Glossary

Defined terms used in this Report:

Annualized Rent	Annualized cash base rent (excludes tenant reimbursements, parking and other revenue) before abatements under leases commenced as of the reporting date and expiring after the reporting date. Annualized Rent for our triple net office properties (in Honolulu and one single tenant building in Los Angeles) is calculated by adding expense reimbursements and estimates of normal building expenses paid by tenants to base rent. Annualized Rent does not include lost rent recovered from insurance and rent for building management use. Annualized Rent includes rent for our corporate headquarters in Santa Monica. We report Annualized Rent because it is a
------------------------	--

	widely reported measure of the performance of equity REITs, and is used by some investors as a means to determine tenant demand and to compare our performance and value with other REITs. We use Annualized Rent to manage and monitor the performance of our office and multifamily portfolios.
Consolidated Portfolio	Includes all of the properties included in our consolidated results, including our consolidated JVs.
Funds From Operations (FFO)	We calculate FFO in accordance with the standards established by NAREIT by excluding gains (or losses) on sales of investments in real estate, gains (or losses) from changes in control of investments in real estate, real estate depreciation and amortization (other than amortization of right-of-use assets for which we are the lessee and amortization of deferred loan costs), and impairment write-downs of real estate and impairment write-downs of our investment in our unconsolidated Fund from our net income (loss) (including adjusting for the effect of such items attributable to our consolidated JVs and our unconsolidated Fund, but not for noncontrolling interests included in our Operating Partnership). FFO is a non-GAAP supplemental financial measure that we report because we believe it is useful to our investors. See Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2 of this Report for a discussion of FFO.
Leased Rate	The percentage leased as of the reporting date. Management space is considered leased. Space taken out of service during a repositioning or which is vacant as a result of a fire or other damage is excluded from both the numerator and denominator for calculating the Leased Rate. For newly developed buildings going through initial lease up, units are included in both the numerator and denominator as they are leased. We report Leased Rate because it is a widely reported measure of the performance of equity REITs, and is also used by some investors as a means to determine tenant demand and to compare our performance with other REITs. We use Leased Rate to manage and monitor the performance of our office and multifamily portfolios.
Net Operating Income (NOI)	We calculate NOI as revenue less operating expenses attributable to the properties that we own and operate. NOI is calculated by excluding the following from our net income (loss): general and administrative expenses, depreciation and amortization expense, other income, other expenses, income (loss) from unconsolidated Fund, interest expense, gains (or losses) on sales of investments in real estate and net income (loss) attributable to noncontrolling interests. NOI is a non-GAAP supplemental financial measure that we report because we believe it is useful to our investors. See Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2 of this Report for a discussion of our Same Property NOI.
Occupancy Rate	We calculate Occupancy Rate by excluding signed leases not yet commenced from the Leased Rate. Management space is considered occupied. Space taken out of service during a repositioning or which is vacant as a result of a fire or other damage is excluded from both the numerator and denominator for calculating the Occupancy Rate. For newly developed buildings going through initial lease up, units are included in both the numerator and denominator as they are occupied. We report Occupancy Rate because it is a widely reported measure of the performance of equity REITs, and is also used by some investors as a means to determine tenant demand and to compare our performance with other REITs. We use Occupancy Rate to manage and monitor the performance of our office and multifamily portfolios.
Recurring Capital Expenditures	Building improvements required to maintain revenues once a property has been stabilized, and excludes capital expenditures for (i) acquired buildings being stabilized, (ii) newly developed space, (iii) upgrades to improve revenues or operating expenses or significantly change the use of the space, (iv) casualty damage and (v) bringing the property into compliance with governmental or lender requirements. We report Recurring Capital Expenditures because it is a widely reported measure of the performance of equity REITs, and is used by some investors as a means to determine our cash flow requirements and to compare our performance with other REITs. We use Recurring Capital Expenditures to manage and monitor the performance of our office and multifamily portfolios.

Glossary

Defined terms used in this Report (continued):

Rentable Square Feet	Based on the BOMA remeasurement and consists of leased square feet (including square feet with respect to signed leases not commenced as of the reporting date), available square feet, building management use square feet and square feet of the BOMA adjustment on leased space. We report Rentable Square Feet because it is a widely reported measure of the performance and value of equity REITs, and is also used by some investors to compare our performance and value with other REITs. We use Rentable Square Feet to manage and monitor the performance of our office portfolio.
Rental Rate	We present two forms of Rental Rates - Cash Rental Rates and Straight-Line Rental Rates. Cash Rental Rate is calculated by dividing the rent paid by the Rentable Square Feet. Straight-Line Rental Rate is calculated by dividing the average rent over the lease term by the Rentable Square Feet.
Same Properties	Our consolidated properties that have been owned and operated by us in a consistent manner, and reported in our consolidated results during the entire span of both periods being compared. We exclude from our same property subset any properties that during the comparable periods were: (i) acquired, (ii) sold, held for sale, contributed or otherwise removed from our consolidated financial statements, (iii) that underwent a major repositioning project or were impacted by development activity, or suffered significant casualty loss that we believed significantly affected the properties' operating results. We also exclude rent received from ground leases.
Short-Term Leases	Represents leases that expired on or before the reporting date or had a term of less than one year, including hold over tenancies, month to month leases and other short-term occupancies.
Total Portfolio	Includes our Consolidated Portfolio plus the properties owned by our Fund.

Forward Looking Statements

This Report contains forward-looking statements within the meaning of the Section 27A of the Securities Act and Section 21E of the Exchange Act. You can find many (but not all) of these statements by looking for words such as "believe", "expect", "anticipate", "estimate", "approximate", "intend", "plan", "would", "could", "may", "future" or other similar expressions in this Report. We claim the protection of the safe harbor contained in the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements used in this Report, or those that we make orally or in writing from time to time, are based on our beliefs and assumptions, as well as information currently available to us. Actual outcomes will be affected by known and unknown risks, trends, uncertainties and factors beyond our control or ability to predict. Although we believe that our assumptions are reasonable, they are not guarantees of future performance and some will inevitably prove to be incorrect. As a result, our future results can be expected to differ from our expectations, and those differences may be material. Accordingly, investors should use caution when relying on previously reported forward-looking statements, which were based on results and trends at the time they were made, to anticipate future results or trends. Some of the risks and uncertainties that could cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include the following:

