Q2 FY 2026

As of August 27, 2025

Safe Harbor

This presentation includes express and implied “forward-looking statements”, including forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical facts, and in some cases, can be identified by terms such as “anticipate,” “believe,” “can,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “potential,” “predict,” “project,” “should,” “will,” “would,” or the negative of these terms, and similar expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements contained in this presentation include, but are not limited to, statements concerning our estimates of market size and opportunity, strategic plans or objectives, our growth prospects, projections (including our long-term model), the impact of the July 19 Incident, our product roadmap and future initiatives, the performance and benefits of our products, and our anticipated tax rate. By their nature, these statements are subject to numerous risks and uncertainties, including factors beyond our control, that could cause actual results, performance or achievement to differ materially and adversely from those anticipated or implied in the statements. Such risks and uncertainties are described in the “Risk Factors” section of our most recent Form 10-K, most recent Form 10-Q, and subsequent filings with the Securities and Exchange Commission. Although our management believes that the expectations reflected in our statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances described in the forward-looking statements will be achieved or occur. Recipients are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation and should not be construed as statements of fact. Except to the extent required by federal securities laws, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of unanticipated events.

Information in this presentation on new products, features, and functionality, including our expectations with respect to the development, release and timing thereof, is for informational purposes only and should not be relied upon.

Certain information contained in this presentation and statements made orally during this presentation relate to or are based on studies, publications, surveys and other data obtained from third-party sources and CrowdStrike's own internal estimates and research. While CrowdStrike believes these third-party studies, publications, surveys and other data to be reliable as of the date of this presentation, it has not independently verified, and makes no representations as to the adequacy, fairness, accuracy or completeness of, any information obtained from third-party sources. In addition, no independent source has evaluated the reasonableness or accuracy of CrowdStrike's internal estimates or research and no reliance should be made on any information or statements made in this presentation relating to or based on such internal estimates and research.

Financial Information

Use of Non-GAAP Financial Measures

In addition to our results determined in accordance with U.S. generally accepted accounting principles (“GAAP”), we believe non-GAAP measures used in this presentation, such as non-GAAP Gross Margins, non-GAAP Operating Expenses, and Free Cash Flow, are useful in evaluating our operating performance. We use such non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides consistency and comparability with past financial performance and facilitates period-to-period comparisons of operations, as these measures eliminate the effects of certain variables unrelated to our overall operating performance. Other companies, including companies in our industry, may calculate similarly titled non-GAAP measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison. In addition, the utility of free cash flow as a measure of our financial performance and liquidity is limited as it does not represent the total increase or decrease in our cash balance for a given period.

Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures and not rely on any single financial measure to evaluate our business.

Please see the appendix included at the end of this presentation for a discussion of non-GAAP financial measures and a reconciliation of historical non-GAAP measures to historical GAAP measures.

Our Fiscal Year

Our fiscal year end is January 31, and our fiscal quarters end on April 30, July 31, October 31 and January 31. Our fiscal years ended January 31, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030 and 2031 are referred to herein as fiscal 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030 and 2031, respectively.

Guidance

	Q3 FY2026	Full Year FY2026
Total revenue	\$1,208.0 - \$1,218.0M	\$4,749.5 - \$4,805.5M
Non-GAAP income from operations	\$256.0 - \$262.0M	\$1,000.1 - \$1,040.1M
Non-GAAP net income attributable to CrowdStrike	\$238.1 - \$242.8M	\$922.4 - \$954.0M
Non-GAAP net income per share attributable to CrowdStrike common stockholders, diluted	\$0.93 - \$0.95	\$3.60 - \$3.72
Weighted average shares used in computing non-GAAP net income per share attributable to common stockholders, diluted	257M	256M
Non-GAAP tax rate	21.0%	21.0%

CrowdStrike is providing the above guidance for the third quarter of fiscal 2026 (ending October 31, 2025) and full fiscal year 2026 (ending January 31, 2026). Guidance for non-GAAP financial measures excludes stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets (including purchased patents), acquisition-related expenses (credits), net, amortization of debt issuance costs and discount, mark-to-market adjustments on deferred compensation liabilities, legal reserve and settlement charges or benefits, costs (recoveries) associated with the July 19 Incident and related matters, net, strategic plan related charges, losses (gains) and other income from strategic investments, and losses (gains) on deferred compensation assets, and is adjusted for its long-term non-GAAP effective tax rate. The company has not provided the most directly comparable GAAP measures because certain items are out of the company's control or cannot be reasonably predicted. Accordingly, a reconciliation for non-GAAP income from operations, non-GAAP net income attributable to CrowdStrike, and non-GAAP net income per share attributable to CrowdStrike common stockholders is not available without unreasonable effort.

