâ€”Â â€”Â 10,595Â (1,254)10,595Â (1,254)Â Â Â Ginnie

If it is determined that a credit loss exists and an allowance is required, the credit loss on a debt security is measured as the difference between the amortized cost and the present value of the cash flows expected to be collected, limited by the amount that the fair value is less than the amortized cost. For debt securities in an unrealized loss position that the Company does not intend to sell, and it is not likely that it will be required to sell but does not expect to recover the entire securityâ€™s amortized cost basis, only the portion of the unrealized loss representing a credit loss would be recognized in earnings. If the Company intends to sell a debt security, or it is likely that the Company will be required to sell the debt security before recovering its cost basis, the entire unrealized loss would be recognized through earnings. The Company considers many factors including the severity and duration of the impairment, economic circumstances, recent events 13FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)specific to the issuer or industry, and for debt securities, external credit ratings and recent rating updates. Projected cash flows are discounted by the original or current effective interest rate depending on the nature of the debt security being measured for a potential credit loss. The remaining unrealized loss related to all other factors is recognized as a charge to other comprehensive income (â€œOCIâ€). The Company had 108 securities and 123 securities in an unrealized loss position, with 103 and 113 of these securities in an unrealized loss position for 12 months or more, at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. Management does not believe that the unrealized losses at September 30, 2024 and December 31, 2023 were related to credit losses. The declines in fair market value of these securities were mainly attributed to changes in market interest rates, credit spreads, market volatility and liquidity conditions. Currently, the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the positions before their recovery of the amortized cost basis, which may be at maturity. As such, no allowance for credit losses was recorded with respect to AFS securities for the three and nine months ended September 30, 2024.Â Â Â Â The amortized cost and estimated fair value of investments available-for-sale at SeptemberÂ 30, 2024, by contractual maturity, are shown below. The Company assigns a risk rating to all credit exposures based on a risk rating system designed to define the basic characteristics and identify risk elements of each credit extension. The Company utilizes a nine-point risk rating system. A description of the general characteristics of the risk grades is as follows:â€¢Grades 1 through 5: These grades are considered to be â€œpassâ€ credits. These include assets where there is virtually no credit risk, such as cash secured loans with funds on deposit with the Company. Pass credits also include credits that are on the Companyâ€™s watch list (grade 5), where the borrower exhibits potential weaknesses, which may, if not checked or corrected, negatively affect the borrowerâ€™s financial capacity and threaten their ability to fulfill debt obligations in the future.â€¢Grade 6: These credits, classified as â€œspecial mentionâ€, possess weaknesses that deserve managementâ€™s close attention. Special mention assets do not expose the Company to sufficient risk to warrant adverse classification in the substandard, doubtful or loss categories. If left uncorrected, these potential weaknesses may result in deterioration in the Companyâ€™s credit position at a future date.15FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)â€¢Grade 7: These credits, classified as â€œsubstandardâ€, present a distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. These credits have well-defined weaknesses which jeopardize the orderly liquidation of the debt and are inadequately protected by the current net worth and payment capacity of the borrower or of any collateral pledged.â€¢Grade 8: These credits are classified as â€œdoubtfulâ€ and possess well defined weaknesses which make the full collection or liquidation of the loan highly questionable and improbable. This classification is used where significant risk exposures are perceived but the exact amount of the loss cannot yet be determined due to pending events.â€¢Grade 9: Assets classified as â€œlossâ€ are considered uncollectible and cannot be justified as a viable asset for the Company. There is little or no prospect of near-term recovery and no realistic strengthening action of significance is pending.The grades for watch and special mention loans are used by the Company to identify and track potential problem loans which do not rise to the levels described for substandard, doubtful or loss. These are loans which have been criticized based upon known characteristics such as periodic payment delinquency, failure to comply with contractual terms of the loan or stale financial information from the borrower and/or guarantors. Loans identified as criticized (watch and special mention) or classified (substandard, doubtful or loss) are subject to problem loan reporting every three months.Â Â Â Â Management considers the guidance in FASB Accounting Standards Codification (â€œASCâ€) 310-20 when determining whether a modification, extension, or renewal of loan constitutes a current period origination. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had no loans rated as doubtful or loss. ACL is a valuation account that is deducted from the loansâ€™ amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the ACL when management believes the non-collectability of a loan balance is confirmed. Expected recoveries may not exceed the aggregate amounts previously charged-off and expected to be charged-off. The ACL, as reported in our consolidated balance sheets, is adjusted by a provision or recapture of provision for credit losses, which is reported in earnings, and reduced by the charge-offs of loan amounts, net of recoveries. When the Company classifies problem assets as either substandard or doubtful, pursuant to Federal regulations, or identifies a loan where it is uncertain if the Company will be able to collect all amounts due according to the contractual terms of the loan, it may establish a specific allowance in an amount deemed prudent to address the risk specifically. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been specifically allocated to the particular problem assets. When an insured institution classifies problem assets as a loss, pursuant to Federal regulations, it is required to charge off such assets in the period in which they are deemed uncollectible. The determination as to the classification of the Companyâ€™s assets and the amount of valuation allowance is subject to review by bank regulators, who can require the establishment of additional allowances for credit losses. 19FIRST FINANCIAL NORTHWEST, INC. When a loan becomes 90 days past due, the Company generally places the loan on nonaccrual status. Loans may be placed on nonaccrual status prior to being 90 days past due if there is an identified problem that indicates the borrower is unable to meet their scheduled payment obligations. Nonaccrual loans were $853,000 at SeptemberÂ 30, 2024 and $220,000 at DecemberÂ 31, 2023. The increase in nonaccrual loans was due in part to management placing a $278,000 one-to-four family residential loan that was 60 days past due in nonaccrual status. The following tables present a summary of loans individually evaluated for credit losses at September 30, 2024 and December 31, 2023, by type of loan. At September 30, 2024 and December 31, 2023, the Company had allowance for individually evaluated loans of $1.3Â million and $11,000, respectively.23FIRST FINANCIAL NORTHWEST, INC. Note 6 - Prepaid Expenses and Other AssetsIncluded in â€œPrepaid expenses and other assetsâ€ on the Companyâ€™s Consolidated Balance Sheets is an investment that the Company has in a Fintech focused fund that is designed to help accelerate technology adoption at banks. This equity investment is held at fair value, as reported by the Fund, and was $613,000 at September 30, 2024. During the nine months ended September 30, 2024, we contributed $100,000 to the Fund and recognized gains of $1,000. During the nine months ended September 30, 2023, we contributed $200,000 to the Fund and recognized gains of $152,000. The Company has committed up to $1.0Â million in capital for the Fund; however, the Company is not obligated to fund these commitments prior to a capital call. Seven capital calls totaling $570,000 have been made since the Companyâ€™s initial investment in the Fund on August 15, 2022.Note 7 - Fair Value The Company measures the fair value of financial instruments for reporting in accordance with ASC Topic 820, Fair Value Measurements. Fair values of assets or liabilities are based on estimates of the exit price, which is the price that would be received to sell an asset or paid to transfer a liability. When available, observable market transactions or market information is used. The fair value estimate of loans receivable was based on similar techniques, with the addition of current origination spreads, liquidity premiums, or credit adjustments. The fair value of nonperforming loans is based on the underlying value of the collateral. The Company determines the fair values of its financial instruments based on the fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair values. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect its estimate for market assumptions.Valuation inputs refer to the assumptions market participants would use in pricing a given asset or liability using one of the three valuation techniques. Inputs can be observable or unobservable. Observable inputs are those assumptions that market participants would use in pricing the particular asset or liability. These inputs are based on market data and are obtained from an independent source. Unobservable inputs are assumptions based on the Companyâ€™s own information or estimate of assumptions used by market participants in pricing the asset or liability. Unobservable inputs are based on the best and most current information available on the measurement date.Â Â Â Â Â Â Â Â All inputs, whether observable or unobservable, are ranked in accordance with a prescribed fair value hierarchy:â€¢Level 1 - Quoted prices for identical instruments in active markets.â€¢Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable.25FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)â€¢Level 3 - Instruments whose significant value drivers are unobservable.The Company used the following methods to measure fair value on a recurring or nonrecurring basis:â€¢Investments available-for-sale: The fair value of all investments, excluding FHLB stock, is based upon quoted market prices for similar investments in active markets, identical or similar investments in markets that are not active, and model-derived valuations whose inputs are observable.â€¢Loans individually evaluated: The fair value of individually evaluated loans is based on an analysis utilizing expected cash flows discounted using the original effective interest rate, the observable market price of the loan, or the fair value of the collateral, less selling costs, for collateral-dependent loans as appropriate. â€¢Derivatives: The fair value of derivatives is based on pricing models utilizing observable market data and discounted cash flow methodologies for which the determination of fair value may require significant management judgement or estimation. At September 30, 2024, the Company had 13 operating leases for retail branch locations. The remaining lease terms range from five months to 6.3 years, with most leases carrying optional extensions of three to five years. The Company will include optional lease term extensions in the ROU assets and lease liabilities when management believes it is reasonably certain that the term extension will be exercised, which will be determined based on indicators that the Company would have an economic incentive to extend the lease. The Company has elected to not apply ASU 2016-02 to short-term leases, which are those that have a term of one year or less. The Company did not have any short-term leases as of September 30, 2024. To calculate the present value of lease payments not yet paid, the Company uses the incremental borrowing rate, which is equal to the FHLB advance rate for the remaining term of the lease at the time of the lease inception.Â Â Â Â The minimum monthly lease payments are generally based on square footage of the leased premises, with escalating minimum rent over the lease term. At SeptemberÂ 30, 2024, the Company was committed to paying $77,000 per month in minimum monthly lease payments. The minimum monthly lease payment over the initial lease term, including any free rent period, was used to calculate the ROU asset and lease liability. The Companyâ€™s current leases do not include any non-lease components.Total lease expense included on the Companyâ€™s Consolidated Income Statements includes the amortized lease expense under ASC Topic 842, Leases, combined with variable lease expenses for maintenance or other expenses as defined in the individual lease agreements. The following table includes details on these items at and for the dates indicated:29FIRST FINANCIAL NORTHWEST, INC. At SeptemberÂ 30, 2024, the hedged cash flows had a total notional amount of $100.0 million and consisted of rolling one-month or three-month FHLB advances that renew at the fixed interest rate at each renewal date. These hedging instruments had original terms between two and eight years, with remaining terms ranging from nine months to 5.0 years. The weighted average remaining term is 2.6 years. Under these agreements, the counterparty pays the Company a rate tied to either the one-month or three-month Secured Overnight Financing Rate (â€œSOFRâ€). In return, the Company pays a weighted-average fixed interest rate of 1.93% on a notional amount

