Fair Value MeasurementsThe Company records its financial assets and liabilities in accordance with the framework for measuring fair value in accordance with GAAP. This framework establishes a fair value hierarchy that prioritizes the inputs used to measure fair value:Level 1: Quoted prices for identical instruments in active markets.Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.Fair value measurements of nonfinancial assets and nonfinancial liabilities are primarily used in the impairment analysis of goodwill, intangible assets and long-lived assets. The Company did not have any financial liabilities measured at fair value on a recurring basis as of September 29, 2024. The following table presents the fair value hierarchy for the Company's financial liabilities measured at fair value on a recurring basis as of December 31, 2023:December 31, 2023Level 1Level 2Level 3TotalLong-term debt\$125,000\$ 0\$ 0\$ 125,000Total financial liabilities\$125,000\$ 0\$ 0\$ 125,000The determination of fair values of certain tangible and intangible assets for purposes of the Company's goodwill or long-lived asset impairment evaluation is based upon Level 3 inputs. When necessary, the Company uses third party market data and market participant assumptions to derive the fair value of its asset groupings, which primarily include right-of-use lease assets and property and equipment.Cash, cash equivalents, restricted cash, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued liabilities, and accrued salaries and benefits approximate fair value

because of the short maturity of those instruments. Based on comparable open market transactions, the fair value of the long-term debt approximated carrying value as of December 31, 2023.10Table of ContentsSPROUTS FARMERS MARKET, INC. The increase in the effective tax rate was primarily due to an increase in non-deductible executive compensation, an unfavorable current year return-to-provision true-up compared to the favorable prior year period true-up, and the increase in pre-tax income outpacing the increase to the benefit from enhanced inventory donations deductions. The income tax effect resulting from excess tax benefits of share-based payment awards was \$1.7A million and \$1.1A million for the thirteen weeks ended September 29, 2024 and October 1, 2023, respectively.The Companyâ€™s effective tax rate increased to 24.5% for the thirty-nine weeks ended September 29, 2024, compared to 24.0% for the thirty-nine weeks ended October 1, 2023. The income tax effect resulting from excess tax benefits of share-based payment awards was \$6.8A million and \$4.2A million for the thirty-nine weeks ended September 29, 2024 and October 1, 2023, respectively.The Company files income tax returns for federal purposes and in many states. Business Overview Sprouts Farmers Market offers a unique specialty grocery experience featuring an open layout with fresh produce at the heart of the store. Sprouts inspires wellness naturally with a carefully curated assortment of better-for-you products paired with purpose-driven people. We continue to bring the latest in wholesome, innovative products made with lifestyle-friendly ingredients such as organic, plant-based and gluten-free. From our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. Headquartered in Phoenix with 428 stores in 23 states as of September 29, 2024, we are one of the largest and fastest growing specialty retailers of fresh, natural and organic food in the United States. Our Growth Strategy We continue to execute on our long-term growth strategy that we believe is transforming our company and driving profitable growth, focusing on the following areas: Win with Target Customers. We are focusing attention on our target customers, identified through research as "health enthusiasts" and "selective shoppers", where there is ample opportunity to gain share within these customer segments. We believe our business can continue to grow by leveraging existing strengths in a unique assortment of better-for-you, quality products and by providing a full omnichannel offering through delivery or pickup via our website or the Sprouts app. Update Format and Expand in Select Markets. We are delivering unique smaller stores with expectations of stronger returns, while maintaining the approachable, fresh-focused farmer's market heritage Sprouts is known for. From 2021 through September 29, 2024, we opened 63 new stores and remodeled one store featuring our new format. Our geographic store expansion and new store placement will intersect where our target customers live, in markets with growth potential and supply chain support, which we believe will provide a long runway of approximately 10% annual unit growth. Create an Advantaged Fresh Supply Chain. We believe our network of fresh distribution centers can drive efficiencies across the chain and support our growth plans. To further deliver on our fresh commitment and reputation, as well as to increase our local offerings and improve financial results, we aspire to ultimately position fresh distribution centers within a 250-mile radius of stores. Following the opening of two fresh distribution centers in fiscal 2021 and the relocation of our Southern California distribution center, closure of our Georgia distribution center and partnership with a third-party fresh distribution center in the Northeast in fiscal 2023, we are better leveraging our existing distribution center capacity, and approximately 80% of our stores were within 250 miles of a distribution center as of September 29, 2024. Refine Brand and Marketing Approach. We believe we are elevating our national brand recognition and positioning by telling our unique brand story rooted in product innovation and differentiation. We are increasing our use of data analytics and insights. We believe this data-driven intelligence will increase customer engagement through personalization efforts with digital and social