Recent Accounting PronouncementsIn March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, and has issued subsequent amendments thereto, which provides temporary optional guidance to ease the potential burden in accounting for reference rate reform. The ASU provides optional expedients and exceptions for applying GAAP to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. It is intended to help stakeholders during the global market-wide reference rate transition period. The guidance is effective for all entities as of March 12, 2020 through December 31, 2024. The transition away from LIBOR is not expected to have a material impact on the Company's consolidated financial statements.In March 2023, the FASB issued ASU No. 2023-02, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method. ASU No. 2014-01, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects, previously introduced the option to apply the proportional amortization method to account for investments made primarily for the purpose of receiving income tax credits and other income tax benefits when certain requirements are met; however, this guidance limited the proportional amortization method to investments in low-income-housing tax credit (LIHTC) structures. The proportional amortization method results in the cost of the investment being amortized in proportion to the income tax credits and other income tax benefits received, with the amortization of the investment and the income tax credits being presented net in the income statement as a component of income tax expense (benefit). Equity investments in other tax credit structures are typically accounted for using the equity method, which results in investment income, gains and losses, and tax credits being presented gross on the income statement in their respective line items. The amendments in this update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. The amendments in this update are effective for the Company for fiscal years beginning after December 31, 2023, including interim periods within those fiscal years. The Company adopted this ASU as of January 1, 2024 and it did not have a material impact on the Company's consolidated financial statements.Union Bankshares, Inc. Page 8Note 5. For AFS debt securities in an unrealized loss position, management first assesses whether it intends to sell, or it is more likely than not that the Company will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the securityâ€™s amortized cost basis is written down to fair value through earnings. For AFS debt securities that do not meet the above criteria, management evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security and the issuer, among other factors. If this assessment indicates that a credit loss exists, management compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an ACL is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. For AFS debt securities, any decline in fair value that has not been recorded through an ACL is recognized in other comprehensive income (loss), net of applicable taxes.No ACL for AFS debt securities was recorded at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. Accrued interest receivable on AFS debt securities totaled $836Â thousand and $1.4Â million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is excluded from the estimate of credit losses.The Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. The sale of lower-yielding AFS debt securities with a book value of $38.5Â million was executed and recorded in August of 2024. The proceeds from the sale of these securities were used to purchase $26.0Â million of AFS debt securities at higher yields to improve income going forward, and the remainder was used to fund loan growth.Union Bankshares, Inc. Â LoansLoans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their unpaid principal balances, adjusted for any charge-offs, the ACL, and any deferred fees or costs on originated loans and unamortized premiums or discounts on purchased loans.Loan interest income is accrued daily on outstanding balances. The following accounting policies, related to accrual and nonaccrual loans, apply to all portfolio segments and loan classes, which the Company considers to be the same. The accrual of interest is normally discontinued when a loan is specifically determined to be impaired and/or management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful. In general, loans that are 90 days or more past due are placed in nonaccrual, unless there are circumstances that cause management to believe the collection of interest is not doubtful. Generally, any unpaid interest previously accrued on those loans is reversed against current period interest income. A loan may be restored to accrual status when its financial status has significantly improved and there is no principal or interest past due. A loan may also be restored to accrual status if the borrower makes six consecutive monthly payments or the lump sum equivalent. Income on nonaccrual loans is generally not recognized unless a loan is returned to accrual status or after all principal has been collected. Interest payments received on such loans are generally applied as a reduction of the loan principal balance. Delinquency status is determined based on contractual terms for all portfolio segments and loan classes. Loans past due 30 days or more are considered delinquent. Loans are considered in process of foreclosure when a judgment of foreclosure has been issued by the court.Loan origination fees and direct loan origination costs are deferred and amortized as an adjustment of the related loan's yield using methods that approximate the interest method. The Company generally amortizes these amounts over the estimated average life of the related loans.The Company evaluates the risk characteristics of its loans based on regulatory call report code with segmentation based on the underlying collateral or purpose for certain loan types.Union Bankshares, Inc. Â Allowance for Credit Losses on Loans and Off-Balance Sheet Credit ExposuresThe level of the ACL on loans represents management's estimate of expected credit losses over the expected life of the loans at the balance sheet date. For all loan segments, loan losses are charged against the ACL on loans when management believes the loan balance is uncollectible or in accordance with federal guidelines. Subsequent recoveries, if any, are credited to the ACL on loans.The ACL on loans is a valuation account that is deducted from the amortized cost basis of loans to present the net amount expected to be collected on the loans. The ACL on loans is comprised of reserves measured on a collective (pool) basis based on a lifetime loss-rate model when similar risk characteristics exist. Loans that do not share risk characteristics are evaluated on an individual basis, generally larger non-accruing commercial loans.The Company uses the DCF method to estimate expected credit losses for all loan pools. For each of the loan segments, the Company generates cash flow projections at the instrument level wherein payment expectations are adjusted for estimated prepayment speed, curtailments, time to recovery, and loss rates. The modeling of expected prepayment speeds, curtailment rates, and time to recovery are based on historical benchmark data.The Company uses regression analysis of historical internal and peer data to determine suitable loss drivers to utilize when modeling lifetime loss rates. This analysis also determines how expected loss rates will react to forecasted levels of the loss drivers. For all loan pools utilizing the DCF method, management utilizes and forecasts national unemployment as a loss driver.For all DCF models, management has determined that four quarters represents a reasonable and supportable forecast period and reverts back to a historical loss rate over four quarters on a straight-line basis. Management leverages economic projections from a reputable and independent third party to inform its loss driver forecasts over the four-quarter forecast period.The combination of adjustments for credit expectations (default and loss) and timing expectations (prepayment, curtailment, and time to recovery) produces an expected cash flow stream at the instrument level that represents the sum of expected losses to determine the estimated ACL on loans.Union Bankshares, Inc. Page 12The ACL on loans evaluation also considers various qualitative factors, including changes in policy and/or underwriting standards, actual or expected changes in economic trends and conditions, changes in the nature and volume of the portfolio, changes in credit and lending staff/administration, problem loan trends, credit risk concentrations, loan review results, changes in the value of underlying collateral for loans, and changes in the regulatory and business environment.Certain loans are individually evaluated for estimated credit losses, including those greater than $500 thousand that are classified as substandard or doubtful and are on nonaccrual or that have other unique characteristics differing from the segment. Specific reserves are established when appropriate for such loans based on the present value of expected future cash flows of the loan or the estimated realizable value of the collateral, if any.Risk characteristics relevant to each portfolio segment are as follows:â€¢Residential real estate - Loans in this segment are collateralized by owner-occupied 1-4 family residential real estate, second and vacation homes, 1-4 family investment properties, home equity and second mortgage loans. Repayment is dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment rates and housing prices, could have an effect on the credit quality of this segment.â€¢Construction real estate - Loans in this segment include residential and commercial construction properties, commercial real estate development loans (while in the construction phase of the projects), land and land development loans. Repayment is dependent on the credit quality of the individual borrower and/or the underlying cash flows generated by the properties being constructed. The overall health of the economy, including unemployment rates, housing prices, vacancy rates and material costs, could have an effect on the credit quality of this segment.â€¢Commercial real estate - Loans in this segment are primarily properties occupied by businesses or income-producing properties. The underlying cash flows generated by the properties may be adversely impacted by a downturn in the economy as evidenced by a general slowdown in business or increased vacancy rates which, in turn, could have an effect on the credit quality of this segment. Management requests business financial statements at least annually and monitors the cash flows of these loans.â€¢Commercial - Loans in this segment are made to businesses and are generally secured by non-real estate assets of the business. Repayment is expected from the cash flows of the business. A weakened economy, and resultant decreased consumer or business spending, could have an effect on the credit quality of this segment.â€¢Consumer - Loans in this segment are made to individuals for personal expenditures, such as automobile purchases, and include unsecured loans. Repayment is primarily dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment, could have an effect on the credit quality of this segment.â€¢Municipal - Loans in this segment are made to municipalities located within the Company's service area. Repayment is primarily dependent on taxes or other funds collected by the municipalities. Management considers there to be minimal risk surrounding the credit quality of this segment.Union Bankshares, Inc. The following is an overview of the Company's loan rating system:1-3 Rating - PassRisk-rating grades "1" through "3" comprise those loans ranging from those with lower than average credit risk, defined as borrowers with high liquidity, excellent financial condition, strong management, favorable industry trends or loans secured by highly liquid assets, through those with marginal credit risk, defined as borrowers that, while creditworthy, exhibit some characteristics requiring special attention by the account officer.4-4.5 Rating - Satisfactory/MonitorBorrowers exhibit potential credit weaknesses or downward trends warranting management's attention. While potentially weak, these borrowers are currently marginally acceptable; no loss of principal or interest is envisioned. When warranted, these credits may be monitored on the watch list.5-7 Rating - SubstandardBorrowers exhibit well defined weaknesses that jeopardize the orderly liquidation of debt. The loan may be inadequately protected by the net worth and paying capacity of the obligor and/or the underlying collateral is inadequate.Union Bankshares, Inc. Loans that are individually evaluated and collateral dependent represent loans that the Company has determined foreclosure of the collateral is probable, or where the borrower is experiencing financial difficulty and the Company expects repayment of the loan to be provided substantially through the sale of the collateral. For these loans, the ACL is measured based on the difference between the fair value of the collateral and the amortized cost basis of the loan at the measurement date.The following table presents collateral dependent loans to borrowers experiencing financial difficulty by loan class and collateral type as of the balance sheet dates:September 30, 2024December 31, 2023Real EstateReal Estate(Dollars in thousands)Non-residential commercial real estate$1,709Â $1,841Â Collateral dependent loans are loans for which the repayment is expected to be provided substantially by the underlying collateral and there are no other available and reliable sources of repayment.Occasionally, the Company modifies loans to borrowers experiencing financial difficulty by providing interest rate reductions, term extensions, payment deferrals or principal forgiveness. When principal forgiveness is provided, the amount of forgiveness is charged off against the ACL on loans. There were no new loan modifications to borrowers experiencing financial difficulty during the three months ended September 30, 2024 or 2023. Each outstanding RSU represents the right to receive one share of the Company's common stock upon satisfaction of applicable vesting conditions. The general terms of the awards are described in the Company's 2023 Annual Report. Prior to vesting, the RSUs do not earn dividends or dividend equivalents, nor do they bear any voting rights.Union Bankshares, Inc. Each RSU represents the right to receive one share of the Company's common stock upon satisfaction of applicable vesting conditions. The RSUs will vest in May 2025, subject to continued board service through the vesting date, other than in the case of the director's death or disability. Prior to vesting, the RSUs do not earn dividends or dividend equivalents, nor do they bear any voting rights. Unrecognized director compensation expense related to the unvested RSUs as of SeptemberÂ 30, 2024 was $64 thousand.Note 9. Subordinated NotesIn August 2021, the Company completed the private placement of $16.5Â million in aggregate principal amount of fixed-to-floating rate subordinated notes due 2031 (the "Notes") to certain qualified institutional buyers and accredited investors. The Notes initially bear interest, payable semi-annually, at the rate of 3.25% per annum, until September 1, 2026. From and including September 1, 2026, the interest rate

