Company or Murphy) on pages 2 through 6 of this Form 10-Q report.Note A â€“ Basis of Presentation The unaudited financial statements presented herein, in the opinion of Murphyâ€™s management, include all accruals necessary to present fairly the Companyâ€™s financial position as at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, and the results of operations, statements of operations, cash flows and changes in stockholdersâ€™ equity for the interim periods ended SeptemberÂ 30, 2024 and 2023, in conformity with U.S. generally accepted accounting principles (GAAP).Â In preparing the financial statements of the Company in conformity with GAAP, management has made a number of estimates and assumptions that affect the reporting of assets, liabilities, revenues, and expenses and the disclosure of contingent assets and liabilities.Â Actual results may differ from the estimates.Consolidated financial statements and notes to consolidated financial statements included in this Form 10-Q report should be read in conjunction with the Companyâ€™s 2023 Form 10-K report, as certain notes and other pertinent information have been abbreviated or omitted in this report.Â Financial results for the three-month and nine-month periods ended SeptemberÂ 30, 2024 are not necessarily indicative of future results.Note B â€“ New Accounting Principles and Recent Accounting Pronouncements Accounting Principles AdoptedNone affecting the Company.Recent Accounting PronouncementsExpense Disaggregation Disclosures. In November 2024 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2024-03 Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The standard becomes effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The standard requires specified information about certain costs and expenses presented on the face of the income statement to be further disaggregated in the notes to the financial statements. In addition, the standard requires certain expense and cost information that is not separately disaggregated to be qualitatively described. Murphy is currently evaluating the impact of adopting the standard.Income Tax Disclosures. In December 2023 the FASB issued ASU 2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The standard becomes effective for annual periods beginning after December 15, 2024. The update requires financial statements to include consistent categories and greater disaggregation of information in the rate reconciliation, as well as income taxes paid disaggregated by jurisdiction. Murphy is currently evaluating the impact of adopting this standard.Reportable Segment Disclosures. In November 2023 the FASB issued ASU 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The standard becomes effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The standard requires additional disclosures about reporting segments, including segment expense information provided to the chief operating decision maker, and extends certain disclosure requirements to interim periods. The standard does not affect our determination of reportable segments. Murphy will adopt Update 2023-07 in the period required, and we do not expect the adoption to have a material impact on our consolidated financial position, operating results and cash flows.Note C â€“ Revenue from Contracts with Customers Nature of Goods and Services7Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note C â€“ Revenue from Contracts with Customers (Continued)The Company explores for and produces crude oil, natural gas and natural gas liquids (collectively oil and natural gas) in select basins around the globe. The Companyâ€™s revenue from sales of oil and natural gas production activities are primarily divided into two key geographic segments: the United States (U.S.) and Canada.Â Additionally, revenue from sales to customers is generated from three primary revenue streams: crude oil and condensate, natural gas liquids (NGL), and natural gas.For operated oil and natural gas production where the non-operated working interest owner does not take in kind its proportionate interest in the produced commodity, the Company acts as an agent for the working interest owner and recognizes revenue only for its own share of the commingled production.Â The exception to this is the reporting of the noncontrolling interest (NCI) in MP Gulf of Mexico, LLC (MP GOM) as prescribed by GAAP.U.S. - In the U.S., the Company primarily produces oil and natural gas from fields in the Eagle Ford Shale area of South Texas and in the Gulf of Mexico.Â Revenue is generally recognized when oil and natural gas are transferred to the customer at the delivery point. Revenue recognized is largely index-based with price adjustments for floating market differentials.Canada - In Canada, contracts include long-term floating commodity index priced and natural gas physical forward sales fixed-price contracts. For the offshore business in Canada, contracts are based on index prices and revenue is recognized at the time of vessel load based on the volumes on the bill of lading and point of custody transfer. The Company also purchases natural gas in Canada to meet certain sales commitments.Disaggregation of RevenueThe Company reviews performance based on two key geographical segments and between onshore and offshore sources of revenue within these geographies.8Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note C - Revenue from Contracts with Customers (Continued)The Companyâ€™s revenues and other income for the three-month and nine-month periods ended SeptemberÂ 30, 2024 and 2023 were as follows.Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Thousands of dollars)20242023202420232Net crude oil and condensate revenueUnited States - Onshore$161,965Â $207,448Â $450,463Â $514,614Â United States - Offshore 1399,940Â 568,721Â 1,382,071Â 1,549,872Â Canada - Onshore20,852Â 20,610Â 54,305Â 61,868Â Canada - Offshore80,226Â 22,272Â 178,327Â 63,273Â Other(795)3,442Â 3,414Â 7,086Â Total crude oil and condensate revenue662,188Â 822,493Â 2,068,580Â 2,196,713Â Net natural gas liquids revenueUnited States - Onshore8,134Â 9,953Â 23,281Â 24,763Â United States - Offshore 19,812Â 10,908Â 29,523Â 37,078Â Canada - Onshore2,402Â 2,539Â 5,434Â 7,519Â Total natural gas liquids revenue20,348Â 23,400Â 58,238Â 69,360Â Net natural gas revenueUnited States - Onshore4,265Â 6,035Â 11,893Â 15,623Â United States - Offshore 112,311Â 18,377Â 35,700Â 55,311Â Canada - Onshore54,057Â 75,584Â 170,871Â 204,949Â Total natural gas revenue70,633Â 99,996Â 218,464Â 275,883Â Revenue from production753,169Â 945,889Â 2,345,282Â 2,541,956Â Sales of purchased natural gasCanada - Onshoreâ€“Â 7,877Â 3,742Â 64,628Â Total sales of purchased natural gasâ€“Â 7,877Â 3,742Â 64,628Â Total revenue from sales to customers753,169Â 953,766Â 2,349,024Â 2,606,584Â (Loss) on derivative instruments(1,344)â€“Â (1,344)â€“Â Gain on sale of assets and other income6,506Â 5,879Â 9,834Â 9,365Â Total revenues and other income$758,331Â $959,645Â $2,357,514Â $2,615,949Â 1 Includes revenue attributable to noncontrolling interest in MP GOM.Contract Balances and Asset RecognitionAs of SeptemberÂ 30, 2024, and DecemberÂ 31, 2023, receivables from contracts with customers, net of royalties and associated payables, on the balance sheet from continuing operations, were $165.1 million and $193.7 million, respectively. Payment terms for the Companyâ€™s sales vary across contracts and geographical regions, with the majority of the cash receipts required within 30 days of billing. Based on a forward-looking expected loss model in accordance with ASU 2016-13, the Company did not recognize any impairment losses on receivables or contract assets arising from customer contracts during the reporting periods.The Company has not entered into any revenue contracts that have financing components as of SeptemberÂ 30, 2024.The Company does not employ sales incentive strategies such as commissions or bonuses for obtaining sales contracts. For the periods presented, the Company did not identify any assets to be recognized associated with the costs to obtain a contract with a customer. Performance ObligationsThe Company recognizes oil and natural gas revenue when it satisfies a performance obligation by transferring control over a commodity to a customer.Â Judgment is required to determine whether some customers simultaneously receive and consume the benefit of commodities. As a result of this assessment for the Company, 9Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note C â€“ Revenue from Contracts with Customers (Continued)each unit of measure of the specified commodity is considered to represent a distinct performance obligation that is satisfied at a point in time upon the transfer of control of the commodity.For contracts with market or index-based pricing, which represent the majority of sales contracts, the Company has elected the allocation exception and allocates the variable consideration to each single performance obligation in the contract. As a result, there is no price allocation to unsatisfied remaining performance obligations for delivery of commodity product in subsequent periods.The Company has entered into several long-term, fixed-price contracts in Canada. The underlying reason for entering a fixed price contract is generally unrelated to anticipated future prices or other observable data and serves a particular purpose in the Companyâ€™s long-term strategy. As of SeptemberÂ 30, 2024, the Company had the following sales contracts in place which are expected to generate revenue from sales to customers for a period over 12 months starting at the inception of the contract:Long-Term Contracts Outstanding at September 30, 2024LocationCommodityEnd DateDescriptionApproximate VolumesU.S.Natural Gas and NGLQ2 2030Deliveries from dedicated acreage in Eagle FordAs producedCanadaNatural GasQ4 2024Contracts to sell natural gas at USD index pricing31 MMCFDCanadaNatural GasQ4 2024Contracts to sell natural gas at CAD fixed pricing124 MMCFDCanadaNatural GasQ4 2024Contracts to sell natural gas at USD fixed pricing25 MMCFDCanadaNatural GasQ4 2024Contracts to sell natural gas at CAD index pricing28 MMCFDCanadaNatural GasQ4 2025Contracts to sell natural gas at USD index pricing25 MMCFDCanadaNatural GasQ4 2025Contracts to sell natural gas at CAD fixed pricing40 MMCFDCanadaNatural GasQ4 2026Contracts to sell natural gas at USD index pricing49 MMCFDCanadaNatural GasQ4 2026Contracts to sell natural gas at CAD fixed pricing50 MMCFDCanadaNatural GasQ4 2027Contracts to sell natural gas at USD index pricing30 MMCFDCanadaNatural GasQ4 2028Contracts to sell natural gas at USD index pricing10 MMCFDCanadaNGLQ2 2025Contracts to sell NGL at CAD index pricingAs producedFixed price contracts are accounted for as normal sales and purchases for accounting purposes.Note D â€“ Property, Plant and Equipment Exploratory WellsUnder FASB guidance, exploratory well costs should continue to be capitalized when the well has found a sufficient quantity of reserves to justify its completion as a producing well and the company is making sufficient progress assessing the reserves and the economic and operating viability of the project.As of SeptemberÂ 30, 2024, the Company had total capitalized drilling costs pending the determination of proved reserves of $51.1 million.