UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended **September 30, 2023** **March 31, 2024**

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____
Commission File Number: **001-36532**

Sphere 3D Corp.

(Exact name of Registrant as specified in its charter)

Ontario, Canada

98-1220792

(State or other jurisdiction of incorporation or organization)

(IRS Employer Identification No.)

895 Don Mills Road, Bldg 2, Suite 900 **243 Tresser Blvd,**
17th Floor

M3C 1W3 06901

Toronto, Ontario Canada Stamford, CT

(Address of principal executive offices)

(Zip Code)

647 952-5049

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Shares	ANY	NASDAQ Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of **November 7, 2023** **May 3, 2024**, there were **14,355,336** **18,305,239** shares of the registrant's common shares outstanding.

Sphere 3D Corp.
Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Organization and Business

Sphere 3D Corp. was incorporated under the *Business Corporations Act (Ontario)* on May 2, 2007 as T.B. Mining Ventures Inc. On March 24, 2015, the Company completed a short-form amalgamation with a wholly-owned subsidiary. In connection with the short-form amalgamation, the Company changed its name to "Sphere 3D Corp." Any reference to the "Company", "Sphere 3D", "we", "our", "us", or similar terms refers to Sphere 3D Corp. and its subsidiaries. In January 2022, the Company commenced operations of its digital Bitcoin mining operation business and is dedicated to becoming a leading carbon-neutral Bitcoin mining company. leader in the Blockchain and Crypto Industry. The Company is establishing has established and plans to continue to grow an enterprise-scale mining operation through the procurement of next-generation mining equipment and partnering with experienced service providers. In addition, through December 28, 2023, the Company delivers delivered data management and desktop and application virtualization solutions through hybrid cloud, cloud and on premise implementations by its global reseller network. The On December 28, 2023, the Company achieves this through a combination of containerized applications, virtual desktops, virtual storage sold its service and physical hyper-converged platforms. The Company's products allow organizations to deploy a combination of public, private or hybrid cloud strategies while backing them up with the latest storage solutions. The Company's brands include product segment which included HVE ConneXions ("HVE") and Unified ConneXions ("UCX"). ConneXions.

Liquidity and Going Concern

The Company has recurring losses from operations and incurred a net loss of approximately \$14.6 million \$4.5 million for the nine three months ended September 30, 2023 March 31, 2024. Management has projected that based on our hashing rate at September 30, 2023 March 31, 2024, cash on hand may not be sufficient to allow the Company to continue operations beyond and there is substantial doubt about the next Company's ability to continue as a going concern within 12 months from the date of issuance of the financial statements are issued if we are unable to raise additional funding for operations. We expect our working capital needs to increase in the future as we continue to expand and enhance our operations. Our ability to raise additional funds for working capital through equity or debt financings or other sources may depend on the financial success of our then current business and successful implementation of our key strategic initiatives, financial, economic and market conditions and other factors, some of which are beyond our control. No assurance can be given that we will be successful in raising the required capital at a reasonable cost and at the required times, or at all. Further equity financings may have a dilutive effect on shareholders and any debt financing, if available, may require restrictions to be placed on our future financing and operating activities. We require additional capital and if we are unsuccessful in raising that capital at a reasonable cost and at the required times, or at all, we may not be able to continue our business operations in the cryptocurrency mining industry or we may be unable to advance our growth initiatives, either of which could adversely impact our business, financial condition and results of operations.

Significant changes from the Company's current forecasts, including but not limited to: (i) shortfalls from projected mining earning levels; (ii) increases in operating costs; (iii) fluctuations in the value of cryptocurrency; and (iv) inability to maintain compliance with the requirements of the NASDAQ Capital Market and/or inability to maintain listing with the NASDAQ Capital Market could have a material adverse impact on the Company's ability to access the level of funding necessary to continue its operations at current levels. If any of these events occurs or the Company is unable to generate sufficient cash from operations or financing sources, the Company may be forced to liquidate assets where possible and/or curtail, suspend or cease planned programs or operations generally or seek bankruptcy protection or be subject to an involuntary bankruptcy petition, any of which would have a material adverse effect on the Company's business, results of operations, financial position and liquidity.

These factors, among others, raise indicate there is substantial doubt that about the Company will be able Company's ability to continue as a going concern beyond the next within 12 months from the date of issuance of the financial statements are issued. statements. The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business and do not include any adjustments that might result from the outcome of this uncertainty.

Share Consolidation

On June 28, 2023, the Company filed Articles of Amendment to effect a share consolidation (also known as a reverse stock split) of its issued and outstanding common shares on a one-for-seven basis. The share consolidation became effective on June 28, 2023. All share and per share amounts have been restated for all periods presented to reflect the share consolidation.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The condensed consolidated financial statements of the Company have been prepared by management in accordance with accounting principles generally accepted in the United States of America ("GAAP"), applied on a basis consistent for all periods. Accordingly, they do not include all of the information and disclosures required by U.S. GAAP for a complete set of financial statements. These condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023, filed with the Securities and Exchange Commission on March 31, 2023 March 13, 2024. In the opinion of management, all adjustments of a normal recurring nature considered necessary for a fair presentation have been included. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year. These condensed consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany balances and transactions have been appropriately eliminated in consolidation.

Use of Estimates

The preparation of the condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Reclassifications

Certain prior period amounts have been reclassified for consistency with the current period presentation. The reclassifications did not have a material impact on the Company's condensed interim consolidated financial statements and related disclosures.

Foreign Currency Translation

The financial statements of the Company's foreign subsidiary, for which the functional currency is the local currency, is translated into U.S. dollars using the exchange rate at the consolidated balance sheet date for assets and liabilities and a weighted-average exchange rate during the year for revenue, expenses, gains and losses. Translation adjustments are recorded as accumulated other comprehensive income (loss) within shareholders' equity. Gains or losses from foreign currency transactions are recognized in the condensed consolidated statements of operations. Such transactions resulted in minimal gains or losses for both the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023.

Cash and Cash Equivalents

Highly liquid investments with insignificant interest rate risk and original maturities of three months or less, when purchased, are classified as cash equivalents. Cash equivalents are composed of money market funds. The Company maintains cash and cash equivalent balances with financial institutions that exceed federally insured limits. The Company has not experienced any losses related to these balances and believes credit risk to be minimal.

Restricted Cash Investment in Equity Securities

Restricted cash is cash held in a separate bank account with restrictions on withdrawal. The Company's restricted cash classified as current, is pledged as collateral for a standby letter investments are in publicly held equity securities which have readily determinable fair values. These equity investments are recorded at fair value with unrealized holding gains and losses recorded in other income or expense in the consolidated statement of credit used for the bonding purpose necessary for the Company to receive mining machines operations.

Digital Assets

Digital assets are included in current assets in the consolidated balance sheets due to the Company's ability to sell Bitcoin in a highly liquid marketplace and the sale of Bitcoin to fund operating expenses to support operations. Bitcoin held are accounted for as intangible assets with indefinite useful lives. The proceeds from the sale of Bitcoin are included within operating or investing activities in the consolidated statements of cash flows depending on the length of time the Bitcoin is held. The Company accounts adopted ASU 2023-08 effective January 1, 2024, which requires Bitcoin to be valued at fair value each reporting period with changes in fair value recorded in operating expenses in

the consolidated statements of operations. The fair value of Bitcoin is measured using the period-end closing price from the Company's principal market. When Bitcoin is sold, the gains and losses from such transactions are measured as the difference between the cash proceeds and the carrying basis of the Bitcoin as determined on a first in-first out ("FIFO") basis and are recorded within the same line item, Change in Fair Value of Bitcoin, in the consolidated statements of operations.

Prior to the adoption of ASU 2023-08, the Company accounted for its digital assets, primarily Bitcoins, Bitcoin, as indefinite-lived intangible assets. The digital assets are recorded at cost less impairment.

An impairment analysis is performed at each daily to determine if the fair value of Bitcoin was lower than the carrying value for Bitcoin until the Bitcoin was disposed of or until the end of the reporting period, whichever came first, or more frequently, when events or changes in circumstances occur indicating that it is more likely than not that the indefinite-lived asset is impaired. The fair value of digital assets is determined on a nonrecurring basis based on the lowest intraday quoted price on as reported in the active exchange(s) that the Company has determined as the Company's principal market for digital assets (Level 1 inputs). market. If the carrying value of the digital asset exceeds the fair value, based on the lowest price quoted in the active exchanges during the period, an impairment loss has occurred with respect to those digital assets in the amount equal to the difference between their carrying values and the price fair value determined.

Impairment losses are recognized in operating expenses in the consolidated statements of operations in the period in which the impairment is identified. The impaired digital assets are written down to their fair value at the time of impairment and this new cost basis will not be adjusted upward for any subsequent increase in fair value. Gains are not recorded until realized upon sale or disposition.

Digital assets awarded to the Company through its mining activities are included within operating activities on the accompanying consolidated statements of cash flows. The sales disposal of digital assets are included within operating activities in the accompanying condensed consolidated statements of cash flows and any realized gains or losses from such sales are included in operating costs and expenses in the condensed consolidated statements of operations. The Company accounts for its gains or losses in accordance with the first in first out (FIFO) method of accounting.

The following table presents the activities of the digital assets (in thousands):

Balance at January 1, 2023	\$ 1,695
Addition of digital assets	12,592
Digital assets sold for cash	(12,050)
Digital assets issued for services	(1,263)
Impairment loss	(549)
Balance at September 30, 2023	\$ 425

Allowance for Credit Losses

The Company's assessment of its allowance for credit losses requires it to incorporate considerations of historical information, current conditions and reasonable and supportable forecasts. The Company manages credit risk through review of available public company information. For the Company's note receivable, the Company has recorded an allowance for credit losses and elected to write off accrued interest receivables by reversing interest income.

Leases

The Company has entered into an operating lease for real estate. The lease has a contractual term of 5 years. The Company determines if an arrangement contains a lease at inception. Right of use ("ROU") assets and liabilities resulting from operating leases are included in property and equipment, other current liabilities and other non-current liabilities on our consolidated balance sheets. Operating lease ROU assets and liabilities are recognized based on the present value of the future minimum lease payments over the lease term at commencement date. As the leases typically do not provide an implicit rate, the Company uses the incremental borrowing rate based on the information available at commencement date in determining the discount rate to calculate the present value of future payments. The operating lease ROU asset may also include any lease payments made and exclude lease incentives and initial direct costs incurred. The Company's lease does not include options to extend the lease. Short-term leases with an initial term of 12 months or less are not recorded on the balance sheet. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term.

Property and Equipment

Property and equipment primarily consists of mining equipment and is stated at cost, including purchase price and all shipping and custom fees, and depreciated using the straight-line method over the estimated useful lives of the assets, generally five years.

The Company reviews the carrying amounts of property and equipment when events or changes in circumstances indicate the assets may not be recoverable. If any such indication exists, the fair value of the asset is estimated in order to determine the extent of the impairment loss, if any.

Intangible Assets

For intangible assets purchased in a business combination, the estimated fair values of the assets received are used to establish their recorded values. For intangible assets acquired in a non-monetary exchange, the estimated fair values of the assets transferred (or the estimated fair values of the assets received, if more clearly evident) are used to establish their recorded values. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value.

Purchased intangible assets **Supplier agreements** are amortized on a straight-line basis over their economic lives of 5 years **to 15 years** **for supplier agreements, six years for channel partner relationships, and seven years for customer relationships** as this method most closely reflects the pattern in which the economic benefits of the assets will be consumed.

The Company has purchased carbon credits. As it intends to use these carbon credits, the assets have been classified as intangible assets. When the carbon credit is used, it will be expensed as an operating expense.

Impairment of Intangible Assets

The Company performs regular reviews of intangible assets to determine if any event has occurred that may indicate that intangible assets with finite useful lives and other long-lived assets are potentially impaired. Triggering events for impairment reviews may be indicators such as adverse industry or economic trends, restructuring actions, lower projections of profitability, or a sustained decline in our market capitalization. Intangible assets are quantitatively assessed for impairment, if necessary, by comparing their estimated fair values to their carrying values. If the carrying value exceeds the fair value, the difference is recorded as an impairment.

Convertible Debt

The Company accounts for convertible debt in accordance with the applicable authoritative guidance and has elected to apply the fair value option. The convertible debt is reflected at fair value in the condensed consolidated balance sheets and changes in fair value are recorded in the condensed consolidated statements of operations as a fair value adjustment to the convertible debt each reporting period (with the portion of the change that results from a change in the instrument-specific credit risk recorded separately in other comprehensive income, if applicable). The Company expenses any issuance costs allocated to a freestanding or an embedded financial instrument that is subsequently measured at fair value through earnings as of the issuance date.

Warrant Liabilities

Warrant liabilities are for a common share purchase warrant issued in connection with the Company's convertible debt and warrants for shares of MEOA's common stock that are not indexed to its own stock. Warrants are presented as liabilities at fair value on the consolidated balance sheets. The warrants **warrant liabilities are subject to remeasurement at each balance sheet date and any change in fair value is recognized in interest income and other **expense, income, net**, in the consolidated statements of operations. The fair value of the warrants at December 31, 2022 issued in connection with MEOA's public offering were measured based on the listed market price of such warrants. The fair value of the LDA Warrant was measured using a Monte Carlo valuation model.**

Redeemable Non-controlling Interest

Redeemable non-controlling interest is interest in a subsidiary of the Company that are redeemable outside of the Company's control either for cash or other assets. This interest is classified as temporary equity and measured at the estimated redemption value at the end of each reporting period. The resulting increases or decreases in the estimated redemption amount are effected by corresponding charges to accumulated deficit.

Revenue Recognition

The Company accounts for revenue pursuant to ASU 2014-09, *Revenue from Contracts with Customers* and all the related amendments ("Topic 606"). Under Topic 606, an entity is required to recognize revenue to depict the transfer of promised goods or services to customers in

an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services, and contract consideration will be recognized on a "sell-in basis" or when control of the purchased goods or services transfer to the distributor.

The Company is engaged with digital asset mining pool operators to provide computing power to the mining pools. In exchange for providing computing power, the Company is entitled to **Full Pay Per Share ("FPPS")**, which is a fractional share of the fixed Bitcoin award the mining pool operator receives, **for successfully adding a block to the blockchain**, plus a fractional share of the transaction fees attached to that blockchain less net digital asset fees due to the mining pool operator over the measurement period, as applicable. The pay-outs received are based on the expected value from the block reward plus the transaction fee reward, regardless of whether the mining pool operator successfully records a block to the blockchain.

The Company's fractional share is based on the proportion of computing power the Company contributed to the mining pool operator to the total computing power contributed by all mining pool participants in solving the current algorithm. The contracts are terminable at any time by either party without compensation and the Company's enforceable right to compensation only begins when the Company starts providing computing power to the mining pool operator (which occurs daily at midnight Universal Time Coordinated ("UTC")). The contract arises at the point that the Company provides computing power to the mining pool operator, which is beginning contract day at midnight UTC (contract inception), as customer consumption is in tandem with daily earnings of delivery of the computing power. According to the customer contract, daily earnings are calculated from midnight-to-midnight UTC time, and the payout is made one hour later at 1:00 AM UTC time.