applicable to the outstanding principal amount due will reset quarterly to the then current three-month secured overnight financing rate (SOFR) plus 263 basis points. At its option, the Company may redeem the Notes, in whole or in part, beginning with the interest payment date of September 1, 2026 but not generally prior thereto, and on any scheduled interest payment date thereafter. The Notes qualify as Tier 2 capital instruments for the Company under bank holding company regulatory capital guidelines. The Company used the proceeds primarily to provide additional Tier 1 capital to the Company's wholly-owned subsidiary, Union Bank, to support its growth and for other general corporate purposes.The unamortized issuance costs of the Notes were $236Â thousand and $261Â thousand at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The Company recorded $8Â thousand and $25Â thousand of issuance costs in interest expense for the three and nine months ended September 30, 2024 and 2023, respectively. The Notes are presented net of unamortized issuance costs in the consolidated balance sheets.Note 10. Other Comprehensive Income (Loss)Accounting principles generally require recognized revenue, expenses, gains and losses be included in net income or loss. Certain changes in assets and liabilities, such as the after tax effect of unrealized gains and losses on investment securities AFS that have not been recorded through an ACL are not reflected in the consolidated statements of income. The cumulative effect of such items, net of tax effect, is reported as a separate component of the equity section of the consolidated balance sheets (Accumulated OCI). OCI, along with net income, comprises the Company's total comprehensive income or loss.As of the balance sheet dates, the components of Accumulated OCI, net of tax, were:September 30, 2024December 31, 2023Â (Dollars in thousands)Net unrealized losses on investment securities AFS$(26,831)$(31,955)Union Bankshares, Inc. Fair Value MeasurementThe Company utilizes FASB ASC Topic 820, Fair Value Measurement, as guidance for accounting for assets and liabilities carried at fair value. This standard defines fair value as the price that would be received, without adjustment for transaction costs, to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The guidance in FASB ASC Topic 820 establishes a three-level fair value hierarchy, which prioritizes the inputs used in measuring fair value. A financial instrumentâ€™s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.The three levels of the fair value hierarchy are:â€¢Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;â€¢Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;Union Bankshares, Inc. Page 23â€¢Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).The following is a description of the valuation methodologies used for the Companyâ€™s assets that are measured on a recurring basis at estimated fair value:Investment securities AFS: Certain U.S. Treasury notes have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. However, the majority of the Companyâ€™s AFS securities have been valued utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include market maker bids, quotes and pricing models. Inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows.Mutual funds: Mutual funds have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1.Assets measured at fair value on a recurring basis at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, segregated by fair value hierarchy level, are summarized below:Â Fair Value MeasurementsÂ FairValueQuoted Prices inActive Marketsfor IdenticalAssets(Level 1)SignificantOtherObservableInputs(Level 2)SignificantUnobservableInputs(Level 3)September 30, 2024:(Dollars in thousands)Debt securities AFS:U.S. Government-sponsored enterprises$27,136Â $2,737Â $24,399Â $â€”Â Agency mortgage-backed165,146Â â€”Â 165,146Â â€”Â State and political subdivisions50,199Â â€”Â 50,199Â â€”Â Corporate2,454Â â€”Â 2,454Â â€”Â Total debt securities$244,935Â $2,737Â $242,198Â $â€”Â Other investments:Mutual funds$1,723Â $1,723Â $â€”Â $â€”Â December 31, 2023:Â Â Â Â Â Debt securities AFS:Â Â Â Â Â U.S. Government-sponsored enterprises$39,351Â $2,645Â $36,706Â $â€”Â Agency mortgage-backed152,384Â â€”Â 152,384Â â€”Â State and political subdivisions66,439Â â€”Â 66,439Â â€”Â Corporate6,209Â â€”Â 6,209Â â€”Â Total debt securities$264,383Â $2,645Â $261,738Â $â€”Â Other investments:Mutual funds$1,500Â $1,500Â $â€”Â $â€”Â There were no transfers in or out of Levels 1 and 2 during the three and nine months ended September 30, 2024 or the year ended December 31, 2023, nor were there any Level 3 assets at any time during these periods. Certain other assets and liabilities are measured at fair value on a nonrecurring basis, that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Assets and liabilities measured at fair value on a nonrecurring basis in periods after initial recognition, such as collateral dependent individually evaluated loans, MSRs and OREO, were not considered material at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. The Company has not elected to apply the fair value method to any financial assets or liabilities other than those situations where other accounting pronouncements require fair value measurements.FASB ASC Topic 825, Financial Instruments, requires disclosure of the estimated fair value of financial instruments. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for Union Bankshares, Inc. Page 24the Companyâ€™s various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Managementâ€™s estimates and assumptions are inherently subjective and involve uncertainties and matters of significant judgment. Changes in assumptions could dramatically affect the estimated fair values. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Certain financial instruments and all nonfinancial instruments may be excluded from disclosure requirements. Thus, the aggregate fair value amounts presented may not necessarily represent the actual underlying fair value of such instruments of the Company. Subsequent EventsSubsequent events represent events or transactions occurring after the balance sheet date but before the financial statements are issued. Financial statements are considered â€œissuedâ€ when they are widely distributed to shareholders and others for general use and reliance in a form and format that complies with GAAP. Events occurring subsequent to SeptemberÂ 30, 2024 have been evaluated as to their potential impact to the consolidated financial statements.On OctoberÂ 16, 2024, the Company declared a regular quarterly cash dividend of $0.36 per share, payable NovemberÂ 7, 2024, to stockholders of record on OctoberÂ 26, 2024.Union Bankshares, Inc. Page 26Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION ANDRESULTS OF OPERATIONSGENERALThe following discussion and analysis focuses on those factors that, in management's view, had a material effect on the financial position of the Company as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, and its results of operations for the three and nine months ended September 30, 2024 and 2023. This discussion is being presented to provide a narrative explanation of the consolidated financial statements and should be read in conjunction with the consolidated financial statements and related notes and with other financial data appearing elsewhere in this filing and with the Company's 2023 Annual Report. In the opinion of the Company's management, the interim unaudited consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments and disclosures necessary to fairly present the Company's consolidated financial position and results of operations for the interim periods presented. Management is not aware of the occurrence of any events after SeptemberÂ 30, 2024 which would materially affect the information presented.Please refer to Note 1 in the Company's unaudited interim consolidated financial statements at Part I, Item 1 of this Report for definitions of acronyms, abbreviations and capitalized terms used throughout the following discussion and analysis. CAUTIONARY ADVICE ABOUT FORWARD LOOKING STATEMENTSThe Company, "we," "us," "our," may from time to time make written or oral statements that are considered â€œforward-looking statementsâ€ within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may include financial projections, statements of plans and objectives for future operations, estimates of future economic performance or conditions and assumptions relating thereto. The Company may include forward-looking statements in its filings with the SEC, in its reports to stockholders, including this quarterly report, in press releases, other written materials, and in statements made by senior management to analysts, rating agencies, institutional investors, representatives of the media and others.Forward-looking statements are based on the current assumptions underlying the statements and other information with respect to the beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions of management and the financial condition, results of operations, future performance and business are only expectations of future results. Although the Company believes that the expectations reflected in the Companyâ€™s forward-looking statements are reasonable when made, the Companyâ€™s actual results could differ materially from those projected in the forward-looking statements as a result of, among other factors, changes in interest rates; competitive pressures from other financial institutions; general economic conditions on a national basis or in the local markets in which the Company operates; downgrades of U.S. government securities; eroding public confidence in the banking system; changes in consumer behavior due to changing political, business and economic conditions, including concerns about inflation, or legislative or regulatory initiatives; changes in the value of securities and other assets in the Companyâ€™s investment portfolio; increases in loan and lease default and charge-off rates; the adequacy of the ACL; decreases in deposit levels that necessitate increases in borrowing to fund loans and investments; operational risks to the Company and our vendors, including, but not limited to, cybersecurity incidents, fraud, natural disasters and future pandemics; changes in regulation, war, terrorism, civil unrest; changes in economic assumptions and adverse economic developments; the risk that goodwill and intangibles recorded in the Companyâ€™s financial statements will become impaired; changes in assumptions used in making such forward-looking statements; and the other risks and uncertainties detailed in the Companyâ€™s 2023 Annual Report.In addition to the uncertainties detailed in the Company's 2023 Annual Report the banking industry continues to be faced with an inverted yield curve, unrealized securities losses, and higher funding costs.When evaluating forward-looking statements to make decisions about the Company and our stock, investors and others are cautioned to consider these and other risks and uncertainties, and are reminded not to place undue reliance on such statements. Investors should not consider the foregoing list of factors to be a complete list of risks or uncertainties. Forward-looking statements speak only as of the date they are made and the Company undertakes no obligation to update them to reflect new or changed information or events, except as may be required by federal securities laws.Non-GAAP Financial MeasuresUnder SEC Regulation G, public companies making disclosures containing financial measures that are not in accordance with GAAP must also disclose, along with each non-GAAP financial measure, certain additional information, including a reconciliation of the non-GAAP financial measure to the closest comparable GAAP financial measure, as well as a statement of the companyâ€™s reasons for utilizing the non-GAAP financial measure. The SEC has exempted from the definition of non-GAAP financial measures certain commonly used financial measures that are not based on GAAP. However, two non-GAAP financial Union Bankshares, Inc. Page 27measures commonly used by financial institutions, namely tax-equivalent net interest income and tax-equivalent net interest margin (as presented in the tables in the section labeled Yields Earned and Rates Paid), have not been specifically exempted by the SEC, and may therefore constitute non-GAAP financial measures under Regulation G. We are unable to state with certainty whether the SEC would regard those measures as subject to Regulation G. Management believes that these non-GAAP financial measures are useful in evaluating the Companyâ€™s financial performance and facilitate comparisons with the performance of other financial institutions. However, that information should be considered supplemental in nature and not as a substitute for related financial information prepared in accordance with GAAP.CRITICAL ACCOUNTING POLICIESThe Company has established various accounting policies which govern the application of GAAP in the preparation of the Company's consolidated financial statements. Certain accounting policies involve significant judgments and assumptions by management which have a material impact on the reported amount of assets, liabilities, capital, revenues and expenses and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require management to make its most difficult and subjective judgments, often as a result of the need to make estimates on matters that are inherently uncertain. Based on this definition, management has identified the accounting policies and judgments most critical to the Company. They include establishing the amount of ACL and valuing our intangible assets. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances. Because of the nature of the judgments and assumptions made by management, actual results could differ from estimates and have a material impact on the carrying value of assets, liabilities, or capital, and/or the results of operations of the Company.Please refer to the Company's 2023 Annual Report on Form 10-K for a more in-depth discussion of the Company's critical accounting policies. There have been no changes to the Company's critical accounting policies since the filing of that

