FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2023** **September 30, 2023**
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-9210

OCCIDENTAL PETROLEUM CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

95-4035997

(I.R.S. Employer
Identification No.)

5 Greenway Plaza, Suite 110
Houston, Texas 77046

(Address of principal executive offices) (Zip Code)

(713) 215-7000

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Trading Symbol(s)

Name of each exchange on which registered

Common Stock, \$0.20 par value

OXY

New York Stock Exchange

Warrants to Purchase Common Stock, \$0.20 par value

OXY WS

New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer

Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class

Outstanding as of **June 30, 2023** **September 30, 2023**

Common Stock, \$0.20 par value

Notes to Consolidated Condensed Financial Statements

Occidental Petroleum Corporation and Subsidiaries

NOTE 1 - GENERAL

NATURE OF OPERATIONS

Occidental conducts its operations through various subsidiaries and affiliates. Occidental has made its disclosures in accordance with United States generally accepted accounting principles as they apply to interim reporting, and condensed or omitted, as permitted by the U.S. Securities and Exchange Commission's rules and regulations, certain information and disclosures normally included in Consolidated Financial Statements and the notes thereto. These unaudited Consolidated Condensed Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and the notes thereto in the 2022 Form 10-K.

In the opinion of Occidental's management, the accompanying unaudited Consolidated Condensed Financial Statements in this report reflect all adjustments (consisting of normal recurring adjustments) that are necessary to fairly present Occidental's results of operations and cash flows for the six nine months ended June 30, 2023 September 30, 2023 and 2022 and Occidental's financial position as of June 30, 2023 September 30, 2023 and December 31, 2022. The income and cash flows for the periods ended June 30, 2023 September 30, 2023 and 2022 are not necessarily indicative of the income or cash flows to be expected for the full year.

CASH EQUIVALENTS AND RESTRICTED CASH EQUIVALENTS

Occidental considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents or restricted cash equivalents. The cash equivalents and restricted cash equivalents balances for the periods presented included include investments in government money market funds in which the carrying value approximates fair value.

The following table provides a reconciliation of cash, cash equivalents, restricted cash and restricted cash equivalents as reported in the Consolidated Condensed Statements of Cash Flows as of June 30, 2023 September 30, 2023 and 2022:

millions	millions	2023	2022 millions	2023	2022
Cash and cash equivalents	Cash and cash equivalents	\$ 486	\$ 1,362	Cash and cash equivalents	\$ 611

					\$ 1,279

SUPPLEMENTAL CASH FLOW INFORMATION

The following table represents U.S. federal, domestic, state and international income taxes paid, tax refunds received and interest paid during the six nine months ended June 30, 2023 September 30, 2023 and 2022, respectively:

millions	millions	2023	2022 millions	2023	2022
Income tax payments	Income tax payments	\$ 632	\$ 962	Income tax payments	\$ 806
Income tax refunds received	Income tax refunds received	\$ 3	\$ 70	Income tax refunds received	\$ 12
Interest paid (a)	Interest paid (a)	\$ 509	\$ 846	Interest paid (a)	\$ 906

(a) Net of capitalized interest of \$42 \$69 million and \$30 \$50 million for the six nine months ended June 30, 2023 September 30, 2023 and 2022, respectively.

WES INVESTMENT

As of June 30, 2023 September 30, 2023, Occidental owned all of the 2.3% non-voting general partner interest and 49.5% 48.8% of the limited partner units in WES. On a combined basis, with its 2% non-voting limited partner interest in WES Operating, Occidental's total effective economic interest in WES and its subsidiaries was 51.6% 51.0%. In September 2023, WES purchased 5.1 million of its limited partner units from Occidental at a price of \$25.00 per unit, resulting in a gain on sale of \$51 million for Occidental.

IMPAIRMENT

Occidental did not record any impairments for the three months ended September 30, 2023. For the three and six nine months ended June 30, 2023 September 30, 2023, Occidental recorded a pre-tax impairment of \$180 million related to undeveloped acreage in the northern non-core area of the Powder River Basin where Occidental has decided not to pursue future exploration and appraisal activities. Impairment expense for the three and six nine months ended June 30, 2023 September 30, 2023 also includes included a \$29 million impairment related to an equity method investment in Black Butte Coal Company.

ACQUISITIONS AND DIVESTITURES

In September 2023, Occidental sold certain non-core proved and unproved properties in the Permian Basin for \$202 million and recorded a gain on sale of assets of \$142 million.

SUBSEQUENT EVENTS

In November 2023, Occidental entered into a joint venture agreement with BlackRock, through a fund managed by its Diversified Infrastructure business, for the development of Occidental's first large-scale Direct Air Capture plant in Ector County, Texas. The agreement provides \$550 million of committed investment from BlackRock's fund.

In August 2023, Occidental entered into an agreement with Carbon Engineering Ltd., its equity method investee, to purchase the remaining 67.83% interest not already owned by Occidental or its affiliates for total cash consideration of approximately \$1.1 billion, resulting in Carbon Engineering becoming a wholly owned subsidiary of Occidental. The purchase price will be made in three approximately equal annual payments, with the first payment to be made at closing. This transaction closed on November 3, 2023, and Occidental made the first payment of \$355 million. The remaining two payments will be paid on the first and second anniversaries of closing. With this purchase Occidental intends to accelerate technological innovation and cost reductions in Carbon Engineering's direct-air-capture technology. The transaction qualifies as a business combination and will be accounted for using the acquisition method of accounting. Occidental's purchase price allocation is currently in process and as such was incomplete as of the issuance of these unaudited Consolidated Condensed Financial Statements.

NOTE 2 - REVENUE

Revenue from customers is recognized when obligations under the terms of a contract with customers are satisfied; this generally occurs with the delivery of oil, NGL, gas, chemicals or services, such as transportation. As of **June 30, 2023** **September 30, 2023**, trade receivables, net of **\$2.9 billion** **\$3.7 billion** represent rights to payment for which Occidental has satisfied its obligations under a contract and its right to payment is conditioned only on the passage of time.

The following table shows a reconciliation of revenue from customers to total net sales for the three and **six** **nine** months ended **June 30, 2023** **September 30, 2023** and 2022:

millions	millions	Three months ended June 30,				Six months ended June 30,				Three months ended September 30,				Nine months ended September 30,				
		2023		2022		2023		2022		2023		2022		2023		2022		
		Revenue from customers	10,351	Revenue from customers	13,716	Revenue from customers	18,564	Revenue from customers	7,271	Revenue from customers	9,359	Revenue from customers	20,987	Revenue from customers	27,923	Revenue from customers	28,415	
All other revenues ^(a)	All other revenues ^(a)	101	325	211	461	(113)	31	98	492	Net sales	7,158	9,390	21,085	28,415	Net sales	7,158	9,390	21,085
Net sales	Net sales	\$ 6,702	\$ 10,676	\$ 13,927	\$ 19,025	\$ 7,158	\$ 9,390	\$ 21,085	\$ 28,415	millions	millions	millions	millions	millions	millions	millions	millions	

(a) Includes net marketing derivatives and chemical exchange contracts.

DISAGGREGATION OF REVENUE FROM CONTRACTS WITH CUSTOMERS

The table below presents Occidental's revenue from customers by segment, product and geographical area. The oil and gas segment typically sells its oil, NGL and gas at the lease or concession area. Chemical segment revenues are shown by geographic area based on the location of the sale. Excluding net marketing revenue, midstream and marketing segment revenues are shown by the location of sale:

DEBT ACTIVITY

In the first quarter of 2023, Occidental used cash on hand to repay \$22 million of its 8.750% medium-term notes upon maturity. Occidental has no remaining debt maturities in 2023.

FAIR VALUE OF DEBT

The estimated fair value of Occidental's debt as of **June 30, 2023** **September 30, 2023** and December 31, 2022, substantially all of which was classified as Level 1, was approximately **\$17.6 billion** **\$17.2 billion** and \$17.6 billion, respectively.

NOTE 5 - DERIVATIVES

OBJECTIVE AND STRATEGY

Occidental uses a variety of derivative financial instruments and physical contracts to manage its exposure to commodity price fluctuations and transportation commitments and to fix margins on the future sale of stored commodity volumes. Derivatives are carried at fair value and on a net basis when a legal right of offset exists with the same counterparty. Occidental may occasionally use a variety of derivative financial instruments to manage its exposure to foreign currency fluctuations and interest rate risks. Occidental also enters into derivative financial instruments for trading purpose.

purposes.

Occidental may elect normal purchases and normal sales exclusions when physically delivered commodities are purchased or sold to a customer. Occidental occasionally applies cash flow hedge accounting treatment to derivative financial instruments to lock in margins on the forecasted sales of its natural gas storage volumes, and at times for other strategies, such as to lock in rates on debt issuances. The value of cash flow hedges was insignificant for all periods presented. As of **June 30, 2023** **September 30, 2023**, Occidental's marketing derivatives are not designated as hedges. Occidental retired all remaining outstanding interest rate swaps in the twelve months ended December 31, 2022.

MARKETING DERIVATIVES

Occidental's marketing derivative instruments are short-duration physical and financial forward contracts. As of **June 30, 2023** **September 30, 2023**, the weighted-average settlement price of these forward contracts was **\$73.72** **\$83.94** per barrel and **\$2.65** **\$2.99** per Mcf for crude oil and natural gas, respectively. The weighted-average settlement price was \$81.37 per barrel and \$7.89 per Mcf for crude oil and natural gas, respectively, as of December 31, 2022. Derivative instruments that are not designated as hedging instruments are required to be recorded on the balance sheet at fair value. Changes in fair value will impact Occidental's earnings through mark-to-market adjustments until the physical commodity is delivered or the financial instrument is settled. Net gains and losses associated with marketing derivative instruments are recognized currently in net sales.

The following table summarizes net short volumes associated with the outstanding marketing commodity derivatives as of:

long (short)	long (short)	June 30, 2023	December 31, 2022	long (short)	September 30, 2023	December 31, 2022
Oil commodity contracts	Oil commodity contracts			Oil commodity contracts

(a) Includes derivative and non-derivative marketing activity.

(b) Occidental retired all remaining outstanding interest rate swaps in the twelve months ended December 31, 2022.

CREDIT RISK

Certain of Occidental's over-the-counter derivative instruments contain credit-risk-contingent features, primarily tied to credit ratings for Occidental or its counterparties, which may affect the amount of collateral that each party would need to post. The aggregate fair value of derivative instruments with credit-risk-related contingent features, for which a net receivable liability position existed as of June 30, 2023 September 30, 2023, was \$52 \$126 million. The aggregate fair value of derivative instruments with credit-risk-contingent features, for which a net liability position existed as of December 31, 2022, was \$18 million.