connections to drive additional sales growth and loyalty. Inspire and Engage Our Talent to Create a Best Place to Work. Subsequent to the initial launch of our long-term growth strategy, we have added the focus area of inspiring and engaging our talent through our culture, acquisition and development and total rewards program to attract and retain the talent we believe we need to execute on our strategic goals and transform our company into a premier place to work. 20 Table of Contents Deliver on Financial Targets and Box Economics. ROIC is a non-GAAP financial measure and should not be reviewed in isolation or considered as a substitute for our financial results as reported in accordance with GAAP. ROIC is an important measure used by management to evaluate our investment returns on capital and provides a meaningful measure of the effectiveness of our capital allocation over time. We define ROIC as net operating profit after tax (referred to as [â€œNOPATâ€](#)), including the effect of capitalized operating leases, divided by average invested capital. Operating lease interest represents the add-back to operating income driven by the hypothetical interest expense we would incur if the property under our operating leases were owned or accounted for as a finance lease. The assumed ownership and associated interest expense are calculated using the discount rate for each lease as recorded as a component of rent expense within selling, general and administrative expenses. Invested capital reflects a trailing four-quarter average. As numerous methods exist for calculating ROIC, our method may differ from methods used by other companies to calculate their ROIC. It is important to understand the methods and the differences in those methods used by other companies to calculate their ROIC before comparing our ROIC to that of other companies. 28Table of ContentsOur calculation of ROIC for the fiscal periods indicated was as follows:Rolling Four Quarters Ended September 29, 2024October 1, 2023(dollars in thousands) Net income (1)\$351,048Â \$253,928Â Special items, net of tax (2), (3)â€”Â \$34,272Â Interest expense, net of tax (3)39Â 5,637Â Net operating profit after tax (NOPAT)\$351,087Â \$293,837Â Total rent expense, net of tax (3)188,585Â 168,150Â Estimated depreciation on operating leases, net of tax (3)(103,803)(94,696)Estimated interest on operating leases, net of tax (3), (4)84,782Â 73,454Â NOPAT, including effect of operating leases\$435,869Â \$367,291Â Average working capital192,891Â 251,985Â Average property and equipment813,743Â 728,689Â Average other assets602,865Â 589,132Â Average other liabilities(98,692)(97,620)Average invested capital\$1,510,807Â \$1,472,186Â Average operating leases (51),567,876Â 1,368,562Â Average invested capital, including operating leases\$3,078,683Â \$2,840,748Â ROIC, including operating leases14.2Â %12.9Â % (1)Net income amounts represent total net income for the past four trailing quarters.(2)Special items related to store closure, supply chain transition and acquisition related charges net of tax. Our primary uses of cash are for purchases of inventory, operating expenses, capital expenditures primarily for opening new stores, remodels and maintenance, repurchases of our common stock and debt service. Our principal contractual obligations and commitments consist of obligations under our Credit Agreement, interest on our Credit Agreement, operating and finance leases, purchase commitments and self-insurance liabilities. Our operating and finance leases for the rental of land, buildings, and for rental of facilities and equipment expire or become subject to renewal clauses at various dates through 2048. We believe that our existing cash, cash equivalents and restricted cash, and cash anticipated to be generated from operations will be sufficient to meet our anticipated cash needs for at least the next 12 months. Our future capital requirements will depend on many factors, including new store openings, remodel and maintenance capital expenditures at existing stores, store initiatives and other corporate capital expenditures and activities. Our cash, cash equivalents and restricted cash position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within days from the related sale. Operating ActivitiesCash flows from operating activities increased \$111.4 million to \$520.4 million for the thirty-nine weeks ended SeptemberÂ 29, 2024 compared to \$409.0 million for the thirty-nine weeks ended OctoberÂ 1, 2023. The increase in cash flows from operating activities was primarily a result of higher net income adjusted for non-cash items of \$91.6 million and favorable changes in working capital of \$43.4 million, partially offset by higher payments on our operating lease liabilities of \$18.9 million due to growth. Cash flows provided by operating activities from changes in working capital were \$114.2 million in the thirty-nine weeks ended SeptemberÂ 29, 2024 compared to \$70.8 million in the thirty-nine weeks ended OctoberÂ 1, 2023. This \$43.4 million increase in cash flows from changes in working capital was primarily attributable to a \$20.2 million change in accounts receivable driven by the timing of collections as well as \$17.0 million change in accounts payable and accrued liabilities, primarily due to timing differences of payments for goods and services. Certain other immaterial items combined to result in an additional \$6.2 million net increase in cash flows from changes in working capital.Investing ActivitiesCash flows used in investing activities consist primarily of capital expenditures in new stores, including leasehold improvements and store equipment, capital expenditures to maintain the appearance of our stores, sales enhancing initiatives and other corporate investments as well as cash outlays for acquisitions. Cash flows used in investing activities were \$161.7 million and \$178.0 million, for the thirty-nine weeks ended SeptemberÂ 29, 2024 