("JEGI"), the predecessor to Jacobs Solutions Inc., implemented a holding company structure, which resulted in Jacobs Solutions Inc. becoming the parent company of, and successor issuer to, JEGI (the "Holding Company Reorganization"). For purposes of this report, references to Jacobs and the "Company", "we", "us" or "our" or our management or business at any point prior to the Holding Company Implementation Date refer to JEGI, or JEGI and its consolidated subsidiaries as the predecessor to Jacobs Solutions Inc.The accompanying consolidated financial statements and financial information included herein have been prepared pursuant to the interim period reporting requirements of Form 10-Q. Consequently, certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (â€œU.S. GAAPâ€) have been condensed or omitted. Readers of this Quarterly Report on Form 10-Q should also read our consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended SeptemberÂ 29, 2023 (â€œ2023 Form 10-Kâ€).In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of our consolidated financial statements as of JuneÂ 28, 2024, and for the three and nine months ended JuneÂ 28, 2024.Our interim results of operations are not necessarily indicative of the results to be expected for the full fiscal year.On November 20, 2023, Jacobs entered into a definitive agreement to spin-off and combine our Critical Mission Solutions ("CMS") and portions of our Divergent Solutions business, including Cyber & Intelligence (the "Separated Businesses") with Amentum Parent Holdings LLC ("Amentum"), in a Reverse Morris Trust transaction intended to be tax-free to Jacobsâ€™ shareholders for U.S. federal income tax purposes (hereinafter referred to as the â€œSeparation Transactionâ€). The Separation Transaction, which is expected to close in the second half of September 2024, is subject to regulatory approvals and other customary closing conditions.On April 26, 2019, Jacobs completed the sale of its Energy, Chemicals and Resources ("ECR") business to Worley Limited ("Worley"), a company incorporated in Australia, for a purchase price of $3.4 billion consisting of (i) $2.8 billion in cash plus (ii) 58.2 million ordinary shares of Worley, subject to adjustments for changes in working capital and certain other items (the â€œECR saleâ€). As a result of the ECR sale, substantially all ECR-related assets and liabilities were sold (the "Disposal Group"). We determined that the Disposal Group should be reported as discontinued operations in accordance with ASC 210-05, Discontinued Operations because their disposal represents a strategic shift that had a major effect on our operations and financial results. As such, the financial results of the ECR business are reflected in our unaudited Consolidated Statements of Earnings as discontinued operations for all periods presented and all of the ECR business to be sold under the terms of the ECR sale had been conveyed to Worley and as such, no amounts remain held for sale. 2.Â Â Â Â Use of Estimates and AssumptionsThe preparation of financial statements in conformity with U.S. GAAP requires us to employ estimates and make assumptions that affect the reported amounts of certain assets and liabilities; the revenues and expenses reported for the periods covered by the financial statements; and certain amounts disclosed in these Notes to the Consolidated Financial Statements. Although such estimates and assumptions are based on managementâ€™s most recent assessment of the underlying facts and circumstances utilizing the most current information available and past experience, actual results could differ significantly from those estimates and assumptions. Our estimates, judgments and assumptions are evaluated periodically and adjusted accordingly.Page 11JACOBS SOLUTIONS INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a discussion of other significant estimates and assumptions affecting our consolidated financial statements. 3.Â Â Â Â Fair Value and Fair Value MeasurementsCertain amounts included in the accompanying consolidated financial statements are presented at fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the date fair value is determined (the â€œmeasurement dateâ€). When determining fair value, we consider the principal or most advantageous market in which we would transact, and we consider only those assumptions we believe a typical market participant would consider when pricing an asset or liability. In measuring fair value, we use the following inputs in the order of priority indicated:Level 1 - Quoted prices in active markets for identical assets or liabilities.Level 2 - Observable inputs other than quoted prices in active markets included in Level 1, such as (i) quoted prices for similar assets or liabilities; (ii) quoted prices in markets that have insufficient volume or infrequent transactions (e.g., less active markets); and (iii) model-driven valuations in which all significant inputs are observable or can be derived principally from, or corroborated with, observable market data for substantially the full term of the asset or liability.Level 3 - Unobservable inputs to the valuation methodology that are significant to the fair value measurement.Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a more complete discussion of the various items within the consolidated financial statements measured at fair value and the methods used to determine fair value. Please also refer to Note 17- Commitments and Contingencies and Derivative Financial Instruments for discussion regarding the Company's derivative instruments.The net carrying amounts of cash and cash equivalents, trade receivables and payables and short-term debt approximate fair value due to the short-term nature of these instruments. See Note 12- Borrowings for a discussion of the fair value of long-term debt.Fair value measurements relating to our business combinations and goodwill allocations related to our Divergent Solutions ("DVS") segment realignment were made primarily using Level 3 inputs including discounted cash flow techniques. Fair value for the identified intangible assets is generally estimated using inputs primarily for the income approach using the multiple period excess earnings method and the relief from royalties method. The significant assumptions used in estimating fair value include (i) revenue projections of the business, including profitability, (ii) attrition rates and (iii) the estimated discount rate that reflects the level of risk associated with receiving future cash flows. Other personal property assets, such as furniture, fixtures and equipment, are valued using the cost approach, which is based on replacement or reproduction costs of the asset less depreciation. The fair value of the contingent consideration is estimated using a Monte Carlo simulation and the significant assumptions used include projections of revenues and probabilities of meeting those projections. Key inputs to the valuation of the noncontrolling interests include projected cash flows and the expected volatility associated with those cash flows. Page 12JACOBS SOLUTIONS INC. The Financial Accounting Standards Board issued the standard to introduce changes to US GAAP that originate in either SEC Regulation S-X or S-K, which are rules about the form and content of financial reports filed with the SEC. The provisions

of the standard are contingent upon instances where the SEC removes the related disclosure provisions from Regulation S-X and S-K. The Company does not expect that the application of this standard will have a material impact on our consolidated financial statements and related disclosures.5.Â Â Â Â Revenue Accounting for ContractsDisaggregation of RevenuesOur revenues are principally derived from contracts to provide a diverse range of technical, professional, and construction services to a large number of industrial, commercial, and governmental clients. The undistributed earnings are allocated between common shares and participating securities as if all earnings had been distributed during the period. Participating securities and common shares have equal rights to undistributed earnings. Net earnings used for the purpose of determining basic and diluted EPS is determined by taking net earnings, less earnings available to participating securities and the preferred redeemable noncontrolling interests redemption value adjustment associated with the PA Consulting transaction. The following table reconciles the denominator used to compute basic EPS to the denominator used to compute diluted EPS for the three and nine months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 (in thousands):Page 14JACOBS SOLUTIONS INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)10.Â Â Â Â Income TaxesThe Companyâ€™s effective tax rates from continuing operations for the three months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 were 30.0% and 23.9%, respectively. The most significant items contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Company's effective tax rate for the three-month period ended JuneÂ 28, 2024 were U.S. state income tax expense of $4.4 million and U.S. tax on foreign earnings of $10.5 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. These expense items were partly offset by a return-to-provision income tax benefit of $7.9 million, mainly attributable to additional research and development credits claimed on the U.S. federal tax return. For the three months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were attributable to U.S. state income tax expense of $5.3 million and U.S. tax on foreign earnings of $5.4 million, partly offset by a $3.5 million tax benefit for the release of previously valued foreign tax credits.The Company's effective tax rates from continuing operations for the nine months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 were 18.7% and 18.2%, respectively. The most significant item contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Companyâ€™s effective tax rate for the nine-month period ended JuneÂ 28, 2024 is related to a discrete event associated with the election to treat an Australian subsidiary as a corporation versus a partnership for U.S. tax purposes, with this election resulting in the derecognition of a deferred tax liability and yielding a discrete income tax benefit of $61.6 million as the Company asserts that a component of the investment will be indefinitely reinvested. This benefit was partly offset by U.S. state income tax expense of $11.7 million, U.S. tax on foreign earnings of $19.1 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. For the nine months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were associated with net tax benefits of $39.4 million which were mostly related to uncertain tax positions in the U.S. that were effectively settled, of which $30.8 million related to positions carried forward from the fiscal 2018 acquisition of CH2M Hill Companies Ltd., as well as a tax benefit of $12.1 million for the release of previously valued foreign tax credits. These benefits were partly offset by U.S. state income tax expense of $15.8 million and U.S. tax on foreign earnings of $13.6 million.In December 2021, the Organization for Economic Cooperation and Development ("OECD") released the Pillar Two Model Rules (also referred to as the global minimum tax or Global Anti-Base Erosion "GloBE" rules), which were designed to ensure large multinational enterprises pay a minimum 15 percent level of tax on the income arising in each jurisdiction in which they operate. Several jurisdictions in which we operate have enacted these rules, which are effective for the first quarter of the fiscal year ending September 26, 2025. The Company is continually monitoring developments and evaluating the potential impacts. At this time, the Company does not anticipate a material tax charge as a result of implementation of these rules.The amount of income taxes the Company pays is subject to ongoing audits by tax jurisdictions around the world. In the normal course of business, the Company is subject to examination by tax authorities throughout the world, including such major jurisdictions as Australia, Canada, India, the Netherlands, the United Kingdom and the United States. Our estimate of the potential outcome of any uncertain tax issue is subject to our assessment of the relevant risks, facts, and circumstances existing at the time. The Company believes that it has adequately provided for reasonably foreseeable outcomes related to these matters. However, future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate.11.Â Â Â Â Joint Ventures, VIEs and Other InvestmentsFor the Company's consolidated variable interest entities ("VIE") joint ventures, the carrying value of assets and liabilities was $406.4 million and $246.8 million, respectively, as of JuneÂ 28, 2024 and $424.2 million and $279.8 million, respectively, as of SeptemberÂ 29, 2023. There are no consolidated VIEs that have debt or credit facilities.For the Company's proportionate consolidated VIEs, the carrying value of assets and liabilities was $143.8 million and $134.3 million, respectively, as of JuneÂ 28, 2024, and $132.0 million and $128.9 million, respectively, as of SeptemberÂ 29, 2023.Page 19JACOBS SOLUTIONS INC. In fiscal 2020 we entered into interest rate swap agreements with a notional value of $746.2 million as of JuneÂ 28, 2024 to manage the interest rate exposure on our variable rate loans. By entering into the swap agreements, the Company converted the LIBOR and SONIA rate based liabilities into fixed rate liabilities, for periods ranging from five to ten years. The fair value of the interest rate swaps at JuneÂ 28, 2024 was $76.4Â million of which $66.7 million is included within miscellaneous other assets and $9.7 million is included within current assets on the consolidated balance sheet as of JuneÂ 28, 2024. The fair value of interest rate swaps at SeptemberÂ 29, 2023 was $102.6Â million, which are included in miscellaneous other assets on the consolidated balance sheet as of SeptemberÂ 29, 2023. The unrealized net gain on these interest rate swaps as of JuneÂ 28, 2024 and SeptemberÂ 29, 2023 was $57.5Â million and $77.2Â million, respectively, net of tax, and was included in accumulated other comprehensive income. Additionally, in fiscal 2020, we entered into a cross currency swap agreement with a notional value of $127.8Â million to manage the interest rate and foreign currency exposure on our USD borrowings by a European subsidiary. By entering into the cross currency swap, the Company converted our LIBOR rate based borrowing in USD to a fixed rate Euro liability for three and a half years. During the fourth quarter of fiscal 2023, the Company paid down the borrowings hedged by the cross currency swap and settled the cross currency swap agreement.During fiscal 2023, the aggregate liability amounts denominated in U.S. dollars transitioned from underlying LIBOR benchmarked rates to the SOFR and the terms of the swaps were amended accordingly. The swaps were designated as cash-flow hedges in accordance with ASC 815, Derivatives and Hedging. Additionally, the Company held foreign exchange forward contracts in currencies that support our operations, including British Pound, Australian Dollar, Euro and other currencies, with notional values of $1,056.6 million at JuneÂ 28, 2024 and $857.7Â million at SeptemberÂ 29, 2023. The length of these contracts currently ranges from one week to 7 months. The fair value of the foreign exchange contracts at JuneÂ 28, 2024 was $(1.9) million, of which $(2.6) million is included within current liabilities and $0.7 million is included within current assets on the consolidated balance sheet as of JuneÂ 28, 2024. The fair value of the contracts as of SeptemberÂ 29, 2023 was $9.5Â million, of which $16.1 million is included within current assets and $(6.6) million is included within current liabilities on the consolidated balance sheet as of SeptemberÂ 29, 2023. Associated income statement impacts are included in miscellaneous income (expense) in the consolidated statements of earnings for both periods. Page 29JACOBS SOLUTIONS INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)The fair value measurements of these derivatives are being made using Level 2 inputs under ASC 820, Fair Value Measurement, as the measurements are based on observable inputs other than quoted prices in active markets. We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under forward exchange and interest rate contracts and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties.Contractual Guarantees and InsuranceIn the normal course of business, we make contractual commitments (some of which are supported by separate guarantees) and on occasion we are a party in a litigation or arbitration proceeding. The litigation or arbitration in which we are involved includes personal injury claims, professional liability claims and breach of contract claims. Where we provide a separate guarantee, it is strictly in support of the underlying contractual commitment. Guarantees take various forms including surety bonds required by law, or standby letters of credit ("LOC" and also referred to as â€œbank guaranteesâ€) or corporate guarantees given to induce