**(Unaudited)**

**NOTE 1— THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Nature of Operations**

Angi Inc. connects quality home service professionals with consumers across more than 500 different categories, from repairing and remodeling homes to cleaning and landscaping. Approximately 192,000 transacting service professionals actively sought consumer matches, completed jobs, or advertised work through Angi Inc. platforms during the three months ended March 31, 2024. Additionally, consumers turned to at least one of our businesses to find a service professional for approximately 21 million projects during the twelve months ended March 31, 2024.

The Company has three operating segments: (i) Ads and Leads; (ii) Services; and (iii) International (consisting of businesses in Europe and Canada) and operates under multiple brands including Angi, HomeAdvisor, and Handy.

Ads and Leads provides service professionals the capability to engage with potential customers, including quoting and invoicing services, and provides consumers with tools and resources to help them find local, pre-screened and customer-rated service professionals nationwide for home repair, maintenance and improvement projects. Services consumers can request household services directly through the Angi platform and Angi fulfills the request through the use of independently established home services providers engaged in a trade, occupation and/or business that customarily provides such services. The matching, pre-priced booking services, and related tools and directories are provided to consumers free of charge.

As used herein, "Angi," the "Company," "we," "our," "us," and similar terms refer to Angi Inc. and its subsidiaries (unless the context requires otherwise).

At March 31, 2024, IAC Inc. ("IAC") owned 84.3 % and 98.2 % of the economic and voting interests, respectively, of the Company.

**Total Home Roofing, LLC Sale**

On November 1, 2023, Angi Inc. completed the sale of 100 % of its wholly-owned subsidiary, Total Home Roofing, LLC ("THR," which comprised its Roofing segment), and has reflected it as a discontinued operation in its financial statements. See "[Note 11—Discontinued Operations](#)" for additional details. The financial information for prior periods has been recast to conform to this presentation.

**Basis of Presentation and Consolidation**

The Company prepares its consolidated financial statements (referred to herein as "financial statements") in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP"). The financial statements include the accounts of the Company, all entities that are wholly-owned by the Company and all entities in which the Company has a controlling financial interest. All intercompany transactions and balances between and among the Company and its subsidiaries have been eliminated.

The unaudited interim financial statements have been prepared in accordance with GAAP for interim financial information and with the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and notes required by GAAP for complete annual financial statements. In the opinion of management, the unaudited interim financial statements include all normal recurring adjustments considered necessary for a fair presentation. Interim results are not necessarily indicative of the results that may be expected for the full year. The unaudited interim financial statements should be read in conjunction with the annual audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

**Accounting Estimates**

Management of the Company is required to make certain estimates, judgments, and assumptions during the preparation of its financial statements in accordance with GAAP. These estimates, judgments, and assumptions impact the reported amounts of assets, liabilities, revenue, and expenses and the related disclosure of assets and liabilities. Actual results could differ from these estimates.

**ANGI INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

On an ongoing basis, the Company evaluates its estimates and judgments, including those related to: the fair values of cash equivalents; the carrying value of accounts receivable, including the determination of the allowance for credit losses; the determination of the customer relationship period for certain costs to obtain a contract with a customer; the recoverability of all long-lived assets, including goodwill and indefinite-lived intangible assets; contingencies; unrecognized tax benefits; the liability for potential refunds and customer credits; the valuation allowance for deferred income tax assets; and the fair value of and forfeiture rates for stock-based awards, among others. The Company bases its estimates and judgments on historical experience, its forecasts and budgets, and other factors that the Company considers relevant.

**General Revenue Recognition**

The Company accounts for a contract with a customer when it has approval and commitment from all authorized parties, the rights of the parties and payment terms are identified, the contract has commercial substance and collectability of consideration is probable. Revenue is recognized when control of the promised services or goods is transferred to the Company's customers and in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services or goods.

The Company's disaggregated revenue disclosures are presented in "[Note 5—Segment Information](#)."

**Deferred Revenue**

Deferred revenue consists of payments that are received or are contractually due in advance of the Company's performance obligation. The Company's deferred revenue is reported on a contract-by-contract basis at the end of each reporting period. The Company classifies deferred revenue as current when the remaining term or expected completion of its performance obligation is one year or less. At December 31, 2023, the current and non-current deferred revenue balances were \$ 49.9 million and \$ 0.1 million, respectively, and during the three months ended March 31, 2024, the Company recognized \$ 32.6 million of revenue that was included in the deferred revenue balance as of December 31, 2023. At December 31, 2022, the current and non-current deferred revenue balances were \$ 50.1 million and \$ 0.1 million, respectively, and during the three months ended March 31, 2023, the Company recognized \$ 31.9 million of revenue that was included in the deferred revenue balance as of December 31, 2022.

The current and non-current deferred revenue balances at March 31, 2024 are \$ 50.1 million and less than \$ 0.1 million, respectively. Non-current deferred revenue is included in "Other long-term liabilities" in the balance sheet.

**Practical Expedients and Exemptions**

For contracts that have an original duration of one year or less, the Company uses the practical expedient available under Accounting Standards Codification ("ASC") Topic 606 ("ASC 606"), Revenue from Contracts with Customers, applicable to such contracts and does not consider the time value of money.

In addition, as permitted under the practical expedient available under ASC 606, the Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less, (ii) contracts with variable consideration that is allocated entirely to unsatisfied performance obligations or to a wholly unsatisfied promise accounted for under the series guidance, and (iii) contracts for which the Company recognizes revenue at the amount which it has the right to invoice for services performed.

The Company also applies the practical expedient to expense sales commissions as incurred where the anticipated customer relationship period is one year or less.

**Recent Accounting Pronouncements**

**Recent Accounting Pronouncements Adopted by the Company**

There are no recently issued accounting pronouncements adopted by the Company during the three months ended March 31, 2024.

