

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2024**

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-36492

AGEAGLE AERIAL SYSTEMS INC.

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction
of incorporation or organization)

88-0422242

(I.R.S. Employer
Identification No.)

8201 E. 34th Street N, Suite 1307 Wichita, Kansas

(Address of principal executive offices)

67226

(Zip Code)

Registrant's telephone number, including area code: **(620) 325-6363**

Securities registered pursuant to Section 12(b) of the Act:

| Title of Each Class | Trading Symbol(s) | Name of Each Exchange on Which Registered |
|---|-------------------|---|
| Common Stock, par value \$0.001 per share | UAVS | NYSE American LLC |

Securities registered pursuant to Section 12(g) of the Act: None.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "emerging growth company" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

| | | | |
|-------------------------|-------------------------------------|---------------------------|-------------------------------------|
| Large accelerated filer | <input type="checkbox"/> | Accelerated filer | <input type="checkbox"/> |
| Non-accelerated filer | <input checked="" type="checkbox"/> | Smaller reporting company | <input checked="" type="checkbox"/> |
| | | Emerging growth company | <input type="checkbox"/> |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

As of August 14, 2024, there were 14,991,621 shares of Common Stock, par value \$ 0.001 per share, issued and outstanding.

AGEAGLE AERIAL SYSTEMS INC.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 1 – Description of the Business and Basis of Presentation

Description of Business – AgEagle™ Aerial Systems Inc. (“AgEagle” or the “Company”, “we”, “our”), through its wholly-owned subsidiaries, AgEagle Aerial, Inc., DBA MicaSense™, Inc. (“MicaSense”), Measure Global, Inc. (“Measure”), senseFly SA, and senseFly Inc. (collectively “senseFly”), is actively engaged in designing and delivering best-in-class drones, sensors and software that solve important problems for its customers in a wide range of industry verticals, including energy/utilities, infrastructure, agriculture and government.

Founded in 2010, AgEagle was originally formed to pioneer proprietary, professional-grade, fixed-winged drones and aerial imagery-based data collection and analytics solutions for the agriculture industry. Today, the Company is earning distinction as a globally respected market leader offering customer-centric, advanced, autonomous unmanned aerial systems (“UAS”) which drive revenue at the intersection of flight hardware, sensors and software for industries that include agriculture, military/defense, public safety, surveying/mapping and utilities/engineering, among others. AgEagle has also achieved numerous regulatory firsts, including earning governmental approvals for its commercial and tactical drones to fly Beyond Visual Line of Sight (“BVLOS”) and/or Operations Over People (“OOP”) in the United States, Canada, Brazil and the European Union and being awarded Blue UAS

certification from the Defense Innovation Unit of the U.S. Department of Defense.

The Company is currently headquartered in Wichita, Kansas, where we house our sensor manufacturing operations, and we operate business and primary drone engineering and manufacturing operations in Raleigh, North Carolina. In addition, the Company operates business and manufacturing operations in Lausanne, Switzerland in support of our international business activities.

Reverse Stock Split - On February 8, 2024, the Company filed a Certificate of Amendment to its Articles of Incorporation, as amended to date (the "Charter"), effecting a 1-for-20 reverse stock split (the "Reverse Stock Split") of the Company's common stock, par value \$ 0.001 per share (the "Common Stock") (the "Reverse Split Amendment"). The Reverse Split Amendment was approved by the Board of the Directors of the Company (the "Board") and became effective on February 9, 2024. All share and per share data and amounts have been retroactively adjusted as of the earliest period presented in the interim unaudited consolidated financial statements to reflect the effect of the Reverse Stock Split.

Basis of Presentation - The condensed consolidated financial statements of the Company are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in United State of America ("US GAAP"). In the opinion of management, the Company has made all necessary adjustments, which include normal recurring adjustments, for a fair statement of the Company's consolidated financial position and results of operations for the periods presented. Certain information and disclosures included in the annual consolidated financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to the U.S. Securities and Exchange Commission ("SEC") rules. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes for the year ended December 31, 2023, included in the Company's Annual Report on Form 10-K, as filed with the SEC on April 1, 2024. The results for the three and six-month periods ended June 30, 2024 and 2023, are not necessarily indicative of the results to be expected for a full year, any other interim periods or any future year or periods.

The condensed consolidated financial statements include the accounts of AgEagle and its wholly-owned subsidiaries, AgEagle Aerial, Inc., Measure Global, Inc. and senseFly. All significant intercompany balances and transactions have been eliminated in consolidation.

A description of certain of the Company's accounting policies and other financial information is included in the Company's audited consolidated financial statements filed with the SEC on Form 10-K for the year ended December 31, 2023. The summary of significant accounting policies presented below is designed to assist in understanding the Company's condensed consolidated financial statements. Such condensed consolidated financial statements and accompanying notes are the representations of the Company's management, who are responsible for their integrity and objectivity.

10

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 1 – Description of the Business and Basis of Presentation-Continued

Liquidity and Going Concern - In pursuit of the Company's long-term growth strategy and acquisitions, the Company has sustained continued operating losses. During the six months ended June 30, 2024, the Company incurred a net loss of \$9,245,295 and used cash in operating activities of \$2,983,430. As of June 30, 2024, the Company has a working capital deficit of \$ 2,809,813 and an accumulated deficit of \$180,085,841. While the Company has historically been successful in raising capital to meet its working capital needs, the ability to continue raising such capital is not guaranteed. There is substantial doubt about the Company's ability to continue as a going concern as the Company will require additional liquidity to continue its operations and meet its financial obligations for 12 months from the date these condensed consolidated financial statements were issued. The Company is evaluating strategies to obtain the required additional funding for future operations and the restructuring of operations to grow revenues and reduce expenses.

If the Company is unable to generate significant sales growth in the near term and raise additional capital, there is a risk that the Company could default on additional obligations; and could be required to discontinue or significantly reduce the scope of its operations if no other means of financing operations are available. The condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amount and classification of liabilities or any other adjustment that might be necessary should the Company be unable to continue as a going concern.

Note 2 – Summary of Significant Accounting Policies

The summary of significant accounting policies presented below is designed to assist in understanding the Company's condensed consolidated financial statements. Such condensed consolidated financial statements and accompanying notes are the representations of the Company's management, who are responsible for their integrity and objectivity. These accounting policies conform to US GAAP in all material respects and have been consistently applied in preparing the accompanying condensed consolidated financial statements.

Risks and Uncertainties - Global economic challenges, including natural disasters, such as hurricanes, tornadoes, floods, earthquakes and other adverse weather and climate conditions; unforeseen public health crises, such as pandemics and epidemics; political crises, such as terrorist attacks, war, labor unrest, and other political instability; or other catastrophic events, such as disasters occurring at our manufacturing facilities, could disrupt our operations or the operations of one or more of our vendors. The aforementioned risks and their respective impacts on the UAV industry and the Company's operational and financial performance remains uncertain and outside of the Company's control. Specifically, because of the aforementioned continuing risks, the Company's ability to access components and parts needed in order to manufacture its proprietary drones and sensors, and to perform quality testing have been, and continue to be, impacted. If either the Company or any of its third parties in the supply chain for materials used in our manufacturing and assembly processes continue to be adversely impacted, the Company's supply chain may be disrupted, limiting its ability to manufacture and assemble products.

Use of Estimates - The preparation of condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the reserve for obsolete inventory, valuation of intangible assets, and valuation of goodwill.

Fair Value Measurements and Disclosures - Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement* ("ASC 820"), requires companies to determine fair value based on the price that would be received to sell the asset or paid to transfer the liability to a market participant. ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement.

11

**FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)**

Note 2 – Summary of Significant Accounting Policies-Continued

The guidance requires that assets and liabilities carried at fair value be classified and disclosed in one of the following categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

For short-term classes of our financial instruments, which include cash, accounts receivable, prepaid expenses, notes receivable, accounts payable and accrued expenses, their carrying amounts approximate fair value due to their short-term nature. The outstanding loan related to the COVID Loans is carried at face value, which approximates fair value. As of June 30, 2024 and December 31, 2023, the Company did not have any financial assets or liabilities measured and recorded at fair value on the Company's condensed consolidated balance sheets on a recurring basis.

Inventories – Inventories, which consist of raw materials, finished goods and work-in-process, are stated at the lower of cost or net realizable value, with cost being determined by the average-cost method, which approximates the first-in, first-out method. Cost components include direct materials and direct labor. At each balance sheet date, the Company evaluates its inventories for excess quantities and obsolescence. This evaluation primarily includes an analysis of forecasted demand in relation to the inventory on hand, among consideration of other factors. The physical condition (e.g., age and quality) of the inventories is also considered in establishing its valuation. Based upon the evaluation, provisions are made to reduce excess or obsolete inventories to their estimated net realizable values. Once established, write-downs are considered permanent adjustments to the cost basis of the respective inventories. These adjustments are estimates, which could vary significantly, either favorably or unfavorably, from the amounts that the Company may ultimately realize upon the disposition of inventories if future economic conditions, customer inventory levels, product discontinuances, sales return levels or competitive conditions differ from the Company's estimates and expectations.

Cash Concentrations -The Company maintains its cash balances at financial institutions that are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company has significant cash balances at financial institutions which throughout the year regularly exceed the federally insured limit of \$250,000. Any loss incurred or a lack of access to such funds could have a significant adverse impact on the Company's financial condition, results of operations, and cash flows.

Accounts Receivable and Credit Policy – Trade receivables due from customers are uncollateralized customer obligations due under normal and customary trade terms. Trade receivables are stated at the amount billed to the customer. As of June 30, 2024 and December 31, 2023, the Company had an accounts receivable balance of \$1,538,941 and \$2,057,546, respectively. In addition, as of June 30, 2024, the Company had not incurred additional allowance for credit losses, and has collected on older accounts receivable previously reserved, compared to December 31, 2023, balance of \$158,689. The Company generally does not charge interest on overdue customer account balances. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices. The Company estimates an allowance for credit losses based upon an evaluation of the current status of trade receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for credit losses will change.

**AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)**

Note 2 – Summary of Significant Accounting Policies-Continued

Allowance for Credit Losses - We establish allowances for credit losses on accounts receivable, under ASC 326-20-55-37. The adequacy of these allowances is assessed quarterly through consideration of factors such as customer credit ratings, bankruptcy filings, published or estimated credit default rates, age of the receivable, expected loss rates and collateral exposures. Collateral exposure is the excess of the carrying value of a financial asset over the fair value of the related collateral. We determine the creditworthiness of our customers by assigning internal credit ratings based upon publicly available information and information obtained directly from the customers.

Our net accounts receivable represents amounts billed and due from customers. Based on historical perspective, nearly all of our accounts receivable on June 30, 2024 would be collected in calendar year 2024 because the majority of our accounts receivable are due from value added resellers ("VARs") and sovereign governments, including the U.S. Department of Defense. However, under the new guidance, the Company has elected to recognize credit losses based on our collection history and our customers payment terms.

Revenue Recognition – The Company's revenues are derived primarily through the sales of drones, sensors and related accessories, and software subscriptions. The Company utilized ASC Topic 606 and its related amendments, *Revenue from Contracts with Customers*, which requires revenue to be recognized in a manner that depicts the transfer of goods or services to customers in amounts that reflect the consideration to which the entity expects to be entitled in exchange for those goods or services.

Generally, we recognize revenue when it satisfies its obligation by providing the benefits of the service to the customer, either over time or at a point in time. A performance obligation is satisfied over time if one of the following criteria are met:

- a. the customer simultaneously receives and consumes the benefits as the entity performs; or
- b. the entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- c. the entity's performance does not create an asset with an alternative use to the entity, and the entity has an enforceable right to payment for performance completed to date.

