Cautionary Statement Regarding Forward-Looking Information

This Quarterly Report on Form 10-Q ("Quarterly Report") may include statements, which, to the extent they are not statements of historical or present fact, constitute "forward looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the use of terms such as "believes," "expects," "may," "will," "shall," "should," "would," "could," "seeks," "aims," "projects," "is optimistic," "intends," "targets," "plans," "estimates," "anticipates" or other comparable terms. Forward-looking statements include, without limitation, all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report and include, without limitation, statements regarding our intentions, beliefs, assumptions or current plans and expectations concerning, among other things, financial position and future financial condition; results of operations; expected operating and non-operating relationships; ability to meet debt service obligations and financing plans; product sales; distribution channels; retention of business; investment yields and spreads; investment portfolio and ability to manage asset-liability cash flows; financial goals and targets; prospects; growth strategies or expectations; laws and regulations; customer retention; the outcome (by judgment or settlement) and costs of legal, administrative or regulatory proceedings, investigations or inspections, including, without limitation, collective, representative or class action litigation; the impact of our separation from AIG; geopolitical events, including the ongoing armed conflicts between Ukraine and Russia and in the Middle East; and the impact of prevailing capital markets and economic conditions.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond our control. We caution you that forward-looking statements are not guarantees of future performance or outcomes and that actual performance and outcomes, including, without limitation, our actual results of operations, financial condition, liquidity and cash flows, and the development of the markets in which we operate, may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report. In addition, even if our results of operations, financial condition, liquidity and cash flows, and the development of the markets in which we operate, are consistent with the forward-looking statements contained in this Quarterly Report, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors, including, without limitation, the risks and uncertainties discussed in "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K") could cause actual results and outcomes to differ materially from those reflected in the forward-looking statements. Factors that could cause actual results and outcomes to differ from those reflected in forward-looking statements include, without limitation:

- changes in interest rates and changes to credit spreads;
- the deterioration of economic conditions, an economic slowdown or recession, changes in market conditions, weakening in capital markets, volatility in equity markets, inflationary pressures, pressures on the commercial real estate market, and geopolitical tensions, including the ongoing armed conflicts between Ukraine and Russia and in the Middle East;
- the unpredictability of the amount and timing of insurance liability claims;
- unavailable, uneconomical or inadequate reinsurance or recaptures of reinsured liabilities;
- uncertainty and unpredictability related to our reinsurance agreements with Fortitude Reinsurance Company Ltd. ("Fortitude Re") and its performance of its obligations under these agreements;
- our limited ability to access funds from our subsidiaries;
- our ability to incur indebtedness, our potential inability to refinance all or a portion of our indebtedness or our ability to obtain additional financing on favorable terms or at all;
- our inability to generate cash to meet our needs due to the illiquidity of some of our investments;
- the inaccuracy of the methodologies, estimations and assumptions underlying our valuation of investments and derivatives;
- a downgrade in our Insurer Financial Strength ("IFS") ratings or credit ratings;
- exposure to credit risk due to non-performance or defaults by our counterparties or our use of derivative instruments to hedge market risks associated with our liabilities;
- our ability to adequately assess risks and estimate losses related to the pricing of our products;
- the failure of third parties that we rely upon to provide and adequately perform certain business, operations, investment advisory, functional support and administrative services on our behalf;
- the impact of risks associated with our arrangement with Blackstone ISG-I Advisors LLC ("Blackstone IM"), BlackRock Financial Management, Inc. ("BlackRock") or any other asset manager we retain, including their historical performance not being indicative of the future results of our investment portfolio and the exclusivity of certain arrangements with Blackstone IM;
- the impact of risks associated with the closing of the Nippon Transaction (as defined in *Note 1*);
- our inability to maintain the availability of critical technology systems and the confidentiality of our data, including challenges associated with a variety of privacy and information security laws;

- the ineffectiveness of our risk management policies and procedures;
- significant legal, governmental or regulatory proceedings;
- the intense competition we face in each of our business lines and the technological changes, including the use of artificial intelligence (“AI”), that may present new and intensified challenges to our business;
- catastrophes, including those associated with climate change and pandemics;
- business or asset acquisitions and dispositions that may expose us to certain risks;
- our ability to protect our intellectual property;
- our ability to operate efficiently and compete effectively in a heavily regulated industry in light of new domestic or international laws and regulations or new interpretations of current laws and regulations;
- impact on sales of our products and taxation of our operations due to changes in U.S. federal income or other tax laws or the interpretation of tax laws;
- the ineffectiveness of our productivity improvement initiatives in yielding our expected expense reductions and improvements in operational and organizational efficiency;
- recognition of an impairment of our goodwill or the establishment of an additional valuation allowance against our deferred income tax assets as a result of our business lines underperforming or their estimated fair values declining;
- differences between actual experience and the estimates used in the preparation of financial statements and modeled results used in various areas of our business;
- our inability to attract and retain key employees and highly skilled people needed to support our business;
- our failure to replicate or replace functions, systems and infrastructure provided by AIG (including through shared service contracts) or our loss of benefits from AIG’s global contracts, and AIG’s failure to perform the services provided for in the transition services agreement entered into between us and AIG on September 14, 2022 (the “Transition Services Agreement”);
- the significant influence that AIG has over us and conflicts of interests arising due to such relationship;
- the indemnification obligations we have to AIG;
- potentially higher U.S. federal income taxes due to our inability to file a single U.S. consolidated federal income tax return for five years following our initial public offering (“IPO”) and the “ownership change” for U.S. federal income tax purposes caused by our separation from AIG;
- risks associated with the Tax Matters Agreement with AIG and our potential liability for U.S. income taxes of the entire AIG Consolidated Tax Group for all taxable years or portions thereof in which we (or our subsidiaries) were members of such group;
- the risk that anti-takeover provisions could discourage, delay, or prevent our change in control, even if the change in control would be beneficial to our shareholders; and
- challenges related to compliance with applicable laws incident to being a public company, which is expensive and time-consuming.

Other risks, uncertainties and factors, including those discussed in *Risk Factors* in the 2023 Form 10-K could cause our actual results to differ materially from those projected in any forward-looking statements we make. You should read carefully the factors described in *Risk Factors* in the 2023 Form 10-K to better understand the risks and uncertainties inherent in our business and underlying any forward-looking statements.

You should read this Quarterly Report completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this Quarterly Report are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this Quarterly Report, and we do not undertake any obligation to update or revise any forward-looking statements to reflect the occurrence of events, unanticipated or otherwise, other than as may be required by law.

Corporate Information

We encourage investors and others to frequently visit our website (www.corebridgefinancial.com), including our Investor Relations web pages (investors.corebridgefinancial.com). We announce significant financial and other information to our investors and the public on the Investor Relations web pages, as well as in U.S. Securities and Exchange Commission (“SEC”) filings, in news releases, public conference calls and webcasts, fact sheets and other documents and media. The information found on our website is not incorporated by reference into this Quarterly Report or in any other report or document we submit to the SEC, and any references to our website are intended to be inactive textual references only.

1. Overview and Basis of Presentation

Corebridge Financial, Inc. ("Corebridge Parent") is a leading provider of retirement solutions and life insurance products in the United States. Our primary business operations consist of sales of individual and group annuities and life insurance products to individuals and institutional markets products. Corebridge Parent common stock, par value \$ 0.01 per share, is listed on the New York Stock Exchange (NYSE:CRBG). The terms "Corebridge," "we," "us," "our" or the "Company" mean Corebridge Parent and its consolidated subsidiaries, unless the context refers to Corebridge Parent only. Subsidiaries of Corebridge Parent include: AGC Life Insurance Company ("AGC"), American General Life Insurance Company ("AGL"), The Variable Annuity Life Insurance Company ("VALIC"), The United States Life Insurance Company in the City of New York ("USL"), Corebridge Insurance Company of Bermuda, Ltd. ("CRBG Bermuda") and SAFG Capital LLC and its subsidiaries. American International Group, Inc. ("AIG Parent") is a publicly traded entity, listed on the New York Stock Exchange (NYSE: AIG). The term "AIG" means AIG Parent and its consolidated subsidiaries, unless the context refers to AIG Parent only.

These unaudited Condensed Consolidated Financial Statements present the results of operations, financial condition and cash flows of the Company.

On September 19, 2022, we completed an initial public offering (the "IPO") in which AIG Parent sold 80.0 million shares of Corebridge Parent common stock to the public. Since our IPO, AIG Parent has sold portions of its interest in Corebridge through secondary public offerings and other transactions. As of September 30, 2024, AIG Parent owned approximately 48.6 % of the outstanding Corebridge Parent common stock.

On May 16, 2024, Corebridge Parent entered into a stock purchase agreement (the "Purchase Agreement") with AIG Parent and Nippon Life Insurance Company, a mutual company organized under the laws of Japan ("Nippon"), pursuant to which AIG Parent agreed to sell approximately 122 million shares of Corebridge Parent common stock, representing approximately 20 % of the issued and outstanding Corebridge Parent common stock at signing, to Nippon (the "Nippon Transaction"). The Nippon Transaction is expected to close no later than the first quarter of 2025, subject to certain closing conditions, including the receipt of specified regulatory approvals. On May 16, 2024, in connection with the execution of the Purchase Agreement, the Company entered into an Amendment to the Separation Agreement, dated as of September 14, 2022, by and between the Company and AIG Parent (the "Separation Agreement"), pursuant to which the Company and AIG Parent agreed to certain changes with respect to AIG's board designation rights and AIG's right to consent over certain actions by the Company, as set forth in the Separation Agreement.

On June 9, 2024, AIG Parent waived its right under the Separation Agreement to include a majority of the candidates on each slate of candidates recommended by the Corebridge Board of Directors to Corebridge's stockholders in connection with a meeting of stockholders. On June 10, 2024, AIG Parent announced that it has met the requirements for the deconsolidation for accounting purposes of Corebridge.

These Condensed Consolidated Financial Statements include the results of Corebridge Parent, its controlled subsidiaries (generally through a greater than 50% ownership of voting rights and voting interests) and variable interest entities ("VIEs") of which we are the primary beneficiary. Equity investments in entities that we do not consolidate, including corporate entities in which we have significant influence and partnership and partnership-like entities in which we have more than minor influence over the operating and financial policies, are accounted for under the equity method unless we have elected the fair value option.

The accompanying Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). All material intercompany accounts and transactions between consolidated entities have been eliminated.

The accompanying Condensed Consolidated Financial Statements reflect all normal recurring adjustments, including eliminations of material intercompany accounts and transactions, necessary in the opinion of management for a fair statement of our financial position, results of operations and cash flows for the periods presented.

SALE OF BUSINESSES

AIG Life Limited ("AIG Life U.K.")

On April 8, 2024, Corebridge completed the sale of AIG Life Limited ("AIG Life U.K.") to Aviva plc ("Aviva") and received gross proceeds of £ 453 million (\$ 569 million) resulting in a pre-tax gain of \$ 246 million for the nine months ended September 30, 2024.

Laya Healthcare Ltd. ("Laya")

On October 31, 2023 Corebridge completed the sale of Laya to AXA and received gross proceeds of € 691 million (\$ 731 million) resulting in a pre-tax gain of \$ 652 million for the year ended December 31, 2023.

Held-For-Sale Classification

Assets classified as held-for-sale are segregated and reported in Assets held-for-sale in our Condensed Consolidated Balance Sheets beginning in the period in which the assets are classified as held-for-sale. At September 30, 2024, we recorded Assets held-for-sale, primarily consisting of real estate, of \$ 111 million. At December 31, 2023, we recorded Assets held-for-sale and Liabilities held-for-sale, primarily consisting of AIG Life U.K. and real estate, of \$ 2.2 billion and \$ 1.7 billion, respectively.

USE OF ESTIMATES

The preparation of financial statements in accordance with GAAP requires the application of accounting policies that often involve a significant degree of judgment. Accounting policies that we believe are most dependent on the application of estimates and assumptions are considered our critical accounting estimates and are related to the determination of:

- fair value measurements of certain financial assets and liabilities;
- valuation of market risk benefits ("MRBs") related to guaranteed benefit features of variable annuity, fixed annuity and fixed index annuity products; valuation of embedded derivative liabilities for fixed index annuity and index universal life products;
- valuation of future policy benefit liabilities and recognition of remeasurement gains and losses;
- reinsurance assets, including the allowance for credit losses;
- goodwill impairment;
- allowance for credit losses primarily on loans and available-for-sale fixed maturity securities; and

- income tax assets and liabilities, including recoverability of our net deferred tax asset and the predictability of future tax operating profitability of the character necessary to realize the net deferred tax asset.

These accounting estimates require the use of assumptions about matters, some of which are highly uncertain at the time of estimation. To the extent actual experience differs from the assumptions used, our consolidated financial condition, results of operations and cash flows could be materially affected.

Out-of-period adjustment

For the nine months ended September 30, 2024, the Company recorded an \$ 86 million out-of-period adjustment, which increased earnings, primarily related to the correction of net investment income for certain securities and corrections related to the calculation of certain actuarially determined balances. The Company evaluated the impact of the error and out-of-period adjustment and concluded it was not material to any previously issued interim or annual consolidated financial statements and the adjustment is not expected to be material to the year ending December 31, 2024.

2. Summary of Significant Accounting Policies

ACCOUNTING STANDARDS ADOPTED DURING 2024

Changes to GAAP are established by the Financial Accounting Standards Board ("FASB") in the form of accounting standards updates ("ASU") to the FASB Accounting Standards Codification. The Company considers the applicability and impact of all ASUs.

Fair Value Measurement

On June 30, 2022, the FASB issued an ASU to address diversity in practice by clarifying that a contractual sale restriction should not be considered in the measurement of the fair value of an equity security. It also requires entities with investments in equity securities subject to contractual sale restrictions to disclose certain qualitative and quantitative information about such securities. The Company adopted the standard on January 1, 2024, prospectively for entities other than investment companies. The adoption of the standard did not have a material impact to our consolidated financial statements.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

Income Taxes

In December 2023, the FASB issued an ASU to address improvements to income tax disclosures. The standard requires disaggregated information about a company's effective tax rate reconciliation as well as information on income taxes paid. The standard is effective for public companies for annual periods beginning after December 15, 2024, with early adoption permitted. The standard will be applied on a prospective basis with the option to apply the standard retrospectively. We are assessing the impact of this standard.

Segment Reporting

In November 2023, the FASB issued an ASU to address improvements to reportable segment disclosures. The standard primarily requires the following disclosure on an annual and interim basis: i) significant segment expenses that are regularly provided to the chief operating decision maker ("CODM") and included within each reported measure of segment profit or loss, and ii) other segment items and description of its composition. The standard also requires current annual disclosures about a reportable segment's profits or losses and assets to be disclosed in interim periods and the title and position of the CODM with an explanation of how the CODM uses the reported measure(s) of segment profits or losses in assessing segment performance. The guidance is effective for public companies for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The ASU is applied retrospectively to all prior periods presented. The Company does not expect the adoption of this ASU will have a material impact on its consolidated financial statements.

3. Segment Information

We report our results of operations consistent with the manner in which our chief operating decision maker reviews the business to assess performance and allocate resources.

We report our results of operations as five reportable segments:

- **Individual Retirement** – consists of fixed annuities, fixed index annuities and variable annuities.
- **Group Retirement** – consists of recordkeeping, plan administrative and compliance services, financial planning and advisory solutions offered in-plan, along with proprietary and limited non-proprietary annuities, advisory and brokerage products offered out-of-plan.
- **Life Insurance** – primary products in the United States include term life and universal life insurance. The International Life business issued individual and group life insurance in the United Kingdom and distributed private medical insurance in Ireland. On October 31, 2023 Corebridge completed the sale of Laya and on April 8, 2024 completed the sale of AIG Life U.K.
- **Institutional Markets** – consists of stable value wrap ("SVW") products, structured settlement and pension risk transfer ("PRT") annuities, guaranteed investment contracts ("GICs") and Corporate Markets products that include corporate- and bank-owned life insurance ("COLI-BOLI"), private placement variable universal life and private placement variable annuity products.
- **Corporate and Other** – consists primarily of:
 - corporate expenses not attributable to our other segments;
 - interest expense on financial debt;
 - results of our consolidated investment entities;
 - institutional asset management business, which includes managing assets for non-consolidated affiliates; and
 - results of our legacy insurance lines ceded to Fortitude Re.

We evaluate segment performance based on adjusted revenues and adjusted pre-tax operating income (loss) ("APTOI"). Adjusted revenues are derived by excluding certain items from total revenues. APTOI is derived by excluding certain items from income from operations before income tax. These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and adjustments that we believe to be common to the industry. Legal entities are attributed to each segment based upon the predominance of activity in that legal entity.

APTOI excludes the impact of the following items:

Fortitude Re related adjustments:

The modified coinsurance ("modco") reinsurance agreements with Fortitude Re transfer the economics of the invested assets supporting the reinsurance agreements to Fortitude Re. Accordingly, the net investment income on Fortitude Re funds withheld assets and the net realized gains (losses) on Fortitude Re funds withheld assets are excluded from APTOI. Similarly, changes in the Fortitude Re funds withheld embedded derivative are also excluded from APTOI.

The ongoing results associated with the reinsurance agreement with Fortitude Re have been excluded from APTOI as these are not indicative of our ongoing business operations.

Investment-related adjustments:

APTOI excludes "Net realized gains (losses)", except for gains (losses) related to the disposition of real estate investments. Net realized gains (losses), except for gains (losses) related to the disposition of real estate investments, are excluded as the timing of sales on invested assets or changes in allowances depend largely on market credit cycles and can vary considerably across periods. In addition, changes in interest rates may create opportunistic scenarios to buy or sell invested assets. Our derivative results, including those used to economically hedge insurance liabilities, or those recognized as embedded derivatives at fair value, are also included in Net realized gains (losses) and are similarly excluded from APTOI except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedges or for asset replication. Earned income on such economic hedges is reclassified from Net realized gains and losses to specific APTOI line items based on the economic risk being hedged (e.g., Net investment income and Interest credited to policyholder account balances).

Market Risk Benefits adjustments:

Certain of our variable annuity, fixed annuity and fixed index annuity contracts contain guaranteed minimum withdrawal benefits ("GMWBs") and/or guaranteed minimum death benefits ("GMDBs") which are accounted for as MRBs. Changes in the fair value of these MRBs (excluding changes related to our own credit risk), including certain rider fees attributed to the MRBs, along with changes in the fair value of derivatives used to hedge MRBs are recorded through "Change in the fair value of MRBs, net" and are excluded from APTOI.

Changes in the fair value of securities used to economically hedge MRBs are excluded from APTOI.

Other adjustments:

Other adjustments represent all other adjustments that are excluded from APTOI and includes the net pre-tax operating income (losses) from noncontrolling interests related to consolidated investment entities. The excluded adjustments include, as applicable:

- restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles;
- separation costs;
- non-operating litigation reserves and settlements;
- loss (gain) on extinguishment of debt, if any;
- losses from the impairment of goodwill, if any; and
- income and loss from divested or run-off business, if any.

(a) Adjustments include Fortitude Re activity of \$(0.8) billion and \$ 1.1 billion for the three months ended September 30, 2024 and 2023, respectively, and \$(379) million and \$ 736 million for the nine months ended September 30, 2024 and 2023, respectively.

(b) Net realized gains (losses) includes the gains (losses) related to the disposition of real estate investments.

4. Fair Value Measurements

FAIR VALUE MEASUREMENTS ON A RECURRING BASIS

Assets and liabilities recorded at fair value in the Condensed Consolidated Balance Sheets are measured and classified in accordance with a fair value hierarchy consisting of three “levels” based on the observability of valuation inputs:

- **Level 1:** Fair value measurements based on quoted prices (unadjusted) in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do not adjust the quoted price for such instruments.
- **Level 2:** Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.
- **Level 3:** Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions about the inputs a hypothetical market participant would use to value that asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

ASSETS AND LIABILITIES MEASURED AT FAIR VALUE ON A RECURRING BASIS

The following table presents information about assets and liabilities measured at fair value on a recurring basis and indicates the level of the fair value measurement based on the observability of the inputs used:

(a) Represents netting of derivative exposures covered by qualifying master netting agreements.

(b) Includes investments in residential-backed mortgage securities ("RMBS") issued by related parties of \$ — million and \$ — million classified as Level 2 and Level 3, respectively, as of September 30, 2024. Additionally, includes investments in RMBS issued by related parties of \$ 36 million and \$ 7 million classified as Level 2 and Level 3, respectively, as of December 31, 2023.

- (c) Includes \$ — million and less than \$ 1 million of investments in RMBS issued by related parties classified as Level 2 as of September 30, 2024 and December 31, 2023.
- (d) Excludes investments that are measured at fair value using the net asset value ("NAV") per share (or its equivalent), which totaled \$ 5.9 billion and \$ 5.8 billion as of September 30, 2024 and December 31, 2023, respectively.
- (e) Excludes basis adjustments for fair value hedges.

- (f) *As discussed in Note 7,* the Fortitude Re funds withheld payable is created through modco and funds withheld reinsurance arrangements where the investments supporting the reinsurance agreements are withheld by and continue to reside on Corebridge's Condensed Consolidated Balance Sheets. This embedded derivative is valued as a total return swap with reference to the fair value of the invested assets held by Corebridge, which are primarily available-for-sale securities.
- (g) Excludes assets that were reclassified to Assets held-for-sale in the Condensed Consolidated Balance Sheets of \$ 167 million, as of December 31, 2023. *See Note 4 in the 2023 Form 10-K for additional information .*

CHANGES IN LEVEL 3 RECURRING FAIR VALUE MEASUREMENTS

The following tables present changes during the three and nine months ended September 30, 2024 and 2023 in Level 3 assets and liabilities measured at fair value on a recurring basis, and the realized and unrealized gains (losses) related to the Level 3 assets and liabilities in the Condensed Consolidated Balance Sheets at September 30, 2024 and 2023:

* There were no issuances during the three and nine months ended September 30, 2024 and 2023 for invested assets.

Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3 in the tables above. As a result, the unrealized gains (losses) on instruments held at September 30, 2024 and 2023 may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable inputs (e.g., changes in unobservable long-dated volatilities).

Transfers of Level 3 Assets and Liabilities

We record transfers of assets and liabilities into or out of Level 3 at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value. The Net realized and unrealized gains (losses) included in net income (loss) or OCI as shown in the table above excludes \$(4) million and \$6 million of net gains (losses) related to assets transferred into Level 3 during the three months ended September 30, 2024 and 2023, respectively, and \$(9) million and \$13 million of net gains (losses) related to assets transferred into Level 3 during the nine months ended September 30, 2024 and 2023, respectively, and includes \$(3) million and \$(22) million of net gains (losses) related to assets transferred out of Level 3 during the three months ended September 30, 2024 and 2023, respectively, and \$10 million and \$(12) million of net gains (losses) related to assets transferred out of Level 3 during the nine months ended September 30, 2024 and 2023, respectively.

Transfers of Level 3 Assets

During the three and nine months ended September 30, 2024 and 2023, transfers into Level 3 assets primarily included certain investments in private placement corporate debt, commercial mortgage backed securities ("CMBS"), collateralized loan obligations ("CLO") and asset-backed securities ("ABS"). Transfers of private placement corporate debt and certain ABS into Level 3 assets were primarily the result of limited market pricing information that required us to determine fair value for these securities based on inputs that are adjusted to better reflect our own assumptions regarding the characteristics of a specific security or associated market liquidity. The transfers of investments in CMBS, CLO and certain ABS into Level 3 assets were due to diminished market transparency and liquidity for individual security types.

During the three and nine months ended September 30, 2024 and 2023, transfers out of Level 3 assets primarily included private placement and other corporate debt, CMBS, RMBS, CLO, ABS and certain investments in municipal securities. Transfers of certain investments in municipal securities, corporate debt, RMBS, CMBS and CLO and ABS out of Level 3 assets were based on consideration of market liquidity as well as related transparency of pricing and associated observable inputs for these investments. Transfers of certain investments in private placement corporate debt and certain ABS out of Level 3 assets were primarily the result of using observable pricing information that reflects the fair value of those securities without the need for adjustment based on our own assumptions regarding the characteristics of a specific security or the current liquidity in the market.

Transfers of Level 3 Liabilities

There were no significant transfers of derivative or other liabilities into or out of Level 3 for the three and nine months ended September 30, 2024 and 2023 .

QUANTITATIVE INFORMATION ABOUT LEVEL 3 FAIR VALUE MEASUREMENTS

The table below presents information about the significant unobservable inputs used for recurring fair value measurements for certain Level 3 instruments, and includes only those instruments for which information about the inputs is reasonably available to us, such as data from independent third-party valuation service providers and from internal valuation models. Because input information from third parties with respect to certain Level 3 instruments (primarily CLO/ABS) may not be reasonably available to us, balances shown below may not equal total amounts reported for such Level 3 assets and liabilities:

(in millions)	Fair Value at September 30, 2024	Valuation Technique	Unobservable Input ^(a)	Range (Weighted Average) ^(b)

			Mortality multiplier ^{(e)(f)}	24.00 % - 146.00 %
			Utilization ^(g)	60.00 % - 97.50 %
			Option budget	0.00 % - 6.00 %
			Equity / interest-rate correlation	0.00 % - 30.00 %
			NPA ^(h)	0.00 % - 2.29 %
Embedded derivatives within Policyholder contract deposits:				
Index credits on fixed index annuities ⁽ⁱ⁾	\$ 6,953	Discounted cash flow	Equity volatility	6.25 % - 49.75 %
			Base lapse rate	0.20 % - 50.00 %
			Dynamic lapse multiplier ^(e)	20.00 % - 186.18 %
			Mortality multiplier ^{(e)(f)}	24.00 % - 146.00 %
			Utilization ^(g)	60.00 % - 97.50 %
			Option Budget	0.00 % - 6.00 %
			Equity / interest-rate correlation	0.00 % - 30.00 %
			NPA ^(h)	0.00 % - 2.29 %
Index universal life	\$ 989	Discounted cash flow	Base lapse rate	0.00 % - 37.97 %
			Mortality rates	0.00 % - 100.00 %
			Equity Volatility	5.85 % - 20.36 %
			NPA ^(h)	0.00 % - 2.29 %

(a) Represents discount rates, estimates and assumptions that we believe would be used by market participants when valuing these assets and liabilities.

(b) The weighted averaging for fixed maturity securities is based on the estimated fair value of the securities. Because the valuation methodology for embedded derivatives within policyholder contract deposits and MRBs uses a range of inputs that vary at the contract level over the cash flow projection period, management believes that presenting a range, rather than weighted average, is a more meaningful representation of the unobservable inputs used in the valuation.

(c) Information received from third-party valuation service providers. The ranges of the unobservable inputs for constant prepayment rate, loss severity and constant default rate relate to each of the individual underlying mortgage loans that comprise the entire portfolio of securities in the RMBS and CLO securitization vehicles and not necessarily to the securitization vehicle bonds (tranches) purchased by us. The ranges of these inputs do not directly correlate to changes in the fair values of the tranches purchased by us because there are other factors relevant to the fair values of specific tranches owned by us, including, but not limited to, purchase price, position in the waterfall, senior versus subordinated position and attachment points.

(d) The Fortitude Re funds withheld payable has been excluded from the above table. As discussed in Note 7, the Fortitude Re funds withheld payable is created through modco and funds withheld reinsurance arrangements where the investments supporting the reinsurance agreements are withheld by and continue to reside on Corebridge's Condensed Consolidated Balance Sheets. This embedded derivative is valued as a total return swap with reference to the fair value of the invested assets held by Corebridge. Accordingly, the unobservable inputs utilized in the valuation of the embedded derivative are a component of the invested assets supporting the reinsurance agreements that are held on Corebridge's Condensed Consolidated Balance Sheets.

(e) The ranges for these inputs vary due to the different GMWB product specification and policyholder characteristics across in-force policies. Policyholder characteristics that affect these ranges include age, policy duration, and gender.

(f) Mortality inputs are shown as multipliers of the 2012 Individual Annuity Mortality Basic table.

(g) The partial withdrawal utilization unobservable input range shown applies only to policies with GMWB riders.

(h) The NPA applied as a spread over risk-free curve for discounting.

(i) The fixed index annuities embedded derivative associated with index credits related to the contracts with guaranteed product features included in policyholder contract deposits was \$ 1.8 billion and \$ 1.5 billion at September 30, 2024 and December 31, 2023, respectively.

The ranges of reported inputs for obligations of states, municipalities and political subdivisions, corporate debt, RMBS, CLO/ABS and CMBS valued using a discounted cash flow technique consist of one standard deviation in either direction from the value-weighted average. The preceding table does not give effect to our risk management practices that might offset risks inherent in these Level 3 assets and liabilities.

Interrelationships Between Unobservable Inputs

We consider unobservable inputs to be those for which market data is not available and that are developed using the best information available to us about the assumptions that market participants would use when pricing the asset or liability. Relevant inputs vary depending on the nature of the instrument being measured at fair value. The following paragraphs provide a general description of significant unobservable inputs along with interrelationships between and among the significant unobservable inputs and their impact on the fair value measurements. In practice, simultaneous changes in assumptions may not always have a linear effect on the inputs discussed below. Interrelationships may also exist between observable and unobservable inputs. Such relationships have not been included in the discussion below. For each of the individual relationships described below, the inverse relationship would also generally apply.

Fixed Maturity Securities

The significant unobservable input used in the fair value measurement of fixed maturity securities is yield. The yield is affected by the market movements in credit spreads and U.S. Treasury yields. The yield may be affected by other factors, including constant prepayment rates, loss severity and constant default rates. In general, increases in the yield would decrease the fair value of investments, and conversely, decreases in the yield would increase the fair value of investments.

MRBs and Embedded Derivatives within Policyholder Contract Deposits

For MRBs and embedded derivatives, the assumptions for unobservable inputs vary throughout the period over which cash flows are projected for valuation purposes. The following are applicable unobservable inputs:

- Long-term equity volatilities represent equity volatility beyond the period for which observable equity volatilities are available. Increases in assumed volatility will generally increase the fair value of both the projected cash flows from rider fees as well as the projected cash flows related to benefit payments. Therefore, the net change in the fair value of the liability may be either a decrease or an increase, depending on the relative changes in projected rider fees and projected benefit payments.
- Equity and interest rate correlation estimates the relationship between changes in equity returns and interest rates in the economic scenario generator used to value our MRBs. In general, a higher positive correlation assumes that equity markets and interest rates move in a more correlated fashion, which generally increases the fair value of the liability. Only our fixed index annuities with a GMWB rider are subject to the equity and interest correlation assumption. Other policies such as accumulation fixed index annuity and life products do not use a correlation assumption.
- Base lapse rate assumptions are determined by company experience and judgment and are adjusted at the contract level using a dynamic lapse function, which reduces the base lapse rate when the contract is in-the-money (when the contract holder's guaranteed value, as estimated by the company, is worth more than their underlying account value). Lapse rates are also generally assumed to be lower in periods when a surrender charge applies. Increases in assumed lapse rates will generally decrease the fair value of the liability as fewer policyholders would persist to collect guaranteed benefit amounts.
- Mortality rate assumptions, which vary by age and gender, are based on company experience and include a mortality improvement assumption. Increases in assumed mortality rates will decrease the fair value of the GMWB liability, while lower mortality rate assumptions will generally increase the fair value of the liability because guaranteed withdrawal payments will be made for a longer period of time and generally exceed any decrease in guaranteed death benefits.
- Utilization assumptions estimate the timing when policyholders with a GMWB will elect to utilize their benefit and begin taking withdrawals. The assumptions may vary by the type of guarantee, tax-qualified status, the contract's withdrawal history and the age of the policyholder. Utilization assumptions are based on company experience, which includes partial withdrawal behavior. Increases in assumed utilization rates will generally increase the fair value of the liability.
- Non-performance or "own credit" risk adjustment used in the valuation of MRBs and embedded derivatives, which reflects a market participant's view of our claims-paying ability by incorporating a different spread (the "NPA spread") to the curve used to discount projected benefit cash flows. When corporate credit spreads widen, the change in the NPA spread generally reduces the fair value of the MRBs and embedded derivatives, resulting in a gain in Accumulated other comprehensive income ("AOCI") or Net realized gains (losses), respectively, and when corporate credit spreads narrow or tighten, the change in the NPA spread generally increases the fair value of the MRBs and embedded derivatives, resulting in a loss in AOCI or Net realized gains (losses), respectively.
- The projected cash flows incorporate best estimate assumptions for policyholder behavior (including mortality, lapses, withdrawals and benefit utilization), along with an explicit risk margin to reflect a market participant's estimates of the fair value of projected cash flows and policyholder behavior. Estimates of future policyholder behavior assumptions are subjective and based primarily on our historical experience.

- For embedded derivatives, option budgets estimate the expected long-term cost of options used to hedge exposures associated with index price changes. The level of option budgets determines future costs of the options, which impacts the growth in account value and the valuation of embedded derivatives.

Embedded Derivatives within Reinsurance Contracts

The fair value of embedded derivatives associated with funds withheld reinsurance contracts is determined based upon a total return swap technique with reference to the fair value of the investments held by Corebridge related to Corebridge's funds withheld payable. The fair value of the underlying assets is generally based on market observable inputs using industry standard valuation techniques. The valuation also requires certain significant inputs, which are generally not observable, and accordingly, the valuation is considered Level 3 in the fair value hierarchy.

INVESTMENTS IN CERTAIN ENTITIES CARRIED AT FAIR VALUE USING NET ASSET VALUE PER SHARE

The following table includes information related to our investments in certain other invested assets, including private equity funds, hedge funds and other alternative investments that calculate net asset value per share (or its equivalent). For these investments, which are measured at fair value on a recurring basis, we use the net asset value per share to measure fair value:

		September 30, 2024		December 31, 2023	
		Fair Value Using NAV Per Share (or its equivalent)	Unfunded Commitments	Fair Value Using NAV Per Share (or its equivalent)	Unfunded Commitments
(in millions)	Investment Category Includes				
Investment Category					
Private equity funds:					
Leveraged buyout	Debt and/or equity investments made as part of a transaction in which assets of mature companies are acquired from the current shareholders, typically with the use of financial leverage	\$ 2,687	\$ 1,867	\$ 2,445	\$ 1,755
Real estate	Investments in real estate properties and infrastructure positions, including power plants and other energy generating facilities	1,033	551	1,074	540
Venture capital	Early-stage, high-potential, growth companies expected to generate a return through an eventual realization event, such as an initial public offering or sale of the company	192	81	203	91
Growth equity	Funds that make investments in established companies for the purpose of growing their businesses	474	101	485	109
Mezzanine	Funds that make investments in the junior debt and equity securities of leveraged companies	113	30	152	42
Other	Includes distressed funds that invest in securities of companies that are in default or under bankruptcy protection, as well as funds that have multi-strategy, and other strategies	1,240	207	1,182	233
Total private equity funds		5,739	2,837	5,541	2,770
Hedge funds:					
Event-driven	Securities of companies undergoing material structural changes, including mergers, acquisitions and other reorganizations	4	—	4	—
Long-short	Securities that the manager believes are undervalued, with corresponding short positions to hedge market risk	162	—	161	—
Macro	Investments that take long and short positions in financial instruments based on a top-down view of certain economic and capital market conditions	1	—	69	—
Other	Includes investments held in funds that are less liquid, as well as other strategies which allow for broader allocation between public and private investments	39	—	65	—
Total hedge funds		206	—	299	—
Total		\$ 5,945	\$ 2,837	\$ 5,840	\$ 2,770

Private equity fund investments included above are not redeemable, because distributions from the funds will be received when underlying investments of the funds are liquidated. Private equity funds are generally expected to have 10 -year lives at their inception, but these lives may be extended at the fund manager's discretion, typically in one-year or two-year increments.

