The condensed consolidated financial statements of EOG Resources, Inc., together with its subsidiaries (collectively, EOG), included herein have been prepared by management without audit pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC). Accordingly, they reflect all normal recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the financial results for the interim periods presented. Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures included either on the face of the financial statements or in these notes are sufficient to make the interim information presented not misleading. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in EOG's Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 22, 2024 (EOG's 2023 Annual Report).The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The operating results for the three and nine months ended September 30, 2024, are not necessarily indicative of the results to be expected for the full year.Change in Presentation. Effective January 1, 2024, EOG combined Transportation Costs and Gathering and Processing Costs into one line item titled Gathering, Processing and Transportation Costs within the Condensed Consolidated Statements of Income and Comprehensive Income. This presentation has been conformed for all periods presented and had no impact on previously reported Net Income.Recently Issued Accounting Standards. In March 2024, the SEC adopted final rules under SEC Release No. 33-11275, The Enhancement and Standardization of Climate-Related Disclosures for Investors. The rules amending Regulation S-X will require public entities to provide certain climate-related information in their annual reports and registration statements. The rules will be effective for large accelerated filers commencing with the fiscal period beginning January 1, 2025. In April 2024, the SEC voluntarily issued an administrative stay of the implementation of the rules, pending judicial review. EOG is evaluating the impact of the final rules on its consolidated financial statements and disclosures.2.A A A A Stock-Based CompensationAs more fully discussed in Note 7 to the Consolidated Financial Statements included in EOG's 2023 Annual Report, EOG maintains various stock-based compensation plans. Stock-based compensation expense is included on the Condensed Consolidated Statements of Income and Comprehensive Income based upon the job function of the employees receiving the grants as follows (in millions):Three Months EndedSeptember 30,Nine Months EndedSeptember 30,A 2024202320242023Lease and Well\$22A \$16A \$50A \$39A Gathering, Processing and Transportation Costs2A 1A 5A 3A Exploration Costs8A 8A 20A 18A General and Administrative26A 32A 73A 66A Total\$58A \$57A \$148A \$126A At September 30, 2024, approximately 13 million common shares remained available for grant under the EOG Resources, Inc. 2021 Omnibus Equity Compensation Plan (2021 Plan). The fair value of stock option grants and of stock-settled stock appreciation rights (SARs) grants is estimated using the Hull-White II binomial option pricing model. The fair value of Employee Stock Purchase Plan (ESPP) grants is estimated using the Black-Scholes-Merton model. Stock-based compensation expense related to stock option, SAR and ESPP grants totaled \$8 million for both the three months ended September 30, 2024 and 2023, and \$17 million and \$20 million for the nine months ended September 30, 2024 and 2023, respectively.EOG did not grant any stock options or SARs during the nine-month periods ended September 30, 2024 and 2023. Employees may be granted restricted (non-vested) stock and/or restricted stock units without cost to them. Stock-based compensation expense related to restricted stock and restricted stock units totaled \$39 million and \$43 million for the three months ended September 30, 2024 and 2023, respectively, and \$113 million and \$95 million for the nine months ended September 30, 2024 and 2023, respectively.The following

(2)The total intrinsic value of restricted stock and restricted stock units outstanding at September 30, 2024 and 2023, was \$588 million and \$564 million, respectively.				
At September 30, 2024,	unrecognized compensation expense related to restricted stock and restricted stock units totaled \$396 million.	Such unrecognized expense will be amortized on a straight-line basis over a weighted average period of 2.0 years.	Performance Units. EOG grants restricted stock units with performance-based conditions (Performance Units) annually to its executive officers without cost to them.	For the grants made prior to September 2022, as more fully discussed in the grant agreements, the applicable performance metric is EOG's total shareholder return (TSR) over a three-year performance period (Performance Period) relative to the TSR over the same period of a designated group of peer companies.	Upon the application of the applicable performance multiple at the completion of the Performance Period, a minimum of 0% and a maximum of 200% of the Performance Units granted could be outstanding.				
For the grants made beginning in September 2022, as more fully discussed in the grant agreements, the applicable performance metrics are 1) EOG's TSR over the Performance Period relative to the TSR over the same period of a designated group of peer companies and 2) EOG's average return on capital employed (ROCE) over the Performance Period.	At the end of the Performance Period, a performance multiple based on EOG's relative TSR ranking will be determined, with a minimum performance multiple of 0% and a maximum performance multiple of 200%.	A specified modifier ranging from -70% to +70% will then be applied to the performance multiple based on EOG's average ROCE over the Performance Period, provided that in no event shall the performance multiple, after applying the ROCE modifier, be less than 0% or exceed 200%.	Furthermore, if EOG's TSR over the Performance Period is negative (i.e., less than 0%), the performance multiple will be capped at 100%, regardless of EOG's relative TSR ranking or average ROCE over the Performance Period.	The fair value of the Performance Units is estimated using a Monte Carlo simulation.	Stock-based compensation expense related to the Performance Unit grants totaled \$2 million and \$6 million for the three months ended September 30, 2024 and 2023, respectively, and \$9 million and \$11 million for the nine months ended September 30, 2024 and 2023, respectively.

