1.Â Â Â Â BASIS OF PRESENTATIONThe accompanying unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the financial position of Applied Industrial Technologies, Inc. (the â€œCompanyâ€, or â€œAppliedâ€) as of DecemberÂ 31, 2024, and the results of its operations and its cash flows for the six month periods ended DecemberÂ 31, 2024 and 2023, are included. The condensed consolidated balance sheet as of JuneÂ 30, 2024 is derived from the audited consolidated financial statements at that date. This Quarterly Report on Form 10-Q should be read in conjunction with the Companyâ€™s Annual Report on Form 10-K for the year ended JuneÂ 30, 2024.Operating results for the six month period ended DecemberÂ 31, 2024 are not necessarily indicative of the results that may be expected for the remainder of the fiscal year ending JuneÂ 30, 2025.InventoryThe Company uses the LIFO method of valuing U.S. inventories. An actual valuation of inventory under the LIFO method can be made only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on managementâ€™s estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination. LIFO expense of $667 and $3,377 in the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $2,643 and $7,968 in the six months ended DecemberÂ 31, 2024 and 2023, respectively, is recorded in cost of sales in the condensed statements of consolidated income.Recently Issued Accounting GuidanceIn November 2024, the Financial Accounting Standards Board (FASB) issued its final standard on the Disaggregation of Income Statement Expenses (DISE). This standard, issued as ASU 2024-03, requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This update is effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027. The requirements can be applied prospectively with the option for retrospective application. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures.In December 2023, the FASB issued its final standard to improve income tax disclosures. This standard, issued as ASU 2023-09, requires public business entities to annually disclose specific categories in the income tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. This update is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its income taxes disclosures with no material impact to the consolidated financial statements.In November 2023, the FASB issued its final standard to improve reportable segment disclosures. This standard, issued as ASU 2023-07, requires enhanced disclosures about significant segment expenses, enhances interim disclosure requirements, clarifies circumstances in which an entity can disclose multiple segment measures of profit or loss, provides new segment disclosure requirements for entities with a single reportable segment, and contains other disclosure requirements. This update is effective for all public business entities for fiscal years beginning after December 15, 2023 for annual disclosure requirements, with the interim disclosure requirements being effective for fiscal years beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its segment disclosures with no material impact to the consolidated financial statements.8Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. The revolving credit facility provides a $900,000 unsecured revolving credit facility and an uncommitted accordion feature which allows the Company to request an increase in the borrowing commitments, or incremental term loans, under the credit facility in aggregate principal amounts of up to $500,000. Borrowings under this agreement bear interest, at the Company's election, at either the base rate plus a margin that ranges from 0 to 55 basis points based on the Company's net leverage ratio or Secured Overnight Financing Rate (SOFR) plus a margin that ranges from 80 to 155 basis points based on the Company's net leverage ratio. Borrowing capacity under this facility, without exercising the accordion feature, totaled $515,757 and $515,800 at DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, and is available to fund future acquisitions or other capital and operating requirements. These amounts are net of outstanding letters of credit of $243 and $200 at DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, to secure certain insurance obligations. The interest rate on the revolving credit facility was 5.26% and 6.24% as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively.14Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESNOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS(Amounts in thousands, except per share amounts) (Unaudited)Additionally, the Company had letters of credit outstanding not associated with the revolving credit agreement, in the amount of $5,336 and $4,046 as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, in order to secure certain insurance obligations.Trade Receivable Securitization FacilityIn August 2018, the Company established a trade receivable securitization facility (the â€œAR Securitization Facilityâ€). The AR Securitization Facility effectively increases the Companyâ€™s borrowing capacity by collateralizing a portion of the amount of the U.S. operationsâ€™ trade accounts receivable. The Company uses the proceeds from the AR Securitization Facility as an alternative to other forms of debt, effectively reducing borrowing costs. The AR Securitization Facility's maximum borrowing capacity is $250,000, fees on amounts borrowed are 0.90% per year, and the facility terminates on August 4, 2026. Borrowing capacity is further subject to changes in the credit ratings of our customers, customer concentration levels or certain characteristics of the accounts receivable portfolio and, therefore, at certain times, we may not be able to fully access the $250,000 of borrowing capacity available under the AR Securitization Facility. Borrowings under the AR Securitization Facility carry variable interest rates tied to SOFR. The interest rate on the AR Securitization Facility as of DecemberÂ 31, 2024 and JuneÂ 30, 2024 was 5.34% and 6.35%, respectively.Unsecured Shelf FacilityAt DecemberÂ 31, 2024 the Company had no remaining borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management. Fees on this facility ranged from 0.25% to 1.25% per year based on the Company's leverage ratio at each quarter end. The â€œSeries Eâ€ notes carried a fixed interest rate of 3.08%, and the remaining principal balance of $25,000 was paid in October 2024. Other Long-Term BorrowingIn 2014, the Company assumed $2,359 of debt as a part of the headquarters facility acquisition. The 1.50% fixed interest rate note, held by the State of Ohio Development Services Agency, was fully paid in November 2024. 