2. Summary of Significant Accounting Policies

Basis of Presentation

The unaudited Condensed Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for annual financial statements. In the opinion of management, all necessary adjustments (which consists of only normal recurring items) have been made to fairly present the Condensed Consolidated Financial Statements for the interim periods presented. Results of operations for the three and nine months ended **September 30, 2023** **March 31, 2024** are not necessarily indicative of the results that may be expected for the year ending **December 31, 2023** **December 31, 2024**. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**, filed with the Securities and Exchange Commission ("SEC").

The Company is an "emerging growth company" ("EGC"), as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), following the consummation of the merger of CFAC and the Company. The Company has elected to use this extended transition period for complying with new or revised accounting standards, pursuant to Section 102(b)(1) of the JOBS Act, that have different effective dates for public and private companies until the earlier of the date that it (i) is no longer an emerging growth company or (ii) affirmatively and irrevocably opts out of the extended transition periods provided by the JOBS Act. As result of this election, its consolidated financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates. The Company's status as an EGC will terminate on December 31, 2023.

Fair Value Measurements

The Company categorizes its fair value measurements according to a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are defined as follows:

GCM Grosvenor Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)
(In thousands, except share and per share amounts and where otherwise noted)

- Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and
- Level 3 – Inputs that are **unobservable**. **unobservable** and require significant management judgment or estimation.

GCM Grosvenor Inc.

(In thousands, except share and per share amounts and where otherwise noted)

Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available under the circumstances.

The carrying amounts of cash and cash equivalents and fees receivable approximate fair value due to the immediate or short-term maturity of these financial instruments.

Investments

Investments primarily consist of investments in GCM Funds and other funds the Company does not control, but is deemed to exert significant influence, and are generally accounted for using the equity method of accounting. Under the equity method of accounting, the Company records its share of the underlying income or loss of such entities, which reflects the net asset value of such investments. Management believes the net asset value of the funds is representative of fair value. The resulting gains and losses are included as investment income (loss) in the Condensed Consolidated Statements of Income (Loss).

The Company's equity method investments in the GCM Funds investing in private equity, real estate and infrastructure ("GCM PEREI Funds") are valued based on the most recent available information, which typically has a delay of up to three months due to the timing of financial information received from the investments held by the GCM PEREI Funds. The Company records its share of capital contributions to and distributions from the GCM PEREI Funds within investments in the Condensed Consolidated Statements of Financial Condition during the three-month lag period. To the extent that management is aware of material events that affect the GCM PEREI Funds during the intervening period, the impact of the events would be disclosed in the notes to the Condensed Consolidated Financial Statements.

Certain subsidiaries which hold the general partner capital interest in the GCM Funds are not wholly owned, and as such, the portion of the Company's investments owned by limited partners in those subsidiaries are reflected within noncontrolling interests in the Condensed Consolidated Statements of Financial Condition.

For certain other debt investments, the Company has elected the fair value option. Such election is irrevocable and is made at the investment level at initial recognition. The debt investments are not publicly traded and are a Level 3 fair value measurement. For investments carried at fair value, the Company records the increase or decrease in fair value as investment income in the Condensed Consolidated Statements of Income (Loss). See Note 5 for additional information regarding the Company's other investments.

Money Market Funds

Money market funds are valued using quoted market prices and are included in cash and cash equivalents in the Condensed Consolidated Statements of Financial Condition.

Interest Rate Derivatives

Management determines the fair value of its interest rate derivative agreement based on the present value of expected future cash flows based on observable future rates applicable to each swap contract using linear interpolation, inclusive of the risk of non-performance, using a discount rate appropriate for the duration. See Note 12 for additional information regarding interest rate derivatives.

Other Investments

Investments in the subordinated notes of a structured alternatives investment solution are not publicly traded and are classified as Level 3. Management determines the fair value of these other investments using a discounted cash flow analysis ("Cash Flow Analysis"), which includes assumptions regarding the expected deployment and realization timing of private investments. The position was classified as Level 3 as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023** because of the use of significant unobservable inputs in the Cash Flow Analysis as follows:

(1) In determining these inputs, management considers the following factors including, but not limited to: liquidity, estimated yield, capital deployment, diversified multi-strategy appreciation, expected net multiple of investment capital across Private Assets investments, annual operating expenses, as well as investment guidelines such as concentration limits, position size, and investment periods.

(2) Unless otherwise noted, this column represents the directional change in fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

(3) The discount rate was based on the relevant benchmark rate, spread, and yield migrations on related securitized assets.

(4) Inputs were weighted based on actual and estimated expected return included in the range.

(5) Inputs were weighted based on the actual and estimated commitments to the respective private asset investments included in the range.

Private Warrants

The private warrants were classified as Level 3 as of ~~September 30, 2023~~ March 31, 2024 and ~~December 31, 2022~~ December 31, 2023 because of the use of significant unobservable inputs in the valuation, however the overall private warrant valuation and change in fair value are not material to the Condensed Consolidated Financial Statements.

As of **December 31, 2022** **December 31, 2023**, the total authorization was **\$90.0** **\$115** million, excluding fees and expenses. During the nine months ended September 30, 2023, the Company also repurchased 564,189 shares of Class A common stock for \$4.5 million, or an average of \$7.94 per share. Other than the deemed repurchases described above, the Company did not repurchase shares of Class A common stock during the three months ended **September 30, 2023** **March 31, 2024**. As of **September 30, 2023** **March 31, 2024**, the Company had \$40.2 \$65.0 million remaining under the stock repurchase plan.

In April 2024, the Company repurchased 3,021,060 shares for RSUs that were settled in cash, including amounts withheld in connection with the payment of tax withholding obligations, for \$28.0 million, or an average of \$9.28 per share. 7. Warrants

The public and private warrants meet the definition of a derivative under ASC 815 and the Company records these warrants as liabilities in the Condensed Consolidated Statements of Financial Condition at fair value, with subsequent changes in their respective fair values recorded in the change in fair value of warrant liabilities within the Condensed Consolidated Statements of Income (Loss) at each reporting date.

Each public warrant entitles the registered holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment. The warrants expire 5 years after the consummation of the Transaction, or earlier upon redemption or liquidation. The public warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock, upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be redeemable by the Company so long as they are held by CF Sponsor, Holdings or their permitted transferees. CF Sponsor, Holdings or their permitted transferees, have the option to exercise the private placement warrants on a cashless basis.

The following table shows public and private No warrants outstanding for the three and nine months ended September 30, 2023:

	Public Warrants	Private Warrants	Total
Outstanding	16,784,970	900,000	17,684,970

There were no warrant exercises exercised or repurchases repurchased during the three and nine months ended September 30, March 31, 2024 and 2023. The Company had 16,784,970 of public warrants and 900,000 of private warrants outstanding as of each of March 31, 2024 and December 31, 2023.

