Disclaimer

This presentation is for information purposes only. Certain information contained herein has been derived from sources prepared by third parties. While such information is believed to be reliable for the purposes used herein, we makes no representation or warrant with respect to the accuracy of such information. Trademarks and trade names referred to in this presentation are the property of their respective owners. We do not intend our use or display of other companies' trademarks or trade names to imply a relationship with, or endorsement or sponsorship of us by, any other companies.

This presentation contains forward-looking statements. All statements other than statements of historical facts contained in this presentation, including statements regarding the completion of business combination, the future results of operations, business strategy, timing, capabilities, and likelihood of success of combined company, and plans and objectives of its potential management for future operations, are forward-looking statements. Forward-looking statements also include statements regarding the expected benefits of the proposed business combination. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified and some of which are beyond our control, you should not rely on these forward-looking statements as predictions of future events. The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Moreover, we operate in an evolving environment. New risk factors and uncertainties may emerge from time-to-time, and it is not possible for management to predict all risk factors and uncertainties. Except as required by applicable law, neither company plans to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise. Other important assumptions and factors that could cause actual results to differ materially from forward-looking statements, including discussions of significant risk factors, may appear in Peraso's public filings with the SEC, which are accessible at www.sec.gov, and which you are advised to consult.

This presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities, nor shall there be any sale of securities in any states or jurisdictions in which such offer, solicitation or sale would be unlawful.

Business update

Second Quarter 2025

Ticker: [PRSO](#) (NASDAQ)

Headquarters: San Jose, CA

Founded: 2008

Patents: ~110 (as of June 30, 2025)

Fixed Wireless Access - Highlights

“DUNE” Platform

- Designed for Dense Urban Network Environments (DUNE)
- Integrated HW/SW solution utilizing mmWave modules
- Fundamental technology advantages:
 - DUNE access protocol, beamforming, multi-gigabit, low latency

Peraso-enabled deployments

Los Angeles (WeLink)

South Africa

Kenya

Business Highlights

- July '25 – Peraso PRM2141X module selected by Tachyon Networks for latest outdoor 60 GHz fixed wireless solution
 - Next-generation connectivity in a compact form factor
 - Fiber-class speeds and robust performance at competitive price point

Tactical Communications - Highlights

- Traditional wireless communication susceptible to enemy detection
- Peraso mmWave technology is an inherently stealthy protocol
 - Narrow beam, dynamic beam steering, oxygen attenuation
 - Low Probability Detection, Low Probability Interception, Anti-jamming
- 60GHz unlicensed band ensures no interference with licensed spectrum
- Numerous mission critical military applications
 - **Infrastructure:** Forward Operating Base (FoB), Command Post, Surveillance
 - **Transportation:** Vehicle-to-Vehicle/Personnel, Air-to-Air/Ground, Ship-to-Ship/Shore

Recent Highlights

- June '25 – commenced initial production shipments of advanced 60 GHz wireless solutions in support of tactical communications applications

Adjacent End Market Opportunities

Professional Video Delivery

- Engaged with consumer and enterprise customers for advanced applications
- Benefits: high data rate (3 Gbps), low latency (<5 ms), low interference
- mmWave overcomes inherent limitations of traditional wireless solutions
 - Low latency enables real-time user interaction with video for gaming, classroom and healthcare

Business Highlights

- June '25 – Secured first production order for 60 GHz wireless solution for customer's video systems utilized in the education market
