Note 1 - Basis of presentation: <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> a. </td> <td style="vertical-align:top;text-align:left;"> Basis of presentation </td> </tr> </table> The accompanying unaudited consolidated financial statements have been prepared on the same basis as the annual consolidated financial statements. In the opinion of management, the financial statements reflect all normal and recurring adjustments necessary to fairly state the financial position and results of operations of Teva. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023, as filed with the Securities and Exchange Commission ("SEC"). The year-end balance sheet data was derived from the audited consolidated financial statements as of December 31, 2023, but not all disclosures required by generally accepted accounting principles in the United States ("U.S. GAAP") are included. In preparing the Company's consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, equity and disclosure of contingent liabilities and assets at the dates of the financial statements and the reported amounts of revenues and expenses during the reported years. Actual results could differ from those estimates. In preparing the Company's consolidated financial statements, management also considered the economic implications of inflation expectations on its critical and significant accounting estimates. As applicable to these consolidated financial statements, the most significant estimates and assumptions relate to determining the valuation and recoverability of IPR&D assets, marketed product rights and goodwill, assessing sales reserves and allowances in the United States, uncertain tax positions, valuation allowances and contingencies. These estimates could be impacted by higher costs and the ability to pass on such higher costs to customers, which is highly uncertain. Government actions taken to address macroeconomic developments, as well as their economic

impact on Teva's third-party manufacturers and suppliers, customers and markets, could also impact such estimates and may change in future periods. In February 2022, Russia launched an invasion of Ukraine. As of the date of these consolidated financial statements, sustained conflict and disruption in the region is ongoing. Russia and Ukraine markets are included in Teva's International Markets segment results. Teva has no manufacturing or R&D facilities in these markets. During the three and nine months ended September 30, 2024, the impact of this conflict on Teva's results of operation and financial condition continues to be immaterial. In October 2023, Israel was attacked by a terrorist organization and entered a state of war o n several fronts. As of the date of these consolidated financial statements, sustained conflict in the region is ongoing. Israel is included in Teva's International Markets segment results. Teva's global headquarters and several manufacturing and R&D facilities are located in Israel. Currently, such activities in Israel remain largely unaffected. Teva continues to maintain contingency plans with backup production locations for key products. During the three and nine months ended September 30, 2024, the impact of this war on Teva's results of operations and financial condition is immaterial, but such impact may increase, which could be material, as a result of the continuation, escalation or expansion of such war. Teva's results of operations for the three and nine months ended September 30, 2024 are not necessarily indicative of results that could be expected for the entire fiscal year. Certain amounts in the consolidated financial statements and associated notes may not add up due to rounding. All percentages have been calculated using unrounded amounts.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> b. </td> <td style="vertical-align:top;text-align:left;"> Significant accounting policies </td> </tr> </table> Recently adopted accounting pronouncements None. Recently issued accounting pronouncements, not yet adopted In December 2023, the FASB issued ASU 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures". This guidance is intended to enhance the transparency and decision-usefulness of income tax disclosures. The amendments in ASU 2023-09 address investor requests for enhanced income tax information primarily through changes to disclosure regarding rate reconciliation and income taxes paid both in the U.S. and in foreign jurisdictions. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 on a prospective basis, with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements disclosures.   In November 2023, the FASB issued ASU 2023-07 "Segment Reporting: Improvements to Reportable Segment Disclosures". This guidance expands public entities' segment disclosures primarily by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments are required to be applied retrospectively to all prior periods presented in an entity's financial statements. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements related disclosures. In October 2023, the FASB issued ASU 2023-06 "Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative," which incorporates certain SEC disclosure requirements into the FASB Accounting Standards Codification ("Codification"). The amendments in the ASU are expected to clarify or improve disclosure and presentation requirements of a variety of Codification topics, allow investors to more easily compare entities subject to the SEC's existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. The effective date for each amendment will be the date on which the SEC's removal of that related disclosure from Regulation S-X or Regulation S-K becomes effective, with early adoption prohibited. The amendments in this ASU should be applied prospectively. The Company does not expect ASU 2023-06 will have a material impact to its consolidated financial statements.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> c. </td> <td style="vertical-align:top;text-align:left;"> Revision of Previously Reported Consolidated Financial Statements </td> </tr> </table> In connection with the preparation of the consolidated financial statements as of and for the year ended December 31, 2023, the Company identified errors in a single contingent consideration liability and related expenses in connection with estimated future royalty payments, along with corresponding deferred tax adjustments, that aggregated into an understatement of the contingent consideration liability of approximately $132 million, of which $98 million related to 2022 and $34 million related to 2023. These errors resulted from the exclusion of royalty payments that should have been included in the fair value re-measurement calculation of the contingent consideration liability as of and for the year ended December 31, 2022, and the quarterly and year-to-date periods ended June 30, September 30 and December 31, 2022, and March 31, June 30 and September 30, 2023. These errors did not impact the Company's actual royalty payments, as well as total cash flows from operating activities, financing activities and investing activities in the periods stated above. The Company evaluated the errors, individually and in the aggregate, considering both qualitative and quantitative factors, and concluded that these errors did not have a material impact on any of the prior periods stated above. However, the aggregate amount of the prior period errors in 2022, would have been material to the consolidated financial statements for fiscal year 2023. Therefore, the Company has revised the prior periods impacted for these errors. The tables below present the impact of the revision on the line items within the Company's consolidated financial statements for the relevant periods.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;width:100%;border:0;margin:0 auto"> <tr> <td style="width:57%"></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:2%"></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="10" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;">Three months ended</td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="10" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;">Nine months ended</td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="10" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;">September 30, 2023</td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="10" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;">September 30, 2023</td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="22" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;">U.S $ in millions (except per share amounts)</td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom"> </td> <td colspan="22" style="vertical-align:bottom;text-align:center;">(Unaudited)</td> <td style="vertical-align:bottom"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align:bottom"> </td> <td colspan="2" style="vertical-align:bottom;white-space:nowrap;text-align:center;">As

The Company's most significant agreements of this nature are summarized below. mAbxience In April 2024, Teva announced it entered into a strategic licensing agreement with mAbxience for a biosimilar candidate currently in development for the treatment of multiple oncology indications. Under the terms of the licensing agreement, mAbxience will

develop and produce the biosimilar product and Teva will lead the regulatory processes and commercialization in multiple global markets, including Europe and the U.S. In September 2024, Teva and mAbxience entered into an amendment to the licensing agreement whereby, similar to the initial licensing agreement, mAbxience will lead the development and production of an anti-PD-1 oncology biosimilar candidate and Teva will manage regulatory approvals and oversee commercialization in the designated markets. Under the initial agreement, in the second quarter of 2024, Teva paid mAbxience upfront and milestone payments in a total amount of $20 million, which were recorded as R&D expenses. Pursuant to the amendment of the licensing agreement, in the third quarter of 2024 Teva recognized upfront and milestone payments in a total amount of $15 million as R&D expenses, of which $5 million were paid in October 2024, and the remaining is due by the end of 2024. mAbxience may be eligible for additional future development, regulatory and commercial milestone payments, in an aggregate amount of up to $320 million. Launch Therapeutics and Abingworth On March 28, 2024, Teva and Launch Therapeutics, Inc. (“Launch Therapeutics”) entered into a clinical collaboration agreement to further accelerate the clinical research program of Teva’s ICS-SABA (TEV-‘248). As part of this clinical collaboration agreement Teva also entered into a development funding agreement with funds affiliated with Abingworth LLP (“Abingworth”). Under the clinical collaboration agreement, Launch Therapeutics, a clinical development company backed by Abingworth and Carlyle, the global investment firm, will have the lead role in the operational execution and management of the planned clinical trials. Teva will retain primary responsibility for manufacturing, regulatory interactions in the U.S., and commercialization. ICS-SABA (TEV-‘248) is currently in Phase 3 for the treatment of asthma symptoms addressing both immediate symptoms and long-term inflammation. Under the development funding agreement, Abingworth will provide Teva up to $150 million to fund ongoing development costs for ICS-SABA (TEV-‘248). In exchange and subject to regulatory approval, Teva will pay Abingworth a milestone payment in the amount actually funded by Abingworth up to $150 million, as well as success payments based on ICS-SABA (TEV-‘248) sales. During the third quarter of 2024, Teva recorded $20 million as reimbursement for R&D expenses incurred in connection with this agreement. Biolojic Design On November 26, 2023, Teva entered into a license agreement with Biolojic Design Ltd. (“Biolojic”), pursuant to which Teva received exclusive rights to develop, manufacture and globally commercialize a BD9 multibody for the potential treatment of Atopic Dermatitis and Asthma. In exchange, Teva paid an upfront payment in an amount of $10 million in January 2024, which was recorded as an R&D expense in the fourth quarter of 2023. Biolojic may be eligible to receive additional development and commercial milestone payments of up to approximately $500 million, over the next several years, based on the achievement of certain pre-clinical, clinical and regulatory milestones, with the majority of the payments based on future sales achievements. Royalty Pharma On November 9, 2023, Teva entered into a funding agreement with Royalty Pharma plc. (“Royalty Pharma”) to further accelerate the clinical research program for Teva’s olanzapine LAI (TEV-‘749). Under the terms of the funding agreement, Royalty Pharma will provide Teva up to $100 million to fund ongoing development costs for olanzapine LAI (TEV-‘749), with an option to increase the total funding amount to $125 million, which expired in the second quarter of 2024. In exchange and subject to regulatory approval, Teva will pay Royalty Pharma a milestone payment in the amount actually funded by Royalty Pharma, paid over 5 years, in addition to royalties upon commercialization. Teva will continue to lead the development and commercialization of the product globally. During the fourth quarter of 2023, and the first, second and third quarters of 2024, Teva recorded $35 million, $27 million, $19 million and $18 million respectively, as reimbursement for R&D expenses <div style="display:inline;"></div><div style="display:inline;"><div style="font-family: "Times New Roman"; font-size: 10pt; letter-spacing: 0px; top: 0px;display:inline;">incurred in connection with this agreement, which collectively amounted to the total funding Royalty Pharma was to provide Teva of<div style="display:inline;"> </div></div></div><div style="font-size: 10pt;display:inline;">$ 100 million. Olanzapine LAI (TEV-‘749) is currently in Phase 3 for the treatment of schizophrenia (see also MedinCell transaction below).   Sanofi On October 3, 2023, Teva entered into an exclusive collaboration with Sanofi to co-develop and co- commercialize Teva’s duvakitug (anti-TL1A, TEV-‘574) asset, a novel anti-TL1A therapy for the treatment of ulcerative colitis and Crohn’s disease, two types of inflammatory bowel disease, which is currently in Phase 2b clinical trials. Under the terms of the collaboration agreement, in partial consideration of the licenses granted to Sanofi, Teva received an upfront payment of $500 million in the fourth quarter of 2023, recognized as revenue. Additionally, Teva may receive up to $1 billion in development and launch milestones. Each company will equally share the remaining development costs globally and net profits and losses in major markets, with other markets subject to a royalty arrangement, and Sanofi will lead the development of the Phase 3 program. Teva will lead commercialization of the product in Europe, Israel and specified other countries, and Sanofi will lead commercialization in North America, Japan, other parts of Asia and the rest of the world. MODAG In October 2021, Teva announced a license agreement with MODAG GmbH (“Modag”) providing Teva with an exclusive global license to develop, manufacture and commercialize Modag’s lead compound, emrusolmin (TEV-‘286) and a related compound (TEV-‘287). Emrusolmin (TEV-‘286) was initially developed for the treatment of Multiple System Atrophy (“MSA”) and Parkinson’s disease, and has the potential to be applied to other treatments for neurodegenerative disorders, such as Alzheimer’s disease. Teva has initiated a Phase 2 clinical trial. In the fourth quarter of 2021, Teva made an upfront payment of $10 million to Modag, recorded as an R&D expense. Modag may be eligible for additional future development milestone payments, in an aggregate amount of up to $30 million, as well as future commercial milestones and royalties. Alvotech In August 2020, Teva entered into an agreement with biopharmaceutical company Alvotech for the exclusive commercialization in the U.S. of five biosimilar product candidates. The initial pipeline for this collaboration contained biosimilar candidates addressing multiple therapeutic areas, including proposed biosimilars to Humira ® (adalimumab) and Stelara ® (ustekinumab). Under the terms of the agreement, Alvotech is responsible for the development, registration and supply of the biosimilar product candidates and Teva will exclusively commercialize the products in the U.S. In July 2023, Alvotech and Teva amended their collaboration agreement, adding two new biosimilar candidates as well as line extensions of two current biosimilar candidates to their partnership. Teva made upfront and milestone payments in an aggregate amount of $78 million in 2020, 2021 and 2023. Teva made additional milestone payments of $27 million in the second quarter of 2024 and $19 million in the third quarter of 2024. Additional development and commercial milestone payments of up to approximately $380 million, in addition to royalty and milestone payments related to the amendment of the collaboration agreement entered into in July 2023, may be payable by Teva over the next few years. Teva and Alvotech will share revenue from the commercialization of these biosimilars. The amendment of the collaboration agreement entered into in July 2023 includes increased involvement by Teva regarding manufacturing and quality at Alvotech’s manufacturing facility. Additionally, pursuant to the amendment, on September 29, 2023, Teva purchased $40 million of subordinated convertible bonds of Alvotech. On June 26, 2024, Alvotech announced its intention to exercise its redemption rights and redeemed the convertible bonds for $44 million, including accrued interest, which were paid to Teva in July 2024. On February 24, 2024, Alvotech and Teva announced that the FDA approved SIMLANDI ® (adalimumab-ryvk) injection, as an interchangeable biosimilar to Humira ® , for the treatment of adult rheumatoid arthritis, juvenile idiopathic arthritis, adult psoriatic arthritis, adult ankylosing spondylitis, Crohn’s disease, adult ulcerative colitis, adult plaque psoriasis, adult hidradenitis suppurativa and adult uveitis. On April 17, 2024, Alvotech and Teva amended their collaboration agreement to enable the purchase by Quallent of a private label adalimumab-ryvk injection from Alvotech for the U.S. market, with Alvotech sharing profits with Teva on the private label sales. On May 20, 2024, Alvotech and Teva announced that SIMLANDI is available in the United States.   With respect to the proposed biosimilar to Stelara ® , on June 12, 2023, Alvotech and Teva reached a settlement and license agreement with Johnson & Johnson, granting a licensed entry date in the U.S. no later than February 21, 2025. On April 16, 2024, Alvotech and Teva announced that the FDA approved SELARSDI TM (ustekinumab-aekn) injection for subcutaneous use, as a biosimilar to Stelara ® , for the treatment of moderate to severe plaque psoriasis and for active psoriatic arthritis in adults and pediatric patients six years and older, and on October 22, 2024, announced that the FDA approved SELARSDI in a new presentation, 130 mg/26 mL (5 mg/mL) solution in a single-dose vial for intravenous infusion, expanding its label to include treatment of adults with Crohn’s disease and ulcerative colitis. Takeda In December 2016, Teva entered into a license agreement with a subsidiary of Takeda Pharmaceutical Company Ltd. (“Takeda”), for the research, development, manufacture and commercialization of ATTENUKINE TM technology. Teva received a $30 million upfront payment and a milestone payment of $20 million in 2017. During the second quarter of 2022, Takeda initiated its Phase 2 study of modakafusp alfa (formerly TAK-573 or TEV-‘573) and as a result paid Teva a milestone payment of $25 million, which was recognized as revenue in the second quarter of 2022. In April 2024, Takeda informed Teva of its intent to terminate the agreement with respect to such product candidate, which product rights will revert back to Teva in early 2025. Takeda continues to have rights under the license agreement with respect to other product candidates. MedinCell In November 2013, Teva entered into an agreement with MedinCell for the development and commercialization of multiple long-acting injectable (“LAI”) products. Teva leads the clinical development and regulatory process and is responsible for the commercialization of these products. The lead product is risperidone LAI (formerly known as TV-46000). On April 28, 2023, the FDA approved UZEDY ® (risperidone) extended-release injectable suspension for the treatment of schizophrenia in adults, which was launched in the U.S. in May 2023. MedinCell may be eligible for future sales-based milestones of up to $105 million with respect to UZEDY. Teva also pays MedinCell royalties on net sales. The second selected product candidate is olanzapine LAI (TEV-‘749) for the treatment of schizophrenia. In the third quarter of 2022, Teva decided to progress development of the product to Phase 3 and, as a result, paid a $3 million milestone payment to MedinCell, which was recognized as R&D expenses. On May 8, 2024, Teva and MedinCell announced positive phase 3 efficacy results from a trial evaluating olanzapine LAI as a once-