Revenue recognition under ASC 606 as described below creates following revenue streams:

- **Sensor Sales** – sales are recognized on products when the related goods have been shipped, title has passed to the customer, and there are no undeliverable elements or uncertainties. Amounts incurred related to shipping and handling are included in cost of revenue.
- **Drone Sales** - sales are recognized on products when the related goods have been shipped, title has passed to the customer, and there are no undeliverable elements or uncertainties. Amounts incurred related to shipping and handling are included in cost of revenue.
- **Software Sales** – are subscription sales of our software that are recognized equally over the membership period as the services are provided.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 2 – Summary of Significant Accounting Policies-Continued

The Company recognizes revenue on sales to customers, dealers, and distributors upon satisfaction of performance obligations which occurs once controls transfer to customers, which is when product is shipped or delivered depending on specific shipping terms and, where applicable, a customer acceptance has been obtained. The fee is not considered to be fixed or determinable until all material contingencies related to the sales have been resolved. The Company records revenue in the condensed consolidated statements of operations and comprehensive loss net of any sales, use, value added, or certain excise taxes imposed by governmental authorities on specific sales transactions and net of any discounts, allowances and returns.

Under fixed-price contracts, the Company agrees to perform the specified work for a pre-determined price. To the extent the Company's actual costs vary from the estimates upon which the price was negotiated, it will generate more or less profit or could incur a loss. The Company accounts for a contract after it has been approved by all parties to the arrangement, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable.

The Company's software subscriptions to its platforms, *HempOverview* and *Ground Control*, are offered on a subscription basis. These subscription fees are recognized equally over the membership period as the services are provided.

Additionally, customer payments received in advance of the Company completing performance obligations are recorded as contract liabilities. Customer deposits represent customer prepayments and are recognized as revenue when the term of the sale or performance obligation is completed. As of June 30, 2024 and December 31, 2023, contract liabilities represent amounts of \$779,993 and \$226,316, respectively.

Internal- Use Software Costs – Internal-use software costs are accounted for in accordance with ASC Topic 350-40, *Internal-Use Software*. The costs incurred in the preliminary stages of development are expensed as research and development costs as incurred. Once an application has reached the development stage, internal and external costs incurred to develop internal-use software are capitalized and amortized on a straight-line basis over the estimated useful life of the software (typically three to five years). Maintenance and enhancement costs, including those costs in the post-implementation stages, are typically expensed as incurred, unless such costs relate to substantial upgrades and enhancements to the software that result in added functionality, in which case the costs are capitalized and amortized on a straight-line basis over the estimated useful life of the software. The Company reviews the carrying value for impairment whenever facts and circumstances exist that would suggest that assets might be impaired or that the useful lives should be modified. Amortization expense related to capitalized internal-use software development costs is included in general and administrative expenses on the condensed consolidated statements of operations and comprehensive loss.

As of June 30, 2024 and December 31, 2023, capitalized software costs for internal-use software related to the Company's implementation of its enterprise resource planning ("ERP") software, totaled \$454,160 and \$582,148, respectively, net of accumulated amortization and are included in intangible assets, net on the condensed consolidated balance sheets.

Goodwill and Intangible Assets – The assets and liabilities of acquired businesses are recorded under the acquisition method of accounting at their estimated fair values at the date of acquisition. Goodwill represents costs in excess of fair values assigned to the underlying identifiable net assets of acquired businesses. Intangible assets from acquired businesses are recognized at fair value on the acquisition date and consist of customer programs, trademarks, customer relationships, technology and other intangible assets. Customer programs include values assigned to major programs of acquired businesses and represent the aggregate value associated with the customer relationships, contracts, technology and trademarks underlying the associated program and are amortized on a straight-line basis over a period of expected cash flows used to measure fair value, which ranges from four to five years.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 2 – Summary of Significant Accounting Policies-Continued

As of June 30, 2024 and December 31, 2023, the goodwill balance was \$ 7,402,644. The Company tests its goodwill for impairment, at least annually, unless events or changes in circumstances indicate the carrying value of goodwill may be impaired, the Company may look to perform such test sooner versus on an annual basis. Such events or changes in circumstances may include a significant deterioration in overall economic conditions, changes in the business climate of our industry, a decline in the Company's market capitalization, decline in operating performance indicators, competition, or a reorganization of our business. The Company's goodwill has been allocated to and is tested for impairment at a level referred to as the business segment. The level at which the Company test goodwill for impairment requires it to determine whether the operations below the business segment constitute a self-sustaining business for which discrete financial information is available and segment management regularly reviews the operating results which is referred to as a reporting unit.

As of June 30, 2024 and December 31, 2023, our intangible assets balance was \$ 2,312,333 and \$2,615,281, respectively. Finite-lived intangibles are amortized to expense over the applicable useful lives, ranging from five to ten years, based on the nature of the asset and the underlying pattern of economic benefit as reflected by future net cash inflows. We perform an impairment test of finite-lived intangibles whenever events or changes in circumstances indicate their carrying value may be impaired. If events or changes in circumstances indicate the carrying value of a finite-lived intangible may be impaired, the sum of the undiscounted future cash flows expected to result from the use of the asset group would be compared to the asset group's carrying value. If the asset group's carrying amount exceeds the sum of the undiscounted future cash flows, we would determine the fair value of the asset group and record an impairment loss in net earnings.

Foreign Currency – The Company translates assets and liabilities of its foreign subsidiary, senseFly S.A., predominately in Swiss Franc to their U.S. dollar equivalents at exchange rates in effect as of the balance sheet date. Translation adjustments are not included in determining net income but are recorded in accumulated other comprehensive loss on the condensed consolidated balance sheets. The Company translates the condensed consolidated statements of operations and comprehensive loss of its foreign subsidiary at average exchange rates for the applicable period. Foreign currency transaction gains and losses, arising primarily from changes in exchange rates on foreign currency denominated revenues, certain purchases and intercompany transactions are recorded in other income (expense), net in the condensed consolidated statements of operations and comprehensive loss.

Shipping Costs – All shipping costs billed directly to the customer are directly offset to shipping costs resulting in a net expense to the Company, which is included in cost of sales in the accompanying condensed consolidated statements of operations and comprehensive loss. For the three months ended June 30, 2024 and 2023, shipping costs totaled \$69,722 and \$57,545, respectively, and for the six months ended \$ 160,271 and \$122,481, respectively.

Advertising Costs – Advertising costs are charged to operations as incurred and presented in sales and marketing expenses in the condensed consolidated statements of operations and comprehensive loss. For the three months ended June 30, 2024 and 2023, advertising costs were \$5,024 and \$27,729, respectively; and for the six months ended were \$ 6,077 and \$68,418, respectively.

Loss Per Common Share and Potentially Dilutive Securities – Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted loss per share is computed by dividing net loss by the weighted average number of common shares outstanding plus Common Stock, par value \$0.001 ("Common Stock") equivalents (if dilutive) related to warrants, options, and convertible instruments. For the three and six months ended June 30, 2024 and 2023, the Company has excluded all common equivalent shares outstanding for restricted stock units ("RSUs") and options to purchase Common Stock from the calculation of diluted net loss per share, because these securities are anti-dilutive for the periods presented. As of June 30, 2024, the Company had 27,380 unvested RSUs, 6,422,190 warrants and 3,250 options outstanding to purchase shares of Common Stock. As of December 31, 2023, the Company had 9,630 unvested RSUs, 3,233,546 warrants and 125,264 options outstanding to purchase shares of Common Stock.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 2 – Summary of Significant Accounting Policies-Continued

Segment Reporting – In accordance with ASC Topic 280, *Segment Reporting*, the Company identifies operating segments as components of an entity for which discrete financial information is available and is regularly reviewed by the chief operating decision maker in making decisions regarding resource allocation and performance assessment. The Company defines the term "chief operating decision maker" to be its chief executive officer.

The Company has determined that it operates in four segments:

- Drones, which comprises revenues earned from contractual arrangements to develop, manufacture and /or modify complex drone related products, and to provide associated engineering, technical and other services according to customer specifications.
- Sensors, which comprises the revenue earned through the sale of sensors, cameras, and related accessories.
- Software as a service ('SaaS'), which comprises revenue earned through the offering of online-based subscriptions.
- Corporate, which comprises corporate costs only.

New Accounting Pronouncements – In March 2024, the Securities and Exchange Commission ("SEC") has released a final rule that requires registrants to provide comprehensive climate-related disclosures in their annual reports and registration statements, including those for IPOs, beginning with annual reports for the year ending December 31, 2027, for smaller reporting companies ("SRC"). Registrants must disclose climate-related financial metrics and impacts on their financial estimates and assumptions in a footnote to the audited financial statements. The disclosures will also need to be addressed as part of management's internal control over financial reporting ("ICFR") and will be subject to the financial statement and ICFR audit (if applicable) of an independent registered public accounting firm. We are currently evaluating the impacts of the improvements to our disclosure.

In December 2023, FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the US statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more. ASU 2023-09 is effective for public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. Entities should adopt this guidance on a prospective basis, though retrospective application is permitted. The adoption of ASU 2023-09 is expected to have a financial statement disclosure impact only and is not expected to have a material impact on the Company's consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting – Improvements to Reportable Segment Disclosures*. The ASU will now require public entities to disclose its significant segment expenses categories and amounts for each reportable segment. Under the ASU, a significant segment expense is an expense that is:

- significant to the segment,
- regularly provided to or easily computed from information regularly provided to the chief operating decision maker and
- included in the reported measure of segment profit or loss.

The ASU is effective for public entities for fiscal years beginning after December 15, 2023, and interim periods in fiscal years beginning after December 15, 2024 (calendar year public entity will adopt the ASU in its 2024 Form 10-K). The ASU should be adopted retrospectively unless it's impracticable to do so. Early adoption of the ASU is permitted, including in an interim period. The adoption of ASU 2023-07 is expected to have a financial statement disclosure impact only and is not expected to have a material impact on the Company's consolidated financial statements.

| Leasehold improvements | 3 | \$ 89,272 | \$ 136,382 |
| Production tools and equipment | 5 | 909,026 | 1,003,726 |
| Computer and office equipment | 3-5 | 357,891 | 407,747 |
| Furniture | 5 | 58,912 | 74,420 |
| Drone equipment | 3 | <u>130,163</u> | <u>170,109</u> |
| Total Property and equipment | | 1,545,264 | 1,792,384 |
| Less: Accumulated depreciation | | <u>(947,882)</u> | <u>(992,492)</u> |
| Total: Property and equipment, net | | <u>\$ 597,382</u> | <u>\$ 799,892</u> |

During the three months ended June 30, 2024 and 2023, depreciation expense was \$ 83,988 and \$99,227 respectively, for the six months, depreciation expense was \$186,063 and \$199,924, respectively, which has been included in general and administrative expenses on the accompanying condensed consolidated statements of operations and comprehensive loss.

