UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2023** **September 30, 2023**

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 001-11138

**First Commonwealth Financial Corporation**

(Exact name of registrant as specified in its charter)

Pennsylvania

25-1428528

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

601 Philadelphia Street

15701

Indiana PA

(Zip Code)

(Address of principal executive offices)

724-349-7220

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$1.00 par value	FCF	New York Stock Exchange

Indicate by a check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (\$232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Smaller reporting company  Emerging growth company

Non-accelerated filer  (Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The number of shares outstanding of issuer's common stock, \$1.00 par value, as of **August 7, 2023** **November 6, 2023**, was **102,406,215** **102,111,439**.

**ITEM 1. Financial Statements and Supplementary Data**  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**Note 1 Basis of Presentation**

The accounting and reporting policies of First Commonwealth Financial Corporation and subsidiaries ("First Commonwealth" or the "Company") conform with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates, assumptions and judgments that affect the amounts reported in the financial statements and accompanying notes. Actual realized amounts could differ from those estimates. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of First Commonwealth's financial position, results of operations, comprehensive income, cash flows and changes in shareholders' equity as of and for the periods presented. Certain information and Note disclosures normally included in Consolidated Financial Statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC.

For purposes of reporting cash flows, cash and cash equivalents include cash on hand, amounts due from banks, federal funds sold and interest-bearing bank deposits. Generally, federal funds are sold for one-day periods.

The results of operations for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** are not necessarily indicative of the results that may be expected for the full year of 2023. These interim financial statements should be read in conjunction with First Commonwealth's 2022 Annual Report on Form 10-K.

**Note 2 Acquisition**

On January 31, 2023, the Company completed its acquisition of Centric Financial Corporation ("Centric") and its banking subsidiary, Centric Bank, for consideration of 9,688,478 shares of the Company's common stock. Through the acquisition, the Company obtained seven full-service banking offices and one loan production office in the Harrisburg, Philadelphia and Lancaster Metropolitan Service Areas ("MSAs").

The table below summarizes the net assets acquired (at fair value) and consideration transferred in connection with the Centric acquisition (dollars in thousands):

Consideration paid			
Cash paid to shareholders - fractional shares	\$	1	
Shares issued to shareholders (9,688,478 shares)		141,355	
Total consideration paid	\$	141,356

Total fair value of identifiable net assets			80,969
Goodwill	\$		60,387

**ITEM 1. Financial Statements and Supplementary Data**  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company determined that this acquisition constitutes a business combination and therefore was accounted for using the acquisition method of accounting. Accordingly, as of the date of the acquisition, the Company recorded the assets acquired, liabilities assumed and consideration paid at fair value. The \$60.4 million excess of the consideration paid over the fair value of assets acquired was recorded as goodwill and is not amortizable or deductible for tax purposes. The amount of goodwill arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company with Centric.

The fair value of the 9,688,478 common shares issued was determined based on the \$14.59 closing market price of the Company's common shares on the acquisition date, January 31, 2023.

During the three-months ended June 30, 2023, valuations were finalized for provisional amounts related to loan credit marks and a supplemental executive retirement plan liability ("SERP"). The credit marks were previously considered provisional due to the availability of data required to assess the borrowers cash flow and collateral position. After receiving additional historical financial information and meeting with the borrowers a \$5.1 million decrease in fair value and increase in the allowance for credit losses was recognized. Receipt of a third party valuation for the SERP liability decreased the fair value of the liability by \$0.07 million. There acquired assets and liabilities was no income statement impact related to the loan mark adjustment. The SERP adjustment resulted completed in a \$34 thousand increase in SERP expense during the second quarter of 2023. As of June 30, 2023, the accounting for the business combination is considered complete.

The following is a description of the valuation methodologies used to estimate the fair values of major categories of assets acquired and liabilities assumed. The Company used an independent valuation specialist to assist with the determination of fair values for certain acquired assets and assumed liabilities.

**Cash and due from banks** - The estimated fair value was determined to approximate the carrying amount of these assets.

**Investment securities** - The estimated fair value of the investment portfolio was based on quoted market prices, dealer quotes, and pricing obtained from independent pricing services.

**Loans** - The estimated fair value of loans were based on a discounted cash flow methodology applied on a pooled basis for non-purchased credit-deteriorated ("non-PCD") loans and on an individual basis for purchased credit-deteriorated ("PCD") loans. The valuation considered underlying characteristics including loan type, term, rate, payment schedule and credit rating. Other factors included assumptions related to prepayments, probability of default and loss given default. The discount rates applied were based on a build-up approach considering the funding mix, servicing costs, liquidity premium and factors related to performance risk.

Acquired loans are classified into two categories: PCD loans and non-PCD loans. PCD loans are defined as a loan or group of loans that have experienced more than insignificant credit deterioration since origination. Non-PCD loans will have an allowance established on acquisition date, which is recognized as an expense through provision for credit losses. For PCD loans, an allowance is recognized on day 1 by adding it to the fair value of the loan, which is the "Day 1 amortized cost". There is no provision for credit loss expense recognized on PCD loans because the initial allowance is established by grossing-up the amortized cost of the PCD loan.

A day 1 allowance for credit losses on non-PCD loans of \$10.7 million was recorded through the provision for credit losses within the Consolidated Statements of Income. At the date of acquisition, of the \$979.5 million of loans acquired from Centric, \$304.7 million, or 31.1%, of Centric's loan portfolio, was accounted for as PCD loans as of February 1, 2023.

**Premise and equipment** - The estimated fair value of land and buildings were determined by independent market-based appraisals.

**Core deposit intangible** - The core deposit intangible was valued utilizing the cost savings method approach, which recognizes the cost savings represented by the expense of maintaining the core deposit base versus the cost of an alternative funding source. The valuation incorporates assumptions related to account retention, discount rates, deposit interest rates, deposit maintenance costs and alternative funding rates.

**Time deposits** - The estimated fair value of time deposits was determined using a discounted cash flow approach incorporating a discount rate equal to current market interest rates offered on time deposits with similar terms and maturities.

**Borrowings** - The estimated fair value of short-term borrowings was determined to approximate stated value. Subordinated debentures were valued using a discounted cash flow approach incorporating a discount rate that incorporated similar terms, maturity and credit rating.

The following table presents the change in goodwill during the period (dollars in thousands):

	For the Six Months Ended June 30, 2023 September 30, 2023
Goodwill at December 31, 2022	\$ 303,328
Goodwill from Centric acquisition	60,387
<b>Goodwill at June 30, 2023 September 30, 2023</b>	<b>\$ 363,715</b>

Costs related to the acquisition totaled **\$8.5 million**, **\$8.9 million**. These amounts were expensed as incurred and are recorded as a merger and acquisition related expense in the Consolidated Statements of Income.

As a result of the full integration of the operations of Centric, it is not practicable to determine revenue or net income included in the Company's operating results relating to Centric since the date of acquisition as Centric results cannot be separately identified.

#### Note 6 Commitments and Contingent Liabilities

##### Commitments and Letters of Credit

Standby letters of credit and commercial letters of credit are conditional commitments issued by First Commonwealth to guarantee the performance of a customer to a third party. The contract or notional amount of these instruments reflects the maximum amount of future payments that First Commonwealth could be required to pay under the guarantees if there were a total default by the guaranteed parties, without consideration of possible recoveries under recourse provisions or from collateral held or pledged. In addition, many of these commitments are expected to expire without being drawn upon; therefore, the total commitment amounts do not necessarily represent future cash requirements.

The following table identifies the notional amount of those instruments at the date shown below:

	Financial instruments whose contract amounts represent credit risk:	June 30, 2023				December 31, 2022				September 30, 2023				December 31, 2022			
		(dollars in thousands)				(dollars in thousands)				(dollars in thousands)				(dollars in thousands)

Commercial letters of credit	Commercial letters of credit																

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The notional amounts outstanding as of **June 30, 2023** **September 30, 2023** include amounts issued in 2023 of **\$0.5 million** **\$0.9 million** in performance standby letters of credit and \$0.3 million in financial standby letters of credit. There were no commercial letters of credit issued in 2023. A liability of \$0.1 million has been recorded as of both **June 30, 2023** **September 30, 2023** and December 31, 2022, which represents the estimated fair value of letters of credit issued. The fair value of letters of credit is estimated based on the unrecognized portion of fees received at the time the commitment was issued.

Unused commitments and letters of credit provide exposure to future credit loss in the event of nonperformance by the borrower or guaranteed parties. Management's evaluation of the credit risk related to these commitments resulted in the recording of a liability of **\$7.8 million** **\$8.9 million** and \$10.0 million as of **June 30, 2023** **September 30, 2023** and December 31, 2022, respectively. This liability is reflected in "Other liabilities" in the unaudited Consolidated Statements of Financial Condition. The credit risk evaluation incorporates the expected loss percentage calculated for comparable loan categories as part of the allowance for credit losses for loans as well as estimated utilization for each loan category.

**Legal Proceedings**

First Commonwealth and its subsidiaries are subject in the normal course of business to various pending and threatened legal proceedings in which claims for monetary damages are asserted. As of **June 30, 2023** **September 30, 2023**, management, after consultation with legal counsel, does not anticipate that the aggregate ultimate liability arising out of litigation pending or threatened against First Commonwealth or its subsidiaries will be material to First Commonwealth's consolidated financial position. On at least a quarterly basis, First Commonwealth assesses its liabilities and contingencies in connection with such legal proceedings. For those matters where it is probable that First Commonwealth will incur losses and the amounts of the losses can be reasonably estimated, First Commonwealth records an expense and corresponding liability in its consolidated financial statements. To the extent the pending or threatened litigation could result in exposure in excess of that liability, the amount of such excess is not currently estimable. Although not considered probable, the range of reasonably possible losses for such matters in the aggregate, beyond the existing recorded liability (if any), is between \$0 and \$1 million. Although First Commonwealth does not believe that the outcome of pending litigation will be material to First Commonwealth's consolidated financial position, it cannot rule out the possibility that such outcomes will be material to the consolidated results of operations and cash flows for a particular reporting period in the future.

Mortgage-backed securities include mortgage-backed obligations of U.S. Government agencies and obligations of U.S. Government-sponsored enterprises. These obligations have contractual maturities ranging from less than one year to approximately 40 years, with lower anticipated lives to maturity due to prepayments. All mortgage-backed securities contain a certain amount of risk related to the uncertainty of prepayments of the underlying mortgages. Interest rate changes have a direct impact upon prepayment speeds; therefore, First Commonwealth uses computer simulation models to test the average life and yield volatility of all mortgage-backed securities under various interest rate scenarios to monitor the potential impact on earnings and interest rate risk positions.

Expected maturities will differ from contractual maturities because issuers may have the right to call or repay obligations with or without call or prepayment penalties. Other fixed income securities within the portfolio also contain prepayment risk.

(a) Mortgage-backed and collateralized mortgage securities, which have prepayment provisions, are not assigned to maturity categories due to fluctuations in their prepayment speeds. Mortgage-Backed Securities include an amortized cost of **\$74.1 million** **\$72.6 million** and a fair value of **\$58.3 million** **\$55.1 million** for Obligations of U.S. Government agencies issued by Ginnie Mae and an amortized cost of **\$315.8 million** **\$306.9 million** and a fair value of **\$263.5 million** **\$245.3 million** for Obligations of U.S. Government-sponsored enterprises issued by Fannie Mae and Freddie Mac.

Securities held to maturity with an amortized cost of **\$118.9 million** **\$119.2 million** and \$368.8 million were pledged as of **June 30, 2023** **September 30, 2023** and December 31, 2022, respectively, to secure public deposits and for other purposes required or permitted by law.

#### Other Investments

As a member of the Federal Home Loan Bank ("FHLB"), First Commonwealth is required to purchase and hold stock in the FHLB to satisfy membership and borrowing requirements. The level of stock required to be held is dependent on the amount of First Commonwealth's mortgage-related assets and outstanding borrowings with the FHLB. This stock is restricted in that it can

#### ITEM 1. Financial Statements and Supplementary Data

##### FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

only be sold to the FHLB or to another member institution, and all sales of FHLB stock must be at par. As a result of these restrictions, FHLB stock is unlike other investment securities insofar as there is no trading market for FHLB stock and the transfer price is determined by FHLB membership rules and not by market participants. As of **June 30, 2023** **September 30, 2023** and December 31, 2022, our FHLB stock totaled **\$40.2 million** **\$42.8 million** and \$25.2 million, respectively, and is included in "Other investments" on the unaudited Consolidated Statements of Financial Condition.

FHLB stock is held as a long-term investment and its value is determined based on the ultimate recoverability of the par value. First Commonwealth evaluates impairment quarterly and has concluded that the par value of its investment in FHLB stock will be recovered. Accordingly, no impairment charge was recorded on these securities during the three and **six-nine** months ended **June 30, 2023** **September 30, 2023**.

As of both **June 30, 2023** **September 30, 2023** and December 31, 2022, "Other investments" also includes \$6.2 million and \$1.2 million, respectively, in equity securities. These securities do not have a readily determinable fair value and are carried at cost. During the **six-months** **nine-months** ended **June 30, 2023** **September 30, 2023** and 2022, there were no gains or losses recognized through earnings on equity securities. On a quarterly basis, management evaluates equity securities by reviewing the severity and duration of decline

in estimated fair value, research reports, analysts' recommendations, credit rating changes, news stories, annual reports, regulatory filings, impact of interest rate changes and other relevant information.

**Impairment of Investment Securities**

We review our investment portfolio on a quarterly basis for indications of impairment. For available for sale securities, the review includes analyzing the financial condition and near-term prospects of the issuer, including any specific events which may influence the operations of the issuer and whether we are more likely than not to sell the security. We evaluate whether we are more likely than not to sell debt securities based upon our investment strategy for the particular type of security and our cash flow needs, liquidity position, capital adequacy, tax position and interest rate risk position. Held-to-maturity securities are evaluated for impairment on a quarterly basis using historical probability of default and loss given default information specific to the investment category. If this evaluation determines that credit losses exist an allowance for credit loss is recorded and included in earnings as a component of credit loss expense.

First Commonwealth utilizes the specific identification method to determine the net gain or loss on debt securities and the average cost method to determine the net gain or loss on equity securities.

The following table presents the gross unrealized losses and estimated fair values at **June 30, 2023** **September 30, 2023** for both available for sale and held to maturity securities by investment category and time frame for which securities have been in a continuous unrealized loss position:

As of **June 30, 2023** **September 30, 2023**, our corporate securities had an amortized cost and an estimated fair value of **\$30.4 million** **\$33.8 million** and **\$26.6 million** **\$29.5 million**, respectively. As of December 31, 2022, our corporate securities had an amortized cost and estimated fair value of \$32.0 million and \$29.2 million, respectively. Corporate securities are comprised of debt issued by large regional banks. There were eight and six corporate securities, respectively, in an unrealized loss position as of **June 30, 2023** **September 30, 2023** and December 31, 2022. When unrealized losses exist, management reviews each of the issuer's asset quality, earnings trends and capital position to determine whether the unrealized loss position is a result of credit losses. All interest payments on the corporate securities are being made as contractually required.

There was no expected credit related impairment recognized on investment securities during the **six** **nine** months ended **June 30, 2023** **September 30, 2023** and 2022.

