**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549**

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **September 30, March 31, 2023** **2024**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM TO

Commission File Number: 001-40170

TERRAN ORBITAL CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Delaware

98-1572314

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

**6800 Broken Sound Parkway NW, Suite
200
Boca Raton, FL 33487
(561) 988-1704**

(Address of principal executive offices, including zip code,

Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading	Name of each exchange on which registered
Symbols		
Common stock, par value \$0.0001 per share	LLAP	New York Stock Exchange
Preferred Stock Purchase Rights		New York Stock Exchange
Warrants to purchase one share of common stock, each at an exercise price of \$11.50 per share	LLAP WS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of **November 7, 2023** **May 7, 2024**, the registrant had **194,461,361** **202,053,138** shares of common stock, \$0.0001 par value per share, outstanding.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Note 1 Organization and Summary of Significant Accounting Policies

Organization and Business

Terran Orbital Corporation, formerly known as Tailwind Two Acquisition Corp. ("Tailwind Two"), together with its wholly-owned subsidiaries (the "Company"), is a leading manufacturer of satellite products primarily serving the aerospace and defense industries. The Company provides end-to-end satellite solutions by combining satellite design, production, launch planning, mission operations, and on-orbit support to meet the needs of its military, civil, and commercial customers. The Company has a foreign subsidiary based in Torino, Italy.

Tailwind Two Merger

Prior to March 25, 2022, Tailwind Two was a publicly listed special purpose acquisition company incorporated as a Cayman Islands exempted company. On March 25, 2022, Tailwind Two acquired Terran Orbital Operating Corporation, formerly known as Terran Orbital Corporation ("Legacy Terran Orbital") (the "Tailwind Two Merger"). In connection with the Tailwind Two Merger, Tailwind Two filed a notice of deregistration with the Cayman Islands Registrar of Companies and filed a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of the State of Delaware, resulting in Tailwind Two becoming a Delaware corporation and changing its name from Tailwind Two to Terran Orbital Corporation. The Tailwind Two Merger resulted in Legacy Terran Orbital becoming a wholly-owned subsidiary of Terran Orbital Corporation.

As a result of the Tailwind Two Merger, all of Legacy Terran Orbital's issued and outstanding common stock was converted into shares of Terran Orbital Corporation's common stock using an exchange ratio of 27.585 shares of Terran Orbital Corporation's common stock per each share of Legacy Terran Orbital's common stock. In addition, Legacy Terran Orbital's convertible preferred stock and certain warrants were exercised and converted into shares of Legacy Terran Orbital's common stock immediately prior to the Tailwind Two Merger, and in turn, were converted into shares of Terran Orbital Corporation's common stock as a result of the Tailwind Two Merger. Further, in connection with the Tailwind Two Merger, Legacy Terran Orbital's share-based compensation plan and related share-based compensation awards were cancelled and exchanged or converted, as applicable, with a new share-based compensation plan and related share-based compensation awards of Terran Orbital Corporation. In connection with the Tailwind Two Merger, the Company entered into certain debt financing transactions that resulted in a loss on extinguishment of debt of \$23.1 million during the nine months ended September 30, 2022.

While Legacy Terran Orbital became a wholly-owned subsidiary of Terran Orbital Corporation, Legacy Terran Orbital was deemed to be the acquirer in the Tailwind Two Merger for accounting purposes. Accordingly, the Tailwind Two Merger was accounted for as a reverse recapitalization, in which case the condensed consolidated financial statements of the Company represent a continuation of Legacy Terran Orbital and the issuance of common stock in exchange for the net assets of Tailwind Two recognized at historical cost and no recognition of goodwill or other intangible assets. Operations prior to the Tailwind Two Merger are those of Legacy Terran Orbital and all share and per-share data included in these condensed consolidated financial statements have been retrospectively adjusted to give effect to the Tailwind Two Merger. In addition, the number of shares subject to, and the exercise price of, the Company's outstanding options and warrants were adjusted to reflect the Tailwind Two Merger. The treatment of the Tailwind Two Merger as a reverse recapitalization was based upon the pre-merger shareholders of Legacy Terran Orbital holding the majority of the voting interests of Terran Orbital Corporation, Legacy Terran Orbital's existing management team serving as the initial management team of Terran Orbital Corporation, Legacy Terran Orbital's appointment of the majority of the initial board of directors of Terran Orbital Corporation, and Legacy Terran Orbital's operations comprising the ongoing operations of the Company.

In connection with the Tailwind Two Merger, approximately \$29 million of cash and marketable securities held in trust, net of redemptions by Tailwind Two's public shareholders, became available for use by the Company as well as proceeds received from the contemporaneous sale of common stock in connection with the closing of a PIPE investment with a contractual amount of \$51 million (the "PIPE Investment"). In addition, the Company received additional proceeds from the

issuance of debt contemporaneously with the Tailwind Two Merger. The cash raised was used for general corporate purposes, the partial paydown of debt, the payment of transaction costs and the payment of other costs directly or indirectly attributable to the Tailwind Two Merger.

Beginning on March 28, 2022, the Company's common stock and public warrants began trading on the New York Stock Exchange (the "NYSE") under the symbols "LLAP" and "LLAP WS," respectively. On October 20, 2023, we received written notice from the NYSE that the average closing price of our shares of common stock was less than \$1.00 per share over a consecutive 30 trading-day period

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

ended October 18, 2023, which is below the requirement for continued listing on the NYSE. As such, our shares of common stock will continue to trade under the symbol "LLAP" but will have an added designation of ".BC" to indicate that the status of the common stock is "below compliance" with the NYSE continued listing standards. The ".BC" indicator will be removed at such time as we are deemed to be in compliance.

Basis of Presentation and Significant Accounting Policies

The condensed consolidated financial statements included herein are unaudited, but in the opinion of management, they include all adjustments, consisting of normal recurring adjustments, necessary to summarize fairly the Company's financial position, results of operations, and cash flows for the interim periods presented. The interim results reported in these condensed consolidated financial statements should not be taken as indicative of results that may be expected for future interim periods or the full year. For a more comprehensive understanding of the Company and its interim results, these condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the years ended December 31, 2022 December 31, 2023 and 2021 2022 included in its Annual Report on Form 10-K, which was filed with the United States ("U.S.") Securities and Exchange Commission (the "SEC") on March 23, 2023 April 1, 2024 (the "2022" "2023 Annual Report"). The condensed consolidated balance sheet as of December 31, 2022 December 31, 2023 included herein was derived from the audited consolidated financial statements as of that date but does not include all the footnote disclosures from the annual consolidated financial statements.

The condensed consolidated financial statements have been prepared in U.S. dollars in accordance with generally accepted accounting principles in the U.S. ("GAAP") and include the accounts of Terran Orbital Corporation and its subsidiaries. All intercompany transactions have been eliminated. The Company's accounting policies used in the preparation of these condensed consolidated financial statements do not differ from those used for the annual consolidated financial statements, unless otherwise noted. Certain prior period amounts have been reclassified to conform with current period presentation.

The Company evaluates and reports its segment information based on the manner in which its Chief Executive Officer, who is the chief operating decision maker (the "CODM"), evaluates performance and allocates resources. **Beginning in the fourth quarter of 2022, Accordingly, the Company reports its results as a single operating and reportable segment on a consolidated basis. Where applicable, prior periods**

Going Concern

The condensed consolidated financial statements have been **retrospectively adjusted to reflect** prepared in accordance with GAAP assuming the Company will continue as a going concern. The going concern assumption contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. However, substantial doubt about the Company's **current operating ability** to continue as a going concern exists.

The Company's primary corporate debt agreements contain a covenant requiring the Company's Consolidated Adjusted EBITDA (as defined in the underlying note agreements), on a trailing twelve month basis, to not be less than \$0 by December 31, 2024, which date is the result of the original determination date on June 30, 2024 being extended by two fiscal quarters pursuant to contractual terms (the "EBITDA Financial Covenant"). The commencement of the EBITDA Financial Covenant may be further delayed by one quarter for every additional \$25.0 million of net cash proceeds received from qualified equity issuances. If the Company is unable to comply with these financial covenants, the Company's creditors may accelerate the principal and **reportable segment structure**. **interest** on the Company's primary corporate indebtedness to be immediately due and payable. As of March 31, 2024, cash and cash equivalents totaled \$43.7 million and debt subject to the EBITDA Financial Covenant totaled \$292.6 million with related accrued but unpaid interest of \$2.1 million.

There **were no recently issued** is uncertainty regarding the Company's ability to comply with the EBITDA Financial Covenant for at least twelve months from the issuance of these consolidated financial statements. To address the potential future breach of the EBITDA Financial Covenant, the Company is executing on its business plan to improve operating results. Additionally, the Company is in active discussions with funding sources to have access to additional sources of qualified equity issuances in the event needed to extend the EBITDA Financial Covenant

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

beyond December 31, 2024. Furthermore, the Company could request waivers from existing creditors to waive the EBITDA Financial Covenant to the extent necessary. The Company cannot provide assurances that it will be successful in improving

operating results, obtaining new financing, and/or recently adopted accounting pronouncements that had receiving waivers to the EBITDA Financial Covenant. The Company's inability to improve operating results, raise capital through qualified equity issuances, or are expected to receive waivers may negatively impact its compliance with the EBITDA Financial Covenant, which may have a material effect adverse impact on the Company's financial condition.

The condensed consolidated financial statements do not include any adjustments to the amount and classification of assets and liabilities that may be necessary should the Company not continue as a going concern.

Use of Estimates

The preparation of the condensed consolidated financial statements in accordance with GAAP requires the Company to select accounting policies and make estimates that affect amounts reported in the condensed consolidated financial statements and the accompanying notes. The Company's estimates are based on the relevant information available at the end of each period. Actual results could differ materially from these estimates under different assumptions or market conditions.

COVID-19 Pandemic

During March 2020, the World Health Organization (the "WHO") declared the outbreak of a novel coronavirus as a pandemic (the "COVID-19 Pandemic"). The COVID-19 Pandemic has negatively impacted the global economy, disrupted global supply chains, and created significant volatility and disruption in the financial and capital markets.

The COVID-19 Pandemic has contributed to a worldwide shortage of electronic components which has resulted in longer than historically experienced lead times for such electronic components. The reduced availability to receive electronic components used in the Company's operations has negatively affected its timing and ability to deliver products and services to customers as well as increased its costs in recent periods. In an effort to manage this disruption to its supply chain, the Company has focused on accumulating critical components to ensure an appropriate level of supply is available when needed.

The Company considered the emergence and pervasive economic impact of the COVID-19 Pandemic in its assessment of its financial position, results of operations, cash flows, and certain accounting estimates as of and for the periods presented. The U.S. Government

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

allowed the national public health emergency declaration related to the COVID-19 Pandemic to expire on May 11, 2023, and the WHO ended the global emergency status for the COVID-19 Pandemic on May 5, 2023.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments with original maturities of three months or less from the time of purchase.

Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following as of the dates presented:

(in thousands)	September 30,	December 31,	March 31,	December 31,
	2023	2022	2024	2023
Current warrant and derivative liabilities ⁽¹⁾			\$ 22,222	\$ -
Payroll-related accruals	\$ 8,291	\$ 5,671	6,249	8,248
Current operating lease liabilities	1,342	971	1,674	1,505
Accrued interest	2,114	2,107	2,067	2,116
Other current liabilities	4,023	2,972	3,507	2,539
Accrued expenses and other current liabilities	\$ 15,770	\$ 11,721	\$ 35,719	\$ 14,408

(1) - Refer to Note 6 "Warrants and Derivatives" for further discussion.

Research and Development

Research and development includes materials, labor, and overhead allocations attributable to the development of new products and solutions and significant improvements to existing products and solutions. Research and development costs are expensed as incurred and recognized in selling, general, and administrative expenses in the condensed consolidated statements of operations and comprehensive loss. Research and development expense was \$3.8 million and \$5.5 million during the three months ended September 30, 2023 and March 31, 2024 and 2022, respectively, and \$16.6 million and \$11.7 million during the nine months ended September 30, 2023 and 2022, respectively.

Concentration of Credit Risks

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, and contract assets.

The majority of the Company's cash and cash equivalents are held at major financial institutions. Certain account balances exceed the Federal Deposit Insurance Corporation insurance limits of \$250,000 per account. As a result, there is a concentration of credit risk related to amounts in excess of the insurance limits. The Company regularly monitors the financial stability of these financial institutions and believes that there is no exposure to any significant credit risk in cash and cash equivalents.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Concentrations of credit risk with respect to accounts receivable and contract assets are limited because a large portion of our balances are related to (i) reputable companies with significant financial resources or (ii) customer programs in which the U.S. Government is the ultimate customer.

A small number of customers and contracts historically have represented a significant portion of the Company's consolidated revenue. Lockheed Martin Corporation ("Lockheed Martin") represented approximately 79% and 73% of consolidated revenue during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and 79% and 75% during the nine months ended September 30, 2023 and 2022, respectively. Rivada Space Networks GmbH ("Rivada") represented approximately 12% and 0% of consolidated revenue during the three months ended September 30, 2023 and 2022, respectively, and 6% and 0% during the nine months ended September 30, 2023 and 2022, respectively. There were no other individual customers who accounted for more than 10% of the Company's revenue during the periods presented.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

these periods.

The table below presents individual customers who accounted for more than 10% of the Company's combined accounts receivable, net of allowance for credit losses, and contract assets, net of allowance for credit losses, as of the dates presented:

	September 30, 2023	December 31, 2022	March	
			31, 2024	December 31, 2023
Customer A	47%	0%	88%	82%
Customer B	29%	42%	0%	12%

Customer C	7%	11%
Customer D	0%	12%
Total	83%	65%

Recently Issued Accounting Pronouncements

Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, improves reportable segment disclosure requirements primarily by enhancing disclosures about significant segment expenses. The guidance, among other requirements, also enhances interim disclosures, clarifies circumstances in which an entity can disclose multiple segment measures of profit or loss, and provides new segment disclosure requirements for entities with a single reportable segment. The guidance is effective for annual periods beginning after December 15, 2023 and interim periods within annual periods beginning after December 15, 2024. This guidance should be applied retrospectively to all periods presented. Early adoption is permitted. The Company is currently evaluating the impact of this guidance.

ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, focuses on improvements to income tax disclosures, primarily related to the rate reconciliation and income tax paid information. The guidance also includes certain other amendments to improve the effectiveness of income tax disclosures. The guidance is effective for annual periods beginning after December 15, 2024. This guidance should be applied prospectively, with retrospective application also a permitted option. Early adoption is permitted. The Company is currently evaluating the impact of this guidance.

Note 2 Revenue and Receivables

The Company applies the following five steps in order to recognize revenue from contracts with customers: (i) identify the contract(s) with a customer; (ii) identify the performance obligation(s) in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligation(s) in the contract; and (v) recognize revenue when (or as) the entity satisfies a performance obligation. The Company only applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods or services it transfers to the customer.