- adverse economic, **political** or real estate developments affecting Southern California or Honolulu, Hawaii;
- competition from other real estate investors in our markets;
- decreasing rental rates or increasing tenant incentive and vacancy rates;
- reduced demand for office space, including as a result of remote work and flexible working arrangements that allow work from remote locations other than the employer's office premises;
- defaults on, early terminations of, or non-renewal of leases by tenants;
- increases in interest rates;
- increases in operating costs, including due to inflation;
- insufficient cash flows to service our outstanding debt or pay rent on ground leases;
- difficulties in raising capital;
- inability to liquidate real estate or other investments quickly;
- adverse changes to rent control laws and regulations;

- environmental uncertainties;
- natural disasters;
- fire and other property damage;
- insufficient insurance, or increases in insurance costs;
- inability to successfully expand into new markets and submarkets;
- difficulties in identifying properties to acquire and failure to complete acquisitions successfully;
- failure to successfully operate acquired properties;
- risks associated with property development;
- risks associated with JVs;
- conflicts of interest with our officers and reliance on key personnel;
- changes in zoning and other land use laws;
- adverse results of litigation or governmental proceedings;
- failure to comply with laws, regulations and covenants that are applicable to our business;
- possible terrorist attacks or wars;
- possible cyber attacks or intrusions;
- adverse changes to accounting rules;
- weaknesses in our internal controls over financial reporting;
- failure to maintain our REIT status under federal tax laws; and
- adverse changes to tax laws, including those related to property taxes.

For further discussion of these and other risk factors see Item 1A. "Risk Factors" in our **2022** **2023** Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** **December 31, 2023**, and Item 1A. "Risk Factors" in this Report. This Report and all subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date of this Report.

1. Overview

Organization and Business Description

Douglas Emmett, Inc. is a fully integrated, self-administered and self-managed REIT. We are one of the largest owners and operators of high-quality office and multifamily properties. Our Operating Partnership and its subsidiaries, consolidated JVs and unconsolidated Fund, we focus on owning, acquiring, developing and managing a substantial market share of office space, significant supply constraints, high-end executive housing and key lifestyle amenities. The terms "us," "we" and "our" as used in the consolidated financial statements refer to Douglas Emmett, Inc. and its consolidated subsidiaries.

At **September 30, 2023** **March 31, 2024**, our Consolidated Portfolio consisted of (i) a 17.6 million square foot office portfolio, (ii) 4,594 4,528 multifamily apartment units and (iii) 0.4 million square feet of office space. We manage and own an equity interest in an unconsolidated Fund which, at **September 30, 2023** **March 31, 2024**, owned an additional 0.4 million square feet of office space. We manage statistics for our office portfolio on a Total Portfolio basis. As of **September 30, 2023** **March 31, 2024**, our portfolio consisted of the following (including ancillary retail space and excluding land held for future development):

Basis of Presentation

The accompanying consolidated financial statements are the consolidated financial statements of Douglas Emmett, Inc. and its subsidiaries, including our Operating Partnership, which are eliminated in our consolidated financial statements.

We consolidate entities in which we are considered to be the primary beneficiary of a VIE or have a majority of the voting interest of the entity. We are deemed to be the primary beneficiary if (i) we have the power to significantly impact its economic performance, and (ii) the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE. We do not consolidate entities that do not have the power to significantly impact its economic performance, and (ii) the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE. In determining whether we are the primary beneficiary, we consider factors such as ownership interest, participation in financial decision-making, substantive participating rights of each party.

We consolidate our Operating Partnership through which we conduct substantially all of our business, and own, directly and through subsidiaries, substantially all of our assets, including our consolidated JVs, was \$3.76 billion as of **September 30, 2023** **March 31, 2024** and \$3.41 billion as of December 31, 2022 December 31, 2023. See Note 8. We also consolidate four JVs because they are VIEs and we or our Operating Partnership are the primary beneficiary for each.

Douglas Emmett, Inc.
Notes to Consolidated Financial Statements (unaudited) (continued)

As of **September 30, 2023** **March 31, 2024**, our consolidated VIE entities, excluding our Operating Partnership, had:

- aggregate consolidated assets of \$3.90 billion \$3.82 billion (of which \$3.49 billion \$3.45 billion related to investment in real estate), and
- aggregate consolidated liabilities of \$1.89 billion (of which \$1.81 billion related to debt).

As of December 31, 2022 December 31, 2023, our consolidated VIE entities, excluding our Operating Partnership, had:

- aggregate consolidated assets of \$3.94 billion \$3.83 billion (of which \$3.54 billion \$3.47 billion related to investment in real estate), and
- aggregate consolidated liabilities of \$1.89 \$1.88 billion (of which \$1.81 billion related to debt).

The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the SEC in conformity with US GAAP as included in the consolidated financial statements prepared in conformity with US GAAP may have been condensed or omitted pursuant to SEC rules and regulations, although the accompanying unaudited interim consolidated financial statements include, in our opinion, all adjustments, consisting of normal recurring adjustments, necessary to present fairly the results that may be expected for the year ending December 31, 2023 December 31, 2024. The interim consolidated financial statements should be read Form 10-K and the notes thereto. Any references to the number or class of properties, square footage, per square footage amounts, apartment units and geography, are outside financial statements in accordance with the standards of the PCAOB.

2. Summary of Significant Accounting Policies

We have not made any changes to our significant accounting policies disclosed in our 2022 2023 Annual Report on Form 10-K.

Use of Estimates

The preparation of consolidated financial statements in conformity with US GAAP requires management to make certain estimates that affect the reported amounts in the consolidated financial statements.

Revenue Recognition

Rental revenues and tenant recoveries

We account for our rental revenues, and variable lease payments such as tenant recoveries and parking revenues, in accordance with Topic 842 "Leases". 842. We adopted variable lease payments such as tenant recoveries and parking revenues on a combined basis. Rental revenues and tenant recoveries from tenant leases are included in: (i) in Rental revenues and tenant recoveries under Office operations. Tenant recoveries were \$9.1 million and \$13.1 million for the three months ended March 31, 2024 and 2023, respectively. Parking revenues are included in Parking ar

Collectability

In accordance with Topic 842, we perform an assessment as to whether or not substantially all of the amounts due under a tenant's lease agreement is deemed probable. We estimate about matters that are uncertain at the time the estimates are made, including tenant specific factors, specific industry conditions, and general economic trends and conditions.

