(the "Company") is incorporated in the State of New Jersey and is a bank holding company. The common stock of the Company is listed on the NASDAQ Global Market and trades under the symbol "BCBP". The Company's primary business is the ownership and operation of BCB Community Bank (the "Bank"). The Bank is a New Jersey based commercial bank which, as of June 30, 2024, operated at 28 locations in Bayonne, Edison, Fairfield, Hoboken, Holmdel, Jersey City, Lyndhurst, Maplewood, Monroe Township, Newark, Parsippany, Plainsboro, South Orange, River Edge, Rutherford, Union, and Woodbridge New Jersey, as well as Staten Island and Hicksville, New York and is subject to regulation, supervision, and examination by the New Jersey Department of Banking and Insurance and the Federal Deposit Insurance Corporation. The Bank is principally engaged in the business of attracting deposits from the general public and using these deposits, together with borrowed funds, to invest in securities and to make loans collateralized by residential and commercial real estate and, to a lesser extent, business and consumer loans. BCB Holding Company Investment Corp. (the "New Jersey Investment Company") was organized in January 2005 under New Jersey law as a New Jersey investment company primarily to hold investment and mortgage-backed securities. As a part of the merger with IA Bancorp, Inc., the Company acquired Special Asset REO 1, LLC and Special Asset REO 2, LLC. Special Asset REO 2 was inactive at June 30, 2024. The Bank changed the name of Special Asset REO 1, LLC to BCB Capital Finance Group, LLC in November 2023. The consolidated financial statements which include the accounts of the Company and its wholly-owned subsidiaries have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP"). All significant intercompany accounts and transactions have been eliminated in consolidation. The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Regulation S-X and, therefore, do not necessarily include all information that would be included in audited consolidated financial statements. The information furnished reflects all adjustments that are, in the opinion of management, necessary for a fair presentation of consolidated financial condition and results of operations. All such adjustments are of a normal recurring nature. These results are not necessarily indicative of the results to be expected for the fiscal year ending December 31, or any other future period. The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the periods then ended. Actual results could differ significantly from those estimates. These unaudited consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes for the year ended December 31, 2023, which are included in the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission (the "SEC"). In preparing these consolidated financial statements, the Company evaluated the events and transactions that occurred between December 31, 2023 and the date these consolidated financial statements were issued. Risks and Uncertainties - The occurrence of events which adversely affect the global, national and regional economies may have a negative impact on our business. Like other financial institutions, our business relies upon the ability and willingness of our customers to transact business with us, including banking, borrowing and other financial transactions. A strong and stable economy at each of the local, federal and global levels is often a critical component of consumer confidence and typically correlates positively with our customers' ability and willingness to transact certain types of business with us. Local and global events outside of our control which disrupt the New Jersey, New York, United States and/or global economy may therefore negatively impact our business and financial condition. A public health crisis such as the COVID-19 pandemic is no exception, and its adverse health and economic effects may adversely impact our business and financial condition. A Note 2 - Recent Accounting Pronouncements In March 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2022-02, Financial Instruments- "Credit Losses" (Topic 326): Troubled Debt Restructurings and Vintage Disclosures. The amendments in this update eliminate the existing accounting guidance for troubled debt restructurings ("TDRs") by creditors in Subtopic 310-40, Receivables - Troubled Debt Restructurings by Ã Creditors and instead requires that an entity evaluate whether a modification represents a new loan or a continuation of an existing loan. The amendments also enhance

disclosure requirements for certain loan refinancing and restructuring by creditors when a borrower is experiencing financial difficulty. All amendments in this update are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company adopted ASU 2022-02 on January 1, 2023. The adoption of this standard did not have a material effect on the Company's financial statements. In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses ASU 2016-13, and related guidance, requires entities to report expected credit losses on financial instruments and other commitments to extend credit rather than the current incurred loss model. The Company adopted ASU 2016-13 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective method. Results for the twelve months ended December 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments - Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1, 2023, the Company recorded a \$4.2 million decrease in allowance for credit losses on loans that is referred to as the current expected credit loss (CECL) methodology (previously allowance for loan losses), an elimination of \$1.1 million of reserves related to acquired loans, and a \$1.3 million increase related to allowance for off-balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of \$2.9 million and an increase to retained earnings a component of the stockholders' equity (net of tax). Allowance for Credit Losses The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met. Allowance for Credit Losses on Loans Receivable The allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis. Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off. The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 "Loan Receivables and Allowance for Credit Losses. Individually Evaluated Loans On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan. Allowance for Credit Losses on Off-Balance Sheet Commitments The Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations. Allowance for Credit Losses on Available-for-Sale Securities For available-for-sale securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more than likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major agencies and have a long history of no credit losses. Accrued Interest Receivable The Company made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans and available-for-sale securities. Accrued interest receivable on loans and securities is reported as a component of accrued interest receivable on the consolidated statement of financial condition. Note 3 "Reclassification Certain amounts have been reclassified to conform to the current period's presentation. These changes had no effect on the Company's results of operations or financial position. Note 4 "Equity Incentive Plans Equity Incentive Plans The Company, under the plan approved by its shareholders on April 27, 2023 (2023 Equity Incentive Plan), authorized the issuance of up to 1,000,000 shares of common stock of the Company pursuant to grants of stock options, restricted stock awards, restricted stock units, and performance awards. Employees and directors of the Company and the Bank are eligible to participate in the 2023 Equity Incentive Plan. All stock options are granted in the form of either "incentive" stock options or "non-qualified" stock options. Incentive stock options have certain tax advantages that must comply with the requirements of Section 422 of the Internal Revenue Code. Only employees are permitted to receive incentive stock options. The Company, under the plan approved by its shareholders on April 26, 2018 (2018 Equity Incentive Plan), authorized the issuance of up to 1,000,000 shares of common stock of the Company pursuant to grants of stock options and restricted stock units. Employees and directors of the Company and the Bank are eligible to participate in the 2018 Stock Plan. All stock options are granted in the form of either "incentive" stock options or "non-qualified" stock options. Incentive stock options have certain tax advantages that must comply with the requirements of Section 422 of the Internal Revenue Code. Only employees are permitted to receive incentive stock options. The Company, under the plan approved by its shareholders on April 28, 2011 (2011 Stock Plan), authorized the issuance of up to 900,000 shares of common stock of the Company pursuant to grants of stock options. Employees and directors of the Company and the Bank are eligible to participate in the 2011 Stock Plan. All stock options were granted in the form of either "incentive" stock options or "non-qualified" stock options. Incentive stock options have certain tax advantages that must comply with the requirements of Section 422 of the Internal Revenue Code. Only employees are permitted to receive incentive stock options. On April 25, 2024, awards of 30,000 and 20,000 shares of restricted stock were declared for an executive officer of the Bank and the Company, which vest over a 2 and 3-year period, respectively, commencing on the anniversary date of the awards. On June 30, 2023, an award of 25,252 shares of restricted stock was declared for a director and executive officer of the Bank and the Company, which fully vested on the anniversary of the award date. 9 Note 4 "Equity Incentive Plans (Continued) On January 31, 2023, awards of 27,000 shares of restricted stock, in aggregate were declared for members of the Board of Directors of the Bank and the Company, which vest over a 4-year period, commencing on the anniversary of the award date. On September 30, 2022, awards of 36,000 shares of restricted stock, in aggregate, were declared for certain executive officers of the Bank and the Company, which fully vested on November 30, 2022. On January 12, 2022, awards of 33,000 shares of restricted stock were declared for members of the Board of Directors of the Bank and the Company, which vest over a 4-year period, commencing on the anniversary of the award date. The following table presents a summary of the status of the Company's restricted shares as of June 30, 2024 and 2023. Number of Shares Awarded Weighted Average Grant Date Fair Value Non-vested at January 1, 2024 86,752 \$ 14.98 Granted 50,000 9.44 Vested (20,625) 15.75 Forfeited (1,725) 14.92 Non-vested at June 30, 2024 114,402 \$ 12.42 Number of Shares Awarded Weighted Average Grant Date Fair Value Non-vested at January 1, 2023 48,150 \$ 14.83 Granted 27,000 17.99 Vested (13,650) 14.60 Forfeited - Non-vested at June 30, 2023 61,500 \$ 14.83 Restricted stock expense for the six months ended June 30, 2024 and June 30, 2023 was \$341,000 and \$151,000, respectively. Expected future expenses relating to the non-vested restricted shares outstanding as of June 30, 2024 was approximately \$915,000 over a weighted average period of 2.14 years. The following table presents a summary of the status of the Company's outstanding stock option awards as of June 30, 2024. A Number of Option Shares Range of Exercise Prices Weighted Average Exercise Price Outstanding at January 1, 2024 975,975 \$10.55-13.68 \$11.89 Options granted - Options exercised - Options forfeited - Options expired (80,000) 13.32 13.32 Outstanding at June 30, 2024 895,975 \$10.55-13.68 \$11.76 As of June 30, 2024, stock options which were granted and were exercisable totaled 754,055. It is Company policy to issue new shares upon share option exercise. Compensation expense for the six months ended June 30, 2024 and June 30, 2023 was \$56,000 and \$65,000, respectively. Expected future compensation expense relating to the 141,920 shares of unvested options outstanding as of June 30, 2024 was \$216,000 over a weighted average period of 2.58 years. 10 Note 5 "Net Income per Common Share Basic net income per common share is computed by dividing net income less dividends on preferred stock by the weighted average number of shares of common stock outstanding. The diluted net income per common share is computed by adjusting the weighted average number of shares of common stock outstanding to include the effects of outstanding stock options, if dilutive, using the treasury stock method. Dilution is not applicable in periods of net loss. For the three and six months ended June 30, 2024, 2023 and 2022, the difference in the weighted average number of basic and diluted common shares was due solely to the effects of outstanding stock options. There were 896,000 and 588,000 outstanding options considered to be anti-dilutive for the three months ended June 30, 2024 and 2023, respectively. There were 888,000 and 6,600 outstanding options considered to be anti-dilutive for the six months ended June 30, 2024 and 2023, respectively. There were no outstanding options considered to be anti-dilutive for the three and six months ended June 30, 2022. The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations: For the Three Months Ended June 30, 2024 2023 2022 Income Shares Per Share Income Shares Per Share Income Shares Per Share (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (In Thousands, except per share data) Basic earnings per share: Income available to common stockholders \$ 2,369 17,005 \$ 0.14 \$ 8,430 16,824 \$ 0.50 \$ 10,025 16,997 \$ 0.59 Effect of dilutive securities: Stock options - - 7A - 407A Diluted earnings per share: Income available to common stockholders \$ 2,369 17,005 \$ 0.14 \$ 8,430 16,831 \$ 0.50 \$ 10,025 17,404 \$ 0.58 For the Six Months Ended June 30, 2024 2023 2022 Income Shares Per Share Income Shares Per Share Income Shares Per Share (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (In Thousands, except per share data) Basic earnings per share: Income available to common stockholders \$ 7,801 16,968 \$ 0.46 \$ 16,363 16,886 \$ 0.97 \$ 19,701 16,989 \$ 1.16 Effect of dilutive securities: Stock options - - 124A - 386A Diluted earnings per share: Income available to common stockholders \$ 7,801 16,968 \$ 0.46 \$ 16,363 17,010 \$ 0.96 \$ 19,717 17,375 \$ 1.13 Note 6 - Securities Equity Securities Equity securities are defined to include (a) preferred, common and other ownership interests in entities including partnerships, joint ventures and limited liability companies and (b) rights to acquire or dispose of ownership interest in entities at fixed or determinable prices. (2) Includes home equity lines of credit. 13 Note 7 "Loans Receivable and Allowance for Credit Losses (Continued) Allowance for Credit Losses The Company engages a third-party vendor to assist in the CECL calculation and has established a robust internal governance framework to oversee the quarterly estimation process for the allowance for credit losses (ACL). The ACL calculation methodology relies on regression-based discounted cash flow (DCF) models that correlate relationships between certain financial metrics and external market and macroeconomic variables. Following are some of the key factors and assumptions that are used in the Company's CECL calculations: i. methods based on probability of default and loss given default which are modeled based on macroeconomic scenarios; i. a reasonable and supportable forecast period determined based on management's current review of macroeconomic environment; i. a reversion period after the reasonable and supportable forecast period; i. estimated prepayment rates based on the Company's historical experience and future macroeconomic environment; i. estimated credit utilization rates based on the Company's historical experience and future macroeconomic environment; and i. incorporation of qualitative factors not captured within the modeled results. The qualitative factors include but are not limited to changes in lending policies, business conditions, changes in the nature and size of the portfolio, portfolio concentrations, and external factors such as competition. Allowance for credit losses are aggregated for the major loan segments, with similar risk characteristics, summarized below. However, for the purposes of calculating the reserves, these segments may be further broken down into loan classes by risk characteristics that include but are not limited to regulatory call codes, industry type, geographic location, and collateral type. Residential one-to-four family real estate loans involve certain risks such as interest rate risk and risk of non-repayment. Adjustable-rate residential real estate loans decrease the interest rate risk to the Bank that is associated with changes in interest rates but involve other risks, primarily because as interest rates rise, the payment by the borrower rises to the extent permitted by the terms of the loan, thereby increasing the potential for default. At the same time, the marketability of the underlying properties may be adversely affected by higher interest rates.