monthly subcutaneous long-acting injectable in adults with schizophrenia. Additional safety and efficacy results are planned in the first half of 2025. MedinCell may become eligible for further development and commercial milestones of up to $108 million, as well as royalties on sales of olanzapine LAI (TEV-'749). Assets and Liabilities Held for Sale: General Assets and liabilities held for sale as of September 30, 2024 and December 31, 2023, included certain businesses in Teva's International Markets segment that are expected to be sold within the next year, mainly the business venture in Japan. In connection with the held for sale classification, in the first quarter of 2024, Teva recorded expenses of $577 million due to an expected loss upon sale, including $369 million of expected loss from reclassification of currency translation adjustments to the statements of income upon sale, in other assets impairments, restructuring and other items. In the second quarter of 2024, Teva recorded an additional expense of $67 million related to the expected loss from reclassification of currency translation adjustments referred to above. In the third quarter of 2024, Teva recorded a favorable adjustment of $83 million, primarily related to the change in expected loss from reclassification of currency translation adjustments referred to above. See note 12.   The table below summarizes all of Teva's assets and liabilities included as held for sale as of September 30, 2024 and December 31, 2023:   <table cellpadding="0" cellspacing="0" style="text-align:start; Product rights and trade names represent a portfolio of pharmaceutical products in various therapeutic categories from various acquisitions with a weighted average life period of approximately 9 years. Amortization of intangible assets was $146 million and $145 million in the three months ended September 30, 2024 and 2023, respectively. Amortization of intangible assets was $444 million and $471 million in the nine months ended September 30, 2024 and 2023, respectively. IPR&D Teva's IPR&D are assets that have not yet been approved in its major markets. IPR&D carries intrinsic risks that the asset might not succeed in advanced phases and may be impaired in future periods. Intangible assets impairments Impairments of long-lived intangible assets for the three months ended September 30, 2024 and 2023 were $28 million and $47 million, respectively. Impairments in the third quarter of 2024 consisted of: Identifiable product rights of $28 million, mainly due to updated market assumptions regarding price and volume of products mainly in the U.S. <div

 <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(1)</td> <td style="vertical-align:top;text-align:left;"> Cumulative goodwill impairment as of September 30, 2024 and December 31, 2023 was approximately $29.3 billion and $28.3 billion, respectively. </td></tr></table> Teva operates its business through three reporting segments: United States, Europe and International Markets. Each of these business segments is a reporting unit. Additional reporting units include Teva's production and sale of APIs to third parties ("Teva API") and an out-licensing platform offering a portfolio of products to other pharmaceutical companies through its affiliate Medis. Teva's API and Medis reporting units are included under "Other" in the table above. See note 15 for additional segment information. Teva determines the fair value of its reporting units using the income approach. The income approach is a forward-looking approach for estimating fair value. Within the income approach, the method used is the discounted cash flow method. Teva begins with a forecast of all the expected net cash flows associated with the reporting unit, which includes the application of a terminal value, and then applies a discount rate to arrive at a net present value amount. Cash flow projections are based on Teva's estimates of revenue growth rates and operating margins, taking into consideration industry and market conditions. The discount rate used is based on the weighted average cost of capital ("WACC"), adjusted for the relevant risk associated with country-specific and business-specific characteristics. If any of these expectations were to vary materially from Teva's assumptions, Teva may record an impairment of goodwill allocated to these reporting units in the future. First Quarter Developments As further discussed in note 15, as of January 1, 2024, Canada is reported as part of Teva's International Markets segment and not as part of Teva's North America segment, which has been renamed as Teva's United States segment. As a result, Teva aligned its segment reporting and its reporting units in accordance with this change, and reallocated its goodwill to the adjusted reporting units using a relative fair value allocation. In conjunction with the goodwill reallocation, Teva performed a goodwill impairment test for the balances in its adjusted United States and International Markets reporting units and concluded that the fair value of each reporting unit was in excess of its carrying value. During the first quarter of 2024, management evaluated whether there were any developments that occurred during the quarter to determine if it was more likely than not that the fair value of any of its reporting units was below its carrying amount as of March 31, 2024. Management concluded that no triggering event had occurred and, therefore, no quantitative assessment was performed. Second Quarter Developments During the second quarter of 2024, Teva completed its long-range planning ("LRP") process. The LRP is part of Teva's internal financial planning and budgeting processes and is discussed and reviewed by Teva's management and its board of directors.   Additionally, Teva conducted a quantitative analysis of all reporting units as part of its annual goodwill impairment test with the assistance of an independent valuation expert. As disclosed in prior periods, the excess of the estimated fair value of Teva's API reporting unit over its estimated carrying amount was negligible as of December 31, 2023 and March 31, 2024. The updated quantitative analysis performed in the second quarter of 2024, which was based on the aforementioned LRP process and Teva's Pivot to Growth strategy assumptions, resulted in a recognition of a goodwill impairment charge of $400 million related to Teva's API reporting unit. Following the goodwill impairment charges recorded in relation to Teva's API reporting unit, the carrying values of this reporting unit equaled its fair value as of June 30, 2024. Therefore, if business conditions or expectations were to change materially, it may be necessary to record further impairment charges to Teva's API reporting unit in the future (see "Third Quarter Developments" below). Teva's United States, Europe, International Markets and Medis reporting units had fair values in excess of 10% over their book values as of June 30, 2024. In the second quarter of 2023, Teva recorded a goodwill impairment charge of $700 million related to its International Markets reporting unit, mainly due to an increase in the discount rate due to higher risk associated with country-specific characteristics of several countries. Third Quarter Developments During the third quarter of 2024, management evaluated whether there were any developments that occurred during the quarter to determine if it was more likely than not that the fair value of any of its reporting units was below its carrying amount as of September 30, 2024. As part of this evaluation, management noted a triggering event related to Teva's API reporting unit, which resulted from updated assumptions in connection with Teva's intention to divest its API business through a sale. Teva performed a quantitative assessment in the third quarter of 2024, which resulted in the recording of a goodwill impairment charge of $600 million related to Teva's API reporting unit. Following this goodwill impairment charge, the carrying value of Teva's API reporting unit equaled its fair value as of September 30, 2024. Therefore, if business conditions or expectations, including related to Teva's intention to divest its API business, were to change materially, it may be necessary to record further impairment charges to Teva's API reporting unit in the future. With respect to the remaining reporting units, management concluded that it was not more likely than not that the fair value of any of the reporting units was below its carrying amounts as of September 30, 2024 and, therefore, no quantitative assessment was performed. Changes in the carrying amount of goodwill for the period ended September 30, 2024 were as follows:

See note 8c. </td> </tr> </table> Long-term debt was issued by several indirect wholly-owned subsidiaries of the Company and is fully and unconditionally guaranteed by the Company as to payment of all principal, interest, discount and additional amounts, if any. The long-term debt outlined in the above table is generally redeemable at any time at varying redemption prices plus accrued and unpaid interest.   <div style="margin-top:0pt; margin-bottom:0pt; font-size:10pt; font-

family:Times New Roman;text-align:center"> Teva's debt as of September 30, 2024 was effectively denominated in the following currencies: 58% in U.S. dollars, 40% in euro and 2% in Swiss franc. Teva's principal sources of short-term liquidity are its cash on hand, existing cash investments, liquid securities and available credit facilities, primarily its $1.8 billion unsecured syndicated sustainability-linked revolving credit facility entered into in April 2022, as amended on February 6, 2023 and on May 3, 2024 ("RCF"). The RCF had an initial maturity date of April 2026 with two one-year extension options. In April 2024, an extension option was exercised and the RCF maturity date was extended to April 2027. The RCF contains certain covenants, including certain limitations on incurring liens and indebtedness and maintenance of certain financial ratios, including a maximum leverage ratio, which becomes more restrictive over time. On May 3, 2024, the terms of the RCF were amended to update the Company's maximum permitted leverage ratio under the RCF for certain periods. Under the terms of the RCF, as amended, the Company's leverage ratio shall not exceed (i) 4.00x in 2024, 2025 and in the first quarter of 2026, (ii) 3.75x in the second, third and fourth quarters of 2026 and (iii) 3.50x in the first quarter of 2027 and onwards. The RCF permits the Company to increase the maximum leverage ratio if it consummates or commences certain material transactions. Under the RCF, as amended, the applicable margin used to calculate the interest rate under the RCF is linked to one sustainability performance target, the number of new regulatory submissions in low and middle-income countries. Proceeds from borrowings under the RCF can be used for general corporate purposes, including repaying existing debt. As of September 30, 2024 , and as of the date of this Quarterly Report on Form 10-Q, no amounts were outstanding under the RCF. Based on current and forecasted results, the Company expects that it will not exceed the financial covenant thresholds set forth in the RCF within one year from the date the financial statements are issued. Under specified circumstances, including non-compliance with any of the covenants described above and the unavailability of any waiver, amendment or other modification thereto, the Company will not be able to borrow under the RCF. Additionally, violations of the covenants, under the circumstances referred to above, would result in an event of default in all borrowings under the RCF and, when greater than a specified threshold amount as set forth in each series of senior notes and sustainability-linked senior notes is outstanding, could lead to an event of default under the Company's senior notes and sustainability-linked senior notes due to cross-acceleration provisions. Teva expects that it will continue to have sufficient cash resources to support its debt service payments and all other financial obligations within one year from the date that the financial statements are issued. <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left,"> a. </td> <td style="vertical-align:top;text-align:left,"> Short-term debt: </td></tr></table>   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:8pt;width:92%;border:0;margin:0 auto"> <tr> <td style="width:54%"></td> <td style="vertical-align:bottom;width:8%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:7%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:8%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:8%"></td> <td></td> <td></td> <td></td> <td></td></tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td rowspan="2" style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" rowspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Interest rate as of