and thirty-nine weeks ended OctoberÂ 1, 2023, respectively. Cash flows used in investing activities during the thirty-nine weeks ended OctoberÂ 1, 2023 included our acquisition of Ronald Cohn, Inc. See Note 13, "Business Combination" of our unaudited consolidated financial statements. We expect capital expenditures to be in the range of \$205 - 215 million in 2024, including expenditures incurred to date, net of estimated landlord tenant improvement allowances, primarily to fund investments in new stores, remodels, maintenance capital expenditures and corporate capital expenditures. We expect to fund our capital expenditures with cash on hand and cash generated from operating activities.Financing ActivitiesCash flows used in financing activities were \$250.8 million for the thirty-nine weeks ended SeptemberÂ 29, 2024 compared to \$272.3 million for the thirty-nine weeks ended OctoberÂ 1, 2023. During the thirty-nine weeks ended SeptemberÂ 29, 2024, cash flows used in financing activities primarily consisted of \$125.0 million in payments on our Credit Agreement and \$129.7 million for stock repurchases, partially offset by \$4.7 million in proceeds from the exercise of stock options.During the thirty-nine weeks ended OctoberÂ 1, 2023, cash flows used in financing activities primarily consisted of \$180.4 million for stock repurchases and \$100.0 million in payments on our Credit Agreement, partially offset by \$8.8 million in proceeds from the exercise of stock options. 30Table of ContentsLong-Term Debt and Credit FacilitiesThe Company had no long-term debt outstanding as of SeptemberÂ 29, 2024. Except as otherwise disclosed in Note 4, [â€œLong-Term Debt and Finance Lease Liabilitiesâ€](#) of our unaudited consolidated financial statements, there have been no material changes outside the normal course of business as of SeptemberÂ 29, 2024 in our contractual obligations and commitments from those reported in our Annual Report on Form 10-K for the fiscal year ended DecemberÂ 31, 2023. 31Table of ContentsImpact of Inflation and DeflationInflation and deflation in the prices of food and other products we sell may periodically affect our sales, gross profit and gross margin. Food inflation, when combined with reduced consumer spending, could also reduce sales, gross profit margins and comparable store sales. Inflationary pressures on compensation, utilities, commodities, equipment and supplies may also impact our profitability. Food deflation or declining levels of inflation across multiple categories, particularly in produce, could reduce sales growth and earnings, particularly if our competitors react by lowering their retail pricing and expanding their promotional activities, which can lead to retail deflation higher than cost deflation that could reduce our sales, gross profit margins and comparable store sales. The short-term impact of inflation and deflation is largely dependent on whether or not the effects are passed through to our customers, which is subject to competitive market conditions.Food inflation and deflation is affected by a variety of factors and our determination of whether to pass on the effects of inflation or deflation to our customers is made in conjunction with our overall pricing and marketing strategies, as well as our competitorsâ€™ responses. Although we may experience periodic effects on sales, gross profit, gross margins and cash flows as a result of changing prices, we do not expect the effect of inflation or deflation to have a material impact on our ability to execute our long-term business strategy. Critical Accounting EstimatesOur discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. These principles require us to make estimates and judgments that affect the reported amounts of assets, liabilities, sales and expenses, cash flow and related disclosure of contingent assets and liabilities. Our critical accounting estimates include inventories, lease assumptions, self-insurance reserves, goodwill and intangible assets, impairment of long-lived assets, and income taxes. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates. To the extent that there are material differences between these estimates and our actual results, our future financial statements will be affected. There have been no substantial changes to these estimates, or the policies related to them during the thirteen and thirty-nine weeks ended SeptemberÂ 29, 2024. For a full discussion of these estimates and policies, see [â€œCritical Accounting Estimatesâ€](#) in Item 7 of our Annual Report on Form 10-K for the fiscal year ended DecemberÂ 31, 2023.Recently Issued Accounting PronouncementsSee Note 2, [â€œSummary of Significant Accounting Policiesâ€](#) of our accompanying unaudited consolidated financial statements contained in this Quarterly Report on Form 10-Q.Item 3. As described in Note 4, [â€œLong-Term Debt and Finance Lease Liabilitiesâ€](#) to our unaudited consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q, our Credit Agreement bears interest at a rate based in part on SOFR. Accordingly, we could be exposed to fluctuations in interest rates. As of SeptemberÂ 29, 2024, we had no outstanding borrowings under our Credit Agreement.Item 4. Based on such evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures were effective.Changes in Internal Control Over Financial ReportingDuring the quarterly period ended SeptemberÂ 29, 2024, there were no changes in our internal controls over financial reporting that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting. 33Table of ContentsPART II - OTHER INFORMATIONItem 1. Legal Proceedings.From time to time we are a party to legal proceedings, including matters involving personnel and employment issues, product liability, personal injury, intellectual property and other proceedings arising in the ordinary course of business, which have not resulted in any material losses to date. Summary of Significant Accounting Policies