8. Variable Interest Entities

The Company consolidates certain VIEs in which it is determined that the Company is the primary beneficiary.

The Company holds variable interests in certain entities that are VIEs which are not consolidated, as it is determined that the Company is not the primary beneficiary. The Company's involvement with such entities is generally in the form of direct equity interests in, and fee arrangements with, the entities in which it also serves as the general partner or managing member. The Company evaluated its variable interests in the VIEs and determined it is not considered the primary beneficiary of the entities primarily because it does not have interests in the entities that could potentially be significant. No reconsideration events that caused a change in the Company's consolidation conclusions occurred during either the **nine** three months ended **September 30, 2023** **March 31, 2024** or the year ended **December 31, 2022** **December 31, 2023**. As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, the total unfunded commitments from the special limited partner and general partners to the unconsolidated VIEs were \$40.2 million \$41.8 million and \$41.1 million \$42.1 million, respectively. These commitments are the primary source of financing for the unconsolidated VIEs.

The following table sets forth certain information regarding the VIEs in which the Company holds a variable interest but does not consolidate. The Company's maximum exposure to loss relating to non-consolidated VIEs as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023** were as follows:

Partnership Interest in Holdings, Holdings II and Management LLC

Payments and settlements for partnership interest awards to the employees are made by GCMH Equityholders. As a result, the Company records a non-cash profits interest compensation charge and an offsetting deemed contribution to equity (deficit) to reflect the payments or settlements made or owed by the GCMH Equityholders. Since payments or settlements are made by Holdings, Holdings II and Management LLC, the expense that is pushed down to GCMH and the offsetting deemed contribution are each attributed solely to noncontrolling interests in GCMH. Any liability related to the awards is recognized at Holdings, Holdings II or Management LLC as Holdings, Holdings II or Management LLC is the party responsible for satisfying the obligation, and is not shown in the Company's Condensed Consolidated Financial Statements. The Company has recorded deemed contributions to equity (deficit) from Holdings, Holdings II and Management LLC of approximately \$15.0 million \$30.0 million and \$7.3 million \$11.1 million for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$89.2 million and \$21.5 million for the nine months ended September 30, 2023 and 2022, 2023, respectively, for partnership interest-based compensation expense which was or will ultimately be paid or settled by Holdings, Holdings II or Management LLC.

GCMH Equityholders have modified awards to certain individuals upon their voluntary retirement or intention to retire as employees. These awards generally include a stated target amount that, upon payment, terminates the recipient's rights to future distributions and allows for a lump sum buy-out of the awards, at the discretion of the managing member of Holdings, Holdings II, and Management LLC. The awards are accounted for as partnership interest-based compensation at the fair present value of these expected future payments, in the period the employees accepted the offer. ~~No~~ The Company recognized \$18.5 million in partnership interest-based compensation expense related to award modifications for the three months ended March 31, 2024 and none was recognized for the three and nine months ended September 30, 2023 (other than March 31, 2023).

The liability associated with awards that contain a stated target has been retained by Holdings as of March 31, 2024 and December 31, 2023 and is re-measured at each reporting date, with any corresponding changes in liability being reflected as

GCM Grosvenor Inc.

discussed for the Holdings Awards below) and \$1.6 million and \$4.7 million was recognized for the three and nine months ended September 30, 2022.

The liability associated with awards that contain a stated target has been retained by Holdings as of September 30, 2023 and December 31, 2022 and is re-measured at each reporting date, with any corresponding changes in liability being reflected as employee compensation and benefits expense of the Company. No recipients had unvested stated target payments as of September 30, 2023. Certain recipients had unvested stated target payments each of \$1.6 million as of September 30, 2022, which was not reflected as employee compensation March 31, 2024 and benefits expense by the Company as of September 30, 2022 2023. The Company recognized partnership interest-based compensation expense of \$3.7 million \$2.4 million and \$5.6 million \$5.7 million for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$17.9 million and \$16.6 million for the nine months ended September 30, 2023 and 2022, 2023, respectively, related to profits interest awards that are in substance profit-sharing arrangements.

GCMH Equityholders Awards

In the year ended December 31, 2022, GCMH Equityholders entered into agreements that will transfer equity ownership between certain existing employee members of the GCMH Equityholders ("GCMH Equityholders Awards"). The GCMH Equityholders Awards will entitle recipients to receive Class A common stock upon vesting. The non-cash awards serve to transfer equity ownership from existing GCMH Equityholders to other existing member employees upon vesting. The GCMH Equityholders Awards do not dilute Class A common stockholders and do not impact cash flows of the Company. The GCMH Equityholders Awards are accounted for under ASC 718, Compensation—Stock Compensation. The awards generally will vest in May 2025 and do not entitle the recipients to dividends or distributions made on Class A common stock during the vesting period. As such, the fair value of the GCMH Equityholders Awards is based on the closing price of Class A common stock on the accounting grant date less the present value of dividends expected to be paid during the vesting period. GCMH Equityholders can settle the awards upon at various dates after vesting by exchanging outstanding GCMH common units or by otherwise acquiring and delivering Class A common stock, and therefore the vesting of such awards will not dilute Class A common stockholders. The GCMH Equityholders Awards therefore have no economic impact on Class A common stockholders. As such, the expense that is pushed down to GCMH and the offsetting deemed contribution are each attributed solely to noncontrolling interests in GCMH, consistent with the accounting for payments to employees described above. The GCMH Equityholders Awards of 7,169,415 units had an aggregate grant date fair value of \$53.4 million, or an average grant date fair value of \$7.45 per unit. The Company recognized partnership interest-based compensation expense related to the GCMH Equityholders Awards of \$5.5 million and \$16.4 million \$5.4 million for the three and nine months ended September 30, March 31, 2024 and 2023, respectively, respectively. As of September 30, 2023 March 31, 2024, total unrecognized compensation expense related to unvested GCMH Equityholders Awards was \$34.6 \$23.7 million and is expected to be recognized over the remaining weighted average period of 1.61.1 years.

Holdings Awards

On May 9, 2023, Holdings entered into amended and restated participation certificates with existing employee members ("Holdings Awards"). The Holdings Awards entitle recipients to a stated percentage, or minimum allocable share, of distributions from Holdings, as well as a profits interest with respect to net sale proceeds from dispositions of Holdings properties after certain threshold distributions to other members. Pursuant to ASC 505, the Holdings Awards will be recognized as compensation expense with a corresponding deemed contribution and are accounted for under ASC 718, Compensation—Stock Compensation as the awards have characteristics that are more akin to the risks and rewards of equity ownership in Holdings. These awards do not dilute Class A common stockholders and therefore have no economic or impact on Class A common stockholders. net cash flows of the Company.

Certain of these existing employee members were previously awarded target amounts that entitled them to a stated percentage, or minimum allocable share, of distributions from Holdings until they received a sum certain. Those target amounts represented by those sums, which were previously recorded as partnership interest-based compensation, were reduced to zero in the amended and restated participation certificates. As a result, target amounts that were previously recorded as partnership interest-based compensation were reversed, while partnership interest-based compensation associated with the amended and restated participation certificates is recorded.