At contract inception, the Company assesses whether the goods or services promised within the contract represent a performance obligation. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. For contracts with multiple performance obligations, the Company allocates the contract’s transaction price to each performance obligation on a relative basis using the best estimate of the stand-alone selling price of each performance obligation, which is estimated using the expected-cost-plus-margin approach. Generally, the Company’s contracts with customers are structured such that the customer has the option to purchase additional goods or services. Customer options to purchase additional goods or services do not represent a separate performance obligation as the prices for such options reflect the stand-alone selling prices for the additional goods or services. Contracts are generally priced on a firm-fixed price basis, cost-plus fee basis, or time and materials basis.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The Company recognizes the transaction price allocated to the respective performance obligation as revenue as the performance obligation is satisfied. The majority of the Company's contracts with customers relate to the creation of specialized assets that do not have alternative use and entitle the Company to an enforceable right to payment for performance completed to date. Accordingly, the Company generally measures progress towards the satisfaction of a performance obligation over time using the cost-to-cost input method.

Payments for costs not yet incurred or for costs incurred in anticipation of providing a good or service under a contract with a customer in the future are included in prepaid expenses and other current assets on the condensed consolidated balance sheets.

Estimate-at-Completion ("EAC")

The recognition of revenue over time using the cost-to-cost input method is dependent on the Company's cost estimate-at-completion ("EAC"), which is subject to many variables and requires significant judgment. EAC represents the total estimated cost-at-completion and is comprised of direct material, direct labor and manufacturing overhead applicable to a performance obligation. There is a company-wide standard and periodic EAC process in which the Company reviews the progress and execution of outstanding performance obligations. As part of this process, the Company reviews information including, but not limited to, any outstanding key contract matters, progress towards completion and the related program schedule, identified risks and opportunities and the related changes in estimates of revenues and costs. The risks and opportunities include the Company's judgment about the ability and cost to achieve the schedule (e.g., the number and type of milestone events), technical requirements (e.g., a newly-developed product versus a mature product) and other contract requirements. The Company must make assumptions and estimates regarding labor productivity and availability, the complexity of the work to be performed, the availability of materials, the length of time to complete the performance obligation (e.g., to estimate increases in wages and prices for materials and related support cost allocations), execution by subcontractors, the availability and timing of funding from customers and overhead cost rates, among other variables.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Based on the results of the periodic EAC process, any adjustments to revenue, cost of sales, and the related impact to gross profit are recognized on a cumulative catch-up basis in the period they become known. These adjustments may result from positive program performance, and may result in an increase in gross profit during the performance of individual performance obligations, if it is determined the Company will be successful in mitigating risks surrounding the technical, schedule and cost aspects of those performance obligations or realizing related opportunities. Likewise, these adjustments may result in a decrease in gross profit if it is determined the Company will not be successful in mitigating these risks or realizing related opportunities. A significant change in one or more of these estimates could affect the profitability of one or more of the Company's performance obligations.

Contract modifications often relate to changes in contract specifications and requirements. Contract modifications are considered to exist when the modification either creates new or changes the existing enforceable rights and obligations. Most of the Company's contract modifications are for goods or services that are not distinct from the existing contract due to the significant integration service provided in the context of the contract and are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction price, and the measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue either as an increase in or a reduction of revenue on a cumulative catch-up basis.

Some of the Company's long-term contracts contain award fees, incentive fees, or other provisions that can either increase or decrease the transaction price. These variable amounts generally are awarded upon achievement of certain performance metrics, program milestones or cost targets and can be based upon customer discretion. Variable consideration is estimated at the most likely amount to which the Company is expected to be entitled. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the Company's anticipated performance and all information (historical, current, and forecasted) that is reasonably available. The unfunded portion of enforceable contracts are accounted for as variable consideration.

For contracts in which the U.S. Government is the ultimate customer, the Company follows U.S. Government procurement and accounting standards in assessing the allowability and the allocability of costs to contracts. Due to the significance of the judgments and estimation processes, it is likely that materially different amounts could be recorded if different assumptions were used or if the underlying circumstances were to change. The Company monitors the consistent application of its critical accounting policies and compliance with contract accounting. Business operations personnel conduct periodic contract status and performance reviews. When adjustments in estimated contract revenues or costs are determined, any material changes from prior estimates are included in earnings

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

in the current period. Also, regular and recurring evaluations of contract cost, scheduling and technical matters are performed by Company personnel who are independent from the business operations personnel performing work under the contract. Costs incurred and allocated to contracts with the U.S. Government are subject to audit by the Defense Contract Audit Agency for compliance with regulatory standards.

Disaggregation of Revenue

Below is a summary of the Company's accounting by type of revenue:

- Mission Support: Mission support services primarily relate to the integrated design, manufacture, and assembly of satellites for customers.
- Launch Support: Launch support services relate to the assistance the Company provides in the process of launching a satellite into space by identifying and securing launch opportunities with launch providers as well as coordinating and managing the activities leading up to the launch event on behalf of customers.
- Operations: Operations relates to the management, operations, and communication of information of satellites that are on-orbit on behalf of a customer.
- Studies, Design and Other: Studies, design and other services primarily relate to professional engineering feasibility studies and preliminary design services for customers.

Remaining Performance Obligations

Revenue from remaining performance obligations is calculated as the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied (or partially unsatisfied) as of the end of the reporting period on executed contracts, including both funded (firm

9

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

(firm orders for which funding is authorized and appropriated) and unfunded portions of such contracts. The unfunded portion of enforceable contracts is accounted for as variable consideration and is reported at the estimated most likely amount to which the Company is expected to be entitled. Remaining performance obligations do not include unexercised contract options and potential orders under indefinite delivery/indefinite quantity contracts.

As of March 31, 2024, the Company had approximately \$2.7 billion of remaining performance obligations, of which \$2.4 billion is related to the Rivada Agreement (as defined below). The Company estimates that approximately 80% of the remaining performance obligations will be recognized as revenue by December 31, 2025 and the remainder by December 31, 2026.

During February 2023, the Company entered into an agreement with Rivada Space Networks GmbH ("Rivada") providing for the development, production, and operation of 300 satellites, inclusive of 12 in-orbit spares and ground station equipment, for a total purchase price of \$2.4 billion (the "Rivada Agreement"). The agreement also includes options for additional satellites, equipment, and services, including an option for the purchase of an additional 300 satellites. Performance under the agreement will be split into a developmental phase, with amounts billed on a time and materials basis, and a firm fixed price production phase. Rivada has an option to terminate the agreement for convenience at any time and for any reason, which would result in a termination fee for work performed up to such termination. In addition, the agreement includes termination provisions for default in the event of missed delivery targets or deadlines, insolvency, or other failures to perform, which could result in the refund of all amounts paid up to such termination. Whether the Company ultimately recognizes revenue and profit on this contract is subject to a number of uncertainties including, among other things, its ability to successfully perform its obligations, increase its manufacturing capacity in order to meet the demands of

the program, and deliver operational satellites in a timely manner and Rivada's continuing ability to fund contract performance and maintain its regulatory licenses for its operations. The amount of revenue recognized under the Rivada Agreement was \$5.4 million and \$6.6 million during the three and nine months ended September 30, 2023, respectively. March 31, 2024 was \$

As of September 30, 2023, the 1.7 million. The Company had approximately \$ did 2.6 no billion of remaining performance obligations, of which \$2.4 billion is related to the Rivada Agreement. While t recognize revenue under the Rivada Agreement is subject to uncertainty regarding during the timing of performance, the

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Company estimates that all of its performance obligations will be satisfied and recognized as revenue by December 31, 2027. Of the remaining performance obligations, approximately \$187 million is expected to be recognized as revenue by December 31, 2025 three months ended March 31, 2023.

Contract Assets and Contract Liabilities

For each of the Company's contracts with customers, the timing of revenue recognition, customer billings, and cash collections results in a net contract asset or liability at the end of each reporting period.

Fixed-price contracts are typically billed to the customer either using progress payments, whereby amounts are billed monthly as costs are incurred or work is completed, or performance-based payments, which are based upon the achievement of specific, measurable events or accomplishments defined and valued at contract inception. Cost-type contracts are typically billed to the customer on a monthly or semi-monthly basis.

Contract assets

Contract assets relate to instances in which revenue recognized exceeds amounts billed to customers and are reclassified to accounts receivable when the Company has an unconditional right to the consideration and bills the customer. Contract assets are classified as current and non-current based on the estimated timing in which the Company will bill the customer and are not considered to include a significant financing component as the payment terms are intended to protect the customer in the event the Company does not perform on its obligations under the contract.

The Company records an allowance for credit losses against its contract assets for amounts not expected to be recovered. The allowance is recognized at inception and is reassessed each reporting period. The allowance for credit losses on contract assets was not material for the periods presented.

Contract assets from products and services for which the U.S. Government is the ultimate customer was \$1.623.3 million and \$5.319.6 million as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, respectively.

The following is a summary of contract assets, net, recognized in the condensed consolidated balance sheets as of the dates presented:

(in thousands)	September 30, 2023	December 31, 2022
Contract assets, gross	\$ 4,806	\$ 6,840
Allowance for credit losses	(58)	(77)

(in thousands)	March 31, 2024	December 31, 2023
Contract assets, gross	\$ 26,433	\$ 21,444
Allowance for credit losses	(63)	(54)
Contract assets, net	\$ 26,370	\$ 21,390

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, all contract assets were classified as current assets.

There were no material impairments of contract assets during the three or nine months ended **September 30, 2023** **March 31, 2024** or **2022** **2023**.

Contract liabilities

Contract liabilities relate to advance payments and billings in excess of revenue recognized and are recognized into revenue as the Company satisfies the underlying performance obligations. Contract liabilities are classified as current and non-current based on the estimated timing in which the Company will satisfy the underlying performance obligations and

are not considered to include a significant financing component as they are generally utilized to procure materials needed to satisfy a performance obligation or are used to ensure the customer meets contractual requirements.

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, substantially all contract liabilities were classified as current liabilities.

During the **nine** **three** months ended **September 30, 2023** **March 31, 2024** and **2022**, **2023**, the Company recognized revenue of **\$26.1** **9.5** million and **\$17.1** **21.0** million, respectively, that was previously included in the beginning balance of contract liabilities.

12

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Accounts Receivable

Accounts receivable represent unconditional rights to consideration due from customers in the ordinary course of business and are generally due in one year or less. Accounts receivable are recorded at amortized cost less an allowance for credit losses, which is based on the Company's assessment of the collectability of its accounts receivable. The Company reviews the adequacy of the allowance for credit losses by considering the age of each outstanding invoice and the collection history of each customer. Accounts receivable that are deemed uncollectible are charged against the allowance for credit losses when identified.

Accounts receivable from products and services for which the U.S. Government is the ultimate customer was **\$4.4** **33** **million** **thousand** and **\$1.1** **13.3** million as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, respectively.

The following table presents changes in the allowance for credit losses for the periods presented:

(in thousands)	Nine Months Ended September 30,		Three Months Ended March 31,	
	2023	2022	2024	2023
Beginning balance	\$ 764	\$ 945	\$ 182	\$ 764
Adoption of CECL	-	39		
Provision for credit losses	194	40	9	(23)
Write-offs	(700)	(790)	-	(700)
Ending balance	\$ 258	\$ 234	\$ 191	\$ 41

Reserve for Anticipated Losses on Contracts

When the estimated cost-at-completion exceeds the estimated revenue to be earned for a performance obligation, the Company records a reserve for the anticipated losses in the period the loss is determined. The reserve for anticipated losses on contracts is presented as a current liability in the condensed consolidated balance sheets and as a component of cost of sales in the condensed consolidated statements of operations and comprehensive loss in accordance with Accounting Standards Codification ("ASC") 605-35, *Revenue Recognition – Construction-Type and Production-Type Contracts*.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The Company recorded **an increase** **decreases** of **\$0.4 million and \$1.7 million** in cost of sales related to the reserve for anticipated losses on contracts of **\$0.2 million and a decrease in cost of sales of \$1.8 million** during the three and nine months ended **September 30, 2023, respectively, March 31, 2024** and **increases in cost of sales of \$0.1 million and \$0.6 million** during the three and nine months ended **September 30, 2022, 2023**, respectively.

Note 3 Inventory

Inventory consists of parts and sub-assemblies that are ultimately consumed in the manufacturing and final assembly of satellites. When an item in inventory has been identified and incorporated into a specific satellite, the cost of the sub-assembly is charged to cost of sales in the condensed consolidated statements of operations and comprehensive loss. Inventory is measured at the lower of cost or net realizable value. The cost of inventory includes direct material, direct labor, and manufacturing overhead and is determined on a first-in-first-out basis. Inventory is presented net of an allowance for losses associated with excess and obsolete items, which is estimated based on the Company's current knowledge with respect to inventory levels, planned production, and customer demand.

The components of inventory as of the dates presented were as follows:

(in thousands)	September 30, 2023	December 31, 2022	March 31, 2024	December 31, 2023
Raw materials	\$ 18,363	\$ 19,194	\$ 17,917	\$ 18,284
Work-in-process	15,682	4,939	16,763	15,064
Total inventory	\$ 34,045	\$ 24,133	\$ 34,680	\$ 33,348

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Note 4 Property, Plant, and Equipment, net

Property, plant, and equipment, net is stated at historical cost less accumulated depreciation. Cost for company-owned satellite assets includes amounts related to design, construction, launch, and commission. Cost for ground stations includes amounts related to construction and testing. Interest is capitalized on certain qualifying assets that take a substantial period of time to develop for their intended use. Depreciation expense is calculated using the sum-of-the-years' digits or straight-line method over the estimated useful lives of the related assets as follows:

Machinery and equipment	5-7 years
Satellites	3-5 years
Ground station equipment	5-7 years
Office equipment and furniture	5-7 years
Computer equipment and software	3-5 years
Leasehold improvements	Shorter of the estimated useful life or remaining lease term

The determination of the estimated useful life of company-owned satellites involves an analysis that considers design life, random part failure probabilities, expected component degradation and cycle life, predicted fuel consumption and experience with satellite parts, vendors and similar assets.

Depreciation expense is included in cost of sales and selling, general, and administrative expenses in the condensed consolidated statements of operations and comprehensive loss based on whether the underlying asset is used as part of manufacturing overhead or administrative overhead, respectively. Additionally, a portion of depreciation and amortization expense may be capitalized to inventory as part of manufacturing overhead. Depreciation expense was \$2.3 million and \$0.9 million during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$2023, respectively.5.0

million and \$

2.6 million during the nine months ended September 30, 2023 and 2022, respectively. Repairs and maintenance expenditures are expensed when incurred.

