**Note 1: Summary of Accounting Policies**

**Principles of consolidation and presentation**

The Condensed Consolidated Financial Statements include the accounts of Snap-on Incorporated and its wholly owned and majority-owned subsidiaries (collectively, "Snap-on" or the "company"). These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Snap-on's 2022/2023 Annual Report on Form 10-K for the fiscal year ended December 31, 2022/December 30, 2023 ("2022/2023 year end"). The company's 2023/2024 fiscal third/first quarter ended on September 30, 2023/March 30, 2024, and its 2022/2023 fiscal third/first quarter ended on October 1, 2022/April 1, 2023. The company's 2024 and 2023 and 2022 fiscal third/first quarters each contained 13 weeks of operating results. Snap-on's Condensed Consolidated Financial Statements are prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP").

In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for the fair presentation of the Condensed Consolidated Financial Statements for the three and nine month periods ended September 30, 2023/March 30, 2024, and October 1, 2022/April 1, 2023, have been made. Interim results of operations are not necessarily indicative of the results to be expected for the full fiscal year.

**Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Financial Instruments**

The fair value of the company's derivative financial instruments is generally determined using quoted prices in active markets for similar assets and liabilities. The carrying value of the company's non-derivative financial instruments either approximates fair value, due to their short-term nature, or the amount disclosed for fair value is based upon a discounted cash flow analysis or quoted market values. See Note 89 for additional information on financial instruments.

**New Accounting Standards**

On January 1, 2023, In November 2023, the beginning of Snap-on's 2023 fiscal year, the company adopted FASB issued ASU No. 2022-02, 2023-07, *Financial Instruments – Credit Losses Segment Reporting (Topic 326)* 280: *Troubled Debt Restructurings and Vintage Improvements to Reportable Segment Disclosures*, which requires enhanced disclosure of

certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty and eliminates certain current recognition and measurement accounting guidance. This ASU also requires the disclosure of current-period gross write-offs by year of origination additional segment information. ASU No. 2023-07 is effective for financing receivables fiscal years beginning after December 15, 2023, and net investments in leases. interim periods within fiscal years beginning after December 15, 2024; this ASU allows for early adoption. The adoption of this ASU did not have a significant material impact on Snap-on's Condensed Consolidated Financial Statements.

In December 2023, the company's FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. ASU No. 2023-09 is effective for annual periods beginning after December 15, 2024. The guidance is to be applied on a prospective basis with the option to apply the standard retrospectively; this ASU allows for early adoption. The adoption of this ASU is not expected to have a material impact on Snap-on's Condensed Consolidated Financial Statements.

#### Note 2: Revenue Recognition

Snap-on recognizes revenue from the sale of tools, diagnostics, equipment, and related services based on when control of the product passes to the customer or the service is provided and is recognized at an amount that reflects the consideration expected to be received in exchange for such goods or services.

Snap-on evaluates the performance of its operating segments based on segment revenues including and segment operating earnings. The Snap-on Tools Group segment revenues include external net sales, while the Commercial & Industrial Group and the Repair Systems & Information Group segment revenues include both external and intersegment net sales, and segment operating earnings sales. Snap-on accounts for both intersegment net sales and transfers based primarily on standard costs with reasonable mark-ups established between the segments. Intersegment amounts are eliminated to arrive at Snap-on's consolidated financial results.

The following tables represent external net sales disaggregated by geography, based on the customers' billing addresses:

**Nature of goods and services:** Snap-on derives net sales from a broad line of products and complementary services that are grouped into three categories: (i) tools; (ii) diagnostics, information and management systems; and (iii) equipment. The tools product category includes hand tools, power tools, tool storage products and other similar products. The diagnostics, information and management systems product category includes handheld and computer-based diagnostic products, service and repair information products, diagnostic software solutions, electronic parts catalogs, business management systems and services, point-of-sale systems, integrated systems for vehicle service shops, original equipment manufacturer ("OEM") purchasing facilitation services, and warranty management systems and analytics to help OEM dealership service and repair shops ("OEM

dealerships") manage and track performance. The equipment product category includes solutions for the service of vehicles and industrial equipment. Snap-on supports the sale of its diagnostics and vehicle service shop equipment by offering training programs as well as after-sales support to its customers. Through its financial services businesses, Snap-on derives revenue from various financing programs designed to facilitate the sales of its products and support its franchise business.

Approximately 90% of Snap-on's net sales are products sold at a point in time through ship-and-bill performance obligations that also include repair services. The remaining sales revenue is earned over time primarily for software subscriptions, other subscription service agreements and extended warranty programs.

Snap-on enters into contracts related to the selling of tools, diagnostics, repair information, equipment and related services. At contract inception, an assessment of the goods and services promised in the contracts with customers is performed and a performance obligation is identified for each distinct promise to transfer to the customer a good or service (or bundle of goods or services). To identify the performance obligations, Snap-on considers all of the goods or services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. Contracts with customers are comprised of customer purchase orders, invoices and written contracts.

For certain performance obligations related to software subscriptions, extended warranty and other subscription agreements that are settled over time, Snap-on has elected not to disclose the value of unsatisfied performance obligations for: (i) contracts that have an original expected length of one year or less; (ii) contracts where revenue is recognized as invoiced; and (iii) contracts with variable consideration related to unsatisfied performance obligations. The remaining duration of these unsatisfied performance obligations range from one month up to 60 months. Snap-on had approximately **\$185.0 million** **\$187.0 million** of long-term contracts that have fixed consideration that extends beyond one year as of **September 30, 2023** **March 30, 2024**. Snap-on expects to recognize approximately **60%** **70%** of these contracts as revenue by the end of fiscal **2024**, **2025**, an additional **35%** **25%** by the end of fiscal **2026**, **2027**, and the balance thereafter.

**Contract liabilities:** Contract liabilities are recorded when cash payments are received in advance of Snap-on's performance. The timing of payment is typically on a monthly, quarterly or annual basis. The balance of total contract liabilities was **\$65.9 million** **\$66.3 million** and **\$63.3 million** at **September 30, 2023** **March 30, 2024**, and **December 31, 2022** **December 30, 2023**, respectively. The current portion of contract liabilities is included in "Other accrued liabilities" and the non-current portion of such liabilities is included in "Other long-term liabilities" on the accompanying Condensed Consolidated Balance Sheets. During the three **and nine** months ended **September 30, 2023** **March 30, 2024**, Snap-on recognized **\$7.4 million** and **\$52.7 million** **\$35.4 million** of revenue **respectively**, that was included in the **\$63.3 million** contract liability balance at **December 31, 2022** **December 30, 2023**, which was primarily from the amortization of software subscriptions, extended warranties and other subscription agreements.

**Note 3: Acquisitions**

On November 20, 2023, Snap-on acquired certain assets of SAVTEQ, Inc. ("SAVTEQ") for a cash purchase price of \$3.0 million. SAVTEQ, based in Lexington, Kentucky, provides precise non-contact measuring capabilities. In fiscal 2023, the company completed the purchase accounting valuations for the acquired net assets of SAVTEQ. The \$1.7 million excess of the purchase price over the fair value of the net assets acquired was recorded in "Goodwill" on the accompanying Condensed Consolidated Balance Sheets.

On November 1, 2023, Snap-on acquired Mountz, Inc. ("Mountz") for a cash purchase price of \$39.6 million. Mountz, based in San Jose, California, is a leading developer, manufacturer and marketer of high-precision torque tools, including measurement, calibration and documentation products. The company completed the purchase accounting valuations for the acquired net assets of Mountz in the first quarter of 2024. The \$19.8 million excess of the purchase price over the fair value of the net assets acquired was recorded in "Goodwill" on the accompanying Condensed Consolidated Balance Sheets.

For segment reporting purposes, the results of operations and assets of SAVTEQ have been included in the Repair Systems & Information Group since the acquisition date, and the results of operations and assets of Mountz have been included in the Commercial & Industrial Group since the acquisition date.

Pro forma financial information has not been presented for these acquisitions as the net effects, individually and collectively, were neither significant nor material to Snap-on's results of operations or financial position. See Note 6 for additional information on goodwill and other intangible assets.

**Note 4: Receivables**

**Trade and other accounts receivable:** Snap-on's trade and other accounts receivable primarily arise from the sale of tools, diagnostics, and equipment products to a broad range of industrial and commercial customers and to Snap-on's independent franchise van channel with payment terms generally ranging from 30 to 120 days.