ranging from $10.0Â million to $15.0Â million per contract. The Company pays or receives the net interest amount monthly or quarterly based on the respective hedge agreement and includes this amount as part of its interest expense on the Companyâ€™s Consolidated Income Statements. Â Â Â Â Quarterly, the effectiveness evaluation is based upon the fluctuation of the fixed rate interest the Company pays to the FHLB for the period compared to the one-month or three-month SOFR-based interest received from the counterparty. At September 30, 2024, a $5.2 million net fair value gain of the cash flow hedges was reported in â€œprepaid expenses and other assetsâ€ on the Companyâ€™s Consolidated Balance Sheet. The tax effected amount of $4.1 million was included in â€œaccumulated other comprehensive income, net of taxesâ€ on the Companyâ€™s Consolidated Balance Sheets. There were no amounts recorded on the Consolidated Income Statements for the three and nine months ended SeptemberÂ 30, 2024 or 2023, related to ineffectiveness.Â Â Â Â Fair value for these derivative instruments, which generally changes as a result of changes in the level of market interest rates, is estimated based on dealer quotes and secondary market sources.30FIRST FINANCIAL NORTHWEST, INC. This plan provides for the granting of incentive stock options, non-qualified stock options, restricted stock and restricted stock units until June 2026. The 2016 Plan established 1,400,000 shares available to grant with a maximum of 400,000 of these shares available to grant as restricted stock awards. Each share issued as a restricted stock award counts as two shares towards the total shares available to award.As a result of the approval of the 2016 Plan, the First Financial Northwest, Inc. 2008 Equity Incentive Plan (â€œ2008 Planâ€) was frozen with no additional awards being made under the 2008 Plan. Restricted stock awards and stock options that were granted under the 2008 Plan are fully vested and unexercised options remain exercisable, subject to the provisions of the 2008 Plan and the respective award agreements. At SeptemberÂ 30, 2024, there were 833,252 total shares available for grant under the 2016 Plan, including 136,626 shares available to be granted as restricted stock. Under the 2016 Plan, the vesting date for each option award or restricted stock award is determined by an award committee and specified in the award agreement. In the case of restricted stock awards granted in lieu of cash payments of directorsâ€™ fees, the grant date is used as the vesting date unless the award agreement provides otherwise.For the three months ended SeptemberÂ 30, 2024 and 2023, total compensation expense for awards granted under the 2016 Plan was $47,000 and $270,000, respectively, and the related income tax benefit was $10,000 and $57,000, respectively. For the nine months ended SeptemberÂ 30, 2024 and 2023, total compensation expense for awards granted under the 2016 Plan was $195,000 and $497,000, respectively, and the related income tax benefit was $41,000 and $104,000, respectively.Stock OptionsUnder the 2008 Plan, stock option awards were granted with an exercise price equal to the market price of First Financial Northwestâ€™s common stock at the grant date. These option awards have a vesting period of five years, with 20% vesting on the anniversary date of each grant date, and a contractual life of ten years. Any unexercised stock options expire ten years after the grant date, or sooner in the event of the award recipientâ€™s death, disability or termination of service with the Company. At September 30, 2024, there were 40,000 stock options from the 2008 Plan vested and available for exercise, subject to the 2008 Plan provisions.Under the 2016 Plan, the exercise price and vesting period for stock options are determined by the award committee and specified in the award agreement, however, the exercise price shall not be less than the fair market value of a share as of the 31FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)grant date. Any unexercised stock option will expire 10 years after the award date or sooner in the event of the award recipientâ€™s death, disability, retirement, or termination of service. At September 30, 2024, there were 40,000 stock options granted from the 2016 Plan, of which 10,000 were vested and available for exercise. The fair value of each option award is estimated on the grant date using a Black-Scholes model that uses the following assumptions. The dividend yield is based on the current quarterly dividend in effect at the time of the grant. Historical employment data is used to estimate the forfeiture rate. The historical volatility of the Companyâ€™s stock price over a specified period of time is used for the expected volatility assumption. First Financial Northwest bases the risk-free interest rate on the U.S. Treasury Constant Maturity Indices in effect on the date of the grant. First Financial Northwest elected to use the â€œShare-Based Paymentsâ€ method permitted by the SEC to calculate the expected term. This method uses the vesting term of an option along with the contractual term, setting the expected life at the midpoint. Under certain conditions, a cashless exercise of vested stock options may occur by the option holder surrendering the number of options valued at the current stock price at the time of exercise to cover the total cost to exercise. The surrendered options are canceled and are unavailable for reissue. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. Certain of the Companyâ€™s nonvested restricted stock awards qualify as participating securities.Net income is allocated between the common stock and participating securities pursuant to the two-class method, based on their rights to receive dividends, participate in earnings, or absorb losses. Basic earnings per common share is computed by dividing net earnings available to common shareholders by the weighted-average number of common shares outstanding during the period, excluding participating nonvested restricted shares.34FIRST FINANCIAL NORTHWEST, INC. To determine the appropriate recognition of revenue for transactions within the scope of Topic 606, the Company performs the following five steps: (i) identify the contract(s) with the customer; (ii) identify the separate performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the separate performance obligations in the contract; and (v) recognize revenue when the entity satisfies a performance obligation. A contract may not exist if there are doubts as to collectability of the amounts the Company is entitled to in exchange for the goods or services transferred. If a contract is determined to be within the scope of Topic 606, the Company recognizes revenue as it satisfies a performance obligation. The largest portion of the Companyâ€™s revenue is from net interest income which is not within the scope of Topic 606. 35FIRST FINANCIAL NORTHWEST, INC. AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS(Unaudited)Disaggregation of RevenueÂ Â Â Â The following table includes the Companyâ€™s noninterest income disaggregated by type of income for the three and nine months ended SeptemberÂ 30, 2024 and 2023:Three Months Ended September 30,Nine Months Ended September 30,20242023202420232023(In thousands)BOLI change in cash surrender value (1)$295Â $244Â $956Â $826Â Wealth management revenue42Â 53Â 190Â 193Â Deposit related fees87Â 85Â 257Â 246Â Debit card and ATM fees149Â 162Â 440Â 476Â Loan related fees96Â 79Â 251Â 215Â Other8Â 54Â 43Â 184Â Total noninterest income$677Â $677Â $2,137Â $2,140Â _____(1) Not within scope of Topic 606Â Â Â Â For both the three and nine months ended SeptemberÂ 30, 2024 and 2023, substantially all of the Companyâ€™s revenues under the scope of Topic 606 are for performance obligations satisfied at a specified date. Revenues recognized within scope of Topic 606Wealth management revenue: Our wealth management revenue consists of commissions received on the investment portfolio managed by Bank personnel but held by a third party. Commissions are earned on brokerage services and advisory services based on contract terms at the onset of a new customerâ€™s investment agreement or quarterly for ongoing services. Commissions are paid by the third party to the Company when the performance obligation has been completed by both entities.Deposit related fees: Fees are earned on deposit accounts for various products or services performed for the Companyâ€™s customers. Fees include business account fees, non-sufficient fund fees, stop payment fees, wire services, safe deposit box, and others. These fees are recognized on a daily or monthly basis, depending on the type of service.Debit card and ATM fees: Fees are earned when a debit card issued by the Company is used or when another financial institutionâ€™s customer uses the Companyâ€™s ATM services. Revenue is recognized at the time the fees are collected from the customerâ€™s account or remitted by the VISA interchange network.Loan related fees: Noninterest fee income is earned on loans for servicing or annual fees earned on certain loan types. Fees are also earned on the prepayment of certain loans and are recognized at the time the loan is paid off.Other: Fees earned on other services, such as merchant services or occasional non-recurring type services, are recognized at the time of the event or the applicable billing cycle. Also included is income relating to our investment in a Fintech focused fund.Contract BalancesÂ Â Â Â At SeptemberÂ 30, 2024, the Company had no contract liabilities where the Company had an obligation to transfer goods or services for which the Company had already received consideration. In addition, the Company had no material performance obligations as of this date. 36Item 2.Â Managementâ€™s Discussion and Analysis of Financial Condition and Results of OperationsWhen used in this document, â€œFirst Financial Northwestâ€ refers to First Financial Northwest, Inc., the holding company for First Financial Northwest Bank (the â€œBankâ€). Therefore, these factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. We undertake no responsibility to update or revise any forward-looking statements.Overview First Financial Northwest Bank is a wholly-owned subsidiary of First Financial Northwest and, as such, comprises substantially all of the activity for the Company. The Bank was a community-based savings bank until February 4, 2016, when it converted to a Washington chartered commercial bank reflecting the commercial banking services it now provides to its customers. The Bank primarily serves King, Pierce, Snohomish, and Kitsap counties, Washington, through its full-service 38banking office and headquarters in Renton, Washington, as well as seven retail branches in King County, Washington, five retail branches in Snohomish County, Washington, and two retail branches in Pierce County, Washington. The Bankâ€™s business consists predominantly of attracting deposits from the general public, combined with borrowing from the FHLB and raising funds in the wholesale market, then utilizing these funds to originate one-to-four family residential, multifamily, commercial real estate, construction/land, business and consumer loans. Additionally, we anticipate that construction/land lending will continue to be a strong element of our total loan portfolio in future periods. We will continue to take a disciplined approach in our construction/land lending by concentrating our efforts on residential loans to builders known to us, including multifamily loans to developers with proven success in this type of construction. These loans typically mature in 12 to 24 months and funding is usually not fully disbursed at origination, therefore the impact to net loans receivable is generally minimal in the short term. We have also geographically expanded our loan portfolio through purchases of consumer classic and collectible car loans that are outside of our primary market area. During the first nine months of 2024, loan repayments outpaced newly funded loans, refinances and purchases, resulting in a decrease of $49.8 million in net loans receivable at September 30, 2024.Our strategic initiatives seek to diversify our loan portfolio and broaden growth opportunities within our current risk tolerance levels and asset/liability objectives. In this regard, our portfolio at September 30, 2024, included $135.3 million of loans to borrowers or secured by properties in 47 other states and the District of Columbia, with the largest concentrations of loans outside our primary market area located in California, Oregon, Texas, Florida and Alabama totaling $29.3 million, $10.3 million, $10.2 million, $10.0 million and $7.6 million, respectively. The Bank has affiliated with a Small Business Administration (â€œSBAâ€) partner to process our SBA loans while the Bank retains the credit decisions. This enables us to be active in lending to small businesses until our volumes are high enough to support the investment in necessary infrastructure. When volumes support our becoming a SBA preferred lender, we will apply for that status which would provide the Bank with delegated loan approval as well as closing and most servicing and liquidation authority, enabling the Bank to make loan decisions more rapidly. In addition, the Bank is strategically broadening its commercial business lending offerings, encompassing products like business lines of credit, business term loans, and equipment financing. This expansion aims to enhance loan portfolio diversity, draw in business deposits, and bolster revenue generation. Moreover, it seeks to contribute to local economic development and cultivate enduring client relationships. Our primary source of revenue is interest income, which is the income that we earn on our loans and investments. Interest expense is the interest that we pay on our deposits and borrowings. Net interest income is the difference between interest income and interest expense. Changes in levels of interest rates affect interest income and interest expense differently and, thus, impact our net interest income and net interest margin. The Bank is currently liability-sensitive, meaning our interest-earning liabilities re-price at a faster rate than our interest-bearing assets. For the three months ended September 30, 2024, net interest margin decreased 23 basis points to 2.46%, compared to 2.69% in the same quarter last year. The average yield on interest-earning assets increased, primarily due to an increase in market interest rates. For the same reason, the average cost of interest-bearing liabilities also increased, but at a faster pace than the average yield on interest-earning assets. Income is also affected by the provision for credit losses, or the recapture of the provision for credit losses, which affects the level of our allowance for credit losses (â€œACLâ€). The ACL is an estimate of the expected credit losses on financial assets measured at amortized cost using relevant information about past events, including historical credit loss experience on financial assets with similar risk characteristics, current conditions, and reasonable and supportable forecasts that affect the collectability of the remaining cash flows over the contractual term of the financial assets. As our loan portfolio increases, or due to an increase for probable losses inherent in our loan portfolio, our ACL may increase, resulting in a decrease to net interest income after the provision. Improvements in loan risk ratings, increases in property values, or receipt of recoveries of amounts previously charged off may partially or fully offset any required increase to ACL due to loan growth or an increase in probable credit losses. Noninterest income is generated from various loan and deposit fees, increases in the cash surrender value of BOLI, revenue earned on our wealth management services, and other income. This income is increased or partially offset by any net gain or loss on sales of investment securities.Our noninterest expenses consist primarily of salaries and employee benefits, professional fees, regulatory assessments, occupancy and equipment, and other general and administrative expenses. Salaries and employee benefits consist primarily of the salaries and wages paid to our employees, including commissions and bonuses, payroll taxes, expenses for retirement, and other employee benefits. Professional fees include legal services, auditing and accounting services, computer 39support services, and other professional services, including those in support of the proposed Global transaction and other strategic plans. Occupancy and equipment expenses, which are the fixed and variable costs of buildings and equipment, consist primarily of lease expenses, real estate taxes, depreciation expenses, maintenance, and costs of utilities. Critical Accounting EstimatesÂ Â Â Â Our critical accounting estimates are described in detail in the "Critical Accounting Estimates" section within Item 7 of our 2023 Form 10-K. The SEC defines "critical accounting estimates" as those that require application of management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in future periods. The Company's critical accounting estimates include those related to the calculation of the ACL. There have not been any material changes in the Companyâ€™s critical accounting estimates during the nine months ended September 30, 2024.Comparison of Financial Condition at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 Total assets were $1.45 billion at SeptemberÂ 30, 2024, a decrease of $54.0 million or 3.6%, from $1.51 billion at DecemberÂ 31, 2023. The following table details the net change in the composition of our assets at SeptemberÂ 30, 2024 from DecemberÂ 31, 2023.Â September 30, 2024December 31, 2023$ Change % ChangeÂ (Dollars in thousands)Cash on hand and in banksÂ $8,423Â $8,391Â $32Â 0.4Â %Interest-earning deposits with banks72,884Â 22,138Â 50,746Â 229.2Â Investments available-for-sale, at fair value156,609Â 207,915Â (51,306)(24.7)Investments held-to-maturity, at amortized cost2,462Â 2,456Â 6Â 0.2Â Loans receivable, netÂ 1,126,146Â 1,175,925Â (49,779)(4.2)FHLB stock, at costÂ Â Â Â