The intrinsic value is based upon the closing price of EOG's common stock on the date the Performance Units are released.	(2)Upon completion of the Performance Period for the Performance Units granted in 2020 and 2019, a performance multiple of 25% and 50%, respectively, was applied to each of the grants resulting in a forfeiture of Performance Units in February 2024 and February 2023.	(3)The total intrinsic value of Performance Units outstanding at September 30, 2024 and 2023, was \$69 million and \$79 million, respectively.	(4)Upon the application of the relevant performance multiple at the completion of each of the remaining Performance Periods, a minimum of zero and a maximum of 1,118 Performance Units could be outstanding.	At September 30, 2024, unrecognized compensation expense related to Performance Units totaled \$24 million.	Such unrecognized expense will be amortized on a straight-line basis over a weighted average period of 1.6 years.	Other Stock Awards. In August 2024, and in recognition of EOG's 25th anniversary as an independent public company, EOG awarded 25 shares of EOG common stock to each of its non-executive officer employees.	Stock-based compensation expense related to the awards totaled \$9A million for both the three months and nine months ended September 30, 2024, and the intrinsic value of the awards was \$9A million (based upon the closing price of EOG's common stock on the August 16, 2024 award date). EOG utilizes average prices per acre from comparable market transactions and estimated discounted cash flows as the basis for determining the fair value of unproved and proved properties, respectively, received in non-cash property exchanges. See Note 4-17-EOG RESOURCES, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued) (Unaudited) Fair Value Disclosures. EOG's financial instruments, other than financial commodity and other derivative contracts, consist of cash and cash equivalents, accounts receivable, accounts payable and current and long-term debt. The carrying values of cash and cash equivalents, accounts receivable and accounts payable approximate fair value. At both September 30, 2024 and December 31, 2023, EOG had outstanding \$3,640 million aggregate principal amount of senior notes, which had estimated fair values at such dates of approximately \$3,593 million and \$3,574 million, respectively. The estimated fair value of debt was based upon quoted market prices and, where such prices were not available, other observable (Level 2) inputs regarding interest rates available to EOG at the end of each respective period. Natural Gas Sales Linked to Brent Crude Oil. In February 2024, EOG entered into a 10-year agreement, commencing in 2027, to sell 180,000 million British Thermal Units per day (MMBtud) of its domestic natural gas production, with 140,000 MMBtud to be sold at a price indexed to Brent and the remaining volumes to be sold at a price indexed to Brent or a U.S. Gulf Coast gas index. It was determined that this agreement meets the definition of a derivative under the Derivatives and Hedging Topic of the ASC and does not qualify for the normal purchases and normal sales scope exception. As such, this agreement is accounted for as a derivative using the mark-to-market accounting method. Changes in the fair value are recognized as gains or losses in the period of change on the Condensed Consolidated Statements of Income and Comprehensive Income. 12.4. Risk Management Activities: Commodity Price Risk. As more fully discussed in Note 12 to the Consolidated Financial Statements included in EOG's 2023 Annual Report, EOG engages in price risk management activities from time to time. These activities are intended to manage EOG's exposure to fluctuations in commodity prices for crude oil, NGLs and natural gas. EOG utilizes financial commodity derivative instruments, primarily price swap, option, swaption, collar and basis swap contracts, as a means to manage this price risk. EOG has not designated any of its financial commodity and other derivative contracts as accounting hedges and, accordingly, accounts for financial commodity and other derivative contracts using the mark-to-market accounting method. Financial Commodity Derivative Contracts. Presented below is a comprehensive summary of EOG's financial commodity derivative contracts settled during the nine-month period ended September 30, 2024 (closed) and outstanding as of September 30, 2024. (3) A \$ A The current portion of Liabilities from Price Risk Management Activities consists of gross liabilities of \$33 million, partially offset by gross assets of \$1 million at September 30, 2024. (4) A \$ A The noncurrent portion of Liabilities from Price Risk Management Activities consists of gross liabilities of \$39 million at September 30, 2024. The noncurrent portion of Liabilities from Price Risk Management Activities consists of gross liabilities of \$104 million, partially offset by gross assets of \$1 million at December 31, 2023. Credit Risk. Notional contract amounts are used to express the magnitude of a derivative. The amounts potentially subject to credit risk, in the event of nonperformance by the counterparties, are equal to the fair value of such contracts (see Note 11). EOG evaluates its exposures to significant counterparties on an ongoing basis, including those arising from physical and financial transactions. In some instances, EOG renegotiates payment terms and/or requires collateral, parent guarantees or letters of credit to minimize credit risk. 19-EOG RESOURCES, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued) (Unaudited) All of EOG's financial commodity derivative instruments are covered by International Swap Dealers Association Master Agreements (ISDAs) with counterparties. The ISDAs may contain provisions that require EOG, if it is the party in a net liability position, to post collateral when the amount of the net liability exceeds the threshold level specified for EOG's then-current credit ratings. In addition, the ISDAs may also provide that, as a result of certain circumstances, including certain events that cause EOG's credit ratings to become materially weaker than its then-current ratings, the counterparty may require all outstanding derivatives under the ISDAs to be settled immediately. See Note 11 for the aggregate fair value of all derivative instruments that were in a net liability position at September 30, 2024 and December 31, 2023. EOG had no collateral posted and no collateral held at September 30, 2024 and December 31, 2023. EOG had no collateral posted and no collateral held at November 6, 2024. 13. Acquisitions and Divestitures During the nine months ended September 30, 2024, EOG paid cash of \$139 million, primarily to acquire a gathering system in South Texas. Additionally, during the nine months ended September 30, 2024, EOG recognized net gains on asset dispositions of \$39 million and received proceeds of \$19 million, primarily due to lease exchanges and dispositions in the Delaware Basin and the Eagle Ford as well as the sale of certain other assets. During the nine months ended September 30, 2023, EOG paid cash of \$134 million, primarily to acquire a gathering and processing system in the Powder River Basin. Additionally, during the nine months ended September 30, 2023, EOG recognized net gains on asset dispositions of \$95 million and received proceeds of \$135 million, primarily due to the sale of EOG's equity interest in ammonia plant investments in Trinidad, certain legacy assets in the Texas Panhandle, certain gathering and processing assets and certain other assets. 20. A \$ A PART 1. A FINANCIAL INFORMATION ITEM 2. A MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS EOG RESOURCES, INC. Overview EOG Resources, Inc., together with its subsidiaries (collectively, EOG), is one of the largest independent (non-integrated) crude oil and natural gas companies in the United States of America (United States) with proved reserves in the United States and the Republic of Trinidad and Tobago (Trinidad). EOG is focused on being among the lowest-cost, highest-return and lowest-emissions producers, playing a significant role in the long-term future of energy. EOG operates under a consistent business and operational strategy that focuses predominantly on maximizing the rate of return on investment of capital by controlling operating costs and capital expenditures and maximizing reserve recoveries. Pursuant to this strategy, each prospective drilling location is evaluated by its estimated rate of return. This strategy is intended to enhance the generation of cash flow and earnings from each unit of production on a cost-effective basis, allowing EOG to maximize long-term shareholder value and maintain a strong balance sheet. EOG implements its strategy primarily by emphasizing the drilling of internally generated prospects in order to find and develop low-cost reserves. Maintaining the lowest possible operating cost structure, coupled with efficient and safe operations and robust environmental stewardship practices and performance, is integral in the implementation of EOG's strategy. Commodity Prices. Prices for crude oil and condensate, natural gas liquids (NGLs) and natural gas have historically been volatile. This volatility is expected to continue due to the many uncertainties associated with the world political and economic environment and the global supply of, and demand for, crude oil, NGLs and natural gas and the availability of other energy supplies, the relative competitive relationships of the various energy sources in the view of consumers and other factors. The market prices of crude oil and condensate, NGLs and natural gas impact the amount of cash generated from EOG's operating activities, which, in turn, impact EOG's financial position and results of operations. For the first nine months of 2024, the average U.S. New York Mercantile Exchange (NYMEX) crude oil and natural gas prices were \$77.55 per barrel and \$2.10 per million British thermal units (MMBtu), respectively, representing an increase of 0.2% and a decrease of 22%, respectively, from the average NYMEX prices for the same period in 2023. Market prices for NGLs are influenced by the components extracted, including ethane, propane and butane and natural gasoline, among others, and the respective market pricing for each component. Based on EOG's tax position, EOG's price sensitivity as of September 30, 2024, for each \$1.00 per barrel increase or decrease in wellhead crude oil and condensate price, combined with the estimated change in NGL price, is approximately \$153 million for net income and \$196 million for pretax cash flows from operating activities, in each case for the full-year 2024. Including the impact of EOG's natural gas financial derivative contracts and based on EOG's tax position and the portion of EOG's anticipated natural gas volumes for which prices have not (as of September 30, 2024) been determined under long-term marketing contracts, EOG's price sensitivity as of September 30, 2024, for each \$0.10 per thousand cubic feet increase or decrease in wellhead natural gas price, is approximately \$27 million for net income and \$34 million for pretax cash flows from operating activities, in each case for the full-year 2024. Inflation Considerations. As further discussed in EOG's Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 22, 2024 (EOG's 2023 Annual Report), EOG has, beginning in the second quarter of 2023, seen the inflationary pressures on its operating costs and capital expenditures (i.e., costs of fuel, steel, labor and drilling and completion services) diminish and, in certain circumstances, EOG has seen a decline in prices. Despite such declining prices, EOG plans to continue its focus on increasing its drilling, completion and operating efficiencies and improving the performance of its wells. Such focus and the related initiatives EOG has undertaken, together with the flexibility provided by its multi-basin drilling portfolio, allowed EOG to largely offset the inflationary pressures it experienced beginning in the second half of 2021 and through the first three months of 2023. 21. A \$ A However, there can be no assurance that such efforts will offset, largely or at all, the impacts of any future inflationary pressures on EOG's operating costs and capital expenditures. Further, EOG expects the market for drilling and completion services and related labor and materials will continue to fluctuate and, as a result, there can be no assurance regarding the timing and impact of any future price changes on EOG's operating costs and capital expenditures and, in turn, on EOG's cash flows, results of operations, liquidity, capital resources, cash requirements or financial position or its ability to conduct its day-to-day drilling, completion and production operations. Climate Change. For discussion of climate change matters and related regulatory matters, including potential developments related to climate change and the potential impacts and risks of such developments on EOG, see ITEM 1A, Risk Factors and the related discussion in ITEM 1, Business - Regulation of EOG's 2023 Annual Report. EOG will continue to monitor and assess any climate change-related developments, including the SEC's climate-related disclosure rules adopted in March 2024, that could impact EOG and the oil and gas industry, to determine the impact on its business and operations, and take appropriate actions where necessary. United States. EOG's efforts to identify plays with large reserve potential have proven to be successful. EOG continues to drill numerous wells in large acreage plays, which in the aggregate have contributed substantially to, and are expected to continue to contribute substantially to, EOG's crude oil and condensate, NGLs and natural gas production. EOG has placed an emphasis on applying its horizontal drilling and completion expertise to unconventional crude oil plays and natural gas plays. During the first nine months of 2024, EOG continued to (i) focus on improving well performance and operating efficiencies, (ii) evaluate certain potential crude oil and condensate, NGLs and natural gas exploration and development prospects and (iii) look for opportunities to add drilling inventory through leasehold acquisitions, farm-ins, exchanges or tactical or bolt-on acquisitions. On a volumetric basis, as calculated using a ratio of 1.0 barrel of crude oil and condensate or NGLs to 6.0 thousand cubic feet of natural gas, crude oil and condensate and NGLs production accounted for approximately 72% and 73% of EOG's United States production during the first nine months of 2024 and 2023, respectively. During the first nine months of 2024, EOG's drilling and completion activities occurred primarily in the Delaware Basin play and the Eagle Ford play. EOG's major producing areas in the United States are in New Mexico and Texas. Trinidad. In Trinidad, EOG continues to deliver natural gas under existing supply contracts. Several fields in the South East Coast Consortium (SECC) Block, Modified U(a) Block, Block 4(a), the Banyan Field and the Sercan Area have been developed and are producing natural gas which is sold to the National Gas Company of Trinidad and Tobago Limited, and crude oil and condensate which is sold to Heritage Petroleum Company Limited. During the first nine months of 2024, EOG completed one net developmental well and one net exploratory well from the recently installed Osprey B platform in the Modified U(a) Block. EOG also completed one net exploratory well and is currently completing another exploratory well from the Oilbird platform in the SECC Block. In June 2024, EOG relinquished its rights to a portion of the contract area governed by the Trinidad Northern Area License located offshore the southwest coast of Trinidad. In July 2024, EOG signed a farmout agreement with BP Trinidad and Tobago LLC, which allows EOG to earn a 50% working interest to develop the Coconut gas field in the East Mayaro and South East Galeota Areas. Additionally, EOG is currently in discussions with the Government of Trinidad and Tobago regarding the potential award of the Lower Reverse L and NCMA 4(a) Blocks in respect of the 2023 shallow water bid round. In the fourth quarter of 2024, EOG expects to recomplete two wells in the Sercan Area and also drill an exploratory well in the deep Teak, Sama'an and Poui Area. Additionally, EOG expects to complete construction and installation of the platform and commence pipeline installation in the Mento Area. Other International. In November 2021, a subsidiary of EOG was granted an exploration permit for the WA-488-P Block, located offshore Western Australia. During the first nine months of 2024, EOG continued to prepare for the drilling of an exploration well in this block. EOG continues to evaluate other select crude oil and natural gas opportunities outside the United States, primarily by pursuing exploration opportunities in countries where crude oil and natural gas reserves have been identified. 22. A \$ A 2024 Capital and Operating Plan. Total 2024 capital expenditures are estimated to range from approximately \$6.1 billion to \$6.3