First Commonwealth's loan portfolio includes five primary loan categories. When calculating the allowance for credit losses these categories are classified into fourteen portfolio segments. The composition of loans by portfolio segment includes:

#### Commercial, financial, agricultural and other

**Time & Demand** - Consists primarily of commercial and industrial loans. This category consists of loans that are typically cash flow dependent and therefore have different risk and loss characteristics than other commercial loans. Loans in this category include revolving and term structures with fixed and variable interest rates. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and economic conditions measured by GDP. At **June 30, 2023** **September 30, 2023** and December 31, 2022, this category includes **\$2.9 million** **\$0.9 million** and **\$4.3 million** in Paycheck Protection Program ("PPP") loans for small businesses. Because PPP loans are fully guaranteed by the SBA, there is no allowance for credit losses recognized for these loans.

**Commercial Credit Cards** - Consists of unsecured credit cards for commercial customers. These commercial credit cards have separate characteristics outside of normal commercial non-real estate loans, as they tend to have shorter overall duration. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and economic conditions measured by GDP.

**Equipment Finance** - Consists of loans and leases to finance the purchase of equipment for commercial customers. The risk and loss characteristics are unique for this group due to the type of collateral. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and economic conditions measured by GDP.

#### ITEM 1. Financial Statements and Supplementary Data

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**Time & Demand Other** - Consists primarily of loans to state and political subdivisions and other commercial loans that have different characteristics than loans in the Time and Demand category. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of household debt to income and economic conditions

measured by GDP.

#### **Real estate construction**

*Construction Other* - Consists of construction loans to commercial builders and developers and are secured by the properties under development.

*Construction Residential* - Consists of loans to finance the construction of residential properties during the construction period. Borrowers are typically individuals who will occupy the completed single family property.

The risk and loss characteristics of these two construction categories are different than other real estate secured categories due to the collateral being at various stages of completion. The nature of the project and type of borrower of the two construction categories provides for unique risk and loss characteristics for each category. The primary macroeconomic drivers for estimating credit losses for construction loans include forecasts of national unemployment and measures of completed construction projects.

#### **Residential real estate**

*Residential first lien* - Consists of loans with collateral of 1-4 family residencies with a senior lien position. The risk and loss characteristics are unique for this group because the collateral for these loans are the borrower's primary residence. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and residential property values.

*Residential Junior Lien/Home Equity* - Consists of loans with collateral of 1-4 family residencies with an open end line of credit or junior lien position. The junior lien position for the majority of these loans provides a higher risk of loss than other residential real estate loans. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and residential property values.

#### **Commercial real estate**

*Multifamily* - Consists of loans secured by commercial multifamily properties. Real estate related to rentals to consumers provide unique risk and loss characteristics. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of commercial real estate values and national unemployment.

*Nonowner Occupied* - Consists of loans secured by **non-owner occupied** commercial real estate **non-owner occupied** and provides different loss characteristics than other real estate categories. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and economic conditions measured by GDP.

*Owner Occupied* - Consists of loans secured by **owner occupied** commercial real estate **owner occupied** properties. The risk and loss characteristics of this category were considered different than other real estate categories because it is owner occupied and would impact the ability to conduct business. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of national unemployment and economic conditions measured by GDP.

#### **Loans to individuals**

*Automobile and Recreational Vehicles* - Consists of both direct and indirect loans with automobiles and recreational vehicles held as collateral. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of consumer sentiment and automobile retention value.

*Consumer Credit Cards* - Consists of unsecured consumer credit cards. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of consumer sentiment and economic conditions measured by GDP.

*Other Consumer* - Consists of lines of credit, student loans and other consumer loans, not secured by real estate or autos. The primary macroeconomic drivers for estimating credit losses for this category include forecasts of consumer sentiment and retail sales.

The allowance for credit losses is calculated by pooling loans of similar credit risk characteristics and applying a discounted cash flow methodology after incorporating probability of default and loss given default estimates. Probability of default represents an estimate of the likelihood of default, and loss given default measures the expected loss upon default. Inputs impacting the expected losses include a forecast of macroeconomic factors, using a weighted forecast from a nationally

#### **ITEM 1. Financial Statements and Supplementary Data**

#### **FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES** **NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

recognized firm. Our model incorporates a one-year forecast of macroeconomic factors, after which the factors revert back to the historical mean over a one-year period. The most significant macroeconomic factor used in estimating credit losses is the national unemployment rate. The forecasted value for national unemployment at the beginning of the forecast period was **3.52%** **3.78%** and during the one-year forecast period it was projected to average **4.47%** **4.59%**, with a peak of **4.83%** **4.86%**.

#### **Credit Quality Information**

As part of the on-going monitoring of credit quality within the loan portfolio, the following credit worthiness categories are used in grading our loans:

<b><u>Pass</u></b>	Acceptable levels of risk exist in the relationship. Includes all loans not classified as OAEM, substandard or doubtful.
<b><u>Other Assets Especially Mentioned (OAEM)</u></b>	Potential weaknesses that deserve management's close attention. The potential weaknesses may result in deterioration of the repayment prospects or weaken the Company's credit position at some future date. The credit risk may be relatively minor, yet constitute an undesirable risk in light of the circumstances surrounding the specific credit. No loss of principal or interest is expected.
<b><u>Substandard</u></b>	Well-defined weakness or a weakness that jeopardizes the repayment of the debt. A loan may be classified as substandard as a result of deterioration of the borrower's financial condition and repayment capacity. Loans for which repayment plans have not been met or collateral equity margins do not protect the Company may also be classified as substandard.
<b><u>Doubtful</u></b>	Loans with the characteristics of substandard loans with the added characteristic that collection or liquidation in full, on the basis of presently existing facts and conditions, is highly improbable.

The Company's internal creditworthiness grading system provides a measurement of credit risk based primarily on an evaluation of the borrower's cash flow and collateral. Category ratings are reviewed each quarter, at which time management analyzes the results, as well as other external statistics and factors related to loan performance.

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Portfolio Risks

The credit quality of our loan portfolio can potentially represent significant risk to our earnings, capital and liquidity. First Commonwealth devotes substantial resources to managing this risk primarily through our credit administration department that develops and administers policies and procedures for underwriting, maintaining, monitoring and collecting loans. Credit administration is independent of lending departments and oversight is provided by the Credit Committee of the First Commonwealth Board of Directors.

Total net charge-offs for the **six** nine months ended **June 30, 2023** September 30, 2023 and 2022 were **\$9.8 million** \$13.8 million and **\$2.7 million** \$5.1 million, respectively.

Age Analysis of Past Due Loans by Segment

The following tables delineate the aging analysis of the recorded investments in past due loans as of June 30, 2023 September 30, 2023 and December 31, 2022. Also included in these tables are loans that are 90 days or more past due and still accruing because they are well-secured and in the process of collection.

		June 30, 2023							September 30, 2023

Nonaccrual Loans

The previous tables summarize nonaccrual loans by loan segment. The Company generally places loans on nonaccrual status when the full and timely collection of interest or principal becomes uncertain, when part of the principal balance has been charged off and no restructuring has occurred, or the loans reach a certain number of days past due. Generally, loans 90 days or more past due are placed on nonaccrual status, except for consumer loans, which are placed on nonaccrual status at 150 days past due.

When a loan is placed on nonaccrual, the accrued unpaid interest receivable is reversed against interest income and all future payments received are applied as a reduction to the loan principal. Generally, the loan is returned to accrual status when (a) all delinquent interest and principal becomes current under the terms of the loan agreement or (b) the loan is both well-secured and in the process of collection and collectability is no longer in doubt.

Nonperforming Loans

Management considers loans to be nonperforming when, based on current information and events, it is determined that the Company will not be able to collect all amounts due according to the loan contract, including scheduled interest payments. When management identifies a loan as nonperforming, the credit loss is measured based on the present value of expected future cash flows, discounted at the loan's effective interest rate, except when the sole source for repayment of the loan is the operation or liquidation of collateral. When the loan is collateral dependent, the appraised value less estimated cost to sell is utilized. If management determines that the value of the loan is less than the recorded investment in the loan, a credit loss is recognized through an allowance estimate or a charge-off to the allowance for credit losses.

When the ultimate collectability of the total principal of a nonperforming loan is in doubt and the loan is on nonaccrual status, all payments are applied to principal, under the cost recovery method. When the ultimate collectability of the total principal of a

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

nonperforming loan is not in doubt and the loan is on nonaccrual status, contractual interest is credited to interest income when received under the cash basis method.

At **June 30, 2023** **September 30, 2023** and December 31, 2022, there were no nonperforming loans held for sale. During both the **six nine** months ended **June 30, 2023** **September 30, 2023** and 2022, there were no gains recognized on the sale of nonperforming loans.

The following tables include the recorded investment and unpaid principal balance for nonperforming loans with the associated allowance amount, if applicable, as of **June 30, 2023** **September 30, 2023** and December 31, 2022. Also presented are the average recorded investment in nonperforming loans and the related amount of interest recognized while the loan was considered nonperforming. Average balances are calculated using month-end balances of the loans for the period reported and are included in the table below based on their period-end allowance position. The increase in nonperforming loans is primarily a result of **\$18.7 million** **\$22.0 million** in loans acquired from Centric, offset by the removal of \$6.4 million in accruing troubled debt restructurings ("TDR's"). The TDR's were eliminated as a result of our adoption of ASU 2022-02, Financial Instruments Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures ("ASU 2022-02"). This standard was adopted on January 1, 2023 and eliminates the accounting guidance for TDR's while enhancing disclosure requirements for loan modifications for borrowers experiencing financial difficulty.

Unfunded commitments related to nonperforming loans were **\$0.2 million** **\$0.1 million** at both **June 30, 2023** **September 30, 2023** and December 31, 2022. After consideration of the requirements to draw and available collateral related to these commitments, it was determined that no reserve was required for these commitments at **June 30, 2023** **September 30, 2023** and December 31, 2022.

**ITEM 1. Financial Statements and Supplementary Data**

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**Loan Modifications Made to Borrowers Experiencing Financial Difficulty**

The Company adopted ASU 2022-02 on January 1, 2023 on a prospective basis. Disclosures for years prior to adoption continue to reflect TDR's as nonperforming loans and include TDR disclosures required under the previous guidance. Upon adoption of this guidance, the Company no longer establishes a specific reserve for modifications to borrowers experiencing financial difficulty. Instead, these modifications are included in their respective loan segment and an allowance is determined by a loss given default and probability of default methodology.

Modifications to borrowers experiencing financial difficulty may include interest rate reductions, principal forgiveness, other- than-insignificant payment delay, term extensions or any combination thereof.

The following tables present the amortized cost basis of loan modifications made to borrowers experiencing financial difficulty:

For the Six Months Ended June 30, 2023											For the Nine Months Ended September 30, 2023												
	Term										Term

#### ITEM 1. Financial Statements and Supplementary Data

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

A modification is considered to be in default when the loan is 90 days or more past due. For the **six** months ended **June 30, 2023** **September 30, 2023**, there were no modified loans that were considered to be in default. The following table shows the payment status of loans that have been modified on or after January 1, 2023, the date we adopted ASU 2022-02:

		June 30, 2023						September 30, 2023					
		90 days or			90 days or			90 days or			90 days or		
		30 - 59 days	60 - 89 days	greater and	30 - 59 days	60 - 89 days	greater and	30 - 59 days	60 - 89 days	greater and	30 - 59 days	60 - 89 days	greater and

#### Troubled Debt Restructurings Disclosures Prior to Adoption of ASU 2022-02

Troubled debt restructured loans are those loans whose terms have been renegotiated to provide a reduction or deferral of principal or interest as a result of the financial difficulties experienced by the borrower, who could not obtain comparable terms from alternative financing sources. Troubled debt restructured loans are considered to be nonperforming loans.

The following tables provide detail, including specific reserves and reasons for modification, related to loans identified as troubled debt restructurings:

For the Six Months Ended June 30, 2022												For the Nine Months Ended September 30, 2022													
Type of Modification												Type of Modification													
Total												Total													
Pre- Modification												Pre- Modification													
Post- Modification												Post- Modification													
Number												Number													
Outstanding												Outstanding													
Recorded												Recorded													
Specific												Specific													
Contracts												Contracts													
Maturity												Maturity													
Rate												Rate													
Payments												Payments													
Investment												Investment													
Reserve												Reserve													
(dollars in thousands)																									
Residential real estate	Residential real estate	2	\$ —	\$ 10	\$ 59	\$ 69	\$ 68	\$ —				Residential real estate	2	\$ —	\$ 10	\$ 59	\$ 69	\$ 68	\$ —						
Residential first lien	Residential first lien	2	—	10	59	69	68	—				Residential first lien	2	—	10	59	69	68	—						
Total	Total	2	\$ —	\$ 10	\$ 59	\$ 69	\$ 68	\$ —				Total	2	\$ —	\$ 10	\$ 59	\$ 69	\$ 68	\$ —						

The troubled debt restructurings included in the above tables are also included in the nonperforming loan tables provided earlier in this note. Loans defined as modified due to a change in rate may include loans that were modified for a change in rate as well as a re-amortization of the principal and an extension of the maturity. For the **six** nine months ended **June 30, 2022** **September 30, 2022**, \$10 thousand in rate modifications represent loans with modifications to the rate as well as payment as a result of re-amortization. The changes in loan balances between the pre-modification balance and the post-modification balance are due to customer payments.

For the three months ended **June 30, 2022** **September 30, 2022**, there were no loans identified as troubled debt restructurings.

A troubled debt restructuring is considered to be in default when a restructured loan is 90 days or more past due. **The following table provides information related to loans that were restructured within For both the past twelve months three and that were considered to be in default during the six nine months ended June 30, 2022.**

												2022			
												Number of Contracts	Recorded Investment		
												(dollars in thousands)			
Loans to individuals												1	\$	16	
Automobile and recreational vehicles												1		16	
Total												1	\$	16	

For the three months ended **June 30, 2022** **September 30, 2022**, there were no loans restructured within the past twelve months that were considered to be in default.

a) The provision expense (credit) shown here excludes the provision for off-balance sheet credit exposure included in the income statement.

#### Note 9 Leases

First Commonwealth has elected to apply certain practical expedients provided under ASU 2016-02 "Leases" (Topic 842) including (i) to not apply the requirements in the new standard to short-term leases; (ii) to not reassess the lease classification for any expired or existing lease; (iii) to account for lease and non-lease components separately; and (iv) to not reassess initial direct costs for any existing leases. The impact of this standard primarily relates to operating leases of certain real estate properties, including certain branch and ATM locations and office space. First Commonwealth has no material leasing arrangements for which it is the lessor of property or equipment.

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table represents the unaudited Consolidated Statements of Condition classification of the Company's right of use ("ROU") assets and lease liabilities, lease costs and other lease information.

