Effects of Reference Rate Reform on Financial Reporting provided optional guidance to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU was effective upon issuance and generally could be applied through December 31, 2022. Because the current relief in ASC 848, Reference Rate Reform may not cover a period of time during which a significant number of modifications may take place, the amendments in ASU No. 2022-06 defer the sunset date from December 31, 2022 to December 31, 2024, after which entities will no longer be permitted to apply the relief in ASC 848. The ASU is effective upon issuance. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements. In October 2023, the FASB issued ASU No. 2023-06, Disclosure Improvements—Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative. The standard is expected to clarify or improve disclosure and presentation requirements of a variety of ASC topics, allow users to more easily compare entities subject to the SEC's existing disclosure requirements with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. The effective date for the guidance will be the date on which the SEC's removal of the related disclosure from Regulation S-X or Regulation S-K becomes effective. If by June 30, 2027 the SEC has not removed the applicable requirements from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entity. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements. In November 2023, the FASB issued ASU No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The guidance was issued in response to requests from investors for companies to disclose more information about their financial performance at the segment level. The ASU does not change how a public entity identifies its operating segments, aggregates them or applies the quantitative thresholds to determine its reportable segments. The standard will require a public entity to disclose significant segment expenses and other segment items on an annual and interim basis, and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. Public entities with a single reportable segment will be required to provide the new disclosures and all the disclosures currently required under ASC 280. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2024 and for the interim periods beginning on January 1, 2025, will require retrospective presentation, and early adoption is permitted. Management is continuing its implementation effort of the new guidance, including drafting new financial statement disclosures required by the standard and developing appropriate internal controls. The adoption of the new guidance is not expected to have an impact on the Company's consolidated financial statements. In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The standard improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. The ASU also includes certain other amendments to improve the effectiveness of income tax disclosures. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2025, will require prospective presentation with an option for entities to apply it retrospectively for each period presented, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements. In March 2024, the FASB issued ASU No. 2024-01, Compensation—Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards. The standard is intended to reduce the complexity in determining whether profits interests and similar awards are in the scope of ASC 718 and to reduce diversity in practice. The new guidance applies to all reporting entities that grant profits interest awards or similar awards to employees or nonemployees in exchange for goods or services. The ASU adds an example to ASC 718 that illustrates how to apply the scope guidance to determine whether a profits interest award should be accounted for as a share-based payment arrangement under ASC 718 or another accounting standard. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to profits interest awards granted or modified on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements. In March 2024, the FASB issued ASU No. 2024-02, Codification Improvements—Amendments to Remove References to the Concepts Statements. The Conceptual Framework establishes concepts that the Board considers in developing standards. The ASU was issued to remove references to the Conceptual Framework in the Codification. The FASB noted that references to the Concepts Statements in the Codification could have implied that the Concepts Statements are authoritative. Also, some of the references removed were to Concepts Statements that are superseded. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to all new transactions recognized on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements. SEC Rule on Climate-Related Disclosures On March 6, 2024 the SEC adopted the final rules, The Enhancement and Standardization of Climate-Related Disclosures for Investors, that will require registrants to provide climate-related disclosures in a note to the audited financial statements. The disclosures will include certain effects of severe weather events and other natural conditions, including the aggregate amounts and where in the financial statements they are presented. If carbon offsets or renewable energy credits or certificates (RECs) are deemed a material component of the registrant's plans to achieve its disclosed climate-related targets, registrants will be required to disclose information about the offsets and RECs. Registrants will also be required to disclose whether and how (1) exposures to risks and uncertainties associated with, or known impacts from, severe weather events and other natural conditions and (2) any disclosed climate-related targets or transition plans materially impacted the estimates and assumptions used in preparing the financial statements. Finally, registrants will be required to disclose additional contextual information about the above disclosures, including how each financial statement effect was derived and the accounting policy decisions made to calculate the effects, for the most recently completed fiscal year and, if previously disclosed or required to be disclosed, for the historical fiscal year for which audited consolidated financial statements are included in the filing. Subsequent to the issuance, the SEC has released an order staying the final rules pending judicial review of all of the petitions challenging the rules. Absent the stay, the rules would have been effective for the Company on May 28, 2024 and phased in starting in 2025. Management is currently monitoring the developments pertaining to the final rules and any resulting potential impacts on the Company's unaudited Condensed Consolidated Financial Statements. 2. A Limited Partnership Interests in BGC Holdings and Newmark Holdings Prior to the Corporate Conversion, BGC Partners was a holding company with no direct operations which conducted substantially all of its operations through its operating subsidiaries. Virtually all of BGC Partners' consolidated assets and net income were those of consolidated variable interest entities. BGC Holdings was a consolidated subsidiary of BGC Partners for which BGC Partners was the general partner. BGC Partners and BGC Holdings jointly owned BGC U.S. OpCo and BGC Global OpCo, the two operating partnerships of the Company. In addition, Newmark Holdings is a consolidated subsidiary of Newmark for which Newmark is the general partner. Newmark and Newmark Holdings jointly own Newmark OpCo, the operating partnership. Listed below are the limited partnership interests in BGC Holdings, prior to the Corporate Conversion, and Newmark Holdings. The FPU, LPU and limited partnership interests held by Cantor, each as described below, collectively represent all of the limited partnership interests in BGC Holdings, prior to the Corporate Conversion, and Newmark Holdings. The Corporate Conversion had no impact on Newmark and its organizational structure, nor any limited partnership interests, described below, held by BGC employees in Newmark Holdings. As a result of the Separation, limited partnership interests in Newmark Holdings were distributed to the holders of limited partnership interests in BGC Holdings, whereby each holder of BGC Holdings limited partnership interests at that time who held a BGC Holdings limited partnership interest received a corresponding Newmark Holdings limited partnership interest, determined by the Contribution Ratio, which was equal to a BGC Holdings limited partnership interest multiplied by one divided by 2.2, divided by the Exchange Ratio. Initially, the Exchange Ratio equaled one, so that each Newmark Holdings limited partnership interest was exchangeable for one share of Newmark Class A common stock. For reinvestment, acquisition or other purposes, Newmark may determine on a quarterly basis to distribute to its stockholders a smaller percentage than Newmark Holdings distributes to its equity holders (excluding tax distributions from Newmark Holdings) of cash that it received from Newmark OpCo. In such circumstances, the Separation and Distribution Agreement provides that the Exchange Ratio will be reduced to reflect the amount of additional cash retained by Newmark as a result of the distribution of such smaller percentage, after the payment of taxes. The Exchange Ratio as of September 30, 2024 equaled 0.9257. 3. Founding/Working Partner Units Founding/Working Partners had FPU in BGC Holdings and have FPU in Newmark Holdings. As of June 30, 2023, in connection with the Corporate Conversion, all FPU in BGC Holdings were redeemed or exchanged. The Corporate Conversion had no impact on FPU held by partners of Newmark Holdings. Prior to the Corporate Conversion, BGC Partners accounted for FPU outside of permanent capital, as Redeemable partnership interest, in the Company's unaudited Condensed Consolidated Statements of Financial Condition. This classification was applicable to Founding/Working Partner units because these units were redeemable upon termination of a partner, including a termination of employment, which could be at the option of the partner and not within the control of the issuer. The BGC RSUs issued for the redemption of non-exchangeable FPU in BGC Holdings, in connection with the Corporate Conversion, are now accounted for as a part of permanent capital. FPU were held by limited partners who were employees and generally received quarterly allocations of net income. Upon termination of employment or otherwise ceasing to provide substantive services, the FPU were generally redeemed, and the unit holders were no longer entitled to participate in the quarterly allocations of net income. Since these allocations of net income were cash distributed on a quarterly basis and were contingent upon services being provided by the unit holder, they were reflected as a component of compensation expense under Equity-based compensation and allocations of net income to limited partnership units and FPU in the Company's unaudited Condensed Consolidated Statements of Operations. Limited Partnership Units Certain BGC employees held LPU in BGC Holdings and hold LPU in Newmark Holdings (e.g., REUs, RPU, PSUs, and PSIs). Prior to the Separation, certain employees of both BGC and Newmark received LPU in BGC Holdings. As a result of the Separation, these employees were distributed LPU in Newmark Holdings equal to a BGC Holdings LPU multiplied by the Contribution Ratio. Subsequent to the Separation, BGC employees were only granted LPU in BGC Holdings, and Newmark employees are only granted LPU in Newmark Holdings. In connection with, or as a result of, the Corporate Conversion, certain LPU in BGC Holdings were redeemed/converted into BGC restricted stock awards or RSUs, and upon completion of the Corporate Conversion, there were no LPU of BGC Holdings remaining. The Corporate Conversion had no impact on the LPU in Newmark Holdings held by BGC employees. Generally, LPU received quarterly allocations of net income, which were cash distributed and generally were contingent upon services being provided by the unit holder. As prescribed in U.S. GAAP guidance, following the Spin-Off, the quarterly allocations of net income on BGC Holdings LPU held by BGC employees were reflected as a component of compensation expense under Equity-based compensation and allocations of net income to limited partnership units and FPU in the Company's unaudited Condensed Consolidated Statements of Operations prior to the Corporate Conversion, and quarterly allocations of net income on Newmark Holdings LPU held by BGC employees, which were not impacted by the Corporate Conversion, are reflected as a component of compensation expense under Equity-based compensation and allocations of net income to limited partnership units and FPU in the Company's unaudited Condensed Consolidated Statements of Operations. Quarterly allocations of net income on BGC Holdings LPU held by Newmark employees were reflected as a component of Net income (loss) attributable to noncontrolling interest in subsidiaries in the Company's unaudited Condensed Consolidated Statements of Operations, prior to the Corporate Conversion. From time to time, the Company also issued BGC LPU as part of the consideration for acquisitions. Certain of these LPU in BGC Holdings and Newmark Holdings, such as REUs, entitle the holders to receive post-termination payments equal to the notional amount of the units in four equal yearly installments after the holder's termination. There were none of these LPU in BGC Holdings remaining after the Corporate Conversion was completed while these LPU in Newmark Holdings held by BGC employees were not impacted by the Corporate Conversion. These LPU held by BGC employees are accounted for as post-termination liability awards, and in accordance with U.S. GAAP guidance, the Company records compensation expense for the awards based on the change in value at each reporting date in the Company's unaudited Condensed Consolidated Statements of Operations as part of Equity-based compensation and allocations of net income to limited partnership units and FPU. 3.3 Table of Contents Certain BGC employees held Preferred Units in BGC Holdings and hold Preferred Units in Newmark Holdings. In connection with, or as a result of, the Corporate Conversion, certain Preferred Units in BGC Holdings were redeemed/converted into BGC restricted stock awards or RSU Tax Accounts, and upon completion of the Corporate Conversion, there were no Preferred Units of BGC Holdings remaining. The Corporate Conversion had no impact on Preferred Units in Newmark Holdings held by BGC employees. The following description of LPU and Preferred Units in BGC Holdings is only applicable for the period prior to the Corporate Conversion, and for LPU and Preferred Units held by BGC employees in Newmark Holdings is applicable to before and after the Corporate Conversion. Each quarter, the net profits of BGC Holdings and Newmark Holdings are allocated to such units at a rate of either 0.6875% (which is 2.75% per calendar year) or such other amount as set forth in the award documentation. These allocations are deducted before the calculation and distribution of the quarterly partnership distribution for the remaining partnership interests and are generally contingent upon services being provided by the unit holder. The Preferred Units are not entitled to participate in partnership distributions other than with respect to the Preferred Distribution. Preferred Units may not be made exchangeable into Class A common stock, and are only entitled to the Preferred Distribution; accordingly, they are not included in the fully diluted share count. The quarterly allocations of net income on Preferred Units are reflected the same as those of the LPU described above in the Company's unaudited Condensed Consolidated Statements of Operations. After deduction of the Preferred Distribution, the remaining partnership units generally received quarterly allocations of net income based on their weighted-average pro rata share of economic ownership of the operating subsidiaries. Preferred Units are granted in connection with the grant of certain LPU, such as PSUs, which may be granted exchangeability or redeemed in connection with the issuance of shares of common stock to cover the withholding taxes owed by the unit holder, rather than issuing the gross amount of shares to employees, subject to cashless withholding of shares to pay applicable withholding taxes. Cantor Units Prior to the Corporate Conversion, Cantor held limited partnership interests in BGC Holdings. Cantor units were reflected as a component of Noncontrolling interest in subsidiaries in the Company's unaudited Condensed Consolidated Statements of Financial Condition. Cantor received allocations of net income (loss), which were cash distributed on a quarterly basis and were reflected as a component of Net income (loss) attributable to noncontrolling interest in subsidiaries in the Company's unaudited Condensed Consolidated Statements of Operations. As a result of the Corporate Conversion, 64.0 million Cantor units were converted into shares of BGC Group Class B common stock, subject to the terms and conditions of the Corporate Conversion Agreement, provided that a portion of the 64.0 million shares of BGC Group Class B common stock issued to Cantor will exchange into BGC Group Class A common stock in the event that BGC Group does not issue at least \$75,000,000 in shares of BGC Group Class A or B common stock in connection with certain acquisition transactions prior to the seventh anniversary of the Corporate Conversion. General Certain of the limited partnership interests, described above, were granted exchangeability into shares of BGC Class A common stock, prior to the Corporate Conversion, or shares of Newmark Class A common stock, and additional limited partnership interests could become exchangeable into shares of Newmark Class A common stock. In addition, prior to the Corporate Conversion, certain limited partnership interests were granted the right to exchange into or were exchanged into a partnership unit with a capital account, such as HDUs. HDUs had a stated capital account which was initially based on the closing trading price of Class A common stock at the time the HDU was granted. HDUs participated in quarterly partnership distributions and were generally not exchangeable into shares of Class A common stock. Subsequent to the Spin-Off and prior to the Corporate Conversion, limited partnership interests in BGC Holdings held by a partner or Cantor could become exchangeable for BGC Class A or BGC Class B common stock on a one-for-one basis. In addition, subsequent to the Spin-Off, limited partnership interests in Newmark Holdings held by a partner or Cantor may become exchangeable for a number of shares of Newmark Class A or Newmark Class B common stock equal to the number of limited partnership interests multiplied by the then-current Exchange Ratio. Because limited partnership interests were included in the Company's fully diluted share count, if dilutive, prior to the Corporate Conversion, any previous exchanges of limited partnership interests into shares of BGC Class A or BGC Class B common stock did not impact the fully diluted number of shares and units outstanding. Because these limited partnership interests generally received quarterly allocations of net income, such exchanges had no significant impact on the cash flows or equity of BGC Partners, prior to the Corporate Conversion. 3.4 Table of Contents Prior to the Corporate Conversion, each quarter, net income (loss) was allocated between the limited partnership interests and BGC Partners' common stockholders. In quarterly periods in which BGC Partners had a net loss, the loss allocation for FPU, LPU and Cantor units in BGC Holdings was allocated to Cantor and reflected as a component of Net income (loss) attributable to noncontrolling interest in subsidiaries in the Company's unaudited Condensed Consolidated Statements of Operations. In subsequent quarters in which BGC Partners had net income, the initial allocation of income to the limited partnership interests in BGC Holdings was to Cantor and was recorded as Net income (loss) attributable to noncontrolling interests in subsidiaries, to recover any losses taken in earlier quarters, with the remaining income

allocated to the limited partnership interests. This income (loss) allocation process had no impact on the net income (loss) allocated to common stockholders.3.ÄÄÄ Summary of Significant Accounting PoliciesFor a detailed discussion about the Company's significant accounting policies, see Note 3.ÄÄÄ Summary of Significant Accounting Policiesin its consolidated financial statements included in Part II, Item 8 of the Annual Report on Form 10-K for the year ended December 31, 2023. The excess of the consideration over the fair value of the net assets acquired has been recorded as goodwill totaling \$19.1ÄÄ million.Except where otherwise noted, the results of operations of the Company's acquisitions have been included in the Company's unaudited Condensed Consolidated Financial Statements subsequent to the date of acquisition. The Company has made a preliminary allocation of the consideration to the assets acquired and liabilities assumed for ContiCap and Open Energy Group as of the acquisition dates, and expects to finalize its analysis with respect to the acquisitions within the first year after the completion of the transactions. Therefore, adjustments to the preliminary allocation may occur. 5.ÄÄÄ DivestituresThe Company had no divestitures or sale of investments during both the nine months ended September 30, 2024 and 2023.35Table of Contents6.ÄÄÄ Earnings Per ShareBasic Earnings Per Share:The following is the calculation of the Company's basic EPS (in thousands, except per share data):Three Months Ended September 30,Nine Months Ended September 30,2024202320242023Basic earnings (loss) per share:Net income (loss) available to common stockholders\$14,747ÄÄ \$17,046ÄÄ \$101,785ÄÄ \$16,320ÄÄ Less: Dividends declared and allocation of undistributed earnings to participating securities(555)(1,072)(4,919)(1,072)Net income (loss) attributable to common stockholders\$14,192ÄÄ \$15,974ÄÄ \$96,866ÄÄ \$15,248ÄÄ Basic weighted-average shares of common stock outstanding473,435ÄÄ 468,544ÄÄ 473,076ÄÄ 412,178ÄÄ Basic earnings (loss) per share\$0.03ÄÄ \$0.03ÄÄ \$0.20ÄÄ \$0.04ÄÄ Fully Diluted Earnings Per Share:The following is the calculation of the Company's fully diluted EPS (in thousands, except per share data):Three Months Ended September 30,Nine Months Ended September 30,2024202320242023Fully diluted earnings (loss) per share:Net income (loss) attributable to common stockholders\$14,192ÄÄ \$15,974ÄÄ \$96,866ÄÄ \$15,248ÄÄ Add back: Allocations of net income (loss) to limited partnership interests, net of taxÄÄ \$ÄÄ \$ÄÄ \$ÄÄ \$ÄÄ (156)ÄÄ Add back: Allocations of undistributed earnings to participating securities243ÄÄ 823ÄÄ 4,065ÄÄ 823ÄÄ Less: Reallocation of undistributed earnings to participating securities(241)(808)(4,016)(808)Net income (loss) for fully diluted shares\$14,194ÄÄ \$15,989ÄÄ \$96,915ÄÄ \$15,107ÄÄ Weighted-average shares:Common stock outstanding473,435ÄÄ 468,544ÄÄ 473,076ÄÄ 412,178ÄÄ Partnership unitsÄÄ \$ÄÄ \$ÄÄ \$ÄÄ \$ÄÄ 76,528ÄÄ Non-participating RSUsÄÄ \$ÄÄ \$ÄÄ \$ÄÄ \$ÄÄ 1,874ÄÄ Other25,217ÄÄ 9,001ÄÄ 6,085ÄÄ 3,965ÄÄ Fully diluted weighted-average shares of common stock outstanding478,652ÄÄ 477,545ÄÄ 479,161ÄÄ 494,545ÄÄ Fully diluted earnings (loss) per share\$0.03ÄÄ \$0.03ÄÄ \$0.20ÄÄ \$0.03ÄÄ 1Partnership units collectively include FPU's, LPUs, and Cantor units (see Note 2.ÄÄÄ Limited Partnership Interests in BGC Holdings and Newmark Holdingsfor more information).2Primarily consists of contracts to issue shares of BGC common stock. A Commitments, Contingencies and Guarantees Contingencies In the ordinary course of business, various legal actions are brought and are pending against the Company and its subsidiaries in the U.S. and internationally. In some of these actions, substantial amounts are claimed. The Company is also involved, from time to time, in reviews, examinations, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's businesses, operations, reporting or other matters, which may result in regulatory, civil and criminal judgments, settlements, fines, penalties, injunctions, enhanced oversight, remediation, or other relief. The following generally does not include matters that the Company has pending against other parties which, if successful, would result in awards in favor of the Company or its subsidiaries. Employment, Competitor-Related and Other Litigation From time to time, the Company and its subsidiaries are involved in litigation, claims and arbitrations in the U.S. and internationally, relating to, inter alia, various employment matters, including with respect to termination of employment, hiring of employees currently or previously employed by competitors, terms and conditions of employment and other matters. In light of the competitive nature of the brokerage industry, litigation, claims and arbitration between competitors regarding employee hiring are not uncommon. The Company is also involved, from time to time, in other reviews, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's businesses. Any such actions may result in regulatory, civil or criminal judgments, settlements, fines, penalties, injunctions, enhanced oversight, remediation, or other relief. Legal reserves are established in accordance with U.S. GAAP guidance on Accounting for Contingencies, when a material legal liability is both probable and reasonably estimable. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change. The outcome of such items cannot be determined with certainty. The Company is unable to estimate a possible loss or range of loss in connection with specific matters beyond its current accruals and any other amounts disclosed. Management believes that, based on currently available information, the final outcome of these current pending matters will not have a material adverse effect on the Company's financial condition, results of operations, or cash flows. 70 Table of Contents Letter of Credit Agreements The Company has irrevocable uncollateralized letters of credit with various banks, where the beneficiaries are clearing organizations through which it transacts, that are used in lieu of margin and deposits with those clearing organizations. As of both September 30, 2024 and December 31, 2023, the Company was contingently liable for \$1.4 million under these letters of credit. Risk and Uncertainties The Company generates revenues by providing financial intermediary and brokerage activities to institutional customers and by executing and, in some cases, clearing transactions for institutional counterparties. Revenues for these services are transaction-based. As a result, revenues could vary based on the transaction volume of global financial markets. Additionally, financing is sensitive to interest rate fluctuations, which could have an impact on the Company's overall profitability. Financial instruments that potentially subject the Company to concentration of credit risk consist of cash accounts in a financial institution which, at times, may exceed the FDIC maximum coverage limit of \$250,000. Any loss incurred or a lack of access to such funds could have a significant adverse impact on the Company's Consolidated Financial Statements. For the three and nine months ended September 30, 2024 and 2023, the Company did not incur losses on any FDIC insured cash accounts. During the three months ended September 30, 2024 and 2023, the Company reserved no losses and \$2.0 million, respectively, in connection with potential losses associated with Russia's invasion of Ukraine. During the nine months ended September 30, 2024 and 2023, the Company reserved \$4.0 million and \$6.0 million, respectively, in connection with potential losses associated with Russia's invasion of Ukraine. These amounts are included in Other expenses on the Company's unaudited Condensed Consolidated Statements of Operations, and which was recorded as part of the allowance for credit losses (see Note 25 for Current Expected Credit Losses (CECL) for additional information). Insurance The Company is self-insured for health care claims, up to a stop-loss amount for eligible participating employees and qualified dependents in the U.S., subject to deductibles and limitations. The Company's liability for claims incurred but not reported is determined based on an estimate of the ultimate aggregate liability for claims incurred. The estimate is calculated from actual claim rates and adjusted periodically as necessary. The Company has accrued \$3.8 million and \$3.7 million in health care claims as of September 30, 2024 and December 31, 2023, respectively. The Company does not expect health care claims to have a material impact on its financial condition, results of operations, or cash flows. Guarantees The Company provides guarantees to securities clearinghouses and exchanges which meet the definition of a guarantee under FASB interpretations. Under these standard securities clearinghouse and exchange membership agreements, members are required to guarantee, collectively, the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. In the opinion of management, the Company's liability under these agreements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential of being required to make payments under these arrangements is remote. Accordingly, no contingent liability has been recorded in the Company's unaudited Condensed Consolidated Statements of Financial Condition for these agreements. 71 Table of Contents 20. A Income Taxes The Company's unaudited Condensed Consolidated Financial Statements include U.S. federal, state and local income taxes on the Company's allocable share of the U.S. results of operations, as well as taxes payable to jurisdictions outside the U.S. In addition, certain of the Company's entities are taxed as U.S. partnerships and are subject to the UBT in New York City. Therefore, the tax liability or benefit related to the partnership income or loss, except for UBT, rests with the partners (see Note 2 for Limited Partnership Interests in BGC Holdings and Newmark Holdings for discussion of partnership interests), rather than the partnership entity. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the unaudited condensed consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded against deferred tax assets if it is deemed more likely than not that those assets will not be realized. Pursuant to U.S. GAAP guidance, Accounting for Uncertainty in Income Taxes, the Company provides for uncertain tax positions as a component of income tax expense based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. As of both September 30, 2024 and December 31, 2023, the Company's unrecognized tax benefits, excluding related interest and penalties were \$6.7 million, of which \$5.5 million, if recognized, would affect the effective tax rate. The Company is currently open to examination by tax authorities in U.S. federal, state and local jurisdictions, and certain non-U.S. jurisdictions for tax years beginning 2018, 2011 and 2016, respectively. The Company is currently under examination by tax authorities in the U.S. federal and certain state, local and foreign jurisdictions. The Company does not believe that the amounts of unrecognized tax benefits will materially change over the next 12 months. The Company recognizes interest and penalties related to unrecognized tax benefits in Provision (benefit) for income taxes on the Company's unaudited Condensed Consolidated Statements of Operations. As of September 30, 2024 and December 31, 2023, the Company had accrued \$4.5 million and \$3.4 million, respectively, for income tax-related interest and penalties. 21. A Regulatory Requirements Many of the Company's businesses are subject to regulatory restrictions and minimum capital requirements. These regulatory restrictions and capital requirements may restrict the Company's ability to withdraw capital from its subsidiaries. Certain U.S. subsidiaries of the Company are registered as U.S. broker-dealers or FCMs subject to Rule 15c3-1 of the SEC and Rule 1.17 of the CFTC, which specify uniform minimum net capital requirements, as defined, for their registrants, and also require a significant part of the registrant's assets be kept in relatively liquid form. As of September 30, 2024, the Company's U.S. subsidiaries had net capital in excess of their minimum capital requirements. Certain U.K. and European subsidiaries of the Company are regulated by their national regulators, which include the FCA and Autorita dei Mercati. Financiers and must maintain financial resources (as defined by their national regulators) in excess of the total financial requirement (as defined by their national regulators). As of September 30, 2024, the U.K. and European subsidiaries had financial resources in excess of their requirements. Certain other subsidiaries of the Company are subject to regulatory and other requirements of the jurisdictions in which they operate. Certain BGC subsidiaries also operate as DCMs and DCOs which are required to maintain financial resources to cover operating costs for at least one year, keeping at least enough cash or highly liquid securities to cover six months' operating costs. In addition, BGC subsidiaries operate as SEFs which are required to maintain financial resources to cover operating costs for at least one year, keeping at least enough cash or highly liquid securities to cover the greater of three months of projected operating costs, or the projected costs needed to wind down the swap execution facility's operations. The regulatory requirements referred to above may restrict the Company's ability to withdraw capital from

