P3YP3YP5YP3YP5YP10YP5YP40Y26500000247000002460000Deferred Policy Acquisition Costs Deferred policy acquisition costs are limited to costs directly related to the successful acquisition of insurance contracts. Costs meeting this definition typically include, among other things, sales commissions paid to our distribution partners, premium taxes, and the portion of employee salaries and benefits directly related to time spent on acquired contracts. These costs are deferred and amortized over the life of the contracts.
 Accounting guidance requires a premium deficiency analysis to be performed at the level at which groupings of contracts are managed for purposes of its insurance contracts. We currently perform three premium deficiency analyses for our insurance operations, consistent with our reportable segments of Standard Commercial Lines, Standard Personal Lines, and E&S Lines. A combined ratio of over 100% does not necessarily indicate a premium deficiency, as any year's combined ratio includes a portion of underwriting expenses that are expensed at policy inception and therefore are not covered by the remaining unearned premium. In addition, investment income is not contemplated in the combined ratio calculation. There were no premium deficiencies for any of the reported years, as the sum of the anticipated loss and loss expense, unamortized acquisition costs, policyholder dividends, and other expenses for each segment did not exceed that segment's related unearned premium and anticipated investment income. The investment yields assumed in the premium deficiency assessment for each reporting period, which were based on our actual average investment yield, before tax, as of the September 30 calculation date, were 4.8% for 2024, 4.8% for 2023, and 3.5% for 2022.0.0480.0480.035Goodwill Goodwill results from business acquisitions where the cost of assets and liabilities acquired exceeds the fair value of those assets and liabilities. A quantitative goodwill impairment analysis is performed if our quarterly qualitative analysis indicates that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. Goodwill is allocated to the reporting units for purposes of these analyses. Based on our analysis at December 31, 2024, goodwill was not impaired. Reserve for Loss and Loss Expense Reserve for loss and loss expense includes case reserves on reported claims and reserves for incurred but not reported ("IBNR") losses. Case reserves are estimated for each individual claim based on the facts and circumstances known at the time. Case reserves may be adjusted up or down as the claim's facts and circumstances change. IBNR reserves are established at more aggregated levels and include provisions for (i) claims not yet reported, (ii) future development on reported claims, (iii) previously closed claims that could reopen in the future, and (iv) anticipated salvage and subrogation recoveries.
 We evaluate our reserves quarterly, through an in-depth reserve review process, and make adjustments to recorded reserves accordingly. The primary input we use to evaluate reserve levels is the quarterly reserve review prepared by our employee actuaries, which provides comprehensive loss and loss expense projections. We base our reviews primarily on our own loss experience, organized by line of business. Where sufficient statistical credibility exists, we may further segment the loss experience by coverage within a line, or geographic area. Generally accepted actuarial methodologies are applied to these reserve groups to produce ultimate loss and loss expense projections.
 Typically, we organize our experience by accident year and age, allowing various loss development methods to be applied. These methods rely on historical claims reporting and payment patterns to project ultimate loss or expense for open accident years. We also consider the initial expectation of ultimate losses, particularly for longer-tailed lines of business and the current accident year. Our detailed actuarial planning process develops the expectation for the current accident year, which is adjusted over time as actual experience emerges.
 These methods require judgment and numerous assumptions, like the selection of loss and loss expense development factors and the weight applied to each individual projection method. Consequently, no single method can be interpreted as definitive. Instead, ultimate loss and loss expenses are selected based on the various methods, considering the strengths and weaknesses of each applied to the specific line of business and accident year.
 Certain liabilities do not lend themselves to the application of loss development methods, such as property catastrophes (low frequency/high severity, unique events), latent claims (where losses are incurred over an extended period), and unallocated loss expenses (those unattributable to a specific claim). We use alternate estimation techniques for these liabilities, some of which are primarily exposure-based methods. These methods include individual claims reviews, calendar year counts and averages, aggregate benchmark measures, such as paid and incurred "survival ratios," and others. These approaches often require additional assumptions and a greater degree of professional judgment.
 The reserve review produces a set of ultimate loss and loss expense estimates by line of business, including current and prior accident years. The selected ultimate losses are separated into their components of claim frequency and severity, along with their associated trends, to provide additional insight. While these ultimate loss and loss expense estimates serve as the primary basis for determining the recorded IBNR reserves, other internal or external factors are considered in our overall reserve review. Internal factors include (i) changes to our underwriting or claims practices, (ii) supplemental data on claims reporting and settlement trends, (iii) the estimated value for reported claims, (iv) potential large complex claims, and (v) additional trends identified by claims personnel or defense counsel. External factors considered include (i) legislative and regulatory enactments, (ii) judicial trends and decisions, (iii) social trends, including the impacts of social inflation, and (iv) trends in general economic conditions, including the effects of inflation on medical costs, raw materials, and labor.
 The combination of IBNR estimates and case reserve estimates on individual claims results in our total reserve for loss and loss expense. These reserves are expected to be sufficient for settling unpaid loss and loss expense obligations under our policies, including changes in the (i) volume of business written, (ii) claims frequency and severity, (iii) mix of business, (iv) claims processing, and (v) other items that management expects to affect our ultimate settlement of loss and loss expense. However, our loss and loss expense reserves are estimates of future events for which the outcomes are unknown. They carry inherent uncertainty, driven by internal factors, such as changes to our claims or underwriting operations, or external factors, like legislative, judicial, economic, or social trends. Inherent randomness, such as the actual number of accidents/incidents or the occurrence or non-occurrence of a single large event, can also impact actual outcomes. Because of these uncertainties, the reserves established may differ materially from actual outcomes. While this risk cannot be eliminated, we review our reserves quarterly based on available information, and make appropriate adjustments to our ultimate loss and loss expense estimates. These changes in our ultimate loss and loss expense estimates are reflected in the Consolidated Statements of Income for the period in which such estimates are changed. Liability estimate changes could be material to the results of operations in future periods.