Intangible Assets, net

As of June 30, 2024 and December 31, 2023, intangible assets, net, other than goodwill, consist of following:

| Name | Estimated Life (Years) | Balance as of December 31, 2023 | Additions | Amortization | Balance as of June 30, 2024 |
|----------------------------------|------------------------|---------------------------------|------------------|---------------------|-----------------------------|
| Intellectual property/technology | 5-7 | \$ 606,354 | \$ — | \$ (74,247) | \$ 532,107 |
| Customer base | 3-10 | 999,774 | — | (70,572) | 929,202 |
| Trade names and trademarks | 5-10 | 427,005 | — | (30,141) | 396,864 |
| Internal use software costs | 3 | 582,148 | 58,303 | (186,291) | 454,160 |
| Total intangibles assets, net | | <u>\$ 2,615,281</u> | <u>\$ 58,303</u> | <u>\$ (361,251)</u> | <u>\$ 2,312,333</u> |

As of June 30, 2024, the weighted average remaining amortization period in years is 2.87 years. For the three and six months ended June 30, 2024 and 2023, amortization expense was \$181,879 and \$913,691, respectively and \$361,251 and \$1,814,332, respectively.

| Total accrued liabilities | <u>\$ 1,663,941</u> | <u>\$ 1,944,352</u> |

Note 4 – COVID Loans

The Company assumed the obligations for two COVID Loans originally made by the SBA to senseFly S.A. on July 27, 2020 ("senseFly COVID Loans"). As of senseFly Acquisition Date, the fair value of the COVID Loan was \$1,440,046 ("senseFly COVID Loans"). For the three and six months ended June 30, 2024, senseFly S.A. made the required payments on the senseFly COVID Loans, including principal and accrued interest, aggregating approximately \$55,693 and \$213,517, respectively. As of June 30, 2024, the Company's outstanding obligations under the senseFly COVID Loans are \$614,172. On August 25, 2023, the Company modified one (1) of its existing agreements to extend the repayment period of the COVID Loan from a maturity date of December 2023 to June 2025. The other COVID loan remains unchanged.

As of June 30, 2024, scheduled principal payments due under the senseFly COVID Loans are as follows:

| Year ending December 31, | |
|---------------------------------|-------------------|
| 2024 (rest of year) | \$ 155,935 |
| 2025 | 183,086 |
| 2026 | 91,727 |
| 2027 | 183,424 |
| Total | <u>\$ 614,172</u> |

(UNAUDITED)

Note 5 – Promissory Note and Exchange Agreement

On December 6, 2022, the Company entered into a Securities Purchase Agreement (the "Promissory Note Purchase Agreement") with an institutional investor, Alpha Capital Anstalt ("Alpha"), which is an existing shareholder of the Company. Pursuant to the terms of the Promissory Note Purchase Agreement, the Company has agreed to issue to the Investor (i) an 8% original issue discount promissory note (the "Note") in the aggregate principal amount of \$3,500,000, and (ii) a common stock purchase warrant (the "Promissory Note Warrant") to purchase up to 250,000 shares of the Company's Common Stock (the "Shares") at an exercise price of \$8.80 per share, subject to standard anti-dilution adjustments. The Note is an unsecured obligation of the Company. It has an original issue discount of 4% and bears interest at 8% per annum. The Company received net proceeds of \$3,285,000 net of the original issue discount of \$140,000 and \$75,000 of issuance costs. The Promissory Note Warrant is not exercisable for the first six months after issuance and has a five-year term from the initial exercise date of June 6, 2023.

Beginning June 1, 2023, and on the first business day of each month thereafter, the Company was to pay 1/20th of the original principal amount of the Note plus any accrued but unpaid interest, with any remaining principal plus accrued interest payable in full upon the maturity date of December 31, 2024 or the occurrence of an Event of Default (as defined in the Note).

On August 14, 2023, the Company and Alpha entered into a Note Amendment Agreement due to the Company not making the Monthly Amortization Payments for the months of June – August 2023. Pursuant to the Note Amendment Agreement, the parties agreed to amend the Note as follows:

- (i) defer payment of the Monthly Amortization Payments for June 2023, July 2023 and August 2023 in the aggregate amount of \$525,000 (the "Deferred Payments"), and the September Monthly Amortization Payment, in the amount of \$175,000, until September 15, 2023. The Company was not able to meet the payment requirements of the Note Amendment Agreement

- (ii) increase the principal amount of the Note by \$595,000 so that the current principal amount of the Note was \$ 4,095,000.

On September 15, 2023, the Company and Investor entered into a Warrant Exchange Agreement pursuant to which the Company agreed to issue to the Investor 5,000,000 shares of common stock in exchange for the Warrant for no consideration. The Company accounted for the incremental value using the Black-Scholes pricing model of the Promissory Note Warrant modification of \$190,500 as an increase in additional paid-in capital and interest expense on the condensed consolidated statements of operations and comprehensive loss.

As result of the default on the payment for September 15, 2023, October 1, 2023 and November 1, 2023, the principal increased by \$ 409,500 for a total balance of \$4,504,500.

(UNAUDITED)

Note 5 – Promissory Note and Exchange Agreement- Continued

On October 5, 2023, the Company and Alpha entered into a Second Note Amendment Agreement (the “Second Amendment”), which provides for the following:

- (i) the Deferred Payments were due and payable on December 15, 2023;
- (ii) the Amortization Payments (defined in the Note) scheduled for September 15, 2023, October 1, 2023, and November 1, 2023, were deferred and made part of the Amortization Payments commencing in January 2024; and
- (iii) 50% of any net proceeds above \$2,000,000 from any equity financing between the date of the Second Amendment and December 15, 2023, were to be used to prepay the Note. The Second Amendment also partially waived the Event of Default in Section 3 (a)(vii) of the Note as a result of the resignation of a majority of the officers listed therein.

As of December 15, 2023, the Company was unable to meet its payment obligation as prescribed in the Second Amendment.

On February 8, 2024, the Company and Alpha entered into a Securities Exchange Agreement (the “Exchange Agreement”), pursuant to which the parties agreed to exchange the Note Payable Purchase Agreement, as amended, executed December 2022, for a Convertible Note due January 8, 2025 in the principal amount of \$4,849,491 (the “Convertible Note”), convertible into Common Stock at the initial conversion price of \$ 2.00 per share of Common Stock, subject to adjustment based on the effectiveness of the Company’s Reverse Stock Split which became effective on February 9, 2024. On February 16, 2024, the conversion price was adjusted downward to \$1.25 pursuant to the terms of the Convertible Note and is subject to adjustment pursuant to dilutive protection terms included in the Convertible Note. The principal amount of the Convertible Note did not change and includes: the initial principal amount of the Original Note of \$3,500,000, (ii) the additional \$595,000 in principal added pursuant to the 1st Amendment, (iii) \$192,111 in accrued interest at the rate of 8% from December 6, 2022 through August 13, 2023 on the original principal amount of \$ 3,500,000, (iv) \$152,880 in accrued interest at the rate of 8% from August 14, 2023 through February 8, 2024 on the original principal amount of \$ 4,095,000, and (iv) an additional principal amount of \$409,500. The Convertible Note accrues interest at 12% per annum versus 8% on the Note Payable Purchase Agreement. The interest rate increased to the lesser of 18% per annum or the maximum rate permitted under applicable law upon an Event of Default as defined under the Convertible Note. Commencing April 1, 2024, and on the first business day of each calendar month thereafter, the Company shall pay \$ 484,949, plus any accrued but unpaid interest, with any remaining principal plus accrued interest payable in full upon the Maturity Date.

On February 16, 2024, the Company received a notification from Alpha to convert \$100,000 into 79,828 shares of common stock at an exercise price of \$1.2527, reducing the principal balance to \$ 4,749,491.

On April 12, 2024, the Company received an Investor Notice from Alpha for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,418,919 shares of Common Stock, in the aggregate, at a conversion price of \$ 0.74 for an aggregate purchase price of \$1,050,000, the investor retained \$569,091 as a payment to the Promissory Note which consisted of the scheduled principal payment of \$ 484,950 for the month of April and \$84,141 of interest, as result, the company received \$ 480,909.

During the three and six months ended June 30, 2024, the Company recorded \$ 126,184 and 210,325 of interest expense related to the Note Payable Purchase Agreement and Convertible Note in the condensed consolidated statements of operations and comprehensive loss. As of June 30, 2024, there is \$126,184 of accrued interest included in accrued expenses and the total principal outstanding is \$ 4,264,541.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 5 – Promissory Note and Exchange Agreement- Continued

As of June 30, 2024, scheduled principal payments due under the fourth Amended Note are as follows:

| | | |
|---------------------------------|-----------|------------------|
| Year Ending December 31, | | |
| 2024 | \$ | 4,264,541 |
| 2025 | | — |
| Total | \$ | 4,264,541 |

On March 6, 2024, the conversion price of the Convertible Debt was reduced from \$ 1.25 to \$0.60 pursuant to dilution protection provisions and due to the reduction in warrant exercise prices to \$0.60 to induce exercise (see Note 7). The Company recognized interest expense in the amount of \$3,488,851 for the incremental value of the conversion feature due to the reduced conversion price. The incremental value was determined using a Black-Scholes pricing model pre and post modification and the following inputs: expected term 0.92 years, risk free rate of 4.83%, volatility of 89.6%, and dividend rate of 0%.

Note 6 – Other Short-Term Loan

On June 21, 2024, the Company entered into an agreement for the purchase and sale of future receipts with a commercial lender pursuant to which the Buyer purchased \$1,890,000 of future receipts. The Company recorded the sale of future receipts at the discount price of \$ 1,312,500, for net proceeds of \$1,250,000 cash, net of \$62,500 origination fee. The Future Receipts Agreement was effective as of June 20, 2024. The Company recorded a debt discount of \$640,000 which will be amortized over the life of the loan into interest expense. The purchased amount is remitted in weekly installments in the amount of \$67,500 until the purchased amount has been satisfied. The Company intends to use the proceeds for working capital and general corporate purposes. At the issuance of this agreement the Company agreed the lender to retain \$378,000 related to the balance due for the agreement of the purchase and sales of future receipts completed on January 24, 2024, referenced in the paragraph below – from the same lender.

On January 24, 2024, the Company entered into an agreement for the purchase and sale of future receipts (the “Future Receipts Agreement”) with an unrelated commercial lender (the “Buyer”) pursuant to which the Buyer purchased \$1,512,000 (“Purchased Amount”) in future receipts of the Company at the discount price of \$1,050,000, for net proceeds of \$1,000,000 cash, net of \$50,000 origination fee. At issuance, the Company recorded a debt discount of \$512,000 which will be amortized over the life of the loan into interest expense. The Company is required to repay the Purchased Amount with weekly installments in the amount of \$54,000 until the Purchased Amount has been satisfied. The Company may prepay the Purchased Amount within 30 calendar days by tendering the amount of \$1,312,500.

In the event the Company is unable to make timely weekly payments due to a business slow down, or if the full Purchased Amount is never remitted due to bankruptcy or other cessation of operations in the ordinary course of business, and the Company has not breached the Future Receipts Agreement, it would not be an event of default. The Company would not owe anything to Buyer and would not be in breach of or default under this Future Receipts Agreement.

During the three and six months ended June 30, 2024, the Company recorded \$ 219,428 and \$384,000 of amortization related to the debt discount as interest expense related to the purchase and sales of future receipts dated January 24, 2024. As of June 30, 2024, the total balance outstanding under the short-term loan is \$1,890,000, an unamortized debt discount of \$768,000, resulting in a net discount balance of \$1,122,000.

| | <u>Purchased Amount</u> | <u>Payments</u> | <u>Unamortized Debt Discount</u> | <u>Balance, Net of Discount</u> |
|---|-----------------------------|-----------------------|--------------------------------------|-------------------------------------|
| Current portion of other short-term loan liability – January 24, 2024 | \$ 1,512,000 | \$ (1,512,000) | \$ — | \$ — |
| Current portion of other short-term loan liability – June 20, 2024 | 1,890,000 | — | (768,000) | 1,122,000 |

Note 7 – Stockholders’ Equity

Capital Stock Issuances

Common Stock and Warrant Transaction

On February 16, 2024, the Company received a notification from an investor to convert \$ 100,000 of principal outstanding on a Convertible Note (see Note 6) into 79,828 shares of common stock at a conversion price of \$ 1.25.