its regulated subsidiaries. As of September 30, 2024, the Company's regulated subsidiaries held \$717.5 million of net capital. These subsidiaries had aggregate regulatory excess net capital of \$396.3 million. 72Table of Contents22. Disaggregation of Revenue See Note 22A "Segment, Geographic and Product Information," for a further discussion on the allocation of revenues to geographic regions. Contract BalancesThe timing of the Company's revenue recognition may differ from the timing of payment by its customers. The Company records a receivable when revenue is recognized prior to payment and the Company has an unconditional right to payment. Alternatively, when payment precedes the provision of the related services, the Company records deferred revenue until the performance obligations are satisfied. The Company had receivables related to revenues from contracts with customers of \$362.0 million and \$314.8 million at September 30, 2024 and December 31, 2023, respectively. The Company had no impairments related to these receivables during the three and nine months ended September 30, 2024 and 2023. 74Table of ContentsThe Company's deferred revenue primarily relates to customers paying in advance or billed in advance where the performance obligation has not yet been satisfied. Deferred revenue at September 30, 2024 and December 31, 2023 was \$24.2 million and \$14.7 million, respectively. During the three months ended September 30, 2024 and 2023, the Company recognized revenue of \$11.1 million and \$9.3 million, respectively, that was recorded as deferred revenue at the beginning of the period. During the nine months ended September 30, 2024 and 2023, the Company recognized revenue of \$12.4 million and \$10.5 million, respectively, that was recorded as deferred revenue at the beginning of the period. Contract CostsThe Company capitalizes costs to fulfill contracts associated with different lines of its business where the revenue is recognized at a point in time and the costs are determined to be recoverable. Capitalized costs to fulfill a contract are recognized at the point in time that the related revenue is recognized. The Company did not have any capitalized costs to fulfill a contract as of September 30, 2024 or December 31, 2023. 24. A A A LeasesThe Company, acting as a lessee, has operating leases and finance leases primarily relating to office space, data centers and office equipment. The leases have remaining lease terms of 0.5 years to 14.9 years, some of which include options to extend the leases in 0.1 to 10 year increments for up to 15 years. Renewal periods are included in the lease term only when renewal is reasonably certain, which is a high threshold and requires management to apply judgment to determine the appropriate lease term. Certain leases also include periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise the termination option. The Company measures its lease payments by including fixed rental payments and, where relevant, variable rental payments tied to an index, such as the Consumer Price Index. Payments for leases in place before the date of adoption of ASC 842, Leases, were determined based on previous leases guidance. The Company recognizes lease expense for its operating leases on a straight-line basis over the lease term, and variable lease expense not included in the lease payment measurement is recognized as incurred. Interest expense on finance leases is recognized using the effective interest method over the lease term. Pursuant to the accounting policy election, leases with an initial term of twelve months or less are not recognized on the balance sheet. The short-term lease expense over the period reasonably reflects the Company's short-term lease commitments. ASC 842 requires the Company to make certain assumptions and judgments in applying the guidance, including determining whether an arrangement includes a lease, determining the term of a lease when the contract has renewal or cancellation provisions, and determining the discount rate. The Company determines whether an arrangement is a lease or includes a lease at the contract inception by evaluating whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. If the Company has the right to obtain substantially all of the economic benefits from, and can direct the use of, the identified asset for a period of time, the Company accounts for the identified asset as a lease. The Company has elected the practical expedient to not separate lease and non-lease components for all leases other than real estate leases. The primary non-lease component that is combined with a lease component represents operating expenses, such as utilities, maintenance or management fees. As the rate implicit in the lease is not usually available, the Company used an incremental borrowing rate based on the information available at the adoption of ASC 842 in determining the present value of lease payments for existing leases. The Company has elected to use a portfolio approach for the incremental borrowing rate, applying corporate bond rates to the leases. The Company calculated the appropriate rates with reference to the lease term and lease currency. The Company uses information available at the lease commencement date to determine the incremental borrowing rate for any new leases. As of September 30, 2024, the Company did not have any leases that have not yet commenced but that create significant rights and obligations. 75Table of ContentsAfter evaluating the Company's leases, the Company determined that the carrying value of a certain asset was no longer recoverable and in fact was impaired. The fair value of the asset was based on expected future cash flows under ASC 842, and approximately \$1.4A million of impairment charges were booked for both the three and nine months ended September 30, 2024. Impairment charges are included in Occupancy and equipment in the Company's unaudited Condensed Consolidated Statement of Operations. We categorize our Fenics businesses as Fenics Markets and Fenics Growth Platforms. Fenics Markets includes the Fully Electronic portion of BGC’s brokerage businesses, data, network and post-trade revenues that are unrelated to Fenics Growth Platforms, as well as Fenics Integrated revenues. Fenics Growth Platforms includes FMX UST, Fenics GO, Lucera, FMX FX, PortfolioMatch and other newer standalone platforms. Revenues generated from data, network and post-trade attributable to Fenics Growth Platforms are included within their related businesses.Historically, technology-based product growth has led to higher margins and greater profits over time for exchanges and wholesale financial intermediaries alike, even if overall Company revenues remain consistent. This is largely because automated and electronic trading efficiency allows the same number of employees to manage a greater volume of trades as the marginal cost of incremental trading activity falls. Over time, the conversion of exchange-traded and OTC markets to Fully Electronic trading has also typically led to an increase in volumes which offset lower commissions, and often lead to similar or higher overall revenues. We have been a pioneer in creating and encouraging Hybrid and Fully Electronic execution, and continually work with our customers to expand such trading across more asset classes and geographies.82Table of ContentsThese electronic markets for OTC products have grown as a percentage of overall industry volumes over the past decade as firms like BGC have invested in the kinds of technology favored by our customers. Regulation across banking, capital markets, and OTC derivatives has accelerated the adoption of Fully Electronic execution, and we expect this demand to continue. We also believe that new clients, beyond our large bank customer base, will primarily transact electronically across our Fenics platforms.The combination of wider adoption of Hybrid and Fully Electronic execution and our competitive advantage in terms of technology and experience has contributed to our strong growth in electronically traded products. We continue to invest in our high-growth, high-margin, technology-driven businesses, including our standalone Fully Electronic Fenics Growth Platforms. Fenics has exhibited strong growth over the past several years, and we believe that this growth has outpaced the wholesale brokerage industry. We expect this trend to accelerate as we continue to convert more of our Voice/Hybrid execution into higher-margin, technology-driven execution across our Fenics platforms and continue to grow our Fenics Growth Platforms. We expect to benefit from the trend towards electronic trading, increased demand for market data, and the need for increased connectivity, automation, and post-trade services. We continue to onboard new customers as the opportunities created by electronic and algorithmic trading continue to transform our industry. We continue to roll out our next-generation Fenics execution platforms across more products and geographies with the goal of seamlessly integrating the liquidity of Voice transactions with customer electronic orders either by a GUI, API, or web-based interface.Revenues in our Fenics businesses increased 13.3%, to \$142.1A million, and 9.7%, to \$428.7A million, for the three and nine months ended September 30, 2024, respectively, as compared to the prior year periods. Within our Fenics businesses, Fenics Markets revenue grew 9.2%, to \$116.8A million, in the third quarter of 2024 as compared to the prior year period. Fenics Markets growth was driven by higher electronic volumes across Rates and Foreign Exchange.Fenics Growth Platforms revenue grew 37.3%, to \$25.3A million, in the third quarter of 2024, as compared to the prior year period, primarily driven by FMX, PortfolioMatch and Lucera. Collectively, our newer Fenics Growth Platform offerings are not yet fully up to scale, but continue to grow at a leading rate compared with other electronic trading platforms. Over time, we expect these new products and services to become profitable, high-margin businesses as their scale and revenues increase, all else equal.We continue to invest in our Fenics Growth Platforms, and notable highlights for the third quarter of 2024 include:FMX UST generated record ADV of \$53 billion for the third quarter, up 40% from third quarter of 2023. This translated into 29.4% market share for the third quarter, compared to 25.3% a year ago.FMX FX average daily volumes improved by over 38% compared to last year on record ADV of over \$9 billion. FMX FX continues to outperform and grow its market share in the enormous global foreign exchange market.FMX PortfolioMatch U.S. credit volumes increased more than 150% and its European volumes were up over nine-fold compared to last year.FMX Lucera, our network business providing critical real-time trading infrastructure to the capital markets, grew its revenue by over 34%. Lucera is leveraging its strength in the FX markets and expanding across the Rates landscape.Total revenues from our high-margin Data, network and post-trade business, which is predominately comprised of recurring revenue, increased by 17.5%, to \$32.7 million, and increased by 15.2%, to \$94.4 million, for the three and nine months ended September 30, 2024, respectively, as compared to the prior year periods. Data, network and post-trade revenue growth for the third quarter of 2024 was driven by strong subscription-based revenue growth across Fenics Market Data and Lucera.83Table of ContentsAcquisitionsOn October 22, 2024, the Company announced that it had executed a definitive agreement to acquire OTC Global. During the three and nine months ended September 30, 2024, the Company reserved no losses and \$4.0 million, respectively, in connection with unsettled trades and receivables with sanctioned Russian entities. During the three and nine months ended September 30, 2023, the Company reserved \$2.0 million and \$6.0 million, respectively, in connection with unsettled trades and receivables with sanctioned Russian entities.Tax Policy ChangesOn August 16, 2022, the IR Act was signed into federal law. The IR Act provides for, among other things, a new corporate alternative minimum tax based on 15% of adjusted financial statement income for applicable corporations. The IR Act also provides for a new U.S. federal 1% excise tax on certain repurchases (including redemptions) of stock by publicly traded U.S. corporations and certain U.S. subsidiaries of publicly traded foreign corporations. The excise tax is imposed on the repurchasing corporation itself and not its stockholders from which the shares are repurchased. In addition, certain exceptions apply to the excise tax. These tax provisions of the IR Act were effective January 1, 2023. The IR Act and related regulatory developments did not have a material impact on our financial statements nor is it expected to have a material impact in future periods.84Table of ContentsOn July 1, 2021, the OECD released a statement on the Two-Pillar Solution to Address the Tax Challenges Arising From the Digitalization of the Economy, reflecting the agreement of 130 of the member jurisdictions of the Inclusive Framework on some key parameters with respect to Pillars I and II. The objective is to introduce a global minimum tax rate of 15% applicable to multinational groups with global book revenue in excess of EUR 750 million. The tax has the effect of increasing the ETR to 15% in jurisdictions where the ETR calculated under the GloBE Rules is under 15%. In December 2022, the Council of the EU unanimously adopted the EU Minimum Tax Directive, which would require member states to implement these rules. Due to complexities in applying the legislation and calculating income under the GloBE Rules, the detailed quantitative impact of the enacted or substantively enacted legislation is not yet reasonably estimable. Management performed an analysis of the potential impact of the Pillar Two provisions on its multinational activities. Based on that analysis, management does not believe that the Pillar Two tax regime will result in a