6. Â Â Â Â DERIVATIVESRisk Management Objective of Using DerivativesThe Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Companyâ€™s derivative financial instruments are used to manage differences in the amount, timing, and duration of the Companyâ€™s known or expected cash receipts and its known or expected cash payments principally related to the Companyâ€™s borrowings. Cash Flow Hedges of Interest Rate RiskThe Companyâ€™s objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in accumulated other comprehensive loss and subsequently reclassified into interest expense in the same period(s) during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense as interest payments are made on the Companyâ€™s variable-rate debt. In January 2019, the Company entered into an interest rate swap to mitigate variability in forecasted interest payments on $463,000 of the Companyâ€™s U.S. dollar-denominated unsecured variable rate debt. The notional amount declined over time to $384,000 as principal payments were made. The interest rate swap effectively converts a portion of the floating rate interest payment into a fixed rate interest payment. The Company designated the interest rate swap as a pay-fixed, receive-floating interest rate swap instrument and is accounting for this derivative as a cash flow hedge. During fiscal 2021, the Company completed a transaction to amend and extend the interest rate swap agreement which 15Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESNOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS(Amounts in thousands, except per share amounts) (Unaudited)resulted in an extension of the maturity date to January 31, 2026. The pay-fixed interest rate swap is considered a hybrid instrument with a financing component and an embedded at-market derivative that was designated as a cash flow hedge. The weighted average fixed pay rate is 1.58% and the interest rate swap is indexed to SOFR. The Company made various accounting elections related to changes in critical terms of the hedging relationship due to reference rate reform to preserve the hedging relationship.The interest rate swap convertedÂ $384,000Â of variable rate debt to a rate ofÂ 2.48% as of DecemberÂ 31, 2024 and JuneÂ 30, 2024. The fair value (Level 2 in the fair value hierarchy) of the interest rate cash flow hedge was $10,257 and $18,081 as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, which is included in other current assets and other assets in the condensed consolidated balance sheet. Amounts reclassified from other comprehensive (loss) income, before tax, to interest (income) expense, net was income of $4,091 and $4,715 for the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $8,782 and $9,353 for the six months ended DecemberÂ 31, 2024 and 2023, respectively.7.Â Â Â Â FAIR VALUE MEASUREMENTSMarketable securities measured at fair value at DecemberÂ 31, 2024 and JuneÂ 30, 2024 totaled $24,767 and $22,519, respectively. The majority of these marketable securities are held in a rabbi trust for a non-qualified deferred compensation plan. The marketable securities are included in other assets on the accompanying condensed consolidated balance sheets and their fair values were determined using quoted market prices (Level 1 in the fair value hierarchy).As of DecemberÂ 31, 2024 the Company had no fixed interest rate debt outstanding. As of JuneÂ 30, 2024, the carrying values of

the Company's fixed interest rate debt outstanding under its unsecured shelf facility agreement with Prudential Investment Management approximated fair value (Level 2 in the fair value hierarchy).The revolving credit facility and the AR Securitization Facility contain variable interest rates and their carrying values approximate fair value (Level 2 in the fair value hierarchy).8.Â Â Â Â SHAREHOLDERS' EQUITYAccumulated Other Comprehensive LossChanges in the accumulated other comprehensive loss are comprised of the following amounts, shown net of taxes:Three Months Ended December 31, 2024Foreign currency translation adjustment Post-employment benefitsCash flow hedgeTotal Accumulated other comprehensive lossBalance at September 30, 2024$(97,822)$(394)$11,708Â $(86,508)Other comprehensive (loss) income(18,639)â€”Â 2,407Â (16,232)Amounts reclassified from accumulated other comprehensive lossâ€”Â (5)(3,089)(3,094)Net current-period other comprehensive loss(18,639)(5)(682)(19,326)Balance at December 31, 2024$(116,461)$(399)$11,026Â $(105,834)16Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONAND RESULTS OF OPERATIONSApplied Industrial Technologies (â€œApplied,â€ the â€œCompany,â€ â€œWe,â€ â€œUsâ€ or â€œOurâ€) is a leading value-added distributor and technical solutions provider of industrial motion, fluid power, flow control, automation technologies, and related maintenance supplies. Our leading brands, specialized services, and comprehensive knowledge serve MRO (Maintenance, Repair & Operations) and OEM (Original Equipment Manufacturer) end users in virtually all industrial markets through our multi-channel capabilities that provide choice, convenience, and expertise. We have a long tradition of growth dating back to 1923, the year our business was founded in Cleveland, Ohio. During the second quarter of fiscal 2025, business was conducted in the United States, Puerto Rico, Canada, Mexico, Australia, New Zealand, Singapore, and Costa Rica from 624 facilities.The following is Management's Discussion and Analysis of significant factors which have affected our financial condition, results of operations and cash flows during the periods included in the accompanying condensed consolidated balance sheets, statements of consolidated income, consolidated comprehensive income and consolidated cash flows. When reviewing the discussion and analysis set forth below, please note that the majority of SKUs (Stock Keeping Units) we sell in any given period are not necessarily sold in the comparable period of the prior year, resulting in the inability to quantify certain commonly used comparative metrics analyzing sales, such as changes in product mix and volume.OverviewConsolidated sales for the quarter ended DecemberÂ 31, 2024 decreased $4.2 million or 0.4% compared to the prior year quarter, with acquisitions increasing sales by $19.9 million or 1.9%, and unfavorable foreign currency translation of $5.1 million decreasing sales by 0.5%. The Company had operating income of $120.9 million, or operating margin of 11.3% of sales for the quarter ended DecemberÂ 31, 2024 compared to an operating income of $114.6 million, or operating margin of 10.6% of sales for the same quarter in the prior year. Net income of $93.3 million increased 2.3% compared to the prior year quarter. On December 31, 2024, the Company acquired all of the membership interests of Hydradyne, LLC (Hydradyne), a Dallas, Texas based provider of fluid power solutions and value-added services including product offerings in hydraulics, pneumatics, electromechanical, instrumentation, filtration and fluid conveyance. The purchase price of $276.1Â million was funded using available cash. Hydradyne is included in the Engineered Solutions segment.Applied monitors several economic indices that are key indicators for industrial economic activity in the United States. These include the Industrial Production (IP) and total industry Manufacturing Capacity Utilization (MCU) indices published by the Federal Reserve Board and the Purchasing Managers Index (PMI) published by the Institute for Supply Management (ISM). Historically, our performance correlates well with the MCU, which measures productivity and calculates a ratio of actual manufacturing output versus potential full capacity output. When manufacturing plants are running at a high rate of capacity, they tend to wear out machinery more frequently and require replacement parts. The MCU and IP indices have increased since September 2024. The MCU for December 2024 was 77.6, which is up from the September reading of 77.5 but down from the June reading 78.2. The ISM PMI registered 49.3 in December, up from the September and June 2024 readings of 47.2 and 48.5, respectively, reflecting the softest pace of contraction in the U.S. manufacturing sector since March 2024. SD&A was 19.3% of sales in the quarter ended DecemberÂ 31, 2024 compared to 18.8% in the prior year quarter, an increase of $4.7 million or 2.3% compared to the prior year quarter. SD&A from businesses acquired added $4.7 million or 2.3% of SD&A expenses, including $0.8 million of intangibles amortization related to acquisitions. Changes in foreign currency exchange rates reduced SD&A during the quarter ended DecemberÂ 31, 2024 by $0.7 million or 0.3% compared to the prior year quarter. Excluding the impact of businesses acquired and the favorable currency translation impact, SD&A increased $0.7 million or 0.3% during