In addition, certain statements in our future filings with the Securities and Exchange Commission (â€œSECâ€), in press releases, and in oral and written statements made by us or with our approval that are not statements of historical fact constitute forward-looking statements within the meaning of the PSLRA. Examples of forward-looking statements include, but are not limited to: (i)Â projections of revenue, income or loss, expenses, earnings or loss per share, the payment or nonpayment of dividends, share repurchases, capital structure and other statements concerning future financial performance; (ii)Â statements of our plans and objectives by our management or Board of Directors, including those relating to products or services, research and development, and the sufficiency of capital resources; (iii)Â statements of assumptions underlying such statements, including those related to economic conditions; (iv)Â statements regarding results of business combinations or strategic divestitures; (v) statements regarding business relationships with vendors, customers or collaborators, including the proportion of revenues generated from international as opposed to domestic customers; and (vi)Â statements regarding products and services, their characteristics, performance, sales potential or effect in use by customers. Words such as â€œbelieves,â€ â€œanticipates,â€ â€œexpects,â€ â€œintends,â€ â€œtargeted,â€ â€œshould,â€ â€œpotential,â€ â€œgoals,â€ â€œstrategy,â€ â€œoutlook,â€ â€œplan,â€ â€œestimated,â€ â€œwill,â€ variations of these terms and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from those in such statements. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to, those described in Part I, ItemÂ 1A, â€œRisk Factors,â€ below. The performance of our business and our securities may be adversely affected by these factors and by other factors common to other businesses and investments, or to the general economy. Forward-looking statements are qualified by some or all of these risk factors. Therefore, you should consider these risk factors with caution and form your own critical and

independent conclusions about the likely effect of these risk factors on our future performance. Such forward-looking statements speak only as of the date on which statements are made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made to reflect the occurrence of unanticipated events or circumstances. Readers should carefully review the disclosures and the risk factors described in this and other documents we file from time to time with the SEC, including our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.2Table of ContentsPART IItem 1. BusinessGENERALFair Isaac Corporation (NYSE: FICO) (together with its consolidated subsidiaries, the â€œCompany,â€ which may also be referred to in this report as â€œwe,â€ â€œus,â€ â€œour,â€ and â€œFICOâ€) is a leading applied analytics company. We were founded in 1956 on the premise that data, used intelligently, can improve business decisions. Today, FICOâ€™s software and the widely used FICOÂ® Score operationalize analytics, enabling thousands of businesses in more than 80 countries to uncover new opportunities, make timely decisions that matter, and execute them at scale. Most leading banks and credit card issuers rely on our solutions, as do insurers, retailers, telecommunications providers, automotive lenders, consumer reporting agencies, public agencies, and organizations in other industries. We also serve consumers through online services that enable people to access and understand their FICO Scores â€” the standard measure in the United States (â€œU.S.â€) of consumer credit risk â€” empowering them to increase financial literacy and manage their financial health. More information about us can be found on our website, www.fico.com. We make our Annual Reports on Forms 10-K, Quarterly Reports on Forms 10-Q, and Current Reports on Forms 8-K, as well as amendments to those reports, available free of charge through our website as soon as reasonably practicable after we electronically file them with the U.S. Securities and Exchange Commission (â€œSECâ€). References to our website address in this report do not constitute an incorporation by reference. Information on our website is not part of this report.PRODUCTS AND SERVICESOur business consists of two operating segments: Scores and Software. Our Scores segment includes our business-to-business (â€œB2Bâ€) scoring solutions and services which give our clients access to predictive credit and other scores that can be easily integrated into their transaction streams and decision-making processes. This segment also includes our business-to-consumer (â€œB2Câ€) scoring solutions, including our myFICO.com subscription offerings.Our Software segment includes pre-configured analytic and decision management solutions designed for a specific type of business need or process â€” such as account origination, customer management, customer engagement, fraud detection, and marketing â€” as well as associated professional services. This segment also includes FICOÂ® Platform, a modular software offering designed to support advanced analytic and decision use cases, as well as stand-alone analytic and decisioning software that can be configured by our customers to address a wide variety of business use cases. Our offerings are available to our customers as software-as-a-service (â€œSaaSâ€) or as on-premises software.ScoresOur B2B scoring solutions include the FICOÂ® Score, which is the standard measure of consumer credit risk in the U.S. It is used in most U.S. credit decisions, by nearly all major banks, credit card issuers, mortgage lenders, and auto loan originators. Our B2B scoring solutions are primarily distributed through major consumer reporting agencies worldwide. Our B2C scores are sold directly to consumers through our myFICO.com website and other direct-to-consumer channels.The FICOÂ® Score is a three-digit number ranging from 300-850. Our proprietary analytic algorithms are applied to credit data collected and maintained by the three U.S. national consumer reporting agencies â€” Experian, TransUnion and Equifax â€” to produce standard scores that are used across the credit lifecycle, including in origination, account management and consumer marketing. Users of our scores generally pay the consumer reporting agencies a fee for each individual score generated by our algorithms, and the consumer reporting agencies pay an associated fee to us. Except for product development using de-personalized data, FICO does not collect or store the consumer credit data used in the calculation of our scores, and in most cases, we do not sell our scores directly to lenders or other end-users.Since the introduction of the FICOÂ® Score in the U.S. in 1989, we have regularly updated the score to take advantage of newly available data and enhanced analytics. FICOÂ® Score 9 introduced the utilization of reported rental payment history, while also de-emphasizing medical debt and disregarding paid collections. Our most recent and most predictive scores, FICOÂ® Score 10 and 10 T, were introduced in 2020. To increase its predictive power, FICO Score 10 T builds on FICO Score 10 but also incorporates trended credit data. Trended data considers a longer historical view, giving lenders even more insight into how individuals are managing their credit. Updated versions of our FICO Scores are generally designed to provide greater predictive accuracy than the scores they replace, and to be compatible with prior versions of the FICO Score.3Table of ContentsIn addition to the FICOÂ® Score, we offer several other broad-based scores, including specific FICOÂ® Industry Scores. For example, in 2021 we introduced Bankcard and Auto Industry versions of FICOÂ® Score 10. We also develop various custom scores for our financial services clients.The FICOÂ® Resilience Index offering is designed to complement FICOÂ® Score models by identifying those consumers who are more resilient to economic stress relative to other consumers within the same FICO Score bands. The FICO Resilience Index is designed to enable lenders to continue to lend and better manage risk by providing a more precise assessment of loan default risk during periods of economic stress.FICO has invested significant resources in the development of scores that can help expand credit access and lower borrowing costs for consumers that have limited credit history or who have sparse or inactive credit files. These scores use alternative data sources to enhance conventional credit bureau data and generate scores for otherwise un-scorable consumers and in many cases improve the credit scores of scorable consumers.â€¢FICOÂ® Score XD uses public records and property data, and a consumerâ€™s history with mobile phone, landline phone and cable payments, to generate scores on the same 300-850 scale as standard FICOÂ® Scores. FICO Score XD is available to lenders through our distribution partners, LexisNexis Risk Solutions and Equifax. â€¢The UltraFICOTM Score uses consumer-permissioned data such as checking, savings, or money market account data, to generate scores on the same 300-850 scale as standard FICOÂ® Scores. Incorporating consumer-permissioned data helps empower consumers to establish or improve their creditworthiness by using data that reflects sound financial activity, but that is not part of a conventional credit report.Both scores maintain the same score to risk relationship as standard FICOÂ® Scores, enhancing their compatibility with existing credit underwriting systems and models.Outside the U.S., we offer FICOÂ® Scores for consumer loans, and in some cases for small and medium business loans. These scores are typically sold to end-users through consumer reporting agencies in those countries, as they are in the U.S. FICO Scores have been made available in over 40 countries and we have also developed client-specific versions of the FICO Score in over ten countries that we sell directly to end-user customers.We also provide FICOÂ® Scores to consumers in the U.S. through our B2C scoring solutions. These Scores are distributed directly by us through our myFICO.com subscription offering and indirectly through our licensed distribution partners, including Experian and certain lenders through the FICOÂ® Score Open Access Program. Through myFICO.com and other direct-to-consumer channels, consumers can purchase their FICO Scores, including credit reports associated with the scores, explanations of the factors affecting their scores, and customized educational information on how to manage their scores. Consumers can use products to simulate how taking specific actions could affect their FICO Score. Consumers can also subscribe to credit monitoring, which delivers alerts via email and text when changes to a userâ€™s FICO Scores or other credit report content are detected. In addition, consumers can purchase identity theft monitoring products that alert them to potential risks of identity fraud.SoftwareOur software harnesses the power of analytics and digital decisioning technology to help businesses automate, improve, and connect decisions across their enterprise. Most of our solutions address customer engagement, including acquisition and pricing, onboarding, servicing and management, and fraud protection. We also help businesses improve non-customer facing decisions such as supply chain optimization, scheduling management and policy adherence. FICO provides software solutions to business customers in more than 80 countries around the world. Our software can be deployed in the cloud utilizing third-party cloud services, or on-premises using our customersâ€™ IT infrastructure. We typically sell our software as multi-year subscriptions, with payments based on usage metrics such as the number of accounts, transactions or decisioning use cases deployed, often subject to contracted minimum payments. A significant and growing number of our software solutions run natively on FICOÂ® Platform, a modular software offering designed to support advanced analytics and decisioning use cases. While not all our software runs on FICO Platform today, we are continuing to invest significant development resources to enable substantially all of our software to run on FICO Platform in the future.4Table of ContentsPrincipal Areas of Expertise We specialize in solutions that empower businesses to operationalize analytics to uncover new opportunities, make timely decisions that matter, and execute them at scale. With more than 65 years of analytics and software experience, we have found that bringing human and digital intelligence together allows our customers to target and acquire customers more efficiently, increase customer value, reduce fraud and credit losses, lower operating expenses, and enter new markets more profitably.Our principal areas of research and development expertise are focused on the following four analytic domains.â€¢Predictive ModelingPredictive modeling identifies and mathematically represents underlying relationships in historical data to make predictions or classifications about future events. Predictive models typically analyze current and historical data about individuals to produce easily understood metrics such as scores. These scores rank-order individuals or specific transactions against a particular variable such as the likelihood of making credit payments on time, the likelihood of a transaction being fraudulent or the probability of responding to a particular offer for services. Our predictive models are frequently used in mission-critical transactional systems and drive decisions and actions in near real time.Several analytic methodologies underlie our products in this area. These include proprietary applications of both linear and nonlinear optimization algorithms, advanced neural systems, machine learning and AI. We also apply various statistical techniques for analysis and pattern detection within large datasets and can derive insights and predictive features from various forms of data, including unstructured data.â€¢Decision Analysis and OptimizationDecision analysis refers to the broad quantitative field that deals with modeling, analyzing, and optimizing decisions made by individuals, groups, and organizations. Whereas predictive models analyze multiple aspects of individual behavior to forecast future behavior, decision analysis analyzes multiple aspects of a given decision to identify the most effective action to take to reach a desired result. This is often referred to as prescriptive analytics. Our integrated approach to decision analysis incorporates a decision model that mathematically maps the entire decision structure; proprietary optimization technology that identifies the most effective strategies, given both the performance objective and constraints; testing and simulation required for active, continuous learning; and the robust extrapolation of an optimized strategy to a wider set of scenarios than historically encountered. Our optimization capabilities also include native support for Python modeling, as well as our own proprietary mathematical modeling and programming language, an easy-to-use authoring environment, a configurable business simulation and scenario management interface and a set of pre-built optimization algorithms.â€¢Transaction ProfilingTransaction profiling is a patent-protected technique used to extract meaningful information and reduce the complexity of transaction data used in modeling. Many of our products operate using transactional data, such as credit card purchase transactions, consumer interactions, or other types of data that change over time. In its raw form, this data is very difficult to use in predictive models for several reasons. First, an isolated transaction contains very little information about the behavior of the individual who generated the transaction. Second, transaction patterns change rapidly over time. Third, this type of data can often be highly complex. To overcome these issues, we have developed a set of techniques that transform raw transactional data into a mathematical representation that reveals latent information, and which make the data more usable by predictive models. This profiling technology accumulates data across multiple transactions of many types to create and update profiles of transaction patterns. These profiles enable our neural network models to efficiently and effectively make accurate assessments of, for example, fraud risk and credit risk within real-time transaction streams.â€¢Customer Data IntegrationDecisions made about customers or prospects can benefit from data stored in multiple sources, both inside and outside the enterprise. In the areas of analytics and digital decisioning, more data is generally better. We have developed proprietary data ingestion and management tools that are able to assemble and integrate disparate data sources into a unified view of the customer, household, or other subject through the application of persistent keying technology. This data can include structured or unstructured data. In addition, our technology can integrate multiple data sources in real-time and make them available for rapid analysis and decisions such as credit approval, fraud detection and â€œnext best offerâ€ workflows.5Table of ContentsWe believe our analytic tools and solutions are among the best commercially available, and that we are uniquely positioned to integrate advanced analytic, software and data technologies into mission-critical business solutions that offer superior returns on investment.FICOÂ® PlatformFICOÂ® Platform is an analytic and decisioning environment that empowers businesses to configure solutions that orchestrate and operationalize high velocity decisions that matter, at scale. Users of FICO Platform can bring together data from multiple sources, apply advanced analytics to derive insights, and translate those insights into actions and workflows that can be executed in real-time. Based on a modular cloud architecture, FICO Platform can be configured by our customers to solve a vast array of business challenges. FICO Platform delivers increasing value to our customers over time as they add additional analytic capabilities, configure their own solutions or utilize pre-configured solutions to address a diverse set of use cases and integrate disparate analytic and decisioning silos onto a centralized, scalable platform. This drives additional subscription software revenue for FICO over time as customers purchase more FICO Platform capabilities and pay for more usage of those capabilities.Our goal is to move substantially all of FICOâ€™s current software products onto FICOÂ® Platform. For example, FICOâ€™s industry leading rules-based decisioning engine, FICOÂ® Blaze AdvisorÂ® decision rules management system, is now available on FICO Platform as FICOÂ® Decision Modeler. In addition, many core capabilities of FICOâ€™s current software products are now part of FICO Platform, enabling solutions such as Originations and Customer Management. We believe this strategy of moving our software products to FICO Platform will result in revenue growth through follow-on â€œland and expandâ€ sales to existing FICO Platform customers and more sales to medium-sized businesses typically served through value-added resellers and systems integrators. Our annual recurring revenue (â€œARRâ€) from FICOÂ® Platform based products was $227.0 million as of September 30, 2024, representing 31% of our total software ARR. For information about ARR, refer to Part II, Item 7, Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations, Annual Recurring Revenue, in this Annual Report on Form 10-K. Our OfferingsWe sell our software primarily as analytic and decisioning software or pre-configured solutions. Our software offerings are sold both individually and as integrated bundles of multiple products.Analytic and Decisioning SoftwareFICO analytic and decisioning software offerings use proprietary and open source microservices and capabilities to enable both business users and data scientists to develop and execute advanced analytics and decision modeling. Our key products in this category include:â€¢FICOÂ® Decision Modeler and FICOÂ® Blaze AdvisorÂ® are our core decision rules modeling tools, which enable users to flexibly author and manage decision rules and strategies. FICO Decision Modeler delivers the functionality of our industry leading FICO Blaze Advisor product, with the added benefit of seamless integration into FICOÂ® Platform. FICO Blaze Advisor, the predecessor to FICO Decision Modeler, is available as an off-platform product.â€¢FICOÂ® Xpress Optimization provides operations research professionals and business analysts with world-class solvers and productivity tools to determine optimal outcomes for a wide range of industry problems. FICO Xpress Optimization includes a powerful modeling and programming language to quickly model and solve even the largest optimization problems. FICO Xpress Optimization runs on FICOÂ® Platform.â€¢FICOÂ® Analytics WorkbenchTM is a predictive analytics tool that allows businesses to create and deploy explainable machine learning models for use in decisions that typically require strict governance and compliance, often including regulatory oversight. FICO Analytics Workbench runs on FICOÂ® Platform.â€¢FICOÂ® Data Orchestrator is a data retrieval and mapping solution that can access, gather, and transform data from corporate or public facing information services. FICO Data Orchestrator runs on FICOÂ® Platform.â€¢FICOÂ® DMP Streaming is a real-time and batch data ingestion solution that uniquely delivers in-stream analytics for real-time data insights and complex event processing.â€¢FICOÂ® Business Outcome Simulator enables business users to run a wide variety of insightful scenarios to assess how their business is likely to perform under varying conditions and assumptions. It unlocks insights into how key outcomes will likely shift in the face of changing competitor strategy, macroeconomic changes, evolving customer preferences, and more. FICO Business Outcome Simulator runs on FICOÂ® Platform.6Table of Contentsâ€¢FICOÂ® Decision Optimizer helps business users understand how different customers will react to a variety of different actions that are being considered. Once that link is understood, FICO Decision Optimizer identifies the combination of actions most likely to lead to the desired portfolio outcomes through decisions such as who to offer a new product, what limit and/or price to offer, or how to treat delinquent customers. FICO Decision Optimizer runs on FICOÂ® Platform.Pre-Configured SolutionsFICO's pre-configured solutions optimize customer interactions in real-time, driving greater customer engagement and improving business results. They enable acquisition and growth marketing, account activation and management, omni-channel communication, risk assessment, and fraud detection and prevention. Key FICO solutions currently offered include:â€¢FICOÂ® Fraud Solutions empower organizations to safeguard the business and their customers from payments fraud and application fraud. Leveraging advanced analytic capabilities on a large scale and in real-time, FICO Fraud Solutions identify fraud and enable strategies designed to prevent fraud across payment cards, money transfers, and instances where stolen or synthetic identities are exploited to open accounts. Our models are continually improved using a proprietary, global data set of transaction data contributed by more than 10,000 institutions that participate in the FICOÂ® FalconÂ® Intelligence Network. Certain Fraud Solutions capabilities are available on FICOÂ® Platform today, and we plan to make additional Fraud Solutions capabilities available on FICO Platform in the future. â€¢FICOÂ® Originations Solution is an application-to-decision credit originations solution. It enables banks, credit unions, finance companies, online lenders, auto lenders, and other companies to automate and improve the processing of requests for credit. Our Originations Solution increases the speed, consistency and efficiency with which requests are handled, reducing losses, and increasing approval rates through the application of sophisticated

policies and analytics that assess applicant risk and reduce the need for manual review by underwriters. Certain Originations capabilities are available on FICOÂ® Platform today, and we plan to make additional Originations capabilities available on FICO Platform in the future. â€¢FICOÂ® Customer Communication Service is an intelligent omnichannel digital communication manager for resolving customer interactions. It enables businesses to automate individualized customer dialogues with the same consistency and regulatory compliance as their human agents. With Customer Communication Service, businesses can be available 24/7 for one-way or two-way communication through any channel their consumers choose. Businesses can rapidly launch mobile alerts, messaging, virtual agents, self-service options, and other auto-resolution capabilities. It helps make the full customer journey more efficient and raises the level of data-driven digital intelligence behind lifecycle communications. Certain Customer Communication capabilities are available on FICOÂ® Platform today, and we plan to make additional Customer Communication capabilities available on FICO Platform in the future. â€¢FICOÂ® Strategy Director and FICOÂ® TRIADÂ® Customer Manager enable businesses to automate and improve risk-based decisions for their existing credit customers. These products help businesses apply advanced analytics in credit account and customer decisions to increase portfolio revenue and reduce risk exposure and losses, while improving customer retention. They also allow users to manage risk and communications at both the account and customer level from a single place. FICO Strategy Director runs on FICOÂ® Platform. FICO TRIAD Customer Manager, the predecessor to FICO Strategy Director, is available as an off-platform product.FICOÂ® Professional ServicesFICO offers a range of professional services designed to help customers install and configure our software, develop and deploy advanced analytics using our software, and improve customer satisfaction and retention.â€¢FICOÂ® Implementation Services. We often sell software implementation and configuration services in conjunction with our on-premises and SaaS subscriptions, and our license sales. The FICO implementation services team leverages their deep expertise in our products and their extensive industry-specific knowledge to help our customers implement and configure FICO software rapidly and effectively.â€¢FICOÂ® Analytic Services. We build custom analytics, decision models and related analytics, and perform machine learning projects for clients in multiple industries. These analytic services help to improve critical business processes and operationalize analytics using FICO software products. Most of our engagements utilize predictive analytics, decision modeling and optimization to provide greater insight into customer preferences and help predict future customer behavior. â€¢FICOÂ® Advisors. FICO Advisors are business consultants accelerating the practical use of FICO solutions through data-driven analytics, strategic design, and software applications. Our seasoned practitioners are uniquely valued for their credit lifecycle risk and fraud knowledge and can help drive measurable results in an ever-dynamic economic market.7Table of ContentsOur professional services are sold on an hourly time and materials basis or for a fixed project fee.MARKETS AND CUSTOMERSOur scores and software products and services serve clients in multiple industries, including banking, insurance, retail, healthcare and public agencies. End users of our products include three-quarters of each of the largest 100 financial institutions in the U.S. and the largest 100 banks in the world. Our clients also include more than 600 insurers, including eight of the top ten U.S. property and casualty insurers; more than 300 retailers and general merchandisers; and more than 200 government or public agencies. Seven of the top ten companies on the 2024 Fortune 500 list use one or more of our solutions. In addition, our consumer solutions are marketed to more than 200 million U.S. consumers whose credit relationships are reported to the three major U.S. consumer reporting agencies.The majority of our scores are marketed and sold through consumer reporting agencies. During fiscal 2024, 2023 and 2022, revenues generated from our agreements with Experian, TransUnion and Equifax collectively accounted for 45%, 41% and 39% of our total revenues, respectively. We also sell our scores and credit monitoring directly to consumers through our myFICO.com on-line subscription offerings. Outside of the U.S., we sell our scores through consumer reporting agencies, other third-party distributors, and in some cases directly to large end-users.We market our software products and services primarily through our own direct sales organization that is organized around vertical and geographic markets. Sales teams are based in our headquarters and in field offices strategically located around the world. We also market our products through indirect channels, including alliance partners and other resellers. As more capabilities are made available on FICOÂ® Platform, we expect our sales through indirect channels to grow. We are investing significant resources to develop our indirect channel relationships. Our largest market segment is financial services, representing 92% of our total revenue during fiscal 2024. Our largest geographic market is the Americas, representing 84% of our total revenue during fiscal 2024. COMPETITIONThe market for our solutions is intensely competitive and is constantly changing. Our competitors vary both in size and in the scope of the products and services they offer. We encounter competition from several sources, including: â€¢in-house analytic and systems developers; â€¢neural network developers and artificial intelligence system builders;â€¢fraud solution providers;â€¢scoring model builders; â€¢providers of credit reports and credit scores;â€¢software companies supplying predictive analytic modeling, rules, or analytic development tools; â€¢entity resolution and social network analysis solutions providers; â€¢providers of customer engagement and risk management solutions; â€¢providers of account workflow management software;â€¢business process management and decision rules management providers; â€¢enterprise resource planning and customer relationship management solutions providers;â€¢business intelligence solutions providers;â€¢providers of automated application processing services; andâ€¢third-party professional services and consulting organizations.We believe we offer customers a unique mix of products, expertise and capabilities that allows us to compete effectively in our target markets. However, many of our competitors are larger than FICO, have more development, sales and marketing resources than FICO, and some have larger shares of our target geographic or product markets. 8Table of ContentsWe believe the principal competitive factors affecting our markets include technical performance; access to unique proprietary analytical models and data; product attributes like adaptability, scalability, interoperability, functionality, and ease-of-use; on-premises and SaaS product availability; product price; customer service and support; the effectiveness of sales and marketing efforts; existing market penetration; and reputation. Although we believe our products and services compete favorably with respect to these factors, we may not be able to maintain our competitive position against current and future competitors.Scores In our Scores segment, we compete with both outside suppliers and in-house analytics. Primary competitors among outside suppliers of scoring models are the three major consumer reporting agencies in the U.S. and Canada, which are also our partners in offering our scoring solutions, and VantageScore (a joint venture entity established by the three major U.S. consumer reporting agencies), which is selling a credit scoring product competitive with our products. Additional competitors include consumer reporting agencies outside the U.S. like CRIF Ratings, which operates in the European Union, and other data providers like LexisNexis and ChoicePoint, some of which also are our partners.For our offerings that deliver credit scores, credit reports and consumer credit education solutions directly to consumers, we compete with other direct to consumer credit and identity services such as Credit Karma, Credit Sesame, Experian and TransUnion, some of which are also our partners. SoftwareThe competition in our Software segment varies by application. In the fraud market for banking, we compete primarily with Nice Actimize, Experian, Pegasystems, BAE Systems Applied Intelligence, SAS, ACI Worldwide, IBM, Feedzai and Featurespace. In the customer origination market, we compete with Experian, Equifax, Moodyâ€™s, Meridian Link, and CGI, among others. In the customer management market, we compete with Experian and SAS, among others. In the marketing services market, we compete with Pegasystems, Equifax, Experian, SAS, Adobe and Salesforce, among others. In the decision platform market, we compete with Pegasystems, IBM and SAS, among others.PRODUCT PROTECTION AND TRADEMARKSWe rely on a combination of patent, copyright, trademark and trade secret laws and confidentiality agreements and procedures to protect our proprietary rights.We retain the title to and protect the suite of models and software used to develop scoring models as a trade secret. We also restrict access to our source code and limit access to and distribution of our software, documentation, and other proprietary information. We have generally relied upon the laws protecting trade secrets and upon contractual nondisclosure safeguards and restrictions on transferability to protect our software and proprietary interests in our product and service methodology and know-how. Our confidentiality procedures include invention assignment and proprietary information agreements with our employees and independent contractors, and nondisclosure agreements with our distributors, strategic partners, and customers. We also claim copyright protection for certain proprietary software and documentation.We have patents on many of our technologies and have patent applications pending on other technologies. The patents we hold may not be upheld as valid and may not prevent the development of competitive products. In addition, patents may never be issued on our pending patent applications or on any future applications that we may submit. As of September 30, 2024, we held 198 U.S. and 29 foreign patents, with 75 applications pending.Despite our precautions, it may be possible for competitors or users to copy or reproduce aspects of our software or to obtain information that we regard as trade secrets. In addition, the laws of some foreign countries do not protect proprietary rights to the same extent as do the laws of the U.S. Patents and other protections for our intellectual property are important, but we believe our success and growth will depend principally on such factors as the knowledge, ability, experience and creative skills of our personnel, new products, frequent product enhancements and name recognition. We have developed technologies for research projects conducted under agreements with various U.S. government agencies or their subcontractors. Although we have acquired commercial rights to these technologies, the U.S. government typically retains ownership of intellectual property rights and licenses in the technologies that we develop under these contracts. In some cases, the U.S. government can terminate our rights to these technologies if we fail to commercialize them on a timely basis. In addition, under U.S. government contracts, the government may make the results of our research public, which could limit our competitive advantage with respect to future products based on funded research. 9Table of ContentsWe have used, registered and/or applied to register certain trademarks and service marks for our technologies, products and services. As of September 30, 2024, we had 24 trademarks registered in the U.S. and select foreign countries.GOVERNMENTAL REGULATIONWe are subject to a number of U.S. federal, state, local and foreign laws and regulations that involve matters central to our business. Laws and governmental regulation affect how our business is conducted and, in some cases, subject us to the possibility of government supervision or enforcement and future lawsuits arising from our products and services. Laws and governmental regulations also influence our current and prospective customersâ€™ activities, as well as their expectations and needs in relation to our products and services. Laws and regulations that may affect our business and our current and prospective customersâ€™ activities include, but are not limited to, those summarized below.Many U.S. and foreign jurisdictions have passed, or are currently contemplating, a variety of consumer protection, data privacy, and cyber and data security laws and regulations that may relate to our business or the business of our customers or affect the demand for our products and services. For example, the General Data Protection Regulation (the â€œGDPRâ€) in the United Kingdom (â€œU.K.â€) and the European Union (â€œE.U.â€) imposes, among other things, strict obligations and restrictions on the collection and use of U.K. and E.U. personal data, a requirement for prompt notice of data breaches in certain circumstances, a requirement for implementation of certain approved safeguards (such as the use of approved â€œstandard contractual clausesâ€ and the performance of appropriate data transfer impact assessments) for transfers of personal data to other countries that have not been determined by the E.U. or the U.K. to provide adequate data privacy protections, and possible substantial fines for any violations. Our implementation of processes to meet such requirements for affected data flows, which may involve interpretive issues, and may have an adverse impact on cross-border transfers of personal data, may subject us or our customers to additional scrutiny from E.U. and U.K. regulators or may increase our costs of compliance associated with maintaining appropriate certifications, performing any necessary assessments, engaging in contract negotiations with third parties and implementing approved standard contractual clauses, and/or (if appropriate) localizing certain data processing activities. Numerous other countries have introduced and, in some cases, enacted, similar data privacy and cyber and data security laws.The California Consumer Privacy Act of 2018 (â€œCCPAâ€) gives California residents certain privacy rights in the collection and disclosure of their personal information and requires businesses to make certain disclosures and take certain other acts in furtherance of those rights. Additionally, effective January 1, 2023, the California Privacy Rights Act (the â€œCPRAâ€) revised and significantly expanded the scope of the CCPA. The CPRA also created a new agency, the California Privacy Protection Agency, authorized to implement and enforce the CCPA and the CPRA. Numerous other U.S. states have considered similar privacy laws, with many of those states having passed such laws with respective effective dates ranging from 2023 through 2026.The Gramm-Leach-Bliley Act ("GLBA") regulates, among other things, the receipt, use, disclosure, and security of non-public personal information of consumers held by â€œfinancial institutionsâ€ and applies indirectly to companies that provide services to financial institutions. As a provider of services to financial institutions, portions of our business are subject to obligations to comply with certain GLBA provisions, including limitations on the use or disclosure of the underlying data and rules relating to the technological, physical and administrative safeguarding of non-public personal information.The Health Insurance Portability and Accountability Act of 1996, as amended by the American Recovery and Reinvestment Act of 2009 (â€œHIPAAâ€) and the Health Information Technology for Economic and Clinical Health Act (â€œHITECHâ€), and their respective implementing regulations impose specified requirements relating to the privacy, security and transmission of individually identifiable health information. Among other things, HITECH makes HIPAAâ€™s security standards directly applicable to â€œbusiness associates.â€ We function as a business associate for certain of our customers that are HIPAA-covered entities and service providers and, in that context, we are regulated as a business associate for the purposes of HIPAA.10Table of ContentsThe Dodd-Frank Wall Street Reform and Consumer Protection Act (â€œDodd-Frank Actâ€) prohibits unfair, deceptive, or abusive acts or practices (â€œUDAAPâ€) with respect to the offering of consumer financial products and services and provides the Consumer Financial Protection Bureau (the â€œCFPBâ€) with enforcement authority to enforce those provisions as well as certain enumerated federal consumer financial laws. In certain circumstances, the CFPB also has examination and supervision powers with respect to service providers who provide a material service to a covered financial institution offering consumer financial products and services. Further, the CFPB has authority to issue rules designating non-depository â€œlarger participantsâ€ in certain markets for consumer financial services and products for purposes of the CFPBâ€™s supervisory authority under the Dodd-Frank Act, which the CFPB has done for several markets including the consumer reporting market. Such designated â€œlarger participantsâ€ are subject to reporting and on-site compliance examinations by the CFPB, which may result in increased compliance costs and potentially greater enforcement risks based on these supervisory activities. In addition, the laws and regulations issued by U.S. and foreign regulators of some of our largest financial institution customers may require them to flow down certain contractual obligations, exercise greater oversight, and perform more rigorous audits of their key service providers such as us.The Federal Trade Commission Act (the â€œFTC Actâ€) prohibits unfair methods of competition and unfair or deceptive acts or practices. Under the FTC Act, the FTCâ€™s jurisdiction includes the ability to bring enforcement actions based on the security measures we employ to safeguard the personal data of consumers. Allegations that we failed to safeguard or handle such data in a reasonable manner may subject us to regulatory scrutiny or enforcement action.The U.S. Fair Credit Reporting Act (the â€œFCRAâ€) applies to consumer reporting agencies, as well as data furnishers, and users of consumer reports such as banks and other companies, many of which are our customers. The FCRA provisions govern the accuracy, fairness and privacy of information in the files of consumer reporting agencies that engage in the practice of assembling or evaluating information relating to consumers for certain specified purposes. The FCRA limits the type of information that may be reported by consumer reporting agencies, limits the distribution and use of consumer reports, establishes consumer rights to access and dispute their own credit files, includes provisions designed to prevent identity theft and assist fraud victims, requires consumer reporting agencies to make a free annual credit report available to consumers and imposes many other requirements on consumer reporting agencies, data furnishers and users of consumer report information. These requirements can affect the manner and extent to which our customers use our products and services.A number of states have enacted requirements similar to the FCRA. Some of these state laws impose additional, or more stringent, requirements than the FCRA, especially in connection with investigations and responses to reported inaccuracies in consumer reports. The FCRA preempts some of these state laws, but the scope of preemption continues to be defined by the courts. Various consumer credit laws and regulations in the foreign countries where we conduct business also affect the products and services we offer to our customers.The Credit Repair Organizations Act (the â€œCROAâ€) regulates companies that claim to be able to assist consumers in improving their credit standing. There have been efforts to apply the CROA to credit monitoring services offered by consumer reporting agencies and others, which may impact certain of our products and services.Special requirements may apply to us when providing services directly or indirectly to U.S. federal, state and local government agencies. The applicable requirements depend upon the monetary value of the awarded contract, the particular government agency awarding or funding the contract, the scope of services to be delivered, and the level of access that the agency will need to provide to us to enable us to perform the contract. For example, we may need to abide by the Privacy Act of 1974, the Internal Revenue Serviceâ€™s Publication 4812, and the Federal Acquisition Regulation and associated supplemental contract clauses. Each of these laws, regulations and contract clauses imposes certain requirements, including measures for the protection of personal information or information that is otherwise categorized as sensitive by the government. Government agencies frequently modify or supplement these requirements, and consequences for violations of applicable requirements may include penalties, civil liability and for severe infractions, criminal liability.There has been an increased focus on laws and regulations related to our business and the business of our customers, including by U.S. regulators such as the CFPB, relating to policy concerns regarding the operation of consumer reporting agencies, the use and accuracy of credit and alternative data, the costs of consumer reports and credit scores, the use of credit scores and fair lending, and the use, transparency, and fairness of algorithms, artificial intelligence, and