***Recent Accounting Pronouncements Not Yet Adopted by the Company***

***Accounting Standards Update ("ASU") 2023-07—Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures***

In November 2023, the FASB issued ASU No. 2023-07, which is intended to provide users of financial statements with more decision-useful information about reportable segments of a public business entity, primarily through enhanced disclosures of significant segment expenses. This ASU requires annual and interim disclosures of significant expenses that are regularly provided to the chief operating decision maker ("CODM") and included within each reported measure of segment profit or loss and an amount and description of its composition of other segment items. The provisions of this ASU also require entities to include all annual disclosures required by Topic 280 in the interim periods and permits entities to include multiple measures of a segment's profit or loss if such measures are used by the CODM to assess segment performance and determine allocation of resources, provided that at least one of those measures is determined in a way that is consistent with the measurement principles under GAAP. The amendments in ASU 2023-07 apply retrospectively and are effective for fiscal years beginning after December 15, 2023 and interim periods after December 15, 2024. Early adoption is permitted. The Company does not plan to early adopt and is currently assessing the impact of adopting the updated guidance on the financial statements.

***ASU 2023-09—Income Taxes (Topic 740)—Improvements to Income Tax Disclosures***

In December 2023, the FASB issued ASU No. 2023-09, which establishes required categories and a quantitative threshold to the annual tabular rate reconciliation disclosure and disaggregated jurisdictional disclosures of income taxes paid. The guidance's annual requirements are effective for the Company beginning with the December 31, 2025 reporting period. Early adoption is permitted and prospective disclosure should be applied, however, retrospective disclosure is permitted. The Company is currently assessing the pronouncement and its impact on its income tax disclosures, but it does not impact the Company's results of operations, financial condition, or cash flows.

**NOTE 2—FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS**

**Fair Value Measurements**

The Company categorizes its financial instruments measured at fair value into a fair value hierarchy that prioritizes the inputs used in pricing the asset or liability. The three levels of the fair value hierarchy are:

- Level 1: Observable inputs obtained from independent sources, such as quoted market prices for identical assets and liabilities in active markets.
- Level 2: Other inputs, which are observable directly or indirectly, such as quoted market prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in markets that are not active and inputs that are derived principally from or corroborated by observable market data. The fair values of the Company's Level 2 financial assets are primarily obtained from observable market prices for identical underlying securities that may not be actively traded. Certain of these securities may have different market prices from multiple market data sources, in which case an average market price is used.
- Level 3: Unobservable inputs for which there is little or no market data and require the Company to develop its own assumptions, based on the best information available in the circumstances, about the assumptions market participants would use in pricing the assets or liabilities.

The Company's non-financial assets, such as goodwill, intangible assets, ROU assets, capitalized software, leasehold improvements and equipment are adjusted to fair value only when an impairment is recognized. Such fair value measurements are based predominantly on Level 3 inputs.

The following tables present the Company's financial instruments that are measured at fair value on a recurring basis:

***Financial instruments measured at fair value only for disclosure purposes***

The total fair value of the outstanding long-term debt, including the current portion, is estimated using observable market prices or indices for similar liabilities, which are Level 2 inputs, and was approximately \$ 432.5 million and \$ 418.1 million at March 31, 2024 and December 31, 2023, respectively.

**NOTE 3— LONG-TERM DEBT**

Long-term debt consists of:

<b>Total long-term debt, net</b>	<b>\$ 496,241</b>	<b>\$ 496,047</b>	

ANGI Group, LLC (“ANGI Group”), a direct wholly-owned subsidiary of Angi Inc., issued the ANGI Group Senior Notes on August 20, 2020. These notes may be redeemed at the redemption prices, plus accrued and unpaid interest thereon, if any, as set forth in the indenture governing the notes.

The indenture governing the ANGI Group Senior Notes contains a covenant that would limit ANGI Group’s ability to incur liens for borrowed money in the event a default has occurred or ANGI Group’s secured leverage ratio exceeds 3.75 to 1.0, provided that ANGI Group is permitted to incur such liens under certain permitted credit facilities notwithstanding the ratio, all as defined in the indenture. At March 31, 2024, there were no limitations pursuant thereto.

**NOTE 4— ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)**

There were no items reclassified out of accumulated other comprehensive income (loss) into earnings during the three months ending March 31, 2024 and 2023. At March 31, 2024, there was no tax benefit or provision on the accumulated other comprehensive loss. The income tax provision related to net unrealized gains on available-for-sale marketable debt securities was not material at March 31, 2023.

**NOTE 5—SEGMENT INFORMATION**

Our reportable segments currently consist of Ads and Leads, Services, and International. Our CODM regularly reviews certain financial information by operating segment to determine allocation of resources and assess its performance. Segment profitability is determined by and presented on an Adjusted EBITDA basis consistent with the CODM's view of profitability of its businesses, which excludes certain expenses that are required in accordance with GAAP.

We consider operating income (loss) to be the financial measure calculated and presented in accordance with GAAP that is most directly comparable to our segment reporting performance measure, Adjusted EBITDA. **NOTE 6—INCOME TAXES**

The Company is included within IAC's tax group for purposes of federal and consolidated state income tax return filings. In all periods presented, the income tax provision and/or benefit has been computed for the Company on an as if standalone, separate return basis and payments to and refunds from IAC for the Company's share of IAC's consolidated federal and state tax return liabilities/receivables calculated on this basis have been reflected within cash flows from operating activities in the statement of cash flows. The tax sharing agreement between the Company and IAC governs the parties' respective rights, responsibilities and obligations with respect to tax matters, including responsibility for taxes attributable to the Company, entitlement to refunds, allocation of tax attributes and other matters and, therefore, ultimately governs the amount payable to or receivable from IAC with respect to income taxes. Any differences between taxes currently payable to or receivable from IAC under the tax sharing agreement and the current tax provision or benefit computed on an as if standalone, separate return basis for GAAP are reflected as adjustments to additional paid-in capital in the statement of shareholders' equity and financing activities within the statement of cash flows.

At the end of each interim period, the Company estimates the annual expected effective income tax rate and applies that rate to its ordinary year-to-date earnings or loss. The income tax provision or benefit related to significant, unusual, or extraordinary items, if applicable, that will be separately reported or reported net of their related tax effects are individually computed and recognized in the interim period in which they occur. In addition, the effect of changes in enacted tax laws or rates, tax status, judgment on the realizability of a beginning-of-the-year deferred tax asset in future years or unrecognized tax benefits is recognized in the interim period in which the change occurs.