 <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(1)</td> <td style="vertical-align:top;text-align:left;"> On March 31, 2023, Teva entered into a cross-currency interest rate swap agreement, designated as cash flow hedge for accounting purposes with respect to an intercompany loan due October 2026, denominated in Japanese yen. The agreement was terminated in the first quarter of 2024 and resulted in cash proceeds of $16 million. </td></tr></table> <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(2)</td> <td style="vertical-align:top;text-align:left;"> Teva uses foreign exchange contracts (mainly option and forward contracts) to hedge balance sheet items from currency exposure. These foreign exchange contracts are not designated as hedging instruments for accounting purposes. In connection with these foreign exchange contracts, Teva recognizes gains or losses that offset the revaluation of the balance sheet items also recorded under financial expenses, net. </td></tr></table> <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(3)</td> <td style="vertical-align:top;text-align:left;"> Teva entered into option and forward contracts designed to limit the exposure of foreign exchange fluctuations on projected revenues and expenses recorded in euro, Swiss franc, Japanese yen, British pound, Russian ruble, Canadian dollar, Polish zloty and some other currencies to protect its projected operating results for 2024. These derivative instruments do not meet the criteria for hedge accounting, however, they are accounted for as an economic hedge. These derivative instruments, which may include hedging transactions against future projected revenues and expenses, are recognized on the balance sheet at their fair value on a quarterly basis, while the foreign exchange impact on the underlying revenues and expenses may occur in subsequent quarters. In the three months ended September 30, 2024, the negative impact from these derivatives recognized under revenues was $9 million. In the nine months ended September 30, 2024, the positive impact from these derivatives recognized under revenues was $1 million. In the three months ended September 30, 2023, the positive impact from these derivatives recognized under revenues was $22 million. In the nine months ended September 30, 2023, the positive impact from these derivatives recognized under revenues was $20 million. Changes in the fair value of the derivative instruments are recognized in the same line item in the statements of income as the underlying exposure being hedged. Cash flows associated with these derivatives are reflected as cash flows from operating activities in the consolidated statements of cash flows. </td></tr></table>   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> e. </td> <td style="vertical-align:top;text-align:left;"> Amortizations due to terminated derivative instruments: </td></tr></table> Forward-starting interest rate swaps and treasury lock agreements In 2015, Teva entered into forward-starting interest rate swaps and treasury lock agreements to protect the Company from interest rate fluctuations in connection with a future debt issuance the Company was planning. These forward-starting interest rate swaps and treasury lock agreements were terminated in July 2016 upon the debt issuance. Termination of these transactions resulted in a loss position of $493 million, which was recorded as other comprehensive income (loss) and is amortized under financial expenses, net over the life of the debt. With respect to these forward-starting interest rate swaps and treasury lock agreements, losses of $7 million were recognized under financial expenses, net, for each of the three months ended September 30, 2024 and 2023, and losses of $21 million and $25 million were recognized under financial expenses, net for each of the nine months ended September 30, 2024 and 2023, respectively.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> f. </td> <td style="vertical-align:top;text-align:left;"> Securitization: </td></tr></table> U.S. securitization program On November 7, 2022, Teva and a bankruptcy-remote special purpose vehicle ("SPV") entered into an accounts receivable securitization facility ("AR Facility") with PNC Bank, National Association ("PNC") with a three-year term. The AR Facility provided for purchases of accounts receivable by PNC in an amount of up to $1 billion through November 2023, and up to $500 million from November 2023 through November 2025. On June 30, 2023, the AR Facility agreement was amended to include an additional receivables purchaser under the agreement, in an amount of up to $250 million through November 2025. As a result, the total commitment of PNC was reduced to an amount of up to $750 million, effective June 30, 2023. Under the terms of the AR facility agreement, in November 2023, the total commitment of PNC was further reduced to an amount of up to $500 million through November 2025. On November 7, 2023, the SPV amended the agreement and increased the commitment amount to a maximum of $1 billion by including an additional receivables purchaser in an amount of up to $250 million through March 2024, which was then reduced by $125 million through November 2025. As a result, the commitment amount was reduced to a maximum of $875 million without any additional purchasers participating in the AR facility. On October 29, 2024, the SPV amended the agreement and increased the commitment amount to a maximum amount of $ 950 million by an existing receivables purchaser increasing its commitment by $ 75 million.   <div style="font-

weight:bold;display:inline;">Pledged accounts receivables In connection with the U.S. securitization program, accounts receivables, net of allowance for credit losses, include $934 million and $437 million as of September 30, 2024 and December 31, 2023, respectively, which are pledged by the SPV to PNC.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> g. </td> <td style="vertical-align:top;text-align:left;"> Supplier Finance Program Obligation </td></tr></table> Teva maintains supply chain finance agreements with participating financial institutions. Under these agreements, participating suppliers may voluntarily elect to sell their accounts receivable with Teva to these financial institutions. Teva's suppliers negotiate their financing agreements directly with the respective financial institutions and Teva is not a party to these agreements. Teva has no economic interest in its suppliers' decisions to participate in the program and Teva pays the financial institutions the stated amount of confirmed invoices on the maturity dates, which is generally within 120 days from the date the invoice was received. The agreements with the financial institutions do not require Teva to provide assets pledged as security or other forms of guarantees for the supplier finance program. All outstanding amounts related to suppliers participating in the supplier finance program are recorded under accounts payables in Teva's consolidated balance sheets. As of September 30, 2024 and December 31, 2023, respectively, $163 million and $108 million of accounts payables to suppliers participating in these supplier finance programs were outstanding. 0.47 The following table summarizes the notional amounts for hedged items, when transactions are designated as hedge accounting: <table cellpadding="0" cellspacing="0" style="text-align:start; align:bottom;text-align:right;">(1</td> <td style="white-space:nowrap;vertical-align:bottom">) </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">(20</td> <td style="white-space:nowrap;vertical-align:bottom">) </td></tr></table>2720000002800000004332000000-38500000004000000400000000009000000-22000000763000000880000000-12315000000-11389000000-33000000-46000000000-10000002000000016000000900000010000002200000020000000493000000700000007000000210000002500000P3Y1000000000500000000250000000750000000500000000100000

* NOTE 9 – Legal settlements and loss contingencies: In the third quarter of 2024, Teva recorded expenses of $450 million in legal settlements and loss contingencies, compared to expenses of $314 million in the third quarter of 2023. Expenses in the third quarter of 2024 were mainly related to a decision by the European Commission in its antitrust investigation into COPAXONE ® , and an update to the estimated settlement provision for the opioid cases (mainly related to the settlement agreement with the city of Baltimore and the effect of the passage of time on the net present value of the discounted payments). Expenses in the third quarter of 2023 were mainly related to an update to the provision for the DOJ patient assistance program litigation, as well as an update to the estimated settlement provision of the opioid cases (mainly the effect of the passage of time on the net present value of the discounted payments). See note 10. In the first nine months of 2024, Teva recorded expenses of $638 million in legal settlements and loss contingencies, compared to $1,009 million in the first nine months of 2023. Expenses in the first nine months of 2024 were mainly related to a decision by the European Commission in its antitrust investigation into COPAXONE, and an update to the estimated settlement provision for the opioid cases (mainly the effect of the passage of time on the net present value of the discounted payments and the settlement agreement with the city of Baltimore). Expenses in the first nine months of 2023 were mainly related to an estimated provision for the DOJ patient assistance program litigation, an update to the estimated settlement provision of the opioid cases, the provision for the settlement of the U.S. DOJ criminal antitrust charges on the marketing and pricing of certain Teva USA generic products, as well as the provision for the settlement of the reverse-payment antitrust litigation over certain HIV medicines. As of September 30, 2024 and December 31, 2023, Teva's provision for legal settlements and loss contingencies recorded under accrued expenses and other taxes and long-term liabilities was $4,915 million and $4,771 million, respectively. *

4500000003140000006380000001009000000491500000047710000000 NOTE 10 – Commitments and contingencies: General From time to time, Teva and/or its subsidiaries are subject to claims for damages and/or equitable relief arising in the ordinary course of business. In addition, as described below, in large part as a result of the nature of its business, Teva is frequently subject to litigation. Teva generally believes that it has meritorious defenses to the actions brought against it and vigorously pursues the defense or settlement of each such action. Teva records a provision in its consolidated financial statements to the extent that it concludes that a contingent liability is probable and the amount thereof is reasonably estimable. Based upon the status of the cases described below, management's assessments of the likelihood of damages, and the advice of legal counsel, no material provisions have been made regarding the matters disclosed in this note, except as noted below. Litigation outcomes and contingencies are unpredictable, and substantial damages or other relief may be awarded. Accordingly, management's assessments involve complex judgments about future events and often rely heavily on estimates and assumptions. Teva continuously reviews the matters described below and may, from time to time, remove previously disclosed matters where the exposures were fully resolved in the prior year, or determined to no longer meet the materiality threshold for disclosure, or were substantially resolved.   If one or more of such proceedings described below were to result in final judgments against Teva, such judgments could be material to its results of operations and cash flows in a given period. In addition, Teva incurs significant legal fees and related expenses in the course of defending its positions even if the facts and circumstances of a particular litigation do not give rise to a provision in the consolidated financial statements. In connection with third-party agreements, Teva may under certain circumstances be required to indemnify, and may be indemnified by, in unspecified amounts, the parties to such agreements against third-party claims. Among other things, Teva's agreements with third parties may require Teva to indemnify them, or require them to indemnify Teva, for the costs and damages incurred in connection with product liability claims, in specified or unspecified amounts. Except as otherwise noted, all of the litigation matters disclosed below involve claims arising in the United States. Except as otherwise noted, all third-party sales figures given below are based on IQVIA data. Intellectual Property Litigation From time to time, Teva seeks to develop generic and biosimilar versions of patent-protected pharmaceuticals and biopharmaceuticals for sale prior to patent expiration in various markets. In the United States, to obtain approval for most generics prior to the expiration of the originator's patents, Teva must challenge the patents under the procedures set forth in the Hatch-Waxman Act of 1984, as amended. For many biosimilar products that are covered by patents, Teva participates in the "patent dance" procedures of the Biologics Price Competition and Innovation Act ("BPCIA"), which allow for the challenge to originator patents prior to obtaining biosimilar product approval. To the extent that Teva seeks to utilize such patent challenge procedures, Teva is and expects to be involved in patent litigation regarding the validity, enforceability or infringement of the originator's patents. Teva may also be involved in patent litigation involving the extent to which its product or manufacturing process techniques may infringe other originator or third-party patents. Additionally, depending upon a complex analysis of a variety of legal and commercial factors, Teva may, in certain circumstances, elect to market a generic or biosimilar version of the product even though litigation is still pending. To the extent Teva elects to proceed in this manner, it could face substantial liability for patent infringement if the final court decision is adverse to Teva, which could be material to its results of operations and cash flows in a given period. Teva could also be sued for patent infringement outside of the context of the Hatch-Waxman Act or BPCIA. For example, Teva could be sued for patent infringement after commencing sales of a product. This type of litigation can involve any of Teva's pharmaceutical products, not just its generic and biosimilar products. The general rule for damages in patent infringement cases in the United States is that the patentee should be compensated by no less than a reasonable royalty and it may also be able, in certain circumstances, to be compensated for its lost profits. The amount of a reasonable royalty award would generally be calculated based on the sales of Teva's product. The amount of lost profits would generally be based on the lost sales of the patentee's product. In addition, the patentee may seek consequential damages as well as enhanced damages of up to three times the profits lost by the patent holder for willful infringement, although courts have typically awarded much lower multiples. Teva is also involved in litigation regarding patents in other countries where it does business, particularly in Europe. The laws concerning generic pharmaceuticals and patents differ from country to country. Damages for patent infringement in Europe may include lost profits or a reasonable royalty, but enhanced damages for willful infringement are generally not available. In July 2014, GlaxoSmithKline ("GSK") filed claims against Teva in the U.S. District Court for the District of Delaware for infringement of a patent directed to using carvedilol in a specified manner to decrease the risk of mortality in patients with congestive heart failure. Teva began selling its carvedilol tablets (the generic version of GSK's Coreg ®) in September 2007. A jury returned a verdict in GSK's favor, which was initially overturned by the U.S. District Court. The Court of Appeals for the Federal Circuit reinstated the $235.5 million jury verdict, not including pre- or post-judgment interest, finding Teva liable for patent infringement. The U.S. Supreme Court denied Teva's appeal for a rehearing. The case has been remanded to the district court for further proceedings on Teva's other legal and equitable defenses that have not yet been considered by the district court. Teva recognized a provision based on its offer to settle the matter.   In January 2021, Teva initiated a patent invalidity action against the compound patent and Supplementary Protection Certificate ("SPC") asserted to cover Bristol-Myers Squibb Company's ("BMS") Eliquis ® (apixaban). In May 2022, the U.K. High Court held that the compound patent and SPC are invalid and Teva began selling its generic version of Eliquis ® (apixaban). In May 2023, the U.K. Court of Appeal upheld this decision and denied BMS's request to appeal to the U.K. Supreme Court. On October 31, 2023, the U.K. Supreme Court denied BMS's application for further review, making the decision to revoke the compound patent and SPC final. Separately, in February 2021, Teva initiated a patent invalidity action against the formulation patents, which are also under opposition at the European Patent Office ("EPO"). On July 15, 2022, the U.K. High Court held that these formulation patents were invalid but granted permission to appeal, which was subsequently stayed pending the outcome of the opposition at the EPO to one of the formulation patents. On December 21, 2023, the EPO's Technical Board of Appeal held its hearing on the opposition, and on March 13, 2024, it issued a written decision revoking the patent. On May 13, 2024, BMS filed a submission to the Enlarged Board of Appeal seeking its permission to review the Technical Board of Appeal's decision, a hearing for which is scheduled for December 3, 2024. Product Liability Litigation Teva's business inherently exposes it to potential product liability claims. Teva maintains a program of insurance, which may include commercial insurance, self-insurance (including direct risk retention), or a combination of both types of insurance, in amounts and on terms that it believes are reasonable and prudent in light of its business and related risks. However, Teva sells, and will continue to sell, pharmaceuticals that are not covered by its product liability insurance; in addition, it may be subject to claims for which insurance coverage is denied, as well as claims that exceed its policy limits. Product liability coverage for pharmaceutical companies is becoming more expensive and increasingly difficult to obtain. As a result, Teva may not be able to obtain the type and amount of insurance it desires, or any insurance on reasonable terms, in certain or all of its markets. Teva and its subsidiaries are parties to litigation relating to previously unknown nitrosamine impurities discovered in certain products. The discovery led to a global recall of single and combination valsartan medicines around the world starting in July 2018 and to subsequent recalls on other products. The nitrosamine impurities in valsartan were allegedly found in the active pharmaceutical ingredient ("API") supplied to Teva by multiple API manufacturers, including by Zhejiang Huahai Pharmaceuticals Co. Ltd. Since July 2018, Teva has been actively engaged with global regulatory authorities in reviewing its sartan and other products to determine whether NDMA and/or other related nitrosamine impurities are present in specific products. Where necessary, Teva has initiated additional voluntary recalls. Multiple lawsuits have been filed in connection with this matter. Teva's products allegedly at issue in the various nitrosamine-related litigations pending in the United States include valsartan, losartan, metformin and ranitidine. There are currently two Multi-District Litigations ("MDL") pending against Teva and other manufacturers, including one MDL in the U.S. District Court for the District of New Jersey related to, with respect to Teva, valsartan and losartan, and another MDL in the U.S. District Court for the Southern District of Florida related to ranitidine. The claims against Teva in these MDLs include individual personal injury and/or product liability claims, economic damages claims brought by consumers and end payors as putative class actions, and medical monitoring class claims. The district court in the valsartan MDL certified a series of subclasses on plaintiffs' economic loss claims as well as a medical monitoring class and originally scheduled the first trial to commence in the fourth quarter of 2024, but that trial has been postponed indefinitely by the court. Discovery is ongoing in the MDL with respect to the losartan claims against Teva. The claims against Teva and other generic manufacturers in the ranitidine MDL have been dismissed on preemption grounds but are subject to appeal. The district court in the ranitidine MDL also excluded all of plaintiffs' general causation experts and granted summary judgment to the brand defendants on preemption grounds and later applied that general causation ruling to all defendants. This ruling is on appeal in the Eleventh Circuit Court of Appeals. Certain generic manufacturers, including Teva, have also been named in state court actions asserting allegations similar to those in the aforementioned MDLs. In particular, state court valsartan and losartan actions are pending but currently stayed in New Jersey and Delaware, with the exception of a single-plaintiff case that was later refiled in a New Jersey state court in October 2022 and is in the very initial stages of discovery. State court ranitidine cases naming Teva are also pending in