NOTE 6 - INCOME TAXES

The following table summarizes components of income tax expense:

Total income tax expense																	
Net income	Net income	\$ 860	\$ 3,755	\$ 2,123	\$ 8,631		\$ 1,375	\$ 2,746	\$ 3,498	\$ 11,377							
Worldwide effective tax rate	Worldwide effective tax rate	35 %	25 %	31 %	(7) %		24 %	25 %	28 %	3 %							

The 35% 24%, 25%, and 31% 28% worldwide effective tax rates for the three months ended June 30, 2023 September 30, 2023, three months ended June 30, 2022 September 30, 2022, and six nine months ended June 30, 2023 September 30, 2023, respectively, are primarily driven by Occidental's jurisdictional mix of income. U.S. income is taxed at a U.S. federal statutory rate of 21%, while international income is subject to tax at statutory rates as high as 55%. These effective rates differ from the negative 7% 3% tax rate for income from continuing operations for the six nine months ended June 30, 2022 September 30, 2022, which was impacted by a tax benefit associated with Occidental's legal entity reorganization as described below.

LEGAL ENTITY REORGANIZATION

To align Occidental's legal entity structure with the nature of its business activities after completing the acquisition of Anadarko and subsequent large scale post-acquisition divestiture program, management undertook a legal entity reorganization that was completed in the first quarter of 2022, three months ended March 31, 2022.

As a result of this legal entity reorganization, management made an adjustment to the tax basis in a portion of its operating assets, thus reducing Occidental's deferred tax liabilities. Accordingly, for the year ended December 31, 2022, Occidental recorded a tax benefit of \$2.7 billion in connection with this reorganization. The timing of any reduction in Occidental's future cash taxes as a result of this legal entity reorganization will be dependent on a number of factors, including prevailing commodity prices, capital activity level and production mix. The legal entity reorganization transaction is currently under IRS review as part of Occidental's 2022 federal tax audit.

NOTE 7 - ENVIRONMENTAL LIABILITIES AND EXPENDITURES

Occidental and its subsidiaries and their respective operations are subject to stringent federal, regional, state, provincial, tribal, local and international laws and regulations related to improving or maintaining environmental quality. The laws that require or address environmental remediation, including CERCLA and similar federal, regional, state, provincial, tribal, local and international laws, may apply retroactively and regardless of fault, the legality of the original activities or the current ownership or control of sites. Occidental or certain of its subsidiaries participate in or actively monitor a range of remedial activities and government or private proceedings under these laws with respect to alleged past practices at Third-Party, Currently Operated, and Closed or Non-Operated Sites. Remedial activities may include one or more of the following: investigation involving sampling, modeling, risk assessment or monitoring; clean-up measures including removal, treatment or disposal; or operation and maintenance of remedial systems. The environmental proceedings seek funding or performance of remediation and, in some cases, compensation for alleged property damage, natural resource damages, punitive damages, civil penalties, injunctive relief and government oversight costs.

ENVIRONMENTAL REMEDIATION

As of **June 30, 2023** September 30, 2023, certain Occidental subsidiaries participated in or monitored remedial activities or proceedings at 160 sites. The following table presents the current and non-current environmental remediation liabilities of such subsidiaries on a consolidated basis as of **June 30, 2023** September 30, 2023. The current portion of \$141 million is included in accrued liabilities and the remainder of **\$867** \$860 million is included in deferred credits and other liabilities - environmental remediation liabilities.

These environmental remediation sites are grouped into NPL Sites and the following three categories of non-NPL Sites—Third-Party Sites, Currently Operated Sites and Closed or Non-Operated Sites.

millions, except number of sites	millions, except number of sites	Number of Sites	Remediation Balance	millions, except number of sites	Number of Sites	Remediation Balance
NPL Sites	NPL Sites	30	\$ 438	NPL Sites	31	\$ 436
Third-Party Sites	Third-Party Sites	66	217	Third-Party Sites	65	216
Currently Operated Sites	Currently Operated Sites	13	101	Currently Operated Sites	13	98
Closed or Non- Operated Sites	Closed or Non- Operated Sites	51	252	Closed or Non- Operated Sites	51	251
Total	Total	160	\$ 1,008	Total	160	\$ 1,001

As of **June 30, 2023** September 30, 2023, environmental remediation liabilities of Occidental subsidiaries exceeded \$10 million each at 16 17 of the 160 sites described above, and 95 of the sites had liabilities from \$0 to \$1 million each. Based on current estimates, Occidental expects its subsidiaries to expend funds corresponding to approximately 40% 45% of the period-end remediation balance over the next three to four years with the remainder over the subsequent 10 or more years.

Occidental believes its range of reasonably possible additional losses of its subsidiaries beyond those amounts currently recorded for environmental remediation for the 160 environmental sites in the table above could be up to \$2.7 billion. The status of Occidental's involvement with the sites and related significant assumptions, including those sites indemnified by Maxus, has not changed materially since December 31, 2022.

MAXUS ENVIRONMENTAL SITES

A significant portion of aggregate estimates of environmental remediation liabilities and reasonably possible additional losses described above relates to the former Diamond Shamrock Chemicals Company (DSCC). When OxyChem acquired DSCC in 1986, Maxus agreed to indemnify OxyChem for a number of environmental sites, including the Diamond Alkali Superfund Site (DASS). In June 2016, Maxus and several affiliated companies filed for Chapter 11 bankruptcy in the U.S. Bankruptcy Court for the District of Delaware. Prior to filing for bankruptcy, Maxus defended and indemnified OxyChem in connection with remediation costs and other liabilities associated with the sites subject to the indemnity. Any additional recovery of indemnified costs would come from the proceeds of litigation brought by the Maxus Liquidating Trust (Trust). For additional information on the Trust, see [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#).

DIAMOND ALKALI SUPERFUND SITE

The EPA has organized the DASS into four Operable Units (OUs) for evaluating, selecting and implementing remediation under CERCLA. OxyChem's current activities in each OU are summarized below, many of which are performed on OxyChem's behalf by Glenn Springs Holdings, Inc.

OU1 – The Former Diamond Alkali Plant at 80-120 Lister Avenue in Newark, New Jersey: Maxus and its affiliates implemented an interim remedy of OU1 pursuant to a 1990 Consent Decree (OU1 Consent Decree), for which OxyChem currently performs maintenance and monitoring. The EPA is conducting a periodic evaluation of the interim remedy for OU1.

OU2 – The Lower 8.3 Miles of the Lower Passaic River: In March 2016, the EPA issued a Record of Decision (ROD) specifying remedial actions required for OU2. During the third quarter of 2016, and following Maxus's bankruptcy filing, OxyChem and the EPA entered into an Administrative Order on Consent (AOC) to complete the design of the remedy selected in the OU2 ROD. At that time, the EPA sent notice letters to approximately 100 parties notifying them that they were potentially responsible to pay the costs to implement the remedy in OU2 and announced that it would pursue similar agreements with other potentially responsible parties. In June 2018, OxyChem filed a complaint under CERCLA in the Federal District Court in the State of New Jersey (District Court) against numerous potentially responsible parties seeking contribution and cost recovery of amounts incurred or to be incurred to comply with the AOC and the OU2 ROD, or to perform other remediation activities related to the DASS (2018 Contribution Action). The 2018 Contribution Action

remains pending, but is stayed. The District Court has not adjudicated OxyChem's relative share of responsibility for those costs. The EPA has estimated the cost to remediate OU2 to be approximately \$1.4 billion.

OU3 – Newark Bay Study Area, including Newark Bay and Portions of the Hackensack River, Arthur Kill, and Kill van Kull: Maxus and its affiliates initiated a remedial investigation and feasibility study of OU3 pursuant to a 2004 AOC which was amended in 2010. OxyChem is currently performing feasibility study activities in OU3.

OU4 – The 17-mile Lower Passaic River Study Area, comprising OU2 and the Upper 9 Miles of the Lower Passaic River: In September 2021, the EPA issued a ROD selecting an interim remedy for the portion of OU4 that excludes OU2, and is located upstream from the Lister Avenue Plant site for which OxyChem inherited legal responsibility. The EPA **had** estimated the cost to remediate OU4, excluding OU2, to be approximately \$440 million. The District Court has not adjudicated OxyChem's relative share of responsibility for costs under the OU4 ROD. To provide continued, efficient remediation progress, in January 2022, OxyChem offered to design and implement the interim remedy for OU4 subject to certain conditions, including a condition that the EPA would not seek to bar OxyChem's right to pursue contribution or cost recovery from any other parties that are potentially responsible to pay for the OU4 interim remedy. In March 2022, the EPA sent a notice letter to OxyChem and other parties requesting good faith offers to implement the selected remedies at OU2 and OU4. OxyChem submitted a good faith offer in June 2022, reaffirming the offer to design the remedy for OU4 and offering to enter into additional sequential agreements to remediate OU2 and OU4, subject to similar conditions, including that the EPA not seek to bar OxyChem from pursuing contribution or cost recovery from other responsible parties. The EPA did not accept OxyChem's June 2022 offer. In March 2023, the EPA issued a Unilateral Administrative Order (OU4 UAO) in which it directed and ordered OxyChem to design the EPA's selected interim remedy for OU4 and to provide approximately \$93 million in financial assurance to secure its performance. OxyChem has commenced work to design the interim remedy in compliance with the OU4 UAO. As a result of OxyChem incurring costs to implement the OU4 UAO, and the EPA's proposal to bar OxyChem's contribution claims against the settling parties, including those asserted in the 2018 Contribution Action, OxyChem filed a cost recovery action under CERCLA in March 2023 in the District Court against multiple parties (2023 Cost Recovery Action).

Natural Resource Trustees – In addition to the activities of the EPA and OxyChem in the OUs described above, federal and state natural resource trustees are assessing natural resources in the Lower Passaic River and Greater Newark Bay to evaluate potential claims for natural resource damages.

ALDEN LEEDS LITIGATION

In December 2022, the EPA and the DOJ filed a proposed Consent Decree in the *Alden Leeds* litigation seeking court approval to settle with 85 parties for a total of \$150 million and release them from liability for remediation costs in DASS OU2 and OU4, which OxyChem believes is based on a disproportionate allocation of responsibility to OxyChem despite overwhelming evidence regarding the responsibility of others, and, among other infirmities, is contrary to site-specific sampling and other relevant evidence concerning the liability of the settling parties. The EPA and the DOJ also seek entry of an order that would bar OxyChem from pursuing contribution against those parties for remediation costs OxyChem has incurred or may incur in the future to design and implement the remedies in OU2 and OU4.