The computation of the annual expected effective income tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected pre-tax income (or loss) for the year, projections of the proportion of income (and/or loss) earned and taxed in foreign jurisdictions, permanent and temporary differences, and the likelihood of the realization of deferred tax assets generated in the current year. The accounting estimates used to compute the provision or benefit for income taxes may change as new events occur, more experience is acquired, additional information is obtained or the Company's tax environment changes. To the extent that the expected annual effective income tax rate changes during a quarter, the effect of the change on prior quarters is included in income tax provision or benefit in the quarter in which the change occurs.

**ANGI INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

For the three months ended March 31, 2024, the Company recorded an income tax provision of \$ 3.5 million due primarily to the impact of stock-based awards and unbenefted losses, partially offset by research credits. For the three months ended March 31, 2023, the Company recorded an income tax provision of \$ 1.9 million, despite a pre-tax loss, due primarily to nondeductible stock-based compensation and foreign income taxed at different rates, partially offset by research credits.

The Company recognizes interest and, if applicable, penalties related to unrecognized tax benefits in the income tax provision. Accruals for interest are not material and there are currently no accruals for penalties.

The Company's income taxes are routinely under audit by federal, state, local and foreign authorities as a result of previously filed separate company and consolidated tax returns with IAC. These audits include questioning the timing and the amount of income and deductions and the allocation of income and deductions among various tax jurisdictions. The Company is not currently under audit by the Internal Revenue Service. Returns filed in various other jurisdictions are open to examination for tax years beginning with 2013. Income taxes payable include unrecognized tax benefits considered sufficient to pay assessments that may result from the examination of prior year tax returns. The Company considers many factors when evaluating and estimating its tax positions and tax benefits, which may not accurately anticipate actual outcomes and, therefore, may require periodic adjustment. Although management currently believes changes in unrecognized tax benefits from period to period and differences between amounts paid, if any, upon resolution of issues raised in audits and amounts previously provided will not have a material impact on the liquidity, results of operations, or financial condition of the Company, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

At March 31, 2024 and December 31, 2023, the Company has unrecognized tax benefits, including interest, of \$ 8.5 million and \$ 8.1 million, respectively; all of which are for tax positions included in IAC's consolidated tax return filings. If unrecognized tax benefits at March 31, 2024 are subsequently recognized, the income tax provision would be reduced by \$ 8.0 million. The comparable amount at December 31, 2023 was \$ 7.6 million. The Company believes that it is reasonably possible that its unrecognized tax benefits could decrease by \$ 0.2 million by March 31, 2025 due to settlements, all of which would reduce the income tax provision.

The Company regularly assesses the realizability of deferred tax assets considering all available evidence including, to the extent applicable, the nature, frequency and severity of prior cumulative losses, forecasts of future taxable income, tax filing status, the duration of statutory carryforward periods, available tax planning and historical experience. At March 31, 2024, the Company has a U.S. gross deferred tax asset of \$ 208.7 million that the Company expects to fully utilize on a more likely than not basis. Of this amount, \$ 22.6 million will be utilized upon the future reversal of deferred tax liabilities and the remaining net deferred tax asset of \$ 186.1 million will be utilized based on forecasts of future taxable income. The Company's most significant net deferred tax asset that could expire relates to U.S. federal net operating loss ("NOL") carryforwards of \$ 101.2 million. The Company expects to generate sufficient future taxable income of at least \$ 482.1 million prior to the expiration of these NOLs, the majority of which expire between 2033 and 2037, to fully realize this deferred tax asset.

<sup>(a)</sup> If the effect is dilutive, weighted average common shares outstanding include the incremental shares that would be issued upon the assumed exercise of stock options and subsidiary denominated equity and vesting of restricted stock units ("RSUs"). For the three months ended March 31, 2024 and 2023, 28.4 and 29.6 million, respectively, of potentially dilutive securities were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive. Accordingly, the weighted average basic shares outstanding were used to compute all loss per share amounts.

<sup>(b)</sup> Market-based awards ("MSUs") and performance-based stock units ("PSUs") are considered contingently issuable shares. Shares issuable upon exercise or vesting of MSUs and PSUs are included in the denominator for earnings per share if (i) the applicable market or performance condition(s) has been met and (ii) the inclusion of the MSUs and PSUs is dilutive for the respective reporting periods. For the three months ended March 31, 2024 and 2023, 0.4 million and 0.9 million underlying MSUs and PSUs, respectively, were excluded from the calculation of diluted earnings per share because the market or performance condition(s) had not been met.

**NOTE 9—CONTINGENCIES**

In the ordinary course of business, the Company is a party to various lawsuits. The Company establishes accruals for specific legal matters when it determines that the likelihood of an unfavorable outcome is probable and the loss is reasonably estimable. The total accrual for legal matters is \$ 1.7 million at March 31, 2024. Management has also identified certain other legal matters where it believes an unfavorable outcome is not probable and, therefore, no accrual is established. Although management currently believes that resolving claims against the Company, including claims where an unfavorable outcome is reasonably possible, and for which the Company cannot estimate a loss or range of loss, will not have a material impact on the liquidity, results of operations, or financial condition of the Company, these matters are subject to inherent uncertainties and management's view of these matters may change in the future. The Company also evaluates other contingent matters, including uncertain income tax positions and non-income tax contingencies, to assess the likelihood of an unfavorable outcome and estimated extent of potential loss. It is possible that an unfavorable outcome of one or more of these lawsuits or other contingencies could have a material impact on the liquidity, results of operations, or financial condition of the Company. See "[Note 6—Income Taxes](#)" for information related to uncertain income tax positions.

**NOTE 10—RELATED PARTY TRANSACTIONS WITH IAC**

*Allocation of CEO Compensation and Certain Expenses*

Joseph Levin, CEO of IAC and Chairman of Angi, was appointed CEO of Angi on October 10, 2022. As a result, for the three months ended March 31, 2024 and 2023, IAC allocated \$ 2.2 million and \$ 2.3 million, respectively, in costs to Angi (including salary, benefits, stock-based compensation and costs related to the CEO's office). These costs were allocated from IAC based upon time spent on Angi by Mr. Levin. Management considers the allocation method to be reasonable. The allocated costs also include costs directly attributable to the Company that were initially paid for by IAC and billed by IAC to the Company.