The Holdings Awards had an aggregate grant date fair value of \$155.5 million, which was partially offset when recognized in expense by \$80.0 million target amounts reversed during the year ended December 31, 2023. The fair value of the Holdings Awards was determined by a third-party valuation firm utilizing a discounted cash flow analysis for the minimum allocable share and a Monte Carlo simulation valuation model for the profits interest with respect to net sale proceeds from dispositions of Holdings

properties after the threshold distributions. Significant valuation inputs and assumptions included Holdings projected financial information and distributions, an estimated 10 year holding period, a 15.4% cost of equity, a 13.0% weighted average cost of capital, a 35% volatility assumption, the likelihood of a defined conversion event, a 40% discount for lack of marketability, and the fair value of reference properties that determine the threshold distributions for the profits interest with respect to net sale proceeds. The resulting fair value of the Holdings Awards is pushed down from Holdings to the Company and recorded as compensation expense. A portion of the Holdings Awards were vested upon grant, resulting in immediate expense recognition. The Company recognized partnership interest-based compensation expense related to the Holdings Awards of \$5.8 million and \$54.9 million for the three and nine months ended September 30, 2023, which is net of \$80.0 million target amounts reversed during the nine months ended September 30, 2023. On February 24, 2021, the Company completed an amendment and extension of its Senior Loan to further extend the maturity ("Amended Credit Agreement"). Approximately \$290.0 million of the aggregate principal amount of the Senior Loan was extended from a maturity date of March 29, 2025 to a maturity date of February 24, 2028. On June 23, 2021, the Company further amended its Senior Loan to increase the aggregate principal amount from \$290.0 million to \$400.0 million (as extended and increased, the "2028 Term Loans"). The Company capitalized \$0.9 million and \$2.2 million of debt issuances costs related to payments to lenders in connection with the amendments and extension of its Senior Loan in February and June 2021, respectively, which were recorded within debt in the Consolidated Statements of Financial Condition.

Since and beginning on June 30, 2021, quarterly principal payments of \$1.0 million are required to be made toward the 2028 Term Loans beginning June 30, 2021 (less any reduction for prior or future voluntary or mandatory prepayments of principal). Through June 30, 2023, the 2028 Term Loans had an interest rate of 2.50% over the LIBOR, subject to a 0.50% LIBOR floor. On June 29, 2023, the Company entered into Amendment No. 7 to the Credit Agreement to incorporate changes for the contemplated transition to the Term Secured Overnight Financing Rate ("Term SOFR"), and on July 1, 2023, in conjunction with a Benchmark Transition Event, the interest rate defaulted to the Term SOFR plus a Benchmark Replacement Adjustment of 0.11% as recommended by the Relevant Governmental Body (all terms as defined in the Amended Credit Agreement).

In addition to the scheduled principal repayments, the Company is required to offer to make prepayments of Consolidated Excess Cash Flow ("Cash Flow Payments") no later than five days following the date the quarterly financial statements are due if the leverage ratio exceeds 2.50x, certain thresholds in the Amended Credit Agreement. The Cash Flow Payments

As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, \$390.0 million \$388.0 million and \$393.0 million \$389.0 million of 2028 Term Loans were outstanding, respectively, with weighted average interest rates of 7.47% 7.95% and 3.65% 7.03% for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively.

Under the credit and guaranty agreement governing the terms of the Senior Loan, the Company must maintain certain leverage and interest coverage ratios. The credit and guaranty agreement also contains other covenants that, among other things, restrict the ability of the Company and its subsidiaries to incur debt and restrict the Company and its subsidiaries ability to merge or consolidate, or sell or convey all or substantially all of the Company's assets. As of September 30, 2023 March 31, 2024, the Company was in compliance with all covenants.

GCMH Equityholders and IntermediateCo have executed a pledge agreement ("Pledge Agreement") and security agreement ("Security Agreement") with the lenders of the Senior Loan. Under the Pledge Agreement, GCMH Equityholders and IntermediateCo have agreed to secure the obligations under the Senior Loan by pledging its interests in GCMH as collateral against the repayment of the senior secured notes, Senior Loan, and GCMH has agreed to secure the obligations under the Senior Loan by granting a security interest in and continuing lien on the collateral described in the Security Agreement. The Pledge Agreement and Security Agreement will remain in effect until such time as all obligations relating to the Senior Loan have been fulfilled. fulfilled

Credit Facility

Concurrent with the issuance of the Senior Loan, the Company entered into a \$50.0 million revolving credit facility ("Credit Facility"). The Credit Facility matures on February 24, 2026 and carries an unused commitment fee that is paid quarterly. There were no outstanding borrowings related to the Credit Facility as of each of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023.

The carrying value of the Senior Loan, excluding the unamortized debt issuance costs presented as a reduction to the principal balance, approximated the fair value as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023. As the Senior Loan was not accounted for at fair value, it was not included in the Company's fair value hierarchy in Note 5, however had it been included, it would have been classified in Level 2.

As general partner of a GCM Fund organized as a limited partnership, the Company's subsidiaries that serve as the general partner have exposure to risk of loss that is not limited to the amount of its investment in such GCM Fund. The Company cannot predict the amount of loss, if any, which may occur as a result of this exposure; however, historically, the Company has not incurred any significant losses and management believes the likelihood is remote that a material loss will occur.

The Company has a sublease agreement with Holdings. Because the terms of the sublease are identical to the terms of the original lease, there is no impact to net income loss in the Condensed Consolidated Statements of Income (Loss) or Condensed Consolidated Statements of Cash Flows.

The Company incurs certain costs, primarily related to accounting, client reporting, investment-decision making and treasury-related expenditures, for which it receives reimbursement from the GCM Funds in connection with its performance obligations to provide investment management services. The Company also incurs certain costs, primarily related to employee benefits and travel, for which it receives reimbursement from Holdings. Due from related parties in the Condensed Consolidated Statements of Financial Condition includes net receivables from GCM Funds of \$12.5 million \$10.2 million and \$13.0 million \$13.5 million and from Holdings of less than \$0.1 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively, paid on behalf of affiliated entities that are reimbursable to the Company.

Our executive officers, senior professionals, and certain current and former employees and their families invest on a discretionary basis in GCM Funds, and such investments are generally not subject to management fees and performance fees. As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, such investments and future commitments were \$387.7 million \$405.8 million and \$366.2 million \$377.5 million in aggregate, respectively.

Certain employees of the Company have an economic interest in an entity that is the owner and landlord of the building in which the principal headquarters of the Company are located.

The Company utilizes the services of an insurance broker to procure insurance coverage, including its general commercial package policy, workers' compensation and professional and management liability coverage for its directors and officers. Certain members of Holdings have an economic interest in, and relatives are employed by, the Company's insurance broker.