Revenue Recognition

The Company’s performance obligations are satisfied upon the transfer of goods to the customer, which occurs at the point of sale, and payment from customers is also due at the time of sale. Proceeds from the sale of gift cards are recorded as a liability at the time of sale and recognized as sales when they are redeemed by the customer and the performance obligation is satisfied by the Company. The Company’s gift cards do not expire. Based on historical redemption rates, a small and relatively stable percentage of gift cards will never be redeemed, referred to as “breakage.” Estimated breakage revenue is recognized over time in proportion to actual gift card redemptions and was not material in any period presented. A summary of the activity and balances in the gift card liability, net is as follows:

	Thirty-nine weeks ended			
	September 29, 2024		October 1, 2023	
Beginning Balance	\$	10,566	\$	10,906

Recently Issued Accounting Pronouncements Not Yet Adopted

Segment Reporting – Improvements to Reportable Segment Disclosures

In November 2023, the FASB issued ASU no. 2023-07, “Segment Reporting (Topic 280) Improvements to Reportable Segment Disclosures.” The amendments in this update increase required disclosures about a public entity’s reportable segments, primarily through enhanced disclosures about significant segment expenses that are regularly provided to the Company’s chief operating decision maker (“CODM”). In addition, ASU 2023-07 will require the Company to disclose the title and position of its CODM. The guidance will be effective beginning with the Company’s Annual Report on Form 10-K for its fiscal year 2024 and for interim periods starting in the first quarter of its fiscal year ending December 28, 2025 (“fiscal year 2025”). Early adoption is permitted, and the guidance is required to be applied retrospectively. The Company expects this update to impact its segment disclosures but does not anticipate that this update will impact its results of operations, cash flows or financial condition.