2024. On May 2, 2024, the Board declared a quarterly cash dividend on the common stock of \$0.91 per share paid on July 31, 2024, to stockholders of record as of July 17, 2024. On August 1, 2024, the Board declared a quarterly cash dividend on the common stock of \$0.91 per share paid on October 31, 2024, to stockholders of record as of October 17, 2024. -23-À À À On November 7, 2024, the Board increased the quarterly cash dividend on the common stock from the previous \$0.91 per share to \$0.975 per share, effective beginning with the dividend payable on January 31, 2025, to stockholders of record as of January 17, 2025. Share Repurchases. In November 2021, the Board established a new share repurchase authorization that allows for the repurchase by EOG of up to \$5 billion of its common stock (Share Repurchase Authorization). During the three and nine months ended September 30, 2024, EOG repurchased 6.1À million and 18.0À million shares of common stock for approximately \$758À million and \$2,198À million (inclusive of transaction fees and commissions), respectively, pursuant to the Share Repurchase Authorization. As of September 30, 2024, approximately \$1.8À billion remained available for repurchases under the Share Repurchase Authorization. Included in the Treasury Stock Repurchased amounts on the Condensed Consolidated Statements of Stockholders' Equity for the three and nine months ended September 30, 2024, are \$7 million and \$20 million, respectively, of estimated federal excise taxes. Subsequent to September 30, 2024, the Board increased the Share Repurchase Authorization from \$5 billion to \$10 billion, effective November 7, 2024. Under the Share Repurchase Authorization, EOG may repurchase shares from time to time, at management's discretion, in accordance with applicable securities laws, including through open market transactions, privately negotiated transactions or any combination thereof. The timing and amount of repurchases is at the discretion of EOG's management and depends on a variety of factors, including the trading price of EOG's common stock, corporate and regulatory requirements, and other market and economic conditions. Repurchased shares are held as treasury shares and are available for general corporate purposes. The Share Repurchase Authorization has no time limit, does not require EOG to repurchase a specific number of shares and may be modified, suspended, or terminated by the Board at any time. -24-À À À À Results of Operations The following review of operations for the three months and nine months ended September 30, 2024 and 2023 should be read in conjunction with the Condensed Consolidated Financial Statements of EOG and notes thereto included in this Quarterly Report on Form 10ÀÊ Q. Three Months Ended September 30, 2024 vs. Three Months Ended September 30, 2023 Operating Revenues. During the third quarter of 2024, operating revenues decreased \$247 million, or 4%, to \$,965 million from \$6,212 million for the same period of 2023. Total wellhead revenues, which are revenues generated from sales of EOG's production of crude oil and condensate, NGLs and natural gas, for the third quarter of 2024 decreased \$251 million, or 5%, to \$4,384 million from \$4,635 million for the same period of 2023. EOG recognized net gains on the mark-to-market of financial commodity and other derivative contracts of \$79 million for the third quarter of 2024 compared to net gains of \$43 million for the same period of 2023. Gathering, processing and marketing revenues for the third quarter of 2024 increased \$3 million to \$1,481 million from \$1,478 million for the same period of 2023. Net losses on asset dispositions were \$7 million for the third quarter of 2024 compared to net gains of \$35 million for the same period of 2023. -25-À À À À Wellhead volume and price statistics for the three-month periods ended September 30, 2024 and 2023 were as follows: Three Months Ended September 30,À 2024 2023 Crude Oil and Condensate Volumes (MMbbl) (1) United States 491.8À 482.8À Trinidad 1.2À 0.5À Total 493.0À 483.3À Average Crude Oil and Condensate Prices (\$/Bbl) (2) À United States \$76.95À \$83.61À Trinidad 63.15À 71.38À Composite 76.92À 83.60À Natural Gas Liquids Volumes (MMbbl) (1) United States 254.3À 231.1À Total 254.3À 231.1À Average Natural Gas Liquids Prices (\$/Bbl) (2) À À United States \$22.42À \$23.56À Natural Gas Volumes (MMcf) (1) United States 1,745À 1,562À Trinidad 225À 142À Total 1,970À 1,704À Average Natural Gas Prices (\$/Mcf) (2) À À À United States \$1.84À \$2.59À Trinidad 3.68À 3.41À Composite 2.05À 2.66À Crude Oil Equivalent Volumes (MBoed) (3) United States 1,037.1À 974.2À Trinidad 38.6À 24.3À Total 1,075.7À 998.5À Total MMBoe (3) 999.0À 91.9À (1) Thousand barrels per day or million cubic feet per day, as applicable. (3) Thousand barrels of oil equivalent per day or million barrels of oil equivalent, as applicable; includes crude oil and condensate, NGLs and natural gas. Crude oil equivalent volumes are determined using a ratio of 1.0 barrel of crude oil and condensate or NGLs to 6.0 thousand cubic feet of natural gas. MMBoe is calculated by multiplying the MBoed amount by the number of days in the period and then dividing that amount by one thousand. -26-À À À À Wellhead crude oil and condensate revenues for the third quarter of 2024 decreased \$229 million, or 6%, to \$3,488 million from \$3,717 million for the same period of 2023. The decrease was due to a lower composite average price (\$317 million), partially offset by an increase of 9.7 MMbbl, or 2%, in wellhead crude oil and condensate production (\$88 million). Increased production was primarily from the Utica. EOG's composite wellhead crude oil and condensate price for the third quarter of 2024 decreased 8% to \$76.92 per barrel compared to \$83.60 per barrel for the same period of 2023. NGL revenues for the third quarter of 2024 increased \$23 million, or 5%, to \$524 million from \$501 million for the same period of 2023 due to an increase of 23.2 MMbbl, or 10%, in NGL deliveries (\$51 million), partially offset by a lower composite average price (\$28 million). Increased production was primarily from the Permian Basin. EOG's composite NGL price for the third quarter of 2024 decreased 5% to \$22.42 per barrel compared to \$23.56 per barrel for the same period of 2023. Wellhead natural gas revenues for the third quarter of 2024 decreased \$45 million, or 11%, to \$372 million from \$417 million for the same period of 2023. The decrease was due to a lower composite average price (\$114 million), partially offset by an increase in natural gas deliveries (\$69 million). Natural gas deliveries for the third quarter of 2024 increased 266 MMcf, or 16%, compared to the same period of 2023 due primarily to increased production of associated natural gas from the Permian Basin and higher natural gas deliveries in Trinidad. EOG's composite wellhead natural gas price for the third quarter of 2024 decreased 23% to \$2.05 per Mcf compared to \$2.66 per Mcf for the same period of 2023. During the third quarter of 2024, EOG recognized net gains on the mark-to-market of financial commodity and other derivative contracts of \$79 million compared to net gains of \$43 million for the same period of 2023. The net gains of \$79 million included gains of \$15 million related to the Brent crude oil (Brent) linked gas sales contract. During the third quarter of 2024, net cash received from settlements of financial commodity derivative contracts was \$61 million compared to net cash received from settlements of financial commodity derivative contracts of \$23 million for the same period of 2023. Gathering, processing and marketing revenues are revenues generated from sales of third-party crude oil, NGLs and natural gas, as well as fees associated with gathering third-party natural gas and revenues from sales of EOG-owned sand. Purchases and sales of third-party crude oil and natural gas may be utilized in order to balance firm capacity at third-party facilities with production in certain areas and to utilize excess capacity at EOG-owned facilities. EOG sells sand primarily in order to balance the timing of firm purchase agreements with completion operations. Marketing costs represent the costs to purchase third-party crude oil, natural gas and sand and the associated transportation costs, as well as costs associated with EOG-owned sand sold to third parties. Gathering, processing and marketing revenues less marketing costs for the third quarter of 2024 decreased \$114 million as compared to the same period of 2023 primarily due to lower margins on crude oil marketing activities. Operating and Other Expenses. À For the third quarter of 2024, operating expenses of \$3,876 million were \$221 million higher than the \$3,655 million incurred during the third quarter of 2023. À The following table presents the costs per barrel of oil equivalent (Boe) for the three-month periods ended September 30, 2024 and 2023: Three Months Ended September 30,À 2024 2023 Lease and Well \$3.96À \$4.02À Gathering, Processing and Transportation Costs (GP&T) 4.50À 4.42À Depreciation, Depletion and Amortization (DD&A) -Oil and Gas Properties 9.89À 9.31À Other Property, Plant and Equipment 0.53À 0.47À General and Administrative (G&A) 1.69À 1.75À Interest Expense, Net 0.31À 0.39À Total (1) \$20.88À \$20.36À (1) Total excludes exploration costs, dry hole costs, impairments, marketing costs and taxes other than income. -27-À À À À The primary factors impacting the cost components of per-unit rates of lease and well, GP&T, DD&A, G&A and interest expense, net for the three months ended September 30, 2024, compared to the same period of 2023, are set forth below. See "Operating Revenues" above for a discussion of wellhead volumes. Lease and well expenses include expenses for EOG-operated properties, as well as expenses billed to EOG from other operators where EOG is not the operator of a property. Lease and well expenses can be divided into the following categories: costs to operate and maintain crude oil and natural gas wells, the cost of workovers and lease and well administrative expenses. Operating and maintenance costs include, among other things, pumping services, produced water disposal, equipment repair and maintenance, compression expense, lease upkeep and fuel and power. Workovers are operations to restore or maintain production from existing wells. Each of these categories of costs individually fluctuates from time to time as EOG attempts to maintain and increase production while maintaining efficient, safe and environmentally responsible operations. EOG continues to increase its operating activities by drilling new wells in existing and new areas. Operating and maintenance costs within these existing and new areas, as well as the costs of services charged to EOG by vendors, fluctuate over time. Lease and well expenses of \$392 million for the third quarter of 2024 increased \$23 million from \$369 million for the same prior year period primarily due to increased operating and maintenance costs (\$18 million) and increased lease and well administrative expenses (\$6 million), both in the United States. Lease and well expenses increased in the United States primarily due to increased operating activities resulting from increased production. GP&T costs represent costs to process and deliver hydrocarbon products from the lease to a downstream point of sale. GP&T costs include operating and maintenance expenses from EOG-owned assets, fees paid to third party operators and administrative expenses associated with operating EOG's GP&T assets. EOG pays third parties to process the majority of its natural gas production to extract NGLs. GP&T costs of \$445 million for the third quarter of 2024 increased \$39 million from \$406 million for the same prior year period primarily due to increased GP&T costs related to increased production in the Permian Basin and Utica. DD&A of the cost of proved oil and gas properties is calculated using the unit-of-production method. EOG's DD&A rate and expense are the composite of numerous individual DD&A group calculations. There are several factors that can impact EOG's composite DD&A rate and expense, such as field production profiles, drilling or acquisition of new wells, disposition of existing wells and reserve revisions (upward or downward) primarily related to well performance, economic factors and impairments. Changes to these factors may cause EOG's composite DD&A rate and expense to fluctuate from period to period. DD&A of the cost of other property, plant and equipment is generally calculated using the straight-line depreciation method over the useful lives of the assets. DD&A expenses for the third quarter of 2024 increased \$133 million to \$1,031 million from \$898 million for the same prior year period. DD&A expenses associated with oil and gas properties for the third quarter of 2024 were \$123 million higher than the same prior year period. The increase primarily reflects increased production in the United States (\$54 million) and in Trinidad (\$8 million), and increased unit rates in the United States (\$50 million) and in Trinidad (\$11 million). DD&A expenses associated with other property, plant and equipment for the third quarter of 2024 were \$10 million higher than the same prior year period primarily due to an increase in expenses related to GP&T assets and equipment. G&A expenses of \$167 million for the third quarter of 2024 increased \$6 million from \$161 million for the same prior year period primarily due to increased professional and other services costs. Interest expense, net of \$31 million for the third quarter of 2024 decreased \$5 million compared to the same prior year period primarily due to higher capitalized interest. Impairments include: amortization of unproved oil and gas property costs as well as impairments of proved oil and gas properties; other property, plant and equipment; and other assets. Unproved properties with acquisition costs that are not individually significant are aggregated, and the portion of such costs estimated to be nonproductive is amortized over the remaining lease term. Unproved properties with individually significant acquisition costs are reviewed individually for impairment. -28-À À À À The following table sets forth impairments for the third quarter of 2024 and 2023 (in millions): Three Months Ended September 30,À 2024 2023 Proved properties 1À 23À Unproved properties 14À 30À Other assets 6À 6À À Firm commitment contracts 6À 1À Total 15À 54À Taxes other than income include severance/production taxes, ad valorem/property taxes, payroll taxes, franchise taxes and other miscellaneous taxes. Severance/production taxes are generally determined based on wellhead revenues, and ad valorem/property taxes are generally determined based on the valuation of the underlying assets. Taxes other than income for the third quarter of 2024 decreased \$58 million to \$283 million (6.5% of wellhead revenues) from \$341 million (7.4% of wellhead revenues) for the same prior year period. The decrease in taxes other than income was primarily due to increased state severance tax refunds (\$30 million) and decreased severance/production taxes (\$25 million), all in the United States. Other income, net of \$76 million for the third quarter of 2024 increased \$24 million from \$52 million for the same prior year period. The increase was primarily due to increased interest income. Income taxes of \$461 million for the third quarter of 2024 decreased from income taxes of \$543 million for the third quarter of 2023 primarily due to decreased pretax income. À The net effective tax rate for the third quarter of 2024 increased to 22% from 21% for the third quarter of 2023. Nine Months Ended September 30, 2024 vs. Nine Months Ended September 30, 2023 Operating Revenues. During the first nine months of 2024, operating revenues increased \$284 million, or 2%, to \$18,113 million from \$17,829 million for the same period of 2023. Total wellhead revenues for the first nine months of 2024 increased \$450 million, or 4%, to \$13,269 million from \$12,819 million for the same period of 2023. During the first nine months of 2024, EOG recognized net gains on the mark-to-market of financial commodity and other derivative contracts of \$269 million compared to net gains of \$520 million for the same period of 2023. Gathering, processing and marketing revenues for the first nine months of 2024 increased \$126 million, or 3%, to \$4,459 million from \$4,333 million for the same period of 2023. Net gains on asset dispositions were \$39 million for the first nine months of 2024 compared to net gains of \$95 million for the same period of 2023. -29-À À À À Wellhead volume and price statistics for the nine-month periods ended September 30, 2024 and 2023 were as follows: Nine Months Ended September 30,À 2024 2023 Crude Oil and Condensate Volumes (MMbbl) United States 489.6À 472.0À Trinidad 0.8À 0.6À Total 490.4À 472.6À Average Crude Oil and Condensate Prices (\$/Bbl) (1) À À United States \$79.36À 78.69À Trinidad 66.22À 68.37À Composite 79.34À 78.67À Natural Gas Liquids Volumes (MMbbl) United States 243.7À 219.7À Total 243.7À 219.7À Average Natural Gas Liquids Prices (\$/Bbl) (1) À À À United States \$23.25À \$23.35À Natural Gas Volumes (MMcf) United States 1,691À 1,517À Trinidad 209À 154À Total 1,900À 1,671À Average Natural Gas Prices (\$/Mcf) (1) À À À United States \$1.84À \$2.70À Trinidad 3.57À 3.59À Composite 2.03À 2.78À Crude Oil Equivalent Volumes (MBoed) United States 1,015.0À 944.6À Trinidad 35.8À 26.2À Total 1,050.8À 970.8À Total MMBoe 287.9À 265.0À (1) À À À Excludes the impact of financial commodity and other derivative instruments (see Note 12 to the Condensed Consolidated Financial Statements). -30-À À À À Wellhead crude oil and condensate revenues for the first nine months of 2024 increased \$509 million, or 5%, to \$10,660 million from \$10,151 million for the same period of 2023 due to an increase of 17.8 MMbbl, or 4%, in wellhead crude oil and condensate production (\$420 million) and a higher composite average price (\$89 million). Increased production was primarily in the Permian Basin and Utica. EOG's composite wellhead crude oil and condensate price for the first nine months of 2024 increased 1% to \$79.34 per barrel compared to \$78.67 per barrel for the same period of 2023. NGL revenues for the first nine months of 2024 increased \$152 million, or 11%, to \$1,552 million from \$1,400 million for the same period of 2023 due to an increase of 24.0 MMbbl, or 11%, in NGL deliveries (\$159 million), partially offset by a lower composite average price (\$7 million). Increased production was primarily from the Permian Basin. EOG's composite NGL price for the first nine months of 2024 decreased to \$23.25 per barrel compared to \$23.35 per barrel for the same period of 2023. Wellhead natural gas revenues for the first nine months of 2024 decreased \$211 million, or 17%, to \$1,057 million from \$1,268 million for the same period of 2023. The decrease was due to a lower composite average price (\$393 million), partially offset by an increase in natural gas deliveries (\$182 million). Natural gas deliveries for the first nine months of 2024 increased 229 MMcf, or 14%, compared to the same period of 2023 due primarily to increased production of associated natural gas from the Permian Basin and higher natural gas deliveries in Trinidad. EOG's composite wellhead natural gas price for the first nine months of 2024 decreased 27% to \$2.03 per Mcf compared to \$2.78 per Mcf for the same period of 2023. During the first nine months of 2024, EOG recognized net gains on the mark-to-market of financial commodity and other derivative contracts of \$269 million compared to net gains of \$520 million for the same period of 2023. The net gains of \$269 million included gains of \$148 million related to the Brent linked gas sales contract. During the first nine months of 2024, net cash received from settlements of financial commodity derivative contracts was \$195 million. Net cash paid for settlements of financial commodity derivative contracts was \$130 million for the same period of 2023. Gathering, processing and marketing revenues less marketing costs for the first nine months of 2024 decreased \$68 million as compared to the same period of 2023 primarily due to lower margins on crude oil marketing activities, sand sales and natural gas marketing activities. Operating and Other Expenses. For the first nine months of 2024, operating expenses of \$11,623 million were \$893 million higher than the \$10,730 million incurred during the same period of 2023. The following table presents the costs per Boe for the nine-month periods ended September 30, 2024 and 2023: Nine Months Ended September 30,À 2024 2023 Lease and Well \$4.09À \$4.06À GP&T 4.74À 4.52À DD&A -Oil and Gas Properties 10.20À 9.19À Other Property, Plant and Equipment 0.53À 0.48À G&A 1.67À 1.69À Interest Expense, Net 0.35À 0.43À Total (1) \$21.29À \$20.37À (1) Total excludes exploration costs, dry hole costs, impairments, marketing costs and taxes other than income. The primary factors impacting the cost components of per-unit rates of lease and well, GP&T, DD&A, G&A, and interest expense, net for the nine months ended September 30, 2024, compared to the same period of 2023 are set forth below. See "Operating Revenues" above for a discussion of wellhead volumes. -31-À À À À Lease and well expenses of \$1,178 million for the first nine months of 2024 increased \$102 million from \$1,076 million for the same prior year period primarily due to increased operating and maintenance costs (\$71 million), increased lease and well administrative expenses (\$19 million) and increased workover expenditures (\$14 million), all in the United States. Lease and well expenses increased in the United States primarily due to increased operating activities resulting from increased production. GP&T costs of \$1,281 million for the first nine months of 2024 increased \$84 million from

