authoritative guidance, is the measure of segment performance presented below. Segment adjusted operating income (loss) is calculated by adjusting each segment's income (loss) before income taxes for the following items: (i) Change in Fair Value of Equity and Convertible Securities; (ii) Net Realized Investment Gains (Losses); (iii) Impairment Losses; (iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs; (v) Debt Extinguishment, Pension Settlement and Other Charges; (vi) Goodwill Impairment Charge; (vii) Non-Core Operations; and (viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations. These items are important to an understanding of overall results of operations. Segment adjusted operating income (loss) is not a substitute for income determined in accordance with U.S. GAAP, and the Company's definition of segment adjusted operating income (loss) may differ from that used by other companies. The Company, however, believes that the presentation of segment adjusted operating income (loss), as measured for management purposes, enhances the understanding of results of operations by highlighting the underlying profitability factors of its businesses.

The Company entered into derivative agreements with maturity dates throughout 2024. Derivative instruments are carried at fair value on the Condensed Consolidated Balance Sheets. Derivative instruments in a gain position are presented within Other Investments and those in a loss position are included in Accrued Expenses and Other Liabilities. Changes in the fair values of derivatives are recorded on the Condensed Consolidated Statements of Income (Loss) within Net Realized Investment Gains or Accumulated Other Comprehensive Loss along with the corresponding change in the designated hedge assets. Interest Rate Risk The Company's debt securities valuations utilize the Treasury designated benchmark rate, exposing the Company to variability due to changes in interest rates. Ultra-Long Treasury Futures The Company enters into exchange-traded ultra-long Treasury futures (â€"Treasury Futuresâ€") in order to manage exposure to upcoming changes in the benchmark (Treasury) interest rate of forecasted transactions. These derivatives expire quarterly. As of June 30, 2024, all Treasury Futures held by the Company qualified for hedge accounting as a cash flow hedge. The Company utilizes a rollover hedging strategy that involves continuously establishing short-term derivatives in consecutive contract months to hedge the underlying risk exposure. Under this strategy, the complete set of derivatives are not acquired at hedge inception; rather, short-term derivatives are acquired throughout the hedging period such that maturing derivatives are replaced with new short-term derivatives. There were treasury futures that expired during the six months ended June 30, 2024, that did not qualify for hedge accounting. The Treasury Locks have no remaining gross notional amount or fair value as the hedging relationships have been previously discontinued with the issuance of the associated debt (Senior Notes due February 15, 2025 for the 2016 Treasury Lock and Senior Notes due February 23, 2032 for the 2022 Treasury Lock). The effective portion of the gain (loss) before taxes on the derivative instruments upon discontinuance was \$(4.5) million for the 2016 Treasury Lock and \$5.9 million on the 2022 Treasury Lock. The gain (loss) upon discontinuance is reported as a component of Accumulated Other Comprehensive Loss. Beginning with the issuance of the associated debt, such gain (loss) is amortized into earnings and reported in Interest and Other Expenses in the same periods that the hedged items affect earnings. Amortization on the 2016 Treasury Lock was \$(0.1) million and \$(0.3) million for the three and six months ended June 30, 2024 and 2023, respectively. The provider utilizes evaluated pricing models that vary by asset class and incorporate available trade, bid and other market information. Because many fixed maturity securities do not trade on a daily basis, the provider's evaluated pricing applications apply available information through processes such as benchmark curves, benchmarking of like securities, sector groupings and matrix pricing to prepare evaluations. In addition, the provider uses model processes to develop prepayment and interest rate scenarios. The pricing provider's models and processes also take into account market convention. For each asset class, teams of its evaluators gather information from market sources and integrate relevant credit information, perceived market movements and sector news into the evaluated pricing applications and models. The Company generally validates the measurements obtained from its primary pricing provider by comparing them with measurements obtained from one additional pricing provider that provides either prices from recent market transactions, quotes in inactive markets or evaluations based on its own proprietary models. The Company investigates significant differences related to the values provided. On completion of its investigation, management exercises judgment to determine the price selected and whether adjustments, if any, to the price obtained from the Company's primary pricing provider would warrant classification of the price as Level 3. In instances where a measurement cannot be obtained from either pricing provider, the Company generally will evaluate bid prices from one or more binding quotes obtained from market makers to value investments in inactive markets and classified by the Company as Level 2. The Company generally classifies securities when it receives non-binding quotes or indications as Level 3 securities unless the Company can validate the quote or indication against recent transactions in the market. Presented below are the carrying values and fair value estimates of financial instruments not carried at fair value. \$ June 30, 2024 December 31, 2023 (Dollars in Millions) Carrying Value Fair Value Carrying Value Fair Value Financial Assets: Loans to Policyholders \$279.8A \$279.8A \$281.2A \$281.2A Short-term Investments \$539.1A \$539.1A \$520.9A \$520.9A Mortgage Loans \$83.1A 83.1A 99.8A 99.8A Company-Owned Life Insurance \$523.3A 523.3A 513.5A 513.5A Equity Securities at Modified Cost \$24.8A 24.8A 32.6A 32.6A Financial Liabilities: Long-term Debt \$1,390.4A \$1,246.3A \$1,389.2A \$1,213.4A Policyholder Obligations \$547.0A 547.0A 557.4A 557.4A Loans to policyholders are carried at unpaid principal balance which approximates fair value and are categorized as Level 3 within the fair value hierarchy. The nature of policy loans is to have a negligible default risk as the loans are fully collateralized by the value of the policy. Policy loans do not have a stated maturity and the balances and accrued interest are repaid either by the policyholder or with proceeds from the policy. Due to the collateralized nature of policy loans and unpredictable timing of payments, the Company believes the carrying value of policy loans approximates fair value. The fair value measurement of Short-term Investments is estimated using inputs that are considered either Level 1 or Level 2 measurements. The Mortgage Loans fair value measurement is considered equal to amortized cost given the short-term nature of the investments. The fair value measurement of Equity Securities at Modified Cost is estimated using inputs that are considered Level 3 measurements. The cash surrender value of Company-Owned Life Insurance approximates fair value and is considered to be a Level 2 investment. The fair value of Long-term Debt is estimated using quoted prices for similar liabilities in markets that are not active. The inputs used in the valuation are considered Level 2 measurements. Policyholder Obligations presented in the preceding table consist of advances from the FHLB of Chicago, and the inputs used in the valuation are considered Level 2 measurements. 34KEMPER CORPORATION AND SUBSIDIARIES NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)(Unaudited)Note 9 - Variable Interest Entities A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make significant decisions relating to the entity's operations through voting rights or do not substantively participate in the gains and losses of the entity. The Company consolidates VIEs in which the Company is deemed the primary beneficiary. The primary beneficiary is the entity that has both (1) the power to direct the activities of the VIE that most significantly affect that entity's economic performance and (2) the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. Reciprocal Exchange The Company has formed a management company that acts as attorney-in-fact (AIF) for Kemper Reciprocal (the Reciprocal Exchange or Exchange), an Illinois-domiciled reciprocal insurance exchange. The Exchange principally writes specialty personal automobile policies sold to subscribers of the Exchange. The establishment of Kemper Reciprocal was completed in the third quarter of 2023. The Company consolidates the Exchange since (1) the AIF manages the business operations of the Exchange and therefore has the power to direct the activities that most significantly impact the economic performance of the Exchange and (2) the Company has provided capital to the Exchange and would absorb any expected losses that could potentially be significant to the Exchange. The Exchange's anticipated economic performance is the product of its underwriting and investment results. The AIF receives a management fee for the services provided to the Reciprocal Exchange. The management fee revenues are based upon all premiums written or assumed by the Exchange. The AIF determines the management fee rate to be paid by the Exchange. The AIF can charge a management fee of up to 30% of the Exchange's gross written and assumed premiums. The assets of the Reciprocal Exchange can be used only to settle the obligations of the Reciprocal Exchange for which creditors and other beneficial owners have no recourse to the Company. The Company has no obligation related to any underwriting and/or investment losses experienced by the Exchange. As of December 31, 2023, the Company had contributed \$4.0A million of surplus to the Reciprocal Exchange. During the first six months of 2024, the Company contributed an additional \$2.0A million of surplus to the Reciprocal Exchange, resulting in a total contributed surplus of \$6.0A million as of June 30, 2024. The effects of the transactions between the Company and the Reciprocal Exchange are eliminated in consolidation to derive consolidated Net Income (Loss). However, the management fee income earned by the AIF is reported in Net Income (Loss) attributable to Kemper Corporation and is included in the basic and diluted earnings per share. Noncontrolling interest is the portion of equity (net assets) not attributable, directly or indirectly, to a parent. Since the Company has no ownership interest in Kemper Reciprocal, the difference between the carrying value of the Exchange's assets and liabilities represents noncontrolling interest and any income or loss generated by the net assets of the Exchange is presented as income or loss attributable to noncontrolling interest. Alternative Energy Partnership The Company invests in an Alternative Energy Partnership formed to provide sustainable energy projects that are designed to generate a return primarily through the realization of federal tax credits. This entity was

to invest in newly installed residential solar leases and power purchase agreements. As a result of this investment, the Company has the right to certain investment tax credits and tax depreciation benefits, and to a lesser extent, cash flows generated from the installed solar systems leased to individual consumers. The Company's interest in the Alternative Energy Partnership Investment is considered an investment in a VIE. The Company has determined that it is not the primary beneficiary as it does not have the power to direct the activities that most significantly impact the economic performance of the entity and therefore is not required to consolidate the VIE. The project sponsor governs the entity and the Company only has consent rights that have been deemed protective in nature and does not participate in key economic decisions of the entity. The investment is accounted for using the equity method of accounting and included in Alternative Energy Partnership Investments in the Condensed Consolidated Balance Sheets. The Company uses the HLBV equity method to account for earnings and losses. This method provides an earnings allocation that appropriately reflects the substantive economics of the investment. Earnings and losses on the investment are reported in Change in Value of Alternative Energy Partnership Investments and investment tax credits are recognized in Income Tax Benefit on the Condensed Consolidated Statements of Income (Loss).

