See Note 8 for additional information on our interest rate swap contracts.The CAPL Credit Facility contains certain financial covenants. The Partnership is required to maintain a Consolidated Leverage Ratio (as defined in the CAPL Credit Facility) of (i) for each fiscal quarter ending March 31, 2024, June 30, 2024 and September 30, 2024, not greater than 5.00 to 1.00, and (ii) for each fiscal quarter ending December 31, 2024 and thereafter, not greater than 4.75 to 1.00. For the quarter during a Specified Acquisition Period (as defined in the CAPL Credit Facility), such threshold will be increased by increasing the numerator thereof by 0.5, but such numerator may not exceed 5.25 to 1.00. Upon the occurrence of a Qualified Note Offering (as defined in the CAPL Credit Facility), the Consolidated Leverage Ratio threshold when not in a Specified Acquisition Period is increased to 5.25 to 1.00, while the Specified Acquisition Period threshold is 5.50 to 1.00. Upon the occurrence of a Qualified Note Offering, the Partnership is also required to maintain a Consolidated Senior Secured Leverage Ratio (as defined in the CAPL Credit Facility) for the most recently completed four fiscal quarter period of not greater than 3.75 to 1.00. Such threshold is increased to 4.00 to 1.00 for the quarter during a Specified Acquisition Period. The Partnership is also required to maintain a Consolidated Interest Coverage Ratio (as defined in the CAPL Credit Facility) of at least 2.50 to 1.00.On February 20, 2024, in connection with our Applegreen Acquisition, we entered into an amendment (the â€œAmendmentâ€) to the CAPL Credit Facility. The Amendment, among other things, modified the definition of Consolidated EBITDA contained in the Credit Agreement to permit the full addback of certain lease termination expenses incurred in connection with the Applegreen Acquisition and the addback of other lease termination expenses incurred in connection with future transactions, subject to certain terms and conditions.As of June 30, 2024, we were in compliance with our financial covenants under the CAPL Credit Facility. The amount of availability under the CAPL Credit Facility at June 30, 2024, after taking into consideration debt covenant restrictions, was $111 million.8 CROSSAMERICA PARTNERS LPCONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTSÂ In connection with amending the CAPL Credit Facility and terminating the JKM Credit Facility in March 2023, the Partnership wrote off $1.1 million of deferred financing costs in the first quarter of 2023. The first three swap contracts above matured April 1, 2024, and as a result, our effective interest rate on the CAPL Credit Facility has increased since that time.Â The fair value of each of these interest rate swap contracts was reported as a separate line item within current assets, noncurrent assets and noncurrent liabilities, as applicable. See Note 12 for additional information on the fair value of the interest rate swap contracts.We report the unrealized gains and losses on our interest rate swap contracts designated as highly effective cash flow hedges as a component of other comprehensive income and reclassify such gains and losses into earnings (interest expense on our statement of operations) in the same period during which the hedged interest expense is recorded. We recognized a net realized gain from settlements of the interest rate swap contracts of $1.9 million and $4.3 million for the three months ended June 30, 2024 and 2023 and $7.1 million and $7.4 million for the six months ended June 30, 2024 and 2023, respectively.We currently estimate that a gain of $6.2 million will be reclassified from accumulated other comprehensive income into interest expense during the next 12 months; however, the actual amount that will be reclassified will vary based on changes in interest rates. Note 9. OPERATING LEASES AS LESSORÂ During the first half of 2024, we terminated a significant number of operating leases as lessor through our Applegreen Acquisition. See Note 2 for additional information regarding this transaction and the related write-off of deferred rent income.Â Motor fuel stations are leased to tenants under operating leases with various expiration dates ranging through 2037. Most lease agreements include provisions for renewals. We generally do not include renewal options in our lease term. Reilly, III, member of the Board, for public relations and website consulting services. The cost of these services was insignificant for the three and six months ended June 30, 2024 and 2023. Note 11. COMMITMENTS AND CONTINGENCIESPurchase CommitmentsWe have minimum volume purchase requirements under certain of our fuel supply agreements with a purchase price at prevailing market rates for wholesale distribution. In the event we fail to purchase the required minimum volume for a given contractual period, the underlying third partyâ€™s exclusive remedies (depending on the magnitude of the failure) are either termination of the supply agreement and/or a financial penalty per gallon based on the volume shortfall for the given period. We did not incur any significant penalties during the six months ended June 30, 2024 or 2023.Litigation MattersWe are from time to time party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of business. These actions typically seek, among other things, compensation for alleged personal injury, breach of contract, property damages, environmental damages, employment-related claims and damages, punitive damages, civil penalties or other losses, or injunctive or declaratory relief. With respect to all such lawsuits, claims and proceedings, we record an accrual when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. In addition, we disclose matters for which management believes a material loss is at least reasonably possible. We believe that it is not reasonably possible that these proceedings, separately or in the aggregate, will have a material adverse effect on our consolidated financial position, results of operations or cash flows. In all instances, management has assessed the matter based on current information and made a judgment concerning its potential outcome, giving due consideration to the nature of the claim, the amount and nature of damages sought and the probability of success. Managementâ€™s judgment may prove materially inaccurate, and such judgment is made subject to the known uncertainties of litigation. Environmental MattersWe currently own or lease sites where refined petroleum products are being or have been handled. These sites and the refined petroleum products handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, we could be required to remove or remediate containerized hazardous liquids