In April 2023, the District Court granted OxyChem's request to intervene and participate in the *Alden Leeds* litigation as a party. OxyChem intends to challenge the proposed settlement vigorously and to seek contribution and cost recovery from other potentially responsible parties for remediation costs it has incurred or may incur at the DASS. Based upon extensive comments **to** **on** the proposed settlement, the DOJ **had** **requested**, and the District Court **ordered** the DOJ, to inform the District Court by **September 22, 2023** **November 21, 2023** whether it will **proceed with** **seek approval of** the proposed settlement, modify it, or withdraw **the proposed settlement**. Consequently, the District Court **has ordered** it. Assuming that the DOJ **to** **notify** it by no later than September 22, 2023 **how** it **intends to proceed**, after which **moves forward with** the settlement without modification, the District Court will **put in** **order** a schedule for filing briefs

place a briefing schedule supporting or opposing the settlement. OxyChem does not know when the District Court will rule on the propriety of the proposed settlement, if the DOJ continues to pursue the settlement. If the proposed settlement is approved by the District Court and not overturned on appeal, then, notwithstanding OxyChem's vigorous, good faith effort to contest the settlement proposed in the *Alden Leeds* litigation, the EPA could attempt to compel OxyChem to bear substantially all of the estimated cost to design and implement the OU2 and OU4 **remedies**, which **remedies**. Such a result could have a material adverse impact on OxyChem and Occidental's consolidated results of operations in the period recorded.

While the remedies for OU2 and OU4 are expected to take over ten years to complete, the EPA may seek to require OxyChem to provide additional financial assurance. In the OU4 UAO, the EPA directed OxyChem to post financial assurance in the amount of approximately \$93 million. Subject to all defenses, OxyChem has complied with this directive. The amount of any additional financial assurance is not subject to estimation at this time. It is uncertain when or to what extent the EPA may take action to compel OxyChem to perform further remediation in OU2 or OU4 or the amount of financial assurance the EPA may attempt to require OxyChem to post. For further information on the *Alden Leeds* litigation, see [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#).

OTHER INFORMATION

For the DASS, OxyChem has accrued a reserve relating to its estimated allocable share of the costs to perform the maintenance and monitoring required in the OU1 Consent Decree, the design and implementation of remedies selected in the OU2 ROD and AOC and the OU4 ROD and OU4 UAO, and the remedial investigation and feasibility study required in OU3.

OxyChem's accrued environmental remediation reserve does not reflect the potential for additional remediation costs or natural resource damages for the DASS that OxyChem believes are not reasonably estimable. OxyChem's ultimate liability at the DASS may be higher or lower than the reserved amount and the reasonably possible additional losses, and is subject to final design plans, further action by the EPA and natural resource trustees, and the resolution of OxyChem's allocable share with other potentially responsible parties, among other factors.

OxyChem continues to evaluate the estimated costs currently recorded for remediation at the DASS **and other Maxus-indemnified sites**, as well as the range of reasonably possible additional losses beyond those amounts currently recorded. Given the complexity and extent of the remediation efforts, estimates of the remediation costs may increase or decrease over time as new information becomes available.

NOTE 8 - LAWSUITS, CLAIMS, COMMITMENTS AND CONTINGENCIES

LEGAL MATTERS

Occidental or certain of its subsidiaries are involved, in the normal course of business, in lawsuits, claims and other proceedings that seek, among other things, compensation for alleged personal injury, breach of contract, property damage or other losses, punitive damages, civil penalties, or injunctive or declaratory relief. Occidental or certain of its subsidiaries are also involved in proceedings under CERCLA and similar federal, regional, state, provincial, tribal, local and international environmental laws. These environmental

proceedings seek funding or performance of remediation and, in some cases, compensation for alleged property damage, natural resource damages, punitive damages, civil penalties, injunctive relief and government oversight costs. Usually Occidental or such subsidiaries are among many companies in these environmental proceedings and have to date been successful in sharing remediation costs with other financially sound companies. Further, some lawsuits, claims and other proceedings involve acquired or disposed assets with respect to which a third party or Occidental or its subsidiary retains liability or indemnifies the other party for conditions that existed prior to the transaction.

In accordance with applicable accounting guidance, Occidental or its subsidiaries accrue reserves for outstanding lawsuits, claims and other proceedings when it is probable that a liability has been incurred and the liability can be reasonably estimated. Reserves for matters, other than for the arbitration award (disclosed below), tax matters and disputes or environmental remediation, that satisfy these criteria as of **June 30, 2023** **September 30, 2023** and 2022 were not material to Occidental's Consolidated Condensed Balance Sheets.

If unfavorable outcomes of these matters were to occur, future results of operations or cash flows for any particular quarterly or annual period could be materially adversely affected. Occidental's estimates are based on information known about legal matters and its experience in contesting, litigating and settling similar matters. Occidental reassesses the probability and estimability of contingent losses as new information becomes available.

ANDES ARBITRATION

In 2016, Occidental received payments from the Republic of Ecuador of approximately \$1.0 billion pursuant to a November 2015 arbitration award for Ecuador's 2006 expropriation of Occidental's Participation Contract for Block 15. The

awarded amount represented a recovery of Occidental's 60% of the value of Block 15. In 2017, Andes commenced an arbitration against OEPC, claiming it is entitled to a 40% share of the judgment amount obtained by Occidental. Occidental contended that Andes is not entitled to any of the amounts paid under the 2015 arbitration award because Occidental's recovery was limited to Occidental's own 60% economic interest in the block. In March 2021, the arbitration tribunal issued an award in favor of Andes and against OEPC in the amount of \$391 million plus interest. In June 2021, OEPC filed a motion to vacate the award due to concerns regarding the validity of the award. In December 2021, the U.S. District Court for the Southern District of New York confirmed the arbitration award, plus prejudgment interest, in the aggregate amount of \$558 million. OEPC appealed the judgment. In June 2023, the U.S. Court of Appeals for the Second Circuit confirmed the District Court's ruling with respect to the arbitration award but overturned the District Court's decision to add prejudgment interest in the amount of \$166 million, ordering the District Court to recalculate the interest amount. On July 13, 2023, OEPC filed a motion for rehearing en banc in the Second Circuit because, in its view, the Second Circuit ruling is contrary to Supreme Court and other Second Circuit precedent. OEPC's motion for en banc rehearing was denied. OEPC intends to seek review in the U.S. Supreme Court. Andes has also filed state court claims in New York and Delaware against OEPC, **OPC** Occidental Petroleum Corporation (OPC) and OXY USA to attempt to recover on its judgment against OEPC during the pendency of the appeal. The New York state court action against OPC was dismissed with prejudice in March 2023, and 2023, Andes filed its notice is pursuing an appeal of appeal in April 2023, this ruling. Andes also continues to attempt to recover on its judgment from other Occidental entities (which were not a party to the Andes arbitration) in New York federal court and in Delaware state court. Both OXY USA and Andes filed motions for summary judgment in the Delaware state court action. The Delaware state court will hear argument on these motions on November 21, 2023. All such Occidental entities are vigorously defending against these actions. In addition, OEPC commenced an arbitration against Andes to recover significant additional claims not addressed by the prior arbitration tribunal relating to Andes' 40% share of costs, liabilities, losses and expenses due under the farmout agreement and joint operating agreement to which Andes and OEPC are parties. In July 2023, a majority of the arbitration tribunal declined to award any costs to OEPC based upon the doctrine of res judicata. One arbitrator dissented, noting that the prior arbitration panel expressly noted that it was not ruling on the types of claims asserted by OEPC. Andes has moved to confirm this award and OEPC has moved to vacate the award as a result of, among other things, what OEPC believes are fundamental legal errors embodied in the award.

ALDEN LEEDS AND OTHER LITIGATION

In December 2022, the EPA and the DOJ filed a proposed Consent Decree with the District Court in the *Alden Leeds* litigation seeking court approval of a proposed settlement in which the EPA seeks to release 85 potentially responsible parties from all remediation costs in OU2 and OU4 of the DASS for approximately \$150 million. OxyChem believes the proposed settlement relies, improperly, on an allocation report prepared by an EPA contractor in which the contractor purported to assign a disproportionate share of the responsibility for remediation costs in OU2 and OU4 to OxyChem. In the proposed settlement, the EPA also seeks to bar OxyChem from pursuing contribution claims against the 85 settling parties for remediation costs in OU2 and OU4, including those asserted in OxyChem's 2018 Contribution Action. The 2018 Contribution Action is currently stayed. The proposed settlement does not address the liability of any party with respect to OU3 or natural resource damages. OxyChem intends to contest the proposed settlement vigorously. As discussed above in Note 7 – Environmental Liabilities and Expenditures, in March 2023, the EPA issued the OU4 UAO, which directs OxyChem to design the remedy for OU4. Subject to its defenses, OxyChem is complying with this order. Based upon the OU4 UAO, OxyChem also filed its 2023 Cost Recovery Action against multiple parties to recover costs incurred or that will be incurred to comply with the OU4 UAO.

The proposed EPA settlement was subject to a public comment period that closed in March 2023. Based upon extensive comments to on the proposed settlement, the DOJ requested to has received an extension of time—until November 21, 2023—to inform the District Court by September 22, 2023 whether it will proceed with seek approval of the proposed settlement, modify it, or withdraw its support for the proposed settlement. OxyChem believes the proposed settlement exceeds the EPA's statutory authority and is based on a flawed allocation process. OxyChem also believes that process was unreasonably limited in scope and unreliable based on voluntary reporting by the settling parties, instead of sworn evidence, publicly available sampling results and historical documents reflecting the operating history and disposal practices of the 85 parties that the EPA proposes to release as part of this settlement. OxyChem expects to show that the EPA's proposed settlement does not fairly and reasonably reflect the settling parties' contribution of hazardous substances to the DASS and, among other things, incorrectly attributes to OxyChem substances that were contributed by one or more of the 85 settling parties.

OxyChem's request to intervene if the DOJ pursues settlement in the *Alden Leeds* litigation has been granted. This intervention, then OxyChem will allow OxyChem to protect its rights under federal law to challenge the proposed settlement, as well as the allocation report and process upon which the settlement is based. In the 2018 Contribution Action and 2023 Cost Recovery Action, OxyChem also intends to defend and prosecute vigorously its right to seek contribution and cost recovery from all potentially responsible parties to pay remediation costs in the DASS and to seek a judicial allocation of responsibility under CERCLA. As the *Alden Leeds* litigation is in its early stages, OxyChem is unable to estimate the timing of the District Court's decision, its outcome, or the outcome of any appeals from the District Court's decision.