The increase was primarily the result of a significant decrease in appraised values on two participation commercial loans (one lending relationship) with balances totaling $6.0 million, shifts in the compositions of the loan portfolio, credit rating changes, changes in the unemployment rate forecasts and an increase in balances of the multifamily construction/land and commercial construction/land development loans. We believe the ACL was adequate to absorb the expected losses in the loan portfolio at SeptemberÂ 30, 2024. While we believe the estimates and assumptions used in our determination of the adequacy of the ACL are reasonable, there can be no assurance that such estimates and assumptions will be proven correct in the future, that the actual amount of future losses will not exceed the amount of past provisions, or that any increased provisions that may be required will not adversely impact our financial condition and results of operations. Future additions to the ACL may become necessary based upon changing economic conditions, the level of problem loans, business conditions, credit concentrations, increased loan balances, or changes in the underlying collateral of the loan portfolio. In addition, the determination of the amount of our ACL is subject to review by bank regulators as part of the routine examination process, which may result in the establishment of additional loss reserves or the charge-off of specific loans against established loss reserves based upon their judgment of information available to them at the time of their examination. Uncertainties relating to our ACL are heightened as a result of the risks surrounding economic forecasts and risks inherent in the business environment as described in further detail in Part II, Item 1A of this Form 10-Q and Part 1, Item 1A of our 2023 FormÂ 10-K.Asset Quality. Loans are considered past due if a scheduled principal or interest payment is due and unpaid for 30 days or more. Past due loans totaled $2.2 million and $1.4 million, or 0.20% and 0.12% of total loans, at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. We had no other real estate owned properties or foreclosed assets as of September 30, 2024 and December 31, 2023. Nonaccrual loans totaled $853,000, or 0.07% of total loans, at September 30, 2024, compared to $220,000, or 0.01% of total loans, at December 31, 2023. The increase in nonaccrual loans was due partly to management placing a $279,000 one-to-four family residential loan that was 60 days past due on nonaccrual status and a $352,000 consumer loan that was more than 90 days past due becoming nonaccrual.We will continue to focus our efforts on working with borrowers to bring any past due loans current. By taking ownership of the underlying collateral if needed, we can generally convert non-earning assets into earning assets on a more timely basis than may otherwise be the case. 43Deposits. Deposits decreased $26.8 million to $1.17 billion as of September 30, 2024, down from $1.19 billion at December 31, 2023. This decline was primarily the result of a $116.7 million decrease in the aggregate of brokered deposits, money market accounts, savings accounts and interest-bearing demand accounts, partially offset by a $90.3 million increase in retail certificates of deposits. During the first nine months of 2024, management chose to reduce the reliance on funds from the wholesale markets due to a decrease in the loan portfolio and overall loan demand.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we held $80.0 million and $85.8 million in public funds, respectively, primarily in retail certificates of deposit and money market accounts. Advances.Â We use advances from the FHLB as an alternative funding source to manage interest rate risk, to leverage our balance sheet and to supplement our deposits. FHLB advances totaled $100.0 million and $125.0 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. At SeptemberÂ 30, 2024, FHLB advances consisted of $75.0 million of fixed-rate one-month advances that renew monthly and $25.0 million of fixed-rate three-month advances that renew quarterly. These one- and three-month advances are utilized in cash flow hedge agreements as described below. At SeptemberÂ 30, 2024, all of our FHLB advances were due to reprice within a month. Cash Flow Hedge. To assist in our interest rate risk management efforts, the Bank has entered into multiple interest rate swap agreements with qualified institutions. Each interest rate swap agreement qualifies as a cash flow hedge of the variability of future interest payments attributable to the changes in one-month or three-month SOFR. The objective of the cash flow hedge is to offset the variability of cash flows due to the rollover of the Bankâ€™s FHLB, or other advances, for one-month or three-months, respectively, for the term of the agreement. The following table presents details of the Bankâ€™s interest rate swap agreements as of SeptemberÂ 30, 2024. For each interest rate swap agreement listed, the Bank has secured a FHLB advance for the notional amount that matures and is subject to repricing at the same frequency as the corresponding interest rate swap. The Bank pays a fixed interest rate to the counterparty and in return, receives a floating interest rate based on the index noted in the table below. The original terms of these interest rate swap agreements range from two to eight years. These cash flow hedge agreements had a weighted average remaining term of 30.8 months and a weighted average fixed interest rate of 1.93% as of September 30, 2024.44Â Notional amountStart DateMaturity DateFixed rate paid to counterpartyIndex rate received from counterpartyRepricing Frequency(Dollars in thousands)$15,000Â 3/2/20203/2/20260.911Â %1-month SOFRMonthly15,000Â 3/2/20203/2/20270.937Â 1-month SOFRMonthly15,000Â 3/2/20203/2/20280.984Â 1-month SOFRMonthly15,000Â 10/25/202110/25/20280.793Â 3-month SOFRQuarterly10,000Â 10/25/202110/25/20290.800Â 3-month SOFRQuarterly15,000Â 7/17/20237/17/20254.565Â 1-month SOFRMonthly15,000Â 7/17/20237/17/20264.149Â 1-month SOFRMonthlyA change in the net fair value of these cash flow hedges is recognized as an other asset or other liability on the balance sheet with the tax-effected portion of the change included in other comprehensive income. At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we recognized fair value assets of $5.2 million and $7.6 million, respectively, as a result of the increase in market value of the interest rate swap agreements. Stockholdersâ€™ Equity. Stockholdersâ€™ equity decreased to $160.2 million at SeptemberÂ 30, 2024, from $161.7 million at DecemberÂ 31, 2023. The decrease in stockholdersâ€™ equity resulted from a net loss of $128,000, the payment of $2.4 million of cash dividends to stockholders and a $1.2 million decrease to additional paid-in-capital from the cancellation of 55,714 shares of stock awards during the first nine months of 2024. These decreases were partially offset by a $1.2 million decrease in accumulated other comprehensive loss, net of taxes, resulting from the increase in fair value of our available-for-sale investments, and a $1.1 million increase in additional paid-in-capital resulting from $195,000 in stock-based compensation recognized over the vesting periods of the stock awards and $889,000 from the exercise of 82,500 shares of stock options. The following table shows cash dividends paid per share and the related dividend payout ratio for the periods indicated:Three Months Ended September 30,Nine Months Ended September 30,20242023202420232023Dividend paid per common share$â€”Â $0.13Â $0.26Â $0.39Â Dividend payout ratio (1)â€”Â %79.3Â %(2,600.0)%69.8Â %_____(1) Dividends paid per common share divided by basic earnings per common share. 45Â Â Â Â Comparison of Operating Results for the Three Months Ended SeptemberÂ 30, 2024 and 2023 General. A net loss of $608,000 was reported for the three months ended SeptemberÂ 30, 2024, or $(0.07) per diluted share compared to net income of $1.5 million, or $0.16 per diluted share, for the three months ended SeptemberÂ 30, 2023. The $2.1 million decrease in net income was due to a $1.2 million decrease in net interest income and a $1.9 million increase in provision for credit losses, partially offset by a $282,000 decrease in noninterest expense and a $733,000 decrease in the federal income tax provision. Net Interest Income. Net interest income for the three months ended SeptemberÂ 30, 2024, decreased $1.2 million to $8.5 million from $9.7 million for the three months ended SeptemberÂ 30, 2023. The decrease was primarily due to lower interest income resulting from decreases in average balances of interest-earning assets and higher interest expense on deposits and borrowings, primarily reflecting the higher market interest rates and continued intense competition for deposits. Between March 2022 and January 2024, in response to continuing elevated inflation, the Federal Open Market Committee of the Federal Reserve hiked interest rates a total of 11 times, to a range of 5.25% to 5.50% until September 18, 2024, when the rates were reduced to the range of 4.75% to 5.00%.Interest income decreased $259,000 for the three months ended SeptemberÂ 30, 2024, compared to the same period in 2023. While interest income benefited from the repricing impact of the higher interest rate environment on variable rate asset yields, the reduction in interest income resulting from decreases in average balances of these interest-earning assets outpaced the increase in yields. Interest income on loans decreased $260,000 due to a decrease in the average loan balances, partially offset by an increase in loan yields. The average balance of loans decreased $40.0 million to $1.13 billion for the three months ended September 30, 2024 from $1.17 billion for the same period in 2023. Average loan yield increased to 5.86% for the three months ended September 30, 2024, from 5.73% for the three months ended September 30, 2023, due in large part to increased returns from the repricing of variable rate loans. Interest income from investment securities decreased $374,000 for the three months ended September 30, 2024, compared to the same period in 2023, due to a $50.1 million decrease in the average balance of these securities, partially offset by a 32 basis point increase in the average yield to 4.30% for the three months ended September 30, 2024, compared to 3.98% for the same period in 2023, as higher market interest rates favorably impacted our variable rate investment securities.Interest income on interest-earning deposits with banks increased $338,000 for the three months ended SeptemberÂ 30, 2024, compared to the three months ended SeptemberÂ 30, 2023. The increase was due to a $24.9 million increase in the average balance and a nine basis point increase in the average yield to 5.27% on these deposits for the three months ended September 30, 2024, compared to 5.18% for the same period in 2023. Interest expense increased $990,000 for the three months ended SeptemberÂ 30, 2024, compared to the three months ended SeptemberÂ 30, 2023, due to interest expense on deposits increasing $543,000 and interest expense on borrowings increasing $447,000. The increase in the interest expense on deposits was primarily due to an increase in the average rate paid on interest-bearing deposits, in particular higher yielding money market accounts and retail certificates of deposit, which increased 68 basis points and 100 basis points, respectively, and, to a lesser extent, the higher average balance of money market accounts and retail certificates of deposits. The average rate paid on money market accounts and retail certificates was 3.71% and 4.37% for the three months ended September 30, 2024, compared to 3.03% and 3.37% for the three months ended September 30, 2023, respectively. For the three months ended September 30, 2024, the average balance of money market accounts and retail certificates of deposit increased $34.2 million and $38.8 million, respectively. These increases were partially offset by decreases in the interest expenses on brokered and interest-bearing demand deposits. The decrease in interest expense on brokered deposits for the three months ended September 30, 2024, compared to the same period in 2023, was primarily due to the average balance of brokered deposits decreasing $124.3 million, as we reduced the use of brokered deposits as a funding source due to lower loan originations and the growth in retail certificates of deposit, partially offset by a 13 basis point increase in average cost to 5.35% for the three months ended September 30, 2024, from 5.22% for the three months ended September 30, 2023. The decrease in interest expense on demand deposits was due primarily to a $22.6 million decrease in average balance combined with a 129 basis point decrease in average cost to 0.19% for the three months ended September 30, 2024, from 1.48% for the three months ended September 30, 2023. Interest expense on borrowings increased $447,000 as a result of a $26.1 million increase in the average balance and a 77 basis point increase in average cost of borrowings for the three months ended September 30, 2024, compared to the same period in 2023. 46The Companyâ€™s net interest margin was 2.46% for the three months ended SeptemberÂ 30, 2024, compared to 2.69% for the three months ended SeptemberÂ 30, 2023. The decrease was primarily due to the increased cost of interest-bearing liabilities outpacing the increased yields on interest-earning assets, with a 48 basis points increase in our average cost of interest-bearing liabilities to 3.72% from 3.24%, partially offset by a 20 basis point increase in the average yield on interest earning assets to 5.66% from 5.46% between periods, respectively. For more information, see â€œHow We Measure the Interest Rate Changesâ€ in Item 3 of this report. The following table presents the effects of changing rates and volumes on our net interest income during the periods indicated. Information is provided with respect to: (1) effects on interest income attributable to changes in volume (changes in volume multiplied by prior rate); and (2) effects on interest income attributable to changes in rate (changes in rate multiplied by prior volume). Changes in rate/volume are allocated proportionately to the changes in rate and volume. updated appraisals received during the quarter resulted in an increase in our ACL. The loan guarantors are under contract to sell another property, with the sale expected to close in the fourth quarter of 2024. Proceeds from this sale are expected to be applied to the two loans, which would improve our position. Additionally, the guarantors reported interest from a national real estate developer in purchasing one of the facilities, though no purchase agreement was entered into as of September 30, 2024. The ACL was also impacted by higher forecasted unemployment rates and increased construction and land development loan balances. In comparison, a $300,000 recapture of provision for credit losses was recorded for the three months ended SeptemberÂ 30, 2023. The recapture was due to the payoff of a $4.6 million commercial real estate loan that carried a higher credit risk rating, a credit upgrade to an $8.7 million commercial real estate loan and reduction in loans receivable during that quarter. For more information, see Note 5 - Loans Receivable and Allowance for Credit Losses in the Companyâ€™s Selected Notes to Consolidated Financial Statements.Noninterest Income. Noninterest income was $677,000 for both the three months ended SeptemberÂ 30, 2024 and SeptemberÂ 30, 2023. Offsetting these increases was an $11,000 decrease in wealth management revenue primarily due to decreased sales of products and services, an $11,000 decrease in deposit related fees primarily due to lower debit card related fees reflecting decreased usage and a $46,000 decrease in other noninterest income primarily due to a $44,000 distribution received from our investment in a Fintech focused fund in the third quarter of 2023, and no such distribution received in the third quarter of 2024.Noninterest Expense. scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by the level of interest rates, economic conditions and competition. We believe that our current liquidity position, and our forecasted operating results are sufficient to fund all of our existing commitments. Liquidity management is both a daily and long-term function of business management. Excess liquidity is generally invested in short-term investments such as overnight deposits or other short-term investment securities. On a longer-term basis, we maintain a strategy of investing in various lending products and investment securities. We use our sources of funds primarily to meet ongoing commitments, to pay maturing certificates of deposit and withdrawals on other deposit accounts, to fund loan commitments, and to maintain our portfolio of investment securities. At September 30, 2024, the undisbursed portion of construction LIP and unused portion of lines of credit totaled $59.3 million and $51.5 million, respectively. Certificates of deposit scheduled to mature in one year or less at September 30, 2024, totaled $381.8 million. Managementâ€™s policy is generally to maintain deposit rates at levels that are competitive with other local financial institutions. Based on historical experience, we believe that a significant portion of maturing certificates of deposit will remain with the Bank. We measure our liquidity based on our ability to fund our assets and to meet liability obligations when they come due. Liquidity (and funding) risk occurs when funds cannot be raised at reasonable prices or in a reasonable time frame to meet our normal or unanticipated obligations. We regularly monitor the mix between our assets and our liabilities to manage effectively our liquidity and funding requirements. When retail deposits are not sufficient to provide the funds for our assets, or if other sources are available with more favorable rates or structure, we use alternative funding sources. These sources include, but are not limited to, advances from the FHLB, wholesale funding, brokered deposits, national CD markets, internet deposit gathering sources, federal funds purchased, and dealer repurchase agreements, as well as other short-term alternatives. We may also liquidate assets to meet our funding needs. During the first nine months of 2024, management reduced its reliance in the wholesale markets due to a decline in the loan portfolio balances and an increase in the balance of retail certificates of deposit. At September 30, 2024, we had $50.9 million in brokered deposits, all of which were certificates of deposit, down from $130.8 million in brokered deposits at December 31, 2023. At September 30, 2024, the Bank maintained credit facilities with the FHLB totaling $506.5 million, subject to qualifying collateral limits that reduced our pledged collateral borrowing