the quarter ended DecemberÂ 31, 2024 compared to the prior year quarter.Operating income increased $6.3 million or 5.5%, and as a percent of sales increased to 11.3% from 10.6% during the prior year quarter due to expanded gross profit despite softer demand. Operating income, as a percentage of sales for the Engineered Solutions segment, increased to 15.9% in the current year quarter from 14.7% in the prior year quarter. The Company had net interest income in the current year quarter of $0.9 million compared to net interest expense of $1.9 million in the prior year quarter due to reduced debt levels and greater interest income from higher cash balances and investment yields.Other income, net was $0.8 million for the current year quarter, which included unrealized gains on investments held by non-qualified deferred compensation trusts of $0.2 million, net favorable foreign currency transaction gains of $0.3 million, and $0.3 million of other income. During the prior year quarter, other income, net was $2.9 million, which included unrealized gains on investments held by non-qualified deferred compensation trusts of $1.9 million, net favorable foreign currency transaction gains of $0.8 million, and $0.2 million of other income.The effective income tax rate was 23.9% for the quarter ended DecemberÂ 31, 2024 compared to 21.1% for the quarter ended DecemberÂ 31, 2023. The increase in the effective tax rate is primarily due to

the reversal of a tax valuation allowance related toMexico during the prior year quarter ended DecemberÂ 31, 2023. As a result of the factors addressed above, net income for the quarter ended DecemberÂ 31, 2024 increased $2.1 million or 2.3% compared to the prior year quarter. The increase in the effective tax rate is primarily due to the reversal of a tax valuation allowance related to Mexico during the prior year period. We expect our full year tax rate for fiscal 2025 to be in the 23.0% to 24.0% range.As a result of the factors addressed above, net income for the six months ended DecemberÂ 31, 2024 increased $0.3 million or 0.2% compared to the prior year period. Diluted net income per share was $4.76 per share for the six months ended DecemberÂ 31, 2024 compared to $4.71 per share in the prior year period. Liquidity and Capital ResourcesOur primary source of capital is cash flow from operations, supplemented as necessary by bank borrowings or other sources of debt. At DecemberÂ 31, 2024, we had total debt obligations outstanding of $572.3 million compared to $597.4 million at JuneÂ 30, 2024. Management expects that our existing cash, cash equivalents, funds available under the revolving credit facility, and cash provided from operations will be sufficient to finance normal working capital needs in each of the countries in which we operate, payment of dividends, acquisitions, investments in properties, facilities and equipment, debt service, and the purchase of additional Company common stock. Management also believes that additional long-term debt and line of credit financing could be obtained based on the Company's credit standing and financial strength. During the three months ended DecemberÂ 31, 2024, the Company acquired 75,376 shares of the Company's common stock on the open market for $20.0 million. During the six months ended DecemberÂ 31, 2024, the Company acquired 127,376 shares of the Company's common stock on the open market for $30.0 million. During the three and six months ended DecemberÂ 31, 2023, the Company acquired 62,947 shares of the Company's common stock on the open market for $10.7 million. At DecemberÂ 31, 2024, we had authorization to repurchase an additional 974,624 shares. Borrowing ArrangementsA summary of long-term debt, including the current portion, follows (amounts in thousands):December 31, 2024June 30, 2024Revolving credit facility$384,000Â $384,000Â Trade receivable securitization facility188,300Â 188,300Â Series E notesâ€”Â 25,000Â Otherâ€”Â 105Â Total debt$572,300Â $597,405Â Less: unamortized debt issuance costsâ€”Â 71Â $572,300Â $597,334Â Revolving Credit Facility & Term LoanIn December 2021, the Company entered into a five-year revolving credit facility with a group of banks to refinance the existing credit facility as well as provide funds for ongoing working capital and other general corporate purposes. The revolving credit facility provides a $900.0Â million unsecured revolving credit facility and an uncommitted accordion feature which allows the Company to request an increase in the borrowing commitments, or incremental term loans, under the credit facility in aggregate principal amounts of up to $500.0Â million. Borrowings under this agreement bear interest, at the Company's election, at either the base rate plus a margin that ranges from 0 to 55 basis points based on the Company's net leverage ratio or Secured Overnight Financing Rate (SOFR) plus a margin that ranges from 80 to 155 basis points based on the Company's net leverage ratio. Borrowing capacity under this facility, without exercising the accordion feature, totaled $515.8Â million at DecemberÂ 31, 2024 and JuneÂ 30, 2024, and is available to fund future acquisitions or other capital and operating requirements. This amount is net of outstanding letters of credit of $0.2Â million at both DecemberÂ 31, 2024 and JuneÂ 30, 2024 to secure certain insurance obligations. The interest rate on the revolving credit facility was 5.26% and 6.24% as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively.Additionally, the Company had letters of credit outstanding not associated with the revolving credit agreement, in the amount of $5.3Â million and $4.0Â million as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, in order to secure certain insurance obligations.Trade Receivable Securitization FacilityIn August 2018, the Company established a trade receivable securitization facility (the â€œAR Securitization Facilityâ€). The AR Securitization Facility effectively increases the Companyâ€™s borrowing capacity by collateralizing a portion of the amount of the U.S. operationsâ€™ trade accounts receivable. The Company uses the proceeds from the AR Securitization Facility as an alternative to other forms of debt, effectively reducing borrowing costs. The AR Securitization Facility's maximum borrowing capacity is $250.0Â million, fees on the amounts borrowed are 0.90% per year, and the facility terminates on August 4, 2026. Borrowing capacity is further subject to changes in the credit ratings of our customers, customer concentration levels or certain characteristics of the accounts receivable portfolio and, therefore, at certain times, we may not be able to fully access the $250.0Â million of borrowing capacity available under the AR Securitization Facility. Borrowings under the AR Securitization Facility carry variable interest rates tied to SOFR. The interest rate on the AR Securitization Facility as of DecemberÂ 31, 2024 and JuneÂ 30, 2024 was 5.34% and 6.35%, respectively.Unsecured Shelf FacilityAt DecemberÂ 31, 2024 the Company had no remaining borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management. Fees on this facility ranged from 0.25% to 1.25% per year based on the Company's 27Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONAND RESULTS OF OPERATIONSleverage ratio at each quarter end. The â€œSeries Eâ€ notes carried a fixed interest rate of 3.08%, and the remaining principal balance of $25.0Â million was paid in October 2024. Other Long-Term BorrowingIn 2014, the Company assumed $2.4 million of debt as a part of the headquarters facility acquisition. The 1.50% fixed interest rate note, held by the State of Ohio Development Services Agency, was fully paid in November 2024. In 2019, the Company entered into an interest rate swap which mitigates variability in forecasted interest payments on $384.0 million of the Companyâ€™s U.S. dollar-denominated unsecured variable rate debt. For more information, see note 6, Derivatives, to the consolidated financial statements, included in Item 1 under the caption â€œNotes to Condensed Consolidated Financial Statements.