The Company maintains a multi-currency Revolving Credit Facility (the 'RCF') with a syndicate of lenders. The RCF offers a senior unsecured revolving credit facility of €3,500 million over five years, years, maturing May 11, 2029. Borrowings under the RCF bear interest at rates based upon an underlying base rate, plus a margin determined in accordance with a ratings-based pricing grid. Base rates include SOFR for U.S. Dollar, EURIBOR Euro Interbank Offer Rate (EURIBOR) for euros, Sterling Overnight Index Average (SONIA) for Sterling, and Swiss Average Rate Overnight (SARON) for Swiss Francs, respectively. The facility entails an annual A commitment fee calculated as is payable on a quarterly basis based on a percentage of the applicable margin.

During April 2024, the Company completed a one-year extension option margin and calculated on the daily undrawn committed facilities extending the maturity date to May 11, 2029. The Company's RCF supports the commercial paper programs with a separate €750 million swingline sublimit which allows for same-day drawing in either euro or U.S. Dollar. The amount of commercial paper outstanding does not reduce available capacity under the RCF. 10. Fair value measurement

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured using inputs in one of the following three categories:

Level 1 measurements are based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level 2 measurements are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or market data other than quoted prices that are observable for the assets or liabilities.

Level 3 measurements are based on unobservable data that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Considerable judgment may be required in interpreting market data used to develop the estimates of fair value.

The carrying values of the Company's Long-term debt were \$12,554 million \$12,959 million, \$11,535 million, and \$9,678 million \$9,586 million at March 31, 2024 June 30, 2024, December 31, 2023, and March 31, 2023 June 30, 2023, respectively. The fair values of the Company's Long-term debt were \$12,244 million \$12,520 million, \$11,337 million, and \$8,159 million \$8,990 million at March 31, 2024 June 30, 2024, December 31, 2023, and March 31, 2023 June 30, 2023, respectively. The Company's Long-term debt obligations are Level 2 instruments whose fair value is derived from quoted market prices.

The redeemable noncontrolling interests included in the Condensed Consolidated Balance Sheets are marked to fair value on a recurring basis using Level 3 inputs. The redemption value of redeemable noncontrolling interests approximates the fair value and is based on a range of estimated potential outcomes of the expected payment amounts primarily dependent on underlying performance metrics. The unobservable inputs in the valuation include a discount rate determined using a Capital Asset Pricing Model methodology with ranges of between 6.54% 6.35% and 7.47% 7.33%.

See Note 17 for the changes in the fair value of redeemable noncontrolling interests.

The carrying values of the Company's Cash and cash equivalents, Restricted cash, Accounts receivable, net, Current portion of long-term debt, Accounts payable, Accrued expenses, and Other current liabilities approximate their fair values because of the short-term nature of these instruments.

Effective income tax rate

The **movement** **increase** in the effective tax rate **compared with** for this quarter in comparison to the **corresponding period** **three months ended June 30, 2023** is mainly driven by a change in the **prior year was primarily driven** **by** mix of income earned in jurisdictions with a higher rate of tax. The decrease in the **impact** year-to-date effective tax rate compared to the six months ended June 30, 2023 is due to the **offset** of items arising in the first quarter **(being** the movement in tax provisions, a tax deduction for share-based compensation and the largely tax-exempt divestiture of phases one and two of the European Lime **operations, operations).**

Americas Building Solutions;

Europe Materials Solutions; and

Europe Building Solutions.

The *Americas Materials Solutions* segment provides solutions for the construction and maintenance of public infrastructure and commercial and residential buildings in North America. The primary materials produced by this segment include aggregates, cement, readymixed concrete and asphalt. This segment also provides paving and construction services for customers.

The *Americas Building Solutions* segment manufactures, supplies and delivers solutions for the built environment in communities across North America. Our subsidiaries within this segment offer building and infrastructure solutions serving complex critical utility infrastructure (such as water, energy, transportation and telecommunications projects) and outdoor living solutions for enhancing private and public spaces.

The *Europe Building Solutions* segment combines materials, products and services to produce a wide range of architectural and infrastructural solutions for use in the building and renovation of critical utility infrastructure, commercial and residential buildings, and outdoor living spaces. This business serves the growing demand across the construction value chain for innovative and value-added products and services.

The Company's reportable segments are the same as the Company's operating segments and correspond with how the Chief Operating Decision Maker (CODM) regularly reviews financial information to allocate resources and assess performance under the Company's organizational structure.

The CODM monitors the operating results of segments separately in order to allocate resources between segments and to assess performance. Segment performance is evaluated using Adjusted EBITDA. Given that Interest expense and Income tax benefit expense are managed on a centralized basis, these items are not allocated between operating segments for the purposes of the information presented to the CODM and are accordingly omitted from the detailed segmental analysis below. There are no asymmetrical allocations to reporting segments which would require disclosure.

Adjusted EBITDA is defined as earnings from continuing operations before interest, taxes, depreciation, depletion, amortization, loss on impairments, gain/loss on divestitures and unrealized gain/loss on investments, income/loss from equity method investments, substantial acquisition-related costs and pension expense/income excluding current service cost component.