material increase to its tax expense. Management will continue to evaluate the potential impact the Pillar Two Framework may have on the future results of operations and financial condition. Financial Services Industry The financial services industry has grown historically due to several factors. One factor was the increasing use of derivatives to manage risk or to take advantage of the anticipated direction of a market by allowing users to protect gains and/or guard against losses in the price of underlying assets without having to buy or sell the underlying assets. Derivatives are often used to mitigate the risks associated with interest rates, equity ownership, changes in the value of FX, credit defaults by corporate and sovereign debtors, and changes in the prices of commodity products. Over this same timeframe, demand from financial institutions, large corporations and other end-users of financial products have increased volumes in the wholesale derivatives market, thereby increasing the business opportunity for financial intermediaries. Another key factor in the historical growth of the financial services industry has been the increase in the number of new financial products. As market participants and their customers strive to mitigate risk, new types of equity and fixed income securities, futures, options and other financial instruments have been developed. Most of these new securities and derivatives were not immediately ready for more liquid and standardized electronic markets, and generally increased the need for trading and required broker-assisted execution. Due largely to the impacts of the global financial crisis of 2008-2009, our businesses had faced more challenging market conditions from 2009 until the second half of 2016. Accommodative monetary policies were enacted by several major central banks, including the Federal Reserve, Bank of England, Bank of Japan and the European Central Bank, in response to the global financial crises. These policies resulted in historically low levels of volatility and interest rates across many of the financial markets in which we operate. The global credit markets also faced structural issues, such as increased bank capital requirements under Basel III. Consequently, these factors contributed to lower trading volumes in our Rates and Credit asset classes across most geographies in which we operated. From mid-2016 until the first quarter of 2020, the overall financial services industry benefited from sustained economic growth, lower unemployment rates in most major economies, higher consumer spending, the modification or repeal of certain U.S. regulations, and higher overall corporate profitability. The trend towards digitization and electrification within the industry contributed to higher overall volumes and transaction count in Fully Electronic execution. From the second quarter of 2020 onward, concerns about the future trade relationship between the U.K. and the EU after Brexit, a slowdown in global growth driven by the outbreak of COVID-19, and an increase in trade protectionism were tempered by monetary and fiscal stimulus. During 2021, as the global economy recovered from the COVID-19 pandemic, higher inflation across the U.S. and other G8 countries led many central banks to begin and/or announce tapering and unwinding of asset purchases under quantitative easing programs, as well as implement multiple interest rate hikes. During the fourteen years between 2008 and 2022, BGC and the entire financial service industry's trading volumes were constrained by low interest rates and quantitative easing. Manufactured zero and near-zero interest rates caused the breakdown and disappearance of the historic correlation between issuance and trading volume growth. The change in central bank monetary policies away from zero interest rates, following the highest inflation in decades, together with meaningful interest rates set the stage for a resurgence in secondary market trading volumes for rates, credit and foreign exchange. We believe the return of this strong positive correlation in the current macro trading environment, which has meaningful interest rates and issuance that is multiples above 2008 levels, positions BGC to benefit and drive its trading volumes, revenue and profitability higher for the foreseeable future. 85Table of ContentsRecent Developments On March 4, 2024, the Company announced that it would be joining the S&P SmallCap 600 Index, with the inclusion taking effect before trading commenced on March 18, 2024. The S&P SmallCap 600 is designed to track the performance of the small-cap sector of the U.S. stock market. Brexit On January 1, 2021, the U.K. formally left the EU and U.K.-EU trade became subject to a new agreement that was concluded in December of 2020. The exit from the EU is commonly referred to as Brexit. Financial services fall outside of the scope of this trade agreement. At the time, the relationship was expected to be determined by a series of "equivalence decisions," each of which would grant mutual market access for a limited subset of financial services where either party finds the other party has a regulatory regime that achieves similar outcomes to its own. In March 2021, the U.K. and EU entered into a Memorandum of Understanding on Financial Services Regulatory Cooperation which creates a structure for dialogue but does not include commitments on equivalence. In light of ongoing uncertainties, market participants are still adjusting the way in which they conduct business between the U.K. and EU. The impact of Brexit on the U.K.-EU flow of financial services and economies of the U.K. and the EU member states continues to evolve. We have implemented measures to ensure continuity of service in Europe and continue to have regulated offices in place in many of the major European markets. As part of our ongoing Brexit strategy, ownership of BGC Madrid, Copenhagen and Frankfurt and GFI Paris, Madrid and Dublin branches were transferred to Aurel BGC SAS (a French-based operation and therefore based in the EU) in July 2020. We have been generally increasing our footprint in the EU, including the establishment of a new branch office of Aurel BGC SAS in Milan, and a new office in Monaco under a new local Monaco subsidiary. Regardless of these and other mitigating measures, our European headquarters and largest operations are in London, and market access risks and uncertainties have had and could continue to have a material adverse effect on our customers, counterparties, business, prospects, financial condition and results of operations. Furthermore, in the future the U.K. and EU's regulation may further diverge, which could disrupt and increase the costs of our operations, and result in a loss of existing levels of cross-border market access. Regulation Regulators in the U.S. have finalized most of the new rules across a range of financial marketplaces, including OTC derivatives, as mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act. Many of these rules became effective in prior years, while ongoing phase-ins are anticipated over coming years. In addition to regulations in the U.S., legislators and regulators in Europe have crafted similar rules: MiFID II, which made sweeping changes to market infrastructure, European Market Infrastructure Regulation, which focused specifically on derivatives, and Capital Requirements Directive IV for prudential standards. Over the past few years, European policymakers have launched various reviews of post-financial crisis legislation, leading to legislative updates such as EMIR Regulatory Fitness and Performance and CRD V. In May 2019, the European Securities Market Authority produced a report on proposals to further enhance the harmonization and standardization of derivatives reporting under EMIR, known as EMIR Refit. These proposals require significant changes to the content and format of trade and transaction reporting systems across the industry. The go-live date for these changes was April 29, 2024 for Europe and was September 30, 2024 for the U.K. We are in compliance with the reporting enhancements. Furthermore, regulators have introduced a new prudential regime tailored specifically to investment firms such as our firm's "Regulatory Investment Firm Review. These rules continue to alter the environment in which we operate. We note that various internal and external factors have made the EU more rigid in its regulatory approach to non-EU countries, which could impact the ease with which the global financial system is connected. 86Table of ContentsBy the end of 2024, a new European Commission is expected to take office which may, over the course of its five-year mandate, introduce new legislative proposals for the Financial Services Sector and change the Brexit landscape for EU and U.K. financial firms alike. We are unable to predict how any of these new laws and proposed rules and regulations in the U.S., the EU or the U.K. will be implemented or in what form, or whether any additional or similar changes to statutes or rules and regulations, including the interpretation or implementation thereof or a relaxation or other amendment of existing rules and regulations, will occur in the future. Any such action could affect us in substantial and unpredictable ways, including important changes in market infrastructure, increased reporting costs and a potential rearrangement in the sources of available revenue in a more transparent market. Certain enhanced regulations could subject us to the risk of fines, sanctions, enhanced oversight, increased financial or capital requirements and additional restrictions or limitations on our ability to conduct or grow our businesses, and could otherwise have an adverse effect on our businesses, financial condition, results of operations and prospects. We believe that uncertainty and potential delays around the final form of such new rules and regulations may negatively impact our customers and trading volumes in certain markets in which we transact, although a relaxation of existing rules and requirements could potentially have a positive impact in certain markets. Increased capital requirements may also diminish transaction velocity. BGC Derivative Markets and GFI Swaps Exchange, our subsidiaries, operate as SEFs. Mandatory Dodd-Frank Act compliant execution on SEFs by eligible U.S. persons for "omade available to trade" products and a wide range of other rules relating to the execution and clearing of derivative products have been implemented. We also own ELX, which became a dormant contract market on July 1, 2017, and in July 2021 we completed the purchase of the CX Futures Exchange (now FMX Futures Exchange) from Cantor, which represents our futures exchange and related clearinghouse. These rules require authorized execution facilities to maintain robust front-end and back-office IT capabilities and to make large and ongoing technology investments. These execution facilities may be supported by a variety of Voice and auction-based execution methodologies, and our Hybrid and Fully Electronic trading capability have performed strongly in this regulatory environment. On June 25, 2020, the CFTC approved a final rule prohibiting post-trade name give-up for swaps executed, prearranged or pre-negotiated anonymously on or pursuant to the rules of a SEF and intended to be cleared. The rule provides exemptions for package transactions that include a component transaction that is not a swap that is intended to be cleared. The rule went into effect on November 1, 2020 for swaps subject to the trade execution requirement under the Commodity Exchange Act Section 2(h)(8) and July 5, 2021 for swaps not subject to the trade execution requirement but intended to be cleared. On November 2, 2023, the SEC adopted Regulation SE under the Exchange Act to create a regime for the registration and regulation of SBSEFs. The SEC rules regarding the over-the-counter derivatives market seek to harmonize as closely as practicable with parallel rules of the CFTC that govern SEFs and swap execution generally. Among other things, Regulation SE under the Exchange Act made changes to implement the Exchange Act's trade execution requirement for security-based swaps and address the cross-border application of that requirement; implement Section 765 of the Dodd-Frank Act to mitigate conflicts of interest at SBSEFs and national securities exchanges that trade security-based swaps; and promote consistency between proposed Regulation SE and existing rules under the Exchange Act. Any entity that meets the definition of a SBSEF must file an application to register with the SEC within 180 days of the effective date of February 13, 2024. The SEC also adopted final rules on December 13, 2023 regarding central clearing of certain secondary market repurchase and reverse repurchase transactions and secondary market purchase and sale transactions involving U.S. Treasury securities. The central clearing mandate will impact certain market participants who do not clear today, and some have expressed concerns about the potential impact of additional clearing costs on liquidity. The full impact of this change, whether positive or negative, on our industry, our clients or us is unknown at this time. On October 25, 2024, the SEC adopted rule amendments and a new rule to improve the resilience and recovery and wind-down planning of covered clearing agencies. The rule amendments establish new requirements regarding a covered clearing agency's collection of intraday margin as well as a covered clearing agency's reliance on substantive inputs to its risk-based margin model. The new rule prescribes requirements for the contents of a covered clearing agency's recovery and wind-down plan. The full impact of this change, whether positive or negative, on our industry, our clients or us is unknown at this time. 87Table of ContentsOn February 6, 2024, the SEC adopted under Exchange Act Rules 3a5-4 and 3a44-2, which expanded the definitions of "dealer" and "government securities dealer" under the Exchange Act to cover additional market participants engaged in liquidity-providing activities. The final rules were published in the Federal Register on February 29, 2024, are effective as of April 29, 2024 with a compliance deadline one year later on April 29, 2025. These rules provide a new standard for determining what it means for a person's securities activities to be conducted "as a part of a regular business" within the definitions of "dealer" and "government securities dealer," essentially capturing market participants who regularly express trading interest on both sides of the market and earn revenue primarily from bid-ask spreads. This new standard requires such market participants to register as dealers if they meet the criteria. This may have an impact on some of our clients; however, it is not expected to materially affect us or our operational workflows. In addition, several state-level laws in the U.S. that have recently come into effect, and may come into effect in the future, have created and will create new compliance obligations in relation to personal data. See "Regulation" included in Part I, Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information related to our regulatory environment. Industry Consolidation Over the past decade, there has been significant consolidation among the interdealer-brokers and wholesale brokers with which we compete. We continue to compete with the electronic markets, post-trade and information businesses of the CME through the various offerings on our Fenics platform, which includes FMX. We will also continue to compete with TP ICAP and Tradition across various Voice/Hybrid brokerage marketplaces as well as via Fenics. Additionally, there has been an increase in acquisitions of OTC trading platforms by exchanges and electronic marketplaces, such as ICE buying BondPoint and TMC Bonds, Deutsche Borse buying 360T, CBOE buying Hotspot, MarketAxess buying LiquidityEdge, Tradeweb buying Nasdaq's U.S. Fixed Income Electronic Trading Platform, r8fin and ICD, LSEG acquiring Quantile, etc. We view the recent consolidation in the industry favorably, as we expect it to provide additional operating leverage to our businesses in the future. Growth Drivers As a wholesale intermediary in the financial services industry, our businesses are driven primarily by secondary trading volumes in the markets in which we broker, the size and productivity of our front-office personnel, regulatory issues, and the percentage of our revenues we are able to generate by Fully Electronic means. BGC's revenues tend to have low correlation in the short- and medium-term with global bank and broker-dealer sales and trading revenues, which reflect bid-ask spreads and mark-to-market movements, as well as industry volumes in both the primary and secondary markets. Below is a brief analysis of the market and industry volumes for some of our products, including our overall Hybrid and Fully Electronic execution activities. Overall Market Volumes and Volatility Volume is driven by a number of factors, including the level of issuance for financial instruments, price volatility of financial instruments, macro-economic conditions, creation and adoption of new products, regulatory environment, and the introduction and adoption of new trading technologies. Historically, increased price volatility has often increased the demand for hedging instruments, including many of the cash and derivative products that we broker. Rates volumes in particular are influenced by market volumes and, in certain instances, volatility. Historically low and negative interest rates, as well as central bank quantitative easing programs, across the globe significantly reduced the overall trading appetite for rates products. Such programs depressed rates volumes because they entail central banks buying government securities or other securities in the open market in an effort to promote increased lending and liquidity and bring down long-term interest rates. When central banks hold these instruments, they tend not to trade or hedge, thus lowering rates volumes across cash and derivatives markets industry-wide. Following the market dislocation and pandemic, major central banks such as the U.S. Federal Reserve, ECB, Bank of Japan, Bank of England, and Swiss National Bank restarted quantitative easing programs in 2020. Beginning in 2022 inflationary concerns have resulted in rising interest rates and tapering and/or unwinding of central bank asset purchases. The return of interest rates has led to improved macro trading conditions which has benefited BGC. This improved backdrop is expected to support both BGC's Fenics and Voice/Hybrid businesses for the foreseeable future. 88Table of ContentsAdditional factors have weighed on market volumes in the products we broker. For example, the Basel III accord, implemented in late 2010 by the G-20 central banks, is a global regulatory framework on bank capital adequacy, stress testing and market liquidity risk that was developed with the intention of making banks more stable in the wake of the financial crisis by increasing bank liquidity and reducing bank leverage. The accord, which took effect on January 1, 2023, requires most large banks in G-20 nations to hold approximately three times as much Tier 1 capital as was required under the previous set of rules. These capital rules have made it more expensive for banks to hold non-sovereign debt assets on their balance sheets, and as a result, analysts say that banks have reduced their proprietary trading activity in corporate and asset-backed fixed income securities as well as in various other OTC cash and derivative instruments. We believe that this has further reduced overall market exposure and industry volumes in many of the products we broker, particularly in Credit. During the three months ended September 30, 2024, industry volumes were generally higher across Rates, ECS, FX, Credit, and Equities compared to the prior year period. BGC's brokerage revenues were up by 15.1% year-on-year in the quarter, reflecting broad-based growth across all geographies and strong double-digit revenue growth across BGC's three largest asset classes, Rates, ECS and FX. Below is an expanded discussion of the volume and growth drivers of our various brokerage product categories. Rates Volumes and Volatility Our Rates business is influenced by a number of factors, including global sovereign issuances, interest rates, central bank policies, secondary trading and the hedging of these sovereign debt instruments. The amount of global sovereign debt outstanding remains at historically high levels; the level of secondary trading and related hedging activity was higher during the third quarter of 2024 compared to the prior year period. According to Bloomberg and the Federal Reserve Bank of New York, the Primary Dealer average daily volume of U.S. Government Securities was up 26% compared to the prior year period. Over the same time period, listed products on CME were up 36%, while OTC interest rate derivative volumes traded on SEF were up 41% compared to the third quarter of 2023, according to Clarus Financial Technology. In comparison, our overall Rates revenues were up 19.6%, as compared to a year earlier, to \$174.3 million. Our Rates revenues, like the revenues for most of our products, are not fully dependent on market volumes and, therefore, do not always fluctuate consistently with industry metrics. This is largely because our Voice, Hybrid, and Fully Electronic Rates desks often have volume discounts built into their price structure, which results in our Rates revenues being less volatile than the overall industry volumes. Overall, analysts and economists expect the absolute level of sovereign debt outstanding to remain at elevated levels for the foreseeable future as governments finance their future deficits and roll over their sizable existing debt. Additionally, yields on government bonds have steadily increased in 2022 and 2023, which gave rise to increased volatility and higher demand to hedge interest rate exposure. Recent and potential future monetary policy changes by major central banks have given rise to higher levels of interest rate trading activity and are expected to

party continued tailwinds to our Rates business.ECS SalesVolumesECS volumes were higher during the third quarter of 2024 compared to the prior year period. CME and ICE energy futures and options volumes were up 21% and 23%, respectively, compared to the prior year period. In comparison, BGC&acircm's ECS revenues increased 21.3%, compared to the prior year period, to \$112.9 million.Foreign Exchange Volumes and VolatilityGlobal FX volumes were higher during the third quarter of 2024. Volumes for CME EBS spot FX was up 23%, while Euronext FX was up 17%, during the quarter compared to the prior year period. In comparison, our overall FX revenues increased by 15.4%, compared to the prior year period, to \$92.1&acircm million.89Table of ContentsCredit VolumesOur Credit business is impacted by the level of global corporate bond issuance and interest rates. Credit volumes were higher during the third quarter of 2024 compared to the prior year period. FINRA TRACE average daily volume for U.S. Investment Grade was up 38% and U.S. High Yield was up 25% according to Bloomberg. In comparison, our overall Credit revenues increased by 6.7%, compared to the prior year period, to \$68.0 million.Equities VolumesGlobal equity volumes were generally higher during the third quarter of 2024 compared to the prior year period. According to the Securities Industry and Financial Markets Association, or SIFMA, the average daily volume of U.S. cash equities traded was up 10% as compared to a year earlier. Over the same timeframe, Eurex average daily volumes of equity and equity index derivatives were up 4%, and according to the OCC, the average daily volume of U.S. options was up 12%. BGC&acircm's equity business primarily consists of equity derivatives. Our overall revenues from Equities increased by 1.3%, compared to the prior year period, to \$53.3 million.REGULATORY ENVIRONMENTSee&acircm Regulation&acircm in Part I, Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information related to our regulatory environment.LIQUIDITYSee&acircm Liquidity and Capital Resources&acircm herein for information related to our Liquidity and capital resources.HIRINGKey drivers of our revenue are front-office producer headcount and average revenue per producer. We believe that our strong technology platform and unique compensation structure have enabled us to use both acquisitions and recruiting to uniquely position us to be able to outperform our peer group. We have invested significantly through acquisitions and the hiring of new brokers, salespeople, managers, technology professionals and other front-office personnel. The business climate for these acquisitions has been competitive, and it is expected that these conditions will persist for the foreseeable future. We have been able to attract businesses and brokers, salespeople, managers, technology professionals and other front-office personnel to our platform as we believe they recognize that we have the scale, technology, experience and expertise to succeed.As of September&acircm 30, 2024, our front-office headcount was 2,121 brokers, salespeople, managers, technology professionals and other front-office personnel, up 4.2% from 2,036 a year ago. Compared to the prior year, average revenue per front-office employee for the three months ended September&acircm 30, 2024, increased by 10.6%, to \$0.3 million.The laws and regulations passed or proposed on both sides of the Atlantic concerning OTC trading seem likely to favor increased use of technology by all market participants, and are likely to accelerate the adoption of both Hybrid and Fully Electronic&acircm execution. We believe these developments will favor the larger inter-dealer brokers over smaller, non-public local competitors, as the smaller players generally do not have the financial resources to invest the necessary amounts in technology. We believe this will lead to further consolidation across the wholesale financial brokerage industry, and thus allow us to grow profitably.90Table of ContentsFINANCIAL HIGHLIGHTSFor the three months ended September 30, 2024 compared to the three months ended September&acircm 30, 2023Income from operations before income taxes was \$19.7 million compared to \$23.9 million in the prior year period.Total revenues increased \$78.4 million compared to the prior year period, or 16.2%, to \$561.1 million, largely due to growth of 15.1% in our brokerage revenues, driven by strong growth across each of our asset classes:&acircm Rates increased \$28.6 million, or 19.6%;&acircm ECS increased \$19.8 million, or 21.3%;&acircm FX increased \$12.3 million, or 15.4%;&acircm Credit increased \$4.3 million, or 6.7%; and&acircm Equities increased \$0.7 million, or 1.3%. The increase in BGC revenues also reflects broad-based growth across all geographies&acircm the Americas, EMEA, and APAC grew by 19.0%, 16.5%, and 8.3%, respectively.Total expenses increased \$83.1 million, or 17.9%, to \$548.0 million. There was a \$54.6 million increase in total compensation expenses primarily driven by an increase in equity-based compensation and higher commission revenues on variable compensation. The \$28.5 million increase in non-compensation expenses was primarily driven by increases in consulting and other professional fees, increases in occupancy and equipment related to costs for exiting a lease and software licenses, and increases in interest expense related to the BGC Group 6.600% Senior Notes issued June 10, 2024. These higher interest expenses were partially offset by lower interest due to the repayment in full of the BGC Partners 5.375% Senior Notes on July 24, 2023. Overall, the higher interest expense was more than offset by higher interest income during the period. For the nine months ended September 30, 2024 compared to the nine months ended September&acircm 30, 2023:Income from operations before income taxes of \$146.0 million compared to \$25.8 million for the same period in the prior year.Total revenues increased \$181.8 million, or 12.1%, to \$1,690.5 million, largely due to growth of 11.0% in our brokerage revenues:&acircm ECS increased \$67.7 million, or 24.0%;&acircm Rates increased \$60.8 million, or 13.4%;&acircm FX increased \$27.6 million, or 11.6%;&acircm Credit increased \$5.9 million, or 2.7%; and&acircm Equities decreased \$10.6 million, or 5.9%. There was a \$61.1 million increase in total compensation expenses, which was primarily driven by higher commissionable revenues on variable compensation, and an increase in headcount. These higher compensation expenses were partially offset by a \$29.3 million decrease in equity-based compensation, which was primarily a result of a \$60.9&acircm million charge for the redemption of certain non-exchangeable limited partnership units in connection with the issuance of shares of BGC Group Class A common stock and the accompanying tax payments related to the Corporate Conversion in the nine months ended September 30, 2023. The \$44.5 million increase in non-compensation expenses was primarily driven by increases in interest expense related to the BGC Partners 8.000% Senior Notes issued on May 24, 2023, the BGC Group 6.000% Senior Notes issued June 10, 2024, and borrowings on both the Revolving Credit Agreement and BGC Credit Agreement. 1 Includes Fenics Integrated. LIQUIDITY AND CAPITAL RESOURCES Balance Sheet Our balance sheet and business model are not capital intensive. Our assets consist largely of Cash and cash equivalents, collateralized and uncollateralized short-dated receivables and less liquid assets needed to support our business. Longer-term capital (equity and notes payable) is held to support the less liquid assets and potential capital investment opportunities. Total assets as of September 30, 2024 were \$4.4 billion, an increase of 38.0% as compared to December 31, 2023. The increase in total assets was driven primarily by an increase in Receivables from broker-dealers, clearing organizations, customers and related broker-dealers, Financial instruments owned, at fair value, Accrued commissions and other receivables, net and Loan receivable from related parties. We maintain a significant portion of our assets in Cash and cash equivalents and Financial instruments owned, at fair value, with Cash and cash equivalents as of September 30, 2024 of \$563.5 million, and our Liquidity as of September 30, 2024 of \$772.5 million. See "Liquidity Analysis" below for a further discussion of our Liquidity and a reconciliation to the most comparable GAAP financial measure. Our Financial instruments owned, at fair value, were \$211.0 million as of September 30, 2024, compared to \$45.8 million as of December 31, 2023. As part of our cash management process, we may enter into Reverse Repurchase Agreements and other short-term investments, some of which may be with Cantor. As of both September 30, 2024 and December 31, 2023, there were no Reverse Repurchase Agreements outstanding. Our Repurchase Agreements as of September 30, 2024 were \$2.0 million, which matured on October 1, 2024. We had no Repurchase Agreements as of December 31, 2023. As of both September 30, 2024 and December 31, 2023 there were no securities loaned outstanding. 100Table of ContentsAt December 31, 2019, the Company completed the calculation of the one-time transition tax on the deemed repatriation of foreign subsidiaries' earnings pursuant to the Tax Act and previously recorded a net cumulative tax expense of \$28.6A million, net of foreign tax credits. During the second quarter of 2024, the Company settled its 2017 audit with the Internal Revenue Service which included the transition tax. The revised net cumulative transition tax expense is \$25.3 million, net of foreign tax credits, resulting in a net adjustment of the payable balance by \$3.3 million. An installment election can be made to pay the taxes over eight years with 40% paid in equal installments over the first five years and the remaining 60% to be paid in installments of 15%, 20% and 25% in years six, seven and eight, respectively. The cumulative remaining balance as of September 30, 2024 was \$11.4A million. On June 10, 2024, Cantor borrowed \$180.0A million from the Company under the BGC Credit Agreement. On July 31, 2024, Cantor made a partial repayment of \$18.0 million to the Company of the \$180.0 million borrowed from the Company under the BGC Credit Agreement. On September 25, 2024, Cantor made an additional partial repayment of \$12.0 million to the Company of the initial \$180.0 million borrowed from the Company under the BGC Credit Agreement. As of September 30, 2024, Cantor had \$150.0 million of borrowings outstanding from the Company under the BGC Credit Agreement. The Company recorded interest income related to the BGC Credit Agreement of \$3.0A million and \$3.8A million for the three and nine months ended September 30, 2024, respectively. The Company did not record any interest income related to the BGC Credit Agreement for the three and nine months ended September 30, 2023. As of September 30, 2024, the interest rate on this facility was 6.96%. On October 1, 2024, Cantor repaid in full the remaining \$150.0A million of borrowings outstanding to the Company under the BGC Credit Agreement, plus accrued interest. See Note 13A "Related Party Transactions," Note 17A "Notes Payable and Other Borrowings," and Note 26A "Subsequent Events" to our unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information regarding our BGC Credit Agreement with Cantor. Additionally, in August 2013, the Audit Committee authorized us to invest up to \$350.0A million in an asset-backed commercial paper program for which certain Cantor entities serve as placement agent and referral agent. The program issues short-term notes to money market investors and is expected to be used from time to time as a liquidity management vehicle. The notes are backed by assets of highly rated banks. We are entitled to invest in the program so long as the program meets investment policy guidelines, including policies relating to ratings. Cantor will earn a spread between the rate it receives from the short-term note issuer and the rate it pays to us on any investments in this program. This spread will be no greater than the spread earned by Cantor for placement of any other commercial paper note in the program. As of both September 30, 2024 and December 31, 2023, we did not have any investments in the program. Funding Our funding base consists of longer-term capital (equity and notes payable), collateralized financings and shorter-term liabilities incurred through the normal course of business. We have limited need for short-term unsecured funding in our regulated entities for their brokerage business. Contingent liquidity needs are largely limited to potential cash collateral that may be needed to meet clearing bank, clearinghouse, and exchange margins and/or to fund fails. Current cash and cash equivalent balances exceed our potential normal course contingent liquidity needs. We believe that cash and cash equivalents in and available to our largest regulated entities, inclusive of financing provided by clearing banks and cash segregated under regulatory requirements, is adequate for potential cash demands of normal operations, such as margin or financing of fails. We expect our operating activities going forward to generate adequate cash flows to fund normal operations, share repurchases, and any dividends paid pursuant to our dividend policy. However, we continually evaluate opportunities for growth and to further enhance our strategic position, including, among other things, acquisitions, strategic alliances and joint ventures potentially involving all types and combinations of equity, debt and acquisition alternatives. As a result, we may need to raise additional funds to: (i) increase the regulatory net capital necessary to support operations; (ii) support continued growth in our businesses; (iii) effect acquisitions, strategic alliances, joint ventures and other transactions; (iv) develop new or enhanced products, services and markets; and (v) respond to competitive pressures. Acquisitions and financial reporting obligations related thereto may impact our ability to access longer term capital markets funding on a timely basis and may necessitate greater short-term borrowings in the interim. This may impact our credit rating or our costs of borrowing. We may need to access short-term capital sources to meet business needs from time to time, including, but not limited to, conducting operations; hiring or

retaining brokers, salespeople, managers, technology professionals and other front-office personnel; financing acquisitions; and providing liquidity, including in situations where we may not be able to access the capital markets in a timely manner when desired by us. Accordingly, we cannot guarantee that we will be able to obtain additional financing when needed on terms that are acceptable to us, if at all.101Table of ContentsAs discussed below, our Liquidity remained strong at \$772.5 million as of September 30, 2024, which can be used for share repurchases, dividends, new hires, tax payments, ordinary movements in working capital, and our continued investment in Fenics Growth Platforms. During the nine months ended September 30, 2024, we repurchased 26.3 million shares of BGC Class A common stock for aggregate consideration of \$211.9 million, representing a weighted-average price per share of \$8.07. As of November 7, 2024, we have repurchased an additional 5.3 million shares of BGC Class A common stock during the fourth quarter for aggregate consideration of \$50.0 million, representing a weighted-average price per share of \$9.42. On October 30, 2024, our Board declared a \$0.02 dividend for the third quarter of 2024. Our current capital allocation priorities are to return capital to stockholders and to continue investing in the growth of our business. Between April 23, 2024 and April 24, 2024, the FMX Equity Partners contributed \$171.7 million into FMX. Notes Payable and Other Borrowings Unsecured Senior Revolving Credit Agreement On March 12, 2024, the Company repaid in full the \$240.0 million of borrowings then-outstanding under the Revolving Credit Agreement, which had been borrowed in 2023. The borrowing rates and financial covenants under the amended and restated Revolving Credit Agreement are substantially unchanged. On October 1, 2024, the Company borrowed \$200.0 million under the Revolving Credit Agreement and such borrowings were outstanding as of November 7, 2024. See Note 17 “Notes Payable and Other Borrowings” to our unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information regarding our Revolving Credit Agreement. BGC Credit Agreement with Cantor On March 8, 2024, the Company entered into a second amendment to the BGC Credit Agreement which amends the BGC Credit Agreement to provide that the parties and their respective subsidiaries may borrow up to an aggregate principal amount of \$400.0 million from each other from time to time at an interest rate equal to 25 basis points less than the interest rate on the respective borrower’s short-term borrowings rate then in effect. On June 7, 2024, the Company entered into a third amendment to the BGC Credit Agreement. The third amendment provides that the parties and their respective subsidiaries may borrow up to the total available aggregate principal amount of \$400.0 million pursuant to a new category of “FICC-GSD Margin Loans.” All other terms of the BGC Credit Agreement, including terms applicable to loans made thereunder that are not FICC-GSD Margin Loans, remain the same. On March 12, 2024, the Company borrowed \$275.0 million from Cantor under the BGC Credit Agreement and used the proceeds from such borrowing to repay the principal and interest related to all of the \$240.0 million of borrowings outstanding under the Revolving Credit Agreement. On April 1, 2024, we repaid in full the principal and interest related to the \$275.0 million of borrowings outstanding under the BGC Credit Agreement. As of September 30, 2024, there were no borrowings by the Company outstanding under the BGC Credit Agreement. As of December 31, 2023, there were no borrowings by BGC Partners or Cantor outstanding under this agreement. The Company did not record any interest expense related to the BGC Credit Agreement for the three months ended September 30, 2024. Repurchases of Company Debt Securities, if any, are expected to reduce future cash interest payments, as well as future amounts due at maturity or upon redemption. Under the authorization, the Company may make repurchases of Company Debt Securities for cash from time to time in the open market or in privately negotiated transactions upon such terms and at such prices as management may determine. Additionally, the Company is authorized to make any such repurchases of Company Debt Securities through CF&Co (or its affiliates), in its capacity as agent or principal, or such other broker-dealers as management shall determine to utilize from time to time, and such repurchases shall be subject to brokerage commissions which are no higher than standard market commission rates. As of September 30, 2024, the Company had \$49.5 million remaining under its debt repurchase authorization. LIQUIDITY ANALYSIS We consider our Liquidity, a non-GAAP financial measure, to be comprised of the sum of Cash and cash equivalents, Reverse Repurchase Agreements, and Financial Instruments owned, at fair value, less securities loaned and Repurchase Agreements. We

