commitments, excluding unconditionally cancellable exposures and letters of credit, to arrive at the reserve for unfunded loan commitments. As of June 30, 2024, and December 31, 2023, the liabilities recorded for expected credit losses on unfunded commitments were $50.2 million and $56.3 million, respectively. The current adjustment to the reserve for unfunded commitments is recognized through the Provision for Credit Losses in the Consolidated Statements of Income. The methodology used in the estimation of the allowance, which is performed at least quarterly, is designed to be dynamic and responsive to changes in portfolio credit quality and forecasted economic conditions. Changes are reflected in the pool-basis allowance and in reserves assigned on an individual basis as the collectability of classified loans is evaluated with new information. As the Company's portfolio has matured, historical loss ratios have been closely monitored. The review of the appropriateness of the allowance is performed by executive management and presented to the Audit and Risk Committees of the Board of Directors for their review. The committees report to the board as part of the board's quarterly review of the Company's consolidated financial statements.

Reclassification and Correction

Certain amounts previously reported have been reclassified to conform to the current quarter's presentation. Such reclassifications had no effect on net income and shareholders' equity.

Loans

Loans that management has originated and has the intent and ability to hold for the foreseeable future or until maturity or pay-off generally are reported at their unpaid principal balances, less unearned income and net of any deferred loan fees and costs, including unamortized fair value discount or premium. Unearned income on installment loans is recognized as income over the terms of the loans by methods that generally approximate the interest method. Interest on other loans is calculated by using the simple interest method on daily balances of the principal amount outstanding. If the loan is prepaid, the remaining unamortized fees and costs are charged or credited to interest income. Amortization ceases for non-accrual loans.

We place loans on nonaccrual once reasonable doubt exists about the collectability of all principal and interest due. Generally, this occurs when principal or interest is 90 days or more past due, unless the loan is well secured and in the process of collection and excludes factored receivables. For factored receivables, which are commercial trade credits rather than promissory notes, the Company's practice, in most cases, is to charge-off unpaid recourse receivables when they become 90 days past due from the invoice due date and the non-recourse receivables when they become 120 days past due from the statement due date. Past due status is based on the contractual terms of the loan. In all cases, loans are placed on non-accrual or charged-off at an earlier date if collection of principal or interest is considered doubtful.

The Company generally uses an eight-quarter forecast period, based on a single forecast scenario or a blend of multiple forecast scenarios, using variables management believes are most relevant to each portfolio segment. For periods beyond which management is able to develop reasonable and supportable forecasts, the Company reverts to the average historical loss rate, reflecting historical default probabilities and loss severities, using a reversion speed that approximates four quarters. The forecast period and scenarios used are reviewed on a quarterly basis and may be adjusted based on management's view of the current economic conditions and level of predictability the forecast can provide.

Allowance for Credit Losses ("ACL") - Investment Securities

ACL - Loans and Certain Off-Balance-Sheet Credit Exposures

The ACL for loans held for investment reflects management's estimate of credit losses that will result from the inability of our borrowers to make required loan payments. The Company makes adjustments to the ACL by recording a provision for or recovery of credit losses through earnings. Loans charged off are recorded as reductions to the ACL on the balance sheet and subsequent recoveries of loan charge-offs are recorded as increases to the ACL when they are received.

While quantitative allowance methodologies strive to reflect all risk factors, any estimate involves assumptions and uncertainties resulting in some level of imprecision. Imprecision exists in the estimation process due to the inherent time lag between obtaining information, performing the calculation, as well as variations between estimates and actual outcomes. As a result, amounts determined under the methodologies described above are adjusted by management to consider the potential impact of other qualitative factors not captured in the quantitative model adjustments which include, but are not limited to, the following: imprecision or conditions not captured in economic scenario assumptions, emerging risks related to either changes in the internal or external environment that are affecting specific portfolios, trends in loan or portfolio level credit metrics not captured in quantitative modeling, or model imprecision adjustments. The consideration of these items results in adjustments to allowance amounts included in the Company's allowance for credit losses for each loan portfolio.

The Company's ACL is calculated using collectively evaluated and individually evaluated loans. Even though portions of the allowance may be allocated to specific loans or pools of loans, the entire allowance is available for any credit that, in management's judgment, should be charged off.

Management measures expected credit losses over the contractual term of a loan. When determining the contractual term, the Company considers expected prepayments but is precluded from considering expected extensions, renewals, or modifications. Loans modified to a borrower experiencing financial difficulty are reviewed by the Bank to determine if an interest rate reduction, a term extension, an other-than-insignificant payment delay, a principal forgiveness, or any combination of these has occurred.

The ACL includes expected losses from modifications of receivables to borrowers experiencing financial difficulty. Losses on modifications of non-accrual loans over $1 million to borrowers experiencing financial difficulty are estimated on an individual basis. Because the effect of the remainder of modifications made to borrowers experiencing financial difficulty is already incorporated into the measurement methodologies used to estimate the allowance, they are accounted for as pooled loans.

For purchased credit-deteriorated, otherwise referred to herein as PCD, assets are defined as acquired individual financial assets (or acquired groups of financial assets with similar risk characteristics) that, as of the date of acquisition, have experienced a more-than-insignificant deterioration in credit quality since origination, as determined by the Company's assessment. The Company records acquired PCD loans by adding the expected credit losses (i.e., allowance for credit losses) to the purchase price of the financial assets rather than recording through the provision for credit losses in the income statement. The expected credit loss, as of the acquisition day, of a PCD loan is added to the allowance for credit losses. The non-credit discount or premium is the difference between the unpaid principal balance and the amortized cost basis as of the acquisition date. Subsequent to the acquisition date, the change in the ACL on PCD loans is recognized through the Provision for Credit Losses in the Consolidated Statements of Income. The non-credit discount or premium is accreted or amortized, respectively, into interest income over the remaining life of the PCD loan on a level-yield basis.