**Finance and contract receivables:** Snap-on Credit LLC ("SOC"), the company's financial services operation in the United States, originates extended-term finance and contract receivables on sales of Snap-on's products sold through the U.S. franchisee network and to certain other customers of Snap-on; Snap-on's foreign finance subsidiaries provide similar financing internationally. Interest income on finance and contract receivables is included in "Financial services revenue" on the accompanying Condensed Consolidated Statements of Earnings.

Finance receivables are comprised of extended-term payment contracts to both technicians and independent shop owners (i.e., franchisees' customers) to enable them to purchase tools, diagnostics, and equipment products on an extended-term payment plan, with average payment terms of approximately four years.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

Contract receivables, with payment terms of up to 10 years, are comprised of extended-term payment contracts to a broad base of customers worldwide, including shop owners, both independents and national chains, for their purchase of tools, diagnostics, and equipment products, as well as extended-term contracts to franchisees to meet a number of financing needs, including working capital loans, loans to enable new franchisees to fund the purchase of the franchise and van leases, or the expansion of an existing franchise. Finance and contract receivables are generally secured by the underlying tools, diagnostics and/or equipment products financed and, for contracts to franchisees, other franchisee assets.

**Credit quality:** The company's receivable portfolio is comprised of two portfolio segments, finance and contract receivables, which are the same segments used to estimate expected credit losses reported in the allowances for credit losses. The amortized cost basis for finance and contract receivables is the amount originated adjusted for applicable accrued interest and net of deferred fees or costs, collection of cash, collections, and write-offs. The company monitors and assesses credit risk based on the characteristics of each portfolio segment.

When extending credit, Snap-on evaluates the collectability of the receivables based on a combination of various financial and qualitative factors that may affect a customer's ability to pay. These factors may include the customer's financial condition, past payment experience, and credit bureau and proprietary Snap-on credit model information, as well as the value of the underlying collateral.

For finance and contract receivables, Snap-on assesses quantitative and qualitative factors through the use of credit quality indicators consisting primarily of delinquency classification, collection experience and related internal metrics, credit exposure by customer. Delinquency is the primary indicator of credit quality for finance and contract receivables. Snap-on conducts monthly reviews of credit and collection performance for both the finance and contract receivable portfolios focusing on data such as delinquency trends, nonaccrual receivables, and write-off and recovery activity. These reviews allow for the formulation of collection strategies and potential collection policy modifications in response to changing risk profiles in the finance and contract receivable portfolios. The other internal metrics include credit exposure by customer and delinquency classification to further monitor changing risk profiles. The company also maintains a system that aggregates credit exposure and provides delinquency data by days past due aging categories. A receivable 30 days or more past due is considered delinquent. However, customer receivables are monitored prior to becoming 30 days past due.

The amortized cost basis of finance and contract receivables by origination year as of **September 30, 2023** **March 30, 2024**, and charge-offs **for** **recorded in the **nine** **three** months ended **September 30, 2023** **March 30, 2024**, by origination year**, are as follows:

**Allowances for credit losses:** The allowances for credit losses are maintained at levels that are considered adequate to cover expected credit losses over the remaining contractual life of the receivables using historical loss experience, asset specific risk characteristics, current conditions, reasonable and supportable forecasts, and an appropriate reversion period, when applicable. Management performs detailed reviews of its receivables on a monthly and/or quarterly basis to assess the adequacy of the allowances and to determine if any impairment has occurred. A receivable generally has credit losses when it is expected that all amounts related to the receivable will not be collected according to the contractual terms of the agreement. Amounts determined to be uncollectable are charged directly against the allowances, while amounts recovered on previously written off accounts increase the allowances.

For both finance and contract receivables, write-offs include the uncollectable principal amount of the receivable as well as the uncollectable accrued interest and fees, net of repossession. For finance receivables only, write-offs are partially offset by recourse from franchisees. Recovered interest and fees previously written off are recorded through the allowances for credit losses and increase the allowances. Absent a repossession, finance receivables are typically written off when an account reaches 120 days past due. Repossessed accounts are typically written off within 60 days of asset repossession. Contract receivables related to equipment leases are generally written off when an account

becomes 150 days past due, while contract receivables related to franchise finance and van leases are generally written off no later than when the receivable becomes 180 days past the asset return date. For finance and contract receivables, customer bankruptcies are generally written off upon notification that the associated debt is not being reaffirmed or, in any event, no later than when the receivable becomes 180 days past due. Changes to the allowances for credit losses are maintained through adjustments to the provisions for credit losses.

For finance receivables, the company uses a vintage loss rate methodology to determine expected losses. Vintage analysis aims to calculate losses based on the timing of the losses relative to the origination of the receivables. The finance receivable portfolio contains a substantial amount of homogeneous contracts which fits well with the vintage analysis.

For contract receivables, the company primarily uses a Weighted-Average Remaining Maturity ("WARM") methodology. The WARM methodology calculates the average annual write-off rate and applies it to the remaining term of the receivables. The WARM methodology is used since contract receivables have limited loss experience over generally longer terms and, therefore, the predictive loss patterns are more difficult to estimate.

The company performed a correlation analysis to compare historical losses to many economic factors. The primary economic factors considered were real gross domestic product, civilian unemployment, industrial production index, and repair and maintenance employment rate; the company determined that there is limited correlation between the historical losses and economic factors. As a result, consideration was given to qualitative factors to adjust the reserve balance for asset specific risk characteristics, current conditions and future expectations. Similar qualitative factors are considered for both finance and contract receivables. The qualitative factors used in determining the estimate of expected credit losses are influenced by the changes in the composition of the portfolio, underwriting practices, and other relevant conditions that were different from the historical periods.

The allowances for credit losses are adjusted each period for changes in the credit risk and expected lifetime credit losses.

The following is a rollforward of the allowances for credit losses for finance and contract receivables for the three and nine months ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**:

**Past due:** Depending on the contract, payments for finance and contract receivables are due on a monthly or weekly basis. Weekly payments are converted into a monthly equivalent for purposes of calculating delinquency. Delinquencies are assessed at the end of each month following the monthly equivalent contractual payment due date. The entire receivable balance of a contract is considered delinquent when contractual payments become 30 days past due. Removal from delinquent status occurs when the cumulative amount of monthly contractual payments then due have been received by the company.

**Nonaccrual:** SOC maintains the accrual of interest income during the progression through the various stages of delinquency prior to processing for write-off. At the time of write-off, the entire balance including the accrued but unpaid interest income amount is recorded as a loss.

Finance receivables are generally placed on nonaccrual status (nonaccrual of interest and other fees): (i) when a customer is placed on repossession status; (ii) upon receipt of notification of bankruptcy; (iii) upon notification of the death of a customer; or (iv) in other instances in which management concludes collectability is not reasonably assured.

Contract receivables are generally placed on nonaccrual status: (i) when a receivable is more than 90 days past due or at the point a customer's account is placed on terminated status regardless of its delinquency status; (ii) upon notification of the death of a customer; or (iii) in other instances in which management concludes collectability is not reasonably assured.

The accrual of interest and other fees is resumed when the finance or contract receivable becomes contractually current and collection of all remaining contractual amounts due is reasonably assured. A receivable may have credit losses when it is expected that all amounts related to the receivable will not be collected according to the contractual terms of the applicable agreement. Such finance and contract receivables are covered by the company's respective allowances for credit losses and are written-off against the allowances when appropriate.

The amount of finance and contract receivables on nonaccrual status as of **September 30, 2023** **March 30, 2024**, and **December 31, 2022** **December 30, 2023**, is as follows:

The gross carrying value of customer relationships and non-amortized trademarks includes \$8.7 million and \$5.4 million, respectively, related to the second quarter of 2023, the results of which did not result in any impairment. Mountz acquisition.

Provisions for the impairment of goodwill and/or other intangible assets could arise in a future period due to significant and unanticipated changes in circumstances, such as declines in profitability and cash flow due to long-term deterioration in macroeconomic, industry and market conditions, the loss of key customers, changes in technology or markets, changes in key personnel or litigation, a sustained decrease in share price and/or other events. As of **September 30, 2023** **March 30, 2024**, the company had no accumulated impairment losses.

The weighted-average amortization periods related to other intangible assets are as follows:

|                               | In Years |
|-------------------------------|----------|
| Customer relationships        | 14       |

| Other                         | 39       |

The weighted-average amortization period for all amortizable intangible assets on a combined basis is 12 years. Intangible asset renewal costs are expensed as incurred.