From time to time, certain of the Company's executive officers utilize a private business aircraft, including an aircraft wholly owned or controlled by members of Holdings. Additionally, the Company arranges for the use of the private business aircraft through a number of charter services, including entities predominantly or wholly owned or controlled by members of Holdings. The Company paid, net of reimbursements, \$0.5 million and \$0.6 million for the three months ended September 30, 2023 and 2022, respectively, and \$2.0 million for each of the nine months ended September 30, 2023 and 2022, March 31, 2023 to utilize aircraft and charter services wholly owned or controlled by members of Holdings, which is recorded within general, administrative and other in the Condensed Consolidated Statements of Income (Loss). The Company had no such payments for the three months ended March 31, 2024.

In an internal restructuring effective January 1, 2024, GCMH acquired from its general partner, IntermediateCo, the equity interests in GCM, L.L.C. held by IntermediateCo for cash consideration in the amount of approximately \$2.0 million. The transaction was completed in accordance with the terms of a transfer agreement. IntermediateCo, a wholly owned subsidiary of GCM Grosvenor Inc., acquired GCM, L.L.C. in connection with the Transaction for nominal consideration and continues to control GCM, L.L.C. indirectly as general partner of GCMH.

15. Income Taxes

The Company's effective tax rate used for interim periods is based on the tax effect of items recorded discretely in the interim period in which those items occur. The effective tax rate is dependent on many factors, including the estimated amount of income subject to income tax and allocation of tax benefit to noncontrolling interest; therefore, the effective tax rate can vary from period to period. The Company evaluates the realizability of its deferred tax asset on a quarterly basis and adjusts the valuation allowance when it is expected a portion of the deferred tax asset may not be realized.

The Company's effective tax rate was 16% (6)% and (3)% for each of the three months ended September 30, 2023 March 31, 2024 and 2022 and (21)% and 9% for the nine months ended September 30, 2023 and 2022, 2023, respectively. These rates were different than the statutory rate primarily due to the portion of income allocated to the noncontrolling interest holders, a valuation allowance recorded against deferred tax assets and discrete tax adjustments recorded in the periods.

As of **September 30, 2023** **March 31, 2024**, the Company had no unrecognized tax positions and believes there will be no changes to uncertain tax positions within the next 12 months.

On August 16, 2022, the IRA was signed into law. In general, the provisions of the IRA will be effective beginning with the fiscal year 2023, with certain exceptions. The IRA includes a new 15% corporate minimum tax as well as a 1% excise tax on corporate stock repurchases completed after December 31, 2022. As required under the authoritative guidance of ASC 740, *Income Taxes*, the Company reviewed the impact on income taxes due to the change in legislation and concluded there was no impact to the financial statements as of September 30, 2023. The Company is in the process of evaluating the potential future impacts of the IRA, and while we do not expect a material impact from this legislation on our Condensed Consolidated

When applying the if-converted method to calculate the potential dilutive impact of the exchangeable common units of the Partnership, the earnings (loss) per share numerator adjustment reflects the net income (loss) attributable to noncontrolling interests in GCMH, as reported, adjusted for the hypothetical incremental provision (benefit) for income taxes that would have been recorded by the Company if the units had been converted.

Shares of the Company's Class C common stock do not participate in the earnings or losses of the Company and are therefore not participating securities. As such, a separate presentation of basic and diluted earnings (loss) per share of Class C common stock under the two-class method has not been presented.

The following outstanding potentially dilutive securities were excluded from the calculations of diluted earnings (loss) per share attributable to common stockholders because their impact would have been antidilutive for the periods presented:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with the Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023. This discussion contains forward-looking statements that reflect our plans, estimates, and beliefs that involve risks and uncertainties. As a result of many factors, such as those set forth under the "Risk Factors" section of Part I, Item 1A in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023, and under the "Forward-Looking Statements" section elsewhere in this Quarterly Report on Form 10-Q, our actual results may differ materially from those anticipated in these forward-looking statements.

Overview

We are a leading alternative asset management solutions provider that invests across all major alternative investment strategies. We invest on a primary secondary, co-investment basis and through direct-oriented strategies, which we define as secondaries, co-investments, direct basis, investments and seed investments. We operate customized separate accounts and commingled funds. We collaborate with our clients to invest on their behalf across the private and public markets, either through portfolios customized to meet a client's specific objectives or through specialized commingled funds that are developed to meet broad market demands for strategies and risk-return objectives.

We operate at scale across the full range of private markets and absolute return strategies. Private markets and absolute return strategies are primarily defined by the liquidity of the underlying securities purchased, the length of the client commitment, and the form and timing of incentive fees. For private markets strategies, clients generally commit to invest over a three-year time period and have an expected duration of seven years or more. In private markets strategies, carried interest is typically based on realized gains on liquidation of the investment. For absolute return strategies, the securities tend to be more liquid, clients have the ability to redeem assets more regularly, and performance fees can be earned on an annual basis. We offer the following investment strategies:

- Private Equity
- Infrastructure
- Real Estate
- Absolute Return Strategies
- Alternative Credit
- ESG Sustainable and Impact Strategies Investing

Our clients include large, sophisticated, global institutional investors who rely on our investment expertise and differentiated investment access to navigate the alternatives market, but also include a growing non-institutional individual investor client base. As one of the pioneers of the customized separate account solutions, we are equipped to provide investment services to clients with a wide variety of needs, internal resources and investment objectives, and our client relationships are deep and frequently span decades.

Trends Affecting Our Business

As a global alternative asset manager, our results of operations are impacted by a variety of factors, including conditions in the global financial markets and economic and political environments, particularly in the United States, Europe, Asia-Pacific, Latin America and the Middle East. While economic factors, such as interest rates, can make alternative investments more or less attractive relative to other asset classes, investors have increasingly gravitated towards the returns generated by alternative investments in order to meet their return objectives. In addition, increased equity market volatility can also contribute to increased investor demand for alternative strategies. Finally, the opportunities in private markets continue to expand as firms raise new funds and launch new vehicles and products to access private markets across the globe.

In addition to the trends discussed above, we believe the following factors, among others, will influence our future performance and results of operations:

Our ability to retain existing investors and attract new investors in our funds.

Our ability to retain existing assets under management and attract new investors in our funds is partially dependent on the extent to which investors continue to favorably see the alternative asset management industry relative to traditional publicly listed equity and debt securities. A decline in the pace or the size of our fundraising efforts or investments as a result of increased competition in the private markets investing environment or a shift toward public markets may impact our revenues, which are generated from management fees and incentive fees.

Our ability to expand our business through new lines of business and geographic markets.

Our ability to grow our revenue base is partially dependent upon our ability to offer additional products and services by entering into new lines of business and by entering into, or expanding our presence in, new geographic markets. Entry into certain lines of business or geographic markets or the introduction of new types of products or services may

subject us to the evolving macroeconomic and regulatory environment of the various countries where we operate or in which we invest.