The Company satisfies its performance obligation over time with daily settlement in Bitcoin. The **transaction price** Company's performance is completed as it transfers the **fair value** computing power (hashrate computations) over-time (midnight to midnight) to the customer. The Company has full control of the digital asset mined, Bitcoin, being mining equipment utilized in the **fair value per** mining pool and if the **prevailing market rate** Company determines it will increase or decrease the processing power of its machines and/or fleet (i.e., for that digital asset on repairs or when power costs are excessive) the **date earned** computing power provided to the customer will be adjusted.

The transaction consideration the Company receives is noncash consideration in the form of Bitcoin, which the Company measures at fair value **on the date earned** which is not materially different from the fair value **at contract inception**. Fair value The noncash consideration is variable, since the amount of the Bitcoin received is determined using the spot price of the Bitcoin block reward earned depends on the **date earned**. amount of computing power contributed, the amount of transaction fees awarded and operator fees over the same period. The Company cannot determine, during the course of solving for a block, does not constrain this variable consideration because it is probable that a significant reversal in the amount of revenue is recognized from the contract will not probable and therefore revenue is recognized occur when the mining pool operator successfully places a block (by being uncertainty is subsequently resolved and recognizes the first to solve an algorithm) and noncash consideration on the Company receives confirmation of same day that control is transferred, which is the **consideration it will receive**, same day as contract inception.

Expenses associated with running the **digital asset** Bitcoin mining operations, such as **rent, hosting**, operating supplies, utilities and monitoring services are recorded as cost of revenues.

The Company also generates revenue from: (i) solutions for standalone storage and integrated hyper-converged storage; (ii) professional services; and (iii) warranty and customer services. The Company recognizes revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. To determine revenue recognition for contracts with customers the Company performs the following five steps: (i) identify the promised goods or services in the contract; (ii) identify the performance obligations in the contract, including whether they are distinct in the context of the contract; (iii) determine the transaction price, including the constraint on variable consideration; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the Company satisfies the performance obligations.

The majority of the Company's product and service revenue is recognized when performance obligations under the terms of a contract with a customer are satisfied at a point in time. These contracts are generally comprised of a single performance obligation to transfer products. Accordingly, the Company recognizes revenue when change of control has been transferred to the customer, generally at the time of shipment of products. The Company sells its products both directly to customers and through distributors generally under agreements with payment terms typically less than 45 days. Revenue on direct product sales, excluding sales to distributors, are not entitled to any specific right of return or price protection, except for any defective product that may be returned under our standard product warranty. Product sales to distribution customers that are subject to certain rights of return, stock rotation privileges and price protections, contain a component of "variable consideration." Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring products and is generally based upon a negotiated fixed price and is net of estimates for variable considerations.

For performance obligations related to warranty and customer services, such as extended product warranties, the Company transfers control and recognizes revenue on a time-elapsed basis. The performance obligations are satisfied as services are rendered typically on a stand-ready basis over the contract term, which is generally 12 months.

The Company also enters into revenue arrangements that may consist of multiple performance obligations of its product and service offerings such as for sales of hardware devices and extended warranty services. The Company allocates contract fees to the performance obligations on a relative stand-alone selling price basis. The Company determines the stand-alone selling price based on its normal pricing and discounting practices for the specific product and/or service when sold separately. When the Company is unable to establish the individual stand-alone price for all elements in an arrangement by reference to sold separately instances, the Company may estimate the stand-alone selling price of each performance obligation using a cost plus a margin approach, by reference to third party evidence of selling price, based on the Company's actual historical selling prices of similar items, or based on a combination of the aforementioned methodologies; whichever management believes provides the most reliable estimate of stand-alone selling price.

Extended Warranty

Separately priced extended on-site warranties and service contracts are offered for sale to customers on all product lines. Extended warranty and service contract revenue and recognized as service revenue over the period of the service agreement. The Company will typically apply the practical expedient to agreements wherein the period between transfer of any good or service in the contract and when the customer pays for that good or service is one year or less.

Research and Development Costs

Research and development expenses include payroll, employee benefits, share-based compensation expense, and other headcount-related expenses associated with product development. Research and development expenses also include third-party development and programming costs. Research and development expenses are charged to operating expenses as incurred when these expenditures relate to the Company's research and development efforts and have no alternative future uses.

Comprehensive Income (Loss)

Comprehensive income (loss) and its components encompass all changes in equity other than those arising from transactions with shareholders, including net loss and foreign currency translation adjustments, and is disclosed in a separate condensed consolidated statement of comprehensive loss.

Share-based Compensation

The Company accounts for share-based awards, and similar equity instruments, granted to employees, non-employee directors, and consultants in accordance with the authoritative guidance for share-based compensation. Share-based compensation award types may include stock options and restricted stock units ("RSUs") and restricted stock awards ("RSAs"). Share-based compensation expense is recognized on a straight-lined basis over the requisite service period (usually the vesting period) except for options with graded vesting which is recognized pursuant to an accelerated method. Forfeitures are recognized as a reduction in share-based compensation expense as they occur.

Non-controlling Interest

The Company accounts for its non-controlling interest in accordance with the authoritative guidance for consolidation which governs the accounting for and reporting of non-controlling interests ("NCIs") in partially owned consolidated subsidiaries and the loss of control of subsidiaries. Certain provisions of the guidance indicate, among other things, that NCIs be treated as a separate component of equity, not as a liability, that increases and decreases in the parent's ownership interest that leave control intact be treated as equity transactions rather than as step acquisitions or dilution gains or losses, and that losses of a partially owned consolidated subsidiary be allocated to the NCI even when such allocation might result in a deficit balance. The net income (loss) attributed to the NCI is separately designated in the accompanying consolidated statements of operations.

Segment Reporting

Operating segments are defined as components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker, or decision-making group, in deciding the method to allocate resources and assess performance. Through the period ended December 28, 2023, the Company had two operating segments. On December 28, 2023, the Company sold its service and product segment. At March 31, 2024, the Company has one operating segment and one reporting segment.

Recently Issued and Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB Financial Accounting Standards Board ("FASB") that are adopted by the Company as of the specified effective date. If not discussed, the Company believes that the impact of recently issued standards, which are not yet effective, will not have a material impact on the Company's consolidated financial statements upon adoption.

In June 2016, December 2023, the FASB issued Accounting Standards Update No. 2016-13, *Financial ASU 2023-09, Improvements to Income Tax Disclosures, Instruments - Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments ("ASU 2016-13")*. ASU 2016-13 amends the impairment model by requiring which requires more detailed income tax disclosures. The guidance requires entities to use disclose disaggregated information about their effective tax rate reconciliation as well as expanded information on income taxes paid by jurisdiction. The disclosure requirements will be applied on a forward-looking approach based prospective basis, with the option to apply them retrospectively. The standard is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is evaluating the disclosure requirements related to the new standard.

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires public entities with a single reportable segment to provide all the disclosures required by this standard and all existing segment disclosures in Topic 280 on expected losses an interim and annual basis, including new requirements to estimate credit losses for most financial assets and certain other instruments disclose significant segment expenses that are not measured regularly provided to the chief operating decision maker ("CODM") and included within the reported measure(s) of a segment's profit or loss, the amount and composition of any other segment items, the title and position of the CODM, and how the CODM uses the reported measure(s) of a segment's profit or loss to assess performance and decide how to allocate resources. The guidance is effective for annual periods beginning after December 15, 2023, and interim periods beginning after December 15, 2024, applied retrospectively with early adoption permitted. The Company is evaluating the impact of adoption of this standard on its consolidated financial statements and disclosures.

Recently Adopted Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-08, *Intangibles - Goodwill - and Other - Crypto Assets (Subtopic 350-60): Accounting For and Disclosure of Crypto Assets ("ASU 2023-08")*, which requires that an entity measure crypto assets at fair value through in the statement of financial position each reporting period and recognize changes from remeasurement in net income. Entities will no longer be permitted The amendments also require that an entity provide enhanced disclosures for both annual and interim reporting periods to consider provide investors with relevant information to analyze and assess the length exposure and risk of time that significant individual crypto asset holdings. In addition, fair value has been less than amortized measurement aligns the accounting required for holders of crypto assets with the accounting for entities that are subject to certain industry-specific guidance and eliminates the requirement to test those assets for impairment, thereby reducing the associated cost when evaluating when credit losses should be recognized. and complexity of applying the current guidance. The Company's digital assets are within the scope of the new guidance and the transition requires a cumulative-effect adjustment as of the beginning of the current fiscal year for any difference between the carrying amount of the Company's digital assets and fair value. Effective January 1, 2024, the Company early adopted ASU 2016-13 on January 1, 2023 on 2023-08 and recorded a modified retrospective basis which resulted in a \$3.8 million increase \$20,000 decrease to the opening balance of accumulated deficit representing the cumulative allowance for credit losses for the Company's note receivable, and an increase to digital assets.

In October 2021, the FASB issued Accounting Standards Update No. 2021-08, *Accounting for Contract Assets and Contract Liabilities from Contracts with Customers ("ASU 2021-08")*. ASU 2021-08 amends ASC 805 to require acquiring entities to apply Topic 606 to recognize and measure contract assets and contract liabilities in a business combination. The Company adopted the new standard beginning January 1, 2023, however it did not have an effect on its financial position, results of operations or cash flows.

3. Fair Value Measurements

The authoritative guidance for fair value measurements establishes a three tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

The Company's consolidated financial instruments include cash equivalents, accounts receivable, notes receivable, investment in equity securities, accounts payable, accrued liabilities, and warrant liabilities. Fair value estimates of these instruments are made at a specific point in time, based on relevant market information. These estimates may be subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. The carrying amount of cash equivalents, accounts receivable, notes receivable, accounts payable and accrued liabilities are generally considered to be representative of their respective fair values because of the short-term nature of those instruments.

The following tables provide a summary of the financial instruments assets and liabilities that are measured at fair value on a recurring basis (in thousands):

	September 30, 2023			
	Fair Value	Level 1	Level 2	Level 3
Warrant liabilities	\$ 221	\$ —	\$ —	\$ 221

	March 31, 2024			
	Fair Value	Level 1	Level 2	Level 3
Assets:				
Investment in equity securities	\$ 7,260	\$ 7,260	\$ —	\$ —
Bitcoin	127	127	—	—
Total	\$ 7,387	\$ 7,387	\$ —	\$ —
Liabilities:				
Warrant liabilities	\$ 76	\$ —	\$ —	\$ 76

	December 31, 2022			
	Fair Value	Level 1	Level 2	Level 3
Warrant liabilities	\$ 864	\$ 864	\$ —	\$ —

	December 31, 2023			
	Fair Value	Level 1	Level 2	Level 3
Liabilities:				
Warrant liabilities	\$ 205	\$ —	\$ —	\$ 205

The Company's investments are in publicly held equity securities which have readily determinable fair values. For the three months ended March 31, 2024, the Company recognized an unrealized loss of \$2.7 million, within other income (expense) in its consolidated statements of operations related to the fair value change of the investment in equity securities.

The fair value of the warrant liabilities was measured using a Black Scholes valuation model with the following assumptions:

	March 31,	
	2024	December 31, 2023
Common share price	\$ 1.57	\$ 3.47
Expected volatility	120.0 %	120.0 %
Risk-free interest rate	4.6 %	4.2 %

The following table presents the activities of warrant liabilities that are measured at fair value (in thousands):

Warrant liability as of January 1, 2023	January 1, 2024	\$ 864,205
Change in fair value MEOA warrant		(202)
Warrant liability as of March 31, 2023		662
Issuance of LDA warrant		976
Change in fair value MEOA warrant		(662)
Change in fair value LDA warrant		(397)
Warrant liability as of June 30, 2023	March 31, 2024	579
Retired LDA warrant		(248)
Change in fair value LDA warrant		(110)
Warrant liability as of September 30, 2023		\$ 221,76

Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

As discussed in Note 2, *Summary of Significant Accounting Policies*, to the Condensed Consolidated Financial Statements, the Company accounts for its bitcoin as indefinite-lived intangible assets, which are subject to impairment losses if the fair value of its bitcoin held decreases below their carrying value during the reporting period.

The Company's non-financial assets such as property and equipment and intangible assets are recorded at fair value when an impairment is recognized or at the time acquired in an asset acquisition or business combination measured using significant unobservable inputs (Level 3). As discussed in

4. Note 6 - Intangible Digital Assets, at September 30, 2023

The following table presents the activities of Bitcoin (in thousands):

Balance at January 1, 2024	\$ 986
Cumulative effect upon adoption of ASU 2023-08	20
Revenue recognized from Bitcoin mined	6,946
Proceeds from sale of Bitcoin	(8,055)
Bitcoin issued for services	(538)
Change in fair value of Bitcoin	768
Balance at March 31, 2024	\$ 127

The following table presents Bitcoin holdings (in thousands except for number of Bitcoin):

	March 31, 2024
Number of Bitcoin held	1.8
Carrying basis of Bitcoin	\$ 123

For the three months ended March 31, 2024, the Company recorded impairment charges associated with acquired intangible assets and reduced had \$0.7 million in realized gains on the carrying amount sale of such assets Bitcoin.

All additions of Bitcoin were the result of Bitcoin generated by the Company's Bitcoin Mining operations. All dispositions of Bitcoin were the result of sales on the open market to fund Company operations. The Company's Bitcoin holdings are not subject to sale restrictions and do

not serve as collateral for any agreements. As of March 31, 2024 and December 31, 2023, the impairment to their estimated fair value. Company held no other crypto currency.

4.5. Note Receivable

Rainmaker Promissory Note

In September 2020, the Company entered into a Senior Secured Convertible Promissory Note with Rainmaker Worldwide Inc. (the "Rainmaker Note"), pursuant to which the Company loaned Rainmaker Worldwide Inc. ("Rainmaker") the principal amount of \$3.1 million. The Rainmaker Note is secured as a registered lien under the Uniform Commercial Code and the Personal Property Security Act (Ontario) against the assets of Rainmaker and bears interest at the rate of 10.0% per annum. In March 2024, the Company and Rainmaker entered into Amendment No. 2 to the Rainmaker Note and the principal amount was revised to \$4.2 million and the due date was extended to July 14, 2024, at which time all principal and accrued interest accrued monthly and was due and payable in full on September 14, 2023, payable. The Company has the right, at any time, to convert all or any portion of the then outstanding and unpaid Rainmaker Note and interest into non-assessable shares of Rainmaker common stock, or any shares of capital stock or other securities of Rainmaker, at the conversion price as defined in the Rainmaker Note. The Rainmaker Note is secured as a registered lien under the Uniform Commercial Code and the Personal Property Security Act (Ontario) against the assets of Rainmaker.