Â The following table reflects the net changes in capitalized exploratory well costs during the nine-month periods ended SeptemberÂ 30, 2024 and 2023.(Thousands of dollars)20242023Beginning balance at January 1$49,118Â $171,860Â Â Â Additions pending the determination of proved reserves28,452Â 40,825Â Â Â Reclassifications to proved properties based on the Â Â determination of proved reservesâ€“Â (1,065)Â Â Capitalized exploratory well costs charged to expense(26,471)(26,143)Balance at September 30$51,099Â $185,477Â 10Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note D â€“ Property, Plant and Equipment (Continued)Capital additions of $28.5 million are mainly for Ocotillo #1 (Mississippi Canyon 40) exploratory well in the Gulf of Mexico and Hai Su Vang #1 (Block 15/2-17) and Lac Da Hong #1 (Block 15-1/05) exploratory wells in Vietnam. The effective tax rates for the three-month period and nine-month period ended SeptemberÂ 30, 2023 were above the U.S. statutory tax rate of 21% primarily due to several factors, including: the effects of income generated in foreign tax jurisdictions, certain of which have income tax rates higher than the U.S. Federal rate; U.S. state tax expense; and certain expenses, including exploration and other expenses in certain foreign jurisdictions, for which no income tax benefits are currently available. These impacts were partially offset by no tax applied to the pre-tax income of the noncontrolling interest in MP GOM.The Companyâ€™s tax returns in multiple jurisdictions are subject to audit by taxing authorities. These audits often take years to complete and settle. Although the Company believes that recorded liabilities for unsettled issues 16Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note K â€“ Income Taxes (Continued)are adequate, additional gains or losses could occur in future years from resolution of outstanding unsettled matters. Additionally, the Company could be required to pay amounts into an escrow account as any matters are identified and appealed with the relevant taxing authorities.Â As of SeptemberÂ 30, 2024, the earliest years remaining open for audit and/or settlement in our major taxing jurisdictions are as follows: U.S. â€“ 2016; Canada â€“ 2016; and Malaysia â€“ 2017. Under the terms of the transaction, in addition to the consideration paid, Murphy had an obligation to pay additional contingent consideration of up to $200Â million in the event that certain revenue thresholds were exceeded between 2019 and 2022; and $50Â million following first oil from certain development projects. The revenue threshold was not exceeded for 2019 or 2020; however, the threshold was met in 2021 and 2022. In 2018, the Company, through a subsidiary, acquired Gulf of Mexico producing assets from Petrobras America Inc. (PAI), a subsidiary of PetrÃ³leo Brasileiro S.A. Under the terms of the transaction, in addition to the consideration paid, Murphy had an obligation to pay additional contingent consideration of up to $150Â million if certain price and production thresholds were exceeded beginning in 2019 through 2025; and $50Â million carry for PAI development costs in the St. Malo field if certain enhanced oil recovery projects were undertaken. As of the end of the second quarter of 2023, the Company had no remaining liabilities relating to prior acquisitions from PAI and LLOG. During the nine months ended September 30, 2023, the Company paid a total of $199.8Â million in contingent consideration payments. The principal environmental, health and safety laws and regulations to which Murphy is subject address such matters as the generation, storage, handling, use, disposal and remediation of petroleum products, wastewater and hazardous materials; the emission and discharge of such materials to the environment, including greenhouse gas (GHG) emissions; wildlife, habitat and water protection; the placement, operation and decommissioning of production equipment; and the health and safety of our employees, contractors and communities where our operations are located. These laws and regulations also generally require permits for existing operations, as well as the construction or development of new operations and the decommissioning of facilities once production has ceased. Violation of federal or state environmental, health and safety laws, regulations and permits can result in the imposition of significant civil and criminal penalties, injunctions and construction bans or delays.Â A discharge of hazardous substances into the environment could, to the extent such event isÂ not adequately insured, subject the Company to substantial expense, including both the cost to comply with applicable regulations and claims by neighboring landowners and other third parties for any personal injury and property damage that might result. In addition, Item 103 of SEC Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to this item, the Company will be using a threshold of $1.0 million for such proceedings and the Company is not aware of environmental legal proceedings likely to exceed this $1.0 million threshold.There continues to be an increase in regulatory oversight of the oil and gas industry at the federal level, with a focus on climate change and GHG emissions (including methane emissions). For example, federal methane regulations currently pending or enacted that would, among other things, require increased leak detection monitoring and repairs, stringent restrictions on venting and flaring, a new third-party monitoring program, and new fees on methane emissions from petroleum and natural gas facilities. In addition, there have been a number of executive orders issued that address climate change, including creation of climate-related task forces, directives to federal agencies to procure carbon-free electricity, and a goal of a carbon pollution-free power sector by 2035 and a net-zero emissions U.S. economy by 2050. Executive orders have also been issued related to oil and gas activities on federal lands, infrastructure and environmental justice. In addition, an international climate agreement (the Paris Agreement) was agreed to at the 2015 United Nations Framework Convention on Climate Change in Paris, France. The Paris Agreement entered into force in November 2016. Although the U.S. officially withdrew from the Paris Agreement on November 4, 2020, the U.S. has since rejoined the Paris Agreement, which became effective for the U.S. on February 19, 2021.The Company currently owns or leases, and has in the past owned or leased, properties at which hazardous substances have been or are being handled.Â Hazardous substances may have been disposed of or released on or under the properties owned or leased by the Company or on or under other locations where these wastes have been taken for disposal.Â In addition, many of these properties have been operated by third parties whose treatment and disposal or release of hydrocarbons or other wastes were not under Murphyâ€™s control.Â Under existing laws, the Company could be required to investigate, remove or remediate previously disposed wastes (including wastes disposed of or released by prior owners or operators), to investigate and clean up 20Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)Note N â€“ Environmental and Other Contingencies (Continued)contaminated property (including contaminated groundwater) or to perform remedial plugging operations to prevent future contamination.Â Certain of these historical properties are in various stages of negotiation, investigation, and/or cleanup, and the Company is investigating the extent of any such liability and the availability of applicable defenses.Â The Company has retained certain liabilities related to environmental matters at formerly owned U.S. refineries that were sold in 2011.Â The Company also obtained insurance covering certain levels of environmental exposures related to past operations of these refineries.Â Murphy USA Inc. has retained any environmental exposure associated with Murphyâ€™s former U.S. marketing operations that were spun-off in August 2013.Â The Company believes costs related to these sites will not have a material adverse effect on Murphyâ€™s net income, financial condition or liquidity in a future period.There is the possibility that environmental expenditures could be required at currently unidentified sites, and additional expenditures could be required at known sites.Â However, based on information currently available to the Company, the amount of future investigation and remediation costs incurred at known or currently unidentified sites is not expected to have a material adverse effect on the Companyâ€™s future net income, cash flows or liquidity.LEGAL MATTERS â€“ Murphy and its subsidiaries are engaged in a number of other legal proceedings (including litigation related to climate change), all of which Murphy considers routine and incidental to its business.Â Based on information currently available to the Company, the ultimate resolution of environmental and legal matters referred to in this note is not expected to have a material adverse effect on the Companyâ€™s net income, financial condition or liquidity in a future period.Note O â€“ Common Stock Issued and OutstandingActivity in the number of shares of common stock issued and outstanding for the nine-month periods ended SeptemberÂ 30, 2024 and 2023 is shown below.(Number of shares outstanding)September 30, 2024September 30, 2023Beginning of period152,748,642Â 155,467,319Â Stock options exercised 1â€“Â 520Â Restricted stock awards 11,103,503Â 689,824Â Treasury shares purchased (8,008,786)(1,684,522)End of period145,843,359Â 154,473,141Â 1 Shares issued upon exercise of stock options and award of restricted stock are less withholding forÂ statutory income taxes owed upon issuance of shares.The Companyâ€™s Board of Directors has authorized a share repurchase program whereby the Company can repurchase up to $1,100.0 million of the Companyâ€™s common stock. The Company produces crude oil, natural gas and natural gas liquids primarily in the U.S. and Canada and explores for crude oil, natural gas and natural gas liquids in targeted areas worldwide. Our production in the U.S. is primarily from offshore fields in the Gulf of Mexico and onshore in the Eagle Ford Shale area of South Texas. In Canada, we produce from the onshore fields Tupper Montney and Kaybob Duvernay, in British Columbia and Alberta, and we produce from the Hibernia and Terra Nova fields, located offshore Newfoundland in the Jeanne dâ€™Arc Basin. Significant Company financial and operational highlights during the third quarter of 2024 were as follows: â€¢Produced 191,273 barrels of oil equivalent per day (including NCI)â€¢Maintained quarterly dividend of $0.30 per share or $1.20 per share annualizedâ€¢Repurchased $194.1 million ($196.2 million including excise taxes and fees) of common stock, or 5,374,191 shares, at an average price of $36.12 per shareSubsequent to the third quarter of 2024:â€¢Issued $600.0 million of 6.000% senior notes due 2032, and used proceeds to tender an aggregate $521.1 million of senior notes