a party to enter into a contract with a subsidiary. Standby LOCs are also used as security for advance payments or in various other transactions. The guarantees have various expiration dates ranging from an arbitrary date to completion of our work (e.g., engineering only) to completion of the overall project. We record in the Consolidated Balance Sheets amounts representing our estimated liability relating to such guarantees, litigation and insurance claims. Guarantees are accounted for in accordance with ASC 460-10, Guarantees, at fair value at the inception of the guarantee.At JuneÂ 28, 2024 and SeptemberÂ 29, 2023, the Company had issued and outstanding approximately $296.1 million and $322.0 million, respectively, in LOCs and $2.1Â billion and $2.0Â billion, respectively, in surety bonds.We maintain insurance coverage for most insurable aspects of our business and operations. Our insurance programs have varying coverage limits depending upon the type of insurance and include certain conditions and exclusions which insurance companies may raise in response to any claim that is asserted by or against the Company. We have also elected to retain a portion of losses and liabilities that occur through using various deductibles, limits, and retentions under our insurance programs. As a result, we may be subject to a future liability for which we are only partially insured or completely uninsured. We intend to mitigate any such future liability by continuing to exercise prudent business judgment in negotiating the terms and conditions of the contracts which the Company enters with its clients. Our insurers are also subject to business risk and, as a result, one or more of them may be unable to fulfill their insurance obligations due to insolvency or otherwise.Additionally, as a contractor providing services to the U.S. federal government, we are subject to many types of audits, investigations, and claims by, or on behalf of, the government including with respect to contract performance, pricing, cost allocations, procurement practices, labor practices, and socioeconomic obligations. Furthermore, our income, franchise, and similar tax returns and filings are also subject to audit and investigation by the Internal Revenue Service, most states within the United States, as well as by various government agencies representing jurisdictions outside the United States.Our Consolidated Balance Sheets include amounts representing our probable estimated liability relating to such claims, guarantees, litigation, audits, and investigations. We perform an analysis to determine the level of reserves to establish for insurance-related claims that are known and have been asserted against us, as well as for insurance-related claims that are believed to have been incurred based on actuarial analysis but have not yet been reported to our claims administrators as of the respective balance sheet dates. We include any adjustments to such insurance reserves in our consolidated results of operations. Insurance recoveries are recorded as assets if recovery is probable and estimated liabilities are not reduced by expected insurance recoveries.The Company believes, after consultation with counsel, that such guarantees, litigation, U.S. government contract-related audits, investigations and claims, and income tax audits and investigations should not have a material adverse effect on our consolidated financial statements, beyond amounts currently accrued.Page 30JACOBS SOLUTIONS INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)Litigation and InvestigationsIn 2012, CH2M HILL Australia PTY Limited, a subsidiary of CH2M, entered into a 50/50 integrated joint venture with Australian construction contractor UGL Infrastructure Pty Limited. The joint venture entered into a Consortium Agreement with General Electric and GE Electrical International Inc. The Consortium was awarded a subcontract by JKC Australia LNG Pty Limited ("JKC") for the engineering, procurement, construction and commissioning of a 360 MW Combined Cycle Power Plant for INPEX Operations Australia Pty Limited at Blaydin Point, Darwin, NT, Australia (the "Legacy CH2M Matter"). The subcontract was terminated in January 2017. In or around August 2017, the Consortium commenced an arbitration. On April 12, 2022, JKC and the Consortium entered into a confidential deed of settlement (â€œSettlement Agreementâ€). Under the terms of the Settlement Agreement, CH2M, as guarantor of CH2M Australia PTY Limitedâ€™s obligations with respect to the subcontract with JKC, made a cash payment to JKC in April 2022 of AUD 640Â million (or approximately $475Â million using mid-April 2022 exchange rates). As a result of the settlement agreement, additional pre-tax charges of $91.3Â million were recorded during the year ended SeptemberÂ 30, 2022 for this matter (over amounts previously reserved and reported in long-term Other Deferred Liabilities in the Company's Consolidated Balance Sheet). The Settlement Agreement provided for a release of claims between JKC and each member of the Consortium, and in connection with this agreement the members of the Consortium also waived all claims against each other and their respective parent guarantors relating to the project. On December 22, 2008, a coal fly ash pond at the Kingston Power Plant of the Tennessee Valley Authority ("TVA") was breached, releasing fly ash waste into the Emory River and surrounding community. In February 2009, TVA awarded a contract to the Company to provide project management services associated with the clean-up. All remediation and dredging were completed in August 2013 by other contractors under direct contracts with TVA. The Company did not perform the remediation, and its scope was limited to program management services. Certain employees of the contractors performing the cleanup work on the project filed lawsuits against the Company beginning in August 2013, alleging they were injured due to the Company's failure to protect the plaintiffs from exposure to fly ash, and asserting related personal injuries. The primary case, Greg Adkisson, et al. v. Jacobs Engineering Group Inc., case No. 3:13-CV-505-TAV-HBG, filed in the U.S. District Court for the Eastern District of Tennessee, consisted of 10 consolidated cases. This case and the related cases involved several hundred plaintiffs that were employees of the contractors that completed the remediation and dredging work. In the second quarter of fiscal 2023, the Company entered into a settlement agreement with the plaintiffs whose cases had not been previously dismissed. As of the third quarter of fiscal 2023, all conditions to the settlement had been satisfied, and the cases dismissed. The amount of the settlement was not material to the Company's business, financial condition, results of operations or cash flows. During the fourth quarter of fiscal 2022, the Company recorded a receivable for certain expected third-party recoveries equal to approximately $27Â million before tax, which was collected during first half of fiscal 2023. 18.Â Â Â Â Segment InformationThe Company's four operating segments are comprised of its two global lines of business ("LOBs"): Critical Mission Solutions ("CMS") and People & Places Solutions ("P&PS"), its business unit Divergent Solutions ("DVS") and its majority investment in PA Consulting.The Companyâ€™s Chief Executive Officer is the Chief Operating Decision Maker (â€œCODMâ€) and can evaluate the performance of each of these segments and make appropriate resource allocations among each of the segments. Under this organization, the sales function is managed by segment, and accordingly, the associated cost is embedded in the segments and reported to the respective head of each segment. In addition, a portion of the costs of

other support functions (e.g., finance, legal, human resources, and information technology) is allocated to each segment using methodologies which, we believe, effectively attribute the cost of these support functions to the revenue generating activities of the Company on a rational basis. The cost of the Companyâ€™s cash incentive plan, the Leadership Performance Plan ("LPP"), formerly named the Management Incentive Plan, and the expense associated with the Jacobs 1999 Stock Incentive Plan, which was amended and restated in the second quarter of 2023 and is now referred to as the Jacobs 2023 Stock Incentive Plan (the "2023 SIP") have likewise been charged to the segments except for those amounts determined to relate to the business as a whole (which amounts remain in other corporate expenses).Financial information for each segment is reviewed by the CODM to assess performance and make decisions regarding the allocation of resources. The CODM evaluates the operating performance of our operating segments using segment operating profit, which is defined as margin less â€œcorporate chargesâ€ (e.g., the allocated amounts described above). The Company incurs certain Selling, General and Administrative costs (â€œSG&Aâ€) that relate to its business as a whole which are not allocated to the segments.Page 31JACOBS SOLUTIONS INC. In addition, other corporate expenses may also include from time to time certain adjustments to contract margins (both positive and negative) associated with projects, as well as other items, where it has been determined that such adjustments are not indicative of the performance of the related LOB.See also the further description of results of operations for our operating segments in Item 2- Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations.Page 33Item 2.Â Â Â Â Â Â Â Â Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations.GeneralThe purpose of this Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations (â€œMD&Aâ€) is to provide a narrative analysis explaining the reasons for material changes in the Companyâ€™s (i)Â financial condition from the most recent fiscal year-end to JuneÂ 28, 2024 and (ii)Â results of operations during the current fiscal period(s) as compared to the corresponding period(s) of the preceding fiscal year. Current quarter favorable underlying operating performance compared to the prior year period was more than offset mainly by $68.3 million in pre-tax Restructuring and other charges and transaction costs due primarily to expenses incurred relating to the Separation Transaction (mainly professional services and employee separation costs), compared to fiscal 2023 amounts of $35.2 million mainly associated with the Company's restructuring program charges (primarily employee separation costs within PA Consulting) and expenses incurred relating to the Separation Transaction (mainly professional services), which are discussed in Note 16- Restructuring and Other Charges. Also, miscellaneous net income (expense) for the three months ended JuneÂ 28, 2024 was favorably impacted by foreign exchange gains and losses compared to the corresponding period last year. Further, our reported net earnings for the current year quarter were unfavorably impacted by an increase in income taxes of $13.6 million compared to the fiscal 2023 period, attributable mainly to a tax expense of $10.6 million related to intercompany loans settled in the current period that were previously indefinitely reinvested as discussed in Note 10- Income Taxes. Finally, earnings attributable to redeemable noncontrolling interests were $3.0 million higher for the three months ended JuneÂ 28, 2024 due to higher net earnings results in our PA Consulting investment compared to the corresponding period last year.For the nine months ended JuneÂ 28, 2024, net earnings attributable to the Company from continuing operations were $481.5 million (or $3.83 per diluted share), a decrease of $35.4 million, from net earnings of $516.9 million (or $4.06 per diluted share) for the corresponding period last year. Current favorable underlying operating performance compared to the prior year period was more than offset by approximately $175.8 million in pre-tax Restructuring and other charges and transactions costs activities relating to the Separation Transaction for the current fiscal year-to-date period, compared to fiscal 2023 amounts of $38.1 million associated with the Company's transformation initiatives relating to real estate, which are discussed in Note 16- Restructuring and Other Charges. Further, the 2023 first fiscal quarter included a net favorable impact of approximately $15.0 million in overhead cost reductions associated mainly with one-time benefit program changes, which was offset in part by higher incentive and other compensation charges and higher investments in company technology platforms. Our reported net earnings for the first nine months of fiscal 2024 were also favorably impacted by lower income taxes of $4.6 million compared to the fiscal 2023 period, due mainly to a deferred income tax benefit of $61.6 million related to Australia in the first quarter of fiscal 2024 and offset in part mainly by U.S. state income tax expense and U.S. tax on foreign earnings, combined with other current quarter income tax items further discussed in Note 10- Income Taxes.Consolidated Results of OperationsRevenues for the third fiscal quarter of 2024 were $4.23 billion, an increase of $44.9 million, or 1.1%, from $4.19 billion for the corresponding period last year. For the nine months ended JuneÂ 28, 2024, revenues were $12.66 billion, an increase of $596.2 million, or 4.9%, from $12.06 billion for the corresponding period last year. Revenue increases for the quarterly year over year period were due mainly to the Company's P&PS business. For the nine month periods higher revenue levels in P&PS as well as across our other lines of business contributed to our favorable revenue results. The P&PS business benefited primarily from stronger performance in its Federal & Environmental Solutions, Energy & Power and Advanced Facilities operations while our CMS business benefited from stronger performance in Energy, Security & Technology. Our revenues were favorably impacted by foreign currency translation of $0.6 million and $82.8 for the three and nine months ended JuneÂ 28, 2024, respectively, across our international businesses, as compared to an unfavorable impact of $12.4 million and $279.0 million for the three and nine months ended JuneÂ 30, 2023, respectively.Gross profit for the third fiscal quarter of 2024 was $916.8 million, an increase of $60.0 million, or 7.0%, from $856.7 million from the corresponding period last year, with gross profit margins of 21.7% and 20.5% for the respective periods. Gross profit for the nine months ended JuneÂ 28, 2024 was $2.67 billion, an increase of $110.2 million, or 4.3%, from $2.56 billion from the corresponding period last year, with consistent gross profit margins noted for the comparative periods. The Company's increase in gross profit was mainly attributable to higher revenues as mentioned above, with slight margin impacts from year over year mix as well as personnel cost impacts primarily in the nine month period.Page 39See Segment Financial Information discussion for further information on the Companyâ€™s results of operations at the operating segment.SG&A expenses for the three and nine months ended JuneÂ 28, 2024 were $656.3 million and $1.93 billion respectively, compared to $587.0 million and $1.76 billion for the corresponding period last year, representing an increase of $69.3 million and $162.1 million or 11.8% and 9.2%, respectively. SG&A expenses for the three and nine months ended JuneÂ 28, 2024 were impacted by Restructuring and other charges and transactions related primarily to the Separation Transaction (mainly professional services and employee separation costs) of $61.9 million and $160.4 million respectively, in comparison to prior period Restructuring and other charges and transactions related mainly to real estate related costs of $0.9 million and $38.1 million respectively. Further, our reported SG&A expenses were impacted by slight increases in other department spend and personnel costs. Also, SG&A expenses were impacted by unfavorable foreign currency translation of $0.5 million and $14.4 million, respectively, for the three and nine months ended JuneÂ 28, 2024 as compared to favorable impacts of $2.9 million and $53.4 million for the corresponding periods last year.Net interest expense for the three and nine months ended JuneÂ 28, 2024 was $35.5 million and $105.4 million respectively, a decrease of $0.5 million and $0.6 million from $36.0 million and $106.0 million, or 1.3% and 0.6%, respectively, for the corresponding periods last year. Interest expense and interest income increased for the three and nine months ended JuneÂ 28, 2024 compared to the corresponding periods last year due primarily to interest rates increasing throughout fiscal year 2023 and fiscal year 2024. The increase in interest expense was offset by higher interest rates on cash held and by the Company's lower overall levels of outstanding debt compared to the comparative periods.Miscellaneous net income (expense) for the three and nine months ended JuneÂ 28, 2024 was $1.2 million and $(6.6) million, respectively, in comparison to $(7.1) million and $(14.9) million for the corresponding periods last year. The favorable comparisons to the corresponding periods