Repayment risk may be affected by a number of factors including, but not necessarily limited to, job loss, divorce, illness and personal bankruptcy of the borrower. Commercial and multi-family real estate lending entails additional risks as compared with residential family property lending. Such loans typically involve large loan balances to single borrowers or groups of related borrowers. The payment experience on such loans is typically dependent on the successful operation of the real estate project. The success of such projects is sensitive to changes in supply and demand conditions in the market for commercial real estate as well as general economic conditions. Construction lending is generally considered to involve a high risk due to the concentration of principal in a limited number of loans and borrowers and the effects of the general economic conditions on developers and builders. Moreover, a construction loan can involve additional risks because of the inherent difficulty in estimating both a property's value at completion of the project and the estimated cost (including interest) of the project. The nature of these loans is such that they are generally difficult to evaluate and monitor. In addition, speculative construction loans to a builder are not necessarily pre-sold and thus pose a greater potential risk to the Bank than construction loans to individuals on their personal residence. Commercial business lending, including lines of credit, is generally considered higher risk due to the concentration of principal in a limited number of loans and borrowers and the effects of general economic conditions on the business. Commercial business loans are primarily secured by inventories and other business assets. In many cases, any repossessed collateral for a defaulted commercial business loan will not provide an adequate source of repayment of the outstanding loan balance. The Bank has further segregated its commercial business portfolio into commercial business express loans that carry higher risk relative to other commercial business loans. The Bank had originated commercial business express loans to support small business owners coming out of the COVID crisis. The portfolio consists of a large number of loans with majority of the loans carrying a balance of \$250,000 or lower. Home equity lending entails certain risks such as interest rate risk and risk of non-repayment. The marketability of the underlying property may be adversely affected by higher interest rates, decreasing the collateral value securing the loan. Repayment risk can be affected by job loss, divorce, illness and personal bankruptcy of the borrower. Home equity line of credit lending entails securing an equity interest in the borrower's home. In many cases, the Bank's position in these loans is as a junior lien holder to another institution's superior lien. This type of lending is often priced on an adjustable rate basis with the rate set at or above a predefined index. Adjustable-rate loans decrease the interest rate risk to the Bank that is associated with changes in interest rates but involve other risks, primarily because as interest rates rise, the payment by the borrower rises to the extent permitted by the terms of the loan, thereby increasing the potential for default. Other consumer loans generally have more credit risk because of the type and nature of the collateral and, in certain cases, the absence of collateral. Consumer loans generally have shorter terms and higher interest rates than other lending. In addition, consumer lending collections are dependent on the borrower's continuing financial stability, and thus are more likely to be adversely affected by job loss, divorce, illness and personal bankruptcy. In many cases, any repossessed collateral for a defaulted consumer loan will not provide an adequate source of repayment of the outstanding loan.

14 Note 7 - Loans Receivable and Allowance for Credit Losses (Continued) The following table sets forth the activity in the Company's allowance for credit losses for the three and six months ended June 30, 2024, and the related portion of the allowances for credit losses that is allocated to each loan class, as of June 30, 2024 (in thousands):

The amendments in ASU 2022-02 eliminated the recognition and measurement of troubled debt restructurings and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty. The following table shows the amortized cost basis of loans modified to borrowers experiencing financial difficulty, disaggregated by loan category and type of concession granted for the three and six months ended June 30, 2024. For the three Months Ended June 30, 2024 (In Thousands) Number Payment Delay Term Extension Total Principal % of Total Class of Financing Receivable Business Express 80A	\$ - \$ 17,536A	\$ 17,536A	17.46A %

\$ 17,333A	\$ - \$ 380A	\$ 17,713A	The Company monitors the performance of loans modified to borrowers experiencing financial difficulty to understand the effectiveness of the modification efforts. The loans modified during the six months ended June 30, 2024 were current with payments. The Company did not have any loans that were both experiencing financial difficulty and modified during the six months ending June 30, 2023. 18 Note 7 - Loans Receivable and Allowance for Credit Losses (Continued) The tables below set forth the amounts and types of non-accrual loans in the Bank's loan portfolio at June 30, 2024 and December 31, 2023, respectively. Loans are placed on non-accrual status when they become more than 90 days delinquent, or when the collection of principal and/or interest become doubtful. As of June 30, 2024 and December 31, 2023, non-accrual loans differed from the amount of total loans past due 90 days due to loans that were previously 90 days past due both of which are maintained on nonaccrual status for a minimum of six months until the borrower has demonstrated their ability to satisfy the terms of the loan. As of June 30, 2024 (in Thousands) Nonaccrual loans with an Allowance for Credit Losses Nonaccrual loans without an Allowance for Credit Losses Total Nonaccrual loans Amortized Cost of Loans Past due 90 days and Still Accruing Residential one-to-four family \$ - 350A	\$ 350A	\$ - Commercial and multi-family 2,029A	25,767A

- Total \$ 6,940A	\$ 11,843A	\$ 18,783A	\$ - (1) Excludes Business express loans.			
(2) Includes home equity lines of credit. Had non-accrual loans been performing in accordance with their original terms, the interest income recognized for the six months ended June 30, 2024 and the twelve months ended December 31, 2023 would have been approximately \$2.8 million and \$1.9 million, respectively. Interest income recognized on loans returned to accrual was approximately \$1.1 million and \$314,000, respectively. The Bank has not committed to lend additional funds to the borrowers whose loans have been placed on nonaccrual status. At June 30, 2024, there were \$577,000 loans more than ninety days past due and still accruing interest. At December 31, 2023 there were no loans more than ninety days past due and still accruing interest.	14 Note 7 - Loans Receivable and Allowance for Credit Losses (Continued) Criticized and Classified Assets Company policies provide for a classification system for problem assets. On March 29, 2024, the Company closed a private placement of Series J Noncumulative Perpetual Stock, par value \$0.01 per share (the æSeries J Preferred Stockæ), resulting in gross proceeds of \$2,690,000 for 269 shares. On December 14, 2023, the Company closed a private placement of Series J Noncumulative Perpetual Stock, par value \$0.01 per share (the æSeries J Preferred Stockæ), resulting in gross proceeds of \$15,270,000 for 1,527 shares. On September 14, 2023, the Company redeemed 22 outstanding shares of its Series H 3.5% Noncumulative Perpetual Preferred Stock, at their face value of \$10,000 per share, for a total redemption amount of \$220,000. The company redeemed the remaining 1,101 outstanding shares of its Series H 3.5% Noncumulative Perpetual Preferred Stock during the fourth quarter of 2023, at their face value of \$10,000 per share, for a total redemption amount of \$11.0 million. Note 9 æZ Bank-Owned Life Insurance BOLI involves life insurance purchased by the Bank on a chosen group of employees, and the Bank is owner and beneficiary of the policies. At June 30, 2024 the Bank had \$74.8 million in BOLI. BOLI is recorded at its net realizable value. Note 10 æZ Goodwill and Other Intangible Assets The CompanyæZs intangible assets consist of goodwill and core deposit intangibles in connection with acquisitions. The initial recording of goodwill and other intangible assets requires subjective judgments concerning estimates of the fair value of the acquired assets and assumed liabilities. Goodwill is not amortized but is subject to annual tests for impairment or more often if events or circumstances indicate it may be impaired. There was no amortization expense of the core deposit intangibles for the six months ended June 30, 2024. Amortization expense of the core deposit intangibles was \$59,000 and \$25,000 for the six months ended June 30, 2023 and 2022, respectively. The unamortized balance of the core deposit intangibles and the amount of goodwill at June 30, 2024 was \$0 and \$5.2A million, respectively. The unamortized balance of the core deposit intangibles and the amount of goodwill at June 30, 2023 was \$70,000 and \$5.2A million, respectively. The CompanyæZs core deposit intangibles are amortized on an accelerated basis using an estimated life of 10 years and in accordance with U.S. GAAP are evaluated annually for impairment. An impairment loss will be recognized if the carrying amount of the intangible asset is not recoverable and exceeds fair value. The carrying amount of the intangible asset is not considered recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use of the asset. The Company conducts impairment analysis on goodwill at least annually or more often as conditions require. Pursuant to ASC 350-20-35, the Company conducted a qualitative assessment of goodwill as of October 31, 2023, and determined that it was more likely than not that goodwill was not impaired. Accordingly, there was no impairment at December 31, 2023. The Company believes that the fair values of its goodwill was in excess of its carrying amounts and there was no impairment at June 30, 2024. æZ 23 Note 11 æZ Fair Values of Financial Instruments Guidance on fair value measurements establishes a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows: Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability. Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported with little or no market activity). An asset or liabilityæZs level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Assets that the Company measured at fair value on a recurring basis were as follows (In thousands): A A (Level 1) A A (Level 2) A A Quoted Prices in Significant (Level 3) Active Markets Other Significant for Identical Observable Unobservable Description Total Assets Inputs Inputs As of June 30, 2024: A A A A A A Securities A A A A Debt Securities Available for Sale \$ 85,964 \$ - \$ 85,964 \$ - Marketable Equities 9,001 9,001 - Total Securities \$ 94,965 \$ 9,001 \$ 85,964 \$ - As of December 31, 2023: A A A A A A Securities A A A A Debt Securities Available for Sale \$ 87,769 \$ - \$ 87,769 \$ - Marketable Equities 9,093 9,093 - Total Securities \$ 96,862 \$ 9,093 \$ 87,769 \$ - There were no transfers of assets or liabilities into or out of Level 1, Level 2, or Level 3 of the fair value hierarchy during the three months ended June 30, 2024 and 2023. æZ 2æZ There were no liabilities measured at fair value on a recurring basis at June 30, 2024 or December 31, 2023. Assets that the Company measured at fair value on a nonrecurring basis were as follows (In thousands): A A (Level 1) A A (Level 2) A A Quoted Prices in Significant (Level 3) Active Markets Other Significant for Identical Observable Unobservable Description Total Assets Inputs Inputs As of June 30, 2024: A A A A A A Individually Evaluated Loans \$ 21,466.4 \$ - \$ - \$ - \$ 21,466.4 Loans held for sale 35,187.4 - 35,187.4 - As of December 31, 2023: A A A A A A Individually Evaluated Loans \$ 23,585.4 \$ - \$ - \$ - \$ 23,585.4 Certain individually evaluated loans were adjusted to the fair value, less costs to sell, of the underlying collateral securing these loans resulting in losses. The loss is not recorded directly as an adjustment to current earnings, but rather as a component in determining the allowance for credit losses. Fair value was measured using appraised values of collateral and adjusted as necessary by management based on unobservable inputs for specific properties. Losses on individually evaluated loans for the three months ended June 30, 2024 and the twelve months ended December 31, 2023 were \$1.6 million and \$1.4 million, respectively. The fair value of loans held for sale was based on prices received from active buyers. Losses on these loans held for sale for the three and six months ended June 30, 2024 were \$4.6 million. There were no liabilities measured at fair value on a nonrecurring basis at June 30, 2024 or December 31, 2023. æZ 24 Note 11 æZ Fair Values of Financial Instruments (Continued) The following tables present additional quantitative information as of June 30, 2024 and December 31, 2023 about assets measured at fair value on a nonrecurring basis and for which the Company has utilized adjusted Level 3 inputs to determine fair value. (Dollars in thousands): Quantitative Information about Level 3 Fair Value Measurements Fair Value Valuation Unobservable Estimate Techniques Input Range June 30, 2024: Individually Evaluated Loans\$ 21,466 Appraisal of collateral (1) Appraisal adjustments (2) 0%-10% Fair Value Valuation Unobservable Estimate Techniques Input Range December 31, 2023: Individually Evaluated Loans\$ 23,585 Appraisal of collateral (1) Appraisal adjustments (2) 0%-10% (1) Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various level 3 inputs which are not objectively determinable. (2) Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal. The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the CompanyæZs assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the CompanyæZs disclosures and those of other companies may not be meaningful. The following methods and assumptions were used to estimate the fair values of the CompanyæZs financial instruments as of June 30, 2024 and December 31, 2023. Cash and Cash Equivalents and Interest-Earning Time Deposits (Carried at Cost) The carrying amounts reported in the consolidated statements of financial condition for cash and short-term instruments approximate fair values. Securities (Carried at Fair Value) The fair value of securities is determined by obtaining quoted market prices on nationally recognized security exchanges (Level 1) or, by matrix pricing (Level 2), which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securitiesæZ relationship to other benchmark quoted prices. Loans Held for Sale (Lower of Cost or Market) The fair value of loans held for sale is determined, when possible, using quoted secondary-market prices. If no such quoted prices exist, the fair value of a loan is determined using quoted prices for a similar loan or loans, adjusted for specific attributes of that loan. Loans held for sale are carried at the lower of cost or fair value. Loans Receivable (Carried at Cost) The fair values of loans, except for certain individually evaluated loans, are estimated using discounted cash flow analyses, using market rates at the date of the Statement of Financial Condition that reflect the credit and interest rate-risk inherent in the loans. Projected future cash flows are calculated based upon contractual maturity or call dates, projected repayments and prepayments of principal. Generally, for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. Individually Evaluated Loans (Generally Carried at Fair Value) Individually evaluated loans are those for which the Company has measured and recorded credit losses based on the fair value of the loanæZs collateral, less estimated costs to sell. Fair value is generally determined based upon independent third-party appraisals of the properties, or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. The fair value at June 30, 2024 and December 31, 2023 consisted of the loan balances of \$27.8A million net of an allowance for credit losses of \$6.3A million and \$27.8A million net of an allowance for credit losses of \$4.2A million, respectively. Other Real Estate Owned (Generally Carried at Lower of Cost or Fair Value) Other real estate owned is generally carried at fair value less estimated costs to sell which is determined based upon independent third-party appraisals of the properties or based upon the expected proceeds from a pending sale. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. FHLB of New York Stock (Carried at Cost) The carrying amount of restricted investment in bank stock approximates fair value and considers the limited marketability of such securities. Accrued Interest Receivable and Payable (Carried at Cost) The carrying amount of accrued interest receivable and accrued interest payable approximates its fair value. Deposits (Carried at Cost) The fair values disclosed for demand deposits (e.g., interest and non-interest checking, savings and money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered in the market on certificates to a schedule of aggregated expected monthly maturities on time deposits. 25 Note 11 æZ Fair Values of Financial Instruments (Continued) Debt Including Subordinated Debentures (Carried at Cost) Fair values of debt are estimated using discounted cash flow analysis, based on quoted prices for new long-term debt with similar credit risk characteristics, terms and remaining maturity. Prices obtained from this active market represent a market value that is deemed to represent the transfer price if the liability were assumed by a third party. Off-Balance Sheet Financial Instruments Fair values for the CompanyæZs off-balance sheet financial instruments (lending commitments and unused lines of credit) are based on fees currently charged in the market to enter into similar agreements, taking into account, the remaining terms of the agreements and the counterpartiesæZ credit standing. The fair value of these commitments was deemed immaterial and is not presented in the accompanying table. The carrying values and estimated fair values of financial instruments were as follows as of June 30, 2024 and December 31, 2023: A As of June 30, 2024 Quoted Prices in Active Significant Carrying Markets for Identical Assets Other Observable Inputs Unobservable Inputs Value Fair Value (Level 1) (Level 2) (Level 3) A (In Thousands) Financial assets: A A A A Cash and cash equivalents \$ 326,870.4 \$ 326,870.4 A A \$ - Interest-earning time deposits 735.4 735.4 A A Debt securities available for sale 85

