## Note 1. Summary of Significant Accounting Policies

### **Significant Accounting Policies and Estimates**

No material changes have been made to the significant accounting policies of Super Micro Computer, Inc., a corporation incorporated under the laws of Delaware, and its consolidated entities (together, the "Company"), disclosed in Part II, Item 8, Note 1, "Organization and Summary of Significant Accounting Policies," in its Annual Report on Form 10-K, filed on August 28, 2023, for the year ended June 30, 2023. Management's estimates take into consideration, as applicable, general macroeconomic conditions, inflation, changes in interest rates and geopolitical events.

### **Basis of Presentation**

The unaudited condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations.

The unaudited condensed consolidated financial statements included herein reflect all adjustments, including normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the consolidated financial position, results of operations and cash flows for the periods presented. The consolidated results of operations for the three and six months ended **September 30, 2023** **December 31, 2023** are not necessarily indicative of the results that may be expected for future quarters or for the fiscal year ending June 30, 2024.

Certain prior year amounts within cash from operating activities in the condensed consolidated statements of cash flows have been reclassified to conform to current year presentation. These changes in presentation do not affect previously reported results.

### **Concentration of Supplier Risk**

Certain materials used by the Company in the manufacturing of its products are available from a limited number of suppliers. Shortages could occur in these materials due to an interruption of supply or increased demand in the industry. Two suppliers accounted for **55.1%** **68.1%** and **10.3%** **7.3%** of total purchases for the three months ended **September 30, 2023** **December 31, 2023**, and the same two suppliers accounted for **25.7%** **17.6%** and **16.1%** **14.1%** of total purchases for the three months ended **September 30, 2022** **December 31, 2022**. Two suppliers accounted for 62.9% and 8.6% of total purchases for the six months ended December 31, 2023, and the same two suppliers accounted for 22.3% and 15.3% of total purchases for the six months ended December 31, 2022. The increase in concentration of total purchases to one of the Company's suppliers to **55.1%** **68.1%** and **62.9%** of total purchases for the three and six months ended **September 30, 2023** **December 31, 2023**, respectively, is as a result of the purchase of **GPUs** **key components** to build its solutions for the Company's customers. Purchases from Ablecom, and Compuware, related parties of the Company (see Part I, Item 1, Note 8, "Related Party Transactions") accounted for a combined **6.4%** **3.6%** and **6.7%** of total cost of sales for both the three months ended **September 30, 2023** **December 31, 2023** and **2022**, respectively, and a combined **4.6%** and **6.6%** of total cost of sales for the six months ended December 31, 2023 and 2022, respectively.

### **Concentration of Credit and Customer Risk**

Financial instruments which potentially subject the Company to concentration of credit risk consist primarily of cash and cash equivalents, restricted cash and accounts receivable.

**Three** **Four** customers accounted for **15.7%** **26.7%**, **14.5%** **16.3%**, **13.0%** and **10.3%** **11.3%** of accounts receivable, net as of **September 30, 2023** **December 31, 2023**. Two customers accounted for 22.9% and 19.3% of accounts receivable, net as of June 30, 2023. These accounts receivable represent a concentration of credit risk to the Company.

**One** customer accounted for **25.0%** of the net sales for the three months ended **September 30, 2023**. **One** customer accounted for **21.9%** of the net sales for the three months ended **September 30, 2022**.

Two customers accounted for 25.5% and 10.4% of the net sales for the three months ended December 31, 2023 and one customer accounted for 25.3% of the net sales for the six months ended December 31, 2023. No single customer accounted for 10% or more of the net sales for the three months ended December 31, 2022, and one customer accounted for 15.8% of the net sales for the six months ended December 31, 2022.

### **Accounting Pronouncements Not Yet Adopted**

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures. This ASU requires that a public entity provide additional segment disclosures on an interim and annual basis. The amendments in this ASU should be applied retrospectively to all prior periods presented in the financial statements unless impracticable. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. The ASU is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The Company is currently evaluating this guidance and the impact it may have on its financial statement disclosures.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which includes amendments that further enhance income tax disclosures, primarily through standardization and disaggregation of rate reconciliation categories and income taxes paid by jurisdiction. The amendments are effective for the Company's annual periods beginning July 1, 2025, with early adoption permitted, and should be applied either prospectively or retrospectively. The Company is currently evaluating this guidance and the impact it may have on its financial statement disclosures.

**Note 2. Revenue**

**Disaggregation of Revenue**

The Company disaggregates revenue by type of product and by the geographical market. Service revenues, which are less than 10%, are not a significant component of total revenue, and are aggregated within the respective categories.

The following is a summary of net sales by product type (in thousands):

			Three Months Ended		Six Months Ended		
			December		December 31,		
	September 30,		31,	2023	2022	2023	2022
Server and storage systems	Server and storage systems	\$1,966,608	\$1,713,056				
Subsystems and accessories	Subsystems and accessories	153,064	139,074				
Total	Total	\$2,119,672	\$1,852,130				

Server and storage systems constitute an assembly and integration of subsystems and accessories, and related services. Subsystems and accessories are comprised of server boards, chassis and accessories.

#### Contract Balances

Generally, the payment terms of the Company's offerings range from 30 to 60 days. In certain instances, customers may prepay for products and services in advance of delivery. Receivables relate to the Company's unconditional right to consideration for performance obligations either partially or fully completed.

Contract assets are rights to consideration in exchange for goods or services that the Company has transferred to a customer when such right is conditional on something other than the passage of time. Such contract assets are insignificant to the Company's condensed consolidated financial statements.

Contract liabilities consist of deferred revenue and relate to amounts invoiced to or advance consideration received from customers, which precede the Company's satisfaction of the associated performance obligations. The Company's deferred revenue primarily results from customer payments received upfront for extended warranties and on-site services because these performance obligations are satisfied over time. Additionally, at times, deferred revenue may fluctuate due to the timing of advance consideration received from non-cancellable non-refundable contract liabilities relating to the sale of future products. Revenue recognized during the three and six months ended **September 30, 2023** **December 31, 2023**, which was included in the opening deferred revenue balance as of June 30, 2023, of \$304.4 million, was **\$43.7 million**, **\$31.5 million** and **\$75.2 million**, respectively.

**SUPER MICRO COMPUTER, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)**  
**(Unaudited)**

Deferred revenue increased **\$36.1 million** **\$79.2 million** as of **September 30, 2023** **December 31, 2023** as compared to the fiscal year ended June 30, 2023. This increase was mainly due to a **\$21.1 million** **\$44.3 million** increase in non-cancellable non-refundable advance consideration or cash consideration received from customers which preceded the Company's satisfaction of the associated performance obligations relating to product sales expected to be fulfilled in the next 12 months.

#### Transaction Price Allocated to the Remaining Performance Obligations

Remaining performance obligations represent in aggregate the amount of transaction price that has been allocated to performance obligations not delivered, or only partially delivered, as of the end of the reporting period. The Company applies the exemption to not disclose information about remaining performance obligations that are part of a contract that has an original expected duration of one year or less. These performance obligations generally consist of services, such as on-site services, including integration services and extended warranty services that are contracted for one year or less, and products for which control has not yet been transferred. The value of the transaction price allocated to remaining performance obligations as of **September 30, 2023** **December 31, 2023** was approximately **\$340.5 million** **\$383.6 million**. The Company expects to recognize approximately **49%** **50%** of remaining performance obligations as revenue in the next 12 months, and the remainder thereafter.

#### Capitalized Contract Acquisition Costs and Fulfillment Cost

Contract acquisition costs are those incremental costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Contract acquisition costs consist primarily of incentive bonuses paid to Company employees. Contract acquisition costs are considered incremental and recoverable costs of obtaining and fulfilling a contract with a customer and are therefore capitalizable. The Company applies the practical expedient to expense incentive bonus costs as incurred if the amortization period would be one year or less, generally upon delivery of the associated server and storage systems or components. Where the amortization period of the contract cost would be more than a year, the Company applies judgment in the allocation of the incentive bonus cost asset between hardware and service performance obligations and expenses the cost allocated to the hardware performance obligations upon delivery of associated server and storage systems or components and amortizes the cost allocated to service performance obligations over the period the services are expected to be provided. Contract acquisition costs allocated to service performance obligations that are subject to capitalization are insignificant to the Company's condensed consolidated financial statements.

Contract fulfillment costs consist of costs paid in advance for outsourced services provided by third parties to the extent they are not in the scope of other guidance. Fulfillment costs paid in advance for outsourced services provided by third parties are capitalized and amortized over the period the services are expected to be provided. Such fulfillment costs are insignificant to the Company's condensed consolidated financial statements.