last year were due primarily to favorable foreign exchange gains and losses in the current year periods, along with decreases in pension and benefit related costs noted for the nine month comparative periods.The Companyâ€™s effective tax rates from continuing operations for the three months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 were 30.0% and 23.9%, respectively. The most significant items contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Company's effective tax rate for the three-month period ended JuneÂ 28, 2024 were U.S. state income tax expense of $4.4 million and U.S. tax on foreign earnings of $10.5 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. These expense items were partly offset by a return-to-provision income tax benefit of $7.9 million, mainly attributable to additional research and development credits claimed on the U.S. federal tax return. For the three months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were attributable to U.S. state income tax expense of $5.3 million and U.S. tax on foreign earnings of $5.4 million, partly offset by a $3.5 million tax benefit for the release of previously valued foreign tax credits.Page 40The Company's effective tax rates from continuing operations for the nine months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 were 18.7% and 18.2%, respectively. The most significant item contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Companyâ€™s effective tax rate for the nine-month period ended JuneÂ 28, 2024 is related to a discrete event associated with the election to treat an Australian subsidiary as a corporation versus a partnership for U.S. tax purposes, with this election resulting in the derecognition of a deferred tax liability and yielding a discrete income tax benefit of $61.6 million as the Company asserts that a component of the investment will be indefinitely reinvested. This benefit was partly offset by U.S. state income tax expense of $11.7 million, U.S. tax on foreign earnings of $19.1 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. For the nine months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were associated with net tax benefits of $39.4 million which were mostly related to uncertain tax positions in the U.S. that were effectively settled, of which $30.8 million related to positions carried forward from the fiscal 2018 acquisition of CH2M Hill Companies Ltd., as well as a tax benefit of $12.1 million for the release of previously valued foreign tax credits. These benefits were partly offset by U.S. state income tax expense of $15.8 million and U.S. tax on foreign earnings of $13.6 million.In December 2021, the Organization for Economic Cooperation and Development ("OECD") released the Pillar Two Model Rules (also referred to as the global minimum tax or Global Anti-Base Erosion "GloBE" rules), which were designed to ensure large multinational enterprises pay a minimum 15 percent level of tax on the income arising in each jurisdiction in which they operate. Several jurisdictions in which we operate have enacted these rules, which are effective for the first quarter of the fiscal year ending September 26, 2025. The Company is continually monitoring developments and evaluating the potential impacts. At this time, the Company does not anticipate a material tax charge as a result of implementation of these rules.The amount of income taxes the Company pays is subject to ongoing audits by tax jurisdictions around the world. In the normal course of business, the Company is subject to examination by tax authorities throughout the world, including such major jurisdictions as Australia, Canada, India, the Netherlands, the United Kingdom and the United States. Our estimate of the potential outcome of any uncertain tax issue is subject to our assessment of the relevant risks, facts, and circumstances existing at the time. The Company believes that it has adequately provided for reasonably foreseeable outcomes related to these matters. However, future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate.Net earnings attributable to noncontrolling interests including redeemable noncontrolling interests for the three and nine months ended JuneÂ 28, 2024 of $12.0 million and $33.2 million, respectively and $8.6 million and $36.3 million for the corresponding periods last year. The year over year changes were primarily due to changes in net earnings results in our PA Consulting investment compared to the prior year periods.Restructuring and Other ChargesDuring fiscal 2023, the Company implemented restructuring initiatives relating to the Separation Transaction. The Company incurred approximately $19.8Â million in fiscal 2023 and $42.2 million during the nine months ended JuneÂ 28, 2024, in pre-tax cash charges in connection with these initiatives. These actions, which are expected to be substantially completed before the end of fiscal 2025, are expected to result in estimated gross annualized pre-tax cash savings of approximately $125Â million to $152 million. We will likely incur additional charges under this program through fiscal 2025, which are expected to result in additional savings in future periods. During third quarter fiscal 2023, the Company approved a plan to improve business processes and cost structures of our PA Consulting investment by reorganizing senior management and reducing headcount. In connection with these initiatives, which are expected to be substantially complete before the end of fiscal 2024, the Company incurred approximately $14.3 million during fiscal 2023 and $7.4 million in the nine months ending JuneÂ 28, 2024, in pre-tax cash charges. These activities are expected to result in estimated gross annualized pre-tax cash savings of approximately $50 million to $65 million. Page 41During fiscal 2023, the Company implemented restructuring and cost reduction initiatives relating to the formation of the reporting and operating segment, Divergent Solutions, which were substantially completed in fiscal 2023. The Company incurred approximately $7.5 million in pre-tax cash charges in connection with these initiatives during the year ended SeptemberÂ 29, 2023. These actions are expected to result in estimated gross annualized pre-tax cash savings of approximately $20 million to $24 million.During fiscal 2020 and continuing into fiscal 2023, the Company implemented further real estate rescaling efforts that were associated with its fiscal 2020 transformation program relating to real estate. These activities were substantially completed in fiscal 2023. In connection with these efforts, the Company has incurred $47.3Â million and $72.4Â million for the years ended September 29, 2023 and September 30, 2022, respectively, in pre-tax mainly non-cash charges. These actions resulted in non-cash savings related mainly to the future amortization of lease right-of-use assets over the remaining lease terms. Additionally, the objective of these initiatives was to create a modern, flexible work platform tailored to employeesâ€™ needs due to globalization and digital advances and to create total emissions savings that will be realized as we continue to optimize our real estate footprint. Additionally, the comparison of the nine month period of fiscal 2024 to the corresponding 2023 period was unfavorably impacted by the one-time net favorable impact of $41 million relating mainly to changes in employee benefits programs in the prior year, partly offset by year over year favorable department spending as well as favorable impacts of corporate functional overhead cost recovery by our lines of business.(3)The three and nine months ended JuneÂ 28, 2024 included $54.8 million and $133.9Â million, respectively, in restructuring and other charges and $7.1 million and $26.5 million, respectively, of transaction charges, mainly relating to the Separation Transaction (primarily professional services and employee separation costs). The three and nine months ended JuneÂ 30, 2023 included $17.2Â million in restructuring and other charges relating to the Company's investment in PA Consulting (primarily employee separation costs) and $13.4Â million relating to the separation activities (mainly professional services) around the Separation Transaction, and the nine months ended JuneÂ 30, 2023 included $38.1 million in real estate impairment charges related to the Company's transformation initiatives.Page 43Critical Mission SolutionsThree Months EndedNine Months EndedJune 28, 2024June 30, 2023June 28, 2024June 30, 2023Revenue$1,155,806Â $1,190,845Â $3,513,635Â $3,457,076Â Operating Profit$100,318Â $99,141Â $297,373Â $275,304Â Critical Mission Solutions segment revenues for the three and nine months ended JuneÂ 28, 2024 were $1.16 billion and $3.51 billion respectively, a decrease of $35.0 million or 2.9% and increase of $56.6 million, or 1.6%, year-to-date, from reported amounts of $1.19 billion and $3.46 billion for the corresponding periods last year. During the three months ended JuneÂ 28, 2024, the decrease is due to contracts in the defense market that completed and were not renewed. For the nine months ended JuneÂ 28, 2024, this was offset by benefits from increased volume in the nuclear remediation and energy sectors in the United Kingdom as well as strong performance from large U.S. Government client programs. Foreign currency translation had approximately $1.3Â million and $23.9Â million in favorable impacts on revenues for the three and nine months ended JuneÂ 28, 2024, respectively, compared to $2.9Â million and $61.5Â million in unfavorable impacts in the corresponding prior year periods.Operating profit for the segment was $100.3 million and $297.4 million, respectively, for the three and nine months ended JuneÂ 28, 2024, which was an increase of $1.2 million and $22.1 million, or 1.2% and 8.0%, from $99.1 million and $275.3 million compared to the corresponding periods in the prior year. Operating profit level and margin trends for the year-over-year periods were favorably impacted by increased profitability in the United Kingdom and U.S. nuclear remediation and energy markets. Foreign currency translation had approximately $0.1Â million and $3.2Â million in favorable impacts on operating profit for the three and nine months ended JuneÂ 28, 2024, as compared to $0.2 million and $7.4 million in unfavorable impacts in the corresponding prior year periods.Page 44People & Places SolutionsThree Months EndedNine Months EndedJune 28, 2024June 30, 2023June 28, 2024June 30, 2023Revenue$2,564,698Â $2,469,694Â $7,556,999Â $7,041,744Â Operating Profit$271,157Â $242,673Â $763,919Â $701,498Â Revenues for the People & Places Solutions segment for the three and nine months ended JuneÂ 28, 2024 was $2.56 billion and $7.56 billion, respectively, an increase of $95.0Â million and $515.3Â million, or 3.8% and 7.3%, from reported amounts of $2.47Â billion and $7.04Â billion for the corresponding periods last year. The increase in revenue for the three and nine months ended JuneÂ 28, 2024 was driven by net revenue growth across all sectors, particularly in water, life sciences and energy. Foreign currency translation had approximately $3.1Â million in unfavorable and $26.5Â million in favorable impacts on revenues for the three and nine months ended JuneÂ 28, 2024, as compared to $10.1Â million and $144.6Â million in unfavorable impacts in the corresponding prior year periods.Operating profit for the People & Places Solutions segment for the three and nine month period ended JuneÂ 28, 2024 was $271.2 million and $763.9 million, respectively, an increase of $28.5 million and $62.4 million, or 11.7% and 8.9%, from $242.7 million and $701.5 million for the corresponding period last year. The increase in the three and nine month periods is a result of higher year over year segment revenues mentioned above with partially offsetting impacts from higher corporate cost allocations versus the prior year period. Further, operating profit in the three month period benefited from the non-cash reversal of certain accruals associated with a client program completed in a prior year, which benefit was largely offset by the unfavorable discrete impacts of higher than usual year over year medical and other benefit costs during the quarter. The net impact of these adjustments was immaterial in the three and nine month periods presented. Foreign currency translation had approximately $0.7Â million in unfavorable and $4.7Â million in favorable impacts on operating profit for the three and nine months ended JuneÂ 28, 2024, as compared to $3.4Â million and $28.7Â million in unfavorable impacts in the corresponding prior year periods.Divergent SolutionsThree Months EndedNine Months EndedJune 28, 2024June 30, 2023June 28, 2024June 30, 2023Revenue$222,805Â $239,289Â $701,025Â $694,978Â Operating Profit$12,394Â $20,794Â $38,951Â $57,623Â Page 45Revenues for the Divergent Solutions segment for the three and nine months ended JuneÂ 28, 2024 were $222.8Â million and $701.0Â million, respectively, a decrease of $16.5 million, or 6.9%, and increase of $6.0 million, or 0.9%, from $239.3 million and $695.0 million for the corresponding periods last year. The decrease in revenue for the three months ended June 28, 2024 was mainly due to a National Government program ending. The nine month increase is due to startup of new programs previously won in fiscal 2023. Foreign currency translation did not have a material impact on revenue in our Divergent Solutions segment for either period presented.Operating profit for the segment was $12.4 million and $39.0 million, for the three and nine months ended JuneÂ 28, 2024, respectively, a decrease of $8.4 million and $18.7 million, or 40.4% and 32.4%, from $20.8 million and $57.6 million for the corresponding periods last year. In addition to revenue declines as mentioned above, the three month decrease is driven by unfavorable impacts of changes in overhead billing rates during the current year quarter of 2024 vs. the prior year quarter mainly in our Cyber & Intelligence business. Additionally, operating profit for the nine month period reflected mostly consistent underlying performance in the Cyber & Intelligence business unit and the new programs previously won in fiscal 2023, although substantially offset by an approximate one-time $15 million pre-tax non-cash charge associated with an inventory write down during the fiscal 2024 period. Foreign currency translation had an immaterial impact on operating profit in our Divergent Solutions segment for both periods presented.PA ConsultingThree Months EndedNine Months EndedJune 28, 2024June 30, 2023June 28, 2024June 30, 2023Revenue$288,271Â $286,874Â $888,239Â $869,904Â Operating Profit$62,889Â $60,864Â $177,513Â $177,521Â Revenues for the PA Consulting segment for the three and nine months ended JuneÂ 28, 2024 were $288.3 million and $888.2 million, respectively, a change of $1.4 million and $18.3 million, or 0.5% and 2.1%, from $286.9 million and $869.9 million in the corresponding periods last year. The nine month change is primarily due to growth in PA Consulting's Public Sector work. Foreign currency translation had approximately $31.4 million in favorable impacts on revenues for the nine months ended JuneÂ 28, 2024, respectively, as compared to $71.7 million in unfavorable impacts in the corresponding prior year period.Operating profit for the segment for the three and nine months ended JuneÂ 28, 2024 was $62.9 million and $177.5 million, respectively, an increase of $2.0 million, or 3.3%, and flat, from $60.9 million and $177.5 million in the corresponding periods last year. The year-on-year improvement in the quarter is due mainly to the higher revenues noted above along with benefits from cost reduction programs while the nine month periods showed consistent performance levels.