or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to remediate contaminated property arising from the release of liquids or wastes into the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination.11 CROSSAMERICA PARTNERS LPCONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTSÂ We maintain insurance of various types with varying levels of coverage that is considered adequate under the circumstances to cover operations and properties. The insurance policies are subject to deductibles that are considered reasonable and not excessive. In addition, we have entered into indemnification and escrow agreements with various sellers in conjunction with several of their respective acquisitions, as further described below. Financial responsibility for environmental remediation is negotiated in connection with each acquisition transaction. In each case, an assessment is made of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, a determination is made whether to, and the extent to which we will, assume liability for existing environmental conditions.Environmental liabilities recorded on the balance sheet within accrued expenses and other current liabilities and other long-term liabilities totaled $8.2 million and $7.4 million at June 30, 2024 and December 31, 2023, respectively. Indemnification assets related to third-party escrow funds, state funds or insurance recorded on the balance sheet within other current assets and other noncurrent assets totaled $5.8 million and $5.3 million at June 30, 2024 and December 31, 2023, respectively. State funds represent probable state reimbursement amounts. Reimbursement will depend upon the continued maintenance and solvency of the state. Insurance coverage represents amounts deemed probable of reimbursement under insurance policies.The estimates used in these reserves are based on all known facts at the time and an assessment of the ultimate remedial action outcomes. We will adjust loss accruals as further information becomes available or circumstances change. Among the many uncertainties that impact the estimates are the necessary regulatory approvals for, and potential modifications of, remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment and the possibility of existing legal claims giving rise to additional claims.Environmental liabilities related to the sites contributed to the Partnership in connection with our IPO have not been assigned to us and are still the responsibility of the Predecessor Entity. The Predecessor Entity indemnified us for any costs or expenses that we incur for environmental liabilities and third-party claims, regardless of when a claim is made, that are based on environmental conditions in existence prior to the closing of the IPO for contributed sites. As such, these environmental liabilities and indemnification assets are not recorded on the consolidated balance sheet of the Partnership.Similarly, we have generally been indemnified with respect to known contamination at sites acquired from third parties. As such, these environmental liabilities and indemnification assets are also not recorded on the consolidated balance sheet of the Partnership. Note 12. FAIR VALUE MEASUREMENTSWe measure and report certain financial and non-financial assets and liabilities on a fair value basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). U.S. GAAP specifies a three-level hierarchy that is used when measuring and disclosing fair value. The fair value hierarchy gives the highest priority to quoted prices available in active markets (i.e., observable inputs) and the lowest priority to data lacking transparency (i.e., unobservable inputs). An instrumentâ€™s categorization within the fair value hierarchy is based on the lowest level of significant input to its valuation.Transfers into or out of any hierarchy level are recognized at the end of the reporting period in which the transfers occurred. There were no transfers between any levels in 2024 or 2023.As further discussed in Note 8, we remeasure the fair value of interest rate swap contracts on a recurring basis each balance sheet date. We used an income approach to measure the fair value of these contracts, utilizing a forward yield curve for the same period as the future interest rate swap settlements. These fair value measurements are classified as Level 2 measurements.We have accrued for unvested phantom units and phantom performance units as a liability and adjust that liability on a recurring basis based on the market price of our common units each balance sheet date. These fair value measurements are deemed Level 1 measurements.The fair value of our accounts receivable, notes receivable, and accounts payable approximated their carrying values as of June 30, 2024 and December 31, 2023 due to the short-term maturity of these instruments. The fair value of borrowings under the CAPL Credit Facility approximated its carrying value as of June 30, 2024 and December 31, 2023 due to the frequency with which interest rates are reset and the consistency of the market spread. 12 CROSSAMERICA PARTNERS LPCONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTSÂ Note 13. INCOME TAXESAs a limited partnership, we are not subject to federal and state income taxes. However, our corporate subsidiaries are subject to income taxes. Income tax attributable to our taxable income (including any dividend income from our corporate subsidiaries), which may differ significantly from income for financial statement purposes, is assessed at the individual limited partner unitholder level. We are subject to a statutory requirement that non-qualifying income, as defined by the Internal Revenue Code, cannot exceed 10% of total gross income for the calendar year. If non-qualifying income exceeds this statutory limit, we would be taxed as a corporation. The non-qualifying income did not exceed the statutory limit in any annual period.Certain activities that generate non-qualifying income are conducted through our wholly owned taxable corporate subsidiaries. Current and deferred income taxes are recognized on the earnings of these subsidiaries. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates.We recorded income tax expense (benefit) of $1.7 million and $2.8 million for the three months ended June 30, 2024 and 2023 and $(4.1) million and $1.1 million for the six months ended June 30, 2024 and 2023, respectively, as a result of the income generated (losses incurred) by our corporate subsidiaries. The effective tax rate differs from the combined federal and state statutory rate primarily because only LGWS and Joeâ€™s Kwik Marts are subject to income tax. Note 14. Our Partnership Agreement does not require us to pay any distributions. As such, there can be no assurance we will continue to pay distributions in the future. Note 15. SEGMENT REPORTINGWe conduct our business in two segments: 1) the wholesale segment and 2) the retail segment.The wholesale segment includes the wholesale distribution of motor fuel to lessee dealers and independent dealers. We have exclusive motor fuel distribution contracts with lessee dealers who lease the property from us. We also have exclusive distribution contracts with independent dealers to distribute motor fuel but do not collect rent from the independent dealers.The retail segment includes the retail sale of motor fuel at retail sites operated by commission agents and the sale of convenience merchandise items and the retail sale of motor fuel at company operated sites. A commission agent site is a retail site where we retain title to the motor fuel inventory and sell it directly to our end user customers. At commission agent retail sites, we manage motor fuel inventory pricing and retain the gross profit on motor fuel sales, less a commission to the agent who operates the retail site. Similar to our wholesale segment, we also generate revenues through leasing or subleasing real estate in our retail segment.Unallocated items consist primarily of general and administrative expenses, depreciation, amortization and accretion expense, gains on dispositions and lease terminations, net, other income, interest expense and income tax expense. Total assets by segment are not presented as management does not currently assess performance or allocate resources based on that data.During the three and six months ended June 30, 2024, respectively, we converted 42 and 95 sites from lessee dealer sites in the wholesale segment to company operated or commission sites in the retail segment, net. The sites converted during the first half of 2024 include 59 sites from the Applegreen Acquisition. See Note 2 for additional information. The assets were acquired via the termination of the Partnershipâ€™s existing lease agreements with the Sellers at 59 locations, for total consideration of $16.9 million. The transaction closed on a rolling basis by site beginning in the first quarter of 2024 and ending in April 2024. The Partnership also acquired for cash the inventory at the locations. The terms of the Partnershipâ€™s leases with Applegreen Midwest, LLC and Applegreen Florida, LLC could have been extended to 2049 and 2048, respectively, including all renewal options. The Applegreen Purchase Agreement contains customary representations and warranties of the parties as well as indemnification obligations by the Sellers and the Partnership, respectively, to each other. Of the 59 locations, 31 locations converted during the first quarter of 2024 and the remaining locations converted in April 2024. This transaction resulted in the transition of these lessee dealer sites to company operated sites. During the six months ended June 30, 2024, we paid $25.5 million of cash and recorded a non-cash write-off of deferred rent income of $1.5 million. See Note 2 to the financial statements for additional information. Amendment of CAPL Credit Facility On February 20, 2024, in connection with our Applegreen Acquisition, we entered into an amendment (the â€œAmendmentâ€) to the CAPL Credit Facility. The Amendment, among other things, modified the definition of Consolidated EBITDA contained in the Credit Agreement to permit the full addback of certain lease termination expenses incurred in connection with the Applegreen Acquisition and the addback of other lease termination expenses incurred in connection with future transactions, subject to certain terms and conditions. Significant Factors Affecting our Profitability The Significance of Crude Oil and Wholesale Motor Fuel Prices on Our Revenues, Cost of Sales and Gross Profit The prices paid to our motor fuel suppliers for wholesale motor fuel (which affects our cost of sales) are highly correlated to the price of crude oil. The crude oil commodity markets are highly volatile, and the market prices of crude oil, and, correspondingly, the market prices of wholesale motor fuel, experience significant and rapid fluctuations. For approximately 56% of gallons sold, we receive a per gallon rate equal to the posted rack price, less any applicable discounts, plus transportation costs, taxes and a fixed rate per gallon of motor fuel. The remaining gallons are either retail sales or wholesale DTW contracts that provide for variable, market-based pricing. Regarding our supplier relationships, a material amount of our total gallons purchased are subject to prompt payment discounts. The dollar value of these discounts varies with changes in motor fuel prices. Therefore, in periods of lower wholesale motor fuel prices, our gross profit is negatively affected, and, in periods of higher wholesale motor fuel prices, our gross profit is positively affected (as it relates to these discounts). In our retail business, we attempt to pass along wholesale motor fuel price changes to our retail customers through â€œat the pumpâ€ retail price changes; however, market conditions do not always allow us to do so immediately. The timing of any related increase or decrease in â€œat the pumpâ€ retail prices is affected by competitive conditions in each geographic market in which we operate. As such, the prices we charge our customers for motor fuel and the gross profit we receive on our motor fuel sales can increase or decrease significantly over short periods of time. Changes in our average motor fuel selling price per gallon and gross margin are directly related to the changes in crude oil and wholesale motor fuel prices. Variations in our reported revenues and cost of sales are, therefore, primarily related to the price of crude oil and wholesale motor fuel prices and generally not as a result of changes in motor fuel sales volumes, unless otherwise indicated and discussed below. Seasonality Effects on Volumes Our business is subject to seasonality due to our wholesale and retail sites being located in certain geographic areas that are affected by seasonal weather and temperature trends and associated changes in retail customer activity during different seasons. Historically, sales volumes have been highest in the second and third quarters (during the summer months) and lowest during the winter months in the first and fourth quarters. 19 Â Impact of Inflation Inflation affects our financial performance by increasing certain components of cost of goods sold, such as fuel, merchandise, and credit card fees. Inflation also affects certain operating expenses, such as labor costs, certain leases, and general and administrative expenses. While our wholesale segment benefits from higher terms discounts as a result of higher fuel costs, inflation could and recently has negatively impacted our cost of goods sold and operating expenses. Although we have historically been able to pass on increased costs through price increases, there can be no assurance that we will be able to do so in the future. Impact of Interest Rates Three of our most favorable interest rate swap contracts matured April 1, 2024. As a result and due to increases in interest rates in general, our effective interest rate has increased for the three and six months ended June 30, 2024 as compared to the three and six months ended June 30, 2023. Acquisition and Financing Activity Our results of operations and financial condition are also impacted by our acquisition and financing activities as summarized below. â€¢On March 31, 2023, we amended and restated the CAPL Credit Facility and terminated the JKM Credit Facility. â€¢We converted the 59 sites included in the Applegreen Acquisition and transitioned these sites from lessee dealer sites in the wholesale segment to company operated sites in the retail segment. See Note 2 to the financial statements for additional information. Significant items impacting these results were: Operating revenues â€¢Our wholesale segment revenues decreased $74 million (12%) primarily attributable to a 12% decrease in volume driven by the conversion of certain lessee dealer sites to company operated and commission agent sites as well as the net loss of independent dealer contracts. â€¢Our retail segment revenues increased $62 million (11%) primarily attributable to a 9% increase in volume due to the conversion of certain lessee dealer sites to company operated and commission agent sites, partially offset by a decrease in volume in our base business. Merchandise revenues increased $22 million (26%) driven by an increase in our average company operated site count due to the conversion of certain lessee dealer and commission agent sites to company operated sites. Cost of sales Cost of sales decreased $19 million (2%), due primarily to lower total volume, partially offset by an increase in merchandise cost of sales driven by the same drivers as discussed above. Gross profit Gross profit increased $7 million (7%), which was primarily driven by an increase in merchandise and motor fuel gross profit within our retail segment, partially offset by a decrease in motor fuel and rent gross profit within our wholesale segment. See â€œResults of Operationsâ€”Segment Resultsâ€ for additional gross profit analyses. Operating expenses See â€œResults of Operationsâ€”Segment Resultsâ€ for analyses. General and administrative expenses General and administrative expenses increased $0.4 million (6%) primarily driven by higher management fees. Depreciation, amortization and accretion expense Depreciation, amortization and accretion expense decreased $0.9 million (4%) primarily due to assets becoming fully depreciated. Gain (loss) on dispositions and lease terminations, net During the three months ended June 30, 2024, we recorded a $6.5 million net gain in connection with our ongoing real estate rationalization effort, partially offset by $0.9 million of net losses on lease terminations and asset disposals, including non-cash write-offs of deferred rent income. During the three months ended June 30, 2023, we recorded a $6.1 million net gain in connection with our ongoing real estate rationalization effort and a $0.6 million net gain on lease terminations and asset disposals. Interest expense Interest expense increased $3.5 million (33%) primarily due to the maturity of three of our most favorable interest rate swap contracts on April 1, 2024 in addition to the general increase in interest rates between the two periods. Income tax expense We recorded income tax expense of $1.7 million and $2.8 million for the three months ended June 30, 2024 and 2023, respectively, driven by income generated by our taxable subsidiaries. 21 Â Six Months Ended June 30, 2024 Compared to Six Months Ended June 30, 2023 Operating revenues decreased $87 million (4%) and operating income decreased $22 million (59%). Significant items impacting these results were: Operating revenues â€¢Our wholesale segment revenues decreased $148 million (13%) primarily attributable to a 10% decrease in volume driven by the conversion of certain lessee dealer sites to company operated and commission agent sites as well as the net loss of independent dealer contracts. In addition, our average wholesale selling price decreased 3% due primarily to changes in crude oil prices during the course of the first half of 2024 compared to the same period in 2023. â€¢Our retail segment revenues increased $61 million (6%) for the six months ended June 30, 2024 compared to the six months ended June 30, 2023, primarily attributable to a 6% increase in volume due to the conversion of certain lessee dealer sites to company operated and commission agent sites, partially offset by a decrease in volume in our base business. Merchandise revenues increased $33 million (22%) driven by an increase in our average company operated site count due to the conversion of certain lessee dealer and commission agent sites to company operated sites. Cost of sales Cost of sales decreased $93 million (5%), due primarily to lower wholesale volume and lower cost per gallon, partially offset by an increase in merchandise cost of sales driven by the same drivers as discussed above. Gross profit Gross profit increased $6 million (4%), which was primarily driven by an increase in merchandise and motor fuel gross profit within our retail segment, partially offset by a decrease in motor fuel and rent gross profit within our wholesale segment. See â€œResults of Operationsâ€”Segment Resultsâ€ for additional gross profit analyses. Operating expenses See â€œResults of Operationsâ€”Segment Resultsâ€ for analyses. General and administrative expenses General and administrative expenses increased $1.5 million (11%) primarily driven by higher management fees, legal fees and acquisition related costs, partially offset by lower equity incentive compensation expense. Gain (loss) on dispositions and lease terminations, net During the six months ended June 30, 2024, we recorded a $16.0 million loss on lease termination with Applegreen, including a $1.5 million non-cash write-off of deferred rent income (see Note 2 to the financial statements for additional information). In addition, we recorded $1.7 million of other losses on lease terminations and asset disposals, including non-cash write-offs of deferred rent income. We recorded a $6.5 million net gain in connection with our ongoing real estate rationalization effort. During the six months ended June 30, 2023, we recorded a $6.2 million net gain in connection with our ongoing real estate rationalization effort and a $1.3 million net loss on lease terminations and asset disposals. Interest expense Interest expense increased $2.1 million (9%) due to the maturity of three of our most favorable interest rate swap contracts on April 1, 2024 in addition to the general increase in interest rates, partially offset by the $1.1 million write-off of deferred financing costs in the first quarter of 2023 as a result of the amendment and restatement of the CAPL Credit Facility and termination of the JKM Credit Facility. 22 Â Income tax benefit We recorded an income tax (benefit) expense of $(4.1) million and $1.1 million for the six months ended June 30, 2024 and 2023, respectively, driven by (losses incurred) income generated by our taxable subsidiaries. Segment Results We present the results of operations of our segments consistent with how our management views the business. The average spot price of WTI crude oil increased 11% from $73.54 per barrel for the second quarter of 2023 to $81.81 per barrel for the second quarter of 2024. Description of Business and Other Disclosures	6 Months Ended Jun. 30, 2024
Accounting Policies [Abstract]	
Description of Business and Other Disclosures	