**Note 5. Fair Value Disclosure**

The financial instruments of the Company measured at fair value on a recurring basis are included in cash equivalents, other assets and accrued liabilities. The Company classifies its financial instruments, except for its investment in an auction rate security, within Level 1 or Level 2 in the fair value hierarchy because the Company uses quoted prices in active markets or alternative pricing sources and models using market observable inputs to determine their fair value.

[Table of Contents](#)

**SUPER MICRO COMPUTER, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)**  
**(Unaudited)**

The Company's investment in an auction rate security is classified within Level 3 of the fair value hierarchy as the determination of its fair value was not based on observable inputs as of **September 30, 2023** December 31, 2023 and June 30, 2023. The Company is using the discounted cash flow method to estimate the fair value of the auction rate security at each period end and the following assumptions: (i) the expected yield based on observable market rate of similar securities, (ii) the security coupon rate that is reset monthly, (iii) the estimated holding period and (iv) a liquidity discount. The liquidity discount assumption is based on the management estimate of lack of marketability discount of similar securities and is determined based on the analysis of financial market trends over time, recent redemptions of securities and other market activities.

See "Part II. Item 8. Financial Statements and Supplementary Data – Note 7. Short-term and Long-term Debt" of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2023 for a more complete description of the Company's credit facilities.

The Company entered into a new **General Credit Agreement with CTBC Bank** agreements during the **three six** months ended **September 30, 2023** **December 31, 2023** with the following terms:

#### CTBC Bank

##### 2023 CTBC Bank Credit Lines

On September 28, 2023 (the "Effective Date"), the Company's Taiwan subsidiary entered into a new general agreement for omnibus credit lines with CTBC Bank, which replaces the prior CTBC credit lines in their entirety and permits for borrowings, from time to time, thereunder pursuant to various individual credit arrangements and includes the previously issued long and medium term loan facility of NTD 1,550.0 million entered in 2021 and 2020 (the "Long and Medium Loan Facility"), and each of (i) a short-term loan and guarantee line providing credit of up to NTD1,250.0 million and NTD100.0 million, respectively (the "NTD Short Term Loan/Guarantee Line"), (ii) a short-term loan providing a line of credit of up to \$40.0 million (the "USD Short Term Loan Line"), and (iii) an export/import o/a loan line providing a line of credit of up to \$105.0 million for exports and \$50.0 million for imports (the "Export/Import Line," and, together with the NTD Short Term Loan/Guarantee Line and the USD Short Term Loan Line, the "New CTBC Credit Lines"). Aggregate borrowings under the New CTBC Credit Lines together is subject to a cap of \$105.0 million.

#### SUPER MICRO COMPUTER, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (Unaudited)

Interest rates under each of the individual New CTBC Credit Lines are to be established according to individual credit arrangements, which interest rates shall be subject to adjustment depending on the satisfaction of certain conditions. Each of the NTD Short Term Loan/Guarantee Line and USD Short Term Loan Line are secured by certain of the Company's Taiwan subsidiary's assets, including certain property, land, and plant. The tenor for each of the individual New CTBC Credit Lines is one year. For the Long and Medium Loan Facility, the Taiwan subsidiary is subject to various financial covenants, including current ratio, debt service coverage ratio, and financial debt ratio requirements. In the event the Taiwan subsidiary does not satisfy such financial covenants, CTBC Bank is permitted to, among other things, reduce the permitted total borrowings to a cap of \$70.0 million from \$105.0 million. Additional covenants require, among other things, the Company to maintain ownership of all of the capital stock of its Taiwan subsidiary and prohibit secondary mortgages on certain assets securing various of the New CTBC Credit Lines. The New CTBC Credit Lines have customary default provisions permitting CTBC Bank to suspend the extension of credit, reduce the credit line, shorten the credit extension term, or declare all principal and interest amounts immediately due and payable upon the occurrence of an event of default.

The Company's Taiwan subsidiary intends to use borrowings under the New CTBC Credit Lines in connection with financing of eligible accounts receivable and accounts payable (vendor invoices) and to finance additional improvements to the Company's Bade Manufacturing Facility located in Taiwan.

As of December 31, 2023, the outstanding borrowings under the 2023 CTBC Bank Credit Lines were \$36.9 million. The interest rate for these loans were 1.96% - 6.52% per annum as of December 31, 2023.

#### HSBC Bank

##### *2023 HSBC Bank Credit Lines*

On December 7, 2023, the Company's Taiwan subsidiary entered into a new Facility Letter with the Taiwan affiliate of HSBC Bank. The New Facility Letter is substantially identical to the prior Facility Letter entered into with HSBC Bank on February 7, 2023. The New Facility Letter permits borrowings up to a combined aggregate limit of \$50 million which may be comprised of borrowings under a New Taiwan Dollar revolving facility with a sub-limit of NTD 300 million (the "NTD Revolver") and an export/seller facility with a sub-limit of \$50 million (the "Export/Seller Facility", and together with the NTD Revolver, the "HSBC Bank Credit Lines"). Interest under both the NTD Revolver and Export/Seller Facility is based on HSBC Bank's base rate plus a fixed margin, subject to adjustment under certain circumstances. Interest payments thereunder are due on a monthly basis, or such other interest period as agreed by HSBC Bank, and principal is repayable on the due date.

Amounts due under the New Facility Letter are currently not secured, but subject to HSBC Bank's right of set-off and right to repayment on demand and call for cash coverage.

As of December 31, 2023, the outstanding borrowings under HSBC Bank Credit Lines were \$29.7 million. The interest rates for these loans were 1.90% - 6.37% per annum as of December 31, 2023.

Neither Charles Liang nor Sara Liu own any capital stock of Compuware and the Company does not own any of Ablecom or Compuware's capital stock. **In addition, a sibling of Yih-Shyan (Wally) Liaw, who is our Senior Vice President, Business Development and a director, owns approximately 11.7% of Ablecom's capital stock and 8.7% of Compuware's capital stock.**

**Dealings with Ablecom**

The Company has entered into a series of agreements with Ablecom, including multiple product development, production and service agreements, product manufacturing agreements, manufacturing services agreements and lease agreements for warehouse space.

Under these agreements, the Company outsources to Ablecom a portion of its design activities and a significant part of its server chassis manufacturing as well as an immaterial portion of other components. Ablecom manufactured approximately **85.5%** **87.2%** and **98.4%** **95.5%** of the chassis included in the products sold by the Company during the three months ended **September 30, 2023** December 31, 2023 and 2022, respectively, and 86.3% and 91.8% of the chassis included in the products sold by the Company during the six months ended December 31, 2023 and 2022, respectively. With respect to design activities, Ablecom generally agrees to design certain agreed-upon products according to the Company's specifications, and further agrees to build the tools needed to manufacture the products. The Company pays Ablecom for the design and engineering services, and further agrees to pay Ablecom for the tooling. The Company retains full ownership of any intellectual property resulting from the design of these products and tooling.

**(Unaudited)**

With respect to the manufacturing aspects of the relationship, Ablecom purchases most of materials needed to manufacture the chassis from third parties and the Company provides certain components used in the manufacturing process (such as power supplies) to Ablecom through consignment or sales transactions. Ablecom uses these materials and components to manufacture the completed chassis and then sell them back to the Company. For the components purchased from the Company, Ablecom sells the components back to the Company at a price equal to the price at which the Company sold the components to Ablecom. The Company and Ablecom frequently review and negotiate the prices of the chassis the Company purchases from Ablecom. In addition to inventory purchases, the Company also incurs other costs associated with design services, tooling and other miscellaneous costs from Ablecom.

The Company's exposure to financial loss as a result of its involvement with Ablecom is limited to potential losses on its purchase orders in the event of an unforeseen decline in the market price and/or demand of the Company's products such that the Company incurs a loss on the sale or cannot sell the products. Outstanding cancellable and non-cancellable purchase orders from the Company to Ablecom on **September 30, 2023** December 31, 2023 were **\$49.5** **\$49.1** million and **\$27.7** **\$37.5** million, respectively, and outstanding cancellable and non-cancellable purchase orders from the Company to Ablecom on June 30, 2023 were \$37.4 million and \$23.7 million, respectively, effectively representing the exposure to financial loss. The Company does not directly or indirectly guarantee any obligations of Ablecom, or any losses that the equity holders of Ablecom may suffer. Since Ablecom manufactures substantially all the chassis that the Company incorporates into its products, if Ablecom were to suddenly be unable to manufacture chassis for

the Company, the Company's business could suffer if the Company is unable to quickly qualify substitute suppliers who can supply high-quality chassis to the Company in volume and at acceptable prices.

*Dealings with Compuware*

The Company has entered into a distribution agreement with Compuware, under which the Company appointed Compuware as a non-exclusive distributor of the Company's products in Taiwan, China and Australia. Compuware assumes the responsibility to install the Company's products at the site of the end customer, if required, and administers customer support in exchange for a discount from the Company's standard price for its purchases.