Costs directly associated with the successful acquisition of business, principally commissions and certain premium taxes and policy issuance costs, are deferred. Costs deferred on property and casualty insurance contracts are amortized over the period in which premiums are earned. Costs deferred on traditional life insurance products and other long-duration insurance contracts are amortized on a constant level basis over the expected life of the contracts in accordance with the assumptions used to estimate the liability for future policyholder benefits for nonparticipating traditional and limited-payment contracts. The underlying assumptions for deferred policy acquisition costs and the liability for future policyholder benefits are updated concurrently. The Company did not make any changes to future assumptions for the six months ended June 30, 2024 and 2023.

For the six months ended June 30, 2024 the income tax expense attributable to Kemper Corporation was \$34.5 million, or 19.0% of income before income taxes, compared to an income tax benefit of \$42.6 million, or 19.4% of loss before income taxes for the six months ended June 30, 2023. There were no Unrecognized Tax Benefits at June 30, 2024, or December 31, 2023. No foreign income taxes were paid or refunded for the six months ended June 30, 2024 and June 30, 2023, respectively. Note 19 - Commitments and Contingencies In the ordinary course of its businesses, the Company is involved in legal proceedings including lawsuits, arbitration, regulatory examinations, audits and inquiries. Based on currently available information, the Company does not believe that it is reasonably possible that any of its pending legal proceedings will have a material effect on the Company&™s Condensed Consolidated Financial Statements and Notes to the Condensed Consolidated Financial Statements. 46 Item 2. Management&™s Discussion and Analysis of Financial Condition and Results of Operations Non-GAAP Financial Measures In this report, the Company presents certain measures of its performance on a consolidated and segment basis that are not calculated in accordance with GAAP. We believe that these non-GAAP financial measures enhance the understanding for the Company and our investors of our performance by highlighting the results of operations and the underlying profitability drivers of our business. Segment-specific financial measures are calculated using only the portion of consolidated results attributable to that specific segment. Adjusted Consolidated Net Operating Income (Loss) The Company believes that the non-GAAP financial measure of Adjusted Consolidated Net Operating Income (Loss) provides investors with a valuable measure of its ongoing performance because it reveals underlying operational performance trends that otherwise might be less apparent if the items were not excluded. The most directly comparable GAAP financial measure is Net Income (Loss) attributable to Kemper Corporation. Adjusted Consolidated Net Operating Income (Loss) is an after-tax, non-GAAP financial measure and is computed by excluding from Net Income (Loss) attributable to Kemper Corporation the after-tax impact of (i) Change in Fair Value of Equity and Convertible Securities; (ii) Net Realized Investment Gains (Losses); (iii) Impairment Losses; (iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs; (v) Debt Extinguishment, Pension Settlement and Other Charges; (vi) Goodwill Impairment Charges; (vii) Non-Core Operations; and (viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations. Significant non-recurring items are excluded when (a) the nature of the charge or gain is such that it is reasonably unlikely to recur within two years, and (b) there has been no similar charge or gain within the prior two years. The most directly comparable GAAP financial measure is Net Income (Loss) attributable to Kemper Corporation. There were no applicable significant non-recurring items that the Company excluded from the calculation of Adjusted Consolidated Net Operating Income (Loss) for the three and six months ended June 30, 2024 or 2023. Change in Fair Value of Equity and Convertible Securities, Net Realized Investment Gains (Losses) and Impairment Losses related to investments included in the Company&™s results may vary significantly between periods and are generally driven by business decisions and external economic developments such as capital market conditions that impact the values of the Company&™s investments, the timing of which is unrelated to the insurance underwriting process. Acquisition and Disposition Related Transaction Costs, Integration Costs, and Restructuring and Other Costs may vary significantly between periods and are generally driven by the timing of acquisitions and business decisions which are unrelated to the insurance underwriting process. Debt Extinguishment, Pension Settlement and Other Charges relate to (i) loss from early extinguishment of debt, which is driven by the Company&™s financing and refinancing decisions and capital needs, as well as external economic developments such as debt market conditions, the timing of which is unrelated to the insurance underwriting process; (ii) settlement of pension plan obligations which are business decisions made by the Company, the timing of which is unrelated to the underwriting process; and (iii) other charges that are non-standard, not part of the ordinary course of business, and unrelated to the insurance underwriting process. Goodwill Impairment Charges are excluded because they are infrequent and non-recurring charges. Non-Core Operations includes the results of our Preferred Insurance business which we expect to fully exit. These results are excluded because they are irrelevant to our ongoing operations and do not qualify for Discontinued Operations under GAAP. Significant non-recurring items are excluded because, by their nature, they are not indicative of the Company&™s business or economic trends. 47 Non-GAAP Financial Measures (Continued) Underlying Losses and Loss Adjustment Expenses (â”LAE”) and Underlying Combined Ratio The following discussion uses the non-GAAP financial measures of (i) Underlying Losses and LAE and (ii) Underlying Combined Ratio. Underlying Losses and LAE (also referred to in the discussion as â”Current Year Non-catastrophe Losses and LAE”) exclude the impact of catastrophe losses and loss and LAE reserve development from prior years from the Company&™s Incurred Losses and LAE, which is the most directly comparable GAAP financial measure. The Underlying Combined Ratio is computed by adding the Current Year Non-catastrophe Losses and LAE Ratio with the Insurance Expense Ratio. The most directly comparable GAAP financial measure is the Combined Ratio, which is computed by adding Total Incurred Losses and LAE Ratio, including the impact of catastrophe losses and loss and LAE reserve development from prior years, with the Insurance Expense Ratio. The Company believes Underlying Losses and LAE and the Underlying Combined Ratio are useful to investors and uses these financial measures to reveal the trends in the Company&™s Property & Casualty Insurance segment that may be obscured by catastrophe losses and prior-year reserve development. These catastrophe losses may cause the Company&™s loss trends to vary significantly between periods as a result of their incidence of occurrence and magnitude and can have a significant impact on incurred losses and LAE and the Combined Ratio. Prior-year reserve developments are caused by unexpected loss development on historical reserves. Because reserve development relates to the re-estimation of losses from earlier periods, it has no bearing on the performance of the Company&™s insurance products in the current period. The Company believes it is useful for investors to evaluate these components separately and in the aggregate when reviewing the Company&™s underwriting performance. The preceding non-GAAP financial measures should not be considered a substitute for the comparable GAAP financial measures, as they do not fully recognize the overall profitability of the Company&™s businesses. Summary of Results Net Income Attributable to Kemper Corporation was \$75.4 million (\$1.17 per unrestricted common share) for the three months ended June 30, 2024, compared to Net Loss Attributable to Kemper Corporation of \$97.1 million (\$1.52) per unrestricted common share) for the same period in 2023. Adjusted Consolidated Net Operating Income (Loss) increased by \$105.9 million for the three months ended June 30, 2024, compared to the same period in 2023, due primarily to an improvement in the Specialty Property & Casualty Insurance segment profitability driven by higher average earned premiums per exposure and lower underlying claim frequency. This was partially offset by a decrease in results from our Life Insurance segment driven by a reduction in net investment income due to an investment valuation adjustment of one real estate investment in our alternative investment portfolio. The loss from Non-Core Operations increased by \$10.7 million for the three months ended June 30, 2024 compared to the same period in 2023 primarily due to an increase in the underlying combined ratio driven by increased claims severity, higher prior year development and increased catastrophe losses. These were partially offset by an increase in average earned premium as a result of rate increases. Corporate and Other Adjusted Net Operating Loss decreased by \$0.9 million for the three months ended June 30, 2024 compared to the same period in 2023, due primarily to increased investment income. Adjusted Consolidated Net Operating Income (Loss) increased by \$231.3 million for the six months ended June 30, 2024, compared to the same period in 2023, due primarily to an improvement in the Specialty Property & Casualty Insurance segment profitability driven by higher average earned premiums per exposure and lower underlying claim frequency. This was partially offset by a decrease in results from our Life Insurance segment driven by a reduction in net investment income due to an investment valuation adjustment of one real estate investment in our alternative investment portfolio. The loss from Non-Core Operations decreased by \$3.8 million for the six months ended June 30, 2024 compared to the same period in 2023 primarily due to a reduction of business during the runoff period. Corporate and Other Adjusted Net Operating Loss increased by \$1.1 million for the six months ended June 30, 2024 compared to the same period in 2023, due primarily to increased overhead expenses, partially offset by increased investment income. Revenues Total Revenues decreased by \$132.9 million to \$1,129.9 million for the three months ended June 30, 2024, compared to \$1,262.8 million for the same period in 2023. The decrease was primarily driven by a reduction in earned premiums. Earned Premiums decreased by \$133.2 million to \$1,033.7 million for the three months ended June 30, 2024 compared to \$1,166.9 for the same period in 2023, primarily driven by a \$69.7 million decrease from the Specialty Property & Casualty Insurance segment due to lower new business volumes resulting from targeted actions to improve profitability, partially offset by higher average earned premium per exposure resulting from rate increases. The decrease was also due to \$62.1 million in lower premiums from our Preferred Insurance business, reported as Non-Core Operations, due primarily to lower volumes resulting from the decision to exit and run-off the business in the third quarter of 2023 as well as ongoing profit improvement actions. Net Investment Income decreased by \$13.3 million for the three months ended June 30, 2024, compared to the same period in 2023, due primarily to lower rate earned on Equity Method securities and lower amount of other income, partially offset by higher rate earned and amount of Short-term Investments. Total Revenues decreased by \$284.7 million to \$2,272.9 million for the six months ended June 30, 2024, compared to \$2,557.6 million for the same period in 2023. Earned Premiums decreased by \$282.2 million to \$2,065.6 million for the six months ended June 30, 2024 compared to \$2,347.8 for the same period in 2023, primarily driven by a \$173.9 million decrease from the Specialty Property & Casualty Insurance segment due to lower new business volumes resulting from targeted actions to improve profitability, partially offset by higher average earned premium per exposure resulting from rate increases and higher policy retention. Net Investment Income decreased by \$14.7 million for the six months ended June 30, 2024, compared to the same period in 2023, due primarily to lower rate earned on Equity Method securities and lower amount of other income, offset some by higher rate earned and amount of Short-term