machine learning in business processes. For example, the CFPB has initiated a public request for information relating to fees charged by providers of mortgages and related settlement services, including fees for consumer reports and credit scores. In addition, the CFPB has indicated that it intends to issue rules under the FCRA that would extend the FCRA to certain business practices not currently subject to that statute.11Table of ContentsThe European Commission has finalized the EU AI Act, which establishes requirements for the provision and use of products that leverage artificial intelligence systems, including in credit scoring. The EU AI Act entered into force on August 1, 2024 and its provisions take effect between six and 36 months after that date, with most of those provisions becoming effective in 2026. Other countries, as well as the executive branch of the U.S. government and a number of U.S. states, are considering or have implemented regulations or standards applicable to artificial intelligence technologies.Additional laws and regulations that may affect our business and our current and prospective customersâ€™ activities include, but are not limited to, those in the following significant regulatory areas:â€¢Laws and regulations that limit the use of credit scoring models (e.g., state â€œmortgage triggerâ€ or â€œinquiriesâ€ laws, state insurance restrictions on the use of credit-based insurance scores, and the E.U. Consumer Credit Directive).â€¢Fair lending laws (e.g., the Equal Credit Opportunity Act and Regulation B, and the Fair Housing Act) and laws and regulations that may impose requirements relating to algorithmic fairness or accountability.â€¢The Cybersecurity Act of 2015; the U.S. Department of Commerceâ€™s National Institute of Standards and Technologyâ€™s Cybersecurity Framework; the Clarifying Lawful Overseas Use of Data Act; cyber incident notice requirements for banks and their service providers under rules and regulations issued by federal banking regulators; cybersecurity incident disclosure requirements for public companies under regulations issued by the SEC; and identity theft, file freezing, and similar state privacy laws.â€¢Laws and regulations related to extension of credit to consumers through the Electronic Fund Transfers Act and Regulation E, as well as nonâ€‘governmental VISA and MasterCard electronic payment standards.â€¢Laws and regulations applicable to secondary market participants (e.g., The Federal National Mortgage Association (â€œFannie Maeâ€) and The Federal Home Loan Mortgage Corporation (â€œFreddie Macâ€)) that could have an impact on our scoring products and revenues, including 12 CFR Part 1254 (Validation and Approval of Credit Score Models) issued by the Federal Housing Finance Agency in accordance with Section 310 of the Economic Growth, Regulatory Relief, and Consumer Protection Act (Public Law 115-174), and any regulations, standards or criteria established pursuant to such laws or regulations, including the ongoing validation and approval of the use of the FICOÂ® Score by Fannie Mae, Freddie Mac, and the Federal Housing Finance Agency.â€¢Laws and regulations applicable to our customer communication clients and their use of our products and services (e.g., the Telemarketing Sales Rule, the Telephone Consumer Protection Act, the CAN-SPAM Act, the Fair Debt Collection Practices Act, and regulations promulgated thereunder, and similar state laws and similar laws in other countries).â€¢Laws and regulations applicable to our insurance clients and their use of our insurance products and services.â€¢The application or extension of consumer protection laws, including implementing regulations (e.g., the Consumer Financial Protection Act, the Truth In Lending Act and Regulation Z, the Fair Debt Collection Practices Act and Regulation F, the Servicemembers Civil Relief Act, and the Military Lending Act, and similar state consumer protection laws).â€¢Laws and regulations governing the use of the Internet and social media, telemarketing, advertising, endorsements and testimonials.â€¢Anti-money laundering laws and regulations (e.g., the Bank Secrecy Act and the USA PATRIOT Act).â€¢Laws and regulations restricting transactions with sanctioned parties and regarding export controls as they apply to FICO products delivered in non-U.S. countries or to foreign nationals (e.g., Office of Foreign Asset Control sanctions and Export Administration Regulations).â€¢Financial regulatory standards (e.g., Sarbanes-Oxley Act requirements to maintain and verify internal process controls, including controls for material event awareness and notification).â€¢Laws and regulations that apply to outsourcing of services by our clients, and that set forth requirements for managing third parties (e.g., vendors, contractors, suppliers and distributors).â€¢Laws and regulations relating to the environmental, social and governance, or sustainability, practices of companies, including enhanced climate-related disclosure requirements from regulators, such as California and the SEC, and the E.U.â€™s Corporate Sustainability Reporting Directive.We are also subject to federal and state laws that are generally applicable to any U.S. business with national or international operations, such as antitrust laws, the Foreign Corrupt Practices Act, the Americans with Disabilities Act, state unfair or deceptive practices acts and various employment laws.12Table of ContentsHUMAN CAPITAL RESOURCESOur PeopleAs of September 30, 2024, we employed 3,586 persons across 27 countries. Of these, our largest representation includes 1,309 (36%) based in the U.S., 1,367 (38%) based in India and 264 (7%) based in the U.K. Other than to the extent mandated by applicable law in certain foreign jurisdictions, none of our employees are covered by a collective bargaining agreement, and no work stoppages were experienced during fiscal 2024.Our Board of Directors (our â€œBoardâ€) and executive leadership team believe that our people are vital to our success. The Leadership Development and Compensation Committee (the â€œLDCCâ€) of our Board oversees all human capital management policies, programs, and strategies, including but not limited to those regarding talent recruitment, development, retention, health and safety, organizational culture, employee engagement, diversity, and compensation and benefit programs. The LDCC also periodically reviews and reports to the Board with respect to succession planning for our Chief Executive Officer and other senior management positions. In addition, our Chief Human Resources Officer reports to our Board periodically on people-focused programs.Employee EngagementFor the past decade, we have conducted quarterly workforce surveys to measure employee engagement and gain feedback and insights from our people about ways to improve the employee experience and the effectiveness of our business operations. Detailed findings from these surveys are promptly communicated to all employees, individual managers, the executive team and our Board and the findings are leveraged to drive positive organizational change. We involve designated human resources business partners and learning consultants who work with senior leaders to explore findings, identify high value actions and amplify messaging to help our people understand how survey participation can connect to positive change.Examples of organizational changes that have been driven by the insights from these surveys include investments in expanded workforce capacity, policies designed to ensure applicant pools are appropriately diverse prior to hiring decisions taking place, broadened and more frequent company-wide communications, increased employee stock ownership by significantly expanding the recipients of equity-based awards, expanded benefit programs including paid parental leave, well-being, family building, childcare reimbursement and company-funded transportation programs, enhanced incentive plan funding, and expanded investments in professional development targeting leadership and technical skills, as well as culture-based initiatives to promote inclusiveness and belonging.Our engagement scores have steadily strengthened over the past year, and nearly all driver scores remain well above their published external benchmark. We have recently experienced a remarkably low undesired attrition rate which, over the past 12-month period, is the lowest we have experienced in decades and well below competitive market rates.Organizational CultureFICO is committed to building and reinforcing a culture where individual differences and perspectives are valued. We believe that diverse teams can better relate to and deliver against the many and varied needs of our clients. We also believe that promoting a culture where individual differences are both welcomed and valued allows us to attract the best talent while allowing people to reach their full potential.Foundationally, we have adopted a â€œCommitment to Inclusion and Belonging Policyâ€ which provides that all employment-related decisions be made in compliance with established equal opportunity statutes. Accordingly, all decisions to employ, transfer, promote, train, compensate, or otherwise provide access to benefit programs are to be made in accordance with these statutes. In addition, in the U.S. we have established an Affirmative Action Program and underlying plans for office locations with 50 or more employees to formally measure, report on, and identify needed actions to close any gaps involving the utilization and advancement of women, minorities, disabled persons, and veterans. All employees receive mandatory training and testing on this and other foundational and compliance policies during the on-boarding process and every two years thereafter, with people managers receiving training regarding their unique leadership responsibilities. As examples, we have a mandatory training program to identify, prevent and combat prohibited harassment, as well as training and â€œdialogue sessionsâ€ designed to build understanding of unconscious biases and strategies to overcome them.13Table of ContentsBuilding on this foundation, we sponsor and provide dedicated funding to multiple employee resource groups (â€œERGsâ€) that help support our goals of workforce engagement and a strong sense of inclusion and belonging. FICO ERGs focus on women, race/ethnicity, LGBTQ+, and community support groups. All FICO ERGs are open to everyone at FICO to join. Our FICO Cares ERG encourages our people to connect with and contribute to their community. We encourage employees to participate in volunteer activities by providing work schedule flexibility and paid Community Volunteer Leave. We also encourage and match employee cash donations to qualified charitable organizations through our Corporate Matching Gift Program.Across our global workforce, as of September 30, 2024, the percentage of males and females was 67% and 33%, respectively. Looking at our U.S. workforce, as of September 30, 2024, 45% were racially/ethnically diverse employees who are members of a protected class.As one strategy to accelerate progress in expanding workforce diversity, we engage in targeted campus recruiting efforts. In the U.S., we maintain and continue to expand our partnership with the Management Leadership for Tomorrow (MLT.org) organization which helps us connect with racially diverse college students for summer internships followed by offers of full-time employment upon graduation. Also in the U.S., our FICO Educational Analytics Challenge program involves close partnerships with Historically Black Colleges and Universities through which we sponsor data science-focused projects with these experiences helping to fuel diversity recruiting efforts. In addition, our campus recruiting program in India, which targets software engineering and data science graduates, has yielded a female hiring ratio averaging near 50% annually in each of the past several years, helping us increase the percentage of women in our organization. Additional information on our diversity programs and efforts are available on the Corporate Responsibility page of our website at www.fico.com/en/corporate-responsibility. Information contained on our website is not deemed part of or incorporated by reference into this Annual Report on Form 10-K.Talent RecruitmentWe leverage organizational culture as a competitive advantage in our efforts to attract people from the broadest possible talent pool. We deploy selection practices designed to ensure strong alignment between candidate qualifications and knowledge and skills needed for success in each role, while avoiding unconscious biases through hiring manager education and use of decision tools. We have adopted a policy that seeks a level of qualified applicant pool diversity to be achieved prior to offer extension as a strategy for building workforce diversity along with high quality hires. Further, in the U.S., we detail our targeted base pay ranges on all public job postings and prohibit our recruiters from inquiring about a candidateâ€™s current level of compensation. Our focus on the professional development of our people drives the internal posting of virtually all job opportunities. And, consistent with our remarkably low undesired attrition rate, FICO has significantly strengthened its position as an employer of choice over the past year, resulting in very attractive external candidate pools.Professional DevelopmentTo support professional development, we offer a structured onboarding program with training specific to a variety of identified career paths to help new employees become rapidly engaged and productive. We have invested in building the FICO Integrated Learning Organization (â€œILOâ€), which is led by our Chief Learning Officer. The ILO develops customized learning content for colleagues, clients and partners around the world. We deliver high quality, targeted new hire onboarding, technology and product skill training, compliance and management and leadership education through this â€œFICO Learningâ€ platform. This allows our employees to obtain the knowledge and skills to effectively perform in their current roles, while also preparing them for new opportunities. We also offer financial support for degreed or certificated programs through a tuition reimbursement program.We have defined specific career paths for all major functions in our organization so that our people understand how they can progress in their career by expanding their knowledge and skills. In doing so, our job titling system reflects both individual contributor (or technical) career tracks and people management career tracks to reinforce our philosophy that people can grow professionally in either track. To further consistent administration, we conduct annual company-wide performance reviews supported by the use of performance rubrics for each major function. These rubrics set forth clear behavioral expectations for each function through a set of objective descriptors organized across our three levels of performance (Improvement Needed, Achieved Expectations, and Outstanding). In addition to rubrics, outcome-based goals are established for each individual based upon his/her specific role and priorities. Evaluation across both behavioral and outcome-based dimensions yields an overall performance assessment.14Table of ContentsWe define a â€œpromotionâ€ as an increase in pay band linked to the proven ability to be successful in the next level of responsibility. Our structured promotion process takes place twice annually with promotions to all job levels including senior job levels occurring with our year-end cycle (October/November) and promotions to lower and middle job levels taking place with our mid-year cycle (April/May). This process supports an integrated approach yielding improved consistency in promotion decisions, including that all groups are representatively recognized. Approximately 20% of our people are recognized via promotion each year.Succession PlanningWe actively assess talent across the organization to optimize deployment of resources, encourage professional development, drive accountability, and identify and take actions to mitigate undesired attrition risk. At the mid-point of each fiscal year, talent assessments are performed by people managers for each team member. These assessments include a mid-year performance rating and a leadership strength rating, the combination of which yields a Talent Management Score ranging from one to nine with recommended follow-up actions associated with each score. In addition, managers identify any significant attrition risks and underlying drivers and develop related mitigation plans. Finally, for each senior leader role, managers identify potential successor candidates along with targeted development needs to encourage readiness.For vice president-level roles, the executive team plays a central role through a process we refer to as â€œSession C.â€ This process involves a detailed evaluation of each vice president incumbent using several tools including a personal biography written by the incumbent identifying key accomplishments, career growth aspirations, and champions that can articulate their contributions. In addition, managers complete a Leader Profile for each vice president incumbent highlighting key strengths, development progress over the past year, go-forward development plans, attrition risks and drivers, and succession insights. All of these materials are centrally reviewed and discussed by the executive team during a multi-day meeting. After discussing incumbent vice presidents, the executive team evaluates any proposed candidates for promotion to vice president using a combination of promotion recommendation forms prepared by the sponsoring manager, a 360-degree performance evaluation involving self-evaluation, manager evaluation, direct report evaluation, and insights gathered from key stakeholders. Candidates for vice president-level promotion are placed â€œon-deckâ€ for a one- to three-year period for observation prior to any promotion decision being finalized. This approach drives high quality, consistent decisions while ensuring our highest potential candidates are properly developed and ready when promoted.Compensation and Benefit ProgramsWe regularly participate in market-based compensation surveys, seek the advice of outside experts, and leverage new hire, peer equity, and unplanned attrition trend data to ensure that our base pay and incentive structures are competitive. We create a strong sense of shared purpose by having our CEO and each member of our executive leadership team participate in the same annual cash incentive bonus plan, as all non-sales employees across our organization.Beyond our structured promotion cycles, all compensation actions are determined in November following the conclusion of the year-end performance review process in October. This includes promotion and market-based base pay adjustments, annual bonus awards, and long-term incentive awards. This rewards-planning cycle ensures strong linkage between performance and rewards, and it allows for centralized review and refinement of reward recommendations leading to high quality and representative decisions.Over the course of the past decade, weâ€™ve steadily and significantly expanded participation in our annual performance-based equity program from 7% to just over 33% of our workforce. In addition, we offer an Employee Stock Purchase Plan for eligible employees, which is designed to promote even broader equity participation.We offer competitive health and welfare benefit plans with significant company subsidies to offset premiums, retirement plans with a competitive company match to encourage participation and flexible paid-time-off programs including vacation, sick time and disability time. We have paid Maternity and Parental Leave benefits totaling up to 12 weeks, and we have adopted a Well-Being Program designed to provide broad-based physical and mental health education and personal health coaching, as well as quarterly cash Wellness Awards designed to help employees fund wellness-related purchases which they find most valuable. In addition, we have a global Family Building Benefit program, which provides infertility, cryopreservation, surrogacy and adoption support services. In India, we have a Childcare Reimbursement program to assist parents of young children.Promoting a Healthy and Safe Work EnvironmentWe are committed to providing a safe and healthy workplace. We continuously strive to meet or exceed compliance with all laws, regulations and accepted practices pertaining to workplace safety. All employees and contractors are required to comply with established safety policies, standards, and procedures.15Table of ContentsWe foster a healthy work/life balance for our people via both remote and hybrid work location policies that provide significant flexibility surrounding work location and work schedules. We have also substantially reduced employee travel to only essential business needs in favor of ongoing video-based meetings.Item 1A. Risk FactorsBusiness, Market and Strategy RisksWe may not be successful in executing the business strategy for our Software segment, which could cause our growth prospects and results of operations to suffer.We have increasingly focused our Software segmentâ€™s business strategy on investing significant development resources to enable substantially all of our software to run on FICOÂ® Platform, our modular software offering designed to enable advanced analytics and decisioning use cases. This business strategy is designed to enable us to increase our business by selling multiple connectable and extensible products to clients, as well as to enable the development of custom client solutions and to allow our clients to more easily expand their usage and the use cases they enable over time. The market may be unreceptive to our general business approach, including being unreceptive to our cloud-based offerings, unreceptive to purchasing multiple products from us, or unreceptive to our customized solutions. As we continue to pursue this business strategy, we may experience volatility in our Software segmentâ€™s revenues and operating results caused by various factors, including the differences in revenue

recognition treatment and timing between our cloud-based offerings and on-premises software licenses, the timing of investments and other expenditures necessary to develop and operate our cloud-based offerings, and the adoption of new sales, delivery and distribution methods. If this business strategy is not successful, we may not be able to grow our Software segmentâ€™s business, growth may occur more slowly than we anticipate, or revenues and profits may decline.We derive a substantial portion of our revenues from a small number of products and services, and if the market does not continue to accept these products and services, our revenues will decline.We expect that revenues derived from our scoring solutions, fraud solutions, customer communication services, customer management solutions and decision management software will continue to account for a substantial portion of our total revenues for the foreseeable future. Our revenues will decline if the market does not continue to accept these products and services. Factors that might affect the market acceptance of these products and services include the following:â€¢changes in the business analytics industry;â€¢changes in technology;â€¢our inability to obtain or use key data for our products;â€¢saturation or contraction of market demand;â€¢loss of key customers;â€¢industry consolidation;â€¢failure to successfully adopt cloud-based technologies;â€¢our inability to obtain regulatory approvals for our products and services, including credit score models;â€¢the increasing availability of free or relatively inexpensive consumer credit, credit score and other information from public or commercial sources;â€¢failure to execute our selling approach; andâ€¢inability to successfully sell our products in new vertical markets.16Table of ContentsIf we are unable to successfully develop new products or new versions of products, or if we experience defects, failures or delays associated with the introduction of new products or of new versions of products, our business could suffer serious harm.Our growth and the success of our business strategy depend upon our ability to develop and sell new products and new versions of products, including the development and sale of our cloud-based product offerings and our scoring solutions. If we are unable to develop new or enhanced products, or if we are not successful in introducing new or enhanced products, we may not be able to grow our business or growth may occur more slowly than we anticipate. In addition, significant undetected errors or delays in new products or new versions of products may affect market acceptance of our products and could harm our business, financial condition or results of operations. In the past, we have experienced delays while developing and introducing new products and product enhancements, primarily due to difficulties developing models, acquiring data, and adapting to particular software operating environments and certain client or other systems. We have also experienced errors or â€œbugsâ€ in our software products, despite testing prior to release of the products. Software errors in our products could affect the ability of our products to work with other hardware or software products, could delay the development or release of new products or new versions of products, and could adversely affect market acceptance of our products. Errors or defects in our products that are significant, or are perceived to be significant, could result in rejection of our products, damage to our reputation, loss of revenues, diversion of development resources, an increase in product liability claims, and increases in service and support costs and warranty claims.Our ability to increase our revenues will depend to some extent upon introducing new products and services and upon introducing enhancements and improvements to existing products and services. If the marketplace does not accept these new, enhanced or improved products and services, our revenues may decline.To increase our revenues, we must enhance and improve existing products and services, and continue to introduce new products and services that keep pace with technological developments, satisfy increasingly sophisticated customer requirements and achieve market acceptance. We believe much of the future growth of our business and the success of our business strategy will rest on our ability to continue to expand into newer markets for our products and services. Such areas are relatively new to our product development and sales and marketing personnel. Products and services that we plan to market in the future are in various stages of development. We cannot assure you that the marketplace will accept these products and services. If our current or potential customers are not willing to switch to or adopt our new products and services, either as a result of the quality of these products and services or due to other factors, such as economic conditions, our revenues will decrease.We rely on relatively few customers, as well as our contracts with the three major consumer reporting agencies, for a significant portion of our revenues and profits. Many of our customers are significantly larger than we are and may have greater bargaining power. The businesses of our largest customers depend, in large part, on favorable macroeconomic conditions. If these customers are negatively impacted by weak global economic conditions, global economic volatility or the terms of these relationships otherwise change, our revenues and operating results could decline.Most of our customers are relatively large enterprises, such as banks, credit card issuers, insurers, retailers, telecommunications providers, automotive lenders, consumer reporting agencies, public agencies, and organizations in other industries. As a result, many of our customers and potential customers are significantly larger than we are and may have sufficient bargaining power to demand reduced prices and favorable nonstandard terms.In addition, the U.S. and other key international economies have periodically experienced downturns in which economic activity is impacted by falling demand for a variety of goods and services, increased volatility of interest rates, fluctuating rates of inflation, restricted credit, poor liquidity, reduced corporate profitability, volatility in credit, equity and foreign exchange markets, bankruptcies and overall uncertainty with respect to the economy. The potential for economic disruption presents considerable risks to our business, including potential bankruptcies or credit deterioration of financial institutions with which we have substantial relationships. Economic disruption could result in a decline in the sales of new products to our customers and the volume of transactions that we execute for existing customers. In addition, the volume of our Scores sales depends heavily on macroeconomic conditions, including, for example, the volume of transactions in the U.S. mortgage and credit card markets, which account for a significant portion of the revenues in our Scores segment.We also derive a substantial portion of our Scores segment revenues and operating income from our contracts with the three major consumer reporting agencies in the U.S., Experian, TransUnion and Equifax, and other parties that distribute our products to certain markets. The loss of or a significant change in a relationship with one of the three consumer reporting agencies with respect to their distribution of our products or with respect to our myFICOÂ® offerings, the loss of or a significant change in a relationship with a major customer, the loss of or a significant change in a relationship with a significant third-party distributor (including payment card processors), or the loss of or delay of significant revenues from these sources, could have a material adverse effect on our revenues and results of operations.17Table of ContentsOur revenues depend, to a great extent, upon conditions in the banking (including consumer credit) industry. If our clientsâ€™ industry experiences uncertainty, it will likely harm our business, financial condition or results of operations. During fiscal 2024, 92% of our revenues were derived from sales of products and services to the banking industry. Periods of global economic uncertainty experienced in the past have produced substantial stress, volatility, illiquidity and disruption of global credit and other financial markets, resulting in the bankruptcy or acquisition of, or government assistance to, several major domestic and international financial institutions. The potential for future stress and disruptions, including in connection with geopolitical tensions, military conflicts, the level of inflation and the volatility of interest rates, presents considerable risks to our businesses and operations. These risks include potential bankruptcies or credit deterioration of financial institutions, many of which are our customers. Such disruption would result in a decline in the revenue we receive from financial and other institutions. In addition, if consumer demand for financial services and products and the number of credit applications decrease, the demand for our products and services could also be materially reduced. These types of disruptions could lead to a decline in the volumes of products and services we provide our customers and could negatively impact our revenue and results of operations.While the rate of account growth in the U.S. banking industry has been slow, we have generated most of our revenue growth in the banking industry by selling and cross-selling our products and services to large banks and other credit issuers. If the banking industry experiences contraction in the number of participating institutions, we may have fewer opportunities for revenue growth due to reduced or changing demand for our products and services that support customer acquisition programs of our customers. In addition, industry contraction could affect the base of recurring revenues derived from contracts in which we are paid on a per-transaction basis as formerly separate customers combine their operations under one contract. There can be no assurance that we will be able to prevent future revenue contraction or effectively promote future revenue growth in our businesses.While we expand our sales into international markets, the risks are greater as these markets are also experiencing substantial disruption and we are less well-known in them.If use of the FICOÂ® Score by Fannie Mae and Freddie Mac were to cease or decline, it could have a material adverse effect on our revenues, results of operations and stock price.A significant portion of our revenues in our Scores segment is attributable to the U.S. mortgage market, which includes, for mortgages eligible for purchase by The Federal National Mortgage Association (â€œFannie Maeâ€) and The Federal Home Loan Mortgage Corporation (â€œFreddie Macâ€), a requirement by those enterprises that U.S. lenders provide FICOÂ® Scores for each mortgage delivered to them. However, their continued use of the FICO Score is subject to ongoing validation and approval by those enterprises and the Federal Housing Finance Agency (â€œFHFAâ€). If other credit score models are approved for use with mortgages delivered to Fannie Mae and Freddie Mac, or the FICO Score is not approved for continued use with those mortgages, it could have a material adverse effect on our revenues, results of operations and stock price. Other changes implemented by FHFA, Fannie Mae or Freddie Mac could also affect the demand for FICO Scores and thus could have similar adverse effects on our business, including, for example, a change permitting mortgage originators to underwrite loans using credit scores from only two of the three national consumer reporting agencies (a â€œbi-merge reportâ€) rather than from all three (a â€œtri-merge reportâ€).We are subject to significant competition in the markets in which we operate, and our products and pricing strategies, and those of our competitors, could decrease our product sales and market share.Demand for our products and services may be sensitive to product and pricing changes we implement, and our product and pricing strategies may not be accepted by the market. If our customers fail to accept our product and pricing strategies, our revenues, results of operations and business may suffer. The market for our solutions is intensely competitive and is constantly changing, and we expect competition to persist and intensify. Our regional and global competitors vary in size and in the scope of the products and services they offer, and include:â€¢in-house analytic and systems developers; â€¢neural network developers and artificial intelligence system builders; â€¢fraud solutions providers; â€¢scoring model builders; â€¢providers of credit reports and credit scores;â€¢software companies supplying predictive analytic modeling, rules, or analytic development tools;â€¢entity resolution and social network analysis solutions providers;â€¢providers of customer engagement and risk management solutions;18Table of Contentsâ€¢providers of account workflow management software;â€¢business process management and decision rules management providers;â€¢enterprise resource planning and customer relationship management solutions providers;â€¢business intelligence solutions providers;â€¢providers of automated application processing services; and â€¢third-party professional services and consulting organizations.We expect to experience additional competition from other established and emerging companies. This could include customers of ours that develop their own scoring models or other products, and as a result no longer purchase or reduce their purchases from us. We also expect to experience competition from other technologies. For example, certain of our fraud solutions products compete against other methods of preventing payment card fraud, such as cardholder verification and authentication solutions; mobile device payments and associated biometric measures on devices including fingerprint and face matching; and other card authorization and user verification techniques.Many of our existing and anticipated competitors have greater financial, technical, marketing, professional services and other resources than we do, and industry consolidation is creating even larger competitors in many of our markets. As a result, our competitors may be able to respond more quickly to new or emerging technologies and changes in customer requirements. They may also be able to devote greater resources than we can to develop, promote and sell their products. Many of these companies have extensive customer relationships, including relationships with many of our current and potential customers. For example, Experian, TransUnion and Equifax have formed a joint venture that is selling a credit scoring product competitive with our products. Furthermore, new competitors or alliances among competitors may emerge and rapidly gain significant market share. If we are unable to respond as quickly or effectively to changes in customer requirements as our competition, our ability to expand our business and sell our products will be negatively affected.Our competitors may be able to sell existing or new products competitive to ours at lower prices individually or as part of integrated suites of several related products. This ability may cause our customers to purchase products that directly compete with our products from our competitors, which could decrease our product sales and market share. Price reductions by our competitors could pressure us to reduce our product prices in a manner that negatively impacts our margins and could also harm our ability to obtain new long-term contracts and renewals of existing long-term contracts on favorable terms.We rely on relationships with third parties for marketing, distribution and certain services. If we experience difficulties in these relationships, including competition from these third parties, our future revenues may be adversely affected.Many of our products are sold by distributors or partners, and we intend to continue to market and distribute our products through these existing distributor and partner relationships, as well as invest resources to develop additional sales, distribution and marketing relationships. Our Scores segment relies on, among others, Experian, TransUnion and Equifax. Failure of our existing and future distributors to generate significant revenues or otherwise perform their expected services or functions, demands by such distributors to change the terms on which they offer our products, or our failure to establish additional distribution or sales and marketing alliances, could have a material adverse effect on our business, operating results and financial condition. In addition, certain of our distributors presently compete with us and may compete with us in the future, either by developing competitive products themselves or by distributing competitive offerings. For example, Experian, TransUnion and Equifax have developed a credit scoring product to compete directly with our products and are actively selling that product. Competition from distributors or other sales and marketing partners could significantly harm sales of our products and services.We will continue to rely upon proprietary technology rights, and if we are unable to protect them, our business could be harmed.Our success depends, in part, upon our proprietary technology and other intellectual property rights. To date, we have relied primarily on a combination of copyright, patent, trade secret, and trademark laws, and nondisclosure and other contractual restrictions on copying and distribution, to protect our proprietary technology. This protection of our proprietary technology is limited, and our proprietary technology could be used by others without our consent. In addition, patents may not be issued with respect to our pending or future patent applications, and our patents may not be upheld as valid or may not prevent the development of competitive products. Any disclosure, loss, invalidity of, or failure to protect our intellectual property could negatively impact our competitive position, and ultimately, our business. There can be no assurance that our protection of our intellectual property rights in the U.S. or abroad will be adequate or that others, including our competitors, will not use our proprietary technology without our consent. Furthermore, litigation may be necessary to enforce our intellectual property rights, to protect our trade secrets, or to determine the validity and scope of the proprietary rights of others. Such litigation could result in substantial costs and diversion of resources and could harm our business, financial condition or results of operations.19Table of ContentsSome of our technologies were developed under research projects conducted under agreements with various U.S. government agencies or subcontractors. Although we have commercial rights to these technologies, the U.S. government typically retains ownership of intellectual property rights and licenses in the technologies developed by us under these contracts, and in some cases can terminate our rights in these technologies if we fail to commercialize them on a timely basis. Under these contracts with the U.S. government, the results of research may be made public by the government, limiting our competitive advantage with respect to future products based on our research.If we are unable to access new markets or develop new sales and distribution channels, our business and growth prospects could suffer.We expect our future growth to depend, in part, on the sale of products and service solutions in industries and markets we do not currently serve. We also expect to grow our business by delivering our solutions through additional sales and distribution channels. If we fail to penetrate these industries and markets to the degree we anticipate, or if we fail to develop additional sales and distribution channels, we may not be able to grow our business, growth may occur more slowly than we anticipate, or our revenues and profits may decline.If we fail to keep up with rapidly changing technologies, our products could become less competitive or obsolete.In our markets, technology changes rapidly, and there are continuous improvements in computer hardware, network operating systems, programming tools, programming languages, operating systems, database technologies, cloud-based technologies and the use of the Internet. For example, artificial intelligence technologies, including generative artificial intelligence, and their use are currently undergoing rapid change. If we fail to enhance our current products and develop new products in response to changes in technology or industry standards, or if we fail to bring product enhancements or new product developments to market quickly enough, our products could rapidly become less competitive or obsolete. Our future success will depend, in part, upon our ability to:â€¢innovate by internally developing new and competitive technologies;â€¢use leading third-party technologies effectively;â€¢continue to develop our technical expertise;â€¢anticipate and effectively respond to changing customer needs;â€¢initiate new product introductions in a way that minimizes the impact of customers delaying purchases of existing products in anticipation of new product releases; andâ€¢influence and respond to emerging industry standards and other technological changes.Our reengineering efforts may cause our growth prospects and profitability to suffer.As part of our management approach, we pursue ongoing reengineering efforts designed to grow revenues through strategic resource allocation and improve profitability through cost reductions. Our reengineering efforts may not be successful over the long term should we fail to reduce expenses or increase revenues to anticipated levels or at all. If our reengineering efforts are not successful over the long term, our revenues, results of operations and business may suffer.There can be no assurance that strategic divestitures will provide business benefits.As part of our strategy, we continuously evaluate our portfolio of businesses. As a result of these reviews, we have made decisions to divest certain products and lines of business, and we may do so again in the future. These divestitures involve risks, including:â€¢disruption of our operations or businesses;â€¢

¢reductions of our revenues or earnings per share;â€¢difficulties in the separation of operations, services, products and personnel;â€¢failure to effectively transfer liabilities, contracts, facilities and employees to a purchaser;â€¢divestiture terms that contain potential future purchase price adjustments or require that assets or liabilities be divested, managed or run off separately;â€¢diversion of management's attention from our other businesses;â€¢the potential loss of key personnel;â€¢adverse effects on relationships with our customers, suppliers or their businesses; â€¢the erosion of employee morale or customer confidence; andâ€¢the retention of contingent liabilities and the possibility that we will become subject to third-party claims related to the divested business.20Table of ContentsIf we do not successfully manage the risks associated with divestitures, our business, financial condition, and results of operations could be adversely affected as the potential strategic benefits may not be realized or may take longer to realize than expected.Our acquisition activities may disrupt our ongoing business and may involve increased expenses, and we may not realize the financial and strategic goals contemplated at the time of a transaction.We have acquired, and may in the future acquire, companies, businesses, products, services and technologies. Acquisitions involve significant risks and uncertainties, including:â€¢our ongoing business may be disrupted and our managementâ€™s attention may be diverted by acquisition, transition or integration activities;â€¢an acquisition may not further our business strategy as we expected, we may not integrate acquired operations or technology as successfully as we expected or we may overpay for our investments, or otherwise not realize the expected return, which could adversely affect our business or operating results;â€¢we may be unable to retain the key employees, customers and other business partners of the acquired operation;â€¢we may have difficulties entering new markets where we have no or limited direct prior experience or where competitors may have stronger market positions;â€¢our operating results or financial condition may be adversely impacted by known or unknown claims or liabilities we assume in an acquisition or that are imposed on us as a result of an acquisition, including claims by government agencies or authorities, terminated employees, current or former customers, former stockholders or other third parties;â€¢we could incur material charges in connection with the impairment of goodwill or other assets that we acquire; â€¢a company that we acquire may have experienced a security incident that it has yet to discover, investigate and remediate which we might not be identify in a timely manner and which could spread more broadly to other parts of our company during the integration effort; â€¢we may incur material charges as a result of acquisition costs, costs incurred in combining and/or operating the acquired business, or liabilities assumed in the acquisition that are greater than anticipated;â€¢we may not realize the anticipated increase in our revenues from an acquisition for a number of reasons, including if a larger than predicted number of customers decline to renew their contracts, if we are unable to incorporate the acquired technologies or products with our existing product lines in a uniform manner, if we are unable to sell the acquired products to our customer base or if contract models of an acquired company or changes in accounting treatment do not allow us to recognize revenues on a timely basis;â€¢our use of cash to pay for acquisitions may limit other potential uses of our cash, including stock repurchases, and retirement of outstanding indebtedness; andâ€¢to the extent we issue a significant amount of equity securities in connection with future acquisitions, existing stockholders may be diluted and earnings per share may decrease.Because acquisitions are inherently risky, our transactions may not be successful and may have a material adverse effect on our business, results of operations, financial condition or cash flows. Acquisitions of businesses having a significant presence outside the U.S. will increase our exposure to the risks of conducting operations in international markets.Our revenues, results of operations and overall financial performance may be negatively impacted by health epidemics or other disease outbreaks.Our customers, and therefore our business and revenues, are sensitive to negative changes in general economic conditions and lending activities. Health epidemics or disease outbreaks could impact the rate of spending on our solutions and could adversely affect our customersâ€™ ability or willingness to purchase our products and services, cause prospective customers to change product selections or term commitments, delay or cancel their purchasing decisions, extend sales cycles, and potentially increase payment defaults, all of which could adversely affect our future revenues, results of operations and overall financial performance.21Table of ContentsOperational RisksIf our cybersecurity measures are compromised or unauthorized access to customer or consumer data is otherwise obtained, our products and services may be perceived as not being secure, customers may curtail or cease their use of our products and services, our reputation may be damaged and we could incur significant liabilities.Because our business requires the storage, transmission and utilization of sensitive consumer and customer information, we will continue to routinely be the target of attempted cybersecurity and other security threats by technically sophisticated and well-resourced outside third parties, among others, attempting to access or steal the data we store. Many of our products are provided by us through the Internet. We may be exposed to additional cybersecurity threats as we migrate our software solutions and data from our legacy systems to cloud-based solutions. We operate in an environment of significant risk of cybersecurity incidents resulting from unintentional events or deliberate attacks by third parties or insiders, which may involve exploiting security vulnerabilities or sophisticated attack methods. These threats include social engineering attacks, phishing attacks and other cyber-attacks, including state-sponsored cyber-attacks, industrial espionage, insider threats, denial-of-service attacks, computer viruses, ransomware and other malware, payment fraud or other cyber incidents. As a software and technology vendor, we may incorporate or distribute software or other materials from third parties. Attacks or other threats to our supply chain for such software and materials may render us unable to provide assurances of the origin of such software and materials, and could put us at risk of distributing software or other materials that may cause harm to ourselves, our customers or other third parties. In addition, increased attention on and use of artificial intelligence increases the risk of cyber-attacks and data breaches, which can occur more quickly and evolve more rapidly when artificial intelligence is used. Further, use of artificial intelligence by our employees, whether authorized or unauthorized, increases the risk that our intellectual property and other proprietary information will be unintentionally disclosed.Cybersecurity breaches could expose us to a risk of loss, the unauthorized disclosure of consumer or customer information, significant litigation, regulatory fines, penalties, loss of customers or reputational damage, indemnity obligations and other liability. There is no assurance that the programs, technologies and processes that we have put in place in an effort to maintain the security and protection of our non-public information and that of our customers will be fully implemented, complied with or effective. If our cybersecurity measures are breached as a result of third-party action, employee error, malfeasance or otherwise, and as a result, someone obtains unauthorized access to our systems or to consumer or customer information, sensitive data may be accessed, stolen, disclosed or lost, our reputation may be damaged, our business may suffer and we could incur significant liability. Because the techniques used to obtain unauthorized access, disable or degrade service or to sabotage systems change frequently and generally are not recognized until launched against a target, or even for some time after, we may be unable to anticipate these techniques, implement adequate preventative measures or remediate any intrusion on a timely or effective basis. Because a successful breach of our computer systems, software, networks or other technology asset could occur and persist for an extended period of time before being detected, we may not be able to immediately address the consequences of a cybersecurity incident.Malicious third parties may also conduct attacks designed to temporarily deny customers, distributors and vendors access to our systems and services. Cybersecurity breaches experienced by our vendors, by our distributors, by our customers, by companies that we acquire, or by us may trigger governmental notice requirements and public disclosures, which may lead to widespread negative publicity, statutory damages, and lawsuits filed by individuals impacted by cybersecurity breaches under privacy and cybersecurity statutes that create rights of action. We may also be affected by cybersecurity breaches experienced by customers who use our products on-premises, and those breaches may occur due to factors not under our control, including a customerâ€™s failure to timely install updates and fixes to our products, vulnerabilities in a customerâ€™s own cybersecurity measures, and other factors. Any cybersecurity breach, whether actual or perceived, could harm our reputation, erode customer confidence in the effectiveness of our security measures, negatively impact our ability to attract new customers, cause existing customers to curtail or cease their use of our products and services, cause regulatory or industry changes that impact our products and services, or subject us to third-party lawsuits, regulatory fines or other action or liability, all of which could materially and adversely affect our business and operating results.22Table of ContentsIf we experience business interruptions or failure of our information technology and communication systems, the availability of our products and services could be interrupted which could adversely affect our reputation, business and financial condition.Our ability to provide reliable products and services to our customers depends on the efficient and uninterrupted operation of our data centers, information technology and communication systems, and increasingly those of our external service providers. Any disruption of or interference with our use of data centers, information technology or communication systems of our external service providers would adversely affect our operations and our business. As we continue to grow our Software segmentâ€™s business, our dependency on the continuing operation and availability of these systems increases. Our systems and data centers, and those of our external service providers, could be exposed to damage or interruption. These interruptions can include software or hardware malfunctions, communication failures, outages or other failures of third-party environments or service providers, or be due to defective updates, fires, floods, earthquakes, pandemics, war, terrorist acts or civil unrest, power losses, equipment failures, supply chain disruptions, computer viruses, denial-of-service or other cybersecurity attacks, employee or insider malfeasance, human error and other events beyond our control. Any steps that we or our external service providers have taken to prevent or reduce disruption may not be sufficient to prevent an interruption of services and disaster recovery planning may not account for all eventualities.An operational failure or outage in any of these systems, or damage to or destruction of these systems, which causes disruptions in our services, could result in loss of customers, damage to customer relationships, reduced revenues and profits, refunds of customer charges and damage to our brand and reputation and may require us to incur substantial additional expense to repair or replace damaged equipment and recover data loss caused by the interruption. Any one or more of the foregoing occurrences could have a material adverse effect on our reputation, business, financial condition, cash flows and results of operations.The failure to obtain certain forms of model construction data from our customers or others could harm our business.Our business requires that we develop or obtain a reliable source of sufficient amounts of current and statistically relevant data to analyze transactions and update some of our products. In most cases, these data must be periodically updated and refreshed to enable our products to continue to work effectively in a changing environment. We do not own or control much of the data that we require, most of which is collected privately and maintained in proprietary databases. Customers and key business partners provide us with the data we require to analyze transactions, report results and build new models. Our business strategy depends in part upon our ability to access new forms of data to develop custom and proprietary analytic tools. If we fail to maintain sufficient data sourcing relationships with our customers and business partners, or if they decline to provide such data due to privacy, security, competitive concerns, regulatory concerns, or prohibitions or a lack of permission from their customers or partners, we could lose access to required data and our products. If this were to happen, our development of new products might become less effective. We could also become subject to increased legislative, regulatory or judicial restrictions or mandates on the collection, disclosure, transfer or use of such data, in particular if such data is not collected by our providers in a way that allows us to legally use the data. Third parties have asserted copyright and other intellectual property interests in these data, and these assertions, if successful, could prevent us from using these data. We may not be successful in maintaining our relationships with these external data source providers or in continuing to obtain data from them on acceptable terms or at all. Any interruption of our supply of data could seriously harm our business, financial condition or results of operations.The failure to recruit and retain qualified personnel could hinder our ability to successfully manage our business.Our business strategy and our future success will depend in large part on our ability to attract and retain experienced sales, consulting, research and development, marketing, technical support and management personnel. The labor market for these individuals, particularly in the complex technical disciplines of software engineering, data science, and cyber security, is very competitive due to the limited number of people available with the necessary technical skills and understanding to support our complex products and it may become more competitive with general market and economic improvement. We cannot be certain that our compensation strategies will be perceived as competitive by current or prospective employees. This and other competitive factors could impair our ability to recruit and retain personnel. We have experienced past difficulty in recruiting and retaining qualified personnel, especially in these intensely competitive technical skill areas, and we may experience future difficulty in recruiting and retaining such personnel, at a time when we may need additional staff to support expanded research and development efforts, new customers and/or increased customer needs. We may also recruit skilled technical professionals from other countries to work in the U.S., and from the U.S. and other countries to work abroad. Limitations imposed by immigration laws in the U.S. and abroad and the availability of visas in the countries where we do business could hinder our ability to attract necessary qualified personnel and harm our business and future operating results. There is a risk that even if we invest significant resources in attempting to attract, train and retain qualified personnel, we will not succeed in our efforts, and our business could be harmed. The failure of the value of our stock to appreciate may adversely affect our ability to use equity and equity-based incentive plans to attract and retain personnel, and may require us to use alternative forms of compensation for this purpose.23Table of ContentsLegal, Regulatory and Compliance RisksIncreased regulatory focus on U.S. residential mortgage closing costs may affect our ability to implement price changes for FICOÂ® Scores used in mortgage originations and thus limit the revenues and profitability of the FICO Score. If new laws, regulations or other governmental action affecting the FICO Score or our other products and services are implemented or carried out, it could adversely affect our business and results of operations. There has been increased focus in the U.S. by federal regulators such as the CFPB and the FTC, as well as the current presidential administration and some states, related to the transparency and fairness of certain fees charged to consumers and the impacts on the costs of consumer goods and services. For example, in May 2024, the CFPB launched a public inquiry to obtain information on fees charged by providers of mortgages and related settlement services in the U.S. residential mortgage market, including fees for credit reports and credit scores. The CFPB indicated that it is looking into why closing costs are increasing, who is benefiting, and how costs for borrowers and lenders could be lowered. If new laws, regulations or other governmental action result from this inquiry, or otherwise, that limit the fees that can be charged for credit scores by us, consumer reporting agencies, or end users of our FICOÂ® Scores, or that place other restrictions on the sale or distribution of credit scores, our ability in the future to increase pricing for FICO Scores used in mortgage originations may be impacted and thus the revenues and profitability of the FICO Score may be adversely affected and the growth of our Scores business may be constrained. There has also been increased focus more broadly on laws and regulations in the U.S. related to our business and the business of consumer reporting agencies, including by U.S. state and federal regulators such as the CFPB, relating to policy concerns with regard to the operation of consumer reporting agencies, the sale and distribution of credit scores and credit reports, the use and accuracy of credit and alternative data, the use of credit scores and fair lending, and the use, transparency, and fairness of algorithms, artificial intelligence, and machine learning in business processes. For example, the CFPB has indicated that it intends to issue rules under the FCRA that would extend the FCRA to certain business practices not currently subject to that statute. The costs and other burdens of compliance with such laws and regulations, and with new or revised laws and regulations that may be implemented addressing these topics, could negatively impact the use and adoption of our solutions, reduce overall demand for them, and harm our business, financial condition or results of operations.Laws and regulations in the U.S. and abroad that apply to us and/or to our customers may expose us to liability, cause us to incur significant expense, affect our ability to compete in certain markets, limit the profitability of or demand for our products, or render our products obsolete. If these laws and regulations require us to change our products and services, it could adversely affect our business and results of operations. New legislation or regulations, or changes to existing laws and regulations, may also negatively impact our business and increase our costs of doing business.Laws and governmental regulation affect how our business is conducted and, in some cases, subject us to the possibility of government supervision or enforcement and future lawsuits arising from our products and services. Laws and governmental regulations also influence our current and prospective customersâ€™ activities, as well as their expectations and needs in relation to our products and services. Laws and regulations that may affect our business and/or our current and prospective customersâ€™ activities include, but are not limited to, those in the following significant regulatory areas:â€¢Privacy and security laws and regulations that limit the use and disclosure, require security procedures, or otherwise apply to the collection, processing, storage, use and transfer of personal data of individuals (e.g., the U.S. Financial Services Modernization Act of 1999, also known as the Gramm Leach Bliley Act; identity theft, file freezing, security breach notification and similar state privacy laws; and the data protection laws of other countries such as the General Data Protection Regulation (the â€œGDPRâ€) in the European Union (â€œE.U.â€) and the United Kingdom (â€œU.K.â€));â€¢Laws and regulations relating to the privacy, security and transmission of protected health information of individuals, including the Health Insurance Portability and Accountability Act of 1996, as amended by the American Recovery and Reinvestment Act of 2009 (â€œHIPAAâ€) and the Health Information Technology for Economic and Clinical Health Act (â€œHITECHâ€) and their respective implementing regulations;â€¢Financial regulatory reform stemming from the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and the many regulations mandated by that Act, including regulations issued by, and the supervisory and investigative authority of, the Consumer Financial Protection Bureau (â€œCFPBâ€) with respect to enumerated federal consumer financial laws and unfair, deceptive, or abusive acts or practices (â€œUDAAPâ€);â€¢The application or extension of consumer protection laws, including implementing regulations (e.g., the Consumer Financial Protection Act, the Federal Trade Commission Act, the Truth In Lending Act and Regulation Z, the Fair Debt Collection Practices Act and Regulation F, the Servicemembers Civil Relief Act, the Military Lending