The aggregate amortization expense was \$6.8 million \$6.3 million and \$20.7 million \$6.9 million for the respective three and nine month periods ended **September 30, 2023** **March 30, 2024**, and \$7.2 million and \$21.6 million for the respective three and nine month periods ended **October 1, 2022** **April 1, 2023**. Based on current levels of amortizable intangible assets and estimated weighted-average useful lives, estimated annual amortization expense is expected to be \$27.2 million in 2023, \$21.9 million \$24.7 million in 2024, \$15.8 million \$18.2 million in 2025, \$11.9 million \$13.5 million in 2026, \$10.4 million \$11.4 million in 2027, \$10.0 million in 2028, and \$9.1 million \$7.4 million in 2028 2029.

**Note 6:7: Income Taxes**

Snap-on's effective income tax rate on earnings attributable to Snap-on was 22.9% 22.2% and 23.0% 23.1% in the respective first nine three month periods of 2023 2024 and 2022 2023.

Snap-on and its subsidiaries file income tax returns in the United States and in various state, local and foreign jurisdictions. It is reasonably possible that certain unrecognized tax benefits may either be settled with taxing authorities or the statutes of limitations for such items may lapse within the next 12 months, causing Snap-on's gross unrecognized tax benefits to decrease by a range of zero to \$0.6 million \$0.9 million. Over the next 12 months, Snap-on anticipates taking certain tax positions on various tax returns for which the related tax benefit does not meet the recognition threshold. Accordingly, Snap-on's gross unrecognized tax benefits may increase by a range of zero to \$0.6 million \$0.9 million over the next 12 months for uncertain tax positions expected to be taken in future tax filings.

Notes payable of \$17.3 million \$15.2 million as of September 30, 2023 March 30, 2024, compared to \$17.2 million \$15.6 million as of 2022 2023 year end.

On September 12, 2023, Snap-on entered into has a \$900 million multi-currency multicurrency revolving credit facility that terminates on September 12, 2028 (the "Credit Facility"), which amended and restated in its entirety the company's previous \$800 million multi-currency revolving credit facility that was set to terminate on September 16, 2024. The Credit Facility contains an accordion feature that, subject to certain customary conditions, may allow the maximum commitment to be increased by up to \$450 million with the approval of the lenders providing additional commitments. No amounts were borrowed or outstanding under either the Credit Facility during the nine three months ended and as of September 30, 2023 March 30, 2024. Borrowings under the Credit Facility bear interest at varying rates based on either: (i) Snap-on's then-current, long-term debt ratings; or (ii) Snap-on's then-current ratio of consolidated debt net of certain cash adjustments ("Consolidated Net Debt") to earnings before interest, taxes, depreciation, amortization and certain other adjustments for the preceding four fiscal quarters then ended (the "Consolidated Net Debt to EBITDA Ratio"). The Credit Facility's financial covenant requires that Snap-on maintain, as of each fiscal quarter end, either (i) a ratio not greater than 0.60 to 1.00 of Consolidated Net Debt to the sum of Consolidated Net Debt plus total equity and less accumulated other comprehensive income or loss (the "Leverage Ratio"); or (ii) a Consolidated Net Debt to EBITDA Ratio not greater than 3.50 to 1.00. Snap-on may, up to two times during any five-year period during the term of the Credit Facility (including any extensions thereof), elect to increase the maximum Leverage Ratio to 0.65 to 1.00 and/or increase the maximum Consolidated Net Debt to EBITDA Ratio to 4.00 to 1.00 for four consecutive fiscal quarters in connection with certain material acquisitions (as defined in the related credit agreement). As of September 30, 2023 March 30, 2024, the company's actual ratios of 0.05 0.03 and 0.21 0.10, respectively, were both within the permitted ranges set forth in this financial covenant. Snap-on generally issues commercial paper to fund its financing needs on a short-term basis and uses the Credit Facility as back-up liquidity to support such commercial paper issuances. As of September 30, 2023 March 30, 2024, there were no commercial paper issuances outstanding.

**Note 8:9: Financial Instruments**

**Derivatives:** All derivative instruments are reported in the Condensed Consolidated Financial Statements at fair value. Changes in the fair value of derivatives are recorded each period in earnings or on the accompanying Condensed Consolidated Balance Sheets, depending on whether the derivative is designated and effective as part of a hedged transaction. Gains or losses on derivative instruments recorded in earnings are presented in the same Condensed Consolidated Statement of Earnings line that is used to present the earnings effect of the hedged item. Gains or losses on derivative instruments in accumulated other comprehensive income (loss) ("Accumulated OCI") are reclassified to earnings in the period in which earnings are affected by the underlying hedged item.

The criteria used to determine if hedge accounting treatment is appropriate are: (i) the designation of the hedge to an underlying exposure; (ii) whether or not overall risk is being reduced; and (iii) if there is a correlation between the value of the derivative instrument and the underlying hedged item. Once a derivative contract is entered into, Snap-on designates the derivative as a fair value hedge, a cash flow hedge, a hedge of a net investment in a foreign operation, or a natural hedging instrument whose change in fair value is recognized as an economic hedge against changes in the value of the hedged item. Snap-on does not use derivative instruments for speculative or trading purposes.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
(Uaudited)

Snap-on is exposed to global market risks, including the effects of changes in foreign currency exchange rates, interest rates, and the company's stock price. The company uses derivatives to manage financial exposures that occur in the normal course of business. The primary risks managed by using derivative instruments are foreign currency risk, interest rate risk and stock-based deferred compensation risk.

**Foreign currency risk management:** Snap-on has significant international operations and is subject to certain risks inherent with foreign operations that include currency fluctuations. Foreign currency exchange risk exists to the extent that Snap-on has payment obligations or receipts denominated in currencies other than the functional currency, including intercompany loans denominated in foreign currencies. To manage these exposures, Snap-on identifies naturally offsetting positions and then purchases hedging instruments to protect the residual net exposures. Snap-on manages most of these exposures on a consolidated basis, which allows for netting of certain exposures to take advantage of natural offsets. Foreign currency forward contracts ("foreign currency forwards") are used to hedge the net exposures. Gains or losses on net foreign currency hedges are intended to offset losses or gains on the underlying net exposures in an effort to reduce the earnings volatility resulting from fluctuating foreign currency exchange rates. Snap-on's foreign currency forwards are typically not designated as hedges. The fair value changes of these contracts are reported in earnings as foreign exchange gain or loss, which is included in "Other income (expense) – net" on the accompanying Condensed Consolidated Statements of Earnings. See Note [15](#) [16](#) for additional information on Other income (expense) – net.

**Interest rate risk management:** Snap-on may manage the exposure created by the differing maturities and interest rate structures of Snap-on's borrowings through the use of interest rate swap agreements ("interest rate swaps") and treasury lock agreements ("treasury locks").

**Interest rate swaps:** Snap-on may enter into interest rate swaps to manage risks associated with changing interest rates related to the company's fixed rate borrowings. Interest rate swaps are accounted for as fair value hedges. The differentials paid or received on interest rate swaps are recognized as adjustments to "Interest expense" on the accompanying Condensed Consolidated Statements of Earnings. The change in the fair value of the derivative is recorded in "Long-term debt" on the accompanying Condensed Consolidated Balance Sheets. There were no outstanding interest rate swaps as of both [September 30, 2023](#) [March 30, 2024](#), and [December 31, 2022](#) [30, 2023](#).

**Treasury locks:** Snap-on may use treasury locks to manage the potential change in interest rates in anticipation of the issuance of fixed rate debt. Treasury locks are accounted for as cash flow hedges. The differentials to be paid or received on treasury locks related to the anticipated issuance of fixed rate debt are initially recorded in Accumulated OCI for derivative instruments that are designated and qualify as cash flow hedges. Upon the issuance of debt, the related amount in Accumulated OCI is released over the term of the debt and recognized as an adjustment to interest expense on the Condensed Consolidated Statements of Earnings. There were no treasury locks outstanding as of both [September 30, 2023](#) [March 30, 2024](#), and [December 31, 2022](#) [December 30, 2023](#). See Note 16 for additional information on Other income (expense) – net.

**(Unaudited)**

**Stock-based deferred compensation risk management:** Snap-on manages market risk associated with the stock-based portion of its deferred compensation plans through the use of prepaid equity forward agreements ("equity forwards"). Equity forwards are used to aid in offsetting the potential mark-to-market effect on stock-based deferred compensation from changes in Snap-on's stock price. Since stock-based deferred compensation liabilities increase as the company's stock price rises and decrease as the company's stock price declines, the equity forwards are intended to mitigate the potential impact on deferred compensation expense that may result from such mark-to-market changes. As of [September 30, 2023](#) [March 30, 2024](#), Snap-on had equity forwards in place intended to manage market risk with respect to [69,400](#) [76,900](#) shares of Snap-on common stock associated with its deferred compensation plans.