The majority of our hedge fund investments are redeemable upon a single month or quarter's notice, though redemption terms vary from single, immediate withdrawals, to withdrawals staggered up to eight quarters. Some of the portfolio consists of illiquid run-off or "side-pocket" positions whose liquidation horizons are uncertain and likely beyond a year after submission of the redemption notice.

FAIR VALUE OPTION

The following table presents the gains or losses recorded related to the eligible instruments for which we elected the fair value option:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Assets:				
Other bond securities ^(a)	\$ 252	\$ (28)	\$ 427	\$ 101
Alternative investments ^(b)	90	35	199	116
Total assets	342	7	626	217
Liabilities:				
Policyholder contract deposits ^(c)	(4)	6	(1)	8
Total liabilities	(4)	6	(1)	8
Total gain (loss)	\$ 338	\$ 13	\$ 625	\$ 225

(a) Includes certain securities supporting the funds withheld arrangements with Fortitude Re. For additional information regarding the gains and losses for Other bond securities, see Note 5. For additional information regarding the funds withheld arrangements with Fortitude Re, see Note 7.

(b) Includes certain hedge funds, private equity funds and other investment partnerships.

(c) Represents GICs.

We calculate the effect of these credit spread changes using discounted cash flow techniques that incorporate current market interest rates, our observable credit spreads on these liabilities and other factors that mitigate the risk of non-performance such as cash collateral posted.

FAIR VALUE MEASUREMENTS ON A NON-RECURRING BASIS

The following table presents assets measured at fair value on a non-recurring basis at the time of impairment and the related impairment charges recorded during the periods presented:

(in millions)	Assets at Fair Value				Impairment Charges			
	Non-Recurring Basis				Three Months Ended September 30,		Nine Months Ended September 30,	
	Level 1	Level 2	Level 3	Total	2024	2023	2024	2023
September 30, 2024								
Other investments	\$ —	\$ —	\$ 101	\$ 101	\$ 5	\$ 9	\$ 51	\$ 9
Total	\$ —	\$ —	\$ 101	\$ 101	\$ 5	\$ 9	\$ 51	\$ 9
December 31, 2023								
Other investments	\$ —	\$ —	\$ 80	\$ 80				
Total	\$ —	\$ —	\$ 80	\$ 80				

FAIR VALUE INFORMATION ABOUT FINANCIAL INSTRUMENTS NOT MEASURED AT FAIR VALUE

The following table presents the carrying amounts and estimated fair values of our financial instruments not measured at fair value and indicates the level in the fair value hierarchy of the estimated fair value measurement based on the observability of the inputs used:

	Estimated Fair Value				Carrying Value
(in millions)	Level 1	Level 2	Level 3	Total

* At September 30, 2024 includes mark to market movement relating to embedded derivatives.

At September 30, 2024, we held 12,681 individual fixed maturity securities that were in an unrealized loss position and for which no allowance for credit losses has been recorded (including 11,243 individual fixed maturity securities that were in a continuous unrealized loss position for 12 months or more). At December 31, 2023, we held 15,034 individual fixed maturity securities that were in an unrealized loss position and for which no allowance for credit losses has been recorded (including 12,787 individual fixed maturity securities that were in a continuous unrealized loss position for 12 months or more). We did not recognize the unrealized losses in earnings on these fixed maturity securities at September 30, 2024 because it was determined that such losses were due to non-credit factors. Additionally, we neither intend to sell the securities nor do we believe that it is more likely than not that we will be required to sell these securities before recovery of their amortized cost basis. For fixed maturity securities with significant declines, we performed fundamental credit analyses on a security-by-security basis, which included consideration of credit enhancements, liquidity position, expected defaults, industry and sector analysis, forecasts and available market data.

Contractual Maturities of Fixed Maturity Securities Available-for-Sale

The following table presents the amortized cost and fair value of fixed maturity securities available-for-sale by contractual maturity:

	Total Fixed Maturity Securities Available-for-sale	
	Amortized Cost, Net of Allowance	Fair Value
<i>(in millions)</i>		
September 30, 2024		
Due in one year or less	\$ 2,969	\$ 2,952
Due after one year through five years	23,735	23,586
Due after five years through ten years	25,146	24,303
Due after ten years	81,616	69,761
Mortgage-backed, asset-backed and collateralized	58,449	57,622
Total	\$ 191,915	\$ 178,224

Actual maturities may differ from contractual maturities because certain borrowers have the right to call or prepay certain obligations with or without call or prepayment penalties.

The following table presents the gross realized gains and gross realized losses from sales or maturities of our available-for-sale securities:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2024		2023		2024		2023	
	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses
(in millions)								
Fixed maturity securities	\$ 25	\$ (113)	\$ 14	\$ (23)	\$ 40	\$ (1,012)	\$ 98	\$ (441)

For the three and nine months ended September 30, 2024, the aggregate fair value of available-for-sale securities sold was \$ 0.7 billion and \$ 5.7 billion, respectively, which resulted in Net realized gains (losses) of \$(88) million and \$(972) million, respectively. Included within the Net realized gains (losses) are \$(1) million and \$(72) million of Net realized gains (losses) for the three and nine months ended September 30, 2024, respectively, which relate to the Fortitude Re funds withheld assets held by Corebridge in support of Fortitude Re's reinsurance obligations to Corebridge (Fortitude Re funds withheld assets). These Net realized gains (losses) are included in Net realized gains (losses) on Fortitude Re funds withheld assets.

For the three and nine months ended September 30, 2023, the aggregate fair value of available-for-sale securities sold was \$ 0.5 billion and \$ 6.2 billion, respectively, which resulted in Net realized gains (losses) of \$(9) million and \$(343) million, respectively. Included within the Net realized gains (losses) are \$(5) million and \$(68) million of Net realized gains (losses) for the three and nine months ended September 30, 2023, respectively, which relate to the Fortitude Re funds withheld assets held by Corebridge in support of Fortitude Re's reinsurance obligations to Corebridge (Fortitude Re funds withheld assets). These Net realized gains (losses) are included in Net realized gains (losses) on Fortitude Re funds withheld assets.

OTHER SECURITIES MEASURED AT FAIR VALUE

The following table presents the fair value of fixed maturity securities measured at fair value, including securities in the modco agreement with Fortitude Re, based on our election of the fair value option and equity securities measured at fair value:

	September 30, 2024		December 31, 2023	
	Fair Value	Percent of Total	Fair Value	Percent of Total
(in millions)				
Fixed maturity securities:				
Obligations of states, municipalities and political subdivisions	\$ 41	1 %	\$ 40	1 %

OTHER INVESTED ASSETS

The following table summarizes the carrying amounts of other invested assets:

(in millions)	September 30, 2024		December 31, 2023	
Alternative investments ^{(a)(b)}	\$	7,803	\$	7,690
Investment real estate ^(c)		1,690		1,932
All other investments ^(d)		594		635
Total	\$	10,087	\$	10,257

- (a) At September 30, 2024, included hedge funds of \$ 206 million and private equity funds of \$ 7.6 billion. At December 31, 2023, included hedge funds of \$ 299 million and private equity funds of \$ 7.4 billion.
- (b) A quarter of our hedge fund investments are in liquid funds and have been redeemed, though due to withdrawal terms they will liquidate over the next three quarters. The remaining three quarters of the portfolio consists of illiquid run-off or "side-pocket" positions whose liquidation horizons are uncertain and likely to extend beyond a year.
- (c) Net of accumulated depreciation of \$ 644 million and \$ 680 million as of September 30, 2024 and December 31, 2023, respectively.
- (d) Includes Corebridge's ownership interest in Fortitude Re Bermuda, which is recorded using the measurement alternative for equity securities. Our investment in Fortitude Re Bermuda totaled \$ 156 million and \$ 156 million at September 30, 2024 and December 31, 2023, respectively.

Other Invested Assets – Equity Method Investments

The carrying amount of equity method investments totaled \$ 2.8 billion and \$ 2.9 billion as of September 30, 2024 and December 31, 2023, respectively, representing various ownership percentages each period.

NET INVESTMENT INCOME

The following table presents the components of Net investment income:

Balance, end of period	\$ 30	\$ 129	\$ 159	\$ 38	\$ 72	\$ 110

Purchased Credit Deteriorated Securities

We purchase certain RMBS securities that have experienced more-than-insignificant deterioration in credit quality since origination. These are referred to as purchased credit deteriorated assets. At the time of purchase an allowance is recognized for these purchased credit deteriorated assets by adding it to the purchase price to arrive at the initial amortized cost. There is no credit loss expense recognized upon acquisition of a purchased credit deteriorated asset. When determining the initial allowance for credit losses, management considers the historical performance of underlying assets and available market information as well as bond-specific structural considerations, such as credit enhancement and the priority of payment structure of the security. In addition, the process of estimating future cash flows includes, but is not limited to, the following critical inputs:

- current delinquency rates;
- expected default rates and the timing of such defaults;
- loss severity and the timing of any recovery; and
- expected prepayment speeds.

Subsequent to the acquisition date, the purchased credit deteriorated assets follow the same accounting as other structured securities that are not of high credit quality.

We did not purchase securities with more-than-insignificant credit deterioration since their origination during the nine months ended September 30, 2024 and 2023.

PLEDGED INVESTMENTS

Secured Financing and Similar Arrangements

We enter into secured financing transactions whereby certain securities are sold under agreements to repurchase (repurchase agreements), in which we transfer securities in exchange for cash, with an agreement by us to repurchase the same or substantially similar securities. Our secured financing transactions also include those that involve the transfer of securities to financial institutions in exchange for cash (securities lending agreements). In all of these secured financing transactions, the securities transferred by us (pledged collateral) may be sold or repledged by the counterparties. These agreements are recorded at their contracted amounts plus accrued interest, other than those that are accounted for at fair value.

Pledged collateral levels are monitored daily and are generally maintained at an agreed-upon percentage of the fair value of the amounts borrowed during the life of the transactions. In the event of a decline in the fair value of the pledged collateral under these secured financing transactions, we may be required to transfer cash or additional securities as pledged collateral under these agreements. At the termination of the transactions, we and our counterparties are obligated to return the amounts borrowed and the securities transferred, respectively.

The following table presents the fair value of securities pledged to counterparties under secured financing transactions, including repurchase agreements:

(in millions)	September 30, 2024		December 31, 2023	
Fixed maturity securities available-for-sale	\$	5,071	\$	2,655

At September 30, 2024 and December 31, 2023, amounts borrowed under repurchase agreements totaled \$ 5.0 billion and \$ 2.5 billion, respectively.

The following table presents the fair value of securities pledged under our repurchase agreements by collateral type and by remaining contractual maturity:

(in millions)	Remaining Contractual Maturity of the Repurchase Agreements								Total	
	Overnight and Continuous	Up to 30 Days	31 - 90 Days	91 - 364 Days	365 Days or Greater					
September 30, 2024										
Bonds available-for-sale:										
Non-U.S. governments	\$	—	\$	52	\$	—	\$	—	\$	52
Corporate debt		13		4,967		39		—		5,019
Total	\$	13	\$	5,019	\$	39	\$	—	\$	5,071
December 31, 2023										
Bonds available-for-sale:										
Non-U.S. governments	\$	—	\$	209	\$	—	\$	—	\$	209
Corporate debt		38		2,408		—		—		2,446
Total	\$	38	\$	2,617	\$	—	\$	—	\$	2,655

There were no securities lending agreements at September 30, 2024 and December 31, 2023.

There were no reverse repurchase agreements at September 30, 2024 and December 31, 2023.

We do not currently offset any secured financing transactions. All such transactions are collateralized and margined daily consistent with market standards and subject to enforceable master netting arrangements with rights of set off.

Insurance – Statutory and Other Deposits

The total carrying value of cash and securities deposited by our insurance subsidiaries under requirements of regulatory authorities or other insurance-related arrangements, including certain annuity-related obligations and certain reinsurance treaties, was \$ 10.4 billion and \$ 8.1 billion at September 30, 2024 and December 31, 2023, respectively.

Other Pledges and Restrictions

Certain of our subsidiaries are members of Federal Home Loan Banks (“FHLB”) and such membership requires the members to own stock in these FHLBs. We owned an aggregate of \$ 277 million and \$ 268 million of stock in FHLBs at September 30, 2024 and December 31, 2023, respectively. In addition, our subsidiaries have pledged securities available-for-sale and residential loans associated with borrowings and funding agreements from FHLBs, with a fair value of \$ 4.4 billion and \$ 3.1 billion, respectively, at September 30, 2024 and \$ 4.8 billion and \$ 3.0 billion, respectively, at December 31, 2023.

Certain GICs recorded in policyholder contract deposits with a carrying value of \$ 113 million and \$ 53 million at September 30, 2024 and December 31, 2023, respectively, have provisions that require collateral to be posted or payments to be made by us upon a downgrade of our Insurer Financial Strength (“IFS”) ratings. The actual amount of collateral required to be posted to the counterparties in the event of such downgrades and the aggregate amount of payments that we could be required to make depend on market conditions, the fair value of outstanding affected transactions and other factors prevailing at and after the time of the downgrade. The fair value of securities pledged as collateral with respect to these obligations was approximately \$ 103 million and \$ 63 million at September 30, 2024 and December 31, 2023, respectively. This collateral primarily consists of securities of the U.S. government and government-sponsored entities and generally cannot be repledged or resold by the counterparties.

As part of our collateralized reinsurance transactions, we pledge collateral to cedants as contractually required. The fair value of securities pledged as excess collateral with respect to these obligations was approximately \$ 616 million and \$ 490 million at September 30, 2024 and December 31, 2023, respectively. Additionally, assets supporting these transactions are held solely for the benefit of the cedants and insulated from obligations owed to our other policyholders and general creditors.

Reinsurance transactions between Corebridge and Fortitude Re were structured as modco with funds withheld.

6. Lending Activities

The following table presents the composition of Mortgage and other loans receivable, net:

(in millions)	September 30, 2024	December 31, 2023
Commercial mortgages ^(a)	\$ 36,118	\$ 34,172
Residential mortgages	11,115	8,445
Life insurance policy loans	1,742	1,746
Commercial loans, other loans and notes receivable ^(b)	3,446	3,202
Total mortgage and other loans receivable	52,421	47,565
Allowance for credit losses ^(c)	(768)	(698)
Mortgage and other loans receivable, net	\$ 51,653	\$ 46,867

(a) Commercial mortgages primarily represent loans for apartments, offices and retail properties, with exposures in New York and California representing the largest geographic concentrations (aggregating approximately 17 % and 10 %, respectively, at September 30, 2024, and 19 % and 10 %, respectively, at December 31, 2023). The weighted average loan-to-value ratio for NY and CA was 63 % and 56 % at September 30, 2024, respectively, and 61 % and 55 % at December 31, 2023, respectively. The debt service coverage ratio for NY and CA was 1.9 X and 2.1 X at September 30, 2024, respectively, and 1.9 X and 2.1 X at December 31, 2023, respectively.

(b) There were no loans that were held for sale which are carried at lower of cost or market as of September 30, 2024 and December 31, 2023.

(c) Does not include allowance for credit losses of \$ 39 million and \$ 58 million at September 30, 2024 and December 31, 2023, respectively, in relation to off-balance-sheet commitments to fund commercial mortgage loans, which is recorded in Other liabilities.

Interest income is not accrued when payment of contractual principal and interest is not expected. Any cash received on impaired loans is generally recorded as a reduction of the current carrying amount of the loan. Accrual of interest income is generally resumed when delinquent contractual principal and interest are repaid or when a portion of the delinquent contractual payments are made, and the ongoing required contractual payments have been made for an appropriate period. As of September 30, 2024, \$ 57 million and \$ 1.1 billion of residential mortgage loans and commercial mortgage loans, respectively, are in nonaccrual status. As of December 31, 2023, \$ 27 million and \$ 419 million of residential mortgage loans and commercial mortgage loans, respectively, were placed on nonaccrual status.

Accrued interest is presented separately and is included in Accrued investment income on the Condensed Consolidated Balance Sheets. As of September 30, 2024, accrued interest receivable was \$ 55 million and \$ 176 million associated with residential mortgage loans and commercial mortgage loans, respectively. As of December 31, 2023, accrued interest receivable was \$ 20 million and \$ 162 million associated with residential mortgage loans and commercial mortgage loans, respectively.

A significant majority of commercial mortgages in the portfolio are non-recourse loans and, accordingly, the only guarantees are for specific items that are exceptions to the non-recourse provisions. It is therefore extremely rare for us to have cause to enforce the provisions of a guarantee on a commercial real estate or mortgage loan.

Nonperforming loans are generally those loans where payment of contractual principal or interest is more than 90 days past due. Nonperforming loans were not significant for all periods presented.

CREDIT QUALITY OF COMMERCIAL MORTGAGES

The following table presents debt service coverage ratios for commercial mortgages by year of vintage*:

September 30, 2024									
(in millions)		2024		2023		2022		2021	
>1.2X	\$	2,256	\$	2,302	\$	6,744	\$	2,766	\$

<1.00X		—		40		—		—	
Total commercial mortgages	\$	2,447	\$	7,159	\$	3,275	\$	1,564	\$

* The debt service coverage ratio compares a property's net operating income to its debt service payments, including principal and interest. Our weighted average debt service coverage ratio was 1.9 X at both periods ended September 30, 2024 and December 31, 2023. The debt service coverage ratios are updated when additional relevant information becomes available.

The following table presents loan-to-value ratios for commercial mortgages by year of vintage*:

September 30, 2024								
(in millions)		2024		2023		2022		2021
Less than 65%	\$	2,406	\$	2,178	\$	4,598	\$	2,143

Greater than 80%		79		598		279		151
Total commercial mortgages	\$	2,447	\$	7,159	\$	3,275	\$	1,564

* The loan-to-value ratio compares the current unpaid principal balance of the loan to the estimated fair value of the underlying property collateralizing the loan. Our weighted average loan-to-value ratio was 60 % at September 30, 2024 and 59 % at December 31, 2023. The loan-to-value ratios have been updated within the last three months to reflect the current carrying values of the loans. We update the valuations of collateral properties by obtaining independent appraisals, generally at least once per year.

The following table presents the credit quality performance indicators for commercial mortgages:

	Number of Loans	Class						Total	Percent of Total
(dollars in millions)		Apartments	Offices	Retail	Industrial	Hotel	Others		
September 30, 2024									
Credit Quality Performance Indicator:									
In good standing	594	\$ 14,673	\$ 8,417	\$ 3,854	\$ 6,514	\$ 1,849	\$ 443	35,750	99 %

* Fair Isaac Corporation ("FICO") is the credit quality indicator used to evaluate consumer credit risk for residential mortgage loan borrowers and have been updated within the last twelve months. FICO scores for residential mortgage investor loans to corporate entities are those of the guarantor at time of purchase. On September 30, 2024 and December 31, 2023 residential loans direct to consumers totaled \$ 7.9 billion and \$ 6.7 billion, respectively.

ALLOWANCE FOR CREDIT LOSSES

The following table presents a rollforward of the changes in the allowance for credit losses on Mortgage and other loans receivable*:

(in millions)	2024			2023		
	Commercial Mortgages	Other Loans	Total	Commercial Mortgages	Other Loans	Total
Three Months Ended September 30,						
Allowance, beginning of period	\$ 654	\$ 104	\$ 758	\$ 621	\$ 68	\$ 689
Loans charged off	(6)	(1)	(7)	(1)	—	(1)
Net charge-offs	(6)	(1)	(7)	(1)	—	(1)
Addition to (release of) allowance for loan losses	3	14	17	61	3	64
Allowance, end of period	\$ 651	\$ 117	\$ 768	\$ 681	\$ 71	\$ 752
Nine Months Ended September 30,						
Allowance, beginning of period	\$ 614	\$ 84	\$ 698	\$ 531	\$ 69	\$ 600
Loans charged off	(6)	(7)	(13)	(5)	—	(5)
Net charge-offs	(6)	(7)	(13)	(5)	—	(5)
Addition to (release of) allowance for loan losses	43	40	83	155	2	157
Allowance, end of period	\$ 651	\$ 117	\$ 768	\$ 681	\$ 71	\$ 752

* Does not include allowance for credit losses of \$ 39 million and \$ 61 million at September 30, 2024 and 2023, respectively, in relation to the off-balance-sheet commitments to fund commercial mortgage loans, which is recorded in Other liabilities in the Condensed Consolidated Balance Sheets.

Our expectations and models used to estimate the allowance for losses on commercial and residential mortgage loans are regularly updated to reflect the current economic environment.

LOAN MODIFICATIONS

The allowance for credit losses incorporates an estimate of lifetime expected credit losses and is recorded on each asset upon asset origination or acquisition. The starting point for the estimate of the allowance for credit losses is historical loss information, which includes losses from modifications of receivables to borrowers experiencing financial difficulty. We use a probability of default/loss given default model to determine the allowance for credit losses for our commercial and residential mortgage loans. An assessment of whether a borrower is experiencing financial difficulty is made on the date of a modification.

Because the effect of most modifications made to borrowers experiencing financial difficulty is already included in the allowance for credit losses utilizing the measurement methodologies used to estimate the allowance, a change to the allowance for credit losses is generally not recorded upon modification.

When modifications are executed, they often will be in the form of principal forgiveness, term extensions, interest rate reductions, or some combination of any of these concessions. When principal is forgiven, the amortized cost basis of the asset is written off against the allowance for credit losses. The amount of the principal forgiveness is deemed to be uncollectible; therefore, that portion of the loan is written off, resulting in a reduction of the amortized cost basis and a corresponding adjustment to the allowance for credit losses.

We assess whether a borrower is experiencing financial difficulty based on a variety of factors, including the borrower's current default on any of its outstanding debt, the probability of a default on any of its debt in the foreseeable future without the modification, the insufficiency of the borrower's forecasted cash flows to service any of its outstanding debt (including both principal and interest), and the borrower's inability to access alternative third party financing at an interest rate that would be reflective of current market conditions for a non-troubled debtor.

During the nine months ended September 30, 2024, commercial mortgage loans with an amortized cost of \$ 139 million (including \$ 11 million supporting the funds withheld arrangements with Fortitude Re) and commercial loans, other loans and notes receivable with an amortized cost of \$ 168 million (none of which were supporting the funds withheld arrangements with Fortitude Re, and \$ 168 million of which is related to the loans previously modified in 2023) were granted term extensions and adjustment of interest rates. The modified loans represent less than 1 % and 5 %, respectively, of these portfolio segments. These modifications added less than one year to the weighted average life of loans in each of these two portfolio segments.

There were no loans that defaulted during the nine months ended September 30, 2024 and 2023, that had been previously modified with borrowers experiencing financial difficulties.

Corebridge closely monitors the performance of the loans modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts. All loans with borrowers with financial difficulty that have been modified in the previous 12 months are current and performing in conjunction with its modified terms.

7. Reinsurance

In the ordinary course of business, our insurance companies may use ceded reinsurance to limit potential losses, provide additional capacity for growth, minimize exposure to significant risks or to provide greater diversification of our businesses. We may also use assumed reinsurance to diversify our business. Our reinsurance is principally under yearly renewable term ("YRT") treaties, along with a large modco treaty reinsuring the majority of our legacy business to Fortitude Re. Reinsurance premiums ceded are recognized when due, along with corresponding benefits. Amounts recoverable from reinsurers are presented as a component of Reinsurance assets.

Reinsurance assets include the balances due from reinsurance and insurance companies under the terms of our reinsurance agreements for ceded future policy benefits for life and accident and health insurance contracts and benefits paid and unpaid. We remain liable to the extent that our reinsurers do not meet their obligations under the reinsurance contracts, and as such, we regularly evaluate the financial condition of our reinsurers and monitor concentration of our credit risk. The estimation of the allowance for credit losses and disputes requires judgment for which key inputs typically include historical trends regarding uncollectible balances, disputes and credit events as well as specific reviews of balances in dispute or subject to credit impairment. Changes in the allowance for credit losses and disputes on reinsurance assets are reflected in policyholder benefits within the Consolidated Statements of Income (Loss).

Reinsurance recoverables are recognized in a manner consistent with the liabilities relating to the underlying reinsured contracts.

FORTITUDE RE

AGL, VALIC and USL, have modco agreements with Fortitude Re, a registered Class 4 and Class E reinsurer in Bermuda.

In the modco arrangement, the investments supporting the reinsurance agreements, which consist mostly of available-for-sale securities, and which reflect the majority of the consideration that would be paid to the reinsurer for entering into the transaction, are withheld by, and therefore continue to reside on the balance sheet of, the ceding company (i.e., Corebridge), thereby creating an obligation for the ceding company to pay the reinsurer (i.e., Fortitude Re) at a later date. Additionally, as Corebridge maintains ownership of these investments, Corebridge will maintain its existing accounting for these assets (e.g., the changes in fair value of available-for-sale securities will be recognized within OCI). Corebridge has established a funds withheld payable to Fortitude Re while simultaneously establishing a reinsurance asset representing liabilities for the insurance coverage that Fortitude Re has assumed. The funds withheld payable contains an embedded derivative and changes in fair value of the embedded derivative related to the funds withheld payable are recognized in earnings through realized gains (losses). This embedded derivative is considered a total return swap with contractual returns that are attributable to various assets and liabilities associated with these reinsurance agreements.

There is a diverse pool of assets supporting the funds withheld arrangements with Fortitude Re. The following summarizes the composition of the pool of assets:

(in millions)	September 30, 2024		December 31, 2023		Corresponding Accounting Policy
	Carrying Value	Fair Value	Carrying Value	Fair Value	
Fixed maturity securities - available-for-sale	\$ 14,561	\$ 14,561	\$ 15,204	\$ 15,204	Fair value through other comprehensive income
Fixed maturity securities - fair value option	4,951	4,951	4,212	4,212	Fair value through net investment income
Commercial mortgage loans	3,266	3,089	3,378	3,157	Amortized cost
Real estate investments	207	296	184	329	Amortized cost
Private equity funds/hedge funds	1,901	1,901	1,910	1,910	Fair value through net investment income
Policy loans	318	318	330	330	Amortized cost
Short-term Investments	195	195	129	129	Fair value through net investment income
Funds withheld investment assets	25,399	25,311	25,347	25,271	
Derivative assets, net ^(a)	—	—	45	45	Fair value through realized gains (losses)
Other ^(b)	598	598	641	641	Amortized cost
Total	\$ 25,997	\$ 25,909	\$ 26,033	\$ 25,957	

(a) The derivative assets and liabilities have been presented net of cash collateral. The derivative assets and liabilities supporting the Fortitude Re funds withheld arrangements had a fair market value of \$ — million and \$ 157 million, respectively, as of September 30, 2024. The derivative assets and liabilities supporting the Fortitude Re funds withheld arrangements had a fair market value of \$ 62 million and \$ 6 million, respectively, as of December 31, 2023. These derivative assets and liabilities are fully collateralized either by cash or securities.

(b) Primarily comprised of Cash and Accrued investment income.

The impact of the funds withheld arrangements with Fortitude Re was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
Net investment income - Fortitude Re funds withheld assets	\$ 515	\$ 233	\$ 1,172	\$ 897
Net realized gains (losses) on Fortitude Re funds withheld assets:				
Net realized gains (losses) Fortitude Re funds withheld assets	157	(228)	(100)	(338)
Net realized gains (losses) Fortitude Re funds withheld embedded derivatives	(1,509)	1,080	(1,451)	177
Net realized losses on Fortitude Re funds withheld assets	(1,352)	852	(1,551)	(161)
Income (loss) before income tax expense (benefit)	(837)	1,085	(379)	736
Income tax expense (benefit)*	(176)	228	(80)	155
Net income (loss)	(661)	857	(299)	581
Change in unrealized appreciation (depreciation) of the invested assets supporting the Fortitude Re modco arrangement classified as available-for-sale*	636	(820)	304	(534)
Comprehensive income (loss)	\$ (25)	\$ 37	\$ 5	\$ 47

* The income tax expense (benefit) and the tax impact in OCI was computed using the U.S. statutory tax rate of 21%.

Various assets supporting the Fortitude Re funds withheld arrangements are reported at amortized cost, and as such, changes in the fair value of these assets are not reflected in the financial statements. However, changes in the fair value of these assets are included in the embedded derivative in the Fortitude Re funds withheld arrangement and the appreciation (depreciation) of the assets is the primary driver of the comprehensive income (loss) reflected above.

REINSURANCE – CREDIT LOSSES

The estimation of reinsurance recoverables involves a significant amount of judgment. Reinsurance assets include reinsurance recoverables on future policy benefits and policyholder contract deposits that are estimated as part of our insurance liability valuation process and, consequently, are subject to similar judgments and uncertainties as the estimation of gross benefit liabilities.

We assess the collectability of reinsurance recoverable balances in each reporting period, through either historical trends of disputes and credit events or financial analysis of the credit quality of the reinsurer. We record adjustments to reflect the results of these assessments through an allowance for credit losses and disputes on uncollectible reinsurance that reduces the carrying amount of reinsurance and other assets on the Condensed Consolidated Balance Sheets (collectively, the reinsurance recoverable balances). This estimate requires significant judgment for which key considerations include:

- paid and unpaid amounts recoverable;
- whether the balance is in dispute or subject to legal collection;
- the relative financial health of the reinsurer as classified by the Obligor Risk Ratings (“ORRs”) we assign to each reinsurer based upon our financial reviews; insurers that are financially troubled (i.e., in run-off, have voluntarily or involuntarily been placed in receivership, are insolvent, are in the process of liquidation or otherwise subject to formal or informal regulatory restriction) are assigned ORRs that will generate a significant allowance; and
- whether collateral and collateral arrangements exist.

An estimate of the reinsurance recoverable's lifetime expected credit losses is established utilizing a probability of default and loss given default method, which reflects the reinsurer's ORR. The allowance for credit losses excludes disputed amounts. An allowance for disputes is established for a reinsurance recoverable using the losses incurred model for contingencies.

The total reinsurance recoverables as of September 30, 2024 were \$ 27.9 billion. As of that date, utilizing Corebridge's ORRs, (i) approximately 95 % of the reinsurance recoverables were investment grade, (ii) approximately 5 % were non-investment grade reinsurance recoverables and (iii) none of the reinsurance recoverables were related to entities that were not rated by Corebridge.

Reinsurance Recoverable Allowance

The following table presents a rollforward of the reinsurance recoverable allowance:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
Balance, beginning of period	\$ 12	\$ 66	\$ 30	\$ 84
Current period provision for expected credit losses and disputes	—	4	(8)	(14)
Write-offs charged against the allowance for credit losses and disputes	—	—	(10)	—
Balance, end of period	\$ 12	\$ 70	\$ 12	\$ 70

There were no material recoveries of credit losses previously written off for the nine months ended September 30, 2024 or 2023.

Past-Due Status

We consider a reinsurance asset to be past due when it is 90 days past due and record an allowance for disputes when there is reasonable uncertainty of the collectability of a disputed amount during the reporting period. Past-due balances were not significant for any of the periods presented.

For further discussion of arbitration proceedings against us, see Note 16.

8. Variable Interest Entities

A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make significant decisions relating to the entity's operations through voting rights or do not substantively participate in the gains and losses of the entity. Consolidation of a VIE by its primary beneficiary is not based on majority voting interest but is based on other criteria discussed below.

We enter into various arrangements with VIEs in the normal course of business and consolidate the VIEs when we determine we are the primary beneficiary. This analysis includes a review of the VIE's capital structure, related contractual relationships and terms, nature of the VIE's operations and purpose, nature of the VIE's interests issued and our involvement with the entity. When assessing the need to consolidate a VIE, we evaluate the design of the VIE as well as the related risks to which the entity was designed to expose the variable interest holders.

The primary beneficiary is the entity that has both (i) the power to direct the activities of the VIE that most significantly affect the entity's economic performance and (ii) the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. While also considering these factors, the consolidation conclusion depends on the breadth of our decision-making ability and our ability to influence activities that significantly affect the economic performance of the VIE.

BALANCE SHEET CLASSIFICATION AND EXPOSURE TO LOSS

Creditors or beneficial interest holders of VIEs for which the Company is the primary beneficiary generally have recourse only to the assets and cash flows of the VIEs and do not have recourse to the Company. The following table presents the total assets and total liabilities associated with our variable interests in consolidated VIEs, as classified in the Condensed Consolidated Balance Sheets:

	Real Estate and Investment Entities ^(c)		Securitization and Repackaging Vehicles		Total
<i>(in millions)</i>					
September 30, 2024					
Assets:					
Bonds available-for-sale	\$	37	\$	—	\$ 37
Other bond securities		44		—	44
Equity securities		4		—	4
Mortgage and other loans receivable		—		1,939	1,939
Other invested assets					
Alternative investments ^(a)		2,576		—	2,576
Investment real estate		1,222		—	1,222
Short-term investments		211		1	212
Cash		53		—	53
Accrued investment income		2		5	7
Other assets		74		—	74
Total assets ^(b)	\$	4,223	\$	1,945	\$ 6,168
Liabilities:					
Debt of consolidated investment entities	\$	884	\$	994	\$ 1,878
Other liabilities		72		—	72
Total liabilities	\$	956	\$	994	\$ 1,950
December 31, 2023					
Assets:					
Bonds available-for-sale	\$	36	\$	76	\$ 112
Other bond securities		45		—	45
Equity securities		8		—	8
Mortgage and other loans receivable		—		1,941	1,941
Other invested assets					
Alternative investments ^(a)		2,695		—	2,695
Investment real estate		1,488		—	1,488
Short-term investments		125		5	130
Cash		61		—	61
Accrued investment income		2		5	7
Other assets		93		2	95
Total assets ^(b)	\$	4,553	\$	2,029	\$ 6,582
Liabilities:					
Debt of consolidated investment entities	\$	1,117	\$	1,149	\$ 2,266
Other liabilities		82		1	83
Total liabilities	\$	1,199	\$	1,150	\$ 2,349

(a) Composed primarily of investments in real estate joint ventures at September 30, 2024 and December 31, 2023.