TERRAN ORBITAL CORPORATION
Notes to the Condensed Consolidated Financial Statements (Unaudited)

The gross carrying amount, accumulated depreciation, and net carrying amount of property, plant, and equipment, net as of the dates presented were as follows:

(in thousands)	September 30,	December 31,	March 31,	December 31,
	2023	2022	2024	2023
Machinery and equipment	\$ 25,296	\$ 13,066	\$ 32,568	\$ 28,321
Satellites	2,209	2,209	2,209	2,209
Ground station equipment	2,095	1,944	2,095	2,095
Office equipment and furniture	4,544	2,958	4,216	4,621
Software	1,174	240	1,583	1,582
Leasehold improvements	20,796	9,734	21,869	21,800
Construction-in-process	11,429	9,467	10,106	9,210
Property, plant, and equipment, gross	67,543	39,618	74,646	69,838
Accumulated depreciation	(20,453)	(14,875)	(26,290)	(23,389)
Property, plant, and equipment, net	\$ 47,090	\$ 24,743	\$ 48,356	\$ 46,449

Construction-in-process primarily includes machinery, leasehold improvements, and ground station equipment not yet placed into service.

The Company reviews property, plant, and equipment, net for impairment whenever events or changes in business circumstances indicate that the net carrying amount of an asset or asset group may not be fully recoverable. The Company groups assets at the lowest level for which cash flows are separately identified. Recoverability is measured by a comparison of the net carrying amount of the asset group to its expected future undiscounted cash flows. If the expected future undiscounted cash flows of the asset group are less than its net carrying amount, an impairment loss is recognized based on the amount by which the net carrying amount exceeds the fair value less costs to sell. The calculation of the fair value less costs to sell of an asset group is based on assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates, reflecting varying degrees of perceived risk.

There were no material impairments of property, plant, and equipment during the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023.

TERRAN ORBITAL CORPORATION

(1) - Consists of equipment financing debt agreements primarily entered into during 2023, with maturities through September 2030, annual interest rates ranging from 6.25% to 20.05%, and requiring monthly payments of interest and principal.

(2) - Refer to Note 14 "Leases" for further discussion.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

There were no significant changes in the Company's long-term debt **except for the commencement of certain machinery and equipment finance leases**, during the **nine** **three** months ended **September 30, 2023** **March 31, 2024**.

In **October 2023**, **April 2024**, the Company paid \$1.875 million **of principal** related to the PIPE Investment Obligation, which was outstanding as of **September 30, 2023** **March 31, 2024**.

Note 6 Warrants and Derivatives

The Company's **warrants** **Warrants** and derivatives consist of freestanding financial instruments and embedded derivatives requiring bifurcation issued in connection with the Company's debt and equity financing transactions. The Company does not have any derivatives designated as hedging instruments.

The Company evaluates whether each warrant or derivative represents a liability-classified financial instrument within the scope of ASC 480, *Distinguishing Liabilities from Equity*, or either a liability-classified or equity-classified financial instrument within the scope of ASC 815, *Derivatives and Hedging*.

Warrants and derivatives classified as liabilities are recognized at fair value in the condensed consolidated balance sheets and are remeasured at fair value as of each reporting period with changes in fair value recorded in the condensed consolidated statements of operations and comprehensive loss. Warrants and derivatives classified as equity are recognized at fair value, **or relative fair value if issued with other financial instruments**, in additional paid-in capital in the condensed consolidated balance sheets and are not subsequently remeasured.

15

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Liability-classified Warrants and Derivatives

The fair values of liability-classified warrants and derivatives recorded in warrant and derivative liabilities on the condensed consolidated balance sheets as of the presented periods were as follows:

(in thousands)	Number of shares issued and outstanding as of September 30, 2023						Number of shares issuable and exercisable as of December 31, 2023	Exercise/Conversion Price		March 31, 2024	March 31, 2024	December 31, 2023
	Shares	Issuance	Exercisable	Stock Options	Convertible Securities	Shares	Options	Convertible Securities				
Public Warrants	19,200	0	89	22	2,1	19,221,960	2021	2027	\$ 11.50	\$ 3,076	\$ 1,346

Total equity- classified warrants and derivatives	70,168, 907					58,633,192					

There were no significant changes to the Company's equity-classified warrants and derivatives during the **nine** **three** months ended **September 30, 2023**, except as discussed below. **March 31, 2024** and **2023**.

Registered Direct Offering

On May 30, 2023, the Company completed a registered direct offering (the "Registered Direct Offering") with an institutional investor in which the Company received proceeds of approximately \$37.1 million for the sale and issuance of (i) 16 million shares of the Company's common stock, (ii) 13 million warrants to purchase shares of the Company's common stock at an exercise price of \$0.0001 (the "Pre-Funded Warrants"), and (iii) 29 million warrants to purchase shares of the Company's common stock at an exercise price of \$1.43 (the "RDO Warrants"). In connection with the Registered Direct Offering, the Company incurred third-party issuance costs of \$4.5 million, inclusive of the \$1.5 million fair value recognized associated with 2 million warrants issued to purchase shares of the Company's common stock at an exercise price of \$1.60 (the "Placement Agent Warrants"). The Company allocated the \$37.1 million proceeds received and the \$4.5 million of third-party issuance costs between the issued common stock, the Pre-Funded Warrants, and the RDO Warrants based on relative fair value. Accordingly, the Company allocated proceeds of \$12.2 million and issuance costs of \$1.5 million to common stock and proceeds of \$24.9 million and issuance costs of \$3.0 million to equity-classified warrants and derivatives. The proceeds and issuance costs were recognized as additional paid-in capital in the condensed consolidated balance sheets and as financing cash flows in the condensed consolidated statements of cash flows.

The fair values of the common stock and Pre-Funded Warrants were estimated based on the market price of the Company's common stock while the fair values of the RDO Warrants and Placement Agent Warrants were estimated using the Black-Scholes option-pricing model.

During the nine months ended September 30, 2023, all of the Pre-Funded Warrants were exercised.

Confidentially Marketed Public Offering

On September 21, 2023, the Company completed a confidentially marketed public offering (the "CMPO") in which the Company received proceeds of approximately \$32.5 million for the sale and issuance of approximately (i) 11.7 million shares of the Company's common stock, (ii) 11.5 million warrants to purchase shares of the Company's common stock at an exercise price of \$0.0001 (the "CMPO Pre-Funded Warrants"), and (iii) 23.2 million warrants to purchase shares of the Company's common stock at an exercise price of \$1.50 per share (the "CMPO Warrants"). In connection with the CMPO, the Company incurred third-party issuance costs of \$4 million, inclusive of the \$1.1 million fair value recognized associated with 1.6 million warrants issued to purchase shares of the Company's common stock at an exercise price of \$1.75 (the "CMPO Placement Agent Warrants"). The Company allocated the \$32.5 million proceeds received and the \$4.0 million of third-party issuance costs between the issued common stock, the CMPO Pre-Funded Warrants, and the CMPO Warrants based on relative fair value. Accordingly, the Company allocated proceeds of \$10.0 million and issuance costs of \$1.2 million to common stock and proceeds of \$22.5 million and issuance costs of \$2.8 million to equity-classified warrants and derivatives. The proceeds and issuance costs were recognized as additional paid-in capital in the condensed consolidated balance sheets and as financing cash flows in the condensed consolidated statements of cash flows.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The fair values of the common stock and CMPO Pre-Funded Warrants were estimated based on the market price of the Company's common stock while the fair values of the CMPO Warrants and CMPO Placement Agent Warrants were estimated using the Black-Scholes option-pricing model.

Note 7 Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market, or if none exists, the most advantageous market, for the specific asset or liability at the measurement date (the exit price). The fair value is based on assumptions that market participants would use when pricing the asset or liability. A fair value measurement is assigned a level within the fair value hierarchy depending on the source of the inputs utilized in estimating the fair value measurement as follows:

- Level 1: Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The carrying amounts of cash and cash equivalents, accounts receivable, contract assets, contract liabilities, and accounts payable approximate their fair values due to the short-term maturities of these financial instruments.

Fair Value of Legacy Terran Orbital's Common Stock

Prior to the Tailwind Two Merger, there was no public market for Legacy Terran Orbital's common stock. As such, the fair value of Legacy Terran Orbital's common stock was estimated using an option pricing model, which allocated the total enterprise value of the Company to the different classes of equity as of the valuation date.

The significant assumptions used in the option pricing model included: (i) total enterprise value of Legacy Terran Orbital based on the guideline publicly-traded company method, guideline transaction method, market calibration method and discounted cash flow method; (ii) liquidation preferences, conversion values, and participation thresholds of different equity classes; (iii) probability-weighted time to a liquidity event; (iv) expected volatility based upon the historical and implied volatility of common stock for the Company's selected peers; (v) expected dividend yield of zero as the Company does not have a history or plan of declaring dividends on its common stock; (vi) risk-free interest rate based on U.S. treasury bonds with a zero-coupon rate, (vii) implied valuation, timing, and probability of the Tailwind Two Merger; and (viii) a discount for the lack of marketability of Legacy Terran Orbital's common stock at that time. The fair value of Legacy Terran Orbital's common stock represented a Level 3 fair value measurement.

Following the Tailwind Two Merger, there is a public market for Terran Orbital Corporation's common stock and certain warrant and derivative liabilities. Accordingly, the fair value of Terran Orbital Corporation's common stock and applicable

warrant and derivative liabilities is based on the closing quoted market price on the as of each relevant valuation date as reported on the NYSE date.

Warrant Warrants and Derivative Liabilities Derivatives

15

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The fair values of certain warrant warrants and derivative liabilities derivatives were estimated using the Black-Scholes option-pricing model, which uses the following significant inputs and assumptions for each security as of the valuation date: (i) the price per share of common stock, (ii) the exercise price, (iii) the risk-free interest rate, (iv) the dividend yield, (v) the contractual term, and (vi) the estimated volatility. The resulting fair values represent Level 3 fair value measurements.

The fair values of certain warrant warrants and derivative liabilities derivatives were estimated using models similar to that of the Black-Scholes option-pricing model and included additional assumptions. Depending on the circumstances and features of the instruments, additional assumptions, included or consisted of: (i) such as the estimated counterparty credit spread based on an estimated credit rating of CCC and below, (ii) the implied valuation, timing, and probability of closing the Tailwind Two Merger, (iii) the estimated redemption rate of the Tailwind Two's public shareholders, and (iv) a discount for the lack of marketability of Legacy Terran Orbital's common stock. The resulting fair values represent Level 3 fair value measurements.

18

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The final fair values of certain warrants and derivatives were based on the number of shares of Terran Orbital Corporation common stock issued as part of the Tailwind Two Merger and the price per share of Terran Orbital Corporation's common stock as of the Tailwind Two Merger and represent Level 1 fair value measurements. below.

The fair value of the Public Warrants was based on their quoted market price as of each valuation date and represents a Level 1 fair value measurement. As the Private Placement Warrants are substantially similar to the Public Warrants, their fair value was based on the quoted market price of the Public Warrants as of each valuation date and represents a Level 2 fair value measurement.

The fair value of the Conversion Option Derivative was estimated as the difference in the fair value of the Convertible Notes due 2027 inclusive of the conversion option and the fair value of the Convertible Notes due 2027 exclusive of the conversion option. The fair value inclusive of the conversion option was estimated using a lattice model with the following significant inputs and assumptions: (i) time to maturity, (ii) coupon rate, (iii) discount rate based on an estimated credit rating of CCC and below, (iv) risk-free interest rate, (v) contractual features such as prepayment options, call premiums and default provisions, (vi) price per share of common stock, (vii) dividend yield, and (viii) estimated volatility. The fair value exclusive of the conversion option was estimated using a discounted cash flow method using a discount rate based on an estimated credit rating of CCC and below plus a risk-free interest rate. The resulting fair values represent Level 3 fair value measurements.

The assumptions underlying the above valuations represented the Company's best estimate, which involved inherent uncertainties and the application of judgment. If the Company had used different assumptions or estimates, the fair values above could have been materially different.

Long-term Debt

The following table presents the total net carrying amount and estimated fair value of the Company's long-term debt instruments, excluding finance leases, as of the dates presented:

(in thousands)	September 30, 2023				December 31, 2022				March 31, 2024				December 31, 2023			
	Carrying Amount		Fair Value		Carrying Amount		Fair Value		Carrying Amount		Fair Value		Carrying Amount		Fair Value	
	Long-term debt	\$ 170,452	\$ 76	\$ 149,948	\$ 10	276,3	257,8	\$ 185,387	\$ 288,671	\$ 177,785	\$ 285,918					

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, the fair value of the Company's long-term debt, except as otherwise described, was estimated using a lattice model with the following significant inputs and assumptions: (i) time to maturity, (ii) coupon rate, (iii) discount rate based on an estimated credit rating of CCC and below, (iv) risk-free interest rate, and (v) contractual features such as prepayment options, call premiums and default provisions. The fair value related to Convertible Notes due 2027 was exclusive of the conversion option and estimated as described above. The fair value of long-term debt related to the PIPE Investment Obligation was estimated using a discounted cash flow method applied to the remaining quarterly payments using a discount rate based on a risk-free rate derived from constant maturity yields plus a credit risk derived from an estimated credit rating of CCC and below. The resulting fair values represent Level 3 fair value measurements.

Note 8 Shareholders' Deficit

Common Stock

Subsequent to the Tailwind Two Merger, the Company was authorized to issue up to 300 million shares of common stock with a par value of \$0.0001 per share. Each share of common stock entitles the shareholder to one vote. In May 2023, the Company amended its certificate of incorporation to increase the number of authorized shares of common stock from 300,000,000 to 600,000,000.

Registered Direct Offering

In connection with the Registered Direct Offering, the Company issued 16 million shares of common stock with allocated proceeds of \$12.2 million and allocated issuance costs of \$1.5 million.

19

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Confidentially Marketed Public Offering

In connection with the CMPO, the Company issued 11.7 million shares of common stock with allocated proceeds of \$10.0 million and allocated issuance costs of \$1.2 million.

Tailwind Two Merger

During the nine months ended September 30, 2022, the Company issued 11 million shares of common stock in exchange for the net assets of Tailwind Two, which were recognized at historical cost, in connection with the Tailwind Two Merger and issued 5.1 million shares of common stock in connection with the PIPE Investment. The Tailwind Two Merger and PIPE Investment resulted in allocated cash proceeds of \$58.4 million with aggregate allocated third-party issuance costs of \$48.4 million and the assumption of the Public Warrants and Private Placement Warrants with an aggregate fair value of \$13.1 million. In addition, the Company issued 4.3 million shares of common stock as consideration for certain financing transactions in connection with the Tailwind Two Merger.

Committed Equity Facility

On July 5, 2022, the Company entered into a common stock purchase agreement (the "Committed Equity Facility") with an institutional investor giving the Company the right, but not the obligation, to sell to the investor over a 24-month period up to the lesser of (i) \$100 million of newly issued shares of our common stock and (ii) 27,500,000 shares of the Company's common stock. The price per share of common stock sold is determined by reference to the volume weighted average price of the Company's common stock as defined within the Committed Equity Facility less a 3% discount, subject to certain limitations and conditions. The total net proceeds that the Company will receive under the Committed Equity Facility will depend on the frequency and prices at which the Company sells common stock.