capacity to $418.6 million, with an outstanding balance of $100.0 million. As further funding sources, we also had the ability to borrow $54.9 million from the 56FRB, and $75.0 million from unused lines of credit with other financial institutions, with no balance outstanding from these sources at September 30, 2024. For additional information, see the Consolidated Statements of Cash Flows in Item 1 of this report.On a monthly basis we estimate our liquidity sources and needs for the next twelve months. Also, we determine funding concentrations and our need for sources of funds other than deposits. This information is used by our Asset/Liability Management Committee in forecasting funding needs and investing opportunities.We incur capital expenditures on an ongoing basis to expand and improve our product offerings, enhance and modernize our technology infrastructure, and to introduce new technology-based products to compete effectively in our markets. We evaluate capital expenditure projects based on a variety of factors, including expected strategic impacts (such as forecasted impact on revenue growth, productivity, expenses, service levels and customer retention) and our expected return on investment. The amount of capital investment is influenced by, among other things, current and projected demand for our services and products, cash flow generated by operating activities, cash required for other purposes and regulatory considerations. Based on our current capital allocation objectives, during the remainder of fiscal 2024 we expect cash expenditures of approximately $145,000 for capital investment in property, plant and equipment. At September 30, 2024, we project that our fixed commitments for the remainder of the fiscal year ending December 31, 2024, will include (i) $230,000 of operating lease payments and (ii) other future obligations and accrued expenses of $20.8 million. At September 30, 2024, we had $100.0 million in FHLB advances, consisting of $75.0 million of fixed-rate one-month advances that renew monthly and $25.0 million of fixed-rate three-month advances that renew quarterly. At September 30, 2024, all of our FHLB advances were tied to interest rate swap agreements and these advances are expected to be renewed as they mature during 2024. We believe that our liquid assets combined with the available lines of credit provide adequate liquidity to meet our current financial obligations for at least the next 12 months.Total stockholdersâ€™ equity was $160.2 million at September 30, 2024. Consistent with our goal to operate a sound and profitable financial organization, we actively seek to maintain the Bank as a â€œwell capitalizedâ€ institution in accordance with regulatory standards. As of September 30, 2024, the Bank exceeded all regulatory capital requirements. Regulatory capital ratios for the Bank as of September 30, 2024 were as follows: Total capital to risk-weighted assets was 16.68%; Tier 1 capital and Common equity tier 1 capital to risk-weighted assets was 15.43%; and Tier 1 capital to total assets was 10.86%. At September 30, 2024, the Bank met the financial ratios to be considered well-capitalized under the regulatory guidelines. In addition, the Bank is required to maintain a capital conservation buffer consisting of additional Common equity Tier 1 capital greater than 2.5% of risk-weighted assets above the required minimum regulatory capital levels in order to avoid limitations on paying dividends, engaging in share repurchases, and paying discretionary bonuses based on percentages of eligible retained income that could be utilized for such actions. At September 30, 2024, the Bankâ€™s capital conservation buffer was 8.68%. See Item 1. â€œBusiness â€“ How We Are Regulated â€“ Regulation and Supervision of First Financial Northwest Bank â€“ Capital Requirementsâ€ included in the 2023 Form 10-K for additional information regarding regulatory capital requirements for the Bank. The Accumulated Other Comprehensive Income (â€œAOCIâ€) component of capital includes a variety of items, including the value of our available-for-sale investment securities portfolio and the value of our derivative instruments, net of tax. We model various interest rate scenarios that could impact these elements of AOCI and believe that we have sufficient capital to withstand the estimated potential fluctuations in a variety of interest rate environments.Â Â Â Â Item 3. Quantitative and Qualitative Disclosures about Market RiskGeneral. Our Board of Directors has approved an asset/liability management policy to guide management in maximizing interest rate spread by managing the differences in terms between interest-earning assets and interest-bearing liabilities while maintaining acceptable levels of liquidity, capital adequacy, interest rate risk, credit risk, and profitability. The policy established the Investment, Asset/Liability Committee (â€œALCOâ€), which is comprised of certain members of senior management and the Board of Directors. The Committeeâ€™s purpose is to communicate, coordinate and manage our asset/liability position consistent with our business plan and Board-approved policies. The ALCO meets quarterly to review various areas including: â€¢economic conditions;â€¢interest rate outlook;57â€¢asset/liability mix;â€¢interest rate risk sensitivity;â€¢current market opportunities to promote specific products;â€¢historical financial results;â€¢projected financial results; andâ€¢capital position.Â Â Â Â The ALCO also reviews current and projected liquidity needs. As part of its procedures, the ALCO regularly reviews interest rate risk by forecasting the impact that changes in interest rates may have on net interest income and the market value of portfolio equity, which is defined as the net present value of an institutionâ€™s existing assets, liabilities and off-balance sheet instruments and evaluating such impacts against the maximum potential change in the market value of portfolio equity that is authorized by the Board of Directors. Our Risk When Interest Rates Change. The rates of interest we earn on assets and pay on liabilities generally are established contractually for a period of time. Market interest rates change over time. Our loans generally have longer maturities than our deposits. Accordingly, our results of operations, like those of other financial institutions, are impacted by changes in interest rates and the interest rate sensitivity of our assets and liabilities. The risk associated with changes in interest rates and our ability to adapt to these changes is known as interest rate risk and is our most significant market risk.We have utilized the following strategies in our efforts to manage interest rate risk:â€¢we are originating shorter term higher yielding loans, whenever possible;â€¢we have attempted, where possible, to increase balances of non-maturity deposits that are less interest rate sensitive;Â Â Â Â â€¢we invest in securities with relatively short average lives, generally less than eight years;â€¢we have added adjustable-rate loans to our loan portfolio;â€¢we utilize brokered certificates of deposit with a call option as a funding source; andâ€¢we utilize interest rate swaps to effectively fix the rate on certain FHLB advances.Â Â Â Â We have evaluated the use of derivative instruments to limit the impact of interest rate changes on earnings and cash flows and to lower our cost of borrowing while considering various elements of interest rate risk. We use interest rate swaps which qualify as a cash flow hedge as a tool to lower the cost of certain FHLB advances as compared to the fixed rates offered by the FHLB for its longer-term advances. At September 30, 2024, the Bank held seven interest rate swap agreements with a total notional amount of $100.0 million, a weighted-average fixed interest rate of 1.93%, and weighted average remaining maturity of 31 months. Under the interest rate agreements, the Bank pays a fixed interest rate while it receives a floating rate tied to either the 1-month or 3-month SOFR, aligning with each agreementâ€™s reset frequency over an original term of two to eight years. At the commencement of each interest rate agreement, the Bank secures a fixed rate FHLB advance which resets to market rate on the same cycle as the corresponding interest rate swap agreement. Entering into these agreements has allowed the Bank to secure fixed rate funding at a lower cost than a traditional fixed rate FHLB advance for comparable terms. We will continue to review similar instruments and may continue to utilize them for interest rate risk management in the future. Â Â Â Â Interest rate contracts, however, may expose us to the risk of loss associated with variations in the spread between the interest rate contract and the hedged item. In addition, these contracts carry volatility risk that the expected uncertainty relating to the price of the underlying asset differs from what is anticipated. If any interest rate swap we enter into proves ineffective, it could result in volatility in our operating results, including potential losses, which could have a material adverse effect on our results of operations and cash flows. In addition, we may determine that it is appropriate to unwind some or all of our derivative instruments, based on our assessments of the continued appropriateness of our balance sheet risks and derivative positions. How We Measure the Risk of Interest Rate Changes. We monitor our interest rate sensitivity on a quarterly basis by measuring the impact of changes to net interest income in multiple rate environments. Management retains the services of a third-party consultant with over 30 years of experience in asset-liability management to assist in its interest rate risk and asset-liability management. Management uses various assumptions to evaluate the sensitivity of our operations to changes in interest rates. Although management believes these assumptions are reasonable, the interest rate sensitivity of our assets and liabilities on net interest income and the market value of portfolio equity could vary substantially if different assumptions were used or actual results differ from these assumptions. Although certain assets and liabilities may have similar maturities or periods of 58repricing, they may react differently to changes in market interest rates. The interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types of assets and liabilities lag behind changes in market interest rates. Non-uniform changes and fluctuations in market interest rates across various maturities will also affect the results presented. In addition, certain assets, such as adjustable-rate mortgage loans, have features which restrict changes in interest rates on a short-term basis and over the life of the asset. Further, a portion of our adjustable-rate loans have interest rate floors below which the loanâ€™s contractual interest rate may not adjust. Approximately 62.1% of our net loans were adjustable-rate loans at September 30, 2024. At that date, $396.1 million, or 55.9%, of these loans, with a weighted-average rate of 4.96%, were at their floor interest rate. Â Â Â Â The inability of our loans to adjust downward with the presence of floors can contribute to increased income in periods of declining interest rates, although this result is subject to the risk that borrowers may refinance these loans during periods of declining interest rates. Also, when loans are at their respective floors, there is a further risk that our interest income may not increase as rapidly as our cost of funds during periods of increasing interest rates and could have a material adverse effect on our results of operations. Finally, the ability of many borrowers to service their debt may decrease in the event of an interest rate increase. We consider all these factors in monitoring our interest rate exposure.The assumptions we use to monitor interest rate risk are based upon a combination of proprietary and market data that reflect historical results and current market conditions. These assumptions relate to interest rates, loan prepayments, deposit decay rates and the market value of certain assets under the various interest rate scenarios. We use market data to determine prepayments and maturities of loans, investments and borrowings and use our own assumptions on deposit decay rates except for time deposits. Time deposits are modeled to reprice to market rates upon their stated maturities. We also assume that non-maturity deposit rates can be maintained with rate adjustments proportionate to the change in market interest rates, based upon our historical deposit decay rates, which are lower than market decay rates. When interest rates rise, we assume we will not have to raise interest rates proportionately on less rate sensitive accounts to retain these deposits. These assumptions are based upon our analysis of our customer base, competitive factors and historical experience. In the event of a significant change in interest rates, however, prepayment and early withdrawal levels might deviate from those assumed.Our income simulation model examines changes in net interest income in which interest rates were assumed to remain at their base level, with instantaneous increases and decreases of 100, 200, 300, and 400 basis points. The following table illustrates the estimated change in our net interest income over the next 12 months from September 30, 2024, that would occur in the event of an immediate change in interest rates equally across all maturities, with no effect given to any steps that the Bank might take to counter the effect of that interest rate movement.Â Â Â Â Â Â Â Â Net Interest Income Change at September 30, 2024Basis Point Change in RatesNet Interest Income% Change(Dollars in thousands)400$33,891Â (7.36)%30034,586Â (5.46)20035,247Â (3.66)10035,969Â (1.68)Base36,585Â â€”Â (100)37,034Â 1.23Â (200)39,416Â 7.74Â (300)37,847Â 3.45Â (400)38,195Â 4.40Â The net interest income table presented above is predicated upon a static balance sheet with no growth or material change in asset or liability mix. The effects of changes in interest rates are based upon a cash flow simulation of our existing assets and liabilities and assuming that delinquency rates would not change as a result of changes in interest rates, although there can be no assurance that this will be the case. Delinquency rates may change when interest rates change as a result of changes in the loan portfolio mix, underwriting conditions, loan terms or changes in economic conditions that have a delayed 59effect on the portfolio. Even if interest rates change in the designated amounts, there can be no assurance that our assets and liabilities will perform as assumed. Also, a change in U.S. Treasury rates in the designated amounts accompanied by a change in the shape of the Treasury yield curve would cause changes to the net interest income other than those indicated above.At SeptemberÂ 30, 2024, other than the interest rate swap agreements we have entered into, we did not have any derivative financial instruments or trading accounts for any class of financial instruments, nor have we engaged in any other hedging activities or purchased off-balance sheet derivative instruments. However, we continue to review such instruments and may utilize them for interest rate risk management in the future. Interest rate risk continues to be one of our primary risks, as other types of risks, such as foreign currency exchange risk and commodity pricing risk do not arise in the normal course of our business activities and operations.Item 4. Controls and ProceduresÂ Â Â Â The management of First Financial Northwest, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Securities Exchange Act of 1934 (â€œExchange Actâ€). A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that its objectives are met. Also, because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Additionally, in designing disclosure controls and procedures, our management was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. As a result of these inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Furthermore, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.(a)Evaluation of Disclosure Controls and Procedures: An evaluation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) was carried out under the supervision and with the participation of our Chief Executive Officer (Principal Executive Officer), Chief Financial Officer (Principal Financial Officer) and several other members of our senior management as of the end of the period covered by this report. Our Chief Executive Officer and Chief Financial Officer concluded that, as of SeptemberÂ 30, 2024, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports we file or submit under the Exchange Act is (i) accumulated and communicated to our management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner and (ii) recorded, processed, summarized and reported within the time periods specified in the SECâ€™s rules and forms.(b)Changes in Internal Controls: In the quarter ended SeptemberÂ 30, 2024, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.PART IIItem 1. Legal ProceedingsFrom time to time, we are engaged in various legal proceedings in the ordinary course of business, none of which are currently considered to have a material impact on our financial position or results of operations.Item 1A. Risk FactorsThere have been no material changes to the risk factors that were previously disclosed in Part 1, Item 1A of the 2023 Form 10-K.60Item 2. the three months ended September 30, 2024, the Company did not have any publicly announced stock repurchase program in place.First Federal Northwest is an entity separate and distinct from its principal subsidiary, the Bank, and derives substantially all of its revenue at the holding company level in the form of dividends from the Bank. Accordingly, First Federal Northwest is, and will be, dependent upon dividends from the Bank, among other things, to pay dividends on its common stock. The P&A Agreement between the Company and Global provides for a downward adjustment to the purchase price for amount of any dividends paid by the Bank to the Company from the effective date of the P&A Agreement through the closing date of the asset sale, except for the dividend paid by the Bank to the Company during the first calendar quarter of 2024 in the amount of $762,000, representing 50% of the Bankâ€™s net income for the period beginning October 1, 2023 and ending on December 31, 2023.Item 3. (â€œFirst Financial Northwestâ€), a Washington corporation, was formed on June 1, 2007 for the purpose of becoming the holding company for First Financial Northwest Bank (the â€œBankâ€) in connection with the conversion from a mutual holding company structure to a stock holding company structure completed on October 9, 2007. First Financial Northwestâ€™s business activities generally are limited to passive investment activities and oversight of its investment in the

