EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended September 30, 2023March 31, 2024 of Brixmor Property Group Inc. and Brixmor Operating Partnership LP. Unless stated otherwise or the context otherwise requires, references to the “Parent Company”"Parent Company" or “BPG”"BPG" mean Brixmor Property Group Inc. and its consolidated subsidiaries, and references to the “Operating Partnership”"Operating Partnership" mean Brixmor Operating Partnership LP and its consolidated subsidiaries. Unless the context otherwise requires, the terms “the"the Company,” “Brixmor,” “we,” “our,”" "Brixmor," "we," "our," and “us”"us" mean the Parent Company and the Operating Partnership, collectively.

The Parent Company is a real estate investment trust (“REIT”("REIT") that owns 100% of the limited liability company interests of BPG Subsidiary LLC (“("BPG Sub” Sub"), which, in turn, is the sole member of Brixmor OP GP LLC (the “General Partner”"General Partner"), the sole general partner of the Operating Partnership. As of September 30, 2023March 31, 2024, the Parent Company beneficially owned, through its direct and indirect interest in BPG Sub and the General Partner, 100% of the outstanding partnership common units (the “OP Units”"OP Units") in the Operating Partnership.

The Company believes combining the quarterly reports on Form 10-Q of the Parent Company and the Operating Partnership into this single report:

- Enhances investors’ understanding of the Parent Company and the Operating Partnership by enabling investors to view the business as a whole, in the same manner as management views and operates the business;
- Eliminates duplicative disclosure and provides a more streamlined and readable presentation; and
- Creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates the Parent Company and the Operating Partnership as one business. Because the Operating Partnership is managed by the Parent Company, and the Parent Company conducts substantially all of its operations through the Operating Partnership, the Parent Company’s executive officers are the Operating Partnership’s executive officers, and although, as a partnership, the Operating Partnership does not have a board of directors, we refer to the Parent Company’s board of directors as the Operating Partnership’s board of directors.

We believe it is important to understand the few differences between the Parent Company and the Operating Partnership in the context of how the Parent Company and the Operating Partnership operate as a consolidated company. The Parent Company is a REIT, whose only material asset is its indirect interest in the Operating Partnership. As a result, the Parent Company does not conduct business itself other than issuing public equity from time to time. The Parent Company does not incur any material indebtedness. The Operating Partnership holds substantially all of our assets. Except for net proceeds from public equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for OP Units, the Operating Partnership generates all capital required by the Company’s business. Sources of this capital include the Operating Partnership’s operations and its direct or indirect incurrence of indebtedness.

Equity, capital, and non-controlling interests are the primary areas of difference between the unaudited Condensed Consolidated Financial Statements of the Parent Company and those of the Operating Partnership. The Operating Partnership’s capital currently includes OP Units owned by the Parent Company through BPG Sub and the General Partner and has in the past, and may in the future, include OP Units owned by third parties. OP Units owned by third parties, if any, are accounted for outside of equity in non-controlling interests in the Parent Company’s financial statements.

The Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have material assets other than its indirect interest in the Operating Partnership. Therefore, while equity, capital, and non-controlling interests may differ as discussed above, the assets and liabilities of the Parent Company and the Operating Partnership are materially the same on their respective financial statements.

In order to highlight the differences between the Parent Company and the Operating Partnership, there are sections of this report that separately discuss the Parent Company and the Operating Partnership, including separate financial statements (but combined footnotes), separate controls and procedures sections, separate certification of periodic report under Section 302 of the Sarbanes-Oxley Act of 2002, and separate certification pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. In the sections that combine disclosure for the Parent Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company.