*coordinated proceedings in California and Pennsylvania. Teva was dismissed from all ranitidine claims pending in Illinois based on preemption grounds, which plaintiffs have appealed for final judgments as to all remaining defendants. Teva was also dismissed on preliminary objections in Pennsylvania for plaintiffs whose cases are governed by Pennsylvania law, but further motion practice may continue. The litigation in Pennsylvania has effectively been stayed pending a decision on a motion filed by plaintiffs to recuse the presiding judge which was denied but certified for interlocutory appeal.   In addition to the valsartan and ranitidine MDLs and coordinated state court proceedings, Teva has been named in a consolidated proceeding pending in the U.S. District Court for the District of New Jersey brought by individuals and end payors seeking economic damages on behalf of purported classes of consumers and end payors who purchased Teva's and other generic manufacturers' metformin products. The parties are now engaged in discovery related to the surviving metformin claims. Teva was recently named in a related proceeding pending in the same district brought by end payors also seeking economic damages on behalf of a purported class of end payors who purchased Teva's and other generic manufacturers' metformin products. This action was consolidated with the original proceeding for discovery and pretrial purposes only. Teva, along with the other defendants, have moved to dismiss the claims in this newly consolidated proceeding. Similar lawsuits are pending in Canada and Germany. Competition Matters As part of its generic pharmaceuticals business, Teva has challenged a number of patents covering branded pharmaceuticals, some of which are among the most widely-prescribed and well-known drugs on the market. Many of Teva's patent challenges have resulted in litigation relating to Teva's attempts to market generic versions of such pharmaceuticals under the federal Hatch-Waxman Act. Some of this litigation has been resolved through settlement agreements in which Teva obtained a license to market a generic version of the drug, often years before the patents expire. Teva and its subsidiaries have been named as defendants in cases that allege antitrust violations arising from such settlement agreements. The plaintiffs in these cases are usually direct and indirect purchasers of pharmaceutical products, some of whom assert claims on behalf of classes of all direct and indirect purchasers, and they typically allege that (i) Teva received something of value from the innovator in exchange for an agreement to delay generic entry, and (ii) significant savings could have been realized if there had been no settlement agreement and generic competition had commenced earlier. These plaintiffs seek various forms of injunctive and monetary relief, including damages based on the difference between the brand price and what the generic price allegedly would have been and disgorgement of profits, which are often automatically tripled under the relevant statutes, plus attorneys' fees and costs. The alleged damages generally depend on the size of the branded market and the length of the alleged delay, and can be substantial, potentially measured in multiples of the annual brand sales, particularly where the alleged delays are lengthy or branded drugs with annual sales in the billions of dollars are involved. Teva believes that its settlement agreements are lawful and serve to increase competition, and has defended them vigorously. In Teva's experience to date, these cases have typically settled for a fraction of the high end of the damages sought, although there can be no assurance that such outcomes will continue. In June 2013, the U.S. Supreme Court held, in Federal Trade Commission ("FTC") v. Actavis, Inc., that a rule of reason test should be applied in analyzing whether such settlements potentially violate the federal antitrust laws. The Supreme Court held that a trial court must analyze each agreement in its entirety in order to determine whether it violates the antitrust laws. This test has resulted in increased scrutiny of Teva's patent settlements, additional action by the FTC and state and local authorities, and an increased risk of liability in Teva's currently pending antitrust litigations. In December 2011, three groups of plaintiffs filed claims against Wyeth and Teva for alleged violations of the antitrust laws in connection with their November 2005 settlement of patent litigation involving extended-release venlafaxine (generic Effexor XR ®). The cases were filed by a purported class of direct purchasers, a purported class of indirect purchasers and certain chain pharmacies in the U.S. District Court for the District of New Jersey. The plaintiffs claim that the settlement agreement between Wyeth and Teva unlawfully delayed generic entry. On September 18, 2024, the district court lifted its stay of discovery and the case is now proceeding. On October 16, 2024, Teva and one group of plaintiffs (the "Indirect Purchaser Plaintiffs" or "IPPs") announced that they have reached an agreement in principle to resolve the IPPs' claims against Teva. The parties are in the process of documenting the proposed settlement, which will be subject to court approval. Annual sales of Effexor XR ® were approximately $2.6 billion at the time of settlement and at the time Teva launched its generic version of Effexor XR ® in July 2010.   In February 2012, two purported classes of direct-purchaser plaintiffs filed claims against GSK and Teva in the U.S. District Court for the District of New Jersey for alleged violations of the antitrust laws in connection with their February 2005 settlement of patent litigation involving lamotrigine (generic Lamictal ®). The plaintiffs claimed that the settlement agreement unlawfully delayed generic entry and sought unspecified damages. During February 2023, a number of direct purchasers who were denied class certification filed suit as individual plaintiffs, which action was transferred to the U.S. District Court for the District of New Jersey. Discovery of the newly added individual plaintiffs is ongoing. Annual sales of Lamictal ® were approximately $950 million at the time of the settlement and approximately $2.3 billion at the time Teva launched its generic version of Lamictal ® in July 2008. In April 2013, purported classes of direct purchasers of, and end payers for, Niaspan ® (extended release niacin) filed claims against Teva and Abbott for violating the antitrust laws by entering into a settlement agreement in April 2005 to resolve patent litigation over the product. A multidistrict litigation has been established in the U.S. District Court for the Eastern District of Pennsylvania. Throughout 2015 and in January 2016, several individual direct-purchaser opt-out plaintiffs filed complaints with allegations nearly identical to those of the direct purchasers' class. On April 24, 2023, the U.S. District Court's denial of the indirect purchasers' motion for class certification was affirmed by the Court of Appeals for the Third Circuit, and on June 5, 2023, the Court of Appeals denied the indirect purchasers' petition for re-hearing. In October 2016, the District Attorney for Orange County, California, filed a similar complaint in California state court, alleging violations of state law and seeking restitution and civil penalties. The California state court case is temporarily stayed. Annual sales of Niaspan ® were approximately $416 million at the time of the settlement and approximately $1.1 billion at the time Teva launched its generic version of Niaspan ® in September 2013. In August 2019, certain direct-purchaser plaintiffs filed claims in federal court in Philadelphia against Teva and its affiliates alleging that the September 2006 patent litigation settlement relating to AndroGel ® 1% (testosterone gel) between Watson, from which Teva later acquired certain assets and liabilities, and Solvay Pharmaceuticals, Inc. ("Solvay") violated antitrust laws. In September 2023, the plaintiffs voluntarily dismissed certain claims, and in September 2024, certain defendants, including the remaining Teva affiliates, and the plaintiffs agreed to settle the remaining claims. The litigation has been stayed pending finalization of the settlements. Annual sales of AndroGel ® 1% were approximately $350 million at the time of the earlier Watson/Solvay settlement and approximately $140 million at the time Actavis launched its generic version of AndroGel ® 1% in November 2015. A provision for this matter was previously included in the financial statements. Between September 1, 2020 and December 20, 2020, plaintiffs purporting to represent putative classes of direct and indirect purchasers and opt-out retailer purchasers of Bystolic ® (nebivolol hydrochloride) filed complaints in the U.S. District Court for the Southern District of New York against several generic manufacturers, including Teva, Actavis, and Watson, alleging, among other things, that the settlement agreements these generic manufacturers entered into with Forest Laboratories, Inc., the innovator, to resolve patent litigation over Bystolic ® violated the antitrust laws. The cases were coordinated, and the district court granted the defendants' motion to dismiss all claims with prejudice. The plaintiffs appealed the district court's grant of defendants' motion to dismiss, and on May 13, 2024, the U.S. Court of Appeals for the Second Circuit affirmed the district court's dismissal with prejudice and issued a mandate on June 4, 2024, formally ending the appeal. The plaintiffs' period to file a petition for a writ of certiorari to the U.S. Supreme Court expired. Annual sales of Bystolic ® in the United States were approximately $700 million at the time of Watson's 2013 settlement with Forest. In November 2020, the European Commission issued a final decision in its proceedings against both Cephalon and Teva, finding that the 2005 settlement agreement between the parties had the object and effect of hindering the entry of generic modafinil, and imposed fines totaling euro 60.5 million on Teva and Cephalon. Teva and Cephalon filed an appeal against the decision in February 2021, and a judgment was issued on October 18, 2023 rejecting Teva's grounds of appeal. A provision for this matter was included in the financial statements. Teva has provided the European Commission with a bank guarantee in the amount of the imposed fines. On January 4, 2024, Teva appealed the October 2023 judgment to the European Court of Justice. In February 2021, the State of New Mexico filed a lawsuit against Teva and certain other defendants related to various medicines used to treat HIV (the "New Mexico litigation"). Between September 2021 and April 2022, several private plaintiffs including retailers and health insurance providers filed similar claims in various courts, which were all removed and/or consolidated into the U.S. District Court for the Northern District of California (the "California litigation"). As they relate to Teva, the lawsuits challenged settlement agreements Teva entered into with Gilead in 2013 and/or 2014 to resolve patent litigation relating to Teva's generic versions of Viread ® and/or Truvada ® and Atripla ® , although plaintiffs in the California litigation abandoned any claim for damages relating to the Viread ® settlement. In May   2023, Teva and Gilead reached a settlement agreement with the retailer plaintiffs in the California litigation and Teva recognized a provision for this matter based on such settlement. On June 30, 2023, the jury in the trial against the remaining plaintiffs in the California litigation issued a verdict in favor of Teva and Gilead, rejecting all of the remaining plaintiffs' claims. On February 12, 2024, the court entered a judgment as to all claims against Teva in the California litigation and the plaintiffs have filed notices of appeal with the U.S. Court of Appeals for the Ninth Circuit, and the appeal is currently being briefed. In the New Mexico litigation, on June 27, 2024, Teva and the State of New Mexico finalized their settlement agreement, and the New Mexico court entered a consent judgment resolving the New Mexico litigation. Teva recognized a provision for the settlement with New Mexico. Annual sales in the United States at the time of the settlement of Viread ® , Truvada ® and Atripla ® were approximately $582 million, $2.4 billion, and $2.9 billion, respectively. Annual sales in the United States at the time Teva launched its generic version of Viread ® in 2017, Truvada ® in 2020 and Atripla ® in 2020 were approximately $728 million, $2.1 billion and $444 million, respectively. In March 2021, the European Commission opened a formal antitrust investigation to assess whether Teva may have abused a dominant position by delaying the market entry and uptake of medicines that compete with COPAXONE. On October 10, 2022, the European Commission issued a Statement of Objections, which sets forth its preliminary allegations that Teva had engaged in anti-competitive practices. On October 31, 2024, the European Commission announced its final decision, alleging that Teva had abused a dominant position in certain European member states by (i) filing and withdrawing certain divisional patents, and (ii) raising concerns about competitors' follow-on versions of COPAXONE. The decision, which Teva intends to appeal, also includes a fine of approximately $500 million (462.6 million euros). In accordance with Accounting Standards Codification 450 "Accounting for Contingencies," Teva recognized a provision in its financial statements in the third quarter of 2024, based on management's current best estimate of the outcome within a range of outcomes for the final resolution of this case. Teva intends to provide the European Commission a bank guarantee to cover at least a portion of the fine. *