(b) The assets of each VIE can be used only to settle specific obligations of that VIE.

(c) Off-balance-sheet exposure primarily consisting of commitments by insurance operations and affiliates into real estate and investment entities. At September 30, 2024 and December 31, 2023, the Company had commitments to internal parties of \$ 0.7 billion and \$ 1.2 billion and commitments to external parties of \$ 0.4 billion and \$ 0.4 billion, respectively.

The following table presents the revenue, net income (loss) attributable to noncontrolling interests and net income (loss) attributable to Corebridge associated with our variable interests in consolidated VIEs, as classified in the Condensed Consolidated Statements of Income (Loss):

	Real Estate and Investment Entities		Securitization and Repackaging Vehicles		Total
(in millions)					
Three Months Ended September 30, 2024					
Total revenue	\$	59	\$	19	\$ 78
Net (loss) attributable to noncontrolling interests	\$	(3)	\$	—	\$ (3)
Net income attributable to Corebridge	\$	45	\$	13	\$ 58
Three Months Ended September 30, 2023					
Total revenue	\$	(21)	\$	18	\$ (3)
Net (loss) attributable to noncontrolling interests	\$	(32)	\$	—	\$ (32)
Net income (loss) attributable to Corebridge	\$	(5)	\$	12	\$ 7
Nine Months Ended September 30, 2024					
Total revenue	\$	2	\$	54	\$ 56
Net (loss) attributable to noncontrolling interests	\$	(78)	\$	—	\$ (78)
Net income attributable to Corebridge	\$	24	\$	31	\$ 55
Nine Months Ended September 30, 2023					
Total revenue	\$	48	\$	95	\$ 143
Net (loss) attributable to noncontrolling interests	\$	(46)	\$	—	\$ (46)
Net income attributable to Corebridge	\$	47	\$	66	\$ 113

We calculate our maximum exposure to loss to be (i) the amount invested in the debt or equity of the VIE, (ii) the notional amount of VIE assets or liabilities where we have also provided credit protection to the VIE with the VIE as the referenced obligation and (iii) other commitments and guarantees to the VIE.

The following table presents total assets of unconsolidated VIEs in which we hold a variable interest, as well as our maximum exposure to loss associated with these VIEs:

		Maximum Exposure to Loss			
		Total VIE Assets	On-Balance Sheet ^(b)	Off-Balance Sheet ^(c)	Total
millions)					
September 30, 2024					
Real estate and investment entities ^(a)	\$	437,933	5,754	2,819	8,573
Total	\$	437,933	5,754	2,819	8,573
December 31, 2023					
Real estate and investment entities ^(a)	\$	398,938	5,332	2,870	8,402
Total	\$	398,938	5,332	2,870	8,402

(a) Composed primarily of hedge funds and private equity funds.

(b) At September 30, 2024 and December 31, 2023, \$ 5.7 billion and \$ 5.5 billion, respectively, of our total unconsolidated VIE assets were recorded as other invested assets.

(c) These amounts represent our unfunded commitments to invest in private equity funds and hedge funds.

Additionally, Corebridge is a passive investor in certain investment vehicles that securitized certain secured loans, bank loans and residential mortgage loans. The notes held by Corebridge and their related fair values are included in the available-for-sale disclosures that are reported in *Notes 4 and 5*. As of September 30, 2024, the total VIE assets of these securitizations are \$ 2.7 billion , of which Corebridge's maximum exposure to loss including unfunded commitments is \$ 2.5 billion . As of December 31, 2023, the total VIE assets of these securitizations are \$ 3.1 billion, of which Corebridge's maximum exposure to loss is \$ 2.2 billion .

9. Derivatives and Hedge Accounting

We use derivatives and other financial instruments as part of our financial risk management programs and as part of our investment operations. Interest rate derivatives (such as interest rate futures, swaps and options), equity derivatives (such as equity futures, swaps and options) and fixed maturity securities are used to economically mitigate interest rate risk, equity risk and credit spread exposure associated with MRBs and embedded derivatives contained in insurance contract liabilities. Interest rate derivatives are used to manage interest rate risk associated with fixed maturity securities as well as other interest rate sensitive assets and liabilities. Equity derivatives are used to economically mitigate financial risk associated with embedded derivatives and MRBs in certain insurance liabilities. In addition, equity derivatives are used to economically hedge certain investments. Foreign exchange derivatives (principally foreign exchange forwards and swaps) are used to economically mitigate risk associated with foreign denominated investments, net capital exposures and foreign currency transactions. We use credit derivatives to manage our credit exposures. The derivatives are effective economic hedges of the exposures that they are meant to offset. As part of our strategy to enhance investment income, in addition to hedging activities, we also enter into derivative contracts with respect to investment operations, which may include, among other things, credit default swaps ("CDS"), total return swaps and purchases of investments with embedded derivatives, such as equity-linked notes and convertible bonds.

Interest rate, currency and equity swaps, credit contracts, swaptions, options and forward transactions are accounted for as derivatives, recorded on a trade-date basis and carried at fair value. Unrealized gains and losses are generally reflected in income, except in certain situations in which hedge accounting is applied and unrealized gains and losses are reflected in AOCI. Aggregate asset or liability positions are netted on the Condensed Consolidated Balance Sheets only to the extent permitted by qualifying master netting arrangements in place with each respective counterparty. Cash collateral posted with counterparties in conjunction with transactions supported by qualifying master netting arrangements is reported as a reduction of the corresponding net derivative liability, while cash collateral received in conjunction with transactions supported by qualifying master netting arrangements is reported as a reduction of the corresponding net derivative asset.

Derivatives, with the exception of embedded derivatives, are reported at fair value in the Condensed Consolidated Balance Sheets in Other assets and Other liabilities. Embedded derivatives are generally presented with the host contract in the Condensed Consolidated Balance Sheets. A bifurcated embedded derivative is measured at fair value and accounted for in the same manner as a freestanding derivative contract. The corresponding host contract is accounted for according to the accounting guidance applicable for that instrument.

For additional information on embedded derivatives and MRBs, see Notes 4, 13 and 14.

The following table presents the notional amounts of our derivatives and the fair value of derivative assets and liabilities in the Condensed Consolidated Balance Sheets:

	September 30, 2024				December 31, 2023			
	Gross Derivative Assets		Gross Derivative Liabilities		Gross Derivative Assets		Gross Derivative Liabilities	
	Notional	Fair	Notional	Fair	Notional	Fair	Notional	Fair

Total derivatives, gross	\$ 172,614	\$ 9,145	\$ 77,028	\$ 6,101	\$ 173,953	\$ 5,925	\$ 68,961	\$ 4,588
Counterparty netting^(d)		(5,611)		(5,611)		(3,646)		(3,646)
Cash collateral^(e)		(2,837)		(281)		(1,886)		(801)
Total derivatives on Condensed Consolidated Balance Sheets^(f)		\$ 697		\$ 209		\$ 393		\$ 141

(a) Fair value amounts are shown before the effects of counterparty netting adjustments and offsetting cash collateral.

(b) Includes written credit default swaps linked to certain actively traded indices. In the case of a credit event, the maximum future payment is limited to the constituent's representation within the index.

(c) Consists primarily of stable value wraps and contracts with multiple underlying exposures.

- (d) Represents netting of derivative exposures covered by a qualifying master netting agreement.
- (e) Represents cash collateral posted and received that is eligible for netting.
- (f) Freestanding derivatives only, excludes embedded derivatives. Derivative instrument assets and liabilities are recorded in Other assets and Other liabilities, respectively. The fair value of assets related to bifurcated embedded derivatives were both zero at September 30, 2024 and December 31, 2023. The fair value of liabilities related to bifurcated embedded derivatives was \$ 13.6 billion and \$ 10.2 billion at September 30, 2024 and December 31, 2023, respectively. A bifurcated embedded derivative is generally presented with the host contract in the Condensed Consolidated Balance Sheets. Embedded derivatives are primarily related to guarantee features in fixed index annuities, index universal life contracts and bonds available-for-sale, which include equity and interest rate components and the funds withheld arrangement with Fortitude Re. For additional information, see Note 7.

The following table presents the gross notional amounts of our derivatives and the fair value of derivative assets and liabilities with related parties and third parties:

Total derivatives, gross	\$ 172,614	\$ 9,145	\$ 77,028	\$ 6,101	\$ 173,953	\$ 5,925	\$ 68,961	\$ 4,588

As of September 30, 2024 and December 31, 2023, the following amounts were recorded on the Condensed Consolidated Balance Sheets related to the carrying amount of the hedged assets (liabilities) and cumulative basis adjustments included in the carrying amount for fair value hedges:

	September 30, 2024			December 31, 2023		
	Carrying Amount of the Hedged Assets (Liabilities)		Cumulative Amount of Fair Value Hedging Adjustments Included In the Carrying Amount of the Hedged Assets Liabilities	Carrying Amount of the Hedged Assets (Liabilities)		Cumulative Amount of Fair Value Hedging Adjustments Included In the Carrying Amount of the Hedged Assets Liabilities
(in millions)						
Balance sheet line item in which hedged item is recorded:						
Fixed maturities, available-for-sale, at fair value	\$ 7,250	\$ —	\$ —	\$ 7,412	\$ —	\$ —
Commercial mortgage and other loans ^(a)	—	(23)	(23)	—	(24)	(24)
Policyholder contract deposits ^(b)	(7,842)	(96)	(96)	(4,756)	(31)	(31)

(a) This relates to hedge accounting that has been discontinued, but the respective loans are still held. The cumulative adjustment is being amortized into earnings over the remaining life of the loan.

(b) This relates to fair value hedges on GICs.

COLLATERAL

We engage in derivative transactions that are not subject to a clearing requirement directly with related parties and unaffiliated third parties, in most cases under International Swaps and Derivatives Association, Inc. ("ISDA") Master Agreements. Many of the ISDA Master Agreements also include Credit Support Annex provisions, which provide for collateral postings that may vary based on criteria such as ratings and threshold levels. We attempt to reduce our risk with certain counterparties by entering into agreements that enable collateral to be obtained from a counterparty on an up-front or contingent basis. We minimize the risk that counterparties might be unable to fulfill their contractual obligations by monitoring counterparty credit exposure and collateral value and generally requiring additional collateral to be posted upon the occurrence of certain events or circumstances.

Collateral posted by us to third parties for derivative transactions was \$ 1.2 billion and \$ 1.4 billion at September 30, 2024 and December 31, 2023, respectively. No collateral was posted by us to related parties for derivative transactions at September 30, 2024 and December 31, 2023, respectively. In the case of collateral posted under derivative transactions that are not subject to clearing, this collateral can generally be repledged or resold by the counterparties. Collateral provided to us from third parties for derivative transactions was \$ 3.5 billion and \$ 1.9 billion at September 30, 2024 and December 31, 2023, respectively. Collateral provided to us from related parties for derivative transactions was \$ 31 million and \$ 377 million at September 30, 2024 and December 31, 2023, respectively. In the case of collateral provided to us under derivative transactions that are not subject to clearing, we generally can repledge or resell collateral.

OFFSETTING

We have elected to present all derivative receivables and derivative payables, and the related cash collateral received and paid, on a net basis on our Condensed Consolidated Balance Sheets when a legally enforceable ISDA Master Agreement exists between us and our derivative counterparty. An ISDA Master Agreement is an agreement governing multiple derivative transactions between two counterparties. The ISDA Master Agreement generally provides for the net settlement of all, or a specified group, of these derivative transactions, as well as transferred collateral, through a single payment, and in a single currency, as applicable. The net settlement provisions apply in the event of a default on, or affecting any, one derivative transaction or a termination event affecting all, or a specified group of, derivative transactions governed by the ISDA Master Agreement.

HEDGE ACCOUNTING

We designated certain derivatives entered into with related parties as fair value hedges of available-for-sale securities held by our insurance subsidiaries. The fair value hedges include foreign currency forwards and cross-currency swaps designated as hedges of the change in fair value of foreign currency denominated available-for-sale securities attributable to changes in foreign exchange rates. We also designated certain interest rate swaps entered into with related parties as fair value hedges of fixed rate GICs and commercial mortgage loans attributable to changes in benchmark interest rates.

In 2022, we designated certain interest rate swaps entered into with related parties as cash flow hedges of forecasted coupon payments associated with anticipated long-term debt issuances. For the three and nine months ended September 30, 2024, \$ 7 million and \$ 21 million, respectively, and for the three and nine months ended September 30, 2023, \$ 7 million and \$ 21 million, respectively, have been reclassified into Interest expense. The remaining amount in AOCI, of \$ 153 million, will be reclassified into Interest expense over the life of the hedging relationship, which can extend up to 30 years. We expect \$ 28 million to be reclassified into Interest expense over the next 12 months. There are no amounts excluded from the assessment of hedge effectiveness that are recognized in earnings.

For additional information related to the debt issuances, see Note 17 to the Consolidated Financial Statements in the 2023 Form 10-K.

We also designated certain interest rate swaps as cash flow hedges of floating-rate investment assets. Related to such swaps, for the three and nine months ended September 30, 2024, we recognized derivative gains (losses) of \$ 119 million and \$ 106 million, respectively, in AOCI and \$(14) million and \$(21) million, respectively, in net investment income. For the three and nine months ended September 30, 2023, \$(11) million and \$(11) million, respectively, in AOCI and \$(1) million and \$(1) million, respectively, in net investment income. As it relates to such hedges, we do not expect any reclassifications into net investment income over the next 12 months and there are no amounts excluded from the assessment of hedge effectiveness that are recognized in earnings.

We use cross-currency swaps as hedging instruments in net investment hedge relationships to mitigate the foreign exchange risk associated with our non-U.S. dollar functional currency foreign subsidiaries. For net investment hedge relationships that use derivatives as hedging instruments, we assess hedge effectiveness and measure hedge ineffectiveness using changes in forward rates. We recognized gains (losses) for the three and nine months ended September 30, 2024 of \$(5) million and \$(2) million, respectively, and for the three and nine months ended September 30, 2023 of \$ 3 million and \$ 1 million, respectively, included in Change in foreign currency translation adjustment in OCI related to the net investment hedge relationships. The gains (losses) recognized primarily include transactions with related parties. A qualitative methodology is utilized to assess hedge effectiveness for net investment hedges, while regression analysis is employed for all other hedges.

The following table presents the gain (loss) recognized in earnings on our derivative instruments in fair value hedging relationships in the Condensed Consolidated Statements of Income (Loss):

	Gains/(Losses) Recognized in Earnings for:			
	Hedging Derivatives ^{(a)(c)}	Excluded Components ^{(b)(c)}	Hedged Items	Net Impact
<i>millions)</i>				
Three Months Ended September 30, 2024				
Interest rate contracts:				
Interest credited to policyholder account balances	\$ 137	\$—	(140)	(3)
Foreign exchange contracts:				
Realized gains (losses)	\$ (32)	\$9	327	99
Three Months Ended September 30, 2023

Policyholder benefits	—	(5)	—	(5)
Change in the Fair value of market risk benefits ^(c)	6	(461)	(848)	(1,192)
Total^(a)	\$ (2,110)	\$ 1,014	\$ (2,829)	\$ (1,037)

(a) Includes gains (losses) with related parties of \$(14) million and \$(744) million for the three months ended September 30, 2024 and 2023, respectively, and \$ 22 million and \$(984) million for the nine months ended September 30, 2024 and 2023, respectively.

(b) Includes a \$ 5 million gain related to the sale of AIG Life U.K. reported in net (gain) loss on divestitures for the nine months ended September 30, 2024. For further details on this transaction, see Note 1.

(c) This represents activity related to derivatives that economically hedged changes in fair value of certain MRBs.

In addition to embedded derivatives within policyholder contract deposits, certain guaranteed benefits within insurance contracts are classified as MRBs. The change in the fair value of these benefits is disclosed in Note 14. The change in the fair value of MRBs and the derivative instruments that hedge those risks are recognized in "Change in the fair value of MRBs, net" in the Condensed Consolidated Statements of Income (Loss).

HYBRID SECURITIES WITH EMBEDDED CREDIT DERIVATIVES

We invest in hybrid securities (such as credit-linked notes) with the intent of generating income, and not specifically to acquire exposure to embedded derivative risk. As is the case with our other investments in RMBS, CMBS, CLOs, ABS and collateralized debt obligations ("CDOs"), our investments in these hybrid securities are exposed to losses only up to the amount of our initial investment in the hybrid security. Other than our initial investment in the hybrid securities, we have no further obligation to make payments on the embedded credit derivatives in the related hybrid securities.

We elect to account for our investments in these hybrid securities with embedded written credit derivatives at fair value, with changes in fair value recognized in Net investment income. Our investments in these hybrid securities are reported as Other bond securities in the Condensed Consolidated Balance Sheets. The fair values of these hybrid securities were both zero at September 30, 2024 and December 31, 2023. These securities have par amounts of \$ 25 million and \$ 25 million at September 30, 2024 and December 31, 2023, respectively, and have remaining stated maturity dates that extend to 2052.

10. Deferred Policy Acquisition Costs

Deferred policy acquisition costs ("DAC") represent those costs that are incremental and directly related to the successful acquisition of new or renewal of existing insurance contracts. We defer incremental costs that result directly from, and are essential to, the acquisition or renewal of an insurance contract. Such DAC generally include agent or broker commissions and bonuses, and medical fees that would not have been incurred if the insurance contract had not been acquired or renewed. Each cost is analyzed to assess whether it is fully deferrable. We partially defer costs, including certain commissions, when we do not believe that the entire cost is directly related to the acquisition or renewal of insurance contracts. Commissions that are not deferred to DAC are recorded in Non-deferrable insurance commissions in the Condensed Consolidated Statements of Income (Loss).

We also defer a portion of employee total compensation and payroll-related fringe benefits directly related to time spent performing specific acquisition or renewal activities, including costs associated with the time spent on underwriting, policy issuance and processing, and sales force contract selling. The amounts deferred are derived based on successful efforts for each distribution channel and/or cost center from which the cost originates.

DAC for all contracts, except for those with limited to no exposure to policyholder behavior risk, (i.e., certain investment contracts), is grouped and amortized on a constant level basis over the expected term of the related contracts.

Value of Business Acquired ("VOBA"): VOBA is determined at the time of acquisition and is reported in the Condensed Consolidated Balance Sheets with DAC. This value is based on the present value of future pre-tax profits discounted at yields applicable at the time of purchase. VOBA is amortized, consistent with DAC, i.e., over the life of the business on a constant level basis.

The following table presents a rollforward of deferred policy acquisition costs and value of business acquired related to long-duration contracts for the nine months ended September 30, 2024 and 2023:

(in millions)	Individual Retirement		Group Retirement		Life Insurance		Institutional Markets		Total
DAC:									
Balance at January 1, 2024 ^(a)	\$	4,777	\$	1,055	\$	4,092	\$	70	\$ 9,994

Total DAC and VOBA:									
Balance at September 30, 2024								\$	10,204
Balance at September 30, 2023								\$	9,973

(a) Excludes \$ 740 million of DAC reclassified to Assets held-for-sale at the beginning of the period and was derecognized concurrent with the closing of the sale of AIG Life U.K.

(b) Excludes \$ 74 million of VOBA reclassified to Assets held-for-sale at the beginning of the period and was derecognized concurrent with the closing of the sale of AIG Life U.K.

DEFERRED SALES INDUCEMENTS

We offer deferred sales inducements ("DSI") which include enhanced crediting rates or bonus payments to contract holders (bonus interest) on certain annuity and investment contract products. To qualify for accounting treatment as an asset, the bonus interest must be explicitly identified in the contract at inception. We must also demonstrate that such amounts are incremental to amounts we credit on similar contracts without bonus interest and are higher than the contracts' expected ongoing crediting rates for periods after the bonus period. DSI is reported in Other assets, while amortization related to DSI is recorded in Interest credited to policyholder account balances. DSI amounts are deferred and amortized on a constant level basis over the life of the contract consistent with DAC.

The following table presents a rollforward of deferred sales inducement assets related to long-duration contracts for the nine months ended September 30, 2024 and 2023:

Nine Months Ended September 30,	2024			2023		
	Individual Retirement	Group Retirement	Total	Individual Retirement	Group Retirement	Total
(in millions)						
Balance, beginning of year	\$ 333	\$ 164	\$ 497	\$ 381	\$ 177	\$ 558
Capitalization	4	1	5	5	—	5
Amortization expense	(38)	(10)	(48)	(41)	(10)	(51)
Balance, end of period	\$ 299	\$ 155	\$ 454	\$ 345	\$ 167	\$ 512
Other reconciling items*			1,785			1,302
Other assets, including restricted cash			\$ 2,239			\$ 1,814

* Other reconciling items include prepaid expenses, goodwill, intangible assets and any similar items.

11. Separate Account Assets and Liabilities

We report variable contracts within the separate accounts when investment income and investment gains and losses accrue directly to, and investment risk is borne by, the contract holder and the separate account meets additional accounting criteria to qualify for separate account treatment. The assets supporting the variable portion of variable annuity and variable universal life contracts that qualify for separate account treatment are carried at fair value and are reported as separate account assets, with an equivalent summary total reported as separate account liabilities. The assets of insulated accounts are legally segregated and are not subject to claims that arise from any of our other businesses.

Policy values for variable products and investment contracts are expressed in terms of investment units. Each unit is linked to an asset portfolio. The value of a unit increases or decreases based on the value of the linked asset portfolio. The current liability at any time is the sum of the current unit value of all investment units in the separate accounts, plus any liabilities for MRBs.

Amounts assessed against the policyholders for mortality, administrative and other services are included in policy fees. Investment performance (including investment income, net investment gains (losses) and changes in unrealized gains (losses)) and the corresponding amounts credited to policyholders of such separate accounts are offset within the same line in the Condensed Consolidated Statements of Income (Loss).

For discussion of the fair value measurement of guaranteed benefits that are accounted for as MRBs, see Note 4.

The following table presents fair value of separate account investment options:

	Individual Retirement	Group Retirement	Life Insurance	Institutional Markets	Total
(in millions)					
September 30, 2024					
Equity funds	\$ 27,353	\$ 30,785	\$ 945	\$ 683	\$ 59,766

Separate accounts balance, end of period	\$	50,311	\$	40,674	\$	1,064	\$	4,319	\$ 96,368
Cash surrender value*	\$	49,399	\$	40,467	\$	1,043	\$	4,313	\$ 95,222
Nine Months Ended September 30, 2023									
Separate accounts balance, beginning of year	\$	45,178	\$	34,361	\$	799	\$	4,515	\$ 84,853
Premiums and deposits		1,124		1,033		27		40	2,224
Policy charges		(964)		(333)		(37)		(69)	(1,403)
Surrenders and withdrawals		(2,728)		(2,205)		(19)		(503)	(5,455)
Benefit payments		(640)		(374)		(5)		(61)	(1,080)
Investment performance		2,470		2,806		85		160	5,521
Net transfers from (to) general account and other		173		(122)		(2)		15	64
Separate accounts balance, end of period	\$	44,613	\$	35,166	\$	848	\$	4,097	\$ 84,724
Cash surrender value*	\$	43,566	\$	34,980	\$	828	\$	4,100	\$ 83,474

* The cash surrender value represents the amount of the contract holder's account balance distributable at the balance sheet date less applicable surrender charges.

Separate account liabilities primarily represent the contract holder's account balance in separate account assets and will be equal and offsetting to total separate account assets.

12. Future Policy Benefits

Future policy benefits primarily include reserves for traditional life and annuity payout contracts, which represent an estimate of the present value of future benefits less the present value of future net premiums. Included in Future policy benefits are liabilities for annuities issued in structured settlement arrangements whereby a claimant receives life contingent payments over their lifetime. Also included are pension risk transfer arrangements whereby an upfront premium is received in exchange for guaranteed retirement benefits. All payments under these arrangements are fixed and determinable with respect to their amounts and dates. Structured settlement or other annuitization elections (e.g., certain single premium immediate annuities) that do not involve life contingent payments, but rather payments for a stated period are included in Policyholder contract deposits.

For traditional and limited pay long-duration products, benefit reserves are accrued and benefit expense is recognized using a net premium ratio ("NPR") methodology for each annual cohort of business.

The following tables present the balances and changes in the liability for future policy benefits and a reconciliation of the net liability for future policy benefits to the liability for future policy benefits in the Condensed Consolidated Balance Sheets:

<i>(in millions, except for liability durations)</i>	Individual Retirement	Group Retirement	Life Insurance	Institutional Markets	Corporate and Other	Total

(a) Effect of changes in cash flow assumptions and variances from actual experience are partially offset by changes in the deferred profit liability.

(b) Additional details can be found in the table that presents the balances and changes in the liability for universal life policies.

(c) Other reconciling items primarily include the Accident and Health as well as Group Benefits (short-duration) contracts.

(d) The weighted average liability durations are calculated as the modified duration using projected future net liability cashflows that are aggregated at the segment level, utilizing the segment level weighted average interest rates and current discount rate, which can be found in the table below.

(e) Includes balances that were reclassified to Liabilities held-for-sale in the Condensed Consolidated Balance Sheets.

For the nine months ended September 30, 2024 and 2023 in the traditional and term life insurance block, capping of net premium ratios at 100% caused a (credit)/charge to net income of \$(1) million and \$(1) million, respectively. The discount rate was updated based on market observable information. Relative to the prior period, the increase in upper-medium-grade fixed income yields resulted in a decrease in the liability for future policy benefits.

The following table presents the amount of undiscounted expected future benefit payments and undiscounted and discounted expected gross premiums for future policy benefits for nonparticipating contracts:

		Nine Months Ended September 30,	
		2024	2023
(in millions)			
Individual Retirement	Undiscounted expected future benefits and expense	\$ 2,139	\$ 2,119
	Undiscounted expected future gross premiums	\$ —	\$ —
	Discounted expected future gross premiums (at current discount rate)	\$ —	\$ —
Group Retirement	Undiscounted expected future benefits and expense	\$ 306	\$ 315
	Undiscounted expected future gross premiums	\$ —	\$ —
	Discounted expected future gross premiums (at current discount rate)	\$ —	\$ —

	Undiscounted expected future gross premiums	\$ 21,763	\$ 29,789
	Discounted expected future gross premiums (at current discount rate)	\$ 14,899	\$ 18,596
Institutional Markets	Undiscounted expected future benefits and expense	\$ 43,864	\$ 33,025
	Undiscounted expected future gross premiums	\$ —	\$ —
	Discounted expected future gross premiums (at current discount rate)	\$ —	\$ —
Corporate and other ^(b)	Undiscounted expected future benefits and expense	\$ 41,994	\$ 43,250
	Undiscounted expected future gross premiums	\$ 2,016	\$ 2,141
	Discounted expected future gross premiums (at current discount rate)	\$ 1,385	\$ 1,372

(a) 2023 includes balances related to AIG Life U.K. that have been reclassified to Liabilities held-for-sale in the Condensed Consolidated Balance Sheets at September 30, 2023.

(b) Represents activity ceded to Fortitude Re.

The following table presents the amount of revenue and interest recognized in the Condensed Consolidated Statements of Income (Loss) for future policy benefits for nonparticipating contracts:

	Gross Premiums		Interest Accretion	
	Nine Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
(in millions)				
Individual Retirement	\$ 102	\$ 164	\$ 50	\$ 38
Group Retirement	10	16	9	8
Life Insurance	1,537	1,781	347	354
Institutional Markets	2,200	3,709	665	478
Corporate and Other	154	161	721	736
Total	\$ 4,003	\$ 5,831	\$ 1,792	\$ 1,614

The following table presents the weighted-average interest rate for future policy benefits for nonparticipating contracts:

	Individual Retirement	Group Retirement	Life Insurance	Institutional Markets	Corporate and Other
September 30, 2024					
Weighted-average interest rate, original discount rate	3.75 %	5.17 %	4.69 %	4.29 %	4.85 %
Weighted-average interest rate, current discount rate	4.89 %	4.81 %	5.04 %	5.15 %	5.04 %
September 30, 2023					
Weighted-average interest rate, original discount rate *	3.75 %	5.15 %	4.14 %	3.97 %	4.87 %
Weighted-average interest rate, current discount rate *	5.92 %	5.90 %	5.92 %	5.87 %	5.94 %

* Weighted-average interest rates for Life Insurance include balances that have been reclassified to Liabilities held-for-sale.

The weighted average interest rates are calculated using projected future net liability cash flows that are aggregated to the segment level, and are represented as an annual rate.

Actuarial Assumption Updates for Liability for Future Policy Benefits

In 2024, Corebridge recognized a favorable impact to net income primarily due to model refinements offset by lapse and mortality assumption updates in Life Insurance. In 2023, Corebridge recognized an unfavorable impact to net income due to other refinements on Life products offset in part by mortality assumption updates.

Additional Liabilities: For universal-life type products, insurance benefits in excess of the account balance are generally recognized as expenses in the period incurred unless the design of the product is such that future charges are insufficient to cover the benefits, in which case an “additional liability” is accrued over the life of the contract. These additional liabilities are included in Future policy benefits for life and accident and health insurance contracts in the Condensed Consolidated Balance Sheets.

Our additional liabilities include universal life policies with secondary guarantees and these additional liabilities are recognized in addition to the Policyholder account balances. For universal life policies with secondary guarantees, as well as other universal life policies for which profits followed by losses are expected at contract inception, a liability is recognized based on a benefit ratio of (a) the present value of total expected payments, in excess of the account value, over the life of the contract, divided by (b) the present value of total expected assessments over the life of the contract. For universal life policies without secondary guarantees, for which profits followed by losses are first expected after contract inception, we establish a liability, in addition to policyholder account balances, so that expected future losses are recognized in proportion to the emergence of profits in the earlier (profitable) years. Universal life account balances are reported within Policyholder contract deposits, while these additional liabilities are reported within the liability for future policy benefits in the Condensed Consolidated Balance Sheets. These additional liabilities are also adjusted to reflect the effect of unrealized gains or losses on fixed maturity securities available-for-sale on accumulated assessments, with related changes recognized through OCI. The policyholder behavior assumptions for these liabilities include mortality, lapses and premium persistency. The capital market assumptions used for the liability for universal life policies include discount rates and net earned rates.

The following table presents the balances and changes in the liability for universal life policies:

(in millions, except duration of liability)	Nine Months Ended September 30,					
	2024			2023		
	Life Insurance	Corporate and Other	Total	Life Insurance	Corporate and Other	Total

Weighted average duration of liability*	24.0	9.0		25.4	9.3	

* The weighted average duration of liabilities is calculated as the modified duration using projected future net liability cashflows that are aggregated at the segment level, utilizing the segment level weighted average interest rates, which can be found in the table below.

The following table presents the amount of revenue and interest recognized in the Condensed Consolidated Statements of Income (Loss) for the liability for universal life policies:

(in millions)	Gross Assessments		Interest Accretion	
	Nine Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Life Insurance	\$ 741	\$ 855	\$ 119	\$ 95
Corporate and Other	29	31	2	2
Total	\$ 770	\$ 886	\$ 121	\$ 97

The following table presents the calculation of weighted average interest rate for the liability for universal life policies:

September 30,	2024		2023	
	Life Insurance	Corporate and Other	Life Insurance	Corporate and Other
Weighted-average interest rate	4.13 %	4.20 %	3.94 %	4.20 %

The weighted average interest rates are calculated using projected future net liability cash flows that are aggregated to the segment level, and are represented as an annual rate.

The following table presents details concerning our universal life policies:

(in millions, except for attained age of contract holders)	Nine Months Ended September 30,	
	2024	2023
Account value	\$ 3,912	\$ 3,654
Net amount at risk	\$ 74,889	\$ 71,497
Average attained age of contract holders	53	53

Actuarial Assumption Updates for Liability for universal life policies

In 2024, Corebridge recognized an unfavorable impact to net income due to lapse and mortality updates for universal life policies, offset by yield and spread updates. In 2023, Corebridge recognized a favorable impact to net income due to updates to the portfolio yield assumption and refinements to the modeling for universal life policies, partially offset by updated premium assumptions.

13. Policyholder Contract Deposits and Other Policyholder Funds

POLICYHOLDER CONTRACT DEPOSITS

The liability for Policyholder contract deposits is primarily recorded at accumulated value (deposits received and net transfers from separate accounts, plus accrued interest credited, less withdrawals and assessed fees). Deposits collected on investment-oriented products are not reflected as revenues. They are recorded directly to Policyholder contract deposits upon receipt. Amounts assessed against the contract holders for mortality, administrative, and other services are included as Policy fees in revenues.

In addition to liabilities for universal life, fixed annuities, fixed options within variable annuities, annuities without life contingencies, funding agreements and GICs, policyholder contract deposits also include our liability for (i) index features accounted for as embedded derivatives at fair value, (ii) annuities issued in a structured settlement arrangement with no life contingency and (iii) certain contracts we have elected to account for at fair value. Changes in the fair value of the embedded derivatives related to policy index features and the fair value of derivatives hedging these liabilities are recognized in realized gains and losses.

For additional information on index credits accounted for as embedded derivatives, see Note 4.

Under a funding agreement-backed notes issuance program, an unaffiliated, non-consolidated statutory trust issues medium-term notes to investors, which are secured by funding agreements issued to the trust by one of our subsidiaries through our Institutional Markets business.

The following table presents the balances and changes in Policyholder contract deposits account balances^(a):

<i>(in millions, except for average crediting rate)</i>	Individual Retirement	Group Retirement	Life Insurance	Institutional Markets	Corporate and other	Total

Policyholder contract deposits	\$ 90,256	\$ 41,586	\$ 10,201	\$ 14,423	\$ 3,392	\$ 159,858
Weighted average crediting rate	2.65 %	2.88 %	4.37 %	3.66 %	4.99 %	
Cash surrender value^(c)	\$ 85,644	\$ 40,928	\$ 9,008	\$ 2,577	\$ 1,732	\$ 139,889

(a) Transactions between the general account and the separate account are presented in this table on a gross basis (e.g., a policyholder's funds are initially deposited into the general account and then simultaneously transferred to the separate account), and thus, did not impact the ending balance of policyholder contract deposits.

(b) Reconciling items principally relate to MRBs that are bifurcated and reported separately, net of embedded derivatives that are recorded in policyholder contract deposits.

(c) Cash surrender value is related to the portion of policyholder contract deposits that have a defined cash surrender value (e.g. GICs do not have a cash surrender value).

For information related to net amount at risk, refer to the table that presents the balances of and changes in MRBs in Note 14.

The following table presents Policyholder contract deposits account balance by range of guaranteed minimum crediting rates and the related range of difference, in basis points, between rates being credited to policyholders and the respective guaranteed minimums:

* Excludes policyholder contract deposits account balances that are not subject to guaranteed minimum crediting rates.