These factors include (1) changes in national, regional, and local economies, due to global events such as international military conflicts, international trade disputes, a foreign debt crisis, foreign currency volatility, or due to domestic issues, such as government policies and regulations, tariffs, energy prices, market dynamics, general economic contractions, rising interest rates, inflation, unemployment, or limited growth in consumer income or spending; (2) local real estate market conditions, including an oversupply of space in, or a reduction in demand for, properties similar to those in our Portfolio (defined hereafter); (3) competition from other available properties and e-commerce; (4) disruption and/or consolidation in the retail sector, the financial stability of our tenants, and the overall financial condition of large retailing companies, including their ability to pay rent and/or expense reimbursements that are due to us; (5) in the case of percentage rents, the sales volumes of our tenants; (6) increases in property operating expenses, including common area expenses, utilities, insurance, and real estate taxes, which are relatively inflexible and generally do not decrease if revenue or occupancy decrease; (7) increases in the costs to repair, renovate, and re-lease space; (8) earthquakes, wildfires, tornadoes, hurricanes, damage from rising sea levels due to climate change, other natural disasters, epidemics and/or pandemics, civil unrest, terrorist acts, or acts of war, any of which may result in uninsured or underinsured losses; and (9) changes in laws and governmental regulations, including those governing usage, zoning, the environment, and taxes. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report and in our other periodic filings. The forward-looking statements speak only as of the date of this report, and we expressly disclaim any obligation or undertaking to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise, except to the extent otherwise required by law.

The Parent Company has elected to treat certain of its subsidiaries as taxable REIT subsidiaries (each a “TRS” "TRS"), and the Parent Company may in the future elect to treat newly formed and/or other existing subsidiaries as TRSs. A TRS may participate in non-real estate related activities and/or perform non-customary services for tenants and is subject to certain limitations under the Code. A TRS is subject to U.S. federal, state, and local income taxes at regular corporate rates. Income taxes related to the Parent Company’s TRSs do not materially impact the unaudited Condensed Consolidated Financial Statements of the Company.

As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy is included in GAAP that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs that are classified within Level 3 of the hierarchy).

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Based on the above criteria, the Company has determined that the valuations of its debt obligations are classified within Level 3 of the fair value hierarchy. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition.

Recurring Fair Value

The Company's marketable securities and interest rate derivatives are measured and recognized at fair value on a recurring basis. The valuations of the Company's marketable securities are based primarily on publicly traded market values in active markets and are classified within Levels 1 and 2 of the fair value hierarchy. See Note 6 for fair value information regarding the Company's interest rate derivatives.

The following table presents the placement in the fair value hierarchy of assets that are measured and recognized at fair value on a recurring basis:

Non-Recurring Fair Value

Management periodically assesses whether there are any indicators, including property operating performance, changes in anticipated hold period, and general market conditions, that the carrying value of the Company's real estate assets (including any related intangible assets or liabilities) may be impaired. Fair value is determined by offers from third party buyers, market comparable data, third party appraisals, or discounted cash flow analyses. The cash flows utilized in such analyses are comprised of unobservable inputs that include forecasted rental revenue and expenses based upon market conditions and future expectations. The capitalization rates and discount rates utilized in such analyses are based upon unobservable rates that the Company believes to be within a reasonable range of current market rates for the respective properties. Based on these inputs, the Company has determined that the valuations of these properties are classified within Level 3 of the fair value hierarchy.

The following table presents the placement in the fair value hierarchy of assets and liabilities that are measured and recognized at fair value on a non-recurring basis. During the three months ended March 31, 2024, no properties were remeasured to fair value as a result of impairment testing. The table includes information related to properties that were remeasured to fair value as a result of impairment testing during the nine months year ended September 30, 2023 December 31, 2023, excluding the properties sold prior to September 30, 2023. During the year ended December 31, 2022, no properties were remeasured to fair value as a result of impairment testing that were not sold prior to December 31, 2022. December 31, 2023:

9. Revenue Recognition

The Company engages in the ownership, management, leasing, acquisition, disposition, and redevelopment of retail shopping centers. Revenue is primarily generated through lease agreements and classified as Rental income on the Company's unaudited Condensed Consolidated Statements of Operations. These agreements include retail shopping center unit leases; ground leases; ancillary leases or agreements, such as agreements with tenants for cellular towers, ATMs, and short-term or seasonal retail (e.g. Halloween or Christmas-related retail); and reciprocal easement agreements. The agreements range in term from less than one year to 25 or more years, with certain agreements containing renewal options. These renewal options range from as little as one month to five or more years. The Company's retail shopping center leases generally require tenants to pay a portion of property operating expenses such as common area expenses, utilities, insurance, and real estate taxes, and certain capital expenditures related to the maintenance of the Company's properties.

Additionally, certain leases may require variable lease payments associated with percentage rents, which are calculated based on underlying tenant sales. The Company recognized $1.6 million $4.3 million and $1.3 million $3.8 million of income based on percentage rents for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively. These amounts are included in Rental income on the Company's unaudited Condensed Consolidated Statements of Operations.

