authority. Tax positions not considered to satisfy the "more-likely-than-not" threshold would be recorded as a tax expense or benefit. Penalties or interest, if applicable, that may be assessed relating to income taxes would be classified as other operating expenses in the financial statements. There were no tax accruals relating to uncertain tax positions and no amounts accrued for any related interest or penalties with respect to the periods presented herein. The Company's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an on-going analysis of tax laws, regulations and interpretations thereof. Although the Company files both federal and state income tax returns, the Company's major tax jurisdiction is federal.   On November 22, 2021, we formed PNNT Investment Holdings II, LLC, a Delaware limited liability company ("Holdings II"), as a wholly owned subsidiary. On December 31, 2022, we contributed 100% of our interests in PNNT Investment Holdings, LLC ("Holdings") to Holdings II . Effective as of January 1, 2024, Holdings II made an election to be treated as a corporation for U.S. federal income tax purposes. On January 3, 2024, we purchased an equity interest in Holdings from Holdings II and Holdings became a partnership for U.S. federal income tax purposes. The Company and Holdings II entered into a limited liability company agreement with respect to Holdings that provides for certain payments and the sharing of income, gain, loss and deductions attributable to Holdings' investments. For the years ended September 30, 2024, 2023 and 2022 the Company recognized a provision for taxes of $0.2 million, $(5.0) million, and $(6.2) million, respectively, on net realized gain on investments by the Taxable Subsidiary. For the years ended September 30, 2024, 2023 and 2022 the Company recognized a provision for taxes of $(0.7) million, $1.6 million, and $(0.9) million, respectively, on net unrealized gain on investments by the Taxable Subsidiary. The provision for taxes on net realized and unrealized gains on investments is the result of netting (i) the expected tax liability on the gains from the sales of investments which were realized and unrealized during fiscal year ending September 30, 2024 and (ii) the expected tax benefit resulting from the use of loss carryforwards to offset such gains. For the year ended September 30, 2024, 2023 and 2022 the Company recognized a provision for taxes $0.5 million, $3.4 million, and $7.1 million, respectively, on net realized and unrealized gains on investments by the Taxable Subsidiary. During the year ended September 30, 2024, 2023 and 2022 the Company paid zero, zero, and $4.0 million respectively, in federal taxes on realized gains on the sale of investments held by the Taxable Subsidiary. The state and local tax liability of zero as of September 30, 2024 is included under accrued other expenses in the consolidated statement of assets and liabilities. Because U.S. federal income tax regulations differ from GAAP, distributions characterized in accordance with tax regulations may differ from net investment income and net realized gains recognized for financial reporting purposes. Differences between tax regulations and GAAP may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Financial Statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. 260000043000008000002000005000000-6200000-7000001600000-900000500000340000071000000040000000 <span style="color:#000000;white-space:pre-wrap;font-weight:bold;font-size:8pt;font-family:Times New Roman;font-style:italic;min-width:3.4103815575405965%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(d) Distributions and Capital Transactions Distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid, if any, as a distribution is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually. The tax attributes for distributions will generally include ordinary income and capital gains but may also include certain tax-qualified dividends and/or a return of capital. Capital transactions, in connection with our dividend reinvestment plan or through offerings of our common stock, are recorded when issued and offering costs are charged as a reduction of capital upon issuance of our common stock. On June 4, 2024, we entered into equity distribution agreements with Truist Securities, Inc. and Keefe, Bruyette & Woods, Inc. (together, the "Equity Distribution Agreements"), as sales agents (each a "Sales Agent" and together, the "Sales Agents") in connection with the sale of shares of our common stock, with an aggregate offering price of up to $100 million under an at-the-market offering ("ATM Program"). We may offer and sell shares of our common stock from time to time through a Sales Agent in amounts and at times to be determined by us. Actual sales will depend on a variety of factors to be determined by us from time to time, including, market conditions and the trading price of our common stock. The Investment Adviser may, from time to time, in its sole discretion, pay some or all of the commissions payable under the Equity Distribution Agreements or make additional supplemental payments to ensure that the sales price per share of our common stock in connection with all of the offerings made hereunder will not be less than our current NAV per share. Any such payments made by the Investment Adviser will not be subject to reimbursement by us. During the year ended September 30, 2024, we issued 71,594 shares of common stock through the ATM Program at an average price of $7.72 per share, raising $0.6 million of net proceeds after commissions to the sales agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV, respectively. In connection with the share issuance, we expensed $0.3 million of deferred offering costs incurred related to establishing the ATM Program to additional paid in capital. 