Act, and the Credit Repair Organizations Act, and similar state consumer protection laws);â€¢Use of data by creditors and consumer reporting agencies (e.g., the U.S. Fair Credit Reporting Act and similar state laws); 24Table of Contentsâ€¢Special requirements that may apply when we provide products or services directly or indirectly to U.S. federal, state and local government agencies (e.g., the Privacy Act of 1974, the Internal Revenue Serviceâ€™s Publication 4812, and the Federal Acquisition Regulation);â€¢Laws and regulations that limit the use of credit scoring models (e.g., state â€œmortgage triggerâ€ or â€œinquiriesâ€ laws, state insurance restrictions on the use of credit-based insurance scores, and the E.U. Consumer Credit Directive);â€¢Fair lending laws (e.g., the Equal Credit Opportunity Act and Regulation B, and the Fair Housing Act) and laws and regulations that may impose requirements relating to algorithmic fairness or accountability;â€¢The Cybersecurity Act of 2015; the U.S. Department of Commerceâ€™s National Institute of Standards and Technologyâ€™s Cybersecurity Framework; the Clarifying Lawful Overseas Use of Data Act; cyber incident notice requirements for banks and their service providers under rules and regulations issued by federal banking regulators; cybersecurity incident disclosure requirements for public companies under regulations issued by the SEC; and identity theft, file freezing, and similar state privacy laws;â€¢Laws and regulations related to extension of credit to consumers through the Electronic Fund Transfers Act and Regulation E, as well as nonâ€'governmental VISA and MasterCard electronic payment standards;â€¢Laws and regulations applicable to secondary market participants (e.g., Fannie Mae and Freddie Mac) that could have an impact on our scoring products and revenues, including 12 CFR Part 1254 (Validation and Approval of Credit Score Models) issued by the FHFA in accordance with Section 310 of the Economic Growth, Regulatory Relief, and Consumer Protection Act (Public Law 115-174), and any regulations, standards or criteria established pursuant to such laws or regulations, including the ongoing validation and approval of the use of the FICOÂ® Score by Fannie Mae, Freddie Mac, and the FHFA;â€¢Laws and regulations applicable to our customer communication clients and their use of our products and services (e.g., the Telemarketing Sales Rule, Telephone Consumer Protection Act, the CAN-SPAM Act, the Fair Debt Collection Practices Act, and regulations promulgated thereunder, and similar state laws and similar laws in other countries);â€¢Laws and regulations applicable to our insurance clients and their use of our insurance products and services;â€¢Laws and regulations governing the use of the Internet and social media, telemarketing, advertising, endorsements and testimonials; â€¢Anti-money laundering laws and regulations (e.g., the Bank Secrecy Act and the USA PATRIOT Act);â€¢Laws and regulations restricting transactions with sanctioned parties and regarding export controls as they apply to FICO products delivered in non-U.S. countries or to foreign nationals (e.g., Office of Foreign Asset Control sanctions and Export Administration Regulations);â€¢Anti-bribery and corruption laws and regulations (e.g., the Foreign Corrupt Practices Act and the UK Bribery Act 2010); â€¢Financial regulatory standards (e.g., Sarbanes-Oxley Act requirements to maintain and verify internal process controls, including controls for material event awareness and notification); â€¢Laws and regulations that apply to outsourcing of services by our clients, and that set forth requirements for managing third parties (e.g., vendors, contractors, suppliers and distributors); andâ€¢Laws and regulations relating to the environmental, social and governance, or sustainability, practices of companies, including enhanced climate-related disclosure requirements from regulators, such as California and the SEC, and the E.U.â€™s Corporate Sustainability Reporting Directive.Many U.S. and foreign jurisdictions have passed, or are currently contemplating, a variety of consumer protection, data privacy, and cyber and data security laws and regulations that may relate to our business or the business of our customers or affect the demand for our products and services. For example, the GDPR in the E.U. and the U.K. imposes strict obligations and restrictions on the collection and use of E.U. and U.K. personal data, and also on the transfer of such data to countries that have not been determined by the E.U. or the U.K. to provide adequate data privacy protections, unless there are additional approved transfer safeguards in place (such as the use of â€œstandard contractual clausesâ€ and the performance of appropriate data transfer impact assessments). Our implementation of processes to meet such requirements for affected data flows may involve additional compliance costs associated with maintaining appropriate regulatory certifications, performing any necessary assessments, engaging in contract negotiations with third parties and implementing approved standard contractual clauses, and/or (if appropriate) localizing certain data processing activities. Furthermore, such data transfer restrictions, which may involve interpretive issues, may have an adverse impact on cross-border transfers of personal data and may subject us and our customers to additional scrutiny from E.U. or U.K. data protection authorities.Numerous other countries have introduced and, in some cases, enacted, similar data privacy and cyber and data security laws.25Table of ContentsThe California Consumer Privacy Act of 2018 (â€œCCPAâ€) gives California residents certain privacy rights in the collection and disclosure of their personal information and requires businesses to make certain disclosures and take certain other acts in furtherance of those rights. Additionally, effective January 1, 2023, the California Privacy Rights Act (the â€œCPRAâ€) revised and significantly expanded the scope of the CCPA. The CPRA also created a new agency, the California Privacy Protection Agency, authorized to implement and enforce the CCPA and the CPRA. Numerous other U.S. states have considered similar privacy laws, with many of those states having passed such laws with respective effective dates ranging from 2023 through 2026. The European Commission has finalized the EU AI Act, which establishes requirements for the provision and use of products that leverage artificial intelligence systems, including in credit scoring. The EU AI Act entered into force on August 1, 2024, and its provisions take effect between six and 36 months after that date, with most of those provisions becoming effective in 2026. Other countries, as well as the executive branch of the U.S. government and a number of U.S. states, are considering or have implemented regulations or standards applicable to the provision and use of artificial intelligence technologies. The costs and other burdens of compliance with such laws and regulations, along with the potential for increased regulatory actions, could negatively impact the use and adoption of our solutions and reduce overall demand for them. Additionally, concerns regarding data privacy and cyber and data security may cause our customers, or their customers and potential customers, to resist providing the data necessary to allow us to deliver our solutions effectively. Even the perception that the privacy or security of personal information is not satisfactorily protected or does not meet regulatory requirements could inhibit sales of our solutions and any failure to comply with such laws and regulations could lead to significant fines, penalties or other liabilities. Any such decrease in demand or incurred fines, penalties or other liabilities could have a material adverse effect on our business, results of operations, and financial condition.In addition to existing laws and regulations, changes in the U.S. or foreign legislative, judicial, regulatory or consumer environments could harm our business, financial condition or results of operations. The laws and regulations above, and changes to them or their interpretation by the courts, could affect the demand for or profitability of our products, including scoring and consumer products. New laws and regulations pertaining to our customers could cause them to pursue new strategies, reducing the demand for our products. We expect there will continue to be an increased focus on laws and regulations related to our business and/or the business of our clients, including with regard to the operation of consumer reporting agencies, the collection, use, accuracy, correction and sharing of personal information, credit scoring, the use of artificial intelligence and machine learning, and algorithmic accountability and fair lending.If we are subject to infringement claims, it could harm our business.Products in the industry segments in which we compete, including software products, are often subject to claims of patent and other intellectual property infringement, and such claims could increase as the number of products and competitors in our industry segments grow. We may need to defend claims that our products infringe intellectual property rights, and as a result we may:â€¢incur significant defense costs or substantial damages;â€¢be required to cease the use or sale of infringing products;â€¢expend significant resources to develop or license a substitute non-infringing technology;â€¢discontinue the use of some technology; orâ€¢be required to obtain a license under the intellectual property rights of the third-party claiming infringement, which license may not be available or might require substantial royalties or license fees that would reduce our margins.Moreover, in recent years, individuals and groups that are non-practicing entities, commonly referred to as â€œpatent trolls,â€ have purchased patents and other intellectual property assets for the purpose of making claims of infringement in order to extract settlements. From time to time, we may receive threatening letters or notices or may be the subject of claims that our solutions and underlying technology infringe or violate the intellectual property rights of others. Responding to such claims, regardless of their merit, can be time consuming, costly to defend in litigation, divert management's attention and resources, damage our reputation and brand, and cause us to incur significant expenses.26Table of ContentsGlobal Operational RisksIn operations outside the U.S., we are subject to additional risks that may harm our business, financial condition or results of operations.A large portion of our revenues is derived from international sales. During fiscal 2024, 27% of our revenues were derived from business outside the U.S. As part of our growth strategy, we plan to continue to pursue opportunities outside the U.S., including opportunities in countries with economic systems that are in early stages of development and that may not mature sufficiently to result in growth for our business. Accordingly, our future operating results could be negatively affected by a variety of factors arising out of international commerce, some of which are beyond our control. These factors include:â€¢general economic and political conditions in countries where we sell our products and services;â€¢difficulty in staffing and efficiently managing our operations in multiple geographic locations and in various countries;â€¢effects of a variety of foreign laws and regulations, including restrictions on access to personal information; â€¢data privacy and consumer protection laws and regulations;â€¢import and export licensing requirements;â€¢longer payment cycles;â€¢difficulties in enforcing contracts and collecting accounts receivable;â€¢reduced protection for intellectual property rights;â€¢currency fluctuations;â€¢unfavorable tax rules or changes in tariffs and other trade barriers;â€¢the presence and acceptance of varying levels of business corruption in international markets;â€¢geopolitical tensions, instability, terrorism, and military conflicts;â€¢natural disasters and pandemics, including individual countriesâ€™ reactions to them; andâ€¢difficulties and delays in translating products and related documentation into foreign languages.There can be no assurance that we will be able to successfully address each of these challenges. Additionally, some of our business is and will be conducted in currencies other than the U.S. dollar. Substantial movements in foreign exchange rates relative to the dollar could adversely impact our cash flows, results of operations and financial position.In addition to the risk of depending on international sales, we have risks incurred in having research and development personnel located in various international locations. We currently have a substantial portion of our product development staff in international locations, some of which have political and developmental risks. If such risks materialize, our business could be damaged.Material adverse developments in global economic conditions, or the occurrence of certain other world events, could affect demand for our products and services and harm our business.Purchases of technology products and services and decisioning solutions are subject to adverse economic conditions. When an economy is struggling, companies in many industries delay or reduce technology purchases, and we experience softened demand for our decisioning solutions and other products and services. Global economic uncertainty has produced, and continues to produce, substantial stress, volatility, illiquidity and disruption of global credit and other financial markets. Various factors contribute to the uncertain economic environment, including geopolitical tensions, military conflicts, the level and volatility of interest rates, the level of inflation, an actual recession or fears of a recession, trade policies and tariffs, and political and governmental instability.Economic uncertainty has and could continue to negatively affect the businesses and purchasing decisions of companies in the industries we serve. Such disruptions present considerable risks to our businesses and operations. As global economic conditions experience stress and negative volatility, or if there is an escalation in regional or global conflicts, or terrorism, we will likely experience reductions in the number of available customers and in capital expenditures by our remaining customers, longer sales cycles, deferral or delay of purchase commitments for our products and increased price competition, which may adversely affect our business, results of operations and liquidity.As a result of these conditions, risks and uncertainties, we may need to modify our strategies, businesses or operations, and we may incur additional costs in order to compete in a changed business environment. Given the volatile nature of the global economic environment and the uncertainties underlying efforts to stabilize it, we may not timely anticipate or manage existing, new or additional risks, as well as contingencies or developments, which may include regulatory developments and trends in new products and services. Our failure to do so could materially and adversely affect our business, financial condition, results of operations and prospects.27Table of ContentsFinancial RisksOur products have long and variable sales cycles. If we do not accurately predict these cycles, we may not forecast our financial results accurately, and our stock price could be adversely affected.In our Software segment, the length of our sales cycles makes it difficult for us to predict the quarter in which sales will occur. In addition, our selling approach is complex as we look to sell multiple products and services across our customersâ€™ organizations. This makes forecasting of revenues in any given period more difficult. For example, the sales cycle of our products can extend to greater than a year and as a result, revenues and operating results may vary significantly from period to period. Customers are often cautious in making decisions to acquire our products because purchasing our products typically involves a significant commitment of capital and may involve shifts by the customer to a new software and/or hardware platform or changes in the customerâ€™s operational procedures. This may cause customers, particularly those experiencing financial stress, to make purchasing decisions more cautiously. Delays in completing sales can arise while customers complete their internal procedures to approve large capital expenditures and test and accept our applications. Consequently, we face difficulty predicting the quarter in which sales to expected customers will occur and experience fluctuations in our revenues and operating results.In our Scores segment, a majority of our revenues come from the sale of our Scores through partners. We have limited visibility on those sales until we receive royalty reports from those partners at the end of each billing period. Furthermore, the volume of our Scores sales depends heavily on macroeconomic conditions that are hard to forecast, including, for example, the volume of transactions in the U.S. mortgage and credit card markets, which account for a significant portion of the revenues in our Scores segment.If we are unable to accurately forecast our revenues, our ability to plan, budget or provide accurate guidance could be limited, and our stock price could be adversely affected.Our financial results and key metrics fluctuate within each quarter and from quarter to quarter, making our future revenue, annual recurring revenue (â€œARRâ€), and financial results difficult to predict, which may cause us to miss analyst expectations and may cause the price of our common stock to decline.Our quarterly financial results and key metrics have fluctuated in the past and will continue to do so in the future, and therefore period-to-period comparisons should not be relied upon as an indication of future performance. These fluctuations could cause our stock price to change significantly or experience declines. We also may provide investors with quarterly and annual financial forward-looking guidance that could prove to be inaccurate as a result of these fluctuations and other factors. In addition to the other risks described in these risk factors, some of the factors that could cause our financial results and key metrics to fluctuate include:â€¢variability in demand from our existing customers;â€¢the lengthy and variable sales cycle of many products, combined with the relatively large size of orders for our products, increases the likelihood of short-term fluctuation in revenues;â€¢consumer or customer dissatisfaction with, or problems caused by, the performance of our products;â€¢the timing of new product announcements and introductions in comparison with our competitors;â€¢the level of our operating expenses;â€¢changes in demand and competitive and other conditions in the consumer credit, banking and insurance industries;â€¢the level and volatility of interest rates and the level of inflation;â€¢fluctuations in domestic and international economic conditions;â€¢our ability to complete large installations, and to adopt and configure cloud-based deployments, on schedule and within budget;â€¢announcements relating to litigation or regulatory matters;â€¢changes in senior management or key personnel;â€¢acquisition-related expenses and charges; andâ€¢timing of orders for and deliveries of software systems.Our operating expenses are based in part on our expectations for future revenue and many are fixed and cannot be quickly adjusted as revenue changes. Accordingly, any revenue shortfall below expectations has had, and in the future could have, an immediate and significant adverse effect on our operating results and profitability. Greater than anticipated expenses or a failure to maintain rigorous cost controls would also negatively affect profitability.28Table of ContentsGeneral Risk FactorsIf we experience changes in tax laws or adverse outcomes resulting from examination of our income tax returns, it could adversely affect our results of operations.We are subject to federal and state income taxes in the U.S. and in certain foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. Our future effective tax rates could be adversely affected by changes in tax laws, by our ability to generate taxable income in foreign jurisdictions in order to utilize foreign tax losses, and by the valuation of our deferred tax assets. In addition, we are subject to the examination of our income tax returns by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from such examinations to determine the adequacy of our provision for income taxes. There can be no assurance that the outcomes from such examinations will not have an adverse effect on our operating results and financial condition.Our stock price has been subject to fluctuations, and will likely continue to be subject to fluctuations, or may decline, regardless of our operating performance.Our stock price has been subject to fluctuations due to a number of factors, including variations in our revenues and operating results. The financial markets have at various times experienced significant price and volume fluctuations that have particularly affected the stock prices of many technology companies and financial services companies, and these fluctuations sometimes have been unrelated to the operating performance of these companies. Broad market fluctuations, as well as industry-specific and general economic conditions, may negatively affect our business and require us to record an impairment charge related to goodwill, which could adversely affect our results of operations, stock price and business.Our anti-takeover defenses could make it difficult for another company to acquire control of FICO, thereby limiting the demand for our securities by certain types of purchasers or the price investors are willing to pay for our stock.Certain provisions of our Restated Certificate of Incorporation, as amended, could make a merger, tender offer or proxy contest involving us difficult, even if such events would be beneficial to the interests of our stockholders. These provisions include giving our board the ability to issue preferred stock and determine the rights and designations of the preferred stock at any time without stockholder approval. The rights of

the holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third-party to acquire, or discouraging a third-party from acquiring, a majority of our outstanding voting stock. These factors and certain provisions of the Delaware General Corporation Law may have the effect of deterring hostile takeovers or otherwise delaying or preventing changes in control or changes in our management, including transactions in which our stockholders might otherwise receive a premium over the fair market value of our common stock.ItemÂ 1B. Unresolved Staff CommentsNot applicable.Item 1C. CybersecurityCybersecurity Risk Management and StrategyWe recognize the importance of assessing, identifying, and managing material risks associated with cybersecurity threats, as such term is defined in Item 106(a) of Regulation S-K. These risks include, among other things: operational risks, intellectual property theft, fraud, extortion, harm to employees or customers and violation of data privacy or security laws.Identifying and assessing cybersecurity risk is integrated into our overall risk management systems and processes. Cybersecurity risks related to our business, technical operations, privacy and compliance issues are identified and managed through a multi-faceted approach including third-party assessments, internal IT Audit, IT security, governance, risk and compliance reviews. To defend, detect and respond to cybersecurity incidents, we, among other things: conduct proactive privacy and cybersecurity reviews of systems and applications, audit applicable data policies, perform penetration testing using external third-party tools and techniques to test security controls, conduct employee training, monitor emerging laws and regulations related to data protection and information security (including our consumer products) and implement appropriate changes.29Table of ContentsWe employ an experienced team of cybersecurity professionals with a variety of backgrounds. We seek to address material cybersecurity risks through a company-wide approach that assesses, ranks and prioritizes cybersecurity threats, vulnerabilities and issues as they are identified to maintain the confidentiality, integrity and availability of our information systems and the information that we collect and store. The Companyâ€™s cybersecurity policies, standards, processes and practices are informed by recognized frameworks established by the National Institute of Standards and Technology, the International Organization for Standardization and an array of other applicable standards-setting bodies, which are integrated into a broader risk management framework and related processes. We also hold various security-related industry certifications and attestations that have been validated by external auditors, including: SOC 1, SOC 2 Type II, ISO 27001, CSA STAR Level 2, PCI-DSS and others.Leveraging threat intelligence and other signals, the Company undergoes periodic testing, audits and reviews of its policies, standards, processes and practices to identify, assess and address cybersecurity risks and events. The Company also undergoes routine internal and external penetration testing. The results of such tests and assessments are evaluated by management and periodically reported to the Audit Committee. The Company further adjusts its cybersecurity policies, standards, processes and practices based on these results. The Company also makes available to clients attestations of its various certifications, audits, and penetration tests.We have not identified any risks from cybersecurity threats, including as a result of any previous cybersecurity incidents, that have materially affected, or are reasonably likely to materially affect, the Company, including its business strategy, results of operations, or financial condition. However, we face ongoing and increasing cybersecurity risks, including from bad actors that are becoming more sophisticated and effective over time, as well as a result of potential defects or disruptions in our or our customersâ€™ services. Additional information on the cybersecurity risks that could materially affect us is discussed in Part I, Item 1A, â€œRisk Factors.â€ Management Oversight and GovernanceThe Companyâ€™s Chief Information Security Officer (â€œCISOâ€), who reports to the Executive Vice President, Software, is responsible for the design and implementation of our security program and strategy based on the mandate provided by the Board and senior management. The CISO has extensive experience in the management of cybersecurity risk management programs, having served in various leadership roles in information technology and information security for over 20 years, including serving as the Chief Security Officer of two other large public technology companies. We believe the Companyâ€™s business leaders have the appropriate expertise, background and depth of experience to manage risks arising from cybersecurity threats.The CISO, in coordination with other members of senior management, works collaboratively across the Company to implement a program designed to protect the Companyâ€™s information systems from cybersecurity threats and to promptly respond to cybersecurity incidents in accordance with the Companyâ€™s incident response and recovery plans. To facilitate the success of the Companyâ€™s cybersecurity program, cross-functional teams throughout the Company are tasked with addressing cybersecurity threats and responding to cybersecurity incidents. Through ongoing communications with these teams, the CISO and senior management are informed promptly about, and monitor the prevention, detection, investigation, mitigation and remediation of, cybersecurity threats. These teams are expected to operate pursuant to documented plans and playbooks that include processes for escalation of incidents to leadership and to the Audit Committee and Board, as appropriate, based on the severity level of an incident. In addition, the Company periodically consults with outside advisors and experts to assist with assessing, identifying and managing cybersecurity risks, including to anticipate future threats and trends, and their impact on the Companyâ€™s risk management environment.Specifically, management implements the Companyâ€™s cybersecurity and risk management strategy across several areas: â€¢Identification and Reporting. The Company has implemented a robust, cross-functional approach to identifying, assessing and managing cybersecurity threats and risks. The Companyâ€™s program includes controls and procedures designed to properly identify, classify, and escalate cybersecurity risks to provide management with visibility and prioritization of risk mitigation efforts and to publicly report material cybersecurity incidents if and when appropriate.â€¢Threat Intelligence. The Company maintains a Threat Intelligence team focused on profiling, intelligence collection, and threat analysis supporting the Companyâ€™s ongoing efforts to identify, assess and manage cybersecurity threats. The teamâ€™s input supports both near-term response to cybersecurity events, and long-term strategic planning and development of the Companyâ€™s cybersecurity risk management framework.30Table of Contentsâ€¢Technical Safeguards. The Company implements technical safeguards that are designed to protect both the Companyâ€™s service offerings and other information systems it controls from cybersecurity threats, including firewalls, intrusion prevention and detection systems, anti-malware functionality, vulnerability management, encryption processes and access controls, all of which are periodically evaluated and improved through risk and control assessments and in response to cybersecurity threat intelligence as well as outside audits and certifications.â€¢Incident Response and Recovery Planning. The Company has established and maintains robust incident response, business continuity and disaster recovery plans designed to address the Companyâ€™s response to a cybersecurity incident, including any required public disclosure and reporting of material incidents in a timely manner. These plans and procedures serve to guide and document a rigorous incident response program that reflects the roles of an array of stakeholders, including personnel providing technical, operational, engineering, legal and other perspectives across the Company. The Company conducts regular tabletop exercises involving multiple operational teams, including senior management, to test these plans and to familiarize personnel with their roles in a response scenario.â€¢Third-Party Risk Management. The Company maintains a robust, risk-based approach to identifying and overseeing cybersecurity threats presented by certain third parties, including vendors, service providers and other external users of the Companyâ€™s systems, as well as the systems of third parties that could adversely impact our business in the event of a significant cybersecurity incident affecting those third-party systems.â€¢Education and Awareness. The Company regularly provides employee training on security-related duties and responsibilities, including knowledge about how to recognize security incidents and how to proceed if an actual or suspected incident should occur. This training is mandatory for employees across the Company, and is intended to provide the Companyâ€™s employees with effective tools to address cybersecurity threats, and to communicate the Companyâ€™s evolving information security policies, standards, processes and practices.Board Oversight and GovernanceOur management is responsible for identifying the various risks facing the Company, formulating risk management policies and procedures, and managing the Companyâ€™s risk exposures. Our Board of Directorsâ€™ responsibility is to monitor the Companyâ€™s risk management processes by informing itself concerning our material risks and evaluating whether management has reasonable controls in place to address the material risks. The Audit Committee of the Board of Directors is responsible for discussing with management the Companyâ€™s major risk exposures and the steps management has taken to monitor and control such exposures, including the Companyâ€™s risk assessment and risk management policies. Accordingly, our internal risk management team regularly reports to the Audit Committee on our major risk exposures and the steps management has taken to monitor and control such exposures, including our risk assessment and risk management policies. The Audit Committee, in turn, reports on the matters discussed at the committee level to the full Board of Directors. As part of its oversight of the Companyâ€™s risk management noted above, the Audit Committee oversees, reviews and discusses with management the Companyâ€™s risks from cybersecurity threats and managementâ€™s role in assessing and managing such risks. The Audit Committee receives regular presentations, reports and updates from the CISO and other members of management on developments regarding the Companyâ€™s cybersecurity program, broader cybersecurity trends, evolving industry standards, the threat environment and other topics.The Companyâ€™s processes also allow for the Board and the Audit Committee to be informed of key cybersecurity risks outside the regular reporting schedule. While regular meetings of the Audit Committee are scheduled on a quarterly cadence, the Audit Committee is authorized to meet with management at any time it deems appropriate to discuss matters relevant to the Audit Committee. The Companyâ€™s policy is for the Board and the Audit Committee to receive prompt and timely information regarding any cybersecurity risk (including any incident) that meets pre-established reporting thresholds, as well as ongoing updates regarding any such risk.ItemÂ 2. Our MD&A should be read in conjunction with ItemÂ 8, Financial Statements and Supplementary Data, of this Annual Report on Form 10-K. The following discussion contains forward-looking statements that are subject to risks and uncertainties. Actual results may differ from those referred to herein due to a number of factors, including but not limited to risks described in ItemÂ 1A, Risk Factors, in this Annual Report on Form 10-K.Our MD&A focuses on discussion of year-over-year comparisons between fiscal 2024 and fiscal 2023. Discussion of fiscal 2022 results and year-over-year comparisons between fiscal 2023 and fiscal 2022 that are not included in this Annual Report on Form 10-K can be found in â€œManagementâ€™s Discussion and Analysis of Financial Condition and Results of Operationsâ€ in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended September 30, 2023.BUSINESS OVERVIEWStrategies and InitiativesIn fiscal 2024, our B2B scoring solutions, including the flagship FICOÂ® Score, continued to be the standard measure of consumer credit risk in the U.S. The adoption of our most predictive scores, FICOÂ® Score 10 and 10 T, gained increased traction for non-conforming mortgages and will be implemented for conforming mortgages based on the timeline set forth by the Federal Housing Finance Agency for enterprise credit scoring requirements. We continued the expansion of our financial inclusion initiatives through the FICOÂ® Educational Analytics Challenge, a program created to help promote diversity in data science, engineering, and technology at Historically Black Colleges and Universities. Additionally, we host free Score A Better FutureTM financial education workshops for students and adults from traditionally underserved communities. Internationally, we launched a FICO Score based on Ukrainian Bureau of Credit Histories data, an innovative score to help Ukrainians gain credit access in Poland. We also remained committed to expanding usage of the FICOÂ® Resilience Index, a complement to FICO Scores that more precisely predicts a borrowerâ€™s resilience to future economic disruptions, helping lenders manage latent risk. We continued to develop alternative data scores, including trended data cash flow attributes, to help lenders identify credit borrowers with positive financial profiles that extend beyond their traditional credit reports as well as offer credit score layering leveraging UltraFICOÂ® Score and FICOÂ® Score XD to help broaden accessibility and extend financial inclusion to borrowers with limited credit history.During fiscal 2024, the strategy for our Software segment was to continue to advance and drive growth through our platform-first, cloud delivered products. A significant portion of our short-term opportunity remains in North America, where financial institutions are focused on digital transformation and understand the value of FICOÂ® Platform. We have also expanded our FICO Platform reach both by geography and customer type in order to enable organizations to operationalize analytics, and to power customer connections and decision making at scale. We continue to innovate and bring new capabilities to FICO Platform, demonstrating its value with new customers and expanding use cases with existing customers.We also continued to enhance stockholder value by returning cash to stockholders through our stock repurchase program. During fiscal 2024, we repurchased 0.6 million shares at a total repurchase price of $833.3 million.Highlights from Fiscal 2024â€¢Total revenues were $1.7 billion during fiscal 2024, a 13% increase from fiscal 2023.â€¢Revenues for our Scores segment were $919.7 million during fiscal 2024, a 19% increase from fiscal 2023.â€¢Annual Recurring Revenue for our Software segment as of SeptemberÂ 30, 2024 was $721.2 million, an 8% increase from SeptemberÂ 30, 2023.â€¢Dollar-Based Net Retention Rate for our Software segment was 106% as of SeptemberÂ 30, 2024.â€¢Operating income was $733.6 million during fiscal 2024, a 14% increase from fiscal 2023.â€¢Net income was $512.8 million during fiscal 2024, a 19% increase from fiscal 2023.â€¢Diluted EPS was $20.45 during fiscal 2024, a 21% increase from fiscal 2023.â€¢Cash flow from operating activities was $633.0 million during fiscal 2024, compared with $468.9 million during fiscal 2023.35Table of Contentsâ€¢Cash and cash equivalents were $150.7 million as of SeptemberÂ 30, 2024, compared with $136.8 million as of SeptemberÂ 30, 2023.â€¢Total debt balance was $2.2 billion as of SeptemberÂ 30, 2024, compared with $1.9 billion as of SeptemberÂ 30, 2023.â€¢Total share repurchases during fiscal 2024 were $833.3 million, compared with $407.3 million during fiscal 2023.Key performance metrics for Software segmentAnnual Contract Value Bookings (â€œACV Bookingsâ€)Management regards ACV Bookings as an important indicator of future revenues, but it is not comparable to, nor is it a substitute for, an analysis of our revenues and other U.S. generally accepted accounting principles (â€œU.S. GAAPâ€) measures. We define ACV Bookings as the average annualized value of software contracts signed in the current reporting period that generate current and future on-premises and SaaS software revenue. We only include contracts with an initial term of at least 24 months and we exclude perpetual licenses and other software revenues that are non-recurring in nature. For renewals of existing