Note 1. DESCRIPTION OF BUSINESS AND OTHER DISCLOSURES

Our business consists of:

- the wholesale distribution of motor fuels;
- the owning or leasing of sites used in the retail distribution of motor fuels and, in turn, generating rental income from the lease or sublease of the sites;
- the retail sale of motor fuels to end customers at retail sites operated by commission agents and ourselves; and
- the operation of retail sites, including the sale of convenience merchandise to end customers.

Interim Financial Statements

These unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions to Form 10-Q and the Exchange Act. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature unless disclosed otherwise. Management believes that the disclosures made are adequate to keep the information presented from being misleading. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K. Financial information as of June 30, 2024 and for the three and six months ended June 30, 2024 and 2023 included in the consolidated financial statements has been derived from our unaudited financial statements. Financial information as of December 31, 2023 has been derived from our audited financial statements and notes thereto as of that date.

Operating results for the three and six months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. Our business exhibits seasonality due to our wholesale and retail sites being located in certain geographic areas that are affected by seasonal weather and temperature trends and associated changes in retail customer activity during different seasons. Historically, sales volumes have been highest in the second and third quarters (during the summer activity months) and lowest during the winter months in the first and fourth quarters.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results and outcomes could differ from those estimates and assumptions. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances could result in revised estimates and assumptions.

Recently Adopted Accounting Pronouncements

Segment Reporting

In November 2023, the FASB issued ASU 2023-07, "Improvements in Reportable Segment Disclosures." The amendments in this new guidance improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. These new disclosures will be required in our Annual Report on Form 10-K for the year ending December 31, 2024 and interim and annual reports thereafter. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to our reportable segments starting in our Annual Report on Form 10-K for the year ending December 31, 2024.