 On June 29, 2021, Mylan Pharmaceuticals ("Mylan") filed claims against Teva in the U.S. District Court for the District of New Jersey. On March 11, 2022 and March 15, 2022, purported purchasers of COPAXONE filed claims against Teva in the U.S. District Court for the District of New Jersey on behalf of themselves and similarly situated direct and indirect purchasers of COPAXONE. On August 22, 2022, additional purported purchasers of COPAXONE sued Teva in the U.S. District Court for the District of Vermont on behalf of themselves and similarly situated indirect purchasers of COPAXONE. The complaints variously assert claims for alleged violations of the Lanham Act, state and federal unfair competition and monopolization laws, tortious interference, trade libel, and a violation of the Racketeer Influenced and Corrupt Organizations Act ("RICO Act"). Additionally, plaintiffs claim Teva was involved in an unlawful scheme to delay and hinder generic competition concerning COPAXONE sales. Plaintiffs seek damages for lost profits and expenses, disgorgement, restitution, treble damages, attorneys' fees and costs, and injunctive relief. Teva moved to dismiss all of the complaints, and on January 22, 2024, Teva's motion to dismiss the complaint in the District of Vermont was granted as to certain state law claims but was otherwise denied. Decisions on Teva's remaining motions to dismiss are pending.   On July 15, 2021, the U.K. Competition and Markets Authority ("CMA") issued a decision imposing fines for breaches of U.K. competition law by Allergan, Actavis UK, Auden Mckenzie and a number of other companies in connection with the supply of 10mg and 20mg hydrocortisone tablets in the U.K. The decision combines the CMA's three prior investigations into the supply of hydrocortisone tablets in the U.K., as well as the CMA's subsequent investigation relating to an alleged anticompetitive agreement with Waymade. On January 9, 2017, Teva completed the sale of Actavis UK to Accord Healthcare Limited, in connection with which Teva agreed to indemnify Accord Healthcare for potential fines imposed by the CMA and/or damages awarded by a court against Actavis UK in relation to two of the three statements of objection from the CMA (dated December 16, 2016 and March 3, 2017), and resulting from conduct prior to the closing date of the sale. In addition, Teva agreed to indemnify Allergan against losses arising from this matter in the event of any such fines or damages. On October 6, 2021, Accord UK (previously Actavis UK) and Auden Mckenzie appealed to the U.K. Competition Appeal Tribunal (the "Tribunal") the CMA's decisions that the prices of hydrocortisone were unfair and excessive and that the agreements amounted to infringements of the U.K.'s Competition Act as so-called pay-for-delay arrangements. The hearing for the appeal concluded in the first quarter of 2023, with partial judgments handed down by the Tribunal on September 18, 2023 (judgment on unfair pricing), March 8, 2024 (judgments on pay-for-delay and due process) and April 29, 2024 (judgment on fines). The CMA appealed to the U.K. Court of Appeals on an expedited basis against certain elements of the pay-for-delay and due process judgments that it had lost, and on September 6, 2024, the U.K. Court of Appeal overturned the Tribunal's judgment on due process and, as a result, the Tribunal will now consider and issue a further judgment on fines. Accord UK and Auden Mckenzie have requested permission to appeal to the U.K. Supreme Court and have submitted to the Tribunal additional applications for permission to appeal certain other issues relating to unfair pricing and fines. A provision for the estimated exposure for Teva related to the fines and/or damages has been recorded in the financial statements.   In November 2022, two complaints filed by plaintiffs purporting to represent retailer purchasers and a putative class of end-payor purchasers were filed in the U.S. District Court for the District of New Jersey against Teva and its marketing partner, Natco Pharma Limited ("Natco"), alleging violations of the antitrust laws in connection with their December 2015 settlement of patent litigation with Celgene Corporation (which was subsequently acquired by BMS) involving the drug Revlimid ® (lenalidomide). The complaints also name Celgene and BMS as defendants. On January 24, 2023, the complaints were consolidated for pre-trial purposes only with an earlier-filed, already consolidated Insurer Opt-Out Action filed against BMS and Celgene. On February 16, 2023, plaintiffs filed amended complaints adding additional plaintiffs. On May 16, 2023, Teva and Natco, along with Celgene, moved to dismiss the complaints against them. Additionally, on October 6, 2023, two individual payor plaintiffs brought claims similar to those described above in the U.S. District Court for the Northern District of California, which actions were transferred to the U.S. District Court for the District of New Jersey and consolidated with the pending consolidated actions. On June 6, 2024, the court granted in full Celgene's motion to dismiss the Insurer Opt-Out Action, but allowed plaintiffs leave to amend most of their claims. The Court had previously administratively terminated Teva's, Natco's, and Celgene's motions to dismiss the retailer and end-payor complaints pending the decision on the Insurer Opt-Out Action. The plaintiffs filed amended complaints on August 5, 2024, and the defendants' filed motions to dismiss on October 7, 2024. Annual sales of Revlimid ® in the United States were approximately $3.5 billion at the time of the settlement. On December 2, 2022, plaintiffs purporting to represent putative classes of indirect purchasers of EpiPen ® (epinephrine injection) and NUVIGIL ® (armodafinil) filed a complaint in the U.S. District Court for the District of Kansas against Teva, Cephalon, and a former Teva executive. Teva owns the New Drug Application ("NDA") for NUVIGIL and sold the brand product, for which generic entry occurred in 2016. Teva filed an ANDA to sell generic EpiPen ® , which Teva launched in 2018, following receipt of FDA approval. The complaint alleges, among other things, that the defendants violated federal antitrust laws, the RICO Act, and various state laws in connection with settlements resolving patent litigation relating to those products. Plaintiffs seek injunctive relief, compensatory and punitive damages, interest, attorneys' fees and costs. On September 26, 2023, plaintiffs filed a brief in opposition to Teva's motion to dismiss the amended complaint, in which plaintiffs limited their claims only to those relating to the alleged delay of generic NUVIGIL. On March 26, 2024, the court issued its decision, which granted Teva's motion in part, dismissing plaintiffs' RICO claims and certain state law claims, but denied Teva's motion regarding plaintiffs' antitrust claims. On April 26, 2024, Teva sought certification to seek an interlocutory appeal of the decision, which is still pending. Annual sales of NUVIGIL in the United States were approximately $300 million at the time Teva entered into the first settlement with an ANDA filer in 2012. In May 2023, certain end-payor plaintiffs filed putative class action complaints in the U.S. District Court for the District of Massachusetts against Teva and a number of its affiliates, alleging that Teva engaged in anticompetitive conduct to suppress generic competition to its branded QVAR ® asthma inhalers in violation of state and federal antitrust laws and state consumer protection laws. Teva moved to dismiss these claims, and on May 7, 2024, the court granted Teva's motion in part and denied its motion in part. The court dismissed plaintiffs' claim that Teva had engaged in "sham litigation" and certain of plaintiffs' state antitrust and consumer protection claims, but permitted the case to proceed on the remainder of plaintiffs' allegations. Following this decision, two direct purchaser plaintiffs filed similar putative class action complaints in the U.S. District Court for the District of Massachusetts. On June 18, 2024, Teva answered in all cases and simultaneously moved for judgment on the pleadings pursuant to Rule 12(c), which remains pending. Subsequently, on June 28, 2024, Teva stipulated to the dismissal of the two direct purchaser plaintiffs' claims, with prejudice. Government Investigations and Litigation Relating to Pricing and Marketing Teva is involved in government investigations and litigation arising from the marketing and promotion of its pharmaceutical products in the United States. In 2015 and 2016, Actavis and Teva USA each respectively received subpoenas from the U.S. Department of Justice ("DOJ") Antitrust Division seeking documents and other information relating to the marketing and pricing of certain Teva USA generic products and communications with competitors about such products. On August 25, 2020, a federal grand jury in the Eastern District of Pennsylvania returned a three-count indictment charging Teva USA with criminal felony Sherman Act violations. The indictment alleged that Teva USA had participated in three separate conspiracies with other   generic drug manufacturers to maintain and fix prices, allocate customers, and other alleged antitrust offenses concerning the sale of generic drugs. The indictment identified the following generic drugs: pravastatin, carbamazepine, clotrimazole, etodolac (IR and ER), fluocinonide (cream, e-cream, gel, and ointment), warfarin, nadolol, temozolomide, and tobramycin. On August 21, 2023, Teva USA entered into a 3-year deferred prosecution agreement ("DPA") with the DOJ. Under the terms of the DPA, Teva USA: (i) admitted to violating the antitrust laws by agreeing with competitors, in three instances between 2013 and 2015 involving three separate customers, not to bid on an opportunity to supply a customer with a particular generic product (in the first instance pravastatin, in the second clotrimazole, and in the third tobramycin); (ii) agreed to divest the pravastatin that it sells in the United States to a third-party buyer; (iii) agreed to donate $50 million worth of clotrimazole and tobramycin, valued at wholesale acquisition cost ("WAC"), to humanitarian organizations over five years; and (iv) agreed to pay a fine in the amount of $225 million over 5 years, with $22.5 million due each year from 2024 through 2027, and $135 million due in 2028. Teva recognized a provision for the resolution of this case. In May 2018, Teva received a civil investigative demand from the DOJ Civil Division pursuant to the federal False Claims Act, seeking documents and information produced since January 1, 2009 relevant to the Civil Division's investigation concerning allegations that generic pharmaceutical manufacturers, including Teva, engaged in market allocation and/or price-fixing agreements, paid illegal remuneration, and caused false claims to be submitted in violation of the False Claims Act. On October 10, 2024, Teva entered into a settlement agreement with the Civil Division to resolve these allegations. Teva will pay $25 million under the terms of the settlement -- $10 million in the fourth quarter of 2024, and $15 million in 2025 -- which includes no admission of wrongdoing. Teva has recognized a provision for the resolution of this matter. In 2015 and 2016, Actavis and Teva USA each respectively received a subpoena from the Connecticut Attorney General seeking documents and other information relating to potential state antitrust law violations. On December 15, 2016, the civil action that was brought by the attorneys general of twenty states against Teva USA and several other companies asserting claims under federal antitrust law alleging price fixing of generic products in the United States was subsequently amended to include 49 states, as well as the District of Columbia and Puerto Rico as plaintiffs, and to add new allegations and state law claims against both Actavis and Teva. On May 10, 2019, most of these attorneys general filed another antitrust complaint against Actavis, Teva and other companies and individuals, which was subsequently amended on November 1, 2019, alleging that Teva was at the center of a conspiracy in the generic pharmaceutical industry and asserting that Teva and others fixed prices, rigged bids, and allocated customers and market share with respect to certain products. On June 10, 2020, most of the same states, with the addition of the U.S. Virgin Islands, filed a third complaint in the U.S. District Court for the District of Connecticut naming, among other defendants, Actavis, in a similar complaint relating to dermatological generics products, and that complaint was later amended to, among other things, add California as a plaintiff. In the various complaints described above, which also include claims against certain former employees of Actavis and Teva USA, the states seek a finding that the defendants' actions violated federal antitrust law and state antitrust and consumer protection laws, as well as injunctive relief, disgorgement, damages on behalf of various state and governmental entities and consumers, civil penalties and costs. All such complaints were transferred to the generic drug multidistrict litigation in the Eastern District of Pennsylvania ("Pennsylvania MDL"). On May 7, 2021, the Pennsylvania MDL court chose the attorneys general's third complaint filed on June 10, 2020, as subsequently amended, to serve as a bellwether complaint in the Pennsylvania MDL, along with certain complaints filed by private plaintiffs. On June 7, 2022, the Court dismissed the attorneys general's claims for monetary relief under federal law, concluding that the federal statute under which the attorneys general brought suit authorizes injunctive relief only. However, the attorneys general have pending claims for monetary relief under state law. On February 27, 2023, the Court largely denied defendants' motions to dismiss the federal claims asserted by the attorneys general in their bellwether complaint. Another motion to dismiss related to the state law claims asserted by the attorneys general in their bellwether complaint remains pending. Teva has settled with the states of Mississippi (in June 2021), Louisiana (in March 2022), Georgia (in September 2022), Arkansas (in October 2022), Florida (in February 2023), Kentucky (in June 2023), South Dakota (in June 2024), and New Mexico (in June 2024). Teva paid each state an amount proportional to its share of the national population (approximately $1,000,000 for each 1% share of the national population), and the states have dismissed their claims against Actavis and Teva USA, as well as certain former employees of Actavis and Teva USA, pursuant to these settlements. These settlements, in addition to the status of ongoing negotiations with several other U.S. state attorneys general to settle on comparable terms, caused management to consider settlement of the claims filed by the remaining <div style="margin-top:0pt; margin-bottom:0pt; font-size:10pt; font-family:Times