software subscription contracts, we count only incremental annual revenue expected over the current contract as ACV Bookings.ACV Bookings is calculated by dividing the total expected contract value by the contract term in years. The expected contract value equals the fixed amount â€” including guaranteed minimums, if any â€” stated in the contract, plus estimates of future usage-based fees. We develop estimates from discussions with our customers and examinations of historical data from similar products and customer arrangements. Differences between estimates and actual results occur due to variability in the estimated usage. This variability can be the result of the economic trends in our customersâ€™ industries, individual performance of our customers relative to their competitors, and regulatory and other factors that affect the business environment in which our customers operate. For the periods presented, ACV Bookings related to estimates of future usage-based fees was approximately 30% of the total ACV Bookings amount on an annualized basis. Differences between the initial estimates of future usage-based fees and actual results historically have not been material and we do not currently expect that they will be materially different in the future.We disclose estimated revenue expected to be recognized in the future related to remaining performance obligations in Note 9 to the accompanying consolidated financial statements. However, we believe ACV Bookings is a useful supplemental measure of our business as it includes estimated revenues and future billings excluded from Note 9, such as usage-based fees and guaranteed minimums derived from our on-premises software licenses, among others.The following table summarizes our ACV Bookings during the periods indicated:Quarter Ended September 30,Year Ended September 30,2024202320242023 (*)(In millions)Total on-premises and SaaS software$22.1Â $28.0Â $84.7Â $93.9Â (*) We sold certain assets related to our Siron compliance business during the quarter ended December 31, 2022, and the amount above excludes this product line for the year ended September 30, 2023.Annual Recurring Revenue (â€œARRâ€)Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, requires us to recognize a significant portion of revenue from our on-premises software subscriptions at the point in time when the software is first made available to the customer, or at the beginning of the subscription term, despite the fact that our contracts typically call for billing these amounts ratably over the life of the subscription. The remaining portion of our on-premises software subscription revenue including maintenance and usage-based fees are recognized over the life of the contract. This point-in-time recognition of a portion of our on-premises software subscription revenue creates significant variability in the revenue recognized period to period based on the timing of the subscription start date and the subscription term. Furthermore, this point-in-time revenue recognition can create a significant difference between the timing of our revenue recognition and the actual customer billing under the contract. We use ARR to measure the underlying performance of our subscription-based contracts and mitigate the impact of this variability. ARR is defined as the annualized revenue run-rate of on-premises and SaaS software agreements within a quarterly reporting period, and as such, is different from the timing and amount of revenue recognized. All components of our software licensing and subscription arrangements that are not expected to recur (primarily perpetual licenses) are excluded. We calculate ARR as the quarterly recurring revenue run-rate multiplied by four.36Table of ContentsThe following table summarizes our ARR for on-premises and SaaS software exiting each of the dates presented:December 31, 2022 (*)March 31, 2023June 30, 2023September 30, 2023December 31, 2023March 31, 2024June 30, 2024September 30, 2024ARR (In millions)Platform$132.8$152.5$164.1$173.2$190.3$201.4$215.1$227.0Non-Platform450.1461.0481.8496.2497.4495.6494.5494.2Â Â Â Â Total$582.9$613.5$645.9$669.4$687.7$697.0$709.6$721.2PercentagePlatform23Â %25Â %25Â %25Â %26Â %28Â %29Â %30Â %31Â %Non-Platform77Â %75Â %75Â %74Â %72Â %71Â %70Â %69Â %Â Â Â Â Total100Â %100Â %100Â %100Â %100Â %100Â %100Â %100Â %YoY ChangePlatform46Â %60Â %53Â %53Â %43Â %32Â %31Â %31Â %Non-Platform4Â %7Â %11Â %14Â %11Â %8Â %3Â %â€”Â %Â Â Â Â Total11Â %17Â %20Â %22Â %18Â %14Â %10Â %8Â %(*) We sold certain assets related to our Siron compliance business during the quarter ended December 31, 2022, and the amounts and percentages above exclude this product line at December 31, 2022.Dollar-Based Net Retention Rate (â€œDBNRRâ€)We consider DBNRR to be an important measure of our success in retaining and growing revenue from our existing customers. To calculate DBNRR for any period, we compare the ARR at the end of the prior comparable quarter (â€œbase ARRâ€) to the ARR from that same cohort of customers at the end of the current quarter (â€œretained ARRâ€); we then divide the retained ARR by the base ARR to arrive at the DBNRR. Our calculation includes the positive impact among this cohort of customers of selling additional products, price increases and increases in usage-based fees, and the negative impact of customer attrition, price decreases, and decreases in usage-based fees during the period. However, the calculation does not include the positive impact from sales to any new customers acquired during the period. Our DBNRR may increase or decrease from period to period as a result of various factors, including the timing of new sales and customer renewal rates.The following table summarizes our DBNRR for on-premises and SaaS software exiting each of the dates presented:December 31, 2022 (*)March 31, 2023June 30, 2023September 30, 2023December 31, 2023March 31, 2024June 30, 2024September 30, 2024DBNRRPlatform130Â %146Â %142Â %145Â %136Â %126Â %124Â %123Â %Non-Platform103Â %105Â %109Â %111Â %108Â %106Â %101Â %99Â %Â Â Â Â Â Total110Â %114Â %117Â %120Â %114Â %112Â %108Â %106Â %(*) We sold certain assets related to our Siron compliance business during the quarter ended December 31, 2022, and the percentages above exclude this product line at December 31, 2022.RESULTS OF OPERATIONSWe are organized into two reportable segments: Scores and Software. Although we sell solutions and services into a large number of end user product and industry markets, our reportable business segments reflect the primary method in which management organizes and evaluates internal financial information to make operating decisions and assess performance. Segment revenues, operating income, and related financial information, including disaggregation of revenue, for the years ended September 30, 2024, 2023 and 2022 are set forth in Note 9 and Note 14 to the accompanying consolidated financial statements.37Table of ContentsRevenuesThe following tables set forth certain summary information on a segment basis related to our revenues for fiscal 2024, 2023 and 2022:Â Â Year Ended SeptemberÂ 30,Period-to-Period ChangePeriod-to-PeriodPercentageÂ ChangeSegment2024202320222024 to 20232023 to 20222024 to 20232023 to 2022Â (InÂ thousands)(In thousands)Â Â Scores$919,650Â $773,828Â $706,643Â $145,822Â $67,185Â 19Â %10Â %Software797,876Â 739,729Â 670,627Â 58,147Â 69,102Â 8Â %10Â %Â Â Â Â Â Total $1,717,526Â $1,513,557Â $1,377,270Â 203,969Â 136,287Â 13Â %10Â %Â PercentageÂ ofÂ RevenuesYearÂ EndedÂ SeptemberÂ 30,Segment2024202320222Scores54Â %51Â %51Â %Software46Â segment revenues increased $145.8 million in fiscal 2024 from 2023 due to an increase of $150.8 million in our business-to-business scores revenue, partially offset by a decrease of $5.0 million in our business-to-consumer revenue. The increase in business-to-business scores revenue was primarily attributable to a higher unit price, partially offset by a decrease in volume of mortgage originations. The decrease in business-to-consumer revenue was primarily attributable to a decrease in direct sales generated from the myFICO.com website.SoftwareThe following table provides information about disaggregated revenue for our Software segment by revenue types:Â YearÂ EndedÂ SeptemberÂ 30,Period-to-Period ChangePeriod-to-PeriodPercentageÂ ChangeÂ 2024202320222024 to 20232023 to 20222024 to 20232023 to 2022Â (InÂ thousands)Â Â On-premises and SaaS software$711,340Â $640,182Â $564,751Â $71,158Â $75,431Â 11Â %13Â %Professional services86,536Â 99,547Â 105,876Â (13,011)(6,329)(13)%(6)%Total$797,876Â $739,729Â $670,627Â 58,147Â 69,102Â 8Â %10Â %The following table provides information about disaggregated revenue for on-premises and SaaS software within our Software segment by timing of revenue recognition:Year Ended September 30,Period-to-Period ChangePeriod-to-PeriodPercentageÂ Change2024202320222024 to 20232023 to 20222024 to 20232023 to 2022(In thousands)(In thousands)Software recognized at a point in time (1)$76,284Â $72,843Â $75,647Â $3,441Â $(2,804)5Â %(4)%Software recognized over contract term (2)635,056Â 567,339Â 489,104Â 67,717Â 78,235Â 12Â %16Â %Total$711,340Â $640,182Â $564,751Â $71,158Â 75,431Â 11Â %13Â %(1)Includes license portion of our on-premises subscription software and perpetual license, both of which are recognized when the software is made available to the customer, or at the start of the subscription. 38Table of Contents(2)Includes maintenance portion and usage-based fees of our on-premises subscription software, maintenance revenue on perpetual licenses, as well as SaaS revenue.Software segment revenues increased $58.1 million in fiscal 2024 from 2023 due to a $71.2 million increase in on-premises and SaaS software revenue, partially offset by a $13.0 million decrease in services revenue. The increase in our on-premises and SaaS software revenue was primarily attributable to an increase in revenue recognized over time largely driven by SaaS growth for our Platform products. The decrease in professional services revenue was primarily attributable to our strategy to emphasize higher-margin software over professional services.Operating Expenses and Other Income (Expense), NetThe following tables set forth certain summary information related to our consolidated statements of income and comprehensive income for fiscal 2024, 2023 and 2022:Â Year Ended SeptemberÂ 30,Period-to-PeriodÂ ChangePeriod-to-PeriodPercentageÂ ChangeÂ 2024202320222024 to 20232023 to 20222024 to 20232023 to 2022Â (In thousands, except employees)(InÂ thousands,Â exceptemployees)Â Revenues$1,717,526Â $1,513,557Â $1,377,270Â $203,969Â $136,287Â 13Â %10Â %Operating expenses:Cost of revenues348,206Â 311,053Â 302,174Â 37,153Â 8,879Â 12Â %3Â %Research and development171,940Â 159,950Â 146,758Â 11,990Â 13,192Â 7Â %9Â %Selling, general and administrative462,834Â 400,565Â 383,863Â 62,269Â 16,702Â 16Â %4Â %Amortization of intangible assets917Â 1,100Â 2,061Â (183)(961)(17)%(47)%Gain on product line asset saleâ€”Â (1,941)â€”Â 1,941Â (1,941)(100)%â€”Â %Total operating expenses983,897Â 870,727Â 834,856Â 113,170Â 35,871Â 13Â %4Â %Operating income733,629Â 642,830Â 542,414Â 90,799Â 100,416Â 14Â %19Â %Interest expense, net(105,638)(95,546)(68,967)(10,092)(26,579)11Â %39Â %Other income (expense), net14,034Â 6,340Â (2,138)7,694Â 8,478Â 121Â %(397)%Income before income taxes642,025Â 553,624Â 471,309Â 88,401Â 82,315Â 16Â %17Â %Provision for income taxes129,214Â 124,249Â 97,768Â 4,965Â 26,481Â 4Â %27Â %Net income$512,811Â $429,375Â $373,541Â 83,436Â 55,834Â 19Â %15Â %Number of employees at fiscal year-end3,586Â 3,455Â 3,404Â 131Â 51Â 4Â %1Â %Â 39Table of ContentsÂ Percentage of RevenuesYearÂ EndedÂ SeptemberÂ 30,Â 202420232022Revenues100Â %100Â %100Â %Operating expenses:Cost of revenues20Â %21Â %22Â %Research and development10Â %11Â %11Â %Selling, general and administrative27Â %26Â %28Â %Amortization of intangible assetsâ€”Â %â€”Â %â€”Â %Gain on product line asset saleâ€”Â %â€”Â %â€”Â %Total operating expenses57Â %58Â %61Â %Operating income43Â %42Â %39Â %Interest expense, net(6)%(6)%(5)%Other income (expense), net1Â %â€”Â %â€”Â %Income before income taxes38Â %36Â %34Â %Provision for income taxes8Â %8Â %7Â %Net income30Â %28Â %27Â %Cost of RevenuesCost of revenues consists primarily of employee salaries, incentives, and benefits for personnel directly involved in delivering software products, operating SaaS infrastructure, and providing support, implementation and consulting services; overhead, facilities and data center costs; software royalty fees; credit bureau data and processing services; third-party hosting fees related to our SaaS services; travel costs; and outside services.The fiscal 2024 over 2023 increase in cost of revenues of $37.2 million was primarily attributable to an $18.1 million increase in infrastructure and facilities costs, a $12.4 million increase in personnel and labor costs, a $4.3 million increase in direct materials costs, and a $2.4 million increase in outside services costs. The increase in infrastructure and facilities costs was primarily attributable to an increase in third-party data center hosting costs, a prior year one-time reimbursement from a third-party data center provider for implementation costs previously incurred, and an increase in software royalty costs. The increase in personnel and labor costs was primarily attributable to increased market base-pay adjustments and increased share-based compensation expense. The increase in direct materials costs was primarily attributable to increased telecommunications expenses to support FICOÂ® Customer Communications Services revenue. The increase in outside services costs was primarily attributable to increased consulting costs. Cost of revenues as a percentage of revenues decreased to 20% during fiscal 2024 from 21% during fiscal 2023, primarily due to increased sales of our higher-margin Scores products.Research and DevelopmentResearch and development expenses include personnel and related overhead costs incurred in the development of new products and services, including research of mathematical and statistical models and development of new versions of Software products.The fiscal 2024 over 2023 increase in research and development expenses of $12.0 million was primarily attributable to an $8.2 million increase in personnel and labor costs, as a result of increases in share-based compensation expense, headcount, and incentive expense, a $2.4 million increase in infrastructure and facilities costs primarily attributable to increased third-party data center hosting costs, and a $1.8 million increase in consulting costs. Research and development expenses as a percentage of revenues decreased to 10% during fiscal 2024 from 11% during fiscal 2023.Selling, General and AdministrativeSelling, general and administrative expenses consist principally of employee salaries, incentives, commissions and benefits; travel costs; overhead costs; advertising and other promotional expenses; corporate facilities expenses; legal expenses; and business development expenses.40Table of ContentsThe fiscal 2024 over 2023 increase in selling, general and administrative expenses of $62.3 million was primarily attributable to a $38.6 million increase in personnel and labor costs, a $6.0 million increase in outside services costs, a $5.5 million increase in advertising and other promotional costs, a $4.9 million increase in non-income tax costs, a $3.7 million increase in travel costs, and a $2.6 million increase in infrastructure and facilities costs. The increase in personnel and labor costs was primarily attributable to increased share-based compensation expense, increased headcount, market base-pay adjustments, increased fringe benefit costs related to our supplemental retirement and savings plan, and increased incentive expense. The increase in outside services costs was primarily attributable to increased legal and consulting expenses. The increase in advertising and other promotional expenses was primarily attributable to increased costs for advertising campaigns and corporate events. The increase in non-income tax costs was primarily attributable to a tax law change related to transfer pricing effective in fiscal 2024 that impacted a non-U.S. subsidiary. The increase in travel costs was primarily attributable to promotional and corporate events. The increase in infrastructure and facilities costs was primarily attributable to the impact of a favorable adjustment in the prior year from the termination of an office lease. Selling, general and administrative expenses as a percentage of revenues increased to 27% during fiscal 2024 from 26% during fiscal 2023.Amortization of Intangible AssetsAmortization of intangible assets consists of expense related to intangible assets recorded in connection with our acquisitions. Our finite-lived intangible assets, consisting primarily of completed technology and customer contracts and relationships, are amortized using the straight-line method over periods ranging from five to ten years.Amortization expense was $0.9 million and $1.1 million for fiscal 2024 and 2023, respectively.Gain on Product Line Asset SaleThe $1.9 million gain on product line asset sale during fiscal 2023 was attributable to the sale of certain assets related to our Siron compliance business.Interest Expense, NetInterest expense includes interest on the senior notes issued in December 2021, December 2019, and May 2018, as well as interest and credit agreement fees on the revolving line of credit and term loans. On our consolidated statements of income and comprehensive income, interest expense is netted with interest income, which is derived primarily from the investment of funds in excess of our immediate operating requirements.The fiscal 2024 from 2023 increase in net interest expense of $10.1 million was primarily attributable to a higher average interest rate and higher average outstanding balance of borrowings under our credit agreement during fiscal 2024.Other Income (Expense), NetOther income (expense), net consists primarily of unrealized investment gains/losses and realized gains/losses on certain investments classified as trading securities, exchange rate gains/losses resulting from remeasurement of foreign-currency-denominated receivable and cash balances held by our various reporting entities into their respective functional currencies at period-end market rates, net of the impact of offsetting foreign currency forward contracts, and other non-operating items.The fiscal 2024 over 2023 increase in other income, net of $7.7 million was primarily attributable to an increase in net unrealized and realized gains on investments classified as trading securities in our supplemental retirement and savings plan and a decrease in foreign currency exchange losses.Provision for Income TaxesOur effective income tax rates were 20.1%, 22.4% and 20.7% in fiscal 2024, 2023 and 2022, respectively.The decrease in our effective tax rate in fiscal 2024 compared to fiscal 2023 was due to an increase in excess tax benefits related to share-based compensation. 41Table of ContentsOperating IncomeThe following tables set forth certain summary information on a segment basis related to our operating income for fiscal 2024, 2023 and 2022:Â Â Year Ended SeptemberÂ 30,Period-to-PeriodChangePeriod-to-PeriodPercentageÂ ChangeSegment2024202320222024 to 20232023 to 20222024 to 20232023 to 2022Â (In thousands)(In thousands)Â Â Scores$813,354Â $681,071Â $619,355Â $132,283Â $61,716Â 19Â %10Â %Software257,529Â 241,191Â 183,122Â 16,338Â 58,069Â 7Â %32Â %Unallocated corporate expenses(186,898)(156,426)(142,647)(30,472)(13,779)19Â %10Â %Total segment operating income883,985Â 765,836Â 659,830Â 118,149Â 106,006Â 15Â %16Â %Unallocated share-based compensation(149,439)(123,847)(115,355)(25,592)(8,492)21Â %7Â %Unallocated amortization expense(917)(1,100)(2,061)183Â 961Â (17)%(47)%Gain on product line asset saleâ€”Â 1,941Â â€”Â (1,941)1,941Â (100)%â€”Â %Operating income$733,629Â $642,830Â $542,414Â 90,799Â 100,416Â 14Â %19Â %ScoresÂ Â Year Ended SeptemberÂ 30,PercentageÂ ofÂ RevenuesÂ 20242023202220242023202220242023202220

of $90.8 million was primarily attributable to a $204.0 million increase in segment revenues, partially offset by a $55.3 million increase in segment operating expenses, a $30.5 million increase in corporate expenses, and a $25.6 million increase in share-based compensation cost.At the segment level, the $118.1 million increase in segment operating income was the result of a $132.3 million increase in our Scores segment operating income and a $16.3 million increase in our Software segment operating income, partially offset by a $30.5 million increase in corporate expenses.The $132.3 million increase in our Scores segment operating income was attributable to a $145.8 million increase in segment revenue, partially offset by a $13.5 million increase in segment operating expenses. Segment operating income as a percentage of segment revenue for Scores was 88%, consistent with fiscal 2023.42Table of ContentsThe $16.3 million increase in our Software segment operating income was attributable to a $58.1 million increase in segment revenue, partially offset by a $41.8 million increase in segment operating expenses. Segment operating income as a percentage of segment revenue for Software decreased to 32% from 33%, primarily attributable to a prior year one-time reimbursement from a third-party data center provider for implementation costs previously incurred, partially offset by a decrease in sales of our lower-margin professional services.CAPITAL RESOURCES AND LIQUIDITYOutlookAs of SeptemberÂ 30, 2024, we had $150.7 million in cash and cash equivalents, which included $124.4 million held by our foreign subsidiaries. We believe our cash and cash equivalents balances, including those held by our foreign subsidiaries, as well as available borrowings from our $600 million revolving line of credit and anticipated cash flows from operating activities, will be sufficient to fund our working and other capital requirements for at least the next 12 months and thereafter for the foreseeable future, including the $15.0 million principal payments on the $300 Million Term Loan (as defined below) due over the next 12 months. Under our current financing arrangements, we have no other significant debt obligations maturing over the next twelve months. For jurisdictions outside the U.S. where cash may be repatriated in the future, the Company expects the net impact of any repatriations to be immaterial to the Companyâ€™s overall tax liability. In the normal course of business, we evaluate the merits of acquiring technology or businesses, or establishing strategic relationships with or investing in these businesses. We may elect to use available cash and cash equivalents to fund such activities in the future. In the event additional needs for cash arise, or if we refinance our existing debt, we may raise additional funds from a combination of sources, including the potential issuance of debt or equity securities. Additional financing might not be available on terms favorable to us, or at all. If adequate funds were not available or were not available on acceptable terms, our ability to take advantage of unanticipated opportunities or respond to competitive pressures could be limited.Summary of Cash FlowsÂ Â Year Ended SeptemberÂ 30,Â 202420232022Â (In thousands)Cash provided by (used in):Operating activities$632,964Â $468,915Â $509,450Â Investing activities(27,993) (15,954)(5,671)Financing activities(592,923)(455,001)(547,165)Effect of exchange rate changes on cash1,841Â 5,616Â (18,766)Increase (decrease) in cash and cash equivalents$13,889Â $3,576Â $(62,152)Cash Flows from Operating ActivitiesOur primary method for funding operations and growth has been through cash flows generated from operating activities. Net cash provided by operating activities totaled $633.0 million in fiscal 2024 compared to $468.9 million in fiscal 2023. The $164.1 million increase was attributable to an $83.4 million increase in net income, a $43.0 million increase that resulted from timing of receipts and payments in our ordinary course of business, and a $37.7 million increase in non-cash items.Cash Flows from Investing ActivitiesNet cash used in investing activities totaled $28.0 million in fiscal 2024 compared to $16.0 million in fiscal 2023. The $12.0 million increase was attributable to a $16.7 million increase in capitalized internal-use software costs and a $4.6 million increase in purchases of property and equipment, partially offset by a $6.1 million decrease in cash transferred, net of proceeds, from a product line asset sale and a $3.2 million increase in proceeds from sales, net of purchases, of marketable securities.Cash Flows from Financing ActivitiesNet cash used in financing activities totaled $592.9 million in fiscal 2024 compared to $455.0 million in fiscal 2023. The $137.9 million increase was primarily attributable to a $416.2 million increase in repurchases of common stock and a $62.5 million increase in taxes paid related to net share settlement of equity awards, partially offset by a $340.0 million increase in proceeds, net of payments, on our revolving line of credit and term loans.43Table of ContentsRepurchases of Common StockIn January 2024, our Board of Directors approved a stock repurchase program (the â€œJanuary 2024 programâ€), replacing our previously authorized October 2022 stock repurchase program, which was terminated prior to its expiration. The January 2024 program was open-ended and authorized repurchases of shares of our common stock from time to time up to an aggregate cost of $500.0 million in the open market or in negotiated transactions. In July 2024, our Board of Directors approved a new stock repurchase program (the â€œJuly 2024 programâ€), replacing the January 2024 program, which was terminated prior to its expiration and under which $29.6 million was remaining for repurchase at the time of termination. The July 2024 program is open-ended and authorizes repurchases of shares of our common stock from time to time up to an aggregate cost of $1.0 billion in the open market or in negotiated transactions. The July 2024 program remains in effect until the total authorized amount is expended or until further action by our Board of Directors. As of SeptemberÂ 30, 2024, we had $760.5 million remaining under the July 2024 program. During fiscal 2024 and 2023, we expended $833.3 million and $407.3 million, respectively, under the July 2024 program and previously authorized stock repurchase programs, as applicable.Revolving Line of Credit and Term LoansWe have aÂ $600 million unsecured revolving line of credit and a $300Â million unsecured term loan (the â€œ$300 Million Term Loanâ€) with a syndicate of banks that mature on August 19, 2026. Borrowings under the revolving line of credit and the $300 Million Term Loan can be used for working capital and general corporate purposes and may also be used for the refinancing of existing debt, acquisitions, and the repurchase of our common stock. The $300 Million Term Loan requires principal payments in consecutive quarterly installments of $3.75Â million on the last business day of each quarter. Interest rates on amounts borrowed under the revolving line of credit and the $300 Million Term Loan are based on (i)Â an adjusted base rate, which is the greatest of (a)Â the prime rate, (b)Â the Federal Funds rate plus 0.5%, and (c) one-month adjusted term Secured Overnight Financing Rate (â€œSOFRâ€) plus 1%, plus, in each case, an applicable margin, or (ii)Â an adjusted term SOFR plus an applicable margin (or, if such rate is no longer available, a successor benchmark rate determined in accordance with the terms of the credit agreement). Adjusted term SOFR is defined as term SOFR for the relevant interest period plus a SOFR adjustment of 0.10% per annum. The applicable margin for base rate borrowings and for SOFR borrowings is determined based on our consolidated leverage ratio. The applicable margin for base rate borrowings ranges from 0% to 0.75% per annum and for SOFR borrowings ranges from 1% to 1.75% per annum. In addition, we must pay certain credit facility fees. The revolving line of credit and the $300 Million Term Loan contain certain restrictive covenants including a maximum consolidated leverage ratio of 3.5 to 1.0, subject to a step up to 4.0 to 1.0 following certain permitted acquisitions and subject to certain conditions, and a minimum interest coverage ratio of 3.0 to 1.0. The credit agreement also contains other covenants typical of unsecured credit facilities.On June 13, 2024, we amended our credit agreement to provide for the issuance of a new $450Â million unsecured term loan (the â€œ$450 Million Term Loanâ€) with a syndicate of banks, increasing the total capacity of the credit agreement to $1.35Â billion. The $450 Million Term Loan is subject to the same interest rate provisions and covenants as the revolving line of credit and the $300 Million Term Loan, and matures on August 19, 2026. We have no obligation to make scheduled principal payments on the $450 Million Term Loan prior to the maturity date, but may prepay the $450 Million Term Loan, without premium or penalty, in whole or in part.As of SeptemberÂ 30, 2024, we had $210.0 million in borrowings outstanding under the revolving line of credit at a weighted-average interest rate of 6.396%, $258.8Â million in outstanding balance of the $300 Million Term Loan at an interest rate of 6.344%, and $450.0Â million in outstanding balance of the $450 Million Term Loan at an interest rate of 6.281%. We were in compliance with all financial covenants under the credit agreement as of SeptemberÂ 30, 2024.Senior NotesOn May 8, 2018, we issued $400 million of senior notes in a private offering to qualified institutional investors (the â€œ2018 Senior Notesâ€). The 2018 Senior Notes require interest payments semi-annually at a rate of 5.25% per annum and will mature on May 15, 2026. On December 6, 2019, we issued $350 million of senior notes in a private offering to qualified institutional investors (the â€œ2019 Senior Notesâ€). The 2019 Senior Notes require interest payments semi-annually at a rate of 4.00% per annum and will mature on June 15, 2028. On December 17, 2021, we issued $550Â million of additional senior notes of the same class as the 2019 Senior Notes in a private offering to qualified institutional investors (the â€œ2021 Senior Notes,â€ and collectively with the 2018 Senior Notes and the 2019 Senior Notes, the â€œSenior Notesâ€). The 2021 Senior Notes require interest payments semi-annually at a rate of 4.00% per annum and will mature on June 15, 2028, the same date as the 2019 Senior Notes. The indentures for the Senior Notes contain certain covenants typical of unsecured obligations. As of SeptemberÂ 30, 2024, the carrying value of the Senior Notes was $1.3 billion and we were in compliance with all financial covenants under these obligations.44Table of ContentsContractual ObligationsThe following table presents a summary of our contractual obligations at SeptemberÂ 30, 2024:Â Â Year Ending SeptemberÂ 30,ThereafterTotalÂ 2025202620272028202 9Â (In thousands)Senior Notes (1)$â€”Â $400,000Â $â€”Â $900,000Â $â€”Â $â€”Â $1,300,000Â Revolving line of credit and term loans (1)15,000Â 903,750Â â€”Â â€”Â â€”Â 918,750Â Interest due on Senior Notes57,000Â 57,000Â 36,000Â 36,000Â â€”Â â€”Â 186,000Â Operating lease obligations13,378Â 9,805Â 5,618Â 4,439Â 2,626Â 2,039Â 37,905Â Finance lease obligations3,625Â 3,625Â 3,625Â 441Â â€”Â â€”Â 11,316Â Purchase obligations (2)$62,271Â 57,835Â 2,594Â â€”Â â€”Â â€”Â 122,700Â Unrecognized tax benefits (3)â€”Â â€”Â â€”Â â€”Â â€”Â 19,879Â Â Â Â Â Â Total commitments$151,274Â $1,432,015Â $47,837Â $940,880Â $2,626Â $2,039Â $2,596,550Â (1)Represents the unpaid principal payments due under the Senior Notes, revolving line of credit, and term loans.(2)Represents purchase obligations primarily consisting of commitments to purchase certain services. As we are not able to reasonably estimate the timing of the payments or the amount by which the liability will increase or decrease over time, the related balances have not been reflected in the section of the table showing payment by fiscal year.CRITICAL ACCOUNTING ESTIMATESWe prepare our consolidated financial statements in conformity with U.S. GAAP. These accounting principles require management to make certain judgments and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. We periodically evaluate our estimates including those relating to revenue recognition, goodwill resulting from business combinations and other long-lived assets â€“ impairment assessment, share-based compensation, income taxes, and contingencies and litigation. We base our estimates on historical experience and various other assumptions that we believe to be reasonable based on the specific circumstances, the results of which form the basis for making judgments about the carrying value of certain assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and such differences could be material to our financial condition and results of operations. Critical accounting estimates are those that involve a significant level of estimation uncertainty and have had or are reasonably likely to have a material impact on our financial condition and results of operations.While our significant accounting policies are more fully described in Note 1 and Note 9 to our consolidated financial statements included elsewhere in this report, we believe the following accounting policies require the most critical accounting estimates, which involve significant subjectivity and judgment, and changes to such estimates or assumptions could have a material impact on our financial condition or operating results. Therefore, we consider an understanding of the variability and judgment required in making these estimates and assumptions to be critical in fully understanding and evaluating our reported financial results.45Table of ContentsRevenue RecognitionFor our SaaS subscriptions, we estimate the total variable consideration at contract inception â€“ subject to any constraints that may apply â€“ and update the estimates as new information becomes available and recognize the amount ratably over the SaaS service period, unless we determine it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed. Variable consideration is included in the transaction price if, in our judgment, it is probable that a significant future reversal of cumulative revenue recognized under the contract will not occur. Variable consideration is estimated based on either the expected value or the most likely amount method depending on which method we expect to better predict the amount of consideration to which we will be entitled. Our estimates of variable consideration are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available to us at contract inception and require judgment. For the periods presented, we have not experienced significant changes to our estimates and judgments related to variable consideration in our contracts.For our professional services, significant judgment may be required to determine the timing of satisfaction of a performance obligation in certain professional services contracts with a fixed consideration, in which we measure progress using an input method based on labor hours expended. In order to estimate the total hours of the project, we make assumptions about labor utilization, efficiency of processes, the customerâ€™s specification and IT environment, among others. For certain complex projects, due to the risks and uncertainties inherent with the estimation process and factors relating to the assumptions, actual progress may differ due to the change in estimated total hours. Adjustments to estimates are made in the period in which the facts requiring such revisions become known and, accordingly, recognized revenues are subject to revisions as the contract progresses to completion. For the periods presented, we have not experienced significant changes to our estimates and judgments related to the timing of satisfaction of our professional services.Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct and should be accounted for separately may require significant judgment. Specifically, when implementation service is included in the original software or SaaS offerings, judgment is required to determine if the implementation service significantly modifies or customizes the software or SaaS service in such a way that the risks of providing it and the customization service are inseparable. In rare instances, contracts may include significant modification or customization of the software of SaaS service and will result in the combination of software or SaaS service and implementation service as one performance obligation. For the periods presented, we have not experienced significant changes to our estimates and judgments related to the identification of performance obligations for our contracts.We determine the standalone selling prices (â€œSSPâ€) using data from our historical standalone sales, or, in instances where such information is not available (such as when we do not sell the product or service separately), we consider factors such as the stated contract prices, our overall pricing practices and objectives, go-to-market strategy, size and type of the transactions, and effects of the geographic area on pricing, among others. When the selling price of a product or service is highly variable, we may use the residual approach to determine the SSP of that product or service. Significant judgment may be required to determine the SSP for each distinct performance obligation when it involves the consideration of many market conditions and entity-specific factors discussed above. For the periods presented, we have not experienced significant changes to our estimates and judgments related to the determination of our SSPs.Goodwill and Other Long-Lived Assets - Impairment AssessmentGoodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement.46Table of Contents We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a â€œstep zeroâ€ approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the â€œstep zeroâ€ qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step (â€œstep oneâ€) of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test.Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted projected cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset. Significant management judgment is required in forecasting future operating results used in the preparation of the projected cash flows. Should different conditions prevail, material write downs of our other long-lived assets could occur. As discussed above, while we believe that the assumptions and estimates utilized were appropriate based on the information available to management, different assumptions, judgments and estimates could materially affect our impairment assessments for our goodwill and other long-lived assets. For the periods presented, we have not experienced significant changes to our estimates and judgments related to our goodwill or other long-lived assets impairment assessment. We believe our projected operating results and cash flows would need to be significantly less favorable to have a material impact on

our impairment assessment. However, based upon our historical experience with operations, we do not believe there is a reasonable likelihood of a significant change in our projections.Share-Based CompensationWe measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years). We use the Black-Scholes valuation model to determine the fair value of our stock options and a Monte Carlo valuation model to determine the fair value of our market share units. Our valuation models and generally accepted valuation techniques require us to make assumptions and to apply judgment to determine the fair value of our awards. These assumptions and judgments include estimating the volatility of our stock price, expected dividend yield, employee turnover rates and employee stock option exercise behaviors. For the periods presented, we have not experienced significant changes to our estimates and judgments related to the fair value of our awards. See Note 12 to the accompanying consolidated financial statements for further discussion of our share-based employee benefit plans.Income TaxesWe estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase.47Table of ContentsWe recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.Contingencies and LitigationWe are subject to various proceedings, lawsuits and claims relating to products and services, technology, labor, stockholder and other matters. We are required to assess the likelihood of any adverse outcomes and the potential range of probable losses in these matters. If the potential loss is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss. If the potential loss is considered less than probable or the amount cannot be reasonably estimated, disclosure of the matter is considered. The amount of loss accrual or disclosure, if any, is determined after analysis of each matter, and is subject to adjustment if warranted by new developments or revised strategies. Due to uncertainties related to these matters, accruals or disclosures are based on the best information available at the time. Significant judgment is required in both the assessment of likelihood and in the determination of a range of potential losses. Revisions in the estimates of the potential liabilities could have a material impact on our consolidated financial position or consolidated results of operations. For the periods presented, we have not experienced significant changes to our estimates and judgments related to the assessment of likelihood and in the determination of a range of potential losses. New Accounting PronouncementsFor information about recent accounting pronouncements recently adopted and not yet adopted and the impact on our consolidated financial statements, refer to Part II, Item 8, Financial Statements and Supplementary Data, Note 1, Nature of Business and Summary of Significant Accounting Policies, in our accompanying Notes to Consolidated Financial Statements in this Annual Report on Form 10-K.ItemÂ 7A. Quantitative and Qualitative Disclosures about Market RiskMarket Risk DisclosuresWe are exposed to market risk related to changes in interest rates and foreign exchange rates. We do not use derivative financial instruments for speculative or trading purposes.Interest Rate We maintain an investment portfolio consisting of bank deposits and money market funds. The funds provide daily liquidity and may be subject to interest rate risk and fall in value if market interest rates increase. We do not expect our operating results or cash flows to be affected to any significant degree by a sudden change in market interest rates. The following table presents the principal amounts and related weighted-average yields for our investments with interest rate risk at September 30, 2024 and 2023:Â Â September 30, 2024September 30, 2023Â CostÂ BasisCarryingAmountAverageYieldCostÂ BasisCarryingAmountAverageYieldÂ (Dollars in thousands)Cash and cash equivalents$150,667Â $150,667Â 2.88Â %$136,778Â $136,778Â 3.05Â %48Table of ContentsOn May 8, 2018, we issued $400 million of senior notes in a private placement to qualified institutional investors (the â€œ2018 Senior Notesâ€). Interest rates on amounts borrowed under the revolving line of credit and term loans are based on (i)Â an adjusted base rate, which is the greatest of (a)Â the prime rate, (b)Â the Federal Funds rate plus 0.5%, and (c) one-month adjusted term SOFR plus 1%, plus, in each case, an applicable margin, or (ii)Â an adjusted term SOFR plus an applicable margin (or, if such rate is no longer available, a successor benchmark rate determined in accordance with the terms of the credit agreement). Adjusted term SOFR is defined as term SOFR for the relevant interest period plus a SOFR adjustment of 0.10% per annum. The applicable margin for base rate borrowings and for SOFR borrowings is determined based on our consolidated leverage ratio. The applicable margin for base rate borrowings ranges from 0% to 0.75% per annum and for SOFR borrowings ranges from 1% to 1.75% per annum. A change in interest rates on this variable rate debt impacts the interest incurred and cash flows, but does not impact the fair value of the instrument. As of SeptemberÂ 30, 2024, we had $210.0 million in borrowings outstanding under the revolving line of credit at a weighted-average interest rate of 6.396%, $258.8Â million in outstanding balance of the $300 Million Term Loan at an interest rate of 6.344%, and $450.0Â million in outstanding balance of the $450 Million Term Loan at an interest rate of 6.281%.Foreign Currency Forward ContractsWe maintain a program to manage our foreign exchange rate risk on existing foreign-currency-denominated receivable and cash balances by entering into forward contracts to sell or buy foreign currencies. At period end, foreign-currency-denominated receivable and cash balances held by our various reporting entities are remeasured into their respective functional currencies at current market rates. The change in value from this remeasurement is then reported as a foreign exchange gain or loss for that period in our accompanying consolidated statements of income and comprehensive income and the resulting gain or loss on the forward contract mitigates the foreign exchange rate risk of the associated assets. All of our foreign currency forward contracts have maturity periods of less than three months. Such derivative financial instruments are subject to market risk.The following tables summarize our outstanding foreign currency forward contracts, by currency, at September 30, 2024 and 2023:Â Â September 30, 2024Â Contract AmountFairÂ ValueÂ ForeignCurrencyUSDUSDÂ (In thousands)Sell foreign currency:Euro (EUR)EUR13,000Â $14,531Â â€”Â Buy foreign currency:British pound (GBP)GBP12,237Â $16,400Â â€”Â Singapore dollar (SGD)SGD7,404Â $5,800Â â€”Â 49Table of ContentsÂ September 30, 2023Â Contract AmountFairÂ ValueÂ ForeignCurrencyUSDUSDÂ (In thousands)Sell foreign currency:Euro (EUR)EUR12,900Â $13,621Â â€”Â Buy foreign currency:British pound (GBP)GBP10,700Â $13,100Â â€”Â Singapore dollar (SGD)SGD8,569Â $6,300Â â€”Â The foreign currency forward contracts were entered into on September 30, 2024 and 2023; therefore, their fair value was $0 at each of these dates.50Table of ContentsItemÂ 8. Financial Statements and Supplementary DataREPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM To the stockholders and the Board of Directors ofFair Isaac CorporationBozeman, MontanaOpinions on the Financial Statements and Internal Control over Financial ReportingWe have audited the accompanying consolidated balance sheets of Fair Isaac Corporation and subsidiaries (the "Company") as of September 30, 2024 and 2023, the related consolidated statements of income and comprehensive income, stockholders' deficit, and cash flows, for each of the three years in the period ended September 30, 2024, and the related notes (collectively referred to as the "financial statements"). We also have audited the Companyâ€™s internal control over financial reporting as of September 30, 2024, based on criteria established in Internal Control â€” Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2024 and 2023, and the results of operations and cash flows for each of the three years in the period ended September 30, 2024, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of September 30, 2024, based on criteria established in Internal Control â€” Integrated Framework (2013) issued by COSO. Basis for OpinionsThe Companyâ€™s management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Managementâ€™s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these financial statements and an opinion on the Companyâ€™s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.Our audits of the financial statements included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures to respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.Definition and Limitations of Internal Control over Financial ReportingA companyâ€™s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A companyâ€™s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the companyâ€™s assets that could have a material effect on the financial statements.Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.51Table of ContentsCritical Audit MatterThe critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.Revenue Recognition â€“ Contracts with Customers â€“ Refer to Note 1 and Note 9 to the financial statementsCritical Audit Matter DescriptionRevenue is recognized when control of the promised goods or services is transferred to the Companyâ€™s customers, in an amount that reflects the consideration to which the Company expects to be entitled to in exchange for those goods or services. The Companyâ€™s revenue is primarily derived from on-premises software and software-as-a-service (SaaS) subscriptions, professional services, and scoring services. For contracts with customers that contain various combinations of products and services, the Company evaluates whether the products or services are distinct â€” distinct products or services will be accounted for as separate performance obligations, while non-distinct products or services are combined with others to form a single performance obligation. For on-premises software, which includes a term-based license and post-contract support or maintenance, the transaction price is either a fixed fee, or a usage-based fee â€” sometimes subject to a guaranteed minimum. Any usage-based fees not subject to a guaranteed minimum or earned in excess of the minimum amount are recognized when the subsequent usage occurs.For SaaS products, the Company estimates the total variable consideration at contract inception â€” subject to any constraints that may apply â€” and updates the estimates as new information becomes available and recognizes the amount ratably over the SaaS service period, unless the Company determines it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed.The Companyâ€™s professional services include software implementation, consulting, model development and training. The transaction price can be a fixed amount or a variable amount based upon the time and materials expended. Revenue on fixed-price services is recognized using an input method based on labor hours expended, which the Company believes provides a faithful depiction of the transfer of services.The Companyâ€™s scoring services include both business-to-business and business-to-consumer offerings. The Companyâ€™s business-to-business scoring services typically include a license that grants consumer reporting agencies the right to use the scoring solutions in exchange for a usage-based royalty. Revenue is generally recognized when the usage occurs. Business-to-consumer offerings provide consumers with access to their FICOÂ® Scores and credit reports, as well as other value-add services. These are provided as either a one-time or ongoing subscription service renewed monthly or annually, all with a fixed consideration.Given the complexity of certain of the Companyâ€™s contracts, together with the judgment involved in identifying performance obligations and estimating variable consideration, auditing the related revenue required both extensive audit effort due to the volume and complexity of the contracts and a high degree of auditor judgment when performing audit procedures and evaluating the results of those procedures.How the Critical Audit Matter Was Addressed in the AuditOur audit procedures related to revenue recognition over the Companyâ€™s identification of performance obligations and estimation of variable consideration, included the following, among others: â€¢We tested the effectiveness of controls over contract revenue, including managementâ€™s controls over the identification of performance obligations and estimation of variable consideration. â€¢We selected a sample of contracts and performed the following procedures: â—¦Obtained and read the contract, including master agreements, renewal agreements, and other source documents that are part of the contract.â—¦Confirmed the terms of the contract directly with the customer, including whether there are terms not formally included in the contract that may impact the identification of performance obligations and revenue recognition and performed alternative procedures in the event of nonreplies.52Table of Contentsâ—¦Tested managementâ€™s identification of the performance obligations within the customer contract.â—¦Tested managementâ€™s estimation of variable consideration in the transaction price by evaluating the reasonableness of the inputs used in managementâ€™s estimates. /s/ DeloitteÂ & Touche LLPSan Diego, CANovember 6, 2024We have served as the Companyâ€™s auditor since 2004.53Table of ContentsFAIR ISAAC CORPORATIONCONSOLIDATED BALANCE SHEETSÂ Â September 30,Â 20242023Â (InÂ thousands,Â exceptÂ parÂ valuedata)AssetsCurrent assets:Cash and cash