Bank. Accordingly, the information presented in the consolidated financial statements and accompanying data, relates primarily to the Bank. First Financial Northwest is a bank holding company, having converted from a savings and loan holding company on March 31, 2015, and as a bank holding company is subject to regulation by the Federal Reserve Bank of San Francisco (â€œFRBâ€). The Bank is regulated by the Federal Deposit Insurance Corporation (â€œFDICâ€) and the Washington State Department of Financial Institutions (â€œDFIâ€).At September 30, 2024, the Bank operated in 15 locations in Washington with the headquarters and seven retail branch locations in King County, five retail branch locations in Snohomish County and two retail branches in Pierce County. The Bankâ€™s primary market area consists of King, Snohomish, Pierce and Kitsap counties, Washington. The Bank is a portfolio lender, originating and purchasing one-to-four family residential, multifamily, commercial real estate, construction/land development, business, and consumer loans. Loans are primarily funded by deposits from the general public, supplemented by borrowings from the FHLB and deposits raised in the national brokered deposit market.On January 10, 2024, Global Federal Credit Union (â€œGlobalâ€), First Financial Northwest and the Bank entered into a Purchase and Assumption (â€œP&Aâ€) Agreement, pursuant to which Global will acquire substantially all of the assets and assume substantially all of the liabilities (including deposit liabilities) of the Bank, which we refer to herein as the asset sale, in exchange for $231.2Â million in cash, subject to possible downward adjustments. The asset sale is the first integral step in the sale transaction contemplated by the P&A Agreement, which consists of: (1) the asset sale, (2) the voluntary liquidation of the Bank and distribution of the Bankâ€™s remaining assets, which will include the cash consideration paid by Global to the Bank in the asset sale, to First Financial Northwest, and (3) the winding up and voluntary dissolution of First Financial Northwest and the distribution of its remaining assets, including the remaining net cash proceeds from the asset sale, to its shareholders.Consummation of the asset sale and related transactions is subject to certain conditions, including, among others, the receipt of all required regulatory approvals and expiration of applicable waiting periods, accuracy of specified representations and warranties of each party, the performance in all material respects by each party of its obligations under the P&A Agreement, and the absence of any injunctions or other legal restraints. The P&A Agreement provides certain termination rights for both Global and the Bank, and further provides that upon termination of the P&A Agreement under certain circumstances, the Bank will be obligated to pay Global a termination fee of $9.4Â million. Additional information regarding the asset sale, including the P&A Agreement, can be found in the Definitive Proxy Statement on Schedule 14A filed by First Financial Northwest with the U.S. Securities and Exchange Commission (â€œSECâ€) on June 6, 2024. On July 19, 2024, the Company received its shareholdersâ€™ approval for the asset sale, as well as the proposal to voluntarily dissolve the Company and distribute its net assets following the completion of the asset sale. The Bank previously received required regulatory approval from both the Washington State Department of Financial Institutions and the FDIC in connection with the asset sale and Bank liquidation, but consummation of the asset sale remains subject to the required regulatory approval from the National Credit Union Administration (â€œNCUAâ€), which has not been obtained. The Bank cannot provide any assurance as to whether the Bank or Global will obtain the required final regulatory approval from the NCUA, when such approval will be received, or whether there will be any conditions in such approval that are unacceptably burdensome to the Bank or Global. As used throughout this report, the terms â€œwe,â€ â€œour,â€ â€œus,â€ or the â€œCompanyâ€ refer to First Financial Northwest, Inc. and its consolidated subsidiary First Financial Northwest Bank, unless the context otherwise requires. Accordingly, they do not include all the information and footnotes required by U.S. Generally Accepted Accounting Principles (â€œGAAPâ€) for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023, as filed with the SEC (â€œ2023 Form 10-Kâ€). In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of the unaudited interim consolidated financial statements in accordance with GAAP have been included. All significant intercompany balances and transactions between the Company and its subsidiaries have been eliminated in consolidation. Operating results for the nine months ended September 30, 2024, are not necessarily indicative of the results that may be expected for the year ending DecemberÂ 31, 2024. In preparing the unaudited consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the allowance for credit losses (â€œACLâ€). The Companyâ€™s activities are considered a single industry segment for financial reporting purposes. The Company is engaged in the business of attracting deposits from the general public and originating and purchasing loans for its portfolio. Substantially all income is derived from a diverse base of commercial, multifamily, and residential real estate loans, consumer lending activities, and investments.Certain amounts in the unaudited interim consolidated financial statements for prior periods have been reclassified to conform to the current unaudited financial statement presentation with no effect on consolidated net income or stockholdersâ€™ equity. ASU 2023-07 expands disclosure requirements for significant segment expenses under Topic 280. The amendments require public entities to disclose significant expense categories for each reporting segment, other segment items, the title and position of the chief operating decision maker (â€œCODMâ€), and interim disclosures of certain segment-related information previously required only on an annual basis. The amendments clarify that entities reporting single segments must disclose both the new and existing segment disclosures under Topic 280, and a public entity is permitted to disclose multiple measures of segment profit or loss if certain criteria are met. This update was effective for financial statements issued for fiscal years beginning after December 15, 2023, and will be effective for interim periods for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company does not expect this standard to have a material impact on the financial condition or results of operations but is currently assessing the impact of additional disclosures to the consolidated financial statements. In December 2023, FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages in a tabular format. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the U.S. statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more.ASU 2023-09 also identifies specific categories that would require disclosure, including the following:â€¢State and local income tax, net of federal (national) income tax effect;â€¢Foreign tax effects;â€¢Effect of changes in tax laws or rates enacted in the current period;â€¢Effect of cross-border tax laws;â€¢Enactment of new tax laws;â€¢Nontaxable or nondeductible items;â€¢Tax credits;â€¢Changes in valuation allowances; andâ€¢Changes in unrecognized tax benefits.ASU 2023-09 makes changes to annual disclosures of income taxes paid for all entities. ASU 2023-09 requires entities to disclose the amount of income taxes paid, net of refunds received, disaggregated by federal, state and foreign jurisdiction. Additionally, entities are required to disclose income taxes paid, net of refunds received, for individual jurisdictions that comprise 5% or more of total income taxes paid. The 5% threshold is evaluated using the absolute value of the net refund or net payment in each jurisdiction compared to the absolute value of the total income taxes paid (net of refunds received). ASU 2023-09 requires all entities to disclose disaggregated domestic and foreign pretax income (or loss) from continuing operations along with disaggregated income tax expense (or benefit) by federal, state and foreign components. Such disaggregation by jurisdiction should classify taxes by jurisdiction based on the jurisdiction imposing the taxes. ASU 2023-09 is effective for public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. The Company expects this ASU to only impact its disclosure requirements and does not expect the adoption of this ASU to have a material impact on its business operations or financial condition. December 31, 2023.Â Â Â Â There were $2.5Â million of investments classified as held-to-maturity at both September 30, 2024 and December 31, 2023. In January 2020, the Bank purchased three annuity contracts, totaling $2.4 million, to be held long-term to satisfy the benefit obligation associated with certain supplemental executive retirement plan (â€œSERPâ€) agreements. These annuities, along with an associated insurance policy and rider, provide for payments in retirement for the life of the executive. The rider that provides the long-term guarantee for the SERP has no cash value and is not transferable to another annuitant. The cash value of the annuity is representative of the liquidation value of the contract. Hence, the amortized cost of these held-to-maturity investments is their fair value.The tables below summarize the aggregate fair value and gross unrealized loss by length of time those investment securities have been continuously in an unrealized loss position at the dates indicated:Â September 30, 2024Â Less Than 12 Months12 Months or LongerTotalFair ValueGross UnrealizedLossFair ValueGross UnrealizedLossFair ValueGross UnrealizedLoss(In thousands)Mortgage-backed investments:Â Â Â Fannie Mae$â€”Â $â€”Â $10,063Â $(1,335)$10,063Â $(1,335)Â Â Â Freddie Macâ€Â â€”Â $ 10,595Â (1,254)10,595Â (1,254)Â Â Â Ginnie Maeâ€Â â€”Â $ 14,444Â (1,136)14,444Â (1,136)Â Â Â Other3,772Â (29)19,481Â (645)23,253Â (674)Municipal bondsâ€Â â€”Â $ 29,627Â (4,248)29,627Â (4,248)U.S. Government agencies1,799Â (2)19,006Â (468)20,805Â (470)Corporate bondsâ€Â â€”Â $ 30,005Â (2,995)30,005Â (2,995)Total$5,571Â (31)133,221Â $(12,081)$138,792Â $(12,112)Â December 31, 2023Â Less Than 12 Months12 Months or LongerTotalFair ValueGross UnrealizedLossFair ValueGross UnrealizedLossFair ValueGross UnrealizedLoss(In thousands)Mortgage-backed investments:Â Â Â Fannie Mae$â€”Â $â€”Â $9,878Â $(1,684)$9,878Â $(1,684)Â Â Â Freddie Mac671Â (57)10,508Â (1,698)11,179Â (1,755)Â Â Â Ginnie Mae11,601Â (70)14,979Â (1,446)26,580Â (1,516)Â Â Â Otherâ€Â â€”Â $ 28,330Â (1,366)28,330Â (1,366)Municipal bonds2,477Â (16)26,916Â (4,748)29,393Â (4,764)U.S. Government agenciesâ€Â â€”Â $ 67,440Â (1,051)67,440Â (1,051)Corporate bonds5,966Â (34)23,313Â (3,687)29,279Â (3,721)Total$20,715Â (177)181,364Â $(15,680)$202,079Â $(15,857)On a quarterly basis, management evaluates available-for-sale (â€œAFSâ€) debt securities that are in an unrealized loss position to determine if an allowance for credit losses is required. If it is determined that a credit loss exists and an allowance is required, the credit loss on a debt security is measured as the difference between the amortized cost and the present value of the cash flows expected to be collected, limited by the amount that the fair value is less than the amortized cost. For debt securities in an unrealized loss position that the Company does not intend to sell, and it is not likely that it will be required to sell but does not expect to recover the entire securityâ€™s amortized cost basis, only the portion of the unrealized loss representing a credit loss would be recognized in earnings. If the Company intends to sell a debt security, or it is likely that the Company will be required to sell the debt security before recovering its cost basis, the entire unrealized loss would be recognized through earnings. The Company considers many factors including the severity and duration of the impairment, economic circumstances, recent events specific to the issuer or industry, and for debt securities, external credit ratings and recent rating updates. Projected cash flows are discounted by the original or current effective interest rate depending on the nature of the debt security being measured for a potential credit loss. The remaining unrealized loss related to all other factors is recognized as a charge to other comprehensive income (â€œOCIâ€). The Company had 108 securities and 123 securities in an unrealized loss position, with 103 and 113 of these securities in an unrealized loss position for 12 months or more, at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. Management does not believe that the unrealized losses at September 30, 2024 and December 31, 2023 were related to credit losses. The declines in fair market value of these securities were mainly attributed to changes in market interest rates, credit spreads, market volatility and liquidity conditions. Currently, the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the positions before their recovery of the amortized cost basis, which may be at maturity. As such, no allowance for credit losses was recorded with respect to AFS securities for the three and nine months ended September 30, 2024.Â Â Â Â The amortized cost and estimated fair value of investments available-for-sale at SeptemberÂ 30, 2024, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Investment securities with market values of $29.5 million and $26.5 million were pledged as collateral for public deposits at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, both of which exceeded the collateral requirements established by the Washington Public Deposit Protection Commission.Â Â Â Â For the three months ended September 30, 2024, there were no calls, sales or maturities of investment securities. For the nine months ended SeptemberÂ 30, 2024, there were $40.0 million in maturities of investment securities with no gain or loss generated and there were no calls or sales of investment securities. The Company assigns a risk rating to all credit exposures based on a risk rating system designed to define the basic characteristics and identify risk elements of each credit extension. The Company utilizes a nine-point risk rating system. A description of the general characteristics of the risk grades is as follows:â€¢Grades 1 through 5: These grades are considered to be â€œpassâ€ credits. These include assets where there is virtually no credit risk, such as cash secured loans with funds on deposit with the Company. Pass credits also include credits that are on the Companyâ€™s watch list (grade 5), where the borrower exhibits potential weaknesses, which may, if not checked or corrected, negatively affect the borrowerâ€™s financial capacity and threaten their ability to fulfill debt obligations in the future.â€¢Grade 6: These credits, classified as â€œespecial mentionâ€, possess weaknesses that deserve managementâ€™s close attention. Special mention assets do not expose the Company to sufficient risk to warrant adverse classification in the substandard, doubtful or loss categories. If left uncorrected, these potential weaknesses may result in deterioration in the Companyâ€™s credit position at a future date.â€¢Grade 7: These credits, classified as â€œsubstandardâ€, present a distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. These credits have well-defined weaknesses which jeopardize the orderly liquidation of the debt and are inadequately protected by the current net worth and payment capacity of the borrower or of any collateral pledged.â€¢Grade 8: These credits are classified as â€œdoubtfulâ€ and possess well defined weaknesses which make the full collection or liquidation of the loan highly questionable and improbable. This classification is used where significant risk exposures are perceived but the exact amount of the loss cannot yet be determined due to pending events.â€¢Grade 9: Assets classified as â€œlossâ€ are considered uncollectible and cannot be justified as a viable asset for the Company. There is little or no prospect of near-term recovery and no realistic strengthening action of significance is pending.The grades for watch and special mention loans are used by the Company to identify and track potential problem loans which do not rise to the levels described for substandard, doubtful or loss. These are loans which have been criticized based upon known characteristics such as periodic payment delinquency, failure to comply with contractual terms of the loan or stale financial information from the borrower and/or guarantors. Loans identified as criticized (watch and special mention) or classified (substandard, doubtful or loss) are subject to problem loan reporting every three months.Â Â Â Â Management considers the guidance in FASB Accounting Standards Codification (â€œASCâ€) 310-20 when determining whether a modification, extension, or renewal of loan constitutes a current period origination. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had no loans rated as doubtful or loss. The following tables represent a summary of loans at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 by type and risk category:Â September 30, 2024Â Term Loans by Year of OriginationÂ ACL is a valuation account that is deducted from the loansâ€™ amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the ACL when management believes the non-collectability of a loan balance is confirmed. Expected recoveries may not exceed the aggregate amounts previously charged-off and expected to be charged-off. The ACL, as reported in our consolidated balance sheets, is adjusted by a provision or recapture of provision for credit losses, which is reported in earnings, and reduced by the charge-offs of loan amounts, net of recoveries. When the Company classifies problem assets as either substandard or doubtful, pursuant to Federal regulations, or identifies a loan where it is uncertain if the Company will be able to collect all amounts due according to the contractual terms of the loan, it may establish a specific allowance in an amount deemed prudent to address the risk specifically. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been specifically