		June 30, 2023		December 31, 2022		Balance sheet:		September 30, 2023		December 31, 2022	
Balance sheet:	Balance sheet:										
Operating lease asset classified as premises and equipment	Operating lease asset classified as premises and equipment	\$ 46,658		\$ 40,747		Operating lease asset classified as premises and equipment		\$ 45,783		\$ 40,747	
Operating lease liability classified as other liabilities	Operating lease liability classified as other liabilities	51,080		45,149		Operating lease liability classified as other liabilities		50,155		45,149	
		For the Three Months Ended		For the Six Months Ended				For the Three Months Ended		For the Nine Months Ended	
		June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022			September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Income statement:	Income statement:					Income statement:					
Operating lease cost classified as occupancy and equipment expense	Operating lease cost classified as occupancy and equipment expense	\$ 1,550	\$ 1,252	\$ 3,044	\$ 2,468	Operating lease cost classified as occupancy and equipment expense	\$ 1,521	\$ 1,259	\$ 4,565	\$ 3,727	
Weighted average lease term, in years	Weighted average lease term, in years			13.52	14.13	Weighted average lease term, in years			13.37	14.10	
Weighted average discount rate	Weighted average discount rate			3.50 %	3.24 %	Weighted average discount rate			3.51 %	3.28 %	
Operating cash flows	Operating cash flows	\$ 1,573	\$ 1,183			Operating cash flows			\$ 1,571	\$ 1,245	

In the above table, the increase in the ROU asset and lease liability at June 30, 2023 September 30, 2023 compared to December 31, 2022, is primarily a result of leases assumed as part of the Centric acquisition.

The ROU assets and lease liabilities are impacted by the length of the lease term and the discount rate used to present value the minimum lease payments. First Commonwealth's lease agreements often include one or more options to renew at the Company's discretion. If we consider the renewal option to be reasonably certain, we include the extended term in the calculation of the ROU asset and lease liability.

First Commonwealth uses incremental borrowing rates when calculating the lease liability because the rate implicit in the lease is not readily determinable. The incremental borrowing rate used by First Commonwealth is an amortizing loan rate obtained from the Federal Home Loan Bank ("FHLB") of Pittsburgh. This rate is consistent with a collateralized borrowing rate and is available for terms similar to the lease payment schedules.

Future minimum payments for operating leases with initial or remaining terms of one year or more as of **June 30, 2023** **September 30, 2023** were as follows (dollars in thousands):

For the twelve months ended:

June September 30, 2024	\$ 3,115	5,847
June September 30, 2025	5,675	5,621
June September 30, 2026	5,473	5,160
June September 30, 2027	5,043	4,909
June September 30, 2028	4,786	4,672
Thereafter	41,362	37,922
<b>Total future minimum lease payments</b>	<b>65,454</b>	<b>64,131</b>
Less remaining imputed interest	14,374	13,976
<b>Operating lease liability</b>	<b>\$ 51,080</b>	<b>50,155</b>

#### Note 10 Income Taxes

In accordance with FASB ASC Topic 740-10, "Accounting for Uncertainty in Income Taxes," at **June 30, 2023** **September 30, 2023** and December 31, 2022, First Commonwealth had no material unrecognized tax benefits or accrued interest and penalties. If applicable, First Commonwealth will record interest and penalties as a component of noninterest expense.

First Commonwealth is subject to routine audits of our tax returns by the Internal Revenue Service ("IRS") as well as all states in which we conduct business. Generally, tax years prior to the year ended December 31, 2019 are no longer open to examination by federal and state taxing authorities.

#### *ITEM 1. Financial Statements and Supplementary Data*

##### FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### Note 11 Fair Values of Assets and Liabilities

FASB ASC Topic 820, "Fair Value Measurements and Disclosures" ("Topic 820"), requires disclosures for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). All non-financial assets are included either as a separate line item on the unaudited Consolidated Statements of Financial Condition or in the "Other assets" category of the unaudited Consolidated Statements of Financial Condition. Currently, First Commonwealth does not have any non-financial liabilities to disclose.

FASB ASC Topic 825, "Financial Instruments" ("Topic 825"), permits entities to irrevocably elect to measure select financial instruments and certain other items at fair value. The unrealized gains and losses are required to be included in earnings each reporting period for the items that fair value measurement is elected. First Commonwealth has elected not to measure any existing financial instruments at fair value under Topic 825; however, in the future we may elect to adopt this guidance for select financial instruments.

In accordance with Topic 820, First Commonwealth groups financial assets and financial liabilities measured at fair value in three levels based on the principal markets in which the assets and liabilities are transacted and the observability of the data points used to determine fair value. These levels are:

- Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange ("NYSE"). Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.
- Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained for observable inputs for identical or comparable assets or liabilities from alternative pricing sources with reasonable levels of price transparency. Level 2 includes Obligations of U.S. Government securities issued by Agencies and Sponsored Enterprises, Obligations of States and Political Subdivisions, corporate securities, FHLB stock, loans held for sale, premise held for sale, interest rate derivatives (including interest rate caps, interest rate collars, interest rate swaps and risk participation agreements), certain other real estate owned and certain nonperforming loans.

Level 2 investment securities are valued by a recognized third party pricing service using observable inputs. The model used by the pricing service varies by asset class and incorporates available market, trade and bid information as well as cash flow information when applicable. Because many fixed-income investment securities do not trade on a daily basis, the model uses available information such as benchmark yield curves, benchmarking of like investment securities, sector groupings and matrix pricing. The model will also use processes such as an option-adjusted spread to assess the impact of interest rates and to develop prepayment estimates. Market inputs normally used in the pricing model include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications.

Management validates the market values provided by the third party service by having another source price 100% of the securities on a monthly basis, monthly monitoring of variances from prior period pricing and, on a monthly basis, evaluating pricing changes compared to expectations based on changes in the financial markets.

Other investments recorded in the unaudited Consolidated Statements of Financial Condition are primarily comprised of FHLB stock whose estimated fair value is based on its par value. Additional information on FHLB stock is provided in Note 7, "Investment Securities."

Loans held for sale include residential mortgage loans originated for sale in the secondary mortgage market. The estimated fair value for these loans was determined on the basis of rates obtained in the respective secondary market. Loans held for sale could also include the Small Business Administration guaranteed portion of small business loans. The

estimated fair value of these loans is based on the contract with the third party investor. When loans held for sale include other commercial loans, fair value is determined using an executed trade or market bid obtained from potential buyers.

Interest rate derivatives are reported at an estimated fair value utilizing Level 2 inputs and are included in other assets and other liabilities, and consist of interest rate swaps where there is no significant deterioration in the counterparties' and/or loan customers' credit risk since origination of the interest rate swap as well as interest rate caps, interest rate collars and risk participation agreements. First Commonwealth values its interest rate swap and cap positions using a yield curve by taking market prices/rates for an appropriate set of instruments. The set of instruments used to determine the U.S. Dollar yield curve includes cash LIBOR Secured Overnight Financing Rate ("SOFR") rates from overnight to one year, Eurodollar futures contracts and swap rates from one year to thirty SOFR

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

swap rates from one year to thirty years. These yield curves determine the valuations of interest rate swaps. Interest rate derivatives are further described in Note 12, "Derivatives."

For purposes of potential valuation adjustments to our derivative positions, First Commonwealth evaluates the credit risk of its counterparties as well as our own credit risk. Accordingly, we have considered factors such as the likelihood of default, expected loss given default, net exposures and remaining contractual life, among other things, in determining if any estimated fair value adjustments related to credit risk are required. We review our counterparty exposure quarterly, and when necessary, appropriate adjustments are made to reflect the exposure.

Interest rate derivatives also include interest rate forwards entered into to hedge residential mortgage loans held for sale and the related interest-rate lock commitments. This includes forward commitments to sell mortgage loans. The fair value of these derivative financial instruments are based on derivative market data inputs as of the valuation date and the underlying value of mortgage loans for rate lock commitments.

In addition, at times the Company hedges foreign currency risk through the use of foreign exchange forward contracts. The fair value of foreign exchange forward contracts is based on the differential between the contract price and the market-based forward rate.

The estimated fair value for other real estate owned included in Level 2 is determined by either an independent market-based appraisal less estimated costs to sell or an executed sales agreement.

- Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. If the inputs used to provide the valuation are unobservable and/or there is very little, if any, market activity for the security or similar securities, the securities would be considered Level 3 securities. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities. The assets included in Level 3 are non-marketable equity investments, certain interest rate derivatives and certain nonperforming loans.

The estimated fair value of other investments included in Level 3 is based on carrying value as these securities do not have a readily determinable fair value.

The estimated fair value of limited partnership investments included in Level 3 is based on par value.

For interest rate derivatives included in Level 3, the fair value incorporates credit risk by considering such factors as likelihood of default and expected loss given default based on the credit quality of the underlying counterparties (loan customers).

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In accordance with ASU No. 2011-04, the following table provides information related to quantitative inputs and assumptions used in Level 3 fair value measurements.

		Range / (weighted average)				Range / (weighted average)			
		Fair Value (dollars in thousands)	Valuation Technique	Unobservable Inputs		Fair Value (dollars in thousands)	Valuation Technique	Unobservable Inputs	
June 30, 2023	September 30, 2023				September 30, 2023				
Other Investments	Other Investments	\$ 6,182	Carrying Value	N/A	Other Investments	\$ 6,182	Carrying Value	N/A	N/A
Nonperforming Loans	Nonperforming Loans	266	(a) Gas Reserve	N/A	Nonperforming Loans	253	(a) Gas Reserve	N/A	N/A
			Discount rate	10.00%			Discount rate	10.00%	
			Gas per MMBTU	\$3.00 - \$3.00 (b)			Gas per MMBTU	\$3.00 - \$3.00 (b)	
				\$80.00 - \$80.00 (b)				\$80.00 - \$80.00 (b)	
			Oil per BBL/d	\$80.00 (b)			Oil per BBL/d	\$80.00 (b)	

Limited Partnership Investments	Limited Partnership Investments	25,011	Par Value	N/A	N/A	Limited Partnership Investments	26,397	Par Value	N/A	N/A
December 31, 2022	December 31, 2022					December 31, 2022				
Other Investments	Other Investments	\$ 1,170	Carrying Value	N/A	N/A	Other Investments	\$ 1,170	Carrying Value	N/A	N/A
Nonperforming Loans	Nonperforming Loans	363 (a)	Gas Reserve Study	Discount rate	10.00%	Nonperforming Loans	363 (a)	Gas Reserve Study	Discount rate	10.00%
			Gas per MMBTU	\$3.00 - \$3.00 (b)				Gas per MMBTU	\$3.00 - \$3.00 (b)	
				\$80.00 - \$80.00 (b)					\$80.00 - \$80.00 (b)	
			Oil per BBL/d	\$80.00 (b)				Oil per BBL/d	\$80.00 (b)	
Limited Partnership Investments	Limited Partnership Investments	17,691	Par Value	N/A	N/A	Limited Partnership Investments	17,691	Par Value	N/A	N/A

(a) The remainder of nonperforming loans valued using Level 3 inputs are not included in this disclosure as the values of those loans are based on bankruptcy agreement documentation.

(b) Unobservable inputs are defined as follows: MMBTU - one million British thermal units; BBL/d - barrels per day.

The discount rate is the significant unobservable input used in the fair value measurement of nonperforming loans. Significant increases in this rate would result in a decrease in the estimated fair value of the loans, while a decrease in this rate would result in a higher fair value measurement. Other unobservable inputs in the fair value measurement of nonperforming loans relate to gas, oil and natural gas prices. Increases in these prices would result in an increase in the estimated fair value of the loans, while a decrease in these prices would result in a lower fair value measurement.

The tables below present the balances of assets and liabilities measured at fair value on a recurring basis:

Nonperforming loans over \$250 thousand are individually reviewed to determine the amount of each loan considered to be at risk of non-collection. The fair value for nonperforming loans that are collateral-based is determined by reviewing real property appraisals, equipment valuations, accounts receivable listings and other financial information. A discounted cash flow analysis

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

is performed to determine fair value for nonperforming loans when an observable market price or a current appraisal is not available. For real estate secured loans, First Commonwealth's loan policy requires updated appraisals be obtained at least every twelve months on all nonperforming loans with balances of \$250 thousand and over. For real estate secured loans with balances under \$250 thousand, we rely on broker price opinions. For non-real estate secured assets, the Company normally relies on third party valuations specific to the collateral type.

The fair value for other real estate owned, determined by either an independent market-based appraisal less estimated costs to sell or an executed sales agreement, is classified as Level 2. The fair value for other real estate owned, determined using an internal valuation, is classified as Level 3. Other real estate owned has a current carrying value of \$0.3 million \$0.8 million as of June 30, 2023 September 30, 2023 and consists of three seven residential real estate properties in Pennsylvania, Pennsylvania and Ohio. We review whether events and circumstances subsequent to a transfer to other real estate owned have occurred that indicate the balance of those assets may not be recoverable. If events and circumstances indicate further impairment we will record a charge to the extent that the carrying value of the assets exceed their fair values, less estimated cost to sell, as determined by valuation techniques appropriate in the circumstances.

Certain other assets and liabilities, including goodwill, core deposit intangibles and customer list intangibles are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments only in certain circumstances. Additional information related to goodwill is provided in Note 13, "Goodwill." There were no other assets or liabilities measured at fair value on a nonrecurring basis during the six nine months ended June 30, 2023 September 30, 2023.

FASB ASC Topic 825-10, "Transition Related to FSP FAS 107-1" and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," requires disclosure of the fair value of financial assets and financial liabilities, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or nonrecurring basis. The methodologies for estimating the fair value of financial assets and financial liabilities that are measured at fair value on a recurring or nonrecurring basis are as discussed above. The methodologies for other financial assets and financial liabilities are discussed below.

**Cash and due from banks and interest-bearing bank deposits:** The carrying amounts for cash and due from banks and interest-bearing bank deposits approximate the estimated fair values of such assets.

**Securities:** Fair values for securities available for sale and held to maturity are based on quoted market prices, if available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments. The carrying value of other investments, which includes FHLB stock and other equity investments, is considered a reasonable estimate of fair value.

**Loans:** The fair values of all loans are estimated by discounting the estimated future cash flows using interest rates currently offered for loans with similar terms to borrowers of similar credit quality adjusted for past due and nonperforming loans.

**Loans held for sale:** The estimated fair value of loans held for sale is based on market bids obtained from potential buyers.

**Off-balance sheet instruments:** Many of First Commonwealth's off-balance sheet instruments, primarily loan commitments and standby letters of credit, are expected to expire without being drawn upon; therefore, the commitment amounts do not necessarily represent future cash requirements. FASB ASC Topic 460, "Guarantees" clarified that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The carrying amount and estimated fair value for standby letters of credit was \$0.1 million at both June 30, 2023 September 30, 2023 and December 31, 2022. See Note 6, "Commitments and Contingent Liabilities," for additional information.

**Deposit liabilities:** The estimated fair value of demand deposits, savings accounts and money market deposits is the amount payable on demand at the reporting date because of the customers' ability to withdraw funds immediately. The carrying fair value of variable rate time deposit accounts and certificates of deposit approximate their fair values at the report date. Also, fair values of fixed rate time deposits for both periods are estimated by discounting the future cash flows using interest rates currently being offered and a schedule of aggregated expected maturities.

**Short-term borrowings:** The fair values of borrowings from the FHLB were estimated based on the estimated incremental borrowing rate for similar type borrowings. The carrying amounts of other short-term borrowings, such as federal funds purchased and securities sold under agreement to repurchase, were used to approximate fair value due to the short-term nature of the borrowings.