MAXUS LIQUIDATING TRUST

As described in Note 7 – Environmental Liabilities and Expenditures, Maxus was contractually obligated to indemnify, defend, and hold harmless OxyChem against environmental liabilities arising from the former operations of DSCL. In June 2016, Maxus filed for bankruptcy protection in the U.S. Bankruptcy Court for the District of Delaware (the Bankruptcy Court). In June 2017, the Bankruptcy Court approved a Plan of Liquidation to liquidate Maxus and create the Trust for the benefit of Maxus' creditors, including OxyChem, to pursue claims against Maxus' current and former parents, YPF and Repsol, certain

of their respective subsidiaries and affiliates, and others to satisfy claims by OxyChem and other creditors for past and future remediation and other costs. In July 2017, the court-approved Plan of Liquidation became final, and the Trust became effective. Pursuant to the Plan, the Trust is governed by an independent trustee and is not controlled by

OxyChem. The Plan authorizes the Trust to distribute any assets it recovers from such litigation claims to the Trust's beneficiaries, which include OxyChem and other creditors, in accordance with the Plan and governing Trust Agreement.

In June 2018, the Trust filed its complaint against YPF and Repsol in the Bankruptcy Court asserting claims based upon, among other things, fraudulent transfer and alter ego. During 2019, the Bankruptcy Court denied Repsol's and YPF's motions to dismiss the complaint as well as their motions to move the case to a different court. These rulings were upheld on appeal. The Trust, YPF and Repsol each filed motions for summary judgment, and the Bankruptcy Court denied all but one motion in the second quarter of 2022. The Bankruptcy Court's summary judgment decision indicated that, at trial, the Trust must establish a causal link between its claimed damages and the alter ego conduct of YPF and Repsol. In April 2023, the Trust, YPF and Repsol reached an agreement to resolve the claims pending in the Bankruptcy Court. Related agreements were executed among the United States Government, YPF and Repsol as well as among OxyChem, YPF and Repsol. Under the settlement, which became final August 1, 2023, YPF and Repsol are required to pay paid the Trust \$575 million, which the Trust will distribute is distributing according to the Plan. The agreements have been approved and no OxyChem's share of these settlement objections were lodged. The settlement became final August 1, 2023. OxyChem expects to recover proceeds, of under the Plan, is approximately \$350 million by the end of the year, million. OxyChem adjusted its valuation allowance established against its claims against Maxus, resulting in a gain of approximately \$260 million on the remeasurement of the valuation allowance in the second quarter of 2023. In October 2023, OxyChem recovered proceeds of \$341 million.

TAX MATTERS AND DISPUTES

During the course of its operations, Occidental is subject to audit by tax authorities for varying periods in various federal, state, local and international tax jurisdictions. Tax years through 2020 for U.S. federal income tax purposes have been audited by the IRS pursuant to its Compliance Assurance Program and subsequent taxable years are currently under review. Tax years through 2014 2017 have been audited for state income tax purposes. Significant audit matters in international jurisdictions have been resolved through 2010. During the course of tax audits, disputes have arisen and other disputes may arise as to facts and matters of law.

For Anadarko, its taxable years through 2014 and tax year 2016 for U.S. federal tax purposes have been audited by the IRS. Tax years through 2010 have been audited for state income tax purposes. There is one outstanding significant tax matter in an international jurisdiction related to a discontinued operation. As stated above, during the course of tax audits, disputes have arisen and other disputes may arise as to facts and matters of law.

Other than the dispute discussed below, Occidental believes that the resolution of these outstanding tax disputes would not have a material adverse effect on its consolidated financial position or results of operations.

Anadarko received an \$881 million tentative refund in 2016 related to its \$5.2 billion Tronox Adversary Proceeding settlement payment in 2015. In September 2018, Anadarko received a statutory notice of deficiency from the IRS disallowing the net operating loss carryback and rejecting Anadarko's refund claim. As a result, Anadarko filed a petition with the U.S. Tax Court to dispute the disallowances in November 2018. Trial was held in May 2023. The parties will file filed simultaneous post-trial briefs on September 1, 2023 and will file reply briefs on December 7, 2023. Closing arguments are scheduled for January 30, 2024. An opinion by the Tax Court could be issued any time after the closing arguments are completed. If any tax liability is due as a result of the Tax Court's opinion, it must be fully bonded or paid in full within 90 days of the entry of decision by the Tax Court. If an appeal is not pursued by Anadarko, any resulting tax deficiency will be assessed by the IRS and would be due within 30 days of receiving a formal notice of tax assessment.

In accordance with ASC 740's guidance on the accounting for uncertain tax positions, Occidental has recorded no tax benefit on the tentative cash tax refund of \$881 million. As a result, should Occidental not ultimately prevail on the issue, there would be no additional tax expense recorded relative to this position for financial statement purposes other than future interest. However, in that event, as of June 30, 2023 September 30, 2023, Occidental would be required to repay approximately \$1.4 billion in federal taxes, \$28 million in state taxes and accrued interest of \$493 \$534 million. A liability for this amount plus the taxes and interest is included in deferred credits and other liabilities - other.

INDEMNITIES TO THIRD PARTIES

Occidental, its subsidiaries, or both have indemnified various parties against specified liabilities those parties might incur in the future in connection with purchases and other transactions that they have entered into with Occidental or its subsidiaries. These indemnities usually are contingent upon the other party incurring liabilities that reach specified thresholds. As of June 30, 2023 September 30, 2023, Occidental is not aware of circumstances that it believes would reasonably be expected to lead to indemnity claims that would result in payments materially in excess of reserves.

NOTE 9 - EARNINGS PER SHARE AND STOCKHOLDERS' EQUITY

The following table presents the calculation of basic and diluted EPS attributable to common stockholders:

millions except per-share amounts	Three months ended						Three months ended			Nine months ended		
	June 30, Six months ended June 30,						September 30,			September 30,		
	millions except per-share amounts	2023	2022	2023	2022 share amounts	2023	2022	2023	2022	2023	2022

For the three and **six** nine months ended **June 30, 2023** **September 30, 2023** and 2022, there were no Occidental common stock warrants nor options that were excluded from diluted shares.

The following table presents Occidental's common share activity, including **exercises of options and warrants, other transactions in Occidental's common stock in 2023 and treasury stock purchased both under its \$3.0 billion stock repurchase plan announced in February 2023** **exercises and from the trustee of options and warrants, and other transactions in Occidental's common stock in 2023** defined contribution savings plan:

Period	Exercise of Warrants and Options ^(a)					Exercise of Warrants and Options ^(a)				
	Period	Warrants and Options ^(a)	Other ^(b)	Treasury Stock Purchases	Common Stock Outstanding ^(c)	Period	Warrants and Options ^(a)	Other ^(b)	Treasury Stock Purchases	Common Stock Outstanding ^(c)
December 31, 2022	December 31, 2022				899,858,944	December 31, 2022				899,858,944
First Quarter 2023	First Quarter 2023	268,371	3,935,166	(12,511,237)	891,551,244	First Quarter 2023	268,371	3,935,166	(12,511,237)	891,551,244
Second Quarter 2023	Second Quarter 2023	205,631	158,473	(7,233,460)	884,681,888	Second Quarter 2023	205,631	158,473	(7,233,460)	884,681,888
Third Quarter 2023						Third Quarter 2023	2,468,799	19,248	(9,468,451)	877,701,484
Total 2023	Total 2023	474,002	4,093,639	(19,744,697)	884,681,888	Total 2023	2,942,801	4,112,887	(29,213,148)	877,701,484

(a) Approximately **\$16.70** million of cash was received as a result of the exercise of common stock warrants and options.

(b) Consists of issuances from the 2015 long-term incentive plan, the OPC savings plan and the dividend reinvestment plan.

(c) As of **June 30, 2023** **September 30, 2023**, Occidental has **103.8** **101.4** million outstanding warrants with a strike of \$22.00 per share and 83.9 million of warrants with a strike of \$59.62 per share.

PREFERRED STOCK REDEMPTION

In connection with the Anadarko **Acquisition**, **acquisition**, Occidental issued 100,000 shares of series A preferred stock, with a face value of \$100,000 per share and a liquidation preference of \$105,000 per share plus unpaid accrued dividends. Prior to August 2029, a mandatory redemption provision obligates Occidental to redeem preferred stock at a 10% premium to face value on a dollar-for-dollar basis for every dollar distributed to common shareholders (either via common stock dividends or share repurchases) above \$4.00 per

share, on a trailing 12-month basis. Preferred redemptions can settle between 30 and 60 days from the date Berkshire Hathaway is notified of the redemption obligation and accrued unpaid dividends are paid up to but not including the redemption date. Occidental cannot voluntarily redeem preferred stock before August 2029. After August 2029, Occidental can voluntarily redeem preferred stock at a 5% premium to face value.

Dividends on preferred stock accrue on the face value at a rate per annum of 8%, but will be paid only when, and if, declared by Occidental's Board of Directors. At any time, when such dividends have not been paid in full, the unpaid amounts will accrue dividends, compounded quarterly, at a rate per annum of 9%. Following the payment in full of any accrued but unpaid dividends, the dividend rate will remain at 9% per annum. If preferred dividends are not paid in full, Occidental is prohibited from paying dividends on common stock. Occidental paid \$205 \$187 million in preferred stock dividends in the second third quarter of 2023.

In the three months ended June 30, 2023 September 30, 2023, Occidental triggered the redemption of and redeemed preferred stock with a face value of \$522 \$342 million, and an additional \$52 incurred \$34 million premium, in redemption premiums. In the nine months ended September 30, 2023, Occidental triggered the redemption of redeemed preferred stock with a face value of \$1.3 \$1.5 billion, inclusive of a 10% premium, and incurred \$151 million in the six months ended June 30, 2023. Of this amount, \$304 million, inclusive of a 10% premium, was settled in cash subsequent to June 30, 2023 but before the date of this filing, redemption premiums. To the extent Occidental's trailing 12-month distributions to common shareholders remain above \$4.00 per share, Occidental is required to continue to match any common shareholder distributions with preferred stock redemptions. As of the date of this filing, approximately \$8.8 \$8.5 billion face value of preferred stock remains outstanding.