The Company also has entered into a series of agreements with Compuware, including multiple product development, production and service agreements, product manufacturing agreements, and lease agreements for office space.

Under these agreements, the Company outsources to Compuware a portion of its design activities and a significant part of its power supplies manufacturing as well as an immaterial portion of other components. With respect to design activities, Compuware generally agrees to design certain agreed-upon products according to the Company's specifications, and further agrees to build the tools needed to manufacture the products. The Company pays Compuware for the design and engineering services, and further agrees to pay Compuware for the tooling. The Company retains full ownership of any intellectual property resulting from the design of these products and tooling. With respect to the manufacturing aspects of the relationship, Compuware purchases most of materials needed to manufacture the power supplies from outside markets and uses these materials to manufacture the products and then sell those products to the Company. The Company and Compuware frequently review and negotiate the prices of the power supplies the Company purchases from Compuware.

Compuware also manufactures motherboards, backplanes and other components used on printed circuit boards for the Company. The Company sells to Compuware most of the components needed to manufacture the above products. Compuware uses the components to manufacture the products and then sells the products back to the Company at a purchase price equal to the price at which the Company sold the components to Compuware, plus a "manufacturing value added" fee and other miscellaneous material charges and costs including overhead and labor. The Company and Compuware frequently review and negotiate the amount of the "manufacturing value added" fee that will be included in the price of the products the Company purchases from Compuware. In addition to the inventory purchases, the Company also incurs costs associated with design services, tooling assets, and miscellaneous costs.

The Company does not directly or indirectly guarantee any obligations of Compuware, or any losses that the equity holders of Compuware may suffer.

*Dealings with Investment in a Corporate Venture*

In October 2016, the Company entered into agreements pursuant to which the Company contributed certain technology rights in connection with an investment in a privately-held company (the "Corporate Venture") located in China to expand the Company's presence in China. The Corporate Venture is 30% owned by the Company and 70% owned by another company in China. The transaction was closed in the third fiscal quarter of 2017 and the investment is accounted for using the equity method. As such, the Corporate Venture is also a related party.

The Company recorded a deferred gain related to the contribution of certain technology rights. There was no balance in the deferred gain in the consolidated balance sheets as of **September 30, 2023** **December 31, 2023** and June 30, 2023.

The Company monitors the investment for events or circumstances indicative of potential impairment and makes appropriate reductions in carrying values if it determines that an impairment charge is required. In June 2020, the third-party parent company that controls the Corporate Venture was placed on a U.S. government export control list, along with several of such third-party parent's related entities and a separate listing for one of its subsidiaries. The Corporate Venture is not itself a restricted party. The Company has concluded that the Corporate Venture is in compliance with the new restrictions. The Company does not believe that the equity investment carrying value is impacted as of **September 30, 2023** **December 31, 2023**. No impairment charge was recorded for the three and six months ended **September 30, 2023** **December 31, 2023** or 2022.

The Company sold products worth **\$0.8** **\$11.4** million and **\$11.3** **\$6.0** million to the Corporate Venture during the three months ended **September 30, 2023** **December 31, 2023** and 2022, respectively, and \$12.2 million and \$17.3 million to the Corporate Venture during the six months ended December 31, 2023 and 2022, respectively. The Company's share of intra-entity profits on the products that remained unsold by the Corporate Venture as of **September 30, 2023** **December 31, 2023** and June 30, 2023 have been eliminated and have reduced the carrying value of the Company's investment in the Corporate Venture. To the extent that the elimination of intra-entity profits reduces the investment balance below zero, such amounts are recorded within accrued liabilities. The Company had **\$0.2** **\$3.5** million and \$1.9 million due from the Corporate Venture in accounts receivable, net as of **September 30, 2023** **December 31, 2023** and June 30, 2023, respectively.

#### Note 9. Stock-based Compensation and Stockholders' Equity

##### **Equity Incentive Plan**

On June 5, 2020, the stockholders of the Company approved the 2020 Equity and Incentive Compensation Plan (the "Original 2020 Plan"). The maximum number of shares available under the Original 2020 Plan is 5,000,000 plus 1,045,000 shares of common stock that remained available for future awards under the 2016 Equity Incentive Plan (the "2016 Plan"), at the time of adoption of the Original 2020 Plan. No other awards can be granted under the 2016 Plan and 7,246,000 shares of common stock remain reserved for outstanding awards issued under the Original 2016 Plan at the time of adoption of the Original 2020 Plan. On May 18, 2022, the stockholders of the Company approved an amendment and restatement of the Original 2020 Plan (as amended and restated, the "2020 Plan") which, among other things, increased the number of shares available for award under the 2020 Plan by an additional 2,000,000 shares.

On January 22, 2024, the stockholders of the Company approved a further amendment and restatement of the Original 2020 Plan (as amended and restated from time to time, the "2020 Plan") which, among other things, further increased the number of shares available for award under the 2020 Plan by an additional 1,500,000 shares.

Under the 2020 Plan, the Company can grant stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance units, dividend equivalents, and certain other awards, including those denominated or payable in, or otherwise based on, the Company's common stock. The exercise price per share for incentive stock options granted to employees owning shares representing more than 10% of the Company's outstanding voting stock at the time of grant cannot be less than 110% of the fair value of the underlying shares on the grant date. Nonqualified stock options and incentive stock options granted to all other persons are granted at a price not less than 100% of the fair value. Options generally expire ten years after the date of grant. Stock options and RSUs generally vest over four years; 25% at the end of one year and one sixteenth per quarter thereafter.

As of September 30, 2023 December 31, 2023, the Company had 1,324,299 483,780 authorized shares available for future issuance under the 2020 Plan.

##### **Offering of Common Stock**

On December 5, 2023, the Company completed a public offering of 2,415,805 shares of the Company's common stock at \$262.00 per share, with 2,315,105 shares sold by the Company and 100,700 shares sold by selling stockholders.

The Company received net proceeds of approximately \$582.8 million, after deducting underwriting discounts and commissions and offering expenses payable by the Company. The Company did not receive any proceeds from the sale of the shares of common stock by the selling stockholders.

#### Common Stock Repurchase and Retirement

On August 3, 2022, after the expiration of a prior share repurchase program on July 31, 2022, a duly authorized subcommittee of the Company's Board approved a new share repurchase program to repurchase shares of the Company's common stock for up to \$200 million at prevailing prices in the open market. The share repurchase program is effective until January 31, 2024 or until the maximum amount of common stock is repurchased, whichever occurs first. Under the common stock repurchase program, shares may be purchased from time to time in open market transactions, block trades, through plans established under the Securities Exchange Act Rule 10b5-1, or otherwise. The number of shares purchased and the timing of such purchases are based on working capital requirements, market and general business conditions, and other factors, including alternative investment opportunities.

No shares were repurchased under the share repurchase program during the three and six months ended September 30, 2023 December 31, 2023. As of September 30, 2023 December 31, 2023, \$50.0 million was available for additional repurchases of common stock. The share repurchase program was effective until January 31, 2024, at which time the remaining unutilized portion of such program expired.

#### Determining Fair Value

The Company's fair value of RSUs and PRSUs is based on the closing market price of the Company's common stock on the date of grant. The Company estimates the fair value of stock options granted using the Black-Scholes-option-pricing model. This fair value is then amortized ratably over the requisite service periods of the awards, which is generally the vesting period. The key inputs in using the Black-Scholes-option-pricing model were as follows:

Expected Term—The Company's expected term represents the period that the Company's stock-based awards are expected to be outstanding and was determined based on the Company's historical experience.

Expected Volatility—Expected volatility is based on the Company's implied and historical volatility.

Expected Dividend—The Black-Scholes valuation model calls for a single expected dividend yield as an input and the Company has no plans to pay dividends.

#### Stock Option Activity

## 2021 CEO Performance Award

In March 2021, the Company's Compensation Committee of the Board of Directors (the "Compensation Committee") approved the grant of a stock option award for 1,000,000 shares of common stock to the Company's CEO (the "2021 CEO Performance Stock Option"). The 2021 CEO Performance Stock Option has five vesting tranches with a vesting schedule based entirely on the attainment of operational milestones (performance conditions) and market conditions, assuming (1) continued employment either as the CEO or in such capacity as agreed upon between the Company's CEO and the Board and (2) service through each vesting date. Each of the five vesting tranches of the 2021 CEO Performance Stock Option will vest upon certification by the Compensation Committee that both (i) the market price milestone for such tranche, which begins at \$45.00 per share for the first tranche and increases up to \$120.00 per share thereafter (based on a 60 trading day average stock price), has been achieved, and (ii) any one of five operational milestones focused on total revenue, as reported under U.S. GAAP, have been achieved for the previous four consecutive fiscal quarters. Upon vesting and exercise, including the payment of the exercise price of \$45.00 per share, prior to March 2, 2024, the Company's CEO must hold shares that he acquires until March 2, 2024, other than those shares sold pursuant to a cashless exercise where shares are simultaneously sold to pay for the exercise price and any required tax withholding.