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**Subordinated debt and long-term debt:** The fair value is estimated by discounting the future cash flows using First Commonwealth's estimate of the current market rate for similar types of borrowing arrangements.

The following table presents carrying amounts and fair values of First Commonwealth's financial instruments:

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12 Derivatives

Derivatives Not Designated as Hedging Instruments

First Commonwealth is a party to interest rate derivatives that are not designated as hedging instruments. These derivatives relate to interest rate swaps that First Commonwealth enters into with customers to allow customers to convert variable rate loans to a fixed rate. First Commonwealth pays interest to the customer at a floating rate on the notional amount and receives interest from the customer at a fixed rate for the same notional amount. At the same time the interest rate swap is entered into with the customer, an offsetting interest rate swap is entered into with another financial institution. First Commonwealth pays the other financial institution interest at the same fixed rate on the same notional amount as the swap entered into with the customer, and receives interest from the financial institution for the same floating rate on the same notional amount.

The changes in the fair value of the swaps offset each other, except for the credit risk of the counterparties, which is determined by taking into consideration the risk rating, probability of default and loss given default for all counterparties.

We have 25 27 risk participation agreements with financial institution counterparties for interest rate swaps related to loans in which we are a participant. The risk participation agreements provide credit protection to the financial institution should the borrower fail to perform on its interest rate derivative contract with the financial institution. We have 15 16 risk participation agreements with financial institution counterparties for interest rate swaps related to loans in which we are the lead bank. The risk participation agreement provides credit protection to us should the borrower fail to perform on its interest rate derivative contract with us.

First Commonwealth is also party to interest rate caps and collars that are not designated as hedging instruments. The interest rate caps relate to contracts that First Commonwealth enters into with loan customers that provide a maximum interest rate on their variable rate loan. At the same time the interest rate cap is entered into with the customer, First Commonwealth enters into an offsetting interest rate cap with another financial institution. The notional amount and maximum interest rate on both interest cap contracts are identical. The interest rate collars relate to contracts that First Commonwealth enters into with loan customers that provides both a maximum and minimum interest rate on their variable rate loan. At the same time the interest rate collar is entered into with the customer, First Commonwealth enters into an offsetting interest rate collar with another financial institution. The notional amount and the maximum and minimum interest rates on both interest collar contracts are identical.

The fee received, less the estimate of the loss for the credit exposure, was recognized in earnings at the time of the transaction.

Derivatives Designated as Hedging Instruments

In August 2019, the Company entered into two interest rate swap contracts that are designated as cash flow hedges. These contracts mature on August 15, 2024 and August 15, 2026 and have notional amounts of \$30.0 million and \$40.0 million, respectively. The Company's risk management objective for these hedges is to reduce its exposure to variability in expected future cash flows related to interest payments made on subordinated debentures. Initially these swaps were benchmarked to the 3-month LIBOR rate.

Therefore, the interest rate swaps convert the interest rate benchmark on the first \$70.0 million of 3-month LIBOR based subordinated debentures to a fixed rate. As rate; however, as a result of the discontinuance of the LIBOR rate on June 30, 2023, both of these the swap contracts were amended to hedge exposure to the variability of the 3-month CME Term Secured Overnight Financing Rate ("SOFR"), instead of the 3-month LIBOR rate. SOFR. This change is in agreement with amendments made to the interest rate on the subordinated debentures as a result of the discontinuance of LIBOR. Therefore, the interest rate swaps convert the interest rate benchmark on the first \$70.0 million of 3-month SOFR based subordinated debentures to a fixed rate.

During 2021, the Company entered into eight interest rate swap contracts that were designated as cash flow hedges. The interest rate swaps have a total notional amount of \$500.0 million: \$75.0 million with an original maturity of three years, \$250.0 million with an original maturity of four years and \$175.0 million with an original maturity of five years. The Company's risk management objective for these hedges is to reduce its exposure to variability in expected future cash flows related to interest payments on commercial loans. Initially these swaps were benchmarked to the 1-month LIBOR rate, however as a result of the discontinuance of the LIBOR rate on June 30, 2023, these swaps were amended to hedge exposure to the variability of the 1-month CME SOFR rate. Therefore, the interest rate swaps convert the interest payments on the first \$500.0 million of 1-month LIBOR CME SOFR based commercial loans into fixed rate payments. All of these interest rate swap contracts were amended to hedge the Company's exposure to the 3-month CME SOFR rate, which is the new benchmark rate used for the commercial loans after the discontinuance of LIBOR on June 30, 2023.

The periodic net settlement of these interest rate swaps are recorded as an adjustment to "Interest on subordinated debentures" or "Interest and fees on loans" in the unaudited Consolidated Statements of Income. For the three and six nine months ended June 30, 2023 September 30, 2023, there was a negative impact of \$4.8 million and \$9.0 \$13.8 million, respectively, on net interest income as a result of these interest rate swaps. Changes in the fair value of the cash flow hedges are reported on the balance sheet and in OCI. When

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

OCI. When the cash flows associated with the hedged item are realized, the gain or loss included in OCI is recognized in "Interest on subordinated debentures," or "Interest and fees on loans", the same line items in the unaudited Consolidated Statements of Income as the income on the hedged items. The cash flow hedges were highly effective at **June 30, 2023** September 30, 2023, and changes in the fair value attributed to hedge ineffectiveness were not material.

The Company also enters into interest rate lock commitments in conjunction with its mortgage origination business. These are commitments to originate loans whereby the interest rate on the loan is determined prior to funding and the customers have locked into that interest rate. The Company locks in the rate in with an investor and commits to deliver the loan if settlement occurs ("best efforts") or commits to deliver the locked loan in a binding ("mandatory") delivery program with an investor. Loans under mandatory rate lock commitments are covered under forward sales contracts of mortgage-backed securities ("MBS"). Forward sales contracts of MBS are recorded at fair value with changes in fair value recorded in "Noninterest income" in the unaudited Consolidated Statements of Income. The impact to noninterest income for the three and **six nine** months ended **June 30, 2023** September 30, 2023 was an **increase decrease** of **\$0.1 million** **\$0.6 million** and **\$0.4 million** **\$0.2 million**, respectively.

Interest rate lock commitments and commitments to deliver loans to investors are considered derivatives. The market value of interest rate lock commitments and best efforts contracts are not readily ascertainable with precision because they are not actively traded in stand-alone markets. We determine the fair value of rate lock commitments and delivery contracts by measuring the fair value of the underlying asset, which is impacted by current interest rates and taking into consideration the probability that the rate lock commitments will close or will be funded. At **June 30, 2023** September 30, 2023, the underlying funded mortgage loan commitments had a carrying value of **\$7.5 million** **\$6.0 million** and a fair value of **\$7.9 million** **\$5.6 million**, while the underlying unfunded mortgage loan commitments had a notional amount of **\$33.5 million** **\$51.4 million**. At December 31, 2022, the underlying funded mortgage loan commitments had a carrying value of \$4.3 million and a fair value of \$4.0 million, while the underlying unfunded mortgage loan commitments had a notional amount of \$12.0 million. The interest rate lock commitments decreased other noninterest income by **\$0.3 million** **\$0.5 million** and **\$0.1 million** **\$0.6 million**, respectively, for the three and **six nine** months ended **June 30, 2023** September 30, 2023.

In addition, based on customer activity, a small amount of interest income on loans may be exposed to changes in foreign exchange rates. Several commercial borrowers have a portion of their operations outside of the United States and from time to time borrow funds on a short-term basis to fund those operations. In order to reduce the risk related to the translation of foreign denominated transactions into U.S. dollars, the Company may enter into foreign exchange forward contracts. These contracts relate principally to the Euro and the Canadian dollar. The contracts are recorded at fair value with changes in fair value recorded in "Other operating expense" in the unaudited Consolidated Statements of Income. At **June 30, 2023** September 30, 2023 and December 31, 2022, there were no foreign exchange contracts outstanding and there was no impact to other noninterest expense for the three and **six nine** months ended **June 30, 2023** September 30, 2023.

The fair value of our derivatives is included in a table in Note 11, "Fair Values of Assets and Liabilities," in the line items "Other assets" and "Other liabilities."

#### Note 13 Goodwill

FASB ASC Topic 350-20, "Intangibles – Goodwill and Other" requires an annual valuation of the fair value of a reporting unit that has goodwill and a comparison of the fair value to the book value of equity to determine whether the goodwill has been impaired. Goodwill is also required to be tested on an interim basis if an event or circumstance indicates that it is more likely

ITEM 1. *Financial Statements and Supplementary Data*

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

than not that an impairment loss has been incurred. When circumstances indicate that it is more likely than not that fair value is less than carrying value, a triggering event has occurred and a quantitative impairment test would be performed.

We consider First Commonwealth to be one reporting unit. The carrying amount of goodwill at **June 30, 2023** **September 30, 2023** and December 31, 2022 was \$363.7 million and \$303.3 million, respectively. The \$60.4 million increase in goodwill during the **six** **nine** months ended **June 30, 2023** **September 30, 2023** is the result of the Centric acquisition. No impairment charges on goodwill or other intangible assets were incurred in 2023 or 2022.

We test goodwill for impairment as of November 30th each year and again at any quarter-end if any material events occur during a quarter that may affect goodwill.

As of **June 30, 2023** **September 30, 2023**, no indicators of impairment were identified; however, changing economic conditions that may adversely affect our performance, the fair value of our assets and liabilities, or our stock price could result in impairment, which could adversely affect earnings in future periods. Management will continue to monitor events that could impact this conclusion in the future.

**Note 14 Subordinated Debentures**

Subordinated debentures outstanding are as follows:

		December 31,						September 30,		December 31,

With the acquisition of Centric, First Commonwealth acquired a ten-year subordinated note with a principal balance of \$6.0 million. The rate remains fixed at 4.50% until March 29, 2026, then adjusts quarterly to Prime + 1.00%. The Bank may redeem the notes, beginning with the interest payment due on March 29, 2026, in whole or in part at a redemption price equal to 100% of the principal amount of the subordinated notes, plus accrued and unpaid interest to the date of redemption. A fair value premium of \$0.6 million was recognized in connection with the acquisition.

On May 21, 2018, First Commonwealth issued ten-year subordinated notes with an aggregate principal amount of \$50.0 million. Interest is paid quarterly at a rate of three-month LIBOR CME Term SOFR + 0.26161% + 1.845%. As a result of the discontinuance of the LIBOR rate as an available benchmark rate on June 30, 2023, beginning with the first rate reset after June 30, 2023 the rate will adjust quarterly to the three-month CME term SOFR + 0.26161%. Subject to regulatory approval, the Bank The Company may redeem the notes, in whole or in part at a redemption price equal to 100% of the principal amount of the subordinated notes, plus accrued and unpaid interest to the date of redemption. Deferred issuance costs of \$0.9 million are being amortized on a straight-line basis over the term of the notes.

On May 21, 2018, First Commonwealth issued fifteen-year subordinated notes with an aggregate principal amount of \$50.0 million and a fixed-to-floating rate of 5.50%. The rate remains fixed until June 1, 2028, then adjusts on a quarterly basis to three-month LIBOR CME Term SOFR + 0.26161% + 2.37%. As a result of the discontinuance of the LIBOR rate, when these notes convert to a floating rate they will adjust quarterly to the three-month CME term SOFR + 0.26161%. The Bank may redeem the notes, subject to regulatory approval, beginning with the interest payment due on June 1, 2028, in whole or in part at a redemption price equal to 100% of the principal amount of the

subordinated notes, plus accrued and unpaid interest to the date of redemption. Deferred issuance costs of \$1.1 million are being amortized on a straight-line basis over the term of the notes.

First Commonwealth currently has two trusts, First Commonwealth Capital Trust II and First Commonwealth Capital Trust III, of which 100% of the common equity is owned by First Commonwealth. The trusts were formed for the purpose of issuing company obligated mandatorily redeemable capital securities to third-party investors and investing the proceeds from the sale of the capital securities solely in junior subordinated debt securities ("subordinated debentures") of First Commonwealth. The subordinated debentures held by each trust are the sole assets of the trust.

**ITEM 1. Financial Statements and Supplementary Data**

**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Interest on the debentures issued to First Commonwealth Capital Trust III is paid quarterly at a floating rate of three-month **LIBOR CME Term SOFR + 0.26161% + 2.85%**, which is reset quarterly. As a result of the discontinuance of the LIBOR rate as an available benchmark rate on June 30, 2023, beginning with the first rate reset after June 30, 2023 the rate will adjust quarterly to the three-month CME term SOFR + 0.26161%. Subject to regulatory approval, First Commonwealth may redeem the debentures, in whole or in part, at its option on any interest payment date at a redemption price equal to 100% of the principal amount of the debentures, plus accrued and unpaid interest to the date of the redemption. Deferred issuance costs of \$0.6 million are being amortized on a straight-line basis over the term of the securities.

Interest on the debentures issued to First Commonwealth Capital Trust II is paid quarterly at a floating rate of three-month **LIBOR CME Term SOFR + 0.26161% + 2.85%**, which is reset quarterly. As a result of the discontinuance of the LIBOR rate as an available benchmark rate on June 30, 2023, beginning with the first rate reset after June 30, 2023 the rate will adjust quarterly to the three-month CME term SOFR + 0.26161%. Subject to regulatory approval, First Commonwealth may redeem the debentures, in whole or in part, at its option at a redemption price equal to 100% of the principal amount of the debentures, plus accrued and unpaid interest to the date of the redemption. Deferred issuance costs of \$0.5 million are being amortized on a straight-line basis over the term of the securities.

In order to reduce its exposure to variability in expected future cash flows related to interest payments on First Commonwealth Capital Trust II and III, the Company entered into two interest rate swap contracts that are designated as cash flow hedges. These contracts fix the index rate based portion of the interest rate on Capital Trust II at 1.515% until August 15, 2024 and on Capital Trust III at 1.525% until August 15, 2026. Additional information related to these cash flow hedges can be found in Note **12-12** - "Derivatives".

**Note 15 Revenue Recognition**

Substantially all of the Company's revenue is generated from contracts with customers. Revenue associated with financial instruments, including revenue from loans and securities, certain noninterest income streams such as fees associated with derivatives are not in scope of FASB ASC Topic 606 - "Revenue from Contracts with Customers" ("Topic 606"). Topic 606 is applicable to noninterest revenue streams such as trust income, service charges on deposits, insurance and retail brokerage commissions, card-related interchange income and gain/(loss) on sale of OREO. For contracts within the scope of Topic 606, the Company immediately expenses contract acquisition costs when the asset that would have resulted from capitalizing these costs would have been amortized in one year or less.

**Noninterest revenue streams in-scope of Topic 606 are discussed below:**

***Trust Income***

Trust income is primarily comprised of fees earned from the management and administration of trusts and other customer assets. The Company's performance obligation is generally satisfied over time and the resulting fees are recognized monthly, based upon a tiered scale of market value of the assets under management at month-end. Payment is generally received a few days after month end through a direct charge to customers' accounts. The Company does not earn performance-based incentives. Optional services such as financial planning or tax return preparation services are also available to trust customers. The Company's performance obligation for these transactional-based services is generally satisfied and related revenue recognized at a point in time. Payment is received shortly after services are rendered.