consider liquidity to be an important metric for determining the amount of cash that is available or that could be readily available to the Company on short notice. The discussion below describes the key components of our Liquidity analysis. We believe our cash, cash flows, and financing arrangements are sufficient to support our cash requirements for the next twelve months and beyond. We consider the following in analyzing changes in our Liquidity: Our Liquidity analysis includes a comparison of our Consolidated net income (loss) adjusted for certain non-cash items (e.g., Equity-based compensation) as presented on the cash flow statement. Dividends are payments made to our holders of common shares and are related to earnings from prior periods. These timing differences will impact our cash flows in a given period; Our investing and funding activities represent a combination of our capital raising activities, including short-term borrowings and repayments, BGC Class A common stock repurchases and, previously, partnership unit redemptions, purchases and sales of securities, dispositions, and other investments (e.g., acquisitions, forgivable loans to new brokers and capital expenditures all net of depreciation and amortization); Our securities settlement activities primarily represent deposits with clearing organizations; Other changes in working capital represent changes primarily in receivables and payables and accrued liabilities that impact our Liquidity; and Changes in Reverse Repurchase Agreements and Financial Instruments owned, at fair value may result from additional cash investments or sales, which will be offset by a corresponding change in Cash and cash equivalents and, accordingly, will not result in a change in our Liquidity. Conversely, changes in the market value of such securities are reflected in our earnings or other comprehensive income (loss) and will result in changes in our Liquidity. As of September 30, 2024, the Company and its consolidated subsidiaries had \$563.5 million of Cash and cash equivalents. The Company and its consolidated subsidiaries held securities worth \$211.0 million within their Liquidity position as of September 30, 2024. As of September 30, 2024, the Company and its consolidated subsidiaries had \$2.0 million of Reverse Repurchase Agreements. 106 Table of Contents Discussion of the nine months ended September 30, 2024 The table below presents our Liquidity Analysis as of September 30, 2024 and December 31, 2023: September 30, 2024 December 31, 2023 (in thousands) Cash and cash equivalents \$563,467 \$655,641 Financial instruments owned, at fair value \$211,026 \$45,792 Reverse repurchase agreements (1,962) \$772,531 \$701,433 The \$71.1 million increase in our Liquidity position from \$701.4 million as of December 31, 2023 to \$772.5 million as of September 30, 2024 was primarily related to a \$165.2 million increase in Financial Instruments owned, at fair value due to the Company purchasing treasury bills that mature on December 12, 2024 and had a carrying value of \$148.6 million as of September 30, 2024. In September 2024, the Company purchased additional treasury bills that mature on December 31, 2024 and had a carrying value of \$14.8 million as of September 30, 2024. Furthermore, Cash and cash equivalents decreased by \$92.2 million. The Company received \$171.7 million of contributions from the FMX Equity Partners, which the Company used to purchase \$146.1 million of treasury bills. The remaining movement in the Cash and cash equivalents balance is primarily due to the issuance of an aggregate of \$500.0 million principal amount of the BGC Group 6.600% Senior Notes, which were partially offset by the Company's repayment of \$240.0 million of borrowings on the Revolving Credit Agreement and Cantor borrowing \$150.0 million from the Company under the BGC Credit Agreement, share repurchases of \$212.2 million, ordinary movements in working capital, capitalized expenditures, tax payments, dividends, and our continued investment in Fenics Growth Platforms and cash flows used in operations. Discussion of the nine months ended September 30, 2023 The table below presents our Liquidity Analysis as of September 30, 2023 and December 31, 2022: September 30, 2023 December 31, 2022 (in thousands) Cash and cash equivalents \$559,587 \$484,989 Reverse Repurchase Agreements \$A Financial instruments owned, at fair value \$45,453 \$39,319 Total \$605,040 \$524,308 The \$80.7 million increase in our Liquidity position from \$524.3 million as of December 31, 2022 to \$605.0 million as of September 30, 2023, was primarily related to the issuance of \$350.0 million principal amount of BGC Partners 8.000% Senior Notes, \$240.0 million of borrowings from the Revolving Credit Agreement, and cash flow from operations, partially offset by the repayment of the \$450.0 million principal amount of, plus accrued interest on, the BGC Partners 5.375% Senior Notes, ordinary movements in working capital, the acquisition of Trident, tax payments, dividends and distributions, share repurchases, and our continued investments in Fenics Growth Platforms. CREDIT RATINGS As of September 30, 2024, our public long-term credit ratings and associated outlooks were as follows: Rating Outlook Fitch Ratings Inc. BBB-Stable Standard & Poor's sBBB-Stable Japan Credit Rating Agency, Ltd. BBB+ Stable Kroll Bond Rating Agency BBB Stable 107 Table of Contents Credit ratings and associated outlooks are influenced by a number of factors, including, but not limited to: operating environment, earnings and profitability trends, the prudence of funding and liquidity management practices, balance sheet size/composition and resulting leverage, cash flow coverage of interest, composition and size of the capital base, available liquidity, outstanding borrowing levels and the firm's competitive position in the industry. A credit rating and/or the associated outlook can be revised upward or downward at any time by a rating agency if such rating agency decides that circumstances warrant such a change. Any downgrade in our credit ratings and/or the associated outlooks could adversely affect the availability of debt financing on terms acceptable to us, as well as the cost and other terms upon which we are able to obtain any such financing. In addition, credit ratings and associated outlooks may be important to customers or counterparties when we compete in certain markets and when we seek to engage in certain transactions. In connection with certain agreements, we may be required to provide additional collateral in the event of a credit ratings downgrade. CLEARING CAPITAL In November 2008, we entered into the Clearing Capital Agreement with Cantor to clear U.S. Treasury and U.S. government agency securities transactions on our behalf. In June 2020, the Clearing Capital Agreement was amended to cover Cantor providing clearing services in all eligible financial products to us and not just U.S. Treasury and U.S. government agency securities. Pursuant to the terms of this agreement, so long as Cantor is providing clearing services to us, Cantor shall be entitled to request from us cash or other collateral acceptable to Cantor in the amount reasonably requested by Cantor under the Clearing Capital Agreement or Cantor will post cash or other collateral on our behalf for a commercially reasonable charge. On June 7, 2024, we amended the Clearing Capital Agreement to modify the rate charged by Cantor for posting margin in respect of trades cleared on behalf of the Company to a rate equal to Cantor's cost of funding such margin through a draw on a third party credit facility provided to Cantor for which the use of proceeds is to finance clearinghouse margin deposits and related transactions. The Clearing Capital Agreement amendment also assigned BGC Partners' rights and obligations thereunder to BGC Group. During the three months ended September 30, 2024 and 2023, the Company was charged \$1.4 million and \$0.7 million, respectively, by Cantor for the cash or other collateral posted by Cantor on BGC's behalf. During the nine months ended September 30, 2024 and 2023, the Company was charged \$3.3 million and \$1.5 million, respectively, by Cantor for the cash or other collateral posted by Cantor on BGC's behalf. Cantor held cash or other property from the Company as collateral as of September 30, 2024 at a fair value of \$148.6 million. REGULATORY REQUIREMENTS Our Liquidity and available cash resources are restricted by regulatory requirements applicable to our operating subsidiaries. Many of these regulators, including U.S. and non-U.S. government agencies and self-regulatory organizations, as well as state securities commissions in the U.S., are empowered to conduct administrative proceedings that can result in civil and criminal judgments, settlements, fines, penalties, injunctions, enhanced oversight, remediation, or other relief. In addition, self-regulatory organizations, such as FINRA and the NFA, along with statutory bodies such as the FCA, the SEC, and the CFTC, require strict compliance with their rules and regulations. The requirements imposed by regulators are designed to ensure the integrity of the financial markets and to protect customers and other third parties who deal with broker-dealers and are not designed to specifically protect stockholders. These regulations often serve to limit our activities, including through net capital, customer protection and market conduct requirements. The final phase of Basel III (unofficially called the Basel IV) is a global prudential regulatory standard designed to make banks more resilient and increase confidence in the banking system. Its wide scope includes reviewing market, credit and operational risk along with targeted changes to leverage ratios. Basel IV includes updates to the calculation of bank capital requirements with the aim of making outcomes more comparable across banks globally. The FCA is the relevant statutory regulator in the U.K. The FCA's objectives are to protect customers, maintain the stability of the financial services industry and promote competition between financial services providers. It has broad rule-making, investigative and enforcement powers derived from the Financial Services and Markets Act 2000 and subsequent derivative legislation and regulations. 108 Table of Contents In January 2022, the FCA introduced a new Internal Capital and Risk Assessment (ICARA) process as a replacement for the Internal Capital Adequacy Assessment Process (ICAAP). The ICARA process incorporates business model assessment, forecasting and stress testing, recovery planning and wind-down planning. All firms were required to submit their proposed ICARA documentation by March 31, 2023, and then review its adequacy on an annual basis thereafter, after which the FCA provide feedback that may require further documentation and may lead to a change in capital requirements. The adoption of these proposed rules could restrict the ability of our large bank and broker-dealer customers to operate trading businesses and to maintain current capital market exposures under the present structure of their balance sheets, and will cause these entities to need to raise additional capital in order to stay active in our marketplaces. In July 2023, the FCA further ensured that Consumer Duty is at the heart of every financial institution by rolling out Principle 12 specifically related to Consumer Duty, where a firm must act to deliver good outcomes for retail customers. This initiative is poised to redefine the relationship between consumers and financial institutions, where the FCA has demanded financial institutions foster a culture of trust, transparency, and accountability. Under Consumer Duty, the onus has shifted to financial institutions to prioritize their customers' best interest in every consideration made by the financial institution (the entire customer life cycle) including demonstration and evidence that the product/service/action is in the best interest of the customer. Although not immediately applicable to our business as we do not conduct business directly with the retail sector, we are conscious of the impact that this will have on underlying clients who have obligations to fulfil. In so doing, they may require our firm to provide additional reporting in order to help them evidence their obligations. In addition, the majority of our other foreign subsidiaries are subject to similar regulation by the relevant authorities in the countries in which they do business. Certain other of our foreign subsidiaries are required to maintain non-U.S. net capital requirements. For example, in Hong Kong, BGC Securities (Hong Kong), LLC, GFI (HK) Securities LLC and Sunrise Brokers (Hong Kong) Limited are regulated by the Securities and Futures Commission. BGC Capital Markets (Hong Kong), Limited and GFI (HK) Brokers Ltd are regulated by The Hong Kong Monetary Authority. All are subject to Hong Kong net capital requirements. In France, Aurel BGC and BGC France Holdings; in Australia, BGC Partners (Australia) Pty Limited and Fixed Income Solutions Pty Limited; in Japan, BGC Shoken Kaisha Limited's Tokyo branch; in Singapore, BGC Partners (Singapore) Limited, GFI Group Pte Ltd and Ginga Global Markets Pte Ltd; in Korea, BGC Capital Markets & Foreign Exchange Broker (Korea) Limited and GFI Korea Money Brokerage Limited; in Philippines, GFI Group (Philippines) Inc. and in Brazil, BGC Liquidez Distribuidora De Titulos E Valores Mobiliarios Ltda., all have net capital requirements imposed upon them by local regulators. These subsidiaries may also be prohibited from repaying the borrowings of their parents or affiliates, paying cash dividends, making loans to their parent or affiliates or otherwise entering into transactions, in each case, which may result in a significant reduction in their regulatory capital position without prior notification or approval from their principal regulator. See Note 21's Regulatory Requirements to our unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further details on our regulatory requirements. As of September 30, 2024, \$717.5 million of net assets were held by regulated subsidiaries. As of September 30, 2024, these subsidiaries had aggregate regulatory net capital, as defined, in excess of the aggregate regulatory requirements, as defined, of \$396.3 million. BGC Derivative Markets and GFI Swaps Exchange, our subsidiaries, operate as SEFs. Mandatory Dodd-Frank Act compliant execution on SEFs by eligible U.S. persons for made available to trade products, and a wide range of other rules relating to the execution and clearing of derivative products have been implemented. We also own ELX, which became a dormant contract market on July 1, 2017 and in July 2021, we completed the purchase of the CX Futures Exchange (now FMX Futures Exchange) from Cantor, which represents our futures exchange and related clearinghouse. These rules require authorized execution facilities to maintain robust front-end and back-office IT capabilities and to make large and ongoing technology investments. These execution facilities may be supported by a variety of Voice and auction-based execution methodologies, and our Hybrid and Fully Electronic trading capability have performed strongly in this regulatory environment. Much of our global derivatives volumes continue to be executed by non-U.S. based clients outside the U.S. and subject to local prudential regulations. As such, we will continue to operate a number of European regulated venues in accordance with EU or U.K. legislation and licensed by the FCA or EU-based national supervisors. These venues are also operated for non-derivative instruments for these clients. MiFID II was published by the European Securities and Markets Authority in September 2015, and implemented in January 2018 and introduced important infrastructural changes. MiFID II requires a significant part of the market in these instruments to trade on trading venues subject to transparency regimes, not only in pre- and post-trade prices, but also in fee structures and access. In addition, it has impacted a number of key areas, including corporate governance, transaction reporting, pre- and post-trade transparency, technology synchronization, best execution and investor protection. 109 Table of Contents MiFID II was intended to help improve the functioning of the EU single market by achieving a greater consistency of regulatory standards. By design, therefore, it was intended that EU member states should have very similar regulatory regimes in relation to the matters addressed to MiFID. MiFID II has also introduced a new regulated execution venue category called an OTF that captures much of the Voice- and Hybrid-oriented trading in the EU. Much of our EU derivatives and fixed income execution business now takes place on OTFs. Further to its decision to leave the EU, the U.K. has implemented MiFID II's requirements into its own domestic legislation. Brexit may impact future market structures and MiFID II rulemaking and implementation due to potential changes in mutual passporting and equivalence arrangements between the U.K. and EU member states (for further information see Overview and Business Environment's Financial Services Industry's Brexit herein). In addition, the GDPR came into effect in the EU on May 25, 2018 (with the equivalent in the U.K.) and creates new compliance obligations in relation to personal data. The GDPR may affect our practices, and will increase financial penalties for non-compliance significantly. Apart from some minor non-material changes, at this time there has not been any legislation from the EU Commission or the U.K. government that has materially changed how the U.K. and EU approach financial regulation since MiFID II and the implementation of Brexit. Although divergence of U.K. regulation from EU regulation may occur, there has been no firm legislative change signaled or published by the FCA or the U.K. government. While we generally believe the net impact of the rules and regulations are positive for our business, it is possible that unintended consequences of the rules and regulations may materially adversely affect us in ways yet to be determined. See Regulation included in Part I, Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information related to our regulatory environment. Our effective Equity Plan Registration Statement was originally filed on July 3, 2023 with respect to the offer and sale of up to 600A million shares of BGC Class A common stock under the BGC Group Equity Plan. The BGC Group Equity Plan provides for a maximum of 600A million shares of BGC Class A common stock that may be delivered or cash settled pursuant to the exercise or settlement of awards granted under the BGC Group Equity Plan. As of SeptemberA 30, 2024, the limit on the aggregate number of shares authorized to be delivered under the BGC Group Equity Plan allowed for the grant of future awards relating to 449.2 million shares of BGC Class A common stock.CONTINGENT PAYMENTS RELATED TO ACQUISITIONSSince 2016, the Company has completed acquisitions whose purchase price included an aggregate of approximately 3.3 million shares of the BGC ClassA A common stock (with an acquisition date fair value of approximately \$13.5 million), 0.1 million LPUs (with an acquisition date fair value of approximately \$0.2 million), 0.2 million RSUs (with an acquisition date fair value of approximately \$1.2 million) and \$43.1 million in cash that may be issued contingent on certain targets being met through 2027.As of SeptemberA 30, 2024, the Company has issued 2.0 million shares of BGC ClassA A common stock, 0.2 million of RSUs and paid \$54.4 million in cash related to such contingent payments.As of SeptemberA 30, 2024, there are 0.4 million shares of BGC ClassA A common stock, including contingent shares for which all necessary conditions have been satisfied except for the passage of time and which are included in our computation of basic EPS, as well as 0.5 million shares of BGC Class A common stock which will be issued if related targets are met and \$3.8 million in cash which will be issued if related targets are met, net of forfeitures and other adjustments.11Table of ContentsLEGAL PROCEEDINGSOn August 10, 2023, the shareholder derivative suit concerning our 2017 acquisition of Berkeley Point (as described in our Annual Report on Form 10-K for the year ended December 31, 2023) was fully and finally decided in favor of the defendants, with the Delaware Chancery Court issuing a post-trial decision denying the plaintiffsâ€™ causes of action and finding that the transaction was entirely fair to our shareholders and the Delaware Supreme Court affirming that result.On March 9, 2023, a purported class action complaint was filed against Cantor, BGC Holdings, and Newmark Holdings in the U.S. District Court for the District of Delaware (Civil Action No. 1:23-cv-00265). The collective action, which was filed by seven former limited partners of the defendants on their own behalf and on behalf of other similarly situated limited partners, alleges a claim for breach of contract against all defendants on the basis that the defendants failed to make payments due under the relevant partnership agreements. Specifically, the plaintiffs allege that the non-compete and economic forfeiture provisions upon which the defendants relied to deny payment are unenforceable under Delaware law. The plaintiffs allege a second claim against Cantor and BGC Holdings for antitrust violations under the Sherman Act on the basis that the Cantor and BGC Holdings partnership agreements constitute unreasonable restraints of trade. In that regard, the plaintiffs allege that the non-compete and economic forfeiture provisions of the Cantor and BGC Holdings partnership agreements, as well as restrictive covenants included in partner separation agreements, cause anticompetitive effects in the labor market, insulate Cantor and BGC Holdings from competition, and limit innovation. The plaintiffs seek a determination that the case may be maintained as a class action, an injunction prohibiting the allegedly anticompetitive conduct, and monetary damages of at least \$5.0 million. On April 28, 2023, defendants filed a motion to dismiss the complaint. In response, the plaintiffs filed an amended complaint. On July 14, 2023, defendants filed a motion to dismiss the amended complaint. The plaintiffs then filed a second amended complaint in March 2024. Defendantsâ€™ motion to dismiss the second amended complaint is fully briefed as of May 2024 and a decision is forthcoming. The Company believes the lawsuit has no merit. However, as with any litigation, the outcome cannot be determined with certainty.Other legal proceedingsOn February 16, 2024, an alleged Company shareholder, Martin J. Siegel, filed a putative class action lawsuit against Cantor Fitzgerald, LP and Howard W. Lutnick in the Delaware Court of Chancery, asserting that the Corporate Conversion was unfair to Class A shareholders of BGC Partners, Inc. because it increased Cantorâ€™s percentage voting control over the Company. The suit is captioned Martin J. Siegel v. Cantor Fitzgerald, LP, C.A. 2024-0146-LWW. Defendants moved to dismiss the complaint on April 22, 2024. That motion has been fully briefed and will be heard by the Court on January 9, 2025. While the lawsuit is in its early stages and does not name the Company as a party, the Company believes the action lacks merit.CERTAIN RELATED PARTY TRANSACTIONSTransactions with Executive Officers and Directors On October 7, 2024, the Compensation Committee approved the redemption of 327,127 non-exchangeable Newmark Holdings LPUs and 30,285 non-exchangeable Newmark Holdings PLPUs with a determination amount of \$278,258, held by Mr. Windeatt. In connection with the Corporate Conversion, on May 18, 2023, the BGC Partners Compensation Committee approved the redemption of all of the non-exchangeable BGC Holdings units held by Mr. Merkel at that time. On May 18, 2023, Mr. Merkelâ€™s 148,146 NPSU-CVs, 33,585 PSU-CVs, and 74,896 PSUs were redeemed for zero and an aggregate of 256,627 shares of Class A common stock were granted to Mr. Merkel, and 148,146 NPSSU-CVs with a total determination amount of \$681,250 and 33,585 PPSU-CVs with a total determination amount of \$162,500 were redeemed for an aggregate cash payment of \$843,750. After deduction of shares of BGC Class A common stock to satisfy applicable tax withholding through the surrender of shares of BGC Class A common stock valued at \$4.61 per share, Mr. Merkel received 196,525 net shares of Class A common stock. Since Mr. Lutnick had previously repeatedly waived his rights under the Standing Policy, as of May 18, 2023 his rights had accumulated for 7,879,736 non-exchangeable PSUs, and 103,763 non-exchangeable PPSUs with a determination amount of \$474,195. Due to the May 18, 2023 monetization of all of Mr. Merkelâ€™s then-remaining non-exchangeable BGC Holdings units, on such date Mr. Lutnick received additional incremental monetization rights for his then-remaining 3,452,991 non-exchangeable PSUs, and 1,348,042 non-exchangeable PPSUs with a determination amount of \$6,175,805. In connection with the Corporate Conversion and, as a result of the monetization event for Mr. Merkel, on May 18, 2023 Mr. Lutnick elected to exercise in full his monetization rights under the Standing Policy, which he had previously waived in prior years. All of the non-exchangeable BGC Holdings units that Mr. Lutnick held at that time were monetized as follows: 11,332,727 PSUs were redeemed for zero and 11,332,727 shares of Class A common stock were granted to Mr. Lutnick, and 1,451,805 PPSUs with an aggregate determination amount of \$6,650,000 were redeemed for an aggregate cash payment of \$6,650,000. As a result of the various transactions on May 18, 2023 described above, on May 18, 2023, Mr. Lutnick no longer held any limited partnership units of BGC Holdings. On April 18, 2023, the Dr. Bell sold 21,786 shares of Class A common stock to the Company. The sale price per share of \$4.59 was the closing price of a share of Class A common stock on April 18, 2023. The transaction was approved by the Audit Committee and the Compensation Committee of the Board and was made pursuant to the Companyâ€™s stock buyback authorization.Mr. Windeatt 2023 Deed of AmendmentOn July 12, 2023, Mr. Windeatt executed the 2023 Deed of Amendment with the U.K. Partnership which amends his prior executed Deed of Adherence with the U.K. Partnership regarding the terms of his employment. We have repurchased 29.8 million shares during the nine months ended September 30, 2024. Any dividends, if and when declared by our Board, will be paid on a quarterly basis. The dividend to our common stockholders is expected to be calculated based on a number of factors. No assurance can be made, however, that a dividend will be paid each quarter. The declaration, payment, timing, and amount of any future dividends payable by us will be at the sole discretion of our Board using the fully diluted share count. We are a holding company, with no direct operations, and therefore we are able to pay dividends only from our available cash on hand and funds received from distributions from BGC U.S. OpCo and BGC Global OpCo. Our ability to pay dividends may also be limited by regulatory considerations as well as by covenants contained in financing or other agreements. In addition, under Delaware law, dividends may be payable only out of surplus, which is our net assets minus our capital (as defined under Delaware law), or, if we have no surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. Accordingly, any unanticipated accounting, tax, regulatory or other charges against net income may adversely affect our ability to declare and pay dividends. While we intend to declare and pay dividends quarterly, there can be no assurance that our Board will declare dividends at all or on a regular basis or that the amount of our dividends will not change.OUR ORGANIZATIONAL STRUCTUREDual Class Equity Structure of BGC Group, Inc. We have a dual class equity structure, consisting of shares of BGC Class A common stock and BGC Class B common stock. We expect to retain and have no plans to change our dual class structure.BGC Class A common stock. Each share of BGC ClassA A common stock is generally entitled to one vote on matters submitted to a vote of our stockholders. As of SeptemberA 30, 2024, there wereA 418.9 millionA shares of BGC ClassA A common stock issued and 375.4 million shares outstanding. On June 21, 2017, Cantor pledged 10.0A million shares of BGC Class A common stock in connection with a partner loan program. On November 23, 2018, those shares of BGC Class A common stock were converted into 10.0A million shares of BGC Class B common stock and remain pledged in connection with the partner loan program, as amended and restated effective as of October 5, 2023 with such modifications thereto as necessary to reflect the Corporate Conversion.From time to time, we may actively continue to repurchase shares of our ClassA A common stock including from Cantor, Newmark, our executive officers, other employees, partners and others.BGC Class B common stock. Each share of BGC Class B common stock is generally entitled to the same rights as a share of BGC Class A common stock, except that on matters submitted to a vote of our stockholders, each share of BGC Class B common stock is entitled to 10 votes. The BGC Class B common stock generally votes together with the BGC Class A common stock on all matters submitted to a vote of our stockholders. As of SeptemberA 30, 2024, Cantor and CFGM held an aggregate of 96.3 million shares of BGC Class B common stock, representing 88.0% of the outstanding shares of BGC Class B common stock and approximately 65.5% of our total voting power. As of SeptemberA 30, 2024, Mr. Lutnick and individuals related to Mr. Lutnick owned 13.1 million shares of our outstanding Class B common stock, representing 12.0% of the outstanding shares of BGC Class B common stock and approximately 8.9% of our total voting power. Together, Cantor, CFGM, Mr. Lutnick and individuals related to Mr. Lutnick owned 100% of the outstanding shares of BGC Class B common stock and approximately 74.4% of our total voting power.Shares of BGC Class B common stock are convertible into shares of BGC Class A common stock at any time in the discretion of the holder on a one-for-one basis. Accordingly, if Cantor, CFGM, Mr. Lutnick and individuals related to Mr. Lutnick converted all of their BGC Class B common stock into BGC Class A common stock on SeptemberA 30, 2024, Cantor would have held 19.2% of the voting power of our outstanding capital stock, CFGM would have held 0.6% of the voting power, Mr. Lutnick and individuals related to Mr. Lutnick would have held 6.6% of the voting power, and the public stockholders would