statements and future results could differ materially from historical performance. The most significant factor that could cause future results to differ materially from those anticipated by our forward-looking statements include the ongoing impact of higher inflation levels, higher interest rates and general economic and recessionary concerns, all of which could impact economic growth and could cause a reduction in financial transactions and business activities, including decreased deposits and reduced loan originations, our ability to manage liquidity and capital in a rapidly changing and unpredictable market, supply chain disruptions, labor shortages and additional interest rate increases by the Federal Reserve. Other factors that could cause future results to vary materially from current management expectations as reflected in our forward-looking statements include, but are not limited to: i, the global impact of the military conflicts in the Ukraine and the Middle East; i, unfavorable economic conditions in the United States generally and particularly in our primary market area; i, the Company's ability to effectively attract and deploy deposits; i, changes in the Company's corporate strategies, the composition of its assets, or the way in which it funds those assets; i, shifts in investor sentiment or behavior in the securities, capital, or other financial markets, including changes in market liquidity or volatility; i, the effects of declines in real estate values that may adversely impact the collateral underlying our loans; i, increase in unemployment levels and slowdowns in economic growth; i, our level of non-performing assets and the costs associated with resolving any problem loans including litigation and other costs; i, the impact of changes in interest rates and the credit quality and strength of underlying collateral and the effect of such changes on the market value of our loan and investment securities portfolios; i, the credit risk associated with our loan portfolio; i, changes in the quality and composition of the Bank's loan and investment portfolios; i, changes in our ability to access cost-effective funding; i, deposit flows; i, legislative and regulatory changes, including increases in Federal Deposit Insurance Corporation, or FDIC, insurance rates; i, monetary and fiscal policies of the federal and state governments; i, changes in tax policies, rates and regulations of federal, state and local tax authorities; i, demands for our loan products; i, demand for financial services; i, competition; i, changes in the securities or secondary mortgage markets; i, changes in management's business strategies; i, our ability to enter new markets successfully; i, our ability to successfully integrate acquired businesses; i, changes in consumer spending; i, our ability to retain key employees; i, the effects of any reputational, credit, interest rate, market, operational, legal, liquidity, or regulatory risk; i, expanding regulatory requirements which could adversely affect operating results; i, civil unrest in the communities that we serve; i, and other factors discussed elsewhere in this report, and in other reports we filed with the SEC, including under "Risk Factors" in Part I, Item 1A of our annual Report on Form 10-K, in Part II, Item 1A of our quarterly reports on Form 10-Q, and our other periodic reports that we file with the SEC. You should not place undue reliance on these forward-looking statements, which reflect our expectations only as of the date of this Form 10-Q. We do not assume any obligation to revise forward-looking statements except as may be required by law. Overview BCB Bancorp, Inc. is a New Jersey corporation, and is the holding company parent of BCB Community Bank, or the Bank. The Company has not engaged in any significant business activity other than owning all of the outstanding common stock of BCB Community Bank. Our executive office is located at 104-110 Avenue C, Bayonne, New Jersey 07002. At June 30, 2024, we had \$3.794 billion in consolidated assets, \$2.935A billion in deposits and \$320.7A million in consolidated stockholders' equity. BCB Community Bank opened for business on NovemberA 1, 2000 as Bayonne Community Bank, a New Jersey chartered commercial bank. The Bank changed its name from Bayonne Community Bank to BCB Community Bank in April 2007. At June 30, 2024, the Bank operated at twenty-three branches in Bayonne, Edison, Jersey City, Hoboken, Fairfield, Holmdel, Lyndhurst, Maplewood, Monroe Township, Newark, Parsippany, Plainsboro, River Edge, Rutherford, South Orange, Union, and Woodbridge, New Jersey, as well as four branches in Hicksville and Staten Island, NY, and through executive offices located at 104-110 Avenue C and an administrative office located at 591-595 Avenue C, Bayonne, New Jersey 07002. The Bank's deposit accounts are insured by the FDIC, and the Bank is a member of the Federal Home Loan Bank System. 28 We are a community-oriented financial institution. Our business is to offer FDIC-insured deposit products and to invest funds held in deposit accounts at the Bank, together with funds generated from operations, in loans and investment securities. We offer our customers: i, loans, including commercial and multi-family real estate loans, one- to four-family mortgage loans, home equity loans, construction loans, consumer loans and commercial business loans. In recent years the primary growth in our loan portfolio has been in loans secured by commercial real estate and multi-family properties; i, FDIC-insured deposit products, including savings and club accounts, interest and non-interest bearing demand accounts, money market accounts, certificates of deposit and individual retirement accounts; and A i, retail and commercial banking services including wire transfers, money orders, safe deposit boxes, a night depository, debit cards, online banking, mobile banking, gift cards, fraud detection (positive pay), and automated teller services. Critical Accounting Estimates Estimates and assumptions are necessary in the application of certain accounting policies and can be susceptible to significant change. Critical accounting estimates are defined as those that involve a significant level of estimation uncertainty and have had, or could have, a material impact on the Company's financial conditions or results of operation. At June 30, 2024, the Company considers the allowance for credit losses to be a critical accounting estimate. See further discussion of this critical accounting estimate in Note 7 of this Form 10-Q and in our Annual Report on Form 10-K for the year ended DecemberA 31, 2023. Financial Condition Total assets decreased by \$38.5 million, or 1.0 percent, to \$3.794 billion at June 30, 2024, from \$3.832 billion at December 31, 2023. The decrease in total assets was mainly related to a decrease in loans, offset, somewhat, by an increase in cash and cash equivalents. Total cash and cash equivalents increased by \$47.3 million, or 16.9 percent, to \$326.9 million at June 30, 2024, from \$279.5 million at December 31, 2023. The increase was primarily cash flows from loan payoffs/paydowns that were not redeployed. Loans receivable, net, decreased by \$117.8 million, or 3.6 percent, to \$3.162 billion at June 30, 2024, from \$3.280 billion at December 31, 2023. Total loan decreases during the period included decreases of \$93.7 million in commercial real estate and multi-family loans and \$19.6 million in construction loans due primarily to payoffs/paydowns. 1-4 family residential loans also declined \$5.6 million for the same period. Offsetting this was an increase in commercial business loans of \$3.2 million. The allowance for credit losses increased \$1.6 million to \$35.2 million, or 108.6 percent of non-accruing loans and 1.10 percent of gross loans, at June 30, 2024, as compared to an allowance for credit losses of \$33.6 million, or 178.9 percent of non-accruing loans and 1.01 percent of gross loans, at December 31, 2023. Total investment securities decreased by \$1.9 million, or 2.0 percent, to \$95.0 million at June 30, 2024, from \$96.9 million at December 31, 2023, representing unrealized losses, calls, maturities and repayments. Deposits decreased by \$43.8 million, or 1.5 percent, to \$2.935 billion at June 30, 2024, from \$2.979 billion at December 31, 2023. Interest bearing demand, savings and club accounts, money market accounts and non-interest-bearing accounts declined by \$53.0 million, offset by a \$9.1 million increase in certificates of deposit. Debt obligations increased by \$275 thousand to \$510.7 million at June 30, 2024 from \$510.4 million at December 31, 2023. The weighted average interest rate of FHLB advances was 4.21 percent at June 30, 2024 and 4.21 percent at December 31, 2023. The weighted average maturity of FHLB advances as of June 30, 2024 was 1.44 years. The interest rate of the Company's subordinated debt balances was 8.31 percent at June 30, 2024 and 8.36 percent at December 31, 2023. Stockholders' equity increased by \$6.7 million, or 2.1 percent, to \$320.7 million at June 30, 2024, from \$314.1 million at December 31, 2023. The increase was attributable to an increase in the additional paid in capital attributable to its preferred stock of \$3.4 million, or 13.4 percent, to \$28.4 million at June 30, 2024, and an increase in retained earnings of \$2.4 million, or 1.8 percent, to \$138.3 million at June 30, 2024 from \$135.9 million at December 31, 2023. The increase in its preferred stock paid in capital was due to the issuance of 336 shares of its Series J Noncumulative Perpetual Preferred Stock during the six-month period. 