**Counterparty risk:** Snap-on is exposed to credit losses in the event of non-performance by the counterparties to its various financial agreements, including its foreign currency forward contracts, interest rate swap agreements, treasury lock agreements and prepaid equity forward agreements. Snap-on does not obtain collateral or other security to support financial instruments subject to credit risk, but monitors the credit standing of the counterparties and generally enters into agreements with financial institution counterparties with a credit rating of A- or better. Snap-on does not anticipate non-performance by its counterparties, but cannot provide assurances.

The following methods and assumptions **were** used in estimating the fair value of financial instruments:

- Finance and contract receivables include both short-term and long-term receivables. The fair value estimates of finance and contract receivables are derived utilizing discounted cash flow analyses performed on groupings of receivables that are similar in terms of loan type and characteristics. The cash flow analyses consider recent prepayment trends where applicable. The cash flows are discounted over the average life of the receivables using a current market discount rate of a similar term adjusted for credit quality. Significant inputs to the fair value measurements of the receivables are unobservable and, as such, are classified as Level 3.
- Fair value of long-term debt is estimated, using Level 2 fair value measurements, based on quoted market values of Snap-on's publicly traded senior debt. The carrying value of long-term debt includes unamortized debt issuance costs and issuance discounts. The fair value of notes payable approximates such instruments' carrying value due to their short-term nature.
- The fair value of all other financial instruments, including trade and other accounts receivable, accounts payable and other financial instruments, approximates such instruments' carrying value due to their short-term nature.

**Note 11, 12: Stock-based Compensation and Other Stock Plans**

The 2011 Incentive Stock and Awards Plan (the "2011 Plan") provides for the grant of stock options, performance share units ("PSUs"), stock appreciation rights ("SARs") and restricted stock awards (which may be designated as "restricted stock units" or "RSUs"). As of September 30, 2023 March 30, 2024, the 2011 Plan had 2,633,565 2,047,931 shares available for future grants. The company uses treasury stock to deliver shares under the 2011 Plan.

Net stock-based compensation expense was \$11.0 million \$9.8 million and \$31.4 million \$10.2 million for the respective three and nine month periods ended September 30, 2023 March 30, 2024, and \$8.1 million and \$25.6 million for the respective three and nine month periods ended October 1, 2022 April 1, 2023. Cash received from stock purchase plan and stock option exercises during the respective three and nine month periods ended September 30, 2023 March 30, 2024, and April 1, 2023 totaled \$9.9 million \$28.3 million and \$94.5 million. Cash received from stock purchase plan and stock option exercises during the respective three and nine month periods ended October 1, 2022, totaled \$12.2 million and \$41.4 million \$32.8 million. The tax benefit realized from both the exercise and vesting of share-based payment arrangements was \$2.6 million \$9.7 million and \$13.1 million \$5.1 million for the respective three and nine month periods ended September 30, 2023 March 30, 2024, and \$3.3 million and \$7.2 million for the respective three and nine month periods ended October 1, 2022 April 1, 2023.

**Stock options:** Stock options are granted with an exercise price equal to the market value of a share of Snap-on's common stock on the date of grant and have a contractual term of 10 years. Stock option grants vest ratably on the first, second and third anniversaries of the date of grant.

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes valuation model. The company uses historical data regarding stock option exercise and forfeiture behaviors for different participating groups to estimate the period of time that stock options granted are expected to be outstanding. Expected volatility is based on the historical volatility of the company's stock for the length of time corresponding to the expected term of the stock option. The expected dividend yield is based on the expected annual dividend as a percentage of the market value of our common stock as of the date of grant. The risk-free interest rate is based on the U.S. treasury yield curve on the grant date for the expected term of the stock option.

The following weighted-average assumptions were used in calculating the fair value of stock options granted during the nine three month periods ended September 30, 2023 March 30, 2024, and October 1, 2022 April 1, 2023, using the Black-Scholes valuation model:

\* Weighted-average

The weighted-average grant date fair value of stock options granted during the **nine** three months ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**, was **\$51.09** **\$55.07** and **\$34.35**, **\$51.09**, respectively. The intrinsic value of stock options exercised was **\$9.9 million** **\$17.1 million** and **\$57.0 million** **\$22.6 million** during the respective three and nine month periods ended **September 30, 2023** **March 30, 2024**, and **\$13.1 million** and **\$23.3 million** during the respective three and nine month periods ended **October 1, 2022** **April 1, 2023**. The fair value of stock options vested was **\$9.1 million** **\$9.5 million** and **\$10.5 million** **\$9.1 million** during the respective **nine** three month periods ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**.

As of **September 30, 2023** **March 30, 2024**, there was **\$14.5 million** **\$22.1 million** of unrecognized compensation cost related to non-vested stock options that is expected to be recognized as a charge to earnings over a weighted-average period of **1.6** **2.2** years.

**Performance share units:** PSUs are earned and expensed using the fair value of the award over a contractual term of three years based on the company's performance. Vesting of the PSUs is dependent upon performance relative to pre-defined goals for revenue growth and return on net assets for the applicable performance period. For performance achieved above specified levels, the recipient may earn additional shares of stock, not to exceed 100% of the number of performance awards initially granted. The PSUs have a three-year performance period based on the results of the consolidated financial metrics of the company.

The fair value of PSUs is calculated using the market value of a share of Snap-on's common stock on the date of grant and assumed forfeitures based on recent historical experience; in recent years, forfeitures have not been significant. The weighted-average grant date fair value of PSUs granted during the **nine** three months ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**, was **\$249.26** **\$269.00** and **\$204.87**, **\$249.26**, respectively. PSUs related to **60,402** **137,096** shares and **46,217** **60,402** shares were paid out during the **nine** three months ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**, respectively. Earned PSUs vest and are generally paid out following the conclusion of the applicable performance period upon approval by the Organization and Executive Compensation Committee of the company's Board of Directors (the "Board").

Changes to the company's non-vested PSUs during the **nine** three months ended **September 30, 2023** **March 30, 2024**, are as follows:

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**  
**(Unaudited)**

As of **September 30, 2023** **March 30, 2024**, there was **\$20.6 million** **\$29.0 million** of unrecognized compensation cost related to non-vested PSUs that are expected to be recognized as a charge to earnings over a weighted-average period of **1.0 year**; **1.5 years**.

**Restricted stock units:** RSUs are earned and expensed using the fair value of the award over the contractual term of three years. Vesting of the RSUs is dependent upon continued employment over the three-year cliff vesting period.

The fair value of RSUs is calculated using the market value of a share of Snap-on's common stock on the date of grant and assumed forfeitures based on recent historical experience; in recent years, forfeitures have not been significant. The weighted-average grant date fair value of RSUs granted during the **nine** **three** months ended **September 30, 2023** **March 30, 2024**, and **October 1, 2022** **April 1, 2023**, was **\$269.00** and **\$249.26**, and **\$211.67**, respectively.

\* Weighted-average

As of **September 30, 2023** **March 30, 2024**, there was **\$8.1 million** **\$11.5 million** of unrecognized compensation cost related to non-vested RSUs that are expected to be recognized as a charge to earnings over a weighted-average period of **1.2** **1.9** years.

**Stock appreciation rights:** The company also issues stock-settled and cash-settled SARs to certain key non-U.S. employees. SARs have a contractual term of 10 years and vest ratably on the first, second and third anniversaries of the date of grant. SARs are granted with an exercise price equal to the market value of a share of Snap-on's common stock on the date of grant.

Stock-settled SARs are accounted for as equity instruments and provide for the issuance of Snap-on common stock equal to the amount by which the company's stock has appreciated over the exercise price. Stock-settled SARs have an effect on dilutive shares and shares outstanding as any appreciation of Snap-on's common stock value over the exercise price will be settled in shares of common stock. Cash-settled SARs provide for the cash payment of the excess of the fair market value of Snap-on's common stock price on the date of exercise over the grant price. Cash-settled SARs have no effect on dilutive shares or shares outstanding as any appreciation of Snap-on's common stock over the grant price is paid in cash and not in common stock.

The fair value of stock-settled SARs is estimated on the date of grant using the Black-Scholes valuation model. The fair value of cash-settled SARs is revalued (mark-to-market) each reporting period using the Black-Scholes valuation model based on Snap-on's period-end stock price. The company uses historical data regarding SARs exercise and forfeiture behaviors for different participating groups to estimate the expected term of the SARs granted based on the period of time that similar instruments granted are expected to be outstanding. Expected volatility is based on the historical volatility of the company's stock for the length of time corresponding to the expected term of the SARs. The expected dividend yield is based on the expected annual dividend as a percentage of the market value of our common stock as of the date of grant (for stock-settled SARs) or reporting date (for cash-settled SARs). The risk-free interest rate is based on the U.S. treasury yield curve in effect as of the grant date (for stock-settled SARs) or reporting date (for cash-settled SARs) for the length of time corresponding to the expected term of the SARs.