have held 73.6% of the voting power of our outstanding capital stock (and Cantor and CFGM’s indirect economic interests in BGC U.S. and BGC Global would remain unchanged).115Table of ContentsAs a result of the Corporate Conversion, 64.0Å million Cantor units, including 5.7Å million purchased on June 30, 2023, were converted into shares of BGC Group Class B common stock, subject to the terms and conditions of the Corporate Conversion Agreement, provided that a portion of the 64.0Å million shares of BGC Group Class B common stock issued to Cantor will exchange into BGC Group Class A common stock in the event that BGC Group does not issue at least \$75,000,000 in shares of BGC Group Class A or B common stock in connection with certain acquisition transactions prior to July 1, 2030, the seventh anniversary of the Corporate Conversion.On July 2, 2023, Cantor distributed an aggregate of 15.8Å million shares of Class B common stock held by it in satisfaction of its remaining deferred share distribution obligations pursuant to the April 2008 distribution rights shares and the February 2012 distribution rights shares. 14.0Å million of the July 2023 distribution shares were distributed to satisfy April 2008 distribution rights shares and 1.8Å million of the July 2023 distribution shares were distributed to satisfy February 2012 distribution rights shares. 15.4Å million of the July 2023 distribution shares will remain Class B common stock in the hands of the recipient, and 0.4Å million of such shares were converted into an equivalent number of shares of Class A common stock in the hands of the recipient pursuant to the terms of BGC Group’s Amended and Restated Certificate of Incorporation. Upon distribution of the July 2023 distribution shares, Cantor satisfied all obligations to deliver shares of common stock to satisfy the April 2008 distribution rights shares and February 2012 distribution rights shares.Classes of Founding/Working Partner Interests and Limited Partnership Units Prior to the Corporate ConversionPrior to the Corporate Conversion, our executives and front-office employees held partnership stakes in us and our subsidiaries and generally received their equity compensation through LPUs. Upon the closing of the Corporate Conversion, the BGC Holdings Limited Partnership Agreement was terminated, and the former stockholders of BGC Partners and former limited partners of BGC Holdings now participate in the economics of the BGC businesses through BGC Group. Following the Corporate Conversion, the equity portion of our compensation structure is no longer based upon the issuance of partnership units but instead based upon the use of equity awards, such as RSUs, issued under the BGC Group Equity Plan in order to incentivize and retain our employees, executive officers, and directors. Prior to the Corporate Conversion, while BGC Holdings limited partnership interests generally entitled our partners to participate in distributions of income from the operations of our business, upon leaving BGC Holdings (or upon any other redemption or purchase of such limited partnership interests as described below) any such partners were only entitled to receive over time, and provided he or she did not violate certain partner obligations, an amount for his or her BGC Holdings limited partnership interests that reflected such partner’s capital account or compensatory grant awards, excluding any goodwill or going concern value of our business, unless Cantor, in the case of the founding partners, and we, as the general partner of BGC Holdings at that time, otherwise determined. Prior to the Corporate Conversion, we also had the right to effect redemptions of BGC Holdings LPUs and FPU’s and concurrently grant shares of our Class A common stock, or to grant our partners the right to exchange their BGC Holdings limited partnership interests for shares of our Class A common stock (if, in the case of founding partners, Cantor so determined and, in the case of working partners and limited partnership unit holders, if we, as the BGC Holdings general partner at that time, with Cantor’s consent, determined otherwise) and thereby allowed them to realize any higher value associated with our Class A common stock. Similar provisions with respect to Newmark Holdings limited partnership interests are contained in the Newmark Holdings limited partnership agreement. Limited partnership interests in BGC Holdings (prior to the Corporate Conversion) and Newmark Holdings (received in connection with the Spin-Off) consist of: (i) founding/working partner units held by limited partners who are employees of the relevant company; (ii) limited partnership units, which consist of a variety of units that are generally held by employees such as REUs, RPUs, PSUs, PSIs, PSEs, HDUs, U.K. LPUs, APSUs, APSIs, APSEs, AREUs, ARPUs and N Units; (iii) Cantor units which are the exchangeable limited partnership interests held by Cantor entities; and (iv) Preferred Units, which are working partner units that may be awarded to holders of, or contemporaneous with, the grant of certain limited partnership units. These Preferred Units carried the same name as the underlying unit, with the insertion of an additional “P” to designate them as Preferred Units. Such Preferred Units could not be made exchangeable into BGC Class A common stock and accordingly were not included in the fully diluted share count. Each quarter, the net profits of BGC Holdings were allocated to such Preferred Units at a rate of either 0.6875% (which is 2.75% per calendar year) of the allocation amount assigned to them based on their award price, or such other amount as set forth in the award documentation, before calculation and distribution of the quarterly BGC Holdings distribution for the remaining BGC Holdings units. The Preferred Units were not entitled to participate in BGC Holdings distributions other than with respect to the Preferred Distribution. 116Table of ContentsNon-distributing partnership units, or N Units, carried the same name as the underlying unit with the insertion of an additional “N” to designate them as the N Unit type and were designated as NREUs, NPREUs, NLPUs, NLPUs and NPPSUs. The N Units were not entitled to participate in BGC Holdings distributions, were not allocated any items of profit or loss and were not made exchangeable into shares of BGC Class A common stock. Subject to the approval of the Compensation Committee or its designee, certain N Units may have been converted into the underlying unit type (i.e., an NREU could be converted into an REU) and could then participate in BGC Holdings distributions, subject to terms and conditions determined by us as the general partner of BGC Holdings, in our sole discretion, including that the recipient continue to provide substantial services to us and comply with his or her partnership obligations.BGC OpCos Partnership StructuresWe are a holding company with no direct operations, and our business is operated through two operating partnerships, BGC U.S. OpCo, which holds our U.S. businesses, and BGC Global OpCo, which holds our non-U.S. businesses. Prior to the Corporate Conversion, the limited partnership interests of the two operating partnerships were held by us and BGC Holdings, and the limited partnership interests of BGC Holdings were held by LPU holders, Founding Partners, and Cantor. We held the BGC Holdings general partnership interest and the BGC Holdings special voting limited partnership interest, which entitled us to remove and appoint the general partner of BGC Holdings, and served as the general partner of BGC Holdings, which entitled us to control BGC Holdings. BGC Holdings, in turn, held the BGC U.S. OpCo general partnership interest and the BGC U.S. OpCo special voting limited partnership interest, which entitled the holder thereof to remove and appoint the general partner of BGC U.S. OpCo, and the BGC Global OpCo general partnership interest and the BGC Global OpCo special voting limited partnership interest, which entitled the holder thereof to remove and appoint the general partner of BGC Global OpCo, and served as the general partner of BGC U.S. OpCo and BGC Global OpCo, all of which entitled BGC Holdings (and thereby us) to control each of BGC U.S. OpCo and BGC Global OpCo. Since BGC Holdings held BGC U.S. OpCo limited partnership interests and BGC Global OpCo limited partnership interests, LPU holders, Founding Partners, and Cantor indirectly had interests in BGC U.S. OpCo limited partnership interests and BGC Global OpCo limited partnership interests. Further, in connection with the Separation and Distribution Agreement, limited partnership interests in Newmark Holdings were distributed to the holders of limited partnership interests in BGC Holdings, whereby each holder of BGC Holdings limited partnership interests who at that time held a BGC Holdings limited partnership interest received a corresponding Newmark Holdings limited partnership interest, equal in number to each holder’s BGC Holdings limited partnership interest divided by 2.2 (i.e., 0.4545 of a unit in Newmark Holdings). Accordingly, existing partners at the time of the Separation in BGC Holdings are also partners in Newmark Holdings and received corresponding units issued at the applicable ratio. Thus, such partners have an indirect interest in Newmark OpCo.As a result of a series of transactions prior to and in anticipation of the Corporate Conversion, all BGC Holdings units held by Newmark employees were redeemed or exchanged, in each case, for shares of BGC Class A common stock or cash. Upon the closing of the Corporate Conversion, the BGC Holdings Limited Partnership Agreement was terminated, we became the owner of all of the limited partnership interests of the two BGC operating partnerships, and the former stockholders of BGC Partners and former limited partners of BGC Holdings now participate in the economics of the BGC businesses through BGC Group.Corporate ConversionSee Overview and Business Environment herein for information related to Corporate Conversion.117Table of ContentsStructure of BGC Group, Inc. as of September 30, 2024The following diagram illustrates our organizational structure as of September 30, 2024. The diagram does not reflect the various subsidiaries of BGC Partners, BGC U.S. OpCo, BGC Global OpCo, or Cantor, or the noncontrolling interests in our consolidated subsidiaries. The diagram also does not reflect certain ownership of BGC Group as follows: (a) for purposes of economic percentages, 12.1 million shares of BGC Group Class A restricted common stock as these are not entitled to receive any dividends (however, these shares of BGC Group Class restricted common stock are included for voting power of BGC Group); (b) 7.0Å million assumed RSUs; (c) 29.6 million RSUs converted from former partners’ units in BGC Holdings; (d) 34.2 million RSUs issued in relation to employee compensation; (e) 4.6Å million contingent shares to be issued to terminated employees per their respective separation agreements; and (f) 0.4Å million contingent shares to be issued in exchange for acquisition units.1 For the purposes of this diagram, Cantor includes Cantor Fitzgerald, L.P. and CFGM. Cantor Fitzgerald, L.P. owns 19.7% of the economics and 63.5% of the voting power in BGC Group. CFGM owns 0.6% of the economics and 2.0% of the voting power in BGC Group.2 Percentage includes restricted shares issued in exchange for former partners’ units in BGC Holdings.3 Public Stockholders includes unrestricted shares owned by employees, executives, and directors due to an inability to track such shares once they leave the Company’s transfer agent.4 BGC Partners is a wholly owned subsidiary of BGC Group and consolidated with other wholly and non wholly-owned subsidiaries.The diagram reflects the following activity of BGC Class A common stock and BGC Class B common stock from December 31, 2023 through September 30, 2024 as: (a) the restrictions released on 15.0Å million shares of BGC Class A common stock; (b) 29.8Å million shares of BGC Class A common stock repurchased by us; (c) 8.2Å million shares of BGC Class A common stock issued for vested RSUs; (d) 0.5 million shares of BGC Class A common stock issued for contingent shares issued in exchange for acquisition units; (e) 1.3 million shares of BGC Class A common stock issued for contingent shares issued in exchange for former partners’ units in BGC Holdings; (f) 1.5Å million shares of BGC Class A restricted common stock forfeited by former partners and employees; and (g) 6.1Å million shares of BGC Class A common stock issued for compensation. 0.5Å million shares of Class A common stock were issued by us under our acquisition shelf 2019 Form S-4 Registration Statement (Registration No. 333-233761) between December 31, 2023 and September 30, 2024; 17.2 million of such shares remain available for issuance by us under such Registration Statement. Also, an immaterial number of shares of Class A common stock were issued by us under our DRIP Registration Statement (Registration No.Å 333-173109) between December 31, 2023 and September 30, 2024; 9.2Å million of such shares remain available for issuance by us under the DRIP Registration Statement.118Table of ContentsITEM 3.Å Å Å QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKCredit RiskCredit risk arises from potential non-performance by counterparties and customers. BGC has established policies and procedures to manage its exposure to credit risk. BGC maintains a thorough credit approval process to limit exposure to counterparty risk and employs stringent monitoring to control the counterparty risk from its matched principal and agency businesses. BGC’s account opening and counterparty approval process includes verification of key customer identification, anti-money laundering verification checks and a credit review of financial and operating data. The credit review process includes establishing an internal credit rating and any other information deemed necessary to make an informed credit decision, which may include correspondence, due diligence calls and a visit to the entity’s premises, as necessary.Credit approval is granted subject to certain trading limits and may be subject to additional conditions, such as the receipt of collateral or other credit support. Ongoing credit monitoring procedures include reviewing periodic financial statements and publicly available information on the client and collecting data from credit rating agencies, where available, to assess the ongoing financial condition of the client.In addition, BGC incurs limited credit risk related to certain brokerage activities. The counterparty risk relates to the collectability of the outstanding brokerage fee receivables. The review process includes monitoring both the clients and the related brokerage receivables. The review includes an evaluation of the ongoing collection process and an aging analysis of the brokerage receivables.Principal Transaction RiskThrough its subsidiaries, BGC executes matched principal transactions in which it acts as a middleman by serving as counterparty to both a buyer and a seller in matching back-to-back trades. These transactions are then settled through a recognized settlement system or third-party clearing organization. Settlement typically occurs within one to three business days after the trade date. Cash settlement of the transaction occurs upon receipt or delivery of the underlying instrument that was traded. BGC generally avoids settlement of principal transactions on a free-of-payment basis or by physical delivery of the underlying instrument. However, free-of-payment transactions may occur on a very limited basis.The number of matched principal trades BGC executes has continued to grow as compared to prior years. Receivables from broker-dealers, clearing organizations, customers and related broker-dealers and Payables to broker-dealers, clearing organizations, customers and related broker-dealers on the Company’s unaudited Condensed Consolidated Statements of Financial Condition primarily represent the simultaneous purchase and sale of the securities associated with those matched principal transactions that have not settled as of their stated settlement dates. BGC’s experience has been that substantially all of these transactions ultimately settle at the contracted amounts, however, the ability to settle has the potential to be impacted by unforeseen circumstances.Market RiskMarket risk refers to the risk that a change in the level of one or more market prices, rates, indices or other factors will result in losses for a specified position. BGC may allow certain of its desks to enter into unmatched principal transactions in the ordinary course of business and hold long and short inventory positions. These transactions are primarily for the purpose of facilitating clients’ execution needs, adding liquidity to a market or attracting additional order flow. As a result, BGC may have market risk exposure on these transactions. BGC’s exposure varies based on the size of its overall positions, the risk characteristics of the instruments held and the amount of time the positions are held before they are disposed of. BGC has limited ability to track its exposure to market risk and unmatched positions on an intra-day basis; however, it attempts to mitigate its market risk on these positions by strict risk limits, extremely limited holding periods and hedging its exposure. These positions are intended to be held short term to facilitate customer transactions. However, due to a number of factors, including the nature of the position and access to the market on which it trades, BGC may not be able to unwind the position and it may be forced to hold the position for a longer period than anticipated. All positions held longer than intra-day are marked to market.119Table of ContentsWe also had Financial Instruments owned, at fair value, of \$211.0 million as of September 30, 2024. These include investments in equity securities, which are publicly-traded. Investments in equity securities carry a degree of risk, as there can be no assurance that the equity securities will not lose value and, in general, securities markets can be volatile and unpredictable. As a result of these different market risks, our holdings of equity securities could be materially and adversely affected. We may seek to minimize the effect of price changes on a portion of our investments in equity securities through the use of derivative contracts. However, there can be no assurance that our hedging activities will be adequate to protect us against price risks associated with our investments in equity securities. See Note 11Å Derivatives and Note 12Å Fair Value of Financial Assets and Liabilities to our unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information regarding these investments and related hedging activities.Our risk management procedures and strict limits are designed to monitor and limit the risk of unintended loss and have been effective in the past. However, there is no assurance that these procedures and limits will be effective at limiting unanticipated losses in the future. Adverse movements in the securities positions or a downturn or disruption in the markets for these positions could result in a substantial loss. In addition, principal gains and losses resulting from these positions could on occasion have a disproportionate effect, positive or negative, on BGC’s unaudited Condensed Consolidated Financial Condition and Results of Operations for any particular reporting period.Operational RiskOur businesses are highly dependent on our ability to process a large number of transactions across numerous and diverse markets in many currencies on a daily basis. If any of our data processing systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes, people or systems, we could suffer impairment to our liquidity, financial loss, a disruption of our businesses, liability to clients, regulatory intervention or reputational damage. These systems may fail to operate properly or become disabled as a result of events that are wholly or partially beyond our control, including cybersecurity incidents or other failures of our or third party information technology systems, a disruption of electrical or communications services or our inability to occupy one or more of our buildings. The inability of our systems to accommodate an increasing volume of transactions could also constrain our ability to expand our businesses.In addition, despite our contingency plans, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the communities in which they are located. This may include a disruption involving electrical, communications, transportation or other services used by us or third parties with whom we conduct business.Further, our operations rely on the secure processing, storage and transmission of confidential and other information on our computer systems and networks. Although we take protective measures such as software programs, firewalls and similar technology to maintain the confidentiality, integrity and availability of our and our clients’ information, the nature of the threats continue to evolve. As a result, our computer systems, software and networks may be vulnerable to unauthorized access, loss or destruction of data (including confidential client information), account takeovers, unavailability or disruption of service, computer viruses, acts of vandalism, or other malicious code, cyber-attacks and other events that could have an adverse security impact. There have also been an increasing number of malicious cyber incidents in recent years in various industries, including ours. Any such cyber incidents involving our computer systems and networks, or those of third parties important to our businesses, could present risks to our operations.Foreign Currency RiskBGC is exposed to risks associated with changes in FX rates. Changes in FX rates create volatility in the U.S. dollar equivalent of the Company’s revenues and expenses. In addition, changes in the remeasurement of BGC’s foreign currency

unlimited financial assets and liabilities are recorded as part of its results of operations and fluctuate with changes in foreign currency rates. BGC monitors the net exposure in foreign currencies on a daily basis and hedges its exposure as deemed appropriate with highly rated major financial institutions. The majority of the Company's foreign currency exposure is related to the U.S. dollar versus the pound sterling and the euro. For the financial assets and liabilities denominated in the pound sterling and euro, including foreign currency hedge positions related to these currencies, we evaluated the effects of a 10% shift in exchange rates between those currencies and the U.S. dollar, holding all other assumptions constant. The analysis used the stress-tested scenario as the U.S. dollar strengthening against both the euro and against the pound sterling. If as of September 30, 2024, the U.S. dollar had strengthened against both the euro and the pound sterling by 10%, the currency movements would have had an aggregate negative impact on our net income of approximately \$10.4 million. Table of Contents

Interest Rate Risk BGC had \$1,449.5 million in fixed-rate debt outstanding as of September 30, 2024. These debt obligations are not currently subject to fluctuations in interest rates, although in the event of refinancing or issuance of new debt, such debt could be subject to changes in interest rates. As of September 30, 2024, BGC did not have any borrowings outstanding under its Revolving Credit Agreement. The Revolving Credit Agreement interest rate on borrowings is based on SOFR or a defined base rate plus additional margin. As of September 30, 2024, BGC did not have any borrowings outstanding under its BGC Credit Agreement. Borrowings under the BGC Credit Agreement bear interest at a rate equal to 25 basis points less than the applicable borrower's borrowing rate under its revolving credit agreement with third party banks, or if FICC-GSD Margin Loans, at a rate equal to the overnight interest rate actually earned by the borrower or its affiliates on borrowings under the applicable FICC-GSD Margin Loan that are posted to clearinghouses or kept available for posting at clearinghouses. To assess exposure to interest rate risk, we evaluated the effect of a 1% increase in interest rates, holding all other assumptions constant. The analysis indicated that there would be no impact to our consolidated net earnings for the three months ended September 30, 2024, and for the nine months ended September 30, 2024, our consolidated net earnings would have declined by \$1.2 million if interest rates increased by an additional 1%. BGC had \$1,149.5 million in fixed-rate debt outstanding as of October 31, 2024. These debt obligations are not currently subject to fluctuations in interest rates, although in the event of refinancing or issuance of new debt, such debt could be subject to changes in interest rates. As of October 31, 2024, BGC had \$200.0 million of borrowings outstanding under its Revolving Credit Agreement. The Revolving Credit Agreement interest rate on borrowings is based on SOFR or a defined base rate plus additional margin. As of October 31, 2024, BGC did not have any borrowings outstanding under its BGC Credit Agreement. Borrowings under the BGC Credit Agreement bear interest at a rate equal to 25 basis points less than the applicable borrower's borrowing rate under its revolving credit agreement with third party banks, or if FICC-GSD Margin Loans, at a rate equal to the overnight interest rate actually earned by the borrower or its affiliates on borrowings under the applicable FICC-GSD Margin Loan that are posted to clearinghouses or kept available for posting at clearinghouses. To assess exposure to interest rate risk, we evaluated the effect of a 1% increase in interest rates, holding all other assumptions constant. The analysis indicated that our consolidated net earnings would have declined by \$0.2 million for the month ended October 31, 2024, and \$1.3 million for the year to date ending October 31, 2024, respectively, if interest rates increased by an additional 1%. Item 4. A. A. A. CONTROLS AND PROCEDURES Evaluation of Disclosure Controls and Procedures The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Company is recorded, processed, accumulated, summarized and communicated to its management, including its Chairman of the Board and Chief Executive Officer and its Chief Financial Officer, to allow timely decisions regarding required disclosures, and reported within the time periods specified in the SEC's rules and forms. The Chairman of the Board and Chief Executive Officer and the Chief Financial Officer have performed an evaluation of the effectiveness of the design and operation of the Company disclosure controls and procedures as of September 30, 2024. Based on that evaluation, the Chairman of the Board and Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2024. Changes in Internal Control over Financial Reporting During the three and nine months ended September 30, 2024, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Corporate Conversion

Effective as of 12:01 a.m., Eastern Time, on July 1, 2023, BGC Holdings reorganized from a Delaware limited partnership into a Delaware limited liability company through a merger with and into Holdings Merger Sub, with Holdings Merger Sub continuing as a direct subsidiary of BGC Partners. Effective as of 12:02 a.m., Eastern Time, on July 1, 2023, Merger Sub 1 merged with and into BGC Partners, with BGC Partners continuing as a direct subsidiary of BGC Group. At the same time, Merger Sub 2 merged with and into Holdings Merger Sub, with Holdings Merger Sub continuing as a subsidiary of BGC Group. As a result of the Corporate Conversion Mergers, BGC Partners and BGC Holdings became wholly owned subsidiaries of BGC Group.