Income Taxes

In December 2023, the FASB issued ASU 2023-09, “Improvements to Income Tax Disclosures.” The amendments in this new guidance require that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold. This new guidance also requires certain new disclosures such as income taxes paid disaggregated by federal, state and foreign taxes and further disaggregated by individual jurisdictions in which income taxes paid exceeds a quantitative threshold. This new guidance also eliminates certain previously required disclosures. We will adopt this new guidance effective January 1, 2025. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to income taxes.

Certain other new accounting pronouncements have become effective for our financial statements during 2024, but the adoption of these pronouncements did not materially impact our financial position, results of operations or disclosures.

Concentration Risk

For the six months ended June 30, 2024 and 2023, respectively, we purchased approximately 81% and 80% of our motor fuel from four suppliers. Approximately 23% of our motor fuel gallons sold for each of the six months ended June 30, 2024 and 2023 were delivered by two carriers.

For the six months ended June 30, 2024 and 2023, respectively, approximately 18% and 29% of our rent income was from five multi-site operators.

For the six months ended June 30, 2024 and 2023, respectively, approximately 49% and 47% of our merchandise was purchased from one supplier.

Applegreen Acquisition And Lease Termination	

Note 2. APPLEGREEN ACQUISITION AND LEASE TERMINATION

On January 26, 2024, we entered into an agreement (the “Applegreen Purchase Agreement”) to acquire certain assets from Applegreen Midwest, LLC and Applegreen Florida, LLC (collectively, the “Sellers”) (the “Applegreen Acquisition”). The assets were acquired via the termination of the Partnership’s existing lease agreements with the Sellers at 59 locations, for total consideration of $16.9 million. The transaction closed on a rolling basis by site beginning during the first quarter of 2024 and ending in April 2024. The Partnership also acquired for cash the inventory at the locations. The terms of the Partnership’s leases with Applegreen Midwest, LLC and Applegreen Florida, LLC could have been extended to 2049 and 2048, respectively, including all renewal options. The Applegreen Purchase Agreement contains customary representations and warranties of the parties as well as indemnification obligations by the Sellers and the Partnership, respectively, to each other.

Of the 59 locations, 31 locations converted during the first quarter of 2024 and the remaining locations converted in April 2024. This transaction resulted in the transition of these lessee dealer sites to company operated sites.

During the six months ended June 30, 2024, we paid $25.5 million of cash and recorded a non-cash write-off of deferred rent income of $1.5 million. We recorded these transactions as follows (in thousands):

Cash consideration	
Lease termination payments	$ 16,983
Inventory purchases	8,534
Total cash paid	25,517
Inventory	8,534
Equipment	2,530
Loss on lease termination	14,453
Non-cash write-off of deferred rent income	1,515

The Partnership has continued to focus on divesting lower performing assets. During the three and six months ended June 30, 2024, we sold ten sites for $11.9 million in proceeds (which includes $1.3 million of proceeds initially placed in a Section 1031 exchange escrow account), resulting in a net gain of $6.5 million. Note 7. DEBT

Our balances for long-term debt and finance lease obligations were as follows (in thousands):

	June 30, 2024	December 31, 2023
CAPL Credit Facility	$ 789,513	$ 756,000
Finance lease obligations	9,552	11,064
Total debt and finance lease obligations	799,065	767,064
Current portion	3,183	3,083
Noncurrent portion	795,882	763,981
Deferred financing costs, net	9,208	10,101
Noncurrent portion, net of deferred financing costs	$ 786,674	$ 753,880

The CAPL Credit Facility is a $925 million revolving credit facility maturing March 31, 2028 that is secured by substantially all of the Partnership's assets.

Letters of credit outstanding totaled $5.3 million and $4.5 million at June 30, 2024 and December 31, 2023, respectively.

Taking the interest rate swap contracts into account, the effective interest rate on our CAPL Credit Facility at June 30, 2024 was 6.7% (our applicable margin was 2.25% as of June 30, 2024). See Note 8 for additional information on our interest rate swap contracts.

The CAPL Credit Facility contains certain financial covenants. The Partnership is required to maintain a Consolidated Leverage Ratio (as defined in the CAPL Credit Facility) of (i) for each fiscal quarter ending March 31, 2024, June 30, 2024 and September 30, 2024, not greater than 5.00 to 1.00, and (ii) for each fiscal quarter ending December 31, 2024 and thereafter, not greater than 4.75 to 1.00. For the quarter during a Specified Acquisition Period (as defined in the CAPL Credit Facility), such threshold will be increased by increasing the numerator thereof by 0.5, but such numerator may not exceed 5.25 to 1.00. Upon the occurrence of a Qualified Note Offering (as defined in the CAPL Credit Facility), the Consolidated Leverage Ratio threshold when not in a Specified Acquisition Period is increased to 5.25 to 1.00, while the Specified Acquisition Period threshold is 5.50 to 1.00. Upon the occurrence of a Qualified Note Offering, the Partnership is also required to maintain a Consolidated Senior Secured Leverage Ratio (as defined in the CAPL Credit Facility) for the most recently completed four fiscal quarter period of not greater than 3.75 to 1.00. Such threshold is increased to 4.00 to 1.00 for the quarter during a Specified Acquisition Period. The Partnership is also required to maintain a Consolidated Interest Coverage Ratio (as defined in the CAPL Credit Facility) of at least 2.50 to 1.00.

On February 20, 2024, in connection with our Applegreen Acquisition, we entered into an amendment (the "Amendment") to the CAPL Credit Facility. The Amendment, among other things, modified the definition of Consolidated EBITDA contained in the Credit Agreement to permit the full addback of certain lease termination expenses incurred in connection with the Applegreen Acquisition and the addback of other lease termination expenses incurred in connection with future transactions, subject to certain terms and conditions.

As of June 30, 2024, we were in compliance with our financial covenants under the CAPL Credit Facility. The amount of availability under the CAPL Credit Facility at June 30, 2024, after taking into consideration debt covenant restrictions, was $111 million.

In connection with amending the CAPL Credit Facility and terminating the JKM Credit Facility in March 2023, the Partnership wrote off $1.1 million of deferred financing costs in the first quarter of 2023.

Interest Rate Swap Contracts

Note 8. INTEREST RATE SWAP CONTRACTS

During 2024, we held the following interest rate swap contracts (in thousands):

Type	Notional Amount	Termination Date	Fixed Rate
Spot starting	$ 150,000	April 1, 2024	0.413%
Spot starting	75,000	April 1, 2024	0.298%
Spot starting	75,000	April 1, 2024	0.298%
Spot starting	50,000	March 30, 2028	3.287%
Spot starting	100,000	March 31, 2028	3.287%
Spot starting	50,000	April 8, 2028	3.282%
Forward starting April 1, 2024	100,000	April 1, 2028	2.932%
Spot starting	80,000	March 31, 2028	4.105%
Spot starting	20,000	March 31, 2028	4.121%

Our interest rate swap contracts fix the rate on a portion of our SOFR-based borrowings under our CAPL Credit Facility, have been designated as cash flow hedges and are expected to be highly effective. The first three swap contracts above matured April 1, 2024, and as a result, our effective interest rate on the CAPL Credit Facility has increased since that time.

The fair value of each of these interest rate swap contracts was reported as a separate line item within current assets, noncurrent assets and noncurrent liabilities, as applicable. See Note 12 for additional information on the fair value of the interest rate swap contracts.

We report the unrealized gains and losses on our interest rate swap contracts designated as highly effective cash flow hedges as a component of other comprehensive income and reclassify such gains and losses into earnings (interest expense on our statement of operations) in the same period during which the hedged interest expense is recorded. We recognized a net realized gain from settlements of the interest rate swap contracts of $1.9 million and $4.3 million for the three months ended June 30, 2024 and 2023 and $7.1 million and $7.4 million for the six months ended June 30, 2024 and 2023, respectively.