due 2027, 2028 and 2029â€¢Entered into new five-year, $1.2 billion senior unsecured credit facility, representing a 50 percent increase from previous facility sizeMurphy Oil Corporationâ€™s net income from continuing operations, including noncontrolling interest, for the three months ended September 30, 2024, was $151.7 million, a decrease of $126.5 million compared to the same period in 2023. Lower net income from continuing operations was driven primarily by lower revenues from production ($192.7 million), higher lease operating expenses ($29.5 million), and lower other income ($12.7 million), and was partially offset by lower income tax expense ($76.0 million), lower transportation, gathering and processing expenses ($14.1 million), and lower depreciation, depreciation, depletion and amortization expenses ($13.9 million). Lower revenues were primarily driven by lower oil production in the U.S., combined with lower oil prices. Higher lease operating expenses relate primarily to workover projects in the Gulf of Mexico. Lower other income represents unrealized foreign exchange losses. Lower income tax expense in the current period is driven primarily by lower operating income, in addition to an income tax deduction for prior yearsâ€™ Australia exploration spend. Lower transportation, gathering and processing expenses and lower depreciation, depletion and amortization expenses were both driven by lower production in the U.S.For the three months ended September 30, 2024 total hydrocarbon production was 191,273 barrels of oil equivalent per day, a decrease of 8% compared to the third quarter of 2023. The decrease was principally due to lower production in the U.S., primarily in the Gulf of Mexico, due to workover activities and downtime, and in the Eagle Ford Shale, due primarily to the timing of new wells. Decreases in the U.S. were offset by increases in Canada at both Terra Nova, which restarted production in late 2023.24Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Overview (Continued)Murphy Oil Corporationâ€™s net income from continuing operations, including noncontrolling interest, for the nine months ended SeptemberÂ 30, 2024 was $424.1 million, a decrease of $160.6 million compared to the same period of 2023. Lower net income from continuing operations was largely driven by lower revenues from production ($196.7 million), higher lease operating expenses ($129.2 million), and higher impairment of assets ($34.5Â million). These were partially offset by lower income tax expense ($102.0 million), lower exploration expenses ($34.1 million), higher other income ($32.8Â million), lower interest expense on long-term debt ($26.4Â million), and lower transportation, gathering and processing expenses ($17.8 million). Lower revenues from production were primarily driven by downtime in the Gulf of Mexico and Eagle Ford Shale and lower natural gas prices, partially offset by higher year-to-date oil prices, higher production in Canada due to the restart of production at Terra Nova in late 2023, and well performance, combined with lower royalty rates at Tupper Montney. Higher lease operating expenses were primarily due to workovers in the Gulf of Mexico and higher production activity in Canada at Terra Nova, partially offset by lower production handling (PHA) fees in the Gulf of Mexico. Impairment charges related to the Calliope field were recorded in the first quarter of 2024. The decrease in income tax expense primarily relates to lower income tax expenses driven by lower overall income, in addition to an income tax deduction for prior yearsâ€™ Australia exploration spend. Exploration expense in the current period was primarily due to dry hole expense recorded for multiple wells in the Gulf of Mexico, including Sebastian #1 (Mississippi Canyon 387) and Orange #1 (Mississippi Canyon 216), additional costs related to the Oso #1 (Atwater Valley 138) well, and for previously suspended exploration costs related to an expired lease at Hoffe Park #1 (Mississippi Canyon 166). Higher other income related to unrealized foreign exchange gains and interest income on several outstanding joint interest receivables. Lower interest expense was due to lower debt levels and lower transportation, gathering and processing expenses related to lower production in the U.S.For the nine months ended SeptemberÂ 30, 2024 total hydrocarbon production was 185,286 barrels of oil equivalent per day, a decrease of 4% compared to the same period in 2023. The decrease was principally due to lower production in the U.S., primarily in the Gulf of Mexico due to downtime for workovers, and in the Eagle Ford Shale, due to timing of new wells. Decreases in the U.S. were partially offset by increases in Canada at both Tupper Montney, due to new wells online, and Terra Nova, which restarted production in late 2023.Results of OperationsMurphyâ€™s Net income (loss) by type of business and geographic segment is presented below.Income (Loss)Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Millions of dollars)2024202320242023Exploration and productionUnited States$138.8Â $310.3Â $459.0Â $705.2Â Canada24.2Â 10.5Â 52.5Â 34.9Â Other 22.4Â (12.5)1.5Â (50.0)Total exploration and production185.4Â 308.3Â 513.0Â 690.1Â Corporate(33.7)(30.1)(88.9)(105.4)Income from continuing operations151.7Â 278.2Â 424.1Â 584.7Â Discontinued operations Â¹(0.6)(0.4)(2.1)(0.7)Net income including noncontrolling interest151.1Â 277.8Â 422.0Â 584.0Â Net income attributable to noncontrolling interest12.0Â 22.5Â 65.2Â 38.7Â Net income attributable to Murphy$139.1Â $255.3Â $356.8Â $545.3Â 1 The Company has presented its former U.K., Malaysia and U.S. refining and marketing operations as discontinued operations in its consolidated financial statements.Â 25Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Results of Operations (Continued)Exploration and Production Continuing Operations The following section of Exploration and Production (E&P) continuing operations excludes the Corporate segment unless otherwise noted.The following are summarized income statements for E&P continuing operations:Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Millions of dollars)2024202320242023Revenues and other incomeRevenue from production$753.2Â $945.9Â $2,345.3Â $2,542.0Â Sales of purchased natural gas â€“Â 7.9Â 3.7Â 64.6Â Other income0.9Â 2.6Â 4.3Â 6.0Â Total revenues and other income754.1Â 956.4Â 2,353.3Â 2,612.6Â Cost and ExpensesLease operating expenses222.9Â 193.4Â 716.8Â 587.6Â Severance and ad valorem taxes10.5Â 10.9Â 31.0Â 35.1Â Transportation, gathering and processing47.5Â 61.5Â 157.5Â 175.3Â Costs of purchased natural gasâ€“Â 5.5Â 3.1Â 47.4Â Depreciation, depletion and amortization222.1Â 234.7Â 643.3Â 640.4Â Impairments of assetsâ€“Â â€“Â 34.5Â â€“Â Accretion of asset retirement obligations13.2Â 11.7Â 39.0Â 34.1Â Total exploration expenses31.2Â 26.4Â 118.4Â 152.5Â Selling and general expenses5.0Â 10.7Â 14.0Â 25.0Â Other 6.7Â 7.8Â (4.7)29.0Â Results of operations before taxes195.0Â 393.8Â 600.4Â 886.2Â Income tax provisions 9.6Â 85.5Â 87.4Â 196.1Â Results of operations (excluding Corporate segment) 1$185.4Â $308.3Â $513.0Â $690.1Â 1 Includes results attributable to a noncontrolling interest in MP GOM.26Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Results of Operations (Continued)PricingThe following table contains the weighted average sales prices for the three-month and nine-month periods ended September 30, 2024 and 2023.Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Weighted average sales prices)2024202320242023Crude oil and condensate â€“ dollars per barrelUnited States - Onshore$75.49Â $81.19Â $77.55Â $76.40Â United States - Offshore 175.65Â 82.94Â 78.42Â 76.73Â Canada - Onshore 266.18Â 76.33Â 68.62Â 73.01Â Canada - Offshore 280.06Â 94.85Â 82.83Â 84.13Â Otherâ€“Â 77.19Â 78.20Â 82.87Â Natural gas liquids â€“ dollars per barrelUnited States - Onshore19.05Â 20.52Â 19.71Â 19.76Â United States - Offshore 122.50Â 20.16Â 23.20Â 22.01Â Canada - Onshore 234.00Â 37.72Â 34.64Â 39.08Â Natural gas â€“ dollars per thousand cubic feetUnited States - Onshore1.77Â 2.32Â 1.77Â 2.24Â United States - Offshore 12.28Â 2.84Â 2.30Â 2.82Â Canada - Onshore 21.34Â 1.93Â 1.56Â 2.07Â 1Â Prices include the effect of noncontrolling interest in MP GOM.2 U.S. dollar equivalent.The following table contains benchmark prices relevant to the Company for the three-month and nine-month periods ended September 30, 2024 and 2023.Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Average price for the period)2024202320242023Oil and NGLsWTI ($/BBL)$75.10Â $82.26Â $77.54Â $77.39Â Natural gasNYMEX ($/MMBTU)2.09Â 2.58Â 2.18Â 2.46Â AECO (C$/MCF)0.69Â 2.60Â 1.45Â 2.75Â 27Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Results of Operations (Continued)Production VolumesThe following table contains hydrocarbons produced during the three-month and nine-month periods ended September 30, 2024 and 2023. Revenue was lower in the Gulf of Mexico, mostly driven by downtime at the Samurai field, as well as hurricane related downtime. Additionally, Eagle Ford Shale revenues decreased due to the natural decline of wells and fewer wells brought online. These decreases were partially offset by new production at Terra Nova in Canada, which restarted production in late 2023. Lower pricing across all products also contributed to the decrease during the period.Revenues from production for the nine months ended September 30, 2024 decreased $196.7 million compared to the same period in 2023. Lower revenue was driven primarily by workover activities, downtime and timing of new wells in the Gulf of Mexico, fewer new wells brought online in the Eagle Ford Shale, and lower realized natural gas prices in Tupper Montney. These effects were partially offset by production restarting at Terra Nova in late 2023, and higher oil prices.Natural gas is purchased and subsequently sold to third parties in order to provide operational flexibility and cost mitigation for transportation commitments. Lower TGP expenses during the quarter were a result of lower production volumes in the Gulf of Mexico.For the nine months ended September 30, 2024, lease operating expenses increased by $129.2 million and TGP expenses decreased by $17.8 million compared to the same period in 2023. Higher lease operating expenses were primarily due to workovers in the Gulf of Mexico, primarily at the Neidermeyer field, and higher production at Terra Nova, and were partially offset by lower PHA fees in the Gulf of Mexico. Lower TGP expenses resulted primarily from lower production volumes in the Gulf of Mexico.Depreciation, Depletion and Amortization ExpenseThe Companyâ€™s depreciation, depletion and amortization (DD&A) expense by geographic area were as follows:Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Millions of dollars)(Dollars per equivalent barrel)(Millions of dollars)(Dollars per equivalent barrel)2024202320242023202420232024202320242023DD&A expenseUnited States - Onshore$88.0Â $91.5Â $29.60Â $26.32Â $237.2Â $240.8Â $29.25Â $26.31Â United States - Offshore91.3Â 102.1Â 13.78Â 12.05Â 291.1Â 291.0Â 13.55Â 11.57Â Canada - Onshore34.5Â 38.1Â 4.87Â 5.53Â 93.5Â 99.8Â 4.87Â 5.70Â Canada - Offshore8.3Â 2.3Â 8.27Â 10.02Â 20.6Â 7.2Â 9.58Â 9.59Â Otherâ€“Â 0.7Â â€“Â 16.49Â 0.9Â 1.6Â 20.82Â 19.01Â Total DD&A expense$222.1Â $234.7Â $12.56Â $12.28Â $643.3Â $640.4Â $12.61Â $12.17Â 30Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Results of Operations (Continued)DD&A expense for the three months ended September 30, 2024 decreased by $12.6 million compared to the same period in 2023. Higher DD&A expense from Canada E&P primarily related to increased volumes at Terra Nova, partially offset by lower volumes in the U.S. and higher rates in the U.S., primarily due to development drilling at various offshore platforms.Impairment of Assets For the three months ended September 30, 2024, there were no impairments. For the nine months ended September 30, 2024, the Company impaired assets for $34.5 million, related to the Calliope field in the Gulf of Mexico, as a result of operational issues that led to a reserve reduction. There were no impairments in the three and nine months ended September 30, 2023.Exploration ExpensesThe Companyâ€™s exploration expenses were as follows:Three Months EndedSeptember 30,Nine Months EndedSeptember 30,(Millions of dollars)2024202320242023Exploration expensesDry holes and previously suspended exploration costs$11.2Â $11.3Â $69.5Â $107.8Â Geological and geophysical12.7Â 4.3Â 22.3Â 15.6Â Other exploration5.4Â 8.0Â 18.9Â 20.9Â Undeveloped lease amortization1.9Â 2.8Â 7.7Â 8.2Â Total exploration expenses$31.2Â $26.4Â $118.4Â $152.5Â Exploration expenses for the three months ended September 30, 2024 increased by $4.8 million compared to the prior year, primarily as a result of higher geological and geophysical costs in the Gulf of Mexico in the current period. Dry hole costs in the current period represented costs associated with the Sebastian #1 (Mississippi Canyon 387) operated exploration well in the U.S. Gulf of Mexico that encountered non-commercial hydrocarbons in the third quarter of 2024. In the third quarter of 2023, we recorded dry hole costs related to the Chinook #7 (Walker Ridge 425) exploration well in the U.S. Gulf of Mexico.Exploration expenses for the nine months ended September 30, 2024 decreased by $34.1 million compared to the same period in 2023. In the current period, dry hole costs were recorded for the Sebastian #1 (Mississippi Canyon 387) operated exploration well, the Orange #1 (Mississippi Canyon 216) non-operated exploration well, and for the previously suspended exploration well at Hoffe Park #1 (Mississippi Canyon 166) in the U.S. Gulf of Mexico. In 2023, we recorded previously suspended exploration costs for the Cholula-1EXP well in Mexico and dry hole costs for the Chinook #7 (Walker Ridge 425) exploration well in the U.S. Gulf of Mexico. OtherOther expenses for the three and nine months ended SeptemberÂ 30, 2024 decreased by $1.1 million and $33.7 million, respectively, compared to the same periods in 2023. For the three months ended September 30, 2024 the decrease is primarily due to the absence of other operating expenses in Canada related to the Terra Nova life extension project. For the nine months ended September 30, 2024 the decrease was due to a combination of interest income received and a favorable state tax settlement related to U.S. Onshore activities.31Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Results of Operations (Continued)Income Taxes Income taxes for the three and nine months ended SeptemberÂ 30, 2024 decreased by $75.9 million and $108.7 million, respectively, compared to the same periods in 2023. Lower income taxes for each period, respectively, were primarily the result of lower year-to-date pre-tax income, and an income tax deduction for prior yearsâ€™ Australia exploration spend.Corporate Corporate activities included interest expense and income, foreign exchange effects and corporate overhead not allocated to E&P.Corporate activities reported a loss of $33.7 million for the three months ended SeptemberÂ 30, 2024, an unfavorable variance of $3.6 million compared to the same period of 2023. The unfavorable variance was primarily due to unrealized foreign exchange losses ($14.0 million), partially offset by decreased interest expense ($8.8 million). Lower interest expense for the current period was primarily due to lower overall debt levels.Corporate activities