The following weighted-average assumptions were used in calculating the fair value of stock-settled SARs granted during the three months ended March 30, 2024, and April 1, 2023, using the Black-Scholes valuation model:

**Restricted stock awards – non-employee directors:** The company awarded 5,760 5,391 shares and 6,525 5,760 shares of restricted stock to non-employee directors for the respective nine three month periods ended September 30, 2023 March 30, 2024, and October 1, 2022 April 1, 2023. The fair value of the restricted stock awards is expensed over a one-year vesting period based on the fair value on the date of grant. All restrictions on the restricted stock awards generally lapse upon the earlier of the first anniversary of the grant date, the recipient's death or disability or in the event of a change in control, as defined in the 2011 Plan. If termination of the recipient's service occurs prior to the first anniversary of the grant date for any reason other than death or disability, the shares of restricted stock would be forfeited, unless otherwise determined by the Board.

**Employee stock purchase plan:** Substantially all Snap-on employees in the United States and Canada are eligible to participate in an employee stock purchase plan. The purchase price of the company's common stock to participants is the lesser of the mean of the high and low price prices of the stock on the beginning date (May 15) or ending date (the following May 14) of each plan year. The company records compensation expense when Snap-on's period-end stock price is greater than the plan purchase price. There were 27,225 shares and 18,452 no shares issued under this plan for the respective nine three month periods ended September 30, 2023 March 30, 2024, and October 1, 2022 April 1, 2023. As of September 30, 2023 March 30, 2024, 551,598 shares were reserved for issuance under this plan and Snap-on held participant contributions of approximately \$1.9 million \$4.8 million. Participants are able to withdraw from the plan at any time prior to the ending date and receive back all contributions made during the plan year. Compensation expense for plan participants was zero \$0.3 million and \$1.0 million \$0.5 million for the three and nine month periods ended September 30, 2023 March 30, 2024, and April 1, 2023, respectively. The company did not recognize any compensation expense for plan participants for both the three and nine month periods ended October 1, 2022.

**Franchisee stock purchase plan:** All franchisees in the United States and Canada are eligible to participate in a franchisee stock purchase plan. The purchase price of the company's common stock to participants is the lesser of the mean of the high and low price prices of the stock on the beginning date (May 15) or ending date (the following May 14) of each plan year. The company records mark-to-market expense when Snap-on's period-end stock price is greater than the plan purchase price. There were 46,510 shares and 44,937 no shares issued under this plan for the respective nine three month periods ended September 30, 2023 March 30, 2024, and October 1, 2022 April 1, 2023. As of September 30, 2023 March 30, 2024, 178,715 shares were reserved for issuance under this plan and Snap-on held participant contributions of approximately \$4.3 million \$10.1 million. Participants are able to withdraw from the plan at any time prior to the ending date and generally receive back all contributions made during the plan year. The company recognized market-to-market mark-to-market expense of zero \$0.7 million and \$1.6 million \$0.9 million for the three and nine month periods ended September 30, 2023. The company did not recognize any mark-to-market expense for both the three March 30, 2024, and nine month periods ended October 1, 2022 April 1, 2023, respectively.

**Note 13: 14: Commitments and Contingencies**

Snap-on provides product warranties for specific product lines and accrues for estimated future warranty cost in the period in which the sale is recorded. Snap-on calculates its accrual requirements based on historic warranty loss experience that is periodically adjusted for recent actual experience, including the timing of claims during the warranty period and actual costs incurred.

Snap-on's product warranty accrual activity for the three and nine months ended September 30, 2023 March 30, 2024, and October 1, 2022 April 1, 2023, is as follows:

In the ordinary course of our business, Snap-on is subject to legal disputes that are being litigated and/or settled. The accompanying Condensed Consolidated Statement of Earnings for the three months ended March 30, 2024, includes an \$11.3 million benefit in "Operating expenses" for payments received associated with a legal matter. Although it is not possible to predict the outcome of legal matters, management believes that the results of all legal matters will not have a material impact on Snap-on's consolidated financial position, results of operations or cash flows.

#### Note 17: Segments

Snap-on's business segments are based on the organization structure used by management for making operating and investment decisions and for assessing performance. Snap-on's reportable business segments are: (i) the Commercial & Industrial Group; (ii) the Snap-on Tools Group; (iii) the Repair Systems & Information Group; and (iv) Financial Services. The Commercial & Industrial Group consists of business operations serving a broad range of industrial and commercial customers worldwide, including customers in the aerospace, natural resources, government and military, power generation, transportation, and technical education market segments (collectively, "critical industries"), primarily through direct and distributor channels. The Snap-on Tools Group consists of business operations primarily serving vehicle service and repair technicians through the company's multi-national mobile tool distribution channel. The Repair Systems & Information Group consists of business operations serving other professional vehicle repair customers worldwide, primarily owners and managers of independent repair shops and OEM dealerships, through direct and distributor channels. Financial Services consists of the business operations of Snap-on's finance subsidiaries.

#### SNAP-ON INCORPORATED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

Snap-on evaluates the performance of its operating segments based on segment revenues [including](#) and segment operating earnings. The Snap-on Tools Group segment revenues [include](#) external net sales, while the Commercial & Industrial Group and the Repair Systems & Information Group segment revenues [include](#) both external and intersegment net sales, and segment operating earnings [sales](#). Snap-on accounts for intersegment net sales and transfers based primarily on standard costs with reasonable mark-ups established between the segments. Identifiable assets by segment are those assets used in the respective reportable segment's operations. Corporate assets consist of cash and cash equivalents (excluding cash held at Financial Services), deferred income taxes and certain other assets. Intersegment amounts are eliminated to arrive at Snap-on's consolidated financial results.

**Caution Regarding Forward-Looking Statements:**

Statements in this document that are not historical facts, including statements that (i) are in the future tense, (ii) include the words "expects," "plans," "targets," "estimates," "believes," "anticipates," or similar words that reference Snap-on Incorporated ("Snap-on" or "the company") or its management, (iii) are specifically identified as forward-looking, or (iv) describe Snap-on's or management's future outlook, plans, estimates, objectives or goals, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Snap-on cautions the reader that any forward-looking statements included in this document that are based upon assumptions and estimates were developed by management in good faith and are subject to risks, uncertainties or other factors that could cause (and in some cases have caused) actual results to differ materially from those described in any such statement. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results or regarded as a representation by the company or its management that the projected results will be achieved. For those forward-looking statements, Snap-on cautions the reader that numerous important factors, such as those listed below, **the as well as those** factors discussed in its Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** December 30, 2023 ("20222023 year end"), and those discussed in this document, could affect the company's actual results and could cause its actual consolidated results to differ materially from those expressed in any forward-looking statement made by, or on behalf of, Snap-on.

Risks and uncertainties include, without limitation:

- Uncertainties related to estimates, assumptions and projections generally;
- The timing and progress with which Snap-on can attain value through its Snap-on Value Creation Processes, including its ability to (i) realize efficiencies and savings from its rapid continuous improvement and other cost reduction initiatives, (ii) improve workforce productivity, (iii) achieve improvements in the company's manufacturing footprint and greater efficiencies in its supply chain, and (iv) enhance machine maintenance, plant productivity and manufacturing line set-up and change-over practices, any or all of which could result in production inefficiencies, higher costs and/or lost revenues;
- Snap-on's capability to successfully implement future strategies with respect to its existing businesses;
- Snap-on's ability to refine its brand and franchise strategies, retain and attract franchisees, and further enhance service and value to franchisees in order to help improve the sales and profitability of franchisees;
- The company's ability to introduce successful new products;
- Significant changes in the current competitive environment;
- Risks related to pursuing, completing and integrating acquisitions;
- Inflation, interest rate changes and other monetary and market fluctuations;
- Price and supply fluctuations related to raw materials, components and certain purchased finished goods, such as steel, plastics, and electronics;
- The effects of external economic factors, including adverse developments in world financial markets, disruptions related to tariffs and other trade **or sanction** issues, and global supply chain inefficiencies, including as a result of the current war in **Ukraine; Ukraine and other regional conflicts;**
- Snap-on's ability to successfully manage changes in prices and the availability of energy sources, including gasoline;
- Snap-on's ability to withstand disruption arising from natural disasters, including climate-related events or other unusual occurrences;
- Risks associated with data security and technological systems and protections, including the effects of cyber incidents and from new legislation, regulations or government-related developments;
- The impact of labor interruptions or challenges, and Snap-on's ability to effectively manage human capital resources;
- **Snap-on's ability to successfully manage planned facility closures or to withstand disruptions from unexpected closures;**
- Weakness in certain geographic areas, including as a result of localized recessions, and the impact of matters related to the United Kingdom's exit from the European Union;
- Changes in tax rates, laws and regulations as well as uncertainty surrounding potential changes;
- The amount, rate and growth of health care and postretirement costs, including continuing and potentially increasing required contributions to pension and postretirement plans;

**OF OPERATIONS**  
(continued)

- The effects of new requirements, legislation, regulations or government-related developments or issues, as well as third party actions, including those addressing climate change;
- Potential reputational damages and costs related to litigation;
- The impact of outbreaks of infectious diseases as well as the effects of governmental actions related thereto on Snap-on's business, which could have the potential to amplify the impact of the other risks facing the company; and
- Other world or local events outside Snap-on's control, including terrorist disruptions, armed conflicts and civil unrest.