\$1,197 million for the same prior year period primarily due to increased GP&T costs related to increased production in the Permian Basin and Utica.DD&A expenses for the first nine months of 2024 increased \$527 million to \$3,089 million from \$2,562 million for the same prior year period. DD&A expenses associated with oil and gas properties for the first nine months of 2024 were \$502 million higher than the same prior year period. The increase primarily reflects increased production in the United States (\$185 million) and in Trinidad (\$18 million), and increased unit rates in the United States (\$147 million) and in Trinidad (\$30 million). In addition, the recording of an adjustment to DD&A (\$117 million) primarily related to natural gas production used by EOG's domestic gathering systems also contributed to the variance. DD&A expenses associated with other property, plant and equipment for the first nine months of 2024 were \$25 million higher than the same prior year period primarily due to an increase in expenses related to GP&T assets and equipment.G&A expenses of \$480 million for the first nine months of 2024 increased \$32 million from \$448 million for the same prior year period primarily due to increased employee-related costs (\$20 million), professional and other services costs (\$9 million) and information systems costs (\$8 million).Interest expense, net of \$100 million for the first nine months of 2024 decreased \$13 million compared to the same prior year period primarily due to higher capitalized interest (\$8 million) and the repayment in March 2023 of the \$1,250 million aggregate principal amount of 2.625% Senior Notes due 2023 (\$7 million).Exploration costs of \$122 million for the first nine months of 2024 decreased \$18 million from \$140 million for the same prior year period due primarily to decreased geological and geophysical expenditures (\$27 million), partially offset by increased administrative expenses (\$6 million) and delay rentals (\$3 million).The following table sets forth impairments for the nine-month periods ended September 30, 2024 and 2023 (in millions):