 Loss reserves are estimates, so we consider a range of possible loss and loss expense reserve estimates. This range is determined at the beginning of each year, using prior year-end data. We use a range because no single precise method for estimating the required reserves exists, as many factors may influence the amounts ultimately paid. We do not discount to present value that portion of our loss and loss expense reserves expected to be paid in future periods. Our loss and loss expense reserves implicitly include anticipated salvage and subrogation recoveries.
 Claims are counted by accurrence and by line of business and policy. For example, if a single occurrence (like an automobile accident) leads to a claim under an automobile and an associated umbrella policy, each claim is counted separately. Conversely, multiple claimants under the same occurrence/line/policy would constitute only one claim. Claim counts are on a reported basis and a claim is considered reported when a reserve is established or a loss payment is made. Claims closed without payment are included in the count if an associated case reserve was established at some point in the claim's life cycle. Revenue Recognition Premiums written are recognized as revenue over the period that coverage is provided using the semi-monthly pro-rata method. Unearned premiums and prepaid reinsurance premiums represent that portion of premiums written that are applicable to the unexpired terms of policies in force. The Insurance Subsidiaries' net premiums written ("NPW") include direct insurance policy writings, plus reinsurance assumed, less reinsurance ceded. Insureds' records within our workers compensation and general liability lines of business are subject to periodic audit for purposes of verifying premium amounts. This premium is referred to as audit premium and is billed or returned on policies subsequent to expiration based on exposure levels (i.e. payroll or sales). We estimate this premium when it is reasonably possible to do so based on historical trends adjusted for the uncertainty of future economic conditions. If we determine it is not reasonably possible to estimate this premium, we do not do so.Dividends to Policyholders We establish reserves for dividends to policyholders on certain policies, most significantly workers compensation policies. These dividends are based on the policyholders' loss experience. Dividend reserves are established based on past experience, adjusted for the effects of current developments and anticipated trends. The expense for these dividends is recognized over a period that begins at policy inception and ends with the payment of the dividend. We report these dividends within "Other insurance expenses" on the Consolidated Statement of Income. We do not issue policies that entitle the policyholder to participate in the statutory earnings or surplus of our Insurance Subsidiaries. Federal Income Tax We use the asset and liability method of accounting for income taxes. Current federal income tax expense or benefit is the amount payable or receivable for the current year. Deferred federal income taxes arise from changes during the year in temporary differences between the book and the tax basis of assets and liabilities. We consider all evidence, both positive and negative, with respect to our federal net operating and capital loss carryback availability, expected levels of pre-tax financial statement income, federal taxable income, liquidity, and prudent and reasonable tax planning strategies when evaluating whether the temporary differences will be realized. In projecting future taxable income, we begin with budgeted pre-tax income adjusted for estimated taxable and non-taxable items. The assumptions about future taxable income require significant judgment and are consistent with the plans and estimates we use to manage our businesses. A valuation allowance is established when it is more likely than not that some portion of the deferred tax asset will not be realized. The evaluation of a valuation allowance considers the character of the taxable income, ordinary income versus capital income. A liability for uncertain tax positions is recorded when it is more likely than not that a tax position will not be sustained upon examination by taxing authorities. The effect of a change in tax rates is recognized in the period of enactment. If we were to be levied interest and penalties by the Internal Revenue Service, these amounts would be recognized as a component of "Total federal income tax expense" on the Consolidated Statement of Income. LeasesWe have various operating leases for office space, equipment, and fleet vehicles. In addition, we have various finance leases for computer hardware. We determine if an arrangement is a lease on the commencement date of the contract. Lease assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments arising from the lease. The lease asset and liability are measured by the present value of the future minimum lease payments over the lease term. Our fleet vehicle leases include a residual value guarantee; however, the residual value guarantee is not probable of being owed. Therefore, there is no impact to the lease liability or lease asset. To measure the present value, we use the discount rate in the contract. If the discount rate is not readily determinable, our incremental borrowing rate is used. The lease asset is then adjusted to exclude lease incentives. We recognize variable lease payments in the periods in which the obligations for those payments are incurred. In calculating a lease liability, we include options to extend or terminate the lease if it is reasonably certain that we will exercise such option. Lease expense is calculated using the straight-line method. In addition, we have adopted accounting policy elections to: (i) aggregate lease and non-lease components into a single lease component; and (ii) expense short-term leases on a straight-line basis over the lease term.Pension Our pension obligations and related costs are calculated using actuarial methods, within the framework of GAAP. Our pension benefit obligation is determined as the actuarial present value of the vested benefits to which employees are currently entitled, based on the average life expectancy of the employees. Our funding policy provides that payments to our pension trust shall be equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"), plus additional amounts that may be approved from time to time.
