Principal Business and OrganizationFS KKR Capital Corp. (NYSE: FSK), or the Company, was incorporated under the general corporation laws of the State of Maryland on DecemberÂ 21, 2007 and formally commenced investment operations on JanuaryÂ 2, 2009. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, the Company has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a regulated investment company, or RIC, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. The Company has various wholly-owned subsidiaries, including special-purpose financing subsidiaries and subsidiaries through which it holds interests in portfolio companies. The unaudited consolidated financial statements include both the Companyâ€™s accounts and the accounts of its wholly-owned subsidiaries as of SeptemberÂ 30, 2024. All intercompany transactions have been eliminated in consolidation. Certain of the Companyâ€™s consolidated subsidiaries are subject to U.S. federal and state income taxes.The Companyâ€™s investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. The Company's portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle-market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. In addition, a portion of the Companyâ€™s portfolio may be comprised of equity and equity-related securities, corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Company is externally managed by FS/KKR Advisor, LLC, or the Adviser, pursuant to an investment advisory agreement, dated as of June 16, 2021, or the investment advisory agreement. Prior to entering into the investment advisory agreement, the Company was a party to an investment advisory agreement, dated as of December 20, 2018, with the Adviser, or the prior investment advisory agreement, which remained in effect until June 16, 2021.Note 2. Summary of Significant Accounting PoliciesBasis of Presentation: The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Companyâ€™s interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023 included in the Companyâ€™s annual report on Form 10-K for the year ended DecemberÂ 31, 2023. Operating results for the nine months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the year ending DecemberÂ 31, 2024. The DecemberÂ 31, 2023 consolidated balance sheet and consolidated schedule of investments are derived from the Companyâ€™s audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies under Financial Accounting Standards Board, or the FASB, Accounting Standards Codification Topic 946, Financial Servicesâ€”Investment Companies.Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.Capital Gains Incentive Fee:Â Pursuant to the terms of the investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory agreement). This fee equals 20.0% of the Companyâ€™s incentive fee capital gains, which shall equal the realized capital gains of Corporate Capital Trust, Inc., or CCT, (as predecessor-by-merger to the Company), FS KKR Capital Corp. II, or FSKR, (as predecessor-by-merger to the Company) and the Company (without duplication) on a cumulative basis from inception, calculated as of the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation (without duplication) on a cumulative basis, less the aggregate amount of any capital gain incentive fees previously paid by CCT, FSKR and the Company. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.The Company includes unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to the Adviser if the Companyâ€™s entire portfolio was 48Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 2. Summary of Significant Accounting Policies (continued)liquidated at its fair value as of the balance sheet date even though the Adviser is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.Subordinated Income Incentive Fee: Pursuant to the terms of the investment advisory agreement, the Adviser may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the investment advisory agreement, which is calculated and payable quarterly in arrears, equals 17.5% of the Companyâ€™sÂ â€œpre-incentiveÂ fee net investment incomeâ€ for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on the value of the Companyâ€™s net assets, equal to 1.75%Â per quarter, or an annualized hurdle rate of 7.0%.Â As a result, the Adviser will not earn this incentive fee for any quarter until the Companyâ€™sÂ pre-incentiveÂ fee net investment income for such quarter exceeds the hurdle rate of 1.75%. Once the Companyâ€™sÂ pre-incentiveÂ fee net investment income in any quarter exceeds the hurdle rate, the Adviser will be entitled to aÂ â€œcatch-upâ€Â fee equal to the amount of theÂ pre-incentiveÂ fee net investment income in excess of the hurdle rate, until the Companyâ€™sÂ pre-incentiveÂ fee net investment income for such quarter equals 2.12%, or 8.48% annually, of net assets. Thereafter, the Adviser will be entitled to receive 17.5% ofÂ pre-incentiveÂ fee net investment income. See Note 4 for a discussion of the subordinated incentive fee on income under the prior investment advisory agreement.Revenue Recognition: Security transactions are accounted for on the trade date. The Company records interest income on an accrual basis to the extent that it expects to collect such amounts. The Company records dividend income on the ex-dividend date. Distributions received from limited liability company, or LLC, and limited partnership, or LP, investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. The Company does not accrue as a receivable interest or dividends on loans and securities if it has reason to doubt its ability to collect such income. The Companyâ€™s policy is to place investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the accrued interest will be written-off. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on the Companyâ€™s judgment. Loan origination fees, original issue discount and market discount are capitalized and the Company amortizes such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. For the nine months ended September 30, 2024 and 2023, the Company recognized $28 and $13, respectively, in structuring fee revenue. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts. Derivative Instruments: The Companyâ€™s derivative instruments include foreign currency forward contracts and interest rate swaps. The Company has designated certain interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in and recognized as components of interest expense in the Companyâ€™s consolidated statements of operations. The change in fair value of the interest rate swaps is offset by a change in the carrying value of the corresponding fixed rate debt. For all other derivatives, the Company does not utilize hedge accounting and recognizes such derivative instruments as assets or liabilities at fair value in its consolidated financial statements. Changes in fair value of derivative contracts entered into by the Company which have not been designated as hedging instruments are recognized through the net change in unrealized appreciation (depreciation) on derivative instruments in the consolidated statements of operations. Realized gains and losses on the derivative instruments are included in net realized gains (losses) on derivative instruments in the consolidated statements of operations.49FS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts) Note 3. During the nine months ended September 30, 2023, the administrator for the DRP purchased 2,321,026 shares of common stock in the open market at an average price per share of $18.75 (totaling $44) pursuant to the DRP, and distributed such shares to participants in the DRP.Â During the period from OctoberÂ 1, 2024 to OctoberÂ 31, 2024, the administrator for the DRP purchased 786,962 shares of common stock in the open market at an average price per share of $20.04 (totaling $16) pursuant to the DRP, and distributed such shares to participants in the DRP. For additional information regarding the terms of the DRP, see Note 5.Share Repurchase ProgramOn October 31, 2022, the Companyâ€™s board of directors approved a renewal of the previously approved stock repurchase program. The program provided for aggregate purchases of the Companyâ€™s common stock in an amount up to $54, which was the aggregate amount remaining of the $100 amount originally approved by the board of directors. During the nine months ended September 30, 2023, the Company repurchased 1,665,317 shares of common stock pursuant to the share repurchase program at an average price per share (inclusive of commissions paid) of $18.89 (totaling $32). The program has concluded since the aggregate repurchase amount that was approved by the Companyâ€™s board of directors has been expended. 50Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 4. Related Party TransactionsCompensation of the Investment Adviser Pursuant to the investment advisory agreement, the Adviser is entitled to a base management fee calculated at an annual rate of 1.50% of the average weekly value of the Companyâ€™s gross assets excluding cash and cash equivalents (gross assets equal the total assets of the Company as set forth on the Companyâ€™s consolidated balance sheets) and an incentive fee based on the Companyâ€™s performance. Effective JuneÂ 15, 2019, in connection with stockholder approval of the modification of the asset coverage requirement applicable to senior securities from 200% to 150%, the Adviser reduced (by permanent waiver) the annual base management fee payable under the investment advisory agreement from 1.5% to 1.0% on all assets financed using leverage over 1.0x debt-to-equity. The base management fee is payable quarterly in arrears. All or any part of the base management fee not taken as to any quarter will be deferred without interest and may be taken in such other quarter as the Adviser determines. The prior investment advisory agreement had substantially similar terms as the investment advisory agreement, except that the investment advisory agreement amended the prior investment advisory agreement to (i) reduce the Companyâ€™s income incentive fee rate from 20% to 17.5%; and (ii) remove the total return lookback provision applicable to the subordinated incentive fee on income from the prior investment advisory agreement. Under the prior investment advisory agreement, the subordinated incentive fee on income was subject to a cap equal to (i) 20.0% of the â€œper share pre-incentive fee returnâ€ for the then-current and eleven preceding calendar quarters minus the cumulative â€œper share incentive feesâ€ accrued and/or payable for the eleven preceding calendar quarters multiplied by (ii) the weighted average number of shares outstanding during the calendar quarter (or any portion thereof) for which the subordinated incentive fee on income was being calculated. The definitions of â€œper share pre-incentive fee returnâ€ and â€œper share incentive feesâ€ under the prior investment advisory agreement took into account the historic per share pre-incentive fee return of both the Company and CCT, together with the historic per share incentive fees paid by both the Company and CCT. For the purpose of calculating the â€œper share pre-incentive fee return,â€ any unrealized appreciation or depreciation recognized as a result of the purchase accounting for the Companyâ€™s acquisition of CCT was excluded. See Note 2 for a discussion of the capital gains and subordinated income incentive fees that the Advisor may be entitled to under the investment advisory agreement.On June 16, 2021, the Company completed its acquisition, or the 2021 Merger, of FSKR pursuant to that certain Agreement and Plan of Merger, or the 2020 Merger Agreement, dated as of November 23, 2020, by and among the Company, FSKR, Rocky Merger Sub, Inc., a former wholly-owned subsidiary of the Company, or Merger Sub, and the Adviser. In connection with the entry into the investment advisory agreement, the Adviser agreed to waive income incentive fees in the amount of $15 per quarter for the first six full fiscal quarters of operations following the closing of the 2021 Merger, commencing on July 1, 2021, for a total waiver of $90. The fee waiver expired on December 31, 2022. In addition, the Adviser has agreed to exclude from the calculation of the subordinated incentive fee on income and the incentive fee on capital gains any changes to the fair value recorded for the assets and liabilities of FSKR resulting solely from the new cost basis of the acquired FSKR investments determined in accordance with Accounting Standards Codification Topic 805-50, Business Combinationsâ€”Related Issues as a result of the 2021 Merger.On AprilÂ 9, 2018, the Company entered into an

administration agreement with the Adviser, or the administration agreement. Pursuant to the administration agreement, the Adviser oversees the Companyâ€™s day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Adviser also performs, or oversees the performance of, the Companyâ€™s corporate operations and required administrative services, which includes being responsible for the financial records that the Company is required to maintain and preparing reports for the Companyâ€™s stockholders and reports filed with the U.S. Securities and Exchange Commission, or the SEC. In addition, the Adviser assists the Company in calculating its net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to the Companyâ€™s stockholders, and generally overseeing the payment of the Companyâ€™s expenses and the performance of administrative and professional services rendered to the Company by others. Pursuant to the administration agreement, the Company reimburses the Adviser for expenses necessary to perform services related to its administration and operations, including the Adviserâ€™s allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings, L.P., which does business as FS Investments, or FS Investments, and KKR Credit Advisors (US), LLC, or KKR Credit, providing administrative services to the Company on behalf of the Adviser. The Company reimburses the Adviser no less than quarterly for all costs and expenses incurred by the Adviser in performing its obligations and providing personnel and facilities under the administration agreement. The Adviser allocates the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Companyâ€™s board of directors reviews the methodology employed in determining how the expenses are allocated to the Company and the proposed allocation of administrative expenses among the Company and certain affiliates of the Adviser. The Companyâ€™s board of directors then assesses the reasonableness of such reimbursements for expenses allocated to it based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Companyâ€™s board of directors considers whether any single third-party service provider would be capable of providing 51Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 4. Related Party Transactions (continued)all such services at comparable cost and quality. Finally, the Companyâ€™s board of directors compares the total amount paid to the Adviser for such services as a percentage of the Companyâ€™s net assets to the same ratio as reported by other comparable BDCs. Broken deal costs were $0.6 for the nine months ended September 30, 2024. The Company paid $7 and $10, respectively, in administrative services expenses to the Adviser during the nine months ended September 30, 2024 and 2023. Potential Conflicts of InterestThe members of the senior management and investment teams of the Adviser serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as the Company does, or of investment vehicles managed by the same personnel. For example, the Adviser is the investment adviser to KKR FS Income Trust and KKR FS Income Trust Select, and the officers, managers and other personnel of the Adviser may serve in similar or other capacities for the investment advisers to future investment vehicles affiliated with FS Investments or KKR Credit. In serving in these multiple and other capacities, they may have obligations to other clients or investors in those entities, the fulfillment of which may not be in the Companyâ€™s best interests or in the best interest of the Companyâ€™s stockholders. The Companyâ€™s investment objectives may overlap with the investment objectives of such investment funds, accounts or other investment vehicles. For additional information regarding potential conflicts of interest, see the Companyâ€™s annual report on Form 10-K for the year ended December 31, 2023. Exemptive Relief As a BDC, the Company is subject to certain regulatory restrictions in making its investments. For example, BDCs generally are not permitted toÂ co-investÂ with certain affiliated entities in transactions originated by the BDC or its affiliates in the absence of an exemptive order from the SEC. However, BDCs are permitted to, and may, simultaneouslyÂ co-investÂ in transactions where price is the only negotiated term. In an order dated JuneÂ 4, 2013, or the FS Order, the SEC granted exemptive relief permitting the Company, subject to the satisfaction of certain conditions, toÂ co-investÂ in certain privately negotiated investment transactions with certain affiliates of its former investment adviser and any future BDCs that are advised by its former investment adviser or its affiliated investment advisers. However, in connection with the investment advisory relationship with the Adviser, and in an effort to mitigate potential future conflicts of interest, the Companyâ€™s board of directors authorized and directed that the Company (i) withdraw from the FS Order, except with respect to any transaction in which the Company participated in reliance on the FS Order prior to April 9, 2018, and (ii) rely on an exemptive relief order, dated January 5, 2021, that permits the Company, subject to the satisfaction of certain conditions, toÂ co-investÂ in certain privately negotiated investment transactions, including investments originated and directly negotiated by the Adviser or KKR Credit, with certain affiliates of the Adviser.Affiliated Purchaser ProgramAs previously disclosed, certain affiliates of the owners of the Adviser committed $100 to a $350 investment vehicle that may invest from time to time in shares of the Companyâ€™s common stock. In September 2021 and December 2021, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the purchase of shares of the Companyâ€™s common stock pursuant to the terms and conditions of such plan. 52Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 4. Related Party Transactions (continued)In September 2022, August 2023, and March 2024, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the sale of shares of the Companyâ€™s common stock pursuant to the terms and conditions of such plan. The Company is not a party to any transaction with the investment vehicle.Note 5. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Companyâ€™s board of directors.Pursuant to the DRP, the Company will reinvest all cash dividends or distributions declared by the Companyâ€™s board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if the Companyâ€™s board of directors declares a distribution, then stockholders who have not elected to â€œopt outâ€ of the DRP will have their distributions automatically reinvested in additional shares of the Companyâ€™s common stock.With respect to each distribution pursuant to the DRP, the Company reserves the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the DRP. Unless the Company, in its sole discretion, otherwise directs the plan administrator, (A) if the per share market price (as defined in the DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of the Companyâ€™s common stock on the payment date for the distribution, then the Company will issue shares of common stock at the greater of (i) net asset value per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in the sole discretion of the Company, (i) shares of common stock will be purchased in open market transactions for the accounts of participants 53Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 5. Distributions (continued)to the extent practicable, or (ii) the Company will issue shares of common stock at net asset value per share. Pursuant to the terms of the DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which the Company issues such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.If a stockholder receives distributions in the form of common stock pursuant to the DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If the Companyâ€™s common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If the Companyâ€™s common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of the Companyâ€™s common stock. The stockholderâ€™s basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholderâ€™s account.The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Companyâ€™s common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Companyâ€™s distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholderâ€™s investment rather than a return of earnings or gains derived from the Companyâ€™s investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Companyâ€™s stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.The following table reflects the sources of the cash distributions on a tax basis that the Company has paid on its common stock during the nine months ended September 30, 2024 and 2023: Â Â Nine Months Ended September 30,Â 20242023Source of DistributionDistributionAmountPercentageDistributionAmountPercentageReturn of capital$â€”Â â€”Â $â€”Â â€”Â Net investment income(1)616Â 100Â %616Â 100Â %Short-term capital gains proceeds from the sale of assetsâ€”Â â€”Â â€”Â â€”Â Long-term capital gains proceeds from the sale of assetsâ€”Â â€”Â â€”Â â€”Â Total$616Â 100Â %$616Â 100Â %_____(1)During the nine months ended September 30, 2024 and 2023, 86.4% and 85.7%, respectively, of the Companyâ€™s gross investment income was attributable to cash income earned, 2.6% and 3.0%, respectively, was attributable to non-cash accretion of discount and 11.0% and 11.3%, respectively, was attributable to PIK interest.The determination of the tax attributes of the Companyâ€™s distributions is made annually as of the end of the Companyâ€™s fiscal year based upon the Companyâ€™s taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of the Companyâ€™s distributions for a full year. The actual tax characteristics of distributions to stockholders are reported to stockholders annually on Form 1099-DIV. Net capital losses may be carried forward indefinitely, and their character is retained as short-term or long-term losses. As of SeptemberÂ 30, 2024, the Company had capital loss carryforwards available to offset future realized capital gains of approximately $2,369. Because of the loss limitation rules of the Code, some of the tax basis losses may be limited in their use. Any unused balances resulting from such limitations may be carried forward into future years indefinitely.54Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 5. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis was $(1,679) and $(1,868) as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis excludes net unrealized appreciation (depreciation) from merger accounting, foreign currency forward contracts and foreign currency transactions.As of SeptemberÂ 30, 2024, the Company had a deferred tax liability of $2 resulting from unrealized appreciation on investments held by the Companyâ€™s wholly-owned taxable subsidiaries, a deferred tax asset of $115 resulting from a combination of unrealized depreciation on investments held by and net operating losses and other tax attributes of the Companyâ€™s wholly-owned taxable subsidiaries and a current tax liability of $2 resulting from realized gains on investments held by the Company's wholly-owned taxable subsidiaries. As of SeptemberÂ 30, 2024, certain wholly-owned taxable subsidiaries anticipated that they would be unable to fully utilize their generated net operating losses, therefore the deferred tax asset was offset by a valuation allowance of $113.Note 6. A foreign currency forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. These contracts are marked-to-market by recognizing the difference between the contract forward exchange rate and the forward market exchange rate on the last day of the period presented as unrealized appreciation or depreciation. Realized gains or losses are recognized when forward contracts are settled. Risks arise as a result of the potential inability of the counterparties to meet the terms of their contracts. The Company attempts to limit counterparty risk by only dealing with well-known counterparties.Cross currency swaps are interest rate swaps in which interest cash flows are exchanged between two parties based on the notional amounts of two different currencies. These swaps are marked-to-market by recognizing the difference between the present value of cash flows of each leg of the swaps as unrealized appreciation or depreciation. Realized gain or loss is recognized when periodic payments are received or paid and the swaps are terminated. The entire notional value of a cross currency swap is subject to the risk that the counterparty to the swap will default on its contractual delivery obligations. The Company attempts to limit counterparty risk by only dealing with well-known counterparties. The Company utilizes cross currency swaps from time to time in order to hedge a portion of its investments in foreign currency.The average notional balance for foreign currency forward contracts during the nine months ended September 30, 2024 and 2023 was $174.2 and $214.7, respectively.Interest Rate SwapsIn connection with the Companyâ€™s issuance of $600 aggregate principal amount of its 6.875% notes due 2029, or the 6.875% Notes, the Company entered into interest rate swap agreements for a total notional amount of $600 that mature on August 15, 2029 to reduce the exposure to changes in fair value associated with the 6.875% Notes. Under the first interest rate swap agreement, entered into on June 13, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.754% on a notional amount of $200. Under the second interest rate swap agreement, entered into on June 27, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.788% on a notional amount of $400. The Company designated these interest rate swaps and the 6.875% Notes as a qualifying fair value hedge accounting relationship. See Note 9 for more information on the 6.875% Notes.As of SeptemberÂ 30, 2024, the counterparty to the Companyâ€™s interest rate swap agreements was ING Capital Markets LLC.As a result of the Companyâ€™s designation of the interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, the Company is required to fair value the hedging instruments and the related hedged items, with the changes 59Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 7. Fair Value of Financial InstrumentsUnder existing accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. This accounting guidance emphasizes valuation techniques that maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance: Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets. Level 3: Inputs that are unobservable for an asset or liability. A financial instrumentâ€™s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Companyâ€™s investments were categorized as follows in the fair value hierarchy:September 30, 2024Valuation Inputs(Unaudited)December 31, 2023Level 1â€”Price quotations in active markets$1Â $1Â Level 2â€”Significant other observable inputs91Â 178Â Level 3â€”Significant unobservable inputs12,467Â 13,073Â Investments measured at net asset value(1)1,384Â 1,397Â $13,943Â $14,649Â _____(1)Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.In addition, the Company had foreign currency forward contracts and interest rate swaps, as described in Note 7, which were categorized as Level 2 in the fair value hierarchy as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023.The Companyâ€™s board of directors is responsible for overseeing the valuation of the Companyâ€™s portfolio investments at fair value as determined in good faith pursuant to the Adviserâ€™s valuation policy. The Companyâ€™s board of directors has designated the Adviser with day-to-day responsibility for implementing the portfolio valuation process set forth in the Adviserâ€™s valuation policy. 60Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 8. Fair Value of Financial Instruments (continued)The Companyâ€™s investments consist primarily of debt investments that were acquired directly from the issuer. Debt investments, for which broker quotes are not available, are valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, the borrowerâ€™s ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features, anticipated repayments and other relevant terms of the investments. Except as described below, all of the Companyâ€™s equity/other investments are also valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of earnings before interest, taxes, depreciation and amortization, or EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. An investment that is newly issued and purchased near the date of the financial statements is valued at cost if the Adviser determines that the cost of such investment is the best indication of its fair value. Such investments described above are typically classified as Level 3 within the fair value hierarchy. Investments that are traded on an active public market are valued at their closing price as of the date of the financial statements and are classified as Level 1 within the fair value hierarchy. Except as described above, the Adviser typically values the Company's other investments by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which are provided by independent third-party pricing services and screened for validity by such services and are typically classified as Level 2 within the fair value hierarchy.The Adviser periodically benchmarks the bid and ask prices it receives from the third-party pricing services and/or dealers and independent valuation firms as applicable, against the actual prices at which the Company purchases and sells its investments. Based on the results of the benchmark analysis and the experience of the Companyâ€™s management in purchasing and selling these investments, the Adviser believes that these prices are reliable indicators of fair value. The Adviser reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with the Adviserâ€™s valuation policy.61Table of ContentsFS KKR Capital Corp.Notes to Unaudited Consolidated Financial Statements (continued)(in millions, except share and per share amounts)Note 8. Commitments and ContingenciesThe Company enters into contracts that contain a variety of indemnification provisions. The Companyâ€™s maximum exposure under these arrangements is unknown; however, the Company has not had prior claims or losses pursuant to these contracts. The Adviser has reviewed the Companyâ€™s existing contracts and expects the risk of loss to the Company to be remote.The Company is not currently subject to any material legal proceedings and, to the Companyâ€™s knowledge, no material legal proceedings are threatened against the Company. From time to time, the Company may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Companyâ€™s rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Company does not expect that any such proceedings will have a material effect upon its financial condition or results of operations.Unfunded commitments to provide funds to portfolio companies are not recorded in the Companyâ€™s consolidated balance sheets. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. We are an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a BDC under the 1940 Act and has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a RIC under Subchapter M of the Code. We are externally managed by the Adviser pursuant to the investment advisory agreement and supervised by our board of directors, a majority of whom are independent. Our investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. We seek to meet our investment objectives by: â€¢utilizing the experience and expertise of the management team of the Adviser; â€¢employing a defensive investment approach focused on long-term credit performance and principal protection; â€¢focusing primarily on debt investments in a broad array of private U.S. companies, including middle-market companies, which we define as companies with annual EBITDA of $50Â million to $150Â million at the time of investment; â€¢investing primarily in established, stable enterprises with positive cash flows; and â€¢maintaining rigorous portfolio monitoring in an attempt to anticipate and pre-empt negative credit events within our portfolio, such as an event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company. We pursue our investment objective by investing primarily in the debt of middle market U.S. companies with a focus on originated transactions sourced through the network of the Adviser and its affiliates. We define direct originations as any investment where the Company's investment adviser, sub-adviser or their affiliates had negotiated the terms of the transaction beyond just the price, which, for example, may include negotiating financial covenants, maturity dates or interest rate terms. These directly originated transactions include participation in other originated transactions where there may be third parties involved, or a bank acting as an intermediary, for a closely held club, or similar transactions.Our portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. Although we do not expect a significant portion of our portfolio to be comprised of subordinated loans, there is no limit on the amount of such loans in which we may invest. We may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the â€œover-the-counterâ€ market or directly from our target companies as primary market or directly originated investments. In connection with our debt investments, we may on occasion receive equity interests such as warrants or options as additional consideration. We may also purchase or otherwise acquire interests in the form of common or preferred equity or equity-related securities, such as rights and warrants that may be converted into or exchanged for common stock or other equity or the cash value of common stock or other equity, including through a co-investment with a financial sponsor or possibly the restructuring of an investment. In addition, a portion of our portfolio may be comprised of corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Adviser will seek to tailor our investment focus as market conditions evolve. Depending on market conditions, we may increase or decrease our exposure to less senior portions of the capital structures of our portfolio companies or otherwise make opportunistic investments, such as where the market price of loans, bonds or other securities reflects a lower value than deemed warranted by the Adviserâ€™s fundamental analysis. Such investment opportunities may occur due to general dislocations in the markets, a misunderstanding by the 74Table of Contentsmarket of a particular company or an industry being out of favor with the broader investment community and may include event driven investments, anchor orders and structured products. The senior secured loans, second lien secured loans and senior secured bonds in which we invest generally have stated terms of three to seven years and subordinated debt investments that we make generally have stated terms of up to ten years, but the expected average life of such securities is generally three to four years. However, we may invest in loans and securities with any maturity or duration. Our debt investments may be rated by a NRSRO and, in such case, generally will carry a rating below investment grade (rated lower than â€œBaa3â€ by Moodyâ€™s or lower than â€œBBB-â€ by S&P). We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by a NRSRO.Revenues The principal measure of our financial performance is net increase in net assets resulting from operations, which includes net investment income, net realized gain or loss on investments, net realized gain or loss on foreign currency, net unrealized appreciation or depreciation on investments and net unrealized gain or loss on foreign currency. Net investment income is the difference between our income from interest, dividends, fees and other investment income and our operating and other expenses. Net realized gain or loss on investments is the difference between the proceeds received from dispositions of portfolio investments and their amortized cost, including the respective realized gain or loss on foreign currency for those foreign denominated investment transactions. Net realized gain or loss on foreign currency is the portion of realized gain or loss attributable to foreign currency fluctuations. Net unrealized appreciation or depreciation on investments is the net change in the fair value of our investment portfolio, including the respective unrealized

gain or loss on foreign currency for those foreign denominated investments. Net unrealized gain or loss on foreign currency is the net change in the value of receivables or accruals due to the impact of foreign currency fluctuations.We principally generate revenues in the form of interest income on the debt investments we hold. In addition, we generate revenues in the form of non-recurring commitment, closing, origination, structuring or diligence fees, monitoring fees, fees for providing managerial assistance, consulting fees, prepayment fees and performance-based fees. We may also generate revenues in the form of dividends and other distributions on the equity or other securities we hold.Expenses Our primary operating expenses include the payment of management and incentive fees and other expenses under the investment advisory agreement and the administration agreement, interest expense from financing arrangements and other indebtedness, and other expenses necessary for our operations. The management and incentive fees compensate the Adviser for its work in identifying, evaluating, negotiating, executing, monitoring and servicing our investments.The Adviser oversees our day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Adviser also performs, or oversees the performance of, our corporate operations and required administrative services, which includes being responsible for the financial records that we are required to maintain and preparing reports for our stockholders and reports filed with the SEC. In addition, the Adviser assists us in calculating our net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders, and generally overseeing the payment of our expenses and the performance of administrative and professional services rendered to us by others.Pursuant to the administration agreement, we reimburse the Adviser for expenses necessary to perform services related to our administration and operations, including the Adviserâ€™s allocable portion of the compensation and related expenses of certain personnel of FS Investments and KKR Credit providing administrative services to us on behalf of the Adviser. We reimburse the Adviser no less than quarterly for all costs and expenses incurred by the Adviser in performing its obligations and providing personnel and facilities under the administration agreement. The Adviser allocates the cost of such services to us based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. Our board of directors reviews the methodology employed in determining how the expenses are allocated to us and the proposed allocation of administrative expenses among us and certain affiliates of the Adviser. Our board of directors then assesses the reasonableness of such reimbursements for expenses allocated to us based on the breadth, depth and quality of such services as compared to the estimated cost to us of obtaining similar services from third-party service providers known to be available. In addition, our board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, our board of directors compares the total amount paid to the Adviser for such services as a percentage of our net assets to the same ratio as reported by other comparable BDCs.We bear all other expenses of our operations and transactions, including all other expenses incurred by the Adviser or us in connection with administering our business, including expenses incurred by the Adviser in performing administrative services for us and administrative personnel paid by the Adviser, to the extent they are not controlling persons of the Adviser or any of its affiliates, subject to the limitations included in the investment advisory agreement and the administration agreement.75Table of ContentsIn addition, we have contracted with State Street Bank and Trust Company to provide various accounting and administrative services, including, but not limited to, preparing preliminary financial information for review by the Adviser, preparing and monitoring expense budgets, maintaining accounting and corporate books and records, processing trade information provided by us and performing testing with respect to RIC compliance.Portfolio Investment Activity for the Three and Nine Months Ended September 30, 2024 and for the Year Ended DecemberÂ 31, 2023 Total Portfolio Activity The following tables present certain selected information regarding our portfolio investment activity for the three and nine months ended September 30, 2024 and the year ended DecemberÂ 31, 2023:For the Three Months EndedFor the Nine Months EndedNet Investment ActivitySeptember 30, 2024September 30, 2024Purchases$1,136Â $3,840Â Sales and Repayments(1,321)(4,512)Net Portfolio Activity(185)(672)For the Three Months EndedFor the Nine Months EndedSeptember 30, 2024September 30, 2024New Investment Activity by Asset ClassPurchasesPercentageSales and RepaymentsPercentagePurchasesPercentageSales and RepaymentsPercentageSenior Secured Loansâ€”First Lien$955Â 84Â %$(792)60Â %$3,012Â 78Â %$(3,143)70Â %Senior Secured Loansâ€”Second Lienâ€”Â â€”Â (57)4Â %46Â 1Â %(239)5Â %Other Senior Secured Debtâ€”Â â€”Â â€”Â 25Â 1Â %â€”Â â€”Â Subordinated Debtâ€”Â â€”Â (142)11Â %28Â 1Â %(143)3Â %Asset Based Finance181Â 16Â %(238)18Â %728Â 19Â %(857)19Â %Credit Opportunities Partners JV, LLCâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â Equity/Other(1)â€”Â â€”Â (92)7Â %1Â 0Â %(130)3Â %Total$1,136Â 100Â %$(1,321)100Â %$3,840Â 100Â %$(4,512)100Â %(1) Equity/Other includes investments in preferred equity investments. SCRS purchased its interests in COPJV from Conway Capital, LLC, an affiliate of Guggenheim Life and Annuity Company and Delaware Life Insurance Company, in June 2019, which had no impact on the significant terms governing COPJV other than an increase in the aggregate capital commitment (but not the percentage of the aggregate capital committed by each member) to COPJV. Effective as of June 18, 2021, Credit Opportunities Partners, LLC, or COP, merged with and into COPJV, with COPJV surviving the merger, or the COPJV Merger. As of June 18, 2021, COPJV assumed all of COPâ€™s obligations under its credit facilities, and COPâ€™s wholly-owned special purpose financing subsidiaries became wholly-owned special purpose financing subsidiaries of COPJV, in each case, as a result of the consummation of the COPJV Merger. COPJVâ€™s second amended and restated limited liability company agreement, or, as amended, the COPJV Agreement, requires the Company and SCRS to provide capital to COPJV of up to $2,640 in the aggregate where the Company and SCRS would provide 87.5% and 12.5%, respectively, of the committed capital. Pursuant to the terms of the COPJV Agreement, the Company and SCRS each have 50% voting control of COPJV and are required to agree on all investment decisions as well as certain other significant actions for COPJV. COPJV invests its capital in a range of investments, including senior secured loans (both first lien and second lien) to middle market companies, broadly syndicated loans, equity, warrants and other investments. As administrative agent of COPJV, the Company performs certain day-to-day management responsibilities on behalf of COPJV and is entitled to a fee of 0.25% of COPJVâ€™s assets under administration, calculated and payable quarterly in arrears. As of SeptemberÂ 30, 2024, the Company and SCRS have funded approximately $1,799.8 to COPJV, of which $1,574.8 was from the Company.Below is a summary of COPJVâ€™s portfolio as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023: As ofSeptemberÂ 30, 2024December 31, 2023Total debt investments(1)$3,165.0Â $3,131.6Â Weighted average annual yield on accruing debt investments(2)10.9Â %11.6Â %Number of portfolio companies in COPJV123Â 124Â Largest investment in a single portfolio company$126.2Â $134.2Â Unfunded commitments$57.0Â $24.7Â _____(1)â€œDebt Investmentsâ€ means investments that pay or are expected to pay a stated interest rate, stated dividend rate or other similar stated return.(2)The Weighted Average Annual Yield on Accruing Debt Investments is computed as (i) the sum of (a) the stated annual interest rate, dividend rate or other similar stated return of each accruing Debt Investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each accruing Debt Investment; divided by (ii) the total amortized cost of Debt Investments included in the calculated group as of the end of the applicable reporting period. months ended September 30, 2024 and 2023, respectively. Cash flows related to such non-cash revenues may not occur for a number of reporting periods or years after such revenues are recognized. The level of interest income we receive is generally related to the balance of income-producing investments, multiplied by the weighted average yield of our investments. Fee income is transaction based, and typically consists of amendment and consent fees, prepayment fees, structuring fees and other non-recurring fees. As such, fee income is generally dependent on new direct origination investments and the occurrence of events at existing portfolio companies resulting in such fees. The decrease in interest and PIK income during the three and nine months ended SeptemberÂ 30, 2024 compared to the three and nine months ended SeptemberÂ 30, 2023 is primarily attributable to the repayment of higher yielding positions and lost interest income on certain assets that were placed on non-accrual status during the year ended DecemberÂ 31, 2023.The increase in fee income for the three and nine months ended SeptemberÂ 30, 2024 compared to the three and nine months ended SeptemberÂ 30, 2023 is primarily attributable to increased origination activity during the three and nine months ended SeptemberÂ 30, 2024. The decrease in dividend income during the three and nine months ended SeptemberÂ 30, 2024 compared to the three and nine months ended SeptemberÂ 30, 2023 is primarily attributable to lower dividends on certain asset based finance investments during the three and nine months ended SeptemberÂ 30, 2024.80Table of ContentsExpensesOur operating expenses for the three and nine months ended September 30, 2024 and 2023 were as follows: Â Three Months Ended September 30,Nine Months Ended September 30,Â 20242023202420232023Management fees$54Â $56Â $163Â $170Â Subordinated income incentive fees44Â 47Â 132Â 140Â Administrative services expenses2Â 3Â 7Â 10Â Accounting and administrative fees1Â 1Â 3Â 3Â Interest expense118Â 117Â 349Â 349Â Other expenses7Â 7Â 18Â 19Â Total operating expenses$226Â $231Â $672Â $691Â The following table reflects selected expense ratios as a percent of average net assets for the three and nine months ended September 30, 2024 and 2023: Â Three Months Ended September 30,Nine Months Ended September 30,Â 20242023202420232023Ratio of operating expenses to average net assets3.33Â %3.31Â %9.80Â %9.82Â %Ratio of incentive fees, interest expense and excise taxes to average net assets(1)2.39Â %2.35Â %7.02Â %6.95Â %Ratio of net operating expenses, excluding certain expenses, to average net assets0.94Â %0.96Â %2.78Â %2.87Â %_____(1)Ratio data may be rounded in order to recompute the ending ratio of net operating expenses to average net assets or net operating expenses, excluding certain expenses, to average net assets.The decrease in expenses during the three and nine months ended SeptemberÂ 30, 2024 compared to the three and nine months ended SeptemberÂ 30, 2023 can primarily be attributed to a decrease in subordinated income incentive fees and management fees as a result of the lower asset base and lower investment income as discussed above.Incentive fees and interest expense, among other things, may increase or decrease our expense ratios relative to comparative periods depending on portfolio performance and changes in amounts outstanding under our financing arrangements and benchmark interest rates such as SOFR, among other factors.Net Investment IncomeOur net investment income totaled $215 ($0.77 per share) and $234 ($0.84 per share) for the three months ended SeptemberÂ 30, 2024 and 2023, respectively. As of SeptemberÂ 30, 2024, we also held broadly syndicated investments and opportunistic investments that we believe could be sold to create additional liquidity. As of SeptemberÂ 30, 2024, we had unfunded debt investments with aggregate unfunded commitments of $1,600.5, unfunded equity/other commitments of $533.8 and unfunded commitments of $735.2 of COPJV. We maintain sufficient cash on hand, available borrowings and liquid securities to fund such unfunded commitments should the need arise. We currently generate cash primarily from cash flows from fees, interest and dividends earned from our investments, as well as principal repayments and proceeds from sales of our investments. To seek to enhance our returns, we also employ leverage as market conditions permit and at the discretion of the Adviser, but in no event will leverage employed exceed the maximum amount permitted by the 1940 Act. Prior to June 14, 