Income Taxes – Improvements to Income Tax Disclosures

In December 2023, the FASB issued ASU no. 2023-09, “Income Taxes (Topic 740) Improvements to Income Tax Disclosures.” The amendments in this update enhance a public entity’s annual income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The guidance will be effective for the Company for its fiscal year 2025. Early adoption is permitted, and the guidance should be applied prospectively, with an option to apply it retrospectively. The Company expects this update to impact its income tax disclosures but does not anticipate that this update will impact its results of operations, cash flows or financial condition.

No other new accounting pronouncements issued or effective during the thirteen weeks ended September 29, 2024 had, or are expected to have, a material impact on the Company’s consolidated financial statements.

Fair Value
Disclosures
[Abstract]
Fair Value
Measurements

Fair Value Measurements

The Company records its financial assets and liabilities in accordance with the framework for measuring fair value in accordance with GAAP. This framework establishes a fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair value measurements of nonfinancial assets and nonfinancial liabilities are primarily used in the impairment analysis of goodwill, intangible assets and long-lived assets.

The Company did not have any financial liabilities measured at fair value on a recurring basis as of September 29, 2024. The following table presents the fair value hierarchy for the Company's financial liabilities measured at fair value on a recurring basis as of December 31, 2023:

December 31, 2023	Level 1	Level 2	Level 3	Total
Long-term debt	\$ —	\$ 125,000	\$ —	\$ 125,000
Total financial liabilities	\$ —	\$ 125,000	\$ —	\$ 125,000

The determination of fair values of certain tangible and intangible assets for purposes of the Company's goodwill or long-lived asset impairment evaluation is based upon Level 3 inputs. When necessary, the Company uses third party market data and market participant assumptions to derive the fair value of its asset groupings, which primarily include right-of-use lease assets and property and equipment.

Cash, cash equivalents, restricted cash, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued liabilities, and accrued salaries and benefits approximate fair value because of the short maturity of those instruments. Based on comparable open market transactions, the fair value of the long-term debt approximated carrying value as of December 31, 2023.

Long-Term Debt and Finance Lease Liabilities

A summary of long-term debt and finance lease liabilities is as follows:

Facility	Maturity	Interest Rate	As of	
			September 29, 2024	December 31, 2023
Senior secured debt				
\$700.0 million Credit Agreement	March 25, 2027	Variable	\$ —	\$ 125,000
Finance lease liabilities	Various	n/a	7,731	8,685
Long-term debt and finance lease liabilities			7,731	133,685

Credit Agreement

The Company's subsidiary, Sprouts Farmers Markets Holdings, LLC ("Intermediate Holdings"), is the borrower under a credit agreement entered into on March 25, 2022 (the "Credit Agreement"). The Credit Agreement provides for a revolving credit facility (the "Revolving Credit Facility") with an initial aggregate commitment of \$700.0 million. Amounts outstanding under the Credit Agreement may be increased from time to time in accordance with an expansion feature set forth in the Credit Agreement.

The Company capitalized debt issuance costs of \$3.4 million related to the Credit Agreement, which, combined with the remaining \$0.5 million debt issuance costs in respect of that certain amended and restated credit agreement entered into on March 27, 2018, by and among the Company, Intermediate Holdings, certain lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent and collateral agent (the "Former Credit Facility"), which remained outstanding as of the time of Intermediate Holdings' entry into the Credit Agreement, were recorded to prepaid expenses and other current assets and other assets in the consolidated balance sheets and are being amortized on a straight-line basis to interest expense over the five-year term of the Credit Agreement.

The Credit Agreement provides for a \$70.0 million letter of credit sub-facility (the "Letter of Credit Sub-Facility") and a \$50.0 million swingline facility. Letters of credit issued under the Credit Agreement reduce the capacity of Intermediate Holdings to borrow under the Revolving Credit Facility. Letters of credit totaling \$19.6 million have been issued as of September 29, 2024 under the Letter of Credit Sub-Facility, primarily to support the Company's insurance programs.

