PART I. FINANCIAL INFORMATION

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act, including statements regarding our future results of operations and financial position, business strategy and plans and our objectives for future operations and future liquidity. The words "may," "will," "should," "could," "expect," "anticipate," "believe," "estimate," "intend," "continue" and other similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements involve risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. Such risks and uncertainties include, but are not limited to, our ability to execute and achieve the expected benefits of our go-forward strategy; execution of our business and marketing strategies; volatility in our operating results; challenges arising from our international operations, including fluctuations in currency exchange rates, tax, legal and regulatory developments in the jurisdictions in which we operate and geopolitical instability resulting from the conflicts in Ukraine and the Middle East; global economic uncertainty, including as a result of inflationary pressures; retaining and adding high quality merchants and third-party business partners; retaining existing customers and adding new customers; competing successfully in our industry; providing a strong mobile experience for our customers; managing refund risks; retaining and attracting members of our executive and management teams and other qualified employees and personnel; customer and merchant fraud; payment-related risks; our reliance on email, Internet search engines and mobile application marketplaces to drive traffic to our marketplace; cybersecurity breaches; maintaining and improving our information technology infrastructure; reliance on cloud-based computing platforms; completing and realizing the anticipated benefits from acquisitions, dispositions, joint ventures and strategic investments; lack of control over minority investments; managing inventory and order fulfillment risks; claims related to product and service offerings; protecting our intellectual property; maintaining a strong brand; the impact of future and pending litigation; compliance with domestic and foreign laws and regulations, including the CARD Act, GDPR, CPRA, and other privacy-related laws and regulations of the Internet and e-commerce; classification of our independent contractors, agency workers, or employees; our ability to remediate our material weakness over internal control over financial reporting; risks relating to information or content published or made available on our websites or service offerings we make available; exposure to greater than anticipated tax liabilities; adoption of tax laws; our ability to use our tax attributes; impacts if we become subject to the Bank Secrecy Act or other anti-money laundering or money transmission laws or regulations; our ability to raise capital if necessary; risks related to our access to capital and outstanding indebtedness, including our 2026 Notes; our Common Stock, including volatility in our stock price; our ability to realize the anticipated benefits from the capped call transactions relating to our 2026 Notes; and those risks and other factors discussed in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2023 and Part II, Item 1A. Risk Factors of this on our Quarterly Report Reports on Form 10-Q for the quarter quarters ended March 31, 2024 and June 30, 2024, as well as in our Condensed Consolidated Financial Statements, related notes, and the other financial information appearing elsewhere in this report and our other filings with the SEC. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we make. Neither the Company nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements. We undertake no obligation to publicly update any forward-looking statements for any reason after the date of this report to conform these statements to actual results or to future events or circumstances. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Company Information

Groupon, Inc. and its subsidiaries, which commenced operations in October 2008, is a global scaled two-sided marketplace that connects consumers to merchants by offering goods and services, generally at a discount. Consumers access those marketplaces through our mobile applications and our websites.

Our operations are organized into two segments: North America and International. See Note 13, *Segment Information*, for more information.

Unaudited Interim Financial Information

We have prepared the accompanying Condensed Consolidated Financial Statements pursuant to the rules and regulations of the SEC for interim financial reporting. These Condensed Consolidated Financial Statements are unaudited and, in our opinion, include all adjustments, consisting of normal recurring adjustments and accruals, necessary for a fair presentation of the Condensed Consolidated Balance Sheets, Statements of Operations and Comprehensive Income (Loss), Cash Flows and Stockholders' Equity (Deficit) for the periods presented. These Condensed Consolidated Financial Statements and notes should be read in conjunction with the audited Consolidated Financial Statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2023.

Principles of Consolidation

The Condensed Consolidated Financial Statements include the accounts of Groupon, Inc. and its wholly-owned subsidiaries, majority-owned subsidiaries over which we exercise control and variable interest entities for which we are the primary beneficiary. All intercompany accounts and transactions have been eliminated in consolidation. Outside stockholders' interests in subsidiaries are shown on the Condensed Consolidated Financial Statements as Noncontrolling interests. Investments in entities in which we do not have a controlling financial interest are accounted for at fair value as available-for-sale securities or at cost adjusted for observable price changes and impairments, as appropriate.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Estimates in our financial statements include, but are not limited to, the following: variable consideration from unredeemed vouchers; income taxes; leases; initial valuation and subsequent impairment testing of goodwill, other intangible assets and long-lived assets; investments; receivables; customer refunds and other reserves; contingent liabilities; and the useful lives of property, equipment and software and intangible assets. Actual results could differ materially from those estimates.

Reclassifications

Certain reclassifications have been made to the Condensed Consolidated Financial Statements of prior periods to conform to the current period presentation.

Adoption of New Accounting Standards

There were no new accounting standards adopted during the three and six months ended **March 31, 2024** **June 30, 2024**.

NOTE 2. GOODWILL AND LONG-LIVED ASSETS

Goodwill

As of **March 31, 2024** **June 30, 2024** and December 31, 2023, the balance of our goodwill was \$178.7 million. There was no goodwill activity during the **three** **six** months ended **March 31, 2024** **June 30, 2024**. All goodwill is within our North America segment.

Long-Lived Assets

In March 2024, we entered into an agreement with a third party to sell the rights to certain intangible assets in exchange for cash consideration of \$10.0 million, subject to license-back provisions that permit continued use of the assets in the ordinary course of our business. The sale was completed in April 2024 and resulted in a pre-tax gain of \$5.0 million. The pre-tax gain is presented within Gain on sale of assets on the Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2024. The cash activity is presented within Proceeds from sale of assets, net in the investing section on the Condensed Consolidated Statements of Cash Flows and includes cash consideration received of \$10.0 million, less \$1.0 million in fees. The assets were within our North America segment and are classified as held-for-sale as of March 31, 2024 on the Condensed Consolidated Balance Sheets.

The following table summarizes intangible assets as of March 31, 2024 June 30, 2024 and December 31, 2023 (in thousands):

NOTE 5. FINANCING ARRANGEMENTS

Convertible Senior Notes due 2026

The 2026 Notes bear interest at a rate of 1.125% per annum, payable semiannually in arrears on March 15 and September 15 of each year, with an annual effective interest rate of 1.83%. The 2026 Notes will mature on March 15, 2026, subject to earlier repurchase, redemption or conversion.

The carrying amount of the 2026 Notes consisted of the following as of **March 31, 2024** **June 30, 2024** and December 31, 2023 (in thousands):

Net carrying amount of liability		

We classified the fair value of the 2026 Notes as a Level 3 measurement due to the lack of observable market data over fair value inputs such as our stock price volatility over the term of the 2026 Notes and our cost of debt. The estimated fair value of the 2026 Notes as of **March 31, 2024** **June 30, 2024** and December 31, 2023 was **\$181.3 million** **\$199.5 million** and **\$141.9 million** and was determined using a lattice model.

Capped Call Transactions

In connection with the 2026 Notes, we entered into privately-negotiated capped call transactions. The capped call transactions cover, subject to customary adjustments, the number of shares of **common stock** **Common Stock** initially underlying the 2026 Notes. The capped call transactions are expected generally to reduce potential dilution to our **common stock** **Common Stock** upon any conversion of the 2026 Notes and/or offset any cash payments we are required to make in excess of the principal amount of converted notes, with such reduction and/or offset subject to a cap initially equal to \$104.80 (which represents a premium of 100% over the last reported sale price of our **common stock** **Common Stock** on The Nasdaq Global Select Market on March 22, 2021), subject to certain adjustments under the terms of the capped call transactions.

Revolving Credit Agreement

In February 2024, we prepaid \$43.1 million to terminate all commitments to access further credit under the Credit Agreement using a portion of the \$80.0 million in proceeds received from the Rights Offering. The Payoff Amount included \$42.8 million in principal, \$0.1 million in interest and \$0.2 million in fees. The terms of the Rights Offering permit the Company to use the proceeds for general corporate purposes, including the repayment of debt. We were not subject to any early termination penalties under the Credit Agreement. The payment of the Payoff Amount terminated our obligations under the Credit Agreement, except for ordinary and customary survival terms. In addition, we retained access to letters of credit, originally available under the Credit Agreement, pursuant to our pre-existing Cash Collateral Agreement.