On January 1, 2023, as a result of adopting ASU 2016-13, the Company recorded an allowance for credit losses of \$3.8 million and reversed accrued interest of \$0.1 million.

In September 2023, the Company and Rainmaker entered into Amendment No. 1. All amounts related to the Rainmaker Note and the due date was extended to March 14, 2024, at which time all principal and accrued interest is due and payable. All amounts have been fully reserved. As of September 30, 2023 and December 31, 2022, the Rainmaker Note balance, including accrued interest, was nil and \$3.8 million, respectively, reserved in prior periods.

5.6. Certain Balance Sheet Items

The following table summarizes other current assets (in thousands):

		September 30, 2023	December 31, 2022	
		March 31, 2024	March 31, 2024	December 31, 2023

Amortization expense for intangible assets was \$0.8 million and \$7.0 million during \$0.4 million for both the three months ended September 30, 2023 March 31, 2024 and 2022, respectively. Amortization expense for intangible assets was \$1.6 million and \$20.1 million during the nine months ended September 30, 2023 and 2022, respectively. Estimated amortization expense for intangible assets is expected to be approximately \$0.4 million \$1.1 million for the remainder of 2023 2024 and \$1.5 million, \$1.5 million, \$1.5 million, and \$0.1 million in fiscal 2024, 2025, 2026, and 2027, respectively.

Impairment of Intangible Assets

During the third quarter of 2023, adverse changes in the business climate indicated that an impairment triggering event occurred for one supplier agreement, and the Company determined the carrying value of the finite-lived intangible asset exceeded its estimated fair value. The Company compared the indicated fair value to the carrying value of its finite-lived asset, and as a result of the analysis, an impairment charge of \$1.2 million was recorded for the supplier agreement for the three and nine months ended September 30, 2023.

7. Investments

Special Purpose Acquisition Company

In April 2021, the Company sponsored a special purpose acquisition company ("SPAC"), Minority Equality Opportunities Acquisition Inc. ("MEOA"), through the Company's wholly owned subsidiary, Minority Equality Opportunities Acquisition Sponsor, LLC ("SPAC Sponsor"). MEOA's purpose is to focus initially on transactions with companies that are minority owned businesses. MEOA's IPO was completed on August 30, 2021. As of both September 30, 2023 and December 31, 2022, the Company held an aggregate of 3,162,500 shares of MEOA's Class B common stock.

On July 3, 2023, MEOA announced that it did not complete an initial business combination on or prior to June 30, 2023, the deadline by which it must have completed an initial business combination, and intends to dissolve and liquidate in accordance with the provisions of its amended charter. As of the close of business on July 3, 2023, MEOA's public shares were deemed cancelled and represent only the right to receive the redemption amount. MEOA instructed Continental Stock Transfer & Trust Company, the trustee of the trust account, to take all necessary actions to liquidate the securities held in the trust account. The redemption of MEOA's public shares was completed during the third quarter of 2023.

The SPAC Sponsor agreed to waive its redemption rights with respect to its outstanding Class B common stock issued prior to MEOA's initial public offering. There were no redemption rights or liquidating distributions with respect to MEOA's warrants, which expired worthless.

8. Convertible Debt

On April 17, 2023, the Company entered into a Securities Purchase Agreement (the "LDA Purchase Agreement") pursuant to which the Company issued to an investor, LDA Capital Limited (the "Investor"), a senior convertible promissory note having an aggregate principal amount of \$1.0 million (the "LDA Note"), as amended April 25, 2023, and a common share purchase warrant (the "LDA Warrant") to purchase up to 455,927 common shares of the Company (the "LDA Warrant Shares"). The Company received proceeds of approximately \$0.8 million, which were net of fees associated with the transaction, on April 18, 2023 (the "Closing Date"). The LDA Note matures 24 months after issuance, bears interest at a rate of 7.5% per annum and is convertible into the Company's common shares (the "Conversion Shares"), at the Investor's election, at an initial conversion price equal to the greater of (i) \$2.0832 per share, or (ii) 85% of the VWAPS (as defined in the LDA Note) during the trading five days prior to delivery of a conversion notice by the Investor, subject to adjustment for certain stock splits, stock combinations and dilutive share issuances.

On August 14, 2023, in accordance with the terms of the LDA Purchase Agreement prepayment option, the Company repaid the full amount of the LDA Note, including interest and fees, in the amount of \$1.3 million. As a result of the repayment, the Company redeemed from the holder of the LDA Warrant 40% of the then outstanding LDA Warrant, or 182,371 LDA Warrant Shares. At September 30, 2023, the balance of the LDA Note was nil. The Company recognized a loss on debt extinguishment of \$63,000 which is included in the consolidated statement of operations in interest income and other expense, net.

The LDA Warrant is exercisable at an initial exercise price of \$3.29 per share and expires three years from the date of issuance or earlier if the closing of a Fundamental Transaction occurs (defined as merger or consolidation, any sale of substantially all of the Company's assets, any tender offer or exchange offer pursuant to which common shareholders can tender or exchange their shares for other securities, cash or property, as well as any reclassification of common shares into other securities, cash or property). On the date that is six months from the date of issuance of the LDA Warrant, the exercise price will be adjusted to the lower of (i) \$3.29, and (ii) a price equal to 110% of the average of the VWAPS (as defined in the LDA Warrant) of the Company's common shares over five days of trading preceding such date. Additionally, the exercise price of the LDA Warrant is subject to adjustment for certain stock splits, stock combinations and dilutive share issuances. Pursuant to the terms of the LDA Purchase Agreement, the Company will reserve for issuance 200% of the maximum aggregate number of common shares as are issuable upon repayment or conversion in full of the LDA Note and exercise in full of the LDA Warrant at any time.

The LDA Warrant contains a contingent put option. In the event of a Fundamental Transaction, the Investor may, at the Investor's option, require the Company to purchase the LDA Warrant for an amount of cash equal to the Black Scholes value of the remaining unexercised portion of the warrant on the date of consummation of such Fundamental Transaction. The Company has recorded the warrant as a liability and will adjust the warrant liability to fair value each reporting period until settled.

On April 17, 2023, upon issuance of the LDA Note and LDA Warrant, which are accounted for as freestanding financial instruments, the Company determined that the aggregate fair value of \$2.0 million for the instruments issued exceeds the net proceeds received under the transaction. Accordingly, the excess of the fair value over the proceeds received of \$1.0 million was recognized as interest expense. The fair value of the LDA Warrant was measured using a Monte Carlo valuation model with the following assumptions:

	April 17, 2023	September 30, 2023
Common share price	\$ 2.98	\$ 1.33
Expected volatility	120.0 %	120.0 %
Risk-free interest rate	3.8 %	4.9%

9. Preferred Shares

Series H Preferred Shares

On October 1, 2021, the Company filed articles of amendment to create a series of preferred shares, being, an unlimited number of Series H Preferred Shares and to provide for the rights, privileges, restrictions and conditions attaching thereto. The Series H Preferred Shares are convertible provided (and only if and to the extent) that prior shareholder approval of the issuance of all Sphere 3D common shares issuable upon conversion of the Series H Preferred Shares has been obtained in accordance with the rules of the Nasdaq Stock Market, at any time from time to time, at the option of the holder thereof, into 142.857 Sphere 3D common shares for every Series H Preferred Share. Each holder of the Series H Preferred Shares, may, subject to prior shareholder approval, convert all or any part of the Series H Preferred Shares provided that after such conversion the common shares issuable, together with all the common shares held by the shareholder in the aggregate would not exceed 9.99% of the total number of outstanding common shares of the Company. Each Series H Preferred Share has a stated value of \$1,000. The Series H Preferred Shares are non-voting and do not accrue dividends. These features include, in the event of the liquidation, dissolution or winding-up of the Company, whether voluntary or involuntary, deemed liquidation or any other distribution of the assets of the Company among its shareholders for the purpose of winding-up its affairs, the Series H Preferred Shares shall entitle each of the holders thereof to receive an amount equal to the Series H subscription price per Series H Preferred Share, as defined in the agreement, to be paid before any amount is paid or any assets of the Company are distributed to the holders of its common shares.

In November 2022, the Company entered into the Modified Hertford Agreement. The Modified Hertford Agreement provides for certain resale restrictions applicable to the common shares that are issuable upon the conversion of the remaining Series H Preferred Shares during the two-year period ending on December 31, 2024, which are different from the restrictions contained in the Hertford Agreement, as well, commencing January 1, 2023 and terminating on December 31, 2023, holders of Series H Preferred Shares are permitted to (a) convert Series H Preferred Shares in an aggregate amount up to or equal to 3.0% of the aggregate number of Series H Preferred Shares outstanding on the first day of each such month and (b) sell the resulting number (and no greater number) of such converted common shares within such month. Commencing January 1, 2024 and terminating on December 31, 2024, holders of Series H Preferred Shares are permitted to (a) convert Series H Preferred Shares in an aggregate amount up to or equal to 10.0% of the aggregate number of Series H Preferred

Shares outstanding on the first day of each such month and (b) sell the resulting number (and no greater number) of such converted common shares within such month.

In August 2023, the Company entered into an Amended and Restated Agreement (the "Hertford Amendment") with Hertford Advisors Ltd. and certain other parties listed in the Hertford Amendment (together, the "Hertford Group"),

which amends and restates in its entirety the purchase agreement between the Company and Hertford Advisors Ltd. dated July 31, 2021, as modified by the amendment to such agreement dated November 7, 2022 (together, the "Original Hertford Agreement"). As an inducement to enter into the Hertford Amendment, the Company issued to Hertford 1,376 Series H Preferred Shares and 800,000 warrants with an aggregate fair value of \$1.0 million.

Pursuant to the Hertford ~~shall have the right to exchange~~ Amendment, Hertford exchanged 14,980 Series H Preferred Shares for Series H Preferred Shares held by other persons (the "Exchanged Series H Preferred Shares").

The Hertford Group shall not be permitted to sell more than that number of common shares equal to 20% of the previous trading day's volume for common shares traded on the principal exchange upon which the common shares are listed and, for any subsequent trading day, the shares sold by the Hertford Group on the previous trading day shall be excluded when calculating the day's volume. Beginning on January 1, 2025, provided that at no time the Hertford Group shall any recipient of Exchanged not be prohibited, restrained or otherwise limited from converting its Series H Preferred Shares be permitted to convert or selling any common shares converted from Series H Preferred Shares, that, when aggregated with any common shares beneficially owned by subject to applicable laws, exchange requirements and the recipient of Exchanged Series H Preferred Shares prior to such conversion, would result in exceeding 9.99% of the common shares outstanding immediately after giving effect to such conversion.

The offer terms and sale conditions of the Series H Preferred Shares and the warrants have not been registered under the Securities Act and may not be offered or sold in the United States in the absence of an effective registration statement or exemption from the registration requirements, and in each case in compliance with applicable state securities laws. Shares.

In August 2023, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") pursuant to which the Company issued to two investors a total of 13,764 of the Company's Series H Preferred Shares and a total of 1,966,293 common share purchase warrants (the "Warrants"), each of which entitled the holder to purchase one common share of the Company (the "Warrant Shares"). Pursuant to the terms of the Purchase Agreement, the Company received gross proceeds of \$3.0 million. The Company issued a total of 1,377 Series H Preferred Shares and 196,629 warrants as a finder's fee for the transaction with an aggregate fair value of \$0.5 million.

Pursuant to the terms of the Purchase Agreement, the Company will reserve for issuance the maximum aggregate number of common shares that are issuable upon exercise in full of the Warrants at any time.

The Warrants issued in connection with the Hertford ~~Agreement~~ Amendment and the Purchase Agreement are exercisable beginning February 12, 2024 and February 23, 2024, respectively, at an initial exercise price of \$2.75 per share and have a term of three years from the date of issuance. The exercise price of the Warrants are subject to adjustment for certain stock splits, stock combinations and dilutive share issuances.

In accordance with the authoritative guidance for distinguishing liabilities from equity, the Company has determined that its Series H preferred shares carry certain redemption features beyond the control of the Company. Accordingly, the Series H Preferred Shares are presented as temporary equity. During For the ~~nine~~ three months ended September 30, 2023, March 31, 2024 and 2023, the Company issued 4,130,419 2,422,710 and 748,427 common shares for the conversion of 28,913 16,959 and 5,239 Series H Preferred Shares, respectively.

10.9. Share Capital

On June 28, 2023 April 17, 2023, the Company filed an Articles of Amendment entered into a Securities Purchase Agreement (the "LDA Purchase Agreement") as amended April 25, 2023, pursuant to effect a share consolidation (also known as a reverse stock split) of its issued and outstanding common shares on a one-for-seven basis. The share consolidation became effective on June 28, 2023. All share and per share amounts have been restated for all periods presented to reflect the share consolidation.

In April 2022, which the Company issued 192,857 unregistered to an investor, LDA Capital Limited (the "Investor") a common shares, with a fair value of \$1.7 million, to Bluesphere Ventures Inc. for the right to acquire up to 1,040,000 carbon credits. As of September 30, 2023, none of the carbon credits have been retired.

In March 2022, in connection with the Merger Agreement, the Company issued into escrow 121,428 common shares with a fair value of \$1.2 million. On April 4, 2022, the Merger Agreement with Gryphon Digital Mining, Inc. ("Gryphon") share purchase warrant (the "LDA Warrant") was terminated by the Company and the common shares were released to Gryphon as stated by the escrow agreement.

In February 2022, the Company issued 14,286 common shares and 42,858 warrants to purchase up to 42,858 455,927 common shares with of the Company (the "LDA Warrant Shares"). The LDA Warrant is exercisable at an exercise price of \$1.342 per share and expires three years from the date of issuance or earlier if the closing of a combined Fundamental Transaction occurs (defined as merger or consolidation, any sale of substantially all of the Company's assets, any tender offer or exchange offer pursuant to which common shareholders can tender or exchange their shares for other securities, cash or property, as well as any reclassification of common shares into other securities, cash or property). The exercise price of the LDA Warrant is subject to adjustment for certain stock splits, stock combinations and dilutive share issuances. Pursuant to the terms of the LDA Purchase Agreement, the Company will reserve for issuance 200% of the maximum aggregate number of common shares as are issuable upon exercise in full of the LDA Warrant at any time.

The LDA Warrant contains a contingent put option. In the event of a Fundamental Transaction, the Investor may, at the Investor's option, require the Company to purchase the LDA Warrant for an amount of cash equal to the Black Scholes value of the remaining unexercised portion of the warrant on the date of consummation of such Fundamental Transaction. The Company has recorded the warrant as a liability and will adjust the warrant liability to fair value of \$0.7 million to PGP Capital Advisors for financial advisory services provided.

each reporting period until settled.