These expenses for the six months ended June 30, 2024 included \$21.3 million of integration expenses due to continued investments in information technology, partially offset by a \$5.1 million gain on the sale of a company owned and occupied property. These expenses for the six months ended June 30, 2023 included \$31.8 million of integration expenses due to continued investments in information technology, \$19.2 million of real estate exit costs resulting from impairments on operating leases and real estate owned and \$1.8 million of accrued severance. 67 Insurance, Interest, and Other Expenses (Continued) Goodwill Impairment Goodwill Impairment for the three and six months ended June 30, 2023 was due to the impairment of goodwill related to the decision to exit the Preferred Property & Casualty Insurance segment in the third quarter of 2023. Income Taxes The federal corporate statutory income tax rate was 21% for the six months ended June 30, 2024 and June 30, 2023. The Company's effective income tax rate, which was 19.0% and 19.4% for the six months ended June 30, 2024 and 2023, respectively, differs from the federal corporate income tax rate due primarily to (1) the effects of tax-exempt investment income, (2) nontaxable income associated with the change in cash surrender value on Company-Owned Life Insurance, (3) Alternative Energy Partnership Investment and general business tax credits, (4) a permanent difference between the amount of long-term equity-based compensation expense recognized under GAAP and the amount deductible in the computation of Federal taxable income, (5) a permanent difference associated with nondeductible executive compensation, (6) impact of deferred taxes in foreign jurisdictions, and (7) a change in valuation allowance. On December 27, 2023, legislation implementing a corporate income tax (the "CIT") in Bermuda was enacted into law. The CIT imposes a 15% income tax that applies to Bermuda businesses which are part of multinational enterprise groups with annual revenue of at least \$750 million or more and will be effective for fiscal years beginning on or after January 1, 2025, with a five-year deferred effective date for certain groups with a limited international footprint. The Company will continue to monitor guidance as it is released from the Government of Bermuda. The Inflation Reduction Act (the "Law") was signed into law on August 16, 2022 and became generally effective on January 1, 2023. Included in the provisions of the Law are various changes to the tax code, including the establishment of a Corporate Alternative Minimum Tax (the "CAMT"). The Company, at this time, is not subject to the CAMT. Tax-exempt investment income and dividends received deductions were \$2.4 million for the three months ended June 30, 2024, compared to \$5.5 million for the same period in 2023. Tax-exempt investment income and dividends received deductions were \$8.2 million for the six months ended June 30, 2024, compared to \$13.2 million for the same period in 2023. The nontaxable increase in cash surrender value on Company-Owned Life Insurance was \$9.0 million for the three months ended June 30, 2024, compared to \$7.3 million for the same period in 2023. The nontaxable increase in cash surrender value on Company-Owned Life Insurance was \$16.1 million for the six months ended June 30, 2024, compared to \$16.2 million for the same period in 2023. The Company realized investment tax credits and other federal income tax credits of \$0.3 million for the three months ended June 30, 2024. The Company did not realize or recapture any investment tax credits or other federal income tax credits for the same period in 2023. The Company realized investment tax credits and other federal income tax credits of \$0.6 million for the six months ended June 30, 2024, compared to recaptured investment tax credits and other federal income tax credits of \$0.1 million for the same period in 2023. The amount of expense recognized for long-term equity-based compensation expense under GAAP was \$0.8 million lower than the amount that would be deductible under the IRC for the three months ended June 30, 2024, compared to \$0.5 million higher for the same period in 2023. The amount of expense recognized for long-term equity-based compensation expense under GAAP was \$1.5 million lower than the amount that would be deductible under the IRC for the six months ended June 30, 2024, compared to \$0.5 million higher for the same period in 2023. The amount of nondeductible executive compensation was \$4.2 million for the three months ended June 30, 2024, compared to \$2.3 million for the same period in 2023. The amount of nondeductible executive compensation was \$8.4 million for the six months ended June 30, 2024, compared to \$7.2 million for the same period in 2023. There was no impairment of non-tax deductible goodwill for the three and six months ended June 30, 2024. The total impairment of non-tax deductible goodwill was \$30.0 million for three and six months ended June 30, 2023. As a result of recently enacted tax legislation in foreign jurisdictions in which the Company operates, a tax benefit of \$10.9 million and \$23.7 million was recorded for the three and six months ended June 30, 2024, respectively. No tax expense or benefit was recorded for the same periods in 2023. 68 Income Taxes (Continued) The Company recorded an increase in valuation allowance of \$10.9 million and \$23.7 million for the three and six months ended June 30, 2024, respectively, for those foreign deferred tax assets it determined were not more-likely-than-not to be realized. No valuation allowance was recorded for the same periods in 2023. Recently Issued Accounting Pronouncements The Company has adopted all recently issued accounting pronouncements with effective dates prior to June 30, 2024. There were no adoptions of such accounting pronouncements during the six months ended June 30, 2024 that had a material impact on the Company's Condensed Consolidated Financial Statements. Liquidity and Capital Resources Amended and Extended Credit Agreement On March 15, 2022, the Company entered into an amended and extended credit agreement. The amended and extended credit agreement increased the borrowing capacity of the existing unsecured credit agreement to \$600.0 million and extended the maturity date to March 15, 2027. Furthermore, the amended and extended credit agreement provides for an accordion feature whereby the Company can increase the revolving credit borrowing capacity by an additional \$200.0 million for a total of maximum capacity of \$800.0 million. Financial covenants within the agreement limit the Company from accessing the maximum capacity. The amount available as of June 30, 2024 was \$458.0 million. There were no outstanding borrowings under the credit agreement on either June 30, 2024 or December 31, 2023. Long-term Debt The Company designates debt obligations as either short-term or long-term based on maturity date at issuance. Total amortized cost of Long-term Debt, Current and Non-Current, outstanding on June 30, 2024 and December 31, 2023 was: (Dollars in Millions) Jun 30, 2024 Dec 31, 2023 Senior Notes: Current: 4.350% Senior Notes due February 15, 2025 \$449.6A 2.400% Senior Notes due September 30, 2030 \$397.3A 3.800% Senior Notes due February 23, 2032 \$396.2A 3.960A 5.875% Fixed-Rate Reset Junior Subordinated Debentures due 2062 \$147.1A 146.6A Total Long-term Debt Outstanding \$1,390.4A \$1,389.2A See Note 16, "Debt," to the Condensed Consolidated Financial Statements for more information regarding the Company's long-term debt. Federal Home Loan Bank Agreements Kemper's subsidiaries, United Insurance Company of America (the "United Insurance"), Trinity Universal Insurance Company (the "Trinity"), and AAC are members of the Federal Home Loan Banks (the "FHLBs") of Chicago, Dallas and Chicago, respectively. AAC became a member of the FHLB of Chicago in May 2022. United Insurance and Trinity became members of the FHLBs of Chicago and Dallas, respectively, in 2013. Under their memberships, United Insurance, Trinity and AAC may borrow through the advance program of their respective FHLB. The Company's investments in FHLB common stock are reported at cost and included in Other Investments. The carrying value of FHLB of Chicago common stock was \$16.4 million and \$16.6 million at June 30, 2024 and December 31, 2023, respectively. The carrying value of FHLB of Dallas common stock was \$3.7 million and \$3.6 million at June 30, 2024 and December 31, 2023, respectively. The Company periodically uses short-term FHLB borrowings for a combination of cash management and risk management purposes, in addition to long-term FHLB borrowings for spread lending purposes. 69 Liquidity and Capital Resources (Continued) During the first six months of 2024, United Insurance received advances of \$58.9 million from the FHLB of Chicago and made repayments of \$69.3 million. United Insurance had outstanding advances from the FHLB of Chicago totaling \$547.0 million at June 30, 2024. These advances were made in connection with the Company's spread lending program. The proceeds related to these advances were used to purchase fixed maturity securities to earn incremental net investment income. For these advances, United Insurance held pledged securities in a custodial account with the FHLB of Chicago with a fair value of \$696.7 million at June 30, 2024. The fair value of the collateral pledged must be maintained at certain specified levels above the borrowed amount, which can vary depending on the assets pledged. If the fair value of the collateral declines below these specified levels of the amount borrowed, United Insurance would be required to pledge additional collateral or repay outstanding borrowings. See Note 15, "Policyholder Obligations," to the Condensed Consolidated Financial Statements for additional information about the United Insurance advances and related funding agreements. Common Stock Repurchases On May 6, 2020, Kemper's Board of Directors authorized the repurchase of up to an additional \$200.0A million of Kemper common stock, in addition to the \$133.3A million remaining under the previous authorization. The Company did not repurchase any of its common stock for the three and six months ended June 30, 2024 or 2023, respectively. As of June 30, 2024, the remaining share repurchase authorization was \$171.6A million under the repurchase program. The amount and timing of any future share repurchases under the authorization will depend on various factors, including market conditions, the Company's financial condition, results of operations, available liquidity, particular circumstances and other considerations. Dividends to Shareholders Kemper paid a quarterly dividend of \$0.31 per common share in the second quarter of 2024. Dividends and dividend equivalents paid were \$39.8 million for the six months ended June 30, 2024. Subsidiary Dividends Various insurance laws restrict the ability of Kemper's insurance subsidiaries to pay dividends without regulatory approval. Such insurance laws applicable to the Company's US based insurance subsidiaries generally restrict the amount of dividends paid in an annual period to the greater of statutory net income from the previous year or 10% of statutory capital and surplus. Kemper's insurance subsidiaries did not pay any dividends to Kemper during the first six months of 2024. Kemper's US based insurance subsidiaries capacity to pay without prior regulatory approval is estimated to be zero as of the filing date. Sources and Uses of Funds The Company directly held cash and investments totaling \$376.5 million at June 30, 2024, compared to \$464.5 million at December 31, 2023. The primary sources of funds available for repayment of Kemper's indebtedness, repurchases of common stock, future shareholder dividend payments, and the payment of interest on Kemper's senior notes, include cash and investments directly held by Kemper, receipt of dividends from Kemper's insurance subsidiaries and borrowings under the credit agreement and from subsidiaries. The primary sources of funds for Kemper's insurance subsidiaries are premiums, investment income, proceeds from the sales and maturity of investments, advances from the FHLBs of Chicago and Dallas, and capital contributions from Kemper. The primary uses of funds are the payment of policyholder benefits under life insurance contracts, claims under property and casualty insurance contracts and accident and health insurance contracts, the payment of commissions and general expenses, the purchase of investments and repayments of advances from the FHLBs of Chicago and Dallas. Generally, there is a time lag between when premiums are collected and when policyholder benefits and insurance claims are paid. During periods of growth, property and casualty insurance companies typically experience positive operating cash flows and can invest a portion of their operating cash flows to fund future policyholder benefits and claims. During periods in which premium revenues decline, insurance companies may experience negative cash flows from operations and may need to sell investments to fund payments to policyholders and claimants. In addition, if the Company's property and casualty insurance subsidiaries experience several significant catastrophic events over a relatively short period of time, investments may be sold to fund payments, which could result in investment gains or losses. Management believes that its property and casualty insurance subsidiaries maintain adequate levels of liquidity in the event that they were to experience several future catastrophic events over a relatively short period of time. 70 Liquidity and Capital Resources (Continued) Information about the Company's cash flows for six months ended June 30, 2024 and 2023 is presented below. (Dollars in Millions) Jun 30, 2024 Jun 30, 2023 Net Cash Provided by (Used in) Operating Activities \$65.9A (\$65.9) Net Cash Provided by (Used in) Investing Activities \$32.6A (\$35.1) Net Cash Used in Financing Activities \$(55.2) \$(37.8) Cash available for investment activities is dependent on cash flow from Operating Activities and Financing Activities and the level of cash the Company elects to maintain. Net Cash Provided by (Used in) Operating Activities Net cash provided by Operating Activities was \$65.9A million for the six months ended June 30, 2024, compared to net cash used of \$65.9A million for the same period in 2023. The increase in cash provided by Operating Activities was primarily driven by increased net income as a result of rate increases, lower paid claims due to lower frequency, and timing of payments within our Property and Casualty operations. Additionally, cash from operations for 2023 included a \$124.7 million federal income tax refund received. Net Cash Provided by (Used in) Investing Activities Net cash provided by Investing Activities for the six months ended June 30, 2024 was \$32.6A million, compared to net cash used of \$35.1A million for the same period in 2023. The increase in cash provided by Investing Activities for the six months ended June 30, 2024 was primarily driven by the ongoing management of our investment portfolio that was impacted by timing of claim payments and premium collections from our Property and Casualty operations. Additionally, cash provided by investing activities included \$12.3 million of cash proceeds received from the sale of company owned and occupied property. Net Cash Used in Financing Activities Net cash used in Financing Activities for the six months ended June 30, 2024 was \$55.2A million, compared to net cash used of \$37.8A million for the same period in 2023, an increase in cash used of \$17.4A million. This was primarily due to a reduction of the Company's borrowing arrangement with the FHLB used for spread lending purposes. Critical Accounting Estimates Kemper's subsidiaries conduct their operations in two industries: property and casualty insurance and life insurance. Accordingly, the Company is subject to several industry-specific accounting principles under GAAP. The preparation of financial statements in accordance with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The process of estimation is inherently uncertain. Accordingly, actual results could ultimately differ materially from the estimated amounts reported in a company's financial statements. Different assumptions are likely to result in different estimates of reported amounts. The Company's critical accounting policies most sensitive to estimates include the valuation of investments, the valuation of life insurance reserves, the valuation of reserves for property and casualty insurance incurred losses and LAE, the assessment of recoverability of goodwill, and the recoverability of deferred tax assets. The Company's critical accounting policies are described in the MD&A included in the 2023 Annual Report. There have been no material changes to the information disclosed in the 2023 Annual Report with respect to these critical accounting estimates and the Company's significant accounting policies. Based on such evaluation, Kemper's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by Kemper in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms, and accumulated and communicated to the Company's management, including Kemper's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. (b) A Changes in internal control over financial reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. (b) A A A Notwithstanding anything in this Agreement to the contrary, to the extent that the requirements of Code section 409A apply to any amount or benefit that would otherwise be payable or distributable hereunder by reason of your termination of employment, such amount or benefit will not be payable or distributable to you by reason of such circumstance unless the circumstances giving rise to such termination of employment constitute a Separation from Service. (c) A A A A Notwithstanding anything in this Agreement to the contrary, if any amount or benefit is nonqualified deferred compensation for purposes of Code section 409A that would otherwise be payable or distributable under this Agreement by reason of your Separation from Service, then, subject to any permissible acceleration of payment by the Company under Treas. BACKGROUNDEmployee is party to a letter agreement providing for severance and other benefits in connection with a change in control of Kemper Corporation, dated [DATE] (a eSeverance Agreement a e), which provides that certain benefits will be provided subject to certain terms and conditions, including the execution of this General Release Agreement. TERMS AND CONDITIONSIn consideration of their mutual promises and undertakings described in the Severance Agreement (incorporated herein by reference) and those described below, Employee and Employer agree as follows: 1. Employment Responsibilities End. Employee a e s employment by Employer {ALTERNATIVES: [shall end] [ended]} at the close of business on [DATE] (a eTermination Date a e). Employee no longer will be authorized to transact business or incur any expenses, obligations and liabilities on behalf of the Employer after the Termination Date. Employee agrees not to seek reinstatement, future employment, or other working relationship with the Employer or any of its affiliates. Employee acknowledges and represents: (a) Employee has reported to the Employer any and all work-related injuries incurred during employment; (b) the Employer properly provided any leave of absence because of Employee a e s or a family member a e s health condition and Employee has not been subjected to any improper treatment, conduct or actions due to a request for or taking such leave; and (c) Employee had the opportunity to provide the Employer with written notice of any and all concerns regarding suspected ethical and compliance issues or violations on the part of the Employer or any Released Party (as defined below), and to report to the Employer any complaints, claims, or actions filed against the Employer or any Released Party, subject to the provisions of the second and third paragraphs of Section 4 below. Employee further agrees that Employee has been paid all wages, benefits, and other compensation owed to Employee by Employer through the Termination Date, subject to the obligation of Employer for the payment of salary to Employee a e s current base rate through the Termination Date and all paid time off (PTO), if any, that will be accrued but unpaid on the Termination Date. Any such accrued and unpaid PTO will be paid to Employee no later than the next regularly scheduled payday after the Termination Date. Employee agrees that Employee is not entitled to any additional or future compensation or benefits other than compensation and benefits provided under the Severance Agreement and/or compensation and benefits, if any, arising under the retirement, welfare benefits, bonus and equity compensation plans of Kemper Corporation to which Employee may be entitled by virtue of Employee a e s employment with Employer, subject in all cases to the terms and conditions of the plans and agreements governing such compensation and benefits. Without limitation to the above, Employee acknowledges and agrees that Employee is not entitled to any severance pay pursuant to the Severance Plan 2. Unemployment Claims. Employer expressly agrees that the release language in Section 4 below shall not prevent Employee from applying for unemployment benefits to which Employee may be entitled under applicable law. 3. Confidentiality and Return of Property. (a) Employee acknowledges that the covenant obligations in paragraph 2.1 (b) and (c) of the Severance Agreement survive his or her discharge and remain in full force and effect. (b) Employee agrees to return to Employer all Employer credit cards, identification cards, access cards and keys to Employer a e s properties or facilities that Employee may have in her possession. Employee shall return any and all Employer confidential files and all Employer confidential and proprietary information that Employee may have in his or her possession. Employee shall also return any and all of Employer a e s property, including but not limited to, computer equipment, peripherals, printers, and company vehicles. 4. Consideration to Employer - Release of Claims and Agreement Not to Sue. Except as stated below, Employee hereby forever releases, discharges and holds harmless Employer and its respective parent company, subsidiaries, affiliates, predecessors, successors and assigns, and their officers, directors, shareholders, principals, employees, insurers, and agents (a ethe Released Parties a e) from any claim or cause of action whatsoever which Employee either has or may have against Employer resulting from or arising out of or related to Employee a e s employment by Employer, or the termination of that employment, including any claims or causes of action Employee has or may have pursuant to the Age Discrimination in Employment Act (a eADEA a e); the Older Workers Benefit Protection Act of 1990 (a eOWBPA a e); Title VII of the Civil Rights Act of 1964, as amended by the Civil Rights Act of 1991; the Americans with Disabilities Act; the Rehabilitation Act of 1973; the Family and Medical Leave Act of 1993; the Illinois Human Rights Act; the Employer Retirement Income Security Act of 1974; and any other law or regulation of any local, state or federal jurisdiction. This release does not apply to any claims or rights that may arise after the date that Employee signs this Release Agreement, or relate to the consideration for this Release Agreement, vested rights under the Employer a e s employee benefit plans as applicable on the date Employee signs this Release Agreement, or any claims that the controlling law clearly states may not be released by private agreement. Furthermore, this release does not waive any rights Employee might have to indemnification as a corporate officer pursuant to Kemper Corporation a e s certificate of incorporation and bylaws, applicable benefit plan documents, or by applicable statutory or common law. Nothing in this Release Agreement (including but not limited to the release of claims, promise not to sue, Employee acknowledgements, confidentiality, cooperation, non-disparagement, and return of property provisions): (a) limits or affects Employee a e s right to challenge the validity of this release under the ADEA or the OWBPA; (b) prevents Employee from filing a charge or complaint with, providing documents or other information to, or participating in an investigation or proceeding conducted by, the Equal Employment Opportunity Commission, the National Labor Relations Board, the Securities and Exchange Commission or any other federal, state or local government agency; or (c) prevents Employee from exercising his or her rights under Section 7 of the National Labor Relations Act to engage in protected, concerted activity with other employees, although by signing this Release Agreement Employee is waiving his or her right to recover any individual relief (including any backpay, frontpay, reinstatement or other legal or equitable relief) in any charge, complaint, or lawsuit or other proceeding brought by or on behalf of Employee, except for any right Employee may have to receive a payment from a government agency (and not the Employer) for information provided to such agency, or other waiver prohibited by applicable law. Other than an arbitration action for breach of this Release Agreement, Employee expressly acknowledges that if Employee files any claim or lawsuit in a court or arbitration proceeding regarding any matter described in this Release Agreement, Employer may be entitled to recover from Employee some or all money paid under this Release Agreement, and if Employer prevails, Employee agrees to pay attorneys a e s fees and costs incurred in defending against such action, to the extent permitted by law. Notwithstanding Employee a e s confidentiality and non-disclosure obligations under this Release Agreement or otherwise, as provided in the Federal Defend Trade Secret Act, Employee shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made: (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law, or to Employee a e s attorney in connection with a lawsuit for retaliation for reporting a suspected violation of law; or (ii) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal so that it is not made public. 5. No Admission of Liability. Nothing in this Release Agreement shall be construed to be an admission of liability by Employer and its respective parent company, subsidiaries, affiliates, predecessors, successors and assigns, and their officers, directors, shareholders, principals, employees, insurers, and agents for any alleged violation of any of Employee a e s statutory rights or any common law duty imposed upon Employer. 6. Adequate Consideration. Employee agrees that the consideration provided for in the Severance Agreement is above and beyond any amounts already owed to Employee and is adequate consideration for all promises and releases contained in this Release Agreement. 7. Non-waiver. The waiver by either party of a breach of any provision of this Release Agreement by the other party shall not operate or be construed as a waiver of any subsequent breach of the same or any other provision of this Release Agreement. 8. Notices. Any notices required or permitted to be given under this Release Agreement shall be deemed to have been duly given upon delivery when personally delivered or sent by a recognized overnight courier service in writing to Employee a e s residence as last shown on Employer a e s