Â Â Â Â Other Corporate ExpensesOther corporate expenses for the three and nine months ended JuneÂ 28, 2024 were $118.0 million and $356.4 million, respectively, a decrease of $0.4 million, or 0.4%, and increase of $36.6 million, or 11.5%, from $118.5 million and $319.8 million for the corresponding periods last year. The quarter-to-date period compared to the prior year was relatively flat, while the comparison of the nine months period of fiscal 2024 to the corresponding 2023 period was unfavorably impacted by a one-time net favorable impact of $41 million relating mainly to changes in employee benefits programs during first quarter 2023, partly offset by year over year favorable department spending as well as favorable impacts of corporate functional overhead cost recovery by our lines of business. Additionally, the fiscal 2024 year-to-date period reflects approximately $11 million in one-time non-cash intangibles impairment charges. Included in other corporate expenses are costs and expenses which relate to general corporate activities as well as corporate-managed benefit and insurance programs. Such costs and expenses include: (i) those elements of SG&A Page 46expenses relating to the business as a whole; (ii) those elements of our incentive compensation plans relating to corporate personnel whose other compensation costs are not allocated to the LOBs; (iii) the amortization of intangible assets acquired as part of business combinations; (iv) the quarterly variances between the Companyâ€™s actual costs of certain of its self-insured integrated risk and employee benefit programs and amounts charged to the LOBs; and (v) certain adjustments relating to costs associated with the Companyâ€™s international defined benefit pension plans. In addition, other corporate expenses may also include from time to time certain adjustments to contract margins (both positive and negative) associated with projects, as well as other items, where it has been determined that such adjustments are not indicative of the performance of the related LOB.Page 47Backlog InformationBacklog represents revenue we expect to realize for work to be completed by our consolidated subsidiaries and our proportionate share of work to be performed by unconsolidated joint ventures. Because of variations in the nature, size, expected duration, funding commitments, and the scope of services required by our contracts, the amount and timing of when backlog will be recognized as revenues includes significant estimates and can vary greatly between individual contracts. Consistent with industry practice, substantially all of our contracts are subject to cancellation or termination at the option of the client, including our U.S. government work. While management uses all information available to determine backlog, at any given time our backlog is subject to changes in the scope of services to be provided as well as increases or decreases in costs relating to the contracts included therein. Backlog is not necessarily an indicator of future revenues.Because certain contracts (e.g., contracts relating to large Engineering, Procurement & Construction ("EPC") projects as well as national government programs) can cause large increases to backlog in the fiscal period in which we recognize the award, and because many of our contracts require us to provide services that span over several fiscal quarters (and sometimes over fiscal years), we have presented our backlog on a year-over-year basis, rather than on a sequential, quarter-over-quarter basis.The following table summarizes our backlog at JuneÂ 28, 2024 and JuneÂ 30, 2023 (in millions):June 28, 2024June 30, 2023Critical Mission Solutions$8,450Â $8,097Â People & Places Solutions19,277Â 17,498Â Divergent Solutions2,521Â 2,965Â PA Consulting369Â 355Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Total$30,617Â $28,915Â The increase in backlog in Critical Mission Solutions from JuneÂ 30, 2023 was primarily driven by growth and increased funding levels in the United Kingdom and U.S. nuclear remediation markets along with growth in the U.K. defense sector and U.S. Telecom market that offset slower growth in the U.S. Defense sector.The increase in backlog in People & Places Solutions from JuneÂ 30, 2023 was predominantly driven by growth in the Life Sciences and Water markets.The decrease in backlog in Divergent Solutions (DVS) from JuneÂ 30, 2023 was due to a major National Government program ending earlier than expected. The increase in backlog in PA Consulting from JuneÂ 30, 2023 was primarily driven by organic year-over-year growth of the business.Consolidated backlog differs from the Companyâ€™s remaining performance obligations as defined by ASC 606 primarily because of contract change orders or new wins not yet processed and our national government contracts where our policy is to generally include in backlog the contract award, whether funded or unfunded excluding certain option periods while our remaining performance obligations represent a measure of the total dollar value of work to be performed on contracts awarded and in progress. Additionally, the Company does not include our proportionate share of backlog related to unconsolidated joint ventures in our remaining performance obligations.Liquidity and Capital ResourcesAt JuneÂ 28, 2024, our principal sources of liquidity consisted of $1.21 billion in cash and cash equivalents and $2.19 billion of available borrowing capacity under our $2.25 billion revolving credit agreement (the "Revolving Credit Facility"). We finance much of our operations and growth through cash generated by our operations.Cash and cash equivalents at JuneÂ 28, 2024 were $1.21 billion, representing an increase of $282.1 million from $926.6 million at SeptemberÂ 29, 2023, the reasons for which are described below. Page 48Our net cash flow provided by operations of $858.1 million during the nine months ended JuneÂ 28, 2024 was favorable by $102.7 million in comparison to the cash flow provided by operations of $755.4 million for the corresponding prior year period. The year-over-year increase in cash from operations is due mainly to higher cash generated from net earnings as adjusted for non-cash income statement activities including favorable net impacts mainly in accrued liabilities, prepaid expenses and other deferred liabilities, while impacts from other net working capital performance were overall consistent year over year. Our net cash used for investing activities for the nine months ended JuneÂ 28, 2024 was $95.0 million, compared to cash used for investing activities of $106.4 million in the corresponding prior year period, with this change due primarily to lower levels of additions to plant, property and equipment in the current year.Our net cash used for financing activities of $492.6 million for the nine months ended JuneÂ 28, 2024 is driven by share repurchases of $346.4 million, $106.4 million in dividends to shareholders, and $22.0 million in net PA Consulting related redeemable noncontrolling interests purchase and issuance activity, partly offset by proceeds from issuances of common stock of $35.4 million. Cash used for financing activities in the corresponding prior year period was $770.3 million, due primarily to net repayments from borrowings of $338.6 million, share repurchases of $265.6 million, $95.7 million in dividends to shareholders, and $55.7 million in net PA Consulting related redeemable noncontrolling interests purchase and issuance activity. At JuneÂ 28, 2024, the Company had approximately $423.5Â million in cash and cash equivalents held in the U.S. and $785.2Â million held outside of the U.S. (primarily in the U.K., the Eurozone, Australia, India, Canada, Saudi Arabia and the United Arab Emirates), which is used primarily for funding operations in those regions. Other than the tax cost of repatriating funds to the U.S. (see Note 7- Income Taxes of Notes to Consolidated Financial Statements included in our 2023 Form 10-K), there are no material impediments to repatriating these funds to the U.S.The Company had $296.1 million in letters of credit outstanding at JuneÂ 28, 2024. Of this amount, $0.5 million was issued under the Revolving Credit Facility and $295.6 million was issued under separate, committed and uncommitted letter-of-credit facilities.Long-term debt as of JuneÂ 28, 2024 decreased by $722.0Â million compared to SeptemberÂ 29, 2023 primarily due to the reclassification of $785.7Â million from long-term to short-term in March 2024 in connection with the March 25, 2025 scheduled maturity of the 2020 Term Loan Facility.Under the Separation Transaction, Jacobs and its shareholders will own up to 63% of the combined company's common stock upon consummation of the transaction, the exact amount of which will be determined based on the achievement of certain fiscal year 2024 operating profit targets. Jacobs is also expected to receive $1 billion of cash proceeds at closing, subject to customary adjustments. The Company expects to use this cash received at closing to repay outstanding indebtedness. Jacobs is also expected to realize additional value after closing through the disposition of its retained equity stake in the combined company within 12 months of the transaction closing date.On February 6, 2023, the Company refinanced its Revolving Credit Facility and Term Loan Facilities, and on February 16, 2023, the Company issued the 5.90% Bonds in the aggregate principal amount of $500.0 million. On August 18, 2023, the Company issued the 6.35% Bonds in the aggregate principal amount of $600.0 million. See Note 12 - Borrowings for further discussion relating to the terms of the 5.90% Bonds, the 6.35% Bonds, the Revolving Credit Facility and Term Loan Facilities following the issuances and refinancing.We believe we have adequate liquidity and capital resources to fund our projected cash requirements for the next twelve months based on the liquidity provided by our cash and cash equivalents on hand, our borrowing capacity and our continuing cash from operations. We were in compliance with all of our debt covenants at JuneÂ 28, 2024.Page 49Supplemental Obligor Group Financial InformationOn February 16, 2023, Jacobs Engineering Group Inc., a wholly-owned subsidiary of Jacobs Solutions Inc. (together, the "Obligor Group"), completed an offering of $500 million aggregate principal amount of 5.90% Bonds, due 2033 and on August 18, 2023, completed an offering of $600 million aggregate principal amount of 6.35% Bonds, due 2028 (collectively the â€œBondsâ€). The Bonds are fully and unconditionally guaranteed by the Company (the â€œGuaranteesâ€). The Bonds and the respective Guarantees were offered pursuant to prospectus supplements, dated February 13, 2023 and August 15, 2023, respectively, to the prospectus dated February 6, 2023, that forms a part of the Company and JEGIâ€™s automatic shelf registration statement on Form S-3ASR (File Nos. 333-269605 and 333-269605-01) previously filed with the SEC.In accordance with SEC Regulation S-X Rule 13-01, set forth below is the summarized financial information for the Obligor Group on a combined basis after elimination of (i) intercompany transactions and balances between Jacobs and JEGI and (ii) equity in the earnings from and investments in all other subsidiaries of the Company that do not guarantee the registered securities of either Jacobs or JEG. Â Â Â Â Quantitative and Qualitative Disclosures About Market Risk.We do not enter into derivative financial instruments for trading, speculation or other similar purposes that would expose the Company to market risk. In the normal course of business, our results of operations are exposed to risks associated with fluctuations in interest rates and currency exchange rates.Interest Rate RiskPlease see the Note 12- Borrowings in Notes to Consolidated Financial Statements appearing under Part I, Item 1 of this Quarterly Report on Form 10-Q, which is incorporated herein by reference, for a discussion of the Revolving Credit Facility, Term Loan Facilities and Note Purchase Agreement.Our Revolving Credit Facility, Term Loan Facilities and certain other debt obligations are subject to variable rate interest which could be adversely affected by an increase in interest rates. As of JuneÂ 28, 2024, we had an aggregate of $1.83 billion in outstanding borrowings under our Revolving Credit Facility and Term Loan Facilities. Interest on amounts borrowed under these agreements is subject to adjustment based on the Companyâ€™s Consolidated Leverage Ratio (as defined in the credit agreements governing the Revolving Credit Facility and the Term Loan Facilities). Depending on the Companyâ€™s Consolidated Leverage Ratio, borrowings denominated in U.S. dollars under the Revolving Credit Facility and the Term Loan Facilities bear interest at a SOFR rate plus a margin of between 0.975% and 1.725% or a base rate plus a margin of between 0.0% and 0.625% including applicable margins while borrowings denominated in British pounds under these respective facilities bear interest at an adjusted SONIA rate plus a margin of between 0.908% and 1.658%. Additionally, our Revolving Credit Facility, Term Loan Facilities and our 5.90% Bonds have interest rates subject to potential increases relating to certain ESG metrics as stipulated in the related agreements and as discussed in Note 12- Borrowings.However, as discussed in Note 17- Commitments and Contingencies and Derivative Financial Instruments, we are party to swap agreements with an aggregate notional value of $746.2 million to convert the variable rate interest based liabilities associated with a corresponding amount of our debt into fixed interest rate liabilities, leaving $1.08 billion in principal amount subject to variable interest rate risk. Additionally, during fiscal 2022, we entered into two treasury lock arrangements with an aggregate notional value of $500.0 million, which were settled in the second quarter fiscal 2023, and are disclosed in further detail in Note 17- Commitments and Contingencies and Derivative Financial Instruments.For the nine months ended June 28, 2024, our weighted average borrowings that are subject to floating rate exposure were approximately $1.33 billion. If floating interest rates had increased by 1.00%, our interest expense for the nine months ended June 28, 2024 would have increased by approximately $10.0 million.Foreign Currency RiskIn situations where the Company incurs costs in currencies other than our functional currency, we sometimes enter into foreign exchange contracts to limit our exposure to fluctuating foreign currencies. We follow the provisions of ASC 815, Derivatives and Hedging in accounting for our derivative contracts. The Company has $1,056.6 million in notional value of exchange rate sensitive instruments at JuneÂ 28, 2024. See Note 17- Commitments and Contingencies and Derivative Financial Instruments for discussion.Page 51Item 4.Â Â Â Â Controls and Procedures.Evaluation of Disclosure Controls and ProceduresDisclosure controls and procedures are those controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€) are recorded, processed, summarized and reported within the time periods specified in the SECâ€™s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), to allow timely decisions regarding required disclosure. The Companyâ€™s management, with the participation of its Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), evaluated the effectiveness of the Companyâ€™s disclosure controls and procedures as defined by Rule 13a-15(e) of the Exchange Act defined above, as of JuneÂ 28, 2024, the end of the period covered by this Quarterly Report on Form 10-Q (the â€œEvaluation Dateâ€). Based on that evaluation, the Companyâ€™s management, with the participation of the Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) concluded that the Companyâ€™s disclosure controls and procedures, as of the Evaluation Date, were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SECâ€™s rules and forms and that such information is accumulated and communicated to the Companyâ€™s management, including the Companyâ€™s Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), as appropriate to allow timely decisions regarding required disclosure.Changes in Internal Control Over Financial ReportingThere were no changes to our internal control over financial reporting which were identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the quarter ended JuneÂ 28, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.Page 52PART II - OTHER INFORMATIONItem 1.Â Â Â Â Legal Proceedings.The information required by this Item 1 is included in the Note 17- Commitments and Contingencies and Derivative Financial Instruments included in the Notes to Consolidated Financial Statements appearing under Part I, Item 1 of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.Item 1A.Â Â Â Â Risk Factors.Please refer to ItemÂ 1A- Risk Factors in our 2023 Form 10-K, which is incorporated herein by reference, for a discussion of some of the factors that have affected our business, financial condition, and results of operations in the past and which could affect us in the future. Company and the persons and entities holding noncontrolling interests in our consolidated subsidiaries.On August 29, 2022, Jacobs Engineering Group Inc. ("JEGI"), the predecessor to Jacobs Solutions Inc., implemented a holding company structure, which resulted in Jacobs Solutions Inc. becoming the parent company of, and successor issuer to, JEGI (the "Holding Company Reorganization"). For purposes of this report, references to Jacobs and the "Company", "we", "us" or "our" or our management or business at any point prior to the Holding Company Implementation Date refer to JEGI, or JEGI and its consolidated subsidiaries as the predecessor to Jacobs Solutions Inc.The accompanying consolidated financial statements and financial information included herein have been prepared pursuant to the interim period reporting requirements of Form 10-Q. Consequently, certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (â€œU.S. GAAPâ€) have been condensed or omitted. Readers of this Quarterly Report on Form 10-Q should also read our consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended SeptemberÂ 29, 2023 (â€œ2023 Form 10-Kâ€).In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of our consolidated financial statements as of JuneÂ 28, 2024, and for the three and nine months