We currently estimate that a gain of $6.2 million will be reclassified from accumulated other comprehensive income into interest expense during the next 12 months; however, the actual amount that will be reclassified will vary based on changes in interest rates.

Operating Leases as Lessor

Note 9. OPERATING LEASES AS LESSOR

During the first half of 2024, we terminated a significant number of operating leases as lessor through our Applegreen Acquisition. See Note 2 for additional information regarding this transaction and the related write-off of deferred rent income.

Motor fuel stations are leased to tenants under operating leases with various expiration dates ranging through 2037. Most lease agreements include provisions for renewals. We generally do not include renewal options in our lease term. Future minimum rental payments under non-cancelable operating leases with third parties as of June 30, 2024 were as follows (in thousands):

2024	$ 19,746
2025	32,804
2026	23,118
2027	12,712
2028	7,838
Thereafter	21,273
Total future minimum lease payments	$ 117,491

The future minimum rental payments presented above do not include contingent rent based on future inflation, future revenues or volumes of the lessee, or non-lease components for amounts that may be received as tenant reimbursements for certain operating costs.
Deferred rent income from straight-line rent relates to the cumulative amount by which straight-line rental income recorded to date exceeds cash rents billed to date under the lease agreement and totaled $3.1 million and $5.0 million at June 30, 2024 and December 31, 2023, respectively.

Commitments and Contingencies

6 Months Ended
Jun. 30, 2024

Commitments and Contingencies Disclosure [Abstract]

Commitments and Contingencies

Note 11. COMMITMENTS AND CONTINGENCIES

Purchase Commitments

We have minimum volume purchase requirements under certain of our fuel supply agreements with a purchase price at prevailing market rates for wholesale distribution. In the event we fail to purchase the required minimum volume for a given contractual period, the underlying third party's exclusive remedies (depending on the magnitude of the failure) are either termination of the supply agreement and/or a financial penalty per gallon based on the volume shortfall for the given period. We did not incur any significant penalties during the six months ended June 30, 2024 or 2023.

Litigation Matters

We are from time to time party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of business. These actions typically seek, among other things, compensation for alleged personal injury, breach of contract, property damages, environmental damages, employment-related claims and damages, punitive damages, civil penalties or other losses, or injunctive or declaratory relief. With respect to all such lawsuits, claims and proceedings, we record an accrual when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. In addition, we disclose matters for which management believes a material loss is at least reasonably possible. We believe that it is not reasonably possible that these proceedings, separately or in the aggregate, will have a material adverse effect on our consolidated financial position, results of operations or cash flows. In all instances, management has assessed the matter based on current information and made a judgment concerning its potential outcome, giving due consideration to the nature of the claim, the amount and nature of damages sought and the probability of success. Management's judgment may prove materially inaccurate, and such judgment is made subject to the known uncertainties of litigation.

Environmental Matters

We currently own or lease sites where refined petroleum products are being or have been handled. These sites and the refined petroleum products handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, we could be required to remove or remediate containerized hazardous liquids or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to remediate contaminated property arising from the release of liquids or wastes into the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination.

We maintain insurance of various types with varying levels of coverage that is considered adequate under the circumstances to cover operations and properties. The insurance policies are subject to deductibles that are considered reasonable and not excessive. In addition, we have entered into indemnification and escrow agreements with various sellers in conjunction with several of their respective acquisitions, as further described below. Financial responsibility for environmental remediation is negotiated in connection with each acquisition transaction. In each case, an assessment is made of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, a determination is made whether to, and the extent to which we will, assume liability for existing environmental conditions.

Environmental liabilities recorded on the balance sheet within accrued expenses and other current liabilities and other long-term liabilities totaled $8.2 million and $7.4 million at June 30, 2024 and December 31, 2023, respectively. Indemnification assets related to third-party escrow funds, state funds or insurance recorded on the balance sheet within other current assets and other noncurrent assets totaled $5.8 million and $5.3 million at June 30, 2024 and December 31, 2023, respectively. State funds represent probable state reimbursement amounts. Reimbursement will depend upon the continued maintenance and solvency of the state. Insurance coverage represents amounts deemed probable of reimbursement under insurance policies.

The estimates used in these reserves are based on all known facts at the time and an assessment of the ultimate remedial action outcomes. We will adjust loss accruals as further information becomes available or circumstances change. Among the many uncertainties that impact the estimates are the necessary regulatory approvals for, and potential modifications of, remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment and the possibility of existing legal claims giving rise to additional claims.

Environmental liabilities related to the sites contributed to the Partnership in connection with our IPO have not been assigned to us and are still the responsibility of the Predecessor Entity. The Predecessor Entity indemnified us for any costs or expenses that we incur for environmental liabilities and third-party claims, regardless of when a claim is made, that are based on environmental conditions in existence prior to the closing of the IPO for contributed sites. As such, these environmental liabilities and indemnification assets are not recorded on the consolidated balance sheet of the Partnership.

Similarly, we have generally been indemnified with respect to known contamination at sites acquired from third parties. As such, these environmental liabilities and indemnification assets are also not recorded on the consolidated balance sheet of the Partnership.

Fair Value Measurements

Fair Value Disclosures [Abstract]

Fair Value Measurements

6 Months Ended Jun. 30, 2024

Note 12. FAIR VALUE MEASUREMENTS

We measure and report certain financial and non-financial assets and liabilities on a fair value basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). U.S. GAAP specifies a three-level hierarchy that is used when measuring and disclosing fair value. The fair value hierarchy gives the highest priority to quoted prices available in active markets (i.e., observable inputs) and the lowest priority to data lacking transparency (i.e., unobservable inputs). An instrument's categorization within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Transfers into or out of any hierarchy level are recognized at the end of the reporting period in which the transfers occurred. There were no transfers between any levels in 2024 or 2023.

As further discussed in Note 8, we remeasure the fair value of interest rate swap contracts on a recurring basis each balance sheet date. We used an income approach to measure the fair value of these contracts, utilizing a forward yield curve for the same period as the future interest rate swap settlements. These fair value measurements are classified as Level 2 measurements.

We have accrued for unvested phantom units and phantom performance units as a liability and adjust that liability on a recurring basis based on the market price of our common units each balance sheet date. These fair value measurements are deemed Level 1 measurements.

The fair value of our accounts receivable, notes receivable, and accounts payable approximated their carrying values as of June 30, 2024 and December 31, 2023 due to the short-term maturity of these instruments. The fair value of borrowings under the CAPL Credit Facility approximated its carrying value as of June 30, 2024 and December 31, 2023 due to the frequency with which interest rates are reset and the consistency of the market spread.

Income Tax Disclosure [Abstract]

Income Taxes

6 Months Ended Jun. 30, 2024

Note 13. INCOME TAXES

As a limited partnership, we are not subject to federal and state income taxes. However, our corporate subsidiaries are subject to income taxes. Income tax attributable to our taxable income (including any dividend income from our corporate subsidiaries), which may differ significantly from income for financial statement purposes, is assessed at the individual limited partner unitholder level. We are subject to a statutory requirement that non-qualifying income, as defined by the Internal Revenue Code, cannot exceed 10% of total gross income for the calendar year. If non-qualifying income exceeds this statutory limit, we would be taxed as a corporation. The non-qualifying income did not exceed the statutory limit in any annual period.

Certain activities that generate non-qualifying income are conducted through our wholly owned taxable corporate subsidiaries. Current and deferred income taxes are recognized on the earnings of these subsidiaries. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates.

We recorded income tax expense (benefit) of $1.7 million and $2.8 million for the three months ended June 30, 2024 and 2023 and $(4.1) million and $1.1 million for the six months ended June 30, 2024 and 2023, respectively, as a result of the income generated (losses incurred) by our corporate subsidiaries. The effective tax rate differs from the combined federal and state statutory rate primarily because only LGWS and Joe's Kwik Marts are subject to income tax.

Segment Reporting

Segment Reporting [Abstract]

Segment Reporting

Note 15. SEGMENT REPORTING

We conduct our business in two segments: 1) the wholesale segment and 2) the retail segment.