OTHER POLICYHOLDER FUNDS

Other policyholder funds include unearned revenue reserve ("URR"), consisting of front-end loads on investment-oriented contracts, representing those policy loads that are non-level and typically higher in initial policy years than in later policy years. Amortization of URR is recorded in Policy fees.

URR for investment-oriented contracts are generally deferred and amortized into income using the same assumptions and factors used to amortize DAC (i.e., on a constant level basis).

The following table presents a rollforward of the unearned revenue reserve for the nine months ended September 30, 2024 and 2023:

(in millions)	Life Insurance		Institutional Markets		Corporate and Other		Total
Nine Months Ended September 30, 2024							
Balance, beginning of year	\$	1,770	\$	1	\$	94	\$ 1,865
Revenue deferred		120		—		—	120
Amortization		(83)		—		(7)	(90)
Balance, end of period	\$	1,807	\$	1	\$	87	\$ 1,895
Other reconciling items*							957
Other policyholder funds						\$	2,852
Nine Months Ended September 30, 2023							
Balance, beginning of year	\$	1,727	\$	2	\$	105	\$ 1,834
Revenue deferred		114		—		—	114
Amortization		(83)		(1)		(8)	(92)
Balance, end of period	\$	1,758	\$	1	\$	97	\$ 1,856
Other reconciling items*							994
Other policyholder funds						\$	2,850

* Other reconciling items include policyholders' dividend accumulations, provisions for future dividends to participating policyholders, dividends to policyholders and any similar items.

14. Market Risk Benefits

MRBs are defined as contracts or contract features that both provide protection to the contract holder from other-than-nominal capital market risk and expose Corebridge to other-than nominal capital market risk. The MRB represents an amount that a policyholder receives in addition to the account balance upon the occurrence of a specific event or circumstance, such as death, annuitization, or periodic withdrawal that involves protection from other-than-nominal capital market risk. Certain contract features, such as GMWBs, GMDBs and guaranteed minimum income benefits ("GMIBs") commonly found in variable, fixed index and fixed annuities, are MRBs. MRBs are assessed at contract inception using a non-option method involving attributed fees that results in an initial fair value of zero or an option method that results in a fair value greater than zero.

MRBs are recorded at fair value, and Corebridge applies a non-option attributed fee valuation method for variable annuity products, and an option-based valuation method (host offset) for both fixed index and fixed products.

Changes in the fair value of Market Risk Benefits, net represents changes in the fair value of market risk benefit liabilities and assets (with the exception of our own credit risk changes), and includes attributed rider fees and benefits, net of changes in the fair value of derivative instruments and fixed maturity securities that are used to economically hedge market risk from the variable annuity GMWB riders.

The following table presents the balances of and changes in MRBs:

	Individual		Group		
(in millions, except for attained age of contract holders)	Retirement		Retirement		Total
Nine Months Ended September 30, 2024					
Balance, beginning of year	\$	4,562	\$	308	\$ 4,870

GMDB only	\$	1,200	\$	257	\$ 1,457
GMWB only	\$	24	\$	1	\$ 25
Combined*	\$	1,764	\$	28	\$ 1,792
Weighted average attained age of contract holders		70		64	

* Certain contracts contain both guaranteed GMDB and GMWB features and are modeled together for the purposes of calculating the MRB.

The following is a reconciliation of MRBs by amounts in an asset position and in a liability position to the MRBs amount in the Condensed Consolidated Balance Sheets:

(in millions)	September 30, 2024			September 30, 2023		
	Asset*	Liability*	Net	Asset*	Liability*	Net
Individual Retirement	\$ 970	\$ 5,732	\$ 4,762	\$ 814	\$ 4,139	\$ 3,325
Group Retirement	194	544	350	164	380	216
Total	\$ 1,164	\$ 6,276	\$ 5,112	\$ 978	\$ 4,519	\$ 3,541

* Cash flows and attributed fees for MRBs are determined on a policy level basis and are reported based on their asset or liability position at the balance sheet date.

For additional information related to fair value measurements of MRBs, see Note 4.

Actuarial Assumption Updates for Market Risk Benefits

For 2024, Corebridge recognized an unfavorable impact to net income due to policyholder assumptions, including mortality and partial withdrawal updates, partially offset by economic assumptions. For 2023, Corebridge recognized a favorable impact to net income due to policyholder behavior assumptions.

15. Debt

On September 12, 2024, Corebridge Parent issued and sold \$ 750 million aggregate principal amount of its 6.375 % fixed-to-fixed reset rate junior subordinated notes due 2054 ("2054 Notes"). Subject to certain redemption provisions and other terms of the 2054 Notes, the interest rate resets on September 15, 2034 and each five-year anniversary thereafter, at an annual rate equal to the five-year treasury rate as of the most recent reset interest determination date plus 2.646 %.

Corebridge used a portion of the net proceeds of the issuance of the 2054 Notes to repay all of the \$ 250 million aggregate principal amount outstanding under Corebridge's Three-Year DDTL Facility, dated as of February 25, 2022, among Corebridge, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent. The balance of the proceeds will be used for general corporate purposes. This facility was terminated on September 12, 2024 after the final loan repayment.

16. Contingencies, Commitments and Guarantees

In the normal course of business, we enter into various contingent liabilities and commitments. Although we cannot currently quantify our ultimate liability for unresolved litigation and investigation matters, including those referred to below, it is possible that such liability could have a material adverse effect on our consolidated financial condition, consolidated results of operations or consolidated cash flows for an individual reporting period.

LEGAL CONTINGENCIES

Overview

In the normal course of business, we are subject to regulatory and government investigations and actions, and litigation and other forms of dispute resolution in a large number of proceedings pending in various domestic and foreign jurisdictions. Certain of these matters involve potentially significant risk of loss due to potential for significant jury awards and settlements, punitive damages or other penalties. Many of these matters are also highly complex and may seek recovery on behalf of a class or similarly large number of plaintiffs. It is therefore inherently difficult to predict the size or scope of potential future losses arising from these matters. In our insurance and reinsurance operations, litigation and arbitration concerning the scope of coverage under insurance and reinsurance contracts, and litigation and arbitration in which our subsidiaries defend or indemnify their insureds under insurance contracts, are generally considered in the establishment of our future policy benefits. Separate and apart from the foregoing matters involving insurance and reinsurance coverage, we and our respective officers and directors are subject to a variety of additional types of legal proceedings brought by holders of our securities, customers, employees and others, alleging, among other things, breach of contractual or fiduciary duties, bad faith, indemnification and violations of federal and state statutes and regulations. With respect to these other categories of matters not arising out of claims for insurance or reinsurance coverage, we establish reserves for loss contingencies when it is probable that a loss will be incurred, and the amount of the loss can be reasonably estimated. In many instances, we are unable to determine whether a loss is probable or to reasonably estimate the amount of such a loss and, therefore, the potential future losses arising from legal proceedings may exceed the amount of liabilities that we have recorded in our financial statements covering these matters. While such potential future charges could be material, based on information currently known to management, management does not believe, other than as may be discussed below, that any such charges are likely to have a material adverse effect on our financial position or results of operations.

Additionally, from time to time, various regulatory and governmental agencies review our transactions and practices in connection with industry-wide and other inquiries or examinations into, among other matters, the business practices of current and former operating subsidiaries. Such investigations, inquiries or examinations could develop into administrative, civil or criminal proceedings or enforcement actions, in which remedies could include fines, penalties, restitution or alterations in our business practices, and could result in additional expenses, limitations on certain business activities and reputational damage.

Yearly Renewable Term Agreements

Certain of our reinsurers have sought rate increases on certain YRT agreements. We are disputing the requested rate increases under these agreements. Certain reinsurers with whom we have disputes have initiated arbitration proceedings against us, and other reinsurers may initiate them in the future. To the extent reinsurers have sought retroactive premium increases, we have accrued our current estimate of probable loss with respect to these matters.

For additional information, see Note 7.

Moriarty Litigation

AGL continues to defend against *Moriarty v. American General Life Insurance Co.* (S.D. Cal.), a putative class action involving Sections 10113.71 and 10113.72 of the California Insurance Code, which was instituted against AGL on July 18, 2017. In general, those statutes require that for life-insurance policies issued and delivered in California: (1) the policy must contain a 60-day grace period following non-payment of premium during which the policy remains in force; (2) the insurer must provide a 30-day pre-lapse notice; and (3) the insurer must notify policy owners of the right to designate a secondary recipient for lapse notices. The plaintiff contends AGL did not comply with these requirements for a policy issued before these statutes went into effect. The plaintiff seeks damages and other relief. AGL asserts various defenses to the plaintiff's claims and to class certification. In 2022, the District Court held that a trial was necessary to determine whether AGL was liable on the plaintiff's breach of contract claim, and it denied class certification. In May 2023, the case was reassigned to a new judge. On August 14, 2023, the District Court granted the plaintiff's motion for summary judgment on the plaintiff's breach of contract claim. On September 26, 2023, the District Court decided that good cause exists to allow the plaintiff to file a third motion for class certification. At the same time, however, the District Court certified its August 14, 2023 order for interlocutory appeal to the Ninth Circuit and stayed trial court proceedings pending the outcome of AGL's appeal. The Ninth Circuit granted AGL's petition for interlocutory appeal on November 21, 2023, which remains pending. AGL filed its opening brief on April 15, 2024. Plaintiff filed its answering brief on July 22, 2024, and AGL filed its reply on September 11, 2024. On August 13, 2024, Plaintiff filed a motion with the Ninth Circuit to certify a question regarding the interpretation of the California statute – namely, whether an insured can terminate an insurance policy without having complied with the notice and grace period requirements of the California statute. AGL opposed Plaintiff's motion on August 23, 2024, arguing that there was no basis for certification and disagreeing with Plaintiff's claimed issue for review. Plaintiff's motion for certification remains pending. The Ninth Circuit has indicated that it may hold arguments in February or March 2025.

AGL is also defending other actions in California involving similar issues: *Allen v. Protective Life Insurance Co. and American General Life Insurance Co.* (E.D. Cal.) was filed in state court on September 26, 2022. After being removed to federal court, the plaintiffs filed a motion on August 11, 2023, seeking leave to amend the complaint to add class action allegations against AGL. On November 8, 2023, the District Court issued an order that plaintiffs' motion will be held in abeyance pending resolution of the class certification issues in *Moriarty*. On June 24, 2024, Protective Life and AGL filed a motion to stay the entire lawsuit (not just plaintiffs' motion for leave to amend the complaint) pending resolution of *Moriarty*. On July 8, 2024, plaintiffs filed a response in opposition to the motion to stay *Chuck v. American General Life Insurance Co.* (C.D. Cal.) was filed in state court on September 6, 2023, as a putative class action. After being removed to federal court, the plaintiffs filed an amended complaint on January 8, 2024, dropping the class action allegation against AGL and adding a sales agent as a defendant. On April 15, 2024, the District Court entered a scheduling order setting the case for trial on February 18, 2025. *Koch Family Insurance Trust v. American General Life Insurance Co.* (C.D. Cal.) was filed in state court on May 15, 2024, and removed to federal court on June 28, 2024. *Wong v. American General Life Insurance Co.* (C.D. Cal.) was filed in state court on July 31, 2024, and removed to federal court on September 4, 2024. *People of the State of California v. American General Life Insurance Co., et al.* (Cal. Superior Court, San Diego County) was filed on October 17, 2024, against AGL, Lincoln Benefit Life Co., Everlake Life Insurance Co., and Transamerica Life Insurance Co., seeking civil penalties and equitable relief under California Business & Professions Code §§ 17200 et seq. AGL had not been served as of October 24, 2024.

These cases are in the early stages, and AGL expects their progress will be influenced by future developments in *Moriarty* and cases against other insurers involving the same insurance statutes. AGL has accrued its current estimate of probable loss with respect to these litigation matters.

OTHER COMMITMENTS

In the normal course of business, we enter into commitments to invest in limited partnerships, private equity funds and hedge funds and to purchase and develop real estate in the United States and abroad. These commitments totaled \$ 3.8 billion at September 30, 2024.

GUARANTEES

Asset Dispositions

We are subject to guarantees and indemnity arrangements in connection with the completed sales of businesses. The various arrangements may be triggered by, among other things, declines in asset values; the occurrence of specified business contingencies; the realization of contingent liabilities; developments in litigation; or breaches of representations, warranties or covenants provided by us. These arrangements are typically subject to various time limitations, defined by the contract or by operation of law, such as statutes of limitations. In some cases, the maximum potential obligation is subject to contractual limitations, while in other cases such limitations are not specified or are not applicable.

We are unable to develop a reasonable estimate of the maximum potential payout under certain of these arrangements. Overall, we believe that it is unlikely we will have to make any material payments related to completed sales under these arrangements, and no material liabilities related to these arrangements have been recorded in the Condensed Consolidated Balance Sheets.

Guarantees provided by AIG

Prior to the IPO, AIG provided certain guarantees to us as described below. Pursuant to the Separation Agreement we will indemnify, defend and hold harmless AIG against or from any liability arising from or related to these guarantees.

Certain of our insurance subsidiaries benefit from General Guarantee Agreements under which American Home Assurance Company ("AHAC") or National Union Fire Insurance Company of Pittsburgh, PA ("NUFIC") has unconditionally and irrevocably guaranteed all present and future obligations arising from certain insurance policies issued by these subsidiaries (a "Guaranteed Policy" or the "Guaranteed Policies"). AHAC and NUFIC are required to perform under the agreements if one of the insurance subsidiaries fails to make payments due under a Guaranteed Policy. These General Guarantee Agreements have all been terminated as to insurance policies issued after the date of termination. AHAC and NUFIC have not been required to perform under any of the agreements but remain contingently liable for all policyholder obligations associated with the Guaranteed Policies. We did not pay any fees under these agreements for the nine months ended September 30, 2024 or 2023.

AIG Parent provides a full and unconditional guarantee of all outstanding notes and junior subordinated debentures of Corebridge Life Holdings, Inc. ("CRBGLH"). This includes:

- a guarantee (the "CRBGLH External Debt Guarantee") in connection with CRBGLH junior subordinated debentures and certain CRBGLH notes (the "CRBGLH External Debt"); and
- a guarantee in connection with a sale-leaseback transaction in 2020. Pursuant to this transaction, CRBGLH issued promissory notes to AGL with maturity dates of up to five years. These promissory notes were guaranteed by AIG Parent for the benefit of AGL. We paid no fees for these guarantees during the nine months ended September 30, 2024 or 2023. On August 1, 2023, the guarantee of these promissory notes was novated from AIG Parent to Corebridge Parent.

In addition to the Separation Agreement, we have entered into a guarantee reimbursement agreement with AIG Parent which provides that we will reimburse AIG Parent for the full amount of any payment made by or on behalf of AIG Parent pursuant to the CRBGLH External Debt Guarantee. We have also entered into a collateral agreement with AIG Parent which provides that in the event of: (i) a ratings downgrade of Corebridge Parent or CRBGLH long-term unsecured indebtedness below specified levels or (ii) the failure by CRBGLH to pay principal and interest on the External Debt when due, we must collateralize an amount equal to the sum of: (a) 100 % of the principal amount outstanding, (b) accrued and unpaid interest and (c) 100 % of the net present value of scheduled interest payments through the maturity dates of the CRBGLH External Debt.

- *For additional discussion on commitments and guarantees associated with VIEs, see Note 8.*
- *For additional disclosures about derivatives, see Note 9.*
- *For additional disclosures about related parties, see Note 20.*

17. Equity

COMMON STOCK

The following table presents a rollforward of outstanding shares:

Nine Months Ended September 30, 2024	Common Stock Issued	Treasury Stock	Common Stock Outstanding
Shares, beginning of year	648,148,737	(26,484,411)	621,664,326
Shares issued under long-term incentive compensation plans	2,041,112	1,234,028	3,275,140
Shares repurchased	—	(50,547,821)	(50,547,821)
Shares, end of period	650,189,849	(75,798,204)	574,391,645

Repurchase of Corebridge Common Stock

Shares may be repurchased from time to time in the open market, through private purchases, through forward, derivative, accelerated repurchase or automatic repurchase transactions or otherwise. Certain of our share repurchases have been and may from time to time be effected through the Securities and Exchange Act of 1934, as amended (the "Exchange Act") Rule 10b5-1 repurchase plans. On May 4, 2023, our Board of Directors authorized a \$ 1.0 billion share repurchase program. On April 30, 2024, our Board of Directors authorized an additional \$ 2.0 billion increase in the share repurchase amount under the share repurchase program. Under this program, Corebridge Parent may, from time to time, purchase up to \$ 3.0 billion of Corebridge Parent common stock but is not obligated to purchase any particular number of shares. The authorization for the share repurchase program may be terminated, increased or decreased by the Board of Directors at any time.

From October 1, 2024 to October 31, 2024, we repurchased approximately 5.5 million shares of Corebridge Parent common stock for an aggregate purchase price of approximately \$ 169 million, leaving approximately \$ 1.1 billion under the share repurchase authorizations as of October 31, 2024.

RETAINED EARNINGS

Dividends

Declaration Date	Record Date	Payment Date	Dividend Paid Per Common Share
July 30, 2024	September 16, 2024	September 30, 2024	\$ 0.23
May 2, 2024	June 14, 2024	June 28, 2024	\$ 0.23
February 14, 2024	March 15, 2024	March 29, 2024	\$ 0.23

Dividends Declared

On November 1, 2024, the Company declared a cash dividend on Corebridge Parent common stock of \$ 0.23 per share, payable on December 31, 2024 to shareholders of record at close of business on December 17, 2024.

Accumulated Other Comprehensive Income (Loss)

The following table presents the effect of the reclassification of significant items out of Accumulated other comprehensive income on the respective line items in the Condensed Consolidated Statements of Income (Loss)*:

(in millions)	Amount Reclassified from AOCI				Affected Line Item in the Condensed Consolidated Statements of Income (Loss)
	Three Months Ended September 30,		Nine Months Ended September 30,		
	2024	2023	2024	2023	
Unrealized appreciation (depreciation) of fixed maturity securities on which allowance for credit losses was taken					
Investments	\$ —	\$ —	\$ (8)	\$ (17)	Net realized gains (losses)
Total	\$ —	\$ —	\$ (8)	\$ (17)	
Unrealized appreciation (depreciation) of all other investments					
Investments	\$ (87)	\$ (8)	\$ (963)	\$ (326)	Net realized gains (losses)
Sale of business	—	—	(61)	—	Net (gain) loss on divestitures
Total	\$ (87)	\$ (8)	\$ (1,024)	\$ (326)	
Effect of changes in the discount rates used to measure traditional and limited-payment long duration insurance contracts					
Sale of business	\$ —	\$ —	\$ 246	\$ —	Net (gain) loss on divestitures
Total	\$ —	\$ —	\$ 246	\$ —	
Foreign Currency Translation Adjustments					
Sale of business	\$ —	\$ —	\$ (67)	\$ —	Net (gain) loss on divestitures
Total	\$ —	\$ —	\$ (67)	\$ —	
Total reclassifications for the period	\$ (87)	\$ (8)	\$ (853)	\$ (343)	

* The following items are not reclassified out of AOCI and included in the Condensed Consolidated Statements of Income (Loss) and thus have been excluded from the table: (a) Change in fair value of MRBs attributable to changes in our own credit risk (b) Change in the discount rates used to measure traditional and limited-payment long-duration insurance contracts and (c) Fair value of liabilities under fair value option attributable to changes in our own credit risk.

NON-REDEEMABLE NONCONTROLLING INTEREST

The activity in non-redeemable noncontrolling interest primarily relates to activities with consolidated investment entities.

The changes in non-redeemable noncontrolling interest due to divestitures and acquisitions primarily relate to the formation and funding of new consolidated investment entities. The majority of the funding for these consolidated investment entities comes from affiliated companies of Corebridge.

The changes in non-redeemable noncontrolling interest due to contributions from noncontrolling interests primarily relate to the additional capital calls related to consolidated investment entities.

The changes in non-redeemable noncontrolling interest due to distributions to noncontrolling interests primarily relate to dividends or other distributions related to consolidated investment entities.

The following table presents a rollforward of non-redeemable noncontrolling interest:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Beginning balance	\$ 816	\$ 907	\$ 869	\$ 939
Net (loss) attributable to redeemable noncontrolling interest	(3)	(32)	(78)	(46)
Other comprehensive income (loss), net of tax	9	(3)	7	7
Changes in noncontrolling interests due to divestitures and acquisitions	—	—	1	(19)
Contributions from noncontrolling interests	10	20	63	63
Distributions to noncontrolling interests	7	(1)	(24)	(54)
Other	(5)	(1)	(4)	—
Ending balance	\$ 834	\$ 890	\$ 834	\$ 890

Refer to Note 8 for additional information related to Variable Interest Entities.

18. Earnings Per Common Share

The basic earnings per common share ("EPS") computation is based on the weighted average number of common shares outstanding, adjusted to reflect all stock splits. The diluted EPS computation is based on those shares used in the basic EPS computation plus common shares that would have been outstanding assuming issuance of common shares for all dilutive potential common shares outstanding and adjusted to reflect all stock splits, using the treasury stock method.

The following table presents the computation of basic and diluted EPS for the three and nine months ended September 30, 2024 and 2023:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
<i>(in millions, except per common share data)</i>				
Numerator for EPS:				
Net income (loss)	\$ (1,187)	\$ 2,069	\$ (19)	\$ 2,367
Less: Net income (loss) attributable to noncontrolling interests	(3)	(32)	(78)	(46)
Net income (loss) attributable to Corebridge common shareholders	\$ (1,184)	\$ 2,101	\$ 59	\$ 2,413
Denominator for EPS:				
Weighted average common shares outstanding - basic	587.1	639.0	607.5	646.8
Dilutive common shares	—	2.0	1.0	1.8
Weighted average common shares outstanding - diluted	587.1	641.0	608.5	648.6
Income per common share attributable to Corebridge common shareholders				
Common stock - basic	\$ (2.02)	\$ 3.29	\$ 0.10	\$ 3.73
Common stock - diluted	\$ (2.02)	\$ 3.28	\$ 0.10	\$ 3.72

* Potential dilutive common shares include our share-based employee compensation plans. The number of common shares excluded from dilutive shares outstanding was approximately 0.2 million and 1.0 million for the three months ended September 30, 2024 and 2023, respectively, and 0.2 million and 1.0 million for the nine months ended September 30, 2024 and 2023, respectively, because the effect of including those common shares in the calculation would have been anti-dilutive.

19. Income Taxes

RECENT TAX LAW CHANGES

The Inflation Reduction Act of 2022 (H.R. 5376), (the "Inflation Reduction Act") includes a 15% corporate alternative minimum tax ("CAMT") on adjusted financial statement income for corporations with average profits over \$1 billion over a three-year period and a 1% stock buyback tax. The U.S. Treasury and Internal Revenue Service ("IRS") published proposed regulations that would address the application of CAMT on September 12, 2024. The proposed regulations are open to public comment through December 12, 2024 and certain specifics of application of the CAMT remain subject to future guidance. Our estimated CAMT liability will continue to be refined based on future guidance.

BASIS OF PRESENTATION

Prior to the IPO, Corebridge Parent and certain U.S. subsidiaries were included in the consolidated federal income tax return of AIG as well as certain state tax returns where AIG files on a combined or unitary basis. Following the IPO, AIG owned less than 80 % interest in Corebridge, resulting in tax deconsolidation of Corebridge from the AIG Consolidated Tax Group. Under the tax law, AGC and its directly owned life insurance subsidiaries (the "AGC Group") will not be permitted to join in the filing of a U.S. consolidated federal income tax return with our other subsidiaries (collectively, the "Non-Life Group") for the five-year waiting period. Instead, the AGC Group is expected to file separately as members of the AGC Group consolidated U.S. federal income tax return during the five-year waiting period. Following the five-year waiting period, the AGC Group is expected to join the U.S. consolidated federal income tax return with the Non-Life Group.

RECLASSIFICATION OF CERTAIN TAX EFFECTS FROM AOCI

We use an item-by-item approach to release the stranded or disproportionate income tax effects in AOCI related to our available-for-sale securities. Under this approach, a portion of the disproportionate tax effects is assigned to each individual security lot at the date the amount becomes lodged. When the individual securities are sold, mature or are otherwise impaired on an other-than-temporary basis, the assigned portion of the disproportionate tax effect is reclassified from AOCI to income (loss) from operations.

INTERIM TAX CALCULATION METHOD

We use the estimated annual effective tax rate method in computing our interim tax provision. Certain items, including those deemed to be unusual or infrequent or that cannot be reliably estimated, are excluded from the estimated annual effective tax rate. In these cases, the actual tax expense or benefit is reported in the same period as the related item. Certain tax effects are also not reflected in the estimated annual effective tax rate, primarily reclassification of certain tax effects from AOCI and realizability of deferred tax assets, and are recorded in the period in which the change occurs.

INTERIM TAX EXPENSE (BENEFIT)

For the three months ended September 30, 2024, the effective tax rate on loss from operations was 25.5 %. The effective tax rate on loss from operations differs from the statutory tax rate of 21 % primarily due to tax benefits associated with the release of U.S. federal and state valuation allowance, and dividends received deduction. These tax benefits were partially offset by tax charges associated with reclassifications from AOCI to income from operations related to the disposal of available-for-sale securities, state and local income taxes, and net tax adjustments related to prior year returns including interest.

For the nine months ended September 30, 2024, the effective tax rate on loss from operations was 84.4 %. The effective tax rate on loss from operations differs from the statutory tax rate of 21 % primarily due to tax benefits associated with dividends received deduction, excess tax benefits related to share based compensation payments recorded through the income statement, adjustments to deferred tax assets, renewable energy tax credits, and reclassifications from AOCI to income from operations related to the disposal of available-for-sale securities. These tax benefits were partially offset by the establishment of additional U.S. federal and foreign valuation allowance and tax charges associated with state and local income taxes.

For the three months ended September 30, 2023, the effective tax rate on income from operations was 15.9 %. The effective tax rate on income from operations differs from the statutory tax rate of 21 % primarily due to tax benefits associated with the establishment of outside basis as a result of the held-for-sale designation of Laya and AIG Life U.K., partial release of valuation allowance, dividends received deduction, tax adjustments related to prior year returns, and reclassifications from AOCI to income from operations related to the disposal of available-for-sale securities. These tax benefits were partially offset by tax charges associated with state and local income taxes.

For the nine months ended September 30, 2023, the effective tax rate on income from operations was 12.4 %. The effective tax rate on income from operations differs from the statutory tax rate of 21 % primarily due to tax benefits associated with the establishment of outside basis as a result of the held-for-sale designation of Laya and AIG Life U.K., dividends received deduction, adjustments to deferred tax assets, reclassifications from AOCI to income from operations related to the disposal of available-for-sale securities, tax adjustments related to prior year returns, partial release of valuation allowance, and excess tax benefits related to share based compensation payments recorded through the income statement. These tax benefits were partially offset by tax charges associated with state and local income taxes.

ASSESSMENT OF DEFERRED TAX ASSET VALUATION ALLOWANCE

The evaluation of the recoverability of our deferred tax asset and the need for a valuation allowance requires us to weigh all positive and negative evidence to reach a conclusion that it is more likely than not that all or some portion of the deferred tax asset will not be realized. The weight given to the evidence is commensurate with the extent to which it can be objectively verified. The more negative evidence that exists, the more positive evidence is necessary and the more difficult it is to support a conclusion that a valuation allowance is not needed.

As discussed above, under the tax law, the AGC Group will not be permitted to join in the filing of a U.S. consolidated federal income tax return with the Non-Life Group for the five-year waiting period following the IPO. Instead, the AGC Group is expected to file separately as members of the AGC consolidated U.S. federal income tax return during this period. Following the five-year waiting period, the AGC Group is expected to join U.S. consolidated federal income tax return with the Non-Life Group. Each separate U.S. federal tax filing group or separate U.S. tax filer is required to consider this five-year waiting period when assessing realization of their respective deferred tax assets including net operating loss and tax credit carryforwards.

Our separation from AIG resulted in an "ownership change" for U.S. federal income tax purposes under Section 382 of the Code. As a result of the ownership change, a limitation has been imposed upon the utilization of our U.S. net operating loss carryforwards and certain built-in losses and deductions to offset future taxable income. Our utilization is limited to approximately \$ 648 million per year. These limitation amounts accumulate for future use to the extent they are not utilized in a given year.

Recent events, changes in target interest rates by the Board of Governors of the Federal Reserve System and significant market volatility, impacted actual and projected results of our business operations as well as our views on potential effectiveness of certain prudent and feasible tax planning strategies. In order to demonstrate the predictability and sufficiency of future taxable income necessary to support the realizability of the net operating losses and foreign tax credit carryforwards, we have considered forecasts of future income for each of our businesses, including assumptions about future macroeconomic and Corebridge-specific conditions and events, and any impact these conditions and events may have on our prudent and feasible tax planning strategies.

To the extent that the valuation allowance is attributed to changes in forecast of current year taxable income, the impact is included in our estimated annualized effective tax rate. A valuation allowance related to changes in forecasts of income in future periods as well as other items not related to the current year is recorded discretely. For the three and nine months ended September 30, 2024, we recorded an increase/(decrease) in valuation allowance of \$(36) million and \$ 9 million primarily attributable to current year activity. As of September 30, 2024, the balance sheet reflects a valuation allowance of \$ 171 million related to our tax attribute carryforwards and a portion of certain other deferred tax assets that are no longer more-likely-than-not to be realized.

Estimates of future taxable income, including income generated from prudent and feasible actions and tax planning strategies, impact of settlements with taxing authorities, and any changes to interpretations and assumptions related to the impact of the Inflation Reduction Act or the Tax Act, could change in the near term, perhaps materially, which may require us to consider any potential impact to our assessment of the recoverability of the deferred tax asset. Such potential impact could be material to our consolidated financial condition or results of operations for an individual reporting period.

For the three and nine months ended September 30, 2024, recent changes in market conditions, including changes in interest rates, impacted the unrealized tax capital gains and losses in the U.S. Life insurance companies' available-for-sale securities portfolio, resulting in a deferred tax asset related to net unrealized tax capital losses. The deferred tax asset relates to the unrealized capital losses for which the carryforward period has not yet begun, and as such, when assessing its recoverability, we consider our ability and intent to hold the underlying securities to recovery. As of September 30, 2024, based on all available evidence, we concluded that a valuation allowance should be established on a portion of the deferred tax asset related to unrealized capital losses that are not more-likely-than-not to be realized. For the three and nine months ended September 30, 2024, we recorded an increase/(decrease) in valuation allowance of \$(198) million and \$ 92 million, respectively, associated with the unrealized tax capital losses in the U.S. Life insurance companies' available-for-sale securities portfolio. As of September 30, 2024, the balance sheet reflects a valuation allowance of \$ 1.1 billion associated with the unrealized tax capital losses in the U.S. Life Insurance Companies' available-for-sale securities portfolio, all of which was allocated to OCI. Additionally, as of September 30, 2024, based on all available evidence, we concluded that a valuation allowance should not be established on a portion of the deferred tax asset related to realized tax capital losses. As of September 30, 2024, we released \$ 57 million of valuation allowance associated with the realized tax capital losses from the insurance companies' available-for-sale securities portfolio.

For the nine months ended September 30, 2024, we recognized a \$ 2 million increase in deferred tax asset valuation allowance associated with certain foreign jurisdictions.

TAX EXAMINATIONS AND LITIGATION

Corebridge Parent and certain U.S. subsidiaries are included in a consolidated U.S. federal income tax return with AIG through the date of IPO (short-period tax year 2022), and income tax expense is recorded, based on applicable U.S. and foreign laws.

The AIG Consolidated Tax Group is currently under IRS examination for the tax years 2011 through 2019 and is continuing to engage in the appeals process for years 2007 through 2010.

We are periodically advised of certain IRS and other adjustments identified in AIG's consolidated tax return which are attributable to our operations. Under our tax sharing arrangement, we provide a charge or credit for the effect of the adjustments and the related interest in the period we are advised of such adjustments and interest .

20. Related Parties

RELATED PARTY TRANSACTIONS

We may enter into a significant number of transactions with related parties in the normal course of business. Parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial or operating decisions, or if a party, directly or indirectly through one or more of its intermediaries, controls, is controlled by or is under common control with an entity. Our material transactions with related parties are described below.

Related Party Transactions with AIG

We have historically entered into various transactions with AIG, some of which are continuing and are described below. In addition, on September 14, 2022, we entered into a Separation Agreement with AIG, which governs the relationship between AIG and us following the IPO, including matters related to the allocation of assets and liabilities between the parties, indemnification obligations, our corporate governance, information rights for each party and consent rights of AIG with respect to certain business activities that we may undertake. On May 16, 2024, in connection with the execution of the Purchase Agreement with AIG Parent and Nippon, the Company entered into an Amendment to the Separation Agreement, by and between the Company and AIG Parent, pursuant to which the Company and AIG Parent agreed to certain changes with respect to AIG's board designation rights and AIG's right to consent over certain actions by the Company, as set forth in the original Separation Agreement. Additionally, on June 9, 2024, AIG Parent waived its right under the Separation Agreement to include a majority of the director candidates on each slate of candidates recommended by the Corebridge Board of Directors.

For further information on the Nippon Transaction, the Separation Agreement and the amendment and waiver thereto, see Note 1.

Advisory Transactions

Certain of our investment management subsidiaries provide advisory, management, allocation, structuring, planning, oversight, administration and similar services (collectively, "Investment Services") with respect to the investment portfolios of AIG. Investment Services are provided primarily pursuant to investment management, investment advisory and similar agreements ("IMAs"), under which our subsidiaries are appointed as investment manager and are authorized to manage client investment portfolios on a fully discretionary basis, subject to agreed investment guidelines. Certain of our subsidiaries are also authorized under the IMAs to retain, oversee and direct third-party investment advisers and managers for and on behalf of these AIG clients. In some cases, Investment Services are provided through the clients' participation in private investment funds, RMBS, CLO and other pooled investment vehicles and investment products (collectively, "Funds") sponsored or managed by us.

Separately, certain of our subsidiaries provide portfolio administration and investment planning, performance evaluation and oversight services to AIG Property Casualty International, LLC ("AIGPCI"), on a non-discretionary basis, with respect to the investment portfolios of various of AIGPCI's non-U.S. subsidiaries. In some cases, these services are directly provided to AIGPCI's non-US subsidiaries. We offer our Funds to AIGPCI's non-U.S. subsidiaries. Our subsidiaries earn investment management and advisory fees under the IMAs and other service agreements, as well as management fees and carried interest distributions or similar performance-based compensation under the Funds' operating agreements, the majority of which are based on, or calibrated to approximate, the costs of providing the services. With respect to a minority of the AIG client portfolios, which relate to assets backing risks that have been transferred to third parties, our subsidiaries earn market-based fees. Management and advisory fee income for these Investment Services and related services reflected in Other income on the Condensed Consolidated Statements of Income (Loss) were \$ 3 million and \$ 16 million for the three and nine months ended September 30, 2024, respectively, and \$ 8 million and \$ 28 million for the three and nine months ended September 30, 2023, respectively.