Guarantees

Obligations under the Credit Agreement are guaranteed by the Company and substantially all of its existing and future wholly-owned material domestic subsidiaries, and are secured by first-priority security interests in substantially all of the assets of the Company, Intermediate Holdings, and the subsidiary guarantors, including, without limitation, a pledge by the Company of its equity interest in Intermediate Holdings.

Interest and Fees

Loans under the Credit Agreement will initially bear interest, at the Company's option, either at the Term SOFR (with a floor of 0.00%) plus a 0.10% SOFR adjustment and 1.00% per annum or base rate (with a floor of 0.00%) plus 0.00% per annum. The interest rate margins are subject to upward adjustments pursuant to a pricing grid based on the Company's total net leverage ratio as set forth in the Credit Agreement and to upward or downward adjustments of up to 0.05% based upon the achievement of certain diversity and sustainability-linked metric thresholds, as set forth in the Credit Agreement.

Under the terms of the Credit Agreement, the Company is obligated to pay a commitment fee on the available unused amount of the commitments, which commitment fee ranges between 0.10% to 0.225% per annum, pursuant to a pricing grid based on the Company's total net leverage ratio. The commitment fees are subject to upward or downward adjustments of up to 0.01% based upon the achievement of certain diversity and sustainability-linked metric thresholds, as set forth in the Credit Agreement.

As of September 29, 2024, loans outstanding under the Credit Agreement bore interest at Term SOFR (as defined in the Credit Agreement) plus a 0.10% SOFR adjustment and 0.95% per annum. The Company had no loans outstanding under the Credit Agreement as of September 29, 2024.

As of September 29, 2024, outstanding letters of credit issued under the Credit Agreement were subject to a participation fee of 0.95% per annum and an issuance fee of 0.125% per annum.

Payments and Borrowings

The Credit Agreement is scheduled to mature, and the commitments thereunder will terminate on March 25, 2027, subject to extensions as set forth therein.

The Company may prepay loans and permanently reduce commitments under the Credit Agreement at any time in agreed-upon minimum principal amounts, without premium or penalty (except SOFR breakage costs, if applicable).

In connection with the execution of the Credit Agreement, the Company's obligations under the Former Credit Facility were prepaid and terminated.

During the thirteen and thirty-nine weeks ended September 29, 2024, the Company made no additional borrowings and made principal payments of \$125.0 million, resulting in no outstanding debt under the Credit Agreement as of September 29, 2024. During 2023, the Company made no additional borrowings and made principal payments of \$125.0 million, resulting in total outstanding debt under the Credit Agreement of \$125.0 million as of December 31, 2023.

Covenants

The Credit Agreement contains financial, affirmative and negative covenants. The negative covenants include, among other things, limitations on the Company's ability to:

- incur additional indebtedness;
- grant additional liens;
- enter into sale-leaseback transactions;
- make loans or investments;
- merge, consolidate or enter into acquisitions;
- pay dividends or distributions;
- enter into transactions with affiliates;
- enter into new lines of business;
- modify the terms of certain debt or other material agreements; and
- change its fiscal year.

Each of these covenants is subject to customary and other agreed-upon exceptions.

In addition, the Credit Agreement requires that the Company and its subsidiaries maintain a maximum total net leverage ratio not to exceed 3.75 to 1.00, which ratio may be increased from time to time in connection with certain permitted acquisitions pursuant to conditions as set forth in the Credit Agreement, and a minimum interest coverage ratio not to be less than 3.00 to 1.00. Each of these covenants is tested as of the last day of each fiscal quarter.

The Company was in compliance with all applicable covenants under the Credit Agreement as of September 29, 2024.

Income Taxes

Income Tax Disclosure [Abstract]

Income Taxes

Income Taxes

The Company's effective tax rate increased to 25.8% for the thirteen weeks ended September 29, 2024, compared to 24.0% for the thirteen weeks ended October 1, 2023. The increase in the effective tax rate was primarily due to an increase in non-deductible executive compensation, an unfavorable current year return-to-provision true-up compared to the favorable prior year period true-up, and the increase in pre-tax income outpacing the increase to the benefit from enhanced inventory donations deductions. The income tax effect resulting from excess tax benefits of share-based payment awards was \$1.7 million and \$1.1 million for the thirteen weeks ended September 29, 2024 and October 1, 2023, respectively.