100000000715947.726000000300000 <span style="color:#000000;white-space:pre-wrap;font-weight:bold;font-size:8pt;font-family:Times New Roman;font-style:italic;min-width:3.4103815575405965%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(e) Foreign Currency Translation Our books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis: 1. Fair value of investment securities, other assets and liabilities - at the exchange rates prevailing at the end of the applicable period; and 2. Purchases and sales of investment securities, income and expenses – at the exchange rates prevailing on the respective dates of such transactions. Although net assets and fair values are presented based on the applicable foreign exchange rates described above, we do not isolate that portion of the results of operations due to changes in foreign exchange rates on investments, other assets and debt from the fluctuations arising from changes in fair values of investments and liabilities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and liabilities. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices to be more volatile than those of comparable U.S. companies or U.S. government securities. <p

Accordingly, we have consolidated the results of our SBIC Funds and our Taxable Subsidiary in our Consolidated Financial Statements. We do not consolidate our non-controlling interests in PSLF or PTSF II. See further description of our investment in PSLF in Note 4. (g) Asset Transfers and Servicing Asset transfers that do not meet ASC Topic 860, Transfers and Servicing, requirements for sale accounting treatment are reflected in the Consolidated Statements of Assets and Liabilities and the Consolidated Schedules of Investments as investments. (h) Recent Accounting Pronouncements In March 2020, the FASB issued Accounting Standards Update No. 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contract modifications, hedging relationships and other transactions, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued because of the reference rate reform. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. FASB approved an (optional) two year extension to December 31, 2024, for transitioning away from LIBOR. The Company utilized the optional expedients and exceptions provided by ASU 2020-04 during the year ended September 30, 2024, the effect of which was not material to the consolidated financial statements and the notes thereto. In March 2022, the FASB issued ASU 2022-02, "Financial Instruments - Credit Losses (Topic 326)", which is intended to address issues identified during the post-implementation review of ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendment, among other things, eliminates the accounting guidance for troubled debt restructurings by creditors in Subtopic 310-40, "Receivables - Troubled Debt Restructurings by Creditors", while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. The new guidance is effective for interim and annual periods beginning after December 15, 2022. The Company has adopted the new accounting standard implementing appropriate controls and procedures, the effect of which was not material to the consolidated financial statements and the notes thereto. In June 2022, the FASB issued Accounting Standards Update No. 2022-03, or ASU, 2022-03, Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions, or ASU 2022-03, which changed the fair value measurement disclosure requirements of ASC Topic 820, Fair Value Measurements and Disclosures, or ASC 820. The amendments clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. The amendments also clarify that an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction. The new guidance is effective for fiscal years beginning after December 15, 2023, including interim periods therein. Early application is permitted. The Company is currently evaluating the impact the adoption of this new accounting standard will have on its consolidated financial statements, but the impact of the adoption is not expected to be material. In November 2023, the Financial Accounting Standards Board (FASB) issues ASU 2023-07, Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures to improve reportable segment disclosure requirements through enhanced disclosures about significant segment expenses. ASU 2023-07 expands public entities' segment disclosure by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items and interim disclosure of a reportable segment's profit or loss and assets. All disclosure requirements of ASU 2023-07 are required for entities with a single reportable segment. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods for our fiscal years beginning December 15, 2024, and should be applied on a retrospective basis to all periods presented, noting early adoption is permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements and related disclosures. In December 2023, the FASB issued ASU 2023 - 09 "Improvements to Income Tax Disclosures" ("ASU 2023 - 09"). ASU 2023 - 09 intends to improve the transparency of income tax disclosures. ASU 2023 - 09 is effective for fiscal years beginning after December 15, 2024 and is to be adopted on a prospective basis with the option to apply retrospectively. We are currently assessing the impact of this guidance, however, we do not expect a material impact to our financial statements. 