Capital Markets Agreements

Historically, we received a suite of capital markets services, including securities lending, collateral management, repurchase transactions, derivatives execution and support, and operational support services, from AIG for which we pay a fee. AIG Markets, Inc. ("AIGM") provided these services through various services agreements.

The suite of capital markets services previously provided by AIGM are now provided by our consolidated subsidiary Corebridge Markets, LLC ("CRBGM"). The majority of transactions previously outstanding with AIGM were legally transferred to CRBGM as of December 31, 2023.

In addition, in the ordinary course of business, we enter into over-the-counter derivative transactions with AIGM under standard ISDA Master Agreements. We previously had certain unsecured derivative transactions with AIG. On May 4, 2023, these previously unsecured derivative transactions became fully collateralized.

The total expenses incurred for services provided by AIGM reflected in Net investment income - excluding Fortitude Re funds withheld assets on the Condensed Consolidated Statements of Income (Loss) were \$ 0 million and \$ 0 million for the three and nine months ended September 30, 2024, respectively, and \$ 0 million and \$ 0 million for the three and nine months ended September 30, 2023, respectively. The derivative assets, net of gross assets and gross liabilities after collateral were \$ 1 million and \$ 13 million as of September 30, 2024 and December 31, 2023, respectively. The derivative liabilities, net of gross assets and gross liabilities after collateral were \$ 0 million and \$ 0 million as of September 30, 2024 and December 31, 2023, respectively. The collateral posted to AIGM was \$ 0 million and \$ 0 million as of September 30, 2024 and December 31, 2023, respectively. The collateral held by us was \$ 31 million and \$ 377 million as of September 30, 2024 and December 31, 2023, respectively.

For further details regarding derivatives, see Note 9.

General Services Agreements

Pursuant to the provisions of a Service and Expense Agreement (the "AIG Service and Expense Agreement") effective February 1, 1974, as amended, we and AIG have provided various services to each other at cost, including, but not limited to, advertising, accounting, actuarial, tax, legal, data processing, claims adjustment, employee cafeteria, office space, payroll, information technology services, capital markets services, services that support financial transactions and budgeting, risk management and compliance services, human resources services, insurance, operations and other support services.

On September 14, 2022, we entered into a Transition Services Agreement (the "TSA") with AIG regarding the continued provision of services between the Company and AIG on a transitional basis. The TSA has generally replaced the AIG Service and Expense Agreement for services provided between the parties.

Amounts due to AIG under these agreements were \$ 9 million and \$ 39 million as of September 30, 2024 and December 31, 2023, respectively. Amounts due from AIG were \$ 11 million and \$ 38 million as of September 30, 2024 and December 31, 2023, respectively. The total service expenses incurred specific to these agreements reflected in General operating expenses on the Condensed Consolidated Statements of Income (Loss) were \$ 12 million and \$ 37 million for the three and nine months ended September 30, 2024, respectively, and \$ 34 million and \$ 127 million for the three and nine months ended September 30, 2023, respectively.

Reinsurance Transactions

From time to time, AIG Life U.K. entered into various coinsurance agreements with American International Reinsurance Company, Ltd., a consolidated subsidiary of AIG ("AIRCO") as follows:

- In 2018, AIG Life U.K. ceded risks to AIRCO relating to the payment of obligations of life-contingent annuity claims in the annuitization phase of the contracts on or after June 30, 2018.
- In 2019 and 2020, AIG Life U.K. ceded risks to AIRCO relating to certain whole life policies issued prior to and subsequent to July 1, 2019, respectively.

Reinsurance assets related to these agreements were \$ 67 million as of December 31, 2023. Amounts payable to AIRCO were \$ 13 million as of December 31, 2023. Ceded premiums related to these agreements were \$ 9 million for the nine months ended September 30, 2024, and \$ 10 million and \$ 28 million for the three and nine months ended September 30, 2023, respectively. Reinsurance assets and amounts payable related to these agreements were reclassified to Assets held-for-sale and Liabilities held-for-sale, respectively at December 31, 2023.

On April 8, 2024, Corebridge completed the sale of AIG Life U.K. to Aviva and AIG Life U.K. terminated its reinsurance agreements with AIRCO.

Guarantees

Prior to the IPO, AIG provided certain guarantees to us. Pursuant to the Separation Agreement, we will indemnify, defend and hold harmless AIG against or from any liability arising from or related to such guarantees.

For further details regarding guarantees previously provided by AIG, see Note 16.

Tax Sharing Agreements

On September 14, 2022, we entered into a tax matters agreement with AIG that governs the parties' respective rights, responsibilities, and obligations with respect to taxes, including the allocation of current and historic tax liabilities (whether income or non-income consolidated or stand-alone) between us and AIG (the "Tax Matters Agreement"). The Tax Matters Agreement governs, among other things, procedural matters, such as filing of tax returns, tax elections, control and settlement of tax controversies and entitlement to tax refunds and tax attributes.

Prior to the IPO, Corebridge and SAFG Capital LLC were included in the consolidated federal income tax return of AIG as well as certain state tax returns where AIG files on a combined or unitary basis. There were no payments to AIG in connection with the tax sharing agreements for the nine months ended September 30, 2024 and 2023. Amounts payable to AIG pursuant to the tax sharing agreements were \$ 366 million and \$ 371 million as of September 30, 2024 and December 31, 2023, respectively.

Employee Compensation and Benefits

Our employees participate in certain of AIG's employee benefit programs. We had a payable of \$ 1 million and \$ 32 million as of September 30, 2024 and December 31, 2023, respectively, with respect to these programs. On September 14, 2022, we entered into an employee matters agreement with AIG (the "EMA"). The EMA allocates liabilities and responsibilities relating to employment matters, employee compensation and benefits plans and programs, and other related matters between us and AIG. The EMA generally provides that, unless otherwise specified, each party is responsible for liabilities associated with their current and former employees for purposes of compensation and benefit matters following the IPO.

Repurchase of Corebridge Common Stock

During the nine months ended September 30, 2024, we repurchased approximately 8.0 million shares of Corebridge Common Stock from AIG for an aggregate purchase price of approximately \$ 200 million.

Related Party Transactions with Blackstone Inc. ("Blackstone")

Investment Expense

We entered into a long-term asset management relationship with Blackstone to manage a portion of our investment portfolio. The investment expense incurred was \$ 64 million and \$ 175 million for the three and nine months ended September 30, 2024, respectively, and \$ 47 million and \$ 119 million for the three and nine months ended September 30, 2023, respectively.

Related Party Transactions with Variable Interest Entities

In the ordinary course of business, we enter into various arrangements with VIEs, and we consolidate the VIE if we are determined to be the primary beneficiary. In certain situations, we may have a variable interest in a VIE that is consolidated by an affiliate, and in other instances, affiliates may have variable interests in a VIE that is consolidated by us. The total debt of consolidated VIEs held by affiliates was \$ 22 million and \$ 102 million as of September 30, 2024 and December 31, 2023, respectively. The interest expense incurred on the debt reflected in Interest expense on the Condensed Consolidated Statements of Income (Loss) were \$ 1 million and \$ 3 million for the three and nine months ended September 30, 2024, respectively, and \$ 0 million and \$ 8 million for the three and nine months ended September 30, 2023, respectively.

The noncontrolling interest included in the Condensed Consolidated Balance Sheets related to the VIEs held by affiliates was \$ 478 million and \$ 518 million as of September 30, 2024 and December 31, 2023, respectively. The gain/(loss) attributable to noncontrolling interest of consolidated VIEs held by affiliates were \$(7) million and \$(46) million for the three and nine months ended September 30, 2024, respectively, and \$(17) million and \$(6) million for the three and nine months ended September 30, 2023, respectively.

In addition to transactions with VIEs, Corebridge has entered into other structured financing arrangements supporting real estate properties and other types of assets with other AIG affiliates. These financing arrangements are reported in Other invested assets in the Condensed Consolidated Balance Sheets. Certain of these and the VIE structures above also include commitments for funding from AIG affiliates of \$ 0.6 billion and \$ 0.6 billion at September 30, 2024 and December 31, 2023, respectively.

For additional information related to VIEs and other investments, see Notes 5 and 8.

Item 2 | Management's Discussion and Analysis of Financial Condition and Results of Operations

Glossary and Acronyms of Selected Insurance Terms and References

Throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A"), we use certain terms and abbreviations, which are summarized in the Glossary and Acronyms.

Corebridge has incorporated into this discussion a number of cross-references to additional information included throughout this Quarterly Report to assist readers seeking additional information related to a particular subject.

In this Quarterly Report, unless otherwise mentioned or unless the context indicates otherwise, we use the terms "Corebridge," "we," "us" and "our" to refer to Corebridge Financial, Inc., a Delaware corporation, and its consolidated subsidiaries. We use the term "Corebridge Parent" to refer solely to Corebridge Financial, Inc., and not to any of its consolidated subsidiaries.

This MD&A addresses the consolidated financial condition of Corebridge as of September 30, 2024, compared with December 31, 2023, and its consolidated results of operations for the three and nine months ended September 30, 2024 and 2023. In addition to historical data, this discussion contains forward-looking statements about our business operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Actual results may differ materially from those discussed in the forward-looking statements as a result of various factors. You should read the following analysis of our consolidated financial condition and results of operations in conjunction with the *"Management's Discussion and Analysis of Results of Operations and Financial Condition," the unaudited Condensed Consolidated Financial Statements and the statements under "Cautionary Statements Regarding Forward-Looking Information," included elsewhere in this Quarterly Report and the "Risk Factors" section in the 2023 Form 10-K.*

Executive Summary

OVERVIEW

We are one of the largest providers of retirement solutions and insurance products in the United States, committed to helping individuals plan, save for and achieve secure financial futures. We offer a broad set of products and services through our market leading Individual Retirement, Group Retirement, Life Insurance and Institutional Markets businesses, each of which features capabilities and industry experience we believe are difficult to replicate. These four businesses collectively seek to enhance stockholder returns while maintaining our attractive risk profile, which has historically resulted in consistent and strong cash flow generation.

REVENUES

Our revenues come from five principal sources:

- **Premiums** are principally derived from our traditional life insurance and certain annuity products including pension risk transfer ("PRT") transactions and structured settlements with life contingencies. Our premium income is driven by growth in new policies and contracts written and persistency of our in-force policies, both of which are influenced by a combination of factors including our efforts to attract and retain customers and market conditions that influence demand for our products;
- **Policy fees** are principally derived from our individual retirement, group retirement, universal life insurance, Corporate Markets and SVW products. Our policy fees typically vary directly with the underlying account value or benefit base of our annuities. Account value and benefit base are influenced by changes in economic conditions, including changes in levels of equity prices, and changes in levels of interest rates and credit spreads, as well as net flows;
- **Net investment income** from our investment portfolio varies as a result of the yield, allocation and size of our investment portfolio, which are, in turn, a function of capital market conditions and net flows into our total investments, as well as the expenses associated with managing our investment portfolio;
- **Net realized gains (losses), net** include changes in the Fortitude Re funds withheld embedded derivative, risk management related derivative activities (excluding hedges of certain MRBs), changes in the fair value of embedded derivatives in certain of our insurance products and trading activity within our investment portfolio, including trading activity related to the Fortitude Re modco arrangement. Net realized gains (losses) vary due to the timing of sales of investments as well as changes in the fair value of embedded derivatives in certain of our insurance products and derivatives utilized to hedge certain embedded derivatives; and
- **Advisory fee income and other income** includes fees from registered investment advisory services, 12b-1 fees (marketing and distribution fees paid by mutual funds), other asset management fee income and commission-based broker-dealer services.

BENEFITS AND EXPENSES

Our benefits and expenses come from six principal sources:

- **Policyholder benefits** are driven primarily by customer withdrawals and surrenders from traditional products which change in response to changes in capital market conditions and changes in policy reserves, as well as life contingent benefit payments on life and annuity contracts and updates to assumptions related to future policyholder behavior, mortality and longevity;
- **Interest credited to policyholder account balances** varies in relation to the amount of the underlying account value or benefit base and also includes changes in the fair value of certain embedded derivatives related to our insurance products and amortization of deferred sales inducement assets;
- **Amortization of deferred policy acquisition costs and value of business acquired** for all contracts except for other investment contracts is amortized, on a constant level basis over the expected term of the related contracts, using assumptions consistent with those used in estimating the related liability for future policy benefits, or any other related balances, for those corresponding contracts, as applicable. VOBA is determined at the time of acquisition and is reported with DAC. This value is based on the present value of future pre-tax profits discounted at yields applicable at the time of purchase;
- **General operating expenses** include expenses associated with conducting our business, including salaries, other employee-related compensation and other operating expenses such as professional services or travel;
- **Change in the fair value of market risk benefits, net** represents the changes in fair value of MRBs contained within certain insurance contracts (excluding the impact of changes in our own credit risk), including attributed fees, along with the changes in the fair value of derivatives that economically hedge MRBs. Changes in our own credit risk are included in OCI; and

- **Interest expense** represents the charges associated with our external debt obligations, including debt of consolidated investment entities. This expense varies based on the amount of debt on our balance sheet, as well as the rates of interest associated with those obligations. Interest expense related to consolidated investment entities principally relates to variable interest entities (“VIEs”) for which we are the primary beneficiary; however, creditors or beneficial interest holders of VIEs generally only have recourse to the assets and cash flows of the VIEs and do not have recourse to us except in limited circumstances when we have provided a guarantee to the VIE’s interest holders.

SIGNIFICANT FACTORS IMPACTING OUR RESULTS

The following significant factors have impacted, and may in the future impact, our business, results of operations, financial condition and liquidity.

Impact of Fortitude Re

In 2018, AIG established Fortitude Re, a wholly-owned subsidiary of Fortitude Group Holdings, LLC (“Fortitude Holdings”), in a series of reinsurance transactions related to certain of AIG’s legacy operations. In February 2018, AGL, VALIC and USL entered into modco agreements with Fortitude Re, a registered Class 4 and Class E reinsurer in Bermuda. Following the sale of AIG’s majority ownership interest in Fortitude Holdings, AIG contributed its remaining ownership in Fortitude Re Bermuda and its one seat on its Board of Managers to us. As of September 30, 2024, our ownership interest in Fortitude Re was 2.46%.

In the modco arrangement, the investments supporting the reinsurance agreements, which reflect the majority of the consideration that would be paid to the reinsurer for entering into the transaction, are withheld by, and therefore continue to reside on the balance sheet of, the ceding company (i.e., AGL, VALIC and USL) thereby creating an obligation for the ceding company to pay the reinsurer (i.e., Fortitude Re) at a later date. Additionally, since we maintain ownership of these investments, we reflect our existing accounting for these assets, which consist primarily of available-for-sale securities (e.g., the changes in fair value of available-for-sale securities are recognized within OCI) on our balance sheet. We have established a funds withheld payable to Fortitude Re while simultaneously establishing a reinsurance asset representing liabilities for the insurance coverage that Fortitude Re has assumed. The funds withheld payable contains an embedded derivative and changes in fair value of this derivative are recognized in Net realized gains (losses) on Fortitude Re funds withheld embedded derivative. This embedded derivative is considered a total return swap with contractual returns that are attributable to various assets, primarily available-for-sale securities, associated with these reinsurance agreements. As the majority of the invested assets supporting the modco are fixed income securities that are available-for-sale, there is a mismatch between the accounting for the embedded derivative as its changes in fair value are recorded through net income while changes in the fair value of the fixed maturity securities available-for-sale are recorded through OCI.

Our net income experiences ongoing volatility as a result of the reinsurance agreements, which, as described above, give rise to a funds withheld payable that contains an embedded derivative. However, this net income volatility is almost entirely offset with a corresponding change in OCI, which reflects the fair value change from the investment portfolio supporting the funds withheld payable, which is primarily available-for-sale securities, resulting in minimal impact to our comprehensive income (loss) and equity attributable to Corebridge. The Company has also elected the fair value option on the acquisition of certain new fixed maturity securities, helping reduce the mismatch over time.

As of September 30, 2024, \$26.3 billion of reserves had been ceded to Fortitude Re.

For additional information on our reinsurance agreements with Fortitude Re, see Note 7 to the Condensed Consolidated Financial Statements.

Impact of Variable Annuity Guaranteed Benefit Riders and Hedging

Our Individual Retirement and Group Retirement businesses offer variable annuity products with riders that provide guaranteed benefits. The liabilities are accounted for as MRBs and measured at fair value. The fair value of the MRBs may fluctuate significantly based on market interest rates, equity prices, credit spreads, market volatility, policyholder behavior and other factors.

In addition to risk-mitigating features in our variable annuity product design, we have an economic hedging program designed to manage market risk from GMWBs, including exposures to changes in interest rates, equity prices, credit spreads and volatility. The hedging program includes all in-force GMWB policies and utilizes derivative instruments, including, but not limited to, equity options, futures contracts and interest rate swap and option contracts, as well as fixed maturity securities.

For additional information regarding Corebridge’s impact of Variable Annuity Guaranteed Benefit Riders and Hedging, see “Future Policy Benefits, Policyholder Contract Deposits and Market Risk Benefits — Variable Annuity Guaranteed Benefits and Hedging Results.”

Embedded Derivatives for Fixed Index Annuity and Index Universal Life Products

Fixed index annuity contracts contain index interest credits which are accounted for as embedded derivatives and our index universal life insurance products also contain embedded derivatives. Policyholders may elect to rebalance among the various crediting strategies within the product at specified renewal dates. At the end of each index term, we generally have the opportunity to re-price the index component by establishing different participation rates or caps on index credited rates. The index crediting feature of these products results in the recognition of an embedded derivative that is required to be bifurcated from the host contract and carried at fair value with changes in the fair value of the liabilities recorded in Net realized gains (losses). Option pricing models are used to estimate fair value, taking into account assumptions for future index growth rates, volatility of the index, future interest rates and our ability to adjust the participation rate and the cap on index credited rates in light of market conditions and policyholder behavior assumptions.

The following table summarizes the fair values of the embedded derivatives for fixed index annuity and index universal life products:

(in millions)	September 30, 2024		December 31, 2023	
Fixed index annuities	\$	8,905	\$	6,953
Index universal life	\$	1,184	\$	989

Our Strategic Partnership with Blackstone

In 2021, we entered into a strategic partnership with Blackstone pursuant to which Blackstone acquired a 9.9% position in our common stock and we entered into a long-term asset management relationship with Blackstone IM. As of September 30, 2024, Blackstone managed approximately \$67.5 billion in book value of assets in our investment portfolio.

For additional information on our Strategic Partnership with Blackstone, see "Investments" below.

Our Investment Management Agreements with BlackRock

Since April 2022, we entered into investment management agreements with BlackRock and its investment advisory affiliates. As of September 30, 2024, BlackRock managed approximately \$86.3 billion in book value of assets in our investment portfolio, consisting of liquid fixed income and certain private placement assets.

For additional information on our Investment Management Agreements with BlackRock, see "Investments" below.

Fair Value Option Bond Securities

We elect the fair value option on certain bond securities. When the fair value option is elected, the realized and unrealized gains and losses on these securities are reported in net investment income.

The following table shows the net investment income reported on fair value option bond securities:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Net investment income - excluding Fortitude Re funds withheld assets	\$ 22	\$ 7	\$ 48	\$ 25
Net investment income - Fortitude Re funds withheld assets	230	(35)	379	76
Total	\$ 252	\$ (28)	\$ 427	\$ 101

Separation Costs

In connection with our separation from AIG, we have incurred and expect to continue to incur one-time and recurring expenses. As of September 30, 2024, we have incurred approximately \$519 million of one-time expenses on a pre-tax basis. These expenses primarily relate to replicating and replacing functions, systems and infrastructure provided by AIG; rebranding; and accounting advisory, consulting and actuarial fees. In addition to these separation costs, we expect to incur costs related to the evolution of our investments organization to reflect our strategic partnerships with key external managers, our implementation of BlackRock's "Aladdin" investment management technology platform and our expected reduction in fees for asset management services.

In addition, as part of Corebridge Forward, we aimed to achieve an annual run rate expense reduction of approximately \$400 million on a pre-tax basis within 24 months of the IPO. Through September 30, 2024 we have acted upon or contracted the full \$400 million of exit run rate savings on a pre-tax basis. Corebridge Forward is expected to have a cumulative cost to achieve of approximately \$300 million on a pre-tax basis. As of September 30, 2024, the cost to achieve has been approximately \$214 million.

Actuarial Assumption Changes

Most of the fixed annuities, fixed index annuities, variable annuity products and universal life insurance products we offer maintain policyholder deposits that are reported as liabilities and classified within either separate account liabilities or policyholder contract deposits. Our products and riders also impact liabilities for future policyholder benefits and unearned revenues and assets for DAC and DSI. The valuation of these assets and liabilities (other than deposits) is based on differing accounting methods depending on the product, each of which requires numerous assumptions and considerable judgment. The accounting guidance applied in the valuation of these assets and liabilities includes, but is not limited to, the following: (i) traditional life and limited pay insurance products for which actual experience is reflected in the liability and assumptions are reviewed and updated at least annually, if necessary, with the recognition and parenthetical presentation of any resulting re-measurement gain or loss in policyholder benefits (except for discount rate changes) in the income statement; (ii) certain product guarantees for which benefit liabilities are accrued over the life of the contract in proportion to actual and future expected policy assessments; (iii) certain product guarantees reported as market risk benefits or index crediting features accounted for as embedded derivatives which are carried at fair value; and (iv) unearned revenue and assets for DAC, VOBA and DSI which are amortized on a constant level basis over the expected term of the related contracts using assumptions consistent with those used in estimating the related liability for future policy benefits, or any other related balances, for those corresponding contracts, as applicable.

At least annually, typically in the third quarter, we conduct a comprehensive review of the underlying assumptions within our actuarially determined assets and liabilities. These assumptions include, but are not limited to, policyholder behavior, mortality, expenses, investment returns and policy crediting rates. Changes in assumptions can result in a significant change to the carrying value of product liabilities and assets and, consequently, the impact could be material to earnings in the period of the change.

For further details of our accounting policies and related judgments pertaining to assumption updates, see "Future Policy Benefits, Policyholder Contract Deposits and Market Risk Benefits and Update of Actuarial Assumptions and Models—Update of Actuarial Assumptions and Models", herein and "Accounting Policies and Pronouncements—Critical Accounting Estimates—Market Risk Benefits, Valuation of Embedded Derivatives for Fixed Index Annuity and Index Universal Life Products, Guaranteed Benefit Features of Variable Annuity, Fixed Annuity and Fixed Index Annuity Products, and Future Policy Benefits for Life, Accident and Health Insurance Contracts" in the 2023 Form 10-K.

COREBRIDGE'S MACROECONOMIC, INDUSTRY AND REGULATORY TRENDS

Our business is affected by industry and economic factors such as changes in interest rates and credit spreads; geopolitical tensions (including ongoing armed conflicts between Ukraine and Russia and in the Middle East); credit and equity market conditions; currency exchange rates; regulation; tax policy; competition; and general economic, market and political conditions. We continued to operate under market conditions in 2024 and 2023 characterized by factors such as higher interest rates, inflationary pressures, an uneven global economic recovery and global trade tensions. Responses by central banks and monetary authorities with respect to inflation, growth concerns and other macroeconomic factors have also affected global exchange rates and volatility.

Below is a discussion of certain industry and economic factors impacting our business:

Demographics

We expect our target market of individuals planning for retirement to continue to grow with the size of the U.S. population age 65 and over that is expected to increase by approximately 30% by 2030 from just ten years earlier. In addition, we believe that reduced employer-paid retirement benefits will drive an increasing need for our individual retirement solutions. Further, consumers in the United States continue to prefer purchasing life insurance and retirement products through an agent or advisor, which positions us favorably given our broad distribution platform and in-house advisory capabilities. We continue to seek opportunities to develop new products and adapt our existing products to the growing needs of individuals to plan, save for and achieve secure financial futures.

Equity Markets

Our financial results are impacted by the performance of equity markets, which impacts the performance of our alternative investment portfolio, fee income, MRBs and embedded derivatives. For instance, in our variable annuity separate accounts, mutual fund assets and brokerage and advisory assets, we generally earn fee income based on the account value, which fluctuates with the equity markets as a significant amount of these assets are invested in equity funds. The impact of equity market returns, both increases and decreases, is reflected in our results due to the impact on the account value and the fair values of equity-exposed securities in our investment portfolio.

Our hedging costs could also be significantly impacted by changes in the level of equity markets as rebalancing and option costs are tied to the equity market volatility. These hedging costs are partially offset by our rider fees that are tied to the level of the volatility index ("VIX"). As rebalancing and option costs increase or decrease, the rider fees will increase or decrease partially offsetting the hedging costs incurred.

For Additional information see "Risk Factors—Risks Relating to Market Conditions—We are exposed to risk from equity market declines or volatility" in the 2023 Form 10-K.

Market and other economic factors may result in increased credit impairments, downgrades and losses across single or numerous asset classes due to lower collateral values or deteriorating cash flow and profitability by borrowers could lead to higher defaults on our investment portfolio, especially in geographic, industry or investment sectors where we have higher concentrations of exposure, such as real estate related borrowings. These factors can also cause widening of credit spreads which could reduce investment asset valuations, decrease fee income and increase statutory capital requirements, as well as reduce the availability of investments that are attractive from a risk-adjusted perspective.

For additional information see “Risk Factors—Risks Relating to Market Conditions—Our business is highly dependent on economic and capital market conditions” in the 2023 Form 10-K.

Alternative investments include private equity funds which are generally reported on a one-quarter lag. Accordingly, changes in valuations driven by equity market conditions during the third quarter of 2024 may impact the private equity investments in the alternative investments portfolio in the fourth quarter of 2024.

Impact of Changes in the Interest Rate Environment

A rising interest rate environment benefits our spread income as we reinvest cash flows from existing business at higher rates and should have a positive impact on sales of spread-based products.

As of September 30, 2024, new investments continue to have higher yields than the yield on maturities and redemptions that we are experiencing in our existing portfolios. We actively manage our exposure to the interest rate environment through portfolio construction and asset-liability management, including spread management strategies for our investment-oriented products and economic hedging of interest rate risk from guarantee features in our variable annuities, but we may not be able to fully mitigate our interest rate risk by matching exposure of our assets relative to our liabilities.

Fluctuations in interest rates may result in changes to certain statutory reserve or capital requirements that are based on formulas or models that consider interest rates or prescribed interest rates, such as cash flow testing. Rising interest rates can have a mixed impact on statutory financials due to higher surrender activity, particularly for fixed annuities, offset by potentially lower reserves for other products under various statutory reserving frameworks.

Annuity Sales and Surrenders

Rising interest rates could create the potential for increased sales but could also drive higher surrenders relative to what we have already experienced. Fixed annuities have surrender charge periods, generally in the three-to-seven-year range. Fixed index annuities have surrender charge periods, generally in the five-to-ten-year range, and within our Group Retirement segment, certain of our fixed investment options are subject to other withdrawal restrictions, which may help mitigate increased early surrenders in a rising rate environment. In addition, older contracts that have higher minimum interest rates and continue to be attractive to contract holders have driven better than expected persistency in fixed annuities, although the liabilities for such contracts have continued to decrease over time in amount and as a percentage of the total annuity portfolio. We closely monitor surrenders of fixed annuities as contracts with lower minimum interest rates come out of the surrender charge period.

In October 2024, we announced the launch of Corebridge MarketLock ® Annuity, a registered index-linked annuity (“RILA”) contract.

Reinvestment and Spread Management

We actively monitor fixed income markets, including the level of interest rates, credit spreads and the shape of the yield curve. We also frequently review our interest rate assumptions and actively manage the crediting rates used for new and in-force business. Business strategies continue to evolve and we attempt to maintain profitability of the overall business in light of the interest rate environment. A rising interest rate environment results in improved yields on new investments and improves margins for our business while also making certain products, such as fixed annuities, more attractive to potential customers. However, the rising rate environment has resulted in lower values on general and separate account assets, mutual fund assets and brokerage and advisory assets that hold investments in fixed income assets.

For investment-oriented products, including universal life insurance, and variable, fixed and fixed index annuities, in each of our operating and reportable segments, our spread management strategies include disciplined pricing and product design for new business, modifying or limiting the sale of products that do not achieve targeted spreads, using asset-liability management to match assets to liabilities to the extent practicable and actively managing crediting rates to help mitigate some of the pressure on investment spreads. Renewal crediting rate management is guided by specific contract provisions designed to allow crediting rates to be reset at pre-established intervals and subject to minimum crediting rate guarantees. We expect to continue to adjust crediting rates on in-force business, as appropriate, to be responsive to changing rate environments. As interest rates rise, we may need to raise crediting rates on in-force business for competitive and other reasons, potentially offsetting a portion of the additional investment income resulting from investing in a higher interest rate environment.

Of the aggregate fixed account values of our Individual Retirement and Group Retirement annuity products, 48% and 54% were crediting at the contractual minimum guaranteed interest rate at September 30, 2024 and December 31, 2023, respectively. The percentages of fixed account values of our annuity products that are currently crediting at rates above 1% were 45% and 50% at September 30, 2024 and December 31, 2023, respectively. In the universal life insurance products in our Life Insurance business, 59% and 59% of the account values were crediting at the contractual minimum guaranteed interest rate at September 30, 2024 and December 31, 2023, respectively. These businesses continue to focus on pricing discipline and strategies to manage the minimum guaranteed interest crediting rates offered on new sales in the context of regulatory requirements and competitive positioning.

For additional information on our investment and asset-liability management strategies, see "Investments" below.

Regulatory Environment

The insurance and financial services industries are generally subject to close regulatory scrutiny and supervision. Our operations are subject to regulation by a number of different types of domestic and international regulatory authorities, including securities, derivatives and investment advisory regulators. Our insurance subsidiaries are subject to regulation and supervision by the states and jurisdictions in which they do business.

We expect that the domestic and international regulations applicable to us and our regulated entities will continue to evolve for the foreseeable future.

For example, on March 6, 2024, the SEC adopted final rules that require registrants, including Corebridge, to disclose certain climate-related information in registration statements and annual reports. The final rules require registrants to disclose, among other things: the impacts of material climate-related risks; the processes for identifying, assessing and managing such risks; information about the oversight of climate-related risks by the board of directors and management's role in managing material climate-related risks; and information about any climate-related targets or goals that are material to a registrant's business, results of operations, or financial condition. The final rules also require, if material, disclosure of registrants' Scope 1 and/or Scope 2 greenhouse gas emissions. In addition, registrants must disclose certain information in their audited financial statements, including aggregate expenditures expensed and losses as well as capitalized costs and charges, in each case as a result of severe weather events and other natural conditions, subject to de minimis disclosure thresholds.

The final rules include a phased-in compliance period beginning in fiscal year 2025 for large accelerated filers such as Corebridge. Numerous legal challenges were filed after the rule's adoption, which lawsuits have been consolidated in the Eighth Circuit. On April 4, 2024, the SEC exercised its discretion to stay the final rules pending completion of judicial review in the U.S. Court of Appeals for the Eighth Circuit. Corebridge is evaluating the potential impacts of these new requirements. However, if these requirements are implemented following completion of judicial review, they may increase the complexity of Corebridge's periodic reporting as a U.S. public company and are expected to result in additional compliance and reporting costs.

In addition, on April 25, 2024, the Department of Labor ("DOL") published a final rule in the Federal Register updating the definition for when a person is an "investment advice fiduciary" for purposes of transactions with ERISA qualified plans, related plan participants and IRAs. The DOL also published changes with respect to existing prohibited transactions exemptions ("PTEs") relating to such advice, including PTE 84-24 and PTE 2020-02. Orders staying the rule's September 23, 2024 effective date were issued by the U.S. District Courts for the Eastern District of Texas and the Northern District of Texas on July 25, 2024 and July 26, 2024, respectively, in connection with separate lawsuits challenging the rule. On September 20, 2024, DOL filed a notice of appeal confirming its intent to appeal these two orders to the United States Court of Appeals for the Fifth Circuit. We are actively monitoring the progress of the litigation while continuing to evaluate potential impact of the DOL rule to our business.

For information regarding our regulation and supervision by different regulatory authorities in the United States and abroad, see "Business—Regulation" in the 2023 Form 10-K.

Use of Non-GAAP Financial Measures and Key Operating Metrics

NON-GAAP FINANCIAL MEASURES

Throughout this MD&A, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are “non-GAAP financial measures” under SEC rules and regulations. We believe presentation of these non-GAAP financial measures allows for a deeper understanding of the profitability drivers of our business, results of operations, financial condition and liquidity. These measures should be considered supplementary to our results of operations and financial condition that are presented in accordance with GAAP and should not be viewed as a substitute for GAAP measures. The non-GAAP financial measures we present may not be comparable to similarly named measures reported by other companies. Reconciliations of non-GAAP financial measures for future periods are not provided as we do not currently have sufficient data to accurately estimate the variables and individual adjustments for such reconciliations.

Adjusted revenues exclude Net realized gains (losses) except for gains (losses) related to the disposition of real estate investments, income from non-operating litigation settlements (included in Other income for GAAP purposes) and changes in fair value of securities used to hedge guaranteed living benefits (included in Net investment income for GAAP purposes).

The following table presents a reconciliation of Total revenues to Adjusted revenues:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
Total revenues	\$ 2,616	\$ 5,505	\$ 12,162	\$ 15,524
Fortitude Re related items:				
Net investment (income) on Fortitude Re funds withheld assets	(515)	(233)	(1,172)	(897)
Net realized (gains) losses on Fortitude Re funds withheld assets	(157)	228	100	338
Net realized (gains) losses on Fortitude Re funds withheld embedded derivatives	1,509	(1,080)	1,451	(177)
Subtotal - Fortitude Re related items	837	(1,085)	379	(736)
Other non-Fortitude Re reconciling items:				
Changes in fair value of securities used to hedge guaranteed living benefits	(13)	(14)	(44)	(41)
Other (income) loss - net	(6)	(8)	(23)	(22)
Net realized (gains) losses*	1,099	(317)	2,088	564
Subtotal - Other non-Fortitude Re reconciling items	1,080	(339)	2,021	501
Total adjustments	1,917	(1,424)	2,400	(235)
Adjusted revenues	\$ 4,533	\$ 4,081	\$ 14,562	\$ 15,289

* Represents all Net realized gains and losses except gains (losses) related to the disposition of real estate investments and earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Earned income for non-qualifying (economic) hedging or for asset replication is reclassified from Net realized gains and losses to specific APTOI line items (e.g., net investment income and interest credited to policyholder account balances) based on the economic risk being hedged.