report.OVERVIEWThe Company, like other financial institutions, has experienced earnings pressure due to the prolonged and steep yield curve inversion. The sharp increases in short-term rates during 2022 and 2023 have had a significant impact on the Company's funding costs due to higher rates paid on deposit accounts and increased utilization of wholesale funding at higher costs. Despite these challenges, the Companyâ€™s financial position remains strong, supported by a diverse deposit base, a strong liquidity position, excellent asset quality, and regulatory capital in excess of all required levels. The Company continues to focus on gathering deposits, optimization of the net interest margin and maintaining strong asset quality. The Company's earnings have been impacted by the inverted yield curve, as deposit and funding costs have risen at a faster pace than assets have repriced, which has resulted in compression of the net interest margin and spread. In September 2024, the Federal Reserve reduced short-term interest rates by 50 bps; however, there was minimal impact on third quarter financial results from this rate reduction. The net interest margin was 2.73% for the nine months ended September 30, 2024 compared to 2.95% for the nine months ended September 30, 2023, while the net interest spreads for the same periods were 2.27% and 2.59%, respectively. We continue to manage the net interest margin and spread by remaining disciplined on loan and deposit pricing, utilizing FHLB advances and brokered CDs when appropriate to reduce our exposure to high short-term interest rates, and maximizing our balance sheet collateral (i.e. loans and investment securities) to obtain wholesale funding in a cost effective way to fund loan growth.The Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. The sale of lower-yielding AFS debt securities with a book value of $38.5Â million was executed and recorded in August of 2024, resulting in a pre-tax realized loss on the sale of $1.3Â million. The proceeds from the sale of these securities were used to purchase $26.0Â million of AFS debt securities at higher yields to improve income going forward, and the remainder was used to fund loan growth. The Company estimates the loss on the sale will be recouped within approximately one year.Consolidated net income decreased $1.2 million, or 47.7%, to $1.3 million for the third quarter of 2024 compared to $2.5 million for the third quarter of 2023. The decrease in net income was due to the combined effects of the $1.3 million loss on the sale of AFS debt securities discussed above, increases of $483 thousand in noninterest expenses and $564 thousand in credit loss expense, partially offset by increases of $282 thousand in net interest income and $431 thousand in noninterest income, excluding the loss on the sale of AFS debt securities, and a decrease of $419 thousand in income tax expense. Consolidated net income decreased $2.4 million, or 29.8%, to $5.8 million for the nine months ended September 30, 2024 compared to $8.2 million for the nine months ended September 30, 2023. This decrease was due to the combined effects of the $1.3 million loss on the sale of AFS debt securities discussed above, a decrease in net interest income of $819 thousand and increases in noninterest expenses of $1.7 million and credit loss expense of $744 thousand, partially offset by an increase in Union Bankshares, Inc. Page 28noninterest income, excluding the loss on the sale of AFS debt securities, of $995 thousand and a reduction in income tax expense of $1.1 million.At SeptemberÂ 30, 2024, the Company had total consolidated assets of $1.52 billion, including gross loans and loans held for sale (total loans) of $1.13 billion, deposits of $1.17 billion, borrowed funds of $240.7 million, subordinated notes of $16.3 million and stockholders' equity of $72.3 million. The Company's total capital increased to $72.3 million at SeptemberÂ 30, 2024 from $65.8 million at DecemberÂ 31, 2023. This increase primarily reflects an improvement of $5.1 million in accumulated other comprehensive loss due to an increase in the fair market value of the Company's AFS investment securities, net income of $5.8 million for the first nine months of 2024, partially offset by regular cash dividends declared of $4.9 million. (See Capital Resources on page 44.) These changes also resulted in an increase in the Company's book value per share to $15.98 at SeptemberÂ 30, 2024 from $14.56 at DecemberÂ 31, 2023.The following unaudited per share information and key ratios depict several measurements of performance or financial condition at or for the three and nine months ended September 30, 2024 and 2023:Â Three Months Ended or At September 30,Nine Months Ended or At September 30,Â 20242023202420232023Return on average assets (1)0.36Â %0.73Â %0.53Â %0.80Â %Return on average equity (1)7.90Â %17.65Â %12.00Â %18.82Â %Net interest margin (1)(2)2.71Â %2.76Â %2.73Â %2.95Â %Efficiency ratio (3)83.42Â %75.37Â %80.04Â %73.17Â %Net interest spread (4)2.22Â %2.34Â %2.27Â %2.59Â %Loan to deposit ratio95.96Â %84.11Â %95.96Â %84.11Â %Net loan charge-offs to average loans not held for saleâ€”Â %â€”Â %â€”Â %â€”Â %ACL on loans to loans not held for sale0.66Â %0.67Â %0.66Â %0.67Â %Nonperforming assets to total assets (5)0.13Â %0.15Â %0.13Â %0.15Â %Equity to assets4.76Â %3.53Â %4.76Â %3.53Â %Total capital to risk weighted assets12.77Â %13.19Â %12.77Â %13.19Â %Book value per share$15.98Â $10.92Â $15.98Â $10.92Â Basic earnings per share$0.29Â $0.56Â $1.27Â $1.82Â Diluted earnings per share$0.29Â $0.55Â $1.27Â $1.81Â Dividends paid per share$0.36Â $0.36Â $1.08Â $1.08Â Dividend payout ratio (6)124.14Â %64.29Â %85.04Â %59.34Â %_____(1)Annualized. The largest component of the Companyâ€™s operating income is net interest income, which is the difference between interest and dividend income received from earning assets and interest expense paid on interest bearing liabilities. Net interest income is affected by various factors including, but not limited to, changes in interest rates, loan and deposit pricing strategies, funding strategies, the volume and mix of interest earning assets and interest bearing liabilities, and the level of nonperforming assets. Net interest margin is calculated as the net interest income on a fully tax equivalent basis as a percentage of average earning assets.Union Bankshares, Inc. Page 29Interest earned on average earning assets for the three months ended September 30, 2024 was $17.2 million compared to $14.8 million for the three months ended September 30, 2023, an increase of $2.3 million, or 15.8%. The average earning asset base increased $78.1 million between periods and the average yield on average earning assets increased 42 bps to 4.85% for the three months ended September 30, 2024 compared to 4.43% for the three months ended September 30, 2023. The average yield on federal funds sold and overnight deposits decreased 81 bps while interest income increased $9 thousand between the three month comparison period due to an increase in the average balance maintained in Union's master account at the FRB, partially offset by a decrease in the average interest rate paid on these balances. Interest income on investment securities decreased $72 thousand between comparison periods due to a $23.2 million decrease in the average balance of the portfolio, partially offset by an increase in the average yield of 2 bps. Interest income on loans increased $2.3 million between the three month comparison periods due to an increase in the average volume of loans outstanding of $90.0 million and an increase of 46 bps in the average yield.Average interest bearing liabilities increased $83.6 million between the three month comparison periods due to growth in customer time deposit balances, utilization of brokered deposits included in time deposits, and an increase in borrowed funds. The average rate paid on interest bearing liabilities increased 54 bps to 2.63% for the third quarter of 2024 compared to 2.09% for the third quarter of 2023. Interest expense increased $2.1 million, to $7.8 million for the three months ended September 30, 2024 compared to $5.7 million for the three months ended September 30, 2023. Higher rates paid on customer deposit accounts and utilization of higher cost funding of brokered deposits and advances from the FHLB and the FRB were drivers of the increase in interest expense. The net interest spread decreased 12 bps to 2.22% for the third quarter of 2024, from 2.34% for the same period last year, reflecting the net effect of the 54 bps increase in the average rate paid on interest bearing liabilities, which was only partially offset by the 42 bps increase in the average yield earned on interest earning assets between periods. The net interest margin decreased 5 bps during the third quarter of 2024 compared to the same period last year as a result of the changes discussed above. Even with the decreases in the net interest spread and net interest margin, net interest income increased $282 thousand to $9.4 million for the three months ended September 30, 2024 compared to $9.1 million for the three months ended September 30, 2023.Net interest income was $27.9 million, on a fully tax equivalent basis for the nine months ended September 30, 2024 compared to $28.7 million for the nine months ended September 30, 2023, a decrease of $819 thousand, or 2.8%. The average volume of earning assets increased $70.9 million and the average yield on earning assets increased 52 bps to 4.77% compared to 4.25% for the comparison period. Average loans increased $72.9 million, or 7.4%, to $1.1 billion for the nine months ended September 30, 2024. The increase in average loan volume and the increase of 58 bps in the average loan yield resulted in a $7.1 million increase in interest income on loans between periods. There was a $445 thousand recovery of interest income on loans during the nine months ended September 30, 2024 related to the payoff of a loan that had previously been in nonaccrual. This accounted for 6 bps of the increase in the average loan yield between the nine month comparison periods.The average balance of the investment portfolio decreased $15.2 million while the average yield on the portfolio increased by 1 bp, resulting in a decrease in interest income on investment securities of $132 thousand between the nine month comparison periods.The average cost of funds increased 84 bps to 2.50% for the nine months ended September 30, 2024 compared to 1.66% for the nine months ended September 30, 2023. Interest expense increased $8.5 million, to $21.4 million for the nine months ended September 30, 2024 compared to $13.0 million for the nine months ended September 30, 2023. The increases in the average cost of funds and in interest expense were due to an increase of $96.0 million in the average balance of interest bearing liabilities and increases in the average rates paid in all liability categories between periods, with the exception of the Company's subordinated notes. During the first half of 2024, Union, like many other financial institutions, continued to offer higher rate paying time deposit specials to attract new deposit dollars and retain existing customer deposits. Although some new money was obtained, a shift of funds in the Company's deposit base from non-maturity deposits to time deposit specials occurred. Interest expense on time deposits increased $2.8 million to $8.7 million for the nine months ended September 30, 2024 compared to $5.9 million for the nine months ended September 30, 2023 due to increases of $37.5 million in the average balance and 90 bps in the average rate paid. Despite a decrease of $31.9 million in the average balance of savings/money market accounts, interest expense increased $1.4 million between the nine month comparison periods due to an increase of 58 bps in the average rate paid. Interest expense on interest bearing checking accounts increased $411 thousand between the nine month comparison periods resulting from an increase of 26 bps in the average rate paid, which more than offset the decrease of $24.0 million in the average balance. The average volume of borrowed funds increased $114.4 million and the average rate paid on borrowed funds increased 40 bps between the nine month comparison periods, resulting in a $3.9 million increase in interest expense.The net interest spread decreased 32 bps to 2.27% for the nine months ended September 30, 2024, from 2.59% for the same period last year, reflecting the net effect of the 84 bps increase in the average rate paid on interest bearing liabilities, which was Union Bankshares, Inc. Page 30only partially offset by the 52 bps increase in the average yield earned on interest earning assets between periods. The net interest margin decreased 22 bps for the nine months ended September 30, 2024 compared to the same period last year as a result of the changes discussed above.The following tables show for the periods indicated the total amount of tax equivalent interest income recorded from average interest earning assets, the related average tax equivalent yields, the tax equivalent interest expense associated with average interest bearing liabilities, the related tax equivalent average rates paid, and the resulting tax equivalent net interest spread and margin.Â Three Months Ended September 30,Â 20242023Â AverageBalance (1)InterestEarned/PaidAverageYield/RateAverageBalance (1)InterestEarned/PaidAverageYield/RateÂ (Dollars in thousands)Average Assets:Â Â Â Â Â Â Federal funds sold and overnight deposits$25,451Â $162Â 2.49Â %$18,188Â $153Â 3.30Â %Interest bearing deposits in banks13,564Â 127Â 3.71Â %14,826Â 95Â 2.54Â %Investment securities (2), (3)288,839Â 1,573Â 2.25Â %312,074Â 1,645Â 2.23Â %Loans, net (2), (4)1,091,307Â 15,182Â 5.61Â %1,001,353Â 12,874Â 5.15Â %Nonmarketable equity securities10,082Â 147Â 5.77Â %4,657Â 80Â 6.80Â %Total interest earning assets (2)1,429,243Â 17,191Â 4.85Â %1,351,098Â 14,847Â 4.43Â %Cash and due from banks4,887Â Â Â 4,846Â Premises and equipment20,567Â Â Â 20,216Â Other assets21,534Â Â Â 11,459Â Total assets$1,476,231Â Â Â $1,387,619Â Average Liabilities and Stockholders' Equity:Â Â Interest bearing checking accounts$277,422Â 748Â 1.07Â %$317,918Â 1,043Â 1.30Â %Savings/money market accounts328,887Â 1,014Â 1.23Â %376,878Â 1,169Â 1.23Â %Time deposits295,331Â 3,199Â 4.31Â %279,288Â 2,531Â 3.60Â %Borrowed funds and other liabilities247,446Â 2,658Â 4.20Â %91,403Â 814Â 3.48Â %Subordinated notes16,259Â 142Â 3.49Â %16,226Â 142Â 3.49Â %Total interest bearing liabilities1,165,345Â 7,761Â 2.63Â %1,081,713Â 5,699Â 2.09Â %Noninterest bearing deposits226,094Â Â Â 230,557Â Other liabilities17,795Â Â Â 17,979Â Total liabilities1,409,234Â Â Â 1,330,249Â Stockholders' equity66,997Â Â Â 57,370Â Total liabilities and stockholdersâ€™ equity$1,476,231Â Â Â $1,387,619Â Net interest incomeÂ $9,430Â Â Â $9,148Â Net interest spread (2)Â Â 2.22Â %Â Â 2.34Â %Net interest margin (2)Â 2.71Â %Â Â 2.76Â %Union Bankshares, Inc. Credit loss expense or benefit is made up of credit loss expense on loans and credit loss expense on off-balance sheet credit exposures. Credit loss expense on loans results from net charge-offs, changes to the projected loss drivers, prepayment speeds, curtailments and time to recovery that the Company forecasted over the reasonable and supportable forecast periods and changes in the volume and mix of the loan portfolio. Credit loss expense on off-balance sheet credit exposures results from changes in outstanding commitments and changes in funding rates and assumed loss rates Union Bankshares, Inc. Service fees increased $70 thousand for the three month comparison period due to increases in loan servicing fees, ATM and debit card network fees and service charge income. Service fees increased $33 thousand for the nine month comparison period due to increases in overdraft fee income and service charge income, partially offset by decreases in ATM and debit card network fees, and merchant program fees.â€¢Net gains on sales of loans held for sale. Residential mortgage loans totaling $35.2 million and $76.1 million were sold during the three and nine months ended September 30, 2024, respectively, compared to sales of $24.7 million and $54.2 million during the same periods in 2023, respectively. The increases of $204 thousand and $332 thousand in net gains on sales of loans held for the three and nine month comparison periods, respectively, reflect the higher sales volume and higher premiums obtained on sales in 2024.â€¢Income from Company-owned life insurance. Death benefit proceeds of $235 thousand were received in the second quarter of 2024 that were not received during the same period in 2023. Income also increased during the three and nine month comparison periods due to a higher yield earned on the underlying life insurance policies.â€¢Other income. The Company received $117 thousand in prepayment penalties from the early payoff of loans during the first quarter of 2024 that were not received during the same period of 2023.â€¢Net gains (losses) on other investments. Participants in the 2020 Amended and Restated Nonqualified Excess Plan elect to defer receipt of current compensation from the Company or its subsidiary and select designated reference investments consisting of investment funds. The performance of those funds, over which the Company has no control, resulted in net Union Bankshares, Inc. Page 34gains of $83 thousand and $211 thousand for the three and nine months ended September 30, 2024, respectively, and net losses of $41 thousand and net gains of $61 thousand for the three and nine months ended September 30, 2023, respectively.â€¢Net losses on sales of investment securities AFS. As discussed above, the Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. The sale of lower-yielding AFS debt securities with a book value of $38.5Â million was executed and recorded in August of 2024, resulting in a pre-tax realized loss on the sale of $1.3Â million.Noninterest Expenses. Salaries and wages increased $295 thousand and $447 thousand for the three and nine months ended September 30, 2024, respectively, compared to the same periods in 2023 primarily due to annual salary adjustments for the 2024 fiscal year. The increases are also attributable to the inclusion of salaries and wages for employees at our North Conway location, which became a full service branch during the fourth quarter of 2023. $110 thousand of the increase for the three and nine month comparison periods was attributable to a separation of service agreement with an employee. The increase for the nine month comparison period was partially offset by a $72 thousand accrual adjustment related to the annual incentive plan payments to select officers of Union recorded in the first quarter of 2024.â€¢Employee benefits. Employee benefit expense increased $305 thousand for the three months ended September 30, 2024 compared to the same period in 2023 primarily due to increases of $158 thousand in premium expense for the Company's medical and dental plans, $34 thousand in payroll taxes and $121 thousand in employee benefits related to the Company's deferred compensation plans. The increase of $577 thousand for the nine months ended September 30, 2024 compared to the same period in 2023 was primarily due to increases of $394 thousand in premium expense for the Company's medical and dental plans, $140 thousand in employee benefits related to the Company's deferred compensation plans and $43 thousand in payroll taxes.â€¢Occupancy expense, net. The increase in occupancy expense between the three and nine month comparison periods is primarily due to increases in depreciation expense related to leasehold improvements to the North Conway location that became a full service branch during the fourth quarter of 2023 as well as increases in repair and maintenance expenses at other locations.Union Bankshares, Inc. Page 35â€¢Equipment expense. Equipment expense increased between the three and nine month comparison periods primarily due to an increase in software license and maintenance costs associated with outsourcing Union's core application processing system that was finalized during the fourth quarter of 2023.â€¢Professional fees. Professional fees increased $69 thousand for the nine months ended September 30, 2024 compared to the same period in 2023 due to annual increases in engagement fees and additional consultants that were engaged to assist with employment searches and other consulting services in 2024. Professional fees decreased $16 thousand during the three month comparison period due to a reduction in consulting engagements during the three months ended September 30, 2024 compared to those utilized in the same period of 2023.â€¢FDIC insurance assessment. The FDIC insurance assessment increased by $29 thousand and $93 thousand during the three and nine month comparison periods, respectively, due to an increase in the assessment rate as well as overall growth in net assets. â€¢Advertising and public relations. The increase in advertising and public relations costs is primarily related to advertising campaigns and business development activities during the three and nine months ended September 30, 2024 that did not occur in 2023.â€¢Vermont franchise tax. The decrease in expense between the three and nine month comparison periods was due to the decrease in average deposit balances for customer accounts allocated to Vermont. â€¢Wealth management expenses. The increase in expense between three and nine month comparison periods is primarily attributable to the growth in managed fiduciary accounts and the associated data processing and professional services.â€¢Amortization of MSRs, net. Income from MSRs is derived from servicing rights acquired through the sale of loans on which servicing is retained. Capitalized servicing rights are initially recorded at fair value and amortized in proportion to, and over the period of, the estimated future servicing period of the underlying loans. New capitalized MSRs exceeded amortization of MSRs for the three months ended September 30, 2024 resulting in net income of $45 thousand, while amortization of MSRs exceeded new capitalized MSRs resulting in net expense of $57 thousand for the nine months ended September 30, 2024, and net expenses of $47 thousand and $248 thousand for the three and nine months ended September 30, 2023, respectively.â€¢ATM and debit card expense. The increase between the nine month comparison period is primarily related to the costs associated with outsourcing Union's core application processing system that was finalized during the fourth quarter of 2023 as well as costs associated with a change in the servicing arrangement in place for the ATM machines. During the third quarter of 2024, debit card processing contract renewal incentive credits were received, resulting in a decrease in expense for the three months ended September 30, 2024 compared to 2023.â€¢Donations. Charitable donations are made as part of the Company's on-going commitment to enhancing the economic vitality and social welfare of our communities. Donations increased between the nine month comparison period primarily due to contributions made during the first half of 2024 related to a state tax credit program to assist a local affordable housing project and local non-profit rehabilitation projects. The decrease between the three month comparison periods is primarily due to increased contributions made in 2023 to assist communities with recovery efforts related to the July 2023 historic flood that occurred in the State of Vermont.â€¢Legal expense. The decrease in legal expense of $32 thousand between the three month comparison period primarily relates to the recovery of legal fees expensed in prior years that were reimbursed by borrowers in 2024.â€¢Communications. The decrease in communication expense between the three and nine month comparison periods is due to a change in the communication services arrangement for ATM machines in 2024 compared to 2023.(Benefit) Provision for Income Taxes. The Company has provided for current and deferred federal income taxes for the three and nine months ended September 30, 2024 and 2023. The income tax benefit related to the balance sheet repositioning transaction and the resulting loss on the sale of AFS debt securities recorded in August 2024 was $284 thousand and was the primary cause for the Company's overall net benefit for income taxes of $123 thousand for the three months ended September 30, 2024 compared to the net provision for income taxes of $296 thousand for the same period in 2023. This resulted in an effective federal corporate income tax benefit rate of 10.4% for the three months ended September 30, 2024 compared to an effective federal corporate income tax rate of 10.8% for the same period in 2023.The Company's net provision for income taxes was $103 thousand for the nine months ended September 30, 2024, compared to $1.2 million for the same period in 2023, reflecting lower net income and a higher proportion of tax-exempt income year over year, as well as the impact of limited partnership investments and related credits, discussed below. The Company's effective federal corporate income tax rate was 2.9% for the nine months ended September 30, 2024, compared to 12.9% for the same period in 2023.Union Bankshares, Inc. Page 36Amortization expense related to limited partnership investments is included as a component of income tax expense and amounted to $440Â thousand and $1.3 million for the three and nine months ended September 30, 2024, respectively, compared to $363Â thousand and $1.0 million for the same period in 2023, respectively. These investments provide tax benefits, including tax credits. Low income housing and rehabilitation tax credits with respect to limited partnership investments are also included as a component of income tax expense and amounted to $467Â thousand and $1.4 million for the three and nine months ended September 30, 2024, respectively, and $358Â thousand and $1.1 million the three and nine months ended September 30, 2023, respectively.FINANCIAL CONDITIONAt SeptemberÂ 30, 2024, the Company had total consolidated assets of $1.52 billion, including gross loans and loans held for sale (total loans) of $1.13 billion, investment securities AFS of $244.9 million, deposits of $1.17 billion, borrowed funds of $240.7 million, subordinated notes of $16.3 million and stockholders' equity of $72.3 million. The Companyâ€™s total assets at SeptemberÂ 30, 2024 increased $50.6 million, or 3.4%, from $1.47 billion at DecemberÂ 31, 2023, and increased $123.9 million, or 8.9%, compared to SeptemberÂ 30, 2023.Federal funds sold and overnight deposits decreased $30.4 million, or 41.6%, to $42.8 million as of SeptemberÂ 30, 2024, from $73.2 million at DecemberÂ 31, 2023.Net loans and loans held for sale increased $94.0 million, or 9.2%, to $1.12 billion, representing 73.7% of total assets at SeptemberÂ 30, 2024, compared to $1.03 billion, or 69.9% of total assets at DecemberÂ 31, 2023. (See Loans Held for Sale and Loan Portfolio below.)Total deposits decreased $132.3 million, or 10.1%, to $1.17 billion at SeptemberÂ 30, 2024, from $1.31 billion at DecemberÂ 31, 2023. Noninterest bearing deposits decreased by $17.2 million, or 6.9%, interest bearing deposits decreased by $122.1 million, or 15.9%, and time deposits increased by $7.0 million, or 2.4%. (See Deposits on page 41.)Borrowed funds at SeptemberÂ 30, 2024 were $240.7 million and consisted of $230.7 million of FHLB advances and $10.0 million of borrowings from the FRB. Borrowed funds at DecemberÂ 31, 2023 were $65.7 million and consisted of $55.7 million of FHLB advances and $10.0 million of borrowings from the FRB. (See Borrowings on page 42.)Stockholdersâ€™ equity increased from $65.8 million at DecemberÂ 31, 2023 to $72.3 million at SeptemberÂ 30, 2024, reflecting a decrease of $5.1 million in accumulated other comprehensive loss due to an increase in the fair market value of the Company's AFS investment securities, net income of $5.8 million for the first nine months of 2024, an increase of $442 thousand in additional paid in capital from the vesting of stock based compensation, and a $50 thousand increase due to the issuance of common stock under the DRIP, partially offset by cash dividends declared of $4.9 million. (See Capital Resources on page 44.)Loans Held for Sale and Loan Portfolio. Total loans (including loans held for sale) increased $94.6 million, or 9.2%, to $1.13 billion, representing 74.1% of assets at SeptemberÂ 30, 2024, from $1.03 billion, representing 70.2% of assets at DecemberÂ 31, 2023. The total loan portfolio at SeptemberÂ 30, 2024 increased $97.9 million compared to the SeptemberÂ 30, 2023 level of $1.03 billion, which represented 73.7% of assets. The Companyâ€™s loans consist primarily of adjustable-rate and fixed-rate mortgage loans secured by one-to-four family, multi-family residential or commercial real estate. Real estate secured loans represented $982.5 million, or 87.3% of total loans at SeptemberÂ 30, 2024 and $911.5 million, or 88.4% of total loans at DecemberÂ 31, 2023. The net change in the Company's loan portfolio from DecemberÂ 31, 2023 (see table below) resulted primarily from an increase in the volume of residential, municipal, commercial construction and commercial real estate loans originated.Union Bankshares, Inc. At SeptemberÂ 30, 2024, the Company serviced a $1.13 billion residential real estate mortgage portfolio, of which $8.4 million was held for sale and approximately $671.7 million of which was serviced for unaffiliated third parties.The Company sold $76.1 million of qualified residential real estate loans to the secondary market during the first nine months of 2024 compared to sales of $54.2 million during the first nine months of 2023. Residential mortgage loan origination activity was strong throughout 2024. Despite low housing inventory and higher interest rates, purchase activity in the Company's markets is stable, with continued construction loan activity.The Company also originates commercial real estate and commercial loans under various SBA, USDA and State sponsored programs which provide a government agency guaranty for a portion of the loan amount. There was $2.2 million guaranteed under these various programs at SeptemberÂ 30, 2024 on an aggregate balance of $2.8 million in subject loans.The Company serviced $30.1 million of commercial and commercial real estate loans for unaffiliated third parties as of SeptemberÂ 30, 2024. This included $29.1 million of commercial or commercial real estate loans the Company originated and participated out to other financial institutions. These loans were participated in the ordinary course of business on a nonrecourse basis, for liquidity or credit concentration management purposes. The Company capitalizes MSRs for all loans sold with servicing retained. The unamortized balance of MSRs on loans sold with servicing retained was $1.7 million at SeptemberÂ 30, 2024, with an estimated market value in excess of the carrying value as of such date. Management periodically evaluates and measures the servicing assets for impairment.Qualifying residential first lien mortgage loans and certain commercial real estate loans with a combined carrying value of $381.1 million were pledged as collateral for borrowings from the FHLB under a blanket lien at SeptemberÂ 30, 2024.Asset Quality. The Company, like all financial institutions, is exposed to certain credit risks, including those related to the value of the collateral that secures its loans and the ability of borrowers to repay their loans. Consistent application of the Companyâ€™s conservative loan policies has helped to mitigate this risk and has been prudent for both the Company and its customers. Management closely monitors the Companyâ€™s loan and investment portfolios, OREO and OAO for potential problems and reports to the Companyâ€™s and Unionâ€™s Board at regularly scheduled meetings. Board approved policies set forth portfolio diversification levels to mitigate concentration risk and the Company participates large credits out to other financial institutions to further mitigate that risk.Union Bankshares, Inc. The aggregate interest income not recognized on nonaccrual loans approximated $212 thousand as of SeptemberÂ 30, 2024 and $143 thousand as of DecemberÂ 31, 2023.The Company had loans rated substandard that were on performing status totaling $777 thousand and $1.2 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. In management's view, substandard loans represent a higher degree of risk of becoming nonperforming loans in the future.Allowance for Credit Losses on Loans. Some of the Companyâ€™s loan customers ultimately do not make all of their contractually scheduled payments, requiring the Company to charge off a portion or all of the remaining principal balance due. Union Bankshares, Inc. Page 39The Company maintains an ACL to absorb such losses. The level of the ACL on loans at SeptemberÂ 30, 2024 represents management's estimate of expected credit losses over the expected life of the loans at the balance sheet date. The Company's policy and methodologies for establishing the ACL on loans, described in the Company's 2023 Annual Report did not change during the first nine months of 2024. The Company's ACL on loans was $7.4 million and $6.6 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.The following table reflects activity in the ACL on loans for the three and nine months ended September 30, 2024 and 2023:Â For the Three MonthsEnded September 30,For the Nine MonthsEnded September 30,Â 2024202320242023Â (Dollars in thousands)Balance at beginning of period$6,893Â $6,780Â $6,566Â $8,339Â Impact of adoption of ASU No. 2016-13â€”Â â€”Â â€”Â (1,495)Charge-offs(1)(4)(2)(8)Recoveries6Â 3Â 18Â 4Â Net recoveries (charge-offs)5Â (1)16Â (4)Credit loss expense468Â 116Â 784Â 55Â Balance at end of period$7,366Â $6,895Â $7,366Â $6,895Â The following table (net of loans held for sale) shows the internal breakdown by risk component of the Company's ACL on loans and the percentage of loans in each category to total loans in the respective portfolios at the dates indicated:Â September 30, 2024December 31, 2023Â AmountPercentAmountPercentResidential real estate(Dollars in thousands)Non-revolving residential real estate$3,073Â 38.2Â $2,361Â 38.6Â Revolving residential real estate273Â 1.9Â 159Â 1.8Â Construction real estateCommercial construction real estate684Â 5.3Â 1,035Â 3.6Â Residential construction real estate99Â 4.6Â 163Â 5.0Â Commercial real estateNon-residential commercial real estate2,642Â 28.0Â 2,182Â 29.0Â Multi-family residential real estate209Â 9.2Â 244Â 10.2Â Commercial298Â 3.5Â 352Â 4.0Â Consumer6Â 0.1Â 5Â 0.3Â Municipal82Â 9.2Â 65Â 7.5Â Total$7,366Â 100.0Â $6,566Â 100.0Â Notwithstanding the categories shown in the table above or any specific allocation under the Company's ACL methodology, all funds in the ACL on loans are available to absorb loan losses in the portfolio, regardless of loan category or specific allocation.Management believes, in its best estimate, that the ACL on loans at SeptemberÂ 30, 2024 is appropriate to cover expected credit losses over the expected life of the Companyâ€™s loan portfolio as of such date. However, there can be no assurance that the Company will not sustain losses in future periods which could be greater than the size of the ACL on loans at SeptemberÂ 30, 2024. In addition, our banking regulators, as an integral part of their examination process, periodically review our ACL. Such agencies may require us to recognize adjustments to the ACL based on their judgments about information available to them at the time of their examination. A large adjustment to the ACL on loans for losses in future periods could require increased credit loss expense to replenish the ACL on loans, which could negatively affect earnings.Investment Activities. The Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. This transaction consisted of the sale of lower-yielding AFS debt securities with a book value of $38.5Â million, resulting in a pre-tax realized loss on the sale of $1.3Â million, which was recorded in August of 2024. $26.0Â million of the proceeds from the sale of these securities were used to purchase AFS debt securities at higher yields to improve income going forward, and the remainder was used to fund loan growth.Union Bankshares, Inc. Page 40The Company's investment securities classified as AFS, which are carried at fair value, decreased $19.4 million to $244.9 million, comprising 16.1% of total assets, compared to $264.4 million, or 18.0% of total assets, at DecemberÂ 31, 2023. The decrease between periods is due to the sale of securities with a book value of $38.5Â million and returns of principal of $14.3 million, partially offset by $27.3 million of securities purchased and a decrease in unrealized losses of $6.6 million.Net unrealized losses in the Companyâ€™s AFS investment securities portfolio were $34.4 million as of SeptemberÂ 30, 2024, compared to net unrealized losses of $41.0 million as of DecemberÂ 31, 2023. The Companyâ€™s Accumulated OCI component of stockholdersâ€™ equity at SeptemberÂ 30, 2024 reflected cumulative net unrealized losses on investment securities of $26.8 million. There were no securities classified as HTM at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. The decrease in unrealized losses is primarily attributable improvement in the market values of securities. No declines in value were deemed by management to be impairment related to credit losses at SeptemberÂ 30, 2024. Deterioration in credit quality and/or imbalances in liquidity that may result from changes in financial market conditions might adversely affect the fair values of the Companyâ€™s investment portfolio and the amount of gains or losses ultimately realized on the sale of such securities and may also increase the potential that credit losses may be identified in future periods, resulting in credit loss expense recorded in earnings.Investment securities AFS with a carrying amount of $92.5 million and $926 thousand were pledged as collateral for FHLB borrowings and other credit subject to collateralization, public unit deposits or for other purposes as required or permitted by law at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. Investment securities AFS pledged as collateral for the Discount Window and Bank Term Funding Program (BTFP) borrowings at the Federal Reserve Bank (FRB) consisted of U.S. Government-sponsored enterprises and Agency MBS securities with a fair value of $21.5 million and $8.9 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.Deposits. The average balance of total nontime deposits decreased $79.5 million between periods primarily due to decreases of $23.6 million in noninterest bearing deposits, $23.9 million in savings accounts, $24.0 million in interest bearing checking accounts, and $8.0 million in money market accounts. The decrease in average noninterest bearing deposits is primarily attributable to the maturity and the early payoff of purchased nonreciprocal ICS deposits from IntraFi during the first quarter of 2024. The decreases in the other categories are attributable to customers spending down deposit balances, the loss of deposit dollars to competing financial institutions and brokerage firms, and customers shifting monies into time deposits as they continue to seek higher yields. The average balance in total time deposits increased $37.5 million between periods due to an increase of $49.7 million in average customer time deposit accounts as customers took advantage of higher rate paying CDs, partially offset by a $12.2 million decrease in average retail brokered deposits. The Company participates in CDARS, which permits it to offer full deposit insurance coverage to its customers by exchanging deposit balances with other CDARS participants. CDARS also provides the Company with an additional source of funding and liquidity through the purchase of deposits. There were no purchased CDARS at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. There were $14.1 million and $11.7 million of time deposits of $250,000 or less on the balance sheet at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, which were exchanged with other CDARS participants.The Company also participates in the ICS program, a service through which it can offer its customers demand or savings deposit products with access to unlimited FDIC insurance, while receiving reciprocal deposits from other FDIC-insured banks. Union Bankshares, Inc. Page 41Like the exchange of certificate of deposit accounts through CDARS, exchange of demand or savings deposits through ICS provides a depositor with full deposit insurance coverage of excess balances, thereby helping the Company retain the full amount of the deposit on its balance sheet. As with the CDARS program, in addition to reciprocal deposits, participating banks may also purchase one-way ICS deposits. There were $171.0 million and $232.6 million in exchanged ICS demand and money market deposits on the balance sheet at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. There were no purchased ICS deposits at SeptemberÂ 30, 2024, however, there were $50.2 million in purchased ICS deposits at DecemberÂ 31, 2023.At SeptemberÂ 30, 2024 there were $80.0 million of retail brokered deposits at a weighted average rate of 5.06% issued under a master certificate of deposit program with a deposit broker for six month terms for the purpose of providing a supplemental source of funding and liquidity. There were $103.0 million of retail brokered deposits at DecemberÂ 31, 2023 at a weighted average rate of 5.07%.Uninsured deposits have been estimated to include deposits with balances greater than the FDIC insurance coverage limit of $250 thousand. This estimate by management is based on the same methodologies and assumptions used for regulatory reporting requirements. At SeptemberÂ 30, 2024, the Company had total estimated uninsured deposit accounts totaling $406.1 million, or 34.6% of total deposits. Uninsured deposits include $23.4 million of municipal deposits that were collateralized under applicable state regulations by investment securities or letters of credit issued by the FHLB at SeptemberÂ 30, 2024, as described below under Borrowings.The following table provides a maturity distribution of the Companyâ€™s time deposits in amounts in excess of the $250 thousand FDIC insurance limit at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:September 30, 2024December 31, 2023Â (Dollars in thousands)Within 3 months$16,140Â $11,512Â 3 to 6 months24,497Â 10,800Â 6 to 12 months14,584Â 19,872Â Over 12 months867Â 622Â Â $56,088Â $42,806Â Borrowings. Advances from the FHLB are another key source of funds to support earning assets. These funds are also used to manage the Bank's interest rate and liquidity risk exposures. Borrowed funds included FHLB advances of $230.7 million with a weighted average rate of 4.13% at SeptemberÂ 30, 2024 and $55.7 million with a weighted average rate of 3.68% at DecemberÂ 31, 2023. Union is required to invest in $100 par value stock of the FHLB in an amount to satisfy unpaid principal balances on qualifying loans, plus an amount to satisfy an activity based requirement. The stock is nonmarketable, and is redeemable by the FHLB at par value. With the increase in FHLB advances outstanding, the investment in FHLB Class B common stock has increased to $10.4 million at SeptemberÂ 30, 2024 compared to $3.1 million at DecemberÂ 31, 2023. Union's investment in FHLB stock is carried at cost in Other assets on the consolidated balance sheets. The Company has the authority, up to its available borrowing capacity with the FHLB, to collateralize public unit deposits with letters of credit issued by the FHLB. FHLB letters of credit in the amount of $43.7 million and $42.4 million were utilized as collateral for these deposits at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The Company's reimbursement obligations to the FHLB relating to these letters of credit are secured by pledged collateral, which reduces the Company's available borrowing capacity with the FHLB. Total fees paid by the Company in connection with the issuance of these letters of credit were $12Â thousand and $34Â thousand for the three and nine months ended September 30, 2024, respectively, and $11Â thousand and $34Â thousand the three and nine months ended September 30, 2023, respectively.In March 2023, the FRB created the BTFP, a temporary program to provide an additional source of liquidity funding to U.S. depository institutions. Advances under this program are secured by qualifying investment assets consisting of eligible U.S. Government-sponsored enterprises and Agency MBS securities valued at par. At SeptemberÂ 30, 2024 the Company had outstanding BTFP advances of $10.0 million with a weighted average rate of 4.76% and $10.0 million with a weighted average rate of 4.85% at DecemberÂ 31, 2023. The FRB ceased making new loans under this program on March 11, 2024.In August 2021, the Company completed the private placement of $16.5Â million in aggregate principal amount of fixed-to-floating rate subordinated notes due 2031 to certain qualified institutional buyers and accredited investors. The Notes initially bear interest, payable semi-annually, at the rate of 3.25% per annum, until September 1, 2026. From and including September 1, 2026, the interest rate applicable to the outstanding principal amount due will reset quarterly to the then current three-month secured overnight financing rate (SOFR) plus 263 basis points. The Notes are presented in the consolidated balance sheets net of unamortized issuance costs of $236Â thousand and $261Â thousand at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.Union Bankshares, Inc. Page 42Commitments, Contingent Liabilities, and Off-Balance-Sheet Arrangements. The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers, to reduce its own exposure to fluctuations in interest rates and to implement its strategic objectives. These financial instruments include commitments to extend credit, standby letters of credit, interest rate caps and floors written on adjustable-rate loans, commitments to participate in or sell loans, commitments to buy or sell securities, certificates of deposit or other investment instruments and risk-sharing commitments or guarantees on certain sold loans. Such instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized on the balance sheet. The contractual or notional amounts of these instruments reflect the extent of involvement the Company has in a particular class of financial instruments.The Company's maximum exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. For interest rate caps and floors written on adjustable-rate loans, the contractual or notional amounts do not represent the Companyâ€™s exposure to credit loss. The Company controls the risk of interest rate cap agreements through credit approvals, borrowing limits, and monitoring procedures. The Company generally requires collateral or other security to support financial instruments with credit risk.The following table details the contractual or notional amount of financial instruments that represented credit risk at the balance sheet dates:September 30, 2024December 31, 2023Â (Dollars in thousands)Commitments to originate loans$66,531Â $35,193Â Unused lines of credit189,264Â 192,104Â Standby and commercial letters of credit1,509Â 1,557Â Credit card arrangements144Â 157Â FHLB Mortgage Partnership Finance credit enhancement obligation, net809Â 744Â Total$258,257Â $229,755Â Commitments to originate loans are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Loan commitments generally have a fixed expiration date or other termination clause and may require payment of a fee. Since many of the loan commitments are expected to expire without being drawn upon and not all credit lines will be utilized, the total commitment amounts do not necessarily represent future cash requirements. Lines of credit incur seasonal volume fluctuations due to the nature of some customers' businesses, such as tourism. The increase in commitments to originate loans at SeptemberÂ 30, 2024 from DecemberÂ 31, 2023 is primarily the related to an increase in commercial construction loan commitments of $19.6 million and municipal loan commitments of $10.3 million between periods.The Company did not hold any derivative or hedging instruments at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023.In addition to commitments with credit risks arising from the Companyâ€™s financial instruments, in the normal course of business the Company enters into other types of contractual arrangements from time to time that represent off-balance sheet commitments such as contracts for the purchase or lease of property, including real property for its banking premises.The Company records an ACL on off-balance sheet credit exposures through a charge or credit to Credit loss expense (benefit) on the consolidated statements of income to account for the change in the ACL on off-balance sheet exposures between reporting periods. The ACL on off-balance sheet credit exposures totaled $1.0 million and $1.2 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and was included in Accrued interest and other liabilities on the consolidated balance sheets. There was $43Â thousand and $201Â thousand of credit loss benefit for off-balance sheet credit exposures recorded for the three and nine months ended September 30, 2024, respectively and $255Â thousand and $216Â thousand of credit loss benefit recorded for the three and nine months ended September 30, 2023, respectively.Liquidity. Liquidity is a measurement of the Companyâ€™s ability to meet potential cash requirements, including ongoing commitments to fund deposit withdrawals, repay borrowings, fund investment and lending activities, purchase and lease commitments, and for other general business purposes. The primary objective of liquidity management is to maintain a