2019, in accordance with the 1940 Act, we were allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, was at least 200% after such borrowing. Effective JuneÂ 15, 2019, our asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As ofÂ SeptemberÂ 30, 2024, the aggregate amount outstanding of the senior securities issued by us was $8.1 billion. As of SeptemberÂ 30, 2024, our asset coverage wasÂ 183%. In order to qualify for RIC tax treatment, we must, among other things, make distributions of an amount at least equal to 90% of our investment company taxable income, determined without regard to any deduction for distributions paid, each tax year. As long as the distributions are declared by the later of the fifteenth day of the tenth month following the close of a tax year or the due date of the tax return for such tax year, including extensions, distributions paid up to twelve months after the current tax year can be carried back to the prior tax year for determining the distributions paid in such tax year. We intend to make sufficient distributions to our stockholders to qualify for and maintain our 83Table of ContentsRIC tax status each tax year. We are also subject to a 4% nondeductible federal excise tax on certain undistributed income unless we make distributions in a timely manner to our stockholders generally of an amount at least equal to the sum of (1) 98% of our net ordinary income (taking into account certain deferrals and elections) for the calendar year, (2) 98.2% of our capital gain net income, which is the excess of capital gains in excess of capital losses, or â€œcapital gain net incomeâ€ (adjusted for certain ordinary losses), for the one-year period ending October 31 of that calendar year and (3) any net ordinary income and capital gain net income for the preceding years that were not distributed during such years and on which we paid no U.S. federal income tax. Any distribution declared by us during October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following calendar year, will be treated as if it had been paid by us, as well as received by our stockholders, on December 31 of the calendar year in which the distribution was declared. We can offer no assurance that we will achieve results that will permit us to pay any cash distributions. If we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.Subject to applicable legal restrictions and the sole discretion of our board of directors, we intend to authorize, declare and pay regular cash distributions on a quarterly basis. We will calculate each stockholderâ€™s specific distribution amount for the period using record and declaration dates and each stockholderâ€™s distributions will begin to accrue on the date that shares of our common stock are issued to such stockholder. From time to time, we may also pay special interim distributions in the form of cash or shares of our common stock at the discretion of our board of directors.During certain periods, our distributions may exceed our earnings. As a result, it is possible that a portion of the distributions we make may represent a return of capital. A return of capital generally is a return of a stockholderâ€™s investment rather than a return of earnings or gains derived from our investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions will be mailed to our stockholders. No portion of the distributions paid during the nine months ended September 30, 2024 or 2023 represented a return of capital.We intend to make our regular distributions in the form of cash, out of assets legally available for distribution, except for those stockholders who receive their distributions in the form of shares of our common stock under the DRP. Any distributions reinvested under the plan will nevertheless remain taxable to a U.S. stockholder.The following tables reflect the distributions per share that we have declared on our common stock during the nine months ended September 30, 2024 and 2023: Â For the Nine Months EndedSeptemberÂ 30, 2024Date DeclaredDividendRecord DatePayment DateDividend per ShareNovember 2, 2023SpecialFebruary 14, 2024February 28, 2024$0.05Â February 20, 2024BaseMarch 13, 2024April 2, 20240.64Â February 20, 2024SupplementalMarch 13, 2024April 2, 20240.06Â November 2, 2023SpecialMay 15, 2024May 29, 20240.05Â May 2, 2024BaseJune 12, 2024July 2, 20240.64Â May 2, 2024SupplementalJune 12, 2024July 2, 20240.06Â July 31, 2024BaseSeptember 11, 2024October 2, 20240.64Â July 31, 2024SupplementalSeptember 11, 2024October 2, 20240.06Â Total Dividends Declared$2.20Â Â For the Nine Months EndedSeptemberÂ 30, 2023Date DeclaredDividendRecord DatePayment DateDividend per ShareFebruary 21, 2023BaseMarch 15, 2023April 3, 2023$0.64Â February 21, 2023SupplementalMarch 15, 2023April 3, 20230.06Â May 4, 2023SpecialMay 17, 2023May 31, 20230.05Â May 4, 2023BaseJune 14, 2023July 5, 20230.64Â May 4, 2023SupplementalJune 14, 2023July 5, 20230.06Â May 4, 2023SpecialAugust 16, 2023August 30, 20230.05Â August 3, 2023BaseSeptember 13, 2023October 3, 20230.64Â August 3, 2023SupplementalSeptember 13, 2023October 3, 20230.06Â Total Dividends Declared$2.20Â 84Table of ContentsSee Note 5 to our unaudited consolidated financial statements included herein for additional information regarding our distributions.Recent Developments None.Critical Accounting Policies and EstimatesOur financial statements are prepared in conformity with GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming the estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. Understanding our accounting policies and the extent to which we use management judgment and estimates in applying these policies is integral to understanding our financial statements. We describe our most significant accounting policies in â€œNote 2. Summary of Significant Accounting Policiesâ€ in our consolidated financial statements. Critical accounting policies are those that require the application of managementâ€™s most difficult, subjective or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. We evaluate our critical accounting estimates and judgments required by our policies on an ongoing basis and update them as necessary based on changing conditions. We have identified one of our accounting policies, valuation of portfolio investments, specifically the valuation of Level 3 investments, as critical because it involves significant judgments and assumptions about highly complex and inherently uncertain matters, and the use of reasonably different estimates and assumptions could have a material impact on our reported results of operations or financial condition. As we execute our operating plans, we will describe additional critical accounting policies in the notes to our future financial statements in addition to those discussed below. Valuation of Portfolio InvestmentsOur board of directors is responsible for overseeing the valuation of our portfolio investments at fair value as determined in good faith pursuant to the Adviserâ€™s valuation policy. As permitted by Rule 2a-5 of the 1940 Act, our board of directors has designated the Adviser as our valuation designee with day-to-day responsibility for implementing the portfolio valuation process set forth in the Adviserâ€™s valuation policy. Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosure, or ASC Topic 820, issued by the FASB clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or

paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical securities; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities where there is little or no activity in the market; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions. The Adviser determines the fair value of our investment portfolio each quarter. Securities that are publicly-traded with readily available market prices will be valued at the reported closing price on the valuation date. Securities that are not publicly-traded with readily available market prices will be valued at fair value as determined in good faith by the Adviser. In connection with that determination, the Adviser will prepare portfolio company valuations which are based on relevant inputs, including, but not limited to, indicative dealer quotes, values of like securities, recent portfolio company financial statements and forecasts, and valuations prepared by independent third-party pricing and valuation services.With respect to investments for which market quotations are not readily available, we undertake a multi-step valuation process each quarter, as described below:â€¢our quarterly fair valuation process begins by the Adviser facilitating the delivery of updated quarterly financial and other information relating to each investment to an independent third-party pricing or valuation service; â€¢the independent third-party pricing or valuation service then reviews and analyzes the information, along with relevant market and economic data, and determines proposed valuations for each portfolio company or investment according to the valuation methodologies in the Adviserâ€™s valuation policy and communicates the information to the Adviser in the form of a valuation range for Level 3 assets; 85Table of Contentsâ€¢the Adviser then reviews the preliminary valuation information for each portfolio company or investment and provides feedback about the accuracy, completeness and timeliness of the valuation-related inputs considered by the independent third-party pricing or valuation service and any suggested revisions thereto prior to the independent third-party pricing or valuation service finalizing its valuation range; â€¢the Adviser then provides the valuation committee with its valuation determinations and valuation-related information for each portfolio company or investment, along with any applicable supporting materials; and other information that is relevant to the fair valuation process as required by the Adviserâ€™s board reporting obligations; â€¢the valuation committee meets with the Adviser to receive the relevant quarterly reporting from the Adviser and to discuss any questions from the valuation committee in connection with the valuation committee's role in overseeing the fair valuation process; andâ€¢following the completion of its fair value oversight activities, the valuation committee (with the assistance of the Adviser) provides our board of directors with a report regarding the quarterly valuation process. In circumstances where the Adviser deems appropriate, the Adviserâ€™s internal valuation team values certain investments. When performing the internal valuations, the Adviser utilizes similar valuation techniques as an independent third-party pricing service would use. Such valuations are approved by an internal valuation committee of the Adviser, as well as the valuation committee of the board of directors, as described above. Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements refer to the uncertainty with respect to the possible effect of such valuations and any change in such valuations on our consolidated financial statements. In making its determination of fair value, the Adviser may use any independent third-party pricing or valuation services for which it has performed the appropriate level of due diligence. However, the Adviser is not required to determine fair value in accordance with the valuation provided by any single source, and may use any relevant data, including information sourced by the Adviser or provided by any independent third-party valuation or pricing service that the Adviser deems to be reliable in determining fair value under the circumstances. Below is a description of factors that the Adviser and any independent third-party valuation services may consider when determining the fair value of our investments. The valuation methods utilized for each portfolio company may vary depending on industry and company-specific considerations. Typically, the first step is to make an assessment as to the enterprise value of the portfolio company's business in order to establish whether the portfolio company's enterprise value is greater than the amount of its debt as of the valuation date. This analysis helps to determine a risk profile for the applicable portfolio company and its related investments, and the appropriate valuation methodology to utilize as part of the security valuation analysis. The enterprise valuation may be determined using a market or income approach. Valuation of fixed income investments, such as loans and debt securities, depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, call features, put features and other relevant terms of the debt. For investments without readily available market prices, the Adviser may incorporate these factors into discounted cash flow models to arrive at fair value. Various methods may be used to determine the appropriate discount rate in a discounted cash flow model. Other factors that may be considered include the borrowerâ€™s ability to adequately service its debt, the fair market value of the borrower in relation to the face amount of its outstanding debt and the quality of collateral securing the debt investments. For convertible debt securities, fair value generally approximates the fair value of the debt plus the fair value of an option to purchase the underlying security (i.e., the security into which the debt may convert) at the conversion price. To value such an option, a standard option pricing model may be used. Our equity interests in portfolio companies for which there is no liquid public market are valued at fair value. Generally, the value of our equity interests in public companies for which market quotations are readily available is based upon the most recent closing public market price.When we receive warrants or other equity securities at nominal or no additional cost in connection with an investment in a debt security, the cost basis in the investment will be allocated between the debt securities and any such warrants or other equity securities received at the time of origination. The Adviser subsequently values these warrants or other equity securities received at their fair value. See Note 8 to our unaudited consolidated financial statements included herein for additional information regarding the fair value of our financial instruments.86Table of ContentsContractual Obligations We have entered into agreements with the Adviser to provide us with investment advisory and administrative services. Payments for investment advisory services under the investment advisory agreement are equal to (a)Â an annual base management fee based on the average weekly value of our gross assets (excluding cash and cash equivalents) and (b)Â an incentive fee based on our performance. The Adviser is reimbursed for administrative expenses incurred on our behalf. See Note 4 to our unaudited consolidated financial statements included herein for a discussion of these agreements and for the amount of fees and expenses accrued under these agreements during the nine months ended September 30, 2024 and 2023.Off-Balance Sheet Arrangements We currently have no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices. ItemÂ 3.Â Â Â Â Quantitative and Qualitative Disclosures About Market Risk. Interest Rate RiskWe are subject to financial market risks, including changes in interest rates. As of SeptemberÂ 30, 2024, 68.6% of our portfolio investments (based on fair value) were debt investments paying variable interest rates and 8.2% were debt investments paying fixed interest rates while 15.8% wereÂ other income producing investments, 5.7% consisted of non-income producing investments, and the remaining 1.7% consisted of investments on non-accrual status. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to any variable rate investments we hold and to declines in the value of any fixed rate investments we hold. However, many of our variable rate investments provide for an interest rate floor, which may prevent our interest income from increasing until benchmark interest rates increase beyond a threshold amount. To the extent that a substantial portion of our investments may be in variable rate investments, an increase in interest rates beyond this threshold would make it easier for us to meet or exceed the hurdle rate applicable to the subordinated incentive fee on income, and may result in a substantial increase in our net investment income and to the amount of incentive fees payable to the Adviser with respect to our increased pre-incentive fee net investment income.Pursuant to the terms of the Ambler Credit Facility, CCT Tokyo Funding Credit Facility, Darby Creek Credit Facility, Meadowbrook Run Credit Facility, Senior Secured Revolving Credit Facility and the CLO-1 Notes, we borrow at a floating rate based on a benchmark interest rate. Under the indentures governing the 1.650% notes, the 4.125% notes, the 4.250% notes, the 8.625% notes, the 3.400% notes, the 2.625% notes, the 3.250% notes, the 3.125% notes, the 7.875% notes and the 6.875% notes, we pay interest to the holders of such notes at a fixed rate. To the extent that any present or future credit facilities or other financing arrangements that we or any of our subsidiaries enter into are based on a floating interest rate, we will be subject to risks relating to changes in market interest rates. In periods of rising interest rates when we or our subsidiaries have such debt outstanding, or financing arrangements in effect, our interest expense would increase, which could reduce our net investment income, especially to the extent we hold fixed rate investments. To hedge the risks associated with a changing interest rate environment, the Company utilizes interest rate swap strategies. For more information on the Companyâ€™s swap strategies, please see Note 2 and Note 7. 87Table of ContentsThe following table shows the effect over a twelve month period of changes in interest rates on our interest income, interest expense and net interest income, assuming no changes in the composition of our investment portfolio, including the accrual status of our investments, and our financing arrangements in effect as of SeptemberÂ 30, 2024 (dollar amounts are presented in millions): Basis Point Change in Interest RatesIncrease(Decrease)in InterestIncome(1)Increase(Decrease)in InterestExpense(2)Increase(Decrease)Â inNet InterestIncomePercentageChangeÂ inÂ NetInterestÂ IncomeDown 250 basis points(242)(72)$(170)(19.1)%Down 200 basis points(194)(58)(136)(15.3)%Down 150 basis points(145)(43)(102)(11.5)%Down 100 basis points(97)(29)(68)(7.6)%Down 50 basis points(48)(14)(34)(3.8)%Up 50 basis points48Â 14Â 34Â 3.8Â %Up 100 basis points97Â 29Â 68Â 7.6Â %Up 150 basis points145Â 43Â 102Â 11.5Â %Up 200 basis points194Â 58Â 136Â 15.3Â %Up 250 basis points242Â 72Â 170Â 19.1Â %_____(1)Assumes no defaults or prepayments by portfolio companies over the next twelve months.(2)Assumes current debt outstanding as of SeptemberÂ 30, 2024, and no changes over the next twelve months. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Adverse developments resulting from changes in interest rates or hedging transactions could have a material adverse effect on our business, financial condition and results of operations. Foreign Currency RiskFrom time to time, we may make investments that are denominated in a foreign currency that are subject to the effects of exchange rate movements between the foreign currency of each such investment and the U.S. dollar, which may affect future fair values and cash flows, as well as amounts translated into U.S. dollars for inclusion in our consolidated financial statements.The table below presents the effect that a 10% immediate, unfavorable change in the foreign currency exchange rates (i.e. strengthening of the U.S. dollar) would have on the fair value of our investments denominated in foreign currencies as of SeptemberÂ 30, 2024, by foreign currency, all other valuation assumptions remaining constant. In addition, the table below presents the par value of our investments denominated in foreign currencies and the notional amount of foreign currency forward contracts in local currency in place as of SeptemberÂ 30, 2024 to hedge against foreign currency risks.Investments Denominated in Foreign CurrenciesAs of SeptemberÂ 30, 2024Economic HedgingAs of SeptemberÂ 30, 2024Cost in Local CurrencyCost in US$Fair ValueReduction in Fair Value as of SeptemberÂ 30, 2024 if 10% Adverse Change in Exchange Rate(1)Net Foreign Currency Hedge Amount in Local CurrencyNet Foreign Currency Hedge Amount in U.S. DollarsAustralian DollarsA$1.4Â $1.0Â $1.1Â $0.1Â A$1.4Â $1.0Â British Pound SterlingÂ£147.9Â 198.1Â 208.6Â 20.9Â Â£46.5Â 62.3Â Canadian Dollars$2.2Â 1.6Â 1.6Â 0.2Â $0.8Â 0.6Â Eurosâ‚¬452.0Â 503.7Â 472.0Â 47.2Â â‚¬4.8Â 5.3Â Icelandic KronaISKâ€”Â â€”Â â€”Â â€”Â ISKâ€”Â â€”Â Swedish KronaSEK1,000.3Â 98.6Â 93.7Â 9.4Â SEK752.4Â 73.9Â Total$803.0Â $777.0Â $77.8Â $143.1Â _____(1)Excludes effect, if any, of any foreign currency hedges.As illustrated in the table above, we use derivative instruments from time to time, including foreign currency forward contracts and cross currency swaps, to manage the impact of fluctuations in foreign currency exchange rates. In addition, we have the ability to borrow in foreign currencies under our Senior Secured Revolving Credit Facility, which provides a natural hedge with regard to changes in exchange rates between the foreign currencies and U.S. dollar and reduces our exposure to foreign exchange rate 88Table of Contentsdifferences. We are typically a net receiver of these foreign currencies as related for our international investment positions, and, as a result, our investments denominated in foreign currencies, to the extent not hedged, benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar.As of SeptemberÂ 30, 2024, the net contractual amount of our foreign currency forward contracts totaled $143.1, all of which related to hedging of our foreign currency denominated debt investments. Share Repurchase ProgramIn November 2020, the Companyâ€™s board of directors authorized a stock repurchase program, which went into effect in September 2021, or the Share Repurchase Program. Under the Share Repurchase Program originally approved by the Company's board of directors, the Company was permitted to repurchase up to $100 in the aggregate of its outstanding common stock in the open market at prices below the then-current net asset value per share. On September 15, 2022, the program expired and was terminated pursuant to the terms of the program. On October 31, 2022, the board of directors approved a renewal of the Share Repurchase Program. The program provided for aggregate purchases of the Companyâ€™s common stock in amounts up to $54, which was the aggregate amount remaining of the $100 amount originally approved by the board of directors. During the nine months ended September 30, 2023, the Company repurchased 1,665,317 shares of common stock pursuant to the Share Repurchase Program at an average price per share (inclusive of commissions paid) of $18.89 (totaling $32). The Share Repurchase Program has concluded since the aggregate repurchase amount under the program has been expended. (NYSE: FSK), or the Company, was incorporated under the general corporation laws of the State of Maryland on DecemberÂ 21, 2007 and formally commenced investment operations on JanuaryÂ 2, 2009. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, the Company has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a regulated investment company, or RIC, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. The Company has various wholly-owned subsidiaries, including special-purpose financing subsidiaries and subsidiaries through which it holds interests in portfolio companies. The unaudited consolidated financial statements include both the Companyâ€™s accounts and the accounts of its wholly-owned subsidiaries as of SeptemberÂ 30, 2024. All intercompany transactions have been eliminated in consolidation. Certain of the Companyâ€™s consolidated subsidiaries are subject to U.S. federal and state income taxes.The Companyâ€™s investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. The Company's portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle-market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. In addition, a portion of the Companyâ€™s portfolio may be comprised of equity and equity-related securities, corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Company is externally managed by FS/KKR Advisor, LLC, or the Adviser, pursuant to an investment advisory agreement, dated as of June 16, 2021, or the investment advisory agreement. Prior to entering into the investment advisory agreement, the Company was a party to an investment advisory agreement, dated as of December 20, 2018, with the Adviser, or the prior investment advisory agreement, which remained in effect until June 16, 2021. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Companyâ€™s interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023 included in the Companyâ€™s annual report on Form 10-K for the year ended DecemberÂ 31, 2023. Operating results for the nine months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the year ending DecemberÂ 31, 2024. The DecemberÂ 31, 2023 consolidated balance sheet and consolidated schedule of investments are derived from the Companyâ€™s audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies under Financial Accounting Standards Board, or the FASB, Accounting Standards Codification Topic 946, Financial Servicesâ€”Investment Companies.Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.Capital Gains Incentive Fee:Â Pursuant to the terms of the investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory agreement). This fee equals 20.0% of the Companyâ€™s incentive fee capital gains, which shall equal the realized capital gains of Corporate Capital Trust, Inc., or CCT, (as predecessor-by-merger to the Company), FS KKR Capital Corp. II, or FSKR, (as predecessor-by-merger to the Company) and the Company (without duplication) on a cumulative basis from inception, calculated as of the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation (without duplication) on a cumulative basis, less the aggregate amount of any capital gain incentive fees previously paid by CCT, FSKR and the Company. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.The Company includes unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to the Adviser if the Companyâ€™s entire portfolio was liquidated at its fair value as of the balance sheet date even though the Adviser is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.Subordinated Income Incentive Fee: Pursuant to the terms of the investment advisory agreement, the Adviser may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the investment advisory agreement, which is calculated and payable quarterly in arrears, equals 17.5% of the Companyâ€™sÂ â€œpre-incentiveÂ fee net investment incomeâ€ for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on the value of the Companyâ€™s net assets, equal to 1.75%Â per quarter, or an annualized hurdle rate of 7.0%.Â As a result, the Adviser will not earn this incentive fee for any quarter until the Companyâ€™sÂ pre-incentiveÂ fee net investment income for such quarter exceeds the hurdle rate of 1.75%. Once the Companyâ€™sÂ pre-incentiveÂ fee net investment income in any quarter exceeds the hurdle rate, the Adviser will be entitled to aÂ â€œcatch-upâ€Â fee equal to the amount of theÂ pre-incentiveÂ fee net investment income in excess of the hurdle rate, until the Companyâ€™sÂ pre-incentiveÂ fee net investment income for such quarter equals 2.12%, or 8.48% annually, of net assets. Thereafter, the Adviser will be entitled to receive 17.5% ofÂ pre-incentiveÂ fee net investment income. See Note 4 for a discussion of the subordinated incentive fee on income under the prior investment advisory agreement.Revenue Recognition: Security transactions are accounted for on the trade date. The Company records interest income on an accrual basis to the extent that it expects to collect such amounts. The Company records dividend income on the ex-dividend date. Distributions received from limited liability company, or LLC, and limited partnership, or LP, investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. The Company does not accrue as a receivable interest or dividends on loans and securities if it has reason to doubt its ability to collect such income. The Companyâ€™s policy is to place investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the accrued interest will be written-off. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on the Companyâ€™s judgment. Loan origination fees, original issue discount and market discount are capitalized and the Company amortizes such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. For the nine months ended September 30, 2024 and 2023, the Company recognized $28 and $13, respectively, in structuring fee revenue. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts. Derivative Instruments: The Companyâ€™s derivative instruments include foreign currency forward contracts and interest rate swaps. The Company has designated certain interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in and recognized as components of interest expense in the Companyâ€™s consolidated statements of operations. The change in fair value of the interest rate swaps is offset by a change in the carrying value of the corresponding fixed rate debt. For all other derivatives, the Company does not utilize hedge accounting and recognizes such derivative instruments as assets or liabilities at fair value in its consolidated financial statements. Changes in fair value of derivative contracts entered into by the Company which have not been designated as hedging instruments are recognized through the net change in unrealized appreciation (depreciation) on derivative instruments in the consolidated statements of operations. Realized gains and losses on the derivative instruments are included in net realized gains (losses) on derivative instruments in the consolidated statements of operations. Effective JuneÂ 15, 2019, in connection with stockholder approval of the modification of the asset coverage requirement applicable to senior securities from 200% to 150%, the Adviser reduced (by permanent waiver) the annual base management fee payable under the investment advisory agreement from 1.5% to 1.0% on all assets financed using leverage over 1.0x debt-to-equity. The base management fee is payable quarterly in arrears. All or any part of the base management fee not taken as to any quarter will be deferred without interest and may be taken in such other quarter as the Adviser determines. The prior investment advisory agreement had substantially similar terms as the investment advisory agreement, except that the investment advisory agreement amended the prior investment advisory agreement to (i) reduce the Companyâ€™s income incentive fee rate from 20% to 17.5%; and (ii) remove the total return lookback provision applicable to the subordinated incentive fee on income from the prior investment advisory agreement. Under the prior investment advisory agreement, the subordinated incentive fee on income was subject to a cap equal to (i) 20.0% of the â€œper share pre-incentive fee returnâ€ for the then-current and eleven preceding calendar quarters minus the cumulative â€œper share incentive feesâ€ accrued and/or payable for the eleven preceding calendar quarters multiplied by (ii) the weighted average number of shares outstanding during the calendar quarter (or any portion thereof) for which the subordinated incentive fee on income was being calculated. The definitions of â€œper share pre-incentive fee returnâ€ and â€œper share incentive feesâ€ under the prior investment advisory agreement took into account the historic per share pre-incentive fee return of both the Company and CCT, together with the historic per share incentive fees paid by both the Company and CCT. For the purpose of calculating the â€œper share pre-incentive fee return,â€ any unrealized appreciation or depreciation recognized as a result of the purchase accounting for the Companyâ€™s acquisition of CCT was excluded. See Note 2 for a discussion of the capital gains and subordinated income incentive fees that the Advisor may be entitled to under the investment advisory agreement.On June 16, 2021, the Company completed its acquisition, or the 2021 Merger, of FSKR pursuant to that certain Agreement and Plan of Merger, or the 2020 Merger Agreement, dated as of November 23, 2020, by and among the Company, FSKR, Rocky Merger Sub, Inc., a former wholly-owned subsidiary of the Company, or Merger Sub, and the Adviser. In connection with the entry into the investment advisory agreement, the Adviser agreed to waive income incentive fees in the amount of $15 per quarter for the first six full fiscal quarters of operations following the closing of the 2021 Merger, commencing on July 1, 2021, for a total waiver of $90. The fee waiver expired on December 31, 2022. In addition, the Adviser has agreed to exclude from the calculation of the subordinated incentive fee on income and the incentive fee on capital gains any changes to the fair value recorded for the assets and liabilities of FSKR resulting solely from the new