During the three and nine months ended September 30, 2023, the Company did not sell any shares of common stock to B. Riley under the Committed Equity Facility. During the three and nine months ended September 30, 2022, the Company sold and issued 637,487 shares of common stock to B. Riley under the Committed Equity Facility, including 214,791 shares issued on July 5, 2022 as consideration for B. Riley's commitment to enter into the Committed Equity Facility, resulting in proceeds received of \$1.8 million and \$1 million of other expense in the condensed consolidated statements of operations and comprehensive loss. In addition, the Company expensed third-party costs associated with the Committed Equity Facility of approximately \$380 thousand and \$773 thousand during the three and nine months ended September 30, 2022, respectively.

As of September 30, 2023 and December 31, 2022, the remaining availability under the Committed Equity Facility was the lesser of 27,077,304 shares of common stock or \$98.2 million of proceeds from the sale and issuance of common stock. In connection with the CMPO, the Company is restricted from selling common stock under the Committed Equity Facility until after its expiration.

Preferred Stock

Subsequent to the Tailwind Two Merger, the The Company is authorized to issue up to 50 million shares of preferred stock with a par value of \$0.0001 per share. There were no shares of preferred stock issued and outstanding as of September 30, 2023 March 31, 2024 or December 31, 2022 December 31, 2023.

As part TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Rights Agreement

On March 4, 2024, the Company entered into a Rights Agreement (the "Rights Agreement"), as amended on April 18, 2024, in order to protect the Company and its shareholders from coercive or otherwise unfair takeover tactics. The Rights Agreement imposes a significant penalty upon any person or group that acquires 15% or more of the Tailwind Two Merger, all Company's outstanding common stock, including through derivatives agreements, without the approval of the convertible Company. The Rights Agreement should not interfere with any merger or other business combination approved by the Company.

In connection with the Rights Agreement, the Company declared a dividend of one preferred stock share purchase right ("Right") for each outstanding share of Legacy Terran Orbital was converted into approximately 10.9 million shares of Terran Orbital Corporation's the Company's common stock. As a result The dividend is payable to shareholders of record on

March 14, 2024. In addition, one Right will automatically attach to each share of the conversion, Company's common stock until the date in which the Rights become exercisable, redeemed, or expired.

The Rights will initially trade with, and will be inseparable from, the Company's common stock. Each Right will allow its holder to purchase from the Company reclassified one one-thousandth of a share of Series A Junior Participating Preferred Stock, par value \$0.0001 per share ("Preferred Shares"), for \$5.35, subject to adjustment under certain conditions, once the amount Rights become exercisable. This portion of convertible preferred stock a share of Preferred Stock would give the holder thereof approximately the same dividend, voting, and liquidation rights as would one share of the Company's common stock. Prior to exercise, the Right does not give its holder any dividend, voting, or liquidation rights. The Rights will expire in one year but may be extended for an additional paid-in capital two years, subject to shareholder approval.

Note 9 Share-Based Compensation

Share-based compensation expense totaled \$3.8 million and \$9.2 million during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$17.5 million and \$40.4 million during the nine months ended September 30, 2023, and 2022, 2023, respectively. Prior to the closing of the Tailwind Two Merger, all of the Company's outstanding restricted stock units ("RSUs") included a performance condition that required a liquidity event to occur in order to vest. Accordingly, the Company previously did not recognize share-based compensation expense associated with the RSUs as their performance condition was not probable of being met until such an event occurred. Upon closing of the Tailwind Two Merger in March 2022, the Company recorded a cumulative catch-up of approximately \$17.2 million to begin recognition of share-based compensation expense associated with these RSUs as the performance condition was

20

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

met, of which \$2.1 million was recorded to cost of sales and \$15.1 million was recorded to selling, general, and administrative expenses in the condensed consolidated statements of operations and comprehensive loss based on the classification of each employee's compensation expense.

During the nine months ended September 30, 2023 March 31, 2024, the Company granted approximately 8.6 million RSUs restricted stock units ("RSUs") with a weighted average grant date fair value of \$1.57 per unit based on the public market price of the Company's common stock as of the date of grant. These A majority of these RSUs will primarily vest over a four-year period.

During October 2023, the Company granted approximately 550 thousand RSUs that will vest over a four-year period.

Note 10 Net Loss Per Share

Basic net loss per share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the period. Equity-classified warrants that are exercisable for nominal consideration are included in basic weighted-average shares outstanding at the time of issuance.

Diluted net loss per share gives effect to all securities having a dilutive effect on net loss, weighted-average shares of common stock outstanding, or both. The effect from potential dilutive securities included, but was not limited to: (i) incremental shares of common stock calculated using the if-converted method for the Convertible Notes due 2027 and Conversion Option Derivative, and the PIPE Investment Obligation; (ii) incremental shares of common stock calculated using the treasury stock method for warrants and share-based compensation awards; (iii) incremental shares and potential shares of common stock that were contingently issuable upon closing of the Tailwind Two Merger; and (iv) (iii) the corresponding impact to net loss associated with the preceding considerations.

The RDO Warrants and CMPO Warrants, as described in the table in Note 6 "Warrants and Derivatives," each meet the definition of a participating security because they are entitled to participate in distributions by the Company while in the form of a warrant; however, the RDO Warrants and CMPO Warrants are not required to share in the net losses of the Company. Accordingly, these participating securities do not have an impact on basic net loss per share in periods of net loss and with no distributions.

For purposes of the diluted net loss per share computation, all potentially dilutive securities were excluded because their (i) effect would be anti-dilutive (ii) or their exercise price was "out-of-the-money, "out-of-the-money." or (iii) contingent issuance conditions were unsatisfied. As a result, diluted net loss per share was equal to basic net loss per share for each period presented.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The table below represents the anti-dilutive securities that could potentially be dilutive in the future for the periods presented:

<i>(in shares of common stock)</i>	As of September 30,		As of March 31,	
	2023	2022	2024	2023

Note 11 Income Taxes

Provision for income taxes for the three months ended **September 30, 2023** **March 31, 2024** was **\$22** **52** thousand, resulting in an effective tax rate for the period of **-0.1%**. The Company had a minimal effective tax rate as a result of the continued generation of net operating losses ("NOLs") offset by a full valuation allowance recorded on such NOLs as the Company determined it is more-likely-than-not that its NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from the Company's foreign subsidiary.

Provision for income taxes for the three months ended **September 30, 2022** **March 31, 2023** was **\$54** thousand, resulting in an effective tax rate for the period of **0.0%**. The Company had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as the Company determined it is more-likely-than-not that its NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from the Company's foreign subsidiary.

Provision for income taxes for the nine months ended September 30, 2023 was **\$23** thousand, resulting in an effective tax rate for the period of **0.0%**. The Company had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as the Company determined it is more-likely-than-not that its NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from the Company's foreign subsidiary.

Provision for income taxes for the nine months ended September 30, 2022 was **\$58** **18** thousand, resulting in an effective tax rate for the period of **0.0%**. The Company had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as the Company determined it is more-likely-than-not that its NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from the Company's foreign subsidiary.

Note 12 Commitments and Contingencies

Litigation and Other Legal Matters

From time to time, the Company is subject to claims and lawsuits in the ordinary course of business, such as contractual disputes and employment matters. The Company is also subject to regulatory and governmental examinations, information requests and subpoenas, inquiries, investigations, and threatened legal actions and proceedings. The Company records accruals for losses that are probable and reasonably estimable. These accruals are based on a variety of factors such as judgment, probability of loss, and opinions of internal and external legal counsel. Legal costs in connection with claims and lawsuits in the ordinary course of business are expensed as incurred.

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Class Action

In February 2023, a putative class action complaint was filed in the United States District Court for the Southern District of New York (the "Court"), Case No. 1:23-cv-01394. The litigation was instituted by Jeffrey Mullen on behalf of himself and all others similarly situated. In July 2023, an amended complaint was filed by Jeffrey Mullen, Robert Irwin, Justin Carnahan and Thomas Bennett, each on behalf of himself and all others similarly situated, naming the Company, its Chief Executive Officer, and the members of Legacy Terran Orbital's Board of Directors as defendants. The amended class action complaint (as amended, the "Complaint") asserts claims for violations of Section 11(A) of the Securities Exchange Act of 1933 and Section 158 of the Delaware General Corporation Law, and

22

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

breach of fiduciary duties, resulting from the Company's alleged failure to timely transfer shares of common stock to current and former employee shareholders after the consummation of the Tailwind Two Merger in connection with its prior transaction to become a public company and alleges materially false and misleading statements made in the Company's Form S-4 Registration Statement and Proxy Prospectus primarily relating to the process for exchanging shares in connection with the Tailwind Two Merger its prior transaction to become a public company. The Complaint seeks an award of damages, an award of reasonable costs and expenses at trial, including counsel and expert fees, and an award of such other relief as deemed appropriate by the Court. The Company intends to defend this action vigorously vigorously and filed a motion to dismiss with the Court on December 18, 2023. On February 2, 2024, the Company filed a response brief to the plaintiff's opposition to the motion to dismiss. The motion to dismiss is currently pending with the court.

Stockholder Rights Agreement

On March 6, 2024, Andrew Jones filed a putative class action complaint against the Company and its Board of Directors in the Delaware Court of Chancery. The complaint objects to the Company's implementation of the Rights Agreement, specifically a provision in the Rights Agreement which aggregates share ownership in situations where parties are "acting in concert." The plaintiff alleges breaches of fiduciary duty and seeks to have the acting in concert provision enjoined and declared unenforceable. In April 2024, the Company amended the Rights Agreement to remove references to the defined concept of "acting in concert" that the plaintiff is seeking to declare unenforceable. The Company subsequently filed a stipulation and proposed order, which is subject to approval by the Delaware Court of Chancery, whereby the plaintiff has agreed to dismiss the claims as moot.

Commercial Agreements

In connection with the Tailwind Two Merger, transaction to become a public company, the Company entered into commercial agreements to purchase an aggregate amount of \$20 million of goods and services over three years from two affiliates of a PIPE investor, which became effective upon the closing of the Tailwind Two Merger, transaction to become a public. As of September 30, 2023 March 31, 2024, approximately \$12.99.9 million of the purchase obligations remained outstanding under these commercial agreements.

In 2022, the Company entered into a purchase obligation of \$22.4 million for the procurement of components related to a customer program. As of September 30, 2023, approximately \$3.2 million of the purchase obligation remained outstanding.

Note 13 Related Party Transactions

Lockheed Martin

Lockheed Martin, directly and through its wholly-owned subsidiary Astrolink International, LLC ("Astrolink"), is a significant holder of debt and equity instruments of the Company.

On June 26, 2017, the Company entered into a strategic cooperation agreement with Lockheed Martin (the "Strategic Cooperation Agreement"), as amended, pursuant to which the parties agreed to (i) collaborate on the development, production and sale of satellites for use in U.S. Government spacecraft and spacecraft procurements and (ii) establish a cooperation framework to enable the parties to enter into projects, research and development agreements and other collaborative business arrangements and "teaming activities."

On October 31, 2022, the Company and Lockheed Martin terminated the Strategic Cooperation Agreement, as amended, and entered into a new Strategic Cooperation Agreement (the "2022 SCA"), pursuant to which the parties have agreed to continue to share business development opportunities and work collaboratively on small satellite and other aerospace and defense opportunities and ventures. Unless earlier terminated, the 2022 SCA has a term of 13 years and will terminate in 2035. During the term of the 2022 SCA, Lockheed Martin will be entitled to appoint a director to the Company's board of directors and to appoint a separate board observer. As part of the 2022 SCA, the Company has also agreed that it will not make any public announcement with respect to, or seek approval by the board of directors of, any sale transaction or Fundamental Change (as defined in certain financing agreements) with respect to the Company, or any other extraordinary transaction involving the Company, with any other person regarding any of the foregoing, without giving

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

prior notice to Lockheed Martin and to include Lockheed Martin in any such sale process, in each case, subject to the fiduciary duties of the board of directors and management of the Company.

Revenue

The Company recognized revenue from Lockheed Martin of \$34.9 19.9 million and \$21.4 20.5 million during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$82.3 million and \$46.5 million during the nine months ended September 30, 2023 and 2022, 2023, respectively. In addition, the Company had accounts receivable due from Lockheed Martin of \$3.7 1.0 million and \$0.7 9.6 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively, and contract assets from contracts with Lockheed Martin of \$2.0 23.6 million and \$4.1 20.1 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively. The Company had contract liabilities from contracts with Lockheed Martin of \$2.7 93.0 million and \$22.5 89.1 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively.

As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, programs associated with Lockheed Martin represented approximately 37% and 81.8% of the Company's remaining performance obligations, respectively.

23

TERRAN ORBITAL CORPORATION

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Expenses

During the nine three months ended September 30, 2023, March 31, 2024 and 2023, the Company incurred approximately \$3.6 0.5 million and \$3 million of expenses in connection with engineering and research and development support provided by Lockheed Martin.

GeoOptics, Inc.

The Company owns a non-controlling equity interest in GeoOptics, Inc. ("GeoOptics"), a privately held company engaged in the acquisition and sale of Earth observation data and a purchaser of products and services from the Company. Additionally, one of the Company's executive officers serves as a member of the GeoOptics board of directors. As of September 30, 2023 and December 31, 2022, the Company's \$1.7 million investment in GeoOptics represented less than a 3% ownership interest and was fully impaired.

The Company recognized revenue from GeoOptics of \$190 thousand and \$1.6 million during the three and nine months ended September 30, 2022, Martin, respectively. The Company did not recognize any revenue from GeoOptics during the three and nine months ended September 30, 2023.

Transactions with Chairman and CEO

The Company leases office space in a building owned by its Chairman and CEO with a lease term of April 1, 2021 to March 31, 2026. The Company has a one-time right to extend the lease for a period of five additional years. The lease payments under this lease were approximately \$61 thousand and \$59 thousand during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$180 thousand and \$175 thousand during the nine months ended September 30, 2023 and 2022, 2023, respectively.

PIPE Investment Obligation

An affiliate of a director and shareholder of the Company invested \$30 million as part of the PIPE Investment in connection with the Tailwind Two Merger transaction to become a public company (the "Insider PIPE Investment") in March 2022. The subscription agreement for the Insider PIPE Investment included a provision that obligates the Company to pay the affiliate a quarterly fee of \$1.875 million for sixteen quarters beginning with the period ending March 31, 2022 (the "PIPE Investment Obligation"). The first four quarterly payments were to be paid in cash and the remaining payments are to be paid, at the Company's option, in cash or common stock of the Company, subject to subordination to and compliance with the Company's debt facilities and other contractual arrangements.

The Insider PIPE Investment resulted in proceeds received of \$30 million, of which \$13 million was allocated to proceeds from debt and \$17 million was allocated to proceeds from the PIPE Investment in the condensed consolidated statements of cash flows based on relative fair value. Refer to Note 5 "Debt" for further discussion.