**2023 CEO Performance Award**

In November 2023, the Compensation Committee approved the grant of a stock option award for 500,000 shares of common stock to the Company's CEO (the "2023 CEO Performance Stock Option"). The 2023 CEO Performance Stock Option has five vesting tranches with a vesting schedule based entirely on the attainment of operational milestones (performance conditions) and market conditions, assuming (1) continued employment either as the CEO or in such capacity as agreed upon between the Company's CEO and the Board and (2) service through each vesting date. Each of the five vesting tranches of the 2023 CEO Performance Stock Option will vest upon certification by the Compensation Committee that both (i) the market price milestone for such tranche, which begins at \$450.00 per share for the first tranche and increases up to \$1,100.00 per share thereafter (based on a 60 trading day average stock price), has been achieved, and (ii) any one of five operational milestones focused on total revenue, as reported under U.S. GAAP, have been achieved for the previous four consecutive fiscal quarters. Upon vesting and exercise, including the payment of the exercise price of \$450.00 per share, prior to November 14, 2026, the Company's CEO must hold shares that he acquires until November 14, 2026, other than those shares sold pursuant to a cashless exercise where shares are simultaneously sold to pay for the exercise price and any required tax withholding.

The achievement status of the operational and stock price milestones as of December 31, 2023 was as follows:

Annualized Revenue Milestone (in billions)	Achievement Status	Stock Price Milestone	Achievement Status
\$13.0	Probable	\$450	Not met
\$15.0	Not Probable	\$600	Not met
\$17.0	Not Probable	\$750	Not met
\$19.0	Not Probable	\$900	Not met
\$21.0	Not Probable	\$1,100	Not met

During the three and six months ended December 31, 2023, the Company recognized compensation expense related to the 2023 CEO Performance Stock Option of \$2.5 million. As of December 31, 2023, the Company had \$27.4 million in unrecognized compensation cost related to the 2023 CEO Performance Stock Option. The unrecognized compensation cost as of December 31, 2023 is expected to be recognized over a period of 1.75 years.

On the respective grant date, dates of each of the 2021 CEO Performance Award and the 2023 CEO Performance Award, a Monte Carlo simulation was used to determine for each tranche of each award (i) a fixed expense amount for such tranche and (ii) the future time when the market price milestone for such tranche was expected to be achieved, or its "expected market price milestone achievement time." Separately, based on a subjective assessment of the Company's future financial performance, each quarter, the Company will determine whether achievement is probable for each operational milestone that has not previously been achieved or deemed probable of achievement, and, if so, the future time when the Company expects to achieve that operational milestone, or its "expected operational milestone achievement time." When the Company first determines that an operational milestone has become probable of being achieved, the Company will allocate the entire expense for the related tranche over the number of quarters between the grant date and the then-applicable "expected vesting time." The "expected vesting time" at any given time is the later of (i) the expected operational milestone achievement time (if the related operational milestone has not yet been achieved) and (ii) the expected market price milestone achievement time (if the related market price milestone has not yet been achieved). The Company will immediately recognize a catch-up expense for all accumulated expenses from the respective grant date through the quarter in which the operational milestone was first deemed probable of being achieved. Each quarter thereafter, the Company will recognize the prorated portion of the then-remaining expense for the tranche based on the number of quarters between such quarter and the then-applicable expected vesting time, except that upon vesting of a tranche, all remaining expenses for that tranche will be immediately recognized.

During the following table summarizes stock option activity during the three six months ended September 30, 2023 and 2022, the Company recognized compensation expense related to the 2021 CEO Performance Stock Option of \$0.2 million and \$1.3 million, respectively. As of September 30, 2023 and June 30, 2023, the Company had \$0.5 million and \$0.7 million, respectively, in unrecognized compensation cost related to the 2021 CEO Performance Stock Option. **Note 10. Income Taxes**

The Company recorded a provision for income taxes of \$20.2 million and \$38.9 million for the three and six months ended September 30, 2023 December 31, 2023, respectively, and \$29.6 million and \$68.5 million for the three and six months ended December 31, 2022, respectively. The effective tax rate was 11.4% 17.3% and 17.4% 15.3% for the three and six months ended September 30, 2023 December 31, 2023, respectively, and 2022, 14.3% and 15.9% for the three and six months ended December 31, 2022, respectively. The effective tax rate for the three months ended September 30, 2023 December 31, 2023 is lower than that for the three months ended September 30, 2022 December 31, 2022, primarily due to a 2% increase caused by a reduction of foreign derived intangible income which is subject to lower income tax rate than a statutory tax rate of 21%. In addition, there was a 1% increase caused by more non tax deductible stock-based compensation for officers over one million dollars threshold. The effective tax rate for the six months ended December 31, 2023 is lower than that for the six months ended December 31, 2022, primarily due to an increase in the tax deduction for stock-based compensation in the three six months ended September 30, 2023 December 31, 2023.

The Tax Cuts and Jobs Act of 2017 eliminated the option to deduct research and development ("R&D") expenses in the year incurred and instead requires taxpayers to capitalize R&D expenses, including software development cost, and subsequently amortize such expenses over five years for R&D activities conducted in the United States and over fifteen years for R&D activities conducted outside of the United States beginning in the Company's fiscal year 2023. Although Congress has considered legislation that would defer, modify, and repeal the capitalization and amortization requirement, there is no assurance the provision will be deferred, repealed, or otherwise modified.

The Company believes that it has adequately provided reserves for all uncertain tax positions; however, amounts asserted by tax authorities could be greater or less than the Company's current position. Accordingly, the Company's provision on federal, state and foreign tax related matters to be recorded in the future may change as revised estimates are made or as the underlying matters are settled or otherwise resolved.

In general, the federal statute of limitations remains open for tax years ended June 30, 2020 through 2023. Various states' statutes of limitations remain open in general for tax years ended June 30, 2019 through 2023. Certain statutes of limitations in major foreign jurisdictions remain open for the tax years ended June 30, 2018 through 2023. It is reasonably possible that the Company's gross unrecognized tax benefits will decrease by approximately \$3.2 million, in the next 12 months, due to the lapse of the statute of limitations. These adjustments, if recognized, would positively impact the Company's effective tax rate, and would be recognized as additional tax benefits.

**Note 11. Commitments and Contingencies**

***Legal proceedings and indemnifications***

From time to time, the Company has been involved in various legal proceedings arising from the normal course of business activities. The resolution of any such matters have not had a material impact on the Company's consolidated financial condition, results of operations or liquidity as of September 30, 2023 December 31, 2023 and any prior periods.

The Company has entered into indemnification agreements with its current and former directors and executive officers.

Under these agreements, the Company has agreed to indemnify such individuals to the fullest extent permitted by law against liabilities that arise by reason of their status as directors or officers and to advance expenses incurred by such individuals in connection with related legal proceedings. It is not possible to determine the maximum potential amount of payments the Company could be required to make under these agreements due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each claim. However, the Company maintains directors and officers liability insurance coverage to reduce its exposure to such obligations.

***Purchase Commitments***— The Company has agreements to purchase inventory and non-inventory items primarily through the next 12 months. As of September 30, 2023 December 31, 2023, these remaining noncancelable commitments were \$1.4 billion \$1.9 billion, including \$66.4 million \$87.4 million for related parties.

**Note 13. Subsequent Events**

On January 26, 2024, the Company entered into an agreement to purchase real estate for an aggregate price of \$80.0 million, subject to certain adjustments to be determined at closing. The transaction is expected to close during the third quarter of fiscal 2024. The Company plans to acquire this property using its own cash.

On January 31, 2024, the Company entered into a lease for approximately 260,000 square feet of space in San Jose, California for a term of 79 months. The Company currently intends to use such premises for additional warehouse space. The lease also provides that the Company is required to rent an additional approximate 198,000 square feet of space in the same building after such space becomes available for the remainder of the term stated above. Aggregate payment under the lease for both the primary space and additional space is approximately \$0.6 million per month, subject to annual increase.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This section and other parts of this Quarterly Report contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that involve risks and uncertainties. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology including "would," "could," "may," "will," "should," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential," "probable of achievement," or "continue," the negative of these terms or other comparable terminology. In evaluating these statements, you should specifically consider various factors, including the risks discussed under "Risk Factors" in Part II, Item 1A of this filing. These factors may cause our actual results to differ materially from those anticipated or implied in the forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. We cannot guarantee future results, levels of activity, performance or achievements.

The following discussion and analysis of the financial condition and results of our operations should be read in conjunction with our condensed consolidated financial statements and related footnotes included elsewhere in this Quarterly Report and included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2023 (the "2023 10-K"), which includes our condensed consolidated financial statements for the fiscal years ended June 30, 2023 and 2022.