 Two key assumptions, the benefit obligation discount rate and the expected return on plan assets, are important elements of expense and/or liability measurement. We evaluate these key assumptions annually unless facts indicate that a more frequent review is required. The discount rate enables us to state expected future cash flows at their present value on the measurement date. The purpose of the discount rate is to determine the interest rates inherent in the price at which pension benefits could be effectively settled. Our discount rate selection is based on high-quality, long-term corporate bonds. To determine the expected long-term rate of return on the plan assets, we consider the current and expected asset allocation, as well as historical and expected returns on each plan asset class. Other assumptions involve demographic factors such as retirement age and mortality. A portion of our plan assets is allocated to a liability hedging strategy through which we have an expectation that our plan assets will move in tandem with a portion of the plan liabilities, helping to mitigate funding ratio volatility. Adoption of Accounting Pronouncements In June 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2022-03, Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions ("ASU 2022-03"). ASU 2022-03 clarifies that a contractual sales restriction on an equity security is not considered when determining the security's fair value. This ASU was issued to eliminate diversity in practice by clarifying that contractual arrangements restricting an entity's ability to sell the security for a certain period of time is a characteristic of the reporting entity and should not be contemplated when determining the security's fair value. ASU 2022-03 requires new disclosures that provide investors with information about the restriction, including the nature and remaining duration of the restriction. The ASU is effective for annual periods beginning after December 15, 2023, including interim periods within those annual periods. We adopted this guidance on January 1, 2024 and it did not have a material impact to our financial condition or results of operations.
 In March 2023, the FASB issued ASU 2023-02, Investments — Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method ("ASU 2023-02"). This ASU allows companies to elect to account for qualifying tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. Companies were previously permitted to apply the proportional amortization method only to qualifying tax equity investments in low income housing tax credit structures. ASU 2023-02 extends the application of the proportional amortization method to qualifying tax equity investments that generate tax credits through other programs. It also requires new disclosures that provide a better understanding of the nature of the tax equity investments and the effect the tax equity investments and related income tax credits and other income tax benefits have on a company's financial position and results of operations. The ASU is effective for annual periods beginning after December 15, 2023, including interim periods within those fiscal years. We adopted ASU 2023-02 on January 1, 2024 and it did not have a material impact to our financial condition or results of operations.
 In November 2023, the FASB issued ASU 2023-07, Improvements to Reportable Segment Disclosures ("ASU 2023-07"). ASU 2023-07 amends disclosure requirements for segment reporting by modifying and adding disclosure requirements. The additional disclosure requirements include the following on both an interim and annual basis: (i) significant segment expenses that are regularly provided to the chief operating decision maker ("CODM"); (ii) amounts for "other segment items" by reportable segment and a description of its composition; and (iii) the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. In addition, ASU 2023-07 requires all annual disclosures about a reportable segment's profit or loss and assets currently required by Topic 280, Segment Reporting, to now be disclosed in interim periods. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. We adopted ASU 2023-07 for the annual period ending December 31, 2024. As ASU 2023-07 only requires additional disclosure, it did not have a material impact on our financial condition or results of operations.
 Pronouncements to be effective in the future In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 amends disclosure requirements to provide greater transparency on income taxes. The following additional disclosures are required annually: (i) specific required categories in the rate reconciliation, (ii) additional information for reconciling items that meet a quantitative threshold, (iii) the amount of income taxes paid disaggregated by jurisdiction, and (iv) income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. Amendments can be applied on a prospective basis; however, retrospective application is permitted. Early adoption is permitted. As ASU 2023-09 only requires additional disclosure, it will not have a material impact on our financial condition or results of operations.
 In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses ("ASU 2024-03"). ASU 2024-03 requires disaggregated disclosure of income statement expenses. This ASU does not change the expense captions currently presented on the income statement, rather it requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods within fiscal years beginning after December 15, 2027. This ASU can be applied on a prospective basis; however, retrospective application is permitted. Early adoption is permitted. As ASU 2024-03 only requires additional disclosure, it will not have a material impact on our financial condition and results of operations. Adoption of Accounting Pronouncements In June 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2022-03, Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions ("ASU 2022-03"). ASU 2022-03 clarifies that a contractual sales restriction on an equity security is not considered when determining the security's fair value. This ASU was issued to eliminate diversity in practice by clarifying that contractual arrangements restricting an entity's ability to sell the security for a certain period of time is a characteristic of the reporting entity and should not be contemplated when determining the security's fair value. ASU 2022-03 requires new disclosures that provide investors with information about the restriction, including the nature and remaining duration of the restriction. The ASU is effective for annual periods beginning after December 15, 2023, including interim periods within those annual periods. We adopted this guidance on January 1, 2024 and it did not have a material impact to our financial condition or results of operations.
 In March 2023, the FASB issued ASU 2023-02, Investments — Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method ("ASU 2023-02"). This ASU allows companies to elect to account for qualifying tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met.  During 2024 or 2023, we had no write-offs or recoveries of our AFS fixed income securities.
 As disclosed in Note 2, "Summary of Significant Accounting Policies," we do not evaluate accrued interest on our AFS securities for expected credit loss as we write-off these balances in a timely manner. Accrued interest on AFS securities was $74.3 million as of December 31, 2024, and $64.6 million as of December 31, 2023. We did not record any material write-offs of accrued interest during 2024 or 2023.