The Company follows its nonaccrual policy by reversing contractual interest income in the income statement when the Company places a loan on nonaccrual status. Therefore, management excludes the accrued interest receivable balance from the amortized cost basis in measuring expected credit losses on the portfolio and does not record an allowance for credit losses on accrued interest receivable. As of June 30, 2024, and December 31, 2023, the accrued interest receivables for loans recorded in Other Assets were $132.7 million and $127.0 million, respectively.

The Company has a variety of assets that have a component that qualifies as an off-balance sheet exposure. These primarily include undrawn portions of revolving lines of credit and standby letters of credit. The expected losses associated with these exposures within the unfunded portion of the expected credit loss are recorded as a liability on the balance sheet. Management has determined that a majority of the Company's off-balance sheet credit exposures are not unconditionally cancellable. Management completes funding studies based on internal historical data to estimate the percentage of unfunded loan commitments that will ultimately be funded to calculate the reserve for unfunded commitments. management applies this funding rate, along with the loss factor rate determined for each pooled loan segment, to unfunded loan commitments, excluding unconditionally cancellable exposures and letters of credit, to arrive at the reserve for unfunded loan commitments. As of June 30, 2024, and December 31, 2023, the liabilities recorded for expected credit losses on unfunded commitments were $50.2 million and $56.3 million, respectively. The current adjustment to the reserve for unfunded commitments is recognized through the Provision for Credit Losses in the Consolidated Statements of Income. The methodology used in the estimation of the allowance, which is performed at least quarterly, is designed to be dynamic and responsive to changes in portfolio credit quality and forecasted economic conditions. Changes are reflected in the pool-basis allowance and in reserves assigned on an individual basis as the collectability of classified loans is evaluated with new information. As the Company's portfolio has matured, historical loss ratios have been closely monitored. The review of the appropriateness of the allowance is performed by executive management and presented to the Audit and Risk Committees of the Board of Directors for their review. The committees report to the board as part of the board's quarterly review of the Company's consolidated financial statements.

Reclassification and Correction

Certain amounts previously reported have been reclassified to conform to the current quarter's presentation. Such reclassifications had no effect on net income and shareholders' equity.

Announcement of Merger between SouthState and Independent Bank Group, Inc. ("Independent")

On May 20, 2024, the Company and Independent, a Texas-based corporation, announced that the companies have entered into an Agreement and Plan of Merger (the "Merger Agreement"). The Merger Agreement provides that, upon the terms and subject to the conditions set forth therein, Independent will merge with and into the Company, with the Company continuing as the surviving corporation in the merger. Immediately following the merger, Independent's wholly owned banking subsidiary, Independent Bank will merge with and into the Company's wholly owned banking subsidiary, SouthState Bank, National Association, which will continue as the surviving bank in the bank merger. The Merger Agreement was approved by the Boards of Directors of the Company and Independent by the unanimous vote of the directors present at the applicable meeting. The merger is subject to approvals by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System ("Federal Reserve"), and the Company's and Independent's shareholders. Under the terms of the Merger Agreement, shareholders of Independent will receive $0.60 shares of the Company's common stock for each share of Independent common stock they own. The transaction is expected to close during the first quarter of 2025, subject to the satisfaction of customary closing conditions, including receipt of required statutory approvals and approval by the shareholders of each of the Company and Independent. At June 30, 2024, Independent reported $18.4 billion in total assets, $14.6 billion in loans and $15.8 billion in deposits.

consist of non-marketable equity securities that have no readily determinable market value. Accordingly, when evaluating these securities for impairment, management considers the ultimate recoverability of the par value rather than recognizing temporary declines in value. As of June 30, 2024, we determined that there was no impairment on other investment securities. The amortized cost and fair value of debt securities at June 30, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to prepay obligations with or without prepayment penalties. <table style="border-collapse:collapse;font-size:6pt;height:auto;margin-left:auto;margin-right:auto;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:50.23%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.83%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.37%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:8.76%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.84

All debt securities in an unrealized loss position as of June 30, 2024, continue to perform as scheduled and management does not believe there is a credit loss or a provision for credit losses is necessary. Management does not currently intend to sell the securities within the portfolio, and it is not more-likely-than-not that the Company will be required to sell the debt securities. Management continues to monitor all of the securities with a high degree of scrutiny. book balance exceeding the designated threshold as collateral dependent loans. Collateral dependent loans are loans for which the repayment is expected to be provided substantially through the operation or sale of the collateral and the borrower is experiencing financial difficulty. These loans do not share common risk characteristics and are not included within the collectively evaluated loans for determining the ACL. Under ASC 326-20-35-6, the Bank has adopted the collateral maintenance practical expedient to measure the ACL based on the fair value of collateral. The ACL is calculated on an individual loan basis based on the shortfall between the fair value of the loan's collateral, which is adjusted for selling costs, and amortized cost. If the fair value of the collateral exceeds the amortized cost, no allowance is required. The Bank's threshold for individually evaluated loans is $1.0 million. The changes above in collateral percentage are due to appraisal value updates or changes in the number of loans within the asset class and collateral type. Overall collateral dependent loans increased $7.1 million during the six months ended June 30, 2024. Loans on nonaccrual status at the date of modification are initially classified as nonaccrual. Loans on accruing status at the date of modification are initially classified as accruing if the note is reasonably assured of repayment and performance is expected in accordance with its modified terms. Such loans may be designated as nonaccrual loans subsequent to the modification date if reasonable doubt exists as to the collection of interest or principal under the modification agreement. Nonaccrual loans are returned to accruing status when there is economic substance to the modification, there is documented credit evaluation of the borrower's financial condition, the remaining balance is reasonably assured of repayment in accordance with its modified terms, and the borrower has demonstrated sustained repayment performance in accordance with the modified terms for a reasonable period of time (generally a minimum of six months). See Note 2 — Summary of Significant Accounting Policies for how such modifications are factored into the determination of the ACL for the periods presented above. The following tables present loans designated as modifications made to borrowers experiencing financial difficulty during the three and six months ended June 30, 2024, and 2023, respectively. The loans are segregated by type of modification and asset class, indicating the financial effect of the modifications. The amortized cost balance for the modified loans presented below exclude accrued interest receivable of approximately $119,000 and $60,000 as of June 30, 2024 and 2023, respectively. <table style="border-collapse:collapse;font-size:10pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;white-space:nowrap;width:25.04%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.07%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.62%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:7.10%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.1%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.22%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:19.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.99%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:6.83%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.19%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.12%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:19.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.99%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:6.83%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.08%;margin:0pt;padding:0pt;">