Unlimited authorized shares of common shares at no par value are available to the Company. At September 30, 2023 March 31, 2024, the Company had the following outstanding warrants to purchase common shares:

Date issued	Date issued	Contractual		Exercise		Number		Contractual	Exercise	Number		Expiration
		life (years)	price	outstanding	Expiration	Date issued	outstanding			outstanding	price	
July 2021	July 2021	3	\$28.00	285,716	December 22, 2024	July 2021	3	\$28.00	285,716	December 22, 2024	\$28.00	December 22, 2024

11.10. Equity Incentive Plans

Stock Options

The fair value of option awards are estimated on the date of grant using the Black-Scholes option pricing model. Expected volatility was based on historical volatility of the Company's common shares. The expected term of options granted was based on the simplified formula. The risk-free interest rate was based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant. The dividend yield assumption was based on the expectation of no future dividend payments.

Option awards can be granted for a maximum term of up to 10 years. The assumptions used in the Black-Scholes model were as follows:

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2023	2022	2023	2022
Expected volatility				
Expected volatility				
Expected volatility	Expected volatility	81.8%	—	81.8-84.0%

Forfeited	(14,364)	\$ 20.36		
Options outstanding — September 30, 2023	485,241	\$ 5.66	4.0	\$ —
Vested and expected to vest — September 30, 2023	485,241	\$ 5.66	4.0	\$ —
Exercisable — September 30, 2023	234,184	\$ 6.83	2.8	\$ —

	Shares Subject to Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (years)		Aggregate Intrinsic Value (in thousands)
			Weighted- Average	Remaining	
			Exercise Price	Contractual Term (years)	
Options outstanding — January 1, 2024	395,241	\$ 6.34			
Granted	246,150	\$ 2.65			
Exercised	—	\$ —			
Forfeited	—	\$ —			
Options outstanding — March 31, 2024	641,391	\$ 4.92	4.8	\$ —	
Vested and expected to vest — March 31, 2024	641,391	\$ 4.92	4.8	\$ —	
Exercisable — March 31, 2024	325,599	\$ 5.39	4.2	\$ —	

The weighted average grant date fair values of options granted for the three months ended March 31, 2024 was \$2.05 per share. There were no options granted for the three months ended March 31, 2023.

Restricted Stock Units

The following table summarizes RSU activity:

	Number of Shares	Weighted Average	
		Grant Date Fair	Value
Outstanding — January 1, 2023	125,182	\$ 8.89	
Granted	454,697	\$ 2.89	
Vested and released	(111,873)	\$ 5.12	
Forfeited	(20,953)	\$ 6.78	
Outstanding — September 30, 2023	447,053	\$ 3.83	

	Number of Shares	Weighted Average	
		Grant Date Fair	Value
Outstanding — January 1, 2024	58,929	\$ 9.51	
Granted	1,249,942	\$ 1.94	
Forfeited	—	\$ —	
Outstanding — March 31, 2024	1,308,871	\$ 2.28	

Vested and unreleased — March 31, 2024	<u>385,000</u>	\$ 1.88
--	----------------	---------

The estimated fair value of RSUs was based on the market value of the Company's common shares on the date of grant. RSUs typically vest over a period of one to three years from the original date of grant. The total grant date fair value of RSUs vested during for the nine months ended September 30, 2023 March 31, 2024 and 2022 2023 was approximately \$0.6 \$0.7 million and \$3.4 million, \$59,000, respectively. The fair value of RSUs vested during for the nine months ended September 30, 2023 March 31, 2024 and 2022 2023 was approximately \$0.2 \$0.7 million and \$1.8 million, \$29,000, respectively.

The Company granted restricted stock awards ("RSAs") in lieu of cash payment for services performed. The estimated fair value of the RSAs was based on the market value of the Company's common shares on the date of grant. The Company granted fully vested RSAs of 44,450 with a fair value of \$64,000 during the nine months ended September 30, 2023. There were no RSAs granted during the nine months ended September 30, 2022.

Share-Based Compensation Expense

The Company recorded the following compensation expense related to its share-based compensation awards (in thousands):

	Three Months		Nine Months

12.11. Net Loss per Share

Basic net loss per share is computed by dividing net loss applicable to common shareholders by the weighted-average number of common shares outstanding **during** for the period. Preferred shares, outstanding common Common share purchase warrants, preferred shares issued and outstanding, and options and RSUs outstanding are considered common stock equivalents and are only included in the calculation of diluted earnings per common share when net income is reported and their effect is dilutive. For all periods presented, there is no difference in the number of shares used to calculate basic and diluted shares outstanding due to the Company's net loss position.

Anti-dilutive common share equivalents excluded from the computation of diluted net loss per share were as follows:

	Three Months Ended March 31,		Nine Months Ended September 30,		
	2023	2022	2023	2022	
Common share purchase warrants

------------------------------------	------------------------------------	---------	---------	---------	---------

13.12. Commitments and Contingencies

Service Agreements

On August 19, 2021 October 18, 2023, the Company entered into a Master Services Agreement with Gryphon (the "Gryphon MSA"). To provide greater certainty as to the term of the Gryphon MSA, on December 29, 2021, the Company and Gryphon entered into Amendment No. 1 to the Gryphon MSA (the "Gryphon MSA Amendment") which extended the initial term of the Gryphon MSA to five years, as the Company did not receive delivery of a specified minimum number of digital mining machines during 2022. Subject to written notice from the Company and an opportunity by Gryphon to cure for a period of up to 180 days, the Company shall be entitled to terminate the Gryphon MSA in the event of: (i) Gryphon's failure to perform the services under the Gryphon MSA in a professional and workmanlike manner in accordance with generally recognized digital mining industry standards for similar services, or (ii) Gryphon's gross negligence, fraud or willful misconduct in connection with performing the services. Gryphon shall be entitled to specific performance or termination for cause in the event of a breach by the Company, subject to written notice and an opportunity to cure for a period of up to 180 days. As consideration for the Gryphon MSA, Gryphon shall receive the equivalent of 22.5% of the net operating profit, as defined in the Gryphon MSA, of all of the Company's blockchain and digital currency related operations as a management fee. In addition, any costs Gryphon incurs on the Company's behalf are to be reimbursed to Gryphon as defined in the Gryphon MSA. The Company paid costs under this agreement of \$4.2 million and \$0.3 million during the three months ended September 30, 2023 and 2022, respectively. The Company paid costs under this agreement of \$8.1 million and \$1.1 million during the nine months ended September 30, 2023 and 2022, respectively.

On April 7, 2023, the Company filed litigation against Gryphon citing several breaches to the Gryphon MSA, including but not limited to, several fiduciary and operational breaches. On October 6, 2023, the Company terminated the Gryphon MSA.

On June 3, 2022, the Company entered into a Master Agreement with Compute North LLC (the "Compute North MA") for, the colocation, management and other services of certain of the Company's mining equipment. In September 2022, Compute North filed for Chapter 11 bankruptcy. In December 2022, the Compute North MA was assigned to GC Data Center Granbury, LLC (the "GC Data Center MA") and has a term of five years from such assignment date. Under the GC Data Center MA, the monthly service fee is payable based on the actual hashrate performance of the equipment per miner type per location as a percentage of the anticipated monthly hashrate per miner type. A deposit of \$0.5 million previously paid to Compute North for the last two months of monthly service fees was remitted to GC Data Center on behalf of the Company and is included in prepaid digital hosting services at September 30, 2023. During the three months ended September 30, 2023 and 2022, the Company incurred costs under the GC Data Center MA of \$1.1 million and nil, respectively. During the nine months ended September 30, 2023 and 2022, the Company incurred costs under the GC Data Center MA of \$3.6 million and nil, respectively. For the three and nine months ended September 30, 2023, \$1.1 million and \$1.9 million, respectively, of the costs incurred under the GC Data Center MA were paid through the Gryphon MSA and are included in the Gryphon MSA costs above.

On February 8, 2023, the Company entered into a Hosting Agreement with Lancium FS 25, LLC (the "Lancium Hosting Agreement") for rack space, network services, electrical connections, routine facility maintenance, and technical support of certain of the Company's mining equipment. The Lancium Hosting Agreement has a term of two years with subsequent one year renewal periods. During both the three and nine months ended September 30, 2023, the Company incurred costs under the Lancium Hosting Agreement of \$0.7 million and \$1.2 million, respectively. The costs incurred under the Lancium Hosting Agreement are paid through the Gryphon MSA and included in the Gryphon MSA costs above.

On April 4, 2023, the Company entered into a Master Hosting Services Agreement with Rebel Mining Company, LLC (the "Rebel Hosting Agreement") for rack space, network services, electrical connections, routine facility maintenance, and technical support of certain of the Company's mining equipment. The Rebel Hosting Agreement has a term of three years with subsequent one year renewal periods. As required by the Rebel Hosting Agreement, the Company paid deposits of \$2.6 million representing the last two months of estimated service fees. During the three and nine months ended September 30, 2023, the Company incurred costs under the Rebel Hosting Agreement of \$1.8 million and \$3.0 million, respectively. The costs incurred under the Rebel Hosting Agreement are paid through the Gryphon MSA and included in the Gryphon MSA costs above.

Digital Mining Hosting Sub-License

On October 5, 2021, the Company entered into a Sub-License and Delegation Agreement ("Hosting Sub-Lease") by and between Gryphon and the Company, which assigned to the Company certain Master Services Agreement, dated as of September 12, 2021 (the "Core Scientific MSA"), by and between Core Scientific, Inc. ("Core Scientific"), and Gryphon and Master Services Agreement Order #2 ("Order 2"). On December 29, 2021, the Company and Gryphon entered into Amendment No. 1 to the Sub-Lease Agreement (the "Sub-Lease Amendment") to provide Gryphon the right to recapture the usage of up to 50% of the hosting capacity to be managed by Core Scientific. The agreement allows for approximately 230 MW of net carbon neutral digital mining hosting capacity to be managed by Core Scientific as hosting partner. As part of the agreement, Core Scientific will provide digital mining fleet management and monitoring solution, Minder™, data analytics, alerting, monitoring, and miner management services. The Hosting Sub-Lease shall automatically terminate upon the termination of the Core Scientific MSA and/or Order 2 in accordance with their respective terms. On October 31, 2022, the Company filed an arbitration request against Core Scientific regarding the Hosting Sub-Lease. The Company has requested that certain advanced deposits paid be refunded back to it as a result of the modification to the Company's machine purchase agreement with FuFu Technology Limited (now Ethereal Tech Pte. Ltd.). In December 2022, Core Scientific filed Chapter 11 bankruptcy. The Company incurred costs under this agreement of \$0.2 million during both the three months ended September 30, 2023 and 2022. The Company incurred costs under this agreement of \$0.6 million and \$0.4 million during the nine months ended September 30, 2023 and 2022, respectively. The costs incurred under the Sub-Lease Amendment are paid through the Gryphon MSA and included in the Gryphon MSA costs above.

Underwriting Agreement

Subject to the terms of the underwriting agreement for MEOA's initial public offering, as amended on August 30, 2022, the underwriter is entitled to a deferred underwriting fee of \$4.6 million, which is recorded as deferred underwriting fee in the Company's consolidated balance sheets.

Letters of credit

During the ordinary course of business, the Company provides standby letters of credit to third parties as required for certain transactions initiated by the Company. As of September 30, 2023, the Company has one outstanding standby letter of credit used for the bond necessary for the Company to receive mining machines.

Extended Warranty

Changes in the liability for deferred revenue associated with extended warranties and service contracts were as follows (in thousands):

	Deferred	Revenue
Liability at January 1, 2023	\$ 139	
Revenue recognized during the period	(72)	
Change in liability for warranties issued during the period	84	
Liability at September 30, 2023	\$ 151	
Current liability, included in other current liabilities	116	
Non-current liability, included in other non-current liabilities	35	
Liability at September 30, 2023	\$ 151	

Litigation

The Company is, from time to time, subject to claims and suits arising in the ordinary course of business. In the opinion of management, the ultimate resolution of such pending proceedings will not have a material effect on the Company's results of operations, financial position or cash flows.

14. Segment Information

The Company has two operating segments, (1) Digital Mining and (2) Service and Product. The segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance.

The Digital Mining segment generates revenue from the digital currency the Company earns through its bitcoin mining activities. The Company generates its digital mining revenue from two mining pool operators. The Company's revenue from digital mining is generated in the United States.

The Service and Product segment generates revenue from customer contracts for service and extended service contract and the sale of products related to the Company's data storage product line. The Company's revenue from service and product is generated in the United States.

Summary information by segment (in thousands):

14. Subsequent Events

Preferred Shares

In October 2023, the Company issued 133,142 common shares for the conversion of 932 Series H Preferred Shares.

Warrant

In October 2023, the Company adjusted the LDA Warrant exercise price from \$3.29 to \$1.342 pursuant to the terms in the LDA Purchase Agreement.

Service Agreement

In October 2023, the Company entered into a Hosting Agreement with Joshi Petroleum, LLC (the "Joshi Hosting Agreement") for rack space, network services, electrical connections, routine facility maintenance, and technical support of certain of the Company's mining equipment. The Joshi Hosting Agreement has an initial term of three years with subsequent one year renewal periods until either party provides written notice to the other party of its desire to avoid and given renewal term at least 30 days in advance of the conclusion of the prior initial term or renewal period. As required by the Rebel Joshi Hosting Agreement, the Company will pay paid a deposit of \$0.3 million representing the last two months of estimated service fees. For the three months ended March 31, 2024 and 2023, the Company incurred costs under the Joshi Hosting Agreement of \$0.4 million and nil, respectively.

On April 4, 2023, the Company entered into a Master Hosting Services Agreement with Rebel Mining Company, LLC (the "Rebel Hosting Agreement") for rack space, network services, electrical connections, routine facility maintenance, and technical support of certain of the Company's mining equipment. The Rebel Hosting Agreement has a term of three years with subsequent one year renewal periods. As required by the Rebel Hosting Agreement, the Company paid deposits of \$2.6 million representing the last two months of estimated service fees. For the three months ended March 31, 2024 and 2023, the Company incurred costs under the Rebel Hosting Agreement of \$1.5 million and nil, respectively.

On February 8, 2023, the Company entered into a Hosting Agreement with Lancium FS 25, LLC (the "Lancium Hosting Agreement") for rack space, network services, electrical connections, routine facility maintenance, and technical support of certain of the Company's mining equipment. The Lancium Hosting Agreement has a term of two years with subsequent one year renewal periods. As required by the Lancium Hosting Agreement, the Company paid a deposit of \$0.2 million representing a partial payment towards the last two months of estimated service fees. For the three months ended March 31, 2024 and 2023, the Company incurred costs under the Lancium Hosting Agreement of \$0.8 million and nil, respectively.