Our ability to realize investments.

Challenging market and economic conditions may adversely affect our ability to exit and realize value from our investments and we may not be able to find suitable investments in which to effectively deploy capital. During periods of adverse economic conditions, such as current geopolitical turmoil abroad and increasing elevated inflation and interest rates, our funds may have difficulty accessing financial markets, which could make it more difficult to obtain funding for additional investments and impact our ability to successfully exit positions in a timely manner. A general market downturn, a recession or a specific market dislocation may result in lower investment returns for our funds, which would adversely affect our revenues.

Our ability to identify suitable investment opportunities for our clients.

Our success largely depends on the identification and availability of suitable investment opportunities for our clients, and, in particular, the success of the investment vehicles managed by third-party investment managers in which GCM Funds invest. The availability of investment opportunities is subject to certain factors outside of our control and the control of the investment managers with which we invest for our funds, including the market environment at a given point in time. Although there can be no assurance that we will be able to secure the opportunity to invest on behalf of our clients in all or a substantial portion of the investments we select, or that the size of the investment opportunities available to us will be as large as we would desire, we seek to maintain excellent relationships with investment managers of investment funds, including those in which we have previously made investments for our clients and those in which we may in the future invest, as well as sponsors of investments that might provide co-investment opportunities in portfolio companies alongside the sponsoring fund manager. Our ability to identify attractive investments and execute on those investments is dependent on a number of factors, including the general macroeconomic environment, valuation, transaction size, and expected duration of such investment opportunity.

Our ability to generate strong competitive returns.

The ability to attract and retain clients is partially dependent on returns we are able to deliver versus client objectives, our peers, peers and industry benchmarks. The capital we are able to attract drives the growth of our assets under management and the management and incentive fees we earn. Similarly, in order to maintain our desired fee structure in a competitive environment, we must be able to continue to provide clients with investment returns and service that incentivize our investors to pay our desired fee rates.

Our ability to comply with increasing and evolving regulatory requirements.

The complex and evolving regulatory and tax environment may have an adverse effect on our business and subject us to additional expenses or capital requirements, as well as restrictions on our business operations.

Operating Segments

We have determined that we operate in a single operating and reportable segment, consistent with how our chief operating decision maker allocates resources and assesses performance.

Components of Results of Operations

Revenues

We generate revenues from management fees and incentive fees, which includes carried interest and performance fees.

Management Fees

Management Fees

We earn management fees from providing investment management services to specialized funds and customized separate account clients. Specialized funds are generally structured as partnerships or companies having multiple investors. Customized separate account clients may be structured using an affiliate-managed entity or may involve an investment management agreement between us and a single client. Certain separate account clients may have us manage assets both with full discretion over investments decisions as well as without discretion over investment decisions and may also receive access to various other advisory services the firm may provide.

Certain of our management fees, typically associated with our private markets strategies, are based on client commitments to those funds during an initial commitment or investment period. During this period fees may be charged on total commitments, on invested capital (capital committed to underlying investments) or on a ratable ramp-in of total commitments, which is meant to mirror typical invested capital pacing. Following the expiration or termination of such period, certain fees continue to be based on client commitments while others are based on invested assets or based on invested capital and unfunded deal commitments less returned capital or based on a fixed ramp down schedule.

Certain of our management fees, typically associated with absolute return strategies, are based on the NAV of those funds. Such GCM Funds either have a set fee for the entire fund or a fee scale through which clients with larger commitments pay a lower fee.

Management fees are determined quarterly and are more commonly billed in advance based on the management fee rate applied to the management fee base at the end of the preceding quarterly period as defined in the respective contractual agreements.

We provided investment management / advisory services on assets of \$76.0 billion \$78.8 billion and \$73.7 billion \$76.9 billion as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively.

Fund expense reimbursement revenue

We incur certain costs, primarily related to accounting, client reporting, investment-decision making and treasury-related expenditures, for which we receive reimbursement from the GCM Funds in connection with its our performance obligations to provide investment management services. We concluded that we control the services provided and resources used before they are transferred to the customer, and therefore we act as a principal. Accordingly, the reimbursement for these costs incurred by us are presented on a

gross basis within management fees. Expense reimbursements are recognized at a point in time, in the periods during which the related expenses are incurred and the reimbursements are contractually earned.

Incentive Fees

Incentive fees are based on the results of our funds, in the form of performance fees and carried interest income, which together comprise incentive fees.

Carried Interest

Carried interest is a performance-based capital allocation from a fund's limited partners earned by us in certain GCM Funds, more commonly in private markets strategies. Carried interest is typically a percentage of the profits calculated in accordance with the terms of fund agreements, certain fees and a preferred return to the fund's limited partners. Carried interest is ultimately realized when underlying investments distribute proceeds or are sold and therefore carried interest is highly susceptible to market factors, judgments, and actions of third parties that are outside of our control.

Agreements generally include a clawback provision that, if triggered, would require us to return up to the cumulative amount of carried interest distributed, typically net of tax, upon liquidation of those funds, if the aggregate amount paid as carried interest exceeds the amount actually due based upon the aggregate performance of each fund. We have defined the portion to be deferred as the amount of carried interest, typically net of tax, that we would be required to return if all remaining investments had no value as of the end of each reporting period. As of **September 30, 2023** **March 31, 2024**, deferred revenue relating to constrained realized carried interest was approximately \$5.6 million.

Assets under management that are subject to carried interest, excluding investments of the firm and our professionals from which we generally do not earn incentive fees, were approximately **\$41.9 billion** **\$43.8 billion** as of **September 30, 2023** **March 31, 2024**.

Performance Fees

We may receive performance fees from certain GCM Funds, more commonly in funds associated with absolute return strategies. Performance fees are typically a fixed percentage of investment gains, subject to loss carryforward provisions that require the recapture of any previous losses before any performance fees can be earned in the current period. Performance fees may or may not be subject to a hurdle or a preferred return, which requires that clients earn a specified minimum return before a performance fee can be assessed. These performance fees are determined based upon investment performance at the end of a specified measurement period, generally the end of the calendar year.

Investment returns are highly susceptible to market factors, judgments, and actions of third parties that are outside of our control. Accordingly, performance fees are variable consideration and are therefore constrained and not recognized until it is probable that a significant reversal will not occur. In the event that a client redeems from one of the GCM Funds prior to the end of a measurement period, any accrued performance fee is ordinarily due and payable by such redeeming client as of the date of the redemption.

Assets under management that are subject to performance fees, excluding investments of the firm and our professionals from which we generally do not earn incentive fees, were approximately **\$12.4 billion** **\$13.4 billion** as of **September 30, 2023** **March 31, 2024**.

Other Operating Income

Other operating income primarily consists of administrative fees from certain private investment vehicles where we perform a full suite of administrative functions but do not manage or advise and have no discretion over the capital.