Amounts committed to letters of credit and outstanding borrowings under the **Cash Collateral Agreement and Credit Agreement**, respectively, as of **March 31, 2024** **June 30, 2024** and December 31, 2023 were as follows (in thousands):

	March 31, 2024	December 31, 2023

(1) Pursuant to the Cash Collateral Agreement, cash collateral is required for all letters of credit and treated as restricted cash on the Condensed Consolidated Balance Sheets. See Note 4, *Supplemental Condensed Consolidated Balance Sheets and Statements of Operations Information*, for additional information.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Our contractual obligations and commitments as of **March 31, 2024** **June 30, 2024** and through the date of this report, did not materially change from the amounts set forth in our 2023 Annual Report on Form 10-K.

Legal Matters and Other Contingencies

From time to time, we are party to various legal proceedings incident to the operation of our business. For example, we currently are involved in proceedings brought by merchants, employment and related matters, intellectual property infringement suits, customer lawsuits, stockholder claims relating to U.S. securities law, consumer class actions and suits alleging, among other things, violations of state consumer protection or privacy laws.

We currently have an appeal lodged in the Portuguese courts relating to a Portugal VAT assessment for the periods from 2013 to 2015 of approximately \$4.1 million, inclusive of penalties and interest through June 30, 2024. After negative rulings at lower level courts in November 2023 and May 2024, we lodged a final appeal to the highest-level court. It is uncertain whether the court will agree to hear the appeal and if the Court chooses to hear the appeal, it will be confined to considering issues of law. If the court declines to hear the appeal, the assessment will become final and payable. Given the uncertainty of whether our final appeal for the assessment will be heard, we concluded that a loss was probable and recorded a contingent liability of \$4.1 million in our Condensed Consolidated Balance Sheets as of June 30, 2024 and recognized expenses in our Condensed Consolidated Statements of Operations for \$3.3 million of taxes and penalties within Selling, general and administrative and \$0.8 million of interest expense within Other income (expense), net. We currently have a bank guarantee of \$3.7 million in place relating to the assessment that is classified as restricted cash in our Condensed Consolidated Balance Sheets as of June 30, 2024.

A Groupon subsidiary in Italy is presently litigating a tax dispute with the Italian tax authorities relating to a \$119.3 million assessment. \$120.4 million assessment, inclusive of taxes, penalties and interest through June 30, 2024. The subsidiary has lodged a second-level appeal and also has the ability to challenge the assessment in an international Mutual Agreement Proceeding if it does not prevail in the Italian courts. A hearing on the second-level appeal was originally scheduled for July 9, 2024 and has been rescheduled by the court until September 24, 2024. The company continues to believe that the assessment, which primarily relates to transfer pricing on transactions occurring in 2011, is without merit. The subsidiary continues to vigorously defend itself in this matter and believes it will prevail on the merits of the case. Refer to Note 10, *Income Taxes* for additional information.

In 2015 we lodged an appeal in the Portuguese courts relating to a Portugal VAT assessment for the periods from 2011 to 2012 of up to \$4.4 million, inclusive of penalties and interest through June 30, 2024. The case is currently pending at the lowest level court awaiting a final decision. If there is a negative outcome, at this lowest level, Groupon could still pursue two rounds of appeals in which it can still assert factual and legal challenges to the assessment. Groupon also maintains the opportunity to petition subsequent courts to refer the matter to the European Court of Justice. We have not recorded a contingent liability for this amount as, for the reasons stated above, we concluded it is not probable a loss has been incurred as of June 30, 2024. This case is separate and not dependent on the outcome of the Portugal matter discussed above, wherein the ability to appeal further is not certain and factual issues can no longer be challenged. We currently have a bank guarantee of \$4.0 million in place relating to the assessment that is classified as restricted cash in our Condensed Consolidated Balance Sheets as of June 30, 2024.

In June 2023, Groupon was granted final approval of a settlement that resolved four shareholder derivative lawsuits in relation to a previously settled lawsuit that alleged that Groupon and certain of its officers made materially false and/or misleading statements or omissions regarding its business, operations and prospects, specifically as it relates to reiterating its full year guidance on November 4, 2019 and the Groupon Select program. Under the settlement, Groupon agreed to undertake certain corporate reforms. The Court awarded attorneys' fees in the amount of \$950,000 to Plaintiffs' counsel. That amount was covered under Groupon's insurance policies and was paid directly by Groupon's insurance carriers in July 2023.

In addition, third parties have from time to time claimed, and others may claim in the future, that we have infringed their intellectual property rights. We are subject to intellectual property disputes, including patent infringement claims, and expect that we will continue to be subject to intellectual property infringement claims as our services expand in scope and complexity. In the past and/or at present, we have litigated patent infringement and other intellectual property-related claims, including pending litigation or trademark disputes relating to, for example, our Goods category, some of which involved or could have involved potentially substantial claims for damages or injunctive relief. We may also become more vulnerable to third-party claims as laws such as the Digital Millennium Copyright Act are interpreted by the courts, and we become subject to laws in jurisdictions where the underlying laws with respect to the potential liability of online intermediaries are either unclear or less favorable. We believe that additional lawsuits alleging that we have violated patent, copyright or trademark laws may be filed against us. Intellectual property claims, whether meritorious or not, are time consuming and often costly to resolve, could require expensive changes in our methods of doing business or the goods we sell, or could require us to enter into costly royalty or licensing agreements.

We also are subject to consumer claims or lawsuits relating to alleged violations of consumer protection or privacy rights and statutes, some of which could involve potentially substantial claims for damages, including statutory or punitive damages. Consumer and privacy-related claims or lawsuits, whether meritorious or not, could be time consuming, result in costly litigation, damage awards, fines and penalties, injunctive relief or increased costs of doing business through adverse judgment or settlement, or require us to change our business practices, sometimes in expensive ways.

We are also subject to, or in the future may become subject to, a variety of regulatory inquiries, audits, and investigations across the jurisdictions where we conduct our business, including, for example, inquiries related to consumer protection, employment matters and/or hiring practices, marketing practices, tax, unclaimed property and privacy rules and regulations. Any regulatory actions against us, whether meritorious or not, could be time consuming, result in costly litigation, damage awards, fines and penalties, injunctive relief or increased costs of doing business through adverse judgment or settlement, require us to change our business practices in

expensive ways, require significant amounts of management time, result in the diversion of significant operational resources, materially damage our brand or reputation, or otherwise harm our business.

We establish an accrued liability for loss contingencies related to legal, regulatory and **regulatory indirect tax** matters when the loss is both probable and reasonably estimable. Those accruals represent management's best estimate of probable losses and, in such cases, there may be an exposure to loss in excess of the amounts accrued. For certain of the matters described above, there are inherent and significant uncertainties based on, among other factors, the stage of the proceedings, developments in the applicable facts of law, or the lack of a specific damage claim. However, we believe that the amount of reasonably possible losses in excess of the amounts accrued for those matters would not have a material adverse effect on our business, consolidated financial position, results of operations or cash flows. Our accrued liabilities for loss contingencies related to legal, **regulatory** and **regulatory indirect tax** matters may change in the future as a result of new developments, including, but not limited to, the occurrence of new legal matters, changes in the law or regulatory environment, adverse or favorable rulings, newly discovered facts relevant to the matter, or changes in the strategy for the matter. Regardless of the outcome, litigation and other regulatory matters can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

Indemnifications

In connection with the disposition of our operations in Latin America in 2017, we recorded \$5.4 million in indemnification liabilities for certain tax and other matters upon the closing of the transactions as an adjustment to the net loss on the dispositions within discontinued operations at their fair value. We estimated the indemnification liabilities using a probability-weighted expected cash flow approach. Our remaining indemnification liabilities were \$2.8 million as of **March 31, 2024** **June 30, 2024**. We estimate that the total amount of obligations that are reasonably possible to arise under the indemnifications in excess of amounts accrued as of **March 31, 2024** **June 30, 2024** were approximately \$11.7 million.