### Overview

We are a Silicon Valley-based provider of accelerated compute platforms that are comprised of application-optimized high performance and high-efficiency server and storage systems for a variety of markets, including enterprise data centers, cloud computing, artificial intelligence ("AI"), 5G and edge computing. Our Total IT Solutions include complete servers, storage systems, modular blade servers, blades, workstations, full rack scale solutions, networking devices, server sub-systems, server management and security software. We also provide global support and services to help our customers install, upgrade and maintain their computing infrastructure.

We commenced operations in 1993 and have been profitable every year since inception. In order to increase our sales and profits, we believe that we must continue to develop customized and application optimized server and storage solutions and be among the first to market with new features and products. We continue to expand our software, customer service and support offerings, as we increasingly focus on larger enterprise customers. We measure our financial success based on various indicators, including growth in net sales, gross profit margin and operating margin. Among the key non-financial indicators of our success is our ability to rapidly introduce new products and deliver the latest application-optimized server and storage solutions. In this regard, we work closely with microprocessor, GPU and other key component vendors to take advantage of new technologies as they are introduced. Historically, our ability to introduce new products rapidly has allowed us to benefit from technology transitions such as the introduction of new microprocessors, accelerators and storage technologies, and as a result, we monitor the product introduction cycles of Intel Corporation, NVIDIA Corporation, Advanced Micro Devices, Inc., Samsung Electronics Company Limited, Micron Technology, Inc. and others closely and carefully. This also impacts our research and development expenditures as we continue to invest more in our current and future product development efforts.

### Financial Highlights

### Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, net sales and expenses. We evaluate our estimates on an on-going basis based on a) historical experience and b) assumptions we believe to be reasonable under the circumstances and are not readily apparent from other sources, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Because these estimates can vary depending on the situation, actual results may differ from these estimates. Making estimates and judgments about future events is inherently unpredictable and is subject to significant uncertainties, some of which are beyond our control. Should any of these estimates and assumptions change or prove to have been incorrect, it could have a material impact on our results of operations, financial position and statement of cash flows.

There have been no material changes to our critical accounting policies and estimates as compared to those disclosed in our 2023 10-K. For a description of our critical accounting policies and estimates, see Part I, Item 1, Note 1, "Summary of Significant Accounting Policies" in our notes to condensed consolidated financial statements in this Quarterly Report.

### Net Sales

Net sales consist of sales of our server and storage solutions, including systems and related services and subsystems and accessories. The prices for our server and storage systems range widely depending upon the configuration, as well as the level of integration of key components such as CPUs, GPUs, SSDs and memory. The prices for our

subsystems and accessories can also vary widely based on whether a customer is purchasing power supplies, server boards, chassis or other accessories.

As with most electronics-based product life cycles, average selling prices typically are highest at the time of introduction of new products that utilize the latest technology and tend to decrease over time as such products mature in the market and are replaced by next generation products. Additionally, in order to remain competitive throughout all industry cycles, we actively change our selling price per unit in response to changes in costs for key components such as CPUs, GPUs, SSDs and memory.

The following table presents net sales by product type for the three and six months ended September 30, 2023 December 31, 2023 and 2022 (dollars in millions):

Server and storage systems constitute an assembly and integration of subsystems and accessories and related services. Subsystems and accessories are comprised of server-boards, chassis and accessories.

Comparison of Three Months Ended December 31, 2023 and 2022

The period-over-period increase in net sales of our server and storage systems was primarily due to the strong demand from customers for GPU, high performance computing ("HPC"), and rack-scale solutions which are generally more complex and of higher value, resulting in an increase of average selling price ("ASP").

The period-over-period increase in net sales for our subsystems and accessories is primarily due to increased demand of **10.1%** accessories sold to data center customers as more accessories and spares were purchased in conjunction with the strong sales of full systems and servers.

#### Comparison of Three Months Ended December 31, 2023 and 2022

The period-over-period increase in overall net sales is the result of higher ASP's, especially for large enterprise and data center customers. United States sales experienced significant growth due to increased demand from data center customers for GPU, HPC, and rack-scale solutions. The period-over-period increase of net sales in Asia and other regions is mainly due to an increase in net sales in Taiwan, Singapore, Canada and South Africa. The period-over-period decrease in sales in Europe is mainly due to macro economic concerns decreases in net sales in Germany, United Kingdom, and slower adoption of new product introductions, which has persisted in the three months ended September 30, 2023, France.

One customer Two customers accounted for 25.0% 25.5% and 10.4% of the net sales for the three months ended September 30, 2023 December 31, 2023. One customer accounted for 21.9% of the net sales for the three months ended September 30, 2022. We had no customers with net sales over 10% for the year three months ended June 30, 2023 December 31, 2022, however, we expect to continue to have customers exceeding 10% of net sales in future quarters.

SMCI | Q1 2024 Form 10-Q | 29 Comparison of Six Months Ended December 31, 2023 and 2022

The period-over-period increase in overall net sales is the result of higher ASP's, especially for large enterprise and data center customers. United States sales experienced significant growth due to increased demand from data center customers for GPU, HPC, and rack-scale solutions. The period-over-period increase of net sales in Asia and other regions is mainly due to an increase in net sales in Taiwan, Canada and South Africa. The period-over-period decrease in sales in Europe is mainly due to decreases in net sales in Germany, United Kingdom, and France.

One customer accounted for 25.3% of the net sales for the six months ended December 31, 2023. The same customer accounted for 15.8% of net sales for the six months ended December 31, 2022. We expect to continue to have customers exceeding 10% of net sales in future quarters.

#### Cost of Sales and Gross Margin

Cost of sales primarily consists of the costs to manufacture our products, which includes: the costs of materials, contract manufacturing, shipping, personnel expenses (salaries, benefits, stock-based compensation and incentive bonuses), equipment and facility expenses, warranty costs and inventory reserve charges. The primary factors that impact our cost of sales are the mix of products sold, changes in the cost of components, changes in logistic costs, changes in salary and benefits and overhead costs related to production as well as economies of scale gained from higher production volume in our facilities. Cost of sales as a percentage of net sales may increase or decrease over time if the changes in our costs are not matched by corresponding changes in our ASP's, ASPs. Our cost of sales as a percentage of net sales is also impacted by the timing and extent to which we add to, and are able to efficiently utilize, our manufacturing capacity. Because we generally do not have long-term fixed supply agreements, our cost of sales is subject to frequent change based on the availability of materials and other market conditions. Certain materials used in the manufacturing of our products are available from a limited number of suppliers and we expect that this trend will continue in the future.

We use several suppliers and contract manufacturers to design and manufacture subsystems in accordance with our specifications, with most final assembly and testing generally performed at our manufacturing facilities in the same region where our products are sold. We work with Ablecom, one of our key contract manufacturers and also a related party to optimize modular designs for our chassis and certain other components. We also outsource to Compuware, also a related party, a portion of our design activities and a significant part of the manufacturing of certain components, particularly power supplies.

#### Comparison of Three Months Ended December 31, 2023 and 2022

The period-over-period increase in cost of sales was primarily attributed to an increase in sales volume, which resulted in an increase of \$279.4 million \$1,639.1 million in costs of materials and contract manufacturing expenses, primarily related to the and a \$3.1 million increase in net sales volume, overhead costs, partially offset by a \$11.0 million decrease in freight costs due to an improved supply chain, a \$5.3 million \$7.4 million decrease in inventory reserve charges and a \$1.7 million decrease in overhead costs due to greater absorption of overhead in the ending inventory.

Certain materials used by us in the manufacturing of our products are available from a limited number of suppliers. Shortages could occur in these materials due to an interruption of supply or increased demand in the industry. The increase in concentration of total purchases from one of our suppliers to 55.1% of total purchases for the three months ended September 30, 2023 is as a result of the increase in the number of purchases of GPUs from such supplier to build our solutions for our customers. We expect that this concentration in total purchases from this supplier will continue in the future. charges.

The period-over-period decrease in the gross margin percentage was primarily due to product and customer mix, partially offset by lower cost of goods sold from manufacturing efficiency and other factors.

#### Comparison of Six Months Ended December 31, 2023 and 2022

The period-over-period increase in cost of sales was primarily attributed to an increase in capitalization sales volume, which resulted in an increase of \$1,918.6 million in costs of materials and contract manufacturing expenses, and a \$0.9 million increase in overhead resulting from higher costs, partially offset by a \$12.7 million decrease in inventory level reserve charges and mix, lower a \$10.6 million decrease in freight costs related to freight due to an improved supply chain, chain.

The period-over-period decrease in the gross margin percentage was primarily due to product and inventory reserve charges, customer mix, partially offset by lower cost of goods sold from manufacturing efficiency and other factors.