 (c) Quantitative information about unrealized losses on our AFS portfolio follows:

</div><div>The decrease in net realized and unrealized investment losses in 2023 compared to 2022 was primarily due to (i) a credit loss benefit recorded on our AFS fixed income securities portfolio in 2023 compared to credit loss expense recorded in 2022, and (ii) an increase in valuations in the public equities market. The credit loss benefit in 2023 reflected a decrease in benchmark U.S. Treasury rates and a tightening of credit spreads, with the decrease in interest rates having the most significant impact.</div><div>
</div><div>Net unrealized gains and losses recognized in income on equity securities, as reflected in the table above, included the following:</div><div>

 *In $238.3 million increase in "Federal and state pools" as of December 31, 2024, compared to December 31, 2023, was primarily due to an increase in the NFIP reserves recorded as of December 31, 2024, for flood losses related to Hurricane Helene, which mainly affected the Southeastern part of our footprint. These losses are 100% ceded to the NFIP and continue to be paid as the associated claims are settled. In addition, the $164.3 million increase in "Total rated reinsurers" as of December 31, 2024, compared to December 31, 2023, was primarily related to an increase in incurred but not reported recoverable balances related to unfavorable prior year casualty reserve development.</div><div>

 Our net loss and loss expense reserves increased by $849.2 million in 2024, $331.0 million in 2023, and $385.0 million in 2022. The loss and loss expense reserves are net of anticipated recoveries for salvage and subrogation claims, which amounted to $133.7 million for 2024, $116.0 million for 2023, and $91.3 million for 2022.
 The increase in net loss and loss expense reserves in 2024 was primarily driven by increases in exposure due to premium growth and unfavorable prior year loss reserve development. In 2024, we experienced overall net unfavorable prior year loss reserve development of $285.3 million, compared to net unfavorable development of $10.0 million in 2023 and net favorable development of $78.9 million in 2022.</div><div>
</div><div>The following table summarizes the prior year reserve development by line of business:</div><div>

style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table>
 The insurance Subsidiaries had $285.3 million of unfavorable prior year reserve development during 2024, which included $311.0 million of net unfavorable casualty reserve development and $25.7 million of favorable property reserve development.
 The net unfavorable casualty reserve development by line of business was driven by the following: •General liability - increased severities in accident years 2020 and subsequent, with most of the actions for accident years 2022 and 2023, due to impacts from social inflation; •Commercial automobile - increased severities in accident year 2023; •Personal automobile - increased severities in accident years 2022 through 2023; and •E&S casualty - increased severities in accident years 2023 and prior.
 Favorable prior year casualty reserve development on our workers compensation, bond, and homeowners lines of business provided a partial offset to the items above. The favorable prior year development on workers compensation was primarily driven by improved loss severities in accident years 2022 and prior.
 The Insurance Subsidiaries had $10.0 million of unfavorable prior year reserve development during 2023, which included $6.5 million of net favorable casualty reserve development and $16.5 million of unfavorable property reserve development. The net favorable casualty reserve development was due to improved loss severities on our workers compensation line of business driven by continued favorable medical cost trends in accident years 2021 and prior. This was partially offset by unfavorable prior year casualty reserve development on our general liability and commercial automobile lines of business. The unfavorable prior year development on (i) general liability was primarily driven by increased loss severities in accident years 2015 through 2020 and (ii) commercial automobile was primarily driven by increased loss expenses in accident years 2022 and prior.
 The Insurance Subsidiaries had $78.9 million of favorable prior year reserve development during 2022, which included $86.0 million of net favorable casualty reserve development and $7.1 million of unfavorable property reserve development. The net favorable casualty reserve development was due to improved loss severities on our workers compensation line of business driven by continued favorable medical trends in accident years 2020 and prior, and favorable inception-to-date claim frequencies in accident year 2020. This was partially offset by unfavorable prior year casualty reserve development on our commercial automobile line of business, primarily driven by increased loss severities in accident year 2021.</div><div>
</div><div>(b) We have exposure to abuse or molestation claims within our general liability line of business, primarily through insurance policies that we issue to schools, religious institutions, day-care facilities, and other social services. Claims reporting patterns have been significantly impacted by state laws that extend the statute of limitations or permit windows to be opened for abuse or molestation claims and lawsuits that were previously barred by statutes of limitations. The emergence of these claims is highly unpredictable and may be reported over an extended period of time. In addition to legislative changes that increase our exposure, there are significant uncertainties in estimating our exposure to abuse or molestation claims (for both case and IBNR reserves) resulting from (i) lack of relevant historical data, (ii) the delayed and inconsistent reporting patterns associated with these claims, (iii) the obligation of an insurer to defend a claim, (iv) the extent to which a party can prove the existence of coverage, and (v) uncertainty as to the number and identity of claimants. It is possible, as a result, that we may receive claims decades after the allegations occurred from coverages provided by us or our predecessor companies, that will require complex claims coverage determinations, potential litigation, and the need to collect from reinsurers under older reinsurance agreements.</div><div>
</div><div>(c) Reserves established for liability insurance include exposure to asbestos and environmental claims. These claims have arisen primarily from insured exposures, small to large manufacturing, commercial risks, and homeowners policies. The emergence of these claims is highly unpredictable and may be reported over an extended period of time. There are significant uncertainties in estimating our exposure to asbestos and environmental claims (for both case and IBNR reserves) resulting from (i) lack of relevant historical data, (ii) the delayed and inconsistent reporting patterns associated with these claims, and (iii) uncertainty as to the number and identity of claimants and complex legal and coverage issues. Legal issues that arise in asbestos and environmental cases include federal or state venue, choice of law, causation, admissibility of evidence, allocation of damages and contribution among joint defendants, successor and predecessor liability, and whether direct action against insurers can be maintained. Coverage issues that arise in asbestos and environmental cases include the interpretation and application of policy terms, conditions, and exclusions, the determination and calculation of policy limits, the determination of the ultimate amount of a loss, the extent to which a loss is covered by a policy, if at all, the obligation of an insurer to defend a claim, and the extent to which a party can prove the existence of coverage. Courts have reached different and sometimes inconsistent conclusions on these legal and coverage issues.</div><div>
</div><div>Traditional accident year loss development methods cannot be applied because past loss history is not necessarily indicative of future behavior. Instead, we review the experience by calendar year and rely on alternative metrics, such as paid and incurred survival ratios. As a result, reserves for asbestos and environmental require a high degree of judgment. </div><div>
</div><div>The following table details our loss and loss expense reserves for various asbestos and environmental claims showing gross and net of reinsurance:</div><div>

 We evaluate the results of our four reportable segments as follows:
 •Our Standard Commercial Lines, Standard Personal Lines, and E&S Lines (collectively, "Insurance Operations") are evaluated on (i) underwriting results (net premiums earned, incurred loss and loss expense, policyholder dividends, policy acquisition costs, and other underwriting expenses), (ii) their return on equity ("ROE") contribution, and (iii) their combined ratios.