Nine Months Ended	September 30, 2024	2023	Proved properties	\$36A	26A	Unproved properties	48A	95A	Other assets	30A																																																																																																																															
Firm commitment contracts	1A	2A	Total	\$115A	123A	Taxes other than income for the first nine months of 2024 decreased \$25 million (7.2% of wellhead revenues) from \$983 million (7.7% of wellhead revenues) for the same prior year period. The decrease in taxes other than income was primarily due to increased state severance tax refunds (\$30 million) and decreased ad valorem/property taxes (\$21 million), partially offset by increased severance/production taxes (\$24 million), all in the United States.	Other income, net of \$204 million for the first nine months of 2024 increased \$36 million from \$168 million for the same prior year period. The increase was primarily due to increased interest income. Income taxes of \$1,442 million for the first nine months of 2024 decreased from income taxes of \$1,548 million for the first nine months of 2023 primarily due to decreased pretax income. The net effective tax rate for the first nine months of 2024 was unchanged from the prior year rate of 22%.	-32-A	A A A Capital Resources and Liquidity	Cash Flow. The primary sources of cash for EOG during the nine months ended September 30, 2024, were funds generated from operations and, to a lesser extent, net cash received from settlements of financial commodity derivative contracts. The primary uses of cash were exploration and development expenditures; funds used in operations; dividend payments to stockholders; purchases of treasury stock; and other property, plant and equipment expenditures. During the first nine months of 2024, EOG's cash balance increased \$844 million to \$6,122 million from \$5,278 million at December 31, 2023. Net cash provided by operating activities of \$9,380 million for the first nine months of 2024 increased \$1,144 million compared to the same period of 2023 primarily due to an increase in wellhead revenues (\$450 million), a decrease in net cash used in working capital and other assets and liabilities (\$450 million), an increase in net cash received from settlements of financial commodity derivative contracts (\$325 million), and a decrease in net cash paid for income taxes (\$289 million), partially offset by the return of cash collateral posted for financial commodity derivative contracts in the first nine months of 2023 (\$324 million) and an increase in cash operating expenses (\$153 million).	Net cash used in investing activities of \$4,691 million for the first nine months of 2024 decreased \$150 million compared to the same period of 2023 due to a decrease in cash used in working capital associated with investing activities (\$610 million), partially offset by an increase in additions to other property, plant and equipment (\$264 million), a decrease in proceeds from the sale of assets (\$116 million) and an increase in additions to oil and gas properties (\$80 million).	Net cash used in financing activities of \$3,845 million for the first nine months of 2024 included purchases of treasury stock (\$2,253 million), cash dividend payments (\$1,578 million) and repayment of finance lease liabilities (\$25 million). Net cash used in financing activities of \$4,041 million for the first nine months of 2023 included cash dividend payments (\$2,041 million), repayments of long-term debt (\$1,250 million), purchases of treasury stock (\$728 million) and repayment of finance lease liabilities (\$24 million).	-33-A	A A A Total Expenditures. For the full-year 2024, EOG's updated budget for exploration and development and other property, plant and equipment expenditures is estimated to range from approximately \$6.1 billion to \$6.3 billion, including exploration and development drilling, facilities, leasehold acquisitions, capitalized interest, dry hole costs and other property, plant and equipment and excluding property acquisitions, asset retirement costs, non-cash exchanges and transactions and exploration costs incurred as operating expenses. The table below sets out components of total expenditures for the nine-month periods ended September 30, 2024 and 2023 (in millions):	Nine Months Ended	September 30, 2024	2023	Expenditure Category	Capital	Exploration and Development	Drilling	(1)\$3,512A	\$3,619A	Facilities	430A	373A	Leasehold Acquisitions	(2)205A	153A	Property Acquisitions	(3)26A	9A	Capitalized Interest	32A	24A	Subtotal	4,205A	4,178A	Exploration Costs	122A	140A	Dry Hole Costs	6A	1A	Exploration and Development Expenditures	4,333A	4,319A	Asset Retirement Costs	(4)(28)27A	Total Exploration and Development Expenditures	4,305A	4,546A	Other Property, Plant and Equipment	(5)902A	638A	Total Expenditures	\$5,207A	\$5,184A	(1)A A A A Exploration and development drilling included \$85 million for the nine-month period ended September 30, 2023, related to non-cash development drilling. (2)A A A A Leasehold acquisitions included \$82 million and \$60 million for the nine-month periods ended September 30, 2024 and 2023, respectively, related to non-cash property exchanges. (3)A A A A Property acquisitions included \$24 million and \$9 million for the nine-month periods ended September 30, 2024 and 2023, respectively, related to non-cash property exchanges. (4)A A A A Asset Retirement Costs for the nine-month period ended September 30, 2024 included a downward revision to asset retirement obligations of \$84 million. (5)A A A A Other Property, Plant and Equipment included \$137 million related to the acquisition of a gathering system in South Texas and \$134 million related to the acquisition of a gathering and processing system in the Powder River Basin for the nine-month periods ended September 30, 2024 and 2023, respectively.	Exploration and development expenditures of \$4,333 million for the first nine months of 2024 were \$14 million higher than the same period of 2023 primarily due to increased facilities expenditures (\$57 million) and increased leasehold acquisitions (\$52 million), partially offset by decreased development drilling expenditures (\$92 million). Exploration and development expenditures for the first nine months of 2024 of \$4,333 million consisted of \$3,797 million in development drilling and facilities, \$478 million in exploration, \$32 million in capitalized interest and \$26 million in property acquisitions. Exploration and development expenditures for the first nine months of 2023 of \$4,319 million consisted of \$3,836 million in development drilling and facilities, \$450 million in exploration, \$24 million in capitalized interest and \$9 million in property acquisitions. The level of exploration and development expenditures, including acquisitions, will vary in future periods depending on energy market conditions and other economic factors. EOG believes it has significant flexibility and availability with respect to financing alternatives and the ability to adjust its exploration and development expenditure budget as circumstances warrant. While EOG has certain continuing commitments associated with expenditure plans related to its operations, such commitments are not expected to be material when considered in relation to the total financial capacity of EOG.	-34-A	A A A Financial Commodity and Other Derivative Transactions. As more fully discussed in Note 12 to the Consolidated Financial Statements included in EOG's 2023 Annual Report, EOG engages in price risk management activities from time to time. These activities are intended to manage EOG's exposure to fluctuations in commodity prices for crude oil, NGLs and natural gas. EOG utilizes financial commodity derivative instruments, primarily price swap, option, swaption, collar and basis swap contracts, as a means to manage this price risk. EOG has not designated any of its financial commodity and other derivative contracts as accounting hedges and, accordingly, accounts for financial commodity and other derivative contracts using the mark-to-market accounting method, including the Brent linked gas sales contract. Under this accounting method, changes in the fair value of outstanding financial and other derivative instruments are recognized as gains or losses in the period of change and are recorded as Gains on Mark-to-Market Financial Commodity and Other Derivative Contracts on the Condensed Consolidated Statements of Income and Comprehensive Income. The related cash flow impact is reflected in Cash Flows from Operating Activities on the Condensed Consolidated Statements of Cash Flows. The total fair value of EOG's financial commodity and other derivative contracts was reflected on the Condensed Consolidated Balance Sheets at September 30, 2024, as a net asset of \$77 million. As discussed in "Operating Revenues," the net cash received from settlements of financial commodity derivative contracts during the third quarter and first nine months of 2024 was \$61 million and \$195 million, respectively. Presented below is a comprehensive summary of EOG's financial commodity derivative contracts settled during the period from January 1, 2024 to October 31, 2024 (closed) and outstanding as of October 31, 2024. Natural gas volumes are presented in MMBtu per day (MMBt/d) and prices are presented in dollars per MMBtu (\$/MMBtu). In connection with its financial commodity derivative contracts, EOG had no collateral posted and no collateral held at November 6, 2024. The amount of posted collateral will increase or decrease based on fluctuations in forward NYMEX Henry Hub prices.	-35-A	A A A Natural Gas Sales Linked to Brent Crude Oil. In February 2024, EOG entered into a 10-year agreement, commencing in 2027, to sell 180,000 MMBt/d of its domestic natural gas production, with 140,000 MMBt/d to be sold at a price indexed to Brent and the remaining volumes to be sold at a price indexed to Brent or a U.S. Gulf Coast gas index. It was determined that this agreement meets the definition of a derivative under the Derivatives and Hedging Topic of the Accounting Standards Codification and does not qualify for the normal purchases and normal sales scope exception. As such, this agreement is accounted for as a derivative using the mark-to-market accounting method. Changes in the fair value are recognized as gains or losses in the period of change on the Condensed Consolidated Statements of Income and Comprehensive Income.	-36-A	A A A Information Regarding Forward-Looking Statements	This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. For updated information regarding EOG's financial commodity and other derivative contracts and physical commodity contracts, see (i) Note 12, "Risk Management Activities" to EOG's Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q; (ii) "Management's Discussion and Analysis of Financial Condition and Results of Operations - Results of Operations - Operating Revenues" in this Quarterly Report on Form 10-Q; and (iii) "Management's Discussion and Analysis of Financial Condition and Results of Operations - Capital Resources and Liquidity - Financial Commodity and Other Derivative Transactions" in this Quarterly Report on Form 10-Q. ITEM 4. CONTROLS AND PROCEDURESEOG RESOURCES, INC. Disclosure Controls and Procedures. EOG's management, with the participation of EOG's principal executive officer and principal financial officer, evaluated the effectiveness of EOG's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q (Evaluation Date). Based on this evaluation, EOG's principal executive officer and principal financial officer have concluded that EOG's disclosure controls and procedures were effective as of the Evaluation Date in ensuring that information that is required to be disclosed in the reports EOG files or furnishes under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the United States Securities and Exchange Commission's rules and forms and (ii) accumulated and communicated to EOG's management, as appropriate, to allow timely decisions regarding required disclosure. Internal Control Over Financial Reporting. There were no changes in EOG's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act) that occurred during the quarterly period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, EOG's internal control over financial reporting. -40- A A A PART II. OTHER INFORMATIONEOG RESOURCES, INC. ITEM 1. A A A LEGAL PROCEEDINGSSee Part I, Item 1, Note 8 to Condensed Consolidated Financial Statements, which is incorporated herein by reference. Item 103 of Regulation S-K promulgated under the Securities Exchange Act of 1934 (as amended, Exchange Act) requires disclosure regarding certain proceedings arising under federal, state or local environmental laws when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that EOG reasonably believes will exceed a specified threshold. Pursuant to such item, EOG will be using a threshold of \$1 million for purposes of determining whether disclosure of any such proceedings is required. EOG believes proceedings under this threshold are not material to EOG's business and financial condition (the choice of this threshold does not imply that matters with potential monetary sanctions in excess of \$1 million are necessarily material to EOG's business or financial condition). Applying this threshold, there are no environmental proceedings to disclose for the quarter ended September 30, 2024. ITEM 2. The share repurchases effected during the period July 1, 2024 through August 1, 2024 were made pursuant to a Rule 10b5-1 trading plan entered into by EOG on June 28, 2024. Also includes 311,060 total shares that were withheld by or returned to EOG during the quarter ended September 30, 2024, at an average price of \$122.86 per share, (i) in satisfaction of tax withholding obligations that arose upon the exercise of employee stock options or stock-settled stock appreciation rights or the vesting of restricted stock, restricted stock unit or performance unit grants or (ii) in payment of the exercise price of employee stock options (such shares do not count against the Share Repurchase Authorization). (2)In November 2021, EOG's Board of Directors (Board) established a new share repurchase authorization that allows for the repurchase by EOG of up to \$5 billion of its common stock (Share Repurchase Authorization). As of September 30, 2024, (i) EOG had repurchased an aggregate 26,680,275 shares at a total cost of \$3,168,828,937 (inclusive of commissions and transaction fees) under the Share Repurchase Authorization and (ii) an additional 1,831,171,063 of shares remained available for repurchases under the Share Repurchase Authorization. Subsequent to September 30, 2024, the Board increased the Share Repurchase Authorization from \$5 billion to \$10 billion, effective November 7, 2024.