On March 6, 2024, the Company entered into a warrant exercise agreement with several institutional investors holding warrants issued to such Investors pursuant a securities purchase agreement, dated as of June 5, 2023, in connection with a private placement. The Exercise Agreement provides that for those Investors who exercise their Existing Warrants they will receive a reduction in the Exercise Price to \$0.60 per share of Common Stock. The shares of Common Stock issuable upon exercise of the Existing Warrants were registered pursuant to a registration statement on Form S-1 File No. 333-273332 and declared effective on July 27, 2023. The Company received up to \$497,701 from the exercise of 829,500 warrants converted to 829,500 shares of common stock. The reduction in exercise price (“March 2024 Down Round Trigger”) triggered several anti-dilution protections embedded in outstanding Preferred Series F Convertible Stock and Common Stock Warrants (see below).

On April 12, 2024, the Company received an Investor Notice from Alpha for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,418,919 shares of Common Stock, in the aggregate, at a conversion price of \$ 0.74 and warrants to purchase up to 1,418,919 shares of Common Stock at an exercise price of \$0.74 per share for an aggregate purchase price of \$1,050,000.

On May 31, 2024, the Company entered into an Assignment Agreement (the “Assignment Agreement”) with Alpha pursuant to which, among other things, Alpha transferred and assigned to certain institutional and accredited investors (the “Assignees”), the rights and obligations to purchase up to \$525,000 of Series F Convertible Preferred and accompanying warrants pursuant to the Additional Investment Right provided in the SPA (the “Assigned Rights”).

In connection with the Assigned Rights, the Company received Investor Notices from Alpha and certain of the Assignees for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,632,970 shares of Common Stock at a conversion price of \$ 0.643 and warrants to purchase up to 1,632,970 shares of Common Stock at an exercise price of \$ 0.643 per share, the Company raised gross sales proceeds of \$1,050,000.

Preferred Series F Convertible Stock

Purchase History

On June 26, 2022 (the “Series F Closing Date”), the Company entered into a Securities Purchase Agreement (the “Series F Agreement”) with Alpha. Pursuant to the terms of the Series F Agreement, the Board of Directors of the Company (the “Board”) designated a new series of Preferred Stock, the Series F 5% Preferred Convertible Stock (“Series F”), and authorized the sale and issuance of up to 35,000 shares of Series F.

23

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)**

Note 7 – Stockholders' Equity-Continued

On March 9, 2023, the Company received an Investor Notice from Alpha to purchase an additional 3,000 shares of Series F Convertible Preferred (the "Additional Series F Preferred") convertible into 2,381 shares of the Company's Common Stock per \$1,000 Stated Value per share of Series F Preferred Stock, at an initial conversion price of \$8.40, post split per share and associated Common Stock warrant to purchase up to 357,136 shares of Common Stock, post-split, at an initial exercise price of \$8.40, post-split (the "Additional Warrant") for an aggregate purchase price of \$3,000,000. The Additional Warrant is exercisable upon issuance and has a three-year term. On March 10, 2023, the Company issued and sold the Additional Series F Preferred and the Additional Warrant. This issuance triggered anti-dilution provisions embedded in Series F and Common Stock warrants outstanding (the "March 2023 Down Round Trigger").

On March 6, 2024, in connection with the Assigned Rights, the Company received Investor Notices from Alpha and the Assignees for the aggregate purchase of 1,000 shares of Series F Convertible Preferred convertible into 829,394 shares of Common Stock at an initial conversion price of \$1.2057 and warrants to purchase up to 829,394 shares of Common Stock at an initial exercise price of \$1.2057 per share for an aggregate purchase price of \$1,000,000. The conversion price and exercise price are subject to adjustment based on anti-dilution protection provisions in connection with subsequent equity issuances embedded in the Securities Purchase Agreement. The Warrants were immediately exercisable upon issuance and have a three-year term.

On April 12, 2024, the Company received an Investor Notice from Alpha for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,418,919 shares of Common Stock, at a conversion price of \$0.74 per shares for an aggregate purchase price of \$1,050,000.

On May 31, 2024, the Company entered into an Assignment Agreement with Alpha pursuant to which, among other things, Alpha transferred and assigned to certain institutional and accredited investors, the rights and obligations to purchase up to \$525,000 of Series F Convertible Preferred and accompanying warrants pursuant to the Additional Investment Right provided in the SPA. Also, in connection with the Assigned Rights, the Company received Investor Notices from Alpha and certain of the Assignees for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,632,970 shares of Common Stock at a conversion price of \$0.643 at an exercise price of \$0.643 per share for an aggregate purchase price of \$1,050,000.

Conversions

For the three and six months ended June 30, 2024, Alpha and other investors converted 1,750 and 4,880 shares of Series F into 2,916,667 and 5,868,718 shares of Common Stock, respectively. As a result, for the same periods, the Company recorded \$49,748 and \$110,983 cumulative dividends, which are included in accrued expenses on the condensed consolidated balance sheets, at the rate per share (as a percentage of the \$1,000 stated par value per share of Series F) of 5% per annum, beginning on the first conversion date of June 30, 2022.

During the three and six months ended June 30, 2023, Alpha converted 840 and 1,838 shares of Series F into 2,000,000 and 4,304,762 shares of Common Stock, respectively. As a result, for the same periods, the Company recorded \$54,234 and \$121,155 cumulative dividends, respectively, which are included in accrued expenses on the condensed consolidated balance sheets, at the rate per share (as a percentage of the \$1,000 stated par value per share of Series F) of 5% per annum, beginning on the first conversion date of June 30, 2022.

As of June 30, 2024 and 2023, there are 4,295 and 7,865 Series F outstanding, respectively.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)**

Note 7 – Stockholders' Equity-Continued

Down Round Triggers and Anti-dilution

The reduced warrant exercise price of \$0.60 on March 6, 2024, the March 2024 Down Round Trigger, triggered anti-dilution protection provisions in connection with subsequent equity issuances embedded in the Series F and Common Stock warrants issued with the Series F. As a result, the Company recognized an aggregate deemed dividend of \$5,249,704 which has been reflected in stockholders' equity and increased the net loss available to common stockholders in the earning per share calculation as presented on the accompanying condensed consolidated statements of operations and comprehensive loss.

For the March 2024 Down Round Trigger, the deemed dividend on the Series F Warrants of \$147,030 represents the difference between fair value of the Series F Warrants under the original terms before the Down Round Trigger and the fair value of the Series F Warrants after the Down Round Trigger at the reduced exercise price. The fair value of the Series F Warrants was determined using a Black-Scholes pricing model and the following assumptions: expected life of 2-3 years, volatility of 196.80%, risk free rate of 4.55%, and dividend rate of 0%.

On May 31, 2024, the Company entered into an Assignment Agreement with Alpha pursuant to which, among other things, Alpha transferred and assigned to certain institutional and accredited investors, the rights and obligations to purchase up to \$525,000 of Series F Convertible Preferred and accompanying warrants pursuant to the Additional Investment Right provided in the SPA. The Assignment Agreement also provides that Alpha will receive a reduction in the Exercise Price (as defined in the Existing Warrants) from \$7.60 to \$0.60 per share of Common Stock for certain warrants previously issued to Alpha on June 5, 2023. As result, the company recorded a deemed dividend on the Series F Warrants of \$7,751 which represents the difference between fair value of the Series F Warrants under the original terms before the Down Round Trigger and the fair value of the Series F Warrants after the Down Round Trigger at the reduced exercise price.

The fair value of the Series F Warrants was determined using a Black-Scholes pricing model and the following assumptions: expected life of 4 years, volatility of 247.07%, risk free rate of 4.61%, and dividend rate of 0%.

Deemed Dividends

During the three and six months ended June 30, 2024, the deemed dividend on the Series F were \$7,751 and \$5,257,455, respectively which represents the value of the incremental shares issuable upon conversion of the Series F into shares of common stock at the reduced conversion price and the market price of the common stock on the date the Down Round Trigger occurred.

On March 9, 2023, the Company received an Investor Notice from Alpha to purchase an additional 3,000 shares of Series F Convertible Preferred

(the "Additional Series F Preferred") convertible into 2,381 shares of the Company's Common Stock per \$1,000 Stated Value per share of Series F Preferred Stock, at a conversion price of \$8.40 per share and associated common stock warrants to purchase up to 357,136 shares of Common Stock at the exercise price of \$8.40 per share warrant (the "Additional Warrant") for an aggregate purchase price of \$3,000,000. The Additional Warrant is exercisable upon issuance and has a three-year term. On March 10, 2023, the Company issued and sold the Additional Series F Preferred and the Additional Warrant.

As a result of issuing the additional 3,000 shares of Series F Convertible Preferred, a down round or anti-dilution trigger event occurred resulting in the conversion rate on the Series F and the exercise price of the Series F Warrants issued with the Series F adjusting down to \$8.40 from \$8.80 (the "March Down Round Trigger"). The March Down Round Trigger resulted in the Company recognizing a deemed dividend on the common stock warrants and Series F Preferred Stock of \$38,226 and \$217,750, respectively, or aggregate deemed dividend of \$255,976, for the incremental value to the warrant and Series F holder resulting from the reduction in exercise price and conversion price.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 7 – Stockholders' Equity-Continued

Upon the issuance of the Offering Shares and Warrants on June 8, 2023, a down round or anti-dilution trigger event occurred resulting in the conversion price of the remaining Series F Preferred Stock and the exercise price of the Series F Warrants adjusting down from \$8.40 per share to \$5.00 per share (the "June Down Round Trigger"). The June Down Round Trigger resulted in the Company recognizing a deemed dividend on the common stock warrants and Series F Preferred Stock of \$787,823 and \$3,867,095, respectively, or an aggregate deemed dividend of \$4,654,918, for the incremental value to the warrant and Series F holder resulting from the reduction in exercise price and conversion price.

The deemed dividend on the Series F Warrants represents the difference between fair value of the Series F Warrants under the original terms before the down round trigger and the fair value of the Series F Warrants after down round trigger at the reduced exercise price. The fair value of the Series F Warrants was determined using a Black-Scholes pricing model and the following assumptions: expected life of 2.5 years, volatility of 106%, risk free rate of 4.28%, and dividend rate of 0%.

All deemed dividends to the Series F stockholder were recorded as additional paid in capital and an increase to accumulated deficit and as an increase to total comprehensive loss attributable to Common Stockholders in computing earnings per share on the condensed consolidated statements of operations and comprehensive loss.

Stock-based Compensation

The Company determines the fair value of awards granted under the 2017 Omnibus Equity Incentive Plan (the "Equity Plan") based on the fair value of its Common Stock on the date of grant. Stock-based compensation expenses related to grants under the Equity Plan are included in general and administrative expenses on the condensed consolidated statements of operations and comprehensive loss. For the three and six-months ended June 30, 2024, the Company recorded \$28,535 and \$47,115, respectively. The stock-based compensation, for the same period during 2023, \$469,835 and \$982,365 were recorded, respectively.

Pension Costs

senseFly S.A. sponsors a defined benefit pension plan (the "Defined Benefit Plan") covering all its employees. The Defined Benefit Plan provides benefits in the event of retirement, death or disability, with benefits based on age and salary. The Defined Benefit Plan is funded through contributions paid by senseFly S.A. and its employees, respectively. The Defined Benefit Plan assets are Groupe Mutuel Prévoyance ("GMP"), which invests these plan assets in cash and cash equivalents, equities, bonds, real estate and alternative investments.

The Projected Benefit Obligation ("PBO") includes in full the accrued liability for the plan death and disability benefits, irrespective of the extent to which these benefits may be reinsured with an insurer. The actuarial valuations are based on the census data as of December 31, 2023, provided by GMP.

The Defined Benefit Plan has a PBO in excess of Defined Benefit Plan assets. For the three and six months ended June 30, 2024, the amounts recognized in accumulated other comprehensive loss related to the Defined Benefit Plan were \$0, compared to \$699 and \$44,044, respectively for the same period during 2023.