Expenses

Employee Compensation and Benefits

Employee compensation and benefits primarily consists of (1) cash-based employee compensation and benefits, (2) equity-based compensation, (3) partnership interest-based compensation, (4) carried interest compensation, (5) cash-based incentive fee related compensation and (6) other non-cash compensation. Bonus and incentive fee related compensation is generally determined by our management and is discretionary taking into consideration, among other things, our financial results and the employee's performance. In addition, various individuals, including certain senior professionals have been awarded partnership interests and/or restricted stock units ("RSUs"). These partnership interests grant the recipient the right to certain cash distributions from GCMH Equityholders' profits (to the extent such distributions are authorized) and/or to certain net sale proceeds after threshold distributions, resulting in non-cash profits interest compensation expense. The Company recognizes compensation expense attributable to the RSUs on a straight-line basis over the requisite service period, which is generally the vesting period. Certain employees and former employees are also entitled to a portion of the carried interest and performance fees realized from certain GCM Funds, which is payable upon a realization of the carried interest or performance fees. The Company recognizes compensation expense attributable to the RSUs on a straight-line basis over the requisite service period, which is generally the vesting period.

General, Administrative and Other

General, administrative and other consists primarily of professional fees, travel and related expenses, IT operations, communications and information services, occupancy, fund expenses, depreciation and amortization, and other costs associated with our operations.

Net Other Income (Expense)

Investment Income (Loss)

Investment income (loss) primarily consists of gains and losses arising from our equity method investments.

Interest Expense

Interest expense includes interest paid and accrued on our outstanding debt, along with the amortization of deferred debt issuance costs incurred from debt issued by us, including the Term Loan Facility and the Revolving Credit Facility entered into by us. Interest expense also includes (1) the impact of qualifying effective cash flow hedges and (2) the amortization of realized gains or losses on interest rate swaps that initially qualified for hedge accounting and were subsequently terminated. The

unrealized gains or losses are reclassified from accumulated other comprehensive income into interest expense over the original life of the swap.

Other Income (Expense)

Other income (expense) consists primarily of other non-operating items, including write-off of unamortized debt issuance costs due to prepayments and refinancing of debt and interest income.

Change in Fair Value of Warrant Liabilities

Change in fair value of warrant liabilities are non-cash changes and consist of fair value adjustments related to the outstanding public and private warrants issued in connection with the Transaction. The warrant liabilities are classified as marked-to-market liabilities pursuant to ASC 815-40, *Derivatives and Hedging—Contracts in Entity's Own Equity*, and the corresponding increase or decrease in value impacts our net income (loss).

Provision (Benefit) for Income Taxes

We are a corporation for U.S. federal income tax purposes and therefore are subject to U.S. federal and state income taxes on our share of taxable income generated by the Company. Company and its subsidiaries. GCMH is treated as a pass-through entity for U.S. federal and state income tax purposes. As such, income generated by GCMH flows through to its partners, and is generally not subject to U.S. federal or state income tax at the partnership level. Our non-U.S. subsidiaries generally operate as corporate entities in non-U.S. jurisdictions, with certain of these entities subject to local or non-U.S. income taxes. The tax liability with respect to income attributable to noncontrolling interests in GCMH is borne by the holders of such noncontrolling interests.

Net Income (Loss) Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests in subsidiaries represents the economic interests of third parties in certain consolidated subsidiaries.

Net income (loss) attributable to noncontrolling interests in GCMH represents the economic interests of GCMH Equityholders in GCMH. Profits and losses, other than partnership interest-based compensation, are allocated to the noncontrolling interests in GCMH in proportion to their relative ownership interests regardless of their basis.

Fee-Paying AUM

FPAUM is a metric we use to measure the assets from which we earn management fees. Our FPAUM comprises the assets in our customized separate accounts and specialized funds from which we derive management fees. We classify customized separate account revenue as management fees if the client is charged an asset-based fee, which includes the vast majority of our discretionary AUM accounts. Our FPAUM for private market strategies typically represents committed, invested or scheduled capital during the investment period and invested capital following the expiration or termination of the investment period. Substantially all of our private markets strategies funds earn fees based on commitments or net invested capital, which are not affected by market appreciation or depreciation. Our FPAUM for our absolute return strategy is based on NAV, which includes impacts of any market appreciation or depreciation.

Our calculations of FPAUM may differ from the calculations of other asset managers, and as a result, this measure may not be comparable to similar measures presented by other asset managers. Our definition of FPAUM is not based on any definition that is set forth in the agreements governing the customized separate accounts or specialized funds that we manage.

Net Incentive Fees Attributable to GCM Grosvenor

Net incentive fees are used to highlight fees earned from incentive fees that are attributable to GCM Grosvenor. Net incentive fees represent incentive fees excluding (a) incentive fees contractually owed to others and (b) cash-based incentive fee

related compensation. Net incentive fees are used by management in making compensation and capital allocation decisions and we believe that they provide investors useful information regarding the amount that such fees contribute to the Company's earnings.

The following table shows reconciliations of incentive fees to net incentive fees attributable to GCM Grosvenor for the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023:

Adjusted Pre-Tax Income, Adjusted Net Income and Adjusted EBITDA

Adjusted Pre-Tax Income, Adjusted Net Income and Adjusted EBITDA are non-GAAP measures used to evaluate our profitability.

Adjusted Pre-Tax Income represents net income attributable to GCM Grosvenor Inc. including (a) net income (loss) attributable to GCMH, excluding (b) provision for income taxes, (c) changes in fair value of derivatives and warrant liabilities, (d) amortization expense, (e) partnership interest-based and non-cash compensation, (f) equity-based compensation, including cash-settled equity awards (as we view the cash settlement as a separate capital transaction), (g) unrealized investment income, (h) changes in TRA liability and (i) certain other items that we believe are not indicative of our core performance, including charges related to corporate transactions, employee severance and **New York** office relocation costs.

Adjusted Net Income represents Adjusted Pre-Tax Income fully taxed at each period's blended statutory tax rate.

Adjusted EBITDA represents Adjusted Net Income excluding (a) adjusted income taxes, (b) depreciation and amortization expense and (c) interest expense on our outstanding debt.

The Company is a holding company with no material assets other than its indirect ownership of equity interests in GCMH and certain deferred tax assets. The GCMH Equityholders may from time to time cause GCMH to redeem any or all of their GCMH common units in exchange, at the Company's election, for either cash (based on the market price for a share of the Class A common stock) or shares of Class A common stock. As such, net income (loss) attributable to noncontrolling interests in GCMH is added back in order to reflect the full economics of the underlying business as if GCMH Equityholders converted their interests to shares of Class A common stock. Other noncontrolling interests do not have the ability to convert those interests into equity interests of the Company, and as such, income (loss) attributable to these noncontrolling interests are not adjusted for in our non-GAAP financial measures.