million, respectively, and operating lease liabilities of $111.8 million and $108.3 million, respectively. We maintain operating leases on land and buildings for some of our operating centers, branch facilities and ATM locations. Most leases include one or more options to renew, with renewal terms extending up to 20 years. The exercise of renewal options is based on the sole judgment of management and what they consider to be reasonably certain given the environment today. Factors in determining whether an option is reasonably certain of exercise include, but are not limited to, the value of leasehold improvements, the value of rates as compared to market rates, and the presence of factors that would cause a significant economic penalty to us if the option is not exercised. Leases with an initial term of 12 months or less are not recorded on the balance sheet and instead are recognized in lease expense on a straight-line basis over the lease term.   <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:48.28%;margin:0pt;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:1.89%;margin:0pt;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:1.41%;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:0.06%;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:0.59%;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:5.02%;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:0.06%;padding:0pt;">   </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:23%;padding:0pt;"> Three Months Ended </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;"> </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:23.01%;margin:0pt;padding:0pt;"> Six Months Ended </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:48.28%;margin:0pt;padding:0pt;">   </td><td style="vertical-align:bottom;white-space:nowrap;width:1.89%;margin:0pt;padding:0pt;">   </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:23%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> June 30, </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:23.01%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> June 30, </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:48.28%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> (Dollars in thousands) </td><td style="vertical-align:bottom;white-space:nowrap;width:1.89%;margin:0pt;padding:0pt;">   </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:10.53%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:10.56%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2023 </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:10.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;">   </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:10.56%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2023 </td></tr><tr><td

connection with the CenterState merger completed in 2020. These leases are all real estate leases. Terms and conditions are similar to those real estate operating leases described above. Lease qualifications from the acquired institutions were retained. At June 30, 2024, we did not maintain any leases with related parties, and determined that the number and dollar amount of our equipment leases was immaterial. As of June 30, 2024, we had no additional operating leases that have not yet commenced. Equipment Lessor SouthState has an Equipment Finance Group which goes to market through intermediaries. The Equipment Finance Group primarily focuses on serving the construction and utility segments. Lease terms typically range from 24 months to 120 months. At the end of the lease term, the lessee has the option to renew the lease, return the equipment, or purchase the equipment. In the event the equipment is returned, there is a remarketing agreement with the intermediary to sell the equipment. The Equipment Finance Group offers the following lease products: TRAC Leases, Split-TRAC Leases, and FMV Leases. Direct finance equipment leases are included in commercial and industrial loans on the Consolidated Balance Sheets. The estimated residual values for direct finance leases are established by an approved intermediary who utilizes internally developed analyses, external studies, and/or third-party appraisals to establish a residual position. FMV and Split-TRAC leases have residual risk due to their unguaranteed residual value whereas TRAC leases have a guaranteed residual value. Expected credit losses on direct financing leases and the related estimated residual values are included in the Commercial and Industrial loan segment for the ACL. The following table summarizes lease receivables and investment in operating leases and their corresponding balance sheet location at June 30, 2024, and December 31, 2023: <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:60.21%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.8%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.84%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:14.7%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.9%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.29%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:14.55%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:0.67%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;width:60.21%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.8%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.54%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.9%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.85%;margin:0pt;padding:0pt;">) </td><td style="vertical-align:bottom;white-space:nowrap;width:0.67%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:60.21%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.8%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.54%;margin:0pt;padding:0pt;"> June 30, </td><td style="vertical-align:bottom;white-space:nowrap;width:2.9%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.85%;margin:0pt;padding:0pt;"> December 31, </td><td style="vertical-align:bottom;white-space:nowrap;width:0.67%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;width:60.21%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> (Dollars in thousands) </td><td style="vertical-align:bottom;white-space:nowrap;width:2.8%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:2.9%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:16.85%;border-bottom:1px solid

employees' savings plan under the provisions of the Internal Revenue Code Section 401(k). Electing employees are eligible to participate in the employees' savings plan after attaining age 18. Plan participants elect to contribute portions of their annual base compensation as a before tax contribution. Employer contributions may be made from current or accumulated net profits. Participants may elect to contribute 1% to 50% of annual base compensation as a before tax contribution. Employees participating in the plan receive a 100% match of their 401(k) plan contribution from the Company, up to 4% of their salary. We expensed $4.4 million and $9.0 million, respectively, for the three and six months ended June 30, 2024, and $4.2 million and $8.8 million, respectively, for the three and six months ended June 30, 2023, related to the Company's savings plan. Employees can enter the savings plan on or after the first day of each month. The employee may enter into a salary deferral agreement at any time to select an alternative deferral amount or to elect not to defer in the plan. If the employee does not elect an investment allocation, the plan administrator will select a retirement-based portfolio according to the employee's number of years until normal retirement age. The plan's investment valuations are generally provided on a daily basis. 0.010.5010.0444000000000000.042000008800000 Note 11 — Earnings Per Share Basic earnings per share is calculated by dividing net income by the weighted-average shares of common stock outstanding during each period, excluding non-vested restricted shares. Our diluted earnings per share is based on the weighted-average shares of common stock outstanding during each period plus the maximum dilutive effect of common stock issuable upon exercise of stock options or vesting of restricted stock units. Stock options and unvested restricted stock units are considered common stock equivalents and are only included in the calculation of diluted earnings per common share when their effect is dilutive. The following table sets forth the computation of basic and diluted earnings per common share: <table style="border-collapse:collapse;font-size:16pt;height:max-content;margin-left:auto;margin-right:auto;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:middle;width:48.42%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.06%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.44%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.44%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.06%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.9%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.44%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.08%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:now