Restricted Stock Units ("RSUs")

For the six months ended June 30, 2024, a summary of RSU activity is as follows:

| | Shares | Weighted Average Grant Date Fair Value |
|-------------------------------------|----------|---|
| Outstanding as of December 31, 2023 | 152,703 | \$ 18.03 |
| Granted | 45,073 | 0.52 |
| Canceled | (989) | 9.66 |
| Vested and released | (34,361) | 15.06 |
| Outstanding as of June 30, 2024 | 162,426 | 14.18 |
| Vested as of June 30, 2024 | 135,046 | 16.40 |
| Unvested as of June 30, 2024 | 27,380 | \$ 3.24 |

For the six months ended June 30, 2024, the aggregate fair value of RSU awards at the time of vesting was \$ 21,478.

For the three and six months ended June 30, 2024, the Company recognized \$ 21,212 and \$31,073 of stock compensation expense, respectively, and had approximately \$23,000 of unrecognized stock-based compensation expense related to RSUs, which will be amortized over approximately twenty four months.

For the six months ended June 30, 2023, a summary of RSU activity is as follows:

| | Shares | Weighted Average Grant Date Fair Value |
|-------------------------------------|---------|--|
| Outstanding as of December 31, 2022 | 51,484 | \$ 46.22 |
| Granted | 82,300 | 7.91 |
| Canceled | (5,184) | 32.06 |
| Outstanding as of June 30, 2023 | 128,600 | 22.27 |
| Vested as of June 30, 2023 | 104,712 | 20.83 |
| Unvested as of June 30, 2023 | 23,888 | \$ 28.58 |

For the six months ended June 30, 2023, the aggregate fair value of RSU awards at the time of vesting was \$ 644,969.

For the three and six months ended June 30, 2023, the Company recognized \$ 381,155 and \$734,417 of stock compensation expense, respectively, and had \$170,717 of unrecognized stock-based compensation expense related to RSUs.

Issuance of RSUs to Current Officers and Directors of the Company

For the three and six months ended June 30, 2024, the Company granted 6,000 RSUs and 11,000 RSUs, respectively, equal to \$ 6,300 to the four non-executive directors as quarterly board compensation, which vested immediately.

For the three and six months ended June 30, 2023, upon recommendation of the Compensation Committee of the Board ("Compensation Committee"), in connection with the 2022 executive compensation plan granted to the officers of the Company, 48,435 RSUs post-split and 80,435 RSUs post-split, which vested immediately.

Note 7 – Stockholders' Equity-Continued

Stock Options

For the six months ended June 30, 2024, a summary of the options activity is as follows:

| | Shares | Weighted Average Exercise Price | Weighted Average Fair Value | Weighted Average Remaining Contractual Term (Years) | Aggregate Intrinsic Value |
|-------------------------------------|-----------|---------------------------------|-----------------------------|---|---------------------------|
| Outstanding as of December 31, 2023 | 125,264 | \$ 40.61 | \$ 22.04 | 23.80 | \$ 45,880 |
| Granted | — | — | — | — | — |
| Exercised | — | — | — | — | — |
| Expired/Forfeited | (122,014) | 38.42 | 20.87 | — | — |
| Outstanding as of June 30, 2024 | 3,250 | \$ 120.76 | \$ 64.92 | 1.49 | \$ — |
| Exercisable as of June 30, 2024 | 3,250 | \$ 120.76 | \$ 64.92 | 1.49 | \$ — |

As of June 30, 2024, the Company had no unrecognized compensation cost related to stock options.

Intrinsic value is measured using the fair market value at the date of exercise (for shares exercised) or as of June 30, 2024 (for outstanding options), less the applicable exercise price.

For the three and six months ended June 30, 2024, the Company recognized \$ 7,323 and \$16,042, respectively of stock compensation expense.

For the six months ended June 30, 2023, a summary of the options activity is as follows:

| | Shares | Weighted Average Exercise Price | Weighted Average Fair Value | Weighted Average Remaining Contractual Term (Years) | Aggregate Intrinsic Value |
|-------------------------------------|---------|---------------------------------|-----------------------------|---|---------------------------|
| Outstanding as of December 31, 2022 | 128,059 | \$ 43.68 | \$ 23.76 | 3.33 | \$ 9,750 |
| Granted | 13,750 | 7.00 | 3.23 | 3.02 | — |
| Exercised | — | — | — | — | — |
| Expired/Forfeited | (2,863) | 114.69 | 61.60 | — | — |
| Outstanding as of June 30, 2023 | 138,946 | \$ 38.59 | \$ 20.95 | 3.01 | \$ 9,750 |
| Exercisable as of June 30, 2023 | 111,608 | \$ 45.19 | \$ 24.69 | 2.65 | \$ 9,750 |

For the three and six months ended June 30, 2023, the Company recognized \$ 88,681 and \$247,948, respectively of stock compensation expense and had \$153,161 of total unrecognized compensation cost related to stock options, which will be amortized through June 30, 2025.

Note 7 – Stockholders' Equity-Continued

For the six months ended June 30, 2024 and 2023, the significant assumptions relating to the valuation of the Company's stock options granted were as follows:

| | June 30, | |
|-------------------------|----------|---------|
| | 2024 | 2023 |
| Stock price | \$ — | \$ 7.00 |
| Dividend yield | —% | —% |
| Expected life (years) | — | 3.02 |
| Expected volatility | —% | 64.37% |
| Risk-free interest rate | —% | 4.12% |

Issuances of Options to Officers and Directors

For the six months ended June 30 2024, no options were granted during this period.

On June 30, 2023, the Company issued to directors and officers options to purchase 6,250 shares of Common Stock at an exercise price of \$ 4.60 per share, which vest over a period of two years from the date of grant and expires on June 29, 2028. The Company determined the fair market value of these unvested options to be \$13,000. For the three and six months ended June 30, 2023, the Company recognized stock-based compensation expense of \$17, respectively, based upon the fair value market price of \$ 2.00.

On March 31, 2023, the Company issued to directors and officers options to purchase 7,500 shares of Common Stock at an exercise price of \$9.00 per share, which vest over a period of two years from the date of grant, and expire on March 30, 2028. The Company determined the fair market value of these unvested options to be \$31,350.

For the three and six months ended June 30, 2023, the Company recognized stock-based compensation expense of \$ 3,919 and \$3,961, respectively, based upon the fair value market price of \$4.20.

Cancellations of Options

For the six months ended June 30, 2024 and 2023, as a result of employee terminations and options expirations, stock options aggregating 122,014 and 2,863 with fair market values of \$ 2,489,019 and \$176,273 were canceled, respectively. Of the 122,014 stock options cancelled during the six months ended June 30, 2024, 45,297 were options historically granted to the Board of Directors, these options were cancelled and reissued as RSU's. Each option cancelled resulted in a subsequent grant of RSU's with ratio of 2 RSU's granted for each option cancelled.

Note 8 – Leases

Operating Leases

For the three and six months ended June 30, 2024 and 2023, operating lease expense payments were \$ 265,051 and \$510,101, respectively and \$264,430 and \$528,343, respectively. Operating lease expense payments are included in general and administrative expenses on the condensed consolidated statements of operations and comprehensive loss.

Note 8 – Leases-Continued

As of June 30, 2024 and December 31, 2023, balance sheet information related to the Company's operating leases is as follows:

| Balance Sheet Location | June 30, 2024 | December 31, 2023 |
|--------------------------------------|---------------|-------------------|
| Right-of-use-assets | \$ 2,916,300 | \$ 3,525,406 |
| Current portion of lease liabilities | \$ 892,172 | \$ 901,925 |
| Long-term portion lease liabilities | \$ 2,119,690 | \$ 2,721,743 |

As of Jun 30, 2024, scheduled future maturities of the Company's lease liabilities are as follows:

| Year Ending December 31, | |
|--|--------------|
| 2024 (rest of year) | \$ 522,487 |
| 2025 | 1,050,495 |
| 2026 | 828,672 |
| 2027 | 743,048 |
| 2028 | 185,762 |
| Total future minimum lease payments, undiscounted | 3,330,464 |
| Less: Amount representing interest | (318,602) |
| Present value of future minimum lease payments | \$ 3,011,862 |
| Present value of future minimum lease payments – current | \$ 892,172 |
| Present value of future minimum lease payments – long-term | \$ 2,119,690 |

As of June 30, 2024 and December 31, 2023, the weighted-average lease-term and discount rate of the Company's leases are as follows:

| Other Information | June 30, 2024 | December 31, 2023 |
|---|---------------|-------------------|
| Weighted-average remaining lease terms (in years) | 3.4 | 3.9 |
| Weighted-average discount rate | 6.1% | 6.1% |

For the three months ended June 30, 2024 and 2023, supplemental cash flow information related to leases is as follows:

Note 9 – Warrants

Warrants Issued

On May 31, 2024, the Company entered into an Assignment Agreement with Alpha pursuant to which, among other things, Alpha transferred and assigned to certain institutional and accredited investors, the rights and obligations to purchase up to \$525,000 of Series F Convertible Preferred and accompanying warrants pursuant to the Additional Investment Right provided in the SPA. The Assignment Agreement also provides that Alpha will receive a reduction in the Exercise Price (as defined in the Existing Warrants) from \$7.60 to \$0.60 per share of Common Stock for certain warrants previously issued to Alpha on June 5, 2023 (the “Existing Warrants”).

On May 31, 2024, in connection with the Assigned Rights, the Company received Investor Notices from Alpha and certain of the Assignees for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,632,970 shares of Common Stock at a conversion price of \$0.643 and warrants to purchase up to 1,632,970 shares of Common Stock (the “May Additional Warrants”) an exercise price of \$ 0.643 per share for an aggregate purchase price of \$1,050,000. The Warrants will be immediately exercisable upon issuance and have a three-year term.

On April 12, 2024, the Company received an Investor Notice from Alpha for the aggregate purchase of 1,050 shares of Series F Convertible Preferred convertible into 1,418,919 shares of Common Stock, in the aggregate, at a conversion price of \$ 0.74 and warrants to purchase up to 1,418,919 shares of Common Stock at an exercise price of \$0.74 per share (based on the VWAPs of the Company’s common stock for April 9, 2024, April 10, 2024, and April 11, 2024) for an aggregate purchase price of \$1,050,000. The Warrants will be immediately exercisable upon issuance and have a three-year term.

On March 6, 2024, in connection with the Assigned Rights, the Company received Investor Notices from Alpha and the Assignees for the aggregate purchase of 1,000 shares of Series F Convertible Preferred convertible into 829,394 shares of Common Stock at an initial conversion price of \$1.2057 and warrants to purchase up to 829,394 shares of Common Stock (the “March Warrants”) an initial exercise price of \$ 1.2057 per share for an aggregate purchase price of \$1,000,000. The Warrants will be immediately exercisable upon issuance and have a three-year term. Both the Series F and Warrants include anti-dilution protection provisions in connection with subsequent equity issuances.

On March 6, 2024 the down round provisions were triggered due to reduction in the exercise price on certain outstanding warrants to induce exercise, resulting in a reduction in the conversion price and exercise price to \$0.60 (see Note 7 and below).

The Company entered into an Engagement Letter, dated March 6, 2024, with Dawson James Securities, Inc. (“Dawson”) pursuant to which Dawson agreed to serve as the sole placement agent for the Company, on a reasonable best efforts basis, in connection with the placement of the March Preferred Shares and associated March Warrants.

Pursuant to the Engagement Letter, the Company issued to Dawson the Dawson Warrants to purchase up to 136,861 shares of Common Stock at an initial exercise price of \$1.51 per share, equal to 10% of the total number of March Warrants sold in the March Private Placement (exclusive of the March Warrants sold to Alpha). Subsequent to the issuance of the Dawson Warrants, on April 12, 2024, Dawson assigned 125,000 of the Dawson Warrants to certain of the Selling Shareholders. The Dawson Warrants have the same terms as the March Warrants except that the Dawson Warrants have a five (5) year term and do not include any anti-dilution protection provisions in connection with a subsequent equity issuance, or otherwise.