3. AGREEMENTS AND RELATED PARTY TRANSACTIONS (a) Investment Management Agreement The Investment Management Agreement with the Investment Adviser was reapproved by our board of directors, including a majority of our directors who are not interested persons of us or the Investment Adviser, in May 2024. Under the Investment Management Agreement, the Investment Adviser, subject to the overall supervision of our board of directors, manages the day-to-day operations of and provides investment advisory services to us. SBIC II's investment management agreement had no effect on the management or incentive fees that we pay to the Investment Adviser on a consolidated basis. For providing these services, the Investment Adviser receives a fee from us, consisting of two components— a base management fee and an incentive fee or, collectively, Management Fees. Base Management Fee The base management fee is calculated at an annual rate of 1.50% of our "average adjusted gross assets," which equals our gross assets (exclusive of U.S. Treasury Bills, temporary draws under any credit facility, cash and cash equivalents, repurchase agreements or other balance sheet transactions undertaken at the end of a fiscal quarter for purposes of preserving investment flexibility for the next quarter and unfunded commitments, if any) and is payable quarterly in arrears. In addition, on November 13, 2018, in connection with our board of directors' approval of the application of the modified asset coverage requirements under the 1940 Act to the Company, our board of directors also approved an amendment to the Investment Management Agreement reducing the Investment Adviser's annual base management fee from 1.50% to 1.00% on gross assets that exceed 200% of the Company's total net assets as of the immediately preceding quarter-end. This amendment became effective on February 5, 2019 with the amendment and restatement of the Investment Management Agreement on April 12, 2019. The base management fee is calculated based on the average adjusted gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. For example, if we sold shares on the 45th day of a quarter and did not use the proceeds from the sale to repay outstanding indebtedness, our gross assets for such quarter would give effect to the net proceeds of the issuance for only 45 days of the quarter during which the additional shares were outstanding. For periods prior to January 1, 2018, the base management fee was calculated at an annual rate of 2.00% of our "average adjusted gross assets." For the years ended September 30, 2024, 2023, and 2022, the Investment Adviser earned base management fees of $16.7 million, $16.5 million, and $19.8 million, respectively, from us. Incentive Fee The incentive fee has two parts, as follows: <span

style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;min-width:fit-content;">One part is calculated and payable quarterly in arrears based on our Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For this purpose, Pre-Incentive Fee Net Investment Income means interest income, dividend income and any other income, including any other fees (other than fees for providing managerial assistance), such as amendment, commitment, origination, prepayment penalties, structuring, diligence and consulting fees or other fees received from portfolio companies, accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, any expenses payable under the Administration Agreement and any interest expense or amendment fees under any credit facility and distribution paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as OID, debt instruments with PIK interest and zero-coupon securities), accrued income not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a percentage of the value of our net assets at the end of the immediately preceding calendar quarter, is compared to the hurdle rate of 1.75% per quarter (7.00% annualized). We pay the Investment Adviser an incentive fee with respect to our Pre- Incentive Fee Net Investment Income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 1.75%, (2) 100% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.1212% in any calendar quarter (8.4848% annualized), and (3) 17.5% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.1212% in any calendar quarter. These calculations are pro-rated for any share issuances or repurchases during the relevant quarter, if applicable. </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">For the years ended September 30, 2024, 2023, and 2022, the Investment Adviser earned $12.7 million, $13.9 million, and $2.7 million, respectively, in incentive fees on net investment income from us.</p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement, as of the termination date) and, effective January 1, 2018, equals 17.5% of our realized capital gains, (20.0)% for periods prior to January 1, 2018), if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. For the years ended September 30, 2024, 2023, and 2022, the Investment Adviser did not accrue an incentive fee on capital gains as calculated under the Investment Management Agreement (as described above).</p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">Under GAAP, we are required to accrue a capital gains incentive fee based upon net realized capital gains and net unrealized capital appreciation and depreciation on investments held at the end of each period. In calculating the capital gains incentive fee accrual, we considered the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Management Agreement. This accrual is calculated using the aggregate cumulative realized capital gains and losses and cumulative unrealized capital appreciation or depreciation. If such amount is positive at the end of a period, then we record a capital gains incentive fee equal to 17.5% of such amount, less the aggregate amount of actual capital gains related to incentive fees paid in all prior years, if any. If such amount is negative, then there is no accrual for such year. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the years ended September 30, 2024, 2023, and 2022, the Investment Adviser did not accrue an incentive fee on capital gains as calculated under GAAP.