Note 14 Leases

As part of normal operations, the Company leases real estate and equipment from various counterparties with lease terms and maturities extending through 2032.

2420

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

INTRODUCTION

The following discussion and analysis should be read in conjunction with our condensed consolidated financial statements and the related notes included elsewhere in this Quarterly Report on Form 10-Q, as well as our audited consolidated financial statements and the related notes as of and for the years ended **December 31, 2022** **December 31, 2023** and **2021** **2022** included in our Annual Report on Form 10-K, which was filed with the United States ("U.S.") Securities and Exchange Commission (the "SEC") on **March 23, 2023** **April 1, 2024** (the **"2022** **"2023** Annual Report"). This section is intended to (i) provide material information relevant to the assessment of our results of operations and cash flows; (ii) enhance the understanding of our financial condition, changes in financial condition, and results of operations; and (iii) discuss material events and uncertainties known to management that are reasonably likely to cause reported financial information not to be necessarily indicative of future performance or of future financial condition.

The following discussion and analysis contains forward-looking statements about our business, operations, and financial performance based on current plans and estimates involving risks, uncertainties, and assumptions, which could differ materially from actual results. Factors that could cause such differences are discussed in our **2022** **2023** Annual Report, the prospectus dated April 18, 2023 (including the prospectus supplements dated May 24, 2023 and September 18, 2023) related to our Registration Statement on Form S-3, as amended (File No. 333-271093), which was declared effective by the SEC on April 18, 2023, and other of our filings with the SEC. Report. Additionally, our historical results are not necessarily indicative of the results that may be expected for any period in the future.

OVERVIEW

Terran Orbital Corporation, formerly known as Tailwind Two Acquisition Corp. ("Tailwind Two"), together with its wholly-owned subsidiaries (collectively, the "Company," "we," "our," "us," and "Terran Orbital"), is a leading manufacturer of satellite products primarily serving the aerospace and defense industries. We provide end-to-end satellite solutions by combining satellite design, production, launch planning, mission operations, and on-orbit support to meet the needs of our military, civil, and commercial customers. We have a foreign subsidiary based in Torino, Italy.

BASIS OF PRESENTATION

All financial information presented in this section has been prepared in U.S. dollars in accordance with generally accepted accounting principles in the U.S. ("GAAP"), excluding our Non-GAAP measures, and includes the accounts of Terran Orbital Corporation and its subsidiaries. All intercompany transactions have been eliminated.

We evaluate and report our segment information based on the manner in which our Chief Executive Officer, who is the chief operating decision maker (the "CODM"), evaluates performance and allocates resources. Beginning in the fourth quarter of 2022, we **We** report our results as a single operating and reportable segment on a consolidated basis. Where applicable, prior periods have been retrospectively adjusted to reflect our current operating and reportable segment structure.

FACTORS AFFECTING OPERATING RESULTS

Our financial success is based on our ability to deliver high quality products and services on a timely basis and at a cost-effective price for our customers. With the majority of our contracts with customers reflecting firm fixed pricing structures, our gross profit is dependent on the efficient and effective execution of our contracts. Our ability to maximize gross profit may be impacted by, but not limited to, unanticipated cost overruns, disruptions in our supply chains, and learning curve and non-recurring engineering costs related to our contracts with customers. Furthermore, our overall profitability may be impacted by our internal research and development initiatives associated with developing new and innovative technology, including the expansion of our offerings to include additional satellite bus designs, payload solutions, satellite subassemblies and components, and other defense-related products.

From time to time, we may strategically enter into contracts with low or negative margins relative to other contracts or that are at risk of cost overruns. This may occur due to strategic decisions built around positioning ourselves for future contracts or to enhance our product and service offerings. However, in some instances, loss contracts may occur from unforeseen cost overruns which are not recoverable from the customer. We establish loss reserves on contracts in which the cost estimate-at-completion ("EAC") exceeds the estimated revenue. The loss reserves are recorded in the period in which a loss is determined. Our reference to adjustments to EAC in the context of describing our results of operations relates to net changes during the period in our aggregate program contract values and estimated costs at completion and include the net impact of contract terminations, cost overruns, and loss reserves.

26

We are actively expanding In recent years, we have expanded our headcount manufacturing and production facilities and office space in order to position ourselves to be awarded, and have the capacity to execute on larger contracts with recurring revenue opportunities. These growth initiatives are principally located in Irvine, California near our existing facilities. Our existing portfolio of contracts includes multiple-satellite constellations as well as several

22

technology demonstrations, prototypes, and studies with the potential for option exercises or follow-on contracts for multiple-satellite constellations. Accordingly, we are incurring a heightened level of operating expenses in advance of larger customer awards. These opportunities are subject to numerous uncertainties, including but not limited to: the customer may withdraw the opportunity, we may not submit a proposal, or we may not win a contract award or the full value of the award.

We may experience variability in the profitability of our contracts in the future and such future variability may occur at levels and frequencies different from historical experience. Such variability in profitability may be due to strategic decisions, cost overruns or other circumstances within or outside of our control. Accordingly, our historical experience with profitability on our contracts is not indicative or predictive of future experience.

COVID-19 Pandemic

During March 2020, the World Health Organization (the "WHO") declared the outbreak of a novel coronavirus as a pandemic (the "COVID-19 Pandemic"). The COVID-19 Pandemic has negatively impacted the global economy, disrupted global supply chains, and created significant volatility and disruption in the financial and capital markets.

The COVID-19 Pandemic has contributed to a worldwide shortage of electronic components which has resulted in longer than historically experienced lead times for such electronic components. The reduced availability to receive electronic components used in our operations has negatively affected our timing and ability to deliver products and services to customers as well as increased costs in recent periods. In an effort to manage this disruption to our supply chain, we have focused on accumulating critical components to ensure an appropriate level of supply is available when needed.

We have considered the ongoing and pervasive economic impact of the COVID-19 Pandemic in our assessment of our financial position, results of operations, cash flows, and certain accounting estimates as of and for the periods presented. The U.S. Government allowed the national public health emergency declaration related to the COVID-19 Pandemic to expire on May 11, 2023, and the WHO ended the global emergency status for the COVID-19 Pandemic on May 5, 2023.

RECENT DEVELOPMENTS

The comparability of our results of operations has been impacted by the following events:

Tailwind Two Merger

Prior to March 25, 2022, Tailwind Two was a publicly listed special purpose acquisition company incorporated as a Cayman Islands exempted company. On March 25, 2022, Tailwind Two acquired Terran Orbital Operating Corporation, formerly known as Terran Orbital Corporation ("Legacy Terran Orbital") (the "Tailwind Two Merger"). In connection with the Tailwind Two Merger, Tailwind Two filed a notice of deregistration with the Cayman Islands Registrar of Companies and filed a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of the State of Delaware, resulting in Tailwind Two becoming a Delaware corporation and changing its name from Tailwind Two to Terran Orbital Corporation. The Tailwind Two Merger resulted in Legacy Terran Orbital becoming a wholly-owned subsidiary of Terran Orbital Corporation.

As a result of the Tailwind Two Merger, all of Legacy Terran Orbital's issued and outstanding common stock was converted into shares of Terran Orbital Corporation's common stock using an exchange ratio of 27.585 shares of Terran Orbital Corporation's common stock per each share of Legacy Terran Orbital's common stock. In addition, Legacy Terran Orbital's convertible preferred stock and certain warrants were exercised and converted into shares of Legacy Terran Orbital's common stock immediately prior to the Tailwind Two Merger, and in turn, were converted into shares of Terran Orbital Corporation's common stock as a result of the Tailwind Two Merger. Further, in connection with the Tailwind Two Merger, Legacy Terran Orbital's share-based compensation plan and related share-based compensation awards were cancelled and exchanged or converted, as applicable, with a new share-based compensation plan and related share-based compensation awards of Terran Orbital Corporation.

While Legacy Terran Orbital became a wholly-owned subsidiary of Terran Orbital Corporation, Legacy Terran Orbital was deemed to be the acquirer in the Tailwind Two Merger for accounting purposes. Accordingly, the Tailwind Two Merger was accounted for as a reverse recapitalization, in which case the condensed consolidated financial statements of the Company represent a continuation of Legacy Terran Orbital and the issuance of common stock in exchange for the net assets of Tailwind Two recognized at historical cost and no recognition of goodwill or other intangible assets. Operations prior to the Tailwind Two Merger are those of Legacy Terran Orbital and all share and per-share data included in these condensed consolidated financial statements have been retrospectively adjusted.

27

to give effect to the Tailwind Two Merger. In addition, the number of shares subject to, and the exercise price of, the Company's outstanding options and warrants were adjusted to reflect the Tailwind Two Merger. The treatment of the Tailwind Two Merger as a reverse recapitalization was based upon the pre-merger shareholders of Legacy Terran Orbital holding the majority of the voting interests of Terran Orbital Corporation, Legacy Terran Orbital's existing management team serving as the initial management team of Terran Orbital Corporation, Legacy Terran Orbital's appointment of the majority of the initial board of directors of Terran Orbital Corporation, and Legacy Terran Orbital's operations comprising the ongoing operations of the Company.

In connection with the Tailwind Two Merger, approximately \$29 million of cash and marketable securities held in trust, net of redemptions by Tailwind Two's public shareholders, became available for use to Terran Orbital Corporation as well as proceeds received from the contemporaneous sale of common stock in connection with the closing of a PIPE investment with a contractual amount of \$51 million (the "PIPE Investment"). In addition, the Company received additional proceeds from the issuance of debt contemporaneously with the Tailwind Two Merger. The cash raised was used for general corporate purposes, the partial paydown of debt, the payment of transaction costs and the payment of other costs directly or indirectly attributable to the Tailwind Two Merger.

Beginning on March 28, 2022, Terran Orbital Corporation's common stock and public warrants began trading on the New York Stock Exchange (the "NYSE") under the symbols "LLAP" and "LLAP WS," respectively.

Public Company Costs

As a result of the Tailwind Two Merger, we have incurred and will continue to incur additional legal, accounting, board compensation, and other expenses that we did not previously incur as a privately-owned company. These increases in costs include compliance with the Sarbanes-Oxley Act of 2002 as well as other corporate governance rules implemented by the SEC and the NYSE. Our financial statements for the periods following the Tailwind Two Merger reflect, and will continue to reflect, the impact of these incremental expenses.

Rivada Agreement

During February 2023, we entered into an agreement with Rivada Space Networks GmbH ("Rivada") providing for the development, production, and operation of 300 satellites, inclusive of 12 in-orbit spares and ground station equipment, for a total purchase price of approximately \$2.4 billion (the "Rivada Agreement"). The agreement also includes options for additional satellites, equipment, and services, including an option for the purchase of an additional 300 satellites. Performance under the agreement will be split into a developmental phase, with amounts billed on a time and materials basis, and a firm fixed price production phase. Rivada has an option to terminate the agreement for convenience at any time and for any reason, which would result in a termination fee for work performed up to such termination. In addition, the agreement includes termination provisions for default in the event of missed delivery targets or deadlines, insolvency, or other failures to perform, which could result in the refund of all amounts paid up to such termination. Whether we ultimately recognize revenue and profit on this contract is subject to a number of uncertainties including, among other things, our ability to successfully perform our obligations, increase our manufacturing capacity, and deliver operational satellites in a timely manner and Rivada's continuing ability to fund contract performance and maintain its regulatory licenses for its operations. The amount We recognized \$1.7 million of revenue recognized under the Rivada Agreement was \$5.4 million and \$6.6 million during the three and nine months ended September 30, 2023, respectively.

28

March 31, 2024. We did not recognize revenue under the Rivada Agreement during the three months ended March 31, 2023.

RESULTS OF OPERATIONS

Three Months Ended September 30, 2023 March 31, 2024 Compared to September 30, 2022 March 31, 2023

The following table presents our consolidated results of operations for the periods presented:

(in thousands)	Three Months Ended			Three Months Ended March 31,		
	September 30,			March 31,		
	\$			\$		
	2023	2022	Change	2024	2023	\$ Change
Revenue	\$ 43,88	\$ 27,83	\$ 16,055	\$ 27,235	\$ 28,198	\$ (963)

	34,19	27,79				
Cost of sales	4	3	6,401	33,391	29,597	3,794

Net loss	\$ 29)	\$ 5)	\$ 926	\$ (53,244)	\$ (54,445)	\$ 1,201

Revenue

The **increase** in revenue was driven by unfavorable EAC adjustments primarily on a single program due to challenges with a subcontractor, partially offset by an increase in revenue due to the continued and increased level of progress made in satisfying our customer contracts and reflects the ongoing favorable impact from significant contract wins and modifications in recent periods.

During the three months ended **September 30, 2023** **March 31, 2024** and **2022, 2023**, revenue included an estimated \$13.1 million negative impact of \$1.8 million and \$0.1 million, \$0.8 million positive impact, respectively, related to EAC adjustments on our firm fixed price contracts. While we believe our estimates as of **September 30, 2023**

March 31, 2024 consider all relevant and known information, such as supply chain and related production challenges, additional adjustments to our estimates could occur and have an impact on our revenue in future reporting periods.

Cost of Sales

The increase in cost of sales was primarily due to the following:

- an increase of **\$4.6 million** **\$2.9 million** in labor, materials, third-party services, overhead (exclusive of allocated share-based compensation and depreciation), launch costs, and other direct costs incurred in satisfying our customer contracts;
- an increase of **\$2.2 million** **\$1.4 million** related to **inventory reserves; reserves for anticipated losses on contracts** we recorded a decrease in reserves of **\$0.4 million** during 2024 compared to a decrease of **\$1.7 million** during 2023 due to the termination of an unfavorable contract; and
- an increase of **\$0.9 million** **\$1.3 million** in depreciation and amortization as a result of increased production capacity and production levels.

These increases were partially offset by a decrease of **\$1.8 million** **\$2.3 million** in share-based compensation expense as certain awards granted in connection with **the Tailwind Two Merger became** **becoming a public company** were fully expensed during the first quarter of **2023**, net of an increase due to higher headcount. **2023**.

During the three months ended **September 30, 2023** **March 31, 2024** and **2022**, **2023**, cost of sales included an estimated **positive \$0.5 million negative impact of \$3.2 million** and a **negative \$0.8 million positive impact, of \$1.9 million**, respectively, related to EAC adjustments on our firm fixed price contracts and non-recurring changes in estimates related to **inventory**. contracts. While we believe our estimates as of **September 30, 2023** **March 31, 2024** consider all relevant and known information,

29

such as supply chain and related production challenges, additional adjustments to our estimates could occur and have an impact on our cost of sales in future reporting periods.

