### Dada Announces Unaudited Second Quarter 2024 Financial Results

SHANGHAI, China, Aug. 20, 2024 (GLOBE NEWSWIRE) -- Dada Nexus Limited (NASDAQ: DADA, "Dada", the "Company", or "we"), China's leading local on-demand retail and delivery platform, today announced its unaudited financial results for the second quarter ended June 30, 2024.

"I am grateful for the Board's trust and honored to take on the responsibilities of Chairman. With the Board's vision and leadership, we remain optimistic about the journey ahead of us in the on-demand retail and delivery industries," said Mr. Kevin Qing Guo, Chairman of the Board of Dada. "In the second quarter of 2024, our focus on user experience and high-quality development continued to bear significant fruits. JD NOW<sup>1</sup> recorded over 100% year-on-year growth in both monthly transacting users<sup>2</sup> and orders through the JD App in the second quarter of 2024. Dada NOW<sup>3</sup> booked revenue growth north of 50% year on year in the first half of 2024. Looking ahead, we will strive to further execute our high-quality growth strategy while creating long-term, sustainable value for our shareholders, consumers, merchants and brand partners, delivery riders, and the society as a whole."

"In the second quarter of 2024, we remained committed to customer experience optimization and high-quality development," said Mr. Henry Jun Mao, Chief Financial Officer of Dada. "We are pleased to see the strong growth momentum in JD NOW's core metrics such as order volume and user base through the JD App in the quarter, which we believe will lead to long-term mindshare gains. Meanwhile, Dada NOW once again recorded impressive revenue growth, primarily thanks to the remarkable performance of our chain merchants business. GAAP and non-GAAP net loss margin<sup>4</sup> improved by 1.2 percentage points and 1.8 percentage points quarter over quarter, respectively, as a result of our quality-focused efforts."

• **Net revenues generated from JD NOW** was RMB912.4 million in the second quarter of 2024, compared with RMB1,616.4 million in the second quarter of 2023, mainly due to a decrease in online advertising and marketing services revenues, and a decrease in fulfillment services and other revenues as a result of the full rollout of delivery fee waiver program for orders exceeding RMB29 since February 2024.

• **Net revenues generated from Dada NOW** increased by 46.6% from RMB980.4 million in the second quarter of 2023 to RMB1,437.5 million in the second quarter of 2024, mainly driven by an increase in order volume of intra-city delivery services provided to various chain merchants.

**Total costs and expenses** were RMB2,667.0 million in the second quarter of 2024, compared with RMB2,804.1 million in the same quarter of 2023.

• **Operations and support** costs were RMB1,735.7 million in the second quarter of 2024, compared with RMB1,503.0 million in the same quarter of 2023. The increase was primarily due to an increase in rider cost as a result of the increasing order volume of intra-city delivery services provided to various chain merchants, partially offset by a decrease in online advertising and marketing services costs.

• **Selling and marketing** expenses were RMB781.9 million in the second quarter of 2024, compared with RMB1,136.7 million in the same quarter of 2023. The decrease was primarily due to a decrease in promotion activities initiated by us on the JD NOW platform.

• **General and administrative** expenses were RMB48.1 million in the second quarter of 2024, compared with RMB56.4 million in the same quarter of 2023. The decrease was primarily due to a decrease in amortization of intangible assets arising from the acquisition of JD NOW in 2016.

• **Research and development** expenses were RMB85.4 million in the second quarter of 2024, compared with RMB102.0 million in the same quarter of 2023. The decrease was mainly attributable to a decrease in research and development personnel costs.

**Loss from operations** was RMB310.5 million in the second quarter of 2024, compared with RMB197.0 million in the same quarter of 2023.

**Non-GAAP loss from operations**<sup>5</sup> was RMB164.5 million in the second quarter of 2024, compared with RMB28.6 million in the same quarter of 2023.

**Net loss** was RMB286.2 million in the second quarter of 2024, compared with RMB158.7 million in the same quarter of 2023.

**Non-GAAP net loss**<sup>6</sup> was RMB142.3 million in the second quarter of 2024, compared with a net income of RMB8.4 million in the same quarter of 2023.

**Basic and diluted net loss per ordinary share** was RMB0.27 in the second quarter of 2024, compared with RMB0.15 for the second quarter of 2023.

**Non-GAAP basic and diluted net loss per ordinary share**<sup>7</sup> was RMB0.14 in the second quarter of 2024, compared with a net income per ordinary share of RMB0.01 for the second quarter of 2023.

#### **Use of Non-GAAP Financial Measures**

The Company also uses certain non-GAAP financial measures in evaluating its business. For example, the Company uses non-GAAP income/(loss) from operations, non-GAAP net income/(loss), non-GAAP net margin, and non-GAAP net income/(loss) per ordinary share as supplemental measures to review and assess its financial and operating performance. Non-GAAP income/(loss) from operations is income/(loss) from operations excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from acquisitions. Non-GAAP net income/(loss) is net income/(loss) excluding the impact of share-based compensation expenses, amortization of intangible assets resulting from acquisitions, and income tax

benefit from amortization of such intangible assets. Non-GAAP net margin is non-GAAP net income/(loss) as a percentage of total net revenues. Non-GAAP net income/(loss) per ordinary share is non-GAAP net income/(loss) divided by weighted average number of shares used in calculating non-GAAP net income/(loss) per ordinary share.

The Company presents the non-GAAP financial measures because they are used by the Company's management to evaluate the Company's financial and operating performance and formulate business plans. Non-GAAP income/(loss) from operations and non-GAAP net income/(loss) enable the Company's management to assess the Company's financial and operating results without considering the impact of share-based compensation expenses, amortization of intangible assets resulting from acquisitions, and income tax benefit from amortization of such intangible assets. The Company also believes that the use of the non-GAAP financial measures facilitates investors' assessment of the Company's financial and operating performance.

The non-GAAP financial measures are not defined under accounting principles generally accepted in the United States of America ("U.S. GAAP") and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP financial measures is that they do not reflect all items of income and expense that affect the Company's operations. Share-based compensation expenses, amortization of intangible assets resulting from acquisitions, and income tax benefit from amortization of such intangible assets have been and may continue to be incurred in the Company's business and are not reflected in the presentation of non-GAAP financial measures. Further, the non-GAAP financial measures may differ from the non-GAAP financial measures used by other companies, including peer companies, potentially limiting the comparability of their financial results to the Company's. In light of the foregoing limitations, non-GAAP financial measures should not be considered in isolation from or as an alternative to financial measures prepared in accordance with U.S. GAAP.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliations of GAAP and Non-GAAP Results."