reported a loss of $88.9 million for the nine months ended SeptemberÂ 30, 2024, a favorable variance of $16.5 million compared to the same period of 2023. The favorable variance was primarily due to lower interest expense ($26.6 million) and unrealized foreign exchange gains ($10.1 million) and was partially offset by increased selling and general expense ($15.6 million) and lower income tax benefits ($6.7 million). Lower interest expense for the current period was primarily due to lower overall debt levels. Higher selling and general expenses for the nine months ended SeptemberÂ 30, 2024 were primarily attributable to timing of corporate donations. Lower income tax benefit was the result of lower pre-tax losses.Financial ConditionThe Companyâ€™s primary sources of liquidity are cash on hand, net cash provided by continuing operations activities and available borrowing capacity under the New RCF. The Companyâ€™s liquidity requirements consist primarily of capital expenditures, debt maturity, retirement and interest payments, working capital requirements, dividend payments, and, as applicable, share repurchases. The Company may, from time to time, redeem, repurchase or otherwise acquire its outstanding notes through open market purchases, tender offers or pursuant to the terms of such securities.Cash FlowsThe following table presents the Companyâ€™s cash flows for the periods presented:Nine Months EndedSeptember 30,(Thousands of dollars)20242023Net cash provided by (required by):Net cash provided by continuing operations activities$1,295.4Â $1,205.7Â Net cash required by investing activities(733.3)(822.2)Net cash required by financing activities(608.8)(547.4)Effect of exchange rate changes on cash and cash equivalents0.8Â (0.4)Net decrease in cash and cash equivalents(45.9)(164.2)Cash Provided by Continuing Operations ActivitiesNet cash provided by continuing operations activities for the nine months ended September 30, 2024 was $89.7Â million higher compared to the same period in 2023. The increase in cash flows from operations activities was primarily attributable to a decrease in non-cash working capital in the current period, compared to an increase in the prior period ($174.6Â million), no contingent consideration payments related to prior Gulf of 32Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Financial Condition (Continued)Mexico acquisitions in 2024 (2023: $139.6Â million), changes in other operating activities, net ($59.1Â million), an increase in other income ($32.8Â million), and a decrease in interest expense ($26.4Â million). These were partially offset by lower revenue from production ($196.7Â million), and an increase in lease operating expenses ($129.2Â million). The increase due to changes in non-cash working capital is primarily due to lower accounts receivable, partially offset by lower accounts payable. The decreases in accounts receivable and accounts payable are primarily due to lower overall production volumes and gas prices, other receivable settlements, and exploration activities in the Gulf of Mexico. The increase due to changes in other operating activities is primarily due to spend on asset retirement obligations in the prior period.Payments of contingent consideration are shown both in â€œOperating Activitiesâ€ and â€œFinancing Activitiesâ€ in the Companyâ€™s Consolidated Statements of Cash Flows; amounts considered as financing activities are those amounts paid up to the original estimated contingent consideration liability included in the purchase price allocation, at the time of acquisition. Any contingent consideration paid above the original estimated liability, included in the purchase price, are considered operating activities. During the nine months ended September 30, 2023, the Company paid a total of $199.8Â million in contingent consideration, of which $139.6 million is shown in â€œOperating Activitiesâ€ and $60.2 million is shown in â€œFinancing Activitiesâ€ in the Companyâ€™s Consolidated Statements of Cash Flows. As of the end of the second quarter of 2023, the Company had no further obligation payable for contingent consideration relating to prior Gulf of Mexico acquisitions.Cash Required by Investing ActivitiesNet cash required by investing activities for the nine months ended September 30, 2024 was $88.9 million lower compared to the same period in 2023. The decrease was due to lower property additions and dry hole costs ($169.0 million), partially offset by cash inflows from the sale of certain non-core operated Kaybob Duvernay assets and all of our non-operated Placid Montney assets Kaybob properties ($102.9 million) in 2023.A reconciliation of â€œProperty additions and dry hole costsâ€ in the Consolidated Statements of Cash Flows to total capital expenditures for continuing operations follows.Nine Months EndedSeptember 30,(Millions of dollars)20242023Property additions and dry hole costs per cash flow statements $733.3Â $902.3Â Acquisition of oil properties per the cash flow statementsâ€”Â 22.8Â Geophysical and other exploration expenses35.5Â 30.1Â Capital expenditure accrual changes and other7.8Â (69.5)Total capital expenditures$776.6Â $885.7Â Total accrual basis capital expenditures are shown below.Nine Months EndedSeptember 30,(Millions of dollars)20242023Capital ExpendituresExploration and production$760.2Â $870.3Â Corporate16.4Â 15.4Â Total capital expenditures$776.6Â $885.7Â Lower capital expenditures in the nine months ended September 30, 2024 compared to the same period of 2023 was primarily attributable to lower exploration expenditures in the Gulf of Mexico, lower field development costs due to the Terra Nova asset life extension project ending in 2023, and lower development drilling costs at Eagle Ford Shale and Tupper Montney, partially offset by higher development expenditures at various Gulf of Mexico fields.Capital expenditures in 2024 primarily relate to development drilling and field development activities at Eagle Ford Shale ($246.8 million), at the Khaleesi, Mormont and Samurai fields, and the non-operated St. Malo and Lucius fields in the Gulf of Mexico ($235.7 million), and at Tupper Montney ($75.4 million), Kaybob Duvernay 33Table of ContentsITEM 2.Â Â MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)Financial Condition (Continued)($26.3 million), and the non-operated Hibernia field ($15.2 million) in Canada. At September 30, 2024 the interest rate in effect on borrowings under the facility would have been 7.20%. At September 30, 2024 the Company was in compliance with all covenants related to the RCF. Subsequent to quarter end, on October 7, 2024, the Company entered into a New RCF, a credit agreement governing a $1,200.0 million senior unsecured revolving credit facility with a maturity date in October 2029, which replaced the prior RCF.Cash and invested cash are maintained in several operating locations outside the U.S.Â As of SeptemberÂ 30, 2024 cash and cash equivalents held outside the U.S. included U.S. dollar equivalents of approximately $101.6 million, the majority of which was held in Canada ($72.3 million). As discussed in the â€œResults of Operationsâ€ section discussing revenues, on page 29, lower average crude oil and natural gas pricing during the third quarter of 2024 compared to same period in 2023 directly impacted the Companyâ€™s product sales revenue. As of close on NovemberÂ 5, 2024, forward price curves for existing forward contracts for the remainder of 2024 and 2025 are shown in the table below:20242025WTI ($/BBL)71.9969.92NYMEX ($/MMBTU)2.673.00AECO (US$ Equivalent/MCF)1.311.45Similar to the overall inflation in the wider economy, the oil and gas industry and the Company are observing higher costs for goods and services used in E&P operations. Murphy continues to manage input costs through its dedicated procurement department focused on managing supply chain and other costs to deliver cash flow from operations. We cannot predict what impact economic factors (including, but not limited to, inflation, global conflicts and possible economic recession) may have on future commodity pricing. Lower prices, should they occur, will result in lower profits and operating cash flows. For the fourth quarter of 2024, production is expected to average between 181.5 and 189.5 thousand barrels of oil equivalents per day (MBOEPD), excluding noncontrolling interest. The Companyâ€™s capital expenditure spend for 2024 is expected to be between $920 million and $1,020 million, excluding noncontrolling interest. Capital and other expenditures are routinely reviewed and planned capital expenditures may be adjusted to reflect differences between budgeted and forecast cash flow during the year. Capital expenditures may also be affected by asset purchases or sales, which often are not anticipated at the time a budget is prepared.Â The Company will primarily fund its capital program in 2024 using operating cash flow and available cash. If oil and/or natural gas prices weaken, actual cash flow generated from operations could be reduced such that capital spending reductions are required and/or borrowings under available credit facilities might be required during the year to maintain funding of the Companyâ€™s ongoing development projects.Â The Company plans to utilize surplus cash (not planned to be used by operations, investing activities, dividends or payment to noncontrolling interests) in accordance with the Companyâ€™s capital allocation framework designed to allow for additional shareholder returns and debt reduction. Details of the framework can be found in the â€œCapital Allocation Frameworkâ€ section of the Companyâ€™s Form 8-K filed on August 4, 2022 and August 8, 2024. The Companyâ€™s Board of Directors has authorized a share repurchase program whereby the Company can repurchase up to $1,100.0 million of the Companyâ€™s common stock.Subsequent to quarter end, on October 3, 2024, the Company closed the Offering of $600.0 million aggregate principal amount of new senior notes that bear interest at a rate of 6.000% per annum and mature on October 1, 2032, the proceeds of which will be used for the repayment of debt. To date, the Company has repurchased and canceled $258.8 million of the 2027 Notes, $200.2 million of the 2028 Notes and $62.1 million of the 2029 Notes. In addition, on October 7, 2024, the Company entered into a credit agreement governing a $1,200.0 million New RCF with a maturity date on October 7, 2029. These statements, which express managementâ€™s current views concerning future events, results and plans, are subject to inherent risks, uncertainties and assumptions (many of which are beyond our control) and are not guarantees of performance. In particular, statements, express or implied, concerning the Companyâ€™s future operating results or activities and returns or the Company's ability and decisions to replace or increase reserves, increase production, generate returns and rates of return, replace or increase drilling locations, reduce or otherwise control operating costs and expenditures, generate cash flows, pay down or refinance indebtedness, achieve, reach or otherwise meet initiatives, plans, goals, ambitions or targets with respect to emissions, safety matters or other ESG (environmental/social/governance) matters, make capital expenditures or pay and/or increase dividends or make share repurchases and other capital allocation decisions are forward-looking statements. Factors that could cause one or more of these future events, results or plans not to occur as implied by any forward-looking statement, which consequently could cause actual results or activities to differ materially from the expectations expressed or implied by such forward-looking statements, include, but are not limited to: macro conditions in the oil and gas industry, including supply/demand levels, actions taken by major oil exporters and the resulting impacts on commodity prices; geopolitical concerns; increased volatility or deterioration in the success rate of our exploration programs or in our ability to maintain production rates and replace reserves; reduced customer demand for our products due to environmental, regulatory, technological or other reasons; adverse foreign exchange movements; political and regulatory instability in the markets where we do business; the impact on our operations or market of health pandemics such as COVID-19 and related government responses; other natural hazards impacting our operations or markets; any other deterioration in our business, markets or prospects; any failure to obtain necessary regulatory approvals; any inability to service or refinance our outstanding debt or to access debt markets at acceptable prices; or adverse developments in the U.S. or global capital markets, credit markets, banking system or economies in general, including inflation.Â For further discussion of factors that could cause one or more of these future events or results not to occur as implied by any forward-looking statement, see â€œRisk Factorsâ€ in our most recent Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (â€œSECâ€) and on page 42 of this Form 10-Q report, and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K that we file, available from the SECâ€™s website and from Murphy Oil Corporationâ€™s website at http://ir.murphyoilcorp.com.Â Investors and others should note that we may announce material information using SEC filings, press releases, public conference calls, webcasts and the investors page of our website. Murphy Oil Corporation undertakes no duty to publicly update or revise any forward-looking statements.40Table of ContentsITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKThe Company is exposed to market risks associated with interest rates, prices of crude oil, natural gas and petroleum products, and foreign currency exchange rates.Â As described in Note L to this Form 10-Q report, Murphy, at times, makes use of derivative financial and commodity instruments to manage risks associated with existing or anticipated transactions.There were commodity transactions in place at SeptemberÂ 30, 2024, covering certain future U.S. natural gas sales volumes for the remainder of 2025.Â A 10% increase in the respective benchmark price of these commodities would have increased the net payable associated with these derivative contracts by approximately $2.5 million, while a 10% decrease would have decreased the recorded net payable by a similar amount. There were no derivative foreign exchange contracts in place at SeptemberÂ 30, 2024.ITEM 4.Â Â CONTROLS AND PROCEDURESUnder the direction of its principal executive officer and principal financial officer, controls and procedures have been established by the Company to ensure that material information relating to the Company and its consolidated subsidiaries is made known to the officers who certify the Companyâ€™s financial reports and to other members of senior management and the Board of Directors.Based on the Companyâ€™s evaluation as of the end of the period covered by the filing of this Quarterly Report on Form 10-Q, the principal executive officer and principal financial officer of Murphy Oil Corporation have concluded that the Companyâ€™s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information required to be disclosed by Murphy Oil Corporation in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.During the quarter ended SeptemberÂ 30, 2024, there were no changes in the Companyâ€™s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Companyâ€™s internal control over financial reporting.41Table of ContentsPART II â€“ OTHER INFORMATIONITEM 1. LEGAL PROCEEDINGSMurphy and its subsidiaries are engaged in a number of legal proceedings (including litigation related to climate change), all of which Murphy considers routine and incidental to its business.Â Based on information currently available to the Company, the ultimate resolution of matters referred to in this item is not expected to have a material adverse effect on the Companyâ€™s net income, financial condition or liquidity in a future period.ITEM 1A. RISK FACTORSThe Companyâ€™s operations in the oil and gas business naturally lead to various risks and uncertainties.Â These risk factors are discussed in Item 1A Risk Factors in the Companyâ€™s 2023 Form 10-K filed on February 23, 2024. The Company has not identified any additional risk factors not previously disclosed in its 2023 Form 10-K report.ITEM 2. Financial results for the three-month and nine-month periods ended September 30, 2024 are not necessarily indicative of future results. Note B - New Accounting Principles and Recent Accounting Pronouncements Accounting Principles Adopted None affecting the Company. Recent Accounting Pronouncements Expense Disaggregation Disclosures. In November 2024 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2024-03 Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The standard becomes effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The standard requires specified information about certain costs and expenses presented on the face of the income statement to be further disaggregated in the notes to the financial statements. In addition, the standard requires certain expense and cost information that is not separately disaggregated to be qualitatively described. Murphy is currently evaluating the impact of adopting the standard. Income Tax Disclosures. In December 2023 the FASB issued ASU 2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The standard becomes effective for annual periods beginning after December 15, 2024. The update requires financial statements to include consistent categories and greater disaggregation of information in the rate reconciliation, as well as income taxes paid disaggregated by jurisdiction. Murphy is currently evaluating the impact of adopting this standard. Reportable Segment Disclosures. In November 2023 the FASB issued ASU 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The standard becomes effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The standard requires additional disclosures about reporting segments, including segment expense information provided to the chief operating decision maker, and extends certain disclosure requirements to interim periods. The standard does not affect our determination of reportable segments. Murphy will adopt Update 2023-07 in the period required, and we do not expect the adoption to have a material impact on our consolidated financial position, operating results and cash flows. Note C - Revenue from Contracts with Customers Nature of Goods and Services The Company explores for and produces crude oil, natural gas and natural gas liquids (collectively oil and natural gas) in select basins around the globe. The Company's revenue from sales of oil and natural gas production activities are primarily divided into two key geographic segments: the United States (U.S.) and Canada. Additionally, revenue from sales to customers is generated from three primary revenue streams: crude oil and condensate, natural gas liquids (NGL), and natural gas. For operated oil and natural gas production where the non-operated working interest owner does not take in kind its proportionate interest in the produced commodity, the Company acts as an agent for the working interest owner and recognizes revenue only for its own share of the commingled production. The exception to this is the reporting of the noncontrolling interest (NCI) in MP Gulf of Mexico, LLC (MP GOM) as prescribed by GAAP.