(3)Under the Share Repurchase Authorization, EOG may repurchase shares from time to time, at management's discretion, in accordance with applicable securities laws, including through open market transactions, privately negotiated transactions or any combination thereof. The timing and amount of repurchases is at the discretion of EOG's management and depends on a variety of factors, including the trading price of EOG's common stock, corporate and regulatory requirements, and other market and economic conditions. Repurchased shares are held as treasury shares and are available for general corporate purposes. The Share Repurchase Authorization has no time limit, does not require EOG to repurchase a specific number of shares and may be modified, suspended or terminated by the Board at any time. -41- A A A ITEM 5. Mr. Leitzell's Rule 10b5-1 trading arrangement will commence following the applicable cooling-off period and will terminate upon the earlier of (i) the completion of all sales specified in the trading arrangement and (ii) December 31, 2026. During the quarter ended September 30, 2024, no other Section 16 officer of EOG, and no director of EOG, adopted or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (in each case, as defined in Item 408(a) of Regulation S-K). -42- A A A ITEM 6. For the avoidance of doubt (and for illustrative purposes), (1) if the COC Effective Date occurs in the third fiscal year of the Performance Period, Average ROCE shall be calculated based on the ROCE measure for each of the first and second fiscal years of the Performance Period and (2) if the COC Effective Date occurs in the second fiscal year of the Performance Period, Average ROCE shall be equal to the ROCE measure for the first fiscal year of the Performance Period. If the termination of your employment with the Company or an Affiliate is by the Company or such Affiliate (as the case may be) without Cause or by you for Good Reason, in either case during the two-year period following a Change in Control of the Company with an effective date on or subsequent to the end date of the Performance Period, but prior to the Vesting Date, (i) all forfeiture restrictions on the Performance Units awarded hereunder shall lapse as of the date of your termination; and (ii) the Performance Multiple to be applied to the number of Performance Units awarded hereunder shall be the Performance Multiple for the Performance Period as certified by the Committee (or its successor). All shares of Company common stock represented by the Performance Units awarded hereunder (as adjusted for the applicable Performance Multiple) shall be distributed to you as soon as administratively practicable following the date of your termination, but no later than 60 days after such date, subject to the six-month delay applicable to specified employees described under Section 409A below; provided, however, that if the event constituting the Change in Control of the Company does not qualify as a change in effective ownership or control of the Company for purposes of Section 409A, then, pursuant to Section 12.2 of the Plan, such distribution shall be delayed until the earliest time that such distribution would be Permissible under Section 409A. Dividend Equivalents. Pursuant to Section 8.6 of the Plan, (i) dividend equivalents on unvested Performance Units (as adjusted for the applicable Performance Multiple) shall accrue and be credited by the Company for your benefit; and (ii) such dividend equivalents shall not be paid to you until (and to the extent) you become vested in the related Performance Units and shall be forfeited in the event of (and to the extent of) the forfeiture and cancellation of the Performance Units pursuant to this Agreement. Section 409A. The Plan and this Agreement are intended to meet the requirements of Section 409A, and shall be administered such that any payment, settlement, or deferrals of amounts hereunder shall not be subject to any excise penalty tax that may be imposed thereunder. All payments to be made upon a termination of employment under this Agreement may only be made upon a Separation from Service to the extent necessary in order to avoid the imposition of penalty taxes on you pursuant to Section 409A. Notwithstanding any other provision of this Agreement to the contrary, if you are considered a specified employee of the Company for purposes of Section 409A (as determined in accordance with the methodology established by the Company as in effect on the date of your Separation from Service), to the extent required by Section 409A, any payment that constitutes nonqualified deferred compensation within the meaning of Section 409A that is otherwise due to you under this Agreement during the six-month period immediately following your Separation from Service on account of your Separation from Service shall be accumulated and paid to you on the first business day of the seventh month following your Separation from Service (the Delayed Payment Date). If you die during the posttermination period, the amounts and entitlements delayed on account of Section 409A shall be paid to the personal representative of your estate on the first to occur of the Delayed Payment Date or 30 calendar days after the date of your death. The Company, in its sole discretion, shall determine if you are a specified employee on the date of your Separation from Service and whether you are subject to any six-month delay in distribution of amounts due to you under this Agreement. The condensed consolidated financial statements of EOG Resources, Inc., together with its subsidiaries (collectively, EOG), included herein have been prepared by management without audit pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC). Accordingly, they reflect all normal recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the financial results for the interim periods presented. Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures included either on the face of the financial statements or in these notes are sufficient to make the interim information presented not misleading. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in EOG's Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 22, 2024 (EOG's 2023 Annual Report).The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The operating results for the three and nine months ended September 30, 2024, are not necessarily indicative of the results to be expected for the full year.Change in Presentation. Effective January 1, 2024, EOG combined Transportation Costs and Gathering and Processing Costs into one line item titled Gathering, Processing and Transportation Costs within the Condensed Consolidated Statements of Income and Comprehensive Income. This presentation has been conformed for all periods presented and had no impact on previously reported Net Income.Recently Issued Accounting Standards. In March 2024, the SEC adopted final rules under SEC Release No. 33-11275, The Enhancement and Standardization of Climate-Related Disclosures for Investors. The rules amending Regulation S-X will require public entities to provide certain climate-related information in their annual reports and registration statements. The rules will be effective for large accelerated filers commencing with the fiscal period beginning January 1, 2025. In April 2024, the SEC voluntarily issued an administrative stay of the implementation of the rules, pending judicial review. EOG is evaluating the impact of the final rules on its consolidated financial statements and disclosures. Stock-based compensation expense is included on the Condensed Consolidated Statements of Income and Comprehensive Income based upon the job function of the employees receiving the grants as follows (in millions):Three Months EndedSeptember 30,Nine Months EndedSeptember 30,À 2024202320242023Lease and Well\$22A \$16A \$50A \$39A Gathering, Processing and Transportation Costs2A 1A 5A 3A Exploration Costs8A 8A 20A 18A General and Administrative26A 32A 73A 66A Total58A \$57A \$148A \$126A At September 30, 2024, approximately 13 million common shares remained available for grant under the EOG Resources, Inc. 2021 Omnibus Equity Compensation Plan (2021 Plan). EOG's policy is to issue shares related to the 2021 Plan grants from previously authorized unissued shares or treasury shares to the extent treasury shares are available. Stock Options and Stock-Settled Stock Appreciation Rights and Employee Stock Purchase Plan. The fair value of stock option grants and of stock-settled stock appreciation rights (SARs) grants is estimated using the Hull-White II binomial option pricing model. The fair value of Employee Stock Purchase Plan (ESPP) grants is estimated using the Black-Scholes-Merton model. Stock-based compensation expense related to stock option, SAR and ESPP grants totaled \$8 million for both the three months ended September 30, 2024 and 2023, and \$17 million and \$20 million for the nine months ended September 30, 2024 and 2023, respectively.EOG did not grant any stock options or SARs during the nine-month periods ended September 30, 2024 and 2023. Weighted average fair values and valuation assumptions used to value ESPP grants during the nine-month periods ended September 30, 2024 and 2023 are as follows:ESPPNine Months EndedSeptember 30,À 20242023Weighted Average Fair Value of Grants\$26.03A \$29.39A Expected Volatility25.78A %38.07A %Risk-Free Interest Rate5.17A %5.02A %Dividend Yield2.87A %2.67A %Expected Life0.5 years0.5 yearsExpected volatility is based on an equal weighting of historical volatility and implied volatility from traded options in EOG's common stock. EOG grants restricted stock units with performance-based conditions (Performance Units) annually to its executive officers without cost to them. For the grants made prior to September 2022, as more fully discussed in the grant agreements, the applicable performance metric is EOG's total shareholder return (TSR) over a three-year performance period (Performance Period) relative to the TSR over the same period of a designated group of peer companies. Upon the application of the applicable performance multiple at the completion of the Performance Period, a minimum of 0% and a maximum of 200% of the Performance Units granted could be outstanding.For the grants made beginning in September 2022, as more fully discussed in the grant agreements, the applicable performance metrics are 1) EOG's TSR over the Performance Period relative to the TSR over the same period of a designated group of peer companies and 2) EOG's average return on capital employed (ROCE) over the Performance Period. At the end of the Performance Period, a performance multiple based on EOG's relative TSR ranking will be determined, with a minimum performance multiple of 0% and a maximum performance multiple of 200%. A specified modifier ranging from -70% to +70% will then be applied to the performance multiple based on EOG's average ROCE over the Performance Period, provided that in no event shall the performance multiple, after applying the ROCE modifier, be less than 0% or exceed 200%. Furthermore, if EOG's TSR over the Performance Period is negative (i.e., less than 0%), the performance multiple will be capped at 100%, regardless of EOG's relative TSR ranking or average ROCE over the Performance Period.The fair value of the Performance Units is estimated using a Monte Carlo simulation. Stock-based compensation expense related to the Performance Unit grants totaled \$2 million and \$6 million for the three months ended September 30, 2024 and 2023, respectively, and \$9 million and \$11 million for the nine months ended September 30, 2024 and 2023, respectively.The following table sets forth the Performance Unit transactions for the nine-month periods ended September 30, 2024 and 2023 (units in thousands):Nine Months EndedSeptember 30, 2024Nine Months EndedSeptember 30, 2023Number of UnitsWeightedAverageGrant Date Fair ValueNumber of UnitsWeightedAverageGrant Date Fair ValueOutstanding at January