employment records, in the case of Employee, or to [EMPLOYER NAME AND CONTACT TITLE AND ADDRESS AT TIME OF SIGNATURE], in the case of Employer.9. Successors and Assigns. Except as otherwise provided in specific provisions above, this Release Agreement shall be binding upon and inure to the benefit of Employee, Employeeâ€™s spouse, Employeeâ€™s heirs, executors, administrators, designated beneficiaries and upon anyone claiming under Employee or Employeeâ€™s spouse, and shall be binding upon and inure to the benefit of Employer and its successors and assigns. Employee warrants and represents that, except as provided herein, no right, claim, cause of action or demand, or any part thereof, which Employee may have arising out of or in any way related to Employeeâ€™s employment with Employer, has been or will be assigned, granted or transferred in any way to any other person, entity, firm or corporation, in any manner, including by subrogation or by operation of marital property rights.10. Severability. If a court or other body of competent jurisdiction should determine that any term or provision of this Release Agreement is invalid or unenforceable, such term or provision shall be reformed rather than voided, if possible, in accordance with the purposes stated in this Release Agreement and with applicable law, and all other terms and provisions of this Release Agreement shall be deemed valid and enforceable to the extent possible.11. Oral Agreements; Applicable Law. The parties acknowledge that there are no oral agreements or understandings that conflict with, modify, supplement or supersede the terms and conditions of this Release Agreement. This Release Agreement shall be construed under the laws of the State of Illinois applicable to contracts entered into and to be performed in the State of Illinois.12. Representations and Warranties. By signing below, the Employee represents and warrants that Employee has been advised in writing to consult with an attorney before signing this Release Agreement, and Employee has had the opportunity to do so if desired. Employee acknowledges that this Release Agreement has been delivered to Employee on [DATE] and understands that Employee has up to twenty-one (21) days following such date to sign and return this Release Agreement to Employer. Employee agrees that any changes made to this Release Agreement do not restart the running of the 21-day period. The Employee further acknowledges and understands that some portions of the payments and/or benefits described in the Severance Agreement and this Release Agreement, are the consideration to the Employee for waiving rights under the ADEA referenced in Section 4 and for Employeeâ€™s obligations described in Section 3. Finally, Employee understands that Employee has the right within seven (7) days of the signing of this Release Agreement to revoke Employeeâ€™s waiver of rights to claim damages under the ADEA. If Employee does revoke that waiver within the seven (7) day period, the Release Agreement shall be null and void. Any such revocation must be in writing and in delivered to Employer in compliance with the notice provisions of Section 8 no later than the seventh day after execution of this Release Agreement.13. Employee Cooperation and Assistance. Employee agrees to cooperate fully with Employer in the defense or prosecution of any lawsuits, arbitrations, or any other types of proceedings, and in the preparation of any response to any examination or investigation by any government entity or agency, and with respect to any other claims or matters (all such lawsuits, arbitrations, proceedings, examinations, investigation, claims and matters being collectively referred to as â€œProceedingsâ€), arising out of or in any way related to the policies, practices, or conduct of Employer and its affiliates during the time Employee was employed by Employer, and shall testify fully and truthfully in connection therewith. In addition, Employee agrees that, upon reasonable notice, Employee will participate in such informal interviews by counsel for Employer as may be reasonably necessary to ascertain Employeeâ€™s knowledge concerning the facts relating to any such Proceedings, and to cooperate with such counsel in providing testimony whether through deposition or affidavit in any such Proceeding. Employee agrees to immediately notify Employer if he or she is served with legal process to compel her to disclose any information related to either his or her employment with Employer or information regarding one or more of its affiliates, unless prohibited by law. Employee further agrees to immediately notify Employer if he or she is contacted regarding any legal claim or legal matter related to her employment with Employer, unless prohibited by applicable law. The unaudited Condensed Consolidated Financial Statements included herein have been prepared in accordance with generally accepted accounting principles in the United States of America (â€œGAAPâ€œ) on a basis consistent with reporting interim financial information pursuant to the rules and regulations for Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission (â€œSECâ€œ) and include the accounts of Kemper Corporation, its subsidiaries, and a VIE in which the Company is considered the primary beneficiary. All intercompany accounts and transactions have been eliminated.Certain financial information that is included in the annual financial statements, including certain financial statement footnote disclosures prepared in accordance with GAAP, is not required by the rules and regulations of the SEC for interim financial reporting and has been condensed or omitted. In the opinion of the Companyâ€™s management, the Condensed Consolidated Financial Statements include all adjustments necessary to fairly present the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements requires significant management estimates. Due to this factor and other factors, such as the seasonal nature of some portions of the insurance business, annualizing the results of operations for the six months ended June 30, 2024 would not necessarily be indicative of the results expected for the full fiscal year. The accompanying Condensed Consolidated Financial Statements should be read in conjunction with the Companyâ€™s Consolidated Financial Statements and related notes included in Kemperâ€™s Annual Report for the year ended December 31, 2023.Adoption of New Accounting GuidanceThe Company has adopted all recently issued accounting pronouncements with effective dates prior to June 30, 2024.Guidance Adopted in 2024In March 2023, the FASB issued ASU 2023-02 Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method, which expands the use of the proportional amortization method of accounting to equity investments in other tax credit structures that meet certain criteria. The proportional amortization method results in the tax credit investment being amortized in proportion to the allocation of tax credits and other tax benefits in each period, and a net presentation within the income tax line item. ASU 2023-02 is effective for annual periods beginning after December 15, 2023 and interim periods within those annual periods. The Company adopted the new standard on January 1, 2024. The adoption did not have a material impact on the Company's Condensed Consolidated Financial Statements.Guidance Not Yet AdoptedIn October 2023, the FASB issued ASU 2023-06 Disclosure Improvements: Codification Amendments in Response to the SECâ€™s Disclosure Update and Simplification Initiative. This ASU amends the disclosure or presentation requirements related to various subtopics in the FASB Accounting Standards Codification. For SEC registrants, the effective date for each amendment will be the date on which the SECâ€™s removal of that related disclosure requirement from Regulation S-X or Regulation S-K becomes effective, with early adoption prohibited. The Company will monitor the removal of various requirements from the current regulations in order to determine when to adopt the related amendments, but does not anticipate the adoption of the new guidance will have a material impact on the Companyâ€™s Condensed Consolidated Financial Statements. The Company will continue to evaluate the impact of this guidance on its consolidated financial statements. In November 2023, the FASB issued ASU 2023-07 Improvements to Reportable Segment Disclosures, which enhances disclosures about significant segment expenses. The new standard does not change the definition or aggregation of operating segments but will add required disclosures of significant expenses for each reportable segment as well as certain other disclosures to help financial statement users understand how the chief operating decision maker evaluates segment expenses and operating results. ASU 2023-07 is effective for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The Company is currently evaluating the impact of this guidance on its consolidated financial statements. In December 2023, the FASB issued ASU 2023-09 Improvements to Income Tax Disclosures, which improves the transparency of income tax disclosures by requiring companies to use consistent categories and greater disaggregation of information in the Note 1 - Basis of Presentation and Accounting Policies (Continued)tax rate reconciliation as well as requiring disaggregation of income taxes paid by jurisdiction. ASU 2023-09 is effective for annual periods beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. The Company is currently evaluating the impact of this guidance on its consolidated financial statements.In March 2024, the SEC adopted a final rule requiring registrants to disclose certain climate-related information in their registration statements and annual reports. The rule requires the disclosure of qualitative and quantitative information, with certain information, such as financial statement effects of severe weather events, included in the notes to the audited financial statements. Other disclosure requirements include material climate-related risks, processes to manage and govern those risks, disclosure of targets if the targets materially affect or are reasonably likely to materially affect the Company, and, if material, disclosure of certain greenhouse gas emissions. On April 4, 2024, the SEC issued a voluntary stay of the final rule, pending the outcome of pending litigation. The requirements will be applied prospectively and have phased-in effective dates. For the Company, the Form 10-K for the year ended December 31, 2025, will be the first annual report with new climate-related disclosures. The Company is currently evaluating the impact of adopting the final rule. The Company conducts its operations through two operating segments: Specialty Property & Casualty Insurance and Life Insurance. The Specialty Property & Casualty Insurance segmentâ€™s principal products are specialty automobile and commercial automobile insurance. These products are distributed primarily through independent agents and brokers. The Life Insurance segmentâ€™s principal products are individual life, accident, supplemental health and property insurance. Career agents employed by the Company distribute these products. Corporate and Other operations include interest expense, board of directors fees, and general corporate expenses incurred by the Company which are not allocated to other businesses. Non-Core Operations includes the results of our Preferred Insurance business which we expect to fully exit.Segment Adjusted Operating Income (Loss)The Company analyzes the operating performance of each segment using segment adjusted operating income (loss). Segment adjusted operating income (loss) does not equate to â€œincome (loss) before income taxesâ€œ or â€œnet income (loss)â€œ as determined in accordance with U.S. GAAP but is the measure of segment profit or loss used by the Companyâ€™s Chief Operating Decision Maker (â€œCODMâ€œ) to evaluate segment performance and allocate resources, and consistent with authoritative guidance, is the measure of segment performance presented below. Segment adjusted operating income (loss) is calculated by adjusting each segmentâ€™s income (loss) before income taxes for the following items:(i) Change in Fair Value of Equity and Convertible Securities;(ii) Net Realized Investment Gains (Losses);(iii) Impairment Losses;(iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs;(v) Debt Extinguishment, Pension Settlement and Other Charges;(vi) Goodwill Impairment Charge;(vii) Non-Core Operations; and(viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations.These items are important to an understanding of overall results of operations. Segment adjusted operating income (loss) is not a substitute for income determined in accordance with U.S. GAAP, and the Companyâ€™s definition of segment adjusted operating income (loss) may differ from that used by other companies. The Company, however, believes that the presentation