Snap-on disclaims any responsibility to update any forward-looking statement provided in this document, except as required by law.

In addition, investors should be aware that generally accepted accounting principles in the United States of America ("GAAP") prescribe when a company should reserve for particular risks, including litigation exposures. Accordingly, results for a given reporting period could be significantly affected if and when a reserve is established for a major contingency. Reported results, therefore, may appear to be volatile in certain accounting periods.

**Non-GAAP Measures**

References in this report Management's Discussion and Analysis of Financial Condition and Results of Operations to "organic sales" refer to sales from continuing operations calculated in accordance with GAAP, adjusted to exclude acquisition-related sales and the impact of foreign currency translation. Management evaluates the company's sales performance based on organic sales growth, which primarily reflects growth from the company's existing businesses as a result of increased output, expanded customer base, geographic expansion, new product development and pricing changes, and excludes sales contributions from acquired operations the company did not own as of the comparable prior-year reporting period. Organic sales also exclude the effects of foreign currency translation as foreign currency translation is subject to volatility that can obscure underlying business trends. Management believes that the non-GAAP financial measure of organic sales is meaningful to investors as it provides them with useful information to aid in identifying underlying growth trends in the company's businesses and facilitates comparisons of its sales performance with prior periods.

#### Segment Results

Snap-on's business segments are based on the organization structure used by management for making operating and investment decisions and for assessing performance. Snap-on's reportable business segments are: (i) the Commercial & Industrial Group; (ii) the Snap-on Tools Group; (iii) the Repair Systems & Information Group; and (iv) Financial Services. The Commercial & Industrial Group consists of business operations serving a broad range of industrial and commercial customers worldwide, including customers in the aerospace, natural resources, government and military, power generation, transportation, and technical education market segments (collectively, "critical industries"), primarily through direct and distributor channels. The Snap-on Tools Group consists of business operations primarily serving vehicle service and repair technicians through the company's multi-national multinational mobile tool distribution channel. The Repair Systems & Information Group consists of business operations serving other professional vehicle repair customers worldwide, primarily owners and managers of independent repair shops and OEM dealerships, through direct and distributor channels. Financial Services consists of the business operations of Snap-on's finance subsidiaries.

Snap-on evaluates the performance of its operating segments based on segment revenues including and segment operating earnings. The Snap-on Tools Group segment revenues include external net sales, while the Commercial & Industrial Group and the Repair Systems & Information Group segment revenues include both external and intersegment net sales, and segment operating earnings. Snap-on accounts for intersegment net sales and transfers based primarily on standard costs with reasonable mark-ups established between the segments. Identifiable assets by segment are those assets used in the respective reportable segment's operations. Corporate assets consist of cash and cash equivalents (excluding cash held at Financial Services), deferred income taxes and certain other assets. Intersegment amounts are eliminated to arrive at Snap-on's consolidated financial results.

Segment net sales of \$366.4 million in the third quarter of 2023 represented an increase of \$9.6 million, or 2.7%, from 2022 levels, reflecting an \$11.2 million, or 3.2%, organic sales gain, partially offset by \$1.6 million of unfavorable foreign currency translation. The organic increase is primarily due to a double-digit gain in sales to customers in critical industries, partially offset by a double-digit decline in the segment's Asia Pacific operations.

Segment gross margin in the third quarter improved 210 bps from last year, primarily reflecting increased sales volumes in the higher-gross-margin critical industry sector, pricing actions, and benefits from the segment's RCI initiatives. These improvements were partially offset by 60 bps of unfavorable foreign currency effects.

Segment operating expenses as a percentage of sales in the third quarter rose 90 bps as compared to 2022 primarily due to increased sales in higher-expense businesses, as well as increased personnel and other costs.

As a result of these factors, segment operating earnings of \$58.1 million in the third quarter of 2023, including \$2.9 million of unfavorable foreign currency effects, compared to \$52.3 million in 2022, an increase of \$5.8 million or 11.1%. Operating margin (segment operating earnings as a percentage of segment net sales) for the Commercial & Industrial Group of 15.9% in the third quarter of 2023 compared to 14.7% in 2022.

**Liquidity and Capital Resources**

Snap-on's growth has historically been funded by a combination of cash provided by operating activities and debt financing. Snap-on believes that its cash from operations and collections of finance receivables, coupled with its sources of borrowings and available cash on hand, are sufficient to fund its currently anticipated requirements for scheduled debt repayments, payments of interest and dividends, new receivables originated by our financial services businesses, capital expenditures, working capital, the funding of pension plans, and funding for share repurchases and acquisitions, if and as they arise.

Due to Snap-on's credit rating over the years, external funds have been available at an acceptable cost. As of **October 13, 2023** **April 12, 2024**, Snap-on's long-term debt and commercial paper were rated, respectively, A2 and P-1 by Moody's Investors Service; A- and A-2 by Standard & Poor's; and A and F1 by Fitch Ratings. Snap-on believes that its current credit arrangements are sound and that the strength of its balance sheet affords the company the financial flexibility, including through access to financial markets for potential new financing, to respond to both internal growth opportunities and those available through acquisitions. However, Snap-on cannot provide any assurance that financing will be available in the future on acceptable terms, or that its debt ratings will not decrease.

The following discussion focuses on information included in the accompanying Condensed Consolidated Balance Sheets.

Working capital (current assets less current liabilities) of \$2,623.1 million \$2,786.4 million as of **September 30, 2023** **March 30, 2024**, represented an increase of \$225.8 million \$76.0 million from \$2,397.3 million \$2,710.4 million as of **December 31, 2022** **December 30, 2023** (fiscal 2022 2023 year end), primarily as a result of the net changes discussed below.

The following represents the company's working capital position as of **September 30, 2023** **March 30, 2024**, and **December 31, 2022** **December 30, 2023**:

Cash and cash equivalents of \$959.3 million \$1,121.0 million as of **September 30, 2023** **March 30, 2024**, represented an increase of \$202.1 million \$119.5 million from 2022 2023 year-end levels primarily due to: (i) \$857.3 million \$348.7 million of cash generated from operations; (ii) \$626.5 million \$207.8 million of cash from collections of finance receivables; and (iii) \$94.5 million \$28.3 million of cash proceeds from stock purchase plan and stock option exercises. These increases in cash and cash equivalents were partially offset by: (i) the funding of \$779.8 million \$248.0 million of new finance receivables; (ii) dividend payments to shareholders of \$257.6 million; \$98.2 million; (iii) the repurchase of 909,000 248,000 shares of the company's common stock for \$233.8 million; \$70.2 million; and (iv) the funding of \$73.9 million \$21.8 million of capital expenditures.

Of the \$959.3 million \$1,121.0 million of cash and cash equivalents as of **September 30, 2023** **March 30, 2024**, \$359.3 million \$406.9 million was held outside of the United States. Snap-on maintains non-U.S. funds in its foreign operations to: (i) provide adequate working capital; (ii) satisfy various regulatory requirements; and/or (iii) take advantage of business expansion opportunities as they arise. Although the Tax Cuts and Jobs Act ("Tax Act") generally eliminated U.S. federal taxation of dividends from foreign subsidiaries, such dividends may still be subject to state income taxation and foreign withholding taxes. Snap-on periodically evaluates its cash held outside the United States and may pursue opportunities to repatriate certain foreign cash amounts to the extent that it can be accomplished in a tax efficient manner.