In December 2022, the Compute North master agreement was assigned to GC Data Center Granbury, LLC (the "GC Data Center MA") and has a term of five years from such assignment date. Under the GC Data Center MA, the monthly service fee is payable based on the

actual hashrate performance of the equipment per miner type per location as a percentage of the anticipated monthly hashrate per miner type. As required by the service agreement, the Company paid a deposit of \$0.5 million representing the last two months of estimated service fees. In the first quarter of 2024, the GC Data Center MA was assumed by Marathon Digital Holdings and will be referred to as the Marathon MA going forward. The Company incurred costs under the Marathon MA of \$1.1 million for the three months ended March 31, 2024. The Company incurred costs under the GC Data Center MA of \$1.3 million for the three months ended March 31, 2023.

Hosting Sub-License

On October 5, 2021, the Company entered into a Sub-License and Delegation Agreement ("Hosting Sub-Lease") by and between Gryphon Digital Mining, Inc. ("Gryphon") and the Company, which assigned to the Company certain Master Services Agreement, dated as of September 12, 2021 (the "Core Scientific MSA"), by and between Core Scientific, Inc. ("Core Scientific"), and Gryphon and Master Services Agreement Order #2 ("Order 2"). The agreement allowed for approximately 230 MW of carbon neutral digital mining hosting capacity to be managed by Core Scientific as hosting partner.

On January 16, 2024, the Company reached a settlement agreement (the "Settlement Agreement") with Core Scientific, which was approved by a United States Bankruptcy Judge on January 16, 2024 as part of Core Scientific's emergence from bankruptcy, for \$10.0 million of Core Scientific's equity. The Settlement Agreement includes access to potential additional funds for interest as well as an additional equity pool if the value of Core Scientific's equity decreases below plan value in the 18 months after the date of the Settlement Agreement commensurate with the other unsecured creditors. On January 23, 2024, the Company received 2,050,982 shares of Core Scientific Inc. common stock trading under the Nasdaq symbol CORZ, which is included in investment in equity securities at March 31, 2024.

Letters of credit

During the ordinary course of business, the Company provides standby letters of credit to third parties as required for certain transactions initiated by the Company. As of March 31, 2024, the Company has no standby letters of credit outstanding.

Litigation

The Company is, from time to time, subject to claims and suits arising in the ordinary course of business. The Company cannot predict the final outcome of such proceedings. Where appropriate, the Company vigorously defends such claims, lawsuits and proceedings. Paid expenses related to the defense of such claims are recorded by the Company as incurred and paid. On the basis of current information, the Company does not believe there is a reasonable possibility that a material loss, if any, will result from any claims, lawsuits and proceedings to which the Company is subject to either individually, or in the aggregate.

On April 7, 2023, the Company filed a suit against Gryphon in the U.S. District Court for the Southern District of New York. The Company alleges, among other things, that Gryphon materially breached its obligations to the Company, both its contractual duties under the Gryphon Master Services Agreement (the "Gryphon MSA") dated August 19, 2021, and its fiduciary duties, including as a custodian of the Company's assets. On August 22, 2023, Gryphon asserted counterclaims alleging breach of contract, breach of the implied covenant of good faith and fair dealing, negligence in managing its computer systems, and defamation. On November 7, 2023, Gryphon voluntarily dismissed its defamation claim. Gryphon has amended its complaint several times, and on December 14, 2023, added a second breach of contract claim predicated on another alleged breach of the Gryphon MSA. On February 2, 2024, the Company filed a partial motion to dismiss the second breach of contract claim, the negligence claim, and the breach of the implied covenant claim for failure to state a claim. On February 16, 2024, the court so-ordered a stipulation agreed to by the parties dismissing the second breach of contract claim, the negligence claim, and the breach of the implied covenant claim with prejudice. The so-ordered stipulation expressly preserves the Company's ability to seek the recovery of its costs and attorney's fees incurred in connection with the dismissed claims. The Company disputes the allegations against it and intends to vigorously defend itself and to vigorously pursue its claims against Gryphon. At this preliminary stage, the Company believes that Gryphon's claims lack merit; however, because this litigation is still at this early stage, the Company cannot reasonably estimate the likelihood of an unfavorable outcome or the magnitude of such an outcome, if any.

On March 19, 2024, the Company filed a separate lawsuit against Gryphon in the U.S. District Court for the Southern District of New York. The Company alleged that Gryphon converted Sphere's certain digital assets after the termination of the Gryphon MSA. After the Company filed the lawsuit, Gryphon returned proceeds stemming from the sale of Bitcoin. The Company subsequently dismissed the suit without prejudice. In March 2024, the Company received \$1.5 million in proceeds from the sale of Bitcoin, which are included in the statements of cash flows within investing activities.

13. Segment Information

The Company had two operating segments, (1) Digital Mining and (2) Service and Product. The segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance. On December 28, 2023, the Company sold its Service and Product segment. As of March 31, 2024, the Company has one operating segment and one reporting segment.

The Digital Mining segment generates revenue from the digital currency the Company earns through its Bitcoin mining activities. The Company generates its digital mining revenue from two mining pool operators. The Company's revenue from digital mining is generated in the United States.

The Service and Product segment generated revenue from customer contracts for service and extended service contract and the sale of products related to the Company's data storage product line. The Company's revenue from service and product was generated in the United States.

Summary information by segment (in thousands):

Three months ended March 31, 2023	Digital Mining	Service and Product	Unallocated	Total Consolidated
Revenue	2,524	502	—	3,026
Segment gross profit	559	204	—	763
Segment loss from operations	109	(457)	(3,392)	(3,740)
Capital expenditures	1,561	—	—	1,561
Depreciation and amortization	985	14	26	1,025

Service and product had the following customers that represented more than 10% of segment revenue.

	Three Months Ended March 31,	
	2024	2023
Customer A	— %	23.7 %
Customer B	— %	14.9 %
Customer C	— %	10.9 %

14. Subsequent Events

Subsequent to March 31, 2024, the Company issued 423,570 common shares for the conversion of 2,965 Series H Preferred Shares.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following quarterly management's discussion and analysis ("MD&A") should be read in conjunction with our unaudited condensed consolidated financial statements and the accompanying notes of Sphere 3D Corp. (the "Company") for the three and nine months ended **September 30, 2023** **March 31, 2024**. The condensed consolidated financial statements have been presented in United States ("U.S.") dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Unless the context otherwise requires, any reference to the "Company," "Sphere 3D," "we," "our," "us" or similar terms refers to Sphere 3D Corp. and its subsidiaries. Unless otherwise indicated, all references to "\$" and "dollars" in this discussion and analysis mean U.S. dollars.

This report includes forward-looking statements that **involves are subject to** risks and uncertainties. This forward-looking information includes, but is not limited to, statements with respect to management's expectations regarding the future growth, results of operations, performance and business prospects of Sphere 3D. This forward-looking information relates to, among other things, future business plans and business planning process, uses of cash, and may also include other statements that are predictive in nature, or that depend upon or refer to future events or conditions. The words "could", "expects", "may", "will", "anticipates", "assumes", "intends", "plans", "believes", "estimates", "guidance", and similar expressions are intended to identify statements containing forward-looking information, although not all forward-looking statements include such words. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances contain forward-looking information. Statements containing forward-looking information are not historical facts but instead represent management's expectations, estimates and projections regarding future events.

Many factors could cause actual results, performance or achievements or future events or developments to differ materially from those expressed or implied by the forward-looking statements, including, but not limited to: the inability to maintain compliance with the requirements of the NASDAQ Capital Market and/or inability to maintain listing with the NASDAQ Capital Market; the impact of competition; the investment in technological innovation; the retention or maintenance of key personnel; the possibility of significant fluctuations in operating results; the ability of Sphere 3D to maintain business relationships; financial, political or economic conditions; financing risks; future acquisitions; the ability of Sphere 3D to protect its intellectual property; third party intellectual property rights; volatility in the market price for the common shares of the Company; compliance by Sphere 3D with financial reporting and other requirements as a public company; conflicts of interests; future sales of common shares by Sphere 3D's directors, officers and other shareholders; dilution and future sales of common shares. For more information on these risks, you should refer to the Company's filings with the securities regulatory authorities, including the Company's most recently filed Annual Report on Form 10-K, which is available on SEDAR at www.sedar.com and EDGAR at www.sec.gov. In evaluating such statements, we urge you to specifically consider various factors identified in this report, any of which could cause actual results to differ materially from those indicated by such forward-looking statements. Forward-looking statements speak only as of the date of this report and we undertake no obligation to publicly update any forward-looking statements to reflect new information, events or circumstances after the date of this report. Actual events or results may differ materially from such statements.

Share Consolidation

On June 28, 2023, we filed Articles of Amendment to effect a share consolidation (also known as a reverse stock split) of our issued and outstanding common shares on a 1-for-7 basis. The share consolidation became effective on June 28, 2023. All share and per share amounts have been restated for all periods presented to reflect the share consolidation.

Overview

Sphere 3D was incorporated under the *Business Corporations Act (Ontario)* on May 2, 2007 as T.B. Mining Ventures Inc. On March 24, 2015, we completed a short-form amalgamation with a wholly-owned subsidiary. In connection with the short-form amalgamation, we changed our name to "Sphere 3D Corp." Any reference to the "Company", "Sphere 3D", "we", "our", "us", or similar terms refers to Sphere 3D Corp. and its subsidiaries. In December 2014, we completed the acquisition of Overland Storage, Inc. ("Overland") to grow our business in the containerization and virtualization technologies along with data management products that enabled workload-optimized solutions. In November 2018, we sold our Overland business. In January 2022, we commenced operations of our digital mining operation business and are dedicated to becoming a leading carbon-neutral Bitcoin mining company. We are establishing have established and continue to grow an enterprise-scale mining operation through the procurement of next-generation mining equipment and partnering with experienced service providers.

Digital assets and blockchain

Bitcoin is a digital asset issued by and transmitted through an open source protocol maintained by a peer-to-peer network of decentralized user nodes. This network hosts a public transaction ledger blockchain where the digital assets and their corresponding transactions are recorded. The digital assets are stored in individual wallets with public addresses and a private key that controls access. The blockchain is updated without a single owner or operator of the network. New digital assets are generated and mined rewarding users after transactions are verified in the blockchain.

Digital assets and their corresponding markets emulate foreign exchange markets of fiat currencies, such as the U.S. dollar, where they can be exchanged to said fiat currencies trading exchanges. In addition to these exchanges, additional trading markets for digital assets exist, such as derivative markets.

Since the nature of digital assets is such that it exists solely in electronic form, they are exposed to risks similar to that of any data held solely in electronic form such as power failure, data corruption, cyber security attacks, protocol breaches, and user error, among others. Similar to data centers, these risks put the digital assets subject to the aforementioned threats which might not necessarily affect a physical fiat currency. In addition, blockchain relies on open source developers to maintain the digital asset protocols. Blockchain as such may be subject to design changes, governance disputes such as "forked" protocols, and other risks associated with open source software.

Digital currencies serve multiple purposes - a medium of exchange, store of value or unit of account. Examples of digital currencies include: bitcoin, bitcoin cash, Ethereum, and Litecoin. Digital currencies are decentralized currencies that facilitate instant transfers. Transactions occur on an open source platform using peer-to-peer direct technology with no single owner. Blockchain is a public transaction ledger where transactions occur, are recorded and tracked, however not owned nor managed by one single entity. Blockchain, accessible and open to all, contains records of all existing and historical transactions. All accounts on the blockchain have a unique public key and is secured with a private key that is only known to the individual. The combination of private and public keys results in a secure digital "fingerprint" which results in a strong control of ownership.

We believe cryptocurrencies have many advantages over traditional, physical fiat currencies, including immediate settlement, fraud deterrent as they are unable to be duplicated or counterfeited, lower fees, mass accessibility, decentralized nature, identity theft prevention, physical loss prevention, no counterparty risk, no intermediary facilitation, no arduous exchange rate implications and a strong confirmation transaction process.

Service and product

In addition to digital mining, through December 28, 2023, we provide network operations center ("NOC") services to our customers. NOC revenues are for monthly services performed for the customer that are performed either in-house or at the customer's site. We also delivered data management and desktop and application virtualization solutions through hybrid cloud, cloud and on-premise implementations by its reseller network. We achieved this through a combination of containerized applications, virtual desktops, virtual storage and physical hyper-converged platforms. Our products allow organizations to deploy a combination of public, private or hybrid cloud strategies while backing them up with the latest storage solutions. Our brands include On December 28, 2023, we sold our service and product segment which included HVE ConneXions ("HVE" and Unified ConneXions.

We owned approximately 13,530 miners as of March 31, 2024, of which approximately 12,488 were in service. We do not have scheduled downtime for our miners. We periodically perform both scheduled and unscheduled maintenance on our miners, but such downtime has not historically been significant. Depending on the type of repair, the miner may run at a reduced speed or be taken offline. We use multiple software programs to monitor the performance of our machines. The miners owned as of March 31, 2024 have a range of energy efficiency (joules per terahash – "J/t") of 21.5 to 38 J/t with an average energy efficiency of 28.4 J/t. The miner efficiency is an indication of how efficient we can earn Bitcoin and minimize cost to run the miner.

We obtain Bitcoin as a result of our mining operations, and we sell Bitcoin to support our operations and strategic growth. We do not currently plan to engage in regular trading of Bitcoin other than sales to convert our Bitcoin into U.S. dollars. Decisions to hold or sell Bitcoins are currently determined by management by analyzing forecasts and monitoring the market in real time. We have a hybrid treasury strategy to hold Bitcoin when possible, and sell to fund working capital requirements.

As of March 31, 2024, we held approximately 1.8 Bitcoin. The carrying value of our Bitcoin as of March 31, 2024 was \$0.1 million on our consolidated balance sheet. We account for our Bitcoin as indefinite-lived intangible assets. Effective January 1, 2024, we early adopted ASU 2023-08, *Intangibles - Goodwill - and Other - Crypto Assets (Subtopic 350-60): Accounting For and Disclosure of Crypto Assets* ("ASU 2023-08") and Unified ConneXions ("UCX").

Nasdaq Listing

On July 25, 2022, we received a notice \$20,000 decrease to the opening balance of accumulated deficit and an increase to digital assets. The new guidance requires Bitcoin to be valued at fair value each reporting period with changes in fair value recorded in operating expenses in the consolidated statement of operations. The fair value of Bitcoin is measured using the period-end closing price from the Nasdaq Listing Qualifications Department Company's principal market. When Bitcoin is sold, the gains and losses from such transactions are measured as the difference between the cash proceeds and the carrying basis of the Nasdaq Stock Market LLC Bitcoin as determined on a first-in-first-out ("Nasdaq" FIFO) basis and are recorded within the bid price same line item, Change in fair value of Bitcoin, in the consolidated statements of operations.

We are strategizing for our future growth by working on a plan to refresh a significant portion of our common stock for fleet with newer-generation machines to bolster efficiency. We expect this to lead to greater gross profits given that more efficient machines typically use less power and generate more Bitcoin. We expect to start the last 30 consecutive trading days had closed below process of removing the minimum \$1.00 per share required for continued listing under Listing Rule 5550(a)(2) (the "Listing Rule"). We had a period of 180 calendar days, or until January 23, 2023, to regain compliance with the Listing Rule.