#### Operating Expenses

Research and development expenses consist of personnel expenses including salaries, benefits, stock-based compensation and incentive bonuses for our research and development personnel, as well as product development costs such as materials and supplies, consulting services, third-party testing services and equipment and facility expenses related to our research and development activities. All research and development costs are expensed as incurred. We occasionally receive non-recurring engineering funding from certain suppliers and customers for joint development. Under these arrangements, we are reimbursed for certain research and development costs that we incur as part of the joint development efforts with our suppliers and customers. These reimbursed costs offset a portion of the related research and development expenses and have the effect of reducing our reported research and development expenses.

Sales and marketing expenses consist primarily of personnel expenses including salaries, benefits, stock-based compensation and incentive bonuses for our sales and marketing personnel, cost for trade shows, independent sales

representative fees and marketing programs. From time to time, we receive marketing development funding from certain suppliers. Under these arrangements, we are reimbursed for certain marketing costs that we incur as part of the joint promotion of our products and those of our suppliers. These reimbursed costs offset a portion of the related expenses and have the effect of reducing our reported sales and marketing expenses. The timing, magnitude and estimated usage of these programs can result in significant variations in reported sales and marketing expenses from period to period. Spending on cooperative marketing, reimbursed by our suppliers, typically increases in connection with new product releases by our suppliers.

General and administrative expenses consist primarily of general corporate costs, including personnel expenses such as salaries, benefits, stock-based compensation and incentive bonuses for our general and administrative personnel, financial reporting, information technology, corporate governance and compliance, outside legal, audit, tax fees, insurance and bad debt reserves on accounts receivable.

#### Comparison of Three Months Ended December 31, 2023 and 2022

**Research and development expenses.** The period-over-period increase in research and development expenses was primarily driven by a \$39.1 million \$33.5 million increase in compensation expenses due to salary increases, higher headcount and the cost of equity awards as we expanded our workforce and invested in key talent, and a \$0.9 million \$1.0 million increase in product development costs to support the development of next generation products and technologies offset by and a \$3.2 million increase \$3.6 million decrease in research and development credits received from certain suppliers and customers. We believe that research and development expenses will continue to increase as we continue to expand our workforce and invest in key talent to stay at the forefront of development of next generation products and technologies.

**Sales and marketing expenses.** The period-over-period increase in sales and marketing expenses was primarily driven by a \$9.1 million \$14.9 million increase in compensation expenses due to salary increases, higher headcount and the cost of equity awards, offset by a \$1.3 million \$5.5 million increase in advertising and other expenses and a \$1.9 million decrease primarily due to an increase in marketing development funds to drive new sales opportunities for our products and customer support received. We believe that sales and marketing expenses will continue to increase as we continue to expand our workforce and invest in key talent.

**General and administrative expenses.** The period-over-period increase in general and administrative expenses was primarily due to a \$8.5 million \$7.8 million increase in compensation expenses associated with higher headcount and the cost of equity awards and a \$0.6 million \$6.3 million increase in professional and service fees, fees and other expenses. We believe that general and administrative expenses will continue to increase as we continue to expand our workforce and invest in key talent.

### Income Tax Provision

Our income tax provision is based on our taxable income generated in the jurisdictions in which we operate, which primarily include the United States, Taiwan, and the Netherlands. Our effective tax rate differs from the statutory rate primarily due to research and development tax credits, certain non-deductible expenses, tax benefits from foreign derived intangible income and stock-based compensation.

Provision for income taxes and effective tax rates for the three and six months ended September 30, 2023 December 31, 2023 and 2022 are as follows (dollars in millions):

#### Comparison of Three Months Ended December 31, 2023 and 2022

Our quarterly effective income tax rate is based on the estimated annual income tax rate forecast and discrete tax items recognized in the period. The income tax provision and effective tax rate for the three months ended **September 30, 2023**, December 31, 2023 is **lower** than that for the three months ended **September 30, 2022** December 31, 2022, primarily due to a 2% increase caused by a reduction of foreign derived intangible income which is subject to lower income tax rate than a statutory tax rate of 21%. In addition, there was a 1% increase caused by more non tax deductible stock-based compensation for officers over one million dollars threshold.

#### Comparison of Six Months Ended December 31, 2023 and 2022

Our quarterly effective income tax rate is based on the estimated annual income tax rate forecast and discrete tax items recognized in the period. The income tax provision for the six months ended December 31, 2023 is higher than that for the six months ended December 31, 2022, primarily due to a significant increase in tax-deductible stock compensation expense annual forecasted taxable income. The effective tax rate for the six months ended December 31, 2023 is lower than that for the six months ended December 31, 2022, primarily due to an increase in the three months ended September 30, 2023 tax deduction for stock compensation.

## Liquidity and Capital Resources

We have financed our growth primarily with funds generated from operations, in addition to utilizing borrowing facilities, facilities and selling our common stock. Our recent drivers of liquidity changes have included an increase in the need for working capital due to higher levels of inventory required by growing revenues and to a lesser extent, longer supply chain lead times on certain key components. Our cash and cash equivalents were \$543.2 million \$725.7 million and \$440.5 million as of September 30, 2023 December 31, 2023 and June 30, 2023, respectively. Our cash and cash equivalents in foreign locations was were \$263.2 193.8 million and \$192.3 million as of September 30, 2023 December 31, 2023 and June 30, 2023, respectively.

Amounts held outside of the U.S. are generally utilized to support non-U.S. liquidity needs. Repatriations generally will not be taxable from a U.S. federal tax perspective but may be subject to state income or foreign withholding tax. Where local restrictions prevent an efficient intercompany transfer of funds, our intent is to keep cash balances outside of the U.S. and to meet liquidity needs through operating cash flows, external borrowings, or both. We do not expect restrictions or potential taxes incurred on repatriation of amounts held outside of the U.S. to have a material effect on our overall liquidity, financial condition or results of operations.

We believe that our current cash, cash equivalents, borrowing capacity available from our credit facilities and internally generated cash flows will be sufficient to support our operating businesses and maturing debt and interest payments for the 12 months following the filing of this Quarterly Report on Form 10-Q. On September 28, 2023 December 7, 2023, our company through our Taiwan subsidiary entered into a new agreement pursuant Facility Letter with the Taiwan affiliate of HSBC Bank. The New Facility Letter permits borrowings up to a combined aggregate limit of \$50 million which our Taiwan subsidiary and CTBC Bank agreed to aggregate may be comprised of borrowings under all the New CTBC Credit Lines Taiwan Dollar revolving facility with a sub-limit of up to \$105.0 million NTD 300 million and an export/seller facility with a sub-limit of \$50 million. We continue to evaluate financing options that may be required to support the growth of our business, if it occurs more rapidly than anticipated.

On August 3, 2022, after the expiration of a prior share repurchase program on July 31, 2022, a duly authorized subcommittee of our Board approved a new share repurchase program to repurchase shares of our common stock for up to \$200 million at prevailing prices in the open market. The share repurchase program is was effective until January 31, 2024 or until the maximum amount of common stock is repurchased, whichever occurs first. We repurchased 1,553,350 shares of common stock for \$150 million during the fiscal year ended June 30, 2023 under this program and have had \$50.0 million of remaining availability as of September 30, 2023 December 31, 2023 and at the time the program expired on January 31, 2024.

On December 5, 2023, the Company completed a public offering of 2,415,805 shares of the Company's common stock at \$262.00 per share, with 2,315,105 shares sold by the Company and 100,700 shares sold by selling stockholders.

We received net proceeds of approximately \$582.8 million, after deducting underwriting discounts and commissions and offering expenses payable by us. We did not receive any proceeds from the sale of the shares of common stock by the selling stockholders. We intend to utilize the proceeds to support our operations, including working capital needs, manufacturing capacity expansion and increased R&D investments.

### Operating Activities

Net cash provided by operating activities decreased by **\$43.1 million** **\$799.3 million** for the **three six** months ended **September 30, 2023** **December 31, 2023** as compared to the **three six** months ended **September 30, 2022** **December 31, 2022**. The decrease was primarily due to **higher** an increase in net cash **used** required for net working capital of **\$945.1 million** to purchase inventory manufacture products in order to meet customer demand and support expected business growth and a **\$19.0 million** decrease in non-cash items. These decreases are partially offset by **\$416.8 million**, a decrease **increase** in net income of **\$27.4 million** **\$92.4 million** and stock-based compensation expense of **\$72.4 million**. The key changes in net working capital of **\$945.1 million** includes an increase in inventory of **\$1,145.2 million**, and an increase in accounts receivable of **\$422.7 million** offset by an increase in accounts payable of **\$207.4 million** from the collection of accounts receivables, an increase of **\$145.4 million** from other working capital items, an increase of **\$46.4 million** in stock based compensation expense and an increase of **\$1.9 million** in various other non-cash items. **\$570.5 million**.