</p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">(b) Administration Agreement </p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Administration Agreement with the Administrator was reapproved by our board of directors, including a majority of our directors who are not interested persons of us, in May 2024. Under the Administration Agreement, the Administrator provides administrative services and office facilities to us. The Administrator has provided similar services to SBIC II under its administration agreement with PennantPark Investment. For providing these services, facilities and personnel, we have agreed to reimburse the Administrator for its allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Compliance Officer, Chief Financial Officer, Corporate Counsel and their respective staffs. The Administrator also offers, on our behalf, significant managerial assistance to portfolio companies to which we are required to offer such assistance. Reimbursement for certain of these costs is included in administrative services expenses in the Consolidated Statements of Operations. For the years ended September 30, 2024, 2023, and 2022, we recorded $1.2 million, $1.3 million and $0.5 million, respectively, for services described above.</p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">On July 1, 2022, the Administration Agreement with the Administrator was amended to clarify that the Administrator may be reimbursed by the Company for certain (i) tax and general legal advice and/or services provided to the Company by in-house professionals of the Administrator related to ongoing operations of the Company; and (ii) transactional legal advice and/or services provided to the Company or portfolio companies by in-house professionals of the Administrator or its affiliates on matters related to potential or actual investments and transactions, including tax structuring and/or due diligence. </p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">(c) Other Related Party Transactions</p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company, the Investment Adviser and certain other affiliates have been granted an order for exemptive relief by the SEC for the Company to co-invest with other funds managed by the Investment Adviser. PennantPark Senior Loan Fund, LLC In July 2020, we and Pantheon formed PSLF, an unconsolidated joint venture. PSLF invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSLF was formed as a Delaware limited liability company. As of September 30, 2024 and 2023 PSLF had total assets of $1,073.4<span

style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;min-width:fit-content;"> million and $872.8 million, respectively. PSLF's portfolio consisted of debt investments in 102 and 90 portfolio companies as of September 30, 2024 and 2023, respectively. As of September 30, 2024, we and Pantheon had remaining commitments to fund first lien secured debt of $32.6 million and $46.5 million, respectively, and equity interests of $19.9 million and $28.5 million, respectively, in PSLF. As of September 30, 2023, we and Pantheon had remaining commitments to fund first lien secured debt of $13.6 million and $8.9 million, respectively, and equity interest of $8.8 million and $5.7 million respectively. As of September 30, 2024, at fair value, the largest investment in a single portfolio company in PSLF was $25.1 million and the five largest investments totaled $109.9 million. As of September 30, 2023 at fair value, the largest investment in a single portfolio company in PSLF was $19.7 million and the five largest investments totaled $97.5 million. PSLF invests in portfolio companies in the same industries in which we may directly invest. We provide capital to PSLF in the form of subordinated notes and equity interests. As of September 30, 2024 and 2023, we and Pantheon owned 60.5% and 39.5%, respectively, of each of the outstanding subordinated notes and equity interests of PSLF. As of September 30, 2024 and 2023, our investment in PSLF consisted of subordinated notes of $115.9 million and $102.3 million, respectively, and equity interests of $67.4 million and $58.6 million, respectively. We and Pantheon each appointed two members to PSLF's four-person Member Designees' Committee, or the Member Designees' Committee. All material decisions with respect to PSLF, including those involving its investment portfolio, require unanimous approval of quorum of the Member Designees' Committee. Quorum is defined as (i) the presence of two members of the Member Designees' Committee; provided that at least one individual is present that was elected, designated or appointed by each of us and Pantheon; (ii) the presence of three members of the Member Designees' Committee, provided that the individual that was elected, designated or appointed by each of us or Pantheon, as the case may be, with only one individual present shall be entitled to cast two votes on each matter; and (iii) the presence of four members of the Member Designees' Committee shall constitute a quorum, provided that two individuals are present that were elected, designated or appointed by each of us and Pantheon. Additionally, PSLF, through its wholly-owned subsidiary, or PSLF Subsidiary, has entered into a $400 million (increased from $325.0 million in August 2024) senior secured revolving credit facility, or the PSLF Credit Facility, with BNP Paribas, which bears interest at SOFR (or an alternative risk-free interest rate index) plus 260 basis points during the investment period, subject to leverage and borrowing base restrictions. In March 2022, PSLF completed a $304.0 million debt securitization in the form of a collateralized loan obligation, or the "2034 Asset-Backed Debt". The 2034 Asset-Backed Debt is secured by a diversified portfolio of PennantPark CLO IV, LLC,, a wholly-owned and consolidated subsidiary of PSLF, consisting primarily of middle market loans and participation interests in middle market loans. The 2034 Asset-Backed Debt is scheduled to mature in April 2034. On the closing date of the transaction, in consideration of PSLF's transfer to PennantPark CLO IV, LLC. of the initial closing date loan portfolio, which included loans distributed to PSLF by certain of its wholly owned subsidiaries and us, PennantPark CLO IV, LLC. transferred to PSLF 100% of the Preferred Shares of PennantPark CLO IV, LLC. and 100% of the Subordinated Notes issued by PennantPark CLO IV, LLC. As of September 30, 2024 and 2023, there was $246.0 million of external 2034 Asset-Backed Debt. On July 26, 2023, CLO VII completed a $300 million