Selling, General, and Administrative Expenses

The **increase** **decrease** in selling, general, and administrative expenses was primarily due to a **decrease of \$4.0 million** in share-based compensation expense as certain awards granted in connection with **becoming a public company** were fully expensed during the following:

- first quarter of 2023, and a decrease of \$3.6 million in research and development activities, exclusive of allocated share-based compensation and depreciation. These decreases were partially offset by an increase of **\$3.0 million** in administrative labor and benefits, net of allocated overhead, due to the increase in headcount as part of our growth initiatives;
- an increase of **\$2.9 million** in sales and marketing and business development; and
- an increase of **\$0.5 million** in depreciation and amortization expense.

These increases were partially offset by the following: on a comparative basis.

- a decrease of **\$3.6 million** in share-based compensation expense as certain awards granted in connection with

Tailwind Two Merger became fully expensed during the first quarter of 2023, net of an increase due to high headcount; and

- a decrease of \$0.4 million in business insurance expense as a result of a decrease in premiums.

Interest Expense, net

The increase in interest expense, net was due to (i) an increase in contractual interest of \$2.7 million as a result of higher debt balances due to our financing transaction during the fourth quarter of 2022, (ii) an increase in amortization related to discount on debt of \$1.9 million due to our financing transaction during the fourth quarter of 2022, \$2.2 million and (iii) a decrease an increase in capitalized contractual interest of \$0.6 million as we are no longer developing our Earth observation constellation. \$0.4 million.

Change in Fair Value of Warrant and Derivative Liabilities

The change in fair value of warrant and derivative liabilities relates to the periodic fair value remeasurement of liability-classified warrants and derivatives issued in connection with our financing transactions.

During the three months ended September 30, 2023, March 31, 2024 and 2023, the gain loss on change in fair value was primarily due to a decrease an increase in the market price of our common stock and warrants, which drove the decrease increase in the fair value of our warrants and derivatives during the period.

During the three months ended September 30, 2022, the gain on change in fair value was primarily due to a decrease in the market price of our common stock and warrants, which drove the decrease in the fair value of our warrants and derivatives during the period.

Other (Income) Expense

During the three months ended September 30, 2023, other income was not material.

During the three months ended September 30, 2022, other expense primarily related to \$1 million of expense associated with the fair value of common stock issued as consideration for the execution of our committed equity facility and \$380 thousand of non-recurring legal and accounting fees associated with this transaction. relevant periods.

Provision for Income Taxes

Provision for income taxes for the three months ended September 30, 2023 March 31, 2024 was \$22 \$52 thousand, resulting in an effective tax rate for the period of 0.1% -0.1%. We had a minimal effective tax rate as a result of the continued generation of net operating losses ("NOLs") offset by a full valuation allowance recorded on such NOLs as we determined it is more-likely-than-not that our NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from our foreign subsidiary.

Provision for income taxes for the three months ended **September 30, 2022** **March 31, 2023** was \$54 thousand, resulting in an effective tax rate for the period of 0.0%. We had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as we determined it is more-likely-than-not that our NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to related to taxable income from our foreign subsidiary.

Nine Months Ended September 30, 2023 Compared to September 30, 2022

The following table presents our consolidated results of operations for the periods presented:

(in thousands)	Nine Months Ended September 30,		
	2023	2022	\$ Change
Revenue	\$ 104,315	\$ 62,314	\$ 42,001
Cost of sales	95,221	68,784	26,437
Gross profit (loss)	9,094	(6,470)	15,564
Selling, general, and administrative expenses	90,265	84,283	5,982
Loss from operations	(81,171)	(90,753)	9,582
Interest expense, net	35,320	17,007	18,313
Loss on extinguishment of debt	-	23,141	(23,141)
Change in fair value of warrant and derivative liabilities	(7,534)	(2,325)	(5,209)
Other expense	24	2,367	(2,343)
Loss before income taxes	(108,981)	(130,943)	21,962
Provision for income taxes	23	58	(35)
Net loss	\$ (109,004)	\$ (131,001)	\$ 21,997

Revenue

The increase in revenue was primarily due to the continued and increased level of progress made in satisfying our customer contracts and reflects the ongoing favorable impact from significant contract wins and modifications in recent periods.

During the nine months ended September 30, 2023 and 2022, revenue included an estimated negative impact of \$2.2 million and \$5 million, respectively, related to EAC adjustments on our firm fixed price contracts. While we believe our estimates as of September 30, 2023 consider all relevant and known information, such as supply chain and related production challenges, additional adjustments to our estimates could occur and have an impact on our revenue in future reporting periods.

Cost of Sales

The increase in cost of sales was primarily due to the following:

- an increase of \$29.7 million in labor, materials, third-party services, overhead (exclusive of allocated share-based compensation and depreciation), launch costs, and other direct costs incurred in satisfying our customer contracts;
- an increase of \$2.1 million related to inventory reserves; and
- an increase of \$1.6 million in depreciation and amortization as a result of increased production capacity and production levels.

These increases were partially offset by the following:

- a decrease of \$5.1 million in share-based compensation expense primarily due to a \$2.1 million non-recurring cumulative impact recognized during the first quarter of 2022 due to the closing of the Tailwind Two Merger satisfying a vesting condition on certain awards as well as certain awards granted in connection with the Tailwind Two Merger that became fully expensed during the first quarter of 2023, net of an increase due to higher headcount; and
- a decrease of \$2.4 million related to reserves for anticipated losses on contracts as we recorded a \$1.8 million decrease in reserves during 2023 primarily due to the termination of an unfavorable contract compared to a \$3.5 million increase in reserves during 2022.

During the nine months ended September 30, 2023 and 2022, cost of sales included an estimated positive impact of \$2.3 million and a negative impact of \$4.8 million, respectively, related to EAC adjustments on our firm fixed price contracts and non-recurring changes in estimates related to inventory. While we believe our estimates as of September 30, 2023 consider all relevant and known information,

31

such as supply chain and related production challenges, additional adjustments to our estimates could occur and have an impact on our cost of sales in future reporting periods.

Selling, General, and Administrative Expenses

The increase in selling, general, and administrative expenses was primarily due to the following:

- an increase of \$10.7 million in labor and benefits, net of allocated overhead, due to the increase in headcount as part of our growth initiatives;
- an increase of \$6.6 million in research and development activities, exclusive of allocated share-based compensation and depreciation, related to the development of new modules and payloads;
- an increase of \$6.1 million in sales and marketing and business development;
- an increase of \$1.7 million in technology costs, net of allocated overhead, due to an increase in overall headcount and solutions utilized; and
- an increase of \$1.0 million in facilities expense, net of allocated overhead.

These increases were partially offset by the following:

- a decrease of \$17.7 million in share-based compensation expense primarily due to a \$15.1 million non-recurring cumulative impact recognized during the first quarter of 2022 due to the closing of the Tailwind Two Merger satisfied a vesting condition on certain awards as well as certain awards granted in connection with the Tailwind Two Merger that became fully expensed during the first quarter of 2023, partially offset by an increase due to higher headcount and
- a decrease of \$3.9 million in accounting, legal, and other professional fees.

Interest Expense, net

The increase in interest expense, net was due to (i) an increase in contractual interest of \$9.1 million as a result of higher debt balances due to our financing transaction during the fourth quarter of 2022, (ii) an increase in amortization related to discount on debt of \$7.4 million, and (iii) a decrease in capitalized interest of \$1.8 million as we are no longer developing our Earth observation constellation.

Loss on Extinguishment of Debt

During the nine months ended September 30, 2022, loss on extinguishment of debt totaled \$23.1 million and related to the refinancing and extinguishment of our debt obligations in connection with the Tailwind Two Merger. There was no loss on extinguishment of debt during the nine months ended September 30, 2023.

Change in Fair Value of Warrant and Derivative Liabilities

The change in fair value of warrant and derivative liabilities relates to the periodic fair value remeasurement of liability-classified warrants and derivatives issued in connection with our financing transactions.

During the nine months ended September 30, 2023, the gain on change in fair value was primarily due to a decrease in the market price of our common stock, which drove the decrease in the fair value of certain warrants and derivatives during the period, partially offset by an increase in the market price of our warrants, which drove the increase in the fair value of certain warrants and derivatives during the period.

During the nine months ended September 30, 2022, the gain on change in fair value was due to a decrease in fair value of \$19.3 million related to warrant liabilities subsequent to the Tailwind Two Merger driven by a decrease in the Company's price per warrant and price share of common stock, partially offset by a net increase in fair value of \$17.0 million related to warrant and derivative instruments that were ultimately settled as part of the Tailwind Two Merger.

Other Expense

During the nine months ended September 30, 2023, other expense was not material.

During the nine months ended September 30, 2022, other expense primarily related to \$1.1 million of non-recurring legal and accounting fees expensed in connection with our financing transactions and \$1 million of expense associated with the fair value of common stock issued as consideration for the execution of our committed equity facility.

Provision for Income Taxes

Provision for income taxes for the nine months ended September 30, 2023 was \$23 thousand, resulting in an effective tax rate for the period of 0.0%. We had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as we determined it is more-likely-than-not that our NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from our foreign subsidiary.

Provision for income taxes for the nine months ended September 30, 2022 was \$58 \$18 thousand, resulting in an effective tax rate for the period of 0.0%. We had a minimal effective tax rate as a result of the continued generation of NOLs offset by a full valuation allowance recorded on such NOLs as we determined it is more-likely-than-not that our NOLs will not be utilized. The remainder of the provision for income taxes was primarily related to taxable income from our foreign subsidiary.

NON-GAAP MEASURES

To provide investors with additional information in connection with our results as determined in accordance with GAAP, we disclose the non-GAAP financial measures Adjusted Gross Profit and Adjusted EBITDA. These non-GAAP measures may be different from

24

non-GAAP measures made by other companies. These measures may exclude items that are significant in understanding and assessing our financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income or other measures of financial performance or liquidity under GAAP.

Adjusted Gross Profit

We define Adjusted Gross Profit as gross profit or loss adjusted for (i) share-based compensation expense included in cost of sales and (ii) depreciation and amortization included in cost of sales.

We believe that the presentation of Adjusted Gross Profit is appropriate to provide additional information to investors about our gross profit or loss adjusted for certain non-cash items. Further, we believe Adjusted Gross Profit provides a meaningful

measure of operating profitability because we use it for evaluating our business performance, making budgeting decisions, and comparing our performance against that of other peer companies using similar measures.

There are material limitations to using Adjusted Gross Profit. Adjusted Gross Profit does not take into account all items which directly affect our gross profit or loss. These limitations are best addressed by considering the economic effects of the excluded items independently and by considering Adjusted Gross Profit in conjunction with gross profit or loss as calculated in accordance with GAAP.

The following table reconciles Adjusted Gross Profit to gross profit or loss (the most comparable GAAP measure) for the three months ended **September 30, 2023** **March 31, 2024** and **2022: 2023**:

(in thousands)	Three Months Ended			Three Months Ended March 31,		
	September 30,			2024		
	2023	2022	\$ Change	2024	2023	\$ Change
Gross profit	\$ 9,691	\$ 37	\$ 9,654	\$ (6,156)	\$ (1,399)	\$ (4,757)
Gross loss						
Share-based compensation expense	919	2,715	(1,796)	941	3,245	(2,304)
Depreciation and amortization	1,433	486	947	1,791	466	1,325
Adjusted gross profit	\$ 12,043	\$ 3,238	\$ 8,805			
Adjusted gross (loss) profit				\$ (3,424)	\$ 2,312	\$ (5,736)

The **increase** **decrease** in Adjusted Gross Profit was largely due to the **continued** and **increased** level of progress made in satisfying our customer contracts and reflects the ongoing favorable impact from significant contract wins and modifications in recent periods as well as the **estimated** impact from EAC adjustments, **and** **non-recurring** changes in estimates related to **inventory**, which had **a negative impact of \$13.6 million** during the three months ended **March 31, 2024** compared to a positive impact of \$1.5 million **and a negative impact of \$2 million** during the three months ended **September 30, 2023** and **2022, respectively**. **March 31, 2023**. While we believe our estimates as of **September 30, 2023** consider all relevant and known information, such as supply chain and related production

33

challenges, additional adjustments to our estimates could occur and have an impact on our Adjusted Gross Profit in future reporting periods.

The following table reconciles Adjusted Gross Profit to gross profit or loss (the most comparable GAAP measure) for the nine months ended September 30, 2023 and 2022:

Nine Months Ended September 30,

(in thousands)	2023	2022	\$ Change
Gross profit (loss)	\$ 9,094	\$ (6,470)	\$ 15,564
Share-based compensation expense	4,942	10,057	(5,115)
Depreciation and amortization	3,131	1,529	1,602
Adjusted gross profit	\$ 17,167	\$ 5,116	\$ 12,051

The increase in Adjusted Gross Profit was largely due to the continued and increased level of progress made in satisfying our customer contracts and reflects the ongoing favorable impact from significant contract wins and modifications in recent periods as well as the estimated impact from EAC adjustments and non-recurring changes in estimates related to inventory, which had a minimal impact and a negative impact of \$9.8 million during the nine months ended September 30, 2023 and 2022, respectively. While we believe our estimates as of September 30, 2023 March 31, 2024 consider all relevant and known information, such as supply chain and related production challenges, additional adjustments to our estimates could occur and have an impact on our Adjusted Gross Profit in future reporting periods.

Adjusted EBITDA

We define Adjusted EBITDA as net income or loss adjusted for (i) interest, (ii) taxes, (iii) depreciation and amortization, (iv) share-based compensation expense, (v) loss on extinguishment of debt, (vi) change in fair value of warrant and derivative liabilities, and (vii) other non-recurring and/or non-cash items.

We believe that the presentation of Adjusted EBITDA is appropriate to provide additional information to investors about our operating profitability adjusted for certain non-cash items, non-routine items that we do not expect to continue at the same level in the future, as well as other items that are not core to our operations. Further, we believe Adjusted EBITDA provides a meaningful measure of operating profitability because we use it for evaluating our business performance, making budgeting decisions, and comparing our performance against that of other peer companies using similar measures.

There are material limitations to using Adjusted EBITDA. Adjusted EBITDA does not take into account certain significant items, including depreciation and amortization, interest, taxes, and other adjustments which directly affect our net income or loss. These

limitations are best addressed by considering the economic effects of the excluded items independently and by considering Adjusted EBITDA in conjunction with net income or loss as calculated in accordance with GAAP.

The following table reconciles Adjusted EBITDA to net loss (the most comparable GAAP measure) for the three months ended **September 30, 2023** **March 31, 2024** and **2022: 2023**:

<i>(in thousands)</i>	Three Months Ended September 30,		
	2023	2022	\$ Change

Change in fair value of warrant and derivative liabilities	5,043	9,455	(4,412)
Other, net(a)	11	401	(390)
Adjusted EBITDA	\$ (28,235)	\$ (22,552)	\$ (5,683)

(a) - Represents other expense and other charges and items. Non-recurring legal and accounting fees related to our transition to a public company and financing transactions are included herein.