#### Other Factors Affecting Liquidity and Capital Resources

Refer to Part I, Item 1, Note 6, "Short-term and Long-term Debt," in our notes to condensed consolidated financial statements in this Quarterly Report on Form 10-Q for further information on our outstanding debt.

#### Capital Expenditure Requirements

We anticipate our capital expenditures for the remainder of fiscal year 2024 will be in range of **\$102.0 million** **\$170.0 million** to **\$112.0 million** **\$180.0 million**, relating primarily to costs associated with our manufacturing capabilities, including tooling for new products, new information technology investments, and facilities **upgrades**, **upgrades** and **expansion**. During the second quarter of fiscal year 2023, we entered into a letter of understanding to acquire land in Malaysia to expand our manufacturing operations. A definitive agreement to acquire such land, subject to various conditions, was subsequently executed in January 2023. We **are obtaining** **obtained** early access to such land prior to the acquisition, and we anticipate additional capital expenditures for the remainder of fiscal year 2024 of **\$31.0 million** **\$28.0 million** (included in the above range) for such **initiative**, **initiative**. In addition, in January 2024, we entered into a purchase and sale agreement (the "Purchase Agreement") to purchase real estate comprising approximately 19.72 acres of land and 293,906 square feet of buildings and improvements located in proximity to the Company's headquarters space in San Jose, California "as is" for an aggregate purchase price of \$80.0 million, subject to certain adjustments to be determined at closing. Under the Purchase Agreement, we made a deposit of \$10.0 million which is non-refundable except in limited circumstances. The transaction, currently expected to close in February 2024, is subject to customary closing conditions. We will also continue to evaluate new business opportunities and new markets. As a result, our future growth within the existing business or new opportunities and markets may dictate the need for additional facilities and capital expenditures to support that growth. We evaluate capital expenditure projects based on a variety of factors, including expected strategic impacts (such as forecasted impact on revenue growth, productivity, expenses, service levels and customer retention) and our expected return on investment.

SMCI | Q2 2024 Form 10-Q | 41

---

We intend to continue to focus our capital expenditures in fiscal year 2024 to support the growth of our operations. Our future capital requirements will depend on many factors including our growth rate, the timing and extent of spending to support development efforts, the expansion of sales and marketing activities, the introduction of new and enhanced software and services offerings and investments in our office facilities and our IT system infrastructure.

#### Recent Accounting Pronouncements

For a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on our condensed consolidated financial statements, see Part I, Item 1, Note 1, "Summary of Significant Accounting Policies," to the condensed consolidated financial statements in this Quarterly Report on Form 10-Q.

**Item 3. Quantitative and Qualitative Disclosure About Market Risk****Interest Rate Risk**

The primary objectives of our investment activities are to preserve principal, provide liquidity and maximize income without significantly increasing the risk. Some of the securities we invest in are subject to market risk. This means that a change in prevailing interest rates may cause the fair value of the investment to fluctuate. To minimize this risk, we maintain our portfolio of cash equivalents and short-term investments in money market funds and certificates of deposit, all of which are held for purposes other than trading. Our investment in an auction rate security has been classified as non-current due to the lack of a liquid market for these securities. Since our results of operations are not dependent on investments, the risk associated with fluctuating interest rates is limited to our investment portfolio, and we believe that a 10% change in interest rates would not have a significant impact on our results of operations. As of **September 30, 2023** **December 31, 2023**, our investments were in money market funds, certificates of deposits and auction rate securities.

We are exposed to changes in interest rates as a result of our borrowings under our term loans and revolving lines of credit. The interest rates for the term loans and the revolving lines of credit ranged from 1.2% to **7.5%** **6.8%** at **September 30, 2023** **December 31, 2023** and 1.20% to 7.08% at June 30, 2023. Based on the outstanding principal indebtedness of **\$146.2 million** **\$375.6 million** under our credit facilities as of **September 30, 2023** **December 31, 2023**, we believe that a 10% change in interest rates would not have a significant impact on our results of operations.

**Foreign Currency Risk**

To date, our international customer and supplier agreements have been denominated primarily in U.S. dollars and accordingly, we have limited exposure to foreign currency exchange rate fluctuations from customer agreements, and do not currently engage in foreign currency hedging transactions. The functional currency of our subsidiaries in the Netherlands and Taiwan is the U.S. dollar. However, certain loans and transactions in these entities are denominated in a currency other than the U.S. dollar, and thus we are subject to foreign currency exchange rate fluctuations associated with re-measurement to U.S. dollars. Realized and unrealized foreign exchange gain loss for the three months ended **September 30, 2023** **December 31, 2023** was \$9.9 million and **2022** realized and unrealized loss for the six months ended **December 31, 2023** was **\$7.5 million** **\$2.4 million**. Realized and **\$7.8 million**, respectively, unrealized foreign exchange loss for the three months ended **December 31, 2022** was **\$6.9 million** and realized and unrealized gain for the six months ended **December 31, 2022** was **\$0.9 million**.

**Item 4. Controls and Procedures****Evaluation of Disclosure Controls and Procedures**

Under the supervision, and with the participation, of our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), we evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of **September 30, 2023** **December 31, 2023**. Based on this evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of **September 30, 2023** **December 31, 2023**.

**Changes in Internal Control over Financial Reporting**

Under applicable SEC rules (Exchange Act Rules 13a-15(d) and 15d-15(d)), management is required to evaluate, with the participation of our CEO and CFO, any changes in internal control over financial reporting that occurred during each fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. There were no changes in our internal control over financial reporting during the quarter ended **September 30, 2023** **December 31, 2023**, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Inherent Limitations on Effectiveness of Controls**

The effectiveness of any system of internal control over financial reporting is subject to inherent limitations, including the exercise of judgment in designing, implementing, operating, and evaluating the controls and procedures, and the inability to eliminate misconduct completely. Accordingly, any system of internal control over financial reporting can only provide reasonable, not absolute, assurances that its objectives will be met. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. We intend to continue to monitor and upgrade our internal controls as necessary or appropriate for our business, but we cannot assure that such improvements will be sufficient to provide us with effective internal control over financial reporting.

## PART II: OTHER INFORMATION

### Item 1. Legal Proceedings

The information required by this item is incorporated herein by reference to the information set forth under the caption "Legal proceedings and indemnifications" in Part I, Item 1, Note 11 "Commitments and Contingencies" of our notes to condensed consolidated financial statements included in this quarterly report.

Due to the inherent uncertainties of legal proceedings, we cannot predict the outcome of the proceedings at this time, and we can give no assurance that they will not have a material adverse effect on our financial position or results of operations.

### Item 1A. Risk Factors

Important risk factors that could affect our operations and financial performance, or that could cause results or events to differ from current expectations, are described in Part I, Item 1A "Risk Factors" of our 2023 10-K.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

#### Recent Sales of Unregistered Securities

None.

#### Issuer Purchases of Equity Securities

During the three **and six** months ended **September 30, 2023** **December 31, 2023**, we did not repurchase shares of our common stock.

On August 3, 2022, after the expiration of a prior share repurchase program on July 31, 2022, a duly authorized subcommittee of our Board approved a new share repurchase program to repurchase shares of our common stock for up to \$200 million at prevailing prices in the open market. The share repurchase program **is/was** effective until January 31, 2024 **or until the maximum amount of common stock is repurchased, whichever occurs first.** We repurchased 1,553,350 shares of common stock for \$150 million during the fiscal year ended June 30, 2023 under this program and had \$50.0 million of remaining availability as of **September 30, 2023** **December 31, 2023** and at the time the program expired on January 31, 2024.

### Item 3. Defaults Upon Senior Securities

Not applicable.

### Item 4. Mine Safety Disclosures

Not applicable.