plans intended to attract, retain, and provide incentives for key employees and non-employee directors in the form of incentive and non-qualified stock options, restricted stock, and restricted stock units ("RSUs"). Our 2020 plan was adopted by our shareholders at our annual meeting on October 29, 2020. The 2020 plan was subsequently amended and restated during our annual meeting on April 24, 2024 to increase the number of shares of common stock available for future grants. The Company also assumed the obligations of Atlantic Capital Bancshares, Inc. ("ACBI") under various equity incentive plans pursuant to the acquisition of ACBI on March 1, 2022, and the obligations of CenterState under various equity incentive plans pursuant to the merger with CenterState on June 7, 2020. Stock Options With the exception of non-qualified stock options granted to directors under the 2004 and 2012 plans, which in some cases may be exercised at any time prior to expiration and in some other cases may be exercised at intervals less than a year following the grant date, incentive stock options granted under our 2004, 2012, 2019 and 2020 plans may not be exercised in whole or in part within a year following the date of the grant, as these incentive stock options become exercisable in 25% increments pro ratably over the four-year period following the grant date. The options are granted at an exercise price at least equal to the fair value of the common stock at the date of grant and expire ten years from the date of grant. No options were granted under the 2004, 2012 or 2019 plans after January 26, 2012, February 1, 2019, and October 29, 2020, respectively, and the plans are closed other than for any options still unexercised and outstanding. The 2020 amended and restated plan is the only plan from which new share-based compensation grants may be issued. It is the Company's policy to grant options out of the 2,451,634 shares registered under the 2020 amended and restated plan. Activity in the Company's stock option plans is summarized in the following table. <table style="border-collapse:collapse;font-size:10pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:49.89%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.96%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.33%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.48%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:9.33%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.64%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:49.89%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.96%;margin:0pt;padding:0pt;"> </td><td colspan="9" style="vertical-align:bottom;white-space:nowrap;width:46.18%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:49.89%;margin:0pt;padding:0pt;"> </td><td colspan="4" style="vertical-align:bottom;white-space:nowrap;width:22.11%;margin:0pt;padding:0pt;"><p style="font-family:Times New Roman',Times',serif;font-