The Company's effective tax rate increased to 24.5% for the thirty-nine weeks ended September 29, 2024, compared to 24.0% for the thirty-nine weeks ended October 1, 2023. The increase in the effective tax rate was primarily due to an unfavorable current year return-to-provision true-up compared to the favorable prior year period true-up, a prior period refund of interest from amended returns, and the increase in pre-tax income outpacing the increase to the benefit from enhanced inventory donations deductions, partially offset by an increase in excess tax benefits associated with share-based payment awards. The income tax effect resulting from excess tax benefits of share-based payment awards was \$6.8 million and \$4.2 million for the thirty-nine weeks ended September 29, 2024 and October 1, 2023, respectively.

The Company files income tax returns for federal purposes and in many states. The Company's tax filings remain subject to examination by applicable tax authorities for a certain length of time, generally three years, following the tax year to which those filings relate.

Share Repurchases

On May 22, 2024, the Company's board of directors authorized a new \$600 million share repurchase program for its common stock. This authorization replaced the Company's then-existing share repurchase authorization of \$600 million that was due to expire on December 31, 2024, of which \$119.3 million remained available upon its replacement, and under which no further shares may be repurchased. The following table outlines the common stock share repurchase programs authorized by the Company’s board of directors and the related repurchase activity and available authorization as of September 29, 2024:

Effective date	Expiration date	Amount authorized		Cost of repurchases		Authorization available	
March 2, 2022	December 31, 2024	\$	600,000	\$	480,715	\$	—
May 22, 2024	May 22, 2027	\$	600,000	\$	40,602	\$	559,398

The shares under the Company’s repurchase programs may be purchased on a discretionary basis from time to time through the applicable expiration date, subject to general business and market conditions and other investment opportunities, through open market purchases, privately negotiated transactions, or other means, including through Rule 10b5-1 trading plans. The board’s authorization of the share repurchase programs does not obligate the Company to acquire any particular amount of common stock, and the repurchase programs may be commenced, suspended, or discontinued at any time.

Share repurchase activity under the Company’s repurchase programs for the periods indicated was as follows (total cost in thousands):

	Thirteen weeks ended		Thirty-nine weeks ended	
	September 29, 2024	October 1, 2023	September 29, 2024	October 1, 2023

Average price per common share acquired	\$ 96.60	\$ 38.89	\$ 70.22	\$ 34.28
Total cost of common shares acquired	\$ 25,516	\$ 32,333	\$ 130,708	\$ 181,974

Shares purchased under the Company’s repurchase programs were subsequently retired and the excess of the repurchase price over par value was charged to retained earnings. The cost of common shares repurchased included the 1% excise tax imposed as part of the Inflation Reduction Act of 2022.

Subsequent to September 29, 2024 and through the date of this filing, the Company repurchased an additional 0.1 million shares of common stock for \$5.6 million, excluding excise tax.

[Net Income Per Share](#)

Net Income Per Share

The computation of basic net income per share is based on the number of weighted average shares outstanding during the period. The computation of diluted net income per share includes the dilutive effect of share equivalents consisting of incremental shares deemed outstanding from the assumed exercise of options and unvested restricted stock units (“RSUs”). Performance share awards (“PSAs”) are included in the computation of diluted net income per share only to the extent that the underlying performance conditions are satisfied prior to the end of the reporting period or would be satisfied if the end of the reporting period were the end of the related performance period, and if the effect would be dilutive.

A reconciliation of the numerators and denominators of the basic and diluted net income per share calculations is as follows (in thousands, except per share amounts):

For the thirteen weeks ended September 29, 2024, the Company had 0.4 million PSAs outstanding which were excluded from the computation of diluted net income per share as those awards would have been antidilutive or were performance awards with performance conditions not yet deemed met. For the thirteen weeks ended October 1, 2023, the Company had 0.2 million options and 0.5 million PSAs outstanding which were excluded from the computation of diluted net income per share as those awards would have been antidilutive or were performance awards with performance conditions not yet deemed met.