The following table presents preferred stock redemption activity for the six nine months ended June 30, 2023 September 30, 2023:

shares of preferred stock	
Preferred stock, as of December 31, 2022	100,000
Less: Obligated Preferred redemptions	(6,468)(15,103)
Preferred stock, as of March 31, 2023 September 30, 2023	93,532
Less: Obligated redemptions	(5,220)
Preferred stock, as of June 30, 2023	88,312 84,897

The carrying value of preferred stock is less than the face value. The difference between carrying value and face value, along with the redemption premium, reduces net income available to common stockholders. The following presents the components of preferred stock dividends and redemptions:

millions	millions	Three months ended June 30, 2023			30, 2023 millions			Three months ended September 30, 2023			Nine months ended September 30, 2023		
		Preferred dividends	Redemption premium	Redemption value in excess of carrying value	Preferred dividend and redemption premiums	Redemption premium	Redemption value in excess of carrying value	Preferred dividend and redemption premiums	Redemption premium	Redemption value in excess of carrying value	Preferred dividend and redemption premiums	Redemption premium	Redemption value in excess of carrying value

Preferred dividend and redemption premiums	Preferred dividend and redemption premiums	\$ 255	\$ 535		Preferred dividend and redemption premiums	\$ 219	\$ 754	Preferred dividend and redemption premiums	\$ 219	\$ 754	Preferred dividend and redemption premiums	\$ 219	\$ 754

NOTE 10 - SEGMENTS

Occidental conducts its operations through three segments: (1) oil and gas; (2) chemical; and (3) midstream and marketing. Income taxes, interest income, interest expense, environmental remediation expenses and unallocated corporate expenses are included under corporate and eliminations. Intersegment sales eliminate upon consolidation and are generally made at prices approximating those that the selling entity would be able to obtain in third-party transactions. The following table presents Occidental's industry segments:

(a) The three and **six** nine months ended **June 30, 2023** September 30, 2023 included the sale of certain non-core proved and unproved properties in the Permian Basin for a net gain of \$142 million. The nine months ended September 30, 2023 also included a \$180 million impairment related to undeveloped acreage in the northern non-core area of the Powder River Basin, and \$29 a \$29 million impairment related to an equity method investment in the Black Butte Coal Company. The six months ended June 30, 2023 also included and a \$26 million litigation settlement gain. The **six** nine months ended **June 30, 2022** September 30, 2022 included \$147 million of gains, primarily related to the sale of certain non-strategic assets in the Permian Basin.

(b) The three and **six** nine months ended **June 30, 2023** September 30, 2023 included \$48 \$81 million and \$41 million of net derivative mark-to-market losses, \$34 million and \$40 \$60 million of asset impairments and other charges, respectively and a \$51 million gain on the sale of 5.1 million limited partner units in WES. The three and nine months ended September 30, 2022 included \$84 million and \$186 million of net derivative mark-to-market gains, respectively. The three losses, respectively and **six** months ended June 30, 2022 included \$96 a \$62 million and \$102 gain on the sale of 10 million of net derivative mark-to-market gains and losses, respectively, limited partner units in WES.

(c) The three and **six** months ended **June 30, 2023** September 30, 2023 included a \$68 million \$3 million deferred benefit and the nine months ended September 30, 2023 included a \$65 million deferred tax charge related to the Algeria contract renewal and renewal. The nine months ended September 30, 2023 included a \$260 million gain related to a Maxus environmental reserve adjustment, see Note 8 - Lawsuits, Claims, Commitments and Contingencies for further information. The three months ended **June 30, 2022** September 30, 2022 included a \$179 million gain on early debt extinguishment and a \$127 \$70 million gain on interest rate swaps. The **six** nine months ended **June 30, 2022** September 30, 2022 included a non-cash tax benefit of \$2.6 billion in connection with Occidental's legal entity reorganization, which is further discussed in the Note 6 - Income Taxes section of the Management's Discussion and Analysis of Financial Condition and Results of Operations in Part I, Item 2 of this Form 10-Q, as well as a \$262 \$332 million gain on interest rate swaps and a \$161 \$143 million gain on early debt extinguishment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read together with the Consolidated Condensed Financial Statements and the notes to the Consolidated Condensed Financial Statements, which are included in this report in Part I, Item 1; the information set forth in Risk Factors under Part II, Item 1A; the Consolidated Financial Statements and the notes to the Consolidated Financial Statements, which are included in Part II, Item 8 of Occidental's 2022 Form 10-K; and the information set forth in Risk Factors under Part I, Item 1A of the 2022 Form 10-K.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Portions of this report contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including, but not limited to: any projections of earnings, revenue or other financial items or future financial position or sources of financing; any statements of the plans, strategies

and objectives of management for future operations or business strategy; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Words such as "estimate," "project," "predict," "will," "would," "should," "could," "may," "might," "anticipate," "plan," "intend," "believe," "expect," "aim," "goal," "target," "objective," "commit," "advance," "likely" or similar expressions that convey the prospective nature of events or outcomes are generally indicative of forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this report unless an earlier date is specified. Unless legally required, Occidental does not undertake any obligation to update, modify or withdraw any forward-looking statements as a result of new information, future events or otherwise.

Actual outcomes or results may differ from anticipated results, sometimes materially. Forward-looking and other statements regarding Occidental's sustainability efforts and aspirations are not an indication that these statements are necessarily material to investors or require disclosure in Occidental's filings with the SEC. In addition, historical, current and forward-looking sustainability-related statements may be based on standards for measuring progress that are still developing, internal controls and processes that continue to evolve and assumptions that are subject to change in the future, including future rulemaking. Factors that could cause results to differ from those projected or assumed in any forward-looking statement include, but are not limited to: general economic conditions, including slowdowns and recessions, domestically or internationally; Occidental's indebtedness and other payment obligations, including the need to generate sufficient cash flows to fund operations; Occidental's ability to successfully monetize select assets and repay or refinance debt and the impact of changes in Occidental's credit ratings or future increases in interest rates; assumptions about energy markets; global and local commodity and commodity-futures pricing fluctuations and volatility; supply and demand considerations for, and the prices of, Occidental's products and services; actions by OPEC and non-OPEC oil producing countries; the scope and duration of global or regional health pandemics or epidemics, including COVID-19, and actions taken by governmental authorities and other third parties in connection therewith; results from operations and competitive conditions; future impairments of Occidental's proved and unproved oil and gas properties or equity investments, or write-downs of productive assets, causing charges to earnings; unexpected changes in costs; inflation, its impact on markets and economic activity and related monetary policy actions by governments in response to inflation; availability of capital resources, levels of capital expenditures and contractual obligations; the regulatory approval environment, including Occidental's ability to timely obtain or maintain permits or other governmental approvals, including those necessary for drilling and/or development projects; Occidental's ability to successfully complete, or any material delay of, field developments, expansion projects, capital expenditures, efficiency projects, acquisitions or dispositions; risks associated with acquisitions, mergers and joint ventures, such as difficulties integrating businesses, uncertainty associated with financial projections, projected synergies, restructuring, increased costs and adverse tax consequences; uncertainties and liabilities associated with acquired and divested properties and businesses; uncertainties about the estimated quantities of oil, NGL and natural gas reserves; lower-than-expected production from development projects or acquisitions; Occidental's ability to realize the anticipated benefits from prior or future streamlining actions to reduce fixed costs, simplify or improve processes and improve Occidental's competitiveness; exploration, drilling and other operational risks; disruptions to, capacity constraints in, or other limitations on the pipeline systems that deliver Occidental's oil and natural gas and other processing and transportation considerations; volatility in the securities, capital or credit markets, including capital market disruptions and instability of financial institutions; governmental actions, war (including the Russia-Ukraine war and the Israel-Hamas war) and political conditions and events; health, safety and environmental (HSE) risks, costs and liability under existing or future federal, regional, state, provincial, tribal, local and international HSE laws, regulations and litigation (including related to climate change or remedial actions or assessments); legislative or regulatory changes, including changes relating to hydraulic fracturing or other oil and natural gas operations, retroactive royalty or production tax regimes, and deep-water and onshore drilling and permitting regulations; Occidental's ability to recognize intended benefits from its business strategies and initiatives, such as Occidental's low carbon ventures businesses or announced greenhouse gas emissions reduction targets or net-zero goals; potential liability resulting from pending or future litigation, government investigations and other proceedings; disruption or interruption of production or manufacturing or facility damage due to accidents, chemical releases, labor unrest, weather, power outages, natural disasters, cyber-attacks, terrorist acts or insurgent activity; the creditworthiness and performance of Occidental's counterparties, including financial institutions, operating partners and other parties; failure of risk management; Occidental's ability to retain and hire key personnel; supply, transportation, and labor constraints; reorganization or restructuring of Occidental's operations; changes in state, federal or international tax rates; and actions by third parties that are beyond Occidental's control.

Additional information concerning these and other factors that may cause Occidental's results of operations and financial position to differ from expectations can be found in Occidental's other filings with the SEC, including Occidental's 2022 Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

CURRENT BUSINESS OUTLOOK

Occidental's operations, financial condition, cash flows and levels of expenditures are highly dependent on oil prices and, to a lesser extent, NGL and natural gas prices, the Midland-to-Gulf-Coast oil spreads, chemical product prices and inflationary pressures in the macro-economic environment. The average WTI price per barrel for the six nine months ended June 30, 2023 September 30, 2023 was \$74.98, \$77.41, compared to \$101.35 \$98.09 for the six nine months ended June 30, 2022 September 30, 2022. Oil prices decreased in the first six months of 2023 as inflation and economic concerns signaled a potential decrease in energy demand, despite the ongoing global impact of the Russia-Ukraine war. It is expected that the price of oil will be volatile for the foreseeable future given the current geopolitical risks, evolving macro-economic environment that impacts energy demand, future actions by OPEC and non-OPEC oil producing countries, the Russia-Ukraine war and the conflict in the Middle East, and the Biden Administration's management of the U.S. Strategic Petroleum Reserve.

Occidental works to manage inflation impacts by capitalizing on operational efficiencies, proactive contract management and working closely with vendors to secure the supply of critical materials. As of June 30, 2023 September 30, 2023, substantially all of Occidental's outstanding debt is fixed rate.

2023 PRIORITIES

Occidental's capital and operational priorities for 2023 are intended to maximize cash flow through focused investments in short and medium-cycle projects intended to enhance current year and future cash flows. Occidental intends to utilize future operating cash flows to:

- preserve and enhance its existing asset base with investments in its core cash-generative oil and gas and chemical businesses as well as its emerging low-carbon businesses with a focus on its net-zero pathway;
- continue its shareholder return framework in the form of a sustainable and growing common share dividend and an active share buyback plan, driving partial redemptions of preferred stock and further improving Occidental's financial position; and
- continue to opportunistically reduce financial leverage.

During the first six nine months of 2023, Occidental generated cash flow from operations of \$5.9 billion \$9.1 billion and incurred capital expenditures of \$3.1 billion \$4.7 billion.