These awards help align the interests of these employees with the interests of our shareholders by providing economic value directly related to our performance. Some performance RSU grants contain a three-year performance period while others contain a one to two-year performance period and a time-vested requirement (generally two to four years from the grant date). The performance-based awards for our long-term incentive plans are dependent on the achievement of tangible book value growth and return on average tangible common equity relative to the Company's peer group during each three-year performance period. Grants to non-employee directors typically vest within a 12-month period. We communicate threshold, target, and maximum performance RSU awards and performance targets to the applicable key employees at the beginning of a performance period. Due to the merger with CenterState on June 7, 2020, all legacy and assumed performance-based restricted stock units converted to a time-vesting requirement. With respect to some long-term incentive awards, dividend equivalents are accrued at the same rate as cash dividends paid for each share of the Company's common stock during the performance or time-vested period, and subsequently paid when the shares are issued on the vesting or settlement date. The value of the RSUs awarded is established as the fair market value of the stock at the time of the grant. We recognize expense on a straight-line basis typically over the performance or time-vesting periods based upon the probable performance target, as applicable, that will be met. </p><p make various commitments and incur certain contingent liabilities, which are not reflected in the accompanying financial statements. The commitments and contingent liabilities include guarantees, commitments to extend credit, and standby letters of credit. At June 30, 2024, commitments to extend credit and standby letters of credit totaled $9.2 billion. As of June 30, 2024, the liability recorded for expected credit losses on unfunded commitments, excluding unconditionally cancellable exposures and letters of credit, was $50.2 million and recorded on the Balance Sheet. See Note 2 — Summary of Significant Accounting Policies for discussion of liability recorded for expected credit losses on unfunded commitments. We have been named as defendant in various legal actions, arising from its normal business activities, in which damages in various amounts are claimed. We are also exposed to litigation risk related to the prior business activities of banks acquired through whole bank acquisitions. Although the amount of any ultimate liability with respect to such matters cannot be determined, in the opinion of management, as of June 30, 2024, any such liability is not expected to have a material effect on our consolidated financial statements. In response to the bank failures in early 2023, the FDIC implemented a special assessment to recover the losses to the FDIC's Deposit Insurance Fund at an annual rate of approximately 13.4 basis points over eight quarterly assessment periods beginning with the first quarterly assessment period of 2024. The base for the special assessment is equal to an insured depository institution's estimated uninsured deposits reported as of December 31, 2022, adjusted to exclude the first $5 billion. As a result, approximately $25.7 million was recognized by the Bank as of December 31, 2023, for the two-year special assessment period. Due to additional losses to the Deposit Insurance Fund resulting from the 2023 bank failures reported by the FDIC in February 2024, an additional $4.5 million was accrued by the Bank during 2024, bringing the total estimated FDIC special assessment allocable to the Bank to approximately $30.2 million. The additional $4.5 million will be paid over two quarters after the initial two-year assessment period. The FDIC may impose additional special assessments from time to time to recover losses incurred by the FDIC as a result of the 2023 bank failures or future failures. Cyber Incident Litigation. On April 3, 2024, a putative class action lawsuit was filed against the Bank in the U.S. District Court for the Middle District of Florida, Tampa Division (the "Original Suit"). The plaintiff, who purports to represent the class of individuals harmed by alleged actions and/or omissions by the Bank in connection with the cybersecurity incident that was detected on February 6, 2024 (the "Cyber Incident"), asserts a variety of common law and statutory claims seeking monetary damages, injunctive relief and other related relief related to the potential unauthorized access by third parties to personal identifiable information. While the Original Suit has been voluntarily dismissed, additional plaintiffs have initiated litigation that names the Bank as a defendant. As of July 30, 2024, three putative class actions are pending against the Bank, including one case pending in the U.S. District Court for the Northern District of Georgia, and two cases pending in the Circuit Court for Polk County, Florida. An additional case pending in the Circuit Court for Broward County, Florida, that does not seek class certification requests a declaratory judgment that the Bank leaked sensitive data belonging to the named plaintiff (each such litigation, a "Cyber Incident Suit"). We anticipate that all putative class actions will be consolidated into one litigation (. At this time, neither the Bank nor the Company is able to reasonably estimate the amount or range of reasonably possible loss, if any, that might result from the Cyber Incident Suits. However, the Bank believes that it has defenses to the claims and intends to vigorously defend against the Cyber Incident Suits. Accordingly, no amounts have been recorded in the unaudited condensed consolidated financial statements for the Cyber Incident Suits. The Company will continue to evaluate information as it becomes known and will record an estimate for losses at the time or times when it is both probable that a loss has been incurred and the amount of the loss is reasonably estimable. Additional lawsuits and claims related to the Cyber Incident may be asserted by or on behalf of customers, shareholders, or others seeking damages or other related inquiries from governmental agencies may be received or investigations by governmental agencies commenced. 92000000005020000000.134500000000257000002Y450000030200000450000031i2 Note 14 — Fair Value GAAP defines fair value and establishes a framework for measuring and disclosing fair value. Fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Available for sale and trading securities, derivative contracts, mortgage loans held for sale, SBA servicing rights, and mortgage servicing rights ("MSRs") are recorded at fair value on a recurring basis. Additionally, from time to time, we may be required to record at fair value other assets on a nonrecurring basis, such as impaired loans, OREO, bank properties held for sale, and certain other assets. These nonrecurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets. FASB ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows: <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr><td style="vertical-align:top;width:14.83%;margin:0pt;padding:0pt;"> Level 1 </td><td style="vertical-align:top;width:85.16%;margin:0pt;padding:0pt;"> Observable inputs such as quoted prices in active markets; </td></tr><tr><td style="vertical-align:top;width:14.83%;margin:0pt;padding:0pt;"> Level 2 </td><td style="vertical-align:top;width:85.16%;margin:0pt;padding:0pt;"> Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and </td></tr><tr><td style="vertical-align:top;width:14.83%;margin:0pt;padding:0pt;"> Level 3 </td><td style="vertical-align:top;width:85.16%;margin:0pt;padding:0pt;"> Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions. </td></tr></table> A description of valuation methodologies used for assets recorded at fair value is disclosed in Note 25 — Fair Value of our Annual Report on Form 10-K for the year ended December 31, 2023. based on appraisal or third-party valuation when the loan is placed on nonaccrual. For OREO and bank properties held for sale, the fair value is initially recorded based on external appraisals at the time of transfer. These assets recorded at fair value on a nonrecurring basis are updated on at least an annual basis. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those models are significantly affected by the assumptions used, including the discount rates and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instrument. The use of different methodologies may have a material effect on the estimated fair value amounts. The fair value estimates presented herein are based on pertinent information available to management as of June 30, 2024, and December 31, 2023. Such amounts have not been revalued for purposes of these consolidated financial statements since those dates and, therefore, current estimates of fair value may differ significantly from the amounts presented herein. Methods and assumptions used to estimate the fair value of each class of financial instruments are disclosed in Note 25 — Fair Value of our Annual Report on Form 10-K for the year ended December 31, 2023. Sheet Fair Value Hedge As of June 30, 2024, and December 31, 2023, the Company maintained loan swaps, with an aggregate notional amount of $9.0 million and $9.2 million, respectively, accounted for as fair value hedges. The amortized cost basis of the loans being hedged were $9.5 million and $9.7 million, respectively, as of June 30, 2024, and December 31, 2023. This derivative protects us from interest rate risk caused by changes in the SOFR curve in relation to a certain designated fixed rate loan. The derivative converts the fixed rate loan to a floating rate. Settlements occurs in any period where there is a difference in the stated fixed rate and variable rate and the difference is recorded in net interest income. The fair value of this hedge is recorded in either other assets or in other liabilities depending on the position of the hedge with the offset recorded in loans. Non-designated Hedges of Interest Rate Risk Customer Swap The Company maintains interest rate swap contracts with loan customers of respondent bank customers of the Correspondent Banking Division, in addition to loan customers of the Bank, that are classified as non-designated hedges and are not speculative in nature. These agreements are designed to convert customers' variable rate loans with the Company and respondent bank customers to fixed rate. These interest rate swaps are executed with loan customers to facilitate a respective risk management strategy and allow the customer to pay a fixed rate of interest to the Company. These interest rate swaps are simultaneously hedged by executing offsetting interest rate swaps with unrelated market counterparties to minimize the net risk exposure to the Company resulting from the transactions and allow the Company to receive a variable rate of interest. The interest rate swaps pay and receive interest based on a one-month SOFR floating rate plus a credit spread, with payments being calculated on the notional amount. The variation margin settlement payment and the related derivative instruments fair value are considered a single unit of account for accounting and financial reporting purposes. Depending on the net position of the swaps with LCH and CME, the fair value, net of the variation margin, is reported in Derivative Assets or Derivative Liabilities on the Consolidated Balance Sheets. In addition, the expense or income attributable to the variation margin for the centrally cleared swaps with LCH and CME is reported in Noninterest income, specifically within Correspondent and Capital Markets Income. The daily settlement of the derivative exposure does not change or reset the contractual terms of the instrument. As the interest rate swaps associated with this program do not meet the strict hedge accounting requirements, changes in the fair value of both the customer swaps and the offsetting swaps are recognized directly in earnings. As of June 30, 2024, and December 31, 2023, the interest rate swaps had an aggregate notional amount of approximately $23.6 billion and $22.6 billion, respectively. At June 30, 2024, the fair value of the interest rate swap derivatives is recorded in Other Assets at $182.4 million and in Other Liabilities at $955.3 million. The fair value of derivative assets at June 30, 2024, was reduced by $774.0 million in variation margin payments applicable to swaps centrally cleared through LCH and CME. At December 31, 2023, the fair value of the interest rate swap derivatives was recorded in Other Assets at $169.0 million and Other Liabilities at $803.5 million. The fair value of derivative assets at December 31, 2023, was reduced by $635.3 million in variation margin payments applicable to swaps centrally cleared through LCH and CME. All changes in fair value are recorded through earnings within Correspondent and Capital Markets Income, a component of Noninterest Income on the Consolidated Statements of Income. There was a net gain of $273,000 and $386,000 recorded on these derivatives for the three and six months ended June 30, 2024, respectively. There was a net loss of $84,000 and a net gain of $12,000 recorded on these derivatives for the three and six months ended June 30, 2023, respectively. As of June 30, 2024, we provided $270.4 million of cash collateral on the customer swaps, which is included in Cash and Cash Equivalents on the Consolidated Balance Sheets as Deposits in Other Financial Institutions (Restricted Cash). We also provided $96.4 million in investment securities at market value as collateral on the