U.S. - In the U.S., the Company primarily produces oil and natural gas from fields in the Eagle Ford Shale area of South Texas and in the Gulf of Mexico. Revenue is generally recognized when oil and natural gas are transferred to the customer at the delivery point. Revenue recognized is largely index-based with price adjustments for floating market differentials. Canada - In Canada, contracts include long-term floating commodity index priced and natural gas physical forward sales fixed-price contracts. For the offshore business in Canada, contracts are based on index prices and revenue is recognized at the time of vessel load based on the volumes on the bill of lading and point of custody transfer. The Company also purchases natural gas in Canada to meet certain sales commitments. Disaggregation of Revenue The Company reviews performance based on two key geographical segments and between onshore and offshore sources of revenue within these geographies. The Company's revenues and other income for the three-month and nine-month periods ended September 30, 2024 and 2023 were as follows. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:38.643%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.729%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.296%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.369%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.296%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.369%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.862%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.369%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.867%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:middle">Three Months Ended

Contract Balances and Asset Recognition As of September 30, 2024, and December 31, 2023, receivables from contracts with customers, net of royalties and associated payables, on the balance sheet from continuing operations, were $165.1 million and $193.7 million, respectively. Payment terms for the Company's sales vary across contracts and geographical regions, with the majority of the cash receipts required within 30 days of billing. Based on a forward-looking expected loss model in accordance with ASU 2016-13, the Company did not recognize any impairment losses on receivables or contract assets arising from customer contracts during the reporting periods. The Company has not entered into any revenue contracts that have financing components as of September 30, 2024. The Company does not employ sales incentive strategies such as commissions or bonuses for obtaining sales contracts. For the periods presented, the Company did not identify any assets to be recognized associated with the costs to obtain a contract with a customer. Performance Obligations The Company recognizes oil and natural gas revenue when it satisfies a performance obligation by transferring control over a commodity to a customer. Judgment is required to determine whether some customers simultaneously receive and consume the benefit of commodities. As a result of this assessment for the Company, each unit of measure of the specified commodity is considered to represent a distinct performance obligation that is satisfied at a point in time upon the transfer of control of the commodity. For contracts with market or index-based pricing, which represent the majority of sales contracts, the Company has elected the allocation exception and allocates the variable consideration to each single performance obligation in the contract. As a result, there is no price allocation to unsatisfied remaining performance obligations for delivery of commodity product in subsequent periods. The Company has entered into several long-term, fixed-price contracts in Canada. The underlying reason for entering a fixed price contract is generally unrelated to anticipated future prices or other observable data and serves a particular purpose in the Company's long-term strategy. As of September 30, 2024, the Company had the following sales contracts in place which are expected to generate revenue from sales to customers for a period over 12 months starting at the inception of the contract. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:7.659%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.821%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:18.024%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.821%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.659%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.821%"></td><td style="width:0.1%"></td><td style="width:0.821%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:44.885%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.821%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.189%"></td><td style="width:0.1%"></td></tr><tr><td colspan="27" style="padding:2px 1pt;text-align:left;vertical-align:bottom">Long-Term Contracts Outstanding at September 30, 2024</td></tr><tr style="height:9pt"><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Location</td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Commodity</td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">End Date</td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Description</td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Approximate Volumes</td></tr><tr style="height:14pt"><td colspan="27" style="display:none"></td></tr><tr><td colspan="3" style="background-color:#ceeeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:left;vertical-align:top">U.S.</td><td colspan="3" style="background-color:#ceeeff;padding:0 1pt"></td><td colspan="3" style="background-color:#ceeeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:left;vertical-align:top">Natural Gas and NGL</td><td colspan="3" style="background-color:#ceeeff;padding:0 1pt"></td><td colspan="3" style="background-color:#ceeeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:left;vertical-align:top">Q2 2030</td><td colspan="3" style="background-color:#ceeeff;padding:0 1pt"></td><td colspan="3" style="background-color:#ceeeff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:top">Deliveries from dedicated acreage in Eagle Ford</td><td colspan="3" style="background-color:#ceeeff;padding:0 1pt"></td><td colspan="3" style="background-color:#ceeeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:left;vertical-align:top">As produced</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:top">Canada</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:top"><span style="color:#000000;font-family:'Avenir Next LT Pro',sans-serif;font-

style="margin-bottom:6pt;margin-top:6pt">Note E – Financing Arrangements and Debt Revolving Credit Facility As of September 30, 2024, the Company had an $800.0 million revolving credit facility (RCF). The RCF is a senior unsecured guaranteed facility was set to expire on November 17, 2027. At September 30, 2024, the Company had no outstanding borrowings under the RCF and $0.4 million of outstanding letters of credit, which reduce the borrowing capacity of the RCF. At September 30, 2024, the interest rate in effect on borrowings under the RCF would have been 7.20%. At September 30, 2024, the Company was in compliance with all covenants related to the RCF. Subsequent Event - Revolving Credit Facility On October 7, 2024, the Company entered into a credit agreement governing a $1,200.0 million senior unsecured guaranteed revolving credit facility (New RCF) with a maturity date on October 7, 2029. The New RCF, which is effective October 2024, extends the borrowing term and increases the borrowing capacity of the previous RCF. On the date the Company achieves certain credit ratings (Investment Grade Ratings Date), certain covenants will be modified as set forth in the New RCF. In addition, prior to the Investment Grade Ratings Date, the Company will be required to comply with a maximum consolidated leverage ratio of 3.25x and a minimum consolidated interest coverage ratio of 2.50x. From and after the Investment Grade Ratings Date, the Company will be required to comply with a maximum ratio of consolidated total debt to consolidated total capitalization of 60%. Borrowings under the New RCF bear interest at rates based on either the “Alternate Base Rate”, the “Adjusted Term Secured Overnight Financing Rate (SOFR) Rate”, or the “Adjusted Daily Simple SOFR Rate”, respectively, plus the “Applicable Rate”. The “Alternate Base Rate” of interest is the highest of (a) the Wall Street Journal prime rate in effect on such day, (b) the New York Federal Reserve Bank (NYFRB) Rate in effect on such day plus ½ of 1% and (c) the Adjusted Term SOFR Rate for a one-month interest period as published two U.S. Government Securities Business Days prior to such day (or if such day is not a U.S. Government Securities Business Day, the immediately preceding U.S. Government Securities Business Day) plus 1%. The “Adjusted Term SOFR Rate” of interest is equal to (a) the Term SOFR Rate for such Interest Period, plus (b) 0.10%. The “Adjusted Daily Simple SOFR Rate” of interest is equal to (a) the Daily Simple SOFR, plus (b) 0.10%. The “Applicable Rate” of interest means, for any day, the applicable rate per annum based upon the ratings of Moody’s Investors Service, Inc. and Standard and Poor’s Rating Services, respectively, as set forth in the grid included in the full text of the credit agreement governing the New RCF. The Company has incurred $12.4 million in transaction costs and will record the amount to “Deferred charges and other assets” in the Consolidated Balance Sheets, which will be amortized to interest expense over the term of the New RCF. Debt Extinguishment In May 2024, the Company paid a total of $50.5 million to complete the open market repurchases of $26.5 million aggregate principal of its 5.875% senior notes due 2027 (2027 Notes) and $23.5 million aggregate principal of its 6.375% senior notes due 2028 (2028 Notes). Each deferred RSU represents the right to receive one share of common stock following (1) termination of service from the Board or (2) a future date selected by the director at the time of their deferral election. These unvested time-based RSUs are included in the table above, will vest in one year, and become deferred RSUs. 2 Effective January 1, 2024, non-employee directors can elect to receive their annual cash retainers in the form of deferred RSUs. Director fees which are deferred into RSUs are calculated and expensed each quarter by taking fees earned in respect of the applicable quarter and dividing by the closing price of our common stock on the last trading day of the quarter.  The effective tax rate for the nine-month period ended September 30, 2024 was below the U.S. statutory tax rate of 21% primarily due to an income tax deduction for prior years' Australia exploration spend and no tax applied to the pre-tax income of the noncontrolling interest in MP GOM.
 The effective tax rates for the three-month period and nine-month period ended September 30, 2023 were above the U.S. statutory tax rate of 21% primarily due to several factors, including: the effects of income generated in foreign tax jurisdictions, certain of which have income tax rates higher than the U.S. Federal rate; U.S. state tax expense; and certain expenses, including exploration and other expenses in certain foreign jurisdictions, for which no income tax benefits are currently available. These impacts were partially offset by no tax applied to the pre-tax income of the noncontrolling interest in MP GOM. The Company's tax returns in multiple jurisdictions are subject to audit by taxing authorities. These audits often take years to complete and settle. Although the Company believes that recorded liabilities for unsettled issues are adequate, additional gains or losses could occur in future years from resolution of outstanding unsettled matters. Additionally, the Company could be required to pay amounts into an escrow account as any matters are identified and appealed with the relevant taxing authorities. As of September 30, 2024, the earliest years remaining open for audit and/or settlement in our major taxing jurisdictions are as follows: U.S. – 2016; Canada – 2016; and Malaysia – 2017. The Company has retained certain possible liabilities and rights to income tax receivables relating to Malaysia for the years prior to 2019. For the three-month and nine-month periods ended September 30, 2024 and 2023, the Company's effective income tax rates were as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:71.707%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.204%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.205%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Three months ended September 30,</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">1.4%</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">21.9%</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Nine months ended September 30,</td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">13.3%</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">22.2%</td></tr></table>

During the third quarter of 2023, the Company did not have any crude oil or natural gas derivative contracts. style="margin-bottom:6pt;margin-top:6pt">The following table presents the carrying amounts and estimated fair values of financial instruments held by the Company at September 30, 2024 and December 31, 2023. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The table excludes cash and cash equivalents, trade accounts receivable, trade accounts payable and accrued expenses, all of which had fair values approximating carrying amounts. The fair value of current and long-term debt was estimated based on rates offered to the Company at that time for debt of the same maturities. Substantially all of the Company's long-term debt is actively traded in open markets, and accordingly, is classified as Level 1 in the fair value hierarchy. The Company has off-balance sheet exposures relating to certain letters of credit. The fair value of these, which represents fees associated with obtaining the instruments, were minimal. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:39.543%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.104%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.104%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.501%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30,</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December 31,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">2023</td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(Thousands of dollars)</td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Carrying

