Ardagh Metal Packaging S.A. – Second Quarter 2024 Results

Ardagh Metal Packaging S.A. (NYSE: AMBP) today announced results for the second quarter ended June 30, 2024.

	Three months ended		Change	Constant Currency
	June 30, 2024 (\$'m except per share data)	June 30, 2023		
Revenue	1,259	1,255	-	-
Profit/(loss) for the period	2	(10)		
Adjusted EBITDA ⁽¹⁾	178	151	18%	18%
Loss per share	(0.01)	(0.03)		
Adjusted earnings per share ⁽¹⁾	0.06	0.04		
Dividend per ordinary share	0.10	0.10		

Oliver Graham, CEO of Ardagh Metal Packaging (AMP), said:

"Our strong earnings performance, reflected in double-digit Adjusted EBITDA growth in both regions, delivered a second successive outperformance against our quarterly guidance. Volume growth, strong input cost recovery and lower plant operating costs drove sequentially improved Adjusted EBITDA growth. Strong performance in Europe underpinned our outperformance in the quarter and continued growth in the region gives us the confidence to improve our guidance range for Adjusted EBITDA growth in 2024."

- Global beverage can shipments grew 3% in the quarter driven by strong growth of 5% in Europe, with Americas growth of 1%. North America grew by 3%, versus a strong prior year comparable, supported by contracted new volumes. Brazil volumes were impacted by temporary customer mix effects, during off-season, as the industry backdrop continues to strengthen.
- Adjusted EBITDA of \$178 million for the quarter was ahead of guidance and represented a 18% increase versus the prior year quarter.
- In the Americas Adjusted EBITDA for the quarter increased by 14% to \$99 million driven by favorable volume/mix and lower operating costs.
- In Europe Adjusted EBITDA for the quarter increased by 23% to \$79 million, principally due to favorable volume/mix and stronger input cost recovery, partly offset by higher operating costs.
- Total liquidity improved to \$405 million at June 30, 2024, ahead of expectation. Growth capex to reduce to approximately \$100 million in 2024 – in line with prior guidance - with a further reduction anticipated in 2025.
- Modest deleveraging expected in 2024, versus end 2023 position, through Adjusted EBITDA growth and lease principal repayments, with a more meaningful reduction thereafter. Full year 2024 Adjusted Free Cashflow anticipated to be broadly in line with prior expectations.
- Announcing new \$300 million secured financing commitment from Apollo directly to AMP, which will further strengthen liquidity in H2 and supplement expected seasonal cash inflows. Financing is expected to be neutral to net leverage.
- Regular quarterly ordinary dividend of 10c announced. No change to capital allocation priorities.
- 2024 outlook improved: shipments growth approaching mid-single digits % and full year 2024 Adjusted EBITDA in the range of \$640-660 million (from \$630-660 million prior guidance).
- Third quarter Adjusted EBITDA expected to be of the order of \$185 million (Q3 2023: \$171 million reported and constant currency basis).