customer swaps which is included in Investment Securities – available for sale on the Consolidated Balance Sheets. Counterparties provided $59.9 million of cash collateral to the Company to secure swap asset positions that were not centrally cleared, which is included in Interest-bearing Deposits within Total Liabilities on the Consolidated Balance Sheets.

During the third quarter of 2023, management began executing a series of short-term interest rate hedges to address monthly accrual mismatches related to the Company's Assumable Rate Conversion ("ARC") program and its transition from LIBOR to SOFR after June 30, 2023. The Company is required to execute the correspondent side of its back-to-back swaps with customers with the central clearinghouses (CME or LCH). Term SOFR was not available to execute through CME and LCH, and therefore, management elected to convert to the CME-eligible daily SOFR. Because many of the respondent bank customers converted to Term SOFR, this created interest rate basis risk. To address this risk, monthly interest rate hedges were executed to minimize the impact of accrual mismatches between the monthly Term SOFR used by the customer and the daily SOFR rates used by the central clearinghouses.

As of June 30, 2024, the Company maintained an aggregate notional amount of $1.7 billion short-term interest rate hedges that were accounted for as economic hedges. As noted above, the derivatives protect the Company from interest rate risk caused by changes in the term and daily SOFR accrual mismatches. The fair value of these hedges is recorded in either Other Assets or in Other Liabilities depending on the position of the hedge with the offset recorded in Correspondent Banking and Capital Market Income, a component of Noninterest Income on the Consolidated Statements of Income. There was a net loss of $1,000 for these derivatives for the three and six months ended June 30, 2024. There was a net loss of $5,000 for these derivatives for the year ended December 31, 2023.

Foreign Exchange Contracts

The Company may enter into foreign exchange contracts with customers to accommodate their need to convert certain foreign currencies into U.S. Dollars. To offset the foreign exchange risk, the Company may enter into substantially identical agreements with an unrelated market counterparty to hedge these foreign exchange contracts. If there were foreign currency contracts outstanding at June 30, 2024, the fair value of these contracts would be included in Other Assets and Other Liabilities in the accompanying Consolidated Balance Sheets. All changes in fair value are recorded as other noninterest income. There was no gain or loss recorded related to the foreign exchange derivative for the three and six months ended June 30, 2024 and 2023.

Mortgage Banking

The Company also has derivatives contracts that are not classified as accounting hedges to mitigate risks related to the Company's mortgage banking activities. These instruments may include financial forwards, futures contracts, and options written and purchased, which are used to hedge MSRs, while forward sales commitments are typically used to hedge the mortgage pipeline. Such instruments derive their cash flows, and therefore their values, by reference to an underlying instrument, index or referenced interest rate. The Company does not elect hedge accounting treatment for any of these derivative instruments and as a result, changes in fair value of the instruments (both gains and losses) are recorded in the Company's Consolidated Statements of Income in Mortgage Banking income.

Mortgage Servicing Rights ("MSRs")

Derivatives contracts related to MSRs are used to help offset changes in fair value and are written in amounts referred to as notional amounts. Notional amounts provide a basis for calculating payments between counterparties but do not represent amounts to be exchanged between the parties and are not a measure of financial risk. On June 30, 2024, we had derivative financial instruments outstanding with notional amounts totaling $122.0 million related to MSRs, compared to $142.0 million on December 31, 2023. The estimated net fair value of the open contracts related to the MSRs was recorded as a gain of $500,000 at June 30, 2024, compared to a gain of $2.6 million at December 31, 2023.

These risk-based capital ratios measure the relationship of capital to a combination of balance sheet and off-balance sheet risks. The values of both balance sheet and off-balance sheet items are adjusted based on the rules to reflect categorical credit risk. In addition to the risk-based capital ratios, the regulatory agencies have also established a leverage ratio for assessing capital adequacy. The leverage ratio is equal to Tier 1 capital divided by total consolidated on-balance sheet assets (minus amounts deducted from Tier 1 capital). The leverage ratio does not involve assigning risk weights to assets. Under current regulations, the Company and the Bank are subject to a minimum required ratio of common equity Tier 1 capital ("CET1") to risk-weighted assets of 4.5% and a minimum required ratio of Tier 1 capital to risk-weighted assets of 6%. The minimum required leverage ratio is 4%. The minimum required total capital to risk-weighted assets ratio is 8%. In order to avoid restrictions on capital distributions and discretionary bonus payments to executives, a covered banking organization is also required to maintain a "capital conservation buffer" in addition to its minimum risk-based capital requirements. This buffer is required to consist solely of CET1, and the buffer applies to all three risk-based measurements (CET1, Tier 1 capital and total capital). The capital conservation buffer consists of an additional amount of Tier 1 common equity equal to 2.5% of risk-weighted assets. The Bank is also subject to the regulatory framework for prompt corrective action, which identifies five capital categories for insured depository institutions (well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized) and is based on specified thresholds for each of the three risk-based regulatory capital ratios (CET1, Tier 1 capital and total capital) and for the leverage ratio. The following table presents actual and required capital ratios as of June 30, 2024, and December <span style="white-space:p