â€The credit facility and the unsecured shelf facility contain restrictive covenants regarding liquidity, net worth, financial ratios, and other covenants. At DecemberÂ 31, 2024, the most restrictive of these covenants required that the Company maintain net indebtedness less than 3.75 times consolidated income before interest, taxes, depreciation and amortization (as defined in these agreements). At DecemberÂ 31, 2024, the Company's net indebtedness was less than 0.6 times consolidated income before interest, taxes, depreciation and amortization (as defined). The Company was in compliance with all financial covenants at DecemberÂ 31, 2024.Accounts Receivable AnalysisThe following table is included to aid in analysis of accounts receivable and the associated provision for losses on accounts receivable (amounts in thousands):December 31,June 30,20242024Accounts receivable, gross$711,725Â $737,941Â Allowance for doubtful accounts15,486Â 13,063Â Accounts receivable, net$696,239Â $724,878Â Allowance for doubtful accounts, % of gross receivables2.2Â %1.8Â %Three Months Ended December 31,Six Months Ended December 31,20242023Provision for losses on accounts receivable$2,549Â $159Â $3,605Â $1,026Â Provision as a % of net sales0.24Â %0.01Â %0.17Â %0.05Â %Accounts receivable are reported at net realizable value and consist of trade receivables from customers. Management monitors accounts receivable by reviewing Days Sales Outstanding (DSO) and the aging of receivables for each of the Company's locations.On a consolidated basis, DSO was 58.4 at DecemberÂ 31, 2024 compared to 56.2 JuneÂ 30, 2024 due to timing of customer payments. As of DecemberÂ 31, 2024, approximately 1.8% of our accounts receivable balances are more than 90 days past due, compared to 1.5% at JuneÂ 30, 2024. On an overall basis, our provision for losses on accounts receivable represents 0.24% of our sales in the three months ended DecemberÂ 31, 2024, compared to 0.01% of sales for the three months ended DecemberÂ 31, 2023, and 0.17% of sales for the six months ended DecemberÂ 31, 2024 compared to 0.05% of sales for the six months ended DecemberÂ 31, 2023. The increase primarily relates to provisions recorded in the the six months ended DecemberÂ 31, 2024 for customer credit deterioration and bankruptcies primarily in the U.S. operations of the Service Center Based Distribution segment as well as recoveries recorded in the the six months ended DecemberÂ 31, 2023 primarily in the U.S. operations of the Service Center Based Distribution segment. Historically, this percentage is between 0.10% to 0.15%. Management believes the overall receivables aging and provision for losses on accounts receivable are at reasonable levels.Inventory AnalysisInventories are valued using the last-in, first-out (LIFO) method for U.S. inventories and the average cost method for foreign inventories.Â  Management uses an inventory turnover ratio to monitor and evaluate inventory.Â  Management calculates this ratio on an annual as well as a quarterly basis, and believes that using average costs to determine the inventory turnover ratio instead of LIFO costs provides a more useful analysis.Â  The annualized inventory turnover based on average costs was 4.3 for the periods ended DecemberÂ 31, 2024 and JuneÂ 30, 2024.Â  28Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONAND RESULTS OF OPERATIONSCautionary Statement Under Private Securities Litigation Reform ActManagementâ€™s Discussion and Analysis contains statements that are forward-looking based on managementâ€™s current expectations about the future. Forward-looking statements are often identified by qualifiers, such as â€œguidanceâ€, â€œexpectâ€, â€œbelieveâ€, â€œplanâ€, â€œintendâ€, â€œwillâ€, â€œshouldâ€, â€œcouldâ€, â€œwouldâ€, â€œanticipateâ€, â€œestimateâ€, â€œforecastâ€, â€œmayâ€, "optimistic" and derivative or similar words or expressions. Similarly, descriptions of objectives, strategies, plans, or goals are also forward-looking statements. These statements may discuss, among other things, expected growth, future sales, future cash flows, future capital expenditures, future performance,

and the anticipation and expectations of the Company and its management as to future occurrences and trends. The Company intends that the forward-looking statements be subject to the safe harbors established in the Private Securities Litigation Reform Act of 1995 and by the Securities and Exchange Commission in its rules, regulations and releases.Readers are cautioned not to place undue reliance on any forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors, many of which are outside the Companyâ€™s control. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and the making of those statements should not be regarded as a representation by the Company or any other person that the results expressed in the statements will be achieved. In addition, the Company assumes no obligation publicly to update or revise any forward-looking statements, whether because of new information or events, or otherwise, except as may be required by law.Important risk factors include, but are not limited to, the following: risks relating to the operations levels of our customers and the economic factors that affect them; the impact that widespread illness, health epidemics, or general health concerns could have; inflationary or deflationary trends in the cost of products, energy, labor and other operating costs, and changes in the prices for products and services relative to the cost of providing them; reduction in supplier inventory purchase incentives; loss of key supplier authorizations, lack of product availability (such as due to supply chain strains), changes in supplier distribution programs, inability of suppliers to perform, and transportation disruptions; changes in customer preferences for products and services of the nature and brands sold by us; changes in customer procurement policies and practices; competitive pressures; our reliance on information systems and risks relating to their proper functioning, the security of those systems, and the data stored in or transmitted through them; the impact of economic conditions on the collectability of trade receivables; reduced demand for our products in targeted markets due to reasons including consolidation in customer industries; our ability to retain and attract qualified sales and customer service personnel and other skilled executives, managers and professionals; our ability to identify and complete acquisitions, integrate them effectively, and realize their anticipated benefits; the variability, timing and nature of new business opportunities including acquisitions, alliances, customer relationships, and supplier authorizations; the incurrence of debt and contingent liabilities in connection with acquisitions; our ability to access capital markets as needed on reasonable terms; disruption of operations at our headquarters or distribution centers; risks and uncertainties associated with our foreign operations, including volatile economic conditions, political instability, cultural and legal differences, and currency exchange fluctuations; the potential for goodwill and intangible asset impairment; changes in accounting policies and practices; our ability to maintain effective internal control over financial reporting; organizational changes within the Company; risks related to