Douglas Emmett, Inc.
Notes to Consolidated Financial Statements (unaudited) (continued)

For leases where we have concluded it is probable that we will collect substantially all the lease payments due under those leases, we continue to record lease income on a straight-line basis. For leases where we have concluded it is not probable that we will collect substantially all the lease payments due under those leases, we limit the lease income to the lesser of the income recognized on a straight-line basis against rental revenues and tenant recoveries in the period we conclude that substantially all of the lease payments are not probable of collection. If we subsequently collect amounts in excess of the amounts recorded, we will record the difference between the lease income and the amount collected as an adjustment to rental revenues and tenant recoveries.

Douglas Emmett, Inc.
Notes to Consolidated Financial Statements (unaudited) (continued)

Charges for uncollectible office tenant receivables and deferred rent receivables, reduced our office revenues by:

- \$0.2 million and \$0.1 million for the three months ended September 30, 2023 and 2022, respectively, and
- \$0.5 million and \$0.3 million for the nine months ended September 30, 2023 and 2022, respectively.

We restored accrual basis accounting for certain office tenants that were previously determined to be uncollectible and accounted for on a cash basis of accounting, which increased our revenues by:

- \$2.3 million and \$1.6 million for the three months ended September 30, 2023 and 2022, respectively, and
- \$4.4 million and \$3.3 million for the nine months ended September 30, 2023 and 2022, respectively.

Office parking revenues

We account for our office parking revenues in accordance with ASC 606 "Revenue from Contracts with Customers". Office parking revenues are included in Parking and contracts generally make a specified number of parking spaces available to the tenant, and we bill and recognize parking revenues on a monthly basis in accordance with the lease terms.

Office parking revenues were:

- \$23.4 million and \$22.1 million for the three months ended September 30, 2023, and 2022, respectively, and
- \$69.1 million and \$62.6 million for the nine months ended September 30, 2023 and 2022, respectively.

Office parking receivables, which are included in Tenant receivables on our consolidated balance sheets, were

- \$1.0 million as of September 30, 2023, and
- \$0.9 million as of December 31, 2022.

Income Taxes

We have elected to be taxed as a REIT under the Code. Provided that we qualify for taxation as a REIT, we are generally not subject to corporate-level income tax on the earnings. We are subject to corporate-level tax on the earnings that we derive through our TRS.

New Accounting Pronouncements

Changes to US GAAP are implemented by the FASB in the form of ASUs. We consider the applicability and impact of all ASUs. As of the date of this Report, the FASB has consolidated financial statements.

4. Ground Lease

We pay rent under a ground lease located in Honolulu, Hawaii, which expires on December 31, 2086. The rent is fixed at \$733 thousand per year until February 28, 2029, after which it increases annually by 3%.

As of **September 30, 2023** **March 31, 2024**, the ground lease right-of-use asset carrying value was \$7.4 million and the ground lease liability was \$10.8 million.

Ground rent expense, which is included in Office expenses on our consolidated statements of operations, was:

- \$183 thousand for each of the three month periods ended **September 30, 2023** **March 31, 2024** and 2022, and
- \$549 thousand for each of the nine month periods ended September 30, 2023 and 2022.

Except as noted below, our loans: (i) are non-recourse, (ii) are secured by separate collateral pools consisting of one or more properties, (iii) require interest-only monthly payments with the outstanding principal cash flow with the lender under certain circumstances unless we (at our option) either provide a guarantee or additional collateral or pay down the loan within certain parameters set forth in the loan documents in order to extend the loan maturity date.

(1) Maturity dates include extension options.

(2) LIBOR loans converted to SOFR during the third quarter include a small SOFR adjustment to calculate the interest payable to the lender, which are included in the spreads. The SOFR conversion did not affect the effective rate.

(3) Effective rate as of **September 30, 2023** **March 31, 2024**. Includes the effect of interest rate swaps (if applicable) and excludes the effect of prepaid loan fees and loan premiums. See Note 10 for details.

(4) (3) The loan agreement includes a zero-percent SOFR floor. If the loan is swap-fixed then the related swaps do not include such a floor.

(5) The swaps expired on March 1, 2023.

(6) (4) The loan is secured by four residential properties. A portion of the loan totaling \$472 million has a lender-required out-of-the-money interest rate cap at a weighted average of 8.99% until July 2026. Because the loan relating to Barrington Plaza, in connection with the removal of that property from the rental market during 2023, the lender is treating the debt as a construction loan. They have loan and we signed a deposit, which we placed in a into an interest bearing collateral account during the third quarter, and they are requiring a construction completion guarantee.2023. The lender will return the deposit at the consolidated balance sheet. sheets. See Note 7.

(7) (5) We closed the loan during the third quarter of 2023. The loan has a lender-required out-of-the-money interest rate cap at an interest rate of 7.84% until August 2026. We used part of the proceeds from the balance outstanding on the credit facility as of December 31, 2022.

(8) (6) The loan requires monthly payments of principal and interest. The principal amortization is based upon a 30-year amortization schedule.

10. Derivative Contracts

We make use of interest rate swap and cap contracts to manage the risk associated with changes in interest rates on our floating-rate debt and to satisfy certain lender requirements. We enter into swap agreements for the equivalent principal amount, for a period covering the majority of the loan term, which effectively converts our floating-rate debt to a fixed-rate basis during the life of the rates on our floating rate loans. We may enter into derivative contracts that are intended to hedge certain economic risks, even though hedge accounting does not apply or we elect to use other derivative instruments. See Note 8 regarding our debt and our consolidated JVs' debt that is hedged.

Counterparty Credit Risk

We are subject to credit risk from the counterparties on our interest rate swap and cap contract assets because we do not receive collateral. We seek to minimize that risk by entering into interest rate swap and cap contracts with counterparties that we believe have strong credit ratings. 11. Equity

Transactions

During the Nine **Three Months Ended September 30, 2023**

- We repurchased 9.1 million shares of our common stock for \$109.1 million in cash, excluding transaction costs, in open market transactions. The average purchase price was \$11.96 per share.
- We acquired 29 thousand OP Units for \$367 thousand in cash.

During the Nine Months Ended September 30, 2022

- We acquired 260 **166** thousand OP Units in exchange for issuing an equal number of shares of our common stock to the holders of the OP Units.
- We acquired 10 thousand **461** OP Units for **\$336** **\$6** thousand in cash.