16. Variable interest entities

The Company's operations in the Philippines are conducted through a Variable Interest Entity (VIE), wherein the Company holds 40% of the equity share capital and a 55% share of earnings and distributions. The remaining noncontrolling interest of 60% equity share capital and 45% share of earnings and distributions is held by an unrelated party. The Company's voting rights are not proportional to its share of earnings and distributions, and substantially all of the activities of the Philippines business are conducted on behalf of the Company and controlled by the Company through contractual relationships. Therefore, the The Philippines business meets the definition of a VIE for which the Company is the primary beneficiary and, therefore, is consolidated.

Further, the Company has provided subordinated debt to the intermediate parent of the Philippines business which exposes the Company to the profits and losses of the Philippines business. The debt is repayable only where the shareholder agreement of the intermediate parent of the Philippines business is terminated or where the Company transfers its shares in the intermediate parent to an unrelated entity (i.e., the debt exposure of the Company becomes in substance a residual interest in the intermediate parent).

The carrying amounts of assets and liabilities of the consolidated VIE, reported within the Condensed Consolidated Balance Sheets before intragroup eliminations with other CRH plc companies were:

The redeemable noncontrolling interests comprises comprise the noncontrolling interests in two of the Company's North American subsidiaries, that are currently redeemable. The Company has the ability to exercise the call option for the noncontrolling interests on or after December 31, 2031. In addition to the call options, the noncontrolling interest holder has the right to sell the noncontrolling interests to the Company, which are currently exercisable. These noncontrolling interests have put and call options and both are redeemable based on multiples of EBITDA. The noncontrolling interests are considered redeemable noncontrolling equity interests, classified as temporary or mezzanine equity, as their redemption is not solely within the Company's control. The noncontrolling interests were recorded at their respective fair values as of the acquisition dates and are adjusted to their expected redemption values, with an offsetting entry to retained earnings, as of the reporting date as if that date was the redemption date, if those amounts exceed their respective carrying values.

The following table summarizes the redeemable noncontrolling interest for the following periods:

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Introduction

Our Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to convey management's perspective regarding operational and financial performance for the three and six months ended March 31, 2024, June 30, 2024. This MD&A should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and related notes appearing in Part I, Item 1. "Financial Statements" of this Quarterly Report.

The following discussion contains trend information and forward-looking statements. Actual results could differ materially from those discussed in or implied by these forward-looking statements, as well as from our historical performance, due to various factors, including those discussed elsewhere in this Quarterly Report, particularly "Forward-Looking Statements," and Item 1A. "Risk Factors" in our 2023 Form 10-K and in our other filings with the SEC. Our operating results depend upon economic cycles, seasonal and other weather-related conditions, and trends in government expenditures, among other factors. Accordingly, financial results for any financial period presented, or period-to-period comparisons of reported results, may not be indicative of future operating results.

Overview

CRH is a leading provider of building materials solutions that build, connect and improve our world. Since formation in 1970, CRH has evolved from being a supplier of base materials to providing end-to-end value-added solutions that solve complex construction challenges for our customers. CRH works closely with customers across the entire project lifecycle from planning, design, manufacture, installation and maintenance through to end-of-

life recycling, using our engineering and innovation expertise to provide superior materials, products and services.

The Company integrates essential materials (aggregates and cement), value-added building products and construction services to provide our customers with complete end-to-end solutions. CRH's capabilities, innovation and technical expertise enable it to be a valuable partner for transportation and critical utility infrastructure projects, complex non-residential construction and outdoor living solutions.

Operating in 28 countries, the Company has market leadership positions in North America and Europe. The United States is expected to be a key driver of future growth for CRH due to continued economic expansion, a growing population and significant public investment in construction. Our European business which benefits from strong economic and construction growth prospects across Central and Eastern Europe as well as recurring repair and remodel demand in Western Europe, is an important strategic part of the Company and CRH intends to continue to expand its operations across the region. Europe. In both geographies there is significant government support for infrastructure and increasing demand for integrated solutions in major infrastructure and commercial projects.

CRH has a proven track record in value creation through acquisitions which over the last decade has accounted for approximately two-thirds of the Company's growth. We achieve this by acquiring businesses at attractive valuations and creating value by integrating them with our existing operations and generating synergies. The Company takes an active approach to portfolio management and continuously reviews the competitive landscape for attractive investment and divestiture opportunities to deliver further growth and value creation for shareholders.

Seasonality

Activity in the construction industry is dependent to a considerable extent on the seasonal impact of weather on the Company's operating locations, with periods of higher activity in some markets during spring and summer which may reduce significantly in winter due to inclement weather. In addition to impacting demand for our products and services, adverse weather can negatively impact the production processes for a variety of reasons. For example, workers may not be able to work outdoors in sustained high temperatures, and heavy rainfall and/or other unfavorable weather conditions. Therefore, financial results for any particular quarter do not necessarily indicate the results expected for the full year.