cost basis of the acquired FSKR investments determined in accordance with Accounting Standards Codification Topic 805-50, Business Combinationsâ€”Related Issues as a result of the 2021 Merger.On AprilÂ 9, 2018, the Company entered into an administration agreement with the Adviser, or the administration agreement. Pursuant to the administration agreement, the Adviser oversees the Companyâ€™s day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Adviser also performs, or oversees the performance of, the Companyâ€™s corporate operations and required administrative services, which includes being responsible for the financial records that the Company is required to maintain and preparing reports for the Companyâ€™s stockholders and reports filed with the U.S. Securities and Exchange Commission, or the SEC. In addition, the Adviser assists the Company in calculating its net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to the Companyâ€™s stockholders, and generally overseeing the payment of the Companyâ€™s expenses and the performance of administrative and professional services rendered to the Company by others. Pursuant to the administration agreement, the Company reimburses the Adviser for expenses necessary to perform services related to its administration and operations, including the Adviserâ€™s allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings, L.P., which does business as FS Investments, or FS Investments, and KKR Credit Advisors (US), LLC, or KKR Credit, providing administrative services to the Company on behalf of the Adviser. The Company reimburses the Adviser no less than quarterly for all costs and expenses incurred by the Adviser in performing its obligations and providing personnel and facilities under the administration agreement. The Adviser allocates the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Companyâ€™s board of directors reviews the methodology employed in determining how the expenses are allocated to the Company and the proposed allocation of administrative expenses among the Company and certain affiliates of the Adviser. The Companyâ€™s board of directors then assesses the reasonableness of such reimbursements for expenses allocated to it based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Companyâ€™s board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, the Companyâ€™s board of directors compares the total amount paid to the Adviser for such services as a percentage of the Companyâ€™s net assets to the same ratio as reported by other comparable BDCs. As of SeptemberÂ 30, 2024, subordinated incentive fees on income of $44 were payable to the Adviser.(3)During the nine months ended September 30, 2024 and 2023, $7 and $8, respectively, of administrative services expenses related to the allocation of costs of administrative personnel for services rendered to the Company by the Adviser and the remainder related to other reimbursable expenses, including reimbursement of fees related to transactional expenses for prospective investments, such as fees and expenses associated with performing due diligence reviews of investments that do not close, often referred to as â€œbroken dealâ€ costs. Broken deal costs were $0.6 for the nine months ended September 30, 2024. The Company paid $7 and $10, respectively, in administrative services expenses to the Adviser during the nine months ended September 30, 2024 and 2023. Potential Conflicts of InterestThe members of the senior management and investment teams of the Adviser serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as the Company does, or of investment vehicles managed by the same personnel. For example, the Adviser is the investment adviser to KKR FS Income Trust and KKR FS Income Trust Select, and the officers, managers and other personnel of the Adviser may serve in similar or other capacities for the investment advisers to future investment vehicles affiliated with FS Investments or KKR Credit. In serving in these multiple and other capacities, they may have obligations to other clients or investors in those entities, the fulfillment of which may not be in the Companyâ€™s best interests or in the best interest of the Companyâ€™s stockholders. The Companyâ€™s investment objectives may overlap with the investment objectives of such investment funds, accounts or other investment vehicles. For additional information regarding potential conflicts of interest, see the Companyâ€™s annual report on Form 10-K for the year ended December 31, 2023. Exemptive Relief As a BDC, the Company is subject to certain regulatory restrictions in making its investments. For example, BDCs generally are not permitted toÂ co-investÂ with certain affiliated entities in transactions originated by the BDC or its affiliates in the absence of an exemptive order from the SEC. However, BDCs are permitted to, and may, simultaneouslyÂ co-investÂ in transactions where price is the only negotiated term. In an order dated JuneÂ 4, 2013, or the FS Order, the SEC granted exemptive relief permitting the Company, subject to the satisfaction of certain conditions, toÂ co-investÂ in certain privately negotiated investment transactions with certain affiliates of its former investment adviser and any future BDCs that are advised by its former investment adviser or its affiliated investment advisers. However, in connection with the investment advisory relationship with the Adviser, and in an effort to mitigate potential future conflicts of interest, the Companyâ€™s board of directors authorized and directed that the Company (i) withdraw from the FS Order, except with respect to any transaction in which the Company participated in reliance on the FS Order prior to April 9, 2018, and (ii) rely on an exemptive relief order, dated January 5, 2021, that permits the Company, subject to the satisfaction of certain conditions, toÂ co-investÂ in certain privately negotiated investment transactions, including investments originated and directly negotiated by the Adviser or KKR Credit, with certain affiliates of the Adviser.Affiliated Purchaser ProgramAs previously disclosed, certain affiliates of the owners of the Adviser committed $100 to a $350 investment vehicle that may invest from time to time in shares of the Companyâ€™s common stock. In September 2021 and December 2021, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the purchase of shares of the Companyâ€™s common stock pursuant to the terms and conditions of such plan. In September 2022, August 2023, and March 2024, that investment vehicle entered into a written trading plan with a third-party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the sale of shares of the Companyâ€™s common stock pursuant to the terms and conditions of such plan. The Company is not a party to any transaction with the investment vehicle. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Companyâ€™s board of directors.Pursuant to the DRP, the Company will reinvest all cash dividends or distributions declared by the Companyâ€™s board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if the Companyâ€™s board of directors declares a distribution, then stockholders who have not elected to â€œopt outâ€ of the DRP will have their distributions automatically reinvested in additional shares of the Companyâ€™s common stock.With respect to each distribution pursuant to the DRP, the Company reserves the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the DRP. Unless the Company, in its sole discretion, otherwise directs the plan administrator, (A) if the per share market price (as defined in the DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of the Companyâ€™s common stock on the payment date for the distribution, then the Company will issue shares of common stock at the greater of (i) net asset value

per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in the sole discretion of the Company, (i) shares of common stock will be purchased in open market transactions for the accounts of participants to the extent practicable, or (ii) the Company will issue shares of common stock at net asset value per share. Pursuant to the terms of the DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which the Company issues such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.If a stockholder receives distributions in the form of common stock pursuant to the DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If the Companyâ€™s common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If the Companyâ€™s common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of the Companyâ€™s common stock. The stockholderâ€™s basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholderâ€™s account.The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Companyâ€™s common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Companyâ€™s distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholderâ€™s investment rather than a return of earnings or gains derived from the Companyâ€™s investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Companyâ€™s stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.The following table reflects the sources of the cash distributions on a tax basis that the Company has paid on its common stock during the nine months ended September 30, 2024 and 2023: Â Â Nine Months Ended September 30,Â 20242023Source of DistributionDistributionAmountPercentageDistributionAmountPercentageReturn of capital$â€”Â â€”Â $â€”Â â€”Â Net investment income(1)616Â 100Â %616Â 100Â %Short-term capital gains proceeds from the sale of assetsâ€”Â â€”Â â€”Â Â â€”Â Long-term capital gains proceeds from the sale of assetsâ€”Â â€”Â â€”Â â€”Â Total$616Â 100Â %$616Â 100Â %_____(1)During the nine months ended September 30, 2024 and 2023, 86.4% and 85.7%, respectively, of the Companyâ€™s gross investment income was attributable to cash income earned, 2.6% and 3.0%, respectively, was attributable to non-cash accretion of discount and 11.0% and 11.3%, respectively, was attributable to PIK interest.The determination of the tax attributes of the Companyâ€™s distributions is made annually as of the end of the Companyâ€™s fiscal year based upon the Companyâ€™s taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of the Companyâ€™s distributions for a full year. The actual tax characteristics of distributions to stockholders are reported to stockholders annually on Form 1099-DIV. Net capital losses may be carried forward indefinitely, and their character is retained as short-term or long-term losses. As of SeptemberÂ 30, 2024, the Company had capital loss carryforwards available to offset future realized capital gains of approximately $2,369. Because of the loss limitation rules of the Code, some of the tax basis losses may be limited in their use. Any unused balances resulting from such limitations may be carried forward into future years indefinitely.As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Companyâ€™s gross unrealized appreciation on a tax basis was $1,239 and $1,282, respectively. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Companyâ€™s gross unrealized depreciation on a tax basis was $2,215 and $2,418, respectively.The aggregate cost of the Companyâ€™s investments for U.S. federal income tax purposes totaled $15,622 and $16,517 as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis was $(1,679) and $(1,868) as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis excludes net unrealized appreciation (depreciation) from merger accounting, foreign currency forward contracts and foreign currency transactions.As of SeptemberÂ 30, 2024, the Company had a deferred tax liability of $2 resulting from unrealized appreciation on investments held by the Companyâ€™s wholly-owned taxable subsidiaries, a deferred tax asset of $115 resulting from a combination of unrealized depreciation on investments held by and net operating losses and other tax attributes of the Companyâ€™s wholly-owned taxable subsidiaries and a current tax liability of $2 resulting from realized gains on investments held by the Company's wholly-owned taxable subsidiaries. As of SeptemberÂ 30, 2024, certain wholly-owned taxable subsidiaries anticipated that they would be unable to fully utilize their generated net operating losses, therefore the deferred tax asset was offset by a valuation allowance of $113. SCRS purchased its interests in COPJV from Conway Capital, LLC, an affiliate of Guggenheim Life and Annuity Company and Delaware Life Insurance Company, in June 2019, which had no impact on the significant terms governing COPJV other than an increase in the aggregate capital commitment (but not the percentage of the aggregate capital committed by each member) to COPJV. Effective as of June 18, 2021, Credit Opportunities Partners, LLC, or COP, merged with and into COPJV, with COPJV surviving the merger, or the COPJV Merger. As of June 18, 2021, COPJV assumed all of COPâ€™s obligations under its credit facilities, and COPâ€™s wholly-owned special purpose financing subsidiaries became wholly-owned special purpose financing subsidiaries of COPJV, in each case, as a result of the consummation of the COPJV Merger. Effective June 6, 2024, the Second Amended and Restated Limited Liability Company Agreement, or, as amended, the COPJV Agreement, between the Company and SCRS was amended, increasing the capital commitments of each member. The COPJV Agreement requires the Company and SCRS to provide capital to COPJV of up to $2,640 in the aggregate where the Company and SCRS would provide 87.5% and 12.5%, respectively, of the committed capital. Pursuant to the terms of the COPJV Agreement, the Company and SCRS each have 50% voting control of COPJV and are required to agree on all investment decisions as well as certain other significant actions for COPJV. COPJV invests its capital in a range of investments, including senior secured loans (both first lien and second lien) to middle market companies, broadly syndicated loans, equity, warrants and other investments. As administrative agent of COPJV, the Company performs certain day-to-day management responsibilities on behalf of COPJV and is entitled to a fee of 0.25% of COPJVâ€™s assets under administration, calculated and payable quarterly in arrears. As of SeptemberÂ 30, 2024, the Company and SCRS have funded approximately $1,799.8 to COPJV, of which $1,574.8 was from the Company.During the nine months ended September 30, 2024, the Company sold investments with a cost of $554.1 for proceeds of $559.6 to COPJV and recognized a net realized gain (loss) of $5.5 in connection with the transactions. As of SeptemberÂ 30, 2024, $437.4 of these sales to COPJV are included in the Companyâ€™s receivable for investments sold in the consolidated statements of assets and liabilities.Below is selected balance sheet information for COPJV as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:As ofSeptemberÂ 30, 2024 (Unaudited)December 31, 2023Selected Balance Sheet InformationTotal investments, at fair value$3,462.4Â $3,470.8Â Cash and other assets405.0Â 272.2Â Total assets3,867.4Â 3,743.0Â Debt1,722.1Â 1,840.1Â Other liabilities563.9Â 306.5Â Total liabilities2,286.0Â 2,146.6Â Member's equity$1,581.4Â $1,596.4Â Below is selected statement of operations information for COPJV for the three and nine months ended September 30, 2024 and 2023:Three Months Ended September 30,Nine Months Ended September 30,20242023Selected Statement of Operations InformationTotal investment income$85.5Â $99.3Â $266.3Â $289.8Â ExpensesInterest expense29.7Â 30.4Â 92.0Â 91.6Â Custodian and accounting fees1.3Â 0.4Â 2.1Â 1.2Â Administrative services2.2Â 2.3Â 6.9Â 7.1Â Professional services0.1Â 0.2Â 0.4Â 0.4Â Other0.4Â 0.3Â 1.0Â 0.9Â Total expenses33.7Â 33.6Â 102.4Â 101.2Â Net investment income51.8Â 65.7Â 163.9Â 188.6Â Net realized and unrealized gain (loss)(3.7)25.8Â (6.9)(25.3)Net increase in net assets resulting from operations$48.1Â $91.5Â $157.0Â $163.3Â X - ReferencesNo definition available. + Details Name: us-gaap_InvestmentCompanyAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for investment. + ReferencesReference 1: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 320 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/320/tableOfContentReference 2: http://www.xbrl.org/2009/role/commonPracticeRef -Name Accounting Standards Codification -Topic 321 -Publisher FASB -URI https://asc.fasb.org/321/tableOfContentReference 3: http://www.xbrl.org/2009/role/commonPracticeRef -Name Accounting Standards Codification -Topic 325 -Publisher FASB -URI https://asc.fasb.org/325/tableOfContent + Details Name: us-gaap_InvestmentTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration XML 26 R16.htm IDEA: XBRL