In response to the effects from ASU 2016-13 at adoption, the standard included a transitional method option for recognizing the adoption date effects on the Company's regulatory capital calculations over a three-year phase-in. In March 2020, in response to the COVID-19 pandemic, the regulatory agencies provided an additional transitional method option of a two-year deferral for the start of the three-year phase-in of the recognition of the adoption date effects of ASU 2016-13 along with an option to defer the current impact on regulatory capital calculations of ASU 2016-13 during the first two years ("5-year method"). Under this 5-year method, the Company would recognize an estimate of the previous incurred loss method for determining the allowance for credit losses in regulatory capital calculations and the difference from the CECL method would be deferred for two years. After two years, the effects from adoption date and the deferral difference from the first two years of applying CECL would be phased-in over three years using the straight-line method. The regulatory rules provided a one-time opportunity at the end of the first quarter of 2020 for covered banking organizations to choose its transition option for CECL. The Company chose the 5-year method and is deferring the recognition of the effects from adoption date and the CECL difference from the first two years of application. This amount was fixed as of December 31, 2021, and that amount began the three-year phase out in the first quarter of 2022 with25% being phased out in 2024;</p>0.0450:060.040:080.025<p Other intangibles are amortized using either the straight-line method or an accelerated basis over their estimated useful lives, with lives generally between <sec-id-hidden:Hidden_Lwrx45EUg0694RD7Ds2muw;>two</sec-id-hidden:Hidden_Lwrx45EUg0694RD7Ds2muw;>two and 15 years. The Company applies fair value accounting to the Company's SBA servicing asset. The change in fair value of the SBA servicing asset is recorded in SBA income, a component of Noninterest Income on the Consolidated Statements of Income, during each applicable reporting period. As a result of the fair value accounting treatment, the Company does not amortize the SBA servicing asset and therefore excludes the SBA servicing asset from the future amortization expense table presented below. The fair value of the SBA servicing asset was $6.3 million and $6.0 million, respectively, at June 30, 2024, and December 31, 2023. The fair value of the SBA servicing asset is included in Core Deposit and Other Intangibles on the Consolidated Balance Sheets.

changes in assumptions and is determined by estimating the present value of the asset's future cash flows utilizing market-based prepayment rates, discount rates and other assumptions validated through comparison to trade information, industry surveys and with the use of independent third-party appraisals. Changes in prepayment speed assumptions have the most significant impact on the fair value of MSRs. Generally, as interest rates decline, mortgage loan prepayments accelerate due to increased refinance activity, which results in a decrease in the fair value of the MSR. Measurement of fair value is limited to the conditions existing, and the assumptions utilized as of a particular point in time, and those assumptions may not be appropriate if applied at a different time. See Note 14 — Fair Value for additional information regarding fair value. The characteristics and sensitivity analysis of the MSRs are included in the following table: <table style="border-collapse:collapse;font-size:16pt;height:max-content;margin-left:0pt;padding-left:0pt;padding-right:0pt;width:100.72%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:50.13%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.2%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.71%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:11.06%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.19%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;margin:0pt;padding:0pt;"> June 30, </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;margin:0pt;padding:0pt;"> December 31, </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;margin:0pt;padding:0pt;"> $ </td><td style="vertical-align:bottom;white-space:nowrap;width:3.19%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:50.13%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> (Dollars in thousands) </td><td style="vertical-align:bottom;white-space:nowrap;width:2.2%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.19%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2023 </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:2.19%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;width:50.13%;background:#ceeeff;margin:0pt;padding:0pt;"> Composition of residential loans serviced for others </td><td style="vertical-align:bottom;white-space:nowrap;width:2.2%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.71%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:11.06%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.19%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.77%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.19%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.71%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:11.06%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:4.85%;background:#ceeeff;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.19%;background:#ceeeff;margin:0pt;padding:0pt;"> </td></tr><tr><td