Non-GAAP Reconciliation and Supplementary Information

CRH uses a number of non-GAAP performance measures to monitor financial performance. These measures are referred to throughout the discussion of our reported financial position and operating performance on a continuing operations basis unless otherwise defined and are measures which are regularly reviewed by CRH management. These performance measures may not be uniformly defined by all companies and accordingly may not be directly comparable with similarly titled measures and disclosures by other companies.

Certain information presented is derived from amounts calculated in accordance with U.S. GAAP but is not itself an expressly permitted GAAP measure. The non-GAAP performance measures as summarized below should not be viewed in isolation or as an alternative to the equivalent GAAP measure.

**Adjusted EBITDA:** Adjusted EBITDA is defined as earnings from continuing operations before interest, taxes, depreciation, depletion, amortization, loss on impairments, gain/loss on divestitures and unrealized gain/loss on investments, income/loss from equity method investments, substantial acquisition-related costs and pension expense/income excluding current service cost component. It is quoted by management in conjunction with other GAAP and non-GAAP financial measures to aid investors in their analysis of the performance of the Company. Adjusted EBITDA by segment is monitored by management in order to allocate resources between segments and to assess performance. *Adjusted EBITDA margin* is calculated by expressing Adjusted EBITDA as a percentage of total revenues.

*Organic Revenue and Organic Adjusted EBITDA:* CRH pursues a strategy of growth through acquisitions and investments, with total consideration spent spend on acquisitions and investments of \$2.2 billion \$2.5 billion in the three six months ended March 31, 2024 June 30, 2024, compared with \$0.2 billion for the same period in 2023. Acquisitions completed in 2023 and the first quarter half of 2024 contributed incremental total revenues of \$140 million \$232 million and Adjusted EBITDA of \$35 million \$61 million for the three months ended March 31, 2024 June 30, 2024 and total revenues of \$372 million and Adjusted EBITDA of \$96 million for the six months ended June 30, 2024. Cash proceeds from divestitures and disposals of long-lived assets amounted to \$0.7 billion \$1.1 billion for the three six months ended March 31, 2024 June 30, 2024, compared with \$6 million \$42 million for the three six months ended March 31, 2023 June 30, 2023. The total revenues impact of divestitures was a negative \$(117) million \$164 million and the impact at an Adjusted EBITDA level was a negative \$(24) million, \$46 million for the three months ended June 30, 2024. For the six months ended June 30, 2024, the total revenues impact of divestitures was a negative \$281 million and the impact at an Adjusted EBITDA level was a negative \$70 million.

The U.S. Dollar weakened against most major currencies during the three months ended March 31, 2024 June 30, 2024, from the comparable period in 2023, resulting in an overall positive currency exchange impact.

Because of the impact of acquisitions, divestitures, currency exchange translation and other non-recurring items on reported results each reporting period, CRH uses organic revenue and organic Adjusted EBITDA as additional performance indicators to assess performance of pre-existing (also referred to as underlying, heritage, like-for-like or ongoing) operations each reporting period.

Organic revenue and organic Adjusted EBITDA are arrived at by excluding the incremental revenue and Adjusted EBITDA contributions from current and prior year acquisitions and divestitures, the impact of exchange translation, and the impact of any one-off items. In the Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" section on pages 26 and 27, 28 to 31, changes in organic revenue and organic Adjusted EBITDA are presented as additional measures of revenue and Adjusted EBITDA to provide a greater understanding of the performance of the Company. Organic change % is calculated by

expressing the organic movement as a percentage of the prior year reporting period (adjusted for currency exchange effects). A reconciliation of the changes in organic revenue and organic Adjusted EBITDA to the changes in total revenues and Adjusted EBITDA by segment, is presented with the discussion within each segment's performance in tables contained in the segment discussion in Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" commencing on page 23 24.

Liquidity and Capital Resources

The Company's primary source of incremental liquidity is cash flows from operating activities, which combined with the cash and cash equivalents balance, the U.S. Dollar and Euro Commercial Paper Programs, and committed credit lines, is expected to be sufficient to meet the Company's working capital needs, capital expenditures, dividends, share repurchases, upcoming debt maturities, and other liquidity requirements associated with our operations for the foreseeable future. In addition, the Company believes that it will have the ability to fund additional acquisitions via cash flows from internally available cash, cash flows from operating activities and, subject to market conditions, via obtaining additional borrowings and/or issuing additional debt or equity securities.

Total short and long-term debt was \$12.7 billion \$13.1 billion at March 31, 2024 June 30, 2024, compared with to \$11.6 billion at year-end 2023, December 31, 2023, and \$9.8 billion \$9.7 billion at March 31, 2023 June 30, 2023. In May 2024, wholly owned subsidiaries of the three Company completed the issuance of \$750 million 5.20% Senior Notes due 2029 and \$750 million 5.40% Senior Notes due 2034. In January 2024, €600 million of euro-denominated notes 1.875% euro Senior Notes were repaid on maturity.