In the Holdings Reorganization Merger, each unit of BGC Holdings outstanding as of immediately prior to the Holdings Reorganization Merger was converted into a substantially equivalent equity interest in Holdings Merger Sub.

In the Corporate Merger, each share of Class A common stock, par value \$0.01 per share, of BGC Partners and each share of Class B common stock, par value \$0.01 per share, of BGC Partners outstanding was converted into one share of Class A common stock, par value \$0.01 per share, of BGC Group and one share of Class B common stock, par value \$0.01 per share, of BGC Group, respectively.

In connection with, but prior to the Corporate Conversion, the Company completed various transactions which included:

- the redemption of certain non-exchangeable limited partnership units in connection with the issuance of shares of BGC Partners Class A common stock and the accompanying tax payments, which led to an equity-based compensation charge of \$60.9 million;
- the exchange of the remaining 1.5 million exchangeable limited partnership units of BGC Holdings held by employees on June 30, 2023, for 1.0 million shares, after tax withholding, of BGC Partners Class A common stock;
- the redemption of certain non-exchangeable limited partnership units of BGC Holdings held by employees and issuance of 16.9 million BGC Partners RSUs on a one-for-one basis on June 30, 2023;
- the redemption of certain non-exchangeable Preferred Units of BGC Holdings held by employees and issuance of \$49.2 million of BGC Partners RSU Tax Accounts on June 30, 2023, based on the fixed cash value of the Preferred Units redeemed;
- the redemption of the remaining 5.6 million non-exchangeable FPU's and issuances of BGC Partners RSUs on a one-for-one basis on June 30, 2023, which in turn reduced the "Redeemable Partnership Interest" to zero with an offsetting impact to "Total equity" in the Company's unaudited Condensed Consolidated Statements of Financial Condition as of June 30, 2023; and
- the purchase on June 30, 2023 by Cantor from BGC Holdings of an aggregate of 5,425,209 Cantor units for an aggregate consideration of \$9,715,772 as a result of the redemption of 5,425,209 FPUs, and 324,223 Cantor units for an aggregate consideration of \$598,712 as a result of the exchange of 324,223 FPUs.

As a result of the Corporate Conversion:

- 64.0 million Cantor units, including 5.7 million purchased on June 30, 2023, were converted into shares of BGC Group Class B common stock, subject to the terms and conditions of the Corporate Conversion Agreement, provided that a portion of the 64.0 million shares of BGC Group Class B common stock issued to Cantor will exchange into BGC Group Class A common stock in the event that BGC Group does not issue at least \$75,000,000 in shares of BGC Group Class A or B common stock in connection with certain acquisition transactions prior to July 1, 2030, the seventh anniversary of the Corporate Conversion;
- BGC Group assumed all BGC Partners RSUs, RSU Tax Accounts or restricted stock awards outstanding as of June 30, 2023; and
- non-exchangeable limited partnership units of BGC Holdings were converted into equity awards denominated in cash, restricted stock and/or RSUs of BGC Group, each as further set forth in the Corporate Conversion Agreement. BGC Group granted 38.6 million restricted stock awards, 25.3 million RSUs, and \$74.0 million of RSU Tax Accounts upon the conversion of the non-exchangeable shares of Holdings Merger Sub.

There were no limited partnership units of BGC Holdings remaining after the Corporate Conversion was completed.

In connection with the Corporate Conversion on July 1, 2023, BGC Group assumed and adopted: the Eighth Amended and Restated BGC Partners, Inc. Long-Term Incentive Plan, as amended and restated as the BGC Group, Inc. Long Term Incentive Plan; the BGC Partners Second Amended and Restated BGC Partners Incentive Bonus Compensation Plan, as amended and restated, and renamed the BGC Group, Inc. Incentive Bonus Compensation Plan; and the BGC Partners, Inc. Deferral Plan for Employees of BGC Partners, Inc., Cantor Fitzgerald, L.P. and Their Affiliates, as amended and restated as the BGC Group, Inc. Deferral Plan for Employees of BGC Group, Inc., Cantor Fitzgerald, L.P. and Their Affiliates. The BGC Group Equity Plan provides for a maximum of 600 million shares of BGC Class A common stock that may be delivered or cash settled pursuant to the exercise or settlement of awards granted under the plan.

In connection with the Corporate Conversion on July 1, 2023, the BGC Holdings Limited Partnership Agreement was terminated, and the BGC Holdings, L.P. Participation Plan was terminated.

In connection with the Corporate Conversion on July 1, 2023, BGC Group amended and restated its certificate of incorporation to reflect an increase in the authorized shares of BGC Group Class A common stock to 1,500,000,000; an increase in the authorized shares of BGC Group Class B common stock to 300,000,000; and a provision providing for exculpation to officers of BGC Group pursuant to Section 102(b)(7) of the DGCL. Additionally, BGC Group amended and restated its bylaws to adopt a provision providing that Delaware courts shall be the exclusive forum for certain matters.

Basis of Presentation

The Company's unaudited Condensed Consolidated Financial Statements and Notes to the unaudited Condensed Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the SEC and in conformity with U.S. GAAP. Accordingly, they do not include all information and footnotes required by U.S. GAAP for annual financial statements and, as such, the information in this Quarterly Report on Form 10-Q should be read in conjunction with the audited Consolidated Financial Statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. The Company's unaudited Condensed Consolidated Financial Statements include the Company's accounts and all subsidiaries in which the Company has a controlling interest. Intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications have been made to previously reported amounts to conform to the current presentation.

During the second quarter of 2023, the Company renamed "Data, software and post-trade" as "Data, network and post-trade" on the unaudited Condensed Consolidated Statements of Operations.

During the third quarter of 2023, the Company renamed "Net income (loss) available to common stockholders" as "Net income (loss) attributable to common stockholders" under the Basic earnings (loss) per share calculation on the unaudited Condensed Consolidated Statements of Operations.

During the first quarter of 2024, the Company changed the name of the brokerage product line formerly labeled as "Energy and Commodities" to "Energy, Commodities, and Shipping" to better reflect the integrated operations of these businesses. The change did not result in any change in the classification of revenues and had no impact on the Company's Total brokerage revenues. See Note 22 —"Segment, Geographic and Product Information."

The unaudited Condensed Consolidated Financial Statements contain all adjustments (consisting only of normal and recurring adjustments) that, in the opinion of management, are necessary for a fair presentation of the unaudited Condensed Consolidated Statements of Financial Condition, the unaudited Condensed Consolidated Statements of Operations, the unaudited Condensed Consolidated Statements of Comprehensive Income (Loss), the unaudited Condensed Consolidated Statements of Cash Flows and the unaudited Condensed Consolidated Statements of Changes in Equity of the Company for the periods presented.

Recently Adopted Accounting Pronouncements

In October 2021, the FASB issued ASU No. 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*. The standard improves the accounting for acquired revenue contracts with customers in a business combination by addressing diversity in practice and inconsistency related to the recognition of an acquired contract liability, as well as payment terms and their effect on subsequent revenue recognized by the acquirer. The ASU requires companies to apply guidance in ASC 606, *Revenue from Contracts with Customers*, to recognize and measure contract assets and contract liabilities from contracts with customers acquired in a business combination, and, thus, creates an exception to the general recognition and measurement principle in ASC 805, *Business Combinations*. BGC adopted the standard on the required effective date beginning January 1, 2023 using a prospective transition method for business combinations occurring on or after the effective date. The adoption of this guidance did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2022, the FASB issued ASU No. 2022-02, *Financial Instruments—Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures*. The guidance is intended to improve the decision usefulness of information provided to investors about certain loan refinancings, restructurings, and write-offs. The standard eliminates the recognition and measurement guidance on TDRs for creditors that have adopted ASC 326, *Financial Instruments—Credit Losses* and requires them to make enhanced disclosures about loan modifications for borrowers experiencing financial difficulty. The new guidance also requires public business entities to present current-period gross write-offs (on a current year-to-date basis for interim-period disclosures) by year of origination in their vintage disclosures. BGC adopted the standard on the required effective date beginning January 1, 2023. The guidance for recognition and measurement of TDRs was applied using a prospective transition method, and the amendments related to disclosures will be applied prospectively. The adoption of this guidance did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

In September 2022, the FASB issued ASU No. 2022-04, *Liabilities—Supplier Finance Programs (Subtopic 405-50): Debt Restructurings Disclosure of Supplier Finance Program Obligations*. The guidance requires entities to disclose the key terms of supplier finance programs they use in connection with the purchase of goods and services along with information about their obligations under these programs, including a rollforward of those obligations. BGC adopted the standard on the required effective date beginning on January 1, 2023, except for the rollforward requirement, which became effective for the Company beginning on January 1, 2024. The guidance was adopted using a retrospective application to all periods in which a balance sheet is presented, and the rollforward disclosure requirement will be applied prospectively. The adoption of the guidance that was effective beginning January 1, 2023 did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements. The rollforward disclosure requirement did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

New Accounting Pronouncements

In December 2022, the FASB issued ASU No. 2022-06, *Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848*. ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* provided optional guidance to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU was effective upon issuance and generally could be applied through December 31, 2022. Because the current relief in ASC 848, *Reference Rate Reform* may not cover a period of time during which a significant number of modifications may take place, the amendments in ASU No. 2022-06 defer the sunset date from December 31, 2022 to December 31, 2024, after which entities will no longer be permitted to apply the relief in ASC 848. The ASU is effective upon issuance. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In October 2023, the FASB issued ASU No. 2023-06, *Disclosure Improvements—Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative*. The standard is expected to clarify or improve disclosure and presentation requirements of a variety of ASC topics, allow users to more easily compare entities subject to the SEC's existing disclosure requirements with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. The effective date for the guidance will be the date on which the SEC's removal of the related disclosure from Regulation S-X or Regulation S-K becomes effective. If by June 30, 2027 the SEC has not removed the applicable requirements from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entity. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. The guidance was issued in response to requests from

investors for companies to disclose more information about their financial performance at the segment level. The ASU does not change how a public entity identifies its operating segments, aggregates them or applies the quantitative thresholds to determine its reportable segments. The standard will require a public entity to disclose significant segment expenses and other segment items on an annual and interim basis, and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. Public entities with a single reportable segment will be required to provide the new disclosures and all the disclosures currently required under ASC 280. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2024 and for the interim periods beginning on January 1, 2025, will require retrospective presentation, and early adoption is permitted. Management is continuing its implementation effort of the new guidance, including drafting new financial statement disclosures required by the standard and developing appropriate internal controls. The adoption of the new guidance is not expected to have an impact on the Company's consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The standard improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. The ASU also includes certain other amendments to improve the effectiveness of income tax disclosures. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2025, will require prospective presentation with an option for entities to apply it retrospectively for each period presented, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2024, the FASB issued ASU No. 2024-01, *Compensation—Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards*. The standard is intended to reduce the complexity in determining whether profits interests and similar awards are in the scope of ASC 718 and to reduce diversity in practice. The new guidance applies to all reporting entities that grant profits interest awards or similar awards to employees or nonemployees in exchange for goods or services. The ASU adds an example to ASC 718 that illustrates how to apply the scope guidance to determine whether a profits interest award should be accounted for as a share-based payment arrangement under ASC 718 or another accounting standard. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to profits interest awards granted or modified on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2024, the FASB issued ASU No. 2024-02, *Codification Improvements—Amendments to Remove References to the Concepts Framework in the Concepts Statements*. The Conceptual Framework establishes concepts that the Board considers in developing standards. The ASU was issued to remove references to the Conceptual Framework in the Codification. The FASB noted that references to the Concepts Statements in the Codification could have implied that the Concepts Statements are authoritative. Also, some of the references removed were to Concepts Statements that are superseded. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to all new transactions recognized on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

#### **SEC Rule on Climate-Related Disclosures**

On March 6, 2024 the SEC adopted the final rules, *The Enhancement and Standardization of Climate-Related Disclosures for Investors*, that will require registrants to provide climate-related disclosures in a note to the audited financial statements. The disclosures will include certain effects of severe weather events and other natural conditions, including the aggregate amounts and where in the financial statements they are presented. If carbon offsets or renewable energy credits or certificates (RECs) are deemed a material component of the registrant's plans to achieve its disclosed climate-related targets, registrants will be required to disclose information about the offsets and RECs. Registrants will also be required to disclose whether and how (1) exposures to risks and uncertainties associated with, or known impacts from, severe weather events and other natural conditions and (2) any disclosed climate-related targets or transition plans materially impacted the estimates and assumptions used in preparing the financial statements. Finally, registrants will be required to disclose additional contextual information about the above disclosures, including how each financial statement effect was derived and the accounting policy decisions made to calculate the effects, for the most recently completed fiscal year and, if previously disclosed or required to be disclosed, for the historical fiscal year for which audited consolidated financial statements are included in the filing. Subsequent to the issuance, the SEC has released an order staying the final rules pending judicial review of all of the petitions challenging the rules. Absent the stay, the rules would have been effective for the Company on May 28, 2024 and phased in starting in 2025. Management is currently monitoring the developments pertaining to the final rules and any resulting potential impacts on the Company's unaudited Condensed Consolidated Financial Statements.

Limited Partnership Interests in BGC Holdings and Newmark Holdings

Prior to the Corporate Conversion, BGC Partners was a holding company with no direct operations which conducted substantially all of its operations through its operating subsidiaries. Virtually all of BGC Partners' consolidated assets and net income were those of consolidated variable interest entities. BGC Holdings was a consolidated subsidiary of BGC Partners for which BGC Partners was the general partner. BGC Partners and BGC Holdings jointly owned BGC U.S. OpCo and BGC Global OpCo, the two operating partnerships of the Company. In addition, Newmark Holdings is a consolidated subsidiary of Newmark for which Newmark is the general partner. Newmark and Newmark Holdings jointly own Newmark OpCo, the operating partnership. Listed below are the limited partnership interests in BGC Holdings, prior to the Corporate Conversion, and Newmark Holdings. The FPU's, LPUs and limited partnership interests held by Cantor, each as described below, collectively represent all of the limited partnership interests in BGC Holdings, prior to the Corporate Conversion, and Newmark Holdings. The Corporate Conversion had no impact on Newmark and its organizational structure, nor any limited partnership interests, described below, held by BGC employees in Newmark Holdings.

As a result of the Separation, limited partnership interests in Newmark Holdings were distributed to the holders of limited partnership interests in BGC Holdings, whereby each holder of BGC Holdings limited partnership interests at that time who held a BGC Holdings limited partnership interest received a corresponding Newmark Holdings limited partnership interest, determined by the Contribution Ratio, which was equal to a BGC Holdings limited partnership interest multiplied by one divided by 2.2, divided by the Exchange Ratio. Initially, the Exchange Ratio equaled one, so that each Newmark Holdings limited partnership interest was exchangeable for one share of Newmark Class A common stock. For reinvestment, acquisition or other purposes, Newmark may determine on a quarterly basis to distribute to its stockholders a smaller percentage than Newmark Holdings distributes to its equity holders (excluding tax distributions from Newmark Holdings) of cash that it received from Newmark OpCo. In such circumstances, the Separation and Distribution Agreement provides that the Exchange Ratio will be reduced to reflect the amount of additional cash retained by Newmark as a result of the distribution of such smaller percentage, after the payment of taxes. The Exchange Ratio as of September 30, 2024 equaled 0.9257.

#### **Founding/Working Partner Units**

Founding/Working Partners had FPUs in BGC Holdings and have FPU's in Newmark Holdings. As of June 30, 2023, in connection with the Corporate Conversion, all FPU's in BGC Holdings were redeemed or exchanged. The Corporate Conversion had no impact on FPU's held by partners of Newmark Holdings. Prior to the Corporate Conversion, BGC Partners accounted for FPU's outside of permanent capital, as "Redeemable partnership interest," in the Company's unaudited Condensed Consolidated Statements of Financial Condition. This classification was applicable to Founding/Working Partner units because these units were redeemable upon termination of a partner, including a termination of employment, which could be at the option of the partner and not within the control of the issuer. The BGC RSUs issued for the redemption of non-exchangeable FPU's in BGC Holdings, in connection with the Corporate Conversion, are now accounted for as a part of permanent capital.

FPUs were held by limited partners who were employees and generally received quarterly allocations of net income. Upon termination of employment or otherwise ceasing to provide substantive services, the FPU's were generally redeemed, and the unit holders were no longer entitled to participate in the quarterly allocations of net income. Since these allocations of net income were cash distributed on a quarterly basis and were contingent upon services being provided by the unit holder, they were reflected as a component of compensation expense under "Equity-based compensation and allocations of net income to limited partnership units and FPU's" in the Company's unaudited Condensed Consolidated Statements of Operations.

#### **Limited Partnership Units**

Certain BGC employees held LPUs in BGC Holdings and hold LPUs in Newmark Holdings (e.g., REUs, RPU's, PSUs, and PSl's). Prior to the Separation, certain employees of both BGC and Newmark received LPUs in BGC Holdings. As a result of the Separation, these employees were distributed LPUs in Newmark Holdings equal to a BGC Holdings LPU multiplied by the Contribution Ratio. Subsequent to the Separation, BGC employees were only granted LPUs in BGC Holdings, and Newmark employees are only granted LPUs in Newmark Holdings. In connection with, or as a result of, the Corporate Conversion, certain LPUs in BGC Holdings were redeemed/converted into BGC restricted stock awards or RSUs, and upon completion of the Corporate Conversion, there were no LPUs of BGC Holdings remaining. The Corporate Conversion had no impact on the LPUs in Newmark Holdings held by BGC employees.

Generally, LPUs received quarterly allocations of net income, which were cash distributed and generally were contingent upon services being provided by the unit holder. As prescribed in U.S. GAAP guidance, following the Spin-Off, the quarterly allocations of net income on BGC Holdings LPUs held by BGC employees were reflected as a component of compensation expense under "Equity-based compensation and allocations of net income to limited partnership units and FPU's" in the Company's unaudited Condensed Consolidated Statements of Operations prior to the Corporate Conversion, and quarterly allocations of net income on Newmark Holdings LPUs held by BGC employees, which were not impacted by the Corporate Conversion, are reflected as a component of compensation expense under "Equity-based compensation and allocations of net income to limited partnership units and FPU's" in the Company's unaudited Condensed Consolidated Statements of Operations. Quarterly allocations of net income on BGC Holdings LPUs held by Newmark employees were reflected as a component of "Net income (loss) attributable to noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Operations, prior to the Corporate Conversion. From time to time, the Company also issued BGC LPUs as part of the consideration for acquisitions.

Certain of these LPUs in BGC Holdings and Newmark Holdings, such as REUs, entitle the holders to receive post-termination payments equal to the notional amount of the units in four equal yearly installments after the holder's termination. There were none of these LPUs in BGC Holdings remaining after the Corporate Conversion was completed while these LPUs in Newmark Holdings held by BGC employees were not impacted by the Corporate Conversion. These LPUs held by BGC employees are accounted for as post-termination liability awards, and in accordance with U.S. GAAP guidance, the Company records compensation expense for the awards based on the change in value at each reporting date in the Company's unaudited Condensed Consolidated Statements of Operations as part of "Equity-based compensation and allocations of net income to limited partnership units and FPU's."