balance between sources and uses of funds to meet our cash flow needs in the most economical and expedient manner. The Companyâ€™s principal sources of funds are deposits; whole-sale funding options including purchased deposits, amortization, prepayment and maturity of loans, investment securities, interest bearing deposits and other short-term investments; sales of securities and loans AFS; earnings; and funds provided from operations. Contractual principal repayments on loans have been a relatively predictable source of funds. Deposit flows and loan and investment prepayments are less predictable and can be significantly Union Bankshares, Inc. Page 43influenced by market interest rates, economic conditions, and rates offered by our competitors. Managing liquidity risk is essential to maintaining both depositor confidence and earnings stability.As of SeptemberÂ 30, 2024, Union, as a member of FHLB, had access to unused lines of credit up to $34.8Â million over and above the $276.5Â million in combined outstanding FHLB borrowings and other credit, subject to collateralization and to the purchase of required FHLB Class B common stock and evaluation by the FHLB of the underlying collateral available. This line of credit can be used for either short-term or long-term liquidity or other funding needs.Union also maintains an IDEAL Way Line of Credit with the FHLB. The total line available was $551Â thousand at SeptemberÂ 30, 2024. There were no borrowings against this line of credit as of such date. Interest on this line is chargeable at a rate determined by the FHLB and payable monthly. Should Union utilize this line of credit, qualified portions of the loan and investment portfolios would collateralize these borrowings.In addition to its borrowing arrangements with the FHLB, Union maintains a pre-approved federal funds line of credit totaling $15.0Â million with an upstream correspondent bank, a master brokered deposit agreement with a brokerage firm, and one-way buy options with CDARS and ICS. At SeptemberÂ 30, 2024, there were $80.0 million in retail brokered deposits issued under a master certificate of deposit program with a broker, and there were no purchased ICS or CDARS deposits, and no outstanding advances on the correspondent line.In response to high profile bank failures in 2023, the Federal Reserve created the BTFP to provide liquidity to U.S. Depository institutions which allowed any federally insured depository institution to pledge as collateral investment securities at par, rather than at fair market value. At SeptemberÂ 30, 2024, the Company had outstanding BTFP advances of $10.0 million. As of March 11, 2024, the BTFP ceased making new advances. Union's investment and residential loan portfolios also provide a significant amount of contingent liquidity that could be accessed in a reasonable time period through sales of those portfolios. Additional contingent liquidity sources are available with further access to the brokered deposit market. These sources are considered as liquidity alternatives in our contingent liquidity plan. Management believes the Company has sufficient liquidity to meet all reasonable borrower, depositor, and creditor needs in the present economic environment. However, any projections of future cash needs and flows are subject to substantial uncertainty, including factors outside the Company's control.Capital Resources. Capital management is designed to maintain an optimum level of capital in a cost-effective structure that meets target regulatory ratios, supports managementâ€™s internal assessment of economic capital, funds the Companyâ€™s business strategies and builds long-term stockholder value. Dividends are generally in line with long-term trends in earnings per share and conservative earnings projections, while sufficient profits are retained to support anticipated business growth, fund strategic investments, maintain required regulatory capital levels and provide continued support for deposits. The Company continues to evaluate growth opportunities both through internal growth or potential acquisitions.In August 2021, the Company completed the private placement of $16.5Â million in aggregate principal amount of fixed-to-floating rate subordinated notes due 2031 to certain qualified institutional buyers and accredited investors. The Notes are structured to qualify as Tier 2 capital for the Company under regulatory capital guidelines for bank holding companies. Proceeds from the sale of the Notes were utilized primarily to provide additional Tier 1 capital to Union to support its growth and for other general corporate purposes.Stockholdersâ€™ equity increased from $65.8 million at DecemberÂ 31, 2023 to $72.3 million at SeptemberÂ 30, 2024, reflecting an improvement of $5.1 million in accumulated other comprehensive loss due to an increase in the fair market value of the Company's AFS investment securities, net income of $5.8 million for the first nine months of 2024, an increase of $442 thousand in additional paid in capital from the vesting of stock based compensation, and a $50 thousand increase due to the issuance of common stock under the DRIP. These increases were partially offset by cash dividends declared of $4.9 million during the nine months ended September 30, 2024. The components of other comprehensive loss are illustrated in Note 10 of the unaudited consolidated financial statements.The Company has 7,500,000 shares of $2.00 par value common stock authorized. As of SeptemberÂ 30, 2024, the Company had 4,999,220 shares issued, of which 4,524,550 were outstanding and 474,670 were held in treasury.In December 2023, the Company's Board reauthorized for 2024 the limited stock repurchase plan that was initially established in May of 2010. The limited stock repurchase plan allows the repurchase of up to a fixed number of shares of the Company's common stock each calendar quarter in open market purchases or privately negotiated transactions, as management deems advisable and as market conditions may warrant. The repurchase authorization for a calendar quarter (currently 2,500 shares) expires at the end of that quarter to the extent it has not been exercised, and is not carried forward into future quarters. The quarterly repurchase authorization expires on December 31, 2024, unless reauthorized. The Company had no repurchases under this program during the first nine months of 2024.Union Bankshares, Inc. Page 44The Company maintains a DRIP whereby registered stockholders may elect to reinvest cash dividends and make optional cash contributions to purchase additional shares of the Company's common stock. The Company has reserved 200,000 shares of its common stock for issuance and sale under the DRIP. As of SeptemberÂ 30, 2024, 12,579 shares of stock had been issued from treasury stock under the DRIP.The Company (on a consolidated basis) and Union are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Company's and Union's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and Union must meet specific capital guidelines that involve quantitative measures of assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Company's and Union's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. Under the standard regulatory capital guidelines, banking organizations must have a minimum total risk-based capital ratio of 8.0%, a minimum Tier I risk-based capital ratio of 6.0%, a minimum common equity Tier I risk-based capital ratio of 4.5%, and a minimum leverage ratio of 4.0% in order to be "adequately capitalized." In addition to these requirements, banking organizations must maintain a 2.5% capital conservation buffer consisting of common Tier I equity, increasing the minimum required total risk-based capital, Tier I risk-based and common equity Tier I capital to risk-weighted assets they must maintain to avoid limits on capital distributions and certain bonus payments to executive officers and similar employees.As shown in the table below, as of SeptemberÂ 30, 2024, both the Company and Union met all capital adequacy requirements to which they are subject and Union exceeded the requirements for a "well capitalized" bank under the FDIC's Prompt Corrective Action framework. There were no conditions or events between SeptemberÂ 30, 2024 and the date of this report that management believes have changed either companyâ€™s regulatory capital category.Â ActualFor Capital Adequacy PurposesTo Be Well Capitalized Under Prompt Corrective Action ProvisionsAs of September 30, 2024AmountRatioAmountRatioAmountRatioÂ (Dollars in thousands)Company:Total capital to risk weighted assets$121,571Â 12.77Â %$76,160Â 8.00Â %N/AN/ATier I capital to risk weighted assets96,909Â 10.18Â %57,117Â 6.00Â %N/AN/ACommon Equity Tier 1 to risk weighted assets96,909Â 10.18Â %42,838Â 4.50Â %N/AN/ATier I capital to average assets96,909Â 6.40Â %60,568Â 4.00Â %N/AN/AUnion:Total capital to risk weighted assets$121,134Â 12.73Â %$76,125Â 8.00Â %$95,156Â 10.00Â %Tier I capital to risk weighted assets112,736Â 11.85Â %57,082Â 6.00Â %76,109Â 8.00Â %Common Equity Tier 1 to risk weighted assets112,736Â 11.85Â %42,811Â 4.50Â %61,838Â 6.50Â %Tier I capital to average assets112,736Â 7.44Â %60,611Â 4.00Â %75,763Â 5.00Â %Dividends paid by Union are the primary source of funds available to the Company for payment of dividends to its stockholders. Union is subject to certain requirements imposed by federal banking laws and regulations, which among other things, establish minimum levels of capital and restrict the amount of dividends that may be distributed by Union to the Company.Quarterly cash dividends of $0.36 per share were paid during the third quarter of 2024 and were declared in October for the fourth quarter, payable on NovemberÂ 7, 2024 to stockholders of record on OctoberÂ 26, 2024.Item 3. Quantitative and Qualitative Disclosures About Market Risk.Omitted, in accordance with the regulatory relief available to smaller reporting companies in SEC Release Nos. 33-10513 (effective September 10, 2018).Item 4. Controls and Procedures.Evaluation of Disclosure Controls and Procedures. The Companyâ€™s Chief Executive Officer and Chief Financial Officer, with the assistance of the Disclosure Control Committee, evaluated the effectiveness of the design and operation of the Union Bankshares, Inc. Page 45Companyâ€™s disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of SeptemberÂ 30, 2024. Based on this evaluation they concluded that those disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commissionâ€™s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files with the Commission is accumulated and communicated to the Companyâ€™s management, including its principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required information.Changes in Internal Controls over Financial Reporting. There was no change in the Company's internal control over financial reporting, as defined in Rule 13a-15(f) of the Exchange Act, during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.PART II Â OTHER INFORMATIONItem 1. Legal Proceedings.In the normal course of business, the Company is involved in various legal and other proceedings. In the opinion of management, any liability resulting from such proceedings is not expected to have a material adverse effect on the Companyâ€™s consolidated financial condition or results of operations.Item 1A. Risk FactorsThere have been no material changes in the risk factors discussed in Part I-Item 1A, "Risk Factors" in the Companyâ€™s 2023 Annual Report since the date of the filing of that report.Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.The Company did not issue any unregistered shares during the quarter ended SeptemberÂ 30, 2024.There were no repurchases of the Company's equity securities during the quarter ended SeptemberÂ 30, 2024.Item 6. The ASU provides optional expedients and exceptions for applying GAAP to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. It is intended to help stakeholders during the global market-wide reference rate transition period. The guidance is effective for all entities as of March 12, 2020 through December 31, 2024. The transition away from LIBOR is not expected to have a material impact on the Company's consolidated financial statements.In March 2023, the FASB issued ASU No. 2023-02, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method. ASU No. 2014-01, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects, previously introduced the option to apply the proportional amortization method to account for investments made primarily for the purpose of receiving income tax credits and other income tax benefits when certain requirements are met; however, this guidance limited the proportional amortization method to investments in low-income-housing tax credit (LIHTC) structures. The proportional amortization method results in the cost of the investment being amortized in proportion to the income tax credits and other income tax benefits received, with the amortization of the investment and the income tax credits being presented net in the income statement as a component of income tax expense (benefit). Equity investments in other tax credit structures are typically accounted for using the equity method, which results in investment income, gains and losses, and tax credits being presented gross on the income statement in their respective line items. The amendments in this update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. The amendments in this update are effective for the Company for fiscal years beginning after December 31, 2023, including interim periods within those fiscal years. The Company adopted this ASU as of January 1, 2024 and it did not have a material impact on the Company's consolidated financial statements. For AFS debt securities in an unrealized loss position, management first assesses whether it intends to sell, or it is more likely than not that the Company will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the securityâ€™s amortized cost basis is written down to fair value through earnings. For AFS debt securities that do not meet the above criteria, management evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security and the issuer, among other factors. If this assessment indicates that a credit loss exists, management compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an ACL is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. For AFS debt securities, any decline in fair value that has not been recorded through an ACL is recognized in other comprehensive income (loss), net of applicable taxes.No ACL for AFS debt securities was recorded at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. Accrued interest receivable on AFS debt securities totaled $836Â thousand and $1.4Â million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is excluded from the estimate of credit losses.The Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. The sale of lower-yielding AFS debt securities with a book value of $38.5Â million was executed and recorded in August of 2024. The proceeds from the sale of these securities were used to purchase $26.0Â million of AFS debt securities at higher yields to improve income going forward, and the remainder was used to fund loan growth.The following table presents the proceeds resulting in gross realized gains and gross realized losses from the sale of AFS debt securities for the three and nine months ended September 30, 2024 and 2023:For The Three Months Ended September 30,For the Nine Months Ended September 30,20242023202420232023(Dollars in thousands)Proceeds from sales$37,218Â $â€”Â $37,218Â $â€”Â Gross gains218Â â€”Â 218Â â€”Â Gross losses(1,511)â€”Â (1,511)â€”Â Net losses on sales of investment securities AFS$(1,293)$â€”Â $(1,293)$â€”Â X - ReferencesNo definition available. + Details Name: us-gaap_InvestmentsDebtAndEquitySecuritiesAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for investments in certain debt and equity securities. + ReferencesReference 1: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 940 -SubTopic 320 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/940-320/tableOfContentReference 2: http://www.xbrl.org/2003/role/disclosureRef -Name Regulation S-K (SK) -Number 229 -Section 1403 -Paragraph b -Publisher SECReference 3: http://www.xbrl.org/2003/role/disclosureRef -Topic 320 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/320/tableOfContentReference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 320 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 10 -Subparagraph (d) -Publisher FASB -URI https://asc.fasb.org/1943274/2147481800/320-10-50-10Reference 5: http://www.xbrl.org/2003/role/disclosureRef -Topic 820 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 6B -Subparagraph (b) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482106/820-10-50-6BReference 6: http://www.xbrl.org/2003/role/disclosureRef -Topic 820 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 6B -Subparagraph (c) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482106/820-10-50-6BReference 7: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 942 -SubTopic 320 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/942-320/tableOfContent + Details Name: us-gaap_InvestmentsInDebtAndMarketableEquitySecuritiesAndCertainTradingAssetsDisclosureTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration XML 25 R14.htm IDEA: XBRL DOCUMENT v3.24.3 Loans 9 Months Ended Sep. 30, 2024 Receivables [Abstract] Â Loans LoansLoans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their unpaid principal balances, adjusted for any charge-offs, the ACL, and any deferred fees or costs on originated loans and unamortized premiums or discounts on purchased loans.Loan interest income is accrued daily on outstanding balances. The following accounting policies, related to accrual and nonaccrual loans, apply to all portfolio segments and loan classes, which the Company considers to be the same. The accrual of interest is normally discontinued when a loan is specifically determined to be impaired and/or management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful. In general, loans that are 90 days or more past due are placed in nonaccrual, unless there are circumstances that cause management to believe the collection of interest is not doubtful. Generally, any unpaid interest previously accrued on those loans is reversed against current period interest income. A loan may be restored to accrual status when its financial status has significantly improved and there is no principal or interest past due. A loan may also be restored to accrual status if the borrower makes six consecutive monthly payments or the lump sum equivalent. Income on nonaccrual loans is generally not recognized unless a loan is returned to accrual status or after all principal has been collected. Interest payments received on such loans are generally applied as a reduction of the loan principal balance. Delinquency status is determined based on contractual terms for all portfolio segments and loan classes. Loans past due 30 days or more are considered delinquent. Loans are considered in process of foreclosure when a judgment of foreclosure has been issued by the court.Loan origination fees and direct loan origination costs are deferred and amortized as an adjustment of the related loan's yield using methods that approximate the interest method. The Company generally amortizes these amounts over the estimated average life of the related loans.The Company evaluates the risk characteristics of its loans based on regulatory call report code with segmentation based on the underlying collateral or purpose for certain loan types.The composition of Net loans as of the balance sheet dates, by regulatory call report code segmentation based on underlying collateral or purpose for certain loan types, was as follows:September 30,2024December 31,2023Residential real estate(Dollars in thousands)Non-revolving residential real estate$426,797Â $397,409Â Revolving residential real estate21,347Â 18,902Â Construction real estateCommercial construction real estate59,133Â 36,973Â Residential construction real estate51,141Â 51,662Â Commercial real estateNon-residential commercial real estate313,393Â 298,148Â Multi-family residential real estate102,253Â 105,344Â Commercial38,603Â 40,448Â Consumer2,162Â 2,589Â Municipal102,632Â 76,795Â Â Â Â Â Â Gross loans1,117,461Â 1,028,270Â ACL on loans(7,366)(6,566)Net deferred loan costs2,019Â 1,752Â Â Â Â Â Net loans$1,112,114Â $1,023,456Â Qualifying residential first mortgage loans and certain commercial real estate loans with an aggregate carrying value of $381.1 million and $343.7 million were pledged as collateral for borrowings from the FHLB under a blanket lien at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.Accrued interest receivable on loans totaled $4.1Â million and $4.0Â million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is excluded from the estimate of credit losses described in Note 7. For all loan segments, loan losses are charged against the ACL on loans when management believes the loan balance is uncollectible or in accordance with federal guidelines. Subsequent recoveries, if any, are credited to