During the Three Months Ended March 31, 2023

- We repurchased 1.4 million shares of our common stock for \$16.5 million in cash, excluding transaction costs, in open market transactions. The average purchase price was \$11.82 per share.
- We acquired a multifamily apartment building through a new consolidated JV that we manage and 5 thousand OP Units for \$89 thousand in which we own a 55% interest. We contributed \$99.0 million to the JV and an outside investor contributed \$81.0 million to the JV cash.

Noncontrolling Interests

Our noncontrolling interests consist of interests in our Operating Partnership and consolidated JVs which are not owned by us. As of **September 30, 2023** **March 31, 2024**, noncontrolling interests represented approximately **16.3%** **16.7%** of our Operating Partnership's total outstanding interests, and we owned **166.7** **167.4** million OP Units (to approximately 83.3% of our Operating Partnership's total outstanding interests).

A share of our common stock, an OP Unit and an LTIP Unit (once vested and booked up) have essentially the same economic characteristics, sharing equally in the distribution of cash from the Operating Partnership to acquire their OP Units for an amount of cash per unit equal to the market value of one share of our common stock at the date of acquisition, or, at our election, OP Units have been granted to our employees and non-employee directors as part of their compensation. These awards generally vest over a service period and once vested can generally be sold without a restriction or a "hurdle".

12. EPS

We calculate basic EPS by dividing the net income (loss) attributable to common stockholders for the period by the weighted average number of common shares outstanding. We calculate diluted EPS by dividing the net income (loss) attributable to common stockholders for the period by the weighted average number of common shares and dilutive instruments outstanding during the period using the treasury stock method. We include participating securities in the computation of diluted EPS if they are dilutive. We do not include participating securities in the computation of basic EPS because they are anti-dilutive. 13. Fair Value of Financial Instruments

Our estimates of the fair value of financial instruments were determined using available market information and widely used valuation methods. Considerable judgment is necessary to estimate fair value. The valuation methods used may have a material effect on the estimated fair values. The FASB fair value framework hierarchy distinguishes between assumptions base entity's own assumptions about market-based inputs. The hierarchy is as follows:

Level 1 - inputs utilize unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - inputs are observable either directly or indirectly for similar assets and liabilities in active markets.

Level 3 - inputs are unobservable assumptions generated by the reporting entity.

As of **September 30, 2023** **March 31, 2024**, we did not have any fair value estimates of financial instruments using Level 3 inputs.

Financial instruments disclosed at fair value

Short term financial instruments

The carrying amounts for cash and cash equivalents, tenant receivables, interest payable, accounts payable, security deposits and dividends payable approximate fair value because they are short-term in nature.

Secured notes payable

See Note 8 for the details of our secured notes payable. We estimate the fair value of our consolidated secured notes payable by calculating the credit-adjusted present value of the cash flows. The valuation model incorporates observable market interest rates which we consider to be Level 2 inputs, assumes that the loans will be outstanding through maturity, and includes any maturity extension risk. For the consolidated secured notes payable, the carrying value includes unamortized loan premium and excludes unamortized deferred loan fees.

Carrying value	Carrying value	\$ 5,573,462	\$ 5,224,449	

Ground lease liability

See Note 4 for the details of our ground lease. We estimate the fair value of our ground lease liability by calculating the present value of the future lease payments disclosed in interest rates which we consider to be Level 2 inputs. The table below presents the estimated fair value and carrying value of our ground lease liability:

Derivative instruments

See Note 10 for the details of our derivatives. We present our derivatives on our consolidated balance sheets at fair value, on a gross basis, excluding accrued interest. We estimate the fair value of the expected future cash flows of each derivative. The calculation incorporates the contractual terms of the derivatives, observable market interest rates which we consider to be Level 2 inputs. Our derivatives are not subject to master netting arrangements.

The table below presents the estimated fair value of our derivatives: derivatives. We did not have any consolidated or unconsolidated derivatives in a liability position for the periods presented.

14. Segment Reporting

Segment information is prepared on the same basis that our management reviews information for operational decision-making purposes. We operate in two business segments: acquisition, development, ownership and management of multifamily real estate. The services for our office segment primarily include rental of office space and other tenant services, including rental of apartments and other tenant services, including parking and storage space rental. Asset information by segment is not reported because we do not use this measure and amortization expense is not allocated among segments. 15. Future Minimum Lease Rental Receipts

We lease space to tenants primarily under non-cancelable operating leases that generally contain provisions for a base rent plus reimbursement of certain operating expenses. The table below presents the future minimum base rentals on our non-cancelable office tenant and ground leases for our consolidated properties at **September 30, 2023** March 31, 2024.

16. Commitments, Contingencies and Guarantees

Legal Proceedings

From time to time, we are party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of our business. We are currently in litigation with the reconstruction. Excluding ordinary, routine litigation incidental to our business, we are not currently a party to any legal proceedings that we believe would reasonably be expected to have a material impact on our financial position, results of operations or cash flows.

Concentration of Risk

Tenant Receivables

We are subject to credit risk with respect to our tenant receivables and deferred rent receivables related to our tenant leases. Our tenants' ability to honor the terms of their respective leases is critical to our financial performance. We seek to minimize our credit risk from our tenant leases by (i) targeting smaller, more affluent office tenants, from a diverse mix of industries, (ii) performing credit evaluations of prospective tenants, and (iii) requiring three months ended **September 30, 2023** **March 31, 2024** and **2022, 2023**, no tenant accounted for more than 10% of our total revenues. See our revenue recognition policy for information on our deferred rent receivables.

Geographic Risk

All of our properties, including our consolidated JVs and our unconsolidated Fund's properties, are located in Los Angeles County, California and Honolulu, Hawaii, and we are not exposed to significant risks from natural disasters, in those markets.

Derivative Counterparty Credit Risk

We are subject to credit risk with respect to our derivative counterparties. We do not post or receive collateral with respect to our derivative transactions. Our derivative contracts are not collateralized. We seek to minimize our credit risk by entering into agreements with a variety of counterparties with investment grade ratings.

Cash Balances

We have significant cash balances invested in a variety of short-term money market funds that are intended to preserve principal value and maintain a high degree of liquidity when there is no guarantee that our investments in these funds will be redeemable at par value. We also have significant cash balances in bank accounts with high quality financial institutions that are insured by the FDIC up to \$250 thousand.