10. Leases

The Company periodically enters into agreements in which it is the lessee, including ground leases for shopping centers that it operates and office leases for administrative space. The agreements range in term from less than one year to 50 or more years, with certain agreements containing renewal options for up to an additional 100 years. Upon lease execution, the Company recognizes an operating lease right-of-use ("ROU" ("ROU") asset and an operating lease liability based on the present value of the minimum lease payments over the non-cancelable lease term. As of September 30, 2023 March 31, 2024, the Company is not including any prospective renewal or termination options in its ROU assets or lease liabilities, as the exercise of such options is not reasonably certain. Certain agreements require the Company to pay a portion of property operating expenses, such as common area expenses, utilities, insurance, and real estate taxes, and certain capital expenditures related to the maintenance of the properties. These payments are not included in the calculation of the ROU asset or lease liability and are presented as variable lease costs. 12. Stock Based Compensation

In February 2022, the Company's board of directors approved the 2022 Omnibus Incentive Plan (the "Plan") and in April 2022, the Company's stockholders approved the Plan. The Plan provides for a maximum of 10.0 million shares of the Company's common stock to be issued for qualified and non-qualified options, stock appreciation rights, restricted stock, RSUs, OP Units, performance awards, and other stock-based awards. Prior to the approval of the Plan, awards were issued under the 2013 Omnibus Incentive Plan that the Company's board of directors approved in 2013.

During the nine three months ended September 30, 2023 March 31, 2024 and the year ended December 31, 2022 December 31, 2023, the Company granted RSUs to certain employees. The RSUs are divided into multiple tranches, which are all subject to service-based vesting conditions. Certain tranches are also subject to performance-based or market-based criteria, which contain a threshold, target, above target, and maximum number of units that can be earned. The number of units actually earned for each tranche is determined based on performance during a specified performance period. Tranches that only have a service-based component can only earn a target number of units. The aggregate number of RSUs granted, assuming the achievement of target level performance, was 0.7 million and 0.7 million for the nine three months ended September 30, 2023 March 31, 2024 and the year ended December 31, 2022 December 31, 2023, respectively, with vesting periods ranging from one to five years. For the service-based and performance-based RSU's granted, fair value is based on the Company's grant date stock price or the grant date stock price adjusted for dividend or dividend equivalent rights, when applicable. For the market-based RSUs granted, fair value is based on a Monte Carlo simulation model that assesses the probability of satisfying the market performance hurdles over the remainder of the performance period based on the Company's historical common stock performance relative to the other companies within the FTSE Nareit Equity Shopping Centers Index as well as the following significant assumptions:

Assumption	Nine Three Months Ended September 30, 2023 March 31, 2024	Year Ended, December 31, 2022 2023	
Volatility	23.0% - 28.0%	32.0% - 52.0%	27.0% - 51.0%

Weighted average common stock dividend yield	4.4% - 4.7%	4.3% - 4.8%	3.8% - 4.6%

During the three months ended September 30, 2023 March 31, 2024 and 2022, 2023, the Company recognized $6.1 million $3.8 million and $6.6 million $4.5 million of equity compensation expense, respectively, of which $0.4 million and $0.5 million was capitalized, respectively. During the nine months ended September 30, 2023 and 2022, the Company recognized $15.7 million and $17.7 million of equity compensation expense, respectively, of which $1.1 million and $1.3 million $0.3 million was capitalized, respectively. These amounts are included in General and administrative expense on the Company's unaudited Condensed Consolidated Statements of Operations. As of September 30, 2023 March 31, 2024, the Company had $22.8 million $27.7 million of total unrecognized compensation expense related to unvested stock compensation, which is expected to be recognized over a weighted average period of approximately 2.1 2.4 years.

13. Earnings per Share

Basic earnings per share ("EPS") is calculated by dividing net income attributable to the Company's common stockholders, including any participating securities, by the weighted average number of shares outstanding for the period. Certain restricted shares issued pursuant to the Company's share-based compensation program are considered participating securities, as such stockholders have rights to receive non-forfeitable dividends. Fully-diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into shares of common stock. Unvested RSUs are not allocated net losses and/or any excess of dividends declared over net income, as such amounts are allocated entirely to the Company's common stock.