**ITEM 1. Financial Statements and Supplementary Data**

**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

***Service Charges on Deposit Accounts***

Service charges on deposit accounts consist of fees earned from its deposit customers for transaction-based, account maintenance, overdraft services and account analysis fees. Transaction-based fees, which include services such as ATM use fees, stop payment fees, statement rendering and ACH fees are recognized at the time the transaction is executed which is the point in time the Company fulfills the customer's request. Monthly account maintenance fees are earned over the course of the month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. The Company's performance obligation for account analysis fees is generally satisfied, and the related revenue recognized, during the month the service is provided. Payment for service charges on deposit accounts is primarily received immediately or in the following month through a direct charge to customers' accounts.

**ITEM 1. Financial Statements and Supplementary Data**

**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

#### Insurance and Retail Brokerage Commissions

Insurance income primarily consists of commissions received from execution of personal, business and health insurance policies when acting as an agent on behalf of insurance carriers. The Company's performance obligation is generally satisfied upon the issuance of the insurance policy. Because the Company's contracts with the insurance carriers are generally cancellable by either party, with minimal notice, insurance commissions are recognized during the policy period as received. Also, the majority of insurance commissions are received on a monthly basis during the policy period; however, some carriers pay the full annual commission to First Commonwealth at the time of policy issuance or renewal. In these cases, First Commonwealth would be required to refund any commissions it would not be entitled to as a result of cancelled or terminated policies. The Company has established a refund liability for the remaining term of the policies expected to be cancelled. The Company also receives incentive-based contingency fees from the insurance carriers. Contingency fee revenue, which totals approximately \$0.3 million per year, is recognized as received due to the immaterial amount.

Retail brokerage income primarily consists of commissions received on annuity and investment product sales through a third-party service provider. The Company's performance obligation is generally satisfied upon the issuance of the annuity policy or the execution of an investment transaction. The Company does not earn a significant amount of trailer fees on annuity sales. However, after considering the factors impacting these trailer fees, such as the uncertainty of investor behavior and changes in the market value of assets, First Commonwealth determined that it would recognize trailing fees as received because it could not reasonably estimate an amount of future trailing commissions for which collection is probable. Commissions from the third-party service provider are received on a monthly basis based upon customer activity for the month. The fees are recognized monthly with a receivable until commissions are received from the third-party service provider the following month. Because the Company acts as an agent in arranging the relationship between the customer and the third-party service provider and does not control the services rendered to the customers, retail brokerage fees are presented net of related costs, including \$2.1 million \$3.1 million and \$2.0 million \$2.9 million in commission expense as of June 30, 2023 September 30, 2023 and 2022, respectively.

#### Card-Related Interchange Income

Card-related interchange income is primarily comprised of debit and credit card income, ATM fees and merchant services income. Debit and credit card income is primarily comprised of interchange fees earned whenever the Company's debit and credit cards are processed through card payment networks such as MasterCard. ATM fees are primarily generated when a Company cardholder uses a non-Company ATM or a non-Company cardholder uses a Company ATM. Merchant services income mainly represents fees charged to merchants to process their debit and credit card transactions, in addition to account management fees. Card-related interchange income is recognized daily as the customer transactions are settled.

#### Other Income

Other income includes service revenue from processing wire transfers, bill pay service, cashier's checks, and other services. The Company's performance obligation for these services are largely satisfied, and related revenue recognized, when the services are rendered or upon completion. Payment is typically received immediately or in the following month.

#### ITEM 1. Financial Statements and Supplementary Data

#### FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### Gains/(losses) on sales of OREO

First Commonwealth records a gain or loss from the sale of OREO when control of the property transfers to the buyer, which generally occurs at the time of an executed deed. When First Commonwealth finances the sale of OREO to the buyer, an assessment of whether the buyer is committed to perform their obligations under the contract is completed along with an evaluation of whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon transfer of control of the property to the buyer. In determining the gain or loss on the sale, First Commonwealth adjusts the transaction price and the related gain or loss on sale if a significant financing component is present.

ITEM 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*  
 FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

This discussion and the related financial data are presented to assist in the understanding and evaluation of the consolidated financial condition and the results of operations of First Commonwealth Financial Corporation including its subsidiaries ("First Commonwealth") for the three and **six** **nine** months ended **June 30, 2023** **September 30, 2023** and 2022, and should be read in conjunction with the unaudited Consolidated Financial Statements and notes thereto included in this Form 10-Q.

#### Forward-Looking Statements

Certain statements contained in this Quarterly Report on Form 10-Q that are not statements of historical fact constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"), notwithstanding that such statements are not specifically identified as such. In addition, certain statements may be contained in our future filings with the Securities and Exchange Commission, in press releases, and in oral and written statements made by us or with our approval that are not statements of historical fact and constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements include, but are not limited to: (i) projections of revenues, expenses, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans, objectives and expectations of First Commonwealth or its management or Board of Directors, including those relating to products, services or operations; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as "believe," "anticipate," "expect," "intend," "plan," "estimate," or words of similar meaning, or future or conditional verbs such as "will," "would," "should," "could" or "may," are intended to identify forward-looking statements. Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from those in such statements. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to:

- Local, regional, national and international economic conditions and the impact they may have on us and our customers and our assessment of that impact.
- Volatility and disruption in national and international financial markets.
- Government intervention in the U.S. financial system.
- Changes in the mix of loan geographies, sectors and types or the level of non-performing assets and charge-offs.
- Changes in estimates of future reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements.
- The effects of and changes in trade and monetary and fiscal policies and laws, including the interest rate policies of the Federal Reserve Board.
- Inflation, interest rate, securities market and monetary fluctuations.
- Unexpected outflows of uninsured deposits.
- The effect of changes in laws and regulations, including with respect to capital, and liquidity requirements, which may become more stringent in light of recent market events, may adversely affect our financial condition or results of operations.
- Factors that can impact the performance of our loan portfolio, including changes in real estate values and liquidity in our primary market areas, the financial health of our commercial borrowers and the success of construction projects that we finance, including any loans acquired in acquisition transactions.

- The soundness of other financial institutions.
- Political instability.
- Impairment of our goodwill or other intangible assets.
- Acts of God or of war or terrorism.
- The timely development and acceptance of new products and services and perceived overall value of these products and services by users.
- Changes in consumer spending, borrowings and savings habits.
- Changes in the financial performance and/or condition of our borrowers.
- Technological changes.
- The cost and effects of cyber incidents or other failures, interruption or security breaches of our systems or those of third-party providers.
- Acquisitions and integration of acquired businesses.
- Our ability to increase market share and control expenses.
- Our ability to attract and retain qualified employees.
- Changes in the competitive environment in our markets and among banking organizations and other financial service providers.

*ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)*  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

- The effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters.
- Changes in the reliability of our vendors, internal control systems or information systems.
- Changes in our liquidity position.
- Changes in our organization, compensation and benefit plans.
- The costs and effects of legal and regulatory developments, the resolution of legal proceedings or regulatory or other governmental inquiries, the results of regulatory examinations or reviews and the ability to obtain required regulatory approvals.
- Greater than expected costs or difficulties related to the integration of new products and lines of business.
- Our success at managing the risks involved in the foregoing items.

Forward-looking statements speak only as of the date on which such statements are made. We do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the occurrence of unanticipated events.

**Explanation of Use of Non-GAAP Financial Measures**

In addition to the results of operations presented in accordance with generally accepted accounting principles ("GAAP"), First Commonwealth management uses, and this quarterly report contains or references, certain non-GAAP financial measures, such as net interest income on a fully taxable equivalent basis. We believe these non-GAAP financial measures provide information that is useful to investors in understanding our underlying operational performance and our business and performance trends as they facilitate comparison with the performance of others in the financial services industry. Although we believe that these non-GAAP financial measures enhance investors' understanding of our business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP.

We believe the presentation of net interest income on a fully taxable equivalent basis ensures comparability of net interest income arising from both taxable and tax-exempt sources and is consistent with industry practice. Interest income per the unaudited Consolidated Statements of Income is reconciled to net interest income adjusted to a fully taxable equivalent basis on pages 62 and 70, respectively, for the ~~six~~ nine and three months ended ~~June 30, 2023~~ September 30, 2023 and 2022.

#### Results of Operations

**Six Nine Months Ended June 30, 2023 September 30, 2023 Compared to Six Nine Months Ended June 30, 2022 September 30, 2022**

##### Net Income

For the six nine months ended June 30, 2023 September 30, 2023, First Commonwealth had net income of \$73.0 million \$112.2 million, or \$0.72 \$1.10 diluted earnings per share, compared to net income of \$58.5 million \$92.4 million, or \$0.62 \$0.98 diluted earnings per share, in the six nine months ended June 30, 2022 September 30, 2022. The increase in net income was primarily the result of a \$50.3 million \$65.7 million increase in net interest income and a \$5.9 million \$6.0 million decrease in provision for credit losses, excluding the \$10.7 million in provision expense related to the day 1 CECL adjustment on non-PCD loans acquired in the Centric acquisition. Partially offsetting these positive changes was a \$25.9 \$33.4 million increase in noninterest expense.

For the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, the Company's return on average equity was **12.29%** **12.35%** and its return on average assets was **1.36%** **1.37%**, compared to **10.86%** **11.47%** and **1.23%** **1.29%**, respectively, for the **six** **nine** months ended **June 30, 2022** **September 30, 2022**.

#### Net Interest Income

Net interest income, on a fully taxable equivalent basis, was **\$192.8 million** **\$290.9 million** in the first **six** **nine** months of 2023, compared to **\$142.3 million** **\$225.0 million** for the same period in 2022. The increase in net interest income can be attributed to growth in **earning** **interest-earning** assets and a **159** **155** basis point increase in the yield on interest-earning assets offset by a **137** **162** basis point increase in the cost of interest-bearing liabilities. Net interest income comprises the majority of our operating revenue (net interest income before **provision** **expense** plus **noninterest** **income**), at 80.2% and 74.5% for the six months ended June 30, 2023 and 2022, respectively.

#### ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued) FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

**provision** **expense** plus **noninterest** **income**), at 80.0% and 75.1% for the nine months ended September 30, 2023 and 2022, respectively.

The net interest margin on a fully taxable equivalent basis was **3.93%** **3.87%** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** and **3.29%** **3.45%** for the **six** **nine** months ended **June 30, 2022** **September 30, 2022**. The net interest margin is affected by changes in the level of interest rates and the amount and composition of interest-earning assets and interest-bearing liabilities.

The taxable equivalent yield on interest-earning assets was **5.02%** **5.14%** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, an increase of **159** **155** basis points compared to the **3.43%** **3.59%** yield for the same period in 2022. This change is largely due to a result of the higher interest rate environment in 2023 and resulted in the loan portfolio yield which improved increasing by **154** **152** basis points when compared to the **six** **nine** months ended **June 30, 2022** **September 30, 2022**. Contributing to this increase was the yield on our adjustable and variable rate commercial loan portfolios, which increased **262** **251** basis points largely due to the Federal Reserve increasing short term interest rates by **350** **225** basis points since **June 30, 2022** **September 30, 2022**. Additionally, **9** **nine** basis points of the increase in the yield on interest-earnings assets can be attributed to the recognition of **\$4.4 million** **\$6.9 million** in accretion of the purchase accounting marks, recognized as a result of primarily from the Centric acquisition.

The investment portfolio yield increased **29** **34** basis points in comparison to the prior year as new volume rates were higher than the portfolio yield. The average investment portfolio balance decreased **\$233.0** **\$191.6 million** as maturities and runoff funded loan growth. The yield on interest-bearing deposits with banks increased **466** **460** basis points for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** as compared to the prior year, while the average balance decreased from an average of **\$308.5** **\$240.5 million** in 2022 to **\$178.1** **\$197.5 million** in 2023.

The cost of interest-bearing liabilities increased to **1.59%** **1.84%** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, from 0.22% for the same period in 2022. The cost of interest-bearing deposits increased **127** **149** basis points and short-term borrowings increased **429** **462** basis points in comparison to the same period last year. The increase in cost of interest-bearing deposits can be attributed to higher market interest rates and changes in the mix of deposits as customers moved funds to take advantage of the increased rates offered in money market and time deposits. Comparing the **six** **nine** months ended **June 30, 2023** **September 30, 2023** with the comparable period in 2022, average time deposits increased **\$442.6 million** **\$535.4 million**, or **121.5%** **150.8%**, with an increase in the cost of these deposits of **247** **277** basis points. Contributing to average growth in time deposits was an average of **\$76.9 million** **\$81.0 million** related to the Centric acquisition. Other interest-bearing deposits increased on average **\$430.2 million** **\$497.3 million**, or **8.6%** **9.9%**, compared to the **six** **nine** months ended **June 30, 2022** **September 30, 2022** and the cost of these deposits increased **108** **126** basis points. Average growth in other-interest bearing deposits attributable to the Centric acquisition totaled **\$296.3 million** **\$316.8 million**.

For the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, changes in rates positively impacted net interest income by **\$24.2 million** **\$23.2 million** when compared with the same period in 2022. The higher yield on interest-earning assets impacted net interest income by **\$70.9 million** **\$107.9 million**, while the increase in the cost of interest-bearing liabilities negatively impacted net interest income by **\$46.7 million** **\$84.7 million**.

Changes in the volume of interest-earning assets and interest-bearing liabilities positively impacted net interest income by **\$26.2 million** **\$42.7 million** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, as compared to the same period in 2022. Higher levels of interest-earning assets resulted in an increase of **\$27.1 million** **\$44.3 million** in interest income, and changes in the volume and mix of interest-bearing liabilities increased interest expense by **\$0.9 million** **\$1.6 million**. Average **earning** **interest-earning** assets for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** increased **\$1.2 billion** **\$1.3 billion**, or **13.4%** **15.2%**, compared to the same period in 2022. Average loans for the comparable period increased **\$1.5 billion** **\$1.6 billion**, or **22.0%** **22.1%**.

Net interest income also benefited from was negatively impacted by a **\$44.6 million** increase **\$8.5 million** decrease in average net free funds at **June 30, 2023** for the **nine** months ended **September 30, 2023** as compared to **June 30, 2022** **September 30, 2022**. Average net free funds are the excess of noninterest-bearing demand deposits, other noninterest-bearing liabilities and shareholders' equity over noninterest-earning assets. The higher lower level of net free funds was the primarily a result of increases lower noninterest-bearing demand deposits as customers became more rate sensitive in other liabilities the increasing rate environment and shareholders' equity, an increase in noninterest-earning assets, largely due to the Centric acquisition.

The following table reconciles interest income in the Consolidated Statements of Income to net interest income adjusted to a fully taxable equivalent basis for the **six** **nine** months ended **June** **September 30**:

(a) Income on interest-earning assets has been computed on a fully taxable equivalent basis using the 21% federal income tax statutory rate for the **six** nine months ended **June 30, 2023** September 30, 2023 and 2022.

(b) Loan balances include held for sale and nonaccrual loans. Income on nonaccrual loans is accounted for on the cash basis.

(c) Loan income includes loan fees earned.

(d) Average balances do not include reallocations from noninterest-bearing demand deposits and interest-bearing demand deposits into savings deposits, which were made for regulatory purposes.