Net Debt\* at March 31, 2024 June 30, 2024, was \$9.6 billion \$10.3 billion, compared with to \$5.4 billion at December 31, 2023, and \$5.3 billion \$5.7 billion at March 31, 2023 June 30, 2023. The increase in Net Debt\* compared with to December 31, 2023, reflects outflows from operating activities, the significant acquisition of a portfolio of cement and readymixed concrete assets and operations in Texas, acquisitions, cash returns to shareholders through dividends and continued share buybacks, and as well as the purchase of property, plant and equipment, partially offset by inflows from operating activities and proceeds from the completed divestiture of phases one and two of the European Lime operations. In addition, the Company had restricted cash of \$0.9 billion at June 30, 2024, included within restricted cash in the Condensed Consolidated Balance Sheets. This restricted cash consists of amounts held in escrow related to transactions expected to close in a future period, primarily related to amounts payable for the acquisition of Adbri as referenced in Note 4.

CRH continued its ongoing share buyback program in the first quarter six months of 2024 repurchasing approximately five million 9.4 million ordinary shares for a total consideration of \$0.4 billion \$0.7 billion and the Company is commencing an additional \$0.3 billion tranche to be completed no later than August 7, 2024 November 6, 2024. The Company also made cash dividend payments of \$0.8 billion \$1.2 billion in the first quarter six months of 2024. Other than items updated in this Quarterly Report, CRH's financial condition and the nature and composition of the Company's material cash requirements, which include debt service and related interest payments, operating lease obligations, share repurchase commitments and other purchase obligations arising in the normal course of business, have not materially changed from those disclosed in the 2023 Form 10-K.

Cash flows

At March 31, 2024 June 30, 2024, CRH had outstanding total short and long-term debt of \$12.7 billion \$13.1 billion compared with \$9.8 billion \$9.7 billion at March 31, 2023 June 30, 2023. Total lease liabilities were \$1.5 billion compared with \$1.3 billion at March 31, 2023 June 30, 2023. At March 31, 2024 June 30, 2024, CRH had \$3.8 billion \$3.7 billion of undrawn committed facilities which were available until May 2028. During April 2024, the Company completed a one-year extension option on the undrawn committed facilities extending the maturity date to May 2029. Also during April 2024, the U.S. Dollar Commercial Paper Program was increased from \$2.0 billion to \$4.0 billion. At March 31, 2024 June 30, 2024, CRH had sufficient cash balances to meet all maturing debt obligations for the next 1.3 years 1.0 year and the weighted average maturity of the remaining term debt was 7.8 8.1 years.

CRH Form 10-Q 37

Item 3. Quantitative and Qualitative Disclosures About Market Risk

CRH is exposed to market risks relating to fluctuations in foreign exchange risks, interest rates, and commodity prices. Changes in those factors could impact the Company's results of operations and financial condition. Financial risk management at the Company seeks to minimize the negative impact of foreign exchange, interest rate and commodity price fluctuations on the Company's earnings, cash flows and equity. Management provides oversight for risk management and derivative activities, determines certain of the Company's financial risk policies and objectives, and provides guidelines for derivative instrument utilization.

To manage these risks, CRH uses various derivative financial instruments, including interest rate swaps, foreign exchange forwards and swaps, and commodity contracts. CRH only uses commonly traded and non-leveraged instruments. These contracts are entered into primarily with major banking institutions and utility companies, while CRH actively monitors its exposure to counterparty risk through the use of counterparty approvals and credit limits, thereby minimizing the risk of counterparty loss.

The following discussion presents the sensitivity of the market value, earnings and cash flows of the Company's financial instruments to hypothetical changes in interest and exchange rates assuming these changes occurred at March 31, 2024 June 30, 2024.

CRH Form 10-Q 33

Interest Rate Risk

CRH may be impacted by interest rate volatility with respect to existing debt and future debt issuances as well as cash balances. For fixed rate debt instruments, interest rate changes affect the fair market value but do not impact earnings or cash flows. Conversely, for floating rate debt instruments, interest rate changes generally do not affect the fair market value of the instrument but impact future earnings and cash flows, assuming that other factors are held constant. Cash balances are held on short-term deposits and changing interest rates will impact deposit interest income earned. The Company uses interest rate swaps to convert a portion of its fixed rate debt to floating rate debt and these may be designated and qualify as fair value hedges. Under these arrangements, the Company agrees to exchange, at specified intervals, the difference between fixed and benchmark floating interest rates calculated by reference to an agreed-upon notional principal amount.

At March 31, 2024 June 30, 2024, the Company had fixed rate debt of \$8.3 billion and floating rate debt of \$4.6 billion, representing 65% and 35%, respectively, of total debt including overdrafts, finance leases and the impact of derivatives. At March 31, 2023, derivatives, the Company had fixed rate debt of \$7.8 billion \$9.8 billion and floating rate debt of \$2.2 billion \$3.6 billion, representing 78% 73% and 22% 27% respectively. The equivalent figures as at December 31, 2023, were fixed rate debt of \$9.1 billion and floating rate debt of \$2.7 billion, representing 77% and 23% respectively, and as at June 30, 2023, fixed rate debt of total \$7.6 billion and floating rate debt including overdrafts, finance leases of \$2.4 billion, representing 76% and the impact of derivatives, 24% respectively. The Company's interest rate swaps at March 31, 2024 June 30, 2024, was were \$1.4 billion, compared to \$1.8 billion \$1.4 billion as at March 31, 2023 December 31, 2023 and \$1.4 billion as at June 30, 2023. Cash and cash equivalents at March 31, 2024 June 30, 2024, were \$3.3 billion \$3.1 billion, compared to \$4.7 billion \$6.4 billion at March 31, 2023 December 31, 2023 and \$4.3 billion at June 30, 2023, which was all held on short-term deposits and investments.