debt securitization in the form of a collateralized loan obligation (the "2035 Debt Securitization" or "2035 Asset-Backed Debt"). The 2035 Asset-Backed Debt is secured by a diversified portfolio consisting primarily of middle market loans. The 2035 Debt Securitization was executed through a private placement of: (i) $151.0 million Class A-1a Notes maturing 2035, which bear interest at the three-month SOFR plus 2.7%, (ii) $20.0 million Class A-1b Loans 2035, which bear interest at 6.5%, (iii) $12.0 million Class A-2 Senior Secured Floating Rate Notes due 2035, which bear interest at the three-month SOFR plus 3.2%, (iv) $21.0 million Class B Senior Secured Floating Rate Notes due 2035, which bear interest at the three-month SOFR plus 4.1%, (v) $24.0 million Class C Secured Deferrable Floating Rate Notes due 2035, which bear interest at the three-month SOFR plus 4.7%, (vi) $18.0 million Class D Secured Deferrable Floating Rate Notes due 2035, which bear interest at the three-month SOFR plus 7.0%. As of September 30, 2024 and 2023 there was $246.0 million of external 2035 Asset-Backed Debt. <p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:8pt;text-

FAIR VALUE OF FINANCIAL INSTRUMENTS Fair value, as defined under ASC 820, is the price that we would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment or liability. ASC 820 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of us. Unobservable inputs reflect the assumptions market participants would use in pricing an asset or liability based on the best information available to us on the reporting period date. ASC 820 classifies the inputs used to measure these fair values into the following hierarchies: Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities, accessible by us at the measurement date. Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets, or that are quoted prices for identical or similar assets or liabilities in markets that are not active and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term, if applicable, of the financial instrument. Level 3: Inputs that are unobservable for an asset or liability because they are based on our own assumptions about how market participants would price the asset or liability. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Generally, most of our investments, our Truist Credit Facility and our SBA debentures are classified as Level 3. Our 2026 Notes and 2026 Notes-2 are classified as Level 2, as they are financial instruments with readily observable market inputs. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and those differences may be material. The inputs into the determination of fair value may require significant management judgment or estimation. Even if observable market data is available, such information may be the result of consensus pricing information, disorderly transactions or broker quotes which include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes accompanied by disclaimer would result in classification as Level 3 information, assuming no additional corroborating evidence were available. Corroborating evidence that would result in classifying these non-binding broker/dealer bids as a Level 2 asset includes observable orderly market-based transactions for the same or similar assets or other relevant observable market-based inputs that may be used in pricing an asset. Our investments are generally structured as debt and equity investments in the form of first lien secured debt, second lien secured debt, subordinated debt and equity investments. The transaction price, excluding transaction costs, is typically the best estimate of fair value at inception. Ongoing reviews by our Investment Adviser and independent valuation firms are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, expected cash flows and market-based information including comparable transactions, performance multiples and yields, among other factors. These non-public investments valued using unobservable inputs are included in Level 3 of the fair value hierarchy. A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in our ability to observe valuation inputs may result in a reclassification for certain financial assets or liabilities. In addition to using the above inputs to value cash equivalents, investments, our SBA debentures, our 2026 Notes, our 2026-2 Notes and our Truist Credit Facility, we employ the valuation policy approved by our board of directors that is consistent with ASC 820. Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value. See Note 2. As outlined in the table below, some of our Level 3 investments using a market approach valuation technique are valued using the average of the bids from brokers or dealers. The bids include a disclaimer, may not have corroborating evidence, may be the result of a disorderly transaction and may be the result of consensus pricing. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such bids do not reflect the fair value of an investment, it may independently value such investment by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available. In accordance with ASC 820, we do not categorize any investments for which fair value is measured using the net asset value per share within the fair value hierarchy. The remainder of our investment portfolio and our long-term Truist Credit Facility are valued using a market comparable or an enterprise market value technique. With respect to investments for which there is no readily available market value, the factors that our board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the pricing indicated by the external event, excluding transaction costs, is used to corroborate the valuation. When using earnings multiples to value a portfolio company, the multiple used requires the use of judgment and estimates in determining how a market participant would price such an asset. These non-public investments using unobservable inputs are included in Level 3 of the fair value hierarchy. Generally, the