The following table provides a reconciliation of the numerator and denominator of the EPS calculations for the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 (dollars in thousands, except per share data):

14. Earnings per Unit

Basic earnings per unit is calculated by dividing net income attributable to the Operating Partnership's common unitholders, including any participating securities, by the weighted average number of partnership common units outstanding for the period. Certain restricted units issued pursuant to the Company's share-based compensation program are considered participating securities, as such unitholders have rights to receive non-forfeitable dividends. Fully-diluted earnings per unit reflects the potential dilution that could occur if securities or other contracts to issue common units were exercised or converted into common units. Unvested RSUs are not allocated net losses and/or any excess of dividends declared over net income, as such amounts are allocated entirely to the Operating Partnership's common units.

Factors That May Influence Our Future Results

We derive our rental income primarily from base rent and expense reimbursements paid by tenants to us under existing leases at each of our properties. Expense reimbursements primarily consist of payments made by tenants to us for a portion of property operating expenses, such as common area expenses, utilities, insurance, and real estate taxes, and certain capital expenditures related to the maintenance of our properties.

Our ability to maintain or increase rental income is primarily dependent on our ability to maintain or increase rental rates, renew expiring leases, and/or lease available space. Increases in our property operating expenses, including repairs and maintenance, landscaping, snow removal, security, ground rent related to properties for which we are the lessee, utilities, insurance, real estate taxes, and various other costs, to the extent they are not reimbursed by tenants or offset by increases in rental income, will adversely impact our overall performance.

See “Forward-Looking Statements” included elsewhere in this Quarterly Report on Form 10-Q for the factors that could affect our rental income and/or property operating expenses.

Other Essential Expenditures

We incur certain essential expenditures in the ordinary course of business, such as common area expenses, utilities, insurance, real estate taxes, capital expenditures related to the maintenance of our properties, leasing capital expenditures, and corporate level expenses. The amount of common area expenses, utilities, and capital expenditures related to the maintenance of our properties that we incur depends on the scope of services that we provide, prevailing market rates, and the size and composition of our Portfolio. We carry comprehensive insurance to protect our Portfolio against various losses. The amount of insurance expense that we incur depends on the assessed values of our properties, prevailing market rates, and the size and composition of our Portfolio. We incur real estate taxes in the various jurisdictions in which we operate. The amount of real estate taxes that we incur depends on the assessed values of our properties, the tax rates assessed by various jurisdictions, and the size and composition of our Portfolio. Leasing capital expenditures represent tenant specific costs incurred to lease or renew space, including tenant improvements, tenant allowances, and external leasing commissions. The amount of leasing capital expenditures that we incur depends on the volume and nature of leasing activity. We incur corporate level expenses such as employee compensation costs, professional fees, corporate office rents, and other platform expenses. The amount of corporate level expenses that we incur depends on the size and composition of our Portfolio and platform and prevailing market wages and rates. Leases typically provide for the reimbursement of property operating expenses such as common area expenses, utilities, insurance, and real estate taxes, and certain capital expenditures related to the maintenance of our properties. However, costs that we incur generally do not decrease if revenue or occupancy decrease, and certain costs that we incur, such as corporate level expenses, are not typically reimbursed.
In order to continue to qualify as a REIT for federal income tax purposes, we must meet several organizational and operational requirements, including a requirement that we annually distribute to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains. We intend to continue to satisfy these requirements and maintain our REIT status. Our board of directors evaluates our dividend on a quarterly basis, taking into account a variety of relevant factors, including REIT taxable income. The following table summarizes our dividend activity for the third first and fourth second quarters of 2023: 2024:

		Third Quarter 2023	Fourth Quarter 2023		First Quarter 2024	Second Quarter 2024

Dividend payable date	Dividend payable date	October 16, 2023	January 16, 2024	Dividend payable date	April 15, 2024	July 15, 2024

Opportunistic Expenditures

We also utilize cash for opportunistic expenditures such as value-enhancing reinvestment and acquisition activity.

The amount of value-enhancing reinvestment capital expenditures that we incur depends on a variety of factors that may change from period to period, such as the number, total expected cost, and nature of value-enhancing reinvestment projects that are underway. See “Improvements to and investments in real estate assets” below for further information regarding our in-process reinvestment projects and our pipeline of future redevelopment projects.