Sensitivity to interest rate moves

At March 31, 2024 June 30, 2024, the before-tax earnings and cash flows impact of a 100bps increase in interest rates, including the offsetting impact of derivatives, on the variable rate cash and debt portfolio would be approximately \$13 million \$5 million unfavorable (\$25 \$37 million favorable at March 31, 2023 December 31, 2023 and \$19 million favorable at June 30, 2023).

Foreign Exchange Rates Rate Risk

CRH's exchange rate exposures result primarily from its investments and ongoing operations in countries outside of the United States and other business transactions such as the procurement of products and equipment from foreign sources. Fluctuations in foreign currency exchange rates may affect (i) the carrying value of the Company's net investment in foreign subsidiaries; (ii) the translation of foreign currency earnings; and (iii) the cash flows related to foreign currency denominated transactions.

Where economically feasible, the Company maintains Net Debt<sup>†</sup> in the same relative ratio as capital employed to act as an economic hedge of the underlying currency assets. Where it is not feasible to do so, the Company may enter into foreign exchange forward contracts to hedge a portion of the net investment against the effect of exchange rate fluctuations. These transactions are designated as net investment hedges.

The Company also enters into foreign exchange forward contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies. These transactions are designated as cash flow hedges. In addition, the Company may enter into foreign currency contracts that are not designated in hedging relationships to offset, in part, the impacts of changes in value of various non-functional currency denominated items including certain intercompany financing balances. The U.S. Dollar equivalent gross notional amount of the Company's foreign exchange forward contracts was \$4.5 billion \$4.2 billion at March 31, 2024 June 30, 2024, compared to \$1.6 billion at March 31, 2023 December 31, 2023 and \$1.7 billion at June 30, 2023.

Holding all other variables constant, if there was a 10% weakening in foreign currency exchange rates versus U.S. Dollar for the portfolio, the fair market value of foreign currency contracts outstanding at March 31, 2024 June 30, 2024, would decrease by approximately \$135 million \$113 million, which would be largely offset by a gain on the foreign currency fluctuation of the underlying exposure being hedged. In comparison, the fair market value of foreign currency contracts outstanding at March 31, 2023 December 31, 2023 would increase by approximately \$2 million and at June 30, 2023, would increase by approximately \$4 million \$13 million, largely offset by a loss on the underlying exposure being hedged.

Commodity Price Risk

Some of the Company's products contain significant amounts of commodity-priced materials, predominantly fuel oil, carbon credits, coal, and electricity, which are subject to price changes based upon fluctuations in the commodities market. This price volatility could potentially have a material impact on our financial condition and/or our results of operations. Where feasible, the Company manages commodity price risks through negotiated supply contracts and forward contracts to manage operating costs. The Company monitors commodity trends and where possible has alternative sourcing plans in place to mitigate the risk of supplier concentration and passing commodity-related inflation to customers or suppliers.

Where appropriate, the Company also has a number of derivative hedging programs in place to hedge commodity risks, with the aim of the programs being to neutralize variability arising from changes in associated commodity indices. The timeframe for such programs can be up to four years.

<sup>†</sup> Represents a non-GAAP measure. See the discussion within 'Non-GAAP Reconciliation and Supplementary Information' on pages 32 to 33.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management has evaluated the effectiveness of the design and operation of the disclosure controls and procedures as defined in Securities Exchange Act Rule 13a-15(e) as of March 31, 2024 June 30, 2024. Based on that evaluation, the Chief Executive and the Chief Financial Officer have concluded that these disclosure controls and procedures were effective as of such date at the level of providing reasonable assurance.

In designing and evaluating our disclosure controls and procedures, management, including the Chief Executive and the Chief Financial Officer, recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

<sup>†</sup> Represents a non-GAAP measure. See the discussion within 'Non-GAAP Reconciliation and Supplementary Information' on pages 28 to 29.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

CRH and its subsidiaries are from time to time parties to various legal proceedings that arise in the ordinary course of business, including some in which claims for damages have been asserted against CRH. Having taken appropriate advice, we believe that the aggregate outcome of such proceedings will not have a material effect on our financial condition, results of operations or liquidity.

CRH has elected to use a \$1 million threshold for disclosing certain proceedings under environmental laws to which a governmental authority is a party. Applying this threshold, there were no relevant legal proceedings to disclose for this period.

Item 1A. Risk Factors

for the Financial Year immediately preceding the Financial Year in which the Grant Date occurs.