sensitivity of unobservable inputs or combination of inputs such as industry comparable companies, market outlook, consistency, discount rates and reliability of earnings and prospects for growth, or lack thereof, affects the multiple used in pricing an investment. As a result, any change in any one of those factors may have a significant impact on the valuation of an investment. Generally, an increase in a market yield will result in a decrease in the valuation of a debt investment, while a decrease in a market yield will have the opposite effect. Generally, an increase in an earnings before interest, taxes, depreciation and amortization, or EBITDA, multiple will result in an increase in the valuation of an investment, while a decrease in an EBITDA multiple will have the opposite effect. consolidated financial liabilities approximates fair value. We have adopted the principles under ASC Subtopic 825-10, Financial Instruments, or ASC 825-10, which provides companies with an option to report selected financial assets and liabilities at fair value, and made an irrevocable election to apply ASC 825-10 to our Truist Credit Facility. We elected to use the fair value option for the Truist Credit Facility to align the measurement attributes of both our assets and liabilities while mitigating volatility in earnings from using different measurement attributes. Due to that election and in accordance with GAAP, we incurred expenses of zero, zero, and $5.1 million relating to amendment costs on the Truist Credit Facility during the years ended September 30, 2024, 2023, and 2022, respectively. ASC 825-10 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect on earnings of a company's choice to use fair value. </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statements of Assets and Liabilities and changes in fair value of the Truist Credit Facility are reported in our Consolidated Statements of Operations. TAXES AND DISTRIBUTIONS </p><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal tax regulations, which may materially differ from amounts determined in accordance with GAAP. These book-to-tax differences are either temporary or permanent in nature. To the extent these differences are permanent, they are reclassified to undistributed net investment income, accumulated net realized gain or paid-in-capital, as appropriate. Distributions from net realized capital gains, if any, are normally declared and paid annually, but the Company may make distributions on a more frequent basis to comply with the distribution CASH AND CASH EQUIVALENTS Cash equivalents represent cash in money market funds pending investment in longer-term portfolio holdings. Our portfolio may consist of temporary investments in U.S. Treasury Bills (of varying maturities), repurchase agreements, money market funds or repurchase agreement-like treasury securities. These temporary investments with original maturities of 90 days or less are deemed cash equivalents and are included in the Consolidated Schedule of Investments. At the end of each fiscal quarter, we may take proactive steps to preserve investment flexibility for the next quarter by investing in cash equivalents, which is dependent upon the composition of our total assets at quarter-end. We may accomplish this in several ways, including purchasing U.S. Treasury Bills and closing out positions on a net cash basis after quarter-end, temporarily drawing down on the Truist Credit Facility, or utilizing repurchase agreements or other balance sheet transactions as are deemed appropriate for this purpose. These amounts are excluded from average adjusted gross assets for purposes of computing the Investment Adviser's management fee. U.S. Treasury Bills with maturities greater than 60 days from the time of purchase are valued consistent with our valuation policy. As of September 30, 2024 and 2023, cash and cash equivalents consisted of money market funds, and non-money market in the amounts of $38.8 million and $11.1 million and $24.7 million and $14.1 million at fair value, respectively.

DEBT The annualized weighted average cost of debt for the years ended September 30, 2024, 2023, and 2022, inclusive of the fee on the undrawn commitment and amendment costs on the Truist Credit Facility and amortized upfront fees on 2026 Notes-2, was 6.5%, 6.0%, and 4.8%, respectively. As of September 30, 2024, in accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that we are in compliance with the 150% asset coverage ratio requirement after such borrowing, excluding SBA debentures, pursuant to exemptive relief from the SEC received in June 2011. On February 5, 2019, our stockholders approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Consolidated Appropriations Act of 2018 (which includes the Small Business Credit Availability Act, or SBCAA) as approved by our board of directors on November 13, 2018. As a result, the asset coverage requirement applicable to us for senior securities was reduced from 200% (i.e., $1 of debt outstanding for each $1 of equity) to 150% (i.e., $2 of debt outstanding for each $1 of equity), subject to compliance with certain disclosure requirements. As of September 30, 2024 and 2023, our asset coverage ratio, as computed in accordance with the 1940 Act, was 164% and