In March 2022, the Company's board of directors adopted the Sprouts Farmers Market, Inc. 2022 Omnibus Incentive Compensation Plan (the "2022 Incentive Plan"), which became effective May 25, 2022, upon approval by the Company's stockholders. The 2022 Incentive Plan provides team members of the Company certain consultants and advisors who perform services for the Company, and non-employee members of the Company's board of directors with the opportunity to receive grants of equity awards, including stock options, RSUs, PSAs, and other stock-based awards. The 2022 Incentive Plan replaced the 2013 Incentive Plan (as described below).

Awards Granted under the 2022 Incentive Plan:

During the thirty-nine weeks ended September 29, 2024, the Company granted the following share-based compensation awards under the 2022 Incentive Plan:

Grant Date	Type of Award	Number of Awards	Exercise Price (\$)	Fair Value at Grant Date (\$)
March 19, 2024	Stock Options	100,000	\$5.73	\$5.73
March 19, 2024	RSUs	100,000	N/A	N/A
March 19, 2024	PSAs	100,000	N/A	N/A

Table 1

Year	Number of Shares	Weighted Average Grant Date Fair Value
2013 Incentive Plan	1,071,109	\$6.659
2022 Incentive Plan	5,585,223	\$6.314

The aggregate number of shares of common stock that may be issued to team members and directors under the 2022 Incentive Plan may not exceed 6,600,000, subject to the following adjustments. If any awards granted under the 2022 Incentive Plan terminate, expire, or are cancelled, forfeited, exchanged, or surrendered without having been exercised, vested or paid in shares, the shares will again be available for purposes of the 2022 Incentive Plan. The number of shares subject to outstanding awards under the Sprouts Farmers Market, Inc. 2013 Incentive Plan (the "2013 Incentive Plan") that terminate, expire, are paid in cash, or are cancelled, forfeited, exchanged, or surrendered without having been exercised, vested, or paid in shares under the 2013 Incentive Plan after the effective date of the 2022 Incentive Plan will be available for issuance under the 2022 Incentive Plan. As of September 29, 2024, there were 1,071,109 stock awards outstanding and 5,585,223 shares remaining available for issuance under the 2022 Incentive Plan.

Table 2

Year	Number of Shares	Weighted Average Exercise Price
2013 Incentive Plan	1,071,109	\$6.659
2022 Incentive Plan	5,585,223	\$6.314

Prior to the adoption of the 2022 Incentive Plan, the 2013 Incentive Plan served as the umbrella plan for the Company's share-based and cash-based incentive compensation programs for its directors, officers and other team members. Upon stockholder approval of the 2022 Incentive Plan on May 25, 2022, no further awards will be granted under the 2013 Incentive Plan, but awards outstanding under the 2013 Incentive Plan will remain outstanding in accordance with their terms and the terms of the 2013 Incentive Plan.

Options

The Company uses the Black-Scholes option pricing model to estimate the fair value of options at grant date. Options vest in accordance with the terms set forth in the grant letter.

Time-based options vest annually over a period of three years. RSUs generally vest annually over a period of two or three years from the grant date.

Performance-based options are subject to performance targets. If performance conditions are met, the applicable number of performance shares will vest on the third anniversary of the grant date.

Share-based Compensation Expense

The amount recognized was as follows:

Year	Expense
2023	\$1.0 million
2022	\$1.2 million
2021	\$1.1 million
2020	\$1.0 million

These stores, on average, were approximately 30% larger than the Company's current prototype format and were underperforming financially. The closure of these stores resulted in a charge of \$27.8 million during the thirty-nine weeks ended October 1, 2023 related to the impairment of leasehold improvements and right-of-use assets and was reflected in Store closure and other costs, net on the consolidated statements of income. The impairment charge represented the excess of the carrying value over the estimated fair value of each store's asset group. Accelerated depreciation on the closed stores' assets during 2023 was \$5.9 million, and was reflected in Depreciation and amortization on the consolidated statements of income.