Asset Retirement Obligations

Conditional asset retirement obligations represent a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement is conditional on whether a future event will occur. A conditional asset retirement obligation must be recorded if the fair value of the obligation can be reasonably estimated. Environmental site assessments have identified thirty-three buildings in our portfolio that are subject to applicable environmental regulations if these properties are demolished or undergo major renovations. As of **September 30, 2023** **March 31, 2024**, the obligations to remove the asbestos and renovate in the future, are not material to our consolidated financial statements. As of **September 30, 2023** **March 31, 2024**, the obligations to remove the asbestos from our other properties are not material to our consolidated financial statements. The fair value of the associated conditional asset retirement obligations is not material.

Contractual Commitments

Development Projects

In downtown Honolulu, we are converting a 25 story, 493,000 square foot office tower into approximately 493 apartments in phases over a number of years as the office space contractual commitment for this development project and other development projects of approximately \$19.3 million.

Other Contractual Commitments

As of September 30, 2023 March 31, 2024, we had an aggregate remaining contractual commitment for repositionings, capital expenditure projects and tenant improvements of approximately \$19.3 million.

Guarantees

Loan Guarantees

In November 2023, we signed a guarantee for the \$175.0 million consolidated JV loan which guarantees the portion of the loan principal that would need to be paid down to the lender if the loan is paid in full. As of March 31, 2024, we estimate the risk of loss for this guarantee to be low. See Note 8 for more information regarding our debt.

During 2023, we removed our Barrington Plaza Apartments property in Los Angeles from the rental market. See Note 3, "Property to be Removed from Service." The reconstruction costs are being treated as a capital expenditure. The lender is treating the \$210.0 million Barrington Plaza loan, which matures in June 2027, as a construction loan, and we signed a construction completion guarantee in January 2024. The guarantee will remain in effect until either the guarantee obligation or the loan is paid in full. As of March 31, 2024, we estimate the risk of loss for this guarantee to be low. See Note 8 for more information regarding our debt.

Unconsolidated Fund Guarantees

Our unconsolidated Fund, Partnership X, has a \$115.0 million floating-rate term loan that matures on September 14, 2028. The loan carries interest at SOFR + 1.46% (with a zero floor and a cap of 3.00%). The loan and related swaps were converted to SOFR from LIBOR during the third quarter of 2023, resulting in a significant spread above. The conversion to SOFR did not change the swap-fixed interest rate. The loan is secured by two properties held by Partnership X and is non-recourse.

We have made certain environmental and other limited indemnities and guarantees covering customary non-recourse carve-outs for Partnership X's loan, and we have also guaranteed to pay under these agreements. As of September 30, 2023 March 31, 2024, assuming that SOFR does not decrease below zero-percent, the maximum future interest rate would be 4.46% (with a zero floor and a cap of 3.00%). As of September 30, 2023 March 31, 2024, all of the obligations under the related loan and swap agreements have been performed in accordance with the terms of those agreements. As of September 30, 2023 March 31, 2024, all of the obligations under the related loan and swap agreements have been performed in accordance with the terms of those agreements. See Note 6 for more information regarding Partnership X.

(1) Our Consolidated Portfolio includes the properties in our consolidated results. Through our subsidiaries, we wholly-own 52 office properties totaling 13.4 million square feet and 12 residential properties totaling 4.2 million square feet and two residential properties with 470 apartments. Our Consolidated Portfolio excludes two wholly-owned land parcels from which we receive ground rent for \$1.5 million per year.

(2) Our Total Portfolio includes our Consolidated Portfolio as well as two properties totaling 0.4 million square feet owned by our unconsolidated Fund, Partnership X. See Note 6 to our consolidated financial statements in Item 1 of this Report for more information regarding our debt, derivatives and equity, respectively.

(3) As of **September 30, 2023** **March 31, 2024**, we removed 77,000 Rentable Square Feet for an office building that we are converting to residential apartments. See "Debt and Equity Transactions, Development and Repositioning Projects, and Other Transactions" further below.

(4) Unit totals exclude units vacated to perform as part of removing Barrington Plaza from the fire life safety work at Barrington Plaza. rental market. The leased and occupancy rates exclude the impact of the 1,000 units vacated as part of "Property to be Removed from Service" further below.

Revenues by Segment and Location

During the **nine** **three** months ended **September 30, 2023** **March 31, 2024**, revenues from our Consolidated Portfolio were derived as follows:

 2380  2385

Debt and Equity Transactions, Development and Repositioning Projects, and Other Transactions

Debt and Equity Transactions

During the first quarter of 2023/2024:

- Interest rate swaps, which fixed the interest rate on a \$400.0 million interest-only, floating-rate term loan that matures in December 2024 for one of our consolidated JV companies.
- Interest rate swaps, which fixed the interest rate on a \$335.0 million interest-only, floating-rate term loan that matures in March 2025 for one of our wholly-owned subsidiaries.
- An interest rate swap that fixed the interest rate on a \$102.4 million interest-only, floating-rate term loan that matures in April 2025 for one of our wholly-owned subsidiaries.
- We repurchased 1.4 million shares of common stock for \$16.5 million in cash, excluding transaction costs, in open market transactions. The average purchase price was \$11.75 per share.
- We acquired 5 thousand OP Units for \$89 thousand **an additional 20.2% of the equity** in cash.

During our unconsolidated Fund, Partnership X, which increased our ownership interest in the second quarter of Fund to 2023:

- **74.0%** We repurchased 7.6 million shares of common stock for \$92.6 million in cash, excluding transaction costs, in open market transactions. The average purchase price was \$12.00 per share.
- We acquired **20,166** thousand OP Units in exchange for \$232 thousand in cash.

During issuing an equal number of shares of our common stock to the third quarter holders of 2023: the OP Units.

- We closed a new \$350.0 million secured, non-recourse interest-only term loan that matures **acquired** 461 OP Units for \$6 thousand in August 2033. The loan accrues interest at 7.84% per annum. The interest rate is capped with lender-required out-of-the-money interest rate caps at 7.84% until August 2026. We used part of the proceeds to pay off the Barrington Plaza loan.
- We purchased three lender-required out-of-the-money interest rate caps with an aggregate notional amount of \$472.0 million to hedge \$472.0 million of a \$550.0 million interest rate swap.
- We converted our LIBOR loans and swaps to SOFR. See Item 3 in Part I for our SOFR transition disclosures.
- In connection with the Barrington Plaza loan, Barrington Plaza Apartments have been removed from the rental market. The lender is treating the debt as a construction loan account during the third quarter, and they are requiring **we signed** a construction completion guarantee. See "Property to be Removed from Service" further below for more information.
- We acquired 3 thousand OP Units for \$46 thousand in cash.