On January 24, 2023, we received notification from Nasdaq indicating that we will have an additional 180-day grace period, or until July 24, 2023, to regain compliance with the Listing Rule's \$1.00 minimum bid requirement. The notification indicated that we did not regain compliance older machines during the initial 180-day grace period provided under second quarter of 2024 and to begin replacing them with newer generation machines, continuing in a phased approach over the Listing Rule. In accordance with Nasdaq Marketplace Rule 5810(c)(3)(A), we are eligible for the additional grace period because we meet the continued listing requirement for market value of publicly held shares and all other applicable requirements for initial listing on the Nasdaq Capital Market with the exception remainder of the bid price requirement, and our written notice to Nasdaq of our intentions to cure the deficiency by effecting a reverse stock split, if necessary, year.

On July 14, 2023, we received notification from Nasdaq indicating that we had regained compliance with the Listing Rule.

Investment in Special Purpose Acquisition Company

In April 2021, we sponsored a special purpose acquisition company ("SPAC"), Minority Equality Opportunities Acquisition Inc. ("MEOA"), through our wholly owned subsidiary, Minority Equality Opportunities Acquisition Sponsor, LLC ("SPAC Sponsor"). MEOA's purpose is to focus initially on transactions with companies that are minority owned businesses. On July 3, 2023, MEOA announced that it did not complete an initial business combination on or prior to June 30, 2023, the deadline by which it must have completed an initial business combination. As such, MEOA intends to dissolve and liquidate in accordance with the provisions of its amended charter. As of the close of business on July 3, 2023, MEOA's public shares were deemed cancelled and represented only the right to receive the redemption amount. MEOA instructed Continental Stock Transfer & Trust Company, the trustee of the trust account, to liquidate the securities held in the trust account. The redemption of MEOA's public shares was completed in the third quarter of 2023. We did not retain any proceeds from the trust account.

Recent Key Events

- On October 6, 2023 January 16, 2024, we reached a settlement agreement (the "Settlement Agreement") with Core Scientific, which was approved by a United States Bankruptcy Judge on January 16, 2024 as part of Core Scientific's emergence from bankruptcy, for \$10.0 million of Core Scientific's equity. The Settlement Agreement includes access to potential additional funds for interest as well as an additional equity pool if the Company terminated value of Core Scientific's equity decreases in the Master Services 18 months after the date of the Settlement Agreement commensurate with Gryphon Digital Mining, the other unsecured creditors. On January 23, 2024, we received 2,050,982 shares of Core Scientific Inc. common stock trading under the Nasdaq symbol CORZ.
- In March 2024, we received proceeds from the 21.6 Bitcoin that was outstanding at December 31, 2023.
- In the first nine months of 2023, 2024, we issued 4,130,419 2,422,710 common shares for the conversion of 28,913 16,959 Series H Preferred Shares. In October 2023, Subsequent to March 31, 2024, we issued 133,142 423,570 common shares for the conversion of 932 2,965 Series H Preferred Shares.

Results of Operations

The Third First Quarter of 2023 2024 Compared with the Third First Quarter of 2022 2023

Revenue

We generated revenues of \$5.7 million \$6.9 million and \$1.4 million \$3.0 million during the third first quarter of 2023 2024 and 2022, 2023, respectively. The \$4.3 million \$3.9 million increase in revenue is primarily due to an increase in revenues from our digital Bitcoin mining operation as additional miners were deployed, as well as the receipt of outstanding Bitcoin proceeds, which resulted in \$0.6 million of revenue not recognized in the prior year due to the uncertainty regarding when we would receive the Bitcoin.

On December 28, 2023, we sold our Service and Product segment. During the third first quarter of 2023, the majority 2024, all of our revenue was derived from digital currency Bitcoin mining.

Operating Expenses

Cost of Revenue

Direct cost of revenues during the third first quarter of 2024 and 2023 were \$4.3 million and 2022 were \$4.5 million and \$0.8 million \$2.3 million, respectively, representing an increase of \$3.7 million \$2.0 million primarily due to the increase in miners deployed related to our digital mining operation.

Sales and Marketing Expense

Sales and marketing expenses were \$0.2 million nil and \$0.3 million for both the third first quarter of 2024 and 2023, respectively. The decrease of \$0.3 million was due to the sale of our Service and Product segment in December 2023 and 2022, we no longer have sales and marketing expense.

Research and Development Expense

Research and development expenses were \$0.4 million nil and \$0.1 million \$0.3 million for the third first quarter of 2023 2024 and 2022, 2023, respectively. The increase decrease of \$0.3 million was primarily due to \$0.2 million the sale of severance costs our Service and additional employee Product segment in December 2023 and related expenses associated with internal projects. we no longer have research and development expense.

General and Administrative Expense

General and administrative expenses were \$3.4 million and \$2.9 million \$3.5 million for both the third first quarter of 2023 2024 and 2022, respectively. The increase of \$0.5 million 2023. While there was primarily due to no overall change in the comparative balances some increases and decreases to be noted are an increase of approximately \$0.4 million \$0.6 million in share-based compensation primarily related to awards to certain executives, and an increase of \$0.2 million for employee and related expenses primarily associated with executive bonuses. These increases were offset by decreases of \$0.3 million associated with outside services related to our expansion into the digital mining industry, \$0.2 million related to operating costs for our former special purpose acquisition company which no longer exists for 2024, and an aggregate \$0.2 million decrease in legal expenses fees associated with our digital mining operation and a slight increase in costs insurance cost primarily related to the formation and operating costs for our SPAC (MEOA). insurance.

Depreciation and Amortization Expense

Depreciation and amortization expense was \$2.0 million \$1.8 million and \$7.4 million \$1.0 million for the third first quarter of 2023 2024 and 2022, 2023, respectively. The decrease increase of \$5.4 million \$0.8 million was primarily due to fully amortized supplier agreements depreciation related to our digital mining machines.

Change in Fair Value of Bitcoin

Impairment Change in fair value of Acquired Intangible Assets

Impairment of acquired intangible assets Bitcoin was \$1.2 million \$0.8 million and nil for the third first quarter of 2024 and 2023, respectively. Effective January 1, 2024, we early adopted ASU 2023-08 and 2022, respectively. Due recorded a \$20,000 decrease to the opening balance of accumulated deficit and an adverse change increase to digital assets. The gain in the business climate which indicated that an impairment triggering event occurred for one supplier agreement, we determined the carrying value of the finite-lived intangible asset exceeded its estimated fair value.

Loss on Disposal of Property and Equipment

Loss on disposal of property and equipment was \$0.3 million and nil for the third first quarter of 2023 and 2022, respectively, and related to 2024 is the sale of mining equipment.

Impairment of Digital Assets

Impairment of digital assets was \$0.2 million and \$0.1 million for the third quarter of 2023 and 2022, respectively. The increase of \$0.1 million was due to impairment losses recognized on our digital assets. An impairment analysis is performed at each reporting period or more frequently, when events or changes in circumstances occur indicating that it is more likely than not that the digital asset is impaired. If the carrying value of the digital assets exceeds the fair value based on the lowest price quoted in the active exchanges during the period, an impairment loss has occurred with respect to those digital assets in the amount equal to the difference between their carrying values and the price determined.

Provision for Losses on Deposit for Mining Equipment

Provision for deposit on mining equipment was nil and \$10.0 million for the third quarter of 2023 and 2022, respectively. The decrease of \$10.0 million was due to a prior year provision made for a deposit we made to NuMiner Global, Inc. ("NuMiner") for the purchase of mining machines.

The First Nine Months of 2023 Compared with the First Nine Months of 2022

Revenue

We generated revenues of \$14.2 million and \$4.6 million during the first nine months of 2023 and 2022, respectively. The \$9.6 million increase in revenue is primarily due to the increase of \$9.9 million in revenues from our digital mining operation, offset by a decrease of \$0.3 million in product and service.

During the first nine months of 2023, the majority of our revenue was derived from digital currency mining.

Operating Expenses

Cost of Revenue

Direct cost of revenues during the first nine months of 2023 and 2022 were \$11.1 million and \$2.5 million, respectively, representing an increase of \$8.6 million primarily due to the increase in miners deployed related to our digital mining operation.

Sales and Marketing Expense

Sales and marketing expenses were \$0.8 million and \$0.7 million for the first nine months of 2023 and 2022, respectively.

Research and Development Expense

Research and development expenses were \$0.9 million and \$0.4 million for the first nine months of 2023 and 2022, respectively. The increase of \$0.5 million was primarily due to an increase of \$0.3 million in employee and related expenses associated with internal projects, and \$0.2 million due to severance costs.

General and Administrative Expense

General and administrative expenses were \$10.5 million and \$19.7 million for the first nine months of 2023 and 2022, respectively. The decrease of \$9.2 million was primarily due to a decrease of approximately \$6.0 million in share-based compensation related to awards, \$5.6 million was primarily associated with outside services related to our 2022 expansion into the digital mining industry, \$1.7 million for costs related to former proposed merger transactions that were terminated in 2022, \$0.4 million for employee and related expenses, and \$0.3 million in public relations expense. These decreases were offset by a prior year nonrecurring adjustment of \$1.5 million for a change in fair value of crypto asset payable, \$1.3 million for legal expenses associated with our digital mining operation, \$0.9 million related to formation of the Bitcoin held, as well as the gains and operating costs for our SPAC (MEOA), losses from when the Bitcoin was sold. Sale transactions are measured as the difference between the cash proceeds and the carrying basis of the Bitcoin as determined on a FIFO basis.

Realized Gain on Sale of Bitcoin

Realized gain on sale of Bitcoin was nil and \$0.6 million of additional insurance cost, \$0.2 million in director fees, and \$0.3 million in other costs.

Depreciation and Amortization Expense

Depreciation and amortization expense was \$4.4 million and \$21.3 million for the first nine months of 2024 and 2023, respectively. The first quarter of 2023 and 2022, respectively. The decrease of \$16.9 million was primarily due to fully amortized supplier agreements related to our digital mining machines, the sale of Bitcoin and the difference between the sales proceeds from the Bitcoin and the carrying amount. Typically gains are higher when Bitcoin prices are increasing over a holding period. Effective January 1, 2024, we early adopted ASU 2023-08, and in accordance with the new guidance we no longer report impairment of Bitcoin and realized gain on sale of Bitcoin separately. Instead, current period comparable information is reported in the line item Change in fair value of Bitcoin in the consolidated statement of operations.

Impairment of Acquired Intangible Assets Non-Operating Income and Expenses

Impairment of acquired intangible assets

Unrealized loss on investment in equity securities was \$1.2 million \$2.7 million and nil for the first nine months of 2024 and 2023, and 2022, respectively. Due to an adverse change in the business climate which indicated that an impairment triggering event occurred for one supplier agreement, we determined the carrying value of the finite-lived intangible asset exceeded its estimated fair value.

Loss on Disposal of Property and Equipment

Loss on disposal of property and equipment The loss was \$0.6 million and nil for the first nine months of 2023 and 2022, respectively, and related to the sale of mining equipment.

Impairment of Digital Assets

Impairment of digital assets was \$0.5 million and \$0.9 million for the first nine months of 2023 and 2022, respectively. The decrease of \$0.4 million was due to our equity investment in Core Scientific Inc., a reduction in impairment losses recognized on our digital assets. An impairment analysis is performed at each reporting period or more frequently, when events or changes in circumstances occur indicating that it is more likely than not that the digital asset is impaired. If the carrying value of the digital assets exceeds the fair value based on the lowest price quoted in the active exchanges during the period, an impairment loss has occurred with respect to those digital assets in the amount equal to the difference between their carrying values and the price determined by a publicly traded company.

Provision for Losses on Deposit for Mining Equipment

Provision for deposit on mining equipment was nil and \$10.0 million for the first nine months of 2023 and 2022, respectively. The decrease of \$10.0 million was due to a prior year provision made for a deposit we made to NuMiner Global, Inc. ("NuMiner") for the purchase of mining machines.

Forgiveness of Note Receivable

Forgiveness of note receivable was nil and \$13.1 million for the first nine months of 2023 and 2022, respectively. The decrease of \$13.1 million was due to the prior year forgiveness of our note receivable, including accrued interest, with Gryphon Digital Mining, Inc. ("Gryphon") which occurred when the Merger Agreement with Gryphon was terminated by us on April 4, 2022.

Impairment of Investments

Impairment of investments was nil and \$12.4 million for the first nine months of 2023 and 2022, respectively. The decrease of \$12.4 million was due to prior year impairment losses recognized on our Filecoiner investments. The fair value of these investments was impacted by the decrease in the price of Filecoin since the time of the investments resulting in an impairment.

Interest Expense

Interest expense was \$1.2 million and nil for the first nine months of 2023 and 2022, respectively. The first nine months of 2023 interest expense was primarily \$1.0 million for warrants issued with our LDA convertible debt and \$0.2 million of debt costs.

Interest Income and Other Expense, net

Interest income and other expense, net was \$1.5 million and \$0.7 million of income, net, for the first nine months of 2023 and 2022, respectively. The first nine months of 2023 interest income and other expense, net, primarily related to a \$1.1 million fair value adjustment for warrant liabilities, \$0.2 million for cancellation of warrant liabilities, and \$0.2 million in interest income from restricted funds held in trust. The first nine months of 2022 Interest income and other expense, net, related to \$0.5 million in interest income from notes receivable, and approximately \$0.2 million from management fees from a transition service agreement for our Snap Server product line.

Liquidity and Capital Resources

We have recurring losses from operations. Our primary source of cash flow is generated from digital Bitcoin mining revenue and service revenue. In addition, in the past we have financed our operations through proceeds from private and public sales of securities. At September 30, 2023 March 31, 2024, we had cash and cash equivalents of \$0.6 million \$2.1 million compared to cash and cash equivalents of \$1.3 million \$0.6 million at December 31, 2022 December 31, 2023. As of September 30, 2023 March 31, 2024, we had working capital deficit of \$1.5 million \$6.4 million reflecting a decrease of \$5.5 million \$1.8 million since December 31, 2022 December 31, 2023 primarily related to the \$2.7 million loss on our investment in equity securities offset by an increase in cash. Cash management continues to be a top priority. We expect to incur negative operating cash flows as we work to increase our digital Bitcoin mining revenue and maintain operational efficiencies.

On August 11, 2023, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") pursuant to which the Company issued to two investors a total of 13,764 of the Company's Series H Preferred Shares and a total of 1,966,293 common share purchase warrants, each of which entitled the holder to purchase one common share of the Company. Pursuant to the terms of the Purchase Agreement, the Company received gross proceeds of \$3.0 million. The Company issued a total of 1,377 Series H Preferred Shares and 196,629 warrants as a finder's fee for the transaction.