the ACL on loans.The ACL on loans is a valuation account that is deducted from the amortized cost basis of loans to present the net amount expected to be collected on the loans. The ACL on loans is comprised of reserves measured on a collective (pool) basis based on a lifetime loss-rate model when similar risk characteristics exist. Loans that do not share risk characteristics are evaluated on an individual basis, generally larger non-accruing commercial loans.The Company uses the DCF method to estimate expected credit losses for all loan pools. For each of the loan segments, the Company generates cash flow projections at the instrument level wherein payment expectations are adjusted for estimated prepayment speed, curtailments, time to recovery, and loss rates. The modeling of expected prepayment speeds, curtailment rates, and time to recovery are based on historical benchmark data.The Company uses regression analysis of historical internal and peer data to determine suitable loss drivers to utilize when modeling lifetime loss rates. This analysis also determines how expected loss rates will react to forecasted levels of the loss drivers. For all loan pools utilizing the DCF method, management utilizes and forecasts national unemployment as a loss driver.For all DCF models, management has determined that four quarters represents a reasonable and supportable forecast period and reverts back to a historical loss rate over four quarters on a straight-line basis. Management leverages economic projections from a reputable and independent third party to inform its loss driver forecasts over the four-quarter forecast period.The combination of adjustments for credit expectations (default and loss) and timing expectations (prepayment, curtailment, and time to recovery) produces an expected cash flow stream at the instrument level that represents the sum of expected losses to determine the estimated ACL on loans.The ACL on loans evaluation also considers various qualitative factors, including changes in policy and/or underwriting standards, actual or expected changes in economic trends and conditions, changes in the nature and volume of the portfolio, changes in credit and lending staff/administration, problem loan trends, credit risk concentrations, loan review results, changes in the value of underlying collateral for loans, and changes in the regulatory and business environment.Certain loans are individually evaluated for estimated credit losses, including those greater than $500 thousand that are classified as substandard or doubtful and are on nonaccrual or that have other unique characteristics differing from the segment. Specific reserves are established when appropriate for such loans based on the present value of expected future cash flows of the loan or the estimated realizable value of the collateral, if any.Risk characteristics relevant to each portfolio segment are as follows:â€¢Residential real estate - Loans in this segment are collateralized by owner-occupied 1-4 family residential real estate, second and vacation homes, 1-4 family investment properties, home equity and second mortgage loans. Repayment is dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment rates and housing prices, could have an effect on the credit quality of this segment.â€¢Construction real estate - Loans in this segment include residential and commercial construction properties, commercial real estate development loans (while in the construction phase of the projects), land and land development loans. Repayment is dependent on the credit quality of the individual borrower and/or the underlying cash flows generated by the properties being constructed. The overall health of the economy, including unemployment rates, housing prices, vacancy rates and material costs, could have an effect on the credit quality of this segment.â€¢Commercial real estate - Loans in this segment are primarily properties occupied by businesses or income-producing properties. The underlying cash flows generated by the properties may be adversely impacted by a downturn in the economy as evidenced by a general slowdown in business or increased vacancy rates which, in turn, could have an effect on the credit quality of this segment. Management requests business financial statements at least annually and monitors the cash flows of these loans.â€¢Commercial - Loans in this segment are made to businesses and are generally secured by non-real estate assets of the business. Repayment is expected from the cash flows of the business. A weakened economy, and resultant decreased consumer or business spending, could have an effect on the credit quality of this segment.â€¢Consumer - Loans in this segment are made to individuals for personal expenditures, such as automobile purchases, and include unsecured loans. Repayment is primarily dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment, could have an effect on the credit quality of this segment.â€¢Municipal - Loans in this segment are made to municipalities located within the Company's service area. Repayment is primarily dependent on taxes or other funds collected by the municipalities. Management considers there to be minimal risk surrounding the credit quality of this segment.Changes in the ACL on loans, by segment of loans, for the three and nine months ended September 30, 2024 and 2023 were as follows:For The Three MonthsEnded September 30, 2024Balance,June 30, 2024Charge-OffsRecoveriesCredit Loss Expense (Benefit)Balance,September 30, 2024(Dollars in thousands)Non-revolving residential real estate$2,967Â $â€”Â $6Â $100Â $3,073Â Revolving residential real estate273Â â€”Â â€”Â â€”Â 273Â Residential real estate3,240Â â€”Â 6Â 100Â 3,346Â Commercial construction real estate544Â â€”Â â€”Â 140Â 684Â Residential construction real estate88Â â€”Â â€”Â 11Â 99Â Construction real estate632Â â€”Â â€”Â 151Â 783Â Non-residential commercial real estate2,469Â â€”Â â€”Â 173Â 2,642Â Multi-family residential real estate207Â â€”Â â€”Â 2Â 209Â Commercial real estate2,676Â â€”Â â€”Â 175Â 2,851Â Commercial312Â â€”Â â€”Â (14)298Â Consumer7Â (1)â€”Â â€”Â 6Â Municipal26Â â€”Â â€”Â 56Â 82Â Total$6,893Â (1)6Â $468Â $7,366Â For The Nine MonthsEnded September 30, 2024Balance,December 31, 2023Charge-OffsRecoveriesCredit Loss Expense (Benefit)Balance,September 30, 2024(Dollars in thousands)Non-revolving residential real estate$2,361Â $â€”Â $17Â $695Â $3,073Â Revolving residential real estate159Â â€”Â â€”Â 114Â 273Â Residential real estate2,520Â â€”Â 17Â 809Â 3,346Â Commercial construction real estate1,035Â â€”Â â€”Â (351)684Â Residential construction real estate163Â â€”Â â€”Â (64)99Â Construction real estate1,198Â â€”Â â€”Â (415)783Â Non-residential commercial real estate2,182Â â€”Â â€”Â 460Â 2,642Â Multi-family residential real estate244Â â€”Â â€”Â (35)209Â Commercial real estate2,426Â â€”Â â€”Â 425Â 2,851Â Commercial352Â â€”Â 1Â (55)298Â Consumer5Â (2)â€”Â 3Â 6Â Municipal65Â â€”Â â€”Â 17Â 82Â Total$6,566Â (2)18Â $784Â $7,366Â For The Three MonthsEnded September 30, 2023Balance,June 30, 2023Charge-OffsRecoveriesCredit Loss Expense (Benefit)Balance,September 30, 2023(Dollars in thousands)Non-revolving residential real estate$2,192Â $â€”Â $1Â $107Â $2,300Â Revolving residential real estate144Â â€”Â â€”Â 6Â 150Â Residential real estate2,336Â â€”Â 1Â 113Â 2,450Â Commercial construction real estate1,525Â â€”Â â€”Â (60)1,465Â Residential construction real estate149Â â€”Â â€”Â 10Â 159Â Construction real estate1,674Â â€”Â â€”Â (50)1,624Â Non-residential commercial real estate2,152Â â€”Â â€”Â (3)2,149Â Multi-family residential real estate232Â â€”Â â€”Â 7Â 239Â Commercial real estate2,384Â â€”Â â€”Â 4Â 2,388Â Commercial354Â â€”Â â€”Â 3Â 357Â Consumer5Â (4)2Â 2Â 5Â Municipal27Â â€”Â â€”Â 44Â 71Â Total$6,780Â (4)3Â $116Â $6,895Â For The Nine MonthsEnded September 30, 2023Balance,December 31, 2022Impact of Adoption of ASU No. 2016-13Charge-OffsRecoveriesCredit Loss Expense (Benefit)Balance,September 30, 2023(Dollars in thousands)Non-revolving residential real estate$2,294Â (270)â€”Â $1Â $275Â $2,300Â Revolving residential real estate123Â 25Â â€”Â â€”Â 2Â 150Â Residential real estate2,417Â (245)â€”Â 1Â 277Â 2,450Â Commercial construction real estate611Â 982Â â€”Â â€”Â (128)1,465Â Residential construction real estate421Â (290)â€”Â â€”Â 28Â 159Â Construction real estate1,032Â 692Â â€”Â â€”Â (100)1,624Â Non-residential commercial real estate2,931Â (757)â€”Â â€”Â (25)2,149Â Multi-family residential real estate1,004Â (780)â€”Â â€”Â 15Â 239Â Commercial real estate3,935Â (1,537)â€”Â â€”Â (10)2,388Â Commercial301Â 191Â â€”Â â€”Â (135)357Â Consumer10Â (5)(8)3Â 5Â 5Â Municipal95Â (42)â€”Â â€”Â 18Â 71Â Unallocated549Â (549)â€”Â â€”Â â€”Â â€”Â Total$8,339Â $(1,495)$(8)$4Â $55Â $6,895Â The Company's ACL on off-balance sheet credit exposures is recognized as a liability within Accrued interest and other liabilities on the consolidated balance sheets, with adjustments to the ACL recognized in Credit loss expense (benefit) in the consolidated statements of income. The following is an overview of the Company's loan rating system:1-3 Rating - PassRisk-rating grades "1" through "3" comprise those loans ranging from those with lower than average credit risk, defined as borrowers with high liquidity, excellent financial condition, strong management, favorable industry trends or loans secured by highly liquid assets, through those with marginal credit risk, defined as borrowers that, while creditworthy, exhibit some characteristics requiring special attention by the account officer.4-4.5 Rating - Satisfactory/MonitorBorrowers exhibit potential credit weaknesses or downward trends warranting management's attention. While potentially weak, these borrowers are currently marginally acceptable; no loss of principal or interest is envisioned. When warranted, these credits may be monitored on the watch list.5-7 Rating - SubstandardBorrowers exhibit well defined weaknesses that jeopardize the orderly liquidation of debt. The loan may be inadequately protected by the net worth and paying capacity of the obligor and/or the underlying collateral is inadequate.The following tables summarize the Company's loans by year of origination and by loan ratings applied by management to the Company's loans by segment as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:September 30, 20242024202320222021202020212020PriorRevolvingTotalResidential Real Estate(Dollars in thousands)Pass$55,063Â $74,148Â $102,488Â $79,063Â $27,940Â $54,612Â $â€”Â $393,314Â Satisfactory/Monitor4,358Â 4,875Â 10,848Â 5,010Â 2,498Â 5,639Â â€”Â 33,228Â Substandardâ€”Â revolving residential real estate59,421Â 79,023Â 113,336Â 84,073Â 30,596Â 60,348Â â€”Â 426,797Â Passâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 19,839Â 19,839Â Satisfactory/Monitorâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 1,483Â 1,4 residential real estateâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 21,347Â 21,347Â Construction Real EstatePass3,937Â 2,833Â 4,797Â 1,537Â 572Â 867Â â€”Â 14,543Â Satisfactory/Monitor8,495Â 19,869Â 4,010Â 12,084Â 53Â 79Â â€”Â 44,590Â Substandardâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â construction real estate12,432Â 22,702Â 8,807Â 13,621Â 625Â 946Â â€”Â 59,133Â Pass23,535Â 18,547Â 4,038Â 195Â â€”Â â€”Â â€”Â 46,315Â Satisfactory/Monitor862Â 1,776Â 780Â 915Â 493Â â€”Â â€”Â 4,826 construction real estate24,397Â 20,323Â 4,818Â 1,110Â 493Â â€”Â â€”Â 51,141Â Commercial Real EstatePass3,031Â 5,112Â 40,902Â 33,096Â 17,436Â 68,634Â 4,809Â 173,020Â Satisfactory/Monitor29,175Â 21,661Â 25,267Â 13,564Â 5,363Â 28,047Â 15,208Â 138,285Â Substandardâ€”Â â€”Â residential commercial real estate32,206Â 26,773Â 66,169Â 46,660Â 24,456Â 97,060Â 20,069Â 313,393Â Pass1,068Â 287Â 4,348Â 10,257Â 1,883Â 42,199Â â€”Â 60,042Â Satisfactory/Monitor566Â 2,496Â 12,853Â 10,368Â family residential real estate1,634Â 2,783Â 17,201Â 20,625Â 7,451Â 52,559Â â€”Â 102,253Â Pass1,800Â 2,750Â 4,735Â 1,620Â 446Â 7,803Â 4,230Â 23,384Â Satisfactory/Monitor871Â 2,343Â 1,199Â 2,032Â 231Â 7,0 Loans$212,829Â $169,068Â $222,455Â $170,484Â $65,769Â $229,712Â $47,144Â $1,117,461Â December 31, 20232023202220212020202019PriorRevolvingTotalResidential Real Estate(Dollars in thousands)Pass$84,211Â $112,215Â $83,137Â $29,704Â $8,991Â $53,021Â $â€”Â $371,279Â Satisfactory/Monitor4,362Â 7,038Â 5,671Â 2,280Â 386Â 5,873Â â€”Â 25,610Â Substandardâ€”Â â€” revolving residential real estate88,573Â 119,253Â 88,808Â 31,998Â 9,377Â 59,400Â â€”Â 397,409Â Passâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 17,133Â 17,133Â Satisfactory/Monitorâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 1,724Â 1,72 residential real estateâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 18,902Â 18,902Â Construction Real EstatePass3,736Â 5,767Â 2,736Â 616Â 437Â 873Â â€”Â 14,165Â Satisfactory/Monitor10,312Â 3,673Â 8,352Â 355Â â€”Â 116Â â€”Â 22,808Â Substandardâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â â€ construction real estate14,048Â 9,440Â 11,088Â 971Â 437Â 989Â â€”Â 36,973Â Pass24,496Â 17,904Â 498Â â€”Â â€”Â 123Â â€”Â 43,021Â Satisfactory/Monitor3,978Â 2,114Â 568Â 1,981Â â€”Â â€”Â â€”Â 8,641Â construction real estate28,474Â 20,018Â 1,066Â 1,981Â â€”Â 123Â â€”Â 51,662Â Commercial Real EstatePass5,977Â 44,428Â 34,562Â 18,327Â 23,650Â 57,197Â 16,629Â 200,770Â Satisfactory/Monitor17,908Â 24,563Â 13,819Â 5,552Â 6,172Â 23,521Â 3,486Â 95,021Â Substandardâ€”Â â€”Â â residential commercial real estate23,885Â 68,991Â 48,381Â 25,652Â 29,822Â 81,234Â 20,183Â 298,148Â Pass250Â 5,364Â 10,208Â 2,061Â 8,226Â 34,993Â â€”Â 61,102Â Satisfactory/Monitor841Â 12,485Â 11,863Â 5,664Â family residential real estate1,091Â 17,849Â 22,071Â 7,725Â 18,159Â 38,449Â â€”Â 105,344Â Pass1,958Â 6,394Â 2,125Â 671Â 2,849Â 7,755Â 4,992Â 26,744Â Satisfactory/Monitor1,914Â 1,243Â 2,350Â 467Â 132Â 6, Loans$227,925Â $246,472Â $177,006Â $71,494Â $61,135Â $199,256Â $44,982Â $1,028,270Â Gross charge-offs for the three months ended September 30, 2024 consisted of one $1 thousand consumer loan that was originated in 2024. Loans that are individually evaluated and collateral dependent represent loans that the Company has determined foreclosure of the collateral is probable, or where the borrower is experiencing financial difficulty and the Company expects repayment of the loan to be provided substantially through the sale of the collateral. For these loans, the ACL is measured based on the difference between the fair value of the collateral and the amortized cost basis of the loan at the measurement date.The following table presents collateral dependent loans to borrowers experiencing financial difficulty by loan class and collateral type as of the balance sheet dates:September 30, 2024December 31, 2023Real EstateReal Estate(Dollars in thousands)Non-residential commercial real estate$1,709Â $1,841Â Collateral dependent loans are loans for which the repayment is expected to be provided substantially by the underlying collateral and there are no other available and reliable sources of repayment.Occasionally, the Company modifies loans to borrowers experiencing financial difficulty by providing interest rate reductions, term extensions, payment deferrals or principal forgiveness. When principal forgiveness is provided, the amount of forgiveness is charged off against the ACL on loans. There were no new loan modifications to borrowers