 •Our investments segment is primarily evaluated on after-tax net investment income and its ROE contribution. After-tax net realized and unrealized gains and losses are also included in our Investment segment results.
 Our CODM uses these measures of profit or loss to allocate resources for each segment predominantly in the annual budget and forecasting process, considering budget-to-actual variances when allocating capital and personnel to the segments throughout the year. The CODM also uses these profit measures for evaluating (i) segment performance, (ii) pricing in our Insurance Operations, and (iii) employee compensation.
 We do not allocate interest expense, corporate expenses, and assets to our segments. We allocate taxes to our investments segment as we manage that segment on after-tax results. While we allocate taxes to our Insurance Operations, we do not manage those segments on after-tax results.
 Our combined insurance operations have some geographic concentrations, particularly in certain states in the Northeastern region of the country. In 2024, approximately 34% of NPW were related to insurance policies written in New Jersey (16%), Pennsylvania (10%), and New York (8%).
 We had a goodwill balance of $7.8 million at both December 31, 2024, and 2023, on our Consolidated Balance Sheets that relate to our Standard Commercial Lines reporting unit.</div><div> </div><div>(a) The following table presents revenues by segment and a reconciliation to consolidated revenue.</div><div>

 The use of derivative instruments is permitted under certain circumstances for the Pension Plan portfolio, but may not be used for unrelated speculative purposes or to create exposures that are not permitted in the Pension Plan's investment guidelines. We currently leverage derivative strategies within the funds to manage the interest rate duration mismatch between the assets and liabilities of the Pension Plan to help insulate the funded status of the plan. Considering the impact of this derivative overlay, the liability hedging assets provide for an approximate 91% hedge against the projected benefit obligation.
 The Pension Plan had no investments in the Parent's common stock as of December 31, 2024 or 2023. For information on Pension Plan investments in funds of entities deemed related parties, refer to Note 18, "Related Party Transactions" below.
 The techniques used to determine the fair value of the Pension Plan's invested assets that appear below are as follows:
 • The investments in the equities and liability hedging funds include collective investment funds and fund of funds that utilize a market approach wherein the published prices in the active market for identical assets are used. These investments are traded at their net asset value per share. These investments are classified as Level 1 in the fair value hierarchy. • The investments in private limited partnerships are valued utilizing net asset value as a practical expedient for fair value. These investments are not classified in the fair value hierarchy. • Short-term investments are recorded at fair value. Given that these investments are listed on active exchanges, coupled with their liquid nature, these investments are classified as Level 1 in the fair value hierarchy. • The deposit administration contract is recorded at cost, which approximates fair value. Given the liquid nature of the underlying investments in overnight cash deposits and other short-term duration products, we have determined that a correlation exists between the deposit administration contract and other short-term investments, such as money market funds. As such, this investment is classified as Level 2 in the fair value hierarchy.
 For discussion regarding the levels within the fair value hierarchy, see Note 2, "Summary of Significant Accounting Policies." In addition, refer to Note 5, "Investments" for discussion on the private equity, venture capital, and real asset limited partnership investment strategies included in the Pension Plan's portfolio.
 The following tables provide quantitative disclosures of the Pension Plan's invested assets that are measured at fair value on a recurring basis.

 As of December 31, 2024, total unrecognized compensation expense related to unvested RSU awards granted under our stock plans was $11.0 million. That expense is expected to be recognized over a weighted-average period of 1.8 years. The total intrinsic value of RSUs vested was $20.4 million for 2024, $23.3 million for 2023, and $18.1 million for 2022. In connection with vested RSUs, the total value of the DEUs that vested was $0.7 million in 2024, $0.9 million in 2023, and $0.7 million in 2022. CIU Transactions The liability recorded in connection with our Cash Plan was $9.4 million as of December 31, 2024, and $10.5 million as of December 31, 2023. The remaining cost associated with the CIUs is expected to be recognized over a weighted average period of 0.8 years. The CIU payments made in connection with the CIU vestings were $2.9 million in 2024, $3.0 million in 2023, and $2.9 million in 2022. </div><div>

 On December 2, 2020, we issued 8 million depository shares, each representing a 1/1,000th interest in a share of our perpetual 4.60% Non-Cumulative Preferred Stock, Series B, without par value, with a liquidation preference of $25,000 per share (equivalent to $25.00 per depository share) ("Preferred Stock"), for net proceeds of $194.6 million. Dividends are recorded when declared and, if declared, are payable quarterly in arrears on the 15th day of March, June, September, and December. If a dividend is not declared and paid or made payable on all outstanding shares of the Preferred Stock for the latest completed dividend period, no dividends may be declared or paid on our common stock and we may not purchase, redeem, or otherwise acquire our outstanding common stock.