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

The following table shows the effect of changes in volumes and rates on interest income and interest expense for the **six** nine months ended **June 30, 2023** September 30, 2023 compared with **June 30, 2022** September 30, 2022:

	Interest-earning assets:	Analysis of Year-to-Year Changes in Net Interest Income						Analysis of Year-to-Year Changes in Net Interest Income												
		Total Change			Change Due To Volume			Change Due To Rate (a)			Total Change			Change Due To Volume			Change Due To Rate (a)			
		(dollars in thousands)						(dollars in thousands)						(dollars in thousands)

(a) Changes in interest income or expense not arising solely as a result of volume or rate variances are allocated to rate variances.

(b) Changes in interest income have been computed on a fully taxable equivalent basis using the 21% federal income tax statutory rate.

#### Provision for Credit Losses

The provision for credit losses is determined based on management's estimates of the appropriate level of the allowance for credit losses needed for expected losses inherent in the loan portfolio and off-balance sheet commitments. The provision for credit losses is an amount added to the allowance, against which credit losses are charged.

#### ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued) FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

The table below provides a breakout of the provision for credit losses by loan category for the **six** nine months ended **June** September 30:

	Commercial, financial, agricultural and other	2023				2022				2023				2022

Total provision for credit losses	Total provision for credit losses	\$ <u>10,793</u>		\$ <u>6,063</u>		Total provision for credit losses	\$ <u>16,678</u>		\$ <u>11,986</u>	

Total provision expense for the **six nine** months ended **June 30, 2023** **September 30, 2023**, increased \$4.7 million compared to the **six nine** months ended **June 30, 2022** **September 30, 2022**. This increase is a result of \$10.7 million in provision expense recognized in the first quarter of 2023 as the day 1 non-PCD provision expense resulting from the Centric acquisition offset by a **\$4.8 million** \$4.7 million decline in the provision for off-balance sheet commitments. The negative provision for off-balance sheet commitments for the **six nine** months ended **June 30, 2023** **September 30, 2023** was a result of lower off-balance sheet commitments related to construction loans and improvement in the economic variables considered in the calculation.

The allowance for credit losses was **\$133.5 million** \$134.3 million, or **1.52%** **1.51%**, of total loans and leases outstanding at **June 30, 2023** **September 30, 2023**, compared to \$102.9 million, or 1.35%, at December 31, 2022 and **\$93.6 million** \$96.1 million, or 1.31%, at **June 30, 2022** **September 30, 2022**. Nonperforming loans as a percentage of total loans and leases increased to 0.54% at **June 30, 2023** **September 30, 2023** from **0.50%** **0.48%** as of **June 30, 2022** **September 30, 2022** and 0.46% at December 31, 2022. The allowance to nonperforming loan ratio was **278.17%** **280.31%**, 289.98% and **262.25%** **269.23%** as of **June 30, 2023** **September 30, 2023**, December 31, 2022 and **June 30, 2022** **September 30, 2022**, respectively.

Management believes that the allowance for credit losses is at a level deemed appropriate to absorb expected losses inherent in the loan portfolio at **June 30, 2023** **September 30, 2023**.

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

Below is an analysis of the consolidated allowance for credit losses for the **six nine** months ended **June 30, 2023** **September 30, 2023** and 2022 and the year-ended December 31, 2022:

	December 31,			September 30, 2023	September 30, 2022	December 31, 2022
	June 30, 2023	June 30, 2022	2022

Total noninterest income, excluding net securities gains (losses), gain on sale of mortgage loans, gain on sale of other loans and assets and the derivatives mark to market for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** decreased **\$0.2 million** **\$1.0 million**, or 1%, compared to the **six** **nine** months ended **June 30, 2022** **September 30, 2022**. Service charges on deposit accounts increased **\$0.7 million** **\$1.1 million**, of which **\$0.1 million** **\$0.2 million** can be attributed to the Centric acquisition and the remainder due to increased customer activity. Card-related interchange income increased **\$0.6 million** **\$0.8 million** as a result of increased customer activity. Trust income decreased **\$0.3 million** **\$0.1 million** due to declines in the value of assets under management, income from bank owned life insurance decreased **\$0.5 million** **\$0.6 million** compared to the prior period primarily due to changes in market interest rates and swap fee income declined **\$1.0 million** **\$2.9 million** due to a lower volume of interest rate swaps entered into by our commercial loan customers. For the six months ended June 30, 2023, **\$0.5 million** in non-interest income can be attributed to the Centric acquisition.

Total noninterest income decreased **\$1.0 million** **\$2.1 million**, or **2% 3%**, compared to the same period in the prior year. The most significant changes, other than the changes noted above, include a **\$0.9 million** **\$1.2 million** increase in gain on sale of mortgage loans as a result of changes in volume and the spread received on mortgage loans sold. The mark to market adjustment on interest rate swaps entered into for our commercial loan customers decreased **\$0.4 million**. This adjustment does not reflect a realized gain or loss on the swaps, but rather relates to changes in fair value due to movements in corporate bond spreads and swap rates. The gain on sale of other loans and assets partially offset these declines with an increase of **\$0.6 million** **\$0.5 million** due to an increased volume of loans sold, primarily SBA loans, in the first **six** **nine** months of 2023 compared to the same period in 2022. For the nine months ended September 30, 2023, **\$0.8 million** in non-interest income can be attributed to the Centric acquisition.

Total noninterest expense	Total noninterest expense	\$ 137,324	\$ 111,403	\$ 25,921	23	%	\$ 204,737	\$ 171,304	\$ 33,433	20	%																			

Noninterest expense increased **\$25.9 million** **\$33.4 million**, or **23%** **20%**, for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** compared to the same period in 2022. Contributing to the increase in expense in 2023 is **\$8.5 million** **\$8.9 million** in merger-related expenses associated with the Centric acquisition. Additionally, salaries and employee benefits increased **\$9.1 million** **\$12.3 million** primarily due to the number of full time equivalent employees, which increased from **1,409** **1,422** at **June 30, 2022** **September 30, 2022** to **1,483** **1,481** at **June 30, 2023** **September 30, 2023**, largely due to the Centric acquisition. Also contributing to this increase was a **\$2.1 million** **\$2.6 million** increase in hospitalization expense as a result of the increase in full-time employees and higher claims in 2023. **Litigation and operational losses** increased **\$1.3 million** **\$1.6 million** primarily due to increased debit card losses and the implementation of a new debit card chargeoff processing system. Additionally, increases in net occupancy, furniture and equipment and intangible amortization all reflected increases primarily due to the Centric acquisition. Data processing costs increased **\$0.5 million** **\$0.6 million** due to continued investment in our digital banking and other product offerings. Contributing to the increase in other operating expenses were several expense categories, including printing and postage expense due to as a result of new customer disclosures, as well as travel telephone and operational losses, telephone, none of which were individually significant.

FDIC insurance increased **\$1.3 million** **\$2.4 million** due to both the impact of Centric as well as a 2 basis point increase in the FDIC deposit insurance assessment rate which began in the first quarterly assessment period of 2023. The assessment rate increase is estimated to increase the Company's annual FDIC assessment by approximately \$1.7 million.

For the six-months ended June 30, 2023, merger and acquisition related expenses totaled **\$8.5 million** and is the result of the acquisition of Centric in the first quarter of 2023.

## Income Tax

The provision for income taxes increased **\$4.2 million** **\$5.7 million** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, compared to the corresponding period in 2022, due to the increase in income before income taxes.

We applied the "annual effective tax rate approach" to determine the provision for income taxes, which applies an annual forecast of tax expense as a percentage of expected full year income, for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** and 2022.

We generate an annual effective tax rate that is less than the statutory rate of 21% due to benefits resulting from tax-exempt interest, income from bank-owned life insurance and tax benefits associated with low income housing tax credits, all of which are relatively consistent regardless of the level of pretax income. These provided for an effective tax rate of 20.3% and **19.7%** **19.8%** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** and 2022, respectively.

As of **June 30, 2023** **September 30, 2023**, our deferred tax assets totaled **\$72.9 million** **\$77.0 million**. Based on our evaluation, we determined that it is more likely than not that all of these assets will be realized. As a result, a valuation allowance against these assets was not recorded. In

## **ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**

### **FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

evaluating the need for a valuation allowance, we estimate future taxable income based on management approved forecasts, evaluation of historical earning levels and consideration of potential tax strategies. If future events differ from our

## **ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**

### **FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

current forecasts, we may need to establish a valuation allowance, which could have a material impact on our financial condition and results of operations.

#### Results of Operations

##### **Three Months Ended **June 30, 2023** **September 30, 2023** Compared to Three Months Ended **June 30, 2022** **September 30, 2022****

#### Net Income

For the three months ended **June 30, 2023** **September 30, 2023**, First Commonwealth recognized net income of **\$42.8 million** **\$39.2 million**, or **\$0.42** **\$0.38** diluted earnings per share, compared to net income of **\$30.8 million** **\$34.0 million**, or **\$0.33** **\$0.36** diluted earnings per share, in the three months ended **June 30, 2022** **September 30, 2022**. The increase in net income was primarily the result of a **\$24.2 million** **\$15.4 million** increase in net interest income and a **\$1.3 million** decrease in the provision for credit losses offset by a **\$10.3 million** **\$7.5 million** increase in noninterest expense.

For the three months ended **June 30, 2023** **September 30, 2023**, the Company's return on average equity was **13.90%** **12.46%** and its return on average assets was **1.54%** **1.38%**, compared to **11.60%** **12.67%** and **1.28%** **1.41%**, respectively, for the three months ended **June 30, 2022** **September 30, 2022**.

#### Net Interest Income

Net interest income, on a fully taxable equivalent basis, was \$98.1 million in the **second** **third** quarter of 2023, compared to **\$73.9 million** **\$82.6 million** for the same period in 2022. Accretion of purchase accounting marks related to the Centric acquisition contributed **14** **10** basis points to the net interest margin in the **second** **third** quarter of 2023. Net interest income comprises the majority of our operating revenue (i.e., net interest income before provision expense plus noninterest income), at **80.0%** **79.7%** and **75.0%** **76.1%** for the three months ended **June 30, 2023** **September 30, 2023** and 2022, respectively.

The net interest margin, on a fully taxable equivalent basis, was **3.85%** and **3.38%** **3.76%** for both the three months ended **June 30, 2023** **September 30, 2023** and **June 30, 2022**, respectively. The increase in the net interest margin is attributable to both changes in the level of interest rates and the amount and composition of interest-earning assets and interest-bearing liabilities. 2022.

The taxable equivalent yield on interest-earning assets was **5.16%** **5.37%** for the three months ended **June 30, 2023** **September 30, 2023**, an increase of **164** **145** basis points compared to the **3.52%** **3.92%** yield for the same period in 2022. This is largely due to a **161** **148** basis point increase in the loan portfolio yield when compared to the three months ended **June 30, 2022** **September 30, 2022** as a result of a higher interest rate environment in 2023. Contributing to this increase was the yield on our adjustable and variable rate commercial loan portfolios, which increased **268** **231** basis points largely due to the Federal Reserve increasing short term interest rates by **350** **225** basis points since **June 30, 2022** **September 30, 2022**. Additionally, **12** **nine** basis points of the increase in the yield on interest-earnings assets can be attributed to the recognition of **\$3.2 million** **\$2.4 million** in accretion of the purchase accounting marks, recognized primarily as a result of the Centric acquisition.

The investment portfolio yield increased **26** **42** basis points in comparison to the prior year as new volume rates were higher than the portfolio yield. The average investment portfolio balance decreased **\$175.1** **\$110.2** million as maturities and runoff funded loan growth. The average balance of interest-bearing deposits with banks decreased increased from **\$332.3 million** **\$106.8 million** in 2022 to **\$308.4 million** **\$235.8 million** in 2023 while the yield increased **447** **349** basis points.

The cost of interest-bearing liabilities increased to **1.88%** **2.28%** for the three months ended **June 30, 2023** **September 30, 2023**, from **0.22%** **0.24%** for the same period in 2022, primarily due to an increase in the cost of time deposits and savings deposits. The cost of interest-bearing deposits increased **127** **145** basis points and short-term borrowings increased **471** **504** basis points in comparison to the same period last year. The increase in cost of interest-bearing deposits can be attributed to higher market interest rates and changes in the mix of deposits as customers moved funds to take advantage of the increased rates on money market and time deposits. Comparing the three months ended **June 30, 2023** **September 30, 2023** with the comparable period in 2022, average time deposits increased **\$576.0 million** **\$717.9 million**, or **162.5%** **213.4%**, with an increase in the cost of these deposits of **277** **324** basis points. Contributing to the average growth in time deposits was an average of **\$99.5 million** **\$89.1 million** related to the Centric acquisition. Other interest-bearing deposits increased on average **\$527.6 million** **\$629.3 million**, or **10.4%** **12.7%**, compared to the three months ended **June 30, 2022** **September 30, 2022** and the cost of these deposits increased **131** **160** basis points. The Centric acquisition contributed **\$341.2 million** **\$374.0 million** of the growth in other interest-bearing deposits.

For the three months ended **June 30, 2023** **September 30, 2023**, changes in interest rates positively/negatively impacted net interest income by **\$9.3 million** **\$1.6 million** when compared with the same period in 2022. The higher yield on loans contributed to interest-earning assets positively impacting net interest income by **\$39.1 million** **\$36.4 million**, while an increase in the cost of interest-bearing liabilities negatively impacted net interest income by **\$29.8 million** **\$38.0 million**.

Changes in the volume of interest-earning assets and interest-bearing liabilities positively impacted net interest income by **\$17.0 million** during the three months ended **September 30, 2023**, as compared to the same period in 2022. The mix of interest-earning assets resulted in an increase of **\$17.8 million** in interest income, while changes in the volume and mix of interest-bearing liabilities increased interest expense by **\$0.6 million** **\$0.8 million**. Average interest-earning assets for the three months ended **June 30, 2023** **September 30, 2023** increased **\$1.5 billion** **\$1.6 billion**, or **16.6%** **18.9%**, compared to the same period in 2022. Average loans for the comparable period increased **\$1.7 billion** **\$1.6 billion**, or **23.5%** **22.3%**. Average time deposits for the three months ended **September 30, 2023** increased by **\$717.9 million** compared to the comparable period in 2022, increasing interest expense by **\$0.4 million**.

Net interest income also benefited from was negatively impacted by a **\$5.4 million** increase **\$113.0 million** decrease in average net free funds at **June 30, 2023** for the three months ended **September 30, 2023** as compared to **June 30, 2022** **September 30, 2022**. Average net free funds are the excess of noninterest-bearing demand deposits, other noninterest-bearing liabilities and shareholders' equity over noninterest-earning assets. The higher decline in the level of net free funds was primarily the result of increases a decrease in other liabilities and shareholders' equity. Average time noninterest-bearing demand deposits for the three months ended **June 30, 2023** as a result of customers becoming more rate sensitive as interest rates increased by **\$576.0 million** compared as well as an increase in noninterest-earning assets, primarily due to the comparable period in 2022, increasing interest expense by **\$0.4 million**. Centric acquisition.