2.4An Award will be granted over such number of Shares as have a market value (as determined by the Board) equal to the Deferred Bonus (having allowed for any rounding down necessary to equate to the nearest whole Share). Such market value shall be determined by the Board and shall be derived from calculating the average share price for a Share for the period between 1 October and 31 December in the year prior to the Grant Date.

2.5To the extent any Award exceeds the limit in rule 2.4 it will be scaled back accordingly.

4.1.2determine at any time that a Participant will be entitled to a benefit calculated by reference to the value of some or all of the dividends (excluding special dividends, unless the Board determines otherwise) that would have been paid on Shares in respect of which the Award Vests from the Grant Date until the date of Vesting and the Board will determine if the benefit will be delivered in the form of cash or Shares.

3

### **5.REDUCTION FOR MALUS**

5.1Notwithstanding any other rule of the Plan, the Board may, in its absolute discretion, determine at any time prior to the Vesting of an Award to:

5.1.1reduce the number of Shares to which an Award relates;

5.1.2cancel an Award; or

5.1.3impose further conditions on an Award; in circumstances in which the Board considers such action is appropriate.

5.2Such circumstances include, but are not limited to:

5.2.1a material misstatement of the Company's audited financial results;

5.2.2a material failure of risk management by the Company, any Group Member or a relevant business unit;

### **6.VESTING AND EXERCISE**

6.1Subject to rules 9 and 10 an Award will Vest;

a Dealing Restriction applies to the Award, on the date on which such Dealing Restriction lifts; and

a Nil-Cost Option may then be exercised until the seventh anniversary of the Grant Date in such manner as the Board determines, after which time, it will lapse.

6.2Subject to rules 7 and 8, where a Conditional Award has Vested or a Nil-Cost Option has been exercised, the number of Shares in respect of which the Award has Vested or been exercised together with any additional

7.2The Vesting of a Conditional Award, the exercise of a Nil-Cost Option and the transfer of Shares under this Plan will be subject to obtaining any approval or consent required by the UKLA (or other relevant authority), any Dealing Restrictions, or any other applicable laws or regulations in any jurisdiction.

4

#### **8.CASH EQUIVALENT**

8.1Subject to rule 8.2, at any time prior to the date on which an Award has Vested or, in the case of a Nil-Cost Option, has been exercised, the Board may determine that in substitution for his right to acquire some or all of the Shares to which his Award relates, the Participant will instead receive a cash sum. The cash sum will be equal to the market value (as determined by the Board) of that number of the Shares which would otherwise have been issued or transferred and for these purposes:

8.1.1in the case of a Conditional Award, market value will be determined on the date of Vesting;

8.1.2in the case of a Nil-Cost Option, market value will be determined on the date of exercise; and

8.1.3the cash sum will be paid to the Participant within 30 days after the Vesting of the Conditional Award or the exercise of the Nil-Cost Option, net of any deductions (including but not limited to any Tax Liability or similar liabilities) as may be required by law.

8.2The Board may determine that this rule 8 will not apply to an Award, or any part of it.

#### **9.CESSATION OF EMPLOYMENT**

9.1If a Participant ceases to hold office or employment with a Group Member other than in accordance with rule 9.2 or 9.3, his Award (whether or not Vested) will lapse at that time.

9.2If a Participant dies:

9.2.1unless the Board determines otherwise, an Award which has not yet Vested at the date of his death will Vest as soon as practicable thereafter in accordance with rule 9.2.2;

9.2.2the number of Shares in respect of which an Award Vests pursuant to rule 9.2.1 will be determined by the Board in its discretion. To the extent that an Award does not Vest in full, the remainder will lapse immediately; and

9.2.3a Nil-Cost Option may then be exercised, subject to rule 10, during the period of 12 months from the date of death (or such other period as the Board may determine), after which time it will lapse.

9.3If a Participant ceases to hold office or employment with a Group Member as a result of:

9.3.1ill-health, injury or disability;

9.3.2the Participant's employing company ceasing to be a Group Member or the transfer of an undertaking or part of an undertaking (in which the Participant is employed) to a person who is not a Group Member; or

9.3.3any other reason at the Board's discretion, except where a Participant is summarily dismissed, unless the Board determines that an Award will Vest in accordance with rule 9.4, an Award which has not yet Vested as at the date of cessation will continue and Vest, subject to rule 10, on the Normal Vesting Date.

9.4If the Board determines that an Award will Vest in accordance with this rule 9.4, it will Vest as soon as practicable following the date of cessation.

9.5The number of Shares in respect of which an Award Vests pursuant to rule 9.3 or 9.4 will be determined by the Board in its discretion.

9.6A Nil Cost Option may be exercised for a period of six months or such other period as the Board may determine

from the date of Vesting, after which time it will lapse.

5

9.7 For the purposes of the Plan, no person will be treated as ceasing to hold office or employment with a Group Member until that person no longer holds:

9.7.1 an office or employment with any Group Member; or

9.7.2 a right to return to work.

#### 10. CORPORATE EVENTS

10.1 Where any of the events described in rule 10.2 occur, then subject to rules 10.6 and 10.7, all Awards which have not yet Vested will Vest in full at the time of such event unless they Vest earlier in accordance with rule 10.3. Vested Nil-Cost Options will be exercisable for one month from the date of the relevant event, after which all Nil-Cost Options will lapse.