Certain BGC employees held Preferred Units in BGC Holdings and hold Preferred Units in Newmark Holdings. In connection with, or as a result of, the Corporate Conversion, certain Preferred Units in BGC Holdings were redeemed/converted into BGC restricted stock awards or RSU Tax Accounts, and upon completion of the Corporate Conversion, there were no Preferred Units of BGC Holdings remaining. The Corporate Conversion had no impact on Preferred Units in Newmark Holdings held by BGC employees. The following description of LPUs and Preferred Units in BGC Holdings is only applicable for the period prior to the Corporate Conversion, and for LPUs and Preferred Units held by BGC employees in Newmark Holdings is applicable to before and after the Corporate Conversion. Each quarter, the net profits of BGC Holdings and Newmark Holdings are allocated to such units at a rate of either 0.6875% (which is 2.75% per calendar year) or such other amount as set forth in the award documentation. These allocations are deducted before the calculation and distribution of the quarterly partnership distribution for the remaining partnership interests and are generally contingent upon services being provided by the unit holder. The Preferred Units are not entitled to participate in partnership distributions other than with respect to the Preferred Distribution. Preferred Units may not be made exchangeable into Class A common stock, and are only entitled to the Preferred Distribution; accordingly, they are not included in the fully diluted share count. The quarterly allocations of net income on Preferred Units are reflected the same as those of the LPUs described above in the Company's unaudited Condensed Consolidated Statements of Operations. After deduction of the Preferred Distribution, the remaining partnership units generally received quarterly allocations of net income based on their weighted-average pro rata share of economic ownership of the operating subsidiaries. Preferred Units are granted in connection with the grant of certain LPUs, such as PSUs, which may be granted exchangeability or redeemed in connection with the issuance of shares of common stock to cover the withholding taxes owed by the unit holder, rather than issuing the gross amount of shares to employees, subject to cashless withholding of shares to pay applicable withholding taxes.

#### **Cantor Units**

Prior to the Corporate Conversion, Cantor held limited partnership interests in BGC Holdings. Cantor units were reflected as a component of "Noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Financial Condition. Cantor received allocations of net income (loss), which were cash distributed on a quarterly basis and were reflected as a component of "Net income (loss) attributable to noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Operations. As a result of the Corporate Conversion, 64.0 million Cantor units were convertible into shares of BGC Group Class B common stock, subject to the terms and conditions of the Corporate Conversion Agreement, provided that a portion of the 64.0 million shares of BGC Group Class B common stock issued to Cantor will exchange into BGC Group Class A common stock in the event that BGC Group does not issue at least \$75,000,000 in shares of BGC Group Class A or B common stock in connection with certain acquisition transactions prior to the seventh anniversary of the Corporate Conversion.

#### **General**

Certain of the limited partnership interests, described above, were granted exchangeability into shares of BGC Class A common stock, prior to the Corporate Conversion, or shares of Newmark Class A common stock, and additional limited partnership interests could become exchangeable into shares of Newmark Class A common stock. In addition, prior to the Corporate Conversion, certain limited partnership interests were granted the right to exchange into or were exchanged into a partnership unit with a capital account, such as HDUs. HDUs had a stated capital account which was initially based on the closing trading price of Class A common stock at the time the HDU was granted. HDUs participated in quarterly partnership distributions and were generally not exchangeable into shares of Class A common stock.

Subsequent to the Spin-Off and prior to the Corporate Conversion, limited partnership interests in BGC Holdings held by a partner or Cantor could become exchangeable for BGC Class A or BGC Class B common stock on a one-for-one basis. In addition, subsequent to the Spin-Off, limited partnership interests in Newmark Holdings held by a partner or Cantor may become exchangeable for a number of shares of Newmark Class A or Newmark Class B common stock equal to the number of limited partnership interests multiplied by the then-current Exchange Ratio. Because limited partnership interests were included in the Company's fully diluted share count, if dilutive, prior to the Corporate Conversion, any previous exchanges of limited partnership interests into shares of BGC Class A or BGC Class B common stock did not impact the fully diluted number of shares and units outstanding. Because these limited partnership interests generally received quarterly allocations of net income, such exchanges had no significant impact on the cash flows or equity of BGC Partners, prior to the Corporate Conversion.

Prior to the Corporate Conversion, each quarter, net income (loss) was allocated between the limited partnership interests and BGC Partners' common stockholders. In quarterly periods in which BGC Partners had a net loss, the loss allocation for FPU's, LPUs and Cantor units in BGC Holdings was allocated to Cantor and reflected as a component of "Net income (loss) attributable to noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Operations. In subsequent quarters in which BGC Partners had net income, the initial allocation of income to the limited partnership interests in BGC Holdings was to Cantor and was recorded as "Net income (loss) attributable to noncontrolling interests in subsidiaries," to recover any losses taken in earlier quarters, with the remaining income allocated to the limited partnership interests. This income (loss) allocation process had no impact on the net income (loss) allocated to common stockholders.

**Information About Uncertainty of Level 3 Fair Value Measurements**

The significant unobservable inputs used in the fair value of the Company’s contingent consideration are the discount rate and forecasted financial information. Significant increases (decreases) in the discount rate would have resulted in a significantly lower (higher) fair value measurement. Significant increases (decreases) in the forecasted financial information would have resulted in a significantly higher (lower) fair value measurement. As of September 30, 2024 and December 31, 2023, the present value of expected payments related to the Company’s contingent consideration was \$8.8 million and \$11.9 million, respectively. The undiscounted value of the payments, assuming that all contingencies are met, was \$18.0 million and \$18.6 million as of September 30, 2024 and December 31, 2023, respectively.

**Fair Value Measurements on a Non-Recurring Basis**

Pursuant to the recognition and measurement guidance for equity investments, equity investments carried under the measurement alternative are remeasured at fair value on a non-recurring basis to reflect observable transactions which occurred during the period. The Company applied the measurement alternative to equity securities with the fair value of \$126.1 million and \$85.8 million as of September 30, 2024 and December 31, 2023, respectively, which were included in “Other assets” in the Company’s unaudited Condensed Consolidated Statements of Financial Condition. These investments are classified within Level 2 in the fair value hierarchy, because their estimated fair value is based on valuation methods using the observable transaction price at the transaction date.

### Related Party Transactions

In connection with the Corporate Conversion on July 1, 2023, the BGC Group Board and the Board of Directors of BGC Partners authorized the assumption of all agreements and arrangements between BGC Partners and any executive officer, director or affiliate of BGC Partners, with such modifications necessary to reflect the Corporate Conversion. #### Service Agreements

Throughout Europe and Asia, the Company provides Cantor with administrative services, technology services and other support for which it charges Cantor based on the cost of providing such services plus a mark-up, generally 7.5%. In the U.K., the Company provides these services to Cantor through Tower Bridge. The Company owns 52% of Tower Bridge and consolidates it, and Cantor owns 48%. Cantor's interest in Tower Bridge is reflected as a component of "Noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Financial Condition, and the portion of Tower Bridge's income attributable to Cantor is included as part of "Net income (loss) attributable to noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Operations. In the U.S., the Company provides Cantor with technology services, for which it charges Cantor based on the cost of providing such services.

The administrative services agreement provides that direct costs incurred are charged back to the service recipient. Additionally, the service recipient generally indemnifies the service provider for liabilities that it incurs arising from the provision of services other than liabilities arising from fraud or willful misconduct of the service provider. In accordance with the administrative service agreement, the Company has not recognized any liabilities related to services provided to affiliates.

For the three months ended September 30, 2024 and 2023, Cantor's share of the net profit in Tower Bridge was \$0.5 million and \$1.2 million, respectively. For the nine months ended September 30, 2024 and 2023, Cantor's share of the net profit in Tower Bridge was \$1.2 million and \$1.8 million, respectively. This net profit or loss is included as part of "Net income (loss) attributable to noncontrolling interest in subsidiaries" in the Company's unaudited Condensed Consolidated Statements of Operations.

On September 21, 2018, the Company entered into agreements to provide a guarantee and related obligation to Tower Bridge in connection with an office lease for the Company's headquarters in London. The Company is obligated to guarantee the obligations of Tower Bridge in the event of certain defaults under the applicable lease and ancillary arrangements. In July 2018, the Audit Committee also authorized management of the Company to enter into similar guarantees or provide other forms of credit support to Tower Bridge or other affiliates of the Company from time to time in the future in similar circumstances and on similar terms and conditions.

For the three months ended September 30, 2024 and 2023, the Company recognized related party revenues of \$5.1 million and \$3.7 million, respectively, for the services provided to Cantor. For the nine months ended September 30, 2024 and 2023, the Company recognized related party revenues of \$14.2 million and \$11.7 million, respectively, for the services provided to Cantor. These revenues are included as part of "Fees from related parties" in the Company's unaudited Condensed Consolidated Statements of Operations.

In the U.S., Cantor and its affiliates provide the Company with administrative services and other support for which Cantor charges the Company based on the cost of providing such services. In connection with the services Cantor provides, the Company and Cantor entered into an administrative services agreement whereby certain employees of Cantor are deemed leased employees of the Company.

For the three months ended September 30, 2024 and 2023, the Company was charged \$26.9 million and \$23.3 million, respectively, for the services provided by Cantor and its affiliates, of which \$18.7 million and \$16.3 million, respectively, were to cover compensation to leased employees for these periods. For the nine months ended September 30, 2024 and 2023, the Company was charged \$79.2 million and \$71.4 million, respectively, for the services provided by Cantor and its affiliates, of which \$55.7 million and \$48.0 million, respectively, were to cover compensation to leased employees for these periods. The fees charged by Cantor for administrative and support services, other than those to cover the compensation costs of leased employees, are included as part of "Fees to related parties" in the Company's unaudited Condensed Consolidated Statements of Operations. The fees charged by Cantor to cover the compensation costs of leased employees are included as part of "Compensation and employee benefits" in the Company's unaudited Condensed Consolidated Statements of Operations.

In connection with the Corporate Conversion on July 1, 2023, BGC Group, Cantor and certain affiliates of Cantor entered into an Amended and Restated U.S. Master Administrative Services Agreement and an Amended and Restated U.K. Master Administrative Services Agreement.

#### ***FMX Administrative Services Agreement***

In connection with the FMX Separation, on April 23, 2024, Tower Bridge and FMX entered into an Administrative Services Agreement, pursuant to which Tower Bridge would provide certain administrative services and technology services to FMX.

#### Clearing Agreements with Cantor

The Company and its subsidiaries receive certain clearing services from Cantor and its subsidiaries pursuant to several clearing agreements, including the Clearing Services Agreement. These clearing services are provided in exchange for payment by the Company and its subsidiaries of third-party clearing costs and allocated costs. The costs associated with these payments are included as part of "Fees to related parties" in the Company's unaudited Condensed Consolidated Statements of Operations. The costs for these services are included as part of the charges to BGC for services provided by Cantor and its affiliates as discussed in "Service Agreements" above.

On June 7, 2024, the Company amended the Clearing Services Agreement to modify the rate charged by CF&Co for posting margin in respect of trades cleared on behalf of BGCf to a rate equal to CF&Co's cost of funding such margin through a draw on a third party credit facility provided to CF&Co for which the use of proceeds is to finance clearinghouse margin deposits and related transactions.

#### Clearing Capital Agreement with Cantor

In November 2008, the Company entered into the Clearing Capital Agreement with Cantor to clear U.S. Treasury and U.S. government agency securities transactions on the Company's behalf. In June 2020, the Clearing Capital Agreement was amended to cover Cantor providing clearing services in all eligible financial products to the Company and not just U.S. Treasury and U.S. government agency securities. Pursuant to the terms of this agreement, so long as Cantor is providing clearing services to BGC, Cantor shall be entitled to request from the Company cash or other collateral acceptable to Cantor in the amount reasonably requested by Cantor under the Clearing Capital Agreement or Cantor will post cash or other collateral on BGC's behalf for a commercially reasonable charge. On June 7, 2024, the Company amended the Clearing Capital Agreement to modify the rate charged by Cantor for posting margin in respect of trades cleared on behalf of the Company to a rate equal to Cantor's cost of funding such margin through a draw on a third party credit facility provided to Cantor for which the use of proceeds is to finance clearinghouse margin deposits and related transactions. The Clearing Capital Agreement amendment also assigned BGC Partners' rights and obligations thereunder to BGC Group.

During the three months ended September 30, 2024 and 2023, the Company was charged \$1.4 million and \$0.7 million, respectively, by Cantor for the cash or other collateral posted by Cantor on BGC's behalf. During the nine months ended September 30, 2024 and 2023, the Company was charged \$3.3 million and \$1.5 million, respectively, by Cantor for the cash or other collateral posted by Cantor on BGC's behalf. Cantor held cash or other property from the Company as collateral as of September 30, 2024 at a fair value of \$148.6 million.

#### Non-Conforming Subordination Agreements

On June 26, 2024, the Audit Committee of BGC approved the entry into one or more non-conforming subordination agreements by BGC or its subsidiaries, including FMX, with CF&Co (or its affiliates). Pursuant to any non-conforming subordination agreement, the BGC party would acknowledge that its brokerage account(s) held at CF&Co are not "customers" of CF&Co and would agree to subordinate its right to receive securities or funds held in such accounts to the claims of Cantor's customers. This acknowledgment and agreement by the relevant BGC party enables CF&Co to receive such securities or funds from the BGC party and post them with the FICC without requiring that they be segregated.

#### Purchase of Futures Exchange Group

On July 30, 2021, the Company completed the purchase of the Futures Exchange Group for a purchase price of \$4.9 million at closing, plus the cash held at closing by the Futures Exchange Group, and an earn-out, only payable out of the Company's portion of the profits of the Futures Exchange Group, capped at the amount Cantor contributed to the Futures Exchange Group prior to closing. The transaction has been accounted for as a transaction between entities under common control.

As part of the purchase of the Futures Exchange Group, Cantor has agreed to indemnify the Company for certain expenses arising at the Futures Exchange Group up to a maximum of \$1.0 million. As of both September 30, 2024 and December 31, 2023, the Company had recorded assets of \$1.0 million in the Company's unaudited Condensed Consolidated Statements of Financial Condition for this indemnity.

#### Newmark Spin-Off

The Separation and Distribution Agreement sets forth certain agreements among BGC, Cantor, Newmark and their respective subsidiaries relating to the Spin-Off. For additional information, see Note 2—"Limited Partnership Interests in BGC Holdings and Newmark Holdings" herein and Note 2—"Limited Partnership Interests in BGC Holdings and Newmark Holdings" and Note 13—"Related Party Transactions" to our Consolidated Financial Statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2023.

Subsequent to the Spin-Off, there were remaining partners who held limited partnership interests in BGC Holdings who are Newmark employees, and there are remaining partners who hold limited partnership interests in Newmark Holdings who are BGC employees. These limited partnership interests represent interests that were held prior to the Newmark IPO or were distributed in connection with the Separation. Following the Newmark IPO, employees of BGC and Newmark only receive limited partnership interests in BGC Holdings and Newmark Holdings, respectively. As a result of the Spin-Off, as the previous limited partnership interests in BGC Holdings held by Newmark employees and the existing limited partnership interests in Newmark Holdings held by BGC employees were/are exchanged/redeemed, the related capital is contributed to and from Cantor, respectively.

Prior to the Corporate Conversion, all BGC Holdings units held by employees of Newmark were redeemed or exchanged, in each case, for shares of BGC Class A common stock.

#### BGC Credit Agreement

On March 19, 2018, BGC Partners entered into the BGC Credit Agreement with Cantor. The BGC Credit Agreement provides for each party and certain of its subsidiaries to issue loans to the other party or any of its subsidiaries at the lender's discretion in an aggregate principal amount up to \$250.0 million outstanding at any time. The BGC Credit Agreement replaced the previous Credit Facility between BGC Partners and an affiliate of Cantor. On August 6, 2018, BGC Partners entered into an amendment to the BGC Credit Agreement, which increased the aggregate principal amount that could be loaned to the other party or any of its subsidiaries from \$250.0 million to \$400.0 million that can be outstanding at any time. On October 6, 2023, BGC Group assumed all rights and obligations of BGC Partners under the BGC Credit Agreement.

On March 8, 2024, the Company entered into a second amendment to the BGC Credit Agreement. The second amendment provides that the parties and their respective subsidiaries may borrow up to an aggregate principal amount of \$400.0 million from each other from time to time at an interest rate equal to 25 basis points less than the interest rate on the respective borrower's short-term borrowing rate then in effect. Previously, the parties and their respective subsidiaries could borrow up to an aggregate principal amount of \$400.0 million from each other from time to time at an interest rate equal to 1.00% higher than the higher of Cantor's or BGC's short-term borrowing rate then in effect. The BGC Credit Agreement will mature on the earlier to occur of (a) if prior written notice of non-extension is given by a lending party to a borrowing party at least six months in advance thereof, March 19, 2025, and if such notice is not timely given, then the maturity date of the BGC Credit Agreement will continue to be extended for additional successive one-year periods unless prior written notice of non-extension is given by a lending party to a borrowing party at least six months in advance of such renewal date and (b) the termination of the BGC Credit Agreement by either party pursuant to its terms.

On June 7, 2024, the Company entered into a third amendment to the BGC Credit Agreement. The third amendment provides that the parties and their respective subsidiaries may borrow up to an aggregate principal amount of \$400.0 million pursuant to a new category of "FICC-GSD Margin Loans." FICC-GSD Margin Loans will bear interest at a rate equal to the overnight interest rate actually earned by the borrower or its affiliates on borrowings under the applicable FICC-GSD Margin Loan that are posted to clearinghouses or kept available for posting at clearinghouses. The maturity date in respect of FICC-GSD Margin Loans will not exceed 35 days from the date the loan is made, unless otherwise agreed by the parties. All other terms of the BGC Credit Agreement, including terms applicable to loans made thereunder that are not FICC-GSD Margin Loans, remain the same.

On March 12, 2024, the Company borrowed \$275.0 million from Cantor under the BGC Credit Agreement and used the proceeds from such borrowing to repay the principal and interest related to all of the \$240.0 million of borrowings outstanding under the Revolving Credit Agreement. The interest rate on this facility was 6.92%. On April 1, 2024, the Company repaid in full the \$275.0 million of principal and interest amounts outstanding from the BGC Credit Agreement. As of September 30, 2024, there were no borrowings by the Company outstanding under the BGC Credit Agreement. As of December 31, 2023, there were no borrowings by BGC Partners or Cantor outstanding under this agreement. The Company did not record any interest expense related to the BGC Credit Agreement for the three months ended September 30, 2024. **Investments in VIEs**

**Unconsolidated VIE**

One of the Company’s equity method investments is considered a VIE, as defined under the accounting guidance for consolidation. The Company is not considered the primary beneficiary of and therefore does not consolidate the VIE. The Company’s involvement with the VIE is in the form of direct equity interest. The Company’s maximum exposure to loss with respect to the VIE is its investment.

The following table sets forth the Company’s investment in its unconsolidated VIE and the maximum exposure to loss (in thousands):

|                          | September 30, 2024 |                          | December 31, 2023 |                          |
|--------------------------|--------------------|--------------------------|-------------------|--------------------------|

**Consolidated VIE**

The Company also invested in a limited liability company that is focused on developing a proprietary trading technology. The limited liability company is a VIE and it was determined that the Company is the primary beneficiary of this VIE because the Company was the provider of the majority of this VIE’s start-up capital and has the power to direct the activities of this VIE that most significantly impact its economic performance, primarily through its voting percentage and consent rights on the activities that would most significantly influence the entity. The consolidated VIE had total assets of \$6.6 million and \$9.5 million as of September 30, 2024 and December 31, 2023, respectively, which primarily consisted of clearing margin. #### Compensation

The Compensation Committee may grant various equity-based awards, including RSUs, restricted stock, stock options, LPUs (prior to the Corporate Conversion) and shares of BGC Class A common stock. Upon vesting of RSUs, issuance of restricted stock, exercise of stock options and redemption/exchange of LPUs (prior to the Corporate Conversion), the Company generally issues new shares of BGC Class A common stock.

In connection with the Corporate Conversion on July 1, 2023, BGC Group assumed and adopted the BGC Partners Equity Plan, as amended and restated as the BGC Group Equity Plan. The BGC Group Equity Plan provides for a maximum of 600.0 million shares of BGC Class A common stock that may be delivered or cash settled pursuant to the exercise or settlement of awards granted under the plan. #### Limited Partnership Units

A summary of the activity associated with Newmark Holdings LPUs held by BGC employees is as follows (in thousands):

|                               | Newmark LPUs |
|-------------------------------|--------------|
| Balance at December 31, 2023  | 8,779        |
| Granted                       | —            |
| Redeemed/exchanged units      | (2,165)      |
| Forfeited units               | (185)        |
| Balance at September 30, 2024 | 6,429        |

The LPUs table above includes both regular and Preferred Units. Preferred Units are not entitled to participate in partnership distributions other than with respect to the Preferred Distribution (see Note 2 —“Limited Partnership Interests in BGC Holdings and Newmark Holdings” for further information on Preferred Units). Subsequent to the Corporate Conversion, there are still BGC employees who hold limited partnership interests in Newmark Holdings. These limited partnership interests represent interests that were held prior to the Newmark IPO and were distributed in connection with the Separation. Following the Newmark IPO, employees of BGC and Newmark only received limited partnership interests in BGC Holdings and Newmark Holdings, respectively. As a result of the Spin-Off, as the previous limited partnership interests in BGC Holdings held by Newmark employees and the existing limited partnership interests in Newmark Holdings held by BGC employees were/are exchanged/redeemed, the related capital was contributed to and from Cantor, respectively. The compensation expenses under GAAP related to the limited partnership interests are based on the company where the partner is employed. Therefore, compensation expenses related to the limited partnership interests of both BGC Holdings (prior to the Corporate Conversion) and Newmark Holdings that are held by BGC employees are recognized by BGC. The BGC Holdings limited partnership interests held by Newmark employees could have been included in the BGC share count and the Newmark Holdings limited partnership interests held by BGC employees may be included in the Newmark share count, if applicable. There were no limited partnership interests in BGC Holdings remaining upon the completion of the Corporate Conversion, and therefore, there was no compensation expense related to limited partnership interest in BGC Holdings recognized by BGC subsequent to the Corporate Conversion.

A summary of the Newmark Holdings LPUs held by BGC employees as of September 30, 2024 is as follows (in thousands):

The compensation expense related to the issuance of common stock includes a redemption of 1.6 million Newmark Holdings LPUs for which 1.5 million shares of Newmark Class A common stock were issued to a former BGC executive officer, who is still employed by the Company. This resulted in a \$21.1 million compensation expense for both the three and nine months ended September 30, 2024.

Restricted Stock

BGC employees hold shares of BGC and Newmark restricted stock. Such restricted shares are generally salable by partners in five to ten years. Transferability of the restricted shares of stock issued prior to the Corporate Conversion is not subject to continued employment or service with the Company or any affiliate or subsidiary of the Company; however, transferability is subject to compliance with BGC and its affiliates' customary noncompete obligations.