legal proceedings to which we are a party; potentially adverse government regulation, legislation, or policies, both enacted and under consideration, including with respect to federal tax policy, international trade, data privacy and security, and government contracting; and the occurrence of extraordinary events (including prolonged labor disputes, power outages, telecommunication outages, terrorist acts, war, public health emergency, earthquakes, extreme weather events, other natural disasters, fires, floods, and accidents). Other factors and unanticipated events could also adversely affect our business, financial condition, or results of operations. Risks can also change over time. Further, the disclosure of a risk should not be interpreted to imply that the risk has not already materialized.We discuss certain of these matters and other risk factors more fully throughout this Form 10-Q as well as other of our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended JuneÂ 30, 2024.29APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIESITEM 4: CONTROLS AND PROCEDURESEvaluation of Disclosure Controls and ProceduresThe Company's management, under the supervision and with the participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures are effective.Changes in Internal Control Over Financial ReportingOn December 31, 2024, the Company completed the acquisition of Hydradyne, LLC (Hydradyne). As permitted by SEC guidance, the scope of managementâ€™s evaluation of internal control over financing reporting as of DecemberÂ 31, 2024 did not include the internal control over financial reporting of Hydradyne. Management is in the process of integrating, evaluating, and where necessary, implementing changes in controls and procedures in Hydradyne. As a result, the Company anticipates excluding Hydradyne from our evaluation of internal control over financial reporting as of JuneÂ 30, 2025.Other than with respect to the acquisition of Hydradyne, there are no changes in internal control over financial reporting during the three months ended DecemberÂ 31, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.31Table of ContentsPART II. Â Â Â Â OTHER INFORMATIONITEM 1. Â Â Â Â Legal ProceedingsThe Company is a party to pending legal proceedings with respect to various product liability, commercial, personal injury, employment, and other matters. Although it is not possible to predict the outcome of these proceedings or the range of reasonably possible loss, the Company does not expect, based on circumstances currently known, that the ultimate resolution of any of these proceedings will have, either individually or in the aggregate, a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows. includes currency on hand as well as demand deposits with banks or financial institutions. It also includes other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and effectively may withdraw funds at any time without prior notice or penalty. Cash equivalents, excluding items classified as marketable securities, include short-term, highly liquid Investments that are both readily convertible to known amounts of cash, and so near their maturity that they present minimal risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify under that definition. Original maturity means original maturity to the entity holding the investment. For example, both a three-month US Treasury bill and a three-year Treasury note purchased three months from maturity qualify as cash equivalents. However, a Treasury note purchased three years ago does not become a cash equivalent when its remaining maturity is three months. Short-term investments, exclusive of cash equivalents, generally consist of marketable securities intended to be sold within one year (or the normal operating cycle if longer) and may include trading securities, available-for-sale securities, or held-to-maturity securities (if maturing within one year), as applicable. + ReferencesReference 1: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(9)) -Publisher FASB -URI

Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the financial position of Applied Industrial Technologies, Inc. (the â€œCompanyâ€, or â€œAppliedâ€) as of DecemberÂ 31, 2024, and the results of its operations and its cash flows for the six month periods ended DecemberÂ 31, 2024 and 2023, are included. The condensed consolidated balance sheet as of JuneÂ 30, 2024 is derived from the audited consolidated financial statements at that date. This Quarterly Report on Form 10-Q should be read in conjunction with the Companyâ€™s Annual Report on Form 10-K for the year ended JuneÂ 30, 2024.Operating results for the six month period ended DecemberÂ 31, 2024 are not necessarily indicative of the results that may be expected for the remainder of the fiscal year ending JuneÂ 30, 2025.InventoryThe Company uses the LIFO method of valuing U.S. inventories. An actual valuation of inventory under the LIFO method can be made only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on managementâ€™s estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination. LIFO expense of $667 and $3,377 in the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $2,643 and $7,968 in the six months ended DecemberÂ 31, 2024 and 2023, respectively, is recorded in cost of sales in the condensed statements of consolidated income.Recently Issued Accounting GuidanceIn November 2024, the Financial Accounting Standards Board (FASB) issued its final standard on the Disaggregation of Income Statement Expenses (DISE). This standard, issued as ASU 2024-03, requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This update is effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027. The requirements can be applied prospectively with the option for retrospective application. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures.In December 2023, the FASB issued its final standard to improve income tax disclosures. This standard, issued as ASU 2023-09, requires public business entities to annually disclose specific categories in the income tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. This update is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its income taxes disclosures with no material impact to the consolidated financial statements.In November 2023, the FASB issued its final standard to improve reportable segment disclosures. This standard, issued as ASU 2023-07, requires enhanced disclosures about significant segment expenses, enhances interim disclosure requirements, clarifies circumstances in which an entity can disclose multiple segment measures of profit or loss, provides new segment disclosure requirements for entities with a single reportable segment, and contains other disclosure requirements. This update is effective for all public business entities for fiscal years beginning after December 15, 2023 for annual disclosure requirements, with the interim disclosure requirements being effective for fiscal years beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its segment disclosures with no material impact to the consolidated financial statements. The revolving credit facility provides a $900,000 unsecured revolving credit facility and an uncommitted accordion feature which allows the Company to request an increase in the borrowing commitments, or incremental term loans, under the credit facility in aggregate principal amounts of up to $500,000. Borrowings under this agreement bear interest, at the Company's election, at either the base rate plus a margin that ranges from 0 to 55 basis points based on the Company's net leverage ratio or Secured Overnight Financing Rate (SOFR) plus a margin that ranges from 80 to 155 basis points based on the Company's net