10.2 The events referred to in rule 10.1 are:

##### 10.2.1 General offer

If any person (either alone or together with any person acting in concert with him);

i) obtains Control of the Company as a result of making a general offer to acquire Shares; or

ii) already having Control of the Company, makes an offer to acquire all of the Shares other than those which are already owned by him and such offer becomes wholly unconditional.

##### 10.2.2 Scheme of arrangement

A compromise or arrangement in accordance with section 201 of the Companies Act 1963 for the purposes of a change of Control of the Company which is sanctioned by the Court.

##### 10.3 Loss of corporation tax deduction

If the Board determines that there would be a loss of corporation tax deduction under Part 12 of the Corporation Tax Act 2009 (or any similar legislation or rules in a jurisdiction outside the United Kingdom) if Awards were to Vest on or after an event described in rule 10.2, then the Board may resolve that Awards will Vest on an earlier date.

##### 10.4 Winding-up

On the passing of a resolution for the voluntary winding-up or the making of an order for the compulsory winding up of the Company, the Board will determine whether and to what extent Awards which have not yet Vested will Vest (and lapse as to the remainder). The Board will then also determine the period during which any Vested Nil-Cost Option may be exercised, after which time it will lapse.

##### 10.5 Other events

If the Company is or may be affected by a merger with another company, demerger, delisting, special dividend or other event which in the opinion of the Board, may affect the current or future value of Shares, the Board will determine whether Awards which have not yet Vested will Vest (and lapse as to the remainder).

The Board will then also determine the period during which any Vested Nil-Cost Option may be exercised, after which time it will lapse.

##### 10.6 Exchange

An Award will not Vest under rule 10.1 but will be exchanged on the terms set out in rule 10.7 to the extent that:

6

10.6.1an offer to exchange the Award (the "Existing Award") is made and accepted by a Participant;

10.6.2there is an Internal Reorganisation; or

10.6.3 the Board decides (before the event) that an Existing Award will be exchanged automatically.

10.7Exchange terms

If this rule 10.7 applies, the Existing Award will not Vest but will be exchanged in consideration of the grant of a new award which, in the opinion of the Board, is equivalent to the Existing Award, but relates to shares in a different company (whether the acquiring company or a different company).

10.8Meaning of Board

Any reference to the Board in this rule 10 means the member of the Board immediately prior to the relevant event.

#### 11.ADJUSTMENTS

11.1The number of Shares subject to an Award may be adjusted in such manner as the Board determines, in the event of:

11.1.1any variation of the share capital of the Company; or

11.1.2a merger with another company, demerger, delisting, special dividend, rights issue or other event which may, in the opinion of the Board, affect the current or future value of Shares.

#### 12.AMENDMENTS

12.1Except as described in this rule 12, the Board may at any time amend the rules of the Plan.

12.2No amendment to the material disadvantage of existing rights of Participants will be made under rule 12.1 unless:

12.2.1every Participant who may be affected by such amendment has been invited to indicate whether or not he approves the amendment; and

12.2.2the amendment is approved by a majority of those Participants who have so indicated.

#### 13.LEGAL ENTITLEMENT

13.1This rule 13 applies during a Participant's employment with any Group Member and after the termination of such employment, whether or not the termination is lawful. Participation in the Plan is permitted only on the basis that the Eligible Employee accepts all the provisions of these rules, including in particular this rule 13.

13.2Nothing in the Plan or its operation forms part of the terms of employment of a Participant and the rights and obligations arising from a Participant's employment with any Group Member are separate from, and are not affected by, his participation in the Plan.

13.3Awards will not (except as may be required by taxation law) form part of the emoluments of any Participant or count as wages or remuneration for pension or other purposes.

13.4Nothing in the Plan or its operation will confer on any person any right to continue in employment and neither will it affect the right of any Group Member to terminate the employment of any person without liability at any time (with or without cause) or impose upon the Board or any other person any duty or liability whatsoever in connection with:

13.4.3the lapsing of an Award pursuant to the Plan;

7

13.4.3the failure or refusal to exercise any discretion under the Plan; or

13.4.3a Participant ceasing to hold office or employment for any reason whatsoever.

13.5The grant of any Award to a Participant does not create any right for that Participant to be granted any further

Awards or to be granted Awards on any particular terms, including the number of Shares to which Awards relate.

13.6 By Participating in the Plan, a Participant waives all rights to compensation for any loss in relation to the Plan, including:

13.6.4 any loss of office or employment;

13.6.4 any loss or reduction of any rights or expectations under the Plan in any circumstances or for any reason (including lawful or unlawful termination of the Participant's employment);

13.6.4 any exercise of a discretion or a decision taken in relation to an Award or to the Plan, or any failure to exercise a discretion or take a decision;

13.6.4 the operation, suspension, termination or amendment of the Plan.