On April 8, 2024, Jeffrey W. Kip, President of Angi Inc., was appointed to succeed Joseph Levin as CEO of Angi Inc. Mr. Levin will remain Chairman of the Angi Inc. board of directors.

*The Combination and Related Agreements*

The Company and IAC, in connection with the transaction resulting in the formation of Angi Inc. in 2017, which is referred to as the "Combination," entered into a contribution agreement; an investor rights agreement; a services agreement; a tax sharing agreement; and an employee matters agreement, which collectively govern the relationship between IAC and Angi Inc.

For the three months ended March 31, 2024 and 2023, the Company was charged by IAC \$ 1.2 million and \$ 1.5 million, respectively, for services rendered pursuant to the services agreement. There were no outstanding payables pursuant to the services agreement at March 31, 2024 and December 31, 2023.

At March 31, 2024 and December 31, 2023, the Company had outstanding payables of \$ 2.8 million and \$ 2.1 million, respectively, due to IAC pursuant to the tax sharing agreement, which are included in "Accrued expenses and other current liabilities," in the balance sheet. There were no payments to or refunds from IAC pursuant to this agreement during the three months ended March 31, 2024 and 2023.

**ANGI INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)****Other Arrangements**

Additionally, the Company subleases office space to IAC and charged rent pursuant to a lease agreement of \$ 0.1 million and \$ 0.4 million for the three months ended March 31, 2024 and 2023, respectively. IAC subleases office space to the Company and charged rent pursuant to a lease agreement of \$ 0.3 million and \$ 0.3 million for the three months ended March 31, 2024 and 2023, respectively. At March 31, 2024, the Company has an outstanding receivable of \$ 0.3 million due from IAC pursuant to the sublease agreements. This amount is included in "Other non-current assets" in the balance sheet. At December 31, 2023, there were outstanding receivables of \$ 0.3 million due from IAC and no payable due to IAC pursuant to the sublease agreements.

The Company incurred advertising expense of \$ 1.2 million and \$ 1.8 million for the three months ended March 31, 2024 and 2023, respectively, related to advertising and audience targeted advertising purchased from another IAC owned business. At March 31, 2024 and December 31, 2023, there were related outstanding payables of \$ 0.7 million and \$ 1.3 million, respectively, included in "Accrued expenses and other current liabilities" in the balance sheet.

**NOTE 11—DISCONTINUED OPERATIONS**

On November 1, 2023, Angi Inc. completed the sale of 100 % of its wholly-owned subsidiary, THR, and has reflected it as a discontinued operation in its financial statements. The financial information for prior periods has been recast to conform to this presentation.

The components of the loss from discontinued operations for the three months ended March 31, 2023, in the statement of operations consisted of the following:

	Three Months Ended March 31,
	2023
	(In thousands)

During the period in which Angi owned THR, the Ads & Leads segment provided services totaling \$ 1.5 million to the Roofing segment for the three months ended March 31, 2023. Such services have and will continue in periods subsequent to the disposition of the Roofing segment on November 1, 2023.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**GENERAL**

**Management Overview**

Angi Inc. ("Angi," the "Company," "we," "our," or "us") connects quality home service professionals with consumers across more than 500 different categories, from repairing and remodeling homes to cleaning and landscaping. Approximately 192,000 transacting service professionals actively sought consumer matches, completed jobs, or advertised work through Angi Inc. platforms during the three months ended March 31, 2024. Additionally, consumers turned to at least one of our businesses to find a service professional for approximately 21 million projects during the twelve months ended March 31, 2024.

The Company has three operating segments: (i) Ads and Leads; (ii) Services; and (iii) International (consisting of businesses in Europe and Canada) and operates under multiple brands including Angi, HomeAdvisor, and Handy.

Ads and Leads provides service professionals the capability to engage with potential customers, including quoting and invoicing services, and provides consumers with tools and resources to help them find local, pre-screened and customer-rated service professionals nationwide for home repair, maintenance and improvement projects. Services consumers can request household services directly through the Angi platform and Angi fulfills the request through the use of independently established home services providers engaged in a trade, occupation and/or business that customarily provides such services. The matching, pre-priced booking services, and related tools and directories are provided to consumers free of charge.

For a more detailed description of the Company's operating businesses, see the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

**Total Home Roofing, LLC Sale**

On November 1, 2023, Angi Inc. completed the sale of 100% of its wholly-owned subsidiary, Total Home Roofing, LLC ("THR," which comprised its Roofing segment), and has reflected it as a discontinued operation in its financial statements. The financial information for prior periods has been recast to conform to this presentation. For additional details, see "[Note 11—Discontinued Operations](#)" to the consolidated financial statements included in "[Item 1. Consolidated Financial Statements](#)."

**Defined Terms and Operating Metrics:**

Unless otherwise indicated or as the context otherwise requires, certain terms, which include the principal operating metrics we use in managing our business, are defined below:

- **Ads and Leads Revenue** primarily comprises domestic revenue from consumer connection revenue for consumer matches, revenue from service professionals under contract for advertising and membership subscription revenue from service professionals and consumers.
- **Services Revenue** primarily comprises domestic revenue from pre-priced offerings by which the consumer requests services through a Company platform and the Company connects them with a service professional to perform the service.
- **International Revenue** primarily comprises revenue generated within the International segment (consisting of businesses in Europe and Canada), including consumer connection revenue for consumer matches and membership subscription revenue from service professionals and consumers.
- **Corporate** primarily comprises costs for corporate initiatives, shared costs, such as executive and public company costs, and other expenses not allocated to the operating segments.
- **Service Requests** are (i) fully completed and submitted domestic service requests for connections with Ads and Leads service professionals, (ii) contacts to Ads and Leads service professionals generated via the service professional directory from unique users in unique categories (such that multiple contacts from the same user in the same category in the same day are counted as one Service Request) and (iii) requests to book Services jobs in the period.
- **Monetized Transactions** are (i) Service Requests that are matched to a paying Ads and Leads service professional in

the period and (ii) completed and in-process Services jobs in the period; a single Service Request can result in multiple monetized transactions.