Adjusted pre-tax operating income (“APTOI”) is derived by excluding the items set forth below from income from operations before income tax. These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and recording adjustments to APTOI that we believe to be common in our industry. We believe the adjustments to pre-tax income are useful for gaining an understanding of our overall results of operations.

APTOI excludes the impact of the following items:

FORTITUDE RE RELATED ADJUSTMENTS:

The modified coinsurance (“modco”) reinsurance agreements with Fortitude Re transfer the economics of the invested assets supporting the reinsurance agreements to Fortitude Re. Accordingly, the net investment income on Fortitude Re funds withheld assets and the net realized gains (losses) on Fortitude Re funds withheld assets are excluded from APTOI. Similarly, changes in the Fortitude Re funds withheld embedded derivative are also excluded from APTOI.

The ongoing results associated with the reinsurance agreement with Fortitude Re have been excluded from APTOI as these are not indicative of our ongoing business operations.

INVESTMENT RELATED ADJUSTMENTS:

APTOI excludes "Net realized gains (losses)", except for gains (losses) related to the disposition of real estate investments. Net realized gains (losses), except for gains (losses) related to the disposition of real estate investments, are excluded as the timing of sales on invested assets or changes in allowances depend largely on market credit cycles and can vary considerably across periods. In addition, changes in interest rates may create opportunistic scenarios to buy or sell invested assets. Our derivative results, including those used to economically hedge insurance liabilities, or those recognized as embedded derivatives at fair value, are also included in Net realized gains (losses) and are similarly excluded from APTOI except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedges or for asset replication. Earned income on such economic hedges is reclassified from Net realized gains and losses to specific APTOI line items based on the economic risk being hedged (e.g., Net investment income and Interest credited to policyholder account balances).

MARKET RISK BENEFIT ADJUSTMENTS:

Certain of our variable annuity, fixed annuity and fixed index annuity contracts contain GMWBs and/or GMDBs which are accounted for as MRBs. Changes in the fair value of these MRBs (excluding changes related to our own credit risk), including certain rider fees attributed to the MRBs, along with changes in the fair value of derivatives used to hedge MRBs are recorded through "Change in the fair value of MRBs, net" and are excluded from APTOI.

Changes in the fair value of securities used to economically hedge MRBs are excluded from APTOI.

OTHER ADJUSTMENTS:

Other adjustments represent all other adjustments that are excluded from APTOI and includes the net pre-tax operating income (losses) from noncontrolling interests related to consolidated investment entities. The excluded adjustments include, as applicable:

- restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles;
- separation costs;
- non-operating litigation reserves and settlements;
- loss (gain) on extinguishment of debt, if any;
- losses from the impairment of goodwill, if any; and
- income and loss from divested or run-off business, if any.

Adjusted after-tax operating income attributable to our common shareholders ("Adjusted After-tax Operating Income" or "AATOI") is derived by excluding the tax effected APTOI adjustments described above, as well as the following tax items from net income attributable to us:

- reclassifications of disproportionate tax effects from AOCI, changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- deferred income tax valuation allowance releases and charges.

The following tables present a reconciliation of pre-tax income (loss)/net income (loss) attributable to Corebridge to adjusted pre-tax operating income (loss)/adjusted after-tax operating income (loss) attributable to Corebridge:

Three Months Ended September 30,	2024				2023

* Includes all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Additionally, gains (losses) related to the disposition of real estate investments are also excluded from this adjustment.

Adjusted Book Value is derived by excluding AOCI, adjusted for the cumulative unrealized gains and losses related to Fortitude Re's funds withheld assets. We believe this measure is useful to investors as it eliminates the asymmetrical impact resulting from changes in fair value of our available-for-sale securities portfolio for which there is largely no offsetting impact for certain related insurance liabilities that are not recorded at fair value with changes in fair value recorded through OCI. It also eliminates asymmetrical impacts where our own credit non-performance risk is recorded through OCI. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re's funds withheld assets since these fair value movements are economically transferred to Fortitude Re.

The following table presents the reconciliation of Book value per common share to Adjusted book value per common share:

(in millions, except per common share data)	September 30, 2024		December 31, 2023	
Total Corebridge shareholders' equity (a)	\$	13,608	\$	11,766
Less: Accumulated other comprehensive income (loss)		(9,884)		(13,458)
Add: Cumulative unrealized gains and losses related to Fortitude Re funds withheld assets		(2,058)		(2,332)
Adjusted Book Value (b)	\$	21,434	\$	22,892
Total common shares outstanding (c)		574.4		621.7
Book value per common share (a/c)	\$	23.69	\$	18.93
Adjusted book value per common share (b/c)	\$	37.32	\$	36.82

Adjusted Return on Average Equity (“Adjusted ROAE”) is derived by dividing AATOI by average Adjusted Book Value and is used by management to evaluate our recurring profitability and evaluate trends in our business. We believe this measure is useful to investors as it eliminates the asymmetrical impact resulting from changes in fair value of our available-for-sale securities portfolio for which there is largely no offsetting impact for certain related insurance liabilities that are not recorded at fair value with changes in fair value recorded through OCI. It also eliminates asymmetrical impacts where our own credit non-performance risk is recorded through OCI. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re’s funds withheld assets since these fair value movements are economically transferred to Fortitude Re.

The following table presents the reconciliation of Adjusted ROAE:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions, unless otherwise noted)	2024	2023	2024	2023
Actual or annualized net income (loss) attributable to Corebridge shareholders (a)	\$ (4,736)	\$ 8,404	\$ 79	\$ 3,217
Actual or annualized adjusted after-tax operating income attributable to Corebridge shareholders (b)	3,240	2,700	2,920	2,648
Average Corebridge shareholders’ equity (c)	12,302	9,464	11,987	9,966
Less: Average AOCI	(12,196)	(17,238)	(12,997)	(16,352)
Add: Average cumulative unrealized gains and losses related to Fortitude Re funds withheld assets	(2,390)	(3,004)	(2,402)	(2,795)
Average Adjusted Book Value (d)	\$ 22,108	\$ 23,698	\$ 22,582	\$ 23,523
Return on Average Equity (a/c)	(38.5)%	88.8 %	0.7 %	32.3%
Adjusted ROAE (b/d)	14.7 %	11.4 %	12.9 %	11.3%

Premiums and deposits is a non-GAAP financial measure that includes direct and assumed premiums received and earned on traditional life insurance policies and life-contingent payout annuities, as well as deposits received on universal life insurance, investment-type annuity contracts and GICs. We believe the measure of premiums and deposits is useful in understanding customer demand for our products, evolving product trends and our sales performance period over period.

The following table presents the premiums and deposits:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
Individual Retirement				
Premiums	\$ 36	\$ 29	\$ 107	\$ 173
Deposits	5,493	3,935	17,076	12,726
Other ^(a)	(3)	(3)	(9)	(10)
Premiums and deposits	5,526	3,961	17,174	12,889
Group Retirement				
Premiums	5	6	10	16

Other adjustments	(6)	(7)	(23)	(22)
Derivative income recorded in net realized gains (losses)	72	53	210	165
Total adjustments	(462)	(201)	(1,029)	(795)
Net investment income (APTOI basis)	\$ 2,834	\$ 2,456	\$ 8,179	\$ 7,271

KEY OPERATING METRICS

Assets Under Management and Administration

Assets Under Management (“AUM”) include assets in the general and separate accounts of our subsidiaries that support liabilities and surplus related to our life and annuity insurance products.

Assets Under Administration (“AUA”) include Group Retirement mutual fund assets and other third-party assets that we sell or administer and the notional value of SVW contracts.

Assets Under Management and Administration (“AUMA”) is the cumulative amount of AUM and AUA.

The following table presents a summary of our AUMA:

(in millions)	September 30, 2024	December 31, 2023
Individual Retirement		
AUM	\$ 163,285	\$ 149,691
AUA	—	—
Total Individual Retirement AUMA	163,285	149,691
Group Retirement		
AUM	82,240	79,910
AUA	47,655	42,271
Total Group Retirement AUMA	129,895	122,181
Life Insurance		
AUM	27,972	26,691
AUA	—	—
Total Life Insurance AUMA *	27,972	26,691
Institutional Markets		
AUM	47,796	40,678
AUA	44,417	44,607
Total Institutional Markets AUMA	92,213	85,285
Total AUMA	\$ 413,365	\$ 383,848

* The December 31, 2023 AUMA excludes \$181 million, of assets that were reclassified to Assets held-for-sale in the Condensed Consolidated Balance Sheets. See Note 4 in the 2023 Form 10-K Notes to the Condensed Consolidated Financial Statements for additional information.

Fee and Spread income and Underwriting Margin

Fee income is defined as policy fees plus advisory fees plus other fee income. For our Institutional Markets segment, its SVW products generate fee income.

Spread income is defined as net investment income less interest credited to policyholder account balances, exclusive of amortization of deferred sales inducement assets. Spread income is comprised of both base spread income and variable investment income. For our Institutional Markets segment, its structured settlements, PRT and GIC products generate spread income, which includes premiums, net investment income, less interest credited and policyholder benefits and excludes the annual assumption update.

Underwriting margin for our Life Insurance segment includes premiums, policy fees, other income, net investment income, less interest credited to policyholder account balances and policyholder benefits and excludes the annual assumption update. For our Institutional Markets segment, its Corporate Markets products generate underwriting margin, which includes premiums, net investment income, policy and advisory fee income, less interest credited and policyholder benefits and excludes the annual assumption update.

Base portfolio income includes interest, dividends and foreclosed real estate income, net of investment expenses and non-qualifying (economic) hedges.

Variable investment income includes call and tender income, commercial mortgage loan prepayments, changes in market value of investments accounted for under the fair value option, interest received on defaulted investments (other than foreclosed real estate), income from alternative investments and other miscellaneous investment income, including income of certain partnership entities that are required to be consolidated. Alternative investments include private equity funds which are generally reported on a one-quarter lag.

Base spread income means base portfolio income less interest credited to policyholder account balances, excluding the amortization of deferred sales inducement assets.

Base net investment spread means base yield less cost of funds, excluding the amortization of deferred sales inducement assets.

Base yield means the returns from base portfolio income including accretion and impacts from holding cash and short-term investments.

The following table presents a summary of our spread income, fee income and underwriting margin:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023

Net Flows

Net flows for annuity products in Individual Retirement and Group Retirement represent premiums and deposits less death, surrender and other withdrawal benefits. Net flows for mutual funds represent deposits less withdrawals. For Group Retirement, client deposits into advisory and brokerage accounts less total client withdrawals from advisory and brokerage accounts are not included in net flows.

The following table presents a summary of our Net Flows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Net Income Comparison

Income (loss) before income tax expense (benefit)

We recorded a pre-tax loss of \$1.6 billion in the three months ended September 30, 2024 compared to pre-tax income of \$2.5 billion in the three months ended September 30, 2023. The change in pre-tax income was primarily due to:

- higher net realized losses of \$3.5 billion primarily driven by higher losses on the Fortitude Re balances;
- unfavorable change in the fair value of market risk benefits, net of \$1.0 billion primarily driven by the impacts of interest rates compared to the comparable period in the prior year; and
- higher interest credited to policyholder account balances of \$224 million primarily due to higher sales activity in fixed and fixed index annuities and continued growth in our GIC business.

Partially offset by:

- higher net investment income of \$639 million primarily driven by higher base portfolio income, higher variable investment income and higher income related to the Fortitude Re funds withheld assets.

Income tax expense (benefit)

For the three months ended September 30, 2024, there was an income tax benefit of \$407 million on loss from operations, resulting in an effective tax rate on loss from operations of 25.5%.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Net Income Comparison

We recorded a pre-tax loss of \$122 million in the nine months ended September 30, 2024 compared to pre-tax income of \$2.7 billion in the nine months ended September 30, 2023. The change in pre-tax income was primarily due to:

- higher net realized losses of \$2.8 billion primarily driven by higher losses on the Fortitude Re balances;
- lower premiums of \$1.8 billion primarily on new pension risk transfer business;
- unfavorable change in the fair value of market risk benefits, net of \$743 million primarily driven by the impacts of lower interest rates compared to the comparable period in the prior year; and
- higher interest credited to policyholder account balances of \$593 million primarily due to higher sales activity in fixed and fixed index annuities and continued growth in our GIC business.

Partially offset by:

- lower policyholder benefits of \$1.5 billion primarily on new pension risk transfer business;
- higher net investment income of \$1.1 billion primarily driven by higher base portfolio income partially offset by lower variable investment income; and
- higher net gain on divestitures of \$190 million primarily from the gain on the sale of AIG Life U.K.

Income tax expense (benefit)

For the nine months ended September 30, 2024, there was an income tax benefit of \$103 million on loss from operations, resulting in an effective tax rate on loss from operations of 84.4%.

Adjusted pre-tax operating income

The following table presents total Corebridge's adjusted pre-tax operating income:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Premiums	\$ 618	\$ 703	\$ 3,460	\$ 5,251
Policy fees	728	702	2,163	2,094
Net investment income	2,834	2,456	8,179	7,271
Net realized gains (losses)*	53	(5)	36	—
Advisory fee and other income	300	225	724	673
Total adjusted revenues	4,533	4,081	14,562	15,289
Policyholder benefits	1,152	1,103	5,014	6,479
Interest credited to policyholder account balances	1,348	1,131	3,803	3,211
Amortization of deferred policy acquisition costs	260	268	787	782
Non-deferrable insurance commissions	141	146	430	435
Advisory fee expenses	73	65	212	194
General operating expenses	404	459	1,281	1,442
Interest expense	127	128	386	419
Total benefits and expenses	3,505	3,300	11,913	12,962
Noncontrolling interests	3	32	78	46
Adjusted pre-tax operating income	\$ 1,031	\$ 813	\$ 2,727	\$ 2,373

* Net realized gains (losses) includes the gains (losses) related to the disposition of real estate investments.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$218 million, primarily due to:

- higher net investment income of \$378 million primarily driven by higher base portfolio income partially offset by lower variable investment income; and
- lower general operating expenses by \$55 million.

Partially offset by:

- higher interest credited to policyholder account balances of \$217 million primarily due to higher sales activity in fixed and fixed index annuities and continued growth in our GIC business.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$354 million, primarily due to:

- lower policyholder benefits of \$1.5 billion primarily on new pension risk transfer business;
- higher net investment income of \$908 million primarily driven by higher base portfolio income partially offset by lower variable investment income;
- lower general operating expenses by \$161 million; and
- lower income attributable to noncontrolling interest of \$32 million.

Partially offset by:

- lower premiums of \$1.8 billion primarily on new pension risk transfer business; and
- higher interest credited to policyholder account balances of \$592 million primarily due to higher sales activity in fixed and fixed index annuities and continued growth in our GIC business.

Business Segment Operations

Our business operations consist of five reportable segments:

- **Individual Retirement** – consists of fixed annuities, fixed index annuities and variable annuities.
- **Group Retirement** – consists of recordkeeping, plan administrative and compliance services, financial planning and advisory solutions offered in-plan, along with proprietary and limited non-proprietary annuities, advisory and brokerage products offered out-of-plan.
- **Life Insurance** – primary products in the United States include term life and universal life insurance. The International Life business issued individual and group life insurance in the United Kingdom and distributed private medical insurance in Ireland. On October 31, 2023 Corebridge completed the sale of Laya and on April 8, 2024 completed the sale of AIG Life U.K.
- **Institutional Markets** – consists of SVW products, structured settlement and PRT annuities, Corporate Markets products that include corporate- and bank-owned life insurance ("COLI-BOLI"), private placement variable universal life and private placement variable annuities products and GICs.
- **Corporate and Other** – consists primarily of:
 - corporate expenses not attributable to our other segments;
 - interest expense on financial debt;
 - results of our consolidated investment entities;
 - institutional asset management business, which includes managing assets for non-consolidated affiliates; and
 - results of our legacy insurance lines ceded to Fortitude Re.

The following tables summarize adjusted pre-tax operating income (loss) from our segments:

Adjusted pre-tax operating income	\$ 657	\$ 576	\$ 1,900	\$ 1,684

* Includes advisory fee income from registered investment services, 12b-1 fees (i.e., marketing and distribution fee income), and other asset management fee income.

Individual Retirement Sources of Earnings

The following table presents the sources of earnings of the Individual Retirement segment. We believe providing APTOI using this view is useful for gaining an understanding of our overall results of operations and the significant drivers of our earnings:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
Spread income ^(a)	\$ 729	\$ 672	\$ 2,165	\$ 1,979
Fee income	321	289	936	846
Policyholder benefits, net of premiums	15	—	17	8
Non-deferrable insurance commissions	(99)	(90)	(283)	(270)
Amortization of DAC and DSI	(165)	(164)	(492)	(466)
General operating expenses	(106)	(96)	(332)	(308)
Other ^(b)	(38)	(35)	(111)	(105)
Adjusted pre-tax operating income	\$ 657	\$ 576	\$ 1,900	\$ 1,684

(a) Spread income represents net investment income less interest credited to policyholder account balances, exclusive of amortization of DSI of \$12 million and \$14 million for the three months ended September 30, 2024 and 2023, respectively, and \$38 million and \$41 million for the nine months ended September 30, 2024 and 2023 respectively.

(b) Other represents advisory fee expenses.

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$81 million, primarily due to:

- higher spread income of \$57 million primarily driven by an increase in variable investment income of \$34 million due to higher alternative income mostly due to improved private equity returns and higher yield enhancement income, and higher base spread income of \$23 million due to improved base portfolio yields and growth in invested assets driven by higher general account sales; and
- higher fee income of \$32 million, primarily due to an increase in mortality and expense fees and other fee income due to higher average variable annuity separate account asset values driven by improved equity market returns.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$216 million, primarily due to:

- higher spread income of \$186 million primarily driven by an increase in variable investment income of \$34 million due to higher alternative income mostly due to improved private equity returns and higher yield enhancement income, higher base spread income of \$152 million due to improved base portfolio yields and growth in invested assets driven by higher general account sales; and
- higher fee income of \$90 million, primarily due to an increase in mortality and expense fees and other fee income due to higher average variable annuity separate account asset values driven by improved equity market returns, and higher surrender charge fee income due to an increase in surrenders.

Partially offset by:

- higher amortization of DAC and DSI of \$26 million due to growth in Fixed and Fixed index annuity business; and
- higher non-deferrable insurance commissions of \$13 million mostly due to continued growth in the Fixed index annuity business.

AUMA

The following table presents Individual Retirement AUMA by product:

<i>(in millions)</i>	September 30, 2024		December 31, 2023	
Fixed annuities	\$	57,936	\$	53,570
Fixed index annuities		48,263		40,661
Variable annuities:				
Variable annuities - General Account		6,932		7,715
Variable annuities - Separate Accounts		50,154		47,745
Variable annuities		57,086		55,460
Total	\$	163,285	\$	149,691

September 30, 2024 to December 31, 2023 AUMA Comparison

AUMA increased \$13.6 billion driven by an increase of \$11.2 billion in the general account and higher separate accounts asset values of \$2.4 billion. The general account increased primarily due to positive general account net flows and lower interest rates resulting in unrealized gains from fixed maturities securities. The separate account increased primarily due to increases in the equity markets, partially offset by outflows from separate accounts.

Spread and Fee Income

The following table presents Individual Retirement spread and fee income:

<i>(in millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Spread income:				
Total spread income				
Base portfolio income	\$ 1,417	\$ 1,230	\$ 4,126	\$ 3,547
Interest credited to policyholder account balances	(732)	(568)	(2,040)	(1,613)
Base spread income	685	662	2,086	1,934
Variable investment income	44	10	79	45
Total spread income*	\$ 729	\$ 672	\$ 2,165	\$ 1,979
Fee income:				
Policy fees	\$ 205	\$ 182	\$ 596	\$ 528
Advisory fees and other income	116	107	340	318
Total fee income	\$ 321	\$ 289	\$ 936	\$ 846

* Excludes amortization of DSI assets of \$12 million and \$14 million for the three months ended September 30, 2024 and 2023, respectively, and \$38 million and \$41 million for the nine months ended September 30, 2024 and 2023, respectively.

The following table presents Individual Retirement net investment spread:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Fixed annuities base net investment spread:				
Base yield*	5.52 %	5.10 %	5.44 %	4.97 %
Cost of funds	3.51	2.97	3.37	2.89
Fixed annuities base net investment spread	2.01	2.13	2.07	2.08
Fixed index annuities base net investment spread:				
Base yield*	4.99	4.91	5.00	4.72
Cost of funds	2.45	2.06	2.39	1.94
Fixed index annuities base net investment spread	2.54	2.85	2.61	2.78
Variable annuities base net investment spread:				
Base yield*	3.69	3.88	3.67	3.81
Cost of funds	1.51	1.49	1.50	1.48
Variable annuities base net investment spread	2.18	2.39	2.17	2.33
Total Individual Retirement base net investment spread:				
Base yield*	5.20	4.97	5.15	4.81
Cost of funds	2.94	2.50	2.83	2.42
Total Individual Retirement base net investment spread	2.26 %	2.47 %	2.32 %	2.39 %

* Includes returns from base portfolio including accretion and income (loss) from certain other invested assets.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison and Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

See "Financial Highlights."

Premiums and Deposits and Net Flows

For Individual Retirement, premiums primarily represent amounts received on life-contingent payout annuities, while deposits represent sales on investment-oriented products.

Net flows for annuity products in Individual Retirement represent premiums and deposits less death, surrender and other withdrawal benefits.

Premiums and Deposits (in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Fixed annuities	\$ 2,780	\$ 1,339	\$ 9,524	\$ 4,855
Fixed index annuities	2,298	2,224	6,420	6,598
Variable annuities	448	398	1,230	1,436
Total	\$ 5,526	\$ 3,961	\$ 17,174	\$ 12,889

Net Flows (in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Fixed annuities	\$ 607	\$ (1,356)	\$ 2,410	\$ (2,561)
Fixed index annuities	1,146	1,519	3,173	4,519
Variable annuities	(1,344)	(906)	(3,879)	(2,397)
Total	\$ 409	\$ (743)	\$ 1,704	\$ (439)

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison

Fixed Annuities Net inflows increased by \$2.0 billion over the prior year, primarily due to higher premiums and deposits of \$1.4 billion due to strong customer demand, lower death benefits of \$85 million and lower surrenders and withdrawals of \$437 million.

Fixed Index Annuities Net inflows decreased by \$373 million primarily due to higher surrenders and withdrawals of \$430 million and higher death benefits of \$17 million, offset by higher premiums and deposits of \$74 million.

Variable Annuities Net outflows increased \$438 million primarily due to higher surrenders and withdrawals of \$449 million and higher death benefits of \$39 million, offset by higher premium and deposits of \$50 million.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

Fixed Annuities Net inflows increased by \$5.0 billion over the prior year, primarily due to higher premiums and deposits of \$4.7 billion due to strong customer demand and lower death benefits of \$528 million, offset by higher surrenders and withdrawals of \$226 million.

Fixed Index Annuities Net inflows decreased by \$1.3 billion primarily due to higher surrenders and withdrawals of \$1.1 billion, lower premiums and deposits of \$178 million and higher death benefits of \$66 million.

Variable Annuities Net outflows increased \$1.5 billion primarily due to higher surrenders and withdrawals of \$1.2 billion, lower premium and deposits of \$206 million and higher death benefits of \$65 million.

Surrenders

The following table presents Individual Retirement surrender rates:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Fixed annuities	13.0 %	17.7 %	16.2 %	16.2 %
Fixed index annuities	9.1	6.4	8.8	6.6
Variable annuities	10.6	7.9	10.1	7.6

The following table presents account values for fixed annuities, fixed index annuities and variable annuities by surrender charge category:

	September 30, 2024			December 31, 2023		
	Fixed Annuities	Fixed Index Annuities	Variable Annuities	Fixed Annuities	Fixed Index Annuities	Variable Annuities
(in millions)						
No surrender charge	\$ 19,062	\$ 2,112	\$ 31,829	\$ 21,793	\$ 1,727	\$ 29,819
Greater than 0% - 2%	1,064	4,152	7,043	1,023	3,326	6,717
Greater than 2% - 4%	2,641	7,131	6,228	2,844	6,413	5,799
Greater than 4%	28,445	30,765	10,297	21,766	28,128	11,014
Non-surrenderable ^(a)	2,510	—	1,156	2,474	—	1,156
Total account value^(b)	\$ 53,722	\$ 44,160	\$ 56,553	\$ 49,900	\$ 39,594	\$ 54,505

(a) The non-surrenderable portion of variable annuities relates to funding agreements.

(b) Includes payout Immediate Annuities and funding agreements.

Individual Retirement annuities are typically subject to a three- to ten-year surrender charge period, depending on the product. For fixed annuities, the proportion of account value subject to surrender charge at September 30, 2024 increased compared to December 31, 2023 primarily due to growth in the business. For fixed index annuities, the proportion of account value subject to surrender charge at September 30, 2024 was slightly lower compared to December 31, 2023 due to the aging of the business. The increase in the proportion of account value with no surrender charge for variable annuities as of September 30, 2024 compared to December 31, 2023 was principally due to normal aging of the business.

Amortization of DAC and DSI		(24)	(24)	(73)	(72)
General operating expenses		(97)	(109)	(305)	(334)
Other ^(c)		(34)	(29)	(99)	(87)
Adjusted pre-tax operating income	\$	188	\$ 192	583	575

(a) Spread income represents net investment income less interest credited to policyholder account balances, exclusive of amortization of DSI of \$3 million and \$3 million for the three months ended September 30, 2024 and 2023, respectively, and \$10 million and \$10 million for the nine months ended September 30, 2024 and 2023, respectively.

(b) Fee income represents policy fee and advisory fee and other income.

(c) Other consists of advisory fee expenses.

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

APTOI decreased \$4 million, primarily due to:

- lower spread income of \$33 million due to lower base spread income of \$43 million reflecting lower yields on base portfolio and higher crediting rates, partially offset by higher variable investment income of \$10 million primarily driven by higher alternative investment income.

Partially offset by:

- higher fee income, net of advisory fee expenses of \$16 million due to higher average separate account, advisory, and mutual fund assets driven by improved equity market performance; and
- lower general operating expenses of \$12 million.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$8 million, primarily due to:

- higher fee income, net of advisory fee expenses of \$36 million due to higher average separate account, advisory, and mutual fund assets driven by improved equity market performance; and
- lower general operating expenses of \$29 million.

Partially offset by:

- lower spread income of \$68 million due to lower base spread income of \$61 million reflecting lower yields on base portfolio and higher crediting rates and a decrease in variable investment income of \$7 million primarily due to lower alternative investment income.

AUMA

The following table presents Group Retirement AUMA by product:

(in millions)	September 30, 2024		December 31, 2023	
AUMA by asset type:				
In-plan spread based	\$	24,062	\$	25,160
In-plan fee based		60,410		54,807
Total in-plan AUMA ^(a)		84,472		79,967
Out-of-plan proprietary - General Account		17,604		16,664
Out-of-plan proprietary - Separate Accounts		11,482		11,075
Total out-of-plan proprietary annuities		29,086		27,739
Advisory and brokerage assets		16,337		14,475
Total out-of-plan AUMA ^(b)		45,423		42,214
Total AUMA	\$	129,895	\$	122,181

(a) Includes \$13.7 billion of AUMA at September 30, 2024 and \$12.7 billion of AUMA at December 31, 2023 that is associated with our in-plan investment advisory service that we offer to participants at an additional fee.

(b) Includes \$13.7 billion of AUMA at September 30, 2024 and \$12.0 billion of AUMA at December 31, 2023 that is associated with our out-of-plan investment advisory service that we offer to customers at an additional fee.

September 30, 2024 to December 31, 2023 AUMA Comparison

In-plan assets increased by \$4.5 billion driven by \$5.6 billion increase in fee based assets, primarily due to higher equity markets partially offset by \$1.1 billion decrease in spread based assets due to negative net flows. Out-of-plan proprietary annuity assets increased by \$1.3 billion, primarily due to higher equity markets and lower interest rates resulting in unrealized gains from fixed maturities securities. The increase of advisory and brokerage assets of \$1.9 billion was driven by net new client deposits and higher equity markets.

Spread and Fee Income

The following table presents Group Retirement spread and fee income:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Spread income:				
Base portfolio income	\$ 451	\$ 487	\$ 1,421	\$ 1,462
Interest credited to policyholder account balances	(302)	(295)	(893)	(873)

Advisory fees and other income	88	78	254	230
Total fee income	\$ 201	\$ 180	\$ 582	\$ 534

* Spread income represents net investment income less interest credited to policyholder account balances, exclusive of amortization of DSI of \$3 million and \$3 million for the three months ended September 30, 2024 and 2023, respectively, and \$10 million and \$10 million for the nine months ended September 30, 2024 and 2023, respectively.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Base net investment spread:				
Base yield*	4.18 %	4.30 %	4.29 %	4.27 %
Cost of funds	3.00	2.78	2.95	2.74
Base net investment spread	1.18 %	1.52 %	1.34 %	1.53 %

* Includes returns from base portfolio, including accretion and income (loss) from certain other invested assets.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison and Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

See "Financial Highlights."

Premiums and Deposits and Net Flows

For Group Retirement, premiums primarily represent amounts received on life-contingent payout annuities while deposits represent sales on investment-oriented products.

Net flows for annuity products included in Group Retirement represent premiums and deposits less death, surrender and other withdrawal benefits. Net flows for mutual funds represent deposits less withdrawals. For Group Retirement, client deposits into advisory and brokerage accounts less total client withdrawals from advisory and brokerage accounts are not included in net flows. Net new assets into these products contribute to growth in AUA rather than AUM.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Premiums and Deposits and Net Flows				
<i>(in millions)</i>				
In-plan ^{(a)(b)}	\$ 1,251	\$ 1,225	\$ 3,762	\$ 3,935
Out-of-plan proprietary variable annuity	221	189	537	550
Out-of-plan proprietary fixed and index annuities	491	417	1,716	1,515
Premiums and deposits^(c)	\$ 1,963	\$ 1,831	\$ 6,015	\$ 6,000
Net Flows	\$ (1,784)	\$ (2,188)	\$ (5,549)	\$ (4,753)

(a) In-plan premium and deposits include sales of variable and fixed annuities as well as mutual funds for 403(b), 401(a), 457(b) and 401(k) plans.

(b) Includes inflows related to in-plan mutual funds of \$770 million and \$773 million for the three months ended September 30, 2024 and 2023, respectively, and \$2.4 billion and \$2.5 billion for the nine months ended September 30, 2024 and 2023, respectively.

(c) Excludes client deposits into advisory and brokerage accounts of \$761 million and \$656 million for the three months ended September 30, 2024 and 2023, respectively, and \$2.3 billion and \$1.8 billion for the nine months ended September 30, 2024 and 2023, respectively.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison

Net flows remained negative but improved by \$404 million primarily due to a decrease in surrenders and withdrawals of \$283 million, driven by a decrease in group surrenders, partially offset by an increase in in-plan annuity surrenders, and an increase in deposits of \$132 million. Net outflows were concentrated in variable annuity products with higher contractual guaranteed minimum crediting rates. Large plan acquisitions and surrenders resulted in higher net flows of \$995 million compared to the prior year. Excluding large plan acquisitions and surrenders, net outflows were concentrated in higher contractual guaranteed minimum crediting rates.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

Net flows remained negative and declined by \$796 million primarily due to an increase in surrenders and withdrawals of \$742 million, driven by an increase in in-plan annuity surrenders and an increase in death and payout benefit annuity benefits of \$69 million partially offset by an increase in deposits of \$15 million. Net outflows were concentrated in higher contractual guaranteed minimum crediting rates. Large plan acquisitions and surrenders resulted in higher net flows of \$889 million compared to the prior year. Excluding large plan acquisitions and surrenders, net outflows were concentrated in higher contractual guaranteed minimum crediting rates.

Surrenders

The following table presents Group Retirement surrender rates:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Surrender rates	12.6 %	14.5 %	13.1 %	12.9 %

The following table presents account value for Group Retirement annuities by surrender charge category:

<i>(in millions)</i>	September 30, 2024 ^(a)		December 31, 2023 ^(a)	
No surrender charge ^(b)	\$	70,901	\$	70,500
Greater than 0% - 2%		1,431		1,251
Greater than 2% - 4%		1,519		1,698
Greater than 4%		6,687		5,757
Non-surrenderable		276		490
Total account value^(c)	\$	80,814	\$	79,696

(a) Excludes mutual fund assets under administration of \$31.3 billion and \$27.8 billion at September 30, 2024 and December 31, 2023, respectively.

(b) Group Retirement amounts in this category include account value in the general account of approximately \$3.8 billion and \$4.1 billion at September 30, 2024 and December 31, 2023, respectively, which are subject to 20% annual withdrawal limitations at the participant level and account value in the general account of \$5.1 billion and \$5.3 billion at September 30, 2024 and December 31, 2023, respectively, which are subject to 20% annual withdrawal limitations at the plan level.

(c) Includes payout Immediate Annuities and funding agreements.

Group Retirement annuity deposits are typically subject to a four- to seven-year surrender charge period, depending on the product. In addition, for annuity assets held within an employer defined contribution plan, participants can only withdraw funds in certain circumstances without incurring tax penalties (for example, separation from service), regardless of surrender charges.

Life Insurance

Life Insurance Sources of Earnings

The following table presents the sources of earnings of the Life Insurance segment. We believe providing APTOI using this view is useful for gaining an understanding of our overall results of operations and the significant drivers of our earnings:

<i>(in millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Underwriting margin ^(a)	\$ 392	\$ 384	\$ 998	\$ 1,101
General operating expenses	(112)	(149)	(355)	(475)
Non-deferrable insurance commissions ^(b)	(7)	(22)	(42)	(60)
Amortization of DAC	(82)	(95)	(260)	(289)
Impact of annual actuarial assumption update excluded from Underwriting margin	(34)	19	(34)	19
Other ^(c)	(1)	(1)	(2)	(2)
Adjusted pre-tax operating income	\$ 156	\$ 136	\$ 305	\$ 294

(a) Underwriting margin represents premiums, policy fees, net investment income and other income, less policyholder benefits and interest credited to policyholder account balances.

(b) 2024 includes a \$5 million favorable impact from the of annual actuarial assumption update.

(c) Other primarily represents advisory fee expenses.

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

Reported APTOI reflects the results of AIG Life U.K. until April 2024 and Laya until October 2023.

APTOI increased \$20 million, primarily due to:

- favorable domestic underwriting margin of \$71 million, driven by reinsurance recapture impacts of \$62 million.