We believe Adjusted Pre-Tax Income, Adjusted Net Income and Adjusted EBITDA are useful to investors because they provide additional insight into the operating profitability of our core business across reporting periods. These measures (1) present a view of the economics of the underlying business as if GCMH Equityholders converted their interests to shares of Class A common stock and (2) adjust for certain non-cash and other activity in order to provide more comparable results of the core business across reporting periods. These measures are used by management in budgeting, forecasting and evaluating operating results.

The following table shows reconciliations of net income attributable to GCM Grosvenor Inc. and Adjusted Pre-Tax Income, Adjusted Net Income and Adjusted EBITDA for the three and nine months ended **September 30, 2023** **March 31, 2024** and **2022**; **2023**:

Adjusted Net Income Per Share

Adjusted net income per share is a non-GAAP measure that is calculated by dividing Adjusted Net Income by adjusted shares outstanding. Adjusted shares outstanding assumes the hypothetical full exchange of limited partnership interests in GCMH into Class A common stock of GCM Grosvenor Inc., the dilution from outstanding warrants for Class A common stock of GCM Grosvenor Inc. and the dilution from outstanding equity-based compensation. We believe adjusted net income per share is useful to investors because it enables them to better evaluate per-share performance across reporting periods.

The following table shows a reconciliation of diluted weighted-average shares of Class A common stock outstanding to adjusted shares outstanding used in the computation of adjusted net income per share for the three and nine months ended September 30, 2023 March 31, 2024 and 2022: 2023:

Fee-Related Revenue and Fee-Related Earnings

Fee-Related Revenue ("FRR") is a non-GAAP measure used to highlight revenues from recurring management fees and administrative fees. FRR represents total operating revenues less (1) incentive fees and (2) fund reimbursement revenue. We believe FRR is useful to investors because it provides additional insight into our relatively stable management fee base separate from incentive fee revenues, which tend to have greater variability.

Fee-Related Earnings ("FRE") is a non-GAAP metric used to highlight earnings from recurring management fees and administrative fees. FRE represents adjusted EBITDA further adjusted to exclude (a) incentive fees and related compensation and (b) other non-operating income, and to include depreciation expense. We believe FRE is useful to investors because it provides additional insights into the management fee driven operating profitability of our business.

The following table shows reconciliations of Total Operating Revenues to Fee-Related Revenue for the three and nine months ended September 30, 2023 March 31, 2024 and 2022: 2023:

Liquidity and Capital Resources

We have historically financed our operations and working capital through net cash provided by operating activities and borrowings under our Term Loan Facility and Revolving Credit Facility (each as defined below). As of **September 30, 2023** **March 31, 2024**, we had **\$55.4 million** **\$41.9 million** of cash and cash equivalents and available borrowing capacity of \$50.0 million under our Revolving Credit Facility. On July 29, 2022, the SEC declared effective our Registration Statement on Form S-3, pursuant to which the Company may issue a combination of securities described in the prospectus in one or more offerings from time to time. Our primary cash needs are to fund working capital requirements, invest in growing our business, make investments in GCM Funds, make scheduled principal payments and interest payments on our outstanding indebtedness, pay dividends to holders of our Class A common stock, and pay tax distributions to members. Additionally, as a result of the Transaction, we need cash to make payments under the Tax Receivable Agreement. We expect that our cash flow from operations, current cash and cash equivalents and available borrowing capacity under our Revolving Credit Facility will be sufficient to fund our operations and planned capital expenditures and to service our debt obligations for the next twelve months and the foreseeable future.

We are required to maintain minimum net capital balances for regulatory purposes for **certain of our Japan, Hong Kong and United Kingdom foreign** subsidiaries as well as our U.S. broker-dealer subsidiary. These net capital requirements are met by retaining cash. As a result, we may be restricted in our ability to transfer cash between different operating entities and jurisdictions. As of **September 30, 2023** **March 31, 2024** we are in compliance with these regulatory requirements.

Indebtedness

On January 2, 2014, GCMH entered into a credit agreement (as amended, amended and restated, supplemented or otherwise modified, the "Credit Agreement") that provides GCMH with a senior secured term loan facility (the "Term Loan Facility") and a \$50.0 million revolving credit facility (the "Revolving Credit Facility" and, together with the Term Loan Facility, the "Senior Secured Credit Facilities"). Under the Revolving Credit Facility, \$15.0 million is available for letters of credit and \$10.0 million is available for swingline loans.

On February 24, 2021, we entered into an amended Credit Agreement, which among other things reduced the interest rate margin and extended the maturity dates of our Term Loan Facility. Concurrently with the amendment, we also made a voluntary prepayment on the Term Loan Facility in an aggregate principal amount of \$50.3 million. The maturity date of all of the outstanding borrowings under the Term Loan Facility is February 24, 2028, and the maturity date for the full amount of the Revolving Credit Facility is February 24, 2026.

On June 23, 2021, the Company further amended its Term Loan Facility to increase the aggregate principal amount from \$290.0 million to \$400.0 million. On June 29, 2023, the Company entered into Amendment No. 7 to the Credit Agreement to incorporate changes for the contemplated transition to the Term Secured Overnight Financing Rate ("Term SOFR"), and on July 1, 2023, in conjunction with a Benchmark Transition Event, the interest rate defaulted to the Term SOFR plus a

Benchmark Replacement Adjustment as recommended by the Relevant Governmental Body (all terms as defined in the Amended Credit Agreement). As of ~~September 30, 2023~~ March 31, 2024, GCMH had borrowings of ~~\$390.0 million~~ \$388.0 million outstanding under the Term Loan Facility and no outstanding balance under the Revolving Credit Facility. As of ~~September 30, 2023~~ March 31, 2024, we had available borrowing capacity of \$50.0 million under our Revolving Credit Facility.

See Note 11 of our Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q for a summary of our outstanding indebtedness.

The terms of the Company's current debt instruments contain covenants that may restrict the Company and its subsidiaries from paying distributions to its members. As a holding company, we are dependent upon the ability of GCMH to make distributions to its members, including us. However, the ability of GCMH to make such distributions is subject to its operating results, cash requirements and financial condition, restrictive covenants in our debt instruments and applicable Delaware law. These restrictions include restrictions on the payment of distributions whenever the payment of such distributions would cause GCMH to no longer be in compliance with any of its financial covenants under the Term Loan Facility. Absent an event of default under the Credit Agreement governing the terms of the Term Loan Facility, GCMH may make unlimited distributions when the Total Leverage Ratio (as defined in the Credit Agreement) is below ~~2.75x~~ stated thresholds. As of ~~September 30, 2023~~ March 31, 2024, the Total Leverage Ratio was below ~~2.75x~~ such stated thresholds and the Company was in compliance with all financial covenants.