(2)Upon completion of the Performance Period for the Performance Units granted in 2020 and 2019, a performance multiple of 25% and 50%, respectively, was applied to each of the grants resulting in a forfeiture of Performance Units in February 2024 and February 2023.(3)The total intrinsic value of Performance Units outstanding at September 30, 2024 and 2023, was \$69 million and \$79 million, respectively.(4)Upon the application of the relevant performance multiple at the completion of each of the remaining Performance Periods, a minimum of zero and a maximum of 1,118 Performance Units could be outstanding. Such unrecognized expense will be amortized on a straight-line basis over a weighted average period of 1.6 years.Other Stock Awards. In August 2024, and in recognition of EOG's 25th anniversary as an independent public company, EOG awarded 25 shares of EOG common stock to each of its non-executive officer employees. Stock-based compensation expense related to the awards totaled \$9Å million for both the three months and nine months ended September 30, 2024, and the intrinsic value of the awards was \$9Å million (based upon the closing price of EOG's common stock on the August 16, 2024 award date). A gross-up to account for income taxes was also recognized. EOG had no outstanding commercial paper borrowings at September 30, 2024 and December 31, 2023, and did not utilize any commercial paper borrowings during the nine months ended September 30, 2024 and 2023. At September 30, 2024, the \$500A million aggregate principal amount of EOG's 3.15% Senior Notes due 2025 was classified as long-term debt based upon EOG's intent and ability to ultimately replace such amount with other long-term debt. EOG currently has a \$1.9A billion senior unsecured Revolving Credit Agreement (Agreement) with domestic and foreign lenders (Banks). The Agreement has a scheduled maturity date of June 7, 2028, and includes an option for EOG to extend, on up to two occasions, the term for successive one-year periods subject to certain terms and conditions. The Agreement (i) commits the Banks to provide advances up to an aggregate principal amount of \$1.9A billion at any one time outstanding, with an option for EOG to request increases in the aggregate commitments to an amount not to exceed \$3.0A billion, subject to certain terms and conditions, and (ii) includes a swingline subfacility and a letter of credit subfacility. Advances under the Agreement will accrue interest based, at EOG's option, on either the Secured Overnight Financing Rate (SOFR) plus 0.1% plus an applicable margin or the base rate (as defined in the Agreement) plus an applicable margin. The applicable margin used in connection with interest rates and fees will be based on EOG's credit rating for its senior unsecured long-term debt at the applicable time. The Agreement contains representations, warranties, covenants and events of default that EOG believes are customary for investment-grade, senior unsecured commercial bank credit agreements, including a financial covenant for the maintenance of a ratio of total debt-to-capitalization (as such terms are defined in the Agreement) of no greater than 65%. At September 30, 2024, EOG was in compliance with this financial covenant. At September 30, 2024, and December 31, 2023, there were no borrowings or letters of credit outstanding under the Agreement. The SOFR and base rate (inclusive of the applicable margins), had there been any amounts borrowed under the Agreement at September 30, 2024, would have been 5.85% and 8.00%, respectively. Common Stock. In November 2021, the Board of Directors (Board) established a new share repurchase authorization that allows for the repurchase by EOG of up to \$5A billion of its common stock (Share Repurchase Authorization). During the nine months ended September 30, 2024, EOG repurchased 18.0A million shares of common stock for approximately \$2,198 million (inclusive of transaction fees and commissions) pursuant to the Share Repurchase Authorization. As of September 30, 2024, approximately \$1.8A billion remained available for repurchases under the Share Repurchase Authorization. Included in the Treasury Stock Repurchased amounts on the Condensed Consolidated Statements of Stockholders' Equity for the nine months ended September 30, 2024, is \$20 million of estimated federal excise taxes. Subsequent to September 30, 2024, the Board increased the Share Repurchase Authorization from \$5A billion to \$10A billion, effective November 7, 2024. Under the Share Repurchase Authorization, EOG may repurchase shares from time to time, at management's discretion, in accordance with applicable securities laws, including through open market transactions, privately negotiated transactions or any combination thereof. The timing and amount of repurchases is at the discretion of EOG's management and depends on a variety of factors, including the trading price of EOG's common stock, corporate and regulatory requirements, and other market and economic conditions. Repurchased shares are held as treasury shares and are available for general corporate purposes. The Share Repurchase Authorization has no time limit, does not require EOG to repurchase a specific number of shares and may be modified, suspended, or terminated by the Board at any time. On February 22, 2024, the Board declared a quarterly cash dividend on the common stock of \$0.91 per share paid on April 30, 2024, to stockholders of record as of April 16, 2024. On May 2, 2024, the Board declared a quarterly cash dividend on the common stock of \$0.91 per share paid on July 31, 2024, to stockholders of record as of July 17, 2024. On August 1, 2024, the Board declared a quarterly cash dividend on the common stock of \$0.91 per share paid on October 31, 2024, to stockholders of record as of October 17, 2024. On November 7, 2024, the Board increased the quarterly cash dividend on the common stock from the previous \$0.91 per share to \$0.975 per share, effective beginning with the dividend payable on January 31, 2025, to stockholders of record as of January 17, 2025. Notional contract amounts are used to express the magnitude of a derivative. The amounts potentially subject to credit risk, in the event of nonperformance by the counterparties, are equal to the fair value of such contracts (see Note 11). EOG evaluates its exposures to significant counterparties on an ongoing basis, including those arising from physical and financial transactions. In some instances, EOG renegotiates payment terms and/or requires collateral, parent guarantees or letters of credit to minimize credit risk.All of EOG's financial commodity derivative instruments are covered by International Swap Dealers Association Master Agreements (ISDAs) with counterparties. The ISDAs may contain provisions that require EOG, if it is the party in a net liability position, to post collateral when the amount of the net liability exceeds the threshold level specified for EOG's then-current credit ratings. In addition, the ISDAs may also provide that, as a result of certain circumstances, including certain events that cause EOG's credit ratings to become materially weaker than its then-current ratings, the counterparty may require all outstanding derivatives under the ISDAs to be settled immediately. See Note 11 for the aggregate fair value of all derivative instruments that were in a net liability position at September 30, 2024 and December 31, 2023. EOG had no collateral posted and no collateral held at September 30, 2024 and December 31, 2023. EOG had no collateral posted and no collateral held at November 6, 2024. Summary of Significant Accounting Policies