leverage ratio. Borrowing capacity under this facility, without exercising the accordion feature, totaled $515,757 and $515,800 at DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, and is available to fund future acquisitions or other capital and operating requirements. These amounts are net of outstanding letters of credit of $243 and $200 at DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, to secure certain insurance obligations. The interest rate on the revolving credit facility was 5.26% and 6.24% as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively.Additionally, the Company had letters of credit outstanding not associated with the revolving credit agreement, in the amount of $5,336 and $4,046 as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, in order to secure certain insurance obligations.Trade Receivable Securitization FacilityIn August 2018, the Company established a trade receivable securitization facility (the â€œAR Securitization Facilityâ€). The AR Securitization Facility effectively increases the Companyâ€™s borrowing capacity by collateralizing a portion of the amount of the U.S. operationsâ€™ trade accounts receivable. The Company uses the proceeds from the AR Securitization Facility as an alternative to other forms of debt, effectively reducing borrowing costs. The AR Securitization Facility's maximum borrowing capacity is $250,000, fees on amounts borrowed are 0.90% per year, and the facility terminates on August 4, 2026. Borrowing capacity is further subject to changes in the credit ratings of our customers, customer concentration levels or certain characteristics of the accounts receivable portfolio and, therefore, at certain times, we may not be able to fully access the $250,000 of borrowing capacity available under the AR Securitization Facility. Borrowings under the AR Securitization Facility carry variable interest rates tied to SOFR. The interest rate on the AR Securitization Facility as of DecemberÂ 31, 2024 and JuneÂ 30, 2024 was 5.34% and 6.35%, respectively.Unsecured Shelf FacilityAt DecemberÂ 31, 2024 the Company had no remaining borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management. Fees on this facility ranged from 0.25% to 1.25% per year based on the Company's leverage ratio at each quarter end. The â€œSeries Eâ€ notes carried a fixed interest rate of 3.08%, and the remaining principal balance of $25,000 was paid in October 2024. Other Long-Term BorrowingIn 2014, the Company assumed $2,359 of debt as a part of the headquarters facility acquisition. The 1.50% fixed interest rate note, held by the State of Ohio Development Services Agency, was fully paid in November 2024. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Companyâ€™s derivative financial instruments are used to manage differences in the amount, timing, and duration of the Companyâ€™s known or expected cash receipts and its known or expected cash payments principally related to the Companyâ€™s borrowings. Cash Flow Hedges of Interest Rate RiskThe Companyâ€™s objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in accumulated other comprehensive loss and subsequently reclassified into interest expense in the same period(s) during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense as interest payments are made on the Companyâ€™s variable-rate debt. In January 2019, the Company entered into an interest rate swap to mitigate variability in forecasted interest payments on $463,000 of the Companyâ€™s U.S. dollar-denominated unsecured variable rate debt. The notional amount declined over time to $384,000 as principal payments were made. The interest rate swap effectively converts a portion of the floating rate interest payment into a fixed rate interest payment. The Company designated the interest rate swap as a pay-fixed, receive-floating interest rate swap instrument and is accounting for this derivative as a cash flow hedge. During fiscal 2021, the Company completed a transaction to amend and extend the interest rate swap agreement which resulted in an extension of the maturity date to January 31, 2026. The pay-fixed interest rate swap is considered a hybrid instrument with a financing component and an embedded at-market derivative that was designated as a cash flow hedge. The weighted average fixed pay rate is 1.58% and the interest rate swap is indexed to SOFR. The Company made various accounting elections related to changes in critical terms of the hedging relationship due to reference rate reform to preserve the hedging relationship.The interest rate swap convertedÂ $384,000Â of variable rate debt to a rate ofÂ 2.48% as of DecemberÂ 31, 2024 and JuneÂ 30, 2024. The fair value (Level 2 in the fair value hierarchy) of the interest rate cash flow hedge was $10,257 and $18,081 as of DecemberÂ 31, 2024 and JuneÂ 30, 2024, respectively, which is included in other current assets and other assets in the condensed consolidated balance sheet. Amounts reclassified from other comprehensive (loss) income, before tax, to interest (income) expense, net was income of $4,091 and $4,715 for the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $8,782 and $9,353 for the six months ended DecemberÂ 31, 2024 and 2023, respectively. An actual valuation of inventory under the LIFO method can be made only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on managementâ€™s estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination. LIFO expense of $667 and $3,377 in the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $2,643 and $7,968 in the six months ended DecemberÂ 31, 2024 and 2023, respectively, is recorded in cost of sales in the condensed statements of consolidated income. New Accounting Pronouncements, Policy [Policy Text Block] Recently Issued Accounting GuidanceIn November 2024, the Financial Accounting Standards Board (FASB) issued its final standard on the Disaggregation of Income Statement Expenses (DISE). This standard, issued as ASU 2024-03, requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This update is effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027. The requirements can be applied prospectively with the option for retrospective application. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures.In December 2023, the FASB issued its final standard to improve income tax disclosures. This standard, issued as ASU 2023-09, requires public business entities to annually disclose specific categories in the income tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. This update is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its income taxes disclosures with no material impact to the consolidated financial statements.In November 2023, the FASB issued its final standard to improve reportable segment disclosures. This standard, issued as ASU 2023-07, requires enhanced disclosures about significant segment expenses, enhances interim disclosure requirements, clarifies circumstances in which an entity can disclose multiple segment measures of profit or loss, provides new segment disclosure requirements for entities with a single reportable segment, and contains other disclosure requirements. This update is effective for all public business entities for fiscal years beginning after December 15, 2023 for annual disclosure requirements, with the interim disclosure requirements being effective for fiscal years beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its segment disclosures with no material impact to the consolidated financial statements. Examples of items that might be included in the application of this element may consist of letters of credit, standby letters of credit, and revolving credit arrangements, under which borrowings can be made up to a maximum amount as of any point in time conditional on satisfaction of specified terms before, as of and after the date of drawdowns on the line. Includes short-term obligations that would normally be classified as current liabilities but for which (a) postbalance sheet date issuance of a long term obligation to refinance the short term obligation on a long term basis, or (b) the enterprise has entered into a financing agreement that clearly permits the enterprise to refinance the short-term obligation on a long term basis and the following conditions are met (1) the agreement does not expire within 1 year and is not cancelable by the lender except for violation of an objectively determinable provision, (2) no violation exists at the BS date, and (3) the lender has entered into the financing agreement is expected to be financially capable of honoring the agreement. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)) -SubTopic 10 -Topic 210 -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 942 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.9-03(16)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478546/942-210-S99-1Reference 3: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 944 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.7-03(a)(16)(a)(2)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478777/944-210-S99-1 + Details Name: us-gaap_LineOfCredit Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionLine items represent financial concepts included in a table. OF PRESENTATION The accompanying unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the financial position of Applied Industrial Technologies, Inc. (the "Company", or "Applied") as of December 31, 2024, and the results of its operations and its cash flows for the six month periods ended December 31, 2024 and 2023, are included. The condensed consolidated balance sheet as of June 30, 2024 is derived from the audited consolidated financial statements at that date. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended June 30, 2024. Operating results for the six month period ended December 31, 2024 are not necessarily indicative of the results that may be expected for the remainder of the fiscal year ending June 30, 2025. Inventory The Company uses the LIFO method of valuing U.S. inventories. An actual valuation of inventory under the LIFO method can be made only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination. LIFO expense of $667 and $3,377 in the three months ended December 31, 2024 and 2023, respectively, and $2,643 and $7,968 in the six months ended December 31, 2024 and 2023, respectively, is recorded in cost of sales in the condensed statements of consolidated income. Recently Issued Accounting Guidance In November 2024, the Financial Accounting Standards Board (FASB) issued its final standard on the Disaggregation of Income Statement Expenses (DISE). This standard, issued as ASU 2024-03, requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This update is effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027. The requirements can be applied prospectively with the option for retrospective application. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures. In December 2023, the FASB issued its final standard to improve income tax disclosures. This standard, issued as ASU 2023-09, requires public business entities to annually disclose specific categories in the income tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. This update is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its income taxes disclosures with no material impact to the consolidated financial statements. In November 2023, the FASB issued its final standard to improve reportable segment disclosures. This standard, issued as ASU 2023-07, requires enhanced disclosures about significant segment expenses, enhances interim disclosure requirements, clarifies circumstances in which an entity can disclose multiple segment measures of profit or loss, provides new segment disclosure requirements for entities with a single reportable segment, and contains other disclosure requirements. This update is effective for all public business entities for fiscal years beginning after December 15, 2023 for annual disclosure requirements, with the interim disclosure requirements being effective for fiscal years beginning after December 15, 2024. The Company is currently evaluating the impacts of this guidance on its financial statements and related disclosures, and expects the standard will only impact its segment disclosures with no material impact to the consolidated financial statements. Additional amortization of $2,736 and $2,863 is included in the pro forma results for the three months ended December 31, 2024 and 2023, respectively, and additional amortization of $5,473 and $5,727 is included in the pro forma results for the six months December 31, 2024 and 2023, respectively. In addition, pro forma adjustments of $2,761 for the three months ended December 31, 2024 and 2023 and of $5,522 for the six months December 31, 2024 and 2023 were made for interest income that would not have been earned as a result of the cash used for the acquisition. The pro forma net income amounts also incorporate an adjustment to the recorded income tax expense for the income tax effect of the pro forma adjustments described above. These pro forma results of operations do not include any anticipated synergies or other effects of the planned integration of Hydradyne; accordingly, such pro forma adjustments do not purport to be indicative of the results of operations that actually would have resulted had the acquisition occurred as of the date indicated or that may result in the future. Other Fiscal 2025 Acquisitions On August 1, 2024, the Company acquired substantially all of the net assets of Total Machine Solutions (TMS), a Fairfield, New Jersey based provider of electrical and mechanical power transmission products and solutions including bearings, drives, motors, conveyor components, and related repair services. banks to refinance the existing credit facility as well as provide funds for ongoing working capital and other general corporate purposes. The revolving credit facility provides a $900,000 unsecured revolving credit facility and an uncommitted accordion feature which allows the Company to request an increase in the borrowing commitments, or incremental term loans, under the credit facility in aggregate principal amounts of up to $500,000. Borrowings under this agreement bear interest, at the Company's election, at either the base rate plus a margin that ranges from 0 to 55 basis