See Note 12 of our Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q for a summary of our interest rate derivatives to hedge interest rate risk related to the Company's outstanding indebtedness. Effective November 1, 2022, the Company terminated the existing interest rate derivatives and received \$40.3 million of cash for the fair market value of the swaps at termination. Also effective on November 1, 2022, the Company entered into a new swap agreement to hedge interest rate risk related to the outstanding indebtedness that has a notional amount of \$300 million and a fixed rate of 4.37%.

Dividend Policy

We are a holding company with no material assets other than our indirect ownership of equity interests in GCMH and certain deferred tax assets. As such, we do not have any independent means of generating revenue. However, management of GCM Grosvenor expects to cause GCMH to make distributions to its members, including us, in an amount at least sufficient to allow us to pay all applicable taxes, to make payments under the Tax Receivable Agreement, and to pay our corporate and other overhead expenses. On November 7, 2023 May 6, 2024, we GCMG's Board of Directors declared a quarterly dividend of \$0.11 per share of Class A common stock to record holders as of the close of business on December 1, 2023 June 3, 2024. The payment date will be December 15, 2023 June 17, 2024. The payment of cash dividends on shares of our Class A common stock in the future, in this amount or otherwise, will be within the discretion of GCMG's Board of Directors at such time.

Stock Repurchase Plan

On August 6, 2021, GCMG's Board of Directors authorized a stock repurchase plan which may be used to repurchase the Company's outstanding Class A common stock and warrants to purchase Class A common stock. Our Class A common stock and warrants may be repurchased from time to time in open market transactions, in privately negotiated transactions, including with employees or otherwise, pursuant to the requirements of Rule 10b5-1 and Rule 10b-18 of the Exchange Act, as well as to retire (by cash settlement or the payment of tax withholding amounts upon net settlement) equity-based awards granted under our 2020 Incentive Award Plan, as amended and restated (and any successor plan thereto), with the terms and conditions of these repurchases depending on legal requirements, price, market and economic conditions and other factors. We are not obligated under the terms of the program to repurchase any of our Class A common stock or warrants, the program has no expiration date and we may suspend or terminate the program at any time without prior notice. Any shares of Class A common stock and any warrants repurchased as part of this program will be canceled. GCMG's Board of Directors has made subsequent increases to

its stock repurchase authorization for shares and warrants. As of December 31, 2022 December 31, 2023, the total authorization was \$90.0 \$115.0 million, excluding fees and expenses. On August 8, 2023 February 8, 2024, GCM Grosvenor's GCMG's Board of Directors increased the firm's existing share repurchase authorization by \$25 million, from \$90.115 million to \$115 \$140 million.

For the nine three months ended September 30, 2023 March 31, 2024, we spent \$25.8 million \$0.1 million to reduce Class A shares to be issued to employees to satisfy tax obligations in connection with the settlement of RSUs. We also spent \$4.5 million during the nine months ended September 30, 2023 to repurchase No shares of Class A common Stock. No stock or warrants were repurchased during the three and nine three months ended September 30, 2023 March 31, 2024. As of September 30, 2023 March 31, 2024, \$40.2 million \$65.0 million remained available under our stock repurchase plan.

In April 2024, the Company repurchased 3,021,060 shares for RSUs that were settled in cash, including amounts withheld in connection with the payment of tax withholding obligations, for \$28.0 million, or an average of \$9.28 per share. As of April 30, 2024, the Company had \$37.0 million remaining under the stock repurchase plan.

We review our capital return plan on an on-going basis, considering our financial performance and liquidity position, investments required to execute our strategic plans and initiatives, acquisition opportunities, the economic outlook, regulatory changes and other relevant factors. As these factors may change over time, the actual amounts expended on repurchase activity, dividends, and acquisitions, if any, during any particular period cannot be predicted and may fluctuate from time to time.

Tax Receivable Agreement

Exchanges of Grosvenor common units by limited partners of GCMH will result in increases in the tax basis in our share of the assets of GCMH and its subsidiaries that otherwise would not have been available. These increases in tax basis are expected to increase our depreciation and amortization deductions and create other tax benefits, and therefore may reduce the amount of tax that we would otherwise be required to pay in the future. The Tax Receivable Agreement requires us to pay 85% of the amount of these and certain other tax benefits, if any, that we realize (or are deemed to realize in certain circumstances) to the TRA Parties. As of September 30, 2023 March 31, 2024, the amount payable to related parties pursuant to the Tax Receivable Agreement was \$55.4 million \$53.8 million.

Contractual Obligations, Commitments and Contingencies

In June 2023, January 2024, the Company executed an agreement to lease office space for its New York office which will replace the existing New York office United Kingdom space. See Note 13 in the notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q for a summary of the lease payments. There are no other material changes outside of the ordinary course of business in our contractual obligations, commitments and contingencies from those disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023.

Critical Accounting Policies

The preparation of our Condensed Consolidated Financial Statements requires us to make estimates that affect the reported amounts of assets, liabilities, revenue and expenses. We base our judgments on our historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making estimates about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

For a more complete discussion of the accounting judgments and estimates that we have identified as critical in the preparation of our Condensed Consolidated Financial Statements, please refer to Note 2 in the notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Our critical accounting policies are more fully described under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023. There have been no material changes to our risk factors since our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Recent Accounting Pronouncements

Information regarding recent accounting developments and their impact on our results can be found in Note 2 in the notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, we are exposed to a broad range of risks inherent in the financial markets in which we participate, including price risk, interest-rate risk, access to and cost of financing risk, liquidity risk, counterparty risk and foreign exchange-rate risk. Potentially negative effects of these risks may be mitigated to a certain extent by those aspects of our investment approach, investment strategies, fundraising practices or other business activities that are designed to benefit, either in relative or absolute terms, from periods of economic weakness, tighter credit or financial market dislocations.

Our predominant exposure to market risk is related to our role as general partner or investment manager for our funds and the sensitivity to movements in the fair value of their investments, which may adversely affect our investment income, management fees, and incentive fees, as applicable.

There have been no material changes in our market risks during the **nine** three months ended **September 30, 2023** **March 31, 2024**. For additional information, refer to our Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** **December 31, 2023**.

ITEM 4. CONTROLS AND PROCEDURES

Limitations on effectiveness of controls and procedures

In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Evaluation of disclosure controls and procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated, as of the end of the period covered by this Quarterly Report on Form 10-Q, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of **September 30, 2023** **March 31, 2024**.

Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended **September 30, 2023** **March 31, 2024** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are a defendant in various lawsuits related to our business. We do not believe that the outcome of any current litigation will have a material effect on our condensed consolidated statements of financial condition or statements of income.

In the normal course of business, we may enter into contracts that contain a number of representations and warranties, which may provide for general or specific indemnifications. The Company's exposure under these contracts is not currently known, as any such exposure would be based on future claims, which could be made against us. We are not currently aware of any such pending claims and based on our experience, we believe the risk of loss related to these arrangements to be remote.

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors since our Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** **December 31, 2023**.