DOCUMENT v3.24.3 Financial Instruments 9 Months Ended Sep. 30, 2024 Derivative Instruments and Hedging Activities Disclosure [Abstract] Â Financial Instruments Financial InstrumentsThe following is a summary of the fair value and location of the Companyâ€™s derivative instruments not designated as a qualifying hedge accounting relationship in the consolidated balance sheets held as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:Derivative InstrumentStatement LocationSeptemberÂ 30, 2024 (Unaudited)December 31, 2023Foreign currency forward contractsUnrealized appreciation on foreign currency forward contracts$0Â $13Â Foreign currency forward contractsUnrealized depreciation on foreign currency forward contracts(10)(4)Total(10)9Â Net realized and unrealized gains and losses on derivative instruments not designated as a qualifying hedge accounting relationship recorded by the Company for the nine months ended September 30, 2024 and 2023 are in the following locations in the consolidated statements of operations:Nine Months Ended September 30,Derivative InstrumentStatement Location20242023Foreign currency forward contractsNet realized gain (loss) on foreign currency forward contracts$20Â $7Â Foreign currency forward contractsNet change in unrealized appreciation (depreciation) on foreign currency forward contracts(19)(3)Total$1Â $4Â Offsetting of Derivative InstrumentsThe Company has derivative instruments that are subject to master netting agreements. A foreign currency forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. These contracts are marked-to-market by recognizing the difference between the contract forward exchange rate and the forward market exchange rate on the last day of the period presented as unrealized appreciation or depreciation. Realized gains or losses are recognized when forward contracts are settled. Risks arise as a result of the potential inability of the counterparties to meet the terms of their contracts. The Company attempts to limit counterparty risk by only dealing with well-known counterparties.Cross currency swaps are interest rate swaps in which interest cash flows are exchanged between two parties based on the notional amounts of two different currencies. These swaps are marked-to-market by recognizing the difference between the present value of cash flows of each leg of the swaps as unrealized appreciation or depreciation. Realized gain or loss is recognized when periodic payments are received or paid and the swaps are terminated. The entire notional value of a cross currency swap is subject to the risk that the counterparty to the swap will default on its contractual delivery obligations. The Company attempts to limit counterparty risk by only dealing with well-known counterparties. The Company utilizes cross currency swaps from time to time in order to hedge a portion of its investments in foreign currency.The average notional balance for foreign currency forward contracts during the nine months ended September 30, 2024 and 2023 was $174.2 and $214.7, respectively.Interest Rate SwapsIn connection with the Companyâ€™s issuance of $600 aggregate principal amount of its 6.875% notes due 2029, or the 6.875% Notes, the Company entered into interest rate swap agreements for a total notional amount of $600 that mature on August 15, 2029 to reduce the exposure to changes in fair value associated with the 6.875% Notes. Under the first interest rate swap agreement, entered into on June 13, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.754% on a notional amount of $200. Under the second interest rate swap agreement, entered into on June 27, 2024, the Company receives a fixed interest rate of 6.875% and pays a floating interest rate of one-month SOFR plus 2.788% on a notional amount of $400. The Company designated these interest rate swaps and the 6.875% Notes as a qualifying fair value hedge accounting relationship. See Note 9 for more information on the 6.875% Notes.As of SeptemberÂ 30, 2024, the counterparty to the Companyâ€™s interest rate swap agreements was ING Capital Markets LLC.As a result of the Companyâ€™s designation of the interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, the Company is required to fair value the hedging instruments and the related hedged items, with the changes in the fair value of each being recorded in interest expense. This accounting guidance emphasizes valuation techniques that maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance: Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets. Level 3: Inputs that are unobservable for an asset or liability. A financial instrumentâ€™s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Companyâ€™s investments were categorized as follows in the fair value hierarchy:September 30, 2024Valuation Inputs(Unaudited)December 31, 2023Level 1â€”Price quotations in active markets$1Â $1Â Level 2â€”Significant other observable inputs91Â 178Â Level 3â€”Significant unobservable inputs12,467Â 13,073Â Investments measured at net asset value(1)1,384Â 1,397Â $13,943Â $14,649Â _____(1)Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.In addition, the Company had foreign currency forward contracts and interest rate swaps, as described in Note 7, which were categorized as Level 2 in the fair value hierarchy as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023.The Companyâ€™s board of directors is responsible for overseeing the valuation of the Companyâ€™s portfolio investments at fair value as determined in good faith pursuant to the Adviserâ€™s valuation policy. The Companyâ€™s board of directors has designated the Adviser with day-to-day responsibility for implementing the portfolio valuation process set forth in the Adviserâ€™s valuation policy. The Companyâ€™s investments consist primarily of debt investments that were acquired directly from the issuer. Debt investments, for which broker quotes are not available, are valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, the borrowerâ€™s ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features, anticipated repayments and other relevant terms of the investments. Except as described below, all of the Companyâ€™s equity/other investments are also valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of earnings before interest, taxes, depreciation and amortization, or EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. An investment that is newly issued and purchased near the date of the financial statements is valued at cost if the Adviser determines that the cost of such investment is the best indication of its fair value. Such investments described above are typically classified as Level 3 within the fair value hierarchy. Investments that are traded on an active public market are valued at their closing price as of the date of the financial statements and are classified as Level 1 within the fair value hierarchy. Except as described above, the Adviser typically values the Company's other investments by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which are provided by independent third-party pricing services and screened for validity by such services and are typically classified as Level 2 within the fair value hierarchy.The Adviser periodically benchmarks the bid and ask prices it receives from the third-party pricing services and/or dealers and independent valuation firms as applicable, against the actual prices at which the Company purchases and sells its investments. Based on the results of the benchmark analysis and the experience of the Companyâ€™s management in purchasing and selling these investments, the Adviser believes that these prices are reliable indicators of fair value. The Adviser reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with the Adviserâ€™s valuation policy.The following is a reconciliation for the nine months ended September 30, 2024 and 2023 of investments for which significant unobservable inputs (Level 3) were used in determining fair value:Â For the Nine Months Ended September 30, 2024Â SeniorÂ SecuredLoansâ€”FirstLienSeniorÂ SecuredLoansâ€”SecondLienOther SeniorSecuredDebtSubordinatedDebtAsset Based FinanceEquity/OtherTotalFair value at beginning of period$8,429Â $1,090Â $21Â $322Â $2,077Â $1,134Â $13,073Â Accretion of discount (amortization of premium)35Â 6Â â€”Â 2Â 2Â 3Â 48Â Net realized gain (loss)(170)(112)(3)â€”Â (36)(14)(335)Net change in unrealized appreciation (depreciation)66Â 92Â 1Â (9)69Â (71)148Â Purchases3,770Â 56Â 25Â 29Â 632Â 169Â 4,681Â Paid-in-kind interest67Â 2Â 1Â 20Â 6Â 12Â 108Â Sales and repayments(3,864)(268)â€”Â (143)(760)(229)(5,264)Transfers into Level 3Â 8Â â€”Â â€”Â â€”Â â€”Â 8Â Transfers out of Level 3â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â Fair value at end of period$8,341Â $866Â $45Â $221Â $1,990Â $1,004Â $12,467Â The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to investments still held at the reporting date(53)(10)(2)(9)(2)(83)$(159)Â For the Nine Months Ended September 30, 2023Â SeniorÂ SecuredLoansâ€”FirstLienSeniorÂ SecuredLoansâ€”SecondLienOther SeniorSecuredDebtSubordinatedDebtAsset Based FinanceEquity/OtherTotalFair value at beginning of period$9,124Â $874Â $22Â $264Â $1,902Â $1,199Â $13,385Â Accretion of discount (amortization of premium)34Â 4Â â€”Â â€”Â 2Â 1Â 41Â Net realized gain (loss)(15)(55)(39)(126)8Â (101)(328)Net change in unrealized appreciation (depreciation)(30)51Â 37Â 132Â (65)117Â 242Â Purchases1,040Â 16Â â€”Â 8Â 93Â 39Â 1,196Â Paid-in-kind interest43Â 24Â 1Â 19Â 6Â 22Â 115Â Sales and repayments(1,583)(115)â€”Â â€”Â (207)(45)(1,950)Transfers into Level 333Â 297Â â€”Â â€”Â â€”Â â€”Â 330Â Transfers out of Level 3â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â Fair value at end of period$8,646Â $1,096Â $21Â $297Â $1,739Â $1,232Â $13,031Â The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to investments still held at the reporting date(49)(35)$37Â $5Â (67)23Â $(86)The valuation techniques and significant unobservable inputs used in recurring Level 3 fair value measurements as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 were as follows:Type of InvestmentFairÂ ValueÂ atSeptemberÂ 30, 2024(Unaudited)ValuationTechnique(1)UnobservableInputRange (Weighted Average)Impact to Valuation from an Increase in Input(2)Senior Debt$7,701Â Â Discounted Cash Flow Â Discount Rate 5.6% - 19.5% (10.1%)Decrease1,252Â Â Waterfall EBITDA Multiple0.1x - 10.7x (8.1x)Increase165Â Other(3)134Â CostSubordinated Debt185Â Â Discounted Cash Flow Â Discount Rate 11.3% - 15.5% (12.7%)Decrease32Â Â Waterfall Â EBITDA Multiple 0.1x - 10.3x (7.7x)Increase4Â Other(3)Asset Based Finance1,371Â Â Discounted Cash Flow Â Discount Rate 5.0% - 41.6% (12.2%)Decrease505Â Â Waterfall Â EBITDA Multiple 1.0x - 1.4x (1.2x)Increase71Â Other(3)41Â Cost2Â Â Indicative Dealer Quotes 29.0% - 29.0% (29.0%)IncreaseEquity/Other602Â Â Waterfall Â EBITDA Multiple 0.7x - 15.8x (7.5x)Increase401Â Â Discounted Cash Flow Â Discount Rate 4.0% - 20.3% (14.3%)Decrease1Â Other(3)Total$12,467Â Â Type of InvestmentFairÂ ValueÂ atDecemberÂ 31, 2023ValuationTechnique(1)UnobservableInputRangeImpact to Valuation from an Increase in Input(2)Senior Debt$8,356Â Discounted Cash FlowDiscount Rate6.1% - 25.0% (11.6%)Decrease1,165Â WaterfallEBITDA Multiple0.6x - 10.8x (8.1x)Increase15Â Cost4Other(3)Subordinated Debt289Â Discounted Cash FlowDiscount Rate10.7% - 21.0% (13.7%)Decrease33Â WaterfallEBITDA Multiple7.5x - 7.5x (7.5x)IncreaseAsset Based Finance1,232Â Discounted Cash FlowDiscount Rate5.9% - 43.2% (11.1%)Decrease616Â WaterfallEBITDA Multiple1.0x - 1.3x (1.1x)Increase118Â Cost109Â Other(3)2Â Indicative Dealer Quotes26.8% - 26.8% (26.8%)IncreaseEquity/Other603Â WaterfallEBITDA Multiple0.6x - 14.8x (6.5x)Increase521Â Discounted Cash FlowDiscount Rate5.2% - 21.0% (14.2%)Decrease7Â Other(3)3Â Option Pricing ModelEquity Illiquidity Discount75.0% - 75.0% (75.0%)DecreaseTotal$13,073Â _____(1)Investments using a market quotes valuation technique were primarily valued by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which were provided by independent third-party pricing services and screened for validity by such services. and Contingencies Disclosure [Abstract] Â Commitments and Contingencies Commitments and ContingenciesThe Company enters into contracts that contain a variety of indemnification provisions. The Companyâ€™s maximum exposure under these arrangements is unknown; however, the Company has not had prior claims or losses pursuant to these contracts. The Adviser has reviewed the Companyâ€™s existing contracts and expects the risk of loss to the Company to be remote.The Company is not currently subject to any material legal proceedings and, to the Companyâ€™s knowledge, no material legal proceedings are threatened against the Company. From time to time, the Company may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Companyâ€™s rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Company does not expect that any such proceedings will have a material effect upon its financial condition or results of operations.Unfunded commitments to provide funds to portfolio companies are not recorded in the Companyâ€™s consolidated balance sheets. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company has sufficient liquidity to fund these commitments. As of SeptemberÂ 30, 2024, the Companyâ€™s debt commitments are comprised of $722.2 revolving credit facilities and $878.3 delayed draw term loans, which generally are used for acquisitions or capital expenditures and are subject to certain performance tests. Such unfunded debt commitments have a fair value representing unrealized appreciation (depreciation) of $(17.2). The Companyâ€™s unfunded Asset Based Finance/Other commitments generally require certain conditions to be met or actual approval from the Adviser prior to funding.The Senior Secured Revolving Credit Facility provides for the issuance of letters of credit in an initial aggregate face amount of up to $175, subject to increase or reduction from time to time pursuant to the terms of the Senior Secured Revolving Credit Facility. As of SeptemberÂ 30, 2024, $26 of such letters of credit have been issued.As ofÂ SeptemberÂ 30, 2024, the Company also has an unfunded commitment to provideÂ $735.2 of capital to COPJV. The capital commitment can be satisfied with contributions of cash and/or investments. The capital commitments cannot be drawn without an affirmative vote by both the Companyâ€™s and SCRSâ€™s representatives on COPJVâ€™s board of managers.While the Company does not expect to fund all of its unfunded commitments, there can be no assurance that it will not be required to do so.In the normal course of business, the Company may enter into guarantees on behalf of portfolio companies. Under such arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. The Company has no such guarantees outstanding atÂ SeptemberÂ 30, 2024Â andÂ DecemberÂ 31, 2023. (2)The per share data was derived by using the weighted average shares outstanding during the applicable period. (3)The per share data for distributions reflect the actual amount of distributions paid per share during the applicable period. (4)Represents the incremental impact of the Companyâ€™s share repurchase program by buying shares in the open market at a price lower than net asset value per share. (5)The total return based on net asset value for each period presented was calculated by taking the net asset value per share as of the end of the applicable period, adding the cash distributions per share that were declared during the period and dividing the total by the net asset value per share at the beginning of the period. Total return based on net asset value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Companyâ€™s common stock. The historical calculation of total return based on net asset value in the table should not be considered a representation of the Companyâ€™s future total return based on net asset value, which may be greater or less than the return shown in the table due to a number of factors, including the Companyâ€™s ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Companyâ€™s expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets and general economic conditions. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods. The total return calculations set forth above represent the total return on the Companyâ€™s investment portfolio during the applicable period and do not represent an actual return to stockholders.