In the normal course of business to facilitate transactions related to our operations, we indemnify certain parties, including employees, lessors, service providers, merchants and counterparties to investment agreements

GROUPON, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

and asset and stock purchase agreements with respect to various matters. We have agreed to hold certain parties harmless against losses arising from a breach of representations or covenants, or other claims made against those parties. These agreements may limit the time within which an indemnification claim can be made and the amount of the claim. We are also subject to increased exposure to various claims as a result of our divestitures and acquisitions. We may also become more vulnerable to claims as we expand the range and scope of our services and are subject to laws in jurisdictions where the underlying laws with respect to potential liability are either unclear or less favorable. In addition, we have entered into indemnification agreements with our officers, directors and underwriters, and our bylaws contain similar indemnification obligations that cover officers, directors, employees and other agents.

Except as noted above, it is not possible to determine the maximum potential amount under these indemnification agreements due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement. Historically, any payments that we have made under these agreements have not had a material impact on our operating results, financial position or cash flows.

NOTE 7. STOCKHOLDERS' EQUITY (DEFICIT) AND COMPENSATION ARRANGEMENTS

Groupon, Inc. Incentive Plan

In August 2011, we established the 2011 Plan under which options, RSUs and PSUs for up to 13,775,000 shares of Common Stock are authorized for future issuance to employees, consultants and directors. The 2011 Plan is administered by the Compensation Committee. In June 2024, at the Company's annual meeting of stockholders, the Company's stockholders approved an amendment to the 2011 Plan to increase the number of authorized shares by 7,000,000. Accordingly, a total of 20,775,000 shares of Common Stock have been authorized for issuance under the 2011 Plan. As of March 31, 2024 June 30, 2024, 2,881,548 6,039,229 shares of common stock Common Stock were available for future issuance under the 2011 Plan.

Restricted Stock Units

The RSUs generally have vesting periods between one and four years and are amortized on a straight-line basis over their requisite service period.

The table below summarizes RSU activity for the three six months ended March 31, 2024 June 30, 2024:

RSUs	RSUs	Weighted-Average Grant Date Fair Value (per unit)	RSUs	Weighted-Average Grant Date Fair Value (per unit)
Unvested at December 31, 2023

Unvested at March 31, 2024				
Unvested at June 30, 2024				

As of March 31, 2024 June 30, 2024, \$3.3 million \$7.3 million of unrecognized compensation costs related to unvested RSUs are expected to be recognized over a remaining weighted-average period of 0.54 1.5 years.

Stock Options

On March 30, 2023, we issued 3,500,000 units of stock options with a per share value of \$0.95, a strike price of \$6.00 and vesting over two years. The exercise price of stock options granted is equal to the fair market value of the underlying stock on the date of grant. The contractual term for these stock options expires three years from the grant date. The fair value of stock options on the grant date is amortized on a straight-line basis over the requisite service period.

The fair value of stock options granted is estimated on the date of grant using the Black-Scholes-Merton option-pricing model. Expected volatility is based on Groupon's historical volatility over the estimated expected life of the stock options. The expected term represents the period of time the stock options are expected to be outstanding. The risk-free interest rate is based on yields on U.S. Treasury STRIPS with maturity similar to the estimated expected life of the stock options. The weighted-average assumptions for stock options granted are outlined in the following table:

Dividend yield	0.0 %
Risk-free interest rate	4.1 %
Expected term (in years)	2
Expected volatility	78.2 %

Exercisable at June 30, 2024	1,750,000	\$ 6.00	1.75	\$ 16,275

(1) Consists of 2,187,500 outstanding (unvested) stock options and 875,000 exercisable stock options as of December 31, 2023, as presented within our Annual Report on Form 10-K.

As of **March 31, 2024** **June 30, 2024**, there was **\$1.7** **\$1.2** million of total unrecognized compensation costs related to unvested stock options granted under the 2011 Plan. That cost is expected to be recognized over a weighted-average period of **1.00** **0.75** years. The total fair value of shares vested during the **three** **six** months ended **March 31, 2024** **June 30, 2024** was **\$0.4** **\$0.8** million.

These stock options were granted to our Chief Executive Officer, who is based in the Czech Republic. Taxes on stock options in the Czech Republic are payable upon the sale of the underlying shares. The Company's tax liability is determined by multiplying the applicable tax rate by the difference between the value of the shares underlying the options on the date of exercise and the aggregate exercise price of the options. These taxes will be recognized in the Condensed Consolidated Statement of Operations upon any subsequent sale of the shares acquired upon exercise of the options.

Performance Share Units

We have previously granted PSUs that vest in shares of our common stock Common Stock upon the achievement of financial and operational targets specified in the respective award agreement. Our existing Based on our financial and operational results for the year ended December 31, 2023, 422,368 shares became issuable upon vesting of PSUs following the Compensation Committee's certification in April 2024. In May 2024, we also granted the 2024 Executive PSUs.

The 2024 Executive PSUs may only be earned if certain stock price hurdles are met and the recipient satisfies certain service conditions. The achievement of the stock price hurdles is measured during a period that begins nine months after the award date of May 1, 2024 and ends on May 1, 2027. The 2024 Executive PSUs have four stock price hurdles: \$14.86, \$20.14, \$31.01, and \$68.82. The shares awarded under the 2024 Executive PSU award are divided equally between four tranches corresponding to achievement of each stock price hurdle. Once the stock price hurdle is achieved, a service condition must also be met before the shares will vest. Specifically, the service condition for: (i) 33% of the award will be met after the first anniversary of the award date; (ii) an additional 33% of the award will be met after the second anniversary of the award date; and (ii) the final 34% of the award will be met after the third anniversary of the award date. We determined these awards are subject to a market condition, and therefore used a Monte Carlo simulation to calculate the grant date fair value of the awards and the related derived service period. The three year service condition period exceeds the derived service period and therefore we will recognize the expense over the three year requisite service period. The key inputs used in the Monte Carlo simulation were the risk-free rate of 4.46%, dividend yield of 0.0% and our stock price volatility of 95.73%.

Both our PSUs and the 2024 Executive PSUs are subject to continued service through the period dictated by the award and certification by the Compensation Committee that the specified performance conditions have been achieved. Based on our financial and operational results for the year ended December 31, 2023, 422,363 shares became issuable upon vesting of PSUs following the Compensation Committee's certification in April 2024.

Rights Offering

In November 2023, the Board approved an \$80.0 million fully backstopped Rights Offering to our stockholders of record of our Common Stock, as of the close of business on November 20, 2023.

The Rights Offering was made through the distribution of non-transferable subscription rights to purchase shares of Common Stock at a subscription price of \$11.30 per share and otherwise on such terms and subject to such conditions as may be required to comply with any applicable Nasdaq Global Market stock exchange rules and regulations. The Expiration Date for the subscription period for the Rights Offering ended on January 17, 2024.

The Rights Offering was fully backstopped by Pale Fire Capital SICAV a.s., the Backstop Party, an entity affiliated with (i) Dusan Senkypl, the Company's **Interim** Chief Executive Officer and a member of the Board, and (ii) Jan Barta, a member of the Board. The Backstop Party had a binding commitment to (i) fully exercise its pro rata subscription right prior to the Expiration Date of the Rights Offering and (ii) fully purchase any and all unsubscribed shares in the Rights Offering following the Expiration Date at the same price and on the same terms and conditions as other participants in the Rights Offering.

On January 22, 2024, we announced the closing of our \$80.0 million fully backstopped Rights Offering for shares of our Common Stock, par value \$0.0001 per share.

Pursuant to the terms of the Rights Offering, 7,079,646 shares of Common Stock were purchased at \$11.30 per share, generating \$80.0 million in gross proceeds, less issuance costs incurred. As detailed below, the Rights Offering was oversubscribed, and the subscriptions, inclusive of the exercise of all over-subscription privileges, well exceeded \$80.0 million, the maximum aggregate offering size of the Rights Offering.

Through the exercise of both basic subscription rights and over-subscription privileges, the Backstop Party subscribed for approximately 7.1 million shares and other stockholders subscribed for approximately 9.7 million shares. The Company is issuing 4,574,113 shares of Common Stock via the exercise of the basic subscription rights and 2,505,533 shares of Common Stock via the exercise of over-subscription privileges. The Backstop Party purchased approximately 3.1 million shares of Common Stock in connection with the Rights Offering.

Refer to Note 13, *Segment Information*, for revenue summarized by reportable segment and category for the three and six months ended **March 31, 2024** **June 30, 2024** and 2023.