29 Net Interest Income Analysis Net interest income represents the difference between income earned on our interest-earning assets and the expense incurred on our interest-bearing liabilities, and is analyzed and monitored by the Company on a regular basis. The following tables set forth average balance sheets, yields, and costs. The yields include the effect of deferred fees, discounts, and premiums that are amortized or accreted to interest income or expense. No tax equivalent adjustments have been made as the effects would not be significant. Three Months Ended June 30, 2024 2023 Average Balance Interest Earned/Paid Average Yield/Rate (3) Average Balance Interest Earned/Paid Average Yield/Rate (3) (Dollars in thousands)Interest-earning assets: Loans receivable (4) (5) \$ 3,246,612 \$ 44,036 5.43% \$ 3,315,120 \$ 42,644 5.15%Investment securities 95,241 1,303 5.47%100,971 1,254 4.97%FHLB stock and other interest earnings-assets 297,574 4,106 5.52% 278,746 3,339 4.79%Total interest-earning assets 3,639,427 49,445 5.43% 3,694,837 47,237 5.11%Non-interest-earning assets 123,551 125,032 Total assets \$ 3,762,978 \$ 3,819,869 Interest-bearing liabilities: Interest-bearing demand accounts \$ 546,391 \$ 2,279 1.67% \$ 712,415 \$ 2,209 1.24%Money market accounts 370,204 3,070 3.32% 331,339 1,981 2.39%Savings accounts 267,919 152 0.23% 312,201 143 0.18%Certificates of Deposit 1,202,306 14,571 4.85% 904,766 8,474 3.75%Total interest-bearing deposits 2,386,820 20,072 3.36% 2,260,721 12,807 2.27%Borrowed funds 510,634 5,734 4.49% 630,706 7,441 4.72%Total interest-bearing liabilities 2,897,454 25,806 3.56% 2,891,427 20,248 2.80%Non-interest-bearing liabilities 545,267 630,928 Total liabilities 3,442,721 3,522,355 Stockholders' equity 320,257 297,514 Total liabilities and stockholders' equity \$ 3,762,978 \$ 3,819,869 Net interest income \$ 23,639 \$ 26,989 Net interest rate spread(1) 1.87% 2.31%Net interest margin(2) 2.60% 2.92%(1) Net interest rate spread represents the difference between the average yield on average interest-earning assets and the average cost of average interest-bearing liabilities.(2) Net interest margin represents net interest income divided by average total interest-earning assets. (3) Annualized. (4) Excludes allowance for credit losses. (5) Includes non-accrual loans which are immaterial to the yield. Results of Operations Comparison for the Three Months Ended June 30, 2024 and 2023 Net income was \$2.8A million for the quarter ended June 30, 2024 and \$8.6A million for the quarter ended June 30, 2023. The decline was primarily driven by a \$4.9 million loss on the sale of loans in the second quarter of 2024 and lower net interest income, which decreased \$3.4 million in the second quarter of 2024 as compared with the second quarter of 2023. The Bank agreed to sell a pool of its commercial real estate and multifamily loans with a total balance of \$38.4 million as of June 30, 2024 that resulted in a pre-tax loss of \$4.6 million as the loans were moved to held for sale from the held for investment category. Management received a price for these loans that it deemed attractive, as the loans carried lower coupons. The sale proceeds will be used to originate loans with higher coupons and to also pay down higher cost funding. Additionally, during the second quarter, the Bank sold a non-performing loan that resulted in a pre-tax loss of \$288 thousand. This was offset, somewhat, by a lower tax provision of \$2.3 million and a decrease in non-interest expense of \$719 thousand. Net interest income decreased by \$3.4 million, or 12.4 percent, to \$23.6A million for the second quarter of 2024, from \$27.0A million for the second quarter of 2023. The decrease in net interest income resulted from higher interest expense which was partially offset by higher interest income. Interest income increased by \$2.2 million, or 4.7 percent, to \$49.4 million for the second quarter of 2024 from \$47.2A million for the second quarter of 2023. Although, the average balance of interest-earning assets decreased \$55.4 million, or 1.5 percent, to \$3.639 billion for the second quarter of 2024 from \$3.695 billion for the second quarter of 2023, the average yield increased 32 basis points to 5.43 percent for the second quarter of 2024 from 5.11 percent for the second quarter of 2023. Interest expense increased by \$5.6 million to \$25.8A million for the second quarter of 2024 from \$20.2A million for the second quarter of 2023. The increase resulted primarily from an increase in the average rate on interest-bearing liabilities of 76 basis points to 3.56 percent for the second quarter of 2024 from 2.80 percent for the second quarter of 2023, while the average balance of interest-bearing liabilities increased by \$6.03 million to \$2.897 billion for the second quarter of 2024 from \$2.891 billion for the second quarter of 2023. The increase in the average rate primarily resulted from the higher interest rate environment in the three months ended June 30, 2024 compared to the same period in 2023. The net interest margin was 2.60 percent for the second quarter of 2024 compared to 2.92 percent for the second quarter of 2023. The decrease in the net interest margin compared to the second quarter of 2023 was the result of the increase in the cost of interest-bearing liabilities partially offset by the increase in the yield on interest-earning assets. During the second quarter of 2024, the Company recognized \$1.8 million in net charge-offs compared to \$27 thousand in net charge offs for the second quarter of 2023. A majority of the charge-offs were commercial business and business express loans. Within the commercial loan portfolio, management has seen an uptick in charge-offs of business express loans, that are now reported as a separate segment. The Bank had non-accrual loans totaling \$32.4A million, or 1.01 percent of gross loans, at June 30, 2024 as compared to \$18.8A million, or 0.57 percent of gross loans, at December 31, 2023. The allowance for credit losses on loans was \$35.2A million, or 1.10 percent of gross loans, at June 30, 2024, and \$33.6 million, or 1.01 percent of gross loans, at December 31, 2023. The provision for credit losses was \$2.4 million for the second quarter of 2024 compared to \$1.4 million for the second quarter of 2023. Management continues to actively monitor the performance of its business express loans and has ensured that adequate reserves are maintained against these loans. The uptick in loss experience in the business express loans primarily resulted in an increased loan loss provisioning expense and an increase in the loan loss reserves. Management believes that the allowance for credit losses on loans was adequate at June 30, 2024 and December 31, 2023. Non-interest income decreased by \$4.4 million to a net loss of \$3.2 million for the second quarter of 2024 from a net gain of \$1.1 million in the second quarter of 2023. The decrease in total non-interest income was mainly related to the aforementioned \$4.9 million loss on the sale of loans. 31 Non-interest expense decreased by \$719 thousand, or 4.9 percent, to \$14.0A million for the second quarter of 2024 from \$14.7A million for the second quarter of 2023. The decrease in these expenses for the second quarter of 2024 was primarily driven by a lesser amount of salaries and employee benefits expense, which declined \$719 thousand. The income tax provision decreased by \$2.3 million, or 66.3 percent, to \$1.2A million for the second quarter of 2024 from \$3.4A million for the second quarter of 2023. The consolidated effective tax rate was 29.2 percent for the second quarter of 2024 compared to 28.6 percent for the second quarter of 2023. Results of Operations Comparison for Six Months Ended June 30, 2024 and 2023 Net income decreased by \$8.0A million, or 48.0 percent, to \$8.7A million for the first six months of 2024 from \$16.7A million for the first six months of 2023. The decrease in net income was driven, primarily, by lower net interest income of \$7.7 million, or 14.1 percent. Net interest income decreased by \$7.7A million, or 14.1 percent, to \$46.8 million for the first six months of 2024 from \$54.5 million for the first six months of 2023. The decrease in net interest income resulted from an increase in interest expense of \$16.8 million, partly offset by an increase in interest income of \$9.1 million. Interest income increased by \$9.1 million, or 10.2 percent, to \$98.7 million for the first six months of 2024, from \$89.6 million for the first six months of 2023. The average balance of interest-earning assets increased \$79.7 million, or 2.2 percent, to \$3.669 billion for the first six months of 2024, from \$3.590 billion for the first six months of 2023, while the average yield increased 39 basis points to 5.38 percent from 4.99 percent for the same comparable period. The increase in the average balance of interest-earning assets mainly related to an increase in the Company's level of average interest-bearing bank balances and loans receivable for the first six months of 2024, as compared to the same period in 2023. Interest expense increased by \$16.8 million, or 47.9 percent, to \$51.9 million for 2024, from \$35.1 million for 2023. This increase resulted primarily from an increase in the average rate on interest-bearing liabilities of 102 basis points to 3.55 percent for the first six months of 2024, from 2.53 percent for the first six months of 2023, and an increase in the average balance of interest-bearing liabilities of \$150.6 million, or 5.4 percent, to \$2.927 billion from \$2.777 billion over the same period. The increase in the average cost of funds primarily resulted from the higher interest rate environment in the first six months of 2024 compared to the same period in 2023. Net interest margin was 2.55 percent for the first six months of 2024, compared to 3.03 percent for the first six months of 2023. The decrease in the net interest margin compared to the prior period was the result of an increase in the cost of the Bank's interest-bearing liabilities. During the first six months of 2024, the Company experienced \$2.9 million in net charge offs compared to \$25 thousand in net recoveries for the same period in 2023. The provision for credit losses was \$4.5 million for the first six months of 2024 compared to \$2.0 million for the same period in 2023. Non-interest income decreased by \$579 thousand to a loss of \$1.1 million for the first six months of 2024 from a loss of \$546 thousand for the first six months of 2023. Losses on sale of loans increased \$4.8 million which was partially offset by an increase in realized and unrealized gains and losses on equity securities of \$3.8 million, and an increase in BOLI income of \$658 thousand. The realized and unrealized gains or losses on equity investments are based on market conditions. Non-interest expense increased by \$265 thousand, or 0.9 percent, to \$28.8A million for the first six months of 2024 from \$28.6 million for the same period in 2023. The increase in operating expenses for 2024 was driven primarily by increases in the off-balance sheet reserves and