195%, respectively. Truist Credit Facility As of September 30, 2024, we had the multi-currency Truist Credit Facility for up to $475.0 million, which may be further increased up to $750.0 million in borrowings with certain lenders and Truist Bank (formerly SunTrust Bank), acting as administrative agent, Regions Bank, acting as an additional multicurrency lender, and JPMorgan Chase Bank, N.A., acting as syndication agent for the lenders. As of September 30, 2024 and 2023, we had $461.5 million and $212.4 million, respectively, in outstanding borrowings under the Truist Credit Facility. The Truist Credit Facility had a weighted average interest rate of 7.2% and 7.7%, respectively, exclusive of the fee on undrawn commitment, as of September 30, 2024 and 2023. The Truist Credit Facility is a revolving facility with a stated maturity date of July 29, 2027 for $475.0 million of the total commitments and pricing set at 235 basis points over SOFR. As of September 30, 2024 and 2023, we had $13.5 million and $262.6 million of unused borrowing capacity under the Truist Credit Facility, respectively, subject to leverage and borrowing base restrictions. The Truist Credit Facility is secured by substantially all of our assets. As of September 30, 2024, we were in compliance with the terms of the Truist Credit Facility. SBA Debentures SBIC II was historically able to borrow funds from the SBA against regulatory capital (which approximates equity capital) that is paid-in and is subject to customary regulatory requirements including an examination by the SBA. We previously funded SBIC II with $75.0 million of equity capital and it had SBA debentures outstanding of zero as of September 30, 2024 and 2023,. SBA debentures are non-recourse to us and may be prepaid at any time without penalty. The interest rate of SBA debentures is fixed at the time of issuance, often referred to as pooling, at a market-driven spread over 10-year U.S. Treasury Notes. Under current SBA regulations, a SBIC may individually borrow to a maximum of $175.0 million, which is up to twice its potential regulatory capital, and as part of a group of SBICs under common control may borrow a maximum of $350 million in the aggregate. 2026 Notes In April 2021, we issued $150.0 million in aggregate principal amount of our 2026 Notes at a public offering price per note of 99.4%. Interest on the 2026 Notes is paid semi-annually on May 1 and November 1 of each year, at a rate of 4.50% per year, commencing November 1, 2021. The 2026 Notes mature on May 1, 2026 and may be redeemed in whole or in part at our option subject to a make-whole premium if redeemed more than three months prior to maturity. The 2026 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 2026 Notes are effectively subordinated to all of our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness and structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, financing vehicles, or similar facilities. We do not intend to list the 2026 Notes on any securities exchange or automated dealer quotation system. 2026 Notes-2 In October 2021, we issued $165.0 million in aggregate principal amount of our 2026 Notes-2 at a public offering price per note of 99.4%. Interest on the 2026 Notes-2 is paid semi-annually on May 1 and November 1 of each year, at a rate of 4.00% per year, commencing May 1, 2022. The 2026 Notes-2 mature on November 1, 2026 and may be redeemed in whole or in part at our option subject to a make-whole premium if redeemed more than three months prior to maturity. The 2026 Notes-2 are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 2026 Notes-2 are effectively subordinated to all of our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness and structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, financing vehicles, or similar facilities. We do not intend to list the 2026 Notes-2 on any securities exchange or automated dealer quotation system.

COMMITMENTS AND CONTINGENCIES From time to time, we, the Investment Adviser or the Administrator may be a party to legal proceedings, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations. Unfunded debt and equity investments, if any, are disclosed in the Consolidated Schedules of Investments. Under these arrangements, we may be required to supply a letter of credit to a third party if the portfolio company were to request a letter of credit. As of September 30, 2024 and 2023, we had $373.9 million and $<span style="font-size:8pt;font-family:Times New Roman;color:#000000;white-

space:pre-wrap;min-width:fit-content;">160.8 million, respectively, in commitments to fund investments. Additionally, the Company had unfunded commitments of up to $52.5 million and $22.4 million to PSLF as of September 30, 2024 and 2023, respectively, that may be contributed primarily for the purpose of funding new investments approved by PSLF board of directors or investment committee.

STOCK REPURCHASE PROGRAM On February 9, 2022, we announced a share repurchase program which allows us to repurchase up to $25 million of our outstanding common stock in the open market at prices below our net asset value as reported in our then most recently published consolidated financial statements. The program expired on March 31, 2023. During the year ended September 30, 2024 and September 30, 2023, we did not make any repurchase of our common shares. 2500000002023-03-3100falsefalsefalsefalse

in order to compute the "corresponding return to common stockholders," the "assumed return on portfolio" is multiplied by the total value of our assets at the beginning of the period to obtain an assumed return to us. From this amount, all interest expense expected to be accrued during the period is subtracted to determine the return available to stockholders. The return available to stockholders is then divided by the total value of our net assets as of the beginning of the period to determine the "corresponding return to common stockholders." NAV per share is determined as of the last day in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period." Calculated as the respective high or low closing sales price less NAV per share, divided by the quarter-end NAV per share." In the event that the securities to which any applicable prospectus relates are sold to or through underwriters or agents, a corresponding prospectus supplement will disclose the applicable sales load." In the event that we conduct an offering of our securities, a corresponding prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the offering expenses borne by us as a percentage of the offering price." The expenses of the dividend reinvestment plan are included in "Other expenses." " Net assets attributable to common