experiencing financial difficulty during the three months ended September 30, 2024 or 2023. The Notes initially bear interest, payable semi-annually, at the rate of 3.25% per annum, until September 1, 2026. From and including September 1, 2026, the interest rate applicable to the outstanding principal amount due will reset quarterly to the then current three-month secured overnight financing rate (SOFR) plus 263 basis points. At its option, the Company may redeem the Notes, in whole or in part, beginning with the interest payment date of September 1, 2026 but not generally prior thereto, and on any scheduled interest payment date thereafter. The Notes qualify as Tier 2 capital instruments for the Company under bank holding company regulatory capital guidelines. The Company used the proceeds primarily to provide additional Tier 1 capital to the Company's wholly-owned subsidiary, Union Bank, to support its growth and for other general corporate purposes.The unamortized issuance costs of the Notes were $236Â thousand and $261Â thousand at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The Company recorded $8Â thousand and $25Â thousand of issuance costs in interest expense for the three and nine months ended September 30, 2024 and 2023, respectively. The Notes are presented net of unamortized issuance costs in the consolidated balance sheets. This standard defines fair value as the price that would be received, without adjustment for transaction costs, to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The guidance in FASB ASC Topic 820 establishes a three-level fair value hierarchy, which prioritizes the inputs used in measuring fair value. A financial instrumentâ€™s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.The three levels of the fair value hierarchy are:â€¢Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;â€¢Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;â€¢Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).The following is a description of the valuation methodologies used for the Companyâ€™s assets that are measured on a recurring basis at estimated fair value:Investment securities AFS: Certain U.S. Treasury notes have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. However, the majority of the Companyâ€™s AFS securities have been valued utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include market maker bids, quotes and pricing models. Inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows.Mutual funds: Mutual funds have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1.Assets measured at fair value on a recurring basis at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, segregated by fair value hierarchy level, are summarized below:Â Fair Value MeasurementsÂ FairValueQuoted Prices inActive Marketsfor IdenticalAssets(Level 1)SignificantOtherObservableInputs(Level 2)SignificantUnobservableInputs(Level 3)September 30, 2024:(Dollars in thousands)Debt securities AFS:U.S. Government-sponsored enterprises$27,136Â $2,737Â $24,399Â $â€”Â Agency mortgage-backed165,146Â â€”Â 165,146Â â€”Â State and political subdivisions50,199Â â€”Â 50,199Â â€”Â Corporate2,454Â â€”Â 2,454Â â€”Â Total debt securities$244,935Â $2,737Â $242,198Â $â€”Â Other investments:Mutual funds$1,723Â $1,723Â $â€”Â $â€”Â December 31, 2023:Â Â Â Â Â Debt securities AFS:Â Â Â Â Â U.S. Government-sponsored enterprises$39,351Â $2,645Â $36,706Â $â€”Â Agency mortgage-backed152,384Â â€”Â 152,384Â â€”Â State and political subdivisions66,439Â â€”Â 66,439Â â€”Â Corporate6,209Â â€”Â 6,209Â â€”Â Total debt securities$264,383Â $2,645Â $261,738Â $â€”Â Other investments:Mutual funds$1,500Â $1,500Â $â€”Â $â€”Â There were no transfers in or out of Levels 1 and 2 during the three and nine months ended September 30, 2024 or the year ended December 31, 2023, nor were there any Level 3 assets at any time during these periods. Certain other assets and liabilities are measured at fair value on a nonrecurring basis, that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Assets and liabilities measured at fair value on a nonrecurring basis in periods after initial recognition, such as collateral dependent individually evaluated loans, MSRs and OREO, were not considered material at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. The Company has not elected to apply the fair value method to any financial assets or liabilities other than those situations where other accounting pronouncements require fair value measurements.FASB ASC Topic 825, Financial Instruments, requires disclosure of the estimated fair value of financial instruments. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Companyâ€™s various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Managementâ€™s estimates and assumptions are inherently subjective and involve uncertainties and matters of significant judgment. Changes in assumptions could dramatically affect the estimated fair values. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Certain financial instruments and all nonfinancial instruments may be excluded from disclosure requirements. Thus, the aggregate fair value amounts presented may not necessarily represent the actual underlying fair value of such instruments of the Company. As of the balance sheet dates, the estimated fair values and related carrying amounts of the Company's significant financial instruments were as follows:September 30, 2024Fair Value MeasurementsCarryingAmountEstimated FairValueQuoted Pricesin ActiveMarkets forIdenticalAssets(Level 1)SignificantOtherObservableInputs(Level 2)SignificantUnobservableInputs(Level 3)(Dollars in thousands)Financial assetsCash and cash equivalents$47,261Â $47,261Â $47,261Â $â€”Â $â€”Â Interest bearing deposits in banks13,445Â 13,445Â â€”Â 13,445Â â€”Â Investment securities246,658Â 246,658Â 4,460Â 242,198Â â€”Â Loans held for sale8,449Â 8,539Â â€”Â 8,539Â â€”Â Loans, netResidential real estate445,608Â 415,114Â â€”Â â€”Â 415,114Â Construction real estate109,690Â 108,067Â â€”Â â€”Â 108,067Â Commercial real