See Notes 8, 10 and 11 to our consolidated financial statements in Item 1 of this Report for more information regarding our debt, derivatives and equity, respectively.

Development

- 1132 Bishop Street, Honolulu, Hawaii - "The Residences at Bishop Place"

In downtown Honolulu, we are converting a 25-story, 493 thousand square foot office tower into 493 rental apartments. This project is helping to address the severe shortage of significant portion of the Class A office space. As of September 30, 2023 March 31, 2024, we had delivered eighty-six-percent 91% of the planned units and leased ninety-nine tenants. Those tenants will continue in phases through 2025 as the remaining office space is vacated, therefore, the expected timing of the remaining spending is uncertain. those floors are vacated.

Repositionings

We often strategically purchase properties with large vacancies or expected near-term lease roll-over and use our knowledge of the property and submarket to reposition the property in our portfolio. The work we undertake to reposition a building typically takes months or even years, and could involve a range of improvements from a complete structural renovation that may display depressed rental revenue and occupancy levels that impact our results and, therefore, comparisons of our performance from period to period.

Property to be Removed from Service

During the second quarter of 2023, we filed paperwork to remove removed our Barrington Plaza Apartments property in Los Angeles from the rental market because of city direction. That property is expected to take a number of years at a cost of several hundred million dollars. We are currently in litigation with the insurance providers in 2020 for Barrington Plaza 2024, a significant majority of the tenants have vacated. Tenants occupying 170 units have the right to remain until May 2024, vacated, and we expect them the remainder to move out to be impacted by legal or regulatory actions. During any period when the property is unoccupied, we will not generate any revenue from it. In connection with the removal of the property, we recorded a depreciation expense of \$27.4 million for the three months ended September 30, 2023 and \$54.8 million for the nine months ended September 30, 2023, which is included in Depreciation.

Rental Rate Trends - Total Portfolio

Office Rental Rates

The table below presents the average annual rental rate per leased square foot and the annualized lease transaction costs per leased square foot for leases executed in our total portfolio.

	Nine Months Ended September 30, 2023	Year Ended December 31,			
		2022	2021	2020	2019
Average straight-line rental rate ⁽¹⁾⁽²⁾⁽⁴⁾	\$43.24	\$46.78	\$44.99	\$45.26	\$49.65
Annualized lease transaction costs ⁽³⁾⁽⁴⁾	\$5.44	\$5.85	\$4.77	\$5.11	\$6.02

	Three Months Ended March 31, 2024	Year Ended December 31,			
		2023	2022	2021	2020
Average straight-line rental rate ⁽¹⁾⁽²⁾⁽⁴⁾⁽⁵⁾	\$58.80	\$42.97	\$46.78	\$44.99	\$45.26
Annualized lease transaction costs ⁽³⁾⁽⁴⁾⁽⁵⁾	\$6.11	\$5.53	\$5.85	\$4.77	\$5.11

- (1) These average rental rates are not directly comparable from year to year because the averages are significantly affected from period to period by factors such as the build up and down of the portfolio and the impact of the annual escalations over the entire term of the lease.
- (2) Reflects the weighted average straight-line Annualized Rent.
- (3) Reflects the weighted average leasing commissions and tenant improvement allowances divided by the weighted average number of years for the leases. Excludes leases since relocated from space at the landlord's request, request, and non-comparable leases, such as retail leases.
- (4) Our office rental rates were adversely impacted by the COVID-19 pandemic during 2020, 2021 and 2022, although the lower rental rates for the respective periods were partly offset by the increase in the number of leases.
- (5) Our office rental rates and lease transaction costs were impacted by a large tenant lease renewal during the three months ended March 31, 2024.

Office Rent Roll

The table below presents the rent roll for new and renewed leases per leased square foot executed in our total office portfolio:

Rent Roll ⁽¹⁾⁽²⁾	Nine Months Ended September 30, 2023		
	Expiring Rate ⁽²⁾	New/Renewal Rate ⁽²⁾	Percentage Change
Cash Rent	\$45.59	\$41.95	(8.0)%
Straight-line Rent	\$41.43	\$43.24	4.4%

Rent Roll ⁽¹⁾⁽²⁾⁽³⁾	Three Months Ended March 31, 2024		
	Expiring Rate ⁽²⁾	New/Renewal Rate ⁽²⁾	Percentage Change
Cash Rent	\$54.60	\$55.66	1.9%
Straight-line Rent	\$47.48	\$58.80	23.8%

- (1) Represents the average annual initial stabilized cash and straight-line rents per square foot on new and renewed leases signed during the period compared to the prior period where the prior lease was terminated more than a year before signing of the new lease, leases for tenants relocated at the landlord's request, leases in acquired buildings and leases where the base rent reflects other off-market inducements to the tenant, and other non-comparable leases.
- (2) Our office rent roll can fluctuate from period to period as a result of changes in our submarkets, buildings and term of the expiring leases, making these metrics difficult to interpret.
- (3) Our office cash rent and straight-line rent roll were impacted by a large tenant lease renewal during the three months ended March 31, 2024.

Multifamily Rental Rates

The table below presents the average annual rental rate per leased unit for new tenants:

	Nine Months Ended		Year Ended December 31,		
	September 30, 2023	2022	2021	2020	2019
Average annual rental rate - new tenants ⁽¹⁾⁽²⁾	\$36,200	\$31,763	\$29,837	\$28,416	\$28,350

	Three Months Ended		Year Ended December 31,		
	March 31, 2024	2023	2022	2021	2020
Average annual rental rate - new tenants ⁽¹⁾⁽²⁾	\$39,268	\$36,070	\$31,763	\$29,837	\$28,416

- (1) These average rental rates are not directly comparable from year to year because of changes in the properties and units included. For example:
 - (i) During 2020, the average was impacted by the addition of a significant number of units at our Bishop Place development in Honolulu, where the rental rates were higher than the average.
 - (ii) During 2022, the average was impacted by the acquisition of 1221 Ocean Avenue, where the rental rates were higher than the average in our portfolio.
 - (iii) During the nine months ended September 30, 2023, the average was impacted by leasing of units at our newly developed West Los Angeles property, where the rental rates were higher than the average in the third quarter of 2023.
 - (iv) During the first quarter of 2024, the average was impacted by leasing of units at our newly developed West Los Angeles property, where the rental rates were higher than the average in the first quarter of 2024.
- (2) Our multifamily rental rates were adversely impacted by the COVID-19 pandemic in 2020 but improved in 2021 and 2022.