During both the three months ended September 30, 2024 and 2023, nil BGC or Newmark restricted shares held by BGC employees were forfeited in connection with this provision. During both the nine months ended September 30, 2024 and 2023, 0.2 million BGC or Newmark restricted shares held by BGC employees were forfeited in connection with this provision.

During both the three months ended September 30, 2024 and 2023, the Company released the restrictions with respect to nil of such BGC shares held by BGC employees, respectively. During the nine months ended September 30, 2024 and 2023, the Company released the restrictions with respect to nil and 2.3 million of such BGC shares held by BGC employees, respectively. As of September 30, 2024 and December 31, 2023, there were nil and 0.1 million of such restricted BGC shares held by BGC employees outstanding, respectively. During both the three months ended September 30, 2024 and 2023, Newmark did not release restrictions on any restricted Newmark shares held by BGC employees. During the nine months ended September 30, 2024 and 2023, Newmark released the restrictions with respect to nil and 1.1 million, respectively, of restricted Newmark shares held by BGC employees. As of both September 30, 2024 and December 31, 2023, there were no restricted Newmark shares held by BGC employees outstanding.

In addition, as a result of the Corporate Conversion, on July 1, 2023, the Company granted 38.6 million restricted stock awards, which are subject to continued employment or service with the Company or any affiliate or subsidiary of the Company.

The fair value of these restricted stock awards held by BGC employees is based on the market value of BGC Class A common stock on the grant date and adjusted as appropriate based upon the award's ineligibility to receive dividends. As of September 30, 2024, 0.6 million of the total 12.7 million restricted stock awards outstanding, were eligible to receive dividends. The compensation expense is recognized ratably over the vesting period, taking into effect estimated forfeitures or accelerations of vestings. The Company uses historical data, including historical forfeitures and turnover rates, to estimate expected forfeiture rates for employee restricted stock awards. Each restricted stock award is settled in one share of Class A common stock upon completion of the vesting period and conditions. The compensation expense related to the restricted stock amortization on these awards held by BGC employees was \$9.2 million for the three months ended September 30, 2024. The compensation expense related to the restricted stock amortization on these awards held by BGC employees was \$53.5 million for the nine months ended September 30, 2024. The compensation expense related to restricted stock includes the acceleration of approximately 4.5 million restricted stock awards of a former BGC executive officer, who is still employed by the Company, which resulted in a \$27.7 million compensation expense for the nine months ended September 30, 2024.

For the restricted stock awards that vested during the three months ended September 30, 2024, the Company withheld 0.9 million shares of BGC Class A common stock to pay taxes due at the time of vesting. For the restricted stock awards that

vested during the nine months ended September 30, 2024, the Company withheld 3.6 million shares of BGC Class A common stock to pay taxes due at the time of vesting. As of September 30, 2024, there was approximately \$11.3 million of total unrecognized compensation expense related to unvested restricted stock awards held by BGC employees that is expected to be recognized over a weighted-average period of 0.56 years.

A summary of the activity associated with these restricted stock awards held by BGC employees is as follows (shares of restricted stock and dollars in thousands):

Commitments and Contingencies Disclosure [Abstract]

Commitments, Contingencies and Guarantees

Commitments, Contingencies and Guarantees

Contingencies

In the ordinary course of business, various legal actions are brought and are pending against the Company and its subsidiaries in the U.S. and internationally. In some of these actions, substantial amounts are claimed. The Company is also involved, from time to time, in reviews, examinations, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's businesses, operations, reporting or other matters, which may result in regulatory, civil and criminal judgments, settlements, fines, penalties, injunctions, enhanced oversight, remediation, or other relief. The following generally does not include matters that the Company has pending against other parties which, if successful, would result in awards in favor of the Company or its subsidiaries.

Employment, Competitor-Related and Other Litigation

From time to time, the Company and its subsidiaries are involved in litigation, claims and arbitrations in the U.S. and internationally, relating to, inter alia, various employment matters, including with respect to termination of employment, hiring of employees currently or previously employed by competitors, terms and conditions of employment and other matters. In light of the competitive nature of the brokerage industry, litigation, claims and arbitration between competitors regarding employee hiring are not uncommon. The Company is also involved, from time to time, in other reviews, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's businesses. Any such actions may result in regulatory, civil or criminal judgments, settlements, fines, penalties, injunctions, enhanced oversight, remediation, or other relief.

Legal reserves are established in accordance with U.S. GAAP guidance on Accounting for Contingencies, when a material legal liability is both probable and reasonably estimable. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change. The outcome of such items cannot be determined with certainty. The Company is unable to estimate a possible loss or range of loss in connection with specific matters beyond its current accruals and any other amounts disclosed. Management believes that, based on currently available information, the final outcome of these current pending matters will not have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

Letter of Credit Agreements

The Company has irrevocable uncollateralized letters of credit with various banks, where the beneficiaries are clearing organizations through which it transacts, that are used in lieu of margin and deposits with those clearing organizations. As of both September 30, 2024 and December 31, 2023 the Company was contingently liable for \$1.4 million under these letters of credit.

Risk and Uncertainties

9 Months Ended

Sep. 30, 2024

The Company generates revenues by providing financial intermediary and brokerage activities to institutional customers and by executing and, in some cases, clearing transactions for institutional counterparties. Revenues for these services are transaction-based. As a result, revenues could vary based on the transaction volume of global financial markets. Additionally, financing is sensitive to interest rate fluctuations, which could have an impact on the Company's overall profitability.

Financial instruments that potentially subject the Company to concentration of credit risk consist of cash accounts in a financial institution which, at times, may exceed the FDIC maximum coverage limit of \$250,000. Any loss incurred or a lack of access to such funds could have a significant adverse impact on the Company's Consolidated Financial Statements. For the three and nine months ended September 30, 2024 and 2023, the Company did not incur losses on any FDIC insured cash accounts.

During the three months ended September 30, 2024 and 2023, the Company reserved no losses and \$2.0 million, respectively, in connection with potential losses associated with Russia's Invasion of Ukraine. During the nine months ended September 30, 2024 and 2023, the Company reserved \$4.0 million and \$6.0 million, respectively, in connection with potential losses associated with Russia's Invasion of Ukraine. These amounts are included in "Other expenses" in the Company's unaudited Condensed Consolidated Statements of Operations, and which was recorded as part of the allowance for credit losses (see Note 25—"Current Expected Credit Losses (CECL)" for additional information).

Insurance

The Company is self-insured for health care claims, up to a stop-loss amount for eligible participating employees and qualified dependents in the U.S., subject to deductibles and limitations. The Company's liability for claims incurred but not reported is determined based on an estimate of the ultimate aggregate liability for claims incurred. The estimate is calculated from actual claim rates and adjusted periodically as necessary. The Company has accrued \$3.8 million and \$3.7 million in health care claims as of September 30, 2024 and December 31, 2023, respectively. The Company does not expect health care claims to have a material impact on its financial condition, results of operations, or cash flows.

Guarantees

The Company provides guarantees to securities clearinghouses and exchanges which meet the definition of a guarantee under FASB interpretations. Under these standard securities clearinghouse and exchange membership agreements, members are required to guarantee, collectively, the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. In the opinion of management, the Company's liability under these agreements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential of being required to make payments under these arrangements is remote. Accordingly, no contingent liability has been recorded in the Company's unaudited Condensed Consolidated Statements of Financial Condition for these agreements.

Income Taxes

[Income Tax Disclosure \[Abstract\]](#)  
[Income Taxes](#)

Income Taxes

The Company's unaudited Condensed Consolidated Financial Statements include U.S. federal, state and local income taxes on the Company's allocable share of the U.S. results of operations, as well as taxes payable to jurisdictions outside the U.S. In addition, certain of the Company's entities are taxed as U.S. partnerships and are subject to the UBT in New York City. Therefore, the tax liability or benefit related to the partnership income or loss, except for UBT, rests with the partners (see Note 2—"Limited Partnership Interests in BGC Holdings and Newmark Holdings" for discussion of partnership interests), rather than the partnership entity.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the unaudited condensed consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded against deferred tax assets if it is deemed more likely than not that those assets will not be realized.

Pursuant to U.S. GAAP guidance, Accounting for Uncertainty in Income Taxes, the Company provides for uncertain tax positions as a component of income tax expense based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities.

As of both September 30, 2024 and December 31, 2023, the Company's unrecognized tax benefits, excluding related interest and penalties were \$6.7 million, of which \$5.5 million, if recognized, would affect the effective tax rate. The Company is currently open to examination by tax authorities in U.S. federal, state and local jurisdictions, and certain non-U.S. jurisdictions for tax years beginning 2018, 2011 and 2016, respectively. The Company is currently under examination by tax authorities in the U.S. federal and certain state, local and foreign jurisdictions. The Company does not believe that the amounts of unrecognized tax benefits will materially change over the next 12 months.

The Company recognizes interest and penalties related to unrecognized tax benefits in "Provision (benefit) for income taxes" in the Company's unaudited Condensed Consolidated Statements of Operations. As of September 30, 2024 and December 31, 2023, the Company had accrued \$4.5 million and \$3.4 million, respectively, for income tax-related interest and penalties.

Regulatory Requirements

[Broker-Dealer \[Abstract\]](#)  
[Regulatory Requirements](#)

Regulatory Requirements

Many of the Company's businesses are subject to regulatory restrictions and minimum capital requirements. These regulatory restrictions and capital requirements may restrict the Company's ability to withdraw capital from its subsidiaries.

Certain U.S. subsidiaries of the Company are registered as U.S. broker-dealers or FCMs subject to Rule 15c3-1 of the SEC and Rule 1.17 of the CFTC, which specify uniform minimum net capital requirements, as defined, for their registrants, and also require a significant part of the registrants' assets be kept in relatively liquid form. As of September 30, 2024, the Company's U.S. subsidiaries had net capital in excess of their minimum capital requirements.

Certain U.K. and European subsidiaries of the Company are regulated by their national regulators, which include the FCA and L'Autorité des Marchés Financiers and must maintain financial resources (as defined by their national regulators) in excess of the total financial requirement (as defined by their national regulators). As of September 30, 2024, the U.K. and European subsidiaries had financial resources in excess of their requirements.

Certain other subsidiaries of the Company are subject to regulatory and other requirements of the jurisdictions in which they operate.

Certain BGC subsidiaries also operate as DCMs and DCOs which are required to maintain financial resources to cover operating costs for at least one year, keeping at least enough cash or highly liquid securities to cover six months' operating costs. In addition, BGC subsidiaries operate as SEFs which are required to maintain financial resources to cover operating costs for at least one year, keeping at least enough cash or highly liquid securities to cover the greater of three months of projected operating costs, or the projected costs needed to wind down the swap execution facility's operations.

The regulatory requirements referred to above may restrict the Company's ability to withdraw capital from its regulated subsidiaries. As of September 30, 2024, the Company's regulated subsidiaries held \$717.5 million of net capital. These subsidiaries had aggregate regulatory excess net capital of \$396.3 million.

## Leases

### Leases

The Company, acting as a lessee, has operating leases and finance leases primarily relating to office space, data centers and office equipment. The leases have remaining lease terms of 0.5 years to 14.9 years, some of which include options to extend the leases in 0.1 to 10 year increments for up to 15 years. Renewal periods are included in the lease term only when renewal is reasonably certain, which is a high threshold and requires management to apply judgment to determine the appropriate lease term. Certain leases also include periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise the termination option. The Company measures its lease payments by including fixed rental payments and, where relevant, variable rental payments tied to an index, such as the Consumer Price Index. Payments for leases in place before the date of adoption of ASC 842, *Leases*, were determined based on previous leases guidance. The Company recognizes lease expense for its operating leases on a straight-line basis over the lease term, and variable lease expense not included in the lease payment measurement is recognized as incurred. Interest expense on finance leases is recognized using the effective interest method over the lease term.

Pursuant to the accounting policy election, leases with an initial term of twelve months or less are not recognized on the balance sheet. The short-term lease expense over the period reasonably reflects the Company's short-term lease commitments.

ASC 842 requires the Company to make certain assumptions and judgments in applying the guidance, including determining whether an arrangement includes a lease, determining the term of a lease when the contract has renewal or cancellation provisions, and determining the discount rate.

The Company determines whether an arrangement is a lease or includes a lease at the contract inception by evaluating whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. If the Company has the right to obtain substantially all of the economic benefits from, and can direct the use of, the identified asset for a period of time, the Company accounts for the identified asset as a lease. The Company has elected the practical expedient to not separate lease and non-lease components for all leases other than real estate leases. The primary non-lease component that is combined with a lease component represents operating expenses, such as utilities, maintenance or management fees.

As the rate implicit in the lease is not usually available, the Company used an incremental borrowing rate based on the information available at the adoption of ASC 842 in determining the present value of lease payments for existing leases. The Company has elected to use a portfolio approach for the incremental borrowing rate, applying corporate bond rates to the leases. The Company calculated the appropriate rates with reference to the lease term and lease currency. The Company uses information available at the lease commencement date to determine the incremental borrowing rate for any new leases.

As of September 30, 2024, the Company did not have any leases that have not yet commenced but that create significant rights and obligations.

After evaluating the Company's leases, the Company determined that the carrying value of a certain asset was no longer recoverable and in fact was impaired. The fair value of the asset was based on expected future cash flows under ASC 842, and approximately \$1.4 million of impairment charges were booked for both the three and nine months ended September 30, 2024. Impairment charges are included in Occupancy and equipment in the Company's unaudited Condensed Consolidated Statement of Operations.

### Current Expected Credit Losses (CECL)

The allowance for credit losses reflects management's current estimate of potential credit losses related to the receivable balances included in the Company's unaudited Condensed Consolidated Statements of Financial Condition. See Note 3—"Summary of Significant Accounting Policies" for further discussion of the CECL reserve methodology.

As required, any subsequent changes to the allowance for credit losses are included in "Other expenses" in the Company's unaudited Condensed Consolidated Statements of Operations. During the three and nine months ended September 30, 2024 and 2023, the Company recorded changes in the allowance for credit losses as follows (in millions):

Effective as of 12:01 a.m., Eastern Time, on July 1, 2023, BGC Holdings reorganized from a Delaware limited partnership into a Delaware limited liability company through a merger with and into Holdings Merger Sub, with Holdings Merger Sub continuing as a direct subsidiary of BGC Partners. Effective as of 12:02 a.m., Eastern Time, on July 1, 2023, Merger Sub 1 merged with and into BGC Partners, with BGC Partners continuing as a direct subsidiary of BGC Group. At the same time, Merger Sub 2 merged with and into Holdings Merger Sub, with Holdings Merger Sub continuing as a subsidiary of BGC Group. As a result of the Corporate Conversion Mergers, BGC Partners and BGC Holdings became wholly owned subsidiaries of BGC Group.

In connection with, but prior to the Corporate Conversion, the Company completed various transactions which included:

As a result of the Corporate Conversion:

- 64.0 million Cantor units, including 5.7 million purchased on June 30, 2023, were converted into shares of BGC Group Class B common stock, subject to the terms and conditions of the Corporate Conversion Agreement, provided that a portion of the 64.0 million shares of BGC Group Class B common stock issued to Cantor will exchange into BGC Group Class A common stock in the event that BGC Group does not issue at least \$75,000,000 in shares of BGC Group Class A or B common stock in connection with certain acquisition transactions prior to July 1, 2030, the seventh anniversary of the Corporate Conversion;

Long-Term Incentive Plan, as amended and restated as the BGC Group, Inc. Long Term Incentive Plan; the BGC Partners Second Amended and Restated BGC Partners Incentive Bonus Compensation Plan, as amended and restated, and renamed the BGC Group, Inc. [Recently Adopted Accounting Pronouncements](#)

**Recently Adopted Accounting Pronouncements**

In October 2021, the FASB issued ASU No. 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*. The standard improves the accounting for acquired revenue contracts with customers in a business combination by addressing diversity in practice and inconsistency related to the recognition of an acquired contract liability, as well as payment terms and their effect on subsequent revenue recognized by the acquirer. The ASU requires companies to apply guidance in ASC 606, *Revenue from Contracts with Customers*, to recognize and measure contract assets and contract liabilities from contracts with customers acquired in a business combination, and, thus, creates an exception to the general recognition and measurement principle in ASC 805, *Business Combinations*. BGC adopted the standard on the required effective date beginning January 1, 2023 using a prospective transition method for business combinations occurring on or after the effective date. The adoption of this guidance did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2022, the FASB issued ASU No. 2022-02, *Financial Instruments—Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures*. The guidance is intended to improve the decision usefulness of information provided to investors about certain loan refinancings, restructurings, and write-offs. The standard eliminates the recognition and measurement guidance on TDRs for creditors that have adopted ASC 326, *Financial Instruments — Credit Losses* and requires them to make enhanced disclosures about loan modifications for borrowers experiencing financial difficulty. The new guidance also requires public business entities to present current-period gross write-offs (on a current year-to-date basis for interim-period disclosures) by year of origination in their vintage disclosures. BGC adopted the standard on the required effective date beginning January 1, 2023. The guidance for recognition and measurement of TDRs was applied using a prospective transition method, and the amendments related to disclosures will be applied prospectively. The adoption of this guidance did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

In September 2022, the FASB issued ASU No. 2022-04, *Liabilities—Supplier Finance Programs (Subtopic 405-50): Debt Restructurings Disclosure of Supplier Finance Program Obligations*. The guidance requires entities to disclose the key terms of supplier finance programs they use in connection with the purchase of goods and services along with information about their obligations under these programs, including a rollforward of those obligations. BGC adopted the standard on the required effective date beginning on January 1, 2023, except for the rollforward requirement, which became effective for the Company beginning on January 1, 2024. The guidance was adopted using a retrospective application to all periods in which a balance sheet is presented, and the rollforward disclosure requirement will be applied prospectively. The adoption of the guidance that was effective beginning January 1, 2023 did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements. The rollforward disclosure requirement did not have a material impact on the Company's unaudited Condensed Consolidated Financial Statements.

**New Accounting Pronouncements**

In December 2022, the FASB issued ASU No. 2022-06, *Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848*. ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* provided optional guidance to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU was effective upon issuance and generally could be applied through December 31, 2022. Because the current relief in ASC 848, *Reference Rate Reform* may not cover a period of time during which a significant number of modifications may take place, the amendments in ASU No. 2022-06 defer the sunset date from December 31, 2022 to December 31, 2024, after which entities will no longer be permitted to apply the relief in ASC 848. The ASU is effective upon issuance. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In October 2023, the FASB issued ASU No. 2023-06, *Disclosure Improvements—Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative*. The standard is expected to clarify or improve disclosure and presentation requirements of a variety of ASC topics, allow users to more easily compare entities subject to the SEC's existing disclosure requirements with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. The effective date for the guidance will be the date on which the SEC's removal of the related disclosure from Regulation S-X or Regulation S-K becomes effective. If by June 30, 2027 the SEC has not removed the applicable requirements from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entity. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. The guidance was issued in response to requests from investors for companies to disclose more information about their financial performance at the segment level. The ASU does not change how a public entity identifies its operating segments, aggregates them or applies the quantitative thresholds to determine its reportable segments. The standard will require a public entity to disclose significant segment expenses and other segment items on an annual and interim basis, and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. Public entities with a single reportable segment will be required to provide the new disclosures and all the disclosures currently required under ASC 280. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2024 and for the interim periods beginning on January 1, 2025, will require retrospective presentation, and early adoption is permitted. Management is continuing its implementation effort of the new guidance, including drafting new financial statement disclosures required by the standard and developing appropriate internal controls. The adoption of the new guidance is not expected to have an impact on the Company's consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The standard improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. The ASU also includes certain other amendments to improve the effectiveness of income tax disclosures. The new guidance will become effective for the Company's financial statements issued for annual reporting periods beginning on January 1, 2025, will require prospective presentation with an option for entities to apply it retrospectively for each period presented, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2024, the FASB issued ASU No. 2024-01, *Compensation—Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards*. The standard is intended to reduce the complexity in determining whether profits interests and similar awards are in the scope of ASC 718 and to reduce diversity in practice. The new guidance applies to all reporting entities that grant profits interest awards or similar awards to employees or nonemployees in exchange for goods or services. The ASU adds an example to ASC 718 that illustrates how to apply the scope guidance to determine whether a profits interest award should be accounted for as a share-based payment arrangement under ASC 718 or another accounting standard. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to profits interest awards granted or modified on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

In March 2024, the FASB issued ASU No. 2024-02, *Codification Improvements—Amendments to Remove References to the Concepts Statements*. The Conceptual Framework establishes concepts that the Board considers in developing standards. The ASU was issued to remove references to the Conceptual Framework in the Codification. The FASB noted that references to the Concepts Statements in the Codification could have implied that the Concepts Statements are authoritative. Also, some of the references removed were to Concepts Statements that are superseded. The new guidance will become effective for the Company beginning on January 1, 2025, can be applied either retrospectively to all periods presented or prospectively to all new transactions recognized on or after the adoption date, and early adoption is permitted. Management is currently evaluating the impact of the new standard on the Company's unaudited Condensed Consolidated Financial Statements.

Recently Adopted Accounting Pronouncements

In October 2021, the FASB issued ASU No. 2021-08, "Business Combinations" (Topic 805). Accounting for Contract Assets and Contract Liabilities from Contracts with Customers

The standard improves the accounting for acquired revenue contracts with customers in a business combination by addressing diversity in practice and inconsistency related to the recognition of an acquired contract liability, as well as payment terms and their effect on subsequent revenue recognized by the acquirer. The ASU requires companies to apply guidance in ASC 606,

Revenue from Contracts with Customers

to recognize and measure contract assets and contract liabilities from contracts with customers acquired in a business combination, and, thus, creates an exception to the general recognition and measurement principle in ASC 805,

Business Combinations

Insurance

The Company is self-insured for health care claims, up to a stop-loss amount for eligible participating employees and qualified dependents in the U.S., subject to deductibles and limitations. The Company's liability for claims incurred but not reported is determined based on an estimate of the ultimate aggregate liability for claims incurred. The estimate is calculated from actual claim rates and adjusted periodically as necessary. The Company has accrued \$3.8 million and \$3.7 million in health care claims as of September 30, 2024 and December 31, 2023, respectively. Guarantees

The Company provides guarantees to securities clearinghouses and exchanges which meet the definition of a guarantee under FASB interpretations. Under these standard securities clearinghouse and exchange membership agreements, members are required to guarantee, collectively, the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. In the opinion of management, the Company's liability under these agreements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential of being required to make payments under these arrangements is remote. Accordingly, no contingent liability has been recorded in the Company's unaudited Condensed Consolidated Statements of Financial Condition for these agreements.

The Company is currently under examination by tax authorities in the U.S. federal and certain state, local and foreign jurisdictions.