Customer Credits

We issue credits to customers that can be applied to future purchases through our online marketplaces. Credits are primarily issued as consideration for refunds and, to a lesser extent, for customer relationship purposes. The following table summarizes the activity in the liability for customer credits for the **three** **six** months ended **March 31, 2024** **June 30, 2024** (in thousands):

(1) Customer credits can be redeemed through our online marketplaces for goods or services provided by a third-party merchant and revenue is recognized on a net basis as the difference between the carrying amount of the customer credit liability derecognized and the amount due to the merchant for the related transaction. Customer credits are typically used within one year of issuance.

Costs of Obtaining Contracts

Incremental costs to obtain contracts with third-party merchants, such as sales commissions, are deferred and recognized on a straight-line basis over the expected period of the merchant arrangement, generally from 12 to 18 months. Deferred contract acquisition costs are presented in Prepaid expenses and other current assets and Other non-current assets on the Condensed Consolidated Balance Sheets. As of **March 31, 2024** **June 30, 2024** and December 31, 2023, deferred contract acquisition costs were **\$3.7 million** **\$3.6 million** and \$3.9 million.

The amortization of deferred contract acquisition costs is classified within Selling, general and administrative expense in the Condensed Consolidated Statements of Operations. We amortized \$1.5 million and **\$2.3 million** **\$2.1 million** of deferred contract acquisition costs for the three months ended **March 31, 2024** **June 30, 2024** and 2023 and \$3.0 million and \$4.4 million for the six months ended **June 30, 2024** and 2023.

Allowance for Expected Credit Losses on Accounts Receivable

Accounts receivable primarily represents the net cash due from credit card and other payment processors and from merchants and performance marketing networks for commissions earned on consumer purchases. The carrying amount of receivables is reduced by an allowance for expected credit losses that reflects management's best estimate of amounts that will not be collected. We establish an allowance for expected credit losses on accounts receivable based on identifying the following customer risk characteristics: size, type of customer and payment terms offered in the normal course of business. Receivables with similar risk characteristics are grouped into pools. For each pool, we consider the historical credit loss experience, current economic conditions,

Variable Consideration for Unredeemed Vouchers

For merchant agreements with redemption payment terms, the merchant is not paid its share of the sale price for a voucher sold through one of our online marketplaces until the customer redeems the related voucher. If the customer does not redeem a voucher with such merchant payment terms, we retain all of the gross billings for that voucher, rather than retaining only our net commission. We estimate the variable consideration from vouchers that will not ultimately be redeemed using our historical voucher redemption experience and recognize that amount as revenue at the time of sale. We apply a constraint to ensure it is probable that a significant reversal of revenue will not occur in future periods. We recognized variable consideration from unredeemed vouchers that were sold in a prior period of **\$4.1 million** **\$7.5 million** and **\$4.7 million** for the three months ended **March 31, 2024** **June 30, 2024** and an immaterial amount 2023, and **\$10.1 million** and **\$4.4 million** for the **three** **six** months ended **March 31, 2023**, **June 30, 2024** and 2023. When actual redemptions differ from our estimates, the effects could be material to the Condensed Consolidated Financial Statements.

NOTE 9. RESTRUCTURING AND RELATED CHARGES

In August 2022 and April 2020, we initiated Board-approved restructuring plans. Costs incurred related to the restructuring plans are classified as Restructuring and related charges (credits) on the Condensed Consolidated Statements of Operations. The restructuring activities are summarized by plan in the sections below.

2022 Restructuring Plan

In August 2022, we initiated the 2022 Cost Savings Plan, a multi-phase cost savings plan designed to reduce our expense structure to align with our go-forward business and financial objectives. The 2022 Cost Savings Plan included the 2022 Restructuring Plan, approved by our Board in August 2022. The 2022 Restructuring Plan, including the first phase initiated August 2022, second phase initiated January 2023 and the third phase initiated July 2023 is expected to include an overall reduction of approximately 1,150 positions globally through natural attrition or involuntary termination. The majority of these reductions were completed as of March 31, 2023 and the remainder expected to occur by the end of 2024. In connection with these actions, we expect to record We have incurred total pre-tax charges of \$22.0 million to \$24.1 million. \$21.3 million since the inception of the 2022 Restructuring Plan. A majority of the pre-tax charges have been paid in cash and relate to employee severance and compensation benefits, with an immaterial amount of charges related to other exit costs. We have incurred total pre-tax charges of \$21.2 million since the inception of the 2022 Restructuring Plan.

As part of our 2020 Restructuring Plan, we terminated, vacated or modified several of our leases. In January 2023, we exercised our option to early terminate our lease at 600 West Chicago that expired in January 2024, which required us to pay a fee of \$9.6 million with our early termination notice. As of **March 31, 2024** **June 30, 2024**, all of our leases that were part of the 2020 Restructuring Plan have expired or have been terminated. For the three and six months ended **March 31, 2024** **June 30, 2024**, our restructuring activity related to those leases had immaterial activity. Rent expense, including amortization of the right-of-use asset and accretion of the operating lease liability, sublease income, termination and modification gains and losses, and other variable lease costs related to the leased facilities vacated as part of our 2020 Restructuring Plan are presented within Restructuring and related charges (credits) in the Condensed Consolidated Statements of Operations. As of **March 31, 2023** **June 30, 2023**, the current and non-current liabilities associated with these leases were presented within Accrued expenses and other current liabilities and Operating lease obligations in the Condensed Consolidated Balance Sheets.

NOTE 10. INCOME TAXES

Our income tax provision for interim periods is determined using an estimate of our annual effective tax rate, adjusted for discrete items.

Provision (benefit) for income taxes and Income (loss) before provision (benefit) for income taxes for the three and six months ended **March 31, 2024** **June 30, 2024** and 2023 were as follows (in thousands):

	Three Months Ended March 31,	
	2024	2023
Provision (benefit) for income taxes	\$ 6,194	\$ 1,118
Income (loss) before provision (benefit) for income taxes	\$ (5,312)	\$ (27,495)

--	-----------------------------	---------------------------

	2024	2023	2024	2023
Provision (benefit) for income taxes	\$ 9,287	\$ 2,323	\$ 15,481	\$ 3,441
Income (loss) before provision (benefit) for income taxes	\$ (125)	\$ (9,681)	\$ (5,437)	\$ (37,176)

Our U.S. Federal income tax rate is 21%. The primary factor impacting the effective tax rate for the three and six months ended **March 31, 2024** **June 30, 2024** and 2023 was the pretax losses incurred in jurisdictions that have valuation allowances against their net deferred tax assets. For the three and six months ended **March 31, 2024** **June 30, 2024** and 2023, we continue to maintain a full valuation allowance against all U.S. federal and state deferred tax assets. We expect that our consolidated effective tax rate in future periods will continue to differ significantly from the U.S. federal income tax rate as a result of our tax obligations in jurisdictions with profits and valuation allowances in jurisdictions with losses.

We are currently under audit by several foreign jurisdictions. It is likely that the examination phase of some of those audits will conclude in the next 12 months. There are many factors, including factors outside of our control, which influence the progress and completion of those audits. We are subject to claims for tax assessments by foreign jurisdictions, including a proposed assessment for **\$119.3** **\$120.4** million, inclusive of estimated incremental interest from the original Assessment. The subsidiary subject to the Assessment is Groupon S.r.l., one of the Company's Italian subsidiaries with operations relating specifically to the local voucher business in Italy. In December 2023, Groupon S.r.l. received an unfavorable ruling at the lowest court level, but lodged a second-level appeal, based on what it believes to be meritorious defenses to the Assessment. Additionally, Groupon S.r.l. requested a suspension of provisional payment demands of approximately **\$79.8** **\$81.9** million. On April 9, 2024,