These statements are forward-looking and actual results may differ materially as a result of many factors. Refer to the Forward-Looking Statements safe harbor for information on the factors that could cause CrowdStrike's actual results to differ materially from these forward-looking statements.

Target Operating Model

Non-GAAP Measures

Target % of Revenue

Subscription Gross Margin

82 – 85%

S&M

28 – 33%

R&D

15 – 20%

G&A

5 – 7%

Operating Margin

28 – 32%

Free Cash Flow Margin

34 – 38%

Note: Targets are on a full year basis. Target ranges assume consistent macroeconomic conditions and do not include the impact of potential future M&A activity.

Targets for non-GAAP financial measures exclude stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets (including purchased patents), acquisition-related expenses (credits), net, amortization of debt issuance costs and discount, mark-to-market adjustments on deferred compensation liabilities, legal reserve and settlement charges or benefits, costs (recoveries) associated with the July 19 Incident and related matters, net, strategic plan related charges, losses (gains) and other income from strategic investments, and losses (gains) on deferred compensation assets, and is adjusted for its long-term non-GAAP effective tax rate. The company has not provided the most directly comparable GAAP measures because certain items are out of the company's control or cannot be reasonably predicted. Accordingly, a reconciliation for non-GAAP income from operations, non-GAAP net income attributable to CrowdStrike, and non-GAAP net income per share attributable to CrowdStrike common stockholders is not available without unreasonable effort.

Appendix

Appendix

Change in Non-GAAP Measures Presentation

Effective as of February 1, 2025, the beginning of our fiscal year ending January 31, 2026, CrowdStrike is presenting employer payroll taxes related to employee stock-based award transactions as part of stock-based compensation expense in the GAAP to Non-GAAP reconciliation. These payroll taxes have been excluded from CrowdStrike's non-GAAP results as they are tied to the timing and size of the vesting or exercise of the underlying stock-based awards and the price of CrowdStrike's common stock at the time of vesting or exercise, which may vary from period to period. In addition, effective second quarter fiscal year 2026, CrowdStrike adopted a 21.0% long-term projected non-GAAP tax rate, reduced from the previous rate of 22.5%, in connection with the enactment of the One Big Beautiful Bill Act. This rate reflects the anticipated tax benefit from earning income outside the United States (U.S.) while retaining intellectual property within the U.S. The change is applied prospectively, and the tax rate for prior periods remains unchanged.

Calculation of metrics

Annual Recurring Revenue (ARR).

ARR is calculated as the annualized value of our customer subscription contracts as of the measurement date, assuming any contract that expires during the next 12 months is renewed on its existing terms. To the extent that we are negotiating a renewal with a customer after the expiration of the subscription, we continue to include that revenue in ARR if we are actively in discussion with such an organization for a new subscription or renewal, or until such organization notifies us that it is not renewing its subscription.

Dollar-Based Net Retention Rate.

Our dollar-based net retention rate compares our ARR from a set of subscription customers against the same metric for those subscription customers from the prior year. Our dollar-based net retention rate reflects customer renewals, expansion, contraction and churn, and excludes revenue from our incident response and proactive services. We calculate our dollar-based net retention rate as of period end by starting with the ARR from all subscription customers as of 12 months prior to such period end, or Prior Period ARR. We then calculate the ARR from these same subscription customers as of the current period end, or Current Period ARR. Current Period ARR includes any expansion and is net of contraction or churn over the trailing 12 months but excludes revenue from new subscription customers in the current period. We then divide the total Current Period ARR by the total Prior Period ARR to arrive at our dollar-based net retention rate.

Dollar-Based Gross Retention Rate.

We calculate our dollar-based gross retention rate as of the period end by starting with the ARR from all subscription customers as of 12 months prior to such period, or Prior Period ARR. We then deduct from the Prior Period ARR any ARR from subscription customers who are no longer customers as of the current period end, or Current Period Remaining ARR. We then divide the total Current Period Remaining ARR by the total Prior Period ARR to arrive at our dollar-based gross retention rate, which is the percentage of ARR from all subscription customers as of the year prior that is not lost to customer churn.

Gross Churn.

Our dollar-based gross churn rate is equal to $1 - \text{Dollar-Based Gross Retention Rate}$.

Module Adoption Rates.

Module adoption rates are calculated by taking the total number of customers with six or more, seven or more, and eight or more modules, respectively, divided by the total number of subscription customers (excluding Falcon Go customers). Falcon Go customers are defined as customers who have subscribed with the Falcon Go bundle, a package designed for organizations with 100 endpoints or less.