of segment adjusted operating income (loss), as measured for management purposes, enhances the understanding of results of operations by highlighting the underlying profitability factors of its businesses.Earned Premiums by product line, including a reconciliation to Total Earned Premiums, for the three and six months ended June 30, 2024 and 2023 were:A Three Months EndedSix Months Ended(Dollars in Millions)Jun 30,2024Jun 30,2023Jun 30,2024Jun 30,2023Specialty Property & Casualty Insurance:Personal Automobiles\$691.5A \$766.6A \$1,366.8A \$1,554.5A Commercial Automobile171.1A 165.7A 335.8A 322.0A Life Insurance:Life84.4A 84.8A 165.0A 167.0A Accident and Health5.6A 5.8A 11.2A 11.7A Property10.8A 11.6A 21.9A 22.8A Total Segment Earned Premiums963.4A 1,034.5A \$1,900.7A \$2,078.0A Non-Core Operations70.3A 132.4A 164.9A 269.8A Total Earned Premiums\$1,033.7A \$1,166.9A \$2,065.6A \$2,347.8A Note 3 - Period26.3Å 29.0Å Property and Casualty Insurance Reserves, Gross of Reinsurance at End of Period\$2,567.2Å \$2,680.1Å Å Å Å Property and Casualty Insurance Reserves are estimated based on historical experience patterns and current economic trends. Actual loss experience and loss trends may differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends on a quarterly basis. Changes in such estimates are included in the Condensed Consolidated Statements of Income (Loss) in the period of change. Additionally, the Company reviews if any premium revisions are appropriate as a result of any incurred losses and loss adjustment expenses (â€œLAEâ€) related to prior years recorded in the current period. For the six months ended JuneÅ 30, 2024 and 2023, no additional premiums or return premiums were recorded.For the six months ended JuneÅ 30, 2024, the Company increased its Property and Casualty Insurance Reserves by \$17.0 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$7.7 million due primarily to higher than expected settlements for extra-contractual demands related to prior year claims. Commercial Automobile insurance loss and LAE reserves developed favorably by \$2.6 million primarily due to favorable emergence in loss patterns related to personal injury protection coverages. Non-Core Operations loss and LAE reserves developed adversely by \$11.9 million mainly due to higher than expected large loss emergence.For the six months ended JuneÅ 30, 2023, the Company increased its Property and Casualty Insurance Reserves by \$67.9 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$40.0 million due primarily to higher than expected emergence in loss patterns within the bodily injury and physical damage coverages. Commercial Automobile insurance loss and LAE reserves developed adversely by \$15.2 million due to higher than expected emergence in loss patterns related to bodily injury coverages. Non-Core Operations loss and LAE reserves developed adversely by \$12.7 millionÅ mainly due to higher than expected emergence in loss patterns related to bodily injury and physical damage coverages.The Company cannot predict whether loss and LAE reserves will develop favorably or unfavorably from the amounts reported in the Condensed Consolidated Financial Statements. The Company believes that any such development will not have a material effect on the Companyâ€™s Condensed Consolidated Shareholdersâ€™ Equity, but could have a material effect on the Companyâ€™s consolidated financial results for a given period.Liability for Future Policyholder BenefitsThe Companyâ€™s Life Insurance Reserves are reported using the Companyâ€™s estimate of its liability for future policyholder benefits.The liability for future policyholder benefits is grouped by contract type and issue year into cohorts consistent with the grouping used in estimating the associated liability. Significant assumption inputs to the calculation of the liability for future policyholder benefits include mortality, lapses, and discount rates (both accretion and current). The Companyâ€™s actuaries review assumptions used to measure the liability for future policyholder benefits for nonparticipating traditional and limited pay long-duration contracts at least annually. If there is a change, assumptions are updated with the recognition and remeasurement recorded in the Companyâ€™s Condensed Consolidated Statements of Income (Loss). The Companyâ€™s actuaries use a variety of generally accepted actuarial methodologies, in accordance with Actuarial Standards of Practice, in determining the assumptions.A key assumption in these estimation methodologies is that patterns observed in prior periods are indicative of how policyholder benefits are expected to develop in the future and that such historical data can be used to predict and estimate future losses. However, changes in the Companyâ€™s business processes and the macroeconomic environment, by their very nature, are likely to affect the actual to expected experience which generally results in the historical experience factors becoming less reliable over time in predicting how cash flows will ultimately develop. The Companyâ€™s actuaries use professional judgment in determining how much weight to place on the actual to expected experience based on the older historical data and how much weight to place on more recent experience data. In some cases, the Companyâ€™s actuaries make adjustments to the assumptions to estimate losses. These assumptions are reviewed by the Companyâ€™s actuaries and corporate management who apply their collective judgment and determine the appropriate assumptions to adopt for the underlying business. Numerous factors are considered in this determination process, including, but not limited to, the assessed reliability of key assumptions that may be significantly influencing the current actuarial indications, changes in pricing and product offerings, changes in customer base, changes in agency operations or other changes that affect the timing of payments, the policyholder behaviors observed over the recent past, the level of volatility within a particular line of business, and the improvement or deterioration of actuarial indications in the current period as compared to prior periods. Changes in the Companyâ€™s assumptions underlying these liabilities over time will occur and may be material.Note 5 - Liability for Future Policyholder Benefits (Continued)The following tables summarize balances and changes in the present value of expected net premiums, present value of expected future policyholder benefits and net liability for future policyholder benefits as of and for the three and six months ended JuneÅ 30, 2024 and 2023:Three Months EndedSix Months Ended(Dollars in Millions)Jun 30, 2024Jun 30, 2023Jun 30, 2024Jun 30, 2023Present Value of Expected Net PremiumsBalance, Beginning of Period\$690.1Å \$722.4Å \$675.4Å \$688.6Å Beginning Balance at Original Discount Rate\$723.1Å \$744.5Å \$694.7Å \$728.9Å Å Å Å Å Å Effect of Changes in Cash Flow Assumptionsâ€Å Å Å Å Å Å Effect of Actual Variances From Expected Experience0.4Å (13.0)Å 7.1Å (12.3)Adjusted Beginning of Period Balance723.5Å 731.5Å 700.4Å 716.6Å Å Å Å Å Å Issuances25.3Å 30.1Å 63.5Å 61.9Å Å Å Å Å Å Interest Accrual7.9Å 7.5Å 15.5Å 14.5Å Å Å Å Å Å Net Premiums Collected(23.5)Å (24.0)Å (46.2)Å (47.9)Ending Balance at Original Discount Rate733.2Å 745.1Å 733.2Å 745.1Å Å Å Å Å Å Effect of Changes in Discount Rate Assumptions(40.6)Å (33.4)Å (40.6)Å (33.4)Balance, End of Period\$692.6Å \$711.7Å \$692.6Å \$711.7Å Present Value of Expected Future Policyholder BenefitsBalance, Beginning of Period\$3,488.2Å \$3,699.5Å \$3,613.2Å \$3,561.0Å Beginning Balance at Original Discount Rate\$3,865.7Å \$3,916.9Å \$3,835.9Å \$3,906.2Å Å Å Å Å Å Effect of Changes in Cash Flow Assumptionsâ€Å Å Å Å Å Å Effect of Actual Variances From Expected Experience(1.3)Å (13.5)Å 2.4Å (13.2)Adjusted Beginning of Period Balance\$3,864.4Å 3,903.4Å 3,840.1Å 3,893.0Å Å Å Å Å Å Issuances25.2Å 30.1Å 63.4Å 61.9Å Å Å Å Å Å Interest Accrual42.6Å 42.8Å 85.2Å 85.2Å Å Å Å Å Å Benefit Payments(57.7)Å (61.2)Å (114.2)Å (125.0)Ending Balance at Original Discount Rate\$3,874.5Å 3,915.1Å 3,874.5Å 3,915.1Å Å Å Å Å Å Effect of Changes in Discount Rate Assumptions(494.4)Å (279.2)Å (494.4)Å (279.2)Balance, End of Period\$3,380.1Å \$3,635.9Å \$3,380.1Å \$3,635.9Å Net Liability for Future Policyholder Benefits, pre-floorings2,687.5Å \$2,924.2Å 2,687.5Å \$2,924.2Å Cumulative impact of flooring the future Policyholder Benefits Reserve0.6Å Å Å 0.6Å Å Å Net Liability for Future Policyholder Benefits, post-flooring2,688.1Å \$2,924.2Å 2,688.1Å \$2,924.2Å Less: Reinsurance Recoverableâ€Å Å Å Å Å Å Net Liability for Future Policyholder Benefits, After Reinsurance Recoverable\$2,688.1Å \$2,924.2Å \$2,688.1Å \$2,924.2Å The weighted-average liability duration of the liability for future policyholder benefits as calculated under current rates is as follows:Jun 30, 2024Jun 30, 2023Weighted-Average Liability Duration of the Liability for Future Policyholder Benefits (Years)14.115.0Note 5 - Liability for Future Policyholder Benefits (Continued)The reconciliation of the net liability for future policyholder benefits to Life and Health Insurance Reserves in the Condensed Consolidated Balance Sheets is as follows:(Dollars in Millions)Jun 30, 2024Jun 30, 2023Net Liability for Future Policyholder Benefits, post-floorings\$2,688.1Å \$2,924.2Å Deferred Profit Liability374.1Å 288.8Å Other1139.8Å 150.8Å Total Life and Health Insurance Reserves\$3,202.0Å \$3,363.8Å 1Other primarily consists of Accident and Health and Universal Life reservesThe amounts of expected discounted future benefit payments, expected undiscounted future gross premiums and expected discounted future gross premiums, is as follows:(Dollars in Millions)Jun 30, 2024Jun 30, 2023Expected Future Benefit Payments, undiscounted\$10,260.5Å \$10,170.1Å Expected Future Gross Premiums, undiscounted\$4,160.2Å \$4,436.6Å Expected Future Gross Premiums, discounted\$2,737.1Å \$2,860.4Å The amount of revenue and interest recognized in the Condensed Consolidated Statements of Income (Loss) is as follows:Three Months EndedSix Months Ended(Dollars in Millions)Jun 30, 2024Jun 30, 2023Jun 30, 2024Jun 30, 2023Gross Premiums or Assessments \$99.2Å \$98.5Å \$202.3Å \$198.5Å Interest Expense \$34.7Å \$35.3Å \$69.7Å \$70.7Å The weighted-average interest rate is as follows:Jun 30, 2024Jun 30, 2023Interest Accretion Rate4.51Å %4.54Å %Current Discount Rate5.68Å %5.17Å %Significant assumption inputs to the calculation of the liability for future policyholder benefits include mortality, lapses, and discount rates (both accretion and current). Actual loss experience and loss trends may differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends on a quarterly basis. Changes in such estimates are included in the Condensed Consolidated Statements of Income (Loss) in the period of change. Additionally, the Company reviews if any premium revisions are appropriate as a result of any incurred losses and loss adjustment expenses (â€œLAEâ€) related to prior years recorded in the current period. For the six months ended JuneÅ 30, 2024 and 2023, no additional premiums or return premiums were recorded.For the six months ended JuneÅ 30, 2024, the Company increased its Property and Casualty Insurance Reserves by \$17.0 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$7.7 million due primarily to higher than expected settlements for extra-contractual demands related to prior year claims. Commercial Automobile insurance loss and LAE reserves developed favorably by \$2.6 million primarily due to favorable emergence in loss patterns related to personal injury protection coverages. Non-Core Operations loss and LAE reserves developed adversely by \$11.9 million mainly due to higher than expected large loss emergence.For the six months ended JuneÅ 30, 2023, the Company increased its Property and Casualty Insurance Reserves by \$67.9 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$40.0 million due primarily to higher than expected emergence in loss patterns within the bodily injury and physical damage coverages. Commercial Automobile insurance loss and LAE reserves developed adversely by \$15.2 million due to higher than expected emergence in loss patterns related to bodily injury coverages. Non-Core Operations loss and LAE reserves developed adversely by \$12.7 millionÅ mainly due to higher than expected emergence in loss patterns related to bodily injury and physical damage coverages.The Company cannot predict whether loss and LAE reserves will develop favorably or unfavorably from the amounts reported in the Condensed Consolidated Financial Statements. The Company believes that any such development will not have a material effect on the Companyâ€™s Condensed Consolidated Shareholdersâ€™ Equity, but could have a material effect on the Companyâ€™s consolidated financial results for a given period.Liability for Future Policyholder BenefitsThe Companyâ€™s Life Insurance Reserves are reported using the Companyâ€™s