- **Transacting Service Professionals (“Transacting SPs”)** are the number of (i) Ads and Leads service professionals that paid for consumer matches or advertising and (ii) Services service professionals that performed a Services job, during the most recent quarter.
- **ANGI Group Senior Notes** - On August 20, 2020, ANGI Group, LLC (“ANGI Group”), a direct wholly-owned subsidiary of the Company, issued \$500.0 million of its 3.875% Senior Notes due August 15, 2028, with interest payable February 15 and August 15 of each year.

## Components of Results of Operations

### Cost of Revenue and Gross Profit

Cost of revenue, which excludes depreciation, consists primarily of (i) credit card processing fees, (ii) hosting fees, and (iii) payments made to independent third-party service professionals who perform work.

Gross profit is revenue less cost of revenue. Gross margin is gross profit expressed as a percentage of revenue.

### Operating Costs and Expenses:

- **Selling and marketing expense** - consists primarily of (i) advertising expenditures, which include marketing fees to promote the brand to consumers and service professionals with (a) online marketing, including fees paid to search engines and other online marketing platforms, partners who direct traffic to our brands, and app platforms, and (b) offline marketing, which is primarily television and radio advertising, (ii) compensation expense (including stock-based compensation expense) and other employee-related costs for our sales and marketing personnel, (iii) service guarantee expense, (iv) software license and maintenance costs, and (v) outsourced personnel costs.
- **General and administrative expense** - consists primarily of (i) compensation expense (including stock-based compensation expense) and other employee-related costs for personnel engaged in executive management, finance, legal, tax, human resources and customer service functions, (ii) provision for credit losses, (iii) software license and maintenance costs, (iv) outsourced personnel costs for personnel engaged in assisting in customer service functions, (v) fees for professional services, and (vi) rent expense and facilities costs (including impairments of right-of-use assets). Our customer service function includes personnel who provide support to our service professionals and consumers.
- **Product development expense** - consists primarily of (i) compensation expense (including stock-based compensation expense) and other employee-related costs that are not capitalized for personnel engaged in the design, development, testing and enhancement of product offerings and related technology, (ii) software license and maintenance costs, and (iii) outsourced personnel costs for personnel engaged in product development.

### Non-GAAP financial measure

**Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (“Adjusted EBITDA”)** is a non-GAAP financial measure. See [“Principles of Financial Reporting”](#) for the definition of Adjusted EBITDA and a reconciliation of net loss attributable to Angi Inc. shareholders to operating income (loss) to consolidated Adjusted EBITDA for the three months ended March 31, 2024 and 2023.

Monetized Transactions	5,511	6,451	(940)	(15)%
Transacting SPs	192	206	(14)	(7)%

Ads and Leads revenue decreased \$43.9 million, or 15%, due primarily to a decrease in consumer connection revenue of \$52.4 million, or 25%, partially offset by an increase of \$10.0 million, or 15%, in advertising revenue. The decrease in consumer connection revenue was due primarily to declines in Monetized Transactions as a result of fewer transacting SPs resulting from a reduction in unprofitable sales and changes to demand channels to increase lead quality to enhance the user experience for both homeowners and service professionals and to improve profitability through greater matching efficiency and bidding optimization as evidenced by a higher ratio of Monetized Transactions per Service Request. The increase in advertising revenue was primarily driven by continued growth in sales.

Services revenue decreased \$11.6 million, or 36%, due primarily to lower Service Requests as a result of certain efforts described in Ads and Leads above. In addition, the decrease in revenue reflects the residual impact from contracts entered into prior to January 1, 2023 and recognized as gross revenue in the first quarter of 2023. Effective January 1, 2023, Angi Inc. modified the Services terms and conditions resulting in net revenue reporting.

International revenue increased \$5.4 million, or 18%, due primarily to a larger service professional network and higher revenue per service professional.

Services cost of revenue decreased \$5.9 million, or 66%, and decreased as a percentage of revenue, due primarily to a \$5.3 million decrease in payments to third-party professional service providers primarily reflecting the residual impact from contracts entered into prior to January 1, 2023.

**Gross profit**

Selling and marketing expense	\$ 157,051	\$ 199,610	\$ (42,559)	(21)%
As a percentage of revenue	51%	56%		

Ads and Leads selling and marketing expense decreased \$40.3 million, or 23%, driven by decreases in advertising expense of \$31.9 million due to improved efficiency and compensation expense of \$7.5 million primarily due to a reduction in headcount.

Services selling and marketing expense decreased \$4.4 million, or 35%, driven by a decrease of \$1.9 million in compensation expense. The decrease in compensation expense is primarily due to lower headcount beginning in the second quarter of 2023.

**General and administrative expense**

	Three Months Ended March 31,			
	2024	2023	\$ Change	% Change
	(Dollars in thousands)			
General and administrative expense	\$ 85,521	\$ 96,667	\$ (11,146)	(12)%
As a percentage of revenue	28%	27%		

Ads and Leads general and administrative expense decreased \$7.4 million, or 12%, due primarily to decreases of \$7.7 million in the provision for credit losses and \$3.5 million in professional fees, partially offset by a \$1.9 million increase in lease expense. The decrease in the provision for credit losses is primarily due to lower revenue and improved collection rates. The decrease in professional fees is primarily due to a reduction in legal-related expenses. The increase in lease expense is primarily due to an impairment charge of a right-of-use asset recognized in the first quarter of 2024 related to the Company reducing its real estate footprint.

[Table of Contents](#)

Services general and administrative expense decreased \$4.3 million, or 34%, due primarily to a decrease of \$3.7 million in compensation expense due primarily to a \$2.9 million decrease in stock-based compensation as a result of a reduction in headcount.

Operating loss decreased \$13.6 million to income of \$2.7 million due primarily to the factors described above in the revenue, cost of revenue, sales and marketing, general and administrative, product development, and depreciation expense discussions.

At March 31, 2024, there was \$48.7 million of unrecognized compensation cost, net of estimated forfeitures, related to all equity-based awards, which is expected to be recognized over a weighted average period of approximately 2.35 years.

Ads and Leads Adjusted EBITDA increased \$1.4 million, or 3%, to \$41.2 million, and increased as a percentage of revenue, driven by lower selling and marketing expense due to improved marketing efficiency and lower general and administrative expense due to the decrease in the provision for credit losses and legal-related expenses, partially offset by lower gross profit due to a decrease in revenue and an increase in lease expense.