shares equals average net assets as of September 30, 2024 "The contractual management fee is calculated at an annual rate of 1.50% of our average adjusted gross assets up to 200% of the Company's total net assets as of the immediately preceding quarter-end and 1.00% for amounts that exceed such amount on September 30, 2024. See "Business - Investment Management Agreement" and "Business - Management Fees" for more information." The portion of incentive fees paid with respect to net investment income and capital gains, if any, is based on actual amounts incurred during the fiscal year ended September 30, 2024 . Such incentive fees are based on performance, vary from period to period and are not paid unless our performance exceeds specified thresholds. Incentive fees in respect of net investment income do not include incentive fees in respect of net capital gains. The portion of our incentive fee paid in respect of net capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement, as of the termination date) and equals 17.5% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. For purposes of this chart and our Consolidated Financial Statements, our incentive fees on capital gains are calculated in accordance with GAAP. As we cannot predict our future net investment income or capital gains, the incentive fee paid in future periods, if any, may be substantially different than the fee earned during the fiscal year ended September 30, 2024. For more detailed information about the incentive fee, please see "Business - Investment Management Agreement" and "Business—Management Fees" for more information" As of September 30, 2024, we had $13.5 million of unused borrowing capacity, subject to maintenance of the applicable total assets to debt ratio, under the 1940 Act. As of such date, we had $461.5 million in borrowings outstanding under our $475.0 million Truist Credit Facility, $150.0 million in aggregate principal of 2026 Notes and $165.0 million in aggregate principal of 2026-2 Notes. We may use proceeds of any offering of securities under any applicable registration statement to repay outstanding obligations under our Truist Credit Facility. After completing any such offering, we may continue to borrow under our Truist Credit Facility to finance our investment objectives. Annual interest expense on borrowed funds represents actual interest expense incurred for the fiscal year ended September 30, 2024 and amendment costs and make-whole premiums, if any, and we caution you that our actual interest expense will depend on prevailing interest rates and our rate of borrowing, which may be substantially higher than the estimate provided in this table." Our stockholders indirectly bear 60.5% of the expenses of our investment in PSLF. No management fee is charged by PennantPark Investment Advisers in connection with PSLF. PSLF pays the Administrator an annual fee of 0.25% of average gross assets under management. For this chart, PSLF fees and operating expenses are based on our share of the actual fees and operating expenses of PSLF for the fiscal year ended September 30, 2024. Expenses for PSLF may fluctuate over time and may be substantially higher or lower in the future. Our stockholders indirectly bear 23.1% of the expenses of our investment in PTSF II. A management fee equal to 0.50% per annum

of the gross assets of PTSF II and its subsidiaries is charged by PennantPark Investment Advisers in connection with PTSF II, and the entity is subject to an incentive fee of 20% of residual income proceeds after the internal rate of return on the equity has reached at least 12%. For this chart, PTSF II fees and operating expenses are based on our share of the actual fees and operating expenses of PTSF II for the fiscal year ended September 30, 2024. Expenses for PTSF II may fluctuate over time and may be substantially higher or lower in the future. "Other expenses" includes our general and administrative expenses, professional fees, directors' fees, insurance costs, taxes, expenses of our dividend reinvestment plan and the expenses of the Investment Adviser reimbursable under our Investment Management Agreement and of the Administrator reimbursable under our Administration Agreement. "Total estimated annual expenses" as a percentage of average net assets attributable to common shares, to the extent we borrow money to make investments, are higher than the total estimated annual expenses percentage would be for a company that is not leveraged. We may borrow money to leverage our net assets and increase our total assets. The SEC requires that the "total estimated annual expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness) rather than total assets, which include assets that have been funded with borrowed money. If the "Total estimated annual expenses" percentage were calculated instead as a percentage of total assets, our "Total estimated annual expenses" would be 11.23% of average total assets. "Total cost of each class of senior securities outstanding at the end of the period presented in thousands (000s)." The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness at par. This asset coverage ratio is multiplied by $1,000 to determine the Asset Coverage Per Unit." These amounts exclude SBA debentures from our total amount outstanding and asset coverage per unit computation pursuant to an exemptive relief letter provided by the SEC in June 2011." The average market value per unit is derived based on the daily closing price of the 2024 Notes trading on The Nasdaq Global Select Market under the symbol "PNNTG." The 2024 Notes were issued in increments of $25 per unit and commenced trading on September 30, 2019." The average market value per unit is derived based on the monthly average closing price of the 2025 Notes, which were traded on the New York Stock Exchange, or NYSE, under the symbol "PNTA" since issuance. The 2025 Notes were issued in increments of $25 per unit. On June 29, 2017, the 2025 Notes were redeemed in full."