**(continued)**

Trade and other accounts receivable – net of **\$776.8 million** **\$827.5 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$761.7 million** last year, **\$791.3 million** as of **December 30, 2023**, an increase of **\$15.1 million** **\$36.2 million** primarily due to **higher** an increase in days sales outstanding, partially offset by **\$3.2 million** **\$6.9 million** of foreign currency translation. Days sales outstanding (trade and other accounts receivable – net as of the respective period end, divided by the respective trailing 12 months sales, times 360 days) was **63 days** and **60 days** and **61 days** for **September 30, 2023** as of **March 30, 2024**, and **December 31, 2022** **December 30, 2023**, respectively.

The current portions of net finance and contract receivables of **\$717.1 million** **\$721.5 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$672.1 million** **\$714.9 million** at **2022** **2023** year end. The long-term portions of net finance and contract receivables of **\$1,645.8 million** **\$1,704.2 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$1,554.6 million** **\$1,692.1 million** at **2022** **2023** year end. The combined **\$136.2 million** **\$18.7 million** increase in net current and long-term finance and contract receivables over **2022** **2023** year-end levels is primarily due to an increase in net receivable originations, partially offset by **\$2.6 million** **\$6.7 million** of foreign currency translation.

Inventories – net of **\$1,032.9 million** **\$970.5 million** as of **September 30, 2023** **March 30, 2024**, decreased **\$35.4 million** compared to **\$1,033.1 million** last year, a decrease **\$1,005.9 million** as of **\$0.2 million** **December 30, 2023**, primarily due to easing supply chain disruptions and **\$9.7 million** **\$12.5 million** of foreign currency translation, partially offset by increases resulting from higher demand. Translation. Inventory turns (trailing 12 months of cost of goods sold, divided by the average of the beginning and ending inventory balance for the trailing 12 months) were **2.4 turns** and **2.5** **2.3 turns** as of **September 30, 2023** **March 30, 2024**, and **December 31, 2022** **December 30, 2023**, respectively. Inventories accounted for using the first-in, first-out ("FIFO") method approximated **58%** and **61%** **59%** of total inventories as of **September 30, 2023** both **March 30, 2024**, and **December 31, 2022**, **December 30, 2023**. All other inventories are accounted for using the last-in, first-out ("LIFO") method. The company's LIFO reserve was **\$113.9 million** **\$120.6 million** and **\$108.6 million** **\$115.9 million** as of **September 30, 2023** **March 30, 2024**, and **December 31, 2022** **December 30, 2023**, respectively.

Notes payable of **\$17.3 million** **\$15.2 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$17.2 million** **\$15.6 million** as of **2022** **2023** year end.

Accounts payable of **\$284.3 million** **\$257.4 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$287.0 million** last year, a decrease **\$238.0 million** as of **\$2.7 million** **December 30, 2023**, an increase of **\$19.4 million** primarily due to the timing of payments, partially offset by **\$2.1 million** **\$1.9 million** of foreign currency translation.

Other accrued liabilities of **\$450.7 million** **\$505.0 million** as of **September 30, 2023** **March 30, 2024**, compared to **\$436.4 million** last **\$447.4 million** as of **2023** year end, an increase of **\$14.3 million** **\$57.6 million** primarily due to higher tax accruals, partially offset by **\$3.1 million** **\$3.7 million** of foreign currency translation.

Long-term debt of **\$1,184.4 million** **\$1,184.9 million** as of **September 30, 2023** **March 30, 2024**, consisted of: (i) **\$300 million** **\$300 million** of unsecured 3.25% notes that mature on March 1, 2027 (the "2027 Notes"); (ii) **\$400 million** of unsecured 4.10% notes that mature on March 1, 2048 (the "2048 Notes"); and (iii) **\$500 million** **\$500 million** of 3.10% notes that mature on May 1, 2050 ("the 2050 Notes"), partially offset by **\$15.6 million** **\$15.1 million** of unamortized debt issuance costs and issuance discounts.

On September 12, 2023, Snap-on entered into has a **\$900 million multi-currency** **\$900 million multicurrency** revolving credit facility that terminates on September 12, 2028 (the "Credit Facility"), which amended and restated in its entirety the company's previous **\$800 million multi-currency** revolving credit facility that was set to terminate on September 16, 2024. The Credit Facility contains an accordion feature that, subject to certain customary conditions, may allow the maximum commitment to be increased by up to **\$450 million** with the approval of the lenders providing additional commitments. No amounts were borrowed or outstanding under either the Credit Facility during the **nine** **three** months ended and as of **September 30, 2023** **March 30, 2024**. Borrowings under the Credit Facility bear interest at varying rates based on either: (i) Snap-on's then-current, long-term debt ratings; or (ii) Snap-on's then-current ratio of consolidated debt net of certain cash adjustments ("Consolidated Net Debt") to earnings before interest, taxes, depreciation, amortization and certain other adjustments for the preceding four fiscal quarters then ended (the "Consolidated Net Debt to EBITDA Ratio"). The Credit Facility's financial covenant requires that Snap-on maintain, as of each fiscal quarter end, either (i) a ratio not greater than 0.60 to 1.00 of Consolidated Net Debt to the sum of Consolidated Net Debt plus total equity and less accumulated other comprehensive income or loss (the "Leverage Ratio"); or (ii) a Consolidated Net Debt to EBITDA Ratio not greater than 3.50 to 1.00. Snap-on may, up to two times during any five-year period during the term of the Credit Facility (including any extensions thereof), elect to increase the maximum Leverage Ratio to 0.65 to 1.00 and/or increase the maximum Consolidated Net Debt to EBITDA Ratio to 4.00 to 1.00 for four consecutive fiscal quarters in connection with certain material acquisitions (as defined in the related credit agreement). As of **September 30, 2023** **March 30, 2024**, the company's actual ratios of **0.05** **0.03** and **0.21** **0.10**, respectively, were both within the permitted ranges set forth in this financial covenant. Snap-on generally issues commercial paper to fund its financing needs on a short-term basis and uses the Credit Facility as back-up liquidity to support such commercial paper issuances. As of **September 30, 2023** **March 30, 2024**, there were no commercial paper issuances outstanding.

**SNAP-ON INCORPORATED**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS**  
**OF OPERATIONS**  
**(continued)**

Snap-on believes it has sufficient available cash and access to both committed and uncommitted credit facilities to cover its expected funding needs on both a short-term and long-term basis. Snap-on manages its aggregate short-term borrowings so as not to exceed its availability under the Credit Facility. Snap-on believes that it can access short-term debt markets, predominantly through commercial paper issuances and existing lines of credit, to fund its short-term requirements and to ensure near-term liquidity. Snap-on regularly monitors the credit and financial markets and, if it believes conditions are favorable, it may take advantage of such conditions to issue long-term debt to further improve its liquidity and capital resources. Near-term liquidity requirements for Snap-on include payments of interest and dividends, funding to support new receivables originated by our financial services businesses, capital expenditures, working capital, the funding of pension plans, and funding for share repurchases and acquisitions, if and as they arise. Snap-on intends to make contributions of **\$6.9 million** **\$6.0 million** to its foreign pension plans and **\$2.4 million** **\$3.7 million** to its domestic pension plans in **2023**, **2024**, as required by law. Depending on market and other conditions, Snap-on may make discretionary cash contributions to its pension plans in **2023**, **2024**.

Snap-on's long-term financing strategy is to maintain continuous access to the debt markets to accommodate its liquidity needs, including the potential use of commercial paper, additional fixed-term debt and/or securitizations.

The following discussion focuses on information included in the accompanying Condensed Consolidated Statements of Cash Flows.

#### Operating Activities

Net cash provided by operating activities was **\$857.3 million** **\$348.7 million** and **\$464.6 million** **\$301.6 million** in the first **nine** three months of **2023** **2024** and **2022**, **2023**, respectively. The **\$392.7 million** **\$47.1 million** year-over-year increase in net cash provided by operating activities primarily reflects a **\$284.7 million** **\$26.9 million** change in net operating assets and liabilities and an **\$83.9 million** **\$15.3 million** increase in net earnings.

#### Investing Activities

Net cash used by investing activities of **\$227.2 million** **\$63.2 million** in the first **nine** three months of **2024** included additions to finance receivables of **\$248.0 million**, partially offset by collections of **\$207.8 million**. Net cash used by investing activities of **\$72.9 million** in the first three months of **2023** included additions to finance receivables of **\$779.8 million**, **\$257.1 million**, partially offset by collections of **\$626.5 million**. Net cash used by investing activities of **\$138.3 million** in the first **nine** months of **2022** included additions to finance receivables of **\$703.7 million**, partially offset by collections of **\$622.1 million**, **\$207.5 million**. Finance receivables are comprised of extended-term installment payment contracts to both technicians and independent shop owners (i.e., franchisees' customers) to enable them to purchase tools, diagnostics, and equipment products on an extended-term payment plan, with average payment terms of approximately four years.