 The Preferred Stock is redeemable at our option in whole or in part, from time to time, on or after December 15, 2025 at a redemption price equal to $25,000 per share of Preferred Stock (equivalent to $25.00 per depository share), plus unpaid dividends attributable to the then current dividend period. Prior to December 15, 2025, the Preferred Stock is redeemable at the Company's option, in whole but not in part, within 90 days of the occurrence of (a) a rating agency event at a redemption price equal to $25,500 per share of Preferred Stock (equivalent to $25.50 per depository share), plus unpaid dividends attributable to the current dividend period in circumstances where a rating agency changes its criteria used to assign equity credit to securities like the Preferred Stock; or (b) a regulatory capital event at a redemption price equal to $25,000 per share of Preferred Stock (equivalent to $25.00 per depository share), plus unpaid dividends attributable to the current dividend period in circumstances where a capital regulator such as a state insurance regulator changes or proposes to change capital adequacy rules.
 Share Repurchase Program On December 2, 2020, we announced that our Board authorized a $100 million share repurchase program, with no set expiration or termination date. Our repurchase program does not obligate us to acquire any particular amount of our common stock. Management will determine the timing and amount of any share repurchases under the authorization at its discretion based on market conditions and other considerations. For the year ended December 31, 2024, 103,000 shares were repurchased under the share repurchase program for a total cost of $8.7 million, including commissions. We had no common stock share repurchases in 2023. As of December 31, 2024, we had $75.5 million and $84.2 million of remaining capacity under our share repurchase program, respectively. 5000000300000000000000000.04602500025.00194600002500025.00255000525.50250000025.00100000000103000870000075500000042000000Related Party Transactions In 2005, we established a private foundation, now named The Selective Insurance Group Foundation (the "Foundation"), under Section 501(c)(3) of the Internal Revenue Code. The Board of the Foundation is comprised of some of the officers of the Parent and the Insurance Subsidiaries. We made $1.0 million of contributions to the Foundation in 2023 and contributed $0.2 million in 2024.
 BlackRock, Inc., a leading publicly-traded investment management firm ("BlackRock"), has purchased our common shares in the ordinary course of its investment business and has previously filed Schedules 13G/A with the SEC. On January 23, 2024, BlackRock filed a Schedule 13G/A reporting beneficial ownership as of December 31, 2023, of 12.8% of our common stock. In connection with purchasing our common shares, BlackRock filed the necessary filings with insurance regulatory authorities. On the basis of those filings, BlackRock is deemed not to be a controlling person for the purposes of applicable insurance law.
 We are required to disclose related party information for our transactions with BlackRock. BlackRock is highly regulated, serves its clients as a fiduciary, and has a diverse platform of active (alpha) and index (beta) investment strategies across asset classes that enables it to tailor investment outcomes and asset allocation solutions for clients. BlackRock also offers the BlackRock Solutions® investment and risk management technology platform, Aladdin®, risk analytics, advisory, and technology services and solutions to a broad base of institutional and wealth management investors. We incurred expenses related to BlackRock for services rendered of $2.0 million in 2024, $2.1 million in 2023, and $1.8 million in 2022. Amounts payable for such services were $0.7 million at December 31, 2024, $0.6 million at December 31, 2023, and $0.8 million at December 31, 2022.
 As part of our overall investment diversification, we invest in various BlackRock funds from time to time. These funds accounted for less than 1% of our invested assets at December 31, 2024 and December 31, 2023, and are predominately reflected in "Fixed income securities" on our Consolidated Balance Sheet. During 2024, with regard to BlackRock funds, we (i) purchased $5.7 million in securities, (ii) sold $10.8 million, (iii) recognized net realized and unrealized gains of $1.1 million, and (iv) recorded $2.1 million in income. During 2023, we (i) purchased $7.9 million in securities, (ii) sold $2.8 million, (iii) recognized net realized and unrealized gains of $1.7 million, and (iv) recorded $2.5 million in income. During 2022, we (i) purchased $18.5 million in securities, (ii) sold $32.3 million, (iii) recognized net realized and unrealized losses of $6.9 million, and (iv) recorded $1.8 million in income. There were no amounts payable on the settlement of these investment transactions at December 31, 2024 and December 31, 2023.
 Our Pension Plan's investment portfolio contained investments in BlackRock funds of $87.9 million at December 31, 2024 and $114.2 million at December 31, 2023. During 2024, with regard to BlackRock funds, the Pension Plan (i) did not purchase any securities, (ii) sold $18.1 million, and (iii) recorded net investment losses of $8.2 million. During 2023, with regard to BlackRock funds, the Pension Plan (i) purchased $19.9 million in securities, (ii) sold $35.1 million, and (iii) recorded net investment income of $9.3 million. During 2022, with regard to BlackRock funds, the Pension Plan (i) purchased $56.4 million in securities, (ii) sold $65.7 million, and (iii) recorded net investment losses of $80.5 million. In addition, our Deferred Compensation Plan and Retirement Savings Plan may offer our employees the option to invest in various BlackRock funds. All contracts and transactions with BlackRock were consummated in the ordinary course of business on an arm's-length basis.