New Roman;text-align:center"> attorneys general to be probable, and management recorded an estimated provision in the third quarter of 2022. The States of Alabama (in March 2022) and Hawaii (in August 2023) and the territories of American Samoa (in July 2020) and Guam (in February 2023) have all voluntarily dismissed all of their claims in the litigation against Actavis and Teva USA. The dismissals by Alabama, Hawaii and Guam were with prejudice and the dismissal by American Samoa was without prejudice. Beginning on March 2, 2016, and through July 2023, numerous complaints have been filed in the United States on behalf of putative classes of direct and indirect purchasers of several generic drug products, as well as several individual direct and indirect purchaser opt-out plaintiffs, including most recently an opt-out complaint filed by nine direct-action plaintiffs on April 4, 2024. These complaints, which allege that the defendants engaged in conspiracies to fix prices and/or allocate market share of generic products have been brought against various manufacturer defendants, including Teva USA and Actavis. The plaintiffs generally seek injunctive relief and damages under federal antitrust law, and damages under various state laws. The Pennsylvania MDL court scheduled potential bellwether trials for the putative classes of direct and indirect purchasers of two drugs for August 2024. From 2019 to 2021, certain individual plaintiffs commenced civil actions in the Pennsylvania Court of Common Pleas of Philadelphia County against many of the defendants in the Pennsylvania MDL, including Teva and Actavis. One plaintiff, Aetna Inc., has filed a complaint, and the defendants have moved to place all of the cases filed in the Court of Common Pleas of Philadelphia County in deferred status, which motion remains pending. Certain counties in New York and Texas have also commenced civil actions against many of the defendants in the Pennsylvania MDL, including Teva and Actavis, and the complaints have been transferred to the Pennsylvania MDL. On January 31, 2024, the attorney generals' motion to remand their three lawsuits to the District of Connecticut, where they were originally filed, was granted, and on March 18, 2024, the Third Circuit Court of Appeals denied defendants' petition for writ of mandamus . In April 2024, all three of the attorneys general's lawsuits have been transferred back to the U.S. District Court for the District of Connecticut, which has adopted a schedule for summary judgment in the attorneys general's third complaint pursuant to which multiple groups of motions will be filed during 2024 and 2025. Fact discovery in the first and second complaints is ongoing. There is also one similar complaint brought in Canada, which is in its early stages and alleges that the defendants engaged in conspiracies to fix prices and/or allocate market share of generic drug products to the detriment of a class of private payors. In March 2017, Teva received a subpoena from the U.S. Attorney's office in Boston, Massachusetts requesting documents related to Teva's donations to patient assistance programs. In August 2020, the U.S. Attorney's office in Boston, Massachusetts brought a civil action in the U.S. District Court for the District of Massachusetts alleging causes of action under the federal False Claims Act and for unjust enrichment (the "DOJ PAP Complaint"). It was alleged that Teva's donations to certain 501(c)(3) charities that provided financial assistance to multiple sclerosis patients violated the Anti-Kickback Statute, and the DOJ sought a maximum of over $1 billion in damages, which would automatically be trebled in the event of an adverse verdict, and Teva would also be subject to mandatory statutory penalties for each false claim, the amount of which (potentially billions of U.S. dollars in additional penalties, at the high end) would be determined by the court within a statutory range. On October 10, 2024, Teva entered into a settlement agreement with the DOJ to resolve these claims. Teva will pay $425 million over 6 years under the terms of the settlement – $19 million in the fourth quarter of 2024, $34 million in 2025, $49 million in each of 2026 and 2027, $99 million in 2028, and $175 million in 2029 – which includes no admission of wrongdoing. Teva has recognized a provision for the resolution of this case. Additionally, on January 8, 2021, Humana, Inc. ("Humana") filed an action against Teva in the U.S. District Court for the Middle District of Florida based on the allegations raised in the DOJ PAP Complaint. In June 2023, Teva filed a joint motion to dismiss the amended complaint, together with co-defendant Advanced Care Scripts, Inc., on the grounds that Humana lacks standing to assert RICO claims and the claims are time-barred and/or insufficiently pled, and that motion remains pending. On November 17, 2022, United Healthcare also filed an action against Teva in the U.S. District Court for the District of New Jersey based on the conduct alleged in the DOJ PAP Complaint, and on February 29, 2024, United Healthcare filed an amended complaint. On August 16, 2024, several MSP Recovery-related entities filed a putative class action against Teva and others in the U.S. District Court for the District of Kansas based on the alleged conduct in the DOJ PAP Complaint.   In April 2021, a city and county in Washington filed claims against Teva in the U.S. District Court for the Western District of Washington for alleged violations of the RICO Act, Washington's Consumer Protection Act, and unjust enrichment concerning Teva's sale of COPAXONE. Plaintiffs purport to represent a nationwide class of health plans and a subclass of Washington-based health plans that purchased and/or reimbursed health plan members for COPAXONE. Plaintiffs allege that Teva engaged in several fraudulent schemes that resulted in plaintiffs and the putative class members purchasing and/or reimbursing plan members for additional prescriptions of COPAXONE and/or at inflated COPAXONE prices. Plaintiffs seek treble damages for the excess reimbursements and inflated costs, as well as injunctive relief. On November 17, 2021, Teva moved to dismiss the suit, on the grounds that plaintiffs' claims are barred by the applicable statutes of limitations and the direct purchaser rule, suffer from jurisdictional defects, and fail to plausibly allege fraud or other elements of their claims. On March 9, 2023, the court held a hearing on the motion to dismiss, and a decision remains pending. On December 1, 2022, Teva received a civil subpoena from the U.S. Attorney's office in Boston, Massachusetts requesting certain documents related to the sale and marketing of AUSTEDO ® and risperidone LAI. Teva is cooperating with the request for documents. In June 2024, Teva received a civil investigative demand from the Federal Trade Commission ("FTC") seeking documents and information regarding an investigation related to patents listed in the Food and Drug Administration's Approved Drug Products with Therapeutic Equivalence Evaluations publication ("Orange Book") in connection with certain inhaler products. Teva is cooperating with the request for documents and information. On October 1, 2024, Teva received a civil investigative demand from the U.S. Attorney's office in Boston, Massachusetts and the Civil Division of the Department of Justice requesting certain documents and information related to the manufacturing practices at its former manufacturing facility in Irvine, California, which Teva closed in 2022. Teva is cooperating with the request for documents and information. Opioids Litigation Since May 2014, more than 3,500 complaints have been filed by various governmental agencies and private plaintiffs in U.S. state and federal courts with respect to opioid sales and distribution against various Teva affiliates and several other pharmaceutical companies, the vast majority of which have been resolved. Cases brought by third party payers, both as individual cases and as class actions, remain. The majority of the remaining cases are consolidated in the multidistrict litigation in the Northern District of Ohio (the "MDL Opioid Proceeding"). These cases assert claims under similar provisions of different state laws and generally allege that the defendants engaged in improper marketing and distribution of Teva's branded opioids, including ACTIQ ® and FENTORA ® , and also assert claims related to Teva's generic opioid products. In addition, over 950 personal injury plaintiffs, including various putative class actions of individuals, have asserted personal injury and wrongful death claims in over 600 complaints, nearly all of which are consolidated in the MDL Opioid Proceeding. Furthermore, approximately 100 personal injury complaints allege that Anda (in addition to naming other distributors and manufacturers) failed to develop and implement systems sufficient to identify suspicious orders of opioid products and prevent their abuse and diversion. Plaintiffs seek a variety of remedies, including restitution, civil penalties, disgorgement of profits, treble damages, non-economic damages, attorneys' fees and injunctive relief. Certain plaintiffs seek damages for all costs associated with addressing the abuse of opioids and opioid addiction and certain plaintiffs specify multiple billions of dollars in the aggregate as alleged damages. In many of these cases, plaintiffs are seeking joint and several damages among all defendants. All but a handful of these cases are stayed in the MDL Opioid Proceedings. In June 2023, Teva finalized and fully resolved its nationwide settlement agreement with the states and litigating subdivisions. Under the financial terms of the nationwide settlement agreement with the states and subdivisions, Teva will pay up to $4.25 billion (including the already settled cases), spread over 13 years. This total includes the supply of up to $1.2 billion of Teva's generic version of Narcan ® (naloxone hydrochloride nasal spray), valued at wholesale acquisition cost, over 10 years or cash at 20% of the wholesale acquisition cost ($240 million) in lieu of product. In September 2024, Teva reached and finalized an agreement with the City of Baltimore to settle its opioid-related claims for a total of $80 million (of which $35 million will be paid by the end of 2024 and the remainder will be paid by July 1, 2025), averting a trial that was scheduled to begin on September 16, 2024.   With its settlement with the City of Baltimore, Teva has settled with 100% of the U.S. states and litigating political subdivisions and the Native American tribes (the "Tribes"). Teva's estimated cash payments between 2024 and 2028 for all opioids settlements are: $428 million payable in 2024 (of which $392 million was paid as of September 30, 2024), $423 million payable in 2025; $368 million payable in 2026; $374 million payable in 2027; and $390 million payable in 2028. These payments are subject to change based on various factors including, but not limited to, timing of payments, most favored nations clauses associated with prior settlements, and the states' elections to take Teva's generic version of Narcan ® (naloxone hydrochloride nasal spray). The remaining payments, subject to adjustments, will be paid beyond 2028. Various Teva affiliates, along with several other pharmaceutical companies, were named as defendants in opioids cases initiated by approximately 500 U.S. hospitals and other healthcare providers asserting opioid-related claims, including public nuisance. Specifically, the lawsuits brought by the hospitals allege that they have incurred financial harm from increased operating costs for treating patients whose underlying illnesses are purportedly exacerbated or complicated by opioid addiction. In September 2024, Teva and the representatives for acute care hospitals finalized the terms of a proposed settlement agreement. Under the financial terms of the proposed national settlement agreement, Teva will pay up to $126 million in cash, spread over 18 years, and supply up to $49 million of Teva's generic version of Narcan ® (naloxone hydrochloride nasal spray), valued at wholesale acquisition cost, over 7 years. The proposed settlement agreement is contingent upon Teva's satisfaction, in its sole discretion, with the level of participation by acute care hospitals and health care systems in the proposed settlement agreement. In light of the nationwide settlement agreement between Teva and the States' Attorneys General and their subdivisions, Teva's indemnification obligations arising from Teva's acquisition of the Actavis Generics business for opioid-related claims, prior settlements reached with Louisiana, Texas, Rhode Island, Florida, San Francisco, West Virginia, New York, the Tribes, Nevada and the City of Baltimore, the agreement in principle with the hospitals discussed above, as well as an estimate for a number of items including, but not limited to, costs associated with administering injunctive terms, and most favored nations clauses associated with prior settlements, the Company has recorded a provision. The provision is a reasonable estimate of the ultimate costs for Teva's opioids settlements, after discounting payments to their net present value. Opioid-related lawsuits brought against Teva by dozens of third-party payers, such as unions and welfare funds, remain pending. A reasonable upper end of a range of loss cannot be determined for the entirety of the remaining opioid-related cases. An adverse resolution of any of these lawsuits or investigations may involve large monetary penalties, damages, and/or other forms of monetary and non-monetary relief and could have a material and adverse effect on Teva's reputation, business, results of operations and cash flows. In addition, Teva, certain of its subsidiaries and other defendants, are defending claims and putative class action lawsuits in Canada related to the manufacture, sale, marketing and distribution of opioid medications. The lawsuits include a claim by the Province of British Columbia on behalf of itself and a putative class of other federal and provincial governments, and claims of municipalities, First Nations, and persons who used opioids on behalf of themselves and putative classes. In November and December 2023, the British Columbia Supreme Court held a hearing regarding preliminary motions, including plaintiffs' certification motion, which remain pending. Shareholder Litigation On November 6, 2016 and December 27, 2016, two putative securities class actions were filed in the U.S. District Court for the Central District of California against Teva and certain of its current and former officers and directors. Those lawsuits subsequently were consolidated and transferred to the U.S. District Court for the District of Connecticut (the "Ontario Teachers Securities Litigation"). On December 13, 2019, the lead plaintiff filed an amended complaint, purportedly on behalf of purchasers of Teva's securities between February 6, 2014 and