DEBT RATINGS

As of June 30, 2023 September 30, 2023, Occidental's long-term debt was rated Baa3 by Moody's Investors Service, BBB- by Fitch Ratings and BB+ by Standard and Poor's. Occidental's credit rating was upgraded to investment grade by Moody's Investors Service in March 2023 and by Fitch Ratings in May 2023. Any downgrade in credit ratings could

impact Occidental's ability to access capital markets and increase its cost of capital. In addition, Occidental or its subsidiaries may be requested, elect to provide or in some cases be required to provide collateral in the form of cash, letters of credit, surety bonds or other acceptable support as financial assurance of their performance and payment obligations under certain contractual arrangements such as pipeline transportation contracts, environmental remediation obligations, oil and gas purchase contracts and certain derivative instruments. Occidental has no remaining debt maturities in 2023, and has \$1.1 billion of debt maturities due in the third quarter of 2024.

SHAREHOLDER RETURNS

During the **six** nine months ended **June 30, 2023** **September 30, 2023**, Occidental declared dividends to common shareholders of \$325 \$485 million or \$0.36 \$0.54 per share and repurchased 19.7 million 29.1 million common shares at an average price of \$59.61 \$61.09 per share under the stock repurchase plan announced in February 2023.

In the three months ended **June 30, 2023** **September 30, 2023**, Occidental triggered the redemption of and redeemed preferred stock with a face value of \$522 \$342 million, and an additional \$52 incurred \$34 million premium, in redemption premiums. In the nine months ended **September 30, 2023**, Occidental triggered the redemption of redeemed preferred stock with a face value of \$1.3 \$1.5 billion, inclusive of a 10% premium, and incurred \$151 million in the six months ended **June 30, 2023**. Of this amount, \$304 million, inclusive of a 10% premium, was settled in cash subsequent to June 30, 2023 but before the date of this filing, redemption premiums. To the extent Occidental's trailing 12-month distributions to common shareholders remain is above \$4.00 per share, Occidental is required to continue to match any common shareholder distributions with preferred stock redemptions. As of the date of this filing, approximately \$8.8 \$8.5 billion face value of preferred stock remains outstanding.

CONSOLIDATED RESULTS OF OPERATIONS AND ITEMS AFFECTING COMPARABILITY

Occidental's operations and cash flows can vary significantly based on changes in oil, NGL and natural gas prices and the prices it receives for its chemical products. Such changes in prices could result in adjustments in capital investment levels and how such capital is allocated, which could impact production volumes. Significant changes have occurred Changes in the macro-economic environment over the previous year, which have impacted energy demand leading to decreases in commodity prices commodities and chemical product pricing for the nine months ended September 30, 2023, compared to prior year. Increases in commodities and correspondingly Occidental's results chemical product pricing in the third quarter of operations and cash flows, 2023 partially reversed the year-over-year trend. Occidental's results of operations and cash flows are primarily driven by these macro-economic effects. Seasonality is not a primary driver of changes in Occidental's consolidated quarterly earnings during the year.

The following table sets forth earnings of each operating segment and corporate items:

millions	millions	Three months ended June 30, 2023	% Change		Three months ended March 31, 2023	millions	Three months ended September 30, 2023	% Change ended June 30, 2023

Q2 Q3 2023 compared to Q1 Q2 2023

Excluding items affecting comparability, the decrease in net income for the three months ended June 30, 2023 September 30, 2023, compared to the three months ended March 31, 2023 June 30, 2023, was primarily due to lower higher domestic crude oil, natural gas and NGL commodity prices and lower higher domestic crude oil volumes, partially offset by higher lower international sales volumes and an increase in lease operating expense in the oil and gas segment and lower realized caustic sales prices in the chemical segment.

YTD 2023 compared to YTD 2022

Excluding items affecting comparability, the decrease in net income for the six nine months ended June 30, 2023 September 30, 2023, compared to the six nine months ended June 30, 2022 September 30, 2022, was primarily due to lower worldwide crude oil, domestic NGL and domestic natural gas commodity prices and an increase in lease operating expense in the oil and gas segment and lower realized PVC prices and lower demand across most product lines in the chemicals chemical segment and lower crude margins due to

the timing of crude sales in the marketing business, partially offset by higher worldwide domestic sales volumes in the oil and gas segment and lower ethylene and energy costs in the chemical segment.

Q2 Q3 2023 compared to Q1 Q2 2023

Net sales decreased for the three months ended **June 30, 2023** September 30, 2023, compared to the three months ended **March 31, 2023** June 30, 2023, primarily due to lower domestic crude oil, natural gas and NGL commodity prices and lower domestic crude oil volumes, partially offset by higher international sales volumes in the oil and gas segment and lower realized caustic sales prices in the chemical segment.

Gain on sale of assets for the three months ended September 30, 2023 included a gain on the sale of certain non-core proved and unproved properties in the Permian Basin of \$142 million and a \$51 million of gain on the sale of 5.1 million limited partner units in WES.

Other operating and non-operating expense decreased for the three months ended **June 30, 2023** September 30, 2023, compared to the three months ended **March 31, 2023** June 30, 2023, due to the \$260 million remeasurement of the valuation allowance for the Maxus Liquidating Trust, Trust recorded in the three months ended June 30, 2023. See [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#) for further information.

Asset impairments and other charges for the three months ended June 30, 2023 included a \$180 million impairment of undeveloped acreage in the northern non-core area of the Powder River Basin where Occidental has determined not to pursue future exploration and appraisal activities and a \$29 million impairment related to an equity method investment in the Black Butte Coal Company.

YTD 2023 compared to YTD 2022

Net sales decreased for the **six nine** months ended **June 30, 2023** September 30, 2023, compared to the same period in 2022, primarily due to lower worldwide crude oil, and domestic NGL and domestic natural gas commodity prices in the oil and gas segment, as well as lower realized PVC sales prices and sales volumes lower demand across most products product lines in the chemical segment and lower crude margins due to the timing of crude sales in the marketing business, partially offset by higher domestic sales volumes in the oil and gas segment.

Oil and gas operating expense increased for the **six nine** months ended **June 30, 2023** September 30, 2023, compared to the same period in 2022, primarily as a result of higher domestic workover and maintenance activity.

Chemical and midstream cost of sales decreased for the nine months ended September 30, 2023, compared to the same period in 2022, primarily as a result of higher domestic workover lower ethylene and maintenance activity, energy cost in the chemical segment and lower power generation cost of sales in the midstream and marketing segment.

Purchased commodities decreased for the **six nine** months ended **June 30, 2023** September 30, 2023, compared to the same period in 2022, due to lower volumes and prices on third-party crude purchases related to the midstream and marketing segment.

Other operating and non-operating expense decreased for the **six nine** months ended **June 30, 2023** September 30, 2023, compared to same period in 2022, due to the \$260 million remeasurement of the valuation allowance for the Maxus Liquidating Trust, Trust recorded in the three months ended June 30, 2023. See [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#) for further information.

Taxes other than on income decreased for the nine months ended September 30, 2023, compared to the same period in 2022, due to decreases in production taxes, which are directly tied to revenues, and ad valorem taxes.

Asset impairments and other charges for the **six nine** months ended **June 30, 2023** September 30, 2023 included a pre-tax impairment of \$180 million related to undeveloped acreage in the northern non-core area of the Powder River Basin and a \$29 million impairment related to an equity method investment in the Black Butte Coal Company.

Exploration expense increased for the nine months ended September 30, 2023, compared to the same period in 2022, primarily due to dry hole expense in the Gulf of Mexico.

The increase in income tax expense for the **six nine** months ended **June 30, 2023** September 30, 2023, compared to a benefit for the same period in 2022, resulted primarily from the tax benefit in 2022 associated with Occidental's legal entity reorganization. See Income Taxes section for further discussion.

SEGMENT RESULTS OF OPERATIONS

SEGMENT RESULTS OF OPERATIONS

Occidental's principal businesses consist of three reporting segments: oil and gas, chemical and midstream and marketing. The oil and gas segment explores for, develops and produces oil and condensate, NGL and natural gas. The chemical segment mainly manufactures and markets basic chemicals and vinyls. The midstream and marketing segment purchases, markets, gathers, processes, transports and stores oil (which includes condensate), NGL, natural gas, CO₂ and power. It also optimizes its transportation and storage capacity and invests in entities that conduct similar activities such as WES.

The midstream and marketing segment also includes Occidental's low carbon ventures businesses. Occidental's low carbon ventures businesses seek to leverage Occidental's legacy of carbon management expertise to develop carbon capture, utilization and storage projects, including the commercialization of direct air capture technology, invest in other low-carbon technologies intended to reduce greenhouse gas emissions from its Occidental's operations and strategically partner with other industries to help reduce their emissions.

OIL AND GAS SEGMENT

The following table sets forth the average sales volumes per day for oil and NGL in Mbbl and for natural gas in MMcf:

Sales Volumes per Day	Oil (Mbbl)	Three months ended		Six months ended		Three months ended		Nine months ended	
		June 30, 2023	March 31, 2023	June 30, 2023	June 30, 2022	September 30, 2023	June 30, 2023	September 30, 2023	September 30, 2022
		United States	International	United States	International	United States	International	United States	International
Sales Volumes per Day	Sales Volumes per Day					Sales Volumes per Day			
Oil (Mbbl)	Oil (Mbbl)					Oil (Mbbl)			
United States	United States	521	551	535	489	United States	534	521	535
International	International	112	103	108	109	International	104	112	107
NGL (Mbbl)	NGL (Mbbl)					NGL (Mbbl)			
United States	United States	251	243	247	217	United States	252	251	248
									223

International	International	35	28	32	29	International	37	35	34	31
Natural Gas (MMcf)	Natural Gas (MMcf)					Natural Gas (MMcf)				
United States	United States	1,310	1,319	1,317	1,204	United States	1,267	1,310	1,300	1,210
International	International	507	414	458	403	International	501	507	473	437
Total Sales Volumes (Mboe)	Total Sales Volumes (Mboe)					Total Sales Volumes (Mboe)				
(a)	(a)	1,222	1,214	1,218	1,112	(a)				

(a) Natural gas volumes have been converted to Boe based on energy content of six Mcf of gas to one barrel of oil. Barrels of oil equivalent does not necessarily result in price equivalency.

The following table presents information about Occidental's average realized prices and index prices:

	Three months ended			Six months ended			Three months ended			Nine months ended

Significant Activity

For the three and **six** nine months ended **June 30, 2023** **September 30, 2023**, Occidental sold certain non-core proved and unproved properties in the Permian Basin for \$202 million, resulting in a net gain on sale of assets of \$142 million. For the nine months ended **September 30, 2023**, Occidental recorded a pre-tax impairment of \$180 million related to undeveloped acreage in the northern non-core area of the Powder River Basin where Occidental has determined not to pursue future exploration and appraisal activities and a \$29 million impairment related to an equity method investment in the Black Butte Coal Company.