Partially offset by:

- unfavorable impact of \$29 million from the annual review and update of actuarial assumptions in 2024 compared to a favorable impact of \$19 million from the annual review and update of actuarial assumptions in 2023.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

Reported APTOI reflects the results of AIG Life U.K. until April 2024 and Laya until October 2023.

APTOI increased \$11 million, primarily due to:

- favorable domestic underwriting margin of \$42 million, driven by reinsurance recapture impacts and other one-time reinsurance adjustments of \$32 million; and
- lower domestic general operating expenses of \$21 million, driven by expense efficiencies.

Partially offset by:

- unfavorable impact of \$29 million from the annual review and update of actuarial assumptions in 2024 compared to a favorable impact of \$19 million from the annual review and update of actuarial assumptions in 2023.

AUMA

The following table presents Life Insurance AUMA:

<i>(in millions)</i>	September 30, 2024		December 31, 2023	
Total AUMA*	\$	27,972	\$	26,691

* The December 31, 2023 AUMA excludes \$181 million, of assets that were reclassified to Assets held-for-sale in the Condensed Consolidated Balance Sheets. See Note 4 in the 2023 Form 10-K Notes to the Condensed Consolidated Financial Statements for additional information.

September 30, 2024 to December 31, 2023 AUMA Comparison

AUMA increased \$1.3 billion in the nine months ended September 30, 2024 compared to the prior year-end due to improved investment performance.

Underwriting Margin

The following table presents Life Insurance underwriting margin:

<i>(in millions)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023

Premiums and Deposits

Premiums and Deposits for Life Insurance represent amounts received on life and health policies. Premiums generally represent amounts received on traditional life products, while deposits represent amounts received on universal life products.

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Traditional Life	\$ 469	\$ 453	\$ 1,388	\$ 1,348
Universal Life	387	393	1,168	1,175
Total U.S.	856	846	2,556	2,523
International	—	239	240	674
Premiums and deposits	\$ 856	\$ 1,085	\$ 2,796	\$ 3,197

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison

Premiums and deposits decreased \$229 million for the three months ended September 30, 2024 compared to the prior year, reflecting the sale of AIG Life U.K. on April 8, 2024. Total U.S. life premiums and deposits increased primarily due to higher Traditional Life premiums.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

Premiums and deposits decreased \$401 million for the nine months ended September 30, 2024 compared to the prior year, reflecting the sale of AIG Life U.K. on April 8, 2024. Total U.S. life premiums and deposits increased primarily due to higher Traditional Life premiums.

Other	5	—	(1)	(4)
Adjusted pre-tax operating income	\$ 154	\$ 75	\$ 362	\$ 286

(a) Represents spread income on GIC, PRT and structured settlement products.

(b) Represents fee income on SVW products.

(c) Represents underwriting margin from Corporate Markets products, including COLI-BOLI, private placement variable universal life insurance and private placement variable annuity products.

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$79 million, primarily due to:

- higher spread income of \$63 million driven by \$29 million higher base portfolio income, \$34 million higher variable investment income from private equity investments and other activity;
- higher underwriting margin of \$11 million primarily driven by a \$5 million impact from a reinsurance recapture and \$4 million higher non-SVW fee income; and
- higher other activity of \$5 million driven by \$7 million more favorable impact from the annual review and update of actuarial assumption, partially offset by higher amortization of DAC.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

APTOI increased \$76 million, primarily due to:

- higher spread income of \$58 million driven by \$75 million higher base portfolio spread income, partially offset by \$17 million lower variable investment income from private equity investments; and
- higher underwriting margin of \$12 million driven by \$8 million higher base portfolio income and a \$5 million impact from a reinsurance recapture.

AUMA

The following table presents Institutional Markets AUMA:

(in millions)	September 30, 2024	December 31, 2023
SVW (AUA)	\$ 44,417	\$ 44,607
GIC, PRT and Structured settlements (AUM)	40,203	33,579
All other (AUM)	7,593	7,099
Total AUMA	\$ 92,213	\$ 85,285

September 30, 2024 to December 31, 2023 AUMA Comparison

AUMA increased \$6.9 billion, primarily due to premiums and deposits of PRT and GIC products of \$5.9 billion, primarily PRT and GIC products and investment performance and other activity of \$4.4 billion, partially offset by benefit payments on the GIC, PRT and structured settlement products of \$2.3 billion and net outflows of \$1.1 billion from SVW products.

Spread Income, Fee Income and Underwriting Margin

The following table presents Institutional Markets spread income, fee income and underwriting margin:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023

Total underwriting margin^(b)	\$ 25	\$ 14	\$ 63	\$ 51

(a) Represents spread income from GIC, PRT and structured settlement products.

(b) Represents underwriting margin from Corporate Markets products, including COLI-BOLI, private placement variable universal life insurance and private placement variable annuity products.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison and Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

See "Financial Highlights."

Premiums and Deposits

The following table presents the Institutional Markets premiums and deposits:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023
PRT	\$ 169	\$ 137	\$ 2,063	\$ 3,550
GICs	1,000	1,921	3,391	3,344
Other*	94	198	443	435
Premiums and deposits	\$ 1,263	\$ 2,256	\$ 5,897	\$ 7,329

* Other principally consists of structured settlements and Corporate Markets products.

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 Comparison

Premiums and deposits decreased compared to the prior year period by \$1.0 billion, primarily due to lower deposits on new GICs of \$0.9 billion and \$104 million lower sales of other products, partially offset by higher premiums on new PRT business of \$32 million.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 Comparison

Premiums and deposits decreased compared to the prior year period by \$1.4 billion, primarily due to lower premiums on new PRT business of \$1.5 billion, partially offset by higher deposits on new GICs of \$47 million.

Corporate and Other

Corporate and Other primarily consists of interest expense on financial debt, parent expenses not attributable to other segments, institutional asset management business, which includes managing assets for non-consolidated affiliates, results of our consolidated investment entities, results of our legacy insurance lines ceded to Fortitude Re and intercompany eliminations.

Corporate and Other Results

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2024	2023	2024	2023

Consolidations and eliminations	2	(3)	(1)	(4)
Adjusted pre-tax operating (loss)	\$ (124)	\$ (166)	\$ (423)	\$ (466)

(a) Premiums include an expense allowance associated with Fortitude Re which is entirely offset in general operating expenses – Corporate and Other.

(b) General operating expenses – Asset management primarily represent the costs to manage the investment portfolio for affiliates that are not included in the consolidated financial statements of Corebridge.

(c) Noncontrolling interests represent the third-party or Corebridge affiliated interest in internally managed consolidated investment vehicles and are almost entirely offset within net investment income, net realized gains (losses) and interest expense.

Corporate and Other Sources of Earnings

The following table presents the sources of earnings of the Corporate and Other segment. We believe providing APTOI using this view is useful for gaining an understanding of our overall results of operations and the significant drivers of our earnings:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Corporate expenses	\$ (32)	\$ (44)	\$ (108)	\$ (139)
Interest expense on financial debt	(110)	(110)	(324)	(324)
Asset management	39	5	55	16
Consolidated investment entities	(10)	(1)	(9)	4
Other	(11)	(16)	(37)	(23)
Adjusted pre-tax operating (loss)	\$ (124)	\$ (166)	\$ (423)	\$ (466)

Financial Highlights

Three Months Ended September 30, 2024 to Three Months Ended September 30, 2023 APTOI Comparison

Adjusted pre-tax operating loss decreased \$42 million primarily due to:

- higher asset management income of \$34 million driven by higher income from legacy investments; and
- lower corporate expenses of \$12 million primarily driven by Corebridge Forward, our modernization program delivering both expense reduction and increased efficiency.

Nine Months Ended September 30, 2024 to Nine Months Ended September 30, 2023 APTOI Comparison

Adjusted pre-tax operating loss decreased \$43 million primarily due to:

- higher asset management income of \$39 million driven by higher income from legacy investments; and
- lower corporate expenses of \$31 million primarily driven by Corebridge Forward, our modernization program delivering both expense reduction and increased efficiency.

Partially offset by:

- higher losses from Other sources of earnings of \$14 million.

Investments

OVERVIEW

Our investment strategies are tailored to the specific business needs of each operating unit by targeting an asset allocation mix that supports estimated cash flows of our outstanding liabilities and provides diversification from asset class, sector, issuer and geographic perspectives. The primary objectives are generation of investment income, preservation of capital, liquidity management and growth of surplus. The majority of assets backing our insurance liabilities consist of fixed maturity securities, RMBS, CMBS, CLOs, other ABS and fixed maturity securities issued by government-sponsored entities and corporate entities. At September 30, 2024, for \$221.1 billion of invested assets supporting our insurance operating companies, approximately 45% were in corporate debt securities. Mortgage-backed securities ("MBS"), ABS and CLOs represent 34% of our fixed income securities, and 99% were investment grade. At December 31, 2023, for \$202.8 billion of invested assets supporting our insurance operating companies, approximately 47% were in corporate debt securities. MBS, ABS and CLOs represent 31% of our fixed income securities and 99% were investment grade.

See "Business - Investment Management" in the 2023 Form 10-K for further information, including current and future management of our investment portfolio."

Key Investment Strategies

Investment strategies are assessed at the segment level and involve considerations that include local and general market and economic conditions, duration and cash flow management, risk appetite and volatility constraints, rating agency and regulatory capital considerations, tax, regulatory and legal investment limitations, and, as applicable, environmental, social and governance considerations.

In 2021, we entered into a long-term asset management relationship with Blackstone IM. Blackstone IM initially managed \$50 billion of our existing investment portfolio, with that amount to increase to an aggregate of \$92.5 billion by the third quarter of 2027.

The investments underlying the original \$50 billion mandate with Blackstone IM began to run-off in 2022 and are being reinvested over time. As these assets run-off, we expect Blackstone to reinvest primarily in Blackstone-originated investments across a range of asset classes, including private and structured credit, and commercial and residential real estate securitized and whole loans. Blackstone's preferred credit and lending strategy is to seek to control all significant components of the underwriting and pricing processes with the goal of facilitating bespoke opportunities with historically strong credit protection and attractive risk-adjusted returns. Blackstone seeks to capture enhanced economics to those available in the traditional fixed income markets by going directly to the borrowers.

We believe that Blackstone's ability to originate attractive and privately sourced, fixed-income oriented assets, will be accretive to our businesses and provide us with an enhanced competitive advantage as we have been able to expand our investment capabilities, access new asset classes and improve our investment yields. We continue to manage asset allocation and portfolio-level risk management decisions with respect to any assets managed by Blackstone, ensuring that we maintain a consistent level of oversight across our entire investment portfolio considering our asset-liability matching needs, risk appetite and capital position.

As of September 30, 2024, Blackstone managed \$67.5 billion in book value of assets in our investment portfolio.

Under the investment management agreements with BlackRock and its investment advisory affiliates, as of September 30, 2024, BlackRock managed approximately \$86.3 billion in book value of assets in our investment portfolio, consisting of liquid fixed income and certain private placement assets. In addition, liquid fixed income assets associated with the Fortitude Re portfolio were separately transferred to BlackRock for management. The investment management agreements with BlackRock provide us with access to market-leading capabilities, including portfolio management, research and tactical strategies in addition to a larger pool of investment professionals. We believe BlackRock's scale and fee structure make BlackRock an excellent outsourcing partner for certain asset classes and will allow us to further optimize our investment management operating model while improving overall performance. The investment management agreements contain detailed investment guidelines and reporting requirements.

Some of our key investment strategies are as follows:

- our fundamental strategy across the portfolios is to seek investments with similar characteristics to the associated insurance liabilities to the extent practicable;
- we seek to purchase investments that offer enhanced yield through illiquidity premiums, such as private placements and commercial mortgage loans, which also add portfolio diversification. These assets typically afford credit protections through covenants, ability to customize structures that meet our insurance liability needs and deeper due diligence given information access;
- we seek investments that provide diversification from assets available in local markets. To the extent we purchase these investments, we generally hedge any currency risk using derivatives, which could provide opportunities to earn higher risk-adjusted returns compared to investments in the functional currency;
- we actively manage our assets and liabilities, counterparties and duration. Our liquidity sources are held primarily in the form of cash, short-term investments and publicly traded, investment grade rated fixed maturity securities that can be readily monetized through sales or repurchase agreements. Certain of our subsidiaries are members of the FHLBs in their respective districts, and we borrow from the FHLB utilizing its funding agreement program. Borrowings from FHLBs are used to supplement liquidity or for other uses deemed appropriate by management. This strategy allows us to both diversify our sources of liquidity and reduce the cost of maintaining sufficient liquidity;
- within the United States, investments are generally split between reserve-backing and surplus portfolios:
 - insurance liabilities are backed mainly by investment grade fixed maturity securities that meet our duration, risk-return, tax liquidity, credit quality and diversification objectives. We assess asset classes based on their fundamental underlying risk factors, including credit (public and private), commercial real estate and residential real estate, regardless of whether such investments are bonds, loans or structured products; and
 - surplus investments seek to enhance portfolio returns and are generally comprised of a mix of fixed maturity investment grade and below investment grade securities and various alternative asset classes, including private equity, real estate equity and hedge funds. Over the past few years, hedge fund investments have been reduced;
- outside of the United States, fixed maturity securities held by our insurance companies consist primarily of investment grade securities generally denominated in the currencies of the countries in which we operate; and
- we also utilize derivatives to manage our asset and liability duration as well as currency exposures.

Asset Liability Management

Our investment strategy is to invest in assets that generate net investment income to back policyholder benefit and deposit liabilities that result in stable distributable earnings and enhance portfolio value, subject to asset-liability management, capital, liquidity and regulatory constraints.

We use asset-liability management as a primary tool to monitor and manage interest rate and duration risk in our businesses. We maintain a diversified, high quality portfolio of fixed maturity securities issued by corporations, municipalities and other governmental agencies; structured securities collateralized by, among other assets, residential and commercial real estate; and commercial mortgage loans that, to the extent practicable, match the duration characteristics of the liabilities. We seek to diversify the portfolio across asset classes, sectors and issuers to mitigate idiosyncratic portfolio risks. The investment portfolio of each product line is tailored to the specific characteristics of its insurance liabilities, and as a result, duration varies between distinct portfolios. The interest rate environment has a direct impact on the asset liability management profile of the businesses, and changes in the interest rate environment may result in the need to lengthen or shorten the duration of the portfolio. In a rising rate environment, we may shorten the duration of the investment portfolio.

Fixed maturity securities of our domestic operations have an average duration of 6.5 years as of September 30, 2024.

In addition, we seek to enhance surplus portfolio returns through investments in a diversified portfolio of alternative investments. Although these alternative investments are subject to earnings fluctuations, they have historically achieved accumulative returns over time in excess of the fixed maturity portfolio returns.

Investment Portfolio

Short-term investments	4,399	3,881
Total^(d)	\$ 221,142	\$ 202,831

(a) Does not reflect allowance for credit loss on mortgage loans of \$689 million and \$623 million at September 30, 2024 and December 31, 2023, respectively.

(b) Does not reflect policy loans of \$1.4 billion and \$1.4 billion at September 30, 2024 and December 31, 2023, respectively.

(c) Private equity funds are generally reported on a one-quarter lag.

(d) Excludes approximately \$5.2 billion and \$5.9 billion of consolidated investment entities as well as \$2.0 billion and \$2.3 billion of eliminations primarily between the consolidated investment entities and the insurance operating companies at September 30, 2024 and December 31, 2023, respectively.

Credit Ratings

At September 30, 2024, nearly all our fixed maturity securities were held by our U.S. entities and 93% of these securities were rated investment grade by one or more of the principal rating agencies.

Moody's, Standard & Poor's Financial Services LLC ("S&P"), Fitch or similar foreign rating services rate a significant portion of our foreign entities' fixed maturity securities portfolio. Rating services are not available for some foreign-issued securities. Our Investments team, with oversight from credit risk management, closely reviews the credit quality of the foreign portfolio's non-rated fixed maturity securities.

NAIC Designations of Fixed Maturity Securities

The Securities Valuation Office ("SVO") of the National Association of Insurance Commissioners ("NAIC") evaluates the investments of U.S. insurers for statutory reporting purposes and assigns fixed maturity securities to one of six categories called 'NAIC Designations.' In general, NAIC Designations of '1,' highest quality, or '2,' high quality, include fixed maturity securities considered investment grade, while NAIC Designations of '3' through '6' generally include fixed maturity securities referred to as below investment grade. NAIC Designations for non-agency RMBS and CMBS are calculated using third-party modeling results provided through the NAIC. These methodologies result in an improved NAIC Designation for such securities compared to the rating typically assigned by the three major rating agencies. The following tables summarize the ratings distribution of our subsidiaries' fixed maturity security portfolio by NAIC Designation, and the distribution by composite our credit rating, which is generally based on ratings of the three major rating agencies. As of September 30, 2024 and December 31, 2023, 95% and 95%, respectively, of our fixed maturity security portfolio, excluding Fortitude Re funds withheld assets, were investment grade. The fixed maturity security portfolio of our insurance operating subsidiaries, excluding the Fortitude Re funds withheld assets, was 95% and 95% investment grade as of September 30, 2024 and December 31, 2023, respectively. The remaining below investment grade securities that are not included in consolidated investment entities relate to middle market and high yield bank loans securities.

The following tables present the fixed maturity security portfolio categorized by NAIC Designation, at fair value:

NAIC Designation Excluding Fortitude Re Funds

Fortitude Re funds withheld assets																	\$	19,416
Total fixed maturities																	\$	171,026

(a) Includes \$2 million and \$2 million of consolidated CLOs that are rated NAIC 4 and 5, respectively, as of September 30, 2024 and \$63 million and \$6 million of NAIC 4 and 5 securities, respectively, as of December 31, 2023. These are assets of consolidated investment entities and do not represent direct investment of Corebridge's insurance subsidiaries.

(b) Excludes \$93 million and \$79 million of fixed maturity securities for which no NAIC Designation is available at September 30, 2024 and December 31, 2023, respectively.

The following table presents the fixed maturity security portfolio categorized by NAIC Designation, at fair value, for our insurance operating subsidiaries excluding the Fortitude Re funds withheld assets:

(in millions)	September 30, 2024	December 31, 2023
NAIC 1	\$ 97,252	\$ 91,207
NAIC 2	59,064	53,029
NAIC 3	4,709	4,408
NAIC 4	3,168	3,147
NAIC 5 and 6	601	496
Total^{(a)(b)}	\$ 164,794	\$ 152,287

(a) Excludes approximately \$57 million and \$121 million of consolidated investment entities and \$827 million and \$732 million of eliminations primarily related to the consolidated investment entities and the insurance operating subsidiaries at September 30, 2024 and December 31, 2023, respectively.

(b) Excludes \$— million and \$13 million of fixed maturity securities for which no NAIC Designation is available at September 30, 2024 and December 31, 2023, respectively.

Composite Corebridge Credit Ratings

With respect to our fixed maturity securities, the credit ratings in the table below and in subsequent tables reflect: (i) a composite of the ratings of the three major rating agencies, or when agency ratings are not available, the rating assigned by the NAIC SVO (100% of total fixed maturity securities), or (ii) our equivalent internal ratings when these investments have not been rated by any of the major rating agencies or the NAIC. The “Non-rated” category in those tables consists of fixed maturity securities that have not been rated by any of the major rating agencies, the NAIC or us.

The following tables present the fixed maturity security portfolio categorized by composite Corebridge credit rating (as described below), at fair value:

Composite Corebridge Credit Rating Excluding Fortitude Re Funds Withheld Assets												Total Below Investment Grade

Total RMBS^{(a)(b)}	\$ 17,137		\$ 14,277	

(a) Includes \$2.6 billion and \$2.7 billion at September 30, 2024 and December 31, 2023, respectively, of certain RMBS that had experienced deterioration in credit quality since their origination but prior to Corebridge's acquisition. These securities are currently rated as investment grade under the NAIC SVO framework.

(b) The weighted average expected life was 6 years at September 30, 2024 and 7 years at December 31, 2023.

Our underwriting principles for investing in RMBS, other ABS and CLOs take into consideration the quality of the originator, the manager, the servicer, security credit ratings, underlying characteristics of the mortgages, borrower characteristics and the level of credit enhancement in the transaction.

Investments in CMBS

The following table presents our CMBS available-for-sale securities:

(in millions)	September 30, 2024		December 31, 2023

(a) Represents the number of consecutive months that fair value has been less than amortized cost or cost by any amount.

(b) Represents the percentage by which fair value is less than amortized cost or cost at September 30, 2024 and December 31, 2023.

(c) For bonds, represents amortized cost net of allowance.

(d) Item count is by CUSIP by subsidiary.

(e) Includes MTM movement relating to embedded derivatives.

The allowance for credit losses was \$11 million and \$7 million for investment grade bonds, and \$148 million and \$121 million for below investment grade bonds as of September 30, 2024 and December 31, 2023, respectively.

Change in Unrealized Gains and Losses on Investments

The change in net unrealized gains and losses on investments for the three and nine months ended September 30, 2024, was primarily attributable to a change in the fair value of fixed maturity securities. For the three and nine months ended September 30, 2024, net unrealized gains related to fixed maturity securities were \$7.0 billion and \$4.7 billion, respectively, due to a decrease in interest rates.

The change in net unrealized gains and losses on investments for the three and nine months ended September 30, 2023 was primarily attributable to a change in the fair value of fixed maturity securities. For the three months ended September 30, 2023, net unrealized losses related to fixed maturity securities were \$6.4 billion due to an increase in interest rates and a widening of credit spreads. For the nine months ended September 30, 2023, net unrealized losses were \$4.1 billion due to increase in interest rates, partially offset by a narrowing of credit spreads.

For further discussion of our investment portfolio, see Notes 4 and 5 to the Condensed Consolidated Financial Statements.

Commercial Mortgage Loans

At September 30, 2024 and December 31, 2023, we had direct commercial mortgage loan exposure of \$36.1 billion and \$34.2 billion, respectively. At September 30, 2024 and December 31, 2023, we had an allowance for credit losses of \$651 million and \$614 million, respectively.

The following tables present the commercial mortgage loan exposure by location and class of loan based on amortized cost:

(a) The debt service coverage ratio compares a property's net operating income to its debt service payments, including principal and interest. Our weighted average debt service coverage ratio was 1.9X at both periods ended September 30, 2024 and December 31, 2023. The debt service coverage ratios are updated when additional relevant information becomes available.

(b) The loan-to-value ratio compares the current unpaid principal balance of the loan to the estimated fair value of the underlying property collateralizing the loan. Our weighted average loan-to-value ratio was 60% at September 30, 2024 and 59% at December 31, 2023. The loan-to-value ratios have been updated within the last three months to reflect the current carrying values of the loans. We update the valuations of collateral properties by obtaining independent appraisals, generally at least once per year.

(c) Does not reflect allowance for credit losses.

Residential Mortgage Loans

At September 30, 2024 and December 31, 2023, we had direct residential mortgage loan exposure of \$11.1 billion and \$8.4 billion, respectively.

The following tables present credit quality performance indicators for residential mortgages by year of vintage:

September 30, 2024								
(in millions)	2024	2023	2022	2021	2020	Prior	Total

(a) Fair Isaac Corporation ("FICO") is the credit quality indicator used to evaluate consumer credit risk for residential mortgage loan borrowers and have been updated within the last twelve months. FICO scores for residential mortgage investor loans to corporate entities are those of the guarantor at time of purchase. On September 30, 2024 and December 31, 2023 residential loans direct to consumers totaled \$7.9 billion and \$6.7 billion, respectively.

(b) There are no residential mortgage loans under Fortitude Re funds withheld assets.

(c) Does not include allowance for credit losses.

For additional discussion on credit losses, see Note 5 and for additional discussion on commercial mortgage loans, see Note 6 to the Condensed Consolidated Financial Statements.

* Derivative activity related to hedging MRBs is recorded in Change in the fair value of MRBs, net. For additional disclosures about MRBs, see Note 14 to the Condensed Consolidated Financial Statements.

Higher net realized losses excluding Fortitude Re funds withheld assets in the three and nine months ended September 30, 2024 compared to same periods in the prior year were due primarily to losses on sale of securities and foreign exchange transactions in the current period compared to lower losses on sale of securities and gain on foreign exchange transactions in the same period in the prior year.

Index-linked interest credited embedded derivatives, net of related hedges, reflected losses in the three and nine months ended September 30, 2024 compared to gains and lower losses in the same period in the prior year, respectively. Fair value gains or losses in the hedging portfolio are typically not fully offset by increases or decreases in liabilities due to the non-performance or “own credit” risk adjustment used in the valuation of index-linked interest credited embedded derivatives, which are not hedged as part of our economic hedging program, and other risk margins used for valuation that cause the embedded derivatives to be less sensitive to changes in market rates than the hedge portfolio.

Net realized gains (losses) on Fortitude Re funds withheld assets primarily reflect changes in the valuation of the modified coinsurance and funds withheld assets. Increases in the valuation of these assets result in losses to Corebridge as the appreciation on the assets under those reinsurance arrangements must be transferred to Fortitude Re. Decreases in valuation of the assets result in gains to Corebridge as the depreciation on the assets under those reinsurance agreements must be transferred to Fortitude Re.

For further discussion of our investment portfolio, see Note 5 to the Condensed Consolidated Financial Statements.

Other Invested Assets

We seek to enhance returns through investment in a diversified portfolio of alternative asset classes, including private equity, real estate equity and hedge funds.

The following table presents the carrying value of our other invested assets by type:

	September 30, 2024			December 31, 2023		
	Excluding Fortitude Re Funds Withheld Assets	Fortitude Re Funds Withheld Assets	Total	Excluding Fortitude Re Funds Withheld Assets	Fortitude Re Funds Withheld Assets	Total

Investment real estate ^(b)	1,483	207	1,690	1,748	184	1,932
All other investments ^(c)	594	—	594	635	—	635
Total	\$ 7,979	\$ 2,108	\$ 10,087	\$ 8,163	\$ 2,094	\$ 10,257

(a) At September 30, 2024, included hedge funds of \$206 million and private equity funds of \$7.6 billion. At December 31, 2023, included hedge funds of \$299 million and private equity funds of \$7.4 billion.

(b) Net of accumulated depreciation of \$644 million and \$680 million as of September 30, 2024 and December 31, 2023, respectively.

(c) Includes Corebridge's ownership interest in Fortitude Re Bermuda, which is recorded using the measurement alternative for equity securities. Our investment in Fortitude Re Bermuda totaled \$156 million and \$156 million at September 30, 2024 and December 31, 2023, respectively.

Derivatives and Hedge Accounting

We use derivatives and other financial instruments as part of our financial risk management programs and as part of our investment operations. Interest rate derivatives (such as interest rate swaps) are used to manage interest rate risk associated with both embedded derivatives and MRBs contained in insurance contract liabilities and fixed maturity securities as well as other interest rate sensitive assets and liabilities. Foreign exchange derivatives (principally foreign exchange forwards and swaps) are used to economically mitigate risk associated with foreign denominated investments, net capital exposures and foreign currency transactions. Equity derivatives are used to mitigate financial risk embedded in certain insurance liabilities and economically hedge certain investments. We use credit derivatives to manage our credit exposures. The derivatives are effective economic hedges of the exposures that they are meant to offset. In addition to hedging activities, we also enter into derivative instruments with respect to investment operations, which may include, among other things, credit default swaps ("CDS") and purchases of investments with embedded derivatives, such as equity linked notes and convertible bonds.

We designated certain derivatives entered into with related parties as fair value hedges of available-for-sale investment securities held by our insurance subsidiaries. The fair value hedges include foreign currency forwards and cross-currency swaps designated as hedges of the change in fair value of foreign currency denominated available-for-sale securities attributable to changes in foreign exchange rates. We also designated certain interest rate swaps entered into with both third parties and related parties as fair value hedges of fixed rate GICs and commercial mortgage loans attributable to changes in benchmark interest rates.

Credit risk associated with derivative counterparties exists for a derivative contract when that contract has a positive fair value to us. The maximum potential exposure may increase or decrease during the life of the derivative commitments as a function of maturity and market conditions. All derivative transactions must be transacted within counterparty limits.

We utilize various credit enhancements, including guarantees, collateral, credit triggers and margin agreements, to reduce the credit risk related to outstanding financial derivative transactions. We require credit enhancements in connection with specific transactions based on, among other things, the creditworthiness of the counterparties and the transaction size and maturity. Furthermore, we enter into certain agreements that have the benefit of set-off and close-out netting provisions, such as ISDA Master Agreements. These provisions provide that, in the case of an early termination of a transaction, we can set off receivables from a counterparty against payables to the same counterparty arising out of all covered transactions. As a result, where a legally enforceable netting agreement exists, the fair value of the transaction with the counterparty represents the net sum of estimated fair values.

For additional information on embedded derivatives, see Notes 4 and 9 to the Condensed Consolidated Financial Statements.

The following table presents the notional amounts of our derivatives and the fair value of derivative assets and liabilities in the Condensed Consolidated Balance Sheets:

	September 30, 2024				December 31, 2023

Total derivatives on Condensed Consolidated Balance Sheets^(e)	\$	697	\$	209	\$	393	\$	141

(a) Fair value amounts are shown before the effects of counterparty netting adjustments and offsetting cash collateral.

(b) Consists primarily of SVWs and contracts with multiple underlying exposures.

(c) Represents netting of derivative exposures covered by a qualifying master netting agreement.

(d) Represents cash collateral posted and received that is eligible for netting.

(e) Freestanding derivatives only, excludes embedded derivatives. Derivative instrument assets and liabilities are recorded in Other assets and Other liabilities, respectively. Fair value of assets related to bifurcated embedded derivatives was zero at both September 30, 2024 and December 31, 2023. Fair value of liabilities related to bifurcated embedded derivatives was \$13.6 billion and \$10.2 billion, respectively, at September 30, 2024 and December 31, 2023. A bifurcated embedded derivative is generally presented with the host contract in the Condensed Consolidated Balance Sheets. Embedded derivatives are primarily related to guarantee features in fixed index annuities, index universal life contracts and bonds available-for-sale, which include equity and interest rate components and the funds withheld arrangement with Fortitude Re. For additional information, see Note 7 to the Condensed Consolidated Financial Statements .

For additional information, see Note 9 to the Condensed Consolidated Financial Statements.

Future Policy Benefits, Policyholder Contract Deposits and Market Risk Benefits and Update of Actuarial Assumptions and Models

VARIABLE ANNUITY GUARANTEED BENEFITS AND HEDGING RESULTS

The following section provides discussion of our variable annuity guaranteed benefits and hedging results regarding our business segments.

Variable Annuity Guaranteed Benefits and Hedging Results

Our Individual Retirement and Group Retirement businesses offer variable annuity products with riders that provide guaranteed benefits. The liabilities are accounted for as MRBs and measured at fair value. The fair value of the MRBs may fluctuate significantly based on market interest rates, equity prices, credit spreads, market volatility, policyholder behavior and other factors.

In addition to risk-mitigating features in our variable annuity product design, we have an economic hedging program designed to manage market risk from GMWBs, including exposures to changes in interest rates, equity prices, credit spreads and volatility. The hedging program includes all in-force GMWB policies and utilizes derivative instruments, including but not limited to equity options, futures contracts and interest rate swap and option contracts, as well as fixed maturity securities.

For additional discussion of market risk management related to these product features, see "Quantitative and Qualitative Disclosures about Market Risk."

Differences in Valuation of MRBs and Economic Hedge Target

Our variable annuity hedging program utilizes an economic hedge target, which represents an estimate of the underlying economic risks in our GMWB riders. The economic hedge target differs from the GAAP valuation of the MRBs, creating volatility in our net income (loss) primarily due to the following:

- the MRBs include both the GMWB riders and the GMDB riders while the hedge program is targeting the economic risks of just the GMWB rider;
- the hedge program is designed to offset moves in the GMWB economic liability and therefore has a lower sensitivity to equity market changes than the MRBs;
- the economic hedge target includes 100% of the GMWB rider fees in present value calculations;
- the GAAP valuation reflects those fees attributed to the MRBs such that the initial value at contract issue equals zero. Since the MRB includes GMWBs and GMDBs these attributed fees are typically larger than just the GMWB rider fees;
- the economic hedge target uses best estimate actuarial assumptions and excludes explicit risk margins used for GAAP valuation, such as margins for policyholder behavior, mortality and volatility; and
- the economic hedge target excludes our own credit risk changes (NPAs) used in the GAAP valuation, which are recognized in OCI. The GAAP valuation has different sensitivities to movements in interest rates and other market factors, and to changes from actuarial assumption updates, than the economic hedge target.

For additional information on our valuation methodology for MRBs, see Note 5 to the Consolidated Financial Statements in the 2023 Form 10-K.

The market value of the hedge portfolio compared to the economic hedge target at any point in time may be different and is not expected to be fully offsetting. In addition to the derivatives held in conjunction with the variable annuity hedging program, we generally have cash and invested assets available to cover future claims payable under these guarantees. The primary sources of difference between the change in the fair value of the hedging portfolio and the economic hedge target include:

- basis risk due to the variance between expected and actual fund returns, which may be either positive or negative;
- realized volatility versus implied volatility;
- actual versus expected changes in the hedge target driven by assumptions not subject to hedging, particularly policyholder behavior; and
- risk exposures that we have elected not to explicitly or fully hedge.

The following table presents a reconciliation between the fair value of the GAAP MRBs and the value of our economic hedge target:

	September 30,		December 31,	
(in millions)	2024		2023	
Reconciliation of market risk benefits and economic hedge target:				
Market risk benefits liability, net	\$	689	\$	1,340
Exclude NPA		(793)		(826)
Market risk benefits liability, excluding NPA		(104)		514
Adjustments for risk margins and differences in valuation		569		522
Economic hedge target liability	\$	465	\$	1,036

Impact on Pre-tax Income (Loss)

The impact on our pre-tax income (loss) of variable annuity guaranteed benefits and related hedging results includes changes in the fair value of MRBs and changes in the fair value of related derivative hedging instruments, and along with attributed rider fees and net of benefits associated with MRBs are together recognized in Change in the fair value of market risk benefits, net, with the exception of NPA changes, which are recognized in OCI. Changes in the fair value of market risk benefits, net are excluded from APTOI of Individual Retirement and Group Retirement.

The change in the fair value of the MRBs and the change in the value of the hedging portfolio are not expected to be fully offsetting, primarily due to the differences in valuation between the economic hedge target, the GAAP MRBs and the fair value of the hedging portfolio, as discussed above. When corporate credit spreads widen, the change in the NPA spread generally reduces the fair value of the MRBs liabilities, resulting in a gain in AOCI, and when corporate credit spreads tighten, the change in the NPA spread generally increases the fair value of the MRBs liabilities, resulting in a loss in AOCI. In addition to changes driven by credit market-related movements in the NPA spread, the NPA balance also reflects changes in business activity and in the net amount at risk from the underlying guaranteed living benefits.