Appendix (cont'd)

Explanation of Non-GAAP Financial Measures

Non-GAAP Subscription Gross Profit and Non-GAAP Subscription Gross Margin

We define non-GAAP subscription gross profit and non-GAAP subscription gross margin as GAAP subscription gross profit and GAAP subscription gross margin, respectively, excluding stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets, and strategic plan related charges.

Non-GAAP Income from Operations

We define non-GAAP income from operations as GAAP income (loss) from operations excluding stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets (including purchased patents), acquisition-related expenses (credits), net, mark-to-market adjustments on deferred compensation liabilities, legal reserve and settlement charges or benefits, costs (recoveries) associated with the July 19 Incident and related matters, net, and strategic plan related charges.

Non-GAAP Net Income Attributable to CrowdStrike

We define non-GAAP net income attributable to CrowdStrike as GAAP net income (loss) attributable to CrowdStrike excluding stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets (including purchased patents), acquisition-related expenses (credits), net, amortization of debt issuance costs and discount, mark-to-market adjustments on deferred compensation liabilities, legal reserve and settlement charges or benefits, costs (recoveries) associated with the July 19 Incident and related matters, net, strategic plan related charges, losses (gains) and other income from strategic investments, and losses (gains) from deferred compensation assets, and is adjusted for its long-term non-GAAP effective tax rate.

Non-GAAP Net Income per Share Attributable to CrowdStrike Common Stockholders, Diluted

We define non-GAAP net income per share attributable to CrowdStrike common stockholders, as non-GAAP net income attributable to CrowdStrike divided by the weighted-average shares outstanding, which includes the dilutive effect of potentially dilutive common stock equivalents outstanding during the period.

Free Cash Flow

Free Cash Flow is a non-GAAP financial measure that we define as net cash provided by operating activities less purchases of property and equipment, capitalized internal-use software and website development costs, purchases of deferred compensation investments, and proceeds from sale of deferred compensation investments. We monitor free cash flow as one measure of our overall business performance, which enable us to analyze our future performance without the effects of non-cash items and allow us to better understand the cash needs of our business. While we believe that free cash flow is useful in evaluating our business, free cash flow is a non-GAAP financial measure that has limitations as an analytical tool, and free cash flow should not be considered as an alternative to, or substitute for, net cash provided by operating activities in accordance with GAAP. The utility of free cash flow as a measure of our liquidity is further limited as it does not represent the total increase or decrease in our cash balance for any given period. In addition, other companies, including companies in our industry, may calculate free cash flow differently or not at all, which reduces the usefulness of free cash flow as a tool for comparison.

Costs associated with the July 19 Incident and related matters, net	0.02	0.14
Strategic plan related charges	—	0.15
Losses (gains) and other income from strategic investments attributable to CrowdStrike	—	—
Gains on deferred compensation assets	—	—
Income tax adjustments ⁽³⁾	(0.21)	(0.21)
Other ⁽⁴⁾	(0.01)	0.02
Non-GAAP diluted net income per share attributable to CrowdStrike common stockholders	<u>\$ 0.88</u>	<u>\$ 0.93</u>
Weighted-average shares used to calculate Non-GAAP diluted net income per share attributable to CrowdStrike common stockholders	<u>251,265</u>	<u>256,321</u>

1.

Effective February 1, 2025, employer payroll taxes related to employee stock-based award transactions are included as part of stock-based compensation expense. These payroll taxes are excluded from CrowdStrike's non-GAAP results as they are tied to the timing and size of the vesting or exercise of the underlying stock-based awards and the price of our common stock at the time of vesting or exercise, which may vary from period to period independent of the operating performance of our business. Prior periods have been recast to reflect this change.
2.

Effective second quarter fiscal year 2026, we adopted a 21.0% long-term projected non-GAAP tax rate, reduced from the previous rate of 22.5%, in connection with the enactment of the One Big Beautiful Bill Act. This rate reflects the anticipated tax benefit from earning income outside the U.S. while retaining intellectual property within the U.S. The change is applied prospectively, and the tax rate for prior periods remains unchanged.
3.

Adjustments are related to the difference between the GAAP provision for income taxes and Non-GAAP provision for income taxes.
4.

For periods in which we had diluted non-GAAP net income per share attributable to CrowdStrike common stockholders, the sum of the impact of individual reconciling items may not total to diluted Non-GAAP net income per share attributable to CrowdStrike common stockholders because of rounding differences.