Management has projected that based on our hashing rate at September 30, 2023 March 31, 2024, cash on hand may not be sufficient to allow us to continue operations beyond and there is substantial doubt about the next Company's ability to continue as a going concern within 12 months from the date of issuance of the financial statements are issued if we are unable to raise additional funding for operations. We expect our working capital needs to increase in the future as we continue to expand and enhance our operations. Our ability to raise additional funds for working capital through equity or debt financings or other sources may depend on the financial success of our then current business and successful implementation of our key strategic initiatives, financial, economic and market conditions and other factors, some of which are beyond our control. No assurance can be given that we will be successful in raising the required capital at a reasonable cost and at the required times, or at all. Further equity financings may have a dilutive effect on shareholders and any debt financing, if available, may require restrictions to be placed on our future financing and operating activities. If we require additional capital and are unsuccessful in raising that capital at a reasonable cost and at the required time, or at all, we may not be able to continue our business operations in the cryptocurrency mining industry or we may be unable to advance our growth initiatives, either of which could adversely impact our business, financial condition and results of operations.

Significant changes from our current forecasts, including but not limited to: (i) shortfalls from projected mining earning levels; (ii) increases in operating costs; (iii) fluctuations in the value of cryptocurrency; and (iv) inability to maintain compliance with the requirements

of the NASDAQ Capital Market and/or inability to maintain listing with the

NASDAQ Capital Market could have a material adverse impact on our ability to access the level of funding necessary to continue our operations at current levels. If any of these events occurs or we are unable to generate sufficient cash from operations or financing sources, we may be forced to liquidate assets where possible and/or curtail, suspend or cease planned programs or operations generally or seek bankruptcy protection or be subject to an involuntary bankruptcy petition, any of, which would have a material adverse effect on our business, results of operations, financial position and liquidity.

These factors, among others, indicate there is substantial doubt about our ability to continue as a going concern within 12 months from the date of issuance of the financial statements. The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business and do not include any adjustments that might result from the outcome of this uncertainty.

The following table shows a summary of our cash flows (used in) provided by operating activities and investing activities (in thousands):

	Nine Months	
	Ended September 30,	
	2023	2022
Net cash used in operating activities	\$ (6,024)	\$ (28,106)
Net cash provided by (used in) investing activities	\$ 2,437	\$ (21,894)
Net cash provided by financing activities	\$ 2,859	\$ —

	Three Months	
	Ended March 31,	
	2024	2023
Net cash used in operating activities	\$ (58)	\$ (164)
Net cash provided by investing activities	\$ 1,522	\$ 1,540

Net cash used in operating activities. The use of cash during the first nine three months of 2023 2024 was primarily a result of our net loss of \$14.6 million \$4.5 million, offset by \$8.8 million \$5.3 million in non-cash items, which primarily included an unrealized loss on investment in equity securities, depreciation, amortization of intangible assets, depreciation, impairment of acquired intangible assets, share-based compensation expense, realized gain on sale of digital assets, share-based compensation expense, impairment change in fair value of digital assets, warrants Bitcoin, Bitcoin issued with convertible debt, for services, and change in fair value of warrant liabilities, and a loss on sale of property and equipment. liabilities.

Net cash provided by (used in) investing activities. During the first nine three months of 2024, we received \$1.5 million from proceeds from the sale of Bitcoin. During the first three months of 2023, we sold 2,925 2,066 miners originally included in mining equipment, for cash proceeds of \$4.1 \$3.1 million our SPAC received \$10.3 million from the redemption of the trust account and paid \$10.4 million for the redemption of the redeemable non-controlling interest related to MEOA, and we paid \$1.6 million towards digital asset mining machines and shipping costs. During the first nine months of 2022, we paid \$17.3 million towards digital asset mining machines and shipping costs for which delivery started in January 2022, we entered into promissory notes receivable with Gryphon and MEOA for \$2.5 million and \$1.8 million, respectively, and we purchased \$0.3 million of carbon credits for future use. The Gryphon note receivable was forgiven on April 4, 2022 upon termination of the Merger Agreement with Gryphon.

Net cash provided by financing activities. During the first nine months of 2023, we received \$3.0 million of proceeds from the issuance of preferred shares and warrants, \$0.8 million, net, from the issuance of a convertible note, and \$0.3 million from the exercise of stock options. These inflows were offset by \$1.3 million of payments made on our convertible debt which was paid in full in August 2023.

Off-Balance Sheet Information

During the ordinary course of business, we may provide standby letters of credit to third parties as required for certain transactions initiated by us. As of March 31, 2024, we have one outstanding no standby letter letters of credit used for the bond necessary for us to receive mining machines. At September 30, 2023, there was restricted cash of \$0.2 million pledged as collateral for the standby letter of credit outstanding.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations are based on our condensed consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. The preparation of our condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities.

We review our estimates on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

Our significant accounting policies are described in Note 2 to the consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023. The accounting estimates that are most critical to a full understanding and evaluation of our reported financial results are described in Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023. There were no material changes to our critical accounting estimates during the three months ended September 30, 2023 March 31, 2024.

Recent Accounting Pronouncements

See Refer to Note 2 - Summary of Significant Accounting Policies to our condensed consolidated financial statements for information for a discussion of recent accounting pronouncements and their effect, if any, on us.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rules 13a-15(e) or 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective to give reasonable assurance that information required to be publicly disclosed is recorded, processed, summarized, and reported on a timely basis as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2023 March 31, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is, from time to time, involved in legal proceedings, see Note 12. Commitments and Contingencies to time, subject to claims and suits arising in the ordinary course of business. In the opinion of management, the ultimate resolution of such pending proceedings will not have a material effect on the Company's results of operations, financial position or cash flows, our Consolidated Financial Statements.

Item 1A. Risk Factors.

An investment in our Company involves a high degree of risk. In addition to the risk factors and other information included or incorporated by reference to this report, you should carefully consider each of the risk factors described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023, which is available on SEDAR at www.sedar.com and EDGAR at www.sec.gov.

These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently consider immaterial may also impair our business operations. If any of the risks occur, our business and financial results could be harmed and the trading price of our common shares could decline.

Changing environmental regulation and public energy policy may expose our business to new risks.

Our Bitcoin mining operations require a substantial amount of power and can only be successful, and ultimately profitable, if the costs we incur, including for electricity, are lower than the revenue we generate from our operations. As a result, any mine we establish can only be successful if we can obtain sufficient electrical power for that mine on a cost-effective basis, and our establishment of new mines requires us to find locations where that is the case. For instance, our plans and strategic initiatives for expansion are based, in part, on our understanding of current environmental and energy regulations, policies, and initiatives enacted by federal, New York State and Georgia State regulators. If new regulations are imposed, or if existing regulations are modified, the assumptions we made underlying our plans and strategic initiatives may be inaccurate, and we may incur additional costs to adapt our planned business, if we are able to adapt at all, to such regulations.

In addition, there continues to be a lack of consistent climate legislation, which creates economic and regulatory uncertainty for our business because the Bitcoin mining industry, with its high energy demand, may become a target for future environmental and energy regulation. New legislation and increased regulation regarding climate change could impose significant costs on us and our suppliers, including costs related to increased energy requirements, capital equipment, environmental monitoring and reporting, and other costs to comply with such regulations. Further, any future climate change regulations could also negatively impact our ability to compete with companies situated in areas not subject to such limitations. For example, the recently passed legislation in the state of New York imposing a two-year moratorium on certain Bitcoin mining operations that run carbon-based power.

Given the political significance and uncertainty around the impact of climate change and how it should be addressed, we cannot predict how legislation and regulation will affect our financial condition and results of operations. Further, even without such regulation, increased awareness and any adverse publicity in the global marketplace about potential impacts on climate change by us or other companies in our industry could harm our reputation. Any of the foregoing could result in a material adverse effect on our business and financial condition.

Bitcoin mining activities are energy-intensive, which may restrict the geographic locations of miners and have a negative environmental impact. Government regulators may potentially restrict the ability of electricity suppliers to provide electricity to mining operations, such as ours, or even fully or partially ban mining operations.

Mining Bitcoin requires massive amounts of electrical power, and electricity costs are expected to account for a significant portion of our overall costs. The availability and cost of electricity will restrict the geographic locations of our mining activities. Any shortage of electricity supply or increase in electricity costs in any location where we plan to operate may negatively impact the viability and the expected economic return for Bitcoin mining activities in that location.

Further, our business model can only be successful and our mining operations can only be profitable if the costs, including electrical power costs, associated with Bitcoin mining are lower than the price of Bitcoin itself. As a result, any mining operation we establish can only be successful if we can obtain sufficient electrical power for that site on a cost-effective basis, and our establishment of new mining data centers requires us to find sites where that is the case. Even if our electrical power costs do not increase, significant fluctuations in, and any prolonged periods of, low Bitcoin prices may also cause our electrical supply to no longer be cost-effective.

Furthermore, there may be significant competition for suitable cryptocurrency mining sites, and government regulators, including local permitting officials, may potentially restrict our ability to set up cryptocurrency mining operations in certain locations. They can also restrict the ability of electricity suppliers to provide electricity to mining operations in times of electricity shortage, or may otherwise potentially restrict or prohibit the provision of electricity to mining operations. In addition, if cryptocurrency mining becomes more widespread, government scrutiny related to restrictions on cryptocurrency mining facilities and their energy consumption may significantly increase. The considerable consumption of electricity by mining operators may also have a negative environmental impact, including contribution to climate change, which could set the public opinion against allowing the use of electricity for Bitcoin mining activities or create a negative consumer sentiment and perception of Bitcoin, specifically, or cryptocurrencies, generally. This, in turn, could lead to governmental measures restricting or prohibiting cryptocurrency mining or the use of electricity for Bitcoin mining activities. Any such development in the jurisdictions where we plan to operate could increase our compliance burdens and have a material adverse effect on our business, prospects, financial condition, and operating results. Government regulators in other countries may also ban or substantially limit their local cryptocurrency mining activities, which could have a material effect on our supply chains for mining equipment or services and the price of Bitcoin. It could also increase our domestic competition as some of those cryptocurrency miners or new entrants in this market may consider moving their cryptocurrency mining operations or establishing new operations in the United States.

Additionally, our mining operations could be materially adversely affected by power outages and similar disruptions. Given the power requirements for our mining equipment, it would not be feasible to run this equipment on back-up power generators in the event of a government restriction on electricity or a power outage. If we are unable to receive adequate power supply and are forced to reduce our operations due to the availability or cost of electrical power, it would have a material adverse effect on our business, prospects, financial condition, and operating results.

As cryptocurrencies may be determined to be investment securities, we may inadvertently violate the Investment Company Act of 1940 and incur large losses as a result and potentially be required to register as an investment company or terminate operations and we may incur third-party liabilities.

In general, novel or unique assets such as Bitcoin and other digital assets may be classified as securities if they meet the definition of investment contracts under U.S. law. In recent years, the offer and sale of digital assets other than Bitcoin, most notably Kik Interactive Inc.'s Kin tokens and Telegram Group Inc.'s TON tokens, have been deemed to be investment contracts by the SEC. The SEC has also sued Genesis Global Capital LLC and Gemini Trust Company LLC over their crypto-lending program that allegedly violated investor-protection laws. While we believe that Bitcoin is unlikely to be considered an investment contract, and thus a security under the investment contract definition, we cannot provide any assurances that digital assets that we mine or otherwise acquire or hold for our own account, including Bitcoin, will never be classified as a security under U.S. law. Our determination that Bitcoin is not a security is a risk-based assessment, not a legal standard binding on any regulatory body or court, and such determination does not preclude legal or regulatory action. If Bitcoin were to be classified as a security under U.S. law, we would be obligated to comply with registration and other requirements by the SEC, which would cause us to incur significant, non-recurring expenses which would materially and adversely impact your investment.

We believe that we are not engaged in the business of investing, reinvesting, or trading in securities, and we do not hold ourself out as being engaged in those activities. However, under the Investment Company Act of 1940 (the "Investment Company Act"), a company may be deemed an investment company under section 3(a)(1)(C) thereof if the value of its investment securities is more than 40% of its total assets (exclusive of government securities and cash items) on an unconsolidated basis.

As a result of our investments and our mining activities, the investment securities we hold could exceed 40% of our total assets, exclusive of cash items and, accordingly, we could determine that we have become an inadvertent investment company. The cryptocurrency that we own, acquire or mine may be deemed an investment security by the SEC, and although we do not believe any of the cryptocurrency we own, acquire or mine are securities, any determination we make regarding whether crypto assets are securities is a risk-based assessment, not a legal standard binding on a regulatory body or court, and does not preclude legal or regulatory action. An inadvertent investment company can avoid being classified as an investment company if it can rely on one of the exclusions under the Investment Company Act. One such exclusion, Rule 3a-2 under the Investment Company Act, allows an inadvertent investment company a grace period of one year from the earlier of (a) the date on which an issuer owns securities and/or cash having a value exceeding 50% of the issuer's total assets on either a consolidated or unconsolidated basis and (b) the date on which an issuer owns or proposes to acquire investment securities having a value exceeding 40% of the value of such issuer's total assets (exclusive of government securities and cash items) on an unconsolidated basis. As of the date of this proxy statement/prospectus, we do not believe we are an inadvertent investment company. We may take actions to cause the investment securities held by us to be less than 40% of our total assets, which may include acquiring assets with our cash and cryptocurrency on hand or liquidating our investment securities or cryptocurrency or seeking a no-action letter from the SEC if we are unable to acquire sufficient assets or liquidate sufficient investment securities in a timely manner.

As the Rule 3a-2 exception is available to a company no more than once every three years, and assuming no other exclusion were available to us, we would have to keep within the 40% limit for at least three years after we cease being an inadvertent investment company. This may limit our ability to make certain investments or enter into joint ventures that could otherwise have a positive impact on our earnings. In any event, we do not intend to become an investment company engaged in the business of investing and trading securities.

Classification as an investment company under the Investment Company Act requires registration with the SEC. If an investment company fails to register, it would have to stop doing almost all business, and its contracts would become voidable. Registration is time consuming and restrictive and would require a restructuring of our operations, and we would be very constrained in the kind of business we could do as a registered investment company. Further, we would become subject to substantial regulation concerning management, operations, transactions with affiliated persons and portfolio composition, and would need to file reports under the Investment Company Act regime. The cost of such compliance would result in us incurring substantial additional expenses, and the failure to register if required would have a materially adverse impact to conduct our operations.

Regulatory changes or actions in one or more countries or jurisdictions may alter the nature of an investment in us or restrict the use of digital assets, such as cryptocurrencies, in a manner that adversely affects our business, prospects or operations.

As cryptocurrencies have grown in both popularity and market size, governments around the world have reacted differently, with certain governments deeming cryptocurrencies illegal, and others allowing their use and trade without restriction. In some jurisdictions, such as in the United States, digital assets, like cryptocurrencies, are subject to extensive regulatory requirements. Several countries have taken and may continue to take regulatory actions in the future that could severely restrict our right to mine, acquire, own, hold, sell or use cryptocurrency assets or to exchange for local currency. For example, in China and Russia, it is illegal to accept payment in Bitcoin and other cryptocurrencies for consumer transactions and banking institutions are barred from accepting deposits of cryptocurrencies.