Services Adjusted EBITDA increased \$2.2 million, from a loss of \$2.2 million to income of less than \$0.1 million, and increased as a percentage of revenue, driven by lower operating expenses due to a reduced overall cost base as a result of exiting complex and less profitable offerings.

International Adjusted EBITDA increased \$2.3 million, or 53%, to \$6.7 million, driven by an increase in revenue.

**Interest expense**

In 2024, the Company recorded an income tax provision due primarily to the impact of stock-based awards and unbenefted losses, partially offset by research credits.

In 2023, the Company recorded an income tax provision, despite a pre-tax loss, due primarily to nondeductible stock-based compensation and foreign income taxed at different rates, partially offset by research credits.

## PRINCIPLES OF FINANCIAL REPORTING

We report Adjusted EBITDA as a supplemental measure to U.S. generally accepted accounting principles ("GAAP"). This measure is considered our primary segment measure of profitability and one of the metrics by which we evaluate the performance of our businesses, and on which our internal budgets are based and may also impact management compensation. We believe that investors should have access to, and we are obligated to provide, the same set of tools that we use in analyzing our results. This non-GAAP measure should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. We endeavor to compensate for the limitations of the non-GAAP measure presented by providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measure. We encourage investors to examine the reconciling adjustments between the GAAP and non-GAAP measure, which we discuss below.

### Definition of Non-GAAP Measure

*Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA")* is defined as operating income excluding: (1) stock-based compensation expense; (2) depreciation; and (3) acquisition-related items consisting of amortization of intangible assets and impairments of goodwill and intangible assets, if applicable. We believe this measure is useful for analysts and investors as this measure allows a more meaningful comparison between our performance and that of our competitors. Adjusted EBITDA has certain limitations because it excludes the impact of these expenses.

The following table reconciles net loss attributable to Angi Inc. shareholders to operating income (loss) to consolidated Adjusted EBITDA:

	Three Months Ended March 31,	
	2024	2023

For a reconciliation of operating income (loss) to Adjusted EBITDA for the Company's reportable segments, see "[Note 5—Segment Information](#)" to the consolidated financial statements included in "[Item 1. Consolidated Financial Statements](#)."

### Non-Cash Expenses That Are Excluded from Our Non-GAAP Measure

*Stock-based compensation expense* consists of expense associated with the grants, including unvested grants assumed in acquisitions, of stock appreciation rights, restricted stock units ("RSUs"), stock options, performance-based RSUs ("PSUs") and market-based awards. These expenses are not paid in cash and we view the economic costs of stock-based awards to be the dilution to our share base; we also include the related shares in our fully diluted shares outstanding for GAAP earnings per share using the treasury stock method. PSUs and market-based awards are included only to the extent the applicable performance or market condition(s) have been met (assuming the end of the reporting period is the end of the contingency period). The Company is currently settling all stock-based awards on a net basis and remits the required tax-withholding amounts from its current funds.

[Table of Contents](#)

*Depreciation* is a non-cash expense relating to our capitalized software, leasehold improvements and equipment and is computed using the straight-line method to allocate the cost of depreciable assets to operations over their estimated useful lives, or, in the case of leasehold improvements, the lease term, if shorter.

*Amortization of intangible assets and impairments of goodwill and intangible assets* are non-cash expenses related primarily to acquisitions. At the time of an acquisition, the identifiable definite-lived intangible assets of the acquired company, such as service professional relationships, technology, and trade names, are valued and amortized over their estimated lives. Value is also assigned to acquired indefinite-lived intangible assets, which comprise trade names and trademarks, and goodwill that are not subject to amortization. An impairment is recorded when the carrying value of an intangible asset or goodwill exceeds its fair value. We believe that intangible assets represent costs incurred by the acquired company to build value prior to acquisition and the related amortization and impairments of intangible assets or goodwill, if applicable, are not ongoing costs of doing business.

**Cash Flow Information**

In summary, the Company's cash flows are as follows:

	Three Months Ended March 31,	
	2024	2023
	(In thousands)	
<b>Net cash provided by (used in):</b>		
Operating activities attributable to continuing operations	\$ 22,296	\$ 21,172
Investing activities attributable to continuing operations	\$ (12,792)	\$ (24,214)
Financing activities attributable to continuing operations	\$ (10,074)	\$ (1,379)

Net cash provided by operating activities attributable to continuing operations consists of earnings adjusted for non-cash items and the effect of changes in working capital. Non-cash adjustments include depreciation, provision for credit losses, stock-based compensation expense, non-cash lease expense (including impairment of right-of-use assets), deferred income taxes, and amortization of intangibles.

**2024**

Adjustments to net loss attributable to continuing operations consist primarily of \$23.8 million of depreciation, \$15.9 million of provision for credit losses, \$9.4 million of stock-based compensation expense, \$4.8 million of non-cash lease expense (including impairment of right-of-use assets), and \$1.3 million of deferred income taxes. The decrease from changes in working capital consists primarily of an increase of \$25.8 million in accounts receivable and decreases of \$17.4 million in accounts payable and other liabilities and \$4.5 million in operating lease liabilities, partially offset by a decrease of \$13.3 million of other assets. The increase in accounts receivable is due primarily to timing of cash receipts. The decrease in accounts payable and other liabilities is due primarily to payments for accrued compensation. The decrease in operating lease liabilities is due to cash payments on leases net of interest accretion. The decrease in other assets is due primarily to the receipt of an insurance claim from coverage for previously incurred legal fees.

Net cash used in investing activities attributable to continuing operations includes capital expenditures of \$12.8 million primarily related to investments in capitalized software to support the Company's products and services.

Net cash used in financing activities attributable to continuing operations includes \$6.9 million for the repurchase of 2.9 million shares of Angi Inc. Class A common stock, on a settlement date basis, at an average price of \$2.37 per share and \$3.2 million for the payment of withholding taxes on behalf of employees for stock-based awards that were net settled.