allocated to the particular problem assets. When an insured institution classifies problem assets as a loss, pursuant to Federal regulations, it is required to charge off such assets in the period in which they are deemed uncollectible. The determination as to the classification of the Companyâ€™s assets and the amount of valuation allowance is subject to review by bank regulators, who can require the establishment of additional allowances for credit losses. When a loan becomes 90 days past due, the Company generally places the loan on nonaccrual status. Loans may be placed on nonaccrual status prior to being 90 days past due if there is an identified problem that indicates the borrower is unable to meet their scheduled payment obligations. Nonaccrual loans were $853,000 at SeptemberÂ 30, 2024 and $220,000 at DecemberÂ 31, 2023. The increase in nonaccrual loans was due in part to management placing a $278,000 one-to-four family residential loan that was 60 days past due in nonaccrual status. Fair values of assets or liabilities are based on estimates of the exit price, which is the price that would be received to sell an asset or paid to transfer a liability. When available, observable market transactions or market information is used. The fair value estimate of loans receivable was based on similar techniques, with the addition of current origination spreads, liquidity premiums, or credit adjustments. The fair value of nonperforming loans is based on the underlying value of the collateral. The Company determines the fair values of its financial instruments based on the fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair values. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect its estimate for market assumptions.Valuation inputs refer to the assumptions market participants would use in pricing a given asset or liability using one of the three valuation techniques. Inputs can be observable or unobservable. Observable inputs are those assumptions that market participants would use in pricing the particular asset or liability. These inputs are based on market data and are obtained from an independent source. Unobservable inputs are assumptions based on the Companyâ€™s own information or estimate of assumptions used by market participants in pricing the asset or liability. Unobservable inputs are based on the best and most current information available on the measurement date.Â Â Â Â Â Â Â Â All inputs, whether observable or unobservable, are ranked in accordance with a prescribed fair value hierarchy:â€¢Level 1 - Quoted prices for identical instruments in active markets.â€¢Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable.â€¢Level 3 - Instruments whose significant value drivers are unobservable.The Company used the following methods to measure fair value on a recurring or nonrecurring basis:â€¢Investments available-for-sale: The fair value of all investments, excluding FHLB stock, is based upon quoted market prices for similar investments in active markets, identical or similar investments in markets that are not active, and model-derived valuations whose inputs are observable.â€¢Loans individually evaluated: The fair value of individually evaluated loans is based on an analysis utilizing expected cash flows discounted using the original effective interest rate, the observable market price of the loan, or the fair value of the collateral, less selling costs, for collateral-dependent loans as appropriate. â€¢Derivatives: The fair value of derivatives is based on pricing models utilizing observable market data and discounted cash flow methodologies for which the determination of fair value may require significant management judgement or estimation. At September 30, 2024, the Company had 13 operating leases for retail branch locations. The remaining lease terms range from five months to 6.3 years, with most leases carrying optional extensions of three to five years. The Company will include optional lease term extensions in the ROU assets and lease liabilities when management believes it is reasonably certain that the term extension will be exercised, which will be determined based on indicators that the Company would have an economic incentive to extend the lease. The Company has elected to not apply ASU 2016-02 to short-term leases, which are those that have a term of one year or less. The Company did not have any short-term leases as of September 30, 2024. To calculate the present value of lease payments not yet paid, the Company uses the incremental borrowing rate, which is equal to the FHLB advance rate for the remaining term of the lease at the time of the lease inception.Â Â Â Â The minimum monthly lease payments are generally based on square footage of the leased premises, with escalating minimum rent over the lease term. At SeptemberÂ 30, 2024, the Company was committed to paying $77,000 per month in minimum monthly lease payments. The minimum monthly lease payment over the initial lease term, including any free rent period, was used to calculate the ROU asset and lease liability. The Companyâ€™s current leases do not include any non-lease components.Total lease expense included on the Companyâ€™s Consolidated Income Statements includes the amortized lease expense under ASC Topic 842, Leases, combined with variable lease expenses for maintenance or other expenses as defined in the individual lease agreements. At SeptemberÂ 30, 2024, the hedged cash flows had a total notional amount of $100.0 million and consisted of rolling one-month or three-month FHLB advances that renew at the fixed interest rate at each renewal date. These hedging instruments had original terms between two and eight years, with remaining terms ranging from nine months to 5.0 years. The weighted average remaining term is 2.6 years. Under these agreements, the counterparty pays the Company a rate tied to either the one-month or three-month Secured Overnight Financing Rate (â€œSOFRâ€). In return, the Company pays a weighted-average fixed interest rate of 1.93% on a notional amount ranging from $10.0Â million to $15.0Â million per contract. The Company pays or receives the net interest amount monthly or quarterly based on the respective hedge agreement and includes this amount as part of its interest expense on the Companyâ€™s Consolidated Income Statements. Â Â Â Â Quarterly, the effectiveness evaluation is based upon the fluctuation of the fixed rate interest the Company pays to the FHLB for the period compared to the one-month or three-month SOFR-based interest received from the counterparty. At September 30, 2024, a $5.2 million net fair value gain of the cash flow hedges was reported in â€œprepaid expenses and other assetsâ€ on the Companyâ€™s Consolidated Balance Sheet. The tax effected amount of $4.1 million was included in â€œaccumulated other comprehensive income, net of taxesâ€ on the Companyâ€™s Consolidated Balance Sheets. This plan provides for the granting of incentive stock options, non-qualified stock options, restricted stock and restricted stock units until June 2026. The 2016 Plan established 1,400,000 shares available to grant with a maximum of 400,000 of these shares available to grant as restricted stock awards. Each share issued as a restricted stock award counts as two shares towards the total shares available to award.As a result of the approval of the 2016 Plan, the First Financial Northwest, Inc. 2008 Equity Incentive Plan (â€œ2008 Planâ€) was frozen with no additional awards being made under the 2008 Plan. Restricted stock awards and stock options that were granted under the 2008 Plan are fully vested and unexercised options remain exercisable, subject to the provisions of the 2008 Plan and the respective award agreements. At SeptemberÂ 30, 2024, there were 833,252 total shares available for grant under the 2016 Plan, including 136,626 shares available to be granted as restricted stock. Under the 2016 Plan, the vesting date for each option award or restricted stock award is determined by an award committee and specified in the award agreement. In the case of restricted stock awards granted in lieu of cash payments of directorsâ€™ fees, the grant date is used as the vesting date unless the award agreement provides otherwise.For the three months ended SeptemberÂ 30, 2024 and 2023, total compensation expense for awards granted under the 2016 Plan was $47,000 and $270,000, respectively, and the related income tax benefit was $10,000 and $57,000, respectively. For the nine months ended SeptemberÂ 30, 2024 and 2023, total compensation expense for awards granted under the 2016 Plan was $195,000 and $497,000, respectively, and the related income tax benefit was $41,000 and $104,000, respectively.Stock OptionsUnder the 2008 Plan, stock option awards were granted with an exercise price equal to the market price of First Financial Northwestâ€™s common stock at the grant date. These option awards have a vesting period of five years, with 20% vesting on the anniversary date of each grant date, and a contractual life of ten years. Any unexercised stock options expire ten years after the grant date, or sooner in the event of the award recipientâ€™s death, disability or termination of service with the Company. At September 30, 2024, there were 40,000 stock options from the 2008 Plan vested and available for exercise, subject to the 2008 Plan provisions.Under the 2016 Plan, the exercise price and vesting period for stock options are determined by the award committee and specified in the award agreement, however, the exercise price shall not be less than the fair market value of a share as of the grant date. Any unexercised stock option will expire 10 years after the award date or sooner in the event of the award recipientâ€™s death, disability, retirement, or termination of service. At September 30, 2024, there were 40,000 stock options granted from the 2016 Plan, of which 10,000 were vested and available for exercise. The fair value of each option award is estimated on the grant date using a Black-Scholes model that uses the following assumptions. The dividend yield is based on the current quarterly dividend in effect at the time of the grant. Historical employment data is used to estimate the forfeiture rate. The historical volatility of the Companyâ€™s stock price over a specified period of time is used for the expected volatility assumption. First Financial Northwest bases the risk-free interest rate on the U.S. Treasury Constant Maturity Indices in effect on the date of the grant. First Financial Northwest elected to use the â€œShare-Based Paymentsâ€ method permitted by the SEC to calculate the expected term. This method uses the vesting term of an option along with the contractual term, setting the expected life at the midpoint. Under certain conditions, a cashless exercise of vested stock options may occur by the option holder surrendering the number of options valued at the current stock price at the time of exercise to cover the total cost to exercise. The surrendered options are canceled and are unavailable for reissue. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. Certain of the Companyâ€™s nonvested restricted stock awards qualify as participating securities.Net income is allocated between the common stock and participating securities pursuant to the two-class method, based on their rights to receive dividends, participate in earnings, or absorb losses. Basic earnings per common share is computed by dividing net earnings available to common shareholders by the weighted-average number of common shares outstanding during the period, excluding participating nonvested restricted shares.The following table presents a reconciliation of the components used to compute basic and diluted (loss) earnings per share for the periods indicated:Â Three Months Ended September 30,Nine Months Ended September 30,Â 2024202320242023Â (Dollars in thousands, except per share data)Net (loss) income (608)1,501Â (128)5,111Â Less: Earnings allocated to participating securitiesâ€”Â (4)â€”Â (15)(Loss) earnings allocated to common shareholders(608)1,497Â (128)5,096Â Basic weighted average common shares outstanding9,190,146Â 9,127,568Â 9,171,579Â 9,117,554Â Dilutive stock optionsâ€”Â 13,991Â â€”Â 23,069Â Dilutive restricted stock grantsâ€”Â 8,500Â â€”Â 6,086Â Diluted weighted average common shares outstanding9,190,146Â 9,150,059Â 9,171,579Â 9,146,709Â Basic (loss) earnings per share(0.07)0.16Â (0.01)0.56Â Diluted (loss) earnings per share(0.07)0.16Â (0.01)0.56Â Â Â Â Â Â Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. For both the three and nine months ended SeptemberÂ 30, 2024, there were no options to purchase shares of common stock and no restricted stock award (â€œRSAâ€) shares that were omitted from the computation of diluted (loss) earnings per share because their effect would be anti-dilutive. For the three and nine months ended September 30, 2023, there were 80,000 options to purchase shares of common stock and no RSA shares that were omitted from the computation of diluted earnings per share because their effect would be anti-dilutive. To determine the appropriate recognition of revenue for transactions within the scope of Topic 606, the Company performs the following five steps: (i) identify the contract(s) with the customer; (ii) identify the separate performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the separate performance obligations in the contract; and (v) recognize revenue when the entity satisfies a performance obligation. A contract may not exist if there are doubts as to collectability of the amounts the Company is entitled to in exchange for the goods or services transferred. If a contract is determined to be within the scope of Topic 606, the Company recognizes revenue as it satisfies a performance obligation. The largest portion of the Companyâ€™s revenue is from net interest income which is not within the scope of Topic 606. Disaggregation of RevenueÂ Â Â Â The following table includes the Companyâ€™s noninterest income disaggregated by type of income for the three and nine months ended SeptemberÂ 30, 2024 and 2023:Three Months Ended September 30,Nine Months Ended September 30,2024202320242023(In thousands)BOLI change in cash surrender value (1)$295Â $244Â $956Â $826Â Wealth management revenue42Â 53Â 190Â 193Â Deposit related fees87Â 85Â 257Â 246Â Debit card and ATM fees149Â 162Â 440Â 476Â Loan related fees96Â 79Â 251Â 215Â Other8Â 54Â 43Â 184Â Total noninterest income$677Â $677Â $2,137Â $2,140Â _____(1) Not within scope of Topic 606Â Â Â Â For both the three and nine months ended SeptemberÂ 30, 2024 and 2023, substantially all of the Companyâ€™s revenues under the scope of Topic 606 are for performance obligations satisfied at a specified date. Revenues recognized within scope of Topic 606Wealth management revenue: Our wealth management revenue consists of commissions received on the investment portfolio managed by Bank personnel but held by a third party. Commissions are earned on brokerage services and advisory services based on contract terms at the onset of a new customerâ€™s investment agreement or quarterly for ongoing services. Commissions are paid by the third party to the Company when the performance obligation has been completed by both entities.Deposit related fees: Fees are earned on deposit accounts for various products or services performed for the Companyâ€™s customers. Fees include business account fees, non-sufficient fund fees, stop payment fees, wire services, safe deposit box, and others. These fees are recognized on a daily or monthly basis, depending on the type of service.Debit card and ATM fees: Fees are earned when a debit card issued by the Company is used or when another financial institutionâ€™s customer uses the Companyâ€™s ATM services. Revenue is recognized at the time the fees are collected from the customerâ€™s account or remitted by the VISA interchange network.Loan related fees: Noninterest fee income is earned on loans for servicing or annual fees earned on certain loan types. Fees are also earned on the prepayment of certain loans and are recognized at the time the loan is paid off.Other: Fees earned on other services, such as merchant services or occasional non-recurring type services, are recognized at the time of the event or the applicable billing cycle. Also included is income relating to our investment in a Fintech focused fund.Contract BalancesÂ Â Â Â At SeptemberÂ 30, 2024, the Company had no contract liabilities where the Company had an obligation to transfer goods or services for which the Company had already received consideration. ASU 2023-07 expands disclosure requirements for significant segment expenses under Topic 280. The amendments require public entities to disclose significant expense categories for each reporting segment, other segment items, the title and position of the chief operating decision maker (â€œCODMâ€), and interim disclosures of certain segment-related information previously required only on an annual basis. The amendments clarify that entities reporting single segments must disclose both the new and existing segment disclosures under Topic 280, and a public entity is permitted to disclose multiple measures of segment profit or loss if certain criteria are met. This update was effective for financial statements issued for fiscal years beginning after December 15, 2023, and will be effective for interim periods for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company does not expect this standard to have a material impact on the financial condition or results of operations but is currently assessing the impact of additional disclosures to the consolidated financial statements. In December 2023, FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages in a tabular format. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the U.S. statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more.ASU 2023-09 also identifies specific categories that would require disclosure, including the following:â€¢State and local income tax, net of federal (national) income tax effect;â€¢Foreign tax effects;â€¢Effect of changes in tax laws or rates enacted in the current period;â€¢Effect of cross-border tax laws;â€¢Enactment of new tax laws;â€¢Nontaxable or nondeductible items;â€¢Tax credits;â€¢Changes in valuation allowances; andâ€¢Changes in unrecognized tax benefits.ASU 2023-09 makes changes to annual disclosures of income taxes paid for all entities. ASU 2023-09 requires entities to disclose the amount of income taxes paid, net of refunds received, disaggregated by federal, state and foreign jurisdiction. Additionally, entities are required to disclose income taxes paid, net of refunds received, for individual jurisdictions that comprise 5% or more of total income taxes paid. The 5% threshold is evaluated using the absolute value of the net refund or net payment in each jurisdiction compared to the absolute value of the total income taxes paid (net of refunds received). ASU 2023-09 requires all entities to disclose disaggregated domestic and foreign pretax income (or loss) from continuing operations along with disaggregated income tax expense (or benefit) by federal, state and foreign components. Such disaggregation by jurisdiction should classify taxes by jurisdiction based on the jurisdiction imposing the taxes. ASU 2023-09 is effective for public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. The Company expects this ASU to only impact its disclosure requirements and does not expect the adoption of this ASU to have a material impact on its business operations or financial condition. (“First Financial Northwest”), a Washington corporation, was formed on June 1, 2007 for the purpose of becoming the holding company for First Financial Northwest Bank (the “Bank”) in connection with the conversion from a mutual holding company structure to a stock holding company structure completed on October 9, 2007. First Financial Northwest’s business activities generally are limited to passive investment activities and oversight of its investment in the Bank. Accordingly, the information presented in the consolidated financial statements and accompanying data, relates primarily to the Bank. First Financial Northwest is a bank holding company, having converted from a savings and loan holding company on March 31, 2015, and as a bank holding company is subject to regulation by the Federal Reserve Bank of San Francisco (“FRB”). The Bank is regulated by the Federal Deposit Insurance Corporation (“FDIC”) and the Washington State Department of Financial Institutions (“DFI”).
 At September 30, 2024, the Bank operated in 15 locations in Washington with the headquarters and seven retail branch locations in King County, five retail branch locations in Snohomish County and two retail branches in Pierce County. The Bank’s primary market area consists of King, Snohomish, Pierce and Kitsap counties, Washington.
 The Bank is a portfolio lender, originating and purchasing one-to-four family residential, multifamily, commercial real estate, construction/land development, business, and consumer loans. Loans are primarily funded by deposits from the general public, supplemented by borrowings from the FHLB and deposits raised in the national brokered deposit market.
 On January 10, 2024, Global Federal Credit Union (“Global”), First Financial Northwest and the Bank entered into a Purchase and Assumption (“P&A”) Agreement, pursuant to which Global will acquire substantially all of the assets and assume substantially all of the liabilities (including deposit liabilities) of the Bank, which we refer to herein as the asset sale, in exchange for $231.2 million in cash, subject to possible downward adjustments. The asset sale is the first integral step in the sale transaction contemplated by the P&A Agreement, which consists of: (1) the asset sale, (2) the voluntary liquidation of the Bank and distribution of the Bank’s remaining assets, which will include the cash consideration paid by Global to the Bank in the asset sale, to First Financial Northwest, and (3) the winding up and voluntary dissolution of First Financial Northwest and the distribution of its remaining assets, including the remaining net cash proceeds from the asset sale, to its shareholders.
 Consummation of the asset sale and related transactions is subject to certain conditions, including, among others, the receipt of all required regulatory approvals and expiration of applicable waiting periods, accuracy of specified representations and warranties of each party, the performance in all material respects by each party of its obligations under the P&A Agreement, and the absence of any injunctions or other legal restraints. The P&A Agreement provides certain termination rights for both Global and the Bank, and further provides that upon termination of the P&A Agreement under certain circumstances, the Bank will be obligated to pay Global a termination fee of $9.4 million. Additional information regarding the asset sale, including the P&A Agreement, can be found in the Definitive Proxy Statement on Schedule 14A filed by First Financial Northwest with the U.S. Securities and Exchange Commission (“SEC”) on June 6, 2024. On July 19, 2024, the Company received its shareholders’ approval for the asset sale, as well as the proposal to voluntarily dissolve the Company and distribute its net assets following the completion of the asset sale.
 The Bank previously received required regulatory approval from both the Washington State Department of Financial Institutions and the FDIC in connection with the asset sale and Bank liquidation, but consummation of the asset sale remains subject to the required regulatory approval from the National Credit Union Administration (“NCUA”), which has not been obtained. The Bank cannot provide any assurance as to whether the Bank or Global will obtain the required final regulatory approval from the NCUA, when such approval will be received, or whether there will be any conditions in such approval that are unacceptably burdensome to the Bank or Global.
 As used throughout this report, the terms “we,” “our,” “us,” or the “Company” refer to First Financial Northwest, Inc. and its consolidated subsidiary First Financial Northwest Bank, unless the context otherwise requires. 1575223120000094000000Basis of Presentation The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the SEC. Accordingly, they do not include all the information and footnotes required by U.S. Generally Accepted Accounting Principles (“GAAP”) for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2023, as filed with the SEC (“2023 Form 10-K”). In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of the unaudited interim consolidated financial statements in accordance with GAAP have been included. All significant intercompany balances and transactions between the Company and its subsidiaries have been eliminated in consolidation. Operating results for the nine months ended September 30, 2024, are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. In preparing the unaudited consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the allowance for credit losses (“ACL”).
 The Company’s activities are considered a single industry segment for financial reporting purposes. The Company is engaged in the business of attracting deposits from the general public and originating and purchasing loans for its portfolio. Substantially all income is derived from a diverse base of commercial, multifamily, and residential real estate loans, consumer lending activities, and investments.
 Certain amounts in the unaudited interim consolidated financial statements for prior periods have been reclassified to conform to the current unaudited financial statement presentation with no effect on consolidated net income or stockholders’ equity.  In November 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. ASU 2023-07 expands disclosure requirements for significant segment expenses under Topic 280. The amendments require public entities to disclose significant expense categories for each reporting segment, other segment items, the title and position of the chief operating decision maker (“CODM”), and interim disclosures of certain segment-related information previously required only on an annual basis. The amendments clarify that entities reporting single segments must disclose both the new and existing segment disclosures under Topic 280, and a public entity is permitted to disclose multiple measures of segment profit or loss if certain criteria are met. This update was effective for financial statements issued for fiscal years beginning after December 15, 2023, and will be effective for interim periods for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company does not expect this standard to have a material impact on the financial condition or results of operations but is currently assessing the impact of additional disclosures to the consolidated financial statements.
 In December 2023, FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages in a tabular format. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the U.S. statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more.
 ASU 2023-09 also identifies specific categories that would require disclosure, including the following:
 •State and local income tax, net of federal (national) income tax effect; •Foreign tax effects; •Effect of changes in tax laws or rates enacted in the current period; •Effect of cross-border tax laws; •Enactment of new tax laws; •Nontaxable or nondeductible items; •Tax credits; •Changes in valuation allowances; and •Changes in unrecognized tax benefits.
 ASU 2023-09 makes changes to annual disclosures of income taxes paid for all entities. ASU 2023-09 requires entities to disclose the amount of income taxes paid, net of refunds received, disaggregated by federal, state and foreign jurisdiction. Additionally, entities are required to disclose income taxes paid, net of refunds received, for individual jurisdictions that comprise 5% or more of total income taxes paid. The 5% threshold is evaluated using the absolute value of the net refund or net payment in each jurisdiction compared to the absolute value of the total income taxes paid (net of refunds received). ASU 2023-09 requires all entities to disclose disaggregated domestic and foreign pretax income (or loss) from continuing operations along with disaggregated income tax expense (or benefit) by federal, state and foreign components. Such disaggregation by jurisdiction should classify taxes by jurisdiction based on the jurisdiction imposing the taxes. ASU 2023-09 is effective for