The wholesale segment includes the wholesale distribution of motor fuel to lessee dealers and independent dealers. We have exclusive motor fuel distribution contracts with lessee dealers who lease the property from us. We also have exclusive distribution contracts with independent dealers to distribute motor fuel but do not collect rent from the independent dealers.

The retail segment includes the retail sale of motor fuel at retail sites operated by commission agents and the sale of convenience merchandise items and the retail sale of motor fuel at company operated sites. A commission agent site is a retail site where we retain title to the motor fuel inventory and sell it directly to our end user customers. At commission agent retail sites, we manage motor fuel inventory pricing and retain the gross profit on motor fuel sales, less a commission to the agent who operates the retail site. Similar to our wholesale segment, we also generate revenues through leasing or subleasing real estate in our retail segment.

Unallocated items consist primarily of general and administrative expenses, depreciation, amortization and accretion expense, gains on dispositions and lease terminations, net, other income, interest expense and income tax expense. Total assets by segment are not presented as management does not currently assess performance or allocate resources based on that data.

During the three and six months ended June 30, 2024, respectively, we converted 42 and 95 sites from lessee dealer sites in the wholesale segment to company operated or commission sites in the retail segment, net. The sites converted during the first half of 2024 include 59 sites from the Applegreen Acquisition. See Note 2 for additional information. During the three and six months ended June 30, 2023, respectively, we converted 26 sites and 34 sites from lessee dealer sites in the wholesale segment to company operated or commission sites in the retail segment.

The following table reflects activity related to our reportable segments (in thousands):

Receivables for rent and other lease-related charges	2,929	3,155
Total accounts receivable	$ 39,019	$ 31,622

Performance obligations are satisfied as fuel is delivered to the customer and as merchandise is sold to the consumer. Many of our fuel contracts with our customers include minimum purchase volumes measured on a monthly basis, for which our performance obligations are satisfied as services are rendered. Receivables from fuel are recognized on a per-gallon rate and are generally collected within 10 days of delivery.

The balance of unamortized costs incurred to obtain certain contracts with customers was $9.0 million and $10.0 million at June 30, 2024 and December 31, 2023, respectively. Amortization of such costs is recorded against operating revenues and amounted to $0.5 million for both the three months ended June 30, 2024 and 2023 and $1.0 million and $0.9 million for the six months ended June 30, 2024 and 2023, respectively.

Receivables from rent and other lease-related charges are generally collected at the beginning of the month.

Description of Business and Other Disclosures (Policies) — **6 Months Ended Jun. 30, 2024**

Accounting Policies [Abstract]

Interim Financial Statement

Interim Financial Statements

These unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions to Form 10-Q and the Exchange Act. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature unless disclosed otherwise. Management believes that the disclosures made are adequate to keep the information presented from being misleading. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K. Financial information as of June 30, 2024 and for the three and six months ended June 30, 2024 and 2023 included in the consolidated financial statements has been derived from our unaudited financial statements. Financial information as of December 31, 2023 has been derived from our audited financial statements and notes thereto as of that date.

Operating results for the three and six months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. Our business exhibits seasonality due to our wholesale and retail sites being located in certain geographic areas that are affected by seasonal weather and temperature trends and associated changes in retail customer activity during different seasons. Historically, sales volumes have been highest in the second and third quarters (during the summer activity months) and lowest during the winter months in the first and fourth quarters.

Use of Estimates

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results and outcomes could differ from those estimates and assumptions. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances could result in revised estimates and assumptions.

Recently Adopted Accounting Pronouncements

Recently Adopted Accounting Pronouncements

Segment Reporting

In November 2023, the FASB issued ASU 2023-07, "Improvements in Reportable Segment Disclosures." The amendments in this new guidance improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. These new disclosures will be required in our Annual Report on Form 10-K for the year ending December 31, 2024 and interim and annual reports thereafter. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to our reportable segments starting in our Annual Report on Form 10-K for the year ending December 31, 2024.

Income Taxes

In December 2023, the FASB issued ASU 2023-09, “Improvements to Income Tax Disclosures.” The amendments in this new guidance require that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold. This new guidance also requires certain new disclosures such as income taxes paid disaggregated by federal, state and foreign taxes and further disaggregated by individual jurisdictions in which income taxes paid exceeds a quantitative threshold. This new guidance also eliminates certain previously required disclosures. We will adopt this new guidance effective January 1, 2025. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to income taxes.

Certain other new accounting pronouncements have become effective for our financial statements during 2024, but the adoption of these pronouncements did not materially impact our financial position, results of operations or disclosures.

Concentration Risk

Concentration Risk

For the six months ended June 30, 2024 and 2023, respectively, we purchased approximately 81% and 80% of our motor fuel from four suppliers. Approximately 23% of our motor fuel gallons sold for each of the six months ended June 30, 2024 and 2023 were delivered by two carriers.

For the six months ended June 30, 2024 and 2023, respectively, approximately 18% and 29% of our rent income was from five multi-site operators.

For the six months ended June 30, 2024 and 2023, respectively, approximately 49% and 47% of our merchandise was purchased from one supplier.

Income tax holiday, description	As a limited partnership, we are not subject to federal and state income taxes. However, our corporate subsidiaries are subject to income taxes. Income tax attributable to our taxable income (including any dividend income from our corporate subsidiaries), which may differ significantly from income for financial statement purposes, is assessed at the individual limited partner unitholder level. We are subject to a statutory requirement that non-qualifying income, as defined by the Internal Revenue Code, cannot exceed 10% of total gross income for the calendar year. If non-qualifying income exceeds this statutory limit, we would be taxed as a corporation. The non-qualifying income did not exceed the statutory limit in any annual period.

DESCRIPTION OF BUSINESS AND OTHER DISCLOSURES Our business consists of: • the wholesale distribution of motor fuels; • the owning or leasing of sites used in the retail distribution of motor fuels and, in turn, generating rental income from the lease or sublease of the sites; • the retail sale of motor fuels to end customers at retail sites operated by commission agents and ourselves; and • the operation of retail sites, including the sale of convenience merchandise to end customers. Interim Financial Statements These unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions to Form 10-Q and the Exchange Act. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature unless disclosed otherwise. Management believes that the disclosures made are adequate to keep the information presented from being misleading. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K. Financial information as of June 30, 2024 and for the three and six months ended June 30, 2024 and 2023 included in the consolidated financial statements has been derived from our unaudited financial statements. Financial information as of December 31, 2023 has been derived from our audited financial statements and notes thereto as of that date. Operating results for the three and six months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. Our business exhibits seasonality due to our wholesale and retail sites being located in certain geographic areas that are affected by seasonal weather and temperature trends and associated changes in retail customer activity during different seasons. Historically, sales volumes have been highest in the second and third quarters (during the summer activity months) and lowest during the winter months in the first and fourth quarters. Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results and outcomes could differ from those estimates and assumptions. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances could result in revised estimates and assumptions. Recently Adopted Accounting Pronouncements Segment Reporting In November 2023, the FASB issued ASU 2023-07, "Improvements in Reportable Segment Disclosures." The amendments in this new guidance improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. These new disclosures will be required in our Annual Report on Form 10-K for the year ending December 31, 2024 and interim and annual reports thereafter. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to our reportable segments starting in our Annual Report on Form 10-K for the year ending December 31, 2024. Income Taxes In December 2023, the FASB issued ASU 2023-09, "Improvements to Income Tax Disclosures." The amendments in this new guidance require that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold. This new guidance also requires certain new disclosures such as income taxes paid disaggregated by federal, state and foreign taxes and further disaggregated by individual jurisdictions in which income taxes paid exceeds a quantitative threshold. This new guidance also eliminates certain previously required disclosures. We will adopt this new guidance effective January 1, 2025. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to income taxes. Certain other new accounting pronouncements have become effective for our financial statements during 2024, but the adoption of these pronouncements did not materially impact our financial position, results of operations or disclosures. Concentration Risk For the six months ended June 30, 2024 and 2023, respectively, we purchased approximately 81% and 80% of our motor fuel from four suppliers. Approximately 23% of our motor fuel gallons sold for each of the six months ended June 30, 2024 and 2023 were delivered by <span style="font-size:10pt;font-family:Times New Roman;color:#000000;white-space:pre-