Examples of such governmental action include, but are by no means limited to: tax legislation changes, including tax rate changes, and retroactive tax claims; royalty and revenue sharing increases; import and export controls; price controls; currency controls; allocation of supplies of crude oil and petroleum products and other goods; expropriation of property; restrictions and preferences affecting the issuance of oil and gas or mineral leases; restrictions on drilling and/or production; laws, regulations and government action intended for the promotion of safety and the protection and/or remediation of the environment including in connection with the purported causes or potential impacts of climate change; governmental support for other forms of energy; and laws and regulations affecting the Company's relationships with employees, suppliers, customers, stockholders and others. Given the factors involved in various government actions, including political considerations, it is difficult to predict their likelihood, the form they may take, or the effect they may have on the Company. ENVIRONMENTAL MATTERS - Murphy and other companies in the oil and gas industry are subject to numerous federal, state, local and foreign laws and regulations dealing with the environment and protection of health and safety. The principal environmental, health and safety laws and regulations to which Murphy is subject address such matters as the generation, storage, handling, use, disposal and remediation of petroleum products, wastewater and hazardous materials; the emission and discharge of such materials to the environment, including greenhouse gas (GHG) emissions; wildlife, habitat and water protection; the placement, operation and decommissioning of production equipment; and the health and safety of our employees, contractors and communities where our operations are located. These laws and regulations also generally require permits for existing operations, as well as the construction or development of new operations and the decommissioning of facilities once production has ceased. Violation of federal or state environmental, health and safety laws, regulations and permits can result in the imposition of significant civil and criminal penalties, injunctions and construction bans or delays. A discharge of hazardous substances into the environment could, to the extent such event is not adequately insured, subject the Company to substantial expense, including both the cost to comply with applicable regulations and claims by neighboring landowners and other third parties for any personal injury and property damage that might result. In addition, Item 103 of SEC Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to this item, the Company will be using a threshold of $1.0 million for such proceedings and the Company is not aware of environmental legal proceedings likely to exceed this $1.0 million threshold. There continues to be an increase in regulatory oversight of the oil and gas industry at the federal level, with a focus on climate change and GHG emissions (including methane emissions). For example, federal methane regulations currently pending or enacted that would, among other things, require increased leak detection monitoring and repairs, stringent restrictions on venting and flaring, a new third-party monitoring program, and new fees on methane emissions from petroleum and natural gas facilities. In addition, there have been a number of executive orders issued that address climate change, including creation of climate-related task forces, directives to federal agencies to procure carbon-free electricity, and a goal of a carbon pollution-free power sector by 2035 and a net-zero emissions U.S. economy by 2050. Executive orders have also been issued related to oil and gas activities on federal lands, infrastructure and environmental justice. In addition, an international climate agreement (the Paris Agreement) was agreed to at the 2015 United Nations Framework Convention on Climate Change in Paris, France. The Paris Agreement entered into force in November 2016. Although the U.S. officially withdrew from the Paris Agreement on November 4, 2020, the U.S. has since rejoined the Paris Agreement, which became effective for the U.S. on February 19, 2021. The Company currently owns or leases, and has in the past owned or leased, properties at which hazardous substances have been or are being handled. Hazardous substances may have been disposed of or released on or under the properties owned or leased by the Company or on or under other locations where these wastes have been taken for disposal. In addition, many of these properties have been operated by third parties whose treatment and disposal or release of hydrocarbons or other wastes were not under Murphy's control. Under existing laws, the Company could be required to investigate, remove or remediate previously disposed wastes (including wastes disposed of or released by prior owners or operators), to investigate and clean up contaminated property (including contaminated groundwater) or to perform remedial plugging operations to prevent future contamination. Certain of these historical properties are in various stages of negotiation, investigation, and/or cleanup, and the Company is investigating the extent of any such liability and the availability of applicable defenses. The Company has retained certain liabilities related to environmental matters at formerly owned U.S. refineries that were sold in 2011. The Company also obtained insurance covering certain levels of environmental exposures related to past operations of these refineries. Murphy USA Inc. has retained any environmental exposure associated with Murphy's former U.S. marketing operations that were spun-off in August 2013. The Company believes costs related to these sites will not have a material adverse effect on Murphy's net income, financial condition or liquidity in a future period. There is the possibility that environmental expenditures could be required at currently unidentified sites, and additional expenditures could be required at known sites. However, based on information currently available to the Company, the amount of future investigation and remediation costs incurred at known or currently unidentified sites is not expected to have a material adverse effect on the Company's future net income, cash flows or liquidity. LEGAL MATTERS - Murphy and its subsidiaries are engaged in a number of other legal proceedings (including litigation related to climate change), all of which Murphy considers routine and incidental to its business. Based on information currently available to the Company, the ultimate resolution of environmental and legal matters referred to in this note is not expected to have a material adverse effect on the Company's net income, financial condition or liquidity in a future period. 1000000.01000000.0<div style="margin-

Nature of Leases The Company has entered into various operating leases such as a natural gas processing plant, floating production storage and off-take vessels, buildings, marine vessels, vehicles, drilling rigs, pipelines and other oil and gas field equipment. Options to extend lease terms are at the Company's discretion. Early lease terminations are a combination of Company discretion and mutual agreement between the Company and lessor. Purchase options also exist for certain leases. During the second quarter of 2024, the Company exercised an option to extend an operating lease pertaining to a drill ship used in our offshore business. This resulted in an increase of $254.1 million (discounted) to our right-of-use assets and operating lease liabilities at June 30, 2024. </div><div style="margin-bottom:6pt;margin-top:6pt">Maturity of Lease Liabilities</div><div style="margin-bottom:6pt;margin-top:7pt"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td><td style="width:61.418%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.613%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.971%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.613%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.971%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.614%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(Thousands of dollars)</td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Operating Leases</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Finance Leases</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Total</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:middle">2024</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:middle">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:middle">81,903 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:middle"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:middle">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:middle">265 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:middle"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:middle"><span style="color:#000000;font-family:'Avenir Next LT Pro',sans-serif;font-size:10pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:middle">82,168 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:middle"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:middle">2025</td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom"><span style="color:#000000;font-family:'Avenir Next LT Pro',sans-serif;font-

Options to extend lease terms are at the Company's discretion. Early lease terminations are a combination of Company discretion and mutual agreement between the Company and lessor. Purchase options also exist for certain leases. During the second quarter of 2024, the Company exercised an option to extend an operating lease pertaining to a drill ship used in our offshore business. This resulted in an increase of $254.1 million (discounted) to our right-of-use assets and operating lease liabilities at June 30, 2024. </div><div style="margin-bottom:6pt;margin-top:6pt">Maturity of Accounting Changes and Error Corrections [Abstract]	
New Accounting Principles and Recent Accounting Pronouncements	Note B – New Accounting Principles and Recent Accounting Pronouncements Accounting Principles Adopted *None affecting the Company.* Recent Accounting Pronouncements *Expense Disaggregation Disclosures.* In November 2024 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) *2024-03 Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.* The standard becomes effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The standard requires specified information about certain costs and expenses presented on the face of the income statement to be further disaggregated in the notes to the financial statements. In addition, the standard requires certain expense and cost information that is not separately disaggregated to be qualitatively described. Murphy is currently evaluating the impact of adopting the standard. *Income Tax Disclosures.* In December 2023 the FASB issued ASU *2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures.* The standard becomes effective for annual periods beginning after December 15, 2024. The update requires financial statements to include consistent categories and greater disaggregation of information in the rate reconciliation, as well as income taxes paid disaggregated by jurisdiction. Murphy is currently evaluating the impact of adopting this standard. *Reportable Segment Disclosures.* In November 2023 the FASB issued ASU *2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures.* The standard becomes effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The standard requires additional disclosures about reporting segments, including segment expense information provided to the chief operating decision maker, and extends certain disclosure requirements to interim periods. The standard does not affect our determination of reportable segments. Murphy will adopt Update 2023-07 in the period required, and we do not expect the adoption to have a material impact on our consolidated financial position, operating results and cash flows.

Revenue from Contract with Customer [Abstract]

Revenue from Contracts with Customers

Note C – Revenue from Contracts with Customers

Nature of Goods and Services

The Company explores for and produces crude oil, natural gas and natural gas liquids (collectively oil and natural gas) in select basins around the globe. The Company's revenue from sales of oil and natural gas production activities are primarily divided into two key geographic segments: the United States (U.S.) and Canada. Additionally, revenue from sales to customers is generated from three primary revenue streams: crude oil and condensate, natural gas liquids (NGL), and natural gas.

For operated oil and natural gas production where the non-operated working interest owner does not take in kind its proportionate interest in the produced commodity, the Company acts as an agent for the working interest owner and recognizes revenue only for its own share of the commingled production. The exception to this is the reporting of the noncontrolling interest (NCI) in MP Gulf of Mexico, LLC (MP GOM) as prescribed by GAAP.

U.S. - In the U.S., the Company primarily produces oil and natural gas from fields in the Eagle Ford Shale area of South Texas and in the Gulf of Mexico. Revenue is generally recognized when oil and natural gas are transferred to the customer at the delivery point. Revenue recognized is largely index-based with price adjustments for floating market differentials.

Canada - In Canada, contracts include long-term floating commodity index priced and natural gas physical forward sales fixed-price contracts. For the offshore business in Canada, contracts are based on index prices and revenue is recognized at the time of vessel load based on the volumes on the bill of lading and point of custody transfer. The Company also purchases natural gas in Canada to meet certain sales commitments.

Disaggregation of Revenue

The Company reviews performance based on two key geographical segments and between onshore and offshore sources of revenue within these geographies.

The Company's revenues and other income for the three-month and nine-month periods ended September 30, 2024 and 2023 were as follows.

Contract Balances and Asset Recognition

As of September 30, 2024, and December 31, 2023, receivables from contracts with customers, net of royalties and associated payables, on the balance sheet from continuing operations, were $165.1 million and $193.7 million, respectively. Payment terms for the Company's sales vary across contracts and geographical regions, with the majority of the cash receipts required within 30 days of billing. Based on a forward-looking expected loss model in accordance with ASU 2016-13, the Company did not recognize any impairment losses on receivables or contract assets arising from customer contracts during the reporting periods.

The Company has not entered into any revenue contracts that have financing components as of September 30, 2024.

The Company does not employ sales incentive strategies such as commissions or bonuses for obtaining sales contracts. For the periods presented, the Company did not identify any assets to be recognized associated with the costs to obtain a contract with a customer.

Performance Obligations

The Company recognizes oil and natural gas revenue when it satisfies a performance obligation by transferring control over a commodity to a customer. Judgment is required to determine whether some customers simultaneously receive and consume the benefit of commodities. As a result of this assessment for the Company,

each unit of measure of the specified commodity is considered to represent a distinct performance obligation that is satisfied at a point in time upon the transfer of control of the commodity.

For contracts with market or index-based pricing, which represent the majority of sales contracts, the Company has elected the allocation exception and allocates the variable consideration to each single performance obligation in the contract. As a result, there is no price allocation to unsatisfied remaining performance obligations for delivery of commodity product in subsequent periods.

The Company has entered into several long-term, fixed-price contracts in Canada. The underlying reason for entering a fixed price contract is generally unrelated to anticipated future prices or other observable data and serves a particular purpose in the Company's long-term strategy.

As of September 30, 2024, the Company had the following sales contracts in place which are expected to generate revenue from sales to customers for a period over 12 months starting at the inception of the contract:

Exploratory Wells

Under FASB guidance, exploratory well costs should continue to be capitalized when the well has found a sufficient quantity of reserves to justify its completion as a producing well and the company is making sufficient progress assessing the reserves and the economic and operating viability of the project.

As of September 30, 2024, the Company had total capitalized drilling costs pending the determination of proved reserves of $51.1 million. The following table reflects the net changes in capitalized exploratory well costs during the nine-month periods ended September 30, 2024 and 2023.