*public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. The Company expects this ASU to only impact its disclosure requirements and does not expect the adoption of this ASU to have a material impact on its business operations or financial condition.  There were no holdings of investment securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity at September 30, 2024 and December 31, 2023. There were $2.5 million of investments classified as held-to-maturity at both September 30, 2024 and December 31, 2023. In January 2020, the Bank purchased three annuity contracts, totaling $2.4 million, to be held long-term to satisfy the benefit obligation associated with certain supplemental executive retirement plan ("SERP") agreements. These annuities, along with an associated insurance policy and rider, provide for payments in retirement for the life of the executive. The rider that provides the long-term guarantee for the SERP has no cash value and is not transferable to another annuitant. The cash value of the annuity is representative of the liquidation value of the contract. Hence, the amortized cost of these held-to-maturity investments is their fair value.
 The tables below summarize the aggregate fair value and gross unrealized loss by length of time those investment securities have been continuously in an unrealized loss position at the dates indicated:

 On a quarterly basis, management evaluates available-for-sale ("AFS") debt securities that are in an unrealized loss position to determine if an allowance for credit losses is required. If it is determined that a credit loss exists and an allowance is required, the credit loss on a debt security is measured as the difference between the amortized cost and the present value of the cash flows expected to be collected, limited by the amount that the fair value is less than the amortized cost. For debt securities in an unrealized loss position that the Company does not intend to sell, and it is not likely that it will be required to sell but does not expect to recover the entire security's amortized cost basis, only the portion of the unrealized loss representing a credit loss would be recognized in earnings. If the Company intends to sell a debt security, or it is likely that the Company will be required to sell the debt security before recovering its cost basis, the entire unrealized loss would be recognized through earnings. The Company considers many factors including the severity and duration of the impairment, economic circumstances, recent events specific to the issuer or industry, and for debt securities, external credit ratings and recent rating updates. Projected cash flows are discounted by the original or current effective interest rate depending on the nature of the debt security being measured for a potential credit loss. The remaining unrealized loss related to all other factors is recognized as a charge to other comprehensive income ("OCI").
 The Company had 108 securities and 123 securities in an unrealized loss position, with 103 and 113 of these securities in an unrealized loss position for 12 months or more, at September 30, 2024 and December 31, 2023, respectively. Management does not believe that the unrealized losses at September 30, 2024 and December 31, 2023 were related to credit losses. The declines in fair market value of these securities were mainly attributed to changes in market interest rates, credit spreads, market volatility and liquidity conditions. Currently, the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the positions before their recovery of the amortized cost basis, which may be at maturity. As such, no allowance for credit losses was recorded with respect to AFS securities for the three and nine months ended September 30, 2024.
  The amortized cost and estimated fair value of investments available-for-sale at September 30, 2024, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Investments not due at a single maturity date, primarily mortgage-backed investments, are shown separately. <table  Maturities of investments held-to-maturity (annuities) were established at the time the initial contract was signed. They mature (terminate) upon the earlier of the death of the executives or depletion of the related annuity.
 Under Washington state law, to participate in the public funds program, the Company is required to pledge eligible securities as collateral in an amount equal to 50% of the public deposits held less the FDIC insured amount. Investment securities with market values of $29.5 million and $26.5 million were pledged as collateral for public deposits at September 30, 2024 and December 31, 2023, respectively, both of which exceeded the collateral requirements established by the Washington Public Deposit Protection Commission. For the three months ended September 30, 2024, there were no calls, sales or maturities of investment securities. For the nine months ended September 30, 2024, there were $40.0 million in maturities of investment securities with no gain or loss generated and there were no calls or sales of investment securities. For the three and nine months ended September 30, 2023, there were no calls, sales or maturities of investment securities.Investments available-for-sale are summarized as follows at the dates indicated:<div style="margin-top:5pt;text-align:justify"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td><td style="width:45.752%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.637%"></td><td style="width:0.1%"></td><td style="width:0.532%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.637%"></td><td style="width:0.1%"></td><td style="width:0.532%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.637%"></td><td style="width:0.1%"></td><td style="width:0.532%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.637%"></td><td style="width:0.1%"></td><td style="width:0.532%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.641%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="21" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, 2024</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Amortized

  At September 30, 2024, loans totaling $608.4 million were pledged to secure borrowings from the FHLB compared to $636.9 million at December 31, 2023. In addition, loans totaling $73.7 million and $76.1 million were pledged to the FRB to secure a line of credit at September 30, 2024 and December 31, 2023, respectively. Credit Quality Indicators. The Company assigns a risk rating to all credit exposures based on a risk rating system designed to define the basic characteristics and identify risk elements of each credit extension. The Company utilizes a nine-point risk rating system. A description of the general characteristics of the risk grades is as follows:
 • Grades 1 through 5: These grades are considered to be “pass” credits. These include assets where there is virtually no credit risk, such as cash secured loans with funds on deposit with the Company. Pass credits also include credits that are on the Company’s watch list (grade 5), where the borrower exhibits potential weaknesses, which may, if not checked or corrected, negatively affect the borrower’s financial capacity and threaten their ability to fulfill debt obligations in the future.
 • Grade 6: These credits, classified as “special mention”, possess weaknesses that deserve management’s close attention. Special mention assets do not expose the Company to sufficient risk to warrant adverse classification in the substandard, doubtful or loss categories. If left uncorrected, these potential weaknesses may result in deterioration in the