May 10, 2019, asserting that Teva and certain of its current and former officers and directors violated federal securities and common laws in connection with Teva's alleged failure to disclose pricing strategies for various drugs in its generic drug portfolio and by making allegedly false or misleading statements in certain offering materials. From July 2017 to June 2019, other putative securities class actions were filed in other federal courts based on similar allegations and claims, and were transferred to the U.S. District Court for the District of Connecticut. Between August 2017 and January 2022, twenty-three complaints were filed against Teva and certain of its current and former officers and directors on behalf of plaintiffs in various forums across the country, but many of those plaintiffs "opted-out" of the Ontario Teachers Securities Litigation. On January 18, 2022, Teva entered into a settlement in the Ontario Teachers Securities Litigation for $420 million, which received final approval from the court on June 2, 2022. The vast majority of the total settlement amount was covered by the Company's insurance carriers, with a small portion contributed by Teva. Additionally, as part of the settlement, Teva admitted no liability and denied all allegations of wrongdoing. On January 22, 2021, the Court dismissed the "opt-out" plaintiffs' claims arising from statements made prior to the five-year statute of repose, but denied Teva's motion to dismiss their claims under Israeli laws. Teva has settled the majority of the "opt-out" claims, and one opt-out case remains outstanding. Teva also reached a settlement with shareholders who filed class actions in Israel with similar allegations to those raised in the Ontario Teachers Securities Litigation, which was approved by the court in Israel in November 2023.   On September 23, 2020, a putative securities class action was filed in the U.S. District Court for the Eastern District of Pennsylvania against Teva and certain of its former officers. On August 10, 2021, the lead plaintiff filed a corrected amended class action complaint, purportedly on behalf of persons who purchased or otherwise acquired Teva securities between October 29, 2015 and August 18, 2020. The corrected amended complaint alleges that Teva and certain of its current and former officers violated federal securities laws by allegedly making false and misleading statements regarding the commercial performance of COPAXONE, namely, by failing to disclose that Teva had allegedly caused the submission of false claims to Medicare through Teva's donations to bona fide independent charities that provide financial assistance to patients, which allegedly impacted COPAXONE's commercial success and the sustainability of its revenues and resulted in the DOJ PAP Complaint filed by the DOJ. The corrected amended complaint seeks unspecified damages and legal fees. On August 2, 2022, the court stayed all proceedings other than class certification proceedings pending the resolution of the DOJ PAP Complaint. On November 3, 2023, the court granted plaintiff's motion for class certification. On November 17, 2023, Teva filed a petition with the Third Circuit Court of Appeals for leave to appeal the class certification ruling, which was denied on May 16, 2024. On August 30, 2024, the court lifted the stay. A motion to approve a securities class action was also filed in the Central District Court in Israel, which has been stayed pending the U.S. litigation, with similar allegations to those made in the above complaint filed in the U.S. District Court for the Eastern District of Pennsylvania. Environmental Matters Teva or its subsidiaries are party to a number of environmental proceedings, or have received claims, including under the federal Superfund law or other federal, provincial or state and local laws, imposing liability for alleged noncompliance, or for the investigation and remediation of releases of hazardous substances and for natural resource damages. Many of these proceedings and claims seek to require the generators of hazardous wastes disposed of at a third party-owned site, or the party responsible for a release of hazardous substances that impacted a site, to investigate and clean the site or to pay or reimburse others for such activities, including for oversight by governmental authorities and any related damages to natural resources. Teva or its subsidiaries have received claims, or been made a party to these proceedings, along with others, as an alleged generator of wastes that were disposed of or treated at third-party waste disposal sites, or as a result of an alleged release from one of Teva's facilities or former facilities. Although liability among the responsible parties, under certain circumstances, may be joint and several, these proceedings are frequently resolved so that the allocation of clean-up and other costs among the parties reflects the relative contributions of the parties to the site conditions and takes into account other pertinent factors. Teva's potential liability varies greatly at each of the sites; for some sites the costs of the investigation, clean-up and natural resource damages have not yet been determined, and for others Teva's allocable share of liability has not been determined. At other sites, Teva has taken an active role in identifying those costs, to the extent they are identifiable and estimable, which do not include reductions for potential recoveries of clean-up costs from insurers, indemnitors, former site owners or operators or other potentially responsible parties. In addition, enforcement proceedings relating to alleged violations of federal, state, commonwealth or local requirements at some of Teva's facilities may result in the imposition of significant penalties (in amounts not expected to materially adversely affect Teva's results of operations) and the recovery of certain costs and natural resource damages, and may require that corrective actions and enhanced compliance measures be implemented. Item 103 of Regulation S-K promulgated by the SEC requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions, unless the Company reasonably believes that the matter will result in no monetary sanctions, or in monetary sanctions, exclusive of interest and costs, of less than $300,000. The following matter is disclosed in accordance with that requirement. On July 8, 2021, the National Green Tribunal Principal Bench, New Delhi, issued an order against Teva's subsidiary in India, Teva API India Private Limited, finding non-compliance with environmental laws and assessed a penalty of $1.4 million. The Company disputed certain of the findings and the amount of the penalty and filed an appeal before the Supreme Court of India. On August 5, 2021, the Supreme Court of India admitted the appeal for hearing and granted an interim unconditional stay on the National Green Tribunal's order. The Company does not believe that the eventual outcome of such matter will have a material effect on its business.   Other Matters On February 1, 2018, former shareholders of Ception Therapeutics, Inc., a company that was acquired by and merged into Cephalon in 2010, prior to Cephalon's acquisition by Teva, filed breach of contract and other related claims against the Company, Teva USA and Cephalon in the Delaware Court of Chancery. Among other things, the plaintiffs alleged that Cephalon had breached the terms of the 2010 Ception-Cephalon merger agreement by failing to exercise commercially reasonable efforts to develop and commercialize CINQAIR ® (reslizumab) for the treatment of eosinophilic esophagitis ("EE"). The plaintiffs claimed damages of at least $200 million, an amount they alleged was equivalent to the milestones payable to the former shareholders of Ception in the event Cephalon were to obtain regulatory approval for EE in the United States ($150 million) and Europe ($50 million). On December 28, 2018, following defendants' motion to dismiss the complaint, the court granted the motion in part and dismissed all of plaintiffs' claims, except for their claim against Cephalon for breach of contract. In November 2021, plaintiffs moved to amend their complaint to, among other things, reassert claims against the Company and Teva USA. However, on July 12, 2022, plaintiffs filed a new amended complaint that included claims against Teva USA but not the Company, in exchange for Teva USA's agreement to guarantee any judgment entered against Cephalon in the litigation. A bench trial for this matter was held in September 2022 and on April 30, 2024, the court issued a memorandum opinion in favor of Cephalon and Teva USA, finding that they did not breach the merger agreement as plaintiffs had alleged. Plaintiffs have appealed that ruling to the Delaware Supreme Court, and the appeal remains pending. Gain Contingencies From time to time, Teva may directly or indirectly pursue claims against certain parties, including but not limited to patent infringement lawsuits against other pharmaceutical companies to protect its patent rights, as well as derivative actions brought on behalf of Teva. Teva recognizes gain contingencies from the defendants in such lawsuits when they are realized or when all related contingencies have been resolved. No gain has been recognized regarding the matters disclosed below, unless mentioned otherwise. In October 2017, Teva filed a lawsuit in the U.S. District Court for the District of Massachusetts alleging that Eli Lilly & Co.'s ("Lilly") marketing and sale of its galcanezumab product for the treatment of migraine infringes nine Teva patents, including three method of treatment patents and six composition of matter patents. Lilly then submitted inter partes review ("IPR") petitions to the Patent Trial and Appeal Board ("PTAB"), challenging the validity of the nine Teva patents. The PTAB issued decisions upholding the three method of treatment patents but finding the six composition of matter patents invalid, which decisions were affirmed by the Court of Appeals for the Federal Circuit on August 16, 2021. A jury trial regarding the three method of treatment patents resulted in a verdict in Teva's favor on November 9, 2022, in which the three method of treatment patents were determined to be valid and infringed by Lilly and Teva was awarded $176.5 million in damages. On September 26, 2023, the U.S. District Court for the District of Massachusetts issued a decision that reversed the jury's verdict and damages award, finding Teva's method of treatment patents to be invalid. Teva filed its opening appeal brief on February 2, 2024 and Lilly filed its responsive brief on April 19, 2024. Teva filed its responsive brief on May 29, 2024, and Lilly's final brief was filed on July 19, 2024. No date has been set for the appeal hearing. In March 2024, Teva filed a lawsuit in the U.S. District Court for the District of New Jersey alleging that Amarin Pharma, Inc., Amarin Pharmaceuticals Ireland Limited, and Amarin Corporation plc (collectively "Amarin") engaged in a decade-long scheme to lock up the supply of icosapent ethyl to prevent and delay generic competition to its branded Vascepa ® drug product. Teva's lawsuit coincides with four other lawsuits brought by generic drug manufacturers and purchasers of branded Vascepa ® alleging the same or similar conduct by Amarin. Teva's requested relief includes compensatory damages for lost sales and lost profits from generic icosapent ethyl drug sales that Teva could have made absent Amarin's alleged interference. On May 24, 2024, Amarin filed a motion in the U.S. District Court for the District of Nevada, seeking to enforce the terms of an earlier Teva-Amarin agreement to settle patent litigation regarding Vascepa ® , which Amarin asserts precludes Teva from filing the present antitrust action. Teva opposed this motion on June 7, 2024, and Amarin's motion remains pending. As the lawsuit is still in its initial stages, it is not possible to predict its outcome and there is no guarantee that Teva will be granted its requested relief. In June 2024, Teva filed a lawsuit in the U.S. District Court for the Northern District of California alleging that Corcept Therapeutics, Inc. ("Corcept"), and Optime Care Inc. ("Optime") have engaged in a multifaceted, years-long scheme to stifle generic competition to Corcept's branded Korlym ® (mifepristone) drug product, which is indicated to treat endogenous Cushing's syndrome. Teva alleges that Corcept and Optime have suppressed competition by abusing the   patent and judicial systems, entering a long-term, blanket exclusive-dealing agreement that has locked up a key pharmaceutical distribution channel, and making illicit payments to physicians as compensation for prescribing Korlym ® . Teva's requested relief includes compensatory damages for lost sales and lost profits from generic mifepristone drug sales that Teva could have made absent Corcept and Optime's alleged interference, as well as injunctive relief to remove the unlawful barriers to generic competition created by Corcept and Optime. As the lawsuit is still in its initial stages, it is not possible to predict its outcome and there is no guarantee that Teva will be granted its requested relief. Motions to approve derivative actions seeking monetary damages against certain past and present directors and officers have been filed in Israeli Courts alleging negligence and recklessness, as well as motions for document disclosure prior to initiating derivative actions. Motions were filed with respect to several U.S. and EU settlement agreements, opioids, allegations related to the DOJ's complaint regarding the COPAXONE patient assistance program in the U.S., and with respect to the European Commission's investigation relating to COPAXONE. In May 2024, Teva settled the derivative action related to the opioids litigation, and on September 16, 2024, the settlement received final approval from the Tel Aviv District Court.
2355000002600000000950000000230000000041600000011000000003500000001400000007000000006050000058200000024000000002900000000728000000210000000
  NOTE 11 – Income taxes: In the third quarter of 2024, Teva recognized a tax expense of $69 million, on a pre-tax loss of $324 million. In the third quarter of 2023,