Change in Economic Hedge Target

The decrease in the economic hedge target liability in the nine months ended September 30, 2024, was primarily driven by higher equity markets and the update of actuarial assumptions.

The following table presents the impact on pre-tax income (loss) and Other comprehensive income (loss) of Variable Annuity MRBs and Hedging for the Individual Retirement and Group Retirement Segments:

* MRB Liability is partially offset by MRB Assets.

Three Months Ended September 30, 2024

- Net impact on pre-tax income of \$55 million was primarily driven by the update to actuarial assumptions.

On an economic basis, the changes in the fair value of the hedge portfolio were partially offset by the changes in the economic hedge target. In the three months ended September 30, 2024, we had a net mark-to-market gain of approximately \$99 million from our hedging activities related to our economic hedge target principally driven by the update to actuarial assumptions.

Nine Months Ended September 30, 2024

- Net impact on pre-tax income of \$262 million was primarily driven by increases in equity markets.

On an economic basis, the changes in the fair value of the hedge portfolio were partially offset by the changes in the economic hedge target. In the nine months ended September 30, 2024, we had a net mark-to-market gain of approximately \$133 million from our hedging activities related to our economic hedge target principally driven by higher equity markets and the update to actuarial assumptions.

Three Months Ended September 30, 2023

- Net impact on pre-tax loss of \$8 million was primarily driven by decreases in equity markets.

On an economic basis, the changes in the fair value of the hedge portfolio were partially offset by the changes in the economic hedge target. In the three months ended September 30, 2023, we had a net mark-to-market loss of approximately \$99 million from our hedging activities related to our economic hedge target primarily driven by tightening credit spreads.

Nine Months Ended September 30, 2023

- Net impact on pre-tax income of \$195 million was primarily driven by increases in equity markets and the impact of the London Interbank Offered Rate to Secured Overnight Financing Rate ("SOFR") transition.
- With the transition of risk free rates to the SOFR curve our discounting of fees has been reduced, resulting in a one time favorable impact to the MRB liability.

On an economic basis, the changes in the fair value of the hedge portfolio were partially offset by the changes in the economic hedge target. In the nine months ended September 30, 2023, we had a net mark-to-market loss of approximately \$474 million from our hedging activities related to our economic hedge target primarily driven by tightening credit spreads and lower equity volatility.

Update of Actuarial Assumptions and Models

Our life insurance companies review and update actuarial assumptions at least annually, generally in the third quarter.

Investment-oriented products

We review and update assumptions used to value our universal life policies at least annually. These benefit reserves are also adjusted to reflect the changes in the fair value of available-for-sale securities with an offset to OCI. DAC and related items (which may include VOBA, DSI and unearned revenue reserves) are amortized on a constant level basis.

We also review assumptions related to variable annuities, fixed annuities, and fixed index annuities guaranteed benefits that are accounted for as MRBs or embedded derivatives and measured at fair value. The fair value of these MRBs or embedded derivatives is based on actuarial assumptions, including policyholder behavior, as well as capital market assumptions.

Traditional long-duration products

For traditional long-duration products discussed below, which includes whole life insurance, term life insurance, accident and health insurance, PRT, life-contingent single premium immediate annuities and structured settlements, cash flow assumptions are reviewed at least annually to determine any changes in the liability for future policy benefits. DAC and related items (which may include VOBA) are amortized on a constant level basis.

The net impacts to pre-tax income and APTOI because of the update of actuarial assumptions for the nine months ended September 30, 2024 and 2023 are shown in the following tables.

The following table presents the increase (decrease) in pre-tax income resulting from the annual update of actuarial assumptions, by line item as reported in Results of Operations:

(in millions)	Nine Months Ended September 30,	
	2024	2023
Premiums	\$ 13	\$ —
Policyholder benefits	(21)	22
Non-deferrable insurance commissions	5	—
Increase (decrease) in adjusted pre-tax operating income	(3)	22
Change in the fair value of market risk benefits, net	(84)	7
Net realized losses	8	(7)
Increase (decrease) in pre-tax income	\$ (79)	\$ 22

The following table presents the increase in adjusted pre-tax operating income resulting from the annual update of actuarial assumptions by segment:

(in millions)	Nine Months Ended September 30,	
	2024	2023
Individual Retirement	\$ 18	\$ 1
Group Retirement	(1)	—
Life Insurance	(29)	19
Institutional Markets	9	2
Total increase in adjusted pre-tax operating income from the update of assumptions*	\$ (3)	\$ 22

* Liabilities ceded to Fortitude Re are reported in Corporate and Other. There is no impact to adjusted pre-tax operating income due to the annual update of actuarial assumptions as these liabilities are 100% ceded.

Update of Actuarial Assumptions Impact to Consolidated pre-tax income (loss)

Corebridge recognized a \$79 million unfavorable and \$22 million favorable impact to pre-tax income, for the nine months ended September 30, 2024 and 2023, respectively, attributable to the annual actuarial assumption review. For 2024, the impacts were primarily driven by updates to policyholder assumptions, including lapse and mortality updates for certain annuity products in Individual Retirement and Group Retirement and universal life products. These were partially offset by updated economic assumptions, including investment yields, and model refinements related to traditional life products and immediate annuities. For 2023, the assumption update impacts were primarily driven by updates to the portfolio yield assumption, refinements to the modeling for universal life products, and mortality assumption updates, partially offset by updated premium assumptions, and other refinements on life insurance products.

Update of Actuarial Assumptions Impact to Consolidated APTOI

Corebridge recognized a \$3 million unfavorable and \$22 million favorable impact to adjusted pre-tax operating income, for the nine months ended September 30, 2024 and 2023, respectively, attributable to the annual actuarial assumption review. For 2024, the assumption update impacts were primarily driven by lapse and mortality updates for universal life products, partially offset by yield and spread updates and model refinements to traditional life products and immediate annuities. For 2023, the assumption update impacts were primarily driven by updates to the portfolio yield assumption, refinements to the modeling for universal life products, and mortality assumption updates, partially offset by updated premium assumptions, and other refinements on life insurance products.

Liquidity and Capital Resources

OVERVIEW

Liquidity is defined as cash and unencumbered assets that can be monetized in a short period of time at a reasonable cost. In addition to the on-balance-sheet liquid assets, liquidity resources include availability under committed bank credit facilities.

Capital refers to the long-term financial resources available to support the operation of our businesses, fund business growth, and cover financial and operational needs that arise from adverse circumstances.

We aim to manage our liquidity and capital resources prudently through a well-defined risk management framework that involves various target operating thresholds, as well as minimum requirements during periods of stress.

We believe that we have sufficient liquidity and capital resources to satisfy future requirements and meet our obligations to policyholders, customers, creditors and debt-holders, including those arising from reasonably foreseeable contingencies or events.

For a discussion regarding risks associated with liquidity and capital, see “Risk Factors—Risks Relating to Our Investment Portfolio, Liquidity, Capital and Credit” in the 2023 Form 10-K.

LIQUIDITY AND CAPITAL RESOURCES OF COREBRIDGE PARENT AND INTERMEDIATE HOLDING COMPANIES

As of September 30, 2024 and December 31, 2023, Corebridge Parent and its non-regulated intermediate holding companies (“Corebridge Hold Cos.”) had \$4.5 billion and \$4.1 billion, respectively, in liquidity sources. These liquidity sources were primarily held in the form of cash and short-term investments and included a \$2.5 billion committed revolving credit facility as of September 30, 2024 and December 31, 2023. Corebridge Hold Cos.’ primary sources of liquidity are dividends, loans and other payments from subsidiaries, sales of businesses and credit facilities. Corebridge Hold Cos.’ primary uses of liquidity are for debt service, capital and liability management, and operating expenses.

Corebridge Parent expects to maintain liquidity that is sufficient to cover one year of its expenses. We expect the Corebridge Hold Cos. may access the debt and equity markets from time to time to meet funding requirements as needed.

We utilize our capital resources to support our businesses, with the majority of capital held by our insurance businesses. Corebridge Hold Cos. intend to manage capital between Corebridge Hold Cos. and our insurance companies through internal, Board-approved policies as well as management standards. Nevertheless, regulatory and other legal restrictions could limit our ability to transfer capital freely, either to or from our subsidiaries.

As of September 30, 2024, Corebridge Parent and certain of our subsidiaries were parties to several letter of credit agreements with various financial institutions which issue letters of credit from time to time in support of our insurance companies, including a \$100 million letter of credit entered into on September 30, 2024 in support of CRBG Bermuda. Letters of credit issued in support of our subsidiaries (primarily, insurance companies) totaled \$226 million and \$151 million at September 30, 2024 and December 31, 2023, respectively.

The following table presents Corebridge Hold Cos.’ liquidity sources:

(in millions)	September 30, 2024		December 31, 2023	
Cash and short-term investments	\$	1,988	\$	1,591
Total Corebridge Hold Cos. liquidity		1,988		1,591
Available capacity under committed, revolving credit facility		2,500		2,500
Total Corebridge Hold Cos. liquidity sources	\$	4,488	\$	4,091

COREBRIDGE HOLD COS. LIQUIDITY AND CAPITAL RESOURCES HIGHLIGHTS

SOURCES

Liquidity to Corebridge Parent from Subsidiaries

During the three and nine months ended September 30, 2024, Corebridge Hold Cos. received \$550 million and \$1.7 billion in dividends from subsidiaries, respectively.

Sale of AIG Life U.K.

On April 8, 2024, Corebridge completed the sale of AIG Life U.K. and received gross proceeds (i.e., net cash before transaction costs) of £453 million (\$569 million).

Debt Issuance

On September 12, 2024, Corebridge Parent issued \$750 million of 6.375% fixed-to fixed reset rate junior subordinated notes due 2054 ("2054 Notes").

USES

Interest Payments

We made interest payments on our debt instruments totaling \$60 million and \$261 million, respectively, during the three and nine months ended September 30, 2024.

Debt Repayment

On September 12, 2024, Corebridge Parent repaid all of the \$250 million aggregate principal amount outstanding under the Three-Year DDTL Facility. This facility was terminated on September 12, 2024 after the final loan repayment.

Dividends

During each of the three months ended March 31, 2024, June 30, 2024 and September 30, 2024, Corebridge Parent paid cash dividend of \$0.23 per share of Corebridge Parent common stock totaling \$133 million and \$415 million, for the three and nine months ended September 30, 2024, respectively.

Repurchase of Common Stock

During the three and nine months ended September 30, 2024, Corebridge Parent repurchased approximately 25.9 million and 50.5 million of shares of Corebridge Parent common stock, for an aggregate purchase price of approximately \$715 million and \$1.4 billion, respectively.

For additional information, see Note 17 to the Condensed Consolidated Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES OF COREBRIDGE INSURANCE SUBSIDIARIES

Insurance Companies

We believe that our insurance companies have sufficient liquidity and capital resources to satisfy reasonably foreseeable future liquidity requirements and meet their obligations, including those arising from reasonably foreseeable contingencies or events, through cash from operations and, to the extent necessary, monetization of invested assets. Our insurance companies' liquidity resources are primarily held in the form of cash, short-term investments and publicly traded, investment grade-rated fixed maturity securities.

The liquidity of each of our material insurance companies is monitored through various internal liquidity risk measures. The primary sources of liquidity are premiums, deposits, fees, reinsurance recoverables, investment income and maturities. The primary uses of liquidity are paid losses, reinsurance payments, benefit claims, surrenders, withdrawals, interest payments, dividends, expenses, investment purchases and collateral requirements.

Certain of our U.S. insurance companies are members of the FHLBs in their respective districts. Our borrowings from FHLBs are non-puttable and are used to supplement liquidity or for other uses deemed appropriate by management. Our U.S. insurance companies had \$5.5 billion which were due to FHLBs in their respective districts at September 30, 2024, under funding agreements which were reported in policyholder contract deposits. These investment contracts do not have mortality or morbidity risk. Proceeds from funding agreements are generally invested in investments intended to generate spread income. In addition, our U.S. insurance companies had no outstanding borrowings in the form of cash advances from FHLBs at September 30, 2024.

Certain of our U.S. insurance companies have securities lending programs that lend securities from their investment portfolios to supplement liquidity or for other uses deemed appropriate by management. Under these programs, these U.S. insurance companies lend securities to financial institutions and receive cash as collateral equal to 102% of the fair value of the loaned securities. Cash collateral received is kept in cash or invested in short-term investments or used for short-term liquidity purposes.

The aggregate amount of securities that a U.S. insurance company can lend under its program at any time is limited to 5% of its general account statutory-basis admitted assets. Our U.S. insurance companies had no securities subject to these agreements at September 30, 2024 and no liabilities to borrowers for collateral received at September 30, 2024.

We manage the capital of our Life Fleet Risk-Based Capital ("RBC") ratio targeting above 400%. AGC serves as an affiliate reinsurance company. The surplus of AGC is comprised predominantly of the statutory surplus of the Life Fleet. Given that AGC has no primary operations outside of this internal reinsurance, we believe that excluding AGC from the Life Fleet RBC ratio calculation presents a more accurate view of the overall capital position of our U.S. operating entities. Our Life Fleet RBC ratio was above our minimum target Life Fleet RBC ratio of 400% as of December 31, 2023.

Dividend Restrictions

Payments of dividends to Corebridge Hold Cos. by our U.S. insurance subsidiaries are subject to certain restrictions imposed by laws and regulations of their respective states of domicile. With respect to our domestic insurance subsidiaries, the payment of a dividend may require formal notice to the insurance department of the state in which the particular insurance subsidiary is domiciled, and prior approval of such insurance regulator is required when the amount of the dividend is above certain regulatory thresholds. See “Business — Regulation — U.S. Regulation — State Insurance Regulation” in the 2023 Form 10-K. Bermuda law also restricts the ability of CRBG Bermuda to pay dividends.

To our knowledge, no Corebridge insurance company is currently on any regulatory or similar “watch list” with regard to solvency.

ANALYSIS OF SOURCES AND USES OF CASH

Our primary sources and uses of liquidity are summarized as follows:

(in millions)	Nine Months Ended September 30,	
	2024	2023
Sources:		
Operating activities, net	\$ 672	\$ 2,590
Net changes in policyholder account balances	8,815	4,141
Issuance of long-term debt	743	496
Issuance of debt of consolidated investment entities	132	202
Contributions from noncontrolling interests	63	63
Financing other, net	—	73
Issuance of common stock	1	—
Net change in securities lending and repurchase agreements	2,580	—
Effect of exchange rate changes on cash and restricted cash	—	3
Total Sources	13,006	7,568
Uses:		
Investing activities, net	(10,187)	(3,267)
Repayments of debt of consolidated investment entities	(652)	(374)
Repayments of short-term debt	(250)	(500)
Distributions to noncontrolling interests	(24)	(59)
Dividends paid on common stock	(415)	(846)
Net change in securities lending and repurchase agreements	—	(2,290)
Repurchase of common stock	(1,394)	(246)
Financing other, net	(165)	—
Total Uses	(13,087)	(7,582)
Net increase (decrease) in cash and cash equivalents	\$ (81)	\$ (14)

Operating Activities

Cash inflows from operating activities primarily include insurance premiums, fees and investment income. Cash outflows from operating activities primarily include benefit payments, general operating expenses and servicing of debt. Operating cash flow will fluctuate based on the timing of premiums received and benefit payments to policyholders, as well as other core business activities.

Investing Activities

Cash inflows from investing activities primarily include sales and maturities of underlying assets, mainly fixed maturities available-for-sale and principal payments on mortgage and other loans. The primary cash outflows for investing activities relate to the purchases of new securities, mainly fixed maturities available-for-sale.

Financing Activities

Cash inflows from financing activities primarily include policyholder deposits on investment-type contracts, issuances of debt and inflows from the settlement of securities lending and repurchase agreements. Cash outflows primarily relate to policyholder withdrawal activity on investment-type contracts, repayments of debt of consolidated investment entities, repayments of short and long-term debt, repurchases of common stock, shareholder dividends, distributions to noncontrolling interests and outflows for the settlement of securities lending and repurchase agreements.

CONTRACTUAL OBLIGATIONS

As of September 30, 2024, there have been no material changes in our contractual obligations from December 31, 2023 a description of which may be found in "Management's Discussion and Analysis of Financial Condition and Results of Operation — Liquidity and Capital Resources — Contractual Obligations" in the 2023 Form 10-K.

SHORT-TERM AND LONG-TERM DEBT

We expect to repay the short-term and long-term debt maturities and interest accrued on these borrowings through cash flows generated from invested assets, future cash flows from operations, and future debt and other financing arrangements.

The following tables provide the rollforward of our total debt outstanding:

(in millions)	Maturity Date(s)	Balance at December 31, 2023	Issuances	Maturities and Repayments	Other Changes	Balance at September 30, 2024
Short-term debt issued by Corebridge:						
Three-Year DDTL Facility	2024	\$ 250	\$ —	\$ (250)	\$ —	\$ —
Total short-term debt		250	—	(250)	—	—
Long-term debt issued by Corebridge:						
Senior unsecured notes	2025-2052	7,750	—	—	—	7,750
Hybrid junior subordinated notes	2052-2054	1,000	750	—	—	1,750
Long-term debt issued by Corebridge subsidiaries:						
CRBGLH notes	2025-2029	200	—	—	—	200
CRBGLH junior subordinated debentures	2030-2046	227	—	—	—	227
Total long-term debt		9,177	750	—	—	9,927
Debt issuance costs		(59)	—	—	(3)	(62)
Total long-term debt, net of debt issuance costs		9,118	750	—	(3)	9,865
Total debt, net of issuance costs		\$ 9,368	\$ 750	\$ (250)	\$ (3)	\$ 9,865

HYBRID JUNIOR SUBORDINATED NOTES

On September 12, 2024, Corebridge Parent issued and sold \$750 million aggregate principal amount of its 6.375% 2054 Notes. Subject to certain redemption provisions and other terms of the 2054 Notes, the interest rate resets on September 15, 2034 and each five-year anniversary thereafter, at an annual rate equal to the five-year treasury rate as of the most recent reset interest determination date plus 2.646%.

DELAYED DRAW TERM LOAN

Corebridge Parent used a portion of the net proceeds of the issuance of the 2054 Notes to repay all of the \$250 million aggregate principal amount outstanding under Corebridge's Three-Year DDTL Facility, dated as of February 25, 2022, among Corebridge, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent. The balance of the proceeds will be used for general corporate purposes. This facility was terminated on September 12, 2024 after the final loan repayment.

REVOLVING CREDIT AGREEMENT

On May 12, 2022, Corebridge Parent entered into a revolving credit agreement (the "Revolving Credit Agreement"). The Revolving Credit Agreement provides for a five-year total commitment of \$2.5 billion, consisting of standby letters of credit and/or revolving credit borrowings without any limits on the type of borrowings. Under circumstances described in the Revolving Credit Agreement, the aggregate commitments may be increased by up to \$500 million, for a total commitment under the Revolving Credit Agreement of \$3.0 billion. Loans under the Revolving Credit Agreement will mature on May 12, 2027. Under the Revolving Credit Agreement, the applicable rate, commitment fee and letter of credit fee are determined by reference to the credit ratings of Corebridge Parent's senior, unsecured, long-term indebtedness. Borrowings bear interest at a rate per annum equal to (i) in the case of U.S. dollar borrowings, Term SOFR plus an applicable credit spread adjustment plus an applicable rate or an alternative base rate plus an applicable rate; (ii) in the case of Sterling borrowings, sterling overnight index average plus an applicable credit spread adjustment plus an applicable rate; (iii) in the case of Euro borrowings, European Union interbank Offer Rate plus an applicable rate; and (iv) in the case of Japanese Yen, Tokyo Interbank Offered Rate plus an applicable rate. The alternative base rate is equal to the highest of (a) the New York Federal Reserve Bank Rate plus 0.50%, (b) the rate of interest in effect as quoted by The Wall Street Journal as the "Prime Rate" in the United States and (c) Term SOFR plus a credit spread adjustment of 0.100% plus an additional 1.00%.

For additional information on debt outstanding and revolving credit facilities, see Note 17 to the Consolidated Financial Statements in the 2023 Form 10-K.

DEBT OF CONSOLIDATED INVESTMENT ENTITIES

Our non-financial debt includes debt of consolidated investment entities and such debt does not represent our contractual obligation and is non-recourse to Corebridge. This non-financial debt includes notes and bonds payables supported by cash and investments held by us and certain of our non-insurance subsidiaries for the repayment of those obligations.

(in millions)	Balance at December 31, 2023	Issuances	Maturities and Repayments	Effect of Foreign Exchange	Other Changes	Balance at September 30, 2024
Debt of consolidated investment entities – not guaranteed by Corebridge ^{(a)(b)}	\$ 2,504	\$ 132	\$ (652)	\$ 11	\$ 154	2,149

(a) At September 30, 2024, includes debt of consolidated investment entities related to real estate investments of \$884 million and other securitization vehicles of \$1.0 billion.

(b) In relation to the debt of consolidated investment entities not guaranteed by Corebridge, creditors or beneficial interest holders of VIEs generally only have recourse to the assets and cash flows of the VIEs and do not have recourse to us.

CREDIT RATINGS

Credit ratings estimate a company's ability to meet its obligations and may directly affect the cost and availability of financing to that company.

The following table presents the credit ratings of Corebridge Parent as of the date of this filing:

Senior Unsecured Long-Term Debt			Hybrid Junior Subordinated Long-Term Debt		
Moody's ^(a)	S&P ^(b)	Fitch ^(c)	Moody's ^(a)	S&P ^(b)	Fitch ^(c)
Baa2 (Stable)	BBB+ (Stable)	BBB+ (Stable)	Baa3 (Stable)	BBB- (Stable)	BBB- (Stable)

(a) Moody's appends numerical modifiers 1, 2 and 3 to the generic rating categories to show relative position within the rating categories.

(b) S&P ratings may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

(c) Fitch ratings may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

These credit ratings are current opinions of the rating agencies. They may be changed, suspended or withdrawn at any time by the rating agencies because of changes in, or unavailability of, information or based on other circumstances. Ratings may also be withdrawn at our request.

We are party to some agreements that contain "ratings triggers." Depending on the ratings maintained by one or more rating agencies, these triggers could result in (i) the termination or limitation of credit availability or a requirement for accelerated repayment, (ii) the termination of business contracts or (iii) a requirement to post collateral for the benefit of counterparties.

In the event of a downgrade of our long-term debt ratings or our insurance subsidiaries' Insurer Financial Strength ("IFS") ratings, we would be required to post additional collateral under some derivative and other transactions, or certain of the counterparties of such other of our subsidiaries would be permitted to terminate such transactions early.

The actual amount of collateral that we or certain of our subsidiaries would be required to post to counterparties in the event of such downgrades, or the aggregate amount of payments that we could be required to make, depends on market conditions, the fair value of outstanding affected transactions and other factors prevailing at the time of the downgrade.

INSURER FINANCIAL STRENGTH RATINGS

IFS ratings estimate an insurance company's ability to pay its obligations under an insurance policy.

The following table presents the ratings of our primary insurance subsidiaries as of the date of this filing:

	A.M. Best	S&P	Fitch	Moody's
American General Life Insurance Company	A	A+	A+	A2
The Variable Annuity Life Insurance Company	A	A+	A+	A2
The United States Life Insurance Company in the City of New York	A	A+	A+	A2

These IFS ratings are current opinions of the rating agencies. They may be changed, suspended or withdrawn at any time by the rating agencies as a result of changes in, or unavailability of, information or based on other circumstances.

OFF-BALANCE SHEET ARRANGEMENTS AND COMMERCIAL COMMITMENTS

As September 30, 2024, there have been no material changes in our off-balance-sheet arrangements and commercial commitments from December 31, 2023, a description of which may be found in "Management's Discussion and Analysis of Financial Condition and Results of Operation—Liquidity and Capital Resources—Off-Balance Sheet Arrangements and Commercial Commitments" in the 2023 Form 10-K.

Accounting Policies and Pronouncements

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with GAAP requires the application of accounting policies that often involve a significant degree of judgment. On a regular basis, we review estimates and assumptions used in the preparation of financial statements. Actual results may differ from these estimates under different assumptions or conditions. *For a detailed discussion of our significant accounting policies and accounting pronouncements, see Note 2 to the Consolidated Financial Statements in the 2023 Form 10-K.*

The accounting policies that we believe are most dependent on the application of estimates and assumptions, which are critical accounting estimates, are related to the determination of:

- fair value measurements of certain financial assets and liabilities;
- valuation of MRBs related to guaranteed benefit features of variable annuity, fixed annuity and fixed index annuity products;
- valuation of embedded derivative liabilities for fixed index annuity and index universal life products;
- valuation of future policy benefit liabilities and recognition of remeasurement gains and losses;
- reinsurance assets, including the allowance for credit losses;
- goodwill impairment;
- allowance for credit losses primarily on loans and available-for-sale fixed maturity securities; and
- income tax assets and liabilities, including recoverability of our net deferred tax asset and the predictability of future tax operating profitability of the character necessary to realize the net deferred tax asset.

These accounting estimates require the use of assumptions about matters, some of which are highly uncertain at the time of estimation. To the extent actual experience differs from the assumptions used, our business, results of operations, financial condition and liquidity could be materially affected.

For a complete discussion of our critical accounting estimates, see *"Management's Discussion and Analysis of Financial Condition and Results of Operation—Accounting Policies and Pronouncements"* in the 2023 Form 10-K.

ADOPTION OF ACCOUNTING PRONOUNCEMENTS

See Note 2 to the Condensed Consolidated Financial Statements for a complete discussion of adoption of accounting pronouncements.

Glossary

Credit support annex — a legal document generally associated with an ISDA Master Agreement that provides for collateral postings which could vary depending on ratings and threshold levels.

Deferred policy acquisition costs — deferred costs that are incremental and directly related to the successful acquisition of new business or renewal of existing business.

Deferred sales inducement — represents enhanced crediting rates or bonus payments to contract holders on certain annuity and investment contract products that meet the criteria to be deferred and amortized over the life of the contract.

Fee income — is defined as policy fees plus advisory fees plus other fee income. For our Institutional Markets segment, its SVW products generate fee income.

Financial debt — represents the sum of short-term debt and long-term debt, net of debt issuance costs, not including (a) debt of consolidated investment entities—not guaranteed by Corebridge; (b) investment contracts supported by assets and issued for purposes of earning spread income, such as GICs and FABNs; and (c) operating debt utilized to fund daily operations.

Guaranteed investment contract — a contract whereby the issuer provides a guaranteed repayment of principal and a fixed or floating interest rate for a predetermined period of time.

Guaranteed minimum death benefit — a benefit that guarantees the annuity beneficiary will receive a certain value upon death of the annuitant. The GMDB feature may provide a death benefit of either (a) total deposits made to the contract, less any partial withdrawals plus a minimum return (and in rare instances, no minimum return); (b) return of premium whereby the benefit is the greater of the current account value or premiums paid less any partial withdrawals; (c) rollups whereby the benefit is the greater of current account value or premiums paid (adjusted for withdrawals) accumulated at contractually specified rates up to specified ages; or (d) the highest contract value attained, typically on any anniversary date less any subsequent withdrawals following the contract anniversary.

Guaranteed minimum withdrawal benefit — a type of living benefit that guarantees that withdrawals from the contract may be taken up to a contractually guaranteed amount, even if the account value subsequently falls to zero, provided that during each contract year total withdrawals do not exceed an annual withdrawal amount specified in the contract. Once the account value is depleted under the conditions of the GMWB, the policy continues to provide a protected income payment.

ISDA Master Agreement — an agreement between two counterparties, which may have multiple derivative transactions with each other governed by such agreement, that generally provides for the net settlement of all or a specified group of these derivative transactions, as well as pledged collateral, through a single payment, in a single currency, in the event of a default on, or affecting any, one derivative transaction or a termination event affecting all, or a specified group of, derivative transactions.

Loan-to-value ratio — principal amount of loan divided by appraised value of collateral securing the loan.

Market risk benefit — is an amount that a policyholder would receive in addition to the account balance upon the occurrence of a specific event or circumstance, such as death, annuitization, or periodic withdrawal that involves protection from other-than-nominal capital market risk.

Master netting agreement — an agreement between two counterparties who have multiple derivative contracts with each other that provides for the net settlement of all contracts covered by such agreement, as well as pledged collateral, through a single payment, in a single currency, in the event of default on or upon termination of any one such contract.

Non-performance Risk Adjustment — adjusts the valuation of derivatives and MRBs to account for non-performance risk in the fair value measurement of all MRBs and derivative net liability positions.

Noncontrolling interests — the portion of equity ownership in a consolidated subsidiary not attributable to the controlling parent company.

Policy fees — an amount added to a policy premium, or deducted from a policy cash value or contract holder account, to reflect the cost of issuing a policy, establishing the required records and sending premium notices and other related expenses.

Reinsurance — the practice whereby one insurer, the reinsurer, in consideration of a premium paid to that insurer, agrees to indemnify another insurer, the ceding company, for part or all of the liability of the ceding company under one or more policies or contracts of insurance which it has issued.

Risk-based capital — a formula designed to measure the adequacy of an insurer's statutory surplus compared to the risks inherent in its business.

Spread income — is defined as net investment income less interest credited to policyholder account balances, exclusive of amortization of deferred sales inducement assets. Spread income is comprised of both base spread income and variable investment income. For our Institutional Markets segment, its structured settlements, PRT and GIC products generate spread income, which includes premiums, net investment income, less interest credited and policyholder benefits and excludes the annual assumption update.

Surrender charge — a charge levied against an investor for the early withdrawal of funds from a life insurance or annuity contract, or for the cancellation of the agreement.

Surrender rate — represents annualized surrenders and withdrawals as a percentage of average reserves and Group Retirement mutual fund assets under administration.

Underwriting margin — for our Life Insurance segment includes premiums, policy fees, other income, net investment income, less interest credited to policyholder account balances and policyholder benefits and excludes the annual assumption update. For our Institutional Markets segment, its Corporate Markets products generate underwriting margin, which includes premiums, net investment income, policy and advisory fee income, less interest credited and policyholder benefits and excludes the annual assumption update.

Value of business acquired — present value of projected future gross profits from in-force policies of acquired businesses.

Certain Important Terms

We use the following capitalized terms in this report

“**AGC**” means AGC Life Insurance Company, a Missouri insurance company;

“**AGC Group**” means AGC and its directly owned life insurance subsidiaries;

- **"URR"** — unearned revenue reserve;
- **"VIE"** — variable interest entity;
- **"VIX"** — volatility index; and
- **"VOBA"** — value of business acquired.

ITEM 3 | Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes to the quantitative and qualitative disclosures about market risk described in *Quantitative and Qualitative Disclosures About Market Risk* in the 2023 Form 10-K.

ITEM 4 | Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures. In connection with the preparation of this Quarterly Report on Form 10-Q, an evaluation was carried out by Corebridge management, with the participation of Corebridge's Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of September 30, 2024. Based on this evaluation, Corebridge's Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2024.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f)) that have occurred during the quarter ended September 30, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

ITEM 1 | Legal Proceedings

For information regarding certain legal proceedings pending against us, see Note 16 to the Condensed Consolidated Financial Statements.

ITEM 1A | Risk Factors

Failure to complete the Nippon Transaction may negatively impact our ongoing business and stock price.

If the Nippon Transaction is not completed on a timely basis or at all, our ongoing business may be adversely affected as a result of the time and resources committed to the proposed transaction that could have been devoted to pursuing other opportunities. In addition, the price of our common stock may decline to the extent that the current market price reflects a market assumption that the Nippon Transaction will be completed on the proposed timeline and that any anticipated benefits will be realized.

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risk factors discussed in "Risk Factors" in the 2023 Form 10-K.

ITEM 2 | Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about purchases made by or on behalf of Corebridge Parent or any "affiliated purchaser" (as defined in Rule 10b-18(a)(3) under the Exchange Act) of Corebridge Parent common stock during the three months ended September 30, 2024:

Period	Total Number of Shares Repurchased	Average Price Paid per Share*	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in millions)
07/01/24 through 07/31/24	9,334,100	\$ 29.56	9,334,100	\$ 1,547
08/01/24 through 08/31/24	12,297,410	25.88	12,297,410	1,229
09/01/24 through 09/30/24	4,309,246	27.99	4,309,246	1,108
Total	25,940,756	\$ 27.56	25,940,756	\$ 1,108

* Excludes excise tax of \$5.1 million due to the Inflation Reduction Act of 2022 for the three months ended September 30, 2024.

On May 4, 2023, our Board of Directors authorized a \$1.0 billion share repurchase program. On April 30, 2024, our Board of Directors authorized an additional \$2.0 billion increase in the share repurchase amount under the share repurchase program. Under this program, Corebridge Parent may, from time to time, purchase up to \$3.0 billion of Corebridge Parent common stock but is not obligated to purchase any particular number of shares. The authorization for the share repurchase program may be terminated, increased or decreased by the Board of Directors at any time.

Shares may be repurchased from time to time in the open market, through private purchases, through forward, derivative, accelerated repurchase or automatic repurchase transactions or otherwise. For instance, on August 7, 2024, we purchased an aggregate of approximately \$200 million of shares from AIG in a privately negotiated transaction. In addition, certain of our share repurchases have been and may from time to time be effected through Exchange Act Rule 10b5-1 repurchase plans, including the share repurchase plan Corebridge Parent adopted on September 17, 2024, which, unless extended expires on November 7, 2024. The timing of any future share repurchases will depend on market conditions, our business and strategic plans, financial condition, results of operations, liquidity and other factors.

During the three months ended September 30, 2024, Corebridge Parent repurchased approximately 25.9 million shares of Corebridge Parent common stock, par value \$0.01 per share, for an aggregate purchase price of \$715 million, pursuant to the share repurchase program.

As of September 30, 2024, approximately \$1.1 billion remained under the share repurchase program authorizations.

ITEM 5 | Other Information

Not applicable.

Exhibit Index

Exhibit Number	Description
4.1	Second Supplemental Indenture, dated September 12, 2024, between Corebridge Financial, Inc. and The Bank of New York Mellon, as Trustee, incorporated by reference to Exhibit 4.2 to Corebridge Financial, Inc.'s Current Report on Form 8-K, filed on September 12, 2024.
10.1	Share Repurchase Agreement, dated as of August 5, 2024, by and between Corebridge Financial, Inc. and American International Group, Inc., incorporated by reference to Exhibit 10.1 to Corebridge Financial, Inc.'s Current Report on Form 8-K, filed on August 5, 2024.
31.1*	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2*	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1**	Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2**	Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

CERTIFICATIONS

I, Kevin Hogan, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Corebridge Financial, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