estimate of its liability for future policyholder benefits. The liability for future policyholder benefits is grouped by contract type and issue year into cohorts consistent with the grouping used in estimating the associated liability. Significant assumption inputs to the calculation of the liability for future policyholder benefits include mortality, lapses, and discount rates (both accretion and current). The Company's actuaries review assumptions used to measure the liability for future policyholder benefits for nonparticipating traditional and limited pay long-duration contracts at least annually. If there is a change, assumptions are updated with the recognition and remeasurement recorded in the Company's Condensed Consolidated Statements of Income (Loss). The Company's actuaries use a variety of generally accepted actuarial methodologies, in accordance with Actuarial Standards of Practice, in determining the assumptions. A key assumption in these estimation methodologies is that patterns observed in prior periods are indicative of how policyholder benefits are expected to develop in the future and that such historical data can be used to predict and estimate future losses. However, changes in the Company's business processes and the macroeconomic environment, by their very nature, are likely to affect the actual to expected experience which generally results in the historical experience factors becoming less reliable over time in predicting how cash flows will ultimately develop. The Company's actuaries use professional judgment in determining how much weight to place on the actual to expected experience based on the older historical data and how much weight to place on more recent experience data. In some cases, the Company's actuaries make adjustments to the assumptions to estimate losses. These assumptions are reviewed by the Company's actuaries and corporate management who apply their collective judgment and determine the appropriate assumptions to adopt for the underlying business. Numerous factors are considered in this determination process, including, but not limited to, the assessed reliability of key assumptions that may be significantly influencing the current actuarial indications, changes in pricing and product offerings, changes in customer base, changes in agency operations or other changes that affect the timing of payments, the policyholder behaviors observed over the recent past, the level of volatility within a particular line of business, and the improvement or deterioration of actuarial indications in the current period as compared to prior periods. Changes in the Company's assumptions underlying these liabilities over time will occur and may be material.