Teva recognized a tax benefit of $12 million, on a pre-tax income of $64 million. Teva's tax rate for the third quarter of 2024 was mainly impacted by impairment charges with no corresponding tax effects, an adjustment to the Company's corporate tax rate in Israel on losses related to non-qualified tax incentive activities in Israel, legal expenses with no corresponding tax effect related to the fine issued by the European Commission in connection with its antitrust investigation into COPAXONE, and recording of valuation allowance with respect to certain carry over credits outside of Israel. Teva's tax rate for the third quarter for 2023 was mainly affected by deferred tax benefits resulting from intellectual property related integration plans, which have been adopted, among others, in an effort of addressing the global adoption of the Organization for Economic Co-operation and Development (OECD) Pillar Two minimum effective corporate tax. The pre-tax loss in the third quarter of 2023 was revised as discussed in note 1c. In the first nine months of 2024, Teva recognized a tax expense of $648 million, on a pre-tax loss of $1,037 million. In the first nine months of 2023, Teva recognized a tax benefit of $48 million, on a pre-tax loss of $1,131 million. Teva's tax rate for the first nine months of 2024 was mainly impacted by a settlement agreement with the Israeli Tax Authorities ("ITA") as discussed below, impairment charges with no corresponding tax effects, deferred tax benefits resulting from intellectual property related integration plans, an adjustment to the Company's corporate tax rate in Israel on losses related to non-qualified tax incentives activities in Israel, legal expenses with no corresponding tax effect related to the fine issued by the European Commission in connection with its antitrust investigation into COPAXONE, and recording of valuation allowance with respect to certain carry over credits outside of Israel. Teva's tax rate for the first nine months of 2023 was mainly affected by deferred tax benefits from intellectual property related integration plans, impairments, legal settlements, and interest expense disallowances. The pre-tax loss in the first nine months of 2023 was revised as discussed in note 1c. The statutory Israeli corporate tax rate is 23% in 2024. Teva's global tax rate differs from the Israeli statutory tax rate, mainly due to generation of profits in various jurisdictions in which tax rates are different than the Israeli tax rate, tax benefits, as well as infrequent or non-recurring items. Teva filed a claim seeking the refund of withholding taxes paid to the Indian tax authorities in 2012. A trial for this case is currently ongoing. A final and binding decision against Teva in this case may lead to a charge of $125 million. On June 23, 2024, Teva entered into an agreement with the ITA to settle certain litigation with respect to taxes payable for the Company's taxable years 2008 through 2020 (the "Agreement"). Pursuant to the terms of the Agreement, the Company will pay a total amount of approximately $750 million to the ITA spread over a six-year period beginning this year. The Company has the right to prepay, and amounts paid over time are subject to interest and increase for inflation. Such total amount includes: (i) $495 million in corporate taxes with respect to the Company's historical earnings that were previously considered by the Company to be exempt from taxes under the Encouragement for Capital Investment Law; and (ii) approximately $250 million in corporate taxes, relating to additional disputed tax issues in the aforementioned taxable years. The Agreement resulted in an increase of $506 million in the Company's total income taxes in the second quarter of 2024, as certain elements had been recognized in previous periods. Additionally, under the terms of the Agreement, it was further agreed that in the future event the Company pays dividends on, or repurchases, its equity interests, the Company will pay an additional 5%-7% of the amount of such dividends or repurchases in corporate taxes, up to a maximum tax payment amount of approximately $500 million. Any amounts due under this provision of the Agreement will be recorded in the future as incurred. Teva believes it has adequately provided for all of its uncertain tax positions, including items currently under dispute, however, adverse results could be material. The OECD introduced Base Erosion and Profit Shifting ("BEPS") Pillar Two rules that impose a global minimum tax rate of 15% for large multinational corporations. On December 12, 2022, the EU Council announced that EU member states had reached an agreement to implement the minimum taxation component of 15% of the OECD's reform of international taxation. Other countries have also enacted or are expected to enact legislation to be effective as early as January 1, 2024, with general implementation of a global minimum tax by January 1, 2025. Teva has evaluated the potential impact on its 2024 consolidated financial statements and related disclosures and does not expect Pillar Two to have a material impact on its effective tax rate or consolidated financial statements in the foreseeable future.   69000000-324000000-1200000064000000648000000-1037000000-4800000011310000000.231250000007500000000P6Y4950000002500000005060000000.050.075000000000.150.15   NOTE 12 – Other assets impairments, restructuring and other items: <table cellpadding="0" cellspacing="0" style="text-align:start;  <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(1)</td> <td style="vertical-align:top;text-align:left;"> Including impairments related to exit and disposal activities. </td> </tr> </table> <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%;vertical-align:top;text-align:left;">(2)</td> <td style="vertical-align:top;text-align:left;"> The contingent consideration presented in the tables above for the three and nine months ended September 30, 2023 have been revised as discussed in note 1c. </td> </tr> </table> Impairments In the three months ended September 30, 2024, Teva recorded an income of $ 80 million under impairments of tangible assets, compared to an expense of $ 1 million in the three months ended September 30, 2023. The income for the three months ended September 30, 2024 was mainly related to a favorable adjustment to the changes of the expected loss from reclassification of currency translation adjustments, partially offset by an additional impairment due to fair value update in connection with the classification of the business venture in Japan as held for sale. See note 2. Impairments of tangible assets for the nine months ended September 30, 2024 and 2023 were $589 million and $21 million, respectively. The impairment for the nine months ended September 30, 2024 was mainly related to the classification of the business venture in Japan as held for sale (see note 2). The impairments for the nine months ended September 30, 2023 were mainly related to certain assets in the U.S. and Europe. Teva may record additional impairments in the future, to the extent it changes its plans on any given asset and/or the assumptions underlying such plans, as a result of its ongoing network consolidation activities and its “Pivot to Growth Strategy”. Contingent consideration In the three months ended September 30, 2024, Teva recorded an expense of $34 million for contingent consideration, compared to an expense of $27 million in the three months ended September 30, 2023. The expenses in the three months ended September 30, 2024 were mainly due to the effect of the passage of time on the net present value of the discounted payments. The expenses in the three months ended September 30, 2023 were mainly related to a change in the estimated future royalty payments to Allergan in connection with lenalidomide capsules (the generic version of Revlimid ®) and a change in the estimated future royalty payments to Eagle in connection with expected future bendamustine sales. The expense in the three months ended September 30, 2023 was revised as discussed in note 1c. In the nine months ended September 30, 2024, Teva recorded an expense of $305 million for contingent consideration, compared to an expense of $140 million in the nine months ended September 30, 2023. The expenses in the first nine months of 2024 and 2023 were mainly related to a change in the estimated future royalty payments to Allergan in connection with lenalidomide capsules (the generic version of Revlimid ®) and a change in the estimated future royalty payments to Eagle in connection with expected future bendamustine sales. The expense in the first nine months of 2023 was revised as discussed in note 1c. Restructuring In the three months ended September 30, 2024, Teva recorded $21 million of restructuring expenses, compared to $27 million in the three months ended September 30, 2023. Expenses for the three months ended September 30, 2024 and 2023 were primarily related to network consolidation activities.   In the nine months ended September 30, 2024, Teva recorded $52 million of restructuring expenses, compared to $93 million in the nine months ended September 30, 2023. The expenses for the nine months ended September 30, 2024 and 2023 were primarily related to network consolidation activities. The following tables provide the components of the Company’s restructuring costs: <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;width:76%;border:0;margin:0 auto"> <tr> <td style="width:70%"></td> <td style="vertical-align:bottom;width:13%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:13%"></td> <td></td> <td></td> <td></td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Three months ended September 30, </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> 2024 </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> 2023 </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom"> </td> <td colspan="6" style="vertical-align:bottom;text-align:center;"> (U.S. $ in millions) </td> <td style="vertical-align:bottom"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:10pt;background-color:#cceeff"> <td style="vertical-align:top"> Restructuring </td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"></td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:10pt"> <td style="vertical-align:top"> Employee termination </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom">$</td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">13</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom">$</td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">16</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:10pt;background-color:#cceeff"> <td style="vertical-align:top"> Other </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">8</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">12</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> </tr> <tr style="font-size:1px"> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom">   </td> <td style="vertical-align:bottom">   </td> <td> </td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom">   </td> <td> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:10pt"> <td style="vertical-align:top"> Total </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom">$</td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">21</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> <td style="vertical-align:bottom"> </td> <td style="white-space:nowrap;vertical-align:bottom">$</td> <td style="white-space:nowrap;vertical-align:bottom;text-align:right;">27</td> <td style="white-space:nowrap;vertical-align:bottom"> </td> </tr> <tr style="font-size:1px"> <td style="vertical-align:bottom"></td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom">   </td> <td style="vertical-align:bottom">   </td> <td> </td> <td style="vertical-align:bottom"> </td> <td style="vertical-align:bottom">   </td> <td> </td> </tr> </table>   <table

    NOTE 13 - Earnings (Loss) per share: Basic earnings and loss per share are computed by dividing net income (loss) attributable to Teva's ordinary shareholders by the weighted average number of ordinary shares outstanding, including fully vested restricted share units ("RSUs") and performance share units ("PSUs") during the period, net of treasury shares. In computing diluted loss per share for the three months ended September 30, 2024, no account was taken of the potential dilution that could occur upon the exercise of options and non-vested RSUs and PSUs granted under employee stock compensation plans, and convertible senior debentures, since they had an anti-dilutive effect on loss per share. In computing diluted earnings per share for the three months ended September 30, 2023, basic earnings per share were adjusted to take into account the potential dilution that could occur upon the exercise of options and non-vested RSUs and PSUs granted under employee stock compensation plans. No account was taken of the potential dilution by the convertible senior debentures, since they had an anti-dilutive effect on earnings per share. In computing diluted loss per share for the nine months ended September 30, 2024 and 2023, no account was taken of the potential dilution that could occur upon the exercise of options and non-vested RSUs and PSUs granted under employee stock compensation plans, and convertible senior debentures, since they had an anti-dilutive effect on loss per share. The weighted average diluted shares outstanding used for the fully diluted share calculations for the three months ended September 30, 2024 and 2023 were 1,133 million shares and 1,135 million shares, respectively. The weighted average diluted shares outstanding used for the fully diluted share calculations for the nine months ended September 30, 2024 and 2023 were 1,130 million shares and 1,119 million shares, respectively. Basic and diluted loss per share w as $0.39 for the three months ended September 30, 2024, compared to basic and diluted earnings per share of $0.06 for the three months ended September 30, 2023. Basic and diluted earnings per share for the three months ended September 30, 2023 w ere revised as discussed in note 1c. Basic and diluted loss per share was $1.26 for the nine months ended September 30, 2024, compared to basic and diluted loss per share of $0.91 for the nine months ended September 30, 2023. Basic and diluted loss per share for the nine months ended September 30, 2023 w ere revised as discussed in note 1c. 0011330000001135000000113000000011190000000-0.39-0.390.060.06-1.26-1.26-0.91-0.91   NOTE 14 - Accumulated other comprehensive income (loss): The components of, and changes within, accumulated other comprehensive income (loss) attributable to Teva are presented in the table below: <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;width:92%;border:0;margin:0 auto"> <tr> <td style="width:58%"></td> <td style="vertical-align:bottom;width:7%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:6%"></td> <td> </td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:6%"></td> <td></td> <td></td> <td></td> <td></td> <td style="vertical-align:bottom;width:6%"></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="6" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Net Unrealized Gains (Losses) </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Benefit Plans </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> </tr> <tr style="page-break-inside:avoid ; font-family:Times New Roman; font-size:8pt"> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Foreign <br/> currency <br/> translation <br/> adjustments </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Derivative <br/> financial <br/> instruments </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td style="vertical-align: bottom; padding-bottom: 0.5pt;"> </td> <td colspan="2" style="border-bottom:1.00pt solid #000000;vertical-align:bottom;text-align:center;"> Actuarial gains

Teva operates its business and reports its financial results in three segments : (a) United States segment. (b) Europe segment, which includes the European Union, the United Kingdom and certain other European countries. (c) International Markets segment, which includes all countries other than the United States and countries included in the Europe segment. In addition to these three segments, Teva has other sources of revenues, primarily the sale of APIs to third parties, certain contract manufacturing services and an out-licensing platform offering a portfolio of products to other pharmaceutical companies through its affiliate Medis. Teva's Chief Executive Officer ("CEO"), who is the chief operating decision maker ("CODM"), reviews financial information prepared on a consolidated basis, accompanied by disaggregated information about revenues and contributed profit by the three identified reportable segments, namely United States, Europe and International Markets, to make decisions about resources to be allocated to the segments and assess their performance. Segment profit is comprised of gross profit for the segment less R&D expenses, S&M expenses, G&A expenses and other income related to the segment. Segment profit does not include amortization and certain other items. Teva manages its assets on a company basis, not by segments, as many of its assets are shared or commingled. Teva's CODM does not regularly review asset information by reportable segment and, therefore, Teva does not report asset information by reportable segment. Teva's CEO may review its strategy and organizational structure from time to time. Based on such review, in May 2023 Teva launched its new Pivot to Growth strategy. Any additional changes in strategy may lead to a reevaluation of the Company's segments and goodwill allocation to reporting units, as well as fair value attributable to its reporting units. See note 3 and note 6. In conjunction with a recent shift in executive management responsibilities and in alignment with Teva's Pivot to Growth strategy, Teva decided that Canada is no longer included as part of Teva's North America segment as of January 1, 2024. From that date Canada is reported as part of the Company's International Markets segment and Teva's North America segment has been renamed the United States segment. Teva aligned its internal financial and segment reporting and its reporting units in accordance with this change effective January 1, 2024. Prior period amounts have been recast to conform to the reporting structure for the current year. On January 31, 2024, Teva announced that it intends to divest its API business (including its R&D, manufacturing and commercial activities) through a sale, which divestment is expected to be completed in the first half of 2025. The intention to divest is in alignment with Teva's Pivot to Growth strategy. However, there can be no assurance regarding the ultimate timing or structure of a potential divestiture or that a divestiture will be agreed or completed at all.   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;border:0;width:100%"> <tr style="page-break-inside:avoid"> <td style="width:4%"> </td> <td style="width:5%;vertical-align:top;text-align:left;"> a. </td> <td style="vertical-align:top;text-align:left;"> Segment information: </td></tr></table>   <table cellpadding="0" cellspacing="0" style="text-align:start; BORDER-COLLAPSE:COLLAPSE; font-family:Times New Roman; font-size:10pt;width:84%;border:0;margin:0

This fair value measurement is based on significant unobservable inputs in the market and thus represents a Level 3 measurement within the fair value hierarchy. The fair value of contingent consideration is based on several factors, such as cash flows projected from the success of unapproved product candidates; probability of success of product candidates, including risks associated with uncertainty regarding achievement and payment of milestone events; time and resources required to complete the development and approval of product candidates; life of the potential commercialized products and associated risks with obtaining regulatory approvals in the United States and Europe, and the risk adjusted discount rate for fair value measurement. The discount rate applied ranged from 8.5% to 11%. The weighted average discount rate, calculated based on the relative fair value of Teva's contingent consideration liabilities, was 8.8%. Contingent consideration is evaluated quarterly, or more frequently, if circumstances dictate. Changes in the fair value of contingent consideration are recorded in the consolidated statements of income. Significant changes in unobservable inputs, mainly the probability of success and cash flows projected, could result in material changes to the contingent consideration liabilities. A change of the discount rate by 1% would have not resulted in material changes to the contingent consideration liabilities. </div><div style="margin-top:12pt; margin-bottom:0pt; text-indent:4%; font-size:10pt; font-family:Times New Roman">The investment in convertible bond security is accounted for as available for sale with changes in fair value reflected in other comprehensive income. See note 8c. If Teva fails to achieve certain sustainability performance targets, the interest rate shall increase by 0.100%-0.300% per annum, from and including September 15, 2026. If Teva fails to achieve certain sustainability performance targets, a one-time premium payment of 0.15%-0.45% out of the principal amount will be paid at maturity or upon earlier redemption, if such redemption is on or after May 9, 2026. In October 2024, Teva repaid $685 million of its 1.13% senior notes due 2024 at maturity. If Teva fails to achieve certain sustainability performance targets, the interest rate shall increase by 0.125%-0.375% per annum, from and including May 9, 2026. In April 2024, Teva repaid $956 million of its 6% senior notes due 2024 at maturity. Including impairments related to exit and disposal activities. The contingent consideration presented in the three and nine months ended September 30, 2023 have been revised as discussed in note 1c. Includes adjustments for foreign currency translation. Other revenues in the first nine months of 2024 include the sale of certain product rights. Other revenues in the third quarter of 2024 include the sale of certain product rights. On September 29, 2023, Teva purchased $40 million of subordinated convertible bonds of Alvotech. On June 26, 2024, Alvotech announced its intention to exercise its redemption rights and redeemed the convertible bonds, which were paid to Teva in July 2024 (see note 2). The plan includes shares to be sold solely to cover tax withholding obligations. The data presented for the prior period have been revised to reflect a revision in the presentation of these items in the consolidated financial statements. For additional information see note 1c. Amounts do not include a $84 million loss from convertible bonds of Alvotech. Amounts do not include a $6 million interest rate swap agreement, designated as cash flow hedge for accounting purposes with respect to an intercompany loan due October 2026, denominated in Japanese yen. The agreement was terminated in the first quarter of 2024 and resulted in cash proceeds of $16 million. Contingent consideration represents liabilities recorded at fair value in connection with acquisitions. The financial data presented in the tables above with respect to adjustments to provisions for contingent consideration related to Allergan for the nine months ended September 30, 2023 have been revised as discussed in note 1c. The fair value was estimated based on quoted market prices. Cumulative goodwill impairment as of September 30, 2024 and December 31, 2023 was approximately $29.0 billion and $28.3 billion, respectively.***