regulatory assessments of \$921 thousand and \$763 thousand, respectively. This was partially offset by the Bank recording \$1.4 million less in salaries and employee benefits. The income tax provision decreased by \$3.0 million or 45.7 percent, to \$3.6 million for the first six months of 2024 from \$6.74 million for the same period in 2023. The decrease in the income tax provision was a result of the lower taxable income for the six months ended June 30, 2024 compared to the same period in 2023. The consolidated effective tax rate was 29.4 percent for the first six months of 2024 compared to 28.5 percent for the first six months of 2023. Liquidity and Capital Resources Liquidity The overall objective of our liquidity management practices is to ensure the availability of sufficient funds to meet financial commitments and to take advantage of lending and investment opportunities.Â The Company manages liquidity in order to meet deposit withdrawals on demand or at contractual maturity, to repay borrowings and other obligations as they mature, and to fund loan and investment portfolio opportunities as they arise. The Companyâ€™s primary sources of funds to satisfy its objectives are net growth in deposits (primarily retail), principal and interest payments on loans and investment securities, proceeds from the sale of originated loans and FHLB and other borrowings. The scheduled amortization of loans is a predictable source of funds. Deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. The Company has other sources of liquidity if a need for additional funds arises, including unsecured overnight lines of credit and other collateralized borrowings from the Federal Reserve Bank Discount Window, the FHLB and other correspondent banks. Our Asset / Liability Management Committee is responsible for establishing and monitoring our liquidity targets and strategies in order to ensure that sufficient liquidity exists for meeting the borrowing needs of our customers as well as unanticipated contingencies. At JuneÂ 30, 2024 and December 31, 2023, the Company had no overnight borrowings outstanding with the FHLB. The Company utilizes overnight borrowings from time to time to fund short-term liquidity needs. The Company had total outstanding borrowings of \$510.74 million at June 30, 2024 as compared to \$510.44 million at DecemberÂ 31, 2023. At JuneÂ 30, 2024, the Company had the ability to obtain additional funding from the FHLB of \$220.1Â million and \$480.6 million from the Federal Reserve Bank Discount Window, utilizing unencumbered loan collateral. The Company expects to have sufficient funds available to meet current loan commitments in the normal course of business through typical sources of liquidity. Time deposits scheduled to mature in one year or less totaled \$1.210Â billion at JuneÂ 30, 2024. Based upon historical experience data, management estimates that a significant portion of such deposits will remain with the Company. The Company was well-positioned with adequate levels of cash and liquid assets as of JuneÂ 30, 2024 and a significant amount of available borrowing capacity with FHLB and Federal Reserve Bank Discount Window. Subordinated Debentures The Company has subordinated debentures outstanding, whose aggregate principal totaled \$33.5 million at June 30, 2024. The subordinated debentures have a ten-year term and bore an interest at a fixed annual rate of 5.625% for the first five years of the term. Beginning AugustÂ 1, 2023, the interest rate adjusted to a floating rate based on the CME Term Secured Overnight Financing Rate (â€™SOFRâ€™) published by the Federal Reserve Bank of New York, as adjusted by the spread adjustment of 0.26161 percent, plus 2.72% until redemption or maturity. The rates paid as of June 30, 2024 and 2023 were 8.308% and 5.625%, respectively. The Notes are scheduled to mature on AugustÂ 1, 2028. 32 The Company also has \$4.1 million of mandatory redeemable Trust Preferred securities outstanding. Effective September 18, 2023, the interest rate on these floating rate junior subordinated debentures adjusts quarterly based on the three-month CME Term SOFR, as adjusted by the spread adjustment of 0.26161 percent, plus 2.650%. Prior to September 18, 2023 the rate was based on the three-month LIBOR. The rate paid as of June 30, 2024 and 2023 was 8.251% and 8.160%, respectively. The trust preferred debenture became callable, at the Companyâ€™s option, on June 17, 2009, and quarterly thereafter. Capital Resources The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet the minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Companyâ€™s consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. Our capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk-weightings and other factors. The Bank has opted into the community bank leverage ratio (tier 1 capital to average consolidated assets) (â€™CBLRâ€™) framework, with a minimum requirement of 9% for institutions under \$10Â billion in assets. Such institutions meeting that requirement may elect to utilize the CBLR in lieu of the general applicable risk-based capital requirements under Basel III. Such institutions that meet the CBLR and certain other qualifying criteria will automatically be deemed to be well-capitalized. AtÂ June 30, 2024 and DecemberÂ 31, 2023, the Bank exceeded all of its regulatory capital requirements. The following table sets forth the regulatory capital ratios for the Bank as well as regulatory capital requirements for the periods presented. Â Â Â Actual For Capital Adequacy Purposes For Well Capitalized Under Prompt Corrective Action Dollars in ThousandsAs of June 30, 2024: Bank Community Bank Leverage RatioÂ 358,575 9.52% Â 301,174 8.00% Â 338,821 9.00% As of December 31, 2023: Bank Community Bank Leverage Ratio\$ 350,749Â 9.09Â % Â 308,608Â 8.00Â % Â 347,184Â 9.00Â % The following table sets forth the regulatory capital ratios for the Company as well as the regulatory requirements for June 30, 2024 and December 31, 2023. Â Â Â Actual For Capital Adequacy Purposes For Well Capitalized Under Federal Reserve Board Regulations Dollars in ThousandsAs of June 30, 2024: Bancorp Total Capital (to Risk-Weighted Assets)\$ 388,274Â 11.77Â % Â 263,908Â 8.00Â % Â 329,884Â 10.00Â %Tier 1 Capital (to Risk-Weighted Assets)Â Â 326,231Â 8.99Â 197,916Â 6.00Â 197,916Â 6.00Â Common Equity Tier 1 Capital (to Risk-Weighted Assets)Â Â 293,704Â 8.90Â 148,502Â 4.50Â -- Tier 1 Capital (to adjust total assets) 326,231Â 8.67Â 150,570Â 4.00Â -- As of December 31, 2023: Bancorp Total Capital (To Risk-Weighted Assets)\$ 379,562Â 11.14Â % Â 272,564Â 8.00Â % Â 340,705Â 10.00Â %Tier 1 Capital (to Risk-Weighted Assets) 319,154Â 9.37Â 204,422Â 6.00Â 204,422Â 6.00Â Common Equity Tier 1 Capital (to Risk-Weighted Assets) 289,987Â 8.51Â 153,317Â 4.50Â -- Tier 1 Capital (to adjusted total assets) 319,154Â 8.27Â 154,315Â 4.00Â -- For the Company to be â€™well capitalizedâ€™ under Federal Reserve definitions for bank holding companies, the Company is only required to have a Tier 1 Capital to Risk Weighted Assets ratio of at least 6.00% and a Total Capital to Risk Weighted Assets ratio of at least 10.00%.â€™ 33 ITEMÂ 3. Quantitative and Qualitative Disclosures about Market Risk Management of Market Risk Market risk is a broad term for the risk of economic loss due to adverse changes in the fair value of a financial instrument. These changes may be the result of various factors, including interest rates, foreign exchange prices, commodity prices, or equity prices. Financial instruments that are subject to market risk can be classified either as held for trading or held for purposes other than trading. Qualitative Analysis. The majority of our assets and liabilities are monetary in nature. Consequently, one of our most significant forms of market risk is interest rate risk. Our assets, consisting primarily of mortgage loans, have longer maturities than our liabilities, consisting primarily of deposits. As a result, a principal part of our business strategy is to manage interest rate risk and reduce the exposure of our net interest income to changes in market interest rates. Accordingly, our Board of Directors has established an Asset/Liability Committee which is responsible for evaluating the interest rate risk inherent in our assets and liabilities, for determining the level of risk that is appropriate given our business strategy, operating environment, capital, liquidity and performance objectives, and for managing this risk consistent with the guidelines approved by the Board of Directors. Senior management monitors the level of interest rate risk on a regular basis and the Asset/Liability Committee, which consists of senior management and outside directors operating under a policy adopted by the Board of Directors, meets as needed to review our asset/liability policies and interest rate risk position. Quantitative Analysis. The following table presents the Companyâ€™s net portfolio value (â€™NPVâ€™). These calculations were based upon assumptions believed to be fundamentally sound, although they may vary from assumptions utilized by other financial institutions. The information set forth below is based on data that included all financial instruments as of JuneÂ 30, 2024. Assumptions have been made by the Company relating to interest rates, loan prepayment rates, core deposit duration, and the market values of certain assets and liabilities under the various interest rate scenarios. Actual maturity dates were used for fixed rate loans and certificate accounts. Investment securities were scheduled at either the maturity date or the next scheduled call date based upon managementâ€™s judgment of whether the particular security would be called in the current interest rate environment and under assumed interest rate scenarios. Variable rate loans were scheduled as of their next scheduled interest rate repricing date. The NPV at â€™PARâ€™ represents the difference between the Companyâ€™s estimated value of assets and estimated value of liabilities assuming no change in interest rates. The NPV for an increase of 200 to 300 basis points has been excluded since it would not be meaningful in the interest rate environment as of JuneÂ 30, 2024. The following sets forth the Companyâ€™s NPV as of June 30, 2024. NPV as a % of Assets Change in calculation Net Portfolio Value % Change from PAR % Change from PAR NPV Ratio Change (Dollars in Thousands)+100bp \$ 353,848Â (30,519) (7.84)% 9.99Â % (0.65)%PAR 389,367Â - 0.00 10.64Â 0.00 -100bp 420,020Â 30,853Â 7.92Â 11.26Â 0.62Â -200bp 435,823Â 46,456Â 11.93Â 11.48Â 0.84Â -300bp 447,203Â 57,836Â 14.85Â 11.57Â 0.93Â bps-basis point The table above indicates that at JuneÂ 30, 2024, in the event of a 100-basis point decrease in interest rates, we would experience an 0.62 percent increase in NPV, as compared to a 0.66 percent increase at DecemberÂ 31, 2023. Certain shortcomings are inherent in the methodology used in the above interest rate risk measurement. Modeling changes in NPV require making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the NPV table presented assumes that the composition of our interest-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration or repricing of specific assets and liabilities. Accordingly, although the NPV table provides an indication of our interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on our net interest income, and will differ from actual results.Â ITEMÂ 4. Controls and Procedures Under the supervision and with the participation of the Companyâ€™s management, including the Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this quarterly report, the Companyâ€™s disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the SECâ€™s rules and forms. There was no change to our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Â 34 PART II. OTHER INFORMATION ITEMÂ 1. LEGAL PROCEEDINGS We are involved, from time to time, as plaintiff or defendant in various legal actions arising in the normal course of business. As of June 30, 2024, we were not involved in any material legal proceedings the outcome of which, if determined in a manner adverse to the Company, would have a material adverse effect on our financial condition or results of operations. Â ITEMÂ 1.A. RISK FACTORS There have been no material changes to the risk factors set forth under the Part I, Item 1.A. Risk Factors as set forth in the Companyâ€™s Annual Report on Form 10-K for the year ended December 31, 2023. ITEMÂ 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS None. ITEMÂ 3. DEFAULTS UPON SENIOR SECURITIES Not applicable. ITEMÂ 4. MINE SAFETY DISCLOSURES Not applicable. ITEMÂ 5. OTHER INFORMATION Not applicable. Â 35 ITEMÂ 6. Prior year periods have not been restated. X - DefinitionThe net increase(decrease) in interest income from the amortization and accretion of net deferred loan origination fees and cost and premiums and discounts on debt security purchases. The amortization and accretion is recognized using the effective interest method over the term of the debt arrangement to which they pertain taking into account the effect of prepayments. As a noncash item, this element is an adjustment to net income when calculating cash provided by or used in operations using the indirect method. + ReferencesNo definition available. + Details Name: bcbp_AmortizationAndAccretionNet Namespace Prefix: bcbp_ Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: duration X - DefinitionProceeds From Federal Home Loan Bank Borrowings Short Term + ReferencesNo definition available. + Details Name: bcbp_ProceedsFromFederalHomeLoanBankBorrowingsShortTermNet Namespace Prefix: bcbp_ Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: duration X - DefinitionThe cash inflow from the sale of portfolio loans. + ReferencesNo definition available. + Details Name: bcbp_ProceedsFromSaleOfPortfolioLoans Namespace Prefix: bcbp_ Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap_AdjustmentsToReconcileNetIncomeLossToCashProvidedByUsedInOperatingActivitiesAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionEarnings on or other increases in the value of the cash surrender value of bank owned life insurance policies. + ReferencesReference 1: <http://fasb.org/us-gaap/role/ref/legacyRef> -Topic 942 -SubTopic 220 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.9-04.13) -Publisher FASB -URI <https://asc.fasb.org//1943274/2147483589/942-220-S99-1> + Details Name: us-gaap_BankOwnedLifeInsuranceIncome Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: duration X - DefinitionAmount of cash and cash equivalents, and cash and cash equivalents restricted to withdrawal or usage. (the “Company”) is incorporated in the State of New Jersey and is a bank holding company. The common stock of the Company is listed on the NASDAQ Global Market and trades under the symbol “BCBP.” The Company’s primary business is the ownership and operation of BCB Community Bank (the “Bank”). The Bank is a New Jersey based commercial bank which, as of June 30, 2024, operated at 28 locations in Bayonne, Edison, Fairfield, Hoboken, Holmdel, Jersey City, Lyndhurst, Maplewood, Monroe Township, Newark, Parsippany, Plainsboro, South Orange, River Edge, Rutherford, Union, and Woodbridge New Jersey, as well as Staten Island and Hicksville, New York and is subject to regulation, supervision, and examination by the New Jersey Department of Banking and Insurance and the Federal Deposit Insurance Corporation. The Bank is principally engaged in the business of attracting deposits from the general public and using these deposits, together with borrowed funds, to invest in securities and to make loans collateralized by residential and commercial real estate and, to a lesser extent, business and consumer loans. BCB Holding Company Investment Corp. (the “New Jersey Investment Company”) was organized in January 2005 under New Jersey law as a New Jersey investment company primarily to hold investment and mortgage-backed securities. As a part of the merger with IA Bancorp, Inc., the Company acquired Special Asset REO 1, LLC and Special Asset REO 2, LLC. Special Asset REO 2 was inactive at June 30, 2024. The Bank changed the name of Special Asset REO 1, LLC to BCB Capital Finance Group, LLC in November 2023. The consolidated financial statements which include the accounts of the Company and its wholly-owned subsidiaries have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”). All significant intercompany accounts and transactions have been eliminated in consolidation. The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Regulation S-X and, therefore, do not necessarily include all information that would be included in audited consolidated financial statements. The information furnished reflects all adjustments that are, in the opinion of management, necessary for a fair presentation of consolidated financial condition and results of operations. All such adjustments are of a normal recurring nature. These results are not necessarily indicative of the results to be expected for the fiscal year ending December 31, or any other future period. The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the periods then ended. Actual results could differ significantly from those estimates. These unaudited consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and related notes for the year ended December 31, 2023, which are included in the Company’s Annual Report on Form 10-K as filed with the Securities and Exchange Commission (the “SEC”). In preparing these consolidated financial statements, the Company evaluated the events and transactions that occurred between December 31, 2023 and the date these consolidated financial statements were issued. Risks and Uncertainties - The occurrence of events which adversely affect the global, national and regional economies may have a negative impact on our business. Like other financial institutions, our business relies upon the ability and willingness of our customers to transact business with us, including banking, borrowing and other financial transactions. A strong and stable economy at each of the local, federal and global levels is often a critical component of consumer confidence and typically correlates positively with our customers’ ability and willingness to transact certain types of business with us. Local and global events outside of our control which disrupt the New Jersey, New York, United States and/or global economy may therefore negatively impact our business and financial condition. A public health crisis such as the COVID-19 pandemic is no exception, and its adverse health and economic effects may adversely impact our business and financial condition. The amendments in this update eliminate the existing accounting guidance for troubled debt restructurings (“TDRs”) by creditors in Subtopic 310-40, Receivables - Troubled Debt Restructurings by Creditors and instead requires that an entity evaluate whether a modification represents a new loan or a continuation of an existing loan. The amendments also enhance disclosure requirements for certain loan refinancing and restructuring by creditors when a borrower is experiencing financial difficulty. All amendments in this update are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company adopted ASU 2022-02 on January 1, 2023. The adoption of this standard did not have a material effect on the Company’s financial statements. In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (“ASU 2016-13”), and related guidance, requires entities to report expected credit losses on financial instruments and other commitments to extend credit rather than the current incurred loss model. The Company adopted ASU 2016-13 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective method. Results for the twelve months ended December 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments—Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1, 2023, the Company recorded a \$4.2 million decrease in allowance for credit losses on loans that is referred to as the current expected credit loss (“CECL”) methodology (previously allowance for loan losses), an elimination of \$1.1 million of reserves related to acquired loans, and a \$1.3 million increase related to allowance for off-balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of \$2.9 million and an increase to retained earnings a component of the stockholders’ equity (net of tax). Allowance for Credit Losses The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other

liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met.Â A Allowance for Credit Losses on Loans ReceivableThe allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis.Â Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off. The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 â€ Loan Receivables and Allowance for Credit Losses. Individually Evaluated LoansOn a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.Allowance for Credit Losses on Off-Balance Sheet CommitmentsThe Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations. Allowance for Credit Losses on Available-for-Sale SecuritiesFor available-for-sale securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more than likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the securityâ€™s amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors.Â A If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rate by major agencies and have a long history of no credit losses.Accrued Interest ReceivableThe CompanyÂ made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans and available-for-sale securities. Accrued interest receivable on loans and securities is reported as a component of accrued interest receivable on the consolidated statement of financial condition. Common Share Note 5 æ€ Net Income per Common Share Basic net income per common share is computed by dividing net income less dividends on preferred stock by the weighted average number of shares of common stock outstanding. The diluted net income per common share is computed by adjusting the weighted average number of shares of common stock outstanding to include the effects of outstanding stock options, if dilutive, using the treasury stock method. Dilution is not applicable in periods of net loss. For the three and six months ended June 30, 2024, 2023 and 2022, the difference in the weighted average number of basic and diluted common shares was due solely to the effects of outstanding stock options. There were 896,000 and 588,000 outstanding options considered to be anti-dilutive for the three months ended June 30, 2024 and 2023, respectively. There were 888,000 and 6,600 outstanding options considered to be anti-dilutive for the six months ended June 30, 2024 and 2023, respectively. There were no outstanding options considered to be anti-dilutive for the three and six months ended June 30, 2022. The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations: For the Three Months Ended June 30, 2024 2023 2022 Income Shares Per Share Income Shares Per Share Income Shares Per Share (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (In Thousands, except per share data) Basic earnings per share: Income available to common stockholders \$ 2,369 17,005 \$0.14 \$ 8,430A 16,824A \$0.50 \$ 10,025A 16,997A \$0.59A Effect of dilutive securities: Stock options - - - 7A - 407A Diluted earnings per share: Income available to common stockholders \$ 2,369 17,005 \$0.14 \$ 8,430A 16,831A \$0.50 \$ 10,025A 17,404A \$0.58A For the Six Months Ended June 30, 2024 2023 2022 Income Shares Per Share Income Shares Per Share Income Shares Per Share (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (Numerator) (Denominator) Amount (In Thousands, except per share data) Basic earnings per share: Income available to common stockholders \$ 7,801 16,968 \$0.46 \$ 16,363A 16,886A \$0.97 \$ 19,701A 16,989A \$1.16 Effect of dilutive securities: Stock options - - - 124A - 386A Diluted earnings per share: Income available to common stockholders \$ 7,801 16,968 \$0.46 \$ 16,363A 17,010A \$0.96 \$ 19,701A 17,375A \$1.13 X - ReferencesNo definition available. + Details Name: us-gaap_EarningsPerShareAbstract Namespace Prefix: us-gaap_Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for earnings per share. + ReferencesReference 1: [http://www.xbrl.org/2003/role/disclosureRef - Topic 260 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 1 - Subparagraph \(c\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482662/260-10-50-1](http://www.xbrl.org/2003/role/disclosureRef - Topic 260 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 1 - Subparagraph (c) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482662/260-10-50-1)Reference 2: <http://www.xbrl.org/2003/role/disclosureRef - Topic 260 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Publisher FASB - URI https://asc.fasb.org/1943274/2147482662/260-10-50-2>Reference 4: <http://www.xbrl.org/2003/role/disclosureRef - Topic 260 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 3 - Publisher FASB - URI https://asc.fasb.org/1943274/2147482662/260-10-50-3> + Details Name: us-gaap_EarningsPerShareTextBlock Namespace Prefix: us-gaap_Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration XML 24 R14.htm IDEA: XBRL DOCUMENT v3.24.2.u1 Securities 6 Months Ended Jun. 30, 2024 Securities [Abstract] A Securities Note 6 - Securities Equity Securities Equity securities are defined to include (a) preferred, common and other ownership interests in entities including partnerships, joint ventures and limited liability companies and (b) rights to acquire or dispose of ownership interest in entities at fixed or determinable prices. [a2Z Note 7 - Loans Receivable and Allowance for Credit Losses \(Continued\)](#) Modifications The Company adopted Accounting Standards Update ([a2ZASUa2Z](#)) 2022-02, Financial Instruments - Credit Losses (Topic 326) Troubled Debt Restructurings and Vintage Disclosures ([a2ZASU 2022-02a2Z](#)) effective January 1, 2023. The amendments in ASU 2022-02 eliminated the recognition and measurement of troubled debt restructurings and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty. The following table shows the amortized cost basis of loans modified to borrowers experiencing financial difficulty, disaggregated by loan category and type of concession granted for the three and six months ended June 30, 2024. For the three months ended June 30, 2024 (In Thousands) Number Payment Delay Term Extension Total Principal % of Total Class of Financing ReceivableBusiness Express 80A \$ - \$ 17,536A \$ 17,536A 17.46A % For the Six Months Ended June 30, 2024 (In Thousands) Number Payment Delay Term Extension Total Principal % of Total Class of Financing ReceivableResidential one-to-four family 1A \$ 177A \$ 177A 0.07A %Business Express 80A - 17,536A 17,536A 17.46A 81A \$ 177A \$ 17,536A \$ 17,713A 0.55A % The following table presents loan modifications made during 2024 by payment status as of June 30, 2024. For the Six Months Ended June 30, 2024 (In Thousands) Current 30-59 Days Past Due 60-90 Days Past Due Non-accrual TotalResidential one-to-four family\$ - \$ - \$ 177A \$ 177A Business Express 17,333A - 203A 17,536A \$ 17,333A \$ - \$ 380A \$ 17,713A The Company monitors the performance of loans modified to borrowers experiencing financial difficulty to understand the effectiveness of the modification efforts. The loans modified during the six months ended June 30, 2024 were current with payments. The Company did not have any loans that were both experiencing financial difficulty and modified during the six months ending June 30, 2023. [Note 7 - Loans Receivable and Allowance for Credit Losses \(Continued\)](#) The tables below set forth the amounts and types of non-accrual loans in the Bank's loan portfolio at June 30, 2024 and December 31, 2023, respectively. Loans are placed on non-accrual status when they become more than 90 days delinquent, or when the collection of principal and/or interest become doubtful. As of June 30, 2024 and December 31, 2023, non-accrual loans differed from the amount of total loans past due 90 days due to loans that were previously 90 days past due both of which are maintained on nonaccrual status for a minimum of six months until the borrower has demonstrated their ability to satisfy the terms of the loan. As of June 30, 2024 (in thousands) Nonaccrual loans with an Allowance for Credit Losses Nonaccrual loans without an Allowance for Credit Losses Total Nonaccrual loans Amortized Cost of Loans Past due 90 days and Still AccruingResidential one-to-four family\$ - \$ 350A \$ 350A \$ - Commercial and multi-family 2,029A 25,767A 27,796A - Construction - 586A 586A 577A Commercial business (1) 1,544A 1,926A 3,470A - Business express loans 203A - 203A - Home equity (2) - 43A 43A - Consumer - - - - - Total\$ 3,776A \$ 28,672A \$ 32,448A \$ 577A (1) Excludes Business express loans.(2) Includes home equity lines of credit. As of December 31, 2023 (in thousands) Nonaccrual loans with an Allowance for Credit Losses Nonaccrual loans without an Allowance for Credit Losses Total Nonaccrual loans Amortized Cost of Loans Past due 90 days and Still AccruingResidential one-to-four family\$ - \$ 270A \$ 270A \$ - Commercial and multi-family 2,029A 6,655A 8,684A - Construction 2,312A 1,980A 4,292A - Commercial business (1) 2,050A 2,892A 4,942A - Business express loans 549A - 549A - Home equity (2) - 46A 46A - Total\$ 6,940A \$ 11,843A \$ 18,783A \$ - (1) Excludes Business express loans.(2) Includes home equity lines of credit. Had non-accrual loans been performing in accordance with their original terms, the interest income recognized for the six months ended June 30, 2024 and the twelve months ended December 31, 2023 would have been approximately \$2.8 million and \$1.9 million, respectively. Interest income recognized on loans returned to accrual was approximately \$1.1 million and \$314,000, respectively. The Bank has not committed to lend additional funds to the borrowers whose loans have been placed on nonaccrual status. At June 30, 2024, there were \$577,000 loans more than ninety days past due and still accruing interest. At December 31, 2023 there were no loans more than ninety days past due and still accruing interest. [a2Z Note 7 - Loans Receivable and Allowance for Credit Losses \(Continued\)](#) Criticized and Classified Assets Company's policies provide for a classification system for problem assets. Under this classification system, problem assets are classified as [a2Zsubstandard](#), [a2Zdoubtful](#), [a2Zloss](#). The Company's internal credit risk grades are based on the definitions currently utilized by the banking regulatory agencies. A The grades assigned and definitions are as follows, and loans graded excellent, above average, good and watch list (risk ratings 1-5) are treated as [a2Zpass](#) for grading purposes. The [a2Zcriticized](#) risk rating (6) and the [a2Zclassified](#) risk ratings (7-9) are detailed below: 6 [a2Z](#) Special Mention - Loans currently performing but with potential weaknesses including adverse trends in borrower's operations, credit quality, financial strength, or possible collateral deficiency. 7 [a2Z](#) Substandard - Loans that are inadequately protected by current sound worth, paying capacity, and collateral support. Loans on [a2Znonaccrual](#) status. The loan needs special and corrective attention. 8 [a2Z](#) Doubtful - Weaknesses in credit quality and collateral support make full collection improbable, but pending reasonable factors remain sufficient to defer the loss status. 9 [a2Z](#) Loss - Continuance as a bankable asset is not warranted. However, this does not preclude future attempts at partial recovery. [a2Z Note 7 - Loans Receivable and Allowance for Credit Losses \(Continued\)](#) The following table summarizes the Company's loans by year of origination and internally assigned credit risk rating at JuneA 30, 2024 and gross charge-offs for the six months ended June 30, 2024. The initial recording of goodwill and other intangible assets requires subjective judgments concerning estimates of the fair value of the acquired assets and assumed liabilities. Goodwill is not amortized but is subject to annual tests for impairment or more often if events or circumstances indicate it may be impaired. There was no amortization expense of the core deposit intangibles for the six months ended June 30, 2024. Amortization expense of the core deposit intangibles was \$59,000 and \$25,000 for the six months ended JuneÂ 30, 2023 and 2022, respectively. The unamortized balance of the core deposit intangibles and the amount of goodwill at JuneÂ 30, 2024 was \$0 and \$5.2Â million, respectively. The unamortized balance of the core deposit intangibles and the amount of goodwill at JuneÂ 30, 2023 was \$70,000 and \$5.2Â million, respectively. The Companyâ€™s core deposit intangibles are amortized on an accelerated basis using an estimated life of 10 years and in accordance with U.S. GAAP are evaluated annually for impairment. An impairment loss will be recognized if the carrying amount of the intangible asset is not recoverable and exceeds fair value. The carrying amount of the intangible asset is not considered recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use of the asset. The Company conducts impairment analysis on goodwill at least annually or more often as conditions require. Pursuant to ASC 350-20-35, the Company conducted a qualitative assessment of goodwill as of October 31, 2023, and determined that it was more likely than not that goodwill was not impaired. Accordingly, there was no impairment at December 31, 2023. The Company believes that the fair values of its goodwill was in excess of its carrying amounts and there was no impairment at June 30, 2024. â€Z X - ReferencesNo definition available. + Details Name: us-gaap GoodwillAndIntangibleAssetsDisclosureAbstract Namespace Prefix: us-gaap Data Type: xbrli:stringItem Type Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for goodwill and intangible assets. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 350 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/350/tableOfContent + Details Name: us-gaap GoodwillAndIntangibleAssetsDisclosureTextBlock Namespace Prefix: us-gaap Data Type: dtr-types:textBlockItem Type Balance Type: na Period Type: duration XML 29 R19.htm IDEA: XBRL DOCUMENT v3.24.2.u1 Fair Values of Financial Instruments 6 Months Ended Jun. 30, 2024 Fair Values of Financial Instruments [Abstract] A Fair Values of Financial Instruments Note 11 â€ Fair Values of Financial Instruments Guidance on fair value measurements establishes a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows: Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability. Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported with little or no market activity). An asset or liabilityâ€™s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. A Assets that the Company measured at fair value on a recurring basis were as follows (In thousands): A A (Level 1) A A (Level 2) A A Quoted A Prices A Significant (Level 3) Active Markets Other Significant for Identical Observable UnobservableDescription Total Assets Inputs InputsAs of June 30, 2024: A A A A A A Securities A A A A A A Debt Securities Available for Sale \$ 85,964 \$ - \$ 85,964 \$ - \$ 87,769 \$ - \$ 87,769 \$ - Marketable Equities 9,001 9,001 - -Total Securities \$ 94,965 \$ 9,001 \$ 85,964 \$ - As of December A 31, 2023: A A A A A A Securities A A A A A A Debt Securities Available for Sale \$ 87,769 \$ - \$ 87,769 \$ - Marketable Equities 9,093 9,093 - -Total Securities \$ 96,862 \$ 9,093 \$ 87,769 \$ - There were no transfers of assets or liabilities into or out of Level 1, Level 2, or Level 3 of the fair value hierarchy during the three months ended June 30, 2024 and 2023.