31

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 9 – Warrants- Continued

On March 9, 2023, the Company received an Investor Notice from Alpha (described above in Note 7) resulting in the issuance of a Common Stock warrant to purchase up to 357,136 shares of Common Stock, post split at the exercise price of \$ 8.40 per share warrant (the “Additional Warrant”) for an aggregate purchase price of \$3,000,000. The Additional Warrant is exercisable upon issuance and has a three-year term. On March 10, 2023, the Company issued and sold the Additional Series F Preferred along with the associated Additional Warrant. On June 5, 2023, upon entering the Purchase Agreement a Down Round was triggered reducing the exercise price of the Additional Warrant to \$5.00.

Warrants Exercised

On March 6, 2024, the Company entered into a warrant exercise agreement (the “Exercise Agreement”) with several institutional investors (“Investors”) holding warrants issued to such Investors pursuant a securities purchase agreement, dated as of June 5, 2023, in connection with a private placement (the “Existing Warrants”). The Exercise Agreement provides that for those Investors who exercise their Existing Warrants for the amount of 829,500 they will receive a reduction in the Exercise Price (as defined in the Existing Warrants) to \$ 0.60 per share of Common Stock. The shares of Common Stock issuable upon exercise of the Existing Warrants were registered pursuant to a registration statement on Form S-1 and declared effective on July 27, 2023. The Company received \$497,701 from the exercise of the Existing Warrants. This reduction in exercise price triggered down round provisions embedded in the outstanding Series F and Common Stock warrants issue with Series F resulting in the recognition of a deemed dividend (see Note 7).

A summary of activity related to warrants for the periods presented is as follows:

| | Shares | Weighted Average Exercise Price | Weighted Average Remaining Contractual Term |
|-------------------------------------|-----------|------------------------------------|---|
| Outstanding as of December 31, 2022 | 1,056,452 | 0.60* | — |

(UNAUDITED)

Note 10 – Commitments and Contingencies

Existing Employment and Board Agreements

The Company has various employment agreements with certain of its executive officers and directors that serve as Board members, which it considers normal and in the ordinary course of business.

The Company has no other formal employment agreements with its executive officers, nor any compensatory plans or arrangements resulting from the resignation, retirement, or any other termination of its our named executive officers, from a change in control, or from a change in any executive officer's responsibilities following a change in control. However, it is possible that the Company will enter into formal employment agreements with its executive officers in the future.

Effective as of April 15, 2024, Mr. Grant Begley ceased to serve as the Interim Chief Executive Officer of the Company, and the Company and William ("Bill") Irby entered into an Executive Employment Agreement (the "Employment Agreement") setting forth the terms of Bill Irby's appointment as Chief Executive Officer and Director of the Company effective as of April 15, 2024. As previously announced, Bill Irby had served as President of the Company, since February 12, 2024. Mr. Begley continues as Chairman of the Board of the Company.

Pursuant to the Employment Agreement, Bill Irby will receive an annual base salary of \$ 375,000 per year, subject to annual performance reviews by the Compensation Committee of the Board of Directors (the "Compensation Committee"). In accordance with the 2017 Omnibus Equity Incentive Plan and any related RSU award agreement, and as approved by the Compensation Committee, Mr. Irby will be eligible to receive a sign on bonus of restricted stock units ("RSUs") with a fair value of up to \$60,000 and a sign on performance bonus of RSUs with a fair value of up to \$ 300,000. In addition, Mr. Irby is entitled to receive an annual performance bonus, which will be determined each year by the Compensation Committee. Pursuant to the Employment Agreement, Mr. Irby is also provided with severance benefits in the event of termination without cause.

On March 6, 2024, AgEagle Aerial Systems Inc. entered into a letter agreement with Dawson pursuant to which Dawson has agreed to serve, on an exclusive basis for a period of four months, as the sole placement agent for the Company, in connection with the offering of equity securities and equity-linked securities of the Company, including any restructuring, exercise and/or conversion solicitation and/or renegotiating the terms of any warrants to purchase shares of common stock, par value \$0.001 per share and the solicitation of exercise of any additional investment right with respect to Securities of the Company.

Pursuant to the Engagement Agreement, the Company will pay a cash fee equal to \$ 68,862 and issue to Dawson warrants to purchase such number of shares of Common Stock, equal to 10% of the aggregate number of shares of Common Stock issued or issuable in the Offerings. These Placement Agent Warrants will have the same terms as any warrants included in any Offering except that such Placement Agent Warrants will have a five (5) year term, an exercise price equal to 125% of the offering price per share and will not include any anti-dilution protection provisions in connection with a subsequent equity issuance, or otherwise.

Purchase Commitments

The Company routinely places orders for manufacturing services and materials. As of June 30, 2024, the Company had purchase commitments of \$2,933,887. These purchase commitments are expected to be realized during the year ending December 31, 2024.

AGEAGLE AERIAL SYSTEMS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2024 AND 2023
(UNAUDITED)

Note 12 – Subsequent Events

Management has evaluated subsequent events through the date that the Company's unaudited condensed consolidated financial statements were issued. Based on this evaluation, the Company has determined that no additional subsequent events have occurred, other than those noted below, which require disclosure through the date that these unaudited condensed consolidated financial statements were issued.

During the period from July 1, 2024, through August 14, 2024, Alpha converted 616 shares of Series F into 1,152,916 shares of Common Stock.

Amendment to Promissory Note

As previously reported on a Current Report on Form 8-K filed on June 30, 2022, the Company entered into a Securities Purchase Agreement, dated June 26, 2022 (the "Original SPA"), as subsequently amended by the Series F SPA Amendment Agreement dated February 8, 2024 (the "Series F Amendment Agreement", and together with the Original SPA, the "SPA"), with Alpha Capital Anstalt ("Alpha"), pursuant to which Alpha purchased 10,000 shares of the Company's Series F 5% Convertible Preferred Stock (the "Series F Convertible Preferred") and a warrant to purchase 5,212,510 shares of the Company's Common Stock. Pursuant to the terms of the SPA, Alpha had the right to purchase up to an aggregate of \$25,000,000 stated value of the Series F Convertible Preferred and accompanying warrants (the "Additional Investment Right"), at a purchase price equal to the volume-weighted average prices ("VWAPs") of the Company's common stock for three trading days prior to the date Alpha gives notice to the Company that it will exercise its Additional Investment Right.

On July 25, 2024, the Company and Alpha entered into that certain SPA Amendment Agreement (the "2024 Amendment"), pursuant to which the SPA was amended to (i) increase the time period in which Alpha may exercise its Additional Investment Right to December 31, 2025, and (ii) lowered the minimum additional investment amount from \$1,000,000 to \$500,000. In conjunction the Company and Alpha entered into that certain Note Amendment Agreement (the "Note Amendment"), pursuant to which the Convertible Note was amended to, (i) increase the principal balance of the Convertible Note by \$586,286 to \$4,850,828 representing accrued interest of \$159,832.70 and \$426,454.20 as liquidated damages for the Company's failure to make the June and July Amortization Payments, (ii) defer the June 3, 2024, July 1, 2024 and August 1, 2024, Amortization Payments to the Maturity Date, and (iii) waive the defaults related to the failure to make the June 3, 2024 and July 1, 2024 Amortization Payments

36

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion highlights the principal factors that have affected our financial condition and results of operations as well as our liquidity and capital resources for the periods described. This discussion should be read in conjunction with our Condensed Consolidated Financial Statements and the related notes included in Item 8 of this Form 10-K. This discussion contains forward-looking statements. Please see the explanatory note concerning "Forward-Looking Statements" in Part I of the Annual Report on Form 10-K and Item 1A. Risk Factors for a discussion of the uncertainties, risks and assumptions associated with these forward-looking statements. The operating results for the periods presented were not materially affected by inflation.

Overview

AgEagle™ Aerial Systems Inc. ("AgEagle", "Company", "We", "Our", "Us"), through its wholly owned subsidiaries, is actively engaged in designing and delivering best-in-class drones, sensors and software that solve important problems for our customers. Founded in 2010, AgEagle was originally formed to pioneer proprietary, professional-grade, fixed-winged drones and aerial imagery-based data collection and analytics solutions for the agriculture industry. AgEagle's shift and expansion from solely manufacturing fixed-wing farm drones in 2018, to offering what we believe is one of the industry's best fixed-wing, full-stack drone solutions, culminated in 2021 when we acquired three market-leading companies engaged in producing UAS airframes, sensors and software for commercial and government use. In addition to a robust portfolio of proprietary, connected hardware and software products; an established global network of over 200 UAS resellers; and enterprise customers worldwide; these acquisitions also brought AgEagle a highly valuable workforce comprised largely of experienced engineers and technologists with deep expertise in the fields of robotics, automation, manufacturing and data science. In 2022, we succeeded in integrating all three acquired companies with AgEagle to form one global company focused on taking autonomous flight performance to a higher level for a wider variety of markets, including defense and security.

AgEagle has also achieved numerous regulatory firsts, earning governmental approvals for its commercial and tactical drones to fly Beyond Visual Line of Sight ("BVLOS") and/or Operations Over People ("OOP") in the United States, Canada, Brazil and the European Union.

AgEagle is led by a proven management team with years of drone industry experience and is currently headquartered in Wichita, Kansas, where we house our business and sensor manufacturing operations; and we operate drone manufacturing operations in Lausanne, Switzerland in support of our international business activities.

We are focused on growing our business, generating cash, and preserve our leadership position by developing new drones, sensors and embedded software and capturing a significant share of the global drone market. In addition, we expect to accelerate our growth and expansion through product development and strategic acquisitions of companies that offer distinct technological and competitive advantages and have defensible high value IP protection in place, if applicable.

Key Growth Strategies

We intend to materially grow our business by leveraging our proprietary, best-in-class, full-stack drone solutions, multi-spectral sensors, industry influence, and deep pool of talent with specialized expertise in robotics, automation, custom manufacturing and data science to achieve greater penetration of the global UAS industry – with near-term emphasis on adding stability and discipline to our operations, and capturing larger market share of the agriculture, defense, security, and civil/commercial markets. We expect to accomplish this goal by first bringing three core values to life in our day-to-day operations and aligning them with our efforts to earn the trust and continued business of our customers and industry partners:

37

- **Curiosity** – this pushes us to find value where others aren't looking. It inspires us to see around corners for our customers, understanding the problems they currently face or will be facing in the future, and delivering them solutions best suited for their unique needs.
- **Passion** – this fuels our obsession with excellence, our desire to try the difficult things and tackle big problems, and our commitment to meet our customers' needs – and then surpass them.
- **Integrity** – this is not optional or situational at AgEagle – it is the foundation for everything we do, even when no one is watching.

Key components of our growth strategy include the following:

- **Shift priority to a Laser-like focus on the higher volume defense & security market.** Despite predictions of rapid growth in the commercial space, drone surveillance action in the defense and security world has outpaced commercial application in volume and overall growth. The current world situation further emphasizes the need for our products, and the validity of the defense market. AgEagle will focus on defense growth initiatives while continuing to execute, grow, and maximize our position in precision agriculture and other civil and commercial markets.
- **Deliver new and innovative solutions.** AgEagle's research and development efforts are critical building blocks of the Company, and we intend to continue investing in innovation, not only in our products, but also in innovative business models and operational methods
- **Foster our entrepreneurial culture on a bedrock of trust and integrity, continuing to attract, develop and retain highly skilled personnel.** The AgEagle culture encourages innovation and entrepreneurialism, which helps attract and retain highly skilled professionals. In addition, AgEagle is dedicated to integrity and transparency in its business, external, and internal relationships.
- **Effectively manage our growth portfolio for long-term value creation.** Our production and development programs present numerous investment opportunities that we believe will deliver long-term growth by providing our customers with valuable new capabilities. We evaluate each opportunity, and its cost, against our mission and strategic priorities, as well as near and mid-term expected returns. This process helps us make informed decisions regarding potential growth capital requirements and supports our allocation of resources based on relative risks and returns to maximize long-term value creation, which is the key objective of our growth strategy.
- **Growth through acquisition.** Through successful identification of high-value acquisition targets, we plan to acquire technologically advanced companies and intellectual property across an array of airborne platforms, focused robotic technologies, and a variety of artificial intelligence-enabled robotics and supporting technologies that complement and strengthen our value proposition.