## 2023

Adjustments to net loss attributable to continuing operations consist primarily of \$25.2 million of depreciation, \$23.7 million of provision for credit losses, \$12.7 million of stock-based compensation expense, \$3.5 million of non-cash lease expense (including impairment of right-of-use assets), and \$2.7 million of amortization of intangibles. The decrease from changes in working capital consists primarily of an increase of \$22.4 million in accounts receivable and decreases of \$10.3 million in accounts payable and other liabilities and \$4.6 million in operating lease liabilities. The increase in accounts receivable is due primarily to timing of cash receipts for credit card transactions. The decrease in accounts payable and other liabilities is due, in part, to payments for accrued compensation. The decrease in operating lease liabilities is due to cash payments on leases net of interest accretion.

Net cash used in investing activities attributable to continuing operations includes \$12.4 million of purchases of marketable debt securities and \$11.9 million of capital expenditures, primarily related to investments in capitalized software to support the Company's products and services.

Net cash used in financing activities attributable to continuing operations includes \$1.4 million for the payment of withholding taxes on behalf of employees for stock-based awards that were net settled.

### ***Discontinued Operations***

Net cash used in discontinued operations of \$2.1 million for the three months ended March 31, 2023 relates to the operations for THR. The Company does not expect cash flows from discontinued operations following the sale of THR.

### **Liquidity and Capital Resources**

#### ***Share Repurchase Authorizations and Activity***

During the three months ended March 31, 2024, the Company repurchased 2.8 million shares of its Class A common stock, on a trade date basis, at an average price of \$2.37 per share, or \$6.7 million in aggregate. During the fourth quarter of 2023, Angi Inc. announced its intent to utilize the remaining 14.0 million shares in its stock repurchase authorization. From April 1, 2024 through May 3, 2024 the Company repurchased an additional 3.1 million shares at an average price of \$2.22 per share, or \$6.8 million in aggregate. The Company had 4.7 million shares remaining in its share repurchase authorization as of May 3, 2024.

The Company may purchase its shares pursuant to its authorization over an indefinite period of time in the open market and in privately negotiated transactions, depending on those factors the Company's management deems relevant at any particular time, including, without limitation, market conditions, share price and future outlook.

#### ***Contractual Obligations***

At March 31, 2024, there have been no material changes outside the ordinary course of business to the Company's contractual obligations since the disclosures made for the year ended December 31, 2023, included in the Company's Annual Report on Form 10-K.

#### ***Capital Expenditures***

The Company's 2024 capital expenditures are expected to be higher than 2023 capital expenditures of \$47.8 million by approximately 15% to 30%, due to an increase in the capitalization rate of software development projects.

#### ***Liquidity Assessment***

The Company's liquidity could be negatively affected by a decrease in demand for its products and services due to economic or other factors.

At March 31, 2024, IAC held all Class B shares of Angi Inc., which represent 84.3% of the economic interest and 98.2% of the voting interest of the Company. As a result, IAC has the ability to control Angi's financing activities, including the issuance of additional debt and equity securities by Angi or any of its subsidiaries, or the incurrence of other indebtedness generally. While Angi is expected to have the ability to access debt and equity markets if needed, such transactions may require the

[Table of Contents](#)

approval of IAC due to its control of the majority of the outstanding voting power of Angi's capital stock and its representation on the Angi board of directors.

The Company believes its existing cash, cash equivalents, and expected positive cash flows generated from operations will be sufficient to fund its normal operating requirements, including capital expenditures, debt service, the payment of withholding taxes paid on behalf of employees for net-settled stock-based awards, and investing and other commitments, for the next twelve months. We may elect to raise additional capital through the sale of additional equity or debt financing to fund business activities such as strategic acquisitions, share repurchases, or other purposes beyond the next twelve months.

Additional financing may not be available on terms favorable to the Company or at all, and may also be impacted by any disruptions in the financial markets. In addition, the Company's existing indebtedness could limit its ability to obtain additional financing.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

During the three months ended March 31, 2024, there have been no material changes to the Company's instruments or positions that are sensitive to market risk since the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2023.

**Item 4. Controls and Procedures**

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), conducted an evaluation, as of the end of the period covered by this quarterly report, of the effectiveness of the Company's disclosure controls and procedures as defined by Rule 13a-15(e) under the Exchange Act. Based on this evaluation, our CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

The Company monitors and evaluates on an ongoing basis its internal control over financial reporting in order to improve its overall effectiveness. In the course of these evaluations, the Company modifies and refines its internal processes as conditions warrant.

During the quarter ended March 31, 2024, there have been no changes to our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II**

**OTHER INFORMATION**

**Item 1. Legal Proceedings**

**Overview**

In the ordinary course of business, the Company and its subsidiaries are (or may become) parties to claims, suits, regulatory and government investigations, and other proceedings involving property, personal injury, intellectual property, privacy, tax, labor and employment, competition, commercial disputes, consumer protection and other claims, as well as stockholder derivative actions, class action lawsuits and other matters. Such claims, suits, regulatory and government investigations, and other proceedings could result in fines, civil or criminal penalties, or other adverse consequences. The amounts that may be recovered in such matters may be subject to insurance coverage. Although the results of legal proceedings and claims cannot be predicted with certainty, neither the Company nor any of its subsidiaries is currently a party to any legal proceedings the outcome of which, we believe, if determined adversely to us, would individually or in the aggregate have a material adverse effect on our business, financial condition or results of operations. However, the outcome of such matters is inherently unpredictable and subject to significant uncertainties.

Rules of the Commission require the description of material pending legal proceedings (other than ordinary, routine litigation incident to the registrant's business) and advise that proceedings ordinarily need not be described if they primarily involve damages claims for amounts (exclusive of interest and costs) not exceeding 10% of the current assets of the registrant and its subsidiaries on a consolidated basis. In the judgment of Company management, none of the pending litigation matters which we are defending, including those described below, involves or is likely to involve amounts of that magnitude. The matters described below involve issues or claims that may be of particular interest to our stockholders, regardless of whether they may be material to our financial position or operations based upon the standard set forth in the rules of the Commission.

**Service Professional Class Action Litigation against HomeAdvisor**

In July 2016, a putative class action, *Airquip, Inc. et al. v. HomeAdvisor, Inc. et al.*, No. 1:16-cv-1849, was filed in the U.S. District Court for the District of Colorado. The complaint, as amended in November 2016, alleged that HomeAdvisor engages in certain deceptive practices affecting the SPs who join its network, including charging them for substandard customer leads and failing to disclose certain charges. The complaint sought certification of a nationwide class consisting of all HomeAdvisor SPs since October 2012, asserted claims for fraud, breach of implied contract, unjust enrichment and violation of the federal RICO statute and the Colorado Consumer Protection Act, and sought injunctive relief and damages in an unspecified amount.