The following table reconciles interest income in the Consolidated Statements of Income to net interest income adjusted to a fully taxable equivalent basis for the three months ended **June** **September 30**:

	2023		2022		2023		2022	
	(dollars in thousands)				(dollars in thousands)			
Interest income per Consolidated Statements of Income	Interest income per Consolidated Statements of Income	\$ 131,267		\$ 76,728	Interest income per Consolidated Statements of Income	\$ 139,885		\$ 85,700
Adjustment to fully taxable equivalent basis	Adjustment to fully taxable equivalent basis	305		244	Adjustment to fully taxable equivalent basis	313		261
Interest income adjusted to fully taxable equivalent basis (non-GAAP)	Interest income adjusted to fully taxable equivalent basis (non-GAAP)	131,572		76,972	Interest income adjusted to fully taxable equivalent basis (non-GAAP)	140,198		85,961
Interest expense	Interest expense	33,443		3,066	Interest expense	42,128		3,340

	\$ 98,129 3.85 %	\$ 73,906 3.38 %

(a) Income on interest-earning assets has been computed on a fully taxable equivalent basis using the 21% federal income tax statutory rate for the three months ended **June 30, 2023** September 30, 2023 and 2022.

(b) Loan balances include held for sale and nonaccrual loans. Income on nonaccrual loans is accounted for on the cash basis.

(c) Loan income includes loan fees earned.

(d) Average balances do not include reallocations from noninterest-bearing demand deposits and interest-bearing demand deposits into savings deposits, which were made for regulatory purposes.

ITEM 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)*  
FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

The following table shows the effect of changes in volumes and rates on interest income and interest expense for the three months ended **June 30, 2023** September 30, 2023 compared with **June 30, 2022** September 30, 2022:

Short-term borrowings	Short-term borrowings	5,175	68	5,107					Short-term borrowings	6,593	192	6,401
Long-term debt	Long-term debt	98	68	30					Long-term debt	538	69	469
Total interest expense	Total interest expense	30,377	554	29,823					Total interest expense	38,788	786	38,002
Net interest income	Net interest income	\$ 24,223	\$ 14,940	\$ 9,283					Net interest income	\$ 15,449	\$ 17,014	\$ (1,565)

(a) Changes in interest income or expense not arising solely as a result of volume or rate variances are allocated to rate variances.

(b) Changes in interest income have been computed on a fully taxable equivalent basis using the 21% federal income tax statutory rate.

Provision for Credit Losses

The provision for credit losses is determined based on management's estimates of the appropriate level of the allowance for credit losses needed for probable losses inherent in the loan portfolio, after giving consideration to charge-offs and recoveries for the period. The provision for credit losses is an amount added to the allowance, against which credit losses are charged.

ITEM 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)*  
FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

The table below provides a breakout of the provision for credit losses by loan category for the three months ended **June** **September** 30:

-----------------------------------	--	--	--	--

The provision for credit losses on loans and leases for the three months ended **June 30, 2023** **September 30, 2023** decreased in comparison to the three months ended **June 30, 2022** **September 30, 2022** by **\$0.7 million** **\$0.2 million**. The level of provision expense in the **second** **third** quarter of 2023 is primarily the result of an increase in loan balances and an additional **\$4.1 million** in specific reserves for a commercial real estate loan as well as changes in the economic forecasts used in calculation a result of the allowance for credit losses, an updated appraisal. The provision for off-balance sheet credit exposure decreased **\$0.6 million** increased **\$0.1 million** primarily due to the level of unfunded commitments. Net charge-offs for the three months ended **June 30, 2023** **September 30, 2023** were **\$8.7 million** **\$4.0 million**, of which **\$7.1 million** **\$1.2 million** related to loans acquired from Centric for which an allowance for credit losses of **\$0.3 million** was established as part of the purchase accounting marks.

The level of provision expense in the **second** **third** quarter of 2022 was primarily the result of increases in loan balances. Net charge-offs for the three months ended **June 30, 2022** **September 30, 2022** were **\$1.5 million** **\$2.5 million**.

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**  
**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

Below is an analysis of the consolidated allowance for credit losses for the three months ended **June 30, 2023** **September 30, 2023** and 2022 and the year-ended December 31, 2022:

		December 31,			September 30, 2023	September 30, 2022	December 31, 2022
		June 30, 2023	June 30, 2022	2022

Total noninterest income	Total noninterest income	\$ 24,523	\$ 24,509	\$ 14	— %		Total noninterest income	\$ 24,826	\$ 25,914	\$ (1,088)	(4) %																			

Total noninterest income for the three months ended **June 30, 2023** is comparable **September 30, 2023** decreased \$1.1 million compared to the three months ended **June 30, 2022**. The most significant changes include a \$0.3 decrease of \$1.9 million in swap fee income due to a lower volume of interest rate swaps entered into by our commercial loan customers. Also impacting noninterest income was a \$0.2 million decrease in gain on sale of mortgage loans due to changes in the volume and spreads on mortgage loans sold and a \$0.8 million increase \$0.1 million decrease in gain on sale of other loans and assets due to an increase decrease in the volume market value of SBA loans sold during the quarter. Swap fee income decreased \$0.8 million due to a lower volume of interest rate swaps entered into by our commercial loan customers. Additionally, Partially offsetting these decreases were service charges on deposits, which increased \$0.4 million due to growth in customer accounts and transactions, transactions and a \$0.2 million increase in card-related interchange income.

#### ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

#### Noninterest Expense

The following table presents the components of noninterest expense for the three months ended **June** **September** 30:

Noninterest Expense:	Noninterest Expense:	2023				2022				\$ Change		% Change		2023				2022				\$ Change		% Change		
		(dollars in thousands)												(dollars in thousands)

Other professional fees and services	Other professional fees and services	1,182	1,197	(15)	(1)									Other professional fees and services	1,603	1,204	399	33								
FDIC insurance	FDIC insurance	1,277	702	575	82									FDIC insurance	1,920	796	1,124	141								
Other operating	Other operating	9,296	7,410	1,886	25									Other operating	8,548	8,207	341	4								
Subtotal	Subtotal	65,103	54,964	10,139	18									Subtotal	65,358	58,641	6,717	11								
Loss on sale or write-down of assets	Loss on sale or write-down of assets	6	86	(80)	(93)									Loss on sale or write-down of assets	50	54	(4)	(7)								
Merger and acquisition related	Merger and acquisition related	(60)	—	(60)	N/A									Merger and acquisition related	379	448	(69)	(15)								
Litigation and operational losses	Litigation and operational losses	894	629	265	42									Litigation and operational losses	1,626	758	868	115								
Total noninterest expense	Total noninterest expense	\$ 65,943	\$ 55,679	\$ 10,264	18	%								Total noninterest expense	\$ 67,413	\$ 59,901	\$ 7,512	13	%							

Noninterest expense increased **\$10.3 million** **\$7.5 million**, or **18%** **13%**, for the three months ended **June** **September** 30, 2023 compared to the same period in 2022. The increase is a result of a **\$5.8 million** **\$3.2 million** increase in salary and employee benefit expense, primarily due to a **\$1.8 million** **\$0.4 million** increase in hospitalization expense as well as the impact of **74** **59** additional full-time equivalent employees, largely due to the Centric acquisition. Net occupancy expense increased **\$0.6 million**, of which **\$0.5 million** is related to the Centric acquisition. The higher intangible amortization expense is related to amortization of Centric's core deposit intangible. Also contributing to higher noninterest expense is a **\$1.9 million** increase in other operating expenses due to increased printing and postage related to customer compliance mailings as well as several other expense categories, such as credit reporting and meals and travel, none of which were individually significant. Data processing increased **\$0.3 million** due to investments in additional digital and product solutions.

FDIC insurance increased **\$0.6 million** **\$1.1 million** due to both the impact of Centric as well as a 2 basis point increase in the FDIC deposit insurance assessment rate, which began in the first quarterly assessment period of 2023. Litigation and operational losses increased **\$0.9 million** primarily due to increased debit card losses and the implementation of a new debit card chargeoff processing system. The **\$0.6 million** increase in intangible amortization expense is related to amortization of Centric's core deposit intangible.

#### Income Tax

The provision for income taxes increased **\$3.19 million** **\$1.57 million** for the three months ended **June** **September** 30, 2023, compared to the corresponding period in 2022. The effective tax rate increased **30** **40** basis points from **19.9%** **20.0%** for the three months ended **June** **September** 30, 2022 to **20.2%** **20.4%** for the three months ended **June** **September** 30, 2023.

We applied the "annual effective tax rate approach" to determine the provision for income taxes, which applies an annual forecast of tax expense as a percentage of expected full year income, for the three months ended **June** **September** 30, 2023 and 2022.

#### Liquidity

Liquidity refers to our ability to meet the cash flow requirements of depositors and borrowers, as well as our operating cash needs with cost-effective funding. We generate funds to meet these needs primarily through the core deposit base of First Commonwealth Bank and the maturity or repayment of loans and other interest-earning assets, including investments. During the first **six** **nine** months of 2023, the maturity and redemption of investment securities provided **\$100.4 million** **\$140.7 million** in liquidity. These funds contributed to the liquidity used to originate loans, purchase investment securities and fund depositor withdrawals.

<sup>(1)</sup> Reflects internal policy limit. Maximum capacity with CDARS is \$1.7 billion.

The brokered deposits included in the table above are a result of our participation in the Certificate of Deposit Account Registry Services ("CDARS") program as part of an Asset/Liability Committee ("ALCO") strategy to increase and diversify funding sources. As of **June 30, 2023** **September 30, 2023**, the outstanding balance of **\$16.7 million** **\$28.2 million** carried an average weighted rate of **3.91%** **3.61%** and an average original term of **219** **261** days. These deposits are part of a reciprocal program that allows our depositors to receive expanded FDIC coverage by placing multiple certificates of deposit at other CDARS member banks.

Liquidity available through the Federal Reserve is a result of the FRB Borrower-in-Custody of Collateral program, which enables us to take certain loans that are not being used as collateral at the FHLB and pledge them as collateral for borrowings at the FRB.

During the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, the Company increased its liquidity by purchasing **\$659.3 million** **\$558.2 million** in letters of credit from the FHLB of Pittsburgh, which were then used to secure public deposits. This resulted in a similar amount of previously pledged securities becoming unencumbered. Additionally, as of **September 30, 2023**, new short-term borrowings in the amount of **\$250.0 million** **\$150.0 million** were entered into in order to provide additional on-balance sheet liquidity.

First Commonwealth's long-term liquidity source is its core deposit base. Core deposits are the most stable source of liquidity a bank can have due to the long-term relationship with a deposit customer. The following table shows a breakdown of the components of First Commonwealth's deposits:

	Noninterest-bearing demand deposits <sup>(a)</sup>	June 30, 2023		December 31, 2022		September 30, 2023		December 31, 2022	
		(dollars in thousands)				(dollars in thousands)			
Noninterest-bearing demand deposits <sup>(a)</sup>	Noninterest-bearing demand deposits <sup>(a)</sup>	\$ 2,624,344	\$ 2,670,508	Noninterest-bearing demand deposits <sup>(a)</sup>	\$ 2,535,704	\$ 2,670,508			
Interest-bearing demand deposits <sup>(a)</sup>	Interest-bearing demand deposits <sup>(a)</sup>	611,156	357,769	Interest-bearing demand deposits <sup>(a)</sup>	632,062	357,769			
Savings deposits <sup>(a)</sup>	Savings deposits <sup>(a)</sup>	4,935,124	4,572,183	Savings deposits <sup>(a)</sup>	4,928,607	4,572,183			
Time deposits	Time deposits	975,654	405,009	Time deposits	1,144,692	405,009			
<b>Total</b>	<b>Total</b>	<b>\$ 9,146,278</b>	<b>\$ 8,005,469</b>	<b>Total</b>	<b>\$ 9,241,065</b>	<b>\$ 8,005,469</b>			

(a) Balances include reallocations from noninterest-bearing demand deposits and interest-bearing demand deposits into savings deposits, which were made for regulatory purposes.

The level of deposits during any period is influenced by factors outside of management's control, such as the level of short-term and long-term market interest rates and yields offered on competing investments, such as money market mutual funds.

During the first **six** **nine** months of 2023, total deposits increased **\$1.1 billion** **\$1.2 billion**, of which **\$757.0 million** were acquired as part of the Centric acquisition. Interest-bearing demand and savings deposits increased **\$616.3 million** **\$630.7 million**, time deposits increased **\$739.7 million** and noninterest-bearing demand deposits decreased **\$46.2 million** and time deposits increased **\$570.6 million** **\$134.8 million**.

The estimated total of uninsured deposits was **\$2.4 billion** **\$2.6 billion** at **June 30, 2023** **September 30, 2023** and **\$2.1 billion** at December 31, 2022. Additionally, of which **\$0.9 billion** of uninsured deposits are and **\$0.7 billion** were secured by pledged investment securities or letters of credit at **September 30, 2023** and December 31, 2022, respectively. Uninsured amounts are estimated based on known account relationships for each depositor and insurance guidelines provided by the FDIC.

**FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

**Market Risk**

The following gap analysis compares the difference between the amount of interest-earning assets and interest-bearing liabilities subject to repricing over a period of time. The ratio of rate-sensitive assets to rate-sensitive liabilities repricing within a one-year period was **0.58** **0.72** and **0.76** at **June 30, 2023** **September 30, 2023** and December 31, 2022, respectively. A ratio of less than one indicates a higher level of repricing liabilities over repricing assets over the next twelve months. The level of First Commonwealth's ratio is largely driven by the modeling of interest-bearing non-maturity deposits, which are included in the analysis as repricing within one year.

Gap analysis has limitations due to the static nature of the model that holds volumes and consumer behaviors constant in all economic and interest rate scenarios. A lower level of rate sensitive assets to rate sensitive liabilities repricing in one year could indicate reduced net interest income in a rising interest rate scenario, and conversely, increased net interest income in a declining interest rate scenario. However, the gap analysis incorporates only the level of interest-earning assets and interest-bearing liabilities and not the sensitivity each has to changes in interest rates. The impact of the sensitivity to changes in interest rates is provided in the table below the gap analysis.

The following is the gap analysis as of **June 30, 2023** **September 30, 2023** and December 31, 2022:

								36,011 %

December 31, 2022 (%)	December 31, 2022 (%)	December 31, 2022 (%)	December 31, 2022 (%)
(%)	(11.83) %	(5.26) %	4.86 %

The analysis and model used to quantify the sensitivity of our net interest income becomes less meaningful in a decreasing 200 basis point scenario given the current interest rate environment. Results of the 100 and 200 basis point interest rate decline scenario are affected by the fact that many of our interest-bearing liabilities are at rates below 1%, with an assumed floor of zero in the model. In the six months ended June 30, 2023 September 30, 2023 and 2022, the cost of our interest-bearing liabilities averaged 1.59% 1.84% and 0.22%, respectively, and the yield on our average interest-earning assets, on a fully taxable equivalent basis, averaged 5.02% 5.14% and 3.43% 3.59%, respectively.

Asset/liability models require that certain assumptions be made, such as prepayment rates on earning assets and the impact of pricing on non-maturity deposits, which may differ from actual experience. These business assumptions are based upon our experience, business plans and published industry experience. While management believes such assumptions to be reasonable, there can be no assurance that modeled results will approximate actual results.