Company's credit position at a future date. •Grade 7: These credits, classified as "substandard", present a distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. These credits have well-defined weaknesses which jeopardize the orderly liquidation of the debt and are inadequately protected by the current net worth and payment capacity of the borrower or of any collateral pledged.
 •Grade 8: These credits are classified as "doubtful" and possess well defined weaknesses which make the full collection or liquidation of the loan highly questionable and improbable. This classification is used where significant risk exposures are perceived but the exact amount of the loss cannot yet be determined due to pending events.
 •Grade 9: Assets classified as "loss" are considered uncollectible and cannot be justified as a viable asset for the Company. There is little or no prospect of near-term recovery and no realistic strengthening action of significance is pending.
 The grades for watch and special mention loans are used by the Company to identify and track potential problem loans which do not rise to the levels described for substandard, doubtful or loss. These are loans which have been criticized based upon known characteristics such as periodic payment delinquency, failure to comply with contractual terms of the loan or stale financial information from the borrower and/or guarantors. Loans identified as criticized (watch and special mention) or classified (substandard, doubtful or loss) are subject to problem loan reporting every three months.
  Management considers the guidance in FASB Accounting Standards Codification ("ASC") 310-20 when determining whether a modification, extension, or renewal of loan constitutes a current period origination. As of September 30, 2024 and December 31, 2023, the Company had no loans rated as doubtful or loss. The following tables represent a summary of loans at September 30, 2024 and December 31, 2023 by type and risk category: <table  ACL. ACL is a valuation account that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the ACL when management believes the non-collectability of a loan balance is confirmed. Expected recoveries may not exceed the aggregate amounts previously charged-off and expected to be charged-off. The ACL, as reported in our consolidated balance sheets, is adjusted by a provision or recapture of provision for credit losses, which is reported in earnings, and reduced by the charge-offs of loan amounts, net of recoveries.
 When the Company classifies problem assets as either substandard or doubtful, pursuant to Federal regulations, or identifies a loan where it is uncertain if the Company will be able to collect all amounts due according to the contractual terms of the loan, it may establish a specific allowance in an amount deemed prudent to address the risk specifically. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been specifically allocated to the particular problem assets. When an insured institution classifies problem assets as a loss, pursuant to Federal regulations, it is required to charge off such assets in the period in which they are deemed uncollectible. The determination as to the classification of the Company's assets and the amount of valuation allowance is subject to review by bank regulators, who can require the establishment of additional allowances for credit losses. Activity in the ACL for loans and the allowance for unfunded commitments was as follows:

 (1) Includes two loans totaling $317,000 that were 90 days or more past due and still accruing interest.
 Nonaccrual Loans. When a loan becomes 90 days past due, the Company generally places the loan on nonaccrual status. Loans may be placed on nonaccrual status prior to being 90 days past due if there is an identified problem that indicates the borrower is unable to meet their scheduled payment obligations. Nonaccrual loans were $853,000 at September 30, 2024 and $220,000 at December 31, 2023. The increase in nonaccrual loans was due in part to management placing a $278,000 one-to-four family residential loan that was 60 days past due in nonaccrual status.
 The following tables present a summary of loans individually evaluated for credit losses at September 30, 2024 and December 31, 2023, by type of loan. At September 30, 2024 and December 31, 2023, the Company had allowance for individually evaluated loans of $1.3 million and $11,000, respectively. </div><div><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:49.042%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.042%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.514%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.042%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.514%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.046%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="15" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, 2024</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:middle"><div style="text-align:center">Recorded Investment (1)</div></td><td colspan="3" style="border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:middle"><div style="text-align:center">Unpaid Principal Balance (2) </div></td><td colspan="3" style="border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000;border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:middle">Related Allowance</td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="15" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">(In thousands)</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Loans with no related allowance:</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> One-to-four family residential:</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> </td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> Owner occupied</td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">278 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">282 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;padding:2px 0;text-align:right;vertical-align:bottom">— </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"><span

Company has in a Fintech focused fund that is designed to help accelerate technology adoption at banks. This equity investment is held at fair value, as reported by the Fund, and was $613,000 at September 30, 2024. During the nine months ended September 30, 2024, we contributed $100,000 to the Fund and recognized gains of $1,000. During the nine months ended September 30, 2023, we contributed $200,000 to the Fund and recognized gains of $152,000. The Company has committed up to $1.0 million in capital for the Fund; however, the Company is not obligated to fund these commitments prior to a capital call. Seven capital calls totaling $570,000 have been made since the Company’s initial investment in the Fund on August 15, 2022. 6130001000001000200000152000100000057000OFair Value The Company measures the fair value of financial instruments for reporting in accordance with ASC Topic 820, Fair Value Measurements. Fair values of assets or liabilities are based on estimates of the exit price, which is the price that would be received to sell an asset or paid to transfer a liability. When available, observable market transactions or market information is used. The fair value estimate of loans receivable was based on similar techniques, with the addition of current origination spreads, liquidity premiums, or credit adjustments. The fair value of nonperforming loans is based on the underlying value of the collateral.
 The Company determines the fair values of its financial instruments based on the fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair values. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect its estimate for market assumptions.
 Valuation inputs refer to the assumptions market participants would use in pricing a given asset or liability using one of the three valuation techniques. Inputs can be observable or unobservable. Observable inputs are those assumptions that market participants would use in pricing the particular asset or liability. These inputs are based on market data and are obtained from an independent source. Unobservable inputs are assumptions based on the Company’s own information or estimate of assumptions used by market participants in pricing the asset or liability. Unobservable inputs are based on the best and most current information available on the measurement date. All inputs, whether observable or unobservable, are ranked in accordance with a prescribed fair value hierarchy:
 •Level 1 -

*Quoted prices for identical instruments in active markets.
 •Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable. •Level 3 - Instruments whose significant value drivers are unobservable.
 The Company used the following methods to measure fair value on a recurring or nonrecurring basis:
 •Investments available-for-sale: The fair value of all investments, excluding FHLB stock, is based upon quoted market prices for similar investments in active markets, identical or similar investments in markets that are not active, and model-derived valuations whose inputs are observable.
 •Loans individually evaluated: The fair value of individually evaluated loans is based on an analysis utilizing expected cash flows discounted using the original effective interest rate, the observable market price of the loan, or the fair value of the collateral, less selling costs, for collateral-dependent loans as appropriate.
 •Derivatives: The fair value of derivatives is based on pricing models utilizing observable market data and discounted cash flow methodologies for which the determination of fair value may require significant management judgement or estimation.
 The tables below present the balances of assets measured at fair value on a recurring basis (there were no transfers between Level 1, Level 2 and Level 3 recurring measurements) at September 30, 2024 and December 31, 2023:

Inputs used in the collateral value method include appraised values, less estimated costs to sell. Some of these inputs may not be observable in the marketplace. Appraised values may be discounted based on management's knowledge of the marketplace, subsequent changes in market conditions, or management's knowledge of the borrower. The Company follows ASC Topic 842, Leases, recognizing ROU assets and related lease liabilities on the Company's Consolidated Balance Sheets. At September 30, 2024, the Company had 13 operating leases for retail branch locations. The remaining lease terms range from five months to 6.3 years, with most leases carrying optional extensions of three to five years. The Company will include optional lease term extensions in the ROU assets and lease liabilities when management believes it is reasonably certain that the term extension will be exercised, which will be determined based on indicators that the Company would have an economic incentive to extend the lease. The Company has elected to not apply ASU 2016-02 to short-term leases, which are those that have a term of one year or less. The Company did not have any short-term leases as of September 30, 2024. To calculate the present value of lease payments not yet paid, the Company uses the incremental borrowing rate, which is equal to the FHLB advance rate for the remaining term of the lease at the time of the lease inception.
  The minimum monthly lease payments are generally based on square footage of the leased premises, with escalating minimum rent over the lease term. At September 30, 2024, the Company was committed to paying $77,000 per month in minimum monthly lease payments. The minimum monthly lease payment over the initial lease term, including any free rent period, was used to calculate the ROU asset and lease liability. The Company's current leases do not include any non-lease components.</div><div style="text-align:justify">

interest rate swaps, which are designated as cash flow hedges, to manage the risk of changes in future cash flows due to interest rate fluctuations. At September 30, 2024, the hedged cash flows had a total notional amount of $100.0 million and consisted of rolling one-month or three-month FHLB advances that renew at the fixed interest rate at each renewal date. These hedging instruments had original terms between two and eight years, with remaining terms ranging from nine months to 5.0 years. The weighted average remaining term is 2.6 years. Under these agreements, the counterparty pays the Company a rate tied to either the one-month or three-month Secured Overnight Financing Rate (“SOFR”). In return, the Company pays a weighted-average fixed interest rate of 1.93% on a notional amount ranging from $10.0 million to $15.0 million per contract. The Company pays or receives the net interest amount monthly or quarterly based on the respective hedge agreement and includes this amount as part of its interest expense on the Company’s Consolidated Income Statements.
  Quarterly, the effectiveness evaluation is based upon the fluctuation of the fixed rate interest the Company pays to the FHLB for the period compared to the one-month or three-month SOFR-based interest received from the counterparty. At September 30, 2024, a $5.2 million net fair value gain of the cash flow hedges was reported in “prepaid expenses and other assets” on the Company’s Consolidated Balance Sheet. The tax effected amount of $4.1 million was included in “accumulated other comprehensive income, net of taxes” on the Company’s Consolidated Balance Sheets. There were no amounts recorded on the Consolidated Income Statements for the three and nine months ended September 30, 2024 or 2023, related to ineffectiveness.</div><div>

This plan provides for the granting of incentive stock options, non-qualified stock options, restricted stock and restricted stock units until June 2026. The 2016 Plan established 1,400,000 shares available to grant with a maximum of 400,000 of these shares available to grant as restricted stock awards. Each share issued as a restricted stock award counts as two shares towards the total shares available to award.
 As a result of the approval of the 2016 Plan, the First Financial Northwest, Inc. 2008 Equity Incentive Plan ("2008 Plan") was frozen with no additional awards being made under the 2008 Plan. Restricted stock awards and stock options that were granted under the 2008 Plan are fully vested and unexercised options remain exercisable, subject to the provisions of the 2008 Plan and the respective award agreements. At September 30, 2024, there were 833,252 total shares available for grant under the 2016 Plan, including 136,626 shares available to be granted as restricted stock.
 Under the 2016 Plan, the vesting date for each option award or restricted stock award is determined by an award committee and specified in the award agreement. In the case of restricted stock awards granted in lieu of cash payments of directors' fees, the grant date is used as the vesting date unless the award agreement provides otherwise. <div

 The 2016 Plan authorizes the grant of restricted stock awards subject to vesting periods or terms as defined by the award committee and specified in the award agreement. Restricted stock awards granted in lieu of cash payments for directors' fees are subject to immediate vesting on the grant date unless the award agreement provides otherwise. In 2024, no restricted stock awards were granted to the directors as they received cash payments for directors' fees. Changes in nonvested restricted stock awards for the three and nine months ended September 30, 2024, are summarized as follows:

  Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. For both the three and nine months ended September 30, 2024, there were no options to purchase shares of common stock and no restricted stock award (“RSA”) shares that were omitted from the computation of diluted (loss) earnings per share because their effect would be anti-dilutive. For the three and nine months ended September 30, 2023, there were 80,000 options to purchase shares of common stock and no RSA shares that were omitted from the computation of diluted earnings per share because their effect would be anti-dilutive. The following table presents a reconciliation of the components used to compute basic and diluted (loss) earnings per share for the periods indicated: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:485.25pt"><tr><td style="width:1.0pt"></td><td style="width:228.25pt"></td><td style="width:1.0pt"></td><td style="width:1.0pt"></td><td style="width:1.75pt"></td><td style="width:1.0pt"></td><td style="width:1.0pt"></td><td style="width:67.75pt"></td><td style="width:1.0pt"></td><td style="width:1.0pt"></td><td style="width:1.75pt"></td><td

2014-09, Revenue from Contracts with Customers Topic 606, revenues are recognized when goods or services are transferred to the customer in exchange for the consideration the Company expects to be entitled to receive. To determine the appropriate recognition of revenue for transactions within the scope of Topic 606, the Company performs the following five steps: (i) identify the contract(s) with the customer; (ii) identify the separate performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the separate performance obligations in the contract; and (v) recognize revenue when the entity satisfies a performance obligation. A contract may not exist if there are doubts as to collectability of the amounts the Company is entitled to in exchange for the goods or services transferred. If a contract is determined to be within the scope of Topic 606, the Company recognizes revenue as it satisfies a performance obligation. The largest portion of the Company's revenue is from net interest income which is not within the scope of Topic 606. Disaggregation of Revenue

  For both the three and nine months ended September 30, 2024 and 2023, substantially all of the Company's revenues under the scope of Topic 606 are for performance obligations satisfied at a specified date.
 Revenues recognized within scope of Topic 606
 Wealth management revenue: Our wealth management revenue consists of commissions received on the investment portfolio managed by Bank personnel but held by a third party. Commissions are earned on brokerage services and advisory services based on contract terms at the onset of a new customer's investment agreement or quarterly for ongoing services. Commissions are paid by the third party to the Company when the performance obligation has been completed by both entities.
 Deposit related fees: Fees are earned on deposit accounts for various products or services performed for the Company's customers. Fees include business account fees, non-sufficient fund fees, stop payment fees, wire services, safe deposit box, and others. These fees are recognized on a daily or monthly basis, depending on the type of service.
 Debit card and ATM fees: Fees are earned when a debit card issued by the Company is used or when another financial institution's customer uses the Company's ATM services. Revenue is recognized at the time the fees are collected from the customer's account or remitted by the VISA interchange network.
 Loan related fees: Noninterest fee income is earned on loans for servicing or annual fees earned on certain loan types. Fees are also earned on the prepayment of certain loans and are recognized at the time the loan is paid off.
 Other: Fees earned on other services, such as merchant services or occasional non-recurring type services, are recognized at the time of the event or the applicable billing cycle. Also included is income relating to our investment in a Fintech focused fund.
 Contract Balances At September 30, 2024, the Company had no contract liabilities where the Company had an obligation to transfer goods or services for which the Company had already received consideration.