Groupon S.r.l.'s payment suspension request was denied with an expedited hearing date of July 9, 2024, set for the second-level appeal. The hearing originally scheduled for July 9, 2024 has been rescheduled by the court until September 24, 2024. After the suspension denial, Groupon S.r.l. is required to post a bond of approximately **\$27.6** **\$30.0** million, due immediately, and unless the appeal has been resolved in Groupon S.r.l.'s favor by October 22, 2024, an additional **\$52.2** **\$51.9** million will be required to be posted on or before that date. As a result of the immediate payment demands, a lien has been placed on Groupon S.r.l.'s bank account. In May 2024 Groupon S.r.l. entered into an installment plan for the approximately **\$30.0** million currently due and the bank account which currently restricts outgoing payments from such account. lien was removed. The related cash is no longer classified as restricted cash in our Condensed Consolidated Balance Sheets as of **March 31, June 30, 2024**. We believe the denial of the suspension request has no impact on the merits of Groupon S.r.l.'s appeal of the Assessment, therefore, the Company continues to believe that the Assessment, which primarily relates to transfer pricing on transactions occurring in 2011, is without merit. Groupon S.r.l. continues to vigorously defend itself in this matter and believes it will prevail on the merits of the case. Additionally, unrelated to this matter, in **February** **July** 2024, Groupon S.r.l. received a proposed assessment final assessments of approximately **\$31.6** **\$31.5** million related to a 2017 distribution made to its parent entity. We believe this assessment is also without merit and Groupon S.r.l. intends to vigorously defend against such assessment. No liability has been recorded for either tax assessment matter. In addition to any potential increases in our liabilities for uncertain tax positions from the ultimate resolution of these assessments, we believe it is reasonably possible that reductions of up to **\$4.2** **\$5.5** million in unrecognized tax benefits may occur within the 12 months following **March 31, 2024** **June 30, 2024** upon closing of income tax audits or the expiration of applicable statutes of limitations.

In general, it is our practice and intention to reinvest the earnings of our non-U.S. subsidiaries in those operations or remit such earnings in a tax-efficient manner. Additionally, an actual repatriation from our non-U.S. subsidiaries could be subject to foreign and U.S. state income taxes. Aside from limited exceptions for which the related deferred tax liabilities recognized as of **March 31, 2024** **June 30, 2024** and December 31, 2023 are immaterial, we do not intend to distribute earnings of foreign subsidiaries for which we have an excess of the financial reporting basis over the tax basis of our investments and therefore have not recorded any deferred taxes related to such amounts. The actual tax cost resulting from a distribution would depend on income tax laws and circumstances at the time of distribution. Determination of the amount of unrecognized deferred tax liability related to the excess of the financial reporting basis over the tax basis of our foreign subsidiaries is not practical due to the complexities associated with the calculation.

NOTE 11. FAIR VALUE MEASUREMENTS

Fair value is defined under GAAP as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or a liability.

In determining fair value, we use valuation approaches within the fair value measurement framework. We have fair value option investments and available-for-sale securities that we measure using the income approach. We have classified these investments as Level 3 due to the lack of observable market data over fair value inputs such as cash flow projections and discount rates.

There was no material activity in the fair value of recurring Level 3 fair value measurements for the three and six months ended **March 31, 2024** **June 30, 2024** and 2023.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis, including assets that are written down to fair value as a result of an impairment or modified due to an observable price change in an orderly transaction.

We did not record any significant nonrecurring fair value measurements for the three and six months ended **March 31, 2024** **June 30, 2024** and 2023.

GROUPON, INC.

Estimated Fair Value of Financial Assets and Liabilities Not Measured at Fair Value

Our financial instruments not carried at fair value consist primarily of accounts receivable, restricted cash, short-term borrowings, accounts payable, accrued merchant and supplier payables and accrued expenses. The carrying values of those assets and liabilities approximate their respective fair values as of **March 31, 2024** **June 30, 2024** and December 31, 2023 due to their short-term nature.

NOTE 12. INCOME (LOSS) PER SHARE

Basic net income (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per share is computed using the weighted-average number of common shares and the effect of potentially dilutive securities outstanding during the period. Potentially dilutive securities include stock options, RSUs, PSUs, ESPP shares, convertible senior notes and capped call transactions. If dilutive, those potentially dilutive securities are reflected in diluted net income (loss) per share using the treasury stock method, except for the convertible senior notes, which are subject to the if-converted method.

(1) We apply the if-converted method in computing the effect of our convertible senior notes on diluted net income (loss) per share, whereby the numerator of our diluted net income (loss) per share computations is adjusted for interest expense, net of tax, and the denominator is adjusted for the number of shares into which the convertible senior notes could be converted. The effect is only included in the calculation of income (loss) per share for those instruments for which it would reduce income (loss) per share. See Note 5, *Financing Arrangements*, for additional information.

As of June 30, 2024 there were up to 3,537,145 shares of Common Stock issuable upon vesting of outstanding 2024 Executive PSUs that were excluded from the table above as the shares are not eligible to vest until the beginning of the measurement period, which is nine months after the award date of May 1, 2024.

NOTE 13. SEGMENT INFORMATION

The segment information reported in the tables below reflects the operating results that are regularly reviewed by our chief operating decision maker to assess performance and make resource allocation decisions. Our operations are organized into two segments: North America and International. Our measure of segment profitability is contribution profit, defined as gross profit less marketing expense, which is consistent with how management reviews the operating results of the segments. Contribution profit measures the amount of marketing investment needed to generate gross profit. Other operating expenses are excluded from contribution profit as management does not review those expenses by segment.

The following table summarizes revenue by reportable segment and category for the three and six months ended March 31, 2024, June 30, 2024 and 2023 (in thousands):

NOTE 14. SUBSEQUENT EVENTS

Italy Restructuring

As previously disclosed on Form 8-K filed with the SEC on April 15, 2024, in connection with a local tax assessment in Italy, which is further described in Note 10, *Income Taxes*, the Company has been evaluating its options regarding operations in Italy. In April 2024, Groupon S.r.l. paused the sale of local vouchers in Italy.

In July 2024, Groupon S.r.l.'s Board approved the exit of the local business in Italy and the related restructuring actions associated with the exit. We expect to incur total pre-tax charges of up to \$7.0 million in connection with these restructuring actions. The restructuring actions are expected to include an overall reduction of approximately 33 positions, with the majority of these reductions and payments expected to occur by the end of 2024. Additionally, as a result of these actions, it is possible that a valuation allowance against Groupon S.r.l.'s deferred tax assets may be needed in the future.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our Condensed Consolidated Financial Statements and related notes included under Part I, Item 1 of this Quarterly Report on Form 10-Q. This discussion contains forward-looking statements about our business and operations. Our actual results may differ materially from those we currently anticipate as a result of many factors, including those we describe under Part II, Item 1A, *Risk Factors*, and elsewhere in this Quarterly Report. See Part I, *Forward-Looking Statements*, for additional information.

Overview

Groupon is a global scaled two-sided marketplace that connects consumers to merchants. Consumers access our marketplace through our mobile applications and our websites. We operate in two segments, North America and International, and operate in three categories, Local, Goods and Travel. See Item 1, Note 13, *Segment Information*, for additional information.

Our strategy is to be the trusted marketplace where customers go to buy local services and experiences. We plan to grow our revenue by building long-term relationships with local merchants to strengthen our inventory selection and by enhancing the customer experience through inventory curation and improved convenience in order to drive customer demand and purchase frequency.

We generate service revenue from Local, Goods and Travel categories. Revenue primarily represents the net commissions earned from selling goods or services on behalf of third-party merchants. Revenue is reported on a net basis as the purchase price collected from the customer less the portion of the purchase price that is payable to the third-party merchant. We also earn commissions when customers make purchases with retailers using digital coupons accessed through our websites and mobile applications.

2022 Cost Savings Plan

In August 2022, we initiated the 2022 Cost Savings Plan, including the first phase in August 2022, the second January 2023 and the third July 2023, which is designed to reduce our expense structure and align with our go-forward business and financial objectives. The 2022 Cost Savings Plan included the 2022 Restructuring Plan, as well as other planned savings to be achieved through other actions, such as future reductions in our facilities footprint at natural lease terminations (or by exercising existing options in leases), renegotiating contractual arrangements with certain service providers and continuing to make elective decisions to eliminate vacant positions rather than rehire. The 2022 Restructuring Plan is expected to include an overall reduction of approximately 1,150 positions globally, with the majority of these reductions completed as of March 31, 2023 and the remainder expected to occur by the end of 2024. In connection with these actions, we expect to record We have incurred total pre-tax pretax charges of \$22.0 million to \$24.1 million. \$21.3 million since the inception of the 2022 Restructuring Plan. A majority of the pre-tax charges have been paid in cash and relate to employee severance and compensation benefits, with an immaterial amount of charges related to other exit costs. We have incurred total pretax charges of \$21.2 million since the inception of the 2022 Restructuring Plan. See Item 1, Note 9, *Restructuring and Related Charges*, for additional information.