In July 2018, plaintiffs' counsel filed a separate putative class action in the U.S. District Court for the District of Colorado, *Costello et al. v. HomeAdvisor, Inc. et al.*, No. 1:18-cv-1802, on behalf of the nine SPs also proposed as new plaintiffs in the *Airquip* case, naming as defendants HomeAdvisor, Angi and IAC (as well as an unrelated company), and asserting 45 claims largely duplicative of those asserted in a proposed second amended complaint in the *Airquip* case. In November 2018, the judge presiding over the *Airquip* case issued an order consolidating the two cases to proceed before him under the caption *In re HomeAdvisor, Inc. Litigation*.

In September 2019, the court issued an order granting the plaintiffs' renewed motion for leave to file a consolidated second amended complaint, naming as defendants, in addition to HomeAdvisor, the Company and IAC, CraftJack, Inc. (a wholly-owned subsidiary of the Company) and two unrelated entities. In October and December 2019, the four defendants affiliated with HomeAdvisor filed motions to dismiss certain claims in the amended complaint. In September 2020, the court issued an order granting in part and denying in part the defendants' motions to dismiss. In May 2022, the plaintiffs filed a motion for class certification; the defendants opposed the motion. On January 10, 2024, the court entered an order largely denying plaintiffs' motion for class certification. While the court certified certain classes seeking only injunctive relief based upon alleged misappropriation of SPs' intellectual property, the court declined to certify any of the proposed classes challenging lead quality and seeking monetary relief. On January 24, 2024, the plaintiffs filed a motion for reconsideration of the court's partial denial of class certification; on February 14, 2024, the defendants opposed the motion, which remains pending. On February 26, 2024, the parties filed cross-motions for summary judgement on the remaining class claim regarding misappropriation of SPs' intellectual property.

The Company believes that the allegations in this lawsuit are without merit and will continue to defend vigorously against them.

**Item 1A. Risk Factors**

This quarterly report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The use of words such as "anticipates," "estimates," "expects," "plans," "intends," "will continue," "may," "could" and "believes," among similar expressions, generally identify forward-looking statements. These forward-looking statements include, among others, statements relating to our future business, financial condition, results of operations and financial performance, our business prospects and strategy, trends in the home services industry and other similar matters. These forward-looking statements are based on the expectations and assumptions of our management about future events as of the date of this report, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict.

Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, among others: (i) the continued migration of the home services market online, (ii) our ability to market our various products and services in a successful and cost-effective manner, (iii) the continued display of links to websites offering our products and services in a prominent manner in search results, (iv) our ability to expand our pre-priced offerings while balancing the overall mix of service requests and directory services on Angi platforms, (v) our ability to establish and maintain relationships with quality and trustworthy service professionals, (vi) our continued ability to develop and monetize versions of our products and services for mobile and other digital devices, (vii) our ability to access, share and use personal data about consumers, (viii) our continued ability to communicate with consumers and service professionals via e-mail (or other sufficient means), (ix) our ability to continue to generate leads for service professionals given changing requirements applicable to certain communications with consumers, (x) any challenge to the contractor classification or employment status of our service professionals, (xi) our ability to compete, (xii) adverse economic events or trends (particularly those that impact consumer confidence and spending behavior), (xiii) our ability to maintain and/or enhance our various brands, (xiv) our ability to protect our systems, technology and infrastructure from cyberattacks and to protect personal and confidential user information (including credit card information), as well as the impact of cyberattacks experienced by third parties, (xv) the occurrence of data security breaches and/or fraud, (xvi) increased liabilities and costs related to the processing, storage, use and disclosure of personal and confidential user information, (xvii) the integrity, quality, efficiency and scalability of our systems, technology and infrastructures (and those of third parties with whom we do business), (xviii) changes in key personnel, (xix) various risks related to our relationship with IAC, (xx) our ability to generate sufficient cash to service our indebtedness and (xxi) certain risks related to ownership of our Class A common stock.

Certain of these and other risks and uncertainties are discussed in our filings with the SEC, including in Part I-Item 1A-Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023. Other unknown or unpredictable factors that could also adversely affect our business, financial condition and operating results may arise from time to time. In light of these risks and uncertainties, the forward-looking statements discussed in this quarterly report may not prove to be accurate. Accordingly, you should not place undue reliance on these forward-looking statements, which only reflect the views of Company management as of the date of this quarterly report. We do not undertake to update these forward-looking statements.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

**Unregistered Sales of Equity Securities**

The Company did not issue or sell any shares of its common stock or any other equity securities pursuant to unregistered transactions during the three months ended March 31, 2024.

**Issuer Purchases of Equity Securities**

The following table sets forth purchases by the Company of its Class A common stock during the three months ended March 31, 2024.

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c)	(d) Maximum Number of Shares that May Yet Be Purchased Under Publicly Announced
			Total Number of Shares Purchased as Part of Plans or Programs(1)	
			Publicly Announced	
January 2024	2,247,534	\$ 2.36	2,247,534	8,349,548
February 2024	565,244	\$ 2.42	565,244	7,784,304
March 2024	15,318	\$ 2.51	15,318	7,768,986
Total	2,828,096	\$ 2.37	2,828,096	7,768,986

(1) Reflects repurchases made pursuant to the share repurchase authorization previously announced in March 2020.

(2) Represents the total number of shares of Class A common stock that remained available for repurchase as of March 31, 2024 pursuant to the March 2020 share repurchase authorizations. The Company may repurchase shares pursuant to this share repurchase authorization over an indefinite period of time in the open market and in privately negotiated transactions, depending on those factors Company management deems relevant at any particular time, including, without limitation, market conditions, share price and future outlook.

From April 1, 2024 through May 3, 2024, the Company repurchased an additional 3,050,049 shares at an average price of \$2.22 per share. As of May 3, 2024, there were approximately 4.7 million shares remaining in the March 2020 share repurchase authorization.

**Item 5. Other Information**

**Rule 10b5-1 Trading Plans**