wrap;min-width:fit-content;">two carriers. For the six months ended June 30, 2024 and 2023, respectively, approximately 18% and 29% of our rent income was from five multi-site operators. For the six months ended June 30, 2024 and 2023, respectively, approximately 49% and 47% of our merchandise was purchased from one supplier. Our business exhibits seasonality due to our wholesale and retail sites being located in certain geographic areas that are affected by seasonal weather and temperature trends and associated changes in retail customer activity during different seasons. Historically, sales volumes have been highest in the second and third quarters (during the summer activity months) and lowest during the winter months in the first and fourth quarters. Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results and outcomes could differ from those estimates and assumptions. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances could result in revised estimates and assumptions. Recently Adopted Accounting Pronouncements Segment Reporting In November 2023, the FASB issued ASU 2023-07, "Improvements in Reportable Segment Disclosures." The amendments in this new guidance improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. These new disclosures will be required in our Annual Report on Form 10-K for the year ending December 31, 2024 and interim and annual reports thereafter. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to our reportable segments starting in our Annual Report on Form 10-K for the year ending December 31, 2024. Income Taxes In December 2023, the FASB issued ASU 2023-09, "Improvements to Income Tax Disclosures." The amendments in this new guidance require that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold. This new guidance also requires certain new disclosures such as income taxes paid disaggregated by federal, state and foreign taxes and further disaggregated by individual jurisdictions in which income taxes paid exceeds a quantitative threshold. This new guidance also eliminates certain previously required disclosures. We will adopt this new guidance effective January 1, 2025. Although we do not anticipate the impact of adopting this guidance will be material, it will affect our disclosures related to income taxes. Certain other new accounting pronouncements have become effective for our financial statements during 2024, but the adoption of these pronouncements did not materially impact our financial position, results of operations or disclosures. Concentration Risk For the six months ended June 30, 2024 and 2023, respectively, we purchased approximately 81% and 80% of our motor fuel from four suppliers. Approximately 23% of our motor fuel gallons sold for each of the six months ended June 30, 2024 and 2023 were delivered by two carriers. For the six months ended June 30, 2024 and 2023, respectively, approximately 18% and 29% of our rent income was from five multi-site operators. For the six months ended June 30, 2024 and 2023, respectively, approximately 49% and 47% of our merchandise was purchased from one supplier. 0.810.80440.230.2320.180.2950.490.471 Note 2. APPLEGREEN ACQUISITION AND LEASE TERMINATION On January 26, 2024, we entered into an agreement (the "Applegreen Purchase Agreement") to acquire certain assets from Applegreen Midwest, LLC and Applegreen Florida, LLC (collectively, the "Sellers") (the "Applegreen Acquisition"). The assets were acquired via the termination of the Partnership's existing lease agreements with the Sellers at 59 locations, for total consideration of $16.9 million. The transaction closed on a rolling basis by site beginning during the first quarter of 2024 and ending in April 2024. The Partnership also acquired for cash the inventory at the locations. The terms of the Partnership's leases with Applegreen Midwest, LLC and Applegreen Florida, LLC could have been extended to 2049 and 2048, respectively, including all renewal options. The Applegreen Purchase Agreement contains customary representations and warranties of the parties as well as indemnification obligations by the Sellers and the Partnership, respectively, to each other. Of the 59 locations, 31 locations converted during the first quarter of 2024 and the remaining locations converted in April 2024. This transaction resulted in the transition of these lessee dealer sites to company operated sites. During the six months ended June 30, 2024, we paid

$25.5 million of cash and recorded a non-cash write-off of deferred rent income of $1.5 million. Letters of credit outstanding totaled $5.3 million and $4.5 million at June 30, 2024 and December 31, 2023, respectively. Taking the interest rate swap contracts into account, the effective interest rate on our CAPL Credit Facility at June 30, 2024 was 6.7% (our applicable margin was 2.25% as of June 30, 2024). See Note 8 for additional information on our interest rate swap contracts. The CAPL Credit Facility contains certain financial covenants. The Partnership is required to maintain a Consolidated Leverage Ratio (as defined in the CAPL Credit Facility) of (i) for each fiscal quarter ending March 31, 2024, June 30, 2024 and September 30, 2024, not greater than 5.00 to 1.00, and (ii) for each fiscal quarter ending December 31, 2024 and thereafter, not greater than 4.75 to 1.00. For the quarter during a Specified Acquisition Period (as defined in the CAPL Credit Facility), such threshold will be increased by increasing the numerator thereof by 0.5, but such numerator may not exceed 5.25 to 1.00. Upon the occurrence of a Qualified Note Offering (as defined in the CAPL Credit Facility), the Consolidated Leverage Ratio threshold when not in a Specified Acquisition Period is increased to 5.25 to 1.00, while the Specified Acquisition Period threshold is 5.50 to 1.00. Upon the occurrence of a Qualified Note Offering, the Partnership is also required to maintain a Consolidated Senior Secured Leverage Ratio (as defined in the CAPL Credit Facility) for the most recently completed four fiscal quarter period of not greater than 3.75 to 1.00. Such threshold is increased to 4.00 to 1.00 for the quarter during a Specified Acquisition Period. The Partnership is also required to maintain a Consolidated Interest Coverage Ratio (as defined in the CAPL Credit Facility) of at least 2.50 to 1.00. On February 20, 2024, in connection with our Applegreen Acquisition, we entered into an amendment (the "Amendment") to the CAPL Credit Facility. The Amendment, among other things, modified the definition of Consolidated EBITDA contained in the Credit Agreement to permit the full addback of certain lease termination expenses incurred in connection with the Applegreen Acquisition and the addback of other lease termination expenses incurred in connection with future transactions, subject to certain terms and conditions. As of June 30, 2024, we were in compliance with our financial covenants under the CAPL Credit Facility. The amount of availability under the CAPL Credit Facility at June 30, 2024, after taking into consideration debt covenant restrictions, was $111 million. In connection with amending the CAPL Credit Facility and terminating the JKM Credit Facility in March 2023, the Partnership wrote off $1.1 million of deferred financing costs in the first quarter of 2023. The first three swap contracts above matured April 1, 2024, and as a result, our effective interest rate on the CAPL Credit Facility has increased since that time. The fair value of each of these interest rate swap contracts was reported as a separate line item within current assets, noncurrent assets and noncurrent liabilities, as applicable. See Note 12 for additional information on the fair value of the interest rate swap contracts. We report the unrealized gains and losses on our interest rate swap contracts designated as highly effective cash flow hedges as a component of other comprehensive income and reclassify such gains and losses into earnings (interest expense on our statement of operations) in the same period during which the hedged interest expense is recorded. We recognized a net realized gain from settlements of the interest rate swap contracts of $1.9 million and $4.3 million for the three months ended June 30, 2024