Capital expenditures were **\$73.9 million** **\$21.8 million** and **\$61.5 million** **\$23.0 million** in the first **nine** three months of **2023** **2024** and **2022**, **2023**, respectively. Capital expenditures in both years included continued investments related to the company's execution of its strategic Value Creation Processes around safety, quality, customer connection, innovation and RCI.

#### Financing Activities

Net cash used by financing activities was **\$423.9 million** **\$164.2 million** in the first **nine** three months of **2023**, **2024**, including a reduction in net short-term borrowings of **\$0.4 million**. Net cash used by financing activities of **\$339.2 million** **\$152.1 million** in the first **nine** three months of **2022**, **2023** included net proceeds from other short-term borrowings of **\$2.6 million** **\$0.8 million**.

Proceeds from stock purchase plan and stock option exercises totaled **\$94.5 million** **\$28.3 million** and **\$41.4 million** **\$32.8 million** in the first **nine** three months of **2023** **2024** and **2022**, **2023**, respectively. In the first **nine** three months of **2023** **2024**, Snap-on repurchased **909,000** **248,000** shares of its common stock for **\$233.8 million** **\$70.2 million** under its previously announced share repurchase programs. In the first **nine** three months of **2022**, **2023**, Snap-on repurchased **615,000** **356,000** shares of its common stock for **\$132.8 million** **\$87.2 million** under its previously announced share repurchase programs. As of **September 30, 2023** **March 30, 2024**, Snap-on had remaining availability to repurchase up to an additional **\$304.5 million** **\$290.6 million** in common stock pursuant to its Board's authorizations. The repurchase of Snap-on common stock to offset dilution related to equity plan issuances or for other corporate purposes is at the company's discretion, subject to prevailing financial and market conditions. Snap-on believes that its cash generated from operations, available cash on hand, and funds available from its credit facilities, will be sufficient to fund the company's additional share repurchases, if any.

Snap-on has paid consecutive quarterly cash dividends, without interruption or reduction, since 1939. Cash dividends totaled **\$257.6 million** **\$98.2 million** and **\$227.1 million** **\$86.1 million** in the first **nine** three months of **2023** **2024** and **2022**, **2023**, respectively. On **November 4, 2022** **November 2, 2023**, the Board increased the quarterly cash dividend by **14.1%** **14.8%** to **\$1.62** **\$1.86** per share (**\$6.48** **\$7.44** per share annualized). Snap-on believes that its cash generated from operations, available cash on hand, and funds available from its credit facilities, will be sufficient to pay dividends.

## SNAP-ON INCORPORATED MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

#### Critical Accounting Policies and Estimates

Snap-on's discussion of its critical accounting policies and estimates, contained which are discussed in its Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** **December 30, 2023**, have not materially changed since the report was filed.

#### Outlook

We believe that our markets and our operations possess and have demonstrated continuing and considerable resilience against the uncertainties of the current environment. For the remainder of **2023**, **In 2024**, Snap-on expects to make ongoing progress along its defined runways for coherent growth, leveraging capabilities already demonstrated in the automotive repair arena and developing and expanding its professional customer base, not only in automotive repair, but in adjacent markets, additional geographies and other areas, including extending in critical industries, where the cost and penalties for failure can be high. In pursuit of these initiatives, we project that capital expenditures in **2023** **2024** will approximate be in the range of **\$100 million** to **\$110 million**, of which **\$73.9 million** **\$21.8 million** was incurred in the first **nine** three months of the year.

Snap-on currently anticipates that its full-year **2023** **2024** effective income tax rate will approximate be in the range of 22% to 23%.

#### Item 3: Quantitative and Qualitative Disclosures About Market Risk

There has been no significant change in the company's exposure to market risk during the **third** first quarter of **2023** **2024**. Refer to Part II, Item **7A**; **7A**: Quantitative and Qualitative Disclosures About Market Risk in the company's Annual Report on Form 10-K for the year ended **December 31, 2022** **December 30, 2023** for further discussion.

#### Interest Rate Risk Management

Snap-on may manage the exposure created by the differing maturities and interest rate structures of Snap-on's borrowings through the use of interest rate swap agreements. Treasury lock agreements may be used to manage the potential change in interest rates in anticipation of the issuance of fixed rate debt. See Note **8** **9** to the Condensed Consolidated Financial Statements for **additional** information on interest rate risk management.

Snap-on utilizes a Value-at-Risk ("VAR") model to determine the potential one-day loss in the fair value of its interest rate and foreign exchange-sensitive financial instruments from adverse changes in market factors. The VAR model estimates were made assuming normal market conditions and a 95% confidence level. Snap-on's computations are based on the inter-relationships among movements in various currencies and interest rates (variance/co-variance technique). These inter-relationships were determined by observing interest rate and foreign currency market changes over the preceding quarter.

The estimated maximum potential net one-day loss in fair value, calculated using the VAR model, as of **September 30, 2023** **March 30, 2024**, was **\$11.9 million** **\$9.6 million**, consisting of a **\$12.3 million** **\$9.7 million** loss on interest rate-sensitive financial instruments and a **\$0.4 million** **\$0.1 million** gain on foreign currency-sensitive financial instruments. The VAR model is a risk management tool and does not purport to represent actual losses in fair value that will be incurred by Snap-on, nor does it consider the potential effect of favorable changes in market factors.

#### Item 4: Controls and Procedures

##### Evaluation of Disclosure Controls and Procedures

Snap-on maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that material information relating to the company and its consolidated subsidiaries is timely communicated to the officers who certify Snap-on's financial reports and to other members of senior management and the Board, as appropriate.

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the "Exchange Act"), the company's management evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of the company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of **September 30, 2023** **March 30, 2024**. Based upon their evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of **September 30, 2023** **March 30, 2024**, to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the Securities and Exchange Commission rules and forms, and to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

##### Changes in Internal Control

There has been no change in the company's internal control over financial reporting during the quarter ended **September 30, 2023** **March 30, 2024**, that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting (as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f)).

## PART II. OTHER INFORMATION

#### Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

##### Issuer Purchases of Equity Securities

The following chart discloses information regarding the shares of Snap-on's common stock repurchased by the company during the **third** first quarter of fiscal **2023** **2024**, all of which were purchased pursuant to the Board's authorizations that the company has publicly announced. Snap-on has undertaken stock repurchases from time to time to offset dilution related to equity plan issuances **or** **and** for other corporate purposes, as well as when the company believes market conditions are favorable. The repurchase of Snap-on common stock is at the company's discretion, subject to prevailing financial and market conditions, and pursuant to the Board's authorizations that the company has publicly announced.

\* Subject to further adjustment pursuant to the 1996 Authorization described below, as of **September 30, 2023** **March 30, 2024**, the approximate value of shares that may yet be purchased pursuant to the outstanding Board authorizations discussed below is **\$304.5 million** **\$290.6 million**.

- In 1996, the Board authorized the company to repurchase shares of the company's common stock periodically in the open market or in privately negotiated transactions (the "1996 Authorization"). The 1996 Authorization allows the repurchase of up to the number of shares issued or delivered from treasury under the various plans the company has in place that call for the issuance of the company's common stock. Because the number of shares that are purchased pursuant to the 1996 Authorization will change as (i) the company issues shares under its various plans; and (ii) shares are repurchased pursuant to this authorization, the number of shares authorized to be repurchased will vary from time to time. The 1996 Authorization will expire when terminated by the Board.
- On November 4, 2021, the Board authorized the repurchase of up to \$500 million of the company's common stock (the "2021 Authorization"). The 2021 Authorization will expire when the aggregate repurchase price limit is met, unless terminated earlier by the Board.

#### Other Purchases or Sales of Equity Securities

The following chart discloses information regarding transactions **by a counterparty** in shares of Snap-on's common stock **by Citibank, N.A. ("Citibank")** during the **third** **first** quarter of **2023** **2024** pursuant to a prepaid equity forward agreement (the "Agreement") **with Citibank** that is intended to reduce the impact of market risk associated with the stock-based portion of the company's deferred compensation plans. The company's stock-based deferred compensation liabilities increase as the company's stock price rises and decrease as the company's stock price declines. Pursuant to the Agreement, **Citibank** the counterparty may purchase or sell shares of the company's common stock **(for Citibank's account)** **for its account** in the market or in privately negotiated transactions. **The At termination, the Agreement has no stated expiration date** **settles in cash** and does not provide for Snap-on to purchase or repurchase its shares.