In the opinion of the Companyâ€™s management, all adjustments, consisting only of normal recurring adjustments and disclosures necessary for a fair presentation of the information contained herein, have been made. This information should be read in conjunction with the Companyâ€™s 2023 Annual Report. The results of operations for the interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year ending DecemberÂ 31, 2024, or any future interim period.The Company is a â€œsmaller reporting companyâ€ and as permitted under the rules and regulations of the SEC, has elected to provide its consolidated statements of income, comprehensive income, cash flows and changes in stockholdersâ€™ equity for a two year, rather than three year, period.Â The Company has also elected to provide certain other scaled disclosures in this report, as permitted for smaller reporting companies. Certain amounts in the 2023 consolidated financial statements have been reclassified to conform to the current year presentation. Recent Accounting Pronouncements Recent Accounting PronouncementsIn March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, and has issued subsequent amendments thereto, which provides temporary optional guidance to ease the potential burden in accounting for reference rate reform. The ASU provides optional expedients and exceptions for applying GAAP to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. It is intended to help stakeholders during the global market-wide reference rate transition period. The guidance is effective for all entities as of March 12, 2020 through December 31, 2024. The transition away from LIBOR is not expected to have a material impact on the Company's consolidated financial statements.In March 2023, the FASB issued ASU No. 2023-02, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method. ASU No. 2014-01, Investments-Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects, previously introduced the option to apply the proportional amortization method to account for investments made primarily for the purpose of receiving income tax credits and other income tax benefits when certain requirements are met; however, this guidance limited the proportional amortization method to investments in low-income-housing tax credit (LIHTC) structures. The proportional amortization method results in the cost of the investment being amortized in proportion to the income tax credits and other income tax benefits received, with the amortization of the investment and the income tax credits being presented net in the income statement as a component of income tax expense (benefit). Equity investments in other tax credit structures are typically accounted for using the equity method, which results in investment income, gains and losses, and tax credits being presented gross on the income statement in their respective line items. The amendments in this update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. The amendments in this update are effective for the Company for fiscal years beginning after December 31, 2023, including interim periods within those fiscal years. The Company adopted this ASU as of January 1, 2024 and it did not have a material impact on the Company's consolidated financial statements. Loans LoansLoans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their unpaid principal balances, adjusted for any charge-offs, the ACL, and any deferred fees or costs on originated loans and unamortized premiums or discounts on purchased loans.Loan interest income is accrued daily on outstanding balances. The following accounting policies, related to accrual and nonaccrual loans, apply to all portfolio segments and loan classes, which the Company considers to be the same. The accrual of interest is normally discontinued when a loan is specifically determined to be impaired and/or management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful. In general, loans that are 90 days or more past due are placed in nonaccrual, unless there are circumstances that cause management to believe the collection of interest is not doubtful. Generally, any unpaid interest previously accrued on those loans is reversed against current period interest income. A loan may be restored to accrual status when its financial status has significantly improved and there is no principal or interest past due. A loan may also be restored to accrual status if the borrower makes six consecutive monthly payments or the lump sum equivalent. Income on nonaccrual loans is generally not recognized unless a loan is returned to accrual status or after all principal has been collected. Interest payments received on such loans are generally applied as a reduction of the loan principal balance. Delinquency status is determined based on contractual terms for all portfolio segments and loan classes. Loans past due 30 days or more are considered delinquent. Loans are considered in process of foreclosure when a judgment of foreclosure has been issued by the court.Loan origination fees and direct loan origination costs are deferred and amortized as an adjustment of the related loan's yield using methods that approximate the interest method. The Company generally amortizes these amounts over the estimated average life of the related loans. Allowance for Credit Losses on Loans and Off-Balance Sheet Credit Exposures Allowance for Credit Losses on Loans and Off-Balance Sheet Credit ExposuresThe level of the ACL on loans represents management's estimate of expected credit losses over the expected life of the loans at the balance sheet date. For all loan segments, loan losses are charged against the ACL on loans when management believes the loan balance is uncollectible or in accordance with federal guidelines. Subsequent recoveries, if any, are credited to the ACL on loans.The ACL on loans is a valuation account that is deducted from the amortized cost basis of loans to present the net amount expected to be collected on the loans. The ACL on loans is comprised of reserves measured on a collective (pool) basis based on a lifetime loss-rate model when similar risk characteristics exist. Loans that do not share risk characteristics are evaluated on an individual basis, generally larger non-accruing commercial loans.The Company uses the DCF method to estimate expected credit losses for all loan pools. For each of the loan segments, the Company generates cash flow projections at the instrument level wherein payment expectations are adjusted for estimated prepayment speed, curtailments, time to recovery, and loss rates. The modeling of expected prepayment speeds, curtailment rates, and time to recovery are based on historical benchmark data.The Company uses regression analysis of historical internal and peer data to determine suitable loss drivers to utilize when modeling lifetime loss rates. This analysis also determines how expected loss rates will react to forecasted levels of the loss drivers. For all loan pools utilizing the DCF method, management utilizes and forecasts national unemployment as a loss driver.For all DCF models, management has determined that four quarters represents a reasonable and supportable forecast period and reverts back to a historical loss rate over four quarters on a straight-line basis. Management leverages economic projections from a reputable and independent third party to inform its loss driver forecasts over the four-quarter forecast period.The combination of adjustments for credit expectations (default and loss) and timing expectations (prepayment, curtailment, and time to recovery) produces an expected cash flow stream at the instrument level that represents the sum of expected losses to determine the estimated ACL on loans.The ACL on loans evaluation also considers various qualitative factors, including changes in policy and/or underwriting standards, actual or expected changes in economic trends and conditions, changes in the nature and volume of the portfolio, changes in credit and lending staff/administration, problem loan trends, credit risk concentrations, loan review results, changes in the value of underlying collateral for loans, and changes in the regulatory and business environment.Certain loans are individually evaluated for estimated credit losses, including those greater than $500 thousand that are classified as substandard or doubtful and are on nonaccrual or that have other unique characteristics differing from the segment. Specific reserves are established when appropriate for such loans based on the present value of expected future cash flows of the loan or the estimated realizable value of the collateral, if any.Risk characteristics relevant to each portfolio segment are as follows:â€¢Residential real estate - Loans in this segment are collateralized by owner-occupied 1-4 family residential real estate, second and vacation homes, 1-4 family investment properties, home equity and second mortgage loans. Repayment is dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment rates and housing prices, could have an effect on the credit quality of this segment.â€¢Construction real estate - Loans in this segment include residential and commercial construction properties, commercial real estate development loans (while in the construction phase of the projects), land and land development loans. Repayment is dependent on the credit quality of the individual borrower and/or the underlying cash flows generated by the properties being constructed. The overall health of the economy, including unemployment rates, housing prices, vacancy rates and material costs, could have an effect on the credit quality of this segment.â€¢Commercial real estate - Loans in this segment are primarily properties occupied by businesses or income-producing properties. The underlying cash flows generated by the properties may be adversely impacted by a downturn in the economy as evidenced by a general slowdown in business or increased vacancy rates which, in turn, could have an effect on the credit quality of this segment. Management requests business financial statements at least annually and monitors the cash flows of these loans.â€¢Commercial - Loans in this segment are made to businesses and are generally secured by non-real estate assets of the business. Repayment is expected from the cash flows of the business. A weakened economy, and resultant decreased consumer or business spending, could have an effect on the credit quality of this segment.â€¢Consumer - Loans in this segment are made to individuals for personal expenditures, such as automobile purchases, and include unsecured loans. Repayment is primarily dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment, could have an effect on the credit quality of this segment.â€¢Municipal -

Loans in this segment are made to municipalities located within the Company's service area. Repayment is primarily dependent on taxes or other funds collected by the municipalities. Management considers there to be minimal risk surrounding the credit quality of this segment. Other Comprehensive Income (Loss) Other Comprehensive Income (Loss)Accounting principles generally require recognized revenue, expenses, gains and losses be included in net income or loss. Certain changes in assets and liabilities, such as the after tax effect of unrealized gains and losses on investment securities AFS that have not been recorded through an ACL are not reflected in the consolidated statements of income. The cumulative effect of such items, net of tax effect, is reported as a separate component of the equity section of the consolidated balance sheets (Accumulated OCI). OCI, along with net income, comprises the Company's total comprehensive income or loss. Fair Value Measurement Fair Value MeasurementThe Company utilizes FASB ASC Topic 820, Fair Value Measurement, as guidance for accounting for assets and liabilities carried at fair value. This standard defines fair value as the price that would be received, without adjustment for transaction costs, to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The guidance in FASB ASC Topic 820 establishes a three-level fair value hierarchy, which prioritizes the inputs used in measuring fair value. A financial instrumentâ€™s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.The three levels of the fair value hierarchy are:â€¢Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;â€¢Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;â€¢Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity). Fair Value Measurement The following is a description of the valuation methodologies used for the Companyâ€™s assets that are measured on a recurring basis at estimated fair value:Investment securities AFS: Certain U.S. Treasury notes have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. However, the majority of the Companyâ€™s AFS securities have been valued utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include market maker bids, quotes and pricing models. Inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows.Mutual funds: Mutual funds have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. of Presentation The accompanying unaudited interim consolidated financial statements of Union Bankshares, Inc. and Subsidiary (together, the Company) as of September 30, 2024, and for the three and nine months ended September 30, 2024 and 2023, have been prepared in conformity with GAAP for interim financial information, general practices within the banking industry, and the accounting policies described in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 (2023 Annual Report). The Company's sole subsidiary is Union Bank. In the opinion of the Company’s management, all adjustments, consisting only of normal recurring adjustments and disclosures necessary for a fair presentation of the information contained herein, have been made. This information should be read in conjunction with the Company’s 2023 Annual Report. The results of operations for the interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2024, or any future interim period. The Company is a “smaller reporting company” and as permitted under the rules and regulations of the SEC, has elected to provide its consolidated statements of income, comprehensive income, cash flows and changes in stockholders’ equity for a two year, rather than three year, period. The Company has also elected to provide certain other scaled disclosures in this report, as permitted for smaller reporting companies. Certain amounts in the 2023 consolidated financial statements have been reclassified to conform to the current year presentation. The proportional amortization method results in the cost of the investment being amortized in proportion to the income tax credits and other income tax benefits received, with the amortization of the investment and the income tax credits being presented net in the income statement as a component of income tax expense (benefit). Equity investments in other tax credit structures are typically accounted for using the equity method, which results in investment income, gains and losses, and tax credits being presented gross on the income statement in their respective line items. The amendments in this update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. The amendments in this update are effective for the Company for fiscal years beginning after December 31, 2023, including interim periods within those fiscal years. The Company adopted this ASU as of January 1, 2024 and it did not have a material impact on the Company's consolidated financial statements. Recent Accounting Pronouncements In March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, and has issued subsequent amendments thereto, which provides temporary optional guidance to ease the potential burden in accounting for reference rate reform. The ASU provides optional expedients and exceptions for applying GAAP to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. It is intended to help stakeholders during the global market-wide reference rate transition period. The guidance is effective for all entities as of March 12, 2020 through December 31, 2024. The transition away from LIBOR is not expected to have a material impact on the Company's consolidated financial statements.