Occidental's extension of its production sharing contract in Algeria became effective in the second quarter of 2023, resulting in Company and a deferred tax charge of \$68 million. This charge is included in the table "Items affecting comparability" above. \$26 million litigation settlement gain.

Q2 Q3 2023 compared to Q1 Q2 2023

Oil and gas segment income was \$2.0 billion for the three months ended September 30, 2023, compared with segment income of \$1.1 billion for the three months ended June 30, 2023, compared with segment income of \$1.6 billion for the three months ended March 31, 2023. Excluding the impact of items affecting comparability, oil and gas segment results for the three months ended **June 30, 2023** **September 30, 2023**, compared to the three months ended **March 31, 2023** **June 30, 2023**, reflected **lower** **higher** domestic NGL crude oil, natural gas and natural gas NGL commodity prices and **lower** **higher** domestic crude oil volumes, partially offset by **higher** **lower** international sales volumes.

The volumes and an increase in average lease operating expense in the oil and gas segment.

Average daily sales volumes of 8 Mboe/d remained consistent for the three months ended **June 30, 2023** **September 30, 2023**, compared to the three months ended **March 31, 2023**, primarily reflected the completion of the Al Hosn Gas expansion project, partially offset by downtime for maintenance in the Gulf of Mexico. **June 30, 2023**.

YTD 2023 compared to YTD 2022

Oil and gas segment income was \$2.7 billion \$4.7 billion for the **six** nine months ended **June 30, 2023** **September 30, 2023**, compared with segment income of \$7.0 billion \$10.3 billion for the **six** nine months ended **June 30, 2022** **September 30, 2022**. Excluding the impact of items affecting comparability, oil and gas segment results for the **six** nine months ended **June 30, 2023** **September 30, 2023**, compared to the **six** nine months ended **June 30, 2022** **September 30, 2022**, reflected lower worldwide crude oil, domestic NGL and domestic natural gas commodity prices and an increase in lease operating expense, partially offset by higher domestic sales volumes.

The increase in average daily sales volumes of 106.85 Mboe/d for the **six** nine months ended **June 30, 2023** **September 30, 2023**, compared to the **six** nine months ended **June 30, 2022** **September 30, 2022**, primarily reflected increased activity in the Permian Basin and Gulf of Mexico and the prior year planned shutdown at Al Hosn Gas to allow for tie-in work for the expansion project. **Basin**.

The following table presents an analysis of the impacts of changes in average realized prices and sales volumes with regard to Occidental's domestic and international oil and gas revenue:

millions	millions	Increase (Decrease) Related to						Increase (Decrease) Related to						Three Months Ended September 30, 2023 (b)

(a) Includes the impact of international production sharing contracts.

(b) Excludes "other" oil and gas revenue. See [Note 2 - Revenue](#) in the notes to the Consolidated Condensed Financial Statements in Part I, Item 1 of this Form 10-Q for additional information regarding other revenue.

CHEMICAL SEGMENT

[Q2 Q3 2023 compared to Q1 Q2 2023](#)

Chemical segment earnings for the three months ended [June 30, 2023](#) [September 30, 2023](#) were [\\$436 million](#) [\\$373 million](#), compared to [\\$472 million](#) [\\$436 million](#) for the three months ended [March 31, 2023](#) [June 30, 2023](#). The decrease in segment earnings was driven primarily by lower realized caustic soda and PVC pricing, partially offset by higher sales volumes for caustic soda as well as lower ethylene and energy costs.

[YTD 2023 compared to YTD 2022](#)

Chemical segment earnings for the [six nine months ended](#) [June 30, 2023](#) [September 30, 2023](#) were [\\$908 million](#) [\\$1.3 billion](#), compared to [\\$1.5 billion](#) [\\$2.1 billion](#) for the [six nine months ended](#) [June 30, 2022](#) [September 30, 2022](#). The decrease in segment earnings was driven primarily by lower realized PVC pricing as well as lower sales volumes due to decreased demand across most product lines, partially offset by lower ethylene and energy costs.

MIDSTREAM AND MARKETING SEGMENT

[Q2 Subsequent Events](#)

In November 2023, Occidental entered into a joint venture agreement with BlackRock, through a fund managed by its Diversified Infrastructure business, for the development of Occidental's first large-scale Direct Air Capture plant in Ector County, Texas. The agreement provides \$550 million of committed investment from BlackRock's fund.

In August 2023, Occidental entered into an agreement with Carbon Engineering Ltd, its equity method investee, to purchase the remaining 67.83% interest not already owned by Occidental or its affiliates for total cash consideration of approximately \$1.1 billion, resulting in Carbon Engineering becoming a wholly owned subsidiary of Occidental. The purchase price will be made in three approximately equal annual payments, with the first payment to be made at closing. This transaction closed on November 3, 2023, and Occidental made the first payment of \$355 million. The remaining two payments will be paid on the first and second anniversaries of closing. With this purchase Occidental intends to accelerate technological innovation and cost reductions in Carbon Engineering's direct-air-capture technology. The transaction qualifies as a business combination and will be accounted for using the acquisition method of accounting. Occidental's purchase price allocation is currently in process and as such was incomplete as of the issuance of these unaudited Consolidated Condensed Financial Statements.

[Q3 2023 compared to Q1 Q2 2023](#)

Midstream and marketing segment losses for the three months ended [June 30, 2023](#) [September 30, 2023](#) were [\\$30 million](#) [\\$130 million](#), compared to segment earnings losses of [\\$2 million](#) [\\$30 million](#) for the three months ended [March 31, 2023](#) [June 30, 2023](#). Excluding the impact of items affecting comparability, the decrease in midstream and marketing second third quarter results reflected higher gas crude margins due to the winter weather impact in the first quarter in comparison to the second quarter, and the timing impact of crude oil sales, sales in the marketing business, partially offset by higher expenses due to the increase in activities in the low carbon ventures businesses.

[YTD 2023 compared to YTD 2022](#)

Midstream and marketing segment losses for the [six nine months ended](#) [June 30, 2023](#) [September 30, 2023](#) were [\\$28 million](#) [\\$158 million](#), compared with segment earnings of [\\$214 million](#) [\\$318 million](#) for the [six nine months ended](#) [June 30, 2022](#) [September 30, 2022](#). Excluding the impact of items affecting comparability, the decrease in midstream and marketing segment results was primarily driven by lower crude margins due to the timing impact of crude oil sales in the marketing business and lower NGL and sulfur prices at Al Hosh Gas, lower equity method investment income from WES, lower NGL prices impacting domestic gas plants, and processing, increased activities in the low carbon ventures businesses, partially offset by favorable gas margins and lower equity method investment income from the optimization of gas transportation capacities in the marketing business and higher volumes from Al Hosh Gas.

INCOME TAXES

The following table sets forth the calculation of the worldwide effective tax rate for income:

millions, except percentages	millions, except percentages	Three months ended		Six months ended		millions, except percentages	Three months ended		Nine months ended		
		June 30, 2023	March 31, 2023	June 30, 2023	June 30, 2022		September 30, 2023	June 30, 2023	September 30, 2023	September 30, 2022

		28 %
		3 %

Occidental estimates its annual effective income tax rate in recording its quarterly provision for income taxes in the various jurisdictions in which Occidental operates, adjusted for certain discrete items. Each quarter, Occidental updates these rates and records a cumulative adjustment to its income taxes by applying the rates to the pre-tax income excluding certain discrete items. Occidental's quarterly estimate of its effective tax rates can vary significantly based on various forecasted items, including future commodity prices, capital expenditures, expenses for which tax benefits are not recognized and the geographic mix of pre-tax income and losses.

The 35% 24%, 27% 35%, and 31% 28% worldwide effective tax rates for the three months ended June 30, 2023 September 30, 2023, three months ended March 31, 2023 June 30, 2023, and six nine months ended June 30, 2023 September 30, 2023, respectively, are primarily driven by Occidental's jurisdictional mix of income. U.S. income is taxed at a U.S. federal statutory rate of 21%, while international income is subject to tax at statutory rates as high as 55%. These effective rates differ from the negative 7% 3% tax rate for income from continuing operations for the six nine months ended June 30, 2022 September 30, 2022, which was impacted by a tax benefit associated with Occidental's legal entity reorganization as described above.

See [Note 6 - Income Taxes](#) in the notes to the Consolidated Condensed Financial Statements in Part I, Item 1 of this Form 10-Q for additional information regarding Occidental's income taxes and legal entity reorganization in 2022.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2023 September 30, 2023, Occidental had approximately \$0.5 billion \$611 million of cash and cash equivalents on hand. Through the date of this filing, Occidental has drawn no amounts under its RCF, which has \$4.0 billion of borrowing capacity and matures in June 2025. Additionally, Occidental has up to \$600 million of available borrowing capacity on its receivables securitization facility which matures in December 2024. There were no amounts outstanding on Occidental's receivable securitization facility as of September 30, 2023.

Operating cash flow was \$5.9 \$9.1 billion for the six nine months ended June 30, 2023 September 30, 2023, compared to \$8.6 \$12.8 billion for the six nine months ended June 30, 2022 September 30, 2022. The decrease in operating cash flow from continuing operations was primarily due to lower commodity prices as compared to the same period in 2022.

Occidental's net cash used by investing activities was \$3.5 \$5.0 billion for the six nine months ended June 30, 2023 September 30, 2023, compared to \$2.0 \$3.0 billion for the six nine months ended June 30, 2022 September 30, 2022. Capital expenditures, of which the majority were for the oil and gas segment, were approximately \$3.1 \$4.7 billion for the six nine months ended June 30, 2023 September 30, 2023, compared to \$1.8 \$3.0 billion for the six nine months ended June 30, 2022 September 30, 2022. Also included in cash flow used by investing activities is Occidental's additional investment in NET Power, a clean energy technology company, totaling \$351 million for the nine months ended September 30, 2023. For the nine months ended September 2023, Occidental sold certain non-core proved and unproved properties in the Permian Basin for proceeds of \$202 million as well as sold WES 5.1 million of its limited partner units owned by Occidental for proceeds of \$128 million.