 As part of our overall investment diversification, we may invest in various Vanguard funds from time to time. These funds accounted for less than 1% of our invested assets at December 31, 2024 and December 31, 2023, and are predominately reflected in "Equity securities" on our Consolidated Balance Sheet. During 2024, with regard to Vanguard funds, we (i) purchased $16.1 million in securities, (ii) sold $7.0 million, (iii) recognized net realized and unrealized losses of $1.0 million, and (iv) recorded $1.2 million in income. During 2023, we (i) purchased $0.5 million in securities, (ii) sold $32.9 million, (iii) recognized net realized and unrealized gains of $0.1 million, and (iv) recorded $0.7 million in income. During 2022, we (i) purchased $3.5 million in securities, (ii) sold $125.2 million, (iii) recognized net realized and unrealized losses of $10.4 million, and (iv) recorded $4.7 million in income. There were no amounts payable on the settlement of these investment transactions at December 31, 2024 and December 31, 2023.
 Our Deferred Compensation Plan offers our employees investment options based on the notional value of various Vanguard funds. Our Retirement Savings Plan offers our employees the option to invest in a Vanguard fund. All transactions with Vanguard are consummated in the ordinary course of business on an arm's-length basis.
 William M. Rue, a former Director of the Parent, is Chairman of, and owns more than 10% of the equity of Rue Holding Company, which owns 100% of Chas. E. Rue & Son, Inc., t/a Rue Insurance, a general independent retail insurance agency ("Rue Insurance"). Rue Insurance is an appointed distribution partner of the Insurance Subsidiaries on terms and conditions similar to those of our other distribution partners, which includes the right to participate in the Agent Plan. Until his retirement from the Parent's Board in May 2023, Mr. Rue was considered a related party. During his tenure on the Board, Mr. Rue's son was President, and an employee, of Rue Insurance, and owned more than 10% of the equity of Rue Holding Company. Additionally, during his tenure, Mr. Rue's daughter was an employee of Rue Insurance and owned less than 10% of the equity of Rue Holding Company. Our relationship with Rue Insurance has existed since 1928.
 Direct premiums written associated with policies placed when Mr. Rue was a related party were $15.7 million in 2023 and $14.3 million in 2022. In return, the Insurance Subsidiaries paid standard market commissions, including supplemental commissions, to Rue Insurance of $2.9 million in 2023 and $2.7 million in 2022. As of December 31, 2023, amounts payable to Rue Insurance were $0.7 million. All contracts and transactions with Rue Insurance were consummated in the ordinary course of business on an arm's-length basis.

In addition, we have various finance leases for computer hardware. Such lease agreements, which expire at various dates through 2035, are generally renewed or replaced by similar leases.
 The components of lease expense for the years ended December 31, 2024 and 2023 were as follows:
 <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:69.221%"></td><td  Refer to Note 4, "Statements of Cash Flows" in Item 8, "Financial Statements and Supplementary Data," of Form 10-K for supplemental cash and non-cash transactions included in the measurement of operating and finance lease liabilities. Leases We have various operating leases for office space, equipment, and fleet vehicles. In addition, we have various finance leases for computer hardware. Such lease agreements, which expire at various dates through 2035, are generally renewed or replaced by similar leases.
 The components of lease expense for the years ended December 31, 2024 and 2023 were as follows:

</div><div>In the ordinary course of conducting business, we are parties in various legal actions. Most are claims litigation involving our Insurance Subsidiaries as (i) liability insurers defending or providing indemnity for third-party claims brought against our customers, (ii) insurers defending first-party coverage claims brought them, or (iii) liability insurers seeking declaratory judgment on our insurance coverage obligations. We account for such activity by establishing unpaid loss and loss expense reserves. Considering potential losses and defense costs reserves, we expect that any potential ultimate liability for ordinary course claims litigation will not be material to our consolidated financial condition, results of operations, or cash flows.</div><div>
</div><div>From time to time, our Insurance Subsidiaries are named as defendants in other legal actions, some asserting claims for substantial amounts. Plaintiffs may style these actions as class actions and seek judicial certification of a state or national class for allegations involving our business practices, such as improper medical provider reimbursement under workers compensation and personal and commercial automobile insurance policies or improper reimbursement for automobile parts. Similarly, our Insurance Subsidiaries can be named defendants in individual actions seeking extra-contractual damages, punitive damages, or penalties, often alleging bad faith in handling insurance claims. We believe that we have valid defenses to these allegations and account for such activity by establishing unpaid loss and loss expense reserves. Considering estimated losses and defense costs reserves, we expect that any potential ultimate liability for these other legal actions will not be material to our consolidated financial condition. Litigation outcomes are inherently unpredictable, and the amounts sought in certain actions are large or indeterminate. Adverse outcomes could have a material adverse effect on our consolidated results of operations or cash flows in the quarterly or annual period in which they occur.</div>Statutory Financial Information, Capital Requirements, and Restrictions on Dividends and Transfers of Funds<div>(a) Statutory Financial Information</div><div>The Insurance Subsidiaries prepare their statutory financial statements in accordance with accounting principles prescribed or permitted by the various state insurance departments of domicile. Prescribed statutory accounting principles include state laws, regulations, and general administrative rules, as well as a variety of publications of the National Association of Insurance Commissioners ("NAIC"). Permitted statutory accounting principles encompass all accounting principles that are not prescribed; such principles differ from state to state, may differ from company to company within a state and may change in the future. The Insurance Subsidiaries do not utilize any permitted statutory accounting principles that affect the determination of statutory surplus, statutory net income, or risk-based capital ("RBC"). As of December 31, 2024, the various state insurance departments of domicile have adopted the March 2024 version of the NAIC Accounting Practices and Procedures manual in its entirety, as a component of prescribed or permitted practices.</div><div>The following table provides statutory data for each of our Insurance Subsidiaries:</div><div>

 (b) Capital Requirements The Insurance Subsidiaries are required to maintain certain minimum amounts of statutory surplus to satisfy the requirements of their various state insurance departments of domicile. RBC requirements for property and casualty insurance companies are designed to assess capital adequacy and to raise the level of protection that statutory surplus provides for policyholders. The Insurance Subsidiaries' combined total adjusted capital exceeded the required level of capital as defined by the NAIC based on their 2024 statutory financial statements. In the fourth quarter of 2020, the NAIC adopted the basic structure of Group Capital Calculation ("GCC"), along with a model law to enable the GCC after state legislative enactment. The GCC expands the existing RBC calculation to include (i) capital requirements for other regulated entities in the group, and (ii) defined capital calculation for other group entities that are unregulated. Our New Jersey state insurance regulators, our lead state, adopted the GCC model law in 2022. Based on our 2024 statutory financial statements, our GCC ratio exceeds the regulatory action minimum threshold. In addition to statutory capital requirements, we are impacted by various rating agency requirements related to certain rating levels. These required capital levels may be higher than statutory requirements.