(6)The total return based on market value for each period presented was calculated based on the change in market price during the applicable period, including the impact of distributions reinvested in accordance with the Companyâ€™s DRP. Total return based on market value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Companyâ€™s common stock. The historical calculation of total return based on market value in the table should not be considered a representation of the Companyâ€™s future total return based on market value, which may be greater or less than the return shown in the table due to a number of factors, including the Companyâ€™s ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Companyâ€™s expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets, general economic conditions and fluctuations in per share market value. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods.(7)Weighted average net assets during the applicable period are used for this calculation. Ratios for the nine months ended September 30, 2024 are annualized. Annualized ratios for the nine months ended September 30, 2024 are not necessarily indicative of the ratios that may be expected for the year ending December 31, 2024. We seek to meet our investment objectives by: â€¢utilizing the experience and expertise of the management team of the Adviser; â€¢employing a defensive investment approach focused on long-term credit performance and principal protection; â€¢focusing primarily on debt investments in a broad array of private U.S. companies, including middle-market companies, which we define as companies with annual EBITDA of $50Â million to $150Â million at the time of investment; â€¢investing primarily in established, stable enterprises with positive cash flows; and â€¢maintaining rigorous portfolio monitoring in an attempt to anticipate and pre-empt negative credit events within our portfolio, such as an event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company. We pursue our investment objective by investing primarily in the debt of middle market U.S. companies with a focus on originated transactions sourced through the network of the Adviser and its affiliates. We define direct originations as any investment where the Company's investment adviser, sub-adviser or their affiliates had negotiated the terms of the transaction beyond just the price, which, for example, may include negotiating financial covenants, maturity dates or interest rate terms. These directly originated transactions include participation in other originated transactions where there may be third parties involved, or a bank acting as an intermediary, for a closely held club, or similar transactions.Our portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. Although we do not expect a significant portion of our portfolio to be comprised of subordinated loans, there is no limit on the amount of such loans in which we may invest. We may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the â€œover-the-counterâ€ market or directly from our target companies as primary market or directly originated investments. In connection with our debt investments, we may on occasion receive equity interests such as warrants or options as additional consideration. We may also purchase or otherwise acquire interests in the form of common or preferred equity or equity-related securities, such as rights and warrants that may be converted into or exchanged for common stock or other equity or the cash value of common stock or other equity, including through a co-investment with a financial sponsor or possibly the restructuring of an investment. In addition, a portion of our portfolio may be comprised of corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Adviser will seek to tailor our investment focus as market conditions evolve. Depending on market conditions, we may increase or decrease our exposure to less senior portions of the capital structures of our portfolio companies or otherwise make opportunistic investments, such as where the market price of loans, bonds or other securities reflects a lower value than deemed warranted by the Adviserâ€™s fundamental analysis. Such investment opportunities may occur due to general dislocations in the markets, a misunderstanding by the market of a particular company or an industry being out of favor with the broader investment community and may include event driven investments, anchor orders and structured products. The senior secured loans, second lien secured loans and senior secured bonds in which we invest generally have stated terms of three to seven years and subordinated debt investments that we make generally have stated terms of up to ten years, but the expected average life of such securities is generally three to four years. However, we may invest in loans and securities with any maturity or duration. Our debt investments may be rated by a NRSRO and, in such case, generally will carry a rating below investment grade (rated lower than â€œBaa3â€ by Moodyâ€™s or lower than â€œBBB-â€ by S&P). We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by a NRSRO. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Companyâ€™s interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023 included in the Companyâ€™s annual report on Form 10-K for the year ended DecemberÂ 31, 2023. Operating results for the nine months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the year ending DecemberÂ 31, 2024. The DecemberÂ 31, 2023 consolidated balance sheet and consolidated schedule of investments are derived from the Companyâ€™s audited consolidated financial statements as of and for the year ended DecemberÂ 31, 2023. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies under Financial Accounting Standards Board, or the FASB, Accounting Standards Codification Topic 946, Financial Servicesâ€”Investment Companies. Use of Estimates Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Capital Gains Incentive Fee Capital Gains Incentive Fee:Â Pursuant to the terms of the investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory agreement). This fee equals 20.0% of the Companyâ€™s incentive fee capital gains, which shall equal the realized capital gains of Corporate Capital Trust, Inc., or CCT, (as predecessor-by-merger to the Company), FS KKR Capital Corp. II, or FSKR, (as predecessor-by-merger to the Company) and the Company (without duplication) on a cumulative basis from inception, calculated as of the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation (without duplication) on a cumulative basis, less the aggregate amount of any capital gain incentive fees previously paid by CCT, FSKR and the Company. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.The Company includes unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to the Adviser if the Companyâ€™s entire portfolio was liquidated at its fair value as of the balance sheet date even though the Adviser is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized. Subordinated Income Incentive Fee Subordinated Income Incentive Fee: Pursuant to the terms of the investment advisory agreement, the Adviser may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the investment advisory agreement, which is calculated and payable quarterly in arrears, equals 17.5% of the Companyâ€™sÂ â€œpre-incentiveÂ fee net investment incomeâ€ for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on the value of the Companyâ€™s net assets, equal to 1.75%Â per quarter, or an annualized hurdle rate of 7.0%.Â As a result, the Adviser will not earn this incentive fee for any quarter until the Companyâ€™sÂ pre-incentiveÂ fee net investment income for such quarter exceeds the hurdle rate of 1.75%. Once the Companyâ€™sÂ pre-incentiveÂ fee net investment income in any quarter exceeds the hurdle rate, the Adviser will be entitled to aÂ â€œcatch-upâ€Â fee equal to the amount of theÂ pre-incentiveÂ fee net investment income in excess of the hurdle rate, until the Companyâ€™sÂ pre-incentiveÂ fee net

investment income for such quarter equals 2.12%, or 8.48% annually, of net assets. Thereafter, the Adviser will be entitled to receive 17.5% ofÂ pre-incentiveÂ fee net investment income. Revenue Recognition Revenue Recognition: Security transactions are accounted for on the trade date. The Company records interest income on an accrual basis to the extent that it expects to collect such amounts. The Company records dividend income on the ex-dividend date. Distributions received from limited liability company, or LLC, and limited partnership, or LP, investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. The Company does not accrue as a receivable interest or dividends on loans and securities if it has reason to doubt its ability to collect such income. The Companyâ€™s policy is to place investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the accrued interest will be written-off. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on the Companyâ€™s judgment. Loan origination fees, original issue discount and market discount are capitalized and the Company amortizes such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. For the nine months ended September 30, 2024 and 2023, the Company recognized $28 and $13, respectively, in structuring fee revenue. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts. Derivative Instruments Derivative Instruments: The Companyâ€™s derivative instruments include foreign currency forward contracts and interest rate swaps. The Company has designated certain interest rate swaps as hedging instruments in a qualifying fair value hedge accounting relationship, and as a result, the change in fair value of the hedging instruments and hedged items are recorded in and recognized as components of interest expense in the Companyâ€™s consolidated statements of operations. The change in fair value of the interest rate swaps is offset by a change in the carrying value of the corresponding fixed rate debt. For all other derivatives, the Company does not utilize hedge accounting and recognizes such derivative instruments as assets or liabilities at fair value in its consolidated financial statements. Changes in fair value of derivative contracts entered into by the Company which have not been designated as hedging instruments are recognized through the net change in unrealized appreciation (depreciation) on derivative instruments in the consolidated statements of operations. Realized gains and losses on the derivative instruments are included in net realized gains (losses) on derivative instruments in the consolidated statements of operations. Fair Value Measurement Under existing accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. This accounting guidance emphasizes valuation techniques that maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance: Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets. Level 3: Inputs that are unobservable for an asset or liability. A financial instrumentâ€™s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. (2)The per share data was derived by using the weighted average shares outstanding during the applicable period. (3)The per share data for distributions reflect the actual amount of distributions paid per share during the applicable period. (4)Represents the incremental impact of the Companyâ€™s share repurchase program by buying shares in the open market at a price lower than net asset value per share. (5)The total return based on net asset value for each period presented was calculated by taking the net asset value per share as of the end of the applicable period, adding the cash distributions per share that were declared during the period and dividing the total by the net asset value per share at the beginning of the period. Total return based on net asset value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Companyâ€™s common stock. The historical calculation of total return based on net asset value in the table should not be considered a representation of the Companyâ€™s future total return based on net asset value, which may be greater or less than the return shown in the table due to a number of factors, including the Companyâ€™s ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Companyâ€™s expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets and general economic conditions. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods. The total return calculations set forth above represent the total return on the Companyâ€™s investment portfolio during the applicable period and do not represent an actual return to stockholders.(6)The total return based on market value for each period presented was calculated based on the change in market price during the applicable period, including the impact of distributions reinvested in accordance with the Companyâ€™s DRP. Total return based on market value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Companyâ€™s common stock. The historical calculation of total return based on market value in the table should not be considered a representation of the Companyâ€™s future total return based on market value, which may be greater or less than the return shown in the table due to a number of factors, including the Companyâ€™s ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Companyâ€™s expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets, general economic conditions and fluctuations in per share market value. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods.(7)Weighted average net assets during the applicable period are used for this calculation. Ratios for the nine months ended September 30, 2024 are annualized. Balance Type: credit Period Type: duration X - DefinitionThe sum of the periodic adjustments of the differences between securities' face values and purchase prices that are charged against earnings. This is called accretion if the security was purchased at a discount and amortization if it was purchased at premium. As a noncash item, this element is an adjustment to net income when calculating cash provided by or used in operations using the indirect method. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 230 -SubTopic 10 -Name Accounting Standards Codification -Section 45 -Paragraph 28 -Publisher FASB -URI https://asc.fasb.org/1943274/2147482740/230-10-45-28 + Details Name: us-gaap_AccretionAmortizationOfDiscountsAndPremiumsInvestments Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: duration X - DefinitionThe carrying value as of the balance sheet date of the current and noncurrent portions of long-term obligations drawn from a line of credit, which is a bank's commitment to make loans up to a specific amount. Examples of items that might be included in the application of this element may consist of letters of credit, standby letters of credit, and revolving credit arrangements, under which borrowings can be made up to a maximum amount as of any point in time conditional on satisfaction of specified terms before, as of and after the date of drawdowns on the line. Includes short-term obligations that would normally be classified as current liabilities but for which (a) postbalance sheet date issuance of a long term obligation to refinance the short term obligation on a long term basis, or (b) the enterprise has entered into a financing agreement that clearly permits the enterprise to refinance the short-term obligation on a long term basis and the following conditions are met (1) the agreement does not expire within 1 year and is not cancelable by the lender except for violation of an objectively determinable provision, (2) no violation exists at the BS date, and (3) the lender has entered into the financing agreement is expected to be financially capable of honoring the agreement. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)) -SubTopic 10 -Topic 210 -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 942 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.9-03(16)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478546/942-210-S99-1Reference 3: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 944 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.7-03(a)(16)(a)(2)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478777/944-210-S99-1 + Details Name: us-gaap_LineOfCredit Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionMaximum borrowing capacity under the credit facility without consideration of any current restrictions on the amount that could be borrowed or the amounts currently outstanding under the facility. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)(b)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(19)(b)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1 + Details Name: us-gaap_LineOfCreditFacilityMaximumBorrowingCapacity Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionLine items represent financial concepts included in a table.