The condensed consolidated financial statements of EOG Resources, Inc., together with its subsidiaries (collectively, EOG), included herein have been prepared by management without audit pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC). Accordingly, they reflect all normal recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the financial results for the interim periods presented. Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures included either on the face of the financial statements or in these notes are sufficient to make the interim information presented not misleading. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in EOG's Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 22, 2024 (EOG's 2023 Annual Report).

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The operating results for the three and nine months ended September 30, 2024, are not necessarily indicative of the results to be expected for the full year.

Change in Presentation

Effective January 1, 2024, EOG combined Transportation Costs and Gathering and Processing Costs into one line item titled Gathering, Processing and Transportation Costs within the Condensed Consolidated Statements of Income and Comprehensive Income. This presentation has been conformed for all periods presented and had no impact on previously reported Net Income.

Recently Issued Accounting Standards

In March 2024, the SEC adopted final rules under SEC Release No. 33-11275, The Enhancement and Standardization of Climate-Related Disclosures for Investors. The rules amending Regulation S-X will require public entities to provide certain climate-related information in their annual reports and registration statements. The rules will be effective for large accelerated filers commencing with the fiscal period beginning January 1, 2025. In April 2024, the SEC voluntarily issued an administrative stay of the implementation of the rules, pending judicial review. EOG is evaluating the impact of the final rules on its consolidated financial statements and disclosures.

Stock-Based Compensation

As more fully discussed in Note 7 to the Consolidated Financial Statements included in EOG's 2023 Annual Report, EOG maintains various stock-based compensation plans. Stock-based compensation expense is included on the Condensed Consolidated Statements of Income and Comprehensive Income based upon the job function of the employees receiving the grants as follows (in millions):

The timing and amount of repurchases is at the discretion of EOG's management and depends on a variety of factors, including the trading price of EOG's common stock, corporate and regulatory requirements, and other market and economic conditions.