Nature of Business and Summary of Significant Accounting PoliciesFair Isaac CorporationFair Isaac Corporation (NYSE: FICO) (together with its consolidated subsidiaries, the â€œCompany,â€ which may also be referred to in this report as â€œwe,â€ â€œus,â€ â€œour,â€ or â€œFICOâ€) is a leading applied analytics company. We were founded in 1956 on the premise that data, used intelligently, can improve business decisions. Today, FICOâ€™s software and the widely used FICOÂ® Score operationalize analytics, enabling thousands of businesses in more than 80 countries to uncover new opportunities, make timely decisions that matter, and execute them at scale. Most leading banks and credit card issuers rely on our solutions, as do insurers, retailers, telecommunications providers, automotive lenders, consumer reporting agencies, public agencies, and organizations in other industries. We also serve consumers through online services that enable people to access and understand their FICO Scores â€” the standard measure in the United States (â€œU.S.â€) of consumer credit risk â€” empowering them to increase financial literacy and manage their financial health.Principles of Consolidation and Basis of PresentationThe consolidated financial statements include the accounts of FICO and its subsidiaries. All intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation.Use of EstimatesWe make estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of various accruals; variable considerations included in the transaction price and standalone selling price of each performance obligation for our customer contracts; labor hours in connection with fixed-fee service contracts; the amount of our tax provision; and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Actual results may differ from our estimates.Cash and Cash EquivalentsCash and cash equivalents consist of cash in banks and investments with an original maturity of 90 days or less at time of purchase.58Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Fair Value of Financial InstrumentsThe fair value of certain of our financial instruments, including cash and cash equivalents, receivables, other current assets, accounts payable, accrued compensation and employee benefits, other accrued liabilities and amounts outstanding under our revolving line of credit and term loans, approximate their carrying amounts because of the short-term maturity of these instruments. The fair values of our cash and cash equivalents and marketable securities investments are disclosed in Note 4. The fair value of our derivative instruments is disclosed in Note 5. The fair value of our senior notes is disclosed in Note 8.InvestmentsWe categorize our investments in debt and equity instruments as trading, available-for-sale or held-to-maturity at the time of purchase. Trading securities are carried at fair value with unrealized gains or losses included in other income (expense). Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains or losses included in accumulated other comprehensive income (loss). Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned.Â Realized gains and losses are determined on a specific identification basis and are included in other income (expense). We review marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. We did not classify any securities as held-to-maturity or available-for-sale during each of the three years ended September 30, 2024, 2023 and 2022. Investments with remaining maturities over one year are classified as long-term investments.Concentration of RiskFinancial instruments that potentially expose us to concentrations of risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable, which are generally not collateralized. Our policy is to place our cash, cash equivalents, and marketable securities with high quality financial institutions, commercial corporations and government agencies in order to limit the amount of credit exposure. We have established guidelines relative to diversification and maturities for maintaining safety and liquidity. We generally do not require collateral from our customers, but our credit extension and collection policies include analyzing the financial condition of potential customers, establishing credit limits, monitoring payments, and aggressively pursuing delinquent accounts. We maintain allowances for potential credit losses.A significant portion of our revenues are derived from the sales of products and services to the financial services industries.Property and EquipmentProperty and equipment are recorded at cost less accumulated depreciation and amortization. Major renewals and improvements are capitalized, while repair and maintenance costs are expensed as incurred. Depreciation and amortization charges are calculated using the straight-line method over the following estimated useful lives:Â Â Estimated Useful LifeData processing equipment and purchased software3 yearsto6 yearsInternal-use software4 yearsOffice furniture and equipment3 yearsto7 yearsLeasehold improvementsShorterÂ ofÂ estimated usefulÂ lifeÂ orÂ leaseÂ termThe cost and accumulated depreciation and amortization for property and equipment sold, retired or otherwise disposed of are removed from the applicable accounts, and resulting gains or losses are recorded in our consolidated statements of income and comprehensive income. Depreciation and amortization on property and equipment totaled $9.4 million, $10.1 million and $15.2 million during fiscal 2024, 2023 and 2022, respectively.Â 59Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Internal-Use SoftwareCosts incurred to develop internal-use software during the application development stage are capitalized and reported at cost. Application development stage costs generally include costs associated with internal-use software configuration, coding, installation and testing. Costs of significant upgrades and enhancements that result in additional functionality are also capitalized whereas costs incurred for maintenance and minor upgrades and enhancements are expensed as incurred. Amortization of capitalized costs are recorded within cost of revenues in our consolidated statements of income and comprehensive income.Capitalized Software and Research and Development CostsSoftware development costs relating to products to be sold in the normal course of business are expensed as incurred as research and development costs until technological feasibility is established. Technological feasibility for our products occurs approximately concurrently with the general release of our products; accordingly, we have not capitalized any development or production costs. Costs we incur to maintain and support our products are expensed in the period they are incurred and included in cost of revenues in our consolidated statements of income and comprehensive income.Goodwill and Other Long-Lived AssetsGoodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement.We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a â€œstep zeroâ€ approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the â€œstep zeroâ€ qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step (â€œstep oneâ€) of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test.For fiscal 2024, 2023 and 2022, we performed a step zero qualitative analysis for our annual assessment of goodwill impairment. After evaluating and weighing all relevant events and circumstances, we concluded that it is not more likely than not that the fair value of either of our reporting units was less than their carrying amounts. Consequently, we did not perform a step one quantitative analysis and determined goodwill was not impaired for either of our reporting units for fiscal 2024, 2023 and 2022. Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset. We did not recognize any impairment charges on other long-lived assets in fiscal 2024, 2023 and 2022. Revenue RecognitionRevenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods or services.See Note 9 for further discussion on revenues.60Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Income TaxesWe estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase.We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any

related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.Earnings per ShareBasic earnings per share are computed on the basis of the weighted-average number of common shares outstanding during the period under measurement. Diluted earnings per share are based on the weighted-average number of common shares outstanding and potential common shares. Potential common shares result from the assumed exercise of outstanding stock options or other potentially dilutive equity instruments, when they are dilutive under the treasury stock method.Comprehensive IncomeComprehensive income is the change in our equity (net assets) during each period from transactions and other events and circumstances from non-owner sources. It includes net income and foreign currency translation adjustments.Foreign Currency and Derivative Financial InstrumentsWe have determined that the functional currency of each foreign operation is the local currency. Assets and liabilities denominated in their local foreign currencies are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates of exchange prevailing during the period. Foreign currency translation adjustments are accumulated as a separate component of consolidated stockholdersâ€™ deficit.We utilize derivative instruments to manage market risks associated with fluctuations in certain foreign currency exchange rates as they relate to specific balances of accounts receivable and cash denominated in foreign currencies. We principally utilize foreign currency forward contracts to protect against market risks arising in the normal course of business. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations or to enter into contracts that intentionally increase our underlying exposure. All of our foreign currency forward contracts have maturity periods of less than three months.At the end of the reporting period, foreign-currency-denominated assets and liabilities are remeasured into the functional currencies of the reporting entities at current market rates. The change in value from this remeasurement is reported as a foreign exchange gain or loss for that period in other income (expense), net in the accompanying consolidated statements of income and comprehensive income. 61Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022We recorded transactional foreign exchange gains (losses) of $(0.6) million, $(2.6) million and $1.9 million during fiscal 2024, 2023 and 2022, respectively.Share-Based CompensationWe measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years). See Note 12 for further discussion of our share-based employee benefit plans.Advertising and Promotion CostsAdvertising and promotion costs are expensed as incurred and are included in selling, general and administrative expenses in the accompanying consolidated statements of income and comprehensive income. Advertising and promotion costs totaled $12.3 million, $9.8 million and $8.1 million in fiscal 2024, 2023 and 2022, respectively.New Accounting PronouncementsRecent Accounting Pronouncements AdoptedIn October 2021, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) No.Â 2021-08, â€œBusiness Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customersâ€Â (â€œASU 2021-08â€). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities from acquired contracts using the revenue recognition guidance under Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, in order to align the recognition of a contract liability with the definition of a performance obligation. We adopted ASU 2021-08 in the first quarter of fiscal 2024 and the adoption did not have a significant impact on our consolidated financial statements.Recent Accounting Pronouncements Not Yet AdoptedIn November 2023, the FASB issued ASU No.Â 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosuresâ€Â (â€œASU 2023-07â€). ASU 2023-07 expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, which means that it will be effective for our annual periods beginning October 1, 2024, and our interim periods beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.In December 2023, the FASB issued ASU No.Â 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€Â (â€œASU 2023-09â€). ASU 2023-09 requires disaggregated information about a reporting entityâ€™s effective tax rate reconciliation as well as disaggregated information on income tax paid. The standard is effective for fiscal years beginning after December 15, 2024, which means that it will be effective for our fiscal years beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.We do not expect that any other recently issued accounting pronouncements will have a significant effect on our consolidated financial statements.2. Product Line Asset SaleDuring fiscal 2023, we sold certain assets related to our Siron compliance business within our Software segment and recorded a gain of $1.9Â million.62Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 20223. Fair Value MeasurementsFair value is defined as the price that would be received from the sale of an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The accounting guidance establishes a three-level hierarchy for disclosure that is based on the extent and level of judgment used to estimate the fair value of assets and liabilities.â€¢Level 1 â€” uses unadjusted quoted prices that are available in active markets for identical assets or liabilities. Our Level 1 assets were comprised of money market funds and certain marketable securities and our Level 1 liabilities included senior notes as of September 30, 2024 and 2023.â€¢Level 2 â€” uses inputs other than quoted prices included in Level 1 that are either directly or indirectly observable through correlation with market data. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs to valuation models or other pricing methodologies that do not require significant judgment because the inputs used in the model, such as interest rates and volatility, can be corroborated by readily observable market data. We did not have any assets or liabilities that are valued using inputs identified under a Level 2 hierarchy as of September 30, 2024 and 2023.â€¢Level 3 â€” uses one or more significant inputs that are unobservable and supported by little or no market activity, and that reflect the use of significant management judgment. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques, and significant management judgment or estimation. We did not have any assets or liabilities that are valued using inputs identified under a Level 3 hierarchy as of September 30, 2024 and 2023.Â The following tables represent financial assets that we measured at fair value on a recurring basis at September 30, 2024 and 2023:Â September 30, 2024ActiveÂ MarketsÂ forIdenticalÂ Instruments(Level 1)Fair Value as of September 30, 2024Â (In thousands)Assets:Cash equivalents (1)$7,899Â $7,899Â Marketable securities (2)45,289Â 45,289Â Total$53,188Â $53,188Â Â 63Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022September 30, 2023ActiveÂ MarketsÂ forIdenticalÂ Instruments(Level 1)Fair Value as of September 30, 2023Â (In thousands)Assets:Cash equivalents (1)$23,621Â $23,621Â Marketable securities (2)33,014Â 33,014Â Total$56,635Â $56,635Â Â (1)Included in cash and cash equivalents on our consolidated balance sheets at September 30, 2024 and 2023. Derivative Financial InstrumentsWe use derivative instruments to manage risks caused by fluctuations in foreign exchange rates. The primary objective of our derivative instruments is to protect the value of foreign-currency-denominated receivable and cash balances from the effects of volatility in foreign exchange rates that might occur prior to conversion to their functional currencies. We principally utilize foreign currency forward contracts, which enable us to buy and sell foreign currencies in the future at fixed exchange rates and economically offset changes in foreign exchange rates. We routinely enter into contracts to offset exposures denominated in the British pound, Euro and Singapore dollar.Foreign-currency-denominated receivable and cash balances are remeasured at foreign exchange rates in effect on the balance sheet date with the effects of changes in foreign exchange rates reported in other income (expense), net. The forward contracts are not designated as hedges and are marked to market through other income (expense), net. Fair value changes in the forward contracts help mitigate the changes in the value of the remeasured receivable and cash balances attributable to changes in foreign exchange rates. The forward contracts are short-term in nature and typically have average maturities at inception of less than three months.The following tables summarize our outstanding foreign currency forward contracts, by currency, at September 30, 2024 and 2023:Â Â September 30, 2024Â Contract AmountFairÂ ValueÂ ForeignCurrencyUSDUSDÂ (In thousands)Sell foreign currency:Euro (EUR)EUR13,000Â $14,531Â â€”Â Buy foreign currency:British pound (GBP)GBP12,237Â $16,400Â â€”Â Singapore dollar (SGD)SGD7,404Â $5,800Â â€”Â Â 64Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Â September 30, 2023Â Contract AmountFairÂ ValueÂ ForeignCurrencyUSDUSDÂ (In thousands)Sell foreign currency:Euro (EUR)EUR12,900Â $13,621Â â€”Â Buy foreign currency:British pound (GBP)GBP10,700Â $13,100Â â€”Â Singapore dollar (SGD)SGD8,569Â $6,300Â â€”Â The foreign currency forward contracts were entered into on September 30, 2024 and 2023; therefore, their fair value was $0 at each of these dates.Gains (losses) on derivative financial instruments were recorded in our consolidated statements of income and comprehensive income as a component of other income (expense), net, and consisted of the following:Â Â YearÂ EndedÂ SeptemberÂ 30,Â 202420232022Â (In thousands)Gain (loss) on foreign currency forward contracts$1,580Â $1,625Â $(2,748)6. Borrowings under the revolving line of credit and the $300 Million Term Loan can be used for working capital and general corporate purposes and may also be used for the refinancing of existing debt, acquisitions, and the repurchase of our common stock. The $300 Million Term Loan requires principal payments in consecutive quarterly installments of $3.75Â million on the last business day of each quarter. Interest rates on amounts borrowed under the revolving line of credit and the $300 Million Term Loan are based on (i)Â an adjusted base rate, which is the greatest of (a)Â the prime rate, (b)Â the Federal Funds rate plus 0.5%, and (c) one-month adjusted term Secured Overnight Financing Rate (â€œSOFRâ€) plus 1%, plus, in each case, an applicable margin, or (ii)Â an adjusted term SOFR plus an applicable margin (or, if such rate is no longer available, a successor benchmark rate determined in accordance with the terms of the credit agreement). Adjusted term SOFR is defined as term SOFR for the relevant interest period plus a SOFR adjustment of 0.10% per annum. The applicable margin for base rate borrowings and for SOFR borrowings is determined based on our consolidated leverage ratio. The applicable margin for base rate borrowings ranges from 0% to 0.75% per annum and for SOFR borrowings ranges from 1% to 1.75% per annum. In addition, we must pay certain credit facility fees. The revolving line of credit and the $300 Million Term Loan contain certain restrictive covenants including a maximum consolidated leverage ratio of 3.5 to 1.0, subject to a step up to 4.0 to 1.0 following certain permitted acquisitions and subject to certain conditions, and a minimum interest coverage ratio of 3.0 to 1.0. The credit agreement also contains other covenants typical of unsecured credit facilities.On June 13, 2024, we amended our credit agreement to provide for the issuance of a new $450Â million unsecured term loan (the â€œ$450 Million Term Loanâ€) with a syndicate of banks, increasing the total capacity of the credit agreement to $1.35Â billion. The $450 Million Term Loan is subject to the same interest rate provisions and covenants as the revolving line of credit and the $300 Million Term Loan, and matures on August 19, 2026. We have no obligation to make scheduled principal payments on the $450 Million Term Loan prior to the maturity date, but may prepay the $450 Million Term Loan, without premium or penalty, in whole or in part.As of SeptemberÂ 30, 2024, we had $210.0 million in borrowings outstanding under the revolving line of credit at a weighted-average interest rate of 6.396%, $258.8Â million in outstanding balance of the $300 Million Term Loan at an interest rate of 6.344%, and $450.0Â million in outstanding balance of the $450 Million Term Loan at an interest rate of 6.281%. Revenue from Contracts with CustomersContracts with CustomersOur revenue is primarily derived from on-premises software and SaaS subscriptions, professional services and scoring services. For contracts with customers that contain various combinations of products and

services, we evaluate whether the products or services are distinct â€” distinct products or services will be accounted for as separate performance obligations, while non-distinct products or services are combined with others to form a single performance obligation. For contracts with multiple performance obligations, the transaction price is allocated to each performance obligation on a relative standalone selling price (â€œSSPâ€) basis. Revenue is recognized when control of the promised goods or services is transferred to our customers.Our on-premises software is primarily sold on a subscription basis, which includes a term-based license and post-contract support or maintenance, both of which generally represent distinct performance obligations and are accounted for separately. The transaction price is either a fixed fee, or a usage-based fee â€” sometimes subject to a guaranteed minimum. When the amount is fixed, including the guaranteed minimum in a usage-based fee, license revenue is recognized at the point in time when the software is made available to the customer. Maintenance revenue is recognized ratably over the contract period as customers simultaneously consume and receive benefits. Any usage-based fees not subject to a guaranteed minimum or earned in excess of the minimum amount are recognized when the subsequent usage occurs. We occasionally sell software arrangements consisting of on-premises perpetual licenses and maintenance. License revenue is recognized at a point in time when the software is made available to the customer and maintenance revenue is recognized ratably over the contract term.68Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Our SaaS products provide customers with access to and standard support for our software on a subscription basis, delivered through our own infrastructure or third-party cloud services. The SaaS transaction contracts typically include a guaranteed minimum fee per period that allows up to a certain level of usage and a consumption-based variable fee in excess of the minimum threshold; or a consumption-based variable fee not subject to a minimum threshold. The nature of our SaaS arrangements is to provide continuous access to our hosted solutions in the cloud, i.e., a stand-ready obligation that comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). We estimate the total variable consideration at contract inception â€” subject to any constraints that may apply â€” and update the estimates as new information becomes available and recognize the amount ratably over the SaaS service period, unless we determine it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed. Variable consideration is included in the transaction price if, in our judgment, it is probable that a significant future reversal of cumulative revenue recognized under the contract will not occur. Variable consideration is estimated based on either the expected value or the most likely amount method depending on which method we expect to better predict the amount of consideration to which we will be entitled. Our estimates of variable consideration are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available to us at contract inception and require judgment.Our professional services include software implementation, consulting, model development and training. Professional services are sold either standalone, or together with other products or services and generally represent distinct performance obligations. The transaction price can be a fixed amount or a variable amount based upon the time and materials expended. Revenue on fixed-price services is recognized using an input method based on labor hours expended, which we believe provides a faithful depiction of the transfer of services. Revenue on services provided on a time and materials basis is recognized by applying the â€œright-to-invoiceâ€ practical expedient as the amount to which we have a right to invoice the customer corresponds directly with the value of our performance to the customer. Our scoring services include both business-to-business and business-to-consumer offerings. Our business-to-business scoring services typically include a license that grants consumer reporting agencies the right to use our scoring solutions in exchange for a usage-based royalty. Revenue is generally recognized when the usage occurs. Business-to-consumer offerings provide consumers with access to their FICOÂ® Scores and credit reports, as well as other value-add services. These are provided as either a one-time or ongoing subscription service renewed monthly or annually, all with a fixed consideration. The nature of the subscription service is a stand-ready obligation to generate credit reports, provide credit monitoring, and other services for our customers, which comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). Revenue from one-time or monthly subscription services is recognized during the period when service is performed. Revenue from annual subscription services is recognized ratably over the subscription period.Disaggregation of RevenueDuring fiscal 2023, we sold certain assets related to our Siron compliance business. Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to provide customers with financing or to receive financing from our customers. Examples include multi-year on-premises licenses that are invoiced annually with revenue recognized upfront and invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period.Performance ObligationsRevenue allocated to remaining performance obligations represents contracted revenue that will be recognized in future periods, which is comprised of deferred revenue and amounts that will be invoiced and recognized as revenue in future periods. This does not include:â€¢Usage-based revenue that will be recognized in future periods from on-premises software subscriptions;â€¢Consumption-based variable fees from SaaS software that will be recognized in the distinct service period during which it is earned; andâ€¢Revenue from variable considerations that will be recognized in accordance with the â€œright-to-invoiceâ€ practical expedient, such as fees from our professional services billed based on a time and materials basis.Revenue allocated to remaining performance obligations was $507.3 million as of SeptemberÂ 30, 2024, approximately 50% of which we expect to recognize over the next 14 months and the remainder thereafter. Revenue allocated to remaining performance obligations was $470.5 million as of SeptemberÂ 30, 2023.Significant JudgmentsOur contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct and should be accounted for separately may require significant judgment. Specifically, when implementation service is included in the original software or SaaS offerings, judgment is required to determine if the implementation service significantly modifies or customizes the software or SaaS service in such a way that the risks of providing it and the customization service are inseparable.We determine the SSPs using data from our historical standalone sales, or, in instances where such information is not available (such as when we do not sell the product or service separately), we consider factors such as the stated contract prices, our overall pricing practices and objectives, go-to-market strategy, size and type of the transactions, and effects of the geographic area on pricing, among others. When the selling price of a product or service is highly variable, we may use the residual approach to determine the SSP of that product or service. Significant judgment may be required to determine the SSP for each distinct performance obligation when it involves the consideration of many market conditions and entity-specific factors discussed above.72Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Significant judgment may be required to determine the timing of satisfaction of a performance obligation in certain professional services contracts with a fixed consideration, in which we measure progress using an input method based on labor hours expended. In order to estimate the total hours of the project, we make assumptions about labor utilization, efficiency of processes, the customerâ€™s specification and IT environment, among others. For certain complex projects, due to the risks and uncertainties inherent with the estimation process and factors relating to the assumptions, actual progress may differ due to the change in estimated total hours. Adjustments to estimates are made in the period in which the facts requiring such revisions become known and, accordingly, recognized revenues are subject to revisions as the contract progresses to completion.Capitalized Commission CostsWe capitalize incremental commission fees paid as a result of obtaining customer contracts. Capitalized commission costs, which are recorded in other assets within the accompanying consolidated balance sheets, were $60.5Â million and $58.6Â million at September 30, 2024 and 2023, respectively.Capitalized commission costs are amortized on a straight-line basis over ten years â€” determined using a portfolio approach â€” based on the transfer of goods or services to which the assets relate, taking into consideration both the initial and future contracts as we do not typically pay a commission on a contract renewal. The amortization costs are included in selling, general, and administrative expenses of our consolidated statements of income and comprehensive income. The amount of amortization was $9.2Â million, $8.2Â million, and $7.2Â million during the years ended September 30, 2024, 2023 and 2022, respectively. There was no impairment loss in relation to the costs capitalized.We apply a practical expedient to recognize the incremental costs of obtaining contracts as an expense when incurred if the amortization period of the assets that we otherwise would have recognized is one year or less. These costs are recorded within selling, general, and administrative expenses.10. Employee Benefit PlansDefined Contribution PlansWe sponsor the Fair Isaac Corporation 401(k) plan for eligible employees in the U.S. Under this plan, eligible employees may contribute up to 25% of compensation, not to exceed statutory limits. We also provide a company matching contribution. Investment in FICO common stock is not an option under this plan. Our contributions into all 401(k) plans, including former-acquired-company-sponsored plans that have since merged into the Fair Isaac Corporation 401(k) plan or have been frozen, totaled $9.5 million, $8.9 million and $8.2 million during fiscal 2024, 2023 and 2022, respectively.Employee Incentive PlansWe maintain various employee incentive plans for the benefit of eligible employees, including officers. The awards generally are based upon the achievement of certain financial and performance objectives subject to the discretion of management. For executive officers, such discretion is exercised by the Leadership Development and Compensation Committee of our Board of Directors. Total expenses under our employee incentive plans were $62.5 million, $57.8 million and $55.7 million during fiscal 2024, 2023 and 2022, respectively.73Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 202211. Share-Based Employee Benefit PlansDescription of Stock Option and Share PlansWe maintain the 2021 Long-Term Incentive Plan (the â€œ2021 Planâ€). The 2021 Plan authorizes the issuance of up to 5,900,000 shares of our common stock, plus additional shares that become available due to the expiration, forfeiture or cancellation of awards outstanding under the 2012 Long-Term Incentive Plan. Under the terms of the 2021 Plan, the pool of shares available for issuance may be used for all types of equity awards available under the 2021 Plan, which include stock options, stock appreciation rights, restricted stock awards, stock unit awards and other share-based awards. All employees, consultants and advisors of FICO or any subsidiary, as well as all non-employee directors, are eligible to receive awards under the 2021 Plan. The 2021 Plan will remain in effect until the earliest of the following: all shares subject to the Plan are distributed, the Board terminates the Plan, or the tenth anniversary of the effective date of the Plan.Stock option awards have a maximum term of ten years. In general, stock option awards and stock unit awards not subject to market or performance conditions vest annually over four years. Stock unit awards subject to market or performance conditions generally vest annually over three years based on the achievement of specified criteria. At SeptemberÂ 30, 2024, there were 4,435,309 shares available for issuance as new awards under the 2021 Plan.Description of Employee Stock Purchase PlanWe maintain the 2019 Employee Stock Purchase Plan (the â€œ2019 Purchase Planâ€) under which we are authorized to issue up to 1,000,000Â shares of our common stock to eligible employees. Eligible employees may elect to have up to 15% of their eligible pay withheld through payroll deductions to purchase FICO common stock during semi-annual offering periods. The purchase price of the stock is 85% of the closing sales price of FICO common stock on the last trading day of each offering period. Offering period means approximately six-month periods commencing (a)Â on the first trading day on or after SeptemberÂ 1 and terminating on the last trading day in the following February, and (b)Â on the first trading day on or after MarchÂ 1 and terminating on the last trading day in the following August. At SeptemberÂ 30, 2024, there were 839,175 shares available for issuance under the 2019 Purchase Plan.We satisfy stock option exercises, vesting of stock units and the 2019 Purchase Plan issuances from treasury shares.Share-Based Compensation Expense and Related Income Tax BenefitsWe recorded share-based compensation expense of $149.4 million, $123.8 million and $115.4 million in fiscal 2024, 2023 and 2022, respectively. The total tax benefit related to this share-based compensation expense was $15.9 million, $13.8 million and $13.5 million in fiscal 2024, 2023 and 2022, respectively. As of SeptemberÂ 30, 2024, there was $213.0 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all equity compensation plans. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted-average period of 2.37 years.In fiscal 2024 we received $8.3 million in cash from stock option exercises, with the tax benefit realized for the tax deductions from these exercises of $10.2 million.Share-Based ActivityRestricted Stock Units The fair value of restricted stock units (â€œRSUsâ€) granted is the closing market price of our common stock on the date of grant, adjusted for the expected dividend yield, if applicable. Segment InformationWe are organized into two reportable segments: Scores and Software. Although we sell solutions and services into a large number of end user product and industry markets, our reportable business segments reflect the primary method in which management organizes and evaluates internal financial information to make operating decisions and assess performance. â€¢Scores. This segment includes our business-to-business (â€œB2Bâ€) scoring solutions and services which give our clients access to predictive credit and other scores that can be easily integrated into their transaction streams and decision-making processes. This segment also includes our business-to-consumer (â€œB2Câ€) scoring solutions, including our myFICO.com subscription offerings.â€¢Software. This segment includes pre-configured analytic and decision management solutions designed for a specific type of business need or process â€“ such as account origination, customer management, customer engagement, fraud detection, and marketing â€“ as well as associated professional services. This segment also includes FICOÂ® Platform, a modular software offering designed to support advanced analytic and decision use cases, as well as stand-alone analytic and decisioning software that can be configured by our customers to address a wide variety of business use cases. These offerings are available to our customers as SaaS or as on-premises software.Our chief operating decision maker (â€œCODMâ€), who is our Chief Executive Officer, evaluates segment financial performance based on segment revenues and segment operating income. Segment operating expenses consist of direct and indirect costs principally related to personnel, facilities, IT infrastructure, consulting, travel and depreciation. Indirect costs are allocated to the segments generally based on relative segment revenues, fixed rates established by management based upon estimated expense contribution levels and other assumptions that management considers reasonable. We do not allocate broad-based incentive expense, share-based compensation expense, restructuring and acquisition-related expense, amortization expense, various corporate charges and certain other income and expense measures to our segments. These income and expense items are not allocated because they are not considered in evaluating the segmentâ€™s operating performance. Our CODM does not evaluate the financial performance of each segment based on its respective assets or capital expenditures; rather, depreciation and amortization amounts are allocated to the segments from their internal cost centers as described above. 80Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022The following tables summarize segment information for fiscal 2024, 2023 and 2022:Â Â Year Ended September 30, 2024Â ScoresSoftwareUnallocatedCorporateExpensesTotalÂ (In thousands)Segment revenues:On-premises and SaaS software$â€”Â $711,340Â $â€”Â $711,340Â Professional servicesâ€”Â 86,536Â â€”Â 86,536Â Scores919,650Â â€”Â â€”Â 919,650Â Total segment revenues919,650Â 797,876Â â€”Â 1,717,526Â Segment operating expense(106,296)(540,347)(186,898)(833,541)Segment operating income$813,354Â $257,529Â $(186,898)$883,985Â Unallocated share-based compensation expense(149,439)Unallocated amortization expense(917)Operating income733,629Â Unallocated interest expense, net(105,638)Unallocated other income, net14,034Â Income before income taxes$642,025Â Depreciation and amortization$451Â $8,881Â $66Â $9,398Â Â Â Year Ended September 30, 2023Â ScoresSoftwareUnallocatedCorporateExpensesTotalÂ (In thousands)Segment revenues:On-premises and SaaS software$â€”Â $640,182Â $â€”Â $640,182Â Professional servicesâ€”Â 99,547Â â€”Â 99,547Â Scores773,828Â â€”Â â€”Â 773,828Â Total segment revenues773,828Â 739,729Â â€”Â 1,513,557Â Segment operating expense(92,757)(498,538)(156,426)(747,721)Segment operating income$681,071Â $241,191Â $(156,426)765,836Â Unallocated share-based compensation expense(123,847)Unallocated amortization expense(1,100)Unallocated gain on product line asset sale1,941Â Operating income642,830Â Unallocated interest expense, net(95,546)Unallocated other income, net6,340Â Income before income taxes$553,624Â Depreciation and amortization$485Â $9,550Â $71Â $10,106Â Â 81Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Â Year Ended September 30, 2022Â ScoresSoftwareUnallocatedCorporateExpensesTotalÂ (In thousands)Segment revenues:On-premises and SaaS software$â€”Â $564,751Â $â€”Â $564,751Â Professional servicesâ€”Â 105,876Â â€”Â 105,876Â Scores706,643Â â€”Â â€”Â 706,643Â Total segment revenues706,643Â 670,627Â â€”Â 1,377,270Â Segment operating expense(87,288)(487,505)(142,647)(717,440)Segment operating

LeasesWe lease office space and data centers under operating lease arrangements, which constitute the majority of our lease obligations. We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term. Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term. 82Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022The following table presents the lease balances within the accompanying consolidated balance sheets as of September 30, 2024 and 2023:Balance Sheet LocationSeptemberÂ 30,20242023(In thousands)AssetsÂ Â Â Operating leasesOperating lease right-of-use assets$29,580Â $25,703Â Â Â Â Finance leases (*)Property and equipment, net9,881Â â€”Â Â Â Â Â Â Â Â Â Total lease assets$39,461Â $25,703Â LiabilitiesCurrent:Â Â Â Operating leasesOther accrued liabilities$11,555Â $16,336Â Â Â Â Finance leasesOther accrued liabilities3,144Â â€”Â Non-current:Â Â Â Operating leasesOperating lease liabilities21,963Â 23,903Â Â Â Â Finance leasesOther liabilities7,263Â â€”Â Â Â Â Â Â Â Â Total lease liabilities$43,925Â $40,239Â (*) Finance leases were recorded net of accumulated depreciation of $1.9Â million at September 30, 2024.The components of our operating and finance lease expenses were as follows:YearÂ EndedÂ SeptemberÂ 30,202420232022(In thousands)Operating lease cost$14,421Â $16,594Â $18,426Â Finance lease cost:Â Â Â Depreciation of lease assets1,859Â â€”Â â€”Â Â Â Â Interest on lease liabilities369Â â€”Â â€”Â Short-term lease cost811Â 461Â 201Â Variable lease cost2,060Â 2,363Â 2,091Â Sublease income (1,073) (429)â€”Â Â Â Â Â Â Â Total lease cost$18,447Â $18,989Â $20,718Â The following table presents weighted-average remaining lease terms and weighted-average discount rates related to our operating and finance leases:September 30,20242023Operating leases:Â Â Â Â Â Weighted-average remaining lease term (in months)4435Â Â Â Â Â Weighted-average discount rate6.41Â %4.58Â %Finance leases:Â Â Â Â Â Weighted-average remaining lease term (in months)400Â Â Â Â Â Weighted-average discount rate5.52Â %â€”Â %83Table of ContentsFAIR ISAAC CORPORATIONNOTES TO CONSOLIDATED FINANCIAL STATEMENTSYears Ended September 30, 2024, 2023 and 2022Supplemental cash flow information related to our non-cancellable leases was as follows:YearÂ EndedÂ SeptemberÂ 30,202420232022(In thousands)Cash paid for amounts included in the measurement of lease liabilities:Operating cash outflow for operating leases$18,153Â $19,780Â $22,021Â Operating cash outflow for finance leases369Â â€”Â â€”Â Financing cash outflow for finance leases1,333Â â€”Â â€”Â Lease assets obtained in exchange for new lease liabilities:Operating leases22,433Â 4,150Â 7,505Â Finance leases11,740Â â€”Â â€”Â Future lease payments under our non-cancellable leases as of SeptemberÂ 30, 2024 were as follows:Operating LeasesFinance Leases(In thousands)Fiscal 2025$13,378Â $3,625Â Fiscal 20269,805Â 3,625Â Fiscal 20275,618Â 3,625Â Fiscal 20284,439Â 441Â Fiscal 20292,626Â â€”Â Thereafter2,039Â â€”Â Â Â Â Â Â Â Â Total future undiscounted lease payments37,905Â 11,316Â Â Â Â Â Â Â Â Â Less imputed interest(4,387)(909)Â Â Â Â Â Â Total reported lease liabilities$33,518Â $10,407Â The amounts above do not include contractual sublease income totaling $0.5Â million, $0.4Â million, and $0.2Â million during fiscal 2025, 2026, and 2027, respectively.16. CommitmentsIn the ordinary course of business, we enter into contractual purchase obligations and other agreements that are legally binding and specify certain minimum payment terms. ContingenciesWe are in disputes with certain customers regarding amounts owed in connection with the sale of certain of our products and services. We also have had claims asserted by former employees relating to compensation and other employment matters. We are also involved in various other claims and legal actions arising in the ordinary course of business. We record litigation accruals for legal matters which are both probable and estimable. For legal proceedings for which there is a reasonable possibility of loss (meaning those losses for which the likelihood is more than remote but less than probable), we have determined we do not have a material exposure, either individually or in the aggregate.18. GuaranteesIn the ordinary course of business, we are not subject to potential obligations under guarantees, except for standard indemnification and warranty provisions that are contained within many of our customer license and service agreements and certain supplier agreements, including underwriter agreements, as well as standard indemnification agreements that we have executed with certain of our officers and directors, and give rise only to the disclosure in the consolidated financial statements. In addition, we continue to monitor the conditions that are subject to the guarantees and indemnifications to identify whether it is probable that a loss has occurred, and would recognize any such losses under the guarantees and indemnifications when those losses are estimable.Indemnification and warranty provisions contained within our customer license and service agreements and certain supplier agreements are generally consistent with those prevalent in our industry. The duration of our product warranties generally does not exceed 90 days following delivery of our products. We have not incurred significant obligations under customer indemnification or warranty provisions historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential customer indemnification or warranty-related obligations. The indemnification agreements that we have executed with certain of our officers and directors would require us to indemnify such officers and directors in certain instances. We have not incurred obligations under these indemnification agreements historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential officer or director indemnification obligations. The maximum potential amount of future payments that we could be required to make under the indemnification provisions in our customer license and service agreements, and officer and director agreements is unlimited.Â ItemÂ 9. Changes in and Disagreements with Accountants on Accounting and Financial DisclosureNot applicable.ItemÂ 9A. Controls and ProceduresEvaluation of Disclosure Controls and ProceduresAn evaluation was carried out under the supervision and with the participation of FICOâ€™s management, including the Chief Executive Officer (â€œCEOâ€) and Chief Financial Officer (â€œCFOâ€), of the effectiveness of the design and operation of FICOâ€™s disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€)) as of the end of the period covered by this annual report. Based on that evaluation, the CEO and CFO have concluded that FICOâ€™s disclosure controls and procedures were effective as of SeptemberÂ 30, 2024 to ensure that information required to be disclosed by FICO in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. In addition, the disclosure controls and procedures are designed to ensure that information required to be disclosed is accumulated and communicated to management, including the CEO and CFO, allowing timely decisions regarding required disclosure.Changes in Internal Control over Financial ReportingNo change in FICOâ€™s internal control over financial reporting was identified in connection with the evaluation required by Rule 13a-15(d) of the Exchange Act that occurred during the quarter ended SeptemberÂ 30, 2024, that has materially affected, or is reasonably likely to materially affect, FICOâ€™s internal control over financial reporting.85Table of ContentsManagementâ€™s Report on Internal Control over Financial Reporting Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under the supervision and with the participation of management, including our CEO and CFO, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of SeptemberÂ 30, 2024 based on the guidelines established in Internal Control â€“ Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation management has concluded that our internal control over financial reporting was effective as of SeptemberÂ 30, 2024. DeloitteÂ & Touche LLP, an independent registered public accounting firm that audited the consolidated financial statements included in this Annual Report on Form 10-K, has also audited the effectiveness of our internal control over financial reporting as of SeptemberÂ 30, 2024, as stated in their attestation report included in Part II, ItemÂ 8 of this Annual Report on Form 10-K.ItemÂ 9B. Other InformationDuring the three months ended September 30, 2024, none of our directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted, modified or terminated any contract, instruction, or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) of the Exchange Act or any non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K).Item 9C. The securities laws are continually reviewed and amended to prevent people from taking unfair advantage and to increase the punishment for those who do. These laws require publicly-traded companies to have clear policies on insider trading. If companies like ours do not take active steps to adopt preventive policies and procedures covering securities trades by company personnel, the consequences could be severe.In addition, we are adopting this Statement of Company Policy to avoid even the appearance of improper conduct on the part of anyone employed by or associated with Fair Isaac Corporation and companies owned by Fair Isaac Corporation (all of which are referred to collectively for convenience as the â€œCompanyâ€), not just so-called insiders. We have all worked hard to establish our reputation for integrity and ethical conduct. We cannot afford to have it damaged.This Statement of Company Policy applies equally to employees of the Company. References to employees in this Statement of Company Policy should be read to include directors of the Company.2.Â Â Â Â The Consequences.The consequences of insider trading violations can be substantial:For individuals who trade on inside information (or tip information to others):â€¢Â Â Â Â A jail term of up to 20 years;â€¢Â Â Â Â A civil penalty of up to three times the profit gained or loss avoided; andâ€¢Â Â Â Â A criminal fine (no matter how small the profit) of up to $5 million.For a company (as well as possibly any supervisory person) that fails to take appropriate steps to prevent illegal trading:â€¢Â Â Â Â A civil penalty of the greater of $1 million or three times the profit gained or loss avoided as a result of the employeeâ€™s violation; andâ€¢Â Â Â Â A criminal penalty of up to $25 million.Further, if an employee violates the Companyâ€™s insider trading policy, Company imposed sanctions, including dismissal for cause, could result from failing to comply with the Companyâ€™s policy or procedures. Needless to say, any of the above consequences, even an SEC investigation that does not result in prosecution, can tarnish oneâ€™s reputation and irreparably damage a career.3.Â Â Â Â Our Policy.No trading while in possession of material non-public information. If any employee has material non-public information (often referred to as â€œinsider informationâ€) relating to the Company, it is our policy that neither that person nor any related person may buy or sell securities of the Company or engage in any other action to take advantage of, or pass on to others, that information. This policy also applies to transactions by an employee in the securities of any other company, including, but not limited to, our customers, partners or suppliers, while such employee is in the possession of material non-public information about the other company obtained in the course of employment at the Company.Transactions that may be necessary or justifiable for independent reasons (such