â€Zâ€Z There were no liabilities measured at fair value on a recurring basis at June 30, 2024 or December 31, 2023. Assets that the Company measured at fair value on a nonrecurring basis were as follows (In thousands): A A (Level 1) A A (Level 2) A A Quoted A Prices A Significant (Level 3) Active Markets Other Significant for Identical Observable UnobservableDescription Total Assets Inputs InputsAs of June 30, 2024 A A A A A A Individually Evaluated Loans \$ 21,466 A A - A A - A A \$ 21,466 A Loans held for sale \$ 35,187 A - \$ 35,187 A - As of December 31, 2023: A A A A A A Individually Evaluated Loans \$ 23,585 A \$ - \$ - \$ 23,585 â€Z Certain individually evaluated loans were adjusted to the fair value, less costs to sell, of the underlying collateral securing these loans resulting in losses. The loss is not recorded directly as an adjustment to current earnings, but rather as a component in determining the allowance for credit losses. Fair value was measured using appraised values of collateral and adjusted as necessary by management based on unobservable inputs for specific properties. Losses on individually evaluated loans for the three months ended June 30, 2024 and the twelve months ended December 31, 2023 were \$1.6 million and \$1.4 million, respectively. The fair value of loans held for sale was based on prices received from active buyers. Losses on these loans held for sale for the three and six months ended June 30, 2024 were \$4.6 million. There were no liabilities measured at fair value on a nonrecurring basis at June 30, 2024 or December 31, 2023. â€Z Note 11 â€ Fair Values of Financial Instruments (Continued) The following tables present additional quantitative information as of June 30, 2024 and December A 31, 2023 about assets measured at fair value on a nonrecurring basis and for which the Company has utilized adjusted Level 3 inputs to determine fair value. (Dollars in thousands): Quantitative Information about Level 3 Fair Value Measurements Fair ValueValuationUnobservable EstimateTechniquesInputRange June 30, 2024: Individually Evaluated Loans\$ 21,466Appraisal of collateral (1)Appraisal adjustments (2)0%-10% Fair ValueValuationUnobservable EstimateTechniquesInputRange December 31, 2023: Individually Evaluated Loans\$ 23,585 A Appraisal of collateral (1)Appraisal adjustments (2)0%-10% (1)Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various level 3 inputs which are not objectively determinable.(2)Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal. The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Companyâ€™s assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Companyâ€™s disclosures and those of other companies may not be meaningful. The following methods and assumptions were used to estimate the fair values of the Companyâ€™s financial instruments as of June 30, 2024 and December A 31, 2023. Cash and Cash Equivalents and Interest-Earning Time Deposits (Carried at Cost) The carrying amounts reported in the consolidated statements of financial condition for cash and short-term instruments approximate fair values. Securities (Carried at Fair Value) The fair value of securities is determined by obtaining quoted market prices on nationally recognized security exchanges (Level 1) or, by matrix pricing (Level 2), which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securitiesâ€™ relationship to other benchmark quoted prices. Loans Held for Sale (Lower of Cost or Market) The fair value of loans held for sale is determined, when possible, using quoted secondary-market prices. If no such quoted prices exist, the fair value of a loan is determined using quoted prices for a similar loan or loans, adjusted for specific attributes of that loan. Loans held for sale are carried at the lower of cost or fair value. Loans Receivable (Carried at Cost) The fair values of loans, except for certain individually evaluated loans, are estimated using discounted cash flow analyses, using market rates at the date of the Statement of Financial Condition that reflect the credit and interest rate-risk inherent in the loans. Projected future cash flows are calculated based upon contractual maturity or call dates, projected repayments and prepayments of principal. Generally, for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. Individually Evaluated Loans (Generally Carried at Fair Value) Individually evaluated loans are those for which the Company has measured and recorded credit losses based on the fair value of the loanâ€™s collateral, less estimated costs to sell. Fair value is generally determined based upon independent third-party appraisals of the properties, or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. The fair value at June 30, 2024 and December A 31, 2023 consisted of the loan balances of \$27.8Â million net of an allowance for credit losses of \$6.3Â million and \$27.8Â million net of an allowance for credit losses of \$4.2Â million, respectively. Other Real Estate Owned (Generally Carried at Lower of Cost or Fair Value) Other real estate owned is generally carried at fair value less estimated costs to sell which is determined based upon independent third-party appraisals of the properties or based upon the expected proceeds from a pending sale. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. FHLB of New York Stock (Carried at Cost) The carrying amount of restricted investment in bank stock approximates fair value and considers the limited marketability of such securities. Accrued Interest Receivable and Payable (Carried at Cost) The carrying amount of accrued interest receivable and accrued interest payable approximates its fair value. Deposits (Carried at Cost) The fair values disclosed for demand deposits (e.g., interest and non-interest checking, savings and money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered in the market on certificates to a schedule of aggregated expected monthly maturities on time deposits. Note 11 â€ Fair Values of Financial Instruments (Continued) Debt Including Subordinated Debentures (Carried at Cost) Fair values of debt are estimated using discounted cash flow analysis, based on quoted prices for new long-term debt with similar credit risk characteristics, terms and remaining maturity. Prices obtained from this active market represent a market value that is deemed to represent the transfer price if the liability were assumed by a third party. Off-Balance Sheet Financial Instruments Fair values for the Companyâ€™s off-balance sheet financial instruments (lending commitments and unused lines of credit) are based on fees currently charged in the market to enter into similar agreements, taking into account, the remaining terms of the agreements and the counterpartiesâ€™ credit standing. The fair value of these commitments was deemed immaterial and is not presented in the accompanying table. A The carrying values and estimated fair values of financial instruments were as follows as of June 30, 2024 and December A 31, 2023: A As of June 30, 2024 Quoted Prices in Active Significant Significant Carrying Markets for Identical Assets Other Observable Inputs Unobservable Inputs Value Fair Value (Level 1) (Level 2) (Level 3) A A (In Thousands)Financial assets: A A A A A A Cash and cash equivalents \$ 326,870 A \$ 326,870 A A \$ 326,870 A A \$ - -Interest-earning time deposits 735 A 735 A A - A 735 A -Debt securities available for sale 85,964 A 85,964 A - 85,964 A - Equity investments 9,001 A 9,001 A A 9,001 A A - -Loans held for sale 35,187 A 35,187 A A - A 35,187 A -Loans receivable, net 3,161,925 A 3,027,155 A A - A - 3,027,155FHLB of New York stock, at cost 25,001 A 25,001 A A 25,001 A -Accrued interest receivable 16,576 A 16,576 A A - A 16,576 A - Financial liabilities: A A A A A A Deposits 2,935,239 A 2,929,285 A A 2,136,804 A 792,481 -Borrowings 473,086 A 474,207 A - A 474,207 -Subordinated debentures 37,624 A 34,880 - 34,880 -Accrued interest payable 4,974 A 4,974 A - A - 4,974 A - As of December 31, 2023 Quoted Prices in Active Significant Significant Carrying Markets for Identical Assets Other Observable Inputs Unobservable Inputs Value Fair Value (Level 1) (Level 2) (Level 3) A A (In Thousands)Financial assets: A A A A A A Cash and cash equivalents \$ 279,523 \$ 279,523 A \$ - \$ - -Interest-earning time deposits 735 A 735 A A - A 735 A - Debt securities available-for-sale 87,769 87,769 - 87,769 -Equity investments 9,093 9,093 A 9,093 A - -Loans held for sale 1,287 1,287 A - A 1,287 -Loans receivable, net 3,279,708 3,112,980 A A - 3,112,980FHLB of New York stock, at cost 24,917 24,917 A - A 24,917 -Accrued interest receivable 16,072 16,072 A - A 16,072 - Financial liabilities: A A A A A A Deposits 2,979,080 2,978,654 A 2,120,514 A 858,140 -Debt 472,811 472,184 A - A 472,184 -Subordinated debentures 37,624 39,299 - 39,299 -Accrued interest payable 5,777 5,777 A - A 5,777 - â€Z X - ReferencesNo definition available. + Details Name: us-gaap FairValueDisclosuresAbstract Namespace Prefix: us-gaap Data Type: xbrli:stringItem Type Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for the fair value of financial instruments (as defined), including financial assets and financial liabilities (collectively, as defined), and the measurements of those instruments as well as disclosures related to the fair value of non-financial assets and liabilities. The Notes have a 10-year term and bore an interest at a fixed annual rate of 5.625% for the first five years of the term (the "Fixed Interest Rate Period"). On August A 1, 2023, the interest rate was scheduled to adjust to a floating rate based on the three-month LIBOR plus 2.72% until redemption or maturity (the "Floating Interest Rate Period"). However, LIBOR was replaced as the benchmark rate per the discussion below. The Notes are scheduled to mature on August A 1, 2028. The Company will pay interest in arrears quarterly during the remaining term of the Notes. The Notes constitute an unsecured and subordinated obligation of the Company and rank junior in right of payment to any senior indebtedness and obligations to general and secured creditors. The Notes qualify as Tier 2 capital for the Company for regulatory purposes, when applicable, and the portion that the Company contributes to the Bank will qualify as Tier 1 capital for the Bank. The additional capital is used for general corporate purposes including organic growth initiatives. Subordinated debt included associated deferred costs of \$116,000 which were fully amortized during the year ended December 31, 2023. The Company also has \$4.1 million of mandatory redeemable trust preferred securities. The interest rate on these floating rate junior subordinated debentures adjusts quarterly and had been equal to the three-month LIBOR plus 2.65%. They mature on June 17, 2034. In accordance with the Adjustable Interest Rate (LIBOR) Act (the â€LIBOR Actâ€) and the regulation issued by the Board of Governors of the Federal Reserve System implementing the LIBOR Act, the Company has selected the three-month CME Term Secured Overnight Financing Rate (â€SOFRâ€) as the applicable successor rate for both the Notes and the trust preferred securities. The calculation of the amount of interest payable, based on the three-month CME Term SOFR, will also include the applicable tenor spread adjustment of 0.26161% per annum as specified in the LIBOR Act. At June 30, 2024, the interest rate for the subordinated debentures and trust preferred securities was 8.308% and 8.251%, respectively. The information furnished reflects all adjustments that are, in the opinion of management, necessary for a fair presentation of consolidated financial condition and results of operations. All such adjustments are of a normal recurring nature. These results are not necessarily indicative of the results to be expected for the fiscal year ending DecemberÂ 31, or any other future period. The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (Â€œGAAPÂ€) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the periods then ended. Actual results could differ significantly from those estimates. These unaudited consolidated financial statements should be read in conjunction with the Companyâ€™s audited consolidated financial statements and related notes for the year ended DecemberÂ 31, 2023, which are included in the Companyâ€™s Annual Report on Form 10-K as filed with the Securities and Exchange Commission (the Â€œSECÂ€). In preparing these consolidated financial statements, the Company evaluated the events and transactions that occurred between DecemberÂ 31, 2023 and the date these consolidated financial statements were issued. The amendments inÂ this update eliminate the existing accounting guidance for troubled debt restructuringsÂ (“TDRs”) by creditors in Subtopic 310-40, Receivables - Troubled Debt Restructurings byÂ Creditors and instead requires that an entity evaluate whether a modification represents aÂ new loan or a continuation of an existing loan. The amendments also enhance disclosure requirements for certain loan refinancing and restructuring by creditors when a borrowerÂ is experiencing financial difficulty. All amendments in this update are effective for fiscalÂ years beginning after December 15, 2022, including interim periods within those fiscal years. The Company adopted ASU 2022-02 on January 1, 2023. The adoption of this standard did not have a material effect on the Company’s financial statements. In June 2016, the FASB issued ASU 2016-13, Financial Instruments-Â Credit Losses ASU 2016-13, and related guidance, requires entities to report Â€œexpectedÂ credit losses on financial instruments and other commitments to extend credit rather than the current Â€œincurred lossÂ€ model. The Company adopted ASU 2016-13 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective method. Results for the twelve months ended December 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments Â€ Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1, 2023, the Company recorded a $4.2 million decrease in allowance for credit losses on loans that is referred to as the current expected credit loss (Â€œCECLÂ€) methodology (previously allowance for loan losses), an elimination of $1.1 million of reserves related to acquired loans, and a $1.3 million increase related to allowance for off-balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of $2.9 million and an increase to retained earnings a component of the stockholdersâ€™ equity (net of tax). Allowance for Credit Losses The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met.Â Â Allowance for Credit Losses on Loans ReceivableThe allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis.Â Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off. The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 Â€ Loan Receivables and Allowance for Credit Losses. Individually Evaluated LoansOn a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.Allowance for Credit Losses on Off-Balance Sheet CommitmentsThe Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations. Allowance for Credit Losses on Available-for-Sale SecuritiesFor available-for-sale securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more than likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the securityâ€™s amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors.Â Â If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rate by major agencies and have a long history of no credit losses.Accrued Interest ReceivableThe CompanyÂ made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans and available-for-sale securities. Accrued interest receivable on loans and securities is reported as a component of accrued interest receivable on the consolidated statement of financial condition. Troubled debt restructurings ("TDRs") by creditors