How We Measure Our Business

We use several operating and financial metrics to assess the progress of our business and make decisions on where to allocate capital, time and technology investments. Certain of the financial metrics are reported in accordance with GAAP and certain of those metrics are considered non-GAAP financial measures. As our business evolves, we may make changes to the key financial and operating metrics that we use to measure our business. For further information and reconciliations to the most applicable financial measures under GAAP, refer to our discussion under Non-GAAP Financial Measures in the *Results of Operations* section.

Operating Metrics

- *Gross billings* is the total dollar value of customer purchases of goods and services. Gross billings is presented net of customer refunds, order discounts and sales and related taxes. The substantial majority of our revenue transactions are comprised of sales of vouchers and similar transactions in which we collect the transaction price from the customer and remit a portion of the transaction price to the third-party merchant who will provide the related goods or services. For these transactions, gross billings differs from Revenue reported in our Condensed Consolidated Statements of Operations, which is presented net of the merchant's share of the transaction price. Gross billings is an indicator of our growth and business performance as it measures the dollar volume of transactions generated through our marketplaces. Tracking gross billings also allows us to monitor the percentage of gross billings that we are able to retain after payments to merchants. However, we are focused on achieving long-term gross profit and Adjusted EBITDA growth.
- *Units* are the number of purchases during the reporting period, before refunds and cancellations, made either through one of our online marketplaces, a third-party marketplace, or directly with a merchant for which we earn a commission. We do not include purchases with retailers using digital coupons accessed through our websites or mobile applications in our units metric. We consider units to be an important indicator of the total volume of business conducted through our marketplaces. We report units on a gross basis prior to the consideration of customer refunds and therefore units are not always a good proxy for gross billings.
- *Active customers* are unique user accounts that have made a purchase during the TTM either through one of our online marketplaces or directly with a merchant for which we earned a commission. We consider this metric to be an important indicator of our business performance as it helps us to understand how the number of customers actively purchasing our offerings is trending. Some customers could establish and make purchases from more than one account, so it is possible that our active customer metric may count certain customers more than once in a given period. We do not include consumers who solely make purchases with retailers using digital coupons accessed through our websites or mobile applications in our active customer metric, nor do we include consumers who solely make purchases of our inventory through third-party marketplaces with which we partner.

Financial Metrics

- Revenue is earned through transactions on which we generate commissions by selling goods or services on behalf of third-party merchants. Revenue from those transactions is reported on a net basis as the purchase price collected from the customer for the offering less an agreed upon portion of the purchase

price paid to the third-party merchant. Revenue also includes commissions we earn when customers make purchases with retailers using digital coupons accessed through our digital properties.

- Gross profit reflects the net margin we earn after deducting our Cost of revenue from our Revenue.
- Adjusted EBITDA is a non-GAAP financial measure that we define as Net income (loss) from operations excluding income taxes, interest and other non-operating items, depreciation and amortization, stock-based compensation and other special charges and credits, including items that are unusual in nature or infrequently occurring. For further information and a reconciliation to Net income (loss), refer to our discussion under Non-GAAP Financial Measures in the *Results of Operations* section.
- Free cash flow is a non-GAAP financial measure that comprises Net cash provided by (used in) operating activities less purchases of property and equipment and capitalized software. For further information and a reconciliation to Net cash provided by (used in) operating activities, refer to our discussion in the *Liquidity and Capital Resources* section below.

The following table presents the above financial metrics for the three and six months ended March 31, 2024 June 30, 2024 and 2023 (in thousands):

Operating Expenses						

- *Marketing expense* consists primarily of online marketing costs, such as search engine marketing and advertising on social networking sites and affiliate programs. Additionally, compensation expense for marketing employees is classified within marketing expense. We record these costs within Marketing on the Condensed Consolidated Statements of Operations when incurred. From time to time, we have offerings from well-known national merchants for customer acquisition and activation purposes, for which the amount we owe the merchant for each voucher sold exceeds the transaction price paid by the customer. Our gross billings from those transactions generate no revenue and our net cost (i.e., the excess of the amount owed to the merchant over the amount paid by the customer) is classified as marketing expense. We evaluate marketing expense as a percentage of gross profit because it gives us an indication of how well our marketing spend is driving gross profit performance.
- SG&A expenses include selling expenses such as sales commissions and other compensation expenses for sales representatives, as well as costs associated with supporting the sales function such as technology, telecommunications and travel. General and administrative expenses include compensation expense for employees involved in customer service, operations, technology and product development, as well as general corporate functions, such as finance, legal and human resources. Additional costs in general and administrative include depreciation and amortization, rent, professional fees, litigation costs, travel and entertainment, recruiting, maintenance, certain technology costs and other general corporate costs. We evaluate SG&A expense as a percentage of gross profit because it gives us an indication of our operating efficiency.
- *Restructuring and related charges (credits)* represent severance and benefit costs for workforce reductions, impairments and other facilities-related costs and professional advisory fees. See Item 1, Note 9, *Restructuring and Related Charges*, for additional information about our restructuring plans.

Factors Affecting Our Performance

Attracting and retaining local merchants. As we focus on our local experiences marketplace, we depend on our ability to attract and retain merchants who are willing to offer their experiences on our platform. Merchants can withdraw their offerings from our marketplace at any time, and their willingness to continue offering services through our marketplace depends on the effectiveness of our marketplace offering. We are focused on improving our marketplace offering and merchant value proposition by exploring opportunities to better balance the needs of merchant partners, customers and Groupon, for example, by offering flexible deal structures.

Acquiring and retaining customers. To acquire and retain customers to drive higher volumes on our platform from new and existing customers, we are focused on strengthening our product offering, improving the attractiveness of our offerings, and rebuilding our performance marketing campaigns.

Impact of macroeconomic conditions. We have been, and may continue to be, impacted by adverse consequences of the macroeconomic environment, including but not limited to, inflationary pressures, higher labor costs, labor shortages, supply chain challenges and resulting changes in consumer and merchant behavior. We will continue to monitor the impact of macroeconomic conditions on our business.

Comparison of the Three Months Ended March 31, 2024 June 30, 2024 and 2023:

North America gross billings increased by \$6.8 million \$3.1 million while units and TTM active customers decreased by 0.4 million 0.1 million and 0.7 million 0.4 million for the three months ended March 31, 2024 June 30, 2024 compared with the prior year period. The increase in gross billings is primarily due to favorable refund rates and an increase in demand for our Travel category and favorable refund rates for our Local category. This was partially offset by a decline in demand for our Goods and Local categories, category, which resulted in fewer unit sales and TTM active customers.

Comparison of the Six Months Ended June 30, 2024 and 2023:

North America gross billings increased by \$9.9 million while units decreased 0.5 million for the six months ended June 30, 2024 compared with the prior year period. The increase in gross billings is primarily due to favorable refund rates for our Local category and an increase in demand for our Travel category. This was partially offset by a decline in demand for our Goods category, which resulted in fewer unit sales.

Comparison of the Three Months Ended **March 31, 2024** **June 30, 2024** and **2023**:

North America revenue and gross profit increased by \$4.9 million and \$2.5 million and \$8.2 million and \$5.8 million while cost of revenue decreased \$3.3 million for the three months ended March 31, 2024 June 30, 2024 compared with the prior year period. The increase in revenue and gross profit is primarily due to favorable refund rates and an increase in demand for our Travel category and favorable refund rates for our Local category, partially offset by a decline in demand for our Goods and Local categories. The decrease in cost of revenue is primarily due to a decrease in payroll costs.

Comparison of the Six Months Ended June 30, 2024 and 2023:

North America revenue and gross profit increased by \$7.4 million and \$14.0 million while cost of revenue decreased \$6.6 million for the six months ended June 30, 2024 compared with the prior year period. The increase in revenue and gross profit is primarily due to favorable refund rates for our Local category and an increase in demand for our Travel category, partially offset by a decline in demand for our Goods category. The decrease in cost of revenue is primarily due to a decrease in payroll costs.