34

The increase in Adjusted EBITDA was primarily due to an increase in Adjusted Gross Profit, partially offset by an increase selling, general, and administrative expenses as a result of our growth initiatives. Refer to the discussions above under "Results of Operations" for further details.

The following table reconciles Adjusted EBITDA to net loss (the most comparable GAAP measure) for the nine months ended September 30, 2023 and 2022:

<i>(in thousands)</i>	Nine Months Ended September 30,		
	2023	2022	\$ Change

Net loss	\$ (109,004)	\$ (131,001)	\$ 21,997
Interest expense, net	35,320	17,007	18,313
Provision for income taxes	23	58	(35)
Depreciation and amortization	5,031	2,612	2,419
Share-based compensation expense	17,529	40,354	(22,825)
Loss on extinguishment of debt	-	23,141	(23,141)
Change in fair value of warrant and derivative liabilities	(7,534)	(2,325)	(5,209)
Other, net ^(a)	1,747	6,755	(5,008)
Adjusted EBITDA	\$ (56,888)	\$ (43,399)	\$ (13,489)

(a) - Represents other expense and other charges and items. Non-recurring legal and accounting fees related to our transition to a public company and financing transactions are included herein.

The decrease in Adjusted EBITDA was primarily due to an increase in selling, general, and administrative expenses as a result of our growth initiatives, partially offset by an increase in Adjusted Gross Profit. Refer to the discussions above under "Results of Operations" for further details.

KEY PERFORMANCE INDICATORS

We view growth in backlog as a key measure of our business growth. Backlog represents the estimated dollar value of executed contracts and exercised contract options, including both funded (firm orders for which funding is authorized and appropriated) and unfunded portions of such contracts, for which work has not been performed (also known as the remaining performance obligations on a contract). The unfunded portion of enforceable contracts is accounted for as variable consideration and is reported at our estimate of the most likely amount to which the Company is expected to be entitled. Backlog does not include unexercised contract options and potential orders under indefinite delivery/indefinite quantity contracts. Although backlog reflects business associated with contracts that are considered to be firm, terminations, amendments or contract cancellations may occur, which could result in a reduction in our total backlog.

Our backlog totaled \$2.6 billion and \$170.8 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively. As both of September 30, 2023, our backlog which included \$2.4 billion related to the Rivada Agreement, which is subject to uncertainty with regards to the timing of performance. Agreement.

As of September 30, 2023 March 31, 2024, the Rivada Agreement represented 88% of our backlog and programs associated with Lockheed Martin represented approximately 3% 7% of our backlog.

In October 2023, we received a new award to build 36 satellites for the U.S. Space Development Agency's (the "SDA") Tranche 2 of the Transport Layer. This award is in addition to the 10 satellites we built for the SDA's Tranche 0 of the Transport Layer and the 42 satellites we are in process of building for the SDA's Tranche 1 of the Transport Layer.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

We have historically funded our operations primarily through the issuance of debt and equity securities. Our short-term liquidity requirements include initiatives related to (i) expansion of existing facilities and upgrade of equipment in order to increase operational capacity, (ii) recruitment of additional employees to meet operational needs, (iii) upgrade of information technology, and (iv) research and development initiatives, and (v) continued buildout of corporate functions and public company compliance requirements, inclusive of accounting and legal fees. Our long-term liquidity requirements include initiatives related to (i) design and development of payload solutions, (ii) expansion of advanced manufacturing and assembly facilities and capabilities, and (iii) development of new satellite components, infrastructure, and software. The timing and amount of spend on these initiatives may be materially delayed, reduced, or cancelled as a result of the level of our financial resources and available financing opportunities. Additionally, our liquidity requirements include the repayment of debt and other payment obligations incurred as in the process of becoming a result of the Tailwind Two Merger. public company and other financing transactions. Our sources of liquidity include cash generated from operations, potential proceeds from the exercise of warrants, and potential proceeds from the issuance of

35

debt and/or equity securities, inclusive of sales of common stock through our Committed Equity Facility (as defined below and subject to restrictions noted below). securities.

Certain warrants issued to affiliates of Francisco Partners provide the right to require us to exchange such warrants (in full but not in part) for \$25 million in cash on March 25, 2025. If such warrant holders During the three months ended March 31, 2024, we received notice from Francisco Partners of their intent to exercise their exchange right on March 25, 2025, then it said rights, which will require us to make a \$25 million cash payment which would on March 25, 2025 and will

26

reduce the amount of cash available at such time to fund our operations and execute our business plan, and the plan. The amount of such future cash payment could have a material adverse effect on our financial position and cash flows at such time. Further, in the event such warrant holders exercise their right and that we are unable to make the cash redemption payment on March 25, 2025, such failure for us to pay would constitute an event of default under our outstanding debt instruments, which, if not cured or waived could result in the acceleration of all outstanding indebtedness under such debt instruments. Other than such warrants, no investors have the unconditional right to sell back shares or other securities to us or have any forward purchase agreements with us.

There can be no assurances that holders of our warrants will elect to exercise for cash any or all of such warrants, and the likelihood that warrant holders will exercise their warrants is dependent upon the market price of our common stock. As of November 13, 2023 May 13, 2024, the market price of our common stock is less than the exercise price for all warrants, exclusive of warrants exercisable for a nominal price. We believe that based on the current trading prices of our common stock it is uncertain whether we will receive cash proceeds from the exercise of warrants in the next twelve months, exclusive of warrants exercisable for a nominal price. Accordingly, we have not relied upon, and are not dependent upon, the receipt of the cash proceeds from the exercise of warrants as a source of liquidity to fund our operations in the next twelve months. The exercise of any or all of the warrants outstanding as of September 30, 2023 March 31, 2024 for cash would result in an increase in our liquidity, with an aggregate maximum amount of proceeds to be received of approximately \$464.9 million.

As of September 30, 2023 March 31, 2024, we had \$38.7 million \$43.7 million of cash and cash equivalents, which included \$1.3 million \$2.7 million of cash and cash equivalents held by our foreign subsidiary. We are not presently aware of any restrictions on the repatriation of our foreign cash and cash equivalents; however, the earnings of our foreign subsidiary are essentially considered permanently invested in the foreign subsidiary. If these funds were needed to fund operations or satisfy obligations in the U.S., they could be repatriated and their repatriation into the U.S. may cause us to incur additional foreign withholding taxes. We do not currently intend to repatriate these earnings.

We rely on winning new customer orders, timely execution of programs and, ultimately, collections from customers to provide liquidity and fund our business plan. Our customer contracts are generally structured to result in advance payments to mitigate program and credit risk. The failure to win new orders, execute on programs on schedule or collect from customers in a timely manner would negatively impact our liquidity and increase our need to rely on capital raising activities to provide liquidity. In order to proceed with our strategic business plan, we may need to raise additional funds through the issuance of additional debt, equity, or other commercial arrangements, which may not be available to us when needed or on terms that we deem to be favorable. To the extent we raise additional capital through the sale of equity or convertible securities, the ownership interest of our shareholders will be diluted, and the terms of these securities may include liquidation or other preferences that adversely affect the rights of common shareholders. Debt financing and preferred equity financing, if available, may involve agreements that include covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making acquisitions or capital expenditures or declaring dividends. If we are unable to obtain sufficient financial resources, our business, financial condition and results of operations may be materially and adversely affected. We may be required to delay, limit, reduce or terminate parts of our strategic business plan or future commercialization efforts. There can be no assurance that we will be able to obtain financing on acceptable terms. Furthermore, our ability to meet our debt service obligations and other capital requirements depends on, among other things, our future operating performance, which is subject to future general economic, financial, business, competitive, legislative, regulatory, and other conditions,

in our operating plans, material changes in anticipated sales, increased expenses, acquisitions, or other events may cause us to seek equity and/or debt financing in future periods.

Long-term Debt

As of **September 30, 2023** **March 31, 2024**, long-term debt was comprised of the following (including accrued interest paid-in-kind):

Description	Issued Date	Maturity Date	Interest Rate	Interest Payable	March 31, 2024

Long-term debt	16	
Long-term debt	4,2	
	\$ 57	\$ 179,421

(1) - Incurs annual interest at 11.25%, of which 2.00% is payable-in-kind at our option.

(2) - Interest is payable-in-kind at our option. Principal and interest prior to maturity are convertible into common stock at a conversion price of \$2.898 per share at the holder's option.

(3) - Requires quarterly repayment of \$1.875 million, which is payable in cash or common stock at our option, subject to certain restrictions.

(4) - Consists of equipment financing debt agreements with maturities through September 2030, annual interest rates ranging from 6.25% to 20.05%, and requiring monthly payments of principal and interest.

N/A - Not meaningful or applicable.

There were no significant changes in our long-term debt except for the commencement of certain machinery and equipment finance leases, during the **nine** **three** months ended **September 30, 2023** **March 31, 2024**.

In October 2023, April 2024, we paid \$1.875 million of principal related to the PIPE Investment Obligation, which was outstanding as of September 30, 2023 March 31, 2024.

Our primary corporate debt agreements contain a liquidity maintenance financial covenant requiring us to have an amount of unrestricted cash and cash equivalents of the greater of \$20 million or 15% of certain aggregated funded indebtedness for each fiscal quarter end. In addition, our primary corporate debt agreements contain a covenant requiring our Consolidated Adjusted EBITDA (as defined in the underlying note agreements), on a trailing twelve month basis, to not be less than \$0 by December 31, 2024, which date is the result of the original determination date on June 30, 2024 being extended by two fiscal quarters pursuant to contractual terms (the "EBITDA Financial Covenant"). The commencement of the EBITDA Financial Covenant may be further delayed by one quarter for every additional \$25.0 million of net cash proceeds received from qualified equity issuances. If we are unable to comply with these financial covenants, our creditors may accelerate the principal and interest on our primary corporate indebtedness to be immediately due and payable. As of March 31, 2024, debt subject to the these financial covenants totaled \$292.6 million with related accrued but unpaid interest of \$2.1 million.

As of September 30, 2023 March 31, 2024, we were in compliance with all financial covenants. However, there is uncertainty regarding our ability to comply with the EBITDA Financial Covenant for at least twelve months from the

issuance of these condensed consolidated financial statements. To address the potential future breach of the EBITDA Financial Covenant, we are executing on our business plan to improve operating results. Additionally, we are in active discussions with funding sources to have access to additional sources of qualified equity issuances in the event needed to extend the EBITDA Financial Covenant beyond December 31, 2024. Furthermore, we can request waivers from existing creditors to waive the EBITDA Financial Covenant to the extent necessary. We cannot provide assurances that we will be successful in improving operating results, obtaining new financing, and/or receiving waivers to the EBITDA Financial Covenant. Our inability to improve operating results, raise capital through debt qualified equity issuances, or equity financings or the lack of improvements in our operating results receive waivers may negatively impact our compliance with these the EBITDA Financial Covenant, which may have a material adverse impact on our financial covenants in future periods. condition. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern.

							84,541,731		
								\$ 17,283	

(1) - Holders have the right to exchange the warrants for a \$25 million cash payment on March 25, 2025.

(2) - Represents the bifurcated embedded derivative associated with the Convertible Notes due 2027's conversion option.

There were no significant changes in our liability-classified warrants and derivatives during the nine months ended September 30, 2023. During the three months ended March 31, 2024, we received notice from the holders of the FP Combination Warrants of their intent to exercise their right to redeem the FP Combination Warrants for \$25 million in cash on March 25, 2025.

Accordingly, we reclassified the \$22.2 million fair value of the FP Combination Warrants as of March 31, 2024 from warrant and derivative liabilities to accrued expenses and other current liabilities on the condensed consolidated balance sheets.

Equity-classified Warrants and Derivatives

As of **September 30, 2023** **March 31, 2024**, our equity-classified warrants and derivatives were comprised of the following:

Total equity- classified warrants and derivatives	70,168, 907				58,633,192			

There were no significant changes to our equity-classified warrants and derivatives during **nine** **three** months ended **September 30, 2023**, except as discussed below.

Registered Direct Offering

On May 30, 2023, we completed a registered direct offering (the “Registered Direct Offering”) with an institutional investor in which we received proceeds of approximately \$37.1 million for the sale and issuance of (i) 16 million shares of our common stock, (ii) 13 million warrants to purchase shares of our common stock at an exercise price of \$0.0001 (the “Pre-Funded Warrants”), and (iii) 29 million warrants to purchase shares of our common stock at an exercise price of \$1.43 (the “RDO Warrants”) March 31, 2024. In connection with the Registered Direct Offering, we incurred third-party issuance costs of \$4.5 million, inclusive of the \$1.5 million fair value recognized associated with 2 million warrants issued to purchase shares of our common stock at an exercise price of \$1.60 (the “Placement Agent Warrants”).

During the nine months ended September 30, 2023, all of the Pre-Funded Warrants were exercised.

Confidentially Marketed Public Offering

On September 21, 2023, we completed a confidentially marketed public offering (the “CMPO”) in which we received proceeds of approximately \$32.5 million for the sale and issuance of approximately (i) 11.7 million shares of our common stock, (ii) 11.5 million warrants to purchase shares of our common stock at an exercise price of \$0.0001 (the “CMPO Pre-Funded Warrants”), and (iii) 23.2 million warrants to purchase shares of our common stock at an exercise price of \$1.50 per share (the “CMPO Warrants”). In connection with the CMPO, we incurred third-party issuance costs of \$4.0 million, inclusive of the \$1.1 million fair value recognized associated with 1.6 million warrants issued to purchase shares of our common stock at an exercise price of \$1.75 (the “CMPO Placement Agent Warrants”).

Committed Equity Facility

On July 5, 2022, we entered into a common stock purchase agreement (the “Committed Equity Facility”) with an institutional investor giving us the right, but not the obligation, to sell to the investor over a 24-month period up to the lesser of (i) \$100 million of newly issued shares of our common stock and (ii) 27,500,000 shares of our common stock. The price per share of common stock sold by us is determined by reference to the volume weighted average price of our common stock as defined within the Committed Equity Facility less a 3% discount, subject to certain limitations and conditions. The total net proceeds that we will receive under the Committed Equity Facility will depend on the frequency and prices at which we sell common stock.

As of September 30, 2023, the remaining availability under the Committed Equity Facility was the lesser of 27,077,304 shares of common stock or \$98.2 million of proceeds from the sale and issuance of common stock. In connection with the CMPO, we are restricted from selling common stock under the Committed Equity Facility until after its expiration.

Dividends

We intend to retain future earnings, if any, for future operations, expansion, and debt repayment (if any) and there are no current plans to pay any cash dividends for the foreseeable future. In addition, our ability to pay dividends is limited by covenants of our existing and outstanding indebtedness and may be limited by covenants of any future indebtedness. There are no current restrictions in the covenants

of our existing and outstanding indebtedness on our wholly-owned subsidiaries from distributing earnings in the form of dividends, loans, or advances and through repayment of loans or advances to Terran Orbital Corporation.