and 2023 and $7.1 million and $7.4 million for the six months ended June 30, 2024 and 2023, respectively. We currently estimate that a gain of $6.2 million will be reclassified from accumulated other comprehensive income into interest expense during the next 12 months; however, the actual amount that will be reclassified will vary based on changes in interest rates.</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:10pt;text-align:justify;">During 2024, we held the OPERATING LEASES AS LESSOR During the first half of 2024, we terminated a significant number of operating leases as lessor through our Applegreen Acquisition. See Note 2 for additional information regarding this transaction and the related write-off of deferred rent income. Motor fuel stations are leased to tenants under operating leases with various expiration dates ranging through 2037. Most lease agreements include provisions for renewals. We generally do not include renewal options in our lease term. style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">Note 11. COMMITMENTS AND CONTINGENCIES Purchase Commitments We have minimum volume purchase requirements under certain of our fuel supply agreements with a purchase price at prevailing market rates for wholesale distribution. In the event we fail to purchase the required minimum volume for a given contractual period, the underlying third party's exclusive remedies (depending on the magnitude of the failure) are either termination of the supply agreement and/or a financial penalty per gallon based on the volume shortfall for the given period. We did not incur any significant penalties during the six months ended June 30, 2024 or 2023. Litigation Matters We are from time to time party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of business. These actions typically seek, among other things, compensation for alleged personal injury, breach of contract, property damages, environmental damages, employment-related claims and damages, punitive damages, civil penalties or other losses, or injunctive or declaratory relief. With respect to all such lawsuits, claims and proceedings, we record an accrual when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. In addition, we disclose matters for which management believes a material loss is at least reasonably possible. We believe that it is not reasonably possible that these proceedings, separately or in the aggregate, will have a material adverse effect on our consolidated financial position, results of operations or cash flows. In all instances, management has assessed the matter based on current information and made a judgment concerning its potential outcome, giving due consideration to the nature of the claim, the amount and nature of damages sought and the probability of success. Management's judgment may prove materially inaccurate, and such judgment is made subject to the known uncertainties of litigation. Environmental Matters We currently own or lease sites where refined petroleum products are being or have been handled. These sites and the refined petroleum products handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, we could be required to remove or remediate containerized hazardous liquids or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to remediate contaminated property arising from the release of liquids or wastes into the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination. We maintain insurance of various types with varying levels of coverage that is considered adequate under the circumstances to cover operations and properties. The insurance policies are subject to deductibles that are considered reasonable and not excessive. In addition, we have entered into indemnification and escrow agreements with various sellers in conjunction with several of their respective acquisitions, as further described below. Financial responsibility for environmental remediation is negotiated in connection with each acquisition transaction. In each case, an assessment is made of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, a determination is made whether to, and the extent to which we will, assume liability for existing environmental conditions. Environmental liabilities recorded on the balance sheet within accrued expenses and other current liabilities and other long-term liabilities totaled $8.2 million and $7.4 million at June 30, 2024 and December 31, 2023, respectively. Indemnification assets related to third-party escrow funds, state funds or insurance recorded on the balance sheet within other current assets and other noncurrent assets totaled $5.8 million and $5.3 million at June 30, 2024 and December 31, 2023, respectively. State funds represent probable state reimbursement amounts. Reimbursement will depend upon the continued maintenance and solvency of the state. Insurance coverage represents amounts deemed probable of reimbursement under insurance policies. The estimates used in these reserves are based on all known facts at the time and an assessment of the ultimate remedial action outcomes. We will adjust loss accruals as further information becomes available or circumstances change. Among the many uncertainties that impact the estimates are the necessary regulatory approvals for, and potential modifications of, remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment and the possibility of existing legal claims giving rise to additional claims. Environmental liabilities related to the sites contributed to the Partnership in connection with our IPO have not been assigned to us and are still the responsibility of the Predecessor Entity. The Predecessor Entity indemnified us for any costs or expenses that we incur for environmental liabilities and third-party claims, regardless of when a claim is made, that are based on environmental conditions in existence prior to the closing of the IPO for contributed sites. As such, these environmental liabilities and indemnification assets are not recorded on the consolidated balance sheet of the Partnership. Similarly, we have generally been indemnified with respect to known contamination at sites acquired from third parties. As such, these environmental liabilities and indemnification assets are also not recorded on the consolidated balance sheet of the Partnership.
8200000740000058000005300000 Note 12. FAIR VALUE MEASUREMENTS We measure and report certain financial and non-financial assets and liabilities on a fair value basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). U.S. GAAP specifies a three-level hierarchy that is used when measuring and disclosing fair value. The fair value hierarchy gives the highest priority to quoted prices available in active markets (i.e., observable inputs) and the lowest priority to data lacking transparency (i.e., unobservable inputs). An instrument's categorization within the fair value hierarchy is based on the lowest level of significant input to its valuation. Transfers into or out of any hierarchy level are recognized at the end of the reporting period in which the transfers occurred. There were no transfers between any levels in 2024 or 2023. As further discussed in Note 8, we remeasure the fair value of interest rate swap contracts on a recurring basis each balance sheet date. We used an income approach to measure the fair value of these contracts, utilizing a forward yield curve for the same period as the future interest rate swap settlements. These fair value measurements are classified as Level 2 measurements. We have accrued for unvested phantom units and phantom performance units as a liability and adjust that liability on a recurring basis based on the market price of our common units each balance sheet date. These fair value measurements are deemed Level 1 measurements. The fair value of our accounts receivable, notes receivable, and accounts payable approximated their carrying values as of June 30, 2024 and December 31, 2023 due to the short-term maturity of these instruments. The fair value of borrowings under the CAPL Credit Facility approximated its carrying value as of June 30, 2024 and December 31, 2023 due to the frequency with which interest rates are reset and the consistency of

the market spread. Note 13. INCOME TAXES As a limited partnership, we are not subject to federal and state income taxes. However, our corporate subsidiaries are subject to income taxes. Income tax attributable to our taxable income (including any dividend income from our corporate subsidiaries), which may differ significantly from income for financial statement purposes, is assessed at the individual limited partner unitholder level. We are subject to a statutory requirement that non-qualifying income, as defined by the Internal Revenue Code, cannot exceed 10% of total gross income for the calendar year. If non-qualifying income exceeds this statutory limit, we would be taxed as a corporation. The non-qualifying income did not exceed the statutory limit in any annual period. Certain activities that generate non-qualifying income are conducted through our wholly owned taxable corporate subsidiaries. Current and deferred income taxes are recognized on the earnings of these subsidiaries. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates. We recorded income tax expense (benefit) of $1.7 million and $2.8 million for the three months ended June 30, 2024 and 2023 and $(4.1) million and $1.1 million for the six months ended June 30, 2024 and 2023, respectively, as a result of the income generated (losses incurred) by our corporate subsidiaries. The effective tax rate differs from the combined federal and state statutory rate primarily because only LGWS and Joe's Kwik Marts are subject to income tax.</p>As a limited partnership, we are not subject to federal and state income taxes. SEGMENT REPORTING</p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">We conduct our business in two segments: 1) the wholesale segment and 2) the retail segment.</p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">The wholesale segment includes the wholesale distribution of motor fuel to lessee dealers and independent dealers. We have exclusive motor fuel distribution contracts with lessee dealers who lease the property from us. We also have exclusive distribution contracts with independent dealers to distribute motor fuel but do not collect rent from the independent dealers.</p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">The retail segment includes the retail sale of motor fuel at retail sites operated by commission agents and the sale of convenience merchandise items and the retail sale of motor fuel at company operated sites. A commission agent site is a retail site where we retain title to the motor fuel inventory and sell it directly to our end user customers. At commission agent retail sites, we manage motor fuel inventory pricing and retain the gross profit on motor fuel sales, less a commission to the agent who operates the retail site. Similar to our wholesale segment, we also generate revenues through leasing or subleasing real estate in our retail segment.</p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">Unallocated items consist primarily of general and administrative expenses, depreciation, amortization and accretion expense, gains on dispositions and lease terminations, net, other income, interest expense and income tax expense. Total assets by segment are not presented as management does not currently assess performance or allocate resources based on that data.</p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">During the three and six months ended June 30, 2024, respectively, we converted 42 and 95 sites from lessee dealer sites in the wholesale segment to company operated or commission sites in the retail segment, net. The sites converted during the first half of 2024 include 59 sites from the Applegreen Acquisition. See Note 2 for additional information. During the three and six months ended June 30, 2023, respectively, we converted 26 sites and 34 sites from lessee dealer sites in the wholesale segment to company operated or commission sites in the retail segment.</p><div style="font-size:10pt;font-family:Times New Roman;"><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">The following