Marketing and Contribution Profit

We define contribution profit as gross profit less marketing expense. North America marketing and contribution profit for the three and six months ended March 31, 2024 June 30, 2024 and 2023 was as follows (in thousands):

International gross billings, units and TTM active customers decreased by **\$22.1 million** **\$23.0 million**, 1.0 million and **1.4 million** **1.3 million** for the three months ended **March 31, 2024** **June 30, 2024** compared with the prior year period. These declines were primarily attributable to an overall decline in demand for across all categories. The Local category decrease was also partially attributable to the pause of our Local Goods and Travel categories business in Italy. In addition, there was a **\$2.1 million** **\$0.3 million** unfavorable impact on gross billings from year-over-year changes in foreign currency exchange rates.

Comparison of the Six Months Ended June 30, 2024 and 2023:

International gross billings and units decreased by **\$45.0 million** and **1.9 million** for six months ended June 30, 2024 compared with the prior year period. These declines were primarily attributable to an overall decline in demand across all categories. The Local category decrease was also partially attributable to the pause of our Local business in Italy. In addition, there was a **\$1.8 million** favorable impact on gross billings from year-over-year changes in foreign currency exchange rates.

Effective tax rate

Effective tax rate

Effective tax rate

Comparison of the Three and Six Months Ended March 31, 2024 June 30, 2024 and 2023:

The effective tax rates for the three and six months ended March 31, 2024 June 30, 2024 and 2023 were impacted by pretax losses incurred in jurisdictions that have valuation allowances against their net deferred tax assets. For the three and six months ended March 31, 2024 June 30, 2024 and 2023, we continue to maintain a full valuation allowance against all U.S. federal and state deferred tax assets. We expect that our consolidated effective tax rate in future periods will continue to differ significantly from the U.S. federal income tax rate as a result of our tax obligations in jurisdictions with profits and valuation allowances in jurisdictions with losses. See Item 1, Note 10, *Income Taxes*, for additional information relating to tax audits and assessments and regulatory and legal developments that may impact our business and results of operations in the future.

Non-GAAP Financial Measures

In addition to financial results reported in accordance with GAAP, we have provided the following non-GAAP financial measures: Adjusted EBITDA, free cash flow and foreign currency exchange rate neutral operating results. Those non-GAAP financial measures are intended to aid investors in better understanding our current financial performance and prospects for the future as seen through the eyes of management. We believe that those non-GAAP financial measures facilitate comparisons with our historical results and with the results of peer companies who present similar measures (although other companies may define non-GAAP measures differently than we define them, even when similar terms are used to identify such measures). However, those non-GAAP financial measures are not intended to be a substitute for those reported in accordance with GAAP.

Adjusted EBITDA. Adjusted EBITDA is a non-GAAP performance measure that we define as Net income (loss) excluding income taxes, interest and other non-operating items, depreciation and amortization, stock-based compensation and other special charges and credits, including items that are unusual in nature or infrequently occurring. Our definition of Adjusted EBITDA may differ from similar measures used by other companies, even when similar terms are used to identify such measures. Adjusted EBITDA is a key measure used by our management and Board to evaluate operating performance, generate future operating plans and make strategic decisions for the allocation of capital. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and Board. However, Adjusted EBITDA is not intended to be a substitute for Net income (loss).

We exclude stock-based compensation expense and depreciation and amortization because they are primarily non-cash in nature and we believe that non-GAAP financial measures excluding those items provide meaningful supplemental information about our operating performance and liquidity. For the three and six months ended March 31, 2024 June 30, 2024 and 2023, special charges and credits included charges related to our 2022 and 2020 Restructuring Plans, Gain on sale of assets and Foreign VAT assessments. We exclude special charges and credits from Adjusted EBITDA because we believe that excluding those items provides meaningful supplemental information about our core operating performance and facilitates comparisons with our historical results. For the Foreign VAT assessments, we also considered the fact we ceased operations in Portugal in 2016 and it is not part of our ongoing business. Since we ceased operations, we have not engaged in any revenue-generating or payroll-related activity and do not intend to engage in these activities in Portugal in the future.

The following is a reconciliation of Adjusted EBITDA to the most comparable GAAP financial measure, Net income (loss), for the three and six months ended March 31, 2024 June 30, 2024 and 2023 (in thousands):

Free cash flow. Free cash flow is a non-GAAP liquidity measure that comprises Net cash provided by (used in) operating activities less purchases of property and equipment and capitalized software. We use free cash flow to conduct and evaluate our business because, although it is similar to cash flow, we believe that it typically represents a more useful measure of cash flows because purchases of fixed assets, software developed for internal use and website development costs are necessary components of our ongoing operations. Free cash flow is not intended to represent the total increase or decrease in our cash balance for the applicable period.

Free cash flow has limitations due to the fact that it does not represent the residual cash flow available for discretionary expenditures. In addition, free cash flow reflects the impact of the timing difference between when we are paid by customers and when we pay merchants and

suppliers. Therefore, we believe it is important to view free cash flow as a complement to our Condensed Consolidated Statements of Cash Flows. For a reconciliation of free cash flow to the most comparable GAAP financial measure, see *Liquidity and Capital Resources* below.

Foreign currency exchange rate neutral operating results. Foreign currency exchange rate neutral operating results show current period operating results as if foreign currency exchange rates had remained the same as those in effect in the prior year period. Those measures are intended to facilitate comparisons to our historical performance.

The following tables represent the effect on our Condensed Consolidated Statements of Operations from changes in exchange rates versus the U.S. dollar for the three and six months ended **March 31, 2024** **June 30, 2024** (in thousands):

Liquidity and Capital Resources

Our principal source of liquidity is our cash balance totaling **\$158.7 million** **\$178.1 million** as of **March 31, 2024** **June 30, 2024**. The Company's cash requirements are subject to change as business conditions warrant and opportunities arise. Most recently, in April 2024, the Company received an unfavorable ruling related to a tax assessment for one of its **subsidiaries**. **subsidiaries** that is currently being appealed. The Company does not expect the tax assessment to result in

financial exposure that exceeds the assets of Groupon S.r.l. nor do we expect any related developments to impact the ability of the Company to meet its obligations outside of Groupon S.r.l. See Item 1, Note 10, *Income Taxes* for additional information. Additionally, with the recent Rights Offering and debt prepayment and termination of our Credit Agreement in the three months ended March 31, 2024, February 2024, we believe that the Company has sufficient liquidity to support its overall ongoing operational needs within the next 12 months.

Our net cash flows from operating, investing and financing activities for the three and six months ended March 31, 2024 June 30, 2024 and 2023 were as follows (in thousands):

Our free cash flow for the three and six months ended March 31, 2024 June 30, 2024 and 2023 and a reconciliation to the most comparable GAAP financial measure, Net cash provided by (used in) operating activities, for those periods were as follows (in thousands):

Free cash flow
Free cash flow
Free cash flow

Our revenue-generating transactions are primarily structured such that we collect cash up-front from customers and pay third-party merchants at a later date, either based upon the customer's redemption of the related voucher or fixed payment terms, which are generally biweekly, throughout the term of the merchant's offering.

Our cash balances fluctuate significantly throughout the year based on many variables, including changes in gross billings, the timing of payments to merchants and suppliers and the mix of transactions between Goods, Travel and Local.

Net cash provided by (used in) operating activities

For the **three six** months ended **March 31, 2024** **June 30, 2024**, our **net cash provided by operating activities** was **\$5.2 million** as compared with **net cash used in operating activities** was **\$10.1 million** as compared with **\$118.6 million** in the prior **year period** of **\$76.3 million**. The improved cash outflow in the three months ended **March 31, 2024** has improved compared to the prior year period flow from operating activities is primarily due to our cost cutting measures as a result of the impacts of our 2022 Restructuring Plan.

Net cash provided by (used in) investing activities

For the **three six** months ended **March 31, 2024** **June 30, 2024**, our **net cash cash provided by investing activities** was **\$0.4 million** as compared with **net cash used in investing activities** was **\$3.9 million** as compared with **\$11.5 million** in the prior **year period** period. The improved cash flow from investing activities is primarily due to **\$9.1 million** of **\$9.0 million**. The year-over-year change was primarily driven by net proceeds from the sale intangible assets and fewer purchases of property and equipment and capitalized software during the **three six** months ended **March 31, 2024** **June 30, 2024**.

