(NASDAQ & TASE: BWAY) (â€œBrainsWayâ€ or the â€œCompanyâ€), a global leader in the advanced non-invasive treatment of brain disorders, today announced recent positive pilot data from an independent, third-party study conducted at Stanford University evaluating an accelerated protocol using the Companyâ€™s Deep Transcranial Magnetic Stimulation (TMS) technology to treat alcohol use disorder (AUD) patients. The outcomes were reported in a publication in the Brain Stimulation journal entitled, â€œAccelerated deep TMS in alcohol use disorder: A preliminary pilot trial targeting the dorsal anterior cingulate cortex increases neural target engagement and abstinence.â€ The study compared outcomes achieved in a residential treatment program on a group of AUD patients treated with BrainsWayâ€™s H7-Coil (n=5) using an â€œacceleratedâ€ protocol of multiple sessions of Deep TMS per day over several days, with those achieved in a previously collected sample of data from patients in the same program (n=39) who had undergone other forms of treatment not involving Deep TMS. In the follow-up period after treatment, subjects receiving accelerated Deep TMS showed notably better improvements when compared to those treated by other means. The better outcomes were seen in several important areas, including lower percentages of heavy drinking days (3% v. 22%) and regular drinking days (15% v. 28%), as well as lower relapse rates (60% v. 74%). The study also reported neuroimaging MRI changes in brain activity and connectivity in areas of the brain implicated in addiction disorders and believed to be predictive of AUD relapse. Shortly following publication of the pilot study, the U.S. National Institutes of Health (NIH) awarded approximately \$1.5 million to the same research team to explore the efficacy of BrainsWay's proprietary Deep TMS system in treating substance use addictions, underscoring the possibility of utilizing Deep TMS as a noninvasive treatment modality within the broader addiction space. â€œAlcohol Use Disorder (AUD) affects millions worldwide, leading to significant personal and societal challenges,â€ said Hadar Levy, CEO of BrainsWay. â€œInnovative treatments are crucial to support long-term recovery. We believe these promising preliminary results pave the way for further research into the potential benefits of treating AUD and other addictions with Deep TMS.â€ BrainsWay Deep TMS is not currently cleared by the FDA for the safe or effective treatment of AUD. About BrainsWay BrainsWay is a global leader in advanced noninvasive neurostimulation treatments for mental health disorders. The Company is boldly advancing neuroscience with its proprietary Deep Transcranial Magnetic Stimulation (Deep TMSâ„¢) platform technology to improve health and transform lives. BrainsWay is the first and only TMS company to obtain three FDA-cleared indications backed by pivotal clinical studies demonstrating clinically proven efficacy. Current indications include major depressive disorder (including reduction of anxiety symptoms, commonly referred to as anxious depression), obsessive-compulsive disorder, and smoking addiction. The Company is dedicated to leading through superior science and building on its unparalleled body of clinical evidence. Additional clinical trials of Deep TMS in various psychiatric, neurological, and addiction disorders are underway. Founded in 2003, with operations in Israel and the U.S., BrainsWay is committed to increasing global awareness of and broad access to Deep TMS. Forward-Looking Statement This press release contains â€œforward-looking statementsâ€ within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may be preceded by the words â€œintends,â€ â€œmay,â€ â€œwill,â€ â€œplans,â€ â€œexpects,â€ â€œanticipates,â€ â€œprojects,â€ â€œpredicts,â€ â€œestimates,â€ â€œaims,â€ â€œbelieves,â€ â€œhopes,â€ â€œpotentialâ€ or similar words. These forward-looking statements and their implications are based on the current expectations of the management of the Company only and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. In addition, historical results or conclusions from scientific research and clinical studies do not guarantee that future results would suggest similar conclusions or that historical results referred to herein would be interpreted similarly in light of additional research or otherwise. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: inadequacy of financial resources to meet future capital requirements; changes in technology and market requirements; delays or obstacles in launching and/or successfully completing planned studies and clinical trials; failure to obtain approvals by regulatory agencies on the Companyâ€™s anticipated timeframe, or at all; inability to retain or attract key employees whose knowledge is essential to the development of Deep TMS products; unforeseen difficulties with Deep TMS products and processes, and/or inability to develop necessary enhancements; unexpected costs related to Deep TMS products; failure to obtain and maintain adequate protection of the Companyâ€™s intellectual property, including intellectual property licensed to the Company; the potential for product liability; changes in legislation and applicable rules and regulations; unfavorable market perception and acceptance of Deep TMS technology; inadequate or delays in reimbursement from third-party payers, including insurance companies and Medicare; inability to commercialize Deep TMS, including internationally, by the Company or through third-party distributors; product development by competitors; inability to timely develop and introduce new technologies, products and applications, which could cause the actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements. Any forward-looking statement in this press release speaks only as of the date of this press release. The Company undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws. More detailed information about the risks and uncertainties affecting the Company is contained under the heading â€œRisk