Occidental's net cash used by financing activities was \$2.9 \$4.4 billion for the six nine months ended June 30, 2023 September 30, 2023, compared to \$8.0 \$11.4 billion for the six nine months ended June 30, 2022 September 30, 2022. Cash used by financing activities for the six nine months ended June 30, 2023 September 30, 2023 reflected treasury share repurchases of \$1.2 billion, preferred stock redemptions \$1.6 billion. An additional \$175 million of \$982 million and dividend payments of \$688 million on preferred and common stock. Cash used by financing activities for the six months ended June 30, 2022 reflected repayments of debt of \$7.1 billion, dividend payments of \$539 million on preferred and common stock, and treasury share repurchases settled subsequent to September 30, 2023 for total common share repurchases of \$568 million. \$1.8 billion in the nine months ended September 30, 2023. As of June 30, 2023 September 30, 2023, Occidental had \$1.8 billion \$1.2 billion remaining of the \$3.0 billion share repurchase program that was announced in February 2023. The program does not obligate Occidental to acquire any specific number of shares and may be discontinued at any time. Financing cash flows also included redemptions of preferred stock with a face value of \$1.5 billion, \$151 million in redemption premiums and dividend payments of \$1.0 billion on preferred and common stock. Additionally, cash flows from financing activities for the nine months ended September 30, 2023, included the proceeds from and subsequent repayment of \$0.9 billion from the receivable securitization facilities. Cash used by financing activities for the nine months ended September 30, 2022 reflected repayments of debt of \$8.3 billion, dividend payments of \$863 million on preferred and common stock, and treasury share repurchases of \$2.5 billion.

Occidental's Zero Coupons can be put to Occidental in October of each year, in whole or in part, for the then accreted value of the outstanding Zero Coupons. The Zero Coupons can next be put to Occidental in October 2023 2024, which, if put in whole, would require a payment of approximately \$344 million \$362 million at such date. None of the outstanding Zero Coupons were put to Occidental in October 2023. Occidental currently has the ability to meet this obligation and may use available capacity under the RCF and other committed facilities to satisfy the put should it be exercised.

As of June 30, 2023 September 30, 2023, and through the date of this filing, Occidental was in compliance with all covenants in its financing agreements. Occidental has no remaining debt maturities in 2023, \$1.1 billion in 2024, \$1.2 billion in 2025, \$1.4 billion in 2026 and \$14.2 billion thereafter. Occidental currently expects its cash on hand, operating cash flows and funds available from the RCF and other committed facilities to be sufficient to meet its near-term debt maturities, operating expenditures, capital expenditures preferred stock redemptions and other obligations for the next 12 months from the date of this filing.

Occidental or its subsidiaries have provided financial assurances through a combination of cash, letters of credit and surety bonds. As of **June 30, 2023** **September 30, 2023**, Occidental had not issued any letters of credit under the RCF or other committed facilities. For additional information, see Risk Factors in Part I, Item 1A of Occidental's 2022 Form 10-K.

ENVIRONMENTAL LIABILITIES AND EXPENDITURES

Occidental's operations are subject to stringent federal, regional, state, provincial, tribal, local and international laws and regulations related to improving or maintaining environmental quality. Occidental's environmental compliance costs have generally increased over time and are expected to rise in the future. Occidental factors environmental expenditures for its operations as an integral part of its business planning process.

The laws that require or address environmental remediation, including CERCLA and similar federal, regional, state, provincial, tribal, local and international laws, may apply retroactively and regardless of fault, the legality of the original activities or the current ownership or control of sites. Occidental or certain of its subsidiaries participate in or actively monitor a range of remedial activities and government or private proceedings under these laws with respect to alleged past practices at Third-Party, Currently Operated, and Closed or Non-Operated Sites. Remedial activities may include one or more of the following: investigation involving sampling, modeling, risk assessment or monitoring; cleanup measures including removal, treatment or disposal; or operation and maintenance of remedial systems. The environmental proceedings seek funding or performance of remediation and, in some cases, compensation for alleged property damage, natural resource damages, punitive damages, civil penalties, injunctive relief and government oversight costs.

See [Note 7 - Environmental Liabilities and Expenditures](#) in the notes to the Consolidated Condensed Financial Statements in Part I, Item 1 of this Form 10-Q and the Environmental Liabilities and Expenditures section of Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2022 Form 10-K for additional information regarding Occidental's environmental liabilities and expenditures.

LAWSUITS, CLAIMS, COMMITMENTS AND CONTINGENCIES

Occidental accrues reserves for outstanding lawsuits, claims and proceedings when it is probable that a liability has been incurred and the liability can be reasonably estimated. Occidental has disclosed its reserve balances for environmental remediation matters and its estimated range of reasonably possible additional losses for such matters. See [Note 7 - Environmental Liabilities and Expenditures](#) and [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#) in the notes to the Consolidated Condensed Financial Statements in Part I, Item 1 of this Form 10-Q for further information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For the three months ended **June 30, 2023** **September 30, 2023**, there were no material changes in the information required to be provided under Item 305 of Regulation S-K included under Item 7A, Quantitative and Qualitative Disclosures About Market Risk in the 2022 Form 10-K.

Item 4. Controls and Procedures

Occidental's President and Chief Executive Officer and its Senior Vice President and Chief Financial Officer supervised and participated in Occidental's evaluation of the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, Occidental's President and Chief Executive Officer and Senior Vice President and Chief Financial Officer concluded that Occidental's disclosure controls and procedures were effective as of **June 30, 2023** **September 30, 2023**.

There has been no change in Occidental's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended **June 30, 2023** **September 30, 2023** that has materially affected, or is reasonably likely to materially affect, Occidental's internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

Occidental has elected to use a \$1 million threshold for disclosing certain proceedings arising under federal, state or local environmental laws when a governmental authority is a party and potential monetary sanctions are involved. There are no new material legal proceedings or material developments with respect to matters previously disclosed in Part I, Item 3 of Occidental's 2022 Form 10-K for the year ended December 31, 2022 and in Part II, Item 1 of Occidental's Form 10-Q for the quarterly period ended March 31, 2023. For information regarding legal proceedings, see [Note 8 - Lawsuits, Claims, Commitments and Contingencies](#) in the notes to the Consolidated Condensed Financial Statements in Part I, Item 1 of this Form 10-Q.

Item 1A. Risk Factors

There have been no material changes from the risk factors included under Part I, Item 1A of Occidental's 2022 Form 10-K for the year ended December 31, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Occidental's share repurchase activities for the **six** **nine** months ended **June 30, 2023** **September 30, 2023** were as follows:

Period	Period	Total Number of Shares Purchased (a)				Maximum Value of Shares that May Yet Be Purchased Under the Plans or Programs (millions) (b)	Period	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (a)				Maximum Value of Shares that May Yet Be Purchased Under the Plans or Programs (millions) (b)
		Total Number of Shares Purchased	Average Price Paid per Share	Part of Publicly Announced Plans or Programs	Total Number of Shares Purchased			Average Price Paid per Share	Part of Publicly Announced Plans or Programs			
First Quarter 2023	First Quarter 2023	12,511,237	\$ 60.09	12,511,237			First Quarter 2023	12,511,237	\$ 60.09	12,511,237		
April 1-30, 2023		—		—								
May 1-31, 2023		5,967,740	\$ 58.66	5,967,740								
June 1-30, 2023		1,265,720	\$ 59.27	1,265,720								
Second Quarter 2023	Second Quarter 2023	7,233,460	\$ 58.77	7,233,460			Second Quarter 2023	7,233,460	\$ 58.77	7,233,460		
July 1-31, 2023					July 1-31, 2023			—	\$ —	—	—	
August 1-31, 2023					August 1-31, 2023			6,799,098	\$ 63.75	6,668,133		
September 1-30, 2023					September 1-30, 2023			2,669,353	\$ 65.57	2,669,353		
Third Quarter 2023					Third Quarter 2023			9,468,451	\$ 64.27	9,337,486		
Total 2023	Total 2023	19,744,697	\$ 59.61	19,744,697	\$ 1,823		Total 2023	29,213,148	\$ 61.12	29,082,183	\$ 1,223	

(a) Includes purchases from the trustee of Occidental's defined contribution savings plan that are not part of publicly announced plans or programs.

(b) Represents the value of shares remaining in Occidental's share repurchase plan. In February 2023, Occidental announced an authorization to repurchase up to \$3.0 billion of Occidental's shares of common stock. The plan does not obligate Occidental to acquire any specific number of shares and may be discontinued at any time.

Item 5. Other Information

At Occidental's 2023 Annual Meeting of Shareholders held on May 5, 2023, Occidental's shareholders voted on, among other matters, a proposal regarding the frequency of future advisory votes on named executive officer compensation. As previously reported, Occidental's Board of Directors views an annual advisory vote on named executive officer compensation as the most appropriate option for Occidental and its shareholders, and 98.26% of the votes cast on the frequency proposal supported the Board of Directors' recommendation. Accordingly, Occidental will hold future advisory votes on named executive officer compensation every year until the next advisory vote on the frequency of such votes, which, per applicable law, will occur no later than Occidental's Annual Meeting of Shareholders in 2029.

During the three months ended **June 30, 2023** **September 30, 2023**, no director or Section 16 officer of Occidental adopted or terminated any Rule 10b5-1 trading arrangements or non-Rule 10b5-1 trading arrangements (in each case, as defined in Item 408(a) of Regulation S-K).

Item 6. Exhibits

- 31.1* Certification of CEO Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2* Certification of CFO Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1** Certifications of CEO and CFO Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

EXHIBIT 31.1

**RULE 13a - 14(a) / 15d - 14(a)
CERTIFICATION
PURSUANT TO §302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Vicki Hollub, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Occidental Petroleum Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

RULE 13a - 14(a) / 15d - 14(a)
CERTIFICATION
PURSUANT TO §302 OF THE SARBANES-OXLEY ACT OF 2002

I, Robert Peterson, Sunil Mathew, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Occidental Petroleum Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Robert Peterson Sunil Mathew

Senior Vice President and Chief Financial Officer

CERTIFICATION OF CEO AND CFO PURSUANT TO
18 U.S.C. § 1350,
AS ADOPTED PURSUANT TO
§ 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of Occidental Petroleum Corporation (the "Company") for the fiscal period ended **June 30, 2023** **September 30, 2023**, as filed with the Securities and Exchange Commission on **August 2, 2023** **November 7, 2023** (the "Report"), Vicki Hollub, as Chief Executive Officer of the Company, and **Robert Peterson, Sunil Mathew**, as Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that, to the best of her or his knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ Vicki Hollub

Name: Vicki Hollub
Title: President and Chief Executive Officer
Date: **August 2, November 7, 2023**

/s/ **Robert Peterson Sunil Mathew**

Name: **Robert Peterson Sunil Mathew**
Title: Senior Vice President and Chief Financial Officer
Date: **August 2, November 7, 2023**

A signed original of this written statement required by Section 906 has been provided to Occidental Petroleum Corporation and will be retained by Occidental Petroleum Corporation and furnished to the Securities and Exchange Commission or its staff upon request.

This certification accompanies the Report pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the Company for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.