#### Credit Risk

First Commonwealth maintains an allowance for credit losses at a level deemed sufficient for losses inherent in the loan and lease portfolio at the date of each statement of financial condition. Management reviews the appropriateness of the allowance on a quarterly basis to ensure that the provision for credit losses has been charged against earnings in an amount necessary to maintain the allowance at a level that is appropriate based on management's assessment of probable estimated losses.

First Commonwealth's methodology for assessing the appropriateness of the allowance for credit losses consists of several key elements. These elements include an assessment of individual nonperforming loans with a balance greater than \$250 thousand, loss experience trends and other relevant factors.

First Commonwealth also maintains a reserve for unfunded loan commitments and letters of credit based upon credit risk and probability of funding. The reserve totaled \$7.8 million \$8.9 million at June 30, 2023 September 30, 2023 and is classified in "Other liabilities" on the unaudited Consolidated Statements of Financial Condition.

We discontinue interest accruals on a loan when, based on current information and events, it is probable that we will be unable to fully collect principal or interest due according to the contractual terms of the loan. A loan is also placed on nonaccrual status when, based on regulatory definitions, the loan is maintained on a "cash basis" due to the weakened financial condition of the borrower. Generally, loans 90 days or more past due are placed on nonaccrual status, except for consumer loans, which are placed on nonaccrual status at 150 days past due.

#### *ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)*

#### **FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES**

Nonperforming loans are closely monitored on an ongoing basis as part of our loan review and work-out process. The probable risk of loss on these loans is evaluated by comparing the loan balance to the fair value of any underlying collateral or the present value of projected future cash flows. Losses or a specifically assigned allowance for loan losses are recognized where appropriate.

Nonperforming loans and leases, including loans held for sale, increased \$12.5 million \$12.4 million to \$48.0 million \$47.9 million at June 30, 2023 September 30, 2023, compared to \$35.5 million at December 31, 2022. The increase in nonperforming loans is primarily a result of \$18.7 million \$22.0 million in loans acquired from Centric as well as an additional \$1.8 million \$1.2 million moved to nonaccrual during the first half nine months of 2023. Offsetting this is the removal of \$6.4 million in accruing TDR's, TDR's as well as the transfer of a \$3.5 million commercial real estate relationship back to accruing status. The TDR's were eliminated as a result of our adoption of ASU 2022-02. The adoption of this guidance was effective January 1, 2023.

The allowance for credit losses as a percentage of nonperforming loans was 278.17% 280.31% as of June 30, 2023 September 30, 2023, compared to 289.98% at December 31, 2022, and 262.25% 269.23% at June 30, 2022 September 30, 2022. The amount of individually assessed reserves included in the allowance for nonperforming loans and leases was determined by using fair values obtained from current appraisals and updated discounted cash flow analyses. The allowance for credit losses includes specific reserves of \$13.1 \$16.6 million and general reserves of \$120.4 \$117.7 million as of June 30, 2023 September 30, 2023. Specific reserves increased \$12.4 million \$15.9 million from December 31, 2022, and \$12.7 million \$15.1 million from June 30, 2022 September 30, 2022 primarily as a result of individually analyzed PCD loans acquired from Centric. Centric as well as a \$4.1 million specific reserve recognized in third quarter of 2023 due to an updated appraisal received for one commercial real estate borrower.

Criticized loans totaled \$207.1 million \$193.2 million at June 30, 2023 September 30, 2023 and represented 2% of the loan portfolio. The level of criticized loans increased as of June 30, 2023 September 30, 2023 when compared to December 31, 2022, by \$74.2 million \$60.3 million, or 56% 45%. Classified loans totaled \$76.4 million \$66.3 million at June 30, 2023 September 30, 2023 compared to \$44.4 million at December 31, 2022, an increase of \$32.0 million \$21.8 million, or 72% 49%. The increase in criticized loans is the result of \$67.2 million in criticized loans acquired as part of the Centric acquisition.

The allowance for credit losses was \$133.5 million \$134.3 million at June 30, 2023 September 30, 2023, or 1.52% 1.51% of total loans and leases outstanding, compared to 1.35% reported at December 31, 2022, and 1.31% at June 30, 2022 September 30, 2022. General reserves, or the portion of the allowance related to loans that were not specifically evaluated, as a percentage of performing loans were 1.38% 1.33% at June 30, 2023 September 30, 2023 compared to 1.34% at December 31, 2022 and 1.31% 1.29% at June 30, 2022 September 30, 2022.

(1) Includes January 31, 2023 balance of loans acquired as part of the Centric acquisition plus day 1 gross up of PCD loans.

During the six nine months ended June 30, 2023 September 30, 2023, originated loans and leases increased \$206.9 million \$308.8 million, or 2.7% 4.0%, compared to balances outstanding at December 31, 2022. As provided in the table above, at the time of acquisition, of Centric accounted for provided \$950.8 million of loan growth during the first quarter of 2023. growth.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)  
FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

Excluding the impact of Centric, real estate construction loans decreased \$19.4 million \$18.7 million, or 3.8% 3.6%, due to the completion of commercial real estate projects. Residential real estate grew \$80.9 million \$131.6 million, or 8.7% 6.0%, primarily due to originations of closed-end 1-4 family mortgage loans. Commercial real estate loans increased \$45.9 million \$91.0 million, or 1.9% 3.8%, primarily due to growth in loans secured by nonresidential property due in part to the completion of several construction projects. Loans to individuals increased \$55.7 million \$67.0 million, or 4.3% 5.2%, primarily due to growth in the indirect auto and recreational vehicle portfolio. Commercial, financial, agricultural and other loans increased \$43.9 million \$37.9 million, or 3.6% 3.1%, as a result of growth in the equipment finance portfolio.

As indicated in the table below, commercial real estate and commercial, financial and agricultural and other loans represent a significant portion of the nonperforming loans as of **June 30, 2023** **September 30, 2023**.

	For the Six Months Ended June 30, 2023								For the Nine Months Ended September 30, 2023

Net charge-offs for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** totaled **\$9.8 million** **\$13.8 million**, compared to **\$2.7 million** **\$5.1 million** for the **six** **nine** months ended **June 30, 2022** **September 30, 2022**. The most significant charge-offs during the **six** **nine** months ended **June 30, 2023** **September 30, 2023** included **\$7.6 million** **\$8.8 million** in charge-offs related to loans acquired from Centric, of which an allowance for credit losses of **\$7.1 million** **\$7.4 million** was established as a result of purchase accounting marks. Additionally, **\$1.4 million** **\$3.3 million** in charge-offs relate to loans to individuals, primarily indirect auto loans and personal credit lines. See discussions related to the provision for credit losses and loans for more information.

#### Capital Resources

At **June 30, 2023** **September 30, 2023**, shareholders' equity was \$1.2 billion, an increase of **\$180.3 million** **\$188.5 million** from December 31, 2022. The increase was primarily the result of \$141.4 million in stock issued as part of the Centric acquisition **\$73.0 million** and **\$112.2 million** in net **income** and **income**. Offsetting these increases was a **\$0.9 million** **\$16.4 million** decrease in the fair value of available for sale investments and interest rate swaps, which are reflected in the Other Comprehensive Income component of capital. Other items impacting capital include increases an increase due to **\$3.0 million** **\$3.4 million** in treasury stock sales offset by **\$25.2 million** and decreases due to **\$38.1 million** of dividends paid to shareholders and **\$10.9 million** **\$14.1 million** of common stock repurchases. Cash dividends declared per common share were **\$0.245** **\$0.370** for the **six** **nine** months ended **June 30, 2023** **September 30, 2023**.

First Commonwealth and First Commonwealth Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on First Commonwealth's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, First Commonwealth and First Commonwealth Bank must meet specific capital guidelines that involve quantitative measures of First Commonwealth's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. First Commonwealth's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weighting and other factors.

Effective January 1, 2015, the Company became subject to the new regulatory risk-based capital rules adopted by the federal banking agencies implementing Basel III. The most significant changes included higher minimum capital requirements, as the minimum Tier I capital ratio increased from 4.0% to 6.0% and a new common equity Tier I capital ratio was established with a minimum level of 4.5%. Additionally, the rules improved the quality of capital by providing stricter eligibility criteria for regulatory capital instruments and provide for a phase-in, beginning January 1, 2016, of a capital conservation buffer of 2.5% of risk-weighted assets. This buffer, which was fully phased-in as of January 1, 2019, provides a requirement to hold common equity Tier 1 capital above the minimum risk-based capital requirements, resulting in an effective common equity Tier I risk-weighted asset minimum ratio of 7.0% on a fully phased-in basis.

#### *ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)* FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

The Basel III Rules also permit banking organizations with less than \$15.0 billion in assets to retain, through a one-time election, the existing treatment for accumulated other comprehensive income, which currently does not affect regulatory capital. The Company elected to retain this treatment, which reduces the volatility of regulatory capital levels.

During the second quarter of **In** 2018, First Commonwealth Bank, the Company's banking subsidiary, issued \$100 million in subordinated debt, which under the regulatory rules qualifies as Tier II capital. **This** As of September 30, 2023, **this** subordinated debt issuance increased the total risk-based capital ratio by **160.95** basis points.

In March 2020, regulators issued interim financial rule ("IFR") "Regulatory Capital Rule: Revised Transition of the Current Expected Losses Methodology for Allowances" in response to the disrupted economic activity from the pandemic. The IFR provides financial institutions that adopt CECL during 2020 with the option to delay for two years the estimated impact of CECL on regulatory capital, followed by a three-year transition period to phase out the aggregate amount of the capital benefit provided by the initial two-year delay ("five-year transition"). The Company adopted CECL effective January 1, 2020 and elected to implement the five-year transition. Regulatory capital levels without the capital benefit at **June 30, 2023** September 30, 2023 for both First Commonwealth and First Commonwealth Bank would have continued to be greater than the amounts needed to be considered "well capitalized", as the transition provided a capital benefit of approximately 9 to 12 basis points.

As of **June 30, 2023** September 30, 2023, First Commonwealth and First Commonwealth Bank met all capital adequacy requirements to which they are subject and were considered well-capitalized under the regulatory rules. To be considered well capitalized, the Company must maintain minimum Total risk-based capital, Tier I risk-based capital, Tier I leverage ratio and Common equity tier 1 risk-based capital as set forth in the table below:

		Required to be Considered Well Capitalized						Required to be Considered Well Capitalized

On **July 25, 2023** October 24, 2023, First Commonwealth Financial Corporation declared a quarterly dividend of \$0.125 per share payable on **August 18, 2023** November 17, 2023 to shareholders of record as of **August 4, 2023** November 3, 2023. The timing and amount of future dividends are at the discretion of First Commonwealth's Board of Directors based upon, among other factors, capital levels, asset quality, liquidity and current and projected earnings.

In October 2021, a share repurchase program was authorized by the Board of Directors for up to an additional \$25.0 million in shares of the Company's common stock. On April 24, 2023, the Board of Directors authorized a \$25 million increase in the share repurchase program. As of **June 30, 2023** **September 30, 2023**, **2,158,754** **2,418,393** common shares had been repurchased under theses program at an average price of **\$13.21** **\$13.12** per share.

#### New Accounting Pronouncements

In March **2020, 2023**, FASB released Accounting Standards Update 2023-02 ("ASU" ASU 2023-02) **2020-04 - Reference Rate Reform, Investments – Equity Method and Joint Ventures** (Topic 848), which provides optional guidance **323**: Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method. ASU 2023-02 permits entities to **ease the accounting burden in accounting** **elect to account for or recognizing the effects from, reference rate reform on financial reporting**. The new standard is a **result their tax equity investments, regardless of the discontinuance tax credit program from which the income tax credits are received, using the proportional amortization method, instead of only low-income housing tax credit ("LIHTC") structures, if certain conditions are met**. ASU 2023-02 also eliminates certain LIHTC-specific guidance for LIHTC investments that are not accounted for using the London Interbank Offered Rate ("LIBOR") as an available benchmark rate. The standard is **elective proportional amortization method and provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, or other transactions instead require that reference LIBOR, or another reference rate expected to be discontinued**. The Company has **elected to apply the practical expedient allowing for a contract modification, due to reference rate reform, to those LIHTC investments be accounted for as a continuation of using other applicable guidance under GAAP**. ASU 2023-02 is effective **for the existing contract and does not require contract re-** Company for

#### ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

measurement at the modification date or reassessment of a previous accounting determination. **fiscal years beginning after December 15, 2023, including interim periods within those fiscal years, with early adoption permitted**. The **amendments** **Company** is in the **update** are effective for all entities between March 12, 2020 and December 31, 2024 (In December 2022, FASB released ASU 2022-06, which extended process of assessing the original sunset date in ASU 2020-04 from December 31, 2022 to December 31, 2024). The Company has established a cross-functional working group to manage the Company's transition from LIBOR. Products that utilize LIBOR have been identified and have incorporated enhanced language to accommodate the transition to alternative reference rates and the use of LIBOR has been discontinued as an index for new loans. All LIBOR based loans were transitioned to a new index by June 30, 2023. The impact of the LIBOR transition will not have a material impact adoption on the Company's its consolidated financial statements.

#### ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

Information appearing in Item 2 of this report under the caption "Market Risk" is incorporated by reference in response to this item.

#### ITEM 4. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms of the Securities and Exchange Commission.

#### PART II – OTHER INFORMATION

FIRST COMMONWEALTH FINANCIAL CORPORATION AND SUBSIDIARIES

#### ITEM 1. LEGAL PROCEEDINGS

The information required by this item is set forth in Part I, Item 1, Note 6, "Commitments and Contingent Liabilities," which is incorporated herein by reference in response to this item.

#### ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed under Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2022, except for the following risk factor.

##### Risks Related to Recent Events Impacting the Financial Services Industry

Recent events impacting the financial services industry, including the failure of Silicon Valley Bank and Signature Bank, have resulted in decreased confidence in banks among some consumer and commercial depositors, other counterparties and investors, as well as significant disruption, volatility and reduced valuations of equity and other securities of banks in the capital markets. These events occurred during a period of rapidly rising interest rates which, among other things, has resulted in unrealized losses in longer duration securities and loans held by banks, more competition for bank deposits and may increase the risk of a potential recession. These recent events have, and could continue to have, an adverse impact on the market price and volatility of the Company's common stock.

These recent events may also result in potentially adverse changes to laws or regulations governing banks and bank holding companies or result in the impositions of restrictions through supervisory or enforcement activities, including higher capital requirements, which could have a material impact on our business. Inability to access short-term funding, loss of client deposits or changes in our credit ratings could increase the cost of funding, limit access to capital markets or negatively impact our overall liquidity or capitalization. We may be impacted by concerns regarding the soundness or creditworthiness of other financial institutions, which can cause substantial and cascading disruption within the financial markets and increased expenses. The cost of resolving the recent bank failures may prompt the FDIC to increase its premiums above the recently increased levels or to issue additional special assessments.

#### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On October 26, 2021, a share repurchase program was authorized for up to \$25.0 million in shares of the Company's common stock with a \$25 million increase in April of 2023. The following table details the amount of shares repurchased under this program in the **second** **third** quarter of 2023:

1. I have reviewed this quarterly report on Form 10-Q of First Commonwealth Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

- a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