ended JuneÂ 28, 2024.Our interim results of operations are not necessarily indicative of the results to be expected for the full fiscal year.On November 20, 2023, Jacobs entered into a definitive agreement to spin-off and combine our Critical Mission Solutions ("CMS") and portions of our Divergent Solutions business, including Cyber & Intelligence (the "Separated Businesses") with Amentum Parent Holdings LLC ("Amentum"), in a Reverse Morris Trust transaction intended to be tax-free to Jacobsâ€™ shareholders for U.S. federal income tax purposes (hereinafter referred to as the â€œSeparation Transactionâ€). The Separation Transaction, which is expected to close in the second half of September 2024, is subject to regulatory approvals and other customary closing conditions.On April 26, 2019, Jacobs completed the sale of its Energy, Chemicals and Resources ("ECR") business to Worley Limited ("Worley"), a company incorporated in Australia, for a purchase price of $3.4 billion consisting of (i) $2.8 billion in cash plus (ii) 58.2 million ordinary shares of Worley, subject to adjustments for changes in working capital and certain other items (the â€œECR saleâ€). As a result of the ECR sale, substantially all ECR-related assets and liabilities were sold (the "Disposal Group"). We determined that the Disposal Group should be reported as discontinued operations in accordance with ASC 210-05, Discontinued Operations because their disposal represents a strategic shift that had a major effect on our operations and financial results. As such, the financial results of the ECR business are reflected in our unaudited Consolidated Statements of Earnings as discontinued operations for all periods presented and all of the ECR business to be sold under the terms of the ECR sale had been conveyed to Worley and as such, no amounts remain held for sale. Although such estimates and assumptions are based on managementâ€™s most recent assessment of the underlying facts and circumstances utilizing the most current information available and past experience, actual results could differ significantly from those estimates and assumptions. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the date fair value is determined (the â€œmeasurement dateâ€). When determining fair value, we consider the principal or most advantageous market in which we would transact, and we consider only those assumptions we believe a typical market participant would consider when pricing an asset or liability. In measuring fair value, we use the following inputs in the order of priority indicated:Level 1 - Quoted prices in active markets for identical assets or liabilities.Level 2 - Observable inputs other than quoted prices in active markets included in Level 1, such as (i) quoted prices for similar assets or liabilities; (ii) quoted prices in markets that have insufficient volume or infrequent transactions (e.g., less active markets); and (iii) model-driven valuations in which all significant inputs are observable or can be derived principally from, or corroborated with, observable market data for substantially the full term of the asset or liability.Level 3 - Unobservable inputs to the valuation methodology that are significant to the fair value measurement.Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a more complete discussion of the various items within the consolidated financial statements measured at fair value and the methods used to determine fair value. Please also refer to Note 17- Commitments and Contingencies and Derivative Financial Instruments for discussion regarding the Company's derivative instruments.The net carrying amounts of cash and cash equivalents, trade receivables and payables and short-term debt approximate fair value due to the short-term nature of these instruments. See Note 12- Borrowings for a discussion of the fair value of long-term debt.Fair value measurements relating to our business combinations and goodwill allocations related to our Divergent Solutions ("DVS") segment realignment were made primarily using Level 3 inputs including discounted cash flow techniques. Fair value for the identified intangible assets is generally estimated using inputs primarily for the income approach using the multiple period excess earnings method and the relief from royalties method. The significant assumptions used in estimating fair value include (i) revenue projections of the business, including profitability, (ii) attrition rates and (iii) the estimated discount rate that reflects the level of risk associated with receiving future cash flows. Other personal property assets, such as furniture, fixtures and equipment, are valued using the cost approach, which is based on replacement or reproduction costs of the asset less depreciation. The fair value of the contingent consideration is estimated using a Monte Carlo simulation and the significant assumptions used include projections of revenues and probabilities of meeting those projections. Key inputs to the valuation of the noncontrolling interests include projected cash flows and the expected volatility associated with those cash flows. The undistributed earnings are allocated between common shares and participating securities as if all earnings had been distributed during the period. Participating securities and common shares have equal rights to undistributed earnings. Net earnings used for the purpose of determining basic and diluted EPS is determined by taking net earnings, less earnings available to participating securities and the preferred redeemable noncontrolling interests redemption value adjustment associated with the PA Consulting transaction. The most significant items contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Company's effective tax rate for the three-month period ended JuneÂ 28, 2024 were U.S. state income tax expense of $4.4 million and U.S. tax on foreign earnings of $10.5 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. These expense items were partly offset by a return-to-provision income tax benefit of $7.9 million, mainly attributable to additional research and development credits claimed on the U.S. federal tax return. For the three months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were attributable to U.S. state income tax expense of $5.3 million and U.S. tax on foreign earnings of $5.4 million, partly offset by a $3.5 million tax benefit for the release of previously valued foreign tax credits.The Company's effective tax rates from continuing operations for the nine months ended JuneÂ 28, 2024 and JuneÂ 30, 2023 were 18.7% and 18.2%, respectively. The most significant item contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Companyâ€™s effective tax rate for the nine-month period ended JuneÂ 28, 2024 is related to a discrete event associated with the election to treat an Australian subsidiary as a corporation versus a partnership for U.S. tax purposes, with this election resulting in the derecognition of a deferred tax liability and yielding a discrete income tax benefit of $61.6 million as the Company asserts that a component of the investment will be indefinitely reinvested. This benefit was partly offset by U.S. state income tax expense of $11.7 million, U.S. tax on foreign earnings of $19.1 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. The U.S. state income tax and U.S. tax on foreign earnings are expected to have a continuing impact on the Company's effective tax rate for the remainder of the fiscal year. For the nine months ended JuneÂ 30, 2023, the main differences compared to the U.S. federal statutory rate were associated with net tax benefits of $39.4 million which were mostly related to uncertain tax positions in the U.S. that were effectively settled, of which $30.8 million related to positions carried forward from the fiscal 2018 acquisition of CH2M Hill Companies Ltd., as well as a tax benefit of $12.1 million for the release of previously valued foreign tax credits. These benefits were partly offset by U.S. state income tax expense of $15.8 million and U.S. tax on foreign earnings of $13.6 million.In December 2021, the Organization for Economic Cooperation and Development ("OECD") released the Pillar Two Model Rules (also referred to as the global minimum tax or Global Anti-Base Erosion "GloBE" rules), which were designed to ensure large multinational enterprises pay a minimum 15 percent level of tax on the income arising in each jurisdiction in which they operate. Several jurisdictions in which we operate have enacted these rules, which are effective for the first quarter of the fiscal year ending September 26, 2025. The Company is continually monitoring developments and evaluating the potential impacts. At this time, the Company does not anticipate a material tax charge as a result of implementation of these rules.The amount of income taxes the Company pays is subject to ongoing audits by tax jurisdictions around the world. In the normal course of business, the Company is subject to examination by tax authorities throughout the world, including such major jurisdictions as Australia, Canada, India, the Netherlands, the United Kingdom and the United States. Our estimate of the potential outcome of any uncertain tax issue is subject to our assessment of the relevant risks, facts, and circumstances existing at the time. The Company believes that it has adequately provided for reasonably foreseeable outcomes related to these matters. However, future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate. existing real estate lease portfolio. These initiatives resulted in the abandonment of certain leased office spaces and the establishment of a formal plan to sublease certain other leased spaces that will no longer be utilized by the Company. In connection with the Companyâ€™s actions related to these initiatives, the Company evaluated certain of its lease right-of-use assets and related property, equipment and leasehold improvements for impairment under ASC 360.As a result of the analysis, the Company recognized impairment losses during the nine months ended JuneÂ 30, 2023 of $38.1Â million which are included in selling, general, and administrative expenses in the accompanying statement of earnings. The impairment losses recorded include $33.1Â million related to the right-of-use lease assets and $5.0Â million related to the other long-lived assets, including property, equipment, and improvements and leasehold improvements for the fiscal 2023 period.The fair values for the asset groups relating to the impaired long-lived assets were estimated primarily using discounted cash flow models (income approach) with Level 3 inputs. As such, we sometimes enter into foreign exchange hedging contracts and interest rate hedging contracts in order to limit our exposure to fluctuating foreign currencies and interest rates. During fiscal 2022, the Company entered into two treasury lock agreements with a total notional value of $500Â million to manage its interest rate exposure to the anticipated issuance of fixed rate debt before December 2023. On FebruaryÂ 13, 2023, the Company settled these treasury lock agreements and issued the 5.90% Bonds in the aggregate principal amount of $500Â million, which resulted in the receipt of cash and a gain of $37.4Â million, before tax, which is being amortized to interest expense and recognized over the term of the 5.90% Bonds. See Note 12- Borrowings for further discussion relating to the terms of the 5.90% Bonds. The unrealized net gain on these instruments was $24.3 million and $26.5 million, net of tax, and is included in accumulated other comprehensive income as of JuneÂ 28, 2024 and SeptemberÂ 29, 2023, respectively. In fiscal 2020 we entered into interest rate swap agreements with a notional value of $746.2 million as of JuneÂ 28, 2024 to manage the interest

rate exposure on our variable rate loans. By entering into the swap agreements, the Company converted the LIBOR and SONIA rate based liabilities into fixed rate liabilities, for periods ranging from five to ten years. The fair value of the interest rate swaps at JuneÂ 28, 2024 was $76.4Â million of which $66.7 million is included within miscellaneous other assets and $9.7 million is included within current assets on the consolidated balance sheet as of JuneÂ 28, 2024. The fair value of interest rate swaps at SeptemberÂ 29, 2023 was $102.6Â million, which are included in miscellaneous other assets on the consolidated balance sheet as of SeptemberÂ 29, 2023. The unrealized net gain on these interest rate swaps as of JuneÂ 28, 2024 and SeptemberÂ 29, 2023 was $57.5Â million and $77.2Â million, respectively, net of tax, and was included in accumulated other comprehensive income. Additionally, in fiscal 2020, we entered into a cross currency swap agreement with a notional value of $127.8Â million to manage the interest rate and foreign currency exposure on our USD borrowings by a European subsidiary. By entering into the cross currency swap, the Company converted our LIBOR rate based borrowing in USD to a fixed rate Euro liability for three and a half years. During the fourth quarter of fiscal 2023, the Company paid down the borrowings hedged by the cross currency swap and settled the cross currency swap agreement.During fiscal 2023, the aggregate liability amounts denominated in U.S. dollars transitioned from underlying LIBOR benchmarked rates to the SOFR and the terms of the swaps were amended accordingly. The swaps were designated as cash-flow hedges in accordance with ASC 815, Derivatives and Hedging. Additionally, the Company held foreign exchange forward contracts in currencies that support our operations, including British Pound, Australian Dollar, Euro and other currencies, with notional values of $1,056.6 million at JuneÂ 28, 2024 and $857.7Â million at SeptemberÂ 29, 2023. The length of these contracts currently ranges from one week to 7 months. The fair value of the foreign exchange contracts at JuneÂ 28, 2024 was $(1.9) million, of which $(2.6) million is included within current liabilities and $0.7 million is included within current assets on the consolidated balance sheet as of JuneÂ 28, 2024. The fair value of the contracts as of SeptemberÂ 29, 2023 was $9.5Â million, of which $16.1 million is included within current assets and $(6.6) million is included within current liabilities on the consolidated balance sheet as of SeptemberÂ 29, 2023. Associated income statement impacts are included in miscellaneous income (expense) in the consolidated statements of earnings for both periods. The fair value measurements of these derivatives are being made using Level 2 inputs under ASC 820, Fair Value Measurement, as the measurements are based on observable inputs other than quoted prices in active markets. We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under forward exchange and interest rate contracts and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties.Contractual Guarantees and InsuranceIn the normal course of business, we make contractual commitments (some of which are supported by separate guarantees) and on occasion we are a party in a litigation or arbitration proceeding. The litigation or arbitration in which we are involved includes personal injury claims, professional liability claims and breach of contract claims. Where we provide a separate guarantee, it is strictly in support of the underlying contractual commitment. Guarantees take various forms including surety bonds required by law, or standby letters of credit ("LOC" and also referred to as â€œbank guaranteesâ€) or corporate guarantees given to induce a party to enter into a contract with a subsidiary. Standby LOCs are also used as security for advance payments or in various other transactions. The guarantees have various expiration dates ranging from an arbitrary date to completion of our work (e.g., engineering only) to completion of the overall project. We record in the Consolidated Balance Sheets amounts representing our estimated liability relating to such guarantees, litigation and insurance claims. Guarantees are accounted for in accordance with ASC 460-10, Guarantees, at fair value at the inception of the guarantee.At JuneÂ 28, 2024 and SeptemberÂ 29, 2023, the Company had issued and outstanding approximately $296.1 million and $322.0 million, respectively, in LOCs and $2.1Â billion and $2.0Â billion, respectively, in surety bonds.We maintain insurance coverage for most insurable aspects of our business and operations. Our insurance programs have varying coverage limits depending upon the type of insurance and include certain conditions and exclusions which insurance companies may raise in response to any claim that is asserted by or against the Company. We have also elected to retain a portion of losses and liabilities that occur through using various deductibles, limits, and retentions under our insurance programs. As a result, we may be subject to a future liability for which we are only partially insured or completely uninsured. We intend to mitigate any such future liability by continuing to exercise prudent business judgment in negotiating the terms and conditions of the contracts which the Company enters with its clients. Our insurers are also subject to business risk and, as a result, one or more of them may be unable to fulfill their insurance obligations due to insolvency or otherwise.Additionally, as a contractor providing services to the U.S. federal government, we are subject to many types of audits, investigations, and claims by, or on behalf of, the government