The nature of policy loans is to have a negligible default risk as the loans are fully collateralized by the value of the policy. Policy loans do not have a stated maturity and the balances and accrued interest are repaid either by the policyholder or with proceeds from the policy. Due to the collateralized nature of policy loans and unpredictable timing of payments, the Company believes the carrying value of policy loans approximates fair value. The fair value measurement of Short-term Investments is estimated using inputs that are considered either Level 1 or Level 2 measurements. The Mortgage Loans fair value measurement is considered equal to amortized cost given the short-term nature of the investments. The fair value measurement of Equity Securities at Modified Cost is estimated using inputs that are considered Level 3 measurements. The cash surrender value of Company-Owned Life Insurance approximates fair value and is considered to be a Level 2 investment. The fair value of Long-term Debt is estimated using quoted prices for similar liabilities in markets that are not active. The inputs used in the valuation are considered Level 2 measurements. Policyholder Obligations presented in the preceding table consist of advances from the FHLB of Chicago, and the inputs used in the valuation are considered Level 2 measurements. The Company consolidates VIEs in which the Company is deemed the primary beneficiary. The primary beneficiary is the entity that has both (1) the power to direct the activities of the VIE that most significantly affect that entity's economic performance and (2) the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE.Reciprocal ExchangeThe Company has formed a management company that acts as attorney-in-fact (â€œAIFâ€œ) for Kemper Reciprocal (the â€œReciprocal Exchangeâ€œ or â€œExchangeâ€œ), an Illinois-domiciled reciprocal insurance exchange. The Exchange principally writes specialty personal automobile policies sold to subscribers of the Exchange. The establishment of Kemper Reciprocal was completed in the third quarter of 2023.The Company consolidates the Exchange since (1) the AIF manages the business operations of the Exchange and therefore has the power to direct the activities that most significantly impact the economic performance of the Exchange and (2) the Company has provided capital to the Exchange and would absorb any expected losses that could potentially be significant to the Exchange. The Exchangeâ€™s anticipated economic performance is the product of its underwriting and investment results. The AIF receives a management fee for the services provided to the Reciprocal Exchange. The management fee revenues are based upon all premiums written or assumed by the Exchange. The AIF determines the management fee rate to be paid by the Exchange. The AIF can charge a management fee of up to 30% of the Exchangeâ€™s gross written and assumed premiums.The assets of the Reciprocal Exchange can be used only to settle the obligations of the Reciprocal Exchange for which creditors and other beneficial owners have no recourse to the Company. The Company has no obligation related to any underwriting and/or investment losses experienced by the Exchange. As of DecemberÂ 31, 2023, the Company had contributed \$4.0Â million of surplus to the Reciprocal Exchange. During the first six months of 2024, the Company contributed an additional \$2.0Â million of surplus to the Reciprocal Exchange, resulting in a total contributed surplus of \$6.0Â million as of JuneÂ 30, 2024. The effects of the transactions between the Company and the Reciprocal Exchange are eliminated in consolidation to derive consolidated Net Income (Loss). However, the management fee income earned by the AIF is reported in Net Income (Loss) attributable to Kemper Corporation and is included in the basic and diluted earnings per share.Noncontrolling interest is the portion of equity (net assets) not attributable, directly or indirectly, to a parent. Since the Company has no ownership interest in Kemper Reciprocal, the difference between the carrying value of the Exchangeâ€™s assets and liabilities represents noncontrolling interest and any income or loss generated by the net assets of the Exchange is presented as income or loss attributable to noncontrolling interest.Alternative Energy PartnershipThe Company invests in an Alternative Energy Partnership formed to provide sustainable energy projects that are designed to generate a return primarily through the realization of federal tax credits. This entity was formed to invest in newly installed residential solar leases and power purchase agreements. As a result of this investment, the Company has the right to certain investment tax credits and tax depreciation benefits, and to a lesser extent, cash flows generated from the installed solar systems leased to individual consumers.The Companyâ€™s interest in the Alternative Energy Partnership Investment is considered an investment in a VIE. The Company has determined that it is not the primary beneficiary as it does not have the power to direct the activities that most significantly impact the economic performance of the entity and therefore is not required to consolidate the VIE. The project sponsor governs the entity and the Company only has consent rights that have been deemed protective in nature and does not participate in key economic decisions of the entity.The investment is accounted for using the equity method of accounting and included in Alternative Energy Partnership Investments in the Condensed Consolidated Balance Sheets. The Company uses the HLBV equity method to account for earnings and losses. This method provides an earnings allocation that appropriately reflects the substantive economics of the investment. Earnings and losses on the investment are reported in Change in Value of Alternative Energy Partnership Investments and investment tax credits are recognized in Income Tax Benefit on the Condensed Consolidated Statements of Income (Loss).Note 9 - Variable Interest Entities (Continued)The following table presents information regarding activity in the Companyâ€™s Alternative Energy Partnership Investments for the three and six months ended JuneÂ 30, 2024 and 2023.Three Months EndedSix Months Ended(Dollars in Millions)Jun 30, 2024Jun 30, 2023Jun 30, 2024Jun 30, 2023Cash distribution from Investment\$0.5 0.5 1.0 1.0 Income on Investments in Alternative Energy Partnership0.6 0.8 1.0 1.5 Income Tax Credits (Recaptures) Recognizedâ€”Â â€”Â â€”Â (0.1)Tax Expense Recognized from Alternative Energy Partnership(0.1)(0.1)(0.2)(0.3)The following table represents the carrying value of the associated assets and liabilities and the associated maximum loss exposure of the Alternative Energy Partnership Investments as of JuneÂ 30, 2024 and DecemberÂ 31, 2023.(Dollars in Millions)Jun 30, 2024Dec 31, 2023Cash\$2.5Â \$2.7Â Equipment, Net of Depreciation253.2Â 256.2Â Other Assets\$9.7Â 7.5Â Total Unconsolidated Assets264.6Â 266.4Â Maximum Loss Exposure17.3Â 17.3Â The Companyâ€™s maximum loss exposure in the event that all of the assets in the Alternative Energy Partnership are deemed worthless is \$17.3 million, which is the carrying value of the investment at JuneÂ 30, 2024 and DecemberÂ 31, 2023. reportable segment as well as certain other disclosures to help financial statement users understand how the chief operating decision maker evaluates segment expenses and operating results. ASU 2023-07 is effective for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The Company is currently evaluating the impact of this guidance on its consolidated financial statements. In December 2023, the FASB issued ASU 2023-09 Improvements to Income Tax Disclosures, which improves the transparency of income tax disclosures by requiring companies to use consistent categories and greater disaggregation of information in the Note 1 - Basis of Presentation and Accounting Policies (Continued)tax rate reconciliation as well as requiring disaggregation of income taxes paid by jurisdiction. ASU 2023-09 is effective for annual periods beginning after December 15, 2024, with early adoption permitted for annual financial statements that have not yet been issued or made available for issuance. The Company is currently evaluating the impact of this guidance on its consolidated financial statements.In March 2024, the SEC adopted a final rule requiring registrants to disclose certain climate-related information in their registration statements and annual reports. The rule requires the disclosure of qualitative and quantitative information, with certain information, such as financial statement effects of severe weather events, included in the notes to the audited financial statements. Other disclosure requirements include material climate-related risks, processes to manage and govern those risks, disclosure of targets if the targets materially affect or are reasonably likely to materially affect the Company, and, if material, disclosure of certain greenhouse gas emissions. On April 4, 2024, the SEC issued a voluntary stay of the final rule, pending the outcome of pending litigation. The requirements will be applied prospectively and have phased-in effective dates. For the Company, the Form 10-K for the year ended December 31, 2025, will be the first annual report with new climate-related disclosures. The Company is currently evaluating the impact of adopting the final rule. Property and Casualty Insurance Reserves are estimated based on historical experience patterns and current economic trends. Actual loss experience and loss trends may differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends on a quarterly basis. Changes in such estimates are included in the Condensed Consolidated Statements of Income (Loss) in the period of change. Additionally, the Company reviews if any premium revisions are appropriate as a result of any incurred losses and loss adjustment expenses ("LAE") related to prior years recorded in the current period. For the six months ended June 30, 2024 and 2023, no additional premiums or return premiums were recorded.