38

Competitive Strengths

We believe that the following attributes and capabilities provide us with long-term competitive advantages:

- **Proprietary technologies, in-house capabilities and industry experience** – We believe our decade of experience in commercial UAS design and engineering, in-house manufacturing, assembly and testing capabilities, and advanced technology development skillset serve to differentiate AgEagle in the marketplace. In fact, approximately 70% of our global workforce is comprised of engineers and data scientists with deep experience and expertise in robotics, automation, custom manufacturing, and data analytics. In addition, AgEagle is committed to meeting and exceeding quality and safety standards for manufacturing, assembly, design and engineering and testing of drones, drone subcomponents and related drone equipment in our U.S. and Swiss-based manufacturing operations. As a result, we have earned ISO:9001 international certification for our Quality Management System.
- **We leverage maximum use of commercial technology:** At AgEagle, we excel in designing and manufacturing small UAS, along with sensors and software tailored for UAS applications, providing versatile solutions like our latest product the eBee VISION UAS. This integration of commercial technology with dual-use capabilities enables our customers to effectively address a diverse range of operational challenges.
- **Our design, production, and support are user-centric:** Our commitment to incorporating user feedback into our product development process is paramount. By collaborating closely with our end-users, we ensure that our product lines align with their specific needs and requirements. Through our expertise in drone and sensor design and our close connection with our end-users, they benefit from cutting-edge technologies that meets their demands across military, first responder, agriculture and surveyor sectors while leveraging the advantages of commercial innovation.
- **We offer market-tested drones, sensors and system software that have earned the longstanding trust and fidelity of customers worldwide** – Through successful execution of our acquisition integration strategy in 2021, AgEagle is now delivering a unified line of industry trusted drones, sensors and software that have been vigorously tested and consistently proven across multiple industry verticals and use cases. For instance, our line of eBee fixed wing drones have flown more than one million flights over the past decade serving customers spanning military/defense, surveying and mapping; engineering and construction; mining, quarries and aggregates; agriculture; humanitarian aid and environmental monitoring, to name just a few. Featured in over 100 research publications globally, advanced sensor innovations developed and commercialized by AgEagle have served to forge new industry standards for high performance, high resolution, thermal and multispectral imaging for commercial drone applications in agriculture, plant research, land management and forestry. In addition, we have championed the development of end-to-end software solutions which power autonomous flight and deliver actionable, contextual data and analytics for numerous Fortune 500 companies, government agencies and a wide range of businesses in agriculture, energy and utilities, construction and other industry sectors.

In August 2022, we announced that the **eBee X**, **eBee GEO** and **eBee AG** were the first commercial drones to be designated with the **C2 class identification label in accordance with EASA regulations**. As of August 22, 2022, drone operators flying C2 labeled eBees are able to conduct missions in the "Open Category" with all the advantages that this entails. The C2 certification allows the eBee X series, with correct labelling, to fly at a horizontal distance of 30 meters from uninvolved people. By contrast, heavy drones like VTOLs or quadcopters must maintain a distance of 150 meters from people and any residential, commercial, industrial and recreational areas, limiting their operational capabilities to remote zones.

In late 2022, we partnered with government contractor **Darley** to expand the market reach of **AgEagle's high performance fixed wing drones and sensors to the U.S. first responder and tactical defense markets**. Distinguished as one of the nation's longest standing government contracting organizations, Darley is expected to become a key contributor to AgEagle's success in delivering best-in-class UAS solutions to a wide range of state and federal agencies. Providing our best-in-class autonomous flight solutions for public safety applications through trusted resellers like Darley represents an entirely new market opportunity for AgEagle and one we intend to vigorously pursue in the current year.

- **In December 2022, we unveiled our new eBee™ VISION**, a small, fixed-wing UAS designed to provide real-time, enhanced situational awareness for critical intelligence, surveillance and reconnaissance missions. This system is packaged for mobile/tactical users, with highly automated command and control software that proves compatible and is in full compliance with the U.S. DoD Robotic and Autonomous System-Air Interoperability Profile ("RAS-A IOP"). Beginning 2023, three branches of the European military have received eBee VISION drones. In collaboration with these initial end users, we've meticulously designed the eBee VISION User Interface to ensure optimal usability and compatibility with commercial, professional, and NATO standards. This unique interface, when paired with the eBee VISION Ground Control Station, offers highly automated flight modes and precise telemetry to operators, enhancing overall operational efficiency and effectiveness.
- **Our eBee TAC™ UAS is available for purchase for all military branches of US** – We believe that the eBee TAC is ideally positioned to become an in-demand, mission critical tool for the U.S. military, government and civil agencies and our allies worldwide, positively impacting our financial performance in the years ahead. In addition to being available for purchase under our own GSA Schedule Contract, the eBee TAC is available for purchase by U.S. government agencies and all branches of the military on GSA Schedule Contract #47QTCA18D003G, supplied by Hexagon US Federal as a standalone solution or as part of the Aerial Reconnaissance Tactical Edge Mapping Imagery System ("ARTEMIS").

AgEagle was awarded a Multiple Award Schedule ("MAS") Contract by the U.S. federal government's General Services Administration ("GSA") – In April 2023, the centralized procurement arm of the federal government, the GSA, awarded us with a five-year MAS contract. The GSA Schedule Contract is a highly coveted award in the government contracting space and is the result of a rigorous proposal process involving the demonstration of products and services in-demand by government agencies, and the negotiation of their prices, qualifications, terms and conditions. Contractors selling through the GSA Contract are carefully vetted and must have a proven track record in the industry. We believe that this will serve to advance our efforts to achieve deeper penetration of the government sector over the next five years.

In July 2023 alone, we completed a comprehensive training session with our first European military customers, who were confirmed as eBee VISION operators and qualified trainers of new users. These new customers confirmed with AgEagle's technical teams that all operational capabilities of the eBee VISION continue to meet and exceed performance benchmarks in scouting, surveillance, usability, fast deployment and flight time, among other use case criteria specified by the international military community. We have also been working in close collaboration with our network of valued added reselling partners in France, United Kingdom, Poland, Italy and Spain, among other countries, to conduct live demonstrations and technical exchanges with prospective new customers, with emphasis on showcasing use of eBee VISION UAS for public safety and first responder missions, border patrol and a wide range of commercial applications. On September 6, 2023, the Company announced that commercial production of the eBee VISION had commenced and orders for the systems are being accepted since then.

In early October 2023, the eBee X series of drones were designated with the C6 class identification label in accordance with European Union regulations. As of January 1, 2024, drone operators of C6-labeled eBees will be able to conduct BVLOS operations with airspace observers over a controlled ground area in a sparsely populated environment throughout Europe. Operators simply need to submit a required declaration with their applicable National Aviation Authority indicating whether they intend to fly missions in accordance with the European Standard Scenario- ("STS-") 01 or STS-02. The inclusion of the C6 marking alongside our C2-labeled eBee drones will significantly enhance the market advantages for our European customers. It grants access to areas and operational modes restricted to drones weighing over 4 kg, all without the requirement for formal permissions or regulatory waivers. Currently, only eBee drones possess both the C2 and C6 marking, affirming their status as the safest choice for flying over people and conducting BVLOS operations. As of January 1, 2024, drone operators of C6-labeled eBees will be able to conduct BVLOS operations with airspace observers over a controlled ground area in a sparsely populated environment throughout Europe. Operators simply need to submit a required declaration with their applicable National Aviation Authority indicating whether they intend to fly missions in accordance with the European Standard Scenario- ("STS-") 01 or STS-02. The inclusion of the C6 marking alongside our C2-labeled eBee drones will significantly enhance the market advantages for our European customers. It grants access to areas and operational modes restricted to drones weighing over 4 kg, all without the requirement for formal permissions or regulatory waivers. Currently, only eBee drones possess both the C2 and C6 marking, affirming their status as the safest choice for flying over people and conducting BVLOS operations.

In March of 2024, we were selected to provide 50 RedEdge-P cameras for use by Greece's Hellenic Republic Ministry of Rural Development. These will be used for optimum monitoring of agricultural activity such as soil analysis, irrigation, crop quality/maturity, and vegetation indices, all critical to maximizing the output of agricultural products. This award serves as a continued validation of our product in a world focusing more and more on optimizing output for a rapidly growing population. Investment in our sensor product line continues, with focus on optimizing performance through introduction of new hardware and processing algorithms.

- **Our eBee™ X series of fixed wing UAS, including the eBee X, eBee Geo and eBee TAC, were the first on the market to comply with Category 3 of the sUAS Over People rules published by the FAA.** It is another important testament of our commitment to providing best-in-class solutions to our commercial customers, and we believe it will serve as a key driver in the growth of eBee utilization in the United States. We further believe it will improve the business applications made possible by our drone platform for a wide range of commercial enterprises which stand to benefit from adoption of drones in their businesses – particularly those in industries such as insurance for assessment of storm damage, telecommunications for network coverage mapping and energy for powerline and pipeline inspections, just to name a few.

- **Our eBee X series of drones are the world's first UAS in its class to receive design verification for BVLOS and OOP from European Union Aviation Safety Agency ("EASA").** The EASA design verification report demonstrates that the eBee X meets the highest possible quality and ground risk safety standards and, thanks to its lightweight design, effects of ground impact are reduced. As such, drone operators conducting advanced drone operations in 27 European Member States, Iceland, Liechtenstein, Norway, and Switzerland can obtain the HIGH or MEDIUM robustness levels of the M2 mitigation without additional verification from EASA. Regulatory constraints relating to limitations of BVLOS and OOP have continued to be a gating factor to widespread adoption of commercial drone technologies across a wide range of industry sectors worldwide. Being the first company to receive this DVR from EASA for M2 mitigation is a milestone for AgEagle and our industry in the European Union and will be key to fueling growth of our international customer base.

Impact of the Risks and Uncertainties On Our Business Operations

Global economic challenges, including the impact of the war, pandemics, rising inflation and supply-chain disruptions, regulatory investigations adverse labor and capital market conditions could cause economic uncertainty and volatility. The aforementioned risks and their respective impacts on the UAV industry and our operational and financial performance remain uncertain and outside of our control. Specifically, because of the aforementioned continuing risks, our ability to access components and parts needed in order to manufacture its proprietary drones and sensors, and to perform quality testing have been, and continue to be, impacted. If either we or any of our third parties in the supply chain for materials used in our manufacturing and assembly processes continue to be adversely impacted, our supply chain may be further disrupted, limiting its ability to manufacture and assemble products.

Three and Six Months Ended June 30, 2024 as Compared to Three and Six Months Ended June 30, 2023

Revenues

For the three months ended June 30, 2024, revenues were \$3,392,538 as compared to \$3,278,212 for the three months ended June 30, 2023, an increase of \$114,326, or 3.5%. The increase of \$114,326 was attributable to an increase of \$67,677 revenues derived from our sensor sales, specifically the *RedEdge* and *Altum™* panchromatic series, an increase of \$83,773 in revenues of the eBee drone products, offsetting these increases was a decline of \$37,124 in our SaaS subscription services related to the *Ground Control* platforms. Our continued innovation has demonstrated growth in our sales leading to strong demand for our products, specifically for our panchromatic sensor series.