Following the Tailwind Two Merger, our Our existing and outstanding indebtedness allows for the declaration and payment of dividends or prepayment of junior debt obligations in cash subject to certain limitations.

Other Material Cash Requirements

In addition to debt service requirements on our long-term debt and any payment obligations on our warrants and derivatives, we have certain short-term and long-term cash requirements under operating leases and certain other contractual obligations and commitments.

Operating Leases

Refer to Note 14 "Leases" to the condensed consolidated financial statements for further information regarding our operating leases.

Purchase Commitments

Our material cash requirements for purchases of goods or services entered into in the ordinary course of business, including purchase orders and contractual obligations, primarily relate to materials and services required to manufacture, assemble, integrate, and test satellites and satellite buses in connection with satisfying our customer contracts.

Refer to Note 12 "Commitments and Contingencies" to the condensed consolidated financial statements for further information regarding our purchase commitments.

Off-Balance Sheet Arrangements

As of September 30, 2023 March 31, 2024, we do not have any material off-balance sheet arrangements other than our equity-classified warrants and derivatives, which are discussed above. Our equity-classified warrants and derivatives are both indexed to and classified as equity under GAAP.

Cash Flow Analysis

The following table is a summary of our cash flow activity for the nine three months ended September 30, 2023 March 31, 2024 and 2022: 2023:

(in thousands)	Nine Months Ended September 30,			Three Months Ended March 31,		
	\$ Chang			\$ Change		
	2023	2022	e	2024	2023	\$ Change
Net cash used in operating activities	(96,2)	(54,1)	(42,0)	\$ (19)	\$ (33)	\$ 86)
Net cash used in investing activities	(18,4)	(15,0)	(3,44)	55)	13)	2)

Cash Flows from Operating Activities

The **increase** **decrease** in net cash used in operating activities was primarily due to an increase in **selling, general, and administrative expenses** and **outflows related to satisfying customer contracts and other working capital needs**, **cash received from customers** partially offset by an increase in **cash received from customers, vendor payments in support of our customer programs**. The remainder of the activity in net cash used in operating

30

activities is related to changes in assets and liabilities due to the volume and timing of other operating cash receipts and payments with respect to when the transactions are reflected in earnings.

Refer to the discussions above under "Results of Operations" for further details.

Cash Flows from Investing Activities

The increase in net **Net** cash used in investing activities was primarily driven by an increase in spending associated with the expansion of our manufacturing facilities and equipment in connection with our growth initiatives, partially offset by a decrease in outflows of \$6.7

39

million associated with the development of company-owned satellites as we are no longer developing our Earth observation constellation. remained relatively flat.

Cash Flows from Financing Activities

During the **nine** **three** months ended **September 30, 2023** **March 31, 2024**, net cash provided by used in financing activities primarily consisted of \$47.4 million of proceeds received allocated to the issuance of warrant and derivative instruments and \$22.2 million of proceeds received allocated to the issuance of common stock. These increases were partially offset by \$6.3 million **\$2.6 million** related to the repayment of long-term debt, inclusive of prepayments on finance leases, and \$5.3 million related to the payment of issuance costs related to our financing transactions. leases.

During the **nine** **three** months ended **September 30, 2022** **March 31, 2023**, net cash provided by used in financing activities primarily consisted of \$58.4 million of proceeds received from the Tailwind Two Merger and the PIPE Investment, \$42.2 million of proceeds received allocated to warrant and derivative instruments, \$36.9 million of proceeds received allocated to the issuance of debt, \$14.8 million of proceeds received allocated to the issuance of common stock in relation to our financing transactions, and \$1.8 million of proceeds received related to the issuance of common stock under the Committed Equity Facility. These increases were partially offset by \$45.7 million of payments of issuance costs related to our financing transactions and \$31.0 million related to the repayment of long-term debt. was not material.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Refer to the "Critical Accounting Policies and Estimates" section of "Terran Orbital's Management's Discussion and Analysis of Financial Condition and Results of Operations" in our **2022** **2023** Annual Report. There were no material changes to these policies and estimates during the **nine** **three** months ended **September 30, 2023** **March 31, 2024**.

ACCOUNTING PRONOUNCEMENTS

Refer to Note 1 "Organization and Summary of Significant Accounting Policies" to the condensed consolidated financial statements for further information about recent accounting pronouncements and adoptions.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q may constitute "forward-looking statements" for purposes of the federal securities laws. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange

Act. All statements, other than statements of present or historical fact included in this report, regarding Terran Orbital's future financial performance, as well as Terran Orbital's business strategy, future operations, financial position, estimated revenues, and losses, projected costs, earning outlooks, prospects, expectations, plans and objectives of management are forward-looking statements. When used in this report, the words "plan," "believe," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "project," "continue," "could," "may," "might," "will," "possible," "potential," "predict," "should," "would" and other similar words and expressions are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These forward-looking statements are based on management's current expectations, forecasts, assumptions, hopes, beliefs, intentions and strategies regarding future events and are based on currently available information as to the outcome and timing of future events. We caution you that these forward-looking statements are subject to all of the risks and uncertainties, most of which are difficult to predict and many of which are beyond our control, incident to our business.

These forward-looking statements are based on information available as of the date of this report, and current expectations, forecasts and assumptions, and involve a number of risks and uncertainties. There can be no assurance that future developments will be those that have been anticipated. Accordingly, forward-looking statements in this report should not be relied upon as representing our views as of any subsequent date, and we do not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date they were made, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

As a result of a number of known and unknown risks and uncertainties, Terran Orbital's actual results or performance may be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to:

- expectations regarding our strategies and future financial performance, including our future business plan: objectives, anticipated cost, timing and level of satellite orders and deliveries thereof, prospective performance commercial opportunities, the timing of obtaining regulatory approvals, the ability to finance our operations, research and development activities and capital expenditures, reliance on government contracts and a strategic cooperation agreement with a significant

40

customer, retention and expansion of our customer base, product and service offerings, pricing, marketing plan, operating

31

expenses, market trends, revenues, margins, liquidity, cash flows and uses of cash, capital expenditures, and ability to invest in growth initiatives;

- the timing and execution of our ongoing review of strategic alternatives, including resulting transactions, if any, any potential impacts on our performance related to such ongoing review of strategic alternatives;
- the ability to implement business plans, forecasts, and other expectations, and to identify and realize additional opportunities;
- risks associated with expansion into new and adjacent markets;
- anticipated timing, cost, financing, and development of our satellite manufacturing capabilities;
- increases in costs, which we may not be able to react to due to the nature of our U.S. Government contracts;
- the potential termination of U.S. Government contracts and subcontracts and the potential inability to recover termination costs;
- our ability to finance our operations, research and development activities, growth initiatives and capital expenditures;
- our expansion plans and opportunities;
- the general domestic and international economic, social and political environment, including the potential impact of volatile or higher inflation rates, interest rates, tax rates and unemployment rates, higher labor and healthcare costs, recessions and changes in laws, rules and regulations applicable to us, including procurement and import-export control;
- the costs and ultimate outcome of litigation matters, government investigations and other legal proceedings;
- the ability to maintain the listing of our common stock and publicly-traded warrants on the NYSE and the possibility of limited liquidity and trading of such securities;
- geopolitical risk (including as a result of the ongoing conflict between Russia and Ukraine, the conflict between Israel and Hamas, the relationship between China and the U.S. and other actual or anticipated military or political conflicts and changes in applicable laws or regulations);
- impacts of uncertain global economic conditions, including security threats, including cybersecurity and other industrial and physical security threats, and other disruptions;
- government investigations and audits;
- the possibility that we may be adversely affected by other economic, business, and/or competitive factors;
- substantial doubt about our ability to continue as a going concern;
- our ability to scale-up our manufacturing processes and facilities in order to meet the demands of our programs;
- certain of our existing customers' ability to sufficiently finance their operations and fund future installments of existing manufacturing contracts;
- certain of our existing customers' ability to maintain required regulatory approvals to conduct their business;
- that we have identified material weaknesses in our internal control over financial reporting which, if not corrected, could affect the reliability of our condensed consolidated financial statements;
- the possibility that the COVID-19 Pandemic, or another major disease, natural disaster, or threat to the physical security of our facilities or employees disrupts our business;
- supply chain disruptions, including delays, increased costs, and supplier quality control challenges;
- our ability to attract and retain qualified employees, including senior management and other key employees, technicians, engineers, and other professionals;

- our ability to achieve profitability and meet expectations regarding cash flow from operations and investments;
- our leverage and our ability to service cash debt payments and comply with debt maintenance covenants, including meeting minimum liquidity and operating profit covenants;
- our ability to access invested cash or cash equivalents upon failure of any financial institution we bank with;

32

- our ability to access, or ability to access on favorable terms, equity and debt capital markets and other funding sources that will be needed to fund operations and make investments in capital-intensive strategic initiatives including expansion and improvement of our manufacturing facilities and development of new lines of business;
- delays and costs associated with our business initiatives, whether due to changes in demand, lack of funding, delivery changes, or other conditions or circumstances; and
- the other risk factors disclosed in our filings with the SEC from time to time including, but not limited to, our Annual Report on Form 10-K filed March 23, 2023 and the prospectus dated April 18, 2023 (including the prospectus supplements dated May 24, 2023 and September 18, 2023) related to our Registration Statement on Form S-3, as amended (File No. 333-271093), which was declared effective by the SEC on April 18, 2023 April 1, 2024.

These forward-looking statements are based on our current expectations, plans, forecasts, assumptions, and beliefs concerning future developments and their potential effects. There can be no assurance that the future developments affecting us will be those that we have anticipated and we may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. New risk factors and uncertainties may emerge from time to time

41

and it is not possible to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. You should read this Quarterly Report on Form 10-Q with the understanding that our actual future results may be materially different from the expectations disclosed in the forward-looking statements we make. All forward-looking statements we make are qualified in their entirety by this cautionary statement. The forward-looking statements contained in this Quarterly Report on Form 10-Q are made as of the date of this report, and we do not assume any obligation to update any forward-looking statements to reflect events or circumstances after the date they were made, whether as a result of new information, future events or otherwise, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable to smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of **September 30, 2023** **March 31, 2024**. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective as the material weaknesses in our internal control over financial reporting that were previously reported in the **2022** **2023** Annual Report continued to exist as of **September 30, 2023** **March 31, 2024**. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. As a result, we performed additional analysis as deemed necessary to ensure that our condensed consolidated financial statements were prepared in accordance with GAAP. Accordingly, management believes that the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q present fairly in all material respects our financial position, results of operations, and cash flows for the periods presented.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the three months ended **September 30, 2023** **March 31, 2024** that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting, other than changes related to the remediation of material weaknesses as described below.

We are actively working to remediate our previously identified material weaknesses. These remediation measures are ongoing and include (i) hiring additional accounting and IT personnel to bolster our technical reporting, transactional accounting, internal controls, and IT capabilities; (ii) designing and implementing controls to formalize roles and review responsibilities and designing and implementing formal controls over segregation of duties; (iii) designing and implementing a formal risk assessment process to identify and evaluate changes in our business and the impact on our internal controls; (iv) designing and implementing controls to formally assess complex accounting transactions and other technical accounting and financial reporting matters; (v) designing and implementing formal processes, accounting policies, procedures, and controls supporting our financial close process, including completion of business performance reviews, creating standard balance sheet reconciliation templates, and journal entry controls; and (vi) designing and implementing IT general controls, including controls over change management, the review and update of user access rights and privileges, controls over data backups, and

controls over program development efforts. We ~~implemented a new~~ anticipate to implement additional modules and functionality to our enterprise resource planning system beginning on January 1, 2023 during 2024 that will assist in connection with our remediation efforts.

42

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

See Note 12 “Commitments and Contingencies” to the condensed consolidated financial statements under the heading “Litigation and Other Legal Matters” included in this Quarterly Report on Form 10-Q for legal proceedings and related matters.

ITEM 1A. RISK FACTORS.

In addition to the information set forth in this report, you should carefully consider the risks disclosed in our 2022 Annual Report, the prospectus dated April 18, 2023 (including the prospectus supplements dated May 24, 2023 and September 18, 2023) related to our Registration Statement on Form S-3, and other of our filings with the SEC. Except as set forth below, there ~~There~~ have been no material changes to the risk factors previously disclosed in Part I, Item 1A of the ~~2022~~ 2023 Annual Report. These risks and uncertainties described in our risk factors have the potential to materially affect our business, results of operations, financial condition, cash flows, projected results and future prospects. These risks are not exclusive and additional risks to which we are subject include the factors mentioned under “Forward-Looking Statements” and the risks described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Quarterly Report on Form 10-Q.

IF WE CANNOT REGAIN COMPLIANCE WITH THE NYSE’S CONTINUED LISTING REQUIREMENTS AND RULES, THE NYSE MAY DELIST OUR COMMON STOCK, WHICH COULD NEGATIVELY AFFECT OUR COMPANY, THE PRICE OF OUR COMMON STOCK AND OUR SHAREHOLDERS’ ABILITY TO SELL OUR COMMON STOCK.

On October 20, 2023, we received written notice from the NYSE that the average closing price of our shares of common stock was less than \$1.00 per share over a consecutive 30 trading-day period ended October 18, 2023, which is below the requirement for continued listing on the NYSE. In accordance with applicable NYSE procedures, we have notified the NYSE that we intend to cure the \$1.00 per share deficiency. Based on the applicable NYSE procedures, we have six months following the receipt of the NYSE’s notice to cure the deficiency and regain compliance. The NYSE’s notice has no immediate impact on the listing of our common stock, which will continue to trade on the NYSE subject to our continued

compliance with the other listing requirements of the NYSE. Our shares of common stock will continue to trade under the symbol "LLAP" but will have an added designation of ".BC" to indicate that the status of the common stock is "below compliance" with the NYSE continued listing standards. The ".BC" indicator will be removed at such time as we are deemed to be in compliance. We intend to explore available options to regain compliance, which may include, if necessary, effectuating a reverse stock split.

If our common stock ultimately were to be delisted for any reason, the liquidity of our common stock or warrants could be adversely affected and the market price of our common stock or warrants could decrease. Delisting could also adversely affect our security holders' ability to trade or obtain quotations on our securities because of lower trading volumes and transaction delays. These factors could contribute to lower prices and larger spreads in the bid and ask price for our securities. You may also not be able to resell your common stock or warrants at or above the price you paid for such securities or at all.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

We have not made any sales of unregistered equity securities that were not previously reported in a Quarterly Report on Form 10-Q or in a Current Report on Form 8-K.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

43 34

ITEM 6. EXHIBITS.

The exhibits listed on the accompanying Exhibit Index are filed/furnished or incorporated by reference as part of this report.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Terran Orbital Corporation (the "Company") on Form 10-Q for the period ending **September 30, 2023** **March 31, 2024** as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Marc H. Bell, Chairman and Chief Executive Officer, certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; ;
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result operations of the Company.

Date: **November 14, 2023** **May 14, 2024**