points based on the Company's net leverage ratio or Secured Overnight Financing Rate (SOFR) plus a margin that ranges from 80 to 155 basis points based on the Company's net leverage ratio. Borrowing capacity under this facility, without exercising the accordion feature, totaled $515,757 and $515,800 at December 31, 2024 and June 30, 2024, respectively, and is available to fund future acquisitions or other capital and operating requirements. These amounts are net of outstanding letters of credit of $243 and $200 at December 31, 2024 and June 30, 2024, respectively, to secure certain insurance obligations. The interest rate on the revolving credit facility was 5.26% and 6.24% as of December 31, 2024 and June 30, 2024, respectively. Additionally, the Company had letters of credit outstanding not associated with the revolving credit agreement, in the amount of $5,336 and $4,046 as of December 31, 2024 and June 30, 2024, respectively, in order to secure certain insurance obligations. Trade Receivable Securitization Facility In August 2018, the Company established a trade receivable securitization facility (the "AR Securitization Facility"). The AR Securitization Facility effectively increases the Company's borrowing capacity by collateralizing a portion of the amount of the U.S. operations' trade accounts receivable. The Company uses the proceeds from the AR Securitization Facility as an alternative to other forms of debt, effectively reducing borrowing costs. The AR Securitization Facility's maximum borrowing capacity is $250,000, fees on amounts borrowed are 0.90% per year, and the facility terminates on August 4, 2026. Borrowing capacity is further subject to changes in the credit ratings of our customers, customer concentration levels or certain characteristics of the accounts receivable portfolio and, therefore, at certain times, we may not be able to fully access the $250,000 of borrowing capacity available under the AR Securitization Facility. Borrowings under the AR Securitization Facility carry variable interest rates tied to SOFR. The interest rate on the AR Securitization Facility as of December 31, 2024 and June 30, 2024 was 5.34% and 6.35%, respectively. Unsecured Shelf Facility At December 31, 2024 the Company had no remaining borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management. Fees on this facility ranged from 0.25% to 1.25% per year based on the Company's leverage ratio at each quarter end. The "Series E" notes carried a fixed interest rate of 3.08%, and the remaining principal balance of $25,000 was paid in October 2024. Other Long-Term Borrowing In 2014, the Company assumed $2,359 of debt as a part of the headquarters facility acquisition. The 1.50% fixed interest rate note, held by the State of Ohio Development Services Agency, was fully paid in November 2024.DEBT<div style="margin-bottom:3pt;margin-top:6pt;padding-left:36pt"><span & Term Loan In December 2021, the Company entered into a five-year revolving credit facility with a group of banks to refinance the existing credit facility as well as provide funds for ongoing working capital and other general corporate purposes. The revolving credit facility provides a $900,000 unsecured revolving credit facility and an uncommitted accordion feature which allows the Company to request an increase in the borrowing commitments, or incremental term loans, under the credit facility in aggregate principal amounts of up to $500,000. Borrowings under this agreement bear interest, at the Company's election, at either the base rate plus a margin that ranges from 0 to 55 basis points based on the Company's net leverage ratio or Secured Overnight Financing Rate (SOFR) plus a margin that ranges from 80 to 155 basis points based on the Company's net leverage ratio. Borrowing capacity under this facility, without exercising the accordion feature, totaled $515,757 and $515,800 at December 31, 2024 and June 30, 2024, respectively, and is available to fund future acquisitions or other capital and operating requirements. These amounts are net of outstanding letters of credit of $243 and $200 at December 31, 2024 and June 30, 2024, respectively, to secure certain insurance obligations. The interest rate on the revolving credit facility was 5.26% and 6.24% as of December 31, 2024 and June 30, 2024, respectively. Additionally, the Company had letters of credit outstanding not associated with the revolving credit agreement, in the amount of $5,336 and $4,046 as of December 31, 2024 and June 30, 2024, respectively, in order to secure certain insurance obligations. Trade Receivable Securitization Facility In August 2018, the Company established a trade receivable securitization facility (the "AR Securitization Facility"). The AR Securitization Facility effectively increases the Company's borrowing capacity by collateralizing a portion of the amount of the U.S. operations' trade accounts receivable. The Company uses the proceeds from the AR Securitization Facility as an alternative to other forms of debt, effectively reducing borrowing costs. The AR Securitization Facility's maximum borrowing capacity is $250,000, fees on amounts borrowed are 0.90% per year, and the facility terminates on August 4, 2026. Borrowing capacity is further subject to changes in the credit ratings of our customers, customer concentration levels or certain characteristics of the accounts receivable portfolio and, therefore, at certain times, we may not be able to fully access the $250,000 of borrowing capacity available under the AR Securitization Facility. Borrowings under the AR Securitization Facility carry variable interest rates tied to SOFR. The interest rate on the AR Securitization Facility as of December 31, 2024 and June 30, 2024 was 5.34% and 6.35%, respectively. Unsecured Shelf Facility At December 31, 2024 the Company had no remaining borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management. Fees on this facility ranged from 0.25% to 1.25% per year based on the Company's leverage ratio at each quarter end. The "Series E" notes carried a fixed interest rate of 3.08%, and the remaining principal balance of $25,000 was paid in October 2024. Other Long-Term Borrowing In 2014, the Company assumed $2,359 of debt as a part of the headquarters facility acquisition. The 1.50%

fixed interest rate note, held by the State of Ohio Development Services Agency, was fully paid in November 2024. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's borrowings. Cash Flow Hedges of Interest Rate Risk The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in accumulated other comprehensive loss and subsequently reclassified into interest expense in the same period(s) during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. In January 2019, the Company entered into an interest rate swap to mitigate variability in forecasted interest payments on $463,000 of the Company's U.S. dollar-denominated unsecured variable rate debt. The notional amount declined over time to $384,000 as principal payments were made. The interest rate swap effectively converts a portion of the floating rate interest payment into a fixed rate interest payment. The Company designated the interest rate swap as a pay-fixed, receive-floating interest rate swap instrument and is accounting for this derivative as a cash flow hedge. During fiscal 2021, the Company completed a transaction to amend and extend the interest rate swap agreement which resulted in an extension of the maturity date to January 31, 2026. The pay-fixed interest rate swap is considered a hybrid instrument with a financing component and an embedded at-market derivative that was designated as a cash flow hedge. The weighted average fixed pay rate is 1.58% and the interest rate swap is indexed to SOFR. The Company made various accounting elections related to changes in critical terms of the hedging relationship due to reference rate reform to preserve the hedging relationship. The interest rate swap converted $384,000 of variable rate debt to a rate of 2.48% as of December 31, 2024 and June 30, 2024. The fair value (Level 2 in the fair value hierarchy) of the interest rate cash flow hedge was $10,257 and $18,081 as of December 31, 2024 and June 30, 2024, respectively, which is included in other current assets and other assets in the condensed consolidated balance sheet. Amounts reclassified from other comprehensive (loss) income, before tax, to interest (income) expense, net was income of $4,091 and $4,715 for the three months ended December 31, 2024 and 2023, respectively, and $8,782 and $9,353 for the six months ended December 31, 2024 and 2023, respectively. 463000000384000000.015838400000000.02481025700018081000401000471500087820009353000FAIR VALUE MEASUREMENTS Marketable securities measured at fair value at December 31, 2024 and June 30, 2024 totaled $24,767 and $22,519, respectively.