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses," which requires entities to report expected credit losses on financial instruments and other commitments to extend credit rather than the current "incurred loss" model.

The Company adopted ASU 2016-13 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective transition method. Results for the twelve months ended December 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments - Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1, 2023, the Company recorded a \$4.2 million decrease in allowance for credit losses on loans that is referred to as the current expected credit loss ("CECL") methodology (previously allowance for loan losses), an elimination of \$1.3 million of reserves related to acquired loans, and a \$1.3 million increase related to allowance for off-balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of \$4.2 million and an increase to retained earnings a component of the stockholders' equity (net of tax).

The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met.

The allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis. Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off.

The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 - Loan Receivables and Allowance for Credit Losses.

Individually Evaluated Loans

On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.

Allowance for Credit Losses on Off-Balance Sheet Commitments

The Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations.

Accrued Interest Receivable

The Company first assesses whether it intends to sell, or it is more than likely that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major agencies and have a long history of no credit losses.

Recent Accounting Pronouncements

Accounting Standards Update ("ASU")

Accounting Standards Board ("FASB") issued ASU 2022-02, "Financial Instruments - Credit Losses," which requires entities to report expected credit losses on financial instruments and other commitments to extend credit rather than the current "incurred loss" model. The Company adopted ASU 2022-02 on January 1, 2023 for all financial assets measured at amortized cost and off-balance sheet credit exposures using the modified retrospective transition method. Results for the twelve months ended December 31, 2023 are presented under Accounting Standards Codification 326, Financial Instruments - Credit Losses, while prior period amounts continue to be reported with previously applicable GAAP and have not been restated. Effective January 1, 2023, the Company recorded a \$4.2 million decrease in allowance for credit losses on loans that is referred to as the current expected credit loss ("CECL") methodology (previously allowance for loan losses), an elimination of \$1.3 million of reserves related to acquired loans, and a \$1.3 million increase related to allowance for off-balance sheet credit exposures included in other liabilities section of the consolidated statements of financial condition, which resulted in a total cumulative effect adjustment of \$4.2 million and an increase to retained earnings a component of the stockholders' equity (net of tax).

The allowance for credit losses represents the estimated amount considered necessary to cover lifetime expected credit losses inherent in financial assets at the balance sheet date. The measurement of expected credit losses is applicable to loans receivable and securities measured at amortized cost. It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met.

The allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other loans, the Company will evaluate the loan on an individual basis. Individually evaluated loans are primarily non-accrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off.

The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 - Loan Receivables and Allowance for Credit Losses.

Individually Evaluated Loans

On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.

Allowance for Credit Losses on Off-Balance Sheet Commitments

The Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations.

Accrued Interest Receivable

The Company first assesses whether it intends to sell, or it is more than likely that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major agencies and have a long history of no credit losses.

It also applies to off-balance sheet credit exposures such as loan commitments and unused lines of credit. The allowance is established through a provision for credit losses that is charged against income. The methodology for determining the allowance for credit losses is considered a critical accounting policy by management because of the high degree of judgment involved, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment that could result in changes to the amount of the recorded allowance for credit losses. The allowance for credit losses is reported separately as a contra-asset on the consolidated statement of financial condition. The expected credit loss for unfunded lending commitments and unfunded loan commitments is reported on the consolidated statement of financial condition in other liabilities while the provision for credit losses related to unfunded commitments is reported in other non-interest expense. Changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed or when either of the criteria regarding intent or requirement to sell is met.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > Allowance for Credit Losses on Loans Receivable

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > The allowance for credit losses on loans is deducted from the amortized cost basis of the loan to present the net amount expected to be collected. Expected losses are evaluated and calculated on a collective, or pooled, basis for those loans which share similar risk characteristics. If the loan does not share risk characteristics with other

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > loans, the Company will evaluate the loan on an individual basis. Individually evaluated loans are primarily non-acrual and collateral dependent loans. Furthermore, the Company evaluates the pooling methodology at least annually to ensure that loans with similar risk characteristics are pooled appropriately. Loans are charged off against the allowance for credit losses when the Company believes the balances to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged off or expected to be charged off.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > The Company has chosen to segment its portfolio consistent with the manner in which it manages credit risk. The Company calculates estimated credit losses for these loan segments using quantitative models and qualitative factors. Further information on loan segmentation and the credit loss estimation is included in Note 7 – Loan Receivables and Allowance for Credit Losses.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: italic; font-weight: normal; margin: 0; padding: 0; > Individually Evaluated Loans

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: italic; font-weight: normal; margin: 0; padding: 0; > Allowance for Credit Losses on Off-Balance Sheet Commitments

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > The Company is required to include unfunded commitments that are expected to be funded in the future within the allowance calculation, other than those that are unconditionally cancelable. To arrive at that reserve, the reserve percentage for each applicable segment is applied to the unused portion of the expected commitment balance and is multiplied by the expected funding rate. As noted above, the allowance for credit losses on unfunded loan commitments is included in other liabilities on the consolidated statement of financial condition and the related credit expense is recorded in other non-interest expense in the consolidated statements of operations.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: bold; margin: 0; padding: 0; > On a case-by-case basis, the Company may conclude that a loan should be evaluated on an individual basis based on its disparate risk characteristics. When the Company determines that a loan no longer shares similar risk characteristics with other loans in the portfolio, the allowance will be determined on an individual basis using the present value of expected cash flows or, for collateral-dependent loans, the fair value of the collateral as of the reporting date, less estimated selling costs, as applicable. If the fair value of the collateral is less than the amortized cost basis of the loan, the Company will charge off the difference between the fair value of the collateral, less costs to sell at the reporting date and the amortized cost basis of the loan.

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: italic; font-weight: normal; margin: 0; padding: 0; > Allowance for Credit Losses on Available-for-Sale Securities

white-space:pre-wrap; font-family: 'Times New Roman', 'serif; font-size: 8pt; font-style: normal; font-weight: normal; margin: 0; padding: 0; > For available-for-sale securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more than likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major agencies and have a long history of no credit losses.

(1) Excludes Business express loans.

(2) Includes home equity lines of credit.

The Company engages a third-party vendor to assist in the CECL calculation and has established a robust internal governance framework to oversee the quarterly estimation process for the allowance for credit losses ("ACL"). The ACL calculation methodology relies on regression-based discounted cash flow ("DCF") models that correlate relationships between certain financial metrics and external market and macroeconomic variables.

Following are some of the key factors and assumptions that are used in the Company's CECL calculations:

a reasonable and supportable forecast period determined based on management's current review of macroeconomic environment.

based on probability of default and loss given default which are modeled based on macroeconomic scenarios.

c. estimated prepayment rates based on the Company's historical experience and future macroeconomic environment.

d. incorporation of qualitative factors not captured within the modeled results. The qualitative factors include but are not limited to changes in lending policies, business conditions, changes in the nature and size of the portfolio, portfolio concentrations, and external factors such as competition.

e. Allowance for credit losses are aggregated for the major loan segments, with similar risk characteristics, summarized below. However, for the purposes of calculating the reserves, these segments may be further broken down into loan classes by risk characteristics that include but are not limited to regulatory call codes, industry type, geographic location, and collateral type.

f. Commercial and multi-family real estate lending entails additional risks as compared with residential family property lending. Such loans typically involve large loan balances to single borrowers or groups of related borrowers. The payment experience on such loans is typically dependent on the successful operation of the real estate project. The success of such projects is sensitive to changes in supply and demand conditions in the market for commercial real estate as well as general economic conditions.

g. Construction lending is generally considered to involve a high risk due to the concentration of principal in a limited number of loans and borrowers and the effects of the general economic conditions on developers and builders. Moreover, a construction loan can involve additional risks because of the inherent difficulty in estimating both a property's value at completion of the project and the estimated cost (including interest) of the project. The nature of these loans is such that they are generally difficult to evaluate and monitor. In addition, speculative construction loans to a builder are not necessarily pre-sold and thus pose a greater potential risk to the Bank than construction loans to individuals on their personal residence.

h. Home equity lending entails certain risks such as interest rate risk and risk of non-repayment. The marketability of the underlying property may be adversely affected by higher interest rates, decreasing the collateral value securing the loan. Repayment risk can be affected by job loss, divorce, illness and personal bankruptcy of the borrower. Home equity line of credit lending entails securing an equity interest in the borrower's home. In many cases, the Bank's