13.7 Each of the provisions of each rule of the Plan is entirely separate and independent from each of the other provisions of each rule. If any provision is found to be invalid then it will be deemed never to have been part of the rules of the Plan and to the extent that it is possible to do so, this will not affect the validity or enforceability of any of the remaining provisions of the rules of the Plan.

#### 14. GENERAL

14.1 The Plan will terminate upon the date stated in rule 2.7, or at any earlier time by the passing of a resolution by the Board. Termination of the Plan will be without prejudice to the existing rights of Participants.

## Disclosure of Mine Safety and Health Administration (“MSHA”) Safety Data

CRH is committed to the health and safety of its employees and to providing an incident free workplace. The Company maintains a comprehensive health and safety program that includes extensive training for all employees and contractors, site inspections, emergency response preparedness, crisis communications training, incident investigation, regulatory compliance training and process auditing.

CRH's **US U.S.** aggregate quarry and mine operations are subject to Mine Safety and Health Administration (MSHA) regulation under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”). MSHA inspects our mines on a regular basis and issues various citations and orders when it believes a violation has occurred under the Mine Act. Whenever MSHA issues a citation or order, it also generally proposes a civil penalty, or fine, related to the alleged violation.

During the quarter ended **March 31, 2024 June 30, 2024**, **one none** of our mining operations received orders under section 104(b); none of our mining operations received from MSHA of a flagrant violation under section 110(b)(2), notice of pattern of violations under section 104(e) or potential to have pattern under section 104(e) of the Mine Act. For the quarter ended **March 31, 2024 June 30, 2024**, we experienced no mining related fatalities.

The information in the table below reflects citations and orders MSHA issued to CRH during the quarter ended **March 31, 2024 June 30, 2024**, as reflected in our records in our system may not match or reconcile with the data MSHA maintains on its public website. In evaluating this information, consideration should also be given to factors such as: (i) the number of citations and orders may vary depending on the size and operation of the mine; (ii) the number of citations issued may vary from inspector to inspector and mine to mine; and (iii) citations and orders may be contested and appealed, and in that process, may be reduced in severity and amount, and may be dismissed.

(1)MSHA assigns an identification number to each mine or operation and may or may not assign separate identification numbers to related facilities. The information provided in this table is presented by mine identification number.

(2)The definition of mine under Section 3 of the Mine Act includes the mine, as well as other items used in, or to be used in, or resulting from, the work of extracting minerals, such as land, structures, facilities, equipment, machines, tools, and preparation facilities. Unless otherwise indicated, any of these other items associated with a single mine have been aggregated in the totals for that mine.

(3)Represents the total number of citations issued by MSHA, for violation of health or safety standards that could significantly and substantially contribute to a serious injury if left unabated. If MSHA determines that a violation of a mandatory health or safety standard is reasonably likely to result in a reasonably serious injury or illness under the unique circumstance contributed to by the violation, MSHA will classify the violation as a "significant and substantial" violation.

(4)Represents the total number of orders issued, which represents a failure to abate a citation under section 104(a) within the period prescribed by MSHA.

(5)Represents the total number of citations and orders issued by MSHA of the Mine Act for unwarrantable failure to comply with mandatory health or safety standards. These violations are similar to those described above, but the standard is that the violation could significantly and substantially contribute to the cause and effect of a safety or health hazard, but the conditions do not cause imminent danger, and the MSHA inspector finds that the violation is caused by an unwarranted failure of the operator to comply with the health and safety standards.

- (6) Represents the total number of imminent danger orders issued under section 107(a) of the Mine Act. These orders are issued for situations in which MSHA determines an imminent danger exists in the quarry or mine and results in orders of immediate withdrawal of all persons (except certain authorised persons) from the area of the quarry or mine affected by its condition until the imminent danger and the underlying conditions causing the imminent danger no longer exist.
- (7) Represents whether a mine has received a written notice of a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of our mine health or safety hazards under section 104(e) of the Mine Act.
- (8) Represents whether a mine has received a written notice of the potential to have a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of our mine health or safety hazards under section 104(e) of the Mine Act.
- (9) Total dollar value of proposed assessments from MSHA under the Mine Act. These are the amounts of proposed assessments issued by MSHA with each citation or order for the time period covered by the reports. Penalties are assessed by MSHA according to a formula that considers a number of factors, including the mine operator's history, size, negligence, gravity of the violation, good faith in trying to correct the violation promptly, and the effect of the penalty on the operator's ability to continue in business.
- (10) Pending legal actions before the Commission as required to be reported by Section 1503(a)(3) of the Dodd-Frank Act. All 16 pending legal actions are contests of proposed penalties referenced in Subpart C of 29 CFR Part 2700. There are no contests of citations and orders referenced in Subpart B of 29 CFR Part 2700; no complaints of discharge, discrimination or interference referenced in Subpart E of 29 CFR Part 2700; no complaints for compensation referenced in Subpart D of 29 CFR Part 2700; no applications for temporary relief referenced in Subpart F of 29 CFR Part 2700; and no appeals of judges' decisions or orders to the Federal Mine Safety and Health Review Commission referenced in Subpart H of 29 CFR Part 2700.