as the need to raise money for an emergency expenditure) are no exception. Even the appearance of an improper transaction must be avoided to preserve our reputation for adhering to the highest standards of conduct.What is Material Information? â€œMaterial informationâ€ is any information that a reasonable investor would consider important in deciding whether to buy, hold or sell securities of the Company. In short, â€œmaterial informationâ€ includes any information that reasonably could affect the price of the stock. Either positive or negative information may be material. It can be information about the Company or about a company with which we do business.Examples: Common examples of information that will frequently be regarded as material are: â€”Â Â Â Â projections of future earnings or losses;â€”Â Â Â Â news of a possible merger, acquisition or tender offer;â€”Â Â Â Â news of a significant sale of assets;â€”Â Â Â Â significant new products or delays in new product introduction or development;â€”Â Â Â Â discoveries, or grants or allowances or disallowances of patents;â€”Â Â Â Â changes in dividend policies or the declaration of a stock split or the offering of additional securities;â€”Â Â Â Â changes in management;â€”Â Â Â Â plans to raise additional capital through stock sales or otherwise;â€”Â Â Â Â the gain or loss of a significant product sale, customer or collaborator;â€”Â Â Â Â results of product trials;â€”Â Â Â Â pending or threatened litigation or the resolution thereof;â€”Â Â Â Â significant regulatory actions concerning new or proposed products; â€”Â Â Â Â impending bankruptcy or financial liquidity problems; andâ€”Â Â Â Â the gain or loss of a substantial customer or supplier. What is trading? In addition to conventional purchases and sales of common stock, trading includes transactions in puts, calls, options, warrants, convertible securities and other derivatives based on the price of Company common stock. Trading covered by this policy may or may not include transactions under Company-sponsored plans as follows:â€¢Stock Option Exercises. The policyâ€™s trading restrictions do not apply to the purchase of Company stock through the exercise of stock options granted by the Company. The trading restrictions do apply to any contemporaneous (such as a sale through a broker as part of a cashless exercise of the option) or subsequent sale of Company stock acquired through an option exercise.â€¢Restricted Stock/Unit and Performance/Market Stock/Unit Awards. The policyâ€™s trading restrictions do not apply to the vesting of restricted stock/units or performance/market stock/units, or to the exercise of a tax withholding right pursuant to which the person elects to have the Company withhold shares of stock to satisfy tax withholding requirements upon vesting. The trading restrictions do apply to any market sales of shares, such as a sale-to-cover.â€¢Certain Gifts. The policyâ€™s trading restrictions do not apply to a bona fide gift of Company stock so long as either (i) the recipient of the gift is subject to the same trading restrictions under this policy as are applicable to you, or (ii) you otherwise have no reason to believe that the recipient intends to sell the securities immediately or during a period when you would not be permitted to trade pursuant to the terms of this policy.â€¢Employee Stock Purchase Plan Purchases. The policyâ€™s trading restrictions do not apply to the purchase of Company stock through the Employee Stock Purchase Plan (but the policyâ€™s trading restrictions do apply to any election to participate in such plan, any election to change the level of participation in such plan (other than a notice of withdrawal from the plan) or the sale of any shares acquired under such plan).Twenty-Twenty Hindsight. Remember, if your securities transactions become the subject of scrutiny, they will be viewed after-the-fact with the benefit of hindsight. As a result, before engaging in any transaction you should carefully consider how regulators and others might view your transaction in hindsight.Transactions by Others. The same restrictions apply to your family members, others living in your household, and entities that you influence or control. Employees are responsible for the compliance of such persons and entities.Do Not Pass Information to Others. Whether the information is proprietary information about the Company or information that could have an impact on its stock price, employees must not pass the information on to others. It is illegal to advise others to trade on the basis of material non-public information. Liability in these cases can extend to both the â€œtippeeâ€ â€” the person to whom the insider disclosed inside information â€” and you, as the â€œtipper,â€ and will apply whether or not you derive any benefit from anotherâ€™s actions. These restrictions also apply to non-public information concerning any other company if such information was obtained in the course of employment, including information about our customers, partners or suppliers.When Information is Public. As you can appreciate, it is also improper for any employee to enter a trade immediately after the Company has made a public announcement of material information, including earnings releases. We impose certain â€œtrading blackoutsâ€ to ensure that the Companyâ€™s stockholders and the investing public will be afforded the time to receive the information and act upon it. These are discussed below under â€œTrading Blackouts.â€Procedures for Trading. To provide assistance in preventing inadvertent violations and avoiding even the appearance of an improper transaction (which could result, for example, where an employee engages in a trade while unaware of a pending major development) the following procedures must be followed before trading.Members of the Board of Directors and Senior Officers (â€œPreclearance Employeesâ€)Persons in this category must â€¢Notify the Trading Compliance Officer, or in his/her absence, the Backup Trading Compliance Officer (either one the â€œCompliance Officerâ€) and Stock Administration in an email of the amount and nature of the proposed trade. The Compliance Officer, Backup Compliance Officer and Stock Administration personnel are identified on Attachment A hereto, as may be amended from time to time;â€¢Certify to the Compliance Officer in email that (i) he or she is not in possession of material nonpublic information concerning the Company and (ii) the proposed trade(s) will be conducted in compliance with all applicable securities laws, including, if applicable, Section 16 of the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€) and Rule 144 of the Securities Act of 1933, as amended (the â€œSecurities Actâ€); andâ€¢Have received confirmation from the Compliance Officer that the trade is approved.You will be notified if you are one of the officers subject to this policy.Employees in a Position to Have Access to Material Non-public Information (â€œAccess Employeesâ€)Persons in this category must â€¢Certify to the Compliance Officer and Stock Administration by accepting the terms displayed in a pop-up window which appears when using the stock trading tool in the E*TRADE Stock Plan account. The individual must certify that (i) he or she is not in possession of material non-public information concerning the Company and (ii) the proposed trade(s) will be conducted in compliance with all applicable securities laws, including, if applicable, Section 16 of the Exchange Act and Rule 144 of the Securities Act. You will be notified if you are one of the Access Employees subject to this policy. All EmployeesThe above procedures do not relieve anyone of their responsibility under SEC rules. All employees, whether subject to these procedural requirements or not, are responsible for adherence to this Statement of Company Policy, including, but not limited to: not trading on insider information; not trading during trading blackout periods; and not trading in securities on a short-term basis. All employees must follow the procedures applicable to Senior Officers for the sale of stock purchased in the open market and owned less than six months. If any employee is in doubt of whether or not the above procedures apply to him or her, the employee should inquire with the Compliance Officer.Trading Blackouts. From time to time, the Company may require that members of the Board of Directors, Senior Officers, selected employees and others suspend trading because of developments known to the Company and not yet disclosed to the public. In that event, these persons are advised not to engage in any transaction involving the purchase or sale of the Company's securities during that period and should not disclose to others the fact that they have been suspended from trading. The Company will also require the following mandatory trading blackouts:â€¢Â Â Â Â Earnings Trading Blackouts â€” All members of the Board of Directors, Senior Officers, Access Employees and certain employees in a position to have access to material non-public information will be subject to a stock trading blackout period beginning on the twentieth day of the last month of a fiscal quarter until two trading days after earnings for that quarter are released. You will be notified if you are one of the specified employees subject to this policy.â€¢Â Â Â Â Trading After Earnings Announcements â€” In addition to those employees subject to earnings trading blackout periods, all employees are restricted from engaging in transactions from the day an earnings announcement is made until the third trading day after quarterly earnings are released. Thus, if an earnings announcement is made after the stock market closes on a Monday, Thursday would be the first day on which you should trade. If an earnings announcement is made before the stock market opens on a Monday, Wednesday would be the first day on which you should trade. Of course, no trading should be done at any time that a member of the Board of Directors, officer or employee is actually aware of a major undisclosed corporate development.Pre-Planned Trading Plans. Members of the Board of Directors and Senior Officers (subject to pre-approval of trades under this policy) and employees who are subject to preclearance of trades may establish a pre-planned trading plan designed to enable those persons to take advantage of the defense to an allegation of insider trading offered by Rule 10b5-1 of the SEC. Any such plan must meet the following requirements, as well as other requirements of Rule 10b5-1:â€¢it has been approved in advance by our General Counsel and must be in writing, with a copy of the approved plan filed with our General Counsel;â€¢it provides that no trades may occur thereunder until expiration of the applicable cooling-off period specified in Rule 10b5-1(c)(ii)(B) under the Exchange Act, and no trades occur until after that time; the appropriate cooling-off period will vary based on the status of the employee:ofor directors and executive officers, the cooling-off period ends on the later of (i) 90 days after adoption or certain modifications of the 10b5-1 plan; or (ii) two business days following disclosure of the Companyâ€™s financial results in a Form 10-Q or Form 10-K for the quarter in which the 10b5-1 plan was adopted or modified (but in no event more than 120 days after adoption or modification);oall other employees, the cooling-off period ends 30 days after adoption or modification of the 10b5-1 plan;â€¢it is entered into in good faith by the employee, and not as part of a plan or scheme to evade the prohibitions of Rule 10b5-1, at a time when the employee is not in possession of material nonpublic information about the Company; and, if the employee is a director or officer, the 10b5-1 plan must include representations by the individual certifying to such matters;â€¢it (i) specifies the amount of securities to be purchased or sold and the price at which and the date on which the securities are to be purchased or sold; (ii) includes a written formula or algorithm, or computer program, for determining the amount of securities to be purchased or sold and the price at which and the date on which the securities are to be purchased or sold; or (iii) does not permit the person to exercise any subsequent influence over how, when, or whether to effect purchases or sales; provided, in addition, that any other person who, pursuant to the contract, instruction, or plan, did exercise such influence must not have been aware of the material nonpublic information when doing so; â€¢it is the only outstanding approved 10b5-1 Plan entered into by the employee (subject to the exceptions set out in Rule 10b5-1(c)(ii)(D) of the Exchange Act); andâ€¢it is not designed to effect the open-market purchase or sale of the total amount of securities in a single transaction within a 12-month period of another single-transaction plan (subject to the exceptions set out in Rule 10b5-1(c)(ii)(E) of the Exchange Act).We will be under no obligation to approve such a plan and will only do so if we believe the plan will meet the requirements of Rule 10b5-1 and will not be adverse to our overall corporate objectives.4.Â Â Â Â Additional Prohibited Transactions.We believe it is improper and inappropriate for any Company personnel to engage in short-term or speculative transactions involving Company stock. We believe that this trading can reflect badly on the Company and that Company personnel should not engage in any types of transactions that are commonly viewed as a form of â€œbettingâ€ for or against the Company. Accordingly, it is the Companyâ€™s policy that members of the Board of Directors, officers and employees should not engage in any of the following activities with respect to securities of the Company:â€¢Â Â Â Â Trading in securities on a short-term basis â€” As a general rule, any Company stock purchased in the open market (i.e., not including stock purchased upon exercise of an employee stock option or under the Employee Stock Purchase Plan) should be held for a minimum of six months and ideally longer. Senior Officers who are also Section 16 officers and members of the Board of Directors of the Company are already subject to the SECâ€™s â€œshort-swingâ€ profit rule, which penalizes sales and purchases inside of any six-month period. Any employee who wishes to sell Company stock that was purchased in the open market and that has been owned less than six months must obtain prior written clearance from our General Counsel.â€¢Â Â Â Â Purchases of Company stock on margin â€” This means borrowing from a brokerage firm, bank or other entity in order to buy Company stock (other than in connection with a so-called â€œcashlessâ€ exercise of options under the Companyâ€™s stock plans). â€¢Â Â Â Â Short sales of Company stock â€” This involves selling Company stock that you do not own in the expectation that the price of the stock will fall, or as part of an arbitrage transaction.â€¢Â Â Â Â Hedging ownership of Company stock â€”This includes buying or selling puts or calls on Company stock, options trading on any of the stock exchanges or futures exchanges relating to Company stock, entering into equity swaps, prepaid variable forward contracts, collars or exchange funds involving Company stock and other transactions that are designed to hedge or offset decreases in the price of Company stock.In addition, employees are expected to comply with any other state or federal securities law requirements that may apply to them, for example restrictions of the sale of securities subject to Rule 144 under the Securities Act.5.Â Â Â Â Confidential Information and Communications with the Media.Unauthorized disclosure of internal information relating to the Company (including information regarding new products, the Companyâ€™s suppliers or customers) could cause competitive harm to the Company and in some cases could result in liability for the Company.Unauthorized disclosure. Company personnel should not disclose internal information about the Company to anyone outside the Company, except as required in the performance of regular duties for the Company. In this regard, Company employees are prohibited from posting internal information about the Company on a â€œbulletin boardâ€ on the Internet or communicating about the Company and its business in Internet-based â€œchatâ€ rooms and are prohibited from facilitating the posting of internal information by others. Communications with the media, securities analysts and investors. Communications on behalf of the Company with the media, securities analysts and investors must be made only by specifically designated representatives of the Company. Unless you have been expressly authorized to make such communications, if you receive any inquiry relating to the Company from the media, a securities analyst or an investor, you should refer the inquiry to the Investors Relations office or the General Counsel.Safeguarding confidential information. Care must be taken to safeguard the confidentiality of internal information. For example, sensitive documents should not be left lying on desks, and visitors should not be left unattended in offices containing internal company documents.Rumors. Rumors concerning the business and affairs of the Company may circulate from time to time. Our general policy is not to comment upon those rumors. Individual employees should also refrain from commenting upon or responding to rumors and should refer any requests for comments or responses to the Investors Relations office or the General Counsel.6.Â Â Â Â Company Assistance.Any person who has any questions about specific transactions may obtain additional guidance from our General Counsel.Remember, however, the ultimate responsibility for adhering to the Statement of Company Policy and avoiding improper transactions rests with you. In this regard, it is imperative that you use your best judgment.7.Â Â Â Â Acknowledgements.This policy will be delivered to all employees. All employees will be required to acknowledge their understanding of, and an intent to comply with, this Statement of Company Policy, in a manner and form approved by the General Counsel.In addition, certain employees may be required to acknowledge their understanding of, and intent to comply with, this Statement of Company Policy on an annual basis.Attachment AThe individuals listed below have the following responsibilities for purposes of the Fair Isaac Corporation Statement of Company Policy as to Trades in the Companyâ€™s Securities By Company Personnel and Confidential Information:Compliance Officer[*****]Backup Compliance Officer [*****]Stock Administration[*****][*****]Revised: October 25, 2023 EX-21.1 3 ex-21110xk2024xsubsidiarie.htm EX-21.1 FY2024 10-K DocumentExhibit 21.1FAIR ISAAC CORPORATION LIST OF SUBSIDIARIESName of CompanyJurisdiction of Incorporation/OrganizationData Research Technologies, Inc.MinnesotaEntiera, Inc.DelawareeZmCom, Inc.DelawareFair Isaac (ASPAC) Pte. | Contingencies | ContingenciesWe are in disputes with certain customers regarding amounts owed in connection with the sale of certain of our products and services. We also have had claims asserted by former employees relating to compensation and other employment matters. We are also involved in various other claims and legal actions arising in the ordinary course of business. We record litigation accruals for legal matters which are both probable and estimable. For legal proceedings for which there is a reasonable possibility of loss (meaning those losses for which the likelihood is more than remote but less than probable), we have determined we do not have |

***Fair Isaac Corporation***

Fair Isaac Corporation (NYSE: FICO) (together with its consolidated subsidiaries, the "Company," which may also be referred to in this report as "we," "us," "our," or "FICO") is a leading applied analytics company. We were founded in 1956 on the premise that data, used intelligently, can improve business decisions. Today, FICO's software and the widely used FICO® Score operationalize analytics, enabling thousands of businesses in more than 80 countries to uncover new opportunities, make timely decisions that matter, and execute them at scale. Most leading banks and credit card issuers rely on our solutions, as do insurers, retailers, telecommunications providers, automotive lenders, consumer reporting agencies, public agencies, and organizations in other industries. We also serve consumers through online services that enable people to access and understand their FICO Scores — the standard measure in the United States ("U.S.") of consumer credit risk — empowering them to increase financial literacy and manage their financial health.

***Principles of Consolidation and Basis of Presentation***

The consolidated financial statements include the accounts of FICO and its subsidiaries. All intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation.

***Use of Estimates***

We make estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of various accruals; variable considerations included in the transaction price and standalone selling price of each performance obligation for our customer contracts; labor hours in connection with fixed-fee service contracts; the amount of our tax provision; and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Actual results may differ from our estimates.

***Cash and Cash Equivalents***

Cash and cash equivalents consist of cash in banks and investments with an original maturity of 90 days or less at time of purchase.

***Fair Value of Financial Instruments***

The fair value of certain of our financial instruments, including cash and cash equivalents, receivables, other current assets, accounts payable, accrued compensation and employee benefits, other accrued liabilities and amounts outstanding under our revolving line of credit and term loans, approximate their carrying amounts because of the short-term maturity of these instruments. The fair values of our cash and cash equivalents and marketable securities investments are disclosed in Note 4. The fair value of our derivative instruments is disclosed in Note 5. The fair value of our senior notes is disclosed in Note 8.

***Investments***

We categorize our investments in debt and equity instruments as trading, available-for-sale or held-to-maturity at the time of purchase. Trading securities are carried at fair value with unrealized gains or losses included in other income (expense). Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains or losses included in accumulated other comprehensive income (loss). Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis and are included in other income (expense). We review marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. We did not classify any securities as held-to-maturity or available-for-sale during each of the three years ended September 30, 2024, 2023 and 2022. Investments with remaining maturities over one year are classified as long-term investments.

***Concentration of Risk***

Financial instruments that potentially expose us to concentrations of risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable, which are generally not collateralized. Our policy is to place our cash, cash equivalents, and marketable securities with high quality financial institutions, commercial corporations and government agencies in order to limit the amount of credit exposure. We have established guidelines relative to diversification and maturities for maintaining safety and liquidity. We generally do not require collateral from our customers, but our credit extension and collection policies include analyzing the financial condition of potential customers, establishing credit limits, monitoring payments, and aggressively pursuing delinquent accounts. We maintain allowances for potential credit losses.

A significant portion of our revenues are derived from the sales of products and services to the financial services industries.

***Property and Equipment***

Property and equipment are recorded at cost less accumulated depreciation and amortization. Major renewals and improvements are capitalized, while repair and maintenance costs are expensed as incurred. Depreciation and amortization charges are calculated using the straight-line method over the following estimated useful lives:

| | **Estimated Useful Life** | | |
|---|---|---|---|
| Data processing equipment and purchased software | 3 years | to | 6 years |
| Internal-use software | | 4 years | |
| Office furniture and equipment | 3 years | to | 7 years |
| Leasehold improvements | | Shorter of estimated useful life or lease term | |

The cost and accumulated depreciation and amortization for property and equipment sold, retired or otherwise disposed of are removed from the applicable accounts, and resulting gains or losses are recorded in our consolidated statements of income and comprehensive income. Depreciation and amortization on property and equipment totaled $9.4 million, $10.1 million and $15.2 million during fiscal 2024, 2023 and 2022, respectively.

*Internal-Use Software*

Costs incurred to develop internal-use software during the application development stage are capitalized and reported at cost. Application development stage costs generally include costs associated with internal-use software configuration, coding, installation and testing. Costs of significant upgrades and enhancements that result in additional functionality are also capitalized whereas costs incurred for maintenance and minor upgrades and enhancements are expensed as incurred. Amortization of capitalized costs are recorded within cost of revenues in our consolidated statements of income and comprehensive income.

***Capitalized Software and Research and Development Costs***

Software development costs relating to products to be sold in the normal course of business are expensed as incurred as research and development costs until technological feasibility is established. Technological feasibility for our products occurs approximately concurrently with the general release of our products; accordingly, we have not capitalized any development or production costs. Costs we incur to maintain and support our products are expensed in the period they are incurred and included in cost of revenues in our consolidated statements of income and comprehensive income.

***Goodwill and Other Long-Lived Assets***

Goodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement.

We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a "step zero" approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the "step zero" qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step ("step one") of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future

revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test.

For fiscal 2024, 2023 and 2022, we performed a step zero qualitative analysis for our annual assessment of goodwill impairment. After evaluating and weighing all relevant events and circumstances, we concluded that it is not more likely than not that the fair value of either of our reporting units was less than their carrying amounts. Consequently, we did not perform a step one quantitative analysis and determined goodwill was not impaired for either of our reporting units for fiscal 2024, 2023 and 2022.

Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset. We did not recognize any impairment charges on other long-lived assets in fiscal 2024, 2023 and 2022.

***Revenue Recognition***

Revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods or services.

See Note 9 for further discussion on revenues.

***Income Taxes***

We estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase.

We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.

***Earnings per Share***

Basic earnings per share are computed on the basis of the weighted-average number of common shares outstanding during the period under measurement. Diluted earnings per share are based on the weighted-average number of common shares outstanding and potential common shares. Potential common shares result from the assumed exercise of outstanding stock options or other potentially dilutive equity instruments, when they are dilutive under the treasury stock method.

***Comprehensive Income***

Comprehensive income is the change in our equity (net assets) during each period from transactions and other events and circumstances from non-owner sources. It includes net income and foreign currency translation adjustments.

***Foreign Currency and Derivative Financial Instruments***

We have determined that the functional currency of each foreign operation is the local currency. Assets and liabilities denominated in their local foreign currencies are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates of exchange prevailing during the period. Foreign currency translation adjustments are accumulated as a separate component of consolidated stockholders' deficit.

We utilize derivative instruments to manage market risks associated with fluctuations in certain foreign currency exchange rates as they relate to specific balances of accounts receivable and cash denominated in foreign currencies. We principally utilize foreign currency forward contracts to protect against market risks arising in the normal course of business. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations or to enter into contracts that intentionally increase our underlying exposure. All of our foreign currency forward contracts have maturity periods of less than three months.

At the end of the reporting period, foreign-currency-denominated assets and liabilities are remeasured into the functional currencies of the reporting entities at current market rates. The change in value from this remeasurement is reported as a foreign exchange gain or loss for that period in other income (expense), net in the accompanying consolidated statements of income and comprehensive income.

We recorded transactional foreign exchange gains (losses) of $(0.6) million, $(2.6) million and $1.9 million during fiscal 2024, 2023 and 2022, respectively.

***Share-Based Compensation***

We measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years). See Note 12 for further discussion of our share-based employee benefit plans.

***Advertising and Promotion Costs***

Advertising and promotion costs are expensed as incurred and are included in selling, general and administrative expenses in the accompanying consolidated statements of income and comprehensive income. Advertising and promotion costs totaled $12.3 million, $9.8 million and $8.1 million in fiscal 2024, 2023 and 2022, respectively.

***New Accounting Pronouncements***

*Recent Accounting Pronouncements Adopted*

In October 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2021-08, "*Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*" ("ASU 2021-08"). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities from acquired contracts using the revenue recognition guidance under Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers*, in order to align the recognition of a contract liability with the definition of a performance obligation. We adopted ASU 2021-08 in the first quarter of fiscal 2024 and the adoption did not have a significant impact on our consolidated financial statements.

*Recent Accounting Pronouncements Not Yet Adopted*

In November 2023, the FASB issued ASU No. 2023-07, "*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*" ("ASU 2023-07"). ASU 2023-07 expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, which means that it will be effective for our annual periods beginning October 1, 2024, and our interim periods beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, "*Income Taxes (Topic 740): Improvements to Income Tax Disclosures*" ("ASU 2023-09"). ASU 2023-09 requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as disaggregated information on income tax paid. The standard is effective for fiscal years beginning after December 15, 2024, which means that it will be effective for our fiscal years beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.

We do not expect that any other recently issued accounting pronouncements will have a significant effect on our consolidated financial statements.

Fair Value Measurements

Fair Value Measurements

Fair value is defined as the price that would be received from the sale of an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The accounting guidance establishes a three-level hierarchy for disclosure that is based on the extent and level of judgment used to estimate the fair value of assets and liabilities.

- Level 1 — uses unadjusted quoted prices that are available in active markets for identical assets or liabilities. Our Level 1 assets were comprised of money market funds and certain marketable securities and our Level 1 liabilities included senior notes as of September 30, 2024 and 2023.

- Level 2 — uses inputs other than quoted prices included in Level 1 that are either directly or indirectly observable through correlation with market data. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs to valuation models or other pricing methodologies that do not require significant judgment because the inputs used in the model, such as interest rates and volatility, can be corroborated by readily observable market data. We did not have any assets or liabilities that are valued using inputs identified under a Level 2 hierarchy as of September 30, 2024 and 2023.
- Level 3 — uses one or more significant inputs that are unobservable and supported by little or no market activity, and that reflect the use of significant management judgment. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques, and significant management judgment or estimation. We did not have any assets or liabilities that are valued using inputs identified under a Level 3 hierarchy as of September 30, 2024 and 2023.

The following tables represent financial assets that we measured at fair value on a recurring basis at September 30, 2024 and 2023:

| September 30, 2024 | Active Markets for Identical Instruments (Level 1) | Fair Value as of September 30, 2024 |

Derivative Financial Instruments

## Derivative Financial Instruments

We use derivative instruments to manage risks caused by fluctuations in foreign exchange rates. The primary objective of our derivative instruments is to protect the value of foreign-currency-denominated receivable and cash balances from the effects of volatility in foreign exchange rates that might occur prior to conversion to their functional currencies. We principally utilize foreign currency forward contracts, which enable us to buy and sell foreign currencies in the future at fixed exchange rates and economically offset changes in foreign exchange rates. We routinely enter into contracts to offset exposures denominated in the British pound, Euro and Singapore dollar.

Foreign-currency-denominated receivable and cash balances are remeasured at foreign exchange rates in effect on the balance sheet date with the effects of changes in foreign exchange rates reported in other income (expense), net. The forward contracts are not designated as hedges and are marked to market through other income (expense), net. Fair value changes in the forward contracts help mitigate the changes in the value of the remeasured receivable and cash balances attributable to changes in foreign exchange rates. The forward contracts are short-term in nature and typically have average maturities at inception of less than three months.

The following tables summarize our outstanding foreign currency forward contracts, by currency, at September 30, 2024 and 2023:

| | September 30, 2024 | | | |
|---|---|---|---|---|
| | Contract Amount | | | Fair Value |

***Revolving Line of Credit and Term Loans***

We have a $600 million unsecured revolving line of credit and a $300 million unsecured term loan (the "$300 Million Term Loan") with a syndicate of banks that mature on August 19, 2026. Borrowings under the revolving line of credit and the $300 Million Term Loan can be used for working capital and general corporate purposes and may also be used for the refinancing of existing debt, acquisitions, and the repurchase of our common stock. The $300 Million Term Loan requires principal payments in consecutive quarterly installments of $3.75 million on the last business day of each quarter. Interest rates on amounts borrowed under the revolving line of credit and the $300 Million Term Loan are based on (i) an adjusted base rate, which is the greatest of (a) the prime rate, (b) the Federal Funds rate plus 0.5%, and (c) one-month adjusted term Secured Overnight Financing Rate ("SOFR") plus 1%, plus, in each case, an applicable margin, or (ii) an adjusted term SOFR plus an applicable margin (or, if such rate is no longer available, a successor benchmark rate determined in accordance with the terms of the credit agreement). Adjusted term SOFR is defined as term SOFR for the relevant interest period plus a SOFR adjustment of 0.10% per annum. The applicable margin for base rate borrowings and for SOFR borrowings is determined based on our consolidated leverage ratio. The applicable margin for base rate borrowings ranges from 0% to 0.75% per annum and for SOFR borrowings ranges from 1% to 1.75% per annum. In addition, we must pay certain credit facility fees. The revolving line of credit and the $300 Million Term Loan contain certain restrictive covenants including a maximum consolidated leverage ratio of 3.5 to 1.0, subject to a step up to 4.0 to 1.0 following certain permitted acquisitions and subject to certain conditions, and a minimum interest coverage ratio of 3.0 to 1.0. The credit agreement also contains other covenants typical of unsecured credit facilities.

On June 13, 2024, we amended our credit agreement to provide for the issuance of a new $450 million unsecured term loan (the "$450 Million Term Loan") with a syndicate of banks, increasing the total capacity of the credit agreement to $1.35 billion. The $450 Million Term Loan is subject to the same interest rate provisions and covenants as the revolving line of credit and the $300 Million Term Loan, and matures on August 19, 2026. We have no obligation to make scheduled principal payments on the $450 Million Term Loan prior to the maturity date, but may prepay the $450 Million Term Loan, without premium or penalty, in whole or in part.

As of September 30, 2024, we had $210.0 million in borrowings outstanding under the revolving line of credit at a weighted-average interest rate of 6.396%, $258.8 million in outstanding balance of the $300 Million Term Loan at an interest rate of 6.344%, and $450.0 million in outstanding balance of the $450 Million Term Loan at an interest rate of 6.281%. We were in compliance with all financial covenants under the credit agreement as of September 30, 2024.

Future principal payments for the term loans are as follows:

| Year Ending September 30, | (In thousands) |
|---|---|
| 2025 | $ 15,000 |
| 2026 | 693,750 |
| Total | $ 708,750 |

***Senior Notes***

On May 8, 2018, we issued $400 million of senior notes in a private offering to qualified institutional investors (the "2018 Senior Notes"). The 2018 Senior Notes require interest payments semi-annually at a rate of 5.25% per annum and will mature on May 15, 2026.

On December 6, 2019, we issued $350 million of senior notes in a private offering to qualified institutional investors (the "2019 Senior Notes"). The 2019 Senior Notes require interest payments semi-annually at a rate of 4.00% per annum and will mature on June 15, 2028.

On December 17, 2021, we issued $550 million of additional senior notes of the same class as the 2019 Senior Notes in a private offering to qualified institutional investors (the "2021 Senior Notes," and collectively with the 2018 Senior Notes and the 2019 Senior Notes, the "Senior Notes"). The 2021 Senior Notes require interest payments semi-annually at a rate of 4.00% per annum and will mature on June 15, 2028, the same date as the 2019 Senior Notes.

The indentures for the Senior Notes contain certain covenants typical of unsecured obligations and we were in compliance as of September 30, 2024.

The following table presents the face values and fair values for the Senior Notes at September 30, 2024 and 2023:

| | September 30, 2024 | | September 30, 2023 | |
|---|---|---|---|---|
| | Face Value | Fair Value | Face Value | Fair Value |
| | (In thousands) | | | |
| The 2018 Senior Notes | $ 400,000 | $ 399,500 | $ 400,000 | $ 386,000 |
| The 2019 Senior Notes and the 2021 Senior Notes | 900,000 | 864,000 | 900,000 | 803,250 |
| Total | $ 1,300,000 | $ 1,263,500 | $ 1,300,000 | $ 1,189,250 |

Future principal payments for the Senior Notes are as follows:

| Year Ending September 30, | (In thousands) |
|---|---|
| 2026 | $ 400,000 |
| 2027 | — |
| 2028 | 900,000 |

Revenue from Contracts with Customers

## Revenue from Contracts with Customers

***Contracts with Customers***

Our revenue is primarily derived from on-premises software and SaaS subscriptions, professional services and scoring services. For contracts with customers that contain various combinations of products and services, we evaluate whether the products or services are distinct — distinct products or services will be accounted for as separate performance obligations, while non-distinct products or services are combined with others to form a single performance obligation. For contracts with multiple performance obligations, the transaction price is allocated to each performance obligation on a relative standalone selling price ("SSP") basis. Revenue is recognized when control of the promised goods or services is transferred to our customers.

Our on-premises software is primarily sold on a subscription basis, which includes a term-based license and post-contract support or maintenance, both of which generally represent distinct performance obligations and are accounted for separately. The transaction price is either a fixed fee, or a usage-based fee — sometimes subject to a guaranteed minimum. When the amount is fixed, including the guaranteed minimum in a usage-based fee, license revenue is recognized at the point in time when the software is made available to the customer. Maintenance revenue is recognized ratably over the contract period as customers simultaneously consume and receive benefits. Any usage-based fees not subject to a guaranteed minimum or earned in excess of the minimum amount are recognized when the subsequent usage occurs. We occasionally sell software arrangements consisting of on-premises perpetual licenses and maintenance. License revenue is recognized at a point in time when the software is made available to the customer and maintenance revenue is recognized ratably over the contract term.

Our SaaS products provide customers with access to and standard support for our software on a subscription basis, delivered through our own infrastructure or third-party cloud services. The SaaS transaction contracts typically include a guaranteed minimum fee per period that allows up to a certain level of usage and a consumption-based variable fee in excess of the minimum threshold; or a consumption-based variable fee not subject to a minimum threshold. The nature of our SaaS arrangements is to provide continuous access to our hosted solutions in the cloud, i.e., a stand-ready obligation that comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). We estimate the total variable consideration at contract inception — subject to any constraints that may apply — and update the estimates as new information becomes available and recognize the amount ratably over the SaaS service period, unless we determine it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed. Variable consideration is included in the transaction price if, in our judgment, it is probable that a significant future reversal of cumulative revenue recognized under the contract will not occur. Variable consideration is estimated based on either the expected value or the most likely amount method depending on which method we expect to better predict the amount of consideration to which we will be entitled. Our estimates of variable consideration are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available to us at contract inception and require judgment.

Our professional services include software implementation, consulting, model development and training. Professional services are sold either standalone, or together with other products or services and generally represent distinct performance obligations. The transaction price can be a fixed amount or a variable amount based upon the time and materials expended. Revenue on fixed-price services is recognized using an input method based on labor hours expended, which we believe provides a faithful depiction of the transfer of services. Revenue on services provided on a time and materials basis is recognized by applying the "right-to-invoice" practical expedient as the amount to which we have a right to invoice the customer corresponds directly with the value of our performance to the customer.

Our scoring services include both business-to-business and business-to-consumer offerings. Our business-to-business scoring services typically include a license that grants consumer reporting agencies the right to use our scoring solutions in exchange for a usage-based royalty. Revenue is generally recognized when the usage occurs. Business-to-consumer offerings provide consumers with access to their FICO® Scores and credit reports, as well as other value-add services. These are provided as either a one-time or ongoing subscription service renewed monthly or annually, all with a fixed consideration. The nature of the subscription service is a stand-ready obligation to generate credit reports, provide credit monitoring, and other services for our customers, which comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). Revenue from one-time or monthly subscription services is recognized during the period when service is performed. Revenue from annual subscription services is recognized ratably over the subscription period.

***Disaggregation of Revenue***

During fiscal 2023, we sold certain assets related to our Siron compliance business. The comparability of the data below is impacted as a result of this sale.

The following tables provide information about disaggregated revenue by primary geographical market:

| | Year Ended September 30, 2024 | | | |

(1) Includes license portion of our on-premises subscription software and perpetual license, both of which are recognized when the software is made available to the customer, or at the start of the subscription.
(2) Includes maintenance portion and usage-based fees of our on-premises subscription software, maintenance revenue on perpetual licenses, as well as SaaS revenue.

The following table provides information about disaggregated revenue for our Scores segment by distribution method:

| | Year Ended September 30, | | | Percentage of revenues | | |
|---|---|---|---|---|---|---|
| | 2024 | 2023 | 2022 | 2024 | 2023 | 2022 |

| Business-to-business Scores | $ 711,843 | $ 560,995 | $ 475,442 | 77 % | 72 % | 67 % |
| Business-to-consumer Scores | 207,807 | 212,833 | 231,201 | 23 % | 28 % | 33 % |
| Total | $ 919,650 | $ 773,828 | $ 706,643 | 100 % | 100 % | 100 % |

We derive a substantial portion of revenues from our contracts with the three major consumer reporting agencies, TransUnion, Equifax and Experian. Revenues collectively generated by agreements with these customers accounted for 45%, 41% and 39% of our total revenues in fiscal 2024, 2023 and 2022, respectively, with all three consumer reporting agencies each contributing more than 10% of our total revenues in fiscal 2024 and 2023, and two each contributing more than 10% of our total revenues in fiscal 2022. At each of September 30, 2024 and September 30, 2023, one individual customer accounted for 10% or more of total consolidated receivables.

***Contract Balances***

We record a receivable when we satisfy a performance obligation prior to invoicing if only the passage of time is required before payment is due or if we have an unconditional right to consideration before we satisfy a performance obligation. We record a contract asset when we satisfy a performance obligation prior to invoicing but our right to consideration is conditional. We record deferred revenue when the payment is made or due before we satisfy a performance obligation.

Receivables at September 30, 2024 and 2023 consisted of the following:

| | September 30, | |
|---|---|---|
| | 2024 | 2023 |
| | (In thousands) | |
| Billed | $ 264,942 | $ 234,745 |
| Unbilled | 210,795 | 203,896 |
| | 475,737 | 438,641 |
| Less: allowance for doubtful accounts | (6,454) | (4,978) |
| Net receivables | 469,283 | 433,663 |
| Less: long-term receivables (*) | (42,641) | (45,716) |
| Short-term receivables (*) | $ 426,642 | $ 387,947 |

(*) Short-term receivables and long-term receivables were recorded in accounts receivable, net and other assets, respectively, within the accompanying consolidated balance sheets.