Multifamily Rent Roll

The rent on leases subject to rent change during the nine months ended September 30, 2023 March 31, 2024 (new tenants and existing tenants undergoing annual rent reviews) was adjusted for rent concessions.

- (1) Occupancy rates include the impact of property acquisitions, most of whose occupancy rates at the time of acquisition were below that of our existing portfolio.
- (2) Our office occupancy rates were adversely impacted by the COVID-19 pandemic during 2020, 2021 and 2022.
- (3) Our Occupancy Rates may not be directly comparable from year to year, as they can be impacted by acquisitions, dispositions, development and redevelopment projects. Excludes units vacated market until June of 2023 and excludes the impact of Barrington Plaza entirely starting in July 2023.
- (4) Average occupancy rates are calculated by averaging the occupancy rates at the end of each of the quarters in the period and at the end of the quarter immediately prior to the start of the period.
- (5) Our multifamily occupancy rates were adversely impacted by the COVID-19 pandemic during 2020 but recovered during 2021 and 2022.

Non-GAAP Supplemental Financial Measure: FFO

Usefulness to Investors

We report FFO because it is a widely reported measure of the performance of equity REITs, and is also used by some investors to identify the impact of trends in occupancy the value of our real estate, and to compare our performance with other REITs. FFO is a non-GAAP financial measure for which we believe that net income (loss) is the most performance because it excludes depreciation and amortization of real estate, and captures neither the changes in the value of our properties that result from use or market correction necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. FFO should be used as a measure of our liquidity or cash flow, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. Other REITs may not be comparable to the FFO of other REITs. See "Results of Operations" above for a discussion of the items that impacted our net income (loss). income.

FFO Reconciliation to GAAP

The table below reconciles our FFO (the FFO attributable to our common stockholders and noncontrolling interests in our Operating Partnership - which includes our share of common stockholders (the most directly comparable GAAP measure): Our FFO was adversely impacted by the effects of inflation and higher interest rates during the three months ended September 30, 2023.

Comparison of three months ended September 30, 2023 March 31, 2024 to three months ended September 30, 2022 March 31, 2023

For the three months ended September 30, 2023 March 31, 2024, FFO decreased by \$15.8 million, or 15.0%, to \$89.4 million, compared to \$105.2 million. The decrease was primarily due to higher interest expense, lower office occupancy and tenant recoveries, and the removal of our Barrington Plaza property from service during the second quarter. The decrease in interest income, and an increase in NOI from our office portfolio. The increase in interest expense was primarily due to higher interest rates on our floating rate debt, higher NOI lower property taxes, new units from our multifamily portfolio was primarily due to a decrease in revenues from units removed from service at our Barrington Plaza property due to higher interest rates development projects and higher cash and cash equivalents balances. The increase in NOI from our office portfolio was primarily due to higher parking

Comparison of nine months ended September 30, 2023 to nine months ended September 30, 2022

For the nine months ended September 30, 2023, FFO decreased by \$29.7 million, or 9.5%, to \$284.4 million, compared to \$314.1 million for the nine months ended September 30, 2022. The decrease in FFO was primarily due to a decrease in NOI from our office portfolio, partly offset by higher interest income and an increase in NOI from our multifamily portfolio. The reasons for the higher interest expense are the same as the three months ended September 30, 2023. The decrease in NOI from our office portfolio is due to: (i) lower occupancy, (ii) lower collections, (iii) lower accretion from below-market leases, (iv) our office to residential conversion project at Bishop Place, and (v) higher rental expense. The increase in NOI from our multifamily portfolio was primarily due to: (i) new units from our development projects, (ii) our acquisition of the 1221 Ocean Avenue property in San Francisco, and (iii) an increase in interest income from our multifamily portfolio.

Non-GAAP Supplemental Financial Measure: Same Property NOI

Usefulness to Investors

We report Same Property NOI to facilitate a comparison of our operations between reported periods. Many investors use Same Property NOI to evaluate our operating performance. The impact of investing transactions on operating trends. Same Property NOI is a non-GAAP financial measure for which we believe that net income (loss) is the most directly recognized measure of the performance of equity REITs, and is used by some investors to identify trends in occupancy rates, rental rates and operating costs and to compare our performance to that of other REITs. Same Property NOI is a supplemental measure of our performance because it excludes depreciation and amortization expense, and captures neither the changes in the value of our properties that result from use nor the commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. Our Same Property NOI may not be comparable to the Same Property NOI of other REITs. Same Property NOI should be considered only as a supplement to net income (loss) as a measure of our performance because it is indicative of funds available to fund our cash needs, including our ability to pay dividends.

Liquidity and Capital Resources

Short-term liquidity

Our short-term liquidity needs consist primarily of funds necessary for our operating activities, development, repositioning projects, dividends, distributions and discretionary spending. We generated cash from operations of \$332.2 million \$139.0 million. As of September 30, 2023 March 31, 2024, we had \$526.2 \$556.7 million of cash and cash equivalents. See the consolidated financial statements in Item 1 of this Report for more information regarding our debt. Excluding acquisitions and debt refinancings, we expect to meet our short-term liquidity requirements through our operating cash flows.

Long-term liquidity

Our long-term liquidity needs consist primarily of funds necessary to pay for acquisitions, development and debt refinancings. We do not expect to have sufficient funds on hand to meet these needs. We plan to meet our long-term liquidity needs through long-term secured non-recourse debt, the issuance of equity securities and other transactions.

We only use non-recourse debt secured by our properties. As of the date of this report, approximately 45% of our total office portfolio was unencumbered. To mitigate the impact of interest rate increases, we have entered into interest rate swap agreements with respect to our loans with floating interest rates. These swap agreements generally expire two years before the maturity date of the related loans. We have also entered into interest rate cap agreements from time to time to cap the interest rates on our floating rate loans. See Notes 8 and 10 to our consolidated financial statements in Item 1 of this Report and Note 3 "Quantitative and Qualitative Disclosures about Market Risk" of this Report regarding the impact of interest rate increases on our future operating results and cash flows.