(Thousands of dollars)	**2024**	2023
Beginning balance at January 1	**$ 49,118**	$ 171,860
Additions pending the determination of proved reserves	**28,452**	40,825
Reclassifications to proved properties based on the determination of proved reserves	**-**	(1,065)
Capitalized exploratory well costs charged to expense	**(26,471)**	(26,143)
Balance at September 30	**$ 51,099**	$ 185,477

Capital additions of $28.5 million are mainly for Ocotillo #1 (Mississippi Canyon 40) exploratory well in the Gulf of Mexico and Hai Su Vang #1 (Block 15/2-17) and Lac Da Hong #1 (Block 15-1/05) exploratory wells in Vietnam. Capitalized well costs charged to dry hole expense of $26.5 million for the nine months ended September 30, 2024 were related to the Hoffe Park #1 (Mississippi Canyon 166) exploratory well in the Gulf of Mexico. The preceding table excludes well costs of $43.0 million and $81.7 million incurred and expensed directly to dry hole for the nine months ended September 30, 2024 and 2023, respectively. In 2024, these costs primarily include $25.8 million for the Orange #1 (Mississippi Canyon 216) and $11.8 million for the Sebastian #1 (Mississippi Canyon 387) exploration wells in the Gulf of Mexico. In 2023, the amount primarily includes $80.3 million for the Chinook #7 (Walker Ridge 425) exploration well in the Gulf of Mexico.

The following table provides an aging of capitalized exploratory well costs based on the date the drilling was completed for each individual well and the number of projects for which exploratory well costs have been capitalized. The projects are aged based on the last well drilled in the project.

	September 30,					
	2024			2023		
(Thousands of dollars)	**Amount**	**No. of Wells**	**No. of Projects**	Amount	No. of Wells	No. of Projects
Aging of capitalized well costs:						
Zero to one year	**$ 28,552**	**3**	**3**	$ –	–	–
One to two years	**–**	**–**	**–**	38,817	1	1
Two to three years	**–**	**–**	**–**	2,698	1	1
Three years or more	**22,547**	**3**	**3**	143,962	4	3
	$ 51,099	**6**	**6**	$ 185,477	6	5

Of the $22.5 million of exploratory well costs capitalized more than one year at September 30, 2024, $15.1 million was in Vietnam, $4.7 million was in Canada, and $2.7 million was in Brunei. In all geographical areas, either further appraisal or development drilling is planned and/or development studies/plans are in various stages of completion.

Impairments

There were no impairments in the three months ended September 30, 2024. There were pre-tax impairments of $34.5 million in the nine months ended September 30, 2024 related to the Calliope field, in the Gulf of Mexico, where operational issues led to a reserve reduction. There were no impairments in the three and nine months ended September 30, 2023.

Divestitures

On September 15, 2023, the Company completed the divestment of certain non-core operated Kaybob Duvernay assets and all of our non-operated Placid Montney assets, located in Alberta, Canada, effective March 1, 2023, for net cash proceeds of C$139.0 million. No gain or loss was recorded related to this transaction.

All pension plans are funded except for the U.S. and Canadian nonqualified supplemental plan and the U.S. director's plan. All U.S. tax qualified plans meet the funding requirements of federal laws and regulations. Contributions to foreign plans meet the requirements of local laws and tax regulations. The Company also sponsors health care and life insurance benefit plans, which are not funded, that cover most retired U.S. employees. The health care benefits are contributory; the life insurance benefits are noncontributory.

The table that follows provides the components of net periodic benefit expense for the three-month and nine-month periods ended September 30, 2024 and 2023.

Share-Based Payment Arrangement [Abstract]

Incentive Plans

Note I – Incentive Plans

The costs resulting from all share-based and cash-based incentive plans are recognized as an expense in the Consolidated Statements of Operations using a fair value-based measurement method over the periods that the awards vest.

The Annual Incentive Plan (AIP) authorizes the Compensation Committee (the Committee) to establish specific performance goals associated with annual cash awards that may be earned by officers, executives and certain other employees. Cash awards under the AIP are determined based on the Company's actual financial and operating results as measured against the performance goals established by the Committee.

The 2020 Long-Term Incentive Plan (2020 Long-Term Plan) authorizes the Committee to make grants of the Company's common stock to employees. These grants may be in the form of stock options (nonqualified or incentive), stock appreciation rights (SAR), restricted stock, restricted stock units (RSU), performance units, performance shares, dividend equivalents and other stock-based incentives. The 2020 Long-Term Plan expires in 2030. A total of five million shares are issuable during the term of the 2020 Long-Term Plan. Shares issued pursuant to awards granted under the 2020 Long-Term Plan may be shares that are authorized and unissued or shares that were reacquired by the Company, including shares purchased in the open market. Shares underlying awards that have been canceled, expired, forfeited or otherwise not issued under an award shall not count as shares issued under the Plan.

During the nine months ended September 30, 2024, the Committee granted the following awards from the 2020 Long-Term Plan:

Type of Award	Number of Awards Granted	Grant Date	Grant Date Fair Value	Valuation Methodology
Performance-based RSUs (TSR) [1]	423,640	February 6, 2024	$ 41.95	Monte Carlo
Performance-based RSUs (ROACE) [1]	105,980	February 6, 2024	$ 38.08	Average Stock Price
Time-based RSUs (Stock-Settled) [2]	658,420	February 6, 2024	$ 38.08	Average Stock Price
Time-based RSUs (Cash-Settled) [2]	102,900	February 6, 2024	$ 38.08	Average Stock Price
Performance-based RSUs (TSR) [1]	5,830	April 1, 2024	$ 50.81	Monte Carlo
Performance-based RSUs (ROACE) [1]	1,450	April 1, 2024	$ 45.98	Average Stock Price
Time-based RSUs (Stock-Settled) [2]	4,840	April 1, 2024	$ 45.98	Average Stock Price
Time-based RSUs (Cash-Settled) [2]	460	April 1, 2024	$ 45.98	Average Stock Price
Time-based RSUs (Stock-Settled) [2]	22,990	August 19, 2024	$ 37.78	Average Stock Price

[1] Performance-based RSUs are tied to the achievement of Total Shareholder Return (TSR) and Return on Average Capital Employed (ROACE) performance goals and are scheduled to vest three years from the date of grant if performance conditions are met.
[2] Time-based RSUs generally vest on the third anniversary of the date of grant.

The Company also has a Stock Plan for Non-Employee Directors that permits the issuance of RSUs and stock options or a combination thereof to the Company's Non-Employee Directors.

The Company currently has outstanding incentive awards issued to Directors under the 2021 Stock Plan for Non-Employee Directors (2021 NED Plan) and the 2018 Stock Plan for Non-Employee Directors. All awards on or after May 12, 2021, were made under the 2021 NED Plan.

During the nine months ended September 30, 2024, the Committee granted the following awards to Non-Employee Directors under the 2021 NED Plan:

Type of Award	Number of Awards Granted	Grant Date	Grant Date Fair Value	Valuation Methodology
Time-Based RSUs [1]	47,412	February 07, 2024	$ 37.97	Closing Stock Price
Time-Based RSUs [2]	1,230	March 28, 2024	$ 45.70	Closing Stock Price
Time-Based RSUs [2]	1,364	June 28, 2024	$ 41.24	Closing Stock Price
Time-Based RSUs [2]	1,668	September 30, 2024	$ 33.74	Closing Stock Price

[1] Non-employee directors time-based RSUs are scheduled to vest on the first anniversary of the date of grant. Non-employee directors may elect to defer settlement of their vested time-based RSUs until (1) termination of service from the Board or (2) a future date selected by the director at the time of their deferral election. These unvested time-based RSUs are included in the table above, will vest in one year, and become deferred RSUs.
[2] Effective January 1, 2024, non-employee directors can elect to receive their annual cash retainers in the form of deferred RSUs. Director fees which are deferred into RSUs are calculated and expensed each quarter by taking fees earned in respect of the applicable quarter and dividing by the closing price of our common stock on the last trading day of the quarter. Each deferred RSU represents the right to receive one share of common stock following (1) termination of service from the Board or (2) a future date selected by the director at the time of their deferral election.

In 2017, the Company ceased granting stock options and SARs as a part of the Company's long-term incentive compensation program. As of September 30, 2024 there were no outstanding stock options or SARs remaining.

Amounts recognized in the financial statements with respect to share-based plans are shown in the following table:

	Nine Months Ended September 30,

Compensation charged against income before tax benefit	**$ 27,044**	$ 42,912

Certain incentive compensation granted to the Company's named executive officers, to the extent their total compensation exceeds $1.0 million per executive per year, is not eligible for a U.S. income tax deduction under the Tax Cuts and Jobs Act (2017 Tax Act).

Income Tax Disclosure [Abstract]

Income Taxes

Note K – Income Taxes

The Company's effective income tax rate is calculated as the amount of income tax expense (benefit) divided by income (loss) from continuing operations before income taxes. For the three-month and nine-month periods ended September 30, 2024 and 2023, the Company's effective income tax rates were as follows:

	2024	2023
Three months ended September 30,	**1.4%**	21.9%
Nine months ended September 30,	**13.3%**	22.2%

The effective tax rate for the three-month period ended September 30, 2024 was below the U.S. statutory tax rate of 21% primarily due to an income tax deduction for prior years' Australia exploration spend which resulted in an income tax benefit of $33.7 million.

The effective tax rate for the nine-month period ended September 30, 2024 was below the U.S. statutory tax rate of 21% primarily due to an income tax deduction for prior years' Australia exploration spend and no tax applied to the pre-tax income of the noncontrolling interest in MP GOM.

The effective tax rates for the three-month period and nine-month period ended September 30, 2023 were above the U.S. statutory tax rate of 21% primarily due to several factors, including: the effects of income generated in foreign tax jurisdictions, certain of which have income tax rates higher than the U.S. Federal rate; U.S. state tax expense; and certain expenses, including exploration and other expenses in certain foreign jurisdictions, for which no income tax benefits are currently available. These impacts were partially offset by no tax applied to the pre-tax income of the noncontrolling interest in MP GOM.

The Company's tax returns in multiple jurisdictions are subject to audit by taxing authorities. These audits often take years to complete and settle. Although the Company believes that recorded liabilities for unsettled issues

are adequate, additional gains or losses could occur in future years from resolution of outstanding unsettled matters. Additionally, the Company could be required to pay amounts into an escrow account as any matters are identified and appealed with the relevant taxing authorities. As of September 30, 2024, the earliest years remaining open for audit and/or settlement in our major taxing jurisdictions are as follows: U.S. – 2016; Canada – 2016; and Malaysia – 2017. The Company has retained certain possible liabilities and rights to income tax receivables relating to Malaysia for the years prior to 2019.

Financial Instruments and Risk Management

Derivative Instruments and Hedging Activities Disclosure [Abstract]

Financial Instruments and Risk Management

Sep. 30, 2024

Note L – Financial Instruments and Risk Management

Murphy, at times, uses derivative instruments to manage certain risks related to commodity prices, foreign currency exchange rates and interest rates. The use of derivative instruments for risk management is covered by operating policies and is closely monitored by the Company's senior management. The Company does not hold any derivatives for speculative purposes, and it does not use derivatives with leveraged or complex features. Derivative instruments are traded with creditworthy major financial institutions or over national exchanges such as the New York Mercantile Exchange (NYMEX). The Company has a risk management control system to monitor commodity price risks and any derivatives obtained to manage a portion of such risks. For accounting purposes, the Company has not designated commodity and foreign currency derivative contracts as hedges, and therefore, it recognizes all gains and losses on these derivative contracts in its Consolidated Statements of Operations.

Foreign Currency Exchange Risks

The Company is subject to foreign currency exchange risk associated with operations in countries outside the U.S. The Company had no foreign currency exchange derivatives outstanding at September 30, 2024 and 2023.

Commodity Price Risks

During the third quarter of 2024, the Company entered into natural gas swap contracts that will be effective in 2025. Under the swaps contracts, which mature monthly, the Company pays the average monthly price in effect and receives the fixed contract price on a notional amount of sales volume, thereby fixing the price for the commodity sold. During the third quarter of 2023, the Company did not have any crude oil or natural gas derivative contracts.