Activity in the allowance for doubtful accounts was as follows:

| | Year Ended September 30, | |
|---|---|---|
| | 2024 | 2023 |
| | (In thousands) | |
| Allowance for doubtful accounts, beginning balance | $ 4,978 | $ 4,218 |
| Add: expense | 1,675 | 1,475 |
| Less: write-offs (net of recoveries) | (199) | (715) |
| Allowance for doubtful accounts, ending balance | $ 6,454 | $ 4,978 |

Deferred revenue primarily relates to our maintenance and SaaS contracts billed annually in advance and generally recognized ratably over the term of the service period. Significant changes in the deferred revenues balances are as follows:

| | Year Ended September 30, | |
|---|---|---|
| | 2024 | 2023 |
| | (In thousands) | |
| Deferred revenues, beginning balance | $ 143,235 | $ 126,560 |
| Revenue recognized that was included in the deferred revenues balance at the beginning of the period | (133,554) | (113,341) |
| Increases due to billings, excluding amounts recognized as revenue during the period | 150,528 | 130,016 |
| Deferred revenues, ending balance (*) | $ 160,209 | $ 143,235 |

(*) Deferred revenues at September 30, 2024 included current portion of $156.9 million and long-term portion of $3.3 million that were recorded in deferred revenue and other liabilities, respectively, within the consolidated balance sheets. Deferred revenues at September 30, 2023 included current portion of $136.7 million and long-term portion of $6.5 million that were recorded in deferred revenue and other liabilities, respectively, within the consolidated balance sheets.

Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to provide customers with financing or to receive financing from our customers. Examples include multi-year on-premises licenses that are invoiced annually with revenue recognized upfront and invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period.

***Performance Obligations***

Revenue allocated to remaining performance obligations represents contracted revenue that will be recognized in future periods, which is comprised of deferred revenue and amounts that will be invoiced and recognized as revenue in future periods. This does not include:

- Usage-based revenue that will be recognized in future periods from on-premises software subscriptions;
- Consumption-based variable fees from SaaS software that will be recognized in the distinct service period during which it is earned; and
- Revenue from variable considerations that will be recognized in accordance with the “right-to-invoice” practical expedient, such as fees from our professional services billed based on a time and materials basis.

Revenue allocated to remaining performance obligations was $507.3 million as of September 30, 2024, approximately 50% of which we expect to recognize over the next 14 months and the remainder thereafter. Revenue allocated to remaining performance obligations was $470.5 million as of September 30, 2023.

***Significant Judgments***

Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct and should be accounted for separately may require significant judgment. Specifically, when implementation service is included in the original software or SaaS offerings, judgment is required to determine if the implementation service significantly modifies or customizes the software or SaaS service in such a way that the risks of providing it and the customization service are inseparable.

We determine the SSPs using data from our historical standalone sales, or, in instances where such information is not available (such as when we do not sell the product or service separately), we consider factors such as the stated contract prices, our overall pricing practices and objectives, go-to-market strategy, size and type of the transactions, and effects of the geographic area on pricing, among others. When the selling price of a product or service is highly variable, we may use the residual approach to determine the SSP of that product or service. Significant judgment may be required to determine the SSP for each distinct performance obligation when it involves the consideration of many market conditions and entity-specific factors discussed above.

Significant judgment may be required to determine the timing of satisfaction of a performance obligation in certain professional services contracts with a fixed consideration, in which we measure progress using an input method based on labor hours expended. In order to estimate the total hours of the project, we make assumptions about labor utilization, efficiency of processes, the customer’s specification and IT environment, among others. For certain complex projects, due to the risks and uncertainties inherent with the estimation process and factors relating to the assumptions, actual progress may differ due to the change in estimated total hours. Adjustments to estimates are made in the period in which the facts requiring such revisions become known and, accordingly, recognized revenues are subject to revisions as the contract progresses to completion.

***Capitalized Commission Costs***

We capitalize incremental commission fees paid as a result of obtaining customer contracts. Capitalized commission costs, which are recorded in other assets within the accompanying consolidated balance sheets, were $60.5 million and $58.6 million at September 30, 2024 and 2023, respectively.

Capitalized commission costs are amortized on a straight-line basis over ten years — determined using a portfolio approach — based on the transfer of goods or services to which the assets relate, taking into consideration both the initial and future contracts as we do not typically pay a commission on a contract renewal. The amortization costs are included in selling, general, and administrative expenses of our consolidated statements of income and comprehensive income. The amount of amortization was $9.2 million, $8.2 million, and $7.2 million during the years ended September 30, 2024, 2023 and 2022, respectively. There was no impairment loss in relation to the costs capitalized.

We apply a practical expedient to recognize the incremental costs of obtaining contracts as an expense when incurred if the amortization period of the assets that we otherwise would have recognized is one year or less. These costs are recorded within selling, general, and administrative expenses.

***Defined Contribution Plans***

We sponsor the Fair Isaac Corporation 401(k) plan for eligible employees in the U.S. Under this plan, eligible employees may contribute up to 25% of compensation, not to exceed statutory limits. We also provide a company matching contribution. Investment in FICO common stock is not an option under this plan. Our contributions into all 401(k) plans, including former-acquired-company-sponsored plans that have since merged into the Fair Isaac Corporation 401(k) plan or have been frozen, totaled $9.5 million, $8.9 million and $8.2 million during fiscal 2024, 2023 and 2022, respectively.

***Employee Incentive Plans***

We maintain various employee incentive plans for the benefit of eligible employees, including officers. The awards generally are based upon the achievement of certain financial and performance objectives subject to the discretion of management. For executive officers, such discretion is exercised by the Leadership Development and Compensation Committee of our Board of Directors. Total expenses under our employee incentive plans were $62.5 million, $57.8 million and $55.7 million during fiscal 2024, 2023 and 2022, respectively.

| Income Tax Disclosure [Abstract] | |
| Income Taxes | Income Taxes |

The provision for income taxes was as follows during fiscal 2024, 2023 and 2022:

| | Year ended September 30, | | |
|---|---|---|---|
| | 2024 | 2023 | 2022 |
| | (In thousands) | | |
| **Current:** | | | |
| Federal | $ 110,402 | $ 112,456 | $ 50,403 |
| State | 10,199 | 16,844 | 8,952 |
| Foreign | 35,943 | 42,327 | 30,597 |
| | 156,544 | 171,627 | 89,952 |
| **Deferred:** | | | |
| Federal | (26,227) | (37,884) | 8,165 |
| State | (1,712) | (15,025) | 507 |
| Foreign | 609 | 5,531 | (856) |
| | (27,330) | (47,378) | 7,816 |
| **Total provision** | $ 129,214 | $ 124,249 | $ 97,768 |

The foreign provision was based on foreign pre-tax earnings of $150.8 million, $172.7 million and $136.0 million in fiscal 2024, 2023 and 2022, respectively. Current foreign tax expense related to foreign tax withholdings was $14.6 million, $12.3 million and $9.5 million in fiscal 2024, 2023 and 2022, respectively. Foreign withholding tax and related foreign tax credits are included in current tax expense above.

Deferred tax assets and liabilities at September 30, 2024 and 2023 were as follows:

| | September 30, | |
|---|---|---|
| | 2024 | 2023 |
| | (In thousands) | |
| **Deferred tax assets:** | | |
| Loss and credit carryforwards | $ 7,717 | $ 12,309 |
| Compensation benefits | 32,093 | 30,490 |
| Operating lease liabilities | 7,881 | 9,396 |
| Research and development costs | 67,795 | 34,730 |
| Other assets | 18,241 | 17,327 |
| | 133,727 | 104,252 |
| Less: valuation allowance | — | (2,183) |
| Total deferred tax assets | 133,727 | 102,069 |
| **Deferred tax liabilities:** | | |

| Operating lease right-of-use assets | (7,240) | (6,228) |
| Other liabilities | (17,678) | (15,462) |
| Total deferred tax liabilities | (47,214) | (42,933) |
| Deferred tax assets, net | $ 86,513 | $ 59,136 |

Based upon the level of historical taxable income and projections for future taxable income over the periods that the deferred tax assets will reverse, management believes it is more likely than not that we will realize the benefits of the deferred tax assets at September 30, 2024.

As of September 30, 2024, we had available U.S. federal net operating loss ("NOL") carryforwards of approximately $2.8 million. The U.S. federal NOLs were acquired in connection with our acquisitions of Adeptra in fiscal 2012 and Infoglide in fiscal 2013. The U.S. federal NOL carryforwards will expire at various dates beginning in fiscal 2026, if not utilized. Utilization of the U.S. federal NOLs is subject to an annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986, as amended. We had available an excess California state research credit of approximately $7.1 million as of September 30, 2024.

A reconciliation of the provision for income taxes, with the amount computed by applying the U.S. federal statutory income tax rate of 21% to income before provision for income taxes for fiscal 2024, 2023 and 2022 is shown below:

| | Year Ended September 30, | | |
|---|---|---|---|
| | 2024 | 2023 | 2022 |
| | (In thousands) | | |
| Income tax provision at U.S. federal statutory rate | $ 134,825 | $ 116,261 | $ 98,975 |

| Foreign tax rate differential | 6,675 | 9,489 | 3,058 |
| Research credits | (5,472) | (3,600) | (5,932) |
| Valuation allowance | (2,183) | (14,451) | (11,768) |
| Excess tax benefits relating to share-based compensation | (14,907) | (949) | 702 |
| GILTI, FDII, BEAT and FTC | (9,265) | (9,010) | (2,491) |
| Other | 6,432 | 12,374 | 6,865 |
| Recorded income tax provision | $ 129,214 | $ 124,249 | $ 97,768 |

As of September 30, 2024, we had approximately $82.6 million of unremitted earnings of non-U.S. subsidiaries. The Company has provided $2.8 million of deferred tax liabilities for foreign withholding taxes on the undistributed earnings and profits from certain non-U.S. subsidiaries that are not permanently reinvested outside the U.S. For other jurisdictions permanently reinvested, the Company expects the net impact of any future repatriations to be immaterial to the Company's overall tax liability.

**Unrecognized Tax Benefit for Uncertain Tax Positions**

We conduct business globally and, as a result, file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities. With a few exceptions, we are no longer subject to U.S. federal, state, local, or foreign income tax examinations for fiscal years prior to 2021.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

| | Year Ended September 30, | | |
|---|---|---|---|
| | 2024 | 2023 | 2022 |
| | (In thousands) | | |
| Gross unrecognized tax benefits at beginning of year | $ 13,849 | $ 12,980 | $ 10,897 |

| Gross unrecognized tax benefits at end of year | $ 19,879 | $ 13,849 | $ 12,980 |

We had $19.9 million of total unrecognized tax benefits as of September 30, 2024, including $18.6 million of tax benefits that, if recognized, would impact the effective tax rate. Although the timing and outcome of audit settlements are uncertain, it is unlikely there will be a significant reduction of the uncertain tax benefits in the next twelve months.

We recognize interest expense and penalties related to unrecognized tax benefits and penalties as part of the provision for income taxes in our consolidated statements of income and comprehensive income. We recognize interest earned related to income tax matters as interest income in our consolidated statements of income and comprehensive income. As of September 30, 2024, we had accrued interest of $1.7 million related to the unrecognized tax benefits.

Share-Based Employee Benefit Plans

## Share-Based Employee Benefit Plans

***Description of Stock Option and Share Plans***

We maintain the 2021 Long-Term Incentive Plan (the "2021 Plan"). The 2021 Plan authorizes the issuance of up to 5,900,000 shares of our common stock, plus additional shares that become available due to the expiration, forfeiture or cancellation of awards outstanding under the 2012 Long-Term Incentive Plan. Under the terms of the 2021 Plan, the pool of shares available for issuance may be used for all types of equity awards available under the 2021 Plan, which include stock options, stock appreciation rights, restricted stock awards, stock unit awards and other share-based awards. All employees, consultants and advisors of FICO or any subsidiary, as well as all non-employee directors, are eligible to receive awards under the 2021 Plan. The 2021 Plan will remain in effect until the earliest of the following: all shares subject to the Plan are distributed, the Board terminates the Plan, or the tenth anniversary of the effective date of the Plan.

Stock option awards have a maximum term of ten years. In general, stock option awards and stock unit awards not subject to market or performance conditions vest annually over four years. Stock unit awards subject to market or performance conditions generally vest annually over three years based on the achievement of specified criteria. At September 30, 2024, there were 4,435,309 shares available for issuance as new awards under the 2021 Plan.

***Description of Employee Stock Purchase Plan***

We maintain the 2019 Employee Stock Purchase Plan (the "2019 Purchase Plan") under which we are authorized to issue up to 1,000,000 shares of our common stock to eligible employees. Eligible employees may elect to have up to 15% of their eligible pay withheld through payroll deductions to purchase FICO common stock during semi-annual offering periods. The purchase price of the stock is 85% of the closing sales price of FICO common stock on the last trading day of each offering period. Offering period means approximately six-month periods commencing (a) on the first trading day on or after September 1 and terminating on the last trading day in the following February, and (b) on the first trading day on or after March 1 and terminating on the last trading day in the following August. At September 30, 2024, there were 839,175 shares available for issuance under the 2019 Purchase Plan.

We satisfy stock option exercises, vesting of stock units and the 2019 Purchase Plan issuances from treasury shares.

***Share-Based Compensation Expense and Related Income Tax Benefits***

We recorded share-based compensation expense of $149.4 million, $123.8 million and $115.4 million in fiscal 2024, 2023 and 2022, respectively. The total tax benefit related to this share-based compensation expense was $15.9 million, $13.8 million and $13.5 million in fiscal 2024, 2023 and 2022, respectively. As of September 30, 2024, there was $213.0 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all equity compensation plans. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted-average period of 2.37 years.

In fiscal 2024 we received $8.3 million in cash from stock option exercises, with the tax benefit realized for the tax deductions from these exercises of $10.2 million.

***Share-Based Activity***

**Restricted Stock Units**

The fair value of restricted stock units ("RSUs") granted is the closing market price of our common stock on the date of grant, adjusted for the expected dividend yield, if applicable. We amortize the fair value on a straight-line basis over the vesting period.

The following table summarizes the RSUs activity during fiscal 2024:

| | Shares | Weighted-average Grant-date Fair Value |
|---|---|---|
| | (In thousands) | |
| Outstanding at September 30, 2023 | 376 | $ 508.23 |
| Granted | 97 | 1,150.58 |
| Released | (148) | 478.44 |
| Forfeited | (20) | 567.62 |
| Outstanding at September 30, 2024 | 305 | $ 724.40 |

The weighted-average fair value of the RSUs granted was $1,150.58, $620.51 and $416.62 during fiscal 2024, 2023 and 2022, respectively. The total intrinsic value of the RSUs that vested was $171.0 million, $101.1 million and $97.3 million during fiscal 2024, 2023 and 2022, respectively, determined as of the date of vesting.

**Performance Share Units**

Performance share units ("PSUs") are granted to our senior officers and earned based on pre-established performance goals approved by the Leadership Development and Compensation Committee of our Board of Directors for any given performance period. The range of payout is zero to 200% of the number of target PSUs, based on the outcome of the performance conditions. We estimate the fair value of the PSUs using the closing market price of our common stock on the date of grant, adjusted for the expected dividend yield if applicable, based on the performance condition that is probable of achievement. We amortize the fair values over the requisite service period for each vesting tranche of the award. We reassess the probability at each reporting period and recognize the cumulative effect of the change in estimate in the period of change.

The following table summarizes the PSUs activity during fiscal 2024:

| | Shares | Weighted- average Grant-date Fair Value |
|---|---|---|
| | (In thousands) | |
| Outstanding at September 30, 2023 | 115 | $ 519.54 |
| Granted | 35 | 1,134.39 |
| Released | (57) | 502.66 |
| Forfeited | (8) | 529.92 |
| Outstanding at September 30, 2024 | 85 | $ 786.85 |

The weighted-average fair value of the PSUs granted was $1,134.39, $615.45 and $407.49 during fiscal 2024, 2023 and 2022, respectively. The total intrinsic value of the PSUs that vested was $65.2 million, $40.3 million and $25.9 million during fiscal 2024, 2023 and 2022, respectively, determined as of the date of vesting.

**Market Share Units**

Market share units ("MSUs") are granted to our senior officers and earned based on our total stockholder return relative to the Russell 3000 Index over performance periods of one, two and three years. We estimate the fair value of MSUs granted using the Monte Carlo valuation model and amortize the fair values over the requisite service period for each vesting tranche of the award. In addition, we do not reverse the compensation cost solely because the market condition is not satisfied, and the award is therefore not earned by the employee, provided the requisite service is rendered. We used the following assumptions to estimate the fair value of our MSUs during fiscal 2024, 2023 and 2022:

| | Year Ended September 30, | | |
|---|---|---|---|
| | 2024 | 2023 | 2022 |
| Expected volatility in FICO's stock price | 36.3 % | 47.3 % | 42.3 % |
| Expected volatility in Russell 3000 Index | 18.2 % | 26.0 % | 23.3 % |
| Correlation between FICO and the Russell 3000 Index | 60.3 % | 73.5 % | 74.7 % |
| Risk-free interest rate | 4.39 % | 4.02 % | 0.97 % |
| Average expected dividend yield | — % | — % | — % |

The expected volatility was determined based on daily historical movements in our stock price and the Russell 3000 Index for the three years preceding the grant date. The correlation between FICO and the Russell 3000 Index was determined based on historical daily stock price movements for the three years preceding the grant date. The risk-free rate was determined based on U.S. Treasury zero-coupon yields over the three-year performance period. Because we have not declared or paid any cash dividends on our common stock since May 2017, and we do not presently plan to pay cash dividends on our common stock in the foreseeable future, we used an expected dividend yield of zero.

The following table summarizes the MSUs activity during fiscal 2024:

| | Shares | Weighted- average Grant-date Fair Value |
|---|---|---|
| | (In thousands) | |
| Outstanding at September 30, 2023 | 87 | $ 844.24 |
| Granted | 64 | 1,014.75 |
| Released | (84) | 737.77 |
| Forfeited | (5) | 845.67 |
| Outstanding at September 30, 2024 | 62 | $ 1,161.62 |

The weighted-average fair value of the MSUs granted was $1,014.75, $822.96 and $493.66 during fiscal 2024, 2023 and 2022, respectively. The total intrinsic value of the MSUs that vested was $95.0 million, $42.2 million and $7.8 million during fiscal 2024, 2023 and 2022, respectively, determined as of the date of vesting.

**Stock Options**

We estimate the fair value of stock options granted using the Black-Scholes option valuation model and we amortize the fair value on a straight-line basis over the vesting period. We used the following assumptions to estimate the fair value of our stock options during fiscal 2024, 2023 and 2022:

| | Year Ended September 30, | | |
|---|---|---|---|
| | 2024 | 2023 | 2022 |
| **Stock Options:** | | | |
| Weighted-average expected term (years) | 4.46 | 5.23 | 4.43 |
| Expected volatility (range) | 33.6 - 33.9 % | 33.4 - 35.5 % | 32.9 - 34.1 % |
| Weighted-average volatility | 33.7 % | 33.5 % | 33.2 % |
| Risk-free interest rate (range) | 4.18 - 4.30 % | 3.40 - 4.49 % | 1.18 - 2.85 % |
| Weighted-average expected dividend yield | — % | — % | — % |

*Expected Term.* The expected term represents the period that our stock options are expected to be outstanding. We estimate the expected term based on historical experience of similar awards, giving consideration to the contractual terms of the share-based awards, vesting schedules and expectations of future employee behavior.

*Expected Volatility.* We estimate the volatility of our common stock at the date of grant based on a combination of the implied volatility of publicly traded options on our common stock and our historical volatility rate.

*Risk-Free Interest Rate.* The risk-free interest rate assumption is based on observed interest rates appropriate for the term of our employee options.

*Dividends.* We have not declared or paid any cash dividends on our common stock since May 2017, and we do not presently plan to pay cash dividends on our common stock in the foreseeable future. Consequently, we used an expected dividend yield of zero in the years presented.

*Forfeitures.* We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest.

The following table summarizes option activity during fiscal 2024:

| | Shares | Weighted-average Exercise Price | Weighted-average Remaining Contractual Term | Aggregate Intrinsic Value |
|---|---|---|---|---|
| | (In thousands) | | (In years) | (In thousands) |
| Outstanding at September 30, 2023 | 227 | $ 387.95 | | |
| Granted | 9 | 1,198.00 | | |
| Exercised | (47) | 176.46 | | |
| Outstanding at September 30, 2024 | 189 | $ 479.26 | 3.30 | $ 277,150 |
| Exercisable at September 30, 2024 | 119 | $ 290.75 | 1.98 | $ 196,829 |
| Vested or expected to vest at September 30, 2024 | 185 | $ 471.93 | 3.25 | $ 272,681 |

The weighted-average fair value of options granted was $419.00, $289.54 and $134.91 during fiscal 2024, 2023 and 2022, respectively. The aggregate intrinsic value of options outstanding at September 30, 2024 was calculated as the difference between the exercise price of the underlying options and the market price of our common stock for the 189,000 outstanding options that had exercise prices lower than the $1,943.52 market price of our common stock at September 30, 2024. The total intrinsic value of options exercised was $49.1 million, $16.7 million and $14.5 million during fiscal 2024, 2023 and 2022, respectively, determined as of the date of exercise.

**Employee Stock Purchase Plan**

The compensation expense on the 2019 Purchase Plan arises from the 15% discount offered to participants. A total of 13,721, 21,876, and 32,528 shares of our common stock were issued under the 2019 Purchase Plan during fiscal 2024, 2023 and 2022, respectively. The weighted-average purchase price was $1,217.05, $646.37, and $393.95 per share for fiscal 2024, 2023 and 2022

**Segment Reporting [Abstract]**

Segment Information — Segment Information

We are organized into two reportable segments: Scores and Software. Although we sell solutions and services into a large number of end user product and industry markets, our reportable business segments reflect the primary method in which management organizes and evaluates internal financial information to make operating decisions and assess performance.

- *Scores*. This segment includes our business-to-business ("B2B") scoring solutions and services which give our clients access to predictive credit and other scores that can be easily integrated into their transaction streams and decision-making processes. This segment also includes our business-to-consumer ("B2C") scoring solutions, including our myFICO.com subscription offerings.
- *Software*. This segment includes pre-configured analytic and decision management solutions designed for a specific type of business need or process — such as account origination, customer management, customer engagement, fraud detection, and marketing — as well as associated professional services. This segment also includes FICO® Platform, a modular software offering designed to support advanced analytic and decision use cases, as well as stand-alone analytic and decisioning software that can be configured by our customers to address a wide variety of business use cases. These offerings are available to our customers as SaaS or as on-premises software.

Our chief operating decision maker ("CODM"), who is our Chief Executive Officer, evaluates segment financial performance based on segment revenues and segment operating income. Segment operating expenses consist of direct and indirect costs principally related to personnel, facilities, IT infrastructure, consulting, travel and depreciation. Indirect costs are allocated to the segments generally based on relative segment revenues, fixed rates established by management based upon estimated expense contribution levels and other assumptions that management considers reasonable. We do not allocate broad-based incentive expense, share-based compensation expense, restructuring and acquisition-related expense, amortization expense, various corporate charges and certain other income and expense measures to our segments. These income and expense items are not allocated because they are not considered in evaluating the segment's operating performance. Our CODM does not evaluate the financial performance of each segment based on its respective assets or capital expenditures; rather, depreciation and amortization amounts are allocated to the segments from their internal cost centers as described above.

**Leases [Abstract]**

Operating leases

Leases

We lease office space and data centers under operating lease arrangements, which constitute the majority of our lease obligations. We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term.

Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term.

The following table presents the lease balances within the accompanying consolidated balance sheets as of September 30, 2024 and 2023:

We lease office space and data centers under operating lease arrangements, which constitute the majority of our lease obligations. We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term.

Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term.

The following table presents the lease balances within the accompanying consolidated balance sheets as of September 30, 2024 and 2023:

In the ordinary course of business, we enter into contractual purchase obligations and other agreements that are legally binding and specify certain minimum payment terms. Our purchase obligations primarily relate to a third-party data center hosting agreement, subscription arrangements, and service agreements.

Future minimum payments under our non-cancellable purchase obligations as of September 30, 2024 were as follows:

| Year Ending September 30, | (In thousands) |

In the ordinary course of business, we are not subject to potential obligations under guarantees, except for standard indemnification and warranty provisions that are contained within many of our customer license and service agreements and certain supplier agreements, including underwriter agreements, as well as standard indemnification agreements that we have executed with certain of our officers and directors, and give rise only to the disclosure in the consolidated financial statements. In addition, we continue to monitor the conditions that are subject to the guarantees and indemnifications to identify whether it is probable that a loss has occurred, and would recognize any such losses under the guarantees and indemnifications when those losses are estimable.
Indemnification and warranty provisions contained within our customer license and service agreements and certain supplier agreements are generally consistent with those prevalent in our industry. The duration of our product warranties generally does not exceed 90 days following delivery of our products. We have not incurred significant obligations under customer indemnification or warranty provisions historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential customer indemnification or warranty-related obligations. The indemnification agreements that we have executed with certain of our officers and directors would require us to indemnify such officers and directors in certain instances. We have not incurred obligations under these indemnification agreements historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential officer or director indemnification obligations. The maximum potential amount of future payments that we could be required to make under the indemnification provisions in our customer license and service agreements, and officer and director agreements is unlimited.

| Principles of Consolidation and Basis of Presentation | ***Principles of Consolidation and Basis of Presentation*** |

The consolidated financial statements include the accounts of FICO and its subsidiaries. All intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation.

Use of Estimates

***Use of Estimates***

We make estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of various accruals; variable considerations included in the transaction price and standalone selling price of each performance obligation for our customer contracts; labor hours in connection with fixed-fee service contracts; the amount of our tax provision; and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired

intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Actual results may differ from our estimates.

Cash and Cash Equivalents

***Cash and Cash Equivalents***

Cash and cash equivalents consist of cash in banks and investments with an original maturity of 90 days or less at time of purchase.

Fair Value of Financial Instruments

***Fair Value of Financial Instruments***

The fair value of certain of our financial instruments, including cash and cash equivalents, receivables, other current assets, accounts payable, accrued compensation and employee benefits, other accrued liabilities and amounts outstanding under our revolving line of credit and term loans, approximate their carrying amounts because of the short-term maturity of these instruments.

Investments

***Investments***

We categorize our investments in debt and equity instruments as trading, available-for-sale or held-to-maturity at the time of purchase. Trading securities are carried at fair value with unrealized gains or losses included in other income (expense). Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains or losses included in accumulated other comprehensive income (loss). Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis and are included in other income (expense). We review marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. We did not classify any securities as held-to-maturity or available-for-sale during each of the three years ended September 30, 2024, 2023 and 2022. Investments with remaining maturities over one year are classified as long-term investments.

Concentration of Risk

***Concentration of Risk***

Financial instruments that potentially expose us to concentrations of risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable, which are generally not collateralized. Our policy is to place our cash, cash equivalents, and marketable securities with high quality financial institutions, commercial corporations and government agencies in order to limit the amount of credit exposure. We have established guidelines relative to diversification and maturities for maintaining safety and liquidity. We generally do not require collateral from our customers, but our credit extension and collection policies include analyzing the financial condition of potential customers, establishing credit limits, monitoring payments, and aggressively pursuing delinquent accounts. We maintain allowances for potential credit losses.

A significant portion of our revenues are derived from the sales of products and services to the financial services industries.

Property and Equipment

***Property and Equipment***

Property and equipment are recorded at cost less accumulated depreciation and amortization. Major renewals and improvements are capitalized, while repair and maintenance costs are expensed as incurred. Depreciation and amortization charges are calculated using the straight-line method over the following estimated useful lives:

| | Estimated Useful Life | | |
|---|---|---|---|
| Data processing equipment and purchased software | 3 years | to | 6 years |
| Internal-use software | | 4 years | |
| Office furniture and equipment | 3 years | to | 7 years |
| Leasehold improvements | | Shorter of estimated useful life or lease term | |

The cost and accumulated depreciation and amortization for property and equipment sold, retired or otherwise disposed of are removed from the applicable accounts, and resulting gains or losses are recorded in our consolidated statements of income and comprehensive income.

Internal-use Software

*Internal-Use Software*

Costs incurred to develop internal-use software during the application development stage are capitalized and reported at cost. Application development stage costs generally include costs associated with internal-use software configuration, coding, installation and testing. Costs of significant upgrades and enhancements that result in additional functionality are also capitalized whereas costs incurred for maintenance and minor upgrades and enhancements are expensed as incurred. Amortization of capitalized costs are recorded within cost of revenues in our consolidated statements of income and comprehensive income.

Capitalized Software and Research and Development Costs

***Capitalized Software and Research and Development Costs***

Software development costs relating to products to be sold in the normal course of business are expensed as incurred as research and development costs until technological feasibility is established. Technological feasibility for our products occurs approximately concurrently with the general release of our products; accordingly, we have not capitalized any development or production costs. Costs we incur to maintain and support our products are expensed in the period they are incurred and included in cost of revenues in our consolidated statements of income and comprehensive income.

Impairment of Long-Lived Assets

Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset.

Revenue Recognition

***Revenue Recognition***

Revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods or services.

See Note 9 for further discussion on revenues.

Income Taxes

***Income Taxes***

We estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase.

We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.

Earnings per Share

***Earnings per Share***

Basic earnings per share are computed on the basis of the weighted-average number of common shares outstanding during the period under measurement. Diluted earnings per share are based on the weighted-average number of common shares outstanding and potential common shares. Potential common shares result from the assumed exercise of outstanding stock options or other potentially dilutive equity instruments, when they are dilutive under the treasury stock method.

Comprehensive Income

***Comprehensive Income***

Comprehensive income is the change in our equity (net assets) during each period from transactions and other events and circumstances from non-owner sources. It includes net income and foreign currency translation adjustments.

Foreign Currency and Derivative Financial Instruments

***Foreign Currency and Derivative Financial Instruments***

We have determined that the functional currency of each foreign operation is the local currency. Assets and liabilities denominated in their local foreign currencies are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates of exchange prevailing during the period. Foreign currency translation adjustments are accumulated as a separate component of consolidated stockholders' deficit.

We utilize derivative instruments to manage market risks associated with fluctuations in certain foreign currency exchange rates as they relate to specific balances of accounts receivable and cash denominated in foreign currencies. We principally utilize foreign currency forward contracts to protect against market risks arising in the normal course of business. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations or to enter into contracts that intentionally increase our underlying exposure. All of our foreign currency forward contracts have maturity periods of less than three months.

At the end of the reporting period, foreign-currency-denominated assets and liabilities are remeasured into the functional currencies of the reporting entities at current market rates. The change in value from this remeasurement is reported as a foreign exchange gain or loss for that period in other income (expense), net in the accompanying consolidated statements of income and comprehensive income.

Share-Based Compensation

***Share-Based Compensation***

We measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years).

Advertising and Promotion Costs

***Advertising and Promotion Costs***

Advertising and promotion costs are expensed as incurred and are included in selling, general and administrative expenses in the accompanying consolidated statements of income and comprehensive income.

New Accounting Pronouncements

***New Accounting Pronouncements***

*Recent Accounting Pronouncements Adopted*

In October 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2021-08, "*Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*" ("ASU 2021-08"). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities from acquired contracts using the revenue recognition guidance under Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers*, in order to align the recognition of a contract liability with the definition of a performance obligation. We adopted ASU 2021-08 in the first quarter of fiscal 2024 and the adoption did not have a significant impact on our consolidated financial statements.

*Recent Accounting Pronouncements Not Yet Adopted*

In November 2023, the FASB issued ASU No. 2023-07, "*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*" ("ASU 2023-07"). ASU 2023-07 expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, which means that it will be effective for our annual periods beginning October 1, 2024, and our interim periods beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, "*Income Taxes (Topic 740): Improvements to Income Tax Disclosures*" ("ASU 2023-09"). ASU 2023-09 requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as disaggregated information on income tax paid. The standard is effective for fiscal years beginning after December 15, 2024, which means that it will be effective for our fiscal years beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements.

We do not expect that any other recently issued accounting pronouncements will have a significant effect on our consolidated financial statements.

Leases policy

We lease office space and data centers under operating lease arrangements, which constitute the majority of our lease obligations. We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term.

Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term.

Goodwill, Policy

Goodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement.

We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a "step zero" approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the "step zero" qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step ("step one") of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test.

For fiscal 2024, 2023 and 2022, we performed a step zero qualitative analysis for our annual assessment of goodwill impairment. After evaluating and weighing all relevant events and circumstances, we concluded that it is not more likely than not that the fair value of either of our reporting units was less than their carrying amounts. Consequently, we did not perform a step one quantitative analysis and determined goodwill was not impaired for either of our reporting units for fiscal 2024, 2023 and 2022.

| Revenue from Contract with Customer | |

***Contracts with Customers***

Our revenue is primarily derived from on-premises software and SaaS subscriptions, professional services and scoring services. For contracts with customers that contain various combinations of products and services, we evaluate whether the products or services are distinct — distinct products or services will be accounted for as separate performance obligations, while non-distinct products or services are combined with others to form a single performance obligation. For contracts with multiple performance obligations, the transaction price is allocated to each performance obligation on a relative standalone selling price ("SSP") basis. Revenue is recognized when control of the promised goods or services is transferred to our customers.

Our on-premises software is primarily sold on a subscription basis, which includes a term-based license and post-contract support or maintenance, both of which generally represent distinct performance obligations and are accounted for separately. The transaction price is either a fixed fee, or a usage-based fee — sometimes subject to a guaranteed minimum. When the amount is fixed, including the guaranteed minimum in a usage-based fee, license revenue is recognized at the point in time when the software is made available to the customer. Maintenance revenue is recognized ratably over the contract period as customers simultaneously consume and receive benefits. Any usage-based fees not subject to a guaranteed minimum or earned in excess of the minimum amount are recognized when the subsequent usage occurs. We occasionally sell software arrangements consisting of on-premises perpetual licenses and maintenance. License revenue is recognized at a point in time when the software is made available to the customer and maintenance revenue is recognized ratably over the contract term.

Our SaaS products provide customers with access to and standard support for our software on a subscription basis, delivered through our own infrastructure or third-party cloud services. The SaaS transaction contracts typically include a guaranteed minimum fee per period that allows up to a certain level of usage and a consumption-based variable fee in excess of the minimum threshold; or a consumption-based variable fee not subject to a minimum threshold. The nature of our SaaS arrangements is to provide continuous access to our hosted solutions in the cloud, i.e., a stand-ready obligation that comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). We estimate the total variable consideration at contract inception — subject to any constraints that may apply — and update the estimates as new information becomes available and recognize the amount ratably over the SaaS service period, unless we determine it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed. Variable consideration is included in the transaction price if, in our judgment, it is probable that a significant future reversal of cumulative revenue recognized under the contract will not occur. Variable consideration is estimated based on either the expected value or the most likely amount method depending on which method we expect to better predict the amount of consideration to which we will be entitled. Our estimates of variable consideration are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available to us at contract inception and require judgment.

Our professional services include software implementation, consulting, model development and training. Professional services are sold either standalone, or together with other products or services and generally represent distinct performance obligations. The transaction price can be a fixed amount or a variable amount based upon the time and materials expended. Revenue on fixed-price services is recognized using an input method based on labor hours expended, which we believe provides a faithful depiction of the transfer of services. Revenue on services provided on a time and materials basis is recognized by applying the "right-to-invoice" practical expedient as the amount to which we have a right to invoice the customer corresponds directly with the value of our performance to the customer.

Our scoring services include both business-to-business and business-to-consumer offerings. Our business-to-business scoring services typically include a license that grants consumer reporting agencies the right to use our scoring solutions in exchange for a usage-based royalty. Revenue is generally recognized when the usage occurs. Business-to-consumer offerings provide consumers with access to their FICO® Scores and credit reports, as well as other value-add services. These are provided as either a one-time or ongoing subscription service renewed monthly or annually, all with a fixed consideration. The nature of the subscription service is a stand-ready obligation to generate credit reports, provide credit monitoring, and other services for our customers, which comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). Revenue from one-time or monthly subscription services is recognized during the period when service is performed. Revenue from annual subscription services is recognized ratably over the subscription period.