### Item 5. Other Information

#### Rule 10b5-1 Trading Plans

**Certain** During the three months ended December 31, 2023, **none** of the Company's executive officers or directors **have** entered into trading plans pursuant to Rule 10b5-1(c) of the Securities Exchange Act of 1934, as amended. The following table summarizes the adoption of trading plans intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) during the three months ended September 30, 2023:

Name and Title	Adoption Date	End Date	Aggregate Number of Shares of the Company's Common Stock to be Sold

Execution Version 1 233447437 4 SIXTH AMENDMENT TO LOAN AND SECURITY AGREEMENT This SIXTH AMENDMENT TO LOAN AND SECURITY AGREEMENT, dated to be effective as of November 28, 2023 (this "Amendment") is made among SUPER MICRO COMPUTER, INC., a Delaware corporation ("SMCI"), together with any other party hereto as a Borrower, individually, a "Borrower" and, collectively, the "Borrowers", the Lenders (as defined below) party to this Amendment, and BANK OF AMERICA, N.A., a national banking association ("Bank of America"), as administrative agent for the Lenders (in such capacity, "Agent"). Background A. WHEREAS, Borrowers, Agent and the financial institutions party thereto from time to time (the "Lenders") have entered into that certain Loan and Security Agreement, dated as of April 19, 2018, (as amended, restated, amended and restated, modified or supplemented from time to time, the "Loan Agreement"). All capitalized terms used and not otherwise defined in this Amendment are used as defined in the Loan Agreement, as amended hereby. B. WHEREAS, Agent and Lenders have agreed to amend certain terms of the Loan Agreement subject to the terms and conditions set forth herein. NOW THEREFORE, in consideration of the premises and the mutual agreements, representations and warranties herein set forth and for other good and valuable consideration, Borrowers, Agent and Lenders hereby agree as follows: Agreement 1. Amendments to the Loan Agreement: (a) Amendment to Section 1.1. (i) The definition of "Dominion Trigger Period" set forth in Section 1.1 of the Loan Agreement is hereby amended and restated in its entirety to read as follows: Dominion Trigger Period: the period (a) commencing on any day that (i) an Event of Default occurs, or (ii) Global Availability is less than the greater of (x) \$35,000,000 and (y) 15% of the Global Borrowing Base; and (b) continuing until, during each of the preceding 60 consecutive days, no Event of Default has existed and Global Availability has been more than the greater of (x) \$35,000,000 and (y) 15% of the Global Borrowing Base; provided that during the Cash Dominion Waiver Period, solely with respect to Sections 5.7 and 8.2.4, no Dominion Trigger Period shall be deemed to have occurred. (ii) The following definitions are added to Section 1.1 of the Loan Agreement in alphabetical order to read as follows:

slide2

2 233447437 4 Cash Dominion Waiver Period: the period commencing on October 17, 2023 and ending on December 31, 2023. (b) Amendment to Section 8.1. Section 8.1 of the Loan Agreement is hereby amended and restated in its entirety to read as follows: 8.1 Borrowing Base Reports. (i) So long as no Dominion Trigger Period exists and no Revolver Loans were outstanding during such quarter, by the 20th day of each quarter, Borrowers shall deliver to Agent (and Agent shall promptly deliver to Lenders) a Borrowing Base Report as of the close of business of the previous month; (ii) so long as no Dominion Trigger Period exists but Revolver Loans are outstanding for more than 5 consecutive Business Days during the previous month, by the 20th day of each month, Borrowers shall deliver to Agent (and Agent shall promptly deliver to Lenders) a Borrowing Base Report as of the close of business of the previous month and (iii) during the existence of a Dominion Trigger Period, by the third Business Day of each week, Borrowers shall deliver to Agent (and Agent shall promptly deliver to Lenders) a Borrowing Base Report as of the close of business of the previous week; provided, that with respect to such weekly reporting in clause (iii) above, during the Cash Dominion Waiver Period or at any other times as approved by Agent, each Borrowing Base Report delivered under clause (ii) shall only be required to update Accounts and Inventory which are ineligible as of the last day of the previous month. All information (including calculation of Global Availability) in a Borrowing Base Report shall be certified by Borrowers. Agent may from time to time adjust such report (a) to reflect Agent's reasonable estimate of declines in Value of Collateral due to collections received in the applicable Dominion Account or otherwise, (b) to adjust advance rates to reflect changes in dilution, quality, mix and other factors affecting Collateral; and (c) to the extent any information or calculation does not comply with this Agreement. 2. Representations and Warranties. In order to induce Agent and each Lender to enter into this Amendment, each Borrower represents and warrants to Agent and each Lender that the following statements are true, correct and complete on and as of the date hereof. (a) Representations and Warranties. The execution, delivery and performance of this Amendment has been duly authorized and this Amendment constitutes the legal, valid and binding obligation of each Borrower enforceable in accordance with its terms, except as such enforceability may be limited by any applicable bankruptcy, insolvency, moratorium or similar laws affecting creditors' rights generally. Each Borrower hereby represents and warrants to Agent and each Lender as of the date hereof no Default or Event of Default shall have occurred and be continuing. The information included in any Beneficial Ownership Certification is true and correct in all respects.

3.233447437 4. (b) Incorporation of Representations and Warranties from Loan Agreement. After giving effect to this Amendment, the representations and warranties contained in Section 9 of the Loan Agreement are true, correct and complete in all material respects on and as of the date hereof to the same extent as though made on and as of that date, except to the extent such representations and warranties specifically relate to an earlier date, in which case they were true, correct and complete in all material respects on and as of such earlier date. 3. Effectiveness. This Amendment shall become effective, as of the date first set forth above upon receipt by the Agent of the executed counterparts of

This Amendment from the Borrowers and each of the Lenders. 4. Binding Effect; Ratification. (a) Upon the effectiveness of this Amendment and thereafter this Amendment shall be binding on the Agent, Borrowers and Lenders and their respective successors and assigns. (b) On and after the execution and delivery hereof, this Amendment shall be a part of the Loan Agreement and each reference in the Loan Agreement to "this Loan Agreement" or "hereof", "hereunder" or words of like import, and each reference in any other Loan Document to the Loan Agreement shall mean and be a reference to such Loan Agreement as amended hereby. (c) Except as expressly amended hereby, the Loan Agreement shall remain in full force and effect and is hereby ratified and confirmed by the parties hereto. 5. Miscellaneous. (a) THIS AMENDMENT SHALL BE SUBJECT TO SECTIONS 14.15, 14.16 AND 14.17 OF THE LOAN AGREEMENT, WHICH ARE INCORPORATED HEREIN BY REFERENCE. (b) Borrowers agree to pay on demand all reasonable and documented out of pocket costs and expenses incurred by Agent in connection with the preparation, negotiation and execution of this Amendment and the other Loan Documents executed pursuant hereto. (c) Headings used herein are for convenience of reference only and shall not affect the meaning of this Amendment. (d) This Amendment may be executed in any number of counterparts, and by the parties hereto on separate counterparts, each of which shall be an original and all of which taken together shall constitute one and the same agreement. 6. Release. (a) In consideration of the agreements of Agent and Lenders contained herein and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each Borrower, on behalf of itself and its successors, assigns and other legal representatives (each Borrower and all such other persons being hereinafter referred to collectively as "Releasors" and individually as a "Releasor"), hereby absolutely, unconditionally and

slide4

4.233447437.4 irrevocably releases, remises and forever discharges Agent and each Lender, and their successors and assigns, and their present and former shareholders, affiliates, subsidiaries, divisions, predecessors, directors, officers, attorneys, employees, agents and other representatives (Agent and each Lender and all such other persons being hereinafter referred to collectively as "Releasees" and individually as a "Releasee"), of and from all demands, actions, causes of action, suits, covenants, contracts, controversies, agreements, promises, sums of money, accounts, bills, reckonings, damages and any and all other claims, counterclaims, defenses, rights of set off, demands and liabilities whatsoever (individually, a "Claim" and collectively, "Claims") of every name and nature, known or unknown, suspected or unsuspected, both at law and in equity, which Releasors may now or hereafter own, hold, have or claim to have against Releasees or any of them for, upon, or by reason of any circumstance, action, cause or thing whatsoever which arises at any time on or prior to the day and date of this Amendment, for or on account of, or in relation to, or in any way in connection with the Loan Agreement or any of the other Loan Documents or transactions thereunder or related thereto. (b) It is the intention of Borrowers that this Amendment and the release set forth above shall constitute a full and final accord and satisfaction of all Claims that they may have or hereafter be deemed to have against Releasees as set forth herein. In furtherance of this intention, each Borrower, on behalf of itself and each other Releasor, expressly waives any statutory or common law provision that would otherwise prevent the release set forth above from extending to Claims that are not currently known or suspected to exist in any Releasor's favor at the time of executing this Amendment and which, if known by Releasors, might have materially affected the agreement as provided for hereunder. Each Borrower, on behalf of itself and each other Releasor, acknowledges that it is familiar with Section 1542 of California Civil Code: **A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY.** (c) Each Borrower, on behalf of itself and each other Releasor, waives and releases any rights or benefits that it may have under Section 1542 to the full extent that it may lawfully waive such rights and benefits, and each Borrower, on behalf of itself and each other Releasor, acknowledges that it understands the significance and consequences of the waiver of the provisions of Section 1542 and that it has been advised by its attorney as to the significance and consequences of this waiver. (d) Each Borrower understands, acknowledges and agrees that the release set forth above may be pleaded as a full and complete defense and may be used as a basis for an injunction against any action, suit or other proceeding which may be instituted, prosecuted or attempted in breach of the provisions of such release. (e) Each Borrower agrees that no fact, event, circumstance, evidence or transaction which could now be asserted or which may hereafter be discovered shall affect in any manner the final, absolute and unconditional nature of the release set forth above.