Net cash provided by (used in) financing activities

For the **three six** months ended **March 31, 2024** **June 30, 2024**, our **net cash provided by financing activities** was **\$35.3 million** **\$33.6 million** as compared with **net cash used in financing activities** of **\$29.2 million** **\$32.1 million** in the prior **period** period. The improved cash flow from financing activities is primarily due to **\$79.6 million** **\$79.6 million** of proceeds received from the Rights Offering, partially offset by an increase of **\$15.5 million** **\$14.5 million** in payments of borrowings under our revolving credit facility.

In January 2024, we announced the closing of our \$80.0 million fully backstopped Rights Offering for shares of our Common Stock. Pursuant to the terms of the Rights Offering, 7,079,646 shares of Common Stock were purchased at \$11.30 per share, generating \$80.0 million in gross proceeds to the Company. See Item 1, Note 7, *Stockholders' Equity (Deficit) and Compensation Arrangements*, for additional information.

In February 2024, we prepaid \$43.1 million to terminate all commitments to access further credit under the Credit Agreement using a portion of the \$80.0 million in proceeds received from the Rights Offering. The terms of the Rights Offering permit the Company to use the proceeds for general corporate purposes, including the repayment of debt. We were not subject to any early termination penalties under the Credit Agreement. The payment of the Payoff Amount terminated our obligations under the Credit Agreement, except for ordinary and customary survival terms. In addition, we retained access to letters of credit, originally available under the Credit Agreement. See Item 1, Note 5, *Financing Arrangements*, for additional information.

In 2021, the Company issued the 2026 Notes in the principal amount of \$230.0 million, which mature on March 15, 2026. In advance of that maturity date, the Company currently is exploring options and potential transactions to retire or refinance the notes, including retiring a portion of the notes and refinancing the balance. If it were decided to pursue a refinancing transaction, no assurances can be given that the Company will be able to consummate any such refinancing transaction.

As of **March 31, 2024** **June 30, 2024**, we had **\$49.5 million** **\$53.0 million** in cash held by our international subsidiaries, which is primarily denominated in Euros, British Pounds Sterling, Canadian dollars, Indian Rupees, Polish Zloty, Swiss Franc, and, to a lesser extent, Australian dollars. In general, it is our practice and intention to re-invest the earnings of our non-U.S. subsidiaries in those operations or remit such

earnings in a tax-efficient manner. We have not, nor do we anticipate the need to, repatriate funds to the United States to satisfy domestic liquidity needs arising in the ordinary course of business.

Contractual Obligations and Commitments

Our contractual obligations and commitments as of **March 31, 2024** **June 30, 2024**, did not materially change from the amounts set forth in our 2023 Annual Report on Form 10-K.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of **March 31, 2024** **June 30, 2024**.

Significant Accounting Policies and Critical Accounting Estimates

The preparation of Condensed Consolidated Financial Statements requires management to make estimates and assumptions that affect the reported amounts and classifications of assets and liabilities, revenue and expenses, and related disclosure of contingent liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with GAAP. Our significant accounting policies are discussed in Part II, Item 8, Note 2, *Summary of Significant Accounting Policies* in our Annual Report on Form 10-K for the year ended December 31, 2023. In addition, refer to the critical accounting estimates under Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our Annual Report on Form 10-K for the year ended December 31, 2023.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have operations both within the United States and internationally, and we are exposed to market risks in the ordinary course of our business, including the effect of foreign currency fluctuations, interest rate changes and inflation. Information relating to quantitative and qualitative disclosures about these market risks is set forth below.

Foreign Currency Exchange Risk

We transact business in various foreign currencies other than the U.S. dollar, principally the Euro, British Pound Sterling, Canadian dollar, Indian Rupee, Polish Zloty, Swiss Franc, and, to a lesser extent, Australian dollar, which exposes us to foreign currency risk. For the three and six months ended **March 31, 2024** **June 30, 2024**, we derived approximately **23.5%** **21.1%** and **22.3%** of our revenue from our International segment. Revenue and related expenses generated from our international operations are generally denominated in the local currencies of the corresponding countries. The functional currencies of our subsidiaries that either operate or support these markets are generally the same as the corresponding local currencies. However, the results of operations of, and certain of our intercompany balances associated with, our international operations are exposed to foreign currency exchange rate fluctuations. Upon consolidation, as exchange rates vary, our revenue and other operating results may differ materially from expectations, and we may record significant gains or losses on the re-measurement of intercompany balances.

We assess our foreign currency exchange risk based on hypothetical changes in rates utilizing a sensitivity analysis that measures the potential impact on working capital based on a 10% change (increase and decrease) in currency rates. We use a current market pricing model to assess the changes in the value of the U.S. dollar on foreign currency denominated monetary assets and liabilities. The primary assumption used in this model is a hypothetical 10% weakening or strengthening of the U.S. dollar against those currency exposures as of **March 31, 2024** **June 30, 2024** and December 31, 2023.

As of **March 31, 2024** **June 30, 2024**, our net working capital deficit (defined as current assets less current liabilities) from subsidiaries that are subject to foreign currency translation risk was **\$2.6 million** **\$7.2 million**. The potential increase in this working capital deficit from a hypothetical 10% adverse change in quoted foreign currency exchange rates would be **\$0.3 million** **\$0.7 million**. This compares with a \$21.7 million working capital deficit subject to foreign currency exposure as of December 31, 2023, for which a 10% adverse change would have resulted in a potential increase in this working capital deficit of \$2.2 million.

Interest Rate Risk

Our cash balance as of **March 31, 2024** **June 30, 2024**, consists of bank deposits so exposure to market risk for changes in interest rates is limited. The 2026 Notes have an aggregate principal amount of \$230.0 million and bear interest at a fixed rate, so we have no financial statement impact from changes in interest rates. However, changes in market interest rates impact the fair value of the 2026 Notes along with other variables such as our credit spreads and the market price and volatility of our Common Stock. See Item 1, Note 5, *Financing Arrangements*, for additional information. We have **\$6.2 million** **\$5.4 million** of lease obligations as of **March 31, 2024** **June 30, 2024**. Interest rates on existing leases typically do not change unless there is a modification to a lease agreement and as such, we do not believe that the interest rate risk on the lease obligations is significant.

Inflation Risk

In light of the current inflationary environment, our business is being affected by changes to our merchants' and customers' discretionary spend. We expect such discretionary spend limitations to continue, and if we do not see increased overall demand for discounted goods and services to help offset these limitations on individual merchants and customers, our business, financial condition and results of operations could be adversely impacted. Additionally, increased inflation could negatively impact our business by driving up our operating costs. Our costs are subject to inflationary pressures, and if those pressures become significant, we may not be able to offset such higher costs through price increases or other cost efficiency measures. Our inability or failure to do so could harm our business, financial condition and results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of **March 31, 2024** **June 30, 2024**.

Based on that evaluation and because of the previously-reported material weaknesses in internal control over financial reporting, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of **March 31, 2024** **June 30, 2024**.

Notwithstanding the material weakness in our internal control over financial reporting, our Chief Executive Officer and Chief Financial Officer have concluded that the Condensed Consolidated Financial Statements present fairly, in all material respects, our financial position, results of operations and cash flows in accordance with GAAP.

Remediation Plan and Status

Management, with the oversight of the audit committee of our Board, has dedicated resources and efforts to improve our internal controls over financial reporting and has taken action to remediate such material weakness. Actions include taking steps towards the automation of certain complex accounting calculations, adding detective analytical management review controls, adding controls to reconcile source data across accounts, and enhancing review procedures within account reconciliations. While the Company has improved its control activities, the material weakness identified in the prior year remains unremediated as of **March 31, 2024** **June 30, 2024** and the Company's remediation efforts will continue to take place throughout 2024.

The material weakness cannot be considered remediated until the applicable controls have operated for a sufficient period of time and management has concluded, through testing, that these controls are designed and operating effectively. Accordingly, we will continue to monitor and evaluate the effectiveness of our internal control over financial reporting in the areas affected by the material weakness described above.

Changes in Internal Control over Financial Reporting

Except for the enhancements to controls to address the material weakness, there were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the quarter ended **March 31, 2024** **June 30, 2024** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.