 Dividends and Transfer of Funds Our ability to declare and pay dividends on the Parent's common stock is dependent on liquidity at the Parent coupled with the ability of the Insurance Subsidiaries to declare and pay dividends, if necessary, and/or the availability of other sources of liquidity to the Parent.
 In addition to regulatory restrictions on the availability of dividends that our Insurance Subsidiaries can pay to the Parent, the maximum amount of dividends the Parent can pay our shareholders is limited by certain New Jersey corporate law provisions that limit dividends if either: (i) the Parent would be unable to pay its debts as they became due in the usual course of business; or (ii) the Parent's total assets would be less than its total liabilities. The Parent's ability to pay dividends to shareholders also are impacted by (i) covenants in its Line of Credit that obligate it, among other things, to maintain a minimum consolidated net worth and a maximum ratio of consolidated debt to total capitalization, and (ii) the terms of our preferred stock that prohibit dividends to be declared or paid on our common stock if dividends are not declared and paid, or made payable, on all outstanding preferred stock for the latest completed dividend period.
 As of December 31, 2024, the Parent had an aggregate of $402.5 million in investments and cash available to fund future dividends and interest payments. These amounts are not subject to any regulatory restrictions other than the standard state insolvency restrictions noted above, whereas our consolidated retained earnings of $3.1 billion are predominately restricted due to regulations applicable to our Insurance Subsidiaries. In 2025, the Insurance Subsidiaries have the ability to provide for $290.3 million in annual dividends to the Parent; however, as regulated entities, these dividends are subject to certain restrictions, which are further discussed below. The Parent also has other potential sources of liquidity, such as: (i) borrowings from our Indiana Subsidiaries; (ii) debt issuances; (iii) common and preferred stock issuances; and (iv) borrowings under our Line of Credit. Borrowings from our Indiana Subsidiaries are governed by approved intercompany lending agreements with the Parent that provide for additional capacity of $171.8 million as of December 31, 2024, based on restrictions in these agreements that limit borrowings to 10% of the admitted assets of the Indiana Subsidiaries. For additional restrictions on the Parent's debt, see Note 11, "Indebtedness" in this Form 10-K.</div><div>Insurance Subsidiaries Dividend Restrictions</div><div>As noted above, the restriction on our net assets and retained earnings is predominantly driven by our Insurance Subsidiaries' ability to pay dividends to the Parent under applicable laws and regulations. Under the insurance laws of the domiciliary states of the Insurance Subsidiaries, New Jersey, Indiana, and New York, an insurer can potentially make an ordinary dividend payment if its statutory surplus following such dividend is reasonable in relation to its outstanding liabilities, is adequate to its financial needs, and the dividend does not exceed the insurer's unassigned surplus. In general, New Jersey defines an ordinary dividend as a dividend whose fair market value, together with other dividends made within the preceding 12 months, is less than the greater of 10% of the insurer's statutory surplus as of the preceding December 31, or the insurer's net income (excluding capital gains) for the 12-month period ending on the preceding December 31. Indiana's ordinary dividend calculation is consistent with New Jersey's, except that it does not exclude capital gains from net income. In general, New York defines an ordinary dividend as a dividend whose fair market value, together with other dividends made within the preceding 12 months, is less than the lesser of 10% of the insurer's statutory surplus, or 100% of adjusted net investment income.</div><div>
</div><div>New Jersey and Indiana require notice of the declaration of any ordinary dividend distribution. During the notice period, the relevant state regulatory authority may disallow all or part of the proposed dividend if it determines that the dividend is not appropriate given the above considerations. New York does not require notice of ordinary dividends. Dividend payments exceeding ordinary dividends are referred to as extraordinary dividends and require review and approval by the applicable domiciliary insurance regulatory authority prior to payment.</div><div>
</div><div>The table below provides the following information: (i) quantitative data regarding all Insurance Subsidiaries' dividends paid to the Parent in 2024, which was used for debt service, shareholder dividends, and general operating purposes; and (ii) the maximum ordinary dividends that can be paid to the Parent by the Insurance Subsidiaries in 2025, based on the 2024 statutory financial statements.</div><div><table cellpadding="0" cellspacing="0" style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td