Cryptocurrency is viewed differently by different regulatory and standards setting organizations globally as well as in the United States on the federal and state levels. For example, the Financial Action Task Force ("FATF") and the Internal Revenue Service ("IRS") consider a cryptocurrency as currency or an asset or property. Further, the IRS applies general tax principles that apply to property transactions to transactions involving virtual currency.

If regulatory changes or interpretations require the regulation of cryptocurrency under the securities laws of the United States or elsewhere, including the Securities Act of 1933, the Exchange Act and the 1940 Act or similar laws of other jurisdictions and interpretations by the SEC, the CFTC, the IRS, Department of Treasury or other agencies or authorities, we may be required to register and comply with such regulations, including at a state or local level. To the extent that we decide to continue operations, the required registrations and regulatory compliance steps may result in extraordinary expense or burdens to us. We may also decide to cease certain operations and change our business model. Any disruption of our operations in response to the changed regulatory circumstances may be at a time that is disadvantageous to us.

Current and future legislation and SEC rule making and other regulatory developments, including interpretations released by a regulatory authority, may impact the manner in which cryptocurrencies are viewed or treated for classification and clearing purposes. In particular, cryptocurrencies may not be excluded from the definition of "security" by SEC rule making or interpretation requiring registration of all transactions unless another exemption is available, including transacting in cryptocurrency among owners and require registration of trading platforms as "exchanges".

Due to concerns around resource consumption and associated environmental concerns, particularly as such concerns relate to public utilities companies, various countries, states and cities have implemented, or are considering implementing, moratoriums on Bitcoin mining in their jurisdictions. Such moratoriums would impede Bitcoin mining and/or Bitcoin use more broadly. For example, in November 2022, New York imposed a two-year moratorium on new proof-of-work mining permits at fossil fuel plants in the state. It is possible that other states may likewise create laws that could have a material adverse effect on our business, financial condition and results of operations.

We cannot be certain as to how future regulatory developments will impact the treatment of cryptocurrencies under the law. If we fail to comply with such additional regulatory and registration requirements, we may seek to cease certain of our operations or be subjected to fines, penalties and other governmental action. Such circumstances could have a material adverse effect on our ability to continue as a going concern or to pursue its business model at all, which could have a material adverse effect on its business, prospects or operations and potentially the value of any cryptocurrencies we plan to hold or expect to acquire for our own account.

Further significant disruptions in the crypto asset markets, such as those experienced in the second half of 2022, may cause further material impairment of the value and use of our miners.

During the fourth quarter of 2022, the per coin price of Bitcoin reached a low of approximately \$15,500 from a high of approximately \$64,500 a year earlier, in the fourth quarter of 2021. This decrease in the price of Bitcoin combined with the general market sentiment caused in large part by the FTX collapse and various Bitcoin company related bankruptcies and restructurings led to a material decline in the fair value of our miners and deposits for future miner purchases. Although the price of Bitcoin has recovered to previous levels, future decreases in the value of Bitcoin could cause us to experience increased losses or to record additional impairments in the value of these and future miner assets.

In addition, if Bitcoin prices dropped to levels below those experienced in 2022 and held at those levels for a significant period of time, it could impact our profitability to the point that we would have to consider whether there would be less diminution of value if we were to leave certain of our miners to idle until the price of Bitcoin recovered. Theoretically, there is a minimum Bitcoin price that is so low that we would want to turn off our miners. This is a complex projection involving multiple ever-changing, dynamic variables. We have multiple mining sites and hosting partners, all with different hosting prices, electricity prices, and contract structures. These costs, some fixed and some variable, would need to be compared to the current revenue being produced by the miners in order to make any such decision.

It may be illegal now, or in the future, to acquire, own, hold, sell, or use cryptocurrencies, participate in blockchains or utilize similar cryptocurrency assets in one or more countries, the ruling of which would adversely affect us.

As cryptocurrency has grown in both popularity and market size, governments around the world have reacted differently to cryptocurrency; certain governments have deemed them illegal, and others have allowed their use and trade without restriction, while in some jurisdictions, such as in the United States, subject to extensive and evolving regulatory requirements. Until recently, little, or no regulatory attention has been directed toward cryptocurrency by U.S. federal and state governments, foreign governments and self-regulatory agencies. As cryptocurrency has grown in popularity and in market size, the Federal Reserve Board, U.S. Congress, and certain U.S. agencies have begun to examine cryptocurrency in more detail.

One or more countries, including but not limited to China and Russia, which have taken harsh regulatory action in the past, may take regulatory actions in the future that could severely restrict the right to acquire, own, hold, sell, or use these cryptocurrency assets or to exchange for fiat currency. In many nations, particularly in China and Russia, it is illegal to accept payment in cryptocurrencies for consumer transactions and banking institutions are barred from accepting deposits of cryptocurrency. Such restrictions may adversely affect us as the large-scale use of cryptocurrency as a means of exchange is presently confined to certain regions globally. Such circumstances could have a material adverse effect on our ability to continue as a going concern or to pursue our strategy at all, which could have a material adverse effect on our business, prospects, or operations and potentially the value of any cryptocurrency that we mine or otherwise acquire or hold for our own account, and harm investors.

If the trading price of our common shares fails to comply with the continued listing requirements of the Nasdaq Capital Market, we would face possible delisting, which would result in a limited public market for our common shares and make obtaining future debt or equity financing more difficult for us.

Companies listed on the Nasdaq Capital Market are subject to delisting for, among other things, failure to maintain a minimum closing bid price of \$1.00 per share for 30 consecutive business days pursuant to Nasdaq Listing Rule 5550(a)(2) and 5810(c)(3)(A) (the "Nasdaq Listing Rules").

Although we believe that we are currently in compliance with Nasdaq Listing Rules, we were out of compliance with the Nasdaq Listing Rules in the recent past, and cannot guarantee that we will continue to comply with the Nasdaq Listing Rules for continued listing on the Nasdaq Capital Market in the future. If we cannot comply with the Nasdaq Listing Rules, our common shares would be subject to delisting and would likely trade on the over-the-counter market. If

our common shares were to trade on the over-the-counter market, selling our common shares could be more difficult because smaller quantities of shares would likely be bought and sold, transactions could be delayed, and security analysts' coverage of us may be reduced. In addition, broker-dealers have certain regulatory burdens imposed upon them, which may discourage broker-dealers from effecting transactions in our common shares, further limiting the liquidity of our common shares. As a result, the market price of our common shares may be depressed, and you may find it more difficult to sell our common shares. Such delisting from the Nasdaq Capital Market and continued or further declines in our share price could also greatly impair our ability to raise additional necessary capital through equity or debt financing.

Our business is dependent on a small number of digital asset mining equipment suppliers.

Our business is dependent upon digital asset mining equipment suppliers providing an adequate supply of new generation digital asset mining machines at economical prices to customers intending to purchase our hosting and other solutions. The growth in our business is directly related to increased demand for hosting services and cryptocurrency which is dependent in large part on the availability of new generation mining machines offered for sale at a price conducive to profitable digital asset mining, as well as the trading price of cryptocurrency. The market price and availability of new mining machines fluctuates with the price of cryptocurrencies and can be volatile. In addition, as more companies seek to enter the mining industry, the demand for machines may outpace supply and create mining machine equipment shortages. There are no assurances that cryptocurrency mining equipment suppliers will be able to keep pace with any surge in demand for mining equipment. We currently do not have an agreement with our suppliers to purchase additional machines, and therefore there is no guarantee that we will be able to purchase machines on terms acceptable to us. We intend to complete one or more financings to provide liquidity to purchase additional machines, at which point we expect to enter into an agreement with one or more machine suppliers in order to purchase additional machines, but there is no guarantee that we will do so. Further, manufacturing mining machine purchase contracts are not favorable to purchasers and even if we do enter into agreements with our suppliers, we may have little or no recourse in the event a mining machine manufacturer defaults on its mining machine delivery commitments. If we and our customers are not able to obtain a sufficient number of digital asset mining machines at favorable prices, our growth expectations, liquidity, financial condition and results of operations will be negatively impacted.

Mining machines rely on components and raw materials that may be subject to price fluctuations or shortages, including ASIC chips that have been subject to a significant shortage.

In order to build and sustain our self-mining operations we will depend on third parties to provide us with ASIC chips and other critical components for our mining equipment, which may be subject to price fluctuations or shortages. For example, the ASIC chip is the key component of a mining machine as it determines the efficiency of the device. The production of ASIC chips typically requires highly sophisticated silicon wafers, which currently only a small number of fabrication facilities, or wafer foundries, in the world are capable of producing. We believe that the previous microchip shortage that the entire industry experienced lead to price fluctuations and disruption in the supply of key miner components. Specifically, the ASIC chips have recently been subject to a significant price increases and shortages.

We do not currently have agreements in place for the supply of ASIC chips. There is a risk that a manufacturer or seller of ASIC chips or other necessary mining equipment may adjust the prices based on fluctuations in cryptocurrency prices or otherwise, and the cost of new machines could become unpredictable and extremely high. As a result, at times, we may be forced to obtain mining machines and other hardware at premium prices, to the extent they are even available. Such events could have a material adverse effect on our business, prospects, financial condition, and operating results.

Cryptocurrency may be subject to loss, theft, or restriction on access.

There is a risk that some or all of any cryptocurrency that we own could be lost or stolen. Cryptocurrencies are stored in cryptocurrency sites commonly referred to as "wallets" by holders of cryptocurrencies which may be accessed to exchange a holder's cryptocurrency assets. Access to our cryptocurrency assets could also be restricted by cybercrime (such as a denial of service attack) against a service at which we maintain a hosted hot wallet. A hot wallet refers to any cryptocurrency wallet that is connected to the Internet. Generally, hot wallets are easier to set up and access than wallets in cold storage, but they are also more susceptible to hackers and other technical vulnerabilities. Cold storage refers to any cryptocurrency wallet that is not connected to the Internet. Cold storage is generally more secure than hot storage, but is not ideal for quick or regular transactions and we may experience lag time in our ability to respond to market fluctuations in the price of our cryptocurrency assets. We expect to hold all our cryptocurrency in a combination of insured institutional custody services and multi signature cold storage wallets, and maintain secure backups to reduce the risk of malfeasance, but the risk of loss of our cryptocurrency assets cannot be wholly eliminated. Any restrictions on access to our hot wallet accounts due to cybercrime or other reasons could limit our ability to convert cryptocurrency to cash, potentially resulting in liquidity issues. Currently, we store our Bitcoin in wallets custodied by Bitgo and Coinbase (each, a "Custodian" and together, the "Custodians"). Such arrangements are governed by each Custodian's terms of service, and we do not have agreements with either Custodian other than such terms. When we decide to sell Bitcoin, we transfer it from our digital wallets held by the applicable Custodian to our trading account wallet, which is held by us. Certain transfers through Bitgo over a certain size require video conference verification to ensure that the request came from one of our authorized signors, and that we in fact authorized the transfer in question.

Hackers or malicious actors may launch attacks to steal, compromise or secure cryptocurrency. As we increase in size, we may become a more appealing target of hackers, malware, cyber-attacks, or other security threats. Any of these events may adversely affect our operations and, consequently, our investments and profitability. The loss or destruction of a private key required to access our digital wallets may be irreversible and we may be denied access for all time to our cryptocurrency holdings or the holdings of others held in those compromised wallets. Our loss of access to our private keys or a data loss relating to our digital wallets could adversely affect our investments and assets.

Cryptocurrencies are controllable only by the possessor of both the unique public and private keys relating to the local or online digital wallet in which they are held, which wallet's public key or address is reflected in the network's public blockchain. To the extent such private keys are lost, destroyed, or otherwise compromised, we will be unable to access our cryptocurrency rewards and such private keys may not be capable of being restored by any network. Any loss of private keys relating to digital wallets used to store our cryptocurrency could have a material adverse effect on our ability to continue as a going concern or to pursue our new strategy at all, which could have a material adverse effect on our business, prospects, or operations and potentially the value of any cryptocurrency that we mine or otherwise acquire or hold for our own account.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

Exhibit 4.3

AMENDMENT NO. 1

TO SENIOR SECURED CONVERTIBLE PROMISSORY NOTE

This AMENDMENT TO SENIOR SECURED CONVERTIBLE PROMISSORY NOTE (this "Amendment") is made and entered into as of September 14, 2023, by and among Sphere 3D Corp., an Ontario corporation (the "Holder"), and Rainmaker Worldwide Inc., a Nevada corporation ("Borrower") (together the "Parties").

RECITALS

- A. On September 14, 2020, the Parties entered into a Senior Secured Convertible Promissory Note (the "Note") in the principal amount of \$3,105,896.72 (the "Principal Amount") and a maturity date of September 14, 2023 (the "Maturity Date").
- B. The accrued and unpaid interest under the Note is \$918,154.10 (the "Unpaid Interest").
- C. The parties hereto desire to amend the Note as set forth herein.

AGREEMENT

NOW THEREFORE, in consideration of the foregoing recitals and the respective covenants, agreements, representations and warranties contained herein and in the Note, the Parties, intending to be legally bound, agree to amend the Note as follows:

1. **Definitions.** All capitalized terms used herein without definition shall have the meanings ascribed to them in the Note unless otherwise defined herein.
2. **Amendments.**
 - a. The Holder agrees to extend the Maturity Date to March 14, 2024.
 - b. The Unpaid Interest shall be added to the Principal Amount.
 - c. The Principal Amount shall be revised to \$4,024,050.82 (the "New Principal Amount"), comprised of:
 - Principal Amount of \$3,105,896.72; and

- the Unpaid Interest of \$918,154.10.

d. Interest on the New Principal Amount shall accrue at the rate of ten percent (10%) (the "Interest Rate") per annum from the date hereof and such amount becomes due and payable on the Maturity Date.

3. Effect of Amendment. Except as amended by this Amendment, the Note shall remain in full force and effect. No party shall be deemed to have waived the performance of any covenants in the Note except as expressly amended by this Amendment. In addition, if there are any inconsistencies between the Note and this Amendment, the terms of this Amendment shall prevail and control for all purposes.

4. Governing Law. This Amendment shall be construed in accordance with and governed by the Laws of the State of New York without giving effect to the principles of conflict of laws.

5. Counterparts. This Amendment may be executed in any number of counterparts, each of which shall be deemed an original regardless of the date of its execution and delivery. All such counterparts together shall constitute one and the same instrument.

[Signature page follows]

IN WITNESS WHEREOF, the parties have executed this Amendment as of the date first above written.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Patricia Trompeter, Chief Executive Officer of Sphere 3D Corp. certify that:

1. I have reviewed this quarterly report on Form 10-Q of Sphere 3D Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