Certain Contractual Obligations

See the following notes to our consolidated financial statements in Item 1 of this Report for information regarding our contractual commitments:

- Note 4 - minimum future ground lease payments;
- Note 8 - minimum future principal payments for our secured notes payable, and the interest rates that determine our future periodic interest payments; and
- Note 16 - contractual commitments, [commitments and guarantees](#).

Off-Balance Sheet Arrangements

Unconsolidated Fund Debt

Our Fund, Partnership X, has its own secured non-recourse debt and interest rate swaps. We have made certain environmental and other limited indemnities and guarantees in connection with these agreements. Partnership X has agreed to indemnify us for any amounts that we would be required to pay under these agreements. As of September 30, 2023, these agreements have been performed in accordance with the terms of those agreements. See "Guarantees" in Note 16 to our consolidated financial statements in Item 1 of this Report for more information.

Cash Flows

Comparison of nine months ended September 30, 2023 March 31, 2024 to nine months ended September 30, 2022 March 31, 2023

Our operating cash flows were adversely impacted by the effects of inflation and higher interest rates during the nine months ended September 30, 2023 March 31, 2024 compared to the nine months ended September 30, 2022 March 31, 2023.

Net cash used in financing activities ⁽³⁾	\$ (42,981)	\$ (60,929)	\$ 17,948	29.5 %

(1) Our cash flows from operating activities are primarily dependent upon the occupancy and rental rates of our portfolio, the collectibility of tenant receivables, the level of cash in cash from operating activities of **\$49.5 million** **\$6.5 million** was primarily due to: (i) to higher interest expense, (ii) cash used to fund working capital, lower office occupancy during the second quarter of 2023. The decrease in NOI from our office portfolio, was partly offset by higher interest income, and an increase in NOI lower property taxes, net.

(2) Our cash flows from investing activities is generally used to fund property acquisitions, developments and redevelopment projects, and Recurring and non-Recurring **\$11.0 million** was primarily due to: (i) \$330.5 million for a property acquisition during the nine months ended September 30, 2022, and (ii) a decrease in capital expenditures for improvements to real estate and an acquisition of \$33.3 million. an additional interest in our unconsolidated fund, Partnership X, partly offset by a decrease in cash from the sale of real estate.

(3) Our cash flows from financing activities are generally impacted by our borrowings and capital activities, as well as dividends and distributions paid to common stockholders. **\$45.1 million** **\$17.9 million** was primarily due to: (i) an increase in net borrowings to the repurchase of \$175.0 million, (ii) common stock during the first quarter of 2023 distributions paid to noncontrolling interests of \$14.9 million, partly offset by cash paid to repurchase common stock of \$109.2 million and a decrease in contributions from

Critical Accounting Policies and Estimates

We have not made any changes to our critical accounting policies disclosed in our **2022** **2023** Annual Report on Form 10-K. Our discussion and analysis of our financial condition and results of operations are based on our **2022** **2023** Annual Report on Form 10-K, which has been prepared in accordance with US GAAP, and which requires us to make estimates of certain items, which affect the reported amounts of our assets, liabilities, revenues and expenses and judgments at the time that they are made, some of our estimates could prove to be incorrect, and those differences could be material. Some of our estimates are subject to audit results when available.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Fixed-Rate Borrowings and Hedged Borrowings

As of **September 30, 2023** **March 31, 2024**, the interest rates for 69% of our consolidated borrowings were fixed or swap-fixed with interest rate swaps, and 15% were capped. our capped-rate borrowings could increase by **\$14.5 million** per year. Higher interest rates would cause an increase in our future interest expense on our capped-rate debt, which swap agreements generally expire two years before the maturity date of the related loan, during which time we can refinance the loan without any interest penalty. After the interest rates the extent they are higher than our swap-fixed rates when our interest rate swaps expire, would cause our future interest expense on our debt to increase, which would reduce financial statements in Item 1 of this Report for more information regarding our debt and our future interest rate swap expirations.

Our use of interest rate swaps and caps also exposes us to credit risk from the potential inability of our counterparties to perform under the terms of those agreements. We have investment grade ratings. As See Note 10 to our consolidated financial statements in Item 1 of September 30, 2023, the maximum amount the this Report for more information regarding our debt and caps per year. Higher interest rates would cause an increase in our future interest expense on our capped-rate debt, which would reduce our future net income, cash flows from operati

Unhedged Floating-Rate Borrowings

As of **September 30, 2023** **March 31, 2024**, the interest rates for 16% of our consolidated borrowings were floating. As of **September 30, 2023** **March 31, 2024**, the interest expense per million per year for every one hundred basis point increase in the related benchmark interest rate. Higher interest rates would cause an increase in our future interest expense on our debt and FFO.

See Note 8 to our consolidated financial statements in Item 1 of this Report for our more information regarding our debt and our future swap and cap expirations. See Note 10 regarding our swaps and caps.

Market Transition to SOFR from LIBOR

During the third quarter of 2023, we converted all of our LIBOR loans and swaps to SOFR. The LIBOR loans converted to SOFR include a small SOFR adjustment (an increase did not change the swap-fixed interest rates for our swap-fixed loans. See Notes 8 and 10 to our consolidated financial statements in Item 1 of this Report for more information regarding the market transition to SOFR from LIBOR.

Item 4. Controls and Procedures

As of **September 30, 2023** **March 31, 2024**, the end of the period covered by this Report, we carried out an evaluation, under the supervision and with the participation of management and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on the foregoing, our CEO and CFO concluded, as of that time, that our disclosure by us in reports filed or submitted under the Exchange Act (i) is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms and as appropriate, to allow for timely decisions regarding required disclosure. There have not been any changes in our internal control over financial reporting that occurred during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of our business. Excluding ordinary routine litigation, we believe would reasonably be expected to have a materially adverse effect on our business, financial condition or results of operations. See "Legal Proceedings" in Note 16 to our consolidated financial statements in Item 1 of this Report for more information.

Item 1A. Risk Factors

We are not aware of any material changes to the risk factors disclosed in Part I, "Item 1A. Risk Factors" in our **2022** **2023** Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