 Actual maturities may differ for certain debt securities that may be called by the issuer prior to the contractual maturity. Actual maturities usually differ from contractual maturities on agency MBS because the mortgages underlying the securities may be prepaid, usually without any penalties. Therefore, these agency MBS are shown separately and are not included in the contractual maturity categories in the above maturity summary. Information pertaining to all AFS debt securities with gross unrealized losses, for which an ACL has not been recorded, as of the balance sheet dates, aggregated by investment category and length of time that individual securities have been in a continuous loss position, follows: <div

 AFS debt securities in unrealized loss positions are evaluated for impairment related to credit losses at least quarterly. For AFS debt securities in an unrealized loss position, management first assesses whether it intends to sell, or it is more likely than not that the Company will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through earnings. For AFS debt securities that do not meet the above criteria, management evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security and the issuer, among other factors. If this assessment indicates that a credit loss exists, management compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an ACL is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. For AFS debt securities, any decline in fair value that has not been recorded through an ACL is recognized in other comprehensive income (loss), net of applicable taxes.
 No ACL for AFS debt securities was recorded at September 30, 2024 or December 31, 2023. Accrued interest receivable on AFS debt securities totaled $836 thousand and $1.4 million at September 30, 2024 and December 31, 2023, respectively, and is excluded from the estimate of credit losses.
 The Company completed a balance sheet repositioning related to its investment securities portfolio during the three months ended September 30, 2024. The sale of lower-yielding AFS debt securities with a book value of $38.5 million was executed and recorded in August of 2024. The proceeds from the sale of these securities were used to purchase $26.0 million of AFS debt securities at higher yields to improve income going forward, and the remainder was used to fund loan growth. The following table presents the proceeds resulting in gross realized gains and gross realized losses from the sale of AFS debt securities for the three and nine months ended September 30, 2024 and 2023: <table style="border-*

Loan interest income is accrued daily on outstanding balances. The following accounting policies, related to accrual and nonaccrual loans, apply to all portfolio segments and loan classes, which the Company considers to be the same. The accrual of interest is normally discontinued when a loan is specifically determined to be impaired and/or management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful. In general, loans that are 90 days or more past due are placed in nonaccrual, unless there are circumstances that cause management to believe the collection of interest is not doubtful. Generally, any unpaid interest previously accrued on those loans is reversed against current period interest income. A loan may be restored to accrual status when its financial status has significantly improved and there is no principal or interest past due. A loan may also be restored to accrual status if the borrower makes six consecutive monthly payments or the lump sum equivalent. Income on nonaccrual loans is generally not recognized unless a loan is returned to accrual status or after all principal has been collected. Interest payments received on such loans are generally applied as a reduction of the loan principal balance. Delinquency status is determined based on contractual terms for all portfolio segments and loan classes. Loans past due 30 days or more are considered delinquent. Loans are considered in process of foreclosure when a judgment of foreclosure has been issued by the court. Loan origination fees and direct loan origination costs are deferred and amortized as an adjustment of the related loan's yield using methods that approximate the interest method. The Company generally amortizes these amounts over the estimated average life of the related loans. For all loan segments, loan losses are charged against the ACL on loans when management believes the loan balance is uncollectible or in accordance with federal guidelines. Subsequent recoveries, if any, are credited to the ACL on loans. The ACL on loans is a valuation account that is deducted from the amortized cost basis of loans to present the net amount expected to be collected on the loans. The ACL on loans is comprised of reserves measured on a collective (pool) basis based on a lifetime loss-rate model when similar risk characteristics exist. Loans that do not share risk characteristics are evaluated on an individual basis, generally larger non-accruing commercial loans. The Company uses the DCF method to estimate expected credit losses for all loan pools. For each of the loan segments, the Company generates cash flow projections at the instrument level wherein payment expectations are adjusted for estimated prepayment speed, curtailments, time to recovery, and loss rates. The modeling of expected prepayment speeds, curtailment rates, and time to recovery are based on historical benchmark data. The Company uses regression analysis of historical internal and peer data to determine suitable loss drivers to utilize when modeling lifetime loss rates. This analysis also determines how expected loss rates will react to forecasted levels of the loss drivers. For all loan pools utilizing the DCF method, management utilizes and forecasts national unemployment as a loss driver. For all DCF models, management has determined that four quarters represents a reasonable and supportable forecast period and reverts back to a historical loss rate over four quarters on a straight-line basis. Management leverages economic projections from a reputable and independent third party to inform its loss driver forecasts over the four-quarter forecast period. The combination of adjustments for credit expectations (default and loss) and timing expectations (prepayment, curtailment, and time to recovery) produces an expected cash flow stream at the instrument level that represents the sum of expected losses to determine the estimated ACL on loans. The ACL on loans evaluation also considers various qualitative factors, including changes in policy and/or underwriting standards, actual or expected changes in economic trends and conditions, changes in the nature and volume of the portfolio, changes in credit and lending staff/administration, problem loan trends, credit risk concentrations, loan review results, changes in the value of underlying collateral for

loans, and changes in the regulatory and business environment. Certain loans are individually evaluated for estimated credit losses, including those greater than $500 thousand that are classified as substandard or doubtful and are on nonaccrual or that have other unique characteristics differing from the segment. Specific reserves are established when appropriate for such loans based on the present value of expected future cash flows of the loan or the estimated realizable value of the collateral, if any. Risk characteristics relevant to each portfolio segment are as follows: •Residential real estate - Loans in this segment are collateralized by owner-occupied 1-4 family residential real estate, second and vacation homes, 1-4 family investment properties, home equity and second mortgage loans. Repayment is dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment rates and housing prices, could have an effect on the credit quality of this segment. •Construction real estate - Loans in this segment include residential and commercial construction properties, commercial real estate development loans (while in the construction phase of the projects), land and land development loans. Repayment is dependent on the credit quality of the individual borrower and/or the underlying cash flows generated by the properties being constructed. The overall health of the economy, including unemployment rates, housing prices, vacancy rates and material costs, could have an effect on the credit quality of this segment. •Commercial real estate - Loans in this segment are primarily properties occupied by businesses or income-producing properties. The underlying cash flows generated by the properties may be adversely impacted by a downturn in the economy as evidenced by a general slowdown in business or increased vacancy rates which, in turn, could have an effect on the credit quality of this segment. Management requests business financial statements at least annually and monitors the cash flows of these loans. •Commercial - Loans in this segment are made to businesses and are generally secured by non-real estate assets of the business.

Repayment is expected from the cash flows of the business. A weakened economy, and resultant decreased consumer or business spending, could have an effect on the credit quality of this segment. •Consumer - Loans in this segment are made to individuals for personal expenditures, such as automobile purchases, and include unsecured loans. Repayment is primarily dependent on the credit quality of the individual borrower. The overall health of the economy, including unemployment, could have an effect on the credit quality of this segment. •Municipal - Loans in this segment are made to municipalities located within the Company's service area. Repayment is primarily dependent on taxes or other funds collected by the municipalities. Management considers there to be minimal risk surrounding the credit quality of this segment.  Risk and collateral ratings are assigned to loans and are subject to ongoing monitoring by lending and credit personnel, with such ratings updated annually or more frequently if warranted. The following is an overview of the Company's loan rating system: 1-3 Rating - Pass Risk-rating grades "1" through "3" comprise those loans ranging from those with lower than average credit risk, defined as borrowers with high liquidity, excellent financial condition, strong management, favorable industry trends or loans secured by highly liquid assets, through those with marginal credit risk, defined as borrowers that, while creditworthy, exhibit some characteristics requiring special attention by the account officer. 4-4.5 Rating - Satisfactory/Monitor Borrowers exhibit potential credit weaknesses or downward trends warranting management's attention. While potentially weak, these borrowers are currently marginally acceptable; no loss of principal or interest is envisioned. When warranted, these credits may be monitored on*

the watch list. 5-7 Rating - Substandard Borrowers exhibit well defined weaknesses that jeopardize the orderly liquidation of debt. The loan may be inadequately protected by the net worth and paying capacity of the obligor and/or the underlying collateral is inadequate. Aggregate interest on nonaccrual loans not recognized was $212 thousand as of September 30, 2024 and $143 thousand as of December 31, 2023. Loans that do not share risk characteristics are evaluated on an individual basis. Loans that are individually evaluated and collateral dependent represent loans that the Company has determined foreclosure of the collateral is probable, or where the borrower is experiencing financial difficulty and the Company expects repayment of the loan to be provided substantially through the sale of the collateral. For these loans, the ACL is measured based on the difference between the fair value of the collateral and the amortized cost basis of the loan at the measurement date. The following table presents collateral dependent loans to borrowers experiencing financial difficulty by loan class and collateral type as of the balance sheet dates: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.269%"><tr><td style="width:1.0%"></td><td style="width:62.964%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:17.898%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td style="width:1.0%"></td><td style="width:15.838%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, 2024</td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December 31, 2023</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom"><span

 Collateral dependent loans are loans for which the repayment is expected to be provided*

*substantially by the underlying collateral and there are no other available and reliable sources of repayment.
 Occasionally, the Company modifies loans to borrowers experiencing financial difficulty by providing interest rate reductions, term extensions, payment deferrals or principal forgiveness. When principal forgiveness is provided, the amount of forgiveness is charged off against the ACL on loans. There were no new loan modifications to borrowers experiencing financial difficulty during the three months ended September 30, 2024 or 2023. The following tables summarize loan modifications to borrowers experiencing financial difficulty by loan class, type of modification and the financial effect of the modifications as of and for the nine months ended September 30, 2024 and 2023.

Based Compensation Under the Union Bankshares, Inc. 2014 Equity Incentive Plan, as amended in May 2022, a total of 150,000 shares of the Company’s common stock have been reserved since inception of the Plan for equity awards of incentive stock options, nonqualified stock options, restricted stock and RSUs to eligible officers and (except for awards of incentive stock options) nonemployee directors. Shares available for issuance of awards under the 2014 Equity Plan consist of unissued shares of the Company’s common stock and/or shares held in treasury. As of September 30, 2024, there were outstanding grants of RSUs under the 2014 Equity Plan as noted in the table below.
 On May 15, 2024, the Company’s shareholders approved the Union Bankshares, Inc. 2024 Equity Compensation Plan, which replaces and is substantially similar to, the Company’s 2014 Equity Plan. Subject to typical anti-dilution adjustments, up to 250,000 shares of the Company’s common stock have been reserved for issuance under the new plan to eligible executives and directors. No new grants will be made under the 2014 Equity Plan. As of September 30, 2024, no grants had yet been made under the new plan.
 RSUs. Each outstanding RSU represents the right to receive one share of the Company's common stock upon satisfaction of applicable vesting conditions. The general terms of the awards are described in the Company's 2023 Annual Report. Prior to vesting, the RSUs do not earn dividends or dividend equivalents, nor do they bear any voting rights. On May 15, 2024, the Company's board of directors, as a component of total director compensation, granted an aggregate of 3,736 RSUs to the Company's non-employee directors. Each RSU represents the right to receive one share of the Company's common stock upon satisfaction of applicable vesting conditions. The RSUs will vest in May 2025, subject to continued board service through the vesting date, other than in the case of the director's death or disability. Prior to vesting, the RSUs do not earn dividends or dividend equivalents, nor do they bear any voting rights. Unrecognized director compensation expense related to the unvested RSUs as of September 30, 2024 was $64

The Notes initially bear interest, payable semi-annually, at the rate of 3.25% per annum, until September 1, 2026. From and including September 1, 2026, the interest rate applicable to the outstanding principal amount due will reset quarterly to the then current three-month secured overnight financing rate (SOFR) plus 263 basis points. At its option, the Company may redeem the Notes, in whole or in part, beginning with the interest payment date of September 1, 2026 but not generally prior thereto, and on any scheduled interest payment date thereafter. The Notes qualify as Tier 2 capital instruments for the Company under bank holding company regulatory capital guidelines. The Company used the proceeds primarily to provide additional Tier 1 capital to the Company's wholly-owned subsidiary, Union Bank, to support its growth and for other general corporate purposes. The unamortized issuance costs of the Notes were $236 thousand and $261 thousand at September 30, 2024 and December 31, 2023, respectively. The Company recorded $8 thousand and $25 thousand of issuance costs in interest expense for the three and nine months ended September 30, 2024 and 2023, respectively. The Notes are presented net of unamortized issuance costs in the consolidated balance sheets.

Certain changes in assets and liabilities, such as the after tax effect of unrealized gains and losses on investment securities AFS that have not been recorded through an ACL are not reflected in the consolidated statements of income. The cumulative effect of such items, net of tax effect, is reported as a separate component of the equity section of the consolidated balance sheets (Accumulated OCI). OCI, along with net income, comprises the Company's total comprehensive income or loss.
 As of the balance sheet dates, the components of Accumulated OCI, net of tax, were: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td><td style="width:63.760%"></td><td style="width:0.1%"></td><td style="width:1.0%">

This standard defines fair value as the price that would be received, without adjustment for transaction costs, to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The guidance in FASB ASC Topic 820 establishes a three-level fair value hierarchy, which prioritizes the inputs used in measuring fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.
 The three levels of the fair value hierarchy are: •Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; •Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; •Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).  The following is a description of the valuation methodologies used for the Company’s assets that are measured on a recurring basis at estimated fair value: Investment securities AFS: Certain U.S. Treasury notes have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. However, the majority of the Company’s AFS securities have been valued utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include market maker bids, quotes and pricing models. Inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows. Mutual funds: Mutual funds have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. Assets measured at fair value on a recurring basis at September 30, 2024 and December 31, 2023, segregated by fair value hierarchy level, are summarized below: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td><td style="width:45.752%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.198%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.126%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.052%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.372%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3"

Certain other assets and liabilities are measured at fair value on a nonrecurring basis, that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Assets and liabilities measured at fair value on a nonrecurring basis in periods after initial recognition, such as collateral dependent individually evaluated loans, MSRs and OREO, were not considered material at September 30, 2024 or December 31, 2023. The Company has not elected to apply the fair value method to any financial assets or liabilities other than those situations where other accounting pronouncements require fair value measurements.
 FASB ASC Topic 825

*, Financial Instruments, requires disclosure of the estimated fair value of financial instruments. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Management's estimates and assumptions are inherently subjective and involve uncertainties and matters of significant judgment. Changes in assumptions could dramatically affect the estimated fair values.
 Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Certain financial instruments and all nonfinancial instruments may be excluded from disclosure requirements. Thus, the aggregate fair value amounts presented may not necessarily represent the actual underlying fair value of such instruments of the Company.
 As of the balance sheet dates, the estimated fair values and related carrying amounts of the Company's significant financial instruments were as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.561%"><tr><td style="width:1.0%"></td><td style="width:32.527%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.409%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.381%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.969%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.969%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.145%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="15" style="border-bottom:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, 2024</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="15" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Fair Value Measurements</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:2pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Carrying

Accrued interest receivable and nonmarketable equity securities are included in Other assets in the consolidated balance sheets. The following is a description of the valuation methodologies used for the Company’s assets that are measured on a recurring basis at estimated fair value: Investment securities AFS: Certain U.S. Treasury notes have been valued using unadjusted quoted prices from active markets and therefore have been classified as Level 1. However, the majority of the Company’s AFS securities have been valued utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include market maker bids, quotes and pricing models. Inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows. <span style="color:#000000;font-

Events Subsequent events represent events or transactions occurring after the balance sheet date but before the financial statements are issued. Financial statements are considered “issued” when they are widely distributed to shareholders and others for general use and reliance in a form and format that complies with GAAP. Events occurring subsequent to September 30, 2024 have been evaluated as to their potential impact to the consolidated financial statements. On October 16, 2024, the Company declared a regular quarterly cash dividend of $0.36 per share, payable November 7, 2024, to stockholders of record on October 26, 2024. 0.36