Changes in fair value based on changes in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the residential MSRs is calculated without changing any other assumption, while in reality changes in one factor may result in changes in another, which may either magnify or counteract the effect of the change. The derivative instruments utilized by the Company would serve to reduce the estimated impact to fair value included in the table above. Whole loan sales were $282.6 million and $505.3 million for the three and six months ended June 30, 2024, compared to $249.3 million and $408.7 million for the three and six months ended June 30, 2023. For the three and six months ended June 30, 2024, $205.9 million and $366.6 million, or 72.9% and 72.6%, respectively, were sold with the servicing rights retained by the Company, compared to $201.1 million and $324.1 million, or 80.7% and 79.3%, respectively, for the three and six months ended June 30, 2023. The Company retains no beneficial interests in these sales but may retain the servicing rights for the loans sold. The risks related to the sold loans with the retained servicing rights due to a representation or warranty violation such as noncompliance with eligibility or servicing requirements, or customer fraud, that should have been identified in a loan file review are disclosed in Note 1 — Summary of Significant Accounting Policies, under the “Loans Held for Sale” section, of the Company’s Annual Report on Form 10-K for the year ended December 31, 2023. The Company is obligated to subsequently repurchase a loan if such representation or warranty violation is identified by the purchaser. The aggregated principal balances of loans repurchased for the six months ended June 30, 2024, and 2023 were approximately $1.2 million and $975,000 respectively. There were approximately $52,000 in loss reimbursement and settlement claims paid in the six months ended June 30, 2024. There were no material loss reimbursement and settlement claims paid in the six months ended June 30, 2023. Loans held for sale have historically been comprised of residential mortgage loans awaiting sale in the secondary market, which generally settle in 15 to 45 days. Loans held for sale were $100.0 million and $50.9 million at June 30, 2024, and December 31, 2023, respectively. New Roman','Times',serif;font-size:10pt;margin:18pt 0pt 0pt 0pt;"> Note 20 — Short-Term Borrowings Securities Sold Under Agreements to Repurchase ("Repurchase agreements") Repurchase agreements represent funds received from customers, generally on an overnight or continuous basis, which are collateralized by investment securities owned or, at times, borrowed and re-hypothecated by the Company. Repurchase agreements are subject to terms and conditions of the master repurchase agreements between the Company and the client and are accounted for as secured borrowings. Repurchase agreements are included in Securities Sold Under Agreements to Repurchase on the Consolidated Balance Sheets. At June 30, 2024, and December 31, 2023, our repurchase agreements totaled $254.4 million and $241.0 million, respectively. All of our repurchase agreements were overnight or continuous (until-further-notice) agreements at June 30, 2024, and December 31, 2023. These borrowings were collateralized with government, government-sponsored enterprise, or state and political subdivision-issued securities with a carrying value of $309.3 million and $410.4 million at June 30, 2024, and December 31, 2023, respectively. Declines in the value of the collateral would require us to increase the amounts of securities pledged. Federal Funds Purchased Federal funds purchased are generally overnight daily borrowings with no defined maturity date. At June 30, 2024, and December 31, 2023, our federal funds purchased totaled $280.0 million and $240.2 million, respectively. Federal Home Loan Bank ("FHLB") and Federal Reserve Bank ("FRB") Borrowing The Company has from time-to-time entered into borrowing agreements with the FHLB and FRB. Borrowings under these agreements are collateralized by stock in the FHLB, qualifying first and second mortgage residential loans, investment securities, and commercial real estate loans under a blanket-floating lien. As of June 30, 2024, and December 31, 2023, the Company had $300.0 and $100.0 million, respectively, of outstanding FHLB borrowings. Net eligible loans of the Company pledged via a blanket lien to the FHLB for advances and letters of credit at June 30, 2024, were approximately $11.3 billion (collateral value of $6.4 billion) and investment securities and cash pledged were approximately $196.7 million (collateral value of $166.8 million). This allows the Company a total borrowing capacity at the FHLB of approximately $6.6 billion. After accounting for letters of credit totaling $2.9 million and short-term FHLB borrowings of $300.0 million outstanding, the Company had unused net credit available with the FHLB in the amount of approximately $6.3 billion at June 30, 2024. The Company also has a total borrowing capacity at the FRB of $1.8 billion at June 30, 2024, secured by a blanket lien on $2.6 billion (collateral value of $1.0 billion) in net eligible loans of the Company. The Company had no outstanding borrowings with the FRB at June 30, 2024, or December 31, 2023. 2544000002410000000.0389300000410400000288000000.0248200000300000000.0100000000.0113000000060000000019670000016680000066000000029000003000000000.0630000000180000000026000000001800000000000 Note 21 — Stock Repurchase Program On April 27, 2022, the Company's Board of Directors approved a stock repurchase program ("2022 Stock Repurchase Program") authorizing the Company to repurchase up to 3,750,000 of the Company's common shares along with the remaining authorized shares of 370,021 from the Company's 2021 stock repurchase program ("2021 Stock Repurchase Plan") for a total authorization of 4,120,021 shares. The Company did not repurchase any shares pursuant to the 2022 Stock Repurchase Program during the second quarter of 2024. During the six months ended June 30, 2024, the Company repurchased a total of 100,000 shares at a weighted average price of $79.85 per share. During 2023, the Company repurchased a total of 100,000 shares at a weighted average price of $67.48 per share pursuant to the 2022 Stock Repurchase Program. The Company repurchased 97,363 and 98,093 shares at a cost of $8.1 million and $7.0 million, respectively, during the six months ended June 30, 2024, and 2023 under other arrangements whereby directors or officers surrender shares to the Company to cover the option cost for stock option exercises or tax liabilities resulting from the vesting of restricted stock awards or restricted stock units. 37500003700214120021100000795100000674897363980938100000700000.0 Note 22 — Investments in Qualified Affordable Housing Projects The Company has investments in qualified affordable housing projects ("QAHPs") that provide low-income housing tax credits ("LIHTC") and operating loss benefits over an extended period. Effective January 1, 2024, the Company adopted ASU No. 2023-02 and began to apply the proportional amortization method of accounting for its QAHPs. Prior to the adoption of ASU 2023-02, the Company applied the equity method of accounting for its QAHPs. For the three and six months ended June 30, 2024, the Company recorded $3.8 million and $7.7 million, respectively, in tax credits and other tax benefits and $3.5 million and $6.9 million, respectively, of amortization attributable to the QAHPs within Provision for Income Taxes on its Consolidated Statement of Income. For the three and six months ended June 30, 2023, the Company recorded $3.6 million and $7.2 million, respectively, of tax credits and other tax benefits within Provision for Income Taxes and amortization of $2.1 million and $4.1 million, respectively, within Other Noninterest Expense on the Consolidated Statement of Income. At June 30, 2024, and December 31, 2023, the Company's carrying value of QAHPs was $85.0 million and $101.8 million, respectively, recorded in Other Assets on the Consolidated Balance Sheet. The Company had $11.3 million and $12.5 million in remaining funding obligations related to these QAHPs recorded in Other Liabilities on the Consolidated Balance Sheets at June 30, 2024, and December 31, 2023, respectively. For the remaining funding obligations at June 30, 2024, approximately 91% are expected to be funded by 2026.