For the six months ended June 30, 2024, the Company increased its Property and Casualty Insurance Reserves by \$17.0 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$7.7 million due primarily to higher than expected settlements for extra-contractual demands related to prior year claims. Commercial Automobile insurance loss and LAE reserves developed favorably by \$2.6 million primarily due to favorable emergence in loss patterns related to personal injury protection coverages. Non-Core Operations loss and LAE reserves developed adversely by \$11.9 million mainly due to higher than expected large loss emergence.

For the six months ended June 30, 2023, the Company increased its Property and Casualty Insurance Reserves by \$67.9 million to recognize adverse development of loss and LAE reserves from prior accident years. Specialty Personal Automobile insurance loss and LAE reserves developed adversely by \$40.0 million due primarily to higher than expected emergence in loss patterns within the bodily injury and physical damage coverages. Commercial Automobile insurance loss and LAE reserves developed adversely by \$15.2 million due to higher than expected emergence in loss patterns related to bodily injury coverages. Non-Core Operations loss and LAE reserves developed adversely by \$12.7 million mainly due to higher than expected emergence in loss patterns related to bodily injury and physical damage coverages.

The Company cannot predict whether loss and LAE reserves will develop favorably or unfavorably from the amounts reported in the Condensed Consolidated Financial Statements. The Company believes that any such development will not have a material effect on the Company's Condensed Consolidated Shareholders' Equity, but could have a material effect on the Company's consolidated financial results for a given period.

The Company's Life Insurance Reserves are reported using the Company's estimate of its liability for future policyholder benefits.

The liability for future policyholder benefits is grouped by contract type and issue year into cohorts consistent with the grouping used in estimating the associated liability. Significant assumption inputs to the calculation of the liability for future policyholder benefits include mortality, lapses, and discount rates (both accretion and current). The Company's actuaries review assumptions used to measure the liability for future policyholder benefits for nonparticipating traditional and limited pay long-duration contracts at least annually. If there is a change, assumptions are updated with the recognition and remeasurement recorded in the Company's Condensed Consolidated Statements of Income (Loss). The Company's actuaries use a variety of generally accepted actuarial methodologies, in accordance with Actuarial Standards of Practice, in determining the assumptions.

A key assumption in these estimation methodologies is that patterns observed in prior periods are indicative of how policyholder benefits are expected to develop in the future and that such historical data can be used to predict and estimate future losses. However, changes in the Company's business processes and the macroeconomic environment, by their very nature, are likely to affect the actual to expected experience which generally results in the historical experience factors becoming less reliable over time in predicting how cash flows will ultimately develop. The Company's actuaries use professional judgment in determining how much weight to place on the actual to expected experience based on the older historical data and how much weight to place on more recent experience data. In some cases, the Company's actuaries make adjustments to the assumptions to estimate losses. These assumptions are reviewed by the Company's actuaries and corporate management who apply their collective judgment and determine the appropriate assumptions to adopt for the underlying business. Numerous factors are considered in this determination process, including, but not limited to, the assessed reliability of key assumptions that may be significantly influencing the current actuarial indications, changes in pricing and product offerings, changes in customer base, changes in agency operations or other changes that affect the timing of payments, the policyholder behaviors observed over the recent past, the level of volatility within a particular line of business, and the improvement or deterioration of actuarial indications in the current period as compared to prior periods. Changes in the Company's assumptions underlying these liabilities over time will occur and may be material.

Note 5 - Liability for Future Policyholder Benefits (Continued)

The following tables summarize balances and changes in the present value of expected net premiums, present value of expected future policyholder benefits and net liability for future policyholder benefits as of and for the three and six months ended June 30, 2024 and 2023:

	Three Months Ended	Six Months Ended
Gains (Losses)	\$5.54 million	\$8.69 million
Net Change in OCI	\$1.0%	\$1.0%
Beginning of Period	\$0.0%	\$0.0%
Ending of Period	\$1.0%	\$1.0%

Note 7 - Derivatives (Continued)

Treasury Locks

During the fourth quarter of 2016 and the first quarter of 2022, in anticipation of debt issuances shortly thereafter and for risk management purposes, the Company entered into derivative transactions (the "2016 Treasury Lock" and "2022 Treasury Lock," together the "Treasury Locks") to hedge the risk of changes in the debt cash flows attributable to changes in the benchmark U.S. Treasury interest rate during the period leading up to the debt issuance.

The Treasury Locks have no remaining gross notional amount or fair value as the hedging relationships have been previously discontinued with the issuance of the associated debt (Senior Notes due February 15, 2025 for the 2016 Treasury Lock and Senior Notes due February 23, 2032 for the 2022 Treasury Lock). The effective portion of the gain (loss) before taxes on the derivative instruments upon discontinuance was \$(4.5) million for the 2016 Treasury Lock and \$5.9 million on the 2022 Treasury Lock. The gain (loss) upon discontinuance is reported as a component of Accumulated Other Comprehensive Loss. Beginning with the issuance of the associated debt, such gain (loss) is amortized into earnings and reported in Interest and Other Expenses in the same periods that the hedged items affect earnings. Amortization on the 2016 Treasury Lock was \$(0.1) million and \$(0.3) million for the three and six months ended June 30, 2024 and 2023, respectively. Amortization on the 2022 Treasury Lock was \$0.1 million and \$0.3 million for the three and six months ended June 30, 2024 and 2023, respectively. As of June 30, 2024, the remaining amount of derivative gain (loss) before taxes within AOCI to be amortized into earnings is \$(1.3) million and \$4.5 million on the 2016 Treasury Lock and 2022 Treasury Lock, respectively.