including with respect to contract performance, pricing, cost allocations, procurement practices, labor practices, and socioeconomic obligations. Furthermore, our income, franchise, and similar tax returns and filings are also subject to audit and investigation by the Internal Revenue Service, most states within the United States, as well as by various government agencies representing jurisdictions outside the United States.Our Consolidated Balance Sheets include amounts representing our probable estimated liability relating to such claims, guarantees, litigation, audits, and investigations. We perform an analysis to determine the level of reserves to establish for insurance-related claims that are known and have been asserted against us, as well as for insurance-related claims that are believed to have been incurred based on actuarial analysis but have not yet been reported to our claims administrators as of the respective balance sheet dates. We include any adjustments to such insurance reserves in our consolidated results of operations. Insurance recoveries are recorded as assets if recovery is probable and estimated liabilities are not reduced by expected insurance recoveries.The Company believes, after consultation with counsel, that such guarantees, litigation, U.S. government contract-related audits, investigations and claims, and income tax audits and investigations should not have a material adverse effect on our consolidated financial statements, beyond amounts currently accrued.Litigation and InvestigationsIn 2012, CH2M HILL Australia PTY Limited, a subsidiary of CH2M, entered into a 50/50 integrated joint venture with Australian construction contractor UGL Infrastructure Pty Limited. The joint venture entered into a Consortium Agreement with General Electric and GE Electrical International Inc. The Consortium was awarded a subcontract by JKC Australia LNG Pty Limited ("JKC") for the engineering, procurement, construction and commissioning of a 360 MW Combined Cycle Power Plant for INPEX Operations Australia Pty Limited at Blaydin Point, Darwin, NT, Australia (the "Legacy CH2M Matter"). The subcontract was terminated in January 2017. In or around August 2017, the Consortium commenced an arbitration. On April 12, 2022, JKC and the Consortium entered into a confidential deed of settlement (â€œSettlement Agreementâ€). Under the terms of the Settlement Agreement, CH2M, as guarantor of CH2M Australia PTY Limitedâ€™s obligations with respect to the subcontract with JKC, made a cash payment to JKC in April 2022 of AUD 640Â million (or approximately $475Â million using mid-April 2022 exchange rates). As a result of the settlement agreement, additional pre-tax charges of $91.3Â million were recorded during the year ended SeptemberÂ 30, 2022 for this matter (over amounts previously reserved and reported in long-term Other Deferred Liabilities in the Company's Consolidated Balance Sheet). The Settlement Agreement provided for a release of claims between JKC and each member of the Consortium, and in connection with this agreement the members of the Consortium also waived all claims against each other and their respective parent guarantors relating to the project. On December 22, 2008, a coal fly ash pond at the Kingston Power Plant of the Tennessee Valley Authority ("TVA") was breached, releasing fly ash waste into the Emory River and surrounding community. In February 2009, TVA awarded a contract to the Company to provide project management services associated with the clean-up. All remediation and dredging were completed in August 2013 by other contractors under direct contracts with TVA. The Company did not perform the remediation, and its scope was limited to program management services. Certain employees of the contractors performing the cleanup work on the project filed lawsuits against the Company beginning in August 2013, alleging they were injured due to the Company's failure to protect the plaintiffs from exposure to fly ash, and asserting related personal injuries. The primary case, Greg Adkisson, et al. v. Jacobs Engineering Group Inc., case No. 3:13-CV-505-TAV-HBG, filed in the U.S. District Court for the Eastern District of Tennessee, consisted of 10 consolidated cases. This case and the related cases involved several hundred plaintiffs that were employees of the contractors that completed the remediation and dredging work. In the second quarter of fiscal 2023, the Company entered into a settlement agreement with the plaintiffs whose cases had not been previously dismissed. As of the third quarter of fiscal 2023, all conditions to the settlement had been satisfied, and the cases dismissed. The amount of the settlement was not material to the Company's business, financial condition, results of operations or cash flows. During the fourth quarter of fiscal 2022, the Company recorded a receivable for certain expected third-party recoveries equal to approximately $27Â million before tax, which was collected during first half of fiscal 2023. Under this organization, the sales function is managed by segment, and accordingly, the associated cost is embedded in the segments and reported to the respective head of each segment. In addition, a portion of the costs of other support functions (e.g., finance, legal, human resources, and information technology) is allocated to each segment using methodologies which, we believe, effectively attribute the cost of these support functions to the revenue generating activities of the Company on a rational basis. The cost of the Companyâ€™s cash incentive plan, the Leadership Performance Plan ("LPP"), formerly named the Management Incentive Plan, and the expense associated with the Jacobs 1999 Stock Incentive Plan, which was amended and restated in the second quarter of 2023 and is now referred to as the Jacobs 2023 Stock Incentive Plan (the "2023 SIP") have likewise been charged to the segments except for those amounts determined to relate to the business as a whole (which amounts remain in other corporate expenses).Financial information for each segment is reviewed by the CODM to assess performance and make decisions regarding the allocation of resources. The CODM evaluates the operating performance of our operating segments using segment operating profit, which is defined as margin less â€œcorporate chargesâ€ (e.g., the allocated amounts described above). The Company incurs certain Selling, General and Administrative costs (â€œSG&Aâ€) that relate to its business as a whole which are not allocated to the segments.The following tables present total revenues and segment operating profit from continuing operations for each reportable segment (in thousands) and includes a reconciliation of segment operating profit to total U.S. GAAP operating profit by including certain corporate-level expenses, Restructuring and other charges (as defined in Note 16- Restructuring and Other Charges) and transaction and integration costs (in thousands). 2024 Organization, Consolidation and Presentation of Financial Statements [Abstract] Â Use of Estimates and Assumptions Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a discussion of other significant estimates and assumptions affecting our consolidated financial statements. Fair Value and Fair Value Measurements Certain amounts included in the accompanying consolidated financial statements are presented at fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the date fair value is determined (the â€œmeasurement dateâ€). When determining fair value, we consider the principal or most advantageous market in which we would transact, and we consider only those assumptions we believe a typical market participant would consider when pricing an asset or liability. In measuring fair value, we use the following inputs in the order of priority indicated:Level 1 - Quoted prices in active markets for identical assets or liabilities.Level 2 - Observable inputs other than quoted prices in active markets included in Level 1, such as (i) quoted prices for similar assets or liabilities; (ii) quoted prices in markets that have insufficient volume or infrequent transactions (e.g., less active markets); and (iii) model-driven valuations in which all significant inputs are observable or can be derived principally from, or corroborated with, observable market data for substantially the full term of the asset or liability.Level 3 - Unobservable inputs to the valuation methodology that are significant to the fair value measurement.Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a more complete discussion of the various items within the consolidated financial statements measured at fair value and the methods used to determine fair value. Please also refer to Note 17- Commitments and Contingencies and Derivative Financial Instruments for discussion regarding the Company's derivative instruments.The net carrying amounts of cash and cash equivalents, trade receivables and payables and short-term debt approximate fair value due to the short-term nature of these instruments. See Note 12- Borrowings for a discussion of the fair value of long-term debt.Fair value measurements relating to our business combinations and goodwill allocations related to our Divergent Solutions ("DVS") segment realignment were made primarily using Level 3 inputs including discounted cash flow techniques. Fair value for the identified intangible assets is generally estimated using inputs primarily for the income approach using the multiple period excess earnings method and the relief from royalties method. The significant assumptions used in estimating fair value include (i) revenue projections of the business, including profitability, (ii) attrition rates and (iii) the estimated discount rate that reflects the level of risk associated with receiving future cash flows. Other personal property assets, such as furniture, fixtures and equipment, are valued using the cost approach, which is based on replacement or reproduction costs of the asset less depreciation. The fair value of the contingent consideration is estimated using a Monte Carlo simulation and the significant assumptions used include projections of revenues and probabilities of meeting those projections. Key inputs to the valuation of the noncontrolling interests include projected cash flows and the expected volatility associated with those cash flows. New Accounting Pronouncements New Accounting PronouncementsASU 2023-09, Income Taxes, (Topic 740): Improvements to Income Tax Disclosures, provides qualitative and quantitative updates to the Company's effective income tax rate reconciliation and income taxes paid disclosures, among others, in order to enhance the transparency of income tax disclosures, including consistent categories and greater disaggregation of information in the rate reconciliation and disaggregation by jurisdiction of income taxes paid. The amendments in ASU 2023-09 are effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments should be applied prospectively; however, retrospective application is also permitted. ASU 2023-09 will be effective for the Company in the first quarter of fiscal 2026. The Company has identified and is implementing changes to processes and internal controls to meet the standardâ€™s updated reporting and disclosure requirements. ASU 2023-07, Segment Reporting, (Topic 280): Improvements to Reportable Segment Disclosures, requires disclosure of significant segment expenses that are regularly provided to the chief operating decision maker (â€œCODMâ€) and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items to reconcile to

segment profit or loss, and the title and position of the entityâ€™s CODM. The amendments in this update also expand the interim segment disclosure requirements. ASU 2023-07 is effective for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted and the amendments in this update are required to be applied on a retrospective basis. ASU 2023-07 will be effective for the Company's annual fiscal 2025 period. The Company is evaluating the impact of this guidance on its consolidated financial statements and related disclosures.ASU 2023-06, Disclosure Improvements: Amendments - Codification Amendments in Response to the Disclosure Update and Simplification Initiative of the Securities and Exchange Commission ("SEC"). The Financial Accounting Standards Board issued the standard to introduce changes to US GAAP that originate in either SEC Regulation S-X or S-K, which are rules about the form and content of financial reports filed with the SEC. The provisions of the standard are contingent upon instances where the SEC removes the related disclosure provisions from Regulation S-X and S-K. The Company does not expect that the application of this standard will have a material impact on our consolidated financial statements and related disclosures.  On August 29, 2022, Jacobs Engineering Group Inc. ("JEGI"), the predecessor to Jacobs Solutions Inc., implemented a holding company structure, which resulted in Jacobs Solutions Inc. becoming the parent company of, and successor issuer to, JEGI (the "Holding Company Reorganization"). For purposes of this report, references to Jacobs and the "Company", "we", "us" or "our" or our management or business at any point prior to the Holding Company Implementation Date refer to JEGI, or JEGI and its consolidated subsidiaries as the predecessor to Jacobs Solutions Inc. The accompanying consolidated financial statements and financial information included herein have been prepared pursuant to the interim period reporting requirements of Form 10-Q. Consequently, certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted. Readers of this Quarterly Report on Form 10-Q should also read our consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 29, 2023 ("2023 Form 10-K"). In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of our consolidated financial statements as of June 28, 2024, and for the three and nine months ended June 28, 2024. Our interim results of operations are not necessarily indicative of the results to be expected for the full fiscal year. On November 20, 2023, Jacobs entered into a definitive agreement to spin-off and combine our Critical Mission Solutions ("CMS") and portions of our Divergent Solutions business, including Cyber & Intelligence (the "Separated Businesses") with Amentum Parent Holdings LLC ("Amentum"), in a Reverse Morris Trust transaction intended to be tax-free to Jacobs' shareholders for U.S. federal income tax purposes (hereinafter referred to as the "Separation Transaction"). The Separation Transaction, which is expected to close in the second half of September 2024, is subject to regulatory approvals and other customary closing conditions. On April 26, 2019, Jacobs completed the sale of its Energy, Chemicals and Resources ("ECR") business to Worley Limited ("Worley"), a company incorporated in Australia, for a purchase price of $3.4 billion consisting of (i) $2.8 billion in cash plus (ii) 58.2 million ordinary shares of Worley, subject to adjustments for changes in working capital and certain other items (the "ECR sale"). As a result of the ECR sale, substantially all ECR-related assets and liabilities were sold (the "Disposal Group"). We determined that the Disposal Group should be reported as discontinued operations in accordance with ASC 210-05, Discontinued Operations because their disposal represents a strategic shift that had a major effect on our operations and financial results. As such, the financial results of the ECR business are reflected in our unaudited Consolidated Statements of Earnings as discontinued operations for all periods presented and all of the ECR business to be sold under the terms of the ECR sale had been conveyed to Worley and as such, no amounts remain held for sale.340000000028000000005820000000Use of Estimates and Assumptions The preparation of financial statements in conformity with U.S. GAAP requires us to employ estimates and make assumptions that affect the reported amounts of certain assets and liabilities; the revenues and expenses reported for the periods covered by the financial statements; and certain amounts disclosed in these Notes to the Consolidated Financial Statements. Although such estimates and assumptions are based on management's most recent assessment of the underlying facts and circumstances utilizing the most current information available and past experience, actual results could differ significantly from those estimates and assumptions. Our estimates, judgments and assumptions are evaluated periodically and adjusted accordingly. Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a discussion of other significant estimates and assumptions affecting our consolidated financial statements.Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a discussion of other significant estimates and assumptions affecting our consolidated financial statements.Fair Value and Fair Value Measurements Certain amounts included in the accompanying consolidated financial statements are presented at fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the date fair value is determined (the "measurement date"). When determining fair value, we consider the principal or most advantageous market in which we would transact, and we consider only those assumptions we believe a typical market participant would consider when pricing an asset or liability. In measuring fair value, we use the following inputs in the order of priority indicated: Level 1 - Quoted prices in active markets for identical assets or liabilities. Level 2 - Observable inputs other than quoted prices in active markets included in Level 1, such as (i) quoted prices for similar assets or liabilities; (ii) quoted prices in markets that have insufficient volume or infrequent transactions (e.g., less active markets); and (iii) model-driven valuations in which all significant inputs are observable or can be derived principally from, or corroborated with, observable market data for substantially the full term of the asset or liability. Level 3 - Unobservable inputs to the valuation methodology that are significant to the fair value measurement. Please refer to Note 2- Significant Accounting Policies of Notes to Consolidated Financial Statements included in our 2023 Form 10-K for a more complete discussion of the various items within the consolidated financial statements measured at fair value and the methods used to determine fair value. Please also refer to Note 17- Commitments and Contingencies and Derivative Financial Instruments for discussion regarding the Company's derivative instruments. The net carrying amounts of cash and cash equivalents, trade receivables and payables and short-term debt approximate fair value due to the short-term nature of these instruments. See Note 12- Borrowings for a discussion of the fair value of long-term debt. Fair value measurements relating to our business combinations and goodwill allocations related to our Divergent Solutions ("DVS") segment realignment were made primarily using Level 3 inputs including discounted cash flow techniques. Fair value for the identified intangible assets is generally estimated using inputs primarily for the income approach using the multiple period excess earnings method and the relief from royalties method. The significant assumptions used in estimating fair value include (i) revenue projections of the business, including profitability, (ii) attrition rates and (iii) the estimated discount rate that reflects the level of risk associated with receiving future cash flows. Other personal property assets, such as furniture, fixtures and equipment, are valued using the cost approach, which is based on replacement or reproduction costs of the asset less depreciation. The fair value of the contingent consideration is estimated using a Monte Carlo simulation and the significant assumptions used include projections of revenues and probabilities of meeting those projections. Key inputs to the valuation of the noncontrolling interests include projected cash flows and the expected volatility associated with those cash flows. Certain amounts included in the accompanying consolidated financial statements are presented at fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the date fair value is determined (the "measurement date"). When determining fair value, we consider the principal or most advantageous market in which we would transact, and we consider only those assumptions we believe a typical market participant would consider when pricing an asset or liability. The Company expects to recognize approximately 57% of its remaining performance obligations into revenue within the next twelve months and the remaining 43% thereafter. The majority of the remaining performance obligations after the first twelve months are expected to be recognized over a four-year period. Although our remaining performance obligations reflect business volumes that are considered to be firm, normal business activities including scope adjustments, deferrals or cancellations may occur that impact volume or expected timing of their recognition. Remaining performance obligations are adjusted to reflect any known project cancellations, revisions to project scope and cost, foreign currency exchange fluctuations and project deferrals, as appropriate. The following table further disaggregates our revenue by geographic area for the three and nine months ended June 28, 2024 and June 30, 2023 (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td

The most significant item contributing to the difference between the statutory U.S. federal corporate tax rate of 21% and the Company's effective tax rate for the nine-month period ended June 28, 2024 is related to a discrete event associated with the election to treat an Australian subsidiary as a corporation versus a partnership for U.S. tax purposes, with this election resulting in the derecognition of a deferred tax liability and yielding a discrete income tax benefit of $61.6 million as the Company asserts that a component of the investment will be indefinitely reinvested. This benefit was partly offset by U.S. state income tax expense of $11.7 million, U.S. tax on foreign earnings of $19.1 million, and income tax expense of $10.6 million related to foreign exchange gains associated with a change in assertion on intercompany loans that were previously deemed indefinitely reinvested. (6)Balance as of June 28, 2024 is associated with the March 25, 2025 scheduled maturity of the 2020 Term Loan Facility, which was reclassified from long-term debt in March 2024. Previously reported balance as of September 29, 2023 was comprised of the 2020 Term Loan quarterly principal repayments of 1.25%, or $9.1 million and £3.1 million, of the aggregate initial principal amount borrowed, totaling $51.8 million in U.S. dollars for the subsequent twelve months. Revolving Credit Facility and Term Loans The Company and certain of its subsidiaries maintain a sustainability-linked $2.25 billion unsecured revolving credit facility (the "Revolving Credit Facility") established under a third amended and restated credit agreement, dated February 6, 2023 (the "Revolving Credit Agreement"), among Jacobs and certain of its subsidiaries as borrowers and a syndicate of U.S. and international banks and financial institutions. The credit extensions under the Revolving Credit Facility can be funded in U.S. dollars, British Sterling, Euros, Canadian dollars, Australian dollars, Swedish Krona, Singapore dollars and other agreed upon alternative currencies. The Revolving Credit Agreement also provides for a financial letter of credit sub facility of $400.0 million, permits performance letters of credit, and provides for a $100.0 million sub facility for swing line loans. Letters of credit are subject to fees based on the Company's Consolidated Leverage Ratio and Debt Rating, whichever is more favorable to the Company. The Revolving Credit Agreement amended and restated the second amended and restated credit agreement dated March 27, 2019, by and among JEGI and certain of its subsidiaries and a syndicate of banks and financial institutions, in order to, among other things, (a) extend the maturity date of the Revolving Credit Facility to February 6, 2028, (b) replace and adjust interest rates based on market conditions and incorporate a sustainability-linked pricing adjustment, (c) revise the commitment fee on the unused portion of the facility to a range of 0.10% to 0.25% depending on the higher of the pricing level associated with JEGI's Debt Rating or the Consolidated Leverage Ratio, (d) increase the Consolidated Leverage Ratio financial covenant to 3.50:1.00 (subject to temporary increases to 4.00:1.00 following the closing of certain material acquisitions), (e) eliminate the net worth financial covenant and (f) add the Company as a guarantor of the obligations of JEGI and its subsidiaries under the Revolving Credit Agreement. The Company and JEGI maintain an unsecured delayed draft term loan facility (the "2021 Term Loan Facility") established under an amended and restated term loan agreement dated February 6, 2023 (the "Amended and Restated Term Loan Agreement"), by and among the Company and JEGI and a syndicate of banks and financial institutions. JEGI borrowed $200.0 million and £650.0 million of term loans under the 2021 Term Loan Facility (reflecting scheduled maturities in February 2026 and September 2025, respectively) and the proceeds of such term loans were used primarily to fund JEGI's investment in PA Consulting. The Amended and Restated Term Loan Agreement amended and restated the term loan agreement dated January 15, 2021, by and among JEGI and a syndicate of U.S. banks and financial institutions to, among other things: (a) extend the maturity date of the U.S. dollar term loan to February 6, 2026 and the British sterling term loan to September 1, 2025, (b) replace and adjust interest rates based on market conditions and incorporate a sustainability-linked pricing adjustment, (c) increase the Consolidated Leverage Ratio financial covenant to 3.50:1.00 (subject to temporary increases to 4.00:1.00 following the closing of certain material acquisitions), (d) eliminate the net worth financial covenant, and (e) add Jacobs as a guarantor of the obligations of JEGI under the Amended and Restated Term Loan Agreement. During the fourth quarter of fiscal 2023, the Company repaid $80.0 million of the USD portion of the 2021 Term Loan Facility. On March 25, 2020, JEGI and Jacobs U.K., a wholly owned subsidiary of JEGI, entered into a term loan agreement (the "2020 Term Loan Agreement") with a syndicate of banks and financial institutions, which provides for an unsecured term loan facility (the "2020 Term Loan Facility"). Under the 2020 Term Loan Facility, JEGI borrowed an aggregate principal amount of $730.0 million and Jacobs U.K. borrowed an aggregate principal amount of £250.0 million. The proceeds of the term loans were used to repay an existing term loan with a maturity date of June 2020 and for general corporate purposes. On February 6, 2023, the 2020 Term Loan Agreement was amended to, among other things: (a) replace and adjust interest rates based on market conditions and incorporate a sustainability-linked pricing adjustment, (b) increase the Consolidated Leverage Ratio financial covenant to 3.50:1.00 (subject to temporary increases to 4.00:1.00 following the closing of certain material acquisitions), (c) eliminate the net worth financial covenant, and (d) add Jacobs as a guarantor of the obligations of JEGI and Jacobs U.K. The 2020 Term Loan facility matures in March 2025 and the related outstanding balances under this facility were reclassified to current maturities of long-term debt in the Company's March 29, 2024 consolidated balance sheet. The 2020 Term Loan Facility and the 2021 Term Loan Facility are together referred to as the "Term Loan Facilities". In the fourth quarter of fiscal 2022, the Revolving Credit Facility and Term Loan Facilities were amended to permit the Holding Company Reorganization. On December 20, 2023, the Revolving Credit Facility and Term Loan Facilities were amended to adjust

the point in time at which certain compliance thresholds are tested in connection with the Separation Transaction. On April 10, 2024, the Term Loan Facilities were amended to permit the potential exchange of Jacobs' retained equity stake in the combined company after the Separation Transaction for the effective repayment of a portion of the Term Loan Facilities. We were in compliance with the covenants under the Revolving Credit Facility and Term Loan Facilities at June 28, 2024. 5.90% Bonds, due 2033 On February 16, 2023, JEGI completed an offering of $500 million aggregate principal amount of 5.90% Bonds due 2033 (the "5.90% Bonds"). The 5.90% Bonds are fully and unconditionally guaranteed by the Company (the "5.90% Bonds Guarantee"). The 5.90% Bonds and the 5.90% Bonds Guarantee were offered pursuant to a prospectus supplement, dated February 13, 2023, to the prospectus dated February 6, 2023, that forms a part of the Company's and JEGI's automatic shelf registration statement on Form S-3ASR previously filed with the SEC, and were issued pursuant to an Indenture, dated as of February 16, 2023, between JEGI, as issuer, the Company, as guarantor, and U.S. Bank Trust Company, National Association, as trustee (the "Trustee"), as amended and supplemented by the First Supplemental Indenture, dated as of February 16, 2023 (the "First Supplemental Indenture"). Interest on the 5.90% Bonds is payable semi-annually in arrears on each March 1 and September 1, commencing on September 1, 2023, until maturity. The 5.90% Bonds bear interest at 5.90% per annum, subject to adjustments as discussed in note (5) to the table above. Prior to December 1, 2032 (the "5.90% Bonds Par Call Date"), JEGI may redeem the 5.90% Bonds at its option, in whole or in part, at any time and from time to time, at the redemption price calculated by JEGI (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of: (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest on the 5.90% Bonds being redeemed, assuming that such 5.90% Bonds matured on the 5.90% Bonds Par Call Date, discounted to the redemption date on a semiannual basis (assuming a 360-day year of twelve 30-day months), at the Treasury Rate (as defined in the First Supplemental Indenture) plus 35 basis points, less (b) interest accrued to the redemption date, and (2) 100% of the principal amount of such 5.90% Bonds to be redeemed, plus, in either case, accrued and unpaid interest on the 5.90% Bonds, if any, to, but excluding, the redemption date. At any time and from time to time on or after the 5.90% Bonds Par Call Date, JEGI may redeem the 5.90% Bonds, at its option, in whole or in part, at a redemption price equal to 100% of the principal amount of the 5.90% Bonds to be redeemed, plus accrued and unpaid interest thereon, if any, up to, but excluding, the redemption date. 6.35% Bonds, due 2028 On August 18, 2023, JEGI completed an offering of $600 million aggregate principal amount of 6.35% Bonds due 2028 (the "6.35% Bonds"). The 6.35% Bonds are fully and unconditionally guaranteed by the Company (the "6.35% Bonds Guarantee"). The 6.35% Bonds and the 6.35% Bonds Guarantee were offered pursuant to a prospectus supplement, dated August 15, 2023, to the prospectus dated February 6, 2023, that forms a part of the Company and JEGI's automatic shelf registration statement on Form S-3ASR previously filed with the SEC, and were issued pursuant to the Indenture, as amended and supplemented by the Second Supplemental Indenture, dated as of August 18, 2023 (the "Second Supplemental Indenture"). Interest on the 6.35% Bonds is payable semi-annually in arrears on each February 18 and August 18, commencing on February 18, 2024, until maturity. The Notes will bear interest at a rate of 6.35% per annum and will mature on August 18, 2028. The 6.35% Bonds bear interest at 6.35% per annum. Prior to July 18, 2028 (the "6.35% Bonds Par Call Date"), JEGI may redeem the 6.35% Bonds at its option, in whole or in part, at any time and from time to time, at the redemption price calculated by JEGI (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of: (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest on the 6.35% Bonds being redeemed, assuming that such 6.35% Bonds matured on the 6.35% Bonds Par Call Date, discounted to the redemption date on a semiannual basis (assuming a 360-day year of twelve 30-day months), at the Treasury Rate (as defined in the Second Supplemental Indenture) plus 30 basis points, less (b) interest accrued to the redemption date, and (2) 100% of the principal amount of such 6.35% Bonds to be redeemed, plus, in either case, accrued and unpaid interest on the 6.35% Bonds, if any, to, but excluding, the redemption date. At any time and from time to time on or after the 6.35% Bonds Par Call Date, JEGI may redeem the 6.35% Bonds, at its option, in whole or in part, at a redemption price equal to 100% of the principal amount of the 6.35% Bonds to be redeemed, plus accrued and unpaid interest thereon, if any, to, but excluding, the redemption date. Other arrangements During fiscal 2022, the Company entered into two treasury lock agreements with an aggregate notional value of $500.0 million to manage its expected interest rate exposure in anticipation of issuing up to $500.0 million of fixed rate debt. On February 13, 2023 and with the issuance of the 5.90% Bonds, the Company settled these treasury lock agreements. See Note 17- Commitments and Contingencies and Derivative Financial Instruments for more discussion around this transaction. During fiscal 2020, the Company entered into interest rate and cross currency derivative contracts to swap a portion of our variable rate debt to fixed rate debt.  