The amount of future acquisition expenditures depends on the availability of opportunities that further concentrate our Portfolio in attractive retail submarkets and optimize the quality and long-term growth rate of our asset base. Our acquisition strategy focuses on buying assets with strong growth potential that are located in our existing markets and will allow us to leverage our operational platform and expertise to create value. Our acquisition activity may include acquisitions of open-air shopping centers or non-owned anchor spaces, retail buildings, and/or outparcels at, or adjacent to, our existing shopping centers.

In addition, we evaluate our Portfolio on an ongoing basis to identify value-enhancing reinvestment opportunities. Such initiatives are tenant driven and focus on upgrading our centers with strong, best-in-class retailers and enhancing the overall merchandise mix and tenant quality of our Portfolio. As of September 30, 2023 March 31, 2024, we had 55 45 in-process anchor space repositioning, redevelopment, and outparcel development projects with an aggregate anticipated cost of $490.7 million $431.0 million, of which $263.6 million $216.3 million had been incurred as of September 30, 2023 March 31, 2024. In addition, we have identified a pipeline of future redevelopment projects aggregating over $900 million $700 million of potential capital investment, which we expect to execute over the coming years. We expect to fund these projects with cash and cash equivalents, net cash provided by operating activities, proceeds from sales of real estate assets, and/or proceeds from capital markets transactions.

Acquisitions of and proceeds from sales of real estate assets

We continue to evaluate the market for acquisition opportunities and we may acquire shopping centers when we believe strategic opportunities exist, to further concentrate our Portfolio in attractive retail submarkets and optimize the quality and long-term growth rate of our asset base. During the nine three months ended September 30, 2023, March 31, 2024 and 2023, we acquired one land parcel for an aggregate purchase price of $1.9 million, including transaction costs and closing credits. During the nine months ended September 30, 2022, we acquired seven shopping centers, one outparcel, and one land parcel and paid less than $0.1 million related to previously acquired assets for an aggregate purchase price of $409.7 million, including transaction costs and closing credits. did not acquire any assets.

We may also dispose of properties when we believe value has been maximized, where there is downside risk, or where we have limited ability or desire to build critical mass in a particular submarket. During the nine three months ended September 30, 2023 March 31, 2024, we disposed of nine three shopping centers for aggregate net proceeds of $67.2 million. In addition, during the three months ended March 31, 2024, we resolved contingencies related to previously disposed assets for aggregate net proceeds of $0.1 million. During the three months ended March 31, 2023, we disposed of six shopping centers and eight two partial shopping centers for aggregate net proceeds of $161.9 million. In addition, during the nine months ended September 30, 2023, we received aggregate net proceeds of $0.3 million related to a non-operating asset. During the nine months ended September 30, 2022, we disposed of 11 shopping centers and seven partial shopping centers for aggregate net proceeds of $168.2 million. In addition, during the nine months ended September 30, 2022, we had land at one shopping center seized through eminent domain for aggregate net proceeds of $2.8 $119.7 million.

Financing Activities

Net cash used in financing activities is primarily impacted by the nature, timing, and magnitude of issuances and repurchases of debt and equity securities, as well as borrowings or principal payments associated with our outstanding indebtedness, including our Unsecured Credit Facility, and distributions made to our common stockholders.

During the nine three months ended September 30, 2023 March 31, 2024, our net cash used in provided by (used in) financing activities increased $129.9 million $449.5 million as compared to the corresponding period in 2022. 2023. The increase was primarily due to (i) a $64.2 million decrease $458.7 million increase in debt borrowings, net of repayments; partially offset by (ii) a $53.1 million decrease in issuances of common stock; (iii) a $19.5 million $3.8 million increase in distributions to our common stockholders; and (iv) (iii) a $0.8

million $3.7 million increase in repurchases of common stock; partially offset by (v) a $7.7 million decrease in deferred financing and debt extinguishment costs. costs; and (iv) a $1.7 million increase in repurchases of common stock.

Non-GAAP Performance Measures

We present the non-GAAP performance measures set forth below. These measures should not be considered as alternatives to, or more meaningful than, net income (calculated in accordance with GAAP) or other GAAP financial measures, as an indicator of financial performance and are not alternatives to, or more meaningful than, cash flow from operating activities (calculated in accordance with GAAP) as a measure of liquidity. Non-GAAP performance measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental financial results to those calculated in accordance with GAAP. Our computation of these non-GAAP performance measures may differ in certain respects from the methodology utilized by other REITs and, therefore, may not be comparable to similarly titled measures presented by such other REITs. Investors are cautioned that items excluded from these non-GAAP performance measures are relevant to understanding and addressing financial performance.

Funds From Operations

Nareit FFO (defined hereafter) is a supplemental, non-GAAP performance measure utilized to evaluate the operating and financial performance of real estate companies. Nareit defines funds from operations (“FFO” ("FFO") as net income (loss), calculated in accordance with GAAP, excluding (i) depreciation and amortization related to real estate, (ii) gains and losses from the sale of certain real estate assets, (iii) gains and losses from change in control, (iv) impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity and (v) after adjustments for unconsolidated joint ventures calculated to reflect FFO on the same basis.

Considering the nature of our business as a real estate owner and operator, we believe that Nareit FFO is useful to investors in measuring our operating and financial performance because the definition excludes items included in net income that do not relate to or are not indicative of our operating and financial performance, such as depreciation and amortization related to real estate, and items which can make periodic and peer analyses of operating and financial performance more difficult, such as gains and losses from the sale of certain real estate assets and impairment write-downs of certain real estate assets.

Our reconciliation of net income to Nareit FFO for the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 is as follows (in thousands, except per share amounts):

Same Property Net Operating Income

Same property net operating income (“NOI” ("NOI") is a supplemental, non-GAAP performance measure utilized to evaluate the operating performance of real estate companies. Same property NOI is calculated (using properties owned for the entirety of both periods and excluding properties under development and completed new development properties that have been stabilized for less than one year) as total property revenues (base rent, expense reimbursements, adjustments for revenues deemed uncollectible, ancillary and other rental income, percentage rents, and other revenues) less direct property operating expenses (operating costs and real estate taxes). Same property NOI excludes (i) lease termination fees, (ii) straight-line rental income, net, (iii) accretion of below-market leases, net of amortization of above-market leases and tenant inducements, (iv) straight-line ground rent expense, net, (v) income or expense associated with our captive insurance company, (vi) depreciation and amortization, (vii) impairment of real estate assets, (viii) general and administrative expense, and (ix) other income and expense (including interest expense and gain on sale of real estate assets).

Considering the nature of our business as a real estate owner and operator, we believe that NOI is useful to investors in measuring the operating performance of our portfolio because the definition excludes various items included in net income that do not relate to, or are not indicative of, the operating performance of our properties, such as lease termination fees, straight-line rental income, net, accretion of below-market leases, net of amortization of above-market leases and tenant inducements, straight-line ground rent expense, net, income or expense associated with our captive insurance company, depreciation and amortization, impairment of real estate assets, general and administrative expense, and other income and expense (including interest expense and gain on sale of real estate assets). We believe that same property NOI is also useful to investors because it further eliminates disparities in NOI by only including NOI of properties owned for the entirety of both periods presented and excluding properties under development and completed new development properties that have been stabilized for less than one year and therefore provides a more consistent metric for comparing the operating performance of our real estate between periods.

Inflation

Prior to 2021, inflation was low and had a minimal impact on our operating and financial performance; however, inflation has significantly increased over the last two years and may continue to be elevated or increase further. With respect to our shopping centers, our long-term leases generally contain provisions designed to mitigate the adverse impact of inflation, including contractual rent escalations and requirements for tenants to pay a portion of property operating expenses, including common area expenses, utilities, insurance, and real estate taxes, and certain capital expenditures related to the maintenance of our properties, thereby reducing our exposure to increases in property operating expenses resulting from inflation; however, we have exposure to increases in certain non-reimbursable property operating expenses, including expenses incurred on vacant units. We believe that many of our existing rental rates are below current market rates for comparable space and that upon renewal or re-leasing, such rates may be increased to be consistent with, or closer to, current market rates, which may also offset certain non-reimbursed inflationary expense pressures. With respect to our outstanding indebtedness, we periodically evaluate our exposure to interest rate fluctuations, and have and may continue to enter into interest rate protection agreements that mitigate, but do not eliminate, the impact of changes in interest rates on our variable rate loans. With respect to general and administrative costs, we continually seek opportunities to offset inflationary cost pressures through routine evaluations of our spending levels and through ongoing efforts to utilize technology to enhance our operational efficiency.