At September 30, 2024, volumes per day associated with outstanding natural gas derivative contracts and the weighted average prices for these contracts are as follows:

	2025
NYMEX HENRY HUB swap contracts:	
Volumes (MMCF/d):	**20**
Price per MCF:	**$ 3.20**

At September 30, 2024 and December 31, 2023, the fair value of derivative instruments not designated as hedging instruments are presented in the following table:

(Thousands of dollars)	Asset (Liability) Derivatives Fair Value		
Type of Derivative Contract	**Balance Sheet Location**	**September 30, 2024**	December 31, 2023
Commodity swaps	Accounts payable	**$ (1,344)**	$ –

For the three-month and nine-month periods ended September 30, 2024 and 2023, the gains and losses recognized in the Consolidated Statements of Operations for derivative instruments not designated as hedging instruments are presented in the following table:

(Thousands of dollars)		Gain (Loss) Three Months Ended September 30,		Gain (Loss) Nine Months Ended September 30,	
Type of Derivative Contract	**Statement of Operations Location**	**2024**	2023	**2024**	2023
Commodity swaps	(Loss) on derivative instruments	**$ (1,344)**	$ –	**$ (1,344)**	$ –

Fair Values – Recurring

The Company carries certain assets and liabilities at fair value in its Consolidated Balance Sheets. The fair value hierarchy is based on the quality of inputs used to measure fair value, with Level 1 being the highest quality and Level 3 being the lowest quality. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1. Level 3 inputs are unobservable inputs which reflect assumptions about pricing by market participants.

The fair value measurements for these assets and liabilities at September 30, 2024 and December 31, 2023, are shown in the following table:

	September 30, 2024				December 31, 2023			
(Thousands of dollars)	**Level 1**	**Level 2**	**Level 3**	**Total**	Level 1	Level 2	Level 3	Total
Liabilities:								
Commodity swaps	**$ –**	**$ 1,344**	**$ –**	**$ 1,344**	$ –	$ –	$ –	$ –
Nonqualified employee savings plan	**19,225**	**–**	**–**	**19,225**	17,785	–	–	17,785
	$ 19,225	**$ 1,344**	**$ –**	**$ 20,569**	$ 17,785	$ –	$ –	$ 17,785

The fair value of commodity (Henry Hub natural gas) swaps was based on active market quotes for Henry Hub (HH) natural gas. The before tax income effect of changes in the fair value of natural gas derivative contracts is recorded in "(Loss) on derivative instruments" in the Consolidated Statements of Operations.

As of December 31, 2023, there were no outstanding commodity WTI crude oil or HH natural gas swaps and collars contracts subject to fair value measurement, nor were there any commodity swaps and collars liabilities.

The nonqualified employee savings plan is an unfunded savings plan through which participants seek a return via phantom investments in equity securities and/or mutual funds. The fair value of this liability was based on quoted prices for these equity securities and mutual funds. The income effect of changes in the fair value of the nonqualified employee savings plan is recorded in "Selling and general expenses" in the Consolidated Statements of Operations.

In 2019, the Company acquired strategic deepwater Gulf of Mexico assets from LLOG Exploration Offshore L.L.C. and LLOG Bluewater Holdings, L.L.C. (LLOG). Under the terms of the transaction, in addition to the consideration paid, Murphy had an obligation to pay additional contingent consideration of up to $200 million in the event that certain revenue thresholds were exceeded between 2019 and 2022; and $50 million following first oil from certain development projects. The revenue threshold was not exceeded for 2019 or 2020; however, the threshold was met in 2021 and 2022.

In 2018, the Company, through a subsidiary, acquired Gulf of Mexico producing assets from Petrobras America Inc. (PAI), a subsidiary of Petróleo Brasileiro S.A. Under the terms of the transaction, in addition to the consideration paid, Murphy had an obligation to pay additional contingent consideration of up to $150 million if certain price and production thresholds were exceeded beginning in 2019 through 2025; and $50 million carry for PAI development costs in the St. Malo field if certain enhanced oil recovery projects were undertaken. The price and production thresholds were not exceeded for 2019 and 2020; however, the thresholds were met in 2021 and 2022. As of December 31, 2021, Murphy had completely funded the carried interest.

As of the end of the second quarter of 2023, the Company had no remaining liabilities relating to prior acquisitions from PAI and LLOG. During the nine months ended September 30, 2023, the Company paid a total of $199.8 million in contingent consideration payments. In the Consolidated Statements of Cash Flows, $139.6 million is shown in "Operating Activities" and $60.2 million is shown in "Financing Activities".

The Company offsets certain assets and liabilities related to derivative contracts when the legal right of offset exists. There were no offsetting positions recorded at September 30, 2024 and December 31, 2023.

The following table presents the carrying amounts and estimated fair values of financial instruments held by the Company at September 30, 2024 and December 31, 2023. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The table excludes cash and cash equivalents, trade accounts receivable, trade accounts payable and accrued expenses, all of which had fair values approximating carrying amounts. The fair value of current and long-term debt was estimated based on rates offered to the Company at that time for debt of the same maturities. Substantially all of the Company's long-term debt is actively traded in open markets, and accordingly, is classified as Level 1 in the fair value hierarchy. The Company has off-balance sheet exposures relating to certain letters of credit. The fair value of these, which represents fees associated with obtaining the instruments, were minimal.

Environmental and Other Contingencies

Note N – Environmental and Other Contingencies

The Company's operations and earnings have been and may be affected by various forms of governmental action both in the U.S. and throughout the world. Examples of such governmental action include, but are by no means limited to: tax legislation changes, including tax rate changes, and retroactive tax claims; royalty and revenue sharing increases; import and export controls; price controls; currency controls; allocation of supplies of crude oil and petroleum products and other goods; expropriation of property; restrictions and preferences affecting the issuance of oil and gas or mineral leases; restrictions on drilling and/or production; laws, regulations and government action intended for the promotion of safety and the protection and/or remediation of the environment including in connection with the purported causes or potential impacts of climate change; governmental support for other forms of energy; and laws and regulations affecting the Company's relationships with employees, suppliers, customers, stockholders and others. Given the factors involved in various government actions, including political considerations, it is difficult to predict their likelihood, the form they may take, or the effect they may have on the Company.

ENVIRONMENTAL MATTERS – Murphy and other companies in the oil and gas industry are subject to numerous federal, state, local and foreign laws and regulations dealing with the environment and protection of health and safety. The principal environmental, health and safety laws and regulations to which Murphy is subject address such matters as the generation, storage, handling, use, disposal and remediation of petroleum products, wastewater and hazardous materials; the emission and discharge of such materials to the environment, including greenhouse gas (GHG) emissions; wildlife, habitat and water protection; the placement, operation and decommissioning of production equipment; and the health and safety of our employees, contractors and communities where our operations are located. These laws and regulations also generally require permits for existing operations, as well as the construction or development of new operations and the decommissioning of facilities once production has ceased.

Violation of federal or state environmental, health and safety laws, regulations and permits can result in the imposition of significant civil and criminal penalties, injunctions and construction bans or delays. A discharge of hazardous substances into the environment could, to the extent such event is not adequately insured, subject the Company to substantial expense, including both the cost to comply with applicable regulations and claims by neighboring landowners and other third parties for any personal injury and property damage that might result. In addition, Item 103 of SEC Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to this item, the Company will be using a threshold of $1.0 million for such proceedings and the Company is not aware of environmental legal proceedings likely to exceed this $1.0 million threshold.

There continues to be an increase in regulatory oversight of the oil and gas industry at the federal level, with a focus on climate change and GHG emissions (including methane emissions). For example, federal methane regulations currently pending or enacted that would, among other things, require increased leak detection monitoring and repairs, stringent restrictions on venting and flaring, a new third-party monitoring program, and new fees on methane emissions from petroleum and natural gas facilities. In addition, there have been a number of executive orders issued that address climate change, including creation of climate-related task forces, directives to federal agencies to procure carbon-free electricity, and a goal of a carbon pollution-free power sector by 2035 and a net-zero emissions U.S. economy by 2050. Executive orders have also been issued related to oil and gas activities on federal lands, infrastructure and environmental justice. In addition, an international climate agreement (the Paris Agreement) was agreed to at the 2015 United Nations Framework Convention on Climate Change in Paris, France. The Paris Agreement entered into force in November 2016. Although the U.S. officially withdrew from the Paris Agreement on November 4, 2020, the U.S. has since rejoined the Paris Agreement, which became effective for the U.S. on February 19, 2021.

The Company currently owns or leases, and has in the past owned or leased, properties at which hazardous substances have been or are being handled. Hazardous substances may have been disposed of or released on or under the properties owned or leased by the Company or on or under other locations where these wastes have been taken for disposal. In addition, many of these properties have been operated by third parties whose treatment and disposal or release of hydrocarbons or other wastes were not under Murphy's control. Under existing laws, the Company could be required to investigate, remove or remediate previously disposed wastes (including wastes disposed of or released by prior owners or operators), to investigate and clean up

contaminated property (including contaminated groundwater) or to perform remedial plugging operations to prevent future contamination. Certain of these historical properties are in various stages of negotiation, investigation, and/or cleanup, and the Company is investigating the extent of any such liability and the availability of applicable defenses. The Company has retained certain liabilities related to environmental matters at formerly owned U.S. refineries that were sold in 2011. The Company also obtained insurance covering certain levels of environmental exposures related to past operations of these refineries. Murphy USA Inc. has retained any environmental exposure associated with Murphy's former U.S. marketing operations that were spun-off in August 2013. The Company believes costs related to these sites will not have a material adverse effect on Murphy's net income, financial condition or liquidity in a future period.

There is the possibility that environmental expenditures could be required at currently unidentified sites, and additional expenditures could be required at known sites. However, based on information currently available to the Company, the amount of future investigation and remediation costs incurred at known or currently unidentified sites is not expected to have a material adverse effect on the Company's future net income, cash flows or liquidity.

LEGAL MATTERS – Murphy and its subsidiaries are engaged in a number of other legal proceedings (including litigation related to climate change), all of which Murphy considers routine and incidental to its business. Based on information currently available to the Company, the ultimate resolution of environmental and legal matters referred to in this note is not expected to have a material adverse effect on the Company's net income, financial condition or liquidity in a future period.

Leases

Nature of Leases

The Company has entered into various operating leases such as a natural gas processing plant, floating production storage and off-take vessels, buildings, marine vessels, vehicles, drilling rigs, pipelines and other oil and gas field equipment.

Accounting Changes and Error Corrections [Abstract]	
Accounting Principles Adopted and Recent Accounting Pronouncements	Accounting Principles Adopted *None affecting the Company.* Recent Accounting Pronouncements *Expense Disaggregation Disclosures.* In November 2024 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) *2024-03 Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.* The standard becomes effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The standard requires specified information about certain costs and expenses presented on the face of the income statement to be further disaggregated in the notes to the financial statements. In addition, the standard requires certain expense and cost information that is not separately disaggregated to be qualitatively described. Murphy is currently evaluating the impact of adopting the standard. *Income Tax Disclosures.* In December 2023 the FASB issued ASU *2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures.* The standard becomes effective for annual periods beginning after December 15, 2024. The update requires financial statements to include consistent categories and greater disaggregation of information in the rate reconciliation, as well as income taxes paid disaggregated by jurisdiction. Murphy is currently evaluating the impact of adopting this standard. *Reportable Segment Disclosures.* In November 2023 the FASB issued ASU *2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures.* The standard becomes effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The standard requires additional disclosures about reporting segments, including segment expense information provided to the chief operating decision maker, and extends certain disclosure requirements to interim periods. The standard does not affect our determination of reportable segments. Murphy will adopt Update 2023-07 in the period required, and we do not expect the adoption to have a material impact on our consolidated financial position, operating results and cash flows.

The following table presents the carrying amounts and estimated fair values of financial instruments held by the Company at September 30, 2024 and December 31, 2023. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The table excludes cash and cash equivalents, trade accounts receivable, trade accounts payable and accrued expenses, all of which had fair values approximating carrying amounts. The fair value of current and long-term debt was estimated based on rates offered to the Company at that time for debt of the same maturities. Substantially all of the Company's long-term debt is actively traded in open markets, and accordingly, is classified as Level 1 in the fair value hierarchy. The Company has off-balance sheet exposures relating to certain letters of credit. The fair value of these, which represents fees associated with obtaining the instruments, were minimal.