Right-of-Use and Other Long-Lived Asset Impairment During fiscal 2023, as a result of the Company's transformation initiatives, including the changing nature of the Company's use of office space for its workforce, the Company evaluated its existing real estate lease portfolio. These initiatives resulted in the abandonment of certain leased office spaces and the establishment of a formal plan to sublease certain other leased spaces that will no longer be utilized by the Company. In connection with the Company's actions related to these initiatives, the Company evaluated certain of its lease right-of-use assets and related property, equipment and leasehold improvements for impairment under ASC 360. As a result of the analysis, the Company recognized impairment losses during the nine months ended June 30, 2023 of $38.1 million which are included in selling, general, and administrative expenses in the accompanying statement of earnings. The impairment losses recorded include $33.1 million related to the right-of-use lease assets and $5.0 million related to the other long-lived assets, including property, equipment, and improvements and leasehold improvements for the fiscal 2023 period. The fair values for the asset groups relating to the impaired long-lived assets were estimated primarily using discounted cash flow models (income approach) with Level 3 inputs. The significant assumptions used in estimating fair value include the expected downtime prior to the commencement of future subleases, projected sublease income over the remaining lease periods and discount rates that reflect the level of risk associated with receiving future cash flows.  Right-of-Use and Other Long-Lived Asset Impairment During fiscal 2023, as a result of the Company's transformation initiatives, including the changing nature of the Company's use of office space for its workforce, the Company evaluated its existing real estate lease portfolio. These initiatives resulted in the abandonment of certain leased office spaces and the establishment of a formal plan to sublease certain other leased spaces that will no longer be utilized by the Company. In connection with the Company's actions related to these initiatives, the Company evaluated certain of its lease right-of-use assets and related property, equipment and leasehold improvements for impairment under ASC 360. As a result of the analysis, the Company recognized impairment losses during the nine months ended June 30, 2023 of $38.1 million which are included in selling, general, and administrative expenses in the accompanying statement of earnings. The impairment losses recorded include $33.1 million related to the right-of-use lease assets and $5.0 million related to the other long-lived assets, including property, equipment, and improvements and leasehold improvements for the fiscal 2023 period.</div><div style="margin-top:12pt;text-indent:36pt">The fair values for the asset groups relating to the impaired long-lived assets were estimated primarily using discounted cash flow models (income approach) with Level 3 inputs. As such, we sometimes enter into foreign exchange hedging contracts and interest rate hedging contracts in order to limit our exposure to fluctuating foreign currencies and interest rates. During fiscal 2022, the Company entered into two treasury lock agreements with a total notional value of $500 million to manage its interest rate exposure to the anticipated issuance of fixed rate debt before December 2023. On February 13, 2023, the Company settled these treasury lock agreements and issued the 5.90% Bonds in the aggregate principal amount of $500 million, which resulted in the receipt of cash and a gain of $37.4 million, before tax, which is being amortized to interest expense and recognized over the term of the 5.90% Bonds. See Note 12- Borrowings for further discussion relating to the terms of the 5.90% Bonds<span style="color:#000000;font-family:'Jacobs Chronos',sans-serif;font-size:10pt;font-style:italic;font-

The unrealized net gain on these instruments was $24.3 million and $26.5 million, net of tax, and is included in accumulated other comprehensive income as of June 28, 2024 and September 29, 2023, respectively. In fiscal 2020 we entered into interest rate swap agreements with a notional value of $746.2 million as of June 28, 2024 to manage the interest rate exposure on our variable rate loans. By entering into the swap agreements, the Company converted the LIBOR and SONIA rate based liabilities into fixed rate liabilities, for periods ranging from five to ten years. The fair value of the interest rate swaps at June 28, 2024 was $76.4 million of which $66.7 million is included within miscellaneous other assets and $9.7 million is included within current assets on the consolidated balance sheet as of June 28, 2024. The fair value of interest rate swaps at September 29, 2023 was $102.6 million, which are included in miscellaneous other assets on the consolidated balance sheet as of September 29, 2023. The unrealized net gain on these interest rate swaps as of June 28, 2024 and September 29, 2023 was $57.5 million and $77.2 million, respectively, net of tax, and was included in accumulated other comprehensive income. Additionally, in fiscal 2020, we entered into a cross currency swap agreement with a notional value of $127.8 million to manage the interest rate and foreign currency exposure on our USD borrowings by a European subsidiary. By entering into the cross currency swap, the Company converted our LIBOR rate based borrowing in USD to a fixed rate Euro liability for three and a half years. During the fourth quarter of fiscal 2023, the Company paid down the borrowings hedged by the cross currency swap and settled the cross currency swap agreement. During fiscal 2023, the aggregate liability amounts denominated in U.S. dollars transitioned from underlying LIBOR benchmarked rates to the SOFR and the terms of the swaps were amended accordingly. The swaps were designated as cash-flow hedges in accordance with ASC 815, Derivatives and Hedging. Additionally, the Company held foreign exchange forward contracts in currencies that support our operations, including British Pound, Australian Dollar, Euro and other currencies, with notional values of $1,056.6 million at June 28, 2024 and $857.7 million at September 29, 2023. The length of these contracts currently ranges from one week to 7 months. The fair value of the foreign exchange contracts at June 28, 2024 was $(1.9) million, of which $(2.6) million is included within current liabilities and $0.7 million is included within current assets on the consolidated balance sheet as of June 28, 2024. The fair value of the contracts as of September 29, 2023 was $9.5 million, of which $16.1 million is included within current assets and <span style="color:#000000;font-family:'Jacobs Chronos',sans-serif;font-size:10pt;font-weight:400;line-height:120%">$(6.6) million is included within current liabilities on the consolidated balance sheet as of September 29, 2023. Associated income statement impacts are included in miscellaneous income (expense) in the consolidated statements of earnings for both periods. The fair value measurements of these derivatives are being made using Level 2 inputs under ASC 820, Fair Value Measurement, as the measurements are based on observable inputs other than quoted prices in active markets. We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under forward exchange and interest rate contracts and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties. Contractual Guarantees and Insurance In the normal course of business, we make contractual commitments (some of which are supported by separate guarantees) and on occasion we are a party in a litigation or arbitration proceeding. The litigation or arbitration in which we are involved includes personal injury claims, professional liability claims and breach of contract claims. Where we provide a separate guarantee, it is strictly in support of the underlying contractual commitment. Guarantees take various forms including surety bonds required by law, or standby letters of credit ("LOC" and also referred to as "bank guarantees") or corporate guarantees given to induce a party to enter into a contract with a subsidiary. Standby LOCs are also used as security for advance payments or in various other transactions. The guarantees have various expiration dates ranging from an arbitrary date to completion of our work (e.g., engineering only) to completion of the overall project. We record in the Consolidated Balance Sheets amounts representing our estimated liability relating to such guarantees, litigation and insurance claims. Guarantees are accounted for in accordance with ASC 460-10, Guarantees, at fair value at the inception of the guarantee. At June 28, 2024 and September 29, 2023, the Company had issued and outstanding approximately $296.1 million and $322.0 million, respectively, in LOCs and $2.1 billion and $2.0 billion, respectively, in surety bonds. We maintain insurance coverage for most insurable aspects of our business and operations. Our insurance programs have varying coverage limits depending upon the type of insurance and include certain conditions and exclusions which insurance companies may raise in response to any claim that is asserted by or against the Company. We have also elected to retain a portion of losses and liabilities that occur through using various deductibles, limits, and retentions under our insurance programs. As a result, we may be subject to a future liability for which we are only partially insured or completely uninsured. We intend to mitigate any such future liability by continuing to exercise prudent business judgment in negotiating the terms and conditions of the contracts which the Company enters with its clients. Our insurers are also subject to business risk and, as a result, one or more of them may be unable to fulfill their insurance obligations due to insolvency or otherwise. Additionally, as a contractor providing services to the U.S. federal government, we are subject to many types of audits, investigations, and claims by, or on behalf of, the government including with respect to contract performance, pricing, cost allocations, procurement practices, labor practices, and socioeconomic obligations. Furthermore, our income, franchise, and similar tax returns and filings are also subject to audit and investigation by the Internal Revenue Service, most states within the United States, as well as by various government agencies representing jurisdictions outside the United States. Our Consolidated Balance Sheets include amounts representing our probable estimated liability relating to such claims, guarantees, litigation, audits, and investigations. We perform an analysis to determine the level of reserves to establish for insurance-related claims that are known and have been asserted against us, as well as for insurance-related claims that are believed to have been incurred based on actuarial analysis but have not yet been reported to our claims administrators as of the respective balance sheet dates. We include any adjustments to such insurance reserves in our consolidated results of operations. Insurance recoveries are recorded as assets if recovery is probable and estimated liabilities are not reduced by expected insurance recoveries. The Company believes, after consultation with counsel, that such guarantees, litigation, U.S. government contract-related audits, investigations and claims, and income tax audits and investigations should not have a material adverse effect on our consolidated financial statements, beyond amounts currently accrued. Litigation and Investigations In 2012, CH2M HILL Australia PTY Limited, a subsidiary of CH2M, entered into a 50/50 integrated joint venture with Australian construction contractor UGL Infrastructure Pty Limited. The joint venture entered into a Consortium Agreement with General Electric and GE Electrical International Inc. The Consortium was awarded a subcontract by JKC Australia LNG Pty Limited ("JKC") for the engineering, procurement, construction and commissioning of a 360 MW Combined Cycle Power Plant for INPEX Operations Australia Pty Limited at Blaydin Point, Darwin, NT, Australia (the "Legacy CH2M Matter"). The subcontract was terminated in January 2017. In or around August 2017, the Consortium commenced an arbitration. On April 12, 2022, JKC and the Consortium entered into a confidential deed of settlement ("Settlement Agreement"). Under the terms of the Settlement Agreement, CH2M, as guarantor of CH2M Australia PTY Limited's obligations with respect to the subcontract with JKC, made a cash payment to JKC in April 2022 of AUD 640 million (or approximately $475 million using mid-April 2022 exchange rates). As a result of the settlement agreement, additional pre-tax charges of $91.3 million were recorded during the year ended September 30, 2022 for this matter (over amounts previously reserved and reported in long-term Other Deferred Liabilities in the Company's Consolidated Balance Sheet). The Settlement Agreement provided for a release of claims between JKC and each member of the Consortium, and in connection with this agreement the members of the Consortium also waived all claims against each other and their respective parent guarantors relating to the project. On December 22, 2008, a coal fly ash pond at the Kingston Power Plant of the Tennessee Valley Authority ("TVA") was breached, releasing fly ash waste into the Emory River and surrounding community. In February 2009, TVA awarded a contract to the Company to provide project management services associated with the clean-up. All remediation and dredging were completed in August 2013 by other contractors under direct contracts with TVA. The Company did not perform the remediation, and its scope was limited to program management services. Certain employees of the contractors performing the cleanup work on the project filed lawsuits against the Company beginning in August 2013, alleging they were injured due to the Company's failure to protect the plaintiffs from exposure to fly ash, and asserting related personal injuries. The primary case, Greg Adkisson, et al. v. Jacobs Engineering Group Inc., case No. 3:13-CV-505-TAV-HBG, filed in the U.S. District Court for the Eastern District of Tennessee, consisted of 10 consolidated cases. This case and the related cases involved several hundred plaintiffs that were employees of the contractors that completed the remediation and dredging work. In the second quarter of fiscal 2023, the Company entered into a settlement agreement with the plaintiffs whose cases had not been previously dismissed. As of the third quarter of fiscal 2023, all conditions to the settlement had been satisfied, and the cases dismissed. The amount of the settlement was not material to the Company's business, financial condition, results of operations or cash flows.
 During the fourth quarter of fiscal 2022, the Company recorded a receivable for certain expected third-party recoveries equal to approximately $27 million before tax, which was collected during first half of fiscal 2023.250000000000.059050000000003740000000.05900.059024300000265000007462000000P10Y7640000006670000097000001026000005750000077200000127800000161900000-260000070000095000001610000-660000029610000032200000000.021000000002000000000000.503606400000004750000009130000010270000000Segment Information The Company's four operating segments are comprised of its two global lines of business ("LOBs"): Critical Mission Solutions ("CMS") and People & Places Solutions ("P&PS"), its business unit Divergent Solutions ("DVS") and its majority investment in PA Consulting. The Company's Chief Executive Officer is the Chief Operating Decision Maker ("CODM") and can evaluate the performance of each of these segments and make appropriate resource allocations among each of the segments. Under this organization, the sales function is managed by segment, and accordingly, the associated cost is embedded in the segments and reported to the respective head of each segment. In addition, a portion of the costs of other support functions (e.g., finance, legal, human resources, and information technology) is allocated to each segment using methodologies which, we believe, effectively attribute the cost of these support functions to the revenue generating activities of the Company on a rational basis. The cost of the Company's cash incentive plan, the Leadership Performance Plan ("LPP"), formerly named the Management Incentive Plan, and the expense

associated with the Jacobs 1999 Stock Incentive Plan, which was amended and restated in the second quarter of 2023 and is now referred to as the Jacobs 2023 Stock Incentive Plan (the "2023 SIP") have likewise been charged to the segments except for those amounts determined to relate to the business as a whole (which amounts remain in other corporate expenses). Financial information for each segment is reviewed by the CODM to assess performance and make decisions regarding the allocation of resources. The CODM evaluates the operating performance of our operating segments using segment operating profit, which is defined as margin less "corporate charges" (e.g., the allocated amounts described above). The Company incurs certain Selling, General and Administrative costs ("SG&A") that relate to its business as a whole which are not allocated to the segments. The following tables present total revenues and segment operating profit from continuing operations for each reportable segment (in thousands) and includes a reconciliation of segment operating profit to total U.S. GAAP operating profit by including certain corporate-level expenses, Restructuring and other charges (as defined in Note 16- Restructuring and Other Charges) and transaction and integration costs (in thousands). <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td