We were founded in 1956 on the premise that data, used intelligently, can improve business decisions. Today, FICO's software and the widely used FICO® Score operationalize analytics, enabling thousands of businesses in more than 80 countries to uncover new opportunities, make timely decisions that matter, and execute them at scale. Most leading banks and credit card issuers rely on our solutions, as do insurers, retailers, telecommunications providers, automotive lenders, consumer reporting agencies, public agencies, and organizations in other industries. We also serve consumers through online services that enable people to access and understand their FICO Scores — the standard measure in the United States ("U.S.") of consumer credit risk — empowering them to increase financial literacy and manage their financial health. Principles of Consolidation and Basis of Presentation The consolidated financial statements include the accounts of FICO and its subsidiaries. All intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation. Use of Estimates We make estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of various accruals; variable considerations included in the transaction price and standalone selling price of each performance obligation for our customer contracts; labor hours in connection with fixed-fee service contracts; the amount of our tax provision; and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Actual results may differ from our estimates. Cash and Cash Equivalents Cash and cash equivalents consist of cash in banks and investments with an original maturity of 90 days or less at time of purchase. Fair Value of Financial Instruments The fair value of certain of our financial instruments, including cash and cash equivalents, receivables, other current assets, accounts payable, accrued compensation and employee benefits, other accrued liabilities and amounts outstanding under our revolving line of credit and term loans, approximate their carrying amounts because of the short-term maturity of these instruments. The fair values of our cash and cash equivalents and marketable securities investments are disclosed in Note 4. The fair value of our derivative instruments is disclosed in Note 5. The fair value of our senior notes is disclosed in Note 8. Investments We categorize our investments in debt and equity instruments as trading, available-for-sale or held-to-maturity at the time of purchase. Trading securities are carried at fair value with unrealized gains or losses included in other income (expense). Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains or losses included in accumulated other comprehensive income (loss). Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis and are included in other income (expense). We review marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. We did not classify any securities as held-to-maturity or available-for-sale during each of the three years ended September 30, 2024, 2023 and 2022. Investments with remaining maturities over one year are classified as long-term investments. Concentration of Risk Financial instruments that potentially expose us to concentrations of risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable, which are generally not collateralized. Our policy is to place our cash, cash equivalents, and marketable securities with high quality financial institutions, commercial corporations and government agencies in order to limit the amount of credit exposure. We have established guidelines relative to diversification and maturities for maintaining safety and liquidity. We generally do not require collateral from our customers, but our credit extension and collection policies include analyzing the financial condition of potential customers, establishing credit limits, monitoring payments, and aggressively pursuing delinquent accounts. We maintain allowances for potential credit losses. A significant portion of our revenues are derived from the sales of products and services to the financial services industries. Property and Equipment Property and equipment are recorded at cost less accumulated depreciation and amortization. Major renewals and improvements are capitalized, while repair and maintenance costs are expensed as incurred. Depreciation and amortization charges are calculated using the straight-line method over the following estimated useful lives:  <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:63.958%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.081%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:5.186%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.375%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">  </td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Estimated Useful Life</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:top">Data processing equipment and purchased software</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">3 years</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">to</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">6 years</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:top">Internal-use software</td><td colspan="9" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">4 years</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:top">Office furniture and equipment</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">3 years</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">to</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">7 years</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:middle">Leasehold improvements</td><td colspan="9" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Shorter of estimated <br/>useful life or lease term</td></tr></table> The cost and accumulated depreciation and amortization for property and equipment sold, retired or otherwise disposed of are removed from the applicable accounts, and resulting gains or losses are recorded in our consolidated statements of income and comprehensive income. Depreciation and amortization on property and equipment totaled $9.4 million, $10.1 million and $15.2 million during fiscal 2024, 2023 and 2022, respectively.  Internal-Use Software Costs incurred to develop internal-use software during the application development stage are capitalized and reported at cost. Application development stage costs generally include costs associated with internal-use software configuration, coding, installation and testing. Costs of significant upgrades and enhancements that result in additional functionality are also capitalized whereas costs incurred for maintenance and minor upgrades and enhancements are expensed as incurred. Amortization of capitalized costs are recorded within cost of revenues in our consolidated statements of income and comprehensive income. Capitalized Software and Research and Development Costs Software development costs relating to products to be sold in the normal course of business are expensed as incurred as research and development costs until technological feasibility is established. Technological feasibility for our

products occurs approximately concurrently with the general release of our products; accordingly, we have not capitalized any development or production costs. Costs we incur to maintain and support our products are expensed in the period they are incurred and included in cost of revenues in our consolidated statements of income and comprehensive income. Goodwill and Other Long-Lived Assets Goodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement. We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a "step zero" approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the "step zero" qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step ("step one") of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test. For fiscal 2024, 2023 and 2022, we performed a step zero qualitative analysis for our annual assessment of goodwill impairment. After evaluating and weighing all relevant events and circumstances, we concluded that it is not more likely than not that the fair value of either of our reporting units was less than their carrying amounts. Consequently, we did not perform a step one quantitative analysis and determined goodwill was not impaired for either of our reporting units for fiscal 2024, 2023 and 2022. Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset. We did not recognize any impairment charges on other long-lived assets in fiscal 2024, 2023 and 2022. Revenue Recognition Revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods or services. See Note 9 for further discussion on revenues. Income Taxes We estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase. We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results. Earnings per Share Basic earnings per share are computed on the basis of the weighted-average number of common shares outstanding during the period under measurement. Diluted earnings per share are based on the weighted-average number of common shares outstanding and potential common shares. Potential common shares result from the assumed exercise of outstanding stock options or other potentially dilutive equity instruments, when they are dilutive under the treasury stock method. Comprehensive Income Comprehensive income is the change in our equity (net assets) during each period from transactions and other events and circumstances from non-owner sources. It includes net income and foreign currency translation adjustments. Foreign Currency and Derivative Financial Instruments We have determined that the functional currency of each foreign operation is the local currency. Assets and liabilities denominated in their local foreign currencies are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates of exchange prevailing during the period. Foreign currency translation adjustments are accumulated as a separate component of consolidated stockholders' deficit. We utilize derivative instruments to manage market risks associated with fluctuations in certain foreign currency exchange rates as they relate to specific balances of accounts receivable and cash denominated in foreign currencies. We principally utilize foreign currency forward contracts to protect against market risks arising in the normal course of business. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations or to enter into contracts that intentionally increase our underlying exposure. All of our foreign currency forward contracts have maturity periods of less than three months. At the end of the reporting period, foreign-currency-denominated assets and liabilities are remeasured into the functional currencies of the reporting entities at current market rates. The change in value from this remeasurement is reported as a foreign exchange gain or loss for that period in other income (expense), net in the accompanying consolidated statements of income and comprehensive income. We recorded transactional foreign exchange gains (losses) of $(0.6) million, $(2.6) million and $1.9 million during fiscal 2024, 2023 and 2022, respectively. Share-Based Compensation We measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years). See Note 12 for further discussion of our share-based employee benefit plans. Advertising and Promotion Costs Advertising and promotion costs are expensed as incurred and are included in selling, general and administrative expenses in the accompanying consolidated statements of income and comprehensive income. Advertising and promotion costs totaled $12.3 million, $9.8 million and $8.1 million in fiscal 2024, 2023 and 2022, respectively. New Accounting Pronouncements Recent Accounting Pronouncements Adopted In October 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2021-08, "Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers" ("ASU 2021-08"). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities from acquired contracts using the revenue recognition guidance under Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, in order to align the recognition of a contract liability with the definition of a performance obligation. We adopted ASU 2021-08 in the first quarter of fiscal 2024 and the adoption did not have a significant impact on our consolidated financial statements. Recent Accounting Pronouncements Not Yet Adopted In November 2023, the FASB issued ASU No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" ("ASU 2023-07"). ASU 2023-07 expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, which means that it will be effective for our annual periods beginning October 1, 2024, and our interim periods beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements. In December 2023, the FASB issued ASU No. 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures" ("ASU 2023-09"). ASU 2023-09 requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as disaggregated information on income tax paid. The standard is effective for fiscal years beginning after December 15, 2024, which means that it will be effective for our fiscal

years beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements. We do not expect that any other recently issued accounting pronouncements will have a significant effect on our consolidated financial statements. Principles of Consolidation and Basis of Presentation The consolidated financial statements include the accounts of FICO and its subsidiaries. All intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified to conform to current year presentation. Use of Estimates We make estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. For example, we use estimates in determining the appropriate levels of various accruals; variable considerations included in the transaction price and standalone selling price of each performance obligation for our customer contracts; labor hours in connection with fixed-fee service contracts; the amount of our tax provision; and the realizability of deferred tax assets. We also use estimates in determining the remaining economic lives and carrying values of acquired intangible assets, property and equipment, and other long-lived assets. In addition, we use assumptions to estimate the fair value of reporting units and share-based compensation. Actual results may differ from our estimates. Cash and Cash Equivalents Cash and cash equivalents consist of cash in banks and investments with an original maturity of 90 days or less at time of purchase. Fair Value of Financial Instruments The fair value of certain of our financial instruments, including cash and cash equivalents, receivables, other current assets, accounts payable, accrued compensation and employee benefits, other accrued liabilities and amounts outstanding under our revolving line of credit and term loans, approximate their carrying amounts because of the short-term maturity of these instruments. Investments We categorize our investments in debt and equity instruments as trading, available-for-sale or held-to-maturity at the time of purchase. Trading securities are carried at fair value with unrealized gains or losses included in other income (expense). Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains or losses included in accumulated other comprehensive income (loss). Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis and are included in other income (expense). We review marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. We did not classify any securities as held-to-maturity or available-for-sale during each of the three years ended September 30, 2024, 2023 and 2022. Investments with remaining maturities over one year are classified as long-term investments. Concentration of Risk Financial instruments that potentially expose us to concentrations of risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable, which are generally not collateralized. Our policy is to place our cash, cash equivalents, and marketable securities with high quality financial institutions, commercial corporations and government agencies in order to limit the amount of credit exposure. We have established guidelines relative to diversification and maturities for maintaining safety and liquidity. We generally do not require collateral from our customers, but our credit extension and collection policies include analyzing the financial condition of potential customers, establishing credit limits, monitoring payments, and aggressively pursuing delinquent accounts. We maintain allowances for potential credit losses. A significant portion of our revenues are derived from the sales of products and services to the financial services industries. Property and Equipment Property and equipment are recorded at cost less accumulated depreciation and amortization. Major renewals and improvements are capitalized, while repair and maintenance costs are expensed as incurred. Depreciation and amortization charges are calculated using the straight-line method over the following estimated useful lives: <table P3YP6YP4YP3YP7Y940000010100000152000000 Internal-Use Software Costs incurred to develop internal-use software during the application development stage are capitalized and reported at cost. Application development stage costs generally include costs associated with internal-use software configuration, coding, installation and testing. Costs of significant upgrades and enhancements that result in additional functionality are also capitalized whereas costs incurred for maintenance and minor upgrades and enhancements are expensed as incurred. Amortization of capitalized costs are recorded within cost of revenues in our consolidated statements of income and comprehensive income. Capitalized Software and Research and Development Costs Software development costs relating to products to be sold in the normal course of business are expensed as incurred as research and development costs until technological feasibility is established. Technological feasibility for our products occurs approximately concurrently with the general release of our products; accordingly, we have not capitalized any development or production costs. Costs we incur to maintain and support our products are expensed in the period they are incurred and included in

cost of revenues in our consolidated statements of income and comprehensive income. Goodwill represents the excess of cost over the fair value of identifiable assets acquired and liabilities assumed in business combinations. We assess goodwill for impairment for each of our reporting units on an annual basis during our fourth fiscal quarter using a July 1 measurement date unless circumstances require a more frequent measurement. We have determined that our reporting units are the same as our reportable segments. When evaluating goodwill for impairment, we may first perform an assessment qualitatively whether it is more likely than not that a reporting unit's carrying amount exceeds its fair value, referred to as a “step zero” approach. If, based on the review of the qualitative factors, we determine it is not more likely than not that the fair value of a reporting unit is less than its carrying value, we would bypass the two-step impairment test. Events and circumstances we consider in performing the “step zero” qualitative assessment include macro-economic conditions, market and industry conditions, internal cost factors, share price fluctuations, and the operational stability and overall financial performance of the reporting units. If we conclude that it is more likely than not that a reporting unit's fair value is less than its carrying amount, we would perform the first step (“step one”) of the two-step impairment test and calculate the estimated fair value of the reporting unit by using discounted cash flow valuation models and by comparing our reporting units to guideline publicly-traded companies. These methods require estimates of our future revenues, profits, capital expenditures, working capital, and other relevant factors, as well as selecting appropriate guideline publicly-traded companies for each reporting unit. We estimate these amounts by evaluating historical trends, current budgets, operating plans, industry data, and other relevant factors. Alternatively, we may bypass the qualitative assessment described above for any reporting unit in any period and proceed directly to performing step one of the goodwill impairment test. For fiscal 2024, 2023 and 2022, we performed a step zero qualitative analysis for our annual assessment of goodwill impairment. After evaluating and weighing all relevant events and circumstances, we concluded that it is not more likely than not that the fair value of either of our reporting units was less than their carrying amounts. Consequently, we did not perform a step one quantitative analysis and determined goodwill was not impaired for either of our reporting units for fiscal 2024, 2023 and 2022.Our other long-lived assets are assessed for potential impairment when there is evidence that events and circumstances related to our financial performance and economic environment indicate the carrying amount of the assets may not be recoverable. When impairment indicators are identified, we test for impairment using undiscounted cash flows. If such tests indicate impairment, then we measure and record the impairment as the difference between the carrying value of the asset and the fair value of the asset. Revenue Recognition Revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods or services. See Note 9 for further discussion on revenues. Income Taxes We estimate our income taxes based on the various jurisdictions where we conduct business, which involves significant judgment in determining our income tax provision. We estimate our current tax liability using currently enacted tax rates and laws and assess temporary differences that result from differing treatments of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities recorded on our consolidated balance sheets using the currently enacted tax rates and laws that will apply to taxable income for the years in which those tax assets are expected to be realized or settled. We then assess the likelihood our deferred tax assets will be realized and to the extent we believe realization is not more likely than not, we establish a valuation allowance. When we establish a valuation allowance or increase this allowance in an accounting period, we record a corresponding income tax expense in our consolidated statements of income and comprehensive income. In assessing the need for the valuation allowance, we consider future taxable income in the jurisdictions we operate; our ability to carry back tax attributes to prior years; an analysis of our deferred tax assets and the periods over which they will be realizable; and ongoing prudent and feasible tax planning strategies. An increase in the valuation allowance would have an adverse impact, which could be material, on our income tax provision and net income in the period in which we record the increase. We recognize and measure benefits for uncertain tax positions using a two-step approach. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the technical merits of the tax position indicate it is more likely than not that the tax position will be sustained upon audit, including resolution of any related appeals or litigation processes. For tax positions more likely than not of being sustained upon audit, the second step is to measure the tax benefit as the largest amount more than 50% likely of being realized upon settlement. Significant judgment is required to evaluate uncertain tax positions and they are evaluated on a quarterly basis. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results. Earnings per Share Basic earnings per share are computed on the basis of the weighted-average number of common shares outstanding during the period under measurement. Diluted earnings per share are based on the weighted-average number of common shares outstanding and potential common shares. Potential common shares result from the assumed exercise of outstanding stock options or other potentially dilutive equity instruments, when they are dilutive under the treasury stock method. Comprehensive Income Comprehensive income is the change in our equity (net assets) during each period from transactions and other events and circumstances from non-owner sources. It includes net income and foreign currency translation adjustments. Foreign Currency and Derivative Financial Instruments We have determined that the functional currency of each foreign operation is the local currency. Assets and liabilities denominated in their local foreign currencies are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates of exchange prevailing during the period. Foreign currency translation adjustments are accumulated as a separate component of consolidated stockholders' deficit. We utilize derivative instruments to manage market risks associated with fluctuations in certain foreign currency exchange rates as they relate to specific balances of accounts receivable and cash denominated in foreign currencies. We principally utilize foreign currency forward contracts to protect against market risks arising in the normal course of business. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations or to enter into contracts that intentionally increase our underlying exposure. All of our foreign currency forward contracts have maturity periods of less than three months. At the end of the reporting period, foreign-currency-denominated assets and liabilities are remeasured into the functional currencies of the reporting entities at current market rates. The change in value from this remeasurement is reported as a foreign exchange gain or loss for that period in other income (expense), net in the accompanying consolidated statements of income and comprehensive income.-600000-260000001900000 Share-Based Compensation We measure share-based compensation cost at the grant date based on the fair value of the award and recognize it as expense, net of estimated forfeitures, over the vesting or service period, as applicable, of the stock award (generally three to four years).P4Y Advertising and Promotion Costs Advertising and promotion costs are expensed as incurred and are included in selling, general and administrative expenses in the accompanying consolidated statements of income and comprehensive income.1230000098000008100000 New Accounting Pronouncements Recent Accounting Pronouncements Adopted In October 2021, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2021-08, “Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers” (“ASU 2021-08”). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities from acquired contracts using the revenue recognition guidance under Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, in order to align the recognition of a contract liability with the definition of a performance obligation. We adopted ASU 2021-08 in the first quarter of fiscal 2024 and the adoption did not have a significant impact on our consolidated financial statements. Recent Accounting Pronouncements Not Yet Adopted In November 2023, the FASB issued ASU No. 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures” (“ASU 2023-07”). ASU 2023-07 expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, which means that it will be effective for our annual periods beginning October 1, 2024, and our interim periods beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements. In December 2023, the FASB issued ASU No. 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures” (“ASU 2023-09”). ASU 2023-09 requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as disaggregated information on income tax paid. The standard is effective for fiscal years beginning after December 15, 2024, which means that it will be effective for our fiscal years beginning October 1, 2025. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our disclosures within our consolidated financial statements. We do not expect that any other recently issued accounting pronouncements will have a significant effect on our consolidated financial statements. 2. Value Measurements Fair value is defined as the price that would be received from the sale of an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The accounting guidance establishes a three-level hierarchy for disclosure that is based on the extent and level of judgment used to estimate the fair value of assets and liabilities. •Level 1 — uses unadjusted quoted prices that are available in active markets for identical assets or liabilities. Our Level 1 assets were comprised of money market funds and certain marketable securities and our Level 1 liabilities included senior notes as of September 30, 2024 and 2023. •Level 2 — uses inputs other than quoted prices included in Level 1 that are either directly or indirectly observable through correlation with market data. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs to valuation models or other pricing methodologies that do not require significant judgment because the inputs used in the model, such as interest rates and volatility, can be corroborated by readily observable market data. We did not have any assets or liabilities that are valued using inputs identified under a Level 2 hierarchy as of September 30, 2024 and 2023. •Level 3 — uses one or more significant inputs that are unobservable and supported by little or no market activity, and that reflect the use of significant management judgment. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques, and significant management judgment or estimation. We did not have any assets or liabilities that are valued using inputs identified under a Level 3 hierarchy as of September 30, 2024 and 2023. The following tables represent financial assets that we measured at fair value on a recurring basis at September 30, 2024 and 2023: <table The primary objective of our derivative instruments is to protect the value of foreign-currency-denominated receivable and cash balances from the effects of volatility in foreign exchange rates that might occur prior to conversion to their functional currencies. We principally utilize foreign currency forward contracts, which enable us to buy and sell foreign currencies in the future at fixed exchange rates and economically offset changes in foreign exchange rates. We routinely enter into contracts to offset exposures denominated in the British pound, Euro and Singapore dollar. Foreign-currency-denominated receivable and cash balances are remeasured at foreign exchange rates in effect on the balance sheet date with the effects of changes in foreign exchange rates reported in other income (expense), net. The forward contracts are not designated as hedges and are marked to market through other income (expense), net. Fair value changes in the forward contracts help mitigate the changes in the value of the remeasured receivable and cash balances attributable to changes in foreign exchange rates. The forward contracts are short-term in nature and typically have average maturities at inception of less than three months. The following tables summarize our outstanding foreign currency forward contracts, by currency, at September 30, 2024 and

Revolving Line of Credit and Term Loans We have a $600 million unsecured revolving line of credit

*and a $300 million unsecured term loan (the "$300 Million Term Loan") with a syndicate of banks that mature on August 19, 2026. Borrowings under the revolving line of credit and the $300 Million Term Loan can be used for working capital and general corporate purposes and may also be used for the refinancing of existing debt, acquisitions, and the repurchase of our common stock. The $300 Million Term Loan requires principal payments in consecutive quarterly installments of $3.75 million on the last business day of each quarter. Interest rates on amounts borrowed under the revolving line of credit and the $300 Million Term Loan are based on (i) an adjusted base rate, which is the greatest of (a) the prime rate, (b) the Federal Funds rate plus 0.5%, and (c) one-month adjusted term Secured Overnight Financing Rate ("SOFR") plus 1%, plus, in each case, an applicable margin, or (ii) an adjusted term SOFR plus an applicable margin (or, if such rate is no longer available, a successor benchmark rate determined in accordance with the terms of the credit agreement) . Adjusted term SOFR is defined as term SOFR for the relevant interest period plus a SOFR adjustment of 0.10% per annum. The applicable margin for base rate borrowings and for SOFR borrowings is determined based on our consolidated leverage ratio. The applicable margin for base rate borrowings ranges from 0% to 0.75% per annum and for SOFR borrowings ranges from 1% to 1.75% per annum. In addition, we must pay certain credit facility fees. The revolving line of credit and the $300 Million Term Loan contain certain restrictive covenants including a maximum consolidated leverage ratio of 3.5 to 1.0, subject to a step up to 4.0 to 1.0 following certain permitted acquisitions and subject to certain conditions, and a minimum interest coverage ratio of 3.0 to 1.0. The credit agreement also contains other covenants typical of unsecured credit facilities. On June 13, 2024, we amended our credit agreement to provide for the issuance of a new $450 million unsecured term loan (the "$450 Million Term Loan") with a syndicate of banks, increasing the total capacity of the credit agreement to $1.35 billion. The $450 Million Term Loan is subject to the same interest rate provisions and covenants as the revolving line of credit and the $300 Million Term Loan, and matures on August 19, 2026. We have no obligation to make scheduled principal payments on the $450 Million Term Loan prior to the maturity date, but may prepay the $450 Million Term Loan, without premium or penalty, in whole or in part. As of September 30, 2024, we had $210.0 million in borrowings outstanding under the revolving line of credit at a weighted-average interest rate of 6.396%, $258.8 million in outstanding balance of the $300 Million Term Loan at an interest rate of 6.344%, and $450.0 million in outstanding balance of the $450 Million Term Loan at an interest rate of 6.281%. We were in compliance with all financial covenants under the credit agreement as of September 30, 2024.</span></div><div style="margin-top:9pt;text-indent:22.5pt"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">Future principal payments for the term loans are as follows:</span></div><div style="margin-top:9pt"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:82.379%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.421%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:8pt;font-weight:700;line-height:120%;text-decoration:underline">Year Ending September 30,</span></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:8pt;font-weight:700;line-height:100%">(In thousands)</span></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">2025</span></td><td style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#ffffff;padding:2px 0;text-align:right;vertical-align:bottom">15,000 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">2026</td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">693,750 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:top">Total</td><td style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 0;text-align:right;vertical-align:bottom">708,750 </td><td style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> Senior Notes On May 8, 2018, we issued $400 million of senior notes in a private offering to qualified institutional investors (the "2018 Senior Notes"). Deferred revenues at September 30, 2023 included current portion of $136.7 million and long-term portion of $6.5 million that were recorded in deferred revenue and other liabilities, respectively, within the consolidated balance sheets. Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to provide customers with financing or to receive financing from our customers. Examples include multi-year on-premises licenses that are invoiced annually with revenue recognized upfront and invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period. Performance Obligations Revenue allocated to remaining performance obligations represents contracted revenue that will be recognized in future periods, which is comprised of deferred revenue and amounts that will be invoiced and recognized as revenue in future periods. This does not include: •Usage-based revenue that will be recognized in future periods from on-premises software subscriptions; •Consumption-based variable fees from SaaS software that will be recognized in the distinct service period during which it is earned; and •Revenue from variable considerations that will be recognized in accordance with the "right-to-invoice" practical expedient, such as fees from our professional services billed based on a time and materials basis. Revenue allocated to remaining performance obligations was $507.3 million as of September 30, 2024, approximately 50% of which we expect to recognize over the next 14 months and the remainder thereafter. Revenue allocated to remaining performance obligations was $470.5 million as of September 30, 2023. Significant Judgments Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct and should be accounted for separately may require significant judgment. Specifically, when implementation service is included in the original software or SaaS offerings, judgment is required to determine if the implementation service significantly modifies or customizes the software or SaaS service in such a way that the risks of providing it and the customization service are inseparable. We determine the SSPs using data from our historical standalone sales, or, in instances where such information is not available (such as when we do not sell the product or service separately), we consider factors such as the stated contract prices, our overall pricing practices and objectives, go-to-market strategy, size and type of the transactions, and effects of the geographic area on pricing, among others. When the selling price of a product or service is highly variable, we may use the residual approach to determine the SSP of that product or service. Significant judgment may be required to determine the SSP for each distinct performance obligation when it involves the consideration of many market conditions and entity-specific factors discussed above. Significant judgment may be required to determine the timing of satisfaction of a performance obligation in certain professional services contracts with a fixed consideration, in which we measure progress using an input method based on labor hours expended. In order to estimate the total hours of the project, we make assumptions about labor utilization, efficiency of processes, the customer's specification and IT environment, among others. For certain complex projects, due to the risks and uncertainties inherent with the estimation process and factors relating to the assumptions, actual progress may differ due to the change in estimated total hours. Adjustments to estimates are made in the period in which the facts requiring such revisions become known and, accordingly, recognized revenues are subject to revisions as the contract progresses to completion. Capitalized Commission Costs We capitalize incremental commission fees paid as a result of obtaining customer contracts. Capitalized commission costs, which are recorded in other assets within the accompanying consolidated balance sheets, were $60.5 million and $58.6 million at September 30, 2024 and 2023, respectively. Capitalized commission costs are amortized on a straight-line basis over ten years — determined using a portfolio approach — based on the transfer of goods or services to which the assets relate, taking into consideration both the initial and future contracts as we do not typically pay a commission on a contract renewal. The amortization costs are included in selling, general, and administrative expenses of our consolidated statements of income and comprehensive income. The amount of amortization was $9.2 million, $8.2 million, and $7.2 million during the years ended September 30, 2024, 2023 and 2022, respectively. There was no impairment loss in relation to the costs capitalized. We apply a practical expedient to recognize the incremental costs of obtaining contracts as an expense when incurred if the amortization period of the assets that we otherwise would have recognized is one year or less. These costs are recorded within selling, general, and administrative expenses. Contracts with Customers Our revenue is primarily derived from on-premises software and SaaS subscriptions, professional services and scoring services. For contracts with customers that contain various combinations of products and services, we evaluate whether the products or services are distinct — distinct products or services will be accounted for as separate performance obligations, while non-distinct products or services are combined with others to form a single performance obligation. For contracts with multiple performance obligations, the transaction price is allocated to each performance obligation on a relative standalone selling price ("SSP") basis. Revenue is recognized when control of the promised goods or services is transferred to our customers. Our on-premises software is primarily sold on a subscription basis, which includes a term-based license and post-contract support or maintenance, both of which generally represent distinct performance obligations and are accounted for separately. The transaction price is either a fixed fee, or a usage-based fee — sometimes subject to a guaranteed minimum. When the amount is fixed, including the guaranteed minimum in a usage-based fee, license revenue is recognized at the point in time when the software is made available to the customer. Maintenance revenue is recognized ratably over the contract period as customers simultaneously consume and receive benefits. Any usage-based fees not subject to a guaranteed minimum or earned in excess of the minimum amount are recognized when the subsequent usage occurs. We occasionally sell software arrangements consisting of on-premises perpetual licenses and maintenance. License revenue is recognized at a point in time when the software is made available to the customer and maintenance revenue is recognized ratably over the contract term. Our SaaS products provide customers with access to and standard support for our software on a subscription basis, delivered through our own infrastructure or third-party cloud services. The SaaS transaction contracts typically include a guaranteed minimum fee per period that allows up to a certain level of usage and a consumption-based variable fee in excess of the minimum threshold; or a consumption-based variable fee not subject to a minimum threshold. The nature of our SaaS arrangements is to provide continuous access to our hosted solutions in the cloud, i.e., a stand-ready obligation that comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). We estimate the total variable consideration at contract inception — subject to any constraints that may apply — and update the estimates as new information becomes available and recognize the amount ratably over the SaaS service period, unless we determine it is appropriate to allocate the variable amount to each distinct service period and recognize revenue as each distinct service period is performed. Variable consideration is included in the transaction price if, in our judgment, it is probable that a significant future reversal of cumulative revenue recognized under the contract will not occur. Variable consideration is estimated based on either the expected value or the most likely amount method depending on which method we expect to better predict the amount of consideration to which we will be entitled. Our estimates of variable consideration are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available to us at contract inception and require judgment. Our professional services include software implementation, consulting, model development and training. Professional services are sold either standalone, or together with other products or services and generally represent distinct performance obligations. The transaction price can be a fixed amount or a variable amount based upon the time and materials expended. Revenue on fixed-price services is recognized using an input method based on labor hours expended, which we believe provides a faithful depiction of the transfer of services. Revenue on services provided on a time and materials basis is recognized by applying the "right-to-invoice" practical expedient as the amount to which we have a right to invoice the customer corresponds directly with the value of our performance to the customer. Our scoring services include both business-to-business and business-to-consumer offerings. Our business-to-business scoring services typically include a license that grants consumer reporting agencies the right to use our scoring solutions in exchange for a usage-based royalty. Revenue is generally recognized when the usage occurs. Business-to-consumer offerings provide

consumers with access to their FICO® Scores and credit reports, as well as other value-add services. These are provided as either a one-time or ongoing subscription service renewed monthly or annually, all with a fixed consideration. The nature of the subscription service is a stand-ready obligation to generate credit reports, provide credit monitoring, and other services for our customers, which comprises a series of distinct service periods (e.g., a series of distinct daily, monthly or annual periods of service). Revenue from one-time or monthly subscription services is recognized during the period when service is performed. Revenue from annual subscription services is recognized ratably over the subscription period. We also provide a company matching contribution. Investment in FICO common stock is not an option under this plan. Our contributions into all 401(k) plans, including former-acquired-company-sponsored plans that have since merged into the Fair Isaac Corporation 401(k) plan or have been frozen, totaled $9.5 million, $8.9 million and $8.2 million during fiscal 2024, 2023 and 2022, respectively. Employee Incentive Plans We maintain various employee incentive plans for the benefit of eligible employees, including officers. The awards generally are based upon the achievement of certain financial and performance objectives subject to the discretion of management. For executive officers, such discretion is exercised by the Leadership Development and Compensation Committee of our Board of Directors. Total expenses under our employee incentive plans were $62.5 million, $57.8 million and $55.7 million during fiscal 2024, 2023 and 2022, will reverse, management believes it is more likely than not that we will realize the benefits of the deferred tax assets at September 30, 2024. As of September 30, 2024, we had available U.S. federal net operating loss ("NOL") carryforwards of approximately $2.8 million. The U.S. federal NOLs were acquired in connection with our acquisitions of Adeptra in fiscal 2012 and Infoglide in fiscal 2013. The U.S. federal NOL carryforwards will expire at various dates beginning in fiscal 2026, if not utilized. Utilization of the U.S. federal NOLs is subject to an annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986, as amended. We had available an excess California state research credit of approximately $7.1 million as of September 30, 2024.</span></div><div style="margin-top:9pt;text-align:justify;text-indent:22.5pt"><span Based Employee Benefit Plans Description of Stock Option and Share Plans We maintain the 2021 Long-Term Incentive Plan (the "2021 Plan"). The 2021 Plan authorizes the issuance of up to 5,900,000 shares of our common stock, plus additional shares that become available due to the expiration, forfeiture or cancellation of awards outstanding under the 2012 Long-Term Incentive Plan. Under the terms of the 2021 Plan, the pool of shares available for issuance may be used for all types of equity awards available under the 2021 Plan, which include stock options, stock appreciation rights, restricted stock awards, stock unit awards and other share-based awards. All employees, consultants and advisors of FICO or any subsidiary, as well as all non-employee directors, are eligible to receive awards under the 2021 Plan. The 2021 Plan will remain in effect until the earliest of the following: all shares subject to the Plan are distributed, the Board terminates the Plan, or the tenth anniversary of the effective date of the Plan. Stock option awards have a maximum term of ten years. In general, stock option awards and stock unit awards not subject to market or performance conditions vest annually over four years. Stock unit awards subject to market or performance conditions generally vest annually over three years based on the achievement of specified criteria. At September 30, 2024, there were 4,435,309 shares available for issuance as new awards under the 2021 Plan. Description of Employee Stock Purchase Plan We maintain the 2019 Employee Stock Purchase Plan (the "2019 Purchase Plan") under which we are authorized to issue up to 1,000,000 shares of our common stock to eligible employees. Eligible employees may elect to have up to 15% of their eligible pay withheld through payroll deductions to purchase FICO common stock during semi-annual offering periods. The purchase price of the stock is 85% of the closing sales price of FICO common stock on the last trading day of each offering period. Offering period means approximately six-month periods commencing (a) on the first trading day on or after September 1 and terminating on the last trading day in the following February, and (b) on the first trading day on or after March 1 and terminating on the last trading day in the following August. At September 30, 2024, there were 839,175 shares available for issuance under the 2019 Purchase Plan. We satisfy stock option exercises, vesting of stock units and the 2019 Purchase Plan issuances from treasury shares. Share-Based Compensation Expense and Related Income Tax Benefits We recorded share-based compensation expense of $149.4 million, $123.8 million and $115.4 million in fiscal 2024, 2023 and 2022, respectively. The total tax benefit related to this share-based compensation expense was $15.9 million, $13.8 million and $13.5 million in fiscal 2024, 2023 and 2022, respectively. As of September 30, 2024, there was $213.0 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all equity compensation plans. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures. We expect to recognize that cost over a weighted-average period of 2.37 years. In fiscal 2024 we received $8.3 million in cash from stock option exercises, with the tax benefit realized for the tax deductions from these exercises of $10.2 million. Market Share Units Market share units ("MSUs") are granted to our senior officers and earned based on our total stockholder return relative to the Russell 3000 Index over performance periods of one, two and three years. We estimate the fair value of MSUs granted using the Monte Carlo valuation model and amortize the fair values over the requisite service period for each vesting tranche of the award. In addition, we do not

reverse the compensation cost solely because the market condition is not satisfied, and the award is therefore not earned by the employee, provided the requisite service is rendered. The risk-free rate was determined based on U.S. Treasury zero-coupon yields over the three-year performance period. Because we have not declared or paid any cash dividends on our common stock since May 2017, and we do not presently plan to pay cash dividends on our common stock in the foreseeable future, we used an expected dividend yield of zero. The expected term represents the period that our stock options are expected to be outstanding. We estimate the expected term based on historical experience of similar awards, giving consideration to the contractual terms of the share-based awards, vesting schedules and expectations of future employee behavior. Expected Volatility. We estimate the volatility of our common stock at the date of grant based on a combination of the implied volatility of publicly traded options on our common stock and our historical volatility rate. Risk-Free Interest Rate. The risk-free interest rate assumption is based on observed interest rates appropriate for the term of our employee options. Dividends. We have not declared or paid any cash dividends on our common stock since May 2017, and we do not presently plan to pay cash dividends on our common stock in the foreseeable future. Consequently, we used an expected dividend yield of zero in the years presented. Forfeitures. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. Although we sell solutions and services into a large number of end user product and industry markets, our reportable business segments reflect the primary method in which management organizes and evaluates internal financial information to make operating decisions and assess performance. • Scores. This segment includes our business-to-business ("B2B") scoring solutions and services which give our clients access to predictive credit and other scores that can be easily integrated into their transaction streams and decision-making processes. This segment also includes our business-to-consumer ("B2C") scoring solutions, including our myFICO.com subscription offerings. • Software. This segment includes pre-configured analytic and decision management solutions designed for a specific type of business need or process — such as account origination, customer management, customer engagement, fraud detection, and marketing — as well as associated professional services. This segment also includes FICO® Platform, a modular software offering designed to support advanced analytic and decision use cases, as well as stand-alone analytic and decisioning software that can be configured by our customers to address a wide variety of business use cases. These offerings are available to our customers as SaaS or as on-premises software. Our chief operating decision maker ("CODM"), who is our Chief Executive Officer, evaluates segment financial performance based on segment revenues and segment operating income. Segment operating expenses consist of direct and indirect costs principally related to personnel, facilities, IT infrastructure, consulting, travel and depreciation. Indirect costs are allocated to the segments generally based on relative segment revenues, fixed rates established by management based upon estimated expense contribution levels and other assumptions that management considers reasonable. We do not allocate broad-based incentive expense, share-based compensation expense, restructuring and acquisition-related expense, amortization expense, various corporate charges and certain other income and expense measures to our segments. These income and expense items are not allocated because they are not considered in evaluating the segment's operating performance. Our CODM does not evaluate the financial performance of each segment based on its respective assets or capital expenditures; rather, depreciation and amortization amounts are allocated to the segments from their internal cost centers as described above. The following tables summarize segment information for fiscal 2024, 2023 and 2022. <table space and data centers under operating lease arrangements, which constitute the majority of our lease obligations. We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term. Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term. The following table presents the lease balances within the accompanying consolidated balance sheets as of September 30, 2024 and 2023. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:36.326%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:27.116%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.420%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:15.424%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Balance Sheet Location</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, </td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-bottom:1pt solid #000000;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">(In thousands)</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Assets</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Operating leases</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Operating lease right-of-use assets</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td style="padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</span></td><td style="padding:2px 0;text-align:right;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">29,580 </span></td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="padding:0 1pt"></td><td style="padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="padding:2px 0;text-align:right;vertical-align:bottom">25,703 </td><td style="padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Finance leases (*)</td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Property and equipment, net</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">9,881 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">— </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-

We also enter into finance lease agreements from time to time for certain computer equipment. For any lease with a lease term in excess of 12 months, the related lease assets and liabilities are recognized on our consolidated balance sheets as operating leases or finance leases at the commencement of an agreement where it is determined that a lease exists. We have lease agreements that contain both lease and non-lease components, and we have elected to combine these components together and account for them as a single lease component for all classes of assets. Leases with a lease term of 12 months or less are not recorded on our consolidated balance sheets. Furthermore, we recognize lease expense for these leases on a straight-line basis over the lease term. Operating lease assets represent the right to use an underlying asset for the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. These assets and liabilities are recognized based on the present value of future payments over the lease term at the commencement date. We use a collateralized incremental borrowing rate based on the information available at the commencement date, including the lease term, in determining the present value of future payments. In calculating the incremental borrowing rates, we consider recent ratings from credit agencies and current lease demographic information. Our operating leases also typically require payment of real estate taxes, common area maintenance, insurance and other operating costs as well as payments that are adjusted based on a consumer price index. These components comprise the majority of our variable lease cost and are excluded from the present value of our lease obligations. In instances where they are fixed, they are included due to our election to combine lease and non-lease components. Operating lease assets also include prepaid lease payments and initial direct costs, and are reduced by lease incentives. Our lease terms generally do not include options to extend or terminate the lease unless it is reasonably certain that the option will be exercised. Fixed payments may contain predetermined fixed rent escalations. We recognize the related rent expense on a straight-line basis from the commencement date to the end of the lease term.P12MP12M The following table presents the lease balances within the accompanying We also have had claims asserted by former employees relating to compensation and other employment matters. We are also involved in various other claims and legal actions arising in the ordinary course of business. We record litigation accruals for legal matters which are both probable and estimable. For legal proceedings for which there is a reasonable possibility of loss (meaning those losses for which the likelihood is more than remote but less than probable), we have determined we do not haveGuarantees In the ordinary course of business, we are not subject to potential obligations under guarantees,  except for standard indemnification and warranty provisions that are contained within many of our customer license and service agreements and certain supplier agreements, including underwriter agreements, as well as standard indemnification agreements that we have executed with certain of our officers and directors, and give rise only to the disclosure in the consolidated financial statements. In addition, we continue to monitor the conditions that are subject to the guarantees and indemnifications to identify whether it is probable that a loss has occurred, and would recognize any such losses under the guarantees and indemnifications when those losses are estimable. Indemnification and warranty provisions contained within our customer license and service agreements and certain supplier agreements are generally consistent with those prevalent in our industry. The duration of our product warranties generally does not exceed 90 days following delivery of our products. We have not incurred significant obligations under customer indemnification or warranty provisions historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential customer indemnification or warranty-related obligations. The indemnification agreements that we have executed with certain of our officers and directors would require us to indemnify such officers and directors in certain instances. We have not incurred obligations under these indemnification agreements historically and do not expect to incur significant obligations in the future. Accordingly, we do not maintain accruals for potential officer or director indemnification obligations. The maximum potential amount of future payments that we could be required to make under the indemnification provisions in our customer license and service agreements, and officer and director agreements is unlimited.P90Dfalsefalsefalsefalsetrue34***