For the six months ended June 30, 2024, revenues were \$7,286,985 as compared to \$7,335,281 for the six months ended June 30, 2023, a decrease of \$48,296 or 0.7%. The decline in revenues is mainly attributed to the eBee drone products of \$736,057 and \$43,261 of our SaaS subscription services related to our *HempOverview* and *Ground Control* platforms. Offsetting these decreases was an increase in revenues of \$731,022 attributable to the revenues derived from our sensor sales, specifically the *RedEdge-P* and *Altum-PT* panchromatic sensor series. Our continued innovation has demonstrated growth in our sales leading to strong demand of our products, specifically for our panchromatic sensor series, offsetting this growth are delays in our newly announced VISION drone product.

Cost of Sales and Gross Profit

For the three months ended June 30, 2024, cost of sales was \$1,837,963 as compared to \$2,246,678 for the three months ended June 30, 2023, a decrease of \$408,715 or 18.2%. For the three months ended June 30, 2024, gross profit was \$1,554,575 as compared to \$1,031,534 for the three months ended June 30, 2023, an increase of \$523,041, or 50.7%. The primary factors contributing to the decrease in our cost of sales and the increase gross profit margin were due to the historical inventory adjustments and new bill of material system implementation.

For the six months ended June 30, 2024, cost of sales was \$3,777,988 as compared to \$4,325,115 for the six months ended June 30, 2023, a decrease of \$547,127, or 12.6%. For the six months ended June 30, 2024, gross profit was \$3,508,997 or 48.2% as compared to \$3,010,166 or 41% for the six months ended June 30, 2023, an increase of \$498,831, or 16.6% in actual gross margin. The increase in gross profit margin was a result of our drone products along with significant price reduction in the second quarter of 2023 to stimulate market demand and bring us in line specifically with competitive products manufactured in China as our products become older while awaiting the new ebee *VISION*. In addition to drone sales our sensor sales continue to experience supply chain pressure related to our sensor sales specifically as a result of an increase in raw components and labor costs.

Operating Expenses

For the three months ended June 30, 2024, operating expenses were \$4,095,043, as compared to \$5,903,372 for the three months ended June 30, 2023, a decrease of \$1,808,329, or 30.6%.

For the six months ended June 30, 2024, operating expenses were \$8,443,353, as compared to \$12,043,112 for the six months ended June 30, 2023, a decrease of \$3,599,759, or 29.9%.

Operating expenses comprise general and administrative, sales and marketing, and research and development.

General and Administrative Expenses

For the three months ended June 30, 2024, general and administrative expenses were \$2,359,105 as compared to \$3,498,761 for the three months ended June 30, 2023, a decrease of \$1,139,656 or 32.6%. The decrease was primarily related to less stock compensation expense related to terminated employees, and the reduced stock price, less intangible amortization during 2024 due to the impairment recorded on December 31, 2023, less shareholders annual meeting cost, offset by legal fees, accounting and consulting expense.

For the six months ended June 30, 2024, general and administrative expenses were \$5,041,763 as compared to \$7,078,283 for the six months ended June 30, 2023, a decrease of \$2,036,520, or 28.8%. The decrease was primarily a result of the reduction in employee payroll related costs due to integration of roles, ERP consulting integration costs, reduction in R&D consultants, less stock compensation costs, less intangible amortization during 2024 due to the impairment recorded on December 31, 2023, less shareholders annual meeting costs offset by an increase in legal, accounting, consulting, and recruitment costs during 2024.

Research and Development

For the three months ended June 30, 2024, research and development expenses were \$1,082,007 as compared to \$1,369,479 for the three months ended June 30, 2023, a decrease of \$287,472, or 21.0%. The decrease was primarily due to the integration of research and development teams that provide development of our new airframe, sensor and software technologies resulting in a reduction in our consultants and internal headcounts.

For the six months ended June 30, 2024, research and development expenses were \$2,212,236, as compared to \$2,951,822 for the six months ended June 30, 2023, a decrease of \$739,586, or 25.1%. The decrease was primarily due to the integration of research and development teams that provide development of our new airframe, sensor and software technologies resulting in a reduction in our consultants and internal headcounts.

Sales and Marketing

For the three months ended June 30, 2024, sales and marketing expenses were \$653,931 as compared to \$955,845 for the three months ended June 30, 2023, a decrease of \$301,914, or 31.6%. The decrease was primarily due to the decrease in travel, integration of sales and marketing teams that lead to a reduction of consulting expenses along with decrease in digital advertising spend as we look to attend in-person trade shows.

For the six months ended June 30, 2024, sales and marketing expenses were \$1,189,354 as compared to \$1,933,720 for the six months ended June 30, 2023, a decrease of \$744,366, or 38.5%. The decrease was primarily due to the integration of sales and marketing teams, along with a decrease in consulting expenses due to branding and website integration done in prior year along with less trade-shows offset by more in-person demos with our sales and marketing team for the new *ebee VISON*.

Other Expense, net

For the three months ended June 30, 2024, other expense, net was \$389,240 as compared to \$418,745 for the three months ended June 30, 2023, a decrease of \$29,505.

For the six months ended June 30, 2024, other expense, net was \$4,310,939 as compared to other income, net of \$857,136 for the six months ended June 30, 2023, an increase of \$3,453,803. The increase is primarily attributable to the promissory note's original issue discount of 4% and interest at 8% per annum issued in December 2022 along with the anti-dilution price protections embedded in the convertible note that were triggered during the six months ended June 30, 2024, we recognized interest expense of \$3,488,851 for the incremental value of the convertible note conversion feature being reduced from its original conversion price of \$1.25 to \$0.60 which is the gross amount recorded in the prior quarter of 2024.

Net Loss

For the three months ended June 30, 2024, we incurred a net loss of \$2,929,708 as compared to a net loss of \$5,290,583 for the three months ended June 30, 2023, a decrease of \$2,360,875, or 44.6%. The decrease of the losses are related to the above mentioned reductions of costs related to general and administrative, research and development, and sales and marketing.

For the six months ended June 30, 2024, the Company incurred a net loss of \$9,245,295 as compared to a net loss of \$9,890,082 for the six months ended June 30, 2023, a decrease of \$644,787, or 6.5%. The overall decrease in net loss was primarily attributable to a decrease in operating costs.

Cash Flows

Six Months Ended June 30, 2024 as Compared to the Six Months Ended June 30, 2023

As of June 30, 2024, cash on hand was \$977,208, as compared to \$819,024 as of December 31, 2023, a increase of \$158,184, or 19.3%.

For the six months ended June 30, 2024, cash used in operations was \$2,983,430, a decrease of \$3,799,889 or 56.0%, as compared to cash used of \$6,783,320 for the six months ended June 30, 2023. The decrease in cash used in operating activities was principally driven by the lower operating expenses which included significantly lower inventory purchases and prepayments offset by higher accounts receivables, account payables and accrued expenses.

For the six months ended June 30, 2024, cash used in investing activities was \$92,995, a decrease of \$331,349, or 78.1%, as compared to cash used of \$424,344 for the six months ended June 30, 2023. The decrease is related to the capitalization of the internal software during 2023 which did not continued in 2024.

For the six months ended June 30, 2024, cash provided by financing activities was \$3,289,258 a decrease of \$3,487,215 or 51.5%, as compared to cash provided of \$6,776,473 for the six months ended June 30, 2023. The decrease in cash provided by our financing activities was due to less sales of our Common stock through an at-the-market offering and exercise of warrants in the prior year offset by the sale of Series F Preferred stock.

Liquidity and Capital Resources

As of June 30, 2024, we had a working capital deficit of \$2,809,813. For the six months ended June 30, 2024, we incurred a loss from operations of \$4,934,356, a decrease of \$4,098,590, or 45.4%, as compared to \$9,032,946 for the six months ended June 30, 2023. While we have historically been successful in raising capital to meet its working capital needs, the ability to continue raising such capital to enable us to continue our growth is not guaranteed. We will require additional liquidity to continue its operations and meet its financial obligations over the next twelve months, there is substantial doubt about our ability to continue as a going concern. We are evaluating strategies to obtain the required additional funding for future operations and the restructuring of operations to grow revenues and reduce expenses.

Off-Balance Sheet Arrangements

On June 30, 2024, we did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources. Since our inception, except for standard operating leases, we have not engaged in any off-balance sheet arrangements, including the use of structured finance, special purpose entities or variable interest entities. We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Inflation

During the six months ended June 30, 2024, inflation has had a negative impact on the unmanned aerial vehicle systems industry, our customers, and our business globally. Specifically, our ability to access components, parts and labor needed to manufacture its proprietary drones and sensors, and to perform quality testing have been, and continue to be, impacted. If either the Company or any of its third parties in the supply chain for materials used in our manufacturing and assembly processes continue to be adversely impacted, our supply chain may be further disrupted, limiting its ability to manufacture and assemble products. We expect inflation and its effects to continue to have a significant negative impact on our business.

Climate Change

Our opinion is that neither climate change, nor governmental regulations related to climate change, have had, or are expected to have, any material effect on our operations.

New Accounting Pronouncements

In December 2023, FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures ("ASU 2023-09"). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 requires public business entities to disclose, on an annual basis, a rate reconciliation presented in both dollars and percentages. The guidance requires the rate reconciliation to include specific categories and provides further guidance on disaggregation of those categories based on a quantitative threshold equal to 5% or more of the amount determined by multiplying pretax income (loss) from continuing operations by the applicable statutory rate. For entities reconciling to the US statutory rate of 21%, this would generally require disclosing any reconciling items that impact the rate by 1.05% or more. ASU 2023-09 is effective for public business entities for annual periods beginning after December 15, 2024 (generally, calendar year 2025) and effective for all other business entities one year later. Entities should adopt this guidance on a prospective basis, though retrospective application is permitted. The adoption of ASU 2023-09 is expected to have a financial statement disclosure impact only and is not expected to have a material impact on the Company's consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, Segment Reporting – Improvements to Reportable Segment Disclosures. The ASU will now require public entities to disclose its significant segment expenses categories and amounts for each reportable segment. Under the ASU, a significant segment expense is an expense that is:

44

- significant to the segment,
- regularly provided to or easily computed from information regularly provided to the chief operating decision maker and
- included in the reported measure of segment profit or loss.

The ASU is effective for public entities for fiscal years beginning after December 15, 2023, and interim periods in fiscal years beginning after December 15, 2024 (calendar year public entity will adopt the ASU in its 2024 Form 10-K). The ASU should be adopted retrospectively unless its impracticable to do so. Early adoption of the ASU is permitted, including in an interim period. The adoption of ASU 2023-07 is expected to have a financial statement disclosure impact only and is not expected to have a material impact on the Company's consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, we are not required to provide information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure and Control Procedures

The Company's Chief Executive Officer and the Company's Chief Financial Officer evaluated the effectiveness of the Company's disclosure controls and procedures as of June 30, 2024 and concluded that the Company's disclosure controls and procedures are not effective. The term disclosure controls and procedures means controls and other procedures that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated, recorded, processed, summarized and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure to be reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting, as defined in Rules 13a-15(t) and 15d-15(f) under the Exchange Act, during the six months ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Material Weakness over a Complex Debt Transaction

During the preparation of our interim condensed consolidated financial statements for the period ended March 31, 2024, we identified a material weakness in our internal controls related to the accounting for a complex debt transaction. Specifically, the controls related to accounting for the modification of the convertible debt agreement.

In response to the unique, one-time and unusual transaction that took place in Q1 2024, the company has negotiated a contract with a technical accounting expert to help with the review of these types of transactions.

45

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934, and are not required to provide the information under this item.

ITEM 2. RECENT SALES OF UNREGISTERED EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

CERTIFICATION

I, William Irby, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the six months ended June 30, 2024